But no harbor embankment or seawall shall be constructed outside of the following named points and lines, to wit: Commencing at the point where the eastern boundary line of the Presidio Reservation, extended in a northerly direction, intersects the three-fathom contour line shown upon the chart of the United States Survey, and running thence in an easterly and southerly direction, upon straight or curved lines, in such manner as to approach as near as practicable the extreme outer projections of the water-line front, as described in an Act to provide for the disposition of certain property of the State of California, passed March twenty-sixth, in the year of our Lord eighteen hundred and fifty-one, to a point at or near the intersection of Second and Berry Streets, thence continuing southerly, upon straight or curved lines, in such a manner as to approach as near as practicable the extreme outer projections of the water-line front, as established by the Board of State Tide Land Commissioners, to the southerly boundary of said City and County of San Francisco; and said Commissioners, in addition to a general control over said premises, shall have authority to use, for loading and landing merchandise, with a right to collect dockage, wharfage, and tolls thereon, such portion of the streets of the City and County of San Francisco, ending or fronting upon the waters of said bay, as may be used for such purposes without obstructing the same as thoroughfares; and authority to rent an office in the City and County of San Francisco, between Montgomery, Market, and Pacific Streets and the city front; and purchase from time to time suitable books for the records of the Secretary and accounts of the Wharfingers, together with such stationery as may be required by the Board; and to fix and regulate, from time to time, the rates of dockage, wharfage, crantage, tolls, and rents; and collect such an amount of revenue therefrom as will enable the Commissioners to perform the duties required of them by authority of this article; and the Commissioners and Governor of California may so modify and establish such rates of dockage and wharfage as will produce a revenue not to exceed in amount the moneys collected in the year eighteen hundred and seventy-five, collecting as near as possible equal amounts from dockage and wharfage. When such modification has been made, the collection of tolls must be abolished and the toll collectors discharged. The Commissioners shall construct such number of wharves as

the wants of commerce shall require, and shall locate such wharves at such points and upon such lines as the Board may deem most suitable for the best interests of commerce, and shall repair and maintain all the wharves, piers, quays, landings, and thoroughfares the wants of commerce may require, and generally to erect all such improvements as may be necessary for the safe landing, loading and unloading, and protection of all classes of merchandise, and for the safety and convenience of passengers passing into and out of the City and County of San Francisco, by water. And for the purpose of repairing said wharves, piers, quays, and landings, the Commissioners are hereby authorized and empowered to purchase or construct pile-drivers, and the necessary machinery to be used therewith, and employ men for operating the same, nor shall any wharf be constructed upon such place or line as will cause any slip or dock to be less than one hundred and thirty-six feet wide at the most narrow point between the wharves. The Commissioners are hereby authorized and empowered to purchase or construct works for preserving piles and timber, and the necessary machinery to be used therewith, and operate said works, and for that purpose to employ men and purchase chemicals, or such other materials as may be necessary for the preserving of piles and timber. The purchase of chemicals can be made without advertising or proposals therefor. When they determine that a new wharf shall be erected, or any other necessary improvement constructed, or repairs made, or dredging machines, pile-drivers, scows, steam tugs, or any necessary machinery or material obtained, the costs of which shall exceed three thousand dollars, they shall advertise for sealed proposals, for a period not less than ten days, in one or more of the daily newspapers in the City and County of San Francisco. Every proposal shall be accompanied by a certified check for an amount equal to five per cent of the amount of such proposal, such check to be made payable to the order of the Secretary of said Board; conditioned if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute the contract and give the bond required within six days after the award is made, in that case the said sum mentioned in said check shall be paid into the State Treasury by said Secretary, as liquidated damages for such failure and neglect, as a portion of the San Francisco Harbor Improvement Fund. Such advertisement shall contain a general description of the work to be done, the material to be used, the place where to be used, and must refer to specifications, which must contain a full and accurate description of the work to be performed, the material to be used, and where to be used, which specifications shall be kept in the office of the Secretary of the Board in such manner that all persons may inspect the same during the usual business hours of all days except Sundays and holidays. On a day named in the advertisement, the Commissioners shall open the bids in the presence of such bidders as are present, and award the contract to the lowest bidder, who shall furnish sufficient sureties to guarantee the performance of the work. If, in the opinion of the Commissioners, the bids are too high, they may reject them and advertise anew in like manner as before. If, in the opinion of the Commissioners, the second bids are too high, they may reject them likewise, and enter into contract with responsible parties without giving further notice. Any contract entered into without giving public notice and receiving bids, must be at least ten per cent lower than the lowest rejected bid. The Board may construct such harbor embankments or seawall as shall be necessary to protect the harbor of San Francisco, and dredge such number of slips and docks as the commerce of the port of San Francisco may require, to a depth that will admit of the easy and free ingress and egress of all classes of water craft that load and discharge cargoes at the wharves, piers, quays, landings, and thoroughfares in the harbor of San Francisco; to perform which dredging the Board of State Harbor Commissioners are hereby authorized and empowered to purchase or construct dredging machines, scows, steam tugs, and the necessary machinery, and employ men for operating the same. When any portion of the premises described in this article shall be dredged, the sand, mud, or other substance shall be deposited in a place designated by the Board, in not less than fifteen fathoms of water. All classes of water craft that uses or makes fast to any wharf, pier, quay, landing or thoroughfare, and lands upon or loads therefrom any goods, wares, or merchandise, shall be liable and must pay to the Commissioners such rates of dockage as shall be fixed by authority of this article; and all such water craft as shall discharge or receive any goods, wares, or merchandise, while moored in any slip, dock, or basin within the jurisdiction of the Commissioners, shall pay one-half the regular rates of dockage. Any water craft that shall leave any wharf, pier, quay, landing, thoroughfare, slip, dock, or basin, unless forced to do so by stress of weather, without first paying the dockage due from such vessel, shall be liable to pay double the regular rates. The charge for wharfage and tolls shall be a lien upon all goods, wares, and merchandise landed upon any of the wharves, piers, quays, landings, or thoroughfares upon the premises described in this article; and the Commissioners, their agents or lessees, may hold possession of any such goods, wares, or merchandise so landed as aforesaid, to secure the payment of such wharfage and tolls; and for the purpose of such lien are deemed to have possession of such goods, wares, and merchandise so landed until such charge for wharfage and tolls are paid. The Commissioners shall have power to make reasonable rules and regulations concerning the control and management of the property of the State which is intrusted to them by virtue of this article, and said Commissioners are hereby authorized and required to make, without delay, and from time to time, and publish not less than thirty days in a daily newspaper of general circulation published in the City and County of San Francisco, all

needful rules and regulations not inconsistent with the laws of the State or of the United States in relation to the mooring and anchoring of vessels in said harbor, providing and maintaining free, open, and unobstructed passageways for steam ferryboats and other steamers navigating the waters of the Bay of San Francisco and the fresh water tributaries of said bay, so that such steamers can conveniently make their trips without impediment from vessels at anchor or other obstacles. And said Commissioners may also make all needful rules and regulations governing the removal of such vessels from the wharves and other landings, and from slips and docks, as are not engaged in receiving or discharging cargo, prescribing the time during which goods, wares, and merchandise landed upon any wharf, pier, quay, landing, or thoroughfare shall be permitted to remain thereon, and may divide the same into several classes, and may, by such rules and regulations, provide that in case any such goods, wares, or merchandise remain upon any wharf, pier, quay, landing, or thoroughfare beyond the term so prescribed, the respective wharfinger may, under the order of the Commissioners, remove and deposit the same in a suitable place, at the charge, risk, and expense of the owner thereof. When any goods, wares, or merchandise shall have remained upon any wharf, pier, quay, landing, or thoroughfare more than twenty-four hours, the Commissioners may, in their discretion, charge such additional rates for each subsequent day as in their opinion is just and equitable. The Commissioners may, in their discretion, set apart and assign, for the exclusive use of the water craft used by the officers of the Federal Government, such convenient and safe landings as such officers may require, together with suitable premises near such landings as may be set apart and assigned for their use, upon which premises such officers may cause to be erected offices and storehouses to suit their convenience; and the Commissioners shall charge a reasonable compensation per month for the use of such landings and office and storehouse premises; set apart and assign a suitable and proper locality for the use of the Harbor Police of the City and County of San Francisco, and also a suitable place for a boat house station, for the exclusive use of the quarantine and health officers of said city and county, without compensation; set apart and assign, for the exclusive use of steam ferryboats, suitable slips in which said structures may be erected as will secure the safe and convenient landing of passengers and safe landing and delivery of freight; set apart and assign suitable wharves, berths, or landings for the exclusive use of vessels, to construct suitable sheds, gates, and other temporary structures as may be necessary for the safe and convenient landing of passengers and safe landing and delivery of freight; and set apart and assign, for the sole and exclusive use of the fishermen of the City and County of San Francisco, such place or places as the said Commissioners shall deem proper, sufficient, and adapted for the requirements and necessities of said fishermen, *provided*, the premises set apart by said Commissioners shall be used only for the legitimate business of said fishermen, and for no other purpose; *and provided*, said Commissioners shall not charge therefor more than the following rates: For boats over twenty-two feet and under forty feet long, one dollar per week; for boats from sixteen to twenty-two feet long, seventy-five cents per week; and for all boats less than sixteen feet long, twenty-five cents per week. The Commissioners may assign suitable places for the landing of horses, cattle, sheep, and swine; and when such places have been assigned, it shall be a misdemeanor for a commander of any water craft to land any greater number than ten at any one time from any water craft at any other place. The Commissioners may set apart, for the uses and purposes of dry docks and marine railways, such portions of the waterfront northwesterly of the northerly end of Kearny Street and southerly of the easterly end of Solano Street, as the wants of commerce may require. The Commissioners shall not have the right to renew any lease, or to lease any premises under their control for any purpose whatever, but they may permit any property under their control to be used by any corporation, firm, association, person, or company, but in no case shall any corporation, firm, association, person, or company enjoy the use of any of the property under the Commissioners' charge, except such use as shall be terminated as herein provided; and the said Commissioners may condemn, purchase, and pay a reasonable compensation for such structure as may have been erected upon the said premises, which structure, in the opinion of the Board and Engineer, may be useful for such commercial purposes as this article is intended to promote. No person or company shall land or remove any goods, wares, or merchandise, or other things, upon or from any wharf, pier, quay, landing, or thoroughfare situated upon the premises described in this article, nor shall any corporation, firm, association, company, or person collect dockage, wharfage, crantage, or toll within the boundaries of the premises described in this article, without first obtaining permission to do so from said Commissioners. Any use permitted of the property by the Commissioners may be terminated at any time by them, on thirty days' previous notice to the party or parties so using the same. Said Board shall not lease to, or permit any corporation or association, or any person or persons, to lay down any track or tracks for railways along any of the property described herein, or on any portion of the waterfront of San Francisco, under any condition whatever. Said Board may, when the wants of commerce require, lay down such number of tracks along and on any portion of said waterfront as may be necessary to meet such wants, and permit the use thereof to any corporation or association, or any person or persons, under such rules, regulations, and at such compensation as said Board may determine; *provided*, that no special privileges shall be awarded thereon to any corporation, association, person, or persons; *and provided*

further, that switches from said railroad track or tracks may, with the permission of said Board, and under the limitations and conditions of this Act, be constructed by corporations, or any person or persons, leading to any warehouse or place of business. Nor shall any person or company place, or cause to be placed, any obstruction in that portion of the Bay of San Francisco described in this article, nor upon any wharf, pier, quay, landing, or thoroughfare, without the consent of the Board. Whenever any wharf, pier, quay, landing, or thoroughfare in the harbor of San Francisco shall be incumbered, or their free use interfered with by goods, wares, merchandise, or other substances, whether loose or built upon, or fixed to any such wharf, pier, quay, landing, or thoroughfare, it shall be the duty of the Commissioners to notify, in writing (which service may be served by a Wharfinger, or the Secretary or Assistant Secretary of the Board), the owner, agent, or occupant, or person placing or keeping such obstructions thereon, to remove the same within twenty-four hours after the serving of such notice, and in case of failure to comply with such notice, and remove such obstructions, the owner, agent, occupant, or person notified shall be liable to pay the Commissioners the sum of twenty-five dollars for each and every day during which such obstruction shall remain upon any such wharf, pier, quay, landing, or thoroughfare; and the Commissioners shall have power, in their discretion, to remove any such incumbering substance, and store the same in any suitable, convenient, and safe place, and a sum equal to the amount of the expenses of the removal, together with all other necessary charges, shall be paid by the owner of such incumbering substance to the Commissioners, and such sum and necessary charges shall be a lien on such substance until paid. The rate of dockage, wharfage, and tolls shall not exceed those established by the Board of State Harbor Commissioners, July first, eighteen hundred and seventy-four, and dockage shall not be collected on any vessel lying at anchor outside of dock, wharf or slip. Nothing in this section shall be construed as authorizing the Board of Harbor Commissioners to construct any railroad along and upon any open canal extending inland from said waterfront. But said Harbor Commissioners may, when a waterfront railroad shall be constructed by them, construct the same across the outlet of such open canal.

Where the work to be done is the construction of a new wharf, bulkhead or breakwater, and its appurtenances, the Board may lease said wharf, bulkhead or breakwater and its appurtenances for a period not to exceed five years, and for an amount not to exceed the cost of constructing said work, the rents therefrom to be applied, in whole or in part, in payment for the cost of such construction, and said Board may provide in the contracts for the same that the rents therefrom shall be so applied, or the work be paid for, in whole or in part, from such rents and revenues.

GOVERNOR'S MESSAGE.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, January 29, 1900. }

Gentlemen of the Senate and Assembly of the State of California

In re-convening your honorable body in extraordinary session for the purposes expressed in my proclamation, it becomes my duty to state more fully the views which I entertain regarding the business to be transacted and the necessity for this extra session.

After careful consideration for many months of the question whether, among other things, the expense to the people which may accrue from this session should outweigh the exigency of convoking the Legislature, I have fully determined that the question of immediate disbursement should be subordinated to public duty and public necessity, and that this necessity, above all other matters, demands the election of a United States Senator, so that California shall stand equal in representation with her sister States in the Senate of the United States.

The duty which devolves upon you of electing a United States Senator is paramount, and, to afford you an opportunity to perform this high prerogative, would alone—were there no other important questions to be disposed of by the Legislature—require this extraordinary session.

If the representatives of each State in the Union were to refuse to perform their constitutional obligations of electing a United States Senator, the foundation of the Federal Government by and for the people would crumble, and the American Republic would become a melancholy phantasy.

The sisterhood of States represented in Congress is the constitutional essence of our Nation, and full representation is not alone a right belonging to each State, but also one of the greatest rights of the Republic; and for many months last past patriotic and urgent appeals have come to me from many of the most eminent statesmen and jurists in America imploring California to perform, in this regard, her whole duty to the Union. Our country's seal bears the motto Unity from Multiplicity; and the stars and stripes, joined in one flag, signify supremacy and singleness of purpose through a union of the States.

The Constitution and laws of the United States must be obeyed, as well as the Constitution and laws of each State.

The Federal Constitution and laws require that all States shall supply Representatives to Congress, to legislate for the whole people, as well as for the people of the separate States; and the persistent refusal of a State to perform this duty required by the Federal Constitution and laws is *treason* against the Union.

In taking my oath of office, I solemnly pledged myself to support the Constitution and laws of the United States, and I firmly believe that I would be recreant to that sacred oath did I fail now to convoke this Legislature for the purpose of electing a United States Senator.

The practical results of the recent war with Spain must be measured by Congressional legislation.

The Pacific Coast is vitally interested in the maintenance of our new possessions. Commercial expansion westward needs Federal assistance. The proper government of the Philippines is a necessary increment to Western commerce. Trade is based on order, and there can be no order without law.

California should have her full corps of legislators in Congress to assist in the passage of laws favorable to our trade with the newly acquired territory. No State can be equal if not equally represented. California, therefore, demands her equal right of representation by the election at your hands of a United States Senator.

Upon the 18th of March, 1899, I addressed a message to you, in which, while calling your attention to this solemn duty, among other things, I used the following language, which is at this time equally true and much more significant:

"In view of the great territorial expansion westward in the Pacific Ocean, the commercial interests of this State are too vast and its political position too important to be now impaired by your failure to choose a National Representative. The power to select a United States Senator is vested in you by the Constitution, by the law, and by the people; and the people require at your hands the exercise of that high prerogative."

Through unhappy and hidden causes, you failed to heed my appeal on that occasion; and subsequent events have justified the fears which I then entertained, that the grand National Administration, under the guidance of our great President, might meet with some opposition from those who ought to be first to maintain our country's grandeur.

Already, with the fruits of a victorious war within our control, discordant voices are raised to obstruct our country's expansion.

The enemies of progress seek to sow the seeds of distrust. The retrogressive few struggle to oppose the Nation's majestic strides eastward and westward. Discarding the laws of civilization and rational evolution, these obstructionists would once more reduce (if they could) this magnificent empire to its original thirteen States.

America, proud of her prestige among nations, must go forward, not backward. The doctrine of the rights of man must be taught on the isles of the Orient. The flag which symbolizes these rights likewise symbolizes freedom; and no people above whom it floats can bear the shackles of the slave.

Our country has a moral as well as a material duty to perform respecting our newly acquired islands. It must unselfishly show to the people of the Philippines, of Guam, and of the other isles of the Pacific the virtue of American law and American liberty. Our Republic must be an exemplar through social and commercial contact. Our messengers of peace and civilization must educate the inhabitants of our new possessions in the industrial and mechanical arts, and in the best methods of agricultural development. The iron of war must be transformed into implements of husbandry. Racial hates must yield to American philanthropy, and crude and savage customs to American morality.

To achieve all this, we should have wise laws and prudent councilors. and Califor-

nia—the westernmost State of the Union, and the commercial gate for America's Oriental trade—is deeply concerned in this great and necessary work

I am, therefore, conscientiously convinced that an essential step in this direction is the election of a United States Senator.

Being conscious of the rectitude of our purposes, no lurking assassin of character nor cowardly libeler need hope, for a single instant, to intimidate or sway us from the faithful discharge of our duty to our country and our State because of the dastardly menace of printed blackmail.

Unbiased by special predilections, undeterred by the ruthless and unfounded criticism of a few morning newspaper political bosses of pretended influence, ever ready and willing to sacrifice the welfare of their party, State, and Nation to the gratification of their own hates and ambitions, and to decry every honorable principle and deed opposed to their various schemes and personal aspirations, here you may meet in calm council to select some gentleman for the United States Senate unquestionably worthy of the high honor, whose ability and integrity can not justly be assailed, who is inspired with the splendid and progressive views of the President, and who, when elected, will unswervingly assist the National Administration in its magnificent governmental plan of extending American civilization and commerce to the new territory, where the American soldier and sailor have planted and maintained our country's flag.

HARBOR IMPROVEMENT.

In the second, third, and fourth grounds of the proclamation I have called your attention to needed legislation for the improvement of the harbor of San Francisco, wherein it is suggested that you pass amendments to Sections 2524 and 2527 of the Political Code, and also that you enact a law for the transfer to the San Francisco Harbor Improvement Fund of the money now lying unused in the San Francisco Depot Sinking Fund.

The growing commercial necessities of the State require greater harbor facilities for the State's principal port at San Francisco, in order to meet the trade which has so greatly increased during the past year, and which is still further increasing.

The length of wharves now limited by said sections of the Political Code is inadequate to accommodate the shipping of the coast. By reason of this lack of wharfage space, the shipment of the large grain yields and other products of our State causes great expense to our merchants, and especially imposes extraordinary burdens upon the farmers throughout the State, by hampering their sales on account of delay in shipment arising from this condition.

The immediate demand for appropriate legislation in this direction may be better understood from the following petition received by me last December, and signed by the members and officers of the State Board of Harbor Commissioners, who are worthy and competent officers, and have at heart the interest of the State and the harbor of San Francisco, and are administering their office with skill and economy. Inasmuch as my distinguished and very able predecessor in office, Hon. James H. Budd, is the attorney for this Board, and the majority of the Board is Democratic, it is manifest that I should not be accused of Republican partisanship in this call for an extra session, since these gentlemen differing from me in politics join in their request for immediate legislation in behalf of the harbor to the many other urgent appeals of people who are best acquainted with and deeply interested in the commercial necessities of the port of San Francisco. The petition is as follows:

“BOARD OF STATE HARBOR COMMISSIONERS,
“OFFICE UNION DEPOT AND FERRY HOUSE,
“SAN FRANCISCO, CAL., December 13, 1899 } ”

“HON. HENRY T. GAGE, Governor of California, Sacramento, Cal.:

“DEAR SIR: The commercial community seem to be a unit on the proposition that the traffic by water to and from this port will, within the next two years, show an unprecedented increase. Already there is every indication that this expected large volume of commerce is gradually finding its way to San Francisco.

“For the past ten months, while our harbor facilities have been sufficiently ample to accommodate the shipping, it nevertheless required all the wharfage room at the disposal of this Commission to meet the requirements of the increased trade of the port during that period.

“It is a fact that there has been a scarcity of tonnage this season to move for export our grain crop. This fact is verified by the crowded condition at the present time of the large grain warehouses at tide-water at Port Costa, and the similarly crowded condition of the interior warehouses throughout the State. Vessels engaged in our export grain trade arrive at this port first with an inward cargo. Had the number of vessels arrived here during the last four months that the volume of our grain for export justified, it must be admitted that our harbor facilities would have been inadequate to meet the demands of the trade.

“In anticipation of a much larger volume of shipping to and from this port, the Board of State Harbor Commissioners have been earnest in their efforts to provide increased wharf accommodations, so that all vessels, foreign and domestic, entering our harbor shall be given prompt and convenient facilities to discharge their inward and load their outward cargoes with as quick dispatch as can be afforded elsewhere.

"Should the business of the port, however increase to such an extent as is now generally conceded that it will, legislation will be necessary to enable this Commission to accommodate the modern-built vessels with wharf facilities.

"The present outline of the San Francisco waterfront was arranged years ago, when the greatest length of vessels entering the port, was from 200 to 300 feet. At the time when these conditions existed, the Legislature by law (which is still in effect) prohibited the Harbor Commissioners from extending wharves out more than 600 feet from the bulkhead line, inasmuch as with the vessels then in service, four of them—two on each side—could be moored alongside of a wharf 500 or 600 feet in length. Vessels now afloat and being built in the shipyards of the world vary from 100 to 700 feet in length. Such vessels have been coming to this port, and their number will henceforward increase, and therefore it can readily be observed that our dockage room at wharves 600 feet in length and less has become minimized.

"The law should be so amended as to permit the extension of wharves out a distance of 800 feet from the bulkhead line, instead of 600 feet, as provided for by the present law. While this Commission hope to be able within the next twelve months to commence to build three new wharves of the most modern construction, at an estimated cost of \$180,000 for the three, and pay for the same from the revenues of the Board, yet it is quite certain that a greater number of new wharves, as well as other improvements, will be necessary, to keep pace with the trade heading this way.

"These improvements can not be undertaken by the Board until sufficient funds have been accumulated from the revenues, and to wait till then might possibly jeopardize the volume of shipping. To overcome this requires some enabling legislation, authorizing this Commission, whenever they find it necessary in order to provide for the construction or repairs of any work deemed necessary for the convenience of commerce, to pledge the revenue of such work for and during a period not exceeding five years from the date of such contract.

"No risk should be assumed in not being able to afford all necessary accommodations for any increased shipping that may come hither. Therefore, in view of the circumstances and conditions outlined herein this Board would respectfully petition you to convene the Legislature in extraordinary session, for the purpose of amending the law relating to the Board of State Harbor Commissioners, so as to enable said Board to provide additional harbor facilities for an increased trade in the port and harbor of San Francisco.

"Very respectfully,

"PARIS KILBURN,

"P. J. HARNEY,

"RUDOLPH HEROLD, JR.,

"Board of State Harbor Commissioners.

"WM. D. ENGLISH, Secretary.

"We concur:

"JAMES H. BUDD, Attorney for Board

"HOWARD C. HOLMES, Chief Engineer."

The immediate necessity for this legislation may be perceived, not only from such petitions, but also from the fact (not of unusual occurrence) that last Thursday there were no unoccupied berths for ships in the harbor of San Francisco, and twelve deep-water vessels were overdue.

The shipping interests of this State are dependent upon the proper improvement of its principal rivers and harbors, and where defect exist in our laws which are incompatible with new conditions arising from increasing trade, and greater development of our resources, it becomes a public duty to eliminate from our statute books those defects which are opposed to the progress of our State and the prosperity of our people. All the people of the State are vitally interested in the development of the San Francisco harbor. The fostering care of the State is a guaranty of the State's continued concern for the future of this great harbor. With the betterment of trade and enhanced business advantages of our coast cities, the condition of the interior of the State will be likewise improved. As a people we are interdependent, and a material impediment to the commercial progress of the City of San Francisco (which contains nearly one-fourth of the State's population) is a corresponding obstacle to the interests of other parts of this State. Above all, it is the right and duty of the State, and not of a municipality, to extend sovereign care and management over the navigable waters of the State. For the State to attempt to abandon that right and duty would be an effort to forego one of its most sacred functions.

The expressions of those who maintain that a municipality may control and direct an entire harbor and navigable waters because of proximity thereto, are frequently the inconsiderate utterances of those having private ambitions or who are influenced by sectional prejudices. The nourishing of such local jealousies can only result in injury to both city and State, for the interests of San Francisco are necessarily joined with those of the State at large, and through the moral aid of the people of that city and the sovereign care of the State, this splendid harbor is destined to be a source of wealth to all the people of California.

The sovereign control of the State over its navigable waters is a solemn trust held for the benefit of all the people, which the State can not absolutely resign in favor of municipalities. The language of the highest court of the nation in a recent case is decisive of this proposition, and that court has there defined the limits of local and private control as follows

"A grant of all the lands under the navigable waters of a State has never been adjudged to be within the legislative power; and any attempted grant of the kind would be held, if not absolutely void on its face, as subject to revocation. * * * *The ownership of the navigable waters of the harbor and of the lands under them is a subject of public concern to the whole people of the State.*"

So again one of the learned Justices of the Supreme Court of this State, in considering a phase of this subject in a late case, tersely gave sanction to this view in the following words:

"Whatever power or sovereignty has been conferred upon the State to be exercised only for the benefit and in the interest of the entire people, can not be abdicated or surrendered to individuals, or exercised in favor of some to the detriment or disadvantage of others."

Nor is this position inconsistent with that taken by the court in the prevailing opinion in the same case, where it is said:

"No grant of lands covered by navigable waters can be made which will impair the power of a subsequent Legislature to regulate the enjoyment of the public right."

The sovereign right of the State to control its harbors, bays, and rivers, being a trust, held for the advantage of all the people of the State, the regulation of the San Francisco harbor, supervision of its wharves, and the collection and management of its tolls, is necessarily a matter of supreme concern to the State for the public weal.

Sections 1 and 2, Article XV, of the Constitution of this State, protect the public right of free navigation, and impose the duty upon the Legislature of enacting laws which will preserve to the whole people of the State access to the State's navigable waters.

No municipality nor other section can usurp this sovereign right, nor can any Act of the Legislature surrender the State's sovereign control. It is therefore evident that the matters called to your attention for the improvement of the harbor of San Francisco are of pressing general importance, and designed for the benefit of all the people of the State, and, were there no other reasons, would alone require this extraordinary session.

The amendments which I have suggested, if adopted by you, will afford adequate relief, and accomplish all that is necessary for the immediate improvement of the harbor, without levying taxes upon the people, or even necessitating the issuance of bonds.

PUBLIC WORKS.

The fifth reason specified in the proclamation for which I have called this extraordinary session is to pass a bill creating a Commissioner of Public Works, defining his powers and duties, and fixing his compensation.

A bill of this character passed both houses of the Legislature, and was on the last day of the Thirty-third Session presented to me for signature, duly signed by the President pro tem. of the Senate and the Speaker of the Assembly also, and duly certified to by the Secretary of the Senate and the Chief Clerk of the Assembly, and was by me approved three days thereafter, to wit: March 21, 1899. This Act is to be found on pages 157 and 158 of the Statutes of 1899.

After the approval of the Act my attention was called to certain irregularities in the passage of said Act, due perhaps to the necessary haste during the last days of the session; and upon an examination of the Journals of the Senate and Assembly I discovered the following facts: The Act as originally passed in the Senate allowed to the Commissioner the compensation of eighteen hundred dollars a year, and omitted the language expressed in Section 3 of the Act as it now appears in the Statutes.

The bill passed the Senate February 23, 1899 (Senate Journal, p. 834), and on March 7, 1899, was amended in the Assembly with the provisions which now appear, wherein, among other changes, an increased annual salary was allowed the Commissioner (Assembly Journal, pp. 1298 and 1299). As thus amended, the bill passed the Assembly March 14, 1899 (Assembly Journal, p. 1506). Subsequently, March 16, 1899, the Senate refused to concur in the Assembly amendments, and appointed a conference committee (Senate Journal, p. 1351), and on the same day the Assembly receded from the amendments, thereby consenting to the Senate bill as originally engrossed (Assembly Journal, p. 1595). On March 18, 1899, the bill as now printed was duly signed by the President pro tem. of the Senate and by the Speaker of the Assembly, and was certified to by the Secretary of the Senate and the Chief Clerk of the Assembly, and presented to me for signature. On the same day the bill, as so printed and presented to me, was reported to the Senate by the Chairman of the Senate Committee on Enrolled and Engrossed Bills as correctly enrolled, and presented for my approval (Senate Journal, pp. 1481 and 1482). Through some singular mishap, the bill thus presented contained all of the amendments which had been passed in the Assembly and from which that House had subsequently receded, and in that form received my approval. It is almost needless to add that it would be impossible for the Governor to follow in detail the entire course of every bill introduced in both houses during a session of the Legislature; and even if such examination were possible, the Governor would be necessarily obliged to rely upon the enrolled bills for the correctness of the bills when the same are duly signed and certified by the proper officers of the Senate and Assembly; for, of course, it could not be expected that the Governor should enter the printing office and do the work of both the compositors and enrolling committees.

As the bill now appears, it is at least an unsettled proposition of law, in the event of

litigation, whether the court would go behind the enrolled bill and consult the Journals of the Houses in an inquiry as to its legality. But at all events I am satisfied that the Act itself, owing to this misfortune, does not properly express the intention of the people acting through their representatives, and I have therefore called your attention to the defects in this most important legislation, so essential for the prosperity of the farmers and other citizens of the Sacramento and San Joaquin valleys, and to the business and property of the people of the various cities and towns along the Sacramento and San Joaquin rivers and their tributaries.

The necessity for the legislation suggested in the sixth ground of the proclamation is apparent from an examination of the Act relating to the Auditing Board of Public Works, approved March 17, 1897, which confines the work to be done by the Board and Commissioner to the insufficient plans embodied in the report of the Engineers accompanying the Report of the Commissioner of Public Works, dated November 15, 1896. Not only is the report of the Engineers ambiguous in its outline, but it was held, in the opinion of the Attorney-General rendered April 20, 1898, that neither the Auditing Board nor the Commissioner of Public Works could expend any part of the money appropriated for the improvement of the Sacramento and San Joaquin rivers above the mouth of the Feather River. In consequence of this condition of the law, not only are thousands of acres of valuable and productive land in Yolo, Sutter, and Yuba and other counties imperiled, but the inability to perform such work above the mouth of the Feather River results in serious detriment to work already done upon the Sacramento River. In the report of the Auditing Board and Commissioner of Public Works made to Governor Budd, December 1, 1898, it was recommended that the jurisdiction of the Board and of the Commissioner should be extended. The Commissioner on page 7 of his report says

"As the law now stands, the money appropriated can only be expended on the San Joaquin and on the Sacramento River from the mouth of the Feather to Suisun Bay. The expenditure of a very moderate amount on the Feather River, and on the Sacramento above the mouth of the Feather, would vastly improve the navigability of both, and incidentally afford protection to a large area of fertile country."

When we consider that the Federal Government has already appropriated large sums of money for the construction of restraining barriers and other improvements on the Sacramento and Feather rivers, and has now able engineers engaged in the work under the Secretary of War, pursuant to the Act of Congress creating the California Debris Commission, it would be only the exercise of good faith on the part of this State, apart from the incalculable benefit to our people, to cooperate with the Federal Government in the work of improvement in directions which are not allowed to the United States engineers under said Act of Congress.

REPEAL OF WIDE-TIRE LAW.

The seventh subject specified in the proclamation requiring legislation is the repeal of the Act approved March 20, 1897, regulating the width of wagon tires to be used on the public highways. The Act is very artificially drawn, and contains provisions of doubtful constitutionality. Independent of such criticisms, it is wholly unsuited for the purposes sought to be attained, and will if attempted to be enforced cause trouble and distress to thousands of farmers, tradesmen, and other people using wagons within this State.

My attention has been called by the Highway Commissioner to various and confusing errors in the law itself, which are of such a character that I am positively informed that compliance with the terms of the law by either wagon users or manufacturers is an impossibility.

As the Act itself makes non-compliance with the law a crime, and punishable by fine and imprisonment, the continuance of such a law on our statute books would be a great wrong to the people.

REPEAL OF MINING LAWS

I have recommended in the eighth ground of the proclamation a substantial re-enactment of the Act approved March 20, 1899, repealing the State Mining Act, approved March 27, 1897, in order to obviate the misconstruction of the repealing Act of 1899, and to avoid possible litigation, owing to a clerical error which crept into the first section of the Act

LAND FEUDS.

The object of the amendments proposed in the ninth and tenth grounds of the proclamation is of vast importance, and had this remedy been given which is suggested in the tenth ground, many thousands of acres of valuable State land would not have been permitted during the last few years to pass under the control of land rings at a value of \$1 25 per acre, to be at once resold by them at prices ranging from \$4 and upward per acre.

Until proper amendments are made to the laws relating to our public land, power should be vested in the Governor to withdraw from sale the school lands which are now being used as scrip to take the place of the Valentine and Porterfield scrip.

One of the principal objects of the sale by the State of its public lands to private persons is to encourage its actual settlement and cultivation, and when the intention of our statutes is so perverted through the pernicious schemes of land jobbers, it

becomes the high and solemn duty of the legislators to prevent such frauds for the protection of the people.

Owing to the Act of Congress directing the President to set apart forest reserves upon the public domain of the United States, various reserves covering large tracts of valuable timber and other lands belonging to the State in 16th and 36th sections have been placed within the boundaries of these reserves. As the title to these school sections still remained in the State, they were subject to entry and sale under our State laws, notwithstanding that they fall within the boundaries of the proclaimed reserves.

In the Act of Congress dated June 4, 1897 (Vol. 30, U. S. Statutes, page 36), the following provision is made for the benefit of actual settlers and owners of land within these reserves, allowing a relinquishment of their titles to the United States:

"That in cases in which a tract covered by an unperfected bona fide claim or by a patent is included within the limits of a public forest reservation, the settler or owner thereof may, if he desires to do so, relinquish the tract to the Government, and may select in lieu thereof a tract of vacant land open to settlement not exceeding in area the tract covered by his claim or patent; and no charge shall be made in such cases for making the entry of record or issuing the patent to cover the tract selected; *provided further*, that in cases of unperfected claims the requirements of the laws respecting settlement, residence, improvements, and so forth, are complied with on the new claims, credit being allowed for the time spent on the relinquished claims."

This provision of the United States statute, together with the condition of our own laws, has been used by the land ring for their own selfish and unlawful purposes.

Immediately after the proclamation by the President of a forest reserve within this State, applications for State school land within such reserve have been filed, and immediately sold as scrip by local dealers, as well as by dealers in other States, at prices ranging as high as \$5 per acre, whereas the State can only receive \$1.25 per acre. The land attorneys secure the relinquishment of the entryman or his assignee to the United States, and file application for other public lands of the United States, even outside of the State of California.

In cases where the State school lands within the reserves have been patented, the dealers secure under said Act of Congress patents to other lands which they have located.

By reason of this privilege afforded by the United States statutes and our own laws, the school lands within the forest reserves are greatly increasing in value, and much of the land has been cornered by the land attorneys, and is now advertised and sold as scrip.

If the State is obliged to part under the existing laws with its school lands within these reserves, so that it likewise loses the taxes which would be paid by an actual settler, in the absence of the ability of the State's officers to detect and discriminate between fraudulent and bona fide land claims, then the people of the State should reap the benefit from the advanced value of such lands which now go to the land jobbers, by authorizing the Governor to withdraw such land from sale at the minimum price, and to sell the same at an increased price according to its value. Although many thousands of acres of land have already been lost to the State, I believe it to be absolutely and immediately necessary to call for the relief which I have proposed in the proclamation.

To provide against this great fraud upon the State, it would have been my duty to convoke you in extraordinary session had no other reason existed, for it is estimated that hundreds of thousands of dollars would be thereby gained for the State.

STATE LUNACY LAW.

In the eleventh ground of the proclamation your attention has been called to the repeal of Section 19 of the Act to establish a State Lunacy Commission, approved March 31, 1897, and in the thirteenth ground I have advised the amendment to said State Lunacy Law so as to empower the Commission to fix the salaries of all officers and employes. The necessity for this change in the law will be apparent from the recent experience of the present State Lunacy Commission. This Commission a short time ago deemed it necessary for the proper and economical management of the several State Hospitals for the Insane to make a reduction in the salaries of officers and employes which would create a saving to the State of over \$20,000 each year, and at the same time the said officers and employes would be amply compensated. Despite the Commission's efforts to economically administer the affairs of the State Hospitals, their praiseworthy purpose was impeded by some of the officers of the institution through menace of litigation, the said officers contending that Section 19 of the Act of 1897 (notwithstanding the amendments of the Act approved March 21, 1899) deprived the Commission of the power of making this reduction. To avoid possible litigation as to the proper construction of the State Lunacy Commission's powers, I have requested you to rectify the ambiguity, for I have no doubt that in passing the amendments at the last session of the Legislature your intention was to vest in the Lunacy Commission full power to regulate the salaries of officers and employes. If this power be vested in the present Lunacy Commission, it will save the people of the State more than \$20,000 annually for years to come.

AUTHORITY TO REMOVE APPOINTEES FOR CAUSE.

In the twelfth and fourteenth grounds of the proclamation I have suggested that the Governor be granted the power to remove for cause officers appointed for definite terms, and in the fifteenth ground I have advised that the power be likewise vested in the Governor of temporarily suspending for cause conferees of the Senate. In thus requesting this necessary authority I have not harbored a single partisan thought nor desired such power for any political purpose, but my sole desire was that the responsibility which is laid upon the Governor by the people should not be hampered through his utter helplessness to remove officers who misbehave themselves in office to the detriment of the public, or who may be even guilty of crime. If the Governor is to be held responsible to the people, and if the party which nominated and elected him is to be held likewise responsible to the electors for the Governor's conduct of State affairs, he should be invested with power commensurate with that responsibility. Personally I would prefer, were I not bound by my sacred oath of office, to be shorn of the responsibility for acts of others, and would not desire even that the power of appointment to office should rest with me, for among the most painful and trying duties of office have been those when I have been ceaselessly importuned and entreated to grant positions to worthy but rival candidates.

The appalling scandals at the Agnews State Hospital, which were revealed during several investigations of that institution, were of a character to show that the public welfare requires that full and summary power should be given the Governor to rectify as far as possible such infamous wrongs. Under the present condition of the law an officer once appointed for a definite term may be guilty of crime, continually dishonor his office, and enjoy the fruits of his malfeasance by resorting to the courts to defend his crimes. To illustrate the very limited authority vested in the Governor, I will state that a few months ago serious crimes were charged against an officer now holding the same State office, and a petition was forwarded to me by one of the members accusing him in direct language with flagrant crimes. Knowing that the power was not given me to investigate the charges, and if true, to right the wrong by removal of the officer, in order to silence a hostile press which had used this incident for political and personal ends, I requested the opinion of the Attorney-General, who replied in writing assuring me of my utter inability to remove any appointed officer whatever who held office for a definite term.

No spirit of partisanship has actuated me in this reasonable request for authority to remedy wrongs, but I am goaded altogether by a wish to fully serve the people of the State and to protect them from the misdoings of any officer without regard to political creed.

My distinguished predecessor in office, Hon. James H. Budd, who holds opposite political views, in his inaugural address called the attention of the Legislature to the necessity of granting the Governor this power of removal in the following very proper words:

"If the Governor is to be held responsible for the conduct of the departments whose incumbents he names, he should have the control of those functionaries. In this State we should either have a system of continuous tenure during good behavior, as under the civil service classification of the General Government, or else the appointing power, which, in the public mind, is held responsible for the conduct of the appointee, should be vested with authority to remove the appointee, in the language of the Constitution, 'for misconduct, incompetence, or neglect of duty, after an opportunity to be heard on written charges.'"

Again, in his first biennial message to the Legislature in 1897, the Governor, with the experience of two years in office, repeated these words, and urged the Legislature to pass a law of that character.

Still again, Governor Budd, on the very eve of his departure from office, when he could not possibly be benefited by the passage of such laws, unselfishly requested the Legislature to grant to the Governor this very necessary authority. If the Governor of this State is to be made the target where crimes are committed by appointees holding office for a definite term, it is but just that he should be equipped with the power to remove the guilty officer. No Governor could be found who would dare to misuse this solemn trust when once reposed in him by the people's representatives.

CONCLUSION.

The foregoing are some of many reasons which I hold in support of the grounds specified in the proclamation convening you in extraordinary session.

It is to be deplored that there are a few persons who, by reason of their own unworthy motives, attribute to me improper political purposes in assembling you together, whereas, in truth and in fact, I have merely obeyed the promptings of impartial duty and the mandates of the law.

If you shall conclude to pass the various laws suggested in the proclamation, there will thereby be saved to the State sums of money largely in excess of the expenditures which will be incurred on account of convoking this Legislature, even should the cost thereof exceed the high estimates of those who—false to the interests of their country—have bitterly assailed this call for an extra session.

Whether or not you differ from me as to the necessity of legislation in detail upon all of the topics suggested for legislation is to me unimportant, only as it affects our com-

mon country, for the responsibility now rests with your honorable body and not with me alone.

You will nevertheless agree that your duty absolutely requires that the business of the session be transacted with the utmost dispatch consistent with the gravity of the subjects involved.

Despite the malignant predictions, which through private malice have been published, that this extraordinary session would engulf the State in vast expense, my confidence in your sense of duty and in your ability, gained by a personal knowledge of your conduct of legislative affairs during the thirty-third session, bids me trust that this extraordinary session will be unexcelled in the history of the State, and worthy of future emulation.

Irrespective of your political views I believe in your honor, I believe in your ability, I believe in your integrity; and inspired by these beliefs I am assured that the duties which you owe to the people of the State and Nation will be economically, honestly, and ably performed.

So ordered.

SENATE JOINT RESOLUTION No. 5.

Relative to a so-called reciprocity treaty between this country and the British West India Islands, known as the Jamaica treaty.

WHEREAS, There is now pending in the Senate of the United States, for ratification, a so-called reciprocity treaty between this country and the British West India Islands, known as the Jamaica treaty; and

WHEREAS, The proposed reduction of duties upon the importations from these islands that come into competition with the products of the United States, apply only to sugar cane products, citrus fruits, and fresh vegetables, which are only produced in competing quantities by the States of Florida, Louisiana, and California; and

WHEREAS, The articles of export enumerated in said proposed treaty upon which a reduction of duty is obtained are neither produced or exported from either of the said States of Florida, Louisiana, or California, thereby entailing great loss to them without any corresponding benefits; and

WHEREAS, The citrus product of this State, amounting to over five millions of boxes, which will be doubled within the next decade, is handicapped by a freight rate to the principal centers of population and trade of ninety cents per box, which exceeds by fifteen cents per box the combined freight rate and the proposed import duty from the British West Indies; and

WHEREAS, The citrus products of these islands come directly into competition with the holiday trade, which is known to be the best of the entire year; and

WHEREAS, The entire imports of the island of Jamaica have never exceeded eight millions of dollars per annum, a large proportion of which is imported from England, owing to a preferential tariff rate; and

WHEREAS, At the request of this body and the petition of the citrus fruit-growers of this State, the fifty-fifth Congress fixed a tariff duty upon that product, placing it on an equality with the foreign production, in respect to the freight rate only; and

WHEREAS, The American producer is entitled to, and ought, by right, to enjoy the benefit of his home market, when fully able to supply the demand; therefore,

Resolved by the Senate of the State of California, the Assembly jointly, That it deprecates the attempt to disturb the present existing conditions of the tariff upon sugar, citrus fruits, and fresh vegetables, that it is an unequal and unjust hardship to sacrifice the interests of a few for the benefit of a very large majority; that the supposed benefits accruing to this country in its added proportion of the eight millions of dollars of trade with Jamaica, will not compensate it for the loss inflicted upon one item alone of California production; that the California producer is entitled to a protective duty as against foreign competition, at least equal to the difference in their several freight rates, and that the American producer should be maintained in his demand for the markets of his own country; and be it further

Resolved, That our Senators be instructed to vote against the ratification of said treaty, and that our Representatives in Congress be requested to use their influence and best efforts to accomplish its defeat.

Resolved, That a copy of these resolutions be telegraphed to the Honorable George C. Perkins by the Secretary of Senate, and that a copy be transmitted by mail to each of our Representatives in Washington.

The question being on the adoption of the resolution.

The roll was called, and Senate Joint Resolution No. 5 adopted by the following vote:

The Legislature of the State of California, at its thirty-third session, two thirds of all the members elected to the Senate and Assembly voting therefor, proposes to the qualified electors of the State of California, the following amendment to section eight of article eleven of the Constitution.

Section eight of article eleven of the Constitution is hereby amended so as to read as follows:

SECTION 8. Any city containing a population of more than three thousand five hundred inhabitants may frame a charter for its own government, consistent with and subject to the Constitution and laws of this State, by causing a board of fifteen freeholders, who shall have been for at least five years qualified electors thereof, to be elected by the qualified voters of said city at any general or special election, whose duty it shall be, within ninety days after such election, to prepare and propose a charter for such city, which shall be signed in duplicate by the members of such board, or a majority of them, and returned, one copy to the Mayor thereof, or other chief executive officer of such city, and the other to the Recorder of the county. Such proposed charter shall then be published in two daily newspapers of general circulation in such city, for at least twenty days, and the first publication shall be made within twenty days after the completion of the charter, *provided*, that in cities containing a population of not more than ten thousand inhabitants, such proposed charter shall be published in one such daily newspaper; and within not less than thirty days after such publication it shall be submitted to the qualified electors of said city at a general or special election, and if a majority of such qualified electors voting thereon shall ratify the same, it shall thereafter be submitted to the Legislature for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be made by concurrent resolution, and if approved by a majority vote of the members elected to each house, it shall become the charter of such city, or, if such city be consolidated with a county, then of such city and county, and shall become the organic

law thereof, and supersede any existing charter and all amendments thereof, and all laws inconsistent with such charter. A copy of such charter, certified by the Mayor, or chief executive officer, and authenticated by the seal of such city, setting forth the submission of such charter to the electors, and its ratification by them, shall, after the approval of such charter by the Legislature, be made in duplicate, and deposited, one in the office of the Secretary of State, and the other, after being recorded in said Recorder's office, shall be deposited in the archives of the city, and thereafter all courts shall take judicial notice of said charter. The charter, so ratified, may be amended at intervals of not less than two years by proposals therefor, submitted by the legislative authority of the city to the qualified electors thereof at a general or special election, held at least forty days after the publication of such proposals for twenty days in a daily newspaper of general circulation in such city, and ratified by a majority of the electors voting thereon, and approved by the Legislature as herein provided for the approval of the charter. The charter, so ratified, may be amended at intervals of not less than two years by proposals therefor, submitted by the legislative authority of the city to the qualified electors thereof at a general or special election, held at least forty days after the publication of such proposals for twenty days in a daily newspaper of general circulation in such city, and ratified by a majority of the electors voting thereon, and approved by the Legislature as herein provided for the approval of the charter. It shall also have appellate jurisdiction in every action, proceeding or special proceeding determined by any District Court of Appeal the record in which may, by order pursuant to the further provisions on these subjects hereinafter contained in this article, be directed to be transmitted to it. And in all cases in which the Supreme Court shall acquire jurisdiction it shall have further jurisdiction to decide all questions properly presented on the record, whether or not they be such as of themselves would entitle the court to take jurisdiction of the cause.

SECTION 3. The State is hereby divided into three appellate districts, in each of which there shall be a District Court of Appeal consisting of three Justices. There shall in each year be four regular sessions of each District Court of Appeal, commencing on the second Monday in February, May, August and November. The Justices of the District Courts of Appeal shall be elected by the qualified electors within their respective districts at the general State elections, at the times and places at which State officers are elected, and the term of office shall be twelve years from and after the first Monday after the first day of January next succeeding the election; *provided*, that on or before the first day of January after this amendment takes effect the Governor shall appoint three Justices for each District Court of Appeal, to hold office until qualification of Justices to be elected at the next succeeding general election. The Justices of each District Court of Appeal so elected at the first election shall, at their first meeting, so classify themselves by lot that one of them shall go out of office at the end of four years, one at the end of eight years, and the third at the end of twelve years. Whenever any Justice of the Supreme Court is for any reason disqualified or unable to act in a cause pending before it, the remaining Justices may select one of the Justices of a District Court of Appeal to act pro tempore in the place of the Justice so disqualified or unable to act. Whenever any Justice of a District Court of Appeal is for any reason disqualified or unable to act in any cause pending before it, the Chief Justice may appoint a Judge of a Superior Court, who has not acted in the cause in the court below, to act pro tempore in the place of the Justice so disqualified or unable to act. A Justice of one District Court of Appeal may at any time sit as a Justice pro tempore in any other District Court of Appeal upon the written request of any Justice of said court; every Justice pro tempore of the Supreme Court or of the District Court of Appeal, while acting as such, shall have the same power and authority as the Justice of such court.

The several District Courts of Appeal shall have appellate jurisdiction in every civil action, proceeding and special proceeding commenced and determined and (on questions of law alone) in every criminal action prosecuted by indictment or information in the Superior Courts within their several appellate districts, excepting only those actions, proceedings or special proceedings in which an appeal direct to the Supreme Court from the Superior Courts is expressly allowed by this article. The statutes now in force allowing, providing for and regulating appeals to the Supreme Court shall apply to appeals to the District Courts of Appeal so far as consistent with this article until the Legislature shall make provisions for appeals to said courts.

The judgments and decrees of the District Courts of Appeal shall be final in all causes embraced within their appellate jurisdiction, except in the following cases:

In any cause decided by a District Court of Appeal, if the decision of such Court of Appeal conflicts with a previous decision of the Supreme Court, or of another District Court of Appeal, the Supreme Court shall, upon petition to be filed within thirty days after entry of judgment in the District Court of Appeal, order the cause to be heard by the Supreme Court, and thereupon the record shall be transmitted to the Supreme Court, which shall hear and determine the cause.

The Supreme Court, or any Justice thereof, shall have power to issue writs of habeas corpus, and the Supreme Court shall have power to issue writs of mandamus, certiorari, and prohibition to the District Courts of Appeal, and shall likewise have power to issue all writs, orders, and process necessary or proper to the complete and effectual exercise of its appellate jurisdiction. It shall also have power to issue writs of mandamus, certiorari, and prohibition in any matter affecting a State, Congressional, or Presidential election. The District Courts of Appeal shall have power to issue within their respective districts writs of mandamus, certiorari, prohibition, quo warranto, and habeas corpus, and shall likewise have power within such districts to issue all writs and orders necessary or proper to the complete and effectual exercise of their appellate jurisdiction. Each Justice of the District Courts of Appeal shall have power to issue writs of habeas corpus to any part of the appellate district in which he sits, and any such writ may be made returnable before the Justice who issued it, or the court from which it was issued, or any Justice thereof, or before any lower court of record, or before any Judge thereof.

Unless oral argument be waived by the parties with the consent of the court, every cause and matter in the Supreme Court and in any District Court of Appeal (except such applications as may be made ex parte) shall be orally argued by the parties or their counsel in open court, but this shall not prevent the courts from requiring that the points to be argued and considered, together with a list of authorities to sustain such points, shall be printed and filed before a cause is taken up for argument. Not more than twenty cases (except ex parte applications) shall be under submission for decision at any one time in the Supreme Court or in any District Court of Appeal. All decisions of the Supreme Court and of the District Courts of Appeal shall be given in writing and the grounds of the decision shall be stated. A remittitur or mandate must issue on every judgment of said courts on or before the expiration of thirty days after the rendition thereof.

SECTION 4. The Supreme Court shall, upon the organization of the District Courts of Appeal, transfer to them respectively any causes then pending in the Supreme Court and which have not been heard as are within the class of causes over which such District Courts have appellate jurisdiction; and upon such transfer the District Courts of Appeal shall have full jurisdiction to hear and determine the same.

SECTION 5. The Superior Courts shall have original jurisdiction in all cases in equity, and in all cases at law which involve the title or possession of real property, or the legality of any tax, impost, assessment, toll, or municipal hue, and in all other cases in which the demand, exclusive of interest or the value of the property in controversy, amounts to three hundred dollars, and in all criminal cases amounting to felony and

cases of misdemeanor not otherwise provided for; of actions of forcible entry and detainer; of proceedings in insolvency; of action to prevent or abate a nuisance; of all matters of probate; of divorce and for annulment of marriage, and of all such special cases and proceedings as are not otherwise provided for. And said courts shall have the power of naturalization, and to issue papers therefor. They shall have appellate jurisdiction in such cases arising in Justices' and other inferior courts in their respective counties as may be prescribed by law. They shall always be open (legal holidays and non-judicial days excepted), and their process shall extend to all parts of the State, *provided*, that all actions for the recovery of the possession of, quieting the title to, or for the enforcement of liens upon real estate, shall be commenced in the county in which the real estate, or any part thereof affected by such action or actions, is situated. Said courts and their judges shall have power to issue writs of mandamus, certiorari, prohibition, quo warranto, and habeas corpus, on petition by or on behalf of any person in actual custody in their respective counties. Injunctions and writs of prohibition may be issued and served on legal holidays and non-judicial days.

SECTION 6. There shall be in each of the organized counties, or cities and counties, of the State, a Superior Court, for each of which at least one Judge shall be elected by the qualified electors of the county, or city and county, at the general State election; *provided*, that in the City and County of San Francisco there shall be elected twelve Judges of the Superior Court, any one or more of whom may hold court. There may be as many sessions of said court, at the same time, as there are Judges thereof. The said Judges shall choose, from their own number, a Presiding Judge, who may be removed at their pleasure. He shall distribute the business of the court among the Judges thereof, and prescribe the order of business. The judgments, orders, and proceedings of any session of the Superior Court held by any one or more of the Judges of said courts, respectively, shall be equally effectual as if all the Judges of said respective courts presided at such session. In the county of Los Angeles there shall be elected six such Judges; in the county of Alameda, four such Judges; in each of the counties of Sacramento and Santa Clara, three such Judges, and in each of the counties of San Joaquin, Sonoma, San Bernardino, Fresno, Humboldt, and San Diego, two such Judges. The term of office of Judges of the Superior Courts shall be six years from and after the first Monday of January next succeeding their election. If a vacancy occur in the office of Judge of a Superior Court, the Governor shall appoint a person to hold the office until the election and qualification of a Judge to fill the vacancy, which election shall take place at the next succeeding general election, and the Judge so elected shall hold office for the remainder of the unexpired term.

SECTION 7. In any county, or city and county, other than the City and County of San Francisco, in which there shall be more than one Judge of the Superior Court, the Judges of such court may hold as many sessions of said court at the same time as there are Judges thereof, and shall apportion the business among themselves as equally as may be.

SECTION 8. A Judge of any Superior Court may hold a Superior Court in any county, at the request of a Judge of the Superior Court thereof, and upon the request of the Governor it shall be his duty so to do. But a cause in the Superior Court may be tried by a Judge pro tempore, who must be a member of the bar, agreed upon in writing by the parties litigant, or their attorneys of record, approved by the court, and sworn to try the cause.

SECTION 9. The Legislature shall have no power to grant leave of absence to any judicial officer, and any such officer who shall absent himself from the State for more than sixty consecutive days shall be deemed to have forfeited his office. The Legislature of the State may, at any time, two thirds of the members of the Senate and two thirds of the members of the Assembly voting therefor, increase or diminish the number of Judges of the Superior Court in any county, or city and county in the State; *provided*, that no such reduction shall affect any Judge who has been elected.

SECTION 10. Justices of the Supreme Court, of the District Courts of Appeal, and Judges of the Superior Courts may be removed by concurrent resolution of both houses of the Legislature adopted by a two-thirds vote of each house. All other judicial officers except Justices of the Peace may be removed by the Senate on the recommendation of the Governor; but no removal shall be made by virtue of this section unless the reasons therefor be entered on the journal, nor unless the party complained of has been served with a copy of the complaint against him and shall have had an opportunity of being heard in his defense. On the question of removal the ayes and noes shall be entered on the journal.

SECTION 11. The Legislature shall determine the number of Justices of the Peace to be elected in townships, incorporated cities and towns, or cities and counties, and shall fix by law the powers, duties, and responsibilities of Justices of the Peace; *provided*, such powers shall not in any case trench upon the jurisdiction of the several courts of record, except that said Justices shall have concurrent jurisdiction with the Superior Courts in cases of forcible entry and detainer, where the rental value does not exceed twenty-five dollars per month, and where the whole amount of damages claimed does not exceed two hundred dollars, and in cases to enforce and foreclose liens on personal property when neither the amount of the liens nor the value of the property amounts to three hundred dollars.

SECTION 12. The Supreme Court, the District Courts of Appeal, the Superior Courts, and such other courts as the Legislature may prescribe, shall be courts of record.

SECTION 13. The Legislature shall fix by law the jurisdiction of any inferior courts

which may be established in pursuance of section one of this article, and shall fix by law the powers, duties, and responsibilities of the Judges thereof.

SECTION 14. The County Clerks shall be ex officio clerks of the courts of record in and for their respective counties, or cities and counties. The Legislature may also provide for the appointment by the several Superior Courts of one or more commissioners in their respective counties, or cities and counties, with authority to perform chamber business of the Judges of the Superior Courts, to take depositions, and perform such other business connected with the administration of justice as may be prescribed by law.

SECTION 15. No judicial officer, except Justices of the Peace and Court Commissioners, shall receive to his own use any fees or perquisites of office.

SECTION 16. The Legislature shall provide for the speedy and uniform publication of such opinions of the Supreme Court and of the District Courts of Appeal as may be ordered by said courts respectively, and all such opinions shall be free for publication by any person.

SECTION 17. The Justices of the Supreme Court and Judges of the Superior Courts shall severally, at stated times during their continuance in office, receive for their services a compensation which shall not be increased or diminished after their election nor during the term for which they shall have been elected, which compensation shall be paid by the State. SECTION 19. The Justices of the Supreme Court, of the District Courts of Appeal, and the Judges of the Superior Courts shall be ineligible to any other office or public employment than a judicial office or employment during the term for which they shall have been elected.

SECTION 20. Judges shall not charge juries with respect to matters of fact, but may state the testimony and declare the law.

SECTION 21. The style of all process shall be "The People of the State of California," and all prosecutions shall be conducted in their name and by their authority.

SECTION 22. The Supreme Court shall appoint a clerk of that court, but the present clerk of the court shall hold office until the expiration of his term of office, a phonographic reporter, and a bailiff, who shall severally hold his office and be removable at the pleasure of the court. Each District Court of Appeal shall appoint a clerk, phonographic reporter and bailiff, who shall severally hold his office and be removable at the pleasure of the court by which he is appointed. The Supreme Court shall appoint a reporter of decisions, who shall appoint an assistant reporter for each of the District Courts of Appeal. All of said officers shall hold office and be removable at the pleasure of the Supreme Court. The decisions of the District Courts of Appeal shall be published in the same volumes with the opinions of the Supreme Court under the same general title of California Reports; and all statutes in relation to the publication of the opinions of the Supreme Court shall be deemed to apply to the publication of the decisions of the District Courts of Appeal.

SECTION 23. No Judge of a court of record shall practice law in any court of this State during his continuance in office.

SECTION 24. No one shall be eligible to the office of a Justice of the Supreme Court, or of a District Court of Appeal, or of a Judge of a Superior Court, unless he shall have been admitted to practice before the Supreme Court of the State.

SECTION 25. No Judge of the Supreme Court, nor of a District Court of Appeals, nor of a Superior Court, shall draw or receive any monthly salary unless he shall take and subscribe an affidavit before an officer entitled to administer oaths that no cause in his court remains undecided that has been submitted for decision for the period of ninety days.

CONSIDERATION OF ASSEMBLY JOINT RESOLUTION.

ASSEMBLY JOINT RESOLUTION No. 1.

Relating to an application by the Legislature of the State of California to the Congress of the United States to call a convention for proposing amendments to the Federal Constitution on the question of the election of Senators in Congress.

WHEREAS, The present method of electing Senators of the United States has become unsatisfactory to a large majority of the people of the United States; and

WHEREAS, The several States, including California, have applied to the Congress of the United States for the submission, in the manner prescribed by the Federal Constitution, of an amendment thereto, providing that such Senators shall be elected by popular vote; and

WHEREAS, These applications, while receiving the favorable action of the National House of Representatives, have been made without success to the Senate of the United States; and

WHEREAS, The people of the State of California have, at an election by direct vote, declared almost unanimously in favor of the election of such Senators by the people; therefore, be it

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California hereby applies to the Congress of the United States, under article five of the Constitution of the United States, to call a convention for proposing amendments to the Federal Constitution on the question of the election of Senators in the Congress, and such other subjects as the public welfare may demand; and that a duly authenticated copy of the foregoing preamble and this application be forwarded to the Senate and House of Representatives of the United States, and to our Senators and Representatives in Congress.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, }
SACRAMENTO, February 9, 1900

To the Assembly of the State of California.

I have the honor to inform your honorable body that I have approved Assembly Bills Numbers Thirteen (13) and Twenty-two (22).

HENRY T. GAGE,
Governor of the State of California.

MOTION.

Mr. Caminetti moved that Assembly Joint Resolution No. 3 be recalled from engrossment.

So ordered.

CONSIDERATION OF ASSEMBLY JOINT RESOLUTION.

Mr. Caminetti moved that Assembly Joint Resolution No. 3 be now considered.

So ordered.

ASSEMBLY JOINT RESOLUTION No. 3.

Relative to Government lands containing petroleum, asphaltum, and other valuable minerals in paying quantities.

WHEREAS, Many thousands of acres of lands bearing petroleum, asphaltum, and other valuable minerals in paying quantities, situate in Kern, Fresno, and other counties of the State of California, have been returned by the United States Surveyor-General as agricultural lands; and

WHEREAS, Said lands are now being developed for the minerals they contain, and are producing, and will continue to produce, millions of dollars of wealth in such minerals, and thus building up an industry of immeasurable worth to the State of California; and

WHEREAS, Certain persons are now attempting fraudulently to acquire title to said lands as agricultural State lands, under an Act authorizing the State of California to take Government lands in exchange for State school lands, under an Act passed in February, eighteen hundred and ninety-one, and "relating to lieu lands to be selected by State or Territory," and also in exchange for forest reservation lands under an Act of June fourth, eighteen hundred and ninety-seven, and

WHEREAS, The sole purpose of such persons in acquiring said lands is for speculation, because of their value for oil and other minerals, and not for development purposes, thus retarding the growth of one of the most important industries in California, and thus thwarting the will of the people and the intent of our National Congress in granting certain rights to the holder of mining claims, and by high-handed robbery depriving thousands of miners of their holdings, the title to which has hitherto been held by the United States Government to be valid; therefore, be it

Resolved by the Assembly, the Senate concurring That our Senators be instructed, and our Representatives be requested, to use all honourable means to prevent the frauds which seem to be practiced upon the miners in this State, by securing the passage of such laws by the National Congress as will preclude the use of what is known as forest reservation land scrip to acquire title to these well-known mineral lands, a system now widespread here, and one of the most reprehensible known in the history of land-grabbing in California; be it further

Resolved, That the Chief Clerk of the Assembly be instructed to forthwith transmit by mail a copy hereof to our Senators and Representatives in Congress from the State of California.

Mr. Caminetti moved to amend as follows:

1. Amend by striking out the word "fraudulently" where it appears in the third preamble.
2. Amend by striking out the words "and thus," first line on second page, fourth preamble.
3. Amend by striking out the words "and by high-handed robbery" in the fourth preamble.
4. Amend by striking out all after the word "lands," line 7, page 2, ending with the word "California," in line 9.

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California has consented, and does hereby consent, that Truman Reeves, State Treasurer, may depart from the State of California at any time during the remainder of his official term as State Treasurer, and remain absent for a period not to exceed six months from and immediately succeeding the time of his departure.

ASSEMBLY JOINT RESOLUTION No. 3.

Relative to Government lands containing petroleum, asphaltum, and other valuable minerals in paying quantities.

WHEREAS, Many thousands of acres of lands bearing petroleum, asphaltum, and other valuable minerals in paying quantities, situate in Kern, Fresno, and other counties, of the State of California, have been returned by the United States Surveyor-General as agricultural lands; and

WHEREAS, Said lands are now being developed for the minerals they contain, and are producing, and will continue to produce, millions of dollars of wealth in such minerals, and thus building up an industry of immeasurable worth to the State of California; and

WHEREAS, Certain persons are now attempting to acquire title to said lands as agricultural State lands, under an Act authorizing the State of California to take Government lands in exchange for State school lands, under an Act passed in February, eighteen hundred and ninety-one, and "relating to lieu lands to be selected by State or territory," and also in exchange for forest reservation lands under an Act of June fourth, eighteen hundred and ninety-seven; and

WHEREAS, The sole purpose of such persons in acquiring said lands is for speculation, because of their value for oil and other minerals, and not for development purposes, thus retarding the growth of one of the most important industries in California, thwarting the will of the people and the intent of our National Congress in granting certain rights to the locator of mining claims, and depriving thousands of miners of their holdings, the title to which has hitherto been held by the United States Government to be valid; therefore, be it

Resolved by the Assembly, the Senate concurring, That our Senators be instructed, and our Representatives be requested, to use all honorable means to prevent the frauds which seem to be practiced upon the miners in this State, by securing the passage of such laws by the National Congress as will preclude the use of what is known as forest reservation land scrip to acquire title to these well-known mineral lands, be it further

Resolved, That the Chief Clerk of the Assembly be instructed to forthwith transmit by mail a copy hereof to our Senators and Representatives in Congress from the State of California.

COMMUNICATION.

Mr. Valentine announced the receipt of the following resolution, and desired it published in the Journal.

Request granted.

RESOLUTIONS OF PURCHASERS OF AGRICULTURAL LAND IN THE STATE OF CALIFORNIA,
PASSED AT A REGULAR MEETING THEREOF.

WHEREAS, A group of persons of varied occupations, calling themselves miners, have staked off, in the counties of Kern and Fresno, as oil claims, large bodies of agricultural land, amounting to probably a million of acres, with a view of holding the same for speculation; and

WHEREAS, Said locators have not discovered mineral on said lands, but wish to hold the same under color of the mineral laws, without cost to themselves of discovery of minerals, and

WHEREAS, Such claimants hope to hold said land for two years without work thereon or payment therefor, and thereby monopolize the sale thereof, and

WHEREAS, Said claimants are boisterously demanding sympathy for themselves through the press and from confiding public bodies to sustain them in their project of getting something for nothing; and

WHEREAS, Other citizens of the State of California have bought said lands from the Government, and have paid the Government price therefor, and are able for all purposes to develop the same on a perfect title thereto; and

WHEREAS, A man who buys a piece of property in California and pays for it is quite as reputable as one who seeks to obtain it without payment and without compliance with the law; and

WHEREAS, The Legislature of this State has been appealed to by said oil claimants, who have paid nothing and discovered nothing, to aid them to retain said land against the citizen who has paid therefor; and

WHEREAS, It is not consistent with the dignity of the Legislature to entertain an appeal to it to violate the mining or other laws of the country; and

WHEREAS, The General Land Office has jurisdiction of all questions relating to the disposition of public lands, and of the respective titles of claimants thereto; and

WHEREAS, It appears that said General Land Office has already decided against the contention of said oil claimants: now, therefore, be it

Resolved, That we have the utmost confidence in the integrity and wisdom of the Land Department of the United States, and of the courts, and therefore deprecate an appeal to public sentiment to violate or frustrate the law or to interfere with its tranquil and orderly administration.

Resolved, That a copy of this resolution be forwarded to the Legislature of California in answer to certain resolutions recently presented to said body by said so-called oil claimants.

Resolved, That this resolution be signed by the Secretary of this meeting.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA, {
SACRAMENTO, February 10, 1900. }

To the Assembly of the State of California:

In my message to your honorable body upon the first day of this session, I expressed my confidence in you, and now at its close you are to be congratulated, among other things, for the short duration of this session and its moderate cost.

You have passed laws recommended in my proclamation, which by reason of the inestimable advantages which will redound to the people, have fully warranted me in calling you together.

Obedient to the will of your constituents, you have sacrificed your personal preferences, to agree upon and select an able and worthy Senator to represent California in the United States Senate at a juncture most important to the people of the State and Nation—a juncture when the magnificent policy of our President is about to be judged by the people whom he has so faithfully and honorably served, and when Congressional approval of that policy is necessary to firmly maintain, as an inseparable part of our soil, the new American territory acquired by the valor of our soldiers and sailors in a just and glorious war.

There have been passed, pursuant to my proclamation, the requested amendments to the Political Code, which laws will soon result in most material improvement to the harbor of San Francisco, thereby inviting to our shores the shipping of the world, and this great public advantage will be gained without the levy of taxes or the issuance of bonds. You have enacted the laws for the improvement of the Sacramento, San Joaquin, Feather, and Tuolumne rivers, recommended in my proclamation, and have by this legislation guaranteed protection to the extensive area of agricultural land in the Sacramento and San Joaquin valleys.

By repealing Section 19 of Article III of "An Act to establish a State Lunacy Commission, to provide a uniform government and management of the State Hospitals for the Insane, and to provide for the care, custody, and apprehension of persons believed to be insane, and the commitment of insane persons, and providing for the transfer of unexpended appropriations of moneys and properties," approved March 31, 1897, as recommended in my proclamation, you have empowered the Lunacy Commission to reduce and regulate the cost of managing the State Hospitals for the Insane, which will enable the Commission to save to the people of the State, through their new schedule of salaries, upwards of sixty thousand dollars for the remaining three years of my official term, thus paying more than the whole expense of this extraordinary session.

Your labors being now at an end, I beg leave to thank you for your earnest assistance, and to bid you God-speed.

HENRY T. GAGE,
Governor of the State of California.

Ordered printed in the Journal.

MOTION.

Mr. Valentine moved to take up Senate messages.

So ordered.

MESSAGE FROM THE SENATE.

SENATE CHAMBER, SACRAMENTO, February 10, 1900.

MR. SPEAKER: I am directed to inform your honorable body that the Senate on this day refused to adopt Assembly Joint Resolution No. 1—Relative to application of Legislature of the State of California to Congress to call a convention to propose amendment to Federal Constitution on the question of election of Senators in Congress.

F. J. BRANDON, Secretary of Senate.
By F. L. THOMAS, Assistant Secretary.

FINAL REPORT OF COMMITTEE ON WAYS AND MEANS.

ASSEMBLY CHAMBER, SACRAMENTO, February 10, 1900.

MR. SPEAKER: As the duty of making provision for the expenses of this extraordinary session of the Legislature by proper appropriation bills falls largely upon the Committee on Ways and Means, the committee has deemed it proper, by way of final report, to submit the following brief statement, showing the total cost of the extra session:

<i>Senate.</i>	
Per diem and mileage.....	\$5,608 00
Pay of officers and clerks.....	2,633 00
Contingent expenses.....	1,353 49
	<hr/>
	\$9,594 49
<i>Assembly.</i>	
Per diem and mileage.....	\$11,261 40
Pay of officers and clerks.....	3,519 50
Contingent expenses.....	3,147 12
	<hr/>
	\$17,928 02
<i>Summary.</i>	
Senate.....	\$9,594 49
Assembly.....	17,928 02
Printing expenses, both houses.....	4,500 00
	<hr/>
	\$32,022 51

Your committee feels that in view of the splendid results accruing to the State from the labors of this session of the Legislature in the election of a United States Senator, in the passage of the San Francisco Harbor bills, repeal of the mining law, and repeal of the wide-tire bill, and other measures, the advantages to the State richly compensate for the small expense of the session.
