PREFACE

This publication consists of an index to measures and a table of sections affected It is cumulative and periodically published

INDEX

The index indicates the subject of each bill, constitutional amendment, and concurrent or joint resolution as introduced and as amended Entries are not removed from the index when subject matter is deleted from the measure in course of passage

The index also indicates the subject of each single-house resolution as introduced Single-house resolutions are indexed under "House Resolutions" or "Senate Resolutions"

TABLE

The table shows each section of the Constitution, codes and uncodified laws affected by measures introduced in the Legislature It may be used in two ways

1 As a means of locating measures where the section of the Constitution, code or law is known

2 To locate measures upon a particular subject, by using a published index to the codes and laws, such as Deering's General Index, the Larmac Consolidated Index, and West's General Index, to locate the existing sections, and then by using this table to locate the measures which affect those sections

The table is arranged by codes and the Constitution listed in alphabetical order Uncodified laws are listed at the end of the table under the heading "Statutes Other Than Codes," and are cited by year and chapter
