LEGISLATIVE COUNSEL'S DIGEST

County recycling plans source separation.

(1) Existing law generally requires each county and city to adopt a comprehensive long-term general plan for the physical development of the county and city and requires the inclusion of various elements in the general plan

This bill would require a general plan to include a recycling element for the collection, disposition, and recycling of recyclable materials designated in the county recycling plan adopted as specified in (2) below

(2) Existing law requires every county, in cooperation with cities, to prepare and submit to the California Waste Management Board a county solid waste management plan Existing law requires that any person operating or proposing to operate a solid waste facilty obtain a solid waste facilities permit from the enforcement agency, as designated by each county

This bill would make a statement of legislative intent, define terms, and enact the Solid Waste Separation and Recycling Act of 1987 to require each enforcement agency by July 1, 1988, to adopt a county recycling plan as an amendment to the county solid waste management plan. The plan would be required to be approved by the board and to contain specified elements, including, among other things, the designation of recovery targets to recycle specified amounts of the municipal solid waste stream.

Each county would be required to take specified actions to provide recycling services, including entering into contracts or agreements, and each city, whether chartered or general, would be required to establish and implement a local recycling program by February 1, 1989, including providing solid waste collection systems and adopting ordinances requiring the separation of recyclable materials from the solid waste stream, as specified.

The board would be required to prepare a report by July 1, 1988, on the recycling of scraptires and to make recommendations to the Legislature and the Governor. The board would be prohibited from concurring in the issuance, modification, or revision of a solid waste facilities permit unless it is demonstrated that the county recycling plan's goals are incorporated into the permit conditions

The board would be authorized to adopt regulations to carry out the bill.

The bill would require each operator of a solid waste facilty to pay a fee to the board of $1 50 per ton of solid waste disposed of at the facility and would require the board to deposit these fees in the State Recycling Account, which the bill would establish in the General Fund The moneys in the State Recycling Account would be continuously appropriated to the board for expenditure in a specifed manner to provide grants, loans, county and city recycling program planning, and public information programs, and for the board's administrative expenses.

(3) Existing law requires all state departments and agencies to give purchase preference to cocompost and compost products

This bill would require all state departments and agencies, including the Department of Transportation, to review and modify all bid and paving material and subbase specifications to give purchase preference to recyclable asphalt pavement and paving materials utilizing recycled materials and to encourage the use of waste oil fuel, as specified

The bill would authorize a local agency to make, negotiate, or award a purchase of, or a contract, or agreement to purchase, recyclable materials without letting by contract to the lowest responsible bidder, if the amount of the purchase, contract, or agreement is less than $7,500

(4) Under the Personal Income Tax Law and Bank and Corporation Tax Law, a

taxpayer is entitled to a deduction with respect to the amortizable basis of any cogeneration equipment or alternative energy equipment, based on a period of either 12 months or 60 months.

This bill would include recycling equipment, as defined, within these provisions

(5) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates which do not exceed $500,000 statewide and other procedures for claims whose statewide costs exceed $500,000.

This bill would impose a state-mandated local program by requiring cities, counties, and districts to take specified actions concerning the recycling of solid waste and land use planning.

The bill would provide that, if the Commission on State Mandates determines that this bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to those statutory procedures and, if the statewide cost does not exceed $500,000, shall be made from the State Mandates Claims Fund.

LEGISLATIVE COUNSEL'S DIGEST

Medi-Cal

Existing law authorizes the State Department of Health Services to contract with one or more fiscal intermediaries meeting specified criteria in order to pay for Medi-Cal benefits.

This bill would, instead, require the department to contract with fiscal intermediaries in at least 3 geographic areas of the state so that at least 10% of Medi-Cal eligibles receive services paid for by fiscal intermediaries by December 31, 1989, would revise the definition of fiscal intermediary for those purposes and the criteria the fiscal intermediary is required to meet, and would require the department to enter into multiyear contracts after a fiscal intermediary completes 2 years of contracts with the department.

Under existing law, a fiscal intermediary contracting with the State Department of Health Services to provide covered Medi-Cal services in exchange for a premium, subscription charge, or capitation payment may contract for the provision of Medi-Cal services with any provider who would be eligible to provide services if services were to be provided on a fee-for-service basis without the use of a fiscal intermediary for those purposes.

This bill would authorize a fiscal intermediary to contract with such a provider so that payment to the provider is on different or more favorable terms if the provider agrees to be at risk for those services and to other terms and conditions required by the fiscal intermediary.

The bill would specify that the fiscal intermediary may contract with hospitals for the provision of inpatient services

The bill would require the State Department of Health Services to seek waivers of any and all federal requirements of Title XIX of the federal Social Security Act which may be necessary to carry out those provisions

LEGISLATIVE COUNSEL'S DIGEST

Disaster relief.

(1) Existing law establishes within the Reserve for Economic Uncertainties a Disaster Response-Emergency Operations Account, which is continuously appropriated, for allocation by the Director of Finance, upon an order of the Governor, to state and local agencies for costs incurred related to emergencies, as defined, declared by the Governor, including the costs of providing disaster victims assistance.

The bill would transfer an unspecified sum from the Reserve for Economic Uncertainties to the Disaster Response-Emergency Operations Account to be used as specified in the bill.

The bill would specify that $30,000,000 of the funds transferred under the bill shall be allocated by the Director of Finance to the State Department of Social Services to provide individual and family disaster assistance to persons incurring damage due to earthquakes occurring in October 1987, and that $2,000,000 be allocated to the Department of Commerce for emergency relocation assistance loans for small businesses.

The bill would specify that $47,000,000 of the funds transferred to the account under the bill shall be allocated by the Director of the Office of Emergency Services, to counties declared to be in need of disaster assistance by the Governor, as specified in the bill. Each eligible county would be required to submit claims to the state for these funds under a specified procedure.

The bill would require each board of supervisors in a county eligible to receive these funds to establish an advisory body, to be composed of members of each affected local agency incurring costs in the county due to earthquakes occurring in October 1987, in order to recommend to the board of supervisors how funds received by each county should be distributed by the county. The board of supervisors, subsequent to a public hearing, would be required to make the final decision on the distribution of these funds.

The bill would authorize the Office of Emergency Services to establish standards, which would not be subject to the review and approval of the Office of Administrative Law, for the allocation of funds to local agencies.

This bill would provide that the amount of financial assistance provided to an individual, business, or governmental entity under this paragraph or pursuant to any other program of state-funded disaster assistance shall be deducted from sums received in payment of damage claims asserted against the state, its agents, or employees for causing or contributing to the effects of earthquakes of October 1987 It would provide that this assistance shall constitute a lien in favor of the state against any recovery by a recipient of disaster aid from any other source for property damages arising out of or by virtue of that disaster.

Since the bill transfers money into a continuously appropriated account, it would constitute an appropriation

(2) Existing law, which becomes effective January 1, 1988, authorizes allocation of federal low-income housing credits by the Mortgage Bond and Tax Credit Allocation Committee.

This bill would require the committee to give preference in allocating 1988 federal low-income housing tax credits to rehabilitation of structures damaged or destroyed by the earthquakes of October 1987.

(3) Nothing in existing law exempts reconstruction due to damage caused by the earthquakes of October 1987 from local agency development fees.

This bill would exempt that reconstruction, as specified, from defined local agency

fees.

(4) Existing law authorizes the Department of Housing and Community Development to conduct various housing assistance programs.

This bill would require the department to conduct a Community Reconstruction Loan Program in areas proclaimed in a state of emergency by the Governor due to the October 1987 earthquakes. Under the program, the department would provide prescribed deferred-payment loans for rehabilitation of housing, structures used by small businesses, and structures used by nonprofit organizations to provide social services pursuant to agreements with affected counties and cities, which would delegate local administration responsibility to the city or county, its redevelopment agency, or housing authority. The bill would require preliminary applications to be submitted by counties and cities by December 8, 1987, with final applications due by January 8, 1988. The bill would authorize funding of a prescribed amount of loans prior to submission of the final application. The bill would exempt the department's rules for implementing this program from general provisions of law relating to administrative regulations.

For purposes of this program, the bill would create and continuously appropriate to the department a Community Reconstruction Loan Fund.

(5) Existing property tax law permits a county, by ordinance, to provide for the reassessment of certain real property which is damaged or destroyed as the result of misfortune or calamity as specified.

This bill would permit owners of eligible property, as defined, which is located in a county which has been proclaimed by the Governor to be in a state of disaster as the result of earthquakes occurring during October 1987, and which has adopted an ordinance referred to above, to apply for a deferral, without penalty or interest, of the first installment of regular secured roll property taxes for the 1987-88 fiscal year in conjunction with or in addition to the filing of an application for reassessment. This bill would provide for the making of allocations by the Controller upon certification by the Director of Finance, to counties in which this property tax deferral program is applicable to cover delinquencies in the 1st installment of 1987-88 fiscal year secured roll property taxes. This bill would require the tax collector and other county officials to perform various duties in connection with the administration and implementation of this program. This bill would also require counties which have received these delinquency allocations to remit to the Controller on or before December 31, 1988, an amount which is equal to the allocations previously received for 1987-88 fiscal year property tax delinquencies attributable to the 1st installment of secured roll taxes, less the amount of the property tax revenue lost in the 1987-88 fiscal year as the result of reduced assessments of property which was damaged or destroyed as the result of the earthquakes of October 1987.

This bill would permit those counties in which the property tax deferral program is applicable to enact an ordinance permitting owners of eligible property, as defined, to apply for the deferral of the payment of unpaid nondelinquent 1987-88 fiscal year supplemental roll taxes. If that ordinance is adopted, the bill would provide for the making of allocations by the Controller upon certification by the Director of Finance of the amount of supplemental roll taxes so deferred. This bill would also require the counties receiving these allocations to remit to the Controller on or before December 31, 1988, an amount equal to the amount of the allocations received less the amount of its supplemental roll property tax revenue lost in the 1987-88 fiscal year as the result of reduced assessments of property which was damaged or destroyed as the result of the earthquakes of October 1987 or for which a deferral of supplemental roll taxes was claimed.

(6) Existing provisions of the Personal Income Tax Law and the Bank and Corporation Tax Law permit the deduction of losses resulting from fire, storm, shipwreck, or other casualty, or from theft and not compensated by insurance in computing income subject to taxation under those laws.

This bill would permit disaster losses resulting from earthquakes occurring in October 1987 in California to be carried forward to each of the 5 taxable or income years succeeding the year of the loss if the loss exceeds the taxable or net income of the taxpayer of the loss year. This carry forward would be applicable to any loss sustained during October 1987 as the result of earthquakes occurring in any county in this state which was proclaimed by the Governor to be in a state of emergency.

(7) This bill would authorize the Superintendent of Public Instruction to reimburse specified costs of school districts and county offices of education for damage to eligible facilities resulting from the earthquake of October 1, 1987, and any aftershock occurring no later than 30 days after that earthquake, and would allocate from the Disaster Response-Emergency Operations Account in the Reserve for Economic Uncertainties, $20,000,000 to the Superintendent of Public Instruction for that purpose. The bill would also allocate $23,000,000 to the Chancellor of the California State University, and

$2,000,000 to the Board of Governors of the California Community Colleges, for damages to campus facilities resulting from that earthquake or any aftershock of that earthquake, thereby resulting in an appropriation.

(8) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement, including the creation of a State Mandates Claims Fund to pay the costs of mandates which do not exceed $500,000 statewide and other procedures for claims whose statewide costs exceed $500,000.

This bill would impose state-mandated local programs in connection with the required procedure for the allocation of grant moneys by counties to local agencies and the reporting of costs of all local agencies by counties incident to claiming these grant moneys

This bill would provide that no reimbursement shall be made from the State Mandates Claims Fund for costs mandated by the state pursuant to this act This bill would provide, however, that costs mandated upon local agencies by this bill would be paid for out of funds appropriated pursuant to the bill.

(9) The bill would provide that if any provison of this bill or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the bill which can be given effect without the invalid provision or application, and to this end the provisions of this bill are severable.

(10) The bill would declare that it is to take effect immediately as an urgency statute

This bill would additionally require health care service plans which exclude a specific health care service or method of treatment, or which exclude the services of a specific license classification of health care providers or limit access to a specific license classification of providers by requiring referral from a member of another classification of providers to inform prospective enrollees how health care services, methods of treatment, and license classifications of providers may be excluded or limited by the plan, and that participation in the plan will affect the person's choice in this regard.

The required loss benefits would provide for basic loss benefits with an overall limit of $35,000; for medical expenses in an amount not to exceed $15,000; for work loss benefits, not to exceed $24,000, and for funeral benefits of $2,500. Insurers could offer additional benefits. Persons injured in a motor vehicle accident would generally be entitled to receive those benefits regardless of fault.

The bill would establish procedures for claiming those benefits, including the arbitration of disputes. The costs of arbitration would, in part, be paid from a fee imposed on insurers. Since the fee would be deposited in the continuously appropriated Insurance Fund it would result in an appropriation.

The bill would provide that a tort victim would have no right to recover any damages in tort for medical expenses or work loss for which basic loss benefits would be paid.

The bill would provide that no person shall recover noneconomic loss for personal injury unless the injury results in death, results in serious and permanent disfigurement, or is both serious and permanent.

(13) Under existing law, the Bureau of Fraudulent Claims of the Department of Insurance has the duty to investigate any false or fraudulent claim Under existing law, the provisions relating to the bureau will be repealed on January 1, 1992.

This bill would provide that the bureau has the duty to investigate any violation of any criminal statute relating to fraudulent claims, and would make related changes. The bill would authorize the commissioner to direct the bureau to prosecute violations that a district attorney does not prosecute. The bill would also delete the provision that would eliminate the bureau on January 1, 1992.

(14) The bill would also establish the Automobile Theft Prevention Bureau in the Department of the California Highway Patrol to provide financial support to reduce automobile theft. The bureau would be supported by a $1 fee collected by insurers for each insured vehicle, which money would be deposited into the Automobile Theft Prevention Fund which would be created by the bill.

(15) Existing law generally requires drivers and owners of motor vehicles to maintain proof of financial responsibility, which usually is in the form of insurance. The insurance policy is required to be in the amountof not less than $15,000 for bodily injury or death to one person, subject to an aggregate limit of $30,000.

This bill would reduce those requirements to $10,000 and $20,000 respectively, and would make related changes.

(16) The bill become operative only if AB 4325 is enacted

(17) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement
