LEGISLATIVE COUNSEL'S DIGEST

State government reorganization: hazardous substance and waste: solid waste.

(1) Under existing law, the State Department of Health Services and the State Director of Health Services have specified responsibilities for the administration and enforcement of various laws regulating hazardous substances and hazardous wastes.

The State Water Resources Control Board and the California regional water quality control boards have specified responsibilities with regard to regulating surface impoundments and underground tanks containing hazardous wastes and with setting and enforcing groundwater protection and monitoring requirements for hazardous waste facilities.

Under existing law, the State Water Resources Control Board and the regional water quality control boards have specified responsibility for cleanup of hazardous substance sites.

This bill, with specified exceptions, would transfer those responsibilities to the Department of Waste Management, which would be created in the state government. The adoption of regulations in this connection would be vested in the California Waste Commission consisting of 13 appointive members, which the bill would create in the department.

The bill would create within the commission 3 regional waste management boards consisting of 9 members each. The regional boards would be required, among other things, (a) to hold public hearings and provide recommendations or proposed regulations, (b) to hear appeals on decisions of the department on certificates of registration of hazardous waste haulers and hazardous waste facilities permits, and (c) to hear appeals on decisions of the department in denying any petition requesting the department to take action to correct an uncontrolled release or threatened release of hazardous substance.

GOVERNOR'S REORGANIZATION PLANS

1985 Continued

(Page numbers refer to Senate Journals for 1985—86 Regular Session.)

The decisions of the regional boards on those certificates, permits, and petitions could be appealed to the commission.

The bill would transfer the Hazardous Substance Cleanup Arbitration Panel from the Office of the Secretary of Environmental Affairs to the commission.

The bill would abolish the Hazardous Waste Technical Advisory Committee and create the Scientific Advisory Committee consisting of 9 members to advise the department.

(2) Under existing law, the California Waste Management Board and the State Department of Health Services have specified responsibilities regarding solid wastes, including, among other things, developing the state policy for solid waste management and the State Solid Waste Resource Recovery Program and taking various action under the enforcement program. In the board is the State Solid Waste Management and Resource Recovery Advisory Council to provide assistance and advice to the board.

This bill would abolish the board and, with specified exceptions, transfer its responsibilities to the department. The commission would be vested with the authority to adopt regulations in this connection and the state policy for solid waste management. The functions of the State Department of Health Services with regard to solid waste would also be transferred to the department.

The bill would abolish the advisory council.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program: no.

LEGISLATIVE COUNSEL'S DIGEST

Governor's Reorganization Plan No. 2 of 1985

State government reorganization: hazardous substance and waste: solid waste

(1) Under existing law, the State Department of Health Services and the State Director of Health Services have specified responsibilities for the administration and enforcement of various laws regulating hazardous substances and hazardous wastes.

The State Water Resources Control Board and the California regional water quality control boards have specified responsibilities with regard to regulating surface impoundments and underground tanks containing hazardous wastes and with enforcing groundwater protection and monitoring requirements for hazardous waste facilities.

This bill, with specified exceptions, would transfer those responsibilities to the Department of Waste Management, which would be created in the state government. The adoption of regulations in this connection would be vested in the California Waste Commission consisting of 13 appointed members, which the bill would create in the department.

The bill would create within the commission 3 regional waste commissions consisting of 9 appointed members each. The regional commissions would be required, among other things; (a) to hold public hearings and provide recommendations on proposed regulations submitted by the commission and (b) to hear appeals on specified actions or inactions of the department.

The decisions of the regional commissions and certain actions or failures to act by the department could be appealed to the commission.

The bill would transfer the Hazardous Substance Cleanup Arbitration Panel from the Office of the Secretary of Environmental Affairs to the commission.

The bill would abolish the Hazardous Waste Technical Advisory Committee and create the Scientific Advisory Committee consisting of 9 appointed members to advise the department.

(2) Under existing law, the California Waste Management Board and the State Department of Health Services have specified responsibilities regarding solid wastes, including, among other things, developing the state policy for solid waste management and the State Solid Waste Resource Recovery Program and taking various action under the enforcement program. In the board is the State Solid Waste Management and Resource Recovery Advisory Council to provide assistance and advice to the board.

This bill would abolish the board and, with specified exceptions, transfer its responsibilities to the department. The commission would be vested with the authority to adopt regulations in this connection and the state policy for solid waste management. The functions of the State Department of Health Services with regard to solid waste would also be transferred to the department.

The bill would abolish the advisory council.

Vote: majority. Appropriation: no. Fiscal committee: yes. State-mandated local program. no.
