**REPORTS**

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

**California State Auditor**

2023-126  
April 8, 2025

*The Honorable Speaker of the Assembly  
The Honorable Members of the Assembly  
of the Legislature of California  
State Capitol, Room 319  
Sacramento, California*

Members of the Assembly: As directed by the Joint Legislative Audit Committee, my office conducted an audit of the California Community Colleges (CCC), which included a review of 10 of the 73 CCC districts (districts). Our evaluation focused on districts' compliance with the 50 Percent Law and district investment in administrators compared to faculty and support staff. All districts are subject to a state law that generally requires them to spend at least 50 percent of their current expense of education on the salaries of classroom instructors—meaning that a compliance rate of 50 percent or greater meets the law's requirements. The following report details the audit's findings and conclusions.

My office determined that the 50 Percent Law limits districts' ability to fund services outside of the classroom that may better support student success. The modern higher education landscape is vastly different than when the 50 Percent Law was passed in 1961, and the law in its current form does not account for these changes, such as the larger role of support from counselors and librarians, and technological changes. Additionally, although most of the 73 districts report that they have complied with the 50 Percent Law, the Chancellor's Office's limited oversight allowed multiple districts to inaccurately report their compliance rates. This was, in part, due to the Chancellor's Office not providing regular trainings to districts on reporting requirements and not conducting its own review of districts' reporting. Lastly, available data indicate that districts' investment in administrators has increased at a greater rate than that for faculty. The most common factor cited by districts for this increase was the need to hire managers to administer expanding grant programs. To address our findings, the Legislature could amend the 50 Percent Law to better support student success and the Chancellor's Office should provide districts with regular trainings for reporting on the 50 Percent Law.

Respectfully submitted,

**GRANT PARKS**  
California State Auditor

Above report referred to the Committee on Higher Education.
