Our visitor today is the President of the Oreek Parlinment, which consists of onc house. IIe is a lawyer by profession and he comes from a distinguished family which has served his country for generations. Ho is visiting the United States at the invitation of our government. (In fact, ho is the latest "message"' to California from the State Department, but I assure you one which will not canse us any angoish or amxicty.)

Mir. Rodopoulos was educated in Grecee, France and Switzerland. He has held many cabinct posts in the Greek Goverument. JLis office is the second highent in the land, ranking with the Prime Minister. In nome respects he ranks higher. He has been President of Parliament for eight consecutive years, having been elected annually. On mecting him I discovered the true secret of success in politics-modern Greck style. It is a matter of long range plauning and perscverance. You see he has been representing his district of Larissa for 10 consecutive four-year terms. Ilis fathor served eight terms before him, and his grandfather started the whole family dynasty with a ghort atretch of five terms I So the key apparently is, start each generation off earlier, so they can last longer!

Ladies and gentlemen of the Assembly, it is a great honor for me to present to you a distinguished leader of his country, Mr. Constantin P. Rodopoulos, President of the Greek Parliament.

## Mr. Speaker and Dear Colleagues:

Today's experience is a great privilege to anyone who has been in Parliament for a period of 30 years.

It is in my far-away country, small as it may be, that democracy was born and first applied. It is there that the shrine of demoeracy was erected and where faith in freedom became a religion. l3at we must all now recognize that in this hall too there is today a great shrine of freedom and demoaracy.
Decisions based on wisdom, strength and courage and inspired by lofty ideals which you took at critical moments in the history of humanity, relying on the American people as a whole, saved democracy and freedom.
I cannot forget that this policy of the United States and the sacrifices of the American people have guaranteed freedom and prosperity to my country.

We are following with great interest the efforts of President Eisenhower to consolidate peace in freedom. We have profound confidence in him, and we hope that by his wise and far reaching policy he will preserve the freedom of humanity, which he previously saved on the battlefield.
I thank you all very aincerely for your cordial welcome, and I wish to assure you that the sentiments I have just expressed are shared by the entire Greek people.

I thank you.

## REQUEST FOR UNANIMOUS CONSENT

Mr. Bruce F. Allen was granted unanimous consent that the following analysis by the Jegislative Analyst be ordered printed in the Journal:

## ANALY8IS OF PROPOSED AMENDMENTS TO 8.C.A. NO. 1 1960 FIRST EXTRAORDINARY BEB8ION <br> Propared by Legialative Analyst, March 8, 1960

The purpose of the following proposal is to establish legrisiation which will most effectively carry out the priveipul ubjectives of the Muster Plan for IIigher Edacation, in whieh it is renognixetl that the Ingislature had a very great direct interest and conceru.

The proposal suggests that this requires the making of a elear-cut distinction between the acedemic matters whirh are the primury concern of the academic institutions or their governing bralies, on the one hand, and the elements of fiscal responsibility and public policy which are the constitutional duties and obligations of the I, egisintinve and the Governor. The method by which this is proposed to be done reatures, in turn, a distinction between those thingn which enn tose be accomplished by placing legislation in the Constitution and those whith cenn best be done through direet acts of the lagislature, frem liow the limitations and disadvantages which nre inlerent in lergislating in the ('onslitution.

This distinction recogniges that erritain of the objectives of the Master llan recpuire the rigidity and the insulation from change whieh ean best be provided in the Constitution. It also recognizes that fremeing control over policy and administration in the Constitution creates problems of insulating against neeceswary and dexiruble chanyere in policy, and also prevents those who are clirectly responsible for ultimate authority over that policy from being in a proper position to exercise sileh control.
The following proposed amendinents to S.(C.A. No. 1, plus a proposed bill to be introduced, plus agrecment to langume exemptiar the collegres from budget controls, to be plaued in the next Rudyet 13ill which follows the approval of the constitutional amendment anil in suceceding budget bilif, are desipned io carry out these ohjectives, in lisu of enacting S.C.A. No. 1 as presently dratter.

Matters Which it is Recommonded Should be Placed in the Constitution With the Amendmente to 8.C.A. No. 1 Which Would Aecomplish This

1. A statement wonld be plated in the Constitution clefining public higher edncation to consint of the university, xinte collemes and publit: junior colleges, and placing the exclusive anthority to entablish all new institutions which offer instruction beyond the 1 ith grade level (thus excluding junior colleges) in the board of regents and the nowly created Trustees of the State College System. 'Ilum, the licuindature is divested
of all authority to arrate new state colleges or other institutions ahove the junior collerpe level.

Accordiurly, S.C.A. Nu, 1 would remain unchanged on page 1 aud through line ! an jugre $\because$ uf the bill wherein it accomplixhes the above purposes.
2. I'ublic jumior vollenes would have their present status us units governed by loend bourds jolaced in the Constitution. Also, provision would be mude for miniminm slandards and general supervision praseribed by the Stute liourtl al Bhatalion under laws enacted by the lergislature. A limil womld in placed on the level of insiruelion, i.e., that it shall mof exared the 1 th grade level.

Thus, his censtitutional provision offers organizational and juris-
 educational respomihility- -a mejor oljoctive of the Mmster I'lan with respect to ull therer serments on hirger education.

Aceordingly, Section 16 (13i, leiween lines 10 and 25 , inchlusive, on page 2 of s.l.... No. 1 wruld renimin unehanged, under this recommendation.

3]. The Trishose of the Niatc ('ollege System would be ereated aml

 rxerph as otherwisi sproifiouly provided in this constitutional amondment would ha subjict to laiws marted by the legislature. A Chief Exerolitive (Sficere for the sinte ('ollaper System would also be created by Constitution amb hix alvisury prolaiomship with the regents of the university almo extablishod.

Thiss, the organizatiun of the trustees and their executive officer would be ereatal hy Constitution, but the authority placed in the trustepn would lur subject to laws enacted by the legiglature with four nujur execputions ar limitations:
a. Hesearell for the eollogen antl the joint doctorate with the University slondil he anthorixim in the Constitution as presently provided

b. A limitation on the olliring of doctural degrees and professional cducatime by the siate colleges is contained in the grant of authority to the laversits- which, as provided in (d) on page 4 of S.C.A. No. 1. lines 9 thurough 33 , has exclusive jurisdiction in these fiolds.
f: Suthority for the 'stablishnent of new colleges is given to the Trushops, as stated carlier, and
t. The function of the enilceres is specifieully defined in S.C.A. No. I mol cannot be clamyril by the Iargislature.
With respurit to the Trustees of the State College System and jts expentive officer deseriberl in (i) on pages 2 and 3 and through line 8 on pare 4 of S.C. $A$. No. 1, umendments have been prepared which first, establish the frustees ns a bonrd which is wot corporate in form, give it the organization desuribed in lines 32 throngh $\overline{\text { an }}$ on page $\geq$ of the hill und lines 1 lhourh if min pher 3. Secondy; the amendments wonld remove the eorpornt" powers recited between lines 7 and 20 indusive on phre: is of' S.(C.A. No. 1, rethining the requircment wistel in the bill in liners e20 through 2is that the systen shall be free of political and sectarian influence and that no person shall be debarred admiasion on necount of sex.

Accordingly, the language presently contained in S.C.A. No. 1 relating to corporate powers of the trustees, including tlie transfer of employees and their present rights, wonld be eliminated. This would delete lines 7 through "colleges" on linc 20, and lines 30 through 50 on page 3 of the bill, and through "Article IV" on line 5, page 4.

The priority as to available state revenues given in the Constitution to education is retained for the state colleges, as is the oath requirement. These matters, contrined in lines 5 through 8 on page 4, would remain as they presently are in S.C.A. No. 1.

Thene proposed revisions in the powers of the boarcl of trustees would leave intact the Legislature's ultimate control over the retirement system, the existing enntrol over aalary levels and a classification system for nonacadomic employees which is rclated to the classification and pay given to like employees who serve other state agencies. Under existing statutes the classification system for the faculty would be with the trustecs, as would be the selection, promotion and working conditions of both academic and nonacademic personnel.

An explanation should be given here of the reasons why it does not appear to be necessary or desirable to provide complete authority to the trustees of the college system over all collage matters.

A primary objective of the master plan is to create for the atate collegea a higher degree of independence from external controls. To the extent that this is possible within well defined expenditure limits and purpoaes, this flexibility permits more effective use of education fonds and creates a spirit of freedom which has nnusual significance to the faculties of the colleges and, in turn, serves to increare the colleges' abilities to attract and retain the most productive and stimulating minds for the instruction of students. On the other hand, the ability to create new expenditure obligations by the receipt and commitment of outside funds or savings, whether in the form of special retirement benefits, or new facilities for research, for example, greatly limits the ability of the Tegislature to control total expenditures. In the area of retirement programs the court have held that increased benefits become vested rights, and public policy, therefore, increasingly dictates a need for central fiscal control and responsibility over this function, rather than the reverse.

The research role of the university, where almost 65 percent of its expenditures are of this nature, places it in a different pasition from the colleges with respect to the degree of freedom needed to recruit outside sources of research money and to assign responsibilities for its performance throughout the complex organization and duties of its institutions. While research is authorized for state colleges in S.C.A. No. 1 to the extent that this does not expand the progrann and facilities which are otherwise requircd for the primary instructional role of the colleges, the problem of carefnl administration of the financial requirements of this new policy is illustrated by the fact that the university, with its research program, har more thinn dunbled its Gencral Fund budget, an increase of over $\$ 50$ million, in the last 10 years with an increase of only 2,000 students. A primury objective of the Master Plan is to establish proper control over the mounting and increasingly competitive costs of higher education in California. While enunciating the
olifierent funrlions of the three serments in the Constitution is a distinet step furwart, freclom for the colleges frum all external controls, exeept approprial imis hased on limited financial reports, is a matter of legitimate conerom to those who bear a responsibility for financing the colleges.

The Master 1 lun enrefuly warns of mounting higher edncation costs, pointing out 1lat the $10+7$ Surner! of the Neods of California in Higher Sducation estimatech a total current expense of public higher edueation for 1900 us $\mathbf{j} 70,170,000$ wher-4s it appenrs that the 1959-60 figure will now excenal p:00 millim. Likewise, it warns that on the basis of "status quo" projections, fulal state General Fund expenditure requirements 15 yeurs liente will execed thanion million.

While all steps shlumid be faken to climinate the unnecessary and perliaps petty rextruints whirh shatekir a progressive and vital educational institution, :unt white 1 he acerslenise policies of the institution can best be left to an indepencent lay haurll mod its faculty, there is no rcason why the fundimiontal miblie policies whirh govern salary levels of cmployees, retirenurnt beriefis;, and systens of elassification which assure compurable pay for liki rimplivinunt should not be snbject to laws enacted by 1 bu Lerpisiaturr.
4. $\Lambda$ statement of the funcelion of the University of California should be included in the constitution to carry out the principle that the differentiation of functions alnomg the three segments of public higher ellucation shonld be so stated. This has been done in S.C.A. No. 1 on page 1, lines 9 through e:3. We reconmend that this be left unchanged except as lullows:
a. Striki the words 'r. . . slall be governed by the', on line 9, page 4, any ". . reuprols as provided in Seetion 9 of this article. The miversity"', пu lime 10.

The miliversity is goverinef prosently by anthority granted in Article 8, Seution 9, mad Arielh +, Nretion la of the Constitution. The latter puarantess "erfain hasiu fisenl powers of the Legislature and Controller and this secelion would in all probability be held to be removed if the above lmpmage were alephtil, sinme it is excheded in what would constitute a later enur ment. Inelusion of the reference to Section 9, Article 9 is nut neupsury in uny way und climination of the reference leaves the authority of line rewell:i and the Legislature unchangeal in this conncetion.
b. Jit lines 19 throupl 23 on prage $\ddagger$ of S.C.A. No. 1, it is provided that: "The unive; wity shall be the prinary state-supported academic ageney for reprerch, mul the requents shall make reasonable provision for the use of its librury und resenreh facilities ly qualified members of the faculties of whice intilitutions of higher education, publie and private."

We do not belicre that the (unstitution should require the regents and, in respect to finnucing, the Legislature to provide facilities for private insiliutions both within Calitornia and ontside the State. While thin may be a poliry of the regents, and a very desirable one with respect to joint utilization of erertain facilities, it should not be required in the Constitution. In connection with the research authority now to be granted to the colleges, guarantes are given that they can obtain
 neelion with hpproyed juint doedoral wark anm otherwise. This is
 to rend "publies higher elucation in the state" in pinere of "higher education, public and private."
i. Nection (f) at liucs 23 and 24 on page 5 of E.U.N. No. 1 leaves the Stute Nautieal School at Vallejo unchanged, This, we belierve, shonld rewain in S.C.A. No. 1 without amendment.

## II

## Racommandad Legislation by Statute

In order to meet the objectives staled by the Manter I'han, with its proper concern for freedom of administrative uction, nlong with fixual pexponsibility, wo propose that the organization of the colleges not only be strongthened by the embablishment of the nuw Trusteres of the State Collage System and the strong expentive offorer as propowed sarlier for inchusion in the Constitution, but that the Isulyet Bill whith next follows the eutablishment of this orgunizntion, und atheh lindget bill therrafter, should provide the mame examption from fiseal yenr budgretary controls which is riven to the University of Californin, exrept that the procednres relating to review and approvel of capital ontlay should be continued. In this respect it should be noted that the University of California voluntarily submits its projects for l'ublice Works Ioard review. It ahould also be noted that the University of Chlifornia at the present time is sulbject to the imposition of bndgetary controls as provided in Section 1a, Article IV, of the Constitution, but the Leginlatire has consistently exempted the university from such control in the lsudget Act. It is recominended that the colleges shonld be given inereased freedom from this external control, while, as with the university, reserving in the Constitution tho Legislature's ultimate authority to modify the exemption if found to be necessary. Any remaining problems of external control which on the basis of experience are not justified cun be removed by adjustment in the Bulget Isill or by other statutory amanlments. The extraordinary growth in quality and ktature of the state colleges in a teatimonial to the fuet that the prewent kysten of adminintration is not an unhealthy one, and with the redured restraints and improved organization it should be substantially impruved. It cannot. be overlooked that many of the administrativa problems cited by the facultien of the colleges are strictly internal problems related to their collega administraters and these can he remedied by the strengthened administrative organization provided by this lerpishation.

There should be extablished an alvisory baly, the Coordinating Council for Migher Education as provided in S.C.A. No. 1, exeept that this should, we believe, be done by statote, and it should include 15 members in place of 12, by having alded to the memmenship propowed in S.C.A. No. 1 three public members appointed by the Guvirnor. Because the voting arrangenent proposed in S.C.A. No. I limits unduly the frecdom which should properly be afforded an alvisury body of this type, by requiring mininum protective groups of voten on matters which affect the various segments represented on the comucil, we recommend that effective action shall require simply the affirmative vote of cight of the

## Question

In conuetion with Askenbly ('onstitutional Amendment No. 6, as introduced, yon ask if the language which would be added to Seection 1 of Article XVI by the menaure would authorize the legislator members of the State Allowtion Board to participate directly in voting on the allocation and apportionment of moneys provided by legislation authorising issuance of bonds for wehool building purposes.

## Opinian

While the language involved way be somewhat uncertain on the poini, we think that the courts would probably eonstrue the language as afturding the legislator members equality in voting uon the allocation anil apportionment of moneys.

## The Votera Were Not Convinoed

The school tax issue has gone down to deasive defeat, and it isn't hard to find reasons.

Some will say that the vote indicated lack of confidence in the sehool program. There is more than a prain of truth in that statement, no doubt. Whether their beliefs were based on valid information or assamption, some voters unquestiouably were rebelling ggainst what they consider a departure from the teaching of the basies, or an adding of too many non-basics to the school curriculum.

Part of the nepative vote probably was based on the conviction that the expanding needs of the sehools will be taken care of by reassessments and higher assensed valuations brought by the growth of the area's population and economy. The trouble is that such growth normally brings more problems than solutions.

Some voters probably are convinced that our school system is topheavy with administrators. Thay believe the statements (or miastatements) that the benefits of a tax increase would go to the people at the top rather than to the rauk and fle of teachers.

There was rebellion, no doubt, against what some voters considered overly-lavish sehool construction. The referenees to the "San Marcos Country Club'' had their effect, it seems, even though this was not a bond election and mont of the critics probably had unt taken the time to investigate the charges personally.

But most of all, the election was proof that most poople are not going to step into a booth and vote to increase their taxes unless they have been convinced that the boost is absolately neccssary. The voters obvionsly were not convinced. They apparently did not think they had been told specifically enough how much money was involved and precisely how it would be spent.

The $N$ ews-Press renews the plea it made during the tax boost cam-paign-that there be 'a continuing, intense and critical citizen interest in the spendinf of school funds." It hopes the public will accept the superintendent's invitation 'to participate in a constructive program
for kecping Santa Barbara's schools among the best." And it commends his deteruination "to provide for your sons and daughters the most cffective educational program possible."

## COMMUNICATION RELATIVE TO BEA WATER CONVERBION EQUIPMENT

Fabrbanks, Morse \& Co. 600 Soutir Michigan Avenus Cemcaco 5, Illinots, March 23, 1960
Mr. Clart L. Bradley
Califormia Legislature 4148 Stats Capitol Sacramento, California
Drar Mr. Bradlby: I deeply appreciate your interest in the news that Fairbanks, Morse will be manufacturing aca water conversion equipment developed by Dr. Alexander Zarchin. I refer to your letter of March 8, addressed to our plant in Beloit, Wiecousin.

At the present moment there is not a great deal of precise infurmation which ean he given out about this procers. In the judgment of the management of Fairbanks, Morse \& Co., the desalting process invented by Dr. Alexander Zarchin of Tel Aviv, Israel represents the first practical breakthrough against the increasingly argent problem of water shortage throughout the world. The Zarchin Process is a freesing process, but it differs from the known freesing processes.

Critical laboratory tests by the inventor and his colleagues, as well as a stuly in Tsracl by engineers of Fairbanks, Morse, demonstrate that the process is capable of maw-producing fresh water from sea water at low cost. A pilot plant test is now beginning to be made by Dr. Zarehin. In full seale operation, with the use of special equipment which Fairbanks, Morse will manufacture, the costs of fresh water are expected to rival the averame of present costs for obtaining fresh water from less extranrdinary sources.

Of course, time, effort, and money will be required to develop the process on a commercial basia. Within a year, however, we believe we shall be in practical proluction. Through our parent company, the Fairbanka Whitney Corporation, we bave agreed with the government of Jsrael to build two plants, cach capable of producing 250,000 gallons of fresh water a diny from sea water. The plants will be built in Iarsel. Boyond that, we have already begun to chart a plan for applying this process to needs of other arid arcas and key industrial centers in the ITnitad Staten anrl oversear.
In 1958, Dr. Zarchin obtainel patents in the United States and sevpral other countries on a basic process of desalination by freering. While it was a valnable contribution, it was judged by Dr. Zarchin himmelf as well as others to have certain limitations.

Even before the patents were issued, the Israeli scientist had begon work on a new methol. His latest breakthrough is still being kept searet from the world at large; this is the process in which Fairbanks Whitney and Fairbanks, Morse are interested. Officers of the companies have been able to examine the process in application and are satisfied.

At this time, this can be revealed: The process involves the freening of water piped in from the sea and the effective separation of the frozen erystals of pure water from the residue of salts and natural sea chemicals.

Considerably advanced in concept over earlier theories, the now process requires ingenious new equipment. It is dramatically simple in operation and requires low energy input for production.

It should produce water at a cost of somewhat less than 40 cents per 1,000 American gallons. Experience over the long run can probably achieve further cost reduction.

Before the end of 1060, Fairbanks, Morse hopes to be able to develop Hn influstrinl desnlination pilot plant in the United Stater.
Fairbanks, Morse has been a leader in serving the water needs and resourees of the United States and other conntries for more than 100 years. Its production of pumps, compressors, and other elements of water systems has long provided a major part of the company's reve-
muc. This new venture for Fairbauks, Morse is bayed on long experience in satisifyine water requirements.
l'lease call on me at any time for further information as it becomes availitule.

Yours sincerely,

FAIRBANKS, MORSE \& (').<br>Blair Bollmg<br>Vive l'resident, Public: Kclations

## REMARKS ON PABSING OF DOROTHY M. DONAHOE REMARKS BY MR8. DAVI8

April 6, 1960

## ijr. Sprokirr and My Frllow C'olleagues:

The untimely deith of Dorothy Dounhoe is a tremendous loss to eateh auld every one of ux ha a fellow colleague and to all of the constituency of thisistate. To me, it is more than that. I have lost a very good friend. I herieve that in the minds of uvery member here there is no doubt that Dornthy Donahoe gave up her life so that the fnture generations of this Siale could have the best that we can afford in the feld of education.

As hu example, as sick as she was, last Thursiay evening there was int aerension that was being given in Bakersfeld, California, in her behulf, where she reecived an honorary plaque for her work in the field of erluention. Agninst the advice of many of her good friends, Dorothy ilew to lukerosfind hatd participuted in this occasion. Tipon her return, hicr first words as she walked in her home here in Sacramento were, "You see, I told you I would muke it." That, she did.

Her one ambition in life, and her greatest, was to have the opportunity of serving as the Chairman of the Educational Committer. I am
 ol the Spretker of this IIonse that he certainly has peace of mind that through him hor wish boreme a reality.

As a mbialur of the liven C'omultere on Waym and Menas, she, I beljeve, was onf of the greatest beeanse her concern was always for monkiad. She watehed over the appropriations and progrons for the

 mine asks oneself why would dan take a tine statesman like Dorothy,
but it brings to mind also that who am I, or auyone elve on this floor, to question; and it puts me in mind of a beantiful garden of flowers and we look upon it and we see one that is most outstanding and, naturally, we are inclined to pluck this purtienlar flower and to grasp it in our hands and take it into our homes and place it in the finest container we have. 1 am sure that this is the ease with Dorothy. I am positive in my own mind that God had something that had to be achieved that only Dorothy could arhieve for IIim.

I can still kee Dorothy coming through the front door carrying her date book and other materials, placing them on her desk so that she might have them at her side in case of an emergency that she felt might come up, to take care of the things that she believed in.

Also, as we would proceed with the business of the day and at the point where there was a possible lull, she would turn around and say, "Panline, how about a cup of coffee ${ }^{\prime}$ ", and emsh and every morning we would go through the same discussion, clebating whether we should partake of a doughnut or other pastries because of the calorie content. Dorothy would always say to me, "Come on, let's have a doughnut, let's live today."

I will miss Dorothy very much ancl, in the finul works, may I say this-I believe that she was one of the finost women and one of the greatest Legislatora that ever graced these Assembly Chnimbers and may God rest her soul.

## REMARKS BY MR. ERNEST R. GEDDES

## Mr. Speaker and Members of the Assembly

From a full heart and feeling a deep sense of personal loss I join in this tribute to miv friend Dorothy Donahoe.

Mrs. Davis has adequately expressed much of what I would say extolling the fine qualities of Dorothy as a woman and a legislator, but I would add an illustration of her graciounuess to me.

Since my first daya in the Legislature I have observed that bills of major import, aponsored by the administration or departments, are generally assigned to chairmen of committecs as authors. This means not only tho prestige derived from guiding major bills through the Legislatnre but, also, the work and responsibility involved.

Last year Governor Brown recommended to ns the consideration and action upon legislation to provide augmented state support of the public achools of California. He also provided in his Budget for the costs of the auginentation. The morning the State Department of Education brought in the manoncript copy for introduction of the bill, Dorothy called me to her office and asked me to author it. She did not escape any of the work or responsibility involved, since she was coauthor and chairman of the committce. She did give to me the opportunity to gain some degree of recognition as the principal author. This is typical of her thoughtfulness.

This year and in the months precerling she has been intensively attentive to the work and recommendations of the people responsible for the Master Plan for Higher Rducation. Yexterday we passed the legislation making a reality of the viaion of those who have worked so hard to provide for the education of our young people.

In honor of Dorothy this shall be known as the Donahoe Act. Just one mall thing we could do to honor her memory.

F'rom the moment of our birth each one of us sets out on life's journey which enda finally in that country from whose bourne no traveler returns. None of us can escape death; but lives of those like Dorothy remind us that we shall not regard death as a grim tyrant but, rather as that means by which we are translated from this imperfect sphere to that inore perfect world, that land beyond the skies.

If we belicve this, and I do, we believe in immortality. I believe also in the immortality we may achieve here on earth when by our acts and works we build a nomument here on earth.

So it is with Dorothy Donahoe. Her monument is not the pieces of legislation she has anthored nor the studies she has conducted, but it exists in the lives khe has made better, richer, fuller through her efforts. We are richer through having had her as a friend.

## REMARK8 BY MR. MacBRIDE

## Mr. Speaker and Mentures:

1 hesitate to offer additimal eulogry to what has alreuly been said by Assomblywonnin l'aluline Jhavis and Assemblyman Erinest Cepldes becuuse they knew Dorolhy wis mulh longere and so much more intimately than 1 have during my years in the Legislature.

I feel, however, than an inident that toik place about five weeks ago mhauld be reported to yon to point up the signifleance to nll of us of Dorothy' 's passing and the full neasure of the service she rendered the sitate of C'alifurnin during her lifetime. About five weeks ago I was appraising my own personal situation to determine whether it would be possible for me to continuo as an Assemblymen and still be able to selve my onhur interests, namely, my business and fanily in a manner vhiclt would be just and fair both to those interests and the State ol' Culifornin. I wanterl to determine if persons like Dorothy who were rondering the finest kincl of leminlative service to this State also had time to partiejpate in business or profession outside the seope of their Iegislative duties. I hsked Ihurothy, during a meeting of the Ways mind Merns Commiltor, hen uneh of her time she devoted to her legislative duties. Sle replied very promptly, "Tom, I give all of my time and more to this job."

I belicve this expression typifies the spirit of service rendered by Dorolly during her lifetime. She qave not only what could normally be expected of her, but in a measure far beyond the normal call, and finally she pave her life fur the youth of this State.

As Axsemblyman Kruest Grediles has already pointed out, it is fitting and proper thut we will always have ns a monmment to the menory of thin pracious latly and of the fine deeds and worke she performed during ler lifetime, the Master Plan for Higher Etheution. As the Master I'lin is put into operation and the yonth of California enjoy its bencfits we will be censtantly reminded that by and through her efforts Dorothy male this State a better plaee in which to live.

## REMARKS BY MR. WILLIAM8ON

Mr. Speaker and members, we are all shocked and grieved at the loss of our good friend ant collengue, Dorothy Douahos. There are
 'the puhlia revord is full of the euds areomplisherd lyy Dorothy Douahoe in lwhalf of the perople ol' the Nates. She has dediented herexelf to working for the benefil of puople, and paricicularly, for thowe who are anoug the less fortunate. It las been diffienald For us who knew her to recognize the fact that she was handicapped. This is true beranse sloe herself has refused to le handirapped. No individual can exert great influence with the mass of the people unless they luve it within their ability to exert influence at close range. Dorothy had this ability to impress people in the person-to-person relationships of life. Those of you who knew her well have been impressed with the great devotion that Dorothy has held for her mother. Theirs has been an extremely clowe relationship. Many are the times when we have seen Dorothy leave a busy meating or interrupt a conversation to go to the telephone and call Gertie to find out how she was, if everything was alright at home, and to tell her that Dorothy was O.K. and thinking of her. It is always Dorothy who has been the one to think of the little things that seem so important at the time. A friendly message, a note of congratulation, a telephone call expressing concern for the welfare of one's family. These are the things which endeared Dorothy to those about her.

During the recent hectic scramble to produce a Master Plan for Higher Education, the consultunt of the Education Committee was married. Because of the pressure of this legislation, there was no opportunity for a special eelebration with his friends. It was Dorothy who on an occasion arranged for another purpose, thought that this was the time for a wedding cake and a wedding cake there was.

Those of us who have lived in the same community with Dorothy have appreciated her kinducsses and her abilitios over the years. I cun cite one instance which I think you would like to know about. We hat in our commanity at the Bakersfield Iligh Sehool, a young man who was an outstanding football player and who truly loved the game. At the height of his carcer he was involved in an accident and lost one of his legs. This, of course, had a very tragis: effect upon the young mun. LIe felt that he had lost everything of importance and that there was nothing for which to live. IIc indiented that he had 110 desire to live and that even if be did, that he would take his own life. It was at this time that this young man's mother and his physician, in searching for a way to bolster his mental outlook, callell for Dorothy Donahoe. She, with her logir, har frimulliness, coupled with the fact that she provided a living example of one having ivercome such a problem, was able to convince this young man that all was not lowt, that there was much in this world for which to live in mpite of the momentary heartbreak. As a result, this young man has dedicated his life to serving those who are physieally handicapped.

One of Dorothy's favorite quotations his always impressed me. I am sure that it was a quidepost in her life. I am also sure that you have heard her state it many times. It was "No one stands so tall as when he stoops to help a child."

It is not within the power of those of us on carth to know why it is that a person suel as Dorotliy will be tuken from us in the middle of a productive life. We must assume that it is part of a Great Plan. If this in true, and it is also true that the Ilam has a positive purpose, then we
nust asminte that there in sumething to be gained from this trupic loss. If there is something to be enined from it, it must be that those of us who are left behind must resolve to stand tall and to walk steadfastly in her footsieps.

Yesterday morning I wrote a poem as a meritorind tribute to our colleagne, Dorothy.

In these few lines I have attempted to interpret the ferling of this fellowship for the charactar of our late friend and for the cuality of her service in this body.

## Ta Darothy

Her paths lay not in pleasantuess;
IIer ways were far from peace.
The nagging, cruel, insidions pain
Of torment would not cease.
Yet who has heard her cry aloud
Or utter least complaint!
Who saw the anguish which she felt
Or sensed her great restraint?
When plensure cerlled she turned aside. With weakness she was firm.
She signed the contract of her faitla
And honored every term.
Resolute with social grace
She served her fellow men
And never wavered from the task
Her conscience would begin.
The memory of her noble strife
From law shall never fade.
She lived a dediented life
Aud died as Duty's Maid.
So rest in peace, dear colleague
Your lanrels are well-won
God whispers from our reverent hearts
"Thy task has been well done."

## REMARKS BY MR, GAFFNEY

Eulogy for Dorothy Donahoo by Hon, Edward M. Gaffnay, April 6, 1980
Mr. Speaker aull Menbers of the -1 syrmuly, I ton would like to add my condolences to the sentiments that have been expressed.

Dorothy was devoted to her friends, her work, and what is evaluated more in this life and the life to come, she was devoted to her mother. She cared for her mother as if in the reverse-as if the nother were the child and she were the mother. She cared for her mother, spiritually, physically and materially. She devoted her life to her mother's care, her mother's comfort and welfare. To my mind that is the outstanding eharreteristic of Dorothy.

IIer devotion to her work, I have heard it exprensed on the floor, and regretfully axpressed, that seemingly Dorothy's work was precipitonsly ended, cut off, hardly without warning. But, in a humble mood I would
shy we slouldn't question these things. We are told that God marks the fail ol' the sparrow nud certainly Gol knew of the passing of Dorothy.

There is onn othre thought I would like to express about the work ghe accomplished nul let us tuke comfort that it is not the number of years you live but how you live them and Dorothy's accomplishments are on the record of this Legislature. In a few short years ahe encompassed work that ordinarily men and women would take a lifetine to accomplish. (lod will recoguize those thinga. We have this thought too, that she never acted impulsively, Irish-like, like myself and others. She often beenne uniry uhout things but she was never angry with personk. She realized the sumpernoss of the personality of all being-race, creed or color. Cod too will take cognizance of that. We have the consoling thought in her pessing that the body is gone but the spirit lives onlives on eteronlly, woth here and above.

I lost a chughter at 19, 11 yeurs ago, and Helen is just us close to our family as if she were sitting at uur table and going on with her educational work.

I ask (lorl's blessing more for Jorothy's mother. It is a comforting thought to know thut it won't be so many years before the mother will join the lovely dhughter in l'aradise.

Eulogy for Dorothy Donahoe by Spaaker Ralph M. Brawn, April 6, 1960
It is diffientt ror me to atd mything to what has been saicl. I have known Dorothy for many yeurs. I sat just where Mr. Z'berg now sits and helped to eurry mesenges dinily between Pauline and Dorothy. I always had pleasant words with Dorothy.

If I con ucld huyding that has not been said I might say that Dorothy's passing should teuch us a lesson, not only us but the whole Sitate of Cylifornin. We lost Neth Johnson, as you renember, only last year due to his lmed work while serving the people of the State of Califoruia. I think this 1embles us that is devoted servants, such as We all are antl I muke no cxecptions, we are serving the people of the State of Chfiforifa and riving one lives. Who knows which one of us may go next. Dorothy was realy in go, I am sure. She had har work ent out for her and clid it. she was one of the hardest working members in the Iderislature, and for that matter, one of the hariest working members [ have ever known since I have been in Sacramento. I am sure her work will be loug remembered.

I would orty like to add thitt I hope each of us will way nome liud words to ench other. Not that we haven't been, but with the jiden that today may be the last day we talk to each other. ## Election:-No. 3683

Dear Sbnator Coney : You have requested us to analyze Senate Bill No. 77 of the First Extraordinary Session.

The bill world add Scetion 2621.5 to the Elections Code. That section would extend the perind for fling nomination papers for a partisan office to the 50th day before the clirect primary election in any case in which the ouly canulidate who lias filed for the office dies after the closing date for the delivery of nomination papers to the county clerk (the 65 th day before elcetion) and not less than 60 days before the election.

In order to file nomination papers under such circumstances a person would have to meet the gunlifications preacribed for candidates for partisan office at a direct primary election. In other words, he would have to have been affliated with the political party in whose primary he seeks to participate for at least three months prior to the filing of his papers. Immediately after receipt of nomination papers filed parsuant to this section, the county clerk would be required to certify and transmit them to the Secretary of State in the manner prescribed by lnw.

Since the section would permit any qualified person to circulate and deliver nomination papers for the office, we believe that it would operate to extend the nomination period for all qualified parties. That is, both Democrats and Republicans would be entitled to file nomination papers in their respective primuries up to the final date fixed by the section.

The bill contains an urgency clanse and thus would go into effect immediately upon its being signed by the Governot.

Very truly yours,

RALPH N. KLEPS, Legislative Counsel<br>By Edward K. Puromil<br>Deputy Legislative Counsel
