**REPORTS**

The following letter of transmittal was presented by the Speaker and ordered printed in the Journal:

California State Auditor

2013-118  
April 28, 2015

*The Honorable Speaker of the Assembly  
The Honorable Members of the Assembly  
of the Legislature of California  
State Capitol, Room 3196  
Sacramento, California*

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the California State Auditor presents this audit report concerning the San Francisco Bay Area Rapid Transit District's (BART) financial projections and workers compensation practices.

This report concludes that over the next 10 years BART will need billions in reinvestment to repair and replace its infrastructure and other assets, but that its capital funding outlook is uncertain. BART has identified over \$9.6 billion in capital reinvestment projects, the majority of which is unfunded. Included in its capital improvement program are three large capital projects to replace and expand its fleet of railcars, expand its vehicle maintenance facility, and replace its train control system. While BART has identified a mix of funding from federal, state, and local sources for the new railcar project it will need to commit roughly \$468.5 million of its own money to fully fund the 775-car project's \$2.5 billion budget. Furthermore, all three of these projects face funding shortfalls in some years during the life of each project. In addition to these three capital projects, which it expects to cost \$4 billion, it has identified over \$5.6 billion in capital projects needed to repair or replace infrastructure that is in poor or very poor condition and to maintain a state of good repair and expand the system.

Although we found BART's focus on its future capital expenditure needs to be reasonable, its current funding commitments and internal financial resources are insufficient to meet those needs. To begin addressing this issue, the BART board of directors (board) held workshops in January 2015 to discuss several funding options, which include, among other funding opportunities, ballot measures to issue general obligation bonds. The board has yet to decide on an appropriate mechanism to finance BART's capital needs.

Separate from BART's capital needs, its past financial projections for its operating budget between fiscal years 2007–08 through 2012–13 proved to be accurate. BART management demonstrated a reasonable track record of developing projections that generally fell within 5 percent of actual performance, indicating that its projection methodology yielded valid results. Moreover, our impression is that BART's projections for fiscal years 2015–16 through 2018–19 appear to be reasonably plausible, although financial forecasts are by nature imprecise estimates. In addition, we noted that audits conducted by the Department of Industrial Relations and BART's internal audit staff did not find any significant issues with BART's workers' compensation practices and their use of a third-party administrator. Finally, we found

that violence against BART employees did not continuously increase between fiscal years 2009–10 and 2013–14.

Respectfully submitted,

ELAINE M. HOWLE, CPA  
State Auditor

Above report referred to the Committee on Transportation.
