AMENDMENT NUMBER TWO.

On page 1, line 1, of the printed bill, after the words "port district" strike out the remainder of the bill, and insert in lieu thereof the following, "for the acquisition and construction of harbor works and improvements, including railroad and water transfer and terminal facilities, for the development, operation, maintenance, control, regulation and management of harbors and other waters, and for the promotion of commerce, navigation and fishery by such districts may be established, organized and governed as in this act provided, and may exercise the powers herein expressly granted. A municipal port district shall include municipal corporations only, but no municipal corporation shall be divided in the formation thereof. Whenever any other municipal corporation is consolidated with, or whenever any unincorporated territory is annexed to, a municipal corporation that is already included in a municipal port district, such municipal corporation so consolidated and such unincorporated territory so annexed, shall by virtue of such consolidation or annexation become a part of such municipal port district.

SEC. 2. When two or more municipal corporations situated in the same county, each of which is contiguous to the other, or to one of the others, and within the corporate limits of which, or any one of which, is included in whole or in part any harbor, bay, inlet, arm of the sea, estuary, or other waters, may join in the establishment of a municipal port district. When any two or more municipal corporations desire to establish a municipal port district under the provisions of this act, the legislative body of each such municipal corporation, at a regular meeting thereof, shall pass an ordinance of intention declaring that the public interest requires the establishment by such municipal corporation, jointly with any other municipal corporation or corporations (naming the same), of a municipal port district under the provisions of this act, to comprise its territory with that of the other or others, and that it is the intention of such legislative body to initiate proceedings for the establishment of such municipal port district. Such ordinance shall state the name of the proposed district which shall include the words "Municipal port district" and shall describe the exterior boundaries of the harbor or harbors, or other waters, and of the water front, tidelands, submerged lands or other lands included therein or adjacent thereto, within the limits of such municipal port district, proposed to be

improved, operated, maintained, and managed by the proposed municipal port district. Such ordinance shall provide for the submission by the legislative body of such municipal corporation to the qualified electors thereof of the proposition of establishing such municipal port district, at a special election as hereinafter provided. The lands and waters so described in such ordinance, in the event that such district is established, shall be known as the harbor district of the municipal port district, and is hereinafter designated and referred to as the harbor district.

In the event, however, that the legislative body of any municipal corporation or corporations shall have passed the ordinance of intention mentioned in this section and the legislative body of the other or any of the other municipal corporations named therein shall fail or refuse to pass such ordinance within thirty (30) days after such ordinance of intention or the latest such ordinances to take effect shall have become effective, the electors of any such other municipal corporation so named therein may file a petition with the clerk of the legislative body thereof in like manner as petition provided for in section three of this act, praying for the establishment of such municipal port district. Such petition shall be signed by the same percentage of the qualified electors of any such other municipal corporation, and shall be signed, verified, filed, examined, certified and presented in like manner as petition provided for in section three of this act. Any such petition shall, as to any municipal corporation by the electors of which it is so filed, have like force and effect as petitions filed under said section three hereof, and thereupon the same proceeding shall be had thereon as to any municipal corporation in and for which it is so filed, as in the case of petitions of electors filed under the provisions of said section three: *provided, however*, that any such petition filed under this section need not state that it is filed concurrently with a petition or petitions of the electors of other municipal corporations, unless such be the fact, but it shall state the name of each municipal corporation whose legislative body has passed the ordinance mentioned in this section. So far as applicable the provisions of section three hereof shall otherwise govern and apply to petitions filed under this section.

SEC 3. A municipal port district may also be established under proceedings initiated by petition of qualified electors as hereinafter provided. Whenever the people of two or more municipal corporations shall desire to establish a municipal port district, a petition may be filed with the clerk of the legislative body of each such municipal corporation, signed by qualified electors of each such municipal corporation respectively, equal in number to fifteen per centum of all the votes cast within each such municipal corporation respectively for all candidates for governor at the last preceding general election at which a governor was elected, praying for the establishment of a municipal port district by such municipal corporation, jointly with any other municipal corporation or municipal corporations (naming the same), under the provisions of this act, to comprise the territory thereof and that of the other or others, and stating the name of the proposed district, which shall include the words "Municipal Port District". Such petition shall describe the exterior boundaries of the harbor or harbors, or other waters, and of the water front, tidelands, submerged lands or other lands included therein or adjacent thereto, within the limits of such proposed municipal port district, proposed to be improved, operated, maintained and managed by, such municipal port district. Such petition shall be addressed to the legislative body of the municipal corporation in which it is circulated and signed, and shall pray that the proposition of establishing such municipal port district be submitted to the qualified electors of such municipal corporation at a special election in such municipal corporation as in this act provided. No elector in any one municipal corporation of the proposed municipal port district shall sign any such petition of electors of any other municipal corporation proposed to be included therein. Each such petition shall, in addition to the other matters required to be stated therein, also designate the municipal corporation within which the electors as signing the same reside and shall state that it is filed concurrently with a like petition or petitions of electors of the other municipal corporations, designating the same. The lands and waters so described in such petition shall, in the event that such proposed municipal port district is established, be known as the harbor district of the municipal port district, and is hereinafter designated and referred to as the harbor district.

Such petition may consist of any number of separate papers or sections, all of which shall together constitute one petition, but a separate petition shall be required from each municipal corporation of the proposed municipal port district. The signatures to such petition need not all be appended to one paper or section. Each signer shall add to his signature his place of residence, his occupation, and if within a city having named streets and numbered houses, the street and number of such residence, and shall at the time of so signing such petition affix thereto the date of such signing. Each separate paper or section shall have attached thereto an affidavit made by a qualified elector of the municipal corporation in which it is circulated, and sworn to before an officer competent to administer oaths, stating that the affiant circulated that particular paper or section and saw written the signatures appended thereto; and that, according to the best information and belief of the affiant, each signature is the genuine signature of the person whose name purports to be thereunto subscribed, and of a qualified elector of such municipal corporation.

Within ten (10) days from the date of filing such petition, the city clerk of the municipal corporation in which such petition was circulated and signed shall examine and from the records of registration ascertain whether or not said petition is signed by the requisite number of qualified electors, and he shall attach to said petition his certificate showing the result of such examination If by the said certificate such petition is shown to be insufficient, it may be supplemented within ten (10) days from the date of such certificate by the filing of additional papers, duplicates of the original petition, except as to the names signed The said city clerk shall, within ten (10) days after such supplemental papers are filed, make like examination thereof, and if his certificate shall show that all the names to such petition, including supplemental papers, are still insufficient, no action shall be taken thereon and the proceedings for the establishment of the municipal port district proposed by such petitions shall be deemed to fail, but in such event, however, the petition shall remain on file as a public record, and the failure to secure sufficient names shall be without prejudice to the filing subsequently of an entirely new petition to the same effect, after the expiration of six (6) months. If the petition shall be found to be sufficient, either as originally filed or as supplemental, the said city clerk shall present the same to the legislative body of such municipal corporation without delay, whereupon such legislative body shall submit the question of the establishment of such municipal port district to the electors of such municipal corporation at a special election to be called and held therein as hereinafter provided. If required by the city clerk, the legislative body of such municipal corporation shall authorize him to employ such persons, in addition to those persons regularly employed in his office, as may be necessary for the examination of such petition and supplemental petition, as provide for their compensation

Nothing in this section contained, shall be construed to prevent the city clerk from referring any such petition or supplemental petition to the registrar of voters or other officer of the county in which such proposed municipal port district is situated, having custody of the records of registration of electors thereof, for the purpose of examination and certification, and the certificate of such registrar of voters or other officer shall have the same force and effect as the certificate of such city clerk thereto. If such reference be made, such compensation shall be paid for such examination and certification as may be fixed by the board of supervisors of such county, or otherwise by law

SEC 4 The legislative body of any municipal corporation that has passed the ordinance of intention provided for in section two of this act shall, within twenty (20) days after such ordinance has become effective, cause a notice to the electors thereof to be published or posted, containing a copy of such ordinance, together with a statement that the proposition of establishing the municipal port district contemplated thereby will be submitted to the qualified electors of such municipal corporation at a special municipal election to be held in such municipal corporation on a date to be designated in such notice, which date shall not be less than thirty (30) nor more than ninety (90) days after the first publication or posting of such notice Such proposition shall be specified in such notice substantially in the following form "Shall a municipal port district comprising the cities of (stating the names of the cities) be established?"

Such petition shall contain a general statement of the grounds upon which such removal is sought, of not more than three hundred words in length.

Except as herein otherwise provided, the provisions of section three of this act relating to the form and to the mode of signing petitions for the establishment of municipal port districts and to the verification, examination, certification and supplementing of such petitions shall apply to any petition made or filed under the provisions of this section, such petition shall be designated as a recall petition, and shall be signed by qualified electors only of the municipal corporation from which the commissioner sought to be removed was appointed or elected. If such petition be sufficiently signed, it shall be forthwith presented by the clerk to the board of port commissioners. The sufficiency or insufficiency of any recall petition and the sufficiency of the aforementioned statement required to be contained therein, shall not be subject to review by the board of port commissioners. Upon the presentation of such recall petition to the board of port commissioners, such board shall thereupon, by ordinance, order the holding of a special election in such municipal corporation for the purpose of submitting to the electors thereof the question whether the port commissioner named in the petition shall be removed from office. Such special election shall be held not less than fifty days, nor more than sixty days after the date of the certificate to the sufficiency of such petition, *provided, however*, that if any other election ordered or called by the board of port commissioners for any other purpose and at which the qualified electors of such municipal corporation are entitled to vote is to occur within such sixty days, the board of port commissioners may, in its discretion, order the holding of such recall election and the consolidation thereof with such other election.

If a majority of the electors voting on such question shall vote in favor of the removal of such officer, he shall be deemed to be removed from office upon the declaration of the result of such election by the board of port commissioners, and his office shall thereupon be and become vacant. Such vacancy shall be filled by the appointing power in the same manner as other vacancies in such office, and any officer so removed shall be ineligible to any office under this act until the expiration of two years after such removal.

Except as this section otherwise provided, recall elections herein provided for shall be called, conducted and held and the result thereof declared as elsewhere in this act provided for other elections in municipal port districts. If a majority of the electors of such municipal port district voting on such question shall vote in favor of the removal of such officer, he shall be deemed to be removed from his office, which shall become vacant and the vacancy filled in the same manner as other vacancies in such office. One petition shall be sufficient to propose the removal of one or more port district commissioners, or one or more of the other officers of a municipal port district as the case may be, and the question of such removal may be submitted at one and the same election.

In the event that any port commissioner or other officer whose removal is sought as in this section provided shall resign at any time after the filing of the petition for his removal, or any vacancy from any other cause occurs in such office at any time prior to two days before such election, such election shall not be held, but the incumbent, if he shall have so resigned after the presentation to the board of port commissioners of such petition, or shall have been removed by any other process of law, shall not be eligible to any office under this act until the expiration of two years from the date of such resignation or removal last mentioned.

If by the certificate of the clerk such petition is certified to be sufficient, such ordinance shall not go into effect until it shall be adopted by vote of the electors of the municipal port district as hereinafter provided, but if by such certificate, such petition is certified to be insufficient, such ordinance shall go into effect upon the date of such certificate: *provided, however*, that such ordinance shall not go into effect until the expiration of said thirty days, and no supplemental petition to a referendum petition shall be filed after the expiration of said thirty days

Upon the presentation to the board of port commissioners of a referendum petition, the ordinance mentioned therein must either be repealed by the said board without delay, or be submitted to a vote of the qualified electors of the municipal port district for approval or rejection at a special election to be called for that purpose, or at a special election consolidated with any other election of the municipal port district, or in any municipal corporation therein, in accordance with the provisions of this act, occurring within six months after the presentaton of such referendum petition to the board of port commissioners

No ordinance that has been submitted to a referendum vote shall go into effect unless a majority of the qualified electors voting thereon shall vote in favor thereof; and if such ordinance shall receive the votes of a majority of such electors voting thereon, it shall be deemed to be adopted, and shall take effect upon the declaration of the result of the election at which it was submitted, and if such ordinance shall not receive a majority of such votes it shall be deemed to be not adopted: *provided, however*, that any ordinance so adopted shall be subject to amendment or repeal by the board of port commissioners, but such amendment or repeal shall not be made within six months after such adoption, and such amendment or repeal shall itself be subject to the referendum as provided in this section.

Upon the ballot to be used at any election at which any ordinance is submitted under the referendum there shall be printed the words "Shall the ordinance (stating the title and nature of the ordinance and the date of its passage) be adopted?" And opposite such proposition to be voted on and to the right thereof, the words "Yes" and "No" shall be printed on separate lines, with voting squares. If an elector shall stamp a cross (X) after the printed word "Yes" his vote shall be counted in favor of the adoption of the ordinance, and if he shall stamp a cross (X) in the voting square after the printed word "No", his vote shall be counted against the adoption of the same.

Any election called or held under the provisions of this section, shall be so called and held, and the result thereof declared in the same manner as elsewhere in this act provided for municipal port district elections, except in the particulars otherwise specified in this section.

Whenever any ordinance is required to be submitted to the electors of any municipal port district under the provisions of this section, the clerk shall cause the same to be printed, and he shall enclose a copy thereof in an envelope with a sample ballot, and mail the same to each voter. Any person or persons filing a referendum petition, or the person or organization on whose behalf such petition is filed, shall have the right to file with the clerk of the municipal port district, at least twenty days prior to the election at which the ordinance is to be submitted to a vote of the electors of the district, printed copies of an argument against the adoption of such ordinance, and the board of port commissioners shall have the right to present or permit to be presented to and filed with the clerk within the same limit of time, printed copies of an argument in favor of the adoption of such ordinance. Such municipal port district shall, upon its establishment in accordance with the provisions of this act, be and become the successor of any municipal corporation included therein, with respect to the matters enumerated in this section; *provided, however*, that as to any such municipal corporation which is governed under a freeholders charter, such surrender and transfer shall not become operative or effective unless or until the same shall be authorized in the manner provided by the charter thereof; *and provided further*, that the title to such lands so granted to any municipal corporation which shall be included in a municipal port district shall not be affected or impaired by anything contained in this act, and the same shall continue vested therein until such municipal corporation shall, by a vote of a majority of its electors voting upon the question at an election at which the same shall be submitted, or by the adoption of charter provisions, transfer and grant such title to such municipal port district, subject to such reservation for reversion thereof to such municipal corporation as shall be made therein or thereby in the event that such municipal port district by the operation of law or otherwise shall be dissolved thereafter.

SEC. 31. Whenever a municipal port district shall be established under the provisions of this act, such municipal port district shall be deemed and taken to be the successor of each of the municipal corporations included therein as to all powers theretofore vested in each such municipal corporation or the officers thereof, which are by the provisions of this act granted to municipal port districts or exercisable by the officers thereof, and as to such powers, the government of each such municipal corporation shall be deemed to be merged into such municipal port district, and the title to and possession of any property other than tidelands, or submerged lands,

whether filled or unfilled, salt marsh or overflowed lands, including any and all works, structures, appliances, equipment and improvements of the character or classes enumerated in section thirty-three of this act, owned or held by each of such municipal corporations, or in trust therefor, or by any officer or board thereof, in trust or otherwise, for any public use within the terms and contemplation of this act, shall, upon the completion of the establishment of such municipal port district, ipso *facto be vested in such municipal port district. Upon the completion of such establishment*, all persons then occupying or possessing the several offices of or under the government of each of such municipal corporations, except as hereinafter otherwise provided, whose powers and duties, by the terms of this act are within the powers of such municipal port district or any officer thereof, shall immediately quit and surrender the occupancy or possession of such offices, which shall thereupon cease and terminate and they shall severally forthwith deliver all moneys, funds, books, papers, archives and records in their custody, and all other property of such municipal corporations respectively in their hands or under their control of the character mentioned or described in this act, and relating to harbor improvements or affairs, to the proper officers of such municipal port district: *provided, however*, that as to any such municipal corporation which is governed under a freeholders charter, the provisions of this section shall not apply unless or until the same shall be authorized by the charter thereof, and in such manner as shall therein be provided.

The powers of a municipal port district to grant franchises, permits and leases for the use of waters, water frontage, tidelands or submerged and other lands, situated within the limits of any municipal corporation in any port district shall at all times be exercisable by the board of port commissioners in compliance with and subject to the provisions of any freeholders charter of any such municipal corporation which may,

Every grant for a definite period of time shall be made by ordinance, any ordinance making any such grant shall be published in the same manner as other ordinances and shall, before the same becomes effective, be subject to the referendum provisions of this act. Each such grant shall provide for a readjustment of the rental or compensation every ten (10) years during the term thereby created upon such procedure as shall be specified in such grant.

No grant shall ever be made to any one person, firm or corporation to use any such water frontage whatever in excess of three thousand feet, linear measurement, measured along United States harbor lines, *provided, however*, that more than three thousand feet of such water frontage, but not exceeding five thousand feet thereof, may be so granted whenever authorized by a majority of the qualified voters of the municipal port district voting upon the question of authorizing any such grant at an election.

Every such grant shall be made only upon the conditions, whether expressed therein or not, that the construction of the works, structures or improvements, provided for therein, shall, if the same be not already constructed or made, be commenced within ninety days of the date of such grant, and be prosecuted diligently to completion upon such further terms and conditions as may be prescribed therein.

Every such grant shall provide that in case the same, or any improvement made thereunder, or any part thereof, shall be assigned, transferred or subleased, and the control thereof be given or granted to any person, firm or corporation, so that such person, firm or corporation shall then own, hold or control under any such grant from the municipal port district or other public authority more than the length of water frontage permitted or authorized under this act, then such grant, and all rights thereunder, shall thereupon and thereby be absolutely terminated. Every such grant shall be subject to such rights of way over the lands embraced therein for such sewers, pipe lines, conduits, and for such telephone, telegraph, light, heat or power lines as may from time to time be determined by the board of port commissioners, and the same shall be subject to such rights of way for such streets and other highways and for such railroads and other means of transportation as shall have been duly established or as shall be reserved in such grant. No such grant shall ever be made that shall provide for any use of the property or for

the construction or placing of any structure, building or other improvement thereon that shall interfere with any plan approved or adopted by the board of port commissioners for harbor improvements, or for the development of facilities for the promotion and accommodation of commerce, navigation or fishery, or for providing railroad or other terminal facilities

Every such grant shall prescribe that upon the expiration thereof, all wharves, piers, docks, slips, bulkheads, sea walls and channels, constructed or maintained thereunder, shall be and become the property of the municipal port district or any successor thereof without compensation therefor to the grantee or holder thereof, and to the other permanent structures or improvements constructed or maintained thereunder, shall prescribe whether the same shall become of the property of the municipal port district or successor thereof without compensation or upon compensation to be paid to such grantee or holder, or shall be removed by such grantee or holder at his own expense.

The board of port commissioners shall have power to declare a forfeiture of any such grant upon the neglect, failure or refusal by the grantee thereof to comply with any of the terms or conditions thereof. Upon any such forfeiture, any and all buildings, structures and improvements of whatsoever character, erected, installed, or made, under, through, or because of, or pursuant to the terms thereof, shall immediately ipso facto become the property of the municipal port district and every such grant shall so provide.

None of the money in or belonging to the said fund shall be appropriated or used for any purpose except the following:

SEC. 34 The board of port commissioners shall have power to order and contract for the expenditure of all money derived from the sale of municipal port district improvement bonds and all money in the port district revenue fund or other funds of such district. Whenever the board shall have approved and authorized any service, work or improvement, and shall have appropriated the necessary money therefor, it shall have power to advertise for proposals and to let any necessary contract in connection with such service work or improvement, *provided, however*, that when authorized by the board, the general manager shall have power to advertise for proposals and let any such contract involving an expenditure of one thousand dollars and less and execute the same in behalf of the port district

In cases of emergency where the circumstances of the case render it impossible to secure bids for the furnishing of labor or materials without undue delay or loss to the district, the board or the general manager, with the approval of the board, may let such contract without advertising for bids.

SEC. 35. Any municipal port district established under the provisions of this act may incur indebtedness to pay the cost of any work or improvement hereinafter mentioned and which such district is hereby authorized to do or make, the cost of which will be too great to be paid out of the ordinary annual income and revenue of the municipal port district. Whenever the board of port commissioners shall, by resolution passed by the vote of not less than four of its members, determine that

The ordinance calling such election shall recite the objects and purposes for which the indebtedness is proposed to be incurred, and the municipal corporation in which the work or improvement or any part thereof is to be performed, located or constructed, the estimated cost of the proposed public improvements, the amount of the principal indebtedness to be incurred therefor and the rate of interest to be paid on said indebtedness, and shall fix the date on which such election shall be held; *provided, however*, that the maximum rate of interest to be paid on such indebtedness shall not exceed six per centum per annum, payable semi-annually. Such ordinance shall prescribe the manner of voting for or against incurring such indebtedness, and in all particulars not recited in such ordinance, such election shall be held as provided by this act for holding elections in such municipal port district.

SEC 36 The ordinance calling the election referred to in section thirty-five of this act shall be published once a day for at least seven days in some newspaper published at least six days a week in each municipal corporation in such municipal port district, or once a week for two weeks in some newspaper published less than six days a week in each municipal corporation in such port district, and one insertion each week for two succeeding weeks shall be sufficient publication in such newspapers published less than six days per week. In municipal corporations where no such newspaper is published such ordinance shall be posted in three public places therein for two succeeding weeks No other notice of such election need be given It shall require the votes of two-thirds of all the voters voting on the proposition of incurring such indebtedness at such election in such port district to authorize the issuance of the bonds therein provided; however, should the proposition so submitted at such election fail to receive the requisite number of votes of the qualified voters voting on the proposition of incurring such indebtedness at such election to incur indebtedness for the purpose specified, the board of port commissioners shall have no power or authority, within six months after such election, to call or order another election for incurring any indebtedness for improvements substantially the same as voted upon at such prior election, unless a petition signed by fifteen per centum of the qualified electors of each municipal corporation included in the municipal port district, computed upon the total number of votes cast therein for all candidates for governor at the last preceding election at which a governor was elected, be filed with the board of port commissioners, requesting that such proposition or a proposition substantially the same be submitted at an election to be called for the submission of such proposition and to be held in accordance with the provisions of this act.

SEC 37 No municipal port district shall incur, nor shall there be outstanding at any time any bonded indebtedness of any such district for public improvements which shall in the aggregate exceed three per cent of the assessed value of all the real and personal property included in such port district.

SEC. 38. All municipal port district bonds issued under the provisions of this act shall be payable substantially in the following manner; a part, to be determined by the board of port commissioners, which shall not be less than one-fortieth part of the whole amount of such indebtedness, shall be paid each and every year on a day and date and at a place or places to be fixed by such board of the municipal port district issuing the bonds and designated in such bonds, together with the interest on all sums unpaid at such date; *provided, however*, that in case of bonds issued for the acquisition, construction, or completion of any revenue producing works, plant, utility, or property, the acquisition, construction or completion of which is authorized by the provisions of this act, the board of port commissioners may, in its discretion, determine and fix a date for the earliest maturity of the principal of such bonds, not more than ten years from the date of issuance of such bonds, but in such event the whole amount of such indebtedness shall be made payable in equal annual parts in not to exceed forty years from the time of contracting the same. The bonds shall be issued in such denominations as the board of port commissioners may determine, except that no bonds shall be of less denomination than one hundred dollars, nor of a greater denomination than one thousand dollars, and shall be payable on the day and at the place or places

The coupons of said bonds shall be numbered consecutively and signed by the treasurer. In case any of such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signatures or countersignatures shall nevertheless be valid and sufficient for all purposes, the same as if they had remained in office until the delivery of such bonds.

SEC. 39. Such bonds may be issued and sold by the board of port commissioners as they may determine, but not for less than their par value, and the proceeds of such bonds shall be placed in the treasury of the municipal port district to the credit of the municipal port district improvement fund and shall be applied exclusively to the purposes and objects mentioned in the ordinance. At any time after three years after the date of any election at which an issue of any of the bonds herein provided for has or shall have been authorized, the board of port commissioners may, by ordinance adopted by a vote of four of the members of such board, determine that no part of such bond issue, or if a portion of the bonds so authorized at such election shall have been sold, that no part of the remainder of such issue then remaining unsold, shall be thereafter issued or sold, and upon the taking effect of such ordinance the authority to issue the bonds authorized at such election and described in such ordinance shall cease, and the whole or that portion of the bonds issued pursuant thereto remaining unsold and described in such ordinance shall become void

Whenever any such municipal corporation, containing within its boundaries any part of the harbor district of a municipal port district as defined in this act, shall issue and sell its bonds for any such purpose in the manner provided by its charter or otherwise by law, the proceeds thereof shall be delivered to the treasurer of the municipal port district and be expended by such municipal port district in accordance with the provisions of this act in the performance of the work or for the acquisition, construction or completion of the improvement for which such indebtedness was so incurred, and in the portion of such harbor district situated within the boundaries of such municipal corporation *provided, however*, that any such improvement acquired, constructed or completed under the provisions of this section shall be so acquired, constructed or completed in accordance with plans and specifications and be of a character approved by the board of port commissioners, and be located in conformity with the plan and system of harbor and harbor district improvements established by the board of port commissioners.

On or before the first day of May of each year, the general manager of a municipal port district shall submit to the board of port commissioners thereof a detailed statement of the money required for the next ensuing fiscal year for the purpose of conducting the business of the district. Such estimate shall be so classified as to show the expenses of the objects and services which it is estimated will be required to carry on the work of the district and of the several offices thereof, or of the departments into which the work and functions of the district may be divided by the board of port commissioners. With such estimate there shall be submitted such summary, schedules and data as may be required by the board of port commissioners

On or before the first day of May of each year, the auditor of the port district shall submit to the board of port commissioners a detailed statement of the money which he estimates will be required for the interest and sinking fund of all outstanding bond indebtedness and other lawful obligations of the municipal port district, including interest and sinking fund of bond indebtedness of municipal corporations specified in subdivision five of section thirty-three of this act, and also a statement of the revenues to be derived from licenses, franchises, rentals, tolls and all other sources, exclusive of taxes on property.

The board may, by a majority vote of all its members, increase, decrease or omit any item therefrom, or insert new items therein The budget as adopted by the board shall be signed by the president of the board of port commissioners and the clerk, and the several items thereof shall thereafter be deemed appropriated for the ensuing fiscal year and to the several offices and departments of the business of the district therein specified Such budget shall be printed with a reasonable number of copies for public distribution.

The board of port commissioners of the district shall have authority to expend and make contracts, or to authorize the same in the manner provided by this act, involving the expenditure of one-twelfth of the fund apportioned by the budget to the officers or employees of the district or to the department of the business of the district in charge of such officer or employee during each month of the fiscal year, and no more, unless otherwise specified in such budget, or unless specially authorized to do so by vote of four members of the board of port commissioners *provided*, that if during any month less than one-twelfth of the funds so apportioned shall be expended, the amount unexpended may be expended in any subsequent month of the fiscal year *without such special authorization*

SEC. 42. The board of port commissioners shall, at the time of fixing the general tax levy for county purposes by the board of supervisors of the county in which such municipal port district is situated, levy annually each year, until such bonds are paid, or until there shall be a sum in the treasury of such municipal port district set apart for the purpose to meet all sums coming due for principal and interest on such bonds a tax sufficient to pay the annual interest on such bonds on all taxable property in such municipal port district and also such part of the principal thereof as shall become due before the time of fixing the next general tax levy for county purposes; *provided, however*, that if the maturity of the indebtedness created by the issue of bonds be made to run more than one year after the date of the issuance of such bonds such taxes shall be levied and collected at the time and in the manner aforesaid annually each year sufficient to pay the interest on such indebtedness as it falls due and also to constitute a sinking fund for the payment of the principal thereof on or before maturity And if from any cause the revenues of the district shall be inadequate to provide the funds otherwise needed to carry out the objects and purposes of the district or to conduct the business thereof which can not be provided for out of the revenues of the district, such tax levy shall also include such amount of money as may be necessary to carry out the objects and purposes of the district and to carry on the business thereof: *provided, however*, that such tax so levied for any one year for municipal port district purposes, other than payments on municipal port district bonds and bonds of the municipal corporations included therein for harbor improvements, as in the act provided, shall not exceed one cent on each one hundred dollars worth of taxable property in such district. The board of port commissioners shall state the purposes for which such taxes are required, and must fix by ordinance the amount of money necessary to be so raised by taxation The taxes required by this act to be levied and collected shall be in addition to all other taxes levied for municipal purposes by any municipal corporation in such *municipal port district and shall be collected at the same time and in the same manner* as taxes for county purposes are collected, and be used for no other purpose than the payment of said bonds and accruing interest and to carry out the purposes and object of the district, in case additional taxes are levied therefor as herein provided

SEC. 43. Until otherwise provided by law, any municipal port district shall use for the purpose of municipal port district taxation the county system of assessment and tax collection of the county in which such municipal port district is situated, and the assessment made by the assessor of such county shall be the basis for municipal port district taxation. The county auditor of such county must, on or before the second Monday in August of each year transmit to the board of port commissioners a statement in writing showing the total value of all property within the municipal port district which value shall be ascertained from the assessment books of the said county for that year as equalized and corrected by the board of supervisors of such county. The board of port commissioners shall, not later than the last Tuesday in August of each year, fix the rate of taxes for the municipal port district, designating the number of cents upon each one hundred dollars, using as a basis the value of the property as assessed by the county assessor of each county, as the same may be equalized and so returned to such board of port commissioners by such county auditor as hereinbefore provided, which rate of taxation shall be sufficient to raise the amount previously fixed by the board of port commissioners as hereinbefore provided, which acts by said board are declared to be a valid assessment of such property and a valid levy of such taxes so fixed The board of port commissioners must immediately thereafter transmit to such county auditor of the county in which such municipal port district is situated a statement of such rate so fixed by the board of port commissioners The said county auditor must then compute and enter in a separate column in the assessment book or books to be headed "Municipal port district taxes of_____municipal port district" (naming it) the respective sums in dollars and cents or dollars or cents to be paid as municipal port district tax on the property therein enumerated and assessed as

being in the municipal port district, using the rate of levy so fixed by the board of port commissioners of the municipal port district and the assessed value as set forth in such assessment book or books. Such taxes so levied shall be collected at the same time and in the same manner as county taxes and when collected the net amount ascertained as hereinafter provided shall be paid to the treasurer of the municipal port district under the same requirements and penalties provided by law for the settlement of other taxes.

The county auditor and tax collector affected by the provisions of this act shall each annually file with the board of supervisors of the county in which such municipal port district is situated itemized statements showing the additional expenses to his office caused by the performance of the duties imposed upon him or his office under the provisions of this act, and upon the filing of such statements the board of supervisors shall, by an order spread upon its minutes, deduct such expenses from the tax money of the municipal port district and transfer the amount so deducted into the salary fund of the county; *provided, however*, that no more than one-half of one per centum on the amount so collected shall be so charged or deducted by any county. The board of supervisors of such county may provide such extra help for the county offices or officers as in their judgment may be necessary for the proper performance of their duties hereunder. Nothing in this section, however, shall be construed to prevent the board of port commissioners and the board of supervisors of the county in which a municipal port district is situated from entering into an agreement fixing the charge which such county will make for the collection of municipal port district taxes as in this act provided, but such charge if so agreed upon shall not exceed the per centum therefor herein specified.

Whenever any real property situated in any municipal port district established under the provisions of this act has been sold for taxes and has been redeemed, the money paid for such redemption shall be apportioned and paid by the county treasurer receiving the same to such municipal port district in proportion which the tax due to such district bears to the county taxes for which such property was sold.

All taxes levied under the provisions of this act shall be a lien on the property on which they are levied and the enforcement of the collection of such tax may be made in the same manner and by the same means as is provided by law for the enforcement of liens for county taxes, and all provisions of the law relating to the enforcement of the latter are hereby made a part of this act so far as applicable.

SEC. 44. Every election ordered, held and conducted by a municipal port district under the provisions of this act shall, except as herein otherwise provided, be so ordered, held and conducted, and the result thereof made known and declared, in the manner hereinafter specified.

(*a*) The board of port commissioners shall by ordinance order the holding of all municipal port district elections. Every such ordinance shall specify the object and time of holding any such election, and shall establish the election precincts, designate the polling places therefor, and appoint the officers of election for each precinct, who must be residents thereof, to conduct the holding of and make returns of such election.

(*b*) The board of port commissioners may consolidate such elections, and when any elections shall have been so consolidated, as herein provided, they shall be held, conducted and returns thereof canvassed and the result thereof declared, in all particulars the same as one election. When two or more municipal port district elections are so consolidated, it shall not be necessary to set forth the precincts, polling places and officers of election, in each ordinance calling each such election, but it shall be sufficient if such precincts, polling places and officers of election are set forth in one such ordinance and the other ordinance or ordinances make reference thereto for such purpose. Unless otherwise designated in the ordinance adopted by the board of port commissioners calling an election, the voting precincts of such election shall be the precincts provided by law for the holding of state and county elections in the municipal corporations included in such municipal port district. The board of port commissioners may, in ordering the holding of any election under the provisions of this act, consolidate such voting precincts into consolidated precincts, not exceeding three for each such consolidated precinct, and shall number such consolidated precincts consecutively and each consolidated precinct so established shall for the purpose of such election be known by the number so designated. In ordering the holding of any election in a municipal port district, the board of port commissioners thereof may reduce the number of officers of election for each precinct or consolidated precincts to one judge, one inspector, and two clerks. The manner of the selection and appointment of such officers of election and their compensation shall be determined by the board of port commissioners. All ordinances ordering the holding or consolidation of elections shall be published in some daily newspapers printed, published and circulated in each municipal corporation included in the municipal port district for at least five (5) days prior to the time appointed for the holding of any election, or for at least two (2) times in a weekly newspaper printed, published and circulated in any of such municipal corporations in which there is no such daily newspaper. And if no such newspaper, either daily or weekly, is so printed, published and circulated in any such municipal corporation, such ordinance shall be posted in three public places therein not less than five days prior to such election.

(c) The clerk of the municipal port district shall provide for every election ballots for each election precinct or consolidated election precinct established therefor, equal to ten per cent (10%) in excess of the total number of electors registered in each such election precinct or consolidated election precinct.

(d) Immediately upon the arrival of the hour when the polls are required by law to be closed, the said clerk shall openly in his office and in the presence of any persons that may then and there assemble to witness his act, proceed to destroy every unused ballot which shall have remained in his possession, custody or control, and forthwith make and file in his office his affidavit in writing stating the number of ballots so destroyed.

(e) The returns of every municipal port district election shall be delivered to the clerk of the district, who shall deliver the same to the board of port commissioners for the purpose of canvassing the returns thereof. The board of port commissioners shall, within ten (10) days after any election either at a regular or special meeting canvass the returns and declare the result thereof.

(f) Whenever requested by the clerk, the board of port commissioners shall authorize him to employ such persons in addition to the persons regularly employed in his office as may be necessary to assist him in the performance of any duty imposed upon him by this act or by the board of port commissioners in connection with the examination of any petition of electors or with the conduct of any election, and the provisions of this act respecting the qualified civil service of the municipal port district shall not apply to the persons so specially employed; *provided, however*, that in the examination of petitions of electors filed with the clerk under the provisions of this act, the clerk may, with the approval of the board of port commissioners, refer the same to the registrar of voters of the county in which such port district is situated and employ such registrar to examine any such petition and certify to the sufficiency or insufficiency thereof. If any such petition is so referred the certificate of the registrar of voters thereto shall have the same force and effect as the certificate of the clerk of the port district thereto under the provisions of this act.

(g) All municipal port district elections shall, except as in this act otherwise provided, be conducted and held in accordance with the provisions of the laws of the State of California for the holding of general or special elections in effect at the time in municipal corporations.

(h) Any person in order to be entitled to vote at any election held under this act, must be registered in the manner and have the qualifications required by the general laws of this state respecting the registration and qualification of voters for state and county elections. The registers or records of registration of electors used at any election held under the provisions of this act, shall be as provided by law for state or county elections.

(i) It shall be the duty of the registrar of voters or other officers of the county in which such municipal port district is situated having custody or control thereof to furnish such registers or records or registration with proper indices thereto to the clerk of the municipal port district at least five (5) days prior to the holding of any such municipal port district election.

(j) All supplies for the holding of any such election shall be provided by the board of port commissioners.

SEC. 45. Any bonds which may be issued by any municipal port district under the provisions of this act shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any moneys or funds may, by law now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts, or municipalities in the State of California, such moneys or funds may be invested in the said bonds of municipal port districts; *provided, however*, no bank shall invest or loan more than five per centum of its assets in any one such bond issue; and the provisions of this section are intended to be, and shall be considered and are suplemental to any and all other acts regulating, relating to and declaring what shall be legal investments.

SEC. 46. Any such bonded indebtedness shall be and remain the indebtedness of each municipal corporation so incurring or authorizing the same, and payment thereof shall be provided for and made by such municipal corporation in all respects the same as if such municipal port district had not been established, *provided, however*, that such municipal port district shall, if there be moneys in the port district revenue fund applicable thereto, make such payments on account of the principal and interest of such bonded indebtedness as there may be moneys available therefor as hereinbefore provided.

SEC 47. The proceeds of the sale of all bonds mentioned in the preceding section of this act remaining unexpended upon the establishment of a municipal port district and the proceeds of the sale of all such bonds authorized and sold thereafter shall be delivered by the custodian thereof to the treasurer of the district, and shall by him be placed in the treasury of the port district to the credit of the proper improvement fund, and shall be applied exclusively by the board of commissioners of the port district to the purposes and object for which such bonds were authorized by the municipal corporation that issued the same. All contracts for the expenditure of moneys from the proceeds of such bonds, and any work under direct construction by any municipal corporation without contract, the cost of which is payable out of the proceeds of such bonds, shall be assumed, taken over and completed and paid for by the municipal port district in like manner as other contracts, or work done directly without contract, by the municipal port district under the provisions of this act.

SEC 48 All contracts by any municipal port district for the construction or completion of any public work or improvement by such district, or for furnishing labor or materials therefor as herein provided, or for other purposes, shall, except as herein otherwise provided, be let by the board of port commissioners on behalf of the district as hereinafter provided, *provided*, that the general manager may, when authorized by the board of port commissioners, without awarding a contract for the construction or completion of any public work or improvement, or for furnishing labor or material therefor as herein provided, do any of said work directly, and the general manager shall have the power, when such board so authorizes, to do said work directly, to purchase the materials, hire the labor and do all other things necessary for the doing of said work; *and provided, further*, that when any of said work is to be done and performed by such municipal port district jointly with the government of the United States, the portion of the cost thereof to be borne by such port district may be turned over to the government of the United States to be expended by it in the performance of said work.

SEC 49. Every contract involving an expenditure of more than one thousand dollars ($1,000) shall, except in cases of urgent necessity, as provided in section fifty of this act, be made in writing, the draft whereof shall be approved by the board, and signed on behalf of the port district by the president of the board, or some other person authorized thereto by resolution of the board, and countersigned by the clerk; *provided, however*, that the approval of the attorney of any such contract as to form, as required by this act, shall be endorsed thereon before the board shall have power to approve the same

SEC 50. A municipal port district shall not be, and is not bound by any contract, involving any expenditure of more than one thousand dollars ($1,000) unless the board of port commissioners shall have first caused notice to be published one or more times in a daily newspaper, or if there be no such daily newspaper, then in a weekly newspaper printed and published in said district, or if no such newspaper, either daily or weekly, is so published, then by posting such notice in a conspicuous place in or near the office of said board, inviting proposals to perform the same, and specifying the amount of the bond to be given for the faithful performance of the contract, and thereafter shall have let said contract to the lowest regular responsible bidder furnishing security for its performance satisfactory to the board The right to reject any and all proposals shall, in every case, be reserved. Every such proposal shall be filed with the clerk of the municipal port district and be accompanied by a check certified by a responsible bank in the municipal port district, payable to the order of such port district for an amount not less than ten per cent of the aggregate sum bid, or by a satisfactory bond for the said amount, and so payable, as a guarantee that the bidder will enter into the proposed contract if the same be awarded to him. No bid shall be considered unless the same is accompanied by such check or bond. The bid of any party who has been delinquent or unfaithful in the performance of any former contract with the port district shall be rejected. If the successful bidder fails within ten (10) days after the contract is awarded to him to enter into the same or to furnish the bond required for the faithful performance thereof, executed by the contractor and by a responsible surety company, or by two or more sufficient sureties approved by the board, then the certified check accompanying his bid shall be presented for payment and collected, and the amount thereof paid into the revenue fund of the port district, *provided, however*, that the provisions of this section requiring the publication of notice inviting the proposals and the letting of contracts to the lowest bidder, shall not apply to contracts for the performance of professional, scientific, technical or expert services of a temporary and occasional character, or for the furnishing of articles covered by letters patent granted by the government of the United States, or for the leasing or purchasing of real property, when approved by a majority vote of the board, *and provided further*, that contracts in writing or otherwise may be let without advertising for or inviting bids, when any repairs, alterations, work or improvement shall be deemed of urgent necessity by said board and such method of letting contracts therefor is approved by three-fifths vote of all its members. Contracts involving an expenditure of one thousand

dollars or less shall be let by the board or by the general manager, when he is authorized so to do by the board, in such manner as such board shall by ordinance prescribe.

SEC. 51. In all cases where bids are not required by this act to be advertised for, bids, either advertised for or not advertised for, shall be obtained as far as reasonably practicable and compatible with the interests of the municipal port district, and a public record of such bids be kept. The right to reject any and all bids shall be reserved in all cases.

SEC. 52. Every proposal referred to in section fifty of this act to perform a contract with a municipal port district shall have thereon, or attached thereto, the affidavit of the bidder that such proposal is genuine, and not sham or collusive, nor made in the interest or in behalf of any person not therein named, and that the bidder has not directly or indirectly induced or solicited any other bidder to put in a sham bid, or any other person, firm or corporation to refrain from bidding, and that the bidder has not in any manner sought by collusion to secure for himself an advantage over any other bidder. Any bid made without such affidavit, or in violation thereof, shall not be considered. If at any time it shall be found that the person, firm or corporation to whom a contract has been awarded has, in presenting any bid or bids, colluded with any other party or parties, then upon the entry of such finding on the records of the board, the contract so awarded shall be voidable at the option of the board, and the contractor and his bondsmen shall be liable to the municipal port district for all loss or damage which the municipal port district may suffer thereby; and the board may advertise for a new contract. Any contractor making a false affidavit may be excluded from future bidding.

SEC. 53. All claims and demands against a municipal port district, except coupons for interest and installments of the principal on bonds payable by such district, shall be paid only on demands as herein provided on forms and blanks to be prescribed by the auditor of the district. Each such claim or demand shall be first presented to and approved in writing by the board of port commissioners or by the officers or employee authorized by this act to incur the expenditure or liability represented thereby. In all cases the date of such approval shall be given. All demands approved by the board of port commissioners or by any officers or employee of the municipal port district shall be presented to the auditor who shall satisfy himself whether the money is legally due and remains unpaid and whether the payment thereof from the treasury of the district is authorized by law and out of what fund. If he approve it, he shall endorse upon it the word "approved" with the designation of the fund out of which it is payable and sign his name thereto, provided that such approval by the auditor shall be valid only for such amount as shall have been approved by the board or by the officer or employee approving the same. If in the judgment of the auditor, such demand should be allowed only for a less amount than approved by such board or by such officer or employee, or if he shall disapprove such demand, he shall transmit the same to the board of port commissioners with his reasons for disapproval. Any demand transmitted to the board of port commissioners by the auditor shall be promptly considered by such board together with the objection of the auditor thereto. The board of port commissioners may overrule or sustain the objections of the auditor to said demand and its acceptance shall be endorsed thereon, certified by the signatures of the president of the board and the clerk, and the demand shall thereupon be returned to the auditor. If the action of the board is to overrule the objection of the auditor, he shall make a record of the demand as in the case of demands approved by him, and if the action of the board is to sustain the objection of the auditor he shall file said demand. No demand shall be approved or audited unless it specify each separate item with the date and amount thereof. The auditor must keep a record of all demands on the treasury approved by him or his objections to which have been overruled, showing the number, date, amount and name of the payee thereof, on what account allowed and out of what funds payable, and it shall be a misdemeanor in office for the auditor to deliver any demand with his approval thereon, or otherwise, until this requirement has been complied with. Every lawful demand upon the treasury of a municipal port district shall in all cases be paid on presentation and cancelled, and the proper entry thereof be made if there be sufficient money in the treasury belonging to the fund out of which it is payable, but if there be not sufficient money belonging to said fund to pay such demand, then it shall be registered in a book to be kept by the treasurer for that purpose, showing its number, when presented, dated, amount, name of payee, and on what account allowed and out of what fund payable, and when so registered it shall be returned to the party presenting it with the endorsement of the word "registered", dated and signed by the treasurer. All registered demands shall be payable in the order of their registration. Nothing in this section contained shall be construed to prevent the payment by the treasurer of bonds of the municipal port district or of boards of municipal corporations in such districts and interest coupons thereof, in accordance with the constitution of the state and the provisions of this act authorizing the issuance and payment of such bonds.

The salaries or wages of all officers and employees of the municipal port district shall be paid either monthly, semi-monthly, or weekly, as the board of port commissioners may by ordinance determine.

SEC. 54. All appointments to offices or positions in the service of any municipal port district, excepting for the offices of general manager, clerk, auditor, chief engineer, attorney and treasurer of such port district, shall be made by the board from a classified civil service for employees of such port district to be established by the board of port commissioners. The board of port commissioners shall, by ordinance, establish classes for all offices and places of employment other than the offices hereinbefore specified, and prescribe rules and regulations for the government of such classified civil service. Such rules and regulations shall provide:

(6) For the transfer from one position to a similar position of the same class;

(7) For the reinstatement to the list of eligibles, on recommendation of the general manager, of persons who have become separated from the service or have been reduced in rank therein, other than of persons who have been removed for cause;

(8) For the keeping of service records of all employees in the civil service, and for the use thereof as one of the basis for promotions or lay-offs through stoppage or lack of work;

(9) For the procedure for the removal, discharge or suspension of employees; for the investigation by the board of the grounds thereof, and for the reinstatement or restoration to duty of persons found to have been removed, discharged or suspended for insufficient grounds or for reasons that are not sustained upon such investigation.

(10) And generally for any other purpose that may be necessary or appropriate to carry out the objects and purposes of such civil service system and of the rules herein specifically authorized

Upon the request of the general manager, the following persons may be exempted by the board, by ordinance, from the provisions of this section: (*a*) Persons employed to render professional, scientific, technical or expert service of a temporary or exceptional character, (*b*) The first and second deputies or assistants of any officer of the port district or of the chief engineer in the services of the district; (*c*) Persons employed on the construction of port district works, improvements, buildings or structures; (*d*) Persons receiving a salary not exceeding fifty dollars per month; and any exemption so made may be terminated at any time by resolution of the board of port commissioners.

SEC. 56. The board of port commissioners or other officers of the port district shall have no power to incur any debt or liability whatever, either by issuing bonds or otherwise, in excess of the express provisions of this act, and any debt or liability incurred in excess of such express provisions shall be and remain absolutely void.

SEC. 57. No member of the board of port commissioners or any other officer of a municipal port district shall be financially interested, directly or indirectly, in any contract, sale, purchase or transaction to which the municipal port district is a party, and no member of such board or other officer shall vote on or participate in any such contract, sale, purchase or transaction in which he is financially interested, directly or indirectly. If any member of such board or any such other officer, shall, during the term for which he was appointed or elected, so vote or participate, he shall be deemed guilty of a misdemeanor and shall, upon conviction thereof, forfeit his office, and be punishable by a fine not exceeding $500.00 or by imprisonment for a period not exceeding six months in the county jail of the county in which such municipal port district is situated Any such contract, sale, purchase or transaction shall be and become void at the election of the municipal port district, declared by resolution of the board of port commissioners.

SEC 58. No suit shall be brought against a municipal port district on any claim for money or damages until a claim or demand therefor setting forth with reasonable certainty the various items of the claim or demand, and verified by the claimant or his or its authorized agent, has been presented to the board of port commissioners, and rejected in whole or in part. In case the board of port commissioners shall fail or refuse to allow or reject such claim, either wholly or in part, for a period of six months after its presentation, such failure or refusal shall, upon the expiration of such period, be deemed a rejection of the claim All claims against a municipal port district must be presented to the board of port commissioners and filed with the clerk of the district within one year after the debt or the last item thereof for which the claim is made shall have been incurred, or within one year after the occurrence or transaction from which any damages are claimed to have arisen. Otherwise there shall be no recovery on any such claim.

SEC. 59. Nothing in this act shall be so construed as repealing, modifying or otherwise affecting the provisions of any other act relating to port districts or harbor districts other than municipal port districts or the establishment thereof, and no other act providing for the establishment of port districts or harbor districts, other than municipal port districts, shall repeal, modify or otherwise affect this act or any of the provisions hereof.

SEC 60 If any section, subsection, sentence, clause, or phrase of this act is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. Separate proceedings may be had and taken for such an acquisition or improvement or both such acquisition and improvement may be included within and consummated in a single proceeding Where the latter procedure is followed, public ways already acquired, as well as the whole or a portion of those to be acquired under the proceeding, may be improved under the one proceeding. The acquisitions and improvements above provided for may comprehend and include the whole or any portion or portions, either in length or in width, of any one or more of such public ways, property and rights-of-way, whether the same are contiguous or otherwise. In addition to the above authority, power and jurisdiction, there is hereby granted the following authority, power and jurisdiction To issue and sell, or otherwise dispose of, bonds representing the costs and expenses of any such acquisitions and improvements, as in this act hereafter provided, to constitute a fund for the payment of such bonds as in this act hereafter provided and to levy and collect special assessment taxes upon districts as in this act hereafter provided; to establish such districts and determine their boundaries and to establish and fix the boundaries of zones therein, as in this act hereafter provided; to establish grades for the doing of any work or the making of any improvement authorized in this act, as in this act hereafter provided; to make transfers of money from county funds or funds of the municipality to such special funds as are in this act hereafter provided, to purchase material and furnish the same to be used in any of the improvements comprehended in this act, as in this act hereafter provided; to make direct contributions of money in part payment of the expenses of any one or more or all of the acquisitions and improvements comprehended in this act; to create and administer revolving funds to facilitate and assist in the carrying on and completing of such acquisitions and improvements, as in this act hereafter provided; and to do any and all things necessary or incidental to the accomplishment of the things which are permitted to be done under this act The jurisdiction of the legislative body of a county shall extend over and it shall have said power and authority to acquire and improve public ways within the boundaries of such county, and also those forming the exterior boundary of any municipality or municipalities where the same join unincorporated territory of the county, and also public ways and property owned by the public and lying within one or more municipalities, the acquisition and/or improvement of which, in the judgment of said legislative body, is or are necessary or proper to complete or connect with any public way or ways in unincorporated territory of the county already acquired

or to be acquired under the proceeding, and/or any improvement or improvements already made or to be made thereunder: *provided*, that the consent of the legislative body or bodies of such municipality or municipalities, within the boundaries of which such public ways and property lie, shall first be obtained thereto and to the assessment of the property therein, which, in the opinion of the legislative body of the county, will be benefited thereby. Likewise, the jurisdiction of the legislative body of a municipality shall be extended over and it shall have said power and authority to acquire and improve public ways within the boundaries of such municipality, and also those forming its exterior boundaries where it joins unincorporated territory of the county or the territory of another municipality, and also public ways and property owned by the public within unincorporated territory of a county or of one or more municipalities, the acquisition and/or improvement of which, in the judgment of said legislative body, is or are necessary or proper to complete or connect with any public way within its limits already acquired or to be acquired under the proceeding, and/or any improvement or improvements already made, or to be made thereunder; *provided*, that the consent of the legislative body or bodies of the county and of such other municipality or municipalities within the boundaries of which such public ways and property lie, expressed by resolution, shall first be obtained thereto and to the assessment of the property therein, which, in the judgment of the legislative body of the municipality conducting the proceeding will be benefited thereby. The true intent and meaning of the above provisions for such acquisitions and improvements is that the necessary jurisdiction and power for the consummation thereof shall be vested in, and proceedings therefor may be had and taken by, the legislative body either of the county or of any municipality in which the public interest or convenience is affected thereby and that each of said legislative bodies shall have concurrent jurisdiction to initiate such proceedings, *provided*, that the legislative body initiating the proceeding and adopting the resolution of intention therefor, as hereinafter provided, shall thereafter have exclusive jurisdiction of the proceeding and of all acquisitions and improvements comprehended therein, for the purposes of consummating the same.

SEC. 3. The legislative body initiating and conducting any proceeding under this act shall have power and authority, in addition to that elsewhere given, as follows, to wit:

(1) To appoint and employ, at any stage of the proceedings before calling for bids, any competent engineer, to be designated "engineer of work," for the purpose of doing and furnishing all the civil engineering work or services, surveying and all similar work and services necessary to the proper performance of the improvement. His compensation, or at least the rate thereof or some basis for computing the same, shall be fixed and stated in the order of his appointment, which said order shall be entered in the minutes of the legislative body; *provided, however*, that any county officer, if the proceeding is conducted by the legislative body of the county, and that any municipal officer, if the proceeding is conducted by the legislative body of a municipality, may be appointed such engineer of work without compensation.

(2) To appoint, in and as a part of the resolution of intention, any competent person, to be designated "superintendent of work," whose duty it shall be to perform the services prescribed or indicated for him in this act and to have the general actual supervision of the improvement constructed. His compensation shall be fixed at the time and in the resolution is his appointment at a per diem for all time actually devoted to the work; *provided*, that any county officer, in case the legislative body of a county is conducting the proceeding, and any municipal officer or board, in case the legislative body of a municipality is conducting the proceeding, may be appointed as such superintendent without compensation.

(3) To appoint and designate any competent person for the purpose of preparing and furnishing the specifications as set forth in section four of this act and to fix his compensation or some basis for computing the same, or to appoint and designate any officer of the county or officer of the municipality, as the case may be, for such purpose, without compensation.

(4) To appoint and employ, in and as a part of the resolution of intention or later in the proceeding, by an order to be entered upon its minutes, any competent attorney whose duty it shall be to perform the services in this act prescribed or indicated in connection with the proposed acquisition, whose compensation, or at least the rate thereof or some basis for computing the same, shall be fixed and stated in the order of his appointment; *provided, however*, that if no appointment or employment of an attorney is made as above provided then the services to be performed by the attorney as prescribed or indicated in this act shall be performed by the city attorney, in cases where the proceedings are initiated and conducted by the legislative body of a municipality, and in cases where such proceedings are initiated and conducted by the legislative body of a county by the district attorney of the county, except that in counties having freeholders' charters creating the office of county counsel they shall be performed by the county counsel.

(5) To appoint and designate other competent persons in the places respectively of the persons so originally appointed, with compensation (so far as practicable) proportionately the same as fixed for the original appointees, and to appoint such additional persons as may be needed to accomplish the thing or things to be done

under this act, and to fix their compensation, which shall be a charge against the district.

No part of such or any compensation for said officers or employees so appointed or designated, or for services rendered by any of them, shall be a charge against the county or municipality or any officers thereof, *provided*, that the county, in proceedings conducted by its legislative body, and the municipality, in proceedings conducted by its legislative body, shall be liable for the expenses of the preparation and furnishing of specifications and of the posting and publication of all resolutions and notices required to be posted and published in the event that proceedings cease or are abandoned before the award of the contract, or before a final judgment is obtained, but such expenses, for which the county and municipality respectively are liable and which shall have been paid thereby, may be charged, as incidental expenses, against the district benefited in any new proceeding had or taken for an acquisition or improvement, or both, which shall include the same or approximately the same thing or things to be done as those included in the abandoned proceedings. Whenever any county or municipal officer is appointed and designated to any of the positions or duties hereinabove mentioned without compensation, the actual and necessary expenses incurred under his supervision, including the compensation of other persons, made necessary by the duties of such positions, shall be a charge against the county or municipality appointing and designating him, but shall be repaid to such county or municipality as incidental expenses of the proceeding

No member of the legislative body of any county or municipality shall be eligible to appointment to any office, position or employment under this act, except as a county or municipal officer without pay.

SEC. 4 The legislative body desiring to initiate proceedings for the making of any acquisition or improvement, or both an acquisition and improvement, under the provisions of this act, may, by an order to be entered upon its minutes, designate some county officer, if the legislative body be that of a county, or some municipal officer, if it be that of a municipality, or some other competent person, in either case, and direct him to prepare and furnish specifications for the proposed acquisition or improvement, or both. The said specifications in the case of an improvement, shall include all plans, profiles, cross-sections and specifications necessary therefor, together with a statement of the estimated costs of the improvement (inclusive of incidental expenses and costs of the proceeding), a description of the district to be benefited by the proposed improvement and a map or plat showing the same and also the different zones within said district (if any are necessary because of varying benefits) containing the lands to be benefited in like measure but in a different measure from those in other zones therein, with a statement as to what percentage of the sum to be raised each year for the payments on the principal and interest of the bonds should be raised from each zone, and shall show the grades to which the contemplated improvements are to be constructed. In the case of an acquisition, the said specifications shall include correct descriptions of all property to be acquired together with a map or plat showing the same, and a description of the district to be benefited by the proposed acquisition and a map or plat thereof, and the other matters relating to zones and percentages as above required in the case of improvements In the event that the contemplated proceeding includes both an acquisition and improvement all of the above requirements shall be included in the specifications, the district, zones and percentages set forth to comprehend both the contemplated acquisition and improvement. Said specifications shall be signed by the person designated and directed to prepare them and presented to the legislative body ordering them. Said legislative body shall examine the said specifications and may approve them or order modifications or changes to be made therein When approved by the legislative body they shall be filed with the clerk of said body. At any time before the adoption of a resolution of intention the specifications may be corrected or modified by the order of said body.

Any error or informality in the appointment of any officer or other person to prepare specifications, or the omission of a formal order of appointment altogether, shall not invalidate or in any way affect the proceedings

SEC 5. Before ordering any acquisition or any improvement authorized by this act, the legislative body which is to conduct the proceeding shall adopt a resolution of intention so to do, referring to the public way, in the case of a public way already acquired, by its lawful or official name, or the name by which it is commonly known, and in the case of a public way to be acquired under the proceedings, by the name by which such public way is to be called upon its acquisition (which name shall thereby be fixed and established), and when the acquisition or improvement is of property or a right-of-way owned or to be acquired by the public, then by briefly describing the said property or right-of-way. In the case of an acquisition, the resolution shall briefly set forth that a public way or property or right-of-way (naming or otherwise describing it) is to be acquired, and describe the property necessary or convenient to be taken therefor It shall be determined in said resolution that the public interest and necessity require the acquisition therein set forth, and that said property to be taken is necessary therefor. Said resolution, in the case of an acquisition, shall be adopted by a vote of two-thirds of the members of said legislative body. In the case of an improvement, said resolution

shall determine that the public interest and necessity require the improvement set forth in the resolution and shall briefly describe the improvement, it being sufficient to state in general terms the class or kind of work contemplated (such as grading, paving, sewering, or other work or improvement), and to give in general the location of the proposed improvement and refer to the plans, profiles, detail drawings and specifications therefor, or such of them as may be suitable or proper (which shall be approved by said legislative body and be on file in the office of the clerk thereof at the time of the adoption of said resolution), for a full and detailed description and location of said proposed improvement, and of the grades to which said improvement is to be constructed. Said resolution shall contain the following statement: "The notice of all persons affected is directed to the grades for the proposed improvement and to the provisions of the Acquisition and Improvement Act of 1925 relating to grades". If both acquisition and improvement are contemplated in the same proceeding, one resolution of intention, containing the above requirements in the respective cases, shall be sufficient. Said resolution shall also contain a description of the district of the lands to be benefited by said proposed improvement or acquisition, or both, as the case may be, which shall be known thereafter and which will in this act hereafter be referred to as the "assessment district". Each proceeding under this act may, for convenience, be entitled, and such entitling shall be sufficient for all purposes, "In the matter of Acquisition and Improvement District No. ____ of the County (or City, as the case may be) of _____" (giving a different number to each district for which a proceeding is had) and a like designation of the district (omitting the words "in the matter of") shall be a sufficient designation of the district at all times and for all purposes. The said description of the assessment district may be in general terms, referring to a plat or map approved by the legislative body conducting the proceeding, which shall be on file in the office of the clerk of such legislative body at the time of the adoption of said resolution of intention, and which shall indicate by a boundary line the extent of the territory to be included in the proposed assessment district, which said plat or map shall govern for all details as to the extent of said assessment district. Said resolution shall also contain a statement that, for the expenses of the things therein proposed to be done bonds will be issued to the total amount of the same, excepting the amount, if any, to be contributed thereto by the county or municipality in money or by the furnishing of materials therefor, said bonds to bear interest at the rate of ____(not to exceed eight)____ per cent per annum, payable semi-annually, and the aggregate principal of all bonds issued under the proceeding to be paid and discharged within ____(not to exceed thirty)____ years after the date of issuance, approximately one ____(not less than one-thirtieth)____ part of such aggregate principal to be payable annually, all in gold coin, and that a special fund for the payment of said bonds will be constituted by the levy of special assessment taxes upon the lands within the assessment district, in accordance with the provisions of this act, according to the assessed value of said lands, exclusive of the improvements thereon, except as otherwise in this act provided. If the legislative body so determine, it shall include in said resolution a statement that the first payment on the aggregate principal of the bonds issued will be made ____(not to exceed five)____ years after the issuance thereof.

The lands upon which said special assessment taxes shall be levied shall be all those lying within the assessment district, including any lands which are the operative property of any public utility; *provided*, said lands shall not include any lands belonging to the United States government or the State of California, but they shall include all lands belonging to any county, municipality, district, public agency, mandatory of the government, school board, educational, penal or reformatory institution, or institution for the feeble minded or insane, included within the assessment district, whether being in use in the performance of any public function or otherwise; *provided, however*, that the legislative body conducting the proceeding may, in the resolution of intention, declare that any land or lands, describing the same, belonging to any county, municipality, district, public agency, mandatory of the government, school board, educational, penal or reformatory institution, or institution for the feeble minded or insane, lying within the assessment district, or any of them, shall be omitted from the said district and from the levy and collection of the special assessment taxes thereafter to be levied and collected to cover the expenses of the acquisition or improvement, or both, as the case may be, and in the event that said lands or any of them shall by said resolution be so omitted then the total expenses of the proceeding shall be met by the levying and collection of such special assessment taxes upon and from the remaining lands within the assessment district, without regard to such omitted lands. In order that any such lands may be so omitted, however it must be determined and set forth in the resolution of intention that such lands are in use in the performance of a public function.

If, in the judgment of the legislative body conducting the proceeding, varying benefits to be derived by the different parcels of land lying within the assessment district so require, the said district may be divided into zones according to benefits. Said district may be divided into as many zones—up to the total number of parcels of land in the district—as may be deemed necessary, and each zone shall be composed

of and include all the lands within the district which will be benefited in like measure Said legislative body shall also determine the percentage of the sum to be raised each year by the levy and collection of said special assessment taxes in said district for the payments on the principal and interest of the bonds, which will be raised from the lands in each zone. When the district is divided into such zones the resolution of intention shall so state, giving said percentages to be raised from the lands in each zone Each zone shall be designated by a different letter or number and shall be plainly shown upon the map or plat of the assessment district filed in the office of the clerk of said legislative body and referred to in the resolution of intention, either by separate boundaries, coloring, or other convenient and graphic method, so that all persons interested may with accuracy ascertain within which zone any parcel of land is located. It shall be sufficient in all cases where the assessment district is to be divided into such zones according to benefits if the resolution of intention states that fact and refers to said plat or map for the boundaries and all details concerning the said zones

Said resolution shall contain a notice of a day, hour and place (to be fixed therein) when and where any and all persons having any objections to the proposed acquisition or improvement, or both (if both be included in the proceeding) to the proposed grades to which the improvement (if any) is to be constructed, to the extent of the assessment district, to the zones (if any) into which said district is to be divided, or to the percentages to be raised from each of said zones, or to any or all of the foregoing, may appear before the legislative body conducting the proceeding and be heard. Said time shall not be less than fifteen nor more than sixty days from the date of the adoption of said resolution. The clerk of said legislative body shall cause said resolution of intention to be published by at least two insertions.

SEC. 6. The grades to which any work shall be done or improvement made under proceedings had in pursuance of this act shall be those shown upon the plans, profiles and detailed drawings (or such of them as may be suitable or proper) referred to in the resolution of intention In the case of the improvement of public ways, property or rights-of-way, to be acquired and improved under the same proceeding, the legislative body conducting the proceeding shall have jurisdiction and power to and shall determine and establish the grades to which the improvements are to be constructed, and the adoption of the resolution of intention shall be deemed to be such a determination and establishment of the grades therein referred to—subject to any changes which may be made upon the hearing of any objection thereto. In the case of the improvement of public ways, property or rights of way already acquired, said legislative body shall likewise have jurisdiction and power to and shall determine and establish the grades to which the improvements are to be constructed, and the adoption of the resolution of intention shall be deemed to be such a determination and establishment of the grades therein referred to—subject to any changes which may be made upon said hearing. In the latter case the grades so determined and established for such purpose may be either the grades, or any of them, which have previously been officially or otherwise established or adopted, or they may be grades different, modified or changed from those previously so established or adopted In all events the statement contained in the resolution of intention directing notice to the grades, as heretofore provided, shall constitute sufficient notice thereof to any person affected Any property owner whose property is included within the assessment district for the proposed improvement and any other person whose rights are affected may, at the time fixed in the resolution of intention for the hearing of objections, appear before the legislative body conducting the proceedings and present written objections to the grade or grades to which any or all of the improvements are proposed to be constructed. A failure to make such written objection at such time shall be deemed to be a waiver of all objections to the grade or grades to which the improvement is proposed to be constructed, whether such grade or grades be different, modified or changed from those previously established or adopted, or not, and shall operate as a bar to any claim for damages, and any action looking to the prevention of the work or improvement, the avoiding of paying therefor, or recovery of damages on account of the construction of the work or improvement or grades The provisions of this section relative to grades are alternative and shall not repeal the provisions of any other statute relative to change of grade, but shall govern and control for all purposes and for all improvements made in proceedings conducted under this act

SEC. 7 The legislative body of the county or municipality conducting the proceedings may determine that any part of the expenses of the acquisition or improvement, or both, as the case may be shall be paid out of the treasury of the county or municipality, as the case may be, and such payment, or any part of the same, may be made from the general fund of such county or municipality or from any other fund available to such county or municipality and from which expenditures may be made for acquisitions or improvements of like character as those which may be made under this act Said legislative body conducting the proceedings may also purchase all or any part of the materials to be used in constructing any of the improvements included in the contract therefor made under this act and furnish the same therefor, said purchase to be made from any of the funds above mentioned If such county or municipality has a purchasing agent, said materials shall be purchased by him, otherwise said materials shall be purchased by the legislative body

by contracts let to the lowest responsible bidder after notice calling for bids has been published by at least two insertions in a newspaper, or by any other method prescribed by law for the purchase of materials by a county or municipality. If the county or municipality is to furnish materials or make payment toward said expenses, the resolution of intention shall so provide and shall state the fund from which such materials are to be purchased or payments made. When such provision is made, the execution of the contract for the improvement (in the case of an improvement), and the obtaining of an interlocutory judgment (in the case of an acquisition), shall create a liability on the part of the county or municipality, as the case may be, to furnish the materials or make the payments provided for in the resolution of intention. In the event that the acquisition or improvement, or both such acquisition and improvement, under the proceeding includes any acquisition or improvement, or both, within the territory of a county or any municipality or municipalities for which the legislative body conducting the proceeding does not function, the legislative body of such county or municipality may determine that any part of the expense of the acquisition or improvement, or both, in the proceeding shall be paid out of its treasury, or materials therefor furnished, as above provided, from any of its funds above mentioned. Such determination shall be expressed by resolution of such legislative body which shall be transmitted to the legislative body conducting the proceeding and thereupon a liability of such county or municipality to furnish such portion of such expenses and/or materials provided for shall be created as above provided. The resolution of intention shall set forth the fact that such portion of the expenses and/or such materials are to be paid and/or furnished by such county or municipality.

SEC. 8. After the adoption of the resolution of intention the superintendent of work shall cause to be conspicuously posted along the line of said contemplated work or improvement, if an improvement is contemplated, and along the line of the property to be acquired, if an acquisition is contemplated, at not more than three hundred feet in distance apart but not less than three in all, notices of the adoption of said resolution, *provided, however*, that the failure to post any or all of said notices shall in no event affect the validity of the proceedings or the jurisdiction and power of the legislative body to order the acquisition or improvement, or both. Said notices shall be entitled "Notice of Public Improvement" in letters of not less than one inch in length, and shall, in legible characters, state the fact of the adoption of the resolution of intention, its date, and briefly and in general terms, the improvement or acquisition, or both, as the case may be, proposed, and refer to the resolution of intention for further particulars. The said notices need not contain a description of the assessment district described in the resolution of intention but may refer to said resolution therefor. Said notices shall contain also a statement of the day, hour and place when and where any and all persons having any objections to the proposed improvement or acquisition, or both, as the case may be, or to the grade or grades to which the improvement is proposed to be constructed, or to the extent of the assessment district, or to the zones, if any, into which such district is divided, or to the percentages to be raised from each of such zones, or to any or all of the foregoing, may appear before the legislative body and be heard.

If deemed advisable and the legislative body so orders, said notices may consist of printed copies of the resolution of intention, entitled as above provided, and the same shall be sufficient for all purposes of said notice.

The legislative body may, if it deems it advisable, direct the clerk thereof to mail copies of said notices to the owners or reputed owners whose names and addresses are known to him, but the mailing of such notices shall not be essential to obtaining jurisdiction by the legislative body and the failure so to do shall not affect in any manner the validity of any proceedings taken hereunder. The failure of the legislative body to so direct said clerk shall presume a finding by said body that said mailing is not advisable or necessary.

SEC. 9. At any time not later than the hour set for hearing objections as provided in the preceding section, any owner of land within the boundaries of the assessment district as set forth in said resolution may, severally, or with other such owners, file with the clerk of the legislative body conducting the proceedings written objection to the thing or things proposed to be done, whether it be an improvement or acquisition, or both, or to the grade or grades to which the improvement is proposed to be constructed, or to the extent of the assessment district, or to the zones, if any, into which the said district is divided, or to the percentages proposed to be raised from each of said zones, or to any or all of the foregoing. Upon such hearing all objections and protests to the doing of the thing or things proposed to be done shall be heard and considered. If upon said hearing it appears that the owners of more than one-half of the area of the property included within the entire assessment district, as proposed, have in writing made objection to the doing of the thing or things proposed to be done, i. e. the improvement or acquisition, or both, as the case may be, in their entirety, and to the ordering of the same, the legislative body shall, by a resolution to be entered upon its minutes, so find and thereupon such legislative body shall have no power to proceed further under said resolution of intention nor to adopt any resolution for doing the same thing or things during a period of six months next succeeding the time of such finding, unless the said

objections be overruled by an affirmative vote of four-fifths of the members of such legislative body. In order that such objections operate as a bar, as aforesaid, in the absence of such a four-fifths vote, they must specifically state that the objections are to the doing of the thing or things proposed in their entirety and not merely to some item, class, kind or part of the thing or things proposed to be done. If the fact be that the owners of more than one-half of the area of the property included within the entire district as proposed have not so in writing made objection going to the ordering of the thing or things proposed to be done, as an entirety, the legislative body shall so find, and may thereupon proceed with the hearing, but such finding need not be in writing and may, for the purpose of proceeding with the hearing, be a mere announcement of the body. Next shall be heard, in any order desired by such body, such objections as shall be made to the extent of the district and to the zones, if any, into which said district is divided and to the percentages to be raised therefrom as set forth in the resolution of intention, and objections to the grade or grades to which the improvement is proposed to be constructed.

The hearing may be continued from time to time by the legislative body by an order to be entered upon its minutes.

Owners of land within the meaning of this section are those, and those only, who appear to be such upon the records in the recorder's office of the county in which the district is situated on the day before the day set for said hearing, and an executor or administrator shall be deemed representative of his decedent, and a trustee of an express trust in land, other than as security for the payment of money, of the land held in such trust, and a trustee in bankruptcy of the bankrupt, and a guardian of his ward. The objection of any owner may be made by the signature of his agent, provided that there must be attached to the objection the affidavit of the agent that he is duly authorized to sign said objection. Every written objection must contain a description of the property in which each signer thereof is interested, sufficient to identify it, and must set forth the nature of his interest therein and, if signed by more than one objector, must be accompanied by the affidavit of one of the signers thereto that each signature thereof is the genuine signature of the person whose name is thereto subscribed. Any written objection not complying with the foregoing requirements shall not be considered by the legislative body in determining whether objection has been made to the doing of the thing or things proposed to be done, as an entirety, by the owners of more than one-half of the area of the property included within the assessment district.

SEC. 10. Unless the power to proceed shall have ceased, as hereinbefore provided, the legislative body shall in conclusion of the aforementioned hearing and as a determination of all questions arising thereat, by resolution to be entered upon its minutes, declare its finding that the owners of more than one-half of the area of the property included in the assessment district have not made written objection going to the entirety of the thing or things proposed to be done, or, if such objection has been made, that such objections are overruled by an affirmative vote of four-fifths of the members of the legislative body. Said legislative body may at the conclusion of the hearing thereon and in said resolution determine the extent and boundaries of the assessment district and may exclude from the district described in the resolution of intention any parcels of land which it may find will not be benefited by the doing of the thing or things proposed to be done. It may also change or modify the zones, if any, into which said district is divided, so that each zone shall be composed of the lands within said district which will be benefited in like measure; and it may also change the percentage of the amount to be raised in each such zone, so that such zoning and the raising of the special assessment taxes therefrom shall best, in its judgment, reflect the benefits to be derived by the parcels of land included therein. If no changes be made in the boundaries of the assessment district, as the same are set forth in the resolution of intention, or no changes are made in the zones or the percentages to be raised therefrom as set forth in said resolution, it shall be sufficient to state that the boundaries of the district, the zones and the percentages to be raised therefrom, are those set forth in the resolution of intention; but if any changes be made in the boundaries of the assessment district, the boundaries as finally determined shall be fully set forth in said resolution, and the plat or map of the assessment district on file in the office of the clerk of said legislative body and referred to in the resolution of intention shall be made to show said boundaries as finally determined, and if any changes be made in the zones referred to in the resolution of intention, the description of the boundaries of said zones, as finally determined, shall be fully set forth, and said plat or map on file in the office of the clerk of the legislative body shall be changed to show the boundaries of said zones as finally determined, and, if any change be made in the percentages to be raised from the several zones, the resolution shall so state, giving the percentage to be raised from each zone, as finally determined. The boundaries of the district, as the same are set forth in the resolution of intention, shall not be so changed as to include within the district any territory not within its boundaries as set forth in said resolution.

If no change be made as to the grades, as set forth in the plans and specifications and referred to in the resolution of intention, it shall be sufficient to state in the resolution adopted at the conclusion of said hearing, that the grades, as finally

determined, are those set forth in such plans and specifications, but if any changes are made in the grades, as set forth in the plans and specifications and referred to in the resolution of intention, such changes shall be set forth in said resolution adopted at the conclusion of said hearing

The boundaries of the assessment district, the location and extent of the zones, if any, and the percentages to be raised therefrom, so determined, shall then be established and prevail for all purposes of the proceeding and until any bonds to be issued for the expenses of the thing or things to be done shall have been fully paid and discharged, and the grades so determined shall be the grades for all the purposes of the proceeding and the improvement to be done thereunder. The findings and determination of said legislative body upon the matters of the extent and boundaries of the assessment district, the zones, if any, into which said district is divided, the percentage of the expenses to be raised from each of said zones, the grades to which the improvement is to be constructed, and the necessity for the acquisition, or improvement, or both, comprehended by the proceeding, shall be final and conclusive.

SEC. 11. Having thus taken action upon all objections and protests to the doing of the thing or things proposed to be done and having determined the boundaries of the district and of the zones, if any, and the percentages to be raised therefrom, and the grades for the improvement, the legislative body shall have jurisdiction and may, by resolution, order the thing or things proposed to be done in the resolution of intention to be done. The resolution ordering the doing of the thing or things proposed to be done may be the same in which all of the final determinations above mentioned are made, or it may be a separate resolution, in which latter case it shall refer to the resolution making said final determinations. Neither said resolution ordering the doing of the thing or things proposed to be done nor any resolutions, notices, orders or determinations thereafter made or given in the proceeding need contain a description of the work or improvement to be done or the property to be acquired, and it shall be sufficient in any of the foregoing to refer therein to the resolution of intention for a description of the work or improvement to be done, or the property to be acquired, or both as the case may be, and, if the boundaries of the district, the zones, percentages and grades set forth in the resolution of intention have not been changed, it shall be sufficient in any of the foregoing to refer therein to the description of the same set forth in the resolution of intention, but if said boundaries, said zones, said percentages, and said grades or any or all of the same have been changed then it shall be sufficient to refer to the resolution changing and determining the same for a description thereof and all details relative thereto. If said resolution ordering the doing of the thing or things proposed to be done includes the acquisition of property, the legislative body shall therein direct an action to be brought by the attorney, in the proper superior court, in the name of the county or of the municipality for which the legislative body conducting the proceedings functions as the case may be, for the condemnation of the property necessary or convenient to be taken therefor. If said resolution orders work or improvement to be done, the legislative body shall therein fix a time for receiving bids for doing said work or improvement and direct the clerk thereof to give notice accordingly, inviting sealed bids.

SEC. 12. Such notice inviting bids shall include a statement that the work or improvement is to be done under the provisions of this act, and according to the plans and specifications on file therefor, except in so far as the grades specified therein shall have been fixed otherwise by the legislative body in conclusion of the hearing heretofore provided, to which said act, to the resolution of intention and all proceedings had hereunder the attention of the bidders shall be directed, and they shall by reference be made a part of said notice. Said notice inviting sealed bids shall, by the clerk of said legislative body, be published by at least two insertions and, not necessarily simultaneously, a copy of the same shall be posted and kept posted for five days at or near the chamber door of said legislative body. The time fixed for receiving said bids shall be not less than ten days from the time of the first publication of said notice. All bids offered shall be accompanied by a check payable to the county or municipality, as the case may be, certified by a responsible bank, for an amount not less than ten per cent of the aggregate of the bid, or by a bond for said amount and so payable, signed by the bidder and either one duly authorized corporate surety, acceptable to said legislative body, or two sureties qualifying each in double the amount of the bid over and above all statutory exemptions, before an officer competent to administer oaths. Said bids shall be delivered to the clerk of said legislative body and said legislative body shall, in open session, publicly open, examine and declare the same, and no bids shall be considered unless accompanied by said check or such a bond satisfactory to said legislative body. Said legislative body may reject any and all bids should it deem this for the public good, and also the bid of any bidder who has been delinquent or unfaithful in any former contract with said county or municipality, as the case may be, and shall reject all bids other than the lowest regular bid of any responsible bidder, and may award the contract for said work or improvement to the lowest responsible bidder at the prices named in his bid. If all bids are rejected or no bids are received the legislative body may thereafter readvertise for bids as in the first instance, without further proceedings, and as many times thereafter as it deems necessary until a satisfactory bid has been received, and thereafter proceed in the manner in this section above provided

and shall thereupon return to the proper parties their respective checks and bonds covering the bids so rejected. The check or bond accompanying the accepted bid shall be kept by the clerk of said legislative body until the contract for doing said work or improvement, as hereinafter provided, has been entered into. If said bidder fails, neglects or refuses to enter into the contract to perform said work or improvement, as hereinafter provided, then the certified check accompanying his bid and the amount therein mentioned shall be declared forfeited to said county or municipality, as the case may be, and may be collected by it and paid into its general fund, and any bond forfeited may be prosecuted, and the amount due thereon collected and paid into said fund.

SEC. 13. Notice of such award of contract shall be published by the clerk of said legislative body by two insertions and posted for five days in the same manner as hereinbefore provided with respect to the publication and posting of the notice inviting bids.

SEC. 14. If the bidder to whom the contract was awarded fails, neglects or refuses, for twenty days after the first publication of the notice of award, to enter into the contract, then said legislative body, without further proceedings, shall direct its clerk to give a new notice inviting sealed bids and thereupon said legislative body shall proceed as in the first instance, and as in the case of default of the first awardee, so also in the event of subsequent defaults, and any delay occasioned thereby shall in no way affect the validity of the proceedings or any assessments levied thereunder. The bids of all bidders who have failed to enter into the contract as herein provided may for that reason be rejected in any bidding subsequent to the first for the same work.

SEC. 15. Before being entitled to a contract, the bidder to whom the award thereof has been made must advance and pay to the superintendent of work, for payment by him, the costs and expenses of publishing and posting the notices, resolutions, orders and matters required under the proceedings prescribed in this act and of such other notices as may be deemed requisite by the legislative body, together with all other incidental expenses incurred up to the time of entering into the contract.

SEC. 16. At any time within ten days from the date of the first publication of the notice of award of the contract any owner of, or other person having any interest in any parcel of land within the boundaries of the assessment district, who claims that any of the previous acts or proceedings relating to the work or improvement are irregular, defective, erroneous, faulty, or invalid, for any reason, may file with the clerk of the legislative body a written notice specifying in what respect said acts and proceedings are irregular, defective, erroneous, faulty, or invalid. Said notice shall state that it is made in pursuance of this section. All objections to any acts or proceedings relating to the improvement prior to the time within which such objections are permitted by this section to be filed, not made in writing and in the manner and at the time aforesaid, shall be waived. It is the intent of this section that any person failing to file such notice within the time specified shall be deemed to have intentionally waived every objection to the regularity or validity of such acts or proceedings and he shall be estopped from thereafter raising the same.

SEC. 17. The superintendent of work is hereby authorized, in his capacity as such superintendent of work, to execute the contract with the awardee of the same, and to receive and approve all bonds by this act required on the part of such awardee. He shall, by the terms of said contract, fix the time for the commencement of the work or improvement, which shall not be more than twenty days from the date thereof, and for the completion of said work or improvement under all contracts entered into by him, and the contract shall provide that the work shall be prosecuted with diligence until completed. The time of completion fixed in the contract may be extended from time to time by said superintendent of work, under the direction of the legislative body expressed by resolution, a copy of which shall be certified by the clerk of said legislative body and attached to the contract. Such extension of time may be granted by the legislative body at any time before the expiration of three months after the time originally fixed for completion in the contract or by the last previous extension of time, and the extension so granted shall be deemed to commence and be effective from the date of such expiration. Any such extension of time shall not release any surety or sureties upon any bond required under this act.

Said contract shall provide that the work or improvement to be done shall be under the direction and to the satisfaction of said superintendent of work, and that the materials used shall comply with the specifications and be to the satisfaction of said superintendent of work. Said contract shall undertake on behalf of the county or municipality, as the case may be, that, upon the performance and completion of the contract on the part of the contractor, and under the provisions of the "Acquisition and Improvement Act of 1925" all steps will be taken, in and by said act authorized to be taken, to effect the issuing by the treasurer of the bonds in said act authorized to be issued, and to provide a fund for the payment of the same, as in and by said act prescribed. Said contract shall also contain an express notice that in no case, except where it is otherwise provided by law, or the charter of the

county or municipality whose legislative body is conducting the proceedings, as the the case may be, shall the county or municipality, as the case may be, or any officer thereof, be liable for any portion of the expense or be holden under said contract in any way except for the discharge of official duty under the law, nor shall said county or municipality, as the case may be, be liable for any materials or sums of money except those which the resolution or intention shall provide will be furnished or paid.

SEC. 18 If, after the execution of the contract, the contractor shall fail to begin the work in good faith within the time provided in said contract, or shall fail at any time thereafter to prosecute said work diligently according to the terms of the contract, the superintendent of work shall make a report to the legislative body setting forth wherein the contractor is in default Thereupon the legislative body shall cause written notice to be mailed to said contractor at his last known address, that at a time, to be set in the notice and which must be not less than five days after the mailing of the notice, the body will hold a hearing to determine whether or not the contract shall be declared forfeited.

At the time set in said notice, or at any time to which the matter may be continued, the legislative body shall determine whether or not the contractor is in default either in respect to beginning said work or in respect to its diligent prosecution. If said body determines that the contractor is in default it may declare the contract forfeited In such event it shall either again call for bids and award the contract as provided heretofore for awarding the contract in the first instance, or it may declare the county or municipality, as the case may be, the successor of the contractor.

If bids are again called for and a new contract entered into at a price greater than that in the contract declared forfeited, suit shall be brought on the bond of the original contractor for an amount equal to the excess of the second contract over the first, plus the incidental expenses incurred in entering into the new contract. The sum recovered shall be placed in the interest and sinking fund of the district.

If the county or municipality be declared the successor of the contractor, the work shall be completed under the direction of the legislative body at the expense of the county or municipality, as the case may be, either by contract or in any other manner determined upon by its said legislative body When the work or improvement is completed the declaration of completion in this act provided to be executed and filed by the contractor and superintendent of work shall be executed and filed by the superintendent of work alone and thereafter the proceedings described for a hearing thereof and upon the question of issuing bonds for the expenses of the improvement shall be had, following the provisions elsewhere contained in this act controlling said matters. When the bonds have been issued they shall be sold by the legislative body and the proceeds applied to reimburse the county or municipality, as the case may be, for all expenditures it has made in the premises, the balance remaining to be paid to the original contractor. Should the proceeds realized from the bonds so issued and sold be insufficient to reimburse the county or municipality, as the case may be, in full for its expenditures in completing the contract, including all incidental expenditures, suit shall be brought on the bond of the contractor for an amount sufficient to so reimburse said county or municipality.

SEC 19. The legislative body may, by resolution or ordinance, prescribe general rules directing the superintendent of work or the contractor as to the materials to be used and the mode of executing the work, under all contracts thereafter made.

SEC. 20 All contractors shall, at the time of executing any contract hereunder, execute a bond to the satisfaction and approval of the superintendent of work, running to the county or municipality, as the case may be, in an amount not less than twenty-five per cent of the amount of the contract, conditioned for the faithful performance of the contract, and said bond shall be signed by two or more sureties who shall aggregately qualify before an officer competent to administer oaths in double the amount mentioned in the bond over and above all statutory exemptions, or by one duly authorized and acceptable corporate surety.

SEC 21. Every contractor to whom is awarded any contract hereunder shall, before executing said contract, furnish and file with the superintendent of work a good and sufficient bond acceptable to and approved by said superintendent of work, in a sum not less than one-half of the total amount payable by the terms of said contract, such bond shall be executed by the principal and by two or more sureties who shall aggregately qualify before an officer competent to administer oaths in double the amount mentioned in the bond, over and above all statutory exemptions, or by one duly authorized and acceptable corporate surety, and shall be made to inure to the benefit of any and all persons, companies, or corporations who perform labor on or furnish materials to be used in the work or improvement to be done under the contract, and shall provide that if the contractor to whom said contract was awarded fails to pay for any materials so furnished for the said work or improvement or for any work or labor done thereon of any kind, the sureties will pay the same, to an amount not exceeding the sum specified in said bond. Any laborer, materialman, person, company or corporation furnishing materials to be used in the performance of said work or improvement or who performed work or

labor thereon, whose claim has not been paid by the said contractor or his assigns, shall severally have a first lien upon and against the bonds to be issued to cover the expenses of said work or improvement, and likewise against any new bonds therefor directed to be issued by order of the legislative body or upon a decree of court. Such person, laborer, materialman, person, company or corporation may at any time prior to the issuance of said bonds or said new bonds file with the treasurer of the county or municipality whose legislative body conducted the proceedings, as the case may be, a verified statement of the fact that he or it has furnished such labor or material and has not been paid therefor, stating the nature and amount of such labor or material and the amount due therefor, and claiming said amount, and, if he or they so elect, demanding the withholding of bonds in an amount sufficient to satisfy said claim. The said treasurer shall, upon such a demand being made, withhold from the contractor, or anyone claiming under him as assignee or otherwise, sufficient of said bonds to satisfy said claim and all costs which can reasonably be anticipated. If the claimant filing such statement shall, within ninety days after the date of issuance of the bonds for the expenses of said work and improvement, commence an action to enforce his lien aforesaid, then the said treasurer shall withhold and keep the bonds so withheld, subject to the final judgment in said action; but if such action is not so filed the bonds so withheld shall be delivered to the contractor or his assignee. Such claimant, if he so elects, and if he has not received said bonds, may, as an alternative, at any time within six months after the filing of such statement and claim bring an action upon the bond of the surety or sureties in his own name, or if he has assigned his claim, the action may be brought in the name of the assignee, for the recovery of the amount due on said claim. Said amount may include the costs incurred in said action, together with a reasonable attorneys' fee to be fixed by the court for the prosecution thereof.

If the contractor or his assigns shall so desire, upon the filing of any claim or claims as aforesaid by any laborer or materialman, he or they may furnish and file an undertaking in an amount to be fixed by the said treasurer (but which amount shall not be less than the aggregate of the claim or claims plus not less than fifteen per cent of said amount to cover court costs and attorneys' fees), which said undertaking shall be executed by said contractor or his assigns and by two or more sureties who shall aggregately qualify before an officer competent to administer oaths in double the amount mentioned therein, over and above all statutory exemptions, or by one duly authorized and acceptable corporate surety, which said undertaking shall be to the satisfaction of said treasurer and shall provide that the said contractor or his assigns and the surety or sureties thereon will pay the amount, if any, which may be due on said claim or claims, with interest, court costs and attorneys' fees; whereupon said first lien upon and against said bonds or new bonds shall be discharged and said claimant shall thereupon look to said undertaking for recovery.

SEC. 22. As soon as may be done in good faith there shall be filed with the clerk of the legislative body conducting the proceeding a declaration that the work has been completed according to the contract therefor, together with an itemized statement of the incidental expenses of the improvement and of the proceedings, inclusive of the estimated cost of publishing the notice of final hearing in this section provided for and of issuing the bonds to be issued for the improvement made. The aggregate of such items shall be stated and also the amount due under the contract and the amount or amounts to be paid the contractor by the county or municipality or municipalities from their funds, if any such amount or amounts were so provided for in the resolution of intention. The total sum for which bonds of the district are claimed by the contractor shall also clearly appear. The said declaration and statement shall be signed and verified by the superintendent of work and by the contractor, or some person cognizant of the facts signing on behalf of the contractor and stating why he, instead of the contractor, so signs and verifies. Either signer may except from his signature and verification any amount and item to which he does not assent. The legislative body conducting the proceeding is hereby authorized to and shall thereupon fix a day, hour and place and direct the clerk thereof to give notice of a hearing for the purpose of determining whether or not the work and improvement shall be accepted as being completed according to the contract, and for determining the aggregate amount for which bonds shall be issued to the contractor, or his assignees, therefor, and of furnishing an opportunity to all persons interested in any of the work or improvement done under the proceeding or in any matter affecting said improvement and the assessment district therefor, and feeling aggrieved by any act or determination done or made in the said proceeding or claiming that any of the previous acts or proceedings are irregular, defective, erroneous or faulty or claiming that the work or improvement has not been performed according to the contract in a good and substantial manner, or claiming that any portion of the work or improvement for any reason was omitted or illegally included in the contract for the same, or having any objections to offer or any reason to advance why bonds should not be issued in the amount set forth in the declaration and statement on file, to appear before the legislative body and by it be heard upon any of the above mentioned matters.

The time fixed for said hearing shall be not sooner than ten days from the date upon which it is fixed. Such hearing shall be known as the final hearing upon the improvement. The notice of such hearing may, in form, and shall, in substance, (filling all blanks as appropriate), be as follows:

NOTICE OF FINAL HEARING UPON THE IMPROVEMENT.

In the Matter of Acquisition and Improvement District No. _____ of the county (or city) of _____

Notice is hereby given that the final hearing in the matter of the improvement made in the above named district will be had at the hour of ____m. on the _____ day _____, 19____, at the chambers of the _____ (designating the legislative body) _____ of the county (or city) of _____ (naming the county or municipality) _____, State of California, under the provisions of section 22 of the "Acquisition and Improvement Act of 1925", for the purpose of determining whether or not the work and improvement shall be accepted as being completed according to the contract, and for determining the aggregate amount for which bonds shall be issued to the contractor, or his assigns, therefor, and of furnishing an opportunity to all persons interested in any of the work or improvement done under the proceeding or in any matter affecting said improvement and the assessment district therefor, and feeling aggrieved by any act or determination done or made in the said proceeding or claiming that any of the previous acts or proceedings are irregular, defective, erroneous or faulty, or claiming that the work or improvement has not been performed according to the contract in a good and substantial manner, or claiming that any portion of the work or improvement for any reason was omitted or illegally included in the contract for the same, or having any objections to offer or any reason to advance why bonds should not be issued in the amount set forth in the declaration and statement on file, to appear before said legislative body and by it be heard upon any of the above mentioned matters.

The attention of all persons interested is hereby directed to the provisions of said act and to the proceedings in the above named matter and district, and particularly to the above mentioned declaration and statement, on file in the office of the clerk of the _____ (designating the legislative body) _____ of the county (or city) of _____ (naming the county or municipality) _____.

_____
Clerk of said_____(designating said legislative body

Said notice shall be signed by the clerk of the legislative body conducting the proceedings and shall be published by at least two insertions, and a copy or copies thereof posted and kept posted for at least two days on or near the chamber door of said legislative body. The date of the first publication and that of such posting (they need not be simultaneous) shall be not less than five days before the date in said notice specified for said hearing.

SEC. 23. At the time set for said hearing any owner of property within the district, the contractor, or his assigns, and any other person or persons interested in the matter, may appear and be heard upon any of the matters referred to in the last preceding section. Protests or objections may be presented either in writing or orally and the hearing of the said matters may be continued from time to time upon the order of the legislative body. Evidence may be adduced going to any of the matters to be determined and in such order as the legislative body may summarily direct.

If, when the matters have been fully heard, whether under or in the absence of any objections claiming that the work or improvement has not been performed according to the contract in a good and substantial manner, the legislative body is of the opinion that said work or improvement has not been so completed, it shall in writing specify what must be done in order to complete the work, and shall, by an order or resolution to be entered in its minutes, continue the further hearing of the whole matter to a specified date, expressly stating that such continuance is for the purpose of enabling the contractor to complete the contract.

On said continued hearing the objections presented upon the first hearing shall continue in force, and evidence shall be received, if offered, as to what has been done in the way of completing the contract in the particulars specified in the order of the legislative body on the said continuance of the hearing. If, upon said continued hearing, it is the opinion of the legislative body that the work is still uncompleted in the particulars as to which it has been ordered to be completed, it shall be discretionary with said legislative body to order or refuse a second continuance of the hearing. If the legislative body do order such second continuance, it shall be ordered in the same manner and with like effect as provided aforesaid upon the first continuance. And as provided aforesaid for a second continuance, so with any other or further continuance.

All other objections shall pend and be heard on said day, or at any continued hearing had as in this section aforesaid provided. Every continuance of said hearing for the purpose of enabling the contractor to complete his contract or the work or improvement shall continue or revive such powers of the legislative body had under the provisions of this act in the proceedings at the time of the filing of the

declaration that the work was completed, as provided aforesaid, and shall also operate to extend the time for the completion of said contract in such manner that its completion within the time to which the hearing is continued shall be as valid a performance of said contract as if completed at the time of filing such declaration or statement. All objections to any of the matters to which objection may be made at said hearing not made and presented before said legislative body at the time of said hearing or at any time to which the same may be continued shall be waived.

SEC. 24. Whenever upon the hearing provided in the two preceding sections, whether at the first or at any continued hearing, it shall be the opinion of the legislative body that the work has been completed and performed according to the contract in a good and substantial manner, said legislative body shall by resolution to be entered upon its minutes so declare and that the work is accepted and shall in said resolution state the amount of the contract price for the doing of said work or improvement and the amount of the incidental expenses of the improvement and of the proceedings therefor, which are to be charged against and to be paid by the contractor, and the amount or amounts, if any, to be paid the contractor by the county and/or municipality or municipalities, and the aggregate amount for which bonds are to be issued to the contractor, or his assigns, as hereinafter provided. The legislative body may remedy and correct any error or informality in the proceedings and revise and correct any act or determination relative thereto or to the work or improvement performed thereunder. All the decisions and determinations of the legislative body, upon notice and hearing as aforesaid, shall be final and conclusive upon all persons entitled to be heard under the provisions of the two preceding sections and as to all matters determined upon said hearing and as to all errors, informalities, irregularities and omissions or defects which said legislative body may have avoided or have remedied during the progress of the proceedings or which it can at that time remedy, and no bonds thereafter issued or special assessment taxes thereafter levied for the payment of the bonds to be issued for said work or improvement and the expenses thereof shall be held invalid by any court for any error, informality, irregularity, omission or other defect in the proceedings, where the resolution of intention has been actually published, as in this act provided, before the said legislative body shall have ordered the work or improvement to be performed.

Immediately after the adoption of said order accepting the work the amount or amounts which were agreed to be paid to the contractor by the county or municipality shall be paid to said contractor, less the amount of any incidental expenses chargeable to and not paid by the contractor. Any amount so deducted shall be credited to the fund against which any such incidental expenses were charged.

SEC. 25. Upon the expiration of twenty days from the making of the final order provided for in the last preceding section, the clerk of the legislative body shall transmit to the treasurer an attested copy of said final order, and upon receipt of the same the treasurer shall proceed to issue bonds amounting in the aggregate to the principal sum for which bonds are to be issued, as the same is stated in said final order. Said bonds when issued, shall be dated as of the date when said final order of the legislative body was made. The bonds shall be issued in the form and manner in this act provided and shall be delivered by the said treasurer to said contractor, or to his order, assignee or lawful representative, except as in this act otherwise provided in the case of bonds withheld to satisfy claims. The bonds shall not be delivered to the contractor, however, until he shall have paid to the treasurer all incidental expenses relative to the proceedings for the improvement which have not been formerly paid, as provided in section 15.

SEC. 26. If the resolution ordering the thing or things proposed to be in the proceeding included the acquisition of property and directed an action to be brought for the condemnation thereof, the attorney shall thereupon proceed to bring said action, which action shall be commenced within a period not exceeding one hundred and eighty days from the date of the adoption of said resolution directing the bringing of the same. Said action shall in all respects be subject to and governed by such provisions of the Code of Civil Procedure now existing or that may be hereafter adopted as may be applicable thereto, except in the particulars otherwise provided for in this act.

In the event that an action has theretofore been brought by the attorney in the name of the county or municipality whose legislative body is conducting the proceeding, as the case may be, for the condemnation of the property necessary or convenient to be taken in such acquisition, under authority of law and prior to the adoption of the resolution ordering the acquisition to be made, as provided in this act, then and in that event, the resolution ordering the acquisition may refer to said action and direct the attorney to continue the prosecution of the same, and said action shall then have like effect and be in lieu of and serve all the purposes of the action herein referred to, and shall thereafter be carried on in the same manner and subject to the provisions hereinafter stated; *provided*, that the complaint in said action shall set forth or state the effect of the resolution of intention in such proceeding but need not set forth nor state the effect of the resolution ordering the acquisition. In the event that the complaint in said action shall for any reason omit to state the effect of the resolution of intention in said proceeding, said complaint may be amended as

of course to set forth said matters at any time before trial and shall thereupon satisfy the requirement as to reference to the resolution of intention.

SEC. 27. The complaint shall set forth, or state the effect of, the resolution of intention, and the resolution ordering the acquisition (except as provided in the preceding section), or so much of said resolutions as affect the acquisition contemplated (if both acquisition and improvement are comprehended in the proceeding), but need not set up any other proceedings had or taken before the bringing of the action. Said resolutions shall be conclusive evidence, in such action, of the public necessity of the proposed acquisition and the improvement thereby effected, and that the property sought to be condemned is necessary therefor, and also that the same is located in the manner which will be most compatible with the greatest public good and the least private injury.

SEC 28. If the legislative body conducting the proceeding shall by resolution determine that the public necessity and convenience require, the plaintiff in the action ordered by said body, or the plaintiff in any action theretofore brought for the condemnation of property necessary or convenient to be taken in the acquisition contemplated, may, at any time after the filing of such complaint or complaints, take immediate possession and use of all or any portion of the property sought to be condemned therein, by giving such security in the way of money deposits as the court in which the proceedings are pending may direct, and in such amount or amounts as the court may determine to be reasonably adequate to secure to the owner of the property sought to be taken immediate payment of just compensation for such taking and any damage incident thereto, as soon as the same can be ascertained according to law. Upon obtaining an order of the court giving such immediate possession and use, the contractor for any improvement contemplated in the proceeding, whose contract includes work or improvement upon any or all of the property covered by such order of court for immediate possession and use, shall have the right to enter upon and construct thereon the improvements included in the contract.

The county or the city, as the case may be, shall have power to and may advance such amount or amounts as are required by the court to be deposited to obtain such immediate possession and use, and reimburse the treasury from the sale of bonds thereafter issued under the proceeding. Such amount or amounts may be so advanced from either the general fund or from any fund available for the purchase or acquisition of public ways or property. Said deposits required by the court may also be made from the revolving fund or funds created and administered as in this act provided.

In addition to the foregoing methods for obtaining the amount or amounts necessary for such deposits required by the court in order that immediate possession and use may be had, bonds of the district may be issued and sold therefor, as hereinafter provided. The attorney shall report to the legislative body the amount or amounts required for such purpose and thereupon said body may fix a day, hour and place for a hearing upon the issuance of bonds against the lands in the assessment district for the purpose of obtaining the amount or amounts required by the court in order that immediate possession and use of the public ways, or property or rights-of-way, or any part thereof, sought to be acquired under the proceedings may be had, and for the purpose of furnishing an opportunity to all persons owning land within the assessment district, or otherwise interested, and feeling aggrieved by any act or determination done or made in the said proceeding or claiming that any of the previous acts, determinations or proceedings are irregular, defective, erroneous or faulty, or having any objections to offer or any reason to advance why bonds should not be issued in the amount set forth in said notice for the purpose therein set forth, to appear before the legislative body and be heard upon any of the above mentioned matters. The amount or amounts required for said purpose and for which bonds are proposed to be issued shall be stated in the notice. The time fixed for said hearing shall be not sooner than ten days from the date upon which it is fixed. Said hearing shall be known as the hearing upon issuance of bonds to obtain immediate possession. The notice of such hearing may, in form, and shall, in substance, (filling all blanks as appropriate) be as follows

The proceeds of the sale of said bonds shall be paid to the treasurer and shall be deposited as the court shall direct, as security for the obtaining of immediate possession and use of the property sought to be condemned in the action

SEC. 29. When all parties defendant to the action have answered or have been served with summons and their default entered, the plaintiff or any party defendant to the action whose default has not been so entered, may upon five days notice to the parties, except those in default, move the court to set the action for trial If, upon the hearing of such motion, a trial by jury or by the court without a jury is not demanded by the defendants, or any of them, or by the plaintiff, such trial shall be deemed to be waived, and the court must appoint three disinterested persons referees to ascertain the compensation to be paid to said defendants so waiving trial by jury, or by the court without a jury Such referees must be residents of the county in which the action is commenced and over the age of twenty-one years and must take and file with the court an oath to discharge their duties faithfully and impartially. If any of such referees fails to qualify, or resigns, or is removed by order of court, or is or becomes unable to act, the vacancy so created shall be filled by the court

SEC. 30. The referees shall at once proceed to view the lands sought to be condemned, and ascertain the compensation proper to be paid to such of the parties

interested in each parcel thereof as have waived a trial by jury or by the court. They shall have power to examine witnesses under oath, to be administered by any of them, and may have subpœnas issued by the clerk of the court, requiring the attendance of witnesses, or the production of evidence before them. They shall make and file with the court a written report of their findings and of their necessary expenses, within thirty days after the date of their appointment, *provided, however*, that the time so allowed may be extended upon good cause shown, by the court or judge thereof, but such extension shall not exceed one hundred and twenty days, *and provided, further*, that if any vacancy in the referees is created and filled as heretofore provided in this act, or if new referees are appointed, or if a new report from the same referees is ordered, as hereafter provided, the time herein specified for the filing of such report shall be deemed to be thirty days from the date of the order filling such vacancy, or appointing new referees, or ordering the new report from the same referees, and said time may be extended accordingly, as above provided. Any two of such referees who agree thereto may make such report.

SEC. 31. For the purpose of assessing the compensation and damages, the right thereto shall be deemed to have accrued at the date of the issuance of summons, and its actual value at that time shall be the measure of compensation for all property to be actually taken, and the basis of damages to property not actually taken but injuriously affected, in all cases where such damages are allowed by the provisions of this act, *provided*, that in any case in which the issue is not tried within one year after the date of the issuance of summons, unless the delay is caused by the defendants, the compensation and damages shall be deemed to have accrued at the date of trial, and its actual value at that time shall be the measure of compensation.

If an order of the court be made letting plaintiff into immediate possession and the plaintiff shall take immediate possession upon commencing eminent domain proceedings and thereupon giving such security in the amount of money deposited as the court may determine to be reasonable to secure compensation to the owner, as provided in section fourteen of article eleven of the constitution of this state, then the compensation and damages awarded shall draw interest at the rate of seven per cent per annum from the date of such order.

No improvements placed upon the property proposed to be taken subsequent to the date of the publication of the resolution of intention in the proceedings shall be included in the assessment of compensation or damages.

The referees, or the court, or the jury, as the case may be, shall find separately:

First—The value of each parcel of property sought to be condemned, and all improvements thereon pertaining to the realty, and of each separate estate or interest therein;

Second—If any parcel of property sought to be condemned is only a part of a larger parcel, the damages which will accrue to the portion not sought to be condemned, and to each separate estate or interest therein, by reason of the severance therefrom of the portion sought to be condemned, and the construction of the improvement in the manner proposed by the plaintiff. Such damages must be fixed irrespective of any benefit from such improvement.

SEC. 32. Upon the filing of the referees' report, the court may, upon motion of any party, appoint a date for hearing the same, not less than twenty days thereafter. Notice of the time and place of said hearing must, at least ten days before the time so appointed, be served on all other parties except those whose default has been entered. The plaintiff, or any defendant who has answered, may file exceptions in writing to said report, specifying the grounds upon which such exceptions are based, at any time not later than one day prior to the hearing, and any such party so filing exceptions to said report may appear at the hearing of said report and contest the same. In addition to the notice hereinbefore provided, the clerk of the court must give notice of the filing of said report and of the time and place appointed for the hearing of the same to all persons owning or having any interest in any property included within the assessment district described in the resolution of intention or the assessment district as finally determined at the conclusion of the hearing upon the resolution of intention if the boundaries were thereupon changed as provided heretofore in this act, by causing said notice last mentioned to be published by five insertions in a daily newspaper published and circulated in the county, and, if there be no such daily newspaper, then by two insertions in a newspaper published less often than daily and circulated in the county. Any publication of such notice shall commence at least ten days before the time appointed for the hearing of said report. Said notice shall require all persons owning or having any interest in any property included within said assessment district to intervene in said action, and file in the office of the clerk of said court his exceptions in writing to said report, if any he has, specifying the grounds upon which such exceptions are based. Said notice need not contain a description of said assessment district but may refer therefor to the resolution of intention, or to the resolution finally establishing the boundaries of said district after the hearing thereon heretofore provided, giving the date of the adoption of said resolution and

the place where the same is on file At any time not later than one day prior to the hearing, any person, not a party to the action, owning or having any interest in any property included within said assessment district may intervene in the action and file his objections in writing to said report, specifying the ground upon which such exceptions are based, and any person so intervening may appear and contest the said report, and introduce evidence in support of such exceptions After hearing the report and any exceptions thereto, the court may confirm the report, or may modify it and confirm it as modified, or may set it aside and may order a new report from the same referees or from new referees to be appointed. If new referees are appointed, the same proceedings and the same qualifications shall apply and the same proceedings shall be had as upon the first reference

If there be a trial of the action by a jury, or by the court without a jury, the clerk of the court must give notice of the time and place of such trial to all persons owning or having any interest in any property included within said assessment district. Said notice shall be published in the same manner and for the same time as the notice theretofore in this section required to be given by said clerk, and shall require all persons owning or having any interest in any property included within said assessment district to intervene in said action, and to appear at the trial thereof and introduce evidence relative to the compensation and damages to be awarded to the defendants therein. At any time not later than one day prior to the trial any person not a party to the action, having any interest in any property included within said assessment district may intervene in the action and, upon the trial thereof, may appear and introduce evidence relative to the compensation and damages to be awarded to the defendants therein. The cost of the publication of the notice required by this section shall be paid by the plaintiff and allowed as costs in the action

When a time has been appointed for hearing the report of the referees, or for the trial of the action, and notice thereof has been given by the clerk by publication as in this section provided, if the hearing or trial be postponed or continued by the court to any subsequent day, no further notice need be given by the clerk of the hearing or trial upon any such postponement or continuance

SEC. 33 Upon the confirmation of the report of the referees, or receipt of the verdict of the jury, or filing of the findings of the court, the court shall make and enter an interlocutory judgment in accordance with such report, verdict or findings, adjudging that upon payment to the respective parties or into court for their benefit, of the several amounts found due them as compensation, and of the costs allowed to them, the property involved in the action shall be condemned to the use of the plaintiff, and dedicated to the use specified in the complaint. The court shall allow to the referees, as costs to be paid by the plaintiff, a reasonable compensation for their services, the amount of which compensation shall be fixed by the court upon the hearing of the report, together with their necessary expenses.

SEC. 34. An appeal may be taken from such interlocutory judgment within thirty days from the entry thereof, and from any order granting or denying a new trial within ten days from the entry thereof

SEC. 35. The legislative body of the plaintiff may, at any time prior to the payment of the compensation awarded the defendants, abandon the proceedings, by resolution, and cause the said action to be dismissed, without prejudice, *provided, however*, that in cases where immediate possession and use of the property to be condemned, or a portion thereof, has been taken, as provided in this act, the proceedings for the acquisition cannot be abandoned, nor the said action dismissed, unless and until the county or municipality whose legislative body is conducting the proceeding, and which is plaintiff in the action, shall first compensate the owners of property over which such possession and use has been taken for all damages occasioned thereby, and such county or municipality shall be liable for such damages.

If proceedings be abandoned or the action be dismissed no attorneys' fees shall be awarded the defendants or any of them

SEC. 36. Upon the entry of the interlocutory judgment the legislative body conducting the proceeding shall fix a day, hour and place for a hearing upon the issuance of bonds against the lands in the assessment district for the purpose of obtaining the amount or amounts set forth in said interlocutory judgment, all costs and expenses chargeable to the plaintiff in said action, and all incidental expenses incurred in the proceeding. If the proceeding includes the making of an improvement in addition to an acquisition and the incidental expense of the proceedings or a portion thereof have been advanced by the contractor for the improvement and have been or are to be included in the bonds issued to him upon the completion of his contract then said incidental expenses so paid or to be paid shall be omitted Said hearing shall also be for the purpose of furnishing an opportunity to all persons owning land within the assessment district, or otherwise interested, and feeling aggrieved by any act or determination done or made in the same proceeding or claiming that any of the previous acts or determinations of the proceedings are irregular, defective, erroneous or faulty or having any objections to offer or any reason to advance why bonds should not be issued in the amount set forth in said notice for the purpose therein set forth, to appear before the legislative body and be heard upon any of the above mentioned matters. The amount or amounts required for said purposes and for which bonds are proposed to be issued shall be

stated in the notice. Prior to the fixing of the time for said hearing, the attorney shall furnish a report to said legislative body showing the amount or amounts necessary for the payment of said interlocutory judgment and all costs and expenses chargeable to the plaintiff in the action and the amount of the incidental expenses of the proceedings (except incidental expenses for which bonds have been or are to be issued to the contractor for the improvement, if any, in the proceeding), which shall be ascertained from the clerk of the legislative body and be included in the total amount for which bonds are proposed to be issued, which total amount shall be stated in the notice. In determining the amount for which said bonds are to be issued, there shall be deducted the amount (if any) to be paid by the county or municipality, or both, toward the expenses of the acquisition, as provided in the resolution of intention, and there shall also be deducted the amount (if any) *theretofore raised by the issuance and sale of bonds to obtain immediate possession and* use of the property to be acquired and deposited, as directed by the court, as security therefor. If any amount has been so raised and deposited, it shall be applied, in the manner directed by the court, toward the payment of the amounts to be paid as set forth in the interlocutory judgment, and shall, pro tanto, reduce the amount required to be raised by the issuance and sale of bonds under this section. Should it happen that the amount so raised and deposited is in excess of the amounts required by the interlocutory judgment to be paid and the said amount of the incidental expenses of the proceedings, then no bonds shall be issued as in this section provided, and such excess, after all incidental expenses of the proceedings have been paid, shall be applied to the interest and sinking fund for the payment of the bonds, then outstanding, which were issued and sold to defray the expenses of the acquisition. The time fixed for said hearing shall not be sooner than ten days from the date upon which it is fixed. Said hearing shall be known as the "Hearing upon the issuance of bonds for an acquisition". The notice of such hearing may, in form, and shall, in substance, (filling all blanks as appropriate) be as follows.

The proceeds of the sale of said bonds shall be paid to the treasurer who shall place the same in a special fund, designating such fund by the name of the district against which the bonds were issued and as the fund to defray the expenses of the acquisition. The legislative body shall on or before the time of the sale of such bonds and the deposit of the moneys derived therefrom in said fund cause to be transferred from the general or such other fund as was named in the resolution of intention from which a portion of the total expense was to be paid by the county or municipality, as the case may be, to the said special fund said amount so provided to be paid

SEC. 37 As soon as there is sufficient money in the hands of the treasurer, in the special fund to defray the expenses of the acquisition (together with the amount, if any, received from the issuance and sale of bonds to obtain immediate possession and use and deposited for that purpose), to pay the amounts including costs awarded to the defendants by the interlocutory judgment in the action in condemnation, the said amounts including costs shall be paid to the parties entitled thereto, or into court for their benefit. [SEAL]

The designation of the district by its name and number set forth at the top of the bond shall be sufficient to identify and distinguish each and all of the bonds thereof from any other issue. In the event that the proceeding comprehends an improvement only, all the bonds issued thereunder may be designated as of one series, as for example, "Series A". In the event it comprehends an acquisition, and bonds are issued to raise funds necessary to obtain an order of possession over the property to be acquired before trial, as in this act provided, the bonds issued for that purpose shall be designated by a separate series from those issued thereafter, if any, to defray the remaining expenses of the acquisition, as for example, "Series A" for the bonds issued to raise such funds, and "Series B" for the bonds issued for the remaining expenses of the acquisition. In the event the proceeding comprehends both an acquisition and an improvement, the bonds issued for the expenses of the improvement and those issued for the expenses of the acquisition shall be designated by separate series, as for example, those issued for the improvement as "Series A", those issued to raise funds to obtain such an order of possession as "Series B", and those issued for the remaining expenses of the acquisition as "Series C", according to the order, in point of time, in which the respective issues are made.

All bonds issued under this act shall be signed by the treasurer of the county or municipality whose legislative body conducts the proceeding and shall have the seal of the board of supervisors of the county or the seal of the city, as the case may be, thereto affixed, and when so signed shall be binding according to the terms thereof as prescribed in the above form therefor. The interest coupons attached to said bonds shall be in such form as the said treasurer shall determine, subject to the provisions of this act and the determination made by the legislative body, and the signature of said interest coupons by said treasurer, by either written or engraved or printed facsimile signature shall be sufficient.

SEC. 40. The principal and interest of the bonds issued under this act shall be payable in gold coin of the United States of America at the office of the treasurer issuing the same. The legislative body is hereby vested with power to determine and shall in the resolution of intention determine the number of years, not to exceed thirty, after the issuance of any bonds issued, within which the aggregate principal of all the bonds to be issued in any proceeding under this act shall be paid and discharged, and to fix the rate of interest, not to exceed eight per cent per annum, to be paid thereon, and it shall be a sufficient determination and fixing of

the same to set forth in the resolution of intention that bonds will be issued for the expense of the things to be done in any language that will fairly indicate such time and such rate and the fractional part of the principal to be paid each year. It may be provided in said resolution that the first payment shall become due either one, two, three, four or five years after the date of said bonds. The number of installments of payments on the principal shall be indicated in said resolution of intention. The amount of the principal due in each annual payment need not be exactly the same, but with respect to each installment excepting the last may be made to differ not more than one hundred dollars from the amount obtained by dividing the total of the principal amount due under the bonds by the number of installments. Each installment except the last shall be an even multiple of one hundred. The last installment shall be for the balance of the total principal amount not provided to be paid in the previous installments.

The interest payments on said bonds shall be payable semi-annually on the second day of January and the second day of July of each year, except the last installment thereof which shall be payable at the maturity of the bonds, in the manner indicated in the form of bonds in this act set forth. It shall not be necessary, either in the resolution of intention or otherwise, to set forth or determine the days of the month on which payments of interest are to be made, nor that payments shall be made in gold coin, nor that payments shall be made at such treasurer's office, but all persons are charged with notice of the contents of this section, especially in the aforesaid particulars.

SEC. 41 For each district in which bonds have been issued under the provisions of this act a special fund to be named "Acquisition and improvement district No. ____ of the county (or city) of _____ interest and sinking fund" (the number to be that of the district) for the discharge and payment of such bonds, whether issued for an acquisition or improvement, or both, and interest thereon, shall be constituted by the county or municipality (as the case may be) whose legislative body has conducted the proceedings, as follows, to wit: There shall each year, at the time of the general tax levy for state and county taxes, or at the time of levying taxes to be collected for general municipal purposes, as the case may be, be levied against and upon all the lands within said district (including any land which is the operative property of any public utility, and including any lands belonging to any county, municipality, district, public agency, mandatory of the government, school board, educational, penal or reformatory institution or institution for the feeble minded or insane, whether being used in the performance of a public function or not, unless declaration was made in the resolution of intention omitting any of said lands from the assessment to be made, but not including any lands belonging to the United States government or to the State of California) according to the assessed valuation of said lands, exclusive of any improvements thereon, a special assessment tax in an amount clearly sufficient, together with any moneys which are or may be in said fund, to pay all the principal which has become or will become due and all interest which has become or will become payable on the bonds issued under the proceeding before the proceeds of another tax levy made at the time of the general tax levy for state and county purposes, or at the time of another levy of taxes to be collected for general municipal purposes (as the case may be), can be made available for the payment of said principal and interest. If the said district has been divided up into zones and the percentage of the expenses to be raised from each such zone has been determined, as provided in this act, in that event the said amount of said special assessment tax to be levied shall be divided up according to said percentages and the percentage to be raised from the lands in each zone shall be levied against and upon the lands therein as above provided. Such special assessment taxes shall be in addition to all other taxes levied for state and county purposes, or for municipal purposes (as the case may be), and shall be levied, computed, entered, collected and enforced in the same manner and by the same persons and at the same time and with the same penalties and interest as are other taxes for state and county purposes, or for municipal purposes (as the case may be), and all laws applicable to the levy, collection and enforcement of taxes for state and county purposes or for municipal purposes (as the case may be) are hereby made applicable to said special assessment taxes. It shall be the duty of the county assessor to assess, exclusive of any improvements thereon, all lands (if any there may be in any assessment district formed under this act) not otherwise assessed for purposes of general county taxes or general taxes of a municipality, against which such special assessment taxes are to be levied and collected as aforesaid.

The legislative body of the county or municipality (as the case may be) conducting the proceedings may annually, at the time of making said tax levy, transfer from the general fund of such county or municipality, or from any fund which may be used for acquisitions or improvements of a similar character as those made under the proceeding, to the interest and sinking fund above provided for such amount as in the judgment of said legislative body should be transferred. It is the intention of this provision that further assistance, in addition to that, if any, provided for in the resolution of intention and that which may be given as elsewhere provided in this act, may be given by the county or municipality toward the payment of the expenses of the thing or things done under the proceedings after bonds for said

expenses shall have been issued and sold, and apart from the loans, and apart from the advances under the revolving fund elsewhere in this act provided for.

In any event it shall be the duty of said legislative body to levy a special assessment tax upon all of the said lands within such district, sufficient to pay the principal and interest of said bonds as the same shall become payable, and said legislative body is hereby vested with power and jurisdiction to do all and singular the things which in this section aforesaid it is declared shall be done. Whenever any of said bonds or any payment of principal or interest thereon shall become due and there shall not be sufficient money in said interest and sinking fund to pay the same the legislative body may, pending the levy and collection of a special assessment tax therefor, order the amount of money necessary to pay said bonds or payment of principal or interest so falling due to be transferred from the general fund of the county or municipality, as the case may be, to said interest and sinking fund, and the amount of money so transferred shall be deemed a loan to said interest and sinking fund and shall be repaid to the general fund from the first money coming into said interest and sinking fund thereafter. Any money remaining in any acquisition and improvement district interest and sinking fund after all of the bonds of the district have been retired shall be transferred to the general fund of the county, or municipality, as the case may be, whose legislative body has had jurisdiction over the proceeding and may by said body be used in repairing any public way in said district, regardless of whether a portion or all of the district as originally formed may have been included within one or more municipalities which did not include such portion or all of the district at the time the proceedings for the same were initiated.

SEC 42. All bonds issued in pursuance of the provisions of this act shall by their issuance be conclusive evidence of the regularity, validity and legal sufficiency of all proceedings, acts and determinations in any wise pertaining thereto, had or made under this act, and after the same are issued no tax levied or collected for the purpose of paying the principal or interest on said bonds shall be held to be invalid or illegal, or set aside or refunded, by reason of any error, informality, irregularity, omission or defect in any of the proceedings, acts or determinations in any wise pertaining to the issuance or payment of said bonds, nor shall any action or proceeding be thereafter commenced or maintained to cancel or set aside said bonds or to prevent the payment thereof or the levy or collection or enforcement of a tax for such payment.

SEC 43. The legislative body of any county or municipality shall have authority and power, by resolution or ordinance, to create, and to maintain, use and reimburse, as herein provided, a revolving fund or funds in connection with and incident to proceedings had under this act, for the purpose of facilitating, contributing toward or assisting in any way any improvements or acquisitions, or both such improvements and acquisitions, authorized in this act and any of the things which may be done hereunder. Said legislative body shall have power and authority by resolution to order transferred to and deposited in such revolving fund or funds money from the general fund, the permanent improvement fund, general street improvement fund, or any fund received and to be expended in laying out, constructing or otherwise improving or maintaining any public way or ways or property or rights-of-way of the public, or to be expended in acquiring property or rights-of-way therefor, or from the proceeds of any bonds issued either before or after the creation of such revolving fund, the proceeds of which may lawfully be appropriated to and expended for any of the things which may be done under this act, or from any other fund which may lawfully be appropriated to and expended for any of the purposes for which a proceeding may be had and taken under this act. Out of any revolving fund or funds created as herein provided the legislative body of the county or municipality, as the case may be, shall have authority and the power to appropriate any sum or sums deemed necessary and to expend the same for any of the things permitted to be done under this act, including any or all incidental expenses of proceedings, and may advance any sum or sums from any said revolving fund to pay any amount due upon any contract under this act, and may advance money from any said revolving fund and deposit the same in court as security for the purpose of obtaining immediate possession and use of any property sought to be acquired, as provided in this act, and may appropriate money out of any such revolving fund and purchase, at not exceeding the par value thereof, bonds issued under this act and collect and deposit in such revolving fund payments of principal and interest upon any such bonds so purchased from such revolving fund. SEC. 44. Whenever any court of competent jurisdiction shall determine that any contract purporting to have been made, or any proceedings, steps or actions purporting to have been taken, or any bond or bonds issued under this act, is or are void, invalid or unenforceable, or shall for any cause enjoin the issuance of any bonds proposed to be issued under this act, said court shall also determine whether any work has been done or improvements have been performed in good faith by any contractor under said invalid contract or proceeding or under any contract pursuant to which said bonds were issued or proposed to be issued, and if so what part, if any, of the said work or improvement was of such kind as might have been ordered under the provisions of this act, and whether the acquisitions made or purported to have been made are such as might have been ordered under the provisions of this act. If the court shall find that any work or improvement of such kind as might have been ordered under this act has been done or performed in good faith by any contractor under or in pursuance of a contract purporting to have been made under the provisions of this act, or that any acquisition has been made or attempted to be made which could have been made under the provisions of this act, then the said court shall direct the legislative body which conducted the proceeding to take proceedings as in this section provided for the issuing of new bonds to cover the reasonable value of said work or improvement, and to cover the expenses of such acquisitions as have been made. Said legislative body may also, without any decree of any court, upon the written application of a contractor who may have done or performed in good faith any work or improvements pursuant to a contract purporting to have been made under this act, or of the assignee of such contractor, if such work or improvements shall have been accepted, or of any bondholder, or upon the written application of any person interested in an acquisition attempted to be had under the proceeding, or of any bondholder, determine that the proceedings authorizing said work or improvements, or the acceptance thereof, or said acquisition, are for any reason invalid, and direct that new proceedings be had as provided in this section for the issuing of bonds to cover the reasonable value of so much of said work or improvements as is of a kind which might have been ordered and performed under this act, and to cover the expenses of the acquisition or acquisitions of such property as might have been ordered under this act.

It is hereby declared to be the true intent and meaning of this section to make the costs and expenses of all work or improvements made or to be made and of all acquisitions had or to be had through an attempted compliance with and exercise of the powers conferred by the provisions of this act, payable by the lands benefited or to be benefited by such work, improvements and acquisitions, by the issuance of new bonds to defray the expenses thereof.

Upon a decree of court or an order of the legislative body having been made as above provided, the said legislative body shall cause to be made by the superintendent of work or by some other county (or city) officer, as the case may be, or by some other competent person appointed by it for that purpose, a report for a proposed new bond issue. Said report, in the case of an improvement, shall set forth a description of the work or improvements done or performed by said contractor or assignee pursuant to the contract referred to in said decree of court or order of the legislative body, which work or improvements have been found by said court or said body to be of such kind as might have been ordered under this act, and shall state the reasonable value of said work or improvements (which shall not exceed the aggregate of the original contract price, if any, for said work and improvements, together with the incidental expenses of the original proceedings for said work and improvements, and shall also include interest upon said total, at the same rate proposed for the new bond issue, from the date of the original acceptance of said work by the legislative body, if so accepted), and a description of the district of the lands benefited thereby, and a description of the zones, if any, into which such district is divided, in each of which zones the lands included therein shall be benefited in like measure, and a statement of the percentage to be raised from the lands in each of such zones each year for the payment of the installments of principal and interest on the bonds falling due, and describe the bonds to be issued for the said amount, which bonds shall be as nearly as possible the same as to maturity, rate of interest and other particulars as the bonds described in the original proceedings for said work or improvements, correcting any errors or irregularities that may have existed in the description of the bonds in said original proceedings, and subject to the limitations contained in this act as to maturity and rate of interest. In the event said report comprehends an acquisition or acquisitions it shall set forth a description of such acquisitions as have been found by the court or said legislative body to be of such kind as might have been ordered under this act, and shall state the amount necessary to defray the expenses thereof (which shall not exceed the total amount of the original expense thereof, including incidental

expenses of the original proceedings therefor and interest thereon at the same rate proposed for the new bond issue from the date of the order of the legislative body for the issuance of the original bonds for said acquisition, if any). In the event any payments have been made upon the principal or interest of any bonds outstanding, which have been declared invalid, by the owners of lands within the assessment district by the payment of any special assessment taxes which have been levied therefor, the amounts of such payments shall be ascertained and deducted from the amount for which new bonds are to be issued under this section and said report shall set forth the amount of the payments made and state that a credit or offset is to be made for said amount in the issuance of such new bonds. Said report shall be entitled in the matter of the same acquisition and improvement district as the original proceedings under which such improvements or acquisitions were made, shall be signed by the person making said report and be filed with the clerk of said legislative body. Upon the filing of said report the legislative body shall fix a day, hour and place for a hearing thereon, which time shall be not less than twenty days after the time of the filing, and direct the clerk of said body to give notice of the filing of said report and of said hearing, as provided in this section. The said clerk shall thereupon give notice of the filing of said report and of said hearing, which notice may, in form, and shall, in substance be (filling blanks) as follows:

All payments made, through the payment of special assessment taxes levied, upon any bonds issued under proceedings taken or purporting to have been taken under this act, which proceedings or bonds shall have been held or determined to be invalid or void, as in this section provided, subsequent to the issuance and sale of said bonds, shall, upon the issuance of new bonds, as in this section provided, for the balance remaining after crediting such payments, be deemed to have been made upon the new bonds issued hereunder, the same as though said new bonds had been issued for the total amount set forth in the report, without crediting any payments made upon bonds previously issued and the payments which had been made returned and no payments so made shall in such case ever be recovered or any tax proceedings or sales held invalid on that account.

SEC. 46. Any bonds issued under this act may be surrendered by the holder thereof to the treasurer of the county or municipality, as the case may be, in accordance with the provisions of any law now or hereafter enacted applicable to the registration of municipal, county or district bonds, and thereafter the principal and interest becoming due thereon shall be paid to the proper registered owner thereof

If, for any reason, any such hearing is not had at the time fixed therefor and no order or announcement is made, as above provided, continuing the same to another time, the power of the legislative body in the premises shall not thereby be divested, but the legislative body may proceed anew to fix a time and place for such hearing and cause notice thereof to be given by publication by at least one insertion, such publication to be at least five days before the date of the hearing, and thereupon the legislative body shall have power to proceed and act as in the first instance

SEC 48. Whenever any resolution, order, notice or other matter is required to be published or posted and the duty of posting or procuring the publication or posting of the same is not specifically enjoined upon any officer, it shall be the duty of the clerk of the legislative body conducting the proceeding to post or procure the publication or posting thereof, as the case may be. No publication or notice other than those provided for in this act shall be necessary in any of the proceedings provided for herein

SEC. 49 The notices, resolutions, orders or other matters required to be published by the provisions of this act shall be published as follows, to wit:

If the legislative body conducting the proceedings be that of a county, whether or not the proceeding includes an acquisition or improvement in and the assessment district includes land within one or more municipalities as well as in unincorporated territory of the county, the publications shall be made in a newspaper to be selected and designated by said legislative body, published and circulated in said county, which may be published either daily or less often than daily; and if the legislative body conducting the proceedings be that of a municipality, whether or not the proceeding includes an acquisition or improvement in and the assessment district includes land within another municipality or unincorporated territory of the county, or both, as well as within its own boundaries, the publication shall be made in a newspaper to be selected and designated by said legislative body, published and circulated either in the municipality for which such legislative body functions or elsewhere in the county in which said municipality is located, which newspaper may be one published either daily or less often than daily. Said legislative body may designate in the resolution of intention the newspaper for making the publication thereof and for making all other publications in or incident to the proceedings. In such case it shall not be necessary thereafter to designate the newspaper for each publication; *provided, however*, that if publication in the newspaper designated in the resolution of intention for making all publications in the proceedings shall become impossible for the reason that such newspaper has ceased to be

published, or for any like reason which renders publication therein impossible, the legislative body may, by a resolution entered in its minutes, in which the facts are set forth, designate another newspaper for each required publication as occasion therefor arises. If a designation of a newspaper for making all publications in the proceedings is not made in the resolution of intention, as above provided, the legislative body shall designate a newspaper for the publication of each notice, resolution, order or other matter required to be published as the occasion for such publication arises and in its order directing such publication. Whenever in this act it is provided that any notice, resolution, order or other matter "be published", such provision shall be deemed to and shall mean a publication in a newspaper as in this section provided.

If no newspaper be published in the county, where the legislative body of a county conducts a proceeding, or in the county in which the municipality is situated, where the legislative body of a municipality conducts a proceeding, then any resolutions, notices, orders or other matters required to be published in a newspaper may, in lieu of publication, be posted in three public places in the county, or municipality, as the case may be, and with like effect as if published, the said posting to be completed within the time provided for the publication.

SEC. 8. A new section is hereby added to said act, to be numbered 15*a*, and to read as follows:

SEC. 15*a*. Whenever at any election called pursuant to the provisions of section 10 of this act the majority of the votes cast in any water storage district unit of a proposed water conservation district shall be in favor of the organization of the proposed water conservation district, and also in favor of said water storage district unit issuing and selling bonds for the purpose of said proposed water conservation district, and the state irrigation board shall enter its order as in this act is provided, that said water conservation district is established, then the said election so held in any such water storage district unit shall be in all respects as effective to authorize a bond issue of any such water storage district unit as an election called and held under section twenty-four of the water storage district act, and the board of directors of such water storage district unit shall cause bonds in the amount stated in the order for such election, to be executed and delivered to the treasurer of said water storage district to the credit of the water conservation district fund of said water storage district unit in the manner and form and to the same effect as though said bonds had been authorized and issued after instead of before an assessment had been levied on the lands within such water storage district benefited by said water conservation district project in the amount stated in said order calling said election, which amount shall be that apportioned to such water storage district in the order of the state irrigation board apportioning to the several units in such proposed water conservation district its proportion of all the costs and expenses of the project of said proposed water conservation district.

The treasurer of such water storage district shall sell said bonds in the manner provided in section twenty-four of said water storage district act, and the proceeds of sale of said bonds shall be placed in the water conservation district fund of said water storage district. Any sale by such treasurer and delivery of the bonds thereunder shall be conclusive evidence in favor of the purchaser and all subsequent holders of the bonds, that such sale was made upon due authority and notice.

Whenever the state irrigation board shall have made its order that a water conservation district is established, with one or more water storage district units therein, the state engineer shall forthwith appoint three commissioners in each such water storage district unit, whose duty it shall be to assess the proportion of the costs of the water conservation district project apportioned to such water storage district unit by the state irrigation board in its final order of apportionment upon the benefited lands within such water storage district unit which shall be done in the same manner and with the same effect as though said project had been approved by a majority of the votes cast at an election called and held as provided in section nineteen of said water storage district act. The state irrigation board shall furnish the board of directors of each water storage district unit two correct copies of the report and estimate required to be kept on file in the office of the state irrigation board by section seven of this act and of the order required to be made by section eight of this act, and the said commissioners shall receive from the board of directors of the water storage district unit one of said copies in the place of the detailed plans, specifications and estimates of the costs of the project provided to be delivered

to them by section nineteen of the water storage district act, and the rolls prepared by said commissioners when completed shall be accompanied by the written report of the commissioners wherein is set out with particularity the exact nature and quantum of the benefits so assessed to the benefited lands of the district in the project of such water conservation district apportioned and allotted to each such tract of land in said water storage district unit, including any benefits through any drainage or reclamation work connected therewith. In such report lands embraced within a comprehensive area or a political subdivision of the state may be referred to generally as lands lying within such area or subdivision without further description. In other respects said rolls and report, and proceedings with relation thereto up to the filing of the same with the county treasurer, shall conform as near as may be to the requirements of said section nineteen of said water storage district act.

When the board of directors of such water storage district unit shall file with the county treasurer of a county within such district the assessment list or roll as finally approved as provided in said water storage act, the charges assessed thereby upon the several tracts of land within the county shall constitute a lien thereon, which shall be prior to all other liens except state, county and municipal taxes, and assessments or taxes levied or assessed by or under statutory authority, and shall impart notice thereof to all persons.

All moneys collected by a county treasurer upon any assessment levied as in this section provided, including all moneys derived from the sale of land for delinquent installments or from redemption thereof, or from sale of lands bought by such treasurer at any such sale as trustee of the water conservation district bond fund of the water storage district, shall be by such treasurer forthwith paid into the county treasury of the county from which the same arose, to the credit of a water conservation district bond fund which shall be created by such water storage district, and shall be used exclusively for the payment of principal and interest of said bonds issued on account of said water conservation district bond fund. Where bonds of such water storage district have been issued as herein provided, no act or conduct on the part of the board of directors of said water storage district or any officer mentioned in said water storage district act, or in this act, shall invalidate any assessment herein authorized to be made after the same shall have become a lien in the manner herein provided.

It is the purpose of this section to provide that any water storage district which may become a unit in a water conservation district, may authorize a bond issue as in this act provided, before it shall have levied an assessment upon the benefited lands in said water storage district, and that it may thereafter, by proceedings hereunder, levy an assessment upon the benefited lands to secure the payment of the bonds so issued as herein provided, and this section shall be liberally construed to accomplish that purpose.

SEC. 9. A new section is hereby added to said act, to be numbered 15*b*, and to read as follows:

SEC. 15*b*. Whenever at any election called pursuant to the provisions of section ten of this act the majority of the votes cast in any reclamation district unit of a proposed water conservation district shall be in favor of organization of the proposed water conservation district, and also in favor of said reclamation district unit issuing and selling bonds in the amount allotted and apportioned to it by said state irrigation board for the purposes of said proposed water conservation district, and the state irrigation board shall enter its order, that said water conservation district be established, then the said election so held in any such reclamation district unit shall be and the same is as effective to authorize the issuance of said bonds of any such reclamation district unit as an election called and held under section three thousand four hundred eighty of the Political Code, and the board of trustees of such reclamation district unit shall cause bonds in the amount stated in the order for such election, to be executed and delivered to the treasurer of the county in which said reclamation district or the larger part thereof is situated in the manner and form provided by section three thousand four hundred eighty of the Political Code, and to the same effect as though said bonds had been authorized and issued after instead of before an assessment had been levied on the lands within said reclamation district benefited by said water conservation district project. Said bonds and the proceeds thereof shall be held by said treasurer to the credit of said reclamation district in a fund to be known and designated as the water conservation district fund.

The treasurer of said county shall sell said bonds in the manner provided in section three thousand four hundred eighty of the Political Code for the sale of the bonds of a reclamation district, and the proceeds of the sale of said bonds shall be placed in the treasury of said county to the credit of the water conservation district fund of said reclamation district. Any sale by such treasurer and delivery of the bonds thereunder, shall be conclusive evidence in favor of the purchaser and all subsequent holders of bonds that such sale was made upon due authority and notice.

Whenever the state irrigation board shall have made its order that a water conservation district is established with one or more reclamation district units therein, the board of supervisors of the county in which the said reclamation district or the greater part thereof is situated, shall forthwith appoint three (3)

commissioners in each such reclamation district unit, who shall qualify as provided in section three thousand four hundred fifty-five of the Political Code. Said commissioners shall assess the proportion of the costs of the water conservation district project apportioned to such reclamation district unit by the state irrigation board in its final order of apportionment upon the benefited lands within such reclamation district unit, which shall be done in the same manner and with the same effect as though the plan or plans of said water conservation district project had been prepared and approved in the manner provided in section three thousand four hundred fifty-five of the Political Code, and no hearing on said plans shall be held by, and no approval of said plans shall be required or made by either the reclamation board of the Sacramento and San Joaquin drainage district or by the board of supervisors of the main county of said reclamation district, but the said election held in said reclamation district unit pursuant to the provisions of this act shall constitute a final approval of said project and of the part therein apportioned to said reclamation district unit.

The state irrigation board shall furnish the board of trustees of each reclamation district unit three (3) correct copies of the report and estimate required to be kept on file in the office of the state irrigation board by section seven and three (3) copies of the order required by section eight of this act. Said board of trustees shall file one of each of said copies of said report and order with the secretary of said reclamation district, one each of said copies with the clerk of the board of supervisors of the main county of said reclamation district, and the said commissioners shall receive from the board of trustees of the reclamation district unit one of said copies of said report and order in place of the plan or plans of the works of reclamation, and the estimation of the costs of the contemplated works of the district provided to be made and reported to the board of supervisors by section three thousand four hundred fifty-five of the Political Code.

Said commissioners shall thereupon view and assess upon the land within said reclamation district unit the said sum apportioned to such reclamation district unit by the state irrigation board in its final order of apportionment, and shall apportion the same according to the benefits that will accrue to each tract of land in said irrigation district unit respectively by reason of the expenditures of said sums of money, and shall estimate the same in gold coin of the United States, and shall file with the clerk of the board of supervisors of the main county of said reclamation district an assessment list in the manner and form required by the Political Code for reclamation district assessments where the reclamation district is situated wholly outside of the Sacramento and San Joaquin drainage district. In addition to the matters required by the Political Code to be set forth in said assessment lists, said commissioners shall set forth in said lists the proportionate right of each assessed parcel of land in the share of said reclamation district unit in the project of said water conservation district.

The said board of supervisors shall thereupon appoint a time for hearing objections to the report and assessment lists of said commissioners; cause notice of said time and place of said hearing; hear and act on objections filed thereto until the amount of each assessment shall finally be fixed; shall then make an order approving said report and assessment list and shall endorse such order upon said assessment lists, which said endorsement shall be signed by the chairman of said board of supervisors and attested by the clerk thereof, all in the manner and form required by section three thousand four hundred sixty-two of the Political Code for hearing, equalizing, adjusting and finally determining assessments of reclamation districts, and such decision of said board of supervisors shall be final and thereafter said assessment list shall be conclusive evidence that the said assessment list has been made and levied according to law, except in an action commenced as provided in section three thousand four hundred sixty-two of the Political Code. The assessment lists shall then be filed with the county treasurer or if the reclamation district is situated in more than one county, then the original list must be filed with the county treasurer of the county where the greater portion of the lands of said district are situated, and copies thereof certified by the treasurer must be filed with the treasurer of each of the other counties. When the board of supervisors shall have finally taken action modifying or approving any assessment lists as provided herein and in section three thousand four hundred sixty-two of said Political Code, the charges assessed thereby upon tracts of land within the county shall constitute a lien thereon and shall impart notice thereof to all persons, and in the event of the conveyance of a part of a tract of land in said district and in the absence of any provision in the instrument conveying the same, said lands so conveyed shall be deemed to share ratably in the benefits apportioned to the entire tract.

The sums so assessed must be collected and paid into the county treasury, as in section three thousand four hundred eighty of the Political Code provided, and be placed by the treasurer to the credit of the water conservation district fund of said reclamation district unit for the purpose of paying the principal and interest of such bonds and for no other purpose. All proceedings for the sale of lands for delinquent assessments and the redemption of such lands shall be in accordance with the provisions of section three thousand four hundred eighty of the Political Code.

Where bonds of such reclamation district unit have been issued as provided herein, no act or conduct on the part of the board of trustees of said reclamation district or any officer mentioned in said article two, chapter one, title eight, part three of the Political Code or this act shall invalidate any assessment herein authorized to be made after the same shall have become a lien in the manner provided herein, but such trustees may be compelled by mandate or other proper proceedings to perform their duties as required by law.

It is the purpose of this section to provide that any reclamation district which may become a unit in a water conservation district may authorize a bond issue as in this act provided, before it shall have levied an assessment upon the benefited lands in said reclamation district, and that it may hereafter, by proceedings hereunder, levy an assessment upon the benefited lands to secure the payment of the bonds so issued as herein provided, and this section shall be liberally construed to accomplish that purpose.

SEC. 10. Section twenty of said act is hereby amended to read as follows:

Sec. 20. Each of the constituent districts or units of a water conservation district is hereby expressly authorized to vote, issue and sell its bonds for the purposes herein provided in this act, and said bonds are to be in all respects of the same force and effect, and of the same priority as a lien on property as other bonds voted, issued and sold by such constituent district or unit under the particular law or laws governing the voting, issuance and sale of bonds by such constituent district or unit.

The board of directors of a water conservation district shall estimate and determine, in the manner provided in section twenty-four hereof, the amount of money required by such board of directors of the total sum originally voted by all of the constituent districts or units, and said board of directors shall thereupon apportion and allot to each of said constituent districts or units its proportion of the cost of said project. Said apportionment shall be made upon the same basis as was provided for in the original apportionment of the cost made by the state irrigation board, and thereupon said board of directors shall, by resolution duly adopted and entered upon the minutes of said board, make requisition upon each of said constituent districts or units for its proportion of said cost, and a copy of said resolution, duly certified to, shall be served upon the secretary or other officer of the governing board of each constituent district or unit.

SEC. 11. A new section is hereby added to said act, to be numbered thirty-seven and to read as follows:

Sec. 37. Actions or proceedings contesting or attacking the validity of the formation of a water conservation district can only be commenced within thirty days from the date of the making by the state irrigation board of the final order establishing such water conservation district, as provided in section eleven hereof.

Actions or proceedings attacking or contesting the validity of any bond issue provided for in this act can only be commmenced within thirty days after the declaration of the result of such election at which such bonds were voted.

Except as herein provided, actions or proceedings attacking or contesting any election under the provisions of this act can only be commenced within thirty days after the declaration of the result of such election."

MOTION.

Mr. Eksward moved that the Journal of March 26, 1925, on page 28, immediately following the roll call on Assembly Bill No. 1120, be corrected to include the following statement:

In reading the Journal this morning I found to my surprise that I am recorded as voting "No" on Assembly Bill No. 1120. I introduced this bill and have at all times diligently followed its progress, endeavoring to have this bill passed by the Assembly at the earliest possible time. I distinctly voted aye when my name was called to vote on this bill, but due to an error of the clerk, no doubt owing to the confusion in the Assembly Chamber at the time of taking the vote, he did not hear me vote aye and so did not record me correctly. I am making this statement to avoid any possible doubt as to my consistent and earnest support of Assembly Bill No. 1120.

FRANK L. EKSWARD.

On page 3 of the printed bill, strike out all of lines 1 to 33, inclusive, and insert in lieu thereof the following. "application for a review of any order granting, refusing, or revoking, a license made by the state mineralogist under this act, may be made to the superior court in and for the county where the aggrieved parties reside, by any person or persons who may feel aggrieved by such order and whose name or names appear in the record of the proceedings before the state mineralogist as a licensee, applicant for license, protestant, or accuser, by lodging in the office of the clerk of said court a certified copy of the transcript of the proceedings before the state mineralogist, including copies of all papers filed therein. The transcript shall be accompanied by a short petition naming the person or persons applying for the review as plaintiff or plaintiffs and the state mineralogist as defendant, and praying for a review of the order.

Within ten days after lodging such application the party or parties applying for the review shall serve notice of its pendency upon the state mineralogist, in writing, and if the review be of an order granting a license or refusing to revoke a license, such notice shall also be served upon the person to whom the license was thereby granted or whose license was thereby permitted to remain in force.

Such notice may be served by personal delivery or by registered mail, and proof of service shall be made to the satisfaction of the court if not admitted. No review shall be allowed unless taken within thirty days after entry of the order. The said court shall try all such reviews upon the transcript, and such evidence as may be offered and admitted. When the court has finally determined any such proceeding, it shall forthwith cause its order in the premises to be certified to the state mineralogist. The costs in such review shall be awarded at the discretion of the court, and if any costs are awarded against the state mineralogist, the same shall be paid out of funds arising from the payment of license fees under this act. When a review is had, as herein provided, of an order of the state mineralogist revoking a license, such review shall operate as a stay upon such order.

For the making of the transcript herein provided for, the state mineralogist shall collect from the person or persons ordering the same, twenty-five cents per folio of one hundred words, and twenty-five cents for certifying the same.

The superior court in and for the county or city and county in which the aggrieved party or parties reside shall have the right and jurisdiction to review the action of the state mineralogist in granting, refusing, or revoking a license."

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were taken up, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 19, 1925.

To the Assembly of the State of California.

Assembly Bill No. 485 is returned herewith without my approval.

This bill is clearly in conflict with the decision of the Supreme Court written by Justice Wilbur in the case of Miller and Lux vs. The Board of Supervisors of Madera County (189 Cal. 254). In that case an act similar to this was declared to be violative of article 4, section 25, subsection 33 of the constitution.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

In that case an act similar to this was declared to be violative of article 4, section 25, subsection 33 of the constitution.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 24, 1925.

To the Assembly of the State of California.

I am returning herewith Assembly Bill No. 204 without my approval.

There appears to be no demand for the passage of this bill and not one person, other than its author, has written to me in its behalf. The guards at both the State's prisons are well satisfied with their jobs and have made no request for such legislation. The Board of Prison Directors reports that the enacting of this bill into a law would require the building of new sleeping quarters costing $80,000 at San Quentin and $55,000 at Folsom; that such buildings could not be erected within one year, and that the additions to the pay rolls and support allowance for the first biennium would amount to $243,460. This bill would add $378,460 to the present budget and add a perpetual biennial cost of $243,460. It is not fair to the taxpayers of the State that such a heavy burden should be placed upon them, especially when no adequate reason for the expenditure is presented.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,

To the Senate and Assembly.

This is to advise your honorable body that I have signed the following bills:

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were read and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA.
SACRAMENTO, March 30, 1925.

To the Assembly of the State of California.

Herewith I return without my approval Assembly Bill No. 149, which amends section 1607 of the Penal Code by providing for the removal of injured or sick prisoners from county jails to hospitals.

The purpose to be effected by this measure is humane and commendable. But it is my judgment, after carefully considering the matter, that the removal of prisoners from county jails to the comforts of hospitals should not be extended to persons convicted of crime until more restrictions have been imposed for the protection of society than are set forth in this bill. It is proposed by the amendment to permit the removal of a prisoner for medical treatment upon the order of a superior judge, based on affidavit of a sheriff or district attorney and oral testimony. There is no requirement as to the character of this oral testimony. While it is probable that in most cases the court would demand medical evidence of the need of a prisoner for medical treatment, and be governed by a wise discretion in making an order, I think it would be more of a safeguard to require sworn evidence of two or more reputable physicians as to the facts involved. It needs little imagination to predict that unless some such requirement is set forth in the statute the privilege will be abused by prisoners blessed with a political "pull," or who can command funds with which to work up maudlin sentiment.

I make these suggestions on the presumption, which I think may safely be indulged, that serving a sentence in a hospital would in general be more agreeable to most criminals than serving it in a county jail.

A protest has been filed against this bill stating that it would make it possible to remove prisoners, without a hearing, from a county jail to a private insane asylum as such asylums are usually called hospitals.

This bill is a better one than the bill of a similar nature adopted by the Legislature two years ago, but not approved by me. It still lacks the necessary safeguards, and there appears to be no considerable demand for it becoming a law.

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 30, 1925.

To the Assembly of the State of California.

Assembly Bill No. 226 is returned herewith without my approval for the reason that a mistake was made in drawing the bill and the author has requested its return.

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 30, 1925.

To the Assembly of the State of California.

Assembly Bill No. 268 is returned herewith without my approval. This bill amends section 1446 of the Penal Code which has stood unchanged for more than half a century. This section is generally understood and daily applied by all of the police judges and justices of the peace in this State. This bill would require these officers to specify in a judgment the extent of the imprisonment which would be limited as therein specified. These officers, many of whom are not skilled in the drawing of judgments, would have to be as careful and exact in the wording thereof as are superior court judges. The criminal procedure in police and justice courts should be as simple as possible. This bill would make the wording of judgments more difficult and technical and hence would afford another loop hole to permit guilty persons to escape punishment. Fines in these cases are usually small and this bill would be less deterrent to crime than the present section. The sentence "Ten days or ten dollars" has in it a great deal more psychological effect than ten days or five dollars.

This bill is a useless tinkering with the codes and would be a detriment to the ends of justice.

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.

Said engineer or surveyor shall, in making the survey, leave sufficient and enduring monuments firmly, accurately and securely placed, so that other surveyors can therefrom readily retrace all parts of the survey, and he shall leave a stake or other monument firmly fixed to mark each and every lot and block corner of the subdivision, except however, that witness or reference points may be left in lieu of other stakes or monuments wherever so doing will better serve to preserve the survey and facilitate its retracing: *provided, however*, that on all maps or tracts filed for the purpose of showing as acreage, land previously subdivided into numbered or lettered lots or parcels, and shown upon duly recorded maps, no survey or certificate by engineer or surveyor shall be required The map or plat shall particularly set forth and describe:

Third—All lots intended for sale or reserved for private purposes and not offered for dedication to the public use, either by number or letter, and their dimensions and boundaries and the courses of their boundary lines. All parcels of land offered for dedication as public highways and not accepted by the proper authorities upon presentation to them shall also be designated by number or letter. All designations of blocks by number or letter shall be consecutive and lots in each numbered or lettered block shall be consecutively designated. If blocks are not designated by number or letter, all lots shown upon the map shall be consecutively designated.

Fourth—The nature and exact location of all monuments and witness or reference points of the survey, with such other information as is necessary for their identification on the ground and use in retracing the survey.

Fifth—The exact location of said tract or subdivision of land with reference to adjacent subdivisions and the adjacent streets thereof, the maps or plats of which have been previously recorded, if any, or if none, then with reference to adjacent tracts of land, or streets, roads or avenues that are in common use, or with reference by actual bearings and distances to corners of a United States land survey or to natural or artificial monuments.

SEC. 2. Every original map shall be clearly and legibly drawn in all its details upon tracing cloth of good quality. The sheets of drawing cloth must be eighteen by twenty-six inches. Marginal line must be drawn around the entire sheet, leaving a margin of one inch from the edge of the sheet, and the name, title or other designation, and all drawings, affidavits, acknowledgments, indorsements, acceptances of dedication and notarial seals must be within said marginal lines. If more than one sheet is used, each sheet must be numbered, connections of one sheet to another clearly given and the number of sheets comprising the map shall be given in the certificate of the engineer or surveyor. Every map copy specified in this act shall be on cloth; it shall be a true and correct copy of the original, clear and legible in all its details; it shall be resistant to fading and disintegration and may be made by any process of copying which will well insure the accomplishment of these ends. Except that no tax bond, or certificate in regard to tax bond, by the clerk of the board of supervisors, shall be required on any map which may be recorded on or after the date upon which the taxes for the current year have become payable and before the date upon which the assessment for the next succeeding year is based. Such governing body shall thereupon submit a report thereon, with its suggestions and recommendations to the said county board of supervisors. In the event of the failure, refusal or neglect of said city planning commission, or city engineer to so report within ten days to the city governing body, it shall then be the duty of said commission or city engineer to forthwith transmit said map or plat to said governing body for its action thereon. In the event of the failure, refusal or neglect of said governing body to so report to said county board of supervisors within twenty days after said county board has so filed said map with said city planning commission, or city engineer, it shall then be the duty of said governing body to forthwith transmit said map or plat to said county board of supervisors for its action thereon The recommendations of the city planning commission, city engineer, or governing body, of such city or town, within three miles of which such subdivision of land is situated, shall be considered as advisory to the board of supervisors of the county.

If such map or plat offers for dedication any highways said governing body or board of supervisors shall endorse thereon which of the

highways so offered for dedication are accepted on behalf of the public, and thereupon such highways which have been so accepted, and no others, shall be and become dedicated to the public use.

Natural watercourses. In the event that the tract of land shown upon the map or plat is traversed by any natural watercourse or channel, such governing body may require as a condition precedent to the approval of such map or plat, either the dedication to public use of any easement or a conveyance to the political subdivision of a right of way for storm drain purposes to conform substantially with the lines of such natural watercourse or channel.

SEC 2 Section ten of said act is hereby amended to read as follows:

Sec. 10. If an unexpended balance shall remain in the fund of a levee district from a previous fiscal year, at the time when, by law, it is the duty of the board of supervisors of such county to fix the annual tax rate, then and in that event, the county auditor of such county shall, prior to the meeting of the board of supervisors, for the purpose of fixing the annual tax rate, furnish said board of supervisors with a detailed statement showing the amount of such unexpended balance remaining in the fund of such levee district from a previous fiscal year, or years, and said auditor shall also furnish said board of supervisors with a list of all unpaid warrants for the fiscal year last past shown by the records of said auditor and shown upon the list of warrants furnished by the board of trustees of said levee district as aforesaid, and at the same time, the county auditor shall furnish a copy of such statement to the county treasurer Upon receipt, by the board of supervisors from the county auditor of the statement showing amount of the unexpended balance or balances aforesaid, the said board shall deduct the amount shown by the statement of the county auditor from the estimate of the amount of moneys necessary for said levee district, for the year, as submitted by the board of trustees of such levee district, to the board of supervisors, pursuant to section eight of this act, less an amount sufficient to provide for the payment of all outstanding warrants of the previous fiscal year.

The amount of such estimate remaining, after the board of supervisors shall have deducted therefrom the amount of unexpended balances, less an amount sufficient to provide for the payment of all outstanding warrants of the previous fiscal year, as shown by the auditor's statement, shall form the basis for the amount of money required to be raised by assessment upon the lands and personal property within such levee district for such year. At the time when the board of supervisors of such county shall fix the annual tax rate, the board shall take as a basis, the estimate and report of said board of trustees of said levee district, and the deduction therefrom of the unexpended balance, less an amount sufficient to provide for the payment of all outstanding warrants of the previous fiscal year, as shown in the statement of the county auditor, as hereinbefore specified, for the amount of money necessary to be raised in said district for the purpose thereof for that year, and the valuation of the lands and improvements thereon, and personal property within such district, as furnished them by the county assessor, levy a tax upon all taxable property in such levee district, sufficient to raise an amount of money, which, added to the unexpended balance, less an amount sufficient to provide for the payment of all outstanding warrants of the previous fiscal year, as shown by the statement of the county auditor, will total an amount equal to the estimate of the board of trustees of such levee district for the amount of money necessary to be raised in said district for the purposes thereof, for that year. If no assessment be levied for that year, and an unexpended balance remain to the credit of said levee district, then at the time of levy of tax by law by the board of supervisors, the county auditor shall transfer any unexpended balance or balances, less an amount sufficient to provide for the payment of all outstanding warrants of the previous fiscal year, upon his books from the levee district fund or funds of the previous fiscal year or years, to the fund of said levee district for the succeeding fiscal year, and shall notify the county treasurer of such county of the transfer, and thereupon it shall be the duty of the county treasurer to make a corresponding transfer of such unexpended balance, less an amount sufficient to provide for the payment of all outstanding warrants of the previous fiscal year, upon his books, so that the same will remain in balance with those of the auditor, and thereupon such sum shall cease to be a part of the fund of such previous year, or years, and shall become a part of the funds of such levee district for the fiscal year to which the same was transferred.

The tax so levied by the board of supervisors, as above mentioned, shall be computed and entered upon the assessment roll of the county by the county auditor, and collected at the same time, and in the same manner as state and county taxes, and when collected, shall be paid into the county treasury for the use of said levee district in which said taxes were levied. EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, March 31, 1925.

To the Assembly of the State of California.

Assembly Bill No. 299 is returned herewith without my approval. This bill amends the Los Angeles county flood control act. Since its passage it has been discovered that the powers conferred on the flood control district with reference to the sale of water are so broad that they might constitute a menace to the water rights of a large portion of the district and authorize the transferring of flood waters from one watershed to another.

This act would give the authority for the sale of water which has not heretofore been contained in the act.

The author of the bill, Assemblyman Sewell, asks that the bill be returned without approval. Senators Evans and Taylor join in this request.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

The Select Committee of One appointed to meet Honorable Marc Peter, Swiss ambassador to the United States, begs leave to report that the instructions have been carried out, as follows: Your committee met the ambassador at the train upon his arrival Sunday morning, escorted him to Sutter's Fort, where he was shown and had explained to him the various relics of pioneer days. Mr. Cox, the custodian of the fort, came to California in 1852, overland by ox team, the trip consuming six and a half months from Missouri to California. He was a personal friend of General Sutter, and the ambassador was very much interested in the early history of California, and of Sutter's Fort, particularly on account of General Sutter himself being a Swiss, and of Mr. Cox's personal acquaintance with the general.

The ambassador was informed of the movement instigated by the Native Sons of the Golden West to bring the remains of General Sutter from Lititz, Pennsylvania, to Sutter's Fort for reinterment, and he was very favorably impressed with the idea, and promised his support to the Native Sons in carrying out the project.

The distinguished visitor was shown the Capitol Building and grounds and was tendered a banquet at the Hotel Senator, where he was welcomed by the Governor, Honorable Friend Wm Richardson; the mayor of Sacramento, Honorable Albert Elkus, Cris R. Jones, vice president of the Sacramento Chamber of Commerce; Dr Eberly, representing the Helvetian Society of Sacramento, and others.

Mr. Peters was very much pleased with the city of Sacramento, and the attention shown him, and his only regret was that his visit was so short He left at 2 35 p m. Sunday for Washington.

WEST, Select Committee.

831*f* The rules of pleading and practice applicable to the prosecution of civil actions and enforcement of judgments in the superior court of this State shall apply to and govern the prosecution and maintenance of civil actions and enforcement of judgments in the municipal courts of this State except as follows

(1) In cases tried by the court without a jury the court shall not be required to make any written findings of fact and conclusions of law where the matter involved is three hundred dollars ($300) or less, exclusive of interest and costs, and in all other cases written findings of fact and conclusions of law shall be deemed to be waived unless they shall be expressly requested by one of the parties at the time of the trial.

(2) Where the demand, exclusive of interest, or the value of the property in controversy does not exceed three hundred dollars, the defendant at his option, in lieu of demurrer and other answer, may file a general written denial verified by his own oath and a brief statement similarly verified, of any new matter constituting a defense or counterclaim.

(3) At any time after issue of fact is joined, the court upon its own motion may, and upon the written demand of any party shall, cite all parties to appear before the court at a time and place certain for summary proceedings

Such citation may be served upon the party personally or upon his attorney of record. It must be served not less than five days before the return day.

Each party must appear personally, or by person or persons having knowledge of the facts and authorized in writing by such party so to appear, and with or without counsel as he may desire. If a party is an assignee of a cause of action, counterclaim or cross-complaint, in addition to any other person he shall procure the presence of the first assignor thereof or its agent making the assignment, if he be available. At such time, or other time or times to which the proceeding may be continued, the judge shall require the parties, or the person or persons appearing respectively in their behalf, to state under oath the facts upon which the respective claims and defenses of the parties are based. If a party is authorized by the provisions hereof to appear by counsel only, his counsel shall state the facts upon which his claim or defense is based. The court shall regulate the order of making the statements as justice requires.

Such statements, together with all that occurs at such examination, shall be taken down by a court reporter and the notes of the court reporter or transcript of such notes, certified by the court reporter and the court and filed in the office of the clerk.

If from such statements it shall appear, without substantial conflict as to facts, that any party is entitled to judgment against any other party, the court shall cause such judgment to be entered forthwith.

If, although judgment can not be so entered, it shall appear that there is no substantial conflict as to some of the facts and that upon them findings may be made, the court shall make and file such findings. If such judgment be not so entered, the court shall forthwith set the cause for trial.

Findings upon summary proceedings shall be deemed excepted to. They shall be determinative of the facts therein found, unless the court for good cause, upon notice, set them aside.

If any party fail to appear for summary proceedings as herein provided, or fail to make statement of facts as herein required, the same judgment shall be entered against him as would be entered if he should fail to appear at trial of the action.

MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were taken up, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 2, 1925.

To the Assembly of the State of California.

Assembly Bill No. 25 is returned herewith without my approval. This bill amends section 1380 of the Code of Civil Procedure relating to special notices in estate proceedings. At the end of the first line of this section the punctuation has been altered from that in the section amended with apparently no reason and probably in a way that might affect the meaning. In line 26 there is another error in punctuation which might make a change in the meaning of the statute.

So many errors have been discovered in the enrolled bills sent to me that I think it is a matter which should engage the attention of your honorable body. Several bills have been returned without my approval at the request of the authors on account of errors in drawing the bills. A bill as finally enrolled should be perfect in every particular so that it may properly become a part of the statutes. I do not intend this as a criticism of any particular department but it seems to me there is need for more care and attention in preparing bills for the printer. Errors of this kind should be corrected before the bills are finally enrolled.

There is still time to adopt a correct bill if it is desired.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

SACRAMENTO, April 2, 1925.

To the Assembly of the State of California.

Assembly Bill No. 856 is returned herewith without my approval, for the reason that there is an error in the wording of the bill. The error may not be vital, but I am returning the bill in order to show the necessity of more careful consideration of bills, especially when they have been engrossed and are up for final adoption.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

COMMUNICATION.

The following communication was received and ordered printed in the Journal:

By Mr. Eksward:

STATE OF CALIFORNIA, OFFICE OF ATTORNEY GENERAL,
SACRAMENTO, CALIFORNIA, March 18, 1925.

Honorable Frank L. Eksward,
Assembly Chamber, Building.

DEAR MR. EKSWARD: At your request I have examined Assembly Bill No. 502, as amended in the Assembly on March 14, 1925, with a view to ascertaining whether or not it is an appropriation bill, prohibited passage in advance of the final enactment of the budget bill under the provisions of section 34 of article IV of the constitution. As a result of such examination, I conclude that this bill does not make an appropriation and is not within the prohibited class above mentioned. The act adopted at the session of 1911 for the purpose of carrying into effect the amendment adding section 14 to article XIII of the constitution, commonly referred to as Amendment No. 1, contained a provision whereby the Board of Equalization and the Board of Control, acting jointly, are authorized to credit upon the taxes of the succeeding year sums erroneously or illegally collected from the taxpayer; *provided*, and upon condition, that application for such relief be made within one year following the date of payment of such tax In 1917, this provision was codified as subdivision 3 of section 3669 of the Political Code. The effect of the bill, if enacted, will be to extend to a date not later than the fourth Monday preceding the first Monday of July, 1925, the time within which the life insurance companies affected by its provisions may file with the Board of Equalization their claims for credits upon future taxes; and in view of the very large sums which have accumulated pending a final determination by the Supreme Court of the questions involved, the existing law is further modified by applying such credits over the specified period of years instead of confining them to one year.

This is indeed no more than a payment in advance of taxes hereafter to become due.

Very truly yours,

U. S. WEBB, Attorney General.
By R. T. MCKISICK, Deputy.

WHEREAS, The California Highway Commission as we understand it is created for the purpose of extending the roads through the scenic and commercially important parts of California, and

WHEREAS, We believe that the road now in existence, starting at a point where the State highway turns east in San Anselmo, in Marin County, toward San Rafael, thence running in a westerly direction through the town of Fairfax and over White's Hill, and through the picturesque and historical San Geronimo Valley, down the Lagunitas Creek to Tocoloma, over the Tocoloma Hill to Olema, thence north to Point Reyes bridge and from there along the west side of Tomales Bay through Inverness and thence to the Point Reyes Light House, should be included in these additions. Aside from the wonderful scenic beauty of this route, this road traverses a country of untold commercial resources and in addition to its strategic value to the Army and Navy, it will also serve the Coast Guard and Lighthouse Service, and in view of all of these reasons, it is hereby

Resolved, That the Marin County Good Roads Association, in meeting assembled at Lagunitas, California, Saturday evening, March 21, 1925, hereby heartily endorses this project, and respectfully requests the Honorable Governor of the State of California, Friend Wm. MESSAGES FROM THE GOVERNOR.

The following messages from the Governor were taken up, read, and ordered printed in the Journal:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 3, 1925.

To the Senate and Assembly of the State of California.

GENTLEMEN: This is to advise your honorable bodies that I have signed Assembly Bills Numbers 175, 182, 369 and 877

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 3, 1925.

To the Assembly of the State of California.

Assembly Bill No. 229 is returned herewith without my approval for the reason that it contains serious errors in composition. The author has requested that it be returned.

Respectfully submitted.

FRIEND WM. RICHARDSON, Governor.

Also:

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,
SACRAMENTO, April 3, 1925.

To the Assembly of the State of California.

Assembly Bill No. 866 is returned herewith without my approval. This bill amends section 2322*e* of the Political Code by adding the names of certain weeds to the present list. The present law appears to me to amply cover the problem as it provides that "any other species of plant which, after practical survey and investigation, is found by the Director of Agriculture to be noxious and a menace to agriculture, shall by said director, through proclamation, be declared a noxious weed, and such species shall thereafter be considered a noxious weed."

I further object to this bill on the ground that the publication and posting required in the present law is omitted by this bill. The present law provides that notices regarding noxious weeds "shall be published once a week for two successive weeks in a newspaper or farm journal of general circulation published and circulated in the county or counties where any of said plant is known to exist. A copy of such proclamation shall also be posted in a public place in or near the area affected thereby." It seems important that the public should be fully advised of any action of the Director of Agriculture, and that the present requirement of publication and posting are necessary and proper.

Respectfully submitted,

FRIEND WM. RICHARDSON, Governor.

3818. In all cases where a lot, piece, or parcel of land contained in any assessment has been sold or may hereafter be sold for delinquent taxes to the state and the state has not disposed of the same, a partial redemption may be made, separately from the whole assessment, of any such lot, piece or parcel of land as follows:

If such lot, piece or parcel of land has a separate valuation on the assessment roll, such partial redemption shall be made in the manner following: In the estimate provided for in the preceding section, the auditor shall estimate the amount of state and county taxes due on such lot, piece or parcel of land, together with a proper proportion of the taxes due on personal property under such assessment, and of the taxes due each school, road, lesser or other taxation district; and such redemption shall be made in the manner provided for in the preceding section.

If such lot, piece or parcel of land does not have a separate valuation on the assessment roll, the auditor shall submit the description of the fractional part of the lot, piece or parcel of real property upon which redemption is requested, to the county assessor, who must place a valuation thereon. The auditor shall then estimate the amount of such taxes due on such lot, piece or parcel of land according to such relative or proportionate value and the taxes due on any improvements on the portion sought to be so redeemed, together with a relative proportion of the taxes due on personal property under such assessment, and of the taxes due each school, road, lesser or other taxation district; whereupon such redemption shall be made in the manner provided for in the preceding section; *provided*, that no lot, piece or parcel of land owned or claimed under contract by the person so redeeming shall be divided for the purpose of such redemption. A notice by registered mail of the proposed division must be given by the auditor to the person or persons to whom the same was assessed, if known to the auditor, if not so known, by posting a notice of such proposed division for a period of twenty days in three public places in said county, and if no protest against said division be filed with the auditor within twenty days from the date of the posting or mailing of such notice, the auditor shall thereupon issue an estimate as above stated. In cases where written protest is filed within said twenty days to said division, the auditor shall withhold his estimate and refer the matter to the board of supervisors for decision. The board of supervisors shall set a time for hearing said protest, and cause a notice of the date of said hearing to be mailed by its clerk to the person or persons who have filed a written protest with the auditor, as above provided, at the post-office address named in such protest, at least five days prior to the date of such hearing, and at the termination of said hearing may confirm the act of the assessor, or modify or set aside the same and its decision in the premises shall be final. In the event of such reference to the board of supervisors and of their dividing the assessment, the estimate of the auditor shall conform to the action of the board. A partial redemption may be made, in like manner, separately from the whole assessment, of an undivided interest in any real property, if such property has a separate valuation on the assessment roll; the auditor estimating the amount of taxes due on such undivided interest according to the proportion which such interest in said real property bears to the whole assessment. The recorder shall note, on the margin of the record of the certificate of sale a description of the property or undivided interest redeemed under this section, and shall specifically set forth the several amounts of taxes paid upon such redemption."
