Limitation of expenditures

SEC. 4. Whenever any appropriation item in Section 2 of this act is made in accordance with a schedule set forth after such appropriation item, the expenditures from such item for each category or project included in the schedule shall be limited to the amount specified for such category or project, except as otherwise provided in this act. Each such schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

Definitions

As used in this act in reference to such schedules "category" means a class of expenditures such as, but not limited to:

(a) "Salaries and wages" which shall include all expenditures for payment of officers and employees of the State but does not include compensation of independent contractors rendering personal services to the State under contract;

(b) "Operating expenses" which shall include all expenditures for purchase of materials, supplies (including expendable equipment), services (other than services of state officers and employees), and all other proper expenses (other than the acquisition of unexpendable tangible property);

(c) "Equipment" which shall include all expenditures for the acquisition or replacement of nonexpendable tangible property.

For the purpose of further interpreting the meaning of the words, terms and phrases used in such schedules, reference is hereby made to that document entitled "State of California Budget for the Fiscal Year July 1, 1951, to June 30, 1952,"

submitted by the Governor to the Legislature at the 1951 Regular Session, the uniform accounting system prescribed by the Department of Finance under the provisions of Section 13290 of the Government Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every state agency to whom appropriations are made under this act.

Transfers from categories

SEC. 5. The Director of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for a category designated in any schedule set forth for such appropriation in Section 2 by transfer from any of the other designated categories within the same schedule. The Director of Finance shall present to the Joint Legislative Budget Committee assembled in meeting a report on all authorizations given pursuant to this section during the preceding quarter.

Augmentations

SEC. 6. The Director of Finance may authorize the augmentation of the amount available for expenditure for any category in the schedules set forth for any appropriation in Section 2 hereof or any additional category in the amount of any funds which he estimates will be received by an officer, department, division, bureau or other agency during the 1951-52 Fiscal Year from any other state agency, from any agency of local government or the Federal Government, from any appropriation made by the Legislature or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration.

Reductions

The Director of Finance may also reduce any category whenever he determines that funds to be received will be less than the amount taken into consideration in the schedule.

Premiums for official bonds

SEC. 7. Premiums for official bonds may be paid out of appropriations contained in this act, notwithstanding the period covered by such bonds.

Senate and Assembly disbursements

SEC. 8. The sums that are herein appropriated for expenses of the Senate and Assembly shall be disbursed under the direction of the bodies to which they respectively belong, and shall not be subject to any of the provisions of Sections 16003 and 13320 of the Government Code; provided, that the State Controller shall not be required to draw such warrants until the original claims and vouchers, itemized and properly sworn to, are filed with him.

Limitations

SEC. 9. The allocations made by Items 377, 378, and 378.1 of Section 2 of this act are subject to Section 11 of the Flood Control Fund Act of 1946 in the same manner as the allocations made by Sections 13 and 14 of that act are subject to Section 11. are made pursuant to the State Water Resources Act of 1945, and are, to the extent of such allocations, in fulfillment of the policy set forth in said act that the State will participate in the prosecution of the projects approved and authorized in said act by

Stats 1945, p 2827

paying for the cooperation which is required by the acts of Congress approving and authorizing the projects. The State Water Resources Board shall determine the amounts in which each of such reallocations shall be made. The allocations made by said items shall remain available for reallocation and expenditure until June 30, 1955.

Payments from appropriations

SEC. 10. The State Controller is hereby expressly prohibited from allowing any demands payable out of any appropriation herein contained, unless the same are presented in accordance with the provisions of Section 16003 of the Government Code; provided, that in instances where the duties of any state officers or board make necessary the use of moneys for purposes of a confidential nature, the State Controller may audit claims for such expense without requiring itemization or vouchers; but such claims must be accompanied by a statement of the fact surrounding the expenditure, which statement must be filed in the office of the State Controller; provided further, that the total amount so allowed for such confidential purposes from the moneys herein appropriated shall not exceed the sum of two thousand dollars ($2,000), except in the case of the Attorney General's office, whose expenditures for such confidential purposes shall be governed by Sections 12572 and 12573 of the Government Code. All bills and vouchers, which shall be presented for supplies furnished or services rendered, shall be original bills and vouchers of the parties furnishing supplies and rendering services. No officer shall use or appropriate any money, appropriated by this act, for any purpose whatever, unless authorized thereto by law.

Revolving funds

SEC. 11. Any officer, board, commission, or department for whom any appropriation is made herein, may, without at the time furnishing vouchers and itemized statements, draw from such appropriations a sum not to exceed 3 percent of the total amount appropriated for any such officer, board, commission or department. Any officer, board, commission or department for whom any appropriation is made herein, may with the permission and the approval of the Department of Finance, and without at the time furnishing vouchers or itemized statements, draw from such appropriation a sum in excess of 3 percent, but not to exceed 10 percent of the total amount appropriated for any such officer, board, commission or department. Any officer, board, commission or department for whom any appropriation is made herein, may with the permission and approval of the State Board of Control, and without at the time furnishing vouchers or itemized statements, draw from such appropriation a sum in excess of 10 percent of the total appropriated to such officer, board, commission or department.

In lieu of withdrawing from the State Treasury a revolving fund authorized under this section an officer, board, commission or department may request the State Controller to apply such amount, or any portion thereof, as repayment and return of any existing revolving fund to the appropriation from which

it was withdrawn. Upon receipt of such request the State Controller shall credit the amount designated to the appropriation from which such revolving fund previously was withdrawn.

Any sums drawn under the provisions of this section without at the time furnishing vouchers and itemized statements, shall be used as a revolving fund where payment of compensation earned, traveling expense advances, traveling expense incurred or other cash payments are necessary. Any state agency that withdraws a revolving fund shall remain fully accountable therefor. All disbursements must be substantiated by vouchers filed with and audited by the Controller. Disbursements may be reported, substantiated by vouchers, from time to time to the Controller in connection with claims for reimbursement of the revolving fund. At the close of each fiscal year, and at any time upon the demand of the Department of Finance every revolving fund must be accounted for and substantiated by vouchers and itemized statements submitted to and audited by the Controller.

Expenditures from Emergency Fund, etc

SEC. 12. Whenever an expenditure is authorized from the Emergency Fund, from Price Increase Funds, from the Salary Increase Funds, or from a special fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures shall, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

Application of Gov C., §13320

SEC. 13. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

Positions established

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new positions or change in grade or class of an existing position shall be established unless authorized by the Department of Finance on the basis of work load and organization.

Salary Savings Reserve

Each fiscal year budget shall provide for a Salary Savings Reserve to which shall be transferred on a document initiated by the agency and approved by the Department of Finance the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the Salary Savings Reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfers shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that

the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any Salary Savings Reserve may be expended to pay increases in salary ranges established after July 1, 1951, unless the Department of Finance certifies to the State Personnel Board prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom.

A certification on a pay roll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the Controller that such expenditures comply with the provisions of this section.

Salary of vacant positions

SEC. 13.5. No money appropriated by this act shall be used to pay the salary of any authorized state position, which position was vacant and had been vacant or continuously unfilled during the period between October 15, 1950, and July 1, 1951, except with the specific approval of the Director of Finance subsequent to July 1, 1951.

The Director of Finance, not later than 30 days prior to the convening of the 1952 Regular Session of the Legislature, shall present to the Joint Legislative Budget Committee, assembled in meeting, a report of all positions as of July 1, 1951, which were vacant or continuously unfilled during the period between October 15, 1950, and July 1, 1951, and a report of all authorizations to fill vacant positions and all positions abolished pursuant to this section.

Acquisition of motor vehicles

SEC. 14. No purchase order for acquisition or replacement of motor vehicles shall be issued against any appropriation made herein until the Department of Finance has investigated and established the necessity therefor.

All passenger type motor vehicles purchased from any appropriation made by this act for the use of state employees and officers, except constitutional officers, shall be of the light class, as defined by the Board of Control, unless excepted by the Director of Finance on the basis of unusual requirements which would justify the need for an automobile of a heavier class.

Use of state-owned motor vehicles

SEC. 14.5. The appropriations made by this act are subject to the following provisions: State-owned motor vehicles shall be used only in the conduct of state business. No state officer or employee shall use, or permit the use of, any state-owned motor vehicle other than in the conduct of state business.

Rules and regulations

The State Board of Control shall prescribe rules and regulations which:

(a) Define the use of state-owned motor vehicles which constitutes use in the conduct of state business and distinguish such use from misappropriation for private use;

(b) Prescribe the procedure for determining and collecting from the employee responsible for the misuse the actual costs to the State attributable to misuse of state-owned motor vehicles and the disposition of such collections;

(c) Prescribe the records and reports to be kept and made by state agencies relating to the use of state-owned motor vehicles to the end that misuse may be discovered with a minimum of record keeping; provided, that every state officer or employee who has operated a state-owned motor vehicle during the preceding month shall file a statement certifying under penalty of perjury that each such motor vehicle operated during the preceding month has not been used by him, or been permitted to be used by him, other than in the conduct of state business; provided, however, that with the approval of the Director of Finance such reports and certification may be filed on behalf of any state employee by the employee's supervising officer in those cases where it is determined that there are valid reasons which would prevent the employee from complying with the certification and filing requirements of the act;

(d) Establish methods of vehicle control and accounting which will facilitate and encourage the pooling of vehicles for their most effective utilization;

(e) Govern the storage of state-owned motor vehicles.

The provisions of this section shall not apply to the incumbents of elective state offices.

The Department of Finance shall administer the provisions of this section and the rules and regulations adopted pursuant thereto; provided, however, that it shall be the duty of the head or governing body of each state agency to carry out and enforce this section and said rules and regulations within such state agency. Any state officer or employee who interferes or obstructs the enforcement of this section shall be subject to punitive action prescribed in the State Civil Service Act.

Any violation by a state officer or employee of this section or the rules and regulations adopted pursuant thereto shall constitute misuse of state property under Section 19572 of the Government Code.

The State Board of Control, upon its own initiative or upon request of any person, may suspend from state service without pay for a period not exceeding 30 days, any officer or employee of this State exempt from civil service for violating this chapter or the rules and regulations adopted pursuant thereto.

Such suspension is valid only if a written notice is served on the officer or employee prior to the effective date of the suspension and a copy of such notice filed with the State Personnel Board not later than 15 days after the effective date of such suspension. The notice shall be served upon the employee either personally or by mail and shall include: (a) a statement of the nature of the punitive action; (b) the effective date of the action; (c) a statement of the causes therefor; and (d) a statement advising the employee of his right to answer the notice and the time within which that must be done if the answer is to constitute an appeal.

The officer or employee against whom such punitive action is taken shall have the right to file an answer with the State

Personnel Board as provided in Section 19575, Government Code, and request a hearing. If the answer requests a hearing the State Personnel Board shall conduct a hearing. The board shall consider carefully the evidence submitted in the hearing and render a decision sustaining, modifying or revoking such suspension.

Effect Stats 1951, Ch 1260

This section shall be superseded if Assembly Bill 2005 of the 1951 Regular Session of the Legislature becomes enacted into law.

Passenger type motor vehicles

SEC. 15. All passenger type motor vehicles purchased either from any appropriation made by this act or from any other appropriation available therefor for the use of the Department of Public Works, shall be of the light class, as defined by the Board of Control, unless excepted by the Director of Finance on the basis of unusual requirements which would justify the need for an automobile of a heavier class.

Expenditures in excess of appropriation

SEC. 16. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditure in excess of such appropriations, except the consent of the State Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the State in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the State in excess of the respective appropriations made by this act, except by the consent of the State Department of Finance and the certificate in this section provided to be first obtained, shall be liable on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

This provision shall not apply to the purchase of refrigerators, heaters, air conditioning equipment, stoves, linoleum, or equipment normally furnished in construction of the house as may be

determined by the Board of Control. Any such funds that are appropriated by this act for this purpose shall be held intact and be reverted to the fund from which they were appropriated. It is the intent of the Legislature that no money shall be appropriated henceforth for the purpose of house furnishings. Such furnishings are not to be provided by the State nor shall any money be paid from this appropriation for their replacement, repair or otherwise except in connection with the disposal of the same.

Office furnishings Rugs or carpets

SEC. 19. No money appropriated by this act shall be used, either directly or by supplementing any other appropriation, to furnish rugs or carpets for any state office except for offices used by elective officers and other department heads. shall go into immediate effect. The facts constituting such necessity are:

That boards of fire commissioners of fire protection districts in unincorporated areas are given the responsibility by Chapter 1 of Part 3 of Division 12 of the Health and Safety Code of establishing, equipping, maintaining, and operating fire departments for protection of the lives of persons and property within their districts. Money for use by such districts for any purposes other than maintenance must be obtained by means of a special tax authorized by a majority of voters voting on the proposition at an election. Many such districts are vitally in need of new additional apparatus and equipment because of large increases of population and in the number of homes and other structures within their boundaries, and in order to properly meet their responsibilities for local defense under mutual aid agreements under the California Disaster Act. It is necessary that this act take effect immediately to permit such districts to immediately spend their unencumbered surplus and to provide in this year's budgets amounts for these purposes without the necessity of holding elections.

CHAPTER 1046

An act to add Section 6906 to the Education Code, relating to school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 13, 1951. Filed with Secretary of State June 14, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 6906 is added to the Education Code, to read:

6906. Whenever a new school district is formed in whole or in part from territory comprising a part of another district and in which a school of such other district is maintained, the governing board of the latter district may, by the unanimous vote of all the members thereof, file with the Superintendent of Public Instruction, in writing, on or before June 30th of the fiscal year in which the action for the formation of the new school district was completed, a direction to credit the average daily attendance computed for such school for such fiscal year to the new school district for all the purposes of this division. The Superintendent of Public Instruction shall in such case credit such average daily attendance to the new school district for all the purposes of this division. Formation of new district

Notwithstanding anything in Chapter 15 of this division to the contrary, if average daily attendance of one school district, hereinafter referred to as the "original school district," is credited to a new school district under this section, the amounts allowed by the Superintendent of Public Instruction as state equalization aid to the original school district and to the new school district during the first fiscal year in which an apportionment is made to the new school district on account of such average daily attendance, shall be the amounts computed under this section. The Superintendent of Public Instruction shall divide the total amount of state equalization aid which would have been apportioned to the original school district during said fiscal year had this section not been in effect by the units of average daily attendance of the original school district for the preceding fiscal year prior to the crediting of any of such average daily attendance to the new school district. He shall allow to the original school district as state equalization aid the amount computed by multiplying the resulting quotient by the units of average daily attendance of the district for the preceding fiscal year less the units credited to the new school

district. He shall allow the new school district as state equalization aid the amount computed by multiplying the same quotient by the units of average daily attendance credited to the district under this section.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

During the first fiscal year of the existence of a school district which is formed in whole or in part of territory of another school district and in which a school of the latter district is maintained, the new school district receives no aid from the State on account of the average daily attendance in such school. Thus the ability of the new school district to maintain an adequate educational program for the pupils of such school is lessened. This measure makes it possible for the district which had maintained the school prior to the formation of the new school district to relinquish to such district the funds which it would otherwise receive from the State on account of the average daily attendance upon a school which the district is no longer obligated to maintain. No additional cost to the State results.

In order that this act may be made effective with respect to the next fiscal year, it is necessary that it take effect immediately.

CHAPTER 1047

The bonds authorized to be issued under this article shall be sold by the State Treasurer to the highest bidder for cash, either at public sale or upon sealed bids as the Veterans' Finance Committee of 1943 may by resolution determine, in such parcels and numbers as the Treasurer shall be directed by the Governor of the State, under seal thereof, after a resolution requesting such sale shall have been adopted by the Department of Veterans Affairs and approved by the Governor of the State, but the Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as he may select. If said bonds are offered for sale upon sealed bids, then each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars ($5,000), drawn on a bank or trust company authorized to trans-

The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Veterans' Farm and Home Building Fund of 1943, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Interim bonds

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars ($500) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said Treasurer into the Veterans' Farm and Home Building Fund of 1943 and must be used exclusively in aiding veterans in the acquisition of, or payments for, farms and homes, in accordance with the provisions of this chapter; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof.

Investment of surplus

996.07. The Department of Veterans Affairs is authorized, with approval of the Department of Finance, to invest any surplus money in the Veterans' Farm and Home Building Fund of 1943 in bonds or obligations of the United States, or of the State of California, or of the several counties or municipalities or other political subdivisions of the State of California, and to

sell such bonds, or obligations, or any of them, at the governing market rates, upon approval of the Department of Finance; or the Department of Veterans Affairs may, with the approval of the Director of Finance, invest money in such fund, in interest-bearing certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars ($500,000) or more; provided, the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, nothing herein contained shall inhibit the depositing in banks in accordance with Chapter 4, Part 2, Division 4, Title 2 of the Government Code, of money of any of the funds subject to the control of the Department of Veterans Affairs or appropriated for its use.

Interest accruing upon the deposit of money of the Veterans' Farm and Home Building Fund of 1943 shall be paid into and credited to said fund.

Determination to issue

996.08. Upon request of the Department of Veterans Affairs, supported by a statement of the plans and projects of said department with respect thereto, the Veterans' Finance Committee of 1943 shall determine whether or not it is necessary or desirable to issue any bonds authorized under this article in order to carry such plans and projects into execution, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to carry out said plans and projects progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

Resolution Contents

996.09. Whenever the Veterans' Finance Committee of 1943 shall have determined that the sale of all or any part of the bonds authorized to be issued under this article is necessary or desirable to carry such plans into execution, in whole or in part, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite number of suitable bonds then authorized to be sold and shall specify as to such bonds then to be sold:

1. The aggregate number, aggregate par value, and the date of the bonds to be then sold. The date appearing on said bonds shall be deemed to be the date of issuance for all purposes of this article, irrespective of the actual date of delivery of such bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

2. The date or dates of maturity, and the number and numerical sequence of the bonds maturing at each date of maturity, to be at annual intervals

3. The provisions, if any, for the retirement of said bonds at any time or times prior to their maturity, the manner thereof, and the price or prices at which said bonds shall be redeemed.

4. The annual rate of interest which the bonds to be issued shall bear, to be in multiples of one-fourth of 1 percent, which rate, at the discretion of said committee, may be determined by the bidder at the time of sale of said bonds, not to exceed 5 percent.

5. The number, numerical sequence, amount or amounts, and dates of maturity of the interest coupons to be attached to said bonds.

6. The technical form and language of said bonds and of the interest coupons to be attached thereto.

Maturity

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the Veterans' Finance Committee of 1943 shall be guided by the amounts and dates of maturity of the revenues estimated to accrue to the Veterans' Farm and Home Building Fund of 1943 from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated revenues; provided, the bonds first to mature in each issue shall mature not later than five years and the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

Interest

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division, and may be determined and fixed by the Veterans' Finance Committee of 1943 by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the State would be required to pay from the date of sale to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the State. The lowest net interest cost to the State shall be computed between the dates aforesaid according to standard bond interest tables. The interest coupon first payable may, if the Veterans' Finance Committee of 1943 shall so determine and specify, be payable at any time within one year after the date of issuance of said bonds.

Expenses

996.10. All actual and necessary expenses of the Veterans' Finance Committee of 1943 and of the members thereof incurred in the performance of their duties arising out of the provisions of this article and expenses incurred by the State Treasurer in having said bonds prepared and in advertising their sale or their prior redemption shall be paid out of the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

Whenever the Veterans' Finance Committee of 1943 deems it advisable to obtain a legal opinion as to the validity of the bonds, prior to or after sale, from attorneys other than the Attorney General, the committee may authorize the State Treasurer or the Department of Veterans Affairs or both to obtain such a legal opinion. Payment for such legal services shall be made from the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

Accounting

996.11. The Controller, the Treasurer and the Veterans' Finance Committee of 1943 shall keep full and particular account and record of all their proceedings under this article, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this article shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State.

Survey of financial condition

996.12. So long as any bonds authorized under this article may be outstanding, the Director of the Department of Veterans Affairs shall cause to be made at the close of each fiscal year, a survey of the financial condition of the Division of Farm and Home Purchases, together with a projection of the division's operations, such survey to be made by an independent public accountant of recognized standing. The results of such surveys and projections shall be set forth in written reports and said independent public accountant shall forward copies of said reports to the Director of the Department of Veterans Affairs, the members of the California Veterans Board, and to the members of the Veterans' Finance Committee of 1943. The Division of Farm and Home Purchases shall reimburse said independent public accountant for his services out of any funds which said division may have available on deposit with the Treasurer of the State of California.

Verified claim to exemption

Such officer must release the property unless the plaintiff or the person in whose favor the writ runs within five days after written demand by such officer, which written demand shall include a copy of the claim of exemption, files a counter-affidavit alleging that the property is not exempt within the meaning of the section or sections relied upon, or if the claim to exemption be based on Sections 690.1, 690.3, 690.6, 690.8, 690.9, 690.12, 690.17, 690.18, 690.21, 690.24, alleging the value of the property claimed exempt to be in excess of the value stated by said sections, and files such counter-affidavit with the officer making the levy showing due service on the defendant or judgment debtor. If such counter-affidavit is served and filed, then on motion of either the plaintiff or the person in whose favor the writ runs or the defendant or judgment debtor shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the validity of the claim for exemption, or the value of the property claimed exempt whether or not the value of the property determines the right to exemption. Release of property

Such hearing must be granted by the court upon motion made by either the plaintiff or the person in whose favor the writ runs, or the defendant or judgment debtor, which motion must be made within five days after service on the defendant of Hearing

The court may continue the hearing beyond the 10-day period but good cause must be shown for any such continuance.

Possession

The officer making the levy in all cases shall retain physical possession of the property levied upon if it be capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect until the determination of the claim for exemption; provided, that should the plaintiff or the person in whose favor the writ runs or the defendant or judgment debtor fail to make the motion within five (5) days after service on the defendant of a copy of the counter-affidavit left with the officer making the levy as herein provided, the officer making the levy shall thereupon forthwith release the property to the defendant and; provided, however, that no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide. The court may order the sale of any perishable property held by such officer and direct the disposition of the proceeds of such sale. The court may make such other orders as may be proper under the particular circumstances of the particular case. Any orders so made by the court or judge may be modified or vacated by the court or judge granting the same, or by the court in which the proceedings are pending at any time prior to the termination of the proceedings upon such terms as may be just At the hearing had for the purpose of determining the claim to exemption, the party claiming the exemption shall have the burden of proof. The verified claim to exemption filed with the officer shall be filed by the officer with the court and shall constitute the pleading of such claimant to exemption, subject to the power of the court to permit an amendment in the interests of justice and it shall be deemed controverted by the affidavit of the plaintiff or the person in whose favor the writ runs. Nothing herein contained shall be construed to deprive anybody of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as is the trial of an action No findings shall be required in a proceeding under this section At the conclusion of the hearing the court shall give judgment determining whether the claim for exemption shall be allowed or not, which judgment shall be conclusive as to the right of the plaintiff or the person in whose favor the writ runs to have such property taken and held by the officer, or to subject the property to payment or other satisfaction of his judgment In such judgment

the court may make the proper orders for the disposition of such property or the proceeds thereof.

An appeal lies from any judgment under this section; such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had. Appeal

The writ of attachment or execution shall continue in force pending the determination of the proceedings, except that the sale on execution shall be continued by the officer until final judgment shall have been entered in such proceeding. A copy of any judgment so entered shall be forthwith transmitted by the clerk of the court to the officer making the levy in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal be waived from the judgment of the court, may continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final, either before or after appeal. Duration of writ of attachment, etc

In all cases where no counter-affidavit is filed by the plaintiff or person in whose favor the writ runs, after the five-day period has expired the property claimed to be exempt by the defendant shall be released to the defendant by the officer making the levy When a verified claim for exemption is filed in accord with Section 690.11 the defendant shall be entitled to an immediate release of one-half of his earnings earned within 30 days, next preceding the date of levy or execution. Release of property

Real property held by another

2. Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon

In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each. Such demand must be served as provided in Section 1011 of this code, or by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence. In the event that the money so demanded is not paid the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless the provisions of this section shall have been fully complied with. There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

The sheriff, constable, or marshal shall endorse such check, draft, money order or other order for the withdrawal of money by writing the name of the defendant or judgment debtor thereon and the name and official title of the officer making the levy with the statement that such endorsement is made pursuant to levy of writ of attachment or execution and giving the title of court and cause in which such writ was issued, and such endorsement shall be sufficient endorsement and no banking corporation or association on which said check, draft, money order or other order for the withdrawal of money is drawn shall incur any liability to any person, firm or corporation by reason of paying to such officer such check, draft, money order or other order for withdrawal of money by reason of such endorsement, nor shall the officer making the

levy incur any liability by reason of his endorsing and presenting for and obtaining payment of such check, draft, money order or other order for the payment of money; provided, however, that the funds or credit resulting from the payment of such check, draft, money order or other order for withdrawal of money shall be held by said officer subject to the levy of said writ of attachment or execution. If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy shall not endorse said check, draft, money order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

CHAPTER 1115

An act to amend Sections 6726 and 7012.5 of the Welfare and Institutions Code and to amend and renumber Section 5701.5 thereof to be Section 6726.5, relating to private family care homes and the support of mental patients therein, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 18, 1951. Filed with Secretary of State June 19, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 6726 of the Welfare and Institutions Code is amended to read:

Paroled patients

6726. The superintendent of a state hospital or state home may grant a parole or leave of absence to a patient under general conditions prescribed by the Department of Mental Hygiene.

The department may pay at a monthly rate any private home, certified by the department, for any patient paroled or on leave of absence from a state hospital during the time such patient is cared for at such private home at a rate not exceeding seventy dollars ($70) per month for each such patient. Payments for such care of paroled or on leave of absence patients shall be made from funds available to the department for that purpose or for the support of patients in the state hospital or hospitals from which such patients have been paroled or are on leave of absence.

SEC. 2. Section 7012.5 of said code is amended to read:

The Department of Mental Hygiene may pay at a monthly rate any private home, certified by the department, for any patient paroled or on leave of absence from a state home for the mentally deficient during the time such patient is cared for at such private home at a rate not exceeding seventy dollars ($70) per month for each such patient. Payments for such care of paroled or on leave of absence patients shall be made from funds available to the department for that purpose or for the support of patients in the state home for the mentally deficient from which such patients have been paroled or are on leave of absence.

SEC. 3. Section 5701.5 of said code is renumbered and amended to read:

6726.5. The department may grant certificates to private homes for family care of patients paroled or on leave of absence from state hospitals and state homes. Such certificates shall be granted without payment of fees. Each such home may care for not more than six (6) patients and shall be regulated by standards established by the department for the care of such patients.

Urgency

SEC. 4. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

There is in the state institutions of California a condition of overcrowding constituting a serious menace to the health and safety of the patients detained therein, while an increase in mental illness and mental disorder consequent upon the increased population of this State requires the commitment to state institutions of additional patients whose mental condition justifies their need for medical care and treatment for their benefit and that of the community.

Many of the persons now confined in state institutions have improved to a point where they can safely and profitably be cared for in private homes, under family care, which care will be available if the Department of Mental Hygiene is enabled to

pay amounts more adequate to meet current actual costs. Increasing the amount of the monthly payments to private homes will facilitate the placement of patients in such homes, thereby relieving the present congestion in state institutions, and making room for the persons requiring institutional care for their protection and that of the community.

It is therefore necessary for the immediate preservation of the public peace, health, and safety that this act take effect immediately.

CHAPTER 1116

In a rating organization of which the State Compensation Insurance Fund is a member, it shall be entitled without election to membership on the managing or governing committee and on the classification and rating committee thereof.

Mandatory rating organization membership

11751.4. From and after the taking effect of this act, it shall be the duty of every insurer to be a member of a rating organization. No insurer may at the same time belong to more than one rating organization licensed under this article.

Commissioner's powers

The commissioner may designate any rating organization licensed under this article as his statistical agent to gather and compile such experience statistics and all licensed rating organizations shall report the experience of their members to such designated rating organization. Subject to reasonable rules approved by the commissioner, such designated rating organization shall make such experience statistics, when compiled, available to all licensed rating organizations and may make a reasonable charge to other rating organizations for the expense incurred by it in combining, tabulating and compiling the experience of all workmen's compensation insurers.

Examinations

11752. The commissioner may, as often as reasonable and necessary, make or cause to be made an examination of each rating or advisory organization to ascertain whether such organizations comply with the legal requirements applicable to it under this article.

In lieu of any such examination the commissioner may accept the report of an examination made by the insurance supervisory official of another state or the report of a representative designated by the National Association of Insurance Commissioners.

Same

11752.1. The officers, managers, agents and employees of any such organization may be examined by the commissioner at any time under oath and shall exhibit all books, records, accounts, documents or agreements governing its method of operation together with all data, statistics and information of every kind and character collected or considered by such organization in the conduct of the operations to which the examination relates.

Cost of examination

11752.2. The reasonable cost of any examination authorized by this article of any rating or advisory organization shall be paid by the organization examined.

Requisites for operation

b. A list of its members and subscribers.

c. The name and address of a resident of this State upon whom notices or orders of the commissioner or process may be served.

No such advisory organization shall engage in any unfair or unreasonable practice with respect to its activities.

Appeal from rating organization's decision, etc

11753.1. Any person aggrieved by any decision, action or omission to act of a rating organization may request the rating organization to reconsider such decision, action or omission. If the request for reconsideration is rejected or is not acted upon within 30 days by the rating organization the person requesting reconsideration may within a reasonable time thereafter appeal from the decision, action or omission of the rating organization to the commissioner by filing a written complaint and request for a hearing specifying the grounds relied upon. If the commissioner has information on the subject appealed from and he believes that probable cause for the appeal does

not exist or if he believes that the appeal is not made in good faith, he may deny the appeal without a hearing; otherwise, he shall hold a hearing to consider and determine the matter presented by the appeal.

Notice of violations

11754. If the commissioner has good cause to believe that a rating or advisory organization or an insurer does not comply with the requirements of this article applicable to it, he shall, unless he has good cause to believe that such noncompliance is wilful, give notice in writing to such organization or insurer, stating therein in what manner and to what extent such noncompliance is alleged to exist and specifying therein a reasonable time, not less than 10 days thereafter, in which such noncompliance may be corrected. Notices under this section shall be confidential as between the commissioner and the organization or insurer unless a hearing is held under Section 11754.1.

Hearing

11754.1. If the commissioner has good cause to believe such noncompliance to be wilful, or if within the period prescribed by the commissioner in the notice required by Section 11754 the organization or insurer does not make such change as may be necessary to correct the noncompliance specified by the commissioner or establish to the satisfaction of the commissioner that such noncompliance does not exist, then the commissioner may hold a public hearing in connection therewith, provided that within a reasonable period of time, which shall not be less than 10 days before the date of such hearing, he shall mail written notice specifying the matters to be considered at such hearing to such organization or insurer. Such notice shall conform to the requirements for an accusation as prescribed by Section 11503 of the Government Code. If no notice has been given as provided in Section 11754 such notice shall state therein in what manner and to what extent noncompliance is alleged to exist. The hearing shall not include any additional subjects not specified in the notices required by Section 11754 or this section.

11754.2. If, after a hearing pursuant to Section 11754.1, the commissioner finds:

Revocation, etc., of license

a. That any rating or advisory organization or other organization authorized by this article or any insurer has violated the provisions of this article applicable to it, he may issue an order to such organization or insurer which has been the subject of the hearing, specifying in what respect such violation exists and stating when, within a reasonable period of time, the violation shall cease.

b. That any conditions prerequisite to the granting of a license to a rating organization no longer exist, he may issue an order to such organization which has been the subject of the hearing specifying the condition which has ceased to exist and stating when within a reasonable time the condition shall be complied with. If the condition is not complied with within the time specified the commissioner may suspend or revoke the license of such organization, in addition to any other penalty provided in this article.

c. That any rating organization has wilfully engaged in any fraudulent, dishonest act or practice, he may suspend or revoke the license of such organization, in addition to any other penalty provided for in this article.

Same

11754.3. In addition to other penalties provided in this code the commissioner may suspend or revoke the license of any rating organization or insurer which fails to comply within the time limited by such order or extension thereof which the commissioner may grant, with an order of the commissioner lawfully made by him pursuant to Section 11754.1 and effective pursuant to Section 11754.5.

Proceedings

11754.4. Except as otherwise provided in this article, all proceedings in connection with the denial, suspension or revocation of a license of a rating organization or insurer under this article shall be conducted in accordance with the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code and the commissioner shall have all the powers granted to him therein.

Review

11754.5. Any finding, determination, rule, ruling or order made by the commissioner under this article shall be subject to review by the courts of the State and proceedings on review shall be in accordance with the provisions of the Code of Civil Procedure. In such proceedings on review, the court is authorized and directed to exercise its independent judgment on the evidence and unless the weight of the evidence supports the findings, determination, rule, ruling or order of the commissioner, the same shall be annulled.

Notwithstanding any other provision of law to the contrary, a petition for review of any such finding, determination, rule or order, may be filed at any time before the effective date thereof. No such finding, determination, rule, or order shall become effective before the expiration of 20 days after notice and a copy thereof is mailed or delivered to the person affected, and any finding, determination, rule, or order of the commissioner so submitted for review shall not become effective for a further period of 15 days after the petition for review is filed with the court. The court may stay the effect thereof for a longer period.

Withholding information, etc

11755. No person, insurer, rating or advisory organization shall wilfully withhold information from, or knowingly give false or misleading information to, the commissioner or to any rating organization, which will affect the rates, rating systems or premiums for workmen's compensation insurance and employer's liability insurance incidental thereto and written in connection therewith.

Penalties

11756. (a) Any person, insurer, or organization, who fails to comply with a final order of the commissioner under this article shall be liable to the State in an amount not exceeding fifty dollars ($50) but if such failure be wilful, he or it shall be liable to the State in an amount not exceeding five thousand dollars ($5,000) for such failure. The commissioner shall collect the amount so payable and may bring an action in the name of

the people of the State of California to enforce collection. Such penalties may be in addition to any other penalties provided by law.

(b) A wilful violation of the provisions of this article by any person is a misdemeanor.

11757. Nothing in this article shall be construed to prohibit or regulate the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers. A plan for the payment of dividends, savings or unabsorbed premium deposits allowed or returned by insurers to their policyholders, members or subscribers shall not be deemed a rating plan or system.

In the event written protests are filed by the owner or owners of taxable property in the territory proposed to be annexed, the board of directors shall refer said protests to the board of supervisors of the county in which the district is situated The board of supervisors shall thereupon hold a hearing on said protests after notice given in the manner hereinabove in Section 5 of this act provided. At such hearing, the board of supervisors may, if they find and determine that the property described in said protests will not be substantially benefited by annexation to the said district, notify the board of directors of said district that such property shall not be annexed to said district, and the board of directors shall take the necessary steps to exclude said property from the territory proposed to be annexed. At said hearing or any continuance thereof, the board of directors of the annexing district shall hear all evidence relevant thereto, and the board shall thereupon determine whether said territory shall be annexed and shall determine

A copy of said resolution, certified by the president and secretary of the board, shall be filed for record in the recorder's office in each county within which the district or any part thereof and within which the territory annexed or any part thereof is situated, and thereupon the lands annexed shall become a part of the annexing public utility district upon the terms and conditions and subject to the limitations set forth in said resolution No contest of any thing or matter herein provided for shall be valid unless the contest is instituted within the time and manner herein specified, and in any such contest the findings of fact or conclusions of the board of directors of the annexing district and of the board of directors of any district within which the annexing lands may be located, shall be conclusive unless an action attacking such proceedings is filed in the superior court of the county in which the lands are located, within six months after such findings or conclusions are made.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1131

An act to amend Section 925 of the Fish and Game Code, relating to purse and round haul nets and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 19, 1951. Filed with Secretary of State June 20, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 925 of the Fish and Game Code is amended to read:

Purse seines, ring nets

In Districts 17, 18, and 19, purse and round haul nets may be used, except that purse seines or ring nets may not be used in that portion of District 19 lying within three miles offshore from the line of the high water mark along the coast of Orange County from sunrise Saturday to sunset Sunday from May 1st to September 10th, inclusive. (c) Within two miles off shore from the line of the high water mark along that portion of the coast of Orange County lying between the northernmost bank of the mouth of the Santa Ana River and a point on said coast six miles south therefrom.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Orange County coast line, containing some 35 miles of coastal frontage, contains two harbors and many piers from which commercial and sport fishing boats operate, the largest of said harbors being Newport Harbor, which, alone, has in excess of 4,000 boats. Most of these boats fish either commercially or for sport fishing. The economic value of these boats, plus the employment they afford are a tremendous asset to the economic well-being of the County of Orange and the State of California.

Many fish which were formerly plentiful in this area have now been seriously depleted, due primarily to purse seining. The spawning season for most species of these fish is between May 1st and September 10th.

It is therefore necessary that this act go into immediate effect as a conservation measure for protection of both commercial and sport fishing.

Inspections

2. Inspections. Binders securing loads of baled hay shall be tightened and locked prior to a vehicle entering upon a public highway and inspection shall be made en route to assure that the load is stable and that the binders are tight and locked. Binding loads

7. Binding Loads. a. Loads of baled hay shall be secured to the vehicle by not less than two (2) longitudinal binders which shall be securely attached to the vehicle bed at the front and rear ends near each corner.

b. When ratchets are employed as binder tighteners on loads of baled hay, the binders shall be crossed at the approximate top center of the load to attach from left front to right rear and right front to left rear of vehicle bed.

c. When ratchets are not employed as binder tighteners on loads of baled hay, the binders shall extend longitudinally over the load and shall be tightened by drawing the binders together at the approximate top load center using pulleys, double blocks, fence stretcher, or equally effective mechanical means.

d. Loads of baled hay consisting of two (2) rope bales shall be secured to the vehicle by not less than four (4) cross binders in addition to the longitudinal binders otherwise prescribed unless the load is retained on four (4) sides by racks.

e. Where due to shifting or otherwise, a load of baled hay becomes unstable en route or contains projections beyond the width limits of the vehicle, cross binders shall be added unless load readjustments are made effective in compliance with Rule 2.

8. Racks. a. Wooden vertical members of racks shall be not less than two inches by four inches (2″ x 4″) in thickness and width, respectively, and shall be straight grained and free from strength impairing knots. Racks

Liens

1181. Mechanics, materialmen, contractors, subcontractors, artisans, architects, machinists, builders, teamsters and draymen, and all persons and laborers of every class performing labor upon or bestowing skill or other necessary services on, or furnishing materials to be used or consumed in, or furnishing appliances, teams, or power contributing to, the construction, alteration, addition to, or repair, either in whole or in part, of, any building, structure, or other work of improvement shall have a lien upon the property upon which they have bestowed labor or furnished materials or appliances for the value of such labor done or materials furnished and for the value of the use of such appliances, teams, or power, whether done or furnished

at the instance of the owner or of any person acting by his authority or under him, as contractor or otherwise.

Definitions

1182. (a) For the purposes of this chapter, "work of improvement" includes, but is not restricted to, the construction, alteration, addition to, or repair, in whole or in part, of any building, wharf, bridge, ditch, flume, aqueduct, well, tunnel, fence, machinery, railroad, or wagon road, the seeding, sodding, or planting of any lot or tract of land for landscaping purposes, the filling, leveling, or grading of any lot or tract of land, the demolition of buildings, and the removal of buildings.

(b) For the purposes of this chapter, except as otherwise provided herein, "work of improvement" and "improvement" mean the entire structure or scheme of improvement as a whole.

(c) For the purposes of this chapter, every contractor, subcontractor, architect, builder, or other person having charge of the construction, alteration, addition to, or repair, in whole or in part, of any building or other work of improvement shall be held to be the agent of the owner.

Land subject to lien

1183.1. (a) The land upon which any building, improvement, well or structure is constructed, together with a convenient space about the same, or so much as may be required for the convenient use and occupation thereof, to be determined by the court on rendering judgment, is also subject to the lien, if at the commencement of the work, or of the furnishing of the material for the same, the land belonged to the person who caused said building, improvement, well or structure to be constructed, altered or repaired, but if such person owned less than fee simple estate in such land, then only his interest therein is subject to such lien, except as provided in paragraph (b) of this section.

(b) Every building or other improvement or work mentioned in this chapter or in Section 3060 of the Civil Code or in Section 5463 of the Health and Safety Code constructed, altered or repaired upon any land with the knowledge of the owner or of any person having or claiming any estate therein, and the work or labor done or materials furnished mentioned in any of said sections with the knowledge of the owner or persons having or claiming any estate in the land, shall be held to have been constructed, performed or furnished at the instance of such owner or person having or claiming any estate therein, and such interest owned or claimed shall be subject to any lien filed in accordance with the provisions of this chapter, unless such owner or person having or claiming any estate therein shall, within 10 days after he shall have obtained knowledge of such construction, alteration or repair or work or labor, give notice that he will not be responsible for the same by posting a notice in writing to that effect in some conspicuous place upon the property, and shall also, within the same period, file for record a verified copy of said notice in the office of the county recorder of the said county in which said property or some part thereof is situated. Said notice shall contain a description of the property affected thereby sufficient for identification, with the name, and the nature of the title or interest of the person giving the same, name of pur-

chaser under contract, if any, or lessee if known; said copy so recorded may be verified by anyone having a knowledge of the facts, on behalf of the owner or person for whose protection the notice is given.

Same

1184.1. Any person who, at the instance or request of the owner (or any other person acting by his authority or under him, as contractor or otherwise) of any lot or tract of land, grades, fills in, or otherwise improves the same, or the street, highway, or sidewalk in front of or adjoining the same, or constructs or installs sewers or other public utilities therein, or constructs any areas, or vaults, or cellars, or rooms, under said sidewalks, or makes any improvements in connection therewith, has a lien upon said lot or tract of land for his work done and materials furnished.

Direct liens

1185 1. (a) The liens provided for by this chapter shall be direct liens and shall not in the case of any claimants other than the contractor be limited, as to amount, by any contract price agreed upon between the contractor and the owner except as hereinafter provided. Such liens shall not in any case exceed in amount the reasonable value of the labor done or the material furnished, or both, for which the lien is claimed, nor the price agreed upon for the same between the claimant and the person by whom he was employed. Such liens shall not, in any case where the claimant was employed by a contractor or subcontractor, extend to any labor or materials not embraced within or covered by the original contract between the contractor and the owner, or any modification thereof made by or with the consent of such owner, and of which such contract or modification thereof the claimant shall have had actual notice before the performance of such labor or the furnishing of such materials.

(b) The filing of an original contract for a work of improvement or of a modification of such original contract in the office of the county recorder of the county where the property is situated, before the commencement of the work, shall be equivalent to the giving of actual notice of the provisions thereof by the owner to all persons performing work or furnishing materials thereunder.

(c) In case said original contract shall, before the work is commenced, be so filed, together with a bond of the contractor with good and sufficient sureties in an amount not less than fifty (50) percent of the contract price named in said contract, which bond shall, in addition to any conditions for the performance of the contract, be also conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to, such work, and shall also by its terms be made to inure to the benefit of any and all persons who perform labor upon or furnish materials to be used in or furnish appliances, teams, or power contributing to, the work described in said contract as to give such persons a right of action to recover upon said bond in any suit brought to foreclose the liens pro-

vided for in this chapter or in a separate suit brought on said bond, then the court must, where it would be equitable so to do, restrict the recovery under such liens to an aggregate amount equal to the amount found to be due from the owner to the contractor and render judgment against the contractor and his sureties on said bond for any deficiency or difference there may remain between said amount so found to be due to the contractor and the whole amount found to be due to claimants for such labor or materials or both.

(d) It is the intent and purpose of this section to limit the owner's liability, in all cases, to the measure of the contract price where he shall have filed or caused to be filed in good faith with his original contract a valid bond with good and sufficient sureties in the amount and upon the conditions as herein provided. It shall be lawful for the owner to protect himself against any failure of the contractor to perform his contract and make full payment for all work done and materials furnished thereunder by exacting such bond or other security as he may deem necessary.

Recovery on lien

1186.1. (a) Any contractor shall be entitled to recover, upon a lien filed by him, only such amount as may be due him according to the terms of his contract, after deducting all claims of other parties for work done and materials furnished, as aforesaid, and embraced within his contract.

(b) In all cases where a claim of lien shall be filed under this chapter for work done or for materials furnished to any contractor, he shall defend any action brought thereon at his own expense; and during the pendency of such action, the owner may withhold from the contractor the amount of money for which such lien is filed. In case of judgment in such action against the owner or his property upon the lien, the said owner shall be entitled to deduct from any amount due, or to become due by him to the contractor, the amount of such judgment and costs; and if the amount of such judgment and costs shall exceed the amount due by him to the contractor, or if the owner shall have settled with the contractor in full, he shall be entitled to recover back from the contractor, or his bondsmen or sureties on any bond given for the faithful performance of his contract, any amount so paid by him, the said owner, in excess of the contract price, and for which the contractor was originally the party liable.

(c) No act done by such owner in compliance with any of the provisions of this chapter shall be held to be a prevention of the performance of any such contract by the contractor, or to have exonerated the sureties on such or any bond given for faithful performance, or for the payment of liens of persons performing labor or furnishing materials, or both; provided, that such act was done in good faith and without design to injure or harass anyone.

Waiver of liens

1187.1. It shall not be competent for the owner and contractor, or either of them, by any term of their contract, or otherwise, to waive, affect, or impair the claims and liens of

other persons, whether with or without notice, except by their written consent, and any term of the contract to that effect shall be null and void.

Preferred liens

1188.1. The liens provided for in this chapter, except as otherwise in this article provided, are preferred to any lien, mortgage, deed of trust, or other encumbrance upon the premises and improvements to which the liens provided for in this chapter attach which may have attached subsequent to the time when the building, improvement, structure, or work of improvement in connection with which the lien claimant has done his work or furnished his material was commenced; also to any lien, mortgage, deed of trust, or other encumbrance of which the lien claimant had no notice and which was unrecorded at the time the building, improvement, structure, or work of improvement on which such lien claimant has done his work or for which he has furnished his material, appliances or power was commenced.

Commencement of work

1189.1. (a) If the work of improvement of the character referred to in Section 1184.1 is provided for in a separate contract from any contract or agreement with respect to the erection of residential units or other structures upon said lot or tract of land, then the work of improvement of the character referred to in that section shall be deemed a separate work of improvement and the commencement thereof shall not constitute a commencement of the work of improvement consisting of the erection of any residential unit or other structure upon said lot or tract of land.

Preferences

(b) The liens provided for in Section 1184.1 are preferred to (1) any mortgage, deed of trust, or other encumbrance which may have attached subsequent to the time when the work of improvement of the character referred to in that section in connection with which the lien claimant has done his work or furnished his materials was commenced; or to (2) any mortgage, deed of trust, or other encumbrance of which the lien claimant had no notice and which was unrecorded at the time when such work of improvement was commenced; or to (3) any mortgage, deed of trust, or other encumbrance recorded before the commencement of the work of improvement of the character referred to in that section which was given for the sole or primary purpose of financing such work of improvement unless the loan proceeds are, in good faith, placed in the control of the lender under a binding agreement with the borrower to the effect that such proceeds are to be applied to the payment of claims for labor performed or materials used or consumed in such work of improvement and that no portion of such proceeds will be paid to the borrower in the absence of satisfactory evidence that all claims for such labor or materials have been paid or that the time for filing claims of lien arising out of such work of improvement has expired and no such claims have been filed; provided, however, that in the event the owner of the land or the holder of any mortgage, deed of trust, or other encumbrance thereon shall procure or cause to

Bonds

be procured a bond with good and sufficient sureties which shall be conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to such work of improvement, and shall cause to be incorporated in said bond a provision by its express terms making it inure to the benefit of any and all persons who perform labor upon, or furnish materials to be used in, or furnish appliances, teams, or power contributing to such work of improvement, so as to give such persons a right to recover upon said bond in any suit brought to foreclose the liens provided for in this chapter, or in a separate suit brought on said bond, then such mortgage, deed of trust, or other encumbrance shall be prior and paramount to the liens provided for in that section arising out of such work of improvement, irrespective of whether or not such mortgage, deed of trust, or other encumbrance attached before or after the time when the work of improvement commenced and irrespective of the nature or provisions for payment of the consideration of such mortgage, deed of trust, or encumbrance. Such bond given under this section must, in order to comply with its requirements, be either (1) a statutory labor and materials bond, complying with all of the provisions of Section 1185.1 of this code, save and except that said last mentioned bond may instead of being filed with the original contract, before the work of improvement is commenced, in the office of the county recorder of the county where the property is situated, be filed in such office at any time before such work of improvement has been completed, or such bond may be (2) a bond with good and sufficient sureties in an amount not less than fifty (50) percent of the face principal amount of such mortgage, deed of trust, or other encumbrance, and shall be given for the sole benefit of persons performing labor upon, or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to the work of improvement to which said bond refers, upon which last mentioned bond either the contractor or the owner may be principal, and which last mentioned bond shall be filed, in order to comply with the requirements of this section, before the work of improvement to which said bond refers is completed.

Article 2. Stop Notices

Notice of labor performed, etc

1190.1. (a) Any of the persons mentioned in Section 1181 and 1184.1 except the contractor, and all persons, firms, and corporations, excluding the contractor, performing work or furnishing materials, or both, upon any public improvement, including highways, streets, wagon roads, viaducts, or sewers, may at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, give to the owner a notice that they have performed labor or furnished materials, or both, to the contractor or other person acting by the authority

of the owner, or that they have agreed to do so, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both, and any of said persons who shall on the written demand of the owner refuse to give such notice shall thereby deprive himself of the right to claim a lien under this chapter.

(b) Such notice must be verified by the claimant, or by some person acting in his behalf, and may be given by delivering the same to said owner personally, or by leaving it at his residence or place of business with some person in charge, or by delivering it to his architect, if any; provided, however, that in all cases in which said work is being done under a contract with the State, or with any public board, commission, or officer thereof, or with any political subdivision thereof, such notice must be filed, within said time, in the office of the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract or with the commissioner, managers, trustees, officers, board of supervisors, board of trustees, common council, or other body by whom the contract for the improvement was awarded. In the case of any contract of the State by or through the Department of Public Works, such notice must be filed with the Director of Public Works and not with the State Controller. No such notice shall be invalid by reason of any defect in form, provided it is sufficient to inform the owner of the substantial matters herein provided for.

(c) Upon such notice being given it shall be lawful for the owner to withhold, and in the case of property which, for reasons of public policy or otherwise, is not subject to liens in this chapter provided for, the owner or person who contracted with the contractor shall withhold, from his contractor sufficient money, and bonds, where bonds are to be issued in lieu of money by the political subdivision which contracted for such work, due or that may become due to such contractor to answer such claim and any lien that may be filed therefor, including the reasonable costs of any litigation thereunder.

(d) In the event the moneys so withheld by the owner shall be insufficient to pay in full the valid demands of all the persons by whom such notices were given, the same shall be distributed among such persons in the same ratio that their respective claims bear to the aggregate of such valid demands. Such pro rata distribution of said moneys shall be made among the persons entitled to share therein without regard to the order of priority in which their respective notices may have been given or their respective actions, if any, commenced.

(e) Any person who shall wilfully give a false notice of his claim to the owner or who shall wilfully include in his claim work or materials not performed upon or furnished for the property described in such notice shall forfeit all right to participate

in the pro rata distribution of such moneys and all right to any lien under this chapter.

(f) Nothing in this article contained shall be construed to impair in any manner the right of any person by whom such notice has been given to recover from the contractor or his sureties any deficit that may remain unpaid after such pro rata distribution in an action upon the bond provided for by Section 4200 of the Government Code.

"Owner" (g) The word "owner" as used in this section, includes the State, or any public board, commission, or officer thereof, or any political subdivision thereof, whether the said work be done by or under the direction of said State, public board, commission, or officer thereof, or any political subdivision thereof.

Disputing validity of claim 1191.1. If the contractor, subcontractor, or other person against whom any claim is filed, as provided in the preceding section or as provided in Section 1192.1 of this code, shall dispute the correctness or validity of any claim so filed, it shall be lawful for the public agency, body, or disbursing officer concerned, at its or his discretion, to permit the contractor to whom said contract was awarded to deliver to such public agency, body, or officer a bond executed by some corporation authorized to issue surety bonds in this State, in a penal sum equal to one and one-fourth times the amount of said claim, which bond shall guarantee the payment of any sum which said claimant may recover on said claim together with his costs of suit in said action, if he shall recover therein, and upon filing of said bond by and with the consent of such agency, body, or officer, then such agency, body, or officer shall not withhold any moneys from such contractor on account of such claim. In the case of a contract with the State entered into by or through the Department of Public Works, the bond shall be filed with the Director of Public Works and not with the State Controller. The sureties upon said bond shall be jointly and severally liable to said claimant with the sureties upon the bond given in accordance with the provisions of Chapter 3, Division 5, Title 1 of the Government Code.

Statement of claims 1192.1. (a) Any materialman or person furnishing materials, provisions, provender, or other supplies used in, upon, for, or about the performance of work contracted to be executed or performed to which Chapter 3 of Division 5, Title 1 of the Government Code applies, or any person renting or hiring teams or implements or machinery for or contributing to the work to be done, or any person who performed work or labor upon the same or any person who supplies both work and materials, and whose claim has not been paid by the contractor or person to whom the contract has been awarded, or by the subcontractors of the contractor or person, may at any time prior to the expiration of the period within which claims of lien must be filed for record as prescribed by this section or by Section 1193.1 file with the public agency, body or officer by whom the contract was awarded, or with the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provi-

sions of such contract a verified statement of such claims, together with a statement that the same have not been paid.

(b) Except as to contracts awarded under the State Contract Act, Chapter 3, Part 5, Division 3, Title 2 of the Government Code, within 10 days after the completion of any contract, structure, or work of improvement to which Chapter 3 of Division 5, Title 1 of the Government Code applies, or within 10 days after there has been a cessation from labor thereon for a period of 30 days, the State, or any public board, commission, or officer thereof, or any political subdivision thereof, may file for record in the office of the county recorder of the county or counties where the property is situated a notice setting forth the date when the same was completed or on which cessation from labor occurred, together with the name of the state or such public board, commission, or officer thereof, or such political subdivision thereof, and a description of the property or public work or structure sufficient for identification, and the name of the contractor or contractors, and the names of the sureties, if any. In the case of any contract awarded under the provisions of the State Contract Act, such notice, if filed, shall be filed within 10 days after acceptance of the project, and as to such contracts verified statements of claims may be filed within 30 days after the filing for record of such notice, or if such notice is not so filed, within 90 days after the acceptance of the project. The notice shall be verified by some officer of the State or some member of such board, commission, or officer thereof, or of such political subdivision thereof. If the notice is not so filed, the failure to do so has the same effect as is provided in Section 1193.1 with reference to the "owner."

Actions against the State, etc

(c) Actions against the State, public board, commission, or officer thereof, or the political subdivision of the State, or the disbursing officer whose duty it is to make payments under the provisions of the contract for the public improvement in question, brought by any claimant who has filed claim under this section, or his assign, shall be governed by the provisions of Sections 1190.1 and 1197.1 and the verified notice provided for in those sections is equivalent for all purposes to the verified claim provided for herein.

Assignments

(d) No assignment by the contractor of the whole or any part of the money due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein or after the claim is filed, takes priority over claims filed under this section and such assignment has no binding force insofar as the rights of the claimants who file claims hereunder, or their assigns, are concerned.

Payments

(e) This section does not prohibit the payment of any money to the contractor or his assigns, so long as no verified claim is on file before the disbursing officer has actually surrendered possession of the warrant, checks, bonds, or money or the payment to the contractor or his assigns of any money due him or his assigns over and above the total amount of the

claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with the claims.

Disputed claims

(f) If the contractor, subcontractor, or other person against whom any claim is filed as provided in this section disputes the correctness or validity of any claim so filed, the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract or the commissioner, managers, trustees, officers, board of supervisors, board of trustees, common council, or other body by whom the contract for the improvement was awarded, in its or his discretion, may permit the contractor to whom the contract was awarded to deliver to such board, commission, or officer a bond executed by some corporation authorized to issue surety bonds in the State of California, in a penal sum equal to one and one-fourth times the amount of the claim, which bond shall guarantee the payment of any sum which the claimant may recover on the claim together with his costs of suit in the action, if he recovers therein. Upon the filing of the bond by and with the consent of such board, commission or officer, then such board, commission or officer shall not withhold any moneys from the contractor on account of the claim. The sureties upon the bond are jointly and severally liable to the claimant with the sureties upon the contractor's bond given in accordance with Chapter 3 of Division 5, Title 1 of the Government Code.

Article 3. Claims of Lien

Claim of lien

1193.1. (a) Every original contractor claiming the benefit of this chapter, within 60 days after the completion of his contract, and every person save the original contractor claiming the benefit of this chapter, at any time after he has ceased to perform labor or furnish material, or both, for any work of improvement mentioned in this chapter, and until 30 days after the completion of such work of improvement, as a whole, may file for record with the county recorder of the county or city and county in which such property or some part thereof is situated a claim of lien containing a statement of his demand after deducting all just credits and offsets, the name of the owner or reputed owner, if known, a general statement of the kind of work done or materials furnished by him, or both, the name of the person by whom he was employed or to whom he furnished the materials, and a description of the property sought to be charged with the lien sufficient for identification; which claim of lien must be verified by oath of claimant or some other person.

Completion

(b) In all cases, any of the following shall be deemed equivalent to a completion for all the purposes of this chapter: the occupation or use of a building, improvement, or structure by the owner, or his representative, accompanied by cessation from labor thereon; or the acceptance by the owner, or said agent, of said building, improvement, or structure, or cessation from labor for 30 days upon any contract or upon any building, improvement, or structure, or the alteration, addition to, or repair thereof; the filing of the notice hereinafter provided for.

(c) The owner shall within 10 days after the completion of any contract or work of improvement provided for in this chapter, or within 10 days after there has been a cessation from labor thereon for a period of 30 days, file for record in the office of the county recorder of the county where the property is situated a notice setting forth the date when the same was completed, or on which cessation from labor occurred, together with his name, address, and the nature of his title, and a description of the property sufficient for identification, together with the name of the original contractor, if any, for the work of improvement as a whole, or if the notice is given only of the work under a particular contract, then the name of the contractor under such contract, which notice shall be signed and verified by the owner or by some other person on his behalf. Notice

(d) The word "owner" as used in this section is hereby defined to mean the owner who caused the building, improvement, or structure to be constructed, altered, or repaired (or his successor in interest at the date a notice of completion or cessation from labor is filed for record) whether the interest or estate of such owner be in fee, as vendee under a contract of purchase, as lessee, or other interest or estate less than the fee; and where such interest or estate is held by several persons as joint tenants or tenants in common, any one or more of the cotenants may be deemed to be the "owner" within the meaning of this section; provided, any notice of completion or cessation from labor signed by less than all of such co-owners recites the names and addresses of all of such co-owners. "Owner"

(e) In case such notice be not so filed, then all persons claiming the benefit of this chapter, shall have 90 days after the completion of said work of improvement within which to file their claims of lien. Filing of claims

(f) In cases covered by Section 1184.1 where the improvement made or work done is subject to acceptance by any municipal board or officer, the time for filing claims of lien shall not commence to run until after such acceptance has been made. Acceptance

(g) Any person who shall wilfully include in his claim of lien filed pursuant to this chapter work not performed upon, or materials or appliances not furnished for, the property described in such claim, shall thereby forfeit his lien. Forfeiting lien

1194.1. (a) In every case in which one claim is filed against two or more buildings, mining claims, or other improvements owned or reputed to be owned by the same person or on which the lien claimant has been employed by the same person to do his work or furnish his materials, whether said parcels are owned by one or more owners, the person filing such claim must at the same time, designate the amount due to him on each of such buildings, mining claims, or other improvements; otherwise the lien of such claim is postponed to other liens. In the event such lien claimant has been employed to furnish labor or materials under a contract providing for a lump sum to be paid to him for his work or materials on said buildings, mining claims, or other improvements as a whole, and such Claims against two or more buildings

contract does not segregate the amount due for the work done and materials furnished on such buildings, mining claims, or other improvements separately, then such lien claimant, for the purposes of this section, may estimate an equitable distribution of the sum due him over all of said buildings, mining claims, or other improvements based upon the proportionate amount of work done or materials furnished upon said respective buildings, mining claims, or other improvements. The lien of such claimant does not extend beyond the amount designated as against other creditors having liens, by judgment, mortgage, or otherwise, upon either of such buildings or other improvements, or upon the land upon which the same are situated.

Single structure

(b) Provided, however, that, for all purposes of this section, if there is a single structure on more than one parcel of land owned by one or more different owners, it shall not be the duty of the lien claimant to segregate the proportion of material or labor entering into the structure on any one of said parcels; but upon the trial thereof the court may, where it deems it equitable so to do, distribute the lien equitably as between the several parcels involved; provided, further, that all persons interested as owners of, encumbrancers on, contractors, subcontractors, or entitled to liens on any of said parcels, may be joined in one action to foreclose the liens hereinabove referred to.

"Improvement"

1195.1. If a work of improvement consists in the construction of two or more separate residential units, each such unit shall be considered a separate "work of improvement" or "improvement," and the time for filing claims of lien against each such residential unit as provided in this chapter shall commence to run upon the completion of each such residential unit. A separate residential unit is defined as consisting of one residential structure together with any garages or other outbuildings appurtenant thereto. The provisions of this qualification shall not impair any rights conferred under the provisions of Sections 1192.1, 1194.1, and 1184.1 of this code. Materials delivered to or upon any portion of said entire work of improvement and ultimately used or consumed in one of such separate residential units shall, for all the purposes of this chapter, be deemed to have been furnished to be used or consumed in the separate residential unit in which the same shall have been actually used or consumed; provided, however, that if the lien claimant is unable to segregate the amounts used on or consumed in such separate units he shall be entitled to all the benefits of Section 1194.1 of this code.

Article 4. General and Procedural Provisions

Mistakes or errors

1196.1. No mistake or errors in the statement of the demand, or of the amount of credits and offsets allowed, or of the balance asserted to be due to claimant, or in the description of the property against which the claim is filed, shall invalidate the lien, unless the court finds that such mistake or error in the

statement of the demand, credits and offsets, or of the balance due, was made with the intent to defraud, or the court shall find that an innocent third party, without notice, direct or constructive, has since the claim was filed, become the bona fide owner of the property liened upon, and that the notice of claim was so deficient that it did not put the party upon further inquiry in any manner.

Actions

1197.1. (a) No action to enforce the payment of any claim, notice of which may be given pursuant to Article 2, shall be commenced against the owner, nor against the State or any public board, commission, or officer thereof, nor against any political subdivision of the State or the disbursing officer thereof whose duty it is to make payments under provisions of such contract, prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by Section 1193.1 of this code, nor shall any such suit be commenced later than 90 days following the expiration of such period. No money or bond shall be withheld by reason of any such notice as is prescribed by Article 2 longer than said 90 days following the expiration of such period unless proceedings be commenced in a proper court within that time by the claimant to enforce his claim; and in case such proceedings be so commenced but be not prosecuted to trial within two years after the commencement thereof, the court may in its discretion dismiss the same for want of prosecution; and in all cases upon the dismissal of such proceedings, unless it be expressly stated that the same is without prejudice, or upon a judgment rendered therein against the claimant, or upon the termination of said 90 days above provided if such proceedings have not been commenced, such notice shall cease to be effective and the moneys or bonds withheld shall be paid or delivered to the contractor or other person to whom they are due.

Notice

(b) Notice of such proceedings shall be given or filed within five days after the commencement thereof to the same persons and in the same manner as provided in Article 2 of this chapter with respect to notice of claim.

Consolidating actions

(c) Any number of persons who have given such notices may join in the same action and when separate actions are commenced the court first acquiring jurisdiction may consolidate them.

Impleading

(d) Upon the demand of the owner the court shall require all claimants to the moneys withheld by the owner in response to such notices to be impleaded in said action, to the end that the respective rights of all parties may be adjudicated and settled therein.

Duration of lien

1198.1. (a) No lien provided for in this chapter binds any property for a longer period than 90 days after the same has been filed except as hereinafter provided, unless proceedings be commenced in a proper court within that time to enforce the same. If a credit be given and notice of the fact and terms of such credit be filed in the office of the county recorder subsequent to the filing of such lien and prior to the expiration of

said 90-day period, then such lien continues in force until 90 days after the expiration of such credit, but no lien continues in force by reason of any agreement to give credit for a longer time than one year from the time the work is completed. If the proceedings to enforce the lien be not prosecuted to trial within two years after the commencement thereof, the court may in its discretion dismiss the same for want of prosecution, and in all cases the dismissal of such action (unless it be expressly stated that the same is without prejudice) or a judgment rendered therein that no lien exists shall be equivalent to the cancellation and removal from the record of such lien.

Rights of subsequent purchasers, etc

(b) As against any purchaser or encumbrancer for value and in good faith whose rights are acquired subsequent to the expiration of the 90-day period following the filing of such lien, no giving of credit or extension of the lien or time to enforce the same shall be effective unless evidenced by a notice or agreement filed for record in the office of the county recorder prior to the acquisition of the rights of such purchaser or encumbrancer, and no proceedings to enforce the lien which include a personal action and issuance of attachment as provided in Section 1200 of this code shall be effective unless a notice of pendency of such proceedings is filed for record in the office of the county recorder, as provided in Section 409 of this code.

Consolidation of actions

1199.1. Any number of persons claiming liens may join in the same action and when separate actions are commenced the court may consolidate them. In addition to any other costs allowed by law, the court must also allow as costs the money paid for verifying and recording the lien, such costs to be allowed each claimant whose lien is established whether he be plaintiff or defendant, or whether they all join in one action or separate actions are consolidated.

Deficiency judgment

1199.2. Whenever on the sale of the property subject to any of the liens provided for in this chapter, under the judgment or decree of foreclosure of such lien, there is a deficiency of proceeds, judgment for the deficiency may be entered against the party personally liable therefor in like manner and with like effect as in action for the foreclosure of mortgages.

Personal actions

1200. Nothing contained in this chapter shall be construed to impair or affect the right of any person to whom any debt may be due for work done or materials furnished, or furnishing appliances, teams, or power contributing to any work of improvement to maintain a personal action to recover said debt against the person liable therefor and to, either in an action to foreclose his lien or in a separate action, take out an attachment or execution therefor, or obtain a separate personal judgment in such mechanics' lien action, against the person personally liable for such debt notwithstanding his lien, and in his affidavit to procure an attachment he need not state that his demand is not secured by a lien; but the judgment, if any, obtained by the plaintiff in such personal action, or personal judgment obtained in such mechanics' lien action,

shall not be construed to impair or merge any lien held by said plaintiff under this chapter; provided, only, that any money collected on said judgment shall be credited on the amount of such lien in any action brought to enforce the same, in accordance with the provisions of this chapter.

Bonds· Release of sureties

1200.1. (a) The surety or sureties on any bond given pursuant to any of the provisions of this chapter shall not be exonerated or released from the obligation of the bond by any change, alteration, or modification in or of any contract, plans, specifications, or agreement pertaining or relating to any scheme or work of improvement or pertaining or relating to the furnishing of labor, materials, or equipment therefor, nor by any change or modification of any terms of payment or extension of the time for any payment relating or pertaining to any scheme or work of improvement, nor by any rescission or attempted rescission of any such contract or agreement, nor by rescission or attempted rescission of the bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of laborers or materialmen otherwise entitled to recover under any such contract or agreement or under the bond, nor, where the bond is given for the benefit of laborers, materialmen, or other persons entitled to claim a lien under this chapter, by any fraud practiced by any person other than such laborer, materialman, or like person as is seeking to recover on the bond.

Construction of terms

(b) All bonds given pursuant to the provisions of this chapter will be construed most strongly against the surety and in favor of all persons for whose benefit such a bond is given, and under no circumstances shall a surety be in anywise released from liability to the said laborers or materialmen or persons furnishing appliances, teams, or power, for whose benefit said bond has been written, by reason of any breach of contract between owner and contractor or on the part of any obligee named in said bond, but the sole condition of recovery on the part of such person furnishing labor or material or appliances, teams, or power, as aforesaid, shall be that said labor or material has been used or consumed in or said appliances, teams, or power have contributed to the work of improvement to which said bond refers, and that the said third person for whose benefit said bond has so been made to inure has not been actually paid some part of all of the sums due him for the same.

Invalid provisions

(c) No provisions in any of the bonds given pursuant to any of the provisions of this chapter attempting by contract to shorten the period prescribed for the commencement of an action thereon, as laid down in Section 337 of this code, shall be valid if such provision attempts to limit the time for commencement of action thereon to a shorter period than six months from the completion of said structure or work of improvements, as "completion" is defined in Article 3 of this chapter, nor shall any provision in any of said bonds attempting to limit the period for the commencement of actions thereon be valid in so

far as actions brought by persons furnishing labor or materials, appliances or teams or power, as aforesaid, are concerned, unless said bond be filed for record, with the contract to which it refers, before the work of improvement is commenced, with the county recorder of the county or city and county in which the property referred to therein, or some part thereof, is situated.

Notice

(d) In case the surety or sureties on any bond given as in this chapter provided shall have caused said bond to be filed and recorded in the office of the county recorder of the county in which the property is situated before the work of improvement is completed, then no action may be maintained thereon unless there shall previously have either been filed a mechanic's lien claim as in this chapter provided or unless written notice shall previously have been given to the surety on said bond before the expiration of the time prescribed in this chapter for filing a lien to enforce such claim, which notice shall state that the person giving such notice has performed labor or furnished materials, or both, or furnished appliances, teams, or power, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor, materials, appliances, teams, or power and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both. The filing of an action to foreclose such lien shall not be a condition precedent to a recovery on said bond. If said bond has been so filed as herein last provided, then any suit brought against such surety or sureties shall be filed within six months after completion of said structure or work of improvement, as "completion" is defined in Article 3 of this chapter.

CHAPTER 1170

An act to amend Sections 4663, 4911.1, 4912, and 4912.2 of, and to add Section 4663.1 to, the Education Code, relating to school districts, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 22, 1951. Filed with Secretary of State June 22, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 4911.1 of the Education Code is amended to read:

Reorganization of school districts

4911.1. In the event the county committee transmits plans and recommendations to the State Board of Education, pursuant to Section 4902, for the reorganization of the school districts in the county other than the formation of a unified school district, the proposed reorganization, if approved by the State Board of Education, shall be deemed to be the filing of a petition with the State Board of Education, the appropriate board of supervisors, or with the county superintendent of schools, as the case may be. The State Board of Education shall notify the board of supervisors and the county superintendent of schools having jurisdiction over the school districts affected thereby of its action, and the proposed reorganization of the school districts shall then be held and conducted in accordance with the applicable provisions of this code as though such petition had been originally filed with such board of supervisors or with the county superintendent of schools, except that no action required by any other provision of this code shall be necessary to give the board of supervisors or county superintendent of schools jurisdiction in the matter.

SEC. 2. Section 4912 of said code is amended to read:

Special election

4912. Except as otherwise provided in Section 4912.2 the county superintendent of schools of the county in which the greater part of such area is located shall cause to be held a special election in the elementary school district or unified school district, or districts affected for the purpose of adopting or rejecting the plans and recommendations of the county committee or committees. The county committee or committees shall hold, following the approval by the State Board of Education of the recommendations of the county committee, one (1) or more public hearings at least ten (10) days prior to such election within the area affected by a proposal for unification. The county committee or committees may designate any member to hold and conduct any public hearing required to be held. Such election shall be held between July 1st and December 31st of the year in which the county superintendent of schools was given notice by the State Board of Education under Section 4911 except that if such notice is not received on or before November 1st, the election shall be held between July 1st and December 31st of the following year.

SEC. 3. Section 4912.2 of said code is amended to read:

Exclusion election

4912.2. In the event the plans and recommendations of a county committee for an area provide for the exclusion of territory from a school district, the county committee may determine that as to said district the election shall be held only in said territory. In the event the county committee makes such determination and notifies the county superintendent of schools whose duty it is under Education Code Section 4912 to call the election provided for in said section prior to the date he calls the election, the county superintendent of schools shall as to said district call the election only in said territory.

SEC. 4. Section 4663 of said code is amended to read:

Annexation of districts

4663. One or more contiguous elementary or high school districts, one of which is contiguous to a unified school district, may be annexed to the unified school district not later than the first day of February in any school year by the board of supervisors of the county having jurisdiction over the unified school district whenever a majority of the qualified electors in each of the elementary or high school districts voting at an election held for that purpose vote in favor of the annexation and the governing board of the unified school district has filed its approval of the annexation, in writing, with the board of supervisors. The election shall be called by the county superintendent of schools having jurisdiction over the unified school district whenever a majority of the registered electors residing in each of the elementary or high school districts petition the county superintendent of schools to call the election or whenever the State Board of Education notifies the county superintendent of schools of its approval of plans and recommendations of a county committee pursuant to Section 4911.1.

No petition shall be accepted by the county superintendent of schools after December 15th in any fiscal year.

SEC. 5. Section 4663.1 is added to said code, to read:

Annexation election

4663.1. When an election is called for the annexation of one or more contiguous elementary or high school districts, one of which is contiguous to a unified school district, after the approval by the State Board of Education of plans and recommendations of a county committee for the reorganization of school districts, the election shall be held and conducted in accordance with the provisions of this article and the annexation of such elementary or high school districts to a unified school district may be effected without such elementary or high school districts first withdrawing from any school district.

Urgency

SEC. 6. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Under the existing law, there is no method by which an elementary school district which is a part of a city high school district may be annexed to a contiguous unified school district, nor is there any procedure prescribed whereby an elementary or high school district which is a part of another district may be annexed to a contiguous unified school district without first withdrawing from the district of which it is a part. This act would eliminate delay in annexations to a unified school district by allowing annexations in all such cases without the initiation of withdrawal proceedings.

It is therefore necessary that this act take effect immediately in order for unified school districts to make plans for necessary new sites and buildings, based on the new boundaries, rather than the present boundaries, of the district, so that the schools built in the unified district through the state school building aid program will be situated so as to serve the needs of the reorganized district.

Managing general agent

Any such managing general agent may, with respect to any principals for whom fiduciary funds are held, either comply with Section 1730.5 or with respect to such principals as have in writing specifically waived the segregation requirements of said section, comply with this section. A managing general agent electing to comply with this section may commingle the funds of any such principal with his own funds to an unlimited extent and shall maintain such fiduciary funds held for such principals at all times in a bank account or depository in an amount equal to the net aggregate for all such principals of the premiums and return premiums, net of commissions, received by him and

unpaid to the persons entitled thereto or, at their direction or pursuant to written contract, for the account of such persons. In computing such net aggregate any balance owed to such managing general agent by any principal may be deducted only if (1) such balance will, in the normal course of business and pursuant to written contract, be paid or allowed to such managing general agent by such principal and (2) such principal is not in liquidation or conservation in any jurisdiction and is not the subject of voluntary or involuntary receivership proceedings

CHAPTER 1175

An act to amend Sections 922.1, 922.2, and 1591, to amend Section 922.5 and renumber it Section 922.8 and to repeal Sections 922.3 and 922.4 of, and to add Sections 922.3, 922.4, 922.5, 922.6 and 922.7 to, the Insurance Code, relating to financial statements of insurers.

[Approved by Governor June 22, 1951. Filed with Secretary of State June 23, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 922.1 of the Insurance Code is amended to read:

922.1. Subject to the limitations contained in Sections 922.2 to 922.8, inclusive, the following deductions may be made from the liabilities required to be shown by this article in the event that the whole or any portion of the risks insured by an insurer has been reinsured by another insurer: Deductions from liabilities

(a) The amounts recoverable by the insurer from such reinsurer for losses due and unpaid, for claims for losses resisted by the insurer and for losses in process of adjustment or in suspense including all reported or supposed losses.

(b) The ratable portion of the gross unearned premium on the risks so reinsured except in the case of excess loss and catastrophe reinsurance where the deduction shall be on the basis of the actual reinsurance premiums and actual reinsurance terms.

This section and Sections 922.2 to 922.8, inclusive, shall not apply to life insurance risks nor in any way limit or otherwise affect deductions from liabilities or assets claimed on account of reinsurance permitted with respect to such risks.

Section 922.5 shall not apply to reinsurance ceded to an alien reinsurer which complies with Article 2, Chapter 4 of this part and includes in the statements required by that article all reserves and liabilities arising out of such reinsurance.

SEC. 2. Section 922.2 of said code is amended to read:

922.2. No such deductions specified in Section 922.1 shall be made or allowed unless the contract of reinsurance contains provision in substance as follows: Same Exceptions

The portion of any risk or obligation assumed by the reinsurer, when such portion is ascertained, shall be payable on demand of the ceding insurer at the same time as the ceding insurer shall pay its net retained portion of such risk or obligation, with reasonable provision for verification before payment, and the reinsurance shall be payable by the reinsurer, on the basis of the liability of the ceding insurer under the contract or contracts reinsured without diminution because of the insolvency of the ceding insurer. In the event of insolvency and the appointment of a conservator, liquidator or statutory successor of the ceding company, such portion shall be payable to such conservator, liquidator or statutory successor immediately upon demand, with reasonable provision for verification, on the basis of claims allowed against the insolvent company by any court of competent jurisdiction or by any conservator, liquidator or statutory successor of the company having authority to allow such claims, without diminution because of such insolvency or because such conservator, liquidator or statutory successor has failed to pay all or a portion of any claims. Payments by the reinsurer as above set forth shall be made directly to the ceding insurer or to its conservator, liquidator or statutory successor, except where the contract of insurance or reinsurance specifically provides another payee of such reinsurance in the event of the insolvency of the ceding insurer.

The reinsurance agreements may provide that the conservator, liquidator or statutory successor of a ceding insurer shall give written notice of the pendency of a claim against the ceding insurer indicating the policy or bond reinsured, within a reasonable time after such claim is filed and the reinsurer may interpose, at its own expense, in the proceeding where such claim is to be adjudicated, any defense or defenses which it may deem available to the ceding company or its conservator, liquidator or statutory successor. The expense thus incurred by the reinsurer shall be payable subject to court approval out of the estate of the insolvent ceding insurer as part of the expense of conservation or liquidation to the extent of a proportionate share of the benefit which may accrue to the ceding insurer in conservation or liquidation, solely as a result of the defense undertaken by the reinsurer.

The original insured or policyholder shall not have any rights against the reinsurer which are not specifically set forth in the contract of reinsurance, or in a specific agreement between the reinsurer and the original insured or policyholder.

Repeal

SEC. 3. Sections 922.3 and 922.4 of said code are repealed.

SEC. 4. Section 922.5 of said code is renumbered Section 922.8, and amended to read:

Losses as assets

922.8. Losses or portions thereof paid by the ceding insurer which are recoverable from an admitted reinsurer may be allowed as assets of such ceding insurer. Losses or portions thereof paid by the ceding insurer which are recoverable from a nonadmitted reinsurer may be allowed as assets of such ceding insurer for 90 days after the payment of such losses by the

ceding insurer, or for periods preceding specified settlement dates, to the extent that the ceding insurer holds the funds of or deposits made by the reinsurer or there has been a deposit in trust, conforming to the requirements of Section 922.5. With respect to reinsurance in nonadmitted reinsurers, the commissioner may disallow such assets if the reinsurer does not meet the standards set forth in Sections 922.4 and 922.5.

SEC. 5. Section 922.3 is added to said code, to read:

922.3. No such deduction specified in Section 922.1, nor any credit whatsoever, shall be allowed in any accounting or financial statement of the ceding insurer in respect to any so-called reinsurance contract unless, in such contract, the reinsurer undertakes to indemnify the ceding insurer, not only in form but in fact, against all or a part of the loss or liability arising out of the original insurance. Deduction not allowed

SEC. 6. Section 922.4 is added to said code, to read:

922.4. Credit in accounting and financial statements on account of reinsurance ceded to a nonadmitted reinsurer other than an alien reinsurer shall be allowed only: Credit allowed

(a) Where it is demonstrated by the ceding insurer to the satisfaction of the commissioner that such reinsurer maintains the standards and meets the financial requirements applicable to an admitted insurer, or

(b) To the extent of deposits by, or funds withheld from, such reinsurer pursuant to express provision therefor in the reinsurance contract as security for the payment of the obligations thereunder if such deposits or funds are held subject to withdrawal by, and under the control of, the ceding insurer or are placed in trust for such purposes in a bank which is a member of the Federal Reserve System if withdrawals from such trust cannot be made without the consent of the ceding insurer.

SEC. 7. Section 922.5 is added to said code, to read:

922.5. Credit in accounting and financial statements permitted by this code on account of reinsurance ceded to an alien reinsurer shall be allowed only: Same Alien reinsurers

(a) To the extent of the amount of deposits by, and funds withheld from, such alien reinsurer pursuant to express provision therefor in the reinsurance contract as security for the payment of the obligations thereunder if such deposits or funds are held subject to withdrawal by, and under the control of, the ceding insurer or are placed in trust for such purposes in a bank which is a member of the Federal Reserve System, if withdrawals from such trust cannot be made without the consent of the ceding insurer, or

(b) Where such alien reinsurer maintains sufficient assets in the United States for the protection of policyholders in the United States and operates its business in such manner as to satisfy the commissioner that it maintains standards and financial condition reasonably comparable to those required of admitted insurers and that it is able to pay losses in the United States.

SEC. 8. Section 922.6 is added to said code, to read:

Withheld deposits, etc

922.6. Deposits and funds withheld under reinsurance treaties shall be reported on the asset side of the financial statement of the ceding insurer, separately from other assets, supported by a detailed schedule describing the deposits or securities in which the withheld funds are invested, and such deposits and securities shall be valued in the same manner as if they were assets of an admitted insurer. Such schedule need not allocate such deposits or securities to the accounts of specific reinsurers or reinsurances.

SEC. 9. Section 922.7 is added to said code, to read:

Canceling reinsurance contract

922.7. Where, under the terms of a reinsurance contract, the reinsurer is entitled to cancel such contract without the consent of the ceding insurer on less than 90 days notice, without providing for a runoff of the reinsurance in force at the date of cancellation, credit for commission shall be allowed on the financial statement of the ceding insurer only as and to the extent that such commission is actually earned. In the case of a reinsurance contract requiring 90 or more days notice of cancellation and involving reinsurance of more than 20 percent of the ceding insurer's gross unearned premiums before any deduction for such reinsurance, the ceding insurer, within 30 days after receiving notice of cancellation, shall notify the commissioner of the fact of cancellation and the estimated amount of gross unearned premiums and return commissions involved.

SEC. 10. Section 1591 of said code is amended to read:

Alien insurers' statement

1591. In addition to complying with all other applicable requirements of this code, every admitted alien insurer shall on or before the first day of March in each year after the year 1941, file with the commissioner a statement on a form prescribed by him, showing as of the thirty-first day of December then next preceding, the following information:

(a) All of its assets within the United States on deposit with officers of any state thereof for the benefit and security of all the policyholders, or of all the policyholders and creditors, of such alien insurer within the United States. Such assets so deposited are designated "general state deposits."

"General state deposits"

(b) All of its assets within the United States, other than general state deposits, on deposit with officers of any state thereof for the benefit and security of all the policyholders, or policyholders and creditors, of such alien insurer within the state of deposit or of certain classes of policyholders, or policyholders and creditors, either within the state of deposit or within the United States. Such assets so deposited are designated "special state deposits." The value to be allowed in such statement for any special state deposit shall not exceed the liability secured thereby.

(c) All of its assets within the United States, other than general state deposits and special state deposits, held by any trustee for the benefit and security of all the policyholders, or of all the policyholders and creditors, of such alien insurer

within the United States. Such assets so held are designated "trusteed assets." "Trusteed assets"

(d) The amount of interest receivable, accrued at the date of such statement on the general state deposits, the special state deposits, and the trusteed assets of such alien insurer, if such interest is collectible by the State or trustee.

(e) All of the reserves and other liabilities arising out of policies or obligations issued, assumed or incurred by such alien insurer in the United States. Said reserves and other liabilities are designated as "liabilities in the United States."

For the purpose of determining the liabilities in the United States of such alien insurer there may be deducted:

(1) From the amount of such liabilities for unpaid losses, the amount, included therein, of reinsurance recoverable thereon from insurers authorized to do business in any state of the United States, subject (except as to life insurance) to the same limitations as are contained in Sections 922.2 to 922.4, inclusive, and in Sections 922.6 and 922.8.

(2) From the amount of such liabilities for unearned premiums, first, the unearned portion, included in such amount, of premiums receivable by such alien insurer from its agents or policyholders under policies issued by it in the United States and not more than 90 days past due on the date of such statement, and second, subject (except as to life insurance) to the same limitations as are contained in Section 922.4, the unearned portion, included in such amount of reinsurance premiums receivable by such alien insurer from other insurers authorized to do business in any state of the United States.

(3) The ratable portion, included in such liabilities, of the gross liabilities and reserves on risks reinsured, in whole or in part, by an alien insurer which complies with this article and includes in the statements required thereby all reserves and liabilities arising out of such reinsurance, or, subject (except as to life insurance) to the same limitations as are contained in Sections 922.2 to 922.8, inclusive, by another insurer which is authorized to transact insurance in any state of the United States, except in the case of excess loss and catastrophe reinsurance where the deduction shall be on the basis of the actual reinsurance premiums and the actual reinsurance terms.

(4) Those liabilities in the United States, pertaining to any asset in the United States of such alien insurer, other than the assets described in subdivisions (a), (b), (c), and (d), but such deduction shall in no case exceed that portion of the value of such asset which is applicable to the liability pertaining thereto.

(5) If such alien insurer is a life insurer, the amount of the unpaid principal and interest of any loan made by it to the holder of, and solely on the security of, any policy of life insurance or annuity contract issued or assumed by it, on the life of or to any person in the United States. Such amount shall in no case exceed the amount of the reserve required to be maintained

on such policy or annuity contract by such insurer. Such amount is designated as "policy loans in the United States."

(f) Such further information required by the commissioner, as he deems necessary to apply the provisions of this article.

d. Binders and binder tighteners shall be maintained in good condition.

e. Binders securing loads shall be tightened and locked prior to a vehicle entering upon a public highway and inspection shall be made en route to assure that the load is stable and that the binders are tight and locked. f. Gut wrappers shall be considered as binders except under Rules 9a to 9d inclusive, and where load encircling binders are otherwise prescribed. Gut wrappers shall be so arranged and tensioned that they do not bear full support of the logs or poles resting thereon.

2. Stakes. a. When wooden stakes are used, unless otherwise provided, stakes shall be not less than two inches by four inches (2″ x 4″) in thickness and width, respectively, when supporting loads less than five feet (5′) in height and shall be not less than four inches by four inches (4″ x 4″) when supporting loads in excess of five feet (5′) in height above top of vehicle bed. Stakes must be straight grained and free from strength impairing knots. Stakes

b. Stakes supporting loads shall be connected one to the other longitudinally at or near the top by binder or strap material or by one continuous length of lumber not less than one inch by four inches (1″ x 4″) in thickness and width, respectively, securely attached to each stake by nails or bolts.

The number of strands thus used shall depend upon the breaking strength assigned by a manufacturer to any particular gauge wire. Minimum strapping specifications

4. Stake Pockets. A stake pocket shall be designed to accept the stake and be equal to the stake strength. Stake pockets

5. Bulkheads. A substantial bulkhead shall be provided which shall extend up to the approximate height of the driver's compartment. Bulkheads

6. Log trailers being carried on trucks shall have at least one set of tires resting against a steel cross rail or rails and steel side chocks measuring not less than four inches (4″) from base to tip which shall be securely attached to said truck in a manner designed to prevent the forward and sideward movement of such trailer. Log trailers

f. Bunks shall not be bent down in excess of one inch (1″) at either end.

Part 2. Logs and Poles

Construction of loads

8. Construction of Loads. a. Loads of logs and poles shall be loaded in pyramid fashion unless otherwise provided herein.

b. Loads of logs and poles shall be solidly packed and have the weight centered over the bunks.

c. Logs and poles less than twenty-five inches (25″) in diameter at the butt end may be loaded and transported on flat bed vehicles in other than pyramid fashion; provided, that the height of the load does not exceed the height of the bulkhead on the truck portion and that at least three pairs of stakes shall be in place in stake pockets when lengths are less than twenty feet (20′) and at least four pairs of stakes shall be in place in stake pockets when lengths exceed twenty feet (20′). Such stakes and stake pockets shall comply with Rules 2 and 4. (See Rule 8d.)

d. Loads constructed and protected in the manner prescribed in Rule 8c are exempted from the binder requirements set forth in Rules 9b to 9e, inclusive; provided, that the load occupies the full space between the opposite stakes and that not less than two (2) load encircling binders are in place, one near each end, tightly tensioned at all times on loads two (2) or more logs or poles in height.

Binding loads: Logging trucks

9. Binding Loads on Logging Trucks. a. A single log or pole shall be secured with one binder. Each end of such binder shall be secured to the trailer bunk.

b. Loads two (2) or more logs or poles in height shall have four (4) binders around load as evenly spaced as possible but with one binder firmly attached to the rear bunk.

b. Stakes, as prescribed in Rule 10a shall be not less than four inches by four inches (4″ x 4″), secured in stake pockets of the type and in the manner prescribed in the general rules. Such stakes shall extend to not less than one-half ($\frac{1}{2}$) the diameter of the log or pole directly adjacent to the stakes in the bottom layer of a pyramid load.

(g) A table showing in figures every nonforfeiture benefit and cash surrender value available under the certificate for each certificate anniversary either during the first 20 certificate years or during the term of the certificate, whichever is shorter, such benefits and values to be calculated upon the assumption that there are no dividends or paid-up additions

credited to the certificate and that there is no indebtedness to the society on account of or secured by the certificate. Standard provisions

(h) A provision that the certificate shall be incontestable after it has been in force during the lifetime of the member for a period of two years from its date of issue except for nonpayment of premiums, risks limited or not assumed, violation of the provisions of the certificate relating to military, aviation, or naval service, and violation of the provisions relating to suspension or expulsion as substantially set forth in the certificate. At the option of the society, supplemental provisions relating to benefits in the event of temporary or permanent disability or hospitalization and provisions which grant additional insurance specifically against death by accident or accidental means, may also be excepted. The certificate shall be incontestable on the ground of suicide after it has been in force during the lifetime of the member for a period of two years from date of issue. The certificate may provide, as to statements made to procure reinstatement, that the society shall have the right to contest a reinstated certificate within a period of two years from date of reinstatement with the same exceptions as herein provided.

(i) A provision that if it shall be found at any time before final settlement under the certificate that the age of the insured (or the age of the beneficiary, if considered in determining the premium) has been understated, and the discrepancy and the premium payment involved have not been adjusted, the amount payable under the certificate shall be such as the premium would have purchased at the correct age, except that if the correct age was not an insurable age under the society's charter, constitution or by-laws, only the net mortuary payments made thereunder shall be returned; and that if the age, as aforesaid, has been overstated, no additional amount of insurance or other values shall be granted for any excess premiums paid but such excess premiums paid shall be returned without interest.

(j) A provision or provisions which recite fully, or which set forth the substance of, all sections of the charter, constitution, laws, rules or regulations of the society, in force at the time of issuance of the certificate, the violation of which will result in the termination of, or in the reduction of, the benefit or benefits payable under the certificate.

Any of the foregoing provisions or portions thereof not applicable by reason of the plan of insurance may, to the extent inapplicable, be omitted from the certificate. The word "premiums" as used in this section means premiums, rates, or other required contributions by whatever name known.

11067. After September 21, 1952, no life insurance benefit certificate shall be delivered or issued for delivery in this State containing in substance any of the following provisions: Prohibited provisions

(a) Any provision limiting the time within which any action at law or in equity may be commenced to less than 18 months after the cause of action shall accrue.

(b) Any provision by which the certificate shall purport to be issued or take effect more than six months before the original application for the certificate was made,

except in case of transfer from one form of certificate to another in connection with which the member is to receive credit for any reserve accumulation under the form of certificate from which the transfer is made.

(c) Any provision for forfeiture of the certificate for failure to repay any loan thereon or to pay interest on such loan while the total indebtedness, including interest, is less than the loan value of the certificate.

(d) Any provision whereby the suspension or expulsion of the member, or change of occupation, or any other violation of the terms and conditions of the contract shall result in the loss or reduction of the cash surrender value or other withdrawal equity, if any, available by the terms of such certificate.

Same

11068. After September 21, 1954, no life insurance benefit certificate shall be delivered or issued for delivery in this State containing in substance any provision limiting the time within which any action at law or in equity may be commenced to less than two years after the cause of action shall accrue.

Approval of contracts

11069. No domestic, foreign or alien society authorized to do business in this State shall issue or deliver in this State any certificate or other evidence of any contract for temporary or permanent disability benefits as a result of disease or accident, or for hospital, medical or nursing benefits, unless and until the form thereof, together with the form of application and all riders or endorsements for use in connection therewith, shall have been filed with the commissioner and approved by him as conforming to reasonable rules and regulations from time to time made by him and as not inconsistent with any other provisions of law applicable thereto. The commissioner shall, within a reasonable time after the filing of any such form, notify the society filing the same either of his approval or of his disapproval of such form. The commissioner may approve any such form which in his opinion contains provisions on any one or more of the several requirements made by him which are more favorable to the insured members than the one or ones so required. The action of the commissioner in disapproving any such form shall be subject to judicial review Pursuant to the foregoing provisions, the commissioner shall have power, from time to time, to make, alter and supersede reasonable regulations prescribing the required, optional and prohibited provisions in such contracts, and such regulations shall conform, as far as practicable, to the provisions of this code relating to similar contracts issued by other insurers. Where the commissioner deems inapplicable, either in part or in their entirety, the provisions of this code relating to similar contracts issued by other insurers, he may prescribe the portions or summary thereof of the contract to be printed on the certificate issued to the member. All rules and regulations made, altered or superseded by the commissioner pursuant to the authority

granted in this section shall be in accordance with Chapter 4 of Part 2, Division 3, Title 2 of the Government Code.

Statute of limitations

11070. After September 21, 1954, no action at law or in equity shall be had or maintained on any certificate or contract issued by a society unless commenced within two years after the cause of action shall accrue.

Waiver of provisions

11071. The constitution and laws of the society may provide that no subordinate body, nor any of its subordinate officers or members shall have the power or authority to waive any of the provisions of the laws and constitution of the society. Such provision shall be binding on the society and every member and beneficiary of a member.

Reinsurance

11072 A domestic society may, by a reinsurance agreement, cede any individual risk or risks in whole or in part to an insurer having the power to make such reinsurance and authorized to do business in this State, or if not so authorized, one which is approved by the commissioner; but no such society may reinsure substantially all of its insurance in force without the written permission of the commissioner. It may take credit for the reserves on such ceded risks to the extent reinsured, but no credit shall be allowed as an admitted asset or as a deduction from liability, to a ceding society for reinsurance made, ceded, renewed, or otherwise becoming effective after the effective date of this chapter, unless the reinsurance is payable by the assuming insurer on the basis of the liability of the ceding society under the contract or contracts reinsured without diminution because of the insolvency of the ceding society.

Article 6. Powers of Commissioner

Certificate of authority Renewals

11090. Societies which on the effective date of this chapter are authorized to transact business in this State may continue such business until July 1, 1952. The authority of such societies and all societies receiving certificates of authority after the effective date of this chapter may be renewed annually, but in all such cases to terminate on the first day of each succeeding July. However, a certificate of authority so issued shall, if a proper renewal application is filed with the commissioner before the June 15th preceding the period for which the renewal is sought, continue in full force and effect until the new certificate of authority is issued or specifically refused. For filing an application for each certificate of authority or renewal thereof the society shall pay to the commissioner twenty dollars ($20). A duly certified copy or duplicate of such certificate of authority shall be prima facie evidence that the holder is a fraternal benefit society within the meaning of this chapter.

Foreign societies

11091. No foreign or alien society shall transact business in this State without a certificate of authority issued by the commissioner Any such society may receive a certificate of authority to transact business in this State upon a showing that its assets are invested in accordance with the provisions of this chapter and filing with the commissioner:

(a) A duly certified copy of its charter or articles of incorporation;

(b) A copy of its constitution and laws, certified by its secretary or corresponding officer;

(c) A power of attorney to the commissioner as prescribed in Section 11104;

(d) A statement of its business under oath of its president and secretary or corresponding officers in a form prescribed by the commissioner, duly verified by an examination made by the supervising insurance official of its home state or other state satisfactory to the commissioner;

(e) A valuation report prepared and executed in accordance with Section 11133 of this chapter;

(f) A certificate from the proper official of its home state, territory, province or country that the society is legally incorporated and licensed to transact business therein;

(g) Copies of its certificate forms;

(h) Such other information as the commissioner may deem necessary to a proper exhibit of its plan of operation; and

(i) Payment of the fee specified in Section 11090.

Any foreign or alien society desiring admission to this State shall have the qualifications required of domestic societies organized under this chapter.

If the commissioner refuses to issue such license, he shall reduce his refusal to writing, file the same in his office and furnish a copy thereof, together with a statement of his reason therefor, to the secretary or corresponding officer of the society.

Action against domestic societies

11092. The commissioner shall act as prescribed in Section 11093 when upon investigation he finds that a domestic society:

(a) Has exceeded its power;

(b) Has failed to comply with any provision of this chapter;

(c) Is not fulfilling its contracts in good faith;

(d) Has a membership of less than 400 after an existence of one year; or

(e) Is transacting business fraudulently or in a manner hazardous to its members, creditors, the public or the business.

Action Procedure

11093. If the commissioner finds that any of the conditions set forth in Section 11092 exist in respect to a domestic society, he shall, in an order to show cause, notify the society of his findings and wherein such conditions exist and shall set a date after a reasonable period of time on which it shall show cause why it should not be enjoined from carrying on any business until the overt act or violation complained of shall have been corrected, or why an action in quo warranto should not be commenced against the society.

If on such date the society does not present good and sufficient reason why it should not be so enjoined or why such action should not be commenced, the commissioner may present the facts relating thereto to the Attorney General who shall, if he

deems the circumstances warrant, commence an action to enjoin the society from transacting business or in quo warranto.

The court shall thereupon notify the society of a hearing. If after a full hearing it appears that the society should be so enjoined or liquidated or a receiver appointed, the court shall enter the necessary order.

Suspension of certificate of authority

11094. If the court orders the society enjoined, the commissioner shall suspend its certificate of authority. Thereafter such society shall have no authority to do business in this State until:

(a) The commissioner finds that the overt act or violation complained of has been corrected;

(b) The costs of such action, if any, have been paid by the society;

(c) The court has dissolved its injunction; and

(d) The commissioner has reinstated the certificate of authority.

Liquidation

11095. If the court orders the society liquidated, it shall be enjoined from carrying on any further business, whereupon the receiver of the society shall proceed at once to take possession of the books, papers, money and other assets of the society and, under the direction of the court, proceed forthwith to close the affairs of the society and to distribute its funds to those entitled thereto.

Voluntary discontinuance

11096. The provisions of Sections 11093 to 11095 relating to hearing by the commissioner, action by the Attorney General at the request of the commissioner, hearing by the court, injunction and receivership shall be applicable to a society which shall voluntarily determine to discontinue business.

Actions against foreign societies

11097. The commissioner shall act as prescribed in Section 11098 when upon investigation he finds that a foreign or alien society transacting or applying to transact business in this State:

(a) Has exceeded its powers;

(b) Has failed to comply with any provisions of this chapter;

(c) Is not fulfilling its contracts in good faith; or

(d) Is conducting its business fraudulently or in a manner hazardous to its members or creditors or the public.

Action procedure

11098. If the commissioner finds that any of the conditions set forth in Section 11097 exist in respect to a foreign or alien society, he shall, in an order to show cause, notify the society of his findings wherein such conditions exist and shall set a date after a reasonable period of time on which it shall show cause why its certificate of authority should not be suspended, revoked or refused. If on such date the society does not present good and sufficient reason why its authority to do business in this State should not be suspended, revoked or refused, he may suspend or refuse the certificate of authority of the society to do business in this State until satisfactory evidence is furnished to him that such suspension or refusal should be withdrawn or he may revoke the authority of the society to do business in this

State. Nothing contained in this section shall be taken or construed as preventing any such society from continuing in good faith all contracts made in this State during the time it was legally authorized to transact business herein.

Applicable provisions

11099. The provisions of Article 14, Chapter 1, Part 2, Division 1 of this code shall be applicable to any society except as otherwise provided in this chapter.

Agents

11100. Every society operating under the provisions of this chapter and issuing a policy or certificate of insurance may appoint agents to represent it.

Same Regulations

11101. Except as otherwise provided in Sections 11102 and 11103, such agents and such societies shall be subject to the provisions of Article 2, Chapter 5, Part 2, Division 1 of this code and such agents shall be licensed as life agents. Such agents also shall be subject to the provisions of Sections 750, 751, 760.5, 1690 to 1690.4, 1730 to 1736, 1740, 1750, and 1831 to 1831.95 of this code, and the terms "insurance agent" and "life agent" as used in said sections shall be deemed to include such agents of such societies.

"Insurance agent," "life agent"

Exceptions

11102. The provisions of Article 2, Chapter 5, Part 2, Division 1 of this code shall not be applicable to the following nor shall the following be required to be licensed as life agents:

(a) Any officer of a local lodge of a society, while acting as such, if such officer (1) does not effect insurance, (2) solicits or negotiates only as a part of and in connection with the business of a fraternal agent licensed in accordance with the provisions of Section 11101, and (3) is not remunerated on a commission basis.

(b) Any member of a society who does not effect insurance and whose solicitation or negotiation is incidental to the securing of new members for the society and whose only remuneration therefore consists of prizes in the form of merchandise or payments of a nominal amount. This subsection shall not exempt from the provisions of said Article 2 nor from the license requirement of Section 11101 any person remunerated on a regular salary or commission basis or employed either full or part time for the purpose of soliciting or negotiating fraternal benefit insurance.

(c) Any person directly employed by a society at the home or a branch office thereof who does not solicit or negotiate fraternal benefit insurance and who receives no commissions but who may, as a part of his or her regular employment, sign policies, certificates or other evidences of fraternal benefit insurance.

(d) Any person whose employment does not include the solicitation, negotiation or effecting of fraternal benefit insurance contracts and who does not sign policies, certificates or any other evidences of such contracts

Examination of agents

11103. Insofar as his license to represent a fraternal benefit society is concerned the examination requirement of subsection (h) of Section 1706 shall not be applicable to any agent of a society who was in the service of a society on March 1, 1945, and

who is licensed to represent a fraternal benefit society on the effective date of this chapter and continuously thereafter, nor to any agent of a society who does not devote substantially full time to the sale of life or disability insurance, whether such insurance is provided by insurance policies or by fraternal benefit policies or certificates. If any person exempted from such examination requirements by virtue of not devoting substantially full time to the sale of life or disability insurance as hereinabove provided, shall, after securing a license pursuant to the provisions of this section, thereafter devote substantially full time to the sale of such insurance, the society shall give notice thereof to the commissioner. The commissioner thereupon shall send to such licensee a notice specifying when the examination fee shall be paid and when, not sooner than one month nor later than three months, such licensee must qualify by examination Failure to pass the examination or failure to appear pursuant to notification shall result in a termination 45 days thereafter of all license privileges unless within such 45-day period such licensee passes the examination. Such licensee shall not be permitted to retake the examination more than twice within such 45-day period. Thereafter such person may be licensed as a fraternal benefit agent only if he files a new application for such license and either (a) takes and passes the qualifying examination or (b) demonstrates affirmatively to the commissioner that he will no longer devote substantially full time to the sale of life or disability insurance.

Service of process

11104. Every society authorized to do business in this State shall appoint in writing the commissioner and each successor in office to be its true and lawful attorney upon whom all lawful process in any action or proceeding against it shall be served, and shall agree in such writing that any lawful process against it which is served on said attorney shall be of the same legal force and validity as if served upon the society, and that the authority shall continue in force so long as any liability remain outstanding in this State. Copies of such appointment, certified by said commissioner, shall be deemed sufficient evidence thereof and shall be admitted in evidence with the same force and effect as the original thereof might be admitted.

Same

11105. Service shall only be made upon the commissioner, or his deputy, excepting, however, in the case of a domestic society service may be made at the home office of the society. It shall be made in duplicate, and shall constitute sufficient service upon the society. No such service shall require a society to file its answer, pleading or defense in less than 30 days from the date of mailing the copy of the service to a society. When legal process against a society is served upon the commissioner, he shall forthwith forward one of the duplicate copies by registered mail, prepaid, directed to the secretary or corresponding officer. Legal process shall not be served upon a society except in the manner herein provided. At the time of service any process upon the commissioner, the plaintiff or complainant in the action shall pay to the commissioner a fee of two dollars ($2).

Injunctions

11106. An application for injunction against, proceedings for the dissolution of, or the appointment of a receiver for, any domestic society or branch thereof shall not be entertained by any court unless made by the Attorney General.

Name

11107. A fraternal benefit society, its members, employees, agents, delegates, directors and officers by whatever name known are subject to Sections 12923 and 12924 of this code.

Conversion to mutual life insurance company

11108. Any domestic society may be converted into and receive a certificate of authority as a mutual life insurance company by compliance with all of the requirements of the laws of this State pertaining to mutual life insurance companies, provided that the plan for such conversion has been approved by the commissioner. Such plan shall be prepared in writing, setting forth in full the terms and conditions thereof. The board of directors, or other executive body charged with the responsibility for the management of the society's affairs, shall submit such plan to the supreme legislative and governing body of such association or society at any regular or special meeting thereof, by giving a full, true and correct copy of such plan of proposed conversion with the notice of such meeting. Such notice shall be given as provided in the laws of the society for the convocation of such supreme legislative and governing body in regular or special session, as the case may be. The affirmative votes of two-thirds of all members of such supreme legislative and governing body shall be necessary for the approval of such agreement. Such plan shall also have been approved by the vote of the majority of the members who vote at a meeting called for that purpose. Notice of such meeting of members together with a full, true and correct copy of such plan of proposed conversion shall be given by mailing such notice from the head office of the society at least 30 days prior to such meeting in a sealed envelope, postage prepaid, addressed to each member at his last known post-office address. Such members may vote either in person or by mail on ballots furnished by the society. No such conversion shall take effect unless and until approved by the commissioner. The commissioner may give such approval if he finds that the proposed change is in conformity with the requirements of law and is not prejudicial to the certificate holders of the society. Such action in approving or disapproving shall be subject to judicial review.

11109. On such conversion:

Determining capital requirements

(a) Except as provided in (b) hereof all funds, assets and liabilities of any nature which theretofore were the funds, assets or liabilities of such society shall become the funds, assets and liabilities of such mutual life insurance company. In determining whether such mutual life insurance company meets the minimum capital and surplus requirements of this code, the commissioner shall consider such funds to be those of such mutual life insurance company. Such conversion shall likewise extinguish the assessment liability, if any, of the members, certificate holders or beneficiaries of such society.

(b) If by reason of any contract right in any member, certificate holder or beneficiary which exists on the effective date

of this chapter, the transfer of such funds or assets would violate such right then the assets or funds as to which such contract right pertains shall be segregated and held to discharge the liabilities of such mutual life insurance company to the persons entitled thereto. In this case such separate funds shall not be considered by the commissioner in determining if such mutual life insurance company meets minimum capital and surplus requirements, and the assessment liability, if any, of such member, certificate holder or beneficiary is not extinguished.

Disapproval Grounds

11110. In addition to any other ground for disapproving such conversion, the commissioner may refuse to give such approval unless evidence satisfactory to him is submitted that:

(a) The reserves on all certificates theretofore issued are sufficient to carry them to maturity either by reason of the amount thereof or by reason of action by such society pursuant to either subsection (c) hereof or Section 11111;

(b) The plan of conversion will result in the availability of all funds and assets of the mutual life insurance company to the carrying out of the contracts of insurance whether transacted before or after conversion; and

(c) The society has lawfully amended all outstanding certificates on which the member's contribution was inadequate to carry such certificate to maturity without assessment. Such amendment shall accomplish that purpose by either increasing the amount of contribution or premium, by whatever name known, sufficiently or, at the option of the certificate holder, reducing the amount of his benefits sufficiently.

Special reserve

11111. Any society may comply with subsection (a) of Section 11110 by deducting from its surplus an amount which, when added to the reserves on certificates theretofore issued, shall be sufficient to carry such certificates to maturity and establish and maintain after its conversion into a mutual life insurance company a special reserve in such an amount. The basis of such special reserve shall not be altered without the prior written consent of the commissioner. The commissioner shall give such consent only when he finds that such alteration will not impair nor imperil the purpose for which such special reserve is established. Any impairment of such reserve shall, to the extent thereof, be deemed a deficiency of required reserves and shall render the mutual life insurance company insolvent. No part of such special reserve shall be deemed to be a part of the capital paid in or of the surplus of the mutual life insurance company.

Judicial review

11112. All decisions and findings of the commissioner made under the provisions of this chapter shall be subject to review by proper proceedings in any court of competent jurisdiction in this State.

Article 7. Financial Matters

Contributions

11120. When a society, or a class or section thereof, has assets equal to the reserves and credits on its policies, it may collect periodical or other contributions from the members of

the society, class or section which, with interest accretions, will be sufficient to accomplish all the following:

(a) Pay the claims arising from its policies.

(b) Pay for the expense of management of the society.

(c) Maintain a fund sufficient to meet its accrued liabilities.

(d) Maintain assets equal to the reserves and credits.

Societies not operating pursuant to this section shall comply with Section 11121.

Same

11121. Unless it operates under Section 11120, a society, or class or section thereof, shall collect from its members both stated contributions expressly segregated for the mortuary or disability funds and stated contributions expressly segregated for the expense or management funds. Both of such contributions may be included in the member's periodical payment to the society. The society shall not use the money in the mortuary or disability funds nor the interest accretions thereon for expense purposes.

Special funds

11122. Any society may create, maintain, invest, disburse and apply any special fund or funds necessary to carry out any purpose permitted by the laws of such society. Such funds may include hospital and help, sanitaria, home, thrift, pension for its employees, patriotic, educational and relief funds, in accordance with its laws.

Owning real estate, etc

11123. Any such society may own real estate and buildings within or without the state of its incorporation, for any purposes for which it may use funds. It may receive gifts and bequests for such purposes and may be named in policies as beneficiary in trust for such purposes.

Disposition of fund

11124. Unless otherwise provided in the contracts of the members, such funds shall be held, invested, and disbursed for the use and benefit of the society, and no member or beneficiary shall have or acquire individual rights therein or become entitled to any apportionment thereof.

Permissible investments

11125. Every domestic society shall invest its funds only in securities permitted by the laws of this State for the investment of the assets of life insurers issuing nonassessable policies on a reserve basis. Such securities shall be valued according to the methods used in valuing similar securities held by such insurers.

Same Foreign societies

11126. An admitted foreign society shall invest its funds either under the same restrictions as domestic societies or in accordance with the laws of the state in which it is incorporated. Any admitted foreign society may deposit securities in accordance with the laws of any state.

"Trusteed assets"

11127. An admitted foreign society organized under the laws of any jurisdiction other than a state of the United States shall at all times maintain with a trustee in the United States, in trust for the benefit and security of all its policyholders and creditors in the United States, assets as prescribed in Section 11128. Such assets are designated "trusteed assets."

Same. Value

11128. The value of the trusteed assets referred to in Section 11127 shall be equal to the sum of

(a) All of the indebtedness of such society in the United States having a fixed maturity.

(b) The percentage, specified in subdivision (c) of that part of the tabular reserve, which is applicable to its United States business in force.

(c) If the valuation report prescribed by Section 11133 indicates that the degree of actuarial solvency of such society is 100 percent or greater, the percentage prescribed in subdivision (b) is 100 percent. Otherwise the percentage prescribed in subdivision (b) is that percentage, less than 100 percent, which is indicated in such valuation report to be the degree of such society's actuarial solvency. Such society may maintain such trusteed assets in excess of the value herein prescribed.

Applicable provisions

11129. The provisions of Sections 1596 to 1598, inclusive, shall apply to such society specified in Section 11127 and to the matters set forth in Sections 11127 and 11128.

Statements

11130. The commissioner may require any society specified in Section 11127 to file with him annually and at such other times as he may determine, and in such form as he may prescribe, a statement showing the extent to which such society's policyholders and creditors in the United States are protected by trusteed assets in the United States

Annual report

11131. Every society transacting business in this State shall annually, on or before the first day of March, unless for cause shown such time has been extended by the commissioner, file with the commissioner, in such form as he may require, a statement under oath of its president, secretary or treasurer, or corresponding officers, of its affairs, financial condition and operations during the calendar year ending on the thirty-first day of December last preceding. Each such society shall pay a fee of twenty dollars ($20) to the commissioner for, and at the time of filing such annual statement. Such statement shall contain items showing the reserve liabilities on all outstanding certificates classified according to the various mortality standards and interest assumptions for such certificates. The commissioner is authorized and empowered to address any additional inquiries to any such society in relation to its doings or condition, or any other matter connected with its transaction relative to the business contemplated by this chapter, and such officers of such society, as the commissioner may require, shall promptly reply in writing, and under oath, if so required to all such inquiries.

Same. Synopsis for members

11132. A synopsis of its annual statement and valuation report providing an explanation of the facts concerning the condition of the society thereby disclosed shall be printed and mailed to each benefit member of the society not later than June 1st of each year, or, in lieu thereof, such synopsis may be published in the society's official paper and the issue containing same mailed to each benefit member of the society.

Valuation of certificates

11133. In addition to the annual report required by Section 11131, each society shall annually, on or before the first day of March, file with the commissioner a valuation of its certificates in force on December 31st last preceding: Provided, the commissioner may, in his discretion for cause shown, extend the time for filing such valuation for not more than two calendar months. Such report of valuation shall show as reserve liabilities, the difference between the present mid-year value of the promised benefits provided in the certificates of such society in force and the present mid-year value of the future net rates as the same are in practice actually collected, not including therein any value for the right to make extra assessments and not including any amount by which the present mid-year value of future net contributions exceeds the present mid-year value of promised benefits on individual certificates. At the option of any society, in lieu of the above, the valuation may show the net tabular value which, in the case of monthly contributions, may be the means of the terminal reserve values for the end of the preceding and of the current certificate years. Such net tabular value as to certificates issued prior to the effective date of this chapter shall be determined in accordance with the provisions of law applicable thereto as of the date of issuance thereof and as to certificates issued on or after said date shall be not less than the reserves determined according to the commissioners' reserve valuation method as hereinafter defined. If the rate or payment (by whatever name known) charged is less than the tabular net rate according to the basis of the valuation used, an additional reserve equal to the present value of the deficiency in such rates shall be set up and maintained as a liability.

Reserves

11134. Reserves according to the commissioners' reserve valuation method, for the life insurance and endowment benefits of certificates providing for a uniform amount of insurance and requiring the payment of uniform rates shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such certificates, over the then present value of any future modified net rates therefor. The modified net rates for any such certificate shall be such uniform percentage of the respective contract payment for such benefits that the present value, at the date of issue of the certificate, of all such modified net rates shall be equal to the sum of the then present value of such benefits provided for by the certificate and the excess of (a) over (b), as follows:

(a) A net level annual payment equal to the present value at the date of issue, of such benefits provided for after the first certificate year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each subsequent anniversary of such certificate on which a payment falls due; provided, however, that such net level annual payment shall not exceed the net level annual payment on the 19-year payment whole life plan for insurance of the same amount at an age one year higher than the age at issue of such certificate.

(b) A net one-year term payment for such benefits provided for in the first certificate year.

Reserves according to the commissioners' reserve valuation method for (i) life insurance certificates providing for a varying amount of insurance or requiring the payment of varying rates, (ii) annuity and pure endowment contracts, (iii) disability and accidental death benefits in all certificates and contracts, and (iv) all other benefits, except life insurance and endowment benefits in life insurance certificates, shall be calculated by a method consistent with the principles of the first paragraph of this section.

Deferred payments

11135. The present value of deferred payments due under incurred claims or matured certificates shall be deemed a liability of the society and shall be computed upon the mortality and interest basis assumed by the society for such valuation.

Same: Valuation

11136. Such valuation shall be certified by a competent actuary or, at the expense of the society, verified by the actuary of the insurance supervisory official of the state of domicile of the society, and the legal minimum standard of valuation shall be as follows:

(a) All benefits promised by certificates issued prior to September 22, 1952, and the rates therefor shall be valued in accordance with the provisions of law applicable thereto as of the date of issuance, but not lower than the standards and interest assumptions used in the calculation of rates for such benefits.

(b) In the case of certificates issued after September 21, 1952, the minimum standard for the valuation of all such certificates shall be 3 percent interest and the following tables:

(i) For all ordinary certificates of life insurance issued on the standard basis, excluding any disability and accidental death benefits in such certificates—the American Men Ultimate Table of Mortality, with Bowerman's or Davis' Extension thereof, or, at the option of the society, the commissioners' 1941 Standard Ordinary Mortality Table.

(iv) For disability benefits in or supplementary to ordinary certificates—Hunter's Disability Table, except that the table known as Class 3 Disability Table (1926), modified to conform to the contractual waiting period, shall be used in computing reserves for disability benefits under a contract which presumes that total disability shall be considered to be permanent after a specified time.

(v) For accidental death benefits in or supplementary to certificates—the Inter-Company Double Indemnity Mortality

Table combined with a mortality table permitted for calculating the reserves for life insurance certificates.

(vi) For temporary accident and health benefits in or supplementary to certificates—Class 3 Disability Table (1926) with Conference Modifications.

(vii) For life insurance issued upon the substandard basis and other special benefits—such tables as may be approved by the commissioner.

(c) The commissioner may, in his discretion, accept other standards for valuation if he finds that the reserves produced thereby will not be less in the aggregate than reserves computed in accordance with the minimum valuation standard prescribed. Whenever the mortality experience under the certificates valued on the same mortality table is in excess of the expected mortality according to such table for a period of three consecutive years, the commissioner may require additional reserves when in his judgment deemed necessary on account of such certificates.

(d) Notwithstanding the provisions of subsections (a) and (b) of this section, any society, with the consent of the insurance supervisory official of the state of domicile of the society, and under such conditions, if any, which he may impose, may establish and maintain reserves on its certificates in excess of the reserves required thereunder, but the contractual rights of any insured member shall not be affected thereby.

Deficiencies

11137. Whenever the commissioner finds from any financial statement or valuation report made to him by any society authorized to do business in this State or from a filed report on examination of any such society that the admitted assets of such society are less than the sum of its required reserves and accrued liabilities, he shall determine the amount of such deficiency and shall issue a written requisition to such society to remove, repair or make good such deficiency within such period as he shall designate, not less than 30 days nor more than six months from the service of such requisition, except that if he believes the interests of the certificate holders of such society will best be served by extending such period of time beyond six months, he may do so for such period or periods of time as he in his discretion deems best. He may also by official order prohibit such society, while such deficiency exists, from issuing any new contracts of insurance in this State, and in case of a domestic society, from issuing any new contracts in this State or elsewhere. If such society shall fail or be unable to make good such deficiency within the time specified in such order, the commissioner shall proceed against such society under the provisions of Article 14, Chapter 1, Part 2, Division 1 of this code on the ground that its further transaction of business will be hazardous to its policyholders, its creditors or the public. In the case of a foreign society the commissioner may also, or in lieu of such proceeding, revoke its certificate of authority to do business in this State or refuse to issue a renewal certificate of authority.

Examination of affairs

11138. The commissioner, or any person he may appoint, shall have the power of visitation and examination into the affairs of any domestic society and he shall make such examination at least once in every three years. He may employ assistants for the purpose of such examination, and he, or any person he may appoint, shall have free access to all the books, papers and documents that relate to the business of the society. The minutes of the proceedings of the supreme governing or legislative body and of the board of directors or corresponding body of a society shall be in the English language. In making any such examination the commissioner may summon and qualify as witnesses under oath and examine its officers, agents and employees or other persons in relation to the affairs, transactions and condition of the society. The report of the commissioner or in his discretion a summary thereof, and such recommendations or statements of the commissioner as may accompany such report, shall be read at the first meeting of the board of directors or corresponding body of the society following the receipt thereof, and if directed so to do by the commissioner shall also be read at the first meeting of the supreme legislative or governing body of the society following the receipt thereof. The expense of each examination and of each valuation, including compensation and actual expense of examiners, shall be paid by the society examined or whose certificates are valued, upon statements furnished by the commissioner.

Same Report

11139. No report of examination shall be adopted by the commissioner or filed by him as an official document except after a notice is given and a hearing held thereon, if demanded, in accordance with the provisions of Section 11141. The commissioner in his determination made upon the basis of his findings from the record of such hearing may direct the society to comply with such recommendations or take such other corrective steps as may be contained therein. In any action or proceeding in the name of the commissioner or instituted in his behalf against the society, such report, if adopted by the commissioner and filed as an official document shall be admissible in evidence and shall be prima facie evidence of the facts stated therein. Nothing herein contained shall preclude the commissioner from instituting any proceeding under Section 11137 of this chapter at any time or from using as proof in such proceeding any report of examination or part thereof, whether or not such report has been adopted and filed.

Examination of foreign societies

11140. The commissioner, or any person whom he may appoint, may examine any foreign society, transacting or applying for admission to transact business in this State. He may employ assistants and he, or any person he may appoint, shall have free access to all books, papers and documents that relate to the business of the society. He may summon, qualify as witnesses under oath and examine any persons in relation to the affairs, transactions and condition of the society. He may in his discretion accept, in lieu of such examination, the examination of the insurance department of the state, territory, dis-

trict, province or country where such society is organized. The compensation and actual expenses of the examiners making any examination or general or special valuation shall be paid by the society examined or by the society whose certificates obligations have been valued, upon statements furnished by the commissioner.

Public statements

11141. Pending, during or after an examination or investigation of a society, either domestic or foreign, the commissioner shall make public no financial statement, report or finding, nor shall he permit to become public any financial statement, report or finding affecting the status, standing or rights of any society, until a copy thereof shall have been served upon the society at its principal office and the society shall have been afforded a reasonable opportunity to answer any such financial statement, report or finding, and to make such showing in connection therewith as it may desire.

Every county peace officer member under age 55 who is retired for disability, not determined to be the result of injury or disease arising out of and in the course of his employment, shall receive a disability retirement allowance which shall consist of:

(A) An annuity which is the actuarial equivalent of his accumulated contributions at the time of his retirement.

(B) If, in the opinion of the board, his disability is not due to intemperate use of alcoholic liquor or drugs, wilful misconduct, or violation of law on his part, a disability retirement pension purchased by contributions of the county.

Same Pension

31747. The disability retirement pension granted under Section 31746 shall be such an amount as with that portion of his annuity provided by his accumulated normal contribution, will make his disability retirement allowance, exclusive of the annuity provided by his accumulated contributions, equal:

(A) Ninety percent of one-sixtieth of his final compensation multiplied by the number of years of service credited to him, if such disability retirement allowance exceeds one-fourth of his final compensation.

(B) If the disability retirement allowance computed under (A) does not exceed one-fourth of his final compensation, 90 percent of one-sixtieth of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age 65, but in such case the retirement allowance shall not exceed one-fourth of his final compensation.

If, in the opinion of the board, the disability is due to intemperate use of alcoholic liquor or drugs, wilful misconduct, or violation of law on the part of the member, and his annuity is less than two hundred forty dollars ($240) a year, the board may pay the member his accumulated contributions in one lump sum in lieu of his annuity.

Medical examination

31749. The board may require any disability beneficiary under age 55 to undergo medical examination. The examination shall be made by a physician or surgeon appointed by the board at the place of residence of the beneficiary or other place mutually agreed upon. Upon the basis of the examination, the board shall determine whether the disability beneficiary is still physically or mentally incapacitated for service in the office or department of the county where he was employed and in the position held by him when retired for disability.

Cancellation of allowance

31750. If the board determines that the beneficiary is not so incapacitated, his retirement allowance shall be canceled forthwith, and he is eligible for reinstatement in the county service pursuant to the regulations of the county for re-employment of personnel.

Refusal to submit to examination

31751 If any disability beneficiary under age 55 refuses to submit to medical examination, his pension shall be discontinued until his withdrawal of such refusal, and if his refusal continues for one year, his retirement allowance shall be canceled.

Medical service

31752. The board shall secure such medical service and advice as is necessary to carry out the purpose of this article. It shall pay for the medical services and advice such compensation as it deems reasonable.

Re-entry into county service

31753. If a disability beneficiary re-enters the county service and is eligible for membership in the retirement system, his rate of contribution for future years is that established for his age at the time of re-entry. His individual account shall be credited with an amount which is the actuarial equivalent of his annuity at that time, as based upon the mortality table adopted by the board of supervisors for disabled lives, less any amount that has been refunded to him under Section 31757. The amount shall not exceed the amount of his accumulated contributions at the time of his retirement for disability. He shall also receive credit for prior service as it existed at the time of his disability retirement.

Other compensation

31754. If a disability beneficiary, prior to attaining age 55, engages in a gainful occupation not in the county service or if he re-enters the county service in a capacity ineligible for membership in the retirement system, the board shall reduce the amount of his retirement allowance to an amount which, when added to the compensation earned by him in such occupation, does not exceed the amount of the final compensation on the basis of which his retirement allowance was determined. If the earning capacity of the beneficiary is further altered, the board may alter his retirement allowance to an amount which does not exceed the amount upon which he was originally retired, but which, subject to such limitation, equals, when added to the compensation earned by him, the amount of his final compensation on the basis of which his retirement allowance was determined. When such a disability beneficiary reaches age 55, his retirement allowance shall be made equal to the amount upon which he was originally retired and shall not again be modified for any cause.

Statement

31755. As a condition of receiving his retirement allowance, each disability beneficiary under age 55 shall file with the board a written statement in a form prescribed by it, that he has not during the preceding month engaged in any gainful occupation except as stated. The statement may be in the form of an endorsement on the warrant delivered to the beneficiary in payment of the allowance. If the statement discloses that he has received compensation from a gainful occupation in an amount and from a source which requires a reduction of his retirement allowance, the deduction shall be made from the next allowance.

False statements

31756. If any disability beneficiary knowingly and willfully makes any false statement with regard to his earnings, he

forfeits all rights and interest of any character under this chapter, except as provided in Section 31757.

Cancellation of allowance

31757. If the retirement allowance of any disability beneficiary is canceled for any cause, he shall be paid his accumulated contributions, less the annuity payments made to him.

SEC. 7. Article 12.5 is added to Chapter 3, Part 3, Division 4, Title 3 of said code, to read:

Article 12.5. Death Benefits for County Peace Officer Members

Death benefit

31790. Upon the death before retirement of a county peace officer member while in county service or while physically or mentally incapacitated for the performance of his duty, if such incapacity has been continuous from discontinuance of county service, or within one month after discontinuance of county service unless his accumulated contributions have been paid to him pursuant to Section 31637, the retirement system is liable for a basic death benefit which shall be paid to his estate or to such person as he nominated by written designation duly executed and filed with the board.

Same

31791. The basic death benefit shall consist of:

(A) The member's accumulated contributions.

(B) An amount, provided from contributions by the county, equal to one-twelfth of the annual compensation earnable by the deceased during the 12 months immediately preceding his death, multiplied by the number of completed years of service under the system, but not to exceed 50 percent of such annual compensation.

Beneficiaries

31792. The nomination of a beneficiary under this system, other than nominations under Optional Settlements 2 and 3, may be revoked at the pleasure of the person who made it and a different beneficiary nominated by written designation duly executed and filed with the board.

Same Funeral expenses

31793. If the nominated beneficiary cannot be found by the board, or if the nominated beneficiary is the estate of the deceased person, the board in its discretion may pay to the undertaker who conducted the funeral all or a portion of the funeral expenses of the deceased person as evidenced by the sworn itemized statement of the undertaker and by such other documents as the board may require. Payment so made is a full discharge of the board and system for the amount so paid. Any amount remaining after such payment shall then be paid to the estate of the deceased person.

Payments to widow, children, etc.

31794. Whenever any county peace officer is killed during the performance of his duty, or dies as a result of any injury or disease arising out of and in the course of his employment, or, after retirement for disability as provided in Section 31740, dies as the result of such disability, an annual pension purchased by the contributions of the county, which, together with an annuity purchased by the accumulated normal contributions of the member, shall equal 50 percent of his final compensation, not to exceed $350 per month, plus an annuity purchased with his additional contributions, if any, shall be paid in equal

monthly installments to his widow during her lifetime or until she remarries. Thereafter, or if there is no widow entitled to receive the pension, it shall be paid to such of his children, through their guardian, as are under 18 years of age, to be equally divided among them. A widow of a county peace officer who was retired for service connected disability is not entitled to a pension unless she was married to the county peace officer at the time he was retired for service connected disability. If the widow, child, or children marry, the pension paid to the person so marrying shall cease. Children shall include adopted children.

Lemon standards.

serious injury due to any cause, (5) free from serious scars, including those caused by insects, (6) free from serious scale, (7) free from serious dirt, sooty mold, rot residues or other foreign material, (8) free from serious staining, including smudge stain, (9) free from serious red blotch, (10) free from serious greenish or brownish rind oil spots, (11) free from serious peteca, (12) free from serious spotting and pitting other than peteca, including black pit, Septoria, anthracnose and cold storage injury, (13) free from serious deformities, (14) free from serious bud mite damage, (15) free from serious aging.

The following standards shall be applied in determining whether or not lemons meet the requirements of this section:

(1) Lemons are mature when they have a juice content of 25 percent or more by volume, except that lemons packed for export to markets other than Canada shall not be required to meet this standard.

Determination of maturity shall be made as follows: the volume of a representative sample of at least 25 lemons from the containers or bulk lot shall be measured by water displacement in a graduate. The juice is then extracted from the sample by reaming, screened by pressing through cheesecloth, and its volume measured in a graduate. The percent of juice by volume is found by dividing the juice volume by the fruit volume and multiplying by 100.

(2) Decay is serious if any part of the lemon is affected with decay.

(3) Damage by freezing, or internal decline, or sunburn, or drying due to any cause is serious if 20 percent or more of the pulp or edible portion of the lemon shows evidence of drying, or staining (except membranous stain), or a mushy condition. Damage by internal decline is also serious if the core shows gumming for its entire length. Evidence of damage shall be determined by as many cuts of each individual lemon as are necessary.

(4) Injury due to any cause is serious if the skin (rind) is broken and the injury is not healed.

(5) Scars, including those caused by insects, are serious if they are dark, or rough, or deep and if they aggregate 25 percent or more of the fruit surface.

(6) Scale is serious on the individual lemon if each of three circular areas one inch in diameter, selected as the worst infested areas, each has 15 or more scales.

(7) Dirt, sooty mold, rot residues, or other foreign material are serious if an aggregate area of 10 percent or more of the fruit surface is affected by one or more of the defects mentioned in this paragraph.

(8) Staining of the skin (rind), including smudge stain, is serious if one-third or more of the fruit surface is affected with a pronounced discoloration.

(9) Red blotch is serious if the affected area or areas aggregate 10 percent or more of the fruit surface.

(10) Greenish or brownish rind oil spots are serious if they cover an aggregate area of 25 percent or more of the fruit surface. Lemon standards

(11) Peteca is serious if the spots or pits cover an aggregate area of 10 percent or more of the fruit surface.

(12) Spotting and pitting, other than peteca, are serious if the spots or pits are sunken and cover in the aggregate an area more than one-half an inch in diameter.

(13) Deformities, other than from bud mite damage, are serious if one-third or more of the individual fruit surface is malformed, or ridgy, or lumpy.

(14) Bud mite damage is serious if 20 percent or more of the individual fruit surface is malformed, or the stylar end shows a definite division, or is open.

(15) Aging is serious if 25 percent or more of the surface of the lemon is shriveled or hard.

The compliance or noncompliance with the standards for lemons prescribed in this chapter, except as to maturity, may be determined from a representative sample taken as follows:

(a) When in containers the sample shall consist of not less than 5 percent, by count, of the lemons in each of the containers selected as the sample.

(b) When in bulk the sample shall consist of not less than 100 lemons, except that where the total number of lemons in the bulk lot is less than 1,000 lemons a representative sample shall consist of 10 percent of the lemons.

Each individual lemon may be examined for one or all of the defects, except as to maturity, but only one defect shall be counted or scored against any individual lemon.

Tolerances to be applied to the foregoing standards are hereby established: Tolerances

A. There shall be no tolerance for failure to meet the maturity requirements as set forth in standard (1) above.

B. With respect to standard (3) above:

(i) Not more than 5 percent, by count, of the lemons in any one container or bulk lot may fail to meet the requirements because of damage by internal decline or sunburn or drying for any cause other than freezing.

(ii) Not more than 10 percent, by count, of the lemons in any one container or bulk lot may fail to meet the requirements because of damage by freezing, but not to exceed one-half of this tolerance, or 5 percent, shall be allowed for lemons which show damage by freezing in 40 percent or more of the pulp or edible portion of the lemon.

In no case may the total tolerance for serious defects in standard (3) exceed 10 percent.

C. Not more than 5 percent, by count, of the lemons in any one container or bulk lot may fail to meet the requirements of any one or a combination of the standards set forth in standards (2) and (4) to (15), inclusive, above.

D. In no case may the total tolerance for serious defects in standards 2 to 15, inclusive, exceed 15 percent.

(1) Grapefruit are not mature unless (a) at the time of picking and at all times thereafter the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of five and one-half parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), except that in view of differences in climatic conditions prevailing south and east of San Gorgonio Pass, which result in the grapefruit grown in that area having, at maturity, a higher percentage of soluble solids to acid than the mature grapefruit grown in the area north and west of said San Gorgonio Pass, grapefruit produced in the area south and east of San Gorgonio Pass are considered mature if at the time of picking and at all times thereafter the juice contains soluble solids, as determined by a Brix scale hydrometer, equal to or in excess of six parts to every part of acid contained in the juice (the acidity of the juice to be calculated as citric acid without water of crystallization), and (b) 90 percent or more of the grapefruit, by count, at time of picking and at all times thereafter have attained, on at least two-thirds of the fruit surface, at least a minimum characteristic yellow or grapefruit color, as indicated by Color Plate No. 19 L3 in "Dictionary of Color." Grapefruit produced outside of this State under climatic conditions similar to those prevailing in the area south and east of San Gorgonio Pass and offered for sale in this State shall meet the same maturity standard as that prescribed for grapefruit produced south and east of said San Gorgonio Pass.

(2) Decay is serious if any part of the grapefruit is affected with decay.

(3) Damage by freezing or drying due to any cause is serious if 20 percent or more of the pulp or edible portion of the grapefruit shows evidence of drying or a mushy condition; and damage by freezing or drying due to any cause is very serious if 40 percent or more of the pulp or edible portion of the grapefruit shows evidence of drying or a mushy

condition. Evidence of damage shall be determined by as many cuts of each individual grapefruit as are necessary. Grapefruit standards

(4) Injury due to any cause is serious if the skin (rind) is broken and the injury is not healed.

(5) Scars, including those caused by insects, are serious if they are dark, or rough, or deep and if they aggregate 25 percent or more of the fruit surface.

(6) Scale is serious if 50 percent or more of the fruit surface shows scale infestation in excess of 50 scales per square inch.

(7) Dirt, smudge stain, sooty mold, rot residues, or other foreign material are serious if an aggregate area of 25 percent or more of the fruit surface is affected.

(8) Staining of the skin (rind) is serious if 50 percent or more of the fruit surface is affected with a pronounced discoloration.

(9) Greenish or brownish rind oil spots are serious if they cover an aggregate area of 25 percent or more of the fruit surface.

(10) Spotting or pitting is serious if the spots or pits are sunken and cover an aggregate area of 10 percent or more of the fruit surface.

(11) Roughness is serious if 90 percent or more of the fruit surface is rough and coarse, or lumpy.

(15) Sheepnose is serious if the stem end of the grapefruit protrudes decidedly.

The compliance or noncompliance with the standards for grapefruit prescribed in this chapter, except as to maturity, may be determined from a representative sample taken as follows:

(a) When in containers the sample shall consist of not less than 10 percent, by count, of the grapefruit in each of the containers selected as the sample.

(b) When in bulk the sample shall consist of not less than 100 grapefruit, except that where the total number of grapefruit in the bulk lot is less than 1,000 grapefruit a representative sample shall consist of 10 percent of the grapefruit

Each individual grapefruit may be examined for one or all of the defects, except as to maturity, but only one defect shall be counted or scored against any individual grapefruit.

The official sample for testing for maturity of grapefruit shall consist of not less than 30 grapefruit.

Any such sample so taken shall constitute prima facie evidence of the character of the entire lot from which such sample was taken, as provided in Section 782 of this code.

Tolerances

Tolerances to be applied to certain of the foregoing standards are hereby established. The grapefruit in any one container or bulk lot shall be deemed as a whole to meet the requirements of Standards Numbers 2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14 and 15 of this section so long as not over 10 percent, by count, of the individual grapefruit in such container or bulk lot are below said standards, and so long as not over 5 percent, by count, thereof are below any one of said standards. (2) If it contains any provision for payment at a rate, or in an amount (other than the product of rate times the periods for which payments are promised) for loss caused by particular event or events (as distinguished from character of physical injury or illness of the insured) more than triple the lowest rate, or amount, promised in the policy for the same loss caused by any other event or events (loss caused by sickness, loss caused by accident, and different degrees of disability each being considered, for the purpose of this paragraph, a different

loss); or if it contains any provision for payment for any confining loss of time at a rate more than six (6) times the least rate payable for any partial loss of time or more than twice the least rate payable for any nonconfining total loss of time; or if it contains any provision for payment for any nonconfining total loss of time at a rate more than three (3) times the least rate payable for any partial loss of time.

Excessive terms of payment

(3) If it contains any provision for payment for disability caused by particular event or events (as distinguished from character of physical injury or illness of the insured) payable for a term more than twice the least term of payment provided by the policy for the same degree of disability caused by any other event or events; or if it contains any benefit for total nonconfining disability payable for lifetime or for more than twelve (12) months and any benefit for partial disability, unless such benefit for partial disability is payable for at least three (3) months; or if it contains any benefit for total confining disability payable for lifetime or for more than twelve (12) months, unless it also contains benefit for total nonconfining disability caused by the same event or events payable for at least three (3) months, and, if it also contains any benefit for partial disability, unless such benefit for partial disability is payable for at least three (3) months. The provisions of this paragraph shall apply separately to accident benefits and to sickness benefits.

Reduction termination of liability

(4) If it contains provision or provisions which would have the effect, upon any termination of the policy, of reducing or ending such liability as the insurer would have, but for such termination, for loss of time resulting from accident occurring while the policy is in force or for loss of time commencing while the policy is in force and resulting from sickness contracted while the policy is in force or for other losses resulting from accident occurring or sickness contracted while the policy is in force, and also contains provision or provisions reserving to the insurer the right to cancel or refuse to renew the policy, unless it also contains other provision or provisions the effect of which is that termination of the policy as the result of the exercise by the insurer of any such right shall not reduce or end such liability in respect to the hereinafter specified losses as the insurer would have had under the policy, including its other limitations, conditions, reductions and restrictions, had the policy not been so terminated.

The specified losses referred to in the preceding paragraph are:

(i) Loss of time which commences while the policy is in force and results from sickness contracted while the policy is in force,

(ii) Loss of time which commences within twenty (20) days following and results from accident occurring while the policy is in force,

(iv) Losses other than those specified in (i), (ii) or (iii) above which result from accident occurring or sickness contracted while the policy is in force and which losses occur within ninety (90) days following such accident or the contraction of such sickness.

Misleading captions, labels, titles, etc

(5) If by any caption, label, title or description of contents the policy states, implies, or infers without reasonable qualification that it provides loss of time indemnity for lifetime, or for any period of more than two years, if such loss of time indemnity is made payable only when house confined or only under special contingencies not applicable to other total loss of time indemnity.

Same

(6) If it contains any benefit for total confining disability payable only upon condition that the confinement be of an abnormally restricted nature unless the caption of the part containing any such benefit is accurately descriptive of the nature of the confinement required and unless if the policy have a description of contents, label, or title at least one of them contain reference to such nature of the confinement required.

Insufficient economic value

(7) If, irrespective of the premium charged therefor, any benefit of the policy is, or the benefits of the policy as a whole are, not sufficient to be of real economic value to the insured.

In determining whether benefits are of real economic value to the insured, the commissioner shall not differentiate between insureds of the same or similar economic or occupational classes and shall give due consideration to the following:

(i) The right of insurers to exercise sound underwriting judgment in the selection and amounts of risks.

(ii) Amount of benefit, length of time of benefit, nature or extent of benefit, or any combination of such factors.

(iii) The relative value in purchasing power of the benefit or benefits.

(iv) Differences in insurance issued on an industrial or other special basis

To be of real economic value, it shall not be necessary that any benefit or benefits cover the full amount of any loss which might be suffered by reason of the occurrence of any hazard or event insured against.

Substituted benefits

(8) If it substitutes a specified indemnity upon the occurrence of accidental death for any benefit of the policy, other than a specified indemnity for dismemberment, which would accrue prior to the time of such death or if it contains provision which has the effect other than at the election of the insured exercisable within not less than twenty (20) days in the case of benefits specifically limited to the loss by removal of one or more fingers or one or more toes or within not less than ninety (90) days in all other cases:

(i) Of substituting, upon the occurrence of the loss of both hands, both feet, one hand and one foot, the sight of both eyes or the sight of one eye and the loss of one hand or one foot, some specified indemnity for any or all benefits under the policy unless the indemnity so specified is equal to or greater than the total of the benefit or benefits for which such specified indemnity is substituted and which, assuming in all cases that the insured would continue to live, could possibly accrue within four years from the date of such dismemberment under all other provisions of the policy applicable to the particular event or events (as distinguished from character of physical injury or illness) causing the dismemberment; or

(ii) Of substituting, upon the occurrence of any other dismemberment some specified indemnity for any or all benefits under the policy unless the indemnity so specified is equal to or greater than one-fourth of the total of the benefit or benefits for which such specified indemnity is substituted and which, assuming in all cases that the insured would continue to live, could possibly accrue within four years from the date of such dismemberment under all other provisions of the policy applicable to the particular event or events (as distinguished from character of physical injury or illness) causing the dismemberment; or

(iii) Of substituting a specified indemnity upon the occurrence of any dismemberment for any benefit of the policy which would accrue prior to the time of dismemberment.

As used in this section, loss of a hand shall be severance at or above the wrist joint, loss of a foot shall be severance at or above the ankle joint, loss of an eye shall be the irrecoverable loss of the entire sight thereof, loss of a finger shall mean at least one entire phalanx thereof and loss of a toe the entire toe.

Reduction on account of age

(9) If it contains provision, other than as provided in Section 10370, reducing any original benefit more than fifty per cent (50%) on account of age of the insured.

Unqualified insuring clauses

(10) If the insuring clause or clauses contain no reference to the exceptions, limitations and reductions (if any) or no specific reference to, or brief statement of, each abnormally restrictive exception, limitation or reduction.

Classification of diseases

(11) If it contains benefit or benefits for loss or losses from specified diseases only unless:

(i) All of the diseases so specified in each provision granting such benefits fall within some general classification based upon:

(A) The part or system of the human body principally subject to all such diseases,

(B) The similarity in nature or cause of such diseases,

(C) In case of diseases of an unusually serious nature and protracted course of treatment, the common characteristics of all such diseases with respect to severity of affliction and cost of treatment, and

(ii) The policy is entitled and each provision granting such benefits is separately captioned in clearly understandable words

so as to accurately describe the classification of diseases covered and expressly point out, when such is the case, that not all diseases of such classification are covered.

Grace period

(12) If it does not contain provision for a grace period of at least the number of days specified below for the payment of each premium falling due after the first premium, during which grace period the policy shall continue in force; provided, that the grace period to be included in the policy shall be not less than seven (7) days for policies providing for weekly payment of premium, not less than ten (10) days for policies providing for monthly or quarterly payment of premium and not less than thirty-one (31) days for all other policies.

In promulgating any such rule or regulation the commissioner shall give consideration to the criteria herein established and to the desirability of approving for use in policies in this State uniform provisions, nation-wide or otherwise, and is hereby granted the authority to consult with insurance authorities of any other state and their representatives individually or by way of convention or committee, to seek agreement upon such provisions.

Any such rule or regulation shall be promulgated in accordance with the procedure provided in Chapter 4 of Part 1 of Division 3 of Title 2 of the Government Code.

Withdrawal of approval

(d) The commissioner may withdraw approval of filing of any policy or other document or matter required to be approved by him, or filed with him, by the provisions of this chapter when he would be authorized to disapprove or refuse filing of the same if originally submitted at the time of such action of withdrawal.

Any such withdrawal shall be in writing and shall specify reasons. An insurer adversely affected by any such withdrawal may, within a period of thirty (30) days following mailing or delivery of the writing containing such withdrawal, by written request secure a hearing to determine whether such withdrawal should be annulled, modified or confirmed. Unless, at any time, it be mutually agreed to the contrary, hearing shall be granted and commenced within a period of thirty (30) days following filing of the request and shall proceed with reasonable dispatch to determination. Unless the commissioner in writing in such withdrawal, or subsequent thereto, grants an extension, any such withdrawal shall, in the absence of any such request, be effective, prospectively and not retroactively, on the ninety-first

(91st) day following the mailing or delivery of such withdrawal, and, if request for such hearing be filed, on the ninety-first (91st) day following mailing or delivery of written notice of the commissioner's determination.

Exemption

(e) No proceeding under this section shall be subject to the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code.

Judicial review

(f) Except as provided in subdivision (i) of this section, any action taken by the commissioner under this section shall be subject to review by the courts of this State and proceedings on review shall be in accordance with the provisions of the Code of Civil Procedure.

Notwithstanding any other provision of law to the contrary, petition for any such review may be filed at any time before the effective date of the action taken by the commissioner. No action of the commissioner shall become effective before the expiration of twenty (20) days after written notice and a copy thereof are mailed or delivered to the person adversely affected, and any action so submitted for review shall not become effective for a further period of fifteen (15) days after the filing of the petition in court. The court may stay the effectiveness thereof for a longer period.

Liberal construction

(g) This section shall be liberally construed to effectuate the purpose and intentions herein stated; but shall not be construed to grant the commissioner power to fix or regulate rates for disability insurance or prescribe a standard form of disability policy.

Operative date

(h) This section shall be effective on and after July 1, 1950, as to all policies thereafter submitted and on and after January 1, 1951, the commissioner may withdraw approval pursuant to subdivision (d) of any policy thereafter issued or delivered in this State irrespective of when its form may have been submitted or approved, and prior to such dates the provisions of law in effect on January 1, 1949, shall apply to such policies.

SEC. 1.5 Section 13¾ of the Los Angeles County Flood Control Act is amended to read:

Power to accept storm drain improvements

Sec. 13¾. The board of supervisors of the Los Angeles County Flood Control District shall have power to accept on behalf of said district a transfer and conveyance of storm drain improvements and drainage systems lying within the territorial limits of said district and which have been constructed prior to July 1, 1951, whenever the governing body of any public agency owning or exercising jurisdiction over such storm drain and drainage improvements, by resolution describing them, requests the said Los Angeles County Flood Control District to accept the same or when the owner of such storm drain improvement or drainage system tenders a conveyance thereof. Upon such acceptance, the board of supervisors of said district shall thereupon assume sole control and jurisdiction over such storm drain and drainage systems and shall thereafter provide for the operation, maintenance, repair and improvement thereof, except that such flood control district shall not assume or be liable for any bonded indebtedness that may be against the said storm drain or drainage systems. Any city or county within whose limits any storm drain or drainage system has been constructed, and which storm drain or drainage system also lies within the territorial limits of said Los Angeles County Flood Control District, may, by a four-fifths vote of the legislative body of such city or county, transfer and convey to said flood control district any such storm drain or drainage systems for future operation, maintenance, repair and improvement, and upon acceptance of any storm drain improvement under this section the board of supervisors of said flood control district shall have power, and it shall be its duty, to levy a special tax each year upon the taxable real property in said district sufficient to pay the cost and expense of operating, maintaining, repairing and improving such storm drain and drainage systems so transferred and accepted, excepting only the payment of interest and principal on any outstanding bonds for which the said district shall not be liable. Said tax shall be levied and collected at the same time and in the same manner as the general tax for county purposes, and the revenue derived from said tax shall be paid into the county treasury to the credit of said flood control district and said board of supervisors shall have the power to control and order the expenditure thereof for said purposes. Taxes levied under authority of this section shall be separate and distinct from, and shall be in addition to, the taxes authorized to be levied under Section 14 of this act but may be levied with the taxes authorized under Section 13½ of this act.

SEC. 2. Section 15 of the Los Angeles County Flood Control Act is amended to read:

Sec. 15. All contracts for any improvement or unit of work, except as hereinafter provided, estimated to cost in excess of five thousand dollars ($5,000), shall be let to the lowest responsible bidder in the manner hereinafter provided. The said board of supervisors of said district shall advertise by five or more insertions in a daily newspaper of general circulation, or by two or more insertions in a weekly newspaper of general circulation, printed and published in said district, inviting sealed proposals for the construction of the improvement or work. The said board shall require the successful bidder or bidders to file with the board good and sufficient bonds, to be approved by the board, conditioned upon the faithful performance of the contract and upon the payment of all claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Chapter 3 of Division 5 of Title 1 of the Government Code and to be subject to the provisions of that chapter, and shall also have the right to reject any and all bids not suitable to the best interest of the district. In the event all proposals are rejected or no proposals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of five thousand dollars ($5,000), or the work consists of channel protection, dam protection, temporary work, maintenance work, or of emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have said work done by force account. It shall be the duty of the purchasing agent of Los Angeles County, and ex officio the purchasing agent of Los Angeles County Flood Control District, unless otherwise ordered by the board of supervisors, to purchase for the district all materials, supplies, equipment and other personal property necessary to carry out the purposes of this act, except emergency purchases costing less than ten dollars ($10), and to engage independent contractors to perform sundry services for the district, where the aggregate cost of such work, exclusive of materials to be furnished by the district, does not exceed two thousand dollars ($2,000). Said purchasing agent shall make all such purchases and contracts upon proper requisition therefor, signed by the chief engineer of the district. Any improvement for which bonds are voted under the provisions of this act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, as above specified, unless the doing of any such work described in said report shall be prohibited by law, or be rendered contrary to the best interests of said district by some change of conditions in relation thereto, in which event said board of supervisors may, by vote of four-fifths of all the members thereof, order necessary changes made in such proposed work or improvements, and may cause new plans and specifications to be made and adopted therefor.

Contracts exceeding $5,000 Bidding, etc

Works along, etc., public roads

Any work or improvement provided for in this act may be located, constructed and maintained in, along or across any public road or highway in the County of Los Angeles, in such manner as to afford security for life and property, but the said board of supervisors of said district shall restore or cause to be restored such road or highway to its former state as near as may be, so as not to impair its usefulness.

The plans and specifications for any work proposed to be done, or improvements to be made, under this act, in any municipality in said district shall first be approved by the legislative body of such municipality before the commencement of such work or improvements, and before any contract shall be let therefor; provided, that in the event such legislative body shall refuse or neglect to approve the said plans and specifications for such work or improvement within 30 days after being requested by said board of supervisors so to do, then said board of supervisors shall omit the doing of such work or making of such improvements within such municipality, and such omission shall not affect the validity of its proceedings under this act, and the funds which were to be expended for such proposed work or improvement in said municipality may be expended elsewhere by said board of supervisors for carrying out the purposes of this act.

CHAPTER 1258

An act to repeal Article 5, Chapter 11, Division 2 of the Education Code, relating to the organization of high school districts, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 30, 1951. Filed with Secretary of State June 30, 1951.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Article 5, comprising Sections 3521 to 3528, inclusive, of Chapter 11, Division 2 of the Education Code is hereby repealed.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Under the existing law, proceedings for the formation of a county high school district may be commenced, pursuant to Article 5, Chapter 11, Division 2 of the Education Code, upon a petition signed by only 50 qualified electors in the county. A county high school district formed under Article 5 would not ordinarily include other high school districts already in existence in the county. Therefore, the formation of a county high school district would, in most of the counties in the State, result in a school district composed of noncontiguous territory Small areas of the district may be isolated by many miles from the larger portion or portions of the district A school district composed of noncontiguous territory presents many difficult problems of administration and is unduly expensive to maintain. The transportation of pupils becomes a major problem and expense and the holding of school elections is complicated in districts composed of noncontiguous territory.

Unless this act takes effect immediately, it will be possible to commence proceedings for the formation of such a district before the provisions therefor are replaced.

In order to preserve the orderly structure and administration of the school districts of the State, it is necessary that this act take effect immediately.

CHAPTER 1259

Same Unified districts

7015. (a) He shall allow to each unified school district formed under the provisions of Chapter 16 of Division 2 of this code, the formation of which became effective on July 1, 1948, or thereafter, an amount equal to the total current expenses of the district during the preceding fiscal year for the transportation of pupils, determined by the Superintendent of Public Instruction to have been required because of a change of the location of schoolhouses or the reorganization of attendance centers within the district during such preceding fiscal year. No allowance shall be made under this paragraph subsequent to the close of the fifth fiscal year following that in which the district was formed and thereafter the provisions of the next paragraph shall control as to such district.

He shall allow to each unified school district not maintaining a junior college which during the preceding fiscal year provided for the transportation of pupils, an amount which shall be computed as follows:

(b) He shall determine the total current expenses of the district for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents ($0 03) he shall allow to the district (a) 50 percent of the amount which would be produced by not more than twelve cents ($0.12) of the computed tax rate less three cents ($0.03) and (b) 100 percent of the amount which would be produced by the computed tax rate in excess of twelve cents ($0.12).

(c) He shall allow to each unified school district maintaining a junior college which during the preceding fiscal year provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the district for such transportation during the preceding fiscal year. He shall then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of the district as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (a) 50 percent of the amount which would be produced by not more than sixteen cents ($0.16) of the computed tax rate less four cents ($0.04) and (b) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

Same. Joint transportation systems

7016. He shall compute for each group of two or more school districts which have been continuously from a time prior to July 1, 1949, governed by boards of identical personnel during the preceding fiscal year and have maintained a single transportation system for all of such districts which provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year.

Joint transportation systems

(a) He shall, if such group comprises an elementary school district and a high school district not maintaining a junior college and each district provided for the transportation of pupils, or comprises an elementary school district, a high school district, and a junior college district and each district except the junior college district provided for the transportation of pupils, or comprises a high school district and a junior college district and each district provided for the transportation of pupils, then determine what rate of tax levied on each one hun-

dred dollars ($100) of 90 percent of the assessed valuation of that one of such districts providing for the transportation of pupils which has the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents ($0 03) he shall allow to the district (a) 50 percent of the amount which would be produced by not more than twelve cents ($0 12) of the computed tax rate less three cents ($0.03) and (b) 100 percent of the amount which would be produced by the computed tax rate in excess of twelve cents ($0.12).

(b) He shall, if such group comprises an elementary school district, and a high school district maintaining a junior college, each of which provided for the transportation of pupils, including those attending the junior college, or comprises an elementary school district, a high school district, and a junior college district, each of which provided for the transportation of pupils, then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of that one of such districts providing for the transportation of pupils which had the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (a) 50 percent of the amount which would be produced by not more than sixteen cents ($0 16) of the computed tax rate less four cents ($0.04) and (b) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

He shall then allow to each district in the group the same ratio of the total amount computed for the group as the governing boards of the districts in the groups certify to him is the ratio the amount expended for such transportation in such district during the preceding fiscal year was of the total expenditures of all districts in the group for such transportation during the preceding fiscal year.

Cost of busses

7017. In the case of a unified school district formed under Chapter 16 of Division 2 of this code, the formation of which became effective for all purposes on July 1, 1948, or thereafter, there shall be included in addition to the current costs of the district the cost of school busses for the first five fiscal years in which it purchases school busses determined by the Superintendent of Public Instruction to have been required because of changes in the location of schools or the reorganization of attendance centers within the district, the entire cost of such busses. This paragraph shall not be effective as to any unified school district after the end of the fifth fiscal year succeeding the formation of the district.

Standards of approval

7018. The Superintendent of Public Instruction in approving, under this article, current expenditures of school dis-

tricts for the transportation of pupils shall apply the same standards and bases for such approval to expenditures for such transportation provided by a school district in school busses owned and operated by the school district and expenditures for such transportation provided by contract with a private party except that with respect to expenditures for transportation by contract with a private party, he shall make due allowance for all expenditures by the private party required of it by law and not required of a school district in connection with the operation of busses owned by the district.

Allowance for special students

7018.1. In addition to all other amounts allowed to a school district under this article, the Superintendent of Public Instruction shall allow to each school district an amount equal to the cost to the district during the preceding fiscal year of transporting blind, deaf, cerebral palsied, and orthopedically handicapped minor pupils to and from special day classes but not in excess of three hundred fifty dollars ($350) for each unit of average daily attendance of such pupils during the next preceding fiscal year resulting from the attendance of such pupils on the special day classes to and from which they were transported by the district.

Same County service fund

7018.2. The Superintendent of Public Instruction shall allow to the county school service fund of each county an amount equal to the cost to the county superintendent of schools during the preceding fiscal year of transporting blind, deaf, cerebral palsied, and orthopedically handicapped minor pupils to and from special day classes but not in excess of three hundred fifty dollars ($350) for each unit of average daily attendance during the next preceding year resulting from the attendance of such pupils on the special day classes to and from which they were transported by the county superintendent of schools.

Reduction

7019. In the event the total amount which may be allowed under Section 7011 for allowance under this article during any fiscal year is less than the total allowances computed under this article for such fiscal year without regard to Section 7011, the amounts allowed shall be reduced in the ratio that the amount of such deficit bears to the amounts allowed.

SEC. 10. Section 7031.1 is added to said code, to read:

Foundation program

7031.1. With respect to any unified school district which became effective for all purposes after July 1, 1950, the foundation program for such district as computed under this article shall be increased five dollars ($5) for each unit of average daily attendance in each of the first five fiscal years of its existence for all purposes.

Repeal

SEC. 11. Section 7037 of said code is repealed.

SEC. 12. Section 7037 is added to said code, to read:

Computation re high schools

7037. For each high school district which had an average daily attendance during the preceding fiscal year of less than 301, he shall compute, except as otherwise provided, ten thousand eighty dollars ($10,080) for the first five units; five hundred four dollars ($504) for each of the sixth to sixty-second units, inclusive; three hundred thirty dollars ($330) for the

sixty-third unit; one hundred sixty-six dollars ($166) for each of the sixty-fourth to one hundred thirtieth units, inclusive; and seventy-five dollars ($75) for each of the one hundred thirty-first to the three hundredth units, inclusive.

Same

7037.1. For each high school district which maintained two or more high schools, he shall compute for the district an amount which shall be determined by allowing for each day high school having an average daily attendance of less than 301 the amount of which would otherwise be computed for the district under Section 7037 except that with respect to any such high school maintaining less than four years the amount computed for such high school shall be an amount determined by multiplying the number of units of average daily attendance of such high school by two hundred ten dollars ($210) or the following percentage of the amount computed under Section 7037.2, whichever amount is the larger:

(a) Fifty-five percent if the high school maintains but one year,

(b) Sixty-five percent if the high school maintains but two years, or

(c) Eighty percent if the high school maintains but three years.

No computation shall be made under this section for any high school established after July 1, 1952, without the approval of the Superintendent of Public Instruction.

SEC. 14. Section 7037.2 is added to said code, to read:

Same: Foundation program

7037.3. The amount by which the foundation program computed under Section 7037 or Section 7037.1 for a high school district exceeds the foundation program which would have been computed for such district by multiplying the number of units of average daily attendance of such district by two hundred ten dollars ($210) shall, beginning with the Fiscal Year 1954-1955, be reduced by an amount equal to 20 percent of the amount of such excess and for each of the four succeeding fiscal years by an additional 20 percent except as to any high school district in which any one or more of the following conditions obtain:

(a) If as many as five pupils residing in the district and attending grades 9 to 12, inclusive, would be required to travel more than 30 miles one way from a point on a well-traveled road nearest their home to the nearest other public high school, or

(b) If as many as 10 pupils residing in the district and attending grades 9 to 12, inclusive, would be required to travel more than 20 miles one way from a point on a well-traveled road nearest their home to the nearest other public high school, or

(c) If as many as 40 pupils residing in the district and attending grades 9 to 12, inclusive, would be required to travel more than 15 miles one way from a point on a well-traveled road nearest their home to the nearest other public high school.

If topographical or other conditions exist in a district which would impose unusual hardships if the number of miles specified was required to be traveled or if during the fiscal year the roads which would be traveled have been impassable for more than an average of two weeks per year for the preceding five years, the governing board of the district may, on or before April 1st, request the Superintendent of Public Instruction, in writing, for an exemption from such requirements or for a reduction in the miles required. The request shall be accompanied by a statement of the conditions upon which such request is based, giving such information in such form as the Superintendent of Public Instruction may require. The Superintendent of Public Instruction shall cause an investigation to be made, and he shall either grant such request to the extent deemed necessary by him or deny the request.

district during the preceding fiscal year as computed under Sections 6943, 6962, and 6971, subject to the provisions of Section 7148.

SEC. 20. Section 7075 of said code is amended to read:

(b) Forty cents ($0.40) in a high school district.

(c) Twenty-two cents ($0.22) in a junior college district.

SEC. 21. Section 7112 of said code is amended to read:

The amount allowed each such district shall be in the ratio that the amount of the balance bears to the total amount computed as equalization aid for all high school districts, multiplied by the amount of equalization aid computed for the district.

SEC. 21.1. Section 7115 of said code is amended to read:

Reduction in apportionment High school districts

7115. If the total amount allowed from the State School Fund to all high school districts and to all county school service funds under Articles 5, 7 and 10 of this chapter on account of the average daily attendance of pupils in high school districts and in schools or classes of high school grade maintained by county superintendents of schools is larger than the total amount provided in the State School Fund on account of such average daily attendance plus seven hundred thousand dollars ($700,000), minus an amount equal to the amounts allowed under Sections 7001 and 7011, on account of such average daily attendance plus one-fourth of the amount allowed under Section 7003, the amount allowed each such district as state equalization aid from the

State School Fund shall be reduced in the ratio that the amount of the deficit bears to the total amount of equalization aid computed for all high school districts multiplied by the amount of equalization aid computed for the district.

SEC. 22. Section 7092 of said code is amended to read:

State equalization aid

7092. The Superintendent of Public Instruction shall then compare the total of the amounts allowed to, and computed for, each high school district pursuant to Articles 7 and 9 of this chapter with the amount of the foundation program of school support computed for each such district pursuant to Article 4 of this chapter.

If the total amount allowed to, and computed for, any high school district pursuant to Articles 7 and 9 of this chapter is less than the amount of the foundation program of school support computed for such district pursuant to Article 4 of this chapter, he shall add to the amount allowed to, and computed for, such district pursuant to Articles 7 and 9 of this chapter such additional amount, to be known as state equalization aid, as may be necessary to equal that computed for such district pursuant to Article 4 of this chapter.

Notwithstanding anything in this article to the contrary, the amount computed for any high school district under this article shall be not less than it would have been had the foundation program of school support for such district under Article 4 of this chapter been computed by multiplying the number of units of average daily attendance in the district during the preceding fiscal year as computed under Sections 6943, 6962, and 6971 by two hundred sixty dollars ($260) and had the tax used in making the computation for the district under Article 9 of this chapter been seventy-five cents ($0.75).

SEC. 23. Section 7094 is added to said code, to read:

Same Condition

7094. No state equalization aid shall be allowed to any high school district under this article during the Fiscal Year 1951-1952 unless, during the preceding fiscal year, there shall have been levied a tax for such district in an amount equal to thirty-two cents ($0.32) or more on 90 percent of each one hundred dollars ($100) of the assessed valuation in such district as shown by the equalized assessment roll of the district for the next preceding year and no high school district which has met the requirements of this section and is otherwise entitled to state equalization aid shall be denied such aid.

SEC. 24. Section 7096 is added to said code, to read:

Same Payments to acquiring district

7096. Notwithstanding anything in this chapter to the contrary, if under Section 6907 average daily attendance of an original district is credited to an acquiring district, the amounts allowed by the Superintendent of Public Instruction as state equalization aid to the original school district and to the acquiring school district during the first fiscal year in which an apportionment is made to the acquiring school district on account of such average daily attendance, shall be the amounts computed under this section. The Superintendent of Public Instruction shall divide the total amount of state equalization aid which

would have been apportioned to the original school district during said fiscal year had this section not been in effect by the units of average daily attendance of the original school district for the preceding fiscal year prior to the crediting of any of such average daily attendance to the acquiring school district. He shall allow to the original school district as state equalization aid the amount computed by multiplying the resulting quotient by the units of average daily attendance of the district for the preceding fiscal year less the units credited to the acquiring school district. He shall allow the acquiring school district as state equalization aid the amount computed by multiplying the same quotient by the units of average daily attendance credited to the district under this section

SEC. 25. Article 11.6 is added to Chapter 15 of Division 3 of said code, to read:

Article 11.6. Apportionment for Growth

Authority to apportion

7109.1. The governing board of each school district shall report to the Superintendent of Public Instruction during each fiscal year, as herein provided, the average daily attendance in the regular day schools of the district for all full school months in the fiscal year during (1) the period between July 1st and December 31st, inclusive, hereinafter referred to as the "first period," (2) the period between the end of the last full school month of the first period and May 31st, inclusive, hereinafter referred to as the "second period," and (3) for each of the same periods during the preceding fiscal year. Such report with respect to the first period shall be filed with the Superintendent of Public Instruction on or before the next succeeding January 15th and with respect to the second period shall be filed with the Superintendent of Public Instruction not later than the next succeeding June 10th. Each report shall be made in such form as shall be prescribed and furnished by the Superintendent of Public Instruction.

Computation of allowance Existing district

7109.2. The Superintendent of Public Instruction shall allow, for each period referred to above, to each school district which was in existence for all purposes during the preceding fiscal year an amount which shall be computed as follows:

The average daily attendance in the regular day schools of the district during the period in the then current fiscal year and for the same period in the preceding fiscal year shall be computed in the manner prescribed in Chapter 14 of this division, except that in each case the divisor used shall bear the same ratio to the divisor required to be used under said Chapter 14 to determine the average daily attendance of the regular day schools of the district for the whole of the preceding fiscal year as the number of days the regular day schools of the district were

maintained during the period bears to 175 and except that the computation of a day of attendance shall be determined according to the law in effect during said preceding fiscal year.

The Superintendent of Public Instruction shall apportion to each school district for each unit by which the average daily attendance for a period of the then current fiscal year exceeds that of the average daily attendance for the same period during the preceding fiscal year, an amount determined by dividing the total of the amounts allowed the district during the preceding fiscal year as basic state aid and state equalization aid, exclusive of amounts allowed under Section 7117, by the total average daily attendance of the district during the preceding fiscal year multiplied by the ratio of days the regular day schools of the district were maintained during said period of the then current fiscal year to 175.

Computation of allowance New districts

7109.3. The Superintendent of Public Instruction shall allow, for each period referred to above, to each school district which was not in existence for all purposes during the preceding fiscal year an amount which shall be computed as follows:

The average daily attendance in the regular day schools of the district during the period in the then current fiscal year shall be computed in the manner prescribed in Chapter 14 of this division, except that the divisor used shall bear the same ratio which would have been required to be used under said Chapter 14 to determine the average daily attendance of the regular day schools of the district for the whole of the preceding fiscal year had such district been in existence for all purposes during the preceding fiscal year, as the number of days the regular day schools of the district were maintained during the period bears to 175 and except that the computation of a day of attendance shall be determined according to the law in effect during the preceding fiscal year.

The Superintendent of Public Instruction shall allow to each such district for each unit of average daily attendance so computed an amount determined by dividing the total of the amounts of basic state aid and state equalization aid which would have been apportioned to such district during the current fiscal year on account of such average daily attendance had such district been in existence for all purposes during the preceding fiscal year, multiplied by the ratio of days the regular day schools of the district were maintained to said period of the then current fiscal year to 175.

In making any computation under Section 7081 for the purposes of this section, the assessed valuation of the district for the current year shall be used. Section 7095 is not applicable to districts coming within this section.

Unified districts

7109.4. For the purposes of this article all of the elementary school districts included in any union elementary school district, joint union elementary school district, or unified school district shall constitute a single elementary school district regardless of Section 7144, all of the high school districts included in any unified school district shall constitute a single

high school district, and all of the junior college districts included in any unified school district shall constitute a single junior college district.

Date of apportionment

7109.5. The apportionment made on account of the first period shall be made not later than the next succeeding February 15th; the apportionment made on account of the second period shall be made not later than the next succeeding June 30th.

Certification, payment of apportionments

7109.7. The Superintendent of Public Instruction shall certify each apportionment made by him under this article to the State Controller who shall draw his warrant during the fiscal year on the State School Fund in favor of the treasurer of the county having jurisdiction over the district for the amount of such apportionment.

Deposit of funds

7109.8. All money received by the treasurer of any county from an apportionment made under this article shall be immediately credited by the treasurer to the general fund of the district exactly as apportioned by the Superintendent of Public Instruction.

It is hereby declared to be the policy of the Legislature that child care centers shall be made available first to those who have the greatest financial need, and the sliding scale of fees prepared by the Superintendent of Public Instruction shall provide for a nominal fee for children of families having a monthly income of less than one hundred fifty dollars ($150) or of less than forty dollars ($40) per member of the child's immediate family, and increasingly larger fees shall be charged for children of families having larger incomes. It is further declared to be the policy of the Legislature that so far as possible when it becomes necessary for the Superintendent of Public Instruction to adjust the fee schedule that any increase shall be made first in fees charged to those in the higher income brackets, and the rate of increase in fees charged for children of families of different income levels need not be uniform as between the different income levels. It is further declared to be the policy of the Legislature that the fee schedule shall, so far as reasonably possible, be established on such basis and in accordance with such principles as the Superintendent of Public Instruction may determine to insure proper administration of the child care center program and to establish uniform budgetary and accounting procedures.

Funds derived from district taxes levied under this chapter may be expended in addition to parent fees and state funds, and shall not operate to affect the operation of either the fee schedule or the formula for apportioning state funds provided for in this chapter.

SEC. 18. Section 19607.2 is added to said code, to read:

Fee schedule

19607.2. The Superintendent of Public Instruction shall prepare a schedule of fees which shall be used by each school

The schedule shall, together with the estimated income to be derived from fees collected from parents pursuant to Section 19601.7, provide as nearly as possible an amount equal to one-half of the state-wide average state support per hour for children less than five years nine months of age as provided in this code. The fee schedule shall be on an hourly basis, and shall be the same for all children.

SEC. 20. Section 19607.4 is added to said code, to read:

State-wide
average

19607.4. The state-wide average state support per hour shall be twenty-five cents ($0.25) for children less than five years nine months of age and sixteen cents ($0.16) for other children. The Superintendent of Public Instruction shall apportion state funds to the districts using said state-wide average state support as a maximum, except that if the fees collected by any district shall for any month be more or less than one-half of the state-wide average state support per hour for children less than five years nine months of age, the average state-wide state support amount shall be increased or decreased in an amount equal to the amount the fees deviate from one-half of the average state-wide state support; provided, in no event shall the state amount exceed thirty cents ($0.30) for children less than five years nine months of age or twenty cents ($0.20) for other children.

Appropriation

SEC. 21. The sum of five million four hundred fifty-six thousand eight hundred fifty-six dollars ($5,456,856) is hereby appropriated out of the General Fund in the State Treasury to the Department of Education to be used for support of child care centers until June 30, 1952, and for the cost of the department in administering this act. The department may expend not to exceed forty-four thousand dollars ($44,000) to pay its expenses in determining the need and in apportioning the sums to the school districts and state institutions.

Apportionment of funds

The department shall make apportionments to such school districts and state institutions from the money hereby appropriated on or before July 1, 1951, and on September 1, 1951, December 1, 1951, and March 1, 1952. The amount of any apportionment shall be based on estimates made by the department of the total number of children in attendance at the child care centers maintained by the school district or state institution, and the total number of hours of such attendance, for the period commencing on the date such apportionment is made

until the date for the next apportionment, or, in the case of the apportionment for March 1, 1952, until June 30, 1952. The amount of each apportionment for each school district or state institution maintaining child care centers shall be not more than the estimated amount of state aid per hour based on the computation provided for in Section 19607.3 of the Education Code, and in accordance with the estimated fees to be collected in accordance with the fee schedule as provided in Section 19607.2; provided, the apportionment shall not exceed thirty cents ($0.30) per hour for children less than five years nine months of age or twenty cents ($0.20) per hour for other children. The apportionment, except the first apportionment, for any school district or state institution shall be reduced or increased by the amount which the preceding apportionment would have been reduced or increased had such preceding apportionment been based on actual rather than estimated attendance. If the amount of the apportionment made to a school district or state institution for March 1, 1952, exceeds the amount which would have been apportioned had such apportionment been based on actual rather than estimated attendance, the school district or state institution shall repay to the department the amount of such excess from any available funds of the district or institution and such amount is a charge against such funds. Such repayment shall be made on or before July 10, 1952, and the department may use such repayments to make payments to a school district and state institution in an amount not to exceed the amount by which the apportionment to such district or institution for March 1, 1952, was less than the amount which would have been apportioned to such district or institution had such apportionment been based on actual rather than estimated attendance. Such payments shall be made on or before July 20, 1952.

If, however, the number of qualified incumbent judges or justices of existing courts in the territory so annexed exceeds the number of additional judicial offices provided for said municipal court, said incumbents shall not automatically succeed to such additional offices, and the existing courts shall continue to function within the annexed territory until the first judge or judges shall be elected to the additional judicial position or positions in the municipal court at the first general state election held following the expiration of 90 days and qualify.

The judge or justice of an existing court who does not succeed to judicial office shall be deemed to be a clerk or chief clerical officer within the meaning of this section.

All such persons shall be deemed to be appointed upon the organization of the court and to have met all of the requirements for appointment to permanent positions as hereinafter provided and shall be removed only for the causes and in the manner provided for the removal of officers and attaches; provided, that when a constable who has been elected becomes a marshal, he shall continue in office until his successor is elected and qualifies, and in such cases the marshal shall be elected by the electors of the judicial district at the general state election for a term of six years from and including the first Monday in January after the first day of January next succeeding his election; provided, however, that the first election of marshals under this act shall take place at the general state election held in the year 1954; provided, further, that any police officer appointed and acting as bailiff in any court superseded by a municipal or justice court shall be deemed to be appointed ex officio a deputy marshal or deputy constable subject to the same conditions under which he shall have been first appointed, without prejudice, however, to his rights by virtue of his employment as such police officer; provided, also, that in any city or city and county having a consolidated city and county government, the sheriff of the city and county and his deputies shall be ex officio the marshal and deputy marshals of the municipal court and shall perform all the duties imposed and exercise all the powers conferred upon the marshal and deputy marshals of the municipal court; and provided further, that persons succeeding hereunder to the office of constable of a justice court shall continue in office until their successors are elected or appointed and qualify as hereafter provided.

Upon the organization of the court, the clerks, deputies and attaches or employees of the superseded court or courts shall be assigned, as far as practical, to positions in the municipal or justice court similar in duties and compensation to the positions held in any such superseded court. Every person who succeeds to any office or position in the municipal or justice court by virtue of any of the provisions of this act shall be entitled to all of the benefits and privileges, not inconsistent herewith, which attached to such person by virtue of his office or position in any superseded court.

Whenever a special assignment or branch of work is indicated for a particular deputy or position in the clerk's or marshal's office, except that of custodian, the assignment so designated is not intended to be exclusive, but merely to designate the principal work incident to such deputy or position. In order to equalize the work of the office of the clerk or marshal and to render prompt and efficient service to the public, it shall be the duty of each deputy clerk, deputy marshal or attache to perform such service as may be directed by the clerk or marshal, whether the work so directed to be done be within the scope of the special designation or not.

The provisions of the Elections Code respecting the nomination and election of judicial officers are applicable to the judges of municipal and justice courts. No judge shall be deemed to have qualified before the date fixed for the commencement of his term of office.

The term of office of judges of municipal and justice courts shall be six years from and including the first Monday of January after the first day of January next succeeding their election. Judges shall hold office until their successors are elected and qualify, but the office shall be deemed to be vacant upon the expiration of the fixed term for the purpose of selecting a successor.

Nothing in this act shall affect the term of office of any incumbent judge of a municipal court heretofore established pursuant to the provisions of the Municipal Court Act of 1925, and if the time fixed for the election of his successor is at a time when no general state election is held, such judge shall continue to hold office until his successor has been elected and qualifies,

said election to be held at the general state election next succeeding the expiration of his term.

SEC. 7. Section 13 of said act is amended to read:

Sec. 13. The judges of a municipal court and the judges, officers, and attaches of a justice court shall be electors of the judicial district or city and county in which they are elected or appointed; provided, that this requirement shall not affect the right of any person to automatically succeed to an office or position under Sections 2, 3, and 4 of this act; and provided further, that this requirement shall not affect the right of any person to be and act as constable in any county governed by a freeholders' charter which provides that constables shall be appointed by the sheriff, or shall be ex officio deputy sheriffs. Upon the filing of the reasons, the person proposed to be discharged may be suspended from duty either with or without pay, pending his final discharge. The person against whom charges have been filed may within 10 days file his reply thereto. At the end of the 10 days the person shall be either reinstated or discharged unless an additional time for investigation is desired by the appointing officer. The determination of the appointing authority to discharge the person against whom charges have been filed shall be final and conclusive, except that nothing herein contained shall limit the right of any person to the benefits of the civil service provisions of the charter of the county or city and county wherein any such court is situated, or of the rules of the civil service commission having jurisdiction of such person, respecting suspensions and dismissals. Appointees

The clerk or marshal of a municipal court shall have the power to lay off and suspend a deputy or employee or deputies and employees because of lack of work requiring the service of existing personnel of the office or department. Marshals and constables shall attend all municipal and justice courts of the district in which they are appointed or elected to act whenever so required, and within their counties shall execute, serve and return all writs, processes and notices directed or delivered to them by municipal and justice courts or by other competent authority. A constable of a justice court, or a marshal of a municipal court who is authorized by law to appoint not more than four deputies, shall not be required to travel outside of his district to serve any civil process or notice.

All provisions of Government Code Sections 26600-26602, 26604, 26606-26609, 26611, 26660-26664, 26680-26684, 26686, and Political Code Sections 4166, 4168-9, 4171, apply to marshals and constables and govern their powers, duties and liabilities.

SEC. 10. Section 30 of said act is amended to read:

Sec. 30. Each municipal court shall have such number of judges, officers and attaches, who shall receive such compensation, as the Legislature may provide.

Whenever provision is made by law for annual increments in the salary of an officer or attache of a municipal court, such annual increments shall be dependent upon the employee maintaining the minimum efficiency rating designated by the appointing authority and at any time the efficiency rating falls below the minimum standard the appointing authority shall have the power to suspend all or any part of the annual increments.

SEC. 11. Section 33 of said act is amended to read:

Sec. 33. The marshals, assistants and deputies of municipal courts, except those designated as custodians, shall be allowed, in addition to their salaries, their actual and necessary incidental expenses incurred in the actual performance of their duties, including traveling expenses. At the option of the county board of supervisors, they may be furnished with automobiles at public expense or allowed traveling expenses at the rate per mile fixed by the board of supervisors for the operation of automobiles actually used in performance of their duty on public business or paid for such other method of transportation as they may adopt.

The deputy marshals serving as custodians shall be paid only for their actual services as keepers of property taken under legal process and shall be paid out of funds deposited by the parties to the action in which such services are rendered.

SEC. 12. Section 35 of said act is amended to read:

Same Temporary appointments

Sec. 35. If an increase in business of any municipal court, or other emergency, shall require a greater number of em-

ployees for the prompt and faithful discharge of the business of such court than the number expressly provided by law, or shall require the performance of duties of positions in the lowest salary bracket where all such positions have been filled, the clerk or the marshal of such court, or both, as the occasion may require, may, with the approval of the judge or judges, appoint as many additional deputies as will enable them to promptly and faithfully discharge the duties of their respective offices.

Such additional deputies shall be selected in the same manner as those for whom express provision is made, and they shall receive compensation from the same source and in the same amount as the lowest salary provided by law for the position of deputy clerk or deputy marshal of such court, respectively, but may hold office by virtue of such appointment not longer than ninety (90) days after the adjournment of the next regular session of the Legislature. No deputy so temporarily appointed shall be eligible for reappointment under the provisions of this section.

SEC. 13. Section 38 of said act is amended to read:

Sec. 38. In addition to the salaries, compensation and allowances provided, there shall be allowed to the marshal, constable, deputy marshals, and deputy constables the privilege and right to a pension or retirement annuity in the same manner and in the same amount and under the same terms and conditions as may have been or may be provided by law for county and township peace officers; provided, however, that no deputy marshal or constable shall be entitled to such pension or annuity unless he shall be actively employed in the performance of duties as deputy marshal or constable, and other employees, such as clerks, bookkeepers, stenographers or persons who may be appointed deputy marshal or constable but who do not perform the duties of such office, and persons holding honorary appointments as deputies but who receive no compensation therefor and who do not regularly perform official duties, shall not be included. The purpose of this provision is to recognize a public obligation to such marshal, constable, deputy marshals and deputy constables whose duties expose them to more than ordinary risk and this provision is designed to provide an additional element of compensation in consideration for the duties performed by such persons.

Where there has been established or may be established a county and township peace officers' retirement or pension system, the marshal, constable, deputy marshals and deputy constables, as above defined, shall be included in such system and shall, for the purpose of carrying out this provision and enabling such municipal and justice court officers to benefit thereby, be deemed to be county employees for this purpose and the pension therein provided and payable to the marshal, constable, deputy marshals and deputy constables as herein provided shall be a legal charge against the county, subject to the provision of such county and township peace officers' retirement or pension system.

Retirement benefits

In computing the length of service of any person entitled to the benefits of a pension or retirement annuity as herein provided, there shall be counted the time such person may have served in a similar capacity with regard to his duties as an officer of any superseded court in said county, or that he may have served as a peace officer, as defined in such county and township peace officers' pension or retirement act in such county; provided, however, that such service must be continuous service as provided in such county or township peace officers' pension or retirement act.

The retirement annuity or pension provided by this section shall be granted to the persons therein designated only in the event that in the county where such municipal or justice court is located there shall have been established or provided, or shall be established or provided, a retirement annuity or pension for county and township peace officers who perform duties of the same character as those performed by the marshal, constable, deputy marshals and deputy constables.

An act relating to a highway construction and improvement program, county and state, including cooperation with the Federal Government in furtherance of the purposes of the Federal-Aid Highway Act of 1950 and the expenditure of federal-aid moneys, declaring the urgency hereof, to take effect immediately. 16 U S C, 18

[Approved by Governor July 3, 1951. Filed with Secretary of State July 5, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Declaration of Policy. The Congress of the United States has enacted the Federal-Aid Highway Act of 1950 in which federal appropriations have been authorized for projects on secondary roads of various types. By apportionment of the authorization made pursuant to said federal act, it is anticipated that substantial sums will be made available for expenditures on such roads in California. Said apportionment to California is to be made available for expenditure on either state highways or county highways which qualify under the federal law. County highways throughout the State are in greater need of such expenditures than are state highways on the Federal-Aid Secondary System. It is therefore, determined by the Legislature that, insofar as permissible under federal law, rules and regulations, at least eighty-seven and one-half percent (87½%) of the money apportioned to California for such projects as are mentioned in paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 should be expended for the improvement of county highways in this State. Declaration of policy

SEC. 2. As used in this act, "county highway" means county highway as defined by Section 25 of the Streets and Highways Code, which is on the system of secondary and feeder roads as defined by the Federal-Aid Highway Act of 1944, as amended by the Federal-Aid Highway Act of 1948, and by the Federal-Aid Highway Act of 1950. "County highway" 23 U S C, 60 23 U S C, 21

Inasmuch as the funds available for construction of highways pursuant to the provisions of paragraph (b) of Section 3 of the Federal-Aid Highway Act of 1944 and paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 may not be expended in any municipality of 5,000 or more population, "county" as used in this act does not include a city and county.

"County"

"Construction"

As used in this act, "construction" means construction as defined by the Federal-Aid Highway Act of 1944, as amended and supplemented.

"Match"

As used in this act, "match" means to provide for the payment of the cost of any project to the extent that such cost is not to be paid from federal funds.

Scope

SEC. 3. The provisions of this act or any action taken pursuant to it (including construction on any county highway) shall not be deemed to change the status of any county highway into that of a state highway notwithstanding any other provision of law.

Apportionment

SEC. 4. (a) It is in the interest of the State of California and of the counties of the State that at least eighty-seven and one-half percent (87½%) of the moneys available for construction of highways in this State pursuant to the provisions of paragraph (b) of Section 1 of the Federal-Aid Highway Act of 1950 be apportioned for expenditure among the counties of this State in the manner and in accordance with the formula prescribed in subdivision (b) of Section 4 of the Federal-Aid Highway Act of 1944 for apportionment among the states, except that the census figures used in making said apportionments shall be those shown by the latest available federal census.

Recommendations

(b) The Department of Public Works through the California Highway Commission, the Director of Public Works, and the State Highway Engineer, each in their respective jurisdictions, shall in behalf of the State and the counties recommend such projects and take such other action within the powers conferred on it by law as to comply with paragraph (a) of this section and the other provisions of this act as fully as applicable federal laws, rules, or regulations permit.

Cooperation, etc

(c) The boards of supervisors of the several counties and the department are authorized and directed to enter into cooperative agreements and do all other things necessary and proper in their respective jurisdictions to secure such federal aid for construction of county highways in accordance with the intent of this act.

Notification, etc

SEC. 5. The Department of Public Works shall notify each county on the effective date of this act or as soon thereafter as possible of the amount of money to be available for expenditure in said county from said federal apportionment.

After receiving notice of apportionment from the department, each county shall have 60 days in which to notify the State Highway Engineer as to what amount of the apportionment the county wishes to claim and to agree to provide matching funds therefor. The counties, in cooperation with the Department of Public Works, shall thereafter select projects

in conformance with the Federal-Aid Highway Act of 1950 The counties shall prepare plans, specifications, and estimates of cost for construction of said projects. Said projects shall be advertised for each successive fiscal year's funds by the first day of October next succeeding the end of each fiscal year named in the Federal-Aid Highway Act of 1950.

Any savings or carry-over of funds for projects not so advertised may be permitted in an amount not to exceed 25 percent of the apportionment to the county for such fiscal year. A county may by agreement with the Department of Public Works combine the apportionment for two years for a single project.

By agreement with the Department of Public Works a county may transfer all or part of the funds apportioned to it, and in its discretion matching funds, to a federal-aid secondary road project (1) in an adjoining county where the highway connects points in the two counties or (2) in a city in the same county.

Expenditure of federal-aid secondary funds

SEC. 6. Federal-aid secondary funds apportioned to any county under the provisions of Section 4 of this act and not claimed or used as provided in Section 5 of this act shall be expended upon federal-aid secondary projects upon the State Highway System in such county from which released and in the amount released by that county, to the extent that such may be done in conformity with federal law. The money apportioned by the State to match the unexpended balance of the federal aid in any county in accordance with this section shall be deemed an expenditure to meet the requirements of Section 188.4 of the Streets and Highways Code, and such expenditures shall be subject to the provisions of Section 188 of said code. The federal funds so released by a county and expended pursuant to this section shall be exempt from Sections 188 and 188.4 of the Streets and Highways Code. As to any county in which there is no federal-aid secondary state highway, and funds are released by the county for expenditure by the State, such funds may be expended by the Department of Public Works on any federal-aid secondary state highway within the county group in which the county is situated as specified in Section 187 of the Streets and Highways Code.

Application

SEC. 7. While this act by its terms applies only to the funds made available by the Federal-Aid Highway Act of 1950, the same provisions and procedure shall be followed as to past unobligated and future federal-aid appropriations for federal-aid secondary highways where such appropriations are made on substantially the same basis of apportionment as those made pursuant to the Federal-Aid Highway Act of 1950, unless further legislation is adopted by the Legislature with reference thereto.

Short title

CHAPTER 1337

An act to amend Section 10 of the Property Acquisition Act relative to repairs and improvements on state property, declaring the urgency thereof, to take effect immediately. Stats. 1941 (4th Ex. Sess.), p. 149, amended

[Approved by Governor July 5, 1951. Filed with Secretary of State July 5, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 10 of the Property Acquisition Act is amended to read:

Sec. 10. When any real property is acquired by the State pursuant to this act, and until such time as the use thereof Control of property

is needed in furtherance of the postwar construction program, the jurisdiction over and control of such property is vested in the Department of Finance. The department is authorized to lease any such property or portions thereof which are not presently needed on such terms and conditions as the Director of Finance may fix and may maintain, improve and care for such property in order to secure rent therefrom. The department may remove or demolish buildings or other structures on any such property when in its judgment it is desirable to do so. It may sell or dispose of any such improvements or any materials available upon the demolishing of any building or structure on such property. The proceeds of any such sale shall be deposited in the State Treasury to the credit of the General Fund. All rentals received by the department, pursuant to this section shall be deposited in the State Treasury to the credit of the General Fund and are hereby appropriated to the Department of Finance to maintain, improve and care for real property acquired pursuant to this act pending the use of such property in furtherance of the postwar construction program. Any unneeded unexpended balance in said appropriation shall be, from time to time, transferred by the Controller on order of the Director of Finance to the General Fund.

Urgency

SEC. 2. This act is an emergency measure for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many parcels of property have been acquired by the State in various localities on which to build state office buildings, and the properties have been cleared ready for construction. The present embargo prescribed by the Federal Government on the construction of office buildings will not permit the State to make immediate use of the properties for the purposes for which they were acquired. If these areas can be graded and given temporary surfacing the State can derive considerable revenue by leasing them for public parking purposes. This act will permit money now received by the Department of Finance from rental of these properties to be used to make such improvements. The sooner the improvements can be made the sooner can the State obtain revenue from leases which can be entered into when the property has been improved for temporary parking use. It is necessary, therefore, that this act take effect immediately.

In the event the governing board of a district fails to re-elect or re-employ the superintendent of schools of the district as such superintendent and the written notice herein provided for has not been given, the superintendent of schools shall be deemed re-elected for a term of the same length as the one completed, and under the same terms and conditions and with the same compensation. Special law

turned into the river. Recognizing this fact, the United States Army Engineers have made studies and recommendations for a proposed plan of improvement for flood control and allied purposes on the Russian River drainage basin located within the area of the district. The cost of adequate flood control and water conservation is beyond the means of the property owners and taxpayers of the district, and it is necessary to negotiate to obtain financial aid from the United States Government. It is recommended by the United States Government and it is desirable to immediately form a political entity to satisfactorily deal with the agency of the United States Government.

Investigation having shown conditions in the County of Sonoma to be peculiar to that county, it is hereby declared that a general law cannot be made applicable thereto and that the enactment of this special law is necessary for the conservation, development, control and use of said waters for the protection of life and property therein and for the public good.

Said resolutions may state the names of the municipal corporations who propose to organize such authority, and in that case such names shall constitute a sufficient description of the area of the authority. Certified copies of said resolutions shall be presented to the board of supervisors of the county containing the largest number of registered electors within the area of the proposed authority, requesting said board to call an election without delay for determining whether such authority shall be created. Instead of said resolutions a petition may be presented to the board of supervisors of said county, signed by qualified electors within the boundaries of the municipal corporations designated to form the said authority equal in number to at least 10 percent of the total vote cast at the last general state election within the municipal corporations proposed to be included in said authority. Said petition shall contain substantially the same declarations and statements required to be contained in the resolutions aforementioned, and declare that, in the opinion of the petitioners the public interest or necessity demands the creation and maintenance of a municipal corporation tunnel authority. Such petition may be on separate papers, but each paper shall contain the affidavit of the party who circulated it certifying that each name signed thereto is the true signature of the person whose name it purports to be. The clerk of the board of supervisors of said county shall compare the signatures with the affidavits of registration and certify to the sufficiency or insufficiency of such petition.

SEC. 5. Upon receipt of certified copies of the resolutions aforementioned or of a sufficient petition as aforesaid, said board of supervisors shall call an election within each of the municipal corporations named in said resolutions or said petition, without delay, for the purpose of determining whether the proposed district shall be created and established. Toll, etc., charges

(8) To fix through its governing board the rates of toll and other charges for the use of said tunnel or tube for the transportation of passengers or property. In fixing said rates of toll the governing board of said authority shall give consid-

At all times the tolls and charges shall be fixed at rates to yield annually revenue equal to annual operation and maintenance expenses, including insurance costs and all redemption payments and interest charges of the bonds issued for any particular tunnel or tube as they fall due. Toll charges and other charges so fixed may be changed from time to time as conditions warrant, and neither the authority nor the governing body of said authority shall have power to collect under this act any toll charges or other charges in amounts greater than is necessary to operate and maintain such tunnel or tube, including the cost of insurance and to meet annually the cost of redeeming bonds and interest payments thereon, and to set aside annually such sum for depreciation as may be necessary to keep such tunnel or tube in a state of good repair or replace the same if necessary.

The said resolution shall also specify the maximum amount of bonds to be issued for the purposes of such acquisition, and bonds shall not be issued or sold in an amount exceeding the specified maximum amount. The bonds may be

sold either upon competitive bids or otherwise, and the bidder or purchaser shall specify the interest to be paid on such bonds, subject to the limitation that the authority shall not be required to pay in excess of 7 percent as interest on any bonds so issued.

Refunding bonds

(12) The authority shall also have power from time to time, or at one time, to issue and sell or exchange funding or refunding bonds for the purpose of retiring, paying, funding or refunding either all or such part of the outstanding bonds, or of one or more issues or series thereof, as it deems advisable. Such funding or refunding bonds shall be issued and delivered only when the issue or series of bonds to be funded or refunded have matured, are about to mature, are subject to retirement before maturity, or, if the outstanding bonds are not subject to retirement, the retirement thereof has been assured or obtained by the consent of the holders thereof. Funding or refunding bonds may be delivered wholly or in part in exchange for outstanding bonds to be funded or refunded thereby if the holders of the outstanding bonds to be exchanged consent thereto.

Neither original bonds, funding or refunding bonds shall ever constitute a debt or obligation of either or any of the municipal corporations forming the authority.

[Approved by Governor July 7, 1951. Filed with Secretary of State July 9, 1951.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1005.1 is added to the Water Code, to read:

Use of alternate supply of water

1005.1. Cessation of or reduction in the extraction of ground water by the owner of a right to extract, as the result of

the use of an alternate supply of water from a nontributary source, shall be and is deemed equivalent to, and for purposes of establishing and maintaining any right to extract the ground water shall be construed to constitute, a reasonable beneficial use of the ground water to the extent and in the amount that water from the alternate source is applied to reasonable beneficial use, not exceeding, however, the amount of such reduction. Any such user of water from an alternate nontributary source who seeks the benefit of this Section 1005.1, shall file with the Division of Water Resources of the Department of Public Works, on or before December 31st of each calendar year, a statement of the amount of water from said source so applied to reasonable beneficial use pursuant to the provisions of this section during the next preceding water year (November 1st to October 31st), and such user cannot claim the benefit of this section for any water year for which such statement is not so filed.

"Ground water" for the purpose of this section and of Section 1005.2 means water beneath the surface of the ground, whether or not flowing through known and definite channels.

The provisions of this section apply only as to the cessation of, or reduction in, the extraction of ground water within that area in this State defined by the exterior boundaries of the Counties of Santa Barbara, Ventura, Los Angeles, Orange, San Diego, Imperial, Riverside, and San Bernardino.

SEC. 2. Section 1005.2 is added to the Water Code, to read:

Same

1005.2. Cessation of or reduction in the extraction of ground water, to permit the replenishment of such ground water by the use of water from an alternate nontributary source, is hereby declared to be a reasonable beneficial use of the ground water to the extent and in the amount that water from such alternate source is applied to beneficial use, not exceeding, however, the amount of such reduction. No lapse, reduction or loss of any right in ground water, shall occur under such conditions. Any such user of water from an alternate source who seeks the benefit of this Section 1005.2 with respect to the use of such water occurring prior to the effective date of this section, shall file with the Division of Water Resources of the Department of Public Works, within ninety (90) days from said effective date, a statement of the amounts of reduction in the extraction of ground water as the result of water from said alternate source having been so applied to reasonable beneficial use prior to said effective date to permit the replenishment of such ground water and said amounts shall be segregated and shown for each water year (November 1st to October 31st) during which such use occurred prior to the effective date of this section. Any such user of water from an alternate source who seeks the benefit of this Section 1005.2 with respect to the use of such water occurring subsequent to the effective date of this section, shall file with the Division of Water Resources, on or before December 31st of each calendar year, a statement of the amount of reduc-

tion in the extraction of ground water as the result of water from said alternate source having been so applied to reasonable beneficial use during the next preceding water year (November 1st to October 31st) to permit the replenishment of such ground water. Such user cannot claim the benefit of this section for any water year for which such statement is not so filed.

The provisions of this section apply only as to the cessation of, or reduction in, the extraction of ground water within that area in this State defined by the exterior boundaries of the Counties of Santa Barbara, Ventura, Los Angeles, Orange, San Diego, Imperial, Riverside, and San Bernardino.

Declaration

SEC. 3. The Legislature finds and declares that this act is necessary to the solution of a problem arising out of the following unique circumstances:

The water supplies in the underground basins in the arid southern part of this State are being rapidly depleted by excessive pumping during a period of prolonged drought conditions. Because of the geological conditions peculiar to this area, further excessive pumping is certain to destroy the usefulness of these basins.

This act is intended to save these water basins by protecting users of water from the basins who cease or reduce the extraction of water therefrom and use, in lieu thereof, water from an alternate nontributary source, thereby preventing further depletion of the water in the basins.

Severability

SEC. 4. If any provision of this act, or of the sections hereby added to the Water Code, is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act or of the sections so added to the Water Code. The Legislature hereby declares that it would have passed this act and each section hereby added to the Water Code and each provision thereof, irrespective of the fact that any one or more other provisions of this act or of the sections so added to the Water Code be declared unconstitutional.

Urgency

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

Long-continued conditions of drouth and great increases in demands for water to supply the people and lands have depleted certain ground water basins in the southern part of this State to such an extent as to threaten their extinction as sources of usable water. To restore and replenish these basins, it is essential that immediate steps be taken to reduce pumping in these areas and to bring in water available to these basins from alternate nontributary sources. This act is immediately necessary to promote and protect these activities by water-right owners in conserving and developing the water supplies which are the lifeblood of this State.

(b) In the event such vehicle or combination of vehicles is found to be in an unsafe mechanical condition or is not equipped as required by this code, the officer making the inspection may give such driver a notice of arrest and further require said driver or the owner of the vehicle to produce in court satisfactory evidence that such vehicle or its equipment has been made to conform with the requirements of this code. Every officer giving such directions or a notice of arrest as above provided shall mail a copy or otherwise give notice thereof to the owner and any legal owner of such vehicle if other than the driver.

(c) No person shall operate any vehicle or combination of vehicles after notice of such unsafe condition or that the vehicle is not equipped as required herein, except as may be necessary to return such vehicle or combination of vehicles to the residence or place of business of the owner or driver or to a garage until said vehicle and its equipment has been made to conform with the requirements of this code.

(d) Whenever the driver of a vehicle is directed by a member of the California Highway Patrol or a police officer of a city who is on duty for the exclusive or main purpose of enforcing the provisions of Division 9 of this code to stop and submit the mechanical condition of the vehicle or its equipment to an inspection or test under the conditions stated in this section, it shall be the duty of such driver to stop and submit to such inspection or test and a failure or refusal so to do is a misdemeanor.

SECTION 1. Section 694 of the Vehicle Code is amended to read:

Size, weight, and loading of vehicle.

694. (a) The total outside width of any vehicle or the load thereon shall not exceed 96 inches, except as otherwise provided in this section.

(b) When any vehicle is equipped with pneumatic tires the maximum width from the outside of one wheel and tire to the outside of the opposite outer wheel and tire shall not exceed 100 inches, but in such event the outside width of the body of such vehicle or the load thereon shall not exceed 96 inches.

(c) When any vehicle carries a load of loosely piled agricultural products such as hay, straw, or leguminous plants in bulk but not crated, baled, boxed or sacked, such load of loosely piled material and any loading racks retaining the same shall not exceed 120 inches in width.

(d) The above limitations as to width shall not apply to implements of husbandry or tractor trailers used by farmers in farming operations and only incidentally operated, transported, moved or towed over a highway; provided, that when an implement of husbandry is transported or moved over a highway on another vehicle, if such load exceeds 96 inches in width such vehicle and load shall not be operated for a distance in excess of 25 miles from the point of origin of the trip and shall not be operated at a speed in excess of 30 miles per hour.

(e) The above limitations as to width shall likewise not apply to special mobile equipment, nor to highway construction or maintenance equipment, but tractor trailers, special mobile equipment and highway construction or maintenance equipment shall not exceed a width of 120 inches.

(f) Any city organized under a freeholders' charter may by ordinance permit a total outside width of vehicle and load in excess of the limits set forth in this section when such vehicle is used exclusively within the boundary limits of such city.

(g) Motor coaches or busses operated under the jurisdiction of the Public Utilities Commission in urban or suburban service may have a maximum outside width not exceeding 104 inches, when approved by order of the Public Utilities Commission for use on routes designated by it. Motor coaches or busses operated by common carriers of passengers for hire in urban or suburban service and not under the jurisdiction of the Public Utilities Commission may have a maximum outside width not exceeding 104 inches. Urban and suburban service referred to in this chapter means a service performed in urban or suburban areas, or between municipalities in close proximity; provided, however, the one-way route mileage of such service shall not be more than 50 miles; and, provided further, designated motor coach routes over state highways outside limits of incorporated cities where the one-way route mileage is over 25 miles, but does not exceed 50 miles, shall be approved by the Department of Public Works.

(h) Notwithstanding the limitations of this section, up to four inches additional width shall be allowed to gantry-trucks

for purposes of installation of sheathing or guards to comply with any safety order of the Industrial Accident Commission.

A gantry-truck for purposes of this subdivision is defined as a motor vehicle so designed and constructed that it straddles the load to be transported and by means of appropriate mechanism picks up the load and supports it during transportation.

The officials of other states which extend a like comity to this State are empowered to sue for the collection of such taxes in the courts of this State. A certificate by the secretary of state under the great seal of the state that such officers have authority to collect the tax is conclusive evidence of such authority. This section does not apply to Parts 8 and 9 of this code.

CHAPTER 1382

An act to amend Section 1190.1 of the Code of Civil Procedure, relating to mechanics' liens.

[Approved by Governor July 7, 1951. Filed with Secretary of State July 9, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 1190.1 of the Code of Civil Procedure is amended to read:

Notice by sub-contractors, suppliers

1190.1. (a) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor, and all persons, firms and corporations, excluding the contractor, performing work or furnishing materials, or both, upon any public improvement, including highways, streets, wagon roads, viaducts or sewers, may at any time, prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, give to the owner, a notice that they have performed labor or furnished materials, or both, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both, and any of said persons who shall on the written demand of the owner refuse to give such notice shall thereby deprive himself of the right to claim a lien under this chapter.

Form, delivery

(b) Such notice must be verified by the claimant, or by some person acting in his behalf, and may be given by delivering the same to said owner, personally, or by leaving it at his residence or place of business with some person in charge, or by delivering it to his architect, if any; provided, however, that in all cases in which said work is being done under a contract with the State, or with any public board, commission, or officer thereof, or with any political subdivision thereof, such notice must be filed, within said time, in the office of the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract, or with the commissioners, managers, trustees, officers, board of supervisors, board of trustees, common council or other body by whom the contract for the improvement was awarded. In the case of any contract of the State by or through the Department of Public Works, such notice must be filed with the Director of Public Works, and not with the State Controller. In the case of any contract of the State by or through any other state department, board, commission, or officer, such notice must be filed within said time with the head of such state department, board, commission, or officer and not with the State Controller. No such notice shall be invalid by reason of any defect in form; provided, it is sufficient to inform the owner of the substantial matters herein provided for.

Withholding

(c) Upon such notice being given it shall be the duty of the person to whom such notice is given to, and he shall withhold from his contractor or from any person acting under his authority and to whom said labor or materials, or both have been furnished, or agreed to be furnished, sufficient money or sufficient bonds, where bonds are to be issued in lieu of money by the political subdivision which contracted for said work, due or that may become due to such contractor to answer such claim and any lien that may be filed therefor, and, if the owner is a

public body whose property, by reason of public policy or otherwise, is not subject to the liens in this chapter provided for, also the reasonable cost of any litigation thereunder.

Provided, however, that if in connection with any private work of improvement, any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such last mentioned section and has been filed in the office of the county recorder, as in said section, provided, then in said event, it shall not be the duty of the person to whom such notice is given to withhold any moneys pursuant to such notice but such moneys may be withheld by such person to whom such notice is given.

Same Where insufficient

(d) In the event the moneys so withheld or required to be withheld shall be insufficient to pay in full the valid demands of all persons by whom such notices were given, the same shall be distributed among such persons in the same ratio that their respective claims bear to the aggregate of such valid demands. Such pro-rata distribution of said moneys shall be made among the persons entitled to share therein, without regard to the order of priority in which their respective notices may have been given or their respective actions, if any, commenced.

Fraudulent notice

(e) Any person who shall wilfully give a false notice of his claim to the owner or who shall wilfully include in his claim work or materials not performed upon or furnished for the property described in such notice shall forfeit all right to participate in the pro-rata distribution of such moneys and all right to any lien under this chapter.

Recovery of deficit

(f) Nothing in this article contained shall be construed to impair in any manner the right of any person by whom such notice has been given to recover from the contractor or his sureties any deficit that may remain unpaid after such pro-rata distribution in an action upon the bond provided for by Section 4200 of the Government Code.

"Owner"

(g) The word "owner" as used in this action, includes the State, or any public board, commission, or officer, thereof, or any political subdivision thereof, whether the said work be done by or under the direction of said State, public board, commission, or officer thereof, or any political subdivision thereof.

Notice to equitable owner

(h) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, may, in any instance in which the funds with which the cost of the work of improvements are, wholly or in part, to be defrayed from the proceeds of a building loan, give to the mortgagee, beneficiary under deed of trust, or assignee or successor in interest of either, or to any escrow holder or other party holding any funds furnished or to be furnished by the owner or lender or any other person as a fund from which to pay construction costs or arising out of a construction or building loan, a notice similar to the one provided for in subdivision

(a) of this section, whereupon the person so given such notice under this subsection may withhold funds to answer such claims and any lien that may be filed therefor, but shall be under no obligation to do so unless a bond is furnished as hereinafter provided.

If such person entitled to file such claim under this subsection files with the person holding such funds as a fund from which to pay such construction costs, a bond with good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, undertaking that if the defendant recovers judgment in an action brought on said verified claim or on the lien filed by the claimant, the lien claimant will pay all costs that may be awarded against the owner, contractor, or person holding such funds, or any of them, and all damages that such owner, contractor, or person holding such funds may sustain by reason of the equitable garnishment effected by the claim or by reason of the lien, not exceeding the sum specified in the undertaking, then the person holding such funds must withhold from the borrower or other person to whom said owner may be obligated to make payments or advancements out of said fund sufficient money to answer such claim, and any lien that may be filed therefor. No assignment by the owner or contractor of construction loan funds, whether made before a verified claim is filed, or after such claim is filed shall be held to take priority over claims filed under this subsection (h) and such assignment shall have no binding force insofar as the rights of claimants who file claims hereunder are concerned.

Disputed claims

(i) If the contractor, subcontractor, or any other person against whom any claim is filed under subsection (h) above, or if the owner, mortgagee, beneficiary under deed of trust, escrow holder or any other person, disputes the correctness or validity of any claim so filed on private construction work, the contractor, subcontractor, owner or any such other person disputing such claim, may file with the custodian of such fund a bond executed by good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, which bond shall guarantee the payment of any sum not exceeding the penal obligation of the bond, which the claimant may recover on the claim, together with his costs of suit in the action, if he recovers therein. Upon the filing of such last mentioned bond the funds withheld to respond to the verified claim shall forthwith be released.

Exemptions: Public or bonded work

(j) Subsections (h) and (i) above shall not apply to public work; nor shall either of such sections be applicable if in connection with a private work of improvement any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such Section 1185.1, and has been filed in the office of the county recorder at any time prior to the filing of the first verified claim or notice to withhold.

Service on branch manager

(k) To be effective any verified claim or notice to withhold filed under subsection (h) served upon a banking corporation or association, building and loan association, title insurance

company, escrow holder or other person holding such construction funds, and maintaining branch offices must be given to or served upon the manager or other responsible officer or person at the office or branch thereof administering or holding such construction funds.

(*l*) Any verified claim or notice to withhold may be served by registered mail with the same effect as by personal service. Service by mail

(m) If the person holding the funds objects to the sufficiency of the sureties on the bond referred to in subsection (h) above, he must give notice in writing to the claimant within 20 days after the service of the notice provided for in subsection (h) that he so objects, in which event the claimant may within 10 days after the receipt of such written objection substitute for the bond so objected to a similar bond in like amount executed by a corporate surety licensed to write such bonds in the State of California, and if the claimant fails to do so the party served with such verified claim or notice to withhold may disregard the same and release all funds withheld in response thereto. Objection to sufficiency of sureties

The people of the State of California do enact as follows:

SECTION 1. Section 13657 is added to the Education Code, to read as follows:

In effect September 22, 1951

[Approved by Governor July 7, 1951. Filed with Secretary of State July 9, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 13653 of the Education Code is amended to read:

Re-employment. Effect of absence

13653. If the services of any probationary employee are terminated, or if such employee is dismissed, because of a reduction in the attendance of pupils or the discontinuance of a particular kind of service, and such employee is re-employed within a period of 39 months from the last day of the school year within which his service was so terminated, or within 39 months after the cessation of hostilities, if such reduction in attendance or discontinuance of service was due to war conditions, the period of his absence shall not count as a part of the service required as a condition precedent to the classification of such employee as a permanent employee of the district, but such absence shall not be construed as a break in the continuity of the service of such employee.

Every such probationary employee who has been re-employed as indicated in this section shall have all of the rights enumerated in this article for permanent employees, except the right of reappointment, subject only to the prior rights of permanent employees.

The provisions of this section shall apply to any probationary employee who shall be or who shall have been dismissed or terminated after January 1, 1949, because of reduction in attendance or discontinuance of a particular kind of service.

CHAPTER 1386

An act to amend Sections 13204.1 and 14495.1 of the Education Code, relating to certificated employees in military service.

[Approved by Governor July 7, 1951. Filed with Secretary of State July 9, 1951.]

In effect September 22, 1951

The people of the State of California do enact as follows:

SECTION 1. Section 13204.1 of the Education Code is amended to read:

Effect of absence for military service

13204.1. Every person employed by a school district as a probationary or permanent employee in a position requiring certification qualifications who enters the active military service of the United States of America or of the State of California, including active service in any uniformed auxiliary of, or to, any branch of such military service, created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the service of the United States Merchant Marine, or in full-time paid service of the American Red Cross, during any period of national emergency declared by the President of the United States of America or during any war in which the United States of America is engaged, shall be entitled to absent himself from his duties as an employee of the district.

Such absence shall not affect in any way the classification of such employee. In the case of a probationary employee, the period of such absence shall not count as part of the service required as a condition precedent to the classification of such employee as a permanent employee of the district, but such absence shall not be construed as a break in the continuity of the service of such employee for any purpose.

The dismissal or termination of any probationary employee because of reduced attendance due to war conditions, after his entry into the active military service or service in the American Red Cross, shall not deprive him of any of the benefits of this section.

Within six months after such employee honorably leaves such service or has been placed on inactive duty he shall, subject to the provisions of this section, be entitled to return to the position held by him at the time of his entrance into such service, at the salary to which he would have been entitled had he not absented himself from the service of the school district under this section.

If such employee was employed under a lawful contract for a period in excess of one year in a position in which he had not become a permanent employee of the district, he shall be entitled to return to such position for the period his contract of employment had to run at the time he entered such service. Notwithstanding any provision of this code to the contrary, a person employed to take the place of any such employee shall

not have any right to such position following the return of such employee to the position.

SEC. 2. Section 14495.1 of the Education Code is amended to read:

Subsequent payment of contributions

14495.1. Notwithstanding anything in Section 14495 to the contrary if any member of the Retirement System rendering any service for which credit is allowed under Section 14449 does not pay, while rendering such service, the contributions to the Permanent Fund and to the Retirement Annuity Fund provided for in Section 14495, and if said member does not qualify under Section 14495.2, the contributions shall be paid by him directly to the Retirement System or deducted from his salary payments at the rate of fifty dollars ($50) or at the rate of 20 percent of such contributions, whichever is the greater, during each successive period of 12 months following his return to duty in a position requisite to membership in the Retirement System; provided, that all contributions required to be made to the Retirement Annuity Fund and all contributions required to be made to the Permanent Fund on account of service rendered on or after July 1, 1944, shall be paid before retirement.

CHAPTER 1387

An act to amend Section 16091 of the Education Code, relating to readers for blind students, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 7, 1951. Filed with Secretary of State July 9, 1951.]

The people of the State of California do enact as follows:

SECTION 1. Section 16091 of the Education Code is amended to read:

Expenditures for readers

16091. Whenever any blind person with the approval of the principal of the California School for the Blind and with the proper educational and moral qualifications regularly matriculates, enters, and works for a degree, or for a diploma of graduation, in any university, college, or state college in this State, the Director of Education may provide, from any funds appropriated for the purpose or appropriated for the support of the California School for the Blind, a reader to assist him in his studies. No more than seven hundred fifty dollars ($750) per annum shall be expended for the instruction of any one student, except that for graduate students no more than nine hundred dollars ($900) shall be expended for the instruction of any one student.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health, and safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into imme-

diate effect. A statement of the facts constituting such necessity is as follows:

Increased costs for the compensation of readers for blind students have materially reduced the number of hours of assistance that blind students may have from readers under the limitations of the present law. In order that blind students may continue to have the assistance which was originally intended and provided for them, and in order to provide for the extra needs of graduate students, all presently attending colleges and universities, and thus to avoid the working of a serious hardship upon such blind students at the present time, it is necessary that this act take effect immediately.

CHAPTER 1389

An act to add Sections 258.1 and 259.1 to the Vehicle Code, relating to operators of school busses and temporary issuance of chauffeurs' licenses therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 7, 1951. Filed with Secretary of State July 9, 1951.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 258.1 is added to the Vehicle Code, to read:

258.1. Chauffeurs' Licenses for School Bus Drivers During Existing National Defense Emergency. Chauffeurs' licenses may be issued to persons 17 years of age or over permitting such persons to drive school busses. Age requirement

SEC. 2. Section 259.1 is added to said code, to read:

259.1. Age of School Bus Drivers During Existing National Defense Emergency. It is unlawful for any person under the age of 17 years to drive a school bus transporting pupils to or from school. Same Unlawful acts

Duration

SEC. 3. The sections of the Vehicle Code added by this act shall remain in effect until the ninety-first day after the final adjournment of the 1953 Regular Session of the Legislature or until the termination of the existing national defense emergency as evidenced by cessation of compulsory military service in the Armed Forces of the United States by citizens of this State, and as found and declared by proclamation issued by the Governor, whichever first occurs. While these sections are in effect they shall supersede any existing provisions of law which are in conflict with these sections; but such provisions are not repealed by these sections and after these sections are no longer effective shall have the same force as though these sections had not been enacted.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is the custom in many school districts to employ 18- and 19-year-old student drivers of school busses This custom results in the saving of about half the expense of operating such busses by employing as the school bus driver the student otherwise qualified living the farthest from the school on a particular route so that he may pick up other students on his route while he drives to school and discharge them on his return home. Because of the drafting, or imminent drafting, of 18- and 19-year-old students in the present national defense emergency, it is becoming difficult to furnish adequate school transportation service, and the situation will be extremely critical in many school districts by the opening of schools this fall unless 17-year-old student drivers can be made available by that time.

CHAPTER 1390

An act to add Section 585.4 to the Vehicle Code, relating to the removal of vehicles parked upon streets or highways by local authorities.

locate the same; but such must be located in a manner which will be most compatible with the greatest public good and the least private injury. The district, or its agents in charge of such public use may enter upon such lands and make examinations, surveys, and maps thereof, and such entry shall constitute no cause of action in favor of the owners of such land, except for injuries resulting from negligence, wantonness, or malice.

Eminent domain

SEC. 6. The district shall have and may exercise the right of eminent domain, either within or without said district, and in the manner provided by law for the condemnation of private property for public use, to take any property necessary to carry out any of the objects or purposes of this act, whether such property be already devoted to any public use by any district or other public corporation, or agency, or otherwise; provided, however, that the district in exercising such power shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal or relocation of any structure, railways, mains, pipes, conduits, wires, cable, poles, of any public utility which is required to be moved to a new location; and provided further, that notwithstanding any other provision of this act or any other law, no property shall be taken unless it is taken upon a finding by a court of competent jurisdiction that the taking is for a more necessary public use than that to which it has already been appropriated. The district shall also have and may exercise the right to condemn any existing works or improvements in said district or along streams flowing into said district now or hereafter used to control flood or storm waters, or to conserve such flood or storm waters or to protect any property in said district or along streams flowing into said district from damage from such flood or storm waters, and it is hereby declared that the use of the property, lands, rights of way, easements, or materials which may be condemned, taken or appropriated under the provision of this act is a public use subject to the regulation and control of the State in the manner prescribed by law; provided, however, that nothing in this act contained shall be deemed to authorize said district, or any person or persons to divert the waters of any river, creek, stream, irrigation system, canal or ditch, from

its channel, to the detriment of any person, or persons having any interest in such river, creek, stream, irrigation system, canal or ditch, or the waters thereof or therein, unless compensation therefor be first provided in the manner provided by law.

The power of eminent domain vested in the district shall include the power to condemn in the name of the district either the fee simple or any lesser estate, easement, or interest in any real property which the board of supervisors of the district by resolution shall determine is necessary for carrying out the purposes of this act. Such resolution shall be prima facie evidence that the taking of such fee simple or any lesser estate or easement, or interest as the case may be, is necessary.

Whenever real property which is devoted to or held for some other public or quasi-public use is required by the district for flood or storm water control or water conservation purposes, the district may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property required by the district as aforesaid for flood control or water conservation purposes.

"Board," "board of supervisors"

SEC. 7. The Board of Supervisors of Santa Clara County shall be and is hereby designated as, and empowered to act as, ex officio the Board of Supervisors of the Santa Clara County Flood Control and Water Conservation District. As used elsewhere in this act the terms "board" and "board of supervisors" mean the Board of Supervisors of the Santa Clara County Flood Control and Water Conservation District.

All ordinances, resolutions and other legislative acts for said district shall be adopted by said board of supervisors, and certified to, recorded and published, in the same manner, except as herein otherwise expressly provided, as are ordinances, resolutions or other legislative acts for the County of Santa Clara.

SEC. 9. The board shall have power to make and enforce all needful rules and regulations for the administration and government of the district, and to appoint and employ all need-

ful agents, superintendents, engineers, attorneys, and employees to properly look after the performance of any work provided for in this act and to operate and maintain said works, and to perform all other acts necessary or proper to accomplish the purposes of this act.

In addition to the officers and employees herein otherwise prescribed, the board may in its discretion appoint a chairman, a secretary and such other officers, agents and employees for the board or district as in its judgment may be deemed necessary, prescribe their duties and fix their compensation, which said officers, agents and employees so appointed shall hold their respective offices or positions during the pleasure of the board.

Employment of engineers to devise plan

SEC. 10. The board shall have jurisdiction and power by resolution to employ competent registered civil engineers to investigate and carefully devise a plan or plans to control the flood and storm waters of the district, and the zones thereof, and the flood and storm waters of streams that have their sources outside of said district but which streams and the flood waters thereof flow into said district, and to conserve such waters for beneficial and useful purposes by spreading, storing, retaining or causing to percolate into the soil within or without the district, or to save or conserve, store, and distribute in any manner, any or all of such waters, and to protect the public highways, life and property within the district, and the watercourses and watersheds of streams flowing into the district, from damage relating to such waters; and to obtain such other information in regard thereto as may be deemed necessary or useful for carrying out the purposes of this act; and such resolution may direct such engineer or engineers to make and file reports from time to time with the board, which shall show:

Reports

1. A general description of the work proposed to be done, together with general plans, profiles, cross-sections, and general specifications relating thereto, on each project or work of improvement.

2. A general description of the lands, rights of way, easements and property proposed to be taken, acquired or injured in carrying out said work.

3. A map or maps which shall show the location and zones, as may be required, of each of said projects or improvements, and lands, rights of way, easements and property to be taken, acquired or injured in carrying out said work, and any other information in regard to the same that may be deemed necessary or useful.

4. An estimate of the cost of each project or work of improvement, including an estimate of the cost of lands, rights of way, easements and property proposed to be taken, acquired or injured in carrying out said project or work of improvement, and also of all incidental expenses likely to be incurred in connection therewith, including legal, clerical, engineering, superintendence, inspection, printing and advertising, and stating the total amount of bonds, if any, necessary to be issued to pay for the same.

Such engineer or engineers shall from time to time and as directed by the board file with the board supplementary, amendatory and additional reports and recommendations, as necessity and convenience may require.

Such engineer or engineers, employed by the board, shall have power and authority, subject to the control and direction of said board, to employ such engineers, surveyors, and others, as may be required for making all surveys or doing any other work necessary for the making of such report.

The board may at any time remove any or all of the engineers or employees appointed or employed under this act, and may fill any vacancies occurring among them from any cause.

Determination of project

SEC. 11. The board shall determine which projects or works of improvement shall be carried out and shall determine, as to each project or work of improvement, that it is either:

1. For the common benefit of the district as a whole; or

2. For the common benefit of two or more zones hereinafter referred to as participating zones; or

3. For the benefit of a single zone.

Institution of projects in zones

SEC. 12. The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zones or participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication once a week for two consecutive weeks prior to said hearing, the last publication of which notice must be at least seven (7) days before said hearing, in a newspaper of general circulation designated by the board, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of said joint project may be seen by any interested person; said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing written protests against the proposed project signed by a majority in number of the registered voters

residing within such zone or participating zones be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

Advisory committee

SEC. 12.5. Whenever the board institutes a project for a single zone or a joint project for two or more zones, it shall appoint, for each zone, at the time of the adoption of its resolution of intent, an advisory committee of three persons who are property owners residing in the zone for which they are appointed, to represent before the board the residents and property owners of that zone. Each person so appointed shall be permitted to attend every meeting of the board in which any matter affecting his zone is discussed or considered. The board shall not discuss or consider any matter which affects any zone unless each member of the advisory committee for that zone has been notified in writing as to the time and place of the meeting at least five days before the meeting. Vacancies in the advisory committees shall be filled by appointment by the board.

SEC. 13. The board shall have power, in any year:

Tax levies

1. To levy ad valorem taxes or assessments upon all property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district, and

2. To levy taxes or assessments upon all property in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones.

3. To levy taxes or assessments upon all property in each or any of said zones, according to the special benefits derived or to be derived therein to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zones.

In the event of project cooperation with any of the governmental bodies as authorized in subdivision 7 of Section 5 of this act, and the making of a contract with any such governmental body for the purposes set forth in said subdivision 7, by the terms of which work is agreed to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by said contract it is agreed that the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may levy and collect a special tax or assessment upon the property in such zone or participating zones, whereby to raise funds to

enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district taxes or assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of subdivision 2 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

Bonds

SEC. 14. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution, determine and declare the respective amounts of bonds in order to raise the amount of money necessary for each work or improvement and the denomination and rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the recorder of Santa Clara County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

Election

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied upon the property situated within the zone or participating zones, and all such property shall be and remain liable to be taxed or assessed for such payments as provided in this act.

Same

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by

said board, and on file for particulars; and said ordinances shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and what part or installment of such indebtedness shall be paid each and every year, and which shall not in any one year be less than one-fortieth (1/40) of the whole amount of the principal and interest of such indebtedness, and the rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed five percent (5%) per annum. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the State.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published in a newspaper of general circulation circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

Effect of irregularities

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. If at such election two-thirds (⅔) of the votes cast are in favor of incurring such bonded indebtedness, then bonds for such zone or participating zones for the amount stated in such proceedings shall be issued and sold as in this act provided.

Form, terms, etc

SEC. 15. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zones affected,

and of the interest coupons attached thereto. Said bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The bonds shall be issued in such denominations as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of five per centum (5%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of said district, and the seal of said district shall be affixed thereto by the clerk of the board. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his engraved or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Issue and sale

SEC. 16. The board may issue and sell the bonds of such zones authorized as hereinbefore provided at not less than par value, and the proceeds of the sale of such bonds shall be placed in the treasury of the County of Santa Clara to the credit of said district and the respective participating zones thereof, for the uses and purposes of the zone, or zones voting said bonds; and the proper record of such transactions shall be placed upon the books of said county treasurer, and said respective zone funds shall be applied exclusively to the purposes and objects mentioned in the ordinance calling such special bond election as aforesaid, subject to the provisions in this act contained. Payments from said zone funds shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the County of Santa Clara.

Security, deposit, registration

SEC. 17. Any bonds issued under the provisions of this act shall be a lien upon all property of the zone or zones of issuance, and the lien for the bonds of any issue shall be a preferred lien to that of any subsequent issue. Said bonds and the interest thereon shall be paid by revenue derived from an annual tax or assessment upon all property within said zone or participating zones and all property in said zone or participating zones shall be and remain liable to be taxed or assessed for such payments as hereinafter provided. No zone nor the property therein shall be liable for the share of bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessment in any of the several zones be used in

payment of principal or interest or otherwise of the share of bonded indebtedness chargeable to any other zone.

Said bonds may be deposited and registered with the treasurer of the county, and it shall be an official duty of said treasurer to receive and register said bonds in the name of the holder and to keep a sufficient book of registry thereof setting forth a description of the bonds and the names and addresses of the respective holders, and to give each holder of such bonds so registered a receipt therefor; that said receipts shall be personal to the respective holders and not transferable. That such bonds shall be returned to such holders thereof or in case of death to the duly appointed personal representative of the holder's estate, upon the giving of receipt therefor, with or without return of the receipt given by the treasurer at the time of such deposit and registry. And the treasurer, at the request of such holder, or such personal representative, may detach and deliver to such holder or personal representative, mature coupons from time to time, first taking receipts therefor.

Tax to pay interest, principal

SEC. 18. The board shall levy a tax or assessment each year upon all property in the zone or zones of issuance sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such taxes or assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Santa Clara County to the credit of the zone of payment, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said Santa Clara County in the manner provided by law for the payment of principal and interest on bonds of said county.

Applicable laws

SEC. 19. The provisions of law of this State, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof.

1951-52 assessments, equalization

SEC. 20. Notwithstanding Section 54903 of the Government Code, the Santa Clara County Flood Control and Water Conservation District is validly created for the purposes of assessment and taxation. The creation of any zone in the Santa Clara County Flood Control and Water Conservation District shall not be effective for purposes of assessment or taxation for the Fiscal Year 1950-1951 and shall not be effective for such purposes for any fiscal year thereafter unless the statement and map or plat required by Section 54903 of the Government Code are filed with the county assessor and the State Board of Equalization on or before the first of February of

the year in which the assessments or taxes are to be levied. Until such time as the creation of any zone shall be effective for purposes of assessment or taxation, any tax or assessment levied by the board shall be levied at a uniform rate on all property in the Santa Clara County Flood Control and Water Conservation District.

For the Fiscal Year 1951-1952, but for no other fiscal year, notwithstanding Section 19 of this act, the assessment and equalization of property for the purpose of district taxation shall be effected as provided in this section.

Assessments of the district for the Fiscal Year 1951-1952 are liens on the property the same as if they were county taxes, except that the district assessment liens attach as of noon on the day after this act becomes effective.

It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the Fiscal Year 1951-1952 are the correct assessments for purposes of assessment by the district and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and collecting the assessments for the district. If the ownership or taxable situs or value of any property changes between noon on the first Monday in March, 1951, and the date on which attaches the lien for assessments of the district for the Fiscal Year 1951-1952, then, on petition of the taxpayer affected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of assessment by the district.

In equalizing the assessments made by the county assessor, the Board of Supervisors of Santa Clara County, sitting as the county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of assessment by the district in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

If, for purposes of assessments by the district, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes, is conclusively presumed to be the correct assessment for assessment purposes of the district.

The board may prescribe by ordinance any necessary procedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying, and collecting taxes or assessments for the district for the Fiscal Year 1951-1952. Except as provided in this section, Section 19 of this act is applicable to

the assessment and equalization of property for the purpose of district assessments for the Fiscal Year 1951-1952.

Legal investment

SEC. 21. The bonds of the district issued for any zone or zones thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds of said district issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any act, such bonds of said district may be so used.

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained, and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

Tax exemption

SEC. 22. All bonds issued by said district under the provisions of this act shall be free and exempt from all taxation within the State of California. 1203. After the conviction by plea or verdict of guilty of a public offense not amounting to a felony, in cases where discretion is conferred on the court or any board or commission or other authority as to the extent of the punishment, the court, upon application of the defendant or of the people or upon its own motion, may summarily deny probation, or at a time fixed may hear and determine in the presence of the defendant the matter of probation of the defendant and the conditions of such probation, if granted. If probation is not denied, and in every felony case in which the defendant is eligible for probation, before any judgment is pronounced, and whether or not an application for probation has been made, the court must immediately refer the matter to the probation officer to investigate and to report to the court, at a specified time, upon the circumstances surrounding the crime and concerning the defendant and his prior record, which may be taken into consideration either in aggravation or mitigation of punishment. The probation officer must thereupon make an investigation of the circumstances surrounding the crime and of the prior record and history of the defendant, must make a written report to the court of the facts found upon such investigation, and must accompany said report with his written recommendations, including his recommendations as to the granting or withholding of probation to the defendant and as to the conditions of probation if it shall be granted. The report and recommendations must be filed with the clerk of the court as a record in the case. At the time or times fixed by the court, the court must hear and determine such application, if one has been made, or in any case the suitability of probation in the particular case, and in connection therewith must consider any report of the probation officer, and must make a statement that it has considered such report which must be filed with the clerk of the court as a record in the case. If the court shall determine that there are circumstances in mitigation of punishment prescribed by law, or that the ends of justice would be subserved by granting probation to the defendant, the court shall have power in its discretion to place the defendant on probation as hereinafter provided; if probation is denied, the clerk of the court must forthwith send a copy of the report and recommendations to the Department of Corrections at the prison or other institution to which the defendant is delivered.

Probation shall not be granted to any defendant who shall have been convicted of robbery, burglary, burglary with explosives, rape with force or violence, arson, murder, assault with intent to commit murder, attempt to commit murder, train wrecking, kidnaping, escape from a state prison, conspiracy to commit any one or more of the aforementioned felonies, and who at the time of the perpetration of said crime or any of them or at the time of his arrest was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same), nor to a defendant who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he was convicted, nor to one who in the perpetration of the crime of which he was convicted wilfully inflicted great bodily injury or torture, nor to any defendant unless the court shall be satisfied that he has not been twice previously convicted of felony in this State nor twice previously convicted in any other place or places of public offenses which would have been felonies if committed in this State; nor to any defendant convicted of the crime of robbery, burglary of the first degree, burglary with explosives, rape with force or violence, arson, murder, attempt to commit murder, assault with intent to commit murder, train wrecking, extortion, kidnaping, escape from a state prison, violation of Sections 286, 288 or 288a of this code, or conspiracy to commit any one or more of the aforesaid felonies, unless the court shall be satisfied that he has never been previously convicted of a felony in this State nor previously convicted in any other place of a public offense which would have been a felony if committed in this State; nor to any defendant unless the court shall be satisfied that he has never been previously convicted of a felony in this State nor convicted in any other place of a public offense which would have been a felony if committed in this State and at the time of the perpetration of said previous offense or at the time of his arrest for said previous offense he was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same) or he personally used or attempted to use a deadly weapon upon a human being in connection with the perpetration of said previous offense or in the perpetration of said previous offense he wilfully inflicted great bodily injury or torture; nor to any public official or peace officer of the State, county, city, city and county, or other political subdivision who, in the discharge of the duties of his public office or employment, accepted or gave or offered to accept or give any bribe or embezzled public money or was guilty of extortion. No probationer shall be released to enter another state of the United States, unless and until his case has been referred to the California Administrator, Interstate Parole Compacts, pursuant to the Uniform Act for Out-of-State Parolee Supervision. Limitations

In those cases in which the defendant is not eligible for probation, the judge may in his discretion refer the matter to the probation officer for an investigation of the facts relevant to

sentence. The probation officer must thereupon make an investigation of circumstances surrounding the crime and the prior record and history of the defendant and make a written report to the court of the facts found upon such investigation.

SEC 20. Notwithstanding Section 54903 of the Government Code, the Napa County Flood Control and Water Conservation District is validly created for the purposes of assessment 1951-52 taxation

and taxation. The creation of any zone in the Napa County Flood Control and Water Conservation District shall not be effective for purposes of assessment or taxation for the Fiscal Year 1950-1951 and shall not be effective for such purposes for any fiscal year thereafter unless the statement and map or plat required by Section 54903 of the Government Code are filed with the county assessor and the State Board of Equalization on or before the first of February of the year in which the assessments or taxes are to be levied. Until such time as the creation of any zone shall be effective for purposes of assessment or taxation, any tax or assessment levied by the board shall be levied at a uniform rate on all property in the Napa County Flood Control and Water Conservation District.

For the Fiscal Year 1951-1952, but for no other fiscal year, notwithstanding Section 19 of this act, the assessment and equalization of property for the purpose of district taxation shall be effected as provided in this section.

Assessments of the district for the Fiscal Year 1951-1952 are liens on the property the same as if they were county taxes, except that the district assessment liens attach as of noon on the day after this act becomes effective.

It is presumed that the assessments of property made by the county assessor and by the State Board of Equalization for county taxation purposes for the Fiscal Year 1951-1952 are the correct assessments for purposes of assessment by the district and the rolls prepared by the county assessor and the State Board of Equalization shall be used for purposes of levying and collecting the assessments for the district. If the ownership or taxable situs or value of any property changes between noon on the first Monday in March, 1952, and the date on which attaches the lien for assessments of the district for the Fiscal Year 1951-1952, then, on petition of the taxpayer affected to the assessing authority, suitable entry shall be made on the assessment roll, in the manner prescribed by the State Board of Equalization, to indicate such change in the ownership or taxability or value of the property for purposes of assessment by the district.

Equalization of assessments

In equalizing the assessments made by the county assessor, the Board of Supervisors of Napa County, sitting as the county board of equalization, in addition to its regular equalization duties, shall also, in the same manner and under the same rules, equalize the valuation of property for purposes of assessment by the district in accordance with the requirements of this section and any such changes made by the county board of equalization in the assessment roll shall be entered in the manner prescribed by the State Board of Equalization.

If, for purposes of assessments by the district, a change in the assessment for county taxation purposes is not sought under this section before the end of the period during which such assessment may be equalized, or corrected on a petition for reassessment, such assessment, if valid for county taxation purposes,

is conclusively presumed to be the correct assessment for assessment purposes of the district.

The board may prescribe by ordinance any necessary pro- Procedure
cedure, in accordance with the policy of this act, for the purpose of assessing, equalizing, levying, and collecting taxes or assessments for the district for the Fiscal Year 1951-1952. The board shall make call for bids and advertise such call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. Such call for bids shall state whether such work is to be performed as a unit for the whole thereof or shall be divided into severable convenient specific parts, or both, as stated in the call. The board may let such work by single contract for the whole thereof as a unit or it may divide such work
