1410. The Attorney General shall, from time to time, commence actions on behalf of the State for the purpose of having it adjudged that title to unclaimed property to which the State has become entitled by escheat has vested in the State, and for the purpose of having it adjudged that property has been actually abandoned or that the owner thereof has died and there is no person entitled thereto and the same has escheated and vested in the State. Such actions shall be brought in the Superior Court for the County of Sacramento; except that if any real property covered by the petition is not situated in the County of Sacramento, an action respecting the real property shall be commenced in the superior court for the county in which such real property or any part thereof is situated. The Attorney General shall cause to be recorded in the office of the county recorder of the county in which the real property is situated, a notice of the pendency of the petition containing the names of the parties, and the object of the action and a description of the property in the county affected thereby.

From the time of filing such notice for record only, shall a purchaser or encumbrancer of the property affected thereby be deemed to have constructive notice of the pendency of the action, and only of the pendency against parties designated by their real names.

Such action shall be commenced by filing a petition. The provisions of Section 1420, relating to the facts to be set forth in the petition, joinder of parties and causes of action, and the provisions of Section 1423, relating to appearances and pleadings, shall be applicable to any proceeding had under this section.

Upon the filing of the petition, the court shall make an order requiring all persons interested in the property or estate to appear on a day not more than 90 days nor less than 60 days from the date of the order and show cause, if any they have, why title to the property should not vest in the State of California.

Service of process in such actions shall be made by delivery of a copy of the order, together with a copy of the petition, to each person who claims title to any property covered by the petition and who is known to the Attorney General or the Controller or who has theretofore filed in the office of the Controller a written request for such service of process, stating his name and address, including street number, or post-office box number, if any, and by publishing the order at least once a week for four consecutive weeks in a newspaper published in the county in which the action is filed, the last publication to be at least 10 days prior to the date set for the hearing.

Upon completion of the service of process, as provided in this section, the court shall have full and complete jurisdiction over the estate, the property, and the person of everyone having or claiming any interest in the property, and shall have full and complete jurisdiction to hear and determine the issues therein, and to render an appropriate judgment.

In addition to the foregoing publication of the order, a notice shall be given by publication, at least once a week for four successive weeks in a newspaper published in the county from which the property was forwarded to the State Treasury or is situated, of each estate and item of property from such county or situated in such county in excess of one thousand dollars ($1,000). Such notice shall state that a petition has been filed and an order made as hereinbefore provided and shall list each estate and item in excess of one thousand dollars ($1,000) and show the amount of the property, if money, or a description thereof, if other than money, and the name of the owner or claimant and his last known address. Any omission or defect in the giving of such additional notice shall not affect the jurisdiction of the court.

If it appears from the facts found or admitted that the State is entitled to the property or any part thereof mentioned in the petition, judgment shall be rendered that title to such property or part thereof, as the case may be, has vested in the State by escheat.

No costs of suit shall be allowed against any party in any action or proceeding had under this section.

SEC. 3. Section 1430 of the Code of Civil Procedure is amended to read:

Escheat

1430. Upon the expiration of five years after the date of entry of judgment in any proceeding had under this chapter, or upon the expiration of five years after completion of notice by publication in an escheat action taken under the provisions of Section 1415, the property covered by such proceeding or action is permanently escheated to the State; saving however to infants, and persons of unsound mind, the right to appear and claim such property as provided in this title; but it shall be presumed that there are no such infants nor persons of unsound mind who are or will be entitled to claim such property unless and until they appear and claim such property as provided in this title; provided, however, such presumption shall be conclusive in favor of any purchaser in good faith and for a valuable consideration from the State and everyone subsequently claiming under him, saving however, to infants and persons of unsound mind the right of recourse to the proceeds of any sale or other disposition of any such property by the State and as herein provided.

SEC. 4. Section 1441 of the Code of Civil Procedure is amended to read:

Same Effect

1441. Money or other property distributed to the State under Sections 1027 or 1144 of the Probate Code, if not claimed within five years from the date of the decree making such distribution, as provided in Chapter 3, is permanently escheated to the State without further proceeding; saving, however, to infants and persons of unsound mind, the right to appear and file their claims within the time limited, or within one year after their respective disabilities cease; provided, however, that any such property shall be conclusively presumed to be permanently escheated to the State as to all persons in favor of a purchaser in good faith and for a valuable consideration from the State and anyone subsequently claiming under him, saving however, to infants and persons of unsound mind the right of recourse to the proceeds of any sale or other disposition of such property by the State and as herein provided.

SEC. 5. Section 1463 of the Code of Civil Procedure is amended to read:

Same Effect

1463. Money or other property paid into the State Treasury pursuant to a judgment of abandonment under the provisions of Section 1475, if not claimed within five years from the date of entry of such judgment, is permanently escheated to the State without further proceeding; saving, however, to infants and persons of unsound mind, the right to appear and file their claims within the time limited, or within one year after their respective disabilities cease; but it shall be presumed that there are no such infants nor persons of unsound mind who are or will be entitled to claim such property unless and until they appear and claim such property as provided in this title;

provided, however, that any such property shall be conclusively presumed to be permanently escheated to the State as to all persons in favor of a purchaser in good faith and for a valuable consideration from the State and anyone subsequently claiming under him, saving however, to infants and persons of unsound mind the right of recourse to the proceeds of any sale or other disposition of such property by the State and as herein provided.

SEC. 6. Section 1381 is added to the Code of Civil Procedure, to read:

1381. All sales, leases or other transactions entered into by the Controller pursuant to this chapter shall be conclusive against everyone, except a purchaser or encumbrancer who in good faith and for a valuable consideration acquires a title or interest by an instrument in writing that is first duly recorded. Sales, leases, etc., conclusive

SEC. 7. Sections 1, 2, 3, 4, 5, and 6 of this act become operative only if a new Title 10 of Part 3 of the Code of Civil Procedure is enacted by the Legislature at its 1951 Regular Session, and in such case, said sections of this act become operative at the same time as said new Title 10 of Part 3 of said code takes effect. CHAPTER 1739

An act to amend Sections 20890 and 20894.5 of the Government Code, and Sections 14449 and 14495.2 of the Education Code, relating to public retirement systems in respect to absence of members in military service and contributions therefor.

[Approved by Governor July 24, 1951. Filed with Secretary of State July 25, 1951.] In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 20890 of the Government Code is amended to read:

20890. A member is absent on military service when he is absent from state service by reason of service with the armed forces or the Merchant Marine of the United States, or on ships operated by or for the United States Government, either during a war involving the United States as a belligerent or in any other national emergency or in time of peace if he is drafted for such service by the United States Government, and during any period of rehabilitation afforded by the United States Government other than a period of rehabilitation for purely educational purposes, and for six months thereafter. A member shall also be considered as having been absent on military service if he served in the military service during all or part of the period of September 16, 1940, to December 7, 1941. Absence on military service

For the purposes of this section a war involving the United States as a belligerent exists: (a) whenever Congress has declared war and peace has not been formally restored; (b)

whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

SEC. 2. Section 20894.5 of the Government Code is amended to read:

Employer contributions

20894.5. Notwithstanding other provisions of this article to the contrary, the employer shall contribute for each member of this system who is absent on military service, whose death occurs during such absence or who returns to state service within six months after discharge under conditions other than dishonorable or within six months after any period of rehabilitation afforded by the United States Government other than a period of rehabilitation for purely educational purposes, amounts equal to the contributions which would have been made by the employee and the employer to the system on the basis of his compensation earnable at the commencement of his absence plus the annual salary adjustments which he would have received, if he had not been so absent. For the purpose of this section, the member absent on military service shall be deemed to have received a service rating for the period of such absence entitling him to annual salary adjustments. For the purposes of this section, a member who is or was granted a leave of absence or placed on a state civil service re-employment list as of the same date he was reinstated from military leave shall be considered as having returned to state service within said six months, if he returns to state service at the end of such leave of absence or upon offer of employment from the re-employment list, or if he retires under this system for service or disability during such leave. Retirements, heretofore effective, of members during such leaves, and the contribution by the employer of said amounts with respect to said members, are hereby validated and confirmed.

Any such member who exercises or did exercise the right to contribute to the system during the period of military service shall have such contributions refunded or credited to his account as additional contributions under Section 20630.

Any such member who withdraws or has withdrawn his accumulated contributions during his military service and who does not or did not redeposit the amount withdrawn upon his return to state service is entitled to be credited with the employer's contribution provided for in this section, and to receive credit for service during the period he was absent on military service, the same as if he had not withdrawn his accumulated contributions, and his rate for future contributions shall be based upon his age at the commencement of his absence on military service.

The contributions required of the employer pursuant to this section may be made in one sum, or in the manner in which other contributions are made. Contributions pursuant to this section shall be available only for the purpose of benefits pay-

able in event of death or retirement for service or for disability, and shall be made available only for the purpose of benefits payable in event of death or retirement, and an employee resigning from state service after reinstatement from military service shall be entitled to withdraw under Sections 20652 and 20653 only that portion of his accumulated contributions personally made by him. Employer contributions

This section does not apply to persons absent from state service by reason of service with the Merchant Marine of the United States, or on ships operated by or for the United States Government, or with the Federal Bureau of Investigation, anything to the contrary in Section 20890 notwithstanding. Contributions by the employer pursuant to this section shall not be made for any period of time after December 31, 1949, for any member whose absence on military service began prior to January 1, 1950, and who had not returned to state service prior to January 1, 1950.

This section shall not apply to any contracting agency or to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section, by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

A contracting agency which elects to be subject to the provisions of this section may, by the amendment to or provision in its contract making such election, provide that the provisions of this section shall apply only to its employees who enter or have entered military service after a date designated in such amendment or such provision.

SEC. 3. Section 14449 of the Education Code is amended to read:

14449. The member shall receive credit for time during which he serves in the active military service of the United States or of the State including active service in any uniformed auxiliary of, or to, any branch of such military service created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the full-time paid service of the American Red Cross, during war with any foreign power or during other national emergency, or in time of peace if he is drafted for such service by the United States Government, if he was employed in a status requisite for membership, or in a status, time served in which is included in this chapter, within one year prior to entering such service. Time during which a member for other cause, is absent without compensation, on leave or otherwise, shall not be included except as provided in Section 14447. Time included under this section shall be considered as served in the state in which the member was last employed before entering such service. Credit for time served

For the purposes of this section war with a foreign power exists: (a) whenever Congress has declared war and peace has not been formally restored; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

SEC. 4. Section 14495.2 of the Education Code is amended to read:

Contributions of returning members

14495.2. Notwithstanding anything contained in this article, members of this system shall not be required to contribute to the Permanent and Retirement Annuity Funds on the basis of service credited under Section 14449; provided, they return or have returned to an employment required for membership in this system within six months after the effective date of this section, or within six months after the termination of such service, whichever is later.

If the member was also a member of a local retirement system, the retirement system shall pay, from the Retirement Annuity Fund, to the member, at the time of his retirement, or to the local district maintaining the local system if the local district made local system contributions on the basis of service credited under the local system for time included under Section 14449, an amount equal to the annuity contributions which except for this section would be required of said member under Section 14495 on account of said service credited under the local retirement system, but not to exceed contributions made by him or the local district to the local system on account of such service. Regular interest from the effective date of this section to the time of such payment, shall be included in such payment. The State shall contribute annually to the Retirement Annuity Fund the amounts required to be paid from said fund to local districts under this paragraph.

Any such member who exercises or did exercise the right to contribute to the system for the period of such service shall have such contributions refunded with credited interest on annuity contributions.

Any employing agency which made the contributions for the member either during his absence or after his return to employment shall have such contributions refunded with credited interest on annuity contributions.

This section shall be retroactively applied to extend its benefits to all members of this system whose absence on military service, in the service of such auxiliary, or in the service of the Red Cross commenced on or after September 16, 1940, and who return, or have returned to an employment required for membership in this system within six months after the effective date of this section, or within six months after the termination of such service, whichever is later.

Contributions by the State and payments by the retirement system pursuant to, or as a result of, this section shall not be

made for any period of time after January 1, 1950, for any member who has not returned to an employment required for membership in this system prior to that date, except that contributions by the State pursuant to this section may be made for any member who returned to an employment required for membership in this system from military service prior to January 1, 1950, and subsequently re-entered or re-enters the military service and for any member who enters or has entered the military service on or after January 1, 1950, for the period of his military leave of absence.

CHAPTER 1740

An act to amend Sections 20013 and 20014 of, and to add Sections 20017.75, 20038.5, 21020.75, 21290.75, 21292.75, and 21363.75 to, the Government Code, relating to the State Employees' Retirement System, in respect to certain law enforcement personnel of the Department of Justice.

and which do not clearly fall within the scope of active law enforcement service, even though such a person is subject to occasional call, or is occasionally called upon to perform duties within the scope of active law enforcement.

Except as otherwise provided, the provisions of this part applicable to state miscellaneous members are also applicable to law enforcement members.

SEC. 3.5. Section 20038.5 is added to said code, to read:

"Industrial"

20038.5. "Industrial" in reference to the death or disability of a law enforcement member means death or disability as a direct result of injury or disease arising out of and in the course of his employment and while performing duties which require the assumption of risks peculiar to active law enforcement work.

CHAPTER 1741

An act to add Section 5500.5 to the Labor Code, relating to workmen's compensation for industrial disease.

In effect September 22, 1951

[Approved by Governor July 24, 1951. Filed with Secretary of State July 25, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 5500.5 is added to the Labor Code, to read:

Claims arising out of more than one employment

5500.5. Where a claim for compensation benefits is made on account of an occupational disease which may have arisen out of more than one employment, the application shall state

the names and addresses of all employers, the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the commission to join as defendant any necessary or proper party. If such request is made prior to the first hearing on the application, the commission shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon such omitted employer, provided such notice can be given within the time specified in this division. If such notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the commission, panel, commissioner, or referee before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of such party and continue the hearing so that proper notice may be given to the party or parties so joined. Only one continuance shall be allowed for the purpose of joining additional parties. Subsequent to the first hearing the commission shall join as a party defendant any additional employer when it appears that such employer is a proper party, but the liability of such employer shall not be determined until supplemental proceedings are instituted.

In any case involving a claim of occupational disease contracted as a result of more than one employment, the employee making the claim, or his dependents, may elect to proceed against any one or more of the employers named in the application. Where such an election is made, the employee must successfully prove his claim against any one of the employers named, and any award which the commission shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his dependents has made an election to proceed against one or more employers, it should appear that there is another proper party not yet joined, such additional party shall be joined as a defendant by the commission on the motion of any party in interest, but the liability of such employer shall not be determined until supplemental proceedings are instituted. Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the commission's final decision, nor to any continuance or further proceedings, but may be permitted to ascertain from the employee or his dependents such information as will enable the employer to determine the time, place, and duration of the alleged employment. On supplemental proceedings, however, the right of the employer to full and complete examination or cross-examination shall not be restricted.

Proceedings to apportion liability

At any time within one year after the commission has made an award for compensation benefits in connection with an occupational disease, any employer held liable under such award may institute proceedings before the commission for the purpose of determining an apportionment of liability or right of contribution. Such a proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his dependents, but shall be limited to a determination of the respective contribution rights, interests or liabilities of all the employers joined in the proceeding, either initially or supplementally; provided, however, if the commission finds on supplemental proceedings for the purpose of determining an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss such employer and amend its original award in such manner as may be required.

Same Silicosis disabilities

In any proceeding before the commission for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows.

(a) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in such operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his estate or dependents as the result of disability or death resulting from or aggravated by such exposure

(b) If any of the employers who have not contributed to payment of the original award shall be without the commission's jurisdiction, or are dead, insolvent, or not subject to enforcement of awards against them for such contributions, either directly or through solvent insurance carriers, then upon such showing being made to the satisfaction of the commission, it shall make an award in favor of the employer or employers who have paid the original award, payable out of the fund used for payment of the additional compensation provided for in Section 4751 of this code, in an amount equal to the unreimbursed portions of the original payment or payments to which such employer or employers are found entitled as aforesaid. The use of the fund for such reimbursement in addition to the purposes specified in Section 4751 of this code is hereby authorized. The Legislature finds that as a matter of public policy and public welfare, sufferers from silicosis resulting from employment in underground metal mines should be compensated for such disability; that due to the peculiar nature of this disease it often does not manifest itself until long after periods of exposure have expired; that this frequently results in disability occurring in or after the last of a series of employments where such exposure

existed; that underground metal mining is a class of industry having special character, both as to silicotic hazard and investment hazard; that the latter hazard has resulted in the past in closure of mines, disappearance or financial nonresponsibility of former owners or lessees of such mines and consequent inability of the commission to enforce against them compensation awards for proportionate liability in silicosis cases. It is inequitable that total ultimate liability should fall on one or more such employers who happen to be solvent or have solvent insurance carriers within the commission's jurisdiction or in reach of its process. Therefore the Legislature finds that, to the extent that the commission determines that proper contributions to a joint and several award for compensation for silicosis cannot be enforced against an employer who is or was engaged in underground metal mining for any of the above reasons, it shall direct that contribution shall be paid, either directly or by way of reimbursing any employer or employers who have paid said award, by payment from the fund provided for in Section 4751 of this code. Such payments or reimbursement for payments the Legislature finds will protect employees in the metal mining industry and will promote the general public welfare in mining communities. Silicosis disabilities

(c) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the commission shall consider as a rebuttable presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if the underground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted or transported.

Any employer shall be entitled to rebut such presumption by showing to the satisfaction of the commission, or its referee, that the mining methods used by the employer in the employee's place of employment did not result during his employment in the creation of silica dust in sufficient amount or concentration to constitute a silicotic hazard. Dust counts, competently made, at such intervals and in such locations as meet the requirements of the Division of Industrial Safety for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where such counts have been made at the time when they were made. The commission may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which such dust counts shall be taken in different types of workings in order to justify their exceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken. Evidence re working conditions

CHAPTER 1742

An act to amend Section 5107 of the Education Code, relating to state school building aid.

In effect September 22, 1951

[Approved by Governor July 24, 1951. Filed with Secretary of State July 25, 1951.]

Expenses incurred by the State Treasurer in taking and making delivery of bonds or other securities purchased as investments from such surplus money in the Public School Building Loan Fund may be paid from such fund.

11011. The commission shall be paid only out of the proceeds of the sale before the proceeds are remitted to the State Treasury.

Whenever such a notary is appointed and commissioned, the head of the agency shall execute a certificate that the appointment is made for the purposes of the agency, and whenever such certificate is filed with any state or county officer, no fees shall be charged by the officer for the filing or issuance of any document in connection with such appointment

State employees as notaries public

Any agency for which a notary public is appointed and commissioned pursuant to this section may pay from any funds available for its support the premiums on any bond and the cost of any stamps, seals, or other supplies required in connection with the appointment, commission, or performance of the duties of such notary public.

Any fees collected or obtained by any notary public whose documents have been filed without charge and for whom bond premiums have been paid by a state agency shall be remitted by him to the state agency by which he is employed and paid into the State Treasury to the credit of the fund from which his salary is paid.

SECTION 1. Section 635.1 is added to the Agricultural Code, to read:

Pasteurized concentrated milk and skim milk

635.1. Pasteurized concentrated milk is market milk which has been reduced to a semiliquid state by the removal of a portion of its water content by the aid of heat or combining concentrated skim milk derived from market milk and market cream so that the resulting product contains not less than 9.9 percent of milk fat and not less than 24 percent of milk solids not fat. It shall otherwise meet and be subject to all the requirements and standards for market milk, except that it may be pasteurized before concentration but must be pasteurized after concentration, and except that it shall contain not more than 20,000 bacteria per gram. Pasteurized concentrated milk shall be packaged in containers other than hermetically sealed containers.

Concentrated skim milk is skim milk derived from market milk which has been reduced to a semiliquid state by the removal of a portion of its water content by the aid of heat so that the resulting product contains not less than 24 percent of milk solids not fat.

735.3. As used in this chapter: Definitions

(a) "Board" means any local control board created as herein authorized.

(b) "Fluid milk" means any and all whole or concentrated milk that is produced in conformity with applicable health regulations for market milk of the place where such milk is consumed and for the purpose of this chapter fluid milk may be classified as follows:

Class 1. Any fluid milk or the cream therefrom that is supplied to consumers as market milk or market cream or concentrated milk or any combination of market milk and market cream, or any market milk which is not packaged in hermetically sealed containers, or any other dairy product in which the use of market milk is required by the provisions of this code, or any fluid milk or the cream therefrom which is used in standardizing market milk.

Class 2. Any such milk or the cream derived therefrom, as cream is defined in this code, that is sold or disposed of by distributors in any form not included in Classes 1 or 3.

In the establishment of the minimum prices for one or more of the respective classes separate prices may be established for the milk fat contained in such milk or the skim milk contained in such milk or a combination of the milk fat and the skim milk contained in such milk.

In designating and prescribing or providing methods for designating and prescribing minimum price to be paid by distributors to producers for Classes 1, 2 or 3 fluid milk, the director may take into consideration the market price of all milk which may be used for the same purposes set forth in such respective classes.

(c) "Fluid cream" means cream as defined in this code, and any combination of cream and milk, or any fluid product of milk or cream sold under any trade name whatsoever, which is not packaged in hermetically sealed containers and which contains more than 11.6 percent milk fat and conforms to the health and sanitary regulations of the place where sold or disposed of for human consumption.

(ff) "Producer-distributor" means any person who is both a producer and a distributor of fluid milk or fluid cream. For the purposes of this chapter a producer-distributor shall be deemed to be a producer in any transaction involving the delivery of fluid milk or fluid cream produced by him to a distributor, and shall be deemed to be a distributor in any transaction involving the delivery of fluid milk or fluid cream to a person who is not a distributor as defined in this section.

(g) "Retail store" means any person or persons owning or operating a retail grocery store, restaurant, confectionery, or other similar business, where fluid milk or fluid cream is sold to the general public for consumption off the premises.

(h) "Marketing area" is any area within this State declared to be such in the manner prescribed in this chapter.

(a) Minimum wholesale prices, as used herein, shall mean prices at which fluid milk or fluid cream, or both, shall be sold by distributors to retail stores including the prices at which fluid milk or fluid cream shall be sold by distributors to retail stores,

restaurants, confectioneries and other places for consumption on the premises but excluding, however, the prices at which fluid milk or fluid cream, or both, shall be sold by distributors to retail stores owned or operated by such distributor. Minimum wholesale prices, as used herein, includes prices at which fluid milk or fluid cream, or both, shall be sold by distributors to other distributors, other than in bulk, which prices may vary from the minimum prices established for sales by distributors to other wholesale customers; provided, however, the director shall not be required to establish such minimum wholesale prices in those marketing areas wherein he finds, after public hearing held pursuant to this article, that conditions of transportation, production, and distribution are such that the establishment thereof will cause disparity in prices to exist between two or more marketing areas.

(b) Minimum retail prices herein, shall mean prices at which fluid milk or fluid cream, or both, shall be sold by distributors and retail stores to consumers.

At the time any stabilization and marketing plan is hereafter established under the provisions of this chapter, the director shall designate and prescribe, or provide methods for designating and prescribing, such minimum wholesale prices and such minimum retail prices; provided, however, that all prices established under the terms of this article shall be such prices as are determined by the director pursuant to the provisions of Section 736.12.

Revenue bonds shall be of the denomination of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000) each and shall be signed by the president of the board of directors and attested by the secretary of the district. The interest coupons appertaining thereto shall be signed by the secretary of the district. All such signatures may be printed, lithographed, engraved or otherwise mechanically reproduced, except that one of such signatures to said bonds shall be manually affixed. The seal of the district may be affixed to said revenue bonds by mechanical reproduction thereof. If any officer whose signature appears on any revenue bond or coupon ceases to be such officer of the district before the delivery of the revenue bonds to the purchaser, such signature on either the bond or coupons, or both, is nevertheless valid and sufficient for all purposes with like force and effect as though such officer had remained in office until the actual delivery of the revenue bonds and payment of the purchase price thereof. The board of directors may, in the resolution authorizing the issuance of said revenue bonds, provide that the same or any part thereof shall be subject to call and redemption before maturity, at the option of the district, at such price or prices as may be fixed in the resolution, not exceeding a premium of 6 percent of the par value of such revenue bonds so subject to redemption. Revenue bonds issued subject to call and redemption prior to maturity shall contain a recital to that effect on the face of said revenue bonds and no revenue bond shall be subject to call or redemption prior to its fixed maturity date unless it contains such recital. Revenue bonds shall bear interest at a rate not in excess of 6 percent per annum, payable annually or semiannually as may be prescribed by the board of directors. Each issue of revenue bonds shall be numbered consecutively and the bonds of each issue shall be numbered consecutively from lower to higher as the same mature and shall bear such date as may be prescribed by the board of directors. The date appearing upon the face of the revenue bond shall be deemed to be the date of issuance irrespective of the subsequent delivery thereof. The treasurer of the district shall, when the revenue bonds have been duly executed and delivered to him, keep a record, in a book provided by him for that purpose, of said revenue bonds and the payment thereof and interest thereon. When revenue bonds have been issued and delivered to the treasurer, said revenue bonds and the interest thereon shall be and remain until paid a lien, as specified in the revenue bonds and the proceedings authorizing their issuance, on the revenues of the district obtained from

the sale and use of water for irrigation of the lands of the district at rates, tolls and charges fully sufficient to pay the principal of and the interest on said revenue bonds as the same mature. The lien of the revenue bonds of any issue shall be a preferred lien to that of any subsequent issue. Revenue bonds of any district now outstanding are hereby validated in the form in which the same have been issued and delivered and shall constitute valid and legally binding obligations of the district payable in accordance with the terms appearing on the face of such bonds.

SEC. 2. Section 35975 of the Water Code is amended to read:

35975. After bonds have been delivered to the treasurer: Lien

(a) General obligation bonds and the interest thereon are, until paid, a lien on the land.

SEC. 9. Sections 2 to 8, inclusive, of this act become operative only if Division 13 of the Water Code is enacted by the Legislature at its 1951 Regular Session, and in such case at the same time as said Division 13 takes effect, at which time Section 63 of the California Water District Act, as repealed and added by this act, is repealed.

Urgency

SEC. 10. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Certain water districts are in need of water facilities necessary to provide irrigation for the current irrigating season for the protection of crops and to foster the production of food necessary for the public peace, health and safety. Certain of such districts can construct and acquire water distribution facilities only by the issuance of revenue bonds. Such revenue bonds, because of present inadequacies in the provisions relating to the form and execution thereof, cannot be sold. This act corrects such present inadequacies and makes possible the immediate authorization and sale of revenue bonds of such districts to supply funds for essential irrigation works and property necessary for the irrigation of lands contained in the districts now urgently needed for the immediate preservation of the public peace, health and safety. In order that the benefits of this act may be made available at the beginning of the irrigating season of the current calendar year, this act must be put into immediate effect.

CHAPTER 1757

An act to add Article 6, comprising Sections 20930 to 20934, inclusive, to Chapter 7 of Part 3 of Division 5 of Title 2 of the Government Code, relating to the State Employees' Retirement System in respect to credit for service to local public agencies.

[Approved by Governor July 25, 1951. Filed with Secretary of State July 25, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Article 6, comprising Sections 20930 to 20934, inclusive, is added to Chapter 7 of Part 3 of Division 5 of Title 2 of the Government Code, to read:

Article 6. Local Service

"Local service"

20930. As used in this article, "local service" means service rendered as an officer or employee of a public agency maintaining a locally administered retirement system for its officers and employees, for which service the officer or employee received compensation from the public agency, and with respect to which he does not continue to receive credit in the locally administered retirement system or in this system, under contract between the public agency and this system, after he becomes a member of this system.

Election

20931. Any member of this system who was in local service before entering state service has the right to elect, by written election filed with the board within one year after the effective date of this article or within one year after becoming a member of this system, whichever is later, to make contributions pursuant to Section 20932 for, and to receive credit in this system as state service for, all or any part of the time he was in local service. However, a member shall not receive credit as state service for any portion of his local service constituting prior service unless he has elected to make, and has made, contributions pursuant to Section 20932 for all of his local service constituting current service.

Same
Contribution

20932. Any member of this system who elects pursuant to Section 20931 to make contributions and receive credit as state service for all or any part of the time he was in local service shall contribute to the retirement fund, prior to the effective date of his retirement, by lump sum payment or by installment payments over a period not in excess of the length of time for which the member has elected to receive credit for local service as state service, at times and in a manner fixed by the board, an amount equal to the sum of (1) the contributions he would have made to the retirement fund if he had been in state service during the time he was in local service and for which he has elected to receive credit for state service, computed by applying the rate of contribution first applicable to him upon commencement of his membership in this system to the monthly compensation first earnable by him at the time of

commencement of his membership multiplied by the number of months of local service for which he has elected to receive credit for state service and which will constitute current service under this system, (2) the contributions that would have been made by the State in respect to him if he had been in state service during the time he was in local service and for which he has elected to receive credit for state service, excluding any such contributions with respect to prior service, computed by applying the rate of state contribution with respect to members of his category at the time of commencement of his membership in this system to the monthly compensation first earnable by him at said time of commencement of his membership in this system multiplied by the number of months of local service for which he has elected to receive credit for state service and which will constitute current service under this system, and (3) the interest which would have accrued to such member contributions and such state contributions if they had been made on the date of commencement of membership of the member in this system, from that date until the completion of payment of those contributions, computed at the current interest rate.

At the time of his retirement a member shall not receive credit as state service for any local service in excess of that for which he has completed payment of contributions as provided in this section. Any member who has elected to make such contributions by installment payments may, at any time prior to the effective date of his retirement, complete payment of such contributions by lump sum payment. All contributions made pursuant to this section shall be considered to be, and shall be administered as, normal contributions by the member.

Credit

20933. Upon completion of contribution of the amount specified in Section 20932, the member shall be credited with state service in the amount of local service for which he has elected to receive credit as state service. The state service with which the member is so credited shall be credited as current service, or prior service, or both, as it would be credited if the member had been in the state service during the time he was actually in local service.

Effect of election

20934. The exercise by a member of the right of election specified in Section 20931 shall not require any public agency by which the member was employed before commencement of his membership in this system to make any contributions to this system.

CHAPTER 9

Assembly Joint Resolution No. 1—Relating to aid to our enemy.

[Filed with Secretary of State January 16, 1951]

Shipments of rubber to Chinese Red Government

WHEREAS, Through the medium of the American press, the people of America have had their attention directed to the fact that for many months immense quantities of rubber have been consigned to Soviet Russia, mainly from British Malaya, thence to the Chinese Red Government, and that some cargoes have even been transshipped from England under licenses of the Board of Trade, which is a section of the British Government; and

WHEREAS, These shipments are being made in the hours of our bleakest and blackest critical moments during our war in Asia with the full knowledge of the British Government, and especially at a time when natural rubber is becoming scarce and costly in America, and while we at this very moment are reactivating our synthetic rubber plants in order to stockpile for national defense; and

WHEREAS, Recognition of the Chinese Red Government by any nation currently a member of the United Nations, in supplying war materials to our foes, either directly or indirectly, is a betrayal of America, which on all other occasions has made the sacrifice of life, limb, and property to make this world a peaceful place in which to live; and

WHEREAS, While over 50,000 members of our armed forces are already listed out of Washington as being casualties of this dreadful aggression in North Korea, we find that Great Britain, although a member of the United Nations, is still supplying rubber to the ruthless enemy which, given the opportunity, would take over their country in the same manner that they have already succeeded in conquering and taking over other small nations; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby respectfully memorializes President Truman and the Congress of the United States to petition the British Government to refrain from supplying rubber to the Chinese Red Government, and also petitions the United Nations to go on record

to refrain from giving aid of any nature whatsoever to the Chinese Red Government, or to any nation which supplies help to the Chinese Red Government; and be it further

Resolved, That copies of this resolution be forwarded to the President of these United States, Harry S Truman, to the United States Senate, to the House of Representatives, and to the chairman of the congressional delegation from California.

CHAPTER 10

Senate Joint Resolution No. 1—Relating to the Central Arizona Project.

[Filed with Secretary of State January 17, 1951.]

Central Arizona Project

WHEREAS, There is pending before the Congress of the United States a bill which would authorize construction of the Central Arizona Reclamation Project; and

WHEREAS, No provision is made for payment by the project of any part of the interest on the national debt, which would be incurred to construct the project; and

WHEREAS, The Secretary of the Interior has reported that he estimates the cost of the project at $708,000,000 and the time for the recovery of the principal at 75 years and, therefore, that the project would cost the taxpayers of the United States for interest alone, at 2½ percent per annum, in excess of two billion dollars ($2,000,000,000); and

WHEREAS, The taxpayers of California would be required to pay in excess of one hundred seventy-two million dollars ($172,000,000) of such interest; and

WHEREAS, The Central Arizona Project is designed to provide irrigation at exorbitant cost to grow common field crops, with the result that additional taxes would be required to pay government subsidies on such crops and such project would not, therefore, enhance the national welfare; and

WHEREAS, The Central Arizona Project would require the use of 1,500,000,000 kilowatt-hours of hydroelectric power annually (the equivalent to the use of 2,500,000 barrels of fuel oil) to pump irrigation water to a height of 1,000 feet, and such use would be an economic waste of an urgently needed public resource; and

WHEREAS, The construction cost of the irrigation features of the project alone would be many times the value of the land, when irrigated and the irrigators would not repay any part of such construction cost; and

WHEREAS, Such Central Arizona Project is, therefore, economically unsound; and

WHEREAS, Sufficient water for such Central Arizona Project could be secured only by diverting to that project water now needed to serve authorized and existing projects in the Lower Basin of the Colorado River; and

WHEREAS, The diversion of water from such existing projects would jeopardize the water supply of over four million residents of California, who, in reliance on their contracts for water executed by the United States Government, have invested more than five hundred million dollars ($500,000,000) to provide facilities to enable them to use their share of water and power from the Colorado River; and Central Arizona Project

WHEREAS, The rights of California to the use of Colorado River water have been established by prior appropriations and by contracts with the Secretary of the Interior under the Boulder Canyon Project Act, and the Secretary of the Interior has declared that "If the contentions of California are correct, there will be no dependable water supply available from the Colorado River for this diversion"; now, therefore, be it

Resolved, by the Senate and Assembly of the State of California, jointly, That the Congress of the United States be memorialized to refuse passage of any bill authorizing the Central Arizona Project as proposed; and be it further

Resolved, That the Congress of the United States be memorialized to adopt legislation consenting to the joinder of the United States in an interstate suit in the Supreme Court for the determination of the water rights of the States of the Lower Basin of the Colorado River; and be it further

Resolved, That the Colorado River Board of California and all other agencies and officers of the State of California are directed to use all means within their power to carry out the objectives of this resolution; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the President, to the President of the Senate and Speaker of the House of Representatives of the Congress of the United States, to the chairman of appropriate congressional committees, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State January 24, 1951]

Ownership of tidelands

WHEREAS, Until recently it was generally recognized that all of the coastal states owned a belt of land beneath navigable waters adjacent to their coasts; and

WHEREAS, In 1947 the Supreme Court of the United States held that those lands were not owned by the states and that the Federal Government rather than the states has paramount rights in and power over the three-mile belt of land; and

[Filed with Secretary of State January 24, 1951.]

Cooperation of other states

WHEREAS, A recent decision of the Supreme Court of the United States refutes a long recognized claim of the coastal states to the three-mile belt of land beneath the navigable waters adjacent to their coasts; and

WHEREAS, The effect of this decision was to divest those states of valuable oil rights; and

WHEREAS, Ownership of such land by the coastal states would in no way interfere with federal control necessary in the conduct of international affairs and Coast Guard activities; and

WHEREAS, If it is possible for the Federal Government to secure the ownership of such lands on the basis of its contentions before the Supreme Court, there is a danger that the ownership

of all state lands in other states as well as in the coastal states will be jeopardized; and

WHEREAS, The owners of the lands, local governmental agencies, and other interested persons and organizations have no voice in those administrative decisions even though they believe the validity of the decisions questionable; and

WHEREAS, The policy of disregarding opinions of the interested persons and organizations in making the decisions relative to methods and amounts of land to be acquired by the United States is considered undemocratic; and

WHEREAS, This undemocratic procedure can be avoided by holding hearings to permit the interested persons and organizations to voice any objections or suggestions that they have with regard to each proposed purchase; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is respectfully memorialized to take such action as is necessary to insure that owners of lands which the United States proposes to acquire, and all interested persons and local governmental

agencies, are given an opportunity to express their views on each proposal of the United States to acquire land, at a public hearing held for that purpose after due notice; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State January 24, 1951]

Congressional action to relieve burden of war injury

WHEREAS, The possibility of war is imminent; and

WHEREAS, It is probable that if such war occurs the civilian population of this Nation and of this State will be subjected to

injury and death resulting from sabotage, bombing, and other acts which are concomitants of modern war; and

WHEREAS, Large numbers of those killed or injured would receive their injuries while performing their usual work in the course of their usual employment; and

WHEREAS, The possibility exists that such persons or their dependents might successfully assert claims based on the workmen's compensation laws of this State against either the State Compensation Insurance Fund or private workmen's compensation insurance carriers; and

WHEREAS, Should this occur, such fund and such carriers might be bankrupted, leaving the worker who receives industrial injuries without protection; and

WHEREAS, Should this result it would create untold hardship upon this and other states, their workmen's compensation agencies and private insurance companies and insurers and also upon the workers themselves; and

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Vice President of the United States, to the Speaker of the House of Representatives of the Congress of the United States, and to the Senators and Representatives in Congress from the State of California.

Fair and equitable rates of pay shall be provided with due consideration both of the employees and the taxpayer, and with due observance of the principle of like pay for like work, and suitable differences in pay for differences in kind of work.

Full consideration shall be given to the interests and desires of the employees insofar as it is consistent with interests of the City and of the public it serves. (c) For determining efficiency and fitness for original appointment to and promotion within the classified service by means of competitive examinations held after adequate public notice. The selection techniques used in such examinations shall be practical in character, and designed fairly to measure the ability or potentiality of the candidates for positions in the various classes. Provision shall be made for a systematic and equitable plan for lay-off in the event of lack of funds by the City or the cessation of need for a given class or classes of work, or other valid reasons; provided further, however, in the event the Council shall determine it is necessary to bring about a reduction of personnel of all employees in the classified service, the Council for such purposes shall adhere to the seniority list maintained by the Personnel Director for the employees of such department in effecting reduction of personnel. The name of employees so laid off shall be placed on an appropriate list or lists. Persons on these lists shall be re-employed at the earliest opportunity. Reinstatement, transfer, and resignation shall be provided for.

(g) For emergency, temporary, or provisional appointments, without examination, to positions in the classified service for a period not to exceed 180 days. All intermittent employees and those seasonal employees who are employed for a period less than 120 days in any one calendar year shall not be required to qualify through examination.

(h) For the optional use of service ratings in each of the various City Departments, and for the administration of such service rating plans, subject to the approval of the City Manager.

(i) For co-operation between the City Manager and the employees in promoting employee welfare, including such health, welfare, economic and other programs as deemed desirable.

(j) For the development of an employee training program to the end that the general level of efficiency of the classified service shall be high and that the employees shall be encouraged and aided in improving their status.

(k) For recommendations to the Council regarding rule provisions to regulate the hours of duty, holidays, leaves of absence and for the administration of such rule provisions as are adopted. The requirements regarding hours of duty, holidays and leaves of absence may vary for the different classes of employment but shall be uniform in their application to employees of the same classes under like conditions of work.

Employees so discharged or disciplined shall have the right of appeal as outlined in this Article, and under the procedure outlined in the personnel rules.

(n) For maintenance of an official roster of employees showing for each employee, his name, address, birthdate, class, title, rate of pay and changes in any of these, and such other information as may be deemed desirable. Such a roster to be a matter of public record.

(o) For prompt reports by department heads of changes in positions authorized and of the incumbents therein, and of new positions and of attendance and absence which upon the approval of the City Manager shall form bases for audit and approval of payrolls by the Auditor or to compliance with this Article and the ordinances and rules thereunder.

CHAPTER 33

Senate Joint Resolution No. 6—Relating to the All-American Canal Project.

[Filed with Secretary of State January 24, 1951.]

WHEREAS, The Boulder Canyon Project Act of December 21, 1928 (45 Stat. 1057) authorized the construction of the All-American Canal and made provision for Imperial Irrigation District, a political subdivision of the State of California, to assume the care, operation and maintenance of said canal upon the completion thereof; and Compliance with Boulder Canyon Project Act and Mexican Treaty

WHEREAS, Said act also granted the right to said district to utilize the power possibilities on said canal, the net proceeds therefrom to be applied against the district's obligation to repay to the Federal Government the construction cost of said canal; and

WHEREAS, Pursuant to the provisions of said act, before any moneys were expended by the Federal Government on or for the construction of said canal, Imperial Irrigation District entered into a contract with said government under date of December 1, 1932, by the terms of which said district was granted the right and required to assume the care, operation and maintenance of said canal upon the completion thereof and also the right to develop the power possibilities thereon; and

WHEREAS, The main All-American Canal has been completed and has been in operation for a number of years and the Secretary of the Interior has transferred the care, operation and maintenance to Imperial Irrigation District of all of said main canal except the upper section thereof, being that section from and including the diversion works on the Colorado River at Imperial Dam down to and including the Pilot Knob Check and Pilot Knob Wasteway; and

WHEREAS, Imperial Irrigation District has proceeded to develop the power possibilities on the section of the All-American Canal which it is operating and in connection therewith has acquired and is operating a complete power system serving the needs of all consumers of electric power in Imperial County and in Coachella Valley, Riverside County, California, served

Compliance with Act and Treaty

with water by the said canal but to date said district has been prevented by certain federal departments from developing the power possibilities at the Pilot Knob site on said canal, which is the most important and valuable power site to said district on said canal; and

WHEREAS, Over the past years, Imperial Irrigation District has requested the Secretary of the Interior to keep faith with the provisions of the Boulder Canyon Project Act and the district's contract of December 1, 1932, and turn over the care, operation and maintenance of the upper section of said canal to said district and grant permission for said district to develop the Pilot Knob power site (without expense to the United States); and

WHEREAS, The water treaty between the United States and Mexico dated February 3, 1944, grants to Mexico the right to receive a portion of its water by means of the All-American Canal and Pilot Knob Wasteway, such water to be carried from the point where the latter empties into the old Alamo Canal to the delivery point on the international boundary; and

WHEREAS, The amount of such water to be so delivered to Mexico is but a relatively small proportion of the total annual flow of the All-American Canal and need not interfere with the district's operation of the canal nor the development of power at the Pilot Knob site; and

WHEREAS, The United States does not have the right to the use of any of the capacity of the All-American Canal for such supplying of water to Mexico but Imperial Irrigation District does have surplus capacity in said canal down to Pilot Knob which it proposes to use in connection with the development of power at that point; and

WHEREAS, To remove any question as to possible conflict between said treaty and said district's contract, and also in a spirit of cooperation, said district has, by a proposal submitted to the Secretary of State in December, 1947, offered to make available without cost to either the Federal Government or the Mexican Government capacity in the All-American Canal down to the end of the Pilot Knob Wasteway and to transport to that point the water necessary to fulfill the requirements of said treaty under rules and regulations therefor to be promulgated by the Federal Government; provided, that the upper section of said canal is turned over to said district and it is permitted to develop the Pilot Knob power site, as provided for in said district's contract of December 1, 1932; and

WHEREAS, After concurrence by the Department of the Interior and the Department of Justice, the Secretary of State accepted said district's proposal in principle, subject only to a clarification of wording, and did so notify said district by letter dated August 4, 1948; and

WHEREAS, For reasons unknown to this Legislature, despite such acceptance the Secretary of State has recently turned the matter over to the Secretary of the Interior to decide who shall operate the upper section of the All-American Canal and

the latter has announced that the Bureau of Reclamation will handle such operation, without giving any valid reasons why and in total disregard of the Boulder Canyon Project Act and the district's contract of December 1, 1932; and Compliance with Act and Treaty

WHEREAS, Imperial Irrigation District has already suffered large financial losses caused by the Federal Government's refusal to permit said district to develop the Pilot Knob site and the Nation has lost hundreds of thousand of barrels of fuel oil used to generate power which otherwise would have been supplied by the Pilot Knob plant had the district been permitted to build it, which situation should be remedied without further delay; and

WHEREAS, This Legislature believes that the Federal Government should take every reasonable means to observe and keep faith with the contracts it makes with its people and that this principle is particularly important at this time of world crisis when our form of government is on trial before the world; and

WHEREAS, This Legislature believes in the principle of local control of public works to the greatest extent practicable, subject only to such reasonable rules and regulations by the Federal Government as may be necessary to protect the government's investment in such works; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Secretary of the Interior and the Secretary of State of the United States be memorialized to uphold the principles of our form of government in its dealings with Imperial Irrigation District under the terms of the Boulder Canyon Project Act, the contract with said district of December 1, 1932, and the treaty with Mexico dated February 3, 1944; and be it further

Resolved, That said two secretaries be memorialized to proceed under the principles of the proposal made to the Secretary of State by Imperial Irrigation District in December, 1947, in accordance with the acceptance thereof by said secretary as stated in letter of August 4, 1948 to said district, to the end that said district be permitted, without further delay, to assume the care, operation and maintenance of all of the main All-American Canal and to proceed with the development of the power site at Pilot Knob; and be it further

Resolved, That the Attorney General of California, the State Engineer, and all other officers of the State of California be and they are hereby directed to use all means within their power to carry out the objectives of this resolution and to assist Imperial Irrigation District in accordance therewith; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the President of the United States, the Secretary of State, the Secretary of the Interior, the Attorney General of the United States, the Commissioner of the Bureau of Reclamation and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 42

Senate Joint Resolution No. 14—Relative to memorializing Congress, protesting the proposed increased tax on wine.

[Filed with Secretary of State March 14, 1951]

Protest re wine tax increase

WHEREAS, It has been proposed that the Congress of the United States increase the federal tax on table wines from fifteen cents ($0.15) to fifty cents ($0.50) a gallon and on dessert wines from sixty cents ($0.60) to one dollar fifty cents ($1.50) a gallon; and

WHEREAS, The growing of grapes, raisins, and wines is a key part of this State's economy and the most important division of the great California fruit growing industry, alone providing employment for 111,000 workers and returning over one hundred fifty-six million dollars ($156,000,000) to growers in 1950; and

WHEREAS, The grape and wine industry has been placed in danger of economic ruin by these recommendations to Congress that the excise tax on table and dessert wines be so increased by 150 percent to 233 percent, increases far exceeding those proposed for other beverages; and

WHEREAS, This would mean an increase in the federal tax burden on grapes from the present twenty-four dollars ($24) to forty-eight dollars ($48) per ton to the prohibitive figures of eighty dollars ($80) to one hundred twenty dollars ($120) a ton; and

WHEREAS, This would be far out of proportion to the taxes borne by other farm commodities and much the heaviest tax burden ever placed on any American farm product; and

WHEREAS, These tax increases, if enacted, would place wine in a luxury category and out of the reach of middle and low income groups now constituting 80 percent of the wine market and would completely disrupt orderly marketing of wine and destroy the largest single commercial outlet for grapes; and

WHEREAS, Such increases by destroying the grape and wine industry's ability to survive economically would lead to diminishing returns and not contribute to the national welfare but rather eliminate an important present source of federal tax revenues; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is hereby respectfully memorialized to refuse enactment of the proposed discriminatory and excessive increase in federal taxes on wines that would be so disastrous to agriculture in this State, and that would fail to accomplish the intended purpose of increasing the national revenue; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 43

Senate Joint Resolution No. 13—Relative to proposed discriminatory and excessive increases in the federal tax on wine.

[Filed with Secretary of State March 14, 1951.]

Protest re wine tax increase

WHEREAS, A recommendation has been made to the Congress of the United States to increase the present excise tax on table wines by 233 percent, from fifteen cents ($0.15) to fifty cents ($0.50) a gallon, and on dessert wines by 150 percent, from sixty cents ($0 60) to one dollar fifty cents ($1.50) a gallon; and

WHEREAS, Such an increase would have the effect of raising the federal tax on grapes from the price of twenty-four dollars ($24) to forty-eight dollars ($48) a ton to eighty dollars ($80) to one hundred twenty dollars ($120) a ton, which is entirely out of proportion to the taxes borne by other farm commodities; and

WHEREAS, Approximately 158,000 American farm families are directly dependent on their vineyard property for their support and under the existing law the tax burden is greater than the amount that grape growers are receiving for producing, harvesting, and hauling their grapes to the winery; and

WHEREAS, The proposed increase in the excise tax on wine would virtually destroy the largest market for grapes and would also completely disrupt the market for fresh table grapes and raisins, thereby resulting in economic chaos throughout the grape-growing regions of this State and of the Nation; and

WHEREAS, The proposed increase in the excise tax on wine will drastically curtail wine consumption by making wine out of reach of the lower income groups who buy the largest percentage of wine consumed today, and such curtailment will lead to diminishing tax returns and will greatly jeopardize the welfare of thousands of growers and farm workers, thereby eliminating a large source of federal income tax; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is hereby respectfully memorialized to refuse enactment of the proposed discriminatory and excessive increase in federal taxes on wines that would be so disastrous to agriculture in this State, and that would fail to accomplish the intended purpose of increasing the national revenue; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 44

Senate Joint Resolution No. 15—Relative to proposed increases in wine excise taxes.

[Filed with Secretary of State March 14, 1951]

Protest re wine tax increase

WHEREAS, The Secretary of the Treasury has proposed to the Ways and Means Committee of the United States House of Representatives that the present excise tax on table wines be increased by 233 percent, from fifteen cents ($0.15) to fifty cents ($0.50) a gallon, and on dessert wines by 150 percent, from sixty cents ($0.60) to one dollar fifty cents ($1.50) a gallon; and

WHEREAS, The growing of grapes is a state-wide agricultural industry involving a total investment exceeding half a billion dollars ($500,000,000) and 506,000 acres of vineyards providing year-round and seasonal employment to 111,000 workers whose annual wages in 1950 totaled one hundred fifty-seven thousand dollars ($157,000); and

WHEREAS, Tax increases of such magnitude would place a tax burden of eighty dollars ($80) or more per ton on grapes grown for table wines as compared to the present tax burden of twenty-four dollars ($24) a ton, and a tax burden of one hundred twenty dollars ($120) a ton on grapes grown for dessert wines as compared to the present tax burden of forty-eight dollars ($48) a ton, which is unreasonably disproportionate to that borne by any other agricultural food product and equivalent to several times the average price of forty dollars ($40) a ton received by California grape growers during the last four seasons; and

WHEREAS, Such an unwarranted and discriminatory increase in taxation would have a disastrous effect upon the agricultural economy of this State and particularly upon the California central coast counties of Napa, Sonoma, Mendocino, Lake, Santa Clara, Santa Cruz, Alameda, San Benito, Solano, San Luis Obispo, Contra Costa, Monterey, and Marin in which a large proportion of the dry table wines consumed in this Country are produced; and

WHEREAS, The proposed increase in this excise tax on wine would not only virtually destroy the largest market for grapes but would also completely disrupt the market for fresh table grapes and raisins, thereby resulting in economic chaos throughout all the grape-growing regions of this State; and

WHEREAS, The proposed tax increase would result in an unreasonable and unfair change in the historical tax ratio between wine and distilled spirits and beer, particularly on the least profitable industry in this field and the one that receives the smallest percentage of the consumer dollar spent for alcoholic beverages; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is respectfully memorialized to refuse to enact proposed discriminatory and unwarranted increases in federal taxes on wines as proposed by the Treasury Department and to accord fair and reasonable treatment to wines in the matter of taxation; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State March 21, 1951]

Immigration of Basque sheepherders

WHEREAS, There exists a serious shortage of skilled sheepherders which is jeopardizing the survival of the sheep raising industry in the United States to the detriment of our national defense effort; and

WHEREAS, In recognition of this shortage which cannot be met on the domestic labor market, the Eighty-first Congress passed Public Law 587, permitting the entry of two hundred fifty Basque sheepherders; and

WHEREAS, The entry of such persons pursuant to Public Law 587 has been barred by an interpretative ruling of the United States Department of Justice that the Internal Security

Act of 1950 prohibits the entry of such persons because of their former membership in the Falangist Party of Spain, which was declared by the Attorney General of the United States to be a totalitarian party; and

WHEREAS, The American Consul at Bilbao, Spain, has already determined that the Basque sheepherders desiring admission have never joined, and have never taken part in any of the activities of, the party, and it appears the basis of the alleged membership was due solely to a declaration by the Government of Spain that anyone who was in the army or attended public schools, or who resided in Spain during the Civil War was a member of the Falangist Party; and

WHEREAS, The Senate Judiciary Subcommittee which handled the Internal Security Act of 1950 has declared that the act does not prevent the entry of such persons, and that the interpretative ruling of the Department of Justice should be changed; and

WHEREAS, On January 29, 1951, Senator McCarran of Nevada introduced S. 728 to specify that the aliens to be excluded are those whose memberships and affiliations with totalitarian organizations were voluntary; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Attorney General of the United States be memorialized to amend his interpretative ruling so as to authorize the entry of the Basque sheepherders pursuant to Public Law 587; and be it further

Resolved, That the Congress of the United States be memorialized to enact S. 728 at the earliest possible date to reiterate and to emphasize the true intent of Congress in the enactment of the Internal Security Act of 1950; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the President, to the President of the Senate, the Speaker of the House of Representatives of the Congress of the United States, to the chairman of appropriate congressional committees, and to each Senator and Representative from California in the Congress of the United States.

Civil defense funds

WHEREAS, The primary purpose of civil defense is to maintain the productive capacity of this Country by limiting damage due to enemy action; and

WHEREAS, Both the National Security Resources Board and the Chief of Staff of the United States Air Force have stated publicly that it is impossible to prevent an effective air attack against the critical target areas of the United States by a strong and determined enemy; and

WHEREAS, The United States can lose a war to such an enemy if any substantial portion of the industries supporting our defense economy is knocked out by air or other enemy attack, including sabotage; and

WHEREAS, Civil defense against atomic or other enemy attack, including sabotage, in order to minimize the effect of enemy and subversive action is as essential to national survival before and during a war as the armed services; and

WHEREAS, The September, 1950, report of NSRB—United States Civil Defense—urged prompt action for organizing the civil defense of the United States in order that the Federal Government might exercise strong and effective leadership in this vital branch of the national security program; and

WHEREAS, Administration recommendations to the Congress contemplate very substantial federal support for such items as fire, rescue, communications, medical and warden's equipment, and for mobile support units, items obviously of first importance to the whole national civil defense system; and

WHEREAS, The State of California will be required to match, on some basis, federal funds made available for the civil defense of critical target areas; and

WHEREAS, The Congress of the United States has failed to declare the national civil defense policy or to make available federal funds to pay the proposed federal civil defense costs as allocated and recommended by the National Security Resources Board; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States be memorialized to appropriate immediately such funds as may be necessary to pay the federal costs of completing the civil defense portion of the national security program; and be it further

Resolved, That the Members of Congress from California be urged to use all means within their power to accomplish the purpose of this resolution for the immediate guidance of the Legislature of the State of California in meeting its civil defense responsibilities; and be it further

WHEREAS, The President and the Federal Congress are ordering controls and limitations on the usage of certain materials essential to the national defense; and

(a) That materials necessary for highway construction, including steel, cement and asphalt, continue to be made available for the purpose of highway construction.

(b) That the Defense Highway Act of 1941 be reactivated, and that appropriations for the "strategic network" and for "access roads" be made under that act, not requiring matching funds by states or counties, adequate to meet defense highway needs, over and above highway authorizations and appropriations already made by the Eighty-first Congress for the next two fiscal years; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State March 23, 1951]

WHEREAS, Postal employees have not received any general wage increase since 1949, in which year they were granted a maximum monthly increase of ten dollars ($10), despite evidence justifying a general increase of forty dollars ($40) per month; and

WHEREAS, Most employees in public service and in private industry have received one or more cost of living wage increases since 1949; and

Resolved by the Assembly of the State of California, the Senate concurring, That the State Personnel Board be commended for its policy of accepting for civil service examinations disabled persons whose impairment is not inconsistent with specified duties and that appointing authorities in every department of the State, and in every county and city, be urged to give due and unprejudiced consideration to the employment of physically handicapped persons on the sole basis of qualifications for the work, to the end that justice be done in affording equality of vocational opportunity for disabled persons and an example be set for private employers as an aid to placement of such persons in private industry and business.

CHAPTER 64

Assembly Joint Resolution No. 19—Relative to the continued propagation of the natural resources of the State with respect to dams constructed by the Bureau of Reclamation.

[Filed with Secretary of State April 2, 1951.]

Propagation of natural resources

WHEREAS, The primary purposes of the construction of dams on streams emptying into the Pacific Ocean or into the Gulf of Lower California by the Bureau of Reclamation are to provide reclamation, irrigation, flood control, and electric power benefits for the State of California; and

WHEREAS, In the construction of dams to attain these primary purposes there is the constant danger that insufficient water will be provided for the continued propagation of the natural resources of the State, such as migratory waterfowl, salmon, steelhead, and other resources dependent upon water; and

WHEREAS, It has always been the understanding of the Legislature of this State that the law and policy of the United States with respect to the development of water resources, the reclamation of land from flood and overflow, and in all other respects is to comply with state laws respecting water; and

WHEREAS, Pursuant to this understanding the United States has been included within the scope of the laws of this State making certain requirements with respect to construction of dams so as to provide for fishways and hatcheries and for screens on conduits, and it is the hope of the people of this State that all federal legislation authorizing the construction of dams on streams in, partially in, or bordering upon this State will be enacted, and that all dams constructed pursuant to said laws will be constructed, with due regard to these state laws; and

WHEREAS, It is of the utmost importance that the necessity of sufficient water for the continued propagation of such natural resources be impressed upon the Bureau of Reclamation so that this phase of the water problems of this State will not be overlooked; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the California delegation in the Congress of the United States to use every means to induce the Bureau of Reclamation, in their construction of dams upon streams emptying into the Pacific Ocean or into the Gulf of Lower California, to provide the necessary water for the con-

tinued propagation of the natural resources of the State of California, such as migratory waterfowl, salmon, steelhead, and other resources dependent upon water; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to each Senator and Representative from California in the Congress of the United States.

CHAPTER 65

Assembly Joint Resolution No. 22—Relative to continuing the 27½ percentage depletion rate for oil producing properties in the Internal Revenue Code.

[Filed with Secretary of State April 2, 1951.]

Depletion rate for oil lands

WHEREAS, Committees of the Congress are considering a reduction of the 27½ percentage yearly depletion rate allowed for income from oil producing properties as provided by the Internal Revenue Code, Section 114 (b) (3); and

WHEREAS, Any reduction would decrease incentive for oil exploration, reduce reserves at time of emergency, cause shut down of marginal wells with a consequent irrecoverable loss of oil, and cripple the program for expanded emergency production; and

WHEREAS, A percentage depletion is the only just method of avoiding a tax on return of capital which is expended on experimental drilling (60 percent of which proves unprofitable); and

WHEREAS, The present income tax laws penalize a taxpayer who produces oil from a well, in that tax advantages would result if he sold the well immediately after discovery, or held it for over six months, the tax on the gains being respectively limited to 30 percent and 25 percent; and

WHEREAS, The percentage depletion of 27½ percent does not fully make up for this vice; and

WHEREAS, The depletion over the years can never exceed the actual amount of capital expended by a taxpayer; and

WHEREAS, The oil industry accounts for 3 percent of the national income but produces 7 percent of all taxes, and any reduction in depletion allowances would further burden an industry paying more than its portion to taxes; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Congress of the United States is respectfully memorialized to refrain from any action which would reduce the present depletion allowance on oil producing properties; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives of the Congress of the United States, and to the Senators and Representatives in Congress from the State of California.

CHAPTER 66

Assembly Joint Resolution No. 24—Relative to assistance in continuing availability of trained manpower in agricultural aviation.

[Filed with Secretary of State April 2, 1951.]

Deferment for agricultural aviators

WHEREAS, The use of aviation for conducting agricultural operations in the State of California has become an integral part of food and fiber production; and

WHEREAS, Agricultural pest control material was applied to 200,000 acres in California in 1946 and by 1949 such operations had been expanded to cover 2,100,000 acres; and

WHEREAS, There have been other extensive agricultural operations carried on by aircraft, such as seeding, fertilizing, and defoliating during this same period; and

WHEREAS, The requirements for increased agricultural production occasioned by the present international situation plus the lifting of acreage restrictions on important California crops indicate that there will be more than 5,000,000 acres of land in California which will be planted, fertilized, defoliated, or treated for control of pests in 1951; and

WHEREAS, This tremendous volume of agricultural aviation activity is accomplished through the efforts of approximately 300 to 350 pilots and 175 to 225 mechanics, both groups requiring special training and experience in the operation and maintenance of aircraft, and for this purpose, and in the peculiar nature of the operations; and

WHEREAS, Approximately 90 percent of these pilots and approximately 70 percent of these mechanics, who are key personnel in continuing the important work of agricultural aviation, are subject to call to active duty with the armed services, either as members of reserve components or by induction through Selective Service procedures; and

WHEREAS, Recall to active duty or induction into the armed services of any of these key personnel, small in number in relation to the total manpower requirements of the services, but large in number in relation to the volume of production affected by their operations, will drastically hamper and eventually cripple vital agricultural services at a time when this Nation and the world require the absolute maximum production of foods and fiber; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to seriously consider delaying a call for immediate service in the armed forces of those persons now employed as pilots and trained mechanics in operation of aircraft for agricultural uses until adequate replacements may be procured and trained; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Secretaries of Defense, Army, Navy, Air Force, Agriculture, and Labor, to each Senator and Representative from California in the Congress of the United States, to the Chairman of the Joint Chiefs of Staff of the United States, and to the Director of the Selective Service System.

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States is hereby memorialized and requested to provide in any appropriation act enacted to match states' expenditures for civil defense that states making civil defense expenditures prior to the effective date of the appropriation act shall receive a credit for such expenditures; and be it further

Assembly Constitutional Amendment No. 1—A resolution to propose to the people of the State of California an amendment to the Constitution of the State, by amending Section 8 of Article XI thereof, relating to the charters of cities and cities and counties.

[Filed with Secretary of State April 19, 1951.]

Constitution Amendment Sec. 8 of Art. XI, re city and city and county charters

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1951 Regular Session commencing on the eighth day of January, 1951, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending Section 8 of Article XI of the Constitution to read as follows:

SEC. 8. (a) Any city or city and county containing a population of more than 3,500 inhabitants, as ascertained by the last preceding census taken under the authority of the Congress of the United States or of the Legislature of California, may frame a charter for its own government, consistent with and subject to this Constitution; and any city or city and county having adopted a charter may adopt a new one. Any such charter may be framed by a board of 15 freeholders chosen by the electors of such city or city and county, at any general or special election, but no person shall be eligible as a candidate for such board unless he shall have been, for the five years next preceding, an elector of said city or city and county. An election for choosing freeholders may be called by a two-thirds vote of the legislative body of such city or city and county, and on presentation of a petition signed by not less than 15 percent of the registered electors of such city or city and county, the legislative body shall call such election at any time not less than 30 nor more than 60 days from date of the filing of the petition. Any such petition shall be verified by the authority having

Constitution Amendment

charge of the registration records of such city or city and county and the expenses of such verification shall be provided by the legislative body thereof.

(b) Candidates for the office of freeholders shall be nominated either in such manner as may be provided for the nomination of officers of the municipal or city and county government or by petition, substantially in the same manner as may be provided by general laws for the nomination by petition of electors of candidates for public offices to be voted for at general elections.

(c) At such election the electors shall vote first on the question "Shall a board of freeholders be elected to frame a proposed new charter?" and secondly for the candidates of the office of freeholder. If the first question receives a majority of votes of the qualified voters voting thereon at such election, the 15 candidates for the office of freeholder receiving the highest number of votes shall forthwith organize as a board of freeholders, but if the first question receives less than a majority of the votes of the qualified voters voting thereon at such election no board of freeholders shall be deemed to have been elected.

(d) The board of freeholders shall, within one year after the result of the election is declared, prepare and propose a charter for the government of such city or city and county. The charter so prepared shall be signed by a majority of the board of freeholders and filed in the office of the clerk of the legislative body of said city or city and county. The legislative body of said city or city and county shall, within 15 days after such filing, cause such charter to be published once in the official newspaper of said city or city and county and each edition thereof, during the day of publication (or in case there be no such official newspaper, in a newspaper of general circulation within such city or city and county and all the editions thereof issued during the day of publication) and in any city or city and county with over 50,000 population shall cause copies of such charter to be printed in convenient pamphlet form and in type of not less than 10-point and shall cause copies thereof to be mailed to each of the qualified electors of such city or city and county, and shall, until the day fixed for the election upon such charter, advertise in one or more newspapers of general circulation in said city or city and county a notice that copies thereof may be had upon application therefor.

(e) Such charter shall be submitted to the electors of such city or city and county at a date to be fixed by the board of freeholders, before such filing and designated on such charter, either at a special election held not less than 60 days from the completion of the publication of such charter as above provided, or at the general election next following the expiration of said 60 days.

(f) As an alternative, the legislative body of any such city or city and county, on its own motion may frame or cause to be framed, a proposed charter and submit the proposal for the adoption thereof to the electors at either a special election

called for that purpose or at any general or special election. Any charter so submitted shall be advertised in the same manner as herein provided for the advertisement of a charter proposed by a board of freeholders, and the election thereon held at a date to be fixed by the legislative body of such city or city and county, not less than 40 nor more than 60 days after the completion of the advertising in the official paper. Constitution Amendment

(g) If a majority of the qualified voters voting thereon at such general or special election shall vote in favor of such proposed charter, it shall be deemed to be ratified, and shall be submitted to the Legislature, if then in session, or at the next regular or special session of the Legislature. The Legislature shall by concurrent resolution approve or reject such charter as a whole, without power of alteration or amendment; and if approved by a majority of the members elected to each house it shall become the organic law of such city or city and county and supersede any existing charter and all laws inconsistent therewith. One copy of the charter so ratified and approved shall be filed with the Secretary of State, one with the recorder in the county in which such city is located, and one in the archives of the city, and in the case of a city and county one copy shall be filed with the recorder thereof, and one in the archives of such city and county; and thereafter the courts shall take judicial notice of the provisions of such charter.

(h) The charter of any city or city and county may be amended by proposals therefor submitted by the legislative body thereof on its own motion or on petition signed by 15 percent of the registered electors, or both. Such proposals shall be submitted to the electors at either a special election called for that purpose or at any general or special election. Petitions for the submission of any amendment shall be filed with the legislative body of the city or city and county not less than 60 days prior to the general election next preceding a regular session of the Legislature. The signatures on such petitions shall be verified by the authority having charge of the registration records of such city or city and county, and the expenses of such verification shall be provided by the legislative body thereof. If such petitions have a sufficient number of signatures the legislative body of the city or city and county shall so submit the amendment or amendments so proposed to the electors. Amendments proposed by the legislative body and amendments proposed by petition of the electors may be submitted at the same election. The amendments so submitted shall be advertised in the same manner as herein provided for the advertisement of a proposed charter, and the election thereon, held at a date to be fixed by the legislative body of such city or city and county, not less than 40, and not more than 60, days after the completion of the advertising in the official paper.

(i) If a majority of the qualified voters voting on any such amendment vote in favor thereof, it shall be deemed ratified, and shall be submitted to the Legislature if then in session, or at the regular or special session next following such election;

and approved or rejected without power of alteration in the same manner as herein provided for the approval or rejection of a charter.

(j) In submitting any such charter or amendment separate propositions, whether alternative or conflicting, or one included within the other, may be submitted at the same time to be voted on by the electors separately, and, as between those so related, if more than one receive a majority of the votes, the proposition receiving the largest number of votes shall control as to all matters in conflict. It shall be competent in any charter framed under the authority of this section to provide that the municipality governed thereunder may make and enforce all laws and regulations in respect to municipal affairs, subject only to the restrictions and limitations provided in their several charters and in respect to other matters they shall be subject to general laws. It shall be competent in any charter to provide for the establishment of a borough system of government for the whole or any part of the territory of the city or city and county governed thereby, by which one or more boroughs or districts may be created therein and to provide that each borough or district may exercise such general or special municipal powers, and to be administered in such manner, as may be provided for such boroughs and districts in the charter of the city or city and county.

(k) The percentages of the registered electors herein required for the election of freeholders or the submission of amendments to charters shall be calculated upon the total vote cast in the city or city and county at the last preceding general state election; and the qualified electors shall be those whose names appear upon the registration records of the same or preceding year. The election laws of such city, or city and county shall, so far as applicable, govern all elections held under the authority of this section.

Sec. 273. Any petition submitting a proposed ordinance, legislative, administrative or executive, to the Council, as provided in this article, shall be in the form, and shall be signed, filed and certified as follows:

(a) In printing such petitions, sheets of white No. 1 Sulphite, or better, paper, size 8½ inches by 14 inches, not less than 16 pound substance, shall be used. Such petitions shall consist of separate sections.

(b) Each section shall consist of a sheet, or sheets, containing the heading in 24 point capital type; the request, followed by the names and addresses of five electors of the city, who, as a committee of petitioners, shall be officially recorded as sponsoring and filing the petition, in 10 point upper and lower case; the ordinance in 12 point type; and the balance in 8 point type.

(c) A short title, not exceeding twenty words, showing the nature of the petition and the subject to which it relates, shall be printed on the first sheet of each section and also on all succeeding sheets of each section, but the request, ordinance, or other printed matter need be printed only on the first sheet of each section.

(d) Each sheet, except the first sheet of each section, shall contain 27 signature lines of 24 point ruling to the sheet; each line numbered consecutively, starting with number one on the first sheet, all numbers indented at least one-half inch from left margin. On the bottom of all but the last sheet there shall be a line under which shall be printed in 8 point type the words "Identification Signature."

(e) All petitions shall be signed by registered, qualified electors of the city in their own proper person, in ink or indelible pencil, and opposite his signature there shall be written by each signer, in his own handwriting, his precise residence address at the time of signing, giving street and number, when such designation can be given. If no street or number exists, then a designation of the place of residence shall be given which will enable the location to be readily ascertained. The date of each signature shall be shown but need not be in the handwriting of the signer. A petition when filed must have designated thereon the name or number of the respective precinct in which each of the signers resides. The signatures on the petition need not all be appended to one paper. In order to be acceptable for filing, the petition must on its face purport to have appended to it signatures in the required number, and all names signed to a petition must have been secured not more than six months prior to the date of filing. In the event any name shall have been affixed more than six months prior to the date of filing of the petition, such name shall not be counted in determining the sufficiency of the petition.

(f) Each individual section shall have attached thereto at the bottom of the last sheet thereof in 10 point upper and lower case the following affidavit, which shall be sworn to by the person circulating such section: Petition

No names on any section of any petition shall be considered valid unless such affidavit is properly executed and affixed to such section of the petition prior to its being filed with the City Clerk.

(g) All sheets of each section shall be backed in colored manuscript cover, weight to be not less than 16 pound basis, with 1 inch foldover at the top and stitched with three wire stitches. Sections shall be numbered consecutively in center of cover binding edge, starting with number 1.

(h) Within thirty days from the date of the filing of such petition, the City Clerk shall examine the same and ascertain whether or not said petition is signed by the requisite number of qualified registered electors of the city by searching for the original affidavit of registration in the precinct book bearing the same number as that which was written on the petition. Signatures shall be considered valid only if an affidavit is found in said precinct book dated on or prior to the time of signing and the signature and address correspond with that on the petition. The City Clerk may discontinue the further checking of a petition after having obtained the number of names required by law.

Petition

(i) When the City Clerk has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination, and if from such examination he shall find that said petition is signed by the requisite number of electors of the city, he shall certify that the same is sufficient or insufficient as the case may be.

If by the certificate of the City Clerk the petition is found to be insufficient, it may be supplemented by filing, within ten days, a supplemental petition, in form a duplicate of original petition, bearing additional signatures, secured within such ten day period. No signature on a supplemental petition shall be considered valid if it is shown by the date affixed to the petition that it was signed prior to the date of the certificate of insufficiency of the City Clerk to the original petition, or if that signature appeared on the original petition and was previously given proper credit. The City Clerk shall, within ten days after the filing of such supplemental petition, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If his certificate shall show any such petition, or any such petition as supplemented, to be insufficient, it shall be retained by him and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect after the expiration of six months from date of City Clerk's certificate. But if, by the certificate of the City Clerk, such petition, or such petition as supplemented, is shown to be sufficient, the City Clerk shall present the same to the Council without delay. The sufficiency or insufficiency of such petition shall not be subject to review by the Council.

If any supplemental petition is properly filed as herein provided, all valid signatures appended to the original petition and to the supplemental petition shall be considered in determining the sufficiency or insufficiency of such petition.

(j) Any signer to a petition or supplemental petition may withdraw his name by filing with the City Clerk a verified revocation of his signature before the filing of the petition or supplemental petition containing his signature, with said City Clerk. No signature can be revoked after the petition, or supplemental petition to which it is attached, has been filed. The City Clerk shall endorse on said petition and on any supplemental petition the name of the person or persons who filed the same, respectively. If any signature to such petition or supplemental petition be questioned and in the judgment of the City Clerk should be investigated, the City Clerk shall forthwith mail notice to such purported signer, stating that his name is attached to such petition or supplemental petition, and cite him to appear before him forthwith to answer whether such signature is genuine. If the City Clerk finds that any signature is not genuine, he shall strike the same from such petition. After an election based on any petition, the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

(k) All petitions hereinabove referred to which have been filed with the City Clerk shall be retained by him for one year. If a contest is not commenced within one year from the date of the certificate of the City Clerk to the City Council, the City Clerk may then destroy the petition, unless it has been entered in evidence in some action or proceedings then pending, with the exception of that section marked "No. 1", to which shall be attached his certificate, and which copy shall be kept indefinitely. Petition

(*l*) The sponsors of a petition shall be fully responsible for such petitions being complete in every detail and in proper form when filed with the City Clerk No amendments, changes, alterations or corrections of any kind, clerical or otherwise, shall be permitted to be made in any petition subsequent to it being filed with the City Clerk.

Sec. 274.1. In the event that said petition prays for the submission of a proposed ordinance amending or repealing an ordinance theretofore proposed by petition and adopted by a vote of the electors, and is signed by qualified electors of the city equal in number to fifteen per cent (15%) of the qualified voters of the city, estimated on the basis aforesaid, then but not otherwise, the Council must submit such proposed ordinance to a vote of the electors of the city at the next election for any purpose at which all the qualified voters of the city are entitled to vote, that shall be held at any time after ninety (90) days from the date of the certification of such petition to the Council by the City Clerk.

Sec. 283. Upon presentation to the Council by the City Clerk of a referendary petition or petitions, the ordinance, order, or resolution, the submission of which to a referendary vote is thereby demanded, must be either repealed by the Council without delay, or submitted to a vote of the qualified electors of the city for approval or rejection at the next general municipal election occurring subsequent to ninety (90) days from the date of the certification of such referendary petition to the Council by the City Clerk; provided, that if before such general municipal election, any other election for any purpose at which all the qualified voters of the city are entitled to vote shall be held in said city, then such ordinance, order, or resolution shall be so submitted at such last named other election if held subsequent to ninety (90) days from date of certification, if the Council may so determine; provided, however, that the Council may, in its discretion, at any time subsequent to the presentation of such petition, call a special election at which the ordinance, order, or resolution contained in such petition may be submitted to a referendary vote, but not less than ninety (90) days subsequent to the certification of the petition.

CHARTER AMENDMENT NO 6

Sections 290 and 295 of the Charter of The City of Los Angeles are amended to read:

Sec. 290. Any incumbent of an elective office, whether elected by vote of the people or appointed to fill a vacancy, may Recall

Recall

be removed from office by the qualified electors of the City of Los Angeles, as hereinafter provided. Such removal of the incumbent of an office shall be known as the recall, and the procedure to effect the removal of an incumbent of an elective office shall be as hereinafter provided.

(a) A petition signed by qualified electors equal in number to at least twenty per cent of the entire vote cast for all candidates for the office, the incumbent of which is sought to be removed, at the last preceding general municipal election, or primary nominating election, at which an incumbent of such office was elected, demanding the submission to the electors of the city of the question whether the incumbent of such office shall be removed by vote of such electors, and if so removed, the election of a successor of such incumbent, shall be addressed to the Council and filed with the City Clerk. If said petition demands the submission of the question of the removal of a member of the Board of Education or of a member of the Council elected at large, said twenty per cent shall be computed in the case of the recall of a member of the Board of Education, upon the total number of votes cast for all candidates for the Board of Education at the last general election at which members of the Board of Education were elected, divided by the number of members of the Board of Education elected at said election; and in the case of the recall of a member of the Council, elected at large, upon the total number of votes cast for all candidates for the Council at the last general election at which members of the Council were elected, divided by the number of members of the Council elected at said election. In case councilmen shall be elected by districts, instead of at large, the twenty per cent above provided for shall be computed upon said total number of votes cast within the district from which the councilman, for whose recall the petition asks, was elected, and only the signatures of registered voters living within said district shall be counted in computing said twenty per cent. At any such recall election of a councilman elected from a district, only voters within the district shall be entitled to vote. Such petition shall contain a general statement of the grounds for which such removal is sought, of not more than three hundred words in length, and the sufficiency of such statement shall not be subject to review; provided, however, that no petition for the removal of any elective officer shall be so filed until he has actually held his office for three months.

(b) Except as otherwise herein provided, the provisions of this article relating to the form and to the mode of signing initiative petitions, and to the filing, examining, certifying, supplementing, presenting to the Council, and the retaining thereof, shall apply to any petition filed with the City Clerk under this section. Such petition shall be designated as a recall petition. The sufficiency or insufficiency of any recall petition shall not be subject to review by the Council.

(c) Before submitting the petition for signatures, its proponents shall publish a notice of intention so to do. The

notice shall be accompanied by a printed statement, not exceeding 300 words in length, of the reasons for the proposed recall. The notice and statement shall be published at least once in a newspaper of general circulation published in the city.

(d) A copy of the notice of intention shall be served upon, or sent by registered mail to the officer sought to be recalled and an affidavit of such service shall be filed forthwith with the clerk of the legislative body of the city. The affidavit shall designate the mode in which service was made.

(e) Within 14 days after the publication of the notice and statement, the officer sought to be recalled, or anyone upon his behalf, may publish an answer to the statement. The answer to the statement shall not exceed 300 words in length, and shall be published in a newspaper of general circulation published in the city. The statement and answer are intended solely for the information of the voters and no insufficiency in the form or substance thereof shall affect in any manner the validity of the proceedings taken under this charter.

(f) Twenty-one days after the publication or posting of the notice and statement, the petition demanding the recall of the officer may be circulated among the qualified voters of the city for the securing of signatures. The petition shall bear a copy of the printed notice of intention and accompanying statement and the answer, if any. If the officer has not answered, the petition shall so state. Signatures shall be secured and the petition filed within six months from the first day to circulate.

(g) Upon the presentation of such recall petition to the Council by the City Clerk, the Council shall thereupon, by ordinance, order the holding of a special election for the purpose of submitting to the electors of the city at large or in the district, as the case may be, the question whether such officer shall be recalled, and if recalled, for the election of his successor. Such special election shall be held not less than seventy-five days nor more than ninety days after the date of the certificate of the City Clerk to the sufficiency of such recall petition; provided, however, that if any other election for any purpose at which all the qualified voters of the city are entitled to vote, is to occur not less than sixty nor more than ninety days after the date of such certificate, the Council may, in its discretion, order the holding of such recall election, and the consolidation thereof with such other election, occurring not less than sixty nor more than ninety days after the date of said certificate of the City Clerk.

Nomination

Sec. 295. Any candidate to be voted for at a recall election, other than the incumbent sought to be removed, may be nominated by petition, which petition shall conform to the provisions of this charter so far as applicable relating to nominating petitions at primary nominating elections. Each petition must be filed with the City Clerk within 15 days from the date of the City Clerk's certification as to the sufficiency of the recall petition. The City Clerk shall have available nominating petitions for the candidates at the time of certification to the sufficiency

of the petition, and nominating petitions may be circulated upon the City Clerk's certificate of sufficiency. In a recall election a filing fee equal to two per cent of the first year's salary shall be paid to the City Clerk by each candidate at the time of taking out nominating petitions, notwithstanding the provisions of Sections 318.1 and 320 of this charter.

Immediately upon the presentation of any such petition the City Clerk shall ascertain and determine, in the manner hereinbefore provided in Charter Section 273, whether or not such petition is signed by the requisite number of qualified electors of the city or district. The City Clerk, within five days after filing thereof, shall attach his certificate to such petition, showing the result of his examination. If it shall appear therefrom that any such petition is not signed by the requisite number of qualified registered electors, the same may be supplemented within three days from the date of such certificate by filing a supplemental petition in form a duplicate of the original petition. The City Clerk shall, within five days after such supplemental petition is filed, make like examination thereof and shall certify the result of such examination, but no further supplemental petition shall be allowed. If any such petition, as supplemented by a supplemental petition, be signed by the requisite number of qualified registered electors, both the original petition and supplemental petition being considered together for that purpose, the person therein named shall be deemed to be nominated as a candidate to be voted for at such recall election.

CHAPTER 84

Senate Concurrent Resolution No. 41—Relative to urging the Regents of the University of California to appeal the decision relating to the loyalty statement.

[Filed with Secretary of State April 25, 1951]

Determination by Supreme Court re loyalty statement

WHEREAS, The District Court of Appeal of the State of California, in and for the Third Appellate District, on April 6, 1951, ordered the issuance of a writ of mandate to compel the Board of Regents of the University of California to issue to the petitioners, who were members of the faculty of the University of California, letters of appointment to their respective positions with the university; and

WHEREAS, The Regents of the University of California have previously refused to issue such letters of appointment because of the failure of such persons to sign a statement that they were not members of the Communist Party or any other organization which advocates the overthrow of the government by force or violence and that they had no commitments in conflict with their responsibilities with respect to impartial scholarship and free pursuit of truth; and

WHEREAS, The court held that the requirement of such a statement of the petitioners as a condition of appointment was in conflict with Article XX, Section 3, of the Constitution which prohibits the requirement of any oath, other than the constitutional oath of office, of "Members of the Legislature, and all officers, executive and judicial"; and

WHEREAS, The decision of the court was based upon the theory that the framers of the Constitution in using such language intended to make Article XX, Section 3, applicable to persons such as the members of the faculty of the university; and

WHEREAS, This appears to be the first case in which an appellate court has construed Article XX, Section 3, as being applicable to members of the faculty of the university; and

WHEREAS, The effects of such a ruling are far reaching and cast grave doubts as to the applicability of the state loyalty oath to other persons employed by the University of California; and

WHEREAS, A final determination of this novel question by the highest court of this State is of utmost importance to the legislative and executive, as well as the judicial, branches of our State Government in the performance of their respective obligations and responsibilities to the people; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby urges the Regents of the University of California to take the necessary steps to obtain a final determination by the Supreme Court of the State of California on this question of far-reaching significance; and be it further

Resolved, That the Attorney General of the State of California is requested to offer his services on behalf of the Executive Branch of the Government, to the Regents of the University of California, with respect to this matter; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to each Regent of the University of California, and to the Attorney General of the State of California.

Such retirement allowance shall be paid until the date upon which said member would have qualified for service retirement had such member rendered service without interruption, and on and after said date said retirement allowance shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the compensation attached to the average rank held during the one (1) year next preceding retirement. If at the time of retirement for disability, the member is qualified for retirement for service, said member shall receive a retirement allowance computed under the provisions of Section 241.

(b) Any member of the Police or Fire Department who becomes incapacitated for the performance of duty for any cause not included in the provisions of the preceding paragraph (a) and who shall have completed at least ten (10) years of service in the aggregate, shall be retired upon a retirement allowance calculated under Section 241, if he has attained the age of fifty-five (55) years, otherwise upon a retirement allowance equal to

one and one-half (1½%) per cent of the compensation attached to the average rank held by such member during the three (3) years next preceding such retirement for each year of service, provided that said retirement allowance shall not be less than thirty-three and one-third (33⅓%) per cent of said compensation. SECTION 244: DEATH FROM SERVICE-CONNECTED CAUSES

Death in line of duty

If a member of the System shall die before or after retirement by reason of an injury received in, or illness caused by or arising out of the performance of duty, an allowance shall be paid to the dependents of such member in the order of succession established by Section 245, in the following amount:

(1) If the member at the time of death was qualified for service retirement, but had not retired, the allowance shall be equal to the retirement allowance which the member would have received if he had retired for service on the day of death, but such allowance shall not be less than one-half (½) of the compensation attached to the rank held by such member at the time of his death.

(2) If death occurs prior to qualification for service retirement, the allowance shall be equal to one-half (½) of the compensation attached to the rank held by such member at the time of death.

(3) If death occurs after retirement, the allowance shall be equal to the retirement allowance of the member, except that if retirement was for disability due to performance of duty, and if death occurred prior to the date upon which the member would have qualified for service retirement, the allowance shall be reduced upon said date in the same manner as it would have been reduced had the member not died. If retirement was for disability not due to performance of duty, the allowance shall not be less than one-half (½) of the compensation attached to the average rank held by the member during the one (1) year immediately preceding retirement.

(4) The allowance provided for in paragraphs (1) and (2) immediately preceding, if payable to the widow of such member, shall be increased while there are children of such member as provided in Section 245.

(5) The widow of such member shall be eligible to receive the allowance provided for in this section without regard to the time of her marriage to such member, provided that in the event the death of such member shall occur after retirement,

such marriage shall have occurred at least one year prior to retirement.

SECTION 245: DEATH OF MEMBER; PAYMENT OF BENEFITS; ORDER OF SUCCESSION

Beneficiary of death payment

(1) In cases in which a benefit is payable to the dependents of a deceased member under the provisions of this Article, such benefit shall be payable to the family of such member in the following order of succession:

(a) To the widow of such member as long as she shall remain unmarried, provided that, if death occurred after retirement, she shall have been married to the decedent at least one (1) year prior to his retirement; and provided further, that in the event such decedent leaves surviving him a child or children and if death occurred prior to retirement, an additional amount shall be paid to such widow during the lifetime of each child until said child shall have married or attained the age of eighteen (18) years as follows: For one child, twenty-five (25%) per cent of the allowance provided for in this Article; for two children, forty (40%) per cent of such allowance; and for three or more children fifty (50%) per cent of such allowance, provided that the aggregate payments to the widow under this section shall not exceed seventy-five (75%) per cent of the compensation attached to the rank held by the decedent at the time of his death.

(b) In the event the decedent shall leave surviving him no widow eligible to receive said allowance, but shall leave a child or children under the age of eighteen (18) years, or should the decedent leave an eligible widow and a child or children under the age of eighteen (18) years and the widow die or remarry while said child or children are yet under the age of eighteen (18) years, then to such child or children collectively until the youngest child attains the age of eighteen (18) years, provided that no child shall receive any such allowance after attaining the age of eighteen (18) years or marrying.

(c) In the event the decedent shall leave surviving him no eligible widow, child or children but shall leave a parent or parents dependent on said member for their support, then to such parent or parents collectively in an amount or amounts to be determined by the Board in the proportion that the degree of support furnished by decedent bears to the allowance which would have been payable to an eligible widow of such decedent.

(2) In the event a deceased member leaves no dependents qualified to receive an allowance, there shall be payable a death benefit as follows:

(a) If death occurs before retirement, a sum equal to the member's accumulated contributions in the Fund plus an amount equal to one-twelfth ($\frac{1}{12}$) of the annual compensation attached to the rank held by such member at the time of death for each completed year of service as a member of the Police or Fire Department, not to exceed six (6), to his designated beneficiary, and if none, then to the estate of such member.

(b) If death occurs after retirement, then the sum of One Thousand Dollars ($1,000.00) to the beneficiary designated by such member, or if none, then to the estate of such decedent.

SECTION 246: NO FORFEITURE OF PENSION EARNED.

Forfeiture

Whenever any member of the System or a dependent of such member receiving a retirement allowance under the provisions of this Article shall wilfully disobey any rule or regulation of the Board with the intention of being insubordinate, or shall be convicted of a felony or shall become dissipated or shall become an habitual drunkard, in such event the Board may order that the retirement allowance payable to such member or dependent shall not be paid to such person but shall thereupon become payable to the family of such member next in order of succession as provided in Section 245 of this Article.

SECTION 247: HERNIA, HEART TROUBLE AND PNEUMONIA.

Hernia heart trouble, pneumonia

The terms "injury" or "illness" as used in this Article shall be construed to include hernia, heart trouble and pneumonia which develops or manifests itself during a period while a member of the System is in the active service of the Police or Fire Department. Such hernia, heart trouble or pneumonia so developing or manifesting itself shall be presumed to have been caused by and to have arisen out of and in the course of the performance of duty in such active service. This presumption is disputable and may be controverted by other evidence, but unless so controverted, the Board is bound to find in accordance with it.

SECTION 248:

Retirees. Restrictions

(1) No member of the System who is retired for service or disability under this Article shall hold any elective or appointive position in the service of the City of Oakland, including membership on Boards or Commissions, nor shall any such person receive any payment for service rendered to the City, provided that service as an election officer or juror shall not be affected by this section.

(2) Retired members of the System or dependents of such members under the provisions of this Article shall not be subject to residence requirements.

SECTION 249:

Effect of recovery

(1) In the event of the death of or injury to any member of the System caused by the unlawful or negligent act of a third person while such member is acting in the performance of duty as a member of the Police or Fire Department or otherwise, any judgment for damages for such death or injury recovered by such member or dependent or personal representative shall not affect in any manner the amount of any allowance or death benefit payable to such member or dependents under the provisions of this Article. This section shall not be construed as in any manner prohibiting the City of Oakland or the Retirement System from recovering from said third person its damages.

(2) It is the intention of this section that allowances granted to or on account of members of the System for injury, illness or death incurred in the performance of duty shall not be cumulative with benefits under the Labor Code of California awarded as the result of the same injury, illness or death. If any member of the System or dependent receives compensation under the Labor Code for disability or death arising out of and in the course of the performance of duty, any payment on account thereof shall be applied as a credit and set off against any payment on account of salary granted to such member under Articles XIV and XV; or retirement allowance or other benefit granted to or on account of such member under the provisions of this Article as follows:

(a) If the amount is paid in one sum or in installments equal to or greater than such salary, retirement allowance, or other benefit, such member or dependent shall not receive any salary, retirement allowance, or other benefit until the total amount of the salary, retirement allowance, or other benefit which would otherwise be payable equals the total amount received under the Labor Code.

(b) If the amount is paid in installments less than such salary, retirement allowance, or other benefit, the salary, retirement allowance or other benefit shall be reduced so that the total of salary, retirement allowance, or other benefit plus the amounts received under the Labor Code will equal the salary, retirement allowance or other benefit which would otherwise be due.

(c) In either case any award specifically granted for medical, surgical, or hospital expenses shall not reduce the salary, retirement allowance, or other benefit.

(3) No benefits shall be paid under this Article on the basis of an award by the Industrial Accident Commission of the State of California.

Death without line of duty

SECTION 250: DEATH FROM NONSERVICE-CONNECTED CAUSES

In the event of the death of a member of the System under this Article, from causes other than injury received in or illness caused by or arising out of the performance of duty, a benefit shall be payable as follows:

(a) Whenever any member of the System, other than a retired member or a member eligible to retire for service, who shall have completed ten (10) years or more of service in the aggregate, shall die from causes other than those arising out of the performance of duty, then an allowance equal to thirty-three and one-third (33⅓%) per cent of the compensation attached to the rank held by such member at the time of death, shall be paid to the dependents of such member as provided in Section 245, and increased while there are children of such member as provided in that section.

(b) Where the member does not qualify under the provisions of paragraph (a) next preceding, one-twelfth (1/12th) of the annual compensation attached to the rank held by the

member at the time of his death, for each completed year of service in the Police or Fire Department, not to exceed six (6), plus the accumulated contributions of such member in the Fund, said aggregate sum to be payable to the dependents of such member pursuant to the order of succession established by Section 245.

(c) If there be no dependents eligible to receive such benefits under the provisions of Section 245, said aggregate amount in paragraph (b) next preceding shall be payable to the designated beneficiary of such member or if none, then to the estate of such member.

SECTION 251: RESIGNATION OR DISMISSAL.

Resignation or dismissal

Should a member of the System cease to be a member of the Police or Fire Department through any cause other than death or retirement, the member's accumulated contributions in the Fund shall be refunded to such member. If such person shall subsequently become a member of the Police or Fire Department, he shall re-deposit in the Fund in a manner to be determined by the Board, the amount so refunded plus interest from the date of refund to the date of redeposit, in which event said member shall be entitled to credit for all service rendered prior to withdrawal as such member.

SECTION 252: MEMBERS' AND CITY'S CONTRIBUTIONS.

Contributions

All payments provided for or on account of persons who are members under this Article and for or on account of persons who remain as members or who have been members of the Funds under Articles XIV and XV, shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member who exercises the option in Section 233 shall be five and one-half per cent (5½%). The normal rate of contribution of each person who becomes a member of the Police or Fire Department after the effective date of this Article shall be based on his age taken to the next lower completed quarter year, at the date he becomes a member of the Police or Fire Department, and shall be such as, on the average for each such member, will provide, assuming service without interruption, one-fourth (¼) of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying for retirement under Section 241, and assuming the contribution to be made from the date of his entrance into the Police or Fire Department.

(2) The dependent rate of contribution of each person who becomes a member of the Police or Fire Department after the effective date of this Article, shall be such as, on the average for such member, will provide, assuming service without interruption, and upon his first qualifying for service retirement under Section 241, one-fourth (¼) of the portion of his allowance, which is to be continued under Section 241, after his death and throughout the life of a surviving wife whose age at said

Contributions

death is three years less than the age of said member, or, as the case may be, a surviving husband whose age at said death is three years more than the age of said member. The dependent rate of contribution of each member who exercises the option in Section 233, shall be one and one-half per cent (1½%). If at the date of retirement for service or retirement for disability, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith.

(3) The normal rate of contribution of persons who remain members under Articles XIV and XV, shall be five per cent (5%). Such rate shall be applied to compensation, on and after the effective date of this article, as described in paragraph (4) of this section. Such persons shall not have dependent contribution rates.

(4) There shall be deducted from each payment of compensation made to a member throughout his membership, a sum determined by applying the member's normal and dependent rates of contribution to such compensation payment. Except for persons who remain members under Articles XIV and XV, the sum so deducted shall be credited forthwith to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon, shall be applied, according to the mortality tables and interest rate adopted by the Board, to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this Article, including continuance to the surviving wife, or shall be paid to said member or his estate or beneficiary as provided in this article.

(5) Members' contributions deducted from compensation earned prior to the effective date of this Article, and after May 3, 1943, shall not be considered in the determination of allowances, and shall be paid to the Retirement System, with interest, by the City when said accumulated contributions otherwise are payable to or on account of members by the Retirement System.

(6) The City shall contribute to the Retirement System such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this Section, to provide the benefits payable under this Article and Articles XIV and XV. Such contributions of the City with respect to members who exercise the option in Section 233, shall be equal during each fiscal year to the benefits payable to or on account of such members during such year, less the portion of the benefits provided by the respective member's accumulated contributions as provided in paragraph (4) of this Section. Such contributions of the City with respect to persons who remain members under Articles XIV and XV, and former members under said Articles, shall be equal during each fiscal year, to benefits payable to or on account of such members during such year, less the normal contributions deducted during such year from such members' compensation, under paragraph (4) pre-

ceding. Such contributions of the City with respect to persons who become members of the Police or Fire Department after the effective date of this Article, shall be made in annual installments and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to such persons, said percentage to be twenty-four and thirty-one one-hundredths per cent (24-31/100%), until redetermined by the Retirement Board on the basis of the periodical actuarial valuation and investigation into the experience under the System. At such redetermination, said percentage shall be the ratio at the date of the periodical actuarial valuation, of the present value of the benefits thereafter to be paid under this Article from contributions of the City, and to or on account of such members, less the amount of the City's contributions plus accumulated interest thereon, then held by said System to provide such benefits, to the value at said date of compensation thereafter payable to said member. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service, and of death after retirement. On and after the effective date of such redetermination, the City shall contribute at the percentage fixed by the Board. The total amount, as determined by the Board, of the contributions required during any fiscal year of the City under the Retirement System shall be paid into the Retirement Fund by the City during such year. The contributions made by the City pursuant to the provisions of this paragraph in lieu of contributions which the member otherwise would have made, shall be made available only for the purpose of retirement and death after the completion of ten (10) years of service in the aggregate, and in the event of the resignation or dismissal of said member from service as a member of the Police or Fire Department prior to qualifying for service retirement, or in the event of the death of such member from causes not arising out of the performance of duty prior to the completion of ten (10) years of such service, any withdrawal of accumulated contributions by such member or any death benefit payable by reason of such death shall include only that portion of the accumulated contributions actually made by such member. For the purposes of this Article, a war involving the United States as a belligerent exists: (a) whenever Congress has declared war and peace has

not been formally restored; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

CHAPTER 104

Senate Joint Resolution No. 19—Relating to federal support for vocational education

[Filed with Secretary of State May 8, 1951.]

Federal appropriation for vocational training

WHEREAS, Vocational training in agriculture, trades and industries, homemaking, business and similar fields is an essential part of public education in our high schools and junior colleges; and

WHEREAS, This practical occupational training is increasingly vital in this period when food and industrial production and the maintenance of homes is so necessary to the national economy; and

WHEREAS, The State of California has for 34 years enjoyed the most harmonious cooperative relationship with the Federal Government in establishing and conducting through local secondary schools such necessary occupational training; and

WHEREAS, In view of the imminent drafting of those 18 years of age or thereabouts, it is essential that they receive the

very finest occupational training before their induction into the armed forces; and

WHEREAS, The action of the Federal Bureau of the Budget in attempting to divert some ten million dollars ($10,000,000) of the nineteen million dollars ($19,000,000) federal "George-Barden" appropriation for vocational education to a nonexistent emergency fund is directly opposed to the recommendation of chief state school officers throughout the Nation; and

WHEREAS, The recommendation of the Bureau of the Budget is without precedent in almost 35 years in the operation and support of this cooperative program; and

WHEREAS, National preparedness for the future is dependent upon the occupational competency of our people; and

WHEREAS, It seems to be short-sighted economy to deprive the generation now in school of its right to occupational training; and

WHEREAS, The state and local support of vocational instruction in California has been increased rather than decreased; and

WHEREAS, This purported action by the Bureau of the Budget has been vigorously opposed throughout California by leading agricultural, industrial, and business groups and organizations; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States be memorialized to express its disapproval of this recommendation by the Bureau of the Budget; and be it further

Resolved, That the Congress of the United States be memorialized to recommend the full appropriation for the support of vocational education which has been made annually for a number of years; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the President of the Senate and Speaker of the House of Representatives of the Congress of the United States, to the chairmen of the appropriate congressional committees, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 105

Senate Joint Resolution No. 21—Relative to memorializing Congress to appropriate money for the construction of the Buchanan Dam and Reservoir on Chowchilla River.

[Filed with Secretary of State May 8, 1951.]

Federal appropriation for Buchanan Dam and Reservoir

WHEREAS, The construction of the Buchanan Dam and Reservoir on Chowchilla River was recommended to Congress by the Chief of Engineers of the United States Army in 1949; and

WHEREAS, The proposed dam would be 153 feet high of concrete slab and buttress type construction, and the reservoir would have a total storage capacity of 70,000 acre-feet, of

which 60,000 acre-feet would be active and 10,000 acre-feet inactive, with a maximum flood-control reservation of 60,000 acre-feet; and

WHEREAS, Prior to 1950 it was estimated by the Chief of Engineers of the United States Army that the first cost of Buchanan Dam and Reservoir would be $7,247,000 and the total annual cost would be $333,100, compared to annual flood benefits of $109,000 and annual irrigation benefits of $232,000, or total annual benefits of $341,000; and

WHEREAS, In the light of the recent abnormal flood damage in the floods of November and December, 1950, to the area adjacent to and in the town of Chowchilla, in which damage totaling $357,000 was done and an area of 8,000 acres was inundated, it would appear that the estimated annual flood damage and consequent estimated flood benefits would be greatly increased so that the benefit-cost ratio would be far more favorable to the proposed work than it was at the time the construction was recommended; and

WHEREAS, Due to irrigation practices below the proposed reservoir much of the flood storage upon release could be beneficially used as winter irrigation or as replenishment for underground storage along the Chowchilla River; and

WHEREAS, Due to the increased danger of disastrous floods in this area it is necessary that the construction of Buchanan Dam and Reservoir be deferred no longer but constructed at the earliest possible time; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is respectfully memorialized to authorize and appropriate money for the construction of Buchanan Dam and Reservoir on the Chowchilla River at the earliest possible time; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 106

Senate Joint Resolution No. 28—Relative to flood control measures on the San Joaquin River System.

[Filed with Secretary of State May 8, 1951]

Flood control on San Joaquin River system

WHEREAS, In Public Law 534, Seventy-eighth Congress, Second Session, Congress authorized the plan of improvement for flood control on the Lower San Joaquin River and tributaries in accordance with the recommendation of the Chief of Engineers in Flood Control Committee Document Number 2, Seventy-eighth Congress, Second Session; and

WHEREAS, While Friant Reservoir on the San Joaquin River and certain flood control works on the tributaries thereof

have been completed and other works are now being constructed, definite plans have not been completed for the design of the remainder of authorized improvements on the Lower San Joaquin River and its tributaries, including river and channel improvements on the San Joaquin River between Skaggs Bridge and the delta, which plans are essential to the coordination of all flood control measures on the river system; and

WHEREAS, Disastrous floods occurred during 1950 on the Lower San Joaquin River System due to the inadequacy of existing flood control works causing more than twelve million dollars ($12,000,000) in damage to highly productive farm land, urban centers, roads, railroads and other property and improvements clearly demonstrate the importance of the preparation and execution of definite project plans without delay; and

WHEREAS, The State of California has evidenced its desire to participate in the flood control works on the Lower San Joaquin River and tributaries by authorizing and directing the State Reclamation Board to cooperate in that work, by furnishing the local cooperation required by the Federal Government; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Secretary of the Army and the Chief of Engineers to direct the Corps of Engineers to prepare and submit, without delay, definite project plans for the completion of flood control measures essential for adequate flood control protection on the entire San Joaquin River System, to the end that a comprehensive and coordinated flood control program on that system be constructed at the earliest possible date in order to prevent a recurrence of the disastrous floods; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the Secretary of the Army and the Chief of Engineers, United States Army, and to each Senator and Representative in the Congress of the United States from the State of California.

CHAPTER 107

Senate Concurrent Resolution No. 45—Relative to flood control measures on the San Joaquin River System.

[Filed with Secretary of State May 8, 1951.]

Appraisal of lands, etc., by Reclamation Board

WHEREAS, The disastrous floods which occurred during 1950 on the Lower San Joaquin River due to the inadequacy of existing flood control works causing more than twelve million dollars ($12,000,000) in damage to productive farm land, urban centers, roads, railroads, and other property and improvements, clearly demonstrate the importance and necessity for adequate flood control works on the San Joaquin River System; and

WHEREAS, Congress has authorized a plan of improvement for flood control on the Lower San Joaquin River (between Skaggs Bridge and the delta) and tributaries; and

The City Council may transfer to any such fund any unencumbered surplus funds remaining on hand in the City at any time.

Once created, such fund shall remain inviolate for the purpose for which it was created; if for capital outlays generally, then for any such purposes, and if for a special capital outlay, then for such purpose only, unless the use of such fund for some other capital outlay purpose is authorized by the affirmative votes of a majority of the electors voting on such proposition at a general or special election at which such proposition is submitted.

If the purpose for which any special capital outlay fund has been created has been accomplished, the City Council may transfer any unexpended or unencumbered surplus remaining in such fund to the fund for capital outlays generally, established by this Charter.

The City Council is empowered to grant such franchise to any person, firm or corporation, whether operating under an existing franchise or not. The City Council may prescribe the terms and conditions of any such grant. It may also provide, by procedural ordinance, the method of procedure and additional terms and conditions of such grants, or the making thereof, subject to the provisions of this Charter.

Nothing in this Section, or elsewhere in this Article, shall apply to the City, or any department thereof, when furnishing any such utility or service.

Resolution of intention to grant

Section 1401. Resolution of Intention. Notice and Public Hearing. Before granting any franchise, the City Council shall pass a resolution declaring its intention to grant the same, stating the name of the proposed grantee, the character of the franchise and the terms and conditions upon which it is proposed to be granted. Such resolution shall fix and set forth the day, hour and place when and where any persons having any interest therein or any objection to the granting thereof may appear before the City Council and be heard thereon. The acceptance of any franchise hereunder shall operate as an abandonment of all

such other franchises, rights and privileges within the limits of the City as such limits shall at any time exist.

Any franchise granted hereunder shall not become effective until written acceptance thereof shall have been filed by the grantee thereof with the City Clerk. Such acceptance shall be filed within ten days after the adoption of the ordinance granting the franchise, or any extension thereof granted by the City Council, and when so filed such acceptance shall constitute a continuing agreement of such grantee that if and when the City shall thereafter annex, or consolidate with, additional territory, any and all franchises, rights and privileges owned by the grantee therein, except a franchise derived under said constitutional provision, shall likewise be deemed to be abandoned within the limits of such territory. Duties of grantees

(c) Indemnify and hold harmless the City and its officers from any and all liability for damages proximately resulting from any operations under such franchise.

(d) Remove and relocate without expense to the City any facilities installed, used and maintained under the franchise if and when made necessary by any lawful change of grade, alignment or width of any public street, way, alley, or place, including the construction of any subway or viaduct, or if the public health, comfort, welfare, convenience or safety so demands

(e) Pay the City during the life of the franchise a percentage, to be specified in the grant, of the gross annual receipts of the grantee within the limits of the City, or such other compensation as the City Council may prescribe in the grant.

Violation

Section 1406. Exercising Rights Without Franchise. The exercise by any person, firm or corporation of any privilege for which a franchise is required, without possessing a valid and existing franchise therefor, shall be a misdemeanor and shall be punishable in the same manner as violations of this Charter are punishable and each day that such condition continues to exist shall constitute a separate violation.

WHEREAS, In 1949, the Chief of Engineers of the United States Army recommended to Congress, the construction of the Buchanan Dam and Reservoir on Chowchilla River; and

WHEREAS, The proposed 153 foot high concrete-slab, buttress-type dam would provide a reservoir with a maximum flood control reservation of 60,000 acre-feet with a total storage capacity of 70,000 acre-feet; and

WHEREAS, Prior to 1950, it was estimated that the dam and reservoir, payable during a period of 50 years, would cost three hundred thirty-three thousand one hundred dollars ($333,100) annually, while annual benefits were estimated at three hundred forty-one thousand dollars ($341,000), with one hundred nine thousand dollars ($109,000) as flood control benefits and two hundred thirty-two thousand dollars ($232,000) as irrigation benefits; and

WHEREAS, Floods in November and December of 1950, which inundated 8,000 acres of land and caused three hundred fifty-seven thousand dollars ($357,000) in damage in and adjacent to the town of Chowchilla, indicate that the estimated flood control benefits would be greatly increased and the benefit-cost ratio consequently far more favorable than estimated when the work was recommended to Congress; and

WHEREAS, Due to irrigation practices below the proposed reservoir, much of the flood storage upon release could be beneficially used as winter irrigation or as replenishment for underground storage along the Chowchilla River; and

WHEREAS, The increased danger of disastrous floods in this area clearly demonstrates that Buchanan Dam and Reservoir must be constructed at the earliest possible time; and

WHEREAS, The State Water Resources Board is sending its chairman to appear before the Deficiencies and Army Civil Functions subcommittees of the Appropriations Committee of the House of Representatives on May 3d, to represent this State with respect to appropriations for flood control measures; now, therefore, be it

WHEREAS, The Water Project Authority did undertake the investigation and study in accordance with the recommendations and carried them forward vigorously until a lack of personnel caused the studies to be suspended in 1946; and

WHEREAS, It was the declared intention of the Water Project Authority to complete the studies as soon as additional personnel became available; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Water Project Authority is requested to report to the Legislature on the status of the investigation and studies not later than June 15, 1951, and that the Water Project Authority is further requested to furnish to the Legislature, not later than March 1, 1952, a review of all pertinent cost and repayment data prepared in connection with the studies, together with a report on the legal and financial feasibility of the State assuming ownership and operation of the Central Valley Project; and be it further

Assembly Joint Resolution No. 33—Relating to the completion of the San Diego Aqueduct.

[Filed with Secretary of State May 23, 1951]

Completion of San Diego Aqueduct

WHEREAS, During World War II the U. S. Navy under congressional authorization constructed an aqueduct connecting the San Diego County metropolitan area with the Colorado River Aqueduct of the Metropolitan Water District of Southern California in order that military and defense installations in San Diego County might be supplied with water, portions of such aqueduct being constructed of sufficient capacity to transport the area's entitlement from the Metropolitan Water District, but most of which was of only one-half of such capacity; and

WHEREAS, The personnel and employees of military and defense establishments in the San Diego area have been greatly increased in number, and the result of this greatly increased demand, coupled with unexpected and unprecedented lack of rainfall from which exhausted local supplies might otherwise have been replenished, have so reduced the water available as to require the adoption of a water conservation program and to threaten enforced water rationing; and

WHEREAS, The completion of the San Diego Aqueduct to full capacity as provided in the original plans is the only means by which a firm supply of water in an amount adequate for present requirements can be assured, and this requires the construction of a second barrel to the existing works within the present rights of way belonging to the Federal Government as a continuation of the original project built through the instrumentality of the Navy; now, therefore, be it

Resolved, by the Assembly and the Senate of the State of California, jointly, That the Congress of the United States is respectfully memorialized to enact legislation to authorize the completion of the San Diego Aqueduct by the Navy under a contract by the terms of which its cost would be fully repaid to the government by the San Diego County Water Authority; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, The Very Reverend William J. Dunne, S.J., President of the University of San Francisco, has just announced the establishment of a compulsory course in Communism at the University; and

WHEREAS, That course, which will be the first of its kind instituted at any university in the United States, was organized for the purpose of learning the facts concerning Communism in order that such knowledge may be used to track down and fight Communism here and all over the world; and

WHEREAS, The students required to take that course will study the operations of groups avowedly and openly following Soviet policies and organizations labeled as subversive by the Attorney General, such as the California Labor School, the American Russian Institute, the Palo Alto Peace Appeal, and the Communist Far Eastern Political Policy Organization; and

WHEREAS, The instructors who will give that course have been carefully selected, have demonstrated their faith in the American way of life and their ability to expose the true nature of Communism, and are admirably suited for instilling in their students a belief in the American way of life and an understanding of the vices inherent in the Communist doctrine; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California hereby congratulates the University of San Francisco and commends the Very Reverend William J. SEC. 8. Offenses heretofore required to be prosecuted by indictment shall be prosecuted by information, after examination and commitment by a magistrate, or by indictment, with or without such examination and commitment, as may be prescribed by law. When a defendant is charged with the commission of a felony, by a written complaint subscribed under oath and on file in a court within the county in which the felony is triable, he shall, without unnecessary delay, be taken before a magistrate of such court. The magistrate shall immediately deliver to him a copy of the complaint, inform him of his right to the aid of counsel, ask him if he desires the aid of counsel, and allow him a reasonable time to send for counsel; and the magistrate must, upon the request of the defendant, require a peace officer to take a message to any counsel whom the defendant may name, in the city or township in which the court is situated. If the felony charged is not punishable with death, the magistrate shall immediately upon the appearance of counsel for the defendant read the complaint to the defendant and ask him whether he pleads guilty or not guilty to the offense charged therein; thereupon, or at any time thereafter while the charge remains pending before the magistrate and when his counsel is present, the defendant may, with the consent of the magistrate and the district attorney or other counsel for the people, plead guilty to the offense charged or to any other offense the commission of which is necessarily included in that with which he is charged, or to an attempt to commit the offense charged; and upon such plea of guilty, the magistrate

shall immediately commit the defendant to the sheriff and certify the case, including a copy of all proceedings therein and such testimony as in his discretion he may require to be taken, to the superior court, and thereupon such proceedings shall be had as if such defendant had pleaded guilty in such court.

The foregoing provisions of this section shall be self-executing. The Legislature may prescribe such procedure in cases herein provided for as is not inconsistent herewith. In cases not hereinabove provided for, such proceedings shall be had as are now or may be hereafter prescribed by law, not inconsistent herewith.

A grand jury consisting of 19 jurors shall be drawn and summoned in each county for the year following the adoption of this amendment and for each year thereafter which shall consist of not less than three nor more than nine members of the immediately preceding grand jury who shall serve for that year only and such additional members as are required to provide the total membership. No grand juror shall serve for more than two consecutive years, nor serve as foreman of a grand jury for more than one year. The provisions of this paragraph are self-executing but legislation not in conflict herewith may be enacted to facilitate its operation.

Sec. 187.2. (a) The amount to be paid as a pension to each person granted a pension prior to the effective date of this amendment, pursuant to rights thereto vested by reason of the provisions of Section 187 of this Charter prior to the repeal thereof by the adoption of Section 187.1 hereof, is hereby fixed in each instance at the amount paid to each such person by the City on the effective date of this amendment and thereafter said pension shall be paid monthly in said fixed amount; provided, however, that the amount to be paid as a pension to any person who shall be entitled to such pension under the provisions of said Section 187 prior to said repeal thereof, by reason of the death of a person heretofore granted such a pension, is hereby fixed in each instance at an amount equal to fifty per cent (50%) of the salary attached to the rank or position upon which the pension of said deceased person is fixed on the effective date of this amendment. Pensions

(b) The amount to be paid as a pension to each person who shall be granted a pension subsequent to the effective date of this amendment pursuant to the rights thereto vested by reason of the provisions of Section 187 of this Charter prior to the repeal thereof by the adoption of Section 187.1 hereof, shall be based in each instance upon the applicable percentage of the average monthly salary earned during the five (5) years immediately preceding the retirement or death of the person whose service formed the basis for such right to a pension. Such average monthly salary shall be determined by dividing the total salary earned by such person during said five-year period by the number of months during which such person earned such salary.

(c) There is hereby created a fund to be known as the "Police and Fire Pension Fund," for the purpose of meeting the payment of pensions, the right to which pensions became vested by reason of the provisions of Section 187 of this Charter prior to the repeal thereof by the adoption of Section 187.1 hereof. Said fund shall be a continuing fund and shall not be subject to transfer at the close of the fiscal year. The City Council may, from time to time, appropriate or transfer money to said fund. All deductions from the salaries of certain members of the Police and Fire Departments required to be made by this section shall be placed in said fund. The money in said fund shall be used only for the payment of such pensions as are referred to in this section, or the payment, with interest, of amounts deducted from salaries of members of said departments, as herein provided. Pending such use, however, the money in said fund, to the extent and manner authorized by the City Council, may be invested in such securities as are authorized by law for the investment of public funds. Any interest or increment received because of such investment shall be paid into and become a part of said fund.

(d) Ten per cent (10%) of the salary of each person, who is a member of the Police or Fire Department on the effective

Pensions

date of this section and who has certain vested rights by reason of the provisions of Section 187 of this Charter prior to the repeal thereof by the adoption of Section 187.1 hereof, shall be deducted from such salary and paid semimonthly into the "Police and Fire Pension Fund," until such member has completed the number of years of service required for his eligibility for retirement. An amount equal to all amounts so deducted shall be paid to such person upon his ceasing to be a member of either of said departments by reason of resignation or discharge prior to such person's having completed the number of years of service required for his eligibility for retirement. No member absent by reason of ordered military service shall be paid the amount of his deductions. Upon reinstatement from such service, such member shall pay to the City, for deposit in said fund, the amount of money that would have been deducted from his salary were he not so absent. Such payment shall be made in the manner prescribed by the City Council. In the event any person, from whose salary deductions have been made pursuant to this section, dies before retirement, such amounts shall be paid to his estate or designated beneficiary; provided, however, no payment whatever shall be made in the event any person shall be eligible to be granted a pension by reason of such death. There shall be added to the total amount payable by the City, representing said deductions, at the time of payment thereof, accrued interest thereon, compounded annually, at the rate of two and one-half per cent (2½%) per annum.

(e) If any subsection, sentence, clause or phrase of this Section 187.2 proves to be invalid or unconstitutional, such shall not impair the validity or constitutionality of any other subsection, sentence, clause or phrase of this section, unless it clearly appears that such other subsection, sentence, clause or phrase of this section is dependent for its operation upon the subsection, sentence, clause or phrase so held invalid or unconstitutional; it is hereby declared that the provisions of this section are severable and that the same, and each and every subsection, sentence, clause and phrase thereof, would have been ratified and approved irrespective of the fact that any one or more other subsections, sentences, clauses or phrases thereof are held to be invalid or unconstitutional.

Assembly Concurrent Resolution No. 88—Relative to directing the Public Utilities Commission to apportion the costs for the construction of a certain grade separation on Los Feliz Boulevard in Los Angeles County.

[Filed with Secretary of State June 19, 1951.]

Hearings re apportionment of cost Los Feliz Boulevard

WHEREAS, Pursuant to House Resolution No. 24, 1949 First Extraordinary Session, and House Resolution No. 35, 1950 First Extraordinary Session, plans have been formulated for the construction of a grade separation in Los Angeles County at the place where Los Feliz Boulevard crosses the Southern Pacific Railroad tracks; and

WHEREAS, Such plans have been formulated after extensive studies by subcommittees consisting of representatives of the Cities of Los Angeles and Glendale, the County of Los Angeles, the Southern Pacific Company, the Los Angeles Grade Crossing Committee, the Pacific Electric Railway Company, the Automobile Club of Southern California, the State Division of Highways, and the Public Utilities Commission; and

WHEREAS, The findings of the subcommittees have conclusively indicated that there is an urgent need for such a grade separation and that the completion of such construction would eliminate 27,675 vehicle-waiting hours annually, rail-auto collisions, injuries and fatalities, slow-down of traffic at such crossing, and expenses of safety apparatus; and

WHEREAS, The elimination of such hazards, costs, and inconveniences will result in a saving of approximately $92,725 annually, which capitalized at 5 percent, would be equivalent to a saving of $1,854,500, which amount far exceeds the estimated cost of $1,333,420 for such construction, in addition to the elimination of mounting traffic congestion, injuries, and fatalities; and

WHEREAS, An immediate hearing to apportion the cost of construction of such grade separation among the parties affected would expedite the financing of the respective assessments; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Public Utilities Commission is directed to hold hearings as soon as practicable to arrive at an apportionment of costs to be assessed upon the parties affected by the construction of such grade separation; and be it further

WHEREAS, Said policy adopted by the Department of Finance is in fact contrary to the intent of the Legislature; and

WHEREAS, The Park Commission has found the procedure as set forth by the Department of Finance is extremely restrictive and retards full accomplishment of the legislative intent of Chapter 1422, Statutes of 1945, towards expanding units of the State Park System under state operation to meet the needs of increased population in that they prevent:

(1) Acquisition of desirable areas, especially for beaches, which may require no development for some years to come, but which may be acquired now at considerably less expenditure of funds over purchase price in future years.

(2) Acquisition of desirable areas which need not be immediately developed and which would involve only minor maintenance.

(3) The purchase of privately owned lands for inclusion under the State Park System.

(4) The full execution of master plans of some coastal counties submitted by boards of supervisors and approved by the Park Commission prior to 1948; and

WHEREAS, The Park Commission has by resolution of November 24, 1950, recommended the modification or clarification of the policy in such form as to remove the restrictions listed above; now, therefore, be it

Assembly Constitutional Amendment No. 55—A resolution to propose to the people of the State of California an amendment to the Constitution of the State by adding to Article XIII thereof a new section to be numbered 19, relating to the proceeds of taxes levied on property in a redevelopment project under the Community Redevelopment Act.

Stats. 1945, p. 2478

[Filed with Secretary of State June 23, 1951.]

Constitution Addition of Sec. 19 to Art. XIII, re taxation of redeveloped property

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California, at its Regular Session commencing at 12 o'clock noon on the eighth day of January, 1951, two-thirds of all the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by adding to Article XIII thereof a new section to be numbered 19 and to read as follows:

SEC. 19. All property in a redevelopment project established under the Community Redevelopment Law Act as now existing or hereafter amended, except publicly owned property not subject to taxation by reason of such ownership, shall be taxed in proportion to its value as provided in Section 1 of this article, and such taxes (the word "taxes" as used herein shall include, but shall not be limited to, all levies on an ad valorem basis upon land or real property) shall be levied and collected as other taxes are levied and collected by the respective taxing agencies.

The Legislature may provide that any redevelopment plan may contain a provision that the taxes, if any, so levied upon such taxable property in a redevelopment project each year by or for the benefit of the State of California, any city, county, city and county, district, or other public corporation (hereinafter sometimes called "taxing agencies") after the effective date of the ordinance approving the redevelopment plan, shall be divided as follows:

(a) That portion of the taxes which would be produced by the rate upon which the tax is levied each year by or for each of said taxing agencies upon the total sum of the assessed value of the taxable property in the redevelopment project as shown upon the assessment roll used in connection with the taxation of such property by such taxing agency, last equalized prior to the effective date of such ordinance, shall be allocated to, and when

collected shall be paid into, the funds of the respective taxing agencies as taxes by or for said taxing agencies on all other property are paid (for the purpose of allocating taxes levied by or for any taxing agency or agencies which did not include the territory in a redevelopment project on the effective date of such ordinance but to which such territory has been annexed or otherwise included after such effective date, the assessment roll of the county last equalized on the effective date of said ordinance shall be used in determining the assessed valuation of the taxable property in the project on said effective date); and

Taxation of redeveloped property

(b) That portion of said levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed or otherwise) incurred by such redevelopment agency to finance or refinance, in whole or in part, such redevelopment project. Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in such project as shown by the last equalized assessment roll referred to in paragraph designated (a) hereof, all of the taxes levied and collected upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies. When said loans, advances, and indebtedness, if any, and interest thereon, have been paid, then all moneys thereafter received from taxes upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

The Legislature may also provide that in any redevelopment plan or in the proceedings for the advance of moneys, or making of loans, or the incurring of any indebtedness (whether funded, refunded, assumed or otherwise) by the redevelopment agency to finance or refinance, in whole or in part, the redevelopment project, the portion of taxes mentioned in paragraph designated (b) hereof may be irrevocably pledged for the payment of the principal of and interest on said loans, advances, or indebtedness

It is intended by this section to empower any redevelopment agency, city, county, or city and county under any law authorized by this section to exercise the provisions hereof separately or in combination with powers granted by the same or any other law relative to redevelopment agencies. This section shall not affect any other law or laws relating to the same or a similar subject but is intended to authorize an alternative method of procedure governing the subject to which it refers.

All of the provisions of the Community Redevelopment Law, as amended in 1951, which relate to the use or pledge of taxes or portions thereof as herein provided, or which, if effective, would carry out the provisions of this section or any part thereof, are hereby approved, legalized, ratified and validated

and made fully and completely effective and operative upon the effective date of this amendment.

The Legislature shall enact such laws as may be necessary to enforce the provisions of this section.

Constitution Amendment Secs 14¼, 16 of Art XIII, re taxation of insurance companies and banks

[Filed with Secretary of State June 23, 1951.]

Resolved by the Senate, the Assembly concurring, That the Legislature of the State of California at its 1951 Regular Session commencing on the eighth day of January, 1951, two-thirds

of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending Article XIII thereof: Taxation of insurance companies and banks

First, by amending Section 14¼ to read

SEC. 14¼. (a) "Insurer," as used in this section, includes insurance companies or associations and reciprocal or interinsurance exchanges and the State Compensation Insurance Fund. As used in this paragraph, "companies" includes persons, partnerships, joint stock associations, companies and corporations.

(b) An annual tax is hereby imposed on each insurer doing business in this State on the base, at the rates, and subject to the deductions from the tax hereinafter specified.

(c) In the case of an insurer not transacting title insurance in this State, the "basis of the annual tax" is, in respect to each year, the amount of gross premiums, less return premiums, received in such year by such insurer upon its business done in this State, other than premiums received for reinsurance and for ocean marine insurance.

In the case of an insurer transacting title insurance in this State, the "basis of the annual tax" is, in respect to each year, all income upon business done in this State, except:

(1) Interest and dividends.

(2) Rents from real property.

(3) Profits from the sale or other disposition of investments.

(4) Income from investments.

"Investments" as used in this subdivision (d) includes property acquired by such insurer in the settlement or adjustment of claims against it but excludes investments in title plants and title records. Income derived directly or indirectly from the use of title plants and title records is included in the basis of the annual tax.

In the case of an insurer transacting title insurance in this State which has a trust department and does a trust business under the banking laws of this State, there shall be excluded from the basis of the annual tax imposed by this section, the income of, and from the assets of, such trust department and such trust business, if such income is taxed by this State or included in the measure of any tax imposed by this State.

(d) The rate of the tax to be applied to the basis of the annual tax in respect to each year is 2 35 percent.

(e) Each insurer shall have the right to deduct from the annual tax imposed by this section upon such insurer in respect to a particular year the amount of real estate taxes paid by it, in that year, before, or within 30 days after, becoming delinquent, on real property owned by it at the time of payment, and in which was located, in that year, its home office or principal office in this State. Such real property may consist of one building or of two or more adjacent buildings in which such an office is located, the land on which they stand, and so much of the

Taxation of insurance companies and banks

adjacent land as may be required for the convenient use and occupation thereof.

Where as a result of merger, consolidation, or other method of acquisition of substantially all of the assets of one or more insurers by another insurer, effected prior to January 1, 1939, an insurer owns more than one parcel of real property in this State in which was located a home office or principal office of an insurer immediately prior to such acquisition, the owner shall designate one of such properties as its home or principal office. Real estate taxes paid by it in any of the years 1943 to 1952, inclusive, before, or within 30 days after, becoming delinquent, on such property owned by it at the time of payment and not so designated may also be deducted from the annual tax imposed by this section in respect to such year and are included within the deduction provided for in this subdivision.

(f) The tax imposed on insurers by this section is in lieu of all other taxes and licenses, state, county, and municipal, upon such insurers and their property, except:

(1) Taxes upon their real estate.

(2) That an insurer transacting title insurance in this State which has a trust department or does a trust business under the banking laws of this State is subject to taxation with respect to such trust department or trust business to the same extent and in the same manner as trust companies and the trust departments of banks doing business in this State.

(3) When by the laws of any other state or country any taxes, fines, penalties, licenses, fees, deposits of money or securities or other obligations or prohibitions are imposed on insurers of this State doing business in such other state or country, or upon their agents therein, in excess of those imposed upon insurers of such other state or country or upon their agents therein, so long as such laws continue in force, the same obligations and prohibitions of whatsoever kind may be imposed by the Legislature upon insurers of such other state or country doing business in this State, or upon their agents herein.

(4) The tax on ocean marine insurance.

(5) Motor vehicle and other vehicle registration license fees and any other tax or license fee imposed by the State upon vehicles, motor vehicles or the operation thereof.

(g) Every insurer transacting the business of ocean marine insurance in this State shall annually pay to the State a tax measured by that proportion of the underwriting profit of such insurer from such insurance written in the United States, which the gross premiums of the insurer from such insurance written in this State bear to the gross premiums of the insurer from such insurance written within the United States, at the rate of 5 percentum, which tax shall be in lieu of all other taxes and licenses, state, county and municipal, upon such insurer, except taxes upon real estate, and such other taxes as may be assessed or levied against such insurer on account of any other class of insurance written by it. Deductions from the annual tax pursuant to subdivision (e) cannot

be made from the ocean marine tax. The Legislature shall define the terms "ocean marine insurance" and "underwriting profit," and shall provide for the assessment, levy, collection and enforcement of the ocean marine tax.

(h) The taxes provided for by this section shall be assessed by the State Board of Equalization.

(i) The Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof, may by law change the rate or rates of taxes herein imposed upon insurers.

(j) This section is not intended to and does not change the law as it has previously existed with respect to the meaning of the words "gross premiums, less return premiums, received" as used in this section or as used in Section 14 or 14¾ of this article.

Second, by amending Section 16 to read:

SEC. 16. 1. (a) Banks, including national banking associations, located within the limits of this State, shall annually pay to the State a tax, at the rate to be provided by law according to or measured by their net income, which shall be in lieu of all other taxes and licenses, state, county and municipal, upon such banks, or the shares thereof, except taxes upon their real property and, when permitted by the Congress of the United States with respect to national banking associations, motor vehicle and other vehicle registration license fees and any other tax or license fee imposed by the State upon vehicles, motor vehicles or the operation thereof.

(b) The Legislature may provide by law for any other form of taxation now or hereafter permitted by the Congress of the United States respecting national banking associations; provided, that such form of taxation shall apply to all banks located within the limits of this State.

2. The Legislature may provide by law for the taxation of corporations, their franchises, or any other franchises, by any method not prohibited by this Constitution or the Constitution or laws of the United States.

3. Any tax imposed pursuant to this section must be under an act passed by not less than two-thirds vote of all the members elected to each of the two houses of the Legislature.

WHEREAS, The present state highway, county road, and city street funds are insufficient to meet these urgent demands; and

WHEREAS, By precedent established in Section 12 of the Federal-Aid Highway Act of 1950 (Public Law 769, Eighty-first Congress) federal defense funds have heretofore been made available and expended in other areas of the United States for defense road requirements; and

WHEREAS, Such proposed defense highway, road, and street projects are required in the rural areas such as Lassen, Humboldt, San Bernardino, Kern, and other counties, in the metropolitan areas of the San Francisco Bay district, Sacramento, and Los Angeles, in and about the Long Beach-Los Angeles harbors and airports, and in Orange, Ventura, Riverside, and San Diego Counties, now, therefore, be it

Resolved by the Assembly and Senate of the State of California jointly, That the Legislature of the State of California hereby respectfully memorializes the Congress of the United States to provide federal defense road funds to aid in the financing of the necessary highway, road, and street defense projects in the State of California; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 216

Naturalization of aliens in armed forces

WHEREAS, Hostilities leading to the commitment of many thousands of soldiers, sailors, marines, and airmen of the armed forces of the United States, commenced in the Republic of Korea on June 25, 1950; and

WHEREAS, There are many persons serving in the armed forces of the United States who are not citizens of this Country; and

WHEREAS, The Congress of the United States provided that persons serving honorably in the armed forces during the period of hostilities in World War II might be naturalized by a simplified procedure, without the necessity either of prolonged service in the armed forces or compliance with the usual residence requirement of the naturalization laws of the United States; and

WHEREAS, No present law of the United States provides that persons serving in the Korean campaign may be naturalized by a simplified procedure without first serving for three years or more; and

WHEREAS, It is incongruous that the United States should require or accept the military services and high sacrifices of alien members of the armed forces in the current hostilities and not extend to those persons the privilege of citizenship in the United States; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact a law similar to that one enacted to provide for the naturalization of aliens serving in the armed forces during the period beginning September 1, 1939, and ending December 31, 1946, which will apply to veterans of the armed forces serving after June 25, 1950, and before the end of the current Korean campaign; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State June 30, 1951.]

Restoration of funds to Central Valley Project appropriation

WHEREAS, The United States House of Representatives has voted to reduce the budget allocation for the Central Valley Project to thirty-two million two hundred four thousand two hundred ten dollars ($32,204,210); and

WHEREAS, The Water Project Authority of the State of California has requested the Appropriations Committee of the United States Senate to establish a budget allocation of forty-four million four hundred fifty thousand dollars ($44,450,000) for this project; and

WHEREAS, A full appropriation is necessary to prevent unreasonable delay in the completion, in all its aspects, of this great project which is playing such an important part in the conservation and development of the water resources of the State of California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Appropriations Committee of the United States Senate is urged and requested to restore and add to the budget allocation for the Central Valley Project, as approved by the House, the sum of twelve million two hundred forty-five thousand seven hundred ninety dollars ($12,245,790) as requested by the Water Project Authority; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to send copies of this resolution to the President and Vice President of the United States, to Senator Kenneth McKellar, Chairman of the Senate Appropriations Committee, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 218

Assembly Joint Resolution No. 43—Relative to the construction of St. Mary's Square Underground Garage in San Francisco.

[Filed with Secretary of State June 30, 1951.]

Allocation of materials to St. Mary's Square Garage

WHEREAS, An emergency condition confronts the City and County of San Francisco and its citizens as the result of the refusal of the National Production Authority to grant permission for the construction of St. Mary's Square Underground Garage in that city; and

WHEREAS, The construction of the St. Mary's Square Garage would facilitate war production in the area, provide an emergency bomb shelter for the civilian population and others in case of the bombing of the area, furnish a facility for the safe storage of emergency first aid, medical and food supplies, provide a central location for the direction of defense measures and dispensing of first aid in the event of a bombing attack upon the city; and

WHEREAS, Such construction would also provide new off-street parking space sufficient to relieve a substantial part of the downtown business section of traffic congestion, thus permitting the ready movement of emergency vehicles in the event of disaster; and

WHEREAS, The Mayor and the Board of Supervisors of the City and County of San Francisco, the Parking Authority of the City and County of San Francisco, the Director of the Disaster Council and Corps of the City and County of San Francisco, the State Director of Civil Defense and the principal business and civic organizations of the City and County of San Francisco have declared the construction of the St. Mary's Square Garage to be essential for these reasons; and

Allocation of materials to St. Mary's Square Garage

WHEREAS, The Mayor and the Board of Supervisors of the City and County of San Francisco have found, and by legislative action declared, that postponement of the construction of St. Mary's Square Garage at this time would cause the city and county great financial loss and work an undue hardship upon the city and county and its citizens and that the tremendous traffic congestion in downtown San Francisco occasioned by the lack of adequate off-street parking accommodations is damaging business and creating a hazard to the public peace, safety, and welfare, and impeding the National Defense Program dependent upon the San Francisco street communications' system serving branches of the military establishment based in San Francisco, as well as important business concerns contributing to the war effort; and

WHEREAS, The City and County of San Francisco has requested reconsideration of its unfavorable decision by the National Production Authority on the above and additional grounds that the construction materials required for the garage are available in adequate supply within the San Francisco Bay area and may be allotted for that purpose without adverse effect on the defense program or objectives of the National Production Authority; and

WHEREAS, The San Francisco Congressmen and the Senators from California have unanimously endorsed and supported the application of the City and County of San Francisco for permission to construct St. Mary's Square Garage and have recommended and support San Francisco's request for reconsideration; and

WHEREAS, The City and County of San Francisco, by legislative action of its mayor and board of supervisors, have requested the Governor and the Legislature of the State to join in and support its request for reconsideration by appropriate resolution and executive action; and

WHEREAS, The people of the State of California have by action of their legislative body in the Finding and Declaration of Necessity embraced in the "Parking Law of 1949" declared the necessity for the relief of traffic congestion in the cities of the State, caused in substantial part by insufficiency of space or accommodations for the parking of motor vehicles off the city streets, by the provision of additional parking facilities; and

WHEREAS, The construction of St. Mary's Square Underground Garage in San Francisco will not only relieve traffic congestion, benefit the defense program and expedite the conduct of business essential thereto, but will also furnish essential bomb shelter protection to the city's civilian population in case of need at no cost to the Federal or State Government, a benefit already recently accorded other cities of the State; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California requests the National Production Authority to give due and careful consideration to the request of the City and County of San Francisco for reconsideration of its denial of permission to pro-

ceed with the construction of St. Mary's Square Garage and, if possible, to grant permission therefor for the reasons above set forth; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President of the United States, to the National Production Authority, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 219

Assembly Joint Resolution No. 45—Relative to federal aid for child care centers.

[Filed with Secretary of State June 30, 1951]

Federal aid to child care centers

WHEREAS, California has seen the necessity for the continuation of child care centers to the present date, although federal funds under the Lanham Act have been terminated; and

WHEREAS, It is doubtful if the State can continue to meet the present need; and

WHEREAS, The number of young children in this State is rapidly increasing due to the number of armed forces members in this State, or their leaving families here while overseas; and

WHEREAS, The demand for war industry workers and the high and rising cost of living takes wives, widows and others away from the care of young children in the home; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of California respectfully memorializes the President and the Congress of the United States to consider the necessity for legislation similar to the child care center support provisions of the wartime Lanham Act providing grants in aid for this purpose to states which meet the same peculiar defense emergency problems as does California; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit forthwith copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 225

Senate Concurrent Resolution No. 94—Relative to effecting adequate information to California suppliers and declaring a public policy thereon.

[Filed with Secretary of State July 3, 1951.]

Information to California bidders

WHEREAS, California contractors and labor have complained that catalog references by state officials in calls for bids and in specifications for plans have put California industry and labor at a disadvantage because in many instances these catalogs are not readily available to California bidders and that even when available, the descriptions in such catalogs are insufficient to permit California industries to bid intelligently; and

WHEREAS, Section 4334 of the Government Code permits California bidders to be 5 percent above the lowest other bids; and

WHEREAS, It is hereby declared to be the policy of the State of California to encourage and assist California industry and labor in the production and sale of articles, including buildings, fixtures, equipment, and supplies, which are fabricated and assembled in the State. For the purpose of giving full employment to California industry and labor to the maximum possible extent, the State should draft specifications and call for bids in such a manner as to enable California manufacturers at all times to compete on as nearly as practicable equal footing with manufacturers and suppliers in other states; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Director of Finance, the State Purchasing Agent, the State Architect, the Director of Public Works, are hereby requested to investigate as soon as practicable and in any case not later than August 1st, the complaints and problems described herein, and thereafter as soon as practicable and in any case not later than September 1st, to meet with representatives of the California Manufacturers Association, the Chambers of Commerce of San Francisco and Los Angeles, the State Federation of Labor (AFL), the San Francisco and Los Angeles Building Trades Councils, the CIO of California, the Associated General Contractors, the Architects Association of California, and other representatives of California industry and labor affected by state contracts for construction and purchase of materials for construction; and be it further

Resolved, That said state officials are hereby requested to investigate particularly the proposed policies set forth in Senate Bill No 1827 introduced in the Senate of California May 25, 1951; and that said state officials are hereby requested also to investigate the advantages and disadvantages of a policy which would require that use by the State of catalog references in specifications and calls for bids be confined to such articles as are available to all contractors through regular commercial outlets, which are commonly so specified in general practice and for which a catalog reference is a sufficient description to enable the securing of competitive bids from other firms which customarily fabricate equivalent articles; and be it further

Resolved, That said state officials are hereby requested to make a written report on or before February 1, 1952, to the Governor and the Legislature covering the following matters:

(a) The results of the investigation and meetings described above.

(b) What action, if any, has been taken by said state officials to eliminate the use of catalog references which put California manufacturers and contractors at a disadvantage.

(c) The results of such action and a statement as to whether California industry and labor representatives are satisfied that the State of California is doing everything possible to protect their interests in the matter.

(d) The recommendations, if any, for legislative or executive action to carry out the policy stated herein; and be it further

Resolved, That copies of this resolution be sent to the state officials and organizations mentioned above.

Allocation of materials to Riverside branch of the University of California

WHEREAS, The population of the State of California has increased by almost 4,000,000 during the past 10 years; and

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the National Production Authority to give prompt attention to the need of material for the construction of the Riverside branch of the University of California to serve a growing surrounding population of a million people now without any state supported university or college level institution; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the National Production Authority.
