PROCEEDINGS UNDER CALL OF THE ASSEMBLY BY UNANIMOUS CONSENT

PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R. Ferguson:

Eternal God, Guide this honorable assembly as they face the real issues of our state and nation. The light that shines farthest must be brightest at home. As we ever strive to strengthen our nation, lead us to Your obvious truths. That the test of our society is not our numbers, our wealth, our pile of bombs, but the character of our people. Give us a strong faith so we succumb not to immediate problems. Yet faith without works is dead and may we combine these so we make the maximum contribution to our fellow man.
In our Lord's name—AMEN.

Painter's Local Union No. 4
San Francisco, April 18, 1966

Mr. Jesse Unruh
Speaker of the Assembly
Sacramento, California

Dear Sir: The officers and membership of San Francisco Painter's Local 4 deeply appreciate the adoption of the resolution to memorialize Dow Wilson, our Recording Secretary, who was brutally and cold-bloodedly murdered on the morning of April 5, 1966.

Dow Wilson was a man dedicated to the Labor movement and gave all his time and energy to the pursuit of improving Labor conditions for the rank and file of his and other Bay Area locals.

We are calling upon Organized Labor to support us in our determination to outlaw this gangster-style violence from infiltrating the San Francisco Trade Union movement, a city which never before has had a history of hoodlumism within its Labor ranks.

A reward of $25,000 has been offered for information leading to the arrest and conviction of the assassin.

Please accept our good wishes and thanks for the tribute paid to Dow by you and the Assembly.

Sincerely,

MORRIS EVENSON, Secy. (Pro-Tem)
Painter's Local 4

House Resolution No. 257

Relative to commending the Hughes Aircraft Company for its Active Citizenship campaigns

WHEREAS, The Hughes Aircraft Company, with headquarters in Culver City and facilities in Orange, Los Angeles, San Diego, Santa Barbara, and Ventura counties, inaugurated its first Active Citizenship campaign in 1964, with the expressed purpose of stimulating a greater participation by Hughes employees in local, state, and federal public affairs, and

WHEREAS, The Hughes Aircraft Company has actively sought to instill a greater awareness of and concern for public policies and procedures through a responsible, varied and interesting public affairs program, including noontime rallies with speeches by candidates, voter registration drives, the encouragement of making financial contributions to the party and candidates of one's choice, and the listing of political candidates and the offices they seek in the company's newspaper, "Hughesnews", and

WHEREAS, This nonpartisan governmental program has been highly successful, as it has resulted in a significant increase in employee voter registrations, their substantial financial support of political candidates and parties, and the increased exercise of the right to vote by persons on all levels of the Hughes corporate structure; and

WHEREAS, A colorful and imaginative movie, titled "Who Cares," has been produced by the Hughes Aircraft Company (and is being made available for public showing) to describe the responsibilities of all citizens in a democratic society, to relate how the Hughes Company has sought to encourage its employees to take part in this process, and to assist other groups in their public affairs efforts; and

WHEREAS, The activities and success of the 1964 Active Citizenship campaign have stimulated many Hughes employees to seek ways in which they might contribute their personal talents and abilities during spare time to candidates or parties, and the Hughes Company has responded by creating a Volunteers in Politics (VIP) program, which will bring such volunteers and candidates together, by having employees fill out VIP forms made readily available to Hughes' personnel in all its southern California facilities; and

WHEREAS, The Hughes Aircraft Company has contributed a substantial amount of time, effort and money to launch and sustain this highly effective and interesting program, which has made active participation in the political processes of our state and nation a positive responsibility of all its employees; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of the Assembly of the State of California do extend their highest commendation and heartiest congratulations to the management and employees of the Hughes Aircraft Company for their impressive, public-spirited effort and record of achievement as exemplified in their Active Citizenship campaigns, the movie, "Who Cares," and the recently launched Volunteers in Politics program; and be it further

Article 5 Demonstration Programs in Intensive Instruction in Reading and Mathematics for Low Achieving Disadvantaged Pupils

6490 It is the intent and purpose of the Legislature that exemplary programs be established for intensive instruction in reading and mathematics to serve as demonstration projects aimed solely at developing, within pupils, above-average competence in these basic skill subjects. The program shall be developed to serve pupils in grades 7, 8, or 9 who attend school in designated areas of disadvantage, and who otherwise would find difficulty in achieving complete success in high school.

It is the further intent of the Legislature that these programs in intensive instruction in reading and mathematics be operated by school districts directly, or by school districts through contract for partial or complete operation with any competent public or private agency, foundation or corporation. It is also the intent of the Legislature that authority be granted to permit the waiver of any provision of the Education Code by the program approving agency, if such is necessary for the development of model demonstration programs in the intensive instruction in reading and mathematics.

6491 From the funds appropriated therefore by the Legislature to the Department of Education for the purposes of this article, the Superintendent of Public Instruction, upon recommendation of the Director of Compensatory Education, with the approval of the State Board of Education, shall administer this article and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing demonstration programs in the intensive instruction in reading and mathematics for pupils in grades 7, 8, or 9.

The application shall be in the form and shall contain such data and information as the director shall specify.

tion, with the approval of the State Board of Education, may grant, in whole, or in part, any such request

6494 The governing board of the school district may make application to establish and operate a demonstration program under this article directly, or may make application to provide for partial or complete operation of such a program through a contract with any competent public or private agency, foundation or corporation.

6495 The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the evaluation of applications submitted by school districts The standards and criteria adopted by the State Board of Education, among other items, shall include a statement of specific goals to be sought in the program both in terms of pupil achievement and for the purpose of establishing a model program, and the requirements for evaluation of the program

6496 Upon approval by the State Board of Education of an application under this article, the Superintendent of Public Instruction shall certify the amount to be apportioned to the applicant school district

6497 No later than the fifth legislative day of the 1969 Regular Session of the Legislature, the Superintendent of Public Instruction, upon recommendation of the Director of Compensatory Education, with approval of the State Board of Education, shall submit a report to the Legislature on the implementation and evaluation of demonstration programs under this article, including the achievement of pupils, together with recommendations concerning improvement, retention, extension or other aspects of the program.

Notwithstanding any provision of law to the contrary, a one cent ($0.01) rate of school district tax levied on each one hundred dollars ($100) of assessed value of property within the district for the purpose of this section shall be in addition to any amount of tax authorized to be levied pursuant to Section 20751."

Nothing in this article shall be construed to sanction, perpetuate or promote the racial or ethnic segregation of pupils in the public schools.

The funds shall be expended by the State Allocation Board, for the acquisition of portable school and classroom buildings.

The portable school and classroom buildings shall be made available by the board, upon the recommendation of the Director of Compensatory Education, to any school district which, because of the influx for temporary periods in the school year of large numbers of persons employed in seasonal agricultural work, experiences emergency increases in school enrollments of such magnitude as to make it impossible or impractical to accommodate the additional pupils in existing school buildings and facilities available to the district.

19699.1. The portable school and classroom buildings acquired pursuant to this article shall be made available to a school district irrespective of whether the district is otherwise in receipt of or eligible for assistance under any other provisions of this chapter.

The use of the portable school and classroom buildings may be made available to a school district by letting the same to the district free of charge, or by lease, or by conveying the same to the district under lease-purchase agreement, sale or outright grant, as determined by the State Allocation Board upon consultation with, and the advice of, the Director of Compensatory Education.

19699.2. The use of the portable school and classroom buildings under this article shall be based upon application therefor submitted by the governing board of the school district to the Director of Compensatory Education, who shall review the same, make any modifications he deems appropriate, and transmit the approved application to the State Allocation Board with his recommendations as to the action to be taken thereon."

House Resolution No. 201

Relative to state colleges

WHEREAS, The tremendous population growth which has occurred in Southern California in recent years and which will continue for decades to come, confronts public higher education in California with projected future enrollments at educational institutions of collegiate grade of such magnitude that continued planning for expansion of such facilities is necessary to serve the public interest; and

WHEREAS, The phenomenal growth of the Sunland-Tujunga-Burbank-Glendale-Sun Valley area in the County of Los Angeles requires that a coordinated plan for expansion of the California State Colleges must properly consider the need for a campus of the state college system in such area; and

WHEREAS, The population growth of the San Fernando Valley area and neighboring cities east of the valley is occurring and evidence indicates that it will continue to grow at a very rapid rate, thereby greatly taxing existing facilities of public higher education; and

WHEREAS, A study to investigate and reevaluate the need for a state college should properly be made by the Coordinating Council for Higher Education in cooperation with the Trustees of the California State Colleges, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly request the Coordinating Council for Higher Education to include in its next regularly scheduled study on the need for additional centers of higher education, the need and feasibility for the establishment of a state college in the Sunland-Tujunga-Burbank-Glendale-Sun Valley area of the County of Los Angeles, and be it further

Resolved, That the Coordinating Council for Higher Education be requested to report thereon to the Legislature on or before the fifth calendar day of the 1969 Regular Session, including in the report its findings and recommendations; and be it further

IN MEMORIAM RALPH BROWN

When Spring comes round again and vines grow green,
And Easter's Lilies symbolize once more
Our faith that God shall open every door,
Then shall we more clearly see what friends and friendship mean;
Then shall we recall, dear comrade of our linear days,
The wisdom, fairness and good humor of your ways

How hard it is to lose this friend so dear
With no farewells—too soon we were bereft.
How quickly he made friends with Death, and left!
But yet, fond memories of variant time shall keep him near,
And what he did for justice long shall be
A clearer, stronger light by which to see

There is such mystery in oblivion's veil,
So much unknown that we can never know;
But when the hour strikes for one to go,
Our trust in Heaven's compassion must not fail
Although the human heart must mourn its loss,
We find The Comforter beside The Cross.

Motion carried

Office of the Auditor General
Sacramento, April 26, 1966

Honorable Robert Moretti
Assemblyman, 42nd District
State Capitol, Sacramento, California

Dear Mr. Moretti.

You have requested through the Chairman of the Joint Legislative Audit Committee that we state our opinion as to the feasibility of accruing state income taxes on the books of the State of California

The accrual method of accounting may be defined as the method of keeping accounts which shows expenses incurred and income earned for a given period, although such expenses and income have not been actually paid or received in cash, and need not have reached the point where they have become actually payable or could be billed as receivables.

The question of whether personal income taxes are capable of being accrued depends on whether they are actually earned as stated in the definition For the State to earn this tax, the tax must also accrue as an expense of the taxpayers by whom it will eventually be paid We understand that the personal income tax is a levy upon the entire taxable income of every resident and upon the entire taxable income of every nonresident which is derived from sources within the State From an accounting standpoint, we believe that the taxpayer's income tax obligation does accrue as taxable income is received by him It is this accruing obligation on the part of a taxpayer, whether he recognizes it on his books or not, that we believe is an accruable resource of the State of California If the State is to adopt the accrual method of accounting for revenue, we believe that this resource should be recognized

In order to record this accrued revenue in the accounts as of the end of a fiscal year, it must be capable of measurement However, for the purpose of accruing state revenue, measurement applies to the tax on incomes of all of the almost five million individual income taxpayers in California, and is not noticeably affected by unusual characteristics of the income of any individual or group of individuals In our opinion, this broad base of taxpayer data guarantees the practicality of measuring the tax well in advance of the end of a tax year We believe that the revenue forecasts that have been made in the past clearly demonstrate that this tax is capable of being measured quite accurately

As we all know, the federal government levies a tax on the income of individuals Although the taxpayer is not obligated to file a tax return until the 15th day of the fourth month after the close of his taxable year, the federal government does require the withholding of income taxes currently and/or the current payment of income taxes on the basis of a declaration of the estimated taxes on his estimated taxable income In this analogous situation our representatives in the federal government have taken a position that the federal income taxes do accrue ratably and have required the withholding of the tax on a current basis

The withholding of personal income taxes has been considered at a prior session of the State Legislature and very likely will be considered again Such consideration should be based on an understanding that personal income taxes do accrue to the State as the taxpayers receive taxable income It appears to us that it would be inconsistent for the Legislature to take a position now that personal income taxes cannot be considered as accrued because they are not earned currently by the State, in spite of sound support to the contrary, and later enact a law providing for the withholding from the taxpayers a tax not previously recognized as being earned

Sincerely yours,

WILLIAM H MERRIFIELD
Auditor General

Audit Committee

Eternal God, In decisions before us which affect the lives of people, give us an equation between the telescopic and microscopic view. May we endeavor to see issues in their minute details and also from long range perspective May we not be absorbed *in the tyranny of trifles and lose the meaning.* Give us clear minds. May we not be submerged in indecision which multiply our problems, divide our worth, and subtract from our value to the people of our state

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Thomas was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal.

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, April 27, 1966

Honorable Fred S Farr
Senate Chamber

S.B. No. 35, 1966 1st Ex. Sess.—No. 5674

Dear Senator Farr.

QUESTION

You have asked whether the enactment of Senate Bill No. 35 of the 1966 First Extraordinary Session, as amended in Assembly April 21, 1966, would result in an owner of a vessel being required to pay any fee for his vessel for any period for which he has now paid a fee under existing law?

OPINION

In our opinion the enactment of Senate Bill No 35 would not result in an owner of a vessel being required to pay any fee for his vessel for any period for which he has now paid a fee under existing law.

ANALYSIS

Senate Bill No 35 would create a Department of Harbors and Watercraft and a Harbors and Watercraft Commission in the Resources Agency and transfer thereto and to the Resources Agency the powers, functions and jurisdiction of the Division of Small Craft Harbors and Small Craft Harbors Commission, which division and commission would be abolished.

With respect to fees paid by owners of vessels, the bill would amend Section 681 of the Harbors and Navigation Code, placing its provisions in several separate sections (Secs 681–684.6, incl, H & N C) The pertinent provisions would read as follows:

"681 ~~(a)~~ The owner of each vessel requiring numbering by this state shall file an initial application for number with the ~~Division of Small Craft Harbors~~ *department* at its Sacramento office or an agent authorized by the ~~Division of Small Craft Harbors~~ *department* on forms approved by the commission The application shall contain the name and address of the owner, and of the legal owner if any, and the builder's hull number or any hull number of the vessel as may be required by the ~~division~~ *department*. The application shall be signed by the owner of the vessel and shall be accompanied by a fee of five dollars ($5); except that initial application for numbers made during ~~1961~~ *1967* and every third year thereafter shall be accompanied by a fee of four dollars ($4), and initial application for numbers made during ~~1962~~ *1968* and every third year thereafter shall be accompanied by a fee of three dollars ($3) Upon receipt of the application in approved form, the ~~Division of Small Craft Harbors~~ *department* shall issue a certificate of ownership to the legal owner and a certificate of number to the owner, or both to the owner if there is no legal

owner, stating the number issued to the vessel and the name and address of the owner. The owner shall paint on or attach to each side of the bow of the vessel the identification number in such manner as may be prescribed by rules and regulations of the commission in order that it may be clearly visible. The number shall be maintained in a legible condition The certificate of number shall be pocket size and shall be available at all times for inspection on the vessel for which issued, whenever such vessel is in operation. The ~~Division of Small Craft Harbors~~ *department* may issue one or more stickers, tabs or other suitable devices to identify vessels as being currently registered The size, shape, and color of such sticker, tab, or other device and the positioning of such on the vessel shall be as determined by the commission.

* * *

" ~~(c)~~ *681 4.* ~~If~~ *Should* the ownership of an undocumented vessel ~~changes~~ *change*, the existing certificate of ownership and a new application form accompanied by a fee of three dollars ($3) shall be filed with the ~~Division of Small Craft Harbors~~ *department* and a new certificate of ownership and a new certificate of number shall be issued in the same manner as provided for in the initial issuance of number and the number shall be reassigned to the new owner.

* * *

" ~~(g)~~ *682 2.* ~~Every certificate of number issued pursuant to this article shall continue in full force and effect until December 31, 1962, unless sooner terminated, discontinued or extended in accordance with the provisions of this article~~ Certificates of number shall be renewed by the owner between January 1, ~~1963~~ *1969*, and February 4, ~~1962~~ *1969*, ~~or~~ *and* between January 1 and February 4 every three years thereafter, by presentation of the certificate of number last issued for the vessel or by presentation of a potential registration card issued by the ~~Division of Small Craft Harbors~~ *department* The fee for renewal shall be three dollars ($3) and shall accompany the request for such renewal

" ~~(h)~~ *682 4* All certificates of number ~~valid on the effective date of this section, and all certificates of number issued from that date to December 31, 1962, shall~~ expire on December 31, ~~1962~~ *1968*, and on December 31st of every third year thereafter regardless of when such certificates are initially issued."

* * *

The bill would also amend Section 701 of the Harbors and Navigation Code as follows

"701 Whenever any person has received as transferee a properly endorsed certificate of ownership and the certificate of number of the vessel described in the certificates, he shall within 10 days thereafter file the certificates accompanied by a fee of three dollars ($3) with the ~~Division of Small Craft Harbors~~ *department*, and thereby make application for a certificate of ownership and certificate of number."

From the foregoing it can be seen that insofar as these fees are concerned, SB 35 would not alter the existing schedule for the time of payment of fees by vessel owners

Under the existing law all such vessel owners renewing their certificates of number have paid a three dollar renewal fee between January 1, 1966, and February 4, 1966, and must pay another such three dollars renewal fee for the certificate of number between January 1, and February 4, 1969 Such vessel owners would have to pay the same fees if SB 35 is enacted.

Similarly, under the existing law vessel owners filing an initial application for a number in 1966, 1967, and 1968 will have to pay fees of five dollars, four dollars and three dollars, respectively If SB 35 is enacted such vessel owners filing initial applications would have to pay the same fees

Finally, the three dollar fee to be paid on change of ownership would also be unchanged by SB 35

In view of the foregoing, in our opinion the enactment of SB 35 would not result in an owner of a vessel being required to pay any fee for his vessel for any period for which he has now paid a fee under existing law

Very truly yours,

Dear Mr Chapel This is in further reference to recent discussions concerning the possible deletion from the California Freeway and Expressway System of that portion of Route 1 between Route 91 and Route 42, a length of approximately 4 miles

I understand that you are considering the introduction of a house resolution that will direct a full study and report to the Legislature concerning the deletion from the Freeway and Expressway System of that portion of Route 1 between Route 42 and Route 91 and to include recommendations concerning this matter in the 1969 report to the Legislature submitted pursuant to Section 256 of the Streets and Highways Code

Let me assure you that, if such resolution is enacted, we will give this matter a thorough and objective investigation and study Let me further assure you that, if such resolution is enacted, we shall refrain from recommending to the Highway Commission that this portion of Route 1 be included in the construction program until after the Legislature has had ample opportunity to thoroughly review and take appropriate action on the recommendations that your resolution directs to be submitted in 1969

Respectfully,

J C WOMACK
State Highway Engineer

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson.

Gracious Lord, While endeavoring to be positive in our actions, help us to be introspective enough to see our faults

Forgive us, and may we forgive each other, for ignoring those we feel are unimportant; for our prejudices which blind us from seeing the value of those with whom we differ; for repudiating those who carry the egotism of superiority, when we believe we are superior; for being paternalistic to those in despair, rather than providing the means by which they may elevate themselves

For overlooking the inestimable value of each individual, for we are all children of an Everlasting Father—AMEN

Relative to freeways

WHEREAS, The Legislature in 1965, after diligent and judicious study, enacted legislation to add Route 90 to the California Freeway and Expressway System (Chapter 1371, Statutes of 1965); and

WHEREAS, The Assembly in the closing moments of the 1966 Regular (Budget) Session adopted House Resolution No. 47, which requested the California Highway Commission and the Department of Public Works to defer and desist from taking any further action with respect to Route 90, proposed as the Slauson Freeway; and

House Resolution No. 318

Relative to San Diego Bay

WHEREAS, For many years leading citizens of San Diego County have supported the idea of a second entrance to San Diego Bay, and

WHEREAS, The expansion of commercial shipping as it is now continuing is causing a "traffic problem" in the single entrance to San Diego Bay now at Point Loma, and direct conflict with Naval operations has already caused commercial and Naval movement problems, and

WHEREAS, A state-approved master plan calls for four more 90-acre Marine terminals to accommodate over 1,500 commercial ships annually, compared to 600 annually today, and

WHEREAS, Deep water to South Bay fronting on National City, Chula Vista, and South San Diego would as a result of a second entrance make that end of the Bay usable by both Navy and commercial shipping, and

WHEREAS, This dredging would result in enough sand and soil to create thousands of acres of usable land for industry and maritime commerce, and it would also increase the use of some of the 20 square miles of water in San Diego Bay for recreational purposes; and

WHEREAS, The dredging to make the second entrance useful would result in deeper water directly in the area where the U S Government is constructing an experimental desalinization plant to create one million gallons of fresh water daily, and this operation needs deeper water in order to obtain cool water for the flash distillation process contemplated, and

WHEREAS, The work would result in thousands of man-months of labor now in an area which has more than 6 percent unemployment, and would result in thousands of jobs in the future for men and women who are unskilled or semi-skilled, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members respectfully request that Senator Thomas H Kuchel, Senator George Murphy, Representative Lionel Van Deerlin, Representative Robert Wilson, and Representative James B Utt take appropriate action to bring about the construction of another entrance to San Diego's harbor, and be it further

Eternal God, May we solve the immediate problems of our State Budget But give us an ever-expanding view of the problems of nations

As we stand in the large confusions of a world not used to peace, may we pray and work for peace Give us ever an openness and ability to talk with those with whom we disagree, lest we drive them into deeper hatreds Guide our local and national leaders through the thorny, precipitous paths which may finally lead us to a family of nations

The Director of Compensatory Education shall consider this intent in approving projects submitted pursuant to this article In the event an applicant district is unable to employ the number of teachers necessary to effect the purposes of this article, the Director of Compensatory Education, notwithstanding the provisions of Section 6481, is authorized to approve projects that provide for the employment of non-certificated teachers' aides for grades kindergarten or one through six, inclusive, to the end that the number of pupils in those grades in relation to the number of both classroom teachers and teachers' aides employed for such grades shall not exceed 20 to 1 Not more than 25 percent of the total allocated to a school district shall be devoted to the employment of teachers' aides The use of any portion of the total allocated shall be approved for the employment of non-certificated teachers' aides by the Director of Compensatory Education only upon certification of the applicant district, approved by the county superintendent of schools which has jurisdiction over the applicant district, that teachers are unavailable for employment in accordance with the primary legislative intent of this article

6481 6 Non-certificated teachers' aides employed under this article shall be under the immediate supervision and direction of certificated classroom teachers and shall not be utilized to carry out administrative duties other than those administrative duties which may be assigned by the classroom teacher

A school district may employ as a teachers' aide any person determined to be qualified, including pupils in attendance in grades 11 and 12 in high schools, and students in attendance in junior colleges and in colleges and universities The employment may be on a regular full-time, or on a part-time basis The employment

of pupils in attendance in grades 11 through 14, in public high schools and junior colleges, shall be arranged so that no reduction in attendance credit and State School Fund apportionments results therefrom Teachers' aides shall be compensated by the employing school district at a rate no lower than the federal minimum hourly wage for time in which service was actually performed A person employed as a teachers' aide shall be under the direct supervision of a certificated employee of the school district for no less than 75 percent of the time for which he is engaged in the performance of the duties during any day The employment of college and university students as teachers' aides may, where appropriate, be undertaken for student teaching credit purposes"

RESOLUTIONS

The following resolution was offered

By Assemblyman Zenovich

House Resolution No. 332

Relative to interim study concerning insurance premium tax

WHEREAS, Insurers admitted to conduct an insurance business in California are required by law to pay a premiums tax on direct insurance premiums received for carrying risks upon the lives or persons of residents of this state, and

WHEREAS, A practice has developed under which certain employers and other master group policyholders enter into contracts on lives or persons of residents of this state with insurers not admitted to this state, which contracts are then entirely or substantially reinsured, without incurring premium tax liability, with other insurers admitted to this state, and

WHEREAS, The probable effect of this situation under current law is to prevent the state from receiving premiums taxes on such insurance, and to give such insurers a competitive advantage in the insurance market, and

WHEREAS, Other practices involving the assumption or sharing of risks upon the lives or persons of residents of this state have developed which similarly jeopardize the integrity of the state's premiums tax base and permit unfair competition between admitted insurers and other organizations assuming or administering the sharing of risks, now, therefore, be it

Resolved by the Assembly of the State of California That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study the matter of risk assumption and risk-sharing techniques and practices which result in a loss of premiums tax revenue to the State of California and in the creation of competitive inequality between insurers and others, and the need for additional legislation to protect the integrity of the premiums tax base and establish the maximum equality among competitors in the assumption and sharing of risks, and to direct such interim committee to report its findings and recommendations of such study to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker to the Committee on Rules

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Zenovich was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, April 28, 1966

Honorable George N Zenovich
Assembly Chamber

Taxation of Insurance Premiums—No. 5627

Dear Mr Zenovich:

QUESTION

You have asked with reference to Assembly Bill No. 4 of the 1966 Second Extraordinary Session, dealing with taxation of certain insurance premiums paid to nonadmitted insurers domiciled in a state imposing no premium tax on its domestic insurers, whether a bill with the same provisions enacted at the 1967 Regular Session could operate on premiums paid in 1966, if the bill so provided

OPINION

In our opinion, there would be no constitutional objection to a tax on premiums paid to nonadmitted foreign insurers in the calendar year prior to the year in which such tax was enacted

ANALYSIS

There is no provision in the state or federal constitutions limiting retroactive application of a taxation statute (*Allen* v *Franchise Tax Board*, 39 Cal 2d 109, 113) Although the due process clauses of these constitutions might limit a retroactive application which affected transactions occurring many years before, cases have upheld taxation statutes with reasonable retroactive application (*Holmes* v *McColgan*, 17 Cal 2d 426; *Brushaber* v *Union Pac R R Co*, 240 U S. 1; *Roth Drug, Inc* v *Johnson*, 13 Cal App 2d, 720)

As pointed out in the *Holmes* case, " . . In *Welch* v *Henry*, 305 U S. 134 . , the United States Supreme Court went much beyond the *Brushaber* case in upholding a Wisconsin tax on dividends which was retroactive from 1935 to 1933. The constitutional validity of such retroactive provisions is now too well-established to be questioned."

Hence, a bill constitutionally could be drafted containing the provisions of Assembly Bill No. 4 of the 1966 Second Extraordinary Session which could apply to the calendar year prior to the year in which such bill was enacted.

Very truly yours,

GEORGE H MURPHY
Legislative Counsel

"*O Divine Master*, Grant that we may not so much seek to be consoled as to console, to be understood, as to understand, to be loved, as to love, for it is in giving that we receive, it is in pardoning that we are pardoned, and it is in dying that we are born to eternal life" (St Francis of Assisi) —AMEN

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Lanterman was granted unanimous consent that the following article be printed in the Journal.

Los Angeles Times
May 6, 1966
Freeway Routes Are Not Sacred

There is a curious tendency at many levels of government to regard plans and programs as inviolable once they have been formulated

The State Division of Highways, however, is hoping that an adjustment can be made in the vast U.S. Interstate highway system so that California won't lose millions of freeway dollars

When San Francisco decided it didn't want another freeway, the U S Bureau of Public Roads said the money would be lost to the state State highway officials proposed instead that the funds be used elsewhere in California But they got a cool response in Washington

This week the Legislature passed a resolution requesting the Bureau of Public Roads to divert part of the money originally allocated to San Francisco to the Century Freeway in Los Angeles It remains to be seen whether even the state lawmakers' voice will have any effect.

The federal highway system, however, is not sacred even if its routes have been adopted.

As more and more freeways are built, there must be greater flexibility in planning so that community and scenic resources can be preserved

State and federal officials, for instance, should take a more open-minded attitude toward saving the La Canada Valley by re-routing a portion of the Foothill Freeway.

La Canada could be bypassed if short sections of Glendale Freeway and Colorado Freeway were made part of the federal interstate system But first the request must be made by state officials

The fact that the proposed route through La Canada Valley has already been approved by the State Highway Commission and the federal agency is beside the point, if strong public support now exists for a feasible alternative

The commission, the Division of Highways and the Bureau of Public Roads are spending public money and exercising authority delegated to them by the public.

They should, therefore, be responsive to the public will And they must present better arguments against change than simply declaring that decisions are unchangeable.

House Resolution No. 340

Relative to pre-school programs for disadvantaged children

WHEREAS, Chapter 1248 (Assembly Bill 1331) of the Statutes of 1965 authorized the establishment of pre-school centers to serve the needs of educationally disadvantaged children between the ages of three and five years, and

WHEREAS, Pre-school centers have been established by local school districts and private nonprofit agencies, and

WHEREAS, The fundamental purpose of pre-school training is to provide the informal preparation for formal schooling that educationally advantaged children ordinarily receive from parents who are not afflicted with the distresses of poverty, unemployment or disrupted family life, and

WHEREAS, The essential characteristic of a pre-school teacher is an intimate knowledge of, and concern for, the extraordinary problems of the children of poverty, and

WHEREAS, The Legislature, through reference to the permit for teachers in Children's Centers, has determined that a junior college education is sufficient to guarantee adequate academic experience for pre-school teachers, and

WHEREAS, Arbitrary increases in academic requirements for pre-school teachers would have the following effects

1 Increase the social distance between pre-school teachers and their pupils,

2 Diminish the employment of neighborhood parents as teachers,

3. Increase the annual costs of pre-school programs needlessly,

4 Discriminate against private nonprofit agencies that cannot utilize the taxing power to subsidize increased costs,

5 Compete with the regular elementary schools for teachers who are alleged already to be in short supply,

6 Substantially reduce the availability of pre-school programs to disadvantaged children, now, therefore, be it

Resolved by the Assembly of the State of California, That in view of the probable consequences of establishing prohibitive credential standards for pre-school teachers, the State Board of Education is advised to reject any proposals for increasing academic requirements, at least until pre-school programs have become widely established throughout the state, and experience with qualified teachers under the present Children's Center permit is adequately surveyed by the Departments of Education, Employment, and Social Welfare, and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the State Board of Education, and the Superintendent of Public Instruction

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Marks was granted unanimous consent that the following communication be printed in the Journal:

New York Stock Exchange
New York, May 5, 1966

Mr Milton Marks, Chairman
Committee on Government Organization
Assembly—California Legislature
Sacramento, California 95814

Dear Assemblyman Marks

May I express the Exchange's thanks to you for your letter transmitting the Resolution of the Assembly of the State of California As you may know, Mayor Shelley has also written to me, endorsing Mr Magnin's most cordial invitation to San Francisco And we have received a number of proposals from Californians representing other communities But this extraordinary action by the State Assembly makes the warmth of California's welcome particularly gratifying

At the present time, our real estate consultants are hard at work evaluating the nearly 600 individual proposals we have received from all over the country It will undoubtedly be some time before we have their preliminary recommendations of the most promising locations for further study.

For practical reasons, of course, we are concentrating initially on nearby areas of New Jersey and Connecticut, where relocated Exchange facilities would still be close to the heart of the New York financial district But we still have not ruled out extending our search eventually to more distant states which do not tax the issuance or transfer of securities I can assure you that, if our search should take us beyond

the immediate Metropolitan area here, California will be considered most carefully
Meanwhile, on behalf of the Exchange, we certainly appreciate your Assembly's extraordinary expression of hospitality, and your extremely generous offer of personal assistance

Cordially,

G KEITH FUNSTON

House Resolution No. 364

Relative to abuses in credit sales of freezers and other home appliances, consumer goods and services

WHEREAS, It has been brought to the attention of the Assembly that there has been a virtual disregard of many of the statutory provisions designed to protect consumers by certain sales organizations in the field of household appliances, and

WHEREAS, These organizations have made a practice of particularly preying upon servicemen, who have modest incomes and often large families and many of whom are from other states and are not familiar with the laws of this state; and

WHEREAS, Information received from many sources indicates that there have been fraudulent sales of freezers and other household appliances induced by misrepresentation and deceit by glib-tongued, suede shoe, super sales-type operators; and

WHEREAS, This flagrant violation of business ethics is increasing at an alarming rate and is presently resulting in the bilking of hundreds of innocent young families, and

WHEREAS, The victims of this injustice have been subjected to harassment, embarrassing publicity, law suits and garnished bank accounts, while the perpetrators of the scheme continue to increase their ill-gotten profits, and

WHEREAS, The present unchecked proliferation of this modern type of swindler and con artist in the State of California is creating an appalling menace to the public and is making a travesty of their right to be free from commercial exploitation, and

WHEREAS, Such operations appear to be heavily concentrated in the Oceanside-Vista-Carlsbad area, and

WHEREAS, It is also reported that itinerant salesmen for bucket-shop operators often flood an area with handbills, flyers and posters, and resort to taking surveys of consumer needs by falsely representing themselves to be agents of a state or public agency, using information obtained as a basis for follow-up super sales tactics and for sale of prospect lists to other similar type sales organizations, and

WHEREAS, Legitimate local merchants suffer from this type of unfair competition, and

WHEREAS, Such operations present a vexing problem to local law enforcement agencies which, because of geographic and budgetary limitations, are often unable to cope with the entire problem, and

WHEREAS, The Attorney General has a fraud unit which could assist, but cannot do so unless requested by local agencies, and

WHEREAS, The continuance of public confidence in our free enterprise system requires the immediate restoration of ethical practices in the business of advertising and making credit sales of freezers and other home appliances, consumer goods and services, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is requested to refer for study to an appropriate interim committee of the Assembly the subject of abuses in credit sales of freezers and other home appliances, consumer goods and services, and be it further

Resolved, That the Committee on Rules is requested to direct the committee to which such subject is referred to report its findings and recommendations to the Legislature not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, May 10, 1966

Honorable George Deukmejian
Assembly Chamber

S.B. 6, 1966 1st Ex. Sess.—Restricted Dangerous Drugs—No. 6202

Dear Mr. Deukmejian:

QUESTION

If Senate Bill No 6, 1966 First Extraordinary Session, as amended in Assembly May 9, 1966, is enacted, would a person be guilty of the crime of unlawful possession of a restricted dangerous drug (in this case, LSD) if LSD is literally in his possession but he does not know of its presence or he doesn't know of the nature of the substance or lacks knowledge of both facts? For example, without his knowledge, someone puts LSD in his coffee.

OPINION

In our opinion, If Senate Bill No. 6, 1966 First Extraordinary Session, as amended in Assembly May 9, 1966, is enacted, a person who literally possesses LSD would not be guilty of the crime of unlawful possession of a restricted dangerous drug (in this case, LSD) if he does not know of the presence of the LSD or does not know of its nature or lacks knowledge of both such facts In the specific case you describe a person would not have violated the possession statute because, without his knowledge, someone has put LSD in his coffee

ANALYSIS

Senate Bill No 6, 1966 First Extraordinary Session, as amended in Assembly May 9, 1966, would, in part, expand the definition of "restricted dangerous drugs" in Health and Safety Code Section 11901 to include.

"(c) 'Lysergic acid,' 'LSD' (lysergic acid diethylamide) and 'DMT' (N-N-dimethyltryptamine), including their salts and derivatives, or any compounds, mixtures or preparations which are chemically identical with such substances."

Thus, LSD and DMT would be brought within the scope of the restricted dangerous drug provisions, including Health and Safety Code Section 11910, which reads as follows:

"Except as otherwise provided in Article 8, (commencing with Section 4210), Chapter 9, Division 2 of the Business and Professions Code, every person who possesses any restricted dangerous drug except upon the prescription of a physician, dentist, podiatrist, or veterinarian licensed to practice in this state shall be punished by a fine of not more than one thousand dollars ($1,000) or by imprisonment in the county jail not exceeding one year, or by both such fine and imprisonment

"If such person has been previously once convicted of a violation of Section 11910 or of any felony offense described in this division or of a conspiracy to commit any offense described in this division or has been previously convicted once of any offense under the laws of any other state or of the United States, which if committed in this state would be punishable as an offense described in this division, the previous conviction shall be charged in the indictment or information, and if found to be true by the jury, upon a jury trial, or if found to be true by the court, upon a court trial, or is admitted by the defendant, he shall be imprisoned in the state prison for not less than one year nor more than five years, or he shall be imprisoned in the county jail for not more than one year"

This section does not appear to have been construed in any reported cases However, it parallels Health and Safety Code Sections 11500 (re possession of "hard narcotics") and 11530 (re possession of marijuana) and would, in our opinion be construed in the same manner as those sections, so far as pertinent here

Under those sections it has been held repeatedly by the appellate courts that essential elements of the offense of unlawful possession include knowledge of the presence of the narcotic and knowledge of its narcotic character (e g, *People* v *Redrick* (1961), 55 Cal 2d 282, *People* v *Amiotte* (1963), 215 Cal App 2d 176, *People* v *Melendez* (1964), 225 Cal App 2d 67) Similarly it would, in our opinion, be held under Section 11910 that essential elements of the offense include knowledge of the presence of the restricted dangerous drug and knowledge of its character as such The burden would be upon the prosecution to establish, by legally sufficient direct or circumstantial evidence, the existence of these elements (see *People* v *Groom* (1964), 60 Cal 2d 694).

Very truly yours,

GEORGE H MURPHY

By Assemblyman Unruh

House Resolution No. 340

Relative to pre-school programs for disadvantaged children

WHEREAS, Chapter 1248 (Assembly Bill 1331) of the Statutes of 1965, authorized the establishment of pre-school centers to serve the needs of educationally disadvantaged children between the ages of three and five years, and

WHEREAS, Pre-school centers have been established by local school districts and private nonprofit agencies; and

WHEREAS, The fundamental purpose of pre-school training is to provide the informal preparation for formal schooling that educationally advantaged children ordinarily receive from parents who are not afflicted with the distresses of poverty, unemployment or disrupted family life; and

WHEREAS, The essential characteristics of a pre-school teacher is an intimate knowledge of, and concern for, the extraordinary problems of the children of poverty, and

WHEREAS, The Legislature through reference to the permit for teachers in Children's Centers, has determined that a junior college education is sufficient to guarantee adequate academic experience for pre-school teachers, and

WHEREAS, Arbitrary increases in academic requirements for pre-school teachers would have the following effects

1 Increase the social distance between pre-school teachers and their pupils,

2 Diminish the employment of neighborhood parents as teachers,

3 Increase the annual costs of pre-school programs needlessly,

4 Discriminate against private nonprofit agencies that cannot utilize the taxing power to subsidize increased costs;

5 Compete with the regular elementary schools for teachers who are alleged already to be in short supply;

6 Substantially reduce the availability of pre-school programs to disadvantaged children, now, therefore, be it

Resolved by the Assembly of the State of California, That in view of the probable consequences of establishing prohibitive credential standards for pre-school teachers, the State Board of Education is requested to reject any proposals for increasing academic requirements, at least until pre-school programs have become widely established throughout the state, and experience with qualified teachers under the present Children's Center permit is adequately surveyed by the Departments of Education, Employment, and Social Welfare, and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the State Board of Education, and the Superintendent of Public Instruction

House Resolution No. 389

Relative to counties

WHEREAS, Local control is an important principle of government; and

WHEREAS, This principle is espoused because of the belief that citizens are able to establish personal contact with their local officials, and

WHEREAS, California's rapid population growth has made it difficult in very large counties for citizens to establish face-to-face contact with officials, thus weakening the principle of local control; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to refer to the appropriate interim committee for study the subject of the desirability of either a constitutional amendment which would permit the Legislature to increase the size of boards of supervisors in chartered counties or legislation authorizing the Legislature to divide counties containing a population of over two million into additional counties; and be it further

Resolved, That the Committee on Rules is requested to direct the committee to which such subject is referred to report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Lanterman.

House Resolution No. 391

Relative to taxation of multistate businesses

WHEREAS, The Legislature passed and the Governor has signed Assembly Bill No 11 of the 1966 Budget Session, the uniform allocation of income tax, and

WHEREAS, Because of constitutional limitations on the budget session and a ruling of the Legislative Counsel, it was necessary to have Assembly Bill No 11 become operative in income years beginning after December 31, 1966; and

WHEREAS, One of the prime purposes in passing the legislation was to indicate California's leadership and desire to preserve the rights of the several states to levy and administer such acts, and

WHEREAS, California has assumed the leadership in promoting uniformity among the several states in order to alleviate any necessity for federal legislation in this field; and

WHEREAS, Many years of adjudication involving the California Bank and Corporation Tax Law has clarified the many problem areas for the taxpayer; and

WHEREAS, Out-of-state companies contemplating the location of new plants and installations in California would be faced with new tax problems in the event A B 11 were allowed to become effective for income years beginning after December 31, 1966, and this would create additional problems that would have to be litigated, and

WHEREAS, As the National Conference of Commissioners on Uniform State Laws will be meeting in Chicago on the 4th of June to review the progress made by the states in enactment of uniform allocation of income tax acts and attempt to clarify problem areas which have arisen since the proposed uniform act was written in 1957; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is requested to assign the matter of reconsideration of the operative date of A B 11 of the 1966 Budget Session to an appropriate interim committee for study, and that findings and recommendations be made to the Legislature no later than the fifth legislative day of the 1967 Regular Session of the Legislature

House Resolution No. 392

Relative to commending Charles Raudebaugh and the San Francisco Police Department

WHEREAS, A masterpiece of investigative work by the San Francisco Police Department and Charles Raudebaugh, a San Francisco Chronicle reporter, led to the arrest of five men for conspiracy in the slaying of Dow Wilson, Secretary of San Francisco's Local No 4 of the Brotherhood of Painters, Decorators and Paperhangers of America; and

WHEREAS, This outstanding and well-coordinated investigative effort may also break the mystery of the strangely parallel slaying of Lloyd Green, Financial Secretary of Southern Alameda County's Local No 1178 of the same union; and

WHEREAS, Charles Raudebaugh, a veteran crime reporter, set the police on the trail of the persons implicated in the slaying through his work with Wallace Charleston, who originally had been asked to take part in the crime, and his inquiry into the operation of the Union Welfare Fund in Sacramento; and

WHEREAS, A month of painstaking and dangerous police work by about 20 specially trained San Francisco policemen, employing every investigative technique and working under a virtually unprecedented veil of secrecy, led to the apprehension of these five men; and

WHEREAS, This joint effort demonstrates that the police and the press can work together with superlative effectiveness and complete cooperation; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members commend the San Francisco Police Department and Charles Raudebaugh for their diligence and hard work in this case; and be it further

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Speaker pro Tempore Bee was granted unanimous consent that the remarks of the Chaplain of the Assembly, Rev Robert R Ferguson, be reduced to writing and printed in the Journal.

Honorable Members of This Assembly

It has been a high privilege to have served for the past four years as your Chaplain You have impressed me, not only as law-makers, but as persons

I am leaving today for the Presbyterian General Assembly in Boston and when it is over you will be back in your districts doing needed work Merely speculating, I assume you will be called back into special session this summer I will be gone, so you will need to elect a new Chaplain

Communication is one of the great needs in our troubled world. The brilliant and controversial scientist, Oppenheimer, said some time ago we need better understanding between our nations and exchange students as a necessary factor to ac-

complish this. He concluded, "If you wish to transport an idea, wrap it up in a person."

This summer I will be taking about 30 college students from our local church to London, Paris, Geneva, Berlin, Prague, Budapest, Moscow, Leningrad, Helsinki, Copenhagen and Edinburgh Since December they have been studying the economics politics and religious values in these countries It will be informative to them, but with the interviews set up, they will be transporting our ideas to Iron Curtain countries.

You have given me a larger scope for my own religious life For Christianity is not contained in churches and the mere spiritual areas of life Christianity is life in its totality Five years ago in Stalingrad we visited the Center for the Young Pioneers As you know 97 percent of communist youth are in the Octoberites, Pioneers and Komsomols One of our group asked the director, "At what age do you teach your youth the doctrines of Marx, Lenin, and Engels" There was a long laugh, then the reply, "This just shows how you capitalists fail to understand communism Communism is a total way of life We don't teach theory aside from life, it's all bound up together"

In our America we have the greatest of ethical moral and intellectual theories It behooves us to have a correlation between our high ideals and the way we live It has been a great opportunity to have been associated with Mr Unruh, Mr Carlos Bee, the staff and all the members of this important House

I do feel that there is a discrepancy between our Executive and Judicial branches of government, and you, the Legislative You are discriminated against We, the people of California, are losing good men because you cannot afford to live on the absurd salaries you receive I hope the people of our state will give balance in this regard to our three branches of government

You here represent all faiths and no faith You have shown me kindness and courtesies and have opened vistas in my life that would have been closed My final prayer for you is that you have balance in the three areas of life—body, mind and spirit—and that faith in the Living God may penetrate your lives and add strength and insight to your leadership of California in this time of world crisis

May God bless you all

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Thomas was granted unanimous consent that the following communications relative to the Long Beach tidelands be printed in the Journal.

Joint Legislative Audit Committee
Sacramento, January 19, 1966

Honorable Glenn M Anderson, Chairman
State Lands Commission
217 W. First Street, Room 305
Los Angeles, California

Dear Glenn.

The Auditor General has reported to the Joint Legislative Audit Committee in February 1963 and in May 1965 that as much as $500,000 is due to the State of California from the City of Long Beach in connection with the determination of final prices to be charged on the sale of dry gas to that city from August 1, 1959 to January 1963

The State Lands Division has replied to the Auditor General as follows:

July 29, 1963

"Negotiations for settlement of charges on past deliveries are currently in process."

July 25, 1965

"Discussions with the City of Long Beach relative to the price of dry gas delivered into the city lines subsequent to August 1, 1959 where suspended to permit staff time, both city and state, to be concentrated on organization of the Long Beach Unit and other urgent matters It is anticipated that negotiations will be resumed in the near future"

The City of Long Beach informed the Auditor General on January 10, 1966·

". . . the City is aware of this liability and, while we do not concur with the amount mentioned, we have reserved funds to meet our obligations The City's Gas Consulting Engineer has prepared a report relating to this adjustment and computed the various amounts pertaining thereto We have been advised by the State Lands Commission that a conference should be scheduled to com-

plete the negotiations regarding this matter While, to date, such a meeting has not been called, please be assured the City is most anxious to resolve this issue at the convenience of the appropriate State agency You are aware that the City has, on numerous occasions in the past, reiterated this position and, as recently as December 8, 1965, we advised the staff of the State Lands Commission of our desire to settle this entire matter "

The Joint Legislative Audit Committee has discussed the Auditor General's recommendations with the City of Long Beach and would like the State Lands Commission to take appropriate action to bring about an early settlement of dry gas prices to eliminate this item from future audit reports and to expedite the collection of a substantial amount due to the State

Sincerely,

VINCENT THOMAS, Chairman
Joint Legislative Audit Committee

Lieutenant Governor's Office
Sacramento, February 15, 1966

Honorable Vincent Thomas, Chairman
Joint Legislative Audit Committee
Room 430 State Capitol
Sacramento, California 95814

Dear Vince:

Please pardon the delay in responding to your letter of January 19, 1966, relative to the determination of final prices to be charged on the sale of dry gas to the City of Long Beach for the period August 1, 1959, to January 1963.

I have been informed by the State Lands Division that the negotiations with the City of Long Beach are approaching the terminal stages Due to the staff time required for discharging Commission responsibilities under Ch 138/64, 1st E S , and certain other priority negotiations, it has been necessary, recently, to hold the dry-gas discussions with Long Beach in abeyance

I have been assured, however, that a meeting will be held with appropriate representatives of the City of Long Beach in the immediate future, with the intent of arriving at a fair and reasonable settlement or adopting other necessary courses of action

Every effort will be made to clear up this item so that it can be eliminated from future Legislative Audit Committee reports

Please note that the Honorable Alan Cranston has been Chairman of the State Lands Commission since September 23, 1965.

Very truly yours,

GLENN M ANDERSON
Lieutenant Governor
Chairman, State Lands Commission

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Porter was granted unanimous consent that the following report of the Department of Water Resources be printed in the Journal.

State of California
THE RESOURCES AGENCY
Department of Water Resources
CALIFORNIA'S STATE WATER PROJECT
Halfway Through a Decade of Construction
By William E. Warne, Director, Department of Water Resources
February 1966

CALIFORNIA'S STATE WATER PROJECT

CALIFORNIA'S STATE WATER PROJECT

Halfway Through a Decade of Construction

By William E Warne, Director, Department of Water Resources
The Resources Agency—State of California

The State Water Project is the largest single water resource development program so far undertaken Construction is on schedule It must remain so We are halfway through a decade of tremendous construction

The State Water Project was authorized by the State Legislature in 1959. with the passage at the urging of Governor Edmund G Brown of the Burns-Porter Act. At the general election in 1960, the people of California approved the issuance of $1,750,000,000 of general obligation bonds, again at the strong urging of Governor Brown, to assist in financing construction of the state water facilities

The project will conserve and deliver 4,230,000 acre-feet of water annually to the areas of need Water service contracts have been negotiated with more than 30 water service agencies extending from Plumas County in the north to the Mexican border Southern California water agencies have contracted for more than 2,500,000 acre-feet of project water annually Water will be available to parts of Kern and Kings Counties in 1968, to Castaic reservoir, north of Los Angeles, in 1971, and to Perris reservoir, south of Riverside in 1972

Flood control is another purpose of the project at both Oroville Dam on the Feather River and Del Valle Dam on Arroyo del Valle in Alameda County The partially complete Oroville Dam saved an estimated $30,000,000 in damages during the Christmastime floods of 1964.

To construct the presently authorized features of the State Water Project, an estimated 320 construction contracts worth approximately $1,496,000,000 will be required This includes the State's 55 percent share of the joint-use San Luis Division, now being constructed by the U S Bureau of Reclamation Nearly 50 percent, or $725,000,000 of the total contract worth has either been spent or encumbered, and over 60 percent, or 197 contracts, is either completed or under way Eighty-six contracts worth $147,000,000 have been completed, and another 111 contracts are in progress which have a value of $579,000,000 By the end of this fiscal year, about 25 more contracts worth approximately $166,000,000 will have been advertised

A few years ago the bulk of construction activity was centered at Oroville Now, however, nearly $400,000,000 in contracts have been let for the California Aqueduct as construction of the State Water Project moves southward

Major project facilities authorized for construction total 20 dams, 25 power and pumping plants, and about 650 miles of conveyance facilities involved in the conservation, flood control, power, and recreation purposes, and in the annual delivery of 4,230,000 acre-feet of project water

The overall picture of construction progress is shown on the attached chart and is generally as follows Two dams are completed on the Upper Feather River and one is under construction At Oroville 95 percent of the work is under construction, including the dam, the spillway, the reservoir site clearing, the powerplant, and the Thermalito facilities The 44-mile South Bay Aqueduct, serving parts of Alameda and Santa Clara Counties, is complete except for the Del Valle reservoir features About 210 miles of the California Aqueduct down the west side of the San Joaquin Valley are presently under construction In addition, there are 54 miles of required preconsolidation work now in progress by the Department along the alignment in the southern part of the valley west of Bakersfield The Department is working on 107 miles of canal in the North and South San Joaquin Divisions and the 5-mile Carley V Porter Tunnel, while the Bureau of Reclamation has awarded contracts for the entire 101 miles of the California Aqueduct's joint-use reach south of San Luis Dam

Last November our Series E Water Bonds in the amount of $100,000,000 were sold at an interest rate of 3.717 percent This brought the melded project interest rate to 3.573 percent, about half a percent below the figure used in planning the State Water Project We have now sold $450,000,000 of the $1,750,000,000 bonds authorized

Here are the details of construction progress at the major project features.

Frenchman Dam, the first of five dams to be constructed in the Upper Feather division, was completed in 1961 Frenchman Lake, with a capacity of 55,000 acre-feet, regulates water for downstream irrigation use and is an outstanding recreation area

Antelope Dam, completed in 1964, is to be used entirely for recreation and fish and wildlife enhancement purposes Antelope Lake has a storage capacity of 22,500 acre-feet

Construction of Grizzly Valley Dam began in 1964 and will be completed this year The dam, which will create Lake Davis, will have a capacity of 83,000 acre-feet The reservoir will be used for recreation, fish and wildlife enhancement, and domestic water supply purposes.

The construction of the remaining two dams in the Upper Feather division has not been scheduled

Oroville Dam is now about 75 percent complete. More than 40,000,000 cubic yards of embankment have been placed to date The reservoir site clearing is 47 percent complete, and construction of the spillway is just getting under way When completed, the dam will be 770 feet high and the embankment will contain about 80,000,000 cubic yards of material The reservoir will have a storage capacity of about three and one-half million acre-feet

The bucket wheel excavator operates in the pervious borrow area, which consists of the tailings left by the gold dredgers. It has a production rate of 3,000 cubic yards per hour. The material is transported to a car loading station by means of a conveyor belt system, and then trains transport the material to the damsite, a distance of about 12 miles.

At the damsite the cars are unloaded, two at a time, by a rotary car dumper, and again a conveyor belt system transports the material for placement in the dam

The initial contract of the underground Oroville Powerplant is now about 60 percent complete, which is behind the original schedule We are working to remedy this situation The powerhouse will be 550 feet long, 69 feet wide, and 136 feet high The dependable capacity of the plant will be 600 megawatts. The first power is scheduled to be generated in March 1968, and the last of six units will be installed in the summer of 1969, about on schedule

The left abutment intake structure for Oroville Reservoir features two parallel reinforced concrete intake channels with rail mounted gates and temperature control shutters The temperature of the water released through the powerplant will be controlled to meet the requirements of the downstream irrigation users and fisheries In effect the Oroville Reservoir will have hot and cold water faucets!

The Bidwell Bar Suspension Bridge was dedicated September 25, 1965 It is 627 feet above streambed and is nearly 1,800 feet long When the reservoir is filled, the water surface will be only 47 feet beneath the deck of the bridge

The Thermalito Diversion Dam is a concrete gravity structure 133 feet high Water will be diverted by the dam into the 2-mile Thermalito Power Canal leading to the forebay of the Thermalito Powerplant

The Thermalito Powerplant is now about 25 percent complete It will have an installed generating capacity of 110 megawatts. Construction of the Thermalito Forebay and Afterbay has just begun under a separate contract

The Feather River Fish Barrier Dam has been diverting migrating salmon and steelhead into the interim fish facility since 1963 To date over 11,000 fish have been transported by truck back to the river upstream of Oroville Dam The permanent Feather River Fish Hatchery will be completed late in 1967.

The second stage of the South Bay Pumping Plant was recently completed, which boosted the installed capacity to 130 cubic feet per second Additional units will be installed later to provide the ultimate capacity of 330 cubic feet per second The pumping plant lifts the water 600 feet at the beginning of the 44-mile South Bay Aqueduct. The water then flows by gravity through Livermore Valley to a terminal reservoir near San Jose Patterson Reservoir in Livermore Valley has a storage capacity of 100 acre-feet, and the terminal storage tank has a capacity of 9 acre-feet, or about 3,000,000 gallons

The California Aqueduct has its beginning at Italian Slough in the Delta. The 3-mile intake channel, a portion of which is completed, leads to the Delta Pumping Plant

The initial Delta Pumping Plant contract is 65 percent complete. The pumping plant will house 11 pumping units, having a total capacity of 10,300 cubic feet per second The pumping lift is about 245 feet The first two units will be operational by January 1967, to deliver project water to the South Bay Aqueduct In the meantime, we are delivering Delta-Mendota water into the South Bay Aqueduct system Water delivery to San Luis is scheduled for January 1968 All canal contracts in the North San Joaquin Division are now under way. There are four canal contracts, totaling 62 miles

Near Los Banos the San Luis Dam, Pumping-Generating Plant, and Forebay Dam contracts are about 61 percent complete These facilities are being constructed by the U S Bureau of Reclamation under its agreement with the state Financing is 55 percent state and 45 percent the federal government When completed, San Luis Dam will be 320 feet high and will contain about 78 million cubic yards of embankment The crest length of the dam is over 18,000 feet long, more than 3 miles Equipment is now being installed in the San Luis Pumping-Generating Plant.

The Bureau of Reclamation has completed 16 miles of canal and has the remaining 85 miles of the San Luis Canal under construction

The initial contract for the Dos Amigos Pumping Plant, 18 miles south of Los Banos, is 95 percent complete, and the completion contract is also under way The pumping capacity of the Dos Amigos Pumping Plant will be 13,100 cubic feet per second, the largest on the entire system

In the South San Joaquin Division, preconsolidation activities are well along on the 54 miles of canal alignment that requires preconsolidation by ponding in advance of canal construction The preconsolidation is necessary because settlement or subsidence occurs when water comes in contact with certain sensitive soils So far the maximum settlement along the aqueduct alignment has been 8 feet The first canal contract for 34 miles, from Avenal Gap to 7th Standard Road, is just getting under way

The first of a series of contracts for the Tehachapi Pumping Plant complex was awarded several weeks ago This contract is for the construction of an 800-foot adit to the discharge line tunnels and later for access during construction of the discharge lines A contract for the Tehachapi Intake Channel and the discharge line tunnels will be advertised this month

At the south edge of the Tehachapi Mountains, a contract to excavate the south portal of the Carley V Porter Tunnel was recently completed The total excavation required was 2,500,000 cubic yards

A contract has been awarded and work is getting under way on the 4 8-mile Carley V Porter Tunnel, the largest of four tunnels taking the aqueduct across the Tehachapis The other three will follow later this year

A 27-foot high consolidation fill across Neenach Wash on the East Branch of the California Aqueduct is over 60 percent complete First canal construction on the East Branch is scheduled to start early in 1967

Cedar Springs Dam, located on the West Fork of the Mojave River, will be an earthfill structure 280 feet high and will have a storage capacity of 200,000 acre-feet. An extensive foundation exploration is under way Construction of the dam proper is scheduled to begin in December 1967.

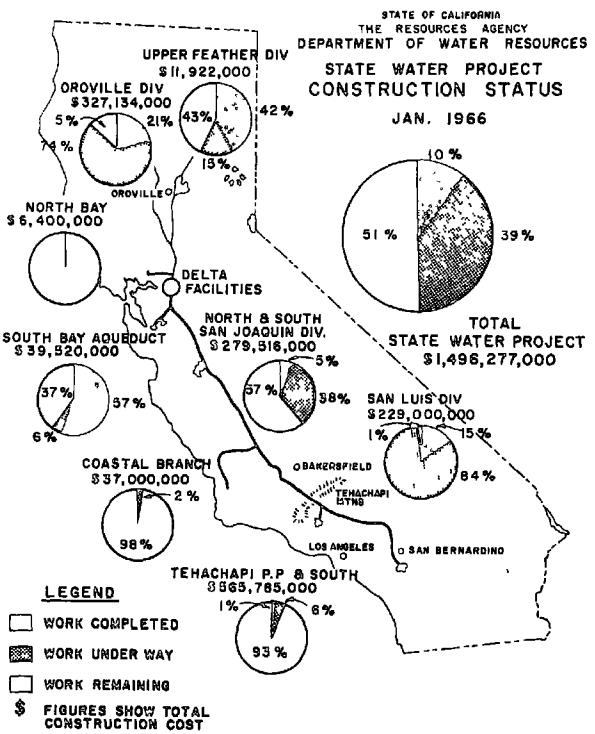
Perris Dam, south of Riverside, will also be an earthfill structure 120 feet in height and will have an initial storage capacity of 100,000 acre-feet Construction is scheduled to start in January 1968 Castaic Dam, on the West Branch of the California Aqueduct, will be an earthfill structure 335 feet high above streambed and will have a storage capacity of 350,000 acre-feet A contract for excavating an exploratory foundation trench has been completed Construction of the diversion tunnel is scheduled to start this spring, and construction of the dam itself will begin next year.

In two years, construction in the Southern California area will have accelerated spectacularly

In 1967, for example, work will be underway on all four tunnels of the Tehachapi Crossing, and at the Tehachapi Pumping Plant and penstocks Work will be under way at Oso Pumping Plant on the West Branch and Pearblossom Pumping Plant on the main Aqueduct Tunnels on the West Branch and south of Cedar Springs Reservoir will be under contract

Another hundred miles of the California Aqueduct will be either under contract or awaiting bid opening

The three valley pumping plants north of Tehachapi will all be under construction as well as those on the coastal stub near Avenal



We are at the halfway point In the five years of construction time that remain before the first water crosses the Tehachapi Mountains, our contract award rate in Southern California alone will average more than 100 million dollars a year

This is an exciting project and this is an exciting decade in the history of California water development

We have also not indicated in our comparison the $20 02 that Mr Allen pays in major medical and basic health benefits each month out of his own salary.

House Resolution No. 400

Relative to technical and vocational high schools

WHEREAS, Technological unemployment in our society is becoming increasingly prevalent, while at the same time thousands of new jobs become available each year in California but go unfilled due to a lack of properly trained manpower, and

WHEREAS, Vocational education in our high schools and junior colleges is in many cases inadequate to the tasks of educating our youth to the job potentials that are available, and at best suffers from a lack of community and financial support, and

WHEREAS, The equipment, facilities and teachers needed to teach many of the complex new technologically grounded occupations are in short supply, and far too costly to be afforded by any but our largest school districts; and

WHEREAS, California law contains authorization for the establishment of countywide vocational and technical high schools, to be operated by the county superintendent of schools, but as yet no such institutions have been established in this state, partly due to a lack of adequate available financial support; and

WHEREAS, A subcommittee of the Assembly Interim Committee on Education in 1965 submitted a report on the feasibility of establishing such countywide schools, which favorably reported that such schools should be established, but failed to suggest possible methods of financing; now, therefore, be it

Resolved by the Assembly of the State of California, That the Department of Education is hereby requested to study available and feasible methods of financing, from local, state and federal sources, the establishment of countywide vocational and technical high schools in California, together with a study of the present need for establishing such institutions in this state, and to report its findings thereon to the Assembly no later than the 30th legislative day of the 1967 General Session of the Legislature; and be it further

Resolved, That the Chief Clerk is directed to transmit a copy of this resolution to the Superintendent of Public Instruction and the President of the State Board of Education

WHEREAS, The use of outdoor advertising signs is an accepted and integral part of political campaigning, and

WHEREAS, There have been many instances of active vandalism designed to destroy, mutilate, or remove such signs and these acts are nothing less than the actual destruction of the personal property of another, and

WHEREAS, Such acts of vandalism raise the cost of maintaining and preserving the signs which adds greatly to the cost of conducting a political campaign, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby requested to assign to the appropriate interim committee for study the subject of the possible need for specific legislation to curb and discourage the use of vandalism as a political tactic, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

House Resolution No. 340, as Amended

By Assemblyman Unruh:

House Resolution No. 340

Relative to pre-school programs for disadvantaged children

WHEREAS, Chapter 1248 (Assembly Bill 1331) of the Statutes of 1965, authorized the establishment of pre-school centers to serve the needs of educationally disadvantaged children between the ages of three and five years, and

WHEREAS, Pre-school centers have been established by local school districts and private nonprofit agencies, and

WHEREAS, The fundamental purpose of pre-school training is to provide the informal preparation for formal schooling that educationally advantaged children ordinarily receive from parents who are not afflicted with the distress of poverty, unemployment or disrupted family life, and

WHEREAS, The essential characteristics of a pre-school teacher is an intimate knowledge of, and concern for, the extraordinary problems of the children of poverty; and

WHEREAS, The Legislature, through reference to the permit for teachers in Children's Centers, has determined that a junior college education is sufficient to guarantee adequate academic experience for pre-school teachers; and

WHEREAS, Arbitrary increases in academic requirements for pre-school teachers would have the following effects:

1 Increase the social distance between pre-school teachers and their pupils;

2 Diminish the employment of neighborhood parents as teachers;

3 Increase the annual costs of pre-school programs needlessly,

4 Discriminate against private nonprofit agencies that cannot utilize the taxing power to subsidize increased costs,

5 Compete with the regular elementary schools for teachers who are alleged already to be in short supply;

6 Substantially reduce the availability of pre-school programs to disadvantaged children, now, therefore, be it

Resolved by the Assembly of the State of California, That in view of the possible consequences of establishing overly restrictive credential standards for pre-school teachers, the State Board of Education is requested to temporarily withhold approval of proposals which seek to increase the academic requirements for obtaining a pre-school teacher's permit, until such time as an appropriate legislative committee has had an opportunity to study the problems of supply of pre-school teachers and the effect which increased permit standards would have upon such supply, and be it further

18050 Notwithstanding any other provision of law, any public utility district in the Lake Tahoe Basin which has provided or undertaken to provide a sewer system and treatment facilities which transport or are intended to transport any resultant sewage effluent outside the Lake Tahoe Basin, may form zones and issue zone bonds for the purpose of financing the costs of interceptor trunk sewers, force mains, pumping stations and appurtenant structures in the zone which, in the

opinion of its board of directors, are necessary or useful in connecting local sewerage collection systems to the major sewerage works and system of the district, or which are necessary or useful in causing local areas to install sewerage collection systems, as provided in this chapter.

(b) There are areas in these districts which are and will continue to be required to install sewerage collection systems which cannot now be connected to the major sewerage works and system of the districts.

(c) All areas of these districts are being required to connect to and use the works and system of the districts where they are available to them, but there is no economical means of providing the necessary intervening facilities which will be inviting to the owners of said areas to provide said facilities

House Resolution No. 419

Relative to the title designation of California State Colleges

WHEREAS, California's great system of public higher education is unparalleled in the nation, and

WHEREAS, No other state offers such extensive opportunity in education as that provided by the University of California, the California State Colleges, and the California junior colleges, and

WHEREAS, The California State Colleges constitute the foundation for a strong and distinguished partner in California's great system of public higher education; and

WHEREAS, The state college system is dedicated to educating the youth of California in order that they may better cope with the complexities of modern society; and

WHEREAS, The desirability of changing the title designation of institutions of higher education of adequate size and responsibilities from "colleges" to "universities" is a matter which has aroused increased public interest and support, and

WHEREAS, The term "university" is commonly defined as "an institution of higher learning, consisting of an assemblage of colleges united under one corporate organization and government, affording instruction in the arts and sciences and the learned professions and conferring degrees"; and

WHEREAS, A state college, such as San Diego State College, granting degrees at the undergraduate and graduate level in various fields of learning, would in reality constitute "an aggregation of colleges" as commonly understood with reference to the designation "university"; and

WHEREAS, While under existing law a state college, such as San Diego State College, may attain university status with respect to its instructional and research programs, enabling legislation is nevertheless required to authorize the Trustees of the California State Colleges to make the change in title designation; and

WHEREAS, The Legislature recognizes that the trustees of the California State Colleges deserve and should have further dignity and authority under the laws of the State of California, and that the authority to make changes in state college title designations, when warranted, would be an appropriate power and responsibility to be vested in the agency administering these four-year institutions of higher learning which have risen to such positions of eminence and stature in the field of higher education; and

WHEREAS, It is the intent and purpose of the Legislature to extend the authority to effect changes in title designation from "college" to "university", if at all, only after, and on the basis of, careful study in conjunction with experts in public and private higher education; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is directed to assign to an appropriate interim committee for study the subject of the desirability and feasibility of designating the California State Colleges, as the California State University, and, be it further

Resolved, That in connection with its study, the interim committee give particular attention insofar as possible, to the following

1 Whether the areas of study offered at the institutions justify the designation as "university";

2 Whether the connotation would, in event of change, directly or indirectly increase fiscal demands beyond the ability of the state to support,

3 The impact of such change on California's existing public and private institutions of higher learning,

4 Benefits to the administration, faculty, students, and to the state in general; and, be it further

Resolved, That said interim committee report its findings and recommendations on this subject to the Legislature no later than the fifth day of the 1967 Regular Session, and, be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a copy of this resolution to the Chairman of the Board, Trustees of the California State Colleges, and to the Honorable Glenn S Dumke, Chancellor of the California State Colleges

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

House Resolution No. 408, as Amended

By Assemblywoman Davis, Assemblymen Bagley, Belotti, Greene, Monagan, Powers, Young, and Z'berg

House Resolution No. 408

Relative to salaries of state correctional officers and group supervisors

WHEREAS, Salaries of state correctional officers and group supervisors are lagging behind the average salaries of persons performing comparable duties for counties and the federal government by 12.3 percent; and

WHEREAS, One of the major causes of the low salaries of state correctional officers and group supervisors is that their salaries have been tied historically to the salaries of other institutional employee groups which do not perform comparable duties, and

WHEREAS, Low salaries have created problems in recruiting qualified personnel to work as state correctional officers and group supervisors, as the salaries for these positions have not kept pace with the increase in the functions and duties and requisite knowledge and skills which these positions demand; now, therefore, be it

Resolved by the Assembly of the State of California, That the State Personnel Board is requested to give high priority to consideration of the adjustment of the salaries of state correctional officers and group supervisors and to give particular emphasis to the relationship which has historically tied the salaries of these persons with the salaries of other state institutional employees; and be it further

House Resolution No. 433

Relative to a study of legal services to the poor

WHEREAS, The poverty-stricken usually lack the means to secure legal services on a fully-paid basis, and

WHEREAS, Their needs for such legal services for criminal, civil and administrative trials and hearings are often acute; and

WHEREAS, The practicing bar and numerous legal groups in California have exerted great efforts to meet these needs and have unstintingly offered their leadership and services irrespective of the client's ability to pay, but their numbers are, nevertheless, inadequate to meet many of the relatively less serious needs of the poor which consequently go without legal or administrative relief and are settled by default; and

WHEREAS, Florida permits law students to appear in criminal courts to represent indigent defendants, if the students are under the supervision of a licensed attorney and Colorado, Connecticut, Massachusetts, and New York have similar rules; and

WHEREAS, This innovation has apparently provided one successful remedy for the problems relating to the provision of legal services to the poor, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate interim committee for study the subject of the feasibility of and standards for the use of third-year students of accredited, full-time law schools as advocates for the poor in misdemeanor criminal and minor civil court actions and in proceedings before administrative agencies, and to direct such interim committee to report its findings and recom-

WHEREAS, There will be on the June 1966 ballot a $275 million bond issue for school construction, of which $240 million will be intended for construction of schools in impoverished districts, and

WHEREAS, This $240 million will cover continuation of existing programs, but will not cover the tremendously increased costs of replacing old schools which do not meet earthquake-resistant standards, and

WHEREAS, There are over 1200 school districts in California, great numbers of which have buildings constructed prior to 1933, and

WHEREAS, School districts would have to finance reconstruction or replacement of these buildings through bond issues, or, in the case of impoverished districts, through additional state aid, and

WHEREAS, The effect of the ruling will have tremendous financial implications for most school districts in California, and the magnitude of the problems, both fiscal and physical, would become apparent upon inspections of the affected buildings, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to the appropriate interim committee for study the subject of the Attorney General's ruling legally obligating school districts to order inspections of all school buildings constructed prior to the Field Act of 1933 and the financial factors involved therein, and to direct such interim committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Official Sees Danger in LSD Prohibition
By Bater Omohundro, I, P-T National Bureau

WASHINGTON—The head of the Federal Food and Drug Administration today opposed the outlawing of LSD possession

FDA Commissioner James L Goddard said that such regulation, as embodied in a law passed recently by the California Legislature, could well hinder efforts to "dry up" sources of the powerful mind-twisting drug

Dr Goddard said that FDA is winging into a massive effort to curb all but a mere trickle of LSD through a nationwide investigative and educational program

He told a special Senate subcommittee that outlawing possession might keep victims of LSD from seeking help from authorities and giving valuable leads on their sources of supply

The FDA chief was preceded in today's testimony by Sen George Murphy, R-Calif, who urged that possession be made a federal crime He said the drug sometimes finds its way to innocent victims and cited an example where LSD was used to spike the punch at a young peoples' party near his home in Beverly Hills

Murphy later said the effects of LSD in the punch caused three "very nice young ladies" to remove all of their clothing—the first inkling to adult chaperones that something was amiss

A "rebound" effect of LSD was described for the committee by two staffers of the UCLA Health Sciences Center, Drs J Thomas Ungerleider and Duke D Fisher

"Acute symptoms" of the drug's use can recur months after its ingestion without further use of LSD, they told the subcommittee headed by Sen Thomas Dodd, D-Conn

They denied that reaction to LSD can be predicted by the user's apparent mental health

"We have seen individuals who seem to have been in good mental health who have become quite disturbed and have suffered severe functional changes following the use of LSD," they said in joint testimony These have included psychiatrists and persons screened by personality tests

Dr Goddard described as "pure bunk" the so-called mind expanding properties of LSD

He revealed that FDA is completing the training of a staff of nearly 200 investigators who will work to cut off the sources of illicit stimulants, depressants and hallucinogens prescribed in the 1965 drug control act

Under this law, Dr Goddard declared, only LSD controlled by the FDA will be legal for human research in this country

He said universities have shown a general willingness to cooperate in a control and educational program

He admitted contentions that the drug can be made in college chemistry laboratories but said this takes a minimum of four hours and can be detected by "proper laboratory supervision"

Dr Goddard said the present law's penalties for illegal LSD manufacture, distribution and sale are adequate, even though misdemeanors Under its escalating provisions, an LSD wholesaler faces consecutive jail terms "exceeding the life spans of every one in this room," he told the subcommittee.

"The Legislature further finds and declares that present law permits cities at their option to transfer assessment and tax collection functions to the county This consolidates a local governmental function and service under one agency, resulting in a more economic and efficient service A defect exists in the present law in that delinquent penalties collected on overdue taxes owing to general law cities when a county collects the taxes, are paid into the county's general fund, while under the same circumstances when a chartered city is involved, such penalties are paid to the city pursuant to Section 51554 of the Government Code A further incongruity exists in that amounts collected as penalties in connection with the redemption of property are paid to general law cities as taxes These inequities discourage further consolidation of tax assessing and collection functions It is necessary to remove these inequities to promote, as soon as possible, the further consolidation of tax assessing and collecting functions

SEC 8 Section 5 of this act shall become operative only if the addition of Section 51521 of the Government Code as proposed by Assembly Bill No. 140 is enacted by the Legislature at its 1966 First Extraordinary Session"

PRAYER

Upon invitation of Speaker pro Tempore Bee, the following prayer was offered by the Honorable Robert S Stevens, Member of the Assembly from the 60th District:

Our Father in Heaven:

Again we come before Thee at the opening of another day's deliberations in this Legislature, and we are thankful to Thee on this occasion for many things We are grateful that this very institution exists We are grateful that we are citizens of our great nation and state that are blessed with a constitutional system of government that allows a free people to be represented in the process of making of the laws which govern their lives Wilt Thou keep us and those whom we serve ever mindful that if at times there are faults and failures in that system, they are the faults and failures of men, and not of the basic system of government in which we labor.

We thank Thee for our health and strength and for our associations and friendships as colleagues. We ask Thee to bless us as individuals this day and at all times with continued health and vigor of mind and body to carry our responsibilities, and with patience and with understanding for each other Help us to realize that each one of us is confronted with individual problems, and help us to be slow and wise in our judgments of each other, that we may work in harmony for the solutions to the many and complex problems which continually face us

We particularly ask Thee, Our Father, as we approach the Memorial Day Holiday, that we may remember and be grateful for the supreme sacrifices of life itself which have been made by those who have been called upon to fight and die for their country's sake Help us to soberly reflect upon the responsibility which we carry as elected members of a legislative body which is an embodiment of that for which men have died and are yet dying on the battlefield

Grant us proper perspective in our work, that we may know something of the road which lies behind us, that we may have wisdom in our immediate travels, and that we may have vision to also see the longer view down the road ahead

All of these things we pray for, and for all that Thou knowest we need, in our Lord's name —AMEN

"SECTION 1 Article 5 (commencing with Section 745) is added to Chapter 3, Division 1, of the Streets and Highways Code, to read.

Article 5 Control of Junkyards, Scrap Metal Processing Facilities, and Automobile Dismantling Facilities

745 The Legislature hereby finds and declares that

(a) The establishment, use and maintenance of outdoor junkyards, scrap metal processing facilities, and automobile dismantling facilities in areas adjacent to any highway included in the national system of interstate and defense highways or the federal-aid primary highway system should be controlled in order to promote the safety and recreational value of public travel, to protect the public investment in such highways, and to preserve the natural beauty of areas adjacent to such highways The Legislature finds that motorists are distracted by unscreened junkyards, scrap metal processing facilities, and automobile dismantling facilities adjacent to such highways and that a junkyard visible from such a highway constitutes a hazard to the safety of the traveling public

(b) It is the intent of the Legislature, by the enactment of this article, to provide for the state control of outdoor junkyards, scrap metal processing facilities, and automobile dismantling facilities required by Section 136 of Title 23 of the United States Code

746. As used in this article

(a) "Junk" means old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, junked, dismantled or wrecked motor vehicles, or parts thereof, iron, steel and other old or scrap ferrous or nonferrous material

(b) "Automobile graveyard" means any establishment or place of business which is maintained, used, or operated for storing, keeping, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts.

(c) "Junkyard" means any establishment or place of business which is maintained, operated, or used for storing, keeping, buying, or selling junk, or for the maintenance or operation of an automobile graveyard or a scrap metal processing facility, and includes any garbage dump or sanitary fill

(d) "Scrap metal processing facility" means any establishment or place of business which is maintained, used, or operated solely for the processing and preparing of scrap metals for remelting by steel mills and foundries

(e) "Automobile dismantling facility" means any establishment or place of business which is maintained, used, or operated by an "automobile dismantler," as defined in the Vehicle Code, for the buying, selling, or dealing in vehicles of a type required to be registered under the Vehicle Code for the purpose of dismantling such vehicles and for the buying or selling of the integral parts and component materials of such vehicles

747 Except as hereafter provided, no junkyard, scrap metal processing facility, or automobile dismantling facility shall be established, operated, or maintained if any portion of the junkyard, scrap metal processing facility, or automobile dismantling facility is within 1,000 feet of the nearest edge of the right-of-way and visible from the main traveled way of any highway included in the national system of interstate and defense highways or the federal-aid primary highway system

748 Any junkyard, scrap metal processing facility, or automobile dismantling facility lawfully maintained on the effective date of this section, shall by January 1, 1968, be screened, if practical, by natural objects, plantings, fences, or other appropriate means so as not to be visible from the main traveled way of any highway included in the national system of interstate and defense highways or the federal-aid primary highway system, or shall otherwise be removed from sight of such highway, if any portion of the junkyard, scrap metal processing facility, or automobile dismantling facility is within 1,000 feet of the nearest edge of the right-of-way and if it is visible from the main traveled way of such highway The department shall screen such junkyards, scrap metal processing facilities, and automobile dismantling facilities at locations on the highway right-of-way or in areas acquired for such purpose adjacent to the right-of-way

749 Notwithstanding any other provision of this article, junkyards, scrap metal processing facilities, and automobile dismantling facilities may be established operated or maintained within areas adjacent to any highway included in the national system of interstate and defense highways or the federal-aid primary highway system which are within 1,000 feet of the nearest edge of the right-of-way if they are zoned industrial or if the junkyard, scrap metal processing facility, or automobile dismantling facility is located in unzoned industrial areas as determined by the department, provided, that the department is authorized to screen junkyards, scrap metal processing facilities, and automobile dismantling facilities located within such industrial zones or unzoned industrial areas so as not to be visible from the main traveled way of such highways if the director finds that such screening is necessary or desirable for the purposes set forth in subdivision (a) of Section 745 The director's determination as to what constitutes an unzoned industrial area shall be subject to approval by the Secretary of Commerce of the United States

750 Any junkyard, scrap metal processing facility, or automobile dismantling facility in existence on the effective date of this section which does not conform to the requirements of this article and which the director finds as a practical matter cannot be screened, shall be relocated, removed, or disposed of by July 1, 1970 Such finding shall be subject to approval by the Secretary of Commerce of the United States

751 The department is authorized to acquire such interests in real property as may be necessary to effect the screening, relocation, removal, or disposal of junkyards, scrap metal processing facilities, and automobile dismantling facilities required by the provisions of this article

752 If federal law should be interpreted as requiring the states to pay just compensation with regard to the relocation, removal, or disposal of junkyards, scrap metal processing facilities, and automobile dismantling facilities, just compensation shall be paid by the department to the owners of junkyards, scrap metal processing facilities, and automobile dismantling facilities which must be relocated, removed, or disposed of pursuant to the provisions of this article and which fall into the following categories

754 Any junkyard, scrap metal processing facility, or automobile dismantling facility which is established or maintained in violation of the provisions of this article or the regulations prescribed thereunder is a public nuisance and may be removed or otherwise disposed of by any public employee or entity.

755 The director may screen, relocate, remove or dispose of any junkyard, scrap metal processing facility, or automobile dismantling facility, or portion thereof, which is established or maintained in violation of the provisions of this article or the regulations prescribed thereunder, after 30 days' written notice posted on such property and a copy forwarded by mail to the owner of such junkyard, scrap metal processing facility, or automobile dismantling facility at his last-known address The department shall have an action to recover the expense of such screening, relocating, removing or disposing, costs and expenses of suit, and, in addition thereto, the sum of one hundred dollars ($100) for each day such junkyard, scrap metal processing facility, or automobile dismantling facility, or portion thereof, remains in violation after the expiration of 30 days from the time of forwarding such written notice

For the purposes of this section, the director or his authorized agent may enter upon private property

All costs incurred under this section in screening, relocating, removing or disposing of such junkyards, scrap metal processing facilities, and automobile dismantling facilities shall be the responsibility of the owners thereof

756 Every person, as principal, agent or employee, violating any of the provisions of this article or the regulations prescribed thereunder is guilty of a misdemeanor

757 The remedies provided in this article for the removal of junkyards, scrap metal processing facilities, and automobile dismantling facilities are cumulative and not exclusive of any other remedies provided by law

758 The director may enter into agreements with the Secretary of Commerce of the United States and accept any allotment of funds as provided by Section 136 of Title 23 of the United States Code

759 The director shall prescribe and enforce regulations governing the establishment, screening, relocation, removal, or disposal of junkyards, scrap metal processing facilities, and automobile dismantling facilities as provided in this article consistent with the provisions of Section 136 of Title 23 of the United States Code and the national standards promulgated thereunder by the Secretary of Commerce, provided, that the director shall not prescribe regulations to conform to changes in federal law or regulations made after the effective date of the enactment of this section at the 1966 First Extraordinary Session of the Legislature, without prior legislative approval

760 All money received by the state from the United States (except for money received to reimburse the department for the costs of screening junkyards, scrap metal processing facilities, and automobile dismantling facilities from within the highway right-of-way) pursuant to Section 136 of Title 23 of the United States Code shall be deposited in a special account in the State Highway Fund

761. The expense of administering this article is under the control of the director All money paid into the special account in the State Highway Fund pursuant to this article is continuously appropriated without regard to fiscal years for the administration and enforcement of this article and for payment of compensation pursuant to Section 752, and for the costs of screening outside the highway right-of-way done pursuant to Sections 748 and 749 Upon the order of the director, the Controller shall, without the approval of any board, draw his warrant upon the Treasurer for

the amount specified and in favor of the person designated in the order. The Controller shall also account for the receipts and disbursements of all money paid into the State Highway Fund pursuant to this article For the purpose of recording by the Controller of such receipts and disbursements, the department shall furnish to the Controller with claims and remittances or by subsequent reports the information necessary to maintain such accounts of money paid into the State Highway Fund pursuant to this article

The director shall, within 90 days after the close of each fiscal year, file with the Department of Finance and the Controller an annual report of all revenues and expenditures pertaining to this article

762 It is declared to be the intent of the Legislature in enacting this article to establish minimum standards with respect to the regulation of outdoor junkyards, scrap metal processing facilities, and automobile dismantling facilities The governing body of any city, county, or city and county may enact ordinances, including, but not limited to, land use or zoning ordinances, imposing restrictions on junkyards, scrap metal processing facilities, and automobile dismantling facilities equal to or greater than those imposed by this article.

896 The Legislature hereby declares that the acquisition of interests in real property for the preservation, maintenance or conservation of scenic lands or areas adjacent to any highway included in the national system of interstate and defense highways or the federal-aid primary highway system or to preserve, improve or enhance the natural beauty of points of interest in the lands or areas traversed by such highways provided for in Section 895 constitutes a public use and purpose

United States of America

Dear Sir,

I have been directed by this Council to thank the California Legislature most sincerely for the goodwill message contained in the Resolution No 54 which it passed on 25th October, 1965, commending our Mayor (Mr George Manning) for his outstanding contribution to his City, his nation, and relationships with your country The framed copy of the Resolution was received with appreciation at the last Council meeting

Particularly since this City, and its Airport, became the advance base for United States "Operation Deep Freeze" activities in Antarctica some years ago, it has developed close relationships with many of your countrymen These relationships have at all times been most cordial and the friendships made will be enduring ones

We feel that these associations have resulted in a better understanding between

our two countries, as well as creating a tremendous amount of continuing goodwill on both sides

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Mulford was granted unanimous consent that the following letter be printed in the Journal

Salinas, May 31, 1966

The Honorable Don Mulford
State Capitol
Sacramento, California

Dear Sir

Mr Alan Pattee has asked me to write you of my advice to him after his last examination in this office

He was hospitalized early in January, 1966 He was brought to our hospital, by ambulance, because of extremely severe head pain, associated with nausea and vomiting

The large contributing factor was an extreme state of nervous tension, associated with marked fatigue and lowered blood pressure Since shortly after the onset of his illness in January, he has suffered upper respiratory infection that has defied control

It is my considered opinion and my advice to Mr Pattee that he seek complete rest. Although he demurred, I think I have convinced him that a leave of absence for about two months would not only speed his recovery, but might well prevent greater disability

I trust you will concur and grant him the needed rest

Sincerely,

FRANK E WIEBE, M D

RESOLUTIONS

The following resolutions were offered:

By Assemblyman Beilenson.

House Resolution No. 473

Relative to continuation education classes

WHEREAS, The Legislature has authorized and required special continuation education classes for high school drop-outs for many years; and

WHEREAS, House Resolution No 330 of the 1964 First Extraordinary Session directed a statewide legislative study be made on the subject of suspension and expulsion of pupils from the public schools, and

WHEREAS, As a result of legislative findings made pursuant to such study, the Legislature at the 1965 Regular Session enacted Assembly Bill 2240 (Chapter 1648, 1965 Statutes) which (1) enforced previously ignored mandates to establish continuation education classes, and (2) required the Superintendent of Public Instruction to impose penalties on school districts failing to establish such classes; and

WHEREAS, The Legislature at the 1966 First Extraordinary Session passed Assembly Bill 155 which, in effect, permits local districts to utilize adult education facilities for the benefit of continuation education students; and

WHEREAS, It has been recently brought to the attention of the Legislature that a few school districts have adopted restrictive policies not in keeping with the intent of the Legislature and that such policies, include but are not limited to: (1) the maintenance of waiting lists for continuation education classes, (2) the unauthorized referral of students to home study courses, (3) the adoption of fifteen minute classes for physical education which are held once per week, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Rules Committee is requested to refer to an appropriate interim committee the subject of continuation education classes, and the necessary means of implementing them, and to direct that the committee report the result of its findings and recommendation to the Assembly not later than the fifth legislative day of the 1967 Regular Session.

Resolution read, and referred by the Acting Speaker to the Committee on Rules.

By Assemblyman Donovan

House Resolution No. 474

Relative to salaries of state police officers and state police supervisors

WHEREAS, Salaries of state police officers and state police supervisors are lagging behind the average salaries of persons performing comparable duties for the state, cities, counties, and federal government by 12.5 percent, and

WHEREAS, One of the major causes of the low salaries of state police officers and state police supervisors is that their salaries have been tied historically to the salaries of other employee groups which do not perform comparable duties, and

WHEREAS, Low salaries have created problems in recruiting qualified personnel to work as state police officers and state police supervisors, as the salaries for these positions have not kept pace with the increase in the functions, duties, and requisite knowledge and skills which these positions demand, now, therefore, be it

Resolved by the Assembly of the State of California, That the State Personnel Board is requested to give high priority to consideration of the adjustment of the salaries of state police officers and state police supervisors and to give particular emphasis to the relationship which has historically tied the salaries of these persons with the salaries of municipal, county and state employees, and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send a copy of this resolution to each member of the State Personnel Board

Resolution read, and referred by the Acting Speaker to the Committee on Rules

By Assemblyman Veneman.

WHEREAS, Born in Omaha, Nebraska, he came to California with his parents in 1907, and

WHEREAS, After completing his education at Santa Clara University, he moved to Turlock, situated in one of the country's most famous agricultural areas, and began a successful career in the insurance brokerage business, and

WHEREAS, He rendered dedicated service to his community in the successive positions of member, president, and secretary-manager of the Stanislaus County Development Board, which was instrumental in sponsoring a Stanislaus County exhibit at the State Fair & Exposition, and

WHEREAS, Elected to the Assembly in 1934, he served eight years as an Assemblyman, becoming Speaker pro Tempore in 1939, and

WHEREAS, He was elected to the State Senate in 1942 and has been consistently reelected, achieving the title, Dean of the Legislature, and

WHEREAS, Senator Donnelly authored many pieces of important legislation, especially in the areas of education and agriculture, and was responsible for legislation which banned the sale of dangerously inflammable or explosive wearing apparel, the first bill of its kind in the United States, and

WHEREAS, Senator Donnelly also attained prominence as Chairman of the Senate Interim Committee on Governmental Reorganization which was responsible for creation of the office of Auditor General, and

WHEREAS, He was a delegate to the Democratic National Convention in 1964, and his other affiliations include membership in the Turlock Grange and Stanislaus County Pomona Grange and honorary membership in the Rotary Club, and

WHEREAS, The legislative accomplishments of Senator Donnelly underlie a great deal of the progress and growth that the State of California has experienced, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members of the Assembly take pride in commending Senator Hugh P. Donnelly for the outstanding contributions to the people of his district and to the people of California during his service as a Member of the Legislature, and extend to him heartiest best wishes for happiness and success in his future endeavors, and be it further

WHEREAS, LaVerne H Hubatch, a career Long Beach postal carrier and former Marine, in making his regular daily deliveries on April 15, 1966, heard the scream of a child and looked up to see two small children in a station wagon which was rolling backwards down a hillside street, and

WHEREAS, In an instant he perceived the gravity of the situation and, with fearless disregard of his own personal safety, immediately sprinted after the car, opened its door, leaped in, grabbed the child who was behind the steering wheel, and braked the car to a stop, averting a serious collision with either the oncoming traffic or nearby structures and vehicles, and

WHEREAS, Mr Hubatch received, in recognition of his heroic efforts, a Superior Achievement Award and a $100 honorarium from the Long Beach Postmaster; now, therefore, be it

Dear God and Our Father Early this morning Thou didst call again the sun to rise to run its journey through the skies, and to awaken us, strengthened by the rest and sleep of last night, to meet with joy our responsibilities and challenges for today

Let us with sincerety, dedication and devotion do what is our task, remembering with deepest humility Thy love for us and for all men alike Let us go forth as stewards of Thy manifold blessings seeking to do all the good we can

Thou hast searched our hearts and known our ways and as much as we may know ourselves we must ask Thy forgiveness for our sins, our wanderings and our goings astray and all that is displeasing to Thee

Let it be the desire of our hearts and the pursuit thereof to "Seek Thy Face" always in times like these

This is our prayer for now —AMEN

PRAYER

Upon invitation of Acting Speaker Rumford, the following prayer was offered by Reverend A S Jackson, Minister of the Church by the Side of the Road, Berkeley

O Thou Who Art Our Creator and Redeemer, grant that we may worship Thee in sincerity and in truth Wash us all, thoroughly from our iniquities and sins

Oh, God, give us grace to follow the Master who delighted to serve others and who gave to dusty roads and tiresome toil and commonplace drudgeries, a new dignity and glory May we too weep over our cities when injustice and unbelief cast lengthening shadows across areas of poverty and wretchedness

Enables us to stand up and courageously speak out against the pretense and sham and hollow mockeries of our day, as the Master did, even though it leads us to a cross Give Thy divine guidance to these public servants as they deliberate on the problems of the day—and may all that is done be done to Thy glory—through Christ Jesus —AMEN.

By Assemblymen Meyers and Foran.

House Resolution No. 487

Relative to congratulating St Paul's Grammar School on its 50th Anniversary

WHEREAS, It has come to the attention of the Members of this Assembly that St Paul's Grammar School in San Francisco, California, is celebrating its 50th Anniversary this year; and

WHEREAS, As one of San Francisco's pioneer institutions this school traces its humble start from the year 1880 when construction of St Paul's Roman Catholic Church and rectory was started, its cornerstone having been laid on April 29, 1880, by the Most Reverend Archbishop Joseph S Alemany, and which was succeeded by a new church of larger capacity erected by the pastor Monsignor Michael D Connolly which was dedicated on May 11, 1911, by the Most Reverend Archbishop Patrick Riordan; and

WHEREAS, Father Connolly, not being content with building only a church, established St Paul's Elementary School for boys and girls in 1916, followed a year later by St Paul's High School for girls and three years later by St Paul's Primary School for boys and girls, and

WHEREAS, In response to Father Connolly's request that the new school be staffed by the Sisters of Charity of the Blessed Virgin Mary on July 10, 1916, fourteen Sisters of this congregation left their Motherhouse in Dubuque, Iowa, for San Francisco, and

WHEREAS, On Monday, July 31, 1916, the day after its dedication by the Most Reverend Archbishop Edward J. Hanna, the doors of St Paul's Grammar School were opened to 500 boys and girls with Sister Mary Comiadine Davies as the first principal, and

WHEREAS, Since its founding half a century ago, St Paul's has been faithfully serving the people of San Francisco by teaching and training the youth of that city, and

WHEREAS, The present enrollment of the school is 1075 students, having at times been as high as 1300, with a present staff of eighteen dedicated teaching Sisters and five lay teachers under the direction of Sister Mary Jameselle, B V M, herself a graduate of St Paul's Grammar School and St Paul's High School, and

WHEREAS, The present pastor of St Paul's is Monsignor Robert I. Falvey, who succeeded Father Cornelius E Kennedy in 1951, and

WHEREAS, Some of the most distinguished citizens of this state received their early education at St Paul's and willingly attribute their success in life to the excellent training and discipline which they received in their beloved grammar school, and

WHEREAS, The continuing success of this outstanding school in spiritual as well as academic attainments is a mute testimonial to the dedicated service of the Sisters of Charity, B V M, as well as to the successive pastors of St Paul's Church and the spiritual guidance and leadership of Archbishop Edward J Hanna, his successor Archbishop John J Mitty and the present Archbishop Joseph T. McGucken, and

WHEREAS, The fine reputation which St Paul's enjoys both in San Francisco and throughout this country was recently attested to when the school was selected as the site of the Twenty-Sixth Biennial Convention of the National Federation of Alumni, Sisters of Charity, B V M, to be held in San Francisco June 16th through June 19th, and

WHEREAS, In the fifty-four year history of the Federation, this is only the second time that the convention has met in San Francisco, the previous time being in 1939; and

WHEREAS, To celebrate the convention a Pontifical Mass will be said in St. Paul's Church by Archbishop Joseph T. McGucken on Saturday, June 18, at 8 A M for all living alumni, the sermon being preached by Bishop Hugh A Donohoe, a graduate of St Paul's Grammar School; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members congratulate St Paul's Grammar School on its 50th Anniversary and on being selected as the site of the Twenty-Sixth Biennial Convention of the National Federation of Alumni, Sisters of Charity, B V M, and be it further

The Honorable Jesse M. Unruh
Speaker of the Assembly
State Capitol
Sacramento, California

Dear **Mr. Unruh:**

I want to express my deep appreciation to you for your generous commendation and congratulations in House Resolution No. 341 for my part in the development of the California Legislative Intership Program. I hope you will convey my appreciation to the other Members of the Assembly. I am also greatly pleased by the Assembly Resolution No. 342, which commends the Program, the interns of this year, and the faculty members who have served on the Executive Committee

The California Legislative Internship Program has succeeded beyond the hopes and expectations of those who were responsible for its establishment ten years ago Similar programs have since been instituted in ten or more states It has provided valuable training for future professional legislative staff members, as we hoped it would. The Assembly today undoubtedly has one of the most able professional staffs of any state legislature in the country The program has also provided valuable training to interns who have returned to teaching careers, or who have entered the practice of law, journalism, or other careers Former interns have been uniformly enthusiastic about the value which they have received from their participation in the Program.

Although it is fitting for the Assembly thus to honor the interns and faculty members who have participated in the Program, the greatest contribution to its success has been made by the Members of the Assembly and their staff who have directed the work of the interns. Without the support of the Speaker and the Rules Committee, and their assistants, the Program could not have succeeded From the outset it has been in every respect an Assembly program. This is as it should be The faculty members of the five participating universities who have given generously of their time have made an important contribution, especially by assisting in the recruiting and selection of qualified persons, and have been honored by their association with Members of the Assembly. I venture to speak for them in expressing our appreciation for the generous commendation and congratulations by the Assembly

Sincerely yours,

JOSEPH P HARRIS

PRAYER

Upon invitation of the Acting Speaker, the following prayer was offered by the Honorable Pauline L Davis, Member of the Assembly from the 2nd District

Let us bow our heads

Most Merciful God, since none of us can escape from our responsibilities of life, let us face the challenges courageously. Help us not to wander somewhat aimlessly through the capitol corridors as if endeavoring to find our way out of a maze

Assist us that we may all be aware of the immediate concern of our great state, not only the immediate problems confronting various districts but also the problems of our individual constituents

Help us to give thanks to You, Our God, that we may recognize the privilege given to each and every one of us in this Assembly in making decisions on issues of far-reaching import

We know good laws can only be achieved by strong, courageous, independent lawmakers—lawmakers who are not concerned with only a position of popularity, but lawmakers of vision and strong convictions, rather than personal advantage or advancement

So Help Us, Thy Servants, to direct our minds, that when we cast our votes they will be for the best interests of the people we are sent here to serve

Give us the wisdom which lifts us above the spirit of partisanship and makes us instruments of Thy Will

May Your Blessing rest upon my fellow colleagues and myself in this Assembly in our deliberations, not only today, but also in the days ahead

I ask this in the name of Jesus Christ, Our Lord —AMEN

Our Father and Our God As always the darkness gave way to the light of day and we are here in it because Thou hast willed it so, yet in that darkness of last night while we lay sleeping Thou wert creating within us new strength and energy for the challenges of today

So grant unto us both the wisdom and the will to do that which is right and well pleasing in Thy sight, create within each of us the passion for service, good will, and brotherhood, and let us deal with the matters before us in such a way, that all may understand that we work "not alone," but with Thee

Thy Word has instructed us that the steps of a good man are ordered by the Lord, so order our steps this day, that we may show ourselves "good men"

This is our prayer for now—AMEN

SEC 34 1 Section 402 1 is added to the Revenue and Taxation Code, to read

402 1 In the assessment of real property, the assessor shall consider the effect upon value of any enforceable restrictions to which the use of the property may be subjected Restrictions shall include but are not necessarily limited to zoning restrictions limiting the use of land and any recorded contractual provisions limiting the use of lands entered into with a governmental agency pursuant to state laws or applicable local ordinances There shall be a rebuttable presumption that restrictions will not be removed or substantially modified in the predictable future and that they will substantially equate the value of the property to the value attributable to the legally permissible use or uses

Grounds for rebutting the presumption may include but are not necessarily limited to the past history of like use restrictions in the jurisdiction in question and the similarity of sales prices for restricted and unrestricted property The possible expiration of a restriction at a time certain shall not be conclusive evidence of the future removal or modification of the restriction unless there is no opportunity or likelihood of the continuation or renewal of the restriction, or unless a necessary party to the restriction has indicated an intent to permit its expiration at that time

In assessing property where the presumption is unrebutted, the assessor shall not consider sales of otherwise comparable property not similarly restricted as to use as indicative of value of property under restriction, unless the restrictions have a demonstrably minimal effect upon value

In assessing property under an enforceable use restriction wherein the presumption of no predictable removal or substantial modification of the restriction has been rebutted, but where the restriction nevertheless retains some future like and has some effect on present value, the assessor may consider, in addition to all other legally permissible information, representative sales of comparable property not under restriction but upon which natural limitations have substantially the same effect as restrictions

It is hereby declared that the purpose and intent of the Legislature in enacting this section is to provide for a method of determining whether a sufficient amount of representative sales information is available for real property under use restriction in order to ensure the accurate assessment of such property Nothing in this statute shall be construed as requiring the assessment of any property at less than as required by Section 401 of this code or as prohibiting the use of representative comparable sales information on property under substantially similar restrictions when such information is available

SEC 34 2. Section 402.5 of the Revenue and Taxation Code is repealed

~~402 5. In assessing property which is zoned and used exclusively for agricultural, airport or recreational purposes, and as to which there is no reasonable probability of the removal or modification of the zoning restriction within the near future, the assessor shall consider no factors other than those relative to such use. Where property is zoned exclusively agricultural pursuant to a general plan of land use there shall be a rebuttable presumption of no reasonable probability of the removal or modification of the zoning restriction on such property in the near future.~~

SEC 34 3. Section 402 6 of the Revenue and Taxation Code is repealed.

~~402 6. In assessing property which is located within an agricultural preserve where the use is restricted by contract, agreement or other means pursuant to Chapter 7 (commencing with Section 51200) of Part 1 of Division 1 of Title 5 of the Government Code, the assessor shall consider no factors other than the uses permitted under such restrictions when there is no reasonable probability of the removal or modification of the restrictions within the near future.~~

On my eighth day as Congressman, Majority Leader Carl Albert asked me to perform his duties as Majority Leader It occurred to me that this was an opportunity for a coup of tremendous proportions, however, as I looked around the floor, I discovered there were only three minority members present, and two members of the majority The other member of the majority was Congressman Tom Rees, and I did not feel I had his full support in my efforts to become Majority Leader Therefore, I performed routine functions assigned to me for a total of four minutes, and retreated into anonymity once again Thought you would be pleased to learn of my rapid advance

House Resolution No. 536

Relative to a study of using helicopter service as part of rapid transit systems

WHEREAS, There exists a real opportunity for the use of the helicopter in short haul service from city-center to city-center because of the high density market, and

WHEREAS, In many large cities helicopter taxi companies are moving people between hotels and suburban helistops and the airports completely avoiding surface routes, and

WHEREAS, Traffic congestion is one of our greatest problems and the usual suggested solutions, such as subways, monorails, electronic auto movement systems and others, generally require the taking of land for rights-of-way which leads to astronomical costs for such rapid transit systems and removes large amounts of land from the tax rolls adding burdens to the taxpayer; and

WHEREAS, The use of the helicopter as part of rapid transit is a valid solution to some of the problems and helicopters require much less in the way of supporting facilities than any other vehicle, and

WHEREAS, Illustrative of these problems is the particularly acute situation in Los Angeles County which presently has a population exceeding 6 9 million persons owning 3 5 million automobiles and by 1985 a population exceeding 10 million owning over 6 million automobiles is expected, a trend which will lead inevitably to virtually a vehicular standstill, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is directed to assign to an appropriate interim committee for study the subject of the feasibility of establishing helicopter service as part of rapid transit systems, especially in the Los Angeles area, and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature.

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules.

By Assemblyman Veysey:

House Resolution No. 537

Relative to turn signal lamps on implements of husbandry

WHEREAS, The Legislature, in 1965, amended Section 22110 of the Vehicle Code to eliminate the authorization for the use of mechanical turn signal devices on vehicles; and

WHEREAS, This was the sole intention of the Legislature in amending Section 22110, and it was not the intention of the Legislature to extend the operation of the section to vehicles theretofore not subject to the section, and

WHEREAS, In a recent opinion, the Attorney General has construed Section 22110, as amended, to require that implements of husbandry be equipped with turn signal lamps, and

WHEREAS, Such a construction would impose an undue burden on farmers if they are required to install signal lamps on all of their vehicles, and

WHEREAS, It was not the intention of the Legislature to impose such a requirement on farmers, and the section should not be construed to have such an effect, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is requested to assign to an appropriate interim committee for study the subject matter of turn signal lamps on implements of husbandry and to direct such interim committee to report thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

The following resolutions were offered:

By Assemblymen Mulford and Rumford

House Resolution No. 544

Relative to the retirement of Captain Jewell "Red" Ross

WHEREAS, The Members of the Assembly recently learned of the retirement of Captain Jewell "Red" Ross after more than 26 years of distinguished public service with the Berkeley Police Department, and

WHEREAS, One of the most respected, loved, imitated, dedicated officers ever to pin a Berkeley police shield on his chest, his retirement leaves a gap in the lives of all citizens in the Berkeley area, like taking a pillar off the corner of a building; and

WHEREAS, A Texan by birth, a Marine by training, a jester by nature, a gentleman by breeding, a man by men's standards, and an Irish "cop" in the old tradition, Captain Ross applied as a Berkeley patrolman on July 1, 1940, and became a beat officer in the city's west side; and

WHEREAS, A short two and one-half years later, he was named sergeant, then inspector in 1950, lieutenant in 1951, and captain on June 26, 1960, and during his distinguished career, he served as patrol sergeant, desk sergeant, chief warden in charge of civil defense during war time, personnel officer, and his recent stint as captain has been spent as head of the Detective Division, and

WHEREAS, His handling of sensitive citizenry is legendary and the stories of his communication bridge between policeman and citizen have served as basic training to the men he has led, and

WHEREAS, He is credited with establishing the format of handling large demonstrations in the Berkeley area, and has steadfastly maintained that communication is the most important asset a policeman can have and he dubs it an "absolute necessity" today, and

WHEREAS, A colorful dedicated police officer, he is never at a loss for words no matter what the occasion, and rarely does he end a conversation without praising Berkeley, people, or the Berkeley Police Department, and

WHEREAS, Extremely active in civic and social affairs, he is a member of the Berkeley Rotary Club, a past president of the Berkeley Breakfast Club, a member of Alpha Chapter of Lambda Alpha Epsilon, and a member and past officer of local, regional, and State police officer groups, and

WHEREAS, He has taught police subjects throughout his police career and was selected to act as a consultant to the Police Department in Ashland, Oregon, for six months, and upon his retirement, he plans to teach at the Feather River Police Academy in Oroville for a month before boarding a Scandinavian freighter for a round-the-world, six-month trip, and

WHEREAS, Feted at an hour-long testimonial sponsored by the Berkeley Breakfast Club on July 1, 1966, which was attended by an overflow crowd of local and visiting police officers, civic officials, and "Red's" charming red-headed wife, Ginger, he was presented with a rooster, encased in a be-ribboned box and billed as a "timepiece to carry with you wherever you go", and

WHEREAS, His Irish blarney and marvelous philosophy will be missed by all who have ever known him or had the privilege of working with him, and his retirement will bring to a close a colorful chapter of law enforcement in Berkeley, now, therefore, be it

Resolved by the Assembly of the State of California, That the Members extend their heartiest congratulations to Captain Jewell "Red" Ross upon the occasion of his retirement after more than 26 years of dedicated public service to the people of Berkeley while serving on the Berkeley Police Department, and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a suitably prepared copy of this resolution to Captain Jewell "Red" Ross

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, July 6, 1966

Honorable Bob Moretti
Assembly Chamber

A.B. 201 of 1966 First Extraordinary Session: Incitement to Riot—No. 7488

Dear Mr Moretti

QUESTION

With regard to Assembly Bill No 201 of the 1966 First Extraordinary Session, as amended in the Assembly on July 5, 1966, is "intent to cause a riot" a necessary element of the misdemeanor specified in proposed Section 404 6 that the bill would add to the Penal Code?

OPINION

It is our opinion that "intent to cause a riot" is a necessary element of the misdemeanor specified in the Section 404 6 that would be added to the Penal Code by A B 201 of the 1966 First Extraordinary Session, as amended in the Assembly on July 5, 1966

ANALYSIS

The Section 404 6 in question reads as follows

"404 6 Every person who with the intent to cause a riot does an act or engages in conduct which urges a riot, or urges others to commit acts of force or violence, or the burning or destroying of property, and at a time and place and under circumstances which produce a clear and present and immediate danger of acts of force or violence or the burning or destroying of property, is guilty of a misdemeanor "

This language would make a person guilty of a misdemeanor if, with intent to cause a riot, he acts or engages in conduct which urges a riot or urges others to commit acts of force or violence or burn or destroy

property, at a time and place and under circumstances that would cause a clear, present and immediate danger of acts of force or violence or the burning or destruction of property

It is our opinion that without an "intent to cause a riot," there could be no misdemeanor within the meaning of Section 404 6.

Very truly yours,

GEORGE H MURPHY, Legislative Counsel

"SECTION 1 Section 17507 of the Education Code is amended to read

17507 The Superintendent of Public Instruction, in computing apportionments and allowances from the State School Fund for the second principal apportionment, shall determine the following for the regular day classes of the elementary schools maintained by each school district·

(a) For grades one to three, inclusive, he shall determine the number of classes, the number of pupils enrolled in each class, the total enrollment in all such classes, the average number of pupils enrolled per class, and the total of the numbers of pupils which are in excess of thirty-three (33) in each class having an enrollment of thirty-three (33) or more

(b) For grades four to eight, inclusive, he shall determine the total number of pupils enrolled, the number of full-time equivalent classroom teachers, and the average number of pupils per each full-time equivalent classroom teacher He shall also determine the excess, if any, of pupils enrolled in such grades in the following manner·

(1) Determine the number of pupils by which the average number of pupils per each full-time equivalent classroom teacher for the current fiscal year exceeds the greater of the average number of pupils per each full-time equivalent classroom teacher in all the appropriate districts of the state, as determined by the Superintendent of Public Instruction, for October 30, 1964, or the average number of pupils per each full-time equivalent classroom teacher which existed in the district on October 30, 1964.

(2) Multiply the number determined in (1) above by the number of full-time equivalent classroom teachers of the current fiscal year

(3) Reduce the number determined in (2) above by the remainder which results from dividing such number by the average number of pupils per each full-time equivalent teacher for October 30, 1964, as determined by the Superintendent of Public Instruction in (1) above

(c) He shall compute the product obtained by multiplying the excess number of pupils, if any, under the provisions of subsection (a) of this section by ninety-seven hundredths (0.97) *, and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to district change in average daily attendance. Change in average daily attendance shall be determined by dividing average daily attendance in grades one, two and three reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year*

(d) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty-three (33) per class pursuant to subdivision (a) of this section, and there is no excess number of pupils computed pursuant to subdivision (b) of this section, he shall decrease the average daily attendance reported under the provisions of Section 17601.1 by ~~one-half~~ *twice* of the product determined under subdivision (c) of this section

(e) If the school district reports that it has maintained, during the current fiscal year, no classes in which there were enrolled pupils in excess of thirty-three (33) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation

He shall compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97) *and shall multiply the product so obtained by the ratio of statewide change in average daily attendance to the district change in average daily attendance* He shall decrease the average daily attendance reported under the provisions of Section 17601.1 by ~~one-half~~ *twice* of the resulting product *Change in average daily attendance shall be determined by dividing average daily attendance in grades four to eight, inclusive, reported for purposes of the first principal apportionment of the current year by that reported for purposes of the first principal apportionment of the preceding year*

(f) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty-three (33) per class determined pursuant to subdivision (a) of this section, and there is an excess number of pupils computed pursuant to subdivision (b) of this section, he shall make the following computation:

He shall ~~compute the product obtained by multiplying the excess number of pupils computed pursuant to subdivision (b) of this section by ninety-seven hundredths (0.97). He shall add to one-half of this product, one-half of the product determined under subdivision (e) of this section~~ *add to twice the product determined under subdivision (c) of this section, the product determined under subdivision (e) of this section* and decrease the average daily attendance reported under the provisions of Section 17601.1 by this total amount

(g) If the school district reports that it has maintained, during the current fiscal year, any classes in which there were enrolled pupils in excess of thirty-three (33) per class determined pursuant to subdivision (a) of this section, there is an excess number of pupils computed pursuant to subdivision (b) of this section, and the average number of pupils enrolled in each class determined pursuant to subdivision (a) of this section is less than thirty (30), he shall decrease the average daily attendance reported under the provisions of Section 17601.1 by one-half of the decrease otherwise computed for the district pursuant to subdivision (f) of this section

The governing board of each school district maintaining elementary schools shall report for the fiscal year 1964–65 and each year thereafter the information required for the determinations to be made by the Superintendent of Public Instruction under the provisions of this section in accordance with instructions provided on forms furnished and prescribed by the Superintendent of Public Instruction Such information shall be reported by the school district together with, and at the same time as, the reports required to be filed for the second principal apportionment of the State School Fund The forms on which the data and information is reported shall include a certification by each

school district superintendent or chief administrative officer that the data is correct and accurate for the period covered, according to his best information and belief.

For purposes of this section, a "full-time equivalent classroom teacher" means an employee of an elementary, high school, or unified school district, employed in a position requiring certification qualifications and whose duties require him to teach pupils in the elementary schools of that district in regular day classes for the full time for which he is employed during the regular schoolday. In reporting the total number of full-time equivalent classroom teachers, there shall be included, in addition to those employees defined above, the full-time equivalent of all fractional time for which employees in positions requiring certification qualifications are required to devote to teaching pupils in the elementary schools of the district in regular day classes during the regular schoolday.

For purposes of this section, the number of pupils enrolled in each class means the average of the active enrollment in that class on the last teaching day of each school month which ends prior to April 15th of each school year.

Whenever the number thirty-three (33) is required to be used in any part of this section, relating to grades one to three, inclusive, of a school district for the fiscal year 1965–66, the following numbers shall be substituted during succeeding years: thirty-two (32) for the fiscal year 1966–67, thirty-one (31) for the fiscal year 1967–68, thirty (30) for the fiscal year 1968–69 and each year thereafter.

The provisions of this section are not applicable to school districts with less than 101 units of average daily attendance for the current fiscal year.

Although no decreases in average daily attendance shall be made for the fiscal year 1964–65, reports are required to be filed under the provisions of this section, and the Superintendent of Public Instruction shall notify each school district the amount of the decrease in state allowances which would have been effected had such decrease in average daily attendance been applied.

The Superintendent of Public Instruction shall adopt rules and regulations which he may deem necessary for the effective administration of this section. Such rules and regulations may specify that no decrease in average daily attendance reported under the provisions of Section 17601.1 shall be made for a school district on account of large classes due to instructional television or team teaching, which may necessarily involve class sizes at periods during the day larger than the standard set forth in this section.

SEC. 2. Section 17674 of said code is amended to read:

17674. The foundation program computed for the fiscal year for each elementary school district pursuant to Section 17656, as increased, where necessary, pursuant to the other provisions of this article, shall be increased further by ~~ten dollars ($10)~~ *twenty dollars ($20)* for each unit of average daily attendance in regular day classes during the fiscal year in grades 1 through 3, inclusive, reported under the provisions of Section 17601.1, as adjusted, if necessary, under the provisions of Section 17507.

The Legislature intends that the increase in the foundation program made available by this section be utilized by local school districts, for the achievement of reduced class sizes in grades 1 through 3, inclusive, so that the sizes of such classes will not exceed the minimum standards prescribed by Section 17507."

The Speaker pro Tempore appointed Messrs Unruh, Garrigus, and Flournoy as a Committee on Conference concerning Assembly Bill No 52

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Stanton was granted unanimous consent that the following explanation of vote on Assembly Bill No. 201 be printed in the Journal.

EXPLANATION OF VOTE

Although I voted in favor of AB 201x (Moretti), I wish to express in the strongest terms my disapproval of the manner in which the bill was brought before the Legislature Printed copies of the bill were only available five minutes before the bill was moved from second to third reading. This detracts greatly from the reputation of the Assembly as a deliberative body.

Had I been given the bill in sufficient time to study it, I would have offered the following additional amendments which in no way change the bill but do offer protection against any abuses under color of law and provide for a preventative solution in the form of a Study Commission for the Prevention of Violence

I would have offered the following amendments

The Harris Survey

PUBLIC EMPHASIS IS ON POSITIVE CRIME CURBS

By Louis Harris

For all their concern about safety on the streets these days, most Americans believe that crime can best be curbed by positive measures that attack the environmental and psychological roots of criminal activity rather than by greater employment of force by the police

By 4 to 3 most Americans would like to see capital punishment outlawed nationally

By 7 to 1 people think prisons should be more corrective than punitive, with heavy emphasis on rehabilitating criminals

By more than 5 to 1 people believe better programs for young people will do more good than merely beefing up the local police force

A carefully drawn cross section of the adult public was asked

"What do you think are the three or four major things that contribute to crimes—that is, the main reasons people become criminals?"

Implicit in what people say is a rejection of the idea that there is a criminal type in society who cannot be redeemed

This is most evident in people's replies to the question

"Leading authorities on crime feel there are two ways to reduce crime One way is to head off crime by working with young people to show them that nothing can be gained through a life of crime Another way is to strengthen our law enforcement agencies to make it harder for criminals to get away with crime While both ways might be desirable, if you had to choose, which one would you favor trying to stop criminals before they begin or strengthening the police force to crack down on crime?"

SEPARATION OF POWERS

The powers of state government are legislative, executive, and judicial Persons charged with the exercise of one power may not exercise either of the others except as permitted by this Constitution

Third, That Section 1 of Article IV is repealed.

~~SECTION 1. The legislative power of this State shall be vested in a Senate and Assembly which shall be designated "The Legislature of the State of California," but the people reserve to themselves the power to propose laws and amendments to the Constitution, and to adopt or reject the same, at the polls independent of the Legislature, and also reserve the power, at their own option, to so adopt or reject any act, or section or part of any act, passed by the Legislature. The enacting clause of every law shall be "The people of the State of California do enact as follows:"~~

~~The first power reserved to the people shall be known as the initiative. Upon the presentation to the Secretary of State of a petition certified as herein provided to have been signed by qualified electors, equal in number to eight per cent of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law or amendment to the Constitution, set forth in full in said petition, the Secretary of State shall submit the said proposed law or amendment to the Constitution to the electors at the next succeeding general election occurring subsequent to 130 days after the presentation aforesaid of said petition, or at any special election called by the Governor in his discretion prior to such general election. All such initiative petitions shall have printed across the top thereof in twelve-point black-face type the following: "Initiative measure to be submitted directly to the electors."~~

~~Upon the presentation to the Secretary of State, at any time not less than ten days before the commencement of any regular session of the Legislature, of a petition certified as herein provided to have been signed by qualified electors of the State equal in number to five per cent of all the votes cast for all candidates for Governor at the last preceding general election, at which a Governor was elected, proposing a law set forth in full in said petition, the Secretary of State shall transmit the same to the Legislature as soon as it convenes and organizes. The law proposed by such petition shall be either enacted or rejected without change or amendment by the Legislature, within forty days from the time it is received by the Legislature. If any law proposed by such petition shall be enacted by the Legislature it shall be subject to referendum, as hereinafter provided. If any law so petitioned for be rejected, or if no action is taken upon it by the Legislature, within said forty days, the Secretary of State shall submit it to the people for approval or rejection at the next ensuing general election. The legislature may reject any measures so proposed by initiative petition and propose a different one on the same subject by a yea and nay vote upon separate roll call, and in such event both measures shall be submitted by the Secretary of State to the electors for approval or rejection at the next ensuing general election or at a prior special election called by the Governor, in his discretion, for such purpose. All said initiative petitions last above described shall have printed in twelve-point black-face type the following: "Initiative measure to be presented to the Legislature."~~

~~The second power reserved to the people shall be known as the referendum. No act passed by the Legislature shall go into effect until ninety days after the final adjournment of the session of the Legislature which passed such act, except acts calling elections, acts providing for tax levies or appropriations for the usual current expenses of the State, and urgency measures necessary for the immediate preservation of the public peace, health or safety, passed by a two-thirds vote of all the members elected to each House. Whenever it is deemed necessary for the immediate preservation of the public peace, health or safety that a law shall go into immediate effect, a statement of the facts constituting such necessity shall be set forth in one section of the act, which section shall be passed only upon a yea and nay vote, upon a separate roll call thereon; provided, however, that no measure creating or abolishing any office or changing the salary, term or duties of any officer, or granting any franchise or special privilege, or creating any vested right or interest shall be construed to be an urgency measure. Any law so passed by the Legislature and declared to be an urgency measure shall go into immediate effect.~~

~~Upon the presentation to the Secretary of State within ninety days after the final adjournment of the Legislature of a petition certified as herein provided, to have been signed by qualified electors equal in number to five per cent of all the votes cast for all candidates for Governor at the last preceding general election at which a Governor was elected, asking that any act or section or part of any act of the Legislature be submitted to the electors for their approval or rejection, the Secretary of State shall submit to the electors for their approval or rejection, such act, or section or part of such act, at the next succeeding general election occurring at any time subsequent to thirty days after the filing of said petition or at any special election which may be called by the Governor,~~

~~in his discretion, prior to such regular election, and no such act or section or part of such act shall go into effect until and unless approved by a majority of the qualified electors voting thereon; but if a referendum petition is filed against any section or part of any act the remainder of such act shall not be delayed from going into effect.~~

~~Any act, law or amendment to the Constitution submitted to the people by either initiative or referendum petition and approved by a majority of the vote, cast thereon, at any election, shall take effect five days after the date of the official declaration of the vote by the Secretary of State. No act, law or amendment to the Constitution, initiated or adopted by the people, shall be subject to the veto power of the Governor, and no act, law or amendment to the Constitution, adopted by the people at the polls under the initiative provisions of this section, shall be amended or repealed except by a vote of the electors, unless otherwise provided in said initiative measure; but acts and laws adopted by the people under the referendum provisions of this section may be amended by the Legislature at any subsequent session thereof. If any provision or provisions of two or more measures, approved by the electors at the same election, conflict, the provision or provisions of the measure receiving the highest affirmative vote shall prevail. Until otherwise provided by law, all measures submitted to a vote of the electors, under the provisions of this section, shall be printed, and together with arguments for and against each such measure by those in favor of, and those opposed to, it shall be mailed to each elector in the same manner as now provided by law as to amendments to the Constitution, proposed by the Legislature, and the persons to prepare and present such arguments shall, until otherwise provided by law, be selected by the presiding officer of the Senate.~~

~~If for any reason any initiative or referendum measure, proposed by petition as herein provided, be not submitted at the election specified in this section, such failure shall not prevent its submission at a succeeding general election, and no law or amendment to the Constitution, proposed by the Legislature, shall be submitted at any election unless at the same election there shall be submitted all measures proposed by petition of the electors, if any, be so proposed, as herein provided.~~

~~Prior to circulation of any initiative or referendum petition for signatures thereof, a draft of the said petition shall be submitted to the Attorney General with a written request that he prepare a title, and summary of the chief purpose and points of said proposed measure, said title and summary not to exceed one hundred words in all. The persons presenting such request to the Attorney General shall be known as "proponents" of said proposed measure. The Attorney General shall preserve said written request until after the next general election.~~

~~Any initiative or referendum petition may be presented in sections, but each section shall contain a full and correct copy of the title and text of the proposed measure. Each signer shall add to his signature his place of residence, giving the street and number if such exist. His election precinct shall also appear on the paper after his name. The number of signatures attached to each section shall be at the pleasure of the person soliciting signatures to the same. Any qualified elector of the State shall be competent to solicit said signatures within the county~~

~~or city and county of which he is an elector. Each section of the petition shall bear the name of the county or city and county in which it is circulated, and only qualified electors of such county or city and county shall be competent to sign such section. Each section shall have attached thereto the affidavit of the person soliciting signatures to the same, stating his own qualifications and that all the signatures to the attached section were made in his presence and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be, and no other affidavit thereto shall be required. islature to reconvene and reconsider measures submitted to the Governor during the last ten days of a general session (Sundays excepted) which he fails to sign, and since said amendment did not propose any other change in the length, duration or scope of general or budget sessions of the Legislature, it is the intent of the Legislature, if both Assembly Constitutional Amendment No 90 and Assembly Constitutional Amendment (Revision) No 13, 1966 First Extraordinary Session, are approved by the electors, that both shall be given effect regardless of the vote by which they are approved and that their provisions be construed together so as to give effect to both in the following manner

Fourth, That subdivision (a) be added to Section 10 of Article IV thereof, to read:

(a) Each bill passed by the Legislature shall be presented to the Governor. It becomes a statute if he signs it. He may veto it by returning it with his objections to the house of origin, which shall enter the objections in the journal and proceed to reconsider it. If each house then passes the bill by rollcall vote entered in the journal, two thirds of the membership concurring, it becomes a statute A bill presented to the Governor that is not returned within 12 days becomes a statute If the 12-day period expires during the recess at the end of a regular session, the bill becomes a statute unless the Governor vetoes it within 30 days from the commencement of the recess If the Legislature by adjournment of a special session prevents the return of a bill it does not become a statute unless the Governor signs the bill and deposits it in the office of the Secretary of State within 30 days after adjournment.

Sixth, That the provisions of the second resolved clause of this measure shall become operative only if the amendment to Article IV of the State Constitution proposed by Assembly Constitutional Amendment No 90 of the 1965 Regular Session are approved by a majority of the electors, in which case subdivision (a) of Section 3, Section 4, subdivision (c) of Section 8, subdivision (a) of Section 10 and subdivision (b) of Section 23 of Article IV of the Constitution, as appearing in the first resolved clause of Assembly Constitutional Amendment (Revision) No. 13, shall not become operative "

An act to add Chapter 15 7 (commencing with Section 19931) to Division 14 of the Education Code, to provide for the preparation, issuance and sale of state bonds to create a fund to provide aid to school districts of the state, defining the powers and duties of state officers in respect to the administration of the provisions hereof, providing ways and means for the payment of the interest of such bonds as such interest falls due, and also for the payment and discharge of the principal of such bonds as such principal matures, appropriating money for the purpose of carrying out this chapter, and providing for the submission of the measure to the people at a special election to be consolidated with the 1966 direct primary election.

[Approved by Governor April 20, 1966 Filed with Secretary of State April 21, 1966 Chapter 26]

The people of the State of California do enact as follows

SECTION 1 Chapter 15 7 (commencing with Section 19931) is added to Division 14 of the Education Code, to read:

CHAPTER 15 7 STATE SCHOOL BUILDING AID BOND LAW OF 1966

19931 This act may be cited as the State School Building Aid Bond Law of 1966

19932 The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter. All references in this chapter to "herein" shall be deemed to refer both to this chapter and such law.

19933 As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means State School Building Finance Committee, created by Section 19510

(b) "Board" means State Allocation Board

(c) "Fund" means State School Building Aid Fund

19934 The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred seventy-five million dollars ($275,000,000), in the manner provided in this chapter, but not in excess thereof Such debt or debts, liability or liabilities, shall be created for the purpose of providing a fund to be used, pursuant to statutes enacted or to be enacted by the Legislature, to aid school districts and county superintendents of schools in acquiring land, and in acquiring, by lease, purchase, or by any other appropriate means authorized by law, and in constructing buildings, equipment, and facilities, to be used for public school purposes. Such aid may be provided, pursuant to such statutes, in the form of grants or loans of money to

school districts and county superintendents of schools, or by the acquisition of buildings, facilities, and equipment by the state with subsequent sale, lease, grant, or other conveyance to school districts and county superintendents of schools, or by any combination thereof.

19935 All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum

On the several dates of maturity of said principal and interest in each fiscal year, there shall be transferred to the General Fund in the State Treasury, all of the money in the fund, not in excess of the principal of and interest on the said bonds then due and payable, except as herein provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity is less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of the fund as soon thereafter as it shall become available.

19936 All money deposited in the fund under Section 19611 of this code, pursuant to any other provision of law requiring repayments to the state for assistance financed by the proceeds of the bonds authorized by this chapter, and pursuant to the provision of Part 2 (commencing with Section 16300), of Division 4, Title 2, of the Government Code, shall be available only for transfer to the General Fund, as provided in Section 19935 When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest due and payable or paid from the General Fund on the earliest issue of school building bonds for which the General Fund has not been fully reimbursed by such transfer of funds.

19937 There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter, such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable

(b) Such sum as is necessary to carry out the provisions of Section 19938, which sum is appropriated without regard to fiscal years

19938 For the purposes of carrying out the provisions of this chapter the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter Any amounts withdrawn shall be deposited in the fund to be allocated by the board in accordance with this chapter Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter

19939 Upon request of the board, supported by a statement of the apportionments made and to be made under Chapter 10 (commencing with Section 19551) of Division 14, or under any other provisions of law authorizing assistance to be provided for public school purposes from the proceeds of bonds authorized by this chapter, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so the amount of bonds then to be issued and sold A sufficient number of bonds authorized under this chapter shall be issued and sold so that twelve million dollars ($12,000,000) will become available for apportionment on July 5, 1966, and a like amount on the fifth day of each month thereafter until a total of two hundred seventy-five million dollars ($275,000,000) has become available for apportionment However, if the board determines that an additional three million dollars ($3,000,000) is necessary, a sufficient number of bonds authorized under this chapter shall be issued and sold so that fifteen million dollars ($15,000,000), rather than twelve million dollars ($12,000,000), will become available for apportionment on the fifth day of any month after July, 1966 Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time

19940 In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last pre-

ceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day year basis

19941 The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer

19942 All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16774 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 19935 to pay principal and interest on bonds

19943 With respect to the proceeds of bonds authorized by this chapter, all the provisions of Chapter 10 (commencing with Section 19551) of Division 14 shall apply except

(a) Any reference in Chapter 10 (commencing with Section 19551) of Division 14 to "Section 16 5, Article XVI of the Constitution of this State" shall be deemed a reference to this chapter

(b) Any reference in Chapter 10 (commencing with Section 19551) of Division 14 to "Section 19704" shall be deemed a reference to "Section 19935"

19944 Out of the first money realized from the sale of bonds under this act, there shall be repaid any moneys advanced or loaned to the State School Building Aid Fund under any act of the Legislature, together with interest provided for in that act

19945 Notwithstanding any provisions in this chapter to the contrary, of the moneys made available by this chapter the sum of thirty-five million dollars ($35,000,000) shall be available, upon application of school districts, for any of the purposes following, or any combination thereof

(a) Acquisition and installation of portable classrooms

(b) Acquisition of land for school sites

(c) Construction of permanent school buildings and facilities

(d) Reconstruction, renovation and remodeling of existing school buildings and facilities
