MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA
SACRAMENTO, April 8, 1925

To the Assembly of the State of California

Assembly Bill No 190 is returned herewith without my approval. This bill would permit actions for declaratory relief, as defined in sections 1060–1062 of the Code of Civil Procedure to be given preference in the matter of the setting of cases for trial. I have looked into this bill very carefully and have sought the advice of a number of jurists While the opinions are divided the preponderence of arguments are against the bill The fact that this bill has the endorsement of a committee of the State Bar Association has caused me to give it close study. I am giving a few of the opinions of leading judges of the courts who are best qualified to decide upon the merits of the bill.

One of the leading superior judges of the State, after conferring with two of his associates says "We do not believe there is any occasion for any such measure as Assembly Bill No. 190 We have enough preferred cases now without enlarging the list If there is any special reason for an immediate trial of a declaratory relief case we believe that any judge would accommodate the parties As far as conditions in this county are concerned, we think it a foolish piece of legislation"

A judge of long years of service of another county says, in commenting on this bill "It is proper to take into consideration the fact that the giving of such precedence to any case has the effect of setting back every case by so much It appears to me that the purposes sought by this bill can be accomplished under the present statute and that the bill is unnecessary"

Another judge of great experience says "I see no reason why such actions should be entitled to precedence over others, and it would result, in the present congested conditions of our calendars, in great disarrangement and inconvenience, because we are now setting cases as far ahead as May 1926, and these cases are scattered throughout that entire calendar in fifteen civil non-jury departments. So you can readily see the trouble it would occasion us to rearrange the entire calendar to meet the requirements of such a bill, if it became a law."

In many of the counties of California the courts are badly congested with litigation. This congestion is due in the opinion of jurists, to the fact that attorneys too frequently seek to litigate matters which a careful study of the law would prove to be unnecessary.

The present declaratory relief statute has encouraged the bringing of actions for the determination of questions which in many cases are actually moot. The congestion in the courts will be augmented if declaratory relief cases are allowed preference over other cases. At the present time the courts have more than enough preferred cases. There are several kinds of cases which must be preferred in the superior courts, and others which must be preferred in the higher courts.

While I regret to veto any bill that has the approval of the committee representing the State Bar Association, still the objections to this bill are so vital that I must return it without my approval.

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.

REPORT OF SPECIAL COMMITTEE.

The following report was received and ordered printed in the Journal:

Mr. Speaker, and Members of the Assembly.

Your committee appointed, pursuant to a resolution passed by this body January 24, 1925, "to investigate the various courses of study in, and the expenditures of the State teachers colleges, and to make a report concerning the same, upon the reconvening of the Legislature, such report to include any suggestions or any proposals the committee may have relative to courses of study or finances in the State teachers colleges," has performed that duty and offers the following report.

Teachers colleges in their organization occupy a very different place in the educational program from any other institution. Their whole plan and excuse for existence lies in the fact that they are established for training teachers. To this end they must necessarily have an equipment and faculty suited to work, which is fundamental, and of a distinctly special nature. It is necessary that student teachers have opportunity for practice work. The colleges must be equipped with model schools. These should be "model schools" in the fullest sense. Buildings and equipment for this purpose should be at least the average of the grammar schools of the State. They are provided with pupils from the grades of the cities from the kindergarten to the eighth grade. These pupils are gladly furnished by the cities because it is considered they have opportunity for receiving training under professional teachers, the immediate work being done by the student teachers. Further, the city is relieved from a measure of the support of this number of pupils. The training school is in fact the legitimate reason for the organization of teachers colleges and

is the most important part of their work They should be supported and equipped with the very best possible opportunities.

Requirements for entrance into these colleges are the same as for the State university. The application is made on the same blank. The academic work is designed to equal that done in the university, and it is the understanding of the committee that it should be of such nature and thoroughness as to completely fulfill the requirements for each of the years of the university. The curricula consists of:

1 The professional work, that which gives to the teachers college its status, aside from the training department, consists of the following branches required by the State Board of Education: General psychology, educational psychology, sociology, educational measurements, school administration, school law, educational objectives, civic education, government of the United States, biology, music, art and physical education

2. The practice teaching, or teacher training, consists of one hour per day actual teaching for one year. This includes the supervision of play and one to two hours conference per week.

The average age of the students is about 19. The course includes at the present time two and one-half years required work. The State Board of Education has advanced this to three years, which will take effect next September

In addition to the required hours for teaching, there are observation courses, which consist in the student teachers making observation of another teacher, and following this with group gathering in which they discuss the failures and the good points of work done under observation. Your committee is of the opinion that there should be, in some instances, additions to the faculties so that the training work may reach its highest efficiency. The practice teacher should be, for a very large part of her time, under direct observation by the supervisors

Your committee believes that the curricula as planned by the State Board of Education and carried out by the administration of the different schools, is adequate for successful training and development of students looking toward the teaching profession It meets all demands so far as the academic work is needed. It is adequate for the necessary practice work. The additional half year required will greatly strengthen it.

In some instances the work becomes somewhat cramped by the fact that there come into the schools for additional training those who have had experience in teaching without having taken a full course in a teachers training school or teachers college. In these instances, the faculty finds there is much to unlearn, and bad habits to overcome, and it is reported to be uneconomic. These instances are merely temporary and would be difficult to adjust satisfactorily. They are local administration problems.

These model schools are carried on, on the campus in each of the colleges. The equipment for these "model schools" varies to an extent almost unbelievable and does not reflect the interest in education that is suggested by the reputation of this State.

Summer sessions are conducted in all the colleges This is a value that should be developed to a liberal degree and receive greater encouragement. Certain of the colleges are conducting a commendable course of extension work. This enables teachers who are unable to enter the school proper to continue improvement under supervision and gain credits toward graduation.

There is in most of the schools a system known as "follow work," in which these colleges endeavor to follow the success or failure of those who are doing active work in different sections of the country. The method is, at the present time, conference with county superintendents and superintendents coming to the colleges to report on the teachers under their supervision There is also embodied in this a checking system. These have a large value and should have some added means to enhance them.

We append a brief statement of the physical properties as well as some statistics relative to the various colleges, and their needs.

We commend the interest and efficient manner in which the administrators of these schools are carrying on the work We are desirous of recording an impression, upon the Legislature, that this educational department excels in its importance all other lines of like work Here we lay foundations for our future educational development, and send to the schools those who are to shape the destinies and encourage the growth and development of the educational system and lay the foundation for character and worth among the children of the State.

Let us not lose sight of the fact that high schools, colleges and universities rest on the foundations laid by the grades.

If we are indifferent to these institutions they are not worth while. If they are carrying out the work, which is the highest ideal of an educational system, let us equip them with faculties, buildings, and grounds sufficient, and demand the highest standard.

Your committee was instructed to make some report on the text books used in these colleges. We have found that there is a variety of texts on the different subjects in nearly every school. This is as it should be. We commend this. The teacher is best able to do her work if she is permitted to equip herself with such

implements and texts as seem to fit her peculiar surroundings, her classes, and her ability to use those to the best advantage It would be a handicap to place in a system of schools such as this, a standardized list of books to be used at each institution. No harm can accrue from a variety of texts on different subjects, and without question, the work is best enhanced by a large freedom.

It is not possible in a report of this nature to offer any such detailed report as the subject deserves.

The committee has visited each one of these institutions and offers the following general suggestions

CHICO STATE TEACHERS COLLEGE.

The Chico State Teachers College is located quite close to the business center of Chico. It is doubtless one of the most fortunate of the State teachers colleges with regard to its lands The main building, although old, is very substantial, roomy, airy, and well equipped. There is, however, need for a room for a better developed library We approve all of the provisions in the budget for a $37,000 gymnasium and $5,000 for the summer school This institution is favored by the picturesqueness of its campus as well as the delightful location of its summer school, which is held at the base of Mt. Shasta. There seem to be sufficient facilities for the accommodation of its present enrollment. The building used for the training department is a two-story frame building, poorly furnished, with inadequate equipment for successful work

We commend the State for the acquisition of the Bidwell estate, adjacent to the campus, with the mansion thereon, now being used as a dormitory.

The enrollment at Chico is 460, of whom 25 per cent are men.

FRESNO STATE TEACHERS COLLEGE

Fresno State Teachers College was founded in 1911. It is located about one and one-half miles from the business center of the city on a tract of about fifteen acres This school is well housed and equipped Buildings are commodious and are capable of accommodating the present enrollment, and are so planned that they can be enlarged without impairing their appearance or general utility.

There is a good library, auditorium, training school assembly room with a capacity for seating 500 pupils, domestic science laboratories, art rooms, wood-working and iron-working and well organized training departments

This college is well equipped for its present needs, but for its future development it is in need of additional land, a tract of which now obtainable lying adjacent to the site. There appears to be special need for additional facilities for the training school. During the past two years there has been a handicap in this department At the present time more than forty students are doing practice teaching in the city public schools.

The college and the city are both fortunate in the organization of the Junior College department. This has added a large number of men to the enrollment from whom are recruited a large number of teachers

The city's fortunate part lies in the opportunity to have the college facilities within easy reach.

SAN JOSE STATE TEACHERS COLLEGE

The San Jose Teachers College is located within a few blocks of the business center of the city and is entirely surrounded by well built residences and highly improved property. Its campus is quite large, containing 26 acres, but has been somewhat over taxed by permitting the construction of the City High School on what was originally State property. This institution is one of the best equipped of all of the State teachers colleges, but in the past few years, it has increased so that it is reaching the limit of its capacity As an illustration, the enrollment for 1920-1921 was 577, 1923-1924, 1663 and for 1924-1925 to February 12th, 2027 of whom about 15 per cent were men. This school is especially well equipped in the teachers' training department. The work here is particularly attractive and efficiently administered. There are 500 children attending the training school on the campus. We desire, particularly, to call the attention to the old frame school building on the campus used for teacher training This houses almost the entire 500 children and the committee considers that it is a fire hazard that should have immediate attention. The Junior College course is attracting a very desirable number of students, a large number of whom are men.

The permanent buildings are beautiful well arranged and admirably suited for present needs Some of the departments are housed in temporary quarters and are in need of much to bring them to a standard of efficiency We approve the recommendations made in the budget for permanent improvements

HUMBOLDT STATE TEACHERS COLLEGE

Humboldt State Teachers College is located at Arcata It is the smallest in numbers of students enrolled and is located on a campus a half mile from the business center overlooking the bay, the ocean and the entire city. Here is located one good building, practically new and in an unfinished state. Portions of the class rooms have no floors and are not even enclosed It has, at the present time, a paper roof in very poor condition. The other buildings are frame and inadequate and not

sufficient for the uses to which they are put. This college has made requests for funds to complete the roof, which should not be denied, and also asks for the purchase of a certain portion of land lying immediately in front of and across the street from the main building. We recommend that the State secure this portion of land for the future protection of the institution. There is threatened a building program on this land which would greatly hinder the development of the school and the beauty of the surroundings. There is also a request for a gymnasium. The one in use at this college is a very small shed opened on one side by sliding doors and wholly inadequate for the proper training and development of teachers who are to go out to schools and carry the much needed physical training to the boys and girls of the State. The territory served by this college should be considered in the plans for its development. The increase in attendance speaks in its favor. Since 1921 the enrollment has been doubled. Last year the increase was 35 per cent. At present the enrollment is 216, of whom 42 are men. The faculty numbers 15.

A very attractive Junior College course is maintained, which adds to the strength of the curriculum.

SAN DIEGO STATE TEACHERS COLLEGE.

San Diego Teachers College is located well out from the business center of the city. The campus comprises_____acres.

The college building is very much in need of repairs, which are recommended in the budget. Other requests for improvements, including paving, building are necessary and should be granted.

There is particular need for new buildings for the training school. At present the department is housed in three separate units, not adapted to "model school" work. The physical education of the college is well provided for.

The capacity of the school appears to be reached now. The needs of the future should be planned at an early date. The enrollment consists of 477 men and 607 women. This is a very unusual proportion of men, due possibly to the attractive junior college courses offered, as well as to the success of the graduates from this college.

The increased attendance of 1924 over 1923 was: men, 29 per cent; women, 53 per cent.

The training school numbers 264, consisting of grades one to seven B. A portion of the training work is done in the city schools. This department is particularly well organized and is carrying on the work in a scientific manner, which is reflected in the unusual interest taken by the faculty and student body.

SAN FRANCISCO STATE TEACHERS COLLEGE.

This school is located on Haight street on a somewhat elevated position overlooking the city, the campus of which is inadequate for the complete development of this institution. In the opinion of the committee this school physically is in a pitiable condition. It is impossible in a short written report such as this to convey an idea of the very great needs of this center of education.

Its buildings are very old frame buildings and constitute a constant hazard on account of fire and are poorly heated, ventilated and lighted. There is nothing to add attractiveness to the place.

The heating plant, whose boilers were undergoing repairs during our visit, is located in the center of this wooden structure, which is considered extra hazardous under the best conditions.

Its halls are low and dark, some of the recitation rooms have been boarded up by some of the people themselves working in the school, and are portions or ends of halls and some are without outside windows. The equipment for scientific work is inadequate.

There is, however, one new building, the gymnasium, which is a credit to the institution.

The committee recommends that the State should at once prepare plans and specifications for an entire new plant with the exception of the new building heretofore mentioned, and for additional ground for a campus which is now available, and that as rapidly as money may be available, the old buildings to be razed and new buildings take their places.

We believe that any large expenditure in the way of reconstructing the old buildings is impracticable except of course such as may be necessary for immediate repairs to keep the institution running until such time as new structures can be built.

The committee further wishes to endorse the amount for permanent improvements in the present budget, providing the expenditure thereof fits into a plan for a complete new construction of the plant.

We desire to commend the cheery, hopeful and efficient manner in which the administration and faculty are carrying on here in the midst of surroundings really depressing in their nature.

The staff numbers 44. The courses are well planned and articulated, the training school well organized. This school needs your encouragement.

STATE TEACHERS COLLEGE, SANTA BARBARA.

The Santa Barbara College is located on a hill arising to a considerable height overlooking the city of Santa Barbara and the ocean.

It is very much cramped for room The soil is overlaid with large boulders and rocks, rendering it very difficult to prepare for buildings This school is very much in need of assistance in the way of physical improvements to make it possible to do efficient work. It particularly needs a gymnasium and a modern school building and some additional land There are approximately twelve acres lying adjacent which are available at this time

The school is without an auditorium Its present meetings are held in a temporary building used part of the time for a gymnasium

There is a very valuable collection of historical archives and other material which is housed in a shed adjoining the buildings. There should be some means provided to care for these

We desire to call special attention to the inadequate furnishing of the office of the president. This office consists of a portion of a porch partitioned off, and the furnishings are very inadequate, and insufficient provision is made to care for the records of the school. The office is not even furnished with a rug on the cement floor. We recommend that all of this have immediate attention

We recommend that the provisions for the appropriation for permanent improvements made in the budget be approved by the Legislature

The committee feels that the faculty and the student body of this institution are entitled to praise for the work that they have given to the school, free of charge, in the way of building a large new structure without cost to the State, excepting the material

The enrollment at Santa Barbara is about 400 The faculty numbers 34. The college is working at a very great disadvantage due to the overcrowded condition in all departments The training school particularly needs relief.

The work is well planned, the needs are apparent. The State should supply the opportunity to carry on

In addition to the special courses offered in the teacher's professional work in the seven colleges, the curricula are rich in provisions for cultural education, covering a wide range, in literature, science, mathematics, social sciences, fine and applied arts.

The State is rich in these colleges, and should and does expect a bountiful return in the way of additions to her teaching force commensurate to her investment.

Respectfully submitted.

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 9, 1925

To the Senate and Assembly of the State of California.

This is to advise you that I have signed the following bills.
Assembly Bills Nos. 186, 940, 107, 498 and 101.
Senate Bills Nos. 225, 106, 54 and 777.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 10, 1925.

To the Assembly of the State of California.

Assembly Bill No. 1170 is returned herewith without my approval. This bill amends the Street Improvement Act of 1903. Section 29 of the present act provides that when the street superintendent executes the deed to the purchaser of property which has been subject to the sale on account of delinquency, the deed is prima facie evidence of the truth of all of the matter recited therein. This section as proposed to be amended by this bill would make the deed prima facie evidence of the truth of all matters recited therein, but the deed instead of being prima facie evidence if title in the grantee would convey to the grantee "absolute title" to the lands described therein, free from all incumbrances except the lien for public improvement assessments. It does not seem that absolute title should be conveyed in such manner. A proviso in section 29 to the effect that "it shall have the same standing with reference to the liens for state, county and other taxes as does the lien for municipal taxes," is somewhat ambiguous.

It does not appear that there is any general need or request for the amendment to the present act in this particular, and for the reasons set forth I am returning the bill without my approval.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 10, 1925

To the Assembly of the State of California.

Assembly Bill No. 1171 is returned herewith without my approval. This bill amends the present street act and provides for a levy of assessments to meet the cost of street work and for the sale of property in the event of delinquency in the payment of assessments against it. The bill provides that delinquent taxes shall be collected and redemption shall be made in the manner provided in the case of State and county taxes as the law pertaining thereto existed on the first day of January, 1895. The law in that regard, as it existed on January 1, 1895, is no longer in effect. It was changed as noted by the Supreme Court in the case of Coleman vs. County of Los Angeles, 180 Cal. 714.

The statute may incorporate by clear reference the whole of a portion of another statute which is in existence, but the bill in question receives no vitality from reference to a law which does not exist. If this bill should become a law it would probably leave the amended act without provision for the collection of delinquent taxes or for the redemption of property sold for delinquency. Under these circumstances, it would appear to be for the best interests of municipalities that this bill should be returned without approval.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 10, 1925.

To the Assembly of the State of California.

Assembly Bill No. 1203 is returned herewith without my approval. This bill provides that in case of sales for delinquent taxes by an irrigation district such sale shall not be made for a sum less than the "reasonable market value of said property." The present law provides that the sale shall not be made for less than the "amount of the delinquent assessments, interest, penalties and costs."

To require the sale to be made for the "reasonable market value" would raise a question as to what was a reasonable value. These titles at best are tax titles, and hence are a hazardous investment. The Irrigation Districts Association of California does not approve this bill.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

J A BEEK, Secretary of Senate.
By J. T. MACDONALD, Assistant Secretary.

REPORT OF COMMITTEE ON FREE CONFERENCE.

The following report of Committee on Free Conference was received and read:

ASSEMBLY CHAMBER, SACRAMENTO, April 10, 1925

MR. SPEAKER Your Committee on Free Conference concerning Senate Bill No 312—An act to amend section 6 of an act entitled "An act to protect domestic live stock from contagious and infectious diseases, to prescribe the duties of officials to carry into effect the provisions of this act, to provide for the appointment of a veterinarian, and to repeal an act entitled "An act to protect domestic live stock from contagious and infectious diseases, to provide for the appointment and duties of officials to carry into effect the provisions of this act, and to provide an appropriation therefor," approved March 18, 1899, as amended, approved June 3, 1921, and to add two new sections to be numbered 4a and 7 respectively, relating to the control and eradication of certain destructive infectious diseases of animals whenever discovered in this State, providing for the payment for animals and property destroyed in order to suppress certain destructive infectious diseases, providing for penalties for violation of the provisions of this act, and declaring the urgency of said act—reports that it has met a like committee of the Senate, consisting of Senators Powers, Jones and Inman, and reports that the Committee on Free Conference has agreed to recommend the following. That the Senate concur in the Assembly amendments and that the bill be further amended as follows:

AMENDMENT NUMBER ONE.

On page 3, line 42, of the printed bill, as amended in Assembly on April 6, 1925, add the following

SEC. 3 A new section is hereby added to said act to be numbered section seven and to read as follows:

SEC. 7. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of section one of article four of the constitution of the State of California, and shall take effect immediately.

The facts constituting such urgency are as follows:

Foot and mouth disease exists among the deer in the Stanislaus National Forest and until it is completely eradicated it is liable to be transmitted to domestic animals from time to time. If any legal obstacles prevent the maintenance of adequate quarantine or the destruction of infected animals the disease will spread among other animals to such an extent as to cause serious injury to the live stock industry of this state. Such a condition would also result in severe injury to general business from the establishment of embargoes by other states.

JACOBSON,
GRAVES,

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 13, 1925.

To the Senate and Assembly of the State of California.

This is to advise your honorable bodies that I have signed the following bills.

Senate Bills Nos. 260, 65, 148 and 11

Assembly Bills Nos. 1206, 563 and 646.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 13, 1925.

To the Assembly of the State of California

Assembly Bill No. 144 is returned herewith without my approval. This bill amends section 583 of the Code of Civil Procedure, and provides that where a plaintiff after procuring the entry of a default, neglects for five years to cause judgment to be entered, the court must on motion of the defendant, dismiss the action. This bill ignores the distinction between the class of cases where it is proper to enter a several judgment against one or more of the defendants, leaving the action to proceed against the others. If the proposed amendment should become a law, circumstances might arise which would make it possible for an injustice to be done the plaintiff in certain cases.

I have submitted this bill to a number of eminent jurists who are of the opinion that it would result in more harm than good.

There does not appear to be any interest in this bill.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 13, 1925.

To the Assembly of the State of California

Assembly Bill No. 820 is returned herewith without my approval. This bill amends section 1207 of the Code of Civil Procedure, and provides that where a claim for wages has been filed by the officer levying the writ of attachment or execution, and the same is disputed by the filing of a verified statement, the official must mail to the claimant whose claim is disputed a notice to the effect that his claim has been contested and that he must bring a civil action to establish the same within ten days from the date on which said notice was mailed. I doubt if the provisions in this bill for the notice by mail for ten days to the laborer would be sufficient in all cases. Suppose that the attachment or execution were levied in San Francisco, and the work for the debtor is done in Imperial County, the laborer might not receive the notice by mail in ten days, but notwithstanding, under the proposed law, his claim to priority is forever lost whether he receives the notice or not. It is the general policy of the law in judicial proceedings to allow an additional day for each 25 miles of distance when a notice is sent by mail. (Code of Civil Procedure 1013.)

There appears to be no general demand for this bill and several valid objections have been filed.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

"SECTION 1. The title of an act entitled 'An act to provide for the incorporation and organization and management of bridge and highway districts and to provide for the acquisition and construction by said districts of bridges and approaches thereto, and for the acquisition of all property necessary therefor, and also to provide for the issuance and payment of bonds by said districts, for the levying of taxes and the collection of tolls by said districts and for the annexation of additional territory thereto,' approved May 25, 1923, is hereby amended to read as follows: 'An act to provide for the incorporation and organization and management of bridge and highway districts and to provide for the acquisition and construction by said districts of highways, bridges and approaches thereto, and for the acquisition of all property necessary therefor, and also to provide for the issuance and payment of bonds by said districts, for the levying of taxes and the collection of tolls by said districts and for the annexation of additional territory thereto.'

SEC. 2. Section three of said act is hereby amended to read as follows:

Sec. 3. Such petition which may consist of any number of separate instruments shall be presented to the secretary of state, signed by qualified electors, residing within the boundaries of the proposed bridge and highway district, equal in number to at least ten per centum of the number of such qualified electors in each county from which such petitions are presented voting for governor of this state at the last general election prior to the presentation of such petition. The board of supervisors of any county may, in lieu of proceeding by petition, call an election, as provided for the calling of special elections under the laws pertaining thereto, to be held in conformity therewith, where and when the same may be determined by a majority vote of the electors voting thereat.

Such petition shall set forth the extent of the district, either by describing its exterior boundaries, or by naming the counties proposed to be included therein, as having been determined by said ordinance and in case only part of any county is proposed to be included therein, the extent of the part of the county included may be indicated by naming the county and excepting therefrom, some administrative or governmental subdivision or subdivisions thereof, such as townships, school districts or other similar subdivisions, or such excluded portions may be described by its boundaries, and in any of said descriptions of included or excluded territory, reference to recorded instruments may be made for the purpose of defining such boundaries, and shall contain a prayer that such proposed bridge and highway district be incorporated under the provisions of this act. Attached to each of the petitions shall be a copy of the said ordinance. The said ordinance may be enacted by the board of supervisors at any time after application shall be made to them for such purpose, but in case such board shall neglect to act upon such application for a period of sixty days thereafter, the said ordinance may be submitted to the electors of such county or city and county under the provisions of the initiative applicable thereto. In case said ordinance shall be passed by the board

of supervisors, it shall be subject to the referendum provisions applicable to ordinances generally in such county or city and county. The said petitions from any county shall be grouped or fastened together and shall contain a certificate of the county clerk of such county that the same contains the requisite number of qualified signatures of qualified electors. The said county clerk shall have ten days time for the examination of such petitions when left with him for verification and it shall be his duty to verify the same, attach his certificate thereto within said period of time and forward the same to the secretary of state with his certificate that the same is sufficient and if from such examination he shall find that said petition is not signed by the requisite number of qualified electors residing within his county he shall also certify to the number of qualified electors required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within twenty days from the date of such certificate, either by the same persons theretofore appointed to secure signatures, or by other persons appointed by the board of supervisors for that purpose. The county clerk shall within ten days after the filing of such supplemental petition or petitions make like examination of the same and certify to the result of such examination as hereinabove provided. If his certificate shall show any such petition or said petition as amended to be insufficient it shall be filed by him with the secretary of state and kept by him as a public record without prejudice however to the filing of a new petition to the same effect, but if, by the certificate of the county clerk such petition or said petition as amended is shown to be sufficient the county clerk shall present the same to the secretary of state without delay. If any supplemental petition be filed all of the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of qualified electors signing the petition. In case an election is had in any county in the place of said petition, the county clerk shall certify to the secretary of state the result thereof, with a copy of the action of the board of supervisors authorizing said election.

After the certificate is issued by the secretary of state for the incorporation of such proposed bridge and highway district, the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned. If any county within the boundaries of such proposed bridge and highway district shall have a registrar of voters other than the county clerk the said registrar of voters shall perform the duties herein required to be performed by the county clerk respecting the examination, certification and filing of the petition, and said registrar of voters shall return said petition immediately upon the completion of such examination, together with his certificate showing the result of such examination to the secretary of state. When all of said petitions, or certifications of the result of elections when such elections are held, have been received from the several county clerks of counties having any portion of their territory within said proposed bridge and highway district the said secretary of state shall publish the text of such petition for at least three weeks before the time set by him as the time up to which protests may be received as hereinafter provided in at least one and not to exceed three newspapers printed and published in each of the counties from which such petitions have been presented, together with a notice stating the time which he has fixed up to which protests will be received against the inclusion of property within such proposed bridge and highway district. The names attached to said petition need not be published therewith, nor the certificates of any of the county clerks or registrars of voters, but it shall be sufficient to state that the same has been signed by a certain number of electors, naming it, and duly verified by such county clerks or registrars of voters.

At any time before the time set by the secretary of state up to which protests may be received, any owner of property subject to taxation within said proposed bridge and highway district, may file, with the secretary of state, his protest in writing against the formation of such district, and stating therein such grounds as he may have for claiming that his said property, or any portion thereof, will not be benefited by the formation of the proposed bridge and highway district. The said protest shall contain the name and address of the person protesting and the name and address of his attorney, if he has one, and all of the protests so received by the secretary of state shall, with the petition filed from the county, be forwarded by the secretary of state to the superior courts in the respective counties from which the same have been received by the secretary of state, and thereupon the said superior courts shall acquire jurisdiction to hear and determine the said protests so received from the owners of lands located within their respective counties. It shall be the duty of the clerk of said superior courts to set the said matters for hearing before said court, and to give ten days notice thereof in writing to the protestants, and to any person who shall have filed with the secretary of state his name and address as the attorney for the petitioners in said petition, which said attorneys' names and addresses shall also be certified from the office of the secretary of state to the respective county clerks at the time of the transmission of the petitions thereto. At the time specified in such notice, or at such other time to which the said hearing may be continued, the said superior courts shall have jurisdiction to hear and determine all matters urged by the protestants against the formation of the said proposed bridge and highway district, or against the inclusion of their lands therein,

and the said superior courts shall have jurisdiction to exclude the said lands from said proposed district, together with any other lands contiguous to the excluded lands and contiguous to the exterior boundaries of the proposed district which are similarly situated to the lands of the protestants, to the end that isolated tracts may not be excluded from the district without also rectifying the boundaries thereof so that the district when finally formed shall be compact, continuous and without tracts of land excluded therefrom which are totally surrounded by other lands which are left within the district.

The judgment of the said superior courts, when given shall be certified by the clerk to the secretary of state, together with the original petitions and protests theretofore transmitted to him by the secretary of state, and the said judgment shall not be appealable and all questions of fact therein contained shall be final and conclusive upon the whole world, and shall only be subject to review by the supreme court of this state, upon a writ of review issued out of that court in such cases as writs of review are now permissible against superior courts, or the irregular exercise of the jurisdiction of such courts. Such proceedings for a writ of review must be taken within ten days after the entry of the judgment in the superior courts, and if not so taken all judgments of the superior courts shall become final.

When all of the protests have been disposed of as hereinabove provided, and the results of the judgments therein certified to the secretary of state, the secretary of state shall thereupon issue his certificate of incorporation declaring the said district with the boundaries as finally established to be duly incorporated, formed and organized and shall file the same in his office and cause a certified copy thereof to be recorded in the office of the county recorders of each of the counties situated within or partially within said proposed bridge and highway district.

In case the board of supervisors of any county named in the petitions from other counties engaged in the formation of a bridge and highway district shall fail or neglect for sixty days after the application submitted to them, to pass such ordinance, and a period of more than sixty days thereafter shall elapse without any proceeding for passing such ordinance under the provisions of law relating to the initiative being on file with the county clerk or registrar of voters, the latter must upon receipt of an affidavit of an elector of the county, setting forth the date of making the original application to the board of supervisors and the failure of such board to act thereon for sixty days thereafter, issue his certificate to the secretary of state attached to such affidavit certifying that on the date of the issuing thereof no proceedings have been filed in his office to submit such ordinance to the electors under the provisions applicable to the initiative and must forthwith transmit such certificate and affidavit to the secretary of state and the latter shall file the same, and the county from which such affidavit and certificate have been received by the secretary of state shall be excluded by him from the proposed district in the same manner as if the same had been excluded by order of the superior court. In case an ordinance declaring it the intention of a county to become part of the bridge and highway district has been submitted to the people and has failed of passage, such fact must also be certified to the secretary of state by the county clerk, and such county must be excluded from the district. In case of the exclusion of a county by the method in this section provided, and other county from which sufficient petitions have been received to become a part of the district, but separated from the remainder of the counties of the proposed district by such excluded county or counties, must not be excluded from the district but shall be included therein.

SEC. 3. Section four of said act is hereby amended to read as follows:

SEC. 4. The secretary of state shall also within five days after the issuance of such certificate notify the boards of supervisors in each of the counties in which any portion of the territory of the district is located, of the formation of such district, and thereupon and within thirty days thereafter each of the boards of supervisors shall appoint a person or persons as hereinafter provided, to act as a board of directors of the district as follows: One director for each county having a population of forty thousand or less; two directors for a county having a population over forty thousand and not more than one hundred thousand; three directors for a county having a population of more than one hundred thousand and less than five hundred thousand; and five for a county or city and county having a population of five hundred thousand and over; *provided*, that in any county or city and county having a population of more than five hundred thousand the number of directors appointed shall be equal to the total number of directors appointed from all of the counties or cities and counties within the district having a population of less than five hundred thousand. All directors shall hold office until the appointment and qualification of their successors, but any director may be removable for cause by the board of supervisors appointing him, if notice is given and a hearing is had upon the nature of the complaint against him. The term of office of directors appointed under the provisions of this act shall be four years from and after their appointment; *provided* that the first board of directors shall by lot classify themselves so that one-half of their number shall hold office for two years only, and if the number of such directors at the time of such classification be an odd number then the odd member of said

board shall also hold office for the two years, at which time the boards of supervisors shall reappoint their successors for a full term of four years. Vacancies in the board shall be filled for the unexpired term by a like appointment by the said boards of supervisors. The board of directors shall be the governing body of such bridge and highway district and it shall hold its first meeting on the call of the secretary of state within two weeks after the boards of supervisors have made the appointments herein provided to be made. Said appointments shall be by resolution of said boards and certified to the secretary of state. The secretary of state shall designate an appropriate time and place of meeting for the first meeting of the board of directors. The board of directors shall choose one of its members to act as president, and shall also choose a secretary, who shall not be a member of the board and shall thereupon provide for the time and place of holding its meetings, and the manner in which its special meetings may be called. All meetings of the board of directors, whether regular or special, shall be open to the public. A majority of the board of directors shall constitute a quorum for the transaction of business. The board of directors shall establish rules for its proceedings.

SEC. 4. Section twenty-one of said act is hereby amended to read as follows:

Sec. 21. If the revenues of the district are, or in the judgment of the board of directors, will probably be inadequate for any cause to pay the principal or interest on any bonded debt of the district, as it becomes due, the board of directors must cause a tax to be levied as herein provided sufficient to provide for such deficit and to pay the amount of such principal and interest as the same becomes due, except that until the operation of the works of the district has commenced, and the same commence to yield a revenue, the interest on the bonded debt shall be paid out of the principal obtained from the sale of the bonds, and after the operation of its works no taxes shall be levied except for deficits, either actually incurred or estimated for the fiscal year in which the same are levied. If from any cause the revenues of the district shall be more than adequate to pay all of the expenses of the district for the current year and surplus shall be divided by the directors of the district, and apportioned to the respective counties within the district in the proportion which the assessed value of property within such county, city and county or parts of counties within the district bears to the total assessed value of property within the district.

SEC. 5. Section twenty-three of said act is hereby amended to read as follows:

Sec. 23. Any county, city and county, or any portion of either or both may be added to any bridge or highway district organized under the provisions of this act, at any time, by applying to the board of directors and securing the consent of such board by resolution duly adopted by it. Such application shall be made by the board of supervisors of such county in the form of an ordinance applying for permission to become a part of such district. In case the consent of the board of directors is obtained after any bonded debt of the district has been authorized the board of supervisors of such applying county must call an election at which the proposition to join the district and assume the obligation of the bonds of the district along with the territory already included therein, shall be submitted to the electors as one proposition, and unless such proposition receives two-thirds of the vote cast at such election such county shall not be annexed to the district. If, however, the proposition shall carry by more than two-thirds of the vote cast at such election the result of such election shall be certified to the secretary of state by the county clerk of such county and thereupon the secretary of state shall give notice and call for protests in the same manner as upon the original formation of the district. If the district has not incurred a bonded indebtedness at the time of such application by the board of supervisors to join the same, the county may be annexed by passing an ordinance declaring its intention to join the district and upon petition presented in the manner herein provided for the organization of such bridge and highway district, which petition shall be in a like manner presented to the secretary of state who shall give notice of the presentation thereof and of the date set for receiving protests against the same in the same manner as in the case of the original petitions, and all of the provisions hereof which are applicable to original petitions shall be applicable to petitions for annexations. After all protests have been disposed of in a like manner as upon the formation of the district, the secretary of state shall issue his certificate certifying to the annexation and describing the boundaries as finally determined, which certificate shall be recorded in the office of the county recorder of each county wherein any portion of the annexed territory is located, and thereupon the boards of supervisors of such county or counties shall appoint a member or members of the board of directors to serve until the expiration of the term of the directors then holding for the term of office that will soonest expire. From and after the date of the original certificate of incorporation of a bridge and highway district the said bridge and highway district shall be deemed to be incorporated with all of the rights, privileges and powers set forth in this act, and necessarily incident thereto, and from and after the date of such certificate of annexation by the secretary of state the territory named therein shall be deemed added to and form a part of the said bridge and highway district, with all of the rights, privileges and powers set forth in this act and necessarily incident thereto. In case any annexation of any county, city and county or portion of either is proposed to be made to any bridge and

highway district already organized the board of directors of such bridge and highway district shall have full power to prescribe terms upon which the territory proposed to be annexed shall be admitted, including the payment of a just proportion of the organization and preliminary expenses originally incurred by the district; and, no such county or city and county, or portion of either, shall be admitted without first complying with such terms."

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 14, 1925.

To the Assembly of the State of California.

I have signed Assembly Bill No. 121, making slight changes in the salaries of the officials of Lassen County. The bill provides that the deputies of county officers shall be subject to the dictation of the board of supervisors. As an example, the bill in providing a deputy for the county clerk says: "He shall appoint said deputy, with the consent of the board of supervisors as manifest by not less than a three-fourths vote of the members thereof; said board may dismiss the said deputy at any time that he shall in its opinion fail to satisfactorily perform the duties of his office."

The sections regarding the sheriff, tax collector and assessor contain the same provisions.

I would have returned the bill without approval on account of these provisions in the bill had it not been for the fact that these objectionable provisions have been in the law for several years. It seems to me an unwarranted and dangerous interference with the duties of county officials elected by the people to place the power of appointment and removal of their deputies in the hands of supervisors. The fundamental purpose of electing county officials and supervisors is to have diversified authority and not place a dictatorship in the hands of anyone. The author of the bill agrees with me.

I am calling attention to this matter in the hope that at the next session these objectionable provisions may be removed from the law.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 14, 1925.

To the Assembly of the State of California

Assembly Bill No. 460 is returned herewith without my approval. This bill amends section 1777 of the Code of Civil Procedure so as to permit the guardian of a minor to execute an incumbrance upon the real property of the ward and secure it by a deed of trust. The present law permits only the mortgaging of such property. Estates of minors should not be placed in jeopardy by being subjected to forced sale under deeds of trust. Sufficient money can be raised by mortgage with right of redemption. This bill would break down a valuable safeguard placed in the law to protect minors.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 14, 1925.

To the Assembly of the State of California.

Assembly Bill No. 195 is returned herewith without my approval. This bill amends section 53 of the Code of Civil Procedure relating to new trials. The present section provides that "the Supreme Court may affirm, reverse, or modify any judgment or order appealed from, and, may direct the proper judgment or order to be entered, or direct a new trial or further proceedings to be had." This bill adds the words "or District Court of Appeal." This bill also adds to section 63 these words "The court may direct a new trial as to some of the issues, and not as to others; and may in cases where the issues are separable, direct a new trial only as to those issues upon which a new trial is necessary".

As this bill has the endorsement of the legislative committee of the California State Bar Association, I have given it very careful consideration and have conferred with eminent jurists as to its merits. The words "or District Court of Appeal" as added in the first line of the amendments proposed in this bill, add nothing to the existing law, because the constitution, article VI, section 4, provides "All statutes now in force allowing, providing for or regulating appeals to the Supreme Court shall apply to appeals to the District Court of Appeal so far as such statutes are not inconsistent with this article and until the Legislature shall otherwise provide."

The Supreme Court and appellate courts have always exercised the power to direct a new trial as to one or more issues, leaving the findings of the trial court to stand as to other issues. There are numerous decisions on this point, among them being

San Diego Land etc Co. vs. Neale, 78 Cal. 63; Goodlett vs. St. Elmo Investment Co., 94 Cal 297, Duff vs. Duff, 101 Cal. 1; Mayberry vs. Whittier, 144 Cal. 322, Glassell vs Hansen, 149 Cal 511, Robinson vs Muir, 151 Cal 118; Pearsall vs Henry, 153 Cal. 314; Coleman vs Coleman, 23 Cal. App. 433; Gilmore vs Caswell, 43 Cal App Dec 175, 224 Pac. 249.

From the foregoing it appears that the amendments add nothing to the existing powers of the court, and possibly some contention might arise as to what is meant by the clause, "cases where the issues are separable."

The amendments proposed to the present law are, in the opinion of distinguished jurists who have looked over this bill, unnecessary and liable to give rise to contentions.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

the county, as shown by affidavits of one or more of the petitioners, shall present to the superintendent of schools who has jurisdiction over said elementary school district or districts, or a majority thereof, a petition asking for the organization of a union high school district, or joint union high school district, as the case may be, to include all of the elementary school districts represented in said petition, and shall specify in said petition the name of the proposed union or joint union high school district, the county superintendent of schools shall, within twenty days after receiving said petition, verify the signatures thereto, and if he finds them sufficient, call an election for the determination of the question, and shall appoint three qualified electors in each of the districts petitioning to conduct the election therein. Said election shall be held separately and simultaneously at a public school house in each of the districts petitioning, and shall be called by posting notices thereof in three public places in each district, one of which places shall be a public school house thereof, at least two weeks before the election, and by publishing such notice at least once a week for two successive weeks in a newspaper of general circulation published within said proposed union or joint union high school district, if there be such a newspaper, the first publication to be not less than two weeks before the election. Said election shall be conducted by the officers appointed for that purpose, in the manner provided by law for conducting elections of school trustees. The ballots used at such election in each district shall contain the words "Union high school district—Yes" and "Union high school district—No," or "Joint union high school district—Yes" and "Joint union high school district—No," as the case may be and electors voting at such election shall make a cross with pencil, ink or rubber stamp, after the answer they desire to give. It shall be the duty of the said election officers in each district to canvass the vote of said election as soon as the polls are closed, and report the result to the superintendent of schools within five days subsequent to the holding of said election. Within ten days after receiving the returns of said election, the superintendent of schools of the county or in case of a joint union high school district the superintendent of the county who would have jurisdiction over the joint school district proposed to be formed shall combine the votes "for" and "against" the formation of the union or joint union high school district and declare and record the result, with the details of the vote in each district, in a book kept by him for that purpose. If a majority of the votes cast at the election are in favor of the formation of the union or joint union high school district, he shall also file, with the county clerk of the county, or of each county in which any part of the elementary school districts are situated, a certificate showing the total number of votes cast in each district in favor of the union or joint union high school district, the total number of votes in each district against the union or joint union high school district, the aggregate result of said election and the boundaries of said proposed district. The order of the board of supervisors excluding such elementary school districts from a union or joint union high school district shall be entered by the clerk of the board of supervisors in his record of high school districts, and he shall also send a copy thereof to the county clerk of each county in which any part of such high school district is situated and said county clerk shall enter it in his record of high school districts. The board of supervisors, after making the order of exclusion, shall make an order establishing the union or joint union high school district asked for in the petition, and the county clerk shall record the certificate of the county superintendent of schools and the orders of the board of supervisors in full in his record of high school districts.

If it shall appear that the withdrawal from a union or joint union high school district of one or more elementary school districts of said union or joint union high school district should cause one or more of the elementary school districts already a part of the said union or joint union high school district to be other than contiguous to the original union or joint union high school district, then the elementary district or districts placed in this position of not lying contiguous to the original district shall have the right to remain in the original union or joint union high school district or join with the newly formed high school district, or the elementary district or districts that are withdrawing from the original union or joint union high school district. Whenever the majority of the heads of families or electors residing in said elementary district or districts as shown by the affidavits of one or more of the petitioners shall present to the superintendent of schools, who has jurisdiction over said elementary school district or districts or a majority of them a petition asking that the district or districts may have the right to vote whether they will elect to remain in the original union or joint union high school district

or join with the new high school district that is organized from the district or districts withdrawing from the original union or joint union high school district, and the county superintendent of schools shall within twenty days after receiving said petition, verify the signatures thereto and if he finds them sufficient shall call an election as provided in this section, the ballots used at such an election in each district shall contain the words, "present union or joint union high school district", "Yes" and "present union or joint union high school district" "No" and the words, "new high school district", "Yes", and "new high school district" "No" and the voter shall have the right to mark his ballot as provided in this section for one only each of the two questions contained on the ballot."

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California.

Assembly Bill No. 466 is returned herewith without my approval. This bill amends section 2713 of the Political Code The present section provides that "no bridge, the cost of construction or repairing of which will exceed the sum of $500, must be constructed or repaired except on order of the board of supervisors." This bill amends the above provision by inserting $1,000 in lieu of $500 It does not seem wise that the powers of the boards of supervisors should be abridged in this manner.

Respectfully submitted

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California.

Assembly Bill No. 196 is returned herewith without my approval. This bill adds section 1900*a* to the Code of Civil Procedure and relates to the proof of statutes. It provides that "printed books or pamphlets purporting on their face to be the session laws or other statutes of any of the United States or the territories thereof, or of any foreign jurisdiction and to have been printed and published by authority of any such state, territory or foreign jurisdiction, or proved to be commonly recognized in its courts, shall be received in the courts of this State as prima facie evidence of such statutes."

There is at present a section of the Code of Civil Procedure applying to this subject which reads as follows: "Books printed or published under the authority of

a sister state or foreign country, and purporting to contain the statutes, code, or other written law of such state or country, or proved to be commonly admitted in the tribunals of such state or country as evidence of the written law thereof, are admissible in this State as evidence of such law."

If any new legislation is to be added on the subject of proof of statutes it would have been more logical to have amended section 1900 than to add a new section to the code which is at variance to it. The present provisions in the code seem to be ample to cover the question. To broaden the section as proposed in this bill will be to invite fraud by the introduction of spurious pamphlets. This bill appears to be an unnecessary tinkering with the codes, and jurists with whom I have discussed the matter doubt the advisability of the bill.

A similar bill was introduced in 1923 and was not approved.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California.

Assembly Bill No 969 is returned herewith without my approval. This bill provides that the boundaries of any city may be altered and new territory annexed thereto even if such territory lies in an adjoining county. Under the provisions of the present law territory lying within an adjoining county cannot be annexed to the municipal corporation situate in another county. This bill has for its object the annexation of territory in San Mateo County to the city of Palo Alto in Santa Clara County, and is a companion bill of Assembly Bill No. 970 which I am also returning to you without approval.

It seems to me a dangerous precedent to permit a practice of this kind to start in California, which might cause untold confusion and additional expense to the taxpayers. Under the present law a city may provide for the county to assess property and collect the taxes, thus saving expense and helping taxpayers. Many of the cities of California have adopted this wise plan. This proposed bill would prevent the carrying out of this purpose. Undoubtedly innumerable instances can be found where confusion would result from the passage of this bill.

If the enterprising city of Palo Alto desires to increase its boundaries it should proceed with a plan of annexing a part of San Mateo County to Santa Clara County.

I have looked into this matter carefully and have given close study to the arguments presented by Palo Alto officials, and am convinced that to permit a city to annex territory outside of the county in which it is situated, will result in dangerous consequences and will seriously disturb the relationship between municipalities and county government

The city attorney and mayor of Palo Alto and the president and secretary of the Palo Alto Chamber of Commerce are the only persons from Palo Alto who have advocated the bill. Not a single person in the territory of San Mateo (desired to be annexed) has written in support of the bill. I have delayed action until the last day so as to give the supporters of this bill full opportunity to give expression to their opinion. I must conclude that the San Mateo County territory has no interest in this bill and that there is little interest in Palo Alto.

Several officials of counties and cities in California have questioned the effect of this bill and feel that it would be a menace to them. Practically it is special legislation for only one city and contrary to the spirit of the constitution. I believe it is for the best interests of good government that this precedent be not established.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Assembly Bill No 970 is returned herewith without my approval. This bill provides that municipal corporations other than a city or county, situated in the same or adjoining counties, where the territory of one municipal corporation is contiguous to the other, may be consolidated in accordance with the provisions of the municipal corporations act.

This bill is returned without approval for the reasons stated in returning Assembly Bill No 969 without approval.

Respectfully submitted.

I voted against Assembly Bills Nos. 776 and 777 as I fail to see what would be accomplished to justify the expenditure of $150,000 by the State. It would be much better to spend the money to save other young girls from joining this class of fallen women

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 16, 1925.

To the Senate and Assembly of the State of California.

This is to advise you that I have signed the following bills

Senate Bills Nos. 213 and 753.

Assembly Bills Nos. 469, 742 and 593

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California.

Assembly Bill No. 950 is returned herewith without my approval. This bill is endorsed by the grand jury. Two of the supervisors have written favoring the bill but, according to the county clerk, the board has taken no official action.

Taxpayers from all parts of this large county have petitioned me to withhold my approval of this bill and thus help them to maintain economy. I have carefully examined the petitions and find that they are signed by many of the leading citizens and taxpayers. The total number of petitioners is 1,211. That the opposition to increased salaries in Riverside county is general and widespread is evident. Petitions of protest have been received from Corona, Arlington, Mecca, Riverside, Banning, Beaumont, Indio, Palm Springs, Coachella, High Grove, San Jacinto, Hemet, Perris, Elsinore, Morena, El Casco, Ethanac, Agaunga, Jurupa, Lakeview, Nuevo, Winchester, Murietta, Temecula, and other places in that county. The sentiment against the bill appears to be general. The petitions presented show a need for economy and read as follows

"We, the undersigned voters and taxpayers of Riverside county, respectfully call to your attention our protest in the matter of an increase in the salaries of the county officials of this county, of between $40,000 and $50,000 annually.

Recent low temperatures have caused serious loss to the citrus industry, and the continued dry weather in the south has similarly affected the grain crop, as well as making more precarious, and more expensive, the procuring of water for irrigation purposes.

We appreciate the fact that our county is increasing in population, that new subdivisions are being placed on the market, thereby increasing to a certain extent the work in some of the offices, notably the assessor and tax collector, and we feel some relief should be given them by providing extra help. However, four, at least, of the present officials readily accepted appointment quite recently, knowing full well what salary they were to receive.

We believe that the present salaries paid our county officials, which are in the nature of a steady income, compare more than favorably with the compensation paid for like services in private life.

We respectfully request your assistance in vetoing any bill that may be presented to you looking toward any increase of salaries at the present time."

In view of this great protest from the men who pay the taxes I do not feel that I can add to their burden even if the increases are endorsed by the grand jury.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California.

Assembly Bill No. 730 is returned herewith without my approval. This bill amends two sections of the Municipal Corporations Act. Section 852*a* is amended to provide for the establishment of city manager form of government in cities of the sixth class. This amendment appears to be unobjectionable.

The bill also amends section 881 by empowering trustees of sixth class cities to fix by resolution the compensation of all city officers. The present statute requires that the salaries must be fixed by ordinance and such ordinances must lie over one week and be published. Publication of ordinances fixing salaries of officials of small cities have a beneficial effect and result in economy

I regret that these two sections are in the same bill but I must withhold my approval on account of the undesirable change in section 881. Publication of such matters is a valuable safeguard to taxpayers

Respectfully submitted

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California

Assembly Bill No. 746 is returned herewith without my approval. This bill proposes to grant to the town of Sausalito certain submerged lands belonging to the State to be used as streets or for any other public purpose and to relinquish and abandon all right, title and interest of the State to such streets

This bill fails to expressly show the nature of the State's interest in the lands sought to be abandoned and transferred It may be that the lands are tidelands, but that does not definitely appear in the bill. If they are tidelands, the Legislature is without power to make an absolute unconditional gift thereof, for, by the State constitution, there is reserved to the people of the State the right to fish in the waters on which said lands may front, with the right of convenient access to said waters over those lands for that purpose, and also the guarantee of unobstructed navigation and commerce

Section 25, article I, California constitution
Article XV, California constitution,
Oakland vs Oakland Waterfront Co 118 Cal 160

This bill also omits to make a provision characteristic of bills heretofore enacted conveying tidelands from the State to public agencies prohibiting the alienation of the property transferred by the transferee, and it also omits a declaration that the property transferred shall be retained in trust for the use of the public

It may be said that such reservations would be read in by the courts if the bill is enacted That would probably be the result, but it might well happen that the burden would be cast upon the State of commencing litigation to obtain judicial declaration of the existence of public rights in the property transferred

Respectfully submitted

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 16, 1925.

To the Assembly of the State of California

Assembly Bill No 375 is returned herewith without my approval. This bill increases the salary of the probation officer of Riverside County from $2 400 to $2,800 per year, and the assistant from $1,200 to $1 500 per year

I am withholding my approval for the reasons expressed in returning Assembly Bill No 950 without approval

Respectfully submitted.

FRIEND WM RICHARDSON, Governor.

Proposed amendment to article XIII of the constitution, relative to taxation.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its forty-sixth regular session commencing on the fifth day of January, 1925, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that a new section to be called section 15 is hereby added to article XIII of the constitution of the State of California, said section to read as follows

Sec. 15. Taxes levied, assessed and collected as hereinafter provided upon companies owning, operating or managing any automobile, truck or auto truck, jitney bus, stage or auto stage used in the business of transportation of persons or property as a common carrier for compensation over any public highway in this state between fixed termini or over a regular route, other than busses used exclusively for the transportation of pupils to or from any public school, when owned or operated by the school or school district, shall be entirely and exclusively for State highway purposes, and shall be levied, assessed and collected in the manner hereinafter provided. The word "companies," as used in this section, shall include persons, partnerships, joint stock associations, companies and corporations

(*a*) All such companies engaged in the business of transportation of persons, or persons and baggage, or persons and express, or persons, baggage and express where the same is transported on the same automobile, jitney bus, stage or auto stage transporting said persons shall annually pay to the State a tax upon their franchises, cars, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to four and one-quarter per cent of the gross receipts from operations of such companies, and each thereof, within this State.

All such companies operating trucks or auto trucks engaged in the business of transporting property shall annually pay to the State a tax upon their franchises, trucks or auto trucks, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to five per cent of the gross receipts from operations of such companies, and each thereof, within this State.

When such companies are operating partly within and partly without this State, the gross receipts within this State shall be deemed to be all receipts on business beginning and ending within this State, and a proportion, based upon the proportion of the mileage within this State to the entire mileage over which such business is done, of receipts on all business passing through, into, or out of this State.

Such taxes shall be in lieu of all other taxes and licenses, State, county and municipal, upon the property above enumerated of such companies; *provided*, that nothing herein shall be construed to release any such company from the payment of any amount to be paid or required by law to be paid for any special privilege or franchise heretofore granted by any of the municipal authorities of this State.

The revenues from the taxes provided for in this section shall be used for the reconstruction, maintenance and repair of State highways and shall be placed in the general fund, or such special funds as may be provided by law. In the event that all other State revenues are at any time deemed insufficient to meet the annual expenditures of the State, there may be levied in the manner to be provided by law, a tax, for State purposes, on all the property in the State, including the classes of property enumerated in this section, sufficient to meet the deficiency. All property enumerated in this section shall be subject to taxation, in the manner provided by law, to pay the principal and interest of any bonded indebtedness created and outstanding by any city, city and county, county, town, township, or district on the first day of October, 1925. The taxes so paid for principal and interest on such bonded indebtedness shall be deducted from the total amount paid in taxes hereunder.

(*b*) All the provisions of this section shall be self-executing, and the Legislature shall pass all laws necessary to carry this section into effect, and shall provide for the valuation and assessment of the property enumerated in this section, and shall prescribe the duties of the State Board of Equalization and any other officers in connection with the administration thereof.

The rates of taxation fixed in this section shall remain in force until changed by the Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section and shall become due and payable on the first Monday in July thereafter. The gross receipts herein mentioned shall be computed for the year ending the thirty-first day of December prior to the levy of such taxes and the value of any property mentioned herein shall be fixed as of the first Monday in March. Nothing herein contained shall affect any tax levied or assessed prior to the adoption of this section.

(*c*) No injunction shall ever issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the collection of any tax levied under the provisions of this section, but after payment action may be maintained to recover any tax illegally collected in such a manner and at such time as may now or hereafter be provided by law.

LONG BEACH, CALIFORNIA, April 19, 1925.

Honorable Frank Merriam,
Speaker of Assembly, Sacramento, California.

Through misinformation and misrepresentation the Senate was led to believe that Senate Bill No. 201 was satisfactory to optometrists. We assure you that amendment is being fostered by enemies of optometry and if passed will practically nullify all we have fought for and won in twenty years. Please do what you can to prevent any amendment to present law. The law is all right as it stands.

MESSAGE FROM THE GOVERNOR.

The following message from the Governor was received and read:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 20, 1925.

To the Assembly of the State of California:

Assembly Bill No. 209 is returned herewith without my approval. This bill adds a new section to the Political Code and authorizes the use of certain symbols on election ballots for the alleged purpose of distinguishing between candidates who have similar names. It is proposed when several John Smiths run for office to tag one with a mark showing a diamond, others with a bell, a star, a circle, an anchor or a heart. A man of vacuous mental equipment should have a circle. An honest John Smith would naturally claim a diamond. A tool of the bosses would properly have a bell tagged after his name. A star political programmer would want a star. A John Smith of generous propensities should have a heart sign in red on the ballot after his name. A sailor would need an anchor. If more than six John Smiths ran for the same office the seventh could run as Plain John Smith, and others could pick out various vegetables or animals to identify them. Thus the voters would see an onion, a potato, a radish, a weasel, a donkey, a hyena, a monkey, or other sign indicating the symbol the candidate thought most appropriate for illustrating his major propensity.

A registrar of voters writes that he does not see how a symbol helps to identify a candidate, and that Attorney John Doe would distinguish him from Doctor John Doe better than a symbol. A large number of county clerks doubt the wisdom of the bill and point out the danger of conflict over the choice of symbols, each wanting the

diamond and none the turnip. Another clerk suggests the sign of the tomahawk for belligerent candidates and the symbol of the lamb for mild ones. The county clerk's association says the bill will bear watching even if a watch symbol is not provided.

This bill must have been considered a joke as both houses passed it without a dissenting vote or symbol. As a bill it is a joke, but as a law it would be confusing. The law now provides an easy and adequate manner of court procedure for changing names so as to avoid confusion.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

The Legislature of the State of California, at its regular session commencing on the fifth day of January, 1925, two-thirds of the members elected to each of the two houses of the Legislature voting in favor thereof, hereby proposes an amendment to section 31 of article IV of the constitution of the State of California to read as follows

SEC 31. The Legislature shall have no power to give or to lend, or to authorize the giving or lending, of the credit of the State, or of any county, city and county, city, township, or other political corporation or subdivision of the State now existing, or that may be hereafter established, in aid of or to any person, association, or corporation, whether municipal or otherwise, or to pledge the credit thereof, in any manner whatever, for the payment of the liabilities of any individual, association, municipal or other corporation whatever, nor shall it have power to make any gift or authorize the making of any gift, of any public money or thing of value to any individual, municipal or other corporation whatever; *provided*, that nothing in this section shall prevent the Legislature granting aid pursuant to section 22 of this article, and it shall not have power to authorize the State or any political subdivision thereof, to subscribe for stock or to become a stockholder in any corporation whatever; *provided, further* that irrigation districts for the purpose of acquiring the control of any entire international water system necessary for its use and purposes, a part of which is situated in the United States, and a part thereof in a foreign country, may in the manner authorized by law, acquire the stock of any foreign corporation which is the owner of, or which holds the title to the part of such system situated in a foreign country; *provided further*, that irrigation districts for the purpose of acquiring water and water rights and other property necessary for their uses and purposes, may acquire and hold the stock of corporations, domestic or foreign, owning waters, water rights, canals, waterworks, franchises or concessions subject to the same obligations and liabilities as are imposed by law upon all other stockholders in such corporations; and

Provided, further, that nothing contained in this constitution shall prohibit the use of State money or credit, in aiding veterans who served in the military or naval service of the United States during time of war, in the acquisition of, or payments

for, farms or homes, or in projects of land settlement or in the development of such farms or homes or land settlement projects for the benefit of such veterans

The California Veterans' Welfare Bond Act of 1921 (Statutes of 1921, chapter 578), as enacted at the forty-fourth session of the Legislature of the State of California, authorizing the issuance and sale of State bonds in the sum of $10,000,000, for the purpose of creating a fund to carry out the provisions of the California Veterans' Welfare Act, providing land settlement for veterans (Statutes of 1921, chapter 580), and the provisions of the "Veterans' Farm and Home Purchase Act," providing farm and home aid for veterans (Statutes of 1921, chapter 519) is hereby approved, adopted, legalized, validated and made fully and completely effective irrespective of the vote that may be cast upon the proposition of approving or disapproving such Veterans' Welfare Bond Act of 1921 at the general election of November 7, 1922. All provisions of this section shall be self-executing and shall not require any legislative action in furtherance thereof, but this shall not prevent such legislative action.

And provided, still further, that notwithstanding the restrictions contained in this constitution the treasurer of any city, county, or city and county shall have power and it shall be his duty to make such temporary transfers from the funds in his custody as may be necessary to provide funds for meeting the obligations incurred for maintenance purposes by any city, county, city and county, district, or other political subdivision whose funds are in his custody and are paid out solely through his office. Such temporary transfer of funds to any political subdivision shall be made only upon resolution adopted by the governing body of the city, county, or city and county directing the treasurer of such city, county, or city and county to make such temporary transfer. Such temporary transfer of funds to any political subdivision shall not exceed eighty-five per cent of the taxes accruing to such political subdivision, shall not be made prior to the first day of the fiscal year nor after the last Monday in April of the current fiscal year, and shall be replaced from the taxes accruing to such political subdivision before any other obligation of such political subdivision is met from such taxes.

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were received, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 20, 1925.

To the Senate and Assembly of the State of California.

GENTLEMEN: This is to advise you that I have signed the following bills Assembly Bills Nos 3, 7, 21, 465 and 601.

Respectfully submitted

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 20, 1925.

To the Assembly of the State of California.

Assembly Bill No 120 is returned herewith without my approval.

This bill amends section 1131 of the Political Code by requiring all polling places for elections to be on the ground floor There is no demand for this change in the election law and the county clerk's association opposes the bill. Boards of supervisors can be depended upon to pick out proper polling places. A similar bill was returned without approval two years ago. See page 2278, Journal of the Assembly, forty-fifth session 1923

Respectfully submitted

FRIEND WM RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 20, 1925.

To the Assembly of the State of California.

Assembly Bill No. 683 is returned herewith without my approval This bill amends section 1357 of the Political Code and the method of procuring of ballots by absent voters The bill changes the word "will" to "expects" so that a voter on the statement that he "expects" to be absent could obtain a ballot, while now he must state that he "will" be absent

The amendment also eliminates the provision that the county clerk shall not be required to mail a ballot to any address within the city or county in which the officer is situated

The original section was enacted at the 1923 session of the Legislature as an enabling act to carry out the provisions of the constitutional amendment relating to absent voters. It is doubtful whether this bill is constitutional Article II, section 1, of the constitution provides "That the Legislature may, by general law, provide for the casting of votes by duly registered voters, who, by reason of their occupation, are regularly required to travel about the State, and who, by such affidavit as the Legislature may prescribe, show that they will be absent from their respective precincts of the date * * * election is held" It is to be observed that the constitution limits such balloting to those who will be absent and not to those who expect to be absent.

This bill would undoubtedly permit loose practice and cause unnecessary expense and labor to county clerks A number of county clerks have written in protest of this bill, and especially in regard to the second amendment. The clerk of one of the largest counties says that if voters were allowed to vote wherever they happened to be in the county it would make the work of his office burdensome and that official now has a very difficult time keeping up with the great registration The clerk of another large county says that this amendment would not help anybody but make it easier to secure a ballot, and that it is too easy now to secure these ballots The general concensus of county clerks is that the present act has not accomplished its purpose and that more than fifty per cent of the limited number who avail themselves of the privilege of voting in this manner had no right to vote at all because their business did not require them to travel about the State.

This bill appears to me to be a dangerous amendment, tending to invite fraud, and adding complications and difficulties to the work of the county clerks of the State, besides being unconstitutional.

Respectfully submitted

FRIEND WM. RICHARDSON, Governor.
