The following letter of transmittal was presented by the Speaker, and ordered printed in the Journal:

California State Auditor

94002

June 21, 1995

*The Honorable Speaker of the Assembly  
The Honorable Members of the Assembly  
of the Legislature of California  
State Capitol, Room 3196  
Sacramento, California*

Members of the Assembly: The Bureau of State Audits presents the results of our review of the State's control of its financial activities and its compliance with federal grant requirements and state regulations. This review was made as part of our examination of the State's general purpose financial statements. This report fully meets the requirements of the 1984 Single Audit Act set forth by the United States Government as a condition of receiving almost \$26 billion in federal funds annually. The Bureau of State Audits, which was created in May 1993, pursuant to the California Government Code, Section 8543, is responsible for performing the annual financial and compliance audit previously conducted by the Office of the Auditor General.

The State continues to need improvement in its accounting, auditing, and administrative control structure. For example, we found numerous inadequacies in the State's monitoring of recipients of state and federal moneys. As a result, the State cannot ensure that the recipients are complying with regulations or laws governing the receipt or use of these moneys. In addition, we noted instances in which the State failed to promptly bill for costs incurred, resulting in lost interest earnings or an impairment in the State's ability to collect amounts owned to the State.

In responding to weaknesses we have reported in an earlier audit, the State has made some improvements in its internal control structure. For example, for fiscal years 1988-89 through 1992-93, the Office of the Auditor General or the Bureau of State Audits reported that the Stephen P. Teale Data Center recorded the cost of software purchases as an operating expense rather than an intangible asset.

The cumulative effect of not recording intangible assets in the past was to understate assets (net of amortization) at June 30, 1993, by approximately \$4.8 million. The data center now records software costs that exceed \$5,000 and that have a useful life of four years as intangible assets and allocates the cost of the software to expense over its useful life.

Respectfully submitted,

KURT R. SJOBERG  
State Auditor

Above report referred to the Committee on Appropriations.

#### OATH OF OFFICE

The following Oath of Office was presented by the Chief Clerk, and ordered printed in the Journal:
