scattered, but concentrated, in our minds, so at a given time, we may say, This one thing I do May we not be distraught with the multiplicity of decisions Give us the ability to be dedicated to our work Take from us tepid loyalties and divided interests May our involvement be total —AMEN

PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R. Ferguson:

Eternal God, Thou ground of our being, give us illumination that we seek Thy highest will in our prayers
We pray for strength that we may influence others,
We find weakness that we may experience humility.
We pray for wealth that we may be secure,
We often find poverty which brings richness of the spirit.
We pray for power that we may achieve prestige.
We find infirmity and experience the strength of God.
We pray for popularity that we may achieve status,
We find solitude that we can know ourselves
We pray for material things that we can enjoy life.
Thou has given us life that we can enjoy living.
Often our prayers are not answered according to our formulas, but finally we can see that all things work together for good to those who seek Thy will.
May Don Mulford have a fine recovery —AMEN

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr. Shoemaker was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, February 14, 1966

Honorable Winfield A Shoemaker
Assembly Chamber

Mistreatment of Children· Scope of Proclamation—No. 2394

Dear Mr Shoemaker.

QUESTION

You have asked whether the subject matter of Request No 2089 prepared for you is within the scope of the Governor's Proclamation convening the 1966 First Extraordinary Session

OPINION

The draft in question is within the scope of Item No 13 of the Governor's Proclamation

ANALYSIS

The draft in question would place public and private school superintendents and principals in the category of persons required to report suspected cases of mistreatment of a minor to the city police department, sheriff or district attorney, who, in turn, would be required to forward such reports to the State Bureau of Criminal Identification and Investigation The State Bureau would be required to maintain records of such reports and, on receipt of a report from a city police department, sheriff or district attorney, the State Bureau would be required to transmit all previous reports relating to the same family to the sender

In *Martin* v *Riley*, 20 Cal 2d 28, at page 39, the California Supreme Court stated.

". . . The duty of the Legislature in special session to confine itself to the subject matter of the call is of course mandatory It has no power to legislate on any subject not specified in the proclamation *(People* v *Curry*, 130 Cal 82 [62 Pac 516], *Swing* v *Riley*, 13 Cal (2d) 513, 518 [90 P. (2d) 313]) But when the governor has submitted a subject to the Legislature, the designation of that subject opens for legislative consideration matters relating to, germane to and having a natural connection with the subject proper *(Blackford* v. *Judith Basin County,* 109 Mont 578 [98 P (2d) 872, 877, 126 A L R 639], and cases cited) Any matter of restriction or limitation becomes advisory or recommendatory only and not binding on the Legislature *(People* v *District Court*, 23 Colo 150 [46 Pac 681]; *Long* v *State,* 58 Tex Cr R 209 [127 S W. 208, 21 Ann Cas 405]) . . ."

It is also to be noted that all presumptions are in favor of the constitutionality of any act passed by the Legislature during the special session, and such act will be held to be constitutional if by any reasonable construction of the language of the proclamation it can be said that the subject of the legislation is embraced therein *(Martin* v *Riley*, supra, p 40)

Item No 13 of the Governor's Proclamation reads as follows

"To consider and act upon legislation relative to the establishment of a system for gathering, storing, handling, and reporting information by the state and other government organizations"

The subject of this item is the gathering, storing, handling and reporting of information by governmental organizations. Since the draft in question specifically requires the reporting of information, suspected cases of child mistreatment observed by school superintendents and principals, and the forwarding to, and storing and handling of, such information by a state agency, we conclude that the subject matter of the draft in question is germane to Item No 13 of the Governor's Proclamation

Very truly yours,

GEORGE H MURPHY, Legislative Counsel

Mr. Waldie was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

OPINION OF LEGISLATIVE COUNSEL

Office of Legislative Counsel
Sacramento, February 15, 1966

Honorable Jesse M Unruh
Assembly Chamber

School Finance: Capital Outlay—No. 2984

Dear Mr Unruh:

QUESTION

You have asked whether the draft of a bill which we prepared for you under Request No 3040 relating to school finance would be within the scope of the Governor's Proclamation convening the 1966 First Extraordinary Session and may be considered and acted upon by the Legislature

OPINION

It is our opinion that the draft of a bill we prepared for you under Request No 3040 falls within the scope of Item 3 of the Governor's Proclamation convening the 1966 First Extraordinary Session, and may therefore be considered and acted upon by the Legislature at that session.

ANALYSIS

The draft of the bill in question would increase the states sales and use tax rate by 1 percent, from 3 to 4 percent

The draft also would make an extensive revision of the law pertaining to state support for operation of public schools for the 1966–1967 fiscal year, and fiscal years thereafter, by, generally speaking, providing that the increase in the state sales tax revenues would be used partly to increase state school support, and partly to substitute state revenues in lieu of local school district property tax revenues The draft would do this by (1) eliminating all permissive override taxes, other than for school district retirement contributions, required employer contributions for employee federal health insurance, bond interest and redemption, capital construction, repayment of state school building aid apportionments, and to effect decreases in state equalization aid; (2) increasing from $235 65 to $315 64 per average daily attendance the gross fiscal year maximum amount transferable from the General Fund to the State School Fund for public school support, with corresponding increase in allocation for equalization aid of $80; and (3) among other things, increasing the bonus for school district unification from $15 to $30 per average daily attendance

It is our understanding that the estimated statewide average daily attendance for the 1966–1967 fiscal year is approximately 4,500,000. Thus, the amount of state money which would be transferred to the State School Fund as a result of the increase in the state sales tax would be approximately $360,000,000.

Although there is no item of the Governor's Proclamation convening the 1966 First Extraordinary Session expressly relating to school financing, generally, Item 3 thereof relates to the financing of school district capital outlay projects and reads as follows.

"Item No. 3. To consider and act upon legislation relative to financing capital outlay for construction or improvement of public schools."

In this connection, the draft of the bill under consideration contains a number of specified findings and declarations by the Legislature, including the following

"Section 1 This act shall be known as 'The Property Tax Relief and Educational Improvement Act of 1966'

"Sec. 2. (a) The Legislature hereby finds and declares that the financing of public school capital outlay projects is interwoven with the financing of public schools generally, and that the solution of the one lies in the solution of the other

" * * *

"The Legislature also finds and declares that the solution of each of the problems specified in subdivision (b) [specified problems relating to school financing] will resolve the problem of the financing of school capital outlay projects by encouraging the maximum utilization of school facilities through increased school district unification, and encouraging local financing of school capital outlay projects by the use of the additional state funds made available herein, and through the restoration of the integrity of the local property tax base"

Pertinent here is the statement of our California Supreme Court in *Martin* v. *Riley*, 20 Cal 2d 28, where at page 39, it stated

"The duty of the Legislature in special session to confine itself to the subject matter of the call is of course mandatory It has no power to legislate on any subject not specified in the proclamation (*People* v. *Curry*, 130 Cal 82 [62 Pac 516], *Swing* v. *Riley*, 13 Cal (2d) 513, 518 [90 P (2d) 313]) But when the Governor has submitted a subject to the Legislature the designation of that subject opens for legislative consideration matters relating to, germane to and having a natural connection with the subject proper (*Blackford* v *Judith Basin County*, 109 Mont 578 [98 P (2d) 872, 877, 126 A L R. 639], and cases cited) Any matter of restriction or limitation becomes advisory or recommendatory only and not binding on the Legislature. (*People* v. *District Court*, 23 Colo 150 [46 Pac 681], *Long* v *State*, 58 Tex. Cr. R 209 [127 S W 208, 21 Ann Cas 405]) ."

It is also to be noted that all presumptions are in favor of the constitutionality of any act passed by the Legislature during the special session, and such act will be held to be constitutional if by any reasonable construction of the language of the proclamation it can be said that the subject of the legislation is embraced therein (*Martin* v *Riley*, above, page 40)

In *Martin* v *Riley*, supra, the court also pointed out that the Legislature could not be circumscribed in the enactment of any appropriate legislation within the field opened by the Governor's call (at page 40)

In the statement of findings quoted above, the Legislature would be expressly finding and declaring that the financing of public school

capital outlay projects is interwoven with the finances of public schools generally and that the solution of the one problem lies in the solution of the other problem. There would be a further express finding that the solution of a specified number of school financing problems would resolve the problem of the financing of school capital outlay projects by encouraging the maximum utilization of school facilities through increased school district unification, and encouraging local financing of school capital outlay projects (1) by the use of the additional state funds proposed to be made available by the act, and (2) through the restoration of the integrity of the local property tax base.

In view of these proposed express findings by the Legislature, and the holding and statements of the court in *Martin* v *Riley*, supra, we think that the provisions of the draft of the bill relate to, and have a natural connection with, the subject of Item 3 of the proclamation unless it can be shown that such findings are palpably wrong. We know of no facts which would show that such findings are wrong

Very truly yours,

GEORGE H MURPHY, Legislative Counsel
By Edward F Nowak, Deputy Legislative Counsel

CONSIDERATION OF RESOLUTION TO DISPENSE WITH CONSTITUTIONAL PROVISION RELATIVE TO ASSEMBLY BILL NO. 35 (RESUMED)

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Letter of Transmittal

Assembly Committee on Municipal
and County Government
February 21, 1966

Honorable Jesse M. Unruh
Speaker of the Assembly
Room 3164—State Capitol

Dear Mr. Speaker:

Your Committee on Municipal and County Government has finished a 5-months study of the operation and general administration of county assessors offices throughout the state This study was triggered by revelations during the late summer of 1965 involving alleged improprieties and criminal actions in assessors offices

In order to study the problem in depth and to develop a thorough record which would support legislative reforms, this committee held four major hearings during the fall of 1965 On January 27th, 1966, the committee met in executive session to review its record and to approve a statement of its findings and legislative recommendations

Since the matter of assessment reform has been placed before the First Extraordinary Session of the 1966 Legislature, the Municipal and County Government Committee transmits herewith its findings and recommendations together with a transcript of the committee record

As committee chairman, I shall endeavor during this special session to work with other legislative committees who have studied other

aspects of assessment practices toward the end of developing omnibus legislation to revise and reform current unsatisfactory conditions

Very truly yours,

JOHN T. KNOX, Chairman
Assembly Municipal and County
Government Committee

Municipal and County Government Committee
Assessors Investigation

STATEMENT OF FINDINGS AND RECOMMENDATIONS

FINDINGS

The committee investigation of county assessors offices was triggered by allegations during the Fall of 1965 that various county assessors and members of their staffs were giving preferential personal property assessments to businesses in return for campaign contributions, bribes, kick-backs and other improper considerations

Leaving to appropriate local authorities the task of investigating specific charges against particular individuals, this committee undertook to examine the existing statutory and constitutional provisions which regulate the administration of assessors offices, especially those regulations applicable to the assessment of business personality The committee's objective was to determine whether existing law provides a climate within which such property might escape assessment with impunity

After four extensive hearings and full consideration of carefully selected case studies, *this committee finds that existing law does indeed provide a climate of administration which encourages disparities and irregularities in personal property assessments throughout California At times the lack of checks and balances in existing law has functioned as an open invitation to fraud*

The committee makes the following specific findings in regard to weak administrative procedures which have permitted escapement and under-assessment of property·

1 Conservatively estimated by the Attorney General's Office, property which annually escapes assessment in California is an amount sufficient to yield $200 million in tax revenues to California local governments

2 Personal property assessment in California is conducted largely on a "self-reporting" basis, i e, businesses file annual property statements with the assessor indicating the extent of their personal property Vital to the operation of such a system is a local audit program which insures that full and accurate data are reported to the assessor Unfortunately, only a very few assessors have regular or effective audit programs which review the accuracy of property statements

3 Existing audit programs are hampered by the practice of interstate and intercounty businesses of keeping relevant books and records only at their home offices To conduct an effective audit under such circumstances, an assessor must send his staff to the home office of the business to examine appropriate records Case studies have indicated that where assessors have not provided

for auditing of out-of-state firms, millions of dollars of taxable property often go unreported and thus escape assessment

4 The effective statute of limitations on property which has escaped assessment is three years In many instances, this period is too short to be reasonably correlated with results of a comprehensive local audit program

5 The present law is unclear whether an assessee may be held penally responsible for deficiencies in his property statements if the statements have been prepared by an independent tax agent or consultant

6 Elaborate statutory provisions in regard to the secrecy and confidentiality of assessment records have inhibited duly authorized investigations by law enforcement agencies

7 Present law does not contain effective conflict-of-interest provisions which would prohibit a county assessor or members of his staff from providing property management services or tax consultant advice which would be inappropriate or incompatible with his position

8. Although the State Board of Equalization obtains from its intercounty equalization duties much information which indicates whether local assessors are assessing fairly and equitably, the Board does not have a specific statutory mandate to report instances of gross assessment disparities to local or state authorities or to comment thereon

9. Finally, existing assessment procedures do not provide sufficient information so that assessees can fully understand the basis of their assessments Typically, an assessee is advised only of the assessed value which has been assigned to his property He is not aware of the assessor's appraisal of his property or of the ratio which the assessor has applied in order to arrive at the assessed value

In addition, present statutory provisions in regard to local boards of equalization tend to overburden local boards of supervisors and to provide inadequate time for full and complete consideration of all protests

CONCLUSIONS AND LEGISLATIVE RECOMMENDATIONS

The deficiencies which this committee has observed in the administration of county assessors offices, together with recent allegations and investigations of improprieties in several counties, have seriously undermined public confidence in the equity of local assessment procedures

Immediate legislative action is required, both to eliminate deficiencies and ambiguities in the statutes governing the administration of local assessors offices and to provide additional safeguards to insure fair and equitable administration of the assessment function

Since other legislative committees are currently studying property tax reform, it is unequivocally stated here that the present recommendations of the Municipal and County Government Committee are *not* to be construed as a substitute for property tax reform The committee recommendations are designed solely to strengthen the administration of the local assessment function As such, the recommended reforms are essential and germane irrespective of any specific tax reform legislation

Parenthetically, however, the committee wishes to indicate that its investigations have demonstrated the urgent need for a uniform state-wide assessment ratio In this regard, the committee submits its investigations as additional evidence in support of the efforts of the Assembly Revenue and Taxation Committee to enact legislation requiring such a state-wide ratio

In order to curtail potential opportunities for under-assessment and escapement of assessment, and also to provide assessees with a more equitable procedure for protesting unfair assessments, the committee makes the following specific legislative recommendations

A IMPROVING THE LOCAL ASSESSMENT FUNCTION

1 Assessors should be required to conduct a regular audit, at least once each five years, of the personal property statements of all businesses owning personal property with an assessed value of $10,000

2 Every interstate and intercounty corporation should be required to keep or to make available, within each county in which it maintains taxable property, true copies of all records relevant to property and business activities in that county

3 The statute of limitations for the assessment of escaped property, should be lengthened to provide the assessor with a five-year period during which escaped property may be added to the tax roll In the case of fraud the statute of limitations should begin to run from the discovery of the fraud

4 A specific statutory penalty must be set to apply to escaped assessments The committee recommends a statutory penalty of 50 percent of the assessed value of the escaped property for initial escapements; 100 percent of the assessed value of the escaped property for subsequent escapements

5 All property statements should be required to be signed by the assessee under oath In the case of a corporate property owner, an officer of the corporation should be required to sign all property statements

6 Property statements and other local assessment records should be open to law enforcement officials and other duly authorized governmental agencies which request information pursuant to official investigations or studies This same policy should also extend to State Board of Equalization records in regard to local property assessment

7 The assessor should be required to notify each assessee of the appraised value of his property and of the assessment ratio which has been applied to that value in making the determination of assessed value

8 Conflict-of-interest laws should be strengthened to prohibit assessors or their assistants from employment incompatible with their official duties

9 The assessor should be provided with appropriate legal machinery to enable him to obtain property records and other relevant information from reluctant assessees

10 Assessment appeals boards should be authorized for all counties, to be created by county ordinance Smaller counties, in which

the services of full-time local assessment appeals boards may not be practical, should be authorized to contract with the State Board of Equalization, or with neighboring counties, for the services of a professional assessment appeals panel

11 To provide greater flexibility in the administration of the local assessment function, the assessor should be authorized, upon approval of the board of supervisors, to employ auditors and legal counsel on a contract basis

B INCREASED STATE SUPERVISION OF THE LOCAL ASSESSMENT FUNCTION

1 The State Board of Equalization should be directed to examine and report periodically upon the manner in which local assessors are assessing property In this connection the State Board of Equalization should make use of information obtained in pursuit of its intercounty equalization duties together with other local records which may be helpful or necessary to the purpose of their inquiry.

2 In preparing its intercounty equalization sample, the State Board of Equalization should conduct an audit of the original books and records of out-of-state businesses This procedure will insure that the books retained by such businesses within each of the separate counties remain "honest"

3 The State Board of Equalization should be directed to prescribe detailed and uniform requirements for business property statements to be used by all counties

In conclusion, the committee notes that it specifically rejects suggestions for registration or licensing of property tax agents or consultants Although a registration program alone would involve a minimum of statement expense, in itself it would serve no genuinely useful purpose On the other hand, a state licensing program would involve significant state expense and would *not* directly improve the administration of local assessments The best guarantee of "honest" reporting on personal property statements is to require local assessors to audit such statements regularly and to make each assessee directly responsible for any discrepancies or irregularities uncovered thereby

SACRAMENTO—A large number of California assemblymen will not seek reelection this year.

Most of those departing the lower house are doing so to try for the new senatorial seats provided by reapportionment Some are leaving because of health, age or various personal reasons.

But the departure of two able, hard-working members—one a Democrat, the other a Republican and each an expert in a highly complex field—should disturb California's citizens

The Republican is Assemblyman Houston I Flournoy of Claremont, a Pomona College professor The Democrat is Charles Garrigus of Reedley, a junior college instructor

Both have been invaluable in handling important and expensive education legislation

California simply doesn't pay a salary sufficient to permit these men to continue in public life and adequately care for their families Yet we, their employers, demand so much of their time they can't make enough money from their teaching professions to do the job, either.

California legislators receive $500 a month They do have generous fringe benefits, such as pensions, but these are hardly edible at the family table now. They also receive travel and expense reimbursement but only occasionally do they come out ahead on these items

The nation's largest state with the nation's largest budget does not come close to paying the largest legislative salaries Compare California's $6,000-a-year with New York's $10,000 plus $2,500 in expenses and $5,000 extra for the Senate president protem and Assembly speaker, or Massachusetts' $7,800 annual salary.

In a report released today, the California Constitutional Revision Commission declares the task of a lawmaker in this state now is a full-time job The commission suggests that the present salary be removed from its frozen place in the Constitution

Instead, the Legislature would set the salary rate, subject to veto by the Governor and referendum or initiative action by the people Any raises voted could not take effect during that term of office

The commission offers some shocking facts to support its proposal

Twenty-three California counties pay their supervisors more than we pay state legislators—yet only one county considers its supervisors full-time servants

Consistent refusal of the voters to increase legislative pay has not provided measurable dollar savings for the state All legislative salaries combined amount to less than one-fiftieth of one percent of the state budget

Since 1954, when the lawmakers got their last wage boost, California's population has increased 48 percent, the number of legislative days in budget session years has increased 154 percent and the length of general sessions has gone up 34 percent

Unless California voters act, there will be more departures of able, experienced men handling billions of their dollars

Governor's Office, Sacramento

Statement and Recommendations of
GOVERNOR EDMUND G BROWN
On An Information System
(Transmitted to the California Legislature—Monday, February 21, 1966)

To the Senate and Assembly of the Legislature of California

Our generation is in danger of disappearing under an avalanche of paper
This paper is fallout from a silent but powerful explosion—the knowledge explosion

Never in history has the citizen, the businessman, the student, the farmer, the educator, the scientist, the legislator, the government leader been armed with more knowledge with which to solve the problems he faces

But as the knowledge explosion has continued, we have taken only the most tentative steps toward controlling it, toward managing it most efficiently as a tool for intelligent planning and better decision making

To help us make better use of our information resources for the benefit of all Californians, I propose that we begin immediately to develop a statewide information system linking the operating agencies of state and local government

Such a system would make use of the latest and best technology in a comprehensive network for the collection, control and communication of information

The evidence is overwhelming that it would make possible more efficient operations, better research, improved planning and better decision-making in a wide range of state-local activities—education, crime and delinquency, health and welfare, highway engineering and many more

The alternatives to such a system are higher government costs, less efficient use of professional personnel, and most critical of all, needlessly handicapped planning and decision making

The statewide information system is the first legislative proposal to grow out of the four studies of social problems by California aerospace firms completed last year

The Lockheed Missiles and Space Company, which undertook the information study, disclosed such statistics as these

—If the current rate of manual paperwork growth continues in state and local government, the number of filing cabinets laid end-to-end would stretch by 1990 from Sacramento to Los Angeles.

—The documents filed would constitute a paper trail to the moon and back by 1974

—Present state information handling costs are approximately $538 million and will increase to approximately $1 8 billion by 1980

—Nearly 50 percent of state manpower activities are devoted to information handling activities of one kind or another

Does this mean that California is uniquely encumbered with red tape, paper work and reporting forms? Not at all

California's civil servants and managers have a deserved national reputation for their ability to administer programs efficiently, soundly and imaginatively

The knowledge explosion crosses all boundaries It is occurring not only in government everywhere, but in large businesses and large agencies generally—public and private

We have started dealing with the problem in California earlier than most public jurisdictions and many businesses. Our state, for example, has long been a leader in electronic data processing, and we now operate some 29 computers with 10 additional installations in the final planning stages

These modern devices—as countless businesses have discovered—can accomplish work that would otherwise require armies of new accountants, engineers, draftsmen and others working long hours They can accomplish it more quickly, more efficiently and with greater accuracy

I propose that we begin now to develop a system in which the computer and other data processing and communications equipment can be linked and uniformly programmed to do a better job both for the taxpayer and the government decision maker

This will permit the direct exchange of information between organizations on an automatic basis It will facilitate the sharing of information and eliminate file duplication. It will make possible better program evaluation It will assist the private business-man as he makes plans and projections

It will give us better and more up-to-date information on trends in our society It will help break down the historic tendency toward hardening of the information arteries in government and the compartmentalization of information by unit and agency

It will help suggest new and different solutions to a wide range of problems in this time of swift social and technological change

This proposal, though it may involve sophisticated equipment that most laymen only dimly understand, is neither magical nor mystical

I am proposing simply that we extend and apply in an orderly fashion modern information technology, which began with familiar calculators, adding machines and such basic communication instruments as the telephone and teletype

I am not suggesting that the network can be completed overnight The Lockheed study suggests that we evolve the system during a 10-year period But we will be receiving important dividends year after year and certainly even before a system is completely developed

I believe the Legislature at this session should declare it to be state policy to make maximum use of modern information and communications technology in a statewide information network

I propose that the Department of General Services, which has the responsibility in state government now in the general field of computers and information technology, be assigned the task of developing and operating the system

My budget contains an appropriation of $571,000 to begin this important work this year

What will be the total cost? Far less than our present methods Lockheed estimates that if we begin now, operating costs would begin in five years and stabilize at $13 5 million at the tenth year with full operational capabilities This compares

to an estimated $1 8 billion for information handling costs at the state level by 1980, according to the Lockheed estimates

There is strong local support for this proposal City and county governments see in it a way to render better service at reduced costs without loss of local home-rule prerogatives

The McCone Commission, whose investigation was limited to the Los Angeles riots of last summer, suggested creation of a countywide data bank to "centralize and standardize information and statistics which numerous federal, state and local agencies collect" Its report was critical of "needless waste, duplication and confusion" under the present system

At the federal level, a major study was made last year which culminated in a report to the President on the management of automatic data processing in the federal government Senator John L McClellan, chairman of the Committee on Government Operations, conveyed the report with these words

"No single technological advance in recent years has contributed more to effectiveness and efficiency in government operations than the development of electronic data processing equipment Most of the important advances that have been made in such diverse fields as space exploration, research of all types, weather forecasting and atomic energy would not have been possible without the computer In addition, there is the largely untapped area of integrated related information systems that cross organizational lines"

I believe that we must begin now to tap this area to which Senator McClellan referred We have the technological capability in California and we have the urgent need

California should begin now to develop a comprehensive information system in keeping with our leadership in the space age

Dear Mr Quimby

In reply to your request, we have prepared and enclose a bill dealing primarily with court reporters of the Ontario Municipal Court Section 3 of the bill (adding Section 73976 to the Government Code) has been revised to make it consistent with other sections of the bill by adding the words: ", in order to help defray the costs of reporting services, " This section provides for additional fees to be paid by litigants in civil actions or proceedings and that such fees be transmitted to the county treasurer

As so revised, it is our opinion that the bill is within the scope of Item 27 of the Governor's Proclamation Item 27 deals with "the number and compensation of court attaches and employees "

WHEREAS, Since August 1965, many insurance companies have increased their rates for various kinds of insurance on businesses and homes located in South Central Los Angeles, and

Governor's Office, Sacramento

Statement and Recommendations of
Governor Edmund G Brown

On Smog

(Transmitted to the California Legislature—Thursday, February 24, 1966)

To the Senate and Assembly of the Legislature of California

For years, California has led the nation's fight to sweep its skies clear of smog

We led in the formation of air pollution districts to control the discharge of aerial garbage into the atmosphere by industry

We pioneered in the development of new systems to curb the discharge of gasoline and carbon monoxide into the air by California's millions of automobiles

And yet, with our population growing by 6,000,000 new citizens and 5,000,000 new automobiles each decade, we have been running on a treadmill

By running as hard as the present state of technology permits, we have barely held our own.

I propose now that we step up the pace of our attack against smog, to explore new routes that may let us gain ground in this critical area

In 1959, when you and I first addressed ourselves to the smog problem, there was not a single deterrent on any California car which effectively controlled the tons of pollution pouring out of exhaust pipes

Today, more than half of California's motor vehicles are equipped with crankcase controls which keep an estimated 225,000 gallons of harmful gasoline out of the atmosphere each day

Today, approximately 350,000 new 1966 models are equipped with devices to reduce exhaust emissions and the number will grow with the years Already, 49,000 gallons of smog-producing gasoline each day and 700 tons of carbon monoxide are kept out of our air by these devices

When we began our fight against smog, there were air pollution control districts in five counties and the Bay Area Now, there are nine such districts covering 14 counties.

Then, the nature of the photochemical air pollution phenomenon recognized in the early 50's was not well understood Little information existed on motor vehicle emissions. No control devices were available Existing laws did not meet the problem

Our first task was to set a goal The State Department of Public Health did that, establishing standards for air quality and motor vehicle emission In 1960, we established the Motor Vehicle Pollution Control Board to search for a device that would give us the quality of air we sought

We were the first state to enact laws ordering action against smog created by the car We were the first to adopt air quality and motor vehicle emission standards, the first to test and certify crankcase control systems and exhaust control systems

We have, in short, forged ahead in scientific and technical understanding of the smog problem and in taking steps to deal with it The federal government adopted our plans for the nationwide fight against smog

But despite all we have done, air pollution continues to spread across the skies of this golden and unique state and into the lives of our people

Smog has the potential of havoc for our agricultural industry It can blight the natural beauty of our state and rob it of its uniqueness It can menace human health

More than 90 percent of the people of California live in counties where some type of air pollution is a problem Seventy percent of the population resides in two metropolitan areas most intensely affected by smog—the Los Angeles Basin and the San Francisco Bay Area

And the blight, as I have mentioned, is spreading out from the metropolitan areas into our countryside

In 1965, the Department of Public Health's standard for oxidant—the index of eye irritation, haze and plant damage—was exceeded in every region of California covered by our 16-station air monitoring network Every legislator should visit the University of California at Riverside and see the effect of smog on plant and animal life The University is doing a magnificent job

Further, the severe smog attacks of October were not confined to Los Angeles, where they were worse, but were felt over most of the state

Nearly half of the days in 1964 exceeded the health standard in Los Angeles, a third of the days in Riverside and San Bernardino counties There were many high smog days in the San Francisco Bay Area and the larger cities of the Central Valley Sacramento has exceeded the level of health safety for carbon monoxide more than once, in Los Angeles, carbon monoxide has exceeded the health standard nearly 100 times since 1960

The scientists and doctors of our Department of Public Health—unlike their colleagues in London and the East—have found no evidence that California smog causes death or disease But they have found serious health hazards posed by smog One is the high concentration of carbon monoxide in smog and its documented adverse effect upon body function Another is severe eye and respiratory irritation Another is the sheer discomfort impure air creates for all of us

I now propose that we redouble our efforts to block the further spread of smog in California with these actions

First, the budget I have submitted to you calls for an appropriation of $250,000 for research and development in the field of air pollution

Scientists repeatedly stress the need to know more about the effects of smog on human health There are elements of smog about which we do not know enough to set realistic, effective standards of tolerance High on this list of elements are nitrogen dioxide, certain hydrocarbons and aldehydes

A portion of this sum will go to the Department of Public Health for studies to close this critical knowledge gap From these studies we expect firmer bases for reviewing and amending present standards of air quality and motor vehicle emissions

The remainder of the $250,000 will be used by the Motor Vehicle Pollution Control Board as need money to finance new research in smog control There has not been, for example, full exploration of the possibility of developing a "clean" fuel which would produce less smog than current compounds Frequently, all but the largest corporations are discouraged from applying their talents to design and development of emission control systems because of the high costs of testing their work Additionally, our stake in solving the smog problem suggests that we should stimulate research into other ways of powering vehicles

Using this money to attract additional federal or private capital, it will be possible for the state to commence stimulating and encouraging new technical and scientific achievements of potential value to our efforts and benefit to our people

Second, I strongly urge that we move ahead in the field of legislation to control motor vehicle pollution of our air resources Through the Motor Vehicle Pollution Control Board, California has done the nation a service by convincing auto manufacturers to market exhaust and crankcase devices on new cars sold in California

We must now concentrate on the used cars on California's highways Of the 8½ million private vehicles in our state, we estimate 60 percent are more than six years old and are, in all likelihood, without any control devices

I also urge you to enact legislation that will

—Clarify the so-called "one device" approach to installation of exhaust devices on used cars We should require the earliest possible use of approved exhaust devices for used cars At the same time, we should protect the citizen consumer against a monopoly by the first firm to develop an acceptable device and guard against excessive costs I believe these goals can be met by authorizing the Motor Vehicle Pollution Control Board to certify for use the first acceptable device developed for installation on used cars, by limiting the cost of the device to $65, and by requiring the manufacturer to make his design available to other manufacturers for production and sale at a fair and reasonable price

—Require the State Board of Public Health to set standards for air quality on a statewide basis As long as an pollution in any county remained below the level set by the board automobiles would not need smog-suppression devices Once air pollution exceeded the level, vehicles in that county would automatically be covered by regulations relating to devices in other "smog" counties

—Require the installation of crankcase devices on used cars not already equipped in all "smog" counties upon transfer of ownership The State Department of Motor Vehicle advises us that more than 90 percent of the state's automobiles change hands every three to four years A more complicated procedure for installing devices on used cars would not achieve much more complete coverage than that

—Require installation of exhaust control devices on used cars in all "smog" counties upon transfer of ownership once such devices have been approved.

—Require annual, statewide inspection of exhaust and crankcase devices by licensed motor vehicle control stations and authorize the California Highway Patrol to check these inspections visually

—By resolution, urge local law enforcement officers to redouble their efforts to enforce statutes prohibiting excessive smoke emission by commercial vehicles, primarily those powered by diesel engines

I urge you also to schedule intensive interim hearings on all aspects of air pollution in California so that a full report may be made to the 1967 Legislature

We have reached a crucial juncture in our fight against air pollution in California. *Our struggle against the total pollution of our environment is a demanding and* strenuous one, subject to disappointments and setbacks. But it is one that we must pursue vigorously in the certain knowledge that, if we fail, the blessings of mobility which the automobile confers on us will become a curse for generations into the future.

House Resolution No. 72

Relative to the death of Mr Homer L. Duffy

WHEREAS, The Members of the Assembly have learned with the deepest regret of the recent passing of Mr Homer L Duffy; and

WHEREAS, Mr Duffy spent a lifetime in the service of his community of Pomona where he was widely known as "Mr Pomona" and the city's "First Ambassador of Good Will"; and

WHEREAS, He gave his wholehearted support to hundreds of civic, fraternal, charitable, and religious causes which led to the prosperity and betterment of the lives of all his fellow citizens, and

WHEREAS, He served with distinction for 48 years as a member of the Southern California Edison Company; and

WHEREAS, He was held in such high esteem by his fellow citizens that they dedicated the Garey Avenue railroad underpass to him among his many honors; and

WHEREAS, He served his country in the Seventh California Infantry in 1916, and

WHEREAS, He was responsible for the attraction of new business and industry to the City of Pomona while serving for many years as a "dollar-a-year" Chamber of Commerce Industrial Field Secretary; and

WHEREAS, He will long be remembered in the hearts of his fellow citizens as a man whose first thought was for others, now, therefore, be it

Resolved by the Assembly of the State of California, That the members express their deepest regret and sincere feeling of loss at the passing of Mr. Homer L Duffy, and extend their condolences to his widow, Mrs Ruth Brewer Duffy, and be it further

Resolved, That the Chief Clerk of the Assembly be instructed to transmit suitably prepared copies of this resolution to Mrs Ruth Brewer Duffy, and to Mrs Howard Malcolm Jenkins and Mr John L Duffy, children of Mr and Mrs Homer L Duffy

Resolution read, and referred by the Speaker pro Tempore to the Committee on Rules

By Assemblymen Milias and Alquist.

House Resolution No. 73

Relative to a study of adult education

WHEREAS, Although California led the nation in solving the problems concerning adult education for many years, since 1953 the adult learning program in California has all but submerged to a point of gradual extinction due to the gaps in legislative policy and the consequent gaps in financial support, and

WHEREAS, The Legislature has passed several laws in recent years, thus recognizing that adult schools and their classwork programs form an important segment of the educational system, and

WHEREAS, The following seven areas have never been evaluated in their relationship to adult schools and such an evaluation is necessary in order to formulate long-range policies in the area of adult education.

(1) Out of school youth.
(2) Basic education.
(3) Education of the foreign born
(4) Elementary education for adults
(5) High school education for adults
(6) Training for handicapped adults
(7) Retraining for adults.

and

WHEREAS, The making of current decisions and the formulation of long-range policy have been hindered because of the lack of knowledge concerning the above-stated seven items, the lack of information concerning federal funds, and the lack of data concerning the number of people currently enrolled, the number of people in need of these programs, and the number of classrooms necessary to house the students, and

WHEREAS, Economy may be achieved by providing that these programs be put under the control of unified or high school districts and not shifted to junior college districts, and even larger savings may be attained by the merging of existing districts into regional adult school programs, and

WHEREAS, Estimates now show that 350 classrooms will be needed by districts now on state aid, and that an additional 113 classrooms will be necessary for districts not on building aid (excluding San Francisco and Los Angeles), thus indicating the need for appropriations for the construction of classrooms, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is requested to refer for study to an appropriate interim committee of the Assembly the subject of the education of adults in elementary and secondary schools, and be it further

Resolved, That the Committee on Rules is requested to direct the committee to which such subject matter is referred to report its findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature.

Speaker Unruh was granted unanimous consent that the following communication, relative to the retirement of Assemblyman Don A Allen, be printed in the Journal

4905 Escalon Ave.
Los Angeles, Calif 90043
February 15, 1966

The Honorable Don A Allen, Sr.,
Assemblyman 63rd District
Sacramento, California

Dear Sir:

I learned with the deepest regret of the very sudden, shocking and disturbing news about your decision not to run for reelection as our Assemblyman for the 63rd district This news was more shocking to me than anything else since the sudden death of my mother some years ago

The many years of helpful guidance to state and country, and wise leadership of your community is a record of service which few men achieve It is also a record which deserves a sincere word of gratitude from those whom you have helped so generously during all these years of which I am one of the main benefactors

I doubt if any man of this state has contributed more to the progress of the city and state Legislature than you have contributed I am confident that no public servant has left behind him a finer record of loyalty and devotion to highest type of public service ideals

I can write and write, but I could not adequately reveal in words my true feeling of loyalty, and esteem for the greatest gentleman and statesman I have ever met in this great country

My appeal may be late, but I hope that if it is humanly possible that you could reconsider your decision We need you badly I would like to have the privilege to sit and talk over some matters of interest in your constituency with you

Please accept on behalf of my family and I, my personal best wishes for yours and Mrs Allen's good health, and continued success

Sincerely yours,

GILBERT G. WHITE

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Speaker Unruh was granted unanimous consent that the following excerpt from the Los Angeles Times be printed in the Journal·

Los Angeles Times
Wednesday Morning, March 2, 1966

Letters to The Times

Constitution Revision Group's Chief Wants Report Utilized

Thanks to The Times for its fine coverage of the presentation of the California Constitution Revision Commission report to the Legislature.

The citizens on the commission have been working for more than two years to accomplish the mandate of the people who in 1962 by a 2 to 1 vote, asked the Legislature to submit a revised constitution on an article by article basis

After an expenditure for staff, background studies and printing of more than $150,000, we feel that it would be a tragic waste of the taxpayers money and of

the time of the busy commission members, all of whom served without pay not to allow the Legislature to consider the report

If it is true that the governor wants to wait until 1967 before allowing the then almost completely new Legislature to look at the report, many of us feel that this is contradictory to his recently emphasized position that experience in state government is a valuable qualification for wise and sound decisions concerning our state

We agree that such experience is a valuable asset, and therefore point out that the present State Senate is meeting in its last session In 1967, undoubtedly more than one-half of its members will be freshmen That session promises to be an historically busy one with necessarily an uncertain membership

The only conclusion one can reach is that failure to allow this session to consider constitution revision will mean failure of the entire project and a rebuff to the people Such a tragedy is totally unnecessary What greater monument to the present Senate could be left than to present to the people a new constitution

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Elliott was granted unanimous consent that the following letter be ordered printed in the Journal

March 3, 1966

Honorable Jesse Unruh
Speaker of the Assembly
State Capitol, Sacramento

Dear Speaker Unruh

With your permission, Speaker Unruh, and authorized by Chairman James Mills and the Rules Committee, Assemblyman Jack Casey's Interim Committee on Social Welfare met in Los Angeles on January 19, 1966, to review the facts theretofore presented, and hear new statements bearing on Assemblyman John Burton's bill—that the Four Dollars ($4 00) increase in social security *should be a net gain* to each one who is receiving this Four Dollars ($4 00)—this return to each from their social security insurance fund

The request for the hearing—and for opportunity to present the 32,000 petitions signed by the old folks of California was made by the California League of Senior Citizens to Committee-member Assemblyman Edward Elliott of the 40th Assembly District Therefore may I thank you and Assemblyman Elliott formally on behalf of myself and also the California League for having provided this forum

The proponents told why they wished *to truly gain back* the Four Dollars ($4 00) which had been deducted from their wages during their productive years, and placed into the national insurance fund the Social Security

During the all-day meeting on January 19th the opponents also spoke Again the summation of their testimony was that no one should ever gain Four Dollars ($4 00) unless everyone who drew a check from any state and category should gain Four Dollars ($4 00) too

Speaker Unruh, those who assisted your committee must also be thanked And I can state that the California League of Senior Citizens is very grateful to the attaches of the State Assembly, and to the state employees who helped the 650 blind, aged, and disabled as they filled Assembly Hall, Room 115, and thronged the corridors of the Old State Building in Los Angeles on the day of the hearing

Mr Sam R Smith, Area Building Manager, Sergeant C C Hughes of the California State Police, and Officer P T Sanders did an unbelievable job in preventing

inquiries by directing the bus-loads of arrivals, and guiding the movement of groups in the lobby and in the corridors, and in supplying the hundreds of folding chairs for the convenience of the old folks

Many thanks—again—Speaker Unruh

Very truly yours,

BERNARD R. BRADY for the Trustees of the California League of Senior Citizens
MYRTLE WILLIAMS, Chairman
FRANK GARDNER, Vice Chairman
GEORGE McLEAN, JR., Secretary-Treasurer

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Thomas was granted unanimous consent that the following communication from the Auditor General be printed in the Journal.

Office of the Auditor General
Sacramento, March 4, 1966

The Honorable President of the Senate
The Honorable Speaker of the Assembly
The Honorable Members of the Senate and
the Assembly of the Legislature of California

SIRS We have reviewed the facts relating to state park concession contracts for the 1965 calendar year as we are required to do by Section 5019 26 of the Public Resources Code

Sections 5019 10 through 5019 26 specify generally the procedures to be followed by the state in entering into contracts for the operation of concessions in state parks Section 5019 26 requires the Auditor General to study all facts relating to those contracts and related documents and report annually thereon to the Legislature

Our review for 1965 covered four proposed concessions Of the four proposals, bids were received on three On the proposal upon which no bids were received, the Department of Parks and Recreation has proceeded to negotiate a contract as provided by Section 5019 23(a) For the three proposals for which bids were received, contracts are in the process of being awarded to the best responsible bidder as determined by the department

In our report to the Legislature for the 1964 calendar year, we reported that on all except one contract, which the department proceeded to negotiate as provided in Section 5019 23(a), the department was successful in finding acceptable concessioners The department is still continuing to seek an acceptable concessioner for the remaining concession All approvals of contracts referred to in the 1964 report have been obtained

As stated in our reports for the years ended December 31, 1963 and 1964, a contract for the Hearst San Simeon project had not been negotiated due to legal action initiated by local businessmen In the interim, a one-year contract was negotiated This contract, which provides services to the public through the use of semiportable facilities, has been renewed for an additional year to allow time to provide for the installation of adequate water and sewage facilities At the expiration of the renewal, the department will advertise for bids for a redesigned concession operation which, it is believed, will have overcome earlier objections of local businessmen

Effective May 19, 1965, the Director of the Department of Parks and Recreation created a Concession Contract Award Board whose duties are to recommend to the Director the "best responsible bidder" as defined in Section 5019 11 of the Public Resources Code This action should tend to assure that concession contracts are awarded fairly and in accordance with applicable statutes

Our review of procedures relative to proposing, advertising, and negotiating concession contracts indicated that the department is complying with the requirements of the Public Resources Code

Respectfully submitted,

WILLIAM H MERRIFIELD, Auditor General

Hon. Jesse M. Unruh, Speaker
and Members of the Assembly
State Capitol, Sacramento, California

Gentlemen: Section 75107 of the Government Code provides that whenever it appears that the money in the Judges' Retirement Fund is likely to become insufficient to pay all retirement allowances and other obligations of the fund which will become payable during the ensuing fiscal year, the State Controller shall report such to the Legislature at its next regular session for appropriation. The full text of § 75107 is attached.

At this time it appears that during 1966–67 the Judges' Retirement Fund will, on a cash basis, be about $240,000 less than the amount required to meet all retirement allowances and other obligations that are likely to become payable in that year. A schedule is enclosed showing the receipts, disbursements and balance in the fund as estimated for 1965–66 and 1966–67.

Under the provisions of § 75107 this is presented on a cash basis, relating to the cash requirements of the Fund to meet current obligations. (See, Budget, page 461.)

Los Angeles Minority Poverty Rises, Study Reveals

Washington—High unemployment, low incomes, sub-standard housing and a high percentage of broken homes are the way of life for Negroes and Mexican-Americans in Los Angeles, a Census Bureau study reported Tuesday

Reporting this, Andrew F Brimmer, assistant secretary of commerce for economic affairs, said that compared with the rest of the nation the economic status of both Negroes and Mexican-Americans in Los Angeles deteriorated sharply in the last five years

Brimmer, a member of the Presidential task force that investigated the Watts riots in south Los Angeles last August, called for the special Census Bureau survey as part of that investigation

The Los Angeles riots left 34 persons dead, more than 1,000 injured, and caused an estimated $40 million damage Nearly 4,000 were arrested Fire destroyed 200 buildings and another 600 were damaged by burning or looting

The survey's results, Brimmer said, revealed a consistent pattern throughout areas where Negroes and Mexican-Americans predominate "High unemployment, low incomes and a high percentage of broken families and substandard housing"

Brimmer, a Negro whose recent nomination to the Federal Reserve Board has been confirmed by the Senate, said the study showed one of every 10 male workers is unemployed in south Los Angeles, where 250,000 Negroes live

Nationally, the unemployment rate for nonwhite males dropped from 12 to 6% between 1960 and 1965, he said, but in south Los Angeles the rate dropped from 11 to 10%

Buying Power Off

The survey showed that purchasing power of the typical family declined by $400 during a period when the typical American family income rose 14%, Brimmer said, and the typical nonwhite family income jumped 24%

The census, financed by the Office of Economic Opportunity, covered 10 neighborhoods in the city—Central, Avalon, Exposition, Green Meadows, Watts, Florence, Willowbrook, Boyle Heights, City Terrace and East Los Angeles The report was based on data gathered from every 10th household in the area

In south Los Angeles, Brimmer said, median family income dropped 8% from $5,100 in 1959 to $4,700 in 1965 In East Los Angeles, which has a high percentage of Mexican-Americans, the drop was from $5,513 to $5,106

PRAYER

The following prayer was offered by the Chaplain, Rev. Robert R. Ferguson:

While dealing with laws which affect all people in our state, may we have some standard for our conduct

Guard us from seeing clearly the faults of others, but being blind to our own

Guard us from demanding a rigid standard of consistency from others which we don't consider for ourselves

Guard us from taking for granted all our colleagues do for us and not realizing what they do and how we can be.

Guide us toward a greater consistency in life. May the desire to run for office to benefit our state and nation be true at the depth of our inner being.

We are grateful for the services to our nation of John Baldwin. We pray that Thou would sustain his family and loved ones We know that death is not a terminal point, but only a launching platform into a greater life.

In Our Lord's Name —AMEN

WHEREAS, During the past decade the number of motor vehicles traveling on California's highways has increased tremendously, and

WHEREAS, Also on the increase is the number of motor vehicle accidents, both minor and major, which result in death, injury or property damage, and

WHEREAS, It has been suggested that some motor vehicles, because of their design or lack of safety devices, may be more prone to accidents than others, and

WHEREAS, Such information could form the basis for legislation to keep unsafe motor vehicles off our highways, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules be directed to assign to an appropriate interim committee for study the subject of this resolution, including, but not limited to, the possibility of some state agency keeping statistics on motor vehicle accident frequency by make and model, and to direct such interim committee to report its findings and recommendations to the Assembly on or before the fifth legislative day of the 1967 Regular Session of the Legislature

WHEREAS, High school students who become "Achievers" supplement their education with actual business "know how," learn how to work with others, and gain valuable insight which helps them choose a future career, and

WHEREAS, Through the efforts of the Mummers each year since 1961, Sacramento has thrilled to one of the grandest St Patrick's Day Parades this side of

Ireland, and the parade is financed entirely without aid of public funds but rather through the public spirit and generosity of Sacramento's Irish and non-Irish, and

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Chapel was granted unanimous consent that the following communication be printed in the journal

March 17, 1966

Honorable Edmund G. Brown
Governor of the State of California
State Capitol
Sacramento, California

Dear Governor Brown

I respectfully request that an appropriate item be added to the Proclamation convening the 1966 First Extraordinary Session to permit consideration by the Legislature of the State Military Reserve Act (Chapter 3 (commencing with Section 550), Part 2 of Division 2 of the Military and Veterans Code)

Such an item is necessary so that requisite legislative action can be taken to provide for the activation of the State Military Reserve and the maintenance of it in a state of readiness for possible use in situations of domestic emergency in the event the California National Guard should become unavailable due to federal activation

Recent instances in this state of armed insurrection, and the resultant loss of life and property stand as shocking proof that the State of

California must provide you as Commander-in-Chief of the state's military forces with the means to protect the citizens of the state from such insurrection or invasion if the need arises

Very truly yours,

CHARLES EDWARD CHAPEL

MESSAGES FROM THE GOVERNOR

The following message from the Governor was received and read:

Message to the California Legislature on
State Poverty Programs
By Governor Edmund G. Brown
Monday, March 14, 1966

Two short years ago, the United States embarked upon a campaign unique in history, a campaign to erase poverty from a nation

For many Americans, the campaign brought the shock of new recognition—almost discovery—that hunger, squalor, disease and despair are a way of life for millions of citizens in the wealthiest nation in the world.

Even Californians had to admit to themselves that some schools in the nation's best education system often fail to teach poverty's children to read or write. They found that even the most vigorous of all state economies didn't produce jobs for thousands of the unskilled.

The vast majority of us reacted as Americans always have. We gave our wholehearted support to vast new Federal investments in education, job training and other programs to give the poor a second chance to share in America's prosperity

In California, the poverty program was too late to prevent four violent days and nights of unforgettable and unforgivable rioting in one of the state's dozen areas of concentrated unemployment, illiteracy and hopelessness All California lost something in Watts—none more than the people of Watts themselves But we did not lose the war on poverty. As the McCone Commission observed in its report on the Los Angeles riots: "The problems are deep and the remedies are costly and will take time However, through the implementation of the programs we propose, with the dedication we discuss, and with the leadership we call for from all, our Commission states without dissent that the tragic violence that occurred during the six days of August will not be repeated"

I have already given you a broad outline of the actions I consider necessary—from legislation to strengthen the hand of law enforcement to proposals aimed at equalizing the educational and employment opportunities of the disadvantaged citizens of California in those areas where their very concentration accentuates the disadvantages, piling whole new social and economic problems on top of those which have been with us for decades

In this message, I propose to discuss my recommendations in detail and to stress once more the urgency of action not just in Watts, but in other areas of distress and tension throughout the state

Ours is not an easy task, either, in terms of writing legislation or carrying out its provisions We shall not see injustice wither in the face of good intentions or poverty vanish overnight because we want it to go away But we do know from the brief experience of the Federal poverty program that there are remedies which work, if we work imaginatively and positively Already hundreds of young men who, a few short months ago were school dropouts without skill or incentive, are leaving job corps centers around the nation to fill jobs and fulfill their promise as human beings Nearly half a million children, who have gone through classes of the Federal Headstart Program, now have their first chance for a fair start in school The United States Senator who says he has yet to meet a poor person who has been helped by the programs must have talked to very few poor people I suggest he begin with the parents of the 500,000 children who benefited under Headstart

The evidence is overwhelming that this nation is making progress in the most unselfish crusade in man's history, and will make far more

This message outlines several steps we can and should take to add the resources of California to the war on poverty But there is a legal limit to our power to act on some aspects of this crusade, and one exists in the crucial area of housing

The McCone Commission commends private groups working to reduce housing segregation I would go further I urge every citizen of this state, whether in private or public capacities, to join in these efforts

The State of California has a strong pioneer tradition. Our past frontiers were as varied as our geography Our water resources development has made an arid state first in agriculture Our juvenile court system has been copied throughout the world Our scientists led and lead the way to Space Our system of free public higher education is the finest in the world

We need now to turn a measure of this pioneering energy to human relations The human beings who are caught in the web of separation and poverty, as outlined by the McCone Commission, must be freed from that web and encouraged to develop their abilities I turn now to the immediate proposals for dealing with problems of poverty in California

o EMPLOYMENT· The McCone Commission found the most urgent need among the poor is for jobs For the illiterate and the unskilled, a willingness to work leads only to despair Today's increasingly sophisticated industries have no place for them

To help meet their needs, the State Department of Employment is establishing new skill centers in East Los Angeles, South Los Angeles, Pacoima and Oakland, four of the state's most critical areas of high unemployment and low skill Financed primarily under the federal Manpower and Development Training Act, these centers will invest $26,000,000 over a three-year period in training 10,000 men and women

But the program can succeed only if the graduates of these centers find jobs Most of them will be hired by private industry, which is cooperating fully with the skill center program For that small number which private industry cannot place immediately, I recommend an appropriation of $150,000 to guarantee a starting period of employment in state government The sum would increase substantially as graduating classes increase But if it is regarded as insurance, it is a small enough premium to pay for the success of the program.

I also recommend a small appropriation of $34,000 to the State Personnel Board to finance a pilot program of on-the-job training in state service for unskilled workers I am instructing our State Office of Economic Opportunity to work with units of local government and with private industry to develop and expand similar programs

Further, I shall continue to urge a national program of hiring the unemployed for various kinds of much needed work in government which is not now being done—work to conserve our natural resources, work to help hard-pressed teachers in our public schools, work in hospitals and other health facilities now understaffed and overburdened We estimate that there are 50,000 jobs at the federal, state and local level in California itself—productive jobs which will help society as well as the individuals involved

o EDUCATION The McCone Commission's findings with regard to education were shocking for a state which prides itself on having the finest system of public education in America In the entire area, two-thirds of the teenagers do not graduate from high school, and many of those who do graduate are still unable to read or write These failures reflect a school system which has not taken into account the special needs of the poor In the Commission's words "The same educational program for children of unequal background does not provide an equal opportunity for children to learn"

The child of illiterate parents—whose brothers and sisters are indifferent to knowledge, whose home is barren of books—is hopelessly behind from the minute he takes his first step into his first school

Experience shows that these children cannot learn until they want to learn and that requires special attention even before kindergarten

I therefore recommend a doubling of our present state program of pre-school compensatory education Combined with an increase in the federal Headstart program, this would give us substantial hope for a breakthrough at the pre-school level

At the elementary level, I recommend $12,000,000 in additional state aid to be used in reducing classes to a maximum of 25 students in distressed areas These funds should be made available on an average three-to-one matching basis which recognizes the relative ability of the districts concerned to participate

We should add to this $20,000,000 in school construction bond funds to provide the extra classrooms which smaller classes will require This classroom construction should be restricted where possible to portable facilities at existing school sites We should not institutionalize the present imbalance in our educational system with a permanent and expensive construction program in disadvantaged areas

As with all education, the success of these programs will depend, in the last analysis, on the teachers I recommend an appropriation of $555,000 to train teachers to deal with the special problems of disadvantaged children

Complementing these programs will be special services provided under the federal Elementary and Secondary Education Act and remedial reading programs under the Miller Act My 1966-67 budget proposes spending $9,000,000 to fund the Miller Act, which, as you know, is designed to make sure that every student with potential capacity learns to read before he leaves the third grade The Department of Finance estimates that approximately $8,000,000 of this amount will be spent in the disadvantaged areas

In Los Angeles, many elementary schools in the poverty areas have no cafeterias At most other schools—where the need is less urgent—cafeterias serve below cost meals to all children through the use of the federal food subsidy No child of the richest agricultural state in the nation should be required to study on an empty stomach I have asked the State Board of Education to make more effective use of federal school lunch subsidies by giving first priority in its use to schools where many children would otherwise not be fed adequately A similar problem exists with school libraries Areas which most need books frequently have the least adequate library facilities Again, I have asked the board to give first priority in the expenditure of federal moneys available for library support to schools in disadvantaged areas

On the higher education level, the federal Higher Education Act of 1965 will make approximately $40,000,000 available for loans and grants to needy students in the State of California Enabling legislation will be required to take advantage of these federal programs, and I recommend that such legislation be enacted

o SERVICE CENTERS The problems documented by the McCone Commission exist despite a large public expenditure for health, education, welfare, rehabilitation, and employment services in the State of California Obviously, the programs designed to lighten some of poverty's burden are not having their full impact I therefore propose the establishment of a series of state service centers in a dozen distressed areas in California There are several reasons for this

1 Employment is no longer simply a matter of matching established work skills against job order More and more, our task is not to find jobs, but to find ways to qualify people for jobs that are available Some need training or retraining, even

such basic training as learning to read and write Some need rehabilitation, either mental or physical Some need help in establishing that past offenses against the law do not necessarily make them poor employment risks Some need simple "on-the-job' work experience Some need more than one kind of help, and this requires coordination and cooperation of a new order among state employees and departments who, up to now, often have been concerned only with their own specialties An effective employment effort in the local community needs full support from training programs, public and private, from rehabilitative services, from apprenticeship programs, from parole officials, from public health, from mental hygiene, from welfare officials and many more These state service centers would provide many kinds of assistance, but their major emphasis would be to bring new resources into the battle to establish economic independence

2 Governmental programs have become increasingly fragmented and subject to long and sometimes debilitating bureaucratic journeys from the point of decision in Sacramento to the point of action in local areas These service centers would be directly responsible to the highest level of government—the governor and his cabinet—through the cabinet secretary They would be ideally designed to establish direct links to the people served and to break the strands of red tape between the Capitol and the community, and, just as important, to coordinate the activities of various state agencies as they affect one individual or one family

3 Government offices often are located many miles from the very people the offices were presumably created to help A welfare recipient with no car finds it difficult to use training and employment services when he must invest precious bus fare just to get to an office to ask whether he qualifies for help He needs help in his neighborhood

4 Even if government offices are located reasonably near the areas of need, they can present an array of state, local and federal bureaus, divisions, departments, agencies, sections and sub-sections which are enough to bewilder a well-informed citizen, let alone a victim of poverty with limited reading skill A single center with a single "intake" process can help him find his way.

5 And, finally, if a person in distress does succeed in finding the right office, there is often a well-founded tendency among the poor to distrust government institutions which too often create barriers between the government employee and the seeker of help.

We would, in short, substitute a one-door policy for what must seem to many of California's poor to be a revolving door policy

The meaningless jumble of official jargon and bureaucratic initials such as MDTA, OJT, OAS, would be replaced by real people offering real help

I recommend establishing such centers in South Central Los Angeles, East Los Angeles, Oakland, San Francisco, South San Diego, Venice-La Playa, Bakersfield, San Bernardino-Riverside, Long Beach, Fresno, Vallejo and Stockton

Every effort would be made to encourage local agencies to participate in such centers, agencies such as public schools, county hospitals, local law enforcement offices, district attorneys and public defenders, among others

The total cost of the centers which I recommend establishing at this time comes to $15 660,000 of which the federal government would pay $9,437,000, the Employment Contingency Fund $1,000,000 and the State General Fund $4,823,062

o CONSUMER PROBLEMS The McCone Commission paints a brief, depressing picture of the problems of the typical consumer in a poverty area Unable to read effectively, the consumer does not know how to get the most for his dollar, lacking transportation, he cannot follow the bargains, he is a frequent victim of the purveyors of "easy credit" who get his signature on contracts he can never hope to fulfill Worst of all, no help is available even when his legal rights are violated by his creditors The Neighborhood Legal Offices being established through the federal Office of Economic Opportunity will supply a much needed resource in this area I also recommend an appropriation of $50 000 for the Consumer Fraud Division of our State Department of Justice to enable the division to take action against unscrupulous operators who take advantage of the ignorant and the poverty-stricken

o LAW ENFORCEMENT The line between order and anarchy was shattered during the Los Angeles riot with an intensity that has seldom been equalled in our state Although the McCone Commission estimates that only two percent of the population was involved, the entire curfew area was under the control of rioters for substantial periods during the disorders An entire county of 6,000,000 people was shocked and terrified by the violence Such a breakdown in law and order cannot and will not be permitted again

Aside from the riots, the areas of disadvantage are characterized by exceptionally higher crime rates and higher recidivism rates than the rest of the state

Because of large caseloads, parole services are necessarily limited, resulting in limited supervision, controls and less effective case decisions

Chronic unemployment, marginal jobs and limited use of community resources

are major parolee problems in these depressed areas Many face extreme problems of family and social adjustment during the period of transition from institution to community living as well as during various parole crisis periods

I am proposing that we increase our parole services in these deprived areas to help improve community conditions, reduce crime and increase employment opportunities We must reduce the present caseloads to allow adequate time for the needs of individual cases

I also propose that we establish a community correctional center or "halfway house" for adult parolees in Los Angeles, and three such centers for youth offenders —in south-central Los Angeles, east Los Angeles and East Oakland

The estimated total cost of these programs and other related services for parolees is $856,000

Many underlying causes for the riots can be removed by the effective application of other recommendations set forth in this message

Effective corrective action on the policy level to carry out various other proposals by the McCone Commission can only be taken by the Mayor and City Council of Los Angeles and carried out by the Los Angeles Police Department

The State of California must also aid in this effort In that regard, I call your attention to the respect for law programs, which is part of the recommendations contained in my earlier message on crime prevention Increased respect for law is an essential ingredient along with the other programs set forth in this message, for the removal of the underlying causes for the Los Angeles riots Our cities must not be permitted to become asphalt jungles We cannot plan for and spend $2,000,000,000 on rapid transit systems in the Bay Area and Los Angeles only to see them become unsafe places for unprotected citizens to ride after dark All levels of government and all private groups active in these areas must combine in their efforts to inculcate in all our citizens those attitudes of respect for law and order which are the bedrock of our free society

The riot indicated the need for certain corrective action at the statewide level as well Better defined emergency procedures are being developed to control the use of state resources when there is a breakdown in the ability of local law enforcement officers to control emergency situations Legislatively, I have recommended that the penalties be increased for persons convicted of using or attempting to use incendiary devices such as Molotov cocktails to cause death or injury or for interfering with firemen in the performance of their duties I have also recommended the enactment of new emergency court procedures to facilitate the prompt handling of cases arising from massive arrests such as those resulting from the Los Angeles riots

These are far-reaching and urgent recommendations They deal with far-reaching and urgent problems

The McCone Commission found itself at the end of its exhaustive study of the rioting in Los Angeles "seriously concerned that the existing breach, if allowed to persist, could in time split our society irretrievably"

The actions I have outlined here will start to heal the split in our society, and more They will start us on the path toward a day in the near future when every citizen of our state will be a full participant in California life

Respectfully submitted,

EDMUND G BROWN, Governor

The following prayer was offered by the Chaplain, Rev Robert R Ferguson.

"Within my earthly temple there's a crowd,
There's one of us that's humble, one that's proud,
There's one that's broken-hearted for his sins
There's one that's unrepentant sits and grins,
There's one that loves his neighbor as himself,
And one that cares for naught but fame and pelf
From much corroding care I should be free
If I could once determine which is me"

Areawide School District Taxes—No. 4158

Dear Mr Shoemaker

Pursuant to your request, we have prepared the enclosed draft of a bill for introduction at the 1966 First Extraordinary Session of the Legislature

The bill would increase, for the 1966–1967 fiscal year, the areawide tax rate within the territory of a school district affected by an administrative error or omission involving a failure to levy areawide taxes at the applicable tax rate

Upon examination of the Governor's Proclamation convening the 1966 First Extraordinary Session, it is clear that the subject of this

draft falls within the scope of Item No. 28 of the Proclamation, which reads:

"Item No 28. To consider and act upon legislation relative to correcting administrative errors or omissions in counties with respect to tax levies for school districts"

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Veysey was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, March 13, 1966

Honorable Victor V. Veysey
Assembly Chamber

Indebtedness of Local Entities—No. 3770

Dear Mr Veysey:

QUESTION

You ask whether the amendment to Section 27955 of the Education Code to be made by Assembly Bill No 36, as introduced, of the 1966 First Extraordinary Session, is sufficiently clear in the matter of requiring that the result of the election therein dealt with shall be based upon the number of votes cast on the bond proposition and not the number of votes cast on the election

In this connection you ask whether the amendment prepared for you under our request No 3544 would be clarifying

OPINION

In our opinion Section 27955, as amended by Assembly Bill No 36, would be interpreted to require that the results of the election therein dealt with be based upon the number of votes cast on the proposition, rather than the number of votes cast at the election

Your proposed amendment would clarify the language and remove all doubt concerning the interpretation to be given the provisions

ANALYSIS

Assembly Bill No. 36 would amend a number of sections of the Government Code and the Education Code to reduce from two-thirds ($66\frac{2}{3}$ percent) to 60 percent the voter majority required to approve of the issuance of bonds by specified local agencies The operative effect of the bill would be contingent upon the adoption of a constitutional amendment to permit such reduction of the voter majority

The bill would amend Section 27955 of the Education Code in the manner following

"27955 The board of library trustees shall meet on the seventh day after the election, at 8 o'clock p m., and canvass the returns If it appears that *at the election* two-thirds of the votes cast ~~at the election~~ were cast in favor of issuing the bonds, or that ~~the election is a primary or general election and~~ 60 percent of the votes so cast ~~on the proposition are~~ *were cast* in favor of issuing the bonds *where the proposition of issuance of the bonds was submitted at the same time as a statewide primary or general election*, the board shall enter the fact upon its minutes and shall certify all the proceedings to the supervising board of supervisors Thereupon the board of supervisors shall issue the bonds of the district, in the number and amount provided in the proceedings, and the district shall be named on the bonds The bonds shall be paid out of the building fund of the district "

The sections preceding Section 27955 of the Education Code require that the board of trustees of a library district shall call an election and submit to the electors a proposition of whether bonds should be issued

(see Ed C, Secs 27951–27954) Since the amendment to Section 27955 would be worded in terms of the votes cast at that particular election, we think the interpretation given would be the same as if the language were worded in terms of the votes cast on the proposition

Your proposed amendment would insert into the second sentence, after the word "cast," the phrase "on the proposition" We think that this amendment would clarify the language, and remove all doubt as to the interpretation to be given

Very truly yours,

GEORGE H MURPHY

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson

Eternal God, our Father, Lead us outside the small orbit of our self concern into the limitless opportunities of service for Thyself and our fellow man While never avoiding issues because they are frustrating, give us a patient faith and inner joy which provide a foundation for life May we walk in Thy light rather than our darkness Give us the integrity to live what we believe
In Our Lord's Name—AMEN

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Winton was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, March 18, 1966

Honorable Gordon H Winton, Jr.
Assembly Chamber

Education of Physically Handicapped Minors—No. 4060

Dear Mr. Winton:

QUESTION

You ask whether the bill prepared for you under our Request No. 2069, pertaining to county taxes to be levied and collected to finance the education of physically handicapped minors by county superintendents of schools, could be considered and acted upon by the Legislature at the 1966 First Extraordinary Session

OPINION

In our opinion the bill prepared for you under our Request No 2069 could be considered and acted upon under Item No 49 of Proclamation of the Governor convening the 1966 First Extraordinary Session.

ANALYSIS

The bill in question would amend Section 8955 2 of the Education Code, to require the amount to be raised by county taxes for support of the education of physically handicapped minors by the county superintendent of schools, to be computed on the basis of the assessed valuation of the county area not formally participating in such an educational program, rather than on the basis of the assessed valuation of individual school districts

In *Martin* v. *Riley*, 20 Cal 2d 28, at page 39, the California Supreme Court stated:

". . . The duty of the Legislature in special session to confine itself to the subject matter of the call is of course mandatory It has no power to legislate on any subject not specified in the proclamation. (*People* v. *Curry*, 130 Cal 82 [62 Pac 516], *Swing* v *Riley*, 13 Cal. (2d) 513, 518 [90 P. (2d) 313]) But when the governor has submitted a subject to the Legislature, the designation of that subject opens for legislative consideration matters relating to, germane to and having a natural connection with the subject proper (*Blackford* v. *Judith Basin County*, 109 Mont 578 [98 P. (2d) 872, 877, 126 A L R 639], and cases cited) Any matter of restriction or limitation becomes advisory or recommendatory only and not binding on the Legislature. (*People* v *District Court*, 23 Colo 150 [46 Pac. 681], *Long* v. *State*, 58 Tex. Cr. R 209 [127 S W 208, 21 Ann. Cas 405].) . . ."

Considering the Proclamation of the Governor convening the 1966 First Extraordinary Session in relation to the proposed legislation in question, we find Item No 49 to be most pertinent It provides as follows:

"Item No. 49. To consider and act upon legislation relative to development centers for handicapped minors"

It is our opinion that a bill which changes the formula for computing the county taxes to be levied and collected to finance the education of physically handicapped minors by the county superintendent of schools, such as is proposed by the bill prepared under our Request No. 2069, involves a matter relating to, germane to, and having a natural connection with the subject of Item No 49 of the Governor's Proclamation, under the rule in *Martin v Riley*, supra

Very truly yours,

GEORGE H MURPHY
Legislative Counsel

WHEREAS, The most controversial issue of the many suggested revisions of working conditions for civil service teachers is the shorter work year proposal, and

Resolved by the Assembly of the State of California, That the Departments of Corrections, Youth Authority, Mental Hygiene, and Rehabilitation in cooperation with each other and the State Personnel Board are directed to study the feasibility of a shorter work year for civil service teachers and to determine what effect it would have on salaries, vacation time, paid holidays, sick leave credit, merit salary adjustment, retirement, and other benefits and to report their findings and recommendations to the Assembly not later than the fifth legislative day of the 1967 General Session of the Legislature

Eternal God, Give us ever a sense of Thy divine purpose for life so we fall not into futility and despair If we have an adequate Why, we can bear with any How
May Thy gift of tolerance keep us from condemning what we fail to understand
May Thy gift of considerateness allow us to appreciate others as much as we think of ourselves
May Thy gift of honesty, give us confidence so we need not wear masks, but live and act as we are.
We pray in our Lord's Name —AMEN

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Badham was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, March 23, 1966

Honorable Robert E Badham
Assembly Chamber

Welfare—No. 4353

Dear Mr. Badham:

You have asked for a summary of state law which requires that welfare records be kept confidential

Section 10850 of the Welfare and Institutions Code states:

"10850 Except as otherwise provided in this section, all applications and records concerning any individual made or kept by any public officer or agency in connection with the administration of any provision of this code relating to any form of public social services for which grants-in-aid are received by this state from the United States government shall be confidential, and shall not be open to examination for any purpose not directly connected with the administration of such public social service, provided, however, that any agency having custody of such records may make the disbursement records available to the district attorney upon his request The information thus obtained shall be made available to the district attorney for the official conduct of his office and shall not be used for any other purpose

"Except as otherwise provided in this section, no person shall publish or disclose or permit or cause to be published or disclosed any list of persons receiving public social services Except for purposes directly connected with the administration of public social services, no person shall publish, disclose, or use or permit or cause to be published, disclosed, or used any confidential information pertaining to an applicant or recipient Any violation of this paragraph is a misdemeanor.

"The department may make rules and regulations governing the custody, use and preservation of all records, papers, files and communications pertaining to the administration of the laws relating to

public social services The rules and regulations shall be binding on all departments, officials and employees of the state, or of any political subdivision of the state and may provide for giving information to or exchanging information with agencies, public or private, which are engaged in planning, providing or securing social services for or in behalf of recipients or applicants, and for making case records available for research purposes, provided, that such research will not result in the disclosure of the identity of applicants for or recipients of public social services

"Any person, including every public officer and employee, who knowingly secures or possesses, other than in the course of official duty, an official list or a list compiled from official sources, published or disclosed in violation of this section, of persons who have applied for or who have been granted any form of public social services for which state or federal funds are made available to the counties is guilty of a misdemeanor."

The section states that "all applications and records concerning any individual . . . in connection with the administration of this code and relating to any public service for which grants-in-aid are received by this state from the United States government shall be confidential."

The regulations issued by the Department of Social Welfare also state:

"C-022 10 Nature of Confidential Information

"Regulations provide that the names, addresses, and all information concerning the circumstances of persons for whom or about whom information is obtained is confidential This is true of all information, whether written or oral "

"C-022 20 Release of General Information

"The rule excludes general information not identifiable with particular individuals from the classification of confidential information Such information includes statements of the number of recipients, general social or statistical data about them (such as the majority of children aided are 12 years of age or less, etc) total expenditures and other information general in nature "

Also Regulation C-022 01 which gives the reasoning for the confidentiality of records should be noted It reads

"C-022 01 Objectives

"In W & I C 19 the Legislature expressed its intent that assistance be administered to the needy and distressed in such a way as to encourage their self-respect, self-reliance, and their desire to be good and useful citizens Assurance that the information which they give, and the facts about their circumstances, will be held in confidence is essential to the preservation of their dignity and self-respect, particularly when they reveal information under stress which they would not otherwise disclose

"Code Section 118 [now W & I C Sec 10850] implements the objective of confidentiality by protecting the rights of applicants or recipients and children against identification exploitation, and embarrassment, and possible prosecution or judgment, except when such action is taken in accordance with law."

It should be noted that Section 10850 of the Welfare and Institutions Code does not cover the release of information "directly connected with the administration of such public social service" The regulations make clear that release of confidential information to legislative committees in order that the effectiveness of the program can be determined or to the district attorney so that he may advise the grand jury, conduct prosecutions, and oppose unjust claims against the county is allowed (Sec C-022 25)

Very truly yours,

GEORGE H MURPHY
Legislative Counsel
By Edward K Purcell
Principal Deputy

You have asked whether the draft prepared under Request No 3880, which would increase the number of assistant court commissioners and law clerks, would be within the scope of the Governor's Proclamation convening the 1966 First Extraordinary Session. Amendment No. 1

On page 5 of the printed bill, as amended in Assembly March 24, 1966, between lines 29 and 30, insert

'19947 Notwithstanding the provisions of Section 19590 or any other provision of law to the contrary which may have heretofore been or may hereafter be enacted, a unified school district shall not be required to have any amount of outstanding bonded indebtedness in order to be eligible for a grant or loan out of funds made available by this chapter if it meets all of the following requirements

(a) The unified school district gives instruction in kindergarten and grades one through 12, inclusive, or in kindergarten and grades one through 14, inclusive

(b) The total units of average daily attendance credited to all schools of the unified school district for the fiscal year 1965–1966 was 60,000 or more, exclusive of adults as adults are defined by Section 5756

(c) The unified school district has held an election and the qualified electors of the district have authorized the district, as provided by law, to accept and expend an apportionment of funds from the State of California, pursuant to the State School Building Aid Law of 1952 or any similar law which may be enacted, or to commit the district to a specified total expenditure in connection with an agreement entered into pursuant to Section 19579 1 or any other similar law which may be enacted

(d) The Director of Compensatory Education determines, pursuant to Section 19948, that the unified school district includes schools which serve areas of substantial poverty and certifies such determination to the State Allocation Board

19948 Upon application of a unified school district, the Director of Compensatory Education shall determine whether the unified school district includes schools which serve areas of substantial poverty In making such determination the director shall use the following indices, together with any recognized indicia of poverty or disadvantage

(a) Median family income in the areas served by the schools

(b) The basic illiteracy rate in the area

(c) The scores of the schools on statewide achievement tests

(d) The rate of student drop-out in the schools

(e) The rate of population and, particularly, student, mobility in the schools

(f) The unemployment rate for the areas served by the schools

(g) The percentage of the population of each area dependent upon public assistance.

(b) The rate of felonious crimes in the areas served by the schools.

On the basis of such indices, the Director of Compensatory Education shall develop a formula, entitled "poverty index," approved by the State Board of Education, to determine the order of priority for grants or loans of funds made available by this chapter to unified school districts which the director determines include schools which serve areas of substantial poverty. The building and space standards adopted for these purposes shall not exceed the standards employed by the State Allocation Board in the regular State School Building Aid Program.

19949. No more than 8 percent (8%) of the total moneys made available by this chapter for grants or loans to school districts shall be made available to make any grants or loans to unified school districts as a result of the operation of Section 19947. Any money made available as a loan or grant under this chapter to a unified school district as a result of the operation of Section 19947 shall be used by the unified school district exclusively for capital outlay projects in the area of substantial poverty as determined by the Director of Compensatory Education, pursuant to Section 19948.

Any unified school district which receives a grant or loan out of funds made available by this act as a result of the operation of Section 19947 may defer the repayment of any amount of such loan or grant due in any fiscal year if it expended in the previous fiscal year for capital outlay purposes, including current capital expenditures and bond interest and redemption, a sum equivalent to fifty cents ($0.50) or more on each one hundred dollars ($100) of assessed valuation in the district. If the unified district does not operate a junior college, the equivalent tax rate levied for capital outlay purposes in the previous fiscal year by the junior college district operating within the unified district shall be added to that of the unified district computed under this paragraph in determining the unified district's eligibility for deferred payment under this section."

Mr Chappie was granted unanimous consent that the following communication be printed in the Journal

Teplow Clinical Laboratories
Oakland, March 28, 1966

State Assemblyman Eugene Chappie
Assembly Post Office, State Capitol
Sacramento, California

Dear Sir.

I have been reading with interest your concern in the operation of Squaw Valley I have also read the reactions of Mr Jones, State Director of Parks, and the comments of Governor Brown It is regrettable that charges of "politics" have arisen, particularly since personal ambition and political insecurities often influence honest judgments. Regrettable, since the safety and welfare of the thousands of skiers is in jeopardy

Since I own a home in Squaw Valley, we frequently use the equipment under investigation Being residents we are on familiar speaking terms with the operators of this equipment It is common knowledge among the employees and frequent visitors that the equipment is of poor quality, subject to frequent breakdowns, and that only due to a loyal and strangely dedicated handful of men are there only a few accidents and not more days of non-functioning equipment It is a fact that although more and more lifts are being installed, the maintenance crews have not been enlarged

The last incident which stimulated your investigation concerns the lift at Shirley Lake The design is so inadequate that any lay individual can recognize the engineering inadequacies. True, Mr Cushing saved money with this particular design, but the safety of my family is more important to me Incidentally, you might ask Mr. Cushing his own personal reaction to the ride he took one day on the KT 22 lift when it was stopped suddenly and he was almost thrown out of the chair at an elevation some 40 to 50 feet above the rocks

Speaking of personal safety, you might bring to the attention of your colleagues the paucity and dearth of ski patrollers in this area Some years ago, I had an accident on the slope in front of the first aid shack I lay there 45 minutes before I was brought down by a ski patroller Today with many more lifts and greater numbers of users the number of ski patrollers has not increased since the time of my accident

Please, be staunch in your endeavors Do not allow yourself to be bludgeoned by "higher ups" My family and many, many other families are deeply grateful to men like yourself who are helping to protect us from crass commercialism and irresponsible bureaucracy.

Sincerely yours,

ALEXANDER I TEPLOW

Mr. Cusanovich was granted unanimous consent that the following communication be printed in the Journal·

Office of Legislative Counsel
Sacramento, March 9, 1966

Honorable Lou Cusanovich
Assembly Chamber

Yuba County Water Agency—California Buy-American Act No. 3657

Dear Mr Cusanovich

QUESTION NO 1

Is the Yuba County Water Agency* subject to the so-called "California Buy-American Act"† (Gov C, Secs. 4300-4305, inclusive)?

OPINION AND ANALYSIS NO 1

Section 4303 of the Government Code specifies that the governing body of any political subdivision, municipal corporation, or *district,* and any public officer or person charged with letting contracts for construction, alteration, or repair of public works, or for the purchasing of materials for public use, may let contracts only to persons who agree to use or supply only such unmanufactured materials as have been produced in the United States, and only such manufactured materials as have been manufactured in the United States, substantially all from materials produced in the United States. (Emphasis added.)

*Hereafter referred to as the agency.
†Hereafter referred to as the Buy-American Act.

Section 1 of the Yuba County Water Agency Act (Ch. 788, Stats 1959) declares the agency to be a "district." As such, and since there is no provision in the Yuba County Water Agency Act exempting the agency from the provisions of the Buy-American Act, we think that it is clear that the agency is subject to such provisions

QUESTION NO 2

Would the agency be subject to the provisions of the Buy-American Act if it were given statutory authority to negotiate a contract for construction or performance of work with

(1) The bidder if only one responsive proposal is received for such contract?

(2) Successive next lowest bidders if it receives two or more responsive proposals and a contract cannot be executed with the lowest bidder?

OPINION AND ANALYSIS NO 2

In the absence of any provision in such legislation expressly exempting the agency from the provisions of the Buy-American Act, we are of the opinion that the agency would be subject to the provisions of the Buy-American Act whether it let a contract to the lowest responsible bidder, as provided under present law, or negotiated a contract under the authority conferred by such legislation

Very truly yours,

GEORGE H MURPHY
Legislative Counsel

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Marks was granted unanimous consent that following communication be printed in the Journal

1 Quartz Way, San Francisco, Calif
March 16, 1966

State Capital
Sacramento, Calif.

Dear Governor,

In regard to Assemblyman Chappie's charges of mismanagement and negligence in the operation of Squaw Valley, I would like to express my agreement in his urging you to make an investigation into the resort's management, and operation

As a sometime visitor at the resort, I would like to verify Assemblyman Chappie's allegations I feel that the safety measure taken there to insure the safety of skiers is less than adequate In particular, I would like to cite several things

1 Lift operators do not do an adequate job of holding the chair lifts in order to properly seat people in them

2 In support of this, I can point to an incident on the Gold Coast lift in late January when I saw a woman fall off of the chair at the loading station due to inadequate assistance by the lift operators

3 The guiding shoves are not kept in proper adjustment on the chair lifts This is evidenced by last Sunday's accident This is also verified by my own experience When riding a lift there one frequently hears strange sounds and excessive noises coming from the guiding apparatus on the lifts

4 All lift operators at Squaw keep an account of all things that happen during the operation of a lift This is done in a "log book" I saw an entry in the log book on the exhibition lift that said, "2 chairs got caught on tower, both demolished—no injuries" (thank God) What if someone had been on those chairs that day (in Dec or Jan '66)

5 Squaw Valley is a windy place I don't think that this is taken into account often enough by their management in the operation of the chair lifts, and gondola tram

6 The paid ski patrol is badly understaffed on weekdays To my knowledge there are only four or six paid patrolmen on the slopes during the week Often there are few if any volunteers to supplement this skeleton crew during the week days (Mon–Fri)

I sincerely hope that you will take Mr Chappie's comments very seriously, and take into account my criticism, especially points four and six I have heard about many close calls at Squaw Valley Some may be stories, but still, there is an overabundance of them floating around Please conduct this investigation I would be more than willing to lend my assistance to such a project I am a skier who would like to see Squaw, "cleaned up" It could save a life

Sincerely,

MICHAEL ABEL

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Chappie was granted unanimous consent that the following communication be printed in the Journal.

707 Gilbert Avenue
Menlo Park, Calif 94025
24 March 1966

Mr Fred L Jones, Director
California Division of Parks and Recreation
Sacramento, California

Dear Sir

According to an article printed in the *Palo Alto Times* on 23 March 1966, you have refuted a charge made recently by Assemblyman Eugene A Chappie (R, Cool) that ski facilities at Squaw Valley are unsafe, with the added statement that Mr Chappie does not have all the facts at his disposal

How many facts are required to bear out Mr Chappie's contention? I submit that even one well-documented case of serious personal injury attributed to equipment failure is sufficient to warrant an investigation into safety practices of the management at Squaw Valley Skiers accept the normal risk associated with their adopted sport, but they should not be faced with additional hazards posed by negligence on the part of management

As a victim of the Shirley Lake chair lift accident of 13 March 1966, having been rudely hurled 15 feet to the ground through no fault of my own nor by any act of God, I place myself squarely on the side of Mr Chappie Those less fortunate individuals who suffered broken bones in this affair will perhaps have even stronger opinions as to the safety of the facilities Management's lack of safety-consciousness was further demonstrated at the first aid station on the same occasion There I saw a ski patrolman slip and fall while assisting an injured girl

down the icy incline outside the entrance I was amazed that no one had thought of chopping steps and installing a guide railing

In spite of the apparent efforts of the Squaw Valley authorities to curtail unfavorable publicity (their reluctance to admit safety deficiencies is understandable), authenticated reports of accidents involving facilities at the resort seem to be circulating with increasing frequency in the skiing community Most notorious of these in recent weeks was the Head Wall lift fiasco, which occurred only a short time prior to the failure of the lift at Shirley Lake A loaded chair evidently became detached on the steepest part of the climb and slid back down the cable until it crashed into the occupants of the chair in the rear, causing major bodily injuries Surely this accident could have been prevented by proper safety precautions!

Because the Squaw Valley facilities utilize public lands, it is incumbent on public officials to discharge their regulatory responsibility Additional facts brought to light by a full investigation will, I believe, serve to emphasize the seriousness of Mr. Chappie's charge I urge you to visit the resort yourself, or if you have already done so, to repeat the exercise, preferably on a pair of skis It would help to interrogate not only management and professional ski patrolmen, who are paid by management, but also volunteer ski patrolmen and especially the skiing public The latter are the ones who will suffer most from management's disregard of safety

If the present owners of the Squaw Valley facilities cannot guarantee a modicum of safety to the users they should be disenfranchised It should be possible to offer fail-safe facilities and still turn a profit

Sincerely yours,

H RICHARD BLANK, JR

cc Assemblyman Eugene A. Chappie

PRAYER

The following prayer was offered by the Chaplain, Rev Robert R Ferguson:

Eternal God, As a great scientist said, "If you want to transport an idea, wrap it up in a person" Some of us believe You have done this so we could know something of Yourself Whether we believe or disbelieve, give us openness to our Lord's words

"Judge not, that ye be not judged" In all of our evaluations of others may we use the same criteria for ourselves

"It is more blessed to give than to receive" May we not strive to compound wealth for ourselves and overlook the poverty-stricken in our world May we share now, for we can't take it with us later.—AMEN

WHEREAS, Advanced planning work is now under way on the new California State Fair and Exposition to be located on the American River site and construction is scheduled to start this summer, and

State School Building Aid Bonds—No. 4733

Dear Mr. Unruh:

QUESTION

In connection with Assembly Bill No 100 (as amended March 28, 1966) of the 1966 First Extraordinary Session, you ask whether the eight percent of state bond proceeds to be available to certain large unified school districts for expenditure in poverty areas could, without the enactment of any further legislation, be made available to the districts by way of outright grant

OPINION

In our opinion the eight percent of bond proceeds to be expended under Assembly Bill No 100 in poverty areas within certain large unified school districts, *could not*, in absence of the enactment of further legislation, be made available to the districts by way of outright grant

ANALYSIS

Assembly Bill No 100 would add Chapter 15 7 (commencing with Section 19931) to Division 14 of the Education Code to authorize, upon approval of the state electorate, the issuance of $260,000,000 in state bonds to be expended for public school capital outlay purposes A statement of the general purposes for which the proceeds of the bonds are to be devoted, and the means by which they are to be provided to local public school agencies, is contained in proposed new Section 19934 It differs substantially from the comparable statements contained in the state school building aid bond laws enacted over the preceding decade or longer, which generally specified that the proceeds of bonds were to be devoted to provide aid to school districts under the State School Building Aid Law of 1952 (see Education Code, Secs 19854, 19873, 19894, 19912)

Proposed Section 19934 in the bill would require bond proceeds to be used:

". . for the purpose of providing a fund to be used, pursuant to statutes enacted or to be enacted by the Legislature, to aid school districts and county superintendents of schools in acquiring land, and in acquiring, by lease, purchase, or by any other appropriate means authorized by law, and in constructing buildings, equipment, and facilities to be used for public school purposes Such aid may be provided, pursuant to such statutes, in the form of grants or loans of money to school districts and county superintendents of schools, or by the acquisition of buildings, facilities, and equipment by the state with subsequent sale, lease, grant, or other conveyance to school districts and county superintendents of schools, or by any combination thereof "

In contrast to provisions in earlier bond laws directing that bond proceeds be allocated to school districts under the State School Building Aid Law of 1952, the provisions of proposed Section 19934 would leave the Legislature with broad power to enact laws *in the future* to provide financial assistance to local public school agencies from bond proceeds by a variety of means The Legislature would be authorized to provide aid in the form of *grants*, as well as by other devices

Some other provisions of the bill would make particular provision for the manner in which not to exceed eight percent of the bond proceeds are to be used These funds would be made available to certain unified school districts for projects in poverty areas In this connection proposed Section 19949 provides as follows

"19949 No more than 8 percent (8%) of the total moneys made available by this chapter for grants or loans to school districts shall be made available to make any grants or loans to unified school districts as a result of the operation of Section 19947 Any money made available as a loan or grant under this chapter to a unified school district as a result of the operation of Section 19947 shall be used by the unified school district exclusively for capital outlay projects in the area of substantial poverty as determined by the Director of Compensatory Education, pursuant to Section 19948

"Any unified school district which receives a grant or loan out of funds made available by this act as a result of the operation of Section 19947 may defer the repayment of any amount of such loan or grant due in any fiscal year if it expended in the previous fiscal year for capital outlay purposes, including current capital expenditures and bond interest and redemption, a sum equivalent to fifty cents ($0.50) or more on each one hundred dollars ($100) of assessed valuation in the district. If the unified district does not operate a junior college, the equivalent tax rate levied for capital outlay purposes in the previous fiscal year by the junior college district operating within the unified district shall be added to that of the unified district computed under this paragraph in determining the unified district's eligibility for deferred payment under this section."

This section specifies that the particular funds involved are to be made available by *grant or loan*, thus reiterating two key terms used in the statement of general purposes contained in proposed Section 19934, which we discussed previously. The sections (19947 and 19948) referred to in the language quoted above prescribe procedures to be followed and the particular physical factors involved in the make-up of the school districts which will serve to establish eligibility for the financial assistance.

Considering Section 19949 and 19934 together and as a whole, it is, in our opinion, clear that they would be construed by the courts as being framed in contemplation of the enactment of more comprehensive laws dealing with the manner in which the aid is to be provided to the affected school districts, and that those laws may direct that the aid be allocated by way of outright grant, by way of loan subject to repayment, or by any combination thereof.

Nothing in the bill gives a specific directive to a state officer or agency to make either grants or loans under the terms of the bill, nor does the bill, or any other provisions of law dealing with the allocation and apportionment of state school building aid funds, prescribe standards to be applied in determining when an allocation or apportionment shall be in the form of an outright grant, or when it shall take the form of a loan subject to repayment.

On this basis we conclude that the eight percent amount of bond proceeds to be devoted to expenditure in poverty areas within certain large unified school districts, could not, in absence of the enactment of further legislation, be made available to affected districts by way of outright grants.

Very truly yours,

GEORGE H. MURPHY

WHEREAS, There are approximately 1 million motorcycles registered in the United States and an impressive indication of their popularity in the West is the fact that 60 percent of the registered cycles are on the west coast and California leads the nation in the number of organized cycle clubs; and

House Resolution No. 195

Relative to an interim study on feasibility of the use of existing railroad rights-of-way for rapid transit in the San Diego Metropolitan Area

WHEREAS, There is an urgent need for an adequate rapid transit system to serve the San Diego Metropolitan Area; and

WHEREAS, All of the cities in the San Diego Metropolitan Area—Coronado Imperial Beach, Chula Vista, National City, La Mesa, El Cajon, Del Mar, and San Diego—are presently served by railroad lines; and

WHEREAS, Major unincorporated population areas, such as Lemon Grove, are also served by railroad lines, and the new University of California campus at San Diego is so near the Santa Fe Railway main line that the construction of only a short spur line would provide it with railroad service, and a station there would also serve the people of La Jolla; and

WHEREAS, Many railroad rights-of-way are wide enough to carry lines for rapid transit, and a study on feasibility of the use of railroad rights-of-way for this purpose is advisable because one of the most expensive elements in rapid transit is the acquisition of rights-of-way; and

WHEREAS, As an alternative to public development of service on the rights-of-way, it is appropriate to study what governmental involvement might be needed to enable the railroad companies themselves to operate rapid transit service along those lines; and

WHEREAS, If such courses appear practical, it also seems desirable to compare the advantages of elevated, underground, or separated ground line rights-of-way for bringing trains into the downtown area; now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee for study the subject of the feasibility of the use of existing railroad rights-of-way and rail lines for rapid transit in the San Diego Metropolitan Area and to direct such interim committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature.

WHEREAS, Mr Williams, whose newspaper career spanned seven decades, became a part of the Record organization in 1929 when he joined the newspaper as advertising director; and

WHEREAS, His exceptional talents, keen insight, and unique administrative ability soon became apparent and he began to move through the ranks of the organization, and

WHEREAS, Successively he became the business manager, general manager, and finally the vice-president, co-publisher and general manager; and

WHEREAS, Under his able leadership the Record, in the true tradition of the newspaper industry, has reported the news fairly and factually and has brought to the people of Stockton the benefits which flow from having a newspaper dedicated to the interests and welfare of the people which it serves; and

WHEREAS, A friendly, kind man, Mr Williams was highly respected in his beloved community, and

WHEREAS, His presence will be sadly missed not only by his family, but by his associates in the newspaper world and all those with whom he came in contact; now, therefore, be it

RESOLUTIONS

The following resolution was offered

By Assemblymen Burton, Brown Marks, Meyers, and Foran

House Resolution No. 199

Relative to memorializing the death of Dow Wilson

WHEREAS, A tragic act of violence has taken the life of Dow Wilson, whose militant integrity and progressive aims made enemies in addition to giving him the devoted loyalty of the vast majority of his union—San Francisco Local No 4 of the Brotherhood of Painters, Decorators and Paperhangers of America , and

WHEREAS Dow Wilson's direct, forceful leadership resulted in the merger of two local unions, and after a hard-fought strike gained for the new local the finest contract ever negotiated in the painting industry, and his leadership resulted in overcoming substantial opposition from the International to some of the progressive aims and hard-hitting tactics which were Dow Wilson's hallmark , and

WHEREAS, Evidence of his principles remains in the membership of Local No 4, whose membership is more fully integrated than any other in the nation, and it was he who was responsible for the first Negro painters hired for work on the

Golden Gate Bridge a characteristic reflection of his effective commitment to the civil rights movement, and

WHEREAS, His bearded face and frequently informal dress were his trademark, and belied the dignity and the level of respect to which he raised his local union, a position second to none in the building trades, and

WHEREAS, Dow Wilson loved the outdoors he was an enthusiastic hunter and gun collector, and he could mingle with any group without giving or asking anything more than equality but his empathy with people who work with their hands was particularly strong—mirroring the qualities he admired most in his idol—Jack London; now, therefore, be it

Resolved by the Assembly of the State of California, That the Members pay this tribute to a forceful, direct man of action—a leader whose integrity and principles engendered love in many and hatred in a misguided few—who cannot be replaced, who will be sorely missed, and whose life may be summed up in four words—"courage, action, integrity, accomplishment," and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit suitably prepared copies of this resolution to Dow Wilson's widow, Barbara, his children, Scott Michelena and Rebecca, and to Local No. 4 and the International Brotherhood of Painters, Decorators and Paperhangers of America, AFL-CIO

"Twenty-First, That Section 30 is added to Article XIII, to read

SEC 30 Not more than 25 percent of the total appropriations from all funds of the State shall be raised by means of taxes on real and personal property according to the value thereof

Twenty-Second, That Section 4 is added to Article XXII, to read

SEC 4 Nothing in Section 16 of Article VI affects the eligibility of a judge to serve in or be elected to his office if the judge was selected prior to the operative date of Section 16 and was eligible under the law at the time of that selection

Twenty-Third, That Section 5 is added to Article XXII, to read

SEC 5 In any case in which, under the law in effect prior to the operative date of this section, the term of a judge of a municipal or justice court expires in January in a year in which a general election is held, that term shall be extended until the Monday after January 1 following the next general election following the date when the term would otherwise expire, at which general election a successor shall be elected

And be it further resolved, That the Legislature having adopted Assembly Constitutional Amendment No 90 at its 1965 Regular Session to propose an amendment to portions of Sections 1, 2 and 16 of Article IV of the State Constitution for the sole purpose of requiring the Legislature to reconvene and reconsider measures submitted to the Governor during the last 10 days of a general session (Sundays excepted) which he fails to sign and since said amendment did not propose any other change in the length, duration or scope of general or budget sessions of the Legislature, it is the intent of the Legislature, if both Assembly Constitutional Amendment No 90 and Assembly Constitutional Amendment (Revision) No 13, 1966 First Extraordinary Session, are approved by the electors, that both shall be given effect regardless of the vote by which they are approved and that their provisions be construed together so as to give effect to both in the following manner

First, That subdivision (a) be added to Section 4 of Article IV thereof, to read

(a) The Legislature is a continuous body during the 2-year term for which Assemblymen are elected It shall meet annually in regular session at noon on the Monday after January 1 A regular session may not exceed 166 days At the end

of the 166 days the Legislature shall recess for 30 days It shall reconvene on the Monday after the 30-day recess, for a period not to exceed 5 days, to reconsider vetoed measures

Second, That Section 5 be added to Article IV thereof, to read

SEC 5 *Compensation of members of the* Legislature, and reimbursement for travel and living expenses in connection with their official duties, shall be prescribed by statute passed by rollcall vote entered in the journal, two thirds of the membership of each house concurring. An increase or decrease may not apply to the Legislature that enacted it However, members of the Legislature shall receive 5 cents per mile for traveling to and from their homes in order to attend reconvening following the 30-day recess after a regular session

Third, That subdivision (c) be added to Section 8 of Article IV thereof, to read

(c) No statute may go into effect until the 61st day after adjournment of the regular session at which the bill was passed, or until the 91st day after adjournment of the special session at which the bill was passed, except statutes calling elections, statutes providing for tax levies or appropriations for the usual current expenses of the State, and urgency statutes

Fourth, That subdivision (a) be added to Section 10 of Article IV thereof, to read

(a) Each bill passed by the Legislature shall be presented to the Governor It becomes a statute if he signs it He may veto it by returning it with his objections to the house of origin, which shall enter the objections in the journal and proceed to reconsider it If each house then passes the bill by rollcall vote entered in the journal, two thirds of the membership concurring, it becomes a statute A bill presented to the Governor that is not returned within 12 days becomes a statute If the 12-day period expires during the recess at the end of a regular session, the bill becomes a statute unless the Governor vetoes it within 30 days from the commencement of the recess If the Legislature by adjournment of a special session prevents the return of a bill it does not become a statute unless the Governor signs the bill and deposits it in the office of the Secretary of State within 30 days after adjournment

Fifth, That subdivision (b) be added to Section 23 of Article IV thereof, to read

(b) A referendum measure may be proposed by presenting to the Secretary of State, within 60 days after adjournment of the regular session at which the statute was passed or within 90 days after adjournment of the special session at which the statute was passed, a petition certified to have been signed by electors equal in number to 5 percent of the votes for all candidates for Governor at the last gubernatorial election, asking that the statute or part of it be submitted to the electors

Sixth, That the provisions of the second resolved clause of this measure shall become operative only if the amendment to Article IV of the State Constitution proposed by Assembly Constitutional Amendment No 90 of the 1965 Regular Session are approved by a majority of the electors, in which case subdivision (a) of Section 4, Section 5, subdivision (c) of Section 8, subdivision (a) of Section 10 and subdivision (b) of Section 23 of Article IV of the Constitution, as appearing in the first resolved clause of Assembly Constitutional Amendment (Revision) No 13, shall not become operative"

Relative to state colleges

WHEREAS, The tremendous population growth which has occurred in Southern California in recent years and which will continue for decades to come, confronts public higher education in California with projected future enrollments at educational institutions of collegiate grade of such magnitude that continued planning for expansion of such facilities is necessary to serve the public interest; and

WHEREAS, The phenomenal growth of the Sunland-Tujunga-Burbank-Glendale area in the County of Los Angeles requires that a coordinated plan for expansion of the California State Colleges must properly consider the need for a campus of the state college system in such area, and

WHEREAS, The population growth of the San Fernando Valley area and neighboring cities east of the valley is occurring and evidence indicates that it will continue to grow at a very rapid rate, thereby greatly taxing existing facilities of public higher education; and

WHEREAS, A study to investigate and reevaluate the need for a state college should properly be made by the Coordinating Council for Higher Education in cooperation with the Trustees of the California State Colleges, now, therefore, be it

Resolved by the Assembly of the State of California, That the Assembly request the Coordinating Council for Higher Education to include in its next regularly scheduled study on the need for additional centers of higher education, the need and feasibility for the establishment of a state college in the Sunland-Tujunga-Burbank-Glendale area of the County of Los Angeles, and be it further

On page 7, line 3, of the printed bill, as amended in Assembly March 9, 1966, strike out ", or unless such an election is a", strike out line 4, and in line 5 strike out "voting thereat,".

Amendment No. 2

On page 11, between lines 35 and 36, insert

"SEC. 7. Section 19590 of said code is amended to read

19590. No apportionment to a school district shall become final unless (a) the total amount of outstanding bonds of the district exceeds ninety-five percent (95%) of the maximum amount of bonds which the district could have had outstanding under any law on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is less than ninety-five percent (95%) of the amount of the bonds permitted to be issued by the district, the amount of district bonds outstanding is within twenty-five thousand dollars ($25,000) of the total bond limit permitted, as of the date on which the conditional apportionment is made. At the time the board makes a conditional apportionment pursuant to Section 19571, it shall determine what portion of the total amount of bonds which a district is permitted to issue and sell by law shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought, provided, that in the event the school district has previously received apportionments, *or has become liable for the repayment of an apportionment*, such proceeds shall first be applied toward the reduction, in chronological order beginning with the earliest, of any apportionments previously made to the district, *or for the repayment of which the district has become liable in whole or in part*, before being applied toward the cost of the project for which an apportionment is sought, provided further that no such proceeds shall be applied toward the reduction of any apportionment for a site made pursuant to Section 19577 prior to the combination of such site apportionment with a construction apportionment pursuant to subsection (d) of Section 19577. The portion so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 19571 shall be conditioned upon the approval and sale of such bonds by the district. The amount of any apportionment for a construction project made as a consequence of applying district bond proceeds toward the reduction of prior apportionments pursuant to this section instead of applying the district bond proceeds toward the cost of such construction project shall be excluded in determining the amount chargeable against the apportionments au-

thorized by the electorate of the district to be accepted, expended and repaid It is hereby declared that this provision, added by the amendment to this section enacted at the 1958 First Extraordinary Session of the Legislature, is not intended as a change in the law, but rather as a declaration of existing law.

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to such district Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board The portion so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section Any apportionment made by the board pursuant to Section 19571 shall be conditioned upon the approval and sale of such bonds by the district.

No apportionment to a school district under this chapter shall become final, nor any agreement authorized by Section 19579 1 be entered into unless ~~at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat, or unless such an election is a primary or general election and 60 percent of such electors voting thereat, have authorized~~ the governing board *of the district has been authorized* to accept, expend and repay as provided in this chapter an apportionment under the provisions thereof or, with respect to said agreement, to obligate the district in an amount equal to or in excess of the maximum amount by which the district could be obligated by said agreement, or by any act of its governing board or for which it is responsible, contemplated or permitted thereby. *Such authorization shall be secured at an election called by the governing board, by two-thirds of the votes cast on the question of incurring such indebtedness or liability being in favor thereof, or by 60 percent of the votes cast on the question of incurring such indebtedness or liability being in favor thereof where the question of incurring the indebtedness or liability was submitted at the same time as a statewide primary or general election* Said election shall be called, held and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words

"Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of Chapter 10 of Division 14 of the Education Code, which amount is subject to repayment as provided by said chapter, or (2) to enter into an agreement or agreements with the state pursuant to Section 19579 1 of the Education Code, which will at the time of such agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible,

contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than _____ dollars ($_____), or both. Yes ____ No ____."

SEC. 8 Section 7 of this act shall become operative only if the Section 19590 of the Education Code as proposed to be amended by Assembly Bill No 36 is enacted by the Legislature at its 1966 First Extraordinary Session and becomes operative, or if Chapter 795 of the Statutes of 1965 becomes operative, or if both become operative; and in such case at the same time as Assembly Bill No 36 or Chapter 795 of the Statutes of 1965 becomes operative, or both become operative, at which time Section 19590 of the Education Code as amended by Section 3 of this act, Section 19590 as amended by Chapter 795 of the 1965 Statutes and Section 19590 of the Education Code as amended by Assembly Bill No 36 of the 1966 First Extraordinary Session are repealed."

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Porter was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal:

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, April 7, 1966

Honorable Carley V Porter
Assembly Chamber

State Water Projects—No. 4755

Dear Mr Porter·

QUESTION

You have asked, with respect to the provision in Assembly Bill No 12, as amended in Senate April 4, 1966, of the 1966 First Extraordinary Session, requiring legislative approval of certain cost allocations made by the Department of Water Resources, whether such legislative approval could be accomplished in the Budget Bill

OPINION

In our opinion, the legislative approval with respect to the cost allocations made pursuant to A B 12 could not be accomplished in the Budget Bill.

ANALYSIS

Assembly Bill No 12, as amended in Senate April 4, 1966, of the 1966 First Extraordinary Session requires, among other things, that the Department of Water Resources annually report the cost allocations it has made for fish and wildlife enhancement and recreation (including property acquisition for recreation) in connection with state water projects to the Legislature and to include in its report the written comments, with respect to each such cost allocation, of the Department of Parks and Recreation and of the Department of Fish and Game Such allocations become effective, and the money continuously appropriated by the bill may be expended for the construction of the State Water Facilities in amounts equal to such allocations, *upon approval* of such allocations by the Legislature

The Budget Bill is an appropriation bill subject to the same constitutional restrictions as other bills except the requirement that no bill shall contain more than one appropriation and that for one single and certain purpose therein expressed Section 24 of Article IV, of the Constitution, requiring every act to "embrace but one subject which subject shall be expressed in its title" is applicable to the Budget Bill Since the "subject" of the Budget Bill, as specified by the Constitution, is "appropriations," the Budget Bill may not contain provisions which do not appropriate money or limit or prescribe the conditions under which such money may be spent

While we think that the Legislature could control the amount continuously appropriated by the bill by reducing such amount or by reappropriating it for other purposes, we do not think that the Legislature could approve the cost allocations made through use of the Budget Bill, since such approval would not constitute an appropriation or a limitation or condition upon an appropriation made in the Budget Bill

Very truly yours,

GEORGE H MURPHY
Legislative Counsel

Mr Knox was granted unanimous consent that the poem recited by Poet Laureate Charles B Garrigus during the recess be printed in the Journal:

SALUTE TO THE LEGISLATURE

My brethren, here we meet in hope
To serve the people of our State;
But never do we meet alone
To make decisions for our fate

Around us tides of greed and power
Forever ebb, forever flow.
We walk upon the shifting sands,
Not knowing who is friend or foe.

The deeds of all who've trod these halls,
Since first this dome was proudly reared,
Have framed our duty's heritage
In principle and law revered

But even as we bow to them
Acknowledgment of all our store,
We know that what they gave to us
They had from those who served before

Thus has it ever been in time,
And thus it ever more shall be
We reap to sow and sow to reap
The seed of truth that keeps us free

Thus has this wreath you give to me
Passed through a host of faithful hands;
It meaning comes from ancient days
Whose dusks were dawns unto our lands

Wherever men have sought to know
A fuller life—a better choice,
One of them, speaking for them all,
Has sung their search with lyric voice

And so in faith you gave to me
This laureate task you designate
As one wherein my charge shall be
To sing the glories of our State

I here accept your honored charge
And pray that God shall give me grace
To sing the songs of circumstance
That find us worthy of our place.

No man can fairly judge us here
Who has not walked our weary mile,
Who has not felt the cynic's stone
And borne it all with friendly smile

Let us not be discouraged then
By men who will not understand
The work of those who must decide
The vital issues of our land

We all must bind our hearts to do
The foremost business of our day,
Which is to live by freedom's light
And keep the doom of war away

Together we must do those tasks
Which show the virtues of the free,
And prove to all men everywhere
The values of democracy

From High Sierras' sculptured peaks,
Past valleys lush with tree and vine,
Where coastal grandeur gracefully sweeps
We trace our bounteous beauty's line

Our teeming cities spread their strength
To burgeoning industry and trade,
Our people live the favored life
That pioneer faith and courage made

Let us revere this heritage
Which nature gave and man has won
And faithfully do the worthy work
By those who went before begun

And if in labor, faith, or hope
You seek an ideal harmony.
Then join your hearts unto my task
And gladly sing along with me

Too soon our little day is done,
The record and the deed lie bare;
Then let us strive to keep the faith
That reconciles us with God's care.

Here for a while we gather for a common task,
Seeking to serve the sacred dignity of man
We are not moved by selfishness for what we ask
But work in faith to try and do the best we can.

Our faults are duly drawn before the public eye,
Because we have no other choice but to decide.
Certain to face abuse when we have cast the die,
We know that when we vote, there is no place to hide

Forged in the fires that sear the partisan campaign,
Shaped by our sense of duty to the public weal,
We learn to bear the civic cross and not complain.
We rise to serve untutored by the pain we feel

We live the lonely tortures of self-doubt,
And raise the raw reproaches of regrets
Appreciation we must do without,
And seldom find forgiveness for our debts

All this and many merry hours of rich repast
Have made of us a fellowship of men apart
No one who has not shared the thoughts we have to think
Can understand the Legislature's secret heart.

From hence the winds of time shall scatter us afar
And this group gathered here shall never meet again
But those who do remain shall leave the door ajar
So those who may return shall always find a friend

The dusk comes down, the twilight wanes and deepens into night
The desks are empty as a silence rules each floor
Outside the bowered shadows of the park enfold the light;
Each aspect is a memory of men who are no more.

It does not matter that our wills once clashed in hope or fear,
Nor that we often matched ourselves to win ambition's race
Let each respect the other for a heart that was sincere,
And pray that God shall find each one was worthy of this place

CHARLES B GARRIGUS, Poet Laureate

Consideration of Committee Amendments

The following amendment, proposed by the Committee on Rules, was read, and adopted

Amendment No. 1

In line 3 of the third WHEREAS clause, of the printed measure, as printed on page 609 of the Assembly Journal for April 6, 1966, strike out "Santa Fe Railway main line", and insert "existing rail line"

House Resolution No. 195, as Amended

By Assemblyman Mills:

House Resolution No. 195

Relative to an interim study on feasibility of the use of existing railroad rights-of-way for rapid transit in the San Diego Metropolitan Area

WHEREAS, There is an urgent need for an adequate rapid transit system to serve the San Diego Metropolitan Area; and

WHEREAS, All of the cities in the San Diego Metropolitan Area—Coronado, Imperial Beach, Chula Vista, National City, La Mesa, El Cajon, Del Mar, and San Diego—are presently served by railroad lines; and

WHEREAS, Major unincorporated population areas, such as Lemon Grove, are also served by railroad lines, and the new University of California campus at San Diego is so near the existing rail line that the construction of only a short spur line would provide it with railroad service, and a station there would also serve the people of La Jolla; and

WHEREAS, Many railroad rights-of-way are wide enough to carry lines for rapid transit, and a study on feasibility of the use of railroad rights-of-way for this purpose is advisable because one of the most expensive elements in rapid transit is the acquisition of rights-of-way; and

WHEREAS, As an alternative to public development of service on the rights-of-way, it is appropriate to study what governmental involvement might be needed to enable the railroad companies themselves to operate rapid transit service along those lines; and

WHEREAS, If such courses appear practical, it also seems desirable to compare the advantages of elevated, underground, or separated ground line rights-of-way for bringing trains into the downtown area; now, therefore, be it

Resolved by the Assembly of the State of California That the Assembly Committee on Rules is hereby directed to assign to an appropriate interim committee for study the subject of the feasibility of the use of existing railroad rights-of-way and rail lines for rapid transit in the San Diego Metropolitan Area and to direct such interim committee to report its findings and recommendations thereon to the Assembly not later than the fifth legislative day of the 1967 Regular Session of the Legislature

Resolution, as amended, referred to the Committee on Rules and the subject matter referred to the Committee on Rules for assignment to the proper interim committee for study

Assembly Bill No. 171: By Assemblyman Quimby—An act to amend Section 31000 of the Government Code, relating to county employment

REQUEST FOR UNANIMOUS CONSENT TO PRINT IN JOURNAL

Mr Quimby was granted unanimous consent that the following Opinion of Legislative Counsel be printed in the Journal

Opinion of Legislative Counsel

Office of Legislative Counsel
Sacramento, April 15, 1966

Honorable John P Quimby
Assembly Chamber

County Employment—Scope of 1966 First Extraordinary Session—No 5034

Dear Mr Quimby:

Question

You have asked whether the bill prepared under this request to amend Section 31000 of the Government Code to permit counties to specially contract for persons to serve as court attachés would be within the scope of any of the items of the 1966 First Extraordinary Session of the Legislature

Opinion

In our opinion, the bill in question would be within Item No 27 of the 1966 First Extraordinary Session of the Legislature

Analysis

A bill to permit counties to specially contract for persons to serve as court attachés, by amending Section 31000 of the Government Code, a statute which deals with counties contracting for special services would have the effect of authorizing additional court attaché personnel Item No 27 of the 1966 First Extraordinary Session, in pertinent part, reads

"To consider and act upon legislation relative to increase of the number of court attachés . ."

Since the proposed bill would enable such increase, we think it is within the scope of this item

Very truly yours,

GEORGE H MURPHY
