REPORTS

The following letters of transmittal were presented by the Speaker, and ordered printed in the Journal:

California State Auditor

2001-115
December 13, 2001

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning strategic planning, coordination, and customer service efforts of the Technology, Trade and Commerce Agency (agency).

This report concludes that the agency does not have an agency-wide strategic plan despite starting two agency-wide strategic planning processes in recent years. In addition, plans at the program level often lack elements of strategic planning such as goals for all significant aspects of program missions, targets for significant goals or targets that challenge performance, and a comparison of results with targets in external reports. This report also finds that external coordination of export services provided by the agency’s International Trade and Investment Division is limited, but recent activities indicate a renewed focus on this issue. Finally, programs in the agency’s Economic Development Division generally satisfy their customers but could benefit from formal processes to target and measure customer satisfaction.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Jobs, Economic Development and the Economy.

California State Auditor

2001-012
January 9, 2002

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by Chapter 127, Statutes of 2000, the Bureau of State Audits presents its audit report concerning the State’s procurement of drugs and medical supplies.

This report concludes that the State’s procurement process for drugs and medical supplies still requires significant improvement. Expenditures for drugs by the five state agencies most frequently purchasing drugs increased by an average of 34 percent annually, from \$41.6 million in fiscal year 1996–97 to \$135.1 million in fiscal year 2000–01. The Department of General Services has explored a variety of options, but has not gone far enough in improving this process. For

example, it needs to more fully explore contracting directly with group purchasing organizations to ensure that the State is purchasing drugs at the lowest available price. Moreover, the State lacks a statewide process for purchasing medical supplies.

The report also concludes that the Department of Corrections' (Corrections) Health Care Services Division continues to have significant weaknesses that prevent it from effectively monitoring its pharmacies' purchase of drugs. Specifically, as of November 2001 it had not updated its formulary nor did it monitor compliance with the existing one. The purpose of the formulary is to promote the appropriate and cost-effective use of medications. It also lacks a utilization management program for drugs that could assist it in reducing costs. Also, pharmacy staff do not review monthly reports to ensure that drug purchases are cost-effective. Further, its pharmacy prescription tracking system cannot support monitoring, cost-containment, or day-to-day management of pharmacy services. However, Corrections does not intend to replace this system until 2006, and the development of the new system is already behind schedule. Finally, we found that Corrections is not eligible for some options, such as the State's AIDS Drug Assistance Program and the federal General Services Administration's supply schedule.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Health.

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by the 2001-02 Budget Act, the Bureau of State Audits presents its audit report concerning its evaluation of the Department of Justice's (department) claims review process for the Witness Protection Program (program).

This report follows up on our prior audit report and concludes that the department's administration of the program continues to meet our previous recommendations. In particular, the department has a management review process for the approval of program applications and has been conducting audits of district attorneys' offices participating in the program.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Judiciary.

2001-009
December 20, 2001

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by Assembly Bill 1 of the 2001-02 First Extraordinary Session, the Bureau of State Audits presents its audit report concerning the Department of Water Resources' (department) management of the power-purchasing program.

This report concludes that while the energy crisis has eased, there remains significant cost risks to manage. The department spent \$10.7 billion from January through September 2001 purchasing power on behalf of the investor-owned utilities and has assembled a portfolio of 57 long-term power contracts, valued at \$42.6 billion over a 10-year period, to cover future power purchases. However, the portfolio of contracts the department assembled in a time of crisis contains significant long-term cost risks that will need to be closely managed. For example, the portfolio leaves the department exposed to substantial market risk in high peak-demand periods if supply shortages occur and to substantial market risk with surplus contract amounts in other hours of the year. The terms and conditions of the long-term contracts are also problematic because the majority of the contracts may not ensure a reliable source of power in times of tight supply and high prices, and may not ensure that sellers follow through with the construction of proposed power plants. Instead, the contracts convey lucrative financial terms upon suppliers as a means to ensure they deliver power. Further, under most of the contracts, the department cannot terminate the contract or assess penalties even if the generators repeatedly or deliberately failed to deliver power at times when the State is in dire need of it. Finally, the department lacks the necessary infrastructure and staff to manage properly its energy purchases in the short-term market.

The Legislature and governor need to make many decisions about the State's future role in the power market. These decisions include whether the department will continue to buy energy on behalf of the investor-owned utilities, management of the market and legal risks of the long-term contracts, and other operational improvements needed to improve the department's management of the power-purchasing program.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Energy Costs and Availability.

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by Chapter 310, Statutes of 1995, the Bureau of State Audits presents its audit report concerning the Department of Transportation's (department) revenues and expenditures authorized by the Seismic Retrofit Bond Act of 1996 (Bond Act).

This report concludes that the department, in general, has ensured that seismic retrofit projects funded with bond proceeds are consistent with the purpose of the Bond Act. In addition, the department has begun to reimburse the State Highway Account (highway account) and the Consolidated Toll Bridge Fund (toll bridge fund) for expenditures incurred during fiscal years 1994-95 and 1995-96 as required by the Bond Act. As of June 30, 2001, the department has reimbursed the highway account \$26.3 million and, according to the department, it intends to complete the reimbursement process for the highway account and the toll bridge fund before the Bond Act expires in 2005.

Respectfully submitted,

ELAINE M. HOWLE
