REPORTS

The following letters of transmittal were presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2001-002.1
December 4, 2001

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by California Government Code, Section 8542, et. seq., the Bureau of State Audits (bureau) presents its audit report concerning our review of the Department of Health Services' (department) financial statements for the Safe Drinking Water State Revolving Fund and its compliance with federal laws and regulations applicable to the Capitalization Grants for Drinking Water State Revolving Fund program (program) for the year ended June 30, 2001. The department contracted with the bureau to perform this audit to satisfy a federal audit requirement.

This report concludes that the department was in compliance with federal laws and regulations governing the program. Additionally, the department's Safe Drinking Water State Revolving Fund (fund) financial statements are fairly presented. However, we did identify weaknesses in the department's accounting and administrative controls over the fund. Specifically, the department demonstrated inaccurate record keeping and insufficient management review in preparing its financial statements for the fund.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Water, Parks and Wildlife.

California State Auditor

2001-113
December 5, 2001

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning a review of the Department of Veterans Affairs' (department) cash management for itself and its three homes for veterans.

This report concludes that the department's poor billing practices have resulted in a large decline in the reimbursements that it has collected for services provided by its veterans homes. The department has not billed for all the services that its homes provide, and has delayed for long periods before submitting claims for those services it did bill. Additionally, the department lacks adequate knowledge of the data in its billing management information system (information system), and thus cannot accurately estimate the amount of unbilled claims available for reimbursement. Because these flawed billing practices have kept it from collecting reimbursements to which it is entitled, the department has received additional funds from the General Fund to replenish cash shortfalls.

Furthermore, the department has not supplied proper oversight and controls for the fiscal operations of its homes, and it lacks key tools and resources, such as accurate management reports and budgeting tools. Poor management of the department's information system has resulted in serious data deficiencies and known errors that the department is not resolving aggressively.

Finally, the department has attempted unsuccessfully to compensate for its poor billing practices by obtaining loans from the General Fund, and by limiting expenditures at headquarters and the homes. Decreased reimbursements and the department's lack of success in decreasing expenditures have caused the department to draw on state funds that could be available for other uses. Although the Legislature requested a report as of August 31, 2001, of the department's needs for cash, the department did not fulfill this request adequately. Moreover, the next report, due in December 2001, may also fail to meet the Legislature's requirements.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor
