Section 1. Section 3627a of the Political Code is hereby amended to read as follows:

3627a. Notes, debentures, shares of capital stock, bonds, deeds of trust, mortgages, and any legal or equitable interest therein, of the classes taxable to the owner thereof under the provisions of section 14 of Article XIII of the Constitution of this State, are hereby taxed upon their actual value at the rate of two-tenths of one per cent. Solvent credits, of the class taxable to the owner thereof, under the provisions of section 14 of Article XIII of said Constitution are hereby taxed upon their actual value at the rate of one-tenth of one per cent. The property aforesaid, except solvent credits, shall no longer be taxable under the provisions of this section if and when a net income tax shall be passed or adopted in this State. Upon the passage or adoption of such tax and from the time such income tax becomes effective such net income tax shall be in lieu of the tax herein provided for upon notes, debentures, shares of capital stock, bonds, deeds of trust, mortgages and any legal or equitable interest therein. Provided, however, that any and all taxes imposed herein on such property prior to the passage or adoption of such net income tax and the effective date thereof shall remain fully collectible and distributable hereunder.

Property taxable under the provisions of this section shall be taxed to the owner or possessor of the fee simple estate or life estate therein, if such estate has its situs within this State. If any property taxable under the provisions of this section is held in trust by any person, association, or corporation domiciled or the principal place of business of which is located in this State, such property shall be taxable solely to the trustee thereof. Such tax to the possessor of such property or owner of the fee simple estate or life estate therein, or trustee, shall be deemed to include the entire tax upon all legal or equitable interest in such property. If the property taxed at its situs in this State is a legal or equitable interest
in property in which the fee simple estate or the major portion thereof has its situs outside the State, but taxable if within this State, such legal or equitable interest shall be taxed to the owner or possessor or trustee thereof at the actual value of such interest. In determining the actual value of an equitable or legal interest in such property there shall be considered as determining the value of said equitable or legal interest only that property which would be taxable if it had its situs within this State.

The tax hereby imposed upon said property shall be assessed, equalized, levied and collected in the same manner as are other county and city and county taxes, except as hereinafter otherwise provided, and shall be in lieu of all other property taxes thereon.

The proceeds of said tax shall be paid into the treasury of the county or city and county in which it is collected and shall be distributed therefrom by the county or city and county auditor to the county or city and county and to the city and school districts within which said property has its situs as follows:

If the property has its situs within a city and a school district or school districts, the proceeds shall be distributed one-third to the city, one-third to the school district or school districts, and one-third to the county in which said city is located; and if the property has its situs outside of a city, but within a school district or school districts, the proceeds shall be distributed one-half to the school district or school districts and one-half to the county in which the property is situated. In the event that such property has its situs within the boundaries of an elementary school district or districts and a high school district or districts, then the same shall be divided equally between the said elementary school district or districts and the high school district or districts, it being the purpose of this section to divide the proceeds allotted to the support of schools hereby equally between districts supporting elementary schools and districts supporting high schools excluding from revenue derived therefrom all other educational districts of any kind or description.

The details of the method of such distribution shall be supplied by the county or city and county auditor, shall be approved by the board of supervisors of such county or city and county, and shall fairly carry out the purpose of this section.

Any person, partnership, corporation, association or other organization owning, controlling, or in possession of any such notes, debentures, shares of capital stock, bonds, solvent credits, deeds of trust, mortgages, or any legal or equitable interest therein taxable to him or it hereunder shall return the same in the manner provided for the return of other property to the assessor of each county or city and county between the first Monday in March and the first Monday in July of each year.
In the event of the failure or neglect of any person to return such taxable property between the said dates, it shall, upon the discovery of the escape, be assessed and levied upon, and entry thereof immediately made upon the assessment roll, such entry to be followed by the words "penalty for failure to file return within the time required by law." Thereupon, a penalty shall attach to the tax so levied and entered in an amount equal to two times the tax.

The tax imposed herein shall become due and payable at noon on the first Monday in March, 1929, and on the first Monday in March annually thereafter, unless the same be made a lien upon real estate under other provisions of this code, all of which are made applicable to the tax levied under the provisions of this section.

The authority herein granted to the assessors to place any tax or penalty upon property which has escaped taxation upon the assessment or tax roll of the year for which said property should have been assessed or taxed shall be limited to a period of not more than three years from the date upon which the lien attaches for the current assessment roll.

Nothing herein contained shall require the county or city and county assessor as a condition precedent to placing such penalty upon the assessment roll, or the county or city and county in collecting such tax and penalty, to establish any intention on the part of the taxpayer to defraud, deceive or evade the assessing or taxing officials.

[Approved by the Governor July 20, 1935. In effect September 15, 1935]

The people of the State of California do enact as follows:

Section 1. Section 1 of the act cited in the title hereof is hereby amended to read as follows:

Section 1. All coal, oil, oil shale, gas, phosphate, sodium, and other mineral deposits in lands belonging to the State, or which may become the property of the State, are hereby reserved to the State; provided, however, that nothing in this act shall apply to lands acquired by the State on a sale of delinquent taxes, except such land, the deed for which is required to be filed in the Surveyor General's office. Such deposits are reserved from sale except upon a rental and royalty basis, as herein provided for; and a purchaser of any lands belonging to the State, or which may become the property of the State, shall acquire no right, title or interest in, or to, such deposits except as hereinafter expressly provided; and the right of such purchaser shall be subject to the reservation of all coal, oil, oil shale, gas, phosphate, sodium, and other mineral deposits, and to the conditions and limitations prescribed by law providing for the State, and persons authorized by it pursuant to section 10 of this act or otherwise.
prospect for, mine, and remove such deposits, and to occupy and use so much of the surface of said land as may be required for all purposes reasonably extending to the mining and removal of such deposits therefrom.

Sec. 2. Section 4 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 4. The Surveyor General is hereby authorized, upon the payment to him of fifty cents per acre, for each acre in area embraced within the boundaries of the lands proposed to be prospected and under such rules and regulations as he may prescribe, to grant (a) to any person or association of persons, who are citizens of the United States or who have declared their intention of becoming such, or who are eligible to citizenship under the laws of the United States and are citizens of any country, dependency, colony or province, the laws, customs and regulations of which permit grant of similar or like privileges to citizens of the United States, or (b) to any corporation ninety per cent or more of the stock of which is owned by citizens of the United States or by citizens of any such country, dependency, colony or province whose citizens are eligible to citizenship under the laws of the United States, a prospecting permit, as hereinafter described; provided, however, that the Surveyor General is hereby authorized to issue such a prospecting permit to any alien person entitled thereto by virtue of any treaty between the United States and the nation or country of which such alien person is a citizen or subject. Such prospecting permit shall give the exclusive right, for a period not exceeding two years, to prospect for oil or gas, upon not exceeding six hundred forty acres of land wherein such deposits of oil or gas belong to the State and are not within any known geological structure of a producing oil or gas field, upon condition that the permittee shall begin drilling operations within six months from the date of the permit, and shall within one year from and after the date of the permit, drill one or more wells for oil or gas to a depth of not less than one thousand feet each, unless valuable deposits of oil or gas shall be sooner discovered, and shall, within two years from date of the permit, drill for oil or gas to an aggregate depth of not less than two thousand feet unless valuable deposits of oil and gas shall be sooner discovered. The Surveyor General may, if he shall find that the permittee has been unable with the exercise of diligence to test the land in the time granted by the permit, extend any such permit for such time, not exceeding two years, and upon such conditions as he shall prescribe. Whether the lands sought in any such application and permit are surveyed or unsurveyed the applicant shall, prior to filing his application for permit, locate such land in a reasonably compact form and according to the legal subdivisions of the public land surveys if the land be surveyed; and in an approximately square or rectangular tract, if the land be an unsurveyed tract, the length of which shall not exceed two and one-half times its
width; the land to be surveyed by the Surveyor General at
the expense of the applicant for the permit in such form as the
Surveyor General shall deem to be to the best interest of the
State; provided, however, that in case of prospecting permits
and leases to river beds, lake beds, overflowed, tide and sub-
merged lands, the width or length of the prospecting permit or
lease along the shore line, measured on an east and west or
north and south line, shall not exceed one-quarter mile.

If the applicant shall cause to be erected upon the land for
which a permit is sought a monument not less than four feet
high, at some conspicuous place thereon, and shall post a notice
in writing on or near said monument, stating that an applica-
tion for permit will be made within thirty days after the date
of posting said notice, giving the name of the applicant, the
date of the notice, and such a general description of the land
to be covered by such permit by reference to courses and dis-
tances from such monument and such other natural objects
and permanent monument as will reasonably identify the land,
stating the amount thereof in acres, he shall during the period
of thirty days following such marking and posting, be entitled
to a preferential right over others to a permit for the land so
identified; provided, however, that applicant shall, as a part
of his application for a permit, show that within two days after
the posting of the said notice, he recorded a copy of the same
in the county recorder's office of the county in which the said
land is situated.

The applicant shall, within ninety days after receiving a
permit, mark each of the corners of the tract described in the
permit upon the ground with substantial monuments, so that
the boundaries can be readily traced on the ground, and shall
post in a conspicuous place upon the lands a notice that such
permit has been granted and a description of the lands covered
thereby; provided, however, that where the boundaries of the
land sought to be prospected or developed under lease are
wholly or partially in river or lake beds, overflowed, tide and
submerged lands, the notice shall be conspicuously posted on a
monument as close to a corner of the land as possible and shall
specifically describe the area to be developed by courses and dis-
tances so that the limits of the area can be easily determined;
provided, further, however, that in no case shall permits or
leases be granted covering tide, overflowed or submerged lands
fronting on an incorporated city, or for a distance of one mile
on either side thereof; provided, further, however, that in case
of an application for a permit or a lease covering tide, over-
flowed or submerged land by anyone other than the littoral or
riparian proprietor, said littoral or riparian proprietor shall
have six months within which to file an application for a permit
or lease, but if said littoral or riparian proprietor fails to
comply with the requirements of this act and its rules and reg-
ulations made in pursuance hereof, his preferential rights shall
thereupon cease and forever be terminated, and the original
applicant shall be permitted to proceed with his application;
provided, further, that after the approval of this act and prior to the first day of September, 1929, no monument shall be erected, or notice posted upon or notice recorded in relation to any tide, overflowed or submerged lands of this State, or application for permit presented to or received by the Surveyor General for or in relation to any tide, overflowed or submerged lands of this State as provided in this section; provided, further, that no permit to prospect or drill for oil or gas in or upon any tide, overflowed or submerged lands shall ever be granted by the Surveyor General upon an application made between the date of approval of this act and the first day of September, 1929. Nothing contained in the two provisos last preceding this clause, shall, however, be deemed or construed to prevent any littoral owner from exercising the preference right given by the terms of this section, nor as affecting the rights under this act of the holder of any permit or lease heretofore issued and now outstanding nor of any applicant therefor who has fully complied heretofore with the provisions of this act, nor as recognizing, ratifying or validating any rights so claimed.

Sec. 3. Section 5 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 5. Upon establishing to the satisfaction of the Surveyor General that valuable deposits of oil or gas have been discovered within the limits of the land embraced in any permit, the permittee shall be entitled to a lease for one-fourth of the land embraced in the prospecting permit; provided, that the permittee shall be granted a lease for as much as one hundred sixty acres of said lands, if there be that number of acres within the permit. The area to be selected by the permittee shall be in compact form and if surveyed, to be described by the legal subdivision of the public land surveys; if unsurveyed, to be surveyed by the Surveyor General at the expense of the applicant for lease in accordance with rules and regulations to be prescribed by the Surveyor General, and the lands leased shall be confirmed to and taken in accordance with the legal subdivisions of such surveys; deposits made to cover expense of survey shall be deemed appropriated for that purpose, and any excess deposit may be repaid to the person or persons making such deposits, or their legal representative. Such lease shall be for a term of twenty years upon a royalty of five per centum in amount or value of the production and the annual payment in advance of a rental of one dollar per acre, the rental paid for any one year to be credited against the royalties as they accrue for that year, with the right of renewal as prescribed in section 8 hereof. The permittee shall also be entitled to a preference right to a lease for the remainder of the land in his prospecting permit at a royalty of not less than twelve and one-half per centum in amount or value of the production, and under such other conditions as are fixed for oil or gas leases in this act, including the right of renewal as prescribed in section 8 hereof, the bonus and royalty to be determined by competitive bidding or fixed by such other method as the
Surveyor General may by regulations prescribe; provided, that the Surveyor General shall have the right to reject any and all bids.

**SEC. 4.** Section 10 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 10. For the purpose, however, of promoting the sale of State land, and the more active cooperation of the owner of the soil, and to facilitate the development of its mineral resources the State hereby constitutes the purchaser of the soil, its agent for the purposes herein named and in consideration hereof, relinquishes to and vests in the purchaser of State lands an undivided fifteen-sixteenths of all oil and gas and the value of the same that may be upon or within any State land purchased after the passage of this act. The purchaser of the soil is hereby authorized to sell or lease to any person, association of persons, or corporation which at the time of said proposed sale or lease possesses the qualifications provided in section 4 of this act the oil and gas and other minerals that may be thereon or therein upon such terms and conditions as such purchaser and owner may deem best, subject, however, to the provisions of this act and the reservations herein contained; and provided, further, that the lessee or purchaser shall in every case pay to the State an undivided one-sixteenth of the mineral produced or the value thereof at the well or mine as may be determined by the Surveyor General; provided, further, however, that upon the discovery of oil or gas in paying quantities on adjoining lands the purchaser shall within three months thereafter begin or cause to be started the drilling of a well upon his land, which drilling shall be continuous, as may be provided for by appropriate rules and regulations, prescribed by the Surveyor General.

**SEC. 5.** Section 12 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 12. No person, association of persons, or corporation shall take or hold, either directly or indirectly, under the terms of this act, permits or leases exceeding in aggregate acreage 640 acres for each of the minerals reserved to the State under the terms of this act; and no person, association of persons, or corporation shall take or hold at any one time any interest or interests as a member of an association or associations, or as a stockholder of a corporation or corporations holding a permit or permits, lease or leases, under the provisions hereof, which, together with the area embraced in any direct holding of a permit or permits, lease or leases, under this act, or which, together with any other interest or interests, as a member of an association or associations, or as a stockholder of a corporation or corporations holding a permit or permits, lease or leases, under the provisions hereof, for any kind of said minerals leased hereunder, exceeds in the aggregate an amount equivalent to the maximum number of acres of the respective kinds of minerals allowed to any one per-
mittee or lessee under this act; provided, however, that for
the purposes of this section, a person, association of persons,
or corporation which is a member of an association or stock-
holder in a corporation holding a permit or permits, lease or
leases, under the provisions of this act, shall be chargeable
only with that proportion of the acreage of said permit or
permits, lease or leases, held by said association or corpo-
ration, which his or its interest in said association bears to
the entire interest held by all the members in said association or
which his or its stock holdings in said corporation bear to
the stock held by all the stockholders of said corporation; and
provided, further, that for the purposes of this section, a per-
son, association of persons, or corporation holding a fractional
undivided interest, whether it be the legal or beneficial inter-
est, in a permit or permits, lease or leases, shall be charge-
able only with that proportion of the acreage of said permit
or permits, lease or leases, which his or its fractional undi-
vided interest bears to the entire interests held in said permit
or permits, lease or leases, by all persons, associations of
persons, or corporations.

Any interest held in violation of this act shall be forfeited
to the State of California by appropriate proceedings for
that purpose in the superior court for the county in which
the property, or some part thereof, is located, except that
any ownership or interest forbidden in this act which may be
acquired by descent, will, judgment, or decree may be held
for two years and not longer after its acquisition. Nothing
herein contained shall be construed to limit or to prevent any
number of permittees or lessees under the provisions of this
act from combining their several interests so far as may be
necessary for the purposes of constructing and carrying on
the business of a refinery, or of establishing and construct-
ing as a common carrier a pipe line or lines of railroads to
be operated and used by them jointly in the transportation of
oil from their several wells, or from the wells of other lessees
under this act, or the transportation of coal.

And provided further, that for the purpose of more prop-
erly conserving the natural resources of any single oil or
gas pool or field, permittees and lessees thereof and their
representatives may unite with each other jointly or separ-
ately, or jointly or separately with others owning or operat-
ings lands not belonging to the State, in collectively adopting
and operating under a cooperative or unit plan of develop-
ment or operation of said pool or field, whenever determined
and certified by the Surveyor General to be necessary or
advisable in the public interest, and the Surveyor General is
thereunto authorized in his discretion, with the consent of
the holders of leases or permits involved, to establish, alter,
change and revoke, drilling, and producing requirements of
such leases or permits, and to make such regulations with
reference to such leases and permits with like consent on the
part of the lessee or lessees and permittees in connection with
the institution and operation of any such cooperative or unit plan as he may deem necessary or proper to secure the proper protection of the interest of the State of California.

And further provided, that when any permit immediately adjacent to another permit or lease upon which valuable deposits of oil or gas have been discovered, and in good standing and not expired on January 1, 1933, has been included, with the approval of the Surveyor General, in a unit plan of development or operation under this section, the Surveyor General may issue a lease for the area of the permit so included in said plan without further proof of discovery, upon such royalty requirements as may appear to him to be to the best interests of the State, but not to exceed a royalty of twelve and one-half (12½) per centum.

And provided further, that the Surveyor General is hereby authorized, on such conditions as he may prescribe, to approve operating, drilling or development contracts made by one or more permittees or lessees in oil or gas leases or permits with one or more persons, associations, or corporations, whenever in his discretion and regardless of acreage limitations, provided for in this section, the conservation of natural products or the public convenience or necessity may require it, or the interests of the State of California may be best subserved thereby.

And provided further, that whenever it appears to the Surveyor General that wells now drilled upon private lands are draining oil or gas from lands owned by the State of California upon which drilling is now prohibited by law, the Surveyor General is hereby authorized and empowered on behalf of the State of California to negotiate in the name of and on behalf of the State of California, agreements whereby the State of California shall be compensated for such drainage.

And provided further, that, if any of lands or deposits leased under the provisions of this act shall be subleased, trustees, possessed, or controlled by any device permanently, temporarily, directly, indirectly, tacitly, or in any manner whatsoever, so that they form part of, or are in anywise controlled by any combination in the form of an unlawful trust, with consent of lessee, or form the subject of any contract or conspiracy in restraint of trade in the mining or selling of coal, phosphate, oil, oil shale, gas, or sodium entered into by the lessee, or any agreement or understanding, written, verbal, or otherwise to which such lessee shall be a party, of which his or its output is to be or become the subject, to control the price or prices thereof or of any holding of such lands by any individual, partnership, association, corporation, or control in excess of the amounts of lands provided in this act, the lease thereof shall be forfeited by appropriate court proceedings.

Failure to comply with the provisions of this section or the regulations prescribed by the Surveyor General shall be ground for forfeiture of the grant by appropriate proceedings prosecuted in the superior court for the county in which the property, or some part thereof, is located; and, provided, further, that all of the rights and privileges as are now, or as may hereafter be provided by law, respecting the acquisition of rights of ingress, egress and regress over the property of another, by proceedings in eminent domain, are hereby expressly given to a permittee or lessee so that such permittee or lessee may carry on the operations contemplated under the terms of this act.

to mean and include any store or stores, or any mercantile
establishment or establishments which are owned, operated,
maintained, or controlled by the same person, in which goods,
wares or merchandise of any kind are sold at retail, provided,
however, the term "store" shall not apply to any office or
warehouse maintained by a manufacturer in the distribution
of its merchandise if no orders therefor are taken and no
sales thereof are made in the premises of such office or ware-
house; and provided, further, that the term "store" shall not
include any place or places of business commonly known as
filling stations, or gasoline bulk plants, engaged primarily in
the sale or distribution of gasoline or other petroleum prod-

Sec. 2. From and after the first day of October, 1935, it shall be unlawful for any person to operate, maintain, open or establish any store in this State without first having obtained a license so to do from the board as hereinafter provided.

Sec. 3. Any person desiring to operate, maintain, open, or establish a store in this State shall apply to the board for a license so to do. The application for a license shall be made on a form prescribed and furnished by the board, and shall set forth the name of the owner, manager, trustee, lessee, receiver or other person desiring such license; the name of such store, the location thereof and such other facts as the board may require.

Each such application shall be accompanied by a filing fee of fifty cents and by a license fee as prescribed in section 6 of this act.

Sec. 4. As soon as practicable after the receipt of such application the board shall carefully examine such application to ascertain whether it is in the proper form and contains the necessary and requisite information. If, upon examination, the board shall find that any such application is not in proper
form and does not contain the necessary and requisite information, he shall return such application for correction.

If an application is found to be satisfactory, and if the filing and license fees, as herein prescribed, shall have been paid, the board shall issue to the applicant a license for each store for which an application for a license shall have been made.

Each licensee shall display the license so issued in a conspicuous place in the store for which such license is issued.

SEC. 8. The provisions of this act shall be construed to apply to every person, firm, corporation, association or copartnership, either domestic or foreign, which is controlled or held with others by a majority stock ownership or ultimately controlled or directed by one management or association of ultimate management.

SEC. 9. Any person, firm, corporation, copartnership or association who shall violate any of the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be fined in any sum not less than two hundred dollars and each and every day that such violation shall continue, shall constitute a separate and distinct offense.

SEC. 10. The board shall administer and enforce the collection of the filing and licensing fees imposed by this act. It may make and establish such rules not inconsistent with this act as it deems necessary to enforce its provisions. It shall prepare forms or applications and licenses as provided herein.

SEC. 11. All moneys collected under this act by the board shall be transmitted forthwith to the State Treasurer to be deposited in the State treasury to the credit of the general fund.

SEC. 12. At any time within two years after the delinquency of any license fee the board may bring an action in a court of competent jurisdiction in the name of the people of the State of California to collect the amount delinquent together with interest thereon at one per cent per month from the date such fee was due. The Attorney General must prosecute such action and the provisions of the Code of Civil Procedure relating to service and summons, pleadings, proofs, trials and appeals are applicable to the proceedings herein provided for. CHAPTER 850.

Stat. 1931, p. 1442, amended
of California, and make an appropriation therefor," approved June 9, 1931, relating to retirement of members of the California Highway Patrol.

Approved by the Governor July 20, 1935. In effect September 15, 1935.

The people of the State of California do enact as follows:

SECTION 1. Section 5 of the act cited in the title hereof is hereby amended to read as follows:

Sec. 5. "Member" shall mean any person included in the membership of the retirement system set forth in sections 26, 27, 28 and 28a, and not excluded in sections 29 to 40, inclusive, of this act;

Sec. 2. Section 13 of said act is hereby amended to read as follows:

Sec. 13. "Compensation earnable" by a member shall mean the average monthly compensation as determined by the board upon the basis of the average time put in by members in the same group or class of employment and at the same rate of pay, it being assumed that during any absence said member was in the position held by him at the beginning of the absence and that prior to entering State service he was in the position first held by him in such service. But such "compensation earnable" shall not exceed four hundred sixteen dollars and sixty-six cents per month.

Sec. 3. A new section is hereby added to said act to be numbered section 28a and to read as follows:

Sec. 28a. Persons who are members of the California Highway Patrol become and remain members of the retirement system in the same manner as in the case of other eligible State officers or employees, except that when any such person is disabled or killed by injury or illness arising out of and in the course of such duties, such person, in respect to such disability or death, is deemed a member of the retirement system while in State service prior to the completion of the six months of service referred to in section 27, to the same extent as if such six months of service was completed prior to such disability or death.

"Member of the California Highway Patrol," for the purpose of the retirement system, includes persons employed in the Motor Vehicle Department whose principal duties consist of active law enforcement service and excludes such persons whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or otherwise clearly not falling within the scope of active law enforcement service, even though such person is subject to occasional call, or is occasionally called upon, to perform duties within the scope of active law enforcement service.

Sec. 4. Section 65 of said act is hereby amended to read as follows:
Sec. 65. The normal rates of contribution of members, other than members of the California Highway Patrol, shall be based on sex and age at the nearest birthday at the time of entrance into the retirement system. The normal rates of contribution shall be such as will provide an average annuity at age sixty-five equal to one one-hundred-fortieth of the final compensation of members, according to the tables adopted by the board, for each year of service rendered after entering the system.

Sec. 5. A new section to be numbered section 65a is hereby added to said act to read as follows:

Sec. 65a. The normal rates of contribution of each member, who is also a member of the California Highway Patrol, shall be based on his age at July 1, 1935, or at his later entrance into the retirement system, and his age when he became a member of the said patrol, both ages being taken to the next lower completed quarter year. The age at entrance into the California Highway Patrol shall be determined by deducting the total State service in said patrol credited to the member at July 1, 1935, from his age at that date. The normal rates of contribution of each such member who became a member of the said patrol at or below age forty-five shall be such as, on the average for such member, if his service on full salary be uninterrupted and when accumulated with regular interest, added to the equal accumulated contributions of the State and applied according to the tables adopted by the board, will provide a retirement allowance upon retirement for service at the age of sixty years, or upon completion of twenty years of service at an age higher than sixty years, equal to one-half of his final compensation, less that part of the retirement allowance set forth in section 83a, which is to be provided by contributions of the State on account of service rendered prior to January 1, 1932, if such member affirmatively exercises the option in section 65d; otherwise, less a pension calculated in the same manner as the pension in section 83a, but on the basis of service rendered by him in the California Highway Patrol prior to July 1, 1935. If such member entered the said patrol at an age greater than forty-five years, then his normal rate of contribution shall be such as will provide an average annuity at age sixty-five equal to one-eighth of his final compensation, according to tables adopted by the board, for each year of service after July 1, 1935, or after entrance into the retirement system if he affirmatively exercises the option in section 65d.

Sec. 6. A new section is hereby added to said act to be numbered section 65b and to read as follows:

Sec. 65b. If a member ceases to be a member of the California Highway Patrol and continues to be a member of the retirement system in a different employment status, or if the reverse be true, then the accumulated contributions standing to his credit or redeposited by him shall remain in his individual account, and the rate of his contribution thereafter
shall be the normal rate provided in section 65c for persons in his new group or class of employment and at his age when he first became a member, subject to section 76 hereof in the event he did not redeposit accumulated contributions withdrawn from the system.

Sec. 7. A new section to be numbered 65c is hereby added to said act to read as follows:

Sec. 65c. The actual amount of annuity receivable by any member upon retirement shall be the actuarial equivalent of his accumulated contributions, as provided in section 81. Until revised as a result of the actuarial valuation provided for in section 51, the rate of contribution of each member shall be that percentage of his compensation shown in the following tables according to age and sex at the time of entry into the retirement system:

SEC. 8. A new section is hereby added to said act to be numbered section 65d and to read as follows:

Sec. 65d. The rates of contribution shown in section 65c for members of the California Highway Patrol shall apply on and after July 1, 1935. Each of such members, however, shall have the option of contributing a sum sufficient to make the amount of the accumulated contributions standing to his credit on that date the same as such amount would have been had he been contributing at the rate, from and after the effective date of his membership in the retirement system, which would have applied to him at such effective date if said rates for the Highway Patrol had been then in effect. If such option is affirmatively exercised, then the rate of contribution for such member on and after July 1, 1935, shall be based on his age at such effective date and his age at the date of entrance into the Highway Patrol.

SEC. 9. Section 78 of said act is hereby amended to read as follows:

Sec. 78. From and after January 1, 1933, until January 1, 1937, every member shall be retired on the first day of the calendar month next succeeding that in which he attains the age of seventy-five years. On or after January 1, 1937, every member who is also a member of the California Highway Patrol, and who at that time has attained the age of sixty-five years shall be retired forthwith, and thereafter every such member must be retired on the first day of the calendar month next succeeding that in which he attains the age of sixty-five years. On and after January 1, 1937, every other member who at that time has attained the age of seventy years shall be retired forthwith, and thereafter every such other member
must be retired on the first day of the calendar month next succeeding that in which he attains the age of seventy years.

Sec. 10. Section 83 of said act is hereby amended to read as follows:

Sec. 83. An additional pension for members other than members of the California Highway Patrol, purchased by the contributions of the State. Such additional pension shall be equal to one-seventieth of the average annual compensation earnable by him during the three years ending December 31, 1931, multiplied by the number of years of prior service credited to him, except that if a member retires before attaining the age of sixty-five years, the additional pension shall be reduced to that amount which the value of the pension computed as provided in this paragraph as deferred to age sixty-five, will purchase at the actual age of retirement.

Sec. 11. A new section is hereby added to said act to be numbered section 83a and to read as follows:

Sec. 83a. An additional pension for members who are also members of the California Highway Patrol, purchased by contributions of the State. Such additional pension shall be the same percentage of his final compensation, regardless of his age at retirement, for each year of service rendered by him in the California Highway Patrol, prior to January 1, 1932, as the contributions of the member and the State are calculated to provide upon retirement for service at sixty years of age or upon completion of twenty years of service at an age higher than sixty years or upon retirement with less than twenty years of service at age sixty-five, for each year of service after said date.

Sec. 12. Section 85 of said act is hereby amended to read as follows:

Sec. 85. Any member who is also a member of the California Highway Patrol shall be retired for disability regardless of age or amount of service, if incapacitated for the performance of duty as the result of an injury or disease arising out of and in the course of his employment. Incapacity for performance of duty shall be determined by the Board of Administration, but the Industrial Accident Commission shall determine, in the same manner as for all other State employees, whether such incapacity is the result of injury or disease arising out of and in the course of employment. Any such member incapacitated for the performance of duty by reason of a cause not included in the immediately preceding sentence, and any other member so incapacitated, regardless of the cause, shall be retired regardless of age but only after ten years of service to the State.

Sec. 13. A new section is hereby added to said act to be numbered section 85a and to read as follows:

Sec. 85a. Subject to the requirements as to service and cause of disability stated in section 85 and upon the application of a member or upon the application of the head of the office or department in which such member is or was last
employed, or any other person on behalf of such member, while such member is in State service, within four months after such member's discontinuance of State service, or while such member continuously, from the date of discontinuance of State service to the time of the application or motion, is physically or mentally incapacitated to perform his duties, may apply for, or the board upon its own motion may order, a medical examination to determine the existence of such incapacity. Upon the receipt of such application, the board shall order such medical examination. If the medical examination shows to the satisfaction of the board, that the member is permanently incapacitated physically or mentally for the performance of his duties in the State service, the board shall forthwith retire the member for disability. The board shall secure such medical service and advice as is necessary to carry out the purpose of this section and of sections 90 to 94, inclusive, of this act, and shall pay for such medical services and advice such compensation as the board deems reasonable.

Sec. 14. Section 86 of said act is hereby amended to read as follows:

Sec. 86. Upon retirement for disability, a member who is not a member of the California Highway Patrol and who has attained the age of sixty years shall receive a service retirement allowance as provided in sections 81 to 83a, inclusive, of this act. Upon retirement of a member, who is also a member of the said highway patrol, for disability resulting from injury or disease arising out of and in the course of employment, such member shall receive a retirement allowance of fifty per centum of his final compensation or, if he qualified as to age and service for service retirement under section 79, then such member shall receive a service retirement allowance as provided in sections 81 to 83, both inclusive. The allowance shall be provided by the contributions of the member and of the State in the same manner but not in the same amounts as is set forth in sections 87 and 88 for other disability retirement. Every other member retired for disability shall receive a retirement allowance which shall consist of:

Sec. 100. Upon the death before retirement of a member while in the State service, or within four months after the discontinuance of State service, or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of State service, the retirement system shall be liable for a death benefit, which, if an amount is due under clause (3) next following, and if there is a surviving wife or surviving children, shall be paid in monthly installments and to the surviving wife and children as prescribed therein, otherwise such death benefit shall be paid to his estate, or to such person having an insurable interest in his life as he has nominated by written designation.
duly executed and filed with the retirement board. Such death benefit shall consist of:

1. His accumulated contributions, and in addition thereto.

2. An amount, provided from contributions by the State, which shall be equal to one-twelfth of the annual compensation earnable by the deceased during the twelve months immediately preceding his death, multiplied by the number of completed years of service under the system, but not to exceed fifty per centum of such compensation.

If such member is a member of the California Highway Patrol and if, as determined by the Industrial Accident Commission in the same manner as for all other State employees, death shall be the result of injury or disease arising out of and in the course of employment, then in addition to the amounts set forth in clauses (1) and (2), there shall be paid

3. An amount sufficient, when added to the amounts provided in the next preceding paragraphs (1) and (2), to provide, when applied according to tables adopted by the board, a monthly death benefit allowance, equal to one-half of the compensation earnable by such member during the five years immediately preceding his death, to be paid to the surviving wife to whom said member was married prior to sustaining the said injury, to continue as long as she shall live or until her remarriage; or if there is no widow, or if the widow dies before all children of such deceased member attain the age of eighteen years, then to his child or children under said age collectively, to continue until every child dies or attains said age. If payment of the allowance is stopped because of remarriage of the widow or attainment of the age of eighteen years by a child, before the sum of the monthly payment made equals the sum of the amounts provided in the next preceding clauses (1) and (2), then an amount equal to the difference between said sums shall be paid in one amount to the remarried widow, or if there is no widow, to the surviving children of the deceased member, share and share alike.

Sec. 16. A new section is hereby added to said act to be numbered 100a and to read as follows:

Sec. 100a. A person, while a member or after retirement, shall have the right to revoke the nomination of a beneficiary made by him under the retirement system, and to nominate a beneficiary in lieu thereof, all by written designation duly executed and filed with the retirement board, provided that this right shall not extend to beneficiaries nominated under options 2, 3, and 4 in sections 97, 98 and 99 of this act, nor shall it extend to dependents designated as beneficiaries by this act to receive benefits payable on account of death or disability arising out of and in the course of employment.

Sec. 17. A new section is hereby added to said act to be numbered 100b and to read as follows:

Sec. 100b. The board of administration, in the event that the whereabouts of the nominated beneficiary can not be determined, or in the event that the nominated beneficiary be the
estate of the deceased person, may pay to the undertaker who conducted the funeral in its discretion all or a portion of the amount payable under this section 100, but not to exceed the funeral expenses of such deceased person as evidenced by the sworn itemized statement of the undertaker and by such other documents as the board may require. Said payment shall be full and complete discharge and acquittance of the amount payable under this section up to the amount so paid, anything in this act to the contrary notwithstanding.

Sec. 18. Section 101 of said act is hereby amended to read as follows:

Sec. 101. No modification of the benefits provided in other sections of this act shall be made on account of any amounts payable to a beneficiary as defined herein under the workmen's compensation insurance and safety laws of the State of California. For the purposes of said laws and of this retirement act, acts performed in public police and not private capacity by members of the California Highway Patrol in preserving the peace, preventing injury to life and property, suppressing crime or disorder, and apprehending criminals shall be considered within their employment notwithstanding any provision in State law to the contrary. Members of the said patrol, however, shall be subject to the sections of said compensation law providing disability indemnity, only if the disability arising out of and in the course of employment shall be temporary. No disability indemnity shall be paid to or on account of members of the California Highway Patrol, for time after the date of retirement under the provisions of this act.

Sec. 19. Section 109 of said act is hereby amended to read as follows:

Sec. 109. In addition to such payments from the general fund, there shall be paid monthly, from and after the date this act takes effect, into the State employees' retirement fund out of the motor vehicle fund a sum equal to eight and forty one-hundredths per centum of the total compensation paid from said fund to members of the retirement system who also are members of the California Highway Patrol and out of said motor vehicle fund and every other fund directly controlled by the State, out of which the compensation of members is paid, a sum equal to three and twenty-five one-hundredths per centum of the total compensation paid members, other than members of the said highway patrol, of the retirement system from the said fund. All such payments, whether heretofore or hereafter made are hereby validated and confirmed. The board of administration shall certify to the State Controller at the end of each month the total amount of compensation paid such members of the retirement system from each such fund and the State Controller shall thereupon transfer the percentages as specified in this section, of said total amount from each such fund, respectively, to the "State employees' retirement fund." If any member of the said highway patrol shall affirmatively exercise the option in section 65d, the Controller shall transfer
into the said retirement fund from the motor vehicle fund upon
certification by the board of administration of the total com-
pen-sation received by said member for service as a member
of the retirement system rendered prior to July 1, 1935, three
and ninety-one-hundredths per centum of said total com-
pen-sation.

CHAPTER 851.

An act to amend sections 737j and 737bbb of the Political
Code, relating to salaries of superior court judges.

[Approved by the Governor July 20, 1935. In effect September 15, 1935.]

The people of the State of California do enact as follows:

SECTION 1. Section 737j of the Political Code is hereby
amended to read as follows:

737j. The annual salary of each of the judges of the
superior court in and for the county of Fresno is seven
thousand dollars.

SEC. 2. Section 737bbb of the Political Code is hereby
amended to read as follows:

737bbb. The annual salary of each of the judges of the
superior court in and for the county of Tulare is six thousand
dollars.

CHAPTER 852.

An act to add a new section to the Code of Civil Procedure
to be numbered 349 3/4, relating to the limitation of the time
within which actions, for trespass, use or occupancy of real
property by oil or gas wells, and for damages by reason
thereof, and for the conversion or for the taking or remov-
ing of oil, gas or other liquid or fluids by means of any such
well, may be commenced, fixing the measure of damages in
certain of such cases, and defining oil and gas for the pur-
poses of this act.

[Approved by the Governor July 20, 1935. In effect September 15, 1935.]

The people of the State of California do enact as follows:

SECTION 1. A new section to be numbered 349 3/4 is hereby
added to the Code of Civil Procedure to read as follows:

349 3/4. Within one hundred eighty days:
(a) An action to enjoin, abate, or for damages on account
of, an underground trespass, use or occupancy, by means of a
well drilled for oil or gas or both from a surface location on
land other than real property in which the aggrieved party has
some right, title or interest or in respect to which the aggrieved
party has some right, title or interest.
(b) An action for conversion or for the taking or removing of oil, gas or other liquid, or fluids by means of any such well. When any of said acts is by means of a new well the actual drilling of which is commenced after this section becomes effective, and such act was knowingly committed with actual intent to commit such act, the cause of action in such case shall not be deemed to have accrued until the discovery, by the aggrieved party, of the act or acts complained of; but in all other cases, and as to wells heretofore or hereafter drilled, the cause of action shall be deemed to have accrued ten days after the time when the well which is the subject of the cause of action was first placed on production.

Notwithstanding the continuing character of any such act, there shall be but one cause of action for any such act, and the cause of action shall accrue as aforesaid.

In all cases where oil or gas has been heretofore or is hereafter extracted from any existing or subsequently drilled well in this State, by a person without right but asserting a claim of right in good faith or acting under an honest mistake of law or fact, the measure of damages, if there be any right of recovery under existing law, shall be the value of the oil or gas at the time of extraction, without interest, after deducting all costs of development, operation and production, which costs shall include taxes and interest on all expenditures from the date thereof.

This section shall apply to causes of action existing when this section becomes effective. The time for commencement of existing causes of action which would be barred by this section within the first one hundred eighty days after this section becomes effective, shall be the said first one hundred eighty days.

Whenever the term "oil" is used in this section it shall be taken to include "petroleum," and the term "gas" shall mean natural gas coming from the earth.

The limitations prescribed by this section shall not apply to rights of action or actions to be brought in the name of or for the benefit of the people of this State, or of any county, city and county, city or other political subdivision of this State.

Sec. 2. It is declared that it is common knowledge that there are thousands of oil and gas wells, of varying age, within this State, which are not wholly within land owned, leased or otherwise controlled by the past or present owner or operator of the well; that many such wells were drilled without intent so to invade the land of another; that until recent years there was no way for determining even approximately the subsurface location of the well; that now it is difficult and expensive to determine by any method of subsurface directional survey even the approximate subsurface location of the well, and in cases of many producing wells, to make such survey may jeopardize the well and its ability to produce; that in many instances wells could not have been drilled and hereafter can
not be drilled without some material deviation from the vertical; that the producing of most and perhaps all such wells has been and will be of great public benefit; that the possibility of commencement of large numbers of said causes of action, excepting where the acts hereafter are committed knowingly and intentionally as aforesaid, has brought great and undesirable confusion and uncertainty in the oil industry, may cause terrific financial distress and unemployment, and may cause the premature abandonment and prevent the full use of many wells, all contrary to true conservation of oil and gas; that the people have a public interest in removing said hazard and precluding said confusion, uncertainty, distress and unemployment, without doing violence to private rights; that vigilant persons can protect their rights within said one hundred eighty days; that public policy and the welfare of the people require the reduction of the time for commencement of such causes of action and that said one hundred eighty days is deemed reasonable; that public policy and the welfare of the people require the measure of damages to be as above provided, in all cases where the invasion of the rights of another person has heretofore been or shall hereafter be by reason of any honest mistake of law or fact, either by the departure of a well from the vertical or otherwise.

Sec. 3. If any section, subsection, sentence, proviso, clause or phrase of this act is, for any reason, held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act and each section, subsection, sentence, proviso, clause and phrase thereof, irrespective of the fact that any one or more other sections, subsections, sentences, provisos, clauses or phrases be declared unconstitutional.

CHAPTER 853.

An act to amend sections 3454 and 3455 of and to add sections 3454a and 3454b to the Political Code, relating to reclamation districts, declaring the urgency thereof and providing that this act shall take effect immediately.

[Approved by the Governor July 20, 1935. In effect immediately ]

The people of the State of California do enact as follows:

Section 1. Section 3454 of the Political Code is hereby amended to read as follows:

3454. (a) Said board of trustees shall have powers and duties as follows, to wit:

(1) To keep an office in or near the district for the transac-
ords, contracts, and all other documents pertaining to the affairs of the district must be open to inspection at all times by any person interested.

(2) To elect one of its members president of said board of trustees.

(3) To elect one of its members or any other person secretary of said board of trustees. It shall be the duty of the secretary to have charge of the office of the board of trustees and to keep the minutes of all meetings and to attest all documents requiring the signature of the president and to keep true and accurate accounts of all expenditures made in behalf of said district, which accounts, and all contracts that may be made by the said board of trustees shall be open to the inspection of the board of supervisors and every person interested.

(4) To receive from the reclamation board any money allowed on account of uncollected assessments previously levied on lands purchased by said board for rights of way, and to distribute said money among the land owners of said district in proportion to their payments on the last assessment roll or place the same in the county treasury to the credit of said district.

(5) To create by order duly entered in the minutes of the board of trustees a revolving fund. No warrant for creation or replenishment of this fund shall be paid by the county treasurer unless a bond in double the amount of said fund, signed by the members of the board of trustees with sureties and conditioned as security for the safety and proper disbursements of said fund, approved by the board of supervisors, shall be on file with the county treasurer. Said fund shall be disbursed by checks or drafts, signed by at least two members of the board of trustees, or some person by unanimous vote of the board of trustees authorized to do so. The board of trustees shall within thirty days after any payment from this fund file the vouchers therefor in the office of the county treasurer retaining a duplicate thereof in the office of the secretary of the board of trustees. The board of trustees shall have authority by order entered in the minutes of said board to issue warrants for the creation and replenishment of said fund. No warrant for the replenishment of said fund shall be approved by the board of supervisors or paid by the county treasurer, except to the extent that proper vouchers for previous legal disbursements from said fund have been filed with the county treasurer as hereinbefore provided. Said fund shall not exceed the sum of two thousand dollars. The order creating said revolving fund must receive the unanimous vote of the board of trustees.

Any land owner within the district may maintain an action for the benefit and in behalf of the reclamation district in the superior court of the county in which the district, or any part thereof is situated against any member or members of the board of trustees for any improper disbursements of the funds of the district made with his or their consent and also against
the members of the board of trustees and their sureties upon
the said bond for any improper disbursement from said revolv-
ing fund.

(6) To employ engineers and others to survey, plan, locate
and report on the works necessary for the reclamation of the
lands of the district, and estimate the cost thereof; thereafter,
at any time, modify or change such original plan or plans, or
adopt new, supplemental, or additional plan or plans, when,
in its judgment, the same shall become necessary.

(7) To acquire, take, or hold for and in the name of the
district, by purchase, condemnation, gift, lease or other legal
means, whatever real or personal property, rights of way,
materials or labor that it shall deem necessary for the con-
struction of the works of reclamation or necessary or useful
in connection with carrying out the original plan or plans of
reclamation or any supplemental or additional plan of recla-
mation.

(8) To acquire, take, or hold in the name of the district, by
purchase, condemnation, gift, lease or other legal means, and
to construct, maintain and operate such drains, canals, sluices,
bulkheads, water gates, levees, embankments, pumping plants,
dams, diversion works, water rights or works of irrigation,
and all things reasonably necessary or convenient for the re-
clamation of the lands embraced in said district either within
or without the boundaries of the district.

(9) To employ such labor, and to purchase and operate or
hire such tools, machinery, material and equipment and to
make and enter into such contracts and agreements as they
shall deem necessary in order to accomplish the proper con-
struction, maintenance, repair or operation of the works of
reclamation of the said district.

(10) To sell, convey, transfer, lease to others or otherwise
dispose of such real or personal property belonging to the
said district which said board of trustees shall find no longer
necessary for the construction, maintenance or operation of
the works of reclamation of said district; also to lease to others
or to operate for hire any tools or machinery belonging to the
said district which is not at the time needed by the district.

(11) To commence proceedings in the superior court of the
county where the greater portion of the district is situated to
determine the legality of the existence of such district in the
manner provided by section 3453 of this code.

(12) To distribute, among the land owners of the district,
after having first provided by order duly entered in their min-
utes, any funds in the treasury belonging to said districts and
not needed for the purposes of reclamation, such distribution
to be made among the several land owners in the said district
in proportion as said owners were assessed on the last assess-
ment made by said district.

(13) To report to the supervisors every original plan, and
every new, supplemental or additional plan for the reclama-
tion of the lands within said district in the manner provided by section 3455 of this code.

(14) To cancel all warrants of the district not paid within four years after date of issuance unless the payment thereof is extended in the manner provided by section 3457 of this code.

(15) To perform such duties with respect to the collection of assessments as is provided by section 3466 of this code.

(16) To perform such duties with respect to the calling of bond election and the issuance of bonds as is provided in section 3480.

(17) To reapportion the assessment or assessments upon any tract of land that has been subdivided into smaller parcels in such manner as will charge each of said smaller parcels with a just proportion of the assessment or assessments previously made upon said tract so subdivided, in the manner provided by section 3460 hereof.

(18) To exercise a general supervision and complete control over the construction, maintenance and operation of the works of reclamation and generally over the affairs of the district.

(19) To provide a seal which shall contain the number of the district and the county in which the lands or the greater portion thereof are located and all documents requiring the approval by the board of trustees shall hereafter bear the seal of the district.

(20) And to do and perform all acts and things which the said trustees may deem advisable, necessary or convenient for constructing, maintaining, or operating the works of reclamation, or accomplishing the purposes for which said reclamation district was formed.

(b) The several members of the board of trustees shall each be entitled to receive such compensation for services actually and necessarily performed as the said board of trustees may determine to be just and reasonable, and shall be reimbursed for such expenses as they may necessarily incur in the performance of their said duties as trustees. All claims by or in behalf of trustees for services rendered or expenses incurred shall be presented to the board of trustees, and if allowed shall be paid in the same manner as other indebtedness of the district, but no warrants drawn in favor of a trustee shall be valid until approved by the board of supervisors of the proper county. No trustee shall be disqualified from participating in any and all proceedings of the board of trustees, excepting that he shall not cast the deciding vote upon a motion or resolution awarding a contract in favor of himself or in which he is directly or indirectly interested.

(c) All meetings of the board of trustees at which all trustees are present or of which all members of said board of trustees shall have received notice in writing of such meeting at least one day prior to the time set for such meeting to con-
vene shall be deemed a regular meeting at which any business may be transacted.

Sec. 2. Section 3455 of the Political Code is hereby amended to read as follows:

3455. If and when any such district is located, in whole or in part, within the Sacramento and San Joaquin drainage district;

(1) The board of trustees of such reclamation district must report to the board of supervisors of the county within which the district, or the greater part thereof, is situate, by filing, with the county clerk of said county, three copies of the original plan or plans of the works of reclamation and three copies of every new, supplemental, or additional plan, if any, together with the estimates of the cost of the contemplated works of the district, including incidental expenses, maintenance and repair necessary for the reclamation of the lands of the district in pursuance of any such plan or plans. The term "works of reclamation" as used in this chapter shall include not only such public works and equipment, as are necessary for the unwatering of lands in reclamation districts, but shall also include such like works as may be necessary to water or irrigate the same lands in such districts.

(2) Within five days after said three copies of such plans and estimates are filed with him, the said county clerk shall certify two of said copies and transmit the same to the secretary of the reclamation board.

(3) Upon receipt of said certified copies of said plan or plans, the secretary of the reclamation board shall immediately set a date when the reclamation board will hold a meeting for considering objections, if any, to said plans. All such hearings by the said reclamation board shall be held not less than twenty, nor more than sixty days after the day the secretary of the reclamation board received the certified copies of the said plans. Notice of said hearing before the said reclamation board shall be given by the secretary of said board by publishing a notice of such hearing once a week for two weeks in some newspaper of general circulation published within said district or, if there be no such newspaper so published, then in the county seat of the county within which the said district or the greater part thereof, is situate. Said notice shall be in substantially the following form:

"Notice to the land owners of reclamation district -----.
Notice is hereby given to the land owners of reclamation district number ______ that there has been filed with the county clerk of the county of ______ and with the secretary of the reclamation board, original (supplemental or new, as the case may be) plans for the reclamation of lands of said district; that the reclamation board will hold a meeting at its office in the city of Sacramento, county of Sacramento, State of California, on the ______ day of ______, A.D. 19____, at ______ o'clock, at which time any interested party may appear and object to the said plans."
(4) At said hearing the reclamation board shall hear such evidence as may be offered with respect to said plans, and thereafter shall approve, modify, amend or reject the said plans; provided, however, that the said reclamation board shall not have the power to modify, amend or reject any plans so submitted on the ground that said plans provide for a levee which in their judgment is of excessive strength either in height, slopes or crown width; but no claim for compensation shall thereafter be made against the reclamation board or the Sacramento and San Joaquin Drainage District for any part of such levees which said board may consider to be in excess of what is required to comply with its plans for flood control. The reclamation board shall have power to continue or adjourn the said hearing from time to time and shall have authority to cause such investigation and report of said plans to be made by the engineers connected with the reclamation board or by such other competent authority as said board shall deem necessary.

(5) When the said reclamation board shall have taken action approving, modifying, or rejecting any such original, supplemental or new plan of reclamation after a hearing as herein provided, such action shall be final, and thereafter the sufficiency of said plans shall not be subject to attack either before the reclamation board or in any court; provided, however, that nothing herein contained shall prevent the board of trustees of any district from at any time filing with the county clerk of the county within which the district, or the greater part thereof, is situate, three copies of any amendatory, additional or supplemental plan of reclamation. In the event any such amendatory, additional or supplemental plan of reclamation is filed with the said clerks, two certified copies thereof shall be transmitted to the secretary of the reclamation board, who shall set the time for hearing, and thereafter the same proceedings shall be had and with like effect with respect to said amendatory, additional or supplemental plan as is herein provided for the original plan.

(b) If and when neither the whole nor any part of such district is situate within the boundaries of the Sacramento and San Joaquin Drainage District:

(1) The board of trustees of such reclamation district must report to the board of supervisors of the county in which the district, or the greater part thereof is situate, by filing with the county clerk of said county two copies of every new, supplemental, or additional plan, if any, together with estimates of the cost of the contemplated works of the district, including incidental expenses, maintenance and repairs, necessary for the reclamation of the lands of the district in pursuance of any such plan.

(2) Thereupon the board of supervisors of such county must appoint three commissioners, who shall have no interest in any real estate within said district, each of whom, before entering upon his duties, shall make and subscribe an oath
that he is not in any manner interested in any real estate within said district, directly or indirectly, and that he will perform the duties of a commissioner to the best of his ability. Said commissioners must view and assess upon the land within said district said sum so estimated and shall apportion the same according to the benefits that will accrue to each tract of land in said district, respectively, by reason of the expenditures of said sums of money, and shall estimate the same in gold coin of the United States. The same must be collected and paid into the county treasury as hereinafter provided, and be placed by the treasurer to the credit of the district, and paid out for the works of reclamation upon the warrants to the trustees, approved by the board of supervisors, or, if bonds of such district have been issued upon said assessment, then said treasurer shall set the same apart as a separate fund for the purpose of paying the principal and interest of such bonds, and shall not pay any part of the moneys received from such assessment for any purpose other than the payment of the principal and interest of such bonds.

(c) Any of the said plan or plans and estimates may include any levees or other reclamation works already constructed or in course of construction and payments therefor may be made to the person or persons who constructed the same or to the grantee of the lands for the benefit of which such levees or other works of reclamation were constructed by the owner of such lands, and no trustee shall be disqualified to make or approve such plans or estimates because of his ownership of any levee or other reclamation works included in such plan, or the cost of which is embraced in said estimates but he shall be disqualified to vote for the issuance of any warrant or order to himself in payment therefor. Any of the said plan or plans and estimates may include any system or works of irrigation which the district is empowered to acquire, take or hold by purchase, condemnation, gift, lease or other legal means as provided herein.

SEC. 3. A new section is hereby added to the Political Code to be numbered 3454a and to read as follows:

3454a. Any reclamation district shall have the power to acquire, take or hold by gift, purchase, conditional sales contract, lease, condemnation or other legal means and to maintain and operate the whole or any part of any irrigation system, public or private, through which any lands in the district and lands contiguous to the district have been or may be supplied with water for irrigation, including water rights, dams, diversion works, rights of ways, canals, pumps and all property or things, real or personal, incidental thereto, and upon the payment of and compliance with such tolls and rates and rules and regulations as the board of trustees may adopt, to furnish through such system of irrigation or the works of irrigation of the district, water for irrigation of lands contiguous to the boundaries of the district, but not included therein, where such contiguous lands have been or may be
furnished such water through such canals or ditches as have been or may be used for the irrigation of lands within the district.

SEC. 4. A new section is hereby added to the Political Code to be numbered 3454b and to read as follows:

3454b. Any reclamation district shall have the power to acquire, take or hold by gift, purchase, conditional sales contract, lease, condemnation or other legal means and to maintain and operate the whole or any part of any irrigation system, public or private, through which any lands in the district have been or may be supplied with water for irrigation, including water rights, dams, diversion works, rights of ways, canals, pumps and all property or things, real or personal, incidental thereto, and upon the payment of and compliance with such tolls and rates and rules and regulations as the board of trustees may adopt to furnish through such system of irrigation or the works of irrigation of the district, water for irrigation of lands within the boundaries of the district.

SEC. 5. This act is hereby declared to be an urgency measure within the meaning of section 1, Article IV, of the Constitution of the State of California, and it is deemed necessary for the immediate preservation of the public peace and safety that this law shall go into immediate effect.

The following is a statement of facts constituting such necessity: Within certain districts there are private irrigation systems through which lands within such districts and contiguous thereto are being furnished with water for irrigation. The toll rates and charges for such water service under present agricultural conditions are exceedingly high and far beyond the economic ability of the land to pay and the rules and regulations under which such water is supplied are burdensome. Unless this condition is remedied the owners of thousands of acres of good land will be forced to cease operations thereon and abandon the same. The land owners are unable to obtain relief from such situations except by purchasing, leasing or otherwise acquiring and operating such irrigation systems with the aid of Federal financing. Under the Federal Emergency Farm Mortgage Act of 1933 the Reconstruction Finance Corporation was authorized to make loans in an aggregate amount not exceeding $125,000,000 to and for the benefit of drainage, levee, irrigation, reclamation and similar districts throughout the United States. Approximately $85,-000,000 of this sum has been applied for and allocated for the purposes stated. Approximately only $40,000,000 remains to be allocated throughout the United States. Applications therefor are being made rapidly and the said sum of $40,000,-000 will be applied for and allocated before this act will become effective unless made effective immediately and if not so made said districts will lose the opportunity of purchasing, leasing or otherwise acquiring and operating said irrigation systems on an economic basis, all to the great loss of landowners.

In case of an election at large, not less than one hundred qualified electors of the City of Riverside, and in case of a ward election, not less than twenty-five qualified electors of such ward, may originate a petition of recall in the following manner: The said qualified electors shall file with the City Clerk a petition containing, in not more than two hundred words, a general statement of the ground or grounds for which the recall of the official is sought. This petition shall be signed in the presence of the City Clerk or his deputy by each of the petitioners originating the recall, each signer adding to his signature his place of residence, giving street and number, and the date of signing. When the requisite number of qualified electors shall have signed the petition, the City Clerk shall file the same, and shall cause it with the signatures attached thereto, to be published for three successive days in a newspaper of general circulation published in said city, with notice therein that said petition is in the City Clerk's office open for signatures. The City Clerk shall, during office hours for forty-five days from the last day of publication aforesaid, keep the petition open in his office for signatures by the qualified electors of the city to sign in the presence of the City Clerk or his deputy, giving his place of residence, street and number and date of signature. If the petition is shown, by the City Clerk's certificate, to be insufficient, the City Clerk shall at once notify the signers who originated the petition of recall of the deficiency, and fifteen additional days, exclusive of the day of mailing shall be allowed for the final completion of the recall petition. Notice herein required shall consist of depositing in the post office at Riverside a letter, postage prepaid and registered, containing such notice, addressed to each signer who originated the petition of recall at his address given in the petition. The City Clerk shall within five days after the expiration of the additional fifteen days allowed in which to complete the recall petition, make a like examination of any names added thereto and check the same as hereinbefore provided; and if the City Clerk's certificate shall show the recall petition to be still insufficient, no further action shall be taken and no petition
for the recall of the same officer shall be originated within six months thereafter. If necessary the Council shall allow the City Clerk extra help for the purpose of such examination. In case the City Clerk is the officer sought to be recalled, the duties herein provided to be performed by him shall be performed by some other person designated by the Council for that purpose. If the petition shall be found to be sufficient, the City Clerk shall submit the same to the Council without delay, and the Council shall thereupon cause a special election to be held within not less than forty nor more than sixty days after the passage of an ordinance calling such election, to determine whether the voters will recall such officer; provided that if a regular municipal election is to occur within sixty days from the date of the filing of the petition with the Council, the Council may, in its discretion, submit such recall at such regular municipal election. If a vacancy occurs in said office after a recall petition is filed, the election shall nevertheless proceed as in this Section provided. One petition is sufficient to propose the removal and election of one or more officials. Nominations for any office under such recall election shall be made by petition in the manner provided by Section 1188 of the Political Code; except that no party affiliation of candidate, signer or verification deputy shall be given, and any qualified elector may sign said petition. There shall be printed on the recall ballot, as to every officer whose recall is to be voted on, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office of (title of the office)?" following which question shall be the words "Yes" and "No," on separate lines with a blank space at the right of each, in which the voter shall indicate by stamping a cross (X) his vote for or against such recall. On such ballots, under each such question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the incumbent recalled, (in case he shall be removed from office by said recall election), followed by the appropriate voting squares; but no vote shall be counted for any candidate for said office unless the voter also voted on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If a majority of those voting on said question of the recall of any incumbent from office shall vote "No" said incumbent shall continue in said office. If a majority shall vote "Yes," said incumbent shall thereupon be deemed removed from such office. The canvassers shall canvas all votes for candidates for said office and declare the result in like manner as in
a regular election. If the vote at any such recall election shall recall the officer, then the candidate who received the highest number of votes for the office shall be thereby declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within ten days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to the provisions of this Charter.

No election for the recall of a Councilman shall be held unless a candidate to succeed the incumbent sought to be recalled has been nominated.

If any special election be ordered, held and conducted, it shall be ordered, held and conducted (except as to date thereof) and the result be made known and declared, in the same manner as herein provided for other elections.

the provisions of the Retirement System.

For the purposes of the Retirement System 'member of the
Fire Department' or 'member of the Police Department'
shall include any officer or employee of either of such depart-
ments whose principal duties are to prevent and extinguish
fires or to preserve the peace, prevent injury to life and prop-
erty, or to suppress crime or disorder, and shall exclude per-
sons whose principal duties are those of telephone operator,
clerk or stenographer, machinist or mechanic, or other similar
duties clearly not falling within the foregoing regular fire
or police duties, even though such persons may be called upon
occasionally to perform such regular fire or police duties;
provided that the foregoing exclusions shall not apply to mem-
bers of the Fire Department qualifying as firemen, hosemen or
higher rank, or to members of the Police Department qualify-
ing as patrolmen or higher rank, or male employees of the
Police Department assigned to the Identification Department
and subject to assignment to patrolmen's duties, who, at the
date of the adoption of this Charter amendment, are assigned,
or thereafter shall be assigned, to perform any of the above
excluded duties. After the effective date hereof, the maximum
age at which any person, except a person employed as Chief
of the Fire Department or Chief of the Police Department,
may become members of either the Fire or Police Department,
shall be thirty years notwithstanding any of the other pro-
visions of this Charter.

SECTION 11. RESTRICTIONS ON RETIRED PER-
SONS. No person retired for service or disability receiving
a retirement allowance under the Retirement System shall
serve in any appointive position in the service of the city,
including memberships on Boards or Commissions, nor shall
such person receive any payment for service, except in an
elective office, rendered to the city after retirement, provided
that service as an election officer or juror shall not be affected
by this section.

Should any person employed in the Fire Department retire,
and prior to attaining the age of sixty-two years, or should
any person employed in the Police Department retire, and
prior to attaining the age of sixty-five years, engage in a gain-
ful occupation, the Retirement Board shall reduce that part
of his monthly allowance which is provided by contributions
of the city, to an amount which, when added to the amount
earned monthly by him in such occupation, shall not exceed
his compensation at the time of retirement.

SECTION 12. REDUCTION OF BENEFITS. That por-
tion of any allowance or other benefit which is provided by con-
tributions of the city, payable by the Retirement System
because of the death or retirement of any member, shall be
reduced, in the manner fixed by the legislative body, by the

Definitions.
amount of any benefits payable to or on account of such member, under the Workmen's Compensation, Insurance and Safety Act of the State of California, because of his death or the disability resulting in his retirement. In like manner said portion shall be reduced by the amount of any pension, except pensions paid on account of service in the military or naval forces of the United States, paid to or on account of the death of such member, from funds of the United States, State of California or any political subdivision thereof.

SECTION 13. EXISTING PENSIONS CONTINUED. Pensions existing in favor of or on account of members of the Fire or Police Departments, at the time of the effective date of this Article, shall be continued in force subject to change under the provisions of Section 14 hereof; such pensions, however, shall be paid by the Retirement System.

SECTION 14. BENEFIT AND CONTRIBUTION REQUIREMENTS. Persons who shall be members of the Fire or Police Departments on the effective date hereof shall become members of the Retirement System upon such date, and persons who shall become members of the Fire or Police Departments after the effective date hereof, shall become members of the Retirement System forthwith, subject to the following provisions, in addition to the provisions contained in Sections 7 to 12, both inclusive, of this Article.

(a) Members of the Retirement system may retire for service at their option upon attaining an age of at least fifty-seven years if they be members of the Fire Department, or sixty years if they be members of the Police Department, but only after rendering at least twenty years of service to the city in either or both of said departments. Dismissal of a member from service for any cause, after he has qualified as to age and service for service retirement, shall not deprive him of the right to retire under the provisions of the sentence immediately preceding.

Any member of the System shall be retired for disability, regardless of age or amount of service, if incapacitated for the performance of duty as the result of an injury or illness incurred in the performance of duty. Any member incapacitated for the performance of duty by reason of a cause not included under the provisions of the immediately preceding sentence, shall be retired regardless of age but only after ten years of service to the city in either or both of said departments.

Retirement shall be compulsory at the age of sixty-two years for members of the Fire Department and sixty-five years for members of the Police Department.

(b) Upon retirement for service, a member shall receive a retirement allowance composed of the sum of two parts; one part being an amount derived by the application, upon the basis of tables and rates recommended by the actuary and approved by the Retirement Board, as provided in Section 9 of this Article, of twice the normal contributions plus accum-
ulated interest thereon, made by him and standing to his credit under the Retirement System, at the date of his retirement, and the other part, regardless of his age at retirement, being the same percentage of his final compensation for each year of service rendered by him in the Fire or Police Department prior to the effective date hereof, as the contributions of the member and the city are calculated to provide upon retirement for service at fifty-seven years of age if he be a member of the Fire Department, or sixty years of age if he be a member of the Police Department, or upon completion of twenty years of service at an age higher than fifty-seven years if he is a member of the Fire Department or sixty years if he be a member of the Police Department, for each year of service after said date. Upon the death of the retired member, two-thirds of the retirement allowance shall be continued throughout life or until remarriage, to his surviving wife, to whom he was married at least one year prior to his retirement, provided said wife is of the same age as said member. If said surviving wife is of a greater or less age than said member, then such portion of the retirement allowance shall be continued to her throughout her life or until her remarriage, as the amount which would have been necessary at retirement to provide for the continuance after said member's death of two-thirds of the entire allowance to a surviving wife of the same age as the said member, will provide when applied at the time of retirement, according to tables and rates recommended by the actuary and approved by the Retirement Board, to purchase a retirement allowance to begin at the death of the retired member and continue throughout the life of the surviving wife. If there be no surviving wife or if she die before any child of such deceased member shall have attained the age of sixteen years, then the allowance which would have been paid to her had she lived, shall be paid to his child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after attaining the age of sixteen years. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of sixteen years by a child before the sum of the monthly payments made shall equal the sum of the retired member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike, provided that this sentence shall be of no effect if there be no wife at the time of retirement who qualifies for the continuance of an allowance to her after the death of the said member.

Upon retirement for disability resulting from injury or illness incurred in performance of duty, a member shall receive a retirement allowance of fifty per centum of his final compensation. Upon the death of the retired member, the Widow.
retirement allowance shall be continued, throughout life or until remarriage, to the surviving wife, to whom he was married at least one year prior to his retirement. If there be no surviving wife or if she die before any child of such deceased member shall have attained the age of sixteen years, then the allowance shall be continued to his child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after attaining the age of sixteen years. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of sixteen years by a child before the sum of the monthly payments made shall equal the sum of the retired member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike, provided that this sentence shall be of no effect if there be no wife at the time of retirement who qualifies for the continuance of an allowance to her after the death of the said member.

Upon retirement for disability resulting from any cause not included in the immediate preceding paragraph, a member shall receive a retirement allowance of one and one-fourth per centum of his final compensation multiplied by the number of years of service in either or both the Fire or Police Departments credited to him, if such allowance exceeds one-fourth of his final compensation; otherwise one and one-fourth per centum of his final compensation multiplied by the number of years which would be creditable to him were his service to continue until his attainment of the age of fifty-seven years, but such allowance shall not exceed one-fourth of his final compensation.

If the disability for which a member was retired shall cease, his allowance shall cease, and the Retirement Board shall recommend to the City Manager that he be reinstated to the rank or position of the same grade as that he occupied at the time of his retirement. If he be not reinstated, he shall be paid an amount equal to his accumulated contributions as they were at retirement, less the sum of the monthly payments of that portion of his allowance which was provided by his accumulated normal contributions and plus interest from the date of retirement on the balance remaining from time to time. Upon retirement at any time thereafter, he shall receive credit as service for the time during which he was retired for disability, the City making such contributions as may be necessary to meet the liability for such service as well as for the service rendered prior to disability retirement, less the accumulated contributions standing to his credit at retirement.

To the allowances provided in this section, shall be added the allowance which the additional contributions of the retir-
ing member will provide when applied in the same manner as his normal contributions.

(c) Upon the death, before retirement, of a member, the Retirement System shall be liable for a death benefit, which, if an amount be due under either paragraph (3) or paragraph (4) next following, and if there be a surviving wife or surviving children, shall be paid in monthly installments and to the surviving wife and children as prescribed therein, otherwise the amounts due under paragraphs (1) and (2) shall be paid as prescribed therein, and such death benefit shall consist of:

(1) His accumulated contributions to be paid to such person having an insurable interest in his life as he shall nominate by written designation duly executed and filed with the Retirement Board, and in addition thereto,

(2) An amount equal to his compensation earnable during the six months immediately preceding his death to be paid only to his surviving wife, his child or children or his dependent father or mother, and if in the opinion of the Retirement Board, death be the result of injury or illness incurred in the performance of duty, in addition thereto,

(3) An amount sufficient, when added to the amounts provided in (1) and (2) but excluding his accumulated additional contributions, to provide when applied according to tables and rates recommended by the actuary and approved by the Retirement Board, a monthly death benefit allowance, equal to one-half of his final compensation, to be paid to the surviving wife to whom said member was married at the time of sustaining the said injury, to continue throughout her life or until her remarriage; or if there be no widow, or if the widow die before any child of such deceased member shall have attained the age of sixteen years, then to his child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after attaining the age of sixteen years. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of sixteen years by a child before the sum of the monthly payments made shall equal the sum of the amounts provided in the next preceding paragraphs (1) and (2), then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike. If, in the opinion of the Retirement Board, death be not the result of injury or illness incurred in the performance of duty, and if said member be qualified at the date of death for retirement for service under subsection (a) of this Section, then, in addition to the amounts provided in said paragraphs (1) and (2),
(4) An amount sufficient, when added to the amounts provided in said paragraphs (1) and (2), but excluding his accumulated contributions, when applied according to the tables and rates recommended by the actuary and approved by the Retirement Board, to provide an allowance to be paid to the surviving wife to whom said member was married at least one year prior to his death, to be equal in amount to the allowance which would have been payable to her if the said member had retired for service at the time of his death and had died instantly thereafter, and to continue throughout her life or until her remarriage, or if there be no surviving wife, or if she die before any child of such deceased member shall have attained the age of sixteen years, then to his child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after attaining the age of sixteen years. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of sixteen years by a child before the sum of the monthly payments made shall equal the sum of the amounts provided in the next preceding paragraphs (1) and (2), then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike.

(d) The normal contributions which shall be required as a deduction from the compensation of each member throughout his membership shall be such as, on the average for such member, if his service on full salary be uninterrupted and when accumulated with interest, added to the equal accumulated contributions of the city and applied according to the tables and rates recommended by the actuary and approved by the Retirement Board as hereinbefore provided, will provide a retirement allowance upon retirement for service at the age of fifty-seven years if he be a member of the Fire Department or sixty years if he be a member of the Police Department, or upon completion of twenty years of service at an age higher than fifty-seven years if he be a member of the Fire Department or sixty years if he be a member of the Police Department, equal to one-half of his final compensation, less that part of the retirement allowance set forth in the first sentence of subsection (b) of this Section 14, which is to be provided by contributions of the city on account of service rendered prior to the effective date hereof.

The dependent contributions which shall be required in the same manner as normal contributions of each male member throughout his membership in addition to the normal contributions, shall be such as would be necessary to provide upon the date of his service retirement at fifty-seven years of age if he be a member of the Fire Department or sixty years if he be a member of the Police Department, or upon completion
of twenty years of service at an age higher than fifty-seven years if he be a member of the Fire Department or sixty years if he be a member of the Police Department, when accumulated with interest and applied according to the tables and rates recommended by the actuary and approved by the Retirement Board, for the continuance after his death and throughout the life of a surviving wife whose age at such date is the same as the age of said member, of two-thirds of the retirement allowance provided by his accumulated normal contributions upon said retirement at fifty-seven years of age if he be a member of the Fire Department or sixty years if he be a member of the Police Department, or at said higher ages. If at the date of retirement for service or retirement for disability resulting from injuries received in performance of duty, said member has no wife who qualifies under this Charter for the continuance of an allowance to her after the death of said member, or upon retirement for disability resulting from other causes regardless of his marital condition, the said dependent contributions with accumulated interest thereon shall be paid to him upon said date, or at his option, applied in the same manner as his normal contributions, to provide for him a retirement allowance which shall be added to the retirement allowance provided by said normal contributions.

Members may make contributions in addition to and in the same manner as the normal and dependent contributions provided for in the two immediately preceding paragraphs, to provide additional benefits, but the city shall not contribute any amount on account of such member's additional contributions. Such additional contributions shall be administered in the same manner as the normal contributions.

(e) Should any person who is a member under the provisions of this Section be separated from service of the city through any cause other than death or retirement, then all of his contributions, with interest, shall be refunded to him. If he shall again become a member of the Retirement System, he shall deposit in the Retirement Fund, the amount refunded to him and his rate of contribution shall be based on the same age as it was before said refund.

(f) The contributions made under this section shall be credited to the individual account of the member from whose compensation they were deducted, and no amendment to this Charter or repeal thereof shall prevent the payment to the member or his beneficiary, of such contributions made prior to the effective date of such amendment, with interest, upon separation, by other than retirement, from service of the city as provided in this Section.

SECTION 15. ADDITIONAL TAX LEVY. If in any year the amount of the contributions by the city and the cost of administration of said retirement fund, as in this Article provided, together with all amounts appropriated for other municipal purposes in the budget of the city, shall exceed the amount in this Charter limited for the levy of taxes for any
one year for all municipal purposes other than for the payment of principal or interest on any bonds of the city, or for school purposes, to wit: One Dollar ($1.00) on each One Hundred Dollars ($100.00) worth of taxable property in said city, as shown by the assessment roll, the legislative body is hereby authorized, without the necessity of the approval of two-thirds of the qualified electors of the city therefor, to levy and collect for the purposes of the Retirement System a tax, in addition to the tax so limited in this Charter, not to exceed seven cents ($.07) on each One Hundred Dollars ($100.00) worth of taxable property in the city, as shown by the assessment roll."

and

as a separate proposal that Article 6½ of the Charter of the City of Pasadena be amended by adding thereto a new section to be designated Section 4½, to read as follows:

"SECTION 4½. ANNUAL CONTRIBUTION FOR BOND REDEMPTION. At the time of or before the adoption of the budget of the city for the fiscal years commencing July 1st, 1935, and ending June 30, 1939, as provided for in this Charter, the legislative body shall annually determine by ordinance the amount to be transferred from the Light and Power Fund in accordance with the provisions of this section. The sum so determined shall be transferred by said legislative body by ordinance on or before the first day of September next succeeding the time of such determination, to the general fund of the city. The sum thus transferred shall be expended for the payment of interest and/or principal on any bonds of the city which are or shall become wholly payable out of moneys received from general taxes of the city.

The amount to be so transferred shall constitute 8% of the gross income of the Municipal Light and Power Department received during the previous fiscal year from the sale of electric energy for use in the City of Pasadena; provided, however, that no greater sum shall be transferred than shall be required currently for the expenditures for said interest and/or principal as herein provided.

Notwithstanding anything herein contained, if the legislative body at the time of or before the adoption of the budget of the city as aforesaid, shall determine that the transfer of such amount from the Light and Power Fund will be detrimental to the proper functioning and administration of the said Municipal Light and Power Department during the current fiscal year, the legislative body may so find by ordinance, and, in such event, no transfer of such amount shall be made thereafter within the current fiscal year. If the legislative body shall determine that the transfer of a less amount than the 8% aforesaid will not be detrimental to the proper functioning and administration of the said Municipal Light and Power Department during the current fiscal year, the legislative body may so declare by ordinance, and shall thereupon make transfer, as aforesaid, of said less amount.
This amendment shall become effective upon its approval by the legislature of the State of California."

and

as a separate proposal that Article 10 of the Charter of the City of Pasadena be amended by adding thereto a new section to be designated Section 9, to read as follows:

"SECTION 9. Whenever the city shall have received any money from the federal government or from the State of California, or from any agency of either, it may, in the expenditure of such money, conform to all applicable requirements of federal or state laws, and of regulations and orders issued under the authority thereof, with respect to the awarding of contracts, hours of labor, employment preferences and other such matters covered thereby, notwithstanding any provisions of this Charter inconsistent therewith, and any such inconsistent provisions shall yield and be subordinate thereto with respect to such expenditure."

That each of said proposed amendments on the 27th day of September, 1934, was published and advertised in accordance with the provisions of Section 8 of Article XI of the Constitution of the State of California, in the Pasadena Star-News, a daily newspaper of general circulation published in the said City of Pasadena, and the official newspaper of said City.

That such copies could be had upon application therefor at the office of said City Clerk until the date fixed for said election.

In each case the person so appointed shall hold office until the election and qualification of a person to fill the vacancy for the unexpired term, which election shall take place at the next succeeding primary nominating election or general municipal election, if any, occurring prior to the expiration of such term; and if no such election shall so occur, then such appointed person shall hold office for the unexpired term.

No person shall be eligible for any such appointment unless he shall possess the same residential qualifications as are required for nomination or election to such office. Any person so appointed to fill a vacancy in an elective office may be removed from office by the recall in the same manner as if he shall have been elected to said office.

PROPOSED CHARTER AMENDMENT NO. 10-A

That Section 103 of the charter be amended to read as follows:

Sec. 103. All applicants for office, places, or employments in said classified civil service shall be subject to examination, which shall be public, competitive and open to all citizens of the United States, with specified limitations as to residence, age, sex, health, habits, experience and moral character. An application fee in the sum of one dollar shall be charged and collected from each applicant for open competitive examination prior to the filing of any such application. Such examinations shall be practical in their character, and shall relate to those matters which will fairly test the relative capacity of the persons examined to discharge the duties of the position to which they seek to be appointed, and, when appropriate, shall include, or exclusively consist of, tests of physical qualifications, health and manual skill. No question in any examination shall relate to political or religious opinions or affiliations. No limitation or restriction whatsoever shall be imposed, excepting in the departments of fire and police, fixing a maximum age in excess of which persons shall be deprived from taking examinations for or being employed in the classified civil service. The board shall control all exam-
institutions, and may, whenever an examination is to take place, obtain the assistance of a suitable person or number of persons to aid it in preparing for and conducting such examinations.

PROPOSED CHARTER AMENDMENT NO. 11-A

That Section 107 of the Charter be amended to read as follows:

Sec. 107. The board shall by its rules provide for the promotion in such classified civil service on the basis of ascertained merit and seniority in service and examination, and shall provide in all cases where it is practicable that vacancies shall be filled by promotion. All examinations for promotion shall be competitive among such members of lower ranks as desire to submit themselves to such examination and who have such experience, qualification or qualifications as may be required by the board as a prerequisite for taking such examination; and it shall be the duty of the board to submit to the appointing power for each promotion the names of not more than three applicants having the highest rating; but in fixing said rating an allowance of credits, to be stated at the time of the announcement of said examination, shall be made for past service. Names of candidates on the register of eligibles for promotion shall be stricken therefrom after they shall have remained thereon two years without re-examination. The board shall cause to be held promotional examinations at such intervals that there shall at all times be maintained a register of eligibles for promotional positions in the classified civil service in which there are vacancies. The method of examination, and the rules governing the same, and the method of certifying shall be the same as provided for applicants for original appointment, except as otherwise provided in this section.

PROPOSED CHARTER AMENDMENT NO. 12-A

That Section 135 of the Charter be amended to read as follows:

Sec. 135. (1) The right of an officer or employee of the fire department to hold his office or position and to the compensation attached to such office or position is hereby declared to be a substantial property right of which he shall not be deprived arbitrarily or summarily, nor otherwise than as herein in this section provided. No officer or employee of the fire department shall be suspended, removed, deprived of his office or position, or otherwise separated from the service of the fire department, (other than by resignation) except for good and sufficient cause shown upon a finding of "guilty" of the specific charge or charges assigned as cause or causes therefore after a full, fair and impartial hearing before the Board of Rights, (except as otherwise specifically provided in paragraphs two (2) and seven (7) of this section). Such
charges must be based upon some act committed or omitted by such officer or employee within one (1) year prior to the filing of the complaint referred to herein. No case of suspension with loss of pay shall be for a period exceeding six (6) months.

(2) Provided however, that the Chief Engineer may:

(a) Temporarily relieve from duty any officer or employee of the fire department pending a hearing before and decision by the Board of Rights of any charge or charges pending against such officer or employee; or, he may

(b) Suspend such officer or employee for a total period not to exceed thirty (30) days with loss of pay and with or without reprimand, subject however, to the right of such officer or employee to a hearing before a Board of Rights. In the event the officer or employee suspended under this sub-paragraph, files his application with the Chief Engineer (within five (5) days after service upon him of notice of such suspension if he has been personally served or within ten (10) days if he has been served in any other manner as herein prescribed), for a hearing before and decision by a Board of Rights in the manner in this section provided, such suspension shall thereupon automatically become a temporary relief from duty pending hearing and decision by the Board of Rights. In the event, however, that such officer or employee so suspended under sub-paragraph (b) of paragraph two (2) hereof, fails to so apply for such hearing within the period prescribed, he shall be deemed to have waived such hearing and such suspension shall remain effective, unless the Chief Engineer requires that a hearing be had, as hereinafter provided.

(3) In the event any order of relief from duty or order of suspension is made under either sub-paragraphs (a) or (b) of paragraph two (2), such order must contain a statement of the charges assigned as causes therefor, and the Chief Engineer must (within five (5) days after such order of relief from duty or order of suspension is served as in this section prescribed) file with the Board of Fire Commissioners, a copy of a verified written complaint upon which such order of relief from duty or order of suspension is based, with a statement that a copy of such order of relief from duty or order of suspension and copy of verified complaint was served upon the accused. Such complaint must be verified by the oath of the person making the same and must contain a statement in clear and concise language of all the facts constituting the charge made. In the event that the Chief Engineer fails to file the aforesaid statement and complaint within the five (5) day period hereinafter prescribed, the aforesaid order of temporary relief from duty or order of suspension shall thereupon become void and of no effect and shall be automatically revoked, and the accused officer or employee restored to duty with the department without loss of pay and without prejudice, the same as if no order of relief from duty or order of suspension had been made.
(4) The service of any notice, order or process mentioned in this section, other than service of subpoena, may be made either by handing the officer or employee a copy thereof personally or by forwarding such copy by registered mail to his last known address of record with the fire department if after due diligence he cannot be found.

(5) Within five (5) days after service upon him of copy of the aforesaid verified complaint if he has been personally served or within ten (10) days after service upon him of copy of the aforesaid verified complaint if he has been served in any other manner as herein prescribed, the accused officer or employee may file with the Chief Engineer, his written application for a hearing before and decision by a Board of Rights.

(6) The Board of Rights shall be constituted of three (3) officers of the rank of Battalion Chief or higher. Upon the filing of the request for hearing before a Board of Rights as hereinabove provided, the officer or employee shall draw six (6) cards from a box containing the names of all of the officers who are qualified to sit upon such board, (except the names of the accused, the accuser, the Chief Engineer and the Deputy Chief Engineer, and such other officer as may be otherwise prejudiced or otherwise disqualified by reason of being a material witness to the facts constituting the charges made) and shall select any three (3) of the six (6) names thus drawn to constitute the Board of Rights to hear and decide upon the charges against him, rejecting the three (3) not selected by replacing them in the box. The three (3) thus selected shall constitute the Board of Rights to hear and decide the matter.

(7) In the event the accused fails, in any case, to request a hearing before a Board of Rights as hereinabove provided within the period prescribed, the Chief Engineer may require a hearing to be had before a Board of Rights and may for that purpose, within five (5) days after the expiration of such period, draw three (3) names from such box to constitute such Board. Provided, however, that in any case where such Board of Rights has been constituted for the purpose of hearing as herein in this section provided and the accused, without reasonable excuse, fails, neglects or refuses to appear before the said Board of Rights in session for such trial or hearing at the time and place designated, the Chief Engineer may, at his discretion, either direct the Board of Rights to proceed with such trial or hearing in the absence of such accused, or he may, without such hearing, impose such penalty of suspension or removal as he deems fit and proper, and cause notice thereof to be served upon such officer or employee so suspended or removed in the manner herein prescribed, and file a statement of such action with the Board of Fire Commissioners within five (5) days thereafter; and, provided further, however, that in the event the accused and Chief Engineer both fail to draw and create such Board of Rights within the period prescribed in any case of temporary relief
from duty pending hearing, then and in that event such temporary relief from duty shall be null and void and of no effect the same as if it had not been made.

(8) Upon the selection of the officers to constitute the Board of Rights, the said Chief Engineer shall appoint the time (not less than five (5) nor more than ten (10) days thereafter) and designate a place where such hearing is to be held, and shall cause notice thereof to be served upon accused in the manner herein prescribed.

The Board of Rights may at any stage of the proceedings, (after it has first met in session at the time and place designated) continue from time to time the hearing of the matter pending before them.

(9) The officers so selected as herein prescribed shall constitute the Board of Rights (for the purpose of hearing and deciding upon the matter for which it was specially drawn) and shall have the power to administer oaths and affirmations in any investigation or proceeding pending before said Board; examine witnesses under oath, and compel the attendance of witnesses and the production of evidence before them, respectively, as the case may be, by subpoena to be issued in the name of the City of Los Angeles, and to be attested by the City Clerk of said city.

(10) The City Clerk shall, upon demand of the officers constituting the said Board of Rights, issue such subpoena in the name of the city, and attest the same with the corporate seal thereof, and shall in such subpoena direct and require the attendance of the witnesses sought to be subpoenaed before the said Board at the time and place in said subpoena specified; and it shall be the duty of the Chief of Police to cause all such subpoenas to be served by some member of the police department upon the person or persons required to attend as aforesaid; and it shall be the duty of the council upon the adoption of this charter amendment to provide suitable penalties for disobedience of such subpoenas, and the refusal of witnesses to testify as herein provided.

(11) The City Attorney (or some duly authorized deputy) shall, upon request of the Board of Rights, sit with said Board of Rights during its session or hearing for the purpose of advising the said Board on any and all legal matters pertaining to this section.

(12) At such hearing the accused shall have the right to appear in person and by counsel or representative, or both, and make defense to such charge and may produce witnesses to testify in his behalf and cross-examine witnesses against him. The accused shall have the right and privilege to select and name any officer of the department of any rank not higher than the rank of Captain (who is not otherwise disqualified by reason of prejudice or being a party to the action in any capacity) to act as his defense representative at such hearing. The Chief Engineer must immediately assign the officer so selected and named to act as such representative, and it is
hereby made the duty of such officer to use every legal means available and exercise the best efforts of which he is capable to defend the accused at such hearing. All testimony at such hearing shall be given under oath, reported by a stenographer and transcribed and the accused shall be entitled to a certified copy of such transcript without charge or payment of fee. The said Board of Rights shall, at the conclusion of the hearing, make its specific findings of "guilty" or "not guilty" (on each specific charge) which must be based upon the evidence adduced before it at such hearing and not otherwise and render and certify its decision in writing. If the accused is found "not guilty", said Board shall order his restoration to duty without loss of pay and without prejudice, and such order shall be self-executing and immediately effective. In case, however, that the accused is found "guilty", the said Board of Rights shall prescribe its penalty (by order in writing) of either suspension for a definite period not exceeding six (6) months with total loss of pay, and with or without reprimand; or reprimand without further penalty; or of removal from office or position; which decision and order must be certified in writing and a copy thereof immediately delivered to the Chief Engineer. The departmental personal history and records of the accused shall not be available to the Board of Rights except and only in such cases where the accused has been found guilty of any charge upon which he was heard or tried by the Board of Rights, then only for the purpose of determining a proper penalty to be prescribed; provided, however, that in prescribing such penalty the said Board must look to the nature and gravity of the offense of which the accused has been found guilty and may at its discretion review the departmental personal history and record of such accused; provided further however, that no item or entry in such record may be considered by the said Board except in the presence of the accused, nor unless such accused has been given a fair and reasonable opportunity to explain any such item or entry.

(13) The Chief Engineer shall thereafter execute the order of the Board of Rights within five (5) days after delivery to him of such certified copy of decision and order, or, he may within five (5) days, at his discretion and in lieu of such order, impose a penalty upon such officer or employee less in severity than that ordered by the Board of Rights, but may not impose a greater penalty. In the case of a suspension or removal, the Chief Engineer shall cause a copy of his notice of suspension or removal (based upon the order of the Board of Rights or upon his modification thereof) to be served upon such officer or employee and shall file a statement of such action with the Board of Fire Commissioners within five (5) days thereafter.

(14) In any case of penal suspension or removal prescribed by the Board of Rights (or by the Chief Engineer in case no hearing is had before a Board of Rights) the time of such
suspension shall be computed from the first day such officer or employee was so suspended or relieved from duty pending hearing before and decision by the Board of Rights, and such removal shall relate back to and be effective as of the date of such relief from duty pending hearing before and decision by the Board of Rights.

(15) No officer or employee of the fire department shall be twice tried for the same offense, except upon his request. In any case of exoneration of the accused after a hearing before the Board of Rights, such exoneration shall be without prejudice to such officer or employee.

(16) At any time within three (3) years after any case of removal as hereinabove provided, the officer or employee so removed may file his request with the Chief Engineer to be reheard or to be heard on the cause of his removal, together with his supporting affidavit specifically setting forth in clear and concise language the reasons or grounds therefor. The Chief Engineer must consider and decide upon such request and affidavit within thirty (30) days after such filing. If good reason or cause appears therefor, the Chief Engineer must, without unnecessary delay, cause a Board of Rights to be constituted in the manner hereinabove provided for the purpose of hearing and deciding upon the matter. The said Board of Rights shall proceed as hereinabove prescribed, and shall at the conclusion of the hearing render and certify its findings (independent of any previous findings by any other Board of Rights, or any other court, board or other tribunal, or any investigation or report of or discretion exercised by the Chief Engineer in such cases where no hearing was had before a Board of Rights), based upon the evidence adduced before it at such hearing and not otherwise, and shall make and certify its decision and order in writing, and shall deliver a copy thereof to the Chief Engineer. The Chief Engineer shall thereupon proceed in the same manner as is hereinabove provided for after decision by the Board of Rights.

(17) If, as and when the Board of Fire Commissioners herein referred to should become abolished, then, and in that event, wherever in this section the Board of Fire Commissioners is named or referred to there shall be read into this section in place hereof, the name of the officer, board or other body created in its place to assume the functions, powers and duties of such Board of Fire Commissioners; or, in the absence of such specific provision, then there shall be read into this section the name of the officer, board or body to whom such powers or duties may be delegated, or who shall assume such powers or duties.

(18) This section shall not be construed to in any way affect any other rights any officer or employee may have to pursue or assert any and all other legal rights or remedies in relation to his office or position or to the compensations attached thereto, or to appeal to or be heard or tried by or before any court or other tribunal of competent jurisdiction,
whether such court or other tribunal now exists or may be hereafter created or established.

(19) Any person restored to duty or reinstated in his office or position after suspension or removal, as provided in and under any provision of this section, shall be entitled to receive full compensation from the city the same as if such suspension or removal had not been made, provided that such compensation shall not be for more than six (6) months salary.

That Section 202 of the Charter be amended to read as follows:

Sec. 202. (1) The right of an officer or employee of the police department to hold his office or position and to the compensation attached to such office or position is hereby declared to be a substantial property right of which he shall not be deprived arbitrarily or summarily, nor otherwise than as herein in this section provided. No officer or employee of the police department shall be suspended, removed, deprived of his office or position, or otherwise separated from the service of the police department, (other than by resignation) except for good and sufficient cause shown upon a finding of "guilty" of the specific charge or charges assigned as cause or causes therefor after a full, fair and impartial hearing before the Board of Rights, (except as otherwise specifically provided in paragraphs two (2) and seven (7) of this section). Such charges must be based upon some act committed or omitted by such officer or employee within one (1) year prior to the filing of the complaint referred to herein. No case of suspension with loss of pay shall be for a period exceeding six (6) months.

(2) Provided however, that the Chief of Police may:

(a) Temporarily relieve from duty any officer or employee of the police department pending a hearing before and decision by the Board of Rights of any charge or charges pending against such officer or employee; or, he may

(b) Suspend such officer or employee for a total period not to exceed thirty (30) days with loss of pay and with or without reprimand, subject however, to the right of such officer or employee to a hearing before a Board of Rights. In the event the officer or employee suspended under this subparagraph, files his application with the Chief of Police (within five (5) days after service upon him of notice of such suspension if he has been personally served or within ten (10) days if he has been served in any other manner as herein prescribed), for a hearing before and decision by a Board of Rights in the manner in this section provided, such suspension shall thereupon automatically become a temporary relief from duty pending hearing and decision by the Board of Rights. In the event, however, that such officer or employee so suspended under sub-paragraph (b) of paragraph two (2) hereof, fails to so apply for such hearing within the period prescribed, he shall be deemed to have waived such hearing and such suspension shall remain effective, unless the Chief
of Police require that a hearing be had, as hereinafter provided.

(3) In the event any order of relief from duty or order of suspension is made under either sub-paragraphs (a) or (b) of paragraph two (2), such order must contain a statement of the charges assigned as causes therefor, and the Chief of Police must (within five (5) days after such order of relief from duty or order of suspension is served as in this section prescribed) file with the Board of Police Commissioners, a copy of a verified written complaint upon which such order of relief from duty or order of suspension is based, with a statement that a copy of such order of relief from duty or order of suspension and copy of verified complaint was served upon the accused. Such complaint must be verified by the oath of the person making the same and must contain a statement in clear and concise language of all the facts constituting the charge made. In the event that the Chief of Police fails to file the aforesaid statement and complaint within the five (5) day period herefore prescribed, the aforesaid order of temporary relief from duty or order of suspension shall thereupon become void and of no effect and shall be automatically revoked, and the accused officer or employee restored to duty with the department without loss of pay and without prejudice, the same as if no order of relief from duty or order of suspension had been made.

(4) The service of any notice, order or process mentioned in this section, other than service of subpoena, may be made either by sending the officer or employee a copy thereof personally or by forwarding such copy by registered mail to his last known address of record with the police department if after due diligence he cannot be found.

(5) Within five days after service upon him of copy of the aforesaid verified complaint if he has been personally served or within ten (10) days after service upon him of copy of the aforesaid verified complaint if he has been served in any other manner as herein prescribed, the accused officer or employee may file with the Chief of Police, his written application for a hearing before and decision by a Board of Rights.

(6) The Board of Rights shall be constituted of three (3) officers of the rank of Captain or higher. Upon the filing of the request for hearing before a Board of Rights as hereinabove provided, the officer or employee shall draw six (6) cards from a box containing the names of all of the officers who are qualified to sit upon such board, (except the names of the accused, the accuser, the Chief of Police and the Assistant Chief of Police, and such other officer as may be otherwise prejudiced or otherwise disqualified by reason of being a material witness to the facts constituting the charges made) and shall select any three (3) of the six (6) names thus drawn to constitute the Board of Rights to hear and decide upon the charges against him, rejecting the three (3) not selected by
replacing them in the box. The three (3) thus selected shall constitute the Board of Rights to hear and decide the matter.

(7) In the event the accused fails, in any case, to request a hearing before a Board of Rights as hereinabove provided within the period prescribed, the Chief of Police may require a hearing to be had before a Board of Rights and may for that purpose, within five (5) days, after the expiration of such period, draw three (3) names from such box to constitute such Board. Provided, however, that in any case where such Board of Rights has been constituted for the purpose of hearing as herein in this section provided and the accused, without reasonable excuse, fails, neglects or refuses to appear before the said Board of Rights in session for such trial or hearing at the time and place designated, the Chief of Police may, at his discretion, either direct the Board of Rights to proceed with such trial or hearing in the absence of such accused, or he may, without such hearing, impose such penalty of suspension or removal as he deems fit and proper, and cause notice thereof to be served upon such officer or employee so suspended or removed in the manner herein prescribed, and file a statement of such action with the Board of Police Commissioners within five (5) days thereafter; and, provided further, however, that in the event the accused and Chief of Police both fail to draw and create such Board of Rights within the period prescribed in any case of temporary relief from duty pending hearing, then and in that event such temporary relief from duty shall be null and void and of no effect the same as if it had not been made.

(8) Upon the selection of the officers to constitute the Board of Rights, the said Chief of Police shall appoint the time (not less than five (5) nor more than ten (10) days thereafter) and designate a place where such hearing is to be held, and shall cause notice thereof to be served upon accused in the manner herein prescribed.

The Board of Rights may at any stage of the proceedings, (after it has first met in session at the time and place designated) continue from time to time the hearing of the matter pending before them.

(9) The officers so selected as herein prescribed shall constitute the Board of Rights (for the purpose of hearing and deciding upon the matter for which it was specially drawn) and shall have the power to administer oaths and affirmations in any investigation or proceeding pending before said Board, examine witnesses under oath, and compel the attendance of witnesses and the production of evidence before them, respectively, as the case may be, by subpoena to be issued in the name of the City of Los Angeles, and to be attested by the City Clerk of said city.

(10) The City Clerk shall, upon demand of the officers constituting the said Board of Rights, issue such subpoena in the name of the city, and attest the same with the corporate seal thereof, and shall in such subpoena direct and require the
attendance of the witnesses sought to be subpoenaed before
the said Board, at the time and place in said subpoena specified; and it shall be the duty of the Chief of Police to cause all such subpoenas to be served by some member of the police department upon the person or persons required to attend as aforesaid; and it shall be the duty of the council upon the adoption of this charter amendment to provide suitable penalties for disobedience of such subpoenas, and the refusal of witnesses to testify as herein provided.

(11) The City Attorney (or some duly authorized deputy) shall, upon request of the Board of Rights, sit with said Board of Rights during its session or hearing for the purpose of advising the said Board on any and all legal matters pertaining to this section.

(12) At such hearing the accused shall have the right to appear in person and by counsel or representative, or both, and make defense to such charge and may produce witnesses to testify in his behalf and cross-examine witnesses against him. The accused shall have the right and privilege to select and name any officer of the department of any rank not higher than the rank of Lieutenant (who is not otherwise disqualified by reason of prejudice or being a party to the action in any capacity) to act as his defense representative at such hearing. The Chief of Police must immediately assign the officer so selected and named to act as such representative, and it is hereby made the duty of such officer to use every legal means available and exercise the best efforts of which he is capable to defend the accused at such hearing. All testimony at such hearing shall be given under oath, reported by a stenographer and transcribed and the accused shall be entitled to a certified copy of such transcript without charge or payment of fee. The said Board of Rights shall, at the conclusion of the hearing, make its specific findings of "guilty" or "not guilty" (on each specific charge) which must be based upon the evidence adduced before it at such hearing and not otherwise and render and certify its decision in writing. If the accused is found "not guilty", said Board shall order his restoration to duty without loss of pay and without prejudice, and such order shall be self-executing and immediately effective. In case, however, that the accused is found "guilty", the said Board of Rights shall prescribe its penalty (by order in writing) of either suspension for a definite period not exceeding six (6) months with total loss of pay, and with or without reprimand; or reprimand without further penalty; or of removal from office or position; which decision and order must be certified in writing and a copy thereof immediately delivered to the Chief of Police. The departmental personal history and records of the accused shall not be available to the Board of Rights except and only in such cases where the accused has been found guilty of any charge upon which he was heard or tried by the Board of Rights, then only for the purpose of determining a proper penalty to be prescribed; provided, how-
ever, that in prescribing such penalty the said Board must look to the nature and gravity of the offense of which the accused has been found guilty and may at its discretion review the departmental personal history and record of such accused: provided further however, that no item or entry in such record may be considered by the said Board except in the presence of the accused, nor unless such accused has been given a fair and reasonable opportunity to explain any such item or entry.

(13) The Chief of Police shall thereafter execute the order of the Board of Rights within five (5) days after delivery to him of such certified copy of decision and order, or, he may within five (5) days at his discretion and in lieu of such order, impose a penalty upon such officer or employee less in severity than that ordered by the Board of Rights, but may not impose a greater penalty. In the case of a suspension or removal, the Chief of Police shall cause a copy of his notice of suspension or removal (based upon the order of the Board of Rights or upon his modification thereof) to be served upon such officer or employee and shall file a statement of such action with the Board of Police Commissioners within five (5) days thereafter.

(14) In any case of penal suspension or removal prescribed by the Board of Rights (or by the Chief of Police in case no hearing is had before a Board of Rights) the time of such suspension shall be computed from the first day such officer or employee was so suspended or relieved from duty pending hearing before and decision by the Board of Rights, and such removal shall relate back to and be effective as of the date of such relief from duty pending hearing before and decision by the Board of Rights.

(15) No officer or employee of the police department shall be twice tried for the same offense, except upon his request. In any case of exoneration of the accused after a hearing before the Board of Rights, such exoneration shall be without prejudice to such officer or employee.

(16) At any time within three (3) years after any case of removal as hereinabove provided, the officer or employee so removed may file his request with the Chief of Police to be reheard or to be heard on the cause of his removal, together with his supporting affidavit specifically setting forth in clear and concise language the reasons or grounds therefor. The Chief of Police must consider and decide upon such request and affidavit within thirty (30) days after such filing. If good reason or cause appears therefor, the Chief of Police must, without unnecessary delay, cause a Board of Rights to be constituted in the manner hereinabove provided for the purpose of hearing and deciding upon the matter. The said Board of Rights shall proceed as hereinabove prescribed, and shall at the conclusion of the hearing render and certify its findings (independent of any previous findings by any other Board of Rights, or any other court, board or other tribunal, or any investigation or report of or discretion exercised by the Chief of Police in such cases where no hearing was had before
a Board of Rights), based upon the evidence adduced before it at such hearing and not otherwise, and shall make and certify its decision and order in writing, and shall deliver a copy thereof to the Chief of Police. The Chief of Police shall thereupon proceed in the same manner as is hereinabove provided for after decision by the Board of Rights.

(17) If, as and when the Board of Police Commissioners herein referred to should become abolished, then, and in that event, wherever in this section the Board of Police Commissioners is named or referred to there shall be read into this section in place thereof, the name of the officer, board or other body created in its place to assume the functions, powers and duties of such Board of Police Commissioners; or, in the absence of such specific provision, then there shall be read into this section the name of the officer, board or body to whom such powers or duties may be delegated, or who shall assume such powers or duties.

(18) This section shall not be construed to in any way affect any other rights any officer or employee may have to pursue or assert any and all other legal rights or remedies in relation to his office or position or to the compensations attached thereto, or to appeal to or be heard or tried by or before any court or other tribunal of competent jurisdiction, whether such court or other tribunal now exists or may be hereafter created or established.

(19) Any person restored to duty or reinstated in his office on position after suspension or removal, as provided in and under any provision of this section, shall be entitled to receive full compensation from the city the same as if such suspension or removal had not been made, provided that such compensation shall not be for more than six (6) months salary.

PROPOSED CHARTER AMENDMENT NO. 13-A

That a new section be added to the Charter to be numbered Section 37 1/2 to read as follows:

Sec. 37 1/2. No special assessment shall be levied or collected against property in the City of Los Angeles for the purpose of paying the cost or expense of the acquisition, construction, maintenance or operation of any subway or elevated railway.

PROPOSED CHARTER AMENDMENT NO. 14-A

That a new section be added to the Charter, to be numbered 227, and to read as follows:

Sec. 227. In the exercise of the power to borrow money pursuant to the authorization contained in Section 224 3/4 of this charter, the Board may, by appropriate contract, notwithstanding the provision of said section that such borrowed money shall be repaid in not more than twenty equal annual payments, provide for the repayment of the principal thereof in not more than twenty graduated amounts such that the aggregate of principal and interest to be paid in each year
shall be substantially equal, and may repay such indebtedness, or any part thereof, before maturity; and the Board is hereby authorized from time to time to provide for the refunding, extension or renewal of such indebtedness at or prior to maturity by the issuance, sale or exchange of new notes or other evidences of indebtedness in the same aggregate principal amount, of such denomination, maturing in such installments and at such time or times, and bearing such rate or rates of interest, and otherwise modified, as said Board in its discretion may deem expedient; provided, however, that no such refunding, extension or renewal of such indebtedness shall extend the time of payment of the last installment of principal and/or interest beyond twenty years from the original incurring of such indebtedness, nor provide for payments of the principal otherwise than in not more than twenty equal annual payments, or in not more than twenty payments, graduated in the manner hereinabove stated, (subject to the provision that no payments of principal need be required during the first three years following the date of any such loan) unless such refunding, extension or renewal shall be approved by a majority of the voters voting upon the proposition at an election at which such proposition shall be submitted, or shall be provided for by the issuance of bonds authorized by vote of the electors, pursuant to law.

PROPOSED CHARTER AMENDMENT NO. 15-A

That a new section be added to the Charter to be numbered 224\(\frac{1}{2}\), and to read as follows:

Sec. 224\(\frac{1}{2}\). Whenever the Department shall have borrowed money from the Federal Government pursuant to the authorization contained in the preceding section it may, in the expenditure of the money so borrowed, conform to all applicable requirements of Federal laws, and of regulations and orders issued under the authority thereof, with respect to the awarding of contracts, hours of labor, employment preferences and other matters covered thereby, notwithstanding any provisions of this Charter inconsistent therewith, and any such inconsistent provisions shall yield and be subordinate thereto with respect to such work.

PROPOSED CHARTER AMENDMENT NO. 16-A

That a new section be added to the Charter, to be numbered 226, and to read as follows:

Sec. 226. The Board is hereby authorized to borrow money from the Federal Government or the State Government, or any duly authorized agency created by either of said governments and acting therefor, or from any other source, to provide and pay the consideration for, and expenses of, the acquisition by the Department of the electric system of the Los Angeles Gas and Electric Corporation, subject to the following provisions:
Resolution

(a) No part of the consideration for such acquisition shall be paid over to said corporation out of any money so borrowed unless and until the Board shall have adopted a resolution declaring its intention to make such payment, specifying the amount thereof, or the maximum and minimum limits of such amount, or the proposed method of determining the same, and such resolution shall have become effective. Such resolution shall be published in the same manner as is required for the publication of ordinances of the Council; and such resolution shall not in any event go into effect until the expiration of thirty days from its publication, and shall be subject to referendum in like manner and with like effect as provided in sections 282 to 289, inclusive, of this Charter, with reference to resolutions adopted by the City Council. The Board may also request the Council to submit such resolution to a vote of the qualified electors of the city in the same manner as provided with reference to resolutions of the City Council in section 280 of this Charter; and if such request shall be so made, the Council shall so submit such resolution in the same manner and with the same effect as provided in said section 280.

(b) The Board shall, either prior to or concurrently with the adoption of the resolution provided for in paragraph (a) hereof, provide for the holding of a public hearing, either at its usual place of meeting or at some other suitable place, with reference to the proposal to acquire said electric system, which hearing shall be held prior to, or not more than ten days after, the adoption of the resolution provided for in paragraph (a) hereof.

(c) The Board shall not, prior to the taking effect of the resolution provided for in paragraph (a) hereof, enter into any contract with said corporation for the purchase of said electric system in which the obligation to pay such purchase price is not made subject to the adoption and taking effect of such resolution.

(d) The board shall not, prior to the taking effect of the resolution provided for in paragraph (a) hereof, enter into any contract with the lender of the money so to be borrowed in which the obligation of the Board to accept and receive such money is not made subject to the adoption and taking effect of such resolution.

(e) The principal and interest of such borrowed money shall be paid from the Power Revenue Fund, and the principal shall be repaid in not more than twenty annual payments, which shall be equal, or so graduated that the aggregate of principal and interest to be paid in each year shall be substantially equal, but no payments of principal need be required during the first three years following the date of any such loan. Nothing herein contained shall be construed to prohibit the repayment of such indebtedness, or any part thereof, before maturity, either out of such revenue funds or out of the proceeds of refunding bonds, or other authorized evidences of indebtedness; and the Board is hereby authorized.
from time to time to provide for the refunding, extension or renewal of such indebtedness at or prior to maturity by the issuance, sale or exchange of new notes or other evidences of indebtedness in the same aggregate principal amount, of such denomination, maturing in such installments and at such time or times, and bearing such rate or rates of interest, and otherwise modified, as said Board in its discretion may deem expedient; provided, however, that no such refunding, extension or renewal of such indebtedness shall extend the time of payment of the last installment of principal and/or interest beyond twenty years from the original incurring of such indebtedness, nor provide for payments of the principal otherwise than in not more than twenty equal annual payments, or in not more than twenty payments, graduated in the manner hereinafore stated, (subject to the provision that no payments of principal need be required during the first three years following the date of any such loan) unless such refunding, extension or renewal shall be approved by a majority of the voters voting upon the proposition at an election at which such proposition shall be submitted, or shall be provided for by the issuance of bonds authorized by vote of the electors, pursuant to law.

None of the provisions of this section shall apply to any acquisition of such electric system if the consideration therefore shall be paid out of the proceeds of the sale of bonds authorized by vote of the electors, in the manner provided by law, for the purpose of providing for such acquisition.

PROPOSED CHARTER AMENDMENT NO. 19-A

That Section 386 of the Charter be amended to read as follows:

Sec. 386. The City of Los Angeles shall not be, and is not bound by any contract involving any expenditure of more than two thousand dollars ($2000.00), unless the Council, board, purchasing agent, or other officer or employee, as the case may be, authorized to make the same, shall have first caused notice to be published one or more times in a daily newspaper printed and published in said city, inviting proposals to perform the same, and specifying the amount of the bond to be given for the faithful performance of the contract, and thereafter shall have let said contract to the lowest and best regular responsible bidder furnishing security for its performance satisfactory to the Council, board, officer or employee, as the case may be. PROPOSED CHARTER AMENDMENT NO. 21-A

That Section 219 of the Charter be amended to read as follows:

Whenever in the exercise of such power to provide for the cost of extensions and betterments from such revenues, the board may deem it advisable to make any such extension or betterment which cannot be provided for out of the appropriations for a single fiscal year, it may at any time adopt a special budget and make special appropriations therefor specifying the amount of such appropriation for each fiscal year during which such extension or betterment is expected to be in progress, and when such special budget is so adopted said board may incur financial obligations and make expenditures as authorized thereby; provided, however, that if such special budget is made concurrently with or after the adoption of the annual departmental budget for any fiscal year, it shall not appropriate for expenditure in that year any sum which is not appropriated for the same purpose in such annual departmental budget, or which is not available for appropriation therefrom from the unappropriated balance, or as otherwise provided in this charter; and provided further that no such special appropriation for a future fiscal year shall be made unless, on report of the General Manager of the Bureau having charge of the works to which such improvement or extension pertains, or the General Manager of the department, it shall find that the reasonably expected revenues of such works in each fiscal year for which such appropriation is made will be amply sufficient to permit of the making of such appropriation in addition to the following:

1. Appropriations to cover the necessary expenses of operating and maintaining such works, and such payments of principal and interest on outstanding bonds as, under the provisions of section 223 of this charter, and findings or resolutions provided for therein, said board is required to apportion and set apart;

2. Appropriations to cover all sums coming due in said year for principal and interest upon notes, certificates or other evidences of indebtedness issued under the provisions of Sections 224 and 224½ of this Charter;

3. Appropriations to cover all appropriations made by any prior special budget; and

Any such special budget shall be subject to modification or extension upon like report and finding, but said board shall not, either by such adoption, modification or extension, make any appropriations for any fiscal year later than three years after the fiscal year in which such special budget, modification or extension is so adopted. It shall be the duty of the board in adopting the annual departmental budget for each
fiscal year to include therein appropriations for each item appropriated for that year by any such special budget, as so adopted or modified.

PROPOSED CHARTER AMENDMENT NO. 23-A

That subdivision Third of Section 221 of the Charter be amended to read as follows:

"Sec. 80: Whenever positions in the classified civil service are to be filled, the head of the department, office, board or commission, in which any vacancies occur, shall notify the Civil Service Commission of that fact and the Commission shall thereupon certify for each such vacancy the names and addresses of the three candidates standing highest upon the eligible list for the class or grade to which such position belongs, and the appointing authority shall appoint under probation one of the three persons certified to him, for each such position. Every employee must serve a probationary period of six months.

"Sec. 81: All appointive officers and employees of the County of San Diego or any subdivision thereof at the time this Article shall take effect, excepting those in the unclassified service as hereinbefore set forth in this Article, and who shall have been such for the six months prior thereto, including copyists in the office of the County Recorder and all other employees, whether paid on a piece work basis or otherwise, shall be confirmed in such positions and shall be certified by the Civil Service Commission without examination and shall hold said positions until discharged, reduced, promoted or transferred in accordance with the provisions of this Charter relating to Civil Service.

"Sec. 89: No person shall be certified to any position in the classified civil service, or employed or appointed to any position or office in the unclassified service, unless such person is a native born or fully naturalized citizen of the United States; provided, however, that the prohibitions of this section shall not apply to the employment as a member of the faculty or teaching force in public schools of this county of any person who has declared his intention to become a citizen of the United States, nor of any native born woman of the United States who has married a foreigner or to any specialist or expert temporarily employed by any department of the county and engaged in special investigation, or in any emergency when it is necessary to protect life, health or property against fire, flood or other calamity arising from natural causes.
"No money shall be paid out of the County Treasury and no salary warrants shall be issued or approved by the auditor and controller for the payment of salaries or wages to any person employed in or by any county office or department, unless such person shall be a native born or fully naturalized citizen of the United States and shall have filed an affidavit thereto with the County Auditor and Controller, subject, however, to the exceptions contained in this section. The term "Person who has declared his intention to become a citizen" shall not include any person who fails to secure his certificate of naturalization within six months after the time he is entitled by law to secure the same.

"Sec. 90: The Auditor and Controller shall withhold payment of any salary or compensation for services from any person holding or performing the duties of a position in the classified service, unless the payroll or claim for such salary or compensation shall bear the certificate of the Civil Service Commission that the persons named therein have been appointed or employed and are performing service in accordance with the provisions of this article and of the rules established thereunder.

"Sec. 91: No person in the classified civil service or seeking admission thereto, shall be appointed, reduced or removed, or in any way favored or discriminated against because of his color or creed or political opinions or affiliations.

"Sec. 92: If any portion of this Charter relating to Civil Service should be held to be unconstitutional, the Board of Supervisors shall, by ordinance, provide for such additional legislation as may be required to supplement this article in order to provide for a civil service system for the county.

"Sec. 93: This article shall take effect on the first day of July, 1935, after its approval by the Legislature of the State of California."

PROPOSAL NO. 4

That Sections 7, 8, 9 and 10 of Article VII of the Charter of the City of Alameda be repealed, and a new Article added to the Charter of the City of Alameda, to be known as Article VIIa, and to read as follows:

Sec. 1. The Board of Police and Fire Commissioners shall consist of three members, who shall serve without compensation. The members shall be elected, and shall hold office for four years, and until their successors are elected and qualified. Said Board shall be elected at the same times and in the same manner as the members of the City Council, and shall be subject to recall as in this charter provided. In the case of the Board first elected, the one receiving the highest vote shall hold office until the third succeeding general city election at which councilmen are chosen, the one receiving the second highest vote shall hold office until the second succeeding general city election, and the other one shall hold office until the next general city election at which councilmen are chosen, and until their successors are elected and qualified. Anything in this charter to the contrary notwithstanding, an election shall be held within sixty days after ratification of this amendment by the State Legislature, for the purpose of electing the three members of this board.

Sec. 2. Vacancies. Any vacancy occurring in the Board shall be filled by the vote of the remaining members of the board, and any person appointed to fill such vacancy shall hold office only until the next general municipal election, at which time a person shall be elected to serve for the remainder of such unexpired term.

In case all positions on said Board shall be vacant at the same time, a commission consisting of the Police Judge, the Auditor and Tax Collector, shall, by a majority vote, make the appointments and fill all such vacancies. Said commission shall make such appointments within thirty (30) days after such vacancies occur.

Sec. 3. The Board of Police and Fire Commissioners shall have entire control and management of the police and fire departments in the City of Alameda, subject only to the provisions of Section 7, Article II of this charter.

Said Board shall appoint the chiefs of the respective departments from the membership of said respective departments, and said chiefs, so appointed, shall hold office at the pleasure of said Board.
All other members of said respective departments shall be appointed by said Board subject to the provisions of this Article.

Said Board shall, from time to time, make rules to carry out the purposes of this Article and for examinations and appointments in accordance with its provisions.

All applicants for employment in said departments shall be subject to examination, which shall be public, competitive and free to all citizens of the United States, with specified limitations as to the residence, age, sex, habits, health, experience and moral character. Such examinations shall be practical in their character, and shall relate to those matters which will fully test the relative capacity of the persons examined to discharge the duties of the position to which they seek to be appointed. The Board shall control all examinations, and may, whenever an examination is to take place, obtain the assistance of a suitable person or persons to aid in preparing for and conducting such examination; provided, however, that all members of the respective departments who are in the City service at the time this amendment goes into effect shall be retained in their respective positions, subject to the provisions of this Article, but any such person may be demoted, if, in the opinion of the Commissioners, such action be for the good of the public service; and provided, further, that any person who shall have been dismissed or discharged from membership in either department within three years prior to the effective date of this amendment for any reason except for cause, shall be eligible for reappointment without examination and without being required to comply with any specified limitations as hereinabove set forth.

Sec. 4. Notice of the time, place and general scope of the examinations shall be given by the Board by publication for two weeks preceding such examination in a newspaper printed in said city and such notice shall also be posted by said Board in a conspicuous place at the City Hall and in its office two weeks before such examination.

Sec. 5. From the examinations made by the Board, it shall prepare a register of the persons whose general average standing upon examination for such class is not less than the minimum for such class fixed by the rules of said Board, and who are otherwise eligible and such persons shall take rank upon the register as candidates in the order of their relative excellence as determined by their examination without reference to priority of the date of examination.

Sec. 6. The Board shall, by its rules, provide for the promotion of the members of said Police and Fire Departments on the basis of ascertained and seniority in service and examination, and shall provide, in all cases where it is practicable, that vacancies shall be filled by promotion. All examinations for promotion shall be competitive among such members of lower ranks as desire to submit themselves to such examination and who have such experience, qualification or
qualifications as may be required by the Board as a prerequisite for taking such examination.

Sec. 7. The Board shall, by its rules, provide for (a) leaves of absence, (b) the transfer from one position to a similar position in the same class, (c) reinstatement to list of eligibles of persons who have become separated from service or have been reduced in rank in the service, other than persons who have been removed for cause.

Sec. 8. Subject to the general supervision of said Board, the respective chiefs shall have command of and control of their respective departments, and shall have the power to suspend, for cause, any member of their respective departments; provided, however, that in the event that the Chief of either the Police or Fire Department shall suspend, for cause, any member of his department, he shall report the cause, in writing, to the Board with certification that a copy of such statement has been served upon the person so suspended, personally, or by leaving a copy thereof at his last known place of residence if he cannot be found. Within fifteen (15) days after such statement shall have been filed, the said Board, upon its own motion, may, or upon written application of the person so suspended, filed with said Board within five (5) days after service upon him of such statement, shall proceed to investigate the grounds for such suspension. If, after such investigation, said Board finds, in writing, that the grounds stated for such suspension were insufficient or were not sustained, and also finds in writing, that the person so suspended is a fit and suitable person to fill the position from which he was suspended, said Board shall order said person so suspended to be reinstated or restored to duty. If the said Board finds the grounds stated for such suspension were sufficient, it may discipline the offending person or may remove the offending person from the department of which he is a member, but no such person shall be removed from such department except for notorious or consecutive insubordination or neglect of duty, or upon conviction of a felony.

If said Board shall order that any person suspended by the Chief of either the Police or the Fire Department be reinstated or restored as above provided, the person so suspended shall be entitled to receive compensation from the city the same as if he had not been suspended by the Chief of said department.

The decision of the said Board upon all matters of suspension, discipline and dismissal shall be final.

Sec. 9. The Board shall, by its rules, provide for the establishment of and govern the keeping of service records of all members of said departments, which records may be used as one of the bases for (a) promotion as provided by this Article; (b) lay-offs, through reduction in number of the said departments.
Sec. 10. Any member of the Board shall have the power to administer oaths in matters pertaining to the work of the Board.

Sec. 11. Any false statement wilfully made under oath either in any application or other paper filed with the Board or in any proceeding before the Board or in any investigation conducted by or under the jurisdiction of the Board, or in any proceeding arising under this Article, shall be punishable as a misdemeanor.

Sec. 12. Any officer or other person who shall wilfully or corruptly, by himself or in cooperation with one or more other persons, defeat, deceive or obstruct any person to his right of examination, or corruptly or falsely mark, grade, estimate or report upon the examination or proper standing of any person examined hereunder, or aid in so doing, or wilfully or corruptly furnish to any person any special or secret information for the purpose of either improving or injuring the prospects or chances of any person so examined or to be examined, of being employed, appointed or promoted, shall be guilty of a misdemeanor and punished therefor.

Sec. 13. No applicant for appointment in either of said departments, either directly or indirectly, shall pay or promise to pay any money or other valuable thing to any person whatever for or on account of his appointment, and no officer or member of said departments shall pay, or promise to pay, either directly or indirectly, any money or other valuable thing whatever, for or on account of his promotion. The commission of any act prohibited by this section shall be a misdemeanor and punishable as such.

Sec. 14. Any person holding a position in either of said departments who wilfully violates any of the provisions of this Article shall, after hearing by said Board, be subject to being suspended, removed from membership in said departments, or otherwise disciplined.

PROPOSAL NO. 5

That Sections 1 to 12, inclusive, of Article X of the Charter of the City of Alameda be repealed, and that there be added to said Article 10 the following Sections 1 to 18, inclusive:

Sec. 1. There is hereby created a department of the City Government under the name of the Department of Public Utilities. Said department shall be under the control and management of a board of five commissioners, and which shall be known as the Board of Public Utilities Commissioners. Said Board shall be elected at the same times and in the same manner as the members of the City Council and shall hold office for four years and until their successors are elected and qualified, and shall be subject to recall as in this charter provided. In the case of the Board first elected, the three receiving the highest vote shall hold office until the second
succeeding general city election at which councilmen are
chosen, and the other two shall hold office until the next such
succeeding election and until their successors are elected and
qualified. Anything in this charter to the contrary notwith-
standing, an election shall be held within sixty days after
ratification of this amendment by the State Legislature, for
the purpose of electing the five members of this Board. The
present members of the Board of Public Utilities shall hold
office only until their successors are elected and qualified.

The Board shall hold regular meetings on the second Thurs-
day of every month at eight o'clock P.M. in the office of the
Department of Public Utilities. It shall serve without com-
ensation, but necessary expenses incurred by them shall be
a proper charge against the city, and when certified by the
city auditor, shall be paid.

Sec. 1a. Any vacancy occurring on the Board shall be
filled by a majority vote of the remaining members.

Sec. 2. As soon as practicable after the first day of July
in each year, the Board shall organize by electing one of its
members president and one vice-president, which officers shall
hold office until their successors are elected, unless their mem-
bership on the Board sooner expires. The election of each
succeeding president and vice-president shall be held at the
meeting of the Board during the last week in July of each
year. The Board may fill for the unexpired term any vacancy
occurring in the office of the president or vice-president. All
meetings shall be in a public office of the Board, with reason-
able provision for attendance by the public.

Sec. 3. The Board shall appoint a secretary, not a member
of the board, and one chief accounting employee who may be
secretary. The secretary shall keep a record of the proceed-
ings and transactions of the Board, specifying therein the
names of the Commissioners at all meetings and giving the
ayes and noes upon all votes. He shall post and publish all
orders, resolutions and notices which the Board shall order to
be posted or published, and shall perform such other duties
as are herein, or may be by order of the Board, imposed
upon him.

Sec. 4. The Board of Public Utilities shall have power
(subject to the provisions of this charter and to such ordi-
nances of the city as are not in conflict with the grants of
power made to this department of the city government else-
where in this charter), to supervise, control, regulate and
manage the department and to make and enforce all necessary
and desirable rules and regulations therefor and for the exer-
cise of the powers conferred upon the department by this
charter. It shall have such additional powers and perform
such other duties as may be granted or imposed elsewhere in
this Charter, or by ordinance not in conflict with the provisions
of this Charter. No grant of power by this Charter to this
department of the city government shall be construed to
restrict the power of the Council to enact ordinances under
the police power of the city except as otherwise specifically provided in this charter.

Sec. 4a. The Board of Public Utilities shall have power to do work for other departments of the city at cost. It shall control all allied activities, such as the police telephone and telegraph systems, fire alarm system, police flash light system, and, subject to the ordinances made by the city council, shall control the inspection and supervision of electrical wires and appliances for furnishing light, heat or power in, under, over or upon the streets and buildings of the city of Alameda.

Sec. 5. The power conferred by this Charter upon the Board shall be exercised by order or resolution adopted by a majority of its members and recorded in the minutes with the ayes and noes at length. Such action shall be attested by the signature of the president or vice-president, or two members of the Board, and by the signature of the secretary of the Board.

Sec. 6. The Department of Public Utilities shall have the power to use a corporate seal, to sue and be sued, and to have perpetual succession; it shall have the power and duty:

1. To acquire, construct, operate, maintain, extend, manage, and control works and property for the purpose of supplying the city and its inhabitants with water and electric energy, gas, transportation, telephone and telegraph service, ice, or other systems of providing and distributing refrigerating means, materials and service, or any of them, and with any other public utility, and to acquire and take, by purchase, lease, condemnation, or otherwise, and to hold, in the name of the city, any and all property situated within or without the city, and within or without the state, that may be necessary or convenient for such purpose. To borrow money for any or all of such purposes on terms and conditions prescribed by said Board, said indebtedness to be payable only out of the revenue fund pertaining to the municipal works for or on account of which such indebtedness was created.

2. To regulate and control the use, sale, and distribution of water, electric energy, gas, transportation and any other utility owned or controlled by the city; the collection of rates therefore and the granting of permits for connection with said water or electric works or gas or transportation or other utilities; and to fix the rates to be charged for such connection; and to fix, by contract or otherwise and for a term deemed reasonable by the Board, the rates charged for water or electric energy, or transportation or any other utility for use within or without the city and to prescribe the time and the manner of payment of the same; provided that, except as hereafter otherwise prescribed, such rates shall be of uniform operation as near as may be, and shall be fair and reasonable taking into consideration, among other things, the nature of the use, the quantity supplied, and the value of the service; provided further, that the rates inside the city may be less, but not
greater, than the rates outside the city for the same or similar uses.

3. To supply and distribute, at rates fixed as hereinbefore provided, any surplus water or surplus electric energy or surplus gas or surplus of any other utility owned or controlled; and to fix, by contract or otherwise, the rates to be charged for public utilities for use without the city, and to prescribe the time and manner of the same.

4. In the discretion of the Board, to divide the work of the department into as many bureaus as the number of public utilities it controls, and to discontinue such bureaus and to consolidate the work of any such. In case such division is made the Board shall have the power to appoint a general manager for each such bureau, in lieu of one general manager for the entire department. Each such general manager shall be the chief engineer of his department, and shall be directly responsible to the Board, and shall have the same powers and duties as the department general manager in relation to the affairs of such bureau and in relation to the Board. A majority vote of the members of the whole Board shall be necessary to remove such department general manager or a bureau general manager.

5. In the event that all or any portion of a utility is acquired by the Department of Public Utilities under a contract providing for the payment in whole or in part of the purchase price thereof out of revenues to be obtained from said utility, then, at its option, to appoint an agent, corporate or individual, to have charge of and to manage the said utility, so far as may be permitted by law, pending the time that the revenues of the utility shall pay the full purchase price thereof. In the event of the appointment of such agent by contract, the provisions of sections affecting the powers and duties of the Manager and of the Manager of such utility, shall be suspended as to such utility during the term of such contract.

6. To sue and be sued, and to require the services of the City Attorney in all cases to which the Board or Department is a party, provided, that the Board may employ other attorneys to assist the City Attorney.

7. To lease, for a term not exceeding five years, any or all of the lands under its control for agricultural or other purposes, which shall not conflict with the beneficial uses of said lands by the city for the purposes for which they are held by the Board; and except as otherwise provided in this Charter, to sell, from time to time, such personal property, placed under its control, as shall not be longer necessary or suitable for the use of such department. The Board shall have the right, in conjunction with the joint use of pipe lines, poles, or pole facilities, with other utilities owning and maintaining pipe lines, poles or pole facilities, to buy, sell or lease fractional interests in pipe lines, poles or pole facilities owned or controlled by said other utilities or by said Board. No real property nor any rights or interests in real property held by said
Board shall be sold, leased, or otherwise disposed of, or in any manner withdrawn from its control, save as above provided, unless by written instrument duly authorized by ordinance of the city and a resolution of the Board, and duly executed by the city and the Board.

No water or water rights nor any of the following property now or hereafter owned or controlled by the city, to-wit, gas, electric energy, or the right to develop electric or other power by means of any water or water right now or hereafter owned or controlled by the city, shall ever be sold, leased or disposed of, in whole or in part, without the assent of two-thirds of the qualified voters of the city voting on the proposition at a general or special election, at which such proposition shall be lawfully submitted, and no water shall ever be sold, supplied or distributed to any person or corporation, other than municipal, for resale, rental or disposal to consumers or other persons. Neither shall any electric power or gas ever be sold, supplied or distributed to any person or corporation other than municipal for resale, rental or disposal to consumers or other persons without the assent of two-thirds of the qualified voters of said city given, as aforesaid; provided, that nothing in this section contained shall be construed to prevent the ordinary sale and distribution by the city of water, gas and electric energy, to its inhabitants for their own use, or to prevent the supplying or distribution, by the city, of surplus electric energy or gas to consumers or municipal corporations outside of the city, as elsewhere in this Charter provided.

8. To control, and order, except as otherwise in this Charter provided, the expenditure of all money received from the sale or use of water, or from any other source in connection with the operation of said water works, and all money received from the sale or use of electric energy or from any other source in connection with the operation of said electric works, and all money received from the sale or use of gas or of transportation or of any other public utility, or from any other source in connection with the operation of any of said public utilities; provided that all money pertaining to each of said utilities shall be deposited in the city treasury to the credit of a special fund created for each of said utilities; and the money so deposited in each special fund shall be kept separate and apart from other money of the city and shall be drawn only from said fund upon demands authenticated by signature of the chief accounting employee of said Board. Any interest or increment received on the money in any such special fund shall be paid into such special fund and become a part thereof.

Sec. 7. None of the money in or belonging to any of said special revenue funds shall be appropriated or used for any purpose except the following purposes pertaining to the municipal works from or on account of which such money was received, to-wit:

1. For the necessary expenses of operating and maintaining such works.
2. For the payment of the principal and interest or either due or coming due under contract or upon outstanding bonds, notes, certificates or other evidence of indebtedness issued against revenue of such works, or bonds or other evidences of indebtedness, general or district, heretofore or hereafter issued for the acquisition of such works or parts thereof.

3. For the necessary expenses of constructing, extending and improving such works, including the purchase of lands, water rights and other property; also the necessary expenses of conducting and extending the business of the department pertaining to such works; also for reimbursement to another bureau on account of services rendered, or material, supplies, or equipment furnished; also for expenditures for the purpose for which bonds, or evidences of indebtedness shall have been authorized, subject to reimbursement as soon as practicable from moneys derived from the sale or issuance of such bonds or evidences of indebtedness.

4. For defraying the expenses of any pension system applicable to the employees of the department that shall be established by the city.

5. For establishing and maintaining a reserve fund to insure the payment at maturity of the principal and interest on all bonds and all other contract obligations now outstanding or hereafter issued or made for the purchase of municipal works and such other reserve funds pertaining to such works as the Board may provide for by resolution. The money set aside and placed in such fund or funds so created shall remain in said fund or funds until expended for the purposes thereof, and shall not be transferred to any other fund of the city. Any interest or increment received on the money in any such special fund shall be paid into such special fund and become a part thereof.

6. Any balance may be appropriated for use in any ensuing fiscal year or years, or be transferred to the general fund of the city with the consent of the Board of Public Utilities, and not otherwise.

Sec. 8. The Board may provide for the cost of acquisitions of a public utility and/or extensions and/or betterments of said public utility from funds derived from the sale of bonds, secured by revenues, general or district, and/or from revenues received from said works to which such acquisition extensions and betterments pertain, and/or from the proceeds of loans contracted in accordance with the provisions of this Charter.

Whenever in the exercise of such power to provide for the cost of acquisition of a public utility and/or extensions and/or betterments from such revenues, the Board may deem it advisable to make any such acquisition, extension or betterment which cannot be provided for out of the appropriations for a single fiscal year, it may at any time adopt a special budget and make special appropriations therefor specifying the amount of such appropriation for each fiscal year during which the cost of such acquisition, extension or betterment is
expected to be paid, and when such special budget is so  
adopted said Board may incur financial obligations and make  
expenditures as authorized thereby; provided that no such  
special appropriation for a future fiscal year shall be made  
unless, on report of the general manager of the bureau having  
charge of the works to which such improvement or extension  
pertains, or the general manager of the departments, it shall  
find that the reasonably expected revenues of such works in  
each fiscal year for which such appropriation is made will be  
amply sufficient to permit of the making of such appropriation  
in addition to the following:

1. Appropriations to cover the necessary expenses of oper-  
ating and maintaining such works, and such payments of  
principal and interest on outstanding bonds, as, under the  
provisions of this Charter, and findings or resolutions pro-  
vided for therein, said Board is required to apportion and set  
apart;

2. Appropriations to cover all sums coming due in said year  
for principal and interest upon bonds, notes, certificates or  
other evidences of indebtedness issued under the provisions  
of this Charter;

3. Appropriations to cover all appropriations made by any  
prior special budget; and

4. Appropriations to cover all other reasonably anticipated  
expenses for said year.

Any such special budget shall be subject to modification or  
extension upon like report and finding. It shall be the duty  
of the Board in adopting the annual departmental budget for  
each fiscal year to include therein appropriations for each  
item for which an appropriation for that year has been made  
by any such special budget.

Sec. 9. The Board shall each year apportion and set  
apart out of the revenue fund in the city treasury pertaining  
to each such municipal works an amount or amounts sufficient  
to pay at maturity all sums coming due in said year for prin-  
cipal and interest, upon all outstanding bonds and/or other  
obligations issued for the purposes of the works, to which  
such revenue fund pertains, and also all sums coming due in  
said year for principal and interest upon all outstanding  
district bonds, issued for such purposes or such part of the  
last mentioned sums as can be paid from moneys in said fund  
not appropriated to other purposes and the Board finds are  
not required to meet outstanding obligations or liabilities  
payable out of said fund, including the principal and interest  
of general bonds; and/or other obligations; and said amounts  
shall be transferred forthwith into a special fund in the city  
treasury, to be designated by name indicating the nature or  
purpose of such special fund, and the money in such special  
fund shall be subject to apportionment by the Controller or  
Auditor as may be required to make such payments on the  
principal and interest of said bonds and/or other obligations,  
and for no other purpose. Any interest or increment received
on the money in any such special fund shall be paid into such special fund and become a part thereof. The foregoing provisions of this section shall apply to all such bonds now outstanding or hereafter issued; except as in this section provided said Board may, in its discretion, apply the moneys in such revenue funds to such purposes permitted by this Charter, and in such order and such amounts, as in the exercise of such discretion it shall determine. Balances remaining unexpended in said revenue funds, and all sums receivable into said fund from unpaid bills of consumers and other similar sources at the close of any fiscal year, shall be available for appropriations for, and expenditures in, succeeding fiscal years in like manner and for like purposes as revenues received during such succeeding years.

Sec. 10. The Board shall appoint and shall have the power to remove the general manager who shall be the chief administrative officer and who shall not be subject to any civil service provisions of this Charter. Such general manager shall not be a member of the Board nor shall he have been a member within one year prior to his appointment. Failure on the part of the general manager to comply with the instructions of the Board, or incompetency, dishonesty, discourtesy, or neglect of duty on his part, as determined by the Board, shall constitute adequate grounds for his removal by said Board, provided that the person affected shall be given previous written notice of the grounds of the proposed removal and opportunity to be heard by the Board.

Sec. 11. Subject to the provisions of this Charter, the rules of the department and the instructions of his Board, said general manager shall have the power and duty:

1. To administer the affairs of the department as its chief administrative officer.

2. To appoint, discharge, suspend, or transfer the employees of the department, other than the secretary of the Board and the chief accounting employee of the department, and to issue instructions to said employees, other than the secretary and the chief accounting employee, in the line of their duties. All subject to the civil service provisions of this Charter.

3. To expend the funds of the department in accordance with the provisions of the budget appropriations or of appropriations made subsequent to the budget.

4. To recommend to the Board prior to the beginning of each fiscal year an annual departmental budget covering the anticipated revenues and expenditures of the department, conforming so far as practicable to the forms and dates provided in this Charter in relation to the general city budget.

5. To certify all expenditures of the department to the chief accounting employee.

6. To exercise such further powers in the administration of the department as may be conferred upon him by the Board.

Sec. 12. The General Manager of such department, at least once a month, shall file with the Board a written report on the work of the department.
Sec. 13. The Board shall provide suitable quarters, equipment and supplies for the department. It shall create the necessary positions in said department, authorize the necessary deputies, assistants and employees and fix their salaries and duties, and fix the salary of the general manager of the department, and may require bonds of any or all such employees for the faithful performance of their duties.

Sec. 14. [Filed with Secretary of State January 23, 1935.]

WHEREAS, Necessity for property tax relief is imperative in California as well as in other states throughout the Union; and,

WHEREAS, Twenty-six states in an effort to afford property tax relief and to provide revenue for essential functions of government have enacted laws imposing taxes based upon or measured by sales of tangible personal property purchased and delivered in such states; and,

WHEREAS, No less than sixty-five per cent of the population of the United States now resides in states with such laws; and,

WHEREAS, By virtue of judicial interpretation of the Federal Constitution, the states may not levy without the consent of Congress taxes based upon or measured by sales moving in interstate commerce; and,

WHEREAS, As a result of such an interpretation there is a discriminator in favor of interstate sales as against intrastate sales; and,

WHEREAS, Such discrimination if permitted to continue will tend to divert business from normal channels in California and elsewhere throughout the Union, thus subjecting local merchants to unfair competition; and,

WHEREAS, It is of vital importance to the welfare of the people of the United States that all things be done to promote the stability of local business in order that the financial structure of California and other states throughout the Union may be preserved; and,

WHEREAS, It rests within the power of Congress to permit the states to levy nondiscriminatory taxes upon sales in interstate commerce; and,

WHEREAS, The Honorable Pat Harrison, Senator from Mississippi, introduced a measure at the second session of the Seventy-third Congress designed to afford the states relief in this matter, and reading as follows:
S. 2897

AN ACT

To regulate interstate commerce by granting the consent of Congress to taxation by the several States of certain interstate sales.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That all taxes or excises levied by any State upon sales of tangible personal property, or measured by sales of tangible personal property, may be levied upon, or measured by, sales of like property in interstate commerce, by the State into which the property is moved for use or consumption therein, in the same manner, and to the same extent, that said taxes or excises are levied upon or measured by sales of like property not in interstate commerce and no such property shall be exempt from such taxation by reason of being introduced into any State or Territory in original packages, or containers, or otherwise: Provided, That no State shall discriminate against sales of tangible personal property in interstate commerce, nor shall any State discriminate against the sale of products of any other States: Provided further, That no State shall levy any tax or excise upon, or measured by, the sales in interstate commerce of tangible personal property transported for the purpose of resale by the consignee: Provided further, That no political subdivision of any State shall levy a tax or excise upon, or measured by, sales of tangible personal property in interstate commerce. For the purposes of this Act a sale of tangible personal property transported, or to be transported, in interstate commerce shall be considered as made within the State into which such property is to be transported for use or consumption therein, whenever such sale is made, solicited, or negotiated in whole or in part within that State.

SEC. 2. Receivers, liquidators, referees, and other officers of any court of the United States are required to pay all taxes and licenses levied by any State or subdivision thereof the same as corporations, partnerships, concerns, persons, or association of persons are required to pay the same.

and,

WHEREAS, Said measure was passed by the Senate on March 15, 1934, but was not voted upon by the House of Representatives and hence did not become law; and

WHEREAS, Need for such legislation is imperative in order to correct grave injustice in California and in all other states throughout the Union where taxes are based upon or measured by sales of tangible personal property; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Congress of the United States be, and it is hereby memorialized, to give relief to the State of California and all other states imposing taxes based upon or measured by sales of tangible personal property by immediately providing for the regulation of interstate com-

WHEREAS, It is a matter of common knowledge that an emergency exists relative to the present dire need of men for employment; and

WHEREAS, The financing of relief projects is, in a great degree, made possible only by the issuance of bonds, the retirement of which, in most cases, will require many years; and

WHEREAS, Future generations will and should profit by and enjoy the benefits of projects which result in improvements which are lasting and permanent in their character; and

WHEREAS, Expenditures of moneys in the erection and construction of projects which are permanent in their character will relieve the present unemployment situation to the same degree and extent as will the expenditure of moneys which result only in temporary benefit; and

Resolved by the Senate and Assembly of the State of California, jointly, That the Federal Relief Administrator and the California Relief Administrator are hereby respectfully urged to give preference to the construction of roads, river and harbor improvements, flood control systems, drainage and irrigation systems, public school buildings, State institutional buildings, permanent exposition buildings, permanent civic center buildings, self help cooperatives, subsistence farms,

WHEREAS, Said grant has been accepted by the Golden Gate Bridge and Highway District and also by the Legislature of the State of California under the terms of Senate Joint Resolution No. 11, of the forty-ninth session of the Legislature of the State of California; and

WHEREAS, The said permit and grant were amended by amendments dated April 1, 1931, May 1, 1933, and July 21, 1933, which said three amendments have been accepted by the Golden Gate Bridge and Highway District and approved and accepted by joint resolutions of the Legislature of the State of California; and

WHEREAS, It was in said last named modification and same amendment, expressly provided that the amendments and modifications therein contained should not become effective and the original permit of February 13, 1931, should remain unchanged thereby, unless and until the said Golden Gate Bridge and Highway District should have accepted said amendment, and unless and until the State of California should have, with respect to said amendment, taken the same formal action which it was required to take with respect to the original permit, and which is set forth in paragraph 11 and subparagraphs 11a, 11b and 11c of that instrument, as a condition precedent to the taking effect thereof; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That said modification and amendment dated the nineteenth day of March, 1934, to said permit dated February 13, 1931, as amended by amendments dated April 1, 1931, May 1, 1933, and July 21, 1933, granted by the Secretary of War to the Golden Gate Bridge and Highway District, be and the same hereby is, together with each, all, every and singular the terms, conditions, limitations, reservations and requirements therein contained, accepted by and on behalf of the State of California; and be it further

Resolved, That the State of California does hereby make application to the Congress of the United States for a retrocession of jurisdiction over the rights of way and toll area as relocated and amended by said modification dated the nineteenth day of March, 1934, in lieu of and superseding the application for retrocession of jurisdiction over the rights of way heretofore granted across the Presidio of San Francisco Military Reservation in the original permit of February 13, 1931, in case said relocation of the right of way and toll area is finally granted to the Golden Gate Bridge and Highway District; and be it further

Resolved, That the State of California will, in case such retrocession of jurisdiction is granted by Congress, accept such retrocession of jurisdiction, and will assume the responsibility of managing, controlling, policing, and regulating traffic thereon, all subject to the following limitations and to such other limitations as Congress may prescribe:

(a) That nothing in said permit contained shall be construed to give to the State of California or any of its agents, authority at any time to regulate traffic of military personnel or vehicles upon the said bridge or roads. All traffic upon said roads and upon said bridge shall be free from any tolls, charges or any form of obstruction by State or other agencies, against military and naval personnel and their dependents, civilians of the army and navy traveling on government business under military authority, and government traffic.

(b) That whenever in the judgment of the Secretary of War or his authorized representative any emergency exists which justifies it, he may assume exclusive control and man-
agement of said bridge and roads and may then in his discretion prohibit, limit or regulate traffic thereon.

(c) That nothing in said permit contained shall be construed to confer upon the State courts the right to try persons subject to military law for crimes or offenses committed on said roads, or upon said bridge within the boundaries of the respective military reservations involved, but the courts of the United States or military tribunals as now or hereafter provided by law, shall retain exclusive jurisdiction to try such persons for such offenses. Be it further

Resolved, That the State of California does hereby agree to make such relocated right of way and toll area in the Presidio of San Francisco Military Reservation in said amended permit described a part of the system of public highways of the State; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States, to the Secretary of War, to each house of Congress, and to the Senators and Representatives in Congress of the State of California.

[Filed with Secretary of State January 25, 1935]

WHEREAS, A subcommittee of the House Committee on Interstate and Foreign Commerce, acting pursuant to H. Res. 441, seventy-third Congress, has recommended to the Congress that the enactment of Federal legislation for regulation of the oil industry be withheld temporarily to give an opportunity for the oil-producing States to effect an interstate agreement for the conservation of oil and stabilization of production thereof, and

WHEREAS, It is preferable that the States, through the exercise of their police powers in cooperation with each other and the Federal government, shall meet this problem rather than surrender their sovereign function in favor of centralized Federal control.

(b) Voluntary regulation of production by each compacting State within its own borders in accordance with said determination of the joint fact-finding agency, to the extent that and in such manner as the laws of each State may authorize.

(c) Formulation by the joint agency of uniform conservation measures and tax laws which it shall recommend to the compacting States.

No compact made under the authority of this act shall bind this State unless and until:

(a) Said compact shall be ratified by the Legislature of this State, and Congress shall consent thereto:

(b) Congress shall make provision for the limitation of importations of petroleum and the products thereof, including natural asphalt.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County at the general election to be held on the sixth day of November, 1934, a proposal to amend the charter of said City and County as follows:

ADOPTION OF THE BUDGET AND THE APPROPRIATION ORDINANCE.

Section 72. Not later than the first day of May in 1932, and in each year thereafter, the mayor shall transmit to the board of supervisors the consolidated budget estimates for all departments and offices of, and the proposed budget for, the city and county for the ensuing fiscal year, including a detailed estimate of all revenues of each department and an estimate of the amount required to meet bond interest, redemption and other fixed charges of the city and county, and the revenues applicable thereto. He shall, by message accompanying such proposed budget, comment upon the financial program incorporated therein, the important changes as compared with the previous budget, and bond issues, if any, as recommended by him.

The mayor shall submit to the board of supervisors, at the time that he submits said budget estimates and said proposed budget, a draft of the annual appropriation ordinance for the ensuing fiscal year, which shall be prepared by the controller. This shall be based on the proposed budget and shall be drafted to contain such provisions and detail as to furnish an adequate basis for fiscal and accounting control by the controller of each revenue and expenditure appropriation item for the ensuing fiscal year. Upon submission it shall be deemed to have been regularly introduced, and together with the proposed budget, shall be published as required for ordinances.

The detail of the proposed budget to be published shall be as follows:

1. The total cost for conducting each department, bureau, office, board or commission for the ensuing fiscal year, segregated according to basic objects of expenditure for each.
2. A detail schedule of positions and compensations, showing any increases or decreases in any department or office.
3. A detail schedule of items for capital outlay.
4. The aforementioned consolidated estimates and schedules shall also include by items contained therein the following information:
(a) Expenditures for the last complete fiscal year.
(b) Estimated expenditures for the current fiscal year.
(c) Proposed increases or decreases as compared with the budget allowances for the current fiscal year.

The board of supervisors shall provide printed copies of the mayor's budget message and proposed budget thus prepared, including comparative expenditures and revenues for the current and preceding fiscal years and other information transmitted therewith, for official use and public demand as requested.

The board of supervisors shall fix the date or dates, not less than five days after publication as in this section provided, for consideration of and public hearings on the proposed budget and proposed appropriation ordinance.

The board of supervisors may decrease or reject any item contained in the proposed budget, but shall not increase any amount or add any new item for personal services or materials, supplies, or contractual services, for any department, unless requested in writing so to do by the mayor, on the recommendation of the chief administrative officer, board, commission or elective officer, in charge of such department.

The board of supervisors may increase or insert appropriations for capital expenditures and public improvements.

After public hearing, and not earlier than the 15th day of May, nor later than the first day of June, the board shall adopt the proposed budget as submitted or as amended and shall pass the necessary appropriation ordinance. If the appropriation ordinance as submitted by the mayor is amended by the supervisors, the appropriation ordinance shall be readvertised prior to final reading or passage, in the manner required for ordinances.

Any item in such appropriation ordinance except for bond interest, redemption or other fixed charges, may be vetoed in whole or in part by the mayor within ten days of receipt by him from the clerk of the board of supervisors of the ordinance as passed by the board, and the board of supervisors shall act on such veto not later than the 20th day of June.

The several items of expenditure appropriated in each annual appropriation ordinance, being based on estimated receipts, income or revenues which may not be fully realized, it shall be incumbent upon the controller to establish a schedule of allotments, monthly or quarterly as he may determine. under which the sums appropriated to the several departments shall be expended. The controller shall revise such revenue estimates monthly. If such revised estimates indicate a shortage the controller shall hold in reserve an equivalent amount of the corresponding expenditure appropriations set forth in any said annual appropriation ordinance until the collection of the amounts as originally estimated is assured, and in all cases where it is provided by this charter that a specified or minimum tax shall be levied for any department the amount of the appropriation in any annual appropriation
ordinance derived from taxes shall not exceed the amount actually produced by the levy made for said department. The controller in issuing warrants or in certifying contracts or purchase orders or other encumbrances, pursuant to section 86 of this charter, shall consider only the allotted portions of appropriation items to be available for encumbrance or expenditure and shall not approve the incurring of liability under any allotment in excess of the amount of such allotment. In case of emergency or unusual circumstance which could not be anticipated at the time of apportionment, an additional allotment for a period may be made on the recommendation of the department head and that of the chief administrative officer, board or commission and the approval of the controller. After the allotment schedule has been established or fixed, as heretofore provided, it shall be unlawful for any department or officer to expend or cause to be expended a sum greater than the amount set forth for the particular activity in the said allotment schedule so established, unless an additional allotment is made, as herein provided.

Subject to the restrictions hereinbefore in this section included, the several amounts of estimated revenue and proposed expenditures contained in the annual appropriation ordinance as adopted by the board of supervisors shall be and become appropriated for the ensuing fiscal year to and for the several departments, bureaus, offices, utilities, boards or commissions, and for the purposes specified, and each department for which an expenditure appropriation has been made shall be authorized to use the money so appropriated for the purposes specified in the appropriation ordinance, and within the limits of the appropriation. The appropriation ordinance shall constitute the authority for the controller to set up the required revenue and expenditure accounts. Appropriation items for bond interest, bond redemption, fixed charges and other purposes not appropriated to a specific department shall be subject to the administration of and expenditure by the chief administrative officer for the respective purposes for which such appropriations are made.

Those arrested for violating City ordinances may, before or after trial be confined in the County jail of Alameda County or in the City prison of the City of Albany. He shall have such other powers and duties appertaining to his office as may be prescribed by the Council or rules of the Police Department.

... and by amending Section 22 of said Charter of the City of Albany, to read as follows:

SECTION 22. CHIEF OF THE FIRE DEPARTMENT—There shall be a Fire Chief appointed by the Council. ... and by adding to said Charter a new section as follows:

SECTION 49. CIVIL SERVICE FOR MEMBERS OF POLICE AND FIRE DEPARTMENTS. (a) CIVIL SERVICE BOARD—WHO SHALL CONSTITUTE CIVIL SERVICE BOARD.

The President of the Council, the City Treasurer and the City Clerk of the City of Albany, and their successors in office, are hereby constituted a Civil Service Board of the City of Albany.

(b) ORGANIZATION OF OFFICERS—They shall organize as such Board by choosing one of their number as Chairman, and by appointing a secretary from one of the deputies of any one of the other departments of Government of the City of Albany, County of Alameda, State of California.
(c) The Civil Service Board shall formulate rules and regulations governing the selection and promotion of members of the Fire Department and Police Department. All officers and men of the Fire Department and the Police Department shall belong to the classified service and shall be appointed and promoted for no other grounds and for no other reason than their fitness for the position to be filled; provided, however, that no member of the Fire Department and the Police Department shall be eligible for promotion until he shall have served one (1) year in such department, and that in subsequent promotions, the members must have held the rank from which he is promoted at least one (1) year. Promotion shall be made only to the next higher grade in the service and no grade shall be skipped. All officers or members shall be chosen or promoted by the chief of the Fire Department and the Police Department whenever a list of eligibles shall be furnished by the Civil Service Board, from the three (3) highest standing candidates on the list.

The cost of conducting examinations and other duties of the Civil Service Board shall be a charge against the general fund of the City. These costs shall be certified by the Civil Service Board and when so certified shall be paid by the City Council in the same manner as other charges against the City.

(d) It shall be the duty of the Civil Service Board to hold examinations and to administer other suitable tests to those desiring positions or who are applicants for, or who may have been recommended for promotion in the classified service of the Fire Department and the Police Department, for the purpose of determining their fitness for such positions or their qualifications for such promotions and, from the result of such examinations and tests, the Board shall prepare a list of eligibles for all positions in the classified service of the Fire Department and the Police Department. (e) To the end that there be no disruption in the present service of the Fire Department and the Police Department, and that no undue hardship may be worked upon any member of said department who shall have attained a certain grade or rank as result of continuous and faithful service on said department, all members who have been members of said departments for more than six (6) months immediately prior to the adoption of this act of said department shall be credited by the Civil Service Board with a qualifying mark, both mental and physical, for entrance to the classified service of the Fire Department and the Police Department and to the rank, grade or position held by such members at the time of the adoption of this act.

(f) No person in the classified service or seeking admission thereto shall be appointed, promoted, demoted or dis.
charged or in any way favored or discriminated against because of political opinions or affiliations or because of religious belief.

(g) Appointments or promotions to employment or rank shall not be deemed complete until a period of probation not to exceed six (6) months has elapsed. Successive temporary appointments shall not be allowed. In the event of temporary promotion to higher rank, the appointee may be reduced by the Chief of the Fire Department or the Chief of the Police Department, to the next lower rank in the classified service of the said department and in the event that such appointee is in the lowest grade of the classified service, such appointee may be discharged by the Chief of the Department. Each Chief shall only have power over his own Department members.

(h) If discharged or reduced after the expiration of the period of probation, the employee so discharged or reduced may demand a trial, whereupon he shall be tried as provided in the section referring to suspensions and removals.

(i) The Chief of the Department or Civil Service Board in whom shall be vested removal or disciplinary power shall be allowed full freedom in his or its action, in such matters, it being the intent and spirit of this ordinance to provide a fair and honest approach to employment and subsequent promotion in such department, but, in no sense, to handicap or curtail the responsible administrative officer or officers in securing efficient service.

(j) ORGANIZATION—There is hereby created a Fire Department which shall consist of a Chief of the Fire Department, Assistant Chiefs, Captains, and Hosemen.

(k) QUALIFICATIONS—Every appointee of the Fire Department at the time of appointment shall not be less than twenty-one years (21) nor over thirty-five years of age. Every appointee however, must possess the physical qualifications prescribed by the Civil Service Board (which shall not be inferior to those required for recruits of the United States Army) and before his appointment must pass satisfactory examinations as may be prescribed by the Civil Service Board. Every appointee must be a bona-fide resident and elector of the City of Albany, County of Alameda, State of California.

(l) DISMISSAL—The dismissal of the Chief of the Fire Department from office shall not accomplish his dismissal from the Department and, upon such dismissal he shall be restored to the rank and grade held by him prior to his appointment, selection or election, as Chief of the Fire Department, provided he shall have been appointed, selected or elected from among the membership of the Fire Department; and provided further that the dismissal or failure to re-elect, if a candidate for re-election of the duly appointed, selected or elected Fire Chief, at the time of the enactment of this law, shall not accomplish his dismissal from the department, and upon such dismissal or failure to re-elect, he shall be restored to the next highest office to the Chief of the Fire Department.
(m) When a vacancy arises in the Fire Department above the grade of Hoseman, the Chief of the Fire Department may, with the approval of the City Council, assign a member of the department from the next lower rank to fill the vacancy until such time as the absent member shall return to duty or the vacancy be filled by appointment from the eligible list furnished by the Civil Service Board. The member so assigned shall, during his incumbency, receive the salary attached to the grade or position thus temporarily filled.

(n) Organization of Police Department. There is hereby created a Police Department, which shall consist of the Chief of the Police Department, Sergeants and Patrolmen.

(o) QUALIFICATIONS—Every appointee of the Police Department must have the same qualifications as set out in Section k of this act for appointees of the Fire Department.

(p) Whenever a vacancy in the Police Department above the grade of Patrolman occurs, the Chief of the Police Department may, with the approval of the City Council, assign a member of the Department from the next lower rank to fill the vacancy until such time as the absent member shall return to duty or the vacancy be filled by appointment from the eligible list furnished by the Civil Service Board. The member so assigned shall, during his incumbency receive the salary attached to the grade or position thus temporarily filled.

(q) SUSPENSION AND REMOVALS—The City Council may, upon the recommendation of the Chief of the Department, suspend from duty, for cause, for a period not to exceed thirty days. or fine not to exceed one month's pay, any member of the Fire Department or the Police Department. In the event that any member of the Fire Department or Police Department be charged with any offense, which under the rules of the department or in the judgment of the Chief of the Department, justifies expulsion of such member from the service of the City, the Chief of the Department shall prepare or cause to be prepared written charges against the accused, such written charges to be filed with the trial board herein created. Copies of such charges shall be furnished to the accused who shall not less than ten (10) days after such service prepare his defense thereto. The accused may at the hearing of such charge be represented by counsel and shall have the right to compel the attendance of such witnesses as he may desire to testify on his behalf.

(r) TRIAL BOARD—There is hereby created, for the purpose of hearing and determining charges made against an officer or member of the Fire Department or Police Department, a board to be known as the Trial Board, which shall be composed of the members of the Civil Service Board, two representative citizens of the City of Albany to be selected by the Civil Service Board for each trial or hearing. The verdict and judgment of a majority of the trial board shall be final. If the accused be found guilty, the trial board may dismiss him or suspend him for a period not to exceed 90 days
from the service of the city, provided, however, that should an officer or member of the Fire Department or Police Department be found guilty of a charge of drunkenness on duty, the trial board must dismiss him from the service of the City. If an officer or a member of the Fire Department or Police Department be convicted of a felony or malfeasance in office, or be adjudged insane, or absent himself from the City for more than thirty (30) days without leave, the trial board shall, upon the recommendation of the Chief of the Department, declare his position or office vacant and the vacancy shall be filled as herein provided.

(s) If any section, sub-section, clause, or phrase of this law is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining sections of this law.

CHAPTER 30.

Assembly Joint Resolution No. 6—Relative to memorializing the President and Congress to carefully consider what is known as the Townsend Plan of Old Age Revolving Pension.

[Filed with Secretary of State January 26, 1935.]

WHEREAS, The care of the dependent aged has become so great a financial burden to some States that the economic welfare and stability of such States are seriously affected and even threatened; and

WHEREAS, The problem of the care of the dependent aged has recently attained major proportions throughout the Nation, owing largely to the increasing mechanization of our industrial system and to the fact that the economic depression has destroyed the financial independence of a large number of our people, including even those who had prudently prepared for the time when they could no longer earn a livelihood; and

WHEREAS, It seems wise to retire from industry and business those whose efficiency is declining because of advancing old age, thus giving more opportunity for employment and advancement to younger workers; and

WHEREAS, Experience has shown that when ownership of property disqualifies the owner for receipt of an old age pension, a serious injustice is effected and a penalty imposed upon those whose prudence and thrift has led them to prepare for old age by investment in a home or other small holdings, but who have no income with which to support themselves and to preserve their property, particularly since there is often no market for the property; and

WHEREAS, Doctor F. E. Townsend, of Long Beach, California, has devised a plan commonly known as the "Townsend Plan of Old Age Revolving Pension"; and

WHEREAS, The President of the United States has recognized the responsibility of the Federal government in this matter, and has indicated that he will recommend to the Congress of the United States, at its next session, that there be legislation bearing on this problem; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the President and the Congress of the United States is hereby respectfully urged to carefully consider the enactment of an old age pension law and to study the "Townsend Plan of Old Age Revolving Pension"; and be it further

Resolved, That the Governor of the State of California is hereby requested to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Member of the House of Representatives from California
in the Congress of the United States, and that such Senators and Members from California are hereby respectfully urged to study such legislation.

That in pursuance of section 8 Article XI of the Constitution of the State of California, on its own motion, the Council of the city of Oakland, being the legislative body of said city, by and in pursuance of Resolution No. 2365 C. That section 128\(\frac{1}{2}\) of the charter of the city of Oakland be amended to read as follows:

"Section 128\(\frac{1}{2}\). Every contract for work to be performed within the State of California at the expense of the City or paid for out of moneys deposited in the treasury, whether such work is to be done within or outside the limits of the city, and whether such work be done directly by or under such contract duly awarded, or indirectly by or under sub-contract, sub-partnership, day labor station work, piece work or any other arrangement whatsoever must provide:

(1) That in every contract for the performance of labor, that not more than eight hours shall constitute a day's work; that the contractor and all sub-contractors under him shall pay their employees on said work a salary or wage at least equal to the prevailing salary or wage for the same quality of service rendered to private persons, firms or corporations under similar employment in the city of Oakland.

(2) That any person performing labor in the execution of such contract shall be a citizen of the United States or have declared his intention of becoming such."
(3) That all laborers and mechanics employed in the performance of any such contract within the limits of the city of Oakland shall have been residents of the city for the period of one year next preceding the date of their engagement to perform labor thereunder; provided, that the city council or board, as the case may be, may, upon application of the contractor, waive such residence qualification and issue a permit specifying the extent and terms of such waiver whenever the fact be established that the required number of persons possessing qualifications required by the work to be done under such contract cannot be engaged from among the qualified residents of the city; and provided further, that in the event that such work is to be paid for, wholly or in part, by moneys derived from sources other than the city of Oakland, and upon conditions which are incompatible with the requirements of this subdivision, then and in that event the city council or board, as the case may be, may, in the resolution calling for bids for such contract, waive such residence qualification by a two-thirds vote of the entire membership of said council or board, and specify the extent and terms of such waiver.

That said election was duly called and held on the nineteenth day of December, 1933, and at said election a majority of the qualified electors voting thereon voted in favor of the ratification of and did ratify the proposed amendment to the charter of the city of Oakland hereinafore set forth.

And we further certify that we have compared the foregoing proposed and ratified amendment to the charter of the city of Oakland with the original proposal submitting the same to the electors of said city at an election held on the nineteenth day of December, 1933, and find that the foregoing is a full, true and correct and exact copy thereof.

In witness whereof, we have hereunto set our hands and caused the seal of said city of Oakland to be affixed thereto, this ninth day of January, 1934.

CHAPTER 41.

Assembly Joint Resolution No. 29—Relative to fostering and protecting grape and wine industries.

[Filed with Secretary of State February 2, 1935.]

WHEREAS, The grape and wine industries provide a livelihood for upwards of one hundred fifty thousand persons, comprising grape growers, winery workers and their dependents, in California, in addition to many thousands in other states and in addition to many thousands employed in various allied industries in this State and elsewhere; and

WHEREAS, These industries, after fifteen years of compulsory stagnation due to the prohibition laws, are now again in a position to recover their losses and to contribute greatly to the public welfare, because the industries above named already comprise the second largest agricultural pursuit in California,
within excess of five hundred thousand acres of vineyards and six hundred fifty-four wineries in active operation, altogether representing an investment exceeding four hundred twenty-five million dollars; and

WHEREAS, The increasing use of wine as an article of food in certain major consuming centers, including California, offers the most promising available means of increasing the prosperity and speeding the agricultural, industrial and business recovery of this State and also holds promise of developing the grape and wine industries into the greatest industries of California; and

WHEREAS, The principal obstacle now delaying the extensive development, and, in fact, seriously hampering the present recovery of these industries is the blocking of the wine distribution channels in many parts of the Nation by certain types of excessive taxation, excessive licensing and regulatory restrictions, which obstacle is created almost entirely by the widely prevalent misunderstanding of the true function of wine, which is in fact an integral part of the diet, entitled to be classified and treated as a food rather than as a liquor; and

WHEREAS, Such obstacles to wine distribution act to increase the cost of wine beyond the average family’s food budget and also to prevent the product from being made conveniently available for use in the home, therefore working a discrimination against consumers of ordinary means by placing wine in a luxury class in which it is available only to a wealthy few; and

WHEREAS, The experience of the State of California, which has during the past year received in excess of two hundred fifty thousand dollars in revenue from a reasonable tax upon wine, has demonstrated that a reasonable tax upon wine can return a larger net revenue to a taxing unit than can be obtained from an excessive tax which hampers distribution; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully urges the President and Congress of the United States and California’s Senators and Representatives in Congress to do all in their power to remove all unwarranted obstacles to wine distribution, so that the recovery and the nation-wide growth of the grape and wine industry may be encouraged in this State as well as in other states and so that consumers of average means may be enabled to obtain wine conveniently and at reasonable prices within the family food budget; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States, the Vice President, the Speaker of the House of Representatives of the Congress of the United States and to California’s Senators and Representatives in Congress.

[Filed with Secretary of State February 2, 1935]

WHEREAS, Two great bridges of world renown will be completed on or about the first day of January, 1938, spanning San Francisco Bay, connecting the City and County of San Francisco with Marin and Alameda counties; and

[Filed with Secretary of State February 2, 1935]

WHEREAS, The young men of America were called from their useful occupations during the World War to shoulder arms in the defense of our country and to make the great sacrifice of time, strength, health and even life itself while certain others not required to make these great sacrifices were exploiting our government and our citizens; and

WHEREAS, During this national emergency, profiteering by individuals, firms and corporations who looted the government and gouged our citizens was so prevalent as to become a stain upon our National honor; and

WHEREAS, The munitions committee of the United States Senate has recently disclosed the huge profits made by munition, shipbuilding and other war time contractors; and

WHEREAS, It is fair and just that every resource of this Nation, in addition to men to bear arms, should be available without private profit or gain for National defense in time of war and that Congress should provide for the conscription of every citizen and of all money, industries, and property of whatsoever nature necessary for the prosecution thereof; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California most respectfully urges and petitions the President of the United States and the Congress of the United States to enact such legislation necessary to accomplish the universal conscription in time of war of the material resources, indus-
trial organizations and services of our nation which is necessary to the successful termination of such emergency and to the end that all semblance of profit shall be eliminated therefrom; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and member of the House of Representatives from California in the Congress of the United States, and that such Senators and members from California be urged to support such legislation.

*Assembly Joint Resolution No. 35—Relating to memorializing Congress to consider the almond industry of California and to maintain the existing tariff regulations thereon.*

[Filed with Secretary of State February 2, 1935]

*WHEREAS,* The growing and marketing of almonds is one of California's great agricultural industries; and

*WHEREAS,* This is a specialty crop, not always fully understood by those unfamiliar with California conditions, and with great present and future possibilities; and

*WHEREAS,* The reciprocal trade agreements proposed between this country and Italy and Spain threaten this industry with disaster, if not actual extinction; therefore, be it

*WHEREAS,* The Congress of the United States of America has imposed a tax upon all sales of gasoline; and
WHEREAS, The State of California and all other several States of the United States have already imposed taxes upon such sales; and

WHEREAS, The Federal tax on such sales is untimely and prohibitive and, coupled with the respective State taxes on such sales, places a burden upon the users of gasoline beyond that which they should carry and beyond that which the traffic can legitimately bear; and

WHEREAS, The taxation of sales of gasoline should properly be left to the exclusive use of the States as a means of providing funds for road construction and maintenance; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States be and it is hereby respectfully memorialized to enact with all convenient speed such legislation as may be necessary to abolish the Federal gasoline sales tax and to yield to the States exclusively the power to tax such sales in the future; and be it further

and 176 of Article XX of the Charter of the City
of Sacramento to Read Respectively as
Follows:

Retirement System

Sec. 167. In order to continue in force, with such modi-
fications as are set forth in this Charter, provisions already
existing for retirement and death benefits for officers and
employees' Retirement System, hereinafter referred to as the
Retirement System or the System, is hereby created. Elec-
tive officers, the City Manager and members of Boards and
Commissions shall not be eligible to membership in said
Retirement System, and the City Council may exclude from
such membership persons employed on a temporary or part-
time basis. The City Council is hereby empowered to enact,
by a vote of three-fourths of its members, any and all ordi-
nances necessary to carry into effect the provisions of Sec-
tions 167 to 175, both inclusive, of this Charter provided
that the Said Council shall secure, through the Retirement
Board, an actuarial report of the cost and effect of any pro-
posed change in the benefits under the Retirement System,
before enacting an ordinance or before voting to submit any
proposed Charter amendment providing for such change.

Retirement Board

Sec. 168. The Retirement System shall be managed by a
Retirement Board, which is hereby created, and which shall
be the successor and have the powers and duties of the Pen-
sion Board of the City of Sacramento. The Retirement Board
shall consist of the City Manager, the City Controller, a
member of the Civil Service Board to be selected by and serve
at the pleasure of that Board, a citizen of the City of Sacra-
mento but not connected with the government thereof, to be
appointed by the City Council, and three members elected
under the supervision of the Retirement Board from the
active members of the Retirement System, who shall not
include retired persons, of the Retirement System, provided
that immediately after the effective date hereof, the Mayor
shall appoint three members from such active members of
the Retirement System to serve until the election of such
members, which shall not be more than six months after the
effective date hereof, hereby defined as the first day of the
month next following ratification by the Legislature. One
of such three members shall be a member of the Fire Depart-
ment, one a member of the Police Department and one
employed in any other office or department of the City of
Sacramento, and the election of such three members shall be
confined to the group from which he must be chosen. The
term of office of the four members, other than the ex-officio members, shall be four years, one term expiring each year, provided that immediately after the election of the three Retirement System members, they shall draw lots for terms of one, two, three and four years, respectively. The members of the Retirement Board shall serve without compensation. The Board shall appoint a Secretary to hold office at its pleasure, and when necessary employ a consulting actuary.

The Retirement Board shall be the sole authority and judge, under such general ordinances as may be adopted by the City Council, to determine when members may receive and may continue to receive benefits of any sort under the Retirement System, and shall have exclusive control of the administration and investment of such fund or funds as may be established, provided that all investments shall be of the character legal for insurance companies in California.

Actuarial Tables, Rates and Valuations

Sec. 169. The mortality, service and other tables and the rates of contribution for members as recommended from time to time by the actuary and the valuations determined by him from time to time and approved by the Retirement Board shall be conclusive and final and the Retirement System shall be based thereon. The total amount, as determined by the actuary and approved by the Board of the contribution required during any fiscal year of the City under the Retirement System, shall be paid into the Retirement System by the City during such year. Liabilities accruing under the Retirement System because of service rendered to the City prior to the effective date hereof, and administrative costs under the System, shall be met by contributions to the Retirement System by the City, in addition to any amounts contributed to meet liabilities accruing because of service rendered by such persons after becoming members of the System, provided that such prior service liabilities may be met by annual appropriations instead of by one appropriation for the total amount of the liabilities; and provided further, that such appropriation for any one year shall not be less than the amount disbursed during that year on account of prior service.

In addition to other contributions required of the City under the System the City shall contribute to the Retirement System during each fiscal year a sum which, together with the members' contributions provided for in Sections 173 and 175 shall be equal to the liabilities accruing under the System because of service rendered during such year by all members of the System; provided that, during the present economic emergency, payment to the Retirement System of contributions required of the City during any year under this paragraph on account of service rendered after the effective date hereof by persons who become members on the said date, less
benefits paid during such year by the System on account of such service, may be postponed by the City Council, the amount payable, however, being entered when due, and accumulated with interest from that date, in the accounts and records of the City and Retirement System as an asset of the System and a liability of the City, and the City shall pay to the Retirement System such accumulated amount within five years from the end of the year in which the said service was rendered.

Contributions to the Retirement System required of the City shall be charged by the Controller against the General Fund or the Utility, Bond or other Special Fund under which the service was rendered, on account of which the contribution is required; provided that contributions required on account of service rendered by any such person prior to becoming a member of the System, under a temporary fund, such Bond Funds, or a fund that no longer existing, may be charged against the General Fund.

Periodically, at periods fixed by the City Council, the Board shall make an actuarial investigation into the mortality, service and other experience under the System, and further shall make an actuarial valuation of the assets and liabilities of the System, and upon the basis of such investigation and valuation as interpreted by the actuary, any necessary revisions of the tables and rates being used under the System, shall be made, provided that this paragraph shall not apply to contributions required of persons who become members of the Retirement System under Sec. 173 of this Charter.

Definitions

Sec. 170. "Continuous service" shall be defined by the City Council but the absence of any officer or employee of the City from service caused by reason of the service of such officer or employee in the military or naval forces of the United States in any war in which the United States has engaged or may become engaged, or during other national emergency, shall not be deemed to be such an absence from service as shall break the continuity of service required of such officer or employee to entitle him to a pension or retirement allowance as provided under the Retirement System. The City Council may elect in case of war to provide funds sufficient to continue the contributions of members absent and in such service, in which case the period of such absence shall be deemed service for the City. Absence from duty without salary or wages at any other time due to other causes shall not be so deemed. The City Council may fix the number of days and months per year to be required of per diem and monthly employees, respectively, for a year of service and proportionate parts thereof, but not more than one year shall be credited for all service in any year.

"Compensation earnable" shall mean the average compensation as determined by the Retirement Board, upon the basis
of the average period of employment in the same group of class of employment and at the same rate of pay.

“Retirement allowance” or “allowance” shall mean equal monthly payments for life unless a different term of payment is provided by the context, provided that any person to whom or on whose account benefits are payable, may elect to have the actuarial equivalent of such benefits paid in different form, all subject to such restrictions, regulation and conditions as may be prescribed by the City Council, but the action of the City Council shall not prevent such benefits when elected by a member, from taking the form of cash refund annuities, as applied to the member’s accumulated contributions only, or reversionary annuities, these terms to have the meaning commonly accepted in life insurance practice.

“Final compensation” shall mean the average compensation earnable by a member during the ten years immediately preceding his retirement.

“Employee” shall mean “officer and employee”.

“Member” shall mean member of Retirement System unless clearly indicated otherwise.

For the purposes of the Retirement System, any officer or employee of the Police or the Fire Departments whose employment therein was or shall be subject to a Charter maximum age at the time of employment, of not over thirty-five years in the Police Department and forty years in the Fire Department, shall be considered to be a member of the Police Department or the Fire Department, respectively. Any fire or police service outside the limits of the city performed by a member of the Retirement System and under the orders of a superior officer of any such member, shall be considered as City service, and any disability or death incurred therein shall be covered under the provisions of the Retirement System.

Retired Persons

Sec. 171. No person retired for service or disability and in receipt of a retirement allowance under the retirement System shall serve in any appointive position in the City service, including membership on Boards and Commissions. nor shall such person receive any payment for service rendered, except in an elective office, to the City after retirement, provided that service as an election officer or juror shall not be affected by this section.

Should any retired person, prior to attaining the minimum age required of members in his class for service retirement after less than thirty years of service, engage in a gainful occupation, the Retirement Board shall reduce that part of his monthly retirement allowance which is provided by contributions of the City, to an amount which, when added to the amount earned monthly by him in such occupation, shall not exceed his compensation at the time of retirement.
Injury in Performance of Duty

Sec. 172. Any city employee who shall become physically disabled by reason of any bodily injury received in the performance of his duty, shall be entitled to such medical, surgical, and hospital treatment, including nursing, medicines, and medical and surgical supplies and apparatus, as may be required on account of such injury, the same to be provided by the City. Such injured employee shall receive full pay from the City during the continuance of his disability or until retired upon a retirement allowance, but not to exceed one year. That portion of any allowance payable because of the death or retirement of any such employee which is provided by contributions of the City shall be reduced, in the manner fixed by the City Council, by the amount of any benefits payable to or on account of such person, under the Workmen's Compensation Insurance and Safety Law of the State of California. The City Council may provide for the administration of each case under this section by the City Manager independently of the Retirement Board, until the retirement of the injured employee.

Present Employees

Sec. 173. Persons who shall be in the employ of the City on the effective date hereof shall become members of the Retirement System on that date, subject only to the following provisions in addition to the provisions contained in Sections 167 and 172 both inclusive, of this Charter.

(a) Members of the Retirement System shall be retired upon reaching the age of seventy years. The Retirement Board may retire and relieve from service any member of the Police or Fire Department who has passed the age of fifty-five years, or any other employee who has passed the age of sixty years, who may be ascertained by the Board to be unfit for the performance of his duty. Said Retirement Board shall, at the request of any member of the Police and Fire Department who has arrived at the age of fifty-seven with twenty-five years of continuous service, or the age of sixty with twenty years of continuous service, or who has thirty years of such service, irrespective of age, or any other employee who has passed the age of sixty-two with thirty years of continuous service, or the age of sixty-five with twenty years of continuous service, or who has thirty five years of such service, irrespective of age, retire and relieve such member of employee making such application. Such retired member shall receive a retirement allowance equal to one-half of the average monthly salary paid him one year prior to his retirement. No retirement allowance shall be paid under the provisions of this paragraph unless the member has rendered at least twenty years of continuous service to the City preceding his retirement, and, except as hereinafter provided, said pension shall cease at his death. Dismissal of a member from service for
any cause whatever, after he has qualified as to age and/or service for service retirement, shall not deprive him of the right to retire and receive the retirement allowance under this paragraph.

(b) Any member of the Retirement System, who shall become disabled by reason of any bodily injury received in the performance of his duty may be retired upon a retirement allowance equal to seventy-five per centum of the average monthly salary paid him one year prior to his retirement, said allowance to cease at his death, except as hereinafter provided. In case his disability shall cease, his allowance shall cease, and he shall be restored to the service in the rank occupied at the time of his retirement.

(c) Any member of the Retirement System who shall become disabled from any cause not included in Paragraph (b) immediately preceding, and who has completed at least twenty years of continuous service to the City, may be retired upon an allowance equal to one-half of the average monthly salary paid him one year prior to his retirement, such allowance to cease at his death, except as hereinafter provided. In case his disability shall cease, his allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(d) Upon the death of any person who has been retired who, at the time of death was eligible for service retirement under the provisions of this section, leaving a widow, provided she was the wife of such member at the time of his retirement, she shall receive an allowance equal to two-thirds of the allowance received by such person or to which he was eligible at the time of his death; or if such widow dies, or if he leaves no widow, and either he or his widow leave a child or children, under the age of eighteen years, said amount shall be paid to such child, or children, in equal shares, while under the age of eighteen years; provided, however, that if such widow, or child or children, shall marry, then such person so marrying shall thereafter receive no further allowance and provided further that if such deceased person leave neither widow, nor child nor children, under the age of eighteen years, but leaves a parent or parents dependent solely or partially upon him for support, an allowance shall be paid to the parent or parents during such time and in such amount as the Retirement Board may determine its necessity, but not to exceed two-thirds of the allowance received by such person or to which he was eligible at the time of his death.

(e) The Retirement Board shall provide as follows for the family of any member of the Retirement System who may die as the result of injuries received in the performance of duty:

1. Should the decedent leave a widow, she shall, as long as she remains unmarried, be paid an allowance equal to one-half of the monthly salary paid the decedent at the time of his death.
(2) Should the decedent leave no widow, but leave any child or children under the age of eighteen years, or should he leave a widow who shall die and leave his children under the age of eighteen years, such child or children collectively shall receive an allowance equal to one-half the monthly salary paid to the father at the time of his death, until the youngest child attains the age of eighteen years; provided, that no child shall receive any such allowance after attaining the age of eighteen years.

(3) Should the decedent leave no widow or orphan child, or children, but leave a parent or parents, dependent solely or partially upon him for support, such parents so dependent shall, collectively, receive an allowance during such time and in such an amount as the Retirement Board may determine, but not to exceed one-half of the monthly salary paid to the decedent at the time of his death.

(f) When a member of the Police or Fire Department shall die while in the employ of the City, and before retirement, and if no allowance is payable to his widow and/or children, from causes other than those specified in preceding subdivision (e) and after ten years of continuous service in such department. then his widow, and if there be no widow, then his children, and if there be no widow or children, then his parent or parents, if dependent upon him for support, shall be entitled to the sum of One Thousand ($1,000.00) Dollars. When any member of the Retirement System shall die before retirement, and if no allowance is payable to his widow and/or children, from causes other than those specified in the immediately preceding subdivision (e), the contributions standing to his credit under the Retirement System shall be paid, with interest, to such beneficiary as he shall have nominated by written designation duly executed and filed with the Retirement Board.

(g) Each person who becomes a member of the Retirement System under the provisions of this section shall contribute each month to the Retirement System, commencing on the effective date hereof, four per cent if he be a member of the Police or Fire Department, otherwise three and one-half per cent, of his gross salary before deduction for any reason other than absence from duty, to be applied on the cost of the benefits at death or retirement provided for him under this section. Should any person who is a member under the provisions of this section be separated from City service through any cause other than death or retirement, then all of his contributions, with interest shall be refunded to him.

(h) The contributions made under this section shall be credited to the individual account of the member from whose compensation they were deducted, and no amendment to this Charter or repeal thereof, shall prevent the payment to the member or his beneficiary, of such contributions made prior to the effective date of such amendment or repeal, with inter-
est, upon death or other separation from City Service as pro-
vided in this section.

(i) Persons who are eligible for membership under this sec-
tion, shall have the option, to be exercised in writing on or
before ninety days after the effective date hereof, of becoming
members of the Retirement System under the provisions of
Section 175, which applies to persons who become employees
after the effective date hereof. If such persons shall affirma-
tively exercise such option within the time specified, then they
shall not receive any benefit under this section, but shall
become members of the Retirement System and shall receive
benefits and make contributions, all dating back to the effect-
ive date hereof, on the same basis as persons who become
members after such effective date, provided that a pension,
upon retirement for service at or over age sixty-five, or age
sixty if the person be a member of the Fire or Police Depart-
ment, for each person affirmatively exercising such option
shall be payable on account of service rendered to the City
prior to such effective date, by contributions of the City, which
pension shall be the same percentage of his final compensa-
tion, for each year of such service, as the contributions of the
member and the City are calculated to provide upon retire-
ment at age sixty in the case of members of the Fire and
Police Departments and age sixty-five in the case of other
members of the System, for each year of service rendered as
a member of the Retirement System.

Existing Pensions Continued

Sec. 174. Allowances existing in favor of or on account of
employees of the City, at the time of the adoption of this
Charter shall be continued in force, subject to change under
the provisions of Section 173.

Future Employees

Sec. 175. Persons who shall enter the employ of the City
after the effective date hereof shall become members of the
Retirement System on the date of such entry subject only to
the following provisions, in addition to the provisions con-
tained in Sections 167 to 172, both inclusive, of this Charter:

(a) Members of the Fire and Police departments may
retire for service at their option upon attaining an age of at
least sixty years, and other members of the System upon
attaining an age of at least sixty-five years, but only after
rendering at least fifteen years of continuous service to the
City; provided that any member may retire for service regard-
less of age after rendering at least thirty years of continuous
service to the City. Dismissal of a member from service from
any cause, after he has qualified as to age and service for
service retirement, shall not deprive him of the right to retire
under the sentence immediately preceding. Any member of
the System may be retired for disability, regardless of age
and amount of service, if incapacitated for the performance of duty as the result of an injury received in the performance of his duty. Any member incapacitated for the performance of duty by reason of a cause not included under the immediately preceding sentence, may be retired regardless of age but only after ten years of continuous service to the City.

Retirement shall be compulsory at the age of seventy years.

(b) Upon retirement for service, a member shall receive a retirement allowance equal in value, when computed upon the basis of tables and rates recommended by the actuary and approved by the Retirement Board, as provided in Section 169 of this Charter, to twice the normal contributions, plus accumulated interest thereon, made by him and standing to his credit under the Retirement System, at the date of his retirement.

Upon retirement for disability resulting from injury received in performance of duty, a member shall receive a retirement allowance of seventy-five per centum of his final compensation.

Upon retirement for disability resulting from any cause not included in the immediately preceding paragraph, a member shall receive a retirement allowance of (1) one and one-half per centum of his final compensation multiplied by the number of years of service credited to him, if such allowance exceeds one-fourth of his final compensation; otherwise, (2) one and one-half per centum multiplied by the number of years which would be creditable to him were his service to continue until his attainment of the age of sixty-five years, but such allowance shall not exceed one-fourth of his final compensation.

If the disability for which a member was retired shall cease, his allowance shall cease, and he shall be reinstated to the rank or position of the same grade as that he occupied at the time of his retirement.

To the allowances provided in this section, shall be added the allowance which the additional contributions of the retiring member will provide when applied in the same manner as his normal contributions.

(c) Upon the death before retirement of a member, the Retirement System shall be liable for a death benefit, which, if an amount be due under paragraph (3) next following, and if there be a surviving wife or surviving children, shall be paid in monthly installments and to the surviving wife and children as prescribed therein, otherwise such death benefit shall be paid to his estate, or to such person having an insurable interest in his life as he shall nominate by written designation duly executed and filed with the Retirement Board, and such death benefit shall consist of:

(1) His accumulated contributions, and in addition thereto,
(2) An amount equal to his average monthly compensation earnable during the six months immediately preceding his death, multiplied by his completed years of service as a
member of the System, not to exceed six, and if in the opinion of the Retirement Board, death be the result of bodily injury sustained while in the performance of duty, in addition thereto,

(3) An amount sufficient, when added to the amounts provided in the next preceding paragraphs (1) and (2), to provide when applied according to mortality tables adopted by the Board, a monthly death benefit allowance, equal to one-half of the compensation earnable by such member during the ten years immediately preceding his death, to be paid to the surviving wife to whom said member was married at the time of sustaining the said injury, to continue as long as she shall live or until her remarriage; or if there be no widow, or if the widow die before any child of such deceased member shall have attained the age of eighteen years. then to his child or children under said age collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after attaining the age of eighteen years. If payment of the allowance be stopped because of remarriage of the widow or attainment of the age of eighteen years by a child, before the sum of the monthly payment made shall equal the sum of the amounts provided in the next preceding paragraphs (1) and (2), then an amount equal to the difference between said sums shall be paid in one amount to the remarried widow, or if there be no widow, to the surviving children of the deceased member, share and share alike.

(d) The normal contributions required of each member shall be such as will provide on the average for such member, when accumulated with interest, added to the equal accumulated contributions of the City and applied according to the tables and rates recommended by the actuary and approved by the Retirement Board as hereinbefore provided, a retirement allowance upon retirement at the age of sixty years if the member be a member of the Fire or Police Department, and sixty-five years in the case of any other member, equal to one and one-half per centum of his monthly final compensation, for each year of service rendered by him to the City as a member of the Retirement System. Members may contribute at rates in addition to the normal rates provided for in the immediately preceding sentence, to provide additional benefits, but the City shall not contribute any amount because of such members’ additional contributions. Such additional contributions shall be administered in the same manner as the normal contributions.

(e) Should any person who is a member under the provisions of this section be separated from City Service through any cause other than death or retirement, then all of his contributions, with interest, shall be refunded to him.

(f) The contributions made under this section shall be credited to the individual account of the member from whose compensation they were deducted, and no amendment to this Charter or repeal thereof, shall prevent the payment to the member or his beneficiary, of such contributions made prior
to the effective date of such amendment, with interest, upon death or other separation from City service as provided in this section.

Rewards

Sec. 176. The City Council may, on notice from the City Manager, reward any City employee for conduct which is heroic or meritorious. The form or amount of such reward shall be discretionary with the City Council, but shall not exceed in any one instance one month's salary.

Disbursements may be made from such funds according to the conditions of the deposit, and under rules to be issued by the City Manager.

No
indebtedness exceeding the amount provided for by the Appropriation Ordinance for this purpose shall be incurred in any one year; PROVIDED, this limitation shall not be construed to prevent the incurring of indebtedness for permanent improvements, to be liquidated by the proceeds of municipal bonds issued by the City of Long Beach, in accordance with the provisions of this Charter and of the general laws of the State of California, for the purpose of defraying the cost of such improvements.

THE MUNICIPAL BAND

Sec. 263. The City Council shall levy and collect annually on all taxable property in the City of Long Beach, as in other cases, a special tax sufficient to support, employ and maintain a municipal band.

The City Council shall have the power to transfer from the Cash Basis Fund, after all demands for salary and wages have been paid, such sum or sums as may be required for the purpose
of placing such fund or funds, as nearly as possible, on a cash basis; salary and wages to be provided for before any other transfers are made. It shall be the duty of the City Council to provide that all money so transferred from the Cash Basis Fund be returned thereto before the end of the fiscal year.

Sec. 305. The registered qualified electors of the City of Long Beach may propose and submit to the City Council ordinances in the following manner: By petition signed by registered qualified electors equal in number to twenty-five per cent of the entire vote cast at the last preceding general municipal election. The petition shall set forth the proposed ordinance, or ordinances, and contain a request that the same be enacted into law by the city council. The signatures to such petition need not all be appended to one paper, but each signer must add to his signature his place of residence, giving street and number, the date of signing and the number of his election precinct. One of the signers of each paper shall make oath, before some officer authorized to administer oaths, that each signature to the paper appended was made in his presence and that, to the best of his knowledge and belief, it is the genuine signature of the person whose name purports to be thereunto subscribed. Within ten days from the date of filing of such petition the city clerk shall examine the same and, from the list of registered qualified electors of the City of Long Beach, ascertain whether or not said petition is signed by the requisite number of registered qualified electors, and he shall attach to said petition his certificate showing the result of such examination, stating the number of registered qualified electors found upon said petition and the number of persons not qualified to vote, and, in checking said petition, the city clerk shall designate the names of persons found thereon not qualified to vote with the letters "D. The city clerk shall, within ten days after such amendment is filed with him, make a like examination and check off the names thereon, and, if his certificate shall show the same to be insufficient, it shall be returned to the person filing the same, without prejudice, however, to the filing of a
new petition to the same effect. If the petition is shown to be sufficient by the certificate of the city clerk, he shall submit the same to the city council without delay, and the city council shall either:

(a) Pass the ordinance set out in said petition without alteration within ten days after the date of the city clerk's certificate of sufficiency thereon; or

(b) Submit the same to a vote of the registered qualified electors of the City of Long Beach at a special municipal election to be called for that purpose within forty days from the date of said certificate, unless a general municipal election is to be held within ninety days thereafter, and then at such general municipal election, such ordinance shall be submitted without alteration of any kind. The ballot used in voting upon such proposed ordinance shall set forth the title thereon in full and state its general nature, and shall contain the words: "For the Ordinance" and "Against the Ordinance". If a majority of the qualified votes cast is in favor thereof, such ordinance shall thereupon become a valid and binding ordinance of the city, and any ordinance, so enacted, shall not be repealed or amended except upon a vote of the people. Any number of ordinances may be voted upon at the same election in accordance with the provisions of this article. The city council may submit a proposition for the repeal of any such ordinance or for amendments thereto to be voted upon at any general municipal election or at any special municipal election, and, should such proposition so submitted receive a majority of the votes cast thereon at such election, such ordinance shall thereby be repealed or amended accordingly.

If at any time it shall be found that any person, firm or corporation to whom a contract has been awarded by the City has, in presenting any bid, colluded with any other party or parties, then the contract so awarded shall, if the Council so elect, be null and void and the contractor and his bondsmen shall be liable to the City for all loss and damage which the City may suffer thereby. In such event the Council may advertise anew for bids for said work or supplies.

to the investigation, approval, disapproval, endorsement, verifi-

set forth in this Charter or required by ordinance or general
law. The heads of the departments shall report to the Con-

other activities in their respective departments.

He shall keep an account of all moneys paid into and out

treasurer for payment of money out of the treasury, except as
otherwise provided in this Charter, by ordinance or by general
law; his disapproval shall be final, subject to four-fifths vote
of the Council.

All orders for the purchase of goods, materials and supplies, and all orders or contracts proposed to be entered into by the
City by virtue of which any money shall or may become payable by the City, except contracts the expense of which is
to be paid by assessments upon properties benefited or affected
thereby, shall before becoming effective on behalf of the City,
be presented to the Controller and have endorsed thereon his
certificate that there remains unexpended and unapplied in
the City Treasury, as provided by this Charter, a balance of
the appropriation or fund applicable thereto sufficient to pay the estimated expense to be incurred during the then current fiscal year under said order of contract as estimated by the Board or Officer making the same or that adequate provision therefor has been made in the tax levy, or by other revenues to be received by the City as estimated in the budget. It shall be the duty of the Controller to make such endorsement upon every such contract or order as presented to him if there remains unexpended and unapplied the said estimated amount in any appropriation, fund or tax levy, or other estimated revenue applicable thereto, and thereafter he shall hold and retain the same amount to pay the expense to be incurred under said order or contract until the same is fully performed and expense paid.

SECTION 3. Treasurer. The City Treasurer shall safely keep as received by him, and pay out as directed in this Charter, all moneys belonging to the City and all moneys received by or coming into the hands of any officer, board, department or employee of the City, and shall keep an exact account of receipts and disbursements.

SECTION 4. Presentation of Demands: All demands against the City shall, before being paid, be presented to and approved by the proper Board, Commissioner or Officer, as herein provided. Demands against the Library Fund shall be presented to the Board of Library Trustees, demands against funds in the control of the Board of Education shall be presented to the Board of Education, demands for which no appropriation has been made shall be presented to the Council.

SECTION 5. Warrants on Treasury. All demands approved by the proper Board, Commissioner or officer shall be presented to the City Controller, who shall examine the same; and if the amount thereof is legally due and there remains on his books an unexhausted balance or an appropriation against which the same may be charged, he shall approve such demand and draw and sign his warrant on the Treasurer therefor, payable out of the proper fund. Objections of the Controller to any demand may be over-ruled by four-fifths vote of the Council, and the Controller shall thereupon draw his warrant as directed by the Council. Such warrants, when presented to the Treasurer, shall be paid by him out of the fund therein designated, if there be sufficient money in such fund for that purpose. A warrant not paid for lack of funds shall be registered, and all registered warrants shall be paid in the order of registration when funds are available therefor; all such registered warrants shall bear interest at the rate of six per cent per annum. The Controller shall draw his warrants for payment of municipal or other bonds payable out of funds in the Treasury upon presentation and surrender of the proper bonds or coupons, without approval of any Body or Officer. SECTION 6. Actions against City. No payment shall be made from the Treasury of the City, except as otherwise provided by law or this Charter, except on demands presented and approved and warrants drawn as herein or by ordinance provided. No action shall be brought on any claim or demand for money or damages against the City or any Board, Commission or Officer thereof, until a demand for the same has been presented as provided in this Charter or by ordinance and rejected in whole or in part. If rejected in part, action may be brought to recover the whole. Nor shall any action be brought upon any such demand that has been approved in whole, as herein or by ordinance provided, but nothing herein contained shall prevent the holder of any demand from resorting to proceedings to compel any Officer, Board or Commission to act upon a demand or to pay a demand that has been properly allowed.

SECTION 7. Inventory of City Property: At the time for preparing and submitting the budget, as prescribed in this Charter, a complete inventory of all personal property belonging to the City shall be prepared and filed with the City Clerk, and such inventory shall be submitted to the Council at the time of the submission of the annual budget. All department heads of the City shall be responsible for making and transmitting to the Clerk a full and correct inventory of all City personal property in their possession or under their control.

SECTION 8. Estimates and Budget. The fiscal year of the City shall begin on the first day of July. On or before the first day of June of each year, each department head shall submit to the Controller a proposed budget for the ensuing year. Said Budget shall include estimates for all the revenues and expenditures of the City departments for the ensuing year. The controller shall combine the department budgets and submit them to the Council.

The classification of the estimates of expenditures shall be as nearly uniform as possible for all departments and shall give the following information.

1. A detailed estimate of the expense of conducting each department and office of the City for the ensuing fiscal year; showing the objects of expenditure such as personal service, contractual service, materials and supplies, equipment, capital outlays and fixed charges; and further consolidated under funds, organization units and character of expenditures.

2. Expenditures for the corresponding items for the current year and last preceding fiscal year with reasons for increases and decreases recommended as compared with appropriations for the current year.

3. The total value of supplies and materials on hand at the date of the preparation of the estimate.

4. The total amount of City debt outstanding together with a schedule of maturities of bond issues by departments, and a statement of the borrowing capacity of the City.
5. A statement of the amounts which should be appropriated:
   (a) For interest on the City debt;
   (b) For paying off any serial bonds maturing during the year or for sinking fund requirements;
   (c) For other fixed charges.
6. An estimate of the amount which should be appropriated for contingent or emergency purposes.
7. An itemization of all anticipated revenues of the City from sources other than taxes, shown by departments.
8. An item to be known as "unappropriated balance," which sum shall be available for appropriation later in the fiscal year to meet contingencies which might arise. The budget shall also contain an item to be known as the "cash basis fund" which shall be carried over to the next ensuing fiscal year following the fiscal year for which the budget is prepared, to meet the cash requirements prior to the receipt of taxes.
9. An estimate of the amount of money to be raised from taxes, the tax rate, and bond issues which, with revenue from other sources, would be necessary to meet the expenditures proposed.
10. A long-time program of proposed activities, developments and improvements listed in order of relative importance and specifying whether the work is to be done by bond issue or by taxation.
11. Such other information as may be required by the Council.
12. Sufficient copies of such proposed budget shall be prepared and submitted, that there may be copies on file in the office of the Clerk for the inspection of the public and one copy of each budget furnished each member of the Council. The Council shall have power to revise, correct, or modify said proposed budgets in any particular.

SECTION 9. Appropriations. After considering said proposed budgets, the Council shall fix a time for holding a public hearing upon the same and shall publish a notice of the time fixed for said hearing one time in the official newspaper at least ten days before the time of hearing.

After said hearing the Council may further correct or modify said proposed budget and shall by resolution, adopt said expenses for the fiscal year less the amounts to be raised by bond issues and revenues collected from other sources: provided, however, that the total rate of such tax levy for any and all purposes, other than the bonded debt of the City and, special assessments within the City, shall in no event exceed the total aggregate tax rate allowed under all laws now or hereafter applicable to cities of the Fifth Class; provided, however, that such limitation may be altered by ordinance adopted by vote of the people. Such resolution shall operate as an appropriation of funds to the amounts and for the purposes set forth in the budgets so adopted.
SECTION 10. Transfer of Appropriations. At any meeting after the adoption of the budget or budgets, the Council, by a vote of four members, may amend or supplement such budget or budgets, so as to authorize the transfer of unused balances appropriated for one purpose to another purpose, or to appropriate available revenues not included in the annual budget.

SECTION 11. Taxation. The Council shall have power by ordinance to provide a system for the assessment, levy and collection of all City taxes, which system shall conform as nearly as may be to the general laws of this State provided for the assessment, levy and collection of county taxes. All taxes levied, together with any penalties imposed for delinquency and the cost of collection, shall constitute liens on the property assessed and every tax upon personal property shall be a lien upon the real property of the owner thereof. The said liens shall attach as of the first Monday in March of each year.

SECTION 12. County May Perform Fiscal Function. The Council shall have power by ordinance to authorize the transfer to and the assumption and discharge by officers of the County of Placer of any function of the City relating to the assessment of property or taxation and equalization of such assessment, and collection of taxes levied for municipal purposes, the collection of assessments levied for municipal improvements, the sale of property for non-payment of taxes levied for municipal purposes or for non-payment of assessments levied for local improvements, and the redemption of property from sales for either of said purposes and may repeal any such ordinances.

SECTION 13. Cash Basis Fund. The Council may create and maintain a revolving fund, to be known as the cash basis fund, for the purpose of placing the payment of the running expenses of the City on a cash basis. For this purpose the Council shall provide that, from all the money collected from the annual tax levy and from money received from other sources, a sum equal to not less than two and one-half cents on each one hundred dollars of the assessed value of said property shall be placed in such fund until the accumulated amount thereof shall be sufficient to meet all legal demands against the City for the first four months, or other necessary period of the succeeding fiscal year. The Council shall have power to transfer from the cash basis fund to any other fund or funds such sum or sums as may be required for the purpose of placing such fund or funds, as nearly as possible, on a cash basis. It shall be the duty of the Council to provide that all money so transferred from the cash basis fund be returned before the end of the fiscal year.

SECTION 14. Special Taxes and Bonds. Whenever the Council shall determine that the public interest demands an expenditure for municipal purposes which cannot be provided for out of the ordinary revenue of the City, it may submit to the qualified voters at a regular or special election, a proposi-
tion to provide for such expenditure, either by levying a special
tax, or by issuing bonds, but no such special tax shall be levied
nor any such bond issued, unless authorized by the affirmative
votes of two-thirds of the electors voting at such election. No
bonds shall be issued to meet current expenses.

The proceedings for the voting and issuing of bonds of the
City shall be had in such a manner and form and under such
conditions as shall be provided from time to time by general
laws.

SECTION 15. Limit of Bonded Indebtedness. The
bonded debt of the City shall at no time exceed a total of
fifteen per cent of the assessed valuation of all property taxable
for City purposes; provided, however, that bonds issued for
the acquisition, extension, betterment or maintenance of municipally
owned public utilities shall not be considered in fixing
such limitation.

SECTION 16. Depreciation Fund. The Council shall
annually set aside from the income derived by the City from
its revenue producing public utilities, as a separate deprecia-
tion fund for each of said public utilities, a sum which, accord-
ing to the estimate of the Department Heads, and approved
by the Council, shall be sufficient to meet the normal deprecia-
tion of said public utility. Such funds shall be used only for
the replacement, betterment, and extensions of the plants and
equipment of said public utilities respectively.

SECTION 17. Public Service Sinking Fund. A fund to
be known as the Public Service Sinking Fund is hereby created,
to which fund shall be credited, from the receipts of the Public
Service Departments a sufficient amount each year to cover
the total amount of payment falling due that year, for prin-
cipal and interest of all bonds issued for the acquisition,
 improvement or extension of public utilities operated by the
City. The Council shall fix from time to time the percentage
of the receipts of the Public Service Departments required to
cover the principal and interest of such bonds, and such per-
centage of said receipts shall be credited by the City Treasurer
to said Public Service Sinking Fund; provided, however, that
if, in the opinion of the Council, the total amount necessary
for said Sinking Fund cannot conveniently be taken from the
receipts of said Public Service Departments, nothing in this
section shall affect or impair their power, after so declaring,
to levy such taxes as may be necessary to provide for interest
and principal of such bonds.

SECTION 18. Bond Retirement Fund. Any surplus from
the income of such revenue producing public utilities remain-
ing after providing for said Depreciation Fund and said Pub-
lic Service Sinking Fund shall be used only (first) for the
retirement of the bonded debt issued for the public utility
producing the same, and (second) to the retirement of any
other bonded debt of the City, (third) for any other municipal
expense.
SECTION 19. Special Deposit Fund. There is hereby created a fund to be known as the Special Deposit Fund, wherein shall be deposited all moneys received by the City or any Department, Officer, or Board thereof for the purpose of guaranteeing the payment of any costs, charges, or damages accruing or liable to accrue to the City from the depositor, and all moneys deposited as bail to secure the liberation of a person accused of a public offense, and all moneys required to be deposited for the purpose of indemnifying persons whose property is in danger of being damaged or destroyed by the operation of the depositor. The money so deposited may be returned to the depositor should he become entitled to the return thereof, in such manner as the Council may, by ordinance, prescribe, or upon default being made in the payment of such costs, charges or damages, or in the performance of any of such conditions, acts or things, may be declared forfeited in whole or in part and be disposed of as the Council may direct.

SECTION 20. Utility Funds. Accounts shall be kept for each public utility owned or operated by the City, distinct from other city accounts and such manner as to show the true and complete financial results of such City ownership, or ownership and operation, including all assets, liabilities, revenues and expenses. Such accounts shall show the actual cost to the City of each public utility owned, the cost of all extensions, additions and improvements, all expenses of maintenance, the amounts set aside for sinking fund purposes, and, in the case of City operation, all operating expenses of every description. The accounts shall show as nearly as possible the value of any service furnished or rendered by any such public utility by or to any other city or governmental department. The accounts shall also show a proper allowance for depreciation, insurance and interest on the investment, and estimates of the amount of taxes that would be chargeable against the property if privately owned. The Council shall annually cause to be printed, in the official newspaper, a report showing the financial results of such City ownership or ownership and operation, which report shall give the information specified in this section, and such other information as the Council shall deem expedient.

SECTION 21. Special Assessments. The acquisition, improvement, widening and opening of streets or alleys, the planting of trees, and the making of any other public improvement may be done and assessments therefore may be levied in conformity with and under the authority conferred by general laws; provided, however, that the Council may by ordinance adopt a method and procedure for such improvements; for the laying of pipes, or conduits; or for the removal of dirt, rubbish, weeds and other rank growths and materials which may injure or endanger neighboring property or the health or the welfare of inhabitants of the vicinity, from buildings, lots and grounds, and the sidewalks opposite thereto, and for mak-
ing and enforcing assessments against property benefited or
affected thereby or from which such removal is made, for the
cost of such improvements or removal and may make such
assessments a lien on such property superior to all other claims
or liens thereon except State, County and Municipal taxes,
but no such ordinance shall prevent the Council from proceed-
ing under general laws in whole or in part for said purposes.

SECTION 22. Illegal Approval of Payments. Every
officer who shall wilfully approve, allow or pay any demand
on the Treasury not authorized by law, shall be liable to the
City individually and upon his official bond for the amount
of the demand so approved, allowed and paid, and shall
forfeit such office and be forever disbarred and disqualified
from holding any position in the service of the City, by order
of the Council or a court of competent jurisdiction.

SECTION 23. Deposit of Money Collected. All moneys
received from taxes, licenses, fees, fines, penalties and for-
feitures, and all moneys which may be collected or received
by any officer of the City in his official capacity, or by any
department of the City for the performance of any official
duty and all moneys accruing to the City from any source,
and all moneys directed by law, or by this Charter, to be
paid or deposited in the Treasury, shall be paid into the
Treasury within forty-eight hours. The Treasurer shall
receive for each such deposit in triplicate, giving the original
and duplicate to the depositor who must file the duplicate with
the Controller.

SECTION 24 Counting the City’s Money. The Mayor,
Controller and City Clerk shall together count the money
and other securities in the Treasury at least once every three
months, and ascertain if the amounts on hand tally with the
amounts which should be in the Treasury according to the
books of the City. They shall make a written report thereof
to the Council at its first regular meeting thereafter.

ARTICLE XVII
FRANCHISES

SECTION 1. Power to Grant. Plenary control over use
of all property owned, leased, or controlled by the City is
vested in the Council. Franchises, permits or privileges may
be granted to persons, firms or corporations, upon such terms,
conditions, restrictions, or limitations as may be prescribed
by the Council by ordinance, but no franchise shall be granted
without reserving to the City adequate compensation, pro-
vided said compensation shall not be less than 2 per cent of
gross revenue, for the privilege conferred, nor shall any
franchise be granted for a longer period than fifty (50) years,
provided that in all franchises there shall be reserved to the
City the right to take over, for public operation, at any time
the works, plant and property of all public utilities within
the City, except steam railroads and pipe lines originating
outside and passing through and not serving the City, constructed under the grant, at their physical valuation and without compensation for franchise value, good will, going concern, earning power, increased cost of production, severance damage, or increased value of property occupied by its plant and equipment. Provided, that every franchise or other permit shall be granted subject to the right of and in the City at any time, upon reasonable notice, to change the grade, location, alignment or use, of any street or place in or over which such franchise or permit is exercised or operated without liability or obligation on the part of said City in any wise occasioned by any change of location of the pipes, poles, lines or other equipment of such franchise or permit required by such change or grade, location, alignment or use. The Council may by ordinance adopted by four-fifths vote of all its members provide a method whereby franchises may be granted, terminated or extended, and from time to time in like manner change the method so provided. The Constitution and general laws of the State of California shall be applicable in all cases arising outside of the provisions of the ordinances of the Council providing for the granting or termination of franchises.

SECTION 2. Indeterminate Franchises Indeterminate franchises may also be granted, subject always to the right of the City at any time and upon six months notice in writing, to acquire and possess the property of the grantee.

SECTION 3. Rights of City. All grants, renewals, extensions or amendments of public utility franchises, whether so provided in the ordinance or not, shall be subject to the right of the City.

1. To repeal the same by ordinance at any time for non-use, or for failure to begin construction within the time prescribed, or other violation of the terms of the franchise.

SECTION 4. Establishment of Public Utilities The City may establish, acquire, lease, and/or operate, or cease to operate and dispose of public utilities and quasi-public utilities, at its own option in the manner provided by the laws now existing or hereafter enacted, or by the minority vote of the registered qualified electors of the City in the manner provided by ordinances enacted by the Council by the affirmative vote of four members of such Council. All amendments of such ordinances shall require a like vote. In such ordinances, the Council may define what are public utilities and quasi-public utilities. In acquiring public utilities and quasi-public utilities the City may purchase the same subject to existing bond issues and other obligations thereof, whether secured by mortgages or trust deed against the property of such utilities or not, and may assume and pay such obligations as part of the purchase price.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County, at a special election to be held on the 2d day of May, 1935, a proposal to amend as herein set forth Section 16 of the Charter providing when ordinances of the Board of Supervisors shall become effective, and defining emergency measures, and also amending as herein set forth Section 179 of the said City Charter giving to the electors certain additional referendum powers as to certain ordinances enacted by the Board of Supervisors.

Emergency Measures and Effective Date of Ordinances

Section 16. No ordinance which is subject to the referendum provisions of this charter shall become effective until thirty days after its passage. Ordinances granting any public utility franchise or privilege shall not become effective until sixty days after their passage. Other ordinances shall not become effective until ten days after their passage unless enacted by a three-fourths vote of all of the members of the board as an emergency measure as defined in this section. No ordinance affecting franchises, grants, bond issues or the sale, lease or purchase of land shall ever be passed as an emergency measure, and the people by initiative or referendum ordinance may further restrict the matters that may be passed as emergency measures. Immediate necessary preservation of public peace, property, health or safety, provision for the uninterrupted operation of any city and county department or office, or action required to comply with time limitations as established by law, shall be emergencies within the meaning hereof; provided, however, that such emergency shall actually exist and shall be specifically stated and defined in such ordinance, and shall be specifically voted on as provided in Section 13 of this charter.

Initiative, Referendum and Recall

Section 179. The registered voters shall have power to propose by petition, and to adopt or to reject at the polls, any
ordinance, act or other measure which is within the power conferred upon the board of supervisors to enact, or any legislative act which is within the power conferred upon any other board, commission or officer to adopt, or any amendment to the charter. Such ordinance, act, charter amendment or other measure may be so proposed by filing with the registrar a petition setting forth said measure in full, signed by registered voters of the city and county as many in number as the percentages hereinafter required of the entire vote for all candidates for the office of mayor cast at the last preceding regular municipal election.

Any declaration of policy may be submitted to the electors in the manner provided for the submission of ordinances; and when approved by a majority of the qualified electors voting on said declaration, it shall thereupon be the duty of the board of supervisors to enact an ordinance or ordinances to carry such policies or principles into effect, subject to the referendum provisions of this charter.

Any ordinance which the supervisors are empowered to pass may be submitted to the electors by a majority of the board at a general election or at a special election called for the purpose, said election to be held not less than thirty days from the date of the call. Any such ordinance may be proposed by one-third of the supervisors or by the mayor, and when so proposed shall be submitted to the electors at the next succeeding general election. No ordinance passed by the supervisors granting any public utility franchise or privilege, shall go into effect until the expiration of sixty days from the date it becomes final. At the end of such sixty days such ordinance shall be in force and effect, unless within such period there shall be filed with the registrar a petition signed by registered voters equal in number to five per cent of the entire vote cast for mayor at the last preceding regular municipal election, requesting that such ordinance be submitted to the electors. In case such petition is filed, such ordinance shall not go into effect until approved by a majority of the voters voting thereon at a general or special election.

If, before the time any other ordinance involving legislative matters becomes effective, there shall be filed with the board of supervisors a petition signed by qualified electors of the city and county equal in number to at least ten per centum of the entire vote cast for all candidates for mayor at the last preceding general municipal election at which a mayor was elected, protesting against the passage of such ordinance the same shall be suspended from going into operation, and it shall be the duty of the board of supervisors to reconsider such ordinance, and if the same be not entirely repealed, said board shall submit the ordinance to the vote of said electors either at the next general municipal election or at a special election to be called for that purpose, and such ordinance shall not go into effect or become operative unless and until a majority of the qualified electors voting thereon shall vote in favor thereof.
The provisions of Sections 180 and 181 of the charter shall apply to and govern the verification and certification of such petition.

Annual budget and appropriation ordinances, supplemental appropriation ordinances, the annual salary ordinance, or ordinances amending the same, the ordinances levying taxes, any ordinance appropriating money from the emergency reserve fund, ordinances authorizing the city attorney to compromise litigation, and ordinances necessary to enable the mayor to carry out any of the powers vested in him in the case of a public emergency as defined in Section 25 of the charter, ordinances enacted pursuant to section 219 of the charter, as well as ordinances relative to purely administrative matters, shall not be subject to referendum.

Any elective official, the chief administrative officer, the controller or any member of the board of education or the public utilities commission may be recalled by the electors. The procedure to effect such recall shall be as follows: A petition demanding the recall from office of the person sought to be recalled shall be filed with the registrar. Said petition shall contain a statement of the grounds on which the recall is sought. Any insufficiency of form or substance in such statement shall in no wise affect the validity of the election and proceedings held thereunder. No recall petition shall be filed against any officer until he has held his office for at least six months.

POLICE PENSONS.

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco, State of California, to amend the Charter of said city and county by amending Section 166 thereof, relating to Present Police Department Members.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at the special election to be held on the 2d day of May, 1935, a proposal to amend the Charter of said city and county; by amending Section 166 thereof, relating to Present Police Department Members.

Present Police Department Members

Section 166. Persons who are members of the Police Department on the 8th day of January, 1932, shall become members of the Retirement System on that date, subject to the following provisions in addition to the provisions contained in sections 158 to 163, both inclusive, of this charter:

(a) Any member of the department who has arrived or shall arrive at the age of sixty-two years, and who has completed thirty years of continuous service as an active member of the department next preceding his retirement, may retire from service at his option, provided that retirement shall be compulsory at the age of seventy years. Such retired member shall receive a monthly pension, payable throughout his life, equal to one-half of the amount of the monthly salary attached to the rank held by him three years prior to the date of his retirement, hereinafter referred to in this section and section 167 as a "pension."

Before the first payment of the pension is made, such retired member may elect to receive the actuarial equivalent of his pension, partly in a pension to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the Board of Supervisors to govern similar elections by other members of the retirement system, including the character and amount of such other benefits.

(b) Any member of the department who shall become physically disabled by reason of any bodily injury received in the performance of his duty, may be retired upon a monthly pension, as defined in subdivision (a), of this section, payable throughout his life. In case his disability shall cease, his pension shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

(c) The family of any member of the department who may be killed or injured while in the performance of his duties, and who shall have died within three (3) years from the date of such injury as a result of such injury, shall receive the following benefits and the receipt by such member of a
pension under this section during his lifetime shall not bar said family from such benefits: Widow.

First, should the decedent leave a widow to whom he was married prior to the date of the injury resulting in death, such widow shall, as long as she may live and remain unmarried, be paid a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury; provided, however, that should said widow die, leaving a child or children under the age of sixteen years, said pension shall continue to such child or such children collectively until the youngest child arrives at the age of sixteen years.

Second, should the decedent leave no widow, but leave an orphan child or children under the age of sixteen years, such child or children collectively shall receive a monthly pension equal to one-half of the salary attached to the rank held by their father at the time of his said injury until the youngest attains the age of sixteen years.

Third, should the decedent leave no widow and no orphan child or children, but leave a parent or parents depending solely upon him for support, such parents, so depending, shall collectively receive a monthly pension equal to one-half of the salary attached to the rank held by the decedent at the time of his said injury during such time as the retirement board may unanimously determine its necessity.

(d) A sum equal to the contributions, with interest, made by persons who become members of the retirement system under this section to any other pension fund shall be paid by the city and county to the retirement system. Each member of the department shall contribute two dollars ($2.00) per month to the retirement system to be applied on the cost of the benefits at death and retirement provided under this section. Should a member be separated from city service through any cause other than death or retirement, then such contributions with interest shall be refunded to him under such conditions as may be fixed by the Board of Supervisors for the refund of contributions of other members of the retirement system.

(e) When any member of the department shall die from natural causes and before retirement, there shall be paid to his estate or beneficiary a death benefit, the amount of which and the conditions for the payment of which shall be determined in the manner prescribed by the Board of Supervisors for the death benefit of other members of the retirement system.

(f) In addition to the other contributions required of the city and county under the retirement system, the city and county shall contribute to the retirement system during each fiscal year a sum which, together with the members’ contributions provided for in subdivision (d) of this section, shall be equal to the liabilities accruing under the retirement system because of the service rendered during such year by persons.
becoming members on the 8th day of January, 1932, under this section. If, subsequent to such fiscal year, it shall be determined that such contribution by the city and county, together with the members' contributions, was not sufficient to meet such liability, then the city and county shall make such additional contribution as may be necessary to make up the deficit.

(g) No benefits shall be provided under the retirement system for, nor shall any contribution be required of, persons who become members of the retirement system under this section, in addition to the benefits specifically provided and contributions specifically required in such section.

That portion of any pension payable because of the death or retirement of any of such persons which is provided by contributions of the city and county shall be reduced, in the manner fixed by the Board of Supervisors, by the amount of any benefits payable to or on account of such person, under the workmen's compensation insurance and safety law of the state of California.

(h) Persons who were members of the police department on the 8th day of January, 1932, shall have the option, to be exercised in writing on or before the first day of January, 1936, of becoming members of the retirement system under the provisions of section 168, which applies to persons who become members of the department after the 8th day of January, 1932. If such persons shall affirmatively exercise such option within the time specified, then on and after the first day of the month next following such affirmative action, referred to hereinafter in this subdivision (h) as "effective date," they shall not receive any benefit or make any contribution under this section, but on and after said effective date shall be members of the retirement system and shall receive benefits and make contributions on the same basis as persons who become members of the department after the 8th day of January, 1932, provided that a pension for each person affirmatively exercising such option shall be payable on account of service rendered to the city and county prior to said effective date, by such members' contributions made prior to said effective date, with interest, and by contributions of the city and county, which pension shall be the same percentage, regardless of the age of retirement, of his final compensation, as defined by the board of supervisors, for each year of such service, as the contributions of the member and the city and county are calculated to provide upon retirement at age sixty-two for each year of service rendered as a member of the retirement system.

Assembly Joint Resolution No. 43—Relative to memorializing Congress to furnish aid in the construction of check dams in the Salinas River Valley.

[Filed with Secretary of State May 22, 1935.]

Whereas, The water level of the Salinas Valley is rapidly declining and the salt water is beginning to encroach inwardly from the ocean; and

Whereas, The cost of power is making it almost prohibitive for agricultural pursuits in the Salinas Valley, due to the low water level; and

Whereas, Erosion is taking place and the soils are rapidly being put in danger because of the lack of proper soil and water protection; and

Whereas, The people of Salinas Valley are aware of this and are desirous of having the Federal government remedy these defects to save the Salinas Valley for future generations to conduct agricultural pursuits and to continue to increase the inhabitation of the Salinas Valley; and

Whereas, The water for domestic use may soon be jeopardized if the population of the Salinas Valley increases: now, therefore, be it
Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States be urged to provide a Federal government survey and plan for the construction of check dams and a soil erosion prevention project; and be it further

Resolved, That the Congress be urged to take action in this regard immediately so that the water and soils of the Salinas Valley may be preserved for future generations that may inhabit the Salinas Valley; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby instructed forthwith to transmit copies of this resolution to the President of the United States, and to the President of the Senate, the Speaker of the House of Representatives, and to each of the Senators and Representatives from California in the Congress of the United States.

charter. It shall have such additional powers and perform such other duties as may be granted or imposed elsewhere in this charter, or by ordinance not in conflict with the provisions of this charter. No grant of power by this charter to this department of the city government shall be construed to restrict the power of the Council to enact ordinances under the police power of the city except as otherwise specifically provided in this charter.

1. To acquire, construct, operate, maintain, extend, manage, and control works and property for the purpose of supplying the city and its inhabitants with water and electric energy, gas, heat, sewers, transportation, telephone and telegraph service, or other systems of providing and distributing refrigerating means, materials and service, or any of them, and to acquire and take, by purchase, lease, condemnation, or otherwise, and to hold, in the name of the city, any and all property situated within or without the city, and within or without the State, that may be necessary or convenient for such purpose. To borrow money for any or all of such purposes on terms and conditions prescribed by said Board, said indebtedness to be payable only out of the revenue fund pertaining to the municipal works for or on account of which such indebtedness was created.

2. To regulate and control the use, sale, and distribution of water, electric energy, gas, transportation and any other utility owned or controlled by the city; the collection of rates therefor and the granting of permits for connection with said water or electric works or gas or transportation or sewer or other utilities; and to fix the rates to be charged for such connection; and subject to approval of the Council by ordinance or resolution, to fix by contract or otherwise and for a term deemed reasonable by the Board the rates charged for water or electric energy, or gas, or transportation or any other utility for use within or without the city and to prescribe the time and the manner of payment of the same; provided that, except as hereafter otherwise prescribed, such rates shall be of uniform operation as near as may be, and shall be fair and reasonable taking into consideration, among other things, the nature of the use, the quantity supplied, and the value of the service; provided further, that the rates inside the city may be less, but not greater, than the rates outside the city for the same or similar uses.
3. To supply and distribute, at rates fixed as hereinbefore provided, any surplus water or surplus electric energy or surplus gas or surplus of any other utility owned or controlled; and subject to the approval of the Council by ordinance, to fix by contract or otherwise the rates to be charged for public utilities for use within the city, and to prescribe the time and the manner of the same.

4. In the discretion of the Board, to divide the work of the department into as many bureaus as the number of public utilities it controls, and to discontinue such bureaus and to consolidate the work of any such. In case such division is made the General Manager, subject to confirmation by the Board, shall have the power to appoint a manager for each such bureau, who shall operate under and shall be subject to the supervision and direction of the General Manager for the entire department. Each such manager shall be directly responsible to the General Manager and shall have such powers and duties as shall from time to time be conferred in by the General Manager.

5. In the event that all or any portion of a utility is acquired by the Department of Public Utilities under a contract providing for the payment in whole or in part of the purchase price thereof out of revenues to be obtained from said utility, then, at its option, to appoint an agent, corporate or individual, to have charge of and to manage the said utility, so far as may be permitted by law, pending the time that the revenues of the utility shall pay the full purchase price thereof. In the event of the appointment of such agent by contract, the provisions of sections affecting the powers and duties of the manager and of the manager of such utility, shall be suspended as to such utility during the term of such contract.

6. To sue and be sued, and to require the services of the City Attorney in all cases to which the Board or Department is a party, provided, that the Board may employ other attorneys to assist the City Attorney therein, with the latter’s written approval.

7. To lease, for a term not exceeding five years, any or all of the lands under its control for agricultural or other purposes, which shall not conflict with the beneficial uses of said lands by the city for the purposes for which they are held by the Board, and except as otherwise provided in this Charter, to sell, from time to time, such personal property, placed under its control, as shall not be longer necessary or suitable for the use of such department. The Board shall have the right, in conjunction with the joint use of pipe lines, poles, or pole facilities, with other utilities owning and maintaining pipe lines, poles or pole facilities, to buy, sell or lease fractional interests in pipe lines, poles or pole facilities owned or controlled by said other utilities or by said Board. No real property nor any rights or interests in real property held by said Board shall be sold, leased, or otherwise disposed of, or
in any manner withdrawn from its control, save as above provided, unless by written instrument duly authorized by ordinance of the city and a resolution of the Board, and duly executed by the city and the Board.

No water or water rights nor any of the following property now or hereafter owned or controlled by the city, to-wit: gas, electric energy, or the right to develop electric or other power by means of any water or water right now or hereafter owned or controlled by the city, shall ever be sold, leased or disposed of, in whole or in part, without the assent of two-thirds of the qualified voters of the city voting on the proposition at a general or special election, at which such proposition shall be lawfully submitted, and no water shall ever be sold, supplied or distributed to any person or corporation, other than municipal, for resale, rental or disposal to consumers or other persons. Neither shall any electric power or gas ever be sold, supplied or distributed to any person or corporation other than municipal for resale, rental or disposal to consumers or other persons without the assent of two-thirds of the qualified voters of said city given, as aforesaid; provided, that nothing in this section contained shall be construed to prevent the ordinary sale and distribution by the city of water, gas and electric energy to its inhabitants for their own use, or to prevent the supplying or distribution by the city of surplus electric energy or gas to consumers or municipal corporations outside of the city, as elsewhere in this charter provided.

8. To control, and order, except as otherwise in this charter provided, the expenditure of all money received from the sale or use of water, or from any other source in connection with the operation of said water works, and all money received from the sale or use of electric energy or from any other source in connection with the operation of said electric works, and all money received from the sale or use of gas or of transportation or of any other public utility, or from any other source in connection with the operation of any of said public utilities; provided that all money pertaining to each of said utilities shall be deposited in the city treasury to the credit of a special fund created for each of said utilities; and the money so deposited in each special fund shall be kept separate and apart from other money of the city and shall be drawn only from said fund upon demands authenticated by signature of the City Auditor. Any interest or increment received on the money in any such special fund shall be paid into such special fund and become a part thereof.

Section 53. None of the money in or belonging to any of said special revenue funds shall be appropriated or used for any purpose except the following purposes pertaining to the municipal works from or on account of which such money was received, to-wit:

1. For the necessary expenses of operating and maintaining such works.
2. For the payment of the principal and interest or either due or coming due under contract or upon outstanding notes, certificates or other evidence of indebtedness issued against revenue of such works, or bonds or other evidences of indebtedness, general or district, heretofore or hereafter issued for the purpose of such works or parts thereof.

3. For the necessary expenses of constructing, extending and improving such works, including the purchase of lands, water rights and other property; also the necessary expenses of conducting and extending the business of the department pertaining to such work; also for reimbursement to another bureau on account of services rendered, or material supplies, or equipment furnished; also for expenditures for the purpose for which bonds, or evidences of indebtedness shall have been authorized, subject to reimbursement as soon as practicable from monies derived from the sale or issuance of such bonds or evidences of indebtedness.

4. For establishing and maintaining a reserve fund to insure the payment at maturity of the principal and interest on all bonds and all other contract obligations now outstanding or hereafter issued or made for the purchase of municipal works and such other reserve funds pertaining to such works as the Board may provide for by resolution subject to approval of the Council by ordinance. The money set aside and placed in such fund or funds so created shall remain in said fund or funds until expended for the purposes thereof, and shall not be transferred to any other fund of the city. Any interest or increment received on the money in any such special fund shall be paid into such special fund and becomes a part thereof.

5. Any balance may be appropriated for use in any ensuing fiscal year or years, or be transferred to the general fund of the city with the consent of the Board of Public Utilities, and not otherwise.

Section 53a. The Board may provide for the cost of acquisition of a public utility and/or extensions and/or betterments of said public utility from funds derived from the sale of bonds, general or district, and/or from revenues received from said works to which such acquisition, extensions and betterments pertain, and/or from the proceeds of loans contracted in accordance with the provisions of this charter.

Whenever in the exercise of such power to provide for the cost of acquisition of a public utility and/or extensions and/or betterments from such revenues, the Board may deem it advisable to make any such acquisition, extension or betterment which cannot be provided for out of the appropriations for a single fiscal year, it may at any time adopt a special budget and make special appropriations therefor specifying the amount of such appropriation for each fiscal year during which the cost of such acquisition, extension or betterment is expected to be paid, and when such special budget is so adopted said Board may incur financial obligations and make expenditures as authorized thereby; provided that no such special
appropriation for a future fiscal year shall be made unless, on
report of the manager, it shall find that the reasonably
expected revenues of such works in each fiscal year for which
such appropriation is made will be amply sufficient to permit of
the making of such appropriation in addition to the following:

1. Appropriations to cover the necessary expenses of operat-
ing and maintaining such works, and such payments of prin-
cipal and interest on outstanding bonds, as, under the provi-
sions of this charter, and findings or resolutions provided
for therein, said Board is required to apportion and set apart;

2. Appropriations to cover all sums coming due in said
year for principal and interest upon notes, certificates or other
evidences of indebtedness issued under the provisions of this
Charter.

3. Appropriations to cover all appropriations made by any
prior special budget; and

4. Appropriations to cover all other reasonably anticipated
expenses for said year.

Any such special budget shall be subject to modification or
extension upon like report and finding. It shall be the duty of
the Board in adopting the annual departmental budget for
each fiscal year to include therein appropriations for each item
for which an appropriation for that year has been made by any
such special budget.

Section 53b. The Board shall each year apportion and set
apart out of the revenue fund in the City Treasury pertaining
to each such municipal works an amount or amounts sufficient
to pay at maturity all sums coming due in said year for prin-
cipal and interest, upon all outstanding general bonds, and/or
other obligations issued for the purposes of the works, to which
such revenue fund pertains, and also all sums coming due in
said year for principal and interest upon all outstanding dis-
trict bonds, issued for such purposes, or such part of the last
mentioned sums as can be paid from moneys in said fund not
appropriated to other purposes and the Board finds are not
required to meet outstanding obligations or liabilities payable
out of said fund, including the principal and interest of
general bonds, and/or other obligations; and said amounts shall
be transferred forthwith into a special fund in the City Treas-
ury, to be designated by name indicating the nature or pur-
pose of such special fund, and the money in such special fund
shall be subject to apportionment by the Auditor as may be
required to make such payments on the principal and interest
of said bonds and/or other obligations, and for no other pur-
pose. Any interest or increment received on the money in
any such special fund shall be paid into such special fund and
become a part thereof. The foregoing provisions of this sec-
tion shall apply to all such bonds now outstanding or hereafter
issued; except as in this section provided said Board may, in
its discretion, apply the moneys in such revenue funds to such
purposes permitted by this charter, and in such order and such
amounts, as in the exercise of such discretion it shall deter-
mine. Balances remaining unexpended in said revenue funds, and all sums receivable into said fund from unpaid bills of consumers and other similar sources at the close of any fiscal year, shall be available for appropriations for, and expenditures in, succeeding fiscal years in like manner and for like purposes as revenues received during such succeeding years. The Board shall appoint and shall have the power to remove the General Manager who shall be the chief administrative officer. The City Manager may be appointed General Manager.

Section 53e. Subject to the provisions of this charter, the rules of the department and the instructions of his Board, said General Manager shall have the power and duty:

1. To administer the affairs of the department as its chief administrative officer;
2. To appoint, discharge, suspend, or transfer the employees of the department, other than the secretary of the Board and the chief accounting employee of the department, and to issue instructions to said employees, other than the secretary and the chief accounting employee, in the line of their duties.
3. To expend the funds of the department in accordance with the provisions of the budget appropriations or of appropriations made subsequent to the budget.
4. To recommend to the Board prior to the beginning of each fiscal year an annual departmental budget covering the anticipated revenues and expenditures of the department, conforming so far as practicable to the forms and dates provided in this charter in relation to the general city budget.
5. To certify all expenditures of the department to the chief accounting employee.
6. To exercise such further powers in the administration of the department as may be conferred upon him by the Board.

Section 53d. The General Manager, at least, once a month shall file with the Board a written report on the work of the department.

Section 53e. The Board shall provide suitable quarters, equipment and supplies for the department. It shall create the necessary positions in said department, authorize the necessary deputies, assistants and employees and fix their salaries and duties, and fix the salary of the General Manager, and may require bonds of any or all such employees for the faithful performance of their duties.

Section 54. Whenever in this charter provision is made for the discharge of specific duties by a specific appointee, the appointing power of such appointee may designate an employee or employees in the same department with full power to act in place of such appointee in case of his temporary absence or other inability to act; and in other cases upon the written request of such appointee.

Section 55. The Board shall prior to the beginning of each fiscal year adopt an annual departmental budget and make an annual departmental budget appropriation covering the anticipated revenues and expenditures of said department. Such
budget shall conform as far as practicable to the forms and times provided in this charter for the general city budget. Such budget shall contain a sum to be known as the "Unappropriated balance," which sum shall be available for appropriation by the Board later in the ensuing fiscal year to meet contingencies as they may arise. A copy of such budget, when adopted, and of every resolution subsequently adopted making appropriation from said unappropriated balance, shall promptly be filed with the city council and Auditor. No expenditure shall be made or financial obligations incurred by such department except as authorized by the annual departmental budget appropriation, or appropriations made subsequent to said annual budget, or as otherwise provided in this charter. Provided, however, and anything contained in this charter to the contrary notwithstanding, the Board shall have power at any time, to pledge said unappropriated balance, or to contract with reference thereto, for any of the purposes set forth in this charter.

Section 55a. No money shall be drawn from any fund under the control of such department, except upon warrants authenticated by the signature of the Auditor, who shall be directly appointed by the Board and shall be directly responsible to it in the discharge of his duties. The Board by resolution may authorize a temporary substitution in the case of the absence or inability to act of the person whose signature is herein required.

Section 56. Any action by said department authorizing the acquisition or sale of real property, approving of contracts which obligate the city for a longer period of time than one year, or which involves values in excess of two thousand dollars ($2,000.00), or which involves a rule of general application to be followed by the public, shall be taken by the Board by order or resolution. Every order or resolution adopting a rule of general application to be followed by the public shall be published once in a daily newspaper and shall take effect upon such publication.

Section 56a. 1. The Board is hereby authorized to borrow money from the Federal Government or the State Government, or any duly authorized agency created by either of said Governments and acting therefor, to defray the expenses of construction work in the Department.

The principal and interest of such borrowed money shall be paid from the revenue fund pertaining to the municipal works for or on account of which such indebtedness was created, and the principal shall be repaid in not more than forty (40) years but no payments of principal need be required during the first three (3) years following the date of any such loan.

2. The Board is hereby authorized to make contracts providing for expenditure or incurring financial obligations to be paid in whole or in part in succeeding fiscal years, for or on account of the acquisition of any public utility, and of extensions and improvements of the works under the control of said
Department, all payments under said contracts to be made out of the revenue fund pertaining to the municipal works for or on account of which such indebtedness was created.

CHAPTER 101.

Assembly Constitutional Amendment No. 58—A resolution to propose to the people of the State of California an amendment to the Constitution of said State by amending section 8 of Article XI thereof, relating to the preparation and adoption of charters by cities, and cities and counties.

[Filed with Secretary of State May 29, 1935.]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its fifty-first regular session commencing on the seventh day of January, 1935, two-thirds of the members elected to each of the two houses voting in favor therefor, hereby proposes to the people of the State of California that section 8 of Article XI of the Constitution of the State of California be amended to read as follows:

Sec. 8. (a) Any city or city and county containing a population of more than three thousand five hundred inhabitants, as ascertained by the last preceding census taken under the authority of the Congress of the United States or of the Legislature of California, may frame a charter for its own government, consistent with and subject to this Constitution; and any city or city and county having adopted a charter may adopt a new one. Any such charter may be framed by a board of fifteen freeholders chosen by the electors of such city or city and county, at any general or special election, but no person shall be eligible as a candidate for such board unless he shall have been, for the five years next preceding, an elector of said city or city and county. An election for choosing freeholders may be called by a two-thirds vote of the legislative body of such city or city and county, and on presentation of a petition signed by not less than fifteen per cent of the registered electors of such city or city and county, the legislative body shall call such election at any time not less than thirty nor more than sixty days from date of the
filing of the petition. Any such petition shall be verified by the authority having charge of the registration records of such city or city and county and the expenses of such verification shall be provided by the legislative body thereof.

(b) Candidates for the office of freeholders shall be nominated either in such manner as may be provided for the nomination of officers of the municipal or city and county government or by petition, substantially in the same manner as may be provided by general laws for the nomination by petition of electors of candidates for public offices to be voted for at general elections.

(c) At such election the electors shall vote first on the question "Shall a board of freeholders be elected to frame a proposed new charter?" and secondly for the candidates of the office of freeholder. If the first question receives a majority of votes of the qualified voters voting thereon at such election, the fifteen candidates for the office of freeholder receiving the highest number of votes shall forthwith organize as a board of freeholders, but if the first question receives less than a majority of the votes of the qualified voters voting thereon at such election no board of freeholders shall be deemed to have been elected.

(d) The board of freeholders shall, within one year after the result of the election is declared, prepare and propose a charter for the government of such city or city and county. The charter so prepared shall be signed by a majority of the board of freeholders and filed in the office of the clerk of the legislative body of said city or city and county. The legislative body of said city or city and county shall, within fifteen days after such filing, cause such charter to be published once in the official newspaper of said city or city and county and each edition thereof, during the day of publication (or in case there be no such official newspaper, in a newspaper of general circulation within such city or city and county and all the editions thereof issued during the day of publication) and in any city or city and county with over 50,000 population shall cause copies of such charter to be printed in convenient pamphlet form and in type of not less than ten point and shall cause copies thereof to be mailed to each of the qualified electors of such city or city and county, and shall, until the day fixed for the election upon such charter, advertise in one or more newspapers of general circulation in said city or city and county a notice that copies thereof may be had upon application therefor.

(e) Such charter shall be submitted to the electors of such city or city and county at a date to be fixed by the board of freeholders, before such filing and designated on such charter, either at a special election held not less than sixty days from the completion of the publication of such charter as above provided, or at the general election next following the expiration of said sixty days.
(f) As an alternative, the legislative body of any such city or city and county, on its own motion may frame or cause to be framed, a proposed charter and submit the proposal for its adoption to the electors at either a special election called for that purpose or at any general or special election. Any charter so submitted shall be advertised in the same manner as herein provided for the advertisement of a charter proposed by a board of freeholders, and the election thereon held at a date to be fixed by the legislative body of such city or city and county, not less than forty nor more than sixty days after the completion of the advertising in the official paper.

(g) If a majority of the qualified voters voting thereon at such general or special election shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be submitted to the Legislature, if then in session, or at the next regular or special session of the Legislature. The Legislature shall by concurrent resolution approve or reject such charter as a whole, without power of alteration or amendment; and if approved by a majority of the members elected to each house it shall become the organic law of such city or city and county and supersede any existing charter and all laws inconsistent therewith. One copy of the charter so ratified and approved shall be filed with the Secretary of State, one with the recorder in the county in which such city is located, and one in the archives of the city, and in the case of a city and county one copy shall be filed with the recorder thereof, and one in the archives of such city and county; and thereafter the courts shall take judicial notice of the provisions of such charter.

(h) The charter of any city or city and county may be amended by proposals therefor submitted by the legislative body thereof on its own motion or on petition signed by fifteen per cent of the registered electors, or both. Such proposals shall be submitted to the electors at either a special election called for that purpose or at any general or special election. Petitions for the submission of any amendment shall be filed with the legislative body of the city or city and county not less than sixty days prior to the general election next preceding a regular session of the Legislature. The signatures on such petitions shall be verified by the authority having charge of the registration records of such city or city and county, and the expenses of such verification shall be provided by the legislative body thereof. If such petitions have a sufficient number of signatures the legislative body of the city or city and county shall so submit the amendment or amendments so proposed to the electors. Amendments proposed by the legislative body and amendments proposed by petition of the electors may be submitted at the same election. The amendments so submitted shall be advertised in the same manner as herein provided for the advertise-
went of a proposed charter, and the election thereon, held at a
date to be fixed by the legislative body of such city
or city and county, not less than forty, and not more than sixty,
days after the completion of the advertising in the official
paper.

(i) If a majority of the qualified voters voting on any such
amendment vote in favor thereof, it shall be deemed ratified,
and shall be submitted to the Legislature if then in session, or
at the regular or special session next following such election;
and approved or rejected without power of alteration in the
same manner as herein provided for the approval or rejection of
a charter.

(j) In submitting any such charter or amendment separate
propositions, whether alternative or conflicting, or one included
within the other, may be submitted at the same time to be
voted on by the electors separately, and, as between those so
related, if more than one receive a majority of the votes, the
proposition receiving the largest number of votes shall con-
trol as to all matters in conflict. It shall be competent in any
charter framed under the authority of this section to provide
that the municipality governed thereunder may make and
enforce all laws and regulations in respect to municipal
affairs, subject only to the restrictions and limitations
provided in their several charters and in respect to other mat-
ters they shall be subject to general laws. It shall be competent
in any charter to provide for the division of the city
or city and county governed thereby; into boroughs or districts,
and to provide that each such borough or district may exercise
such general or special municipal powers, and to be
administered in such manner, as may be provided for each
such borough or district in the charter of the city or city
and county.

(k) The percentages of the registered electors herein
required for the election of freeholders or the submission of
amendments to charters shall be calculated upon the total vote
cast in the city or city and county at the last pre-
ceding general State election; and the qualified electors shall
be those whose names appear upon the registration records of
the same or preceding year. The election laws of such city,
or city and county shall, so far as applicable, govern all
elections held under the authority of this section.

Sec. 18a. Anything in this Constitution to the contrary notwithstanding, the county of Los Angeles may, upon the assent of two-thirds of the qualified electors thereof voting at an election to be held for that purpose, incur a bonded indebtedness of not to exceed five million dollars and the legislative authority of said county of Los Angeles shall issue bonds therefor and grant and turn over to the Pacific Exposition, a corporation duly organized under the laws of the State of California, January 22d, 1935, the proceeds of said bonds under such terms and conditions as said legislative authority may determine, the same to be used and disbursed by said exposition company for the purpose of an exposition to be held in the county of Los Angeles to commemorate the completion of Boulder Dam and the power and water developments and projects thereof; said bonds, so issued, to be of such form and to be redeemable, registered and converted in such manner and amounts, and at such times not later than forty years from the date of their issue, as the legislative authority of said county of Los Angeles shall determine; the interest on said bonds not to exceed six per centum per annum and said bonds to be exempt from all taxes for State, county and municipal purposes, and to be sold for not less than par at such times and places, and in such manner, as shall be determined by such legislative authority; the proceeds of said bonds when so'd to be payable immediately upon such terms or conditions as such legislative body may determine, to said exposition company upon demands of said exposition company without the necessity of the approval of such demands by other authority than said legislative authority of Los Angeles County, the same to be used and disbursed by said exposition company for the purposes of such exposition under the direction and control of said exposition company; and the
legislative authority of said county of Los Angeles is hereby empowered and directed to levy a special tax on all taxable property in said county, each year after the issue of said bonds, to raise an amount to pay the interest on said bonds as the same become due, and to create a sinking fund to pay the principal thereof when the same shall become due.

Senate Joint Resolution No. 21—Relative to exemption from taxation of bonds issued by governmental agencies and memorializing the President and Congress of the United States to take immediate steps for the termination of the exemption of such securities from taxation.

[Filed with Secretary of State June 6, 1935]

WHEREAS, Such securities are owned and held by a very small percentage of the population of the country and there results a great and most unjust disproportion in the bearing of the cost of government as between the owners and holders of various types and classes of property; and

WHEREAS, It is a fundamental principle of government that one group or class should not be favored as are the owners of these tax exempt securities, and all persons enjoying the order and protection which government affords should share fairly equally and equitably in bearing the cost of government; now, therefore, be it

Resolved by the Senate and Assembly of the State of California jointly, That the Legislature of this State hereby memorialize the President and Congress of the United States to consider and enact such legislation and to propose such amendment or amendments to the Constitution of the United States as may be found suitable and appropriate effectively to prevent the further exemption from taxation of any and all bonds and other evidences of indebtedness issued by the Federal, State and local governments, to the fullest extent that the President and the Congress may have power so to do, and that the members of the Senate and of the House of Representatives from California are hereby urged and requested to use all honorable means in furtherance of the consideration and enactment of such legislation; and be it further

Resolved, That copies of this resolution be forthwith transmitted to the President of the United States, the President of the Senate, the Speaker of the House of Representatives and the members of the House and Senate from the State of California.
Assembly Constitutional Amendment No. 3—A resolution to propose to the people of the State of California an amendment to section 7 3/2a of Article XI of the Constitution of the State of California, relating to local government.

[Filed with Secretary of State June 6, 1935.]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its fifty-first regular session commencing on the seventh day of January, 1935, two-thirds of the members elected to each of the two houses voting in favor therefor, hereby proposes to the people of the State of California that section 7 3/2a of Article XI of the Constitution of the State of California be amended to read as follows:

Sec. 7 3/2a. Any county having within its territorial boundaries one or more incorporated cities or towns, may frame a charter for a consolidated city and county government, by causing a board of fifteen freeholders, who have been for at least five years qualified electors of the county, to be elected by the qualified electors of said county, at a special election. Said board of freeholders may be so elected in pursuance of an ordinance adopted by the vote of three-fifths of all of the members of the board of supervisors of such county, declaring that public interest requires the election of such board of freeholders for the purpose of preparing and proposing a charter for a consolidated city and county, with or without a system of boroughs, with combined powers of a city and a county, as in this Constitution provided for city and county government; or in pursuance of a petition of qualified electors of said county as hereinafter provided; which said petition must state the name and address of a person or persons to whom notice of the insufficiency of the petition shall be sent in the event that the petition shall not have the required number of signatures of the qualified electors signed thereto. Such petition, signed by fifteen per centum of the qualified electors of said county, computed upon the total number of votes cast therein for all candidates for Governor at the last preceding general election at which a Governor was elected, praying for the election of a board of fifteen freeholders to prepare and propose a charter for a consolidated city and county government, with or without a system of boroughs, with combined powers of a city and a county, as in this Constitution provided, may be filed in the office of the county clerk. It shall be the duty of the said county clerk, within twenty days after the filing of said petition, to examine the same, and to ascertain from the record of the registration of the electors of the county, whether said petition is signed by the requisite number of qualified electors. If required by said clerk, the board of supervisors shall authorize him to employ persons to assist him in the work of examining such petition,
and the board shall provide for their compensation. Upon the completion of such examination, said clerk shall forthwith attach to said petition his certificate, properly dated, showing the results of his examination, and if, by said certificate, it shall appear that said petition is signed by the requisite number of qualified electors, said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at its next regular meeting after the date of such certificate. If it appear by said certificate that said petition has not the required number of signatures of the qualified electors signed thereto, the said clerk shall so notify the person or persons whose name or names are mentioned therein, to whom the notification of the insufficiency of the petition shall be sent. Whereupon the petitioners shall have thirty days from and after the date of receiving the notice of insufficiency from the clerk, to present and file additional signatures. Upon the receipt of the additional signatures, the clerk shall proceed forthwith to examine the petition of additional signatures, so that such examination shall be completed within ten days from the date of his receiving same. If it appear that the number of additional signatures added to those who have not been legally rejected upon the original petition, shall total the requisite number of qualified electors necessary as provided in this section, the clerk shall forthwith attach to said petition his certificate, properly dated, showing that said petition has been signed by the requisite number of qualified electors, and said clerk shall immediately present said petition to the board of supervisors, if it be in session, otherwise at the next regular meeting after the date of such certificate. Upon the adoption of such ordinance, or the presentation of such petition, said board of supervisors shall order the holding of a special election for the purpose of electing such board of freeholders, which said special election shall be held not less than forty days nor more than ninety days after the adoption of the ordinance aforesaid or the presentation of said petition to said board of supervisors. Candidates for election as members of said board of freeholders shall be nominated by petition, substantially in the same manner as may be provided by general law for the nomination, by petition of electors, of candidates for county offices, to be voted at general elections. The election shall be conducted and the ballots canvassed and result declared substantially as are other elections for county officers, except that there shall be only one election, and the fifteen persons receiving the highest vote shall be declared the duly elected board of freeholders. All ties shall be broken by lot. It shall be the duty of said board of freeholders within one hundred eighty days after the result of such election shall have been declared by the board of supervisors, to prepare and propose a charter for a consolidated city and county government, and it shall prescribe the existing boundary lines of the county as the territorial limits of said proposed city and county, and propose the formation of all of the incorporated
cities and towns and all of the unincorporated territory within the county into a consolidated city and county government, to be governed by said charter, and to have combined powers of a city and a county, as provided in this constitution for consolidated city and county government.

The charter proposed shall be signed by the members of the board of freeholders, or a majority of them, and be filed, one copy in the office of the county recorder, one in the office of the county clerk, and certified copies thereof duly attested by the president and secretary of the board of freeholders shall be filed in the clerk's office of each incorporated city and town in the county. Thereupon the board of supervisors shall cause said proposed charter to be published in at least two daily newspapers of general circulation published, printed and circulated in the county, if there be two, or in the one such newspaper if there be but one, or if there be no such newspaper then in a daily newspaper of general circulation in the county, for at least six consecutive times, and shall also cause said proposed charter to be published for at least three consecutive times in a daily newspaper of general circulation, printed, published and circulated in each of the incorporated cities and towns within the county, and if there be no daily newspaper printed, published and circulated in any of such incorporated cities and towns then, once in a weekly newspaper published, printed and circulated therein; provided, however, if there be no daily or weekly newspaper published, printed and circulated in any of such incorporated cities or towns, then said publication shall be made by posting in three public places in each of said incorporated cities or towns having no such newspaper, for at least three days. All of such publication shall be completed within fifty days of the filing of the proposed charter with the county clerk. The board of supervisors shall cause to be printed in pamphlet form, at least as many copies of such proposed charter, plus an additional fifteen per cent, as there are registered electors in the county. The county clerk shall forthwith deliver to the clerk of the legislative body of each and every incorporated city or town within the county, a number of the printed copies of the proposed charter, equal at least to the number of registered electors residing in any such incorporated city or town. The county clerk shall thereupon give notice, by advertising in one and not more than two daily newspapers of general circulation published, printed and circulated in the county, or if there be no such newspaper, then in a daily newspaper of general circulation in the county, and if there be a newspaper published, printed and circulated in any of such incorporated cities and towns, in one such newspaper of each said city or town, that copies of the proposed charter can be had at his office or at the office of the several city or town clerks, designating them, upon application. Upon the completion of the publication of the proposed charter as above required, and not later than fifteen days thereafter, the board of supervisors
must pass an ordinance or resolution calling a special election to be held not less than thirty nor more than sixty days thereafter or if there be a general election held within ninety days thereafter then at such general election.

If a majority of the qualified electors voting thereon in the unincorporated territory of the county, and in each incorporated city and town in the county, at such special or general election, shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be forthwith submitted to the Legislature, if it be in session, otherwise at its next regular or special session, for its approval or rejection as a whole, without power of alteration or amendment. Such approval may be by concurrent resolution, and if approved by a majority vote of the members elected to each house, such charter shall become the charter of such consolidated city and county and shall become the organic law thereof relative to matters therein provided, and shall supersede any existing municipal charter of the cities within the county and all amendments thereof, and shall supersede all laws inconsistent with such charter relative to matters provided in such charter. No consolidation shall take place under the provisions of this section unless a majority of the qualified electors voting thereon in every incorporated city and town in the county and in the unincorporated territory thereof, vote in favor of such consolidation, and the votes cast in each city and town and in the unincorporated territory, shall accordingly be separately tabulated to show the results.

It shall be competent, in any charter, or amendment thereof, framed under the authority given by this section, to provide in addition to those provisions allowable by the Constitution and laws of the State as follows:

1. For the merging and consolidating the cities and county into one municipal government with one set of officers, which shall include those officers required to be provided for in a county charter; for the establishment of a borough system of government for the whole or any part of the territory of said city and county, by which one or more districts may be created therein, which districts may be known as boroughs and shall exercise such municipal powers as may be granted by such charter, and for the organization, constitution, regulation, government and jurisdiction of such boroughs, which organization, constitution, regulation, government and jurisdiction may provide for rural districts, with different powers and organization, constitution, regulation, government and jurisdiction from other boroughs; provided, that in the event of such establishment or creation of a borough or boroughs, as hereinabove permitted, the boundaries thereof shall never afterwards be changed or altered, nor shall the governmental rights, powers or jurisdiction of any such borough or boroughs be thereafter limited, extended, modified or taken away, unless and until the borough or boroughs affected by such proposed change or alter-
ation of boundaries, or by the proposed limitation, extension, modification or taking away of governmental rights, powers or jurisdiction, as the case may be, shall each have consented thereto, by the vote of a majority of the electors in each and every such borough voting at an election or elections called and held for such purpose in each of the boroughs so affected.

2. For the consolidation and merging of school and high school and union high school districts into one or more school, high school and union high school districts within the city and county, to be governed by one board of education and one school superintendent, and may provide separate organization, constitution, regulation, government and jurisdiction and powers for rural school districts, if any are established.

3. For the manner in which, the times at which, and the terms for which the members of the board of education or boards shall be elected or appointed, for the qualifications, compensation and removal, and for the number which shall constitute any one of such boards.

4. For the manner in which, the times at which, and the terms for which the members of the board or boards of police commissioners, if any, shall be elected or appointed; and for the constitution, regulation, compensation, and government of such boards and of the city and county police force.

5. For the manner in which and the times at which any city and county election, or borough election shall be held and the result thereof determined; and for the manner in which, the times at which, and the terms for which the members of all boards of election shall be elected or appointed, and for the constitution, regulation, compensation and government of such boards, and of their clerks and attachés, and for all expenses incident to the holding of any election.

6. It shall be competent in any charter framed in accordance with the provisions of this section, for any consolidated city and county, and plenary authority is hereby granted, subject only to the restrictions of this article, and, in regard to the powers and duties of officers performing county functions, subject to general law as to those functions to provide therein or by amendment thereto, for the powers and duties of all county, city and county, municipal and borough officers; for the manner in which, the method by which, and the terms for which the several county, city and county, municipal and borough officers, except judges and justices, shall be elected or appointed, and for their recall and removal, and for their compensation or the fixing thereof, including judges and justices of inferior courts, and for the number of deputies, clerks and other employees that each shall have, or the fixing thereof, and for or the fixing of the powers and duties, compensation, method of appointment, qualifications, tenure of office and removal of such deputies, clerks and other employees.

7. It shall be competent in any charter, or amendment thereto, framed in accordance with the provisions of this sec-
tion, to provide that the city and county may make and enforce all laws and regulations, and exercise all rights and powers in respect to municipal affairs and municipal officers, and shall have all powers and rights appropriate to a county, city, and city and county subject only to the restrictions and limitations provided in such charter.

Any charter framed under the provisions of this section, may provide for the termination of the tenure of office of all county officers elected after the adoption of such charter by the electors of such county and prior to the approval of such charter by the Legislature.

8. No property in any city or town or territory hereinafter consolidated into a city and county shall be taxed for the payment of any indebtedness outstanding at the time the charter takes effect and for the payment of which indebtedness the property in such city or town or territory was not, prior to the taking effect of such charter, subject to such taxation.

In all cases of consolidation of two or more incorporated cities and towns, or of one or more incorporated cities or towns with unincorporated territory, into a city and county, assumption of existing bonded indebtedness by such city or town or by such unincorporated territory or by any of the cities and towns so consolidating may be made by a majority of the qualified electors voting thereon in the territory or city or town which shall assume an existing bonded indebtedness, and the provisions of section 18 of this article shall not be a prohibition thereof.

The provisions of this Constitution applicable to cities, and cities and counties, and also applicable to counties, so far as not inconsistent or prohibited to cities or cities and counties, except in the method of procedure of calling elections for the election of freeholders and the submission of the question of the formation of a consolidated city and county, shall be applicable to such consolidated city and county.

Any charter framed under the provisions of this section may be amended as provided in section 8 of Article XI of this Constitution.

Nothing in this section shall be construed to repeal or alter in any way the provisions of section 8 1/2 of Article XI of this Constitution, providing a different method and procedure for the formation of cities and counties, wherein the initiative is taken by a city or city and county. Nor shall the provisions of this section apply to any consolidated city and county, organized as such at the time this section takes effect. The Legislature shall enact such general or special laws as may be necessary to carry out the provisions of this section, and such general or special laws as may be necessary to effect city and county consolidation hereunder.

The said qualified electors shall file with the city clerk a petition containing a general statement of the ground or grounds for which the recall of the official is sought. This petition shall be signed by each of the petitioners originating the recall, each signer adding to his signature his place of residence, giving street and number, and the date of signing. The city clerk shall file the petition, and shall cause the said petition with the signatures attached thereto to be published for three successive days in the official newspaper of the city, with notice therein that said petition is in the city clerk’s office open for signatures. The city clerk shall, during office hours for thirty days from the last day of publication aforesaid, keep the petition open for signatures by the qualified electors of the city, each signer to add to his signature his place of residence, giving street and number, and date of signature. No petition other than the originating petition shall be signed or presented for signature at any place other than the city clerk’s office, and must be verified by the city clerk or one of his deputies. At the expiration of said thirty days, the city clerk shall declare the petition closed for the purpose of examination, and within five days thereafter shall ascertain whether said petition is signed by qualified electors of the City of Long Beach equal to not less than twenty-five per cent of the entire votes cast at the last general municipal election; and the city clerk shall attach to the petition his certificate showing the result of such examination, stating the number of qualified voters found upon said petition, and the number of persons not qualified to vote, and in checking said petition the city clerk shall designate the names of persons found thereon not qualified to vote, with the letters “D. V.” in red ink opposite such name or names. If the petition is shown, by the city clerk’s certificate, to be insufficient, the city clerk shall at once notify the signers who originated the petition of recall of the deficiency, and five additional days, exclusive of the day of mailing, shall be allowed for the final completion of the recall petition. Notice herein required shall consist of depositing in the postoffice at Long Beach a letter, postage prepaid and registered, containing such notice, addressed to each signer originating the petition of recall at his address named in the originating petition. The city clerk shall within three days after the expiration of the additional five days allowed within which to complete the recall petition, make a like examination and check the names as hereinbefore provided, and if the city clerk’s certificate shall show the recall petition to be still insufficient, no further action shall be taken. The failure to secure sufficient names shall not prejudice the filing of an entirely new petition to the same effect by the same or other originating petitioners. If the petition shall be found to be sufficient, the city clerk shall submit the petition of recall, together with his certificate, to the city council without delay, whereupon the city council shall forthwith cause a special municipal election to be held not less than
thirty nor more than forty days after the date of the order calling such section, to determine whether the voters shall recall such officer. If the same ground or grounds are alleged, one petition shall be sufficient to propose the recall of one or more officials. Upon the same ballot there shall be printed, in not more than two hundred words, the ground or grounds set forth in the recall petition for demanding the recall of the officer or officers; and upon the same ballot in not more than two hundred words, the officer or officers may justify himself or themselves. There shall be printed on the recall ballot, as to every officer whose recall is to be voted on, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office (title of office)?", following which question shall be the words "Yes" and "No" on separate lines, with a blank space at the right of each, in which the voter shall, by stamping a cross (X) indicate his vote for or against such recall. If a majority of those voting on said question of the recall of any officer shall vote "No", said officer shall continue in office. If a majority of those voting on said question of the recall of any officer shall vote "Yes", said officer shall thereupon be deemed removed from such office, and the city council shall declare said office vacant, and shall immediately fill such vacancy by appointment, such appointee to hold office until the next general municipal election. An officer thus removed shall not be eligible to succeed himself."

That the foregoing is a full, true and correct copy of said proposed amendment to the charter of the City of Long Beach ratified by the electors of said city as aforesaid, on file in the office of the City Clerk of said City of Long Beach.

"Sec. 308. The holder of any elective office, or the city manager, in the City of Long Beach, may be recalled by the qualified electors of the City of Long Beach at any time after he has held office for six months. Not less than ten nor more than twenty-five qualified electors of the City of Long
Beach may originate a petition of recall in the following manner: The said qualified electors shall file with the city clerk a petition containing a general statement of the ground or grounds for which the recall of the official is sought. This petition shall be signed by each of the petitioners originating the recall, each signer adding to his signature his place of residence, giving street and number, and the date of signing. The city clerk shall file the petition, and shall cause the said petition with the signatures attached thereto to be published for three successive days in the official newspaper of the city, with notice therein that said petition is in the city clerk's office open for signatures. The city clerk shall, during office hours for thirty days from the last day of publication aforesaid, keep the petition open for signatures by the qualified electors of the city, each signer to add to his signature his place of residence, giving street and number, and date of signature. No petition other than the originating petition shall be signed or presented for signature at any place other than the city clerk's office, and must be verified by the city clerk or one of his deputies. At the expiration of said thirty days, the city clerk shall declare the petition closed for the purpose of examination, and within five days thereafter shall ascertain whether said petition is signed by qualified electors of the City of Long Beach equal to not less than twenty-five per cent of the entire votes cast at the last general municipal election; and the city clerk shall attach to the petition his certificate showing the result of such examination, stating the number of qualified voters found upon said petition, and the number of persons not qualified to vote, and in checking said petition the city clerk shall designate the names of persons found thereon not qualified to vote, with the letters "D V." in red ink opposite such name or names. If the petition is shown by the city clerk's certificate, to be insufficient, the city clerk shall at once notify the signers who originated the petition of recall of the deficiency, and five additional days, exclusive of the day of mailing, shall be allowed for the final completion of the recall petition. Notice herein required shall consist of depositing in the postoffice at Long Beach a letter, postage prepaid and registered, containing such notice, addressed to each signer originating the petition of recall at his address named in the originating petition. The city clerk shall within three days after the expiration of the additional five days allowed within which to complete the recall petition, make a like examination and check the names as hereinbefore provided, and if the city clerk's certificate shall show the recall petition to be still insufficient, no further action shall be taken. The failure to secure sufficient names shall not prejudice the filing of an entirely new petition to the same effect by the same or other originating petitioners. If the petition shall be found to be sufficient, the city clerk shall submit the petition of recall, together with his certificate, to the city council without delay, whereupon the city council shall forthwith
cause a special municipal election to be held not less than thirty nor more than forty days after the date of the order calling such election, to determine whether the voters shall recall such officer. If the same ground or grounds are alleged, one petition shall be sufficient to propose the recall of one or more officials. Upon the same ballot there shall be printed, in not more than two hundred words, the ground or grounds set forth in the recall petition for demanding the recall of the officer or officers; and upon the same ballot in not more than two hundred words, the officer or officers may justify himself or themselves. There shall be printed on the recall ballot, as to every officer whose recall is to be voted on, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office (title of office)?", following which question shall be the words "Yes" and "No" on separate lines, with a blank space at the right of each, in which the voter shall, by stamping a cross (X) indicate his vote for or against such recall. If a majority of those voting on said question of the recall of any officer shall vote "No", said officer shall continue in office. If a majority of those voting on said question of the recall of any officer shall vote "Yes", said officer shall thereupon be deemed removed from such office, and the city council shall declare said office vacant, and shall immediately fill such vacancy by appointment, such appointee to hold office until the next general municipal election. An officer thus removed shall not be eligible to succeed himself.

That the foregoing is a full, true and correct copy of said proposed amendment to the charter of the City of Long Beach ratified by the electors of said city as aforesaid, on file in the office of the City Clerk of said City of Long Beach.

IN WITNESS WHEREOF, Carl Fletcher, Mayor, as aforesaid, and E. L. Macdonald, City Clerk, as aforesaid, have hereunto set their hands and caused the corporate seal of the City of Long Beach to be thereunto duly affixed, on this 14th day of June, 1935.

The judgment of the District Courts of Appeal shall become final therein upon the expiration of fifteen days in criminal cases, or thirty days in all other cases, after the same shall have been pronounced. The concurrence of three justices present at the argument shall be necessary to pronounce a judgment; but if three justices so present do not concur in a judgment then all the justices qualified to sit in the cause shall hear the argument; but to render a judgment a concurrence of three justices shall be necessary; provided, however, that if less than the five justices shall sit at the argument of any cause and it be stipu-
lated that the absent justices may participate in the decision
then and in that event the concurrence of three justices shall
be sufficient to render a judgment irrespective of whether any
one or more of such justices was not present at the argu-
ment. In the determination of causes all decisions of the
court shall be given in writing and grounds of decision shall
be stated. In case of the absence of the chief justice from the
place at which the court is held, or his inability to act, the
associate justices shall select one of their own number to

during such absence or inability to act. Upon the adoption
by the people of this section the Governor shall forthwith

Court of Criminal Appeals shall be filled and successors to
such justices so first appointed shall be selected and elected.
including the right of any justice to succeed himself, in the
manner now provided by section 26 of Article VI of this

Salary
Appeals and the salaries of the associate justices of the Court
of Criminal Appeals shall at all times be the same as the
respective salaries of the chief justice and the associate justices
of the Supreme Court. Whenever any justice of the Court of
Criminal Appeals is for any reason disqualified or unable to
act in a cause pending before it, the remaining justices may
select one of the justices of a District Court of Appeal to act
pro tempore in the place of the justice so disqualified or unable
to act.

Sixth. A new section to be numbered 4e of Article VI is
hereby added to said Constitution to read as follows:
Sec. 4c. The said court shall also have power to issue, in aid of its appellate jurisdiction, writs of mandamus, certiorari, prohibition and habeas corpus and all other writs necessary or proper to the complete exercise of its appellate jurisdiction. Each of the justices shall have power to issue writs of habeas corpus to any part of the State, upon petition by or on behalf of any person held in actual custody pursuant to any writ, warrant, or process in a criminal case or action or for a violation of a criminal statute of this State, and may make such writs returnable before himself or the Court of Criminal Appeals or before any District Court of Appeal or before any judge thereof or before any superior court in the State or before any judge thereof. Said court shall have the power to adopt rules for the regulation of the procedure before said court and for the manner in which appeals may be taken and perfected to said court, provided that until the adoption of such rules appeals may be taken to said court in the same manner that appeals in criminal cases are now taken to the Supreme Court. In all matters arising under the provisions of section 1506 of the Penal Code where an appeal in habeas corpus proceedings is allowed to the Supreme Court or an application for hearing in the Supreme Court is allowed such appeal shall be taken to and such application for hearing shall be made in the Court of Criminal Appeals instead of said Supreme Court. The Court of Criminal Appeals shall hold regular sessions for the hearing of causes at the Capitol of the State, at the City and County of San Francisco, at the city of Los Angeles, and at the city of Fresno, the times to be fixed by an order of said court and special sessions at either of the above named places or at any other place in the State of California as the interest of justice may require at such times as may be prescribed by the justices thereof. The Court of Criminal Appeals shall be a court of record.

The Court of Criminal Appeals shall have appellate jurisdiction on appeal from the judgments of appellate departments of the superior courts in criminal cases where the validity of any law or statute of the State, or any municipal, county or city and county ordinance is directly involved and for a violation of which the case was originally instituted; provided, the validity of such law, statute or ordinance was raised before the appellate department of the superior court and further provided that on such appeal the Court of Criminal Appeals shall not determine any other question except the validity of such law, statute or ordinance.

It shall be the duty of the justices of the Court of Criminal Appeals to report to the Legislature at the opening of each regular session any conflicts between or inconsistencies in the
laws relating to crimes, the punishment of crimes, procedure or evidence in criminal cases, that has come to their attention, and also any proposed changes in such laws which, in their opinion, should be made in the interests of justice.

In any case where the defendant has been convicted of a crime which by law is divided into degrees or which has necessarily included within such crime one or more lesser or other crimes of which the defendant could have been convicted upon his trial the Court of Criminal Appeals, if no other reversible error appears in the record, and if it determines that the evidence was insufficient to justify the conviction and further determines that the evidence was sufficient to justify a conviction of said crime in a lesser degree or to justify a conviction of a lesser or other crime necessarily included within the one the defendant was convicted of committing and for which he could have been convicted upon his trial, may modify the judgment by reducing the conviction to such crime in a lesser degree or to such lesser or other crime. In such event, the judgment shall be affirmed as modified and no new trial shall be had of the cause.

Seventh. A new section to be numbered 4f of Article VI is hereby added to said Constitution to read as follows:

Sec. 4f. The salaries of the justices of the Court of Criminal Appeals shall be paid by the State at the times and in the manner that the salaries of the justices of the Supreme Court are paid.

the compensation of all such other officers and employees. All
salaries and expenses so fixed and incurred by the Supreme
Court or by the Court of Criminal Appeals or by any District
