REPORTS

The following letter of transmittal was presented by the Speaker and ordered printed in the Journal:

California State Auditor

2021-601
August 19, 2021

*The Honorable Speaker of the Assembly
The Honorable Members of the Assembly
of the Legislature of California
State Capitol, Room 3196
Sacramento, California*

Members of the Assembly: As required by Government Code section 8546.5, my office presents this report about statewide issues and state agencies that represent a high risk to the State or its residents. Our work to systematically identify and address such high-risk statewide issues and agencies aims to enhance efficiency and effectiveness by focusing the State's resources on improving the delivery of services related to important programs or functions.

We describe in this report seven high-risk statewide issues that include aspects of water infrastructure, information security, and state management of COVID-19 federal funds. We also conclude that five state agencies meet our criteria for posing a high risk: the California Department of Corrections and Rehabilitation, the California Department of Technology, the California Department of Health Care Services, the California Department of Public Health, and the California State Teachers' Retirement System. Finally, we have removed state oversight of K-12 education funding from our state high-risk list because the State has made sufficient progress toward controlling risk factors.

We will continue to monitor the risks we have identified in this report and the actions the State takes to address them. When the State's actions result in significant progress toward resolving or mitigating such risks, we will remove the high-risk designation based on our professional judgment.

Respectfully submitted,

ELAINE M. HOWLE, CPA
California State Auditor

Above report referred to the Committee on Accountability and Administrative Review.
