of Division 10 is added to the Welfare and Institutions Code, to read:

**CHAPTER 8.5. PILOT COMPREHENSIVE SERVICES CENTER FOR THE DISABLED**

19810. The purpose of this chapter is to study the feasibility and to plan for the establishment of pilot projects which would alter the delivery of services to the severely disabled through a system of comprehensive service centers. Pilot projects, which shall be contingent upon approval of the feasibility study conducted pursuant to this chapter, and future budget appropriations would develop, through established information gathering and evaluation systems, information about effective methods:

(a) To provide for optimum utilization of important community social, vocational, and health related resources to assist severely disabled individuals to obtain and maintain the maximum level of independent living in the mainstream of the community.

(b) To provide the most efficient and effective use of public funds in the delivery of these social, vocational, and health related services.

(c) To coordinate, integrate, and link these social, vocational, and health related services by removing obstacles which impede or limit improvements in delivery of these services.

(d) To allow the state substantial flexibility in organizing or administering the delivery of social, vocational, and health related services to its severely disabled citizens and provide for the redirection of state resources under the jurisdiction of the Health and Welfare Agency in order to provide for centralized case management responsibility with the pilot project organization for the purpose of referral, assessment and provision of services to severely disabled clients.

19811. "Agency" means the Health and Welfare Agency.

"Disabled individual" means a person with severe physical or sensory disabilities requiring independent living services in order to allow the individual to obtain or maintain employment or live independently in the family and community.

"Comprehensive services center for the disabled" means a coordinated, integrated system of delivery, or contracting, of one or more of the following social, vocational, and health related services designed for severely disabled persons: peer counseling, client advocacy, attendant care, housing assistance, information and referral, transportation, job development, equipment maintenance and evaluation, training in independent living skills, mobility assistance, vocational and other training services including personal and social adjustment for improving individual ability to live and function more independently, health maintenance activities, communications, and other such services.

"Department" means the Department of Rehabilitation.

"Independent living center" is defined pursuant to Section 19801.

19812. In addition to its other powers, the agency shall have the

powers of a head of a department pursuant to Chapter 2 (commencing with Section 11150) of Part 1 of Division 3 of Title 2 of the Government Code.

To the extent permitted by federal law, each department within the agency, including departments designated as single state agencies for the programs established pursuant to this chapter, shall waive regulations and general policies and make resources available which are necessary for the administration of this chapter, upon request of the agency.

The agency shall request and secure such waivers of single state agency requirements as are necessary under the Federal Intergovernmental Cooperation Act of 1968 (P.L. 90-577), and such other federal requirements as are necessary in order to utilize available federal funds.

The provisions of this chapter shall be administered by the Department of Rehabilitation.

19813. The department shall, through consultation with community based independent living centers, develop administrative and program standards and regulations for the development and provision of services. The department shall also formulate criteria for pilot comprehensive service centers for the disabled. The criteria shall include, but not be limited to, the following:

(a) Development and provision of social, vocational, and health related services.

(b) Specifications for the quality of such social, vocational, and health related services.

(c) Coordination and integration of the social, vocational, and health related services described in Section 19811.

(d) Access to as many services specified in Section 19811 as possible in a center known as a comprehensive center for the disabled.

(e) Coordination with local governmental agencies concerned with comprehensive services for persons with disabilities.

(f) Coordination with other community based service providers to insure where appropriate that their services are used or contracted for rather than duplicated or replaced.

(g) Specifications for the evaluation of the proposals submitted for the pilot projects and for the evaluation of the pilot projects. The evaluation of the pilot projects shall measure the effectiveness and the efficiency of the projects. Specifically the evaluation shall include, but not be limited to:

(1) The number and description of disabled individuals by disability, who receive services from the pilot project centers;

(2) The range of problems presented by the individuals serviced, and the services provided in response to those problems;

(3) The number of individuals who moved from an institutional setting to a more independent setting by type of setting;

(4) The number of individuals who entered vocational

rehabilitation or employment;

(5) The impact of the services on medical and supportive service costs;

(6) The impact or benefits of the services on the disabled individuals participation in family and community activities;

(7) The cost and savings to the General Fund and other public funds of providing the services;

(8) The cost effectiveness of the services provided;

(9) The effectiveness of data collection and output for program evaluation purposes;

(10) Other sources of funding independent living centers; and

(11) Other information specified by the department.

The department may enter into interagency agreements with other state agencies, independent living centers and such other consultants as deemed appropriate by the Health and Welfare Agency for purposes of planning, evaluation, site selection and such other factors to assure fiscal and management accountability of the projects.

19814. The department shall do the following:

(a) Develop a plan of implementation to meet the criteria established in Section 19810. This plan shall be developed in consultation with existing independent living projects.

(b) Submit to the Governor and Legislature a feasibility report by October 1, 1981.

This report shall discuss the specific ramifications, due to the establishment of comprehensive service centers for the disabled, upon clients and current delivery systems and upon those systems' employees, with a focus upon: (1) who would be eligible, (2) how potential duplication of services could be avoided, (3) an estimate of the potential total statewide caseload in those areas of current services which would be upgraded or subject to increased utilization, (4) what additional services would be provided, and (5) specific estimates of statewide costs compared to current services. The report shall include a recommendation for or against proceeding with the pilot projects and any adjustments which should be made. If the conclusion is to proceed with the pilot projects, the report shall include a description of progress made to date including proposed evaluation criteria, estimated cost data relative to implementation of the pilot projects in July 1982, criteria and guidelines for pilot site selection, and necessary actions which should be taken between October 1, 1981 and June 30, 1982 for additional planning for pilot project implementation. This report shall be submitted in time to assist the funding process for selected pilot projects, on July 1, 1982.

(c) Submit to the Governor and Legislature a report by May 1, 1982 detailing specific progress to date regarding site selection, costs and final evaluation criteria and such other information deemed pertinent.

(d) Contingent upon approval of the feasibility report, future budget appropriations, and upon certification of the agency

secretary, enter into agreements and negotiated contracts with independent living centers to operate up to five selected pilot projects consistent with the criteria adopted pursuant to Section 19811. Such program grant awards would be for a period not to exceed three years with annual determination for continuation.

(e) Provide for administrative and technical consultation to the pilot projects throughout the project period to assure conformance to project criteria.

(f) Cause the pilot projects to be evaluated in accordance with the established criteria.

(g) Seek and utilize any available federal, state, or private funds which may be available for carrying out the purposes of this chapter.

(h) Exempt participants engaged in special education programs under the authority of superintendent of special education or local school districts, mentally retarded persons receiving services from regional centers under contract with the Department of Developmental Services and disabled persons who are residents of California's state hospital system, except in those cases where parties may choose to enter into agreements with the department subject to approval by the secretary of the agency, from participation in this program.

(i) Assist pilot projects to coordinate with other state and local governmental and nongovernmental programs and services for disabled persons.

(j) Implement community development and planning functions necessary to carry out the provisions of this chapter.

(k) Cause the pilot projects funded by this chapter to be evaluated by an independent public or private agency for the three years of the project period.

(l) Submit to the Legislature and the Governor by May 1, 1982 a followup report on the administration of the chapter, at which time a determination will be made as to the continuance of the program. If approved for continuation, subsequent reports shall be submitted annually by May 1 of each year. Such reports shall include a description and evaluation of the pilot projects, characteristics of the persons serviced, the information required for evaluations under subdivision (f) of Section 19813, and recommendations for administrative and legislative changes.

19815. If the department's initial report recommends proceeding with the pilot projects, evaluation criteria, set forth in the report submitted by the department pursuant to subdivision (b) of Section 19814 shall be reviewed by the Governor's Office of Planning and Research, the Senate Subcommittee on the Disabled, and the Assembly Subcommittee on Mental Health and Developmental Disabilities, and the appropriate standing policy committees in each house, or their designees prior to submission of request for proposals to establish pilot projects by the department.

19816. The Director of Finance may authorize allocations of funds appropriated to the Department of Finance pursuant to this

act not sooner than 30 days after notification in writing of the necessity therefor to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of the committee, or his or her designee, may in each instance determine. This chapter shall remain in effect only until June 30, 1985 and on such date is repealed, unless a later enacted statute, which is chaptered before June 30, 1985 deletes or extends such date. In this regard, it is the intent of the Legislature to evaluate the report submitted by May 1, 1984 pursuant to subdivision (b) of Section 19814 to determine whether pilot projects conducted under this chapter have had sufficient positive impact to warrant their continuation.

SEC. 3. There is hereby appropriated from funds appropriated to the contingency reserve for economic uncertainties in the General Fund to the Department of Rehabilitation, the following sums for the following fiscal years for the purpose of planning for the development of comprehensive services centers pilot projects established pursuant to this act:

- upon submittal and approval of the feasibility report required by this act.

## CHAPTER 1185

An act to amend Sections 23918 and 23919 of the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 23918 of the Education Code is amended to read:

23918. Any retirant whose last employment was in the California State University and Colleges, as a member of this system or the Public Employees' Retirement System, may serve as a member of the teaching staff of the California State University and Colleges and shall be subject to the employment limitations as provided by the Public Employees' Retirement Law (Part 3 (commencing with Section 2000), Division 5, Title 2 of the Government Code).

SEC. 2. Section 23919 of the Education Code is amended to read:

23919. Any retirant may be employed by a school district or other employing agency, except as provided in Sections 45134 and 88033, and earn not more than five thousand dollars (\$5,000), in any one school year and the rate of pay for such employment shall not be less than the minimum, nor exceed that paid by the employer to other employees performing comparable duties. The employment shall not operate to reinstate the retirant as a member of this system, or to terminate or suspend his or her retirement allowance, and no deduction shall be made from his or her salary as contributions to this system.

The maximum amount earnable under this section shall be adjusted by the board on July 1, 1981, and July 1, 1982, by 50 percent of the annual amount of increase in All Urban California Consumer Price Index using December 1980 as the base.

## CHAPTER 1186

An act to amend Section 44944 of the Education Code, relating to certificated employees.

[Approved by Governor September 27, 1980. Filed with Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 44944 of the Education Code is amended to read:

44944. (a) In the event a hearing is requested by the employee, the hearing shall be commenced within 60 days from the date of the employee's demand for a hearing. The hearing shall be initiated, conducted, and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code; provided, however, that the hearing date shall be established after consultation with the employee and the governing board, or their representatives, and the Commission on Professional Competence shall have all the power granted to an agency therein, except that the right of discovery of the parties shall not be limited to those matters set forth in Section 11507.6 of the Government Code but shall include the rights and duties of any party in a civil action brought in a superior court. In all cases, discovery shall be completed prior to seven calendar days before the date upon which the hearing commences. If any continuance is granted pursuant to Section 11524 of the Government Code, the time limitation for commencement of the hearing as provided in this subdivision shall be extended for a period of time equal to such continuance; provided, however, that such extension shall not include that period of time attributable to an unlawful refusal by either party to allow the discovery provided for in this section.

If the right of discovery granted under the preceding paragraph is denied by either the employee or the governing board, all the remedies in Section 2034 of the Code of Civil Procedure shall be available to the party seeking discovery and the court of proper jurisdiction, to entertain his motion, shall be the superior court of the county in which the hearing will be held.

The time periods in this section and of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall not be applied so as to deny discovery in a hearing conducted pursuant to this section.

The superior court of the county in which the hearing will be held may, upon motion of the party seeking discovery, suspend the hearing so as to comply with the requirement of the preceding paragraph.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

(b) The hearing provided for in this section shall be conducted by a Commission on Professional Competence. One member of the commission shall be selected by the employee, one member shall be selected by the governing board, and one member shall be a hearing officer of the Office of Administrative Hearings who shall be chairman and a voting member of the commission and shall be responsible for assuring that the legal rights of the parties are protected at the hearing. If either the governing board or the employee for any reason fails to select a commission member at least seven calendar days prior to the date of the hearing, such failure shall constitute a waiver of the right to selection, and the county board of education or its specific designee shall immediately make the selection. When the county board of education is also the governing board of the school district or has by statute been granted the powers of a governing board, the selection shall be made by the Superintendent of Public Instruction, who shall be reimbursed by the school district for all costs incident to the selection.

The member selected by the governing board and the member selected by the employee shall not be related to the employee and shall not be employees of the district initiating the dismissal and shall hold a currently valid credential and have at least five years' experience within the past 10 years in the discipline of the employee.

(c) The decision of the Commission on Professional Competence shall be made by a majority vote and the commission shall prepare a written decision containing findings of fact, determinations of issues and a disposition which shall be, solely, either:

- (1) That the employee should be dismissed.
- (2) That the employee should not be dismissed.

The commission shall not have the power to dispose of the charge of dismissal by imposing probation, suspension of a dismissal or a nondismissal, or other alternative sanctions.

The decision of the Commission on Professional Competence shall be deemed to be the final decision of the governing board.

The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section, as may be necessary to effectuate this section.

The governing board and the employee shall have the right to be represented by counsel.

(d) (1) If the member selected by the governing board or the member selected by the employee is employed by any school district

in California, such member shall, during any service on a Commission on Professional Competence, continue to receive salary, fringe benefits, accumulated sick leave, and other leaves and benefits from the district in which the member is employed, but shall receive no additional compensation or honorariums for service on the commission.

(2) If service on a Commission on Professional Competence occurs during summer recess or vacation periods, the member shall receive compensation proportionate to that received during the current or immediately preceding contract period from the member's employing district, whichever amount is greater.

(e) If the Commission on Professional Competence determines that the employee should be dismissed, the governing board and the employee shall share equally the expenses of the hearing, including the cost of the hearing officer; and the state shall pay, any costs incurred under paragraph (2) of subdivision (d), the reasonable expenses, as determined by the hearing officer, of the member selected by the governing board and the member selected by the employee, including, but not limited to payments or obligations incurred for travel, meals, and lodging, and the cost of the substitute or substitutes, if any, for the member selected by the governing board and the member selected by the employee. The State Controller shall pay all claims submitted pursuant to this paragraph from the General Fund, and may prescribe reasonable rules, regulations, and forms for the submission of such claims. The employee and the governing board shall pay their own attorney fees.

If the Commission on Professional Competence determines that the employee should not be dismissed, the governing board shall pay the expenses of the hearing, including the cost of the hearing officer, any costs incurred under paragraph (2) of subdivision (d), the reasonable expenses, as determined by the hearing officer, of the member selected by the governing board and the member selected by the employee, including, but not limited to payments or obligations incurred for travel, meals, and lodging, the cost of the substitute or substitutes, if any, for the member selected by the governing board and the member selected by the employee, and reasonable attorney fees incurred by the employee.

As used in this section, "reasonable expenses" shall not be deemed "compensation" within the meaning of subdivision (d).

If either the governing board or the employee petitions a court of competent jurisdiction for review of the decision of the commission, the payment of expenses to members of the commission required by this subdivision shall not be stayed.

In the event that the decision of the commission is finally reversed or vacated by a court of competent jurisdiction, then either the state, having paid the commission members' expenses, shall be entitled to reimbursement from the governing board for such expenses, or the governing board, having paid such expenses, shall be entitled to reimbursement from the state.

Additionally, either the employee, having paid a portion of the expenses of the hearing, including the cost of the hearing officer, shall be entitled to reimbursement from the governing board for such expenses, or the governing board, having paid its portion and the employee's portion of the expenses of the hearing, including the cost of the hearing officer, shall be entitled to reimbursement from the employee for that portion of such expenses.

(f) The hearing provided for in this section shall be conducted in a place selected by agreement among the members of the commission. In the absence of such agreement the place shall be selected by the hearing officer.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code and Section 6 of Article XIII B of the California Constitution, no appropriation is made by this act pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

## CHAPTER 1187

An act to add Section 19774.5 to the Government Code, relating to civil service employees.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 19774.5 is added to the Government Code, to read:

19774.5. This section applies only to the Department of Corrections and the Department of the Youth Authority.

Employee members of reserve military units and the National Guard required to attend scheduled reserve drill periods may use their own free time, overtime, or vacation time, or, if requested by the employee at least 20 days prior to the commencement of the requested leave of absence, shall be granted temporary leaves of absence by the appointing power covering periods of ordered duty and including time involved in going to and returning from such duty. The appointing power may, in the event of a public agency emergency, cancel any leave of absence granted pursuant to this section. If an appointing power does not grant a leave of absence pursuant to this section, the reserve units and the National Guard are urged to not consider the employee absent without leave. An employee who is granted a leave of absence pursuant to the terms of this section shall, upon such employee's release from scheduled reserve drill periods or upon such employee's discharge from

hospitalization incident to such drill periods, be reinstated to his former position.

An employee granted a leave of absence pursuant to this section shall not receive any state salary or compensation for any leave of absence for weekend drill.

An employee granted a leave of absence pursuant to the terms of this section shall report for work at the beginning of the next regularly scheduled working day after expiration of the last calendar day necessary to travel from the place of training to the place of employment following such employee's release, or within a reasonable time thereafter if delayed return is due to factors beyond the employee's control.

If an employee covered by this section is hospitalized incident to his scheduled drill periods, he shall be required to report for work at the beginning of the next regularly scheduled workday after expiration of the time necessary to travel from the place of discharge from hospitalization to the place of employment, or within a reasonable time thereafter if delayed return is due to factors beyond the employee's control, including, but not limited to, disabilities incurred while engaged in military service, or within one year after his release from military reserve obligations, whichever is earlier.

At the termination of the leave of absence the appointing power shall return the employee to his former position. If the employee is unable to perform the duties of his former position, the appointing power may grant a leave of absence or take any of the actions provided by Section 19253.5.

All rights granted under this section are in addition to, and not restrictive of, any rights heretofore or hereafter acquired by public employees pursuant to Chapter 4 (commencing with Section 6200) of Division 4.7 of the Labor Code.

## CHAPTER 1188

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4352 is added to the Civil Code, to read:  
4352. Every final judgment declaring a marriage a nullity or dissolving a marriage shall contain the following notice:

Notice: Please review your will. Unless a provision is made in the property settlement agreement, this court proceeding does not affect your will and the ability of your former spouse to take under it.

SEC. 2. Section 80 is added to the Probate Code, to read:

80. (a) If after executing a will or any codicil thereto, the testator's marriage is dissolved or declared a nullity by a final judgment of a court of competent jurisdiction, and if the testator and his or her former spouse have executed a property settlement agreement waiving and renouncing all rights to inherit the estate of the other at the other's death, or to receive any property of the other under a will executed prior to the agreement, the former spouse of the testator and the lineal descendants of the former spouse of the testator shall be deemed to have predeceased the testator for purposes of the will or codicil, unless the will or codicil expressly provides otherwise. For the purpose of this section, "lineal descendants" shall include all lineal descendants of the former spouse of the testator who are not also lineal descendants of the testator.

(b) The provisions of subdivision (a) shall not be applicable if the testator's death occurs during the remarriage to the former spouse.

(c) The provisions of this section shall be applicable only to wills or codicils executed on or after January 1, 1981.

## CHAPTER 1189

An act to amend Section 11580.9 of the Insurance Code, relating to insurance.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11580.9 of the Insurance Code is amended to read:

11580.9. (a) Where two or more policies affording valid and collectible automobile liability insurance apply to the same motor vehicle in an occurrence out of which a liability loss shall arise, and one of such policies affords coverage to a named insured engaged in the business of selling, repairing, servicing, delivering, testing, road-testing, parking, or storing motor vehicles, then both of the following shall be conclusively presumed:

(1) If, at the time of loss, the motor vehicle is being operated by any person engaged in any of such businesses, or by his employee or agent, the insurance afforded by the policy issued to the person engaged in such business shall be primary, and the insurance afforded by any other policy shall be excess.

(2) If, at the time of loss, the motor vehicle is being operated by any person other than as described in paragraph (1), the insurance afforded by the policy issued to any person engaged in any of such businesses shall be excess over all other insurance available to such

operator as a named insured or otherwise.

(b) Where two or more policies are applicable to the same loss, and one of such policies affords coverage to a named insured engaged in the business of renting or leasing commercial vehicles without operators, as the term "commercial vehicles" is used in Section 260 of the Vehicle Code, or the leasing of any other motor vehicle for six months or longer, it shall be conclusively presumed that the insurance afforded by such policy to a person other than the named insured or his agent or employee shall not be primary, but shall be excess over any other valid and collectible insurance applicable to the same loss covering such person as a named insured or as an additional insured under a policy with limits at least equal to the financial responsibility requirements specified in Section 16056 of the Vehicle Code; and, in such event, the two or more policies shall not be construed as providing concurrent coverage, and only that policy which covers the liability of such person as a named insured, or as an agent or employee of a named insured, shall be primary and the other policy or policies shall be excess.

(c) Where two or more policies are applicable to the same loss arising out of the loading or unloading of a motor vehicle, and one or more of the policies is issued to the owner, tenant, or lessee of the premises on which the loading or unloading occurs, it shall be conclusively presumed that the insurance afforded by the policy covering the motor vehicle shall not be primary, notwithstanding anything to the contrary in any endorsement required by law to be placed on such policy, but shall be excess over all other valid and collectible insurance applicable to the same loss with limits at least equal to the financial responsibility requirements specified in Section 16056 of the Vehicle Code; and, in such event, the two or more policies shall not be construed as providing concurrent coverage, and only the insurance afforded by the policy or policies covering the premises on which the loading or unloading occurs shall be primary and such policy or policies shall cover as an additional insured with respect to the loading or unloading operations all employees of such owner, tenant, or lessee while acting in the course and scope of their employment.

(d) Except as provided in subdivisions (a), (b), and (c), where two or more policies affording valid and collectible liability insurance apply to the same motor vehicle in an occurrence out of which a liability loss shall arise, it shall be conclusively presumed that the insurance afforded by that policy in which such motor vehicle is described or rated as an owned automobile shall be primary and the insurance afforded by any other policy or policies shall be excess.

(e) Any insurance policy which, under the terms of subdivisions (a) to (d), inclusive, applies as excess coverage may provide with respect to any loss to which primary insurance is not valid and collectible in whole or in part, such excess policy shall apply only to the extent necessary to provide the insured with coverage limits at least equal to the limits specified in Section 16056 of the Vehicle

A licensee desiring to conduct his or her business under more than one fictitious business name shall obtain the authorization of the commissioner in the manner prescribed in this section for the use of each such name.

The licensee shall pay a fee of ten dollars (\$10) for each authorization to use an additional fictitious business name and for each change in the use of a fictitious business name. If the original license is issued in a nonfictitious name and authorization is requested to have the license reissued in a fictitious business name, the licensee shall pay a fee of ten dollars (\$10) for such authorization.

The commissioner may require the filing of other information for the purpose of identifying such principal place of business.

Such bond as to its form, execution, and sufficiency of the sureties shall be approved by the commissioner.

14051. The bond required by this article shall be taken in the name of the people of this state and every person injured by the willful, malicious, or wrongful act of the principal may bring an action on the bond in his or her own name to recover damages suffered by reason of such willful, malicious, or wrongful act.

The commissioner may deny the application notwithstanding the applicant's compliance with this section:

(a) For any reason which would justify a refusal to issue, or a suspension or revocation of, a license.

(b) For the performance of any practice while under suspension for failure to keep his or her bond in force, for which a license under this article is required.

14053. In lieu of the surety bond required by this article there may be deposited with the State of California the sum of two thousand dollars (\$2,000) in cash, or evidence of deposit of the sum of two thousand dollars (\$2,000) in banks authorized to do business in this state and insured by the Federal Deposit Insurance Corporation, or investment certificates or share accounts in the amount of two thousand dollars (\$2,000) issued by a savings and loan association doing business in this state and insured by the Federal Savings and Loan Insurance Corporation, or evidence of a certificate of funds or share account of the sum of two thousand dollars (\$2,000) in a credit union, as defined in Section 14000 of the Financial Code, whose share deposits are guaranteed by the National Credit Union Administration or guaranteed by any other agency approved by the Department of Corporations.

14062. The record of conviction, or a certified copy thereof, shall be conclusive evidence of such conviction as that term is used in this article or Section 14028.

A plea or verdict of guilty or a conviction following a plea of *nolo contendere* is deemed to be a conviction within the meaning of this article or Section 14028. The commissioner may order the license suspended or revoked, or may decline to issue a license, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

14063. The commissioner may suspend or revoke a license issued under this chapter if the commissioner determines that the licensee, or his or her manager, if an individual, or if the licensee is a person other than an individual, that any of its officers, directors, partners, or its manager, has:

#### Article 6. Nonresidents

14070. As used in this article, "presiding officer" means the executive officer of the Office of Administrative Hearings.

14071. The acceptance by a nonresident licensee of any of the rights and privileges conferred upon him or her by this chapter, as evidenced by his or her performance within this state, either personally or through an employee, of any act for which a license is required by this chapter, is equivalent to the appointment by such licensee of the presiding officer as his or her true and lawful attorney upon whom may be served all lawful process in any disciplinary proceeding conducted against him or her under this chapter.

14072. The acceptance of such rights and privileges as evidenced by such act shall signify the agreement of the licensee that any such process which is served against him or her in the manner provided in this article shall be of the same legal force and validity as if served upon him or her personally in this state.

14073. Service shall be made by leaving a copy of the accusation, together with a notice of defense and statement to respondent as described in Section 11505 of the Government Code, with a fee of two dollars (\$2) for each licensee to be served, in the hands of the presiding officer or in his or her office in Sacramento. Such service

shall be sufficient service on the licensee subject to compliance with Section 14074.

14074. A notice of such service and a copy of the accusation, together with the notice of defense and statement to respondent, shall forthwith be sent by registered mail by the presiding officer to the licensee at his or her last known address as furnished by the commission. Personal service of such notice, copy of the accusation, notice of defense, and statement to respondent upon the licensee wherever found outside this state shall be the equivalent of such mailing.

14075. Proof of compliance with Section 14074 shall be made in the event of service by mail by affidavit of the presiding officer or his or her authorized employee showing such service by mailing, together with the return receipt of the United States post office bearing the signature of the licensee or his or her agent. Such affidavit and receipt shall be appended to the original accusation on file with the commissioner. In the event of personal service outside this state, such compliance may be proved by the return of any duly constituted public officer qualified to serve process in civil actions in the state or jurisdiction where the licensee is found, showing such service to have been made. Such return shall be appended to the original accusation on file with the commissioner.

14076. The commissioner, or if the proceeding is heard before a hearing officer of the Office of Administrative Hearings, such hearing officer, may order such postponements or continuances and grant such extensions of time as may be necessary to afford the licensee reasonable opportunity to defend the proceeding. In no event shall the licensee have less than 30 days after the date of service of the accusation in which to file a notice of defense, nor shall the notice of hearing provided for in Section 11509 of the Government Code or the notice and copy of affidavit referred to in Section 11514 of the Government Code be mailed or delivered less than 20 days prior to the date of hearing, and the time for making a request to cross-examine under Section 11514 of the Government Code shall not be less than 15 days.

14077. The presiding officer shall keep a record of all process served upon him or her pursuant to this article, which record shall show the day and hour of service.

14078. As used in this article, "nonresident" means a person who is not a resident of this state at the time of the performance of the act referred to in Section 14071.

#### Article 7. Penal Provisions

14080. Any person who knowingly falsifies the fingerprints or photographs submitted under subdivision (f) of Section 14024 is guilty of a felony. Any person who violates any of the other provisions of this chapter is guilty of a misdemeanor punishable by fine not to exceed five hundred dollars (\$500), or by imprisonment in the

county jail not to exceed one year, or by both such fine and imprisonment.

#### Article 8. Expiration and Renewal of Licenses and Cards

14090. Every license, branch office certificate, and pocket card issued under this chapter shall expire on May 31 of each even-numbered year. To renew an unexpired license or certificate, the licensee shall, on or before the date on which it would otherwise expire, apply for renewal on a form prescribed by the commissioner, and pay the renewal fee prescribed by this chapter. On renewal, such evidence of renewal of the license or certificate as the commissioner may prescribe, and renewal pocket cards for the persons mentioned in Section 14034, shall be issued to the licensee.

14090.1. Notwithstanding Section 14090, the commissioner may establish license periods and renewal dates for all licenses issued pursuant to this chapter so as to distribute the renewal work to permit the most efficient and economical use of personnel and equipment. In such cases, to the extent practicable, provision shall be made for the proration or other adjustment of fees so that no person shall be required to pay more than that which he or she would have been required to pay had no change in license periods or renewal dates been made.

14091. Except as otherwise provided in this article, an expired license or branch office certificate may be renewed at any time within five years after its expiration on the filing of an application for renewal on a form prescribed by the commissioner, and the payment of the renewal fee in effect on the last preceding regular renewal date. If the license or certificate is renewed more than 30 days after its expiration, the licensee, as a condition precedent to renewal, shall also pay the delinquency fee prescribed by this chapter. Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee, if any, is paid, whichever last occurs. If so renewed, the license or certificate shall continue in effect through the date provided in Section 14090 which next occurs after the effective date of the renewal, when it shall expire if it is not again renewed.

Renewal of a license or certificate shall not prohibit the bringing of disciplinary proceedings for an act committed before the effective date of the renewal.

14092. A suspended license or branch office certificate is subject to expiration and shall be renewed as provided in this article, but renewal of the license does not entitle the licensee, while the license remains suspended and until it is reinstated, to engage in the licensed activity, or in any other activity or conduct in violation of the order or judgment by which the license was suspended, and renewal of the branch office certificate does not entitle the licensee, while the certificate remains suspended, and until it is reinstated, to engage in

the licensed activity at the location for which the certificate was issued, or to engage in any other activity or conduct in violation of the order or judgment by which the certificate was suspended.

14093. A revoked license or branch office certificate is subject to expiration as provided in this article, but it may not be renewed. If it is reinstated after its expiration, the licensee, as a condition precedent to its reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last regular renewal date before the date on which it is reinstated, plus the delinquency fee, if any, accrued at the time of its revocation.

14094. A license or branch office certificate which is not renewed within five years after its expiration may not be renewed, restored, reinstated, or reissued thereafter; and a license which expired before October 1, 1958, and was not reinstated before October 1, 1961, may not be renewed, restored, reinstated, or reissued.

The holder of the license or certificate may obtain a new license or certificate only on compliance with all of the provisions of this chapter relating to the issuance of an original license or certificate.

#### Article 9. Revenue

14097. The amount of fees prescribed by this chapter, unless otherwise fixed, is that fixed in the following schedule:

(a) The application fee for an original license is twenty-five dollars (\$25).

(b) The application fee for an original branch office certificate is fifteen dollars (\$15).

(c) The fee for an original license is an amount equal to the renewal fee in effect on the last regular renewal date before the date on which the license is issued, except that, if the license will expire less than one year after its issuance, then the fee is an amount equal to 50 percent of the renewal fee in effect on the last regular renewal date before the date on which the license is issued. The commissioner may, by appropriate regulation, provide for the waiver or refund of the initial license fee where the license is issued less than 45 days before the date on which it will expire.

(d) The renewal fee shall be fixed by the commissioner as follows:

(1) For a license as an insurance adjuster, not more than one hundred dollars (\$100).

(2) For a branch office certificate, not more than twenty dollars (\$20).

(e) The application and license fee for classifications prescribed by the commissioner, in addition to those provided for in this chapter, and the application and license fees for a change in the type of business organization of a licensee, shall be in the amount prescribed by rule and regulation of the commissioner.

(f) The delinquency fee shall be 50 percent of the renewal fee in effect on the date of expiration, but not more than twenty-five dollars (\$25).

(g) The fee for reexamination of an applicant or his manager is ten dollars (\$10).

14098. The department shall receive and account for all money derived from the operation of this chapter and, at the end of each month, shall report such money to the Controller and shall pay it to the Treasurer, to the credit of the Insurance Fund.

14099. Application or license fee shall not be refunded except in accordance with Section 158 of the Business and Professions Code.

SEC. 12. On the effective date of this act, the Controller shall transfer the sum of thirty-two thousand dollars (\$32,000) from the Private Investigator Fund to the Insurance Fund for the purpose of carrying out the provisions of Chapter 1 (commencing with Section 14000) of Division 5 of the Insurance Code.

SEC. 13. The provisions of this act shall become operative on July 1, 1981.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature, in Chapters 1247 and 1252 of the Statutes of 1977, Chapter 797 of the Statutes of 1980, and the federal government in Public Law 94-142 declared that all individuals with exceptional needs have a right to participate in appropriate programs of publicly supported education and that special education programs and related services for these persons are needed in order to ensure them the right to an appropriate educational opportunity.

SEC. 2. Section 4302 of the Civil Code is repealed.

SEC. 3. Section 48204 of the Education Code is amended to read:

48204. Notwithstanding Section 48200, a pupil shall be deemed to have complied with the residency requirements for school attendance in a school district, provided he or she is:

(a) A pupil placed within the boundaries of that school district in a regularly established licensed children's institution, or a licensed foster home, or a family home pursuant to a commitment or placement under Chapter 2 (commencing with Section 200) of Part 1 of Division 2 of the Welfare and Institutions Code.

An agency placing a pupil in such a home or institution shall provide evidence to the school that the placement or commitment is pursuant to law.

(b) A pupil for whom interdistrict attendance has been approved pursuant to the provisions of Chapter 5 (commencing with Section 46600) of Part 26 of Division 3 of this title.

(c) A pupil whose residence is located within the boundaries of that school district and whose parent or legal guardian is relieved of that responsibility, control, and authority through emancipation.

(d) A pupil whose parent or legal guardian has established the residence of the pupil in a home located within the boundaries of that school district, provided such home is properly licensed as required by law. The person maintaining such a home shall provide evidence to the school that a current license is in effect or that a license is not required under the law.

(e) A pupil residing in a state hospital located within the boundaries of that school district.

SEC. 4. Chapter 8 (commencing with Section 56850) is added to Part 30 of the Education Code, to read:

#### CHAPTER 8. SPECIAL EDUCATION PROGRAMS FOR INDIVIDUALS WITH EXCEPTIONAL NEEDS RESIDING IN STATE HOSPITALS

56850. The purpose of the Legislature in enacting this chapter is to recognize that individuals with exceptional needs of mandated school age, residing in California's state hospitals for the developmentally disabled and mentally disordered, are entitled to, under Public Law 94-142, the federal Education for All Handicapped Children Act of 1975, and Public Law 93-112, the federal Rehabilitation Act of 1973, the same access to educational programs as is provided for individuals with exceptional needs residing in our communities.

It is the intent of the Legislature to ensure that services shall be provided in the community near the individual state hospitals to the maximum extent appropriate, and in the least restrictive environment.

It is the further intent of the Legislature to ensure equal access to the educational process and to a full continuum of educational services for all individuals, regardless of their physical residence.

It is the further intent of the Legislature that educational services designated for state hospital residents not eligible for services mandated by Public Law 94-142 shall not be reduced or limited in any manner as a result of the enactment of this chapter.

It is the further intent of the Legislature that any cooperative agreements to provide educational services for state hospitals shall seek to maximize federal financial participation in funding such services.

56851. (a) In developing the individualized educational program for an individual residing in the state hospitals who is

eligible for services under Public Law 94-142, a state hospital shall include on its interdisciplinary team a representative of the county office of education in which the state hospital is located or a representative of a school district, and the individual's teacher, depending on whether the state hospital is otherwise working with such county superintendent of schools or a school district for the provision of special education programs and related services to individuals with exceptional needs residing in state hospitals. However, if a school district that is required by this section to provide a representative from such district does not do so, the county office of education shall provide a representative.

(b) The state hospital shall reimburse the school district or the county office of education, as the case may be, for the costs, including salary, of providing the representative.

56852. In developing the individualized educational program and providing all special education programs and related services to individuals with exceptional needs residing in the state hospitals, the state hospitals shall comply with the requirements of Public Law 94-142, Public Law 93-112, and special education provisions of this part and implementing regulations. Special education and related services shall be provided to each individual residing in a state hospital pursuant to the individualized education program for that individual.

The State Department of Education, within its existing program review process, shall specifically review the appropriateness of pupil placement for educational services as designated on the pupil's individualized educational plan and the criteria used in determining such placement.

56853. Nothing contained in this chapter shall affect the continued authority of the State Departments of Developmental Services and Mental Health over educational programs for individuals not eligible for services under Public Law 94-142 nor shall it affect the overall responsibility of the state hospitals for the care, treatment, and safety of individuals with exceptional needs under their control. The state hospitals shall continue to render appropriate and necessary developmental services, health related services, psychiatric services, and related services assigned to the state hospitals in the local interagency agreements, as part of their responsibilities for the care and treatment of state hospital residents.

56854. (a) The Superintendent of Public Instruction and the Directors of the State Departments of Developmental Services and Mental Health shall develop written interagency agreements to carry out the purposes of this chapter. The agreements shall include, but are not limited to, guidelines for the calculation of reasonable costs for services in the development of contracts between state hospitals and local public education agencies or nonpublic schools. Such agreements shall be reviewed and updated annually by July 1 of each fiscal year.

(b) For each county in which a state hospital is located, the county

superintendent of schools, with the approval of the county board of education and the administrator of the state hospital, shall develop a local written interagency agreement to carry out the purposes of this chapter. Such agreements shall be reviewed and updated by July 1 of each fiscal year, but may be modified at any time with the concurrence of both parties to the agreements.

56855. For each county in which a state hospital is located the county superintendent of schools shall ensure that appropriate special education and related services are available in the community for which the state hospitals can contract. Such contract shall provide for any eligible individual with exceptional needs residing in the state hospitals whose individualized education program specifies that educational services for that individual should be most appropriately provided, in whole or in part, in a program other than on the hospital grounds. The county board of education shall approve any programs operated by the county superintendent pursuant to this chapter.

56856. (a) In order to provide appropriate special education and related services to an individual residing in a state hospital, the State Departments of Developmental Services and Mental Health shall contract with a local public education agency, nonpublic, nonsectarian school, or other agency to provide all or part of the services that the individual's individualized education program indicates should be provided in a program other than on state hospital grounds.

(b) Any contract prescribed by this section shall go into effect unless disapproved by the Department of Finance within 10 working days of receipt of such contract.

(c) Nothing in this section shall prohibit the inclusion of in-kind services or the assignment of state hospital personnel in a contract for services pursuant to this section.

56857. Nothing in this chapter shall preclude the State Departments of Developmental Services and Mental Health from contracting with a local public education agency, nonpublic, nonsectarian school, or other agency to provide special education and related services on the state hospital grounds for those pupils whose individualized education programs do not indicate that such education and services should be provided in a program other than on state hospital grounds.

56858. In contracting for services pursuant to this chapter, the State Departments of Developmental Services and Mental Health shall pay the amount upon which the parties have agreed and which has been made a part of the contract for providing the programs and services required by the individualized education program. If a pupil is enrolled in a local public educational agency or nonpublic school with the approval of the state hospital and the local public educational agency or nonpublic school prior to agreement to a contract, the state hospital shall issue a warrant, upon submission of an attendance report and claim, for an amount equal to the number

of creditable days of attendance at the per diem rate agreed upon prior to the enrollment of the pupil. This provision shall be allowed for 90 calendar days during which time the contract shall be consummated. The Superintendent of Public Instruction shall monitor the use of these funds to ensure that they are being expended pursuant to the provisions of this chapter, to provide special education and related services to individuals residing in state hospitals.

56859. (a) All certificated state hospital employees hired to provide educational services to individuals of mandated school age after the effective date of this chapter shall possess an appropriate California credential in special education. Current certificated state hospital employees who do not possess appropriate California credentials in special education shall be given a period of not more than five years from the effective date of this chapter to obtain such appropriate credentials. Certificated state hospital employees who do not possess appropriate California credentials in special education at the end of the five-year period shall be reassigned to provide educational services to individuals residing in state hospitals who are not eligible for services under Public Law 94-142.

(b) A state hospital may employ a person as an instructional permit teacher if he or she has satisfied the requirements relating to such teachers, pursuant to regulations adopted by the State Board of Education.

56860. The State Departments of Developmental Services, Education, and Mental Health shall submit a joint report to the Legislative Analyst by December 1, 1980, which shall include, but not be limited to, the following:

- (a) The implementation of this chapter.
- (b) ~~The costs of contracts pursuant to this chapter.~~
- (c) The adequacy of education and related services provided pursuant to this chapter.
- (d) The adequacy of fiscal support for educational services provided on hospital grounds and, pursuant to this chapter, in the community.
- (e) Recommendations for legislative action.
- (f) Identification of funding sources and the amounts used to support education and related services for all state hospital residents eligible for services under Public Law 94-142.

56861. The Legislative Analyst shall prepare, in consultation with the developmental disabilities area boards, a report to the Legislature, the Governor, and the Superintendent of Public Instruction by March 15, 1981, and annually each year thereafter until March 15, 1983, regarding all of the following:

- (a) The implementation of this chapter.
- (b) The costs of contracts pursuant to this chapter.
- (c) The adequacy of education and related services provided pursuant to this chapter.

56862. It is not the intent of this chapter to displace educational and related services personnel already employed by the state hospitals under the administration of the State Department of Developmental Services or the State Department of Mental Health, or to reduce their salaries or other employee benefits.

The State Department of Developmental Services and the State Department of Mental Health shall complete a quarterly review of the impact that implementation of this act will have in reducing the need for positions in state hospitals due to time spent by residents in community education programs and shall submit a report on its findings to the Department of Finance for approval.

56863. Within 30 days of the effective date of this section, the Superintendent of Public Instruction, with the approval of the State Department of Developmental Services or the State Department of Mental Health, as appropriate, shall notify parents of pupils who reside in state hospitals and are eligible for educational services under Public Law 94-142, of the provisions of this article, including their right to initiate a review of pupil placement for educational services.

SEC. 5. Section 4011.5 is added to the Welfare and Institutions Code, to read:

4011.5. In counties where State Department of Mental Health hospitals are located, the state hospitals shall ensure that appropriate special education and related services, pursuant to Chapter 7 (commencing with Section 56875) of Part 30 of the Education Code, are provided eligible individuals with exceptional needs residing in state hospitals.

SEC. 6. Section 4302 is added to the Welfare and Institutions Code, to read:

4302. The Director of the State Department of Mental Health shall have the final authority for determining all other employee needs after consideration of program requests from the various hospitals, and with the concurrence of the Health and Welfare Agency, the State Personnel Board, the Department of Finance, and the Department of General Services, as appropriate, may establish positions to assist with the planning, development, direction, management, supervision, and evaluation of patient, administrative

and support services in the hospital facility.

SEC. 7. Section 4482 of the Welfare and Institutions Code is amended to read:

4482. The Director of the State Department of Developmental Services shall have the final authority for determining all other employee needs after consideration of program requests from the various hospitals, and with the concurrence of the Health and Welfare Agency, the State Personnel Board, the Department of Finance and the Department of General Services, as appropriate, may establish positions to assist with the planning, development, direction, management, supervision, and evaluation of patient, administrative and support services in the hospital facility.

SEC. 8. Section 4501.5 is added to the Welfare and Institutions Code, to read:

4501.5. In counties where State Department of Developmental Services hospitals are located, the state hospitals shall ensure that appropriate special education and related services, pursuant to Chapter 8 (commencing with Section 56850) of Part 30 of the Education Code, are provided eligible individuals with exceptional needs residing in state hospitals.

SEC. 9. It is not the intent of the Legislature to replace funding for educational and related services which is already provided through agreements between state hospitals and local public education agencies, nonpublic schools or other agencies that provide all or part of the services specified in an individualized education program for a resident of the state hospitals.

SEC. 10. There is hereby appropriated from the General Fund to the State Departments of Developmental Services and Mental Health the sum of nine hundred twenty-six thousand dollars (\$926,000) for the 1980-81 fiscal year for the purposes of this act. No funds appropriated under this section shall be allocated to the State Department of Education.

SEC. 11. There is hereby appropriated from the Special Account for Capital Outlay created under the provisions of Assembly Bill No. 2973 of the 1980 Regular Session of the Legislature, the sum of seven hundred fifty thousand dollars (\$750,000) for allocation for the 1980-81 fiscal year for the purposes of Chapter 25 (commencing with Section 17785) of Part 10 of the Education Code, to meet capital outlay needs in accordance with criteria adopted by the State Allocation Board to provide the services required by this act.

Any balances remaining from this appropriation at the end of the fiscal year shall be carried forward into the next succeeding fiscal year for the purposes of funding.

SEC. 12. (a) (1) The Superintendent of Public Instruction shall certify to the Controller the amount allocated to county offices of education for the 1979-80 fiscal year for education and related services for pupils residing in the state hospitals.

(2) The Controller shall compute the sum of the amount certified pursuant to paragraph (1) and 9 percent of that amount.

(b) Upon the effective date of this act, the amount computed pursuant to paragraph (2) of subdivision (a) of this section shall be reappropriated from the General Fund for the purposes of this act from the amount appropriated pursuant to category (b) of Item 352 of the Budget Act of 1980 (Ch. 510, Stats. 1980) in augmentation of Items 297 and 302 of the Budget Act of 1980.

The Director of Finance shall determine the manner in which the total amount reappropriated by this section shall be allocated between the Department of Developmental Services and the Department of Mental Health so that the purposes of this act are carried out.

SEC. 13. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

All handicapped children of mandated school age are entitled to a free, appropriate public education under Public Law 94-142. Section 504 of Public Law 93-112 provides that no otherwise qualified handicapped individual shall, solely by reason of his or her handicap, be excluded from the participation in, be denied the benefits of, or be subjected to, discrimination under any program or activity receiving federal financial assistance. In order to comply with these federal laws and not jeopardize substantial sums of federal support dollars for educating the children of our state for the entire 1979-80 fiscal year, to comply with state educational standards for individuals with exceptional needs, and to provide a full continuum of alternate placements for all eligible handicapped individuals regardless of residence, it is necessary that this act take effect immediately.

#### Article 5. Territory of School Districts

35540. The boundaries of each high school district shall be coextensive with the boundaries of the component districts included within it.

35541. When the boundaries of a district which is a component of

In the event that the territory being transferred is contiguous to more than one trustee area, terms of agreement to the transfer may include provisions for the division of the transferred territory among the trustee areas to which it is contiguous.

35545. (a) Prior to the date upon which a newly organized or reorganized district becomes effective for all purposes, the county committee may include all, or part of, the territory in plans and recommendations for further reorganization.

(b) During the first five years after the effective date for all purposes of the formation of a school district, no territory shall be removed from the district without the consent of the governing board of the district.

35546. Territory within the boundaries of a city may not be withdrawn from a school district governed by a board provided for in the charter of the city without the consent of the governing board of the district.

#### Article 6. Personnel in Reorganized Districts

35555. The reorganization of any school district or districts shall not affect the classification of certificated employees already employed by any school district affected. Such employees shall have the same status with respect to their classification by the district, including time served as probationary employees of the district, after the reorganization as they had prior to it. If such reorganization results in the school or other place in which any such employee is employed being maintained by another district, any such employee, if a permanent employee of the district which formerly maintained such school or other place of employment, shall be employed as a permanent employee of the district which thereafter maintains the school or other place of employment, unless such employee elects prior to February 1 of the year in which the action will become effective for all purposes to continue in the employ of the first district.

If such employee is a probationary employee of the district which formerly maintained such school or other place of employment, he or she shall be employed by the district which thereafter maintains the school or other place of employment, unless such probationary employee is terminated by such district pursuant to Section 44948, 44949, or 44955, and, if not so terminated, his or her status with respect to classification by such district shall be the same as it would have been had the school or other place of employment continued to be maintained by the district which formerly maintained it. As used in this paragraph, "the school or other place in which any such employee is employed" and all references thereto, includes, but is not limited to, the school services or school program which, as a result of any reorganization of a school district, will be provided by another district, regardless of whether any particular building or buildings in which such schoolwork or school program was conducted is physically located in the new district and regardless of whether any new district resulting from such reorganization elects to provide for the education of its pupils by contracting with another school district until such time as the new district constructs its own facilities.

35556. The reorganization of any school district, or districts, shall not affect the rights of persons employed in positions not requiring certification qualifications to retain the salary, leaves, and other benefits which they would have had had the reorganization not occurred, and in the manner provided in this section:

(a) All employees of every school district which is included in any other district, or all districts included in a new district, shall become employees of the new district.

(b) When a portion of the territory of any district becomes part of another district, employees regularly assigned to perform their duties in the territory affected shall become employees of the acquiring district. Employees whose assignments pertained to the affected territory, but whose employment situs was not in such territory, may elect to remain with the original district or become employees of the acquiring district.

(c) When the territory of any district is divided between, or among, two or more districts and the original district ceases to exist, employees of the original district regularly assigned to perform their duties in any specific territory of such district shall become employees of the district acquiring the territory. Employees not assigned to specific territory within the original district shall become employees of any acquiring district at the election of the employees.

(d) Employees regularly assigned by the original district to any school in the district shall be an employee of the district in which the school is located. Except as provided in this section, nothing in this section shall deprive the governing board of the acquiring district from making reasonable reassignments of duties.

Article 7. Disposition of Records, Funds, Property, and Obligations When Reorganized

35560. When a school district is reorganized and when the allocation of funds, property, and obligations is not fixed by terms, conditions, or recommendations as provided by law, the funds, property, and obligations of a former district, except for bonded indebtedness, shall be allocated as follows:

(a) The real property and personal property and fixtures normally situated thereat shall be the property of the district in which the real property is located.

(b) All other property, funds, and obligations, except bonded indebtedness, shall be divided pro rata among the districts in which the territory of the former district is included. The basis for the division and allocation shall be the assessed valuation of the part of the former district which is included within each of the districts.

35561. Any funds derived from the sale of the school bonds issued by the former district shall be used for the acquisition, construction, or improvement of school property only in the territory which comprised the former district or to discharge bonded indebtedness of the former district, except that if the bonded indebtedness is assumed by the new district, the funds may be used in any area of the new district for the purposes for which the bonds were originally voted.

35562. If all the territory of any school district becomes part of two or more districts of any type, and the inclusion in the two or more new school districts of the several portions of territory comprising the whole of the original district is effective for all purposes on the same date, the records of the original district shall be disposed of as follows:

(a) All records of the original district which are required by law to be kept on file shall be deposited with the governing board of the district which, after the reorganization has become effective for all purposes, has located within its boundaries the former office of the superintendent of the original district.

(b) Records of employees shall be transferred to the district thereafter employing the personnel or thereafter maintaining the last place of employment.

(c) Records of pupils shall be transferred to the district which, after the date on which the reorganization becomes effective for all purposes, maintains the school in which a pupil was last enrolled.

35563. (a) If all of the territory of any school district becomes part of two or more school districts of any type, and the inclusion in the two or more new school districts of the several portions of territory comprising the original district is effective for all purposes on the same date, the county superintendent of schools having jurisdiction over the original district shall assume responsibility for all of the following:

(1) Completing all records and reports of the original district.

(2) Paying all outstanding obligations, except obligations resulting from contracts which are to be assumed by a succeeding district.

(3) Preparing for proper filing all records of the district required to be kept permanently by the provisions of any applicable code.

(4) Distributing records as provided in Section 35562.

(5) Employing an auditor as required in Section 41020.

(6) Discharging such other functions as he or she shall deem necessary to the dissolution of the district.

(b) In discharging these duties, the county superintendent may request the services of employees of the original or succeeding district, and the succeeding districts shall release such employees to the county superintendent for the purpose of accomplishing the requirements of this section. The salaries of such employees and all other necessary expenses of completing the requirements of this section shall be charged against the accumulated funds of the dissolved district prior to the final distribution of such funds to the succeeding districts.

35564. If the reorganization of a school district under this chapter results in the relocation of district boundaries so that a portion of the pupils will not be residents of the district thereafter maintaining a school previously attended by the pupils, and if there is in the school an organized student body, the property, funds, and obligations of the student body shall be divided as determined by the county committee, except that the share shall not exceed an amount equal to the ratio which the number of pupils leaving the school bears to the total number of pupils enrolled. The ownership of the property, funds, and obligations, which is the proportionate share of each segment of the student body, shall be transferred to the student body of the school or schools in which the pupils are enrolled after the reorganization. Funds from devises, bequests, or gifts made to the organized student body of a school shall remain the property of the organized student body of that school and shall not be divided.

35565. If a dispute arises between the governing boards of the districts concerning the division of funds, property, or obligations, a board of arbitrators shall be appointed which shall resolve the dispute. The board shall consist of one person selected by the district from which the territory is withdrawn, one person selected by the district of which it has become a part, and a third person appointed by the county superintendent of schools of the county in which the districts are located. The districts involved may mutually agree that the person appointed as arbitrator by the county superintendent of schools may act as sole arbitrator of the matters to be submitted to arbitration. The necessary expenses and compensation of the arbitrators shall be divided equally between the districts, and the payment of the portion of the expenses is a legal charge against the funds of the school districts. The arbitrator or arbitrators shall make a written finding on the matter submitted to arbitration. The written finding and determination of a majority of the board of arbitrators is final and binding upon the school districts submitting the question

to the board of arbitration.

35566. Notwithstanding any provisions of this article, exchanges of property tax revenues between school districts as a result of reorganization shall be determined pursuant to subdivision (h) of Section 99 of the Revenue and Taxation Code.

#### Article 8. Bonded Indebtedness of School Districts

35570. The provisions of this article shall apply only to the reallocation of bonded indebtedness incurred prior to July 1, 1978.

35571. When a school district is created, annexed, or abolished, or the boundaries thereof changed, the liability to taxation for the outstanding bonded indebtedness of the district or the territory affected thereby is as provided in this article. The authorities whose duty it is to levy taxes for the payment of principal and interest on the outstanding bonds shall levy the taxes upon the districts affected in such proportions as are provided in, or are determined under, the authority of this article.

35572. No territory shall be taken from any school district having any outstanding bonded indebtedness and made a part of another district where the action, if taken, would so reduce the last equalized assessed valuation of a district from which the territory was taken that the outstanding bonded indebtedness of the district would exceed 5 percent of the assessed valuation remaining in the district for each level maintained, on the date the reorganization is effective pursuant to Section 35766.

35573. When any school district is in any manner merged with one or more school districts so as to form a single district by any procedure, the district so formed is liable for all of the outstanding bonded indebtedness of the districts united or merged.

35574. Notwithstanding any other provision of this code, for the purposes of applying the State School Building Aid Law of 1952, Chapter 8 (commencing with Section 16000) of Part 10, the amount of outstanding bonded indebtedness, exclusive of interest, of the divided districts which is equal to the liability incurred by the acquiring district pursuant to Section 35576 shall be considered a liability of the acquiring district for purposes of computing bonding capacity of the district.

35575. When territory is taken from one school district and annexed to another school district and the area transferred contains no public school property or buildings, the territory shall drop any liability for outstanding bonded indebtedness in the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of the district of which it becomes a part.

35576. (a) When territory is taken from one district and annexed to, or included in, another district or a new district by any procedure and the area transferred contains public school buildings or property, the district to which the territory is annexed shall take possession of

the building and equipment on the day when the annexation becomes effective for all purposes. The territory transferred shall cease to be liable for the bonded indebtedness of the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of any district of which it becomes a part.

(b) The acquiring district shall pay the original district the greatest of the amounts determined under provisions of paragraphs (1) or (2) or the amount determined pursuant to a method prescribed under Section 35738.

(1) The proportionate share of the outstanding bonded indebtedness of the original district, which proportionate share shall be in the ratio which the total assessed valuation of the transferring territory bears to the total assessed valuation of the original district in the year immediately preceding the date on which the annexation is effective for all purposes. This ratio shall be used each year until the bonded indebtedness for which the acquiring district is liable has been repaid.

(2) That portion of the outstanding bonded indebtedness of the original district which was incurred for the acquisition or improvement of school lots or buildings, or fixtures located therein, and situated in the territory transferred.

(c) The county board of supervisors shall compute for the reorganized district an annual tax rate for bond interest and redemption which will include the bond interest and redemption on the outstanding bonded indebtedness specified in paragraph (1) or (2) of subdivision (b) or the amount determined pursuant to a method prescribed under Section 35738. The county board of supervisors shall also compute tax rates for the annual charge and use charge prescribed by former Sections 1822.2 and 1825 as they read on July 1, 1970 when such charges were established prior to November 23, 1970. All such tax rates shall be levied in excess of any other ad valorem property tax authorized or required by law and shall not be included in the computation of the limitation specified in subdivision (a) of Section 1 of Article XIII A of the California Constitution.

35577. Whenever an existing school district having authorized but unsold bonds is completely divided between two or more districts so that the existing district ceases to exist, pursuant to any provision of this chapter, the board of supervisors shall, prior to the date the action is effective for the purposes of Section 35534, make and enter an order in the minutes of its proceedings that the authorization to issue the unsold bonds be divided between the districts in the ratio which the assessed valuation of the territory transferred to the districts bears to the total assessed valuation of the former district. Such bonds, if issued by any new district, shall be considered a liability of the new district for purposes of computing the bonding capacity of the new district when applying the State Building Aid Law of 1962, Chapter 8 (commencing with Section 16000) of Part 10.

35578. Any unsold bonds of an elementary, high, or unified school district which is included as a whole in a new school district through any kind of reorganization may be issued by the board of supervisors in the name of the new district and the proceeds derived upon the sale thereof shall be the funds of the new district. However, the proceeds derived upon the sale thereof shall be expended only for the purpose, or purposes, for which such bonds were authorized.

35579. Any unsold bonds of an elementary, high, or unified school district which is included as a whole in a new school district through any kind of reorganization, if issued by the board of supervisors in the names of the old districts, shall be considered a liability of the new district for purposes of computing the bonding capacity of the new district when applying the State School Building Aid Law of 1952, Chapter 8 (commencing with Section 16000) of Part 10.

SEC. 3. Chapter 4 (commencing with Section 35700) is added to Part 21 of the Education Code, to read:

#### CHAPTER 4. REORGANIZATION OF SCHOOL DISTRICTS

##### Article 1. Reorganization of School Districts by the Electorate

35700. An action to reorganize one or more districts is initiated upon the filing, with the county superintendent of schools, of a petition to reorganize one or more school districts signed by any of the following:

(a) At least 25 percent of the registered voters residing in the territory proposed to be reorganized if such territory is inhabited. Where the petition is to reorganize territory in two or more school districts, the petition shall be signed by at least 25 percent of the registered voters in such territory in each such district.

(b) The owner of the property, provided such territory is uninhabited and the owner thereof has filed a tentative subdivision map with the appropriate county or city agency.

(c) A majority of the members of the governing boards of each of the districts which would be affected by the proposed reorganization.

35701. In any petition to reorganize school districts there shall be designated no more than three of the petitioners as chief petitioners for the purpose of receiving notice of any public hearings to be held on the petition.

35702. The persons securing the signatures to a petition of electors to reorganize school districts shall attach thereto an affidavit that all persons who signed the petition did so in the presence of the affiant and that each signature is a genuine signature of the person whose name it purports to be.

35703. Any petition filed under this article may include any of the appropriate provisions specified in Article 3 (commencing with Section 35730).

35704. The county superintendent of schools, within 20 days after

the petition for reorganization is filed, shall examine the petition and, if he or she finds it to be sufficient and signed as required by law, transmit the petition simultaneously to the county committee and to the State Board of Education.

35705. Within 60 days after receipt of the petition, the county committee shall hold one or more public hearings thereon at a regular or special meeting in each of the districts affected by the petition. Notice of the public hearing shall be given at least 10 days in advance thereof to not more than three persons designated in the petition as the chief petitioners, to the governing board of all districts affected by the proposed reorganization, and to all other persons requesting notice of the hearing.

35705.5. (a) The county committee may add to the petition any of the appropriate provisions specified in Article 3 (commencing with Section 35730) which were not included in the petition as filed and may amend any such provision which was so included.

(b) At least 10 days before the public hearing, or hearings, on the petition, the county committee shall make available to the public and to the governing boards affected by the petition a description of the petition, including all of the following:

(1) The rights of the employees in the affected districts to continued employment.

(2) The revenue limit per unit of average daily attendance for each affected district and the effect of the petition, if approved, on such revenue limit.

(3) Whether the districts involved will be governed, in part, by provisions of a city charter and, if so, in what way.

(4) Whether the governing boards of any proposed new district will have five or seven members.

(5) A description of the territory or districts in which the election, if any, will be held.

(6) Where the proposal is to create two or more districts, whether the proposal will be voted on as a single proposition.

(7) Whether the governing board of any new district will have trustee areas and, if so, whether the trustees will be elected by only the voters of that trustee area or by the voters of the entire district.

(8) A description of how the property, obligations, and bonded indebtedness of existing districts will be divided.

(9) A description of when the first governing board of any new district will be elected and how the terms of office for each new trustee will be determined.

35706. Within 90 days after affording the public an opportunity to comment on the petition, including any plans and recommendations included therein, the county committee shall recommend approval or disapproval of the petition as it may be augmented.

35707. Except as provided in Sections 35709 and 35710, the county committee shall forthwith transmit the petition to the State Board of Education together with its recommendations thereon. It shall also

report whether any of the following, in the opinion of the committee, would be true regarding the proposed reorganization as described in the petition:

(1) It would adversely affect the school district organization of the county.

(2) It would be compatible with any master plans submitted by the county committee and approved by the State Board of Education.

(3) It would comply with the provisions of Section 35753.

35708. The petition transmitted pursuant to Section 35707, including the plans and recommendations included therein, if any, together with the recommended approval or disapproval and the plans and recommendations, if any, of the county committee shall be heard by the State Board of Education as provided in Article 4 (commencing with Section 35750).

35709. If the county committee approves the petition, it shall order that the petition be granted, and shall so notify the county board of supervisors if either of the following conditions are met:

(a) The petition is to transfer uninhabited territory from one district to another and the owner of the territory, or a majority of the owners of the territory, and the governing boards of all school districts involved in the transfer consent to the transfer; or

(b) The petition is to transfer inhabited territory of less than 5 percent of the assessed valuation of the district from which the territory is being transferred, and both of the following conditions are satisfied:

(1) All of the governing boards have consented to the transfer.

(2) The county committee finds that the transfer will not affect the racial or ethnic integration of the districts affected.

35710. (a) If the county committee approves the petition, it shall so notify the county superintendent of schools who shall call an election in the manner described in Part 4 (commencing with Section 5000) to be conducted at the next regular election in the territory to be transferred when the petition is to transfer inhabited territory of 5 percent or more of the assessed valuation of the district from which the territory is being transferred and both of the following conditions are met:

(1) All of the governing boards have consented to the transfer.

(2) The county committee finds that the transfer will not affect the racial or ethnic integration of the districts affected.

35711. Any person questioning the finding of the county committee pursuant to Section 35709 or 35710 that the proposed transfer of territory will not adversely affect the racial or ethnic integration of the schools of the districts affected, may appeal a decision made upon such a finding. The appeal shall be made to the State Board of Education within 30 days. The appeal shall be based upon factual and statistical evidence.

If the State Board of Education denies the appeal, the decision of the county committee shall stand. If the State Board of Education

approves the appeal, it shall review the findings of the county committee at a regular meeting of the board.

The State Board of Education shall notify the county committee on its decision on the appeal. If the State Board of Education approves the appeal, the county committee shall transmit a copy of the proceedings to the State Board of Education within 30 days after receipt of notice. The State Board of Education shall review the transcript, considering all factors involved. The State Board of Education may reverse, or may affirm, the decision of the county committee, or if it appears that inadequate consideration was given to the effect of the transfer on integration of the schools of the districts affected, it shall direct the county committee to reconsider its decision and for this purpose to hold another hearing.

## Article 2. County Committee on School District Organization Plans and Recommendations for District Reorganization

35720. Each county committee on school district organization shall, under the direction of the State Board of Education, formulate plans and recommendations for the organization of the districts in the county or any portion thereof including, if appropriate, a portion of one or more adjacent counties.

35720.5. (a) The county committee shall adopt a tentative recommendation following which action it shall hold one or more public hearings in the area proposed for reorganization at least 30 days prior to submission of a final recommendation for unification or other reorganization to the State Board of Education.

(b) The public hearing required by this section shall be called when both of the following conditions are met:

(1) Notice is sent to the governing board of each school district involved at least 10 days prior to the hearing.

(2) Notice of the hearing is posted as provided in Section 5362 or notice of the hearing is published as provided in Section 5363.

(c) The notice shall contain information as to the time, place, and purpose of the hearing.

35721. (a) On receipt of a petition signed by at least 10 percent of the qualified electors residing in any district for a consideration of unification or other reorganization of any area, the county committee shall hold a public hearing thereon at a regular or special meeting.

(b) Following such hearing, the county committee shall grant or deny the petition. If the county committee grants the petition, it shall adopt a tentative recommendation following which action it shall hold one or more public hearings in the area proposed for reorganization. The provisions of Sections 35705 and 35705.5 shall apply to any such public hearing.

35722. Following the public hearing, or last public hearing, required by Section 35720 or subdivision (b) of Section 35721, the county committee may adopt a final recommendation for unification

or other reorganization and shall transmit any such recommendation together with the petition filed under subdivision (a) of Section 35721, if any, to the State Board of Education for hearing as provided in Article 4 (commencing with Section 35750); or shall order the reorganization granted if the requirements of Section 35709 are satisfied; or shall order that an election be held if the requirements of Section 35710 are satisfied.

35723. When a county committee selects an area for study for possible recommendation for reorganization which includes territory of one or more school districts under the jurisdiction of the county superintendent of schools of another county, the county committee shall so notify the members of the county committee of such other county. Thereafter, the members of the county committee of such other county shall be notified by mail of each public hearing or meeting of the county committee at which the proposed reorganization will be considered at least 10 days prior to the day of such hearing or meeting.

35724. If plans and recommendations adopted by a county committee propose changes in the boundaries or status of school districts under the jurisdiction of the superintendent of any adjacent county, the county committee of each such adjacent county shall be requested in writing to concur in the plans and recommendations.

If the county committee of an adjacent county concurs in the plans and recommendations, the concurrence shall accompany the recommendations transmitted to the State Board of Education.

If the county committee of an adjacent county fails to respond to the request for concurrence within 90 days of the date of the request, such failure shall be deemed to be a concurrence in the plans and recommendations.

If a county committee of an adjacent county does not concur in the plans and recommendations, it shall so notify the other county committee in writing and accompany the notification with plans and recommendations for the reorganization of school districts of its county including territory that would be affected by the plans and recommendations of the other county committee. After 60 days from the notification of nonconcurrence, if the county committees are still unable to agree upon plans and recommendations for reorganization of the territory, the county committees, or any of them, may submit plans and recommendations to the State Board of Education, and the board may approve or reject the plans, or any of them, in the same manner as other plans and recommendations.

### Article 3. Contents of Plans and Recommendations

35730. The plans and recommendations, in connection with the proposed formation of a new unified school district to include within its boundaries a chartered city, may provide that the establishment and existence of the governing board of the district shall be governed by the charter of the city and not exclusively by general law. Upon

adoption of plans and recommendations containing such provision, the establishment and existence of the governing board of the district shall thenceforth be governed exclusively by the city charter and the board shall be a city board of education of a chartered city. In the absence of such a recommendation, the proposed new unified district shall be governed by general law.

35731. In any proposal for unification, plans and recommendations may include a provision for a governing board of seven members. In the absence of such a provision, any proposed new district shall have a governing board of five members.

35732. Plans and recommendations may include a provision specifying the territory in which the election to reorganize the school districts will be held. In the absence of such a provision, the election shall be held only in the territory proposed for reorganization.

35733. Whenever the recommendation is to divide the entire territory of an existing school district into two or more separate school districts, the recommendation may provide that the plans and recommendations be voted upon as a single proposition.

35734. The plans and recommendations may include a provision for trustee areas which provide for representation in accordance with population and geographic factors of the entire area of the district. Any such provision shall also specify the boundaries of the proposed trustee areas and shall specify whether members of the governing board shall be elected by the registered voters of the entire school district or by only the registered voters of that particular trustee area. A proposal for trustee areas shall be considered as an inherent part of the proposal and not as a separate proposition.

In the absence of a provision for trustee areas, the proposed new district shall have a governing board of five members elected by the registered voters of the entire district.

35735. Any proposal for reorganization of school districts shall include a computation of the revenue limit per unit of average daily attendance for the proposed new district. Such provision shall be an inherent part of the proposal and shall not be construed as a separate proposition. If the reorganization is approved by the registered voters of the area, such revenue limit per unit of average daily attendance shall be the maximum revenue limit per unit of average daily attendance for the type of new district formed until changed by Section 42238. Such revenue limit per unit of average daily attendance shall not be less than the revenue limit which would be produced if (1) for the year prior to the fiscal year in which the reorganization becomes effective for all purposes, the sum of the revenue limit of each of the districts proposed to be wholly included and the proportional share of the revenue limit of each district to be partially included in the proposed reorganized district is divided by the total number of units of average daily attendance that would have been in the proposed reorganized district had it been

reorganized the year prior to the fiscal year in which the reorganization becomes effective for all programs plus, (2) the revenue limits per unit of average daily attendance required to equal the amount of the difference between the average certificated and the average classified salary and fringe benefits of each of the component districts or any portion of a district during the school year prior to that in which the district becomes effective for all purposes and the highest average certificated and highest average classified salary and fringe benefits of any component district included in the proposal multiplied by the number of employees in each category less the number of employees in each category of the district having the highest average salaries.

In computing the increase in the revenue limit in clause (2), any school district or, a portion of a district to be included in a proposal may be considered in determining the highest average salary or fringe benefits provided that such school district, or a portion of a district, contains at least 10 percent of the total number of certificated and classified employees in the proposed reorganized district, plus (3), the estimated adjustment to the revenue limit per unit of average daily attendance pursuant to Section 42238 that the proposed reorganized district would be allowed had it been reorganized the year prior to the fiscal year in which the reorganization becomes effective for all purposes.

35736. Plans and recommendations may include a proposal for dividing the property, other than real property, and obligations of any school district proposed to be divided between two or more school districts, or proposed to be partially included in one or more school districts. As used in this section, "property" includes funds, cash on hand, and moneys due but uncollected on the date reorganization becomes effective for all purposes, and state apportionments based on average daily attendance earned in the year immediately preceding the date reorganization becomes effective for all purposes. In providing for this division, the plans and recommendations may consider the assessed valuation of each portion of the district, the revenue limit per pupil in each district, the number of children of school age residing in each portion of the district, the value and location of the school property, and such other matters as may be deemed pertinent and equitable. Any such proposal shall be an integral part of the proposal and not a separate proposition.

35737. Plans and recommendations may include a provision specifying that the election for the first governing board will be held at the same time as the election on the reorganization of the school districts. If such a provision is included, it shall specify the method whereby the length of the initial terms may be determined so that the governing board will ultimately have staggered terms which expire in years with regular election dates. In the absence of such a provision, the election of the first governing board will take place on the first regular election following the passage of the reorganization

proposal.

35738. Plans and recommendations may include a method of dividing the bonded indebtedness other than the method specified in paragraphs (1) and (2) of subdivision (b) of Section 35576 for the purpose of providing greater equity in the division. Consideration may be given to assess valuation, number of pupils, property values, and other matters which the petitioners or county committee deems pertinent.

#### Article 4. Approval and Adoption of Plans and Recommendations

35750. The State Board of Education shall establish minimum standards which it shall apply in approving or disapproving petitions and proposals for the formation or reorganization of school districts.

35751. When it is necessary for the State Board of Education to consider petitions submitted under this chapter and prepare a proposal relating to such a petition, each county superintendent of schools and every other county officer in the counties affected, and the district superintendent of the school districts affected shall provide the statistical information required by the Department of Education to complete the study.

35752. When a petition for reorganization of a district is received in the office of the secretary of the State Board of Education, the secretary shall set the petition for hearing at a regular or special meeting of the board. At least 30 days prior to the date of the hearing, he or she shall send by registered mail a notice containing a general statement of the purpose of the petition and the time and place of the hearing to each of the following persons or agencies:

(a) The governing board and district superintendent of each school district whose boundaries would be affected.

(b) The county superintendent and county committee of each county which has jurisdiction over any of the districts whose boundaries would be affected.

(c) The persons designated in the petition as "chief petitioners."

35753. (a) The State Board of Education may approve proposals for the reorganization of districts, if the board has determined, with respect to the proposal and the resulting districts, that all of the following conditions are substantially met:

(1) That the new districts will be adequate in terms of number of pupils enrolled.

(2) That the districts are each organized on the basis of a substantial community identity.

(3) That the proposal will result in an equitable division of property and facilities of the original district or districts.

(4) That the reorganization of the districts will not promote racial or ethnic discrimination or segregation.

(5) The proposed reorganization will not result in any substantial increase in costs to the state.

(6) The proposed reorganization will not significantly disrupt the educational program of districts not included in the proposal.

(7) Such other criteria as the board may, by regulation, prescribe.

(b) The State Board of Education may approve a proposal for the reorganization of school districts if the board determines that it is not practical or possible to apply the criteria of this section literally, and that the circumstances with respect to the proposals provide an exceptional situation sufficient to justify approval of the proposals.

35754. After affording interested persons an opportunity to present their views on the petition and after hearing any findings and recommendations of the State Superintendent of Public Instruction, the State Board of Education shall approve or disapprove the formation of the proposed new district. If the board approves the formation, it may amend or include in the proposal any of the appropriate provisions of Article 3 (commencing with Section 35730).

35755. After the State Board of Education has approved the plans and recommendations for the unification or other reorganization of the school districts in any area, the secretary of the State Board of Education shall give notice of the approval to the county superintendent of schools having jurisdiction over any of the districts whose boundaries or status would be affected by the reorganization as proposed.

35756. The county superintendent of schools, within 20 days after receiving the notification provided by Section 35755, shall call an election, in the manner prescribed in Part 4 (commencing with Section 5000), to be conducted at the next available regular election, in the territory of districts as determined by the State Board of Education.

35757. The county superintendent of schools shall prepare a statement of official information and statistics relating to the proposed reorganization which shall include, but is not limited to, the plans and recommendations, the revenue limit per pupil, the rate of growth, the expected enrollment, and the support from the state which can be expected if such area maintains an adequate school program. Such statistics shall be based upon the school year last completed before the date of the election.

35758. The county superintendent of schools calling the election shall cause to be prepared and distributed a statement setting forth arguments for and against the recommendations. The argument shall not exceed 500 words. The argument in favor of the recommendation shall be prepared by the president of the county board or by a proponent of the recommendations designated by the president. The arguments against the recommendations shall be prepared by a member of the county board who voted against the recommendations, or, if there be none, by an elector designated by the county superintendent of schools who has appeared before the board or at a public hearing in opposition to the recommendation.

35759. The cost of preparation and distribution of the statement

setting forth the arguments in favor of, and those opposed to, the recommendations of the county board, and the cost of any election held pursuant to this article shall be a charge against the general fund of the county. If such district is situated in more than one county, the cost of the election shall be prorated against each county in the same proportion as the assessed valuation of the territory of the proposed new district lying in such county bears to the total assessed valuation of the proposed new districts.

35760. (a) Any circular, pamphlet, letter, poster, or other campaign literature which is designed to promote either the passage or defeat of a ballot measure proposing the reorganization of school districts shall bear on its face, in a conspicuous place, either of the following:

(1) The names and residence addresses of the chairmen and secretary, or the names and residence addresses of at least two officers of the organization issuing it, if issued by an organization.

(2) The name and residence address, with the street and number, if any, of any individual responsible for it, if issued by an individual or individuals.

(b) If any person eligible to vote upon such ballot measure has reason to believe that such campaign literature contains false and misleading statements, he or she may bring an action in the superior court for injunctive relief against further circulation of the literature, and if the court finds that the literature does, in fact, contain false and misleading statements, it may enjoin any further circulation of the literature.

35761. Every qualified elector residing within the territory in which the election is called shall be eligible to vote at such election.

35762. The words to appear upon the ballots used for voting upon the adoption or rejection of the proposals for the reorganization of school districts shall be "Reorganization of school districts—Yes," and "Reorganization of school districts—No," or words of similar import. If the plans and recommendations include a proposal for trustee areas in accordance with Section 35734, such proposal shall be considered a part of the reorganization proposition to be voted upon, and the ballot shall include wording to that effect.

35763. Upon the completion of the canvass of the election returns and the absentee ballots, the county superintendent of schools shall tabulate such returns and the absentee ballots, and notify the Superintendent of Public Instruction, the board of supervisors and the governing board of each affected school district of the number of votes cast for, and the number of votes cast against, the reorganization of school districts in each school district and also the total number of votes cast for, and the total number of votes cast against, the reorganization of school districts.

35764. When a majority of all the votes cast are cast in favor of the reorganization or other proposal, the proposal carries.

35765. After the board of supervisors receives a proper certificate of election or other proper evidence that an action to organize or reorganize school districts has been approved as provided by law, the board of supervisors shall make an order to create, change, or

terminate school districts as may be required by the action and establish or reestablish the boundaries of the districts affected by the action. The order shall be entered in the county's record of school districts.

If the action results in the creation of a district or a change of district boundaries of the type described in Section 54900 of the Government Code, the order of the board of supervisors shall include the legal description of each district created or changed in the action and, immediately after making the order, the board of supervisors shall cause a copy of the order and a map or plat indicating the boundaries established or reestablished for each district affected by the order to be filed as required by Chapter 8 (commencing with Section 54900) of Part 1 of Division 2, Title 5 of the Government Code.

35766. After the expiration of one year from the date of the order, the order shall be conclusive evidence that the school district has been legally organized, or the boundaries legally changed, as the case may be, and no suit shall be maintained which questions the validity of the organization or change of boundaries.

#### Article 5. Lapsation

35780. Any school district which has been organized for more than three years shall be lapsed as provided in this article if the number of registered electors in the district is less than six or if the average daily attendance of pupils in the school or schools maintained by the district is less than six in grades 1 through 8 or is less than 11 in grades 9 through 12, except that for any unified district which has established and continues to operate at least one senior high school, the board of supervisors shall defer the lapsation of the district for one year upon a written request of the governing board of the district and written concurrence of the county committee. The board of supervisors shall make no more than three such deferments.

35781. The attendance of pupils residing in a unified district in high schools in an adjoining state pursuant to Section 44618 or Article 1 (commencing with Section 2000) of Chapter 7 of Part 2, shall be deemed for the purposes of this article to be in high schools established and maintained by the unified district.

35782. Within 30 days after the close of each school year, the county committee shall conduct a public hearing on the issues specified in Section 35780. Notice of the public hearing shall be given at least 10 days in advance thereof to each member of the governing board of the lapsed district immediately prior to its lapsation, to each of the governing boards which adjoin the lapsed district, and to the high school district of which the lapsed elementary district is a component.

35783. After the hearing, the county committee shall order the territory annexed to one or more adjoining districts as seems to the county committee to be in the best interest of the adjoining districts and the residents of the lapsed district.

35784. If the county committee orders the territory of a lapsed district annexed to more than one adjoining district, it may provide for such a division of the funds, property, and obligations of the lapsed district as it deems most equitable in the circumstances. If no division is provided for by the committee, the general provisions of Article 7 (commencing with Section 35560) of Chapter 3 shall apply to the division of funds, property, and obligations of the lapsed district.

35785. Following the order of the county committee, the county superintendent of schools shall give notice of the board action to the county board of supervisors and to the State Board of Education.

SEC. 3.5. Section 37000.5 is added to the Education Code, to read:

37000.5. Notwithstanding any other provision of law, an elementary school district with an average daily attendance of less than 901 may provide educational services to students in grades 6 to 8, inclusive, at a school site outside the boundaries of the elementary school district pursuant to a joint operating agreement, provided such school is located within six miles of the boundary of such elementary school district.

SEC. 4. Article 6 (commencing with Section 39420) of Chapter 3 of Part 23 of the Education Code is repealed.

SEC. 5. Section 44902 of the Education Code is repealed

SEC. 5.5. Section 44955 of the Education Code is amended to read:

44955. No permanent employee shall be deprived of his or her position for causes other than those specified in Sections 44892, 44907, and 44923, and Sections 44932 to 44947, inclusive, and no probationary employee shall be deprived of his or her position for cause other than as specified in Sections 44948 to 44949, inclusive.

Whenever in any school year the average daily attendance in all of the schools of a district for the first six months in which school is in session shall have declined below the corresponding period of either of the previous two school years, whenever the governing board determines that attendance in a district will decline in the following year as a result of the termination of an interdistrict tuition agreement as defined in Section 46304, or whenever a particular kind of service is to be reduced or discontinued not later than the beginning of the following school year, and when in the opinion of the governing board of said district it shall have become necessary by reason of either of such conditions to decrease the number of permanent employees in said district, the said governing board may terminate the services of not more than a corresponding percentage of the certificated employees of said district, permanent as well as probationary, at the close of the school year; provided, that the services of no permanent employee may be terminated under the provisions of this section while any probationary employee, or any other employee with less seniority, is retained to render a service which said permanent employee is certificated and competent to render.

In computing a decline in average daily attendance for purposes of this section for a newly formed or reorganized school district, each

school of the district shall be deemed to have been a school of the newly formed or reorganized district for both of the two previous school years.

As between employees who first rendered paid service to the district on the same date, the governing board shall determine the order of termination solely on the basis of needs of the district and the students thereof. Upon the request of any employee whose order of termination is so determined, the governing board shall furnish in writing no later than five days prior to the commencement of the hearing held in accordance with Section 44949, a statement of the specific criteria used in determining the order of termination and the application of the criteria in ranking each employee relative to the other employees in the group. This requirement that the governing board provide, on request, a written statement of reasons for determining the order of termination shall not be interpreted to give affected employees any legal right or interest that would not exist without such a requirement.

Notice of such termination of services either for a reduction in attendance or reduction or discontinuance of a particular kind of service to take effect not later than the beginning of the following school year, shall be given before the 15th of May in the manner prescribed in Section 44949, and services of such employees shall be terminated in the inverse of the order in which they were employed, as determined by the board in accordance with the provisions of Sections 44844 and 44845. In the event that a permanent or probationary employee is not given the notices and a right to a hearing as provided for in Section 44949, he or she shall be deemed reemployed for the ensuing school year.

The governing board shall make assignments and reassignments in such a manner that employees shall be retained to render any service which their seniority and qualifications entitle them to render.

SEC. 6. Section 45118 of the Education Code is repealed.

SEC. 7. No right or obligation arising out of any provision of law repealed by this act shall be abolished or impaired by the provisions of this act.

SEC. 8. No appropriation is made and no reimbursement is required by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

## CHAPTER 1193

An act to amend Sections 10559, 12201, 12303.7, 13920, 13921, and 13922 of, and to add Chapter 2.1 (commencing with Section 10620) to Part 2 of Division 9 of, and to add and repeal Section 11406 of, the

Welfare and Institutions Code, and to amend Section 33 of Chapter 292 of the Statutes of 1978, relating to public social services.

[Approved by Governor September 27, 1980. Filed with Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 10559 of the Welfare and Institutions Code is amended to read:

10559. There are in the department a division or office devoted to carrying out the provisions of this division pertaining to the services to the blind and another division or office devoted to carrying out the public social services to deaf and hearing impaired persons. The divisions or offices shall each be headed by a chief, one who is a trained social worker experienced in work for the blind, the other a trained social worker or counselor experienced in work for the deaf and hearing impaired or a person experienced in administering a deaf or hearing impaired services program. The duties of the division for the blind and its chief shall be confined to carrying out the provisions of this division pertaining to services to the blind. The duties of the division or office for the deaf and hearing impaired shall be confined to carrying out the provision of public social services to the deaf and hearing impaired. Blindness, deafness, or hearing impairment shall not be grounds to disqualify a person from holding the position of chief of the office or division. The divisions or offices shall not be made a part of any other division, office, or subdivision of the department. The chiefs of the divisions or offices shall be directly responsible to the director.

The director through the divisions or offices may provide consultative services to county personnel administering services to the blind, deaf, or hearing impaired which shall include, but not be limited to, information concerning the various aspects of blindness, deafness, and hearing impairment and its problems and implications, the rehabilitative potential of the blind, deaf and hearing impaired, public and private services available, employment opportunities for blind, deaf, and hearing impaired persons, and concepts in counseling blind, deaf, and hearing impaired persons.

SEC. 2. Chapter 2.1 (commencing with Section 10620) is added to Part 2 of Division 9 of the Welfare and Institutions Code, to read:

#### CHAPTER 2.1. PUBLIC SOCIAL SERVICES FOR DEAF PERSONS

10620. The Legislature finds that over 1.5 million persons in California are deaf or suffer from significant hearing impairment. Basic governmental services are not routinely adapted to meet the communication needs of deaf and hearing impaired persons and, therefore, the services they receive may be less than those provided to other persons because of the overwhelming communication problems which exist between service agencies and deaf and hearing impaired persons.

10621. Public social services for the deaf and hearing impaired shall include, but not be limited to, the following services:

(a) Complete communication services through interpreter services by a professional interpreter for the deaf possessing the comprehensive skills certification of the National Registry of Interpreters for the Deaf or the equivalent, teletypewriter relay, and, when necessary, training in communication skills.

(b) Advocacy to assure deaf and hearing impaired persons receive equal access to public and private services.

(c) Job development and job placement.

(d) Information and referral.

(e) Counseling, including peer counseling.

(f) Independent living skills instruction.

(g) Community education about deafness and hearing impairment.

10622. (3) The services which are to be provided to such needy families with children or needy children eligible for emergency assistance.

(c) The provisions of this section shall only be implemented if federal funds necessary for their implementation are available.

SEC. 4. Section 12201 of the Welfare and Institutions Code, as added by Chapter 511 of the Statutes of 1980, is amended to read:

12201. The payment schedules to go into effect July 1, 1981, and on July 1 of each year thereafter, shall be the amounts set forth in Section 12200, as adjusted to reflect any increases or decreases in the cost of living occurring after December 1, 1979. The cost-of-living adjustment shall be based on the changes in the California Necessities Index, which as used in this section shall be the weighted average of changes for food, clothing, fuel, utilities, rent, and transportation for low-income consumers. The computation of annual adjustments in the California Necessities Index shall be made in accordance with the following steps:

(a) The base period expenditure amounts for each expenditure category within the California Necessity Index used to compute the annual grant adjustment are:

Food .....	\$1,832
Clothing (apparel and upkeep) .....	298
Fuel and other utilities .....	264
Rent, residential .....	2,303
Transportation .....	1,026
<hr/>	
Total .....	\$5,723

(b) Based on the appropriate components of the Consumer Price Index for All Urban Consumers, as published by the United States Department of Labor, Bureau of Labor Statistics, the percentage change shall be determined for the twelve-month period ending with the December preceding the year for which the cost-of-living adjustment will take effect, for each expenditure category specified in subdivision (a) within the following geographical areas: Los Angeles-Long Beach-Anaheim, San Francisco-Oakland, San Diego, and, to the extent statistically valid information is available from the Bureau of Labor Statistics, additional geographical areas within the

state which include not less than 80 percent of recipients of aid under this chapter.

(c) Calculate a weighted percentage change for each of the expenditure categories specified in subdivision (a) using the applicable weighting factors for each area used by the State Department of Industrial Relations to calculate the California Consumer Price Index (CCPI).

(d) Calculate a category adjustment factor for each expenditure category in subdivision (a) by (1) adding one hundred (100) to the applicable weighted percentage change as determined in subdivision (b) and (2) dividing the sum by one hundred (100).

(e) Determine the expenditure amounts for the current year by multiplying each expenditure amount determined for the prior year by the applicable category adjustment factor determined in subdivision (d).

(f) Determine the overall adjustment factor by dividing (1) the sum of the expenditure amounts as determined in subdivision (d) for the current year by (2) the sum of the expenditure amounts as determined in subdivision (d) for the prior year.

The overall adjustment factor determined by the preceding computational steps shall be multiplied by the payment schedules established pursuant to Section 12200 as are in effect during the month of June preceding the fiscal year in which the adjustments are to occur, and the product rounded to the nearest dollar. The resultant amounts shall constitute the new schedules for the categories given under subdivisions (a), (b), (c), (d), (e), (f), and (g) of Section 12200, and shall be filed with the Secretary of State. The amount as set forth in subdivision (h) of Section 12200 shall be adjusted annually pursuant to this section in the event that the secretary agrees to administer payment under that subdivision. The payment schedule for subdivision (i) of Section 12200 shall be computed as specified, based on the new payment schedules for subdivisions (a), (b), (c), and (d) of Section 12200.

The department shall adjust any amounts of aid under this section to insure that the minimum level required by the Social Security Act in order to maintain eligibility for funds under Title XIX of that act is met.

The repeal and addition of this section at the 1979-80 Regular Session of the Legislature shall not affect, during the 1980-81 fiscal year, the benefits, standards, or other amounts contained in any program for which a cost-of-living increase is incorporated by reference to the provisions of this section except for the program described in Section 13100. The benefits, standards, or other amounts contained in any of these programs shall, on and after July 1, 1981, be based on the benefits, standards, or other amounts in effect on June 30, 1981, increased by the percentage cost-of-living increase currently provided for by this section.

SEC. 5. Section 12303.7 of the Welfare and Institutions Code is amended to read:

12303.7. Any aged, or disabled applicant or recipient who is eligible for assistance under this article, whose disabilities prevent

the use of cooking facilities at home, shall be given the option to receive an allowance of forty-three dollars (\$43) per month for an individual and eighty-six dollars (\$86) per month for a married couple in lieu of the appropriate in-home food preparation and consumption services. The allowance under this section shall be in addition to any amount that the applicant or recipient is entitled to under this chapter. Such allowance shall not have the effect of exceeding the total cost maximum of Sections 12303.5 and 12304. Nothing in this section shall be construed to limit the applicant's or recipient's right to receive the allowance under this section and all other homemaker and chore services.

The State Department of Social Services shall adjust the amount of the allowance under this section on July 1, 1981, and each year thereafter to reflect cost-of-living changes subsequent to January 1, 1980, as provided under Section 12201.

SEC. 6. Section 13920 of the Welfare and Institutions Code is amended to read:

13920. For a person living in a nonmedical out-of-home care facility the department may establish varying allowances for room, board and care, provided that the minimum allowance shall not be less than three hundred sixty-one dollars (\$361) per month and the amount so established shall be subject to increases in accordance with the cost-of-living increase formula set forth in Section 12201.

The room, board and care allowance established pursuant to this section does not include the personal and incidental needs established pursuant to Section 13921.

SEC. 7. Section 13921 of the Welfare and Institutions Code is amended to read:

13921. The department shall establish a range of amounts for the personal and incidental needs of recipients in out-of-home care under this chapter provided that the minimum amount for personal and incidental needs shall not be less than fifty-three dollars (\$53) per month and that the range of amounts so established shall be subject to increases in accordance with the cost-of-living increase formula set forth in Section 12201.

SEC. 8. Section 13922 of the Welfare and Institutions Code is amended to read:

13922. The sum of the allowances established in Sections 13920 and 13921 shall not be less than four hundred fifty-four dollars (\$454) and shall be the sum for purposes of subdivision (g) of Section 12200. Should such sum result in individuals or members of couples becoming ineligible for categorically needy medical services under Section 14005.1, then the sum shall be reduced separately for individuals to the highest whole dollar amount which will allow all individuals to retain eligibility under Section 14005.1 and for members of couples to the highest whole dollar amount which will allow all members of couples to retain such eligibility.

SEC. 9. Section 33 of Chapter 292 of the Statutes of 1978 is amended to read:

Sec. 33. Notwithstanding any other provision of law, for the period from July 1, 1978, to June 30, 1979, the state shall pay the following:

(a) Each county's share toward the cost of payments provided pursuant to the State Supplementary Program under Chapter 3 (commencing with Section 12000) of Part 3 of Division 9 of the Welfare and Institutions Code, as specified in Section 12400 of that code.

(b) Each county's share toward the cost of health care provided pursuant to the Medi-Cal Program under Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code, as specified in Sections 14150, 14150.3, and 14150.5 of that code.

(d) Ninety-five percent of the nonfederal share of payments for foster care pursuant to Sections 11450(b) and 11403 of the Welfare and Institutions Code, provided that no county shall be reimbursed for any rate increases negotiated with any boarding home or institution subsequent to June 1, 1978, unless so authorized by the Director of the State Department of Social Services upon the director's determination that such rate increases are necessary and fiscally prudent.

It is the Legislature's intent that the initial payment upon which any increase is calculated for any group home shall be the payment in effect or negotiated on or before June 1, 1978, unless adjusted by a final audit report the results of which were communicated in writing to the group home prior to January 1, 1979.

(e) Each county's share of costs for the administration of the Aid to Families With Dependent Children Program, as specified in Section 15204.2.

(f) Each county's share of the cost of administration of the federal Food Stamp Program under Chapter 10 (commencing with Section 18900) of Part 6 of Division 9 of the Welfare and Institutions Code, as specified in Section 18906 of that code.

Notwithstanding any other provision of law, no obligation for payment may be imposed on a county for the 1978-79 fiscal year under the provisions of Section 12400, 14150, 14150.3, or 14150.5 of the Welfare and Institutions Code. The addition of this paragraph made by the 1979-80 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the existing law.

SEC. 10. Section 3 of this act shall remain in effect only until July 1, 1983, and as of such date is repealed, unless a later enacted statute, which is chaptered before July 1, 1983, deletes or extends such date.

SEC. 11. Funds appropriated by Item 312 of the Budget Act of 1980 for demonstration projects for the deaf which have not been expended by December 31, 1980, or by the effective date of the contracts entered into pursuant to Section 10626 of the Welfare and

Institutions Code, whichever is later, shall be used by the State Department of Social Services to implement Sections 1 and 2 of this act. Contracts pursuant to Section 10626 of the Welfare and Institutions Code shall be finalized only after the department promulgates requests for proposals and conducts bidder conferences.

The Director of Finance may transfer up to 5 percent of the appropriation in Item 312 of the Budget Act of 1980 for the demonstration projects for the deaf to, and in augmentation of Item 309 of the Budget Act of 1980.

## CHAPTER 1196

An act to amend Sections 25300 and 25403.5 of the Public Resources Code, and to add Section 321 to the Public Utilities Code, relating to energy resources.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980]

*The people of the State of California do enact as follows:*

SECTION 1. Section 25300 of the Public Resources Code is amended to read:

25300. Every electric utility in the state shall prepare and transmit to the commission on or before March 1, 1976, and every two years thereafter, a report specifying 5-, 12-, and 20-year forecasts or assessments of loads and resources for its service area. The report shall set forth the facilities which, as determined by the electric utility, will be required to supply electric power during the forecast

or assessment periods. The report shall be in a form specified by the commission and shall include all of the following:

(a) A tabulation of estimated peakloads, resources, and reserve margins for each year during the 5- and 12-year forecast or assessment periods, and an estimate of peakload, resources, and reserve margins for the last year in the 20-year forecast or assessment period.

(b) A list of existing electric generating plants in service, with a description of planned and potential generating capacity at existing sites.

(c) A list of facilities which will be needed to serve additional electrical requirements identified in the forecasts or assessments, the general location of such facilities, and the anticipated types of fuel to be utilized in the proposed facilities.

(d) A description of additional system capacity which might be achieved through, among other things, improvements in (1) generating or transmission efficiency, (2) importation of power, (3) interstate or interregional pooling, and (4) other improvements in efficiencies of operation.

(e) An estimation of the availability and cost of fuel resources for the 5-, 12-, and 20-year forecast or assessment periods with a statement by the electric utility describing firm commitments for supplies of fuel required during the forecast or assessment periods.

(f) An annual load duration curve and a forecast of anticipated peakloads for each forecast or assessment period for the residential, commercial, industrial, and such other major demand sectors in the service area of the electric utility as the commission shall determine.

(g) A description of projected population growth, urban development, industrial expansion, and other growth factors influencing increased demand for electric energy and the bases for such projections.

(h) Certification by the utility that aggressive conservation programs in the residential, commercial, and industrial sectors are being pursued, including load management standards adopted by the commission pursuant to Section 25403.5; and a statement specifying the extent to which such programs are achieving enhanced energy efficiency and conservation and the extent to which such programs do not, in the utility's evaluation, mitigate the need for additional facilities or, with respect to a publicly owned utility, that the governing body thereof has found the load management standards, as prescribed by the commission pursuant to Section 25403.5, or a portion thereof are unsuitable, together with an explanation of why the standards or portions thereof are unsuitable.

SEC. 2. Section 25403.5 of the Public Resources Code is amended to read:

25403.5. The commission shall, by July 1, 1978, adopt standards by regulation for a program of electrical load management for each utility service area. In adopting the standards, the commission shall consider, but need not be limited to, the following load management

techniques:

(1) Adjustments in rate structure to encourage use of electrical energy at off-peak hours or to encourage control of daily electrical load. Compliance with such changes in rate structure shall be subject to the approval of the Public Utilities Commission in a proceeding to change rates or service.

(2) End use storage systems which store energy during off-peak periods for use during peak periods.

(3) Mechanical and automatic devices and systems for the control of daily and seasonal peakloads.

The standards shall be cost effective when compared with the costs for new electrical capacity, and the commission shall find them to be technologically feasible. Any expense or any capital investment required of a utility by the standards shall be an allowable expense or an allowable item in the utility rate base and shall be treated by the Public Utilities Commission as such in a rate proceeding.

The commission may determine that one or more of such techniques are infeasible and may delay their adoption. If the commission determines that any techniques are infeasible to implement, it shall make a finding in each instance stating the grounds upon which the determination was made and the actions it intends to take to remove the impediments to implementation. The commission's findings shall be published and forwarded to the Governor and the Legislature.

The commission may also grant, upon application by a utility, an exemption from the standards or a delay in implementation. The grant of an exemption or delay shall be accompanied by a statement of findings by the commission indicating the grounds for the exemption or delay. Exemption or delay shall be granted only upon a showing of extreme hardship, technological infeasibility, lack of cost effectiveness, or reduced system reliability and efficiency.

This section does not apply to proposed sites and related facilities for which a notice of intent or an application requesting certification has been filed with the commission prior to the effective date of the standards.

SEC. 3. Section 321 is added to the Public Utilities Code, to read:

321. The Legislature hereby declares that it is the policy of the state to utilize consistent methodologies for the determination of cost-effectiveness for energy conservation programs for residential buildings. The Public Utilities Commission and the State Energy Resources Conservation and Development Commission shall jointly develop and adopt a common methodology for cost-effectiveness calculations using common data to the maximum extent feasible. This shall be accomplished by December 31, 1981, as required by Section 25402.3 of the Public Resources Code.

This section shall become operative only if Senate Bill No. 1185 of the 1979-80 Regular Session is enacted into law.

Article 4. Alcohol Fueled Motor Vehicles

43840. (a) The Legislature finds and declares that emission of air pollutants from motor vehicles is a major contributor to air pollution within the State of California and, therefore, declares its policy to encourage the testing of various types of vehicle fuels, which would contribute substantially to the protection and preservation of the public health and well-being.

(b) The Legislature further finds and declares that programs to expand the use of alcohols as substitutes for gasoline and other petroleum-based fuels can offer significant environmental benefits while reducing the nation's dependence on imported crude oil.

(c) The Legislature further finds and declares that pure alcohol fuels burn cleanly and that motor vehicles fueled with alcohol can be modified at reasonable cost to burn alcohol fuels without decreasing efficiency and without creating air quality problems.

(d) It is, therefore, the intent and purpose of the Legislature, to authorize the establishment of a demonstration program in the County of Ventura for the testing of pure alcohol fuels in the county and municipal motor vehicle fleets.

43841. The Secretary of the Business and Transportation Agency shall reimburse the County of Ventura from funds appropriated for alternative motor vehicle fuels for the cost of conversion of fleet vehicles provided that the state board finds both of the following:

(a) All changes to the vehicles are absolutely necessary for the vehicles to operate on pure alcohol.

(b) The fuel systems of the motor vehicles have been certified pursuant to Section 43006.

43841.5. The Secretary of the Business and Transportation Agency shall make the reimbursement pursuant to Section 43841 only in the event the County of Los Angeles and the California Energy Commission fail to reach an agreement, on or before December 31, 1980, to conduct a demonstration program similar to that provided in this article, as determined by the secretary, for the testing of alcohol fuels. If the County of Los Angeles and the State Energy Resources Conservation and Development Commission do reach such an agreement by December 31, 1980, no reimbursement shall be made pursuant to this article.

## CHAPTER 1202

An act to add Chapter 7.5 (commencing with Section 4740) to Division 4.1 of the Welfare and Institutions Code, relating to the developmentally disabled.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 7.5 (commencing with Section 4740) is added to Division 4.1 of the Welfare and Institutions Code, to read:

CHAPTER 7.5. RESIDENTIAL CARE FACILITY APPEALS  
PROCEDURES

4740. The Legislature finds the following:

(a) The quality of care provided to persons with developmental disabilities by residential facilities is contingent upon a closely coordinated "team" effort by the regional center or its designee, the client, the parent or representative if appropriate, the residential facility administrator, and the licensing agency. The rights and responsibilities of each must be identified in order to assure clear direction and accountability for each.

(b) The quality of care is impaired when inordinate numbers of staff from placement and licensing agencies give direction to the facility administrator regarding care and service requirements.

4741. An adult person with a developmental disability has the legal right to determine where his or her residence will be. Except in a situation which presents immediate danger to the health and well-being of the individual, the regional center or its designee shall not remove a client from a residential care facility against the client's wishes unless there has been specific court action to abridge such right with respect to an adult or unless the parent, guardian or conservator consents with respect to a child.

4742. The regional center or its designated representative shall (a) guide and counsel facility staff regarding the care and services required by each client served by the regional center; and (b) monitor the care and services provided the individual to assure that care and services are provided in accordance with the individual program plan.

4743. It is the intent of the Legislature that to the greatest extent possible, the staff of the regional center or its designee are assigned so as to minimize the number of persons responsible for programs provided in a given facility.

The regional center or its designee shall designate the staff person responsible for assuring that each individual client's program plan is carried out. One person shall be assigned by the regional center as

the principal liaison to a facility and to monitor the provision of care and the services provided by that facility in accordance with the individual program plans. If, due to the number of regional center clients in the facility, additional staff of a regional center or its designee serve clients in the facility, one person shall be assigned as having primary responsibility for, and assure consistency and continuity of, directions to the administrator and for the monitoring of care and services.

4744. The regional center or its designee shall provide to the residential facility administrator all information in its possession concerning any history of dangerous propensity of the client prior to the placement in that facility. However, no confidential client information shall be released pursuant to this section without the consent of the client or authorized representative.

4745. During each visit to the facility, the designated staff person shall inform the administrator orally of any substantial inadequacies in the care and services provided, the specific corrective action necessary and the date by which corrective action must be completed. The designated staff person shall confirm this information in writing to the administrator within 48 hours after the oral notice and inform the administrator of the right to appeal the findings.

4746. The severity of the deficiencies and the quality of care provided shall determine how long the regional center or its designee will work with the facility administrator to resolve inadequacies. After a reasonable period of time, if the care continues to be unacceptable, the designated staff person shall submit to his or her supervisor and to the licensing agency and administrator a recommended disposition with supporting documents attached. The placement agency shall develop sufficient documentation of inadequacies and care provided to sustain corrective action.

4747. If an adult person or the parent, guardian or conservator on behalf of a child requests a relocation, the regional center or its designee may provide assistance in locating and moving to another residence.

The regional center or its designee shall not encourage a client to move from a residential facility without reasonable cause. If reasonable cause does exist, the regional center or its designee shall give at least 15 days' written notice to the facility administrator of the intent, prior to counseling the client to move.

4748. Within nine months of the effective date of this section, the State Department of Developmental Services shall develop and implement regulations for use by the regional center or its designee to assure uniformity of the care and services to be provided to persons registered with the regional centers who reside in residential facilities.

## CHAPTER 1203

An act to add and repeal Article 4.5 (commencing with Section 48990) to Chapter 6 of Part 27 of the Education Code, relating to schools.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Article 4.5 (commencing with Section 48990) is added to Chapter 6 of Part 27 of the Education Code, to read:

Article 4.5. Notification Pilot Program

48990. The Department of Education shall establish a pilot program to notify parents and guardians of statutes and regulations relating to, but not limited to, all the following:

- (a) Liability of parent or guardian for the acts of the pupil.
- (b) Criminal acts of the pupil committed at a school site or at a school-related activity.
- (c) Status offenses committed at a school site or at a school-related activity.

48991. (a) The Department of Education shall select five school districts with schools located in high crime areas to participate in the program. Only school districts which have requested to participate in the pilot project shall be selected.

(b) The cumulative average daily attendance of the selected districts shall be at least 10,000.

(c) Only pupils enrolled in the 7th to 12th grade, inclusive, of the selected districts and their parents or guardians shall participate in the program.

(d) The governing board of each selected school district shall notify the parents and guardians of pupils enrolled in the 7th to 12th grade, inclusive, of statutes and regulations enumerated in Section 48990. Such notification shall be made as part of the notification required by Article 4 (commencing with Section 48980).

(e) The governing board of each selected school district shall provide for meetings of parents and appropriate school employees to discuss the statutes and regulations. The meetings shall be held within a reasonable time after the parents or guardians receive notification of such statutes and regulations.

48992. The governing board of each selected school district shall report annually to the Department of Education on the effectiveness of the program in reducing crime in the district.

48993. The Department of Education shall report annually to the Legislature on the effectiveness of the program in reducing crime in

the selected school districts. It is the intent of the Legislature that the evaluation report required by this section be prepared with the existing resources available to the Department of Education. No additional funds shall be made available to the Department of Education for preparation and publication of such report.

48994. The Department of Education shall apply to the federal government or any agency thereof, and to any other source or agency, whether public or private, for a gift or grant of funds for the implementation of the program prescribed by this article.

48995. This article shall remain in effect only until December 31, 1983, and as of such date is repealed, unless a later enacted statute, which is chaptered before December 31, 1983, deletes or extends such date.

## CHAPTER 1204

An act to amend Section 604 of, and to add and repeal Section 606 of, the Health and Safety Code, relating to public health nurses.

[Approved by Governor September 27, 1980. Filed with Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 604 of the Health and Safety Code is amended to read:

604. A nonreturnable fee, as determined by the state department, not to exceed thirty-five dollars (\$35) shall be paid by a person at the time of application for certification as a public health nurse. All fees payable under the provisions of this section shall be collected by and paid to the state department, and shall be deposited by the state department in the General Fund. It is the intention of the Legislature that the costs of carrying out the purposes of this chapter shall be covered by the revenues collected pursuant to this section.

SEC. 2. Section 606 is added to the Health and Safety Code, to read:

606. (a) The state department, in consultation with the Task Force on Public Health Nursing of the California Conference of Local Health Officers, shall implement a pilot program which allows registered nurses to qualify for certification as public health nurses based upon a combination of educational, practical public health nursing experience, and successful passage of an examination.

(b) Participation in the pilot project described in subdivision (a) is limited to California-licensed registered nurses graduated from nursing schools in the United States who (1) hold a baccalaureate degree in a field other than nursing and have additional public health nursing coursework and public health nursing experience, or

(2) hold a baccalaureate degree in nursing from a school not accredited by the National League of Nursing, or (3) have public health nursing experience and additional public health nursing coursework but no baccalaureate degree.

(c) The state department shall charge each applicant for participation in the pilot program a fee, equal to the cost of implementing the program pursuant to subdivision (a), but not to exceed thirty-five dollars (\$35).

This section shall remain in effect until January 1, 1985, and on such date is repealed, unless a later enacted statute chaptered on or before such date deletes or extends such date. The department shall report to the Legislature, describing the competency testing mechanism being utilized, evaluating the program to date, making recommendations for legislative action. Such report shall include the number of applicants certified under this pilot program, the number of applicants who failed certification, the success of such certified applicants in finding employment, and the value of using the competency based test to test all applicants for public health nurse certification. The evaluation of the project shall be based on the validity of the test and its ability to screen applicants for their knowledge and competence to perform as public health nurses. Such report shall be made on or before July 1, 1983.

## CHAPTER 1205

An act to amend and renumber Section 7900 of, and to add Division 9 (commencing with Section 7900) to Title 1 of, the Government Code, relating to state and local government.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 7900 of the Government Code, as added by Chapter 220 of the Statutes of 1980, is amended and renumbered to read:

7902.5. The governing body of any city incorporated after July 1, 1978, but prior to January 1, 1980, may, by resolution, adopt an appropriations limit for the purposes of Article XIII B of the California Constitution determined in the following manner:

(a) If the city's first full fiscal year of operation was the 1979-80 fiscal year, the appropriations limit of the city for fiscal year 1980-81 shall be equal to the total amount of proceeds of taxes received for fiscal year 1979-80 adjusted for changes in the cost of living and population and such other changes as may be required or permitted by Article XIII B.

(b) If the city's first full fiscal year of operation is the 1980-81 fiscal

year, the governing body of the city shall, prior to July 1, 1980, estimate the amount of revenue anticipated to be received by the city from the proceeds of taxes for the 1980-81 fiscal year. This amount shall be the appropriations limit of the city for the 1980-81 fiscal year. For the 1981-82 fiscal year and each fiscal year thereafter, the appropriations limit of the city shall be equal to the total amount of proceeds of taxes received for fiscal year 1980-81 adjusted for changes in the cost of living and population and such other changes as may be required or permitted by Article XIII B.

SEC. 2. Division 9 (commencing with Section 7900) is added to Title 1 of the Government Code, to read:

### DIVISION 9. EXPENDITURE LIMITATIONS

7900. (a) The Legislature finds and declares that the purpose of this division is to provide for the effective and efficient implementation of Article XIII B of the California Constitution.

(b) It is the intent of the Legislature that citizens be provided with timely information so that effective oversight can be accomplished at the local level.

7901. For the purposes of Article XIII B of the California Constitution and this division:

(a) "Change in California per capita personal income" for a calendar year means the number resulting when the quotient of the California personal income, as published by the U.S. Department of Commerce in the Survey of Current Business for the fourth quarter of a calendar year divided by the civilian population of the state on January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly determined quotient for the next prior year. For example, the change in California per capita personal income for 1979 (to be used for computing the appropriations limit for the 1980-81 fiscal year) would equal the fourth quarter 1979 personal income divided by the January 1, 1980, population, the quotient divided by the fourth quarter 1978 personal income divided by the January 1, 1979, population.

(b) "Change in cost of living" for a calendar year means the number resulting when the United States All Urban Consumer Price Index for the month of March of a calendar year is divided by such index for the month of March of the prior calendar year.

(c) "Change in population" for a local agency for a calendar year means the number resulting when the percentage change in population between January 1 of the next calendar year and January 1 of the calendar year in question, as estimated by the Department of Finance pursuant to Section 2227 of the Revenue and Taxation Code for each city and county and Section 2228 of the Revenue and Taxation Code for each special district, plus 100, is divided by 100. For example, the change in population for 1979 would equal the percentage change in population between January 1, 1980, and January 1, 1979, plus 100, the sum divided by 100. For purposes of the state's appropriations limit, "change in population" means the number resulting when the civilian population of the state on

January 1 of the next calendar year, as estimated by the Department of Finance, is divided by the similarly estimated population for January 1 of the calendar year in question. For example, the change in population for 1979 (to be used for computing the appropriations limit for the 1980-81 fiscal year) would equal the January 1, 1980, population divided by the January 1, 1979, population.

(d) "Change in population" for a school district means the number resulting when the second principal apportionment units of average daily attendance for the current regular school year, excluding average daily attendance in summer programs, adult education programs, and in regional occupational centers and programs, is divided by the corresponding number for the preceding year.

(e) "Change in population" for a community college district means the number resulting when the average daily attendance for the community college district for the current year computed pursuant to Section 84500 of the Education Code is divided by the similarly computed average daily attendance for the previous year.

(f) "Local agency" means a city, county, city and county, special district, authority or other political subdivision of the state, except a school district, community college district, or county superintendent of schools. The term "special district" shall not include any district which (1) existed on January 1, 1978, and did not possess the power to levy a property tax at that time or did not levy or have levied on its behalf, an ad valorem property tax rate on all taxable property in the district on the secured roll in excess of 12½ cents per \$100 of assessed value for the 1977-78 fiscal year, or (2) existed on January 1, 1978, or was thereafter created by a vote of the people, and is totally funded by revenues other than the proceeds of taxes as defined in subdivision (c) of Section 8 of Article XIII B of the California Constitution.

If a special district levied, or had levied on its behalf, different property tax rates for the 1977-78 fiscal year depending on which area or zone within the district boundaries property was located, it shall be deemed not to have levied a secured property tax rate in excess of 12½ cents per \$100 of assessed value if the total revenue derived from the ad valorem property tax levied by or for the district for 1977-78, divided by the total amount of taxable assessed valuation within the district's boundaries for 1977-78, does not exceed .00125.

(g) "School district" means an elementary, high school, or unified school district.

(h) "Local jurisdiction" means a local agency, school district, community college district, or county superintendent of schools.

(i) As used in Section 2 and subdivision (b) of Section 3 of Article XIII B, "revenues" means all tax revenues and the proceeds to a local jurisdiction or the state received from (1) regulatory licenses, user charges, and user fees to the extent that such proceeds exceed the costs reasonably borne by such entity in providing the regulation, product, or service, and (2) the investment of tax revenues as described in subdivision (i) of Section 8 of Article XIII B. For a local jurisdiction, revenues and appropriations shall also include

subventions, as defined in Section 7903, and with respect to the state, revenues and appropriations shall exclude such subventions.

(j) "Proceeds of taxes" shall not include proceeds to a local jurisdiction or the state from regulatory licenses, user charges, or user fees except to the extent that such proceeds exceed the costs reasonably borne by such entity in providing the regulation, product, or service.

7902. (a) For the 1980-81 fiscal year, the appropriations limit of the state and of each local jurisdiction shall be determined as follows:

(1) Multiply the total amount of appropriations subject to limitation of each such entity for the 1978-79 fiscal year by the lesser of the change in cost of living for the 1979 calendar year or the change in California per capita personal income for the 1978 calendar year, and multiply this product by the change in population of each such entity for the 1978 calendar year.

(2) Multiply the product determined pursuant to paragraph (1) by the lesser of the change in cost of living for the 1980 calendar year or the change in California per capita personal income for the 1979 calendar year, and multiply this product by the change in population of each entity for the 1979 calendar year. The resulting product, as adjusted for other changes required or permitted by Article XIII B of the California Constitution, shall be the appropriations limit of each entity for fiscal year 1980-81.

(b) For the 1981-82 fiscal year and each year thereafter, the appropriations limit of the state and of each local jurisdiction shall equal the appropriations limit for the prior fiscal year multiplied by the lesser of the change in cost of living for the calendar year in which the fiscal year begins or the change in California per capita personal income for the calendar year preceding the beginning of the fiscal year for which the appropriations limit is to be determined, the product multiplied by the change in population of the local jurisdiction for the calendar year preceding the beginning of the fiscal year for which the appropriations limit is to be determined, and adjusted for other changes required or permitted by Article XIII B of the California Constitution.

(c) For the purposes of this division, if a local agency's fiscal year begins on January 1, the agency shall base its appropriations limit on its appropriations subject to limitation for the 1979 calendar year. For such agency, the 1981 calendar year shall be the first year for which the appropriations limit shall apply. For purposes of the computations required by this section, such agency shall use the change in population, cost-of-living, and per capita personal income factors which it would have used had its fiscal year begun on the previous July 1.

7903. "State subventions" shall include only money received by a local agency from the state, the use of which is unrestricted by the statute providing the subvention.

7904. In no event shall the appropriation of the same proceeds of taxes be subject to the appropriations limit of more than one local jurisdiction or the state.

7905. Revenues to a local jurisdiction from regulatory licenses, user charges, or user fees may be aggregated if they are reasonably related.

7906. For school districts:

(a) "ADA" means a school district's second principal apportionment units of average daily attendance in the regular school year, excluding average daily attendance in summer programs, adult education programs, and regional occupational centers and programs.

(b) "Foundation program level" means:

(1) For the 1978-79 fiscal year, one thousand two hundred forty-one dollars (\$1,241) for elementary districts, one thousand three hundred twenty-two dollars (\$1,322) for unified districts, and one thousand four hundred twenty-seven dollars (\$1,427) for high school districts.

(2) For the 1979-80 fiscal year and each fiscal year thereafter, the levels specified in paragraph (1) increased by the lesser of the change in cost of living or California per capita personal income for the preceding calendar year.

(c) "Proceeds of taxes" shall be deemed to include subventions received from the state only if those subventions are for one of the following two purposes:

(1) Basic aid subventions of \$120 per ADA.

(2) Additional apportionments, if any, which, when added to the district's local revenues as defined in Section 42237 or 42238 of the Education Code, do not exceed the foundation program level for that type of district. Any apportionments which are provided in excess of the amount needed to increase a district's 1978-79 revenue limit per ADA by the lesser of the change in cost of living or California per capita personal income, shall not be considered to be proceeds of taxes for that school district.

(d) The remainder of the state apportionments, including special purpose apportionments and categorical aid subventions shall not be considered proceeds of taxes for a school district.

7907. For county superintendents of schools:

(a) "Proceeds of taxes" shall be deemed to include subventions received from the state only if those subventions are received for programs operated pursuant to:

(1) Subdivision (e) of Section 2500, Section 2500.1, Section 1982 for pupils specified in subdivision (c) of Section 1981, Section 14057 for programs operated pursuant to Sections 48633 and 48634, Section 1904 and subdivision (a) of Section 1908, Section 52570, or Section 1806 of the Education Code; or

(2) Section 1510, 2504, 2506, 2506.5, or 2509 of the Education Code.

(b) For programs identified in paragraph (1) of subdivision (a), an amount shall be calculated equal to the appropriations made for those programs from the proceeds of taxes for the 1978-79 fiscal year, adjusted for the 1979-80 and 1980-81 fiscal years by the lesser of the change in cost-of-living or change in California per capita personal income applicable to each year and by the percentage change in

average daily attendance in those programs for the 1979–80 and 1980–81 fiscal years.

(c) For all other programs operated by the county superintendent of schools, including, but not limited to, the programs identified in paragraph (2) of subdivision (a), an amount shall be calculated equal to the appropriations made for those programs from the proceeds of taxes for the 1978–79 fiscal year, adjusted for the 1979–80 and 1980–81 fiscal years by the lesser of the change in cost-of-living or change in California per capita personal income for each year and by the percentage change in population (as defined by subdivision (d) of Section 7901) for all the districts in the county for the 1979–80 and 1980–81 fiscal years.

(d) The sum of the amounts calculated in subdivisions (b) and (c) shall be the appropriations limit for the county superintendent for the 1980–81 fiscal year.

(e) For the 1981–82 fiscal year and each year thereafter, the appropriations limit for the prior year shall be adjusted by the appropriate average daily attendance and the lesser of the change in cost-of-living or California per capita personal income.

(f) State apportionments to county superintendents in excess of the amounts in (d) or (e) shall not be considered proceeds of taxes for a county superintendent of schools.

7908. For community college districts:

(a) As used in this section, “ADA” means the annual average daily attendance reported for students attending the community college district during the fiscal year.

(b) “Proceeds of taxes” shall be deemed to include subventions from the state only if those subventions, when added to the district’s local resources, as defined in items (2) and (3) of subdivision (a) of Section 84904 of the Education Code, do not exceed:

(1) For the 1978–79 fiscal year, the lesser of the statewide average revenues or the actual revenues received per ADA, as defined in paragraph (1) of subdivision (c) of Section 84700 of the Education Code, multiplied by the ADA in the district for the 1978–79 fiscal year.

(2) For the 1979–80 fiscal year and each fiscal year thereafter, the amount specified in paragraph (1) adjusted by the lesser of the change in cost-of-living or California per capita personal income for the preceding calendar year and the percentage change in the district’s ADA for that fiscal year.

(c) The remainder of state apportionments, including special purpose apportionments and categorical aid subventions, shall not be considered proceeds of taxes for a community college district.

7909. No later than May 1 of each year, the Department of Finance shall notify each local jurisdiction of the change in the cost-of-living or change in California per capita income, whichever is less, and population for each local jurisdiction for the prior calendar year.

7910. Each year the governing body of each local jurisdiction shall, by resolution, establish its appropriations limit for the following fiscal year pursuant to Article XIII B at a regularly scheduled

meeting or noticed special meeting. Fifteen days prior to such meeting documentation used in the determination of the appropriations limit shall be available to the public. The determination of the appropriations limit is a legislative act.

Any judicial action or proceeding to attack, review, set aside, void, or annul the action of the governing body taken pursuant to this section for the 1980–81 fiscal year shall be commenced within 60 days of the effective date of the resolution or the effective date of the act which added this section to the Government Code, whichever date is later.

For the 1981–82 fiscal year and each fiscal year thereafter, any judicial action or proceeding to attack, review, set aside, void, or annul the action of the governing body taken pursuant to this section shall be commenced within 45 days of the effective date of the resolution.

All courts wherein such actions are or may be hereafter pending, including any court reviewing such action on appeal from the decision of a lower court, shall give such actions preference over all other civil actions therein, in the manner of setting the same for hearing or trial and in hearing the same to the end that all such actions shall be quickly heard and determined.

7911. For the purposes of Section 2 of Article XIII B, a local jurisdiction may return excess revenues by granting a tax credit or refund, by providing a temporary suspension of tax rates or fee schedules, or by any other means consistent with the intent of that section. The determination by the governing body of such entity of the means by which such excess revenues are to be returned is a legislative act.

Judicial review of such determination may be obtained only by a proceeding for a writ of mandate which shall be brought within 30 days after the governing body's determination.

All courts wherein such actions are or may be hereafter pending, including any court reviewing such action on appeal from the decision of a lower court, shall give such actions preference over all other civil actions therein, in the manner of setting the same for hearing or trial and in hearing the same, to the end that all such actions shall be quickly heard and determined.

7912. Each year, the Governor shall include in the budget as submitted to the Legislature an estimate of the state's appropriations limit for the budget year. This estimate shall be subject to the budget process, and shall be established in the Budget Bill.

7913. For purposes of subdivision (b) of Section 3 of Article XIII B of the California Constitution, the financial responsibility of providing services is transferred in whole or in part from other revenues of an entity of government to proceeds from regulatory licenses, user charges, or user fees only when the dollar amount allocated from other revenues of a local jurisdiction or the state to the provision of such services is decreased.

SEC. 3. The Legislature finds and declares that Article XIII B of the California Constitution is intended to provide certain limitations and controls on government spending at all levels of government in

the state, but these restrictions are intended to be applied in a reasonable and practical way so as to permit flexibility in meeting the constantly changing conditions and needs of the people for governmental services.

By way of example, the California Constitution requires that the Legislature provide for a system of public schools and the courts of this state have held that a method of financing this public school system which depends substantially on local property taxes with resultant wide disparities in school revenue violates constitutional provisions guaranteeing equal protection of the laws. If Article XIII B were construed to require that all money expended by a local school district was required to be included within its appropriations subject to limitation, attempts to accommodate each of these separate demands of the California Constitution could be substantially frustrated.

The Legislature further finds and declares, accordingly, that equalization of the financial capabilities of school districts is a matter of statewide interest and concern and that state money provided to school districts to achieve this end is properly excluded from "state subventions" to local school districts as that term is used in Article XIII B of the California Constitution.

Similarly, the various categorical aid programs provided by the state are provided as a matter of statewide public policy. The changing character of children and neighborhoods and the resultant changing needs of local school districts require flexibility in providing these programs which can only be achieved by characterizing these programs as state programs, thereby excluding state support for these programs from state subventions to local school districts.

The Legislature finds and declares that the provisions of this act provide for the implementation of Article XIII B of the California Constitution in a manner which is entirely consistent with the intent of that article and the voters who adopted it, which accommodates competing constitutional demands, and which permits reasonable and practical methods of satisfying the future changing needs of this state.

SEC. 4. A local jurisdiction which has established an appropriations limit prior to the effective date of this act shall nevertheless be governed by the provisions of this act.

SEC. 5. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

## CHAPTER 1206

An act to amend Section 2032 of the Code of Civil Procedure, and to amend Sections 5276.1 and 6306 of the Welfare and Institutions Code, relating to psychologists.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

After such request and delivery the party causing the examination to be made shall be entitled upon request to receive from the party or persons examined a like report of any examination, previously or thereafter made, of the same condition. If the party or person examined refuses to deliver such report the court on motion and notice may make an order requiring delivery on such terms as are just, and if a physician or clinical psychologist fails or refuses to make such a report the court may exclude his testimony if offered at the trial.

(2) By requesting and obtaining a report of the examination so ordered or by taking the deposition of the examiner, the party against whom an order is made under subdivision (a) of this section or the person examined waives any privilege he may have in that action or any other involving the same controversy, regarding the testimony of every other person who has examined or may thereafter examine him in respect of the same condition.

(3) Unless otherwise agreed, the provisions of paragraphs (1) and (2) shall be applicable in cases where an examination is made pursuant to stipulation.

(c) Service upon a party of any notice, motion or order made under this section may be made upon any party or his attorney in the manner provided in Chapter 5 (commencing with Section 1010) of Title 14 of Part 2.

In the event of such a waiver, such physician, licensed psychologist, or other professional person shall not be required to be present at the hearing if it is stipulated that the certification and records of such physicians, licensed psychologists, or other professional persons concerning the mental condition and treatment of the person regarding release will be received in evidence.

SEC. 12. Section 15102 of the Education Code is amended to read:

15102. The total amount of bonds issued shall not exceed 5 percent, except beginning with the 1981-82 fiscal year the amount shall not exceed 1.25 percent, of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located, and as modified pursuant to Section 41201 or 84201.

SEC. 13. Section 15106 of the Education Code is amended to read:

15106. Any unified school district may issue bonds not to exceed 10 percent, except beginning with the 1981-82 fiscal year the amount shall not exceed 2.5 percent, of the taxable property of the district

as shown by such equalized assessment of the county or counties in which the district is located.

In computing the outstanding bonded indebtedness of any unified school district for all purposes of this section, except as provided in subdivision (b) of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, and high school purposes, respectively, in the respective amounts that the proceeds of the sale of such outstanding bonds, excluding any premium and accrued interest received on said sale, were or have been allocated by the governing board of such unified school district to each of said purposes respectively.

(a) For the purposes of the State School Building Aid Law of 1952 with respect to applications for apportionments and apportionments filed or made prior to September 15, 1961, and to the repayment thereof, Chapter 6 (commencing with Section 15700) of this part, inclusive, only, any unified school district shall be considered to have a bonding capacity in the amount permitted by law for an elementary school district and a bonding capacity in the amount permitted by law for a high school district.

SEC. 14. Section 15725 of the Education Code is amended to read:

15725. No apportionment shall be made to a school district for any grade level if the estimated cost of the project, as approved by the Director of General Services, is (1) an amount which would result in an apportionment to the district exceeding the amount authorized at the district election held under Section 15721, or (2) an amount which if raised by the issuance and sale of bonds of the district running for 25 years bearing the current going rate of interest as determined by the board and the principal of which is payable in 25 equal annual payments, would require the levy of a tax under Section 15250 upon property in the district which would, when added to the tax actually being levied upon property in the district for the grade level as determined by the Director of General Services under that section, amount to less than thirty cents (\$0.30) on each one hundred dollars (\$100) of assessed valuation of property in the district during the next fiscal year. Beginning in 1981-82, the amount shall be the levy of a tax which would amount to less than 0.075 percent of full valuation of property in the district during the next fiscal year.

At the time the board makes an apportionment, it shall, with the approval of the Director of General Services, fix the interest to be paid by the district on the sum apportioned to it at a rate equal to the effective rate paid by the state upon the bonds sold from the proceeds of which the apportionment is made, giving effect to the price at which the bonds are sold and the premium, if any, paid thereon, adjusted to the next highest one-eighth of 1 percent, to cover the cost of sale and issuance of the bonds and costs of

administration, to be compounded annually through the 30th day of June of each year.

SEC. 15. Section 15729 of the Education Code is amended to read:

15729. The following definitions apply to the computations and determinations required to be made under Sections 15730, 15732, and 15733, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of forty cents (\$0.40) on each one hundred dollars (\$100) of assessed valuation, to and including 1980-81 fiscal year. For the 1981-82 fiscal year and thereafter, the tax shall be 0.10 percent of the full valuation. This tax amount shall exclude the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of thirty cents (\$0.30) on each one hundred dollars (\$100) of such assessed valuation to and including the 1980-81 fiscal year. For 1981-82 and thereafter, the tax shall be 0.075 percent of such full valuation: and

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of ten cents (\$0.10) on each one hundred dollars (\$100) of such assessed valuation to and including the 1980-81 fiscal year. For the 1981-82 fiscal year and thereafter, the tax shall be 0.025 percent of the full value.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the date of the first final apportionment for such grade level to said district under the provisions of this chapter, computed as provided in Section 15730.

SEC. 16. Section 15737 of the Education Code is amended to read:

15737. (a) Upon request of the district, the Controller shall use in computing the "40-cent, 30-cent, and 10-cent tax amounts" under Section 15732 the difference between the total assessed valuation of property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of such total assessed valuation, with respect to which revenues of the district taxes levied in the 1954-1955 fiscal year, or thereafter, have been impounded by the county auditor pursuant to Section 14240. Beginning with the 1981-82 fiscal year, the amount in excess of 0.5 percent of the total assessed valuation shall be used in the computation. If such a request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954-1955 fiscal year, the Controller shall recompute the annual repayment of the district due during the 1955-1956 fiscal year on the basis of such reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 15741 of such recomputed annual repayment

for the 1955–1956 fiscal year, and of the recomputed amount to be deducted from the State School Fund apportionment to such district during the 1955–1956 fiscal year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district, for the first fiscal year or second fiscal year next succeeding that in which such notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 15735, 15741, and 15742 for the fiscal year in which such increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a), Section 15736 shall not apply with respect to any tax revenues to which subdivision (a) applies.

**SEC. 17.** Section 16070 of the Education Code is amended to read:

16070. The following definitions apply to the computation and determinations required to be made under Section 16072, 16074, and 16075, and they apply with respect to each grade level of a district for which grade level an apportionment has become final during any preceding fiscal year.

(a) “Forty-cent tax amount” means the amount that would be produced by a tax of forty cents (\$0.40) on each one hundred dollars (\$100) of assessed valuation, to and including 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.10 percent of the full valuation. This tax amount shall exclude the full value of solvent credits and other intangible property, for the current fiscal year within the district;

(b) “Thirty-cent tax amount” means the amount that would be produced by a tax of thirty cents (\$0.30) on each one hundred dollars (\$100) of such assessed valuation to and including the 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.075 percent of such full valuation; and

(c) “Ten-cent tax amount” means the amount that would be produced by a tax of ten cents (\$0.10) on each one hundred dollars (\$100) of such assessed valuation to and including the 1980–81 fiscal year. For the 1981–82 fiscal year and thereafter, the tax shall be 0.025 percent of the full value;

(d) “Eligible bonded debt service” means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment for such grade level to said district under the provisions of this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of

this part, provided that for the purposes hereof the first apportionment made to a district for a grade level after all previous apportionments to said district for that grade level have been repaid in full, excluding apportionments made under Section 16039 and not combined with construction apportionments, shall be deemed to be the "first apportionment for such grade level."

SEC. 18. Section 16071 of the Education Code is amended to read:

16071. This section applies only to a unified school district filing an application on or after the effective date of this section for an apportionment for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, and the repayments required for apportionments made under such applications.

The following definitions apply to the computation and determinations required to be made under Sections 16072, 16074 and 16075, and they apply with respect to such grade level of a unified district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of eighty cents (\$0.80) on each one hundred dollars (\$100) of assessed valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district. Beginning in the 1981-82 fiscal year, the tax shall be 0.20 percent of full valuation for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of sixty cents (\$0.60) on each one hundred dollars (\$100) of such assessed valuation to and including the 1980-81 fiscal year. For the 1981-82 fiscal year and thereafter, the tax shall be 0.15 percent of the full valuation; and

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of twenty cents (\$0.20) on each one hundred dollars (\$100) of such assessed valuation to and including the 1980-81 fiscal year. For the 1981-82 fiscal year and thereafter, the tax shall be 0.05 percent of the full value.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment for such grade level to said district under the provisions of this chapter computed as provided in Section 16072 plus the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

If the unified district's first apportionment under this chapter was for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, grades 1 to 8, inclusive, grades 7 to 12, inclusive, grades 9 to 12, inclusive, or 7 to 10, inclusive, "eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the indebtedness that was incurred for elementary and

high school purposes prior to the making of such first apportionment under this chapter computed as provided in Section 16072 together with the amount of the annual repayment under Chapter 6 (commencing with Section 15700) of this part.

SEC. 19. Section 16082 of the Education Code is amended to read:

16082. (a) Upon request of the district, the Controller shall use in computing the "40-cent, 30-cent, and 10-cent tax amounts" under Section 16070 the difference between the total assessed valuation of property in a district as shown on the equalized assessment roll for the current fiscal year and the assessed valuation of property as shown on the equalized assessment roll for the current fiscal year, in excess of 2 percent of such total assessed valuation, with respect to which revenues of the district taxes levied in the 1954-1955 fiscal year, or thereafter, have been impounded by the county auditor pursuant to Section 14240. Beginning with the 1981-82 fiscal year, the difference in excess of 0.50 percent of the total assessed value shall be used in the computation. If such a request is received prior to August 1, 1955, with respect to the impounding of revenues of taxes levied during the 1954-1955 fiscal year, the Controller shall recompute the annual repayment of the district due during the 1955-1956 fiscal year on the basis of such reduced assessed valuation, and, on or before September 1, 1955, notify the officers and board referred to in Section 16089 of such recomputed annual repayment for the 1955-1956 fiscal year, and of the recomputed amount to be deducted from the State School Fund apportionment to such district during the 1955-1956 fiscal year.

(b) Whenever, after July 1, 1955, the county auditor notifies the Superintendent of Public Instruction and the Controller of the release of impounded tax revenues to the school district, the Controller shall add to the annual repayment of the district for the first fiscal year or second fiscal year next succeeding that in which such notification of release was made, that amount by which the annual repayment of the district for a previous fiscal year was reduced by reason of the exclusion of assessed valuation with respect to tax revenues impounded and thereafter released.

(c) The amount of annual repayment and deduction, increased or reduced as required by this section, shall be the amount deducted by the Controller for the purposes of Sections 16080, 16089, and 16090 for the fiscal year in which such increase or reduction occurs.

(d) If a request is received from a school district and an annual repayment reduced pursuant to subdivision (a) hereof, Section 16081 shall not apply with respect to any tax revenues to which subdivision (a) applies.

SEC. 20. Section 16084 of the Education Code is amended to read:

16084. If, on or before June 30th of any fiscal year, the governing board of any school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter or Chapter 6 (commencing with Section 15700) of this part, and it is determined, in accordance

with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, having once been filed with the State Controller, shall remain in effect each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

As used in the preceding paragraph, "any school district" means a district which is liable for the repayment of the principal amount of apportionments made to the district under the provisions of Chapter 6 (commencing with Section 15700) of this part and which has received a conditional apportionment under this chapter.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district, during the fiscal year in which the annual repayment is to be deducted pursuant to Sections 15735 and 16080, for the payment of principal and interest on (a) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter, (b) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter, and (c) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under Chapter 6 (commencing with Section 15700) of this part and under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under Chapter 6 (commencing with Section 15700) of this part for such grade level. It is hereby declared that this paragraph is not intended as a change in the present law but rather as a declaration of existing law.

There shall be computed the amount which would be produced by a tax of forty-five cents (\$0.45) on each one hundred dollars (\$100) of assessed valuation of the district during such year, to be known as the "45-cent tax amount," except beginning with the 1981-82 fiscal year, the amount shall be produced by a tax of 0.1125 percent of the full value. The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be

the amount, if any, by which the basic tax amount exceeds the 45-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of General Services to, and the Director of General Services shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 15733 and Section 16075, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years. Any repayments by a district of a deferred amount shall be first applied to loans granted under Chapter 6 (commencing with Section 15700) of this part.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 15738 or Section 16083, as the case may be, there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 15738 or Section 16083, as the case may be, shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 15739 or 16087, whichever is applicable.

SEC. 21. Section 16085 of the Education Code is amended to read:

16085. For purposes of computing, under Section 16084, the portion of the annual repayment to be deferred in the case of a unified school district which has applied for and received an apportionment under Section 16003, the "45-cent tax amount" shall be the amount produced by a tax of ninety cents (\$.90) on each one hundred dollars (\$100) of assessed valuation of the district during the

year, except beginning with the 1981-82 fiscal year the tax shall be 0.225 percent of the full value.

SEC. 22. Section 16086 of the Education Code is amended to read:

16086. The provisions of this section shall apply: (1) to any school district which has succeeded to and become vested with all duties, powers, purposes, jurisdiction, and responsibility with respect to a portion of an apportionment determined or redetermined to have been expended, or to be expendable, for property acquired or to be acquired by it, and which has become liable for a portion of the annual repayment of a portion of an apportionment, as provided in Section 16159; and (2) to any state-aided district a portion of the territory of which was transferred to a district described in (1), above, and in connection with which territory a portion of an apportionment made to such state-aided district has or will be expended for property acquired or to be acquired.

If, on or before June 30th of any fiscal year, the governing board of any such school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, once filed with the State Controller, shall remain in effect in each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district during the fiscal year in which the annual repayment is to be deducted pursuant to Section 16080, for the payment of principal and interest on: (a) that portion of the annual repayment and all other payments due the state under Section 16075 and other provisions of this chapter with respect to the portion of the apportionment for which the district has been determined to be liable under Section 16159; (b) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter; (c) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter; and (d) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be

deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under this chapter for such grade level.

There shall be computed the amount which would be produced by a tax of forty cents (\$0.40) on each one hundred dollars (\$100) of assessed valuation of the district during such year, to be known as the "40-cent tax amount," except beginning with the 1981-82 fiscal year, the amount shall be produced by a tax of 0.10 percent of the full value of the district during such year. The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the 40-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of General Services to, and the Director of General Services shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 16075, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 16083 there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs.

At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 16083 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 16087.

SEC. 23. Section 16302 of the Education Code is amended to read:

16302. (a) On the basis of the benefits to be realized by the citizens of the City of Stockton and its environs, and particularly the Stockton Unified School District, as specified in Section 16301, the amount allocated and expended pursuant to this article shall be fully repaid with interest by the district to the state in such annual amounts and over such period as may be determined by the board, not to exceed 20 years from the date of the expenditure. Interest shall be paid at a rate determined by the board. The repayment to the state by the district shall be made from proceeds of a district tax levied in the manner prescribed in Section 52317, but at a rate on each one hundred dollars (\$100) of assessed valuation, except beginning with the 1981-82 fiscal year the rate shall be expressed as a percentage of value, in the district sufficient to make the payments required by the board, notwithstanding the limitations contained in Section 52317.

(b) The tax revenue referred to in subdivision (a) above shall be transferred by the County Auditor of San Joaquin County to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

SEC. 24. Section 16330.5 of the Education Code is amended to read:

16330.5. Notwithstanding Section 39230 or anything to the contrary in this article, whenever the State Allocation Board determines that state funds are not available to make an apportionment for an otherwise eligible project in the amount computed pursuant to Section 16330, an application may be approved and an apportionment made for one dollar (\$1) only. In such instances the project may be financed by the applicant district using funds derived from a twenty-cent (\$0.20) tax levy provided by Section 39230 together with any other funds available to the district for such purposes. Such a tax levy shall be twenty cents (\$0.20) per one hundred dollars (\$100) of assessed value for years prior to the 1980-81 fiscal year and beginning in the 1981-82 fiscal year shall be 0.05 percent of the full value.

SEC. 25. Section 16335 of the Education Code is amended to read:

16335. Each district to which an apportionment or apportionments has been made under this article shall repay the principal amount of such apportionment or apportionments and the accrued interest thereon in 20 equal annual payments. The first payment shall be made in the second fiscal year following the year in which the apportionment is made. In any year prior to the 1980-81 fiscal year in which the equal annual repayment exceeds that amount which seventeen and one-half cents (\$.175) per one hundred dollars

(\$100) of assessed valuation for each grade level (i.e. elementary or high school) operated by the district would raise during the year of the computation, the repayment shall be reduced to the amount which the seventeen and one-half cents (\$.175) for each grade level would so raise. In any year, beginning in the 1981-82 fiscal year, in which the equal annual repayment exceeds that amount which 0.04375 percent of the full value for each grade level operated by the district would raise during the year of the computation, the repayment shall be reduced to the amount which the 0.04375 percent of the full value for each grade level would so raise. The amount of the reduction in computed repayment shall be canceled on the books of the State Controller. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each amount if computed separately.

On or before the first day of January of each fiscal year the State Controller shall determine the annual repayment, if any, to be due from each district during the next succeeding fiscal year. The computation and collection procedures shall be in accordance with Sections 16080, 16089, and 16090.

SEC. 26. Section 16336 of the Education Code is amended to read:

16336. Notwithstanding any provisions of this article, any school district which has levied the entire amount permitted under Section 39230 and has declared the entire proceeds therefrom available as local matching funds for a particular project, but lacks sufficient matching funds for such project as required under this article, may file an application thereunder prior to January 1, 1974. Under such circumstances the board may increase the basic computed state matching ratio of assistance in such amount, which, when added to the sum of the entire proceeds of the levy permitted under Section 39230 and such other funds which in the opinion of the board is or can be made currently available for the project, including funds authorized by the electors from bonds or otherwise, would be necessary to construct minimum essential facilities for the project as determined by the board. Not more than forty-five million dollars (\$45,000,000) available for the purposes of this article may be apportioned for increases in the basic computed state matching ratio pursuant to this section. The source of the forty-five million dollars (\$45,000,000) apportioned for this purpose shall be thirty million dollars (\$30,000,000) previously appropriated for this purpose from the School Building Safety Fund by Chapter 500 of the Statutes of 1972, plus an additional fifteen million dollars (\$15,000,000) of bond funds remaining from the State School Building Aid Bond Law of 1966.

SEC. 27. Section 16339 of the Education Code is amended to read:

16339. Notwithstanding any provisions of this article or Section 16336 thereof to the contrary, any school district which lacks sufficient matching funds for a particular project or projects, as required under this article, may file an application and the board may approve a project or projects conditioned upon the district

levying, in the 1974-75 fiscal year, the entire twenty-cent (\$.20) tax rate per one hundred dollars (\$100) of assessed valuation permitted under Section 39230 or 81180 and applying the proceeds of such levy as local matching funds for such project or projects. Beginning in the 1981-82 fiscal year, the tax shall be 0.05 percent of full value.

Under such circumstances, provided such applicant district was not eligible to receive a grant under the provisions of Section 16337, the board may increase the basic computed state matching ratio of assistance in such amount, which, when added to the sum of the entire proceeds of the twenty-cent (\$.20) tax rate, except beginning in the 1981-82 fiscal year, the tax shall be 0.05 percent of full value, and such other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined by the board. Not more than nineteen million dollars (\$19,000,000) of the proceeds of the sale of bonds authorized by Section 16310, may be apportioned pursuant to this section and in augmentation of the forty-five million dollars (\$45,000,000) made available under Section 16336.

SEC. 28. Section 17320 of the Education Code is amended to read:

17320. Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the State Controller pursuant to this section. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each apportionment if computed separately.

The State Controller shall determine the portion of the principal amount of the apportionment or apportionments made to each district to be repaid by the district by diminishing such principal amount by the product of the ratio which the assessed valuation of the district per unit of average daily attendance of pupils in the grades maintained by the district during the preceding fiscal year bears to the assessed valuation per unit of such average daily attendance in the same type of districts in the state and one-half of the principal amount of the apportionment or apportionments, except that the amount to be repaid shall not exceed the amount of the principal apportionment or apportionments.

The State Controller shall make the computation to determine the annual repayment due in the next fiscal year following the fiscal year in which the apportionment is made. In any year prior to the 1980-81 fiscal year in which the annual repayment exceeds the amount which may be raised by a three-cent (\$.03) tax rate per one hundred dollars (\$100) of assessed valuation in the district, the governing board of the school district shall so certify to the State Controller whereupon the State Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax rate of three cents (\$.03) per one hundred dollars

(\$100) of assessed valuation of the district. In any year, beginning with the 1981-82 fiscal year, in which the annual repayment exceeds the amount which may be raised by a levy of 0.0075 percent of the full value in the district, the governing board of the school district shall so certify to the Controller whereupon the Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax of 0.0075 percent of the full value of the district. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

SEC. 29. Section 19170 of the Education Code is repealed.

SEC. 30. Section 19525 of the Education Code is amended to read: 19525. The total amount of bonds issued shall not exceed 5 percent of the assessed value of the property of the district, prior to the 1980-81 fiscal year and shall not exceed 1.25 percent of the assessed value of the district beginning after the 1981-82 fiscal year, as shown by the last equalized assessment roll of the county or counties in which the district is situated.

24. (a) For purposes of this code, "assessed value" means 25 percent of full value to, and including, the 1980-81 fiscal year, and 100 percent of full value for the 1981-82 fiscal year and fiscal years thereafter; and, tax rates shall be expressed in dollars, or fractions thereof, on each one hundred dollars (\$100) of assessed value to, and including, the 1980-81 fiscal year and as a percentage of full value for the 1981-82 fiscal year and fiscal years thereafter.

(b) Whenever this code requires comparison of assessed values, tax rates, or property tax revenues for different years, the assessment ratios and tax rates shall be adjusted as necessary so that the comparisons are made on the same basis, and the same amount of tax revenues would be produced, or the same relative value of an exemption or subvention will be realized regardless of the method of expressing tax rates or the assessment ratio utilized.

(c) For purposes of expressing tax rates on the same basis, a tax rate based on a 25 percent assessment ratio and expressed in dollars, or fractions thereof, for each one hundred dollars (\$100) of assessed value may be multiplied by a conversion factor of twenty-five hundredths of 1 percent to determine a rate comparable to a rate expressed as a percentage of full value; and, a rate expressed as a percentage of full value may be multiplied by a factor of 400 to determine a rate comparable to a rate expressed in dollars, or fractions thereof, for each one hundred dollars (\$100) of assessed value and based on a 25 percent assessment ratio.

SEC. 76. Section 227 of the Revenue and Taxation Code, as amended by Section 1 of Chapter 18 of the Statutes of 1980, is amended to read:

227. A documented vessel, as defined in Section 130, shall be assessed at 4 percent of its full cash value only if the vessel is engaged or employed exclusively:

(a) In the taking and possession of fish or other living resource of the sea for commercial purposes;

(b) In instruction or research studies as an oceanographic research vessel; or

(c) In carrying or transporting seven or more people for hire for commercial passenger fishing purposes.

The assessment provided for by subdivision (c) of this section shall apply to the 1980-81, 1981-82, and 1982-83 fiscal years and shall have no force or effect after January 1, 1983, unless a later enacted statute is chaptered on or before January 1, 1983, and extends such date.

SEC. 77. Section 437 of the Revenue and Taxation Code is amended to read:

437. Whenever the debt limit of a taxing agency is based wholly or in part on the assessed value of the agency, there shall be added to such assessed value the assessed valuation equivalents of revenue amounts certified pursuant to Section 27423 of the Government Code and distributed pursuant to Section 38906 of the Revenue and Taxation Code.

The assessed valuation equivalents for revenue amounts certified pursuant to Section 27423 of the Government Code and distributed pursuant to Section 38905 of the Revenue and Taxation Code shall be derived by multiplying such amounts by a factor of 100 and dividing the product by the secured tax rate for the prior year.

When computing the assessed value equivalents for the 1981-82 fiscal year, the rate used for the secured roll for the 1980-81 fiscal year shall be divided by four.

SEC. 78. Section 533 of the Revenue and Taxation Code is amended to read:

533. Assessments made pursuant to Article 3 (commencing with Section 501) of this chapter or pursuant to this article shall be entered on the roll prepared or being prepared in the assessment year when it is so discovered and, if this is not the roll for the assessment year in which it escaped assessment, the entry shall be followed with "Escaped assessment for year 19\_\_ pursuant to Sections \_\_\_\_\_ of the Revenue and Taxation Code."

If the assessments are made as a result of an audit which discloses that property assessed to the party audited has been incorrectly assessed either for a past tax year for which taxes have been paid and a claim for refund is not barred by Section 5097 or for any tax year for which the taxes are unpaid, the tax refunds resulting from the incorrect assessments shall be an offset against proposed tax liabilities, including accumulated penalties and interest, resulting from escaped assessments for any tax year covered by the audit.

Beginning with the 1981-82 fiscal year, assessment for the current and prior year shall be entered using a 100 percent assessment ratio and the tax rate for years prior to the 1981-82 fiscal year will be divided by four.

If such tax refunds exceed any proposed tax liabilities, including accumulated penalties and interest, the party audited shall be notified by the tax collector of the amount of the excess and of the fact that a claim for cancellation or refund may be filed with the

county as provided by Section 4986 or 5096. In the event that the assessment caused an excess payment of taxes and therefore resulted in an overpayment by the state for property tax relief as provided by Section 219, then subsequent subventions for property tax relief shall be reduced by the amount of such overpayment.

SEC. 78.5. Section 533 of the Revenue and Taxation Code is amended to read:

533. Assessments made pursuant to Article 3 (commencing with Section 501) of this chapter or pursuant to this article shall be entered on the roll for the current assessment year as defined in Section 118 and, if this is not the roll for the assessment year in which the property escaped assessment, the entry shall be followed with "Escaped assessment for year 19\_\_ pursuant to Sections \_\_\_\_\_ of the Revenue and Taxation Code."

If the assessments are made as a result of an audit which discloses that property assessed to the party audited has been incorrectly assessed either for a past tax year for which taxes have been paid and a claim for refund is not barred by Section 5097 or for any tax year for which the taxes are unpaid, the tax refunds resulting from the incorrect assessments shall be an offset against proposed tax liabilities, including accumulated penalties and interest, resulting from escaped assessments for any tax year covered by the audit.

Beginning with the 1981-82 fiscal year, assessment for the current and prior year shall be entered using a 100 percent assessment ratio and the tax rate for years prior to the 1981-82 fiscal year will be divided by four.

If such tax refunds exceed any proposed tax liabilities, including accumulated penalties and interest, the party audited shall be notified by the tax collector of the amount of the excess and of the fact that a claim for cancellation or refund may be filed with the county as provided by Section 5096 or 5096.7. In the event that the assessment caused an excess payment of taxes and therefore resulted in an overpayment by the state for property tax relief as provided by Section 219, then subsequent subventions for property tax relief shall be reduced by the amount of such overpayment.

SEC. 79. Section 534 of the Revenue and Taxation Code is amended to read:

534. Assessments made pursuant to Article 3 (commencing with Section 501) of this chapter or pursuant to this article shall be treated like, and taxed at the same rate applicable to, property regularly assessed on the roll on which it is entered, unless the assessment relates to a prior year and then the tax rate of the prior year shall be applied, except that the tax rate for years prior to the 1981-82 fiscal year shall be divided by four.

No such assessment shall be effective for any purpose, including its review, equalization and adjustment by the Board of Equalization, until the assessee has been notified thereof personally or by United States mail at his address as contained in the official records of the county assessor. Receipt of the assessee of a tax bill based on such

assessment shall suffice as such notice.

SEC. 80. Section 731 of the Revenue and Taxation Code is amended to read:

731. Each year between the first day of March and the first day of June, upon valuing the unitary property of an assessee, the board shall mail to the assessee, at its address as shown in the records of the board, a notice stating the amount of the assessed value of the assessee's unitary property. The notice shall advise the assessee of the date by which and the place where a petition for reassessment of the unitary property may be filed. The date shall not be less than 10 days from the date of the mailing of the notice.

SEC. 81. Section 2237 of the Revenue and Taxation Code is amended to read:

2237. (a) Notwithstanding any other provision of law, except as provided in subdivision (b), no local agency, school district, county superintendent of schools, or community college district shall levy an ad valorem property tax, other than that amount which is equal to the amount needed to make annual payments for the interest and principal on general obligation bonds or other indebtedness approved by the voters prior to July 1, 1978 or the amount levied pursuant to Part 10 (commencing with Section 15000) of Division 1 and Sections 39308, 39311, 81338, and 81341 of the Education Code. In determining the tax rate required for the purposes specified in this subdivision, the amount of the levy shall be increased to compensate for any allocation and payment of tax revenues required pursuant to subdivision (b) of Section 33670 and subdivision (d) of Section 33675 of the Health and Safety Code.

(b) A county shall levy an ad valorem property tax on taxable assessed value at a rate equal to four dollars (\$4) per one hundred dollars (\$100) of assessed value to and including the 1980-81 fiscal year. For 1981-82 fiscal year and thereafter, the tax shall be 1 percent of assessed value. The revenue from such tax shall be distributed, subject to the allocation and payment as provided in subdivision (d) of Section 33675 of the Health and Safety Code, to local agencies, school districts, county superintendents of schools, and community college districts in accordance with the provisions of Section 26912 of the Government Code.

SEC. 82. Section 2263.4 of the Revenue and Taxation Code is amended to read:

2263.4. Notwithstanding paragraph (2) of Section 2263, the maximum property tax rate which may be levied by, or on behalf of, a harbor district shall be the greater of three cents (\$.03) per one hundred dollars (\$100) of assessed valuation or the rate levied by, or on behalf of, the district for either the 1971-1972 or the 1972-1973 fiscal year, at the option of the governing body of the district. If a district operates on a calendar year, the maximum rate which may be levied pursuant to this subdivision shall be the greater of three cents (\$.03) per one hundred dollars (\$100) of assessed valuation or that levied in either calendar 1972 or calendar 1973, at the option of

the governing body of the district. Beginning in the 1981-82 fiscal year, the maximum property tax rate which may be levied shall be the greater of 75/10,000 of 1 percent of assessed valuation or the rate levied by, or on behalf of, the district for either the 1971-72 or the 1972-73 fiscal year, at the option of the governing body of the district. If a district operates on a calendar year, the maximum rate which may be levied pursuant to this section shall be greater of 75/10,000 of 1 percent of assessed valuation or that levied in either calendar year 1972 or calendar year 1973, at the option of the governing body of the district.

In addition, if the voters of a district, pursuant to provisions of the enabling statute under which the district is organized, have authorized an additional rate, such augmented rate shall be the maximum property tax rate.

SEC. 83. Section 2273 of the Revenue and Taxation Code is amended to read:

2273. (a) A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) for the purpose of meeting the costs of written contractual obligations, leases and agreements, including determinations made pursuant to the Meyers-Milias-Brown Act (Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 of the Government Code), which were entered into, or authorized by the governing body or by the voters of such agency, prior to January 1, 1973, if:

(1) The local agency incurred no costs or budgeted no expenditures under the contractual obligation or agreement during the 1972-1973 fiscal year but will incur such costs in subsequent fiscal years, or

(2) The local agency did incur costs pursuant to the contractual obligation or agreement in the 1972-1973 fiscal year, but in subsequent fiscal years such costs increase in an amount which exceeds either the growth rate in the local agency's assessed value or its growth rate in population and cost of living as determined pursuant to Section 2212 and Sections 2227 or 2228.

(b) The additional rate which may be levied to meet costs described in paragraph (1) of subdivision (a) shall be that rate in each fiscal year which produces the amount of revenue needed to meet the actual annual costs of the contract or obligation.

(c) The additional rate which may be levied in each fiscal year to meet costs described in paragraph (2) of subdivision (a) shall be that rate which produces an amount of revenue equal to the difference between (i) the cost of the contract for the current year and (ii) the adjusted base year cost of the contract. Such adjusted base year cost shall be determined as follows: (i) for the 1973-1974 fiscal year, the actual cost of the contract in the 1972-1973 fiscal year shall be multiplied by either the percentage increase in population and the cost of living or the percentage increase in assessed value which is applicable to the local agency, whichever is greater. The

product of such multiplication plus the actual cost of the contract during the 1972-1973 fiscal year shall be the adjusted base cost of the contract; (ii) for each subsequent fiscal year, the adjusted base year cost of the contract of the prior year shall be multiplied by either the percentage increase in the cost of living and population or the percentage increase in assessed value which is applicable to the local agency, whichever is greater. The product of such multiplication plus the adjusted base year cost of the contract in the prior fiscal year shall be the adjusted base cost of the contract in the current year. For the 1981-82 fiscal year, the assessed value for the 1980-81 fiscal year shall be multiplied by four prior to calculating the percentage increase in assessed value.

(d) No local agency may levy an additional rate as provided in this section after the termination of the contractual obligation or agreement described in subdivision (a); provided that a local agency may continue to levy an additional rate equal to the rate levied for the entire last year of such a contract or agreement if (i) the local agency enters a new contractual obligation which provides for substantially similar kinds of services or goods as the terminated contract, and (ii) the new contractual obligation concerns personal services, consumable goods or personal property and does not in any manner involve real property as defined in Section 104.

The additional property tax rate authorized by this section shall apply (i) to contractual obligations arising from the exercise of options and (ii) to contractual obligations arising from contingent promises. Except as specifically provided by this section, the additional property tax rate authorized by this section does not apply to contractual obligations incurred by mutual agreement of the contracting parties after January 1, 1973.

SEC. 84. Section 38202 of the Revenue and Taxation Code is amended to read:

38202. During December, 1978, and December of each subsequent year, after public hearings, the board shall adjust the yield tax rate to the nearest one-tenth of 1 percent in the same proportion that the average rate of general property taxation in the rate adjustment counties in the current tax year differs from the average rate of general property taxation in the rate adjustment counties in the preceding tax year. The board shall compute the average rate of general property taxation in the rate adjustment counties by (a) adding the county, city, school district, and other general taxes, but not the special taxes on intangibles, aircraft, baled cotton or any other property, which is subject to a uniform statewide tax rate, nor special assessments, and (b) dividing the amount obtained by the total assessed valuation in the rate adjustment counties, exclusive of the homeowners' and business inventory exemptions, as shown by the county tax rolls for the same year.

"Total assessed valuation," as used in this section, does not include the assessment of property which is subject to a uniform statewide tax rate.

“Special assessment” as used in this section, means any amount levied solely against land or land and improvements.

When calculating the yield tax rate for the 1981–82 fiscal year, the 1980–81 average rate of general property taxation should first be divided by four.

SEC. 85. It is the intent of the Legislature, if this bill and Assembly Bill 2479 are both chaptered and become effective on or before January 1, 1981, both bills amend Section 533 of the Revenue and Taxation Code, and this bill is chaptered after Assembly Bill 2479, that Section 533 of the Revenue and Taxation Code, as amended by Section 15 of Assembly Bill 2479, be further amended on the effective date of this act in the form set forth in Section 78.5 of this act to incorporate the changes in Section 533 proposed by this bill. Therefore, if this bill and Assembly Bill 2479 are both chaptered and become effective on or before January 1, 1981, and Assembly Bill 2479 is chaptered before this bill and amends Section 533, Section 78.5 of this act shall become operative on the effective date of this act and Section 78 of this act shall not become operative.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1038 is added to the Code of Civil Procedure, to read:

1038. (a) In any civil proceeding under the California Tort Claims Act or for indemnity or contribution in any civil action, the fact finder, upon motion of the defendant or cross-defendant, shall, at the time of the granting of any summary judgment or nonsuit dismissing the moving party other than the plaintiff, petitioner, cross-complainant, or intervenor, determine whether or not the plaintiff, petitioner, cross-complainant, or intervenor brought the proceeding with reasonable cause and in the good faith belief that there was a justiciable controversy under the facts and law which warranted the filing of the complaint, petition, cross-complaint, or complaint in intervention. If the fact finder should determine that the proceeding was not brought in good faith and with reasonable cause, an additional issue shall be decided as to the defense costs reasonably and necessarily incurred by the party or parties opposing the proceeding, and the court shall render judgment in favor of that party in the amount of all reasonable and necessary defense costs.

(b) “Defense costs,” as used in this section, shall include

reasonable attorneys' fees, expert witness fees, the cost of services of experts, advisers, and consultants in defense of the proceeding, and where reasonably and necessarily incurred in defending the proceeding. The court may direct a separate trial at the conclusion of the proceeding on the issue of defense costs.

(c) This section shall be applicable only on motion made prior to the discharge of the jury or entry of judgment, and any party requesting the relief pursuant to this section waives any right to seek damages for malicious prosecution. Failure to make such motion shall not be deemed a waiver of the right to pursue a malicious prosecution action.

(d) This section shall only apply if the defendant or cross-defendant has made a motion for summary judgment or nonsuit and the motion is granted.

SECTION 1. The Legislature hereby finds and declares that the State of California must adopt a clear Medi-Cal program policy of promoting, where possible, restorative and rehabilitative treatment for infirm, nonterminal Medi-Cal eligible persons residing in skilled

The Legislature further finds and declares that a state study must be undertaken in specified areas to determine the level of restorative and rehabilitative treatment being provided, the appropriate classification and placement of long-term care patients, and the reasonableness of the Medi-Cal program's rate-setting methodology for long-term care services, so that an adequate information base is established, from which recommendations for implementing positive reform in the area of Medi-Cal program long-term care services may be formulated. Therefore, the Legislature hereby finds and declares that the State Department of Health Services should continue in its effort to study the treatment provided to Medi-Cal patients in skilled nursing and intermediate care facilities.

**SEC. 2.** The State Department of Health Services shall continue to conduct a study for the purposes specified in Section 1 of this act. (1) The nature and frequency of present activities.

(2) The nature and frequency of activities which should be provided in order to produce maximum independence for the individual and a better quality of life.

(3) The cost of implementing the recommendations made pursuant to paragraph (2) for transportation, staff, usage, and additional liability insurance.

(4) The impact of community involvement on the potential for independent living.

(c) The ability of communities to absorb persons who would be ready to move out into independent living or maximizing patient functioning within the institutional setting.

(d) The extent to which services are available in the facilities to promote restorative and rehabilitative treatment and independent living, including, but not limited to, a comparison of the availability of such services in the various types of long-term care facilities existing in the state.

(e) To the extent practicable, where timely and appropriate reports exist, the information in such reports shall be used and incorporated in the report required by Section 3 of this act in lieu of any portion of the study specified in this section.

SEC. 3. On or before September 1, 1981, the State Department of Health Services shall complete and submit to the Legislature a preliminary report of the results of the study specified in Section 2 of this act. On or before February 1, 1982, the State Department of Health Services shall complete and submit to the Legislature a final report of the results and recommendations of the study specified in Section 2 of this act.

SEC. 4. (a) On a previous adverse underwriting decision or on the fact that an individual previously obtained insurance coverage through a residual market mechanism; provided, however, an insurance institution or agent may base an adverse underwriting decision on further information obtained from an insurance institution or agent responsible for a previous adverse underwriting decision. (1) Prior to the consummation of the sale, transfer, merger or consolidation only such information is disclosed as is reasonably necessary to enable the recipient to make business decisions about the purchase, transfer, merger or consolidation; and

(2) The recipient agrees not to disclose the information unless the disclosure would otherwise be permitted by this section if made by an insurance institution, agent or insurance-support organization; or

(k) (1) To a person whose only use of such information will be in connection with the marketing of a product or service, provided that:

(A) No medical record information, privileged information, or personal information relating to an individual's character, personal habits, mode of living or general reputation is disclosed, and no classification derived from such information is disclosed; and

(B) The individual has been given an opportunity to indicate that he or she does not want personal information disclosed for marketing purposes and has given no indication that he or she does not want the information disclosed; and

(C) The person receiving such information agrees not to use it except in connection with the marketing of a product or service;

(2) Nothing in this subdivision shall prohibit the disclosure of a complete list of the names and addresses of persons insured by an insurance institution or agent, nor shall this subdivision prohibit a disclosure pursuant to subdivision (1); or

(1) The sources of information of the insurance-support organization are persons other than insurance institutions or agents, and

(2) The disclosure is to a person other than an insurance institution or agent.

791.14. (a) The commissioner shall have power to examine and investigate into the affairs of every insurance institution or agent doing business in this state to determine whether the insurance institution or agent has been or is engaged in any conduct in violation of this article.

(b) The commissioner shall have the power to examine and investigate into the affairs of every insurance-support organization acting on behalf of an insurance institution or agent which either transacts business in this state or transacts business outside this state that has an effect on a person residing in this state in order to determine whether such insurance-support organization has been or is engaged in any conduct in violation of this article.

791.15. (a) Whenever the commissioner has reason to believe that an insurance institution, agent or insurance-support organization has been or is engaged in conduct in this state which violates this article, or if the commissioner believes that an insurance-support organization has been or is engaged in conduct outside this state which has an effect on a person residing in this state and violates this article, the commissioner shall issue and serve upon such insurance institution, agent or insurance-support organization a statement of charges and notice of hearing to be held at a time and place fixed in the notice. The date for such hearing shall be not less than 30 days after the date of service.

(b) At the time and place fixed for such hearing the insurance institution, agent or insurance-support organization charged shall have an opportunity to answer the charges against it and present evidence on its behalf. Upon good cause shown, the commissioner shall permit any adversely affected person to intervene, appear and be heard at such hearing by counsel or in person.

(c) At any hearing conducted pursuant to this section the commissioner may administer oaths, examine and cross-examine witnesses and receive oral and documentary evidence. The commissioner shall have the power to subpoena witnesses, compel their attendance and require the production of books, papers, records, correspondence and other documents which are relevant to the hearing. A stenographic record of the hearing shall be made upon the request of any party or at the discretion of the commissioner. If no stenographic record is made and if judicial

review is sought, the commissioner shall prepare a statement of the evidence for use on review. Hearings conducted under this section shall be governed by the same rules of evidence and procedure applicable to administrative proceedings conducted pursuant to this code.

(d) Statements of charges, notice, orders and other processes of the commissioner under this article may be served by anyone duly authorized to act on behalf of the commissioner. Service of process may be completed in the manner provided by law for service of process in civil actions or by registered mail. A copy of the statement of charges, notice, order or other process shall be provided to the person or persons whose rights under this article have been allegedly violated. A verified return setting forth the manner of service, or return postcard receipt in the case of registered mail, shall be sufficient proof of service.

791.16. For the purpose of this article, an insurance-support organization transacting business outside this state which has an effect on a person residing in this state shall be deemed to have appointed the commissioner to accept service of process on its behalf, provided the commissioner causes a copy of such service to be mailed forthwith by registered mail to the insurance-support organization at its last known principal place of business. The return postcard receipt for such mailing shall be sufficient proof that the same was properly mailed by the commissioner.

791.17. (a) If, after a hearing pursuant to Section 791.15, the commissioner determines that the insurance institution, agent or insurance-support organization charged has engaged in conduct or practices in violation of this article, he shall reduce his findings to writing and shall issue and cause to be served upon such insurance institution, agent or insurance-support organization a copy of such findings and an order requiring such insurance institution, agent or insurance-support organization to cease and desist from the conduct or practices constituting a violation of this article.

(b) If, after a hearing pursuant to Section 791.15, the commissioner determines that the insurance institution, agent or insurance-support organization charged has not engaged in conduct or practices in violation of this article, he shall prepare a written report which sets forth findings of fact and conclusions of law. Such report shall be served upon the insurance institution, agent or insurance-support organization charged and upon the person or persons, if any, whose rights under this article were allegedly violated.

(c) Until the expiration of the time allowed under Section 791.18 for filing a petition for review or until such petition is actually filed, whichever occurs first, the commissioner may modify or set aside any order or report issued under this section. After the expiration of the time allowed under Section 791.18 for filing a petition for review, if no such petition has been duly filed, the commissioner may, after notice and opportunity for hearing, alter, modify or set aside, in

whole or in part, any order or report issued under this section whenever conditions of fact or law warrant such action or if the public interest so requires.

791.18. (a) Any person subject to an order of the commissioner under Section 779.17 or Section 791.20 or any person whose rights under this article were allegedly violated may obtain a review of any order or report of the commissioner by filing in a court of competent jurisdiction, within 30 days from the date of the service of such order or report, pursuant to Section 1094.5 of the Code of Civil Procedure. The court shall have jurisdiction to make and enter a decree modifying, affirming or reversing any order or report of the commissioner, in whole or in part.

(b) An order or report issued by the commissioner under Section 791.17 shall become final:

(1) Upon the expiration of the time allowed for the filing of a petition for review, if no such petition has been duly filed; except that the commissioner may modify or set aside an order or report to the extent provided in subdivision (c) of Section 791.17; or

(2) Upon a final decision of the court if the court directs that the order or report of the commissioner be affirmed or the petition for review dismissed.

(c) No order or report of the commissioner under this article or order of a court to enforce the same shall in any way relieve or absolve any person affected by such order or report from any liability under any law of this state.

791.19. Any person who violates a cease and desist order of the commissioner under Section 791.17 may, after notice and hearing and upon order of the commissioner, be subject to one or more of the following penalties, at the discretion of the commissioner:

(a) A monetary fine of not more than ten thousand dollars (\$10,000) for each violation; or

(b) A monetary fine of not more than fifty thousand dollars (\$50,000) if the commissioner finds that violations have occurred with such frequency as to constitute a general business practice; or

(c) Suspension or revocation of an insurance institution's or agent's license if the insurance institution or agent knew or reasonably should have known it was in violation of this article.

791.20. If any insurance institution, agent or insurance-support organization fails to comply with Section 791.08, 791.09 or 791.10 with respect to the rights granted under those sections, any person whose rights are violated may apply to any court of competent jurisdiction, for appropriate equitable relief. If the court finds that the failure to comply with Section 791.08, 791.09 or 791.10 was without reasonable cause, it may award costs and reasonable attorney's fees to the person bringing an action under this section in addition to any equitable relief. The court may award costs and reasonable attorney's fees to the insurance institution, agent or insurance-support organization if it finds that an action under this section is frivolous. Any action brought under this section shall be subject to such defenses as may

be available in any action for equitable relief.

791.21. There shall be no liability on the part of and no cause of action shall arise against any person for disclosing or receiving personal or privileged information in good faith, except there shall be no immunity under this section for a disclosure of information in a negligent manner, information known to be false or a disclosure with malice or willful intent to injure any person. Liability, where no immunity exists, shall be limited to compensatory damages and, in addition, punitive damages not to exceed three thousand dollars (\$3,000), attorney's fees not to exceed one thousand dollars (\$1,000), and the cost of litigation.

791.22. Any person who knowingly and willfully obtains information about an individual from an insurance institution, agent or insurance-support organization under false pretenses shall be fined not more than ten thousand dollars (\$10,000) or imprisoned for not more than one year, or both.

791.23. The rights granted under Sections 791.08, 791.09 and 791.13 shall take effect on July 1, 1981, regardless of the date of the collection or receipt of the information which is the subject of such sections. Nothing contained in subdivisions (k) and (l) of Section 791.13, or in any other provision of this article, shall in any way affect the provisions of Section 770.1.

791.26. Where an authorization from the individual was granted to a nonprofit hospital service plan prior to July 1, 1981, such authorization shall be deemed to be in compliance with this article.

SEC. 2. This act shall remain in effect only until January 1, 1989, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends such date.

SEC. 3. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be because this act creates a new crime or infraction, changes the definition of a crime or infraction, or eliminates a crime or infraction. Furthermore, this act does not create any present or future obligation to reimburse any local agency or school district for any costs incurred because of this act.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 631.01 is added to the Code of Civil Procedure, to read:

631.01. (a) Trial by jury may be waived by the several parties to an issue of fact in any of the following ways:

- (1) By failing to appear at the trial.
- (2) By written consent filed with the clerk or judge.
- (3) By oral consent, in open court, entered in the minutes or docket.

(4) By failing to announce that a jury is required, at the time the cause is first set for trial, if it is set upon notice or stipulation, or within five days after notice of setting if it is set without notice or stipulation.

(5) By failing to deposit with the clerk, or judge, advance jury fees 14 days prior to the date set for trial, or as provided by subdivision (b). The advance jury fee shall not exceed the amount necessary to pay the average mileage and fees of 20 trial jurors in the court to which the jurors are summoned.

(6) By failing to deposit with the clerk, or judge, at the beginning of the second and each succeeding day's session a sum equal to one day's fees of the jury, and the mileage or transportation, if there are any.

(b) In a superior court action if a jury is demanded by either party in the memorandum to set the cause for trial and the party, prior to trial, by announcement or by operation of law waives a trial by jury, then all adverse parties shall have five days following the receipt of notice of the waiver to file and serve a demand for a trial by jury and to deposit any advance jury fees which are then due.

(c) When the party who has demanded trial by jury either waives such trial upon or after the assignment for trial to a specific department of the court, or upon or after the commencement of the trial, or fails to deposit the fees as provided in paragraph 6 of subdivision (a), trial by jury shall be waived by the other party either failing promptly to demand trial by jury before the judge in whose department the waiver, other than for the failure to deposit such fees, was made, or by that party's failing promptly to deposit the fees provided in paragraph 6 of subdivision (a).

(d) The court may, in its discretion upon just terms, allow a trial by jury although there may have been a waiver of a trial by jury.

SEC. 2. Section 631.2 is added to the Code of Civil Procedure, to read:

631.2. (a) Notwithstanding any other provision of law, the county may pay jury fees in civil cases from general funds of the county available therefor. Nothing in this section shall be construed to change the requirements for the deposit of jury fees in any civil case by the appropriate party to the litigation at the time and in the manner otherwise provided by law. Nothing in this section shall preclude the right of the county to be reimbursed by the party to the litigation liable therefor for any payment of jury fees pursuant to this section.

(b) The party who has demanded trial by jury shall reimburse the county for the fees and mileage of all jurors appearing for voir dire examination, except those jurors who are excused and subsequently on the same day are called for voir dire examination in another case.

SEC. 2. Section 66424.2 of the Government Code, as added by Chapter 403 of the Statutes of 1980, is repealed.

SEC. 3. Section 66424.2 is added to the Government Code, to read:

66424.2. (a) Notwithstanding Section 66424, two or more contiguous parcels or units of land which have been created under the provisions of this division or any prior law regulating the division of land or a local ordinance enacted pursuant thereto or were not

subject to such provisions at the time of their creation shall not be deemed merged by virtue of the fact that such contiguous parcels or units are held by the same owner, and no further proceeding under the provisions of this division or a local ordinance enacted pursuant thereto shall be required for the purpose of sale, lease, or financing of such contiguous parcels or units, or any of them; except that, a local agency may, by ordinance, provide that if any one of such contiguous parcels or units held by the same owner does not conform to standards for minimum parcel size to permit use or development under a zoning, subdivision or other ordinance of the local agency and at least one of such contiguous parcels or units is not developed with a building for which a permit has been issued by the local agency, or which was built prior to the time such permits were required by the local agency, then such parcels shall be merged for the purposes of this division.

(b) Any parcels which merged by operation of law and which have not been deemed merged pursuant to a local ordinance adopted pursuant to subdivision (a), are hereby deemed to be unmerged without compliance with the requirements of this division.

(c) Whenever a local agency has knowledge that real property has merged pursuant to this section or a local ordinance enacted pursuant to this section, it shall cause to be filed for record with the recorder of the county in which the real property is located, a notice of such merger specifying the names of the record owners and particularly describing the real property, provided that, at least 30 days prior to the recording of the notice the owner of the parcels or units to be affected by the merger, shall be advised in writing of the intention to record the notice and specifying a time, date and place at which the owner may present evidence to the legislative body or advisory agency as to why such notice should not be recorded.

SEC. 4. Section 2 of this act shall become operative January 1, 1981.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act clarifies statutory language to avoid confusion and litigation regarding the application of the Subdivision Map Act to certain types of land subdivisions. In order to accomplish this vital objective at the earliest possible time, it is necessary that this act take immediate effect.

## CHAPTER 1218

An act to add Section 56135 to, and Chapter 4.7 (commencing with Section 56475) to Part 30 of, the Education Code, and Chapter 24 (commencing with Section 7540) to Division 7 of Title 1 of the Government Code, relating to special education and federal funds.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 56135 is added to the Education Code, to read:

56135. (a) The Superintendent shall be responsible for assuring provision of, and supervising, education and related services to handicapped children as specifically required pursuant to Public Law 94-142, the Education for All Handicapped Children Act of 1975.

(b) Nothing in this part shall be construed to authorize the superintendent to prescribe health care services.

SEC. 2. Chapter 4.7 (commencing with Section 56475) is added to Part 30 of the Education Code, to read:

## CHAPTER 4.7. INTERAGENCY AGREEMENTS

56475. The superintendent and the directors of the State Department of Health Services, the State Department of Mental Health, the State Department of Developmental Services, the State Department of Social Services, the Department of Rehabilitation, the Department of the Youth Authority, and the Employment Development Department shall develop written interagency agreements which include fiscal responsibilities for the provision of special education and related services to handicapped children in the State of California.

(b) The superintendent shall develop interagency agreements with other state and local public agencies, as deemed necessary by the superintendent, to carry out the provisions of state and federal law.

(c) (1) Each interagency agreement shall be submitted by the superintendent to each legislative fiscal committee, education committee, and policy committee, responsible for legislation relating to those handicapped children that will be affected by the agreement if it is effective.

(2) An interagency agreement shall not be effective sooner than 30 days after it has been submitted to each of the legislative committees specified in paragraph (2).

56476. (a) If any state agency fails to provide services specified in a child's individualized education program, and such agency is required to provide such services pursuant to federal law, state law, interagency agreement, or any combination thereof, such agency and the reasons for lack of provision shall be identified jointly by the superintendent and the appropriate state agency.

(b) Within 15 calendar days of identification of such a problem, a report of such lack of provision of services shall be made to the secretary of the agency having jurisdiction over the state agency involved. If the services are not provided within 60 days, the issue shall be referred to the Director of Finance who shall, after consultation with the appropriate agency, secretary and the superintendent, take whatever action he or she deems appropriate to ensure that the services are provided. Any state agency providing educationally related services to handicapped children, pursuant to this chapter, shall obtain prior approval from the Department of Finance before reducing or eliminating such services.

SEC. 2. Chapter 24 (commencing with Section 7540) is added to Division 7 of Title 1 of the Government Code, to read:

#### CHAPTER 24. FEDERAL FUNDING

7540. It is the intent of the Legislature to assure receipt of federal funding by the State of California. It is also the intent of the Legislature to assure that if lack of interagency agreement or lack of coordination between state agencies jeopardizes state receipt of federal funds, including, but not limited to, funds available for services to handicapped children, an expeditious process shall exist for resolving such interagency matters.

7541. It is further the intent of the Legislature that there shall be a single line of responsibility with regard to the education of all handicapped children as required by Public Law 94-142. The Superintendent of Public Instruction shall be responsible for supervising education and related services for handicapped children specifically required pursuant to the federal requirements under the Education for All Handicapped Children Act of 1975, Public Law 94-142. Nothing in this chapter shall be construed to relieve another state agency from an otherwise valid obligation to provide or pay for services to a handicapped child. Furthermore, nothing in this chapter shall be interpreted so as to allow the Superintendent of Public Instruction to prescribe health care services.

7542. If any state agency applies for federal funds to meet a mandatory responsibility under federal or state law and such application is not approved, the state agency shall submit to the Department of Finance, the Office of Planning and Research and the Joint Legislative Budget Committee within 15 calendar days of its receipt of notification of the lack of approval of its application all of the following:

(a) An identification of the federal program for which the application was not approved and the federal administering agency

(b) An estimate of the amount of funds affected by the lack of approval of the state agency application

(c) An indication of the reason or reasons the application was not approved

(d) A description of any issues pertaining to responsibilities or actions of other state or local agencies which have affected the lack of approval.

7543. The Joint Legislative Budget Committee shall submit to each member of the appropriate legislative policy committees and to each member of the legislative fiscal committees, within 10 calendar days of receipt of notification of a lack of approval of an application for federal funds reported to it pursuant to Section 7542, a summary of the information specified in subdivisions (a) through (d) of Section 7542.

7544. Any state agency which has not received federal agency approval of an application for funds as described in Section 7542 shall submit to the Department of Finance, the Office of Planning and Research and the Joint Legislative Budget Committee within 30 calendar days of receipt of notification of such lack of approval a plan that includes, but is not limited to:

- (a) Fostering expeditious receipt of the affected federal funds
- (b) Resolving any disagreement or lack of coordination among state agencies or among local agencies which has interfered with federal agency approval of the application for federal funds.

## CHAPTER 1219

An act to amend Sections 51220, 51231, and 51238 of, and to add Section 51282.3 to, the Government Code, relating to agriculture.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 51220 of the Government Code is amended to read:

51220. The Legislature finds:

(a) That the preservation of a maximum amount of the limited supply of agricultural land is necessary to the conservation of the state's economic resources, and is necessary not only to the maintenance of the agricultural economy of the state, but also for the assurance of adequate, healthful and nutritious food for future residents of this state and nation.

(b) That the agricultural work force is vital to sustaining agricultural productivity; that this work force has the lowest average income of any occupational group in this state; that there exists a need to house this work force of crisis proportions which requires including among agricultural uses the housing of agricultural laborers; and that such use of agricultural land is in the public interest and in conformity with the state's Farmworker Housing Assistance Plan.

(c) That the discouragement of premature and unnecessary conversion of agricultural land to urban uses is a matter of public interest and will be of benefit to urban dwellers themselves in that it will discourage discontinuous urban development patterns which

unnecessarily increase the costs of community services to community residents.

(d) That in a rapidly urbanizing society agricultural lands have a definite public value as open space, and the preservation in agricultural production of such lands, the use of which may be limited under the provisions of this chapter, constitutes an important physical, social, esthetic and economic asset to existing or pending urban or metropolitan developments.

(e) That land within a scenic highway corridor or wildlife habitat area as defined in this chapter has a value to the state because of its scenic beauty and its location adjacent to or within view of a state scenic highway or because it is of great importance as habitat for wildlife and contributes to the preservation or enhancement thereof.

(f) For these reasons, this chapter is necessary for the promotion of the general welfare and the protection of the public interest in agricultural land.

SEC. 2. Section 51231 of the Government Code is amended to read:

51231. For the purposes of this chapter, the board or council, by resolution, shall adopt rules governing the administration of agricultural preserves, including procedures for initiating, filing, and processing requests to establish agricultural preserves. Such rules shall be applied uniformly throughout the preserve. The board or council may require the payment of a reasonable application fee. The same procedure that is required to establish an agricultural preserve shall be used to disestablish or to enlarge or diminish the size of an agricultural preserve. In adopting rules related to compatible uses, the board or council may enumerate those uses, including agricultural laborer housing which are to be considered to be compatible uses on contracted lands separately from those uses which are to be considered to be compatible uses on lands not under contract within the agricultural preserve.

SEC. 3. Section 51238 of the Government Code is amended to read:

51238. Notwithstanding any determination of compatible uses by the county or city pursuant to this article, unless the board or council after notice and hearing makes a finding to the contrary, the erection, construction, alteration, or maintenance of gas, electric, water, communication, or agricultural laborer housing facilities are hereby determined to be compatible uses within any agricultural preserve. No land occupied by gas, electric, water, communication, or agricultural laborer housing facilities shall be excluded from an agricultural preserve by reason of such use.

The board of supervisors may impose conditions on lands to be placed within preserves to permit and encourage compatible use of the land, particularly public outdoor recreational uses.

SEC. 4. Section 51282.3 is added to the Government Code, to read:

51282.3. (a) The landowner may petition the board or council, pursuant to Section 51282, for cancellation of any contract or of any portion of a contract if the board or council has determined that

agricultural laborer housing is not a compatible use on the contracted lands. Such petition, and any subsequent cancellation based thereon, shall: (1) particularly describe the acreage to be subject to cancellation; (2) stipulate that the purpose of the cancellation is to allow the land to be used exclusively for agricultural laborer housing facilities; (3) demonstrate that the contracted lands, or portion thereof, for which cancellation is being sought are reasonably necessary for the development and siting of agricultural laborer housing; and (4) certify that the contracted lands, or portion thereof, for which cancellation is being sought, shall not be converted to any other alternative use within the first 10 years immediately following the cancellation.

Such petition shall be deemed to be a petition for cancellation for a specified alternative use of the land. The petition shall be acted upon by the board or council in the manner prescribed in Section 51283.4; provided, however, that the provisions of Sections 51283 and 51283.1 pertaining to the payment of deferred taxes and cancellation fees shall not be imposed except as provided in subdivision (b).

(b) If the owner of real property is issued a certificate of cancellation of contract based on subdivision (a), there shall be executed and recorded concurrently with the recordation of the certificate of cancellation of contract, a lien in favor of the county, city or city and county in the amount of the fees and taxes which would otherwise have been imposed pursuant to Sections 51283 and 51283.1. Such amounts shall bear interest at the rate of 10 percent per annum. The lien shall particularly describe the real property subject to the lien, shall be recorded in the county where the real property subject to the lien is located, and shall be indexed by the recorder in the grantor index to the name of the owner of the real property and in the grantee index in the name of the county or city or city and county. From the date of recordation the lien shall have the force, effect and priority of a judgment lien. The board or council shall execute and record a release of lien if, after a period of 10 years from the date of the recordation of the certificate of cancellation of contract, the real property subject to the lien has not been converted to a use other than agricultural laborer housing. In the event the real property subject to the lien has been converted to a use other than agricultural laborer housing, or the construction of agricultural laborer housing has not commenced within a period of one year from the date of recordation of the certificate of cancellation of contract, then the lien shall only be released upon payment of the fees, taxes and interest for which the lien has been imposed. Where construction commences after the one-year period the amount of the interest shall only be for that period from one year following the date of the recordation of the certificate of cancellation of contract until the actual commencement of construction.

SEC. 5. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code and Section 6 of Article XIII B of the California Constitution, no appropriation is made by this act pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available

to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 6. The Controller shall report to the Legislature on the amount of claims made by county auditors under Section 16113 of the Government Code for compensation for property tax revenues lost by reason of the classification or exemption of property by this act. The report shall be made on or before the first day of October next following the operative date of this act for claims made under subdivision (a) of Section 16113 and shall be made on or before the first day of December next following the operative date of this act for claims made under subdivision (b) of Section 16113. The report shall be made in order that the Legislature may appropriate funds for the subventions required by Section 2229 of the Revenue and Taxation Code.

## CHAPTER 1220

An act to amend Sections 16113.8, 43073, and 53292 of the Government Code, to amend Sections 99.1 and 26483 of, and to add Section 99.9 to, the Revenue and Taxation Code, and to amend Section 10 of Chapter 852 of the Statutes of 1979, relating to local agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 16113.8 of the Government Code, as added by Chapter 610 of the Statutes of 1980, is amended to read:

16113.8. (a) Each county auditor shall file a claim with the Controller on or before the last day of August of each year for reimbursement to local government jurisdictions for the tax loss attributable to the extension of the exclusion for air and ground time spent within the state by certificated aircraft prior to its first revenue flight provided for in Section 1152 of the Revenue and Taxation Code.

(b) For the 1980-81 fiscal year and each year thereafter, the sum of the reimbursements pursuant to this section for all local governmental jurisdictions within a county shall be an amount equal to the claims that would have been filed under the exclusion, had the tax rate on such property been four dollars (\$4) per one hundred dollars (\$100) of assessed value.

(c) Proceeds received from the Controller shall be apportioned by the auditor to local government jurisdictions in the same proportion as revenues were distributed in the 1979-80 fiscal year pursuant to Chapter 6 (commencing with Section 5451) of Part 10 of Division 1 of the Revenue and Taxation Code.

SEC. 2. Section 43073 of the Government Code is amended to read:

43073. The legislative body of any city which is encompassed entirely within the territory of a special district may elect to pay the district an amount equal to the amount the district would derive from its share of property tax allocations applicable to all property within the incorporated limits of the city.

(b) If a legislative body makes an election pursuant to subdivision (a), the county auditor shall reallocate property taxes due to the special district within the incorporated limits of the city to the city.

The county auditor shall report to the State Controller the amount of property taxes reallocated to a city pursuant to this subdivision, as well as the total amount of property taxes allocated to the city pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code. No reallocation made pursuant to this subdivision shall affect any allocations of property tax revenues to the city or special district in subsequent fiscal years pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of Division 1 of the Revenue and Taxation Code.

(c) If a city legislative body makes an election pursuant to subdivision (a), and upon apportionment of taxes by the county, the reallocated amounts shall be paid by the city or transferred by the county auditor to the district.

(d) If the legislative body of a city makes an election pursuant to subdivision (a), the legislative body shall notify the county auditor by no later than the first day of September of the fiscal year in which the election becomes effective.

(e) For purposes of this section, "special district" means any special district where the county board of supervisors act as, or has appointed, the governing body of such districts providing fire or library services to one or more cities or any county library service established under Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code provided for one or more cities, if all property within the city is taxed to support the service.

(f) This section shall not apply in any case in which a city is making the payments described in this section to a district on the effective date of this section.

(g) If any additional costs are incurred by a county as a result of an election under this act by a city, the county may collect such costs from the city.

(h) This section shall apply only to cities which are in counties which have a population of 6,000,000 or more.

SEC. 3. Section 53292 of the Government Code is amended to read:

53292. Whenever a fire protection district or city fire department is dissolved or the area it serves is decreased by reason of a consolidation, merger, incorporation, annexation, or contract, and the fire protection district or city fire department taking over the duties of the dissolved or decreased district or department decides to hire additional firemen, it shall give first choice for the positions to be filled to firemen employed by the dissolved or decreased

district or department. As nearly as possible, such employees who are hired shall be given positions with a rank comparable to that which they held in the dissolved or decreased district or department. No employee shall be hired who is over the mandatory retirement age of the fire protection district or city fire department which is taking over the duties of the dissolved or decreased district or department.

Where such employees are hired as a result of such consolidation, merger, incorporation, annexation, or contract, the seniority or other employment rights of the employees of the fire protection district or fire department taking over the duties of the dissolved or decreased district or department shall not be impaired as a result of such consolidation, merger, incorporation, annexation, or contract, except as otherwise agreed upon in a county, other than a county of the first class, in a memorandum of understanding with each employee organization, which has been recognized pursuant to Chapter 10 (commencing with Section 3500) of Division 4 of Title 1, and which represents employees of the district or department taking over the duties of the dissolved or decreased district or department who are in classes affected by such consolidation, merger, incorporation, annexation, or contract.

SEC. 4. Section 99.1 of the Revenue and Taxation Code, as added by Chapter 801 of the Statutes of 1980, is amended to read:

99.1. (a) For the purposes of Section 99, in the case of a jurisdictional change which will result in a special district providing one or more services to an area where such services have not been previously provided by any local agency, the following shall apply:

(1) The special district referred to in this subdivision and each local agency which receives an apportionment of property tax revenue from the area shall be considered local agencies whose service area or service responsibility will be altered by the jurisdictional change.

(2) The exchange of property tax among such local agencies shall be limited to property tax revenue from the annual tax increment generated in the area subject to the jurisdictional change and attributable to such local agencies.

(3) Notwithstanding the provisions of paragraph (5) of subdivision (b) of Section 99, any special district affected by the jurisdictional change may negotiate on its own behalf, if it so chooses.

(4) If a special district involved in the negotiation (other than the district which will provide one or more services to the area where such services have not been previously provided) fails to adopt a resolution providing for the exchange of property tax revenue, the board of supervisors of the county in the area subject to the jurisdictional change is located shall determine the exchange of property tax revenue for such special district.

(b) The provisions of subdivisions (a), (b), (c) and (d) of Section 99 not in conflict with this section shall apply. The jurisdictional changes described in subdivisions (e), (f), (g), (h), and (i) of Section 99 shall not be affected by the provisions of this section.

SEC. 5. Section 99.9 is added to the Revenue and Taxation Code, to read:

99.9. No amendment made by any chapter of the Statutes of 1980 to Section 99 of the Revenue and Taxation Code shall be construed, except as expressly provided therein, to apply to a jurisdictional change initiated, pursuant to the applicable provisions of law governing such jurisdictional changes, prior to the effective date of the amendment and the provisions of Section 99 of the Revenue and Taxation Code in effect at the time the jurisdictional change is initiated shall govern the procedures for, and exchange of, property tax revenues between local agencies whose service area or service responsibility would be altered by such jurisdictional change.

SEC. 6. Section 26483 of the Revenue and Taxation Code, as amended by Chapter 610 of the Statutes of 1980, is amended to read:

26483. All money deposited in the Financial Aid to Local Agencies Fund is hereby appropriated subject to the provisions of the budget bill. On or before the last day of June and on or before the last day of March the balance in the Financial Aid to Local Agencies Fund shall be allocated by the Controller to cities and counties in the following manner and amount:

(a) For the June allocation, one-half of the amount to be allocated to cities and counties shall be distributed based on population. The cities' allocation would be determined based on the proportion that the population of each city bears to the total population of California. The counties' allocation would be determined based on the proportion that the population residing in the unincorporated area of each county bears to the total population of California.

(b) The balance of the June allocation shall be allocated to cities and counties in the following manner:

(1) An amount shall be computed for each county by dividing the balance of the June allocation among counties in the same proportion that the amount of AFDC benefits paid to residents of each county during January, February, and March of the year bears to the total of all AFDC benefits paid to residents of California during the same period.

(2) For each city, and for the unincorporated area within each county, an amount shall be computed equal to the population of the city or the unincorporated area of the county divided by the per capita personal income of residents of the city or unincorporated area. For purposes of this paragraph, the population and per capita personal income figures shall be those used in the latest entitlement period for calculations of Federal Revenue Sharing funds under the Federal State and Local Fiscal Assistance Act of 1972 as amended.

(3) The Controller shall allocate the amounts determined pursuant to paragraph (1) among the county and the cities within the county in the same proportion that the amount computed pursuant to paragraph (2) for each city and the unincorporated area of the county bears to the total of such amounts computed pursuant to paragraph (2) for all cities and the unincorporated area of the county. The amount computed pursuant to this paragraph with respect to the unincorporated area of the county shall be the county's share of the June allocation.

(c) For the March allocation, the same procedure shall be followed as for the June allocation, but "July, August and September" shall be substituted for "January, February and March."

(d) For purposes of this section a city includes a city and county.

(e) Notwithstanding any other provision of this section, for fiscal years 1980-81 and 1981-82 only, before the allocation is made pursuant to subdivision (c), the Controller shall make an allocation on or before the last day of December in the following manner and amounts:

(1) For a redevelopment agency which is within a county having a population of 5,000,000 persons or more, and which is within a general law city having a population of not less than 30,000 persons and not more than 36,000 persons, and which has a redevelopment project area of more than 500 acres and less than 1,300 acres as of September 1, 1979. The allocation shall equal one hundred fifty thousand dollars (\$150,000).

(2) For a redevelopment agency which is within a county having a population of 5,000,000 persons or more, and which is within a general law city having a population of not less than 36,000 persons and not more than 41,000 persons, and which has a redevelopment project area of more than 500 acres and less than 1,300 acres as of September 1, 1979. The allocation shall equal fifty thousand dollars (\$50,000).

(3) For a redevelopment agency which is within a county having a population of 5,000,000 persons or more, and which is in a charter city having a population of not less than 70,000 persons and not more than 80,000 persons, and which has a redevelopment project area of not less than 100 acres and not more than 1,400 acres as of September 1, 1979. The allocation shall equal three hundred thousand dollars (\$300,000).

SEC. 7. Section 10 of Chapter 852 of the Statutes of 1979, as amended by Chapter 801 of the Statutes of 1980, is amended to read:

Sec. 10. Notwithstanding the provisions of subdivision (b) of Section 99 of the Revenue and Taxation Code, any formation, organization, or incorporation of any public body, or any annexation thereto, or exclusion therefrom, or other change of boundaries thereof, or the consolidation, merger or dissolution of any public body, which was filed under Section 54900, 54901, 54902, 54903 or 54904 of the Government Code between January 2, 1978 and July 24, 1979, is hereby confirmed, validated and declared legally effective.

For purposes of determining the amount of property tax to be allocated in the fiscal year such creation or change in boundaries becomes effective for purposes of taxation and thereafter for the public bodies described in this section, the provisions of subdivisions (e) and (f) of Section 99 of the Revenue and Taxation Code shall apply.

SEC. 8. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code and Section 6 of Article XIII B of the California Constitution, no appropriation is made by this act pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available

to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A variety of formulas are contained in statutes pertaining to state subventions and the allocation of property tax revenues, including the exchange of property tax revenues between local agencies in the case of jurisdictional changes. Existing law also contains provisions relating to the impairment of seniority and other employment rights of certain fire employees. In order to revise these formulas, to effectuate such subvention and allocations, and to permit certain memorandums of understanding to become effective, as soon as possible, it is necessary that this act take effect immediately.

## CHAPTER 1221

An act relating to appropriations limits.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. The Legislature finds and declares that Article XIII B of the Constitution requires, among other things, that an adjustment be made to the appropriations limit of a local agency when the population of a local agency changes. Pursuant to subdivision (f) of Section 8 of Article XIII B of the Constitution, the Legislature has the authority to determine the method of calculating changes in population so long as the method reflects the periodic census conducted by the federal government. The Legislature further finds and declares that the change in resident population may not accurately reflect the service demands of a charter city and county. There are special circumstances which exist when a charter city and county is a major employment center for an entire metropolitan region. The population growth in the metropolitan region has a direct impact on the service needs of the charter city and county. These special circumstances require a charter city and county to appropriate funds to provide services to nonresidents who are employed and utilize the services of a charter city and county. The purpose of this act is to allow a charter city and county to take into account the growth in the economic base of a charter city and county and the growth in the metropolitan labor market where it can be shown that growth in the economic base, as measured by the increase in assessed value attributable to new construction, requires additional appropriations by the charter city and county.

The Legislature further finds and declares that the method for calculating population for a charter city and county reflects the

periodic census of local agencies which provide the employment base for the charter city and county.

SEC. 2. Notwithstanding any other provision of law, for the purpose of the computations required pursuant to Article XIII B of the Constitution, a charter city and county may adjust its percentage change in population to reflect the percentage change in population in the Standard Consolidated Statistical Area which includes the charter city and county if it finds that the growth in assessed value attributable to new construction exceeds the percentage change in population of the charter city and county and an increase in expenditures is required to provide services for nonresident employees.

## CHAPTER 1222

An act to add Section 11372.5 to the Health and Safety Code, relating to controlled substance offenses.

[Approved by Governor September 27, 1980 Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11372.5 is added to the Health and Safety Code, to read:

11372.5. (a) Every person who is convicted of a violation of Section 11350, 11351, 11352, 11358, 11359, 11363, 11364, 11368, 11377, 11378, 11378.5, 11379, 11379.5, or 11383 or subdivision (a), (c) of Section 11357, or subdivision (a) of Section 11360, shall, as part of any fine imposed, pay an increment in the amount of fifty dollars (\$50) for each separate offense. The courts shall increase the total fine as necessary to include this increment.

With respect to those offenses specified in this subdivision for which a fine is not authorized by other provisions of law, the court may upon conviction impose a fine in the amount of fifty dollars (\$50), which shall constitute the increment prescribed by this section and which shall be in addition to any other penalty authorized by law.

(b) The county treasurer shall maintain a criminalistics laboratories fund. The sum of fifty dollars (\$50) shall be deposited into the fund for every conviction under Sections 11350, 11351, 11352, 11358, 11359, 11363, 11364, 11368, 11377, 11378, 11378.5, 11379, 11379.5, or 11383, subdivision (a) or (c) of Section 11357, or subdivision (a) of Section 11360, from fines, forfeitures, and other moneys which are transmitted by the courts to the county treasurer pursuant to Section 11502. Such deposits shall be made prior to any transfer pursuant to Section 11502. The county may retain an amount of such money equal to its administrative cost incurred pursuant to this section. Moneys in the criminalistics laboratories fund shall, except as otherwise provided in this section, be used by the county exclusively

to fund (1) costs incurred by criminalistics laboratories providing microscopic and chemical analyses for controlled substances, in connection with criminal investigations conducted within both the incorporated or unincorporated portions of the county, (2) the purchase and maintenance of equipment for use by these laboratories in performing such analyses, and (3) for continuing education, training, and scientific development of forensic scientists regularly employed by these laboratories. As used in this section, "criminalistics laboratory" means a laboratory operated by, or under contract with, a public agency, including a criminalistics laboratory of the Department of Justice, (1) which has not less than one regularly employed forensic scientist engaged in the analysis of solid-dose controlled substances, and (2) which is registered as an analytical laboratory with the Drug Enforcement Administration of the United States Department of Justice for the possession of all scheduled controlled substances. In counties served by criminalistics laboratories of the Department of Justice, amounts deposited in the criminalistics laboratories fund, after deduction of appropriate county overhead charges attributable to the collection thereof, shall be paid by the county treasurer once a month to the Controller for deposit into the state's General Fund, and shall be excepted from the expenditure requirements otherwise prescribed by this subdivision.

The county treasurer shall, at the conclusion of each fiscal year, determine the amount of any funds remaining in the special fund established pursuant to this section after expenditures for that fiscal year have been made for the purposes herein specified. The county treasurer shall annually distribute such surplus funds in accordance with the allocation scheme for distribution of fines and forfeitures set forth in Section 11502.

SEC. 2. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in this act to cover costs that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

397. In order to carry out the policy stated in Section 396, each county welfare department or probation department shall report to the State Department of Social Services, in the frequency and format determined by the department, foster care characteristic data and care information deemed essential by the department to establish a foster care information system. 398. The department shall report to the Speaker of the Assembly and the Senate Rules Committee on the current status of children placed in foster care. The report shall be submitted on October 1, 1981, and shall include, in addition to the current status of children in foster care, an analysis of foster care service plans in relation to the policy set forth in Section 396.

The foster parent,

or the funeral home and burial plot provider, shall file a claim for reimbursement of costs with the county welfare department at the time and in the manner specified by the department. The county welfare department shall pay such claims in an amount not to exceed the level of reimbursement allowed by the State Board of Control for burial costs and funeral expenses under its Victims of Violent Crimes program, which is contained in Article 1 (commencing with Section 13959) of Chapter 5 of Part 4 of Division 3 of Title 2 of the Government Code. Claims for the burial costs and funeral expenses for a foster child shall be paid out of funds appropriated annually to the department for such purposes.

SEC. 6. The sum of two hundred fifty thousand dollars (\$250,000) is hereby appropriated from the General Fund to the Controller for allocation and disbursement to local agencies and school districts, pursuant to Section 2231 of the Revenue and Taxation Code, to reimburse them for costs mandated by the state and incurred by them pursuant to this act.

Subsequent appropriations shall be subject to the Budget Act.

[Approved by Governor September 28, 1980 Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 831.5 of the Government Code, as added by Senate Bill 1323 of the 1979–80 Regular Session, is amended to read:

831.5. (a) The Legislature declares that innovative public access programs, such as agreements with public land trusts, can provide effective and responsible alternatives to costly public acquisition programs. The Legislature therefore declares that it is beneficial to the people of this state to encourage private nonprofit entities such as public land trusts to carry out programs that increase opportunities for the public to enjoy access to and use of natural resources if such programs are consistent (1) with public safety,

(2) with the protection of such resources, and (3) with public and private rights.

(b) For the purposes of Sections 831.2 and 831.4, "public entity" includes a public land trust which meets all of the following:

(1) Is a nonprofit organization existing under the provisions of Section 501(c) of the United States Internal Revenue Code.

(2) Has specifically set forth in its articles of incorporation, as among its principal charitable purposes, the conservation of land for public access, agricultural, scientific, historical, educational, recreational, scenic, or open space opportunities.

(3) Has entered into an agreement with the State Coastal Conservancy for lands located within the coastal zone, as defined in Section 31006 of the Public Resources Code, or with the State Public Works Board or its designee for lands not located within the coastal zone, on such terms and conditions as are mutually agreeable, requiring the public land trust to provide nondiscriminatory public access consistent with the protection and conservation of either coastal or other natural resources, or both. The conservancy or the board, as appropriate, shall periodically review such agreement and determine whether the public land trust is in compliance with such terms and conditions. In the event the conservancy or the board determines that the public land trust is not in substantial compliance with such agreement, the conservancy or the board shall cancel the agreement, and the provisions of Sections 831.2 and 831.4 shall no longer apply with regard to that public land trust.

(c) For the purposes of Sections 831.2 and 831.4, "public employee" includes an officer, authorized agent, or employee of any public land trust which is a public entity.

SEC. 2. Section 5002.45 is added to the Public Resources Code, to read:

5002.45. (a) Notwithstanding any other provision of this article, upon completion of the land transfer authorized in Section 6 of the act which adds this section to this code, the department shall prepare a general plan or revise any existing general plan, as the case may be, for the Sinkyone Wilderness State Park.

(b) The general plan shall be as provided in Section 5002.2 and shall also include all of the following:

(1) Provision for a system of recreational trails connected one to another and to other recreational trails in the region.

(2) Provision for a system of nonmotorized transportation, at least for those unable to hike long distances because of age or disability. The department may contract for a privately owned and operated system of horse-drawn carriages to be operated at no cost to the state in order to provide this nonmotorized transportation.

(3) Provision for parking of motor vehicles at Usal and Low Gap or elsewhere at the perimeter of or near the Sinkyone Wilderness State Park. This may include patrolled parking areas on the perimeter of or near the park or parking lots in nearby communities with shuttle buses to the wilderness area, or both; in any case, the

department may charge fees not to exceed its actual costs.

(4) Provision for sportfishing. In addition, notwithstanding any other provision of law, the commission shall consider and may authorize as a part of the plan continuation of and regulation of hunting on the limited basis traditional to the area, to the extent it does not endanger human health or safety.

(5) Provision for the continuation and renewal of road easements which existed on January 1, 1980, across the park, to the extent that the roads are necessary to provide access to neighboring property.

(6) Provision for the maintenance and use of the existing structure known as Needle Rock House as a visitor-serving or interpretive facility or another use compatible with the preservation of the wilderness environment.

(7) Provision for any restrictions on the use of existing county roads within the park, which restrictions may be necessary to protect human health or safety, natural resources, or wilderness values of the park; and provision for posting of signs on such roads to notify persons of road conditions.

(c) The department, in preparing or revising the general plan, shall hold at least one public hearing in each of Mendocino and Humboldt Counties.

(d) The State Park and Recreation Commission shall conduct at least one public hearing at a location within a 100-mile radius of the park to consider approval of the department's general plan. Notice of the hearing, the availability of copies of the department's general plan, and the conduct of the hearing shall be in accordance with Section 5002.3.

(e) The State Park and Recreation Commission shall evaluate the compatibility of continued use of existing roads with the proposed uses of the park in the general plan adopted by the commission pursuant to this section. However, no county road shall be closed except with the concurrence of the board of supervisors of the county in which it is located.

SEC. 3. Section 5019.68 of the Public Resources Code is amended to read:

5019.68. State wildernesses, in contrast with those areas where man and his own works dominate the landscape, are hereby recognized as areas where the earth and its community of life are untrammelled by man and where man himself is a visitor who does not remain. A state wilderness is further defined to mean an area of relatively undeveloped state-owned or leased land which has retained its primeval character and influence or has been substantially restored to a near-natural appearance, without permanent improvements or human habitation, other than semi-improved campgrounds, or structures which existed at the time of classification of the area as a state wilderness and which the State Park and Recreation Commission has determined may be maintained and used in a manner compatible with the preservation of the wilderness environment, or primitive latrines, which is

protected and managed so as to preserve its natural conditions, and which:

(a) Appears generally to have been affected primarily by the forces of nature, with the imprint of man's work substantially unnoticeable.

(b) Has outstanding opportunities for solitude or a primitive and unconfined type of recreation.

(c) Consists of at least 5,000 acres of land, either by itself or in combination with contiguous areas possessing wilderness characteristics, or is of sufficient size as to make practicable its preservation and use in an unimpaired condition.

Upon completion of any such exchange, any such land described in subdivision (b) shall no longer be part of the system.

However, the conservancy may award operation and maintenance funds in the first year to a public agency for any new accessway.

1373. (a) A plan contract may not provide an exception for other coverage where such other coverage is entitlement to Medi-Cal benefits under Chapter 7 (commencing with Section 14000) or Chapter 8 (commencing with Section 14200) of Part 3 of Division 9 of the Welfare and Institutions Code.

Each plan contract shall be interpreted not to provide an exception for such Medi-Cal benefits.

A plan contract may not provide that the benefits payable thereunder are subject to reduction if the individual insured has entitlement to such Medi-Cal benefits.

(b) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for sterilization operations or procedures shall not impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization.

As used in this section, "sterilization operations or procedures" shall have the same meaning as that specified in Section 10120 of the Insurance Code.

(c) Every plan contract which provides coverage to family members or dependents of the subscriber or enrollee shall grant immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant, and to each minor adopted child from and after the moment the child is placed in the custody of the adoptive parents for adoption, of any subscriber or enrollee covered. No such plan may be entered into or amended if it contains any disclaimer, waiver, or other limitation of coverage relative to the coverage or insurability of newborn infants of a subscriber or enrollee covered from and after the moment of birth or of minor adopted children from and after the moment the child is placed in the custody of the adoptive parents for adoption.

(d) Every plan contract which provides that coverage of a dependent child of a subscriber shall terminate upon attainment of the limiting age for dependent children specified in the plan, shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child while the child is and continues to be both (a) incapable of self-sustaining employment by reason of mental retardation or physical handicap

and (b) chiefly dependent upon the subscriber for support and maintenance, provided proof of such incapacity and dependency is furnished to the plan by the member within 31 days of the request for such information by the plan or group plan contract holder and subsequently as may be required by the plan or group plan contract holder, but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

(e) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for both an employee and one or more covered persons dependent upon such employee and provides for an extension of such coverage for any period following a termination of employment of the employee shall also provide that such extension of coverage shall apply to dependents upon the same terms and conditions precedent as applied to the covered employee, for the same period of time, subject to payment of premiums, if any, as required by the terms of the policy and subject to any applicable collective-bargaining agreement.

(f) A group contract shall not discriminate against handicapped persons or against groups containing handicapped persons. Nothing in this subdivision shall preclude reasonable provisions in a plan contract against liability for services or reimbursement of the handicap condition or conditions relating thereto, as may be allowed by rules of the commissioner.

(g) Every group contract shall set forth the terms and conditions under which subscribers and enrollees may remain in the plan in the event the group ceases to exist, the group contract is terminated or an individual subscriber leaves the group, or the enrollees' eligibility status changes.

(h) A health care service plan or specialized health care service plan may provide for coverage of, or for payment for, professional mental health services, or vision care services, or for the exclusion of such services. No plan shall prohibit the member from selecting any psychologist who is the holder of a certificate issued under Section 2948 of the Business and Professions Code or, upon referral by a physician and surgeon licensed under Section 2135 of the Business and Professions Code, a licensed clinical social worker who is the holder of a license under Section 9040 of the Business and Professions Code, or any optometrist who is the holder of a certificate issued pursuant to Chapter 7 (commencing with Section 3000) of Division 2 of the Business and Professions Code, to perform the particular services covered under the terms of the plan, such certificate holder being expressly authorized by law to perform such services. Nothing in this section shall be construed to allow a member to select and obtain mental health or psychological services or vision care services from a certificate or license holder who is not directly affiliated with or under contract to the health care service plan or specialized health care service plan to which the member belongs. All health care service plans and individual practice associations which offer mental health benefits shall make reasonable efforts to make

Each plan contract shall be interpreted not to provide an exception for such Medi-Cal benefits.

A plan contract may not provide that the benefits payable thereunder are subject to reduction if the individual insured has entitlement to such Medi-Cal benefits.

(b) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for sterilization operations or procedures shall not impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization.

No such plan may be entered into or amended if it contains any disclaimer, waiver, or other limitation of coverage relative to the coverage or insurability of newborn infants of a subscriber or enrollee covered from and after the moment of birth or of minor adopted children from and after the moment the child is placed in the custody of the adoptive parents for adoption.

(d) Every plan contract which provides that coverage of a dependent child of a subscriber shall terminate upon attainment of the limiting age for dependent children specified in the plan, shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child while the child

is and continues to be both (a) incapable of self-sustaining employment by reason of mental retardation or physical handicap and (b) chiefly dependent upon the subscriber for support and maintenance, provided proof of such incapacity and dependency is furnished to the plan by the member within 31 days of the request for such information by the plan or group plan contract holder and subsequently as may be required by the plan or group plan contract holder, but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

(e) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for both an employee and one or more covered persons dependent upon such employee and provides for an extension of such coverage for any period following a termination of employment of the employee shall also provide that such extension of coverage shall apply to dependents upon the same terms and conditions precedent as applied to the covered employee, for the same period of time, subject to payment of premiums, if any, as required by the terms of the policy and subject to any applicable collective-bargaining agreement.

(f) A group contract shall not discriminate against handicapped persons or against groups containing handicapped persons. Nothing in this subdivision shall preclude reasonable provisions in a plan contract against liability for services or reimbursement of the handicap condition or conditions relating thereto, as may be allowed by rules of the commissioner.

(g) Every group contract shall set forth the terms and conditions under which subscribers and enrollees may remain in the plan in the event the group ceases to exist, the group contract is terminated or an individual subscriber leaves the group, or the enrollees' eligibility status changes.

(h) A health care service plan or specialized health care service plan may provide for coverage of, or for payment for, professional mental health services, or vision care services, or for the exclusion of such services. No plan shall prohibit the member from selecting any psychologist who is the holder of a certificate issued under Section 2948 of the Business and Professions Code or, upon referral by a physician and surgeon licensed under Section 2135 of the Business and Professions Code, any marriage, family, and child counselor who is the holder of a license under Section 17805 of the Business and Professions Code or, upon referral by a physician and surgeon licensed under Section 2135 of the Business and Professions Code, a licensed clinical social worker who is the holder of a license under Section 9040 of the Business and Professions Code, or any optometrist who is the holder of a certificate issued pursuant to Chapter 7 (commencing with Section 3000) of Division 2 of the Business and Professions Code, to perform the particular services covered under the terms of the plan, such certificate holder being expressly authorized by law to perform such services. Nothing in this section shall be construed to allow any certificate holder or licensee

enumerated in this section to perform professional mental health services beyond his or her field or fields of competence as established by his or her education, training, and experience. Nothing in this section shall be construed to allow a member to select and obtain mental health services or vision care services from a certificate or license holder who is not directly affiliated with or under contract to the health care service plan or specialized health care service plan to which the member belongs. SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill 2211 are both chaptered and become effective January 1, 1981, both bills amend Section 1373 of the Health and Safety Code, and this bill is chaptered after Assembly Bill 2211, that the amendments to Section 1373 proposed by both bills be given effect and incorporated in Section 1373 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Assembly Bill 2211 are both chaptered and become effective January 1, 1981, both amend Section 1373, and this bill is chaptered after Assembly Bill 2211, in which case Section 1 of this act shall not become operative.

SEC. 4. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be because this act creates a new crime or infraction, changes the definition of a crime or infraction, or eliminates a crime or infraction. Furthermore, this act does not create any present or future obligation to reimburse any local agency or school district for any costs incurred because of this act.

*The people of the State of California do enact as follows:*

need for state hospital usage.

SEC. 2. There is hereby appropriated from the Special Account for Capital Outlay in the General Fund to the Director of Mental Health, the sum of three million dollars (\$3,000,000), or so much thereof as is necessary, for expenditure without regard to fiscal years to be allocated to San Joaquin County for the purposes of building a mental health complex in the county. If funds are not available from the Special Account for Capital Outlay, the appropriation made under this section shall be payable from revenues received by the State Lands Commission and allocated under the provisions of Section 6217 of the Public Resources Code and shall be payable immediately prior to allocations made for the 1980-81 fiscal year pursuant to subdivision (e) (the Capital Outlay Fund for Public Higher Education) of Section 6217, and after allocations made for the 1980-81 fiscal year pursuant to subdivisions (a) to (d), inclusive, of Section 6217.

The appropriation made under this section shall be subject to the following conditions:

(a) Funds from the appropriation shall not be used to fund acute care hospital beds. Nothing in this subdivision shall prohibit the use of such funds for a psychiatric health facility as defined in Section 1250.2 of the Health and Safety Code.

(b) Construction of the facility shall be a shared responsibility, with the cost-sharing formula set at 85 percent state, 15 percent county, except that the dollar amount appropriated in this act represents the total state responsibility.

(c) San Joaquin County shall enter into a contract with the state to ensure that there will be a bed-for-bed reduction in state hospital utilization by the county for each bed established in the community with funds appropriated by this act.

SEC. 3. The State Department of Mental Health shall develop appropriate clinical criteria for evaluating any future proposals for state funds for construction of mental health facilities, and the Department of Finance shall develop appropriate fiscal criteria for evaluating any future proposals for state funds for construction of mental health facilities and both shall report these criteria to the Legislature by April 1, 1981.

provided, that the Director of Mental Health may give public notice relative to proposing or amending any rule or regulation which could result in increased cost to any program administered by the Department of Mental Health only after approval by the Department of Finance as to the availability of funds; and provided further, that any rule or regulation adopted by the Director of Mental Health during the 1980-81 fiscal year which adds to the cost of any program administered by the Department of Mental Health shall only be effective from and after the date upon which it is approved as to availability of funds by the Department of Finance.

Provided further, that the Department of Mental Health shall present to the Joint Legislative Budget Committee and the fiscal committees of each house by October 1, 1980, a three-year plan which is to be updated annually, for state hospitals for the mentally disordered which is based on joint county-state planning for regional needs and on a detailed and methodologically sound level of care study of the current state hospital population performed jointly by county and state staff. The plan shall include provision for regional programs at state hospitals, or facilities comparable to state hospitals, for the core group of persons needing long-term secure institutional care.

Provided further, that there shall be oversight of the planning process by a task force convened and chaired by the director or his designee which shall be comprised of the director, the hospital director of each state hospital serving the mentally disabled, representatives of private providers, and representatives of the Conference on Local Mental Health Directors. Provided further, that no more than \$80,000 of the funds appropriated in this item or from any other source may be expended for the continued

development of a hospital patient care system, and the system shall be limited to the admissions and discharge functions until such time as the Department of Mental Health has done all of the following:

The specific requirements of the contract shall be those identified in the supplemental report language adopted for this item. The department shall provide a statement of work to be performed by the consultant to the Joint Legislative Budget Committee and include that statement as part of the contract. For the purposes of the study, the department may contract on a sole source basis with the consultant selected for the Mental Health Information System project.

Provided further, that no developmental effort relating to the automated patient care system may occur after September 30, 1980, if the consultant's report recommends a system different than the one selected by the department.

Provided further, that the department shall provide the Joint Legislative Budget Committee by September 1, 1980, a tentative description of data processing activities for the 1980-81 fiscal year. The components of the description shall be those specified in the supplemental report language adopted for this item. The department shall provide updates to this description on a quarterly basis to the joint committee.

Provided further, that the department shall allocate funds for the support and operation of the

Provided further, that the provision of services through the Office of Mental Health Social Services shall be exempt from the state hiring freeze process.

Provided further, that counties electing to increase or reduce the level of services to be purchased from the Department of Mental Health after July 1, 1980, shall notify the Director of Mental Health six months in advance of the date of such increase or reduction.

Provided further, that if the county elects to directly provide protective social services in lieu of purchasing such services from the Department of Mental Health, the guidelines of the Department of Mental Health which were applied to counties so electing prior to July 1, 1980, shall apply, and it is the intent of this proviso to enable the transfer of state employees to county employment in such a way that personnel benefits are protected.

Provided further, that the department shall provide, not later than December 1, 1980, a report on the Health Training Centers to the fiscal committees of each house and the Joint Legislative Budget Committee, which report shall include (1) a description of the training provided, clients served and the benefits resulting from training, (2) a plan for operating on a reimbursement basis in 1981-82, and (3) a proposed fee schedule.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(b) Nothing in this section shall prohibit the introduction of prima facie evidence to establish a case for damages pursuant to Section 3294.

(c) No pretrial discovery by the plaintiff shall be permitted with respect to the evidence referred to in paragraphs (1) and (2) of subdivision (a) unless the court enters an order permitting such discovery pursuant to this subdivision. However, the plaintiff may subpoena documents or witnesses to be available at the trial for the purpose of establishing the profits or financial condition referred to in subdivision (a), and the defendant may be required to identify documents in the defendant's possession which are relevant and admissible for that purpose and the witnesses employed by or related to the defendant who would be most competent to testify to those facts. Upon motion by the plaintiff supported by appropriate affidavits and after a hearing, if the court deems a hearing to be necessary, the court may at any time enter an order permitting the discovery otherwise prohibited by this subdivision if the court finds, on the basis of the supporting and opposing affidavits presented, that the plaintiff has established that there is a substantial probability that the plaintiff will prevail on the claim pursuant to Section 3294. Such order shall not be considered to be a determination on the merits of the claim or any defense thereto and shall not be given in evidence or referred to at the trial.

SEC. 3. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect any other provision or application of this act which can be given effect without the invalid provision or application, and to this end, the provisions of this act are severable.

*The people of the State of California do enact as follows:*

SECTION 1. Section 21231 is added to the Government Code, to read:

21231. (a) The board shall transfer an amount of the reserve for deficiencies retained in the retirement fund pursuant to Section 20203 which exceeds 2 percent of the total assets of the retirement fund into a special account which shall be used for the sole purpose of providing quarterly increases from October 1, 1980, through September 30, 1982, as specified by subdivision (d), in the monthly allowance of every retired person or survivor or beneficiary of a state or local member or retired person, who was eligible to receive any allowance on December 31, 1979, notwithstanding the limitations on such increases imposed by this article and in addition to any other adjustment made pursuant to this article.

All funds remaining in the special account on January 1, 1983, shall be transferred back to the reserve for deficiencies.

(c) The board shall inform each recipient of benefits under subdivision (a) that the increases are not cumulative and shall not be included in their base allowance and may be available for only a limited period of time.

(d) The total quarterly increases shall be 10 percent of the quarterly allowance payable to an annuitant or eligible survivor or beneficiary on October 1, 1980. The board, on October 1, 1980, and, upon the commencement of each quarter thereafter, shall pay the benefit provided by this section for the succeeding quarter.

The funding for such changes, if any, may be considered in the meet and confer process and dealt with in the Budget Bill in conjunction with salary increases for active state employees. Nothing herein shall prevent organizations of retired employees from being involved in discussions on supplementary increases and on other matters relating to their retired employee members.

SEC. 3. Section 1 of this act shall remain in effect only until January 1, 1983, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1983, deletes or extends such date.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into

## CHAPTER 1247

An act to amend Section 4600 of the Labor Code, relating to workers' compensation.

[Approved by Governor September 28, 1980. Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4600 of the Labor Code is amended to read:  
4600. Medical, surgical, chiropractic, and hospital treatment, including nursing, medicines, medical and surgical supplies, crutches, and apparatus, including artificial members, which is reasonably required to cure or relieve from the effects of the injury shall be provided by the employer. In the case of his neglect or refusal seasonably to do so, the employer is liable for the reasonable expense incurred by or on behalf of the employee in providing treatment. After 30 days from the date the injury is reported, the employee may be treated by a physician of his own choice or at a facility of his own choice within a reasonable geographic area. However, if an employee has notified his employer in writing prior to the date of injury that he or she has a personal physician, the

employee shall have the right to be treated by such physician from the date of injury. For the purpose of this section, "personal physician" means the employee's regular physician and surgeon, licensed pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, who has previously directed the medical treatment of the employee, and who retains the employee's medical records, including his or her medical history.

In accordance with the rules of practice and procedure of the appeals board, the employee, or the dependents of a deceased employee, shall be reimbursed for expenses reasonably, actually, and necessarily incurred for X-rays, laboratory fees, medical reports, medical testimony, and, as needed, interpreter's fees, to prove a contested claim. The reasonableness of and necessity for incurring such expenses to prove a contested claim shall be determined with respect to the time when such expenses were actually incurred. Expenses of medical testimony shall be presumed reasonable if in conformity with the fee schedule charges provided for impartial medical experts appointed by the administrative director.

Where at the request of the employer, the employer's insurance carrier, the administrative director, the appeals board or a referee, the employee submits to examination by a physician, he shall be entitled to receive in addition to all other benefits herein provided all reasonable expenses of transportation, meals and lodging incident to reporting for such examination, together with one day of temporary disability indemnity for each day of wages lost in submitting to such an examination. "Reasonable expenses of transportation" includes mileage fees from the employee's home to the place of the examination and back at the rate of twenty-one cents (\$.21) a mile, plus any bridge tolls. Such mileage and tolls shall be paid to the employee at the time he is given notification of the time and place of the examination.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

18046. Sections 18044 and 18045 shall not apply to property which constitutes a right to receive an item of income in respect of a decedent under Sections 17831 to 17837, inclusive.

SEC. 2. Section 18047 of the Revenue and Taxation Code is repealed.

SEC. 2.5. Section 18051.1 of the Revenue and Taxation Code is amended to read:

18051.1. (a) If—

(d) For purposes of Section 18053(d), an increase in basis under subdivision (a) shall be treated as an adjustment under Section 18052.

SEC. 3. Section 18052 of the Revenue and Taxation Code is amended to read:

18052. Proper adjustment in respect of the property shall in all cases be made—

(e) In the case of any bond (as defined in Section 17220) the interest on which is wholly exempt from the tax imposed by this part, to the extent of the amortizable bond premium disallowable as a deduction pursuant to subdivision (b) of Section 17217, and in the case of any other bond (as defined in Section 17220) to the extent of the deductions allowable pursuant to subdivision (a) of Section 17217 with respect thereto;

(m) For amounts allowed as deductions for expenditures treated as deferred expenses under Section 17227 (relating to trademark and trade name expenditures) and resulting in a reduction of the taxpayer's taxes under this part, but not less than the amounts allowable under such section for the taxable year and prior years;

election on or before December 31, 1980.

SEC. 6. ## CHAPTER 1251

An act relating to special education, and making an appropriation therefor.

[Approved by Governor September 28, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Current statutory law does not authorize such programs to be maintained for persons over the age of 21 even though the need for such training exists and is especially critical at this age. The occupational training program presently maintained at one site could readily be extended to eligible persons over the age of 21 but below the age of 25.

(b) The County Superintendent of Schools of Fresno County may establish a pilot project to extend the present occupational training program for individuals with exceptional needs formerly maintained pursuant to Article 6 (commencing with Section 56070) of Chapter 1 of Part 30 of the Education Code, as it read prior to July 1, 1980, to persons who are over 21 years of age but less than 25 years of age who, but for their age, would be individuals with exceptional needs within the meaning of Section 56206 of the Education Code, and to determine whether such persons can become vocationally self-sufficient.

(c) The pilot project shall satisfy the following requirements:

(1) Not more than two classes of at least 24 pupils each over the age of 21 but below the age of 25, shall be established.

(2) Administration and support services presently serving the occupational training program shall also serve the pilot project.

(3) Additional personnel shall be employed, including, but not limited to, one teacher, two aides, and one vocational counselor to work with pupils, teachers, and representatives from the Department of Rehabilitation.

(4) The curriculum shall emphasize mobility training and increased use of community resources.

(5) Assessment procedures which ensure that pupils are employed as soon as employment is feasible and that pupils are referred to the Department of Rehabilitation for vocational services as soon as referral is feasible shall be established.

(6) Records of pupil progress shall be maintained and reviewed.

(7) Preference for participation shall be given to persons who have had limited occupational training.

(d) The County Superintendent of Schools of Fresno County and the Department of Rehabilitation shall each prepare and submit to the Department of Education and the Legislature not later than March 5th of 1982, 1983, and 1984 an annual report on the progress of the pilot project, and by October 1, 1984, a final report on the pilot project. These reports shall include, but not be limited to, a determination of whether persons who are over 21 years of age but less than 25 years of age who, but for their age, would be individuals with exceptional needs within the meaning of Section 56206 of the Education Code can become vocationally self-sufficient.

(e) The County Superintendent of Schools of Fresno County may adopt rules and regulations to implement the provisions of this act.

## CHAPTER 1253

An act to amend Section 1370.1 of, and to add and repeal Chapter 2.8 (commencing with Section 1001.20) to Title 6 of Part 2 of, the Penal Code, relating to mentally retarded defendants, and making an appropriation therefor.

[Approved by Governor September 28, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 2.8 (commencing with Section 1001.20) is added to Title 6 of Part 2 of the Penal Code, to read:

### CHAPTER 2.8. DIVERSION OF MENTALLY RETARDED DEFENDANTS

1001.20. As used in this chapter:

(a) "Mentally retarded" means the condition of significantly subaverage general intellectual functioning existing concurrently with deficits in adaptive behavior and manifested during the developmental period.

(b) "Diversion-related treatment and habilitation" means, but is not limited to, specialized services or special adaptations of generic

services, directed towards the alleviation of mental retardation or towards social, personal, physical, or economic habilitation or rehabilitation of an individual with such a disability, and includes, but is not limited to, diagnosis, evaluation, treatment, personal care, day care, domiciliary care, special living arrangements, physical, occupational, and speech therapy, training, education, sheltered employment, mental health services, recreation, counseling of the individual with such disability and of his family, protective and other social and socio-legal services, information and referral services, follow-along services, and transportation services necessary to assure delivery of services to mentally retarded persons.

(c) "Regional center" means a regional center for the developmentally disabled established under the Lanterman Developmental Disabilities Services Act which is organized as a private nonprofit community agency to plan, purchase, and coordinate the delivery of services which cannot be provided by state agencies to developmentally disabled persons residing in a particular geographic catchment area, and which is licensed and funded by the State Department of Developmental Services.

(d) "Director of a regional center" means the executive director of a regional center for the developmentally disabled or his or her designee.

(e) "Agency" means the prosecutor, the probation department, and the regional center involved in a particular defendant's case.

(f) "Dual agency diversion" means a treatment and habilitation program developed with court approval by the regional center, administered jointly by the regional center and by the probation department, which is individually tailored to the needs of the defendant as derived from the defendant's individual program plan pursuant to Section 4646 of the Welfare and Institutions Code, and which includes, but is not limited to, treatment specifically addressed to the criminal offense charged, for a specified period of time as prescribed in Section 1001.28.

(g) "Single agency diversion" means a treatment and habilitation program developed with court approval by the regional center, administered solely by the regional center without involvement by the probation department, which is individually tailored to the needs of the defendant as derived from the defendant's individual program plan pursuant to Section 4646 of the Welfare and Institutions Code, and which includes, but is not limited to, treatment specifically addressed to the criminal offense charged, for a specified period of time as prescribed in Section 1001.28.

1001.21. (a) This chapter shall apply whenever a case is before any court upon an accusatory pleading at any stage of the criminal proceedings, for any person who has been evaluated by a regional center for the developmentally disabled and who is determined to be developmentally disabled by such regional center, and who therefore is eligible for its services.

(b) This chapter applies to any offense which is charged as or

reduced to a misdemeanor, except that diversion shall not be ordered when the defendant previously has been diverted under this chapter within two years prior to the present criminal proceedings.

1001.22. The court shall consult with the prosecutor, the defense counsel, the probation department, and the appropriate regional center in order to determine whether a defendant may be diverted pursuant to this chapter. If the defendant is not represented by counsel, the court shall appoint counsel to represent the defendant. When the court suspects that a defendant may be mentally retarded, as defined in subdivision (a) of Section 1001.20, and the defendant consents to the diversion process and to his or her case being evaluated for eligibility for regional center services, and waives his or her right to a speedy trial, the court shall order the prosecutor, the probation department, and the regional center to prepare reports on specified aspects of the defendant's case. Each report shall be prepared concurrently.

(a) The regional center shall submit a report to the probation department within 25 judicial days of the court's order. The regional center's report shall include a determination as to whether the defendant is mentally retarded and eligible for regional center diversion-related treatment and habilitation services, and the regional center shall also submit to the court a proposed diversion program, individually tailored to the needs of the defendant as derived from the defendant's individual program plan pursuant to Section 4646 of the Welfare and Institutions Code, which shall include, but not be limited to, treatment addressed to the criminal offense charged for a period of time as prescribed in Section 1001.28. The regional center's report shall also contain a statement whether such a proposed program is available for the defendant through the treatment and habilitation services of the regional centers pursuant to Section 4648 of the Welfare and Institutions Code.

(b) The prosecutor shall submit a report on specified aspects of the defendant's case, within 30 judicial days of the court's order, to the court, to each of the other agencies involved in the case, and to the defendant. The prosecutor's report shall include all of the following:

(1) A statement of whether the defendant's record indicates the defendant's diversion pursuant to this chapter within two years prior to the alleged commission of the charged divertible offense.

(2) If the prosecutor recommends that this chapter may be applicable to the defendant, he or she shall recommend either a dual or single agency diversion program and shall advise the court, the probation department, the regional center, and the defendant, in writing, of such determination within 20 judicial days of the court's order to prepare the report.

(3) If the prosecutor recommends against diversion, the prosecutor's report shall include a declaration in writing to state for the record the grounds upon which such recommendation was made, and the court shall determine, pursuant to Section 1001.23, whether

the defendant shall be diverted.

(4) If dual agency diversion is recommended by the prosecutor, a copy of the prosecutor's report shall also be provided by the prosecutor to the probation department, the regional center, and the defendant within the above prescribed time period. This notification shall include all of the following:

(i) A full description of the proceedings for diversion and the prosecutor's investigation procedures.

(ii) A general explanation of the role and authority of the probation department, the prosecutor, the regional center, and the court in the diversion program process.

(iii) A clear statement that the court may decide in a hearing not to divert the defendant and that he or she may have to stand trial for the alleged offense.

(iv) A clear statement that should the defendant fail in meeting the terms of his or her diversion, or if, during the period of diversion the defendant is subsequently charged with a felony, the defendant may be required, after a hearing, to stand trial for the original diverted offense.

(c) The probation department shall submit a report on specified aspects of the defendant's case within 30 judicial days of the court's order, to the court, to each of the other agencies involved in the case, and to the defendant. The probation department's report to the court shall be based upon an investigation by the probation department and consideration of the defendant's age, mental retardation, employment record, educational background, ties to community agencies and family, treatment history, criminal record if any, and demonstrable motivation and other mitigating factors in determining whether the defendant is a person who would benefit from a diversion-related treatment and habilitation program. The regional center's report in full shall be appended to the probation department's report to the court.

1001.23. (a) Upon the court's receipt of the reports from the prosecutor, the probation department, and the regional center, and a determination by the regional center that the defendant is not mentally retarded, the criminal proceedings for the offense charged shall proceed. If the defendant is found to be mentally retarded and eligible for regional center services, and the court determines from the various reports submitted to it that the proposed diversion program is acceptable to the court, the prosecutor, the probation department, and the regional center, and if the defendant consents to diversion and waives his or her right to a speedy trial, the court may order, without a hearing, that the diversion program be implemented for a period of time as prescribed in Section 1001.28.

(b) After consideration of the probation department's report, the report of the regional center, and the report of the prosecutor relating to his or her recommendation for or against diversion, and any other relevant information, the court shall determine if the defendant shall be diverted under either dual or single agency

supervision, and referred for habilitation or rehabilitation diversion pursuant to this chapter. If the court does not deem the defendant a person who would benefit by diversion at the time of the hearing, the suspended criminal proceedings may be reinstated, or such other disposition as authorized by law may be made, and diversion may be ordered at a later date.

(c) Where a dual agency diversion program is ordered by the court, the regional center shall submit a report to the probation department on the defendant's progress in the diversion program not less than every six months. Within five judicial days after receiving the regional center's report, the probation department shall submit its report on the defendant's progress in the diversion program, with the full report of the regional center appended, to the court and to the prosecutor. Where single agency diversion is ordered by the court, the regional center alone shall report the defendant's progress to the court and to the prosecutor not less than every six months.

1001.24. No statement, or information procured therefrom, made by the defendant to any probation officer, the prosecutor, or any regional center designee during the course of the investigation conducted by either the regional center or the probation department pursuant to this chapter, and prior to the reporting to the probation department of the regional center's findings of eligibility and recommendations to the court, shall be admissible in any action or proceeding brought subsequent to this investigation.

1001.25. No statement, or information procured therefrom, with respect to the specific offense with which the defendant is charged, which is made to a probation officer, a prosecutor, or a regional center designee subsequent to the granting of diversion shall be admissible in any action or proceeding brought subsequent to the investigation.

1001.26. In the event that diversion is either denied or is subsequently revoked once it has been granted, neither the probation investigation nor the statements or other information divulged by the defendant during the investigation by the probation department or the regional center shall be used in any sentencing procedures.

1001.27. At such time as the defendant's case is diverted, any bail, bond, or undertaking, or deposit in lieu thereof, on file or on behalf of the defendant shall be exonerated, and the court shall enter an order so directing.

1001.28. The period during which criminal proceedings against the defendant may be diverted shall be no longer than two years. The responsible agency or agencies shall file reports on the defendant's progress in the diversion program with the court and with the prosecutor not less than every six months.

(a) Where dual agency diversion has been ordered, the probation department shall be responsible for the progress reports. The probation department shall append to its own report a copy of the

regional center's assessment of the defendant's progress.

(b) Where single agency diversion has been ordered, the regional center alone shall be responsible for the progress reports.

1001.29. If it appears that the divertee is not meeting the terms and conditions of his or her diversion program, the court may hold a hearing and amend such program to provide for greater supervision by the responsible regional center alone, by the probation department alone, or by both the regional center and the probation department. However, notwithstanding any such modification of a diversion order, the court may hold a hearing to determine whether the diverted criminal proceedings should be reinstated if it appears that the divertee's performance in the diversion program is unsatisfactory, or if the divertee is subsequently charged with a felony during the period of diversion.

(a) In cases of dual agency diversion, a hearing to reinstate the diverted criminal proceedings may be initiated by either the court, the prosecutor, the regional center, or the probation department.

(b) In cases of single agency diversion, a hearing to reinstate the diverted criminal proceedings may be initiated only by the court, the prosecutor, or the regional center.

(c) No hearing for either of these purposes shall be held unless the moving agency or the court has given the divertee prior notice of the hearing.

(d) Where the cause of the hearing is a subsequent charge of a felony against the divertee subsequent to the diversion order, any hearing to reinstate the diverted criminal proceedings shall be delayed until such time as probable cause has been established in court to bind the defendant over for trial on the subsequently charged felony.

1001.30. At any time during which the defendant is participating in a diversion program, he or she may withdraw consent to further participate in the diversion program, and at such time as such consent is withdrawn, the suspended criminal proceedings may resume or such other disposition may be made as is authorized by law.

1001.31. If the divertee has performed satisfactorily during the period of diversion, the criminal charges shall be dismissed at the end of the diversion period.

1001.32. Any record filed with the State Department of Justice shall indicate the disposition of those cases diverted pursuant to this chapter.

1001.33. Upon successful completion of a diversion program, the arrest upon which the diversion was based shall be deemed to have never occurred. The divertee may indicate in response to any question concerning his or her prior criminal record that he or she was not arrested or diverted for such offense. A record pertaining to an arrest resulting in successful completion of a diversion program shall not, without the divertee's consent, be used in any way which may result in the denial of any employment, benefit, license, or

certificate.

1001.34. Notwithstanding any other provision of law, the diversion-related individual program plan shall be fully implemented by the regional centers upon court order and approval of the diversion-related treatment and habilitation plan.

1001.35. The State Department of Developmental Services shall report to the Legislature annually regarding the local implementation, administration, and operation of the program. Such report shall include, but not be limited to, the following:

- (a) The date the local programs commenced.
- (b) General eligibility criteria for divertees used by each program.
- (c) The name of the county or other agency or agencies which established each program.
- (d) The offense charged against each divertee.
- (e) The number of individuals accepted by each program.
- (f) The reasons for not accepting individuals referred to the program.

(g) The specific program completed by each successful divertee.

(h) The number of successful and unsuccessful terminations and the reasons for unsuccessful termination.

(i) The funding source for the diversion organization. At no time shall the name, addresses, or other identifying information of the referred or participating divertees be used in these reports.

SEC. 2. Section 1370.1 of the Penal Code is amended to read:

1370.1. (a) (1) If the defendant is found mentally competent, the criminal process shall resume, the trial on the offense charged shall proceed, and judgment may be pronounced. If the defendant is found mentally incompetent and is developmentally disabled, the trial or judgment shall be suspended until the defendant becomes mentally competent, and the court shall consider a recommendation for placement, which recommendation shall be made to the court by the director of a regional center or designee, and that (A) in the meantime, the defendant be delivered by the sheriff or other person designated by the court to a state hospital for the care and treatment of the developmentally disabled or any other available residential facility approved by the director of a regional center for the developmentally disabled established under Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code as will promote the defendant's speedy attainment of mental competence, or be placed on outpatient status pursuant to the provisions of Section 1370.4 and Title 15 (commencing with Section 1600) of Part 2, and (B) upon becoming competent, the defendant be returned to the committing court pursuant to the procedures set forth in paragraph (2) of subdivision (a) of Section 1372 or by another person designated by the court. The court shall transmit a copy of its order to the regional center director or designee and to the Director of Developmental Services.

As used in this section, "developmental disability" means a

disability which originates before an individual attains age 18, continues, or can be expected to continue, indefinitely and constitutes a substantial handicap for such individual, and shall not include other handicapping conditions that are solely physical in nature. As defined by the Director of Developmental Services, in consultation with the Superintendent of Public Instruction, this term shall include mental retardation, cerebral palsy, epilepsy, and autism. This term shall also include handicapping conditions found to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, but shall not include other handicapping conditions that are solely physical in nature.

(2) Prior to making such order directing the defendant be confined in a state hospital or other residential facility or be placed on outpatient status, the court shall order the regional center director or designee to evaluate the defendant and to submit to the court within 15 judicial days of such order a written recommendation as to whether the defendant should be committed to a state hospital or to any other available residential facility approved by the regional center director. No person shall be admitted to a state hospital or other residential facility or accepted for outpatient status under Section 1370.4 without having been evaluated by the regional center director or designee.

If the defendant is committed or transferred to a state hospital pursuant to this section, the court may, upon receiving the written recommendation of the medical director of the state hospital and the regional center director that the defendant be transferred to a residential facility approved by the regional center director, order the defendant transferred to such facility. If the defendant is committed or transferred to a residential facility approved by the regional center director, the court may, upon receiving the written recommendation of the regional center director, transfer the defendant to a state hospital or to another residential facility approved by the regional center director.

In the event of dismissal of the criminal charges before the defendant recovers competence, the person shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code.

The defendant or prosecuting attorney may contest either kind of order of transfer by filing a petition with the court for a hearing, which shall be held if the court determines that sufficient grounds exist. At such hearing the prosecuting attorney or the defendant may present evidence bearing on the order of transfer. The court shall use the same standards as used in conducting probation revocation hearings pursuant to Section 1203.2.

Prior to making an order for transfer under this section, the court

shall notify the defendant, the attorney of record for the defendant, the prosecuting attorney, and the regional center director or designee.

(b) (1) Within 90 days of a commitment made pursuant to subdivision (a), the medical director of the state hospital or other facility to which the defendant is committed or the outpatient supervisor where the defendant is placed on outpatient status shall make a written report to the regional center director or a designee concerning the defendant's progress toward becoming mentally competent. If the defendant has not become mentally competent, but the report discloses a substantial likelihood the defendant will become mentally competent in the foreseeable future, the defendant shall remain in the state hospital or other facility or on outpatient status. Thereafter, at six-month intervals or until the defendant becomes mentally competent, the medical director of the hospital or person in charge of the facility or the outpatient supervisor shall report to the regional center director or his designee regarding the defendant's progress toward becoming mentally competent. The regional center director or shall transmit that report immediately transmit to the court as part of the defendant's progress report. The court shall provide to the prosecutor and defense counsel copies of all reports under this section. If the report indicates that there is no substantial likelihood that the defendant will become mentally competent in the foreseeable future, the committing court shall order the defendant to be returned to the court for proceedings pursuant to paragraph (2) of subdivision (c). The court shall transmit a copy of its order to the regional center director or designee and to the Director of Developmental Services.

(2) Any defendant who has been committed or has been on outpatient status for 18 months, and is still hospitalized or on outpatient status shall be returned to the committing court where a hearing shall be held pursuant to the procedures set forth in Section 1369. The court shall transmit a copy of its order to the regional center director or designee and the Director of Developmental Services.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court. A copy of this order shall be sent to the regional center director or designee and to the Director of Developmental Services.

(c) (1) At the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, any defendant who has not become mentally competent shall be returned to the committing court. The court shall notify the regional center director or designee and the Director of Developmental Services of such return and of any resulting court orders.

(2) In the event of dismissal of the criminal charges before the defendant becomes mentally competent, the defendant shall be subject to the applicable provisions of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code), or to commitment and detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code. If it is found that the person is not subject to commitment or detention pursuant to the applicable provision of the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code) or to commitment or detention pursuant to a petition filed pursuant to Section 6502 of the Welfare and Institutions Code, the individual shall not be subject to further confinement pursuant to this article and the criminal action remains subject to dismissal pursuant to Section 1385. The court shall notify the regional center director and the Director of Developmental Services of any such dismissal.

(d) Notwithstanding any other provision of this section, the criminal action remains subject to dismissal pursuant to Section 1385. If at any time prior to the maximum period of time allowed for proceedings under this article, the regional center director concludes that the behavior of the defendant related to the defendant's criminal offense has been eliminated during time spent in court-ordered programs, the court may, upon recommendation of the regional center director, dismiss the criminal charges. The court shall transmit a copy of any order of dismissal to the regional center director and to the Director of Developmental Services.

SEC. 3. Section 1 of this act shall remain in effect only for three years from its effective date and on such date is repealed.

SEC. 4. (a) The sum of three hundred fifty thousand dollars (\$350,000) is hereby appropriated from the General Fund to the State Department of Developmental Services specifically for the purposes of diversion-related treatment and habilitation services as defined herein.

(b) The sum of one hundred thirty thousand dollars (\$130,000) is hereby appropriated from the General Fund to the Controller for allocation and disbursement to local agencies and school districts to reimburse them for costs mandated by the state and incurred by them pursuant to this act.

## CHAPTER 1254

An act to amend Section 318 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor September 28, 1980. Filed with  
Secretary of State September 29, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 318 of the Welfare and Institutions Code is amended to read:

318. (a) Notwithstanding the provisions of Section 317, when a minor who is alleged to be a person described in subdivision (d) of Section 300 appears before the juvenile court at a detention hearing, the court shall appoint counsel. The court may appoint the district attorney to represent the minor pursuant to Section 351.

(b) The counsel appointed by the court shall represent the minor at the detention hearing and at all subsequent proceedings before the juvenile court.

(c) Any counsel upon entering an appearance on behalf of a minor shall continue to represent that minor unless relieved by the court upon the substitution of other counsel or for cause.

(d) The counsel shall be charged in general with the representation of the child's interests. To that end, he shall make such further investigations as he deems necessary to ascertain the facts, including the interviewing of witnesses, and he shall examine and cross-examine witnesses in both the adjudicatory and dispositional hearings; he may also introduce and examine his own witnesses, make recommendations to the court concerning the child's welfare, and participate further in the proceedings to the degree necessary to adequately represent the child. In addition, the counsel shall investigate the interests of the child beyond the scope of the juvenile proceeding and report to the court other interests of the child that may be protected by other administrative or judicial proceedings, including but not limited to, a civil action pursuant to subdivision (b) of Section 11172 of the Penal Code. The court shall take whatever appropriate action is necessary to fully protect the interests of the child.

(e) Notwithstanding any other provision of law, counsel shall be given access to all records relevant to the case which are maintained by state or local public agencies. Counsel shall be given access to records maintained by hospitals or by other medical or nonmedical practitioners or by child care custodians, in the manner prescribed by Section 1158 of the Evidence Code.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because the duties, obligations, or responsibilities imposed on local agencies or school districts by this act are such that related costs are incurred as part of their normal operating procedures. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

## CHAPTER 1255

An act to amend Sections 39649, 39649.5, 81649, and 81649.5 of, and to add Sections 39649.1 and 81649.1 to, the Education Code, relating to school and community college districts.

[Approved by Governor September 28, 1980. Filed with  
Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 39649 of the Education Code is amended to read:

39649. In each school district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 39649.1 by day labor, or by force account, whenever the total cost of labor on the job does not exceed seven thousand five hundred dollars (\$7,500), or the total number of hours on the job does not exceed 350 hours, whichever is greater, provided that in any school district having an average daily attendance of 35,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus or equipment, including painting or repainting, and perform maintenance as defined in Section 39649.1, by day labor or by force account whenever the total cost of labor on the job does not exceed fifteen thousand dollars (\$15,000), or the total number of hours on the job does not exceed 750 hours, whichever is greater.

For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

SEC. 2. Section 39649.1 is added to the Education Code, to read:

39649.1. For purposes of Section 39649, "maintenance" means routine, recurring, and usual work for the preservation, protection, and keeping of any publicly owned or publicly operated facility for its intended purposes in a safe and continually useable condition for which it was designed, improved, constructed, altered, or repaired. "Facility" means any plant, building, structure, ground facility, utility system, or real property.

This definition of "maintenance" expressly includes, but is not limited to: carpentry, electrical, plumbing, glazing, and other craft work designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually useable condition for which it was intended, including repairs, cleaning, and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

This definition does not include, among other types of work, janitorial or custodial services and protection of the sort provided by

guards or other security forces.

It is the intent of the Legislature that this definition does not include painting, repainting, or decorating other than touchup, but instead it is the intent of the Legislature that such activities be controlled directly by the provisions of Section 39649.

SEC. 3. Section 39649.5 of the Education Code is amended to read:

39649.5. It shall be unlawful to split or separate into smaller work orders or projects any project for the purpose of evading the provisions of this article requiring work to be done by contract after competitive bidding.

The district shall maintain job orders or similar records indicating the total cost expended on each project in accordance with the procedures established in the most recent edition of the California School Accounting Manual for a period of not less than three years after completion of the project.

Notwithstanding the provisions of Section 39640, informal bidding may be used on projects estimated by the district to cost up to and including the limits set forth in Section 39649. For the purpose of securing informal bids, the board shall publish annually in a newspaper of general circulation published in the district, or if there is no such newspaper, then in some newspaper in general circulation in the county, a notice inviting contractors to register to be notified of future informal bidding projects. All contractors included on the informal bidding list shall be given notice of all informal bid projects in such manner as the district deems appropriate.

SEC. 4. Section 81649 of the Education Code is amended to read:

81649. In each community college district, the governing board may make repairs, alterations, additions, or painting, repainting, or decorating upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, erect new buildings, and perform maintenance as defined in Section 81649.1 by day labor, or by force account, whenever the total cost of labor on the job does not exceed seven thousand five hundred dollars (\$7,500), or the total number of hours on the job does not exceed 350 hours, whichever is greater, provided that in any district having an average daily attendance of 15,000 or greater, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, and perform maintenance as defined in Section 81649.1, by day labor or by force account whenever the total cost of labor on the job does not exceed fifteen thousand dollars (\$15,000), or the total number of hours on the job does not exceed 750 hours, whichever is greater.

For purposes of this section, day labor shall include the use of maintenance personnel employed on a permanent or temporary basis.

SEC. 5. Section 81649.1 is added to the Education Code, to read:

81649.1. For purposes of Section 81649, "maintenance" means routine, recurring, and usual work for the preservation, protection

and keeping of any publicly owned or publicly operated facility for its intended purposes in a safe and continually useable condition for which it was designed, improved, constructed, altered or repaired. "Facility" means any plant, building, structure, ground facility, utility system, or real property.

This definition of "maintenance" expressly includes but is not limited to: carpentry, electrical, plumbing, glazing, and other craft work designed consistent with the definition set forth above to preserve the facility in a safe, efficient, and continually useable condition for which it was intended, including repairs, cleaning, and other operations on machinery and other equipment permanently attached to the building or realty as fixtures.

This definition does not include, among other types of work, janitorial or custodial services and protection of the sort provided by guards or other security forces.

It is the intent of the Legislature that this definition does not include painting, repainting, or decorating other than touchup, but instead it is the intent of the Legislature that such activities be controlled directly by the provisions of Section 81649.

SEC. 6. Section 81649.5 of the Education Code is amended to read:

81649.5. It shall be unlawful to split or separate into smaller work orders or projects any project for the purpose of evading the provisions of this article requiring work to be done by contract after competitive bidding.

The district shall maintain job orders or similar records indicating the total cost expended on each project in accordance with the procedures established in the most recent edition of the California Community College Budget and Accounting Manual for a period of not less than three years after completion of the project.

Notwithstanding the provisions of Section 81640, informal bidding may be used on projects estimated by the district to cost up to and including the limits set forth in Section 81649. For the purpose of securing informal bids, the board shall publish annually in a newspaper of general circulation published in the district, or if there is no such newspaper, then in some newspaper in general circulation in the county, a notice inviting contractors to register to be notified of future informal bidding projects. All contractors included on the informal bidding list shall be given notice of all informal bid projects, in such manner as the district deems appropriate.

SEC. 7. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code and Section 6 of Article XIII B of the California Constitution, no appropriation is made by this act pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

[Approved by Governor September 28, 1980. Filed with Secretary of State September 29, 1980 ]

*The people of the State of California do enact as follows:*

**SECTION 1.** Section 11349.11 is added to the Government Code, to read:

11349.11. The Office of Administrative Law shall determine whether a regulation reviewed pursuant to Section 11349.1 may require state reimbursement to local agencies or school districts pursuant to Section 2231 of the Revenue and Taxation Code, and shall make this determination known on the face of the written regulation. If the office determines in the affirmative, and if such regulation has not already been reviewed by the Department of Finance for mandated cost purposes, the office shall refer such regulation to the Department of Finance for review.

**SEC. 1.5.** Chapter 5.5 (commencing with Section 93) is added to Part 0.5 of Division 1 of the Revenue and Taxation Code, to read:

**CHAPTER 5.5. PROPERTY TAX RATES**

93. (a) Notwithstanding any other provision of law, except as provided in subdivision (b), no local agency, school district, county superintendent of schools, or community college district shall levy an ad valorem property tax, other than that amount which is equal to the amount needed to make annual payments for the interest and principal on general obligation bonds or other indebtedness approved by the voters prior to July 1, 1978 or the amount levied pursuant to Part 10 (commencing with Section 15000) of Division 1 and Sections 39308, 39311, 81338, and 81341 of the Education Code. In determining the tax rate required for the purposes specified in this subdivision, the amount of the levy shall be increased to compensate for any allocation and payment of tax revenues required pursuant to subdivision (b) of Section 33670 and subdivision (d) of Section 33675 of the Health and Safety Code.

(b) A county shall levy an ad valorem property tax on taxable assessed value at a rate equal to four dollars (\$4) per one hundred

dollars (\$100) of assessed value. The revenue from such tax shall be distributed, subject to the allocation and payment as provided in subdivision (d) of Section 33675 of the Health and Safety Code, to local agencies, school districts, county superintendents of schools, and community college districts in accordance with the provisions of the Government Code.

SEC. 1.7. The heading of Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code is amended to read:

### CHAPTER 3. REIMBURSEMENT FOR COSTS MANDATED BY THE STATE

SEC. 2. Section 2205 of the Revenue and Taxation Code is amended to read:

2205. "Costs mandated by the courts" means any increased costs incurred by a local agency or school district in order to comply with a final court order issued after January 1, 1973, or with a final court order issued prior to July 1, 1972, if the costs incurred by a local agency or school district as a result thereof are not incurred until after June 30, 1973. "Costs mandated by the courts" do not include (i) costs incurred as a result of a judgment in an eminent domain or condemnation proceeding, (ii) costs incurred in order to comply with a final court order mandating the specific performance, or awarding damages as a result of nonperformance, of any contract or agreement entered into after January 1, 1973, and (iii) costs incurred as a result of a final court order which requires a local agency or school district to comply with a state-mandated program or service enacted after January 1, 1973, which the court has determined that the local agency or school district has failed to comply with prior to such order.

SEC. 3. Section 2206 of the Revenue and Taxation Code is amended to read:

2206. "Costs mandated by the federal government" means any increased costs mandated specifically by the federal government upon a local agency or school district after January 1, 1973, in order to comply with requirements of federal statute or regulation. "Costs mandated by the federal government" includes costs resulting from enactment of a state law or regulation where failure to enact such law or regulation to meet specific federal program or service requirements would result in substantial monetary penalties or loss of funds to public or private persons in the state. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government or programs or services which may be implemented at the option of the state, local agency, or school district.

SEC. 4. Section 2207 of the Revenue and Taxation Code is amended to read:

2207. "Costs mandated by the state" means any increased costs

which a local agency is required to incur as a result of the following:

(d) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1973, which implements or interprets a federal statute or regulation and, by such implementation or interpretation, increases program or service levels above the levels required by such federal statute or regulation.

(e) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1973, which implements or interprets a statute or amendment adopted or enacted pursuant to the approval of a statewide ballot measure by the voters and, by such implementation or interpretation, increases program or service levels above the levels required by such ballot measure.

(f) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1973, which (i) removes an option previously available to local agencies and thereby increases program or service levels or (ii) prohibits a specific activity which results in the local agencies using a more costly alternative to provide a mandated program or service.

(g) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1973, which requires that an existing program or service be provided in a shorter time period and thereby increases the costs of such program or service.

(h) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1973, which adds new requirements to an existing optional program or service and thereby increases the cost of such program or service if the local agencies have no reasonable alternatives other than to continue the optional program.

SEC. 5. Section 2207.5 of the Revenue and Taxation Code is amended to read:

2207.5. "Costs mandated by the state" means any increased costs which a school district is required to incur as a result of the following:

(d) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1978, which implements or interprets a federal

statute or regulation and, by such implementation or interpretation, increases program or service levels above the levels required by such federal statute or regulation.

(e) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1978, which implements or interprets a statute or amendment adopted or enacted pursuant to the approval of a statewide ballot measure by the voters and, by such implementation or interpretation, increases program or service levels above the levels required by such ballot measure.

(f) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1978, which (i) removes an option previously available to school districts and thereby increases program or service levels or (ii) prohibits a specific activity which results in the school districts using a more costly alternative to provide a mandated program or service.

(g) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1978, which requires that an existing program or service be provided in a shorter time period and thereby increases the costs of such program or service.

(h) Any statute enacted after January 1, 1973, or executive order issued after January 1, 1978, which adds new requirements to an existing optional program or service and thereby increases the cost of such program or service if the school districts have no reasonable alternatives other than to continue the optional program.

SEC. 6. Section 2208.7 is added to the Revenue and Taxation Code, to read:

2208.7. "Board" means the five-member State Board of Control described in Section 2251.

SEC. 7. Section 2218 is added to the Revenue and Taxation Code, to read:

2218. For the purposes of this chapter, "claim" shall include three types of claims which local agencies and school districts may file with the state:

(a) "Test claim" or "claim of first impression" means the first claim filed with the State Board of Control alleging that a particular statute or executive order imposes a mandated cost on such local agency or school district.

(b) "Estimated claim" means a claim filed with the Controller, during the fiscal year in which the mandated costs are to be incurred by the local agency or school district, against an appropriation made to the Controller for the purpose of paying such estimated claims.

(c) "Reimbursement claim" is a claim for costs incurred by a local agency or school district filed with the Controller against an appropriation made for the purpose of paying such claims.

SEC. 7.3. Section 2225 of the Revenue and Taxation Code is repealed.

SEC. 7.5. Section 2226 of the Revenue and Taxation Code is repealed.

SEC. 8. Section 2231 of the Revenue and Taxation Code is

amended to read:

2231. (a) The state shall reimburse each local agency for all "costs mandated by the state", as defined in Section 2207. The state shall reimburse each school district only for those "costs mandated by the state" as defined in Section 2207.5.

(b) For the initial fiscal year during which such costs are incurred reimbursement funds shall be provided as follows: (1) any statute mandating such costs shall provide an appropriation therefor, and (2) any executive order mandating such costs shall be accompanied by a bill appropriating the funds therefor, or, alternatively, an appropriation for such funds shall be included in the Budget Bill for the next following fiscal year, and such executive order shall cite the appropriate Budget Bill item or other bill as the source from which the Controller may pay the claims of local agencies and school districts.

In subsequent fiscal years appropriations for such costs shall be included in the State Budget and in the Budget Bill. In addition, appropriations to reimburse local agencies and school districts for continuing costs resulting from chaptered bills or executive orders for which claims have been awarded pursuant to subdivision (b), (c), or (d) of Section 2253 shall be included in the State Budget and in the Budget Bill subsequent to the enactment of the local government claims bill pursuant to Section 2255 which includes the amounts awarded relating to such chaptered bills or executive orders.

(c) The amount appropriated for such purposes shall be appropriated to the Controller for disbursement.

(d) The Controller shall disburse reimbursement funds to local agencies or school districts if the costs of such mandates are not payable to state agencies, or to state agencies who would otherwise collect the costs of such mandates from local agencies or school districts in the form of fees, premiums, or payments. When disbursing reimbursement funds to local agencies or school districts, the Controller shall disburse them as follows:

(1) For the initial fiscal year during which such costs will be incurred, each local agency or school district to which the mandate is applicable shall submit to the Controller, within 45 days of the operative date of the mandate, or, if the board is requested to do so pursuant to Section 2253.4, within 45 days after the board reviews the parameters and guidelines for reimbursement issued by the Controller, whichever is later, a claim for payment of its estimated costs required by such mandate for the current fiscal year. If the local agency or school district does not submit such claim within the 45-day period, it may submit its claim for reimbursement for costs incurred in such initial fiscal year concurrent with its submission of the claim described in paragraph 2 of this subdivision without any imposition of a late penalty pursuant to Section 2238. The Controller shall pay such claims from the funds appropriated therefor, provided that he (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, and

(ii) may reduce any claim which he determines is excessive or unreasonable. The amendments to this paragraph during 1978 shall apply to all claims submitted on or after January 1, 1978.

In the case of unfunded mandates when funds are appropriated to the Controller to pay for such costs, claims for initial year costs, and subsequent years for which costs have been incurred prior to the enactment of the claims bill, shall be filed within 120 days from the date of notification by the Controller of the enactment of the claims bill. Such claims shall be based upon parameters and guidelines issued by the board and as approved by the Legislature. The Controller shall promptly notify the relevant local agencies or school districts subsequent to enactment of such claims bill of the right to file such claims.

(2) In subsequent fiscal years each local agency or school district shall submit such claims to the Controller by October 31. The Controller shall pay such claims from funds appropriated therefor, provided that he (i) may audit the records of any local agency or school district to verify the actual amount of the mandated costs, (ii) may reduce any claim, which he determines is excessive or unreasonable, and (iii) shall adjust the payment to correct for any underpayments or overpayments which occurred in the previous fiscal year.

(3) Prior to payment of claims, the Controller shall only require information from local agencies or school districts that is actually necessary to perform such audits.

SEC. 9. Section 2232 of the Revenue and Taxation Code is amended to read:

2232. Any funds received by a local agency or school district pursuant to the provisions of this chapter may be used for any public purpose.

SEC. 10. Section 2233 of the Revenue and Taxation Code is amended to read:

2233. No claim shall be made pursuant to Sections 2229 and 2231, nor shall any payment be made on claims submitted pursuant to Sections 2229 and 2231, unless such claims exceed two hundred dollars (\$200), provided that a county superintendent of schools or county may submit a combined claim on behalf of direct service districts or special districts within their county if the combined claim exceeds two hundred dollars (\$200) even if the individual direct service or special district's claims do not each exceed two hundred dollars (\$200). The county superintendent of schools or county shall determine if the submission of such combined claim is economically feasible and shall be responsible for disbursing such funds to each direct service or special district. Such combined claims may be filed only when the superintendent of schools or county is the fiscal agent for such districts. All subsequent claims based upon the same mandate shall only be filed in such combined form.

SEC. 11. Section 2234 of the Revenue and Taxation Code is amended to read:

2234. If a local agency or a school district, at its option, has been incurring costs which are subsequently mandated by the state, the state shall reimburse the local agency or school district for such costs incurred after the operative date of such mandate.

SEC. 11.3. Section 2237 of the Revenue and Taxation Code is repealed.

SEC. 11.5. Section 2237.1 of the Revenue and Taxation Code is repealed.

SEC. 12. Section 2238 of the Revenue and Taxation Code is amended to read:

2238. (a) If a local agency or school district submits an otherwise valid claim to the Controller after the applicable deadline specified in subdivision (d) of Section 2231, the Controller shall pay such claim in an amount equal to 80 percent of the amount which would have been allowed had the claim been timely filed. In no case shall a claim be paid which is submitted more than one year after the applicable deadline specified in subdivision (d) of Section 2231. Claims which were filed by the deadline specified in subdivision (d) of such section shall be paid in full before payments are made on claims filed after the deadline. In the event the amount appropriated to the Controller for reimbursement purposes is not sufficient to pay such claims approved by the Controller, the Controller shall prorate such claims in proportion to the dollar amount of approved claims filed after the deadline and shall report to the State Board of Control or the Legislature in the same manner as described in Section 2236 in order to assure appropriation of funds sufficient to pay such claims.

(b) Notwithstanding the provisions of subdivision (a), any otherwise valid claim filed with the Controller's office on or before October 31, 1979, for costs incurred in the 1977-78 and prior fiscal years, shall be considered under this section and shall be paid at 80 percent or the lesser prorated amount after payment of the timely filed claims.

SEC. 13. Section 2246.1 is added to the Revenue and Taxation Code, to read:

2246.1. On November 30 of each year the Legislative Analyst shall submit a report to the Legislature regarding each unfunded statutory or regulatory mandate for which claims have been approved by the Legislature pursuant to a claims bill during the preceding fiscal year. The initial report, to be submitted by November 30, 1981, shall cover all unfunded mandates found by the board since January 1, 1978, for which claims have been approved by the Legislature. The Legislative Analyst shall review each such statute or regulation in light of its estimated future costs recoverable through the claims process and recommend, in each case, whether the Legislature should reconsider its original enactment of such statute or the state agency should reconsider its adoption of the regulation to repeal, modify, or make permissive its provisions. The Legislative Analyst shall submit the report to the Joint Legislative Budget Committee, the chairs of the fiscal committees, and the

chairs of the policy committees in each house which have jurisdiction over the subject matter of such statutes or regulations.

SEC. 14. Section 2252 of the Revenue and Taxation Code is amended to read:

2252. The Board of Control shall adopt procedures for receiving claims pursuant to this article and for providing a hearing on such claims. Such procedures shall fall within the scope of subdivision (b) of Section 13920 of the Government Code, except that such procedures shall be adopted by a majority vote of the board membership prescribed by Section 2251. The hearing procedure shall provide for presentation of evidence by the claimant and by the Department of Finance and any other affected department or agency. A vote of a majority of the board members shall be required to sustain a claim submitted pursuant to this article. Hearing of a claim may be postponed at the request of the claimant, without prejudice. A claim which fails to obtain the approval of a majority of board members, but which is not rejected by a majority of the board members, may be resubmitted at a later date by the claimant.

SEC. 15. Section 2253.2 of the Revenue and Taxation Code is amended to read:

2253.2. (a) The Board of Control shall, within ten days after receipt of the first claim based upon each chaptered bill or executive order as described in subdivisions (b) and (d) of Section 2253, set a date for a public hearing on such claim within a reasonable time. The claim may be based upon estimated costs that a local agency or school district may incur as a result of the mandate and may be filed at any time after a bill is chaptered or executive order adopted, but prior to its operative date. Such claims shall be submitted in a form prescribed by the board. After a hearing in which the claimant and any other interested organization or individual may participate, the board, if it determines a cost was mandated, shall adopt parameters and guidelines for reimbursement of any claims relating to such bill or executive order. A local agency, school district, and the state may file a claim or request with the board to amend, modify, or supplement such parameters or guidelines. The board may, after due public notice and hearing, amend, modify, or supplement such parameters and guidelines.

The board shall include in its report to the Legislature required under Section 2255 the number of mandates found pursuant to this section and shall include an estimate of the statewide costs to be incurred by local agencies or school districts affected by the mandate. Such statewide estimate shall be approved by the board after receiving and reviewing recommendations from the Department of Finance and any other interested parties. The local government claims bill, specified in Section 2255, at the time of its introduction shall provide for an appropriation sufficient to pay future claims based upon estimated statewide costs resulting from all mandates found by the board.

(b) The Board of Control shall not find a reimbursable mandate,

pursuant to either Section 2250 of this code or to Section 905.2 of the Government Code, in any claim submitted by a local agency or school district, pursuant to Section 2218(a) of the Revenue and Taxation Code, if, after a hearing, the board finds that:

(1) The claim is submitted by a local agency or school district which requested legislative authority for that local agency or school district to implement the program specified in the chaptered bill or executive order, and that chaptered bill or executive order imposes costs upon that local agency or school district requesting such legislative authority. For purposes of this paragraph, a resolution from the governing body or a letter from a delegated representative of the governing body of a local agency or school district which requests authorization for that local agency or school district to implement a given program shall constitute a request within the meaning of this paragraph, except that a request to implement an existing reimbursable mandate in an alternative manner shall not constitute a request; or

(2) The chaptered bill or executive order affirmed for the state that which had been declared existing law or regulation by action of the courts; or

(3) The chaptered bill or executive order implemented a federal law or regulation and resulted in "costs mandated by the federal government", as defined in Section 2206, unless such chaptered bill or executive order mandates costs which exceed the mandate in such law or regulation; or

(4) The local agency or school district has the authority to levy service charges, fees or assessments sufficient to pay for the mandated program or level of service.

(5) The chaptered bill or executive order provides for offsetting savings to local agencies or school districts which result in no net costs to such local agencies or school districts.

(c) The Board of Control shall not consider, pursuant to either Section 2250 of this code or to Section 905.2 of the Government Code, any claims submitted by a local agency or school district if:

(1) The chaptered bill or executive order imposed duties which were expressly included in a ballot measure approved by the voters in a statewide election; or

(2) The chaptered bill created a new crime or infraction, eliminated a crime or infraction, or changed the penalty for a crime or infraction, but only for that portion of the chaptered bill relating directly to the enforcement of the crime or infraction; or

(3) The claim is for two hundred dollars (\$200) or less.

(d) The Legislature declares that the purpose of this section is to encourage local agencies and school districts to file claims for reimbursement with much more advance knowledge of the extent of possible reimbursement and to provide for a more expeditious and efficient claims process.

SEC. 16. Section 2253.3 is added to the Revenue and Taxation Code, to read:

2253.3. In adopting parameters and guidelines pursuant to Section 2253.2, the Board of Control may recommend an allocation formula or uniform allowance based upon actual costs which would provide for reimbursement of each local agency or school district of a specified amount each year. Such recommendations shall be subject to review and approval by the Legislature and Governor in the local government claims bills.

SEC. 17. Section 2253.4 is added to the Revenue and Taxation Code, to read:

2253.4. The board, upon request of a local agency or school district, shall review the claiming instructions issued by the Controller for reimbursement of mandated costs, and may modify such instructions with regard to the inclusion or exclusion of specific cost items.

SEC. 18. Section 2253.8 of the Revenue and Taxation Code is repealed.

SEC. 19. Section 2253.8 is added to the Revenue and Taxation Code, to read:

2253.8. The parameters and guidelines prepared by the Board of Control shall specify the fiscal years for which claims may be filed.

The period prescribed in the parameters and guidelines shall not provide for reimbursement of costs incurred in fiscal years preceding the eligibility date established by the date of submission of the first or "test" claim on a specified statute or executive order. The test claim shall be submitted on or before October 31 following a fiscal year in order to establish eligibility for that fiscal year.

SEC. 20. Section 2255 of the Revenue and Taxation Code is amended to read:

2255. At least twice each calendar year the Board of Control shall report to the Legislature on the number of mandates it has found and the estimated statewide costs of such mandates. Such report shall identify the statewide costs estimated for each such mandate and the reasons for recommending reimbursement. Such report may be included in the report required by Section 13928 of the Government Code. Immediately on receipt of such report a local government claims bill shall be introduced in the Legislature. The local government claims bill, at the time of its introduction, shall provide for an appropriation sufficient to pay the estimated costs of such mandates, pursuant to the provisions of this article.

SEC. 21. Section 2255.1 of the Revenue and Taxation Code is amended to read:

2255.1. Notwithstanding Section 2255, the Board of Control may request that separate local government claims bills be introduced for any mandates for which the estimated statewide costs amount to at least three million dollars (\$3,000,000). In addition, separate appropriation bills may be introduced to appropriate funds sufficient to pay such claims, in which case the appropriate local government claims bill shall be amended to exclude such claims.

## CHAPTER 1257

An act to add Section 17214.6 to the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 28, 1980. Filed with Secretary of State September 29, 1980.]

SECTION 1. Section 17214.6 is added to the Revenue and Taxation Code, to read:

17214.6. (a) Transportation expenses which are necessarily incurred in rendering donated services for an entity described in subdivision (a) or (b) of Section 17214 shall be treated as a contribution under Section 17214 to the extent of the taxpayer's reasonable out-of-pocket expenses or to the extent of the miles necessarily traveled in the taxpayer's vehicle as multiplied by ten cents (\$0.10).

(b) The deduction authorized by this section shall only apply to taxpayers who donate their services as individuals and not to taxpayers who donate services as representatives of a business entity.

(c) If the federal government authorizes a deduction for transportation expenses incurred in rendering donated services at rates which exceed the rate allowed in subdivision (a), the rate authorized in subdivision (a) shall be increased to conform to the rate allowed under federal law.

SEC. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall be applied in the computation of taxes for taxable years beginning on or after the first day of the calendar year in which this act becomes effective provided the effective date is more than 90 days prior to the last day of the calendar year. If the effective date is 90 days or less prior to the last day of the calendar year, the provisions of this act shall apply in the computation of taxes for taxable years beginning on or after the first day of the calendar year following the effective date. This act shall be repealed effective January 1 of the year five years subsequent to the first taxable year for which the act is effective.

#### CHAPTER 5. EXEMPLARY ARTS EDUCATION PROGRAMS

8800. The Legislature finds and declares that there is a need to integrate the arts into the school curriculum as a means of improving the quality of education offered in California public schools and as a means of reinforcing basic skills.

The Legislature further finds and declares that pupils need a balanced educational program which includes the arts as basic intellectual disciplines used as a means of promoting self-worth of the student, motivation for active participation in the educational process, and a positive attitude toward school and community.

The Legislature recognizes that scientific research has indicated that an integrated approach to arts education can serve the above needs.

The Legislature further finds and declares that arts education should include development of skills in art disciplines.

The Legislature further recognizes the decline in arts instruction and support services for pupils during the last decade and declares that the development of exemplary arts education programs is a means of determining programs which may be adapted and offered on a statewide basis.

The objective of the exemplary programs is to encourage and assist in the establishment, conduct, or improvement of educational programs including basic skills in which the arts as basic intellectual disciplines are integrated into the educational program of elementary and secondary schools.

8801. As used in this chapter:

(a) "Arts" includes, but is not limited to, dance, drama, music, folk art, creative writing, architecture and allied fields, visual arts including painting, sculpture, photography, graphic arts and craft arts, industrial design, costume and fashion design, film, and video.

8802. (a) A school district or county office of education may apply for a grant of up to fifty thousand dollars (\$50,000) per year, for a period not to exceed two years, for the development,

Such plan shall contain and allocate staff resources for a needs assessment, an implementation procedure, an evaluation component in which the district or county office measures the goals of the proposed program, and a procedure to establish a community advisory committee which shall be a component of each exemplary arts education program.

(2) Provision for the utilization of an evaluator who shall participate in the proposed program from its inception. If the project is funded, pursuant to the provisions of Section 8803, the evaluator shall provide the California Arts Council, the Department of Education, and the state advisory committee, established pursuant to subdivision (b), with periodic evaluation of the proposed program and with a final evaluation as soon as practical following completion of the proposed program.

(3) Provision that not more than 3 percent of the grant funds will be used for the purposes of administration and evaluation of the proposed program.

(4) Provision that no grant funds received will be used to pay salaries of personnel or other costs of arts education programs being provided by the district or county office at the time of the receipt of such grant funds, or to otherwise supplant federal, state, or local funds being expended on arts education programs by the district or county office.

(5) Provision that the instructional component of the plan specified in paragraph (1) is designed to provide sequential and ongoing instruction which shall assist in preparing pupils for participation in artists-in-schools programs and shall not endeavor to supplant such artists-in-schools programs.

(6) Provision for a description of the adaptability of the program for implementation in other school districts.

8804. The Department of Education, with the approval of the California Arts Council, the Legislative Analyst, and the Department of Finance shall contract for an independent evaluation of the exemplary arts education programs established pursuant to this chapter. In conducting the evaluation, the contractor shall consider the evaluations submitted pursuant to paragraph (2) of subdivision (a) of Section 8802, shall examine the benefits, costs and impact of exemplary arts education programs, the potential for replication in other districts and permanent assimilation of the program within funded districts, and shall provide information on these issues and

make appropriate policy recommendations to the Legislature on or before December 31, 1983.

8805. It is the intent of the Legislature that no portion of the funds specified in Section 8803 be used by the California Arts Council or the Department of Education for administrative costs.

(d) The person works more than 125 days, if employed on a per diem basis or, if employed on other than a per diem basis, 1,000 hours within the fiscal year, in which case membership shall be effective not later than the first day of the month following the month in which 125 days or 1,000 hours of service were completed.

This section shall supersede any contract provision excluding persons in any temporary or seasonal employment basis and shall apply only to persons entering employment on and after January 1, 1975. No contract or contract amendment entered into after January 1, 1981, shall contain any provision excluding persons on an irregular employment basis.

SEC. 5.5. Section 20750.42 of the Government Code is amended to read:

If federal funds are available to pay the employer's contributions required under this section, employees who transfer within 31 days from a position in which they are excluded from membership pursuant to subdivision (f) of Section 20330 into a position with an employer in which membership is not excluded shall, if they so elect within 90 days of such transfer, receive credit for that excluded service and, in which case, the following requirements shall be met:

(a) Pursuant to board regulations, the member shall remit to the Public Employees' Retirement System the contributions, with interest, the member would have made had the member not been excluded.

(b) The employer for which the excluded service was performed shall remit to the Public Employees' Retirement System the contributions, without interest, that would have been made had the

Any person employed in violation of this section and any public officer who knowingly employs or appoints him shall be jointly and severally liable to reimburse the state or the contracting agency, as the case may be, for any compensation paid in such employment. A retired person whose employment without reinstatement is authorized by this article shall acquire no service credit or retirement rights under this part with respect to such employment.

The amount payable to the beneficiary under such optional settlement shall be increased by the same percentage and in the same manner as the increase provided for the payment to the member.

The increased allowance provided by this section shall not be payable to a beneficiary who is receiving an allowance pursuant to this article on the day preceding the effective date of the act amending this section at the 1979-80 Regular Session of the Legislature, unless and until the employer of such retired member elects to be subject to the provisions of this section as so amended by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among employees shall not be required. In the case of contracts made on or after such effective date, the operative date of Section 21263, for purposes of application of that section to local members, shall be the effective date of such contract or contract amendment.

SEC. 9. This act is an urgency statute necessary for the

## CHAPTER 1265

An act to amend Section 3542 of the Government Code, relating to public educational employment.

[Approved by Governor September 29, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3542 of the Government Code is amended to read:

3542. (a) No employer or employee organization shall have the right to judicial review of a unit determination except: (1) when the board in response to a petition from an employer or employee organization, agrees that the case is one of special importance and joins in the request for such review; or (2) when the issue is raised as a defense to an unfair practice complaint. A board order directing an election shall not be stayed pending judicial review.

Upon receipt of a board order joining in the request for judicial review, a party to the case may petition for a writ of extraordinary relief from the unit determination decision or order.

(b) Any charging party, respondent, or intervenor aggrieved by a final decision or order of the board in an unfair practice case, except a decision of the board not to issue a complaint in such a case, may petition for a writ of extraordinary relief from such decision or order.

(c) Such petition shall be filed in the district court of appeal in the appellate district where the unit determination or unfair practice dispute occurred. The petition shall be filed within 30 days after issuance of the board's final order, order denying reconsideration, or order joining in the request for judicial review, as applicable. Upon the filing of such petition, the court shall cause notice to be served upon the board and thereupon shall have jurisdiction of the proceeding. The board shall file in the court the record of the proceeding, certified by the board, within 10 days after the clerk's notice unless such time is extended by the court for good cause shown. The court shall have jurisdiction to grant to the board such temporary relief or restraining order it deems just and proper and in like manner to make and enter a decree enforcing, modifying, or setting aside the order of the board. The findings of the board with respect to questions of fact, including ultimate facts, if supported by

substantial evidence on the record considered as a whole, are conclusive. The provisions of Title 1 (commencing with Section 1067) of Part 3 of the Code of Civil Procedure relating to writs shall, except where specifically superseded herein, apply to proceedings pursuant to this section.

(d) If the time to petition for extraordinary relief from a board decision has expired, the board may seek enforcement of any final decision or order in a district court of appeal or a superior court in the district where the unit determination or unfair practice case occurred. The board shall respond within 10 days to any inquiry from a party to the action as to why the board has not sought court enforcement of the final decision or order. If the response does not indicate that there has been compliance with the board's final decision or order, the board shall seek enforcement of the final decision or order upon the request of the party. The board shall file in the court the record of the proceeding, certified by the board, and appropriate evidence disclosing the failure to comply with the decision or order. If, after hearing, the court determines that the order was issued pursuant to procedures established by the board and that the person or entity refuses to comply with the order, the court shall enforce such order by writ of mandamus. The court shall not review the merits of the order.

## CHAPTER 1266

An act to amend Sections 862 and 17204 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 29, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 862 of the Revenue and Taxation Code is amended to read:

862. When an assessee, after a request by the board, fails to file a property statement or files with the board a property statement or report on a form prescribed by the board with respect to state-assessed property and the statement fails to report any taxable tangible property information accurately, regardless of whether or not this information is available to the assessee, to the extent that such failures cause the board not to assess the property or to assess it at a lower valuation than it would have had the property information been reported accurately, the property shall be assessed in accordance with Section 864, and a penalty of 10 percent shall be added to the additional assessment. If the failure to report or the failure to report accurately is willful or fraudulent, a penalty of 25

percent shall be added to the additional assessment. If the assessee establishes to the satisfaction of the board that the failure to file an accurate property statement was due to reasonable cause and occurred notwithstanding the exercise of ordinary care and the absence of willful neglect, the board shall order the penalty abated, provided, the assessee has filed with the board written application for abatement of the penalty within the time prescribed by law for the filing of applications for assessment reductions.

SEC. 2. Section 17204 of the Revenue and Taxation Code is amended to read:

17204. (a) Except as otherwise provided in this section and Section 17205, the following taxes and assessments shall be allowed as a deduction for the taxable year within which paid or accrued:

- (1) State and local, and foreign, real property taxes, less any amounts received from the state pursuant to the authorization contained in Section 1d of Article XIII of the Constitution;
- (2) State and local personal property taxes;
- (3) State and local general sales taxes;
- (4) State and local taxes on the sale of gasoline, diesel fuel, and other motor fuels;
- (5) Standby or availability charges or special taxes for fire suppression and police protection services imposed pursuant to Chapter 397 of the Statutes of 1979; and

In addition, there shall be allowed as a deduction state and local, and foreign, taxes not described in the preceding sentence which are paid or accrued within the taxable year in carrying on a trade or business or an activity described in Section 17252 (relating to expenses for production of income).

(b) For purposes of this section and Section 17205—

(1) The term “personal property tax” means an ad valorem tax which is imposed on an annual basis in respect of personal property, and for the purpose of allowing a deduction under this part, includes, but is not limited to, fees imposed as an excise tax under Section 10751 of the Revenue and Taxation Code.

(2) (A) The term “general sales tax” means a tax imposed at one rate in respect of the sale at retail of a broad range of classes of items.

(B) In the case of items of food, clothing, medical supplies, and motor vehicles—

(i) The fact that the tax does not apply in respect of some or all of such items shall not be taken into account in determining whether the tax applies in respect of a broad range of classes of items, and

(ii) The fact that the rate of tax applicable in respect of some or all of such items is lower than the general rate of tax shall not be taken into account in determining whether the tax is imposed at one rate.

(C) Except in the case of a lower rate of tax applicable in respect of an item described in subparagraph (B), no deduction shall be allowed under this section for any general sales tax imposed in respect of an item at a rate other than the general rate of tax.

(D) A compensating use tax in respect of an item shall be treated as a general sales tax. For purposes of the preceding sentence, the term "compensating use tax" means, in respect of any item, a tax which—

(i) Is imposed on the use, storage, or consumption of such item, and

(ii) Is complementary to a general sales tax, but only if a deduction is allowable under subdivision (a) (3) in respect of items sold at retail in the taxing jurisdiction which are similar to such item.

(3) A state or local tax includes only a tax imposed by a state, a possession of the United States, or a political subdivision of any of the foregoing, or by the District of Columbia.

(4) A foreign tax includes only a tax imposed by the authority of a foreign country.

(5) If the amount of any general sales tax or of any tax on the sale of gasoline, diesel fuel, or other motor fuel is separately stated, then, to the extent that the amount so stated is paid by the consumer (otherwise than in connection with the consumer's trade or business) to his seller, such amount shall be treated as a tax imposed on, and paid by, such consumer.

(c) No deduction shall be allowed for the following taxes:

(1) Taxes paid or accrued to the state under this part;

(2) Taxes on or according to or measured by income or profits paid or accrued within the taxable year imposed by the authority of:

(A) The government of the United States or any foreign country;

(B) Any state, territory, county, city and county, school district, municipality, or other taxing subdivision of any state or territory;

(C) Taxes imposed by authority of the government of the United States include—

(i) The tax imposed by Section 3101 of the Internal Revenue Code of 1954 (relating to the tax on employees under the Federal Insurance Contributions Act);

(ii) The taxes imposed by Sections 3201 and 3211 of the Internal Revenue Code of 1954 (relating to the taxes on railroad employees and railroad employee representatives); and

(iii) The tax withheld on wages under Section 3402 of the Internal Revenue Code of 1954.

(3) Federal war profits and excess profits taxes.

(4) Estate, inheritance, legacy, succession, and gift taxes;

(5) Taxes computed as an addition to, or as a percentage of, taxes which are not deductible under this section;

(6) Taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this does not exclude the allowance as a deduction of so much of the taxes assessed against local benefits as is properly allocable to maintenance or interest charges.

(7) Taxes on real property, to the extent that Section 17205 requires such taxes to be treated as imposed on another taxpayer.

(8) Taxes imposed by Sections 4971–4975 of the Internal Revenue

Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406) (relating to excise taxes on prohibited transactions and contributions).

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect; provided, that the changes made to Section 17204 of the Revenue and Taxation Code by this bill shall become operative on January 1, 1981. The facts constituting such necessity are:

Certain assesseees may have failed to file timely or accurate property statements through no fault of their own for the current fiscal year, and would be subject to a penalty for this year unless this bill becomes effective for this year. In order to avoid the unfairness, inequity, and hardship on these taxpayers it is necessary that this bill go into immediate effect.

#### CHAPTER 1267

An act to amend Sections 17510, 17510.2, 17510.3, 17510.4, and 17510.7 of, and to repeal and add Sections 17510.5 and 17510.6 of, the Business and Professions Code, relating to charitable solicitations.

[Approved by Governor September 29, 1980 Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 17510 of the Business and Professions Code is amended to read:

17510. (a) The Legislature finds that there exists in the area of solicitations and sales solicitations for charitable purposes a condition which has worked fraud, deceit and imposition upon the people of the state which existing legal remedies are inadequate to correct. Many solicitations or sales solicitations for charitable purposes have involved situations where funds are solicited from the citizens of this state for charitable purposes, but an insignificant amount, if any, of the money solicited and collected actually is received by any charity. The charitable solicitation industry has a significant impact upon the well-being of the people of this state. The provisions of this article relating to solicitations and sale solicitations for charitable purposes are, therefore, necessary for the public welfare.

(b) The Legislature declares that the purpose of this article is to safeguard the public against fraud, deceit and imposition, and to foster and encourage fair solicitations and sales solicitations for charitable purposes, wherein the person from whom the money is being solicited will know what portion of the money will actually be utilized for charitable purposes. This article will promote legitimate solicitations and sales solicitation for charitable purposes and restrict

harmful solicitation methods, thus the people of this state will not be misled into giving solicitors a substantial amount of money which may not in fact be used for charitable purposes.

SEC. 2. Section 17510.2 of the Business and Professions Code is amended to read:

17510.2. (a) As used in this article, "solicitation for charitable purposes," means any request, plea, entreaty, demand, or invitation, or attempt thereof, to give money or property, in connection with which:

- (1) Any appeal is made for charitable purposes; or
- (2) The name of any charity, philanthropic or charitable organization is used or referred to in any such appeal as an inducement for making any such gift; or
- (3) Any statement is made to the effect that such gift or any part thereof will go to or be used for any charitable purpose or organization.

(b) As used in this article, "sales solicitation for charitable purposes" means the sale of, offer to sell, or attempt to sell any advertisement, advertising space, book, card, chance, coupon device, magazine subscription, membership, merchandise, ticket of admission or any other thing or service in connection with which:

- (1) Any appeal is made for charitable purposes; or
- (2) The name of any charity, philanthropic or charitable organization is used or referred to in any such appeal as an inducement for making any such sale; or
- (3) Any statement is made to the effect that the whole or any part of the proceeds from such sale will go to or be used for any charitable purpose or organization.

(c) A solicitation for charitable purposes, or a sale, offer or attempt to sell for charitable purposes, shall include the making or disseminating or causing to be made or disseminated before the public in this state, in any newspaper or other publication, or any advertising device, or by public outcry or proclamation, or in any other manner or means whatsoever any such solicitation.

(d) For purposes of this article, "charity" shall include any nonprofit community organization, fraternal, benevolent, educational, philanthropic, or service organization, governmental employee organization, any person who solicits or obtains contributions solicited from the public for charitable purposes, and any person who holds any assets for charitable purposes.

SEC. 3. Section 17510.3 of the Business and Professions Code is amended to read:

17510.3. (a) Prior to any solicitation or sales solicitation for charitable purposes, the solicitor or seller shall exhibit to the prospective donor or purchaser a card entitled "Solicitation or Sale for Charitable Purposes Card." The card shall be signed and dated under penalty of perjury by an individual who is a principal, staff member, or officer of the soliciting organization. The card shall give the name and address of the soliciting organization or the person

who signed the card and the name and business address of the paid individual who is doing the actual soliciting.

In lieu of exhibiting a card, the solicitor or seller may distribute during the course of the solicitation any printed material, such as a solicitation brochure, provided such material complies with the standards set forth below, and provided that the solicitor or seller informs the prospective donor or purchaser that such information as required below is contained in the printed material.

Information on the card or printed material shall be presented in at least 10-point type and shall include the following:

(1) The name and address of the combined campaign, each organization, or fund on behalf of which all or any part of the money collected will be utilized for charitable purposes;

(2) If there is no organization or fund, the manner in which the money collected will be utilized for charitable purposes;

(3) The amount, stated as a percentage of the total gift or purchase price, that will be used for direct fundraising expenses. If paid fundraisers are paid a set fee rather than a percentage of the total amount raised, the card shall show the total cost that is estimated will be used for direct fundraising expenses. If the solicitation is not a sale solicitation, the card may state, in place of the amount of fundraising expenses, that an audited financial statement of such expenses may be obtained by contacting the organization at the address disclosed;

(4) The non-tax-exempt status of the organization or fund, if the organization or fund for which the money or funds are being solicited does not have a charitable tax exemption under both federal and state law;

(5) The percentage of the total gift or purchase price which may be deducted as a charitable contribution under both federal and state law. If no portion is so deductible the card shall state that "This contribution is not tax deductible."

(b) Knowing and willful noncompliance by any individual volunteer who receives no compensation of any type from or in connection with a solicitation by any charitable organization shall subject the solicitor or seller to the penalties of the law.

(c) When the solicitation is not a sales solicitation, any individual volunteer who receives no compensation of any type from, or in connection with, a solicitation by any charitable organization may comply with the disclosure provisions by providing the name and address of the charitable organization on behalf of which all or any part of the money collected will be utilized for charitable purposes, by stating the charitable purposes for which the solicitation is made, and by stating to the person solicited that information about revenues and expenses of such organization, including its administration and fundraising costs, may be obtained by contacting the organization's office at the address disclosed. Such organization shall provide such information to the person solicited within seven days after receipt of the request. If the volunteer is 10 years of age

or younger, he is not required to make any disclosures.

SEC. 4. Section 17510.4 of the Business and Professions Code is amended to read:

17510.4. If the initial solicitation or sales solicitation is made by radio, television, letter, telephone, or any other means not involving direct personal contact with the person solicited, this solicitation shall clearly disclose the information required by Section 17510.3. This disclosure requirement shall not apply to any radio or television solicitation of 60 seconds or less. If the gift is subsequently made or the sale is subsequently consummated the solicitation or sale for charitable purposes card shall be mailed to or otherwise delivered to the donor, or to the buyer with the item or items purchased.

SEC. 5. Section 17510.5 of the Business and Professions Code is repealed.

SEC. 6. Section 17510.5 is added to the Business and Professions Code, to read:

17510.5. The financial records of a soliciting organization shall be maintained on the basis of generally accepted accounting principles as defined by the American Institute of Certified Public Accountants and the Financial Accounting Standards Board.

The disclosure requirements of subdivisions (c) and (e) of Section 17510.3 shall be based on the same accounting principles used to maintain the soliciting organization's financial records.

SEC. 7. Section 17510.6 of the Business and Professions Code is repealed.

SEC. 8. Section 17510.6 is added to the Business and Professions Code, to read:

17510.6. The provisions of this article shall not apply to solicitations, sales, offers, or attempts to sell within the membership of a charitable organization or upon its regular occupied premises, nor shall it apply to funds raised as authorized by Section 326.5 of the Penal Code.

SEC. 9. Section 17510.7 of the Business and Professions Code is amended to read:

17510.7. Compliance with any city or county ordinance which provides for disclosure of information relating to solicitations or sales solicitations for charitable purposes substantially similar to and no less than the disclosure requirements of this article shall be deemed to satisfy the requirements of this article.

SEC. 10. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

## CHAPTER 1268

An act to amend Section 22003 of the Elections Code, relating to elections.

[Approved by Governor September 29, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 22003 of the Elections Code is amended to read:

22003. The governing body of any city or district may by resolution request the board of supervisors of the county to permit the county clerk to render specified services to the city or district relating to the conduct of an election. Subject to approval of the board of supervisors, such services shall be performed by the county clerk.

The resolution of the governing body of the city or district shall specify the services requested.

Any city which requests the board of supervisors to permit the county clerk to prepare the city's election materials shall, if the board of supervisors agrees to provide such services, supply the county clerk with a list of its precincts no later than 61 days before the election.

Unless other arrangements satisfactory to the county have been made, the city or district shall reimburse the county in full for the services performed upon presentation of a bill to the city or district.

SEC. 2. The provisions of Section 10217.7 of the Elections Code, authorizing the rotation of candidates' names by precinct clusters, shall not be applicable to a city election which is consolidated with an election conducted throughout a county of the first class as defined in Section 28022 of the Government Code.

SEC. 3. Section 2 of this act shall be operative only until January 1, 1983, and as of such date is repealed.

SEC. 3. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because this act, in part, is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act. Furthermore, this act does not create any present or future obligation to reimburse the agency or district for any costs incurred because of this act.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

## CHAPTER 1269

An act to add Section 24200.2 to the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 29, 1980. Filed with Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 24200.2 is added to the Education Code, to read:

24200.2. A retirant may name a new beneficiary and select a second joint and survivor option described in Section 24200 in the event the beneficiary selected at the time of retirement predeceases the retirant.

The effective date of the election of the new joint and survivor option shall be one year following the date notification is received by the board, provided both the retirant and the nominated option beneficiary are then living. Such notification shall include a certified copy of the death certificate of the predeceased beneficiary and a properly executed form for the new joint and survivor option.

The selection of the new joint and survivor option under this section and Section 24200 is subject to an actuarial reduction in the amount of the retirement allowance; provided, that a retirant may not elect a joint and survivor option that would result in any additional liability to the fund.

*The people of the State of California do enact as follows:*

CHAPTER 1272

An act to amend Section 44987 of, and to add Section 22706.5 to, the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 29, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 22706.5 is added to the Education Code, to read:

22706.5. A member shall receive full credit for time during which the member serves as an elected officer of an employee organization while on a compensated leave of absence pursuant to Section 44987, if all of the following conditions are met:

(a) The member was employed and performed service in a position requiring membership in this system in the month prior to commencement of the leave of absence.

(b) The member contributes to the Teachers' Retirement Fund the amount that would have been contributed had the member been employed full time.

(c) The member's employing agency contributes to the Teachers' Retirement Fund an amount based upon the salary that would have been paid to the member had the member been employed full time and at a rate specified by the board.

The maximum amount of credit earned by a member for service as an elected officer of an employee organization shall not exceed eight calendar years.

A member shall not be eligible for disability under this system while on a leave of absence to serve as a full-time elected officer of an employee organization.

SEC. 2. Section 44987 of the Education Code is amended to read:

44987. (a) The governing board of a school district shall grant to any employee, upon request, a leave of absence without loss of compensation for the purpose of enabling such employee to serve as an elected officer of any statewide public employee organization, national organization with which such statewide organization is affiliated, or local school district public employee organization which is affiliated with such state and national organizations.

Such leave shall include, but is not limited to, absence for purposes of attendance by the employee at periodic, stated, special, or regular meetings of the body of such organization on which such employee serves as an officer. Compensation during such leave shall include retirement fund contributions required of the school district as employer. Required retirement contributions shall include the amount necessary to pay any unfunded liability cost for such retirement plan. The employee shall earn full service credit during such leave of absence and shall pay member contributions as prescribed by Section 22804. The maximum amount of such service credit earned shall not exceed eight calendar years. Any such employee who serves as a full-time officer of a public employee organization shall not be eligible for disability benefits under the State Teachers' Retirement System while on such a leave of absence.

Following the school district's payment of the employee for such leave of absence, the school district shall be reimbursed by the employee organization of which the employee is an elected officer for all compensation paid the employee on account of such leave. Reimbursement by the employee organization shall be made within 10 days after its receipt of the school district's certification of payment of compensation to the employee.

The leave of absence without loss of compensation provided for by this section is in addition to the released time without loss of compensation granted to representatives of an exclusive representative by subdivision (c) of Section 3543.1 of the Government Code.

For purposes of this section, "school district" also means "county superintendent of schools."

(b) An employee who after August 31, 1978, was absent on account of elected-officer service, shall receive full service credit in the State Teachers' Retirement System; provided that, not later than

April 30, 1981: (1) the employee makes a written request to the employer for a leave of absence for the period of such elected-officer service, and (2) the employee organization of which the employee is an elected officer pays to the employee's school district an amount equal to the required State Teachers' Retirement System member and employer retirement contributions, as prescribed by this section.

The school district, following such written request and payment, shall transmit the amount received to the State Teachers' Retirement System, informing it of the period of the employee's leave of absence. The State Teachers' Retirement System shall credit the employee with all service credit earned for the period of such elected-officer leave of absence.

In the event that the employee has been compensated by the school district for the period of such service, then, as a condition to the employee's entitlement to service credit for such period, the school district shall be reimbursed by the employee organization for the amount of such compensation.

The provisions of this subdivision shall apply retroactively to all service as an elective officer in a public employee organization occurring after August 31, 1978.

SEC. 3. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code for the reimbursement of any local agency or school district for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act. It is recognized, however, that such agency or district may pursue any other remedies available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

(e) Waterfowl habitat shall be assessed at the value as provided in Section 423.7 but not to exceed 90 percent of its base year value pursuant to Section 110.1, adjusted to reflect the percentage change in the cost of living not to exceed 2 percent per year.

(f) Any city or county electing to be assessed pursuant to this section must make such election no later than December 31, 1982.

(g) Land assessed pursuant to this section shall continue to be so assessed, for the period of time that the land is restricted by contract under the Williamson Act.

SEC. 2. The Board of Equalization shall conduct a study of the costs associated with this act and shall report to the Legislature on or before December 31, 1982.

SEC. 3. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code and Section 6 of Article XIII B of the California Constitution, no appropriation is made by this act pursuant to these sections. It is recognized, however, that a local agency or school

district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

[Approved by Governor September 29, 1980 Filed with

*The people of the State of California do enact as follows:*

SECTION 1. Section 1463 of the Penal Code is amended to read: 1463. Except as otherwise specifically provided by law:

(1) All fines and forfeitures including Vehicle Code fines and forfeitures collected upon conviction or upon the forfeiture of bail, together with moneys deposited as bail, in any municipal court or justice court, shall, as soon as practicable after the receipt thereof, be deposited with the county treasurer of the county in which such court is situated. The moneys so deposited shall be distributed as follows:

(a) Once a month there shall be transferred into the proper funds of the county an amount equal to the fines and forfeitures collected during the preceding month upon the conviction or upon the forfeiture of bail following arrests made by officers or other persons employed by the state or by the county in which such court is situated, exclusive of fines or forfeitures or forfeitures of bail collected from any person arrested by a state officer and charged with the commission of a misdemeanor under the Vehicle Code within the limits of a city within the county.

(b) Except as otherwise provided in this subdivision, once a month there shall be transferred into the traffic safety fund of each city in the county an amount equal to 50 percent of all fines and forfeitures collected during the preceding month upon the conviction or upon the forfeiture of bail from any person arrested by a state officer and charged with the commission of a misdemeanor under the Vehicle Code within that city, and an amount equal to the remaining 50 percent shall be transferred to the special road fund of the county; provided, however, that the board of supervisors of the county may, by resolution, provide that not more than 50 percent of the amount to be transferred to the special road fund of the county, be transferred into the general fund of the county.

Once a month there shall be transferred into the general fund of the county an amount equal to that percentage of the fines and forfeitures collected during the preceding month upon the conviction or upon the forfeiture of bail from any person arrested by a state officer and charged with the commission of a misdemeanor under the Vehicle Code on state highways constructed as freeways whereon city police officers enforced the provisions of the Vehicle

If this paragraph is applicable within a city, it shall apply uniformly throughout the city to all freeways regardless of the date of freeway construction or completion.

(c) Once a month there shall be transferred into the general fund of the county an amount equal to that percentage of the fines and forfeitures collected during the preceding month upon conviction or upon the forfeiture of bail following arrests made by officers or other persons employed by each city in the county which is set forth in the following schedule:

In any county for which a county percentage is set forth in the above schedule and which contains a city which is not listed or which is hereafter created, there shall be transferred to the county general fund the county percentage. In any county for which no county percentage is set forth, and in which a city is hereafter created, there shall be transferred to the county general fund 15 percent.

A county and a city therein may, by mutual agreement, adjust the percentages herein.

(d) Once a month there shall be transferred to each city in the county an amount equal to the total sum remaining after the transfers provided for in subparagraphs (b) and (c) above have been made of the fines and forfeitures collected during the preceding month upon conviction or upon the forfeiture of bail following arrests made by officers or other persons employed by such city or arrests made by state officers for misdemeanor violations of the Vehicle Code.

(2) Any money deposited with such court or with the clerk thereof which, by order of the court or for any other reason, should

be returned in whole or in part to any person, or which is by law payable to the state or to any other public agency, shall be paid to such person or to the state or to such other public agency by warrant of the county auditor, which shall be drawn upon the requisition of the clerk of such court.

All money deposited as bail which has not been claimed within one year after the final disposition of the case in which such money was deposited, or within one year after an order made by the court for the return or delivery of such money to any person, shall be apportioned between the city and the county and paid or transferred in the manner hereinabove provided for the apportionment and payment of fines and forfeitures. This paragraph shall control over any conflicting provisions of law.

(3) Notwithstanding any other provision of law, in the event that a county or court elects to discontinue processing the posting of bail for an issuing agency, the city, district or other issuing agency may elect to receive, deposit, accept forfeitures and otherwise process the posting of bail for parking violations for which such city, district, or other issuing agency has issued a written notice of parking violation pursuant to Section 41103 of the Vehicle Code. Notwithstanding paragraph (1), if the city, district, or other issuing agency processes such posting of bail, the issuing agency may retain the forfeited bail collected.

For the purposes of this subdivision, neither the California Highway Patrol, nor a sheriff's office when acting on a contract basis for a city, shall be deemed an "issuing agency".

The issuing agency may elect to contract with the county, a municipal or justice court, or another issuing agency within the county to provide for the processing of the posting of bail for such parking violations.

No provision of this section shall be construed to require any county or municipal or justice court to process the posting of bail for a city, district or other issuing agency prior to the filing of a complaint. If a county or court has been processing the posting of bail for an issuing agency, and if the county or court elects to terminate the processing of the posting of bail the issuing agency and the county or court shall reach agreement for the transfer of the processing activity. The agreement shall permit the county or court to phase out, and the issuing agency to phase in, personnel, equipment, and facilities that may have been acquired or need to be acquired in contemplation of a long-term commitment to process the posting of bail for the issuing agency's parking violations.

SEC. 1.5. Section 1463.01 is added to the Penal Code, to read:

1463.01. For purposes of subdivision (3) of Section 1463, "forfeited bail collected" shall include any penalty assessment, but shall not include the surcharge imposed pursuant to Section 1206.5 or 1206.6.

SEC. 2. Section 41103.5 of the Vehicle Code is amended to read:

41103.5. (a) Whenever any person has for a period of 15 or more

days failed to comply with the provisions of paragraph (2) of Section 41103, the magistrate or clerk of the court or the officer of the issuing agency designated by the magistrate or clerk of the court shall give notice of such fact to the department if no warrant of arrest is outstanding in connection with the matter. Such notice shall be given not more than 30 days after such failure to appear. Whenever thereafter the case, in which the notice of violation was given pursuant to paragraph (2) of Section 41103, is adjudicated, the magistrate or clerk of the court hearing the case shall immediately sign and file with the department a certificate to that effect.

(b) Whenever a fine or forfeiture is received in connection with a matter for which a notice of noncompliance has been forwarded under this section, the clerk of the court, or judge if there is no clerk, shall determine the amount of the administrative service fee due as established by the department under Section 4763, and shall transmit such amount to the county treasury. The county treasurer shall, at least once each month, transmit the fees collected pursuant to this section to the State Treasury for deposit in the Motor Vehicle Account in the State Transportation Fund. The funds shall be transmitted in the same manner as fines collected for the state by the county. In any case involving federal jurisdictions, such fees shall be transmitted monthly to the Department of Motor Vehicles for deposit in the Motor Vehicle Account in the State Transportation Fund.

(c) The procedure for the collection of bail authorized by this section and the provisions of Sections 4760 to 4765, inclusive, shall apply to any registration or equipment infraction charged simultaneously with any parking violation in any notice of violation issued to an unattended vehicle under paragraph (1) of Section 41103.

SEC. 3. Section 1 of this act is declaratory of existing law, and is adopted in order to make it clear that the law does not now preclude, and has not previously precluded, a city, district, or other issuing agency from processing parking violations and retaining the forfeited bail collected when a county or court elects to terminate processing the posting of bail.

SEC. 3.5. Section 1.5 of this act shall become operative only if Senate Bill 1408 of the 1979-80 Regular Session is enacted, and in such event shall become operative at the same time as Senate Bill 1408.

SEC. 4. Notwithstanding Sections 2229, 2230, and 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to those sections nor shall there be any appropriation made by this act because there are no state-mandated local costs in this act and any revenue loss implied herein is not reimbursable under Sections 2229 and 2230 of the Revenue and Taxation Code.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

During the past year certain municipal courts have refused to process parking violations and this has significantly affected the enforcement authority of certain issuing agencies. Therefore, an immediate clarification in the law is necessary to enable issuing agencies to exercise this authority and avoid parking, liability and conflicting claims problems which potentially exist under the current situation.

(b) A list of provisions of federal law, federal regulations, or both, for which it is recommended that the state seek waiver.

(c) A list of specific related services which shall be provided by the respective departments and their political subdivisions to carry out the mandate of Public Law 94-142 and its implementing regulations.

Waivers granted pursuant to this section may be only for those laws and regulations identified in the plan submitted to the Legislature pursuant to Section 56876, and only when necessary to implement this act.

(1) The availability to handicapped children of education and related services provided by public and private agencies.

(2) The amount of federal funds utilized to provide education and related services to handicapped children and the increase in the proportion of federal funds utilized by participating local educational agencies to provide such services to handicapped children.

[Approved by Governor September 29, 1980 Filed with Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5230 of the Business and Professions Code is amended to read:

5230. The governing body of any city, county, or city and county may enact ordinances, including, but not limited to, land use or

zoning ordinances, imposing restrictions on advertising displays adjacent to any street, road, or highway equal to or greater than those imposed by this chapter; provided, that the provisions of Section 5412.5 are complied with.

SEC. 2. Section 5271 of the Business and Professions Code is amended to read:

5271. Except as otherwise provided in this chapter, the provisions of this chapter apply only to the placing of advertising displays within view of highways located in unincorporated areas of this state, except that the placing of advertising displays within 660 feet from the edge of the right-of-way of, and the copy of which is visible from, interstate highways or primary highways, including the portions of such highways located in incorporated areas, shall be governed by this chapter.

SEC. 3. Section 5412.5 is added to the Business and Professions Code, to read:

5412.5. Notwithstanding any other provision of this chapter, no advertising display which was lawfully erected within this state shall be compelled to be removed by any city, county, city and county, or any other local entity, whether or not the advertising display is removed pursuant to, or because of, this chapter or any other statute, ordinance, or regulation of any governmental entity.

This section applies to all displays which were lawfully erected in compliance with state and local laws in effect when the displays were erected, if the displays were still in existence on November 6, 1978, regardless of whether the displays have become nonconforming or have been provided an amortization period. Notwithstanding the foregoing sentence, this section shall not apply to displays which were erected pursuant to a written agreement with a governmental entity providing for the removal of the displays after a fixed period of time.

This section does not apply to advertising displays compelled to be removed by the Department of Transportation to comply with Section 131 of Title 23 of the United States Code or to any advertising display acquired for a public use by any governmental entity pursuant to Title 7 (commencing with Section 1230.010) or Part 3 of the Code of Civil Procedure.

This section shall remain in effect only until January 1, 1982, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1982, deletes or extends such date.

SEC. 4. Section 5413 of the Business and Professions Code is amended to read:

5413. Prior to commencing judicial proceedings to compel the removal of an advertising display, the director may elect to negotiate with the person entitled to compensation upon the removal of the advertising display in order to arrive at an agreement as to the amount of compensation to be paid. If the negotiations are unsuccessful, or if the director elects not to engage in such negotiations, a civil proceeding may be instituted as set forth in

**Section 5414.**

SEC. 5. Section 5414 of the Business and Professions Code is amended to read:

5414. Proceedings to compel the removal of displays and to determine the compensation required by this chapter shall be conducted pursuant to Title 7 (commencing with Section 1230.010) of Part 3 of the Code of Civil Procedure.

SEC. 6. Section 5417 of the Business and Professions Code is amended to read:

5417. From state funds appropriated by the Legislature for such purposes and from federal funds made available for such purposes, the California Transportation Commission may allocate funds to the director for payment of compensation authorized by this chapter.

SEC. 7. Section 5420 is added to the Business and Professions Code, to read:

5420. The Legislature finds that, due to recent amendments to the federal law dealing with outdoor advertising, the federal administrative interpretation of those amendments, and recent judicial opinions concerning advertising, the provisions of this chapter and those of numerous local ordinances concerning the regulation, control, prohibition, and removal of advertising displays require substantial review and study. To provide for that review and study, without prejudice to any party's rights, Sections 5412.5 and 5421 are enacted to provide a moratorium on the removal by any governmental entity of lawfully erected advertising displays and to establish a advisory committee to examine the need for legislation in this area.

SEC. 8. Section 5421 is added to the Business and Professions Code, to read:

5421. A special advisory committee, to be called the Governor's Outdoor Advertising Advisory Committee, is hereby created.

The Governor shall appoint the following members of the committee: three representatives of the outdoor advertising industry, three representatives of local government, and three public members.

The Senate Rules Committee shall appoint a Senator as an ex officio member, and the Speaker of the Assembly shall appoint one Assemblyman as an ex officio member. The Chief of the Outdoor Advertising Section of the Department of Transportation shall be a nonvoting coordinator of the committee.

The committee shall study and make a written report on the current status of all laws, ordinances, and regulations affecting outdoor advertising, the impact of these laws, ordinances, and regulations on the state, the public, owners of outdoor advertising displays, advertisers, cities, and counties. The committee shall make recommendations for legislation that would insure:

- (a) The state's compliance with all existing federal requirements.
- (b) Local entities' ability to regulate outdoor advertising.
- (c) Equal treatment for all persons affected by such laws,

ordinances, and regulations.

(d) That the ability of the citizens of this state to communicate is not unreasonably impaired.

The committee shall be in existence until January 1, 1982, with a written report with legislative proposals submitted to the Governor and Legislature on or before March 31, 1981.

SEC. 9. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code and Section 6 of Article XIII B of the California Constitution, no appropriation is made by this act pursuant to these sections. The Legislature finds that this bill does not require any governmental entity to remove any outdoor advertising display and hence does not impose any state-mandated cost on local governments. However, in recognition of the fact that local governments may choose to contest this finding, a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

## CHAPTER 1279

SEC. 2. Section 7683 of the Labor Code is amended to read:

7683. (a) If a tank or boiler is found to be in a safe condition for operation, a permit shall be issued by or on behalf of the division for its operation.

(b) In the case of a tank, the permit shall continue in effect for not longer than five years, except for any tank specified in subdivision

(b) of Section 7681.

(c) In the case of a tank specified in subdivision (b) of Section 7681, the permit shall remain in effect as long as the tank is in compliance with applicable provisions of this part and regulations contained in Title 8 of the California Administrative Code. A new inspection and permit for operation shall be required whenever there is a change in ownership and permanent location of the tank or there is an alteration or change in the tank which affects the tank's safety.

This subdivision applies to any permit in effect on the effective date of this subdivision as well as to any permit issued after such date. Notwithstanding any other provision of law, an insurer is not liable for any permit issued prior to the effective date of this subdivision for any tank specified in subdivision (b) of Section 7681 for any period of time exceeding the period for which the last permit was issued.

## CHAPTER 1281

An act to add Section 2885 to the Civil Code, to amend Section 674 of the Code of Civil Procedure, and to add Sections 27297.5 and 27387 to the Government Code, relating to liens on real property.

[Approved by Governor September 29, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 2885 is added to the Civil Code, to read:

2885. Any state agency, upon recording a state tax lien against real property, shall mail written notice of the recordation to the tax debtor. Failure to notify the tax debtor shall not affect the constructive notice otherwise imparted by recordation, nor shall it affect the force, effect, or priority otherwise accorded such tax lien.

SEC. 2. Section 674 of the Code of Civil Procedure is amended to read:

674. (a) An abstract of the judgment or decree of any court of this state, including a judgment entered pursuant to Chapter 1 (commencing with Section 1710.10) of Title 11 of Part 3, or a judgment of any court sitting as a small claims court, or any court of record of the United States, the enforcement of which has not been stayed on appeal or pursuant to Section 1710.50, certified by the clerk, judge or justice of the court where such judgment or decree was rendered, may be recorded with the recorder of any county and from such recording the judgment or decree becomes a lien upon all the real property of the judgment debtor, not exempt from execution, in such county, owned by him at the time, or which he may afterward and before the lien expires, acquire. Such lien continues for 10 years from the date of the entry of the judgment or decree unless the enforcement of the judgment or decree is stayed on appeal or pursuant to Section 1710.50 by the execution of a

sufficient undertaking or the deposit in court of the requisite amount of money as provided in this code, or by the statutes of the United States, in which case the lien of the judgment or decree, and any lien or liability now existing or hereafter created by virtue of an attachment that has been issued and levied in the action, unless otherwise by statutes of the United States provided, ceases, or upon an undertaking on release of attachment, or unless the judgment or decree is previously satisfied, or the lien otherwise discharged. The abstract above mentioned shall contain the following: title of the court and cause and number of the action; date of entry of the judgment or decree; names of the judgment debtor and of the judgment creditor and the address at which the summons was either personally served or mailed to the judgment debtor or the judgment debtor's attorney of record; amount of the judgment or decree, and where entered in judgment book or minutes. It shall also contain the social security number or driver's license number or both of the judgment debtor if they are known to the judgment creditor. If such numbers are not known to the judgment creditor, that fact shall be indicated on the abstract of judgment.

(b) An order made pursuant to subdivision (b) of Section 908 of the Welfare and Institutions Code shall be considered a judgment for the purposes of subdivision (a) of this section.

(c) With respect to real property containing a dwelling house judicially determined to be exempt from levy of execution pursuant to the provisions of Section 690.31, as distinguished from property subject to a declared homestead created pursuant to Title 5 (commencing with Section 1237) of Part 4 of Division 2 of the Civil Code, a judgment lien created pursuant to subdivision (a) of this section shall attach to such real property notwithstanding the exemption provided by Section 690.31.

SEC. 3. Section 27297.5 is added to the Government Code, to read:

27297.5. (a) Upon recordation of an abstract of judgment or other document creating an involuntary lien affecting the title to real property, the county recorder shall, whenever the recorded document evidencing such lien contains the address of the person or persons against whom such involuntary lien is recorded or the address of the judgment debtor's attorney of record, within 10 days notify such person or persons or attorney of record by mail of such recordation. Notwithstanding the forgery provisions of this subdivision the failure of the county recorder to notify the person or persons against whom such lien is recorded shall not affect the constructive notice otherwise imparted by recordation, nor shall it affect the force, effect, or priority otherwise accorded such a lien.

(b) As used in this section, "involuntary lien" means a lien which the person or persons against whom such lien is recorded has not executed or has not consented to by contract.

(c) The provisions of this section shall not apply to the recordation of any documents relating to an involuntary lien in favor of the

federal government pursuant to federal law or statute nor to the recordation of any state tax lien against real property.

SEC. 4. Section 27387 is added to the Government Code, to read:

27387. In addition to any other fee, the county recorder shall collect a fee from any lienor, other than a governmental entity, for the recordation of an abstract of judgment or other document creating an involuntary lien within the meaning of Section 27297 affecting title to real property. The fee shall not exceed the actual cost to the recorder of providing the notice required by Section 27297.5.

SEC. 5. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because self-financing authority is provided in this act to cover costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

However, such fees may be imposed or assessed only when such samples are required to determine compliance with permit conditions or with any state or local law, order, rule, or regulation relating to air pollution. Such fees shall not include charges for the reasonable time exclusively spent by the owner or operator of the source constructing testing facilities or preparing for such testing. (b) Nothing contained in this part shall be construed to include or restrict the use of construction equipment such as portable sandblasting equipment or portable spraying or spray painting equipment, or any similar equipment, used on a temporary basis in connection with new construction, or on maintenance or repairs of existing structures, machinery, or equipment; provided, such equipment is operated in accordance with the requirements of this division and applicable district and state board rules and regulations.

(c) Where testing to demonstrate compliance with permit conditions or with any state or local law, order, rule, or regulation

*The people of the State of California do enact as follows:*

SECTION 1. Section 35146 of the Education Code is amended to read:

35146. Notwithstanding the provisions of Section 35145 of this code and Section 54950 of the Government Code, the governing body of a school district shall, unless a request by the parent has been made pursuant to this section, hold closed sessions if the board is considering the suspension of, or disciplinary action or any other action except expulsion in connection with any pupil of the school district, if a public hearing upon such question would lead to the giving out of information concerning school pupils which would be in violation of Article 5 (commencing with Section 49073) of Chapter 6.5 of Part 27 of this code.

Before calling such closed session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the pupil is a minor, notify the pupil and his or her parent or guardian, or the pupil if the pupil is an adult, of the intent of the governing board of the district to call and hold such closed session. Unless the pupil, or his or her parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters shall be

conducted by the governing board in closed session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public except that any discussion at such meeting that might be in conflict with the right to privacy of any pupil other than the pupil requesting the public meeting or on behalf of whom such meeting is requested, shall be in closed session. Whether the matter is considered at a closed session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.

**SEC. 2.** Section 72122 of the Education Code is amended to read: 72122. Notwithstanding the provisions of Section 72121 of this code and Section 54950 of the Government Code, the governing body of a community college district shall, unless a request by the parent has been made pursuant to this section, hold closed sessions if the board is considering the suspension of, or disciplinary action or any other action except expulsion in connection with any student of the community college district, if a public hearing upon such question would lead to the giving out of information concerning students which would be in violation of Article 5 (commencing with Section 76240) of Chapter 1.5 of Part 47 of this code.

Before calling such closed session of the governing board of the district to consider these matters, the governing board of the district shall, in writing, by registered or certified mail or by personal service, if the student is a minor, notify the student and his or her parent or guardian, or the student if the student is an adult, of the intent of the governing board of the district to call and hold such closed session. Unless the student, or his or her parent, or guardian shall, in writing, within 48 hours after receipt of such written notice of intention, request that the hearing of the governing board be held as a public meeting, then the hearing to consider such matters shall be conducted by the governing board in closed session. If such written request is served upon the clerk or secretary of the governing board, the meeting shall be public except that any discussion at such meeting that might be in conflict with the right to privacy of any student other than the student requesting the public meeting or on behalf of whom such meeting is requested, shall be in closed session. Whether the matter is considered at a closed session or at a public meeting, the final action of the governing board of the school district shall be taken at a public meeting and the result of such action shall be a public record of the school district.

**SEC. 3.** Section 92030 of the Education Code is amended to read: 92030. All meetings of the Regents of the University of California shall, except as otherwise provided in this section, be open to the public. Such notice shall be given by notifying any newspaper of general circulation or any television or radio station, and shall be delivered personally or

by mail so that the notice may be published or broadcast at least 24 hours before the time of such meeting.

The Regents of the University of California may also hold closed sessions when it meets to consider or discuss: (a) matters relating to or affecting the national security; (b) the conferring of honorary degrees or other honors or commemorations; (c) those matters involving gifts, devises and bequests; (d) matters involving purchase and sale of investments for endowment and pension funds; (e) matters involving litigation when discussion in open session concerning such matters would adversely affect or be detrimental to the public interest; (f) matters involving acquisition and disposition of property; (g) matters relating to the appointment, employment, performance, compensation, or dismissal of officers and employees, excluding individual regents other than the president of the university; and (h) matters relating to complaints or charges brought against officers or employees of the university, excluding individual regents other than the president of the university unless such officer or employee requests a public hearing. There also may be excluded from any such public or closed meeting during the examination of a witness, any or all other witnesses in the matter being investigated.

(c) Notice of a meeting of a state agency which complies with subdivision (a) of Section 11125, shall also constitute notice of an advisory body of that state agency, provided that the business to be discussed by the advisory body is covered by the agenda of the meeting of the agency, provided the specific time and place of the advisory body's meeting is announced during the open and public state agency's meeting, and provided that the advisory body's meeting is conducted within a reasonable time of, and nearby, the meeting of the state agency.

(d) The provisions of subdivision (a) of Section 11125 which require a specific agenda, and the provisions of subdivision (c) of such section, shall not apply to a meeting of a body which is a state agency pursuant to this section. However, except as provided with respect to advisory bodies under subdivision (c) of this section, notice of a meeting of a state agency as defined by this section shall be required pursuant to subdivision (a) of Section 11125, and the notice shall include a brief, general description of the business to be discussed, and the name, address, and telephone number of a person who can provide further information prior to the meeting.

However, this section shall not include any writing exempt from public disclosure under Section 6253.5, 6254, or 6254.7.

(b) Writings which are public records under subdivision (a) and which are distributed prior to commencement of a public meeting shall be made available for public inspection upon request prior to

As a condition to holding a closed session on the complaints or charges to consider disciplinary action or to consider dismissal, such employee shall be given written notice of his or her right to have a public hearing rather than a closed session, which notice shall be delivered to the employee personally or by mail at least 24 hours before the time for holding a regular or special meeting. Prior to holding any closed session, the state agency shall state the general reason or reasons for the closed session, and cite the statutory or other legal authority under which the session is being held. In the closed session, the state agency may consider only those matters covered in its statement. The statement shall be made as part of the notice provided for the meeting. Nothing in this section shall require or authorize the giving of names or other information which would constitute an invasion of privacy or otherwise unnecessarily divulge the particular facts concerning the closed session.

SEC. 14. Section 11126.7 is added to the Government Code, to read:

11126.7. No fees may be charged by a state agency for carrying out any provision of this article, except as specifically authorized pursuant to this article.

SEC. 18. Section 54953.5 is added to the Government Code, to read:

54953.5. Any person attending an open and public meeting of a

legislative body of a local agency shall have the right to record the proceedings on a tape recorder in the absence of a reasonable finding of the legislative body of the local agency that such recording constitutes, or would constitute, a disruption of the proceedings.

SEC. 19. Section 54956 of the Government Code is amended to read:

54956. A special meeting may be called at any time by the presiding officer of the legislative body of a local agency, or by a majority of the members of the legislative body, by delivering personally or by mail written notice to each member of the legislative body and to each local newspaper of general circulation, radio or television station requesting notice in writing. Such notice shall be delivered personally or by mail and shall be received at least 24 hours before the time of such meeting as specified in the notice. The call and notice shall specify the time and place of the special meeting and the business to be transacted. No other business shall be considered at such meetings by the legislative body. Such written notice may be dispensed with as to any member who at or prior to the time the meeting convenes files with the clerk or secretary of the legislative body a written waiver of notice. Such waiver may be given by telegram. Such written notice may also be dispensed with as to any member who is actually present at the meeting at the time it convenes. Notice shall be required pursuant to this section regardless of whether any action is taken at the special meeting.

SEC. 20. Section 54956.6 is added to the Government Code, to read:

54956.6. No fees may be charged by the legislative body of a local agency for carrying out any provision of this chapter, except as specifically authorized by this chapter.

SEC. 21. Section 54957 of the Government Code is amended to read:

54957. Nothing contained in this chapter shall be construed to prevent the legislative body of a local agency from holding closed sessions with the Attorney General, district attorney, sheriff, or chief of police, or their respective deputies, on matters posing a threat to the security of public buildings or a threat to the public's right of access to public services or public facilities, or from holding closed sessions during a regular or special meeting to consider the appointment, employment, or dismissal of a public employee or to hear complaints or charges brought against such employee by another person or employee unless such employee requests a public hearing. The legislative body also may exclude from any such public or closed meeting, during the examination of a witness, any or all other witnesses in the matter being investigated by the legislative body.

For the purposes of this section, the term "employee" shall not include any person elected to office, or appointed to an office by the legislative body of a local agency; provided, however, that nonelective positions of city manager, county administrator, city

attorney, county counsel, or a department head or other similar administrative officer of a local agency shall be considered employee positions; and provided, further that nonelective positions of general manager, chief engineer, legal counsel, district secretary, auditor, assessor, treasurer, or tax collector of any governmental district supplying services within limited boundaries shall be deemed employee positions.

Nothing in this chapter shall be construed to prevent any board, commission, committee, or other body organized and operated by any private organization as defined in Section 54952 from holding closed sessions to consider (a) matters affecting the national security, or (b) the appointment, employment, or dismissal of an employee or to hear complaints or charges brought against such employee by another person or employee unless such employee requests a public hearing. Such body also may exclude from any such public or closed meeting, during the examination of a witness, any or all other witnesses in the matter being investigated by the legislative body.

SEC. 22. Section 54957.1 of the Government Code is amended to read:

54957.1. The legislative body of any local agency shall publicly report at the public meeting during which the closed session is held or at its next public meeting any action taken, and any roll call vote thereon, to appoint, employ, or dismiss a public employee arising out of any closed session of the legislative body.

SEC. 23. Section 54957.2 of the Government Code is amended to read:

54957.2. (a) The legislative body of a local agency may, by ordinance or resolution, designate a clerk or other officer or employee of the local agency who shall then attend each closed session of the legislative body and keep and enter in a minute book a record of topics discussed and decisions made at the meeting. The minute book made pursuant to this section is not a public record subject to inspection pursuant to the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1), and shall be kept confidential. The minute book shall be available only to members of the legislative body or, if a violation of this chapter is alleged to have occurred at a closed session, to a court of general jurisdiction wherein the local agency lies. Such minute book may, but need not, consist of a recording of the closed session.

(b) An elected legislative body of a local agency may require that each legislative body all of whose members are appointed by or under the authority of the elected legislative body keep a minute book as prescribed under subdivision (a).

SEC. 24. Section 54957.5 is added to the Government Code, to read:

54957.5. (a) Notwithstanding Section 6255 or any other provisions of law, agendas of public meetings and other writings, when distributed to all, or a majority of all, of the members of a

legislative body of a local agency by a member, officer, employee, or agent of such body for discussion or consideration at a public meeting of such body, are public records under the Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1) as soon as distributed, and shall be made available pursuant to Sections 6253 and 6256. However, this section shall not include any writing exempt from public disclosure under Section 6253.5, 6254, or 6254.7.

(b) Writings which are public records under subdivision (a) and which are distributed prior to commencement of a public meeting shall be made available for public inspection upon request prior to commencement of such meeting.

(c) Writings which are public records under subdivision (a) and which are distributed during a public meeting and prior to commencement of their discussion at such meeting shall be made available for public inspection prior to commencement of, and during, their discussion at such meeting.

(d) Writings which are public records under subdivision (a) and which are distributed during their discussion at a public meeting shall be made available for public inspection immediately or as soon thereafter as is practicable.

(e) Nothing in this section shall be construed to prevent the legislative body of a local agency from charging a fee or deposit for a copy of a public record pursuant to Section 6257. The writings described in subdivisions (b), (c), and (d) are subject to the requirements of the California Public Records Act (Chapter 3.5 (commencing with Section 6250), Division 7, Title 1), and subdivisions (b), (c), and (d) shall not be construed to exempt from public inspection any record covered by that act, or to limit the public's right to inspect any record required to be disclosed by that act. This section shall not apply to any writings properly discussed in a closed session of the legislative body of the local agency.

(f) "Writing" for purposes of this section means "writing" as defined under Section 6252.

SEC. 25. Section 54957.6 of the Government Code is amended to read:

54957.6. Notwithstanding any other provision of law, a legislative body of a local agency may hold closed sessions with its designated representatives prior to and during consultations and discussions with representatives of employee organizations regarding the salaries, salary schedules, or compensation paid in the form of fringe benefits of employees in order to review its position and instruct its designated representatives. For the purposes enumerated in the preceding sentence, a legislative body of a local agency may also meet with a state conciliator who has intervened in the proceedings.

SEC. 26. Section 54957.7 is added to the Government Code, to read:

54957.7. Prior to or after holding any closed session, the legislative body of the local agency shall state the general reason or reasons for

the closed session, and may cite the statutory or other legal authority under which the session is being held. In the closed session, the legislative body may consider only those matters covered in its statement. In the case of special, adjourned, and continued meetings, the statement shall be made as part of the notice provided for the special, adjourned, or continued meeting. Nothing in this section shall require or authorize the giving of names or other information which would constitute an invasion of privacy or otherwise unnecessarily divulge the particular facts concerning the closed session.

SEC. 27. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be because this act creates a new crime or infraction, changes the definition of a crime or infraction, or eliminates a crime or infraction. Furthermore, this act does not create any present or future obligation to reimburse any local agency or school district for any costs incurred because of this act.

SEC. 28. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because self-financing authority is provided in this act to cover costs that may be incurred in carrying on any program or performing any service required to be carried on or performed by this act.

SEC. 29. It is the intent of the Legislature, if this bill and Senate Bill 1383 are both chaptered and amend Section 11126 of the Government Code, and this bill is chaptered after Senate Bill 1383, that the amendments to Section 11126 proposed by both bills be given effect and incorporated in Section 11126 in the form set forth in Section 11 of this act. Therefore, Section 11 of this act shall become operative only if this bill and Senate Bill 1383 are both chaptered, both amend Section 11126, and Senate Bill 1383 is chaptered before this bill, in which case Section 10 of this act shall not become operative.

## CHAPTER 1285

An act to amend Sections 1265.2, 1504, 1509, 1513, 1520, 1520.5, 1522, 1525.5, 1536, 1541, 1550, 1554, and 1560 of, to add Section 1520.3 to, and to repeal Sections 1564, 1565, and 1567.3 of, the Health and Safety Code, and to add Sections 4510 and 4786 to the Welfare and Institutions Code, relating to community care facilities.

[Approved by Governor September 29, 1980 Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1265.2 of the Health and Safety Code, as added by Chapter 708 of the Statutes of 1980, is amended to read:

1265.2. A "crime," within the meaning of this chapter, means a violation of a law or regulation which is substantially related to the qualifications or duties of the applicant or licensee or which is substantially related to the functions of the business for which the license was, or is to be, issued.

A "conviction," within the meaning of this chapter, means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the state department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to the provisions of Section 1203.4 of the Penal Code permitting such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

Evidence of conviction of a misdemeanor following a plea of nolo contendere pursuant to the provisions of Section 1290 shall not be admissible in any hearing conducted under Section 1269 or 1295.

No application for licensure shall be denied nor shall a license be suspended or revoked solely on the basis of the conviction of a crime if the director determines that the person has been rehabilitated in accordance with standards for rehabilitation developed by the director. The director shall take into account all competent evidence of rehabilitation furnished by the applicant or licensee.

SEC. 1.5. Section 1504 of the Health and Safety Code is amended to read:

1504. As used in this chapter, "special permit" means a permit issued by the state department authorizing a community care facility to offer specialized services as designated by the director in regulations.

A special permit shall not be transferable.

SEC. 2. Section 1509 of the Health and Safety Code is amended to read:

1509. The state department shall inspect and license community care facilities, except as otherwise provided in Section 1508. The state department shall inspect and issue a special permit to a community care facility to provide specialized services.

SEC. 3. Section 1513 of the Health and Safety Code is amended to read:

1513. No license or special permit issued pursuant to the provisions of this chapter shall have any property value for sale or exchange purposes and no person, including any owner, agent, or broker, shall sell or exchange any license or special permit for any commercial purpose.

SEC. 4. Section 1520 of the Health and Safety Code is amended to read:

1520. Any person desiring issuance or renewal of a license for a community care facility or a special permit for specialized services under the provisions of this chapter shall file with the state department, pursuant to regulations, an application on forms furnished by the state department, which shall include, but not be limited to:

(a) Evidence satisfactory to the state department of the ability of the applicant to comply with the provisions of this chapter and of rules and regulations promulgated under this chapter by the state department. Where there is an application for renewal of a license, evidence satisfactory to the department that the licensee has substantially complied for the term of the previous license with the provisions of this chapter, and with the rules and regulations promulgated pursuant to this chapter.

(b) Evidence satisfactory to the state department that the applicant is of reputable and responsible character. Such evidence shall include, but not be limited to, a criminal record clearance pursuant to Section 1522, employment history, and character references. If the applicant is a firm, association, organization, partnership, business trust, corporation, or company, like evidence shall be submitted as to the members or shareholders thereof, and the person in charge of the community care facility for which application for issuance or renewal of license or special permit is made.

(c) Evidence satisfactory to the state department that the applicant has sufficient financial resources to maintain the standards of service required by regulations adopted pursuant to this chapter. Day care facilities for children shall only be required to provide such information upon initial application for licensure, and when requested by the department, in writing, explaining the need for such evidence as part of the department's investigative function.

(d) Disclosure of the applicant's prior or present service as an administrator, general partner, corporate officer or director of, or as a person who has held or holds a beneficial ownership of 10 percent or more in, any community care facility or in any facility licensed pursuant to Chapter 1 (commencing with Section 1200) or Chapter 2 (commencing with Section 1250).

(e) Disclosure of any revocation or other disciplinary action taken, or in the process of being taken, against a license held or previously held by the entities specified in subdivision (c).

(f) Such other information as may be required by the state department for the proper administration and enforcement of this chapter.

(g) In implementing this section, the state department shall give due consideration to the functions of each separate licensing category.

SEC. 5. Section 1520.3 is added to the Health and Safety Code, to

read:

1520.3. If an application for a license or special permit indicates, or the state department determines during the application review process, that the applicant previously was issued a license under this chapter or under Chapter 1 (commencing with Section 1200) or Chapter 2 (commencing with Section 1250) and such prior license was revoked within the preceding two years, the state department shall cease any further review of the application until two years shall have elapsed from the date of such revocation. Such cessation of review shall not constitute a denial of the application for purposes of Section 1526 or any other provision of law.

SEC. 6. Section 1520.5 of the Health and Safety Code is amended to read:

1520.5. (a) The Legislature hereby declares it to be the policy of the state to prevent overconcentrations of residential care facilities which impair the integrity of residential neighborhoods. Therefore, the director shall deny an application for a new residential care facility license if the director determines that the location is in such proximity to an existing residential care facility as would result in overconcentration.

(b) As used in this section, "overconcentration" means that if a new license is issued, there will be residential care facilities which are separated by a distance of 300 feet or less, as measured from any point upon the outside walls of the structures housing such facilities. Based on special local needs and conditions, the director may approve a separation distance of less than 300 feet with the approval of the city or county in which the proposed facility will be located.

(c) At least 45 days prior to approving any application for a new residential care facility, the director, or county licensing agency, shall notify, in writing, the city or county planning authority in which the facility will be located, of the proposed location of the facility.

(d) Any city or county may request denial of the license applied for on the basis of overconcentration of residential care facilities.

(e) Nothing in this section authorizes the director, on the basis of overconcentration, to refuse to renew a residential care facility license or to refuse to grant a license upon a change of ownership of an existing residential care facility where there is no change in the location of the facility.

(f) Foster family homes and residential care facilities for the elderly shall not be considered in determining overconcentration of residential care facilities, and license applications for such facilities shall not be denied upon the basis of overconcentration.

SEC. 7. Section 1522 of the Health and Safety Code is amended to read:

1522. (a) Before issuing a license or special permit to any person or persons to operate or manage a community care facility, the state department shall secure from an appropriate law enforcement agency a criminal record to determine whether the applicant or any other person specified in subdivision (b) has ever been convicted of

a crime other than a minor traffic violation. No fee shall be charged by the Department of Justice or the state department for the fingerprinting of an applicant for a license or special permit to operate a facility providing nonmedical board, room, and care for six or less children or for obtaining a criminal record of such an applicant pursuant to this section. If it is found that the applicant or any other person specified in subdivision (b) has been convicted of a crime, other than a minor traffic violation, the application shall be denied, unless the director grants an exemption pursuant to subdivision (d).

(b) In addition to the applicant, the provisions of this section shall be applicable to criminal convictions of the following persons:

(1) The facility administrator or manager.

(2) Any person residing or regularly in the facility having routine contact with the residents.

(3) If the applicant is a firm, partnership, association, or corporation, any officer, director, or shareholder with a beneficial ownership interest in the applicant exceeding 10 percent.

(4) Additional officers of the governing body of the applicant, or other persons with a financial interest in the applicant, as determined necessary by the department by regulation. The criteria used in the development of these regulations shall be based on the person's capability to exercise substantial influence over the operation of the facility.

(c) For purposes of this section or any other provision of this chapter, a conviction means a plea or verdict of guilty or a conviction following a plea of nolo contendere. Any action which the state department is permitted to take following the establishment of a conviction may be taken when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, notwithstanding a subsequent order pursuant to the provisions of Sections 1203.4 and 1203.4a of the Penal Code permitting such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment. For purposes of this section or any other provision of this chapter, the record of a conviction, or a copy thereof certified by the clerk of the court or by a judge of the court in which the conviction occurred, shall be conclusive evidence of the conviction.

(d) After review of the record, the director may grant an exemption from disqualification for a license or special permit pursuant to subdivision (a), if the director has substantial and convincing evidence to support a reasonable belief that the applicant and the person convicted of the crime, if other than the applicant, are of such good character as to justify issuance of the license or special permit.

SEC. 8. Section 1525.5 of the Health and Safety Code is amended to read:

1525.5. The director may issue provisional licenses to operate

community care facilities for facilities which the director determines are in substantial compliance with the provisions of this chapter and the rules and regulations adopted pursuant thereto, provided, that no life safety risks are involved, as determined by the director. In determining whether any life safety risks are involved, the director shall require completion of all applicable fire clearances and criminal record clearances as otherwise required by the department's rules and regulations. Such a provisional license shall expire six months from the date of issuance, or at such earlier time as the director may determine, and may not be renewed. However, the director may extend the term of a provisional license for an additional six months at time of application, if it is determined that more than six months will be required to achieve full compliance with licensing standards due to circumstances beyond the control of the applicant, provided all other requirements for a license have been met.

SEC. 9. Section 1536 of the Health and Safety Code is amended to read:

1536. At least annually, the director shall publish and make available to interested persons a list or lists covering all licensed community care facilities, other than foster family homes providing 24-hour care for six or fewer foster children and family day care homes, the services for which each such facility has been licensed or issued a special permit, and the evaluation rating of each such community care facility, as determined pursuant to Section 1535. A list or lists containing changes in facility ratings shall be published and made available periodically as determined by the director.

As used in this section, "family day care home" means a facility licensed to regularly provide care, protection, and supervision to six or fewer children in the caregiver's own home, exclusive of children who reside at the home, for periods of less than 24 hours per day, while the parents or guardians are away.

SEC. 10. Section 1541 of the Health and Safety Code is amended to read:

1541. The director may bring an action to enjoin the violation or threatened violation of Section 1508 in the superior court in and for the county in which the violation occurred or is about to occur. Any proceeding under the provisions of this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the director shall not be required to allege facts necessary to show or tending to show lack of adequate remedy at law or irreparable damage or loss. Upon a finding by the director that such violations threaten the health or safety of persons in, or served by, a community care facility, the agency contracted with pursuant to Section 1511 may bring an action to enjoin the violation, threatened violation, or continued violation by any community care facility which is located in an area for which it is responsible pursuant to the terms of the contract.

With respect to any and all actions brought pursuant to this section alleging actual violation of Section 1508, the court shall, if it finds such

allegations to be true, issue its order enjoining the community care facility from continuance of the violation.

SEC. 10.5. Section 1550 of the Health and Safety Code, as amended by Chapter 708 of the Statutes of 1980, is amended to read:

1550. The state department may suspend or revoke any license, registration, or special permit issued under the provisions of this chapter upon any of the following grounds and in the manner provided in this chapter:

(a) Violation by the licensee, registrant, or holder of a special permit of any of the provisions of this chapter or of the rules and regulations promulgated under this chapter.

(b) Aiding, abetting, or permitting the violation of any provision of this chapter or of the rules and regulations promulgated under this chapter.

(c) Conduct in the operation or maintenance, or both the operation and maintenance, of a community care facility which is inimical to the health, morals, welfare, or safety of either an individual in or receiving services from the facility or the people of the State of California.

(d) The conviction of a licensee, or other person mentioned in Section 1522, at any time during licensure, of a crime as defined in Section 1522.

The director may temporarily suspend any license, registration, or special permit, prior to any hearing when, in the opinion of the director, such action is necessary to protect residents or clients of the facility from physical or mental abuse, abandonment, or any other substantial threat to health or safety. The director shall notify the licensee, registrant, or holder of the special permit of the temporary suspension and the effective date thereof and at the same time shall serve such provider with an accusation. Upon receipt of a notice of defense to the accusation by the licensee, registrant, or holder of the special permit, the director shall, within 15 days, set the matter for hearing, and the hearing shall be held as soon as possible but not later than 30 days after receipt of such notice. The temporary suspension shall remain in effect until such time as the hearing is completed and the director has made a final determination on the merits. However, the temporary suspension shall be deemed vacated if the director fails to make a final determination on the merits within 30 days after the original hearing has been completed.

SEC. 11. Section 1554 of the Health and Safety Code is amended to read:

1554. Any license, registration, or special permit suspended pursuant to this chapter, and any special permit revoked pursuant to this chapter, may be reinstated pursuant to the provisions of Section 11522 of the Government Code.

SEC. 12. Section 1560 of the Health and Safety Code is amended to read:

1560. The director shall require as a condition precedent to the issuance, or renewal, of any license or special permit for a community

care facility, if the licensee or holder of a special permit handles or will handle any money of a person within the community care facility, that the applicant for the license or special permit or the renewal of the license or special permit file or have on file with the state department a bond issued by a surety company admitted to do business in this state in a sum to be fixed by the state department based upon the magnitude of the operations of the applicant, but which sum shall not be less than one thousand dollars (\$1,000), running to the State of California and conditioned upon his or her faithful and honest handling of the money of persons within the facility.

Every person injured as a result of any improper or unlawful handling of the money of a person of a community care facility may bring an action in a proper court on the bond required to be posted by the licensee pursuant to this section for the amount of damage he or she suffered as a result thereof to the extent covered by the bond.

Whenever the state department determines that the amount of any bond which is filed pursuant to this section is insufficient to adequately protect the money of persons which is being handled, or whenever the amount of any such bond is impaired by any recovery against the bond, the state department may require the licensee to file an additional bond in such amount as necessary to adequately protect the money of persons which is being handled.

The failure of any licensee under this chapter to maintain on file with the state department a bond in the amount prescribed by the director or who embezzles the trust funds of a person in the facility shall constitute cause for the revocation of the license.

The provisions of this section shall not apply if the licensee meets both of the following requirements:

(a) The licensee operates a community care facility which is licensed to care for children including, but not limited to, a family day care home or foster family home.

(b) The licensee handles moneys of persons within the community care facility in amounts less than fifty dollars (\$50) per person and less than five hundred dollars (\$500) for all persons in any month.

SEC. 13. Section 1564 of the Health and Safety Code is repealed.

SEC. 14. Section 1565 of the Health and Safety Code is repealed.

SEC. 15. Section 1567.3 of the Health and Safety Code is repealed.

SEC. 16. Section 4510 is added to the Welfare and Institutions Code, to read:

4510. The State Department of Developmental Services and the State Department of Mental Health shall jointly develop and implement a statewide program for encouraging the establishment of sufficient numbers and types of living arrangements, both in communities and state hospitals, as necessary to meet the needs of persons served by those departments. The departments shall consult with the following organizations in the development of procedures pursuant to this section:

(1) The League of California Cities, the County Supervisors Association of California, and representatives of other local agencies.

(2) Organizations or advocates for clients receiving services in residential care services.

(3) Providers of residential care services.

Each department shall also prepare and transmit to the Legislature on or before March 31 of each year, commencing in 1981, an annual report detailing obstacles to assuring sufficient numbers of living arrangements for persons served by each department, detailing obstacles to providing an adequate quality of care and services to persons served by each department who reside in residential facilities, and containing appropriate recommendations for legislative action.

SEC. 17. Section 4786 is added to the Welfare and Institutions Code, to read:

4786. The director shall develop, establish, and maintain an equitable system of rates of state payment for care and services purchased by the department from community care facilities. Such rate system shall be flexible and reflect the differing costs associated with the differing types and levels of care and services provided.

## CHAPTER 1286

An act to add Section 24407 to, and to add and repeal Section 23413 of, the Education Code, relating to public retirement systems, and making an appropriation therefor.

[Approved by Governor September 29, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 23413 is added to the Education Code, to read:

23413. Effective January 1, 1981, the school districts and other employing agencies in the state, in addition to all other contributions required by this chapter, on account of liability for benefits pursuant to Section 24407, shall contribute monthly to the Teachers' Retirement Fund 0.108 percent of the total of the salaries upon which members' contributions are based.

This section shall remain in effect only until January 1, 1997, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1997, deletes or extends such date.

SEC. 2. Section 24407 is added to the Education Code, to read:

24407. The minimum unmodified allowance, exclusive of annuities from accumulated annuity deposit and tax-sheltered contributions, of a person retired prior to January 1, 1981, after the increase provided by Section 24406, shall be an amount equal to at

least sixteen dollars (\$16) per month multiplied by the years of credited service. This guaranteed amount is increased as of October 1, 1980, and shall be reduced by the amount of an unmodified allowance payable from a local system based on service credited by this system. If the retirement was effective at less than age 60, this allowance shall be reduced by one-half of 1 percent for each full month or fraction of a month which would have elapsed until the retirant would have reached age 60. If the retirant elected to have his or her allowance modified under option 2 or 3, the increase in the retirant's allowance shall be modified under the option selected.

The board may make lump sum payments for increases between October 1, 1980, and January 1, 1981.

SEC. 3. The sum of two million seven hundred thousand dollars (\$2,700,000) is hereby appropriated from the General Fund to the Controller for allocation and disbursement to local agencies and school districts pursuant to Section 2231 of the Revenue and Taxation Code to reimburse them for costs mandated by the state and incurred by them pursuant to this act.

[Approved by Governor September 29, 1980. Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4247 of the Education Code is amended to read:

4247. Any elections required to carry out the proposals of a master plan or alterations of the master plan shall be called by the county superintendent of schools of the county in which all or the greater portion of the area is situated at the time recommended by the county committee but shall be held within two years after the date upon which the State Board of Education notifies the county superintendent of its approval.

SEC. 2. Section 4402 of the Education Code is amended to read:

4402. Except as otherwise provided in Section 4375, the county superintendent of schools shall call, in the manner prescribed in Part 4 (commencing with Section 5000), a special election in the

elementary school district or unified school district, or districts included in whole or in part in the plans and recommendations of the county committee or committees for the formation of a unified school district for the purpose of adopting or rejecting the plans and recommendations.

SEC. 2.5. Section 5019 of the Education Code is amended to read:

5019. Except in a school district governed by a board of education provided for in the charter of a city or city and county, in any school district or community college district the county committee on school district organization shall have the power to establish trustee areas, rearrange the boundaries of trustee areas, abolish trustee areas, and increase to seven or decrease to five the number of members of the governing board, or to adopt one of the alternative methods of electing governing board members specified in Section 5030.

Any such proposal may be initiated by the county committee or made to the county committee by a petition signed by at least 2 percent or 50, whichever is the lesser, of the qualified electors residing in the district, or by resolution of the governing board of the district.

When any such proposal is made, the county committee shall call and conduct at least one hearing in the district on the matter. At the conclusion of the hearing, the county committee shall approve or disapprove the proposal.

If the county committee approves the rearrangement of the boundaries of trustee areas for a particular district, the rearrangement of the trustee areas shall be effectuated for the next district election occurring at least 120 days after its approval, unless at least 5 percent of the registered voters of the district sign a petition requesting an election on the proposed rearrangement of trustee area boundaries. Such a petition for an election shall be submitted to the elections official within 60 days of the proposal's adoption by the county committee.

SEC. 3. Section 5020 of the Education Code is amended to read:

5020. The resolution of the county committee approving a proposal to establish or abolish trustee areas or to increase or decrease the number of members of the governing board shall constitute an order of election, and the proposal shall be presented to the electors of the district not later than the next succeeding election for members of the governing board. If a petition requesting an election on a proposal to rearrange trustee area boundaries is filed, containing at least 5 percent of the signatures of the district's registered voters as determined by the elections official, the proposal shall be presented to the electors of the district, not later than the next succeeding election for the members of the governing board; provided, however, that there is sufficient time to place the issue on the ballot. For each proposal there shall be a separate proposition on the ballot. The ballot shall contain the following words:

"For the establishment (or abolition or rearrangement) of trustee

areas in \_\_\_\_\_ (insert name) School District—Yes” and “For the establishment (or abolition or rearrangement) of trustee areas in \_\_\_\_\_ (insert name) School District—No.”

“For increasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from five to seven—Yes” and “For increasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from five to seven—No.”

“For decreasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from seven to five—Yes” and “For decreasing the number of members of the governing board of \_\_\_\_\_ (insert name) School District from seven to five—No.”

If more than one proposal appears on the ballot, all must carry in order for any to become effective.

SEC. 4. Section 5021 of the Education Code is amended to read:

5021. (a) If a proposal for the establishment of trustee areas formulated under Sections 5019 and 5020 is approved by a majority of the voters voting at the election, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030. In the event two or more trustee areas are established at such election which are not represented in the membership of the governing board of the school district, or community college district the county committee shall determine by lot the trustee area from which the nomination and election for the next vacancy on the governing board shall be made.

(b) If a proposal for rearrangement of boundaries is approved by a majority of the voters voting on the measure, or by the county committee on school district organization when no election is required, and if the boundary changes affect the board membership, any affected incumbent board member shall serve out his or her term of office and succeeding board members shall be nominated and elected in accordance with Section 5030.

(c) If a proposal for abolishing trustee areas is approved by a majority of the voters voting at the election, the incumbent board members shall serve out their terms of office and succeeding board members shall be nominated and elected at large from the district.

SEC. 5. Section 75 of the Elections Code is amended to read:

75. Unless otherwise specifically provided, no person is eligible to be elected or appointed to an elective office unless that person is a registered voter and otherwise qualified to vote for that office at the time that nomination papers are issued to the person or at the time of the person's appointment.

SEC. 6. Section 318 of the Elections Code is amended to read:

318. No fees may be charged for registration.

SEC. 7. Section 512 of the Elections Code is amended to read:

512. Upon the personal or written application of any person, the county clerk shall, at a fee not to exceed one dollar and fifty cents (\$1.50), provide the applicant with a certified copy of the entries upon the register relating to the applicant.

A certified copy of an uncanceled affidavit of registration is prima facie evidence that the person named in the entry is a voter of the county.

SEC. 7.5. Section 1007 of the Elections Code is amended to read:

1007. (a) Upon receipt of any absentee ballot application which arrives within the proper time the elections official should determine if the signature and residence address on the ballot application appear to be the same as that on the original affidavit of registration. The official may make this signature check upon receiving the voted ballot, but the signature must be compared before the absent voter ballot is canvassed.

(b) If the official deems the applicant entitled to an absent voter's ballot he shall deliver by mail or in person the appropriate ballot.

(c) If the official determines that an application does not contain all of the information prescribed in Section 1002 or 1006, or for any other reason is defective, and the election official is able to ascertain the voter's address, the official shall, within one working day of receiving the application, mail the voter an absent voter's ballot together with a notice. The notice shall inform the voter that the voter's absent voter's ballot shall not be counted unless the applicant provides the official with the missing information or corrects the defects prior to, or at the time of, receipt of the voter's executed absent voter's ballot. The notice shall specifically inform the voter of the information that is required or the reason for the defects in the application, and shall state the procedure necessary to remedy the defective application.

If the voter substantially complies with the requirements contained in the official's notice, the voter's ballot shall be counted.

SEC. 8. Section 1017 of the Elections Code is amended to read:

1017. After the close of the period for requesting absent voter ballots by mail any voter unable to go to the polls because of illness or disability resulting in his or her confinement in a hospital, sanatorium, nursing home, or place of residence, or any voter unable because of a physical handicap to go to his or her polling place or because of such handicap is unable to vote at his or her polling place due to existing architectural barriers at his or her polling place denying him or her physical access to the polling place, voting booth, or voting apparatus or machinery, or any voter unable to go to his or her polling place because of conditions resulting in his or her absence from the precinct on election day may request in a written statement, signed under penalty of perjury that a ballot be delivered to him or her. This ballot shall be delivered by the elections official to any authorized representative of the voter who presents this written statement to the official.

Before delivering the ballot the official shall compare the signature on the request with the signature on the voter's affidavit of registration.

The voter shall mark the ballot, place it in the identification envelope, fill out and sign the envelope and return the ballot,

personally or through the authorized representative, to either the elections official or any polling place within the jurisdiction.

These ballots shall be processed and counted in the same manner as other absentee ballots.

SEC. 9. Section 1340 of the Elections Code is amended to read:

1340. Any local, special, or consolidated election may be conducted wholly by mail provided that:

(a) The governing body of the local agency authorizes the use of mailed ballots for the election; and

(b) The election does not occur on the same date as a statewide direct primary election or statewide general election; and

(c) The election is one of the following:

(1) An election in which no more than 300 registered voters are eligible to participate;

(2) A maximum property tax rate election as provided for in Section 2287 of the Revenue and Taxation Code;

(3) An election on a measure or measures restricted to the imposition of special taxes in a city, county, or special district with 5,000 or less registered voters calculated as of the time of the last report of registration by the county clerk to the Secretary of State;

(4) An election on the issuance of a general obligation water bond in accordance with Section 12944.5 of the Water Code; or

(5) An election of the Directors of the Monterey Peninsula Water Management District as authorized in Section 122 of Chapter 527 of the Statutes of 1977, known as the Monterey Peninsula Water Management District Law.

SEC. 10. Section 1508.5 of the Elections Code is amended to read:

1508.5. At any election to fill a vacancy in the office of State Senator, Member of the Assembly, or Representative in Congress in a county which has not adopted a voting system, as defined in Section 15009, for use in statewide elections, there shall not be more than three precincts consolidated and they shall be formed to contain not more than 600 voters. However, in no event may a consolidated precinct in such election exceed 1,000 voters.

SEC. 11. Section 1515 of the Elections Code is amended to read:

1515. If the affidavit of registration of a voter is erroneously placed in a precinct, the voter may apply to the county clerk for a certificate showing the record of registration. The county clerk shall give the voter the certificate on or before election day. Upon presentation of this certificate to the precinct board of the proper precinct, the board shall permit the voter to vote. If the voter does not obtain the certificate provided for in this section and votes in the precinct into which the affidavit of registration has been erroneously placed by the county clerk and the election is contested, the voter's ballot shall not be rejected.

No voter who receives a certificate of registration under this section shall be charged a fee by the county clerk.

SEC. 11.3. Section 3520 of the Elections Code is amended to read:

3520. (a) Each section of the petition shall be filed with the clerk

or registrar of voters of the county or city and county in which it was circulated but all sections circulated in any county or city and county shall be filed at the same time.

(b) Within five days, excluding Saturdays, Sundays, and holidays, after the filing of such petition the clerk or registrar of voters shall determine the total number of signatures affixed to the petition and shall transmit such information to the Secretary of State. If the total number of signatures filed with all county clerks is less than 100 percent of the number of qualified voters required to find the petition sufficient, the Secretary of State shall so notify the proponents and the county clerks and no further action shall be taken in regard to the petition.

(c) If the number of signatures filed with all county clerks is 100 percent or more of the number of qualified voters needed to declare the petition sufficient, the Secretary of State shall immediately so notify the county clerks.

(d) Within 15 days after such notification, the clerk or registrar of voters shall determine the number of qualified voters who have signed the petition. If more than 500 names have been signed on sections of the petition filed with a county clerk, the clerk shall use a random sampling technique for verification of signatures, as determined by the Secretary of State. The random sample of signatures to be verified shall be drawn in such a manner that every signature filed with the county clerk shall be given an equal opportunity to be included in the sample. Such a random sampling shall include an examination of at least 500 or 5 percent of the signatures, whichever is greater. In determining from the records of registration what number of qualified voters have signed the petition, the clerk or registrar of voters may use the duplicate file of affidavits of registered voters or the facsimiles of voter's signatures, provided that the method of preparing and displaying the facsimiles complies with law.

(e) The clerk or registrar, upon the completion of the examination, shall immediately attach to the petition, except the signatures thereto appended, a certificate properly dated, showing the result of such examination and shall immediately transmit the petition, together with the certificate, to the Secretary of State. A copy of this certificate shall be filed in the clerk's office.

(f) If the certificates received from all county clerks by the Secretary of State establish that the number of valid signatures does not equal 90 percent of the number of qualified voters needed to find the petition sufficient, the petition shall be deemed to have failed to qualify, and the Secretary of State shall immediately so notify the proponents and the county clerks.

(g) If the certificates received from all county clerks by the Secretary of State total more than 110 percent of the number of qualified voters needed to find the petition sufficient, the petition shall be deemed to qualify as of the date of receipt by the Secretary of State of certificates showing the petition to have reached such 110

percent, and the Secretary of State shall immediately so notify the proponents and the county clerks.

SEC. 11.4. Section 3521 of the Elections Code is amended to read:

3521. (a) If the statistical sampling shows that the number of valid signatures is within 90 to 110 percent of the number of signatures of qualified voters needed to declare the petition sufficient, the Secretary of State shall order the examination and verification of each signature filed and shall so notify the county clerks.

(b) Within 30 days after receipt of such order, the clerk or registrar of voters shall determine from the records of registration what number of qualified voters have signed the petition and if necessary the board of supervisors shall allow the clerk or registrar additional assistance for the purpose of examining the petition and provide for their compensation. In determining from the records of registration what number of qualified voters have signed the petition, the clerk or registrar of voters may use any file or list of registered voters maintained by his office or the facsimiles of voters' signatures, provided that the method of preparing and displaying the facsimiles complies with law.

(c) The clerk or registrar, upon the completion of the examination, shall immediately attach to the petition, except the signatures thereto appended, an amended certificate properly dated, showing the result of the examination and shall immediately transmit the petition, together with the amended certificate, to the Secretary of State. A copy of the amended certificate shall be filed in the clerk's office.

(d) If the amended certificates establish that the petition is sufficient, the petition shall be deemed to be filed as of the date of receipt by the Secretary of State of certificates showing the petition to be signed by the requisite number of voters of the state.

If the amended certificates received from all county clerks by the Secretary of State establish that the petition has still been found insufficient, the Secretary of State shall immediately so notify the proponents and the county clerks.

SEC. 11.5. Section 4011 of the Elections Code is amended to read:

4011. If the initiative petition is signed by not less than 10 percent of the voters of the city according to the county clerk's official report of registration to the Secretary of State effective at the time the notice specified in Section 4002 was published, or in a city with 1,000 or less registered voters by the signatures of 25 percent of the voters or 100 voters of said city, whichever is the lesser number, and the ordinance petitioned for is not required to be, or for any reason is not, submitted to the voters at a special election, and is not passed without change by the legislative body, then the ordinance, without alteration, shall be submitted by the legislative body to the voters at the next regular municipal election occurring not less than 75 days nor more than 89 days after the order of the legislative body.

SEC. 11.7. Section 4055 of the Elections Code is amended to read:

4055. If the legislative body does not entirely repeal the ordinance against which the petition is filed, the legislative body shall submit the ordinance to the voters, either at a regular municipal election occurring not less than 75 days nor more than 89 days after the order of the legislative body or at a special election called for the purpose and held not less than 74 nor more than 89 days after the date of the order. The ordinance shall not become effective until a majority of the voters voting on the ordinance vote in favor of it. If the legislative body repeals the ordinance or submits the ordinance to the voters and a majority of the voters voting on the ordinance do not vote in favor of it, the ordinance shall not again be enacted by the legislative body for a period of one year after the date of its repeal by the legislative body or disapproval by the voters.

SEC. 11.8. Section 5353 of the Elections Code is amended to read:

5353. (a) Each city, county, school district, community college district, county board of education, and special district may hold, at its discretion, an advisory election in consolidation with any regular election or special election for the purpose of allowing voters within the respective jurisdiction, or a portion thereof, to voice their opinion on substantive issues or to indicate to the local legislative body approval or disapproval of the ballot proposal.

(b) An advisory vote will be indicated as such on the ballot as a heading above the ballot proposal and by only the following description: "Advisory Vote Only."

(c) As used in this section, "advisory vote" means an indication of general voter opinion regarding the ballot proposal. The results of the advisory vote will in no manner be controlling on the sponsoring legislative body.

(d) An advisory election may be held in territory outside of the jurisdiction of the local entity calling the advisory election if the ballot proposal affects the residents of such territory. The sponsoring legislative body shall determine the territory in which the advisory election shall be held. However, the conduct of an advisory election in such territory shall only be held if a regular election or special election is to be held in such territory and the advisory election can be consolidated with it.

(e) An advisory election shall not be permitted to be consolidated with an election if the ballot's capacity will be exceeded because of the addition of the advisory election.

SEC. 12. Section 6460 of the Elections Code is amended to read:

6460. A statement of the number of voters in his county at the close of registration on the 19th day prior to the transmission of such statement shall be transmitted to the Secretary of State by each county clerk at the following times:

(a) On the 135th day before each presidential primary and before each statewide primary election.

(b) On the 10th day before each statewide election.

The statement shall show the total number of voters in the county, the number registered as affiliated with each political party, political

body, and the number who declined to state a party affiliation.

The statement shall also show the number of voters, by party affiliations, in each city, Assembly district, senatorial district, supervisorial district, and congressional district located in whole or in part within the county.

The Secretary of State, on the basis of the statements transmitted by the county clerks pursuant to subdivision (a), and within 30 days after receiving such statements, shall compile a statewide list showing the number of voters, by party affiliations, in the state and in each county, city, Assembly district, senatorial district, congressional district, and supervisorial district in the state. A copy of this list shall be made available, upon request, to any elector of this state.

The Secretary of State, on the basis of the statements transmitted by the county clerks pursuant to subdivision (b), shall, within 180 days of receiving such statements, compile the data into statewide form showing the number of voters, by party affiliations, in the state and in each county, city, Assembly district, senatorial district, congressional district, and supervisorial district in the state. This statewide data may be reported in the Secretary of State's statement of the vote as set forth in Chapter 11 (commencing with Section 17120) of Division 12. A copy of the compiled data shall be made available, upon request, to any elector of this state.

SEC. 13. Section 6509 of the Elections Code is repealed.

SEC. 14. Section 10211 of the Elections Code is amended to read:

10211. (a) With the exception of candidates for Justice of the State Supreme Court or court of appeal, immediately under the name of each candidate, and not separated from the name by any line, may appear at the option of the candidate only one of the following designations:

(1) Words designating the elective city, county, district, state, or federal office which the candidate holds at the time of filing the nomination papers to which he or she was elected by vote of the people, or to which he or she was appointed, in the case of a superior, municipal, or justice court judge.

(2) The word "incumbent" if the candidate is a candidate for the same office which he or she holds at the time of filing the nomination papers, and was elected to that office by a vote of the people, or, in the case of a superior, municipal, or justice court judge, was appointed to that office.

(3) No more than three words designating the principal professions, vocations, or occupations of the candidate. For purposes of this section, all California geographical names shall be considered to be one word.

(4) The phrase "appointed incumbent" if the candidate holds an office other than a judicial office by virtue of appointment, and the candidate is a candidate for election to the same office, or, if the candidate is a candidate for election to the same office or to some other office, the word "appointed" and the title of the office. In

either instance, the candidate may not use the unmodified word "incumbent" or any words designating the office unmodified by the word "appointed." However, the phrase "appointed incumbent" shall not be required of a candidate who seeks reelection to an office which he or she holds and to which he or she was appointed, as a nominated candidate, in lieu of an election, pursuant to Sections 5326, 5327, and 5328 of the Education Code or Section 8873, 9373, 9723, 22844, or 23520 of the Elections Code.

(b) Neither the Secretary of State nor any other election official shall accept a designation which:

- (1) Would mislead the voter.
- (2) Would suggest an evaluation of a candidate, such as outstanding, leading, expert, virtuous, or eminent.
- (3) Abbreviates the word "retired" or places it following any word or words which it modifies.
- (4) Uses a word or prefix, such as "former" or "ex-," which means a prior status. The only exception is the use of the word "retired."
- (5) Uses the name of any political party, whether or not it has qualified for the ballot.
- (6) Uses a word or words referring to a racial, religious, or ethnic group.
- (7) Refers to any activity, which activity is prohibited by law.

If upon checking the nomination papers the election official finds the designation to be in violation of any of the restrictions set forth in this subdivision, the election official shall notify the candidate by registered mail return receipt requested. The candidate shall, within three days from the date of receipt of the notice, appear before the election officer or, in the case of the Secretary of State, notify the Secretary of State by telephone, and provide an alternate designation. In the event the candidate fails to provide an alternate designation, no designation shall appear after the candidate's name.

(c) The designation shall remain the same for all purposes of both primary and general elections unless the candidate, at least 70 days prior to the general election requests in writing a different designation which the candidate is entitled to use at the time of the request.

(d) In all cases words so used shall be printed in eight-point roman uppercase and lowercase type except that if the designation selected is so long that it would conflict with the space requirements of Sections 10207 and 10221, the election official shall use a type size for the designation for each candidate for that office sufficiently smaller to meet these requirements.

(e) Whenever a foreign language translation of a candidate's designation is required under the Voting Rights Act of 1965, as amended by Public Law 94-73, to appear on the ballot in addition to the English language version, it shall be as short as possible, as consistent as is practicable with the provisions of this section, and shall employ abbreviations and initials wherever possible in order to avoid undue length.

SEC. 15. Section 14213 of the Elections Code is amended to read: 14213. If the surname of any person offering to vote has been changed since the person has registered, such person shall sign his or her name as it was before the change and also the appropriate name as it is at the time the person votes, indicating on the roster on the same line by brackets or other means that the two names are the name of one person.

SEC. 16. Section 35006 of the Elections Code is amended to read: 35006. The term of office of any supervisor who has been elected and whose term of office has not expired shall not be affected by any change in the boundaries of the district from which he or she was elected.

At the first election for county supervisors in each county following adjustment of the boundaries of supervisorial districts, a supervisor shall be elected for each district under the readjusted district plan that has the same district number as a district whose incumbent's term is due to expire.

A change in the boundaries of a supervisorial district shall not be made within 45 days before the first day for circulating nomination papers for an election of supervisors in the county or between the direct primary election and the general election.

SEC. 17. Section 24001 of the Government Code is amended to read:

However, if a duly qualified health officer is not available within a county or district, then it shall not be necessary that any person appointed to any such position be a citizen of the state or an elector of the county or district at the time of his appointment.

SEC. 18. Section 24001 of the Government Code is amended to read:

24001. Except as otherwise provided in Sections 27550.1 and 27641.1 of this code or in this section, or in Section 21123 or 34711 of the Water Code, or in any landowner voting district, as defined in subdivision (m) of Section 23503 of the Elections Code, a person is not eligible to a county or district office, unless he or she is a registered voter of the county or district in which the duties of the office are to be exercised at the time that nomination papers are issued to the person or at the time of the person's appointment. However, if a duly qualified health officer is not available within a county or district, then it shall not be necessary that any person appointed to any such position be a citizen of the state or an elector of the county or district at the time of his or her appointment.

In all other respects the election of directors and the holding of office by directors and the expiration of their terms of office shall be governed by Division 21 (commencing with Section 74000) of the Water Code and the Uniform District Election Law. The general district election shall be held on the date of the general municipal election for the City of Stockton.

SEC. 20. Section 31105.2 of the Government Code is amended to read:

31105.2. (a) Any ordinance adopting a civil service system which was, prior to the effective date of this section, submitted to a vote of the qualified electors of the county at a general or special election and received the affirmative vote of a majority of the electors voting on the proposition for the approval of the ordinance, and all ordinances amending such ordinance, are hereby validated and confirmed and shall have the full legal effect of ordinances adopted by the board of supervisors and approved by the electors in the manner required by law and complying in every respect with laws relating to the adoption and approval of such ordinances, notwithstanding any defect, irregularity, omission or ministerial

error in the adoption or approval thereof.

(b) In addition to other remedies, have the power and authority to impose the following sanctions for noncompliance with this article, after a hearing if requested by the party deemed in noncompliance, except as provided in paragraph (4):

(1) Assess against and collect from a depository a fine not to exceed two hundred fifty dollars (\$250) for each day such depository fails to maintain with the agent of depository securities as required by Section 53652.

(2) Assess against and collect from a depository a fine not to exceed one hundred dollars (\$100) for each day beyond the time period specified in subdivision (b) of Section 53663 the depository negligently or willfully fails to file in the office of the administrator a written report required by such section.

(3) Assess against and collect from a depository a fine not to exceed one hundred dollars (\$100) for each day beyond the time period specified in subdivision (c) of Section 53661 that a depository negligently or willfully fails to file in the office of the administrator a written report required by that section.

(4) Declare an agent of depository who fails to comply with its

agreement filed pursuant to Section 53657 ineligible to act as an agent of depository, and order securities held by such agent of depository transferred to another agent of depository designated by the administrator. Following such declaration of ineligibility and transfer of securities, the administrator shall hold a hearing upon request of the agent of depository pursuant to regulations issued under this article.

(c) Require from every depository a report verified by the agent of depository listing all securities, and the market value thereof, which are securing local agency deposits together with the total deposits then secured by the pool, such report to confirm compliance with Section 53652. Such reports may be required whenever deemed necessary by the administrator, but shall be required at least four times each year at the times designated by the Comptroller of the Currency for reports from national banking associations. Such reports shall be filed in the office of the administrator by the depository within 20 business days of the date the administrator calls for such report.

(d) Verify pooled securities reported to be held by an agent of a depository at such times as the administrator deems necessary.

(e) Have access to reports of examination made by the Comptroller of the Currency insofar as they relate to the trust departments of national banking associations.

(f) Determine when any security listed in Section 53651 is not qualified to secure public deposits and to require in such case that an additional security be substituted immediately in the pooled securities if necessary to comply with Section 53652. Failure to comply with such requirement shall be reported by the administrator promptly to those treasurers having money on deposit in that depository and, in addition shall be reported as follows:

(1) When that depository is a national bank, to the Comptroller of the Currency of the United States.

(2) When that depository is a state bank, to the Superintendent of Banks.

(3) When that depository is a federal savings and loan association, to the Federal Home Loan Bank Board.

(4) When that depository is a state savings and loan association, to the Savings and Loan Commissioner.

(g) Require from each treasurer at appropriate times a statement of the amount and location of each deposit together with such other information deemed necessary by the administrator for effective operation of this article. SEC. 7. Section 53667 of the Government Code is amended to read:

53667. (a) Expenses incurred by the administrator in carrying out the duties and responsibilities assigned to the administrator by this article, shall be borne by the Local Agency Deposit Security Fund, which is hereby created and continuously appropriated to the administrator for the administration of this article. This fund shall consist of fines levied pursuant to Section 53661 and assessments levied pursuant to this section. To the extent the fund does not contain sufficient moneys to cover the expenses incurred by the administrator, they shall be borne pro rata on an annual basis by each depository accepting local agency deposits. The basis of the apportionment of such expenses shall be the proportion that the average amount of local agency deposits held by the depository bears to the average total amount of deposits held by all depositories in the state as shown by the reports of depositories to the administrator required in subdivision (c) of Section 53661.

(b) If the amount which would be levied against a depository under subdivision (a) is less than twenty-five dollars (\$25), that depository's assessment shall be waived for that year. The total amount of assessments so waived shall be borne pro rata that year by those depositories assessed twenty-five dollars (\$25) or more.

(c) On or before the last day of each fiscal year the administrator shall notify each depository by mail of the amount levied against it. The depository shall pay the amount levied within 20 days after such notice into the Local Agency Deposit Security Fund for the administration of this article. If payment is not made to the administrator within such time, the administrator shall assess and collect, in addition to the annual assessment, a penalty of 5 percent of the assessment for each month or part thereof that the payment is delinquent.

## CHAPTER 1291

An act to add and repeal Article 1.5 (commencing with Section 18205) of Chapter 3 of Part 6 of Division 9 of the Welfare and Institutions Code, relating to the elderly, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 29, 1980. Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Article 1.5 (commencing with Section 18205) is added to Chapter 3 of Part 6 of Division 9 of the Welfare and Institutions Code, to read:

### Article 1.5. Peer Counseling for the Elderly

18205. The Legislature hereby finds and declares:

(a) The aging of America is one of the most significant demographic trends of this century. The total number of elderly Americans is increasing by approximately 1,400 persons per day. If current trends continue, the total number of older Americans is expected to increase from 23 million in 1980 to 55 million by 2030. Those Americans aged 75 or older are the fastest growing segment of the population.

(b) Although the vast majority of elderly people are able to lead active independent lives as productive members of the community, as the number of persons over the age of 65 increases, our health care system, and especially our mental health system, must be prepared to meet their needs.

(c) Mental illness is more prevalent among the elderly than younger adults. An estimated 15 percent to 25 percent of older persons have significant mental health problems. Twenty-five percent of all reported suicides in this country are committed by the

elderly. Chronic health problems that afflict 86 percent of the elderly are a significant contributory factor to this mental health problem.

(d) Even though they are in need of significant assistance in dealing with the stresses and strains of everyday life, treatment statistics show that the elderly receive less care than do younger adults and that their rate of care is dropping.

(e) Since it is becoming increasingly expensive to treat the problems of the elderly in an institutional system, and since the Governor has established a policy of treating mental health problems in the community if at all possible, it is important for the State of California to now begin to develop an adequate system of community-based mental health care for the elderly.

(f) Since its inception in June of 1978, the Santa Monica Peer Counseling for the Elderly Program has counseled more than 3,800 elderly persons with apparent significant success in allowing its clients to continue to lead productive, active lives in the community and in doing so has saved the taxpayers a significant amount of money which would otherwise have been spent on institutional care for elderly persons.

18205.1. It is therefore the intent of the Legislature that the program funded pursuant to the article shall:

(1) Stimulate the establishment and use of a neighborhood peer counseling center for the elderly to help meet the expected increase in the number of elderly persons in California, and to provide those residents with an alternative to costly institutional care.

(2) Encourage continuing community involvement in the development of these programs, and allow the elderly population to work together to meet a significant need of their age group.

(3) Offer structures for peer counseling programs which may serve as models for additional centers in other states and communities.

(4) Serve a specific community or locale and recruit and train elderly persons to work with other elderly to provide counseling and other services to the residents of that community.

(5) Educate the residents of the community on the problems of the elderly, combat prejudice against the aged, and teach the elderly to deal with the aging process.

18206. It is the intent of the Legislature to encourage the development of this program through the appropriate county mental health plan, submitted pursuant to Section 5651 of the Welfare and Institutions Code, for 1981-82.

18207. The program receiving funding pursuant to this act shall submit a report, no later than July 1, 1981, to the Legislature and the Director of Mental Health on the effectiveness of the program.

18208. This article shall remain operative only until January 1, 1982, and on such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1982, deletes or extends this date.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 984 of the Unemployment Insurance Code is amended to read:

984. (a) (1) For calendar year 1981 each worker shall pay worker contributions at the rate of six-tenths of 1 percent with respect to the wages the worker is required to report pursuant to Section 927.5 and the wages paid to him or her by each employer for employment after his or her employer has satisfied the conditions set forth in this part with respect to becoming an employer.

(2) The rate of worker contributions for each calendar year commencing with the calendar year 1982 shall be the rate of worker contributions for the immediately preceding calendar year adjusted by the director pursuant to paragraphs (3) and (4), but in no event shall such rate exceed 1 percent nor be less than one-tenth of 1 percent. On or before October 31, 1981, and on or before October 31 of each subsequent calendar year, the director after making the adjustments in the rate of worker contributions for the specified preceding calendar year as required by paragraphs (3) and (4), shall prepare a statement which shall be a public record, declaring the rate of worker contributions for the calendar year and shall notify promptly all employers of employees covered for disability insurance of the rate.

(3) If the director finds that as of June 30th immediately preceding a calendar year the balance in the Disability Fund divided

by the disbursements from that fund for the 12-month period ending on such June 30th equals or exceeds that fund adequacy percentage which appears on any line in column 1 of the following table but is less than that fund adequacy percentage which appears on the same line in column 2 of that table, the director shall adjust the rate of worker contributions for the calendar year which includes such June 30th by the percentage appearing on that same line in column 3 of that table for the purpose of determining the rate of worker contributions for the calendar year next succeeding such June 30th.

(4) If the director finds that the fund adequacy percentage computed by dividing the balance in the Disability Fund as of December 31st of a calendar year by the disbursements from that fund for the 12-month period ending on such December 31st, when subtracted from the fund adequacy percentage computed by dividing the balance in the Disability Fund on the next succeeding June 30th by the disbursements from that fund for the 12-month period ending on such June 30th, equals or exceeds that percentage which appears on any line in column 1 of the following table but is less than the percentage which appears on the same line in column 2 of that table, the director shall adjust the rate of worker contributions for the calendar year which includes such June 30th by the percentage appearing on that same line in column 3 of that table, for the purpose of determining the rate of worker contributions for the calendar year next succeeding such June 30th.

(b) Worker contributions required under Sections 708 and 708.5 shall be at a rate determined by the director to reimburse the Disability Fund for unemployment compensation disability benefits paid and estimated to be paid to all employers and self-employed individuals covered by those sections. On or before November 30th of each calendar year, the director shall prepare a statement, which shall be a public record, declaring the rate of contributions for the succeeding calendar year for all employers and self-employed individuals covered under Sections 708 and 708.5 and shall notify promptly such employers and self-employed individuals of the rate. The rate shall be determined by dividing the estimated benefits paid in the prior year by the product of the annual remuneration deemed to have been received under Sections 708 and 708.5 and the estimated number of persons who were covered at any time in the prior year. The resulting rate shall be rounded to the next higher one-hundredth percentage point. The rate may also be reduced or increased by a factor estimated to maintain as nearly as practicable a cumulative zero balance in the funds contributed pursuant to Sections 708 and 708.5. Estimates made pursuant to this subdivision may be made on the basis of statistical sampling, or other method determined by the director.

(c) The director's action in determining a rate under this section shall not constitute an authorized regulation.

SEC. 2.5. Section 3012 of the Unemployment Insurance Code is amended to read:

3012. (a) All money in the disability fund is continuously appropriated without regard to fiscal years for the purpose of providing disability benefits pursuant to this part, including the payment of refunds, credits, or judgments, and interest thereon, the payment of disability benefits to all eligible persons not covered exclusively by an approved voluntary plan, and the payment of the expenses of administration of this part and Sections 17061 and 17061.5 of the Revenue and Taxation Code by the department and the Franchise Tax Board. "Eligible persons" as used in this section, means those individuals who are covered by the disability fund at the time their period of disability commences, or whose employment has terminated or who are in noncovered employment at the time their period of disability commences, and who are otherwise eligible for benefits under this part.

(b) For the purpose of keeping a record of the payments to and the disbursements from the disability fund with respect to the

payment of benefits to persons whose employment has terminated or who are in noncovered employment at the time their period of disability commences, the director shall maintain the Unemployed Disabled Account in the disability fund. This account shall be credited with 12 percent of the product obtained by multiplying the rate of worker contributions as determined in Section 984, by the amount of the taxable wages paid to employees covered by voluntary plans for disability benefits for each calendar year. This account shall also be credited with an amount equal to 12 percent of the product obtained by multiplying the rate of worker contributions as determined in Section 984, by the amount of the taxable wages paid to employees covered by the disability fund for each calendar year. This account shall be charged each calendar year with disbursements from the disability fund for the payment of benefits and the additional administrative costs of the payment of benefits to persons whose employment has terminated or who are in noncovered employment at the time their period of disability commences.

SEC. 3. Section 3252 of the Unemployment Insurance Code is amended to read:

(b) Each voluntary plan shall pay to the department for the Disability Fund 14 percent of the product obtained by multiplying the rate of worker contributions, as determined in Section 984, by the amount of the taxable wages paid to employees covered by the voluntary plan for disability benefit coverage for each calendar year. Such payments shall not constitute a part of the voluntary plan premium for purposes of any tax under any provision of law. Payments under this section shall be deposited in the Disability Fund.

(c) The payments made under subdivision (b) of this section in excess of the credit to the unemployed disabled account made pursuant to Section 3012 shall reimburse the Disability Fund for the amounts paid for administrative costs arising out of voluntary plans as determined pursuant to Section 3269, and the aggregate amount paid as refunds and credits made to employees applicable to voluntary plans pursuant to Section 1176 as determined pursuant to Section 3266.

(d) Each voluntary plan shall file with the director within the time required for payments under subdivision (e) of this section, a return containing the employer's business name, address, and account number, and such other information as the director shall prescribe. The director shall prescribe the form for the return.

(e) Payments required under this section are due and payable on the first day of the calendar month following the close of each calendar quarter and shall become delinquent if not paid on or

before the last day of such month.

(f) The provisions of Article 8 (commencing with Section 1126) of Chapter 4 of Part 1 of this division with respect to the assessment of contributions and the provisions of Chapter 7 (commencing with Section 1701) of Part 1 of this division with respect to the collection of contributions shall apply to payments required by this section.

(g) Whenever the director believes that a change in the percentage rate of payment specified in subdivision (b) may be necessary, he or she shall inform the Governor and the Legislature thereof and make recommendations accordingly.

SEC. 4. Section 3254 of the Unemployment Insurance Code is amended to read:

3254. The Director of Employment Development shall approve any voluntary plan, except one filed pursuant to Section 3255, as to which he or she finds that there is at least one employee in employment and all of the following exist:

(a) The rights afforded to the covered employees are greater than those provided for in Chapter 2 (commencing with Section 2625) of this part.

(b) The plan has been made available to all of the employees of the employer employed in this state or to all employees at any one distinct, separate establishment maintained by the employer in this state. "Employees" as used in this subdivision includes such individuals in partial or other forms of short-time employment and employees not in employment as the Director of Employment Development shall prescribe by authorized regulations.

(c) A majority of the employees of the employer employed in this state or a majority of the employees employed at any one distinct, separate establishment maintained by the employer in this state have consented to the plan.

The notice shall be filed in writing with the Director of Employment Development and shall be effective only on the anniversary of the effective date of the plan next following the filing of the notice, but in any event not less than 30 days from the time of the filing of the notice; except that the plan may be terminated on the operative date of any law increasing the benefit amounts provided by Sections 2653 and 2655 or the operative date of any change in the rate of worker contributions as determined by

Section 984, if notice of the termination of the plan is transmitted to the Director of Employment Development not less than 30 days prior to the operative date of such law or change. If the plan is not terminated on such 30 days' notice because of the enactment of a law increasing benefits or because of a change in the rate of worker contributions as determined by Section 984, the plan shall be amended to conform to such increase or change on the operative date of the increase or change.

(h) The amount of deductions from the wages of an employee in effect for any plan shall not be increased on other than an anniversary of the effective date of the plan except to the extent that any increase in the deductions from the wages of an employee allowed by Section 3260 permits such amount to exceed the amount of deductions in effect.

(i) The approval of the plan or plans will not result in a substantial selection of risks adverse to the Disability Fund.

SEC. 5. Section 3254.5 of the Unemployment Insurance Code is amended to read:

3254.5. A voluntary plan in force and effect at the time a successor employing unit acquires the organization, trade, or business, or substantially all the assets thereof, or a distinct and severable portion of such organization, trade, or business, and continues its operation without substantial reduction of personnel resulting from such acquisition, shall not terminate without specific request for cancellation thereof. The successor employing unit and the insurer shall be deemed to have consented to the provisions of the plan unless written request for cancellation, effective as of the date of acquisition, is transmitted to the Director of Employment Development, by the employer or the insurer, within 30 days after the acquisition date, or within 30 days after notification from the Director of Employment Development that the plan is to continue, whichever is later. Unless the plan is terminated as of the date of acquisition by the successor employer or the insurer, a written request for cancellation shall be effective only on the anniversary of the effective date of the plan next occurring on or after the date of acquisition, except that the plan may be terminated on the operative date of any law increasing the benefit amounts provided by Sections 2653 and 2655 or the operative date of any change in the rate of worker contributions as determined by Section 984, if notice of the termination of the plan is transmitted to the Director of Employment Development not less than 30 days prior to the operative date of such law or change. If the plan is not terminated on such 30 days' notice because of the enactment of a law increasing benefits or because of a change in the rate of worker contributions as determined by Section 984, the plan shall be amended to conform to such increase or change on the operative date of the increase or change. Promptly upon notice of change in ownership any insurer of such a plan shall prepare and issue policy forms and amendments as required, unless the plan is canceled. Nothing herein contained shall

prevent future cancellation of any such plans on an anniversary of the effective date of the plan upon 30 days' notice, except that the plan may be terminated on the operative date of any law increasing the benefit amounts provided by Sections 2653 and 2655 or the operative date of any change in the rate of worker contributions as determined by Section 984, if notice of the termination of the plan is transmitted to the Director of Employment Development not less than 30 days prior to the operative date of such law or change. If the plan is not terminated on such 30 days' notice because of the enactment of a law increasing benefits or because of a change in the rate of worker contributions as determined by Section 984, the plan shall be amended to conform to such increase or change on the operative date of the increase or change.

(f) The plan provides for the inclusion of all future employees paid at the central place or places.

(g) The plan is to be in effect for a period of not less than one year

and, thereafter, continuously unless the Director of Employment Development finds that the agent or a majority of the employees regularly paid at the central place or places has given written notice of termination of the plan. Such notice shall be filed in writing with the Director of Employment Development at least 30 days before it is to become effective and, upon the filing, shall be effective only as to wages paid after the beginning of the calendar quarter next occurring on or after the anniversary of the effective date of the plan; except that the plan may be terminated on the operative date of any law increasing the benefit amounts provided by Sections 2653 and 2655 or the operative date of any change in the rate of worker contributions as determined by Section 984, if notice of the termination of the plan is transmitted to the Director of Employment Development not less than 30 days prior to the operative date of such law or change. If the plan is not terminated on such 30 days' notice because of the enactment of a law increasing benefits or because of a change in the rate of worker contributions as determined by Section 984, the plan shall be amended to conform to such increase or change on the operative date of the increase or change.

(h) The amount of deductions from the wages of an employee in effect for any plan shall not be increased on other than an anniversary of the effective date of the plan except to the extent that any increase in the deductions from the wages of an employee allowed by Section 3260 permits such amount to exceed the amount of deductions in effect.

(i) The approval of the plan or plans will not result in a substantial selection of risks adverse to the Disability Fund.

SEC. 7. Section 3260 of the Unemployment Insurance Code is amended to read:

3260. An employer may, but need not, assume all or part of the cost of the plan, and may deduct from the wages of an employee covered by the plan, for the purpose of providing the disability benefits specified in this part, an amount not in excess of that which would be required by Sections 984 and 985 if the employee were not covered by the plan, except that for the calendar years 1981 and 1982, an employer may deduct from the wages of an employee an amount not in excess of 1 percent of such wages. Any such deductions from the wages of an employee remaining in the possession of the employer upon termination of the plan, as a result of plan contributions being in excess of plan costs, which are not disposed of in conformity with authorized regulations of the director, shall be remitted to the department and deposited in the Disability Fund. If an employer fails to remit any such deductions to the Disability Fund, the director shall assess the amount thereof against the employer. The provisions of Article 8 (commencing with Section 1126) of Chapter 4 of Part 1 of this division with respect to the assessment of contributions and the provisions of Chapter 7 (commencing with Section 1701) of Part 1 of this division with

respect to the collection of contributions shall apply to assessments provided by this section, except that interest shall not accrue until 30 days after notice of assessment. With respect to individuals covered by a voluntary plan on January 1st of a calendar year for which the limitation on taxable wages under Section 985 is increased or the tax rate under Section 984 is increased, the amount of the deduction on or after that date may be increased to apply to not more than the maximum limitation on taxable wages or to not more than the maximum tax rate without any further consent of the individual or approval of the director, but only if such increase in the amount of the deduction is made immediately effective as of January 1st of that particular year.

SEC. 8. The director shall report to the Legislature by March 1, 1982, concerning the experience of voluntary plan employers during the calendar year 1981. Such report shall include, but not be limited to, the number of voluntary plans in effect during 1981, any increase or decrease in the number of such plans, the number of workers covered by such plans, and the total contributions to, and benefits paid by, such plans.

*The people of the State of California do enact as follows:*

SECTION 1. Section 621 of the Evidence Code is amended to read:

#### CHAPTER 1311

An act to amend Sections 303, 330.5, 361.5, 366.3, 366.5, 16525, and 16527 of the Welfare and Institutions Code and to amend Section 28 of Chapter 977 of the Statutes of 1976, relating to family protection, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 303 of the Welfare and Institutions Code is amended to read:

303. (a) Each year the State Department of Social Services shall prepare and issue a report on foster care in California. The report shall be based on a sample of foster children drawn from counties which collectively include at least 65 percent of all the foster children in this state. The report shall include an analysis, evaluation or estimate of each of the following, on a statewide basis, as it deems appropriate:

- (1) The number of foster children;
- (2) The amount of funds expended by federal, state and local government for maintenance payments to foster parents, group homes and institutions;
- (3) The amount of funds expended by federal, state and local government on services to foster children and their natural parents or guardians;

(4) The types of services being offered to parents and their children in order to keep the family together;

(5) The number of foster children who are of adoptable age, the number of such children adopted, and the number of foster children determined not to be adoptable and the reasons therefor;

(6) The number of foster children placed in permanent foster care or guardianship;

(7) The size of caseloads of probation officers and social workers, the effect such caseloads have on the services offered to parents or their children, and the effectiveness of such services;

(8) The movement of foster children within the program from placement to placement;

(9) The foster care-related qualifications, education, and in-service training of social workers and probation officers who handle such cases;

(10) Any other matters relating to foster children which the department deems appropriate to be included in such report. The report shall be submitted to the Governor and Legislature concurrently with submission of the report required by Section 29 of Chapter 977 of the Statutes of 1976. If the department excludes any of the information required herein, it shall explain why it was not included, whether it believes it is appropriate to include such information, and an estimate of any costs to the state or counties for the collection of such information.

(b) All personal information and records obtained by the department pursuant to this section shall be confidential and may be disclosed only in those instances designated in Section 10850.

(c) Any person may bring an action against an individual who has willingly and knowingly released confidential information or records concerning him in violation of the provisions of this section, for the greater of the following amounts:

(1) Five hundred dollars (\$500).

(2) Three times the amount of actual damages, if any, sustained by the plaintiff.

Any person may, in accordance with the provisions of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, bring an action to enjoin the release of confidential information or records in violation of the provisions of this chapter, and may in the same action seek damages as provided in this section.

It is not a prerequisite to an action under this section that the plaintiff suffer or be threatened with actual damages.

SEC. 2. Section 330.5 of the Welfare and Institutions Code is amended to read:

330.5. In any case in which a probation officer or social worker in a county welfare department of a demonstration county designated pursuant to Section 272, after investigation of an application for petition or other investigation he is authorized to make, concludes that a minor is within the jurisdiction of the juvenile court pursuant to Section 300 or probably will soon be within such jurisdiction, he

may, in lieu of filing a petition or subsequent to the dismissal of a petition already filed, and with the consent of the minor's parent or guardian, undertake a program of supervision of the minor and his family. If such a program is undertaken, the probation officer or social worker shall attempt to ameliorate the situation which brings the minor within the jurisdiction of Section 300 by providing all appropriate services. Any time after the family has unreasonably refused to cooperate with the services being provided, the probation officer or social worker may file a petition to the court. In any event, if after six months the minor is believed to be within the jurisdiction of Section 300, the probation officer or social worker shall file a petition. Nothing in this section shall be construed to prevent the probation officer or social worker from filing a petition at any time within such six-month period.

SEC. 3. Section 361.5 of the Welfare and Institutions Code is amended to read:

361.5. (a) In a demonstration county, in all cases wherein a minor is adjudged a dependent child of the court, on the ground that he is a person described by Section 300 or 302, the court may limit the control to be exercised over such dependent by any parent or guardian and shall by its order clearly and specifically set forth all such limitations, but such limitations shall not exceed those necessary to protect the child.

(b) No dependent child shall be taken from the physical custody of his parents or guardians unless upon the hearing the juvenile court of a demonstration county finds clear and convincing evidence that:

(1) There is a substantial danger to the physical health of the minor and there are no reasonable means by which the minor's physical health may be protected without removing the minor from his parents' or guardians' physical custody; or

(2) The parents or guardians of the minor are unwilling to have physical custody of the minor, there are no reasonable means which would enable the minor to be returned to their physical custody, and the parents or guardians have been notified that if the minor remains out of their physical custody for the period specified in Section 366.5, the minor may be declared permanently free from their custody and control under Section 232.1 of the Civil Code; or

(3) The minor is suffering severe emotional damage indicated by extreme anxiety, depression, withdrawal, or untoward aggressive behavior against others and there are no reasonable means by which the minor's emotional health may be protected without removing the minor from his parents' or guardians' physical custody.

(4) In any action under paragraph (1), (2) or (3) of subdivision (b), the specified factual grounds shall include, where appropriate, the refusal or failure of the parents or guardians to accept reasonable services, which refusal shall justify removal if the statutory grounds are otherwise met. The court shall specify the factual grounds established to support these findings and enter such in the permanent records of the court.

(c) If the minor is taken from the physical custody of his parents or guardians and unless the minor is placed with relatives, the minor shall be placed in foster care in the county of residence of his parents or guardians in order to facilitate reunification of the family. If the probation officer or social worker in a county welfare department of a demonstration county designated pursuant to Section 272 cannot find a suitable placement within the county and seeks to place the minor outside the county, the probation officer or social worker shall serve written notice on the parents or guardians in the same manner as provided in Section 366.3 at least seven days prior to such placement. Such notice shall state the reasons which require such placement outside the county. The parents or guardians may object to such placement not later than seven days after receipt of such notice and, upon such objection, the court shall hold a hearing not later than five days after such objection and prior to such placement. The court shall order out-of-county placement if it finds that the minor's particular needs require placement outside the county.

(d) The juvenile court of a demonstration county shall order that the probation officer or social worker in a county welfare department designated pursuant to Section 272 provide to the minor's parents or guardians services which can reasonably be expected to facilitate the return of the minor to his family.

SEC. 4. Section 366.3 of the Welfare and Institutions Code is amended to read:

366.3. In a demonstration county, every hearing in which an order is made adjudging a minor a dependent child of the juvenile court pursuant to Section 300 or 302 and every subsequent hearing in which such an order is made, except a hearing at which the court orders the termination of its jurisdiction over such minor, shall be continued to a specific future date not more than six months after the date of such order. The continued hearing shall be placed on the appearance calendar. The probation officer or social worker in a county welfare department designated pursuant to Section 272 shall provide appropriate services to the minor and his parents or guardians and, at least 16 days prior to the hearing, file a supplemental report of the services offered to the family, the progress made, and, where relevant, the prognosis for return of the child to the physical custody of his parents or guardians, and make his recommendation for disposition. The court shall advise all persons present of the date of the future hearing and of their right to be present, to be represented by counsel, where relevant, and, at least 14 days prior to the hearing, where relevant, of any facts which justify the continued removal of the minor pursuant to Section 361.5 and shall include a copy of the social worker's or probation officer's report to the court. At each review hearing, no minor shall be taken or kept out of the physical custody of his parents or guardians without a showing of the current existence of facts which justify the removal under the standards of Section 361.5. The court shall review the probation officer's or social worker's report; shall consider the efforts

or progress demonstrated by the parents or guardians and the extent to which they cooperated and availed themselves of services provided; shall make appropriate findings, and where relevant, shall order any additional services reasonably believed to facilitate the return of the minor to the custody of his parents or guardians. All such findings shall be entered in the permanent records of the court. Notice of hearing shall be mailed by the probation officer or social worker to the same persons as in an original proceeding and to counsel of record by certified mail addressed to the last known address of the person to be notified, or shall be personally served on such persons, not earlier than 30 days preceding the date to which the hearing was continued.

The required 6-month hearing shall only be applicable for (1) a minor declared a dependent child of the juvenile court on or after July 1, 1977, or (2) a minor voluntarily placed by his parents pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 on or after such date and where the minor is under 14 years of age at the time of the juvenile court jurisdictional hearing on the voluntary placement. For all other minors, the hearings shall be continued to a specific future date not more than one year after the date of such order.

SEC. 5. Section 366.5 of the Welfare and Institutions Code is amended to read:

366.5. (a) In order to provide minors described in this section with a stable and permanent environment, the juvenile court of a demonstration county shall follow the procedure set forth in subdivision (d) of this section.

(b) The juvenile court of a demonstration county shall commence proceedings under subdivision (d) in the case of a minor who has been taken from the physical custody of his parents or guardians under Section 361.5 and has remained out of their physical custody for 12 consecutive months, such time to be computed from the date the court ordered the minor removed from the physical custody of his parents or guardians, and the minor was less than two years of age at the time of removal.

Physical custody of the minor by his parents or guardians for insubstantial periods during the 12-month period will not serve to interrupt the running of such period.

(c) The juvenile court of a demonstration county shall commence proceedings under subdivision (d) in the case of any other minor who has been taken from the physical custody of his parents or guardians under Section 361.5 and has remained out of their physical custody for 18 consecutive months, including for these purposes the time, if any, that the minor has remained out of their physical custody pursuant to a voluntary placement under Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9.

Physical custody of the minor by the parents or guardians for insubstantial periods of time during the 18-month period will not serve to interrupt the running of such period.

(d) For any minor that the juvenile court of a demonstration county finds to be a person described in either subdivision (b) or (c), the court shall order the appropriate department to investigate how the minor might be provided with a stable and permanent environment as require by subdivision (e). The department shall report its findings and make a recommendation to the court at a hearing that shall take place no more than 45 days from the date of the court's findings under subdivision (b) or (c), unless when the court makes its findings under subdivision (b) or (c), it finds that there is a substantial probability the minor will be returned to the physical custody of his parents or guardians within six months, in which case the hearing shall take place not more than six months from the date of the court's findings. The department and court shall give due consideration to the foster parents, if any, of the minor in considering adoption, guardianship or stable long-term foster care placement. The court shall notify the minor's parents or guardians and foster parents of its order under this subdivision, and the date of the hearing under subdivision (e). Such notice shall be sent by registered mail no less than 15 days before the date of such hearing and shall include a copy of the findings of the investigating department.

(e) At the hearing ordered under subdivision (d):

(1) If the court finds that the minor is adoptable, as determined by a licensed adoption agency, the court shall order the county counsel, or if there is no county counsel, the district attorney, to initiate an action to declare the minor permanently free from the custody and control of his parents or guardians pursuant to Section 232.1 of the Civil Code unless the court finds that:

(A) The parents or guardians have maintained a close relationship with the minor through regular visitation and contact and the minor would benefit from a continued relationship with them; or

(B) A minor 14 years of age or older objects to termination of parental rights; or

(C) The minor's foster parents are unable to adopt the minor because of exceptional circumstances, but are willing and capable of providing the minor with a stable and permanent environment and the removal of the minor from the physical custody of the foster parents would be seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to them.

(2) If the court finds that the minor is not adoptable or the exceptions described in paragraph (1) of subdivision (e) apply, and the court finds that one or more adults are available and eligible to become legal guardians for the minor, the court shall order the department to facilitate the guardianship proceedings. The county counsel or, if there is no county counsel, the district attorney, may render assistance in such proceedings to the department. The court shall not make such an order if it finds that the minor's foster parents are unable to become guardians for the minor because of exceptional

circumstances, but are willing and capable of providing the minor with a stable and permanent environment and the removal of the minor from the physical custody of his foster parents would be seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to them.

The proceeding for the appointment for a guardian for a minor under this section shall be in the juvenile court, notwithstanding Section 1405 of the Probate Code. For such minors, the juvenile court shall have the power to appoint a guardian pursuant to the standards and procedures otherwise specified by the Probate Code.

(3) If the court finds that the minor is not adoptable under paragraph (1) of subdivision (e) and that guardianship proceedings should not be initiated under paragraph (2) of subdivision (e), it shall order the department to facilitate the placement of the minor in an environment that can reasonably be expected to be stable and permanent. When the minor is in a foster home, and the foster parents are willing to provide and capable of providing a stable and permanent environment, the minor shall not be removed from this home if removal of the minor from the physical custody of his foster parents would be seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to them.

(f) When an adoption or guardianship of the minor has been perfected, the court shall terminate its jurisdiction over such minor. If some other long-term placement for the minor has been made, the court shall continue the hearing to a specific future date not more than one year after the date of the order of continued jurisdiction over the minor as a dependent child pursuant to Section 300 or 302 notwithstanding the 6-month review hearing required pursuant to Section 366.3.

SEC. 6. Section 16525 of the Welfare and Institutions Code is amended to read:

16525. As used in this chapter:

“Family reunification services” means services whose purposes are: (1) to prevent removal of children from their home, (2) to facilitate the return of minors who have been placed in foster care pursuant to Section 361.5 or voluntarily placed pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 of this code to the care and physical custody of their parents or guardians, and (3) to provide other services as set forth in Section 16527. Family reunification services shall include, but not be limited to, family therapy, psychiatric counseling, employment counseling, homemaker services, housekeeper services, day care services, emergency housing, divorce counseling, home management education, consumer education, health-related services, respite care on a 24-hour basis, emergency 24-hour shelter care, crisis intervention care on a 24-hour basis, information and referral services, counseling and other state protective services for children pursuant to Section 16502.5.

In utilizing funds allocated to the demonstration county pursuant to Section 16536, the county shall provide for adequate services in the following categories prior to utilizing funds to provide for any other services set forth in this section: homemaker services, housekeeper services, day care services, respite care on a 24-hour basis, emergency housing, emergency 24-hour shelter care, and crisis intervention care on a 24-hour basis.

SEC. 7. Section 16527 of the Welfare and Institutions Code is amended to read:

16527. Family reunification services shall be used by the social worker or probation officer to facilitate the return of minors who have been placed in foster care pursuant to Section 361.5 or voluntarily placed pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 to the care and physical custody of their parents or guardians and to stabilize the family after such return of the minor, provided that such services may be utilized by child protective service workers pursuant to Chapter 5 (commencing with Section 16500) of Part 4 of Division 9 to the extent permitted by each county board of supervisors. Services under this section may be provided to children in foster care and their foster parents when such services will facilitate the child's return to his own home or into a permanent placement. Services may also be provided to a child who is declared free of parental control pursuant to Section 232 of the Civil Code, prior to the order granting final adoption of such child when such services will facilitate the child's adoption.

The "family reunification services" authorized by this chapter shall not be construed to supplant or replace services authorized by any other provision of law or any services to minors or families provided by a county on the effective date of this chapter.

SEC. 8. Section 28 of Chapter 977 of the Statutes of 1976 is amended to read:

Sec. 28. The sum of two million dollars (\$2,000,000) is hereby appropriated from the General Fund to the State Department of Health for use during the 18-month period from January 1, 1977, through June 30, 1978, to be allocated as follows:

(a) One hundred seventy-five thousand dollars (\$175,000) for professional staff in the State Department of Health in order to effectively implement this act.

(b) Except as otherwise provided in Section 29.5, one million eight hundred twenty-five thousand dollars (\$1,825,000) to be used to reimburse the demonstration counties for all costs incurred in the implementation of this act including, but not limited to, the costs for family reunification services, child protective services, additional court hearings, and social worker and probation officer staff.

(c) All funds distributed to demonstration counties under this act during, and subsequent to, the fiscal year 1979-80 may be used for any purpose connected with implementation of the act with the provision that the fiscal year 1978-79 level of expenditures for direct

services shall be maintained and adjusted for increased need and cost-of-living increases.

It is the intent of the Legislature that this four-year demonstration program be funded for approximately two million dollars (\$2,000,000), consisting of state general funds and the county match required pursuant to Section 29.5 each fiscal year commencing fiscal year 1978-79, and the professional staff in the State Department of Health be funded for approximately one hundred twenty-five thousand dollars (\$125,000) for each such fiscal year.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

That this bill concerns a pilot project which ends in 1981, and any delay in the adoption of this bill would prevent it from having any impact on the project.

Nothing in this section, or Sections 11004, 11257 and 11450, or any other provision of this code, shall be interpreted as prohibiting the establishment of, or otherwise restricting the operation of, any budgeting system adopted. In computing and paying AFDC aid grants, the term "month" shall mean "budget month" or "payment month" as these terms are used in federal law and regulations.

SEC. 2. Article 2.5 (commencing with Section 15060) is added to Chapter 9 of Part 3 of Division 9 of the Welfare and Institutions Code, to read:

**Article 2.5. Disability Evaluation Revolving Fund**

15060. 2031. The rights given by any certificate issued under any preceding medical practice act are not affected by the enactment of this chapter, nor by the repeal of any law upon which such rights are based, but such rights shall hereafter be exercised according to the provisions of this chapter.

2032. "Person" means a natural person when a right, privilege, or power is conferred by this chapter upon a person.

2035. Whenever any requirement is provided for any certificate, it shall be satisfied in a manner satisfactory to the appropriate division of the board charged with the responsibility of administering such requirement.

2036. Whenever a course of instruction is required for any certificate, it shall be satisfied by a resident course of medical instruction. Whenever a resident course of instruction is mentioned in this chapter, it shall be interpreted to mean classroom, laboratory, practical, and clinical instruction, received and given the person physically present, wherever prescribed as a part of his or her instruction and for the period prescribed for such instruction.

2037. Whenever any requirement is provided for any certificate relating to a medical school or hospital, or any reference is made to a medical school or hospital, the medical school and hospital shall be ones approved by the Division of Licensing.

2038. Whenever the words "diagnose" or "diagnosis" are used in this chapter, they include any undertaking by any method, device, or procedure whatsoever, and whether gratuitous or not, to ascertain or establish whether a person is suffering from any physical or mental disorder. Such terms shall also include the taking of a person's blood pressure and the use of mechanical devices or machines for the purpose of making a diagnosis and representing to such person any conclusion regarding his or her physical or mental condition. ### Article 3. License Required and Exemptions

2050. The Division of Licensing shall issue one form of certificate to all physicians and surgeons licensed by the board which shall be designated as a "physician's and surgeon's certificate."

2051. The physician's and surgeon's certificate authorizes the holder to use drugs or devices in or upon human beings and to sever or penetrate the tissues of human beings and to use any and all other methods in the treatment of diseases, injuries, deformities, and other physical and mental conditions.

2052. Any person who practices or attempts to practice, or who advertises or holds himself or herself out as practicing, any system or mode of treating the sick or afflicted in this state, or who diagnoses, treats, operates for, or prescribes for any ailment, blemish, deformity, disease, disfigurement, disorder, injury, or other physical or mental condition of any person, without having at the time of so doing a valid, unrevoked, or unsuspended certificate as provided in this chapter, or without being authorized to perform such act pursuant to a certificate obtained in accordance with some other provision of law, is guilty of a misdemeanor.

chapter, or without being authorized to perform such act pursuant to a certificate obtained in accordance with some other provision of law, is punishable by imprisonment in the county jail for not exceeding one year or in the state prison.

The remedy provided in this section shall not preclude any other remedy provided by law.

2054. Any person who uses in any sign, business card, or letterhead, or, in an advertisement, the words "doctor" or "physician," the letters or prefix "Dr.," the initials "M.D.," or any other terms or letters indicating or implying that he or she is a physician and surgeon, physician, surgeon, or practitioner under the terms of this or any other law, or that he or she is entitled to practice hereunder, or who represents or holds himself or herself out as a physician and surgeon, physician, surgeon, or practitioner under the terms of this or any other law, without having at the time of so doing a valid, unrevoked, and unsuspended certificate as a physician and surgeon under this chapter, is guilty of a misdemeanor.

2055. Notwithstanding any other provision of law, a person issued a physician's and surgeon's certificate by the Board of Medical Quality Assurance pursuant to the provisions of this chapter shall be entitled to use of the initials "M.D."

2058. Nothing in this chapter prohibits service in the case of emergency, or the domestic administration of family remedies.

2059. This chapter does not apply to any commissioned medical officer in United States armed services' hospitals or other federal reservation or the public health service, in the discharge of his or her official duties, but such officers shall have all privileges under this chapter when engaged in the discharge of such official duties.

2060. Nothing in this chapter applies to any practitioner from outside this state, when in actual consultation with a licensed practitioner of this state, or when an invited guest of the California Medical Association or the California Podiatry Association, or one of their component county societies, or of an approved medical or podiatric medical school or college for the sole purpose of engaging in professional education through lectures, clinics, or demonstrations, if he or she is, at the time of the consultation, lecture, or demonstration a licensed practitioner in the state or country in which he or she resides. Such practitioner shall not open an office or appoint a place to meet patients or receive calls from patients within the limits of this state.

2061. Nothing in this chapter shall be construed as limiting the practice of other persons licensed, certified, or registered under any other provision of law relating to the healing arts when such person is engaged in his or her authorized and licensed practice.

2062. Testing and guidance programs in schools, colleges, and universities and physical fitness tests given by public and private agencies in connection with employment or issuance or renewal of licenses or permits do not constitute the practice of medicine within the meaning or intent of this chapter.

2063. Nothing in this chapter shall be construed so as to discriminate against any particular school of medicine or surgery, school or college of podiatric medicine, or any other treatment, nor shall it regulate, prohibit, or apply to any kind of treatment by prayer, nor interfere in any way with the practice of religion.

2064. Nothing in this chapter shall be construed to prevent a regularly matriculated student undertaking a course of professional instruction in an approved medical school, or to prevent a foreign medical student who is enrolled in an approved medical school or clinical training program in this state, or to students enrolled in a program of supervised clinical training under the direction of an approved medical school pursuant to Section 2104, from engaging in the practice of medicine whenever and wherever prescribed as a part of his or her course of study.

2065. Unless otherwise provided by law, no postgraduate trainee, intern, resident, postdoctoral fellow, or instructor may engage in the practice of medicine, or receive compensation therefor, or offer to engage in the practice of medicine unless he or she holds a valid, unrevoked, and unsuspended physician's and surgeon's certificate issued by the board. However, a graduate of an approved medical school, who is registered with the Division of Licensing and who is enrolled in a postgraduate training program approved by the division, may engage in the practice of medicine whenever and wherever required as a part of such program under the following conditions:

(a) A graduate enrolled in an approved first-year postgraduate training program may so engage in the practice of medicine for a period not to exceed one year whenever and wherever required as a part of the training program, and may receive compensation for such practice.

(b) A graduate who has completed the first year of postgraduate training may, in an approved residency or fellowship, engage in the practice of medicine whenever and wherever required as part of such residency or fellowship, and may receive compensation for such practice. Such a resident or fellow shall qualify for, take, and pass the next succeeding written examination for licensure given by the division, or shall qualify for and receive a physician's and surgeon's certificate by one of the other methods specified in this chapter. If such a resident or fellow shall fail to receive a license to practice medicine under this chapter within one year from the commencement of the residency or fellowship, all privileges and exemptions under this section shall automatically cease.

2068. This chapter shall not be construed to prohibit any person from providing nutritional advice or giving advice concerning proper nutrition. However, this section confers no authority to practice medicine or surgery or to undertake the prevention, treatment, or cure of disease, pain, injury, deformity, or physical or mental conditions or to state that any product might cure any disease, disorder, or condition in violation of any provision of law.

For purposes of this section the terms "providing nutritional advice or giving advice concerning proper nutrition" means the giving of information as to the use and role of food and food ingredients, including dietary supplements.

Any person in commercial practice providing nutritional advice or giving advice concerning proper nutrition shall post in an easily visible and prominent place the following statement in his or her place of business:

**"NOTICE"**

"State law allows any person to provide nutritional advice or give advice concerning proper nutrition—which is the giving of advice as to the role of food and food ingredients, including dietary supplements. This state law does NOT confer authority to practice medicine or to undertake the diagnosis, prevention, treatment, or cure of any disease, pain, deformity, injury, or physical or mental condition and specifically does not authorize any person other than one who is a licensed health practitioner to state that any product might cure any disease, disorder, or condition."

The notice required by this section shall not be smaller than 8½ inches by 11 inches and shall be legibly printed with lettering no smaller than ½ inch in length, except the lettering of the word "NOTICE" shall not be smaller than 1 inch in length.

2069. (a) Notwithstanding any other provision of law, a medical assistant may administer medication only by intradermal, subcutaneous, or intramuscular injections and perform skin tests upon the specific authorization and supervision of a licensed physician and surgeon or a licensed podiatrist.

(b) As used in this section and Section 2070, the following definitions shall apply:

(1) "Medical assistant" means a person who may be unlicensed, who performs basic administrative, clerical, and technical supportive services in compliance with this section and Section 2070 for a licensed physician and surgeon or a licensed podiatrist, or group thereof, for a medical or podiatry corporation, or for a health care services plan, who is at least 18 years of age, and who has had at least the minimum amount of hours of appropriate training pursuant to standards established by the Division of Allied Health Professions. The medical assistant shall be issued a certificate by the training institution or instructor indicating satisfactory completion of the required training. A copy of such certificate shall be retained as a record by each employer of the medical assistant.

(2) "Specific authorization" means a specific written order prepared by the supervising physician and surgeon or the supervising podiatrist authorizing the procedures to be performed on a patient, which shall be placed in the patient's medical record; or a standing order prepared by the supervising physician and surgeon or the supervising podiatrist authorizing the procedures to

be performed, the duration of which shall be consistent with accepted medical practice. A notation of the standing order shall be placed on the patient's medical record.

(3) "Supervision" means the supervision of procedures authorized by this section by a licensed physician and surgeon or by a licensed podiatrist, within the scope of his or her practice, who shall be physically present in the treatment facility during the performance of such procedures.

(c) Nothing in this section shall be construed as authorizing the licensure of medical assistants. Nothing in this section shall be construed as authorizing the administration of local anesthetic agents by a medical assistant.

2070. Notwithstanding any other provision of law, a medical assistant may perform venipuncture or skin puncture for the purposes of withdrawing blood upon specific authorization and under the supervision of a licensed physician and surgeon or a licensed podiatrist, if prior thereto the medical assistant has had at least the minimum amount of hours of appropriate training pursuant to standards established by the Division of Allied Health Professions. The medical assistant shall be issued a certificate by the training institution or instructor indicating satisfactory completion of the training required. A copy of the certificate shall be retained as a record by each employer of the medical assistant.

2072. Notwithstanding any other provision of law and subject to the provisions of the State Civil Service Act, any person who is licensed to practice medicine in any other state, who meets the requirements for application and examination set forth in this chapter, and who complies with the provisions of Section 2065 with respect to registration with the Division of Licensing, may be appointed to the medical staff within a state institution and, under the supervision of a physician and surgeon licensed in this state, may engage in the practice of medicine on persons under the jurisdiction of any such state institution. Qualified physicians and surgeons licensed in this state shall not be recruited pursuant to this section.

No person appointed pursuant to this section shall be employed in any state institution for a period in excess of two years from the date such person was first employed and such appointment shall not be extended beyond such two-year period. At the end of such two-year period such physician shall have been issued a physician's and surgeon's certificate by the board in order to continue such employment. Until such physician has obtained a physician's and surgeon's certificate from the board he or she shall not engage in the practice of medicine in this state except to the extent expressly permitted herein.

2073. Notwithstanding any other provision of law, any person who is licensed to practice medicine in any other state who meets the requirements for application and examination set forth in this chapter, and who complies with the provisions of Section 2065 with respect to registration with the Division of Licensing, may be

employed on the resident medical staff within a county general hospital and, under the supervision of a physician and surgeon licensed in this state, may engage in the practice of medicine on persons within such county institution. Employment pursuant to this section is authorized only when an adequate number of qualified resident physicians cannot be recruited from intern staffs in this state.

No person appointed pursuant to this section shall be employed in any county general hospital for a period in excess of two years from the date such person was first employed and such employment shall not be extended beyond such two-year period. At the end of such two-year period such physician shall have been issued a physician's and surgeon's certificate by the board in order to continue as a member of such resident staff. Until such physician has obtained a physician's and surgeon's certificate from the board he or she shall not engage in the practice of medicine in this state except to the extent expressly permitted herein.

2074. Nothing in this chapter shall prohibit the employment of a licensed physician and surgeon practicing in the specialty of ophthalmology by an optometrist licensed under the provisions of Chapter 7 (commencing with Section 3000) or by an optometric corporation certificated under that chapter.

2075. The performance of acupuncture by an unlicensed person or certified acupuncturist, alone or in conjunction with other forms of traditional Oriental medicine, when carried on in a program affiliated with and under the jurisdiction of an approved medical school, for the primary purpose of scientific investigation of acupuncture shall not be in violation of this chapter, but such procedures shall be carried on only under the supervision of a licensed physician and surgeon.

Any medical school conducting research into acupuncture under this section shall report to the Legislature annually on the fifth legislative day of the regular session of the Legislature concerning the results of such research, the suitability of acupuncture as a therapeutic technique, and performance standards for persons who perform acupuncture.

#### Article 4. Requirements for Licensure

2080. (a) Except as otherwise provided, the provisions of this article applicable to applications generally shall apply to all certificates issued.

(b) Every applicant for a physician's and surgeon's certificate shall comply with the requirements of this article unless other specific requirements of this chapter are applicable to a particular class of applicant.

2081. Each application shall be made upon a form provided by the Division of Licensing.

2082. Each application shall include the following:

(a) A diploma issued by an approved medical school. The requirements of the school shall have been at the time of granting the diploma in no degree less than those required under this chapter or by any preceding medical practice act at the time that the diploma was granted. In lieu of a diploma, the applicant may submit evidence satisfactory to the Division of Licensing of having possessed the same.

(b) An official transcript or other official evidence satisfactory to the division showing each approved medical school in which a resident course of professional instruction was pursued covering the minimum requirements for certification as a physician and surgeon, and that a diploma and degree were granted by the school.

(c) Such other information concerning the professional instruction and preliminary education of the applicant as the division may require.

(d) An affidavit showing to the satisfaction of the division that the applicant is the person named in each diploma and transcript that he or she submits, that he or she is the lawful holder thereof, and that such diploma or transcript was procured in the regular course of professional instruction and examination without fraud or misrepresentation.

2083. Each application for a certificate shall be accompanied by the fee required by this chapter and shall be filed with the Division of Licensing. An application based upon a diplomate certificate issued by the National Board of Medical Examiners need not comply with subdivisions (a), (b), and (c) of Section 2082.

2084. The Division of Licensing shall approve every school which complies with the requirements of this chapter for resident courses of professional instruction and shall admit every applicant to the examination who complies with the requirements provided for certification as a physician and surgeon. Nothing in this chapter prohibits the division from considering the quality of the resident courses of professional instruction required for such certification.

2086. The Division of Licensing may utilize medical consultants and investigators employed by the board pursuant to Section 2020 to evaluate the curricula of medical schools. A medical consultant or investigator shall meet such reasonable standards of experience and education, to be determined by the division, as will enable him or her to competently perform such duties of evaluation.

2087. If any medical school is not approved by the Division of Licensing or any applicant for examination is rejected by it, then the school or the applicant may commence an action in the superior court as provided in Section 2019 against the division to compel it to approve the school or to admit the applicant to examination or for any other appropriate relief. If the applicant is denied admittance to the examination or a certificate on the grounds of unprofessional conduct, the provisions of Article 12 (commencing with Section 2220) shall apply. In such an action the court shall proceed under Section 1094.5 of the Code of Civil Procedure, except that the court may not exercise an independent judgment on the evidence. The

action shall be speedily determined by the court and shall take precedence over all matters pending therein except criminal cases, applications for injunction, or other matters to which special precedence may be given by law.

2088. Each applicant shall present an official transcript or other official evidence to the Division of Licensing that he or she has completed two years of preprofessional postsecondary education, or its equivalent, before completing the resident course of professional instruction.

The two-year preprofessional postsecondary education shall include the subjects of physics, chemistry, and biology. In the event that one of the above subjects was not completed as a part of that postsecondary education, an applicant shall complete a course of instruction in such subjects in an accredited postsecondary educational institution prior to taking the written examination for licensure.

2089. (a) Each applicant for a physician's and surgeon's certificate shall show by official transcript or other official evidence satisfactory to the Division of Licensing that he or she has successfully completed a medical curriculum extending over a period of at least four academic years in a medical school or schools located in the United States or Canada approved by the division. The total number of hours of all courses shall consist of a minimum of 4,000 hours. At least 80 percent of actual attendance shall be required.

Such programs shall be under the direction of approved medical schools.

2106. (a) It is the intention of the Legislature in enacting this section to provide financial assistance to University of California medical schools operating supervised clinical training programs authorized by Sections 2103 and 2104 and to provide financial assistance to students to cover the costs of supervised clinical training programs at medical schools in this state other than University of California medical schools. The Student Aid Commission shall insure that funds available to the University of California under

subdivision (a) and this subdivision are allocated to only cover costs for students enrolled under this subdivision.

(c) The Student Aid Commission shall make grants to the University of California medical schools and to students enrolled in clinical training programs at a University of California medical school and at medical schools in this state other than University of California medical schools pursuant to this section based upon information provided by medical schools detailing actual incremental costs of operating supervised clinical training programs. The amount paid per student shall be decreased by the amount of federal funds received for the support of the student and by the amount of other tuition and fees paid by the students participating in the program. Such a physician shall be under the direction of the head of the department to which he or she is appointed. Such permission may only be granted for a maximum of five years, and shall be renewed annually. Renewal shall be granted subject to the discretion of the division.

(b) Except to the extent authorized by this section, no such visiting physician may engage in the practice of medicine or receive compensation therefor. The time spent under appointment in a medical school pursuant to this section may not be used to meet the requirements for licensure under Section 2101 or 2102.

(c) Nothing in this section shall preclude any United States citizen who has received his or her medical degree from a medical school located in a foreign country from participating in any program established pursuant to this section.

2112. (a) Physicians who are not citizens but are legally admitted to the United States and who seek postgraduate study, may, after application to and approval by the Division of Licensing, be

permitted to participate in a fellowship program in a specialty or subspecialty field, providing the fellowship program is given in a hospital in this state which is approved by the Joint Committee on Accreditation of Hospitals and providing the service is satisfactory to the division. Such physicians shall at all times be under the direction and supervision of a licensed, board-certified physician and surgeon who is recognized as a clearly outstanding specialist in the field in which the foreign fellow is to be trained. The supervisor, as part of the application process, shall submit his or her curriculum vitae and a protocol of the fellowship program to be completed by the foreign fellow. Approval of the program and supervisor is for a period of one year, but may be renewed annually upon application to and approval by the division. The approval may not be renewed more than four times. The division may determine a fee, based on the cost of operating this program, which shall be paid by the applicant at the time the application is filed.

(b) Except to the extent authorized by this section, no such visiting physician may engage in the practice of medicine or receive compensation therefor. The time spent under appointment in a medical school pursuant to this section may not be used to meet the requirements for licensure under Section 2101 or 2102.

2113. (a) Any person who does not immediately qualify for a physician's and surgeon's certificate under any of the provisions of this chapter and who is offered by the dean of an approved medical school in this state a full-time faculty position may, after application to and approval by the Division of Licensing, be granted a certificate of registration to engage in the practice of medicine only to the extent that such practice is incident to and a necessary part of his or her duties as approved by the division in connection with such faculty position.

(b) To qualify for such a certificate an applicant shall meet all the following requirements:

(1) Furnish documentary evidence satisfactory to the division that the applicant is a United States citizen or is legally admitted to the United States.

(2) If the applicant is a graduate of a medical school other than in the United States or Canada, furnish documentary evidence satisfactory to the division that he or she has been licensed to practice medicine and surgery for not less than four years in another state or country whose requirements for licensure are satisfactory to the division, or has been engaged in the practice of medicine in the United States for at least four years in approved hospitals, or has completed a combination of such licensure and training.

If the applicant is a graduate of an approved medical school in the United States or Canada, furnish documentary evidence that he or

she has completed a resident course of professional instruction as required in Section 2089.

(3) Take and pass an oral and comprehensive clinical examination if required by the division.

(4) The head of the department in which the applicant is to be appointed shall certify in writing to the division that the applicant will be under his or her direction and will not be permitted to practice medicine unless incident to and a necessary part of the applicant's duties as approved by the division in subdivision (a).

(c) A certificate of registration is valid for one year after its issuance. During this period the registrant shall take the written examination required for issuance of a physician's and surgeon's certificate. If the registrant does not pass the written examination, the certificate of registration shall nevertheless be effective for the one-year period issued and if the effective period of the certificate will lapse before the examination may be retaken, the certificate of registration may be renewed, subject to the discretion of the division, for a period not to exceed one year.

(d) If the registrant is a graduate of a medical school other than in the United States or Canada, he or she shall meet the requirements of Section 2101 in order to obtain a physician's and surgeon's certificate. Notwithstanding any other provision of law, the division may accept practice in an appointment pursuant to this section as qualifying time to meet the hospital service requirements in Section 2101.

(e) Except to the extent authorized by this section, the registrant shall not engage in the practice of medicine or receive compensation therefor, unless he or she is issued a physician's and surgeon's certificate.

2114. (a) A physician who is a graduate of a medical school other than in the United States or Canada and who is a clearly outstanding physician in fields of medicine or surgery and who has been offered by the dean of a medical school in this state an important full-time academic appointment for which there is a great need to fill may, after application to and approval by the Division of Licensing, be granted a certificate of registration to engage in the practice of medicine only to the extent that such practice is incidental to and is a necessary part of his or her duties as approved by the division in connection with the academic position in the medical school. Such application shall include a review of the credentials of the physician by the division.

(b) The division in its discretion may require the applicant to take and pass an oral and comprehensive clinical or written examination.

(c) The certificate of registration is valid for a period of not more than five years and shall be renewable at the discretion of the division.

(d) A physician who receives and has held a valid certificate of registration under this section for at least two years may apply to the division for a physician's and surgeon's certificate. In applying for a

physician's and surgeon's certificate, the physician shall take and pass an oral and comprehensive clinical examination. Notwithstanding any other provision of law, the division shall accept practice in an appointment pursuant to this section as qualifying time to meet the hospital service requirements in Sections 2101 and 2102.

(e) Except to the extent authorized by this section, the registrant shall not engage in the practice of medicine or receive compensation therefor, unless he or she is issued a physician's and surgeon's certificate.

2119. A person applying for licensure pursuant to Sections 2101 and 2102 may commence the hospital clinical service required for licensure if he or she has completed the written examination required in those sections, but has not yet been notified of the score received on such examination. In the event the applicant is notified that he or she has not passed the written examination, such person shall not be eligible to continue with the hospital clinical service until he or she has attained a score on the examination satisfactory to the division.

2120. Notwithstanding any other provision of law, any applicant whose medical education is satisfactory to the Division of Licensing who has been licensed and who has actively practiced medicine for a period of not less than 14 years in another state or foreign country whose licensure requirements are satisfactory to the division, shall be required to pass only those portions of the written examination provided for in Article 9 (commencing with Section 2170) relating to clinical science and clinical competence and shall be exempt from other portions of the written examination. Any applicant so exempt shall, however, be required to pass an oral and comprehensive clinical examination administered by the division.

#### Article 7. Reciprocity and National Board Diplomate Applications

2135. (a) The Division of Licensing shall issue a physician's and surgeon's certificate on reciprocity if an applicant holds a license to engage in the unlimited practice of medicine issued by another state.

(b) Subject to the provisions of Sections 2142 and 2147, no examination for a reciprocity certificate shall be required.

(c) This section shall apply only to persons who have been granted the degree of doctor of medicine after the completion of a resident course of professional instruction required in this chapter in an approved medical school.

2136. The Division of Licensing shall issue a physician's and surgeon's certificate on reciprocity to an applicant providing he or she meets the following requirements:

(a) The applicant is licensed as a physician and surgeon in another state whose written examination is recognized by the division to be equivalent in content to that administered in California.

(b) The applicant has practiced medicine in such state for at least

four years.

(c) The division determines that no disciplinary action has been taken against the applicant by any medical licensing authority and that the applicant has not been the subject of adverse judgments or settlements resulting from the practice of medicine which the division determines constitutes evidence of a pattern of negligence or incompetence.

(d) The applicant takes and passes an oral and comprehensive clinical examination.

The provisions of this article which are not inconsistent with or in conflict with this section shall otherwise apply to applicants under this section.

2140. The applicant's professional instruction and the requirements of the medical licensing authority which issued the applicant's existing license to practice medicine shall not have been at the time of graduation and issuance of such license in any degree or particular less than those which were required for the issuance of a similar certificate to engage in the practice of medicine in this state at the same time.

2141. An applicant under this article shall file a verified application on a form furnished by the Division of Licensing containing such information concerning his or her past practice and experience and other such information as may be required by the division. The application shall be accompanied by the reciprocity application fee required in Section 2435.

2142. In addition to other information required by the Division of Licensing, each applicant for a reciprocity certificate shall comply with the following:

(a) Each license to practice medicine issued by a medical licensing authority to the applicant shall be listed with the date each certificate or license was issued and a description of each such certificate or license. The division in its discretion may require the applicant to file an indicia of such certification or licensure. If a certificate or license has been lost, a copy may be filed together with proof satisfactory to the division that the copy is a correct one and that the certificate was issued to the applicant without fraud or misrepresentation.

(b) Each medical school or college at which the applicant undertook his or her resident course of professional instruction and all postsecondary educational institutions from which the applicant was graduated shall be listed including the period of study at each.

(c) The applicant shall show that a diploma or other evidence of final, successful, and entire completion of professional instruction granted by the approved medical school attended was a condition precedent to his or her admission to the written examination for licensure upon which the application in this state is based.

(d) The applicant shall not have failed a written or oral examination administered by the division for a physician's and surgeon's certificate under this chapter or any preceding medical

practice act.

(e) The applicant shall not have committed any acts or crimes constituting grounds for denial of a certificate under Division 1.5 (commencing with Section 475) or Article 12 (commencing with Section 2220).

2143. An applicant for a reciprocity certificate need not have completed the first year of postgraduate training required in Section 2096 prior to the issuance of a license in another state, if the applicant complies with the requirements of Section 2096 before application is made to the Division of Licensing for a reciprocity certificate.

2144. The Division of Licensing may make an independent investigation of the educational qualifications and the ability and standing of the applicant.

If, after this investigation and any other or further examination or investigation which the division may see fit to make on its own part, it is found that the requirements of the medical licensing authority which issued the applicant's existing license to practice medicine are or were in any degree or particular less than those which were required for the issuance of a physician's and surgeon's certificate in this state at the date of the issuance of the applicant's current certificate, or the applicant has not complied with the alternative provided by Section 2143, a physician's and surgeon's certificate shall not be issued unless the applicant takes and passes an examination administered by the division.

2146. An oral examination shall not be deemed to be of equal merit with a written examination for licensure, and no reciprocity certificate shall be issued based upon a license issued by a medical licensing authority where the requirements for licensure provided for an oral examination only.

2147. (a) Any certificate or license upon which a reciprocity application is based shall have been issued to the applicant within a period of five years immediately preceding the filing of the application at the office of the Division of Licensing in Sacramento.

(b) If the applicant's certificate or license upon which his or her application is based was issued more than five years prior to the filing of the application, then the applicant shall be required to take and pass an oral examination administered by the Division of Licensing in accordance with Section 2148.

2148. The Division of Licensing shall administer an examination to applicants for reciprocity certificates required to take such an examination by Section 2147 at least every six months. The examination shall be an oral and comprehensive clinical examination, and full consideration shall be given to the duration and character of the applicant's practice.

2151. Notwithstanding any other provision of law, the Division of Licensing may issue a physician's and surgeon's certificate to a diplomate of the National Board of Medical Examiners provided the following requirements are met:

(a) The standard of the National Board of Medical Examiners on

the date the diplomate certificate was issued was in no degree or particular less than that which was required for a physician's and surgeon's certificate under this chapter on the same date.

(b) The applicant shall file an application with the division as provided in Article 4 (commencing with Section 2080). The applicant shall not, however, be required to comply with any provision of that article which is inconsistent with or in conflict with the provisions of this section.

(c) The application shall be accompanied by the fee required in Section 2435.

(d) The applicant shall satisfy the division that the diplomate certificate was procured without fraud or misrepresentation.

(e) The applicant shall not have committed any acts or crimes constituting grounds for denial of a certificate under Section 480 or Article 12 (commencing with Section 2220).

(f) The division may in its discretion issue a physician's and surgeon's certificate under this section with or without an oral examination.

2152. The Division of Licensing shall not reject an application for a physician's and surgeon's certificate by reciprocity solely on the basis that the medical licensing authority issuing the applicant's certificate or license permitted the applicant to take the basic science examination given by the National Board of Podiatry Examiners or the National Board of Medical Examiners, as a part of that state's qualifying examination.

2153. In addition to the requirements of Section 164, a certificate issued under this article shall include in its description the basis upon which the certificate was issued.

2155. For the purposes of this article:

(a) "Division" means the Division of Licensing.

(b) "The practice of medicine" means all activities authorized by a physician's and surgeon's certificate, except activities performed in the course of employment as a public health officer, as a medical school faculty member where teaching time is more than 25 percent of the working day, or as a resident or first-year postgraduate trainee.

(c) "Area deficient in physician services" means:

(1) Any county in the state in which the number of physicians, not employed by the federal government, engaged in the practice of medicine is found by the division to be in a ratio of less than 100 for every 100,000 county residents, and which the division finds to be in need of physician services.

(2) Any city or area within a county or city in the state which the division finds to be lacking in adequate physician services.

2156. Applications for loans shall be made to the division upon forms provided by it, at the times and in the manner prescribed in regulations adopted by the division.

2157. No medical student shall be awarded a loan under this article unless he or she complies with all of the following:

(a) The applicant is a resident of California.

(b) The applicant is enrolled in at least the second year of the resident course of professional instruction in an approved medical school in this state granting a medical doctor degree, or the student is enrolled in a program of supervised clinical training established pursuant to Section 2104 and he or she has completed a resident course of professional instruction equivalent to that required in Section 2089.

(c) The applicant has demonstrated financial need to the division.

(d) The applicant has agreed to continue his or her education and training with the intention of practicing medicine in an area deficient in physician services.

(e) The applicant has complied with the regulations adopted by the division implementing this article.

2158. The division shall award the loans to applicants which it determines have the greatest financial need for such funds. The division shall not award any loan to any applicant if it determines that the applicant has adequate financial resources to support himself or herself and family.

2159. There shall be at least 50 loans available each year. The amount of each loan shall not exceed two thousand dollars (\$2,000) for an academic year. In any event, no student shall receive more than four thousand dollars (\$4,000) in loans.

2160. The interest to be paid shall be two percentage points less than the authorized interest rate on California Water Bonds at the time of the loan.

2163. The loan shall be repayable to the Contingent Fund of the Board of Medical Quality Assurance in equal or graduated periodic installments, according to a schedule agreed upon by the division and the borrower, over a 10-year period which shall begin three years after the student ceases to pursue a full-time course of professional instruction, excluding from such 10-year period all periods, up to three years, of (a) active duty performed by the borrower as a member of the United States armed forces, or (b) nonmilitary public services performed by the borrower which the division finds to be in the public interest.

2164. Where any borrower who has obtained one or more loans under this article engages in the practice of medicine in an area deficient in physician services, 25 percent of the total of such loans plus accrued interest on such amount which are unpaid as of the date that such practice begins shall be cancelled thereafter for each year of such practice.

2165. The division shall make a determination as to which areas of the state are deficient in physician services. This study shall be updated every two years and shall be the basis for notifying loan recipients of areas which will satisfy the loan exemption provisions of this article. The division may utilize studies or surveys made of

areas deficient in physician services by other state or federal agencies.

2166. The liability to repay the unpaid balance of the loan and accrued interest thereon shall be cancelled upon the death of the borrower, or if the division determines that he or she has become permanently disabled and is unable to engage in substantial gainful activity.

2167. The division may assess a charge with respect to a loan made under this article for failure of the borrower to pay all or part of an installment when due and, in the case of a borrower who is entitled to a deferment under Section 2163 or cancellation of part or all of the loan under Section 2164 or 2166, for any failure to file timely and satisfactory evidence of such entitlement. The amount of any such charge may not exceed two dollars (\$2) for each month by which such installment or evidence is late, except that there shall be no charge for the first month.

#### Article 9. Examinations

2170. (a) All applicants for a physician's and surgeon's certificate shall take the examination provided for in this article unless provisions of this chapter otherwise provide.

(b) The provisions of this article shall apply to all examinations administered by the Division of Licensing unless provisions of this chapter otherwise provide.

2171. All examinations shall be practical in character and designed to ascertain the applicant's fitness to practice medicine. Unless otherwise provided the examination shall be in writing.

2172. The Division of Licensing may appoint qualified persons to give the whole or any portion of any examination as provided in this chapter, who shall be designated as examination commissioners. The board may fix the compensation of such persons subject to the provisions of applicable state laws and regulations.

2173. The examination shall be conducted in the English language. Upon the submission of satisfactory proof from the applicant that he or she is unable to meet the requirements of the examination in English, the Division of Licensing may allow the use of an interpreter, either to be present in the examination room or thereafter to interpret and transcribe the answers of the applicant. The division in its discretion may select an examinee's interpreter or approve the selection of an interpreter by the examinee. The expenses of the interpreter shall be paid by the examinee and shall be paid before the examination is administered.

2174. The examinations may be conducted in any part of the state or another state designated by the Division of Licensing. A notice of each examination administered by the division shall specify the time and place of the examination.

2175. Examination records shall be kept on file by the Division of Licensing for a period of one year. Examinees shall be known and

designated by number only, and the name attached to the number shall be kept secret until the examinee is sent notification of the results of the examinations.

2176. Examinations for a physician's and surgeon's certificate may be conducted by the Division of Licensing under a uniform examination system, and for that purpose the division may make such arrangements with organizations furnishing examination material as it may deem desirable.

2178. At the discretion of the Division of Licensing the written examination prescribed in this article may be taken following completion of the applicant's course of professional instruction prior to the granting of a degree by the medical school.

2179. It is the intent of the Legislature that the Division of Licensing strongly urge those organizations responsible for the development of physician licensing examinations to include within those examinations an increased emphasis on human nutrition.

2298. The Division of Medical Quality may proceed against a licensee under either Section 2296 or 2297, or both such sections.

2299. In reinstating a certificate which has been revoked or suspended under Section 2297, the Division of Medical Quality may impose terms and conditions to be followed by the licensee after the certificate has been reinstated. Upon the expiration of the term of suspension, the certificate shall be reinstated by the Division of Medical Quality, unless the licensee during the term of suspension is found to have engaged in the practice of medicine in this state. In that event, the division shall revoke the licensee's certificate to engage in the

practice of medicine.

The petition shall state such fact as may be required by the division. The petition shall be accompanied by at least two verified recommendations from physicians and surgeons licensed by the board who have personal knowledge of the activities of the petitioner since the disciplinary penalty was imposed. For the purposes of such a hearing, five members of a panel shall constitute a quorum.

The division or a panel hearing the petition may consider all activities of the petitioner since the disciplinary action was taken, the offense for which the petitioner was disciplined, the petitioner's activities during the time the certificate was in good standing, and the petitioner's rehabilitative efforts, general reputation for truth, and professional ability. The hearing may be continued from time to time as the division or panel finds necessary.

The division or panel reinstating a certificate or modifying a penalty may impose such terms and conditions as it deems necessary. To reinstate a revoked certificate requires the affirmative vote of at least five members of the division or the unanimous vote of the panel hearing the petition, as the case may be. To otherwise reduce a penalty or modify probation requires the affirmative vote of at least four members of the division or the affirmative vote of at least three members of the panel hearing the petition, as the case may be. A decision by the division or a panel shall be final.

No petition shall be considered while the petitioner is under sentence for any criminal offense, including any period during which the petitioner is on court-imposed probation or parole. Proceedings under this section shall be governed by Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that no undertaking shall be required in any action commenced by the board or a division thereof.

2312. The Division of Medical Quality shall seek to obtain an

injunction against any physician and surgeon within its jurisdiction if the division has reasonable cause to believe that allowing such person to continue to engage in the practice of medicine would endanger the public health, safety, or welfare.

2313. The Division of Medical Quality shall report annually to the Legislature, no later than April 1 of each year, the following information:

(a) The total number of temporary restraining orders sought by the board or the division to enjoin licensees pursuant to Sections 125.7, 125.8 and 2311, the circumstances in each case which prompted the board or division to seek such injunctive relief, and whether a restraining order was actually issued.

(b) The total number and types of actions for unprofessional conduct taken by the board or a division against licensees, the number and types of actions taken against licensees for unprofessional conduct related to prescribing drugs, narcotics, or other controlled substances, and the total number and types of actions taken against licensees for unprofessional conduct resulting from cases referred by the State Department of Health Services pursuant to Section 14124 of the Welfare and Institutions Code, relating to suspension of provider status for state medical assistance.

(3) A medical procedure was performed on a person legally incapable of giving consent, and the licensee reasonably believed that a medical procedure should be undertaken immediately and that there was insufficient time to obtain the informed consent of a person authorized to give such consent for the patient.

(b) This section is applicable only to actions for damages for injuries or death arising because of a licensee's failure to inform, and not to actions for damages arising because of a licensee's negligence in rendering or failing to render treatment.

by such person in rendering such voluntary medical assistance. The immunity granted by this section shall not apply to acts or omissions constituting gross negligence.

### Article 18. Corporations

2400. Corporations and other artificial legal entities shall have no professional rights, privileges, or powers. However, the Division of Licensing may in its discretion, after such investigation and review of such documentary evidence as it may require, and under regulations adopted by it, grant approval of the employment of licensees on a salary basis by licensed charitable institutions, foundations, or clinics, if no charge for professional services rendered patients is made by any such institution, foundation, or clinic.

2401. Notwithstanding Section 2400, a clinic operated primarily for the purpose of medical education by a public or private nonprofit university medical school, which is approved by the Division of Licensing or the Board of Osteopathic Examiners, may charge for professional services rendered to teaching patients by licensees who hold academic appointments on the faculty of such university, if such charges are approved by the physician in whose name the charges are made.

2402. The provisions of Section 2400 do not apply to a medical or podiatry corporation practicing pursuant to the Moscone-Knox Professional Corporation Act (Part 4 (commencing with Section 13400) of Division 3 of Title 1 of the Corporations Code) and this article, when such corporation is in compliance with the requirements of these statutes and all other statutes and regulations now or hereafter enacted or adopted pertaining to such corporations and the conduct of their affairs.

2415. (a) Any physician and surgeon or any podiatrist, as the case may be, who as a sole proprietor, or in a partnership, group, or professional corporation, desires to practice under any name that would otherwise be a violation of Section 2285 may practice under such name if such proprietor, partnership, group, or corporation obtains and maintains in current status a fictitious-name permit issued by the Division of Licensing under the provisions of this section.

(b) The division shall issue a fictitious-name permit authorizing the holder thereof to use the name specified in the permit in connection with his, her, or its practice if the division finds to its satisfaction that:

(c) An applicant or applicants working for a community clinic which is licensed pursuant to Chapter 1 (commencing with Section 1200) of Division 2 of the Health and Safety Code, which contracts with or employs professional practitioners, shall not be required to comply with the provisions of paragraph (2), (3), or (4) of subdivision (6). However, the name of the community clinic shall comply with the regulations of the State Department of Health Services and shall not contain the name or names of any practitioners working for the community clinic.

(d) Fictitious-name permits issued by the division shall be subject to the provisions of Article 19 (commencing with Section 2420) pertaining to renewal of licenses.

(e) The division may revoke or suspend any permit issued if it finds that the holder or holders of the permit are not in compliance with the provisions of this section or any regulations adopted pursuant to this section. A proceeding to revoke or suspend a fictitious-name permit shall be conducted in accordance with Section 2230.

(f) The division may also proceed to revoke the fictitious-name permit of a licensee whose certificate has been revoked, but no proceeding may be commenced unless and until the charges of unprofessional conduct against the licensee have resulted in revocation of the license.

(g) The division may delegate to the executive director, or to another official of the board, its authority to review and approve applications for fictitious-name permits and to issue such permits.

2416. Physicians and surgeons and podiatrists may conduct their professional practices in a partnership or group of physicians and surgeons or a partnership or group of podiatrists, respectively.

#### Article 19. Renewal of Licenses

2420. The provisions of this article apply to, determine the expiration of, and govern the renewal of, each of the following certificates, licenses, registrations, and permits issued by or under the Board of Medical Quality Assurance: physician's and surgeon's certificates, certificates to practice podiatric medicine, physical therapy licenses and approvals, registrations of dispensing opticians, certificates of drugless practitioners, certificates to practice midwifery, and fictitious-name permits.

- (b) "Licensee" includes the holder of a license.
- (c) "Licensing authority" means the appropriate division or

examining committee, under the board, which has jurisdiction over a particular licensee.

**2422.** All licenses expire and become invalid at 12 midnight on the last day of February of each even-numbered year if not renewed.

To renew an unexpired license, a licensee shall, on or before the date it would otherwise expire, apply for renewal on a form prescribed by the licensing authority and pay the prescribed renewal fee.

**2423.** Notwithstanding Section 2422, all physician's and surgeon's certificates, certificates to practice podiatric medicine, certificates of drugless practitioners, and certificates to practice midwifery shall expire at 12 midnight on the last day of the birth month of the licensee during the second year of a two-year term if not renewed.

The Division of Licensing shall establish by regulation procedures for the administration of a birth date renewal program, including, but not limited to, the establishment of a system of staggered license expiration dates such that a relatively equal number of licenses expire monthly.

To renew an unexpired license, the licensee shall, on or before the dates on which it would otherwise expire, apply for renewal on a form prescribed by the licensing authority and pay the prescribed renewal fee.

**2424.** (a) The Division of Licensing or Allied Health Professions, as the case may be, shall notify in writing by certified mail, return receipt requested, any physician and surgeon or any podiatrist who does not renew his or her license within 60 days from its date of expiration.

- (1) The biennial renewal fee in effect at the time of renewal.
- (2) A penalty fee equal to 50 percent of the biennial renewal fee.
- (3) The delinquency fee required by Section 2435.

(c) Notwithstanding any other provision of law, the renewal of any expired physician's and surgeon's or podiatrist's license within six months from its date of expiration shall be retroactive to the date of expiration of that license. The appropriate division, for good cause, may waive the 50 percent penalty fee and may extend retroactivity up to two years from the expiration date of any such license.

**2427.** Except as provided in Section 2429, a license which has expired may be renewed at any time within five years after its expiration on filing an application for renewal on a form prescribed by the licensing authority and payment of all accrued renewal fees and any other fees required by Section 2424. If the license is not renewed within 30 days after its expiration, the licensee, as a condition precedent to renewal, shall also pay the prescribed delinquency fee, if any. Except as provided in Section 2424, renewal under this section shall be effective on the date on which the renewal application is filed, on the date on which the renewal fee or accrued

renewal fees are paid, or on the date on which the delinquency fee or the delinquency fee and penalty fee, if any, are paid, whichever last occurs. If so renewed, the license shall continue in effect through the expiration date set forth in Section 2422 or 2423 which next occurs after the effective date of the renewal, when it shall expire and become invalid if it is not again renewed.

2428. A person who fails to renew his or her license within five years after its expiration may not renew it, and it may not be reissued, reinstated, or restored thereafter, but such person may apply for and obtain a new license if he or she:

(a) Has not committed any acts or crimes constituting grounds for denial of licensure under Division 1.5 (commencing with Section 475).

(b) Takes and passes the examination, if any, which would be required of him or her if application for licensure was being made for the first time, or otherwise establishes to the satisfaction of the licensing authority which passes on the qualifications of applicants for such license that, with due regard for the public interest, he or she is qualified to practice the profession or activity for which the applicant was originally licensed.

(c) Pays all of the fees that would be required if application for licensure was being made for the first time.

The licensing authority may provide for the waiver or refund of all or any part of an examination fee in those cases in which a license is issued without an examination pursuant to this section.

Nothing in this section shall be construed to authorize the issuance of a license for a professional activity or system or mode of healing for which licenses are no longer issued.

2429. (a) A license which is suspended for unprofessional conduct is subject to expiration and shall be renewed as provided in this article, but such renewal does not entitle the licensee, while the license remains suspended, and until it is reinstated, to engage in the licensed activity, or in any other activity or conduct in violation of the order or judgment by which the license was suspended.

(b) A license which is revoked for unprofessional conduct is subject to expiration as provided in this article, but it shall not be renewed. If it is reinstated by the licensing authority after its expiration, the licensee, as a condition precedent to reinstatement or restoration of licensure, shall pay a reinstatement fee which is an amount equal to the current renewal fee, plus the delinquency fee, if any.

2432. Upon filing an application therefor, containing such information as the licensing authority may require and accompanied by the required duplicate certificate fee, if any, a duplicate certificate may be issued to any person so licensed under the applicable provisions of law where the same certificate applied for has been previously issued or, where there has been a change in name, another certificate in lieu of one previously issued.

2433. Upon filing an application therefor, containing such

information as the licensing authority may require and accompanied by the required endorsement fee, if any, the licensure or credentials of the person so licensed may be endorsed or certified.

## Article 20. Revenue

2435. The following fees apply to physician's and surgeon's certificates, certificates to practice podiatric medicine, certificates of drugless practitioners and certificates to practice midwifery:

(a) Each applicant for a certificate by written examination, unless otherwise provided by this chapter, shall pay an application fee fixed by the board at an amount not to exceed one hundred dollars (\$100) nor less than fifteen dollars (\$15). If the applicant's credentials are insufficient or if the applicant does not desire to take the examination, the sum of ten dollars (\$10) shall be retained and the remainder of the fee is returnable to the applicant.

(b) Each applicant for a certificate based upon a national board diplomate certificate, and each applicant for a certificate based upon reciprocity, shall pay an application fee of ten dollars (\$10) at the time the application is filed. If the applicant qualifies for a certificate, he or she shall pay a fee which shall be fixed by the board at an amount not to exceed one hundred dollars (\$100) nor less than five dollars (\$5) for the issuance of the certificate.

(c) Each applicant for a certificate based upon a commission as a medical officer or as a public health service physician and surgeon shall pay an application fee of ten dollars (\$10) at the time the application is filed. If the applicant qualifies for a certificate, he or she shall pay a fee which shall be fixed by the board at an amount not to exceed forty dollars (\$40) nor less than five dollars (\$5) for the issuance of the certificate.

(d) Each applicant who qualifies for a certificate, as a condition precedent to its issuance, in addition to other fees required herein, shall pay an initial license fee, if any. The initial license fee shall be fixed by the board until January 1, 1982, at a sum not in excess of two hundred dollars (\$200), except that if the license will expire less than one year after its issuance, then the initial license fee is an amount equal to 50 percent of the initial license fee fixed by the board. Any licensee enrolled in an approved residency program shall be required to pay only 50 percent of the initial license fee in effect. The board may waive or refund the initial license fee where the license will expire within 45 days after it is issued.

(e) The biennial renewal fee shall be fixed by the board at an amount not to exceed two hundred dollars (\$200) until January 1, 1982. Any licensee enrolled in an approved residency program shall be required to pay only 50 percent of the biennial renewal fee at the time of his or her first renewal.

(f) The delinquency fee is twenty-five dollars (\$25) until January 1, 1982.

(g) The duplicate certificate fee is two dollars (\$2).

(h) The endorsement fee is five dollars (\$5).

2436. The fees in this article fixed by the board shall be set forth as regulations duly adopted by the Division of Licensing or the Division of Allied Health Professions, as the case may be.

2439. Every licensee is exempt from the payment of the renewal fee provided such licensee has practiced medicine or podiatry for 20 years or more in this state, has reached the age of retirement under the Social Security Act, and customarily provides his or her services free of charge to any person, organization, or agency. In the event that charges are made, such charges shall be nominal and in no event shall the aggregate of such charges in any single calendar year be in an amount which would result in his or her income being such as to make the practitioner ineligible for full social security benefits.

2440. (a) Every licensee is exempt from the payment of the renewal fee while engaged in full-time training or active service in the Army, Navy, Air Force, or Marines, or in the United States Public Health Service.

(b) Every person exempted from the payment of the renewal fee by this section shall not engage in any private practice and shall become liable for payment of such fee for the current renewal period upon his or her discharge from full-time active service and shall have a period of 60 days after becoming liable within which to pay the renewal fee before the delinquency fee is required. Any person who is discharged from active service within 60 days of the end of a renewal period is exempt from the payment of the renewal fee for that period.

(c) The time spent in full-time active service or training shall not be included in the computation of the five-year period for renewal and reinstatement of licensure provided in Sections 2425 and 2426.

2443. The following fees apply to fictitious name permits issued under Section 2415:

(a) The initial permit fee is an amount equal to the renewal fee in effect at the beginning of the current renewal cycle. If the permit will expire less than one year after its issuance, then the initial permit fee is an amount equal to 50 percent of the fee in effect at the beginning of the current renewal cycle.

(b) The biennial renewal fee shall be fixed by the Division of Licensing at an amount not to exceed twenty dollars (\$20) nor less than two dollars (\$2).

(c) The delinquency fee is ten dollars (\$10).

2445. All moneys paid to and received by the board shall be paid into the State Treasury and shall be credited to the Contingent Fund of the Board of Medical Quality Assurance. Such moneys shall be reported at the beginning of each month, for the month preceding, to the State Controller.

The contingent fund shall be for the use of the board and from it shall be paid all salaries and all other expenses necessarily incurred in carrying into effect the provisions of this chapter.

If there is any surplus in these receipts after the board's salaries and

expenses are paid, such surplus shall be applied solely to expenses incurred under the provisions of this chapter. No surplus in these receipts shall be deposited in or transferred to the General Fund.

2446. Unless otherwise expressly provided in this chapter, all fines imposed or forfeitures of bail collected by any court in connection with any violation of the provisions of this chapter shall, as soon as practicable after receipt thereof, be deposited with the county treasurer of the county in which such court is situated.

Amounts so deposited shall be paid at least once a month as follows:

(a) Seventy-five percent to the State Treasurer by warrant of the county auditor drawn upon the requisition of the clerk or judge of the court for deposit as provided in Section 2445.

(b) Twenty-five percent to the county where the case is pending.

2447. The board shall refund any fees, fines, or forfeitures in accordance with the provisions of Section 158. The board may expend from its contingent fund whatever sums may be necessary to carry out the provisions of this section.

The State Treasurer and all other officials having custody of the funds of the board shall upon request or direction of the board pay out the refunds or approve such payments from the contingent fund.

2448. Notwithstanding the possession by a licensee of a renewal receipt or other acknowledgement of renewal of licensure, a license issued and renewed may, at any time, be suspended, revoked, or forfeited as provided in this chapter without refund of any fees.

#### Article 21. Provisions Applicable to Osteopathic Physicians and Surgeons

2450. There is a Board of Osteopathic Examiners of the State of California, established by the Osteopathic Act, which enforces the provisions of this chapter relating to persons holding or applying for physician's and surgeon's certificates issued by the Board of Osteopathic Examiners under the Osteopathic Act.

Persons who elect to practice using the term of suffix "M.D.," as provided in Section 2275, shall not be subject to the provisions of this article, and the Board of Medical Quality Assurance shall enforce the provisions of this chapter relating to such persons who made such election.

2451. The words "Board of Medical Quality Assurance," the term "board," or any reference to a division of the Board of Medical Quality Assurance as used in this chapter shall be deemed to mean the Board of Osteopathic Examiners, where that board exercises the functions granted to it by the Osteopathic Act.

2452. The provisions of this chapter apply to the Board of Osteopathic Examiners so far as consistent with the Osteopathic Act. Unless otherwise provided, the provisions of this article are administered by the board.

2453. (a) It is the policy of this state that holders of M.D. degrees and D.O. degrees shall be accorded equal professional status and

privileges as licensed physicians and surgeons.

(b) Notwithstanding any other provision of law, no health facility subject to licensure under Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code, and no agency of the state or of any city, county, city and county, district, or other political subdivision of the state shall discriminate with respect to employment, staff privileges, or the provision of professional services against a licensed physician and surgeon on the basis of whether the physician and surgeon holds an M.D. or D.O. degree. However, this subdivision shall not prohibit a school of allopathic medicine or a school of osteopathic medicine from employing a physician and surgeon as an instructor on the basis of whether the physician and surgeon holds an M.D. or D.O. degree, where the subject matter to be taught specifically requires allopathic or osteopathic training and experience.

(c) Any violation of the provisions of subdivision (b) may be enjoined in an action brought in the name of the people of the State of California by the district attorney of the county in which the violation occurs, upon receipt of a complaint by an aggrieved physician and surgeon.

2455. The amount of fees and refunds is that fixed by the following schedule for any certificate issued by the Board of Osteopathic Examiners. All other fees and refunds for any certificate issued by the Board of Osteopathic Examiners and which are not prescribed in this schedule, are prescribed in Sections 2435 and 2443.

(a) The fee for each applicant for a certificate, unless otherwise provided, shall be set by the board on or before November 1st of each year for the ensuing calendar year at such sum as the board determines necessary to defray the expenses of administering the provisions of this chapter, under the Osteopathic Act, relating to the issuance of certificates to such applicants, which sum, however, shall, until December 31, 1982, not exceed two hundred dollars (\$200) nor be less than twenty-five dollars (\$25). In addition, an annual tax and registration fee shall be set by the board on or before November 1st of each year which shall not exceed two hundred dollars (\$200) nor be less than ten dollars (\$10) until December 31, 1982. If the applicant's credentials are insufficient, or if he or she does not desire to take the examination, or if the applicant fails to receive a certificate, the sum of ten dollars (\$10) shall be retained and the remainder of the fee is returnable on application.

(b) Each applicant for a reciprocity certificate shall pay an application fee in the sum of ten dollars (\$10) at the time his or her application is filed. If the applicant qualifies for a certificate, he or she shall be notified and shall pay a fee which shall be fixed annually by the board, until December 31, 1982, at a sum not in excess of two hundred dollars (\$200) nor less than twenty-five dollars (\$25) for the issuance of a certificate.

(c) The fee for failure to pay the annual tax and registration fee is fifty dollars (\$50).

(d) The board shall set an annual tax registration fee in an amount less than that levied pursuant to subdivision (a) which shall be paid by any applicant who indicates to the board in writing that he or she does not intend to practice under the Osteopathic Act during the renewal period covered by such annual tax and registration fee. The annual tax and registration fee levied pursuant to this subdivision shall be in effect until December 31, 1982, and after December 31, 1982, shall not be levied.

2456. (a) Each person holding a certificate issued by the Board of Osteopathic Examiners residing in or out of California shall pay to the secretary-treasurer of the board an annual tax and registration fee on or before the first day of January of each year.

(b) Fictitious name permits issued by the Board of Osteopathic Examiners as provided in Section 2415 shall expire on December 31st of each year, and may be renewed by the board on payment of a fee equal to the annual tax and registration fee in Section 2455.

2457. The failure of any person holding a certificate issued by the Board of Osteopathic Examiners to pay the annual tax and registration fee during the time his or her certificate remains in force, shall automatically work a forfeiture of his or her certificate after a period of 60 days from the first day of January of each year.

The certificate shall not be restored except upon written application and the payment to the Board of Osteopathic Examiners of the fee provided by this article. No examination shall be required for the reissuance of a certificate that was forfeited under the provisions of this section.

2458. When the prosecution for a violation of the provisions of this chapter is initiated by the Board of Osteopathic Examiners, 75 percent of all fines and forfeitures of bail shall be paid upon the collection by the proper officer of the court to the board to be deposited by it to the credit of the contingent fund of the Board of Osteopathic Examiners.

The payment to the board shall be made without placing the fine or forfeiture of bail in any special, contingent, or general fund in any city, county, or city and county.

2459. The Board of Osteopathic Examiners shall not issue any drugless practitioner's certificates under any of the provisions of this chapter or any other law.

All persons holding drugless practitioners' certificates may continue to practice under the authorization of their certificates and may renew them, subject to the provisions of this chapter.

## Article 22. Podiatric Medicine

2460. There is created within the jurisdiction of the Division of Allied Health Professions of the Board of Medical Quality Assurance, a Podiatry Examining Committee.

2465. No person who directly or indirectly owns any interest in any college, school, or other institution engaged in podiatric medical instruction shall be appointed to the committee or shall any incumbent member of the committee have or acquire any interest, direct or indirect, in any such college, school, or institution.

2466. All members of the committee shall be appointed for terms of four years. Vacancies shall immediately be filled by the Governor for the unexpired portion of the terms in which they occur. In filling vacancies, the Governor shall consider recommendations as provided in Section 2462. No person shall serve as a member of the committee for more than two consecutive terms.

2467. (a) The committee shall hold at least one regular meeting annually in the County of Sacramento, the County of Los Angeles, and the City and County of San Francisco or the environs of any such county or city and county. The committee may otherwise convene from time to time as it deems necessary. Other meetings of the committee may be held at such places as the committee may

designate.

(b) Four members of the committee constitute a quorum for the transaction of business at any meeting.

(c) It shall require the affirmative vote of a majority of those members present at a meeting, such members constituting at least a quorum, to pass any motion, resolution, or measure.

(d) The committee shall annually elect one of its members to act as a chairperson and a member to act as vice chairperson who shall hold their respective positions at the pleasure of the committee. The chairperson may call meetings of any duly appointed subcommittee at a specified time and place.

2468. Notice of each meeting of the committee shall be given twice a week for two weeks next preceding the meeting in one daily newspaper published in the Cities of Sacramento, San Francisco, and Los Angeles. Subcommittee meetings need not be advertised.

2469. Each member of the committee shall receive per diem and expenses as provided in Section 2016.

2470. The committee may recommend to the board the adoption, amendment, or repeal of rules and regulations relating to the practice of podiatric medicine.

2472. The certificate to practice podiatric medicine authorizes the holder to practice podiatric medicine.

As used in this chapter, "podiatric medicine" means the diagnosis, medical, surgical, mechanical, manipulative, and electrical treatment of the human foot, including the nonsurgical treatment of the muscles and tendons of the leg governing the functions of the foot.

No podiatrist shall do any amputation or administer an anesthetic other than local.

2474. Any person who uses in any sign or in any advertisement or otherwise, the word or words "podiatrist," "foot specialist," or any other term or terms or any letters indicating or implying that he or she is a podiatrist, or that he or she practices podiatric medicine, or holds himself out as practicing podiatric medicine or foot correction as defined in Section 2473, without having at the time of so doing a valid, unrevoked, and unsuspended certificate as provided for in this chapter, is guilty of a misdemeanor.

2475. Unless otherwise provided by law, no postgraduate trainee, intern, resident postdoctoral fellow, or instructor may engage in the practice of podiatric medicine, or receive compensation therefor, or offer to engage in the practice of podiatric medicine unless he or she holds a valid, unrevoked, and unsuspended certificate to practice podiatric medicine issued by the board. However, a graduate of an approved college or school of podiatric medicine upon whom the degree doctor of podiatric medicine, doctor of podiatry, or doctor of surgical chiropody has been conferred, who is registered with the board, and who is enrolled in a postgraduate training program approved by the board, may engage in the practice of podiatric medicine whenever and wherever required as a part of such

program under the following conditions:

(a) A graduate in an approved internship, residency, or fellowship program may engage in the practice of medicine for a period not to exceed two years wherever and whenever required as a part of the training program, and may receive compensation for such practice. Such graduate shall qualify for, take, and pass the next succeeding written examination for licensure given by the committee, or shall qualify for and receive a certificate to practice podiatric medicine by one of the other methods specified in this article. If such a graduate shall fail to receive a license to practice podiatric medicine under this chapter within two years from the commencement of the postgraduate training, all privileges and exemptions under this section shall automatically cease.

(b) Podiatric hospitals functioning as a part of the teaching program of an approved college or school of podiatric medicine in this state may exchange instructors or resident or assistant resident podiatrists with another approved college or school of podiatric medicine not located in this state, or such hospitals may appoint a graduate of an approved school as such a resident for purposes of postgraduate training. Such instructors and residents may practice and be compensated as provided in subdivision (a), but such practice and compensation shall be for a period not to exceed one year.

2476. Nothing in this chapter shall be construed to prevent a regularly matriculated student undertaking a course of professional instruction in an approved college or school of podiatric medicine from engaging in the practice of medicine whenever and wherever prescribed as part of his or her course of study.

2477. Nothing in this chapter prohibits the manufacture, the recommendation, or the sale of either corrective shoes or appliances for the human feet.

2479. The board shall issue a certificate to practice podiatric medicine to each applicant who meets the requirements of this chapter. Every applicant for a certificate to practice podiatric medicine shall comply with the provisions of Article 4 (commencing with Section 2080) which are not specifically applicable to applicants for a physician's and surgeon's certificate, in addition to the provisions of this article.

2480. 2481. Each applicant who commenced professional instruction in podiatric medicine after September 1, 1959, shall present an official transcript or other official evidence to the committee that he or she has completed two years of preprofessional postsecondary education, or its equivalent, including the subjects of chemistry, biology or other biological science, and physics or mathematics, before completing

the resident course of professional instruction.

2483. (a) Each applicant for a certificate to practice podiatric medicine shall show by official transcript or other official evidence satisfactory to the committee that he or she has successfully completed a medical curriculum extending over a period of at least four academic years in a college or school of podiatric medicine approved by the board. (a) The application is filed within five years after the date of issuance of the diplomate certificate. If the application is filed later than five years, the applicant takes and passes an oral examination administered by the committee in accordance with Sections 2147 and 2148.

(b) The applicant graduated from an approved school or college of podiatric medicine after June 30, 1958.

(c) The standards of the national board on the date the diplomate certificate was issued were in no degree or particular less than those required for a certificate to practice podiatric medicine under this

chapter on the same date.

(d) The applicant has committed no acts or crimes constituting grounds for denial of a certificate under Division 1.5 (commencing with Section 475).

2487. (a) The board shall issue a certificate to practice podiatric medicine by reciprocity if the applicant meets the requirements of this chapter. The provisions of Article 7 (commencing with Section 2135) shall apply to applicants for a certificate to practice podiatric medicine by reciprocity, except where such provisions are in conflict with or inconsistent with the provisions of this article. In respect to applicants for a certificate to practice podiatric medicine by reciprocity, any references to the "Division of Licensing" or "division" shall be deemed to apply to the committee.

(b) No person who graduated from a school or college of podiatric medicine before July 1, 1958, shall be eligible for a reciprocity certificate.

2488. Notwithstanding any other provision of law, the board shall issue a certificate to practice podiatric medicine by reciprocity to an applicant if the following requirements are met:

(a) The applicant is licensed as a podiatrist in any other state whose written licensing examination is recognized by the board to be the equivalent in content to that administered in this state.

(b) The applicant has been issued after June 30, 1958, a diplomate certificate by the National Board of Podiatry Examiners of the United States or has passed, after June 30, 1958, a written examination which is recognized by the board to be the equivalent in content to that administered in this state.

(c) The applicant has practiced as a licensed podiatrist for at least four years.

(d) The applicant takes and passes an oral and practical examination to ascertain clinical competence.

(e) The committee determines that no disciplinary action has been taken against the applicant by any podiatric licensing authority and that the applicant has not been the subject of adverse judgments or settlements resulting from the practice of podiatric medicine which the committee determines constitutes evidence of a pattern of negligence or incompetence.

2489. The board or committee shall not reject an application for a certificate to practice podiatric medicine by reciprocity solely on the basis that the podiatric licensing authority issuing the applicant's certificate or license permitted the applicant to take the basic science examination given by the National Board of Medical Examiners or the National Board of Podiatry Examiners, as a part of that state's qualifying examination.

2492. (a) The committee shall examine every applicant for a certificate to practice podiatric medicine at the time and place designated by the committee in its discretion, but at least once a year.

(b) The committee shall perform all examination functions

pertaining to applicants under this article and may participate in uniform examination systems. For that purpose the committee may make such arrangements with organizations furnishing examination material as it may deem desirable.

(b) Any applicant for a certificate to practice podiatric medicine who obtains a score of 75 percent or more in five subjects shall be reexamined in those subjects only in which he or she failed.

2495. Notwithstanding any other provision of this chapter, the board may delegate to any member of the board or to the committee, its authority to approve applicants for admission to the examination and to approve the issuance of certificates to practice podiatric medicine under this article to applicants who have met the requirements therefor. The board and committee may further delegate to officials of the board the authority to approve the admission of applicants to the examination and to approve the issuance of certificates to practice podiatric medicine to applicants who have met the specific requirements therefor in routine cases where applicants clearly meet the requirements of this chapter.

2496. In order to insure the continuing competence of persons licensed to practice podiatric medicine, the committee shall adopt and administer regulations in accordance with the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code) requiring continuing education of such licensees. The committee shall require such licensees to demonstrate satisfaction of the continuing education requirements at each license renewal.

2497. (a) The committee may order the denial of an application for, or the suspension of, or the revocation of, or the imposition of probationary conditions upon, a certificate to practice podiatric

medicine for any of the causes set forth in Article 12 (commencing with Section 2220) in accordance with Section 2222.

(b) The committee may hear all matters, including but not limited to, any contested case or any petition for reinstatement or modification of probation, or may assign any such matters to an administrative law judge. Such proceedings shall be held in accordance with Section 2230. If a contested case is heard by the committee itself, the administrative law judge who presided at the hearing shall be present during the committee's consideration of the case and shall assist and advise the committee.

(c) After the hearing, the board shall deny an application for, or suspend or revoke, or impose probationary conditions upon, or reinstate, a certificate as ordered by the committee in any decision made after a hearing as provided in subdivision (b).

2498. (a) The committee shall have the responsibility for reviewing the quality of podiatric medical practice carried out by persons licensed to practice podiatric medicine.

(b) Each member of the committee, or any licensed podiatrist appointed by the committee, shall additionally have the authority to inspect, or require reports from, a general or specialized hospital and the podiatric staff thereof, with respect to the podiatric care, services, or facilities provided therein, and may inspect podiatric patient records with respect to such care, services, or facilities. The authority to make inspections and to require reports as provided by this section shall not be delegated by a member of the committee to any person other than a podiatrist and shall be subject to the restrictions against disclosure described in Section 2263.

2499. (a) There is in the State Treasury the Podiatry Fund. Notwithstanding Section 2445, the board shall report to the Controller at the beginning of each calendar month for the month preceding the amount and source of all revenue received by it on behalf of the committee, pursuant to this chapter, and shall pay the entire amount thereof to the Treasurer for deposit into such fund. On and after July 1, 1981, all revenue received by the committee and the board from fees authorized to be charged relating to the practice of podiatry shall be deposited in such fund as provided in this section, and shall be continuously appropriated to the committee to carry out the provisions of this chapter relating to the regulation of the practice of podiatry.

(b) On and after July 1, 1981, the unencumbered balance of any funds in the Contingency Fund of the Board of Medical Quality Assurance derived from fees and revenue received from licensed podiatrists and applicants for such a license or registration, shall be transferred to the Podiatry Fund and shall be expended as provided in this section.

4926. In its concern with the need to eliminate the fundamental causes of illness, not simply to remove symptoms, and with the need to treat the whole person, the Legislature intends to establish in this article, a framework for the practice of the art and science of oriental medicine through acupuncture.

The purpose of this article is to encourage the more effective utilization of the skills of acupuncturists by California citizens desiring a holistic approach to health and to remove the existing legal constraints which are an unnecessary hindrance to the more effective provision of health care services. Also, as it effects the public health, safety, and welfare, there is a necessity that individuals practicing acupuncture be subject to regulation and control as a primary health care profession.

(a) "Committee" means the Acupuncture Advisory Committee.

(b) "Board" means the Division of Allied Health Professions of the Board of Medical Quality Assurance.

(c) "Person" means any individual, organization, or corporate body, except that only individuals can be certified under this article.

4931. Each member of the committee shall receive per diem and expenses as provided in Section 103.

4933. The board shall administer the provisions of this chapter.

The board may adopt, amend, or repeal, in accordance with the provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), such regulations as may be necessary to enable it to carry into effect the provisions of law relating to the practice of acupuncture.

- (d) Conviction of a crime substantially related to the qualifications, functions, or duties of an acupuncturist, the record of conviction being conclusive evidence thereof.
- (e) Improper advertising.
- (f) Violating or conspiring to violate the terms of this chapter.

4956. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge which is substantially related to the qualifications, functions, or duties of an acupuncturist is deemed to be a conviction within the meaning of this chapter.

The board may order a certificate suspended or revoked, or may deny a certificate, or may impose probationary conditions upon a certificate, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his or her pleas of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, complaint, information, or indictment.

4960. Disciplinary proceedings under this article shall be conducted pursuant to the Administrative Procedure Act (Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code).

4961. An acupuncturist shall post his or her certificate in a conspicuous location in his or her place of practice at all times.

To renew an unexpired certificate, the holder shall apply for renewal on a form provided by the board and pay the renewal fee fixed by the board.

4969. (a) A suspended certificate is subject to expiration and shall be renewed as provided in this article, but such renewal does not entitle the acupuncturist, while the certificate remains suspended, and until it is reinstated, to engage in the practice of acupuncture, or in any other activity or conduct in violation of the order or judgment by which the certificate was suspended.

(b) A revoked certificate is subject to expiration as provided in

this article, but it may not be renewed. If it is reinstated after its expiration, the former licensee, as a condition to reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last regular renewal date before the date on which the certificate was reinstated, plus the delinquency fee, if any, accrued at the time of its expiration.

### CHAPTER 12. ACUPUNCTURE

#### Article 1. Administration and General Provisions

4925. This chapter constitutes the chapter on acupuncture of the

**Business and Professions Code.**

This chapter shall be known and may be cited as the Acupuncture Certification Act. Whenever a reference is made to the Acupuncture Certification Act by the provisions of any statute, it is to be construed as referring to the provisions of this chapter.

4926. In its concern with the need to eliminate the fundamental causes of illness, not simply to remove symptoms, and with the need to treat the whole person, the Legislature intends to establish in this article, a framework for the practice of the art and science of oriental medicine through acupuncture.

The purpose of this article is to encourage the more effective utilization of the skills of acupuncturists by California citizens desiring a holistic approach to health and to remove the existing legal constraints which are an unnecessary hinderance to the more effective provision of health care services. Also, as it effects the public health, safety, and welfare, there is a necessity that individuals practicing acupuncture be subject to regulation and control as a primary health care profession.

4927. As used in this chapter, unless the context otherwise requires:

(a) "Committee" means the Acupuncture Examining Committee.

(b) "Board" means the Division of Allied Health Professions of the Board of Medical Quality Assurance.

(c) "Person" means any individual, organization, or corporate body, except that only individuals can be certified under this article.

(d) "Acupuncturist" means a person who is certified to practice acupuncture.

(e) "Acupuncture" means the stimulation of a certain point or points on or near the surface of the body by the insertion of needles to prevent or modify the perception of pain or to normalize physiological functions, including pain control, for the treatment of certain diseases or dysfunctions of the body and includes the techniques of electroacupuncture, cupping, and moxibustion.

4928. There is within the jurisdiction of the board an Acupuncture Examining Committee which consist of 11 members appointed by the Governor.

4929. Five members of the committee shall be acupuncturists with 10 years of experience in acupuncture and not licensed as physicians and surgeons, two members of the committee shall be physicians and surgeons licensed in this state with two years of experience in acupuncture, and four members shall be public members who do not hold a license or certificate as a physician and surgeon or acupuncturist.

4930. Each member of the committee shall be appointed by the Governor for a term of three years.

4931. Each member of the committee shall receive per diem and expenses as provided in Section 103.

4933. The committee shall administer the provisions of this chapter.

The committee may adopt, amend, or repeal, in accordance with the provisions of the Administrative Procedure Act (Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2 of the Government Code), such regulations as may be necessary to enable it to carry into effect the provisions of law relating to the practice of acupuncture. All regulations adopted, amended or repealed by the committee shall be subject to the review and approval of the board.

4934. The board shall employ personnel necessary for the administration of this chapter, however, the committee may appoint an executive officer who is exempt from the provisions of the Civil Service Act.

## Article 2. Certification Requirements

(f) A group contract shall not discriminate against handicapped persons or against groups containing handicapped persons. Nothing in this subdivision shall preclude reasonable provisions in a plan contract against liability for services or reimbursement of the handicap condition or conditions relating thereto, as may be allowed by rules of the commissioner.

(h) A health care service plan or specialized health care service plan may provide for coverage of, or for payment for, professional mental health services, or vision care services, or for the exclusion of such services. No plan shall prohibit the member from selecting any psychologist who is licensed pursuant to the Psychology Licensing Law or, upon referral by a physician and surgeon licensed pursuant to the Medical Practice Act, a licensed clinical social worker who is the holder of a license under Section 9040 of the Business and Professions Code, or any optometrist who is the holder of a certificate issued pursuant to Chapter 7 (commencing with Section 3000) of Division 2 of the Business and Professions Code, to perform the particular services covered under the terms of the plan, such certificate holder being expressly authorized by law to perform such services. In a psychology clinic, any charges to the patient shall be based on the patient's ability to pay, utilizing a sliding fee scale. No corporation other than a nonprofit corporation, exempt from federal taxation under paragraph (3), subsection (c) of Section 501 of the Internal Revenue Code of 1954, as amended, or a statutory successor thereof, shall operate a psychology clinic.

Only a psychology clinic may be licensed under this chapter to exclusively provide psychological advice, services, or treatment. However, nothing in this subdivision precludes clinics specified in Section 1204 from providing psychological advice, services, or treatment as included within, or adjunctive to, medical advice, services, or treatment provided by such clinics.

SEC. 5. Section 1209 of the Health and Safety Code is amended to read:

1209. This chapter does not authorize any person other than a licensed practitioner of a healing art, or any corporation except charitable or professional corporations as expressly provided in this chapter, to furnish to any person any advice, services, or treatment within the scope of such professional licensure.

This chapter does not authorize any person, other than a licentiate of a healing art acting within the scope of his or her license, to engage directly or indirectly in the practice of medicine and surgery, dentistry, optometry, podiatry, psychology, or pharmacy.

This chapter does not regulate, govern, or affect in any manner the practice of medicine and surgery, pharmacy, dentistry, optometry, chiropractic, podiatry, psychology, or drugless healing by any person duly licensed to engage in such practice.

1214.5. Each application under this chapter for an initial license, renewal license, license upon change of ownership, or special permit for a psychology clinic shall be accompanied by a fee of thirty dollars (\$30).

SEC. 7. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be because this act creates a new crime or infraction, changes the definition of a crime or infraction, or eliminates a crime or infraction. Furthermore, this act does not create any present or future obligation to reimburse any local agency or school district for any costs incurred because of this act.

(b) Any clinic directly conducted, maintained or operated by the United States or by any of its departments, officers, or agencies, and any primary care clinic specified in subdivision (a) of Section 1204 which is directly conducted, maintained, or operated by this state or by any of its political subdivisions or districts, or by any city. Nothing in this subdivision shall preclude the state department from adopting regulations which utilize clinic licensing standards as eligibility criteria for participation in programs funded wholly or partially under Title XVIII or XIX of the federal Social Security Act.

(c) Any clinic conducted, maintained or operated by a federally recognized Indian tribe or tribal organization, as defined in Section 450 or 1601 of Title 25 of the United States Code, and which is located on land recognized as tribal land by the federal government.

(d) Clinics conducted, operated, or maintained as outpatient departments of hospitals.

(e) Any facility licensed as a health facility under the provisions of Chapter 2 (commencing with Section 1250) of this division.

(f) Any freestanding clinical or pathological laboratory licensed under the provisions of Chapter 3 (commencing with Section 1200) of Division 2 of the Business and Professions Code.

## CHAPTER 1318

An act to amend Section 188.8 of, and to add Sections 188.9 and 189.1 to, the Streets and Highways Code, relating to transportation.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 188.8 of the Streets and Highways Code is amended to read:

188.8. Out of the money expended pursuant to Section 188, the commission shall allocate and the department shall expend, or cause to be expended, in each state transportation district of County Group No. 1 and in each state transportation district of County Group No. 2 during the period commencing July 1, 1971, and ending June 30, 1975, and for each period of four years, thereafter, not less than an amount computed as follows:

(a) The commission shall compute for each period of four years an amount equal to 70 percent of the moneys to be expended in County

Groups Nos. 1 and 2, respectively, as provided in Section 188.

(b) From the amount computed for County Group No. 1 in subdivision (a) for the period ending June 30, 1979, the commission shall determine the minimum expenditure for each transportation district in the group by applying the percentages specified on page 13798 of the Assembly Daily Journal for June 5, 1974.

(c) From the amount computed for County Group No. 2 in subdivision (a) for the period ending June 30, 1979, the commission shall determine the minimum expenditure for each transportation district in the group by applying the percentages specified on page 13798 of the Assembly Daily Journal for June 5, 1974.

For purposes of this section, state transportation districts shall be identical to those state highway districts established by the department for administrative purposes as of June 30, 1960, except as provided in Section 189.1.

For each four-year period subsequent to June 30, 1983, a percentage for each state transportation district as listed in subdivisions (b) and (c) shall be computed on the basis of an estimate of existing state highway and exclusive public mass transit guideway construction needs to be funded from the State Highway Account in the State Transportation Fund. The revised percentages shall be used in computing minimum expenditures for each district. The first such estimate of construction needs shall be filed with the Legislature and be published in the respective Journals of the Senate and the Assembly not later than January 15, 1981, and shall govern minimum expenditure computations for the period commencing July 1, 1983, and ending June 30, 1987. Not later than January 15, 1985, and each four years thereafter, a new estimate shall be filed and published and shall govern the minimum expenditure computations for the four-year period commencing July 1, 1987, and for each succeeding four-year period.

Except as provided in this paragraph, the entire obligation under a contract awarded or a day labor project commenced during any of the periods shall be deemed an expenditure within the period in which such contract was awarded or day labor project commenced. Obligations under contracts which have been awarded or day labor projects which have been commenced but which are to be budgeted over more than one fiscal year pursuant to Section 170, shall be deemed expenditures in each of the fiscal years in which the work is to be performed in an amount equal to the final amount budgeted for each such fiscal year for such work.

SEC. 2. Section 188.9 is added to the Streets and Highways Code, to read:

188.9. Notwithstanding any other provision of law, any increases in the discretionary funds allocated by the commission under Section 188.8 to Orange County, as the result of the creation of State Transportation District 12, over the amount specified for Orange County in the 1980 State Transportation Improvement Program shall not decrease the amount of discretionary funds allocated by the

commission to any state transportation district except State Transportation District 7. The allocation of discretionary funds to District 7 shall not be increased for the purpose of allowing increased allocations to District 12.

SEC. 3. Section 189.1 is added to the Streets and Highways Code, to read:

189.1. (a) Notwithstanding any other provision of law, State Transportation District 12, consisting of the County of Orange, is hereby created on July 1, 1983.

(b) After the creation of State Transportation District 12, the minimum expenditure for former State Transportation District 7 shall continue to be determined under Section 188.8 in the same manner. However, after the determination has been made under Section 188.8 for the former State Transportation District 7, the minimum expenditure shall be divided between State Transportation District 7 and State Transportation District 12. The minimum expenditure for State Transportation District 12 and Ventura County under this section shall be determined by the needs of Orange County and Ventura County, respectively, which are included in determining the needs of former District 7 under Section 188.8. The minimum expenditure for District 7 shall then be reduced by the minimum expenditure for District 12.

The minimum expenditures for Ventura County and Los Angeles County under this section shall also be determined by the needs of both counties which are included in determining the needs of former District 7 under Section 188.8.

On and after July 1, 1983, out of the money expended pursuant to Section 188.8, the commission shall allocate and the department shall expend, or cause to be expended, moneys in District 12, Los Angeles County and Ventura County in accordance with this section, except as provided in subdivision (c).

(c) The commission shall not delete, delay, or decrease the amount allocated to any state highway or exclusive public mass transit guideway project included in the 1980 State Transportation Improvement Program and any subsequent state transportation improvement program in any state transportation district, except District 7, on the basis of the creation of District 12. If the allocation of funds pursuant to subdivision (b) results in such deletions, delays, or decreases, the commission, notwithstanding Section 188.8 and subdivision (b), shall adjust the allocations to or within Districts 7 and 12 to ensure that such a result shall not occur.

(d) The implementation of this section shall not affect the allocation of funds pursuant to Section 188.

(e) The sole purpose of this section is to establish minimum expenditure requirements for Districts 7 and 12. This section shall not require that a separate district organization, staff, or facilities be established in the County of Orange.

## CHAPTER 1319

An act to amend Section 781 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor September 30, 1980. Filed with Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

**SECTION 1.** Section 781 of the Welfare and Institutions Code is amended to read:

781. (a) In any case in which a petition has been filed with a juvenile court to commence proceedings to adjudge a person a ward of the court, in any case in which a person is cited to appear before a probation officer or is taken before a probation officer pursuant to Section 626, or in any case in which a minor is taken before any officer of a law enforcement agency, the person or the county probation officer may, five years or more after the jurisdiction of the juvenile court has terminated as to the person, or, in a case in which no petition is filed, five years or more after the person was cited to appear before a probation officer or was taken before a probation officer pursuant to Section 626 or was taken before any officer of a law enforcement agency, or, in any case, at any time after the person has reached the age of 18 years, petition the court for sealing of the records, including records of arrest, relating to the person's case, in the custody of the juvenile court and probation officer and any other agencies, including law enforcement agencies, and public officials as petitioner alleges, in his or her petition, to have custody of such records. The court shall notify the district attorney of the county and the county probation officer, if he or she is not the petitioner of the petition, and such district attorney or probation officer or any of their deputies or any other person having relevant evidence may testify at the hearing on the petition. If, after hearing, the court finds that since such termination of jurisdiction or action pursuant to Section 626, as the case may be, he or she has not been convicted of a felony or of any misdemeanor involving moral turpitude and that rehabilitation has been attained to the satisfaction of the court, it shall order sealed all records, papers, and exhibits in the person's case in the custody of the juvenile court, including the juvenile court record, minute book entries, and entries on dockets, and other records relating to the case in the custody of such other agencies and officials as are named in the order. Thereafter, the proceedings in such case shall be deemed never to have occurred, and the person may properly reply accordingly to any inquiry about the events, records of which are ordered sealed. The court shall send a copy of the order to each agency and official named therein, and each such agency and official shall seal records in its custody as directed by the order, shall advise the court of its compliance, and thereupon shall

seal the copy of the court's order for sealing of records that it, he, or she received. The person who is the subject of records sealed pursuant to this section may petition the superior court to permit inspection of the records by persons named in the petition, and the superior court may so order. Otherwise, except as provided in subdivision (b), such records shall not be open to inspection.

(b) In any action or proceeding based upon defamation, a court, upon a showing of good cause, may order any records sealed under this section to be opened and admitted into evidence. The records shall be confidential and shall be available for inspection only by the court, jury, parties, counsel for the parties, and any other person who is authorized by the court to inspect them. Upon the judgment in the action or proceeding becoming final, the court shall order the records sealed.

(c) (1) The provisions of subdivision (a) shall not apply to Department of Motor Vehicle records of any convictions for offenses under the Vehicle Code or any local ordinance relating to the operation, stopping and standing, or parking of a vehicle where the record of any such conviction would be a public record under Section 1808 of the Vehicle Code. However, if a court orders a case record containing any such conviction to be sealed under this section, and if the Department of Motor Vehicles maintains a public record of such a conviction, the court shall notify the Department of Motor Vehicles of the sealing and the department shall advise the court of its receipt of the notice.

Notwithstanding any other provision of law, subsequent to such notification, the Department of Motor Vehicles shall allow access to its record of such convictions only to the subject of the record and to insurers which have been granted requester code numbers by the department. Any insurer to which such a record of conviction is disclosed, when such a conviction record has otherwise been sealed under this section, shall be given notice of the sealing when the record is disclosed to the insurer. The insurer may use the information contained in the record for purposes of determining eligibility for insurance and insurance rates for the subject of the record, and the information shall not be used for any other purpose nor shall it be disclosed by an insurer to any person or party not having access to the record.

(2) This subdivision shall not be construed as preventing the sealing of any record which is maintained by any agency or party other than the Department of Motor Vehicles.

(3) This subdivision shall not be construed as affecting the procedures or authority of the Department of Motor Vehicles for purging department records.

SEC. 2. Section 781 of the Welfare and Institutions Code is amended to read:

781. (a) In any case in which a petition has been filed with a juvenile court to commence proceedings to adjudge a person a ward of the court, in any case in which a person is cited to appear before

a probation officer or is taken before a probation officer pursuant to Section 626, or in any case in which a minor is taken before any officer of a law enforcement agency, the person or the county probation officer may, five years or more after the jurisdiction of the juvenile court has terminated as to the person, or, in a case in which no petition is filed, five years or more after the person was cited to appear before a probation officer or was taken before a probation officer pursuant to Section 626 or was taken before any officer of a law enforcement agency, or, in any case, at any time after the person has reached the age of 18 years, petition the court for sealing of the records, including records of arrest, relating to the person's case, in the custody of the juvenile court and probation officer and any other agencies, including law enforcement agencies, and public officials as petitioner alleges, in his or her petition, to have custody of such records. The court shall notify the district attorney of the county and the county probation officer, if he or she is not the petitioner of the petition, and such district attorney or probation officer or any of their deputies or any other person having relevant evidence may testify at the hearing on the petition. If, after hearing, the court finds that since such termination of jurisdiction or action pursuant to Section 626, as the case may be, he or she has not been convicted of a felony or of any misdemeanor involving moral turpitude and that rehabilitation has been attained to the satisfaction of the court, it shall order sealed all records, papers, and exhibits in the person's case in the custody of the juvenile court, including the juvenile court record, minute book entries, and entries on dockets, and other records relating to the case in the custody of such other agencies and officials as are named in the order. Thereafter, the proceedings in such case shall be deemed never to have occurred, and the person may properly reply accordingly to any inquiry about the events, records of which are ordered sealed. The court shall send a copy of the order to each agency and official named therein, directing the agency to seal its records and five years thereafter to destroy the sealed records. Each such agency and official shall seal records in its custody as directed by the order, shall advise the court of its compliance, and thereupon shall seal the copy of the court's order for sealing of records that it, he, or she received. The person who is the subject of records sealed pursuant to this section may petition the superior court to permit inspection of the records by persons named in the petition, and the superior court may so order. Otherwise, except as provided in subdivision (b), such records shall not be open to inspection.

(b) In any action or proceeding based upon defamation, a court, upon a showing of good cause, may order any records sealed under this section to be opened and admitted into evidence. The records shall be confidential and shall be available for inspection only by the court, jury, parties, counsel for the parties, and any other person who is authorized by the court to inspect them. Upon the judgment in the action or proceeding becoming final, the court shall order the

records sealed.

(c) (1) The provisions of subdivision (a) shall not apply to Department of Motor Vehicle records of any convictions for offenses under the Vehicle Code or any local ordinance relating to the operation, stopping and standing, or parking of a vehicle where the record of any such conviction would be a public record under Section 1808 of the Vehicle Code. However, if a court orders a case record containing any such conviction to be sealed under this section, and if the Department of Motor Vehicles maintains a public record of such a conviction, the court shall notify the Department of Motor Vehicles of the sealing and the department shall advise the court of its receipt of the notice.

Notwithstanding any other provision of law, subsequent to such notification, the Department of Motor Vehicles shall allow access to its record of such convictions only to the subject of the record and to insurers which have been granted requester code numbers by the department. Any insurer to which such a record of conviction is disclosed, when such a conviction record has otherwise been sealed under this section, shall be given notice of the sealing when the record is disclosed to the insurer. The insurer may use the information contained in the record for purposes of determining eligibility for insurance and insurance rates for the subject of the record, and the information shall not be used for any other purpose nor shall it be disclosed by an insurer to any person or party not having access to the record.

(2) This subdivision shall not be construed as preventing the sealing of any record which is maintained by any agency or party other than the Department of Motor Vehicles.

(3) This subdivision shall not be construed as affecting the procedures or authority of the Department of Motor Vehicles for purging department records.

(d) When the person who is the subject of the juvenile court records sealed pursuant to this section reaches the age of 38, the court shall order the destruction of the sealed juvenile court record unless for good cause the court determines that the juvenile court record shall be retained. Any other agency in possession of sealed records shall destroy their records when the person who is the subject of the particular record reaches the age of 38.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill 1713 are both chaptered and become effective January 1, 1981, both bills amend Section 781 of the Welfare and Institutions Code, and this bill is chaptered after Senate Bill 1713, that the amendments to Section 781 proposed by both bills be given effect and incorporated in Section 781 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill 1713 are both chaptered and become effective January 1, 1981, both amend Section 781, and this bill is chaptered after Senate Bill 1713, in which case Section 1 of this act shall not become operative.

- (7) Liability for any bodily injury or property damage with respect to which insurance is or can be afforded under a nuclear energy liability policy.
- (8) Any motor vehicle or class of motor vehicles, as described or designated in the policy, with respect to which coverage is explicitly excluded, in whole or in part.

The term "the insured" as used in paragraphs (1), (2), (3), and (4) shall mean only that insured under the policy against whom the particular claim is made or suit brought. The term "an insured" as used in paragraphs (5) and (6) shall mean any insured under the policy.

(d) Notwithstanding the provisions of paragraph (4) of subdivision (b), or the provisions of Article 2 (commencing with Section 16450) of Chapter 3 of Division 7, or Article 2 (commencing with Section 17150) of Chapter 1 of Division 9, of the Vehicle Code, the insurer and any named insured may, by the terms of any policy of automobile liability insurance to which subdivision (a) applies, or by a separate writing relating thereto, agree as to either or both of the following limitations, such agreement to be binding upon every insured to whom such policy applies and upon every third party claimant:

(1) That coverage and the insurer's obligation to defend under such policy shall not apply nor accrue to the benefit of any insured or any third party claimant while any insured motor vehicle is being used or operated by a natural person or persons designated by name. The insurer shall have an obligation to defend the named insured when all of the following apply to such designated natural person:

1. He or she is a resident of the same household as the named insured.
2. As a result of operating the insured motor vehicle of the named

insured, he or she is jointly sued with the named insured.

3. He or she is an insured under a separate automobile liability insurance policy issued to him as a named insured, which policy does not provide a defense to the named insured.

Such agreement shall remain in force as long as the policy remains in force, and shall apply to any continuation, renewal, or replacement of such policy by the named insured, or reinstatement of such policy within 30 days of any lapse thereof.

(2) That with regard to any such policy issued to a named insured engaged in the business of selling, repairing, servicing, delivering, testing, road testing, parking, or storing automobiles, coverage shall not apply to any person other than the named insured or his agent or employee, except to the extent that the limits of liability of any other valid and collectible insurance available to such person are not equal to the limits of liability specified in subdivision (a) of Section 16056 of the Vehicle Code.

(e) Nothing in this section or in Section 16054 or 16450 of the Vehicle Code shall be construed to constitute a homeowner's policy, personal and residence liability policy, personal and farm liability policy, general liability policy, comprehensive personal liability policy, manufacturers' and contractors' policy, premises liability policy, special multiperil policy, or any policy or endorsement where automobile liability coverage is offered as incidental to some other basic coverage as an "automobile liability policy" within the meaning of Section 16054 of the Vehicle Code, or as a "motor vehicle liability policy" within the meaning of Section 16450 of the Vehicle Code, nor shall any provision of this section apply to a policy which provides insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle in the Republic of Mexico issued or delivered in this state by a nonadmitted Mexican insurer, notwithstanding that any such policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining.

(f) On and after January 1, 1976, no policy of automobile liability insurance described in subdivision (a) shall be issued, amended, or renewed in this state if it contains any provision which expressly or impliedly excludes from coverage under such policy the operation or use of an insured motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation. This subdivision shall not apply in any case in which the named insured receives any remuneration of any kind other than reimbursement for actual mileage driven in the performance of such services at a rate not to exceed the following:

(1) For the 1980-81 fiscal year, the maximum rate authorized by the State Board of Control, which shall also be known as the "base rate."

(2) For each fiscal year thereafter, the greater of either (A) the maximum rate authorized by the State Board of Control or (B) the

base rate as adjusted by the California Consumer Price Index.

No policy of insurance issued under this section may be canceled by an insurer solely for the reason that the named insured is performing volunteer services for a nonprofit charitable organization or governmental agency consisting of providing social service transportation.

For the purposes of this section, "social service transportation" means transportation services provided by private nonprofit organizations or individuals to either individuals who are senior citizens or individuals or groups of individuals who have special transportation needs because of physical or mental conditions and supported in whole or in part by funding from private or public agencies.

(g) Notwithstanding the provisions of paragraph (4) of subdivision (b) of this section, or the provisions of Article 2 (commencing with Section 16450) of Chapter 3 of Division 7 of, or Article 2 (commencing with Section 17150) of Chapter 1 of Division 9 of, the Vehicle Code, a Mexican nonadmitted insurer and any named insured may, by the terms of any policy of automobile insurance for use solely in the Republic of Mexico to which subdivision (a) applies, or by a separate writing relating thereto, agree to the limitation that coverage under such policy shall not apply to any person riding in or occupying a vehicle owned by the insured or driven by another person with the permission of the insured. Such agreement shall be binding upon every insured to whom any such policy applies and upon any third party claimant.

(h) No policy of automobile insurance which provides insurance covering liability arising out of the ownership, maintenance or use of any motor vehicle solely in the Republic of Mexico issued by a nonadmitted Mexican insurance company, shall be subject to, or provide coverage for, those coverages provided in Section 11580.2.

SEC. 2. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent

to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle completely, or with respect to a natural person or persons designated by name when operating a motor vehicle. Either of such deletions by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply while such policy is in force, and shall continue to be so binding with respect to any continuation, renewal, or replacement of such policy by the named insured, or with respect to reinstatement of such policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(2) The agreement specified in paragraph (1) shall be in the following form:

“The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or with respect to one or more natural persons designated by name when operating a motor vehicle. Uninsured motorists coverage insures the insured, his heirs, or legal representatives for all sums within the financial responsibility limits which such person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to him from the owner or operator of an uninsured motor vehicle not owned or operated by the insured.”

Such agreement may contain additional statements not in derogation of or conflict with the foregoing. The execution of such agreement shall relieve the insurer of liability under this section while such agreement remains in effect.

(b) As used in subdivision (a): “bodily injury” includes sickness or disease, including death, resulting therefrom; the term “named insured” means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in subdivision (a); “insured” means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; “insured motor vehicle” means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the

named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. As used in this section, the term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the Safety Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler treads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

As used in this section, "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes

insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him, the damages which he shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under such automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the

event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, such claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) such claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in such Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him, his executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident any of the following occurs:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction.

(2) Agreement as to the amount due under the policy has been concluded.

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in

the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date such written notice is actually given.

(l) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation as defined in subdivision (f) of Section 11580.1. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

SEC. 2.5. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) with respect to a natural person or persons designated by name when operating a motor vehicle. Either of such deletions by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply while such policy is in force, and shall continue to be so binding with respect to any continuation, renewal,

or replacement of such policy by the named insured, or with respect to reinstatement of such policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(2) The agreement specified in paragraph (1) shall be in the following form:

“The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or with respect to one or more natural persons designated by name when operating a motor vehicle. Uninsured motorists coverage insures the insured, his heirs, or legal representatives for all sums within the financial responsibility limits which such person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to him from the owner or operator of an uninsured motor vehicle not owned or operated by the insured.”

Such agreement may contain additional statements not in derogation of or conflict with the foregoing. The execution of such agreement shall relieve the insurer of liability under this section while such agreement remains in effect.

(b) As used in (a) above, “bodily injury” includes sickness or disease, including death, resulting therefrom; the term “named insured” means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term “insured” means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term “insured motor vehicle” means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute automobile for which liability coverage is provided in the policy or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term “insured motor vehicle” shall not include any automobile while used as a public or livery conveyance. As used in this section, the term

“uninsured motor vehicle” means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an “uninsured motor vehicle” whose owner or operator is unknown:

(A) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(B) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term “uninsured motor vehicle” shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the Safety Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler treads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

As used in this section, the term “uninsured motor vehicle” also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against

the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

- (1) To property damage sustained by the insured.
- (2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.
- (3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.
- (4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.
- (5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.
- (6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him, the damages which he shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under such automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based.

If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, such claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) such claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in such Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in such Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of such Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under such Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in

paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him, his executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date such written notice is actually given.

(l) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation as defined in subdivision (f) of Section 11580.1. ## CHAPTER 1321

An act to amend Section 11580.2 of the Insurance Code, relating to motor vehicle insurance.

[Approved by Governor September 30, 1980. Filed with Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the limits specified in subdivision (m) and in no case less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) with respect to a natural person or persons designated by name when operating a motor vehicle, or agree to provide such coverage in an amount less than that required by subdivision (m) but not less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code. Any such agreements by any named insured or agreement for the amount of coverage shall be binding upon every insured to whom such policy or endorsement provisions apply while such policy is in force, and shall continue to be so binding with respect to any continuation, renewal, or replacement of such policy by the named insured, or with respect to reinstatement of such policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(2) The agreement specified in paragraph (1) shall be in the following form:

“The California Insurance Code requires an insurer to provide

uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or with respect to one or more natural persons designated by name when operating a motor vehicle, or agree to provide such coverage in an amount less than that required by subdivision (m) of Section 11580.2 of the Insurance Code, but not less than the financial responsibility requirements. Uninsured motorists coverage insures the insured, his heirs, or legal representatives for all sums within the limits established by law, which such person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to him from the owner or operator of an uninsured motor vehicle not owned or operated by the insured."

Such agreement may contain additional statements not in derogation of or conflict with the foregoing. The execution of such agreement shall relieve the insurer of liability under this section while such agreement remains in effect.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term "insured" means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute automobile for which liability coverage is provided in the policy or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. As used in this section, the term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is

no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the Safety Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler treads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

As used in this section, the term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to

that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him, the damages which he shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under such automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, such claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before

the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) such claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in such Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in such Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of such Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under such Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him, his executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for

a period of 30 days from the date such written notice is actually given.

(l) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing transportation to senior citizens or physically or mentally handicapped persons. This subdivision shall not apply in any case in which the named insured receives any remuneration of any kind other than reimbursement for actual mileage driven in the performance of such services at a rate not to exceed twenty-two cents (\$.22) per mile actually driven. As used in this section, "senior citizen" means a person 60 years of age or older. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

(m) Coverage provided under an uninsured motorist endorsement or coverage shall be offered with coverage limits equal to the limits of liability for bodily injury in the underlying policy of insurance, but shall not be required to be offered with limits in excess of the following amounts:

(1) A limit of thirty thousand dollars (\$30,000) because of bodily injury to or death of one person in any one accident.

(2) Subject to the limit for one person set forth in paragraph (1), a limit of sixty thousand dollars (\$60,000) because of bodily injury to or death of two or more persons in any one accident.

SEC. 2. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, except for policies which provide insurance in the Republic of Mexico issued or delivered in this state by nonadmitted Mexican insurers, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the limits specified in subdivision (m) and in no case less than the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) with respect to a natural person or persons designated by name when operating a motor vehicle or agree to provide such coverage in an amount less than that required by subdivision (m) but not less than

the financial responsibility requirements specified in Section 16056 of the Vehicle Code. Any such agreements by any named insured or agreement for the amount of coverage shall be binding upon every insured to whom such policy or endorsement provisions apply while such policy is in force, and shall continue to be so binding with respect to any continuation, renewal, or replacement of such policy by the named insured, or with respect to reinstatement of such policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(2) The agreement specified in paragraph (1) shall be in the following form:

“The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or with respect to one or more natural persons designated by name when operating a motor vehicle or agree to provide such coverage in an amount less than that required by subdivision (m) of Section 11580.2 of the Insurance Code, but not less than the financial responsibility requirements. Uninsured motorists coverage insures the insured, his heirs, or legal representatives for all sums within the limits established by law, which such person or persons are legally entitled to recover as damages for bodily injury, including any resulting sickness, disease, or death, to him from the owner or operator of an uninsured motor vehicle not owned or operated by the insured.”

Such agreement may contain additional statements not in derogation of or conflict with the foregoing. The execution of such agreement shall relieve the insurer of liability under this section while such agreement remains in effect.

(b) As used in (a) above, “bodily injury” includes sickness or disease, including death, resulting therefrom; the term “named insured” means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term “insured” means the named insured and the spouse of the named insured and, while residents of the same household, relatives of either while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term “insured motor vehicle” means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute automobile for which liability coverage is provided in the policy or a newly acquired automobile for which liability coverage is provided

in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. As used in this section, the term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. As used in this section, the term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the Safety Responsibility Law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler treads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

As used in this section, the term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle

coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply either as primary or as excess coverage to:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (2) of subdivision (c), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him, the damages which he shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under such automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be

made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workers' compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, such claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workers' compensation claim; (ii) such claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in such Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in such Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of such Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under such Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition

is served by either party within 20 days after the accident.

(4) The provisions of paragraph (4) of subdivision (a) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in paragraph (2) of subdivision (b) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver of rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him, his executor, administrator, heirs, or legal representative under any workers' compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(j) Notwithstanding the provisions of subdivisions (b) and (i), in

the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date such written notice is actually given.

(l) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing social service transportation as defined in subdivision (f) of Section 11580.1. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

(m) Coverage provided under an uninsured motorist endorsement or coverage shall be offered with coverage limits equal to the limits of liability for bodily injury in the underlying policy of insurance, but shall not be required to be offered with limits in excess of the following amounts:

(1) A limit of thirty thousand dollars (\$30,000) because of bodily injury to or death of one person in any one accident.

(2) Subject to the limit for one person set forth in paragraph (1), a limit of sixty thousand dollars (\$60,000) because of bodily injury to or death of two or more persons in any one accident.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill 3034 are both chaptered and become effective on or before January 1, 1981, both bills amend Section 11580.2 of the Insurance Code, and this bill is chaptered after Assembly Bill 3034, that Section 11580.2 of the Insurance Code, as amended by Section 2.5 of Assembly Bill 3034, be further amended on the operative date of this act in the form set forth in Section 2 of this act to incorporate the changes in Section 11580.2 proposed by this bill. Therefore, if this bill and Assembly Bill 3034 are both chaptered and become effective on or before January 1, 1981, and Assembly Bill 3034 is chaptered before this bill and amends Section 11580.2, Section 2 of this act shall become operative on the operative date of this act and Section 1 of this act shall not become operative.

SEC. 4. The provisions of this act shall become operative on January 1, 1982, and shall only affect policies issued or renewed on or after this date. Notwithstanding the provisions of this act, an

agreement to delete coverage pursuant to paragraph (1) or (2) of subdivision (a) of Section 11580.2, executed prior to the operative date of this act, shall remain in full force and effect.

## CHAPTER 1322

An act to add Section 1797.179 to the Health and Safety Code, and to amend Section 14132 of, and to add Section 14106.6 to, the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

**SECTION 1.** The purpose of Sections 2 and 3 of this act, which respectively add Section 14106.6 to the Welfare and Institutions Code and amend Section 14132 of that code, is to give fiscal relief to local governments at a time when such governments are severely limited in their ability to raise funds for the continued provision of vital public safety services, such as paramedic services and, further, it is the intent of Sections 2 and 3 with respect to paramedic services that such relief does not necessitate increases in the overall costs to state government.

The Legislature finds and declares that local governments are subsidizing the provision of paramedic services to indigents, including recipients eligible for the Medi-Cal program. Currently, the Medi-Cal program fails to make reimbursement for the provision of paramedic services, resulting in increased costs to local government. To the degree that paramedic services are provided to persons eligible for the Medi-Cal program, the state and federal government should pay for these services, and the director should make reasonable reimbursement. Further, it is the intent of Sections 2 and 3 with respect to paramedic services that there be no increase in overall state expenditures, since the increased state costs in Medi-Cal reimbursement for paramedic services should be offset by reductions in state costs of supporting local government in the aftermath of the passage of Proposition 13 at the June 6, 1978, statewide election.

**SEC. 1.5.** Section 1797.179 is added to the Health and Safety Code, to read:

**1797.179.** Notwithstanding any other provision of law, and to the extent federal financial participation is available, any city, county or special district providing paramedic services as set forth in Section 1797.172, shall reimburse the Health Care Deposit Fund for the state costs of paying such medical claims. Funds allocated to the county from the County Health Services Fund pursuant to Part 4.5

(commencing with Section 16700) of Division 9 of the Welfare and Institutions Code may be utilized by the county or city to make such reimbursement.

SEC. 2. Section 14106.6 is added to the Welfare and Institutions Code, to read:

14106.6. The director shall establish and update annually a rate schedule of reimbursement for paramedic services which provides reimbursement based upon reasonable cost standards of the department.

Notwithstanding any other provision of law, and to the extent federal financial participation is available, any city, county, or special district providing paramedic services as set forth in subdivision (s) of Section 14132, shall reimburse the Health Care Deposit Fund for the state costs of paying such medical claims. Funds allocated to the county from the County Health Services Fund pursuant to Part 4.5 (commencing with Section 16700) of Division 9 of the Welfare and Institutions Code may be utilized by the county or city to make such reimbursement. Nothing in this chapter shall be construed to require a city, county, or special district providing, or contracting for, paramedic services as part of a program established under Article 3 (commencing with Section 1480) of Chapter 2.5 of Division 2 of the Health and Safety Code, to seek Medi-Cal reimbursement for services rendered to eligible Medi-Cal recipients.

This section shall be in effect only to the extent federal financial participation is available.

SEC. 3. Section 14132 of the Welfare and Institutions Code is amended to read:

14132. The following is the schedule of benefits under this chapter:

(a) Outpatient services are covered as follows:

Physician, hospital or clinic outpatient, surgical center, optometric, chiropractic, psychology, podiatric, occupational therapy, physical therapy, speech therapy, audiology, acupuncture to the extent federal matching funds are provided for acupuncture, and services of persons rendering treatment by prayer or healing by spiritual means in the practice of any church or religious denomination insofar as these can be encompassed by federal participation under an approved plan, subject to utilization controls.

(b) Inpatient hospital services, including, but not limited to, physician and podiatric services, physical therapy and occupational therapy, are covered subject to utilization controls.

(c) Skilled nursing facility services, including podiatry and physician services, and prescribed drugs, as described in subdivision (d), are covered subject to utilization controls. (e) Outpatient dialysis services and home hemodialysis services, including physician services, medical supplies, drugs and equipment required for dialysis, are covered, subject to utilization controls.

(f) Anesthesiologist services when provided as part of an outpatient medical procedure, nurse anesthetists services when rendered by an inpatient or outpatient setting under conditions set forth by the director, outpatient laboratory services, and X-ray services are covered to the extent prescribed.

(g) Blood and blood derivatives are covered.

(h) Emergency and essential diagnostic and restorative dental services, except for orthodontic, fixed bridgework, and partial dentures that are not necessary for balance of a complete artificial denture, are covered, subject to utilization controls. The utilization controls shall allow emergency and essential diagnostic and restorative dental services and prostheses that are necessary to prevent a significant disability or to replace previously furnished prostheses which are lost or destroyed due to circumstances beyond the beneficiary's control. Notwithstanding the foregoing, the director may by regulation provide for certain fixed artificial dentures necessary for obtaining employment or for medical conditions which preclude the use of removable dental prostheses, and for orthodontic services in cleft palate deformities administered by the department's crippled children services program.

(i) Medical transportation is covered, subject to utilization controls.

(j) Home health care services are covered, subject to utilization controls.

(k) Prosthetic and orthotic devices and eyeglasses are covered, subject to utilization controls. Utilization controls shall allow replacement of prosthetic and orthotic devices and eyeglasses necessary because of loss or destruction due to circumstances beyond the beneficiary's control. Orthopedic and conventional shoes are covered when provided by a prosthetic and orthotic supplier on the prescription of a physician and when at least one of the shoes will be attached to a prosthesis or brace, subject to utilization controls. Modification of stock conventional or orthopedic shoes when medically indicated, is covered subject to utilization controls. When there is a clearly established medical need that cannot be satisfied by the modification of stock conventional or orthopedic shoes, custom-made orthopedic shoes are covered, subject to utilization controls.

(l) Hearing aids are covered, subject to utilization controls. Utilization controls shall allow replacement of hearing aids necessary because of loss or destruction due to circumstances beyond the beneficiary's control.

(m) Durable medical equipment and medical supplies are covered, subject to utilization controls. The utilization controls shall

allow the replacement of durable medical equipment and medical supplies when necessary because of loss or destruction due to circumstances beyond the beneficiary's control.

(n) Intermediate care facility services, including physician services, and prescribed drugs as described in subdivision (d) are covered, subject to utilization controls. Physical therapy, occupational therapy, speech therapy and audiology services for patients in intermediate care facilities are covered subject to utilization controls.

(o) Family planning services are covered, subject to utilization controls.

(p) Inpatient intensive rehabilitation hospital services in a general acute care hospital are covered, subject to utilization controls, when the following criteria are met:

(1) A patient with a permanent disability or severe impairment requires an inpatient intensive rehabilitation hospital program as described in Section 14064 to develop function beyond the limited amount that would occur in the normal course of recovery; or

(2) A patient with a chronic or progressive disease requires an inpatient intensive rehabilitation hospital program as described in Section 14064 to maintain the patient's present functional level as long as possible.

(q) Adult day health care is covered in accordance with the provisions of Chapter 8.7 (commencing with Section 14520) of this part.

(r) Application of fluoride, or other appropriate fluoride treatment as defined by the department, and other prophylaxis treatment for children 17 years of age and under are covered.

(s) Paramedic services performed by a city, county, or special district, or pursuant to a contract with a city, county, or special district, and pursuant to a program established under Article 3 (commencing with Section 1480) of Chapter 2.5 of Division 2 of the Health and Safety Code by a paramedic certified pursuant to that article, and consisting of defibrillation and those services specified in subdivision (3) of Section 1482 of the article.

This subdivision shall be in effect only to the extent federal financial participation is available as set forth in Section 14106.6.

SEC. 4. Section 1.5 of this act shall only become operative if SB 125 of the 1980-81 Regular Session of the Legislature is chaptered into law.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Legislature has made and proposes to make, Proposition 13 bail-out funds available to local agencies on a fiscal year basis. Since the availability of such state bail-out funds is determinative of whether or not the provisions of this act relating to paramedic services are operative, and in order that local governmental entities

may receive the benefits of this act at the earliest possible time, it is necessary that this act take effect immediately.

## CHAPTER 1323

An act to amend Sections 14251, 14308, 14312, 14450, 14451, 14452, 14456, 14457, 14459, and 14460 of the Welfare and Institutions Code, relating to health care.

[Approved by Governor September 30, 1980 Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 14251 of the Welfare and Institutions Code is amended to read:

14251. "Prepaid health plan" means any plan which meets all of the following criteria:

(a) Licensed as a health care service plan by the Commissioner of Corporations pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340), Division 2, Health and Safety Code), or has an application for licensure pending and was registered under the Knox-Mills Health Plan Act prior to its repeal (Chapter 941, Statutes of 1975), or licensed as a nonprofit hospital service plan by the Insurance Commissioner pursuant to Section 11493(e) and Sections 11501 to 11505 of the Insurance Code.

(b) Meets the requirements for participation in the Medicaid Program (Title XIX of the Social Security Act) on an at risk basis.

(c) Agrees with the State Department of Health Services to furnish directly or indirectly health services to Medi-Cal beneficiaries on a predetermined periodic rate basis.

"Prepaid health plan" includes any organization which is licensed as a plan pursuant to the Knox-Keene Health Care Service Plan Act of 1975 and is subject to regulation by the Department of Corporations pursuant to that act, and which contracts with the State Department of Health Services solely as a fiscal intermediary at risk.

Except for the requirement of licensure pursuant to the Knox-Keene Act, the State Director of Health Services may waive any provision of this chapter which the director determines is inappropriate for a fiscal intermediary at risk. Any such exemption or waiver shall be set forth in the fiscal intermediary at risk contract with the State Department of Health Services.

"Fiscal intermediary at risk" means any entity which entered into a contract with the State Department of Health Services on a pilot basis pursuant to subdivision (f) of Section 14000, as in effect June 1, 1973, in accordance with which the entity received capitated payments from the state and reimbursed providers of health care

services on a fee-for-service or other basis for at least the basic scope of health care services, as defined in Section 14256, provided to all beneficiaries covered by the contract residing within a specified geographic region of the state. The fiscal intermediary at risk shall be at risk for the cost of administration and utilization of services or the cost of services, or both, for at least the basic scope of health care services, as defined in Section 14256, provided to all beneficiaries covered by the contract residing within a specified geographic region of the state. The fiscal intermediary at risk may share the risk with providers or reinsuring agencies or both. Eligibility of beneficiaries shall be determined by the State Department of Health Services and capitation payments shall be based on the number of beneficiaries so determined.

SEC. 1.5. Section 14251 of the Welfare and Institutions Code is amended to read:

14251. "Prepaid health plan" means any plan which meets all of the following criteria:

(a) Licensed as a health care service plan by the Commissioner of Corporations pursuant to the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340), Division 2, Health and Safety Code), other than a plan organized and operating pursuant to Section 10810 of the Corporations Code which substantially indemnifies subscribers or enrollees for the cost of provided services, or has an application for licensure pending and was registered under the Knox-Mills Health Plan Act prior to its repeal (Chapter 941, Statutes of 1975) or licensed as a nonprofit hospital service plan by the Insurance Commissioner pursuant to Section 11493(e) and Sections 11501 to 11505 of the Insurance Code.

(b) Meets the requirements for participation in the Medicaid Program (Title XIX of the Social Security Act) on an at risk basis.

(c) Agrees with the State Department of Health Services to furnish directly or indirectly health services to Medi-Cal beneficiaries on a predetermined periodic rate basis.

"Prepaid health plan" includes any organization which is licensed as a plan pursuant to the Knox-Keene Health Care Service Plan Act of 1975 and is subject to regulation by the Department of Corporations pursuant to that act, and which contracts with the State Department of Health Services solely as a fiscal intermediary at risk.

Except for the requirement of licensure pursuant to the Knox-Keene Act, the State Director of Health Services may waive any provision of this chapter which the director determines is inappropriate for a fiscal intermediary at risk. Any such exemption or waiver shall be set forth in the fiscal intermediary at risk contract with the State Department of Health Services.

"Fiscal intermediary at risk" means any entity which entered into a contract with the State Department of Health Services on a pilot basis pursuant to subdivision (f) of Section 14000, as in effect June 1, 1973, in accordance with which the entity received capitated payments from the state and reimbursed providers of health care

services on a fee-for-service or other basis for at least the basic scope of health care services, as defined in Section 14256, provided to all beneficiaries covered by the contract residing within a specified geographic region of the state. The fiscal intermediary at risk shall be at risk for the cost of administration and utilization of services or the cost of services, or both, for at least the basic scope of health care services, as defined in Section 14256, provided to all beneficiaries covered by the contract residing within a specified geographic region of the state. The fiscal intermediary at risk may share the risk with providers or reinsuring agencies or both. Eligibility of beneficiaries shall be determined by the State Department of Health Services and capitation payments shall be based on the number of beneficiaries so determined.

SEC. 2. Section 14308 of the Welfare and Institutions Code is amended to read:

14308. (a) Each prepaid health plan shall furnish to the director such information and reports as required by Title XIX of the federal Social Security Act.

(b) The director may require a prepaid health plan to provide the director with information and reports which are furnished by the prepaid health plan to the Commissioner of Corporations pursuant to the provisions of Chapter 2.2 (commencing with Section 1340), Division 2, of the Health and Safety Code, the Knox-Keene Health Care Service Plan Act of 1975, or to the Insurance Commissioner pursuant to the provisions of Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate.

(c) The director may, by regulation, require plans to furnish statistical information to the extent such information is necessary for the department to establish rates of payment pursuant to Section 14301 and to provide reports pursuant to Section 14313. The department shall, to the extent feasible, accept this information in a form which is consistent with reports required to be provided pursuant to the Knox-Keene Health Care Service Plan Act of 1975, or to Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate. In the case of a hospital based plan which is a health maintenance organization qualified pursuant to Title XIII of the federal Public Health Service Act, and which has more than one million enrollees, of whom less than 10 percent are Medi-Cal enrollees, information required pursuant to this subdivision shall consist of reports required to be made to the Department of Health, Education and Welfare pursuant to Title XIII of the federal Public Health Service Act.

SEC. 3. Section 14312 of the Welfare and Institutions Code is amended to read:

14312. The director shall adopt all necessary rules and regulations to carry out the provisions of this chapter. In adopting such rules and regulations, the director shall be guided by the needs of eligible persons as well as prevailing practices in the delivery of health care

on a prepaid basis. Except where otherwise required by federal law or by this part, the rules and regulations shall be consistent with the requirements of the Knox-Keene Health Care Service Plan Act of 1975, or the provisions of Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate.

SEC. 4. Section 14450 of the Welfare and Institutions Code is amended to read:

14450. No contract between the department and a prepaid health plan shall be approved or renewed unless the providers and the facilities of the prepaid health plan meet the Medi-Cal program standards for participation as established by the director. In addition, a prepaid health plan shall meet the standards required pursuant to the provisions of the Knox-Keene Health Care Service Plan Act of 1975, or the provisions of Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate, standards specifically required by federal law, and the following requirements:

(a) Each prepaid health plan shall establish a grievance procedure under which enrollees may submit their grievances. Such procedure shall be approved by the department prior to the approval of the contract. The department shall establish standards for such procedures to insure adequate consideration and rectification of enrollee grievances. A prepaid health plan shall make a finding of fact in the case of each grievance processed, a copy of which shall be transmitted to the enrollee. If the enrollee has an unresolved grievance, the fair hearing provided in Chapter 7 (commencing with Section 10950) of Part 2 shall be available to resolve all grievances regarding care and administration by the prepaid health plan. The findings and recommendations of the department, based on the decision of the hearing officer, shall be binding upon the prepaid health plan. Any changes in a proposed health plan's grievance procedure must be approved by the department before such changes take effect.

(b) The prepaid health plan shall provide the director, for his approval, a plan for marketing its services to Medi-Cal beneficiaries which relates the proposed service to the need for services, and the size of the potential population to be served in the proposed service area.

(c) The prepaid health plan shall demonstrate to the department that it has adequate financial resources, administrative abilities and soundness of program design to carry out its contractual obligations.

SEC. 5. Section 14451 of the Welfare and Institutions Code is amended to read:

14451. Services under a prepaid health plan contract shall be provided in accordance with the requirements of the Knox-Keene Health Care Service Plan Act of 1975, or the requirements of Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate.

SEC. 6. Section 14452 of the Welfare and Institutions Code is

amended to read:

14452. (a) All subcontracts shall be entered into pursuant to the requirements of the Knox-Keene Health Care Service Plan Act of 1975, or the requirements of Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate, and federal law. All subcontracts shall be in writing, a copy of which shall be transmitted to the department.

Each subcontract shall contain the amount of compensation or other consideration which the subcontractor will receive under the terms of the subcontract with the prepaid health plan; provided, however, that these provisions shall not apply to a provider who is employed or salaried by the prepaid health plan. A prepaid health plan shall not enter into any subcontract in which consideration is determined by a percentage of the primary contractor's payment from the department. This subdivision shall not be construed to prohibit any subcontract in which consideration is determined on a capitation basis.

Subcontracts between a prepaid health plan and the subcontractor shall be public records on file with the department. The names of the officers and owners of the subcontractor, stockholders owning more than 10 percent of the stock issued by the subcontractor, and major creditors holding more than 5 percent of the debt of the subcontractor shall be submitted by each prepaid health plan to the department and shall be public records on file with the department.

(b) A prepaid health plan which is not a qualified health maintenance organization pursuant to Title XIII of the federal Public Health Service Act shall submit all provider and management subcontracts to the department for approval prior to the subcontract taking effect.

(c) Each subcontract shall require that the subcontractor make all of its books and records, pertaining to the goods and services furnished under the terms of the subcontract, available for inspection, examination, or copying by the department during normal working hours at the subcontractor's place of business, or at such other mutually agreeable location in California.

SEC. 7. Section 14456 of the Welfare and Institutions Code is amended to read:

14456. The department shall conduct annual medical audits of each prepaid health plan unless the director determines there is good cause for additional reviews.

The reviews shall use the standards and criteria established pursuant to the Knox-Keene Health Care Service Plan Act of 1975, or to Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate. Except in those instances where major unanticipated administrative obstacles prevent, or after a determination by the director of good cause, the reviews shall be scheduled and carried out jointly with reviews carried out pursuant to the Knox-Keene Health Care Service Plan Act of 1975, or to Chapter 11A (commencing with Section 11491) of

Part 2 of Division 2 of the Insurance Code, as appropriate, if reviews under either act will be carried out within time periods which satisfy the requirements of federal law.

The department shall be authorized to contract with professional organizations or the Department of Corporations or the Department of Insurance, as appropriate, to perform the periodic review required by this section. The department, or its designee, shall make a finding of fact with respect to the ability of the prepaid health plan to provide quality health care services, effectiveness of peer review, and utilization control mechanisms, and the overall performance of the prepaid health plan in providing health care benefits to its enrollees.

SEC. 8. Section 14457 of the Welfare and Institutions Code is amended to read:

14457. In addition to the reviews required or authorized by Section 14456, the department shall conduct periodic onsite visits or additional visits after a determination by the director of good cause by departmental representatives to include observation of the general operation of the prepaid health plan, the condition of the facilities for delivering health care, the availability of emergency services, the degree of satisfaction of the enrollees, the operation of the plan's grievance system, and the administrative and financial aspects of the operation of the prepaid health plan.

Except when reviewing a plan's grievance system or marketing activities, this evaluation shall use standards and criteria established pursuant to the Knox-Keene Health Care Service Plan Act of 1975, or to Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate. Except in those instances where major, unanticipated administrative obstacles prevent, or after a determination by the director of good cause, the visits shall be scheduled and carried out jointly with reviews carried out pursuant to the Knox-Keene Health Care Service Plan Act of 1975, or to Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate, if reviews under either act will be carried out within time periods which satisfy the requirements of federal law.

The State Department of Health Services may contract with the Department of Corporations or the Department of Insurance, as appropriate, to perform the periodic visits required by this section.

SEC. 9. Section 14459 of the Welfare and Institutions Code is amended to read:

14459. The prepaid health plan shall maintain financial records and shall have an annual audit or additional audits after a determination by the director of good cause, performed by an independent certified public accountant. A prepaid health plan operated by a public entity shall have an annual audit performed in a manner approved by the department. All certified financial statements shall be filed with the department as soon as practical after the end of the prepaid health plan's fiscal year and in any event,

within a period not to exceed 90 days thereafter. These financial statements shall be filed with the department and shall be public records. The department shall perform routine auditing of prepaid health plan contractors and their affiliated subcontractors. Except in those instances where major unanticipated obstacles prevent, or after a determination by the director of good cause, the audits shall be scheduled and carried out jointly with audits carried out pursuant to the Knox-Keene Health Care Service Plan Act of 1975, or to Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, as appropriate, if audits under either act are carried out within time periods which satisfy the requirements of federal law. The department is authorized to contract with the Department of Corporations or the Department of Insurance, as appropriate, to carry out the audits required by this section. The prepaid health plan shall make all of its books and records available for inspection, examination or copying by the department during normal working hours at the prepaid health plan's principal place of business or at such other place in California as the department shall designate. For good cause, the department may grant an exception to the time when annual financial statements are to be submitted to the department. The annual report required in Section 14313 shall include an itemization of expenditures made by each prepaid health plan for the following categories of expenditures: physician services, inpatient and outpatient hospital services, pharmaceutical services and prescription drugs, dental services, medical transportation services, vision care services, mental health services, laboratory services, X-ray services, enrollee education programs, marketing and enrollment costs, data-processing costs, other administrative costs and health service expenditures and any payments made to subcontractors, and the purposes of the payments, including but not limited to, contributions to election campaigns.

SEC. 10. Section 14460 of the Welfare and Institutions Code is amended to read:

14460. A schedule of reviews, visits, and audits shall be jointly established by the Department of Corporations or the Department of Insurance, as the case may be, and the State Department of Health Services. Nothing in Section 14456, 14457, or 14459 shall be construed to prohibit the State Department of Health Services from conducting reviews, visits, or audits either jointly or individually, for the purpose of following up on findings resulting from reviews, visits, or audits carried out in accordance with this chapter.

SEC. 11. It is the intent of the Legislature, if this bill and Assembly Bill No. 2341 are both chaptered and become effective January 1, 1981, both bills amend Section 14251 of the Welfare and Institutions Code, and this bill is chaptered after Assembly Bill No. 2341, that the amendments to Section 14251 proposed by both bills be given effect and incorporated in Section 14251 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Assembly Bill No. 2341 are both

chaptered and become effective January 1, 1981, both amend Section 14251, and this bill is chaptered after Assembly Bill No. 2341, in which case Section 1 of this act shall not become operative.

## CHAPTER 1324

An act to amend Sections 9142 and 9690 of, and to add and repeal Section 9230 of, the Corporations Code, relating to corporations.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

**SECTION 1.** The Legislature finds and declares that the First Amendment to the Constitution of the United States, and Article I, Section 4 of the California Constitution provide that Congress and the California Legislature shall make no law respecting an establishment of religion or respecting the free exercise thereof. The special protection afforded to freedom of worship, freedom of conscience, and freedom of thought lie at the very core of the American heritage and American freedoms, and bitter experience in lands which afforded no such protections led to the birth of an American republic committed to freedom of religion. Such protections and heritage require that government action regarding religious bodies must be narrow and minimal. The Legislature hereby declares that the power of the State of California with respect to the formation, existence, and operation of religious corporations shall be limited to those expressly provided in statutes duly enacted by this Legislature, and that mere incorporation under the laws of California constitutes no waiver of the fundamental protections afforded religious bodies and individual freedom of worship.

**SEC. 2.** Section 9142 of the Corporations Code is amended to read:

**9142.** (a) Notwithstanding Section 9141, any of the following may bring an action to enjoin, correct, obtain damages for or to otherwise remedy a breach of a trust under which any or all of the assets of a corporation are held:

(1) The corporation, a member, or a former member asserting the right in the name of the corporation, provided that for the purpose of this paragraph the provisions of Section 5710 shall apply to such action.

(2) An officer of the corporation.

(3) A director of the corporation.

(4) A person with a reversionary, contractual, or property interest in the assets subject to such trust.

(b) In an action under this section, the court may not rescind or enjoin the performance of a contract unless:

(1) All of the parties to the contract are parties to the action;  
(2) No party to the contract has, in good faith and without actual notice of the restriction, parted with value under the contract or in reliance upon it; and

(3) It is equitable to do so.

SEC. 3. Section 9230 of the Corporations Code is repealed.

SEC. 4. Section 9230 is added to the Corporations Code, to read:

9230. (a) Except as the Attorney General is empowered to act in the enforcement of the criminal laws of this state, and except as the Attorney General is expressly empowered by subdivisions (b), (c) and (d), the Attorney General shall have no powers with respect to any corporation incorporated or classified as a religious corporation under or pursuant to this code.

(b) The Attorney General shall have authority to institute an action or proceeding under Section 803 of the Code of Civil Procedure, to obtain judicial determination that a corporation is not properly qualified or classified as a religious corporation under the provisions of Section 9111.

(c) The Attorney General shall have the authority (1) expressly granted with respect to any subject or matter covered by Sections 9660 to 9690, inclusive; (2) to initiate criminal procedures to prosecute violations of the criminal laws, and upon conviction seek restitution as punishment; and (3) to represent as legal counsel any other agency or department of the State of California expressly empowered to act with respect to the status of religious corporations, or expressly empowered to regulate activities in which religious corporations, as well as other entities, may engage.

(d) Where property has been solicited and received from the general public, based on a representation that it would be used for a specific charitable purpose other than general support of the corporation's activities, and has been used in a manner contrary to that specific charitable purpose for which the property was solicited, the Attorney General may institute an action to enforce such charitable trust; provided (1) that before bringing such action the Attorney General shall notify the corporation that an action will be brought unless the corporation takes immediate steps to correct the improper diversion of funds, and (2) that in the event it becomes impractical or impossible for the corporation to devote the property to the specified charitable purpose, then the directors of the corporation may approve in good faith the use of such property for the general purposes of the corporation.

SEC. 5. Section 9690 of the Corporations Code is amended to read:

9690. The provisions of Chapter 18 (commencing with Section 6810) of Part 2 apply to religious corporations. In so providing, the Legislature encourages the criminal courts of this state in sentencing persons convicted of fraudulent activities in the guise of religious activity to exercise their authority to impose restitution as a means of compensating the victims.

SEC. 6. This act shall become operative on June 1, 1981.

CHAPTER 1325

An act to amend Sections 56503 and 56505 of, and to add Section 56507 to, the Education Code, relating to special education.

[Approved by Governor September 30, 1980 Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 56503 of the Education Code is amended to read:

56503. (a) It is the intent of the Legislature that the mediation conference be an intervening, informal process conducted in a nonadversarial atmosphere.

(b) The mediation conference shall be conducted prior to holding the administrative due process hearing pursuant to Section 56505, unless either party waives the mediation conference. The conference shall be completed within 15 days of receipt by the superintendent of the request for the hearing. Either party to the mediation conference may request the superintendent or his or her designee to grant a continuance. Such a continuance shall be granted upon a showing of good cause. Any continuance shall not extend the 45-day maximum for completion of the due process hearing and rendering of the final administrative decision, unless the party initiating the request for the hearing is agreeable to such an extension. Such continuance shall extend the time for rendering a final administrative decision for a period only equal to the length of the continuance.

(c) The parent shall have the right, pursuant to Section 56504, to examine and receive copies of any documents contained in the child's file, maintained by the public education agency, prior to the date set for the mediation conference. The parent may be accompanied by a representative or representatives that he or she has chosen.

(d) Based upon the mediation conference, the superintendent or director of the public education agency, or his or her designee, may resolve the issue or issues. However, such resolution shall not conflict with state or federal law and shall be to the satisfaction of both parties.

(e) If the mediation conference fails to resolve the issues to the satisfaction of both parties, a state-level hearing pursuant to Section 56505 shall be held.

(f) If the mediation conference fails to resolve the issues to the satisfaction of both parties, the mediator shall list any unresolved issues. A list of unresolved issues shall be reviewed and approved by

the party initiating the hearing. These unresolved issues shall be the basis for the state level hearing, prescribed by Section 56505.

(g) The mediation conference shall be conducted in accordance with regulations adopted by the board and shall be conducted by the superintendent or his or her designee.

(h) Any mediation conference held pursuant to this section shall be held at a time and place reasonably convenient to the parent and pupil.

(i) Notwithstanding the intent of the Legislature that the mediation conference be informal and nonadversarial, if the public education agency uses an attorney as its representative during any part of the conference, such use shall be governed by Section 56507.

SEC. 2. Section 56505 of the Education Code is amended to read:

56505. (a) The state hearing shall be conducted in accordance with regulations adopted by the superintendent. Such hearing shall be conducted by a person knowledgeable in administrative hearings under contract with the department.

(b) Such hearing shall be held at a time and place reasonably convenient to the parent and the pupil.

(c) Such hearing shall be conducted by a person knowledgeable in the laws governing special education and administrative hearings under contract with the department.

(d) During the pendency of the hearing proceedings, including the actual state-level hearing, the pupil shall remain in his or her present placement unless the public agency and the parent agree otherwise.

(e) Any party to the hearing held pursuant to this section shall be afforded the following rights consistent with state and federal statutes and regulations:

(1) The right to be accompanied and advised by counsel and by individuals with special knowledge or training relating to the problems of handicapped children.

(2) The right to present evidence, written arguments, and oral arguments.

(3) The right to confront, cross-examine, and compel the attendance of witnesses.

(4) The right to a written or electronic verbatim record of the hearing.

(5) The right to written findings of fact and the decision.

(6) The right to prohibit the introduction of any evidence at the hearing that has not been disclosed to the party at least five days before the hearing.

(f) The use of an attorney as a representative of the public education agency during any part of the hearing shall be governed by Section 56507.

(g) The hearing conducted pursuant to this section shall be completed and a written, reasoned decision mailed to all parties to the hearing within 30 days following completion of the mediation conference or within 45 days from the receipt by the superintendent

of the request for a hearing, if the mediation conference is waived. Either party to the hearing may request the superintendent or his or her designee to grant a continuance. Such continuance shall be granted upon a showing of good cause. Any continuance shall extend the time for rendering a final administrative decision for a period only equal to the length of the continuance.

(h) The hearing conducted pursuant to this section shall be the final administrative determination and binding on all parties.

(i) Nothing in this chapter shall preclude a party from exercising the right to appeal the decision to a court of competent jurisdiction.

SEC. 3. Section 56507 is added to the Education Code, to read:

56507. (a) Except as provided in subdivisions (b) and (c), the public education agency shall not use the services of an attorney for actual presentation of written argument, oral argument, evidence, or any combination thereof, during any part of a mediation conference or state hearing.

(b) The public education agency may initiate the use of the services of an attorney for actual presentation of written argument, oral argument, evidence, or any combination thereof, during a mediation conference or state hearing, provided that all the following requirements are satisfied:

(1) The public education agency notifies the parent, in writing, of the use of such services at least three days prior to the mediation conference or at least 10 days prior to the state hearing, as appropriate.

(2) The public education agency provides for a listing of attorneys knowledgeable in mediation conferences and state hearings to be provided to the parent.

(3) The public education agency bears only those costs of the services of any attorney provided to the parent for which the parent is required to pay. However, in no case shall such costs to the agency be greater than the cost to the agency for its own attorney services, including the cost of preparation and advice.

(c) (1) The public education agency may use the services of an attorney for actual presentation of written argument, oral argument, evidence, or any combination thereof, during a mediation conference or state hearing, if the parent initiates the use of the services of an attorney. The parent shall notify the public education agency, in writing, of the use of such services at least three days prior to the mediation conference or at least 10 days prior to the state hearing, as appropriate.

(2) If the parent uses the services of an attorney pursuant to paragraph (1), the parent shall bear his or her costs.

If the public education agency uses the services of an attorney pursuant to paragraph (1), it shall bear its costs.

(d) Nothing in this section shall be construed to limit the use of attorney services by a public education agency other than for actual presentation of written argument, oral argument, evidence, or any combination thereof during any part of the mediation conference or

state hearing.

## CHAPTER 1326

An act to add Chapter 4.7 (commencing with Section 25370) to Division 15 of the Public Resources Code, and to amend Section 6453 of the Revenue and Taxation Code, relating to motor vehicle fuels, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. The Regulations for California's Gasoline Emergency which were adopted by the Governor and filed with the Secretary of State on November 14, 1979, and any amendments thereto shall have no force or effect in any county in this state.

SEC. 2. Chapter 4.7 (commencing with Section 25370) is added to Division 15 of the Public Resources Code, to read:

### CHAPTER 4.7. MOTOR VEHICLE FUEL CONSERVATION

25370. This chapter shall be known and may be cited as the "Motor Vehicle Fuel Conservation Act of 1980."

25370.5. As used in this chapter, "motor vehicle fuel" means any gasoline, the distribution of which is subject to taxation pursuant to the provisions of Part 2 (commencing with Section 7301) of Division 2 of the Revenue and Taxation Code. Motor vehicle fuel does not include any non-fossil based motor fuel.

25371. The Legislature finds and declares all of the following:

(a) The continued high consumption of petroleum and petroleum products in California and the nation is detrimental to the well-being of all citizens because of its adverse impact on the state and nation's balance of payments, rate of inflation, rate of unemployment, and national security.

(b) The single greatest component in statewide demand for petroleum and petroleum products is the demand for motor vehicle fuel.

(c) A reduction in the rate of growth in the use of motor vehicle fuel can be accomplished in California without adversely affecting the economy of the state or the individual well-being of its citizens.

(d) It is in the best interests of the state and nation that motor vehicle fuel conservation programs be implemented by local agencies.

25372. The Legislature further finds and declares that it is the policy and goal of this state to limit the future use of motor vehicle fuel in each county during each respective month of the year to 95

percent of the per capita average amount which was used in each such county for each such respective month during the base period July 1, 1977, through June 30, 1980. Specific monthly goals for each county shall be more particularly established pursuant to Section 25376.

25373. (a) In furtherance of the goal specified in Section 25372, a county board of supervisors may provide, by ordinance, for any of the following motor vehicle fuel conservation measures:

(1) Public outreach and education programs, such as driver efficiency programs and conservation education.

(2) Restricting motor vehicle fuel sales, including an odd-even program, minimum or maximum motor vehicle fuel purchase requirements, and regulation of hours and days of retail motor vehicle fuel sales operations.

(b) The Legislature finds and declares that meeting the goals established pursuant to Section 25372 is a matter of statewide concern. A county board of supervisors may apply the measures specified in subdivision (a) on a countywide basis, notwithstanding the existence and authority of individual cities located within the county boundaries.

A county board of supervisors proposing to enact an ordinance authorized by subdivision (a) shall provide each city within the county with at least 15 days' notice of its intent to do so.

(c) The application of the measures authorized by subdivision (a) shall not conflict with adopted policies of statutorily created transportation agencies which have been established pursuant to the provisions of Division 12 (commencing with Section 130000) of the Public Utilities Code or which are receiving funds pursuant to the provisions of Section 29532 of the Government Code.

25374. Nothing in this chapter shall preclude a county or city from enacting, by ordinance, a program to reduce the consumption of motor vehicle fuel to a level less than that provided for in Section 25372. In implementing such a program, the county or city may adopt any measure not prohibited by law.

25375. If the commission determines pursuant to Section 25377 that motor vehicle fuel consumption in any county has exceeded the monthly goal established pursuant to Section 25376 for three consecutive months, the Governor, after proclamation of a state of emergency in that county pursuant to Section 8625 of the Government Code and subject to the provisions of the California Emergency Services Act, Chapter 7 (commencing with Section 8550) of Division 1 of Title 2 of the Government Code, may implement by executive order applicable solely to that county, the motor vehicle fuel conservation measure specified in paragraph (2) of subdivision (a) of Section 25373 or any conservation measures contained in the state emergency conservation plan submitted and approved under Section 212 of the Emergency Energy Conservation Act of 1979 (P.L. 96-102) until the commission determines, pursuant to Section 25378, that motor vehicle fuel use in such county meets the

monthly goal established pursuant to Section 25376, at which time such order shall be terminated.

25376. The State Board of Equalization shall compute the base period for motor vehicle fuel use in each county as provided in this section.

(a) From such information as is available, the Energy Resources and Development Commission shall estimate the average monthly use of motor vehicle fuel in each county for each month of the calendar year during the base period July 1, 1977, through June 30, 1980.

(b) Using population estimates for each county prepared by the Department of Finance pursuant to Section 13073 of the Government Code, the State Board of Equalization shall determine the average population for each county during the base period July 1, 1977, through June 30, 1980.

(c) The average use of motor vehicle fuel for each calendar month of the base period as determined pursuant to subdivision (a) shall be divided by the average county population as determined pursuant to subdivision (b) to determine each county's respective per capita motor vehicle fuel use for each month of the calendar year.

(d) The motor vehicle fuel use goal for each county for each respective calendar month of the year shall be 95 percent of the respective monthly per capita amount determined pursuant to subdivision (c).

25377. Every retailer and fleet user of motor vehicle fuel shall report to the State Board of Equalization the number of gallons of such fuel sold to consumers or consumed by him each month in each county. This information shall be reported with the periodic returns filed pursuant to the Sales and Use Tax Law in such manner as prescribed by the board. The board shall publish a summary of the information by the last day of the month following the month in which the information is received. A copy of the summary shall be transmitted to the chairperson of the board of supervisors of each county and to the commission.

For the purposes of this section:

(a) "Retailer" has the same meaning as set forth in Section 6015 and Section 6019 of the Revenue and Taxation Code.

(b) "Fleet user" means every person who uses a California motor vehicle fuel not purchased at retail from a California seller.

25378. (a) Using the monthly motor vehicle fuel use information supplied by the State Board of Equalization pursuant to Section 25377, the commission shall determine monthly whether each county has met the per capita monthly motor vehicle fuel use goal established pursuant to Section 25376.

(b) In making the determination required by subdivision (a), the commission, immediately prior to July 1 of each year, shall obtain from the Department of Finance a current population estimate for each county. Such population estimate shall be used by the commission for each of the succeeding 12 months, beginning with

July 1, to determine whether each county has met the motor vehicle fuel use goal established pursuant to Section 25376.

(c) The commission shall provide a monthly report to the Governor of its determination pursuant to this section.

SEC. 3. Section 6453 of the Revenue and Taxation Code is amended to read:

6453. For purposes of the sales tax, the return shall show the gross receipts of the seller during the preceding reporting period and, in the case of a person who is liable for the sales tax and is not a seller, the gross receipts of such person for the period in which the liability was incurred. For purposes of the use tax, in case of a return filed by a retailer, the return shall show the total sales price of the property sold by him, the storage, use, or consumption of which property became subject to the use tax during the preceding reporting period; in case of a return filed by a purchaser, the return shall show the total sales price of the property purchased by him, the storage, use, or consumption of which became subject to the use tax during the preceding reporting period.

The return shall also show the amount of the taxes for the period covered by the return, the information required by Section 25377 of the Public Resources Code, if required by the board, and such other information as the board deems necessary for the proper administration of this part.

SEC. 4. Sections 2 and 3 of this act shall become operative on January 1, 1981.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into effect immediately. The facts constituting such necessity are:

In order for the conservation of motor vehicle fuel to be accomplished pursuant to this act, it is necessary that this act take effect immediately.

## CHAPTER 1327

An act to amend Sections 17226 and 24372 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 30, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every taxpayer at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis

of any certified pollution control facility (as defined in subdivision (d)) or alternative energy equipment (as defined in subdivision (l)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount with respect to each month of such period within the taxable year, equal to the amortizable basis of the pollution control facility or alternative energy equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility or alternative energy equipment for such month provided by Section 17208. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 17052.5. The 12-month or 60-month amortization period shall begin, as to any pollution control facility or alternative energy equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility or alternative energy equipment is completed or acquired, or with the taxable year succeeding the taxable year in which such facility or alternative energy equipment is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 17208 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility or alternative energy equipment.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new

identifiable treatment facility which is used, in connection with a plant or other property, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing, or preventing the creation or admission of pollutants, contaminants, wastes, or heat and which—

(A) The State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination, and

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 17208, which is identifiable as a treatment facility.

(3) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(e) (1) For purposes of this section, the term “amortizable basis” means that portion of the adjusted basis (for determining gain) of a certified pollution control facility or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for such alternative energy equipment.

(2) (A) If a certified pollution control facility or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility or alternative energy equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility.

(B) The amortizable basis of a certified pollution control facility or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(f) The depreciation deduction provided by Section 17208 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(g) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(h) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 18211.

(i) The amendments made to subdivision (d) by the 1977-78 Regular Session of the Legislature shall apply to taxable years beginning after December 31, 1976. Such amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(j) The 12-month period of amortization provided for under subdivision (a) shall be available only for those certified pollution control facilities or alternative energy equipment located in California.

(k) This section shall not apply with respect to certified pollution control facilities placed in service after December 31, 1987, or alternative energy equipment placed in service after December 31, 1985.

(l) "Alternative energy equipment" means equipment used to produce or convert energy from the following sources:

- (1) Cogeneration.
- (2) Solar energy.
- (3) Geothermal energy.
- (4) Biomass energy.
- (5) Small hydroelectric energy.

(m) "Biomass energy" means the use of vegetative or waste material to generate steam, electricity, or mechanical energy by direct burning or conversion to another form of fuel.

(n) "Solar energy" means the use of solar or wind energy devices for production of electricity, mechanical work, space heating, water heating, or industrial process heat.

(o) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(p) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(q) "Cogeneration" means the use of cogeneration technology as defined in Section 25134 of the Public Resources Code. For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January 1, 1980.

(2) Equipment, other than equipment used for cogeneration, that uses either fossil fuel or nuclear fuel as its primary energy source.

(r) Property described in this section which is amortized for 12 or 60 months shall be considered to be Section 18212 property and for

the purposes of that section, "additional depreciation" means amortization adjustments in excess of the amount of depreciation adjustments which would have resulted under the straight line method.

SEC. 1.5. Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every taxpayer at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), cogeneration equipment (as defined in subdivision (l)), or alternative energy equipment (as defined in subdivision (m)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount with respect to each month of such period within the taxable year, equal to the amortizable basis of the pollution control facility, cogeneration equipment, or alternative energy equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility, cogeneration equipment, or alternative energy equipment for such month provided by Section 17208. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 17052.5. The 12-month or 60-month amortization period shall begin, as to any pollution control facility, cogeneration equipment, or alternative energy equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility, cogeneration equipment, or alternative energy equipment is completed or acquired, or with the taxable year succeeding the taxable year in which such facility, cogeneration equipment, or alternative energy equipment is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization

deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 17208 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility, cogeneration equipment, or alternative energy equipment.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing, or preventing the creation or admission of pollutants, contaminants, wastes, or heat and which—

(A) The State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination, and

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 17208, which is identifiable as a treatment facility.

(3) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(e) (1) For purposes of this section, the term “amortizable basis” means that portion of the adjusted basis (for determining gain) of a certified pollution control facility, cogeneration equipment, or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for such alternative energy equipment.

(2) (A) If a certified pollution control facility, cogeneration equipment, or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the

amortizable basis of such facility, cogeneration equipment, or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, cogeneration equipment, or alternative energy equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility, cogeneration equipment, or alternative energy equipment.

(B) The amortizable basis of a certified pollution control facility, cogeneration equipment, or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(f) The depreciation deduction provided by Section 17208 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(g) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(h) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 18211.

(i) The amendments made to subdivision (d) by the 1977-78 Regular Session of the Legislature shall apply to taxable years beginning after December 31, 1976. Such amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(j) The 12-month period of amortization provided for under subdivision (a) shall be available only for those certified pollution control facilities, cogeneration equipment, or alternative energy equipment located in California.

(k) This section shall not apply with respect to certified pollution control facilities placed in service after December 31, 1987, or cogeneration equipment, or alternative energy equipment placed in service after December 31, 1985.

(l) For purposes of this section "cogeneration equipment" shall have the same meaning as it is described in Section 25134 of the Public Resources Code.

(m) "Alternative energy equipment" means equipment used to produce or convert energy from the following sources:

- (1) Cogeneration.
- (2) Solar energy.
- (3) Geothermal energy.
- (4) Biomass energy.
- (5) Small hydroelectric energy.

(n) "Biomass energy" means the use of vegetative material to generate steam, electricity, or mechanical energy by direct burning or conversion to another form of fuel.

(o) "Solar energy" means the use of solar or wind energy devices for production of electricity, mechanical work, space heating, water heating, or industrial process heat.

(p) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(q) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(r) For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January 1, 1980.

(2) Equipment that uses either fossil fuel or nuclear fuel as its primary energy source.

(s) Property described in this section which is amortized for 12 or 60 months shall be considered to be Section 18212 property and for the purposes of that section, "additional depreciation" means amortization adjustments in excess of the amount of depreciation adjustments which would have resulted under the straight line method.

SEC. 2. Section 24372 of the Revenue and Taxation Code is amended to read:

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)) or alternative energy equipment (as defined in subdivision (k)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the income year, equal to the amortizable basis of the pollution control facility or alternative energy equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility or alternative energy equipment for such month provided by Section 24349. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 23601. The 12-month or 60-month amortization period shall begin, as to any pollution control facility or alternative energy equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility is

completed or acquired, or with the income year succeeding the income year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing or preventing the creation or emission of pollutants, contaminants, wastes, or heat and which—

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 24349, which is identifiable as a treatment facility.

(3) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(e) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of a certified pollution control facility or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for such alternative energy equipment.

(2) (A) If a certified pollution control facility or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility or alternative energy equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility or alternative energy equipment.

(B) The amortizable basis of a certified pollution control facility or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(f) The depreciation deduction provided by Section 24349 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(n) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(o) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(p) "Cogeneration" means the use of cogeneration technology as defined in Section 25134 of the Public Resources Code. For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January 1, 1980.

(2) Equipment, other than equipment used for cogeneration, that uses either fossil fuel or nuclear fuel as its primary energy source.

SEC. 2.3. Section 24372 of the Revenue and Taxation Code is amended to read:

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), cogeneration equipment (as defined in subdivision (l)), or alternative energy equipment (as defined in subdivision (m)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the income year, equal to the amortizable basis of the pollution control facility, cogeneration equipment, or alternative energy equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility, cogeneration equipment, or alternative energy equipment for such month provided by Section 24349. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 23601. The 12-month or 60-month amortization period shall begin, as to any pollution control facility, cogeneration equipment, or alternative energy equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility is completed or acquired, or with the income year succeeding the

income year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing or preventing the creation or emission of pollutants, contaminants, wastes, or heat and which—

(f) (1) For purposes of this section, the term “amortizable basis”

means that portion of the adjusted basis (for determining gain) of a certified pollution control facility, cogeneration equipment, or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for such alternative energy equipment.

(2) (A) If a certified pollution control facility, cogeneration equipment, or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility, cogeneration equipment, or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility, cogeneration equipment, or alternative energy equipment.

(B) The amortizable basis of a certified pollution control facility, cogeneration equipment, or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 24349 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

The Legislative Analyst shall report its findings to the Legislature on or before January 1, 1985.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill 1404 are both chaptered, both bills amend Sections 17226 and 24372 of the Revenue and Taxation Code, and this bill is chaptered after Assembly Bill 1404, that Sections 17226 and 24372 of the Revenue and Taxation Code, as amended by Sections 1 and 2 of Assembly Bill 1404 be further amended on the operative date of this act in the form set forth in Sections 1.5 and 2.3 of this act to incorporate the changes in Sections 17226 and 24372 proposed by this bill. ## CHAPTER 1328

An act to amend Sections 17226 and 24372 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 30, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every taxpayer at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)) or cogeneration equipment (as defined in subdivision (m)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount with respect to each month of such period within the taxable year, equal to the amortizable basis of the pollution control facility or cogeneration equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility or cogeneration equipment for such month provided by Section 17208. The 12-month or 60-month amortization period shall begin, as to any pollution control facility or cogeneration equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility or cogeneration equipment is completed or acquired, or with the taxable year succeeding the taxable year in which such facility or

cogeneration equipment is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 17208 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility or cogeneration equipment.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing, or preventing the creation or admission of pollutants, contaminants, wastes, or heat and which—

(A) The State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination, and

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 17208, which is identifiable as a treatment facility.

(e) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term “amortizable basis” means that portion of the adjusted basis (for determining gain) of a certified pollution control facility or cogeneration equipment which may be amortized under this section.

(2) (A) If a certified pollution control facility or cogeneration

equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility or cogeneration equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility or cogeneration equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility or cogeneration equipment.

(B) The amortizable basis of a certified pollution control facility or cogeneration equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 17208 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(i) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 18211.

(j) The amendments made to subdivision (d) by the 1977-78 Regular Session of the Legislature shall apply to taxable years beginning after December 31, 1976. Such amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(k) The 12-month period of amortization provided for under subdivision (a) shall be available only for those certified pollution control facilities or cogeneration equipment located in California.

(l) This section shall not apply with respect to certified pollution control facilities placed in service after December 31, 1987, or cogeneration equipment placed in service after December 31, 1985.

(m) For purposes of this section, "cogeneration equipment" shall have the same meaning as it is described in Section 25134 of the Public Resources Code.

SEC. 1.5. Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every taxpayer at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), cogeneration equipment (as defined in subdivision (l)), or alternative energy equipment (as defined in subdivision (m)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount with respect to each month of such period within the taxable year, equal to the amortizable basis of the pollution control facility, cogeneration equipment, or alternative

energy equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility, cogeneration equipment, or alternative energy equipment for such month provided by Section 17208. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 17052.5. The 12-month or 60-month amortization period shall begin, as to any pollution control facility, cogeneration equipment, or alternative energy equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility, cogeneration equipment, or alternative energy equipment is completed or acquired, or with the taxable year succeeding the taxable year in which such facility, cogeneration equipment, or alternative energy equipment is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 17208 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility, cogeneration equipment, or alternative energy equipment.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing,

or preventing the creation or admission of pollutants, contaminants, wastes, or heat and which—

(A) The State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination, and

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 17208, which is identifiable as a treatment facility.

(3) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(e) (1) For purposes of this section, the term “amortizable basis” means that portion of the adjusted basis (for determining gain) of a certified pollution control facility, cogeneration equipment, or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for such alternative energy equipment.

(2) (A) If a certified pollution control facility, cogeneration equipment, or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility, cogeneration equipment, or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, cogeneration equipment, or alternative energy equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility, cogeneration equipment, or alternative energy equipment.

(B) The amortizable basis of a certified pollution control facility, cogeneration equipment, or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(f) The depreciation deduction provided by Section 17208 shall, despite the provisions of subdivision (a), be allowed with respect to

the portion of the adjusted basis which is not the amortizable basis.

(g) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(h) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 18211.

(i) The amendments made to subdivision (d) by the 1977-78 Regular Session of the Legislature shall apply to taxable years beginning after December 31, 1976. Such amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(j) The 12-month period of amortization provided for under subdivision (a) shall be available only for those certified pollution control facilities, cogeneration equipment, or alternative energy equipment located in California.

(k) This section shall not apply with respect to certified pollution control facilities placed in service after December 31, 1987, or cogeneration equipment, or alternative energy equipment placed in service after December 31, 1985.

(l) For purposes of this section "cogeneration equipment" shall have the same meaning as it is described in Section 25134 of the Public Resources Code.

(m) "Alternative energy equipment" means equipment used to produce or convert energy from the following sources:

- (1) Cogeneration.
- (2) Solar energy.
- (3) Geothermal energy.
- (4) Biomass energy.
- (5) Small hydroelectric energy.

(n) "Biomass energy" means the use of vegetative material to generate steam, electricity, or mechanical energy by direct burning or conversion to another form of fuel.

(o) "Solar energy" means the use of solar or wind energy devices for production of electricity, mechanical work, space heating, water heating, or industrial process heat.

(p) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(q) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(r) For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January 1, 1980.

(2) Equipment that uses either fossil fuel or nuclear fuel as its primary energy source.

(s) Property described in this section which is amortized for 12 or 60 months shall be considered to be Section 18212 property and for the purposes of that section, "additional depreciation" means amortization adjustments in excess of the amount of depreciation adjustments which would have resulted under the straight line method.

SEC. 2. Section 24372 of the Revenue and Taxation Code is amended to read:

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)) or cogeneration equipment (as defined in subdivision (m)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the income year, equal to the amortizable basis of the pollution control facility or cogeneration equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility or cogeneration equipment for such month provided by Section 24349. The 12-month or 60-month amortization period shall begin, as to any pollution control facility or cogeneration equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility is completed or acquired, or with the income year succeeding the income year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election. The election of the 12-month amortization period shall be irrevocable.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect

to such pollution control facility.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing or preventing the creation or emission of pollutants, contaminants, wastes, or heat and which—

(A) The State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination and—

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 24349, which is identifiable as a treatment facility.

(e) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term “amortizable basis” means that portion of the adjusted basis (for determining gain) of a certified pollution control facility or cogeneration equipment which may be amortized under this section.

(2) (A) If a certified pollution control facility or cogeneration equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility or cogeneration equipment, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility or cogeneration equipment.

(B) The amortizable basis of a certified pollution control facility or cogeneration equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 24349 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(i) The amendment made to subdivision (d) by the 1977-78 Legislature shall apply to income years beginning after December 31, 1976. Such amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(j) The 12-month period of amortization provided for under subdivision (a) shall be available only for those certificated pollution control facilities or cogeneration equipment located in this state.

(k) This section shall not apply with respect to certified pollution control facilities placed in service after December 31, 1987, or cogeneration equipment placed in service after December 31, 1985.

(l) For purposes of this section, "cogeneration equipment" shall have the same meaning as it is described in Section 25134 of the Public Resources Code.

SEC. 2.5. Section 24372 of the Revenue and Taxation Code is amended to read:

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), cogeneration equipment (as defined in subdivision (l)), or alternative energy equipment (as defined in subdivision (m)), based on a period of either 12 months or 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the income year, equal to the amortizable basis of the pollution control facility, cogeneration equipment, or alternative energy equipment at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility, cogeneration equipment, or alternative energy equipment for such month provided by Section 24349. The amortization deduction provided by this section shall be in lieu of the solar tax credit provided by Section 23601. The 12-month or 60-month amortization period shall begin, as to any pollution control facility, cogeneration equipment, or alternative energy equipment, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 12-month or 60-month amortization period with the month following the month in which the facility is completed or acquired, or with the income year succeeding the

income year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe; a statement of such election. The election of the 12-month amortization period shall be irrevocable. The Franchise Tax Board, in determining the eligibility of alternative energy equipment for which a taxpayer has filed a statement of election, may consult with the California Energy Commission regarding the technical qualifications of such equipment.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility.

(d) For purposes of this section—

(1) The term “certified pollution control facility” means a new identifiable treatment facility which is used, in connection with a plant or other property to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, storing or preventing the creation or emission of pollutants, contaminants, wastes, or heat and which—

(A) The State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination and—

(B) Does not significantly—

(i) Increase the output or capacity, extend the useful life, or reduce the total operating costs of such plant or other property (or any unit thereof), or

(ii) Alter the nature of the manufacturing or production process or facility.

(2) For purposes of paragraph (1), the term “new identifiable treatment facility” includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 24349, which is identifiable as a treatment facility.

(e) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term “amortizable basis”

means that portion of the adjusted basis (for determining gain) of a certified pollution control facility, cogeneration equipment, or alternative energy equipment which may be amortized under this section. For purposes of the deduction for alternative energy equipment provided in this section, the amortizable basis shall be reduced by the amount of any grant provided by a public entity for such alternative energy equipment.

(2) (A) If a certified pollution control facility, cogeneration equipment, or alternative energy equipment has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility, cogeneration equipment, or alternative energy equipment shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility, cogeneration equipment, or alternative energy equipment.

(B) The amortizable basis of a certified pollution control facility, cogeneration equipment, or alternative energy equipment with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 24349 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(i) The amendment made to subdivision (d) by the 1977-78 Legislature shall apply to income years beginning after December 31, 1976. Such amendments shall not apply in the case of any property with respect to which the amortization period under this section began before January 1, 1977.

(j) The 12-month period of amortization provided for under subdivision (a) shall be available only for those certificated pollution control facilities, cogeneration equipment, or alternative energy equipment located in this state.

(k) This section shall not apply with respect to certified pollution control facilities placed in service after December 31, 1987, or cogeneration equipment, or alternative energy equipment placed in service after December 31, 1985.

(l) For purposes of this section, "cogeneration equipment" shall have the same meaning as it is defined in Section 25134 of the Public Resources Code.

(m) "Alternative energy equipment" means equipment used to produce or convert energy from the following sources:

(1) Cogeneration.

- (2) Solar energy.
- (3) Geothermal energy.
- (4) Biomass energy.
- (5) Small hydroelectric energy.

(n) "Biomass energy" means the use of vegetative material to generate steam, electricity, or mechanical energy by direct burning or conversion to another form of fuel.

(o) "Solar energy" means the use of solar or wind energy devices for production of electricity, mechanical work, space heating, water heating, or industrial process heat.

(p) "Geothermal energy" means the process of using heat from the earth to generate electricity or for heating purposes.

(q) "Small hydroelectric energy" means the use of hydroelectric generating equipment with an installed capacity of less than 25 megawatts.

(r) "Cogeneration" means the use of cogeneration technology as defined in Section 25134 of the Public Resources Code. For the purposes of this section, "alternative energy equipment" shall not apply to and no claim shall be made for:

(1) Equipment for any project for which a building permit or binding financial commitment has been applied for before January 1, 1980.

(2) Equipment that uses either fossil fuel or nuclear fuel as its primary energy source.

SEC. 3. The Legislative Analyst shall report to the Legislature on or before January 1, 1984, evaluating state revenue losses, economic effects, taxpayer benefits, increase in cogeneration facilities since January 1, 1980, and the amount of cogeneration facilities attributable to this act.

SEC. 3.5. It is the intent of the Legislature, if this bill and Assembly Bill 2893 are both chaptered, both bills amend Sections 17226 and 24372 of the Revenue and Taxation Code, and this bill is chaptered after Assembly Bill 2893, that Sections 17226 and 24372 of the Revenue and Taxation Code, as amended by Sections 1 and 2 of Assembly Bill 2893 be further amended on the operative date of this act in the form set forth in Sections 1.5 and 2.5 of this act to incorporate the changes in Sections 17226 and 24372 proposed by this bill. Therefore, Sections 1.5 and 2.5 of this act shall become operative only if this bill and Assembly Bill 2893 are both chaptered, both amend Sections 17226 and 24372, and this bill is chaptered after Assembly Bill 2893, in which case Sections 1 and 2 of this act shall not become operative.

SEC. 4. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall be applied in the computation of taxes for taxable years beginning on or after the first day of the calendar year in which this act becomes effective provided the effective date is more than 90 days prior to the last day of the calendar year. If the effective date is 90 days or less prior to the last

day of the calendar year, the provisions of this act shall apply in the computation of taxes for taxable years beginning on or after the first day of the calendar year following the effective date.

## CHAPTER 1329

An act to amend Sections 41020, 44670.3, 48263, 48291, 48293, 48294, 51745, 52015, 52176, and 56194 of, to add Sections 46013 and 46013.7 to, and to add Article 9 (commencing with Section 48340) to Chapter 2 of Part 27 of, the Education Code, relating to school attendance, making an appropriation therefor.

[Approved by Governor September 30, 1980. Filed with Secretary of State September 30, 1980.]

I am reducing the appropriations contained in Section 16 of Assembly Bill No. 3269 for the proposed pilot attendance program from \$1,750,000 to \$875,000 for each of the fiscal years 1980-81, 1981-82, and 1982-83.

With this reduction, I approve AB 3269.

EDMUND G. BROWN JR., Governor

*The people of the State of California do enact as follows:*

**SECTION 1.** The Legislature hereby finds that, for purposes of existing law, average daily attendance is defined for regular programs in kindergarten and grades 1 to 12, inclusive, as actual attendance of a pupil plus those verified absences specified in Section 46010 of the Education Code. Consequently, the days of verified absence, as well as the days of actual attendance, are considered days of attendance for purposes of computing apportionments. The combination of these apportionment days of attendance, generally speaking, are used to compute average daily attendance by dividing the apportionment days by the actual days taught within the reporting periods as prescribed in Section 41601 of the Education Code. It is the intent of the Legislature in adding Sections 46013, 46013.5, and 46013.7 to the Education Code by this act to redefine for purposes of computing apportionments the concept of average daily attendance for use in a pilot study using actual pupil attendance and a fixed percentage of enrollment and thereby eliminating the current verification of absence process.

**SEC. 2.** Section 41020 of the Education Code is amended to read:  
**41020.** It is the intent of the Legislature to encourage sound fiscal management practices among school districts for the most efficient and effective use of public funds for the education of children in California by strengthening fiscal accountability at the district, county, and state levels.

Not later than the first day of May of each fiscal year each county superintendent of schools shall provide for an audit of all funds under his jurisdiction and control and the governing board of each district

shall either provide for an audit of the books and accounts of the district, including an audit of school district income and expenditures by source of funds, or make arrangements with the county superintendent of schools having jurisdiction over the district to provide for such auditing. In the event the governing board of a school district has not provided for an audit of the books and accounts of the district by April 1st, the county superintendent of schools having jurisdiction over the district shall provide for the audit.

Each audit shall include all funds of the district including the student body and cafeteria funds and accounts and any other funds under the control or jurisdiction of the district; funds of regional occupational centers and programs maintained by the county superintendent of schools, a school district, or pursuant to a joint powers agreement. Each audit shall also include an audit of attendance procedures.

The cost of the audits provided for by the county superintendent of schools shall be paid from the county school service fund and the county superintendent of schools shall transfer the pro rata share of the cost chargeable to each district from district funds.

The cost of the audit provided for by a governing board shall be paid from district funds. The audit of the funds under the jurisdiction and control of the county superintendent of schools shall be paid from the county school service fund.

The audits shall be made by a certified public accountant or a public accountant, licensed by the State Board of Accountancy.

The auditor's report shall include (1) a statement that the audit was conducted pursuant to standards and procedures developed in accordance with Section 41020.5 and (2) a summary of audit exceptions and management improvement recommendations.

Not later than November 15th, a report of each audit for the preceding fiscal year shall be filed with the county clerk and the county superintendent of schools of the county in which the district is located, the Department of Education, and the Department of Finance. The submission date may be extended to, but not later than, December 31 for justifiable cause upon written request by the auditor and approval by the county superintendent of schools. The Superintendent of Public Instruction shall make any adjustments necessary in future apportionments of all state funds, to correct any audit exceptions revealed by such audit reports.

Each county superintendent of schools shall be responsible for the correction of any audit exceptions revealed by audit reports issued pursuant to this section which do not affect state funds and are not corrected by the Superintendent of Public Instruction when the audit exceptions affect any revenue and expenditures under his control or the control of any school district within his jurisdiction. The county superintendent of schools shall adjust the future local property tax requirements to correct audit exceptions relating to school district tax rates and tax revenues.

If a governing board or county superintendent of schools fails or

is unable to make satisfactory arrangements for audit pursuant to this section, the Department of Finance shall make arrangements for the audit and the cost of such audit shall be paid from school district funds or the county school service fund, as the case may be.

Audits of regional occupational centers and programs are subject to the provisions of this section.

Nothing in this section shall be considered as authorizing examination into or report on the curriculum used or provided for in any school district.

SEC. 3. Section 44670.3 of the Education Code is amended to read:

44670.3. Staff development programs authorized by this article shall assist personnel at the local school site to:

(a) Improve instructional, human development and counseling skills based on a systematic assessment of pupil and personnel needs at that school.

(b) Ensure that curricula and instructional materials are keyed to the educational needs of each pupil, with particular emphasis on pupils who have not achieved proficiency in basic reading, writing and computational skills, limited and non-English-speaking pupils, disadvantaged pupils, and pupils with exceptional abilities or needs.

(c) Develop curricula and instructional materials in a wide variety of areas such as arts and humanities, physical, natural, and social sciences, physical and mental health, and career education.

(d) Improve the school and classroom environments, including relationships between and among pupils, school personnel and community members, including parents.

(e) Improve pupil attendance.

(f) Maintain an awareness of current information concerning the use of drugs and other controlled substances which affect campus safety and pupil achievement.

SEC. 4. Section 46013 is added to the Education Code, to read:

46013. (a) If there is an increase in actual student attendance of any school maintained by a school district to which Section 46013.7 has been made applicable, then an increase in the revenue limit of a school district shall be calculated as follows:

(1) The Superintendent of Public Instruction shall prescribe the manner in which actual student attendance is calculated.

(2) Divide the actual student attendance in the 1979-80 fiscal year by total enrollment in the 1979-80 fiscal year.

(3) Divide the actual student attendance in the current fiscal year by total enrollment in the current fiscal year.

(4) Subtract the quotient calculated pursuant to paragraph (2) from the quotient calculated pursuant to paragraph (3).

(5) Divide the difference calculated pursuant to paragraph (4) by 0.02.

(6) If the quotient calculated pursuant to paragraph (5) is equal to or greater than one, then divide that quotient by 100.

(7) If the quotient calculated pursuant to paragraph (5) is less

than one, then the district shall not be affected by the provisions of this section.

(8) Multiply the quotient calculated pursuant to paragraph (6) by the revenue limit per unit of average daily attendance in the current fiscal year, and multiply that product by the total enrollment of the school which generated the increased actual student attendance. This is the amount by which revenue limit shall be increased.

(b) The revenue limit increase calculated pursuant to subdivision (a) shall be allocated as follows:

(1) If the school receives funds pursuant to either Chapter 3.1 (commencing with Section 44670) of Part 25 or Chapter 6 (commencing with Section 52000) of Part 28, then one-half of the increase shall be added to such funds; the other half of the increase shall be added to the general fund of the district.

(2) If the school does not receive funds pursuant to either Chapter 3.1 (commencing with Section 44670) of Part 25 or Chapter 6 (commencing with Section 52000) of Part 28, then one-half of the increase shall be used to initiate a program pursuant to Chapter 6 (commencing with Section 52000) of Part 28 at the school; the other half of the increase shall be added to the general fund of the district. If a program is not initiated pursuant to Chapter 6 (commencing with Section 52000) of Part 28 within one year, then those funds shall be deposited in the general fund of the district and the apportionment of funds to the district from Section A of the State School Fund for the then current fiscal year shall be reduced by the same amount.

SEC. 5. Section 46013.7 is added to the Education Code, to read:

46013.7. The Superintendent of Public Instruction shall make the provisions of this section and Section 46013 available to 25 elementary school districts, 25 unified school districts, and 10 high school districts for the 1980-81 school year and shall not require such districts to keep parallel attendance accounting and reporting procedures as required under existing laws otherwise applicable. School districts desiring to utilize this section and Section 46013 shall apply to the Superintendent of Public Instruction for approval. In approving applications, the Superintendent of Public Instruction shall ensure that no more than 2½ percent of the statewide average daily attendance shall be subject to the provisions of this section and Section 46013.

SEC. 6. Section 48263 of the Education Code is amended to read:

48263. If any minor pupil in any district of a county is an habitual truant, or is irregular in attendance at school, as defined in this article, or is habitually insubordinate or disorderly during attendance at school, the pupil may be referred to a school attendance review board. The supervisor of attendance, or such other persons as the governing board of the school district or county may designate, making such referral shall notify the minor and parents or guardians of the minor, in writing, of the name and address of the board to which the matter has been referred and of the reason for such

referral. The notice shall indicate that the pupil and parents or guardians of the pupil will be required, along with the referring person, to meet with the school attendance review board to consider a proper disposition of the referral.

If the school attendance review board determines that available community services can resolve the problem of the truant or insubordinate pupil, then the board shall direct the pupil or the pupil's parents or guardians, or both, to make use of such community services. The school attendance review board may require, at such time as it determines proper, the pupil or parents or guardians of the pupil, or both, to furnish satisfactory evidence of participation in the available community services.

If the school attendance review board determines that available community services cannot resolve the problem of the truant or insubordinate pupil or if the pupil or the parents or guardians of the pupil, or both, have failed to respond to directives of the school attendance review board or to services provided, the school attendance review board may direct the county superintendent of schools to, and, thereupon, the county superintendent of schools shall, request a petition on behalf of the pupil in the juvenile court of the county. Upon presentation of a request for a petition on behalf of a pupil, the juvenile court of the county shall hear all evidence relating to the request for petition. The school attendance review board shall submit to the juvenile court documentation of efforts to secure attendance as well as its recommendations on what action the juvenile court shall take in order to bring about a proper disposition of the case.

SEC. 7. Section 48291 of the Education Code is amended to read:

48291. If it appears upon investigation that any parent, guardian, or other person having control or charge of any child has violated any of the provisions of this chapter, the secretary of the board of education, except as provided in Section 48292, or the clerk of the board of trustees, shall refer such person to a school attendance review board. In the event that any such parent, guardian, or other person continually and willfully fails to respond to directives of the school attendance review board or services provided, the school attendance review board shall direct the school district to make and file in the proper court a criminal complaint against the parent, guardian, or other person, charging the violation, and shall see that the charge is prosecuted by the proper authority. In the event that a criminal complaint is not prosecuted by the proper authority as recommended, the official making the determination not to prosecute shall provide the school attendance review board with a written explanation for the decision not to prosecute.

SEC. 8. Section 48293 of the Education Code is amended to read:

48293. (a) Any parent, guardian, or other person having control or charge of any pupil who fails to comply with the provision of this chapter, unless excused or exempted therefrom, is guilty of an infraction, and shall be punished as follows:

(1) Upon a first conviction, by a fine of not more than one hundred dollars (\$100).

(2) Upon a second or subsequent conviction, by a fine of not more than two hundred fifty dollars (\$250).

(3) In lieu of imposing the fines prescribed in paragraphs (1) and (2), the court may order such person to be placed in a parent education and counseling program.

(b) A judgment that a person convicted of an infraction be punished as prescribed in subdivision (a) may also provide for the payment of the fine within a specified time or in specified installments, or for participation in the program. A judgment granting a defendant time to pay the fine or prescribing the days of attendance in a program shall order that if the defendant fails to pay the fine, or any installment thereof, on the date that it is due, or fails to attend a program on a prescribed date, he or she shall appear in court on that date for further proceedings. Willful violation of the order is punishable as contempt.

SEC. 9. Section 48294 of the Education Code is amended to read: 48294. All fines paid as penalties for the violation of any of the provisions of this chapter shall, when collected or received, be paid over by the justice court or officer receiving them to the treasurer of the city, county, or city and county, in which the offense was committed, to be placed to the credit of the school fund of the school district in which the offense was committed. Such moneys shall be used to support the activities of the school attendance review board prescribed by Section 48291 and the parent education and counseling program prescribed by Section 48293.

SEC. 10. Article 9 (commencing with Section 48340) is added to Chapter 2 of Part 27 of the Education Code, to read:

#### Article 9. Improvement of Pupil Attendance

48340. In enacting this article it is the intent of the Legislature to encourage school districts and county offices of education maintaining any classes in kindergarten and grades 1 to 12, inclusive, to adopt pupil attendance policies based on the active involvement of parents, pupils, teachers, administrators, other personnel, and community members which include proposals and procedures for the following:

It is the further intent of the Legislature that every pupil whose attendance is included in the computation of average daily attendance shall be in school for the minimum schoolday prescribed by Chapter 2 (commencing with Section 46100) of Part 26 of the Education Code.

(b) It is the further intent of the Legislature that procedures developed pursuant to subdivision (a) not constitute a burden on school districts in terms of personnel or fiscal resources.

SEC. 16. For each of the fiscal years 1980-81, 1981-82 and 1982-83, there is hereby appropriated annually from the General Fund in the State Treasury to Section A of the State School Fund the amount of one million seven hundred fifty thousand dollars (\$1,750,000) to be allocated for the purposes of funding the pilot project established in Section 46013 of the Education Code.

## CHAPTER 1330

An act to amend Section 53691 of the Government Code, to amend Sections 33750, 33751.5, and 37917 of, and to add and repeal Section 33760.5 of, the Health and Safety Code, relating to housing.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 53691 of the Government Code is amended to read:

53691. Notwithstanding any other provision of law, no financial or securities consultant acting in an advisory capacity to a local agency with respect to the issuance or proposed issuance of securities which exceed one million dollars (\$1,000,000) shall act in the capacity of an underwriter for the purpose of acquiring any interest in such security issue offered by the local agency, unless:

- (a) The securities are offered at a competitive public sale;
- (b) The consultant has given the local agency written notice that the consultant intends to bid on the offering; and
- (c) The local agency has given written consent for the consultant to act as an underwriter at such sale.

SEC. 2. Section 33750 of the Health and Safety Code is amended to read:

33750. The Legislature finds and declares that it is necessary and essential that redevelopment agencies be authorized to make long-term, low-interest loans through qualified mortgage lenders to finance residential construction in order to encourage investment and upgrade redevelopment project areas and increase the supply of housing. Unless redevelopment agencies intervene to generate mortgage funds and to provide some form of assistance to finance residential construction, many redevelopment areas will stagnate and deteriorate because owners and investors are not able to obtain loans from private sources.

SEC. 3. Section 33751.5 of the Health and Safety Code is amended to read:

33751.5. The Legislature further finds and declares that the construction and rehabilitation of residences intended for occupancy primarily by persons and families of low or moderate income, as defined in Section 50093, is properly included within redevelopment plans whether or not such construction or rehabilitation is to occur within a redevelopment area, since redevelopment agencies have specific obligations for development of housing whether or not such development is feasible within specific redevelopment project areas.

SEC. 4. Section 33760.5 is added to the Health and Safety Code, to read:

33760.5. (a) Notwithstanding the requirements of Section 33760, agencies which operate within a jurisdiction, the population of which is in excess of 600,000 persons, as determined by the Department of Finance, may provide financing for residential construction of multifamily rental units as set forth in and subject to the limitations of this section.

- (b) Within its territorial jurisdiction, an agency may determine

the location and character of any residential construction to be financed under the provisions of this chapter and may make mortgage or construction loans to participating parties through qualified mortgage lenders, or purchase mortgage or construction loans without premium made by qualified mortgage lenders to participating parties for financing residential construction of multifamily rental units intended for occupancy primarily by persons and families of low or moderate income, as defined in Section 50093, outside of a redevelopment area.

(c) Not less than 20 percent of the total number of multifamily rental units outside of a project area financed or for which financing has been extended or committed pursuant to this chapter during any calendar year shall be occupied by, or made available to, lower-income households, as defined in Section 50079.5. Not less than 10 percent of the total number of such rental units shall be occupied by, or made available to, very low-income households, as defined in Section 50105.

(d) The provisions of subdivision (c) shall apply for a period of not less than 20 years from the date units financed pursuant to this section are first made available for occupancy. However, in the event federal rent subsidies become unavailable to tenants and projects in the agency's jurisdiction, the requirements of this subdivision and subdivision (c) shall not apply.

(e) This section shall remain in effect only until January 1, 1982, and as of such date is repealed, unless a later enacted statute, which is chaptered before such date, deletes or extends such date.

SEC. 5. Section 37917 of the Health and Safety Code is amended to read:

37917. The local agency may fix fees, charges, and interest rates for financing residential rehabilitation and may from time to time revise such fees, charges, and interest rates to reflect changes in interest rates on the local agency's bonds, losses due to defaults, changes in loan servicing charges, or other expenses related to administration of the residential rehabilitation financing program. Any change in interest rate shall conform to the provisions of Section 1916.5 of the Civil Code, except that paragraph (3) of subdivision (a) of Section 1916.5 shall not apply and that the "prescribed standard" specified in Section 1916.5 shall be periodically determined by the governing body of the local agency after hearing preceded by public notice to affected parties, and shall reflect changes in interest rates on the local agency's bonds, losses due to defaults, and bona fide changes in loan servicing charges related to the administration of a program under the provisions of this part.

The local agency may purchase loans made to participating parties by qualified mortgage lenders without premium, if the loan was approved for such purpose prior to consummation of the loan and is of the character and on the terms previously established by the local agency for the residential rehabilitation program. The local agency may fix fees for servicing of such loans by qualified mortgage lenders,

or may itself undertake collection, or may contract to pay any person, partnership, association, corporation, or public agency for such collection and disbursal. In determining fees and charges for financing and servicing of loans by qualified mortgage lenders, the local agency shall endeavor to obtain participation of not less than two qualified mortgage lenders, and shall apply the same fees and charges to all participating qualified mortgage lenders.

The local agency may hold deeds of trust or mortgages, including, but not limited to, mortgages insured under Title II of the National Housing Act (12 U.S.C., 1707 et seq.), as security for financing residential rehabilitation and may pledge or assign the same as security for repayment of bonds issued pursuant to this part. The local agency may establish the terms and conditions for the financing of residential rehabilitation undertaken pursuant to this part, and may require that any note evidencing a loan made to a participating party be insured or guaranteed, in whole or in part, by an instrumentality of the United States or of the State of California or by a person licensed to insure mortgages in this state. Notwithstanding any other provision of law, any person licensed to insure mortgages or to write residential mortgage guarantee insurance in the state shall be authorized to insure or guarantee, in whole or in part, any loan made for residential rehabilitation, excluding residential infill construction, pursuant to and in accordance with the provisions of this part, and such insurance shall not exceed 95 percent of the after-rehabilitation value of the property subject to such loan. Such insurance may include insurance of construction advances for purposes of residential rehabilitation and need not require completion of said residential rehabilitation for payment of claims thereunder.

Such notes, deeds of trust, or mortgages may be assigned to, and held on behalf of the local agency by, any bank or trust company appointed to act as trustee or fiscal agent by the local agency in any indenture or resolution providing for issuance of bonds pursuant to this part.

Notwithstanding Section 711 of the Civil Code, the full amount owed on any loan for residential rehabilitation made pursuant to this part shall be due and payable upon sale or other transfer of ownership of the property subject to such rehabilitation, except that assignment of the loan to the buyer or transferee may be permitted where required by the federal or state insurer or in cases of hardship, which shall be defined, and procedures established for the determination of their existence, in the guidelines established pursuant to subdivision (c) of Section 37922.

## CHAPTER 1331

An act to amend Sections 33750, 33753, 33760, 33775, and 33780 of, and to add Section 52053.5 and 52056 to, the Health and Safety Code, relating to housing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 33750 of the Health and Safety Code is amended to read:

33750. The Legislature finds and declares that it is necessary and essential that redevelopment agencies be authorized to make long-term, low-interest loans through qualified mortgage lenders to finance residential construction in redevelopment project areas in order to encourage investment and upgrade such areas. Unless redevelopment agencies intervene to generate mortgage funds and to provide some form of assistance to finance residential construction, many redevelopment areas will stagnate and deteriorate because owners and investors are not able to obtain loans from private sources.

The Legislature further finds and declares that financing of rehabilitation, as provided in this chapter, serves an essential public purpose for the economic renewal of our cities.

SEC. 2. Section 33753 of the Health and Safety Code is amended to read:

33753. The definitions set forth in Article 1 (commencing with Section 33000) of Chapter 1 of this part shall govern the construction of this chapter. Additionally, as used in this chapter:

(a) "Construction loan" means a loan to finance residential construction under this chapter, whether such loan is insured or uninsured.

(b) "Financing" means the lending of moneys or any other thing of value for the purpose of facilitating residential construction pursuant to this chapter, including the making of construction loans and mortgage loans to purchasers of newly constructed and newly rehabilitated residences and the making of loans to qualified mortgage lenders.

(c) "Local codes" means applicable local, state and federal standards for residential construction or rehabilitation, including any higher standards adopted by the agency for a redevelopment project area or as part of its redevelopment program.

(d) "Mortgage loan" means a long-term loan which is secured by a mortgage and is made for permanent financing of residences, pursuant to this chapter.

(e) "Participating party" means any person, corporation,

partnership, firm, or other entity or group of entities requiring financing for residential construction pursuant to the provisions of this chapter. No elective officer of the state or any of its political subdivisions or employee of any redevelopment agency shall be eligible to be a participating party under the provisions of this chapter.

(f) "Qualified mortgage lender" means a mortgage lender authorized by a redevelopment agency to do business with the agency and to aid in financing pursuant to this chapter on behalf of the agency, for which service the qualified mortgage lender will be reasonably compensated. Such a mortgage lender shall be a state or national bank, federal or state-chartered savings and loan association, or trust company or mortgage banker which is capable of providing service or otherwise aiding in the financing of mortgages on residential construction within the jurisdiction of the agency. Nothing in any other provision of state law shall prevent such a lender from serving as a qualified mortgage lender pursuant to this chapter.

(g) "Redevelopment project area" means a project area, as defined in Section 33320.1, for which a final redevelopment plan has been adopted pursuant to Section 33365.

(h) "Rehabilitation" means repairs and improvements to a substandard residence necessary to make it meet local codes. As used in this section, "substandard residence" has the same meaning as the term "substandard building," as defined in Section 17920.3, except that "substandard residence" shall include all property improved with any structure defined in subdivision (j) of this section as a "residence," with respect to which any of the conditions listed in Section 17920.3 exist.

(i) "Residential construction" means the construction of new residences or the rehabilitation and improvement of substandard residences to meet requirements of local codes and the redevelopment plan.

(j) "Residence" means real property improved with a residential structure and within a redevelopment project area real property improved with a commercial structure (or structures) or a mixed residential and commercial structure, which the redevelopment agency determines to be an integral part of a residential neighborhood. For purposes of determining the integrality of new construction for such purpose, a proposed commercial or mixed residential and commercial structure shall be located within or immediately adjacent to a neighborhood primarily residential in character.

New construction of any commercial structure, or of the commercial portion of any mixed residential and commercial structure, financed under this chapter shall not exceed 80,000 square feet of gross building area per development. Any suit challenging such finding shall be filed within 60 days, or the findings of the agency shall be conclusive.

An agency may not provide long-term financing pursuant to this chapter for new construction of a commercial structure or the commercial portion of a mixed residential and commercial structure if conventional financing in an amount sufficient to complete the construction has been obtained for the construction of such structure or portion thereof.

Prior to the financing of any commercial structure within a redevelopment project area, the agency shall adopt a financing plan by resolution, which may include commercial and residential structures. The square footage of the commercial structures shall not exceed 30 percent of the aggregate square footage of all the commercial and residential structures within the project area and financed pursuant to the financing plan. The financing plan for the commercial and residential structures shall include structures that have been, or are being, financed pursuant to this chapter or under federal or state financial assistance programs or local assistance programs of any kind whatsoever. However, such a financing plan shall not be required for an agency that has financed residential structures with the proceeds of bonds issued prior to the effective date of the amendment to this section enacted during the 1980 portion of the 1979-80 Regular Session, nor shall such amendments affect the validity of the tax-exempt status of bonds issued pursuant to this chapter prior to such date.

Additionally, any financing for a commercial structure or a mixed residential and commercial structure authorized or preliminarily approved by resolution adopted by a redevelopment agency or community development commission established pursuant to Section 33201 either (1) on or before June 3, 1980, in furtherance of which the agency or any person or entity has expended substantial funds or committed to reimburse another person or entity which has expended substantial funds, or (2) before October 31, 1980, in furtherance of which the agency has expended funds in connection with such financing or plans relating to such financing if the structure to be financed is located within a city designated pursuant to Section 119 of federal Public Law 95-128, as amended, or within a city designated as of the effective date of the amendments to this section enacted during the 1980 portion of the 1979-80 Regular Session under Title IX of federal Public Law 89-136, as amended, as a long-term economic deterioration area, or financing for a commercial structure or mixed residential and commercial structure as to which bonds have been delivered on or before July 31, 1980 (without regard to the date the bonds were authorized or received preliminary approval), shall not be subject to new requirements or conditions of this subdivision enacted during the 1980 portion of the 1979-80 Regular Session.

"Residence" includes condominium and cooperative dwelling units, and includes both real property improved with single-family residential structures and real property improved with multiple-family residential structures.

(k) "Revenue bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued by an agency pursuant to this chapter and which are payable exclusively from revenues and from any other funds specified in this chapter upon which the revenue bonds may be made a charge and from which they are payable.

(l) "Revenues" means all amounts received as repayment of principal, interest, and all other charges received for, and all other income and receipts derived by, the redevelopment agency from the financing of residential construction, including moneys deposited in a sinking, redemption, or reserve fund or other fund to secure the revenue bonds or to provide for the payment of the principal of, or interest on, the revenue bonds.

SEC. 3. Section 33760 of the Health and Safety Code is amended to read:

33760. Within its territorial jurisdiction, an agency may determine the location and character of any residential construction to be financed under the provisions of this chapter and may make mortgage or construction loans to participating parties through qualified mortgage lenders, or purchase mortgage or construction loans without premium made by qualified mortgage lenders to participating parties, or make loans to qualified mortgage lenders, for financing (1) residential construction within a redevelopment project area or (2) residential construction of residences in which the dwelling units are committed, for the period during which the loan is outstanding, for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence. Any loans to qualified mortgage lenders shall be made under terms and conditions which, in addition to other provisions as determined by the agency, shall require the qualified mortgage lender to use all of the net proceeds thereof, directly or indirectly, for the making of mortgage loans or construction loans in an appropriate principal amount equal to the amount of such net proceeds; such mortgage loans may, but need not, be insured.

SEC. 4. Section 33775 of the Health and Safety Code is amended to read:

33775. (a) An agency may, from time to time, issue its negotiable revenue bonds for the purpose of making or purchasing mortgage or construction loans, or making loans to qualified mortgage lenders, to finance residential construction. In anticipation of the sale of bonds, the agency may issue negotiable bond anticipation notes and may renew such notes from time to time. Bond anticipation notes may be paid from the proceeds of sale of the bonds of the agency in anticipation of which they were issued. Bond anticipation notes and agreements relating thereto and the resolution or resolutions authorizing such notes and agreements may contain any provisions, conditions, or limitations which a bond, agreement relating thereto, or bond resolution of the agency may contain except that any such

note or renewal thereof shall mature at a time not later than two years from the date of the issuance of the original note.

(b) Every issue of its revenue bonds shall be a special obligation of the redevelopment agency payable from all or any part of the revenues specified in this chapter. The revenue bonds shall be negotiable instruments for all purposes, subject only to the provisions of such bonds for registration.

SEC. 5. Section 33780 of the Health and Safety Code is amended to read:

33780. In the discretion of the agency, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the agency and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without this state. Such a trust agreement or the resolution providing for the issuance of revenue bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged, and may convey or mortgage any residence the construction of which is to be financed out of the proceeds of such revenue bonds. Such trust agreement or the resolution providing for the issuance of bonds may provide for the assignment to such corporate trustee or trustees of mortgage or construction loans or loans to qualified mortgage lenders, to be held by such trustee or trustees on behalf of the agency for the benefit of the bondholders. Such trust agreement or resolution providing for the issuance of revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including such provisions as may be included in any resolution or resolutions of the agency authorizing the issuance of the revenue bonds. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of revenue bonds or of revenues or other moneys may furnish such indemnity bonds or pledge such securities as may be required by the agency. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the agency may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of residential construction.

SEC. 6. Section 52053.5 is added to the Health and Safety Code, to read:

52053.5. Notwithstanding subdivision (b) of Section 52053 or any of the limitations of this part:

(a) Until July 1, 1981, a charter city having seven community development districts established for purposes of Section 105(a) (8) of Public Law 93-383, as amended, and which, prior to February 1, 1980, issued revenue bonds to finance mortgage loans on homes, may

issue not more than thirty-three million dollars (\$33,000,000) of additional revenue bonds pursuant to local ordinance to make or purchase mortgage loans on homes as defined in Section 52012, subject to the following conditions:

(1) For mortgage loans on homes located within such a community development district, the income of a purchaser shall not exceed 150 percent of the median income within the city.

(2) For a home located outside of a community development district, the income of a purchaser shall not exceed 120 percent of the city's area median income.

(3) The maximum purchase price for a home not undergoing rehabilitation in connection with financing pursuant to this subdivision shall not exceed the median purchase price of homes in the city.

(4) The maximum loan amount for homes undergoing rehabilitation in connection with financing pursuant to this subdivision shall not exceed the median purchase price of a home in the city.

(b) Until July 1, 1981, a city and county may issue not more than sixty million dollars (\$60,000,000) of revenue bonds pursuant to local ordinance for the purpose of financing the purchase of residential housing units under the following conditions:

(1) The proceeds of the bonds will be used in combination with subsidy moneys made available through grant programs such as the Urban Development Action Grant, the Community Development Block Grant or other similar federal, state, or local subsidies to finance the purchase of residential housing under an ownership or financing arrangement which provides for the sharing of equity appreciation between one or more occupants of each property and the city and county (or an entity acting on its behalf).

(2) The revenue bonds and subsidy moneys shall provide for the following:

(A) At least 50 percent of the participants of the program shall be lower income households, as defined in Section 50079.5, unless the city and county makes a finding that this requirement cannot be achieved, in which case at least 40 percent of the participants of the program shall be lower income households.

(B) Not more than 25 percent of the participants of the program may be persons and families whose incomes are between 120 percent and 140 percent of the area median income, and not less than 25 percent shall be between 80 percent and 120 percent of the area median income.

(C) Not less than 30 percent of the residential housing units financed pursuant to this subdivision shall be units where the participant in the program is the first occupant, or units which are being substantially rehabilitated. As used in this subparagraph, "substantial rehabilitation" means rehabilitation in which the costs of rehabilitation equal or exceed 20 percent of the value of the structure after rehabilitation.

However, the requirements of this paragraph may be modified by the city and county, as necessary to meet the conditions of approval of the United States Department of Housing and Urban Development.

(c) Notwithstanding any other provision of law, bonds issued pursuant to this section shall be legal investments for all trust funds, insurance companies, savings and loan associations, investment companies and banks, both savings and commercial, and shall be legal investments for executors, administrators, trustees and all other fiduciaries. Such bonds shall be legal investments for state school funds and for any funds which may be invested in county, municipal, or school district bonds, and such bonds shall be deemed to be securities which may properly and legally be deposited with, and received by, any state or municipal officer or by any agency or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the state is now, or may hereafter be authorized by law, including deposits to secure public funds.

(d) It is not the intent of the Legislature in enacting this section to change the provisions of this part, but only to continue programs relating to the goals of this part and to prevent loss of commitments for Urban Development Action Grants.

SEC. 7. Section 52056 is added to the Health and Safety Code, to read:

52056. (a) Any county having a population exceeding 4,000,000 persons may, in addition to any other power conferred by this part, issue revenue bonds as provided in Chapter 4 (commencing with Section 52030) of this part for the purpose of financing the construction or development of multifamily rental housing and for the provision of capital improvements in connection with and determined necessary to such multifamily housing.

(b) Not less than 30 percent of the total number of rental housing units financed or for which financing has been extended or committed pursuant to this section shall be for occupancy on a priority basis by lower income households, as defined in Section 50079.5, at least two-thirds of which shall be for occupancy on a priority basis by very low income households, as defined in Section 50105.

(c) As a condition of financing pursuant to this section, the county shall ensure that units reserved for occupancy by lower income households remain available at an affordable rent for such occupancy on a priority basis for a period of not less than 30 years from the date the loan is made. For the purposes of this section, affordable rent shall be rent in an amount not exceeding 25 percent of the gross income of the occupant person or family, nor less than 15 percent of such gross income.

(d) A long-term loan which is made by a county for the permanent financing of a multifamily rental housing development in the county making such long-term loan shall be secured by a mortgage and insured by the Federal Housing Administration,

California Housing Finance Agency, a private mortgage insurer, or an insurance fund maintaining actuarially sufficient reserves established by the county.

(e) Any bonds issued under this section shall be issued on or before December 31, 1981.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

It was and is the intent of the Legislature that revenue bond financing authorized by Chapter 8 (commencing with Section 33750) of Part 1 of Division 24 of the Health and Safety Code be used to finance commercial structures that are neighborhood service centers, and are located on a parcel or parcels that could otherwise not be developed. However, such authorization, which utilizes a public subsidy in the form of an income tax exemption for interest earned by the bonds, has recently been utilized to finance development which is exclusively commercial and does not meet these criteria. Also, in order to make the financing of residential construction more economical through better bond ratings and lower bond interest rates, it is necessary and desirable that redevelopment agencies be authorized to accomplish residential construction financing programs indirectly through loans to qualified mortgage lenders. In order to maintain the public purposes of these provisions and to promote the public welfare, it is necessary that this act go into immediate effect. Additionally, it is necessary that this act go into immediate effect to enable the conduct of urgently needed housing programs in the City of Oakland, the City and County of San Francisco, and the County of Los Angeles.

## CHAPTER 1332

An act to add Section 593e to the Penal Code, relating to television transmissions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1980 Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 593e is added to the Penal Code, to read: 593e. Every person who for profit knowingly and willfully manufactures, distributes, or sells any device or plan or kit for a device, or printed circuit containing circuitry for interception or decoding with the purpose or intention of facilitating interception or decoding of any over-the-air transmission by a subscription television service made pursuant to authority granted by the Federal

Communications Commission which is not authorized by the subscription television service is guilty of a misdemeanor punishable by a fine not exceeding two thousand five hundred dollars (\$2,500) or by imprisonment in the county jail not exceeding 90 days, or both.

SEC. 2. No appropriation is made by this act pursuant to Section 2231 or 2234 of the Revenue and Taxation Code or Section 6 of Article XIII B of the California Constitution because the only costs which may be incurred by a local agency or school district will be because this act creates a new crime or infraction, changes the definition of a crime or infraction, or eliminates a crime or infraction. Furthermore, this act does not create any present or future obligation to reimburse any local agency or school district for any costs incurred because of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The need for legislative protection from piracy and other unauthorized reception of subscription television transmissions has become increasingly urgent to protect the subscription television industry, especially in light of the inadequate protection against illicit activities provided by existing law, and it is therefore necessary that this act go into effect immediately.

## CHAPTER 1333

An act to amend Sections 51215, 51216, 51217, and 56345 of, and to add Sections 51217.5, 51217.7, 51219, 51219.5, 51412, and 56157.5 to, the Education Code, relating to schools, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1980. Filed with  
Secretary of State September 30, 1980 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 51215 of the Education Code is amended to read:

51215. (a) The governing board of each school district maintaining a junior or senior high school shall, by June 1, 1978, adopt standards of proficiency in basic skills for pupils attending school within its school district.

(b) The governing board of each school district maintaining grade 6 or 8, or the equivalent, shall, by June 1, 1979, adopt standards of proficiency in basic skills for pupils attending such grades.

(c) Such standards shall include, but need not be limited to, reading comprehension, writing, and computation skills, in the

English language, necessary to success in school and life experiences, and shall be such as will enable individual achievement to be ascertained and evaluated.

(d) Differential standards and assessment procedures shall be adopted pursuant to this subdivision.

(1) Differential standards and assessment procedures shall be adopted for pupils who:

(A) Are enrolled in special education programs pursuant to Part 30 (commencing with Section 56000); or for whom individualized education programs have been developed, and for whom the regular instructional program has been modified, as necessary, under the supervision of a person who holds an appropriate credential in special education and;

(B) Have diagnosed learning handicaps or disabilities such that the individualized education program team determines they have not demonstrated evidence of the ability to attain the district's regular proficiency standards with appropriate educational services and support.

(2) If the team determines that such pupils have not demonstrated evidence of the ability to attain the district's regular proficiency standards with appropriate educational services and support, the team shall develop differential proficiency standards, or modify general differential standards adopted by the governing board, appropriate to the needs and potential of the pupil.

(3) Any such differential standards shall be included in the individualized education program developed for the pupil pursuant to Part 30 (commencing with Section 56000).

(4) The determination and the development of differential proficiency standards shall be part of the process of developing, reviewing, and revising a pupil's individualized education program.

(5) In the case where one or more differential standards are developed for a pupil enrolled in special education, such standards may be maintained throughout the pupil's school experience, irrespective of whether the pupil continues to be enrolled in special education.

(6) Nothing in this subdivision shall be construed to require differential proficiency standards for a pupil who a team determines can attain the district's regular proficiency standards with appropriate educational services and support.

(7) The provisions of this subdivision shall apply prospectively and retroactively to pupils enrolled in the 9th grade, or the equivalent thereof, during the 1977-78 school year.

(8) Differential standards and assessment procedures adopted pursuant to this subdivision shall permit the pupil for whom they are adopted to attain the standards within a reasonable amount of time but not after the state is no longer required by state or federal law to provide an education to the pupil.

(9) It is the intent of the Legislature that the attainment of a standard of proficiency by a pupil shall also reflect the attainment of

a reasonable level of competence. The Legislature, therefore, recognizes that there may be some pupils who cannot meet regular or differential standards of proficiency, and others who will need to remain in school beyond grade 12 or the equivalent in order to meet a standard which reflects their maximum potential.

(10) For students with diagnosed learning disabilities, as well as for students participating in the regular school program, proficiency assessments may be part of the classroom experience, and teaching materials may be used as assessment materials.

(e) Governing boards maintaining elementary or junior high schools located within a school district maintaining a high school shall adopt standards of proficiency in basic skills which are articulated with those standards adopted by the school district maintaining the high school.

(f) Designated employees of all school districts located within a high school district and one or more designees of the high school district shall meet prior to June 1, 1979, to plan for articulation of elementary and high school proficiency standards, and as necessary thereafter to review the effectiveness of such articulation procedures.

(g) Standards of proficiency shall be adopted by the governing board with the active involvement of parents broadly reflective of the socioeconomic composition of the district, administrators, teachers, counselors, and, with respect to standards in secondary schools, pupils.

SEC. 3. Section 51216 of the Education Code is amended to read:

51216. (a) Beginning in the 1978-79 school year, the governing board of each district maintaining a junior or senior high school, and beginning in the 1979-80 school year, the governing board of each district maintaining an elementary school, shall take appropriate steps to ensure that individual pupil progress towards proficiency in basic skills is assessed in the English language during the regular instructional program at least once during the 4th through 6th grade experience, once during the 7th through 9th grade experience and twice during the 10th through 11th grade experience, provided that any pupil who demonstrates proficiency up to prescribed levels for graduation from high school need not be reassessed. Nothing in this section shall preclude any district from conducting an assessment of any pupil in English and in the native language of such pupil.

(b) Proficiency assessments shall be used to determine whether pupils need additional assistance in basic skills, and if so, the appropriate content and mode of any such assistance.

It is the intent of the Legislature that pupil assessments measure the progress of each pupil in mastering basic skills rather than the pupil's performance relative to his or her classmates.

It is the intent of the Legislature that the governing board of each school district make every effort possible to periodically screen assessment instruments for racial, cultural, and sexual bias.

(c) (1) In the case of any pupil who does not demonstrate

sufficient progress toward mastery of basic skills so that he or she will be able to meet prescribed standards upon exit from the 6th, 8th, or 12th grade, whichever is appropriate, the principal shall arrange a conference among the parent or guardian of the pupil and a certificated employee familiar with the pupil's progress to discuss the results of the individual pupil assessment and recommended actions to further the pupil's progress.

(2) It is the intent of the Legislature that the conference to discuss the results of the individual assessment be conducted on an individual basis among the parent or guardian of the pupil, the certificated employee familiar with the pupil's progress, and the pupil, as the case may be, and not on a group basis in which all parents or guardians of such pupils are assembled.

(3) If such conferences are conducted on a group basis, the pupil or the parent or guardian may request, and shall be granted, a conference on an individual basis without having to attend the group conference.

(4) The secondary school pupil shall attend the conference. The elementary school pupil shall attend the conference unless the principal's designee and the parent or guardian agree that such presence would not be in the pupil's best interest.

(5) The pupil and the parent or guardian shall be requested in writing to attend the conference. Such notice shall be written in the primary language of the parent or guardian, whenever practicable. If the conference is to be conducted on a group basis, the notice shall specify the right of the pupil or the parent or guardian to request and be granted a conference on an individual basis without having to attend the group conference.

(6) Absent a response from the parent or guardian the school shall make a reasonable effort to contact him or her by other means to communicate directly the information contained in the written request.

(7) At the conference, the instructional program which shall be provided to assist the pupil to master basic skills shall be described. If the parent or guardian does not attend the conference, such information shall be communicated to the parent or guardian by other means within 10 days of the date of the conference.

(d) Instruction in basic skills shall be provided for any pupil who does not demonstrate sufficient progress toward mastery of basic skills and shall continue until the pupil has been given numerous opportunities to achieve mastery. Such instruction may be provided in summer school programs.

SEC. 4. Section 51217 of the Education Code is amended to read:

51217. (a) No pupil who was enrolled in the 9th grade, or the equivalent thereof, during the 1977-78 school year, or subsequent thereto, shall receive a diploma of graduation from high school if he or she has not met the standards of proficiency in basic skills prescribed by the secondary school district governing board.

(b) The State Board of Education shall, by February 1, 1978,

prepare and distribute to each school district maintaining a junior or senior high school, and by February 1, 1979, prepare and distribute to each district maintaining an elementary school, a framework for assessing pupil proficiency in reading comprehension, writing, and computation skills. Such framework shall include a range of assessment items in each skill area. The assessment framework shall be provided solely to assist each school district in the development of its own pupil assessments as required by Section 51216.

(c) Nothing in this section shall be construed to authorize or permit the State Board of Education to adopt statewide minimum proficiency standards for high school graduation.

SEC. 5. Section 51217.5 is added to the Education Code, to read:

51217.5. After June 1, 1981, no person enrolled in an adult school program, an evening high school program, or any other program or class for adults, the completion of which is evidenced by a diploma of graduation from high school, shall receive such diploma if he or she has not met the standards of proficiency in basic skills adopted by the school district governing board maintaining such program or class.

SEC. 6. Section 51217.7 is added to the Education Code, to read:

51217.7. (a) Pupils enrolled in juvenile court schools pursuant to Article 2.5 (commencing with Section 48645) of Chapter 4 of Part 27 or Article 4 (commencing with Section 56150) of Chapter 2 of Part 30 shall be subject to the standards of proficiency in basic skills of the school district in which they were last enrolled prior to enrollment in juvenile court schools.

(b) The county board of education maintaining the juvenile court school in which pupils are presently enrolled and the governing board of the school district in which such pupils were last enrolled prior to enrollment in the juvenile court schools shall jointly ensure, to the extent possible, that such pupils are assessed at the intervals required by subdivision (a) of Section 51216.

51219. (a) By January 15, 1981, the Department of Education shall collect from a representative sample of school districts the information specified in paragraphs (1) to (4), inclusive, of subdivision (c) for pupils enrolled in the 12th grade who were enrolled in the 9th grade, or the equivalent thereof, during the 1977-78 school year. Such information shall be collected only for such pupils who were assessed by December 1, 1980. By February 15, 1981, the Department of Education shall report such information to the Legislature.

(b) Commencing January 15, 1982, the Department of Education shall collect annually from a representative sample of school districts the information specified in paragraphs (1) to (3), inclusive, of subdivision (c) for pupils enrolled in the 6th and 9th grades or the equivalents thereof, and the information specified in paragraphs (1) to (4), inclusive of subdivision (c) for pupils enrolled in the 11th and 12th grades or the equivalent thereof. Commencing February 15,

1982, the Department of Education shall report annually such information to the Legislature.

(c) The Department of Education shall collect from a representative sample of school districts the following information relating to proficiency assessment performance.

(2) The number of pupils in grade 6, 9, 11, or 12, as appropriate, who have satisfied the district's proficiency standards in all three or more basic skills, as specified in subdivision (c) of Section 51215 and those who have not. Such information shall be both cumulated and categorized according to race and ethnicity and whether the pupils are limited English speaking or non English speaking, as specified in Section 52163.

(3) The number of pupils in grade 6, 9, 11, or 12, as appropriate, who have satisfied the district's proficiency standards in each of the three or more basic skills specified in subdivision (c) of Section 51215 and those who have not. (4) The number of pupils in grade 11 or 12, as appropriate, who regardless of whether they have satisfied the district's proficiency standards in each of the three or more basic skills specified in subdivision (c) of Section 51215 would not be eligible to receive a diploma of graduation from high school.

(b) The Superintendent of Public Instruction shall, by December 1, 1980, make available to all school districts information on such methods and shall give priority to those districts in which a substantial number of pupils have not demonstrated sufficient progress toward mastery of basic skills.

SEC. 8. Section 51412 is added to the Education Code, to read:

51412. No diploma, certificate or other document, except transcripts and letters of recommendation, shall be conferred on a pupil as evidence of completion of a prescribed course of study or training, or of satisfactory attendance, unless such pupil has met the standards of proficiency in basic skills prescribed by the governing board of the high school district, or equivalent thereof, pursuant to Article 2.5 (commencing with Section 51215) of Chapter 2.

(d) A pupil's individualized education program shall, pursuant to Section 51215, also include the determination of the individualized education program team as to whether differential proficiency
