California State Auditor

March 30, 1995

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by the Budget Act of 1994, the Bureau of State Audits presents its audit report concerning its review of the contracting practices of the State Architect. This report concludes that the State Architect did not always comply with state requirements when procuring architectural, engineering, construction and other services. In addition, this report addresses concerns that had been raised related to the State Architect's management of a major construction project that involved the seismic upgrading of the Armory and Ahmanson buildings owned by the California Museum of Science and Industry.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Consumer Protection, Governmental Efficiency and Economic Development.

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by Chapter 139, Statutes of 1994, the Bureau of State Audits presents its audit report entitled "Department of Social Services: Review and Assessment of the Cost Effectiveness of AFDC Fraud Detection Programs." This report concludes that the early and continuing fraud programs are clearly cost effective. However, the amount of savings attributable to the program is difficult to calculate. Finally, although the program is cost beneficial, the Department of Social Services could improve its management and oversight activities.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Human Services.

Members of the Assembly: As required by the 1994–95 Budget Act, the Bureau of State Audits presents its audit report entitled "Department of Social Services: The Department's Approach to Welfare Automation Is Too Costly and Unlikely To Succeed." It was prepared under contract by Ernst & Young, LLP. The report concludes that the department's approach to welfare automation will cost over \$1 billion and that the department's estimated savings from this project will not recover the costs for nearly ten years. Moreover, we are concerned that the department's estimated savings may not be attainable.

In addition, the software by the department may not be suitable to accommodate a high volume of transactions and is based on a proprietary system not suitable for competitive procurement. The technology approach is inefficiency, outdated, and not performing as expected. Further, our contractor found a number of serious deficiencies in the department's management of welfare automation including the lack of a strategic plan, measurable objectives, and adequate cost accounting or reporting. Because of these deficiencies,

we recommend the Legislature limit funding until certain conditions are met, the department competitively procure statewide welfare automation, and the department improve its management of welfare automation.

Respectfully submitted,

KURT R. SJOBERG
State Auditor

Above report referred to the Committee on Human Services.

Members of the Assembly: The Bureau of State Audits presents its audit report of the State Treasurer's Office Statement of Securities Accountability as of June 30, 1994.

The Statement of Securities Accountability presents the securities owned by or pledged to the State directly or under investment agreements and securities held for safekeeping. The State Treasurer's Office is responsible for the safekeeping of all securities held in the treasury or other depositories, except for securities owned by or pledged to the University of California, or for securities in other depositories owned by or pledged to the Public Employees' Retirement System, the State Teachers' Retirement System, the Legislators' Retirement System, or Judges' Retirement System. For the Statement of Securities Accountability, the State Treasurer's Office assigns dollar amounts to each security for ease of accountability rather than for purposes of valuing securities to cost or market. The dollar amounts assigned represent the par or face value, the original face value, the original principal value, the current outstanding principal balance, or a nominal value of \$1 per certificate or note. Therefore, the dollar amounts presented in the Statement of Securities Accountability should not be used to determine the value of investments of, or pledged to the State. We found that the statement presents fairly the securities accountability of the State Treasurer's Office as of June 30, 1994.

We conducted this audit to comply with the California Government Code, Section 13299.1.

Respectfully submitted,

KURT R. SJOBERG
State Auditor
