LEGISLATIVE COUNSEL'S DIGEST

Under existing law, there is within the Department of Industrial Relations a Division of Fair Employment Practices, and, within the division, there is a State Fair Employment Practice Commission, whose responsibility it is, generally, to enforce (1) the "California Fair Employment Practice Act," relating to the prevention and elimination of discrimination in employment; (2) certain provisions of law relating to the prevention and elimination of discrimination in housing contained in what is commonly referred to as the Rumford Fair Housing Act; (3) the provisions of the Unruh Civil Rights Act, and (4) the provisions of the Ralph Civil Rights Act of 1976.

Under existing law, the principal executive officer of the division and the seven members of the commission are appointed by the Governor, and the commissioners are also subject to confirmation by the Senate.

This bill would abolish the Division of Fair Employment Practices within the Department of Industrial Relations and would create a Department of Fair Employment and Housing within the State and Consumer Services Agency and a Fair Employment and Housing Commission within the department, which entities would succeed to the present functions and responsibilities of the division and commission All employees engaged in transferred functions would become employees of the new entities

The bill would also require that the appointee of the Governor to the position of Director of Employment and Fair Housing receive Senate confirmation.

Various other provisions of law would be conformed to reflect the new organization.

Chapter 1252 of the Statutes of 1977 reorganized the Health and Welfare Agency, expressed legislative intent that the Governor prepare and submit to the Legislature by January 31, 1979, an executive reorganization plan which would remove the Department of Corrections and the then Youth Authority from that agency, operative on or before July 1, 1979, and removed the department and the authority from that agency on July 1, 1979. The department consists of the Director of Corrections, the now Board of Prison Terms, and the Correctional Industries Commission. Chapter 255 of the Statutes of 1979 renamed the Community Release Board, the Board of Prison Terms. Chapter 860 of the Statutes of 1979, reorganized the Youth Authority into the Department of the Youth Authority and the Youthful Offender Parole Board (then the Youth Authority Board) Chapter 259 of the Statutes of 1979, the 1979–80 Budget Act, provided that no funds appropriated thereby or by any other statute may be expended by the agency or either department to establish or maintain an agency-department relationship between the agency and either or both departments

Under existing statutes neither the Board of Corrections, the Institutional Review Board, nor the Narcotic Addict Evaluation Board have been placed within any of the existing named agencies of the executive branch of state government; and the Secretary of Health and Welfare Agency is the Chairman of the Board of Corrections.

LEGISLATIVE COUNSEL'S DIGEST

Preprint AB 3, as proposed, Roos. Laws affecting housing

(1) Existing law prohibits various forms of discrimination

This bill would provide, with certain exceptions, that any person having the right to rent or lease a housing accommodation, as defined, or any agent or employee of such a person, who performs various acts of discrimination with regard to such housing accommodation, based solely on the fact that a person has a minor child, shall be liable to the person discriminated against for each and every offense in an amount not less than $250, plus attorney's fees.

(2) Existing law contains provisions governing the investment of the assets of the Teachers' Retirement Fund and the Public Employees' Retirement Fund and provides that the retirement boards have exclusive control of the administration and investment of the funds and that such funds are, respectively, a special trust fund and a trust fund created and administered solely for the benefit of members and retired members and their beneficiaries.

This bill would require investment of moneys in such funds to be consistent with investment policies specified in the bill, to the extent consistent with prudent investment of the funds. Such policies would (a) require using the assets of the above retirement funds to expand the business and economic climate of the state, (b) require the respective retirement board to give due consideration to dealing with investment brokerage firms and counselors maintaining offices within the state, and (c) require investment of a prudent portion of the assets of the retirement funds in residential mortgages for property in this state.

(3) The Commission of Housing and Community Development is comprised of 9 members appointed by the Governor. No special qualifications are presented for membership on the commission

This bill would abolish the present commission and create a new one with the same name. The new commission would be comprised of 11 members, 5 of whom would be appointed by the Governor and 3 members each to be appointed by the Speaker of the Assembly and the Senate Rules Committee The bill would prescribe qualifications for the various members, and each appointment would be subject to confirmation by the Senate. The bill would provide for staggered terms, as specified

(4) The Commission of Housing and Community Development is required to adopt guidelines for the implementation of relocation assistance payments required by state law and for the uniform administration of relocation assistance by public entities subject to provisions of state law relating thereto. Such public entities are required to adopt rules and regulations consistent with the guidelines.

This bill would specify that such guidelines are advisory as to cities, counties, and cities and counties, except as expressly authorized by statute.

(5) Nothing in state law presently requires all state and local governmental agencies to prepare an inventory of their surplus lands to determine appropriateness of such property for housing uses

This bill would require such inventories to be prepared by June 30, 1981, and filed with the council of governments within the jurisdiction of which the property is located. The bill would require such councils to compile the inventories and to determine properties most appropriate for housing uses The councils' compilations would be available for public inspection and also filed with each county and city in the jurisdiction of the council

(6) Present law requires local general plans to contain a housing element, as prescribed that makes adequate provision for the housing needs of all economic segments of the community

This bill would prescribe methodology for satisfying such requirement, would specify certain actions as not required, and would declare that in this respect it is declaratory of existing law. This bill would authorize use of a housing assistance plan as the local housing element under specified circumstances.

(7) State law sets forth requirements for the elements of local general plans and requires zoning ordinances to be consistent therewith.

This bill would require judicial actions challenging a city or county decision as to the adequacy of a general plan element or consistency of zoning with the general plan, to be brought within 30 days after the decision. This bill would also prescribe the standard of review to be used by the court in such cases

(8) State law on zoning authorizes counties and cities to regulate land use as among various specified uses.

This bill would specifically authorize local zoning regulations to differentiate between rental and owner-occupied housing, and would declare such provisions of the bill to be declaratory of existing law

(9) Existing law authorizes counties and cities to adopt, amend, and repeal zoning laws, ordinances, rules, and regulations subject to general planning requirements, and to adopt building and other regulations relating to property within their boundaries.

This bill would authorize any city, county, or city and county to enter into binding development agreements with persons having a legal or equitable interest in real property for the development of such property and require every city, county, and city and county to establish procedures for consideration of applications for such agreements, including a public hearing and recording of such agreement.

Such agreement would supersede any change in rules or regulations or plans, zoning, subdivision, or building regulations of the city, county, or city and county adopted after execution of such agreement and would be enforceable by the parties to the agreement or their successors in interest.

(10) Existing law requires expedited governmental approval processes with respect to applications for permits to proceed with defined development projects.

This bill would specifically authorize any public agency to adopt a single permit processing system within its jurisdiction for the purpose of reviewing and approving development projects

(11) Existing law provides for the adoption of state, regional, and local plans for land use, and generally requires zoning to conform to local plans.

This bill would create a 23-member State Coordinating Council to establish state planning policies and develop a State Resources Conservation and Development Plan, as specified. The bill would also create a State Department of Planning, to be headed by a Director of Planning appointed by the state council, which would assume specified planning responsibilities of the Office of Planning and Research and all of the planning responsibilities, and the officers and employees involved therein, of the Department of Water Resources, the Air Resources Board, the State Water Quality Control Board, and the Department of Transportation and act as the sole state agency responsible for comprehensive state planning. The bill would authorize the establishment of area councils for each of 12 designated areas of the state, to be funded by the state, which would prepare and maintain area plans, as specified, conforming to the policies of the state council. As part of the area plan, the state council would require an emission limits program for air quality. The area plan would be required to include an urban/nonurban plan for the area The bill would also authorize the establishment of subarea organizations to comment on state and federal grant applications for the subarea, propose subarea plans for inclusion in the area plan, recommend priorities for capital improvement projects for the subarea, and other functions delegated by the area council.

City and county general plans would have to conform to the state and area plans Each city would be required to prepare an area plan for areas adjacent to the city, as specified, and each county would be required to prepare an urban/nonurban plan, as specified, to become parts of its general plan. Zoning would be required to conform to uses allowed in urban and nonurban areas. Cities would also be required to prepare urban plans, as specified, to be approved by the applicable local agency formation commission. Regulations proposed by regional water quality control boards and air pollution control districts would have to be approved by the state council or area council.

(12) The state housing law requires regulations adopted by the Commission of Housing and Community Development thereunder to, in general, impose substantially the same requirements as are contained in the most recent editions of specified uniform industry codes.

This bill would require the commission to commence proceedings to make any necessary changes in the regulations within 6 months after publication of a new edition of such a code

(13) Local building and housing regulations are generally required to impose the same requirements as regulations of the commission adopted under the State Housing Law, but a city or county may deviate from the state standards because of special local conditions.

This bill would authorize local building and housing regulations to deviate from the commission's regulations where the city or county finds that the deviation reduces construction costs without sacrificing safety

This bill would also require the commission to prepare uniform rehabilitation guidelines, which could be adopted by a city or county as alternative standards to assist in encouraging conservation and rehabilitation of housing

(14) The State Housing Law presently requires county and city housing departments (or if none their health departments) to enforce the provisions of such law and rules and regulations adopted pursuant thereto pertaining to the maintenance, sanitation, ventilation, use, and occupancy of apartment houses and dwellings. However, nothing in state law requires inspections to be conducted for such purpose whenever there is a change of occupants

This bill would authorize counties and cities to prohibit reoccupancy of a dwelling unit in a single-family or multiple residential structure, excluding hotels, motels, and lodging houses, after a sale, lease, lease assignment, or subletting of the dwelling unit, unless an inspection is made and a certificate of occupancy issued. The bill would require the owner or the owner's agent (in participating counties and cities) to notify the enforcement agency specified in the State Housing Law whenever a dwelling unit is vacated by the occupant. The bill would require a certificate of occupancy to be issued at the time of inspection if the dwelling unit meets all applicable requirements prescribed by or pursuant to the State Housing Law and is not a substandard building, as defined The bill would authorize issuance of provisional certificates of occupancy under specified circumstances, and would authorize issuance of periodic certificates of occupancy for rental dwellings. The periodic certificate would be effective for up to one year, regardless of intervening changes in the occupants of the unit

This bill would require counties and cities proceeding under the bill to adopt ordinances to implement the bill, which could include, among other things, fees for required inspections, appeal procedures, specified forms, and penalties. Violations of the bill would be misdemeanors, unless otherwise provided by the ordinance.

(15) Existing state law does not prescribe procedures or standards for local control of residential rents.

This bill would enact a California Rent Stabilization Act of 1979 prescribing the exclusive method for local regulation of residential rents

(16) Existing law does not require that state policies for air pollution control or water quality control, or the water quality objectives of regional water quality control boards give recognition to state housing policy

This bill would enact such a requirement, and would require consideration of a prescribed state housing goal by the State Water Resources Control Board, when acting upon applications to appropriate water.

(17) The California Environmental Quality Act contains specified policy declarations

This bill would revise such declarations to include a reference to specified housing objectives.

(18) The Zenovich-Moscone-Chacon Housing and Home Finance Act contains various policy declarations.

This bill would add additional policy declarations respecting governmental acquisition and assembly of land for governmentally assisted housing, use of state funds to bring down labor costs of housing, and use of the proceeds of sales of surplus state lands to finance housing.

(19) Existing law provides for initial development and updating of a California Statewide Housing Plan with prescribed content

This bill would require the plan and annual updates to identify state moneys or other resources appropriated or designated to meet housing needs during the then current fiscal year. The bill would also declare the intent of the Legislature to assure that the plan and its updates are clearly and intelligently set forth when adopted.

(20) Existing law requires the Department of Housing and Community Development to adopt guidelines for the preparation, by cities and counties, of the housing element of the general plan which each city and county is required to adopt

This bill would state the legislative finding that local officials are best suited to determine what elements of the general plan guidelines adopted by the Department of Housing and Community Development and by the Office of Planning and Research are relevant to their particular circumstances, and expressly declare that such guidelines and regulations are advisory only, and would prohibit penalizing any city or

county because its housing element does not conform to such guidelines The bill would provide that such provisions are declaratory of existing law.

(21) Present law provides for the certification of local housing agents to perform specified functions for the California Housing Finance Agency. Existing law authorizes the Department of Housing and Community Development to certify, decertify, and recertify, housing agents. Existing law specifies conditions for recertification after decertification. Existing law authorizes cities, counties, cities and counties, the governing body of an Indian reservation or rancheria, or combinations of such entities to act as local housing agents.

This bill would revise the provisions respecting local housing agents to remove the certification, decertification, and recertification functions from the department, transferring such functions to the agency, without changing the criteria for local housing agents. The bill would delete the special conditions for recertification after decertification. The bill would also eliminate the authority of Indian reservation and rancheria governing bodies to act as local housing agents.

(22) Under existing law, the State Historical Resources Commission is required to receive and evaluate applications for, and make recommendations with respect to, entries on the National Register of Historic Places to the State Historic Preservation Officer.

This bill would provide that, if a city or county maintains a register or inventory of historical or architecturally significant sites, places, or landmarks, property proposed for entry on the National Register of Historic Places and located in such a city or county shall be listed on such register or inventory in order to be eligible for evaluation by the commission.

The bill would require the commission to establish criteria for its evaluation of applications for entries on the National Register of Historic Places

(23) The bill would appropriate an unspecified amount from the General Fund to several special funds which the bill would create and prescribe the purposes of However, further legislation would be required to appropriate any of the moneys in the special funds. Such special funds would be known as the Local Housing Rehabilitation and Preservation Fund, the Local Fund for New Housing Opportunities, the Local Housing Planning Fund, and the Local Housing Agent Fund. The bill would additionally appropriate an unspecified amount to the State Controller to reimburse local agencies for costs incurred by them under the bill

Present law authorizes the Department of Housing and Community Development and the California Housing Finance Agency to provide financial assistance, including loans primarily, for the development of low- and moderate-income housing However, there is presently no specific authorization for a state agency to pay a portion of the development costs of rental housing in exchange for restricting a portion of the units in the development for persons of low income and the remainder for persons of moderate income

This bill would authorize the Department of Housing and Community Development to conduct such a program, as prescribed, with respect to certain rental housing developments and mobilehome park developments, where the financing is provided at below-market interest or the housing is otherwise subsidized by the financing agency The assistance provided by the department could be all or any portion of the development costs, as defined, which could be payable as such costs are incurred or be payable in installments in order to reduce the sponsor's debt service or could be deferred payment rehabilitation loans for housing rental developments

Preprint AB 14, as proposed, Ingalls Air pollution. annual motor vehicle inspection program

(1) Existing law requires the owner of a motor vehicle, upon initial registration and upon transfer of ownership and registration, to have a certificate of compliance indicating that the vehicle is properly equipped with required motor vehicle pollution control devices. The State Air Resources Board is authorized to contract with a public or private entity to design, implement, or operate an inspection program for the mandatory periodic emission inspection of all motor vehicles registered in the south coast air basin, in accordance with specified requirements.

This bill would authorize an air pollution control district or an air quality management district to request the Department of Consumer Affairs to implement an annual motor vehicle inspection program in the district. The bill would require the department, the State Air Resources Board, and the Department of Motor Vehicles to jointly design and adopt the annual motor vehicle inspection program. The bill would require the state board to contract with a private entity to conduct the emission testing portion of the program and would require the annual inspection of motor vehicles prior to registration. The bill would require the repair portion of the program to be conducted by private automotive repair facilities and mechanics certified by the department. The bill would provide for the issuance of a certificate of compliance or noncompliance. Under the bill, the department would be required to impose a fee on all motor vehicles in a participating district which would recover the costs of the program. The fees would be colleced by the Department of Motor Vehicles and, after deduction of administrative costs of collection, would be deposited in the Vehicle Inspection Fund.

(2) Existing law requires every 1955 through 1965 model year motor vehicle, upon either transfer of ownership and registration or upon initial registration, to be equipped with a certified device to control exhaust emissions. Existing law requires, with exceptions, every 1966 through 1970 light-duty motor vehicle to be equipped with a nitrogen oxides exhaust emission control device upon initial registration and upon transfer of ownership and registration. Existing law also authorizes an air pollution control district or air quality management district to adopt rules and regulations to require every 1955 through 1965 model year motor vehicle to be equipped with crankcase or exhaust devices if necessary to preserve the ambient air quality of the district

This bill would repeal such existing laws. However, the bill would require all motor vehicles equipped on December 31, 1980, with certified devices or systems pursuant to the then existing law to control emissions to continue to be equipped with such devices or systems.

(3) This bill would make additional related changes in Vehicle Code provisions governing issuance of certificates of compliance.

(4) Existing provisons of the Budget Acts of 1977 and 1978 appropriated funds from the Motor Vehicle Account in the State Transportation Fund to the State Air Resources Board for loans for the purposes of the inspection program in the South Coast Air Basin and required such funds to be repaid by December 31, 1981, and December 31, 1983, respectively in accordance with terms and conditions prescribed by the Department of Finance, from revenues from inspection fees.

LEGISLATIVE COUNSEL'S DIGEST

Preprint ACA 2, as proposed, McAlister Liability

Existing provisions of the California Constitution vest the legislative power of the state in the Legislature limited by various provisions including guarantees of due process and equal protection.

This measure would specifically vest the Legislature with plenary power, unlimited by any other provision of the California Constitution, to adopt appropriate legislation for compensation of injured persons and dependents for personal injury, death, or damage to property, in light of modern social and economic conditions, including a system of compensation without fault, mandatory insurance or self insurance, limitations on recoveries of noneconomic losses, the adoption of different rules or systems of compensation for different activities, and the imposition of penalties for the assertion of exaggerated or baseless claims or defenses or for delaying tactics.

Existing case law generally prohibits the introduction into evidence of various collateral sources of benefits which compensate for damages, in an action to recover damages for personal injury, property damage, or wrongful death. In certain instances where a person recovers damages in such an action, where such damages have already been paid or are payable by another source of benefits, that other source of benefits has a right to recover the amounts paid or payable

This measure would provide that in an action for personal injury, property damage, or wrongful death, evidence of amounts payable to the plaintiff as a result of the injury from sources other than insurance purchased and paid for by or at the discretion of the plaintiff would be admissible, and such sources would be subrogated to the rights of the plaintiff against the defendant

Existing law does not generally limit attorney's contingency fee agreements in actions for personal injury, property damage, or wrongful death, except in certain medical malpractice and related actions.

This measure would limit such contingency fee agreements as specified to 25% of the recovery
