[Submitted by initiative and approved by electors, November 7, 1944. In effect December 21, 1944. Amends Section 15 of Article XIII.]

Section 15. Out of the revenue from State taxes for which provision is made in this article, together with all other State revenues, there shall first be set apart the moneys to be applied by the State to the support of the public school system and the State university. The Legislature shall provide for the raising of revenue by any form of taxation not prohibited by this Constitution in amounts sufficient to meet the expenditures of this State not otherwise provided for and in amounts sufficient to apportion, and shall apportion, to each county or city and county of this State an amount equal to one hundred sixty-six and two-thirds per cent of the entire amount

required to be raised by each such county or city and county respectively under the provisions of Section 6 of Article IX of this Constitution for the support of the public day and evening elementary schools of the county or city and county and in addition, the entire amount required to be raised by each such county or city and county respectively under the provisions of Section 6 of Article IX of this Constitution for the support of the public day and evening secondary and technical schools of the county or city and county; provided, however, that all sums so apportioned shall be considered as though derived from county and city and county school taxes for the support of county and city and county government and not money provided by the State within the meaning of said section, nor shall any revenues so apportioned be regarded as appropriations from the funds of the State within the meaning of Section 34a of Article IV of this Constitution; and provided, further, that the provisions of this sentence as they read on May 1, 1944 shall remain operative to and including June 30, 1945 and no longer notwithstanding any other provisions of this Constitution to the contrary.

If the Legislature limits the amount of revenue which may be raised from taxes upon the real and personal property according to the value thereof in pursuance of its power so to do under Section 20 of Article XI of this Constitution, then the Legislature shall provide for the raising of revenue by any form of taxation not prohibited by this Constitution in amounts sufficient to apportion and shall apportion to each county and city and county an amount equal to the deficiency in the revenues thereof resulting from such limitation, as such deficiency shall be determined by law; provided, however, that no tax shall be levied by the Legislature in pursuance of this section upon property in proportion to the value thereof in excess of the limitation for which provision is made in Section 34a of Article IV of this Constitution with reference to taxes for State purposes on real and personal property and further provided that no taxes upon property in proportion to the value thereof shall be levied in pursuance of this section for the support of any county or city and county government.

No injunction or writ of mandate or other legal or equitable process shall ever issue in any suit, action or proceeding in any court against this State, or any officer thereof, to prevent or enjoin the collection of any tax levied under the provisions of this article; but after payment thereof action may be maintained to recover, with interest, in such manner as may be provided by law, any tax claimed to have been illegally collected.
