Validity of bonds

56077. The validity of the bonds after their issuance shall not be questioned in any court except upon the ground that the provisions of this chapter authorizing their issuance are unconstitutional, or that the required hearing regarding the formation of the district was not legally held or proper notice of it was not given.

Bonds: Form and contents

56078. The district board shall prescribe by resolution the form of the bonds, and interest coupons. The bonds shall be payable at such times and at a place to be fixed by the board, and designated in the bonds, together with interest on all sums unpaid on that date until the whole of the indebtedness has been paid. The term of bonds issued shall not exceed 40 years.

part thereof, the legislative body shall give notice not less than 10 days prior to the date of sale by publication in a newspaper of general circulation circulating in the district inviting sealed bids in such manner as the legislative body shall prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the legislative body determines that the bids received are not satisfactory as to price or responsibility of the bidders, the legislative body may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

Disposition of proceeds

All premiums and accrued interest received shall be paid into the fund to be used for the payment of principal and interest on the bonds and the remainder of the proceeds of the sale shall be paid into the construction fund of the district, and proper records of the transactions shall be placed upon the books of the treasurer.

Construction fund

56083. The construction fund shall be applied exclusively to the purposes and objects mentioned in the resolution calling the bond election.

Payments from the construction fund shall be made upon the demands allowed by the district board, and prepared, presented and audited in the same manner as demands upon the funds of the county.

Additional bonds

56086. If bonds have been issued by the district and the proceeds of the sale have been expended, and the district board by resolution passed by a vote of four-fifths of all its members determines that the public interest or necessity of the district demands the issuance of additional bonds for carrying out any of the objects of the district, the district board may again have a report made, and submit to the voters the question of issuing additional bonds in the same manner as for a first issue. All the provisions of this chapter for the issuance and sale of bonds, and for the expenditure of the proceeds, apply to the issuance of additional bonds.

Payment

56087. Divisions or series

(2) The board of directors of any district issuing any bonds heretofore or hereafter authorized may, in its discretion, divide the aggregate principal amount of such issue into two or more divisions or series and fix different dates for the bonds of each separate division or series. In the event any authorized issue is divided into two or more divisions or series, the bonds of each division or series may be made payable at such time or times as may be fixed by the legislative body of the district separate and distinct from the time or times of payment of bonds of any other division or series of the same issue.

When bonds payable

56089. Bonds may be made payable on a date subsequent to the time fixed for the collection of the second installment of general district taxes with which the first levy of taxes for the payment of the principal and interest of said bonds is to be collected. In such event, the first interest coupons shall be for interest from the date of said bonds of such issue or series or division to the maturity date of said coupons.

Special proceeding

56090. If the result of any election upon the question of the issuance of bonds is in favor of issuance, the board may, in its discretion, commence in the superior court of the county, a special proceeding to determine its right to issue the bonds and their validity, similar to the proceeding in relation to irrigation bonds, provided for by the "Irrigation District Law," and all supplementary acts, and all their provisions apply to and govern the proceedings to be commenced by the board, so far as applicable.

The judgment has the same effect as a judgment in relation to irrigation bonds under the provisions of that act.

The people of the State of California do enact as follows:

SECTION 1. Article 2.2 is added to Chapter 4 of Title 7 of the Government Code, to read:

Article 2.2. Adminstration of Precise Plans or Zoning Regulations of Counties

Board of zoning adjustment, etc

65890. This article provides an alternative procedure for the establishment and functioning of a board of zoning adjustment or the office of zoning administrator for the performance of administrative functions, powers and duties in the application and enforcement of precise plans and zoning regulations of counties.

Creation

65891. In each county there may be created a board of zoning adjustment and the office of zoning administrator.

Nomination, etc.

65892. The board of zoning adjustment, or a zoning administrator, shall be nominated by the county planning commission and appointed by the board of supervisors.

Membership

65893. The board of zoning adjustment shall consist of three members of the county planning commission whose terms of office shall be fixed by the board of supervisors. Any member of the board of zoning adjustment may be removed by a majority vote of the board of supervisors.

Declaration of need for board

65894. The board of zoning adjustment or the zoning administrator shall not exercise any of the powers authorized under this article until or unless the board of supervisors of the county in which it is situated, by ordinance, declares that there is need for such board of zoning adjustment or the zoning administrator to function in such county.

Hearing

65895. The board of supervisors at any time on its own motion may hold a public hearing to determine whether or not there is need for the board of zoning adjustment or zoning administrator to function. The board of supervisors shall give notice of the time and place of such public hearing by publication once in a newspaper of general circulation not less than 10 days before the date fixed for such hearing.

Resolution declaring need

65896. Upon adoption by the board of supervisors of a resolution declaring that there is need for a board of zoning adjustment, or a zoning administrator, to function, the board of zoning adjustment, or the zoning administrator, in that county shall in appropriate cases and subject to appropriate

conditions and safeguards as provided by the county zoning ordinance, hear and decide:

Powers of board

(a) Applications for special exception, conditional uses or other permits of any kind or nature;

(b) In specific cases, applications for variances from terms of the ordinance as will not be contrary to its intent or to the public interest, safety, health, and welfare, and where due to special conditions or exceptional characteristics of such property, or its location or surroundings, a literal enforcement of the ordinance would result in practical difficulties or unnecessary hardships;

(c) Hear and decide appeals where it is alleged by the appellant there is error in any order, requirement, permit, decision, or determination made by any county official, other than a member of the planning commission or board of supervisors, in the administration or enforcement of the precise plans or zoning regulations of the county.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts concerning such necessity are:

The present law prohibiting appeals from the decisions of boards of zoning adjustment or zoning administrators has restricted the use of such boards causing a consequent burden-

some work load consisting of minor matters which has interfered with the usefulness of planning commissions and has caused such commissions to be delayed in their major purposes of preparing comprehensible master plans for counties. In order that a method of appealing from the decisions of boards of adjustment can be created and the work load of planning commissioner relieved and the preparation of master plans expedited, it is necessary that this act take effect immediately.

The department shall prepare suitable licenses entitling the holder thereof to cultivate shellfish, subject to the provisions of this code, for a term of one year from July 1st to June 30th, or, if issued after the beginning of such term, for the remainder thereof.

The annual fee for the license provided for in this section is twenty-five dollars ($25). The fee shall be paid into the Fish and Game Preservation Fund. It is further provided that any person engaged solely in the cultivation of shellfish and sale of cultivated shellfish, and who is not subject to any of the other requirements of Section 1010, does not require the license designated in Section 1010.

SEC. 2. Section 820 of said code is amended to read:

820. The commission may allot to any citizen of California unallotted state water bottoms upon which to exercise the exclusive privilege of planting shellfish and harvesting the same; provided, that minimal use of such state water bottoms as established by commission regulation or policy shall be conformed thereto. No unallocated state water bottoms shall be allocated unless the commission determines that such allotment is in the public interest. Any citizen of California desiring to acquire the exclusive privilege of planting, cultivating or harvesting shellfish on unallotted state water bottoms must make application to the commission so to do, designating the particular area or part thereof such person desires allotted for his use as aforesaid, said application to be accompanied by a map of the area desired, showing sufficient adjacent geography for ready placement, and the acreage of the area. Upon being declared abandoned, claim may be allotted to the first applicant applying, or by lot if several applications are received the same day; provided, that only applications conforming to the requirements of this section need be considered, and all improvements, betterments, buildings, and shellfish thereon shall be sold to the applicant at a price agreed upon between the applicant and the department. A claim shall be considered abandoned when the claim has not been operated in the cultivation of shellfish and the sale of cultivated shellfish therefrom for a period of two years. The transfer of such a claim shall not affect the running of such Allotments

two-year period. Allotments made under the provisions of this section are only for cultivating and harvesting shellfish and do not confer authority to conduct any activity which is not associated therewith. An allotment may be made for a period of not to exceed twenty-five (25) years and if, at the termination of the period of an allotment, the water bottom allotted is still subject to allotment the allottee shall have a prior right to the allotment of such bottom to him. All allotments shall be held subject to the power of the Legislature to increase or otherwise change the fees, taxes, and other charges relating to such allotments.

Any areas of state land in any of the bays of the State on which clams are now growing and which are used by the public for digging clams shall not be allotted as shellfish claims and shall remain open to the public for the purpose of digging clams. The department shall designate such areas.

The granting of a shellfish claim shall in no way affect public access for hunting and fishing to the state lands contained therein; provided, that access to such allocated state water bottoms for the purposes of hunting or fishing shall be only by boat floating on the surface of the water covering such lands and operated in such manner as to cause no untoward disturbance of such allocated state water bottoms or the oysters thereon.

Claims. Transfer

A claim may be transferred from one person or persons to another person or persons, eligible to file shellfish claims, upon receipt of application therefor accompanied by map and filing fee as provided herein above.

Markings

The tops of the stakes shall be painted white and shall show at least four feet above high water. In some conspicuous place on a shellfish claim a sign shall be displayed which shall be above high water and shall be not less than six feet in length and one foot in width, on which shall be painted in black letters upon a white ground the words "oyster beds" or "mussel beds" or such words as apply, under which shall appear the name of the person or persons holding the area; provided, that nothing herein contained shall be deemed to authorize any impediment or obstruction to the navigation of any channels. The allottee shall be considered as having complied with the posting requirement if after posting the claim he files with the nearest office of the department an affidavit that stakes and signs have been placed as required. If corner stakes or signs are destroyed or lost in any manner the allottee shall replace them within 30 days of receipt of notification from the department to do so. The commission may make such rules and regulations as it deems necessary to enforce the provisions of Sections 815 to 822 inclusive.

SEC. 3. Section 820.1 is added to said code, to read:

Additional rental fee

820.1. In addition to the fees provided for in this article, the allottee of a state shellfish claim shall pay an annual rental

of one dollar ($1) per each acre or part thereof for all state water bottoms allotted to him. The effective date of this section shall be October 1, 1955, at which time rentals on allocations then in effect shall be due for the period October 1, 1955, to September 30, 1956. Thereafter the rental period shall be from October 1st of any year to the following September 30th. For each of the first three years commencing October 1, 1955, the rental fee on shellfish claims which are in effect on that date shall be required only on acreage actually planted with shellfish at the beginning of each rental period, after which it is required on all acreage in such claims. For shellfish claims allocated after October 1, 1955, the rental fee shall apply only on areas actually planted on each of the first three due dates, after which it applies for the entire acreage. For the purposes of this section, any shellfish claim transferred from one person to another shall be considered as an existing claim, not as a new claim, and the rental shall be paid by the allottee of record on the due date.

Rental fees as provided herein shall be paid within 30 days of the due date. If not paid, the department shall give notice in writing to the allottee that rentals must be paid within 60 days. The commission may declare any allotment abandoned if the annual rental fees are not paid as provided.

The amounts received shall be paid into the Fish and Game Preservation Fund, and shall be expended according to Section 1019 of this code.

SEC. 4. Section 820.2 is added to said code, to read:

820.2. In determining the yield of Pacific oysters it shall be deemed that one hundred (100) oysters will yield one packed gallon of shucked oyster meat. Privilege tax

SEC. 5. Section 820.3 is added to said code, to read:

820.3. All privilege taxes provided for in this article shall be paid monthly to the department within 30 days after the close of each month. Blanks for the purpose of making privilege tax returns shall be supplied by the department. Same Payment

Any licensee operating under a license granted under Section 814 shall make such reports as may be required under Article 5, Division 4 of this code, whether or not under such article separately, he may or may not be so required.

CHAPTER 1269

An act to amend Section 3474 of the Welfare and Institutions Code, relating to aid to the blind, and introducing a responsibility of relatives scale directly into this part of the code.

In effect September 7, 1955

[Approved by Governor June 23, 1955. Filed with Secretary of State June 24, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 3474 of the Welfare and Institutions Code is amended to read:

Responsibility of relatives

3474. The board of supervisors or an agent designated by the board shall determine if the applicant or recipient of aid has within this State a spouse, parent, or adult child responsible to contribute to the support of the applicant or recipient of aid pursuant to the relatives' contribution scale of this section. A form shall be sent to the responsible relative requiring the information essential to a determination of the relative's liability to support under said scale.

If any applicant for or recipient receiving aid under provisions of this chapter has residing within the State a spouse, parent, or adult child, pecuniarily able to support him, upon the failure of such kindred to perform their duty to support the blind person the board of supervisors may request the district attorney or other civil legal officer of the county to proceed against the kindred in the order of their responsibility for support.

Court action

Upon such request the district attorney, or other civil legal officer of the county granting aid may, on behalf of the county, maintain an action in the superior court of the county granting such aid, against such relatives, in the order named: (1) to recover for the county such portion of the aid granted as the courts find such relative or relatives pecuniarily able to pay and (2) to secure an order requiring the payment to the county of any sums which may become due in the future for which the relative may be liable. The receipt of aid by the applicant under the provisions of this chapter, however, shall not be contingent upon such recovery or such order. The sums so recovered shall be credited by the county in its settlement with the State.

Determination of degree of liability

The board of supervisors directly or through an authorized agent shall determine the ability of responsible relatives to contribute to the support of applicant and designate the amount of aid, if any, to be granted. The maximum degree of liability of the responsible relative shall be determined by "relatives' contribution scale." Nothing in this section shall preclude the right of an applicant or recipient, or a responsible relative, from appealing directly to the board of supervisors concerning any determination made with respect to the degree of liability

of responsible relatives, or of the authority of the board of supervisors to reduce responsible relatives' payment below the amount specified in the scale, where the circumstances justify.

In determining ability to contribute, the financial circumstances of responsible relatives shall be given due consideration and in unusual cases, contributions at less than the amount fixed by "relatives' contribution scale" may be made as the board of supervisors may deem justifiable.

For purposes of this chapter, income of a responsible relative is defined as the sum of the income constituting the separate property of the responsible relative, the income (excluding earnings) which is community property subject to the direction and control of the responsible relative, and the earnings of the responsible relative, but not of his or her spouse.

In computing net income, a flat 20 percent allowance shall be permitted in lieu of a reduction for the actual amount of personal income taxes, unemployment insurance taxes and social security taxes.

A responsible relative who is self-employed shall also be allowed to deduct the expenses necessary for obtaining the income.

The provisions of the Elections Code relating to the qualification of electors, the manner of voting, the duties of election officers, the canvassing of returns, and all other particulars in respect to the management of general elections so far as they may be applicable shall govern the election of directors under this part. To the extent that the provisions of the Elections Code pertaining to the conduct of local elections are inconsistent with the provisions of that code pertaining to general elections, the provisions of the Elections Code pertaining to local elections shall control except that the qualification of electors shall be determined as are the qualifications of electors in the public agency involved. PART 5. INCLUSION AND ANNEXATION

(2) The governing body of any public agency, whether within or without the boundaries of the Counties of Alameda, San Benito or Santa Clara, may apply to the board of directors of the authority for consent to annex the corporate area

of such public agency to the authority. The board of directors may grant or deny such application and in granting the same may fix the terms and conditions of such proposed annexation. Such terms and conditions may provide, among other things, for the levy by the authority of special taxes upon taxable property within such public agency in addition to the taxes elsewhere in this act authorized to be levied by the authority, and in case such terms and conditions shall provide for the levy of such special taxes, the board of directors in fixing such terms and conditions shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum, and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed. A certificate of proceedings hereunder shall be made by the secretary of the authority and filed with the Secretary of State. (2) The board of supervisors of the principal county shall thereupon submit to the qualified electors of the authority at any general or special election held therein, the proposition of such dissolution in accordance with the general election laws, except as otherwise herein provided. Said election shall be noticed by publication once a week for three weeks in a news-

paper of general circulation in each of the counties wherein any portion of the authority lies. The cost of publication of the notice shall be paid by the principal county and shall be a county charge. The notice shall appear on at least three different days prior to the date of election, and the first publication shall be at least 15 days prior to the election. The board of supervisors of the principal county shall meet on the first Monday following the election and canvass the votes.

Winding up

SEC. 72. The board of supervisors of the principal county shall wind up the affairs of the dissolved authority and may do anything necessary to accomplish that purpose.

SEC. 73. If, upon dissolution, there are any outstanding obligations of the authority the board of supervisors of the principal county shall determine the amount of the assessments required to be levied to pay such outstanding obligations and the boards of supervisors of each county in which any part of the authority lies shall levy assessments sufficient to pay their respective proportion of the outstanding obligations.

Distribution of property

SEC. 74. Upon completion of the winding up of the affairs of the authority the real property of the authority shall become the property of the member agency of the authority in which such real property is situated. Real property of the authority situate outside the authority and the personal property of the authority shall be sold by the board of supervisors of the principal county and the proceeds of such sale and any other money of the authority remaining after the payment of all the obligations of the authority shall be paid to the general funds of the member agencies in the proportion which the assessed value of the land in such member agency bears to the total assessed value of land within the authority as determined by the last assessment rolls.

PART 8. OTHER PROVISIONS

Severability

SEC. 101. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Urgency

SEC. 102. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The public agencies within the area of water shortage in the Counties of Alameda, San Benito and Santa Clara must

take immediate action to organize in order to be in a position to make and complete applications to appropriate unappropriated waters originating outside said area before the possibility of securing such appropriative rights is lost forever. The end of local supplies of water for irrigation and industrial use is in sight and a shortage in domestic supply may follow. An outside source of water is absolutely vital to the people of the affected areas of these three counties. To protect the underground basin and to insure an adequate supply of pure water and so preserve the public health and safety the immediate availability of this act is essential, and this act is necessary as a special law for the reasons stated above and because there is no general law which can be made applicable thereto.

The people of the State of California do enact as follows:

SECTION 1. Section 616.1 of the Agricultural Code is amended to read:

CHAPTER 1291

An act to add Section 16444 to the Education Code, relating to the administering of poliomyelitis vaccine to pupils of the public school, declaring the urgency thereof, to take effect immediately.

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 16444 is added to the Education Code, to read:

16444. Anything to the contrary notwithstanding, the governing board of any school district shall cooperate with the

local health officer in measures necessary for the prevention and control of communicable diseases in school age children. For that purpose the board may use any funds, property, and personnel of the district, and may permit any person licensed as a physician and surgeon to administer an immunizing agent to any pupil whose parents have consented in writing to the administration of such immunizing agent.

The provisions of this section shall be retroactive to April 12, 1955.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

On April 12, 1955, public announcement was made by the National Foundation for Infantile Paralysis that the Salk poliomyelitis vaccine was found to be successful in preventing paralysis from poliomyelitis.

Since then many physicians and surgeons have volunteered their services in administering this vaccine to the pupils of the public schools in order that the beneficial effects thereof may be secured to children most susceptible to poliomyelitis. However, under existing law, there is considerable doubt whether school districts are authorized to use the funds, property and personnel of the district in the administering of this newly discovered vaccine, and whether the school districts may accept the services volunteered by members of the medical profession. In order that school districts may administer the vaccine to pupils of the public schools and accept the volunteered services of physicians and surgeons for that purpose at the earliest possible moment, it is necessary that this act take effect immediately.

SEC. 9. Section 4357 of said code is amended to read:

Economic factors: Distributors supplying restaurants, etc

4357. The director shall take into consideration the reasonably necessary cost of handling fluid milk or fluid cream, or both, incurred by distributors in hauling, processing, selling and delivering to restaurants, confectioneries or other places for consumption on the premises wherein it is required by law that service to customers be made from the original container or from milk-dispensing devices which have been approved for such use by the director in accordance with Section 461. In fixing the minimum wholesale price to be paid distributors by such persons, the director shall take into consideration such legal requirements and other reasonably necessary factors and distribution costs peculiarly affecting service to such persons, and if the director reasonably determines that such reasonably necessary factors and costs require that the minimum wholesale prices to be paid distributors by such persons vary from the minimum prices established for other wholesale customers, the prices established to be paid by such persons may vary accordingly. The prices established to be paid by such persons for milk sold in containers designed for use in milk-dispensing devices approved for such use by the director under Section 461 may vary from any of the minimum wholesale prices referred to in this section if the director reasonably determines that the necessary factors and costs involved in such sales require that these prices vary from any of the minimum wholesale prices referred to in this section. Minimum wholesale price schedules for fluid milk, fluid cream, or both, established by the director, may provide for quantity discounts, such discounts to be no more than those which give effect to delivery cost differences in the delivery of single orders of varying quantities of fluid milk, fluid cream, or both, to wholesale customers. Minimum retail price schedules for fluid milk, fluid cream, or both, established by the director for home delivery, may provide for either quantity discounts or delivery service charges, such discounts or service charges to be no more than those which give effect to delivery cost differences in the home delivery of single orders of varying quantities of fluid milk, fluid cream, or both, to retail consumers. Minimum retail price schedules for fluid milk, fluid cream, or both, established by the director for retail stores may provide for quantity discounts, such discounts to be no more than those which give effect to store handling cost differences in the sale of single orders of varying quantities of fluid milk, fluid cream, or both, to retail consumers.

Repeal

SEC. 10. Section 4358 of said code is repealed.

SEC. 11. Section 4359 of said code is amended to read:

Cost surveys

4359. The director shall make or cause to be made such cost surveys or examinations, or both, as are necessary in order to enable him to determine any changes in costs, and in accordance with the provisions of this article, after notice and public hearing called and held in the same manner prescribed in Section 4354, shall amend any minimum wholesale or minimum retail prices established under the provisions of this chapter in the event that he finds that any such price is, or that any such prices are, no longer in conformity with the standards prescribed therefor, or will not tend to effectuate the purposes of this chapter.

SEC. 12. Section 4360 of said code is amended to read:

Establishment of prices

4360. Following such hearings, investigation, surveys or examinations authorized above, the director shall establish minimum wholesale and minimum retail prices for such marketing area for distributors therein, and minimum retail prices for retail stores therein, which minimum wholesale and minimum retail prices shall be sufficient, but not more than reasonably sufficient, to cover costs, as such costs are described in Section 4355 of this code, according to method of distribution, and reasonable return upon necessary capital investment, and shown to the director by the facts available to the director from the hearings, investigation, surveys or examinations for such marketing area required in this chapter, and the director shall declare such prices effective in the same manner as that prescribed in this chapter for declaring producer prices effective; provided, however, that whenever the director shall determine from credible evidence that any prices established as hereinabove set forth will not or would not conform to and effectuate the legislative declarations, purposes and intent set forth in this chapter, then he shall instead establish minimum wholesale or minimum retail prices which are higher or lower than those sufficient to cover said costs and reasonable return on capital investment, upon the condition that he shall determine in his judgment and shall find in writing with respect to such higher or lower minimum prices:

(a) That such minimum prices will tend to maintain in the business of distributing fluid milk and fluid cream, or both, such reasonably efficient retail stores and distributors of fluid milk and fluid cream, or both, in such marketing area as the director finds necessary to insure to consumers in such marketing area sufficient distribution facilities to supply the quantity of fluid milk or fluid cream, or both, required by such consumers without requiring such consumers to pay more for their supplies of such fluid milk, or fluid cream, or both, than is necessary to maintain adequate and efficient distribution facilities in such marketing area.

(b) That such minimum prices will not tend to induce or authorize the development of unfair trade practices, unfair competition, conditions of monopoly or combinations in restraint of trade, and that such minimum prices will tend to

encourage the orderly and efficient marketing of fluid milk or fluid cream, or both.

SEC. 13. Section 4362 of said code is amended to read:

Distributor's price schedule Filing

4362. Every distributor in any marketing area wherein an order establishing minimum wholesale and minimum retail prices is in effect, except as otherwise herein provided, shall file with the director schedules and any amendments thereto setting forth the prices at which each such distributor is selling or offering or agreeing to sell fluid milk, fluid cream and dairy products, excluding butter, cheese other than cottage cheese, canned milk, powdered milk, casein and ice cream, in such marketing area. Such filings shall be made in such office of the director as he shall designate. Such prices shall not become effective until the fifth day after filing. Evidence of any sale of, or offer or agreement to sell such fluid milk, fluid cream or dairy products by a distributor, made as a part of, or in connection with the sale of, or offer or agreement to sell fluid milk and fluid cream, or both, in a marketing area where an order establishing minimum wholesale and minimum retail prices is in effect, at less than the prices theretofore filed with the director by such distributor pursuant to the provisions of this section, shall constitute prima facie proof of a violation of this section. Offers and agreements to sell, as used herein, shall include offers and agreements which are conditional, or which shall become effective, upon the filing thereafter of amended prices by the distributor making such offer. Upon receipt of such amendments, the director shall forthwith date, file and index the same in such manner that the information therein contained shall at all times be kept current and be readily available to any interested person desiring to inspect the same. Any other distributor in the marketing area may meet any such prices so filed; provided, that such distributor shall file with the director a schedule of prices not exceeding the prices so met by him within 24 hours after meeting the same. In the event that any distributor shall elect to make a bid for the sale of fluid milk, fluid cream or other dairy products, excluding butter, cheese other than cottage cheese, canned milk, powdered milk, casein and ice cream, to any city, county or state institution at prices less than the prices applicable to sales to such institutions previously filed with the director by such distributor, then such distributor at its election, in lieu of filing a schedule of amended prices with the director, as hereinabove provided, may deliver to the director, not less than five days before the day scheduled for the opening of bids, a schedule showing the prices contained in such bid, which schedule shall be contained in a sealed envelope with information written or typed on such envelope showing the name of the distributor, the name of the city, county or state institution to which fluid milk, fluid cream or such other dairy products are proposed to be supplied as shown in such bid and the date, time and place scheduled for the opening of bids. The envelope containing such schedule shall be stamped by the director showing the time

and date received and shall not be opened by the director until after the date and time scheduled for the opening of bids and shall then be opened and such schedule shall be filed and indexed by the director and shall constitute such distributor's amended schedule of prices covering sales to city, county and state institutions and shall be available to any interested person desiring to inspect the same.

SEC. 14. Section 4364 is added to said code, to read:

Alteration of prices Statutory amendments

4364. No amendment of any provision of this chapter shall have the effect of terminating or invalidating any minimum wholesale or minimum retail prices for fluid milk or fluid cream, or both, established by the director prior to the effective date of such amendment; provided, that the director shall establish minimum wholesale and minimum retail prices pursuant to the provisions of such amendment, for each marketing area, at the earliest practicable date and in any event within two years from the effective date of such amendment.

Notice of the holding of such election shall be given by publishing the resolution calling the election once each week for two weeks, the last publication to be made not less than two weeks prior to the date of the proposed election, in at least one newspaper published in such district. If there is no newspaper published in such district, then such resolution shall be posted in three public places in such district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given. The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. Any action or proceeding, wherein the validity of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all

proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

SEC. 3. Section 16 of said act is amended to read:

Same. Bonds payable from taxes levied on portion of district

Sec. 16. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for such bonded indebtedness to be payable from taxes levied upon less than all of the district, the board shall, by resolution, so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the district which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the district and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the district or in the proposed improvement district, will be heard. Notice of said hearing shall be given by publishing a copy of the resolution at least once each week for two weeks prior to the time fixed for the hearing in a newspaper printed and published in the municipal water district, if there is a newspaper printed and published in such district. Such notice shall also be given by posting a copy of said resolution in six public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution

declaring the necessity for incurring the bonded indebtedness. The board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

The purpose, amount of bonded debt or boundaries shall not be changed by said board except after notice of its intention to do so, given by one insertion in a newspaper printed and published in said municipal water district, if there is a newspaper printed and published in such district, and by posting in six public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the proposed improvement district, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or the proposed improvement district, may appear and present any matters material to the changes stated in the notice. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the improvement district, and that said portion of the district set forth on said map shall thereupon constitute and be known as "Improvement District No. _____ of _____ Municipal Water District", and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within a municipal water district pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only, to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of

incurring indebtedness by the issuance of bonds of the district for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the secretary of the district, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 5 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing the resolution calling the election at least once each week for two weeks prior to the date of the proposed election, in at least one newspaper printed and published in such municipal water district, if there is a newspaper printed and published in such district. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the

date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 4. Section 16.1 is added to said act to read:

Annexation to improvement district

Sec. 16.1. Any portion of a municipal water district situated contiguous to an improvement district thereof, may be annexed to said improvement district in the following manner. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the district, signed by holders of title to sixty percent (60%) or more of the land in the portion proposed to be annexed, which land as so represented in said petition shall have an assessed valuation of not less than fifty percent (50%) of the land so proposed to be annexed. The petition shall contain the following: (a) a description of the area proposed to be annexed, which may be made by reference to a map on file with the secretary of the district, which map shall govern for all details as to the extent of the area proposed to be annexed, or in any other definite manner; (b) the terms and conditions upon which said proposed area may be annexed as theretofore determined by resolution adopted by the board of directors of the district; and (c) a prayer that the board of directors declare such area to be annexed to the improvement district. Said petition shall be accompanied by a certified check payable to the order of the district in sufficient sum to reimburse said district for expenses of processing and publishing the petition and preparing and making the filings required by law.

Within 10 days of the date of the filing of such petition the secretary of the district shall examine the same and ascertain whether or not such petition is signed by the required number of property owners; and, if requested by the secretary of the district, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the secretary of the district has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of property owners, or is not so signed, he shall certify that the same is sufficient, or insufficient, as the case may be.

If by the certificate of the secretary of the district the petition is found to be insufficient, said petition may be amended by filing a supplemental petition or petitions within 10 days of the date of such certificate. The secretary of the district shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If by the certificate of the secretary such petition, or petition as amended, is shown to be sufficient the secretary shall cause notice of hearing on the petition to be published and posted without delay.

The text of said petition shall be published once a week for at least two weeks prior to the time at which the same is to be presented to the board of directors of the district, in at least one newspaper printed and published in such municipal water district, if there is a newspaper printed and published in such district, together with a notice stating the time and place of the meeting at which the same will be presented. When contained upon one or more instruments one copy only of such petition need be published. No more than five of the names attached to said petition need appear in said publication of said petition and notice, but the number of signers shall be stated. Said notice and petition shall also be posted in three public places in the improvement district and three public places in the area proposed to be annexed, at least two weeks prior to the hearing.

The board of directors of the district shall proceed to hear the petition at the time and place fixed therefor and any person residing within the municipal water district or improvement district or owning taxable property in said district or improvement district shall be entitled to appear and be heard at such hearing. Such hearing may be continued from time to time by the board of directors of the district. At the conclusion of the hearing, and if the board of directors finds and determines from the evidence presented at said hearing that the area proposed to be annexed to an improvement district will be benefited thereby, and that the improvement district to which said area proposed to be annexed will also be benefited thereby and will not be injured thereby, then and in such case the board of directors of the district may, by resolution, approve such annexation, describing the territory so annexed, which may be by reference to a map on file with the secretary of the district, which map shall govern for all details as to the extent of the annexed area, or in any other definite manner, and the terms and conditions of annexation as theretofore determined by resolution of the board of directors.

From and after the date of the adoption of such resolution the area named therein shall be deemed added to and shall form a part of said improvement district and the taxable property therein shall be subject to taxation thereafter for the purposes of said improvement district, including the payment of the principal of and interest on bonds and other obligations of such improvement district at the time authorized and outstanding at the time of said annexation as if said annexed property had always been a part of said improvement district, and the board of directors of such municipal water district shall be empowered to do all things necessary to enforce and make

effective the terms and conditions of annexation fixed as hereinabove authorized.

Any action or proceeding wherein the validity of any such annexation is contested, questioned or denied must be commenced within three months after the date of issuance by the Secretary of State of his certificate; otherwise said annexation shall be held to be valid and in every respect legal and incontestable.

SEC. 5. Section 17 of said act is amended to read:

Bonds Two-thirds vote, issuance, sale, form, etc

Sec. 17. If from such returns it appears that more than two-thirds of the votes cast at such election held pursuant to the provisions of Section 15 or of Section 16 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue bonds of the district for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for the bonds of each series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed five percent (5%) per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars ($1,000). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the district, countersigned by the secretary of the district, and the official seal of the district attached. The interest coupons of such bonds shall be signed by the treasurer of said district. All such signatures and countersignatures may be printed, lithographed or me-

chanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the district and shall be issued in the name of the district and shall be designated "Bonds of _____ Municipal Water District for Improvement District No. _____" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the district and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the district may also be used for some other municipal water district purpose. Such moneys remaining from the sale of bonds of the district for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other municipal water district purpose or improvement district purpose until two-thirds of the qualified voters of said district or improvement district have consented thereto at a special election called in said district or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said district or improvement district, as the case may be, and in other respects the election shall be conducted as are other municipal water district elections.

SEC. 6. Section 22 of said act is amended to read:

Sec. 22. The board of directors, so far as practicable, shall fix such rate or rates for water in the district and in each improvement district therein as will result in revenues which will pay the operating expenses of the district, and the improvement district, provide for repairs and depreciation of works, provide a reasonable surplus for improvements, extensions, and enlargements, pay the interest on any bonded debt, and provide a sinking or other fund for the payment of the principal of such debt as it may become due. Said rates for

Water rates

water in each improvement district may vary from the rates of the district and from other improvement districts therein.

SEC. 7. Section 23 of said act is amended to read:

Taxation

Sec. 23. If the revenues of the district, or of any improvement district therein, are or in the judgment of the board of directors will probably be inadequate for any cause to pay the principal of or interest on any bonded debt of the district, or any improvement district thereof, as it becomes due and also the amounts set forth in Section 22 of this act, the board of directors must cause a tax to be levied, as herein provided, sufficient to provide for such deficit and to pay the amount of such principal and interest as will become due before the proceeds of a tax levied at the next general tax levy will be available.

SEC. 8. Section 24 of said act is amended to read:

Tax rate levy, collection, etc

Sec. 24. The board of directors shall determine the amounts necessary to be raised by taxation during the fiscal year and shall fix the rate or rates of tax to be levied which will raise the amounts of money required by the district, and within a reasonable time previous to the time when the board of supervisors is required by law to fix its tax rate, the board of directors shall certify to the board of supervisors the rate or rates so fixed and shall furnish to the board of supervisors a statement in writing containing the following: (a) an estimate of the minimum amount of money required to be raised by taxation during the fiscal year for the payment of the principal of an interest on any bonded debt of the district or of an improvement district thereof as will become due before the proceeds of a tax levied at the next general tax levy will be available; (b) an estimate of the minimum amount of money required to be raised by taxation during the fiscal year for all other purposes of the district. The board of directors shall direct that at the time and in the manner required by law for the levying of taxes for county purposes, such board of supervisors shall levy, in addition to such other tax as may be levied by such board of supervisors, at the rate or rates so fixed and determined by the board of directors, a tax upon the property within the district, or improvement district thereof benefited by the bonded debt, as the case may be, and it is made the duty of the officer or body having authority to levy taxes within each county to levy the tax so required. Taxes for the payment of the interest on or principal of any bonded debt shall be levied on the property within the district, or improvement district thereof, benefited by the bonded debt, as determined by the board of directors in the resolution declaring the necessity to incur the debt. Taxes for other purposes of the district shall be levied on all property in the district or portion thereof subject to the particular tax. And it shall be the duty of all county officers charged with the duty of collecting taxes to collect such tax in time, form, and manner as county taxes are collected, and when collected to pay the same to the district. Taxes for the payment of a bonded debt and the interest thereon shall be a lien on

all the property benefited thereby as stated in the resolution of the board of directors declaring the necessity to incur the debt. All taxes for other purposes of the district shall be a lien on all the property in the district subject to the respective tax. District taxes, whether for payment of a bonded indebtedness and the interest thereon or for other purposes, shall be of the same force and effect as other liens for taxes, and their collection may be enforced by the same means as provided for the enforcement of liens for state and county taxes.

SEC. 9. Section 33 of said act is amended to read:

Sec. 33. The inclusion in, or annexation or addition to, a municipal water district, of the corporate area of any public corporation or public agency, shall not destroy the identity or legal existence or impair the powers of any such public corporation or public agency, notwithstanding the identity of purpose, or substantial identity of purpose, of such municipal water district. Except for formation proceedings commenced before the effective date of the amendments to this act made by the 1955 Regular Session of the Legislature, no public corporation or public agency having identity of purpose or substantial identity of purpose shall be formed partly or entirely within a municipal water district existing under this act without the consent of such municipal water district.

Certain of the California water districts are in a transitional stage, changing from predominantly agricultural areas to residential and industrial areas. Protection of public health and safety in such districts requires that adequate water be immediately supplied to these growing residential and industrial areas for fire protection, domestic and industrial use and other needful purposes of such areas. Some districts have been prevented from financing needed water facilities by means of bonds because of defects in existing legislation. The present law creating a prior lien for the first issue of bonds will make later financing of additional facilities difficult, if not impossible. If general obligation bonds are to be sold at a reasonable rate of interest, the bond provisions must be clarified and amplified and a more certain and expeditious method provided for the assessment and collection of district assessments. If this act becomes effective immediately, such districts can finance and construct needed water facilities without delay.

CHAPTER 1348

An act to amend Sections 1269, 1269b, and 1295 of the Penal Code and Section 72301 of the Government Code, relating to the acceptance of bail, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 25, 1955. Filed with Secretary of State June 27, 1955.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 1269 of the Penal Code is amended to read:

Taking, filing, etc., of bail

1269. The taking of bail consists in the acceptance, by a competent court or magistrate, of the undertaking of sufficient bail for the appearance of the defendant, according to the terms of the undertaking, or that the bail will pay to the people of this State a specified sum. Upon filing, the clerk shall enter

in the register of actions the date and amounts of such bond and the name or names of the surety or sureties thereon. In the event of the loss or destruction of such bond, such entries so made shall be prima facie evidence of the due execution of such bond as required by law.

Whenever any bail bond has been deposited in any criminal action or proceeding in a justice, municipal, or superior court or in any proceeding in habeas corpus in a superior court, either before or after the effective date of this amendment to this section, and it is made to appear to the satisfaction of the court by affidavit or by testimony in open court that more than three years have elapsed since the exoneration or release of said bail, the court must direct that such bond be destroyed.

SEC. 2. Section 1269b of the Penal Code is amended to read:

Authority of municipal court clerk

1269b. In a municipal court, the clerk of the court shall, in the absence of a judge of said court, have authority to accept bail for the appearance before said court of any defendant charged in such court with a misdemeanor; provided, however, that whenever a defendant has been arrested and booked for having committed a misdemeanor and is held in custody in a county jail or a city jail, the clerk of the municipal court in the judicial district wherein the defendant was arrested and booked, may, prior to the filing of a formal complaint, accept bail for the appearance before said court; provided, however, the amount thereof, in either event, shall be in accordance with a schedule of bail previously fixed and approved by the judges of said court, unless a warrant shall have been issued for the arrest of the defendant, in which case the bail shall be in the amount fixed in the warrant; and provided, also, the bail shall be cash or a surety bond executed by a certified, admitted surety insurer as provided in the Insurance Code of the State of California.

The authority to accept bail as in this section provided, shall include authority to approve the same, to issue and sign an order for the release of the defendant, and to set a time and place for the appearance of the defendant before the appropriate division or judge of such court and give the defendant notice thereof.

SEC. 3. Section 1295 of the Penal Code is amended to read:

Deposit in lieu of bail

1295. The defendant, or any other person, at any time after an order admitting defendant to bail or after the arrest and booking of a defendant for having committed a misdemeanor, instead of giving bail may deposit with the clerk of the court in which the defendant is held to answer or notified to appear for arraignment, the sum mentioned in the order, or if no order, in the schedule of bail previously fixed by the judges of said court, and upon delivering to the officer in whose custody defendant is a certificate of the deposit, defendant must be discharged from custody.

Whenever the defendant has been arrested and booked for having committed a misdemeanor for which the amount of

bail has been fixed in a schedule of bail by the judges of the court having jurisdiction, or the amount of bail is endorsed on the warrant of arrest and does not exceed one thousand dollars ($1,000), the defendant, or any other person, may deposit with the officer in charge of the jail wherein the defendant is detained, cash in the amount of the bail so fixed. Upon such deposit being made the defendant shall be notified of the time and place to appear for arraignment and discharged from custody. The money so deposited shall be transmitted to the judge or clerk of the court wherein the defendant is notified to appear for arraignment or by which the warrant was issued not later than the next business day.

SEC. 4. Section 72301 of the Government Code is amended to read:

72301. The clerk of the court or one or more deputy clerks shall be in attendance at the department at all hours of the day and night, including Sundays and holidays, and may fix and accept bail for the appearance before the court of any defendant charged in the court with an offense of which the court has jurisdiction or whenever a defendant has been arrested and booked within the territorial limits of said judicial district for having committed a misdemeanor. The amount of bail shall be pursuant to a schedule of bail in such cases previously fixed and approved by the judges of the court at their annual meeting. If a warrant has been issued for the arrest of the defendant, the bail shall be in the amount fixed in the warrant. The bail shall be cash, negotiable United States Treasury bonds, or a surety bond executed by a certified, admitted surety insurer as provided in the Insurance Code.

Fixing and acceptance of bail by clerks

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Urgency

Section 1269b of the Penal Code at present provides that a clerk of a municipal court has authority, in the absence of a judge of the court, to accept bail for the appearance before said court of any defendant "charged in such court" with a misdemeanor. It has been the practice to admit most misdemeanants to bail within a few hours after arrest and before the filing of a complaint. However, the Los Angeles County Counsel has recently advised, and the interpretation appears correct, that in view of the language quoted above, Section 1269b does not grant authority to admit to bail until after a complaint has been filed.

As so interpreted Section 1269b would impose a staggering burden on our already overcrowded jails. In the City of Los Angeles alone, there were 148,662 misdemeanor arrests last year. This act would relieve this situation by making it clear that a misdemeanant can be admitted to bail, under the conditions prescribed by Section 1269b, at any time after arrest, and by making corresponding changes in related sections.

[Approved by Governor June 25, 1955. Filed with Secretary of State June 27, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 is added to Part 1 of Division 2 of the Welfare and Institutions Code, to read:

CHAPTER 4. INTERSTATE COMPACT ON JUVENILES

Interstate Compact on Juveniles Authority to execute

1300. In addition to any other authority conferred upon him, the Governor is authorized and may execute for, on behalf of, and in the name of the State of California, a compact or agreement entitled, "Interstate Compact on Juveniles," which compact or agreement, in words and figures, is substantially as follows:

INTERSTATE COMPACT ON JUVENILES

The contracting states solemnly agree:

Article I—Findings and Purposes

Findings and purposes

That juveniles who are not under proper supervision and control, or who have absconded, escaped or run away, are likely to endanger their own health, morals and welfare, and the health, morals and welfare of others. The cooperation of the states party to this compact is therefore necessary to provide for the welfare and protection of juveniles and of the public with respect to (1) cooperative supervision of delinquent juveniles on probation or parole; (2) the return, from one state to another, of delinquent juveniles who have escaped or absconded; (3) the return, from one state to another, of non-delinquent juveniles who have run away from home; and (4) additional measures for the protection of juveniles and of the public, which any two or more of the party states may find desirable to undertake cooperatively. In carrying out the provisions of this compact the party states shall be guided by the noncriminal, reformative and protective policies which guide their laws concerning delinquent, neglected or dependent juveniles generally. It shall be the policy of the states party to this compact to cooperate and observe their respective responsibilities for the prompt return and acceptance of juveniles and delinquent juveniles who become subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed to accomplish the foregoing purposes.

Article II—Existing Rights and Remedies

Additional remedies and procedures

That all remedies and procedures provided by this compact shall be in addition to and not in substitution of other rights, remedies and procedures, and shall not be in derogation of parental rights and responsibilities.

Article III—Definitions

Definitions

That, for the purposes of this compact, "delinquent juvenile" means any juvenile who has been adjudged delinquent and who, at the time the provisions of this compact are invoked, is still subject to the jurisdiction of the court that has made such adjudication or to the jurisdiction or supervision of an agency or institution pursuant to an order of such court; "probation or parole" means any kind of conditional release of juveniles authorized under the laws of the states party hereto; "court" means any court having jurisdiction over delinquent, neglected or dependent children; "state" means any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico; and "residence" or any variant thereof means a place at which a home or regular place of abode is maintained.

Article IV—Return of Runaways

Return of runaways

(a) That the parent, guardian, person or agency entitled to legal custody of a juvenile who has not been adjudged delinquent but who has run away without the consent of such parent, guardian, person or agency may petition the appropriate court in the demanding state for the issuance of a requisition for his return. The petition shall state the name and age of the juvenile, the name of the petitioner and the basis of entitlement to the juvenile's custody, the circumstances of his running away, his location if known at the time application is made, and such other facts as may tend to show that the juvenile who has run away is endangering his own welfare or the welfare of others and is not an emancipated minor. The petition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the document or documents on which the petitioner's entitlement to the juvenile's custody is based, such as birth certificates, letters of guardianship, or custody decrees. Such further affidavits and other documents as may be deemed proper may be submitted with such petition. The judge of the court to which this application is made may hold a hearing thereon to determine whether for the purposes of this compact the petitioner is entitled to the legal custody of the juvenile, whether or not it appears that the juvenile has in fact run away without consent, whether or not he is an emancipated minor, and whether or not it is in the best interest of the juvenile to compel his return to the state. If the

Hearing

judge determines, either with or without a hearing, that the juvenile should be returned, he shall present to the appropriate court or to the executive authority of the state where the juvenile is alleged to be located a written requisition for the return of such juvenile. Such requisition shall set forth the name and age of the juvenile, the determination of the court that the juvenile has run away without the consent of a parent, guardian, person or agency entitled to his legal custody, and that it is in the best interest and for the protection of such juvenile that he be returned. In the event that a proceeding for the adjudication of the juvenile as a delinquent, neglected or dependent juvenile is pending in the court at the time when such juvenile runs away, the court may issue a requisition for the return of such juvenile upon its own motion, regardless of the consent of the parent, guardian, person or agency entitled to legal custody, reciting therein the nature and circumstances of the pending proceeding. The requisition shall in every case be executed in duplicate and shall be signed by the judge. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of such court. Upon the receipt of a requisition demanding the return of a juvenile who has run away, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No juvenile detained upon such order shall be delivered over to the officer whom the court demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of a court in the state, who shall inform him of the demand made for his return, and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such juvenile over to the officer whom the court demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Requisition for return

Detention order

Upon reasonable information that a person is a juvenile who has run away from another state party to this compact without the consent of a parent, guardian, person or agency entitled to his legal custody, such juvenile may be taken into custody without a requisition and brought forthwith before a judge of the appropriate court who may appoint counsel or guardian ad litem for such juvenile and who shall determine after a hearing whether sufficient cause exists to hold the person, subject to the order of the court, for his own protection and welfare, for such a time not exceeding 90 days as will enable his return to another state party to this compact pursuant to a requisition for his return from a court of that state. If, at the time when a state seeks the return of a juve-

nile who has run away, there is pending in the state wherein he is found any criminal charge, or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the juvenile being returned, shall be permitted to transport such juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he ran away, the juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

Transportation costs

(b) That the state to which a juvenile is returned under this article shall be responsible for payment of the transportation costs of such return.

"Juvenile"

(c) That "juvenile" as used in this article means any person who is a minor under the law of the state of residence of the parent, guardian, person or agency entitled to the legal custody of such minor.

Article V—Return of Escapees and Absconders

Return of escapees and absconders Requisition

(a) That the appropriate person or authority from whose probation or parole supervision a delinquent juvenile has absconded or from whose institutional custody he has escaped shall present to the appropriate court or to the executive authority of the state where the delinquent juvenile is alleged to be located a written requisition for the return of such delinquent juvenile. Such requisition shall state the name and age of the delinquent juvenile, the particulars of his adjudication as a delinquent juvenile, the circumstances of the breach of the terms of his probation or parole or of his escape from an institution or agency vested with his legal custody or supervision, and the location of such delinquent juvenile, if known, at the time the requisition is made. The requisition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the judgment, formal adjudication, or order of commitment which subjects such delinquent juvenile to probation or parole or to the legal custody of the institution or agency concerned. Such further affidavits and other documents as may be deemed proper may be submitted with such requisition. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of the appropriate court. Upon the receipt of a requisition demanding the return of a delinquent juvenile who has absconded or escaped, the court or the executive authority to whom the requisition is addressed shall issue

Verification

Detention order

an order to any peace officer or other appropriate person directing him to take into custody and detain such delinquent juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No delinquent juvenile detained upon such order shall be delivered over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of an appropriate court in the state, who shall inform him of the demand made for his return and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such delinquent juvenile over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Hearing

Upon reasonable information that a person is a delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, such person may be taken into custody in any other state party to this compact without a requisition. But in such event, he must be taken forthwith before a judge of the appropriate court, who may appoint counsel or guardian ad litem for such person and who shall determine, after a hearing, whether sufficient cause exists to hold the person subject to the order of the court for such a time, not exceeding 90 days, as will enable his detention under a detention order issued on a requisition pursuant to this article. If, at the time when a state seeks the return of a delinquent juvenile who has either absconded while on probation or parole or escaped from an institution or agency vested with his legal custody or supervision, there is pending in the state wherein he is detained any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the delinquent juvenile being returned, shall be permitted to transport such delinquent juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he escaped or absconded, the delinquent juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

Transportation costs

(b) That the state to which a delinquent juvenile is returned under this article shall be responsible for payment of the transportation costs of such return.

Article VI—Voluntary Return Procedure

Consent to return

That any delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, and any juvenile who has run away from any state party to this compact, who is taken into custody without a requisition in another state party to this compact under the provisions of Article IV(a) or of Article V(a), may consent to his immediate return to the state from which he absconded, escaped or ran away. Such consent shall be given by the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, by executing or subscribing a writing, in the presence of a judge of the appropriate court, which states that the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, consent to his return to the demanding state. Before such consent shall be executed or subscribed, however, the judge, in the presence of counsel or guardian ad litem, if any, shall inform the juvenile or delinquent juvenile of his rights under this compact. When the consent has been duly executed, it shall be forwarded to and filed with the compact administrator of the state in which the court is located and the judge shall direct the officer having the juvenile or delinquent juvenile in custody to deliver him to the duly accredited officer or officers of the state demanding his return, and shall cause to be delivered to such officer or officers a copy of the consent. The court may, however, upon the request of the state to which the juvenile or delinquent juvenile is being returned, order him to return unaccompanied to such state and shall provide him with a copy of such court order; in such event a copy of the consent shall be forwarded to the compact administrator of the state to which said juvenile or delinquent juvenile is ordered to return.

Article VII—Cooperative Supervision of Probationers and Parolees

Cooperative supervision of probationers and parolees

(a) That the duly constituted judicial and administrative authorities of a state party to this compact (herein called "sending state") may permit any delinquent juvenile within such state, placed on probation or parole, to reside in any other state party to this compact (herein called "receiving state") while on probation or parole, and the receiving state shall accept such delinquent juvenile, if the parent, guardian or person entitled to the legal custody of such delinquent juvenile is residing or undertakes to reside within the receiving state. Before granting such permission, opportunity shall be given to the receiving state to make such investigations as it deems nec-

essary. The authorities of the sending state shall send to the authorities of the receiving state copies of pertinent court orders, social case studies and all other available information which may be of value to and assist the receiving state in supervising a probationer or parolee under this compact. A receiving state, in its discretion, may agree to accept supervision of a probationer or parolee in cases where the parent, guardian or person entitled to the legal custody of the delinquent juvenile is not a resident of the receiving state, and if so accepted the sending state may transfer supervision accordingly.

Duties of receiving state

(b) That each receiving state will assume the duties of visitation and of supervision over any such delinquent juvenile and in the exercise of those duties will be governed by the same standards of visitation and supervision that prevail for its own delinquent juveniles released on probation or parole.

Authority to enter receiving state

(c) That, after consultation between the appropriate authorities of the sending state and of the receiving state as to the desirability and necessity of returning such a delinquent juvenile, the duly accredited officers of a sending state may enter a receiving state and there apprehend and retake any such delinquent juvenile on probation or parole. For that purpose, no formalities will be required, other than establishing the authority of the officer and the identity of the delinquent juvenile to be retaken and returned. The decision of the sending state to retake a delinquent juvenile on probation or parole shall be conclusive upon and not reviewable within the receiving state, but if, at the time the sending state seeks to retake a delinquent juvenile on probation or parole, there is pending against him within the receiving state any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for any act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of the sending state shall be permitted to transport delinquent juveniles being so returned through any and all states party to this compact, without interference.

(b) That nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to Article IV(b), V(b) or VII(d) of this compact.

Article IX—Detention Practices

Detention in prisons, etc

Such care, treatment and rehabilitation may be provided in an institution located within any state entering into such supplementary agreement. Such supplementary agreements shall (1) provide the rates to be paid for the care, treatment and custody of such delinquent juveniles, taking into consideration the character of facilities, services and subsistence furnished; (2) provide that the delinquent juvenile shall be given a court hearing prior to his being sent to another state for care, treatment and custody; (3) provide that the state receiving such a delinquent juvenile in one of its institutions shall act solely as agent for the state sending such delinquent juvenile; (4) provide that the sending state shall at all times retain jurisdiction over delinquent juveniles sent to an institution in another state; (5) provide for reasonable inspection of such institutions by the sending state; (6) provide that the consent of the parent, guardian, person or agency entitled to the legal custody of said delinquent juvenile shall be secured prior to his being sent to another state; and (7) make provision for such other matters and details as shall be necessary to protect the rights and equities of such delinquent juveniles and of the cooperating states.

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7.8 is added to the Government Code to read:

7.8. Notwithstanding anything in this code to the contrary, the Directors of Finance, Public Works, and Education may appoint any deputy or assistant director in their respective departments to act in their place and stead on the State Allocation Board, irrespective of whether said deputy or assistant director holds a position specified in Section 4(a)(5) of Article XXIV of the Constitution, and irrespective of whether there shall be more than one such person representing a director at any meeting of such board. Such person, while sitting on said board, shall have all the powers the director he represents would have had, including the right to be counted in a quorum, the right to participate in the proceedings of the board and to vote on any and all matters. The director so designating such a deputy or assistant director shall be responsible for the acts of the person acting under such designation in the same manner and to the same extent that the director is responsible for the acts of the deputy or assistant director performing his official duties as deputy or assistant director of the department.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution. A statement of the facts constituting such necessity is as follows:

Urgently needed school construction and other public works have been delayed by the inability to secure a quorum of the State Allocation Board for the frequent meetings required to handle the large volume of applications for such public works and especially the approval of school bids. To permit deputy directors holding positions other than those specified in Article XXIV of the Constitution to represent the director upon the board will permit the currently large volume of essential public works to proceed without delay. It is therefore necessary that this act take effect immediately.

Release of earnings

(2) When an affidavit of exemption is filed in accord with Section 690.11, the debtor shall be entitled to an immediate release of one-half of his earnings earned within 30 days next preceding the date of levy.

Notice to creditor

(3) Forthwith upon receiving the affidavit of exemption the levying officer shall serve upon the plaintiff or the person in whose favor the writ runs (herein referred to as "the creditor"), either personally or by mail, a copy of the affidavit of exemption, together with a writing, signed by the levying officer, stating that the claim to exemption has been received and that the officer will release the property unless he receives from the creditor a counter-affidavit within five days after service of such writing.

Counter-affidavit of creditor

(4) If the creditor desires to contest the claim to exemption, he shall within such period of five days, file with the levying officer a counter-affidavit alleging that the property is not exempt within the meaning of the section or sections relied upon, or if the claim to exemption be based on Sections 690.1, 690.3, 690.6, 690.8, 690.9, 690.12, 690.17, 690.18, 690.21, 690.24, alleg-

Such hearing must be granted by the court upon motion of either party made within five days after the counter-affidavit is filed with the levying officer, and such hearing must be had within 15 days from the date of the making of such motion unless continued by the court for good cause. The party making the motion for hearing must give not less than five days' notice in writing of such hearing to the levying officer and to the other party and specify therein that the hearing is for the purpose of determining the claim to exemption. Hearing procedure

(10) At such hearing, the party claiming the exemption shall have the burden of proof. The affidavits and counter-affidavits shall be filed by the levying officer with the court and shall constitute the pleadings, subject to the power of the court to permit an amendment in the interests of justice. The affidavit of exemption shall be deemed controverted by the counter-affidavit and both shall be received in evidence. Nothing herein contained shall be construed to deprive anybody

of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury, and no evidence other than the affidavit and counter-affidavit is offered, the court if satisfied that sufficient facts are shown thereby, may make its determination thereon; otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counter-affidavits. At the conclusion of the hearing, the court shall give judgment determining whether the claim to exemption shall be allowed or not, in whole or in part, which judgment shall be determinative as to the right of the creditor to have the property taken and held by the officer or to subject the property to payment or other satisfaction of his judgment. In such judgment the court shall make all proper orders for the disposition of such property or the proceeds thereof.

Judgment

Transmittal to levying officer

(11) A copy of any judgment entered in the trial court shall be forthwith transmitted by the clerk to the levying officer in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal from the judgment be waived, or the judgment has otherwise become final, shall continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final.

Service by mail

(12) When any documents required hereunder are served by mail, the provisions of this code relating to service by mail shall be applicable thereto.

Extension of time

(13) Whenever the time allowed for an act to be done hereunder is extended by the court, written notice thereof shall be given promptly to the opposing party, unless such notice be waived, and to the levying officer.

Appeal

(14) An appeal lies from any judgment under this section; such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had.

SEC. 5. Section 16424.1 is added to the Education Code, to read:

Distribution of printed matter

16424.1. To facilitate the authority referred to in Sections 16423 and 16424 the governing board of the school district or school districts may authorize the distribution by district personnel of such printed matter as may be furnished by the insurer or membership corporation.

Urgency

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Attorney General has ruled that under existing law, in order to provide accident insurance for pupils, the school district must use its own funds, and such insurance may not be paid for by pupils or their parents. Many school districts

do not have sufficient funds to purchase such insurance and yet desire to make such insurance available to the pupils and their parents for the 1955 fall school term. It is important to the public welfare of this State to permit school districts to make such insurance available, and it is therefore necessary that this act take effect immediately.

CHAPTER 1392

An act to amend Section 10270 of, and to add Section 10270.1 to, the Insurance Code, relating to tuition refund and pupil accident insurance.

[Approved by Governor June 27, 1955. Filed with Secretary of State June 28, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 10270 of the Insurance Code is amended to read:

Exemptions Blanket policies, Workmen's Compensation Insurance, etc

(c) To a blanket policy issued to the proprietor or sponsor of an organized camping institution providing benefits to campers or persons responsible for their support for hospital, medical, surgical or nursing expenses resulting from accident to such campers or arising out of sickness first manifesting itself while they are in or on buildings or premises of the camp institution or being transported between their home and the camp institution or while at any other place as

an incident to camp-sponsored activities and while being transported to, from and between such places.

Voluntary plan

(d) To a policy issued on application of an employer, a majority of the employees in this State of an employer, or both, to pay the benefits afforded by a voluntary plan of unemployment compensation disability insurance. Notwithstanding the provisions of Section 10113, such policies may incorporate by reference any of the appropriate provisions of Article 10 of the California Unemployment Insurance Act and the authorized regulations of the California Employment Stabilization Commission.

(e) To any policy or contract of reinsurance.

A "blanket policy" is any disability policy sold to any of the entities described in subdivision (a), (b) or (c) of this section and providing coverage for all persons within categories defined in the policy and precluding any requirement for individual enrollment or individual undertaking to pay all or part of the premium as a condition precedent to coverage; provided, that nothing in this section shall be so construed as to prohibit the cost of the insurance coverage being borne by the individuals insured or by their parents or guardians; and provided further, that coverage shall not be provided to any person who files with the entity to whom the blanket policy is to be issued for delivery to the insurer a written statement requesting that he not be covered. In the case of a minor, such statement may be filed by his parent or guardian. If the number of persons filing such statements exceeds ten percent (10%) of the number of persons within categories defined as covered under the policy, it shall not be put into effect, and if in effect shall not be renewed.

Approval by commissioner

No policies described in subdivisions (a), (b) and (c) hereof shall be issued until approved as to substance and form by the commissioner. The commissioner may after notice and hearing promulgate such reasonable rules and regulations, relating to the substance, form and issuance of such policies, as are necessary or desirable to preserve, insofar as applicable, standards as respects substance, form and issuance comparable to the standards in such respects prescribed by this chapter and applicable to other types of disability policies, and to further the purpose or purposes for which such policies are to be issued.

No policies described in subdivision (d) hereof shall be issued until approved as to form by the commissioner. The commissioner may after notice and hearing promulgate such reasonable rules and regulations, relating to the form and issuance of such policies, as do not affect the substance of the coverage, and as are necessary or desirable to preserve, insofar as applicable, standards as respects form and issuance comparable to the standards in such respects prescribed by this chapter and applicable to other types of disability policies, and to further the purpose or purposes for which such policies are to be issued.

(b) Except to the extent provided herein, the other sections of this chapter shall not apply to tuition refund insurance providing coverage for ten (10) or more students.

Policy of tuition refund insurance

(c) No policy of tuition refund insurance shall be delivered or issued for delivery to any person in this State unless approved as to substance and form by the commissioner. The commissioner may, after notice and hearing, promulgate such reasonable rules and regulations, relating to the substance, form and issuance of such policies, as are necessary or desirable to preserve, insofar as applicable, standards as respects substance, form and issuance comparable to the standards in such respects prescribed by this chapter and applicable to disability policies, and to further the purpose or purposes for which such policies are to be issued.

Tuition refund insurance

(d) Tuition refund insurance may be issued only to an institution which does not have a similar policy in effect, but its cost may be borne by the student, in which event he may, upon request, obtain from the insurer a copy of the policy.

Sec. 2.5. In addition to the powers specified in Section 2, the district shall have power:

2. The proposition of borrowing money has been ratified and authorized by a majority of the votes cast at a special election called for the purpose. A special election may be consolidated with a primary or general election. Interest on any loan herein authorized shall not exceed a rate in excess of five percent (5%) per annum payable annually. A loan made pursuant to this act shall be evidenced by written contract signed by the chairman of the board specifying the particular flood control work or projects for which the contracts shall be let. If a surplus remains after completion of said work, such surplus shall be applied to the payment of the principal and interest due under said contract. The board of supervisors shall annually levy a tax upon the taxable property of the zone or zones within which the work is performed, sufficient to pay the installments and interest on such loan as the same shall become due and payable in accordance with the terms of the contract; provided, however, that the tax levy for the payment of principal and interest on any loan shall not, together with all other charges and obligations for construction, maintenance, operation and improvements within the zone, exceed the limitations fixed by Section 7 of this act.

part time basis, or if the service of a member is interrupted by absence without compensation.

14479. The rates of annuity fund contributions shall be based upon sex and age at the nearest birthday at the time of inclusion in or entrance into this retirement system or at such later time as the member first is required to make annuity contributions, and shall be such as, when applied to the salary of the member, not counting any salary earned in service for which the member is entitled to retirement benefits from a local retirement system, will produce contributions which will provide, on the average, an annuity at age 60 equal to approximately one-half of the benefit specified in Section 14635 to be derived from the Retirement Annuity Fund for service rendered after July 1, 1944, plus the portion of the retirement salary computed pursuant to Section 14632, on the basis of his service rendered after June 30, 1944, and for which he is not entitled to receive benefits from a local retirement system, as determined by recognized actuarial methods. The increased rates of contribution required by the increase in the annuity to be provided, shall be applied to the salary of the member for each school year after June 30, 1956. SEC. 10. Section 14480 of said code is amended to read:

Deductions from salary

14480. Contributions required of a person to the Retirement Annuity Fund shall be deducted from each salary payment in the manner prescribed in this article. be considered and administered as the contributions to the Permanent Fund, required by Section 14471, for service after July 1, 1944. Every person accepting employment who is required to contribute shall be deemed to consent and agree to the deduction of the annuity contributions from his salary payments.

SEC. 11. Section 14480.1 is added to said code, to read:

Annuity deposits for additional benefits

14480.1. Subject to rules prescribed by the board, any member may elect to make annuity deposits for the purpose of providing additional benefits. Annuity deposits may be (a) deducted from earned compensation, deposited in the county treasury, remitted and reported to the board, in the manner prescribed for annuity contributions or (b) reimbursed by the member directly to the retirement system. The member may cancel such election and later elect again at any time, but accumulated annuity deposits derived from such deposits made after June 30, 1955, may be withdrawn only as provided in Section 14521.

From the death benefit provided in this section, there shall be deducted an amount equal to that portion of the benefit payable on account of said death by a local system, regardless of whether before or after retirement under such local system, but which is provided from contributions of the district operating said system, independently of any optional election made by said person at the time of his retirement, under which he received a reduced retirement allowance and a benefit was provided at his death.

Such changed retirement allowance, prior to modification under options in Section 14637, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, based on service rendered prior to July 1, 1944, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance, prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. Contributions and interest thereon owed to the system by said persons on said effective date, shall be deducted from the respective increased allowances, in the manner prescribed in Section 14476. If the person elected at retirement to have his annuity modified under one of the options in Section 14637, and if his beneficiary is living on the effective date hereof, the increase in his annuity shall be modified under the option then elected and on the basis of current ages. This section does not authorize any decrease in any retirement allowance, nor does this section give any retired member, or his successors in interest, any claim against the State for any increase in any retirement allowance paid or payable for time prior to its effective date.

SEC. 16. Section 14632 of said code is amended to read:

Retirement allowance

14632. Upon retirement for service, a retired member shall receive a retirement allowance which shall consist of:

(a) A monthly retirement salary derived from the Permanent Fund, equal to the fraction of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed 30 years, bears to 30 years, set forth in Section 14635, opposite his age at retirement, taken to the preceding completed quarter year, in the column applicable to his sex. The retirement salary shall be subject to the deductions provided in Section 14476, if the member is not credited at the time of retirement with the total Permanent Fund contributions required of each member.

(b) A retirement annuity derived from the Retirement Annuity Fund based upon the number of years of service credited to him, less any service for which he is entitled to receive re-

tirement benefits under a local retirement system, computed pursuant to Section 14635.

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14637, and exclusive of the annuity derived from accumulated annuity deposits, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, based on service rendered prior to July 1, 1944, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

SEC. 17. Section 14633 of said code is amended to read:

Same
Minimum

14633. The retirement allowance in Section 14632, exclusive of the annuity in subdivision (c) of that section, but when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall be, by increase in the annuity, under the Retirement Annuity Fund at least seventy dollars ($70) per year, multiplied by the member's years of service, not to exceed forty (40); provided, the retired member is at least 60 years of age at the time of retirement. If retirement is at an age less than 60 years, the minimum retirement allowance under this section is an amount actuarially equivalent to the value at the lesser age of the minimum retirement allowance calculated under the preceding sentences, deferred to the age of 60 years. For any member who is under retirement at the effective date of this section, and thereafter re-enters membership in the retirement system and subsequently retires, the lesser age to be taken to the preceding quarter year, in the next preceding sentence, for calculating the minimum retirement allowance under this section, shall be determined by deducting from the member's age at the subsequent retirement, the aggregate time during which the member was under retirement prior to re-entry into membership in the system. No retirement allowance shall be increased under this section to exceed, annually, 75 percent of the average annual compensa-

tion earnable by the member during the three (3) years immediately preceding his retirement.

SEC. 18. Section 14635 of said code is amended to read:

Annuity allowance schedule

14635. Upon retirement for service a member shall receive an annual annuity, sufficient when added to the portion of the retirement salary computed pursuant to Section 14632, on the basis of his service for which he is not entitled to receive benefits from a local retirement system, but excluding his service for which he has not deposited contributions in the Retirement Annuity Fund following a change in membership status, pursuant to Article 14 of this chapter, to equal the fraction of one-sixtieth (1/60th) of his final compensation, set forth opposite his age at retirement, taken to the preceding completed quarter year, in the following table in the column applicable to his sex, multiplied by the number of years of his credited service not counting any service for which the member is entitled to retirement benefits from a local retirement system:

SEC. 21. Section 14636.2 is added to said code, to read:

14636.2. For the purpose of calculating retirement benefits based on part-time service, compensation earnable shall be taken as the compensation which would have been earnable if the employment had been on a full-time basis and the member had worked full time. Same

In determining qualification for retirement and calculating benefits payable upon death before retirement, a year of service shall be credited for each year during which the member was employed throughout the year on a part-time basis and was engaged in his duties the full amount of time he was required by his employment to be so engaged. Credit for fractional years shall be granted to the extent of the fraction derived by dividing the time during which the member was engaged in his duties within the year, by the time he was required by his employment to be so engaged.

SEC. 23. Section 14639 of said code is amended to read:

Retirement for disability

14639. Upon retirement for disability, a member shall receive a retirement allowance which shall consist of:

(a) A retirement salary derived from the Permanent Fund, payable monthly equal to ninety percent (90%) of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed thirty (30) years, bears to 30 years. The retirement salary shall be subject to the deductions provided in Section 14476, if the member is not credited at the time of retirement with the total Permanent Fund contributions required of each member.

(b) A disability annuity, derived from the Retirement Annuity Fund, computed pursuant to Section 14640.

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14637, and exclusive of the annuity derived from accumulated annuity deposits, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local retirement system, shall equal the retirement allowance, prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local retirement system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local retirement system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local retirement system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

Repeal

SEC. 24. Section 14639.5 of said code is hereby repealed.

SEC. 25. Section 14640 of said code is amended to read:

Disability annuity

14640. (a) If the retiring member has attained the age of 60 years at the effective date of his retirement, the amount

of disability annuity payable under subdivision (b) of Section 14639 shall be the same as the amount of the annuity which would have been payable to him under subdivision (b) of Section 14632 if his retirement were for service instead of for disability.

(b) If the retiring member has not attained the age of 60 years at the effective date of his retirement, the amount of disability annuity payable under subdivision (b) of Section 14639 shall be:

(1) Ninety percent (90%) of the sum of the annuity payable to him under subdivision (b) of Section 14632 at the age of 60 years, on the basis of his final compensation at retirement, and service rendered up to the effective date of his retirement, or

(2) If the resulting disability retirement allowance does not exceed one-fourth of his final compensation, ninety percent (90%) of the sum of the annuity payable to him under subdivision (b) of Section 14632 at the age of 60 years, on the basis of his final compensation at retirement, and the service which would be creditable to him were his service to continue until attainment by him of age 60, but in such case, the retirement allowance shall not exceed one-fourth of such final compensation.

(c) In no event shall the disability annuity under this section be more than sufficient to make the disability retirement allowance, exclusive of any annuity provided by accumulated annuity deposits, exceed the service retirement allowance, exclusive of any annuity purchased by accumulated annuity deposits, receivable by the member should he continue until retirement at age 60.

SEC. 26. Section 14680 of said code is amended to read:

Ceasing to be member of local system

14680. If a member of this retirement system who is or has been a member of another retirement system ceases to be entitled to retirement benefits from the other retirement system for any service rendered after July 1, 1944, which qualifies for credit under this retirement system and for which he has not contributed to the Retirement Annuity Fund under Section 14478, but continues to be a member of this retirement system, upon receipt of refund of his contributions to the other retirement system he shall deposit in the Retirement Annuity Fund an amount equal to the contributions which he would have been required to make during such service if he had not then been a member of the other retirement system, with interest from the first of the year next following the date on which such contributions would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Annuity Fund contributions.

Unless such deposit is made within two years after the date upon which notice of the right to make such deposit is mailed by this system to the member's latest address on file in the office of this system and prior to retirement, the member shall not be entitled to benefits from the Retirement Annuity Fund

based upon service rendered after July 1, 1944, for which he has not contributed to the Retirement Annuity Fund pursuant to Section 14478, and the minimum retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such deposit. If the deposit is made, the member's rate of annuity contribution shall be based on his age at the beginning of such service after July 1, 1944, or on a lower age, as determined under this chapter, because of other credited service.

SEC. 27. Section 14681 of said code is amended to read:

Entering system with credit for prior service

14681. Any person who enters or changes his status under this retirement system after July 1, 1944, and who thus becomes subject to the Retirement Annuity Fund and receives credit for service rendered after July 1, 1944, but prior to his entry into or change in status under this retirement system, shall deposit in the Retirement Annuity Fund an amount equal to the contributions he would have been required to make to the Retirement Annuity Fund during such service if he had then been a member of this retirement system and subject to said fund, with interest from the first of the year next following the date on which such contributions would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Annuity Fund contributions.

Unless such deposit is made within two years after the date upon which notice of the right to make such deposit is mailed by this system to the member's latest address on file in the office of this system and prior to retirement, the member shall not be entitled to benefits from the Retirement Annuity Fund based upon service rendered after July 1, 1944, for which he has not contributed to the Retirement Annuity Fund pursuant to Section 14478, and the minimum retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such deposit. If the deposit is made, the member's rate of annuity contribution shall be based on his age at the beginning of such service after July 1, 1944, or on a lower age, as determined under this chapter, because of other credited service.

SEC. 28. Section 14683 of said code is amended to read:

Cessation of benefits from local system

14683. If a person who has been retired ceases to be entitled to benefits from a local retirement system, on account of which service was excluded in the calculation of such person's annuity, but who continues to be retired under this system, he shall be entitled to an annuity on account of such service, effective on the first day of the month in which he notifies the Retirement Board at its office in Sacramento. If within 90 days after said effective date, said person deposits in the Retirement Annuity Fund, an amount equal to the contributions which he would have been required to make to that fund dur-

Deposits in Retirement Annuity Fund

ing service rendered after June 30, 1944, if he had not then been a member of the local retirement system, less the portion of the annuity which would have been payable prior to said date, and an amount equal to which was not paid to the local district under Section 14565, with interest on the balance of the contributions remaining after deducting said portion as it would have been paid from month to month, from the first of the year next following the date on which such contribution would have been payable to the date the deposit is made at the current rate of interest credited to Retirement Fund contributions, the annuity shall be calculated with respect to all such service, in the same manner as if the person were retiring on said effective date. If deposit of such contributions and interest is not made, the annuity shall be calculated in said manner, but including only such service rendered prior to July 1, 1944, and the minimum retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such redeposit.

Benefits from local system

If a person after retirement becomes entitled to a benefit from a local retirement system, based on service which was included in the calculation of his annuity, the annuity shall be recalculated as the effective date of the person's retirement, excluding said service, and the reduced retirement allowance shall be effective on the day the benefit under the local system began to accrue. Annuity contributions made on account of such service, plus interest and less the annuity paid to him on account of the contributions, shall be paid to him.

[Approved by Governor June 27, 1955. Filed with Secretary of State June 28, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 7.2 is added to the Metropolitan Water District Act to read:

Determination of necessity for additional facilities

Sec. 7.2. (a) Whenever the board of directors, by ordinance adopted by a vote of three-fourths of the total vote of the board, shall find and determine that the increasing demands for water to be supplied by such district require the immediate construction or installation of additional works or facilities to enable said district to meet such demands, and that the cost of constructing or installing such additional works or facilities will be too great to be paid out of the ordinary annual income and revenue of the district, but will be within the ability of the district to pay out of income derived from special taxes levied and collected pursuant to annexation proceedings concluded under Section 9 hereof, and that public interest requires the incurring of indebtedness for the purpose of providing moneys for the construction or installation of such additional works or facilities, such board of directors may authorize the incurring of such indebtedness and may authorize the issuance and sale of notes or other evidence of indebtedness for such purpose either in one block or in installments; provided, however, that all such indebtedness so incurred shall be subject to the following limitations: (1) such indebtedness so incurred outstanding at any time shall not exceed fifty (50) percent of the aggregate amount of special taxes thereafter to be levied by the district pursuant to the authority of Section 9 hereof and annexation proceedings concluded thereunder, or one (1) percent of the assessed valuation of property within the district taxable for district purposes, whichever shall be the lesser; (2) the interest payable on such indebtedness shall not exceed six (6) percent per annum payable semiannually; (3) the term of such indebtedness shall not exceed twelve (12) years; and (4) the whole amount of such indebtedness or of the respective installment thereof, depending upon whether the notes or other evidence of such indebtedness shall be issued in one block or in installments, shall be made payable in substantially equal annual parts during the term of such indebtedness or installment thereof, as the case may be. In its discretion the board of directors may provide that any note or other evidence of indebtedness issued hereunder shall be callable at the option of the district on any interest date not earlier than one year from

Incurring of indebtedness

date of issue thereof, at not to exceed 101 per centum of par value thereof, and interest accrued thereon. The denomination or denominations and the form of such notes or other evidence of indebtedness shall be determined by the board of directors. Such notes or other evidence of indebtedness shall be sold at not less than par and accrued interest at public sale after such notice as may be prescribed by the board of directors. The proceeds of any borrowing hereunder (other than accrued interest) shall be applied solely to the purpose specified in the ordinance authorizing the incurring of such indebtedness or to the retirement of the principal of the obligation issued pursuant to such ordinance. Any accrued interest received shall be applied to payment of interest on such indebtedness.

Notice of pendency of ordinance

(b) At least five (5) days prior to the meeting of the board of directors at which any ordinance authorizing the issuance of such notes or other evidence of indebtedness shall be presented for final adoption, notice of the pendency of such ordinance, together with a copy thereof, stating the time of such meeting, shall be mailed by prepaid registered mail to each director, at the address of such director of record in the office of the secretary of the district. No ordinance authorizing the issuance of such notes or other evidence of indebtedness shall be finally adopted unless such notice shall have been so mailed. Proof of such mailing shall be evidenced by affidavit of the officer or agent of the district mailing such notice.

Payment of indebtedness by taxes, revenues, etc

(c) In the discretion of the board of directors, interest and principal on such notes or other evidence of indebtedness may be made payable only from income derived from the levy and collection of special taxes levied pursuant to Section 9 hereof, and annexation proceedings concluded thereunder, and from no other funds; or, as an alternate to such payment, may be made payable primarily from such income, provided that if from any cause, the income and revenues of the district available for such purpose shall be inadequate to pay the interest or principal of any indebtedness incurred under this Section 7.2, when due, the board of directors shall, at the time of fixing the tax levy and in the manner for such tax levy provided, levy and collect annually until such indebtedness shall be paid or until there shall be a sum in the treasury of the district set apart for that purpose, sufficient to meet all sums coming due for principal and interest thereon, a tax sufficient to pay the interest on such indebtedness, or such part thereof as shall not be met from other income and revenues of the district, as such interest becomes due, and also sufficient to pay such part of the principal thereof as shall become due before the time when money will be available from the next general tax levy, or such portion thereof as shall not be met from other income and revenues of the district. The taxes herein required to be levied and collected shall be in addition to all other taxes

levied for district purposes, shall not be limited by the provisions of Section 5, subdivision (8) hereof and shall be collected at the time and in the same manner as other district taxes are collected and shall be used for no purpose other than the payment of such indebtedness and interest accruing thereon.

Refunding indebtedness

(d) Whenever the board of directors by ordinance adopted by a vote of three-fourths of the total vote of the board shall find and determine that the best interests of the district will be served by refunding any indebtedness theretofore incurred and outstanding under this Section 7.2, such board shall be authorized to refund all or part of such indebtedness, and, for that purpose, to issue and dispose of, by exchange or at public sale, notes or other evidence of indebtedness at not less than par and accrued interest; provided, that the interest rate on indebtedness incurred for the purpose of refunding any obligation shall not exceed the interest rate on the refunded indebtedness, and the maturity date or dates thereof shall be not later than the maturity date or dates of the respective refunded obligations. Otherwise any refunding notes or other evidence of indebtedness, issued hereunder, shall conform to the provisions of paragraph (a) of this Section 7.2, may be similarly callable and may in turn be refunded in accordance herewith. The proceeds of the disposition of any refunding notes or other evidence of indebtedness shall be applied solely to the retirement of the outstanding indebtedness for the refunding of which such notes or other evidence of indebtedness were issued. The aggregate indebtedness incurred under this Section 7.2 shall not be increased by any refunding transaction except as, during the interval between disposing of the refunding issue and retirement of the outstanding issue, outstanding obligations may be temporarily increased.

Actions contesting validity of indebtedness

(e) Any action or suit in equity attacking the validity of such notes or other evidence of indebtedness so authorized shall be filed within sixty (60) days after the final adoption of the ordinance authorizing such issuance. After the expiration of such 60 days any such action or suit in equity shall be barred. Any ordinance adopted pursuant to the authority of this Section 7.2 shall take effect immediately upon its adoption.

Construction

(f) This Section 7.2 is in addition to and does not supersede or affect other provisions of this act, particularly Sections 7 and 7.1 and, the provisions of said Sections 7 and 7.1 notwithstanding, indebtedness may be incurred, refunded and retired in the manner, for the purposes and subject to the limitations provided in this Section 7.2.

The officer making the levy may demand and exact the payment or undertaking herein provided for, notwithstanding any defect, informality or insufficiency of the verified claim delivered to him.

Demand for claimed debt

(3) Within five days after being served with such verified claim the officer levying on such property must make demand by registered mail or certified mail on the plaintiff or his attorney for the amount of the claimed debt and interest due to date of tender or the delivery to the officer of an undertaking and statement as hereinafter provided, which demand shall include the copy of such claim.

(7) If the tender is refused, the amount thereof shall be deposited with the county treasurer, payable to the order of the seller or mortgagee.

Sale of property

(8) Until such payment or deposit covering such claim is made, or the undertaking and statement herein provided delivered to the officer, the property cannot be sold under the levy; but when made (and also in case the seller or mortgagee fails to render his claim within 30 days after the personal service upon him by the levying officer of a written demand therefor, which service must be attested by the officer's certificate thereof, filed before the sale with the papers of the action wherein the attachment or execution was issued), then the officer must retain the property, and, in the case of an execu-

The undertaking shall be made to the seller or mortgagee and shall indemnify him for the taking of the property against loss, liability, damages, costs and counsel fees. At the conclusion of the hearing the court shall give judgment determining the validity of the claim under the sales contract or chattel mortgage which shall be conclusive between the claimant and the plaintiff, or other person in whose favor the writ runs. The court in which the action is pending, or which issued such writ, shall have original jurisdiction in all proceedings under this section.

If the property shall have been released by the officer for want of an undertaking or payment, and final judgment shall go for the plaintiff or other person in whose favor the writ runs, the officer shall retake the property on such writ, if the writ shall still be in his hands, or if the writ shall have been returned, another writ may be issued on which the officer may take such property.

Exclusion of city land

SEC. 42. (1) Any territory within the district and now or hereafter embraced within the boundaries of an incorporated city and not substantially benefited by being within the district or by continued inclusion therein, may be excluded by order of the board upon the verified petition of the owner or owners in fee of lands whose area is in excess of one-half of the area of all lands held in private ownership in such territory.

Petition: Contents

The petition shall describe the territory sought to be excluded, and generally describe the land of each petitioner sought to be excluded, and the land sought to be excluded of each owner of record who does not sign the petition together with the name of its owner according to the records of the county recorder of the county in which the land is situated and shall set forth the reasons why it is claimed that such terri-

tory should be excluded and taken from said district. It shall be filed with the secretary. Same: Filing

Upon the filing of the petition, the secretary shall fix a time when the petition will be presented to the board, which shall be not less than 25 days nor more than 50 days after the filing of the petition, and shall cause notice of the filing thereof to be published once a week for at least two weeks in one newspaper of general circulation printed and published in each county within which any portion of the district lies. Such notice shall also state the date of the filing of the petition, a description of the land proposed to be excluded, the names of the petitioners, the time when the secretary will present the petition to the board and that it will come for hearing before the board at such time and shall state the place where the board will meet for the purpose of holding such hearing, and such notice shall also contain an announcement that any persons interested in the proposed exclusion may appear at the time of the hearing and file objections in writing showing cause, if any they have, why the land or any of it should not be excluded. Any landowner or taxpayer or other interested person within the district shall have the right to appear at said hearing either in behalf of said petition or in behalf of said written objections. At the time and place mentioned in the notice or at the time to which the hearing of the petition may be adjourned the board shall hear the petition, all of the objections to it presented in writing, and all evidence introduced in support of the petition and objections. The evidence at such hearing shall be taken down in shorthand and a record made of it and filed with the board. If upon such hearing the board determines that the petition complies with the provisions of this section and determines either that it is for the best interests of the district that the lands mentioned in the petition, or some portion thereof, be excluded from the district or if it determines that such lands, or some portion thereof, will not be substantially benefited by their continued inclusion in the district, the board shall make an order that such lands, or such portion thereof, be excluded from the district, such order to describe specifically the land so excluded. From the time of making such order, the lands so excluded shall be deemed no longer included in the district, but such order of exclusion shall not invalidate in any manner any taxes or assessments theretofore levied or assessed against the lands so excluded, nor shall it in any way limit the authority of the board to levy taxes for the payment of principal and interest under the terms of any contract approved by the voters or of bonds theretofore voted or issued by the district or any improvement district embracing such lands so excluded. The president and secretary of the board shall certify that such order has been adopted to the Secretary of State and to the county recorder of each county within which any portion of said district is located. The petition shall describe the territory sought to be excluded and shall set forth that such territory is not substantially benefited by being in the district or its continued inclusion therein and shall pray that such territory be excluded and taken from said district. It shall be filed with the secretary and accompanied by a deposit with the secretary of the sum of five hundred dollars ($500), to meet expenses of advertising and costs incident to the proceedings, any unconsumed balance to be returned to the petitioner or petitioners.

Investigation

Upon the filing of the petition, the secretary shall transmit a copy thereof to the Department of Public Works, Division of Water Resources, which acting by and through the State Engineer shall make an investigation and determine whether the lands proposed to be excluded, or some portion thereof, will not be substantially benefited by their continued inclusion in the district. In making a determination upon any such petition for exclusion of lands the State Engineer shall exercise his own independent judgment as to whether the lands described in the petition for exclusion will be substantially benefited by remaining in the district, and the State Engineer shall not be bound by the findings of the Legislature in this act with respect thereto. Upon completing such investigation, the department shall file its report with the secretary, which shall describe specifically the lands, if any, which will not be so benefited. The cost and expense of such investigation and report shall be a charge against the district and against the deposit made by the petitioners.

Report

Upon the filing of the report, the secretary shall fix a time when the petition and report will be presented to the board, which shall be not less than 25 days nor more than 50 days after the filing of the report, and shall cause a notice of the filing thereof to be published once a week for at least two weeks in one newspaper of general circulation printed and published in each county within which any portion of the district lies. The president and secretary of the board shall certify that such order has been adopted to the Secretary of State and to the county recorder of each county within which any portion of said district is located. [Approved by Governor June 27, 1955. Filed with Secretary of State June 28, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 20330 of the Government Code is amended to read:

20330. The following persons are excluded from membership in this system:

Exclusion from membership

(a) Inmates of state or public agency institutions who are allowed compensation for such service as they are able to perform.

(b) Independent contractors who are not employees.

SEC. 2. Section 20561 of said code is amended to read:

Vote of electorate

20561. If the contract was approved by an ordinance adopted by a majority vote of the electorate termination by the contracting agency may be effected not less than one year after authority has been granted by ordinance adopted by a majority vote of the electorate of the contracting agency voting thereon.

SEC. 3. Section 20565 of said code is amended to read:

Rights of members

20565. Upon the termination of a contract, all memberships in this system existing because of that contract continue in existence to the extent that there are accumulated contributions to the credit of each such local member, but any such member may elect to withdraw his accumulated contributions. The status of any such member who does not withdraw his accumulated contributions shall be the same as if the public agency had continued as a contracting agency. The membership of any such member who elects to withdraw his accumulated contributions shall be terminated forthwith, and he shall not be entitled to any further benefit based upon service credited as an employee of the contracting agency, nor shall he have the right to redeposit such withdrawn contributions upon again becoming a member of this system. The portion of the contributions of the contracting agency held under Section 20563 to the credit of each member shall be determined by the board, and may be adjusted from time to time prior to termination of membership. A member whose membership continues under this section is subject to the same age and incapacity requirements as apply to other members for service or for disability retirement, but he is not subject to a minimum service requirement. He shall receive such retirement benefits as his accumulated contributions, together with such portion of the excess of the contributions of the contracting agency as are credited to him, will provide, as determined by the board, but the provisions of this part relative to minimum retirement allowances shall not apply to him, nor shall such benefits exceed the benefits provided by the contract prior to its termination. Upon the death of such a member the basic death benefit shall be his accumulated contributions.

SEC. 4. Section 20602 6 of said code is amended to read:

When contribution rates apply

20602.6. The rates of contribution provided for in Sections 20603.1 and 20604 for warden members shall apply on and after July 1, 1945.

SEC. 5. Section 20606 of said code is amended to read:

Local safety members, Normal contributions

20606. For each local safety member other than a member who is a local motor coach operator, the normal rates of contribution shall be based on his age at his entrance into the retirement system as such a member and, if he is entitled to credit for prior service, his age when he entered fire, police, or county peace officer service, both ages being taken to the pre-

ceding completed quarter year. The age at entrance into fire, police, or county peace officer service shall be determined by deducting the amount of such service for which credit for prior service is granted from his age at his entrance into the retirement system. Entrance age

SEC. 6. Section 20608.1 of said code is amended to read:

20608.1. The rates of contribution provided in Sections 20606.1, 20607, and 20608 for members who are motor coach operators shall apply on and after the respective effective dates of the elections of the respective contracting agencies by which they are employed to be subject to the provisions of this part specifically relating to local motor coach operators. Each such member has the option of contributing a sum sufficient to make the amount of accumulated contributions standing to his credit on the effective date of such election of the contracting agency by which he is employed the same as such amounts would have been had he been contributing at the rates, from and after the effective date of his membership in this system, which would have applied to him, assuming the minimum age for voluntary retirement for service specified for local safety members in the contract, throughout such membership. Local motor coach operators When contribution rates apply Option

The election of said option by any such member shall be made by written notice filed in the office of the board not later than 60 days after the date upon which notice of the right of said election is mailed by this system either to the member's latest address on file in the office of this system or to the office, department, or contracting agency by which the member is or last was employed. Said sum, with interest to the date or dates of payment, may be paid in one sum or in not to exceed 60 monthly payments, subject to such minimum payments as may be fixed by the board.

SEC. 7. Section 20609 of said code is amended to read:

20609. When the employment status of a member changes so that he comes within or leaves a membership category, or when a member changes employer but remains in the same membership category in which the percentage per year of final compensation, for each year of service, to be used in determining his service retirement allowance, varies with age at entry into the category, his normal rate of contribution thereafter shall be that applicable to his membership category after the change, at his then attained age. When a member returns to such a membership category with the same employer, his normal rate of contribution for future years shall be based on an age determined by adding the number of completed years of his absence from such membership category, to the age upon which his normal rate of contribution, as it was prior to his absence, was based. The same percentage of his final compensation per year of service which, prior to his absence, his contributions and those of his employer were calculated to provide upon retirement for service at his lowest optional service retirement age without reduced benefit, shall be used in the calculation of his normal rate of contribution. That percentage Change in employment status

shall be adjusted for any change in that service retirement age made after the member left that membership category. The normal rate of contribution of a member shall be changed to what it would have been had the provisions of this section been in effect when the member returned to his former membership category with the same employer and the accumulated normal contributions of the member shall be adjusted by payments to or from the member.

His accumulated contributions remain in or if redeposited shall be credited to his individual account.

SEC. 8. Section 20609.1 of said code is amended to read:

Rate of contribution on reinstatement

20609.1. Upon a member's re-entry into the retirement system at reinstatement from service or disability retirement, his normal rate of contribution shall be based upon an age determined by adding the number of completed years of his absence from state service while under retirement to the age upon which his normal rate of contribution, as it was prior to retirement, was based. The same percentage of his final compensation per year of service which, prior to retirement, his contributions and those of his employer were calculated to provide upon retirement for service at his lowest optional service retirement age without reduced benefit shall be used in the calculation of his normal rate of contribution at reinstatement. That percentage shall be adjusted for any change in that service retirement age made after the member left state service.

SEC. 9. Section 20609.2 of said code is amended to read:

Rate of contribution where contributions left in system

20609.2. If a member who has elected to allow his accumulated contributions to remain in the Retirement System returns to state service, his normal rate of contribution for future years shall be based on an age determined by adding the number of completed years of his absence from state service to the age upon which his normal rate of contribution, as it was prior to said election, was based. The same percentage of his final compensation per year of service which, prior to such termination, his contributions and those of his employer were calculated to provide upon retirement for service at his lowest optional service retirement age without reduced benefit shall be used in the calculation of his normal rate of contribution at reinstatement. That percentage shall be adjusted for any change in that service retirement age made after the member left state service.

SEC. 10. Section 20812 of said code is amended to read:

Credit for other employment Adjustments, etc

20812. All contributions made pursuant to Sections 20810.5 and 20811 shall be considered to be, and shall be administered as, normal contributions by the member, and his normal rate of contribution and his normal accumulated contributions shall be adjusted to what they would have been if his membership in this system had been effective at the beginning of the time for which the contributions are made pursuant to such sections. The state service credited pursuant to such sections shall be credited as current service or prior service, or both, as it

would be credited if the member had been an employee of the contracting agency throughout the service so credited.

SEC. 11. Section 20837 of said code is amended to read:

Unbroken membership

20837. Prior service credited to a local member shall be the basis for a retirement allowance or benefit only if his membership continues unbroken until retirement on retirement allowance or until the granting of such other benefit, except where his membership was terminated by withdrawal of accumulated contributions and such contributions were redeposited upon re-entrance into state service pursuant to Section 20655, or where the prior service was credited pursuant to Section 20834.1.

SEC. 12. Section 20867 of said code is amended to read:

Employment by State or contracting agencies

20867. If a person has been employed by the State or one or more contracting agencies in any relative order and regardless of whether the employment was before or after the effective date of the contract, and if he has not been paid his accumulated contributions, or having been paid such contributions, he redeposits them, a break of one year or less between such employments does not affect his right to receive credit nor the liability of such employers for all state service rendered in their respective employments, and such service shall be included in the calculation of the liability of the respective employers under said contracts.

If the break is more than one year, and if, with respect only to a person credited with at least 20 years of state service or with at least five hundred dollars ($500) in accumulated contributions, said person has withdrawn his accumulated contributions and does not redeposit them, no liability exists, and he shall not receive credit for state service rendered prior to such break except for prior service as a state member. Time during which the person was under retirement shall not be included in calculating the length of the break.

SEC. 13. Section 20986 is added to Article 2 of Chapter 8 of Part 3 of Division 5 of Title 2 of the Government Code, to read:

Request for refund

20986. At any time prior to the payment of his first retirement allowance, a person whose retirement was compulsory under Article 2 of Chapter 8 may file with the board a request for refund of his accumulated contributions as of the effective date of such retirement, in lieu of any other benefit payable under this part. Upon receipt of such request so filed, such contributions shall be paid to him forthwith and he shall not be entitled to any other benefit payable under this part.

SEC. 14. Section 21021 of said code is amended to read:

Retirement for disability

21021. Any member incapacitated for the performance of duty shall be retired for disability pursuant to this chapter if the amount of his accumulated contributions standing to his credit exceeds five hundred dollars ($500) or if he is entitled to be credited with 10 years of state service, regardless of age.

SEC. 15. Section 21264 of said code is amended to read:

Safety members Benefits to widows children, etc

21264. Upon the death of a local safety member after the effective date of this section and after retirement for service or for industrial disability, including such members heretofore and hereafter retired, one-half his retirement allowance as it was at his death, excluding any portion of said allowance which is based on service other than fire service or police service or any service rendered as an employee of the State or a contracting agency not subject to the provisions of this section or which was derived from accumulated additional contributions of the member, shall be continued throughout life or until remarriage, to his surviving wife. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age; provided, that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children under the age of 18 years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member at least one year prior to his retirement. If at the effective date of said retirement, said member has no wife, children or dependent parents, who would so qualify and if said member elects as provided in Section 21330 to have the actuarial equivalent of his retirement allowance applied to a lesser retirement allowance, in accordance with an optional settlement, no allowance shall be paid under this Section 21264.

SECTION 1. Section 21027 of the Government Code is amended to read:

Benefits

21027. The board shall proceed with retirement and with the payment of such benefits as are payable when disability is not industrial. If the Industrial Accident Commission subsequently determines that disability is industrial, an amount equal to the benefits paid shall be deducted from the benefits payable under this system because of such determination. No additional benefits shall be payable, however, because disability is determined to be industrial unless the application for such determination is filed with the Industrial Accident Commission or in the office of this system in Sacramento, for transmission to the Industrial Accident Commission, within two years after the effective date of the member's retirement.

SEC. 2. Section 21263 of said code is amended to read:

Patrol members Benefits to widows, children, etc

21263. Upon the death of a patrol member after the effective date of this section and after retirement for service or for industrial disability, including such members heretofore and hereafter retired, one-half his retirement allowance as it was at his death, excluding any portion of said allowance which is based on service other than highway patrol service or which was derived from accumulated additional contributions of the member, shall be continued throughout life or until remarriage, to his surviving wife. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age; provided, that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children under the age of

18 years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member at least one year prior to his retirement. If at the effective date of said retirement, said member has no wife, children or dependent parents, who would so qualify and if said member elects as provided in Section 21330 to have the actuarial equivalent of his retirement allowance applied to a lesser retirement allowance, in accordance with an optional settlement, no allowance shall be paid under this Section 21263.

Determination of industrial death

21367. In the absence of an application to the Industrial Accident Commission, filed by a proper party, the board shall proceed with the payment of the basic death benefit. If an application is filed subsequently with the Industrial Accident Commission and the commission determines that the death was industrial, an amount equal to the basic death benefits paid, if any, shall be deducted from the special death benefit. The special death benefit shall not be payable, however, because the death is determined to be industrial unless the application for such determination is filed with the Industrial Accident Commission or in the office of this system in Sacramento, for transmission to the Industrial Accident Commission, within two years after the date of death of the member.

Urgency

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The interagency transactions of the various agencies in the State Government represent a multimillion dollar volume of transactions annually which necessitates accounting procedures and controls flexible enough to maintain and reflect the current status of the separate appropriations and funds. Unless changes in such procedures become effective at the beginning of a fiscal year, a great many adjustments in the various accounts of the state agencies must be made with a resultant increase in cost of government and possible delay in the performance of essential governmental services. It is therefore necessary that this act take effect immediately.

CHAPTER 1434

There is hereby appropriated to the Water Project Authority the sum of one hundred thousand dollars ($100,000), payable from the Flood Control Fund of 1946, to initiate the further investigation and study of the Junction Point Barrier and Chipps Island Barrier and appurtenant facilities, as such barriers and facilities are described in the report of the Water Project Authority to the Legislature entitled "Feasibility of Construction by the State of Barriers in the San Francisco Bay System," dated March, 1955, for the purposes of developing complete plans of the means of accomplishing delivery of fresh water to the San Francisco Bay area, including the Counties of Solano, Sonoma, Napa, Marin, Contra Costa, Alameda, Santa Clara, San Benito, and San Mateo, and the City and County of San Francisco, providing urgently needed flood protection to agricultural lands in the Sacramento-San Joaquin Delta, conducting subsurface exploration work in the delta and designing facilities appurtenant to the cross-delta aqueduct, obtaining more complete information on the hydrology of the delta, and studying integration of the proposed project in the California Water Plan.

Contract powers of Water Project Authority

SEC. 2. The Water Project Authority may contract with such other public agencies, federal, state, or local, as it deems necessary for the rendition and affording of such services, facilities, studies, and reports to the Water Project Authority as will best assist it to carry out this act. The Water Project Authority may also employ, by contract or otherwise, such private consulting engineering and other technical services as it deems necessary for the rendition and affording of such services, facilities, studies, and reports as will best assist it to carry out this act.

Cooperation with federal agencies, etc

SEC. 3. It is the intent of the Legislature that in conducting the study and investigation the Water Project Authority shall confer and exchange information with and shall seek the participation of the United States Navy, the United States Bureau of Reclamation, the United States Corps of Engineers and the local port districts to the extent possible.

Report

SEC. 4. The Water Project Authority shall report to the Legislature the result of its study and investigation not later than March 30, 1957.

Short title

SEC. 5. This act shall be known and may be cited as the Abshire-Kelly Salinity Control Barrier Act of 1955.

Urgency

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The areas adjacent to the San Francisco Bay urgently need an adequate supply of fresh water for domestic and industrial uses. It is essential to the public health, safety and welfare that a study of salinity control barriers as a means of securing such a supply of fresh water, be undertaken without delay.

CHAPTER 1435

An act to amend Section 27 of an act entitled "An act making an appropriation for allocation to cities, counties, and cities and counties to develop a postwar public works program comprising the preparation of surveys and plans and specifications for proposed public works and the acquisition of rights of way and sites for major streets, roads, bridges, sewerage and other public facilities, and providing the procedure for making such allocations," approved June 20, 1944, relating to public works programs, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 27, 1955. Filed with Secretary of State June 28, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 27 of the act cited in the title hereof is amended to read:

Sec. 27. Any money appropriated by this act for allocation to local agencies which is not expended by the State or for which application is not made on or before January 1, 1957, shall revert to the General Fund in the State Treasury. No claims for payment in connection with such applications shall be allowed unless the same are presented to the Director of Finance on or before June 30, 1958, except in cases of condemnation proceedings to acquire real property instituted prior to and pending on the latter date.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Section 1 of Article IV of the Constitution and shall therefore go into immediate effect. A statement of the facts constituting such necessity is as follows:

In order that needed public works may be constructed, including public works necessary for sewerage, storm drain and water facilities, it is necessary that land be acquired and plans

prepared. Rising costs of construction materials, lack of professional assistance and the accumulation of local matching funds have caused many cities, counties and districts to defer the preparation of plans, thus delaying their requests for state matching funds. Plans can now be prepared which will result in requests from local political subdivisions for the funds made available on a matching basis by this act.

It is essential that the preparation of plans and the acquisition of sites for the public works program contemplated by the act cited in the title hereof proceed without delay and therefore it is necessary that this act go into effect immediately.

CHAPTER 1436

An act to amend Section 26 of the Construction and Employment Act (Chapter 20 of the Statutes of 1946, First Extraordinary Session), relating to allocation of state funds to local agencies for the construction of public works, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 27, 1955. Filed with Secretary of State June 28, 1955.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 26 of the act cited in the title hereof is amended to read:

Sec. 26. Any money appropriated by this act for allocation to local agencies which is not obligated for expenditure by the State or for which application is not made on or before January 1, 1957, shall revert to the General Fund in the State Treasury; provided, however, that encumbrances made against said money during its period of availability may be paid at any time until June 30, 1958. Any money appropriated by this act for support of the Controller and for support of the director and the department shall be available for expenditure until June 30, 1958; provided, however, that encumbrances made against said money during its period of availability may be paid at any time until June 30, 1959.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is a continuing need for a program of public works by local governmental agencies for the purposes set forth in the Construction and Employment Act. Unless this act takes effect immediately that program will terminate on June 30, 1955, with resulting adverse effect upon the people and the economy of this State, and to the detriment of many local governmental agencies.

CHAPTER 1437

An act to add Sections 50, 51, and 52 to the Construction and Employment Act (Statutes of 1946 (First Extraordinary) Session, Chapter 20), relating to the allocation of funds to cities, making an appropriation therefor, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 27, 1955. Filed with Secretary of State June 28, 1955.]

The amount to be allocated to each such city applying shall be apportioned to such city in the proportion that its total population bears to the total population of all cities in the State incorporated on or after April 30, 1946, and before July 1, 1946, and be in addition to any other allocations made to such cities pursuant to this act.

SEC. 2. Section 51 is added to the Construction and Employment Act, to read:

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The certain cities incorporated during the era immediately following World War II are unable to provide a water supply sufficient to meet immediate health and safety requirements. Because such cities lack funds needed to repair their existing water systems to meet the requirements of rapid growth and to protect the people of the State, it is necessary that this act take effect immediately.

CHAPTER 1438

An act to amend Section 7722 of the Education Code, relating to state school building aid.

[Approved by Governor June 28, 1955. Filed with Secretary of State June 28, 1955.] In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 7722 of the Education Code is amended to read:

7722. No apportionment shall be made to a school district for any grade level if the estimated cost of the project, as approved by the Director of Finance, is (1) an amount which would result in an apportionment to the district exceeding the amount authorized at the district election held under Section 7719, or (2) is an amount which if raised by the issuance and sale of bonds of the district running for 25 years bearing the current going rate of interest as determined by the board and the principal of which is payable in 25 equal annual payments, would require the levy of a tax under Section 7516 upon property in the district which would, when added to the tax actually being levied upon property in the district for the grade level as determined by the Director of Finance under said section, amount to less than thirty cents ($0.30) on each one hundred dollars ($100) of assessed valuation of property in the district during the next fiscal year.

At the time the board makes an apportionment, it shall, with the approval of the Director of Finance, fix the interest to be paid by the district on the sum apportioned to it at a rate equal to the effective rate paid by the State upon the bonds sold from the proceeds of which the apportionment is

made, giving effect to the price at which the bonds are sold and the premium, if any, paid thereon, adjusted to the next highest one-eighth of 1 percent, to cover the cost of sale and issuance of the bonds and costs of administration, to be compounded annually on the first day of January of each year.

The Controller shall recompute the rates of interest fixed for apportionments made prior to the amendment to this section made at the 1955 Session of the Legislature in accordance with this section as amended at such session and shall adjust the records of his office in order to show such recomputation.

CHAPTER 1439

An act to add Sections 7723 and 7723.1 to the Education Code, relating to state school building aid, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 28, 1955. Filed with Secretary of State June 28, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 7723.1 is added to the Education Code, to read:

Apportionments

7723.1. The State Allocation Board may make apportionments to school districts pursuant to this chapter in amounts which, when added to amounts previously apportioned, do not exceed the total amount of state school building bonds authorized by Article XVI of the California Constitution, the proceeds of which are for grants and loans to school districts as provided by said Article XVI, before the sale of such bonds and the deposit of the proceeds thereof in the State School Building Aid Fund if it designates any such apportionment as being subject to the sale of bonds in a sufficient amount, and the deposit of the proceeds thereof, in such fund.

SEC. 2. Section 7723 is added to said code, to read:

Rate of interest

7723. Notwithstanding any provision to the contrary after the effective date of this section, at the time the board makes an apportionment, the board, with the approval of the Director of Finance, shall, pursuant to this section, fix the rate of interest to be paid by the district on the sum apportioned to it. The board shall compute the average of the rates of interest which the State pays upon the state school building bonds, authorized by Article XVI, sold at the three sales of state school building bonds occurring immediately prior to the apportionment, or, if the board so determines, at all of the sales of such bonds occurring in the two years immediately prior to the apportionment, giving effect to the price at which the state school building bonds sold at such sales, and the premium, if any paid, thereon. Such average rate shall be adjusted to the next highest one-tenth of 1 percent to cover the cost of sale and

issuance of the bonds and costs of administration. Such adjusted average rate shall be the rate paid by the district on its apportionment, and shall be compounded annually on the first day of January of each year.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law the state school building bonds must be sold and the proceeds thereof available before the State Allocation Board can make a final apportionment of such proceeds to the school districts even though the full amount of such apportionment will be actually disbursed to the district over a period of time. Such a method is unnecessarily wasteful of State General Fund money in that it costs the State in the interest payments on the state bonds, several million dollars a year. Under this act the apportionments would be made payable out of the proceeds of the state bonds when they are sold, and bonds will be sold when needed for disbursement to the school districts, thus avoiding the holding in the State Treasury of funds earmarked for particular school districts but not yet needed by the districts under their building schedule. In order that this savings of state funds may be made as soon as possible it is essential that this act take effect immediately.

CHAPTER 1440

An act to add Part 3.5 to, Division 5, Title 2 of, and to amend Section 16395, of the Government Code, relating to the State Employees' Retirement System, in respect to the integration therein of the old age and survivors insurance coverage, making an appropriation therefor and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 27, 1955. Filed with Secretary of State June 29, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Part 3.5 is added to Division 5, Title 2 of the Government Code, to read:

PART 3.5. INTEGRATION OF OLD AGE AND SURVIVORS INSURANCE

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

Article 1. General Provisions

Legislative intent

21600. It is the intent of the Legislature that the enactment of this part shall authorize persons in positions covered

by the State Employees' Retirement System to participate in the federal old age and survivors insurance provisions of the Social Security Act without jeopardizing the continued maintenance of their state system.

To this end and notwithstanding any other provisions of the State Employees' Retirement Law, the provisions of this part shall supersede or modify any inconsistent provision in such law in its application to every member whose position is included in an agreement between the State and the Federal Government for coverage under the old age and survivors insurance provisions of the Social Security Act. The provisions of this part shall be applicable to each such employee upon the effective date of the agreement or modification of agreement which includes such employees' position.

CHAPTER 2. BENEFITS

Apportioned federal benefit

21630. Every monthly retirement allowance payable pursuant to the state system to a person who was a state or university member shall be reduced by the amount of the apportioned federal benefit to which the person is entitled, beginning with:

(a) The first of such allowances, if the person has attained the federal retirement age on the effective date of his retirement under the state system, or

(b) The allowance payable for the month in which the person attains the federal retirement age if he had not attained that age on the effective date of his retirement under the state system.

Requirements for reduction

21632. The reduction provided for in Section 21630 shall not be made at any time if the person is not entitled to a federal benefit upon the effective date of his retirement from the state system, if he has then attained the federal retirement age, or upon the attainment of that age after said effective date.

Persons entitled to federal benefit

21634. A person shall be considered, for the purposes of this part, to be entitled to a federal benefit if he has fulfilled the age and coverage requirements for qualification for receipt of a federal benefit.

Determination of apportioned federal benefit

21636. In determining the apportioned federal benefit for the purposes of Sections 21630 or 21637, the board shall take into consideration such information regarding federal system wage credits as are made available to the board by the federal agency, the records maintained by the board and any statement by the federal agency of the person's federal benefit. Said determination shall be finally made by the board within the 120 days following the month for which the allowance was first reduced in accordance with the provisions of Section 21630 and any error in payments already made shall be adjusted in a manner determined by the board. Upon receipt by the board of information satisfactory to it that the final determination of the apportioned federal benefit was based on erroneous information, the board shall then make a redetermination of said benefit. Future retirement allowances shall be reduced by the redetermined benefit and the correction for payments already made shall be adjusted in a manner fixed by the board.

Computation of payable allowance

21637. The lesser retirement allowance payable under an optional settlement elected at retirement, pursuant to Article 4 of Chapter 9 of the State Employees' Retirement Law, shall be actuarially equivalent to the retirement allowance that would have been payable at retirement had no optional settlement been elected after taking into consideration the reduction in said allowance provided for in Section 21630. Upon the election of an optional settlement by a member who has not attained the federal retirement age the board shall estimate the apportioned federal benefit upon the basis of information then available to it. If the death of such a member

should occur before he has attained the federal retirement age, payments under the optional settlement elected shall be as thus estimated. If such a member attains the federal retirement age, the board shall then recalculate the lesser retirement allowance payable under the optional settlement upon the basis of the age of the member and the beneficiary on the effective date of retirement, actuarial tables then in use, and the apportioned federal benefit determined as provided in Section 21636. Payments of the recalculated amount shall be made beginning with the month in which the federal retirement age was attained and such payments shall be increased or decreased by the actuarial equivalent of any difference in payments previously made and such recalculated amount.

Minimum allowance payments to members

21638. Notwithstanding any other provision of this part, no member shall be paid an allowance from the State Employees' Retirement Fund which is less than the life annuity that could be provided by the accumulated contributions with which he was credited on the effective date of his retirement, on the basis of actuarial tables in use by the board on such date.

Construction

21639. Notwithstanding the provisions of Sections 20332 and 20809 of the State Employees' Retirement Law, nothing in said law shall act to prohibit the receipt of credit in the state system, nor the payment of benefits relating thereto, for service which is also being credited in the federal system, and persons shall not be excluded from the state system as to such service as is being credited in the federal system.

Filing information with federal system

21640. To the extent permitted by federal law or regulations, the board may file applications or other documents with the federal system relating to members of the State Retirement System, and receive information regarding the entitlement of such members under the federal system.

Evidence of right to benefits

21641. The board may require a member to provide evidence of his entitlement to federal benefits, and may estimate the apportioned federal benefit and date of first entitlement in computing a member's allowance, which computation may be adjusted pending a final determination by the board; provided, that a final determination shall not thereafter be subject to adjustment except as otherwise provided in this part.

Chapter 3. Contributions

Article 1. Procedure

Deduction from salaries, etc.

Such agencies are hereby authorized to correct errors and to make any and all adjustments with respect

Certificate of federal employer contributions

21673. The board shall certify to the Controller from time to time the total amount of employer federal contributions required to meet the obligations of the State under the federal system with respect to wages paid to state and university employees, excluding employees in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, and payable from the general and each other fund in the State Treasury, and the Controller shall thereupon transfer such employer federal contributions from each such fund, respectively, to the Old Age and Survivors Insurance Revolving Fund.

Appropriation

21674. There is hereby appropriated the amount necessary from the funds designated, to provide, (a) the payments required by this article to be made by the State to the Old Age and Survivors Insurance Revolving Fund, which payments are declared to be continuing obligations of the State, (b) the amounts payable pursuant to Articles 4 and 5 of this chapter, and (c) in addition thereto the sum of three hundred fifty thousand dollars ($350,000) from the General Fund to the Department of Finance for the purpose of administering the provisions of Parts 3.5 and 4 of Division 5 of Title 2 of this code, to be allocated by the Director of Finance in such amounts as he may determine in augmentation of the support appropriations of the University of California, the State Controller and the Board of Administration of the State Employees' Retirement System made by the Budget Acts of 1954 and 1955; provided, however, that the Director of Finance may return to this portion of the appropriation by executive order any sum thus allocated and may reallocate such sums as herein provided and amounts thus allocated or reallocated shall, for accounting purposes, be deemed to be augmentations and increases of the support appropriations of the agencies and for the fiscal years herein specified.

21680. Employee federal contributions required of state and university employees, excluding employees who are in positions covered by the Pension and Retiring Annuities System of the University of California or the State Teachers Retirement System, with respect to salaries and wages paid for services rendered after the effective date of coverage of such employees under the federal system and prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, shall be paid from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund. Such employee federal contributions shall be charged in the accounts of the state system to the State's accumulated contributions for current service and shall be regarded as a loan to each such employee and shall be a lien on any salaries or wages payable to the employee and on any amounts payable by the state system to the employee or on his account. Said loan shall be repaid by the employee as follows:

(a) Such employee federal contributions with respect to employees who were members of the state system during the period extending from the effective date of coverage until the time employee federal contributions are first deducted from the salaries and wages of such employees shall be deducted from the member's accumulated contributions made with respect to services performed during the said period and which are to his credit in the state system, to the extent that such contributions are in excess of what they would have been had the contributions to the state system during the said period been made as provided in Section 21660, disregarding interest; provided, however, that for any employee who was a member of the state system on the effective date of coverage, all such employee federal contributions shall be deducted from such accumulated retirement contributions of the employee.

(b) Such employee federal contributions as are not deductible from members' accumulated contributions in the state system as provided in subdivision (a) of this section shall be repaid by the employee by one cash payment to the state system or by pay roll deductions during current employment or any subsequent employment of such employee extending over a period determined by the board and subject to minimum payments as determined by the board, under a plan approved by the State Controller. The agency making such pay roll deductions shall remit to the board monthly all amounts so withheld and shall file with the board appropriate information relating thereto. All such repayments shall be remitted by the board to the State Employees' Retirement Fund and shall be credited in the accounts of the state system to the account to which the loan was charged.

For the purposes of this section, upon termination of an employee's service and pending a determination of the amount to

be repaid, the amount of retroactive employee federal contributions to be repaid by an employee may be estimated and such estimated amount shall be withheld from any refund of accumulated retirement contributions or salaries and wages payable to such employee.

Certificate to State Controller

21681. The board shall certify to the State Controller the total amount of employee federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

Article 5. Retroactive Employer Federal Contributions

Certificate to State Controller

21691. The board shall certify to the State Controller the total amount of employer federal contributions required for retroactive coverage under the federal system and the Controller shall thereupon transfer such amount from the State Employees' Retirement Fund to the Old Age and Survivors Insurance Revolving Fund.

Chapter 4. Contract Members

Excluded employees

21700. Except as hereinafter provided in this chapter, the provisions of this part do not apply to any public agency under contract with the board, as provided by the State Employees' Retirement Law, nor to the employees of such an agency with respect to services rendered as an employee of the agency. Notwithstanding the provisions of Chapter 4.5 of said retirement law, the provisions of this part do not apply to contracts made under that law with any county superintendent of schools nor to persons who are members of the state system on account thereof, except as hereinafter provided in this chapter.

Amendments to contracts

21702. With the approval of the board, any contract made under the provisions of the State Employees' Retirement Law between the board and a public agency may be amended to provide a modification of the benefits to be paid under said contract, and to provide an adjustment in contributions made,

or to be made, by employees to the state system, if the agreement executed by the board pursuant to Section 218 of Title II of the Social Security Act is simultaneously modified to include in the federal system the employees of the agency in positions covered by the state system. The amendment to such contracts as are subject to the provisions of Sections 21251.1 and 21253 of said Retirement Law, shall provide a modification of benefits and employee contributions under the contract like that provided in Chapters 2 and 3 of this part for the State and its employees. As may be agreed upon by the board and the public agency, a contract which is not subject to said sections may be amended to provide a modification of benefits to be payable under the contract and an adjustment of the contributions made, or to be made, by employees to the state system; provided, the agreement executed by the board pursuant to Section 218 of Title II of the Social Security Act is simultaneously modified to include in the federal system the employees of the agency in positions covered by the state system.

The amendment to the contract shall be made in the manner prescribed in the State Employees' Retirement Law for the approval of contracts.

Referendum

21704. The referendum referred to in Section 22301 of this code with respect to county superintendent of schools is hereby authorized. When a majority of the eligible employees in positions covered by the state system under the contract between the board and a county superintendent, as provided in Chapter 4.5 of the State Employees' Retirement Law, have voted in favor of inclusion in the federal system, the county superintendent may make formal application to the board for the inclusion of such employees in the agreement in accordance with Part 4 of this division. The contract between the board and the county superintendent of schools shall be amended effective upon such inclusion to provide a modification of the benefits and contributions like that provided in Chapters 2 and 3 of this part for the State and its employees. The amendment to this contract shall be made in the manner prescribed in the State Employees' Retirement Law for the approval of contracts.

Payment of retroactive contributions

21706. If the effective date of coverage under the federal system of the employees of a public agency under contract with the board of the state system is effective prior to the time employee federal contributions are first deducted from the salaries and wages of such employees, said contract with the board may be amended to provide for the payment of retroactive employee and employer federal contributions from the accounts of the employee or the public agency, as the case may be, in the State Employees' Retirement System in the same manner as provided in Articles 4 and 5 of this part for the State and its employees.

Contracts with public agency after act effective

21708. Contracts made by the board with a public agency after this part takes effect, may provide a modification, as may

be agreed upon by the board and the agency, of the benefits provided under the State Employees' Retirement Law and adjusted employee contributions to be paid under said law if the employees of the agency are covered by the federal system or are to be so covered on the effective date of the contract.

SEC. 2. Section 16395 of the Government Code is amended to read:

(a) An employee may receive the second increment beginning on the first day of the month after completion of one year of service at the first increment.

Notwithstanding the foregoing provisions of this section, an employee who is promoted or reclassified from one class to another having a higher overlapping salary range shall be adjusted to the minimum of the new range or to one step above his old salary, but thereafter shall be governed by this section.

[Approved by Governor June 29, 1955. Filed with Secretary of State June 30, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 416.1 is added to the Code of Civil Procedure, to read:

Notice of motion to quash service of summons

416.1. Any defendant or cross-defendant upon whom service of summons has been made may serve and file, on or before the last day on which he is required to plead, or within such further time as the court may for good cause allow, a notice of motion to quash the service of summons, upon the ground of lack of jurisdiction of the court over him. The notice shall designate as the time of making such motion a date not more than 10 days following the filing of such notice of motion. In the event of the service and filing of such motion, the time of the moving party to plead to the complaint or cross-complaint shall be extended, and no default may be entered against him, until the expiration of 10 days following service upon him of written notice of entry of an order of the court denying the motion. Upon good cause being shown, the court may extend the latter 10-day period for an additional period not exceeding 20 days. Neither an application to the court by any defendant or cross-defendant for an extension of time within which to plead, nor the granting of such extension nor entering into a stipulation of the parties for such extension, shall constitute a general appearance by said defendant or cross-defendant.

SEC. 2. Section 416.2 is added to said code, to read:

General appearance

416.2. If a defendant or cross-defendant moves to quash service of summons in the manner provided in Section 416.1 of this code, and also moves for relief under Section 473 of

this code, the latter motion shall not constitute a general appearance by the moving party.

SEC. 3. Section 416.3 is added to said code, to read:

Denial of motion

416.3. If a motion of a defendant or cross-defendant to quash service of summons, as provided in Section 416.1 of this code, is denied by the court, he may, before pleading, and within 10 days after service upon him of written notice of the order of the court denying the motion, or within such additional time not exceeding 20 days as the court may allow, petition an appropriate appellate court for a writ of mandate directed to the court wherein the action or proceeding is pending requiring the entry of its order quashing the service of summons. If he shall thereupon serve upon the adverse party and file with the clerk of the latter court a notice that he has petitioned for such writ of mandate, his time to plead shall be extended, and no default may be entered against him, for a period of 10 days following written notice of the final judgment in the mandamus proceeding, which time for good cause may be extended by the court for an additional period of not to exceed 20 days.

SEC. 3a. Section 435 is added to said code, to read:

Notice of motion to strike complaint

435. The defendant, within the time required in the summons to answer, either at the time he demurs to the complaint, or without demurring, may serve and file a notice of motion to strike the whole or any part of the complaint. The notice of motion to strike shall specify a hearing date not more than 15 days from the filing of said notice, plus any additional time that the defendant, as moving party, is otherwise required to give the plaintiff. If defendant serves and files such a notice of motion without demurring, his time to answer the complaint shall be extended and no default may be entered against him, except as provided in Sections 585 and 586, but the filing of such a notice of motion shall not extend the time within which to demur.

SEC. 4. Section 442 of said code is amended to read:

Cross-complaint

442. Whenever the defendant seeks affirmative relief against any party, relating to or depending upon the contract, transaction, matter, happening or accident upon which the action is brought or affecting the property to which the action relates, he may, in addition to his answer, file at the same time, or by permission of the court subsequently, a cross-complaint. The cross-complaint must be served upon the parties affected thereby, and such parties may demur or answer thereto, or file a notice of motion to strike the whole or any part thereof, as to the original complaint. If any of the parties affected by the cross-complaint have not appeared in the action, a summons upon the cross-complaint must be issued and served upon them in the same manner as upon the commencement of an original action.

SEC. 5. Section 581a of said code is amended to read:

Motion to dismiss

581a. No action heretofore or hereafter commenced shall be further prosecuted, and no further proceedings shall be had

therein, and all actions heretofore or hereafter commenced must be dismissed by the court in which the same shall have been commenced, on its own motion or on the motion of any party interested therein, whether named in the complaint as a party or not, unless summons shall have issued within one year, and all such actions must be in like manner dismissed, unless the summons shall be served and return thereon made within three years after the commencement of said action, except where the parties have filed a stipulation in writing that the time may be extended. But all such actions may be prosecuted, if general appearance has been made by the defendant or defendants, within said three years in the same manner as if summons had been issued and served; provided, that, except in actions to partition or to recover possession of, or to enforce a lien upon, or to determine conflicting claims to, real or personal property, no dismissal shall be had under this section as to any defendant because of the failure to serve summons on him during his absence from the State, or while he has secreted himself within the State to prevent the service of summons on him.

All actions, heretofore or hereafter commenced, must be dismissed by the court in which the same may be pending, on its own motion, or on the motion of any party interested therein, if summons has been served, and no answer has been filed, if plaintiff fails, or has failed, to have judgment entered within three years after service of summons, except where the parties have filed a stipulation in writing that the time may be extended.

A motion to dismiss pursuant to the provisions of this section shall not, nor shall any extension of time to plead after such motion, constitute a general appearance.

SEC. 6. Section 585 of said code is amended to read:

585. Judgment may be had, if the defendant fails to answer the complaint, as follows: Default judgments

1. In an action arising upon contract for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of said defendants have, been personally served and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons pursuant to Section 416.1 of this code or notice of the filing of a petition for writ of mandate as provided in Section 416.3 of this code has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon application of the plaintiff, and proof of such service of summons, must enter the default of the defendant or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against said defendant, or defendants, or against one or more of said defend-

ants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of said default, the court shall hear the application for determination of the attorney fee and render judgment for the same and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against said defendant, or defendants, or against one or more of said defendants.

2. In other actions, if the defendant has been personally served and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons pursuant to Section 416.1 of this code or notice of the filing of a petition for writ of mandate as provided in Section 416.3 of this code has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, in courts having a clerk, must enter the default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; in courts which have no clerk, the court must hear the evidence offered by the plaintiff, and must render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved, by a reference as above provided.

3. In all actions where the service of the summons was by publication the plaintiff, upon the expiration of the time for answering, may, upon proof of the publication, and that no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons pursuant to Section 416.1 of this code or notice of the filing of a petition for writ of mandate as provided in Section 416.3 of this code has been filed, apply for judgment; and the court must thereupon require proof to be made of the allegations of the complaint; and if the defendant is not a resident of the State, must require the plaintiff, or his agent, to be examined, on oath, respecting any payments that have been made to the plaintiff, or to anyone for his use, on account of any demand mentioned in the complaint, and may render judgment for the amount which he is entitled to recover; pro-

vided that, in all cases affecting the title to or possession of real property, where the service of the summons was by publication and the defendant has failed to answer, no judgment shall be rendered upon proof of mere occupancy, unless such occupancy shall have continued for the time and shall have been of the character necessary to confer title by prescription, and in all cases where the plaintiff bases his claim upon a paper title, the court shall require evidence establishing plaintiff's equitable right to judgment before rendering such judgment; provided further, however, that in actions involving merely the possession of real property where the complaint is verified and shows by proper allegations that no party to the action claims title to the real property involved, either by prescription, accession, transfer, will or succession but only the possession thereof, the court may render judgment upon proof of occupancy by plaintiff and ouster by defendant.

A notice of motion to strike within the meaning of this section is a notice of motion to strike the whole or any part of a pleading filed within the time within which the moving party is required otherwise to plead to said pleading. The notice of the motion to strike shall specify a hearing date not more than 15 days from the filing of said notice, plus any additional time that the moving party is otherwise required to give the adverse party. The filing of such notice of motion does not extend the time within which to demur.

SEC. 7. Section 586 of said code is amended to read:

586. In the following cases the same proceedings must be had, and judgment must be rendered in the same manner, as if the defendant had failed to answer: Other defaults

1. If the complaint has been amended, and the defendant fails to answer it, as amended, or demur thereto, or file a notice of motion to strike, of the character specified in Section 585, within 10 days after service thereof or within the time allowed by the court;

2. If the demurrer to the complaint is overruled and a motion to strike, of the character specified in Section 585, is denied, or where only one thereof is filed, if the demurrer is overruled or the motion to strike is denied, and the defendant fails to answer the complaint within the time allowed by the court;

3. If a motion to strike, of the character specified in Section 585, is granted in whole or in part, and the defendant fails to answer the unstricken portion of the complaint within the time allowed by the court, no demurrer having been sustained or being then pending;

4. If a motion to quash service of summons has been filed or writ of mandate sought and notice thereof given, as provided in Section 416.1 or Section 416 3 of this code, and upon denial of such motion or writ, defendant fails to plead to the complaint, within the time provided in said sections or as otherwise provided by law;

5. If the demurrer to the answer is sustained and the defendant fails to amend the answer within the time allowed by the court.

SEC. 8. Section 1014 of said code is amended to read:

Appearance

1014. A defendant appears in an action when he answers, demurs, files a notice of motion to strike, or gives the plaintiff written notice of his appearance, or when an attorney gives notice of appearance for him. After appearance, a defendant or his attorney is entitled to notice of all subsequent proceedings of which notice is required to be given. But where a defendant has not appeared, service of notice or papers need not be made upon him unless he is imprisoned for want of bail

"Minor amendments"

(v) "Minor amendments" are amendments to any marketing order or agreement made effective by the director upon recommendation of the advisory board concerned, as specified in subdivision (d) of Section 1300.16, with or without prior notice and public hearing, which change or modify the language or the provisions of any such marketing order or agreement for the purpose of clarification or the removal of conflicts

of meaning without involving changes or modifications of language or provisions which, pursuant to the provisions of this section, are classed as major amendments.

SEC. 2. Section 1300.16 of said code is amended to read:

Handler's assent

1300.16. (a) (1) No marketing order or major amendment thereto, directly affecting handlers, issued pursuant to this chapter, shall become effective unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by the handlers engaged in the marketing activity or activities regulated by such marketing order who handle not less than sixty-five percent (65%) of the volume of the agricultural commodity regulated thereby which is processed or distributed within the area defined in such marketing order or amendment thereto, or that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five percent (65%) of the number of handlers engaged in the marketing activity or activities regulated by such marketing order; provided, however, that any marketing order or major amendment thereto directly affecting processors engaged in the operation of canning of fresh fruits or vegetables or canning or packing of dried fruits shall not be made effective by the director unless and until the director finds that such marketing order or amendment thereto has been assented to in writing by such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto who processed not less than sixty-five percent (65%) of the volume of such agricultural commodity which is processed within the area defined in such marketing order or amendment thereto and by sixty-five percent (65%) of the number of such processors engaged in the marketing activity or activities regulated by such marketing order or amendment thereto.

Producer's assent

(2) No marketing order or major amendment thereto, directly affecting producers or producer marketing, issued pursuant to this chapter, shall be made effective by the director unless and until the director finds one or more of the following: (A) that such marketing order or amendment thereto has been assented to in writing by not less than sixty-five percent (65%) of the producers who are engaged, within the area specified in such marketing order or amendment thereto, in the production for market or engaged in such producer marketing, of not less than fifty-one percent (51%) of the agricultural commodity specified therein in commercial quantities, or (B) that such marketing order or amendment thereto has been assented to in writing by producers who produce not less than sixty-five percent (65%) of the volume of such agricultural commodity and by fifty-one percent (51%) of the total number of producers so engaged, or (C) that such marketing order or amendment thereto has been approved or favored by producers in a referendum among producers directly affected if the valid votes cast in such referendum in favor of such marketing order or amendment thereto represent not less than fifty-one percent (51%) of the total number of producers of said commodity of record

with the department who marketed not less than fifty-one percent (51%) of the total quantity of said commodity marketed in the next preceding marketing season by said total number of producers of record with the department. Whenever any marketing order or any major amendment to any marketing order is issued by the director, he shall determine whether assent, approval, or favor thereto of the producers shall be by written assents or by referendum.

Referendum

If the director determines that a referendum shall be had, he shall establish a referendum period of sixty (60) days. At the close of such referendum period, the director shall count and tabulate the ballots filed during said period. If from such tabulation the director finds that the number of producers voting in favor of such marketing order or amendment thereto is not less than fifty-one percent (51%) of the total number of producers of record with the department and that such producers who voted in favor of said marketing order or amendment thereto marketed not less than fifty-one percent (51%) of the total volume of such commodity marketed by all producers of record with the department during the marketing season next preceding such referendum the director may make such marketing order or amendment thereto effective. If he finds from the tabulation of such referendum that the number of producers who have voted in favor of such marketing order or amendment thereto is less than the required fifty-one percent (51%) of the total number of producers of record with the department or that the producers who have voted in favor of such marketing order or amendment thereto represent less than fifty-one percent (51%) of the total quantity of such agricultural commodity marketed by all producers of such commodity of record with the department during the marketing season next preceding the conducting of such referendum, or that such votes in favor represent less than fifty-one percent (51%) of the total by both number of producers and quantity of the commodity, the director may extend the period of such referendum for not exceeding thirty (30) days. At the close of such extended period the director shall again count and tabulate all ballots received during the entire period of referendum and he shall be authorized to make such marketing order or amendment thereto effective if he finds that not less than fifty-one percent (51%) of the total number of producers of such commodity of record with the department have voted in favor of such marketing order or amendment thereto and that such producers marketed not less than fifty-one percent (51%) of the total quantity of such commodity marketed by all producers of record with the department during the marketing season next preceding the conducting of such referendum. The director is authorized to prescribe such additional procedures as may be necessary to conduct such referendum.

Cooperative association's assent

(3) In finding whether such marketing order or major amendment thereto is assented to in writing or approved or favored by producers pursuant to the provisions of this

chapter, the director shall consider the approval of any nonprofit agricultural cooperative marketing association, which is authorized by its members so to assent, as being the assent, approval or favor of the producers who are members of, or stockholders in, such nonprofit agricultural cooperative marketing association.

Hearing

(4) At each public hearing upon a marketing order or a major amendment thereto, the director shall receive testimony or evidence relative to the period of time which may be necessarily required for the filing, checking, and tabulating of written assents prescribed in this section. At the conclusion of each such hearing the director shall make a finding, based upon the evidence and testimony so received, with respect to the period of time which may be reasonably and necessarily required for such filing, checking and tabulating. On the basis of such finding the director shall fix and limit the period during which such assents may be received by the director and such period shall be announced by the director at the time of mailing of assent forms to producers and handlers affected; provided, however, that if the director finds that an extension of such period is reasonably warranted he may extend such period for receiving assents.

Written assents Limitation on receipt

At a public hearing held to consider a proposed marketing order or major amendments to an existing marketing order which directly affects producers or producer marketing, the director shall also receive testimony or evidence from which he can determine whether the assent, approval or favor of such producers shall be determined by written assents or by referendum as hereinabove prescribed. Upon the conclusion of any hearing which involves a marketing order or a major amendment thereto directly affecting producers or producer marketing, the director shall make a finding, based upon testimony and evidence received, whether producer assent, approval or favor shall be determined by written assents or by referendum.

Referendum

If the director finds that a referendum shall be had, he shall direct that a referendum be held in accordance with the provisions of subdivision (a) (2) of this section. If a referendum is conducted, the director shall not be required, with respect to the assent, approval or favor of producers, to make a finding concerning or fix and limit the period during which assents may be received by the director.

Regulation of producer marketing, etc

(b) Subject to the provisions, restrictions and limitations imposed herein, the director may issue marketing orders regulating producer marketing, the processing, distributing or handling in any manner of agricultural commodities by any and all persons engaged in such producer marketing, processing, distributing or handling of such agricultural commodities within this State.

Suspension, termination, etc., of marketing order

(c) The director shall suspend or terminate any marketing order, whenever he finds, after a public hearing duly noticed and held in accordance with the provisions of Section 1300.13 of this chapter, that such marketing order is contrary to or

does not tend to effectuate the declared purposes or provisions of this chapter within the standards and subject to the limitations and restrictions herein imposed; provided, that such suspension or termination shall not become effective until the expiration of the marketing season then current. If the director finds that the termination of any marketing order is requested in writing by more than forty percent (40%) of the producers, who are engaged within the State of California in the production for market of the agricultural commodity specified in such marketing order, and who produce forty percent (40%) of the volume of such agricultural commodity produced within the State of California for market, and finds that the termination of such marketing order is requested in writing by handlers who handle more than forty percent (40%) of the volume of the agricultural commodity covered thereby and by more than forty percent (40%) of the number of handlers of the agricultural commodity covered thereby, the director shall, if he finds such marketing order is contrary to or does not tend to carry out the declared policy of this chapter, terminate such marketing order; provided, that such termination shall be effective only if announced on or before such date (prior to the end of the marketing period then current) as may be specified in such marketing order.

Amendment of marketing order

(d) Upon the recommendation of not less than seventy-five percent (75%) of the producer members or handler members of the advisory board, or not less than seventy-five percent (75%) of each group if both are represented upon the advisory board, the director may make effective minor amendments to a marketing order. The director may require a public hearing upon minor amendments if in his opinion the substance of such minor amendments so warrant; the director shall, however, not be required to submit minor amendments for written assents or referendum approval.

Major amendments
Scope

In making effective major amendments to a marketing order the director shall follow the same procedures prescribed in this chapter for the institution of a marketing order. Public notice of issuance, suspension, etc., of marketing order

(e) Upon issuance of any order making effective a marketing order, or any suspension, amendment or termination thereof, a notice thereof shall be posted on a public bulletin board to be maintained by the director in his office and a copy of such notice shall be published in a newspaper of general circulation published in the capital of the State and in such other newspaper or newspapers as the director may prescribe.

Notice of the issuance and the effective date of any such seasonal marketing regulations or modifications thereof shall be given by the director to all producers and handlers directly affected by any such regulations in the manner and within the time specified in the applicable marketing order or agreement or as specified in the administrative rules and regulations made effective for such

It is recognized that with respect to some agricultural commodities, marketing, weather and other conditions may change so rapidly as to require changes in seasonal marketing regulations from week to week or oftener.

Upon the filing of such verified petition the court may issue an order to show cause returnable in five (5) days after service upon the owner why the lot shall not be reconditioned or the deficiencies corrected or why the lot shall not be diverted to other lawful uses or destroyed. The owner of said lot may, prior to the date when said order to show cause is returnable, either recondition or correct the deficiencies in said lot so as to bring said lot into compliance or may file at or before the hearing on said order an answer with the court showing why said lot shall not be reconditioned or the deficiencies corrected so as to bring it into compliance or showing why said lot should not be diverted to other lawful uses or destroyed.

Court order

Failure to comply with order

If at the expiration of the said period the owner of said lot has failed or refused to recondition or to correct the deficiencies so as to bring said lot into compliance the court may enter judgment ordering that said lot be reconditioned or diverted to any other lawful uses or destroyed in the manner directed by the court or relabeled, or denatured or otherwise processed, or sold or released upon such conditions as the court in its discretion may impose, except that said lot may not be sold or released into the regular channels of trade.

Sale by court order

In the event of sale of any lot by order of court, the costs of storage, handling and reconditioning or disposal shall be deducted from the proceeds of sale and the balance, if any, paid into court for the account of the owner of any such lot.

The area of the district is subject to periodical floods during the rainy seasons precipitated by the water of the Pajaro and other rivers, which rivers are an important potential source of water for domestic, industrial and agricultural uses inside and outside the watersheds. During the dry season, said rivers would be without water if it were not for the foreign waters turned into the rivers. Recognizing this fact, the United States Army Engineers have made studies and recommendations for a proposed plan of improvement for flood control and allied purposes within the area of the district. The cost of adequate flood control and water conservation is beyond the means of the property owners and taxpayers of the district, and it is necessary to negotiate to obtain financial aid from the United States Government. It is recommended by the United States Government and it is desirable to immediately form a political entity to satisfactorily deal with the agency of the United States Government.

Investigation having shown conditions in the county to be peculiar to that county, it is hereby declared that a general law cannot be made applicable thereto and that the enactment of this special law is necessary for the conservation, development, control and use of said waters for the protection of life and property therein and for the public good.

Whenever unincorporated territory and all or parts of two or more cities are included in the district one director shall be appointed by the board of supervisors.

If the district contains no unincorporated territory, the district board of directors shall consist of two directors appointed by the mayor of each city wholly or partly within the district; and if only two cities or parts thereof are in the district, one additional district board member shall be appointed by the mayor of each of the cities.

The directors first appointed as members of the governing body of a consolidated district shall determine by lot the three of them that shall serve for a term of four years and the two that shall serve for a term of two years. If the whole of the district is unincorporated territory, the board of supervisors of the county in which the district is formed shall constitute the district board of directors.

If at the election, a majority of those voting approve the proposition, in addition to all other taxes for district purposes, the governing body of a district may levy a tax each year upon the taxable property in the district to pay the cost of capital acquisitions and improvements, which capital acquisitions and improvements include, but are not limited to, the acquisition, construction, or improvement of land, improvements, buildings, or recreational facilities. An act to amend Sections 763 and 784 of the Code of Civil Procedure, relating to partition of real and personal property.

[Approved by Governor June 30, 1955. Filed with Secretary of State July 1, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 763 of the Code of Civil Procedure is amended to read:

763. If it appears by the evidence, whether alleged in the complaint or not, that the property or any part of it is so situated that partition cannot be made without great prejudice to the owners, or where property is subject to a life estate and the remainder is a contingent remainder, the court may and in the latter case must order the sale thereof; otherwise, upon the requisite proofs being made it must order a partition according to the respective rights of the parties as ascertained by the court, and appoint three referees therefor, and must designate the portion to remain undivided for the owners whose interests remain unknown, or are not ascertained; or the court may with the consent of the parties appoint one referee instead of three, and he, when appointed, has all the powers and may perform all the duties required of three referees; and the court must appoint as referee any person or persons to whose appointment all the parties have consented, and no person shall be appointed as referee who is disqualified from acting as an appraiser under the provisions of the Probate Code.

Sale

Partition

Referee

Where the property or an interest therein is subject to an express trust the court, notwithstanding the foregoing provisions of this section respecting property subject to a life estate and contingent remainder, may but shall not be required to order a sale thereof; and in the event of either a partition or sale, the property or proceeds of sale allotted to the trustee of such express trust shall be held by him upon the trust therein stated, and no further action by the court pursuant to Section 781 of this code shall be required.

Trust property

When the site of an incorporated city or town is included within the exterior boundaries of the property to be partitioned, the court must direct the referees to survey and appraise the entire property to be partitioned by actual lots and

City within boundaries

subdivisions then existing in the actual possession of the several tenants in common, exclusive of the value of improvements thereon, first setting apart necessary portions of the property for ways, roads and streets, as in Section 764 provided, and to report such survey and separate appraisement on each lot and subdivision to the court.

Action of court

The court may confirm, change, modify, or set aside the report in whole or in part, and, if necessary, appoint new referees.

Sale

When, after the final confirmation of the report of such survey and appraisement, it appears by evidence to the satisfaction of the court that an equitable partition of the whole property is impracticable, and a sale of the site of such city or town, or any portion thereof, will be for the best interests of the owners of the whole property, it must order a sale thereof; provided, that within 60 days thereafter any tenant in common or tenants in common, having improvements erected on any town or city lot or subdivision included in such order of sale, shall have the prior right to purchase the same at such appraised valuation, and may pay into court the amount so appraised as the value thereof, and upon such payment the title shall vest in such purchaser or purchasers, and the court shall cause to be executed by such referees a deed for such lot or subdivision in fee and in severalty to such purchaser or purchasers; such further proceeding shall then be had as to the remainder of the property, and the money so paid to the court, as by this chapter provided.

Right of tenants in common

Death or incompetency of parties

If, during the pendency of the action, any of the parties die, or become insane, or otherwise incompetent, the proceedings shall not for that cause be delayed or suspended, but the attorney who has appeared for such party may continue to represent such interest; and in case any such party has not appeared by an attorney, the court must appoint an attorney to represent the interest which was held by such party, until his heirs or legal representatives, or successors in interest, shall have appeared in the action; and an attorney so appointed must be allowed by the court a reasonable compensation for his services, which may be taxed as costs against the share or interest represented by such attorney, and may be adjudged a lien thereon in the discretion of the court.

SEC. 2. Section 784 of said code is amended to read:

Report of sale

784. After completing a sale of property, or any part thereof ordered to be sold, the referees must report the same to the court, with a description of the different parcels of land sold to each purchaser; the name of the purchaser; the price paid or secured; the terms and conditions of the sale, and the securities, if any, taken. The report must be filed in the office of the clerk of the county in which the action is brought. Thereafter any purchaser, the referee, or any party to the action, may, upon 10 days' notice to the other parties who have appeared therein, and also to the purchaser if he be not the moving party, move the court to confirm or set

Confirmation by court

aside any sale or sales so reported. Upon the hearing, the court must examine the return and report and witnesses in relation to the same, and if the proceedings were unfair, or the sum bid disproportionate to the value, and if it appears that a sum exceeding such bid at least 10 percent, exclusive of a new sale may be obtained, the court may vacate the sale and direct another to be had, of which notice must be given, and the sale conducted in all respects as if no previous sale had taken place. If an offer of 10 percent more in amount than that named in the return be made to the court, in writing, by a responsible person, it is in the discretion of the court to accept such offer and confirm the sale to such person, or to order a new sale.

In case of sale on an increased bid made at the time of confirmation to a purchaser not procured by the agent holding the contract, the court shall allow a commission on the full amount for which the sale is confirmed, one-half of said commission on the original bid to be paid to the agent whose bid was returned to the court for confirmation and the balance of the commission on the purchase price to the agent, if any, who procured the purchaser to whom the sale is confirmed. If the successful bidder is not produced by a bona fide agent, then the agent holding the contract shall be allowed a full commission on the amount of the original bid returned by him. Commission on sales

SEC. 2. Section 785 of said code is amended to read:

785. Upon the hearing the court must examine into the necessity for the sale, or the advantage, benefit and interest of the estate in having the sale made, and must examine the return and witnesses in relation to the sale; and if it appears to the court that good reason existed for the sale, that the sale was legally made and fairly conducted, and complied with the requirements of the previous section, that the sum bid is not disproportionate to the value, and it does not appear that a sum exceeding such bid at least 10 percent on the first ten thousand dollars ($10,000) bid and 5 percent on the amount of the bid in excess of ten thousand dollars ($10,000), exclusive of the expenses of a new sale, may be obtained, the court shall Confirmation of sale

make an order confirming the sale and directing conveyances to be executed; otherwise it shall vacate the sale and direct another to be had, of which notice must be given and the sale in all respects conducted as if no previous sale had taken place. But if a written offer in an amount at least 10 percent more on the first ten thousand dollars ($10,000) bid and 5 percent more on the amount of the bid in excess of ten thousand dollars ($10,000) is made to the court by a responsible person, and the offer complies with all provisions of the law, the court shall accept such higher offer, confirm the sale to such person and fix a reasonable compensation for the services to the estate of the agent, if any, producing the successful bidder, or, in its discretion, order a new sale. If more than one written offer in an amount at least 10 percent more on the first ten thousand dollars ($10,000) bid and 5 percent more on the amount of the bid in excess of ten thousand dollars ($10,000) is made to the court by responsible persons, and if any such increased bid complies with all the provisions of the law, the court shall accept such highest increased bid, confirm the sale to the person making such increased bid, and fix a reasonable compensation for the services to the estate of the agent, if any, producing the successful bidder or, in its discretion, order a new sale. The compensation of the agent producing the successful bidder shall not exceed one-half of the difference between the amount of the bid in the original return and the amount of the successful bid, but such limitation shall not apply to any compensation of the agent holding the contract with the executor or administrator.

Limitation on compensation

Determination of amount of bid

For the purposes of this section the amount of a bid shall be determined by the court without regard to any commission on the amount of such bid to which an agent may be entitled by virtue of a contract with the executor or administrator. It shall be determined without regard to any condition of the bid that a certain amount thereof be paid to an agent by the executor or administrator, but notwithstanding that a bid contains such a condition, only such compensation to an agent as is proper under the preceding provisions of this section shall be allowed, and acceptance of the bid by the court binds the bidder though the compensation so allowed is less than the compensation to which the agent would be entitled had the condition been observed.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The wording of the sections of the Probate Code amended by this act and a recent district court of appeal decision have resulted in great uncertainty in the minds of real estate agents and brokers as to their right to compensation, and the amount thereof, when producing bids for real property in the estate of a decedent. This uncertainty has resulted in a sharp decrease

in the number and amount of bids made for such property. Often such property constitutes the bulk of an estate and a substantially increased bid for the property would mean comfortable rather than substandard living conditions for the widow or widower and children of the decedent. This act, by eliminating the uncertainty referred to, will tend to increase the number and amount of bids, to the benefit of such widows, widowers, children, and other devisees, legatees, or heirs of the decedent.

CHAPTER 3. GENERAL PROVISIONS

Districts subject to provisions

60040. Districts, regardless of the date of formation, are subject to the provisions of this division.

Existing districts

60041. The inclusion in or annexation or addition to a replenishment district, of the corporate area of any existing agency, shall not destroy the identity or legal existence or impair the powers of any such existing agency, notwithstanding the identity of purpose, or substantial identity of purpose, of such replenishment district.

Manner of publishing notice

60042. Whenever by this division a notice is required to be published for a designated number of weeks or once a week for a designated number of weeks, the notice need be published on only one day of each week, and for only the same number of times as the number of weeks designated.

Time acts may be performed

60043. Whenever any act is required to be done or proceeding taken on the first Tuesday in any month, the act may be done or proceeding had upon the day of the month otherwise specified for the regular meeting of the board.

Territory includible

60044. A district may be organized entirely within unincorporated territory, or partly within unincorporated territory and partly within incorporated territory, and within one or more counties in this State.

Exception

60045. No area included within any existing agency or annexations thereto, one of the purposes of which is replenishing the ground water supplies within such existing agency and which agency is empowered to levy assessments or charges upon the production of water from such ground water supplies, shall be included within any replenishment district or annexations thereto created or annexed under this division.

Construction

60046. Unless the context otherwise requires, the provisions of this chapter shall govern the construction of this division.

Applicability

60047. The provisions of this division apply only to the replenishment of ground water within that area in this State defined by the exterior boundaries of the Counties of Santa Barbara, Ventura, Los Angeles, San Diego, Riverside, San Bernardino, and Orange, except those areas therein now or hereafter included within the Orange County Water District as provided by the Orange County Water District Act. The Legislature finds and declares that the problems of providing replenishment of the underground basin in the area of the Orange County Water District are peculiar to that area and for that reason it is necessary to deal specially with such area, and that this fact was recognized by the Legislature when it enacted the Orange County Water District Act and the amendments thereto to provide for such problems in that area.

Legislative declaration

The Legislature finds and declares that this act is necessary to the solution of a problem arising out of the following unique circumstances:

The water supplies in the underground basins in the arid southern part of this State to which the provisions of this division apply are insufficient to meet the water demands of the

areas, and, because of the geological conditions peculiar to this area, further excessive pumping without replenishment is certain to destroy the usefulness of these basins.

Actions to determine validity

60048. No informality in any proceeding or informality in the conduct of any election, not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate any incorporation, annexation, exclusion, or other action under this act. Any action or proceeding wherein the validity of any such incorporation, annexation, exclusion or disincorporation is denied or questioned, shall be commenced within three (3) months from the date of the certificate of incorporation, annexation or exclusion issued by the Secretary of State, or from the date of the order of the board of supervisors declaring the disincorporation, as the case may be; otherwise, said actions and/or proceedings in respect thereto shall be held to be valid, and in every respect legal and incontestable.

Duties of registrar of voters

60049. Whenever there is a registrar of voters in any county the duties imposed on a county clerk by this division with respect to elections, and registration and election records, shall be performed by the registrar of voters with like effect, and in this case all papers or documents required to be filed with the county clerk shall be filed with the registrar of voters.

Severability

60050. If any section, subsection, subdivision, sentence, clause or phrase of this act, or of the act or acts of which this act is amendatory or supplemental, is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, subdivision, sentence, clause and phrase thereof, irrespective of the fact that any one or more sections, subsections, subdivisions, sentences, clauses or phrases of the act or acts of which this act is amendatory or supplemental, be declared unconstitutional. If any section, subsection, subdivision, sentence, clause or phrase of this act for any reason be held to be unconstitutional and such unconstitutional provision shall have purported to repeal or amend any provision of the acts or acts of which this act is amendatory or supplemental, the provision existing and in force at the time of the enactment of this act shall remain and be in full force and effect notwithstanding such purported repeal or amendment.

Construction

60051. No language or provision in this division shall be interpreted or construed so as to limit, abridge or otherwise affect the water or water rights of any existing agency or person or affect the rights of existing agencies or persons with respect to any legal proceeding pending on May 1, 1955, wherein any water or water right or the protection thereof is involved; provided, however, that nothing in this section shall be construed to limit the provisions of subdivision (7) of Section 60230 of this division.

CHAPTER 4. INFORMATION BY DEPARTMENT

Information To whom given

60060. The Department of Public Works shall supply information so far as it may be practicable to persons contemplating the formation of districts.

Surveys, etc

PART 2. FORMATION

CHAPTER 1. PETITION FOR FORMATION

60080. A petition, which may consist of any number of separate instruments, shall be filed with the county clerk of the principal county in which the proposed water replenishment district is located, signed by registered voters residing within the boundaries of the proposed district equal in number to at least 10 percent of the number of such voters residing within the proposed district; provided, that where the proposed district is situated partly in different counties, such petition must be signed by at least 10 percent of the voters of each such area situated within each county, and each petition shall clearly designate in which affected county it was circulated, and each petition shall contain names only of the voters of the affected county in which such petition was circulated.

Contents

60081. Such petition shall describe the proposed boundaries of the district, recite the reasons for the proposed formation, pray that the same be organized under this act, and propose a name by which such district shall be known. The persons seeking to organize a district shall include in the petition a statement limiting the annual property tax rate, not to exceed twenty cents ($0.20) for each one hundred dollars ($100) of assessed valuation, which may be levied by the board for the purpose of purchasing water for replenishment purposes, and the board shall thereafter be limited to the rate so fixed in the petition for formation, unless a majority of the electors voting at an election held for that purpose later change the rate so fixed in the petition.

Where territory includes more than one county

60082. If the proposed district is situated in more than one county, the county clerk of the principal county shall immediately transmit to the county clerks of the participating counties the petitions containing the signatures of the voters of each such participating county.

Examination

60083. Within ten (10) days of the date of filing said petition with the county clerk of the principal county, said county clerks of the affected counties shall examine the same and ascertain whether or not said petition is signed by the requisite number of voters within his county. When the county clerks of the affected counties have completed their examinations of said petition, they shall each attach to the

same their certificates, properly dated, showing the results of such examination, and if from such examination they shall find that such petition is signed by the requisite number of voters residing within the boundaries of that portion of the proposed district within the affected county, or is not so signed, they shall certify the same as sufficient or insufficient, as the case may be, and such certificates shall forthwith be transmitted to the county clerk of the principal county.

CHAPTER 2. HEARINGS ON FORMATION

Hearings Presentation of petition, etc

60095. If the certificates of the county clerks of each affected county as filed with the county clerk of the principal county show the petition to be sufficient, the county clerk of the principal county shall present such petition, together with the certificates of the county clerks of the affected counties to the board of supervisors of the principal county.

Filing of petition, etc

60096. Upon presentation of such petition and certificates, the board of supervisors of the principal county shall immediately file a copy of such petition with the Department of Public Works.

Time and scope of hearing

60097. Upon filing said petition with the department said department shall set the same for a public hearing within sixty (60) days, said hearing to determine whether or not other lands should be included within the proposed district, or whether some lands which are included should be excluded, and whether the proposed district, as modified by inclusions and exclusions, will be of benefit generally to all persons or property which rely directly or indirectly upon the use of or right to use the ground water supplies within such proposed district.

Publication of petition

60098. The department shall publish one copy of said petition, along with names of five of the persons signing such petition, together with a notice of the time, place and purpose of such hearing, and the same shall be published for at least two (2) weeks before said hearing in a newspaper of general circulation printed and published within each affected county.

Evidence

60099. At said public hearing which may be adjourned from time to time, the department shall hear all evidence relevant to the inclusion of additional lands in or the exclusion of lands from the proposed district, as well as all evidence relevant to the benefits to be derived by the persons or property within said proposed district by a ground water replenishment program.

Inclusion of additional land

60100. In the event the department determines that additional land should be included in the proposed district, it shall forthwith set a date for a public hearing to determine whether or not such land should be included. Notice of such hearing shall be published for at least two weeks before said hearing in a newspaper of general circulation printed and published within each affected county in which the proposed land is to be included, and said notice shall contain time,

place and purpose of such hearing, and shall describe the land so proposed to be included in the proposed district. In the event such hearing is held to consider the inclusion of additional land the department shall hear all evidence relevant to the inclusion of such additional land and the benefits to be derived by the persons or property within said land so to be included in the proposed district.

Determination For inclusion

60101. Within thirty (30) days after concluding all said hearings, but in any event within six (6) months of the filing of said petition with said department, the department shall make its determination of the lands to be included within the proposed district and state whether or not the persons or property within such proposed district will benefit directly or indirectly from the use or right to use the ground water supplies within such proposed district and the replenishment thereof, and this determination shall be filed with the board of supervisors of the principal county.

Same Against inclusion

60102. If the department determines that the persons or property within the proposed boundaries of the district will not benefit directly or indirectly from the use of or right to use the ground water supply therein and the replenishment thereof, the board of supervisors of the principal county will take no further action, but the petition and report will be filed as a public record without prejudice to the filing of a new petition for organization of a water replenishment district, except that no such new petition shall be filed within six months after any such adverse determination by the department.

Chapter 3. Calling an Election

Call of election· Division of district

60110. Such divisions shall be numbered first, second, third, fourth, fifth, and one director, who shall be a resident thereof, shall be elected for each division by the voters thereof, and shall take office as hereinafter provided

Purpose and date

60111. When such order dividing the proposed district into five (5) divisions is made, said board of supervisors shall call and provide for the holding of an election to be held in said proposed district for the purpose of determining whether or not the same shall be incorporated, and for the purpose of electing the first board of directors, if the district is incorporated. The date of the election shall be not less than ninety (90) days nor more than one hundred twenty (120) days

from the date of the adoption of the resolution or ordinance calling the election. The notice of such election shall describe the boundaries of the proposed district, as modified by the report of the department, and of the divisions thereof as so established, and shall state the proposed name of the proposed district (which name shall contain the words "_____ Water Replenishment District"), and shall state that the first directors will be elected at such election, who shall take office if the district is incorporated, and shall set forth the names of the candidates of the offices of the directors from the respective divisions. The candidates shall declare their candidacy and shall be nominated, the election shall be held and conducted, the vote canvassed, the result declared and the certificate of election issued in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. No person shall be entitled to vote at any election under the provisions of this act unless such person possesses all of the qualifications required of voters under the Elections Code.

60122. Within seven (7) days after such election the vote shall be canvassed by said board of supervisors of the principal county. If a majority of the votes cast in such election shall be in favor of organizing such district, said board shall, by order, entered on its minutes, declare the territory included within the proposed boundaries duly organized, as a water replenishment district under the name theretofore designated, and the county clerk of the principal county shall immediately cause to be filed with the Secretary of State, and cause to be recorded in the offices of the county recorders of each affected county a certificate stating that such proposition was adopted. CHAPTER 1. DIRECTORS

Directors Election

60130. If a majority of the votes cast at such election are in favor of organizing such district, the persons voted for as directors who receive the highest number of votes within the respective divisions shall be duly elected as directors of the district.

Number

60131. The board of a district organized under this act shall consist of five members, and one director, who shall be a resident of the division, shall be elected by the voters thereof, for each of the five divisions of such district, which divisions shall be numbered first, second, third, fourth and fifth, and shall be established as provided in Section 60110 of this act.

Relocation of divisions

60132. Whenever a sufficient change in the population occurs in a district after its organization which makes it desirable in the opinion of the board of the district to relocate the boundary or boundaries of any division or divisions, or whenever any territory is added to or excluded from the district, the board shall, by resolution, relocate the boundary lines of the division or divisions so as to equalize, as nearly as may be practicable, the population in the respective divisions. For this purpose, the board may estimate the population by reference to the register of voters used at the last general election, and may relocate the boundary lines of the respective divisions without regard to the places of residence of the directors then in office. No such change in the division lines shall be made within the four months immediately preceding the election of any director nor shall such change in division lines work a forfeiture of office of any director. Whenever such change is made in the division lines, each director then in office, and until his office becomes vacant by expiration of his term or otherwise, shall continue to be the director for the respective division bearing the number of his division as formerly located even though such director is not a resident of

the relocated division. His successor shall be a resident and voter of the relocated division.

60133. The members of the first board shall be elected at the time and in the manner provided in Chapter 3 of Part 2 of this act, and their successors shall be elected or chosen at the times and in the manner hereinafter provided.

Time of election

60135. In the case of all districts (except as to the election of the first board) the elections of directors shall be held at the time of the direct primary election and shall be consolidated therewith.

Majority vote

60136. Each candidate for director who at such election receives votes on a majority of all the ballots cast for candidates for the office for which he seeks nomination shall be elected to such office.

Plurality

60137. If at such primary election, as to any such office, none of the candidates receives such majority, the two candidates who receive the highest number of votes cast on all the ballots cast for candidates for such office shall be the candidates for such office at the ensuing district election, which latter election shall be held at the same time as the next succeeding general election and shall be consolidated therewith.

Election procedure

60138. Candidates shall declare their candidacy and shall be nominated, election returns shall be canvassed, the election shall be held and conducted, the results shall be declared, and the certificates of election shall be issued, in the same manner as the declaration of candidacy, nomination, election, canvassing of returns, declaration of results, and issuance of certificates of election for county officers are made, declared, held, and conducted, and issued, so far as consistent with the provisions of this act and except as otherwise herein expressly provided.

Time and name of election

Said election held at the time of the direct primary election and consolidated therewith shall be known as the general water replenishment district election, and each other election which may be held by authority of this act or the Elections Code or other law applicable thereto shall be known as a special water replenishment district election.

Appointment of sole nominee

60141. If, on the sixty-fifth day prior to the day fixed for the district general election, only one person has been nominated for each office of member of the board to be filled at that election, said board shall by resolution entered in their minutes order that an election shall not be held, and shall immediately request that the board of supervisors of the principal county, at a regular or special meeting held prior to the day of election, appoint, and the board of supervisors shall thereupon appoint, to the office or offices the person or persons who have been nominated. The person appointed shall qualify and take office and serve exactly as if elected at a district general election.

In such case, the publication provided for in Section 60111 shall, instead of calling an election, state that no election is to be held but that the board of supervisors will appoint those nominated for the positions of directors.

Recall of incumbent

60142. Every incumbent of an elective office, whether elected by popular vote for a full term, or chosen by the board of directors to fill a vacancy, is subject to recall by the voters of any water district organized under the provisions of this act in accordance with the recall provisions of the Elections Code of the State with reference to cities.

For any violation of this section, such director or other officer or employee of any district shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding five hundred dollars ($500) or by imprisonment in the county jail not exceeding six (6) months, or by both such fine and imprisonment. Neither this section nor any other law shall, however, be deemed to invalidate any contract or instrument, nor to establish or define any misdemeanor or other crime, merely because such director or other officer or employee shall be the owner of land or a water-producing facility within the district or have any interest in such contract or instrument, or shall derive any benefit therefrom:

(a) If such director or other officer or employee shall own or control, directly or indirectly, not more than 5 per centum

of the outstanding stock or securities of the contracting corporation; or

(b) If such contract or instrument shall be entered into pursuant to the provisions of any ordinance or regulation of the district of uniform application, and which ordinance or regulation shall have become effective prior to the making or execution of such contract or instrument.

Exemptions

60337. The board, at the time of fixing the replenishment assessment rate, may provide by resolution that any producer operating a water-producing facility having a discharge opening not greater than two inches in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, shall pay the amount fixed in such resolution as the replenishment assessment to be paid by such producer. Temporary restraining orders

60339. The superior court of the county in which the major portion of the district lies may issue a temporary restraining order upon the filing by the district with the court of a verified petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district or that such defendant is delinquent in the payment of a replenishment assessment. Such temporary restraining order shall be returnable to the court on or before ten (10) days after its issuance.

Injunctions

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established by the preponderance of the evidence at a hearing that the defendant has failed to register such water-producing facility with the district or that the defendant is delinquent in the payment of a replenishment assessment. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed ten (10) days to permit the defendant to register the water-producing facility or to pay the delinquent replenishment assessment.

Service of process

Service of process shall be made by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which such water-producing facility is located and by personal service of such summons and complaint upon the named defendant.

Procedure

The right to proceed for injunctive relief as provided herein shall be in addition to any other right which may be provided elsewhere in this act or which may be otherwise allowed by law. The procedure provided in Part 2, Title 7, Chapter 3 of the Code of Civil Procedure regarding injunctions shall be followed except insofar as it may be otherwise provided herein. The replenishment district shall not be required to furnish an undertaking or bond as a condition to the granting of injunctive relief.

Investigation of believed excess production, etc

60340. If the board of a district shall have probable cause to believe that the production of ground water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering a water-producing facility, the board of such district may cause an investigation and report to be made concerning the production of ground water from such water-producing facility. The board of the district may fix the amount of ground water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing facility; provided, however, where a water-measuring device is permanently attached thereto, the record of production as disclosed by such water-measuring device shall be presumed to be accurate and the burden is upon the district to establish to the contrary.

Notice of determination

After such determination has been made by the board of the district, a written notice thereof shall be mailed to the operator of such water-producing facility at his address as shown by the district's records. Any such determination made by the district shall be conclusive on the operator, and on any producer producing water from such water-producing facility, and the replenishment assessment based thereon, together with interest and penalties, shall be payable forthwith, unless such operator or producer shall file with the board of directors of the district within ten (10) days after the mailing of such notice a written protest setting forth the ground or grounds for protesting the amount of production so fixed or the replenishment assessment, interest, and penalties so levied thereon. Upon the filing of such protest, said board shall hold a hearing at which time the total amount of the ground water production and the replenishment assessment thereon shall be determined, and the interest and penalties fixed, which action shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant. The producer shall have 20 days from the date of mailing of such notice to pay the replenishment assessment, interest and penalties so fixed by the board.

Suit for collection of delinquency

60341. The district may bring a suit in the court having jurisdiction against any producer of ground water from the ground water supplies within the district for the collection of any delinquent replenishment assessment. The court having jurisdiction of the suit may, in addition to allowing recovery of costs to the district as allowed by law, fix and allow as part of the judgment, interest and penalties as provided in Sections 60335 and 60336. Should the district seek an attachment against the property of any named defendant therein, the district shall not be required to furnish bond or other undertaking as provided in Part 2, Title 7, Chapter 4 of the Code of Civil Procedure.

60342. It shall be unlawful to produce ground water from any water-producing facility within any district from and after one year following the adoption of the resolution provided for in Section 60305 hereof, unless such water-producing facility shall have a water-measuring device affixed thereto capable of registering the accumulated amount of ground water produced therefrom. Water-measuring device required

The board by resolution may extend such date on a year-to-year basis upon its determination that availability, price of water measuring devices, or other circumstances justify such extension. Should the date be extended, notice thereof shall be given by publication in a newspaper of general circulation in the district once a week for two successive weeks, such publication to be completed not less than two months prior to the date so extended. Extension of date

This section shall not be applicable to any operator of a water-producing facility having a discharge opening two inches or less in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, who is required to pay a replenishment assessment in an amount fixed by resolution of the board of the district as hereinabove in this act provided. Exemption

Violation of this section shall be punishable by a fine not to exceed five hundred dollars ($500), or by imprisonment in the county jail for not to exceed six (6) months, or by both such fine and imprisonment. Each day of operation of a water-producing facility in violation hereof shall constitute a separate offense. Penalty

CHAPTER 6. ADJUDICATION

60350. In the event of an adjudication of all or substantially all of the rights to extract ground water and a determination of the natural safe yield of the ground water supplies within the district, and a determination of the amount or extent to which the rights to extract ground water so adjudicated may be exercised without exceeding the natural safe yield of such ground water supplies, the board of such district shall recognize such judicial determination by exempting from replenishment assessments the amount of water pumped by each person whose rights have been so adjudicated which does not exceed his proportionate share of the natural safe yield of the ground water supplies of the district, as so adjudicated from time to time by the court having jurisdiction over such adjudication proceeding. The replenishment assessment shall thenceforth be levied on each producer by multiplying the production in acre-feet of ground water so produced by such producer's water-producing facility in excess of his said adjudicated share of the natural safe yield by the rate of the replenishment assessment fixed and levied by the board for the fiscal year in which such production shall occur. Effect of adjudication

No right in replenished ground waters

60351. To the extent that ground water supplies are replenished under this act no person shall acquire any property or other right in the waters distributed by the district for replenishment purposes.

Benefit to excess producers

60352. To the extent that the replenishment assessment after adjudication hereunder shifts from all producers to those who extract water in excess of their respective shares of the natural safe yield of the ground water supplies within the district as so adjudicated, such replenishment assessment shall be deemed to benefit those persons who continue to pump and extract ground water in excess of their adjudicated shares of the natural safe yield. Inasmuch as such persons must buy supplemental water or be in contempt of the court's order limiting their extraction of ground water, they shall be deemed to benefit by the payment of a replenishment assessment which is used to purchase water to supplement the natural supplies of ground water available for use.

PART 7. CHANGES IN ORGANIZATION

CHAPTER 1. INCLUSION

Annexable territory

60370. Any territory including unincorporated territory or incorporated territory or a part of either, and lying within one or more counties of this State may be annexed to a water replenishment district under the provisions of this part.

Annexation petition Filing

60371. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the district, signed by registered voters residing within the boundaries of the area proposed to be annexed equal in number to at least 10 per centum of the number of such voters residing within the area so proposed to be annexed.

Description, etc

60372. Such petition shall set forth and describe the boundaries of the area proposed to be annexed and shall contain a prayer that such area be annexed to such district.

Publication of text

60373. The text of such petition shall be published once a week for at least two weeks, the last publication to be made not less than one week nor more than four weeks before the time at which the same is to be presented to the board of the district in at least one, but not to exceed three, newspapers printed and published in such affected county, together with a notice stating the time of the meeting at which the same will be presented. When contained upon one or more instruments, one copy only of such petition need be published. No more than five of the names attached to said petition need appear in said publication of said petition and notice, but the number of signers shall be stated.

Examination

60374. Within 10 days of the date of filing of such petition the secretary of the district shall examine the same and ascertain whether or not such petition is signed by the requisite number of voters.

Certificate

60375. When the secretary of the district has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination, and if from such examination he shall find that said petition is signed by the requisite number of voters or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

Same

60376. If, by the certificate of the secretary of the district, the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within 10 days of the date of such certificate.

Same. Supplemental petition

60377. The secretary of the district shall, within 10 days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

Insufficient petition

60378. If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of the district and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect, but if, by the certificate of the secretary, such petition, or petition as amended, is shown to be sufficient, the secretary shall present the same to the board without delay.

Signatures on supplemental petition

60379. If any supplemental petition be filed, all the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

Sufficiency of petition

60380. After an election for the annexation of such area to the district the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

Grant of petition

60381. Such petition may be granted by ordinance of the board of such district. No petition for inclusion may be granted unless and until the board finds that the persons and property within the territory proposed to be included will benefit directly or indirectly from the use of or right to use the ground water supplies within the district and the replenishment thereof. The petition may be granted in its entirety or only as to the part of the territory proposed to be included for which such a finding of benefit is made. If the petition be denied, either as to the whole or part of the territory to be included, no new petition for the inclusion of such territory shall be filed within six months after such denial. In granting such petition, such board of directors may fix in said ordinance the terms and conditions upon which such annexation may occur, and such terms and conditions may provide, among other things, for the levy by such district of special taxes upon the real property and improvements thereon, but not on personal property within such annexed area or areas in addition to the taxes elsewhere in this act authorized to be levied by such district, and in case such terms and conditions shall provide for the levy of such special taxes, the board, in fixing such terms

and conditions, shall specify the aggregate amount to be so raised and the number of years prescribed for raising such aggregate sum and that substantially equal annual levies will be made for the purpose of raising such sum over the period so prescribed.

Election on petition

60382. If such petition is granted, the proposition of such annexation subject to the terms and conditions so fixed, shall be submitted to the vote of the voters in the proposed addition, at an election called by the board and held, as herein provided, within 70 days after the effective date of such ordinance.

Notice of election

60383. Notice of such election shall be given by publication in a newspaper of general circulation published in the affected county once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week prior to the date fixed for such election. Such notice shall describe the boundaries of the area or areas so proposed to be annexed and shall designate such territory by some appropriate name, or other words of identification, by which such territory may be referred to and indicated upon the ballot to be used at any election at which the question of such annexation is submitted, as in this act provided.

Same

60384. Such notice also shall contain the substance of the terms and conditions fixed by the board of directors, as herein provided.

Ballot

60385. The measure so submitted at such election shall be stated on the ballot substantially as follows: "Shall _____ (giving the name or other designation of the territory proposed to be annexed, as stated in the notice of election) be annexed to _____ (name of water replenishment district) subject to the terms and conditions fixed by the board of directors of said district?" At the right of such proposition there shall be printed the words "yes" and "no" with voting squares.

Canvass and certification of approval

60386. The board shall canvass the votes cast at such election and, if such proposition is approved by a majority of the voters voting thereon at such election, the president and secretary of the board of directors shall certify that fact to the Secretary of State and to the county recorder of each affected county in which such district is located.

Secretary of State's certificate

60387. Upon receipt of such last-mentioned certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the passage of said ordinance and the addition of said area or areas to said district. A copy of said certificate shall be transmitted to, and filed with, the county clerk of each affected county in which such district is situated.

Annexation completed

60388. From and after the date of such certificate, the area or areas named therein shall be deemed added to, and shall form a part of, said district, and the taxable property therein shall be subject to taxation thereafter for the purposes of said district, including the payment of bonds and other obligations of such district at the time authorized or outstanding, and the board of the district shall be empowered to

do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized.

CHAPTER 2. EXCLUSION

Exclusion of territory

60400. Territory included within any district may be excluded from such district and the parcels so to be excluded need not be contiguous one with the other.

Exclusion petition Filing

60401. A petition, which may consist of any number of separate instruments, shall be filed with the secretary of the district, signed by voters residing within the boundaries of the area proposed to be excluded equal in number to at least ten (10) per centum of the number of such voters voting for all candidates for the Office of Governor of this State at the last general election prior to the filing of such petition.

Description, etc

60402. Such petition shall set forth and describe the boundaries of the area proposed to be excluded, shall state the reason for proposing such exclusion, and shall contain a prayer that such area be excluded from the district.

Examination

60403. Within ten (10) days of the date of the filing of such petition the secretary of the district shall examine the same and ascertain whether or not such petition is signed by the requisite number of voters.

Certificate

60404. When the secretary of the district has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters, or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

Same

60405. If, by the certificate of the secretary of the district, the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within ten (10) days of the date of such certificate. The secretary of the district shall, within ten (10) days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

Signatures on supplemental petition

60406. If any supplemental petition be filed, all the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

Insufficient petition

60407. If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of the district and kept as a public record, without prejudice, however, to the filing of a new petition to the same effect, but if, by the certificate of the secretary, such petition, or petition as amended, is shown to be sufficient, the secretary shall present the same to the board without delay.

Publication of text

60408. The text of such petition shall be published once each week for at least two weeks, the last publication to be

made not less than one week, nor more than four weeks, before the time at which the same is to be presented to the board of the district in at least one, but not to exceed three, newspapers printed and published in such district, together with a notice stating the time of the meeting at which the same will be presented. When contained upon more than one instrument, one copy only of such petition need be published. No more than five of the names attached to said petition need appear in such publication of said petition and notice, but the number of signers shall be stated.

Sufficiency of petition

60409. After an election for the exclusion of such area from the district the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

Resolution of exclusion

60410. The board of any district, by resolution, may initiate proceedings for the exclusion of territory from such district. Such resolution shall describe the boundaries of the area proposed to be excluded, shall state that neither the persons nor property within the area proposed to be excluded benefit directly or indirectly from the use of or right to use the ground water supplies within the district and the replenishment thereof, shall require all persons interested in the proposed exclusion to appear before the board and be heard as to why said area should not be so excluded, shall fix the time of the meeting of the board at which the persons so interested will be heard, and shall direct the secretary of the district to give notice thereof. The secretary thereupon shall cause the text of said resolution and a notice of the time and place of said hearing to be published once each week for at least two weeks, the last publication to be made not less than one week, nor more than four weeks, before the time so fixed for the hearing, in at least one, but not to exceed three, newspapers printed and published in the district.

Sufficiency of resolution

60411. After an election for the exclusion of such area from the district the sufficiency of such resolution shall not be subject to judicial review or be otherwise questioned.

Grant of petition

60412. If the proceedings for exclusion have been initiated by petition, such petition may be granted by ordinance of the board of directors of such district. If such proceedings have been initiated by resolution, the board shall hear all persons interested in the proposed exclusion who appear at the hearing, which may be adjourned from time to time, and after the conclusion of the hearing, the board may determine by ordinance that such area should be excluded from the district. No petition for exclusion may be granted and no ordinance of exclusion adopted by the board if such proceedings have been initiated by resolution unless and until the board finds that neither the persons nor property within the area proposed to be excluded benefit directly or indirectly from the use of or right to use the ground water supplies within the district and the replenishment thereof.

Election

60413. If such petition is granted, or if such determination is made, the proposition of such exclusion shall be submitted

to the vote of the voters within the area proposed to be excluded, at an election called by the board and held, as herein provided, within 70 days after the effective date of such ordinance.

Notice

60414. Notice of such election shall be given by publication in a newspaper of general circulation published in the district once a week for three successive weeks, the last publication to be not more than four weeks, nor less than one week, prior to the date fixed for such election. Such notice shall describe the boundaries of the area so proposed to be excluded and shall designate such area by some appropriate name, or other words of identification, by which such area may be referred to and indicated upon the ballot to be used at any election at which the question of such exclusion is submitted, as in this act provided. The measure so submitted at such election shall be stated on the ballot substantially as follows:

Ballot

"Shall _____ (giving the name or other designation of the area proposed to be excluded, as stated in the notice of election) be excluded from _____ (name of water replenishment district)?" At the right of such proposition there shall be printed the words "yes" and "no" with voting squares.

Certification of approval

60415. The board shall canvass the votes cast at such election and, if such proposition is approved by a majority of the voters voting thereon at such election, the president and secretary of the board shall certify that fact to the Secretary of State and to the county recorder of each affected county in which the district is located.

Secretary of State's certificate

60416. Upon receipt of such last-mentioned certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the passage of said ordinance and the exclusion of said area from the district. A copy of said certificate shall be transmitted to, and filed with, the county clerk of each affected county in which such district is situated.

Exclusion completed

60417. From and after the date of such certificate, the area named therein shall be deemed excluded from, and shall no longer form a part of, said district, but the taxable property within such excluded area shall continue taxable by such district for the purpose of paying the bonded or other indebtedness of such district outstanding or contracted for at the time of such exclusion and until such bonded or other indebtedness shall have been satisfied, to the same extent that such property would be taxable for such purpose if such exclusion had not occurred.

CHAPTER 3. DISINCORPORATION

Disincorporation Petition

60430. A petition may be filed with the county clerk of the principal county in which such district is located, signed by at least 25 percent of the voters of the district applying for disorganization and disincorporation of such district, and briefly stating the reasons therefor.

Examination of petition

60431. Upon the filing of such petition the county clerk shall examine the same within 10 days and ascertain whether or not said petition is signed by the requisite number of voters.

Certificate of examination of petition

60432. When the county clerk has completed his examination of the petition he shall attach to the same his certificate properly dated, showing the result of such examination, and if from such examination he shall find that said petition is signed by the requisite number of voters residing within the boundaries of such district, or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

Sufficiency of petition

60433. After an election for the disincorporation of a district hereunder the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

Election

60434. If by the certificate of the county clerk such petition is shown to be sufficient, the county clerk of the principal county shall present the same to the board of supervisors of the principal county without delay. When such petition is presented by the county clerk as aforesaid, the board of supervisors shall give notice of an election to be held in said district for the purpose of determining whether or not the same shall be disincorporated and dissolved; provided, however, that in the event the said district shall have issued bonds, the board of supervisors shall not consider said petition or take any action hereunder until evidence shall be furnished showing said bonds to have been fully satisfied.

Notice

60435. Said notice of election shall be published in a newspaper published in said district and determined by said board most likely to give notice to those interested in said hearing, at least once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week prior to the date fixed for the election; said notice shall state that the question of disincorporating said corporation shall be submitted to the voters of said district at the time appointed for such election, and voters shall be invited thereby to vote upon the proposition by placing upon their ballots the cross as provided by law after the words "for disincorporation" or "against disincorporation."

Same

60436. The board of supervisors shall cause a copy of said notice to be mailed by the clerk of said board to each of the directors of said district, within five days after the date of the first publication thereof, and no election shall be had until proof of such mailing is furnished by affidavit of the clerk of said board.

Procedure

60437. Such election shall be held and conducted in the same manner as the election on the organization of said district, as nearly as practicable.

Less than majority vote

60438. Within seven days after the date of said election, the board of supervisors shall proceed to canvass the vote cast thereat; if it be found by the canvass of said votes that less than a majority of the votes cast were in favor of disincorpora-

tion, said board of supervisors shall declare the petition for disincorporation denied.

Majority vote

60439. In case it should appear from said canvass of said votes that a majority of all the votes cast were in favor of disincorporation, said board of supervisors shall make and cause to be entered upon the records of their proceedings an order that the petition for such disincorporation be granted, and declaring that such water replenishment district be disincorporated; said order to take effect at the time hereinafter provided.

Certificate of disincorporation

60440. Said board of supervisors shall in case said district is so disincorporated, forthwith cause its clerk, or other officer performing the duties of clerk, to make and transmit to the Secretary of State a certified copy of the notice of election hereinbefore provided for, and a statement of the number of voters voting against said disincorporation.

Disincorporation completed

60441. Twenty days from and after the holding of the election, in case a majority of said votes were cast in favor of said disincorporation, said district shall be forever disincorporated.

Statement of indebtedness

60442. Upon the disincorporation of any district in the manner hereinbefore provided for, the board of supervisors shall forthwith, after ascertaining by said canvass that the disincorporation has been carried, determine the amount of the indebtedness of said district, the amount of money in the treasury thereof and all indebtedness due or coming due the said district, and the directors of said district shall furnish the said board of supervisors with a statement showing said amount of indebtedness, the said amount of money in the treasury and all indebtedness due or coming due said district, and said district shall before the expiration of 30 days turn over to the treasurer of said county all moneys of said district in his possession, and said county treasurer shall place said money in a special fund to be drawn upon as hereinafter provided for.

60443. Upon the disincorporation of said district every public officer of said district shall immediately turn over to the board of supervisors of the principal county in which said district is situated, all public property of every nature and description in their possession, and including all public records and data of every nature and description.

Liability not relieved

60444. Nothing contained in this act shall be held to relieve said district, or the territory included within it, from any liability or any debt contracted by said district prior to its disincorporation.

Warrants for indebtedness

60445. All warrants for said indebtedness shall be drawn on order of the board of supervisors of the principal county in which said district is situated, on the fund hereinabove provided for in the county treasury.

Special fund

60446. All moneys paid into the county treasury under the provisions of this act shall be placed in the special fund hereinbefore provided for. If at any time after the disincorpo-

ration of said district it shall be found that there is not sufficient money in the treasury to the credit of the fund hereinbefore provided, with which to pay any indebtedness of said district, said board of supervisors shall have the power, and it shall be their duty, to levy upon, and there shall be collected from, the property within the territory formerly included within said district subject to taxation for the indebtedness, a tax or taxes sufficient in amount to pay the said indebtedness as the same shall become due; such tax or taxes, assessments and collections shall be made in the same manner and at the same time that other taxes of each affected county are levied and collected, and they shall be an additional tax within said territory for the payment of said debts.

Ascertainment, collection, etc., of indebtedness

60448. The board of supervisors of the principal county in which any such district has been disincorporated, shall have the power and it shall be the duty of said board, if the board of directors of such district shall fail or refuse to return to said board the statement of said amounts as hereinbefore in this act provided, to ascertain the indebtedness, other than the bonded indebtedness, of said district at the time of its disincorporation, the amount of money in its treasury and the amount due it at the said time; said board of supervisors shall make provision for the collection of the amounts due to said district, for the closing up of its affairs, and any act or acts necessary for said purposes not otherwise herein provided for, shall upon the order of said board of supervisors directing the same, be as fully done and performed and with as full effect as if the same had been performed by the proper officers of said district before disincorporation, and said county shall succeed to and possess all the right of said district in and to said indebtedness, and shall have the power to sue for or otherwise collect any such debts in the name of said county, and all costs and expenses of ascertaining the facts hereinbefore mentioned, and all other costs and expenses incurred by the board of supervisors in the execution of the orders and duties of said board of supervisors provided for in this act, shall be paid out of the special fund in this act provided for.

Legislative intent

60449. It is the intent of the Legislature that no district shall be disincorporated until all bonded indebtedness shall have been fully paid, and by the word "indebtedness" as used herein is meant all indebtedness other than said bonded indebtedness unless the latter is expressly used.

CHAPTER 1515

An act to amend Sections 8506, 8516, 8517, and 8526 of, and to add Section 8531.5 to, the Business and Professions Code, relating to structural pest control.

[Approved by Governor June 30, 1955. Filed with Secretary of State July 1, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 8506 of the Business and Professions Code is amended to read:

"Structural pest control operator"

8506. (a) "Structural pest control operator" is any person licensed by the board to practice structural pest control and who does so for hire as a business.

A structural pest control operator may secure structural pest control work, identify infestations or infections, make inspections, submit bids or otherwise contract for pest control work. A structural pest control operator may hire field representatives to represent the operator in the securing of pest control work. A pest control operator may hire or employ individuals who are not licensed under this chapter to perform work on contracts covering wood-destroying organisms only after an operator or field representative has fully completed the negotiation or signing of the contract covering a given job.

A pest control operator may hire and use individuals who are not licensed under this chapter on service contracts already established.

An operator may enter the employ of another operator and while in such employ may engage in pest control only on behalf of his employer except as provided in subparagraph (c) of this section.

"Operator"

(b) As used in this chapter, "operator" refers to "structural pest control operator."

Conduct of business on death of licensee

(c) In the event of death of a licensee, the executor or administrator of the deceased person may obtain from the board written authorization for such executor or administrator to conduct the business of such deceased licensee for a period not to exceed one year after the date of death for the purpose of winding up or disposing of the structural pest control business of the deceased licensee; but such authorization shall not entitle such executor or administrator to solicit, engage in, or undertake any structural pest control work not already contracted for by such deceased licensee unless a properly classified and licensed operator is employed to manage, supervise, and direct the business. Notwithstanding any limitation in subparagraph (a) of this section, an operator may be employed concurrently by an executor or administrator under this subparagraph and by another licensee.

SEC. 2. Section 8516 of said code is amended to read:

Wood destroying pests or organisms

8516. (a) The provisions of this section shall apply only to wood-destroying pests or organisms.

(b) No licensee shall commence work on a contract, or sign, issue or deliver any documents expressing an opinion or statement relating to the absence or presence of wood-destroying pests or organisms until an inspection has been made. A written inspection report conforming to this section shall be prepared and delivered to the person requesting the inspection or his designated agent before the work is commenced. Severability

SEC. 2. Section 19390 of the Government Code is amended to read:

Restoration to former position

19390. Any permanent or probationary state civil service employee in good standing who enters or enlists in the recognized military service of the United States has an absolute right to be restored to his former position and civil service status or a position in his former class, such reinstatement to be made to the same office, board, commission, agency, or institution, and in the same locality with the same civil service status formerly had by him, upon application by him to the board within six months after the termination of such military service, but not later than six months after the Governor terminates the state military emergency or, in either case, within six months after any rehabilitation afforded by the United States or the State following such military service; provided, that such right of reinstatement shall not extend to or be granted to such employee, who after January 1, 1956, voluntarily requests and obtains an extension of his original term of enlistment, service, or tour of duty in the recognized military service of the United States. If no position exists in the same locality, the board may reinstate the employee on his request, to a position in the same class in the same office, board, commission, agency, or institution, in some other locality.

Time limit

Where such employee resigns from state service to enter recognized military service, he shall have the same reinstatement rights if that entry is made within 90 days from date of resignation.

SEC. 3. Section 19394 of the Government Code is amended to read:

Persons on employment lists

19394. A person in recognized military service whose name was high enough on a regular permanent employment list to be available for certification for possible permanent appointment to a position while he was in the armed forces of the United States shall retain his place on the list for three years following the date of his release from military service or until six months after the termination of the state military emergency, whichever is the earlier date. Provided further, that a name shall not be retained on a list for longer than eight years after the date the list was established. The name of a person whose eligibility is retained under the provisions of this section beyond the time other names are removed from a list as provided in Section 18901 shall be certified ahead of the names of persons on more recently prepared lists, except that the name shall be removed from the list if he refuses or has refused to accept appointment to a permanent position after certification thereto subsequent to his release from the armed forces. This section does not apply to an individual who enters or enlists in the recognized military service of the United States and who after January 1, 1956, voluntarily requests and obtains an extension of his original term of enlistment, service, or tour of duty in such service.

SEC. 4. Section 19401 of said code is amended to read:

Certification for higher position

19401. Whenever a state employee is certified for appointment to a higher position by a department before entering military service and the department has requested his service, but was unable to complete any procedural requirement for such appointment by reason of entry into recognized military service, if eligible to reinstatement pursuant to Government Code Section 19390, he shall be afforded an opportunity to complete the necessary requirement for such appointment immediately upon return to state service and if completed satisfactorily shall be considered as having been appointed as of the earliest date of appointment as it appears on the certificate of eligibles and shall be considered as being on military leave from said position.

SEC. 5. Section 19401.1 of said code is amended to read:

Uncompleted portion of examination

19401.1. When any person completes successfully part of an open or promotional examination but was unable to complete all portions thereof because of entry into recognized military service, the board shall arrange for him to take such uncompleted portion of the examination, providing application is made not later than six months after his release from military service. Such right to complete an examination shall not continue for longer than five years after the date of the examination

Procedure on passing of examination

If the applicant passes the examination, his name shall be placed on the eligible list that resulted from the original examination as the list stands at the time his name is placed thereon. Notwithstanding the removal of names from the original list pursuant to Section 18901, the eligibility shall be established; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in the military service had his name been on the list when originally established. He shall retain his place on such list for three years from the termination of his service with the armed forces or one year from the date such eligibility is established, whichever is the later date. A name thus retained on a list, beyond the time other names are removed from the list pursuant to Section 18901, shall be removed if the person refuses to accept appointment to a permanent position after certification thereto subsequent to his discharge from the armed forces.

Exception

This section does not apply to a person who enters or enlists in the recognized military service of the United States and who after January 1, 1956, voluntarily requests and obtains an extension of his original term of enlistment, service, or tour of duty in such service.

SEC. 6. Section 19403 of said code is amended to read:

Right to take examinations held during military leave: Regular examinations

19403. An individual who was on military leave from a state civil service position that he held under duration appointment, or from a position held under an exempt appointment but included in the state civil service prior to his release from military service, or from a position in any federal or other

public agency, the functions of which as they relate to such position were transferred to the state prior to his release from military service, and who would be eligible for reinstatement or restoration to his position pursuant to Government Code Section 19390 or Military and Veterans Code Section 395.1 shall be permitted to take any regular examination held while he was in the military service, or on military leave, for the class in which he had such appointment and for which he had the minimum qualifications required of applicants when the examination originally was given. Provided, further, that the right to have an examination reopened shall not continue for longer than five years after the date of the examination. The board shall arrange for him to take the identical examination if application is made not later than six months after his release from military service or six months after the effective date thereof, whichever is the later date. If the applicant passes the examination, his name shall be placed on the eligible list that resulted from the original examination as the list stands at the time his name is placed thereon. Notwithstanding the removal of names from the original list pursuant to the provisions of Section 18901 of the Government Code, the eligibility shall be established; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in the military service had his name been on the list when originally established. He shall retain his place on such list for three years from the termination of his service with the armed forces or one year from the date such eligibility is established, whichever is the later date; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in recognized military service had his name been on the list when originally established. A name thus retained on a list, beyond the time other names are removed from the list pursuant to the provisions of Section 18901 of the Government Code, shall be removed if the person refuses to accept appointment to a permanent position after certification thereto subsequent to his discharge from the armed forces.

SEC. 7. Section 19404 of said code is amended to read:

Same: Promotional examinations

19404. If, while a civil service employee was on military leave, a promotional examination was held which he would have been entitled to take had he continued to hold the position last held prior to entrance into recognized military service and not been on military leave, such employee shall be eligible to take the identical promotional examination, and the board shall arrange for him to take the examination within a reasonable time providing application is made not later than six months after his reinstatement from military leave; provided further, that the right to have an examination reopened shall not continue for longer than five years after the date of the examination. If the employee qualifies in the examination, his name shall be placed on the open and promotional

list that resulted from the original examination as the list stands at the time his name is placed thereon. Notwithstanding the removal of names from the original list pursuant to Section 18901, the eligibility shall be established; provided, his rating is sufficiently high for his name to have been included on a certification to a permanent position while he was in the military service had his name been on the list when originally established. He shall retain his place on such list for three years from the termination of his service with the armed forces or one year from the date such eligibility is established, whichever is the later date. A name thus retained on a list, beyond the time other names are removed from the list pursuant to the provisions of Section 18901, shall be removed if the person refuses to accept appointment to a permanent position after certification thereto subsequent to his discharge from the armed forces, or if he resigns from state service.

SEC. 8. Section 19405 is added to said code, to read:

19405. The provisions of Sections 19394, 19401.1, 19403, and 19404 as they existed prior to the 1955 amendments of such sections shall remain applicable to any person who returns to state civil service from recognized military service prior to January 1, 1956.

Said moneys may not be used for said other county sanitation district purposes until two-thirds of the qualified electors of said district or improvement

The conclusions and recommendations in the report of the Riding and Hiking Trails Projects Committee of the Reconstruction and Re-employment Commission submitted to said commission are adopted in principle.

CHAPTER 1537

An act to amend Sections 5085 and 7778 of the Education Code, relating to the Public School System, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 1, 1955. Filed with Secretary of State July 5, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 5085 of the Education Code is amended to read:

Annexation after final conditional apportionment. Determination of apportionment

5085. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of Finance shall determine what portion of such apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of Finance under this section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of Finance shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the State under the provisions of this chapter.

On and after the date of such change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of Finance has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of such portion of the apportionment in the public school building fund of the state-aided district shall be transferred to the public school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the State of that portion of the annual repayment and all other payments due the State under Section 5057 and other provisions of this chapter with respect to that portion of the apportionment which the Director of Finance has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district, or, in the event such portion of such apportionment is a lower percentage of such apportionment than the percentage that the assessed valuation in the territory of the state-aided district which was transferred to the acquiring district is of the total assessed valuation of the state-aided district immediately preceding the effective date of the transfer, the acquiring district shall become liable for the payment to the State of that percentage of the annual repayment and all other repayments due the State under Section 5057 and other provisions of this chapter with respect to such apportionment which is equal to such percentage of assessed valuation in the territory transferred to the acquiring district.

SEC. 2. Section 7778 of said code is amended to read:

Share of apportionment

7778. Whenever, subsequent to the date on which a conditional apportionment made to a state-aided district becomes final, less than all of such district is included in another district, the Director of Finance shall determine what portion of such apportionment was expended or will be expended for property acquired or to be acquired by the acquiring district. Any determination made by the Director of Finance under this section may be redetermined by him, from time to time, until the project for which the apportionment was made has been completed, and the final cost thereof determined and the final determination has been made pursuant to such final cost. The Director of Finance shall promptly notify the State Controller, the governing board of the state-aided district and of the acquiring district, the superintendent of schools, the auditor, and the treasurer of the counties having jurisdiction over said districts of each determination and redetermination made by him under this section. No redetermination shall be retroactive nor affect the liability of any school district for any payment or annual repayment, or portion thereof, previously made by or on behalf of such district to the State under the provisions of this chapter.

On and after the date of such change of boundaries, the acquiring district succeeds to and is vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to that portion of the apportionment which the Director of Finance has determined or redetermined under this section was expended, or will be expended, for property acquired or to be acquired by the acquiring district, and the unexpended part of such portion of the apportionment in the state school building fund of the state-aided district shall be transferred to the state school building fund of the acquiring district. In addition, and at the same time, the acquiring district shall become liable for the payment to the State of that portion of the annual repayment and all other payments due the State under Section 7729 and other provisions of this chapter with respect to that portion of the apportionment which the Director of Finance has determined or redetermined was expended, or will be expended for property acquired, or to be acquired by the acquiring district, or, in the event such portion of such apportionment is a lower percentage of such apportionment than the percentage that the assessed valuation in the territory of the state-aided district which was transferred to the acquiring district is of the total assessed valuation of the state-aided district immediately preceding the effective date of the transfer, the acquiring district shall become liable for the payment to the State of that portion of the annual repayment and all other repayments due the State under Section 7729 and other provisions of this chapter with respect to such apportionment which is equal to such percentage of assessed valuation in the territory transferred to the acquiring district. "Annual repayment," as used in this

section, refers to repayment computed under Sections 7726 to 7729, inclusive, and excludes amounts for which the state-aided district is liable under the provisions of Section 7714.1. Whenever a site for which repayments are being made under Section 7714.1 is transferred to an acquiring district the acquiring district shall be liable for the repayments required under Section 7714.1.

Applicability

SEC. 3. This act shall apply to computations of annual repayments of school districts and deductions from State School Fund apportionments made during the 1955-1956 Fiscal Year and each fiscal year thereafter. If, under this act, the annual repayment and deduction of a district for the 1955-56 Fiscal Year would be different than that previously computed for such fiscal year, the Controller shall recompute such annual repayment and deduction and, on or before September 1, 1955, notify the governing board of the district and the other officers referred to in Education Code Sections 5062 and 7735 of the amount to be deducted as recomputed pursuant to this act.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law upon the change in boundaries of a district receiving state school building aid, the amount of repayment which the district makes on such aid is reduced in proportion to the amount of the state aid which was used for facilities which the district loses as a result of the change of boundaries. This type of reduction is insufficient and inequitable to the district and the taxpayers thereof where the percentage of assessed valuation lost by the state-aided district as a result of the change of boundaries is much greater than the percentage of state aid financed facilities lost by the district. In order to ameliorate this unfair burden on the taxpayers of such districts to avoid jeopardizing the whole school program of such district during the 1955-1956 Fiscal Year it is necessary that this act take effect immediately.

CHAPTER 1538

An act to amend Section 2193 of, and to add Section 2193.5 to, the Business and Professions Code, relating to the healing arts.

The people of the State of California do enact as follows:

Nothing contained in this section shall prohibit the board from disapproving any foreign medical school nor from denying the application if, in the opinion of the board, the instruction received by the applicant or the courses were not equivalent to that required in this article for a physician and surgeon applicant.

SEC. 2. Section 2193.5 is added to said code, to read:

Same Citizens at time instruction commenced

2193.5. Such fictitious oil and gas leases need not be acknowledged, or proved, or certified, to be recorded or entitled to record. Such oil and gas leases shall have noted upon the face thereof that they are fictitious. The county recorder shall index and record such fictitious oil and gas leases in the same manner as other oil and gas leases are recorded, and shall note on all indices and records of the same that they are fictitious. Thereafter, any of the provisions of any such recorded fictitious oil and gas lease may be included for any and all purposes in any oil and gas lease by reference therein to any such provisions, without setting the same forth in full; provided, such fictitious oil and gas lease is of record in the county in which the oil and gas lease adopting or including by reference any of the provisions thereof is recorded. be bound thereby in the same manner and with like effect for all purposes as though such provisions had been and were set forth in full in any such oil and gas lease.

Whenever a document or paper is presented for recordation on which is set forth, apart and separated from any other writing, typing or printing thereon (1) an oil and gas lease that refers to and incorporates therein provisions of a fictitious oil and gas lease as provided herein, or (2) an oil and gas lease that refers to and incorporates therein provisions of some other instrument theretofore recorded in the office of any county recorder, and (3) such oil and gas lease, set forth on such document or paper, is, of itself, entitled to recordation, then any such other writing, typing or printing on such document or paper, whether on the reverse side from where such oil and gas lease is set forth or on the same side thereof or on the following pages, shall not be recorded by the county recorder to whom such document or paper is presented for recordation if such other writing, typing or printing is preceded by the words or clearly marked, "do not record" or "not to be recorded" or the like. The peace, health and safety of the citizens of the State require the orderly and unhampered functioning of public bodies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of public bodies, and upon the validity of acts, proceedings, and bonds of public bodies, and it is therefore imperative and

(2) Public works and construction by public bodies can be commenced and continued without delay or restriction, to provide sewers, water works, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, fire houses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health, and safety, and immediately needed to provide for an increased population;

This act will make the provisions of state law conform with the provisions of the new federal Medical Facilities Survey and Construction Act of 1954, thereby permitting the allocation of additional federal and state funds for the construction of certain types of hospital facilities. In order that these funds be made available and necesary construction begun as soon as possible with the resulting betterment to the health, safety, and welfare of the people of this State, it is essential that this act go into effect immediately.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

The vessel and the wharf facilities of the existing ferry system between the Cities of Benicia and Martinez are so far depreciated that continued maintenance of the ferry service is impossible unless replacement or reconstruction of such facilities is immediately undertaken. The maintenance of ferry service between the two cities is necessary particularly by reason of the existence and operation of the arsenal in the City of Benicia and the large industrial development in and around the City of Martinez. Employees of these facilities commute each day and continuation of the ferry service is essential to public welfare.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

Water is all-important to the State of California, and there is urgent necessity for its conservation. The inability of water conservation districts in this State to plan for new or pay for past projects in the most efficient and economical fashion hampers these districts in this vital field. Where increases in costs of the acquisition, construction or completion of district improvements have intervened subsequent to the dates of bond elections, or the dates of sale of bonds, the result has been that districts could not complete improvements already authorized and undertaken. The immediate availability of this act will allow water conservation operations to proceed at maximum efficiency.
