REPORTS

The following letter of transmittal was presented by the Speaker, and ordered printed in the Journal:

California State Auditor

2002-123.1
May 21, 2003

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents the first of two audit reports concerning whether California is maximizing the amount of federal funds it is entitled to receive for appropriation via the Budget Act.

This report concludes that California receives a share of federal grant funding that is near its share of the United States' population. For eight large grants, the difference between California's share of the federal grant and its share of the country's population is attributable to allocation formulas based on factors, such as poverty rates or per capita income, that are favorable or unfavorable to California. Because funding formulas are established at the federal level, the State has little control over the share it receives of these grants. Nevertheless, many federal grants include cost-sharing provisions, and the level of federal funding may drop if the State cuts its contribution to grant activities.

We will issue a second report on federal funding in the summer of 2003 that will examine the way state agencies identify and manage federal funds, and discuss other factors that constrain the State's maximization of federal funding.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Budget.

The following report was presented by the Chief Clerk:
