REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2023-103
February 15, 2024

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 319
Sacramento, California*

Members of the Assembly: As directed by the Joint Legislative Audit Committee, my office conducted an audit of the Comprehensive Perinatal Services Program (perinatal program), which is dedicated to reducing the number of children born at low birthweights. Our assessment focused on the oversight of the program conducted by the Department of Health Care Services (Health Care Services) and the Department of Public Health (Public Health), and the following report details the audit's findings and conclusions. In general, we determined that the State has provided limited oversight of the perinatal program and has not significantly improved it.

In California, the percentage of infants born at low birthweights—below 5 pounds, 8 ounces—increased from 6.7 percent in 2014 to 7.3 percent in 2021. Infants born at a low birthweight are 20 times more likely to die than infants born at a healthy weight and are more likely to face other health challenges. In 2021 there were about 30,000 infants born in California at low birthweights who face such increased risk.

We found that neither Health Care Services nor Public Health provide the perinatal program with sufficient oversight. Specifically, although Health Care Services requires the managed care plans it contracts with to conduct reviews of each of their primary care providers at least every three years, in 2022 only 45 of the approximately 2,600 providers' reviews included an assessment of the perinatal program's services. Public Health delegated its oversight of the perinatal program to local health jurisdictions, but it did not require that those jurisdictions complete the quality assurance chart reviews that would have provided insight into service quality. Our survey of the State's 61 local health jurisdictions found that 22 jurisdictions did not complete the chart reviews.

In addition to these oversight issues, the State lacks data on the perinatal program's utilization necessary for its improvement. The data limitations we faced were so significant that we were only able to assess the program's usage for 14 percent of Medi-Cal members in 2022. Without data and increased oversight, the perinatal program is unlikely to improve.

Respectfully submitted,

GRANT PARKS
California State Auditor

Above report referred to the Committee on Joint Legislative Audit.
