REPORTS

The following letter of transmittal was presented by the Chief Clerk and ordered printed in the Journal:

California State Auditor

2007-114
June 12, 2008

The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning low-level radioactive waste (low-level waste). The report concludes that public concern related to the disposal of low-level waste will likely increase in the near future as generators of low-level waste in California are losing access to one of the two disposal facilities they currently use. In June 2008 the disposal facility in Barnwell, South Carolina, is scheduled to cease accepting low-level waste from generators in many states, including California. Unfortunately for decision makers, the implications of this pending closure and what it means for the State's policy are not clear-cut. California's current approach to managing low-level waste is significantly affected by the lack of its own disposal facility, as well as incomplete data on the volume of low-level waste in the State.

The audit also revealed that the Department of Public Health (department) and its Radiologic Health Branch (branch) can better protect the public's health by improving their oversight of low-level waste. Specifically, the department has yet to develop dose-based

decommissioning standards that define when a physical location is sufficiently clean from harmful radiation. Further, we found that the department's branch cannot demonstrate that it conducts its oversight inspections on time. The branch's data systems for tracking inspections are not sufficiently reliable, while some inspections were not completed until they were more than a year overdue. The audit also found the branch is unable to justify its recent requests for more resources, such as the fee increases it imposed in 2005 and its requests to the State for more staff in fiscal years 2006–07 and 2007–08. Finally, the branch lacks a reasonable explanation as to why it has not provided the Legislature with data on the amount of low-level waste that is generated in California and requires disposal.

Sincerely,

ELAINE M. HOWLE
State Auditor
