Initiative Measure

3. **Public Schools.** (Initiative constitutional amendment)

[Submitted by initiative and approved by electors, November 5, 1946. In effect December 23, 1946. Amends Section 6 of Article IX and Section 15 of Article XIII.]

Sec. 6. Each person, other than a substitute employee, employed by a school district as a teacher or in any other position requiring certification qualifications shall be paid a salary which shall be at the rate of an annual salary of not less than twenty-four hundred dollars (\$2,400) for a person serving full time, as defined by law.

The Public School System shall include all kindergarten schools, elementary schools, secondary schools, technical schools, and state colleges, established in accordance with law and, in addition, the school districts and the other agencies authorized to maintain them. No school or college or any other part of the Public School System shall be, directly or indirectly, transferred from the Public School System or placed under the jurisdiction of any authority other than one included within the Public School System.

The Legislature shall add to the State School Fund such other means from the revenues of the State as shall provide in said fund for apportionment in each fiscal year, an amount not less than one hundred and twenty dollars (\$120) per pupil in average daily attendance in the kindergarten schools, elementary schools, secondary schools, and technical schools in the Public School System during the next preceding fiscal year.

The entire State School Fund shall be apportioned in each fiscal year in such manner as the Legislature may provide, through the school districts and other agencies maintaining such schools, for the support of, and aid to, kindergarten schools, elementary schools, secondary schools, and technical schools except that there shall be apportioned to each school district in each fiscal year not less than ninety dollars (\$90) per

pupil in average daily attendance in the district during the next preceding fiscal year and except that the amount apportioned to each school district in each fiscal year shall be not less than twenty-four hundred dollars (\$2,400).

Solely with respect to any retirement system provided for in the charter of any county or city and county pursuant to the provisions of which the contributions of, and benefits to, certificated employees of a school district who are members of such system are based upon the proportion of the salaries of such certificated employees contributed by said county or city and county, all amounts apportioned to said county or city and county, or to school districts therein, pursuant to the provisions of this section shall be considered as though derived from county or city and county school taxes for the support of county and city and county government and not money provided by the State within the meaning of this section.

The Legislature shall provide for the levying annually by the governing body of each county, and city and county, of such school district taxes, at rates not in excess of the maximum rates of school district tax fixed or authorized by the Legislature, as will produce in each fiscal year such revenue for each school district as the governing board thereof shall determine is required in such fiscal year for the support of all schools and functions of said district authorized or required by law

The provisions of this section as they read on April 1, 1946, shall remain operative to and including June 30, 1947, and no longer, notwithstanding any provision of this Constitution to the contrary.

Sec. 15. Out of the revenue from state taxes for which provision is made in this article, together with all other state revenues, there shall first be set apart the moneys to be applied by the State to the support of the Public School System and the State University.

If the Legislature limits the amount of revenue which may be raised from taxes upon the real and personal property according to the value thereof in pursuance of its power so to do under Section 20 of Article XI of this Constitution, then the Legislature shall provide for the raising of revenue by any form of taxation not prohibited by this Constitution in amount sufficient to apportion and shall apportion to each county and city and county an amount equal to the deficiency in the revenues thereof resulting from such limitation, as such deficiency shall be determined by law; provided, however, that no tax shall be levied by the Legislature in pursuance of this section upon property in proportion to the value thereof in excess of the limitation for which provision is made in Section 34a of Article IV of this Constitution with reference to taxes for state purposes on real and personal property and further provided that no taxes upon property in proportion to the value thereof shall be levied in pursuance of this section for the support of any county or city and county government.

No injunction or writ of mandate or other legal or equitable process shall ever issue in any suit, action or proceeding in any court against this State, or any officer thereof, to prevent or enjoin the collection of any tax levied under the provisions of this article; but after payment thereof action may be maintained to recover, with interest, in such manner as may be provided by law, any tax claimed to have been illegally collected.

The provisions of this section as they read on April 1, 1946, shall remain operative to and including June 30, 1947, and no longer, notwithstanding any provision of this Constitution to the contrary.

Measures Defeated

Constitutional Amendments Submitted by Legislature

Number
on ballot

5. **Creation of Court for Tax Appeals.** (Statutes 1945, page 3165, resolution chapter 150)
13. **Allocation of Public School Funds.** (Statutes 1945, page 3145, resolution chapter 137)
