California State Auditor

2000-125
July 12, 2001

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As requested by the Joint Legislative Audit Committee, the Bureau of State Audits presents its audit report concerning the Los Angeles Unified School District's (LAUSD) recent reorganization and its executive and administrative compensation practices.

This report concludes that LAUSD has made some progress in implementing its reorganization plan (plan); however, it has not shifted to local districts the level of authority over financial resources or instructional programs described in its plan. Also, some administrative positions earn substantially more in comparison to positions at other school districts, while a few positions earn less. Because it has lacked formal guidance when determining what salaries to award, the propriety of some of these compensation levels is questionable. Furthermore, LAUSD could not always demonstrate it had a thorough description of a position's duties and was unable to provide adequate documentation detailing how it set compensation levels for some positions.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Education.

California State Auditor

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by Chapter 329, Statutes of 1998, the Bureau of State Audits presents its audit report concerning the Employment Development Department's (department) introduction of toll-free telephone services to enhance customer access to its unemployment insurance (UI) and disability insurance (DI) programs.

This report concludes that the department's efforts have improved customer service and increased public access to its UI and DI programs. Despite these efforts, during peak calling periods customers may encounter busy signals, hear instructions to call back later, or endure lengthy wait times if they ask to speak with a customer service representative. Also, the department cannot currently measure whether either of the programs meets the goals it established to improve the response time to customers. Specifically, the department cannot distinguish the wait time of customer information calls from claim-filing calls in its UI program. Additionally, the department

evaluates the performance of its DI program using management reports that do not routinely include the program's customer service units, which receive 42 percent of the program's calls.

Respectfully submitted,

ELAINE M. HOWLE
State Auditor

Above report referred to the Committee on Labor and Employment.
