Yet, we can get through difficult times so much better when we remember to focus on You first, Lord. When we turn to You first, it shows that You mean something to us. When we turn to You first, we allow Your invisible power to strengthen us, to guide and protect us, and to fill us with joy.—AMEN.

Yet, what we need are people who will lift us up, someone who believes in us more than we believe in ourselves. Lord, bless us today with someone who can call out the potential inside of us. And help us to be a catalyst for our family and those around us to do things they never thought possible.—AMEN.

Lord, Our life gets so busy with things to do, that we can feel like we're in a rat race. But the problem with a rat race is that even if we win, we're still just a rat. Lord, help us gain the proper perspective in life so that we are driven by Your purpose for our life, not by guilt, or money. For You are more interested in who we are, than what we do. Help us to grow in character and in Your image and likeness so that we live as human beings, not human doings.—AMEN.

Even though we have a great many things to accomplish each day, especially this one, let us not fret for His presence is here. His timelessness, His all-importance will keep us in balance. Legislative Intent—Senate Bill No. 73

June 15, 2013

E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

RE: Letter of Intent to the Journal—
California Clean Energy Jobs Act (Proposition 39)

Dear Mr. Wilson: On behalf of the Assembly, I, along with Senator De León, negotiated the recently enacted budget trailer bill, SB 73, to establish an implementation plan for the California Clean Energy Jobs Act (Proposition 39). The agreement funds energy projects at schools around the state upon approval of local expenditure plans.

The trailer bill requires the California Energy Commission to define specified criteria and determine ways to calculate the cost savings and benefits of Prop 39 projects. Local education agencies, prior to receiving their Prop 39 allocations, must demonstrate that their proposed projects meet those criteria. The trailer bill also provides that "All benefits of these public funds should be received by the school utilizing the facility." For a school facility located in leased space, the Legislature's intent in including that provision was to ensure that funds would not be distributed to these agencies for projects unless they can demonstrate that cost benefits will in fact result and that those benefits will be received directly by the agency.

Sincerely,

NANCY SKINNER, Assembly Member
Fifteenth District

By unanimous consent, the following committee was permitted to meet:

REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2012-111
June 18, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the California Department of Public Health's (Public Health) administration of the Stop Tobacco Access to Kids Enforcement Act (STAKE Act).

This report concludes that Public Health lacks adequate fiscal processes to accurately account for the expenditures related to statewide and local compliance inspections it conducts and that it could enhance its compliance inspections. In particular, Public Health does not have a process to identify how much time its investigators spend on statewide compliance inspections as opposed to local compliance inspections it conducts on behalf of local entities. As a result, it cannot be certain that the costs it charges various funding sources for statewide and local compliance inspections are accurate. In fact, because the procedures Public Health uses to conduct statewide and local compliance inspections are the same for both, we expected the average cost Public

Health recorded for statewide and local compliance inspections to be similar. However, the average cost Public Health recorded for statewide compliance inspections varied substantially from the average cost it recorded for local compliance inspections. Additionally, the rates that Public Health charged local entities for conducting local compliance inspections during fiscal years 2009–10 through 2011–12 resulted in reimbursements that were at least $207,000 less than what was needed to cover its costs.

We also noted that Public Health is missing an opportunity to enhance its enforcement efforts of the STAKE Act because its Tobacco Control Branch does not share the data on potential violators identified through annual, random, unannounced inspections of tobacco retailers (annual retailer assessment) with the Food and Drug Branch. Specifically, Public Health has entered into an agreement with a third party to conduct the annual retailer assessment. The third party identified 61, 57, and 42 retailers that sold tobacco to minors during each of the three annual retailer assessments it conducted for federal fiscal years 2010, 2011, and 2012, respectively. However, because the purpose of the annual retailer assessment does not include taking enforcement action against the violating retailers, Public Health's Tobacco Control Branch does not notify these retailers or take action against those who sold tobacco to minors. Finally, Public Health could revise its youth consent form to provide greater specificity regarding the use of the data it collects with the help of boys and girls 15 and 16 years of age.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

Above report referred to the Committee on Health.

Help us to keep You front and center in our life. We may not be able to change the entire world, but we can change ourselves. Guide us, Heavenly Father, to seek Your love and compassion first, in everything we do.—AMEN.

PRAYER

Upon invitation of Speaker Pérez, the following prayer was offered by Assembly Member Richard S. Gordon, of the 24th Assembly District:

Lord, It is written that we should love our neighbor as ourselves. For many of us, the hardest part of that equation is learning to love ourselves. We have doubt and fear. We are insecure. We focus on our imperfections. We struggle to accept who we are. We struggle to accept our identity.

Today we celebrate those who have dared to accept themselves and have used that personal knowledge to enhance our state.

Lord, we ask You to give us the courage to be who we are. To help us understand that we are made in Your image. Help us to love ourselves so that we may truly share our love with our neighbors—all of those with whom we share this time and place.

Bless this day and each and every one of us.—AMEN.

Dear Mr. Wilson: Enclosed is our office's fiscal analysis of the proposed memoranda of understanding with state employee Bargaining Units 1, 3, 4, 11, 14, 15, 17, 20, and 21 (Service Employees' International Union, Local 1000). REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

I2010-1045
June 20, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: Pursuant to the California Whistleblower Protection Act, the California State Auditor presents this investigative report concerning the California Department of Corrections and Rehabilitation, and California Correctional Health Care Services (Correctional Agencies) undercharging the leave balances of certain employees for workdays that they missed.

This report concludes that the Correctional Agencies wasted $169,541 in state resources by improperly charging leave hours for 128 of the 170 employees whose leave usage we reviewed over a 12-month period. Most of these improperly charged hours resulted from the Correctional Agencies charging employees' leave balances only eight hours for each workday missed. Because these employees were working nine or 10 hour workdays, they should have been charged nine or 10 hours of leave for each workday that they missed. The remaining mischarged leave hours resulted from the Correctional Agencies' personnel specialists making clerical errors when entering information into the agencies' leave accounting system. We further conclude that, in addition to wasting state resources at the six correctional facilities we visited, the Correctional Agencies likely wasted a substantial amount of state resources in a similar manner at their 27 other adult correctional facilities.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

Above report referred to the Committee on Public Safety.

Legislative Intent—Assembly Bill No. 94

June 25, 2013

E. Dotson Wilson
Chief Clerk of the Assembly
State Capitol, Room 3196
Sacramento, California

Dear Mr. Wilson: I respectfully submit this letter to the Assembly Journal regarding Assembly Bill 94 relative to the State Budget Act of 2013–14 and the General Fund support to the University of California in Item 6440-001-0001.

It is my intent as the manager of this measure, and as Chair of the Assembly Budget Committee, that the moneys allocated from Item 6440-001-0001 of Section 2.00 of the Budget Act of 2013–14, in the sum of fifteen million dollars ($15,000,000), be allocated to the Regents of the University of California for the School of Medicine at the University of California, Riverside (UCR), on an ongoing basis.

In allocating these funds, I recognize that ongoing funding for the School of Medicine at UCR is critical, not only to provide for the planning and startup costs associated with academic programs, but also for the ongoing operating support for faculty, staff and other annual expenses necessary to ensure the success of the program.

Furthermore, it is also my intent that the Regents of the University of California shall only use the moneys allocated from Item 6440-001-0001 of Section 2.00 of the Budget Act of 2013–14, in the sum of fifteen million dollars ($15,000,000), for the sole purpose of funding the School of Medicine at the University of California, Riverside, and shall not redirect or otherwise expend these moneys for any other purpose. Nor shall the funding be used to supplant other funding of the Regents of the University of California for the School of Medicine at UCR.

The ongoing allocation of fifteen million dollars of state funding to the UCR medical school will add more physicians to underserved areas in inland southern California and help California meet the objectives of the federal Patient Protection and Affordable Care Act (Public Law 111-148) in the short-term and the long-term by expanding the physician workforce.

I am confident the Regents of the University of California will honor the intent on this allocation.

Sincerely,

BOB BLUMENFIELD, Chair
Assembly Budget Committee

Mr. Speaker: Pursuant to your instructions, the Chief Clerk has examined:

Assembly Bill No. 752

And reports the same correctly enrolled, and presented to the Governor on the 27th day of June, 2013, at 12:40 p.m.

E. DOTSON WILSON, Chief Clerk

MESSAGES FROM THE GOVERNOR

The following item veto message from the Governor was received and ordered printed in the Journal and the items ordered to the unfinished business file:

Item Veto Message—Assembly Bill No. 110

Governor's Office, Sacramento
June 27, 2013

I object to the following appropriations contained in Assembly Bill 110.

Item 0250-101-0932—For local assistance, Judicial Branch. I revise this item by deleting Provision 15.

I am deleting Provision 15, eliminating the appropriation which would require the Judicial Council to spend local assistance funds to adopt rules of court for all groups that review issues for the Judicial Council. This spending provision would create cost pressures on trial courts. I urge the Judicial Council to continue efforts to provide greater public access to Judicial Branch committee activities.

Item 1110-001-0777—For support of Veterinary Medical Board. I reduce this item from $3,530,000 to $3,171,000 by reducing:

(1) 90-Veterinary Medical Board from $3,556,000 to $3,197,000.

I am reducing this item by $359,000 and 5 positions from the Board's enforcement program because this augmentation is premature. In the coming year, my Administration will review the Department of Consumer Affairs' enforcement workload for the healing arts boards, including the Veterinary Medical Board, to determine appropriate resource levels.

Item 2660-001-0042—For support of Department of Transportation. I revise this item by reducing:

(9) 40-Transportation Planning from $134,280,000 to $133,800,000, and

(16) Amount payable from the Public Transportation Account, State Transportation Fund (Item 2660-001-0046) from –$176,596,000 to –$176,116,000.

Consistent with my May Revision proposal, I am deleting $480,000 and 5 positions for the Complete Streets program. The program began in 2008 and the Department of Transportation (Caltrans) delivered the Complete Streets Implementation Action Plan in 2010. A zero-base budget review of the Planning program found that these positions are no longer necessary because the work has been completed. Caltrans has incorporated Complete Streets design concepts into the Highway Design Manual and the Project Development Procedures Manual used in collaboration with local transportation agencies. One position remains to continue providing Complete Streets program updates and support.

Item 2660-001-0046—For support of Department of Transportation. I reduce this item from $176,596,000 to $176,116,000.

I am reducing this item by $480,000 to conform to the action I have taken in Item 2660-001-0042.

Item 3720-001-0001—For support of California Coastal Commission. I sustain this item.

I am sustaining the $3,000,000 augmentation for the California Coastal Commission on a one time basis. This augmentation is intended to address the current backlog of Local Coastal Plans awaiting review. I prefer to focus any additional resources on assisting local jurisdictions to complete and revise their plans in a timely manner. I am directing the Department of Finance to examine what level of resources, if any, the Coastal Commission requires for this purpose in 2014–15.

Item 3860-001-6029—For support of Department of Water Resources. I delete this item.

I am deleting $653,000 for the American River Water Information System. Although there may be a benefit to refining water flow measurements for the American River, previous Proposition 40 bond expenditures and high-priority activities funded in the Budget fully expend the allocation from which this augmentation would be drawn.

Item 3860-101-8018—For local assistance, Department of Water Resources. I delete this item.

I am deleting the $3,000,000 augmentation for extension of the Salton Sea Financial Assistance Program. While I am supportive of restoration efforts for the Sea, the Salton Sea Restoration Fund is limited. It is essential to reserve funds to implement recommendations based on the funding and feasibility study to be completed by the Secretary of Natural Resources Agency and the Salton Sea Authority.

Item 3930-001-0106—For support of Department of Pesticide Regulation. I reduce this item from $55,793,000 to $55,543,000 by reducing:

(1) 10-Pesticide Programs from $58,867,000 to $58,617,000.

I am reducing the augmentation to increase enforcement of state pesticide regulations by $250,000 and 2 positions. This reduction is necessary to help bring ongoing expenditures in line with ongoing revenues in the Department of Pesticide Regulation Fund. However, I am sustaining $383,000 and 3 positions to develop mitigation measures for toxic air contaminants. I will be working with the Legislature over the next few months to enact legislation that requires the development of control measures on pesticides.

Item 3940-001-0193—For support of State Water Resources Control Board. I reduce this item from $106,270,000 to $105,951,000 for the Irrigated Lands Regulatory Fee Program.

I am reducing the augmentation to increase enforcement under the Irrigated Lands Program by $319,000 and 2 positions. This reduction is necessary to prevent an excessive fee increase on farmers. However, I am sustaining $650,000 and 5 positions to develop greater expertise in agricultural production at the Central Coast Regional Water Quality Control Board and the Central Valley Regional Water Quality Control Board. The two largest agricultural regions of the state will benefit from the regional boards having greater internal expertise in agroecology, and agricultural soil and plant science.

Item 3940-001-0439—For support of State Water Resources Control Board. I revise this item by reducing:

(1) 10-Water Quality from $484,962,000 to $484,643,000, and

(9) Amount payable from the Waste Discharge Permit Fund (Item 3940-001-0193) from –$106,270,000 to –$105,951,000.

I am revising this item to conform to the action I have taken in Item 3940-001-0193.

Item 5225-001-0001—For support of Department of Corrections and Rehabilitation. I revise this item by deleting Provisions 5 and 6.

I am deleting Provision 5, eliminating the appropriation which would require the Department of Corrections and Rehabilitation (CDCR) to spend funds reporting to the Legislature on cost containment efforts and cost drivers for legal services provided by the Department of Justice. This language is unnecessary, as the Legislature adopted Supplemental Report Language for the Attorney General to report on the hours and costs associated with handling CDCR's legal cases.

I am deleting Provision 6, eliminating the appropriation which would require the expenditure of funds for parole agents to refer parolees to state-funded adult literacy programs at local libraries and require the California State Library to provide a list of those programs.

Item 5227-001-0001—For support of Board of State and Community Corrections. I revise this item by deleting Provision 2.

I am deleting Provision 2, eliminating the appropriation which would require the Board of State and Community Corrections to spend funds by dedicating 1 position to juvenile justice research.

This language is unnecessarily restrictive and interferes with the Board's ability to manage its programs and resources. This requirement would restrict the Board's ability to identify and prioritize overall research needs and advancements of best practices.

Item 6110-001-0001—For support of Department of Education. I revise this item by reducing:

(2) 20-Instructional Support from $148,334,000 to $148,109,000,

(9) Amount payable from the Federal Trust Fund (Item 6110-001-0890) from –$165,830,000 to –$165,605,000,

and by deleting Provision 21.

I am deleting Provision 21, eliminating the appropriation which would require the State Department of Education to expend funds developing a child care preschool plan based on a proposal at the federal level for a universal preschool program. The state does not have sufficient funds to support universal preschool, and the federal government has not adopted funding for implementation of a universal preschool program involving states.

I am revising this item to conform to the action I have taken in Item 6110-001-0890.

Item 6110-001-0890—For support of Department of Education. I reduce this item from $165,830,000 to $165,605,000 and delete Provision 30.

I am reducing this item by $225,000 in federal Title III funding to eliminate one-time funding for the translation of parent notifications and templates. These funds are unnecessary as high priority translations have already been completed, and the remaining workload is not critical and can be absorbed by the Department.

I am deleting Provision 30 to conform to this action.

Item 6110-106-0001—For local assistance, Department of Education (Proposition 98). I sustain this item.

I am sustaining funding for the California Collaborative for Educational Excellence. Although the Budget creates this entity to provide critical assistance to local education agencies, I believe additional work is necessary to properly define its governance composition and ongoing role within the accountability structure of the Local Control Funding Formula. As such, it is my expectation that subsequent legislation will be enacted this year to define the governance of and roles and responsibilities for the Collaborative for Educational Excellence, as well as, direct the expenditure of the monies appropriated in this item. Furthermore, it is my expectation that any expenditure of these monies will reflect this forthcoming legislation and an agreed upon plan by the Department of Education, the State Board of Education, and the Department of Finance.

Item 6110-122-0001—For local assistance, Department of Education (Proposition 98). I sustain this item.

I am sustaining funding for Special Secondary Programs for the 2013–14 fiscal year. This program was eliminated in my Local Control Funding Formula proposal consistent with my belief that local education agencies are in the best position to allocate their funding to meet local needs and priorities. Given the Legislature's support of this program, I will direct my Administration to examine whether this funding should continue as a separate categorical program into the future.

Item 6110-161-0001—For local assistance, Department of Education (Proposition 98). I reduce this item from $3,201,317,000 to $3,171,317,000 by reducing:

(1) 10.60.050.003-Special Education Instruction from $3,128,351,000 to $3,098,351,000, and by deleting Provision 25.

I am reducing $30,000,000 from the special education program and deleting Provision 25 to conform to this action. The proposed equalization of special education funding, when phased in, would have ongoing costs in excess of $300 million. This would reduce available resources to pay off deferrals and to implement the flexible Local Control Funding Formula.

Item 6110-167-0001—For local assistance, Department of Education (Proposition 98). I sustain this item.

I am sustaining funding for the Agricultural Career Technical Education Incentive Program for the 2013–14 fiscal year. This program was eliminated in my Local Control Funding Formula proposal consistent with my belief that local education agencies are in the best position to allocate their funding to meet local needs and priorities. Given the Legislature's support of this program, I will direct my Administration to examine whether this funding should continue as a separate categorical program into the future.

Item 6110-196-0001—For local assistance, Department of Education (Proposition 98). I revise this item from $511,965,000 to $506,965,000 by reducing:

(1) 30.10.010-Special Program, Child Development, Preschool Education from $511,965,000 to $506,965,000.

I am reducing this item by $5,000,000. With this reduction, funding will be $25 million higher in the budget year, providing for increased pre-school slots consistent with the $25 million augmentation I sustained for increased child care slots. While I am sustaining this augmentation for the preschool program, I am doing so on a one-time basis. Providing this increase on an ongoing basis would reduce future resources available for K–14 programs.

Item 6440-001-0001—For support of University of California. I revise this item by deleting Provisions 6, 8, 10, 11, 12, 13, 14, 15, and 16.

I am deleting Provisions 6, 8, 10, 11, 12, 13, 14, and 15 because the requirements included in these provisions that the University of California expend funds for various purposes create cost pressures and unnecessary restrictions. Eliminating these earmarks will give the University greater flexibility to manage its resources to meet its obligations, operate its instructional programs more effectively, and avoid tuition and fee increases.

I am deleting Provision 16 as the appropriation establishes the expectation that the University will enroll 211,499 state-supported full-time equivalent students during the 2013–14 academic year. This provision would continue to make enrollment the primary driver of state budgeting for higher education. Instead, the investments made in the University should be used to ensure the timely graduation of students and make improvements on other performance measures established in this Budget.

Item 6440-301-0658—For capital outlay, University of California. I delete this item.

I am deleting the $375,000 from the 1996 Higher Education Capital Outlay Bond Fund for the equipment phase of the Merced, Science and Engineering Building 2 project. The funding for this item is appropriated in a separate bill.

Item 6610-001-0001—For support of California State University. I revise this item by deleting Provisions 5, 8, 9, 10, 11, and 12.

I am deleting Provisions 5, 8, 9, 10, and 12 because the requirements included in these appropriations that the California State University (CSU) expend funds for various programs create cost pressures and unnecessary restrictions. Eliminating these earmarks will give CSU greater flexibility to manage its resources to meet its obligations, operate its instructional programs more effectively, and avoid tuition and fee increases.

I am deleting Provision 11 as the appropriation establishes the expectation that CSU will enroll 342,000 state-supported full-time equivalent students during the 2013–14 academic year. This provision would continue to make enrollment the primary driver of state budgeting for higher education. Instead, the investments made in CSU should be used to ensure the timely graduation of students and make improvements on other performance measures established in this Budget.

Item 6980-101-0890—For local assistance, Student Aid Commission. I revise this item by deleting Provision 4.

Provision 4 provides that if federal College Access Challenge Grant funds are not available by September 30, 2013, the Special Fund for

Economic Uncertainties shall provide $7,332,000 to support existing outreach programs for state financial aid programs. This Provision constitutes an item of appropriation which I cannot support. I believe the Special Fund for Economic Uncertainties should be used only to meet critical needs, emergencies, and legal obligations. Because we have put substantial new resources into higher education this year, I anticipate that California will continue to receive federal grant funds for this program.

Item 7730-001-0001—For support of Franchise Tax Board. I reduce this item from $718,684,000 to $718,414,000 by reducing:

(1) 10-Tax Programs from $717,740,000 to $717,470,000.

To correct a technical error in the Budget Bill, I am reducing this item by $270,000. This technical veto is consistent with the legislative action taken to reduce the Franchise Tax Board's budget to reflect savings from its withdrawal from the Multi-State Tax Commission, which ends its obligation to pay annual dues. These funds were inadvertently left in the final version of the Budget Bill.

Item 8660-011-0462—For transfer by the Controller to the Public Utilities Commission Ratepayer Advocate Account. I reduce this item from ($24,375,000) to ($24,354,000).

I am reducing this item by $21,000 to conform to a legislative reduction in Item 8660-001-3089. This technical veto is necessary to reflect this reduction in the transfer item and does not affect the amount of funds available for the Division of Ratepayer Advocates.

With the above deletions, revisions, and reductions, I hereby approve Assembly Bill 110.

EDMUND G. BROWN JR.

PRAYER

Upon invitation of Speaker pro Tempore Campos, the following prayer was offered by Assembly Chaplain Rev. Constantine C. Pappademos:

Lord, Today, as we prepare to celebrate the 4th of July Holiday, many people understand freedom in a very individualistic way—they see it as a personal right to speech, movement, belief, or behavior. But You, Lord, have given us the ability to know freedom in a broader sense. You have made us free to share love and hope, to give and serve, so that others might find healing and peace. Grant, Lord, that we continue to be champions of freedom for all people throughout the world, and that we offer a witness of how the experience of freedom is much greater when we use it as an opportunity to bring life and hope to others, and glory to You.—AMEN.

RE: Tentative Agreement/Memorandum of Understanding (MOU) for the California Association of Psychiatric Technicians (CAPT)

Dear Senators Steinberg and Huff, and Assembly Members Pérez and Conway: Recently, the Department of Human Resources (CalHR) reached a new Tentative Agreement/MOU with CAPT, representing Bargaining Unit 18-Psychiatric Technicians in State service. Upon approval of the Legislature and the Governor, and ratification by the membership, this agreement will be effective July 1, 2013, through July 1, 2016.

This agreement represents savings in pension changes for employees as enacted last year by the Legislature in the Public Employee Pension Reform Act (PEPRA). This agreement also allocates a prudent salary increase of 4.25%, based on state revenues, and a .25% increase for benefits and shift differentials. Lastly, there are no mandatory furloughs or Personnel Leave Program (PLP) days in this contract.

In accordance with Government Code Sections 3517.5, 19829.5, and Senate Rule 29.4, I am forwarding copies of this tentative agreement, including a legislative and fiscal summary. The Legislative Analyst will be forwarded a copy, and the Secretary of the Senate and the Chief Clerk of the Assembly will be forwarded copies to make them noted as available for review in the daily journals.

The above mentioned tentative agreement and summaries can also be found by going to the following link: http://www.calhr.ca.gov/state-hr-professionals/Pages/bargaining-contracts.aspx.

It is anticipated that a legislative vehicle will be identified in the coming weeks to approve the terms of this agreement.

Respectfully,

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the Department of Parks and Recreation's (department) oversight and management of the state park system and budgeting practices. This report concludes that for years the department has continually reported different fund balance amounts to the Department of Finance (Finance) than it reported to the State Controller's Office (State Controller) for both the State Parks and Recreation Fund (parks fund) and the Off-Highway Vehicle Trust Fund (off-highway vehicle fund). In most cases, the fund balance amounts that the department's budget office reported to Finance for use in preparing the governor's budget were less than the amounts its accounting office reported to the State Controller. Although the department has known about these differences for years, neither current staff nor documentation we reviewed in the department's accounting and budget files could explain what originally caused the differences or why the issue was not resolved until the fall of 2012. The former acting chief deputy director for the department told us that he was informed about the difference in reporting for the parks fund when he started at the department in 2003 by the budget officer at the time and that the difference was the result of an error made several years earlier that understated the amount reported to Finance.

Although the department correctly used its year-end financial statements for reporting that it received $117.5 million in transfers for the off-highway vehicle fund in fiscal year 2010–11, Finance made an adjustment reducing the transfer amount to $62.6 million based on proposed legislation. This reduction—totaling nearly $55 million—contributed to the understatement of the department's ending fund balance when compared to the State Controller's budgetary report. The department lacked policies and procedures to handle such changes by Finance and to ensure that the department's highest levels of management were informed of the change and the effects on its fund balance.

The department's announcement of its plan to close up to 70 parks may have been premature. State law that became effective March 2011 requires the department to determine the amount of a required budget reduction in future budget acts by using as its baseline the amount necessary to fully operate its 278 parks at the 2010 level. However, the department has not yet determined that baseline amount nor has it compared the baseline to its appropriation to determine whether the results created a condition that would trigger required park service reductions or closures.

Finally, the department does not budget or track expenditures at the park level. As part of its analysis to select parks for closure, the department estimated the cost of each park. However, these estimates were outdated and incomplete, making it difficult to measure the impact of its efforts to keep parks open through its partnership agreements.

Members of the Assembly: As required by Chapter 21, Statutes of 2012, the California State Auditor (state auditor) presents this audit report concerning the administration of the federally funded migrant education program (migrant program) by the California Department of Education (Education).

This report concludes that, despite recent efforts to improve its oversight of the migrant program, Education has not provided adequate guidance to the regional offices that administer the program's services (regions). While federal law and regulations broadly outline the allowable services migrant children can receive, they depend largely on state educational agencies to set more defined program guidelines. However, Education has not clearly defined what is necessary and reasonable for a variety of expenditure categories. This lack of formal guidance has created disagreements regarding allowable expenses as well as wide variation in how regions classify expenses. Despite the lack of robust guidance, most of the expenditures we reviewed at eight program regions appear allowable. In a review of 320 randomly selected expenditures, we questioned six expenditures, totaling roughly $14,800. The majority of this total relates to excessive food costs, when compared to federal per diem rates, incurred at a state parent conference sponsored by Education. We estimate that, for the last three annual conferences, the amount spent on food beyond what we would consider reasonable totals $200,000. Additionally, we question $144,000 in janitorial and catering costs at one region because the former director of this region approved contracts with janitorial and catering companies that she or her then-husband owned.

Education's migrant office has experienced frequent changes in leadership and high staff turnover at the same time it has been tasked with a heavy workload in response to federal reviews of the program. Moreover, the data collected on a statewide level about the migrant program are likely insufficient in detail to thoroughly evaluate whether the program is effective in addressing the academic needs of migrant children. These data limitations also prevent Education from effectively evaluating the services it provides through statewide contracts or the regional structure used to carry out the program. Finally, because of a lack of trust, Education has also had difficulty making productive use of a state parent advisory council whose purpose is to advise and assist the program.

Members of the Assembly: As required by Chapter 36, Statutes of 2011, the California State Auditor (state auditor) presents this audit report on a pilot audit assessing the compliance of six superior courts with the requirements of the California Judicial Branch Contract Law (judicial contract law), Public Contract Code, sections 19201 through 19210. We reviewed the extent to which the applicable *Judicial Branch Contracting Manual* (judicial contracting manual) was consistent with the Public Contract Code and substantially similar to the *State Administrative Manual* and the *State Contracting Manual*, as required by law. We also assessed whether the Administrative Office of the Courts' (AOC) *Semiannual Report on Contracts for the Judicial Branch for the Reporting Period January 1 Through June 30, 2012* (semiannual report) to the Legislature and the state auditor complied with the requirements of the judicial contract law.

This report concludes that the judicial contracting manual lacks policies related to the State's small business preference for the procurement of information technology goods and services and noted several instances where data in AOC's semiannual report was inaccurate. Specifically, we noted that in some cases the report did not include data describing the good or service purchased. Finally, we noted other cases where the report included inaccurate data on the amounts courts paid for goods and services.

Further, the six courts in the pilot audit—the superior courts of Napa, Orange, Sacramento, Stanislaus, Sutter, and Yolo counties—generally complied with the judicial contract law. However, we identified isolated instances where courts could improve. For example, we noted individual procurements where court managers approved transactions valued above established authorization levels. We also found instances

where courts did not justify using sole-source contracts or did not advertise for competitive bids. Moreover, none of the six courts had procedures to implement the Disabled Veteran Business Enterprise program, as required by the judicial contracting manual.

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor (state auditor) presents this audit report concerning the financial management and administrative operations of the State Athletic Commission (commission). The commission is one of 40 regulatory entities within the Department of Consumer Affairs (Consumer Affairs) and its primary duty is to protect the health and safety of athletes by regulating approximately 200 combative events annually. The commission's revenues are generally derived from taxes, assessments, and fees collected from the events it regulates.

This report concludes that the commission's lack of leadership on the part of the former executive officer and his failure to promptly communicate with the commissioners regarding the state of its operating budget, likely contributed to the commission's near insolvency. As a result, the commission did not formally begin to take steps to address its financial instability until June 2012, at which time the commission had a fund balance of just $23,000. At that point, the commission attempted to resolve its financial situation by developing a solvency plan outlining its cash-flow situation and containing its proposed efforts to reduce its costs. However, we are concerned that the plan is not practical and that the commission lacks a comprehensive approach to ensuring its financial stability in the long term. For example, the plan proposes drastic cuts to expenses related to athletic inspectors' (inspectors) wages and travel and effectively prevents the commission from increasing its staffing level, which is likely unrealistic given it has struggled to adequately perform its functions with its current staffing level. Further, the plan eliminates funding for training inspectors on how to properly regulate events, even though state law requires that inspectors receive training within six months of an event that they are scheduled to work. Because of these and other concerns, we do not believe that the commission can use the plan as a long-term solution to ensure its future financial stability.

Moreover, the commission seems ill-prepared to accurately estimate its costs and revenues because, until recently, it has consistently failed to adequately track key components of its operations, including the number of events that it regulates, the revenues and expenditures associated with those events, the number of inspectors assigned to each event, and the number of athletes that it licenses. Finally, deficiencies in the commission's processes for collecting, recording, and reporting revenues from events suggest that it lacks assurance that it has collected and accounted for all of the revenues it is due.

The commission also lacks assurance that it has consistently protected the health, safety, and welfare of athletes as the law requires. For example, in violation of state law, the commission has at times failed to maintain supporting documentation demonstrating that it ensured the safety of athlete's gear and equipment. State law also requires the commission to administer the Neurological Examination Account (neurological account), which the Legislature established in 1986 to pay for athletes' neurological examinations and the Boxers' Pension Plan, which the Legislature established to provide some financial security to retired boxers; however, the commission has not effectively managed either of them. Specifically, the commission has not used the neurological account to pay for any neurological examinations since at least 1998 and, from fiscal years 2002–03 through 2008–09, it failed to make any pension payments to eligible boxers or their beneficiaries. The current executive officer, who began working at the commission in November 2012, has made noteworthy strides in addressing several of the issues we discuss in this report. However, if the commission is unable to correct its most significant deficiencies within a reasonable time frame, we believe the Legislature should consider transferring its responsibilities to Consumer Affairs.

Members of the Assembly: The State Auditor's Office presents its Independent Auditor's Report on the State of California's basic financial statements for the fiscal year ended June 30, 2012. These financial statements are presented on a basis in conformity with generally accepted accounting principles (GAAP). The financial statements show that the State's General Fund had revenues and other financing sources that were approximately $3.1 billion less than

expenditures and other financing uses. The General Fund ended the fiscal year with a fund deficit of approximately $23 billion. The GAAP basis government-wide statements include all liabilities owed by the State while the budgetary basis statements used to report on the State's budget do not reflect all liabilities.

Members of the Assembly: As required by California Government Code, Section 8543 et seq., the California State Auditor presents this audit report concerning our review of the State of California's internal controls and compliance with state laws and regulations for the year ended June 30, 2012.

This report concludes that the State continues to experience certain deficiencies in its accounting and administrative practices that affect its internal controls over financial reporting and compliance with state laws. We identified two deficiencies in internal control over financial reporting that we consider to be material weaknesses, and one other deficiency that we consider to be significant. Additionally, we identified an instance of noncompliance that is required to be reported under *Government Auditing Standards*. Deficiencies in the State's internal control system could adversely affect its ability to provide accurate financial information.

Members of the Assembly: Pursuant to the California Whistleblower Protection Act, the California State Auditor presents this investigative report concerning improper inexcusable neglect of duty, overpayment for overtime, testing data falsification, and misappropriation of state property.

This report concludes that a supervisor neglected his duty to supervise two technicians, which facilitated the technicians being paid for work they did not perform at an estimated cost of $13,788 in overpayments. One of the technicians, as determined by the California Department of Transportation (Caltrans) and two federal agencies, falsified concrete pile testing data for at least three transportation projects. A subsequent review by Caltrans identified eight additional incidents of data falsification. The supervisor also misappropriated Caltrans property with assistance from the technicians and other subordinate employees.

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor (state auditor) presents this audit report concerning the collection and expenditure of revenue generated from fees from special interest license plates (special plates).

This report concludes that the State has not collected all revenue due from special plates and has spent some of the special plate revenue on expenditures that were unallowable or unsupported. We estimate that the California Department of Motor Vehicles (Motor Vehicles) did not collect $12 million in revenue from retention fees related to special plates during fiscal years 2010–11 and 2011–12. Further, for the fees Motor Vehicles collected during these two fiscal years, it potentially undercharged some special plate owners by a total of nearly $10.2 million. Motor Vehicles has also not accurately charged special plate programs for its administrative costs. During fiscal years 2009–10 through 2011–12, it overcharged the California Environmental License

Plate Fund (environmental fund) more than $6.3 million and undercharged other special plate funds a net total of $1.1 million during the same period.

In addition, the California Emergency Management Agency's (Cal EMA) administrative expenses during fiscal years 2009–10 and 2010–11 exceeded allowable levels. Moreover, Cal EMA, the California Department of Food and Agriculture, the California Department of Parks and Recreation, and the California Natural Resources Agency (Resources) could not always provide sufficient support for their expenditures or a supportable rationale for the proportion of shared costs they charged to the Antiterrorism Fund or the environmental fund.

Additionally, Resources has not submitted certain reports to the governor and Legislature as required by law. Finally, the California Victim Compensation and Government Claims Board did not identify and notify all individuals eligible for the Memorial Scholarship Program and did not verify the eligibility of three program participants, as required by law.

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor (state auditor) presents this audit report concerning the City of San Diego (San Diego) and its compliance with existing laws and regulations when it issues permits. San Diego's Development Services Department (Development Services) is responsible for managing the majority of San Diego's review of development projects, and it issues permits that allow construction or development within the city.

This report concludes that Development Services generally followed applicable requirements when it reviewed permits. However, Development Services cannot be certain that all project sites that require historical resource reviews are receiving those evaluations. Specifically, Development Services relies on the applicants seeking permits to provide information about the historical resources at the applicants' project sites, but it does not require them to supply documentation that supports the information on the applications. The City of San Diego Municipal Code (municipal code) requires Development Services to review all projects that include modification to structures that are 45 or more years old for potential designation as a historical resource. Of the 19 projects we examined, five had applications that lacked the year of construction for the structures on the project sites and 10 had

applications with information that conflicted with the records of the County of San Diego's assessor/recorder/county clerk (county). Consequently, Development Services risks not identifying project sites with potential historical resources.

Development Services did not consistently adhere to the municipal code when it approved four of the 10 construction changes to building permits we reviewed. Development Services did not require building permits for two construction change projects that involved adding new structures, as the municipal code requires. Moreover, Development Services did not require a construction permit, or perform a historical resource review to ensure the changes were consistent with the U.S. Secretary of the Interior's Standards for Rehabilitation, for a project with a structure located within a historic district, as the municipal code requires. For these three construction change projects, Development Services stated that it followed its *Information Bulletin 118*, issued in June 2011, which describes its process for construction changes to approved plans. However, Development Services' information bulletins cannot supersede the municipal code requirements.

Development Services is also responsible for assessing projects in accordance with the California Environmental Quality Act (CEQA). We reviewed six projects that were subject to CEQA and found that Development Services did not always provide the public with proper notice as required by state regulations that implement CEQA, known as the CEQA guidelines. In particular, the CEQA guidelines specify that, within five days of the final approval of a project, an agency must prepare and file a Notice of Determination (determination notice) with the county. Of the six projects, Development Services either did not file the determination notice or did not file it in a timely manner for four of these projects.

Finally, Development Services did not ensure that certain employees disclose their financial interests on the Statement of Economic Interests, commonly known as Form 700, in accordance with the Political Reform Act of 1974 in a timely manner. Specifically, Form 700s submitted by four of the 15 employees we selected for review were between one month and more than 12 months late.

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the California Department of Veterans Affairs' (CalVet) management of the California veterans homes, including its efforts to improve operational efficiencies and revenue generation, and its planning efforts to leverage resources to serve more veterans.

This report concludes that although CalVet generated revenues to offset less than half of the cost to operate its veterans homes between fiscal years 2009–10 and 2011–12, it did not begin developing standardized policies and procedures to monitor and increase the amount of revenue generated at all of the homes until 2012. In addition, state laws and CalVet policies limit its ability to recover the full cost of providing care to veterans (members) while they are living at a home and from using funds collected from members' estates after they pass away to offset the costs of their care. We further identified that statutory licensing requirements and budget constraints have limited the number of beds available in the homes, resulting in unused space. Although CalVet has taken some steps to better utilize this unused space through lease agreements and a public-private partnership agreement with another entity to serve more veterans than it currently serves, it needs to formalize its process for increasing utilization of unused space and monitoring the success of its partnership agreements. Moreover, our legal counsel identified several state and federal legal restrictions that may limit CalVet's ability to utilize the unused space at the homes.

Further, we noted that limited resources have impeded CalVet's outreach efforts to connect veterans with their benefits and services. In addition, we identified that CalVet needs to enhance its oversight and guidance for referring veterans needing long-term care to other facilities when it cannot admit them to one of its homes. We also identified weaknesses in CalVet's oversight and guidance to ensure that purchases made at the homes follow state purchasing requirements; CalVet took steps during the audit to address these weaknesses. Finally, CalVet has not conducted a formal analysis of its current purchasing model for the homes to ensure that it is the most efficient and cost-effective way to purchase goods and services.

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the administration of the water quality certification program (certification program) by the State Water Resources Control Board (state water board) and the regional water quality control boards (regional water boards) as it relates to the California Department of Transportation (Caltrans). Under the program, the State issues water quality certifications to certify that projects will comply with federal and state water quality laws.

This report concludes that the water quality certifications that the state water board, and the North Coast, Central Valley (Redding Office), and San Diego regional water boards issued during fiscal years 2007–08 through 2011–12 generally complied with federal and state law and regulations. However, the state water board could improve consistency in the certification program by implementing a single application form and ensuring that applications are processed within required time frames.

The state water board also needs to address inconsistent monitoring practices at the regional water boards and improve its own administration practices. The regional water boards' inconsistent monitoring practices, including not formally tracking reporting requirements and differing practices for conducting site visits, do not adequately ensure that water quality certification-holders adhere to the conditions of their water quality certifications. Additionally, staffing costs that the regional water boards include in penalty actions—fines assessed when the terms of a water quality certification are violated—are generally not supported and are inaccurate because of inflated cost rates. Further, the state water board does not adequately track the penalty amounts it receives from penalty actions and, contrary to legislative intent, over the past five fiscal years it deposited fines totaling $374,000 into an incorrect account. Additionally, due to a significant data entry backlog and regional water boards' inconsistent use, the primary database the state water board uses to track water quality certifications does not provide the public and other stakeholders access to reliable certification program information as state law requires.

Finally, although certain of Caltrans' concerns about the administration of the certification program are valid, it was unable to support that its costs of complying with the program have increased.

The statement of securities accountability presents securities owned by or pledged to the State directly, and securities held for safekeeping. The State Treasurer's Office is responsible for the safe keeping of all securities held in the treasury or other depositories. It is not responsible for securities owned by or pledged to the University of California, or for securities in other depositories owned by or pledged to the Public Employees' Retirement System, the State Teachers' Retirement System, the Legislators' Retirement System, or the Judges' Retirement System. The statement is prepared solely for purposes of accountability. The dollar amounts represent various values, including par value or face value, original principal value, and current outstanding principal balances. They do not represent cost or market value and should not be used to determine the value of investments owned by, or pledged to, the State. We found that the statement presents fairly the securities accountability of the State Treasurer's Office as of December 31, 2012.

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning resident safety at developmental centers operated by the California Department of Developmental Services (department).

This report concludes that the department needs to improve its oversight of the safety of residents housed and cared for in its developmental centers. Our review found that health care staff did not always provide timely notification of incidents to the department's Office of Protective Services (OPS), and that OPS law enforcement personnel did not consistently follow established procedures for

investigations of alleged resident abuse. Specifically, OPS often failed to collect written declarations from suspects and witnesses, take photographs of crime scenes or alleged victims, and attempt to interview alleged victims, particularly residents said to be nonverbal.

Frequent turnover in OPS management has contributed to a lack of action in addressing longstanding problems, many of which were raised in a 2002 Office of the Attorney General's report. These problems include a lack of required specialized training for OPS personnel to effectively work with residents, high vacancy rates within OPS, and OPS's lack of a cohesive recruiting plan. Furthermore, both OPS and the department's health care staff have experienced excessively high amounts of overtime, caused by staff scheduling issues and hiring freezes.

Finally, our review of the California Department of Public Health's (Public Health) oversight responsibilities has shown that it does not consistently perform all of its required duties, such as promptly performing follow-ups on certification surveys and performing state licensing surveys on time, if at all. Public Health also does not consistently conduct prompt investigations for incidents it classifies as less serious. Furthermore, because Public Health has not prepared required annual reports regarding its enforcement activities, the effectiveness of these activities on maintaining quality of care in health care facilities, including the developmental centers, remains uncertain.

California State Auditor

2012-107
July 9, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning resident safety at developmental centers operated by the California Department of Developmental Services (department).

This report concludes that the department needs to improve its oversight of the safety of residents housed and cared for in its developmental centers. Our review found that health care staff did not always provide timely notification of incidents to the department's Office of Protective Services (OPS), and that OPS law enforcement personnel did not consistently follow established procedures for investigations of alleged resident abuse. Specifically, OPS often failed to collect written declarations from suspects and witnesses, take photographs of crime scenes or alleged victims, and attempt to interview alleged victims, particularly residents said to be nonverbal.

Frequent turnover in OPS management has contributed to a lack of action in addressing longstanding problems, many of which were raised in a 2002 Office of the Attorney General's report. These problems include a lack of required specialized training for OPS personnel to effectively work with residents, high vacancy rates within OPS, and OPS's lack of a cohesive recruiting plan. Furthermore, both OPS and the department's health care staff have experienced excessively high amounts of overtime, caused by staff scheduling issues and hiring freezes.

Finally, our review of the California Department of Public Health's (Public Health) oversight responsibilities has shown that it does not consistently perform all of its required duties, such as promptly performing follow-ups on certification surveys and performing state licensing surveys on time, if at all. Public Health also does not consistently conduct prompt investigations for incidents it classifies as less serious. Furthermore, because Public Health has not prepared required annual reports regarding its enforcement activities, the effectiveness of these activities on maintaining quality of care in health care facilities, including the developmental centers, remains uncertain.

Respectfully submitted,

DOUG CORDINER, CGFM
Chief Deputy State Auditor

Above report referred to the Committee on Human Services.

July 18, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As authorized by California Government Code, Section 8546.5, the California State Auditor (state auditor) presents this audit report designating Covered California's establishment of a health insurance exchange as a high-risk issue in California. To implement provisions of the federal Patient Protection and Affordable Care Act (Affordable Care Act), state law required Covered California to create and operate for the first time in California a health insurance exchange, which is a competitive insurance marketplace in which individuals and small businesses will be able to purchase qualified health plans (QHPs) starting on October 1, 2013.

This report concludes that although Covered California has made great strides in implementing key federal and state requirements pertaining to the exchange's establishment and operations, critical work and some concerns remain. Specifically, Covered California's financial sustainability is wholly dependent on enrollment in QHPs offered through the exchange. Recognizing this, Covered California has worked diligently and collaboratively with various stakeholders, including the California Department of Health Care Services and the Management Risk Medical Insurance Board to streamline eligibility and enrollment as well as to promote and support enrollment. Even so, future enrollment is unpredictable and is based on market factors outside of Covered California's control. Consequently, enrollment in the exchange and the financial sustainability of Covered California will need to be monitored. Additionally, to ensure that its QHPs comply with Affordable Care Act requirements, Covered California needs to develop monitoring, recertification, and decertification procedures for QHPs offered through the exchange.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

Above report referred to the Committee on Health.

California State Auditor

2012-118
July 23, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor (state auditor) presents this audit report concerning the intervenor compensation program (program) administered by the California Public Utilities Commission (commission).

This report concludes that despite administrative weaknesses, the commission has generally awarded compensation to intervenors—individuals and groups that represent the interests of utility ratepayers—in accordance with state law. We found that the commission has a process in place to ensure that intervenors meet the necessary statutory requirements before it awards compensation for work conducted during regulatory proceedings. In addition, the commission has a robust process for determining whether the costs and expenses intervenors claim are reasonable, as state law requires. However, we determined that the commission only issued 6 percent of its intervenor compensation decisions during 2008 through 2012 within the 75-day deadline required by state law. The commission has also not issued guidance to its staff or utilities on how to calculate interest appropriately for intervenor claim decisions issued after the 75-day deadline. The lack of formal guidance has led the commission to employ a flawed interest computation methodology, resulting in miscalculations and, ultimately, overpayments of interest on awards. Of the $42,000 in interest that the commission paid for the 10 largest interest payments we reviewed, we estimate that it overpaid $40,000.

Further, we noted some areas in which the commission could do more to ensure that it appropriately compensates intervenors. Specifically, state law requires the commission to take into consideration the market rates paid to persons of comparable training and experience who offer similar services. However, the commission has acknowledged it has faced difficulties in fully complying with the requirement and that a comprehensive market rate study is necessary to ensure compliance with the law. In addition, we found that the commission lacks formal procedures to verify the qualifications of intervenors appearing in proceedings. Despite these weaknesses, we found that the program fulfills a fundamental part of its purpose, which is to encourage the effective and efficient participation of all groups that have a stake in the public utility regulation process. We found that organizations participating in the program represented a broad array of interests, including environmental concerns, low-income and minority ratepayers, and ratepayers in a specific geographic region.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2012-112
August 8, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the Office of the Secretary of State's (Office) administration of funds provided under the federal Help America Vote Act of 2002 (HAVA).

This report concludes that the State has not spent HAVA funds effectively. Some counties have collectively spent millions of federal HAVA funds on voting systems they cannot fully use. Under state law, counties cannot purchase new voting systems unless such systems have been approved by the secretary of state. However, different secretaries of state have reached different conclusions on the suitability of counties using certain voting systems. Although we do not question these different conclusions, we expected to see state regulations defining the secretary of state's expectations and the voting system approval process. Regulations serve as an important tool for ensuring consistency and for providing the regulated community—in this case those who sell and purchase voting systems—with certainty. Many counties reported having fully spent their HAVA grant funds while others indicated that they are using aging voting systems or are waiting for vendors to develop new systems.

The Legislature would have increased flexibility to decide how best to spend remaining HAVA funds if the Office declared the State's compliance with certain HAVA requirements to the federal government. As of June 30, 2012, the State had more than $131 million in HAVA funds earning interest in the State's Special Deposit Fund. The Office's reluctance to declare the State's compliance with HAVA appears to be the result of its desire to reserve HAVA funds for the deployment of VoteCal, which will replace the current CalVoter system as California's statewide computerized voter registration list. However, the Office's first attempt to develop VoteCal failed costing millions of dollars, and limited bidder competition on the second attempt raises concerns for future success. Our audit also noted that the Office could enhance the value of its annual HAVA spending plan—which serves as a key

transparency and accountability tool for the Legislature—if it contained spending information that agreed with its accounting records. Finally, we noted that the Office can do more to implement a key provision of the National Voter Registration Act to potentially increase voter registration.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

Above report referred to the Committee on Elections and Redistricting.

MESSAGES FROM THE GOVERNOR

The following veto message from the Governor was received and ordered printed in the Journal, and Assembly Bill No. 926 ordered to the unfinished business file:

Veto Message—Assembly Bill No. 926

Governor's Office, Sacramento
August 13, 2013

To the Members of the California State Assembly:

Not everything in life is for sale nor should it be.

This bill would legalize the payment of money in exchange for a woman submitting to invasive procedures to stimulate, extract and harvest her eggs for scientific research.

The questions raised here are not simple; they touch matters that are both personal and philosophical.

In medical procedures of this kind, genuinely informed consent is difficult because the long-term risks are not adequately known. Putting thousands of dollars on the table only compounds the problem.

Six years ago the Legislature, by near unanimity, enacted the prohibition that this bill now seeks to reverse. After careful review of the materials which both supporters and opponents submitted, I do not find sufficient reason to change course.

I am returning this bill without my signature.

Sincerely,

EDMUND G. BROWN JR.

Receipt of Bills

I acknowledge receipt this 13th day of August, 2013, at 7:20 p.m., of the following Assembly Bill without the Governor's signature, together with a statement of his objections thereto, signed by the Governor, delivered to me personally by Jacque Roberts:

RE: Tentative Agreements/Memoranda of Understanding (MOU's) for Bargaining Unit 16, the Union of American Physicians and Dentists (UAPD), and Bargaining Unit 19, the American Federation of State, County and Municipal Employees—Health and Social Service Professionals (AFSCME)

Dear Senators Steinberg and Huff, and Assembly Members John A. Pérez and Conway: Recently, the Department of Human Resources (CalHR) reached new Tentative Agreements/MOU's with Bargaining Unit 16, the UAPD, and Bargaining Unit 19, AFSCME. Upon approval of the Legislature and the Governor, and ratification by the membership, these agreements will be effective July 1, 2013–July 1, 2016.

Both MOUs rollover language from past agreements and make changes primarily in the area of employee compensation, including cost of living increases. These prudent cost of living increases are contingent upon the projected revenues of the 2014–2015 State budget. There are no mandatory furloughs or Personal Leave Program (PLP) days in this contract.

In accordance with Government Code Sections 3517.5, 19829.5, and Senate Rule 29.4, I am forwarding copies of these tentative agreements, including legislative and fiscal summaries. The Legislative Analyst will be forwarded a copy for analysis, and the Secretary of the Senate and the Clerk of the Assembly will be forwarded copies to make them noted as available for review in the daily journals.

The above mentioned tentative agreements and summaries can also be found by going to the following link:

http://www.calhr.ca.gov/state-hr-professionals/Pages/bargaining-contracts.aspx.

Currently, there is no vehicle to approve the terms of these agreements.

Respectfully,

JULIE CHAPMAN
Director

Above report referred to the Committee on Public Employees, Retirement and Social Security.

MEMORANDUM OF UNDERSTANDING

Tentative Agreements/Memoranda of Understanding (MOU's) with Bargaining Units (BU) 16 and 19, dated August 15, 2013, was received in the Senate from the Department of Personnel Administration and filed pursuant to Senate Rule 29.4, and is hereby noted in the Assembly Journal. REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2012-122
August 15, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor (state auditor) presents this audit report concerning the Mental Health Services Act (MHSA). The MHSA was approved by voters in 2004 to expand existing mental health programs and services and to use innovative methods more likely to identify, mitigate, and treat mental illness. A focus of the MHSA is accountability and, initially, the MHSA assigned the responsibility of overseeing MHSA programs primarily to two state entities—the California Department of Mental Health (Mental Health) and the Mental Health Services Oversight and Accountability Commission (Accountability Commission).

This report concludes that Mental Health and the Accountability Commission have provided little oversight of counties' implementation of MHSA programs, particularly as it relates to evaluating whether these programs are effective. We expected that Mental Health and the Accountability Commission would have used a process to monitor, guide, and evaluate county implementation that built on their broad and specific MHSA oversight responsibilities and also incorporated best practices in doing so, but that is not what we found. However, looking to the future, the opportunity exists for the state entities responsible for oversight to better demonstrate the effectiveness of the MHSA. Because of the minimal oversight Mental Health and the Accountability Commission provided in the past, the State has little current assurance that the funds directed to counties—almost $7.4 billion from fiscal years 2006–07 through 2011–12—have been used effectively and appropriately. Effective late June 2012, legislation transferred most of

Mental Health's oversight role to the California Department of Health Care Services (Health Care Services). Health Care Services is moving forward with these oversight responsibilities, which includes collaborating with the Accountability Commission on its evaluation efforts, but it is still in the early stages of planning and it is too soon to tell whether its efforts will address all of our concerns.

Further, we also expected that Mental Health would have taken steps to ensure counties received the guidance necessary to effectively evaluate and report on the performance of their MHSA programs, particularly given the MHSA's focus on accountability. However, Mental Health did not provide explicit direction to the counties on how to evaluate their programs effectively, including directions for setting reasonable goals, establishing specific objectives, and gathering the data necessary to meaningfully measure program performance. Thus, it is not surprising that our review of four county departments—Los Angeles County Department of Mental Health, County of Sacramento Department of Health and Human Services, County of San Bernardino Department of Behavioral Health Administration, and Santa Clara County Mental Health Department—found that these counties used differing and inconsistent approaches to assess and report on the performance of their MHSA programs. Some counties could not effectively demonstrate through their processes that their MHSA programs are achieving the stated intent. Counties were also inconsistent in collecting data related to program goals and how completely they analyzed and reported on those data to determine if stated program goals were achieved.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

Above report referred to the Committee on Human Services.

By unanimous consent, the regular order of business of the Assembly was dispensed with for this legislative day.

REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2012-108
August 20, 2013

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the implementation of school safety and nondiscrimination laws and programs by local educational agencies (LEAs) and the California Department of Education (Education).

This report concludes that the three LEAs we visited—the Fresno, Los Angeles, and Sacramento City unified school districts—as well as 80 percent of the LEAs responding to our survey, have policies and procedures that comply with recent changes in state law. However, the three LEAs we visited failed to maximize the use of readily available data—such as survey data, student behavior data, or complaint logs—to evaluate how effective their programs and workshops are in preventing and addressing incidents of discrimination, harassment, intimidation, and bullying. Similarly, over half of the LEAs and school sites responding to our survey reported that they did not formally evaluate the effectiveness of their programs and workshops after implementation. The three LEAs we visited also had weaknesses in their handling of student complaints of discrimination, harassment, intimidation, and bullying. For example, one LEA did not always ensure the complainant's right to an unbiased decision, as it sometimes assigned the responsibility for the investigation to a school site administrator who was named as a party to the complaint. In addition, two LEAs exceeded the 60-day time limit to resolve complaints established under state regulations. Further, the six school sites that we reviewed at the three LEAs did not adequately document complaints, limiting their ability to track the frequency and volume of these activities.

We also found that Education needs to demonstrate more state leadership over school safety. Specifically, Education's Office of Equal Opportunity failed to monitor LEAs' compliance with state discrimination and bullying laws for four years and it did not always resolve appeals of LEAs' decisions on discrimination complaints in a timely manner. In addition, state law requires that Education make available certain resources to LEAs and schools on its Web site, yet many LEAs responding to our survey were unaware of these resources. Education also could improve the quality of the resources by updating them to address cyberbullying and expanding the information aimed at incidents related to protected characteristics. Moreover, Education does not formally evaluate statewide data available to inform its decision making on how to guide the State and LEAs to reduce and address

incidents of discrimination, harassment, intimidation, and bullying in California's schools. Finally, California law does not include some key components of anti-bullying legislation that the U.S. Department of Education has identified; therefore, the State could benefit from including these missing components in law.

Respectfully submitted,

ELAINE M. HOWLE, CPA
State Auditor

Above report referred to the Committee on Education.

RE: Tentative Agreement/ Memorandum of Understanding (MOU) for Bargaining Unit 12, International Union of Operating Engineers (IUOE) (Craft and Maintenance)

Dear Senators Steinberg and Huff, and Assembly Members John A. Pérez and Conway: Recently, the Department of Human Resources (CalHR) reached a new Tentative Agreement/MOU with Bargaining Unit 12, the International Union of Operating Engineers (IUOE, Craft and Maintenance). Upon approval of the Legislature and the Governor, and ratification by the membership, this agreement will be effective July 1, 2013, through July 1, 2015.

The agreement will roll over language from past agreements and make changes primarily in the area of employee compensation. This agreement provides a one-time bonus, and a prudent general salary increase contingent upon the projected revenues of the 2014–2015 budget. There are no mandatory furloughs or Personal Leave Program (PLP) days in this contract.

In accordance with Government Code Sections 3517.5, 19829.5, and Senate Rule 29.4, I am forwarding copies of this tentative agreement, including a legislative and fiscal summary. The Legislative Analyst will be forwarded a copy for analysis, and the Secretary of the Senate and the Clerk of the Assembly will be forwarded copies to make them noted as available for review in the daily journals.

The above mentioned tentative agreement and summaries can also be found by going to the following link: http://www.calhr.ca.gov/state-hr-professionals/Pages/bargaining-contracts.aspx.

Currently, there is not a vehicle to approve the terms of this agreement.

Respectfully,

JULIE CHAPMAN

Dear Senators Steinberg and Huff, and Assembly Members John A. Pérez and Conway: Recently, the Department of Human Resources (CalHR) reached a new Tentative Agreement/MOU with Bargaining Unit 6, the California Correctional Peace Officers Association (CCPOA), and Bargaining Unit 7, the California Statewide Law Enforcement Association (CSLEA). Both agreements roll over language from past agreements and include changes similar to those submitted in other bargaining agreements, such as: members will make increased retirement contributions under the Public Employees' Pension Reform Act, prudent cost of living increases (effective January 1, 2015), and an allowance equal to the 80/80 formula for health contributions.

In accordance with Government Code Sections 3517.5, 19829.5, and Senate Rule 29.4, I am forwarding copies of these tentative agreements, including legislative and fiscal summaries. The Legislative Analyst will be forwarded copies for analysis, and the Secretary of the Senate and the Clerk of the Assembly will be forwarded copies to make them noted as available for review in the daily journals.

The above mentioned agreements and summaries can also be found by going to the following link:
