CHAPTER 1590

An act to amend Sections 17434, 24535, 24536, 24537, 24538, 24541 and 24561 of, and to add Sections 17433, 24532 and 24533 to, and to repeal Section 24533 of the Revenue and Taxation Code, relating to taxation of banks, corporations,

associations and Massachusetts trusts and personal income taxes, and providing that this act shall take effect immediately.

In effect immediately

[Approved by Governor July 5, 1955. Filed with Secretary of State July 7, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 24532 is added to the Revenue and Taxation Code, to read:

No gain or loss recognized

24532. (a) If—

(1) A corporation (referred to in this section and Section 24533 as the "distributing corporation")—

(A) Distributes to a shareholder, with respect to its stock; or

(B) Distributes to a security holder, in exchange for its securities solely stock or securities of a corporation (referred to in this section and Section 24533 as "controlled corporation") which it controls immediately before the distribution.

(2) The transaction was not used principally as a device for the distribution of the earnings and profits of the distributing corporation or the controlled corporation or both (but the mere fact that subsequent to the distribution stock or securities in one or more of such corporations are sold or exchanged by all or some of the distributees (other than pursuant to an arrangement negotiated or agreed upon prior to such distribution) shall not be construed to mean that the transaction was used principally as such a device),

(3) The requirements of Section 24533 (relating to active businesses) are satisfied; and

(4) As part of the distribution, the distributing corporation distributes—

(A) All of the stock and securities in the controlled corporation held by it immediately before the distribution; or

(B) An amount of stock in the controlled corporation constituting control within the meaning of Section 24564, and it is established to the satisfaction of the Franchise Tax Board that the retention by the distributing corporation of stock (or stock and securities) in the controlled corporation was not in pursuance of a plan having as one of its principal purposes the avoidance of California tax;

then no gain or loss shall be recognized to (and no amount shall be includible in the income of) such shareholder or security holder on the receipt of such stock or securities.

Application

(b) Paragraph (1) shall be applied without regard to the following:

(1) Whether or not the distribution is pro rata with respect to all of the shareholders of the distributing corporation;

(2) Whether or not the shareholder surrenders stock in the distributing corporation; and

(3) Whether or not the distribution is in pursuance of a plan of reorganization (within the meaning of Section 24562(a)(4)).

Exemptions

(c) Subsection (a) shall not apply if—

(1) The principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities which are surrendered in connection with such distribution; or

(2) Securities in the controlled corporation are received and no securities are surrendered in connection with such distribution.

For purposes of Sections 24532 and 24533, inclusive (other than paragraph (a)(4) of this subsection), and so much of Section 24535 as relates to this section and Section 24533, stock of a controlled corporation acquired by the distributing corporation by reason of any transaction which occurs within five years of the distribution of such stock and in which gain or loss was recognized in whole or in part shall not be treated as stock of such controlled corporation, but as other property.

Repeal

SEC. 2. Section 24533 of the Revenue and Taxation Code is hereby repealed.

SEC. 3. Section 24533 is added to the Revenue and Taxation Code, to read:

Application

24533. (a) Section 24532 shall apply only if either—

(1) The distributing corporation, and the controlled corporation (or, if stock of more than one controlled corporation is distributed, each of such corporations) is engaged immediately after the distribution in the active conduct of a trade or business; or

(2) Immediately before the distribution, the distributing corporation had no assets other than stock or securities in the controlled corporations and each of the controlled corporations is engaged immediately after the distribution in the active conduct of a trade or business

Engaged in trade or business

(b) For purposes of subsection (a), a corporation shall be treated as engaged in the active conduct of a trade or business if and only if—

(1) It is engaged in the active conduct of a trade or business, or substantially all of its assets consist of stock and securities of a corporation controlled by it (immediately after the distribution) which is so engaged;

(2) Such trade or business has been actively conducted throughout the five-year period ending on the date of the distribution;

(3) Such trade or business was not acquired within the period described in paragraph (2) in a transaction in which gain or loss was recognized in whole or in part; and

(4) Control of a corporation which (at the time of acquisition of control) was conducting such trade or business—

(A) Was not acquired directly (or through one or more corporations) by another corporation within the period described in paragraph (2), or

(B) Was so acquired by another corporation within such period, but such control was so acquired only by reason of transactions in which gain or loss was not recognized in whole or in part, or only by reason of such transactions combined with acquisitions before the beginning of such period.

SEC. 4. Section 24535 of the Revenue and Taxation Code is amended to read:

Recognized gain

24535. (a) If—

(1) Section 24531, 24532 or 24533 would apply to an exchange but for the fact that—

(2) The property received in the exchange consists not only of property permitted by Section 24531, 24532 or 24533 to be received without the recognition of gain but also of other property to money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

Treatment Dividend

(b) If an exchange is described in subsection (a) but has the effect of the distribution of a dividend, then there shall be treated as a dividend to each distributee such an amount of the gain recognized under subsection (a) as is not in excess of his ratable share of the undistributed earnings and profits of the corporation accumulated after February 28, 1913. The remainder, if any, of the gain recognized under subsection (a) shall be treated as gain from the exchange of property.

SEC. 5. Section 24536 of the Revenue and Taxation Code is amended to read:

Distribution of property

24536. If—

(a) Section 24532 or 24533 would apply to a distribution but for the fact that—

(b) The property received in the distribution consists not only of property permitted by Section 24532 or 24533 to be received without the recognition of gain, but also of other property or money;

then an amount equal to the sum of such money and the fair market value of such other property shall be treated as a distribution of property to which Sections 24451 and 24453 apply.

SEC. 6. Section 24537 of the Revenue and Taxation Code is amended to read:

Loss not recognized

24537. If—

(a) Section 24531 would apply to an exchange, or Section 24532 or 24533 would apply to an exchange or distribution, but for the fact that—

(b) The property received in the exchange or distribution consists not only of property permitted by Section 24531, 24532 or 24533 to be received without the recognition of gain or loss, but also of other property or money;

then no loss from the exchange or distribution shall be recognized.

SEC. 7. Section 24538 of the Revenue and Taxation Code is amended to read:

24538. For purposes of Sections 24535 to 24539, inclusive— "Other property."

(a) Except as provided in subsection (b), the term "other property" includes securities,

(b) The term "other property" does not include securities to the extent that, under Sections 24531, 24532 and 24533, such securities would be permitted to be received without the recognition of gain.

If—

(1) In any exchange described in Section 24531 (other than subsection (c) thereof), securities of a corporation a party to the reorganization are surrendered and securities of any corporation a party to the reorganization are received; and

(2) The principal amount of such securities received exceeds the principal amount of such securities surrendered;

then, with respect to such securities received, the term "other property" means only the fair market value of such excess. For purposes of this paragraph and paragraph (c), if no securities are surrendered, the excess shall be the entire principal amount of the securities received.

(c) If, in an exchange or distribution described in Section 24532 and 24533, the principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities in the distributing corporation which are surrendered, then, with respect to such securities received, the term "other property" means only the fair market value of such excess.

SEC. 8. Section 24541 of the Revenue and Taxation Code is amended to read:

24541. (a) In the case of an exchange to which Sections 24521, 24531, 24532, 24533, 24535, 24551, and 24571 apply— Basis computations

(1) The basis of the property permitted to be received under such section without the recognition of gain or loss shall be the same as that of the property exchanged—

(A) Decreased by—

(i) The fair market value of any other property (except money) received by the taxpayer; and

(ii) The amount of any money received by the taxpayer; and

(B) Increased by—

(i) The amount which was treated as a dividend; and

(ii) The amount of gain to the taxpayer which was recognized on such exchange (not including any portion of such gain which was treated as a dividend).

(2) The basis of any other property (except money) received by the taxpayer shall be its fair market value.

(b) (1) Under regulations prescribed by the Franchise Tax Board, the basis determined under subsection (a) (1) shall be

allocated among the properties permitted to be received without the recognition of gain or loss.

(2) In the case of an exchange to which Sections 24532 and 24533 (or so much of Section 24535 as relates to Section 24533) apply, then in making the allocation under paragraph (1) of this subsection, there shall be taken into account not only the property so permitted to be received without the recognition of gain or loss, but also the stock or securities (if any) of the distributing corporation which are retained, and the allocation of basis shall be made among all such properties.

(c) For purposes of this section, a distribution to which Section 24533 (or so much of Section 24535 as relates to Sections 24532 and 24533) applies shall be treated as an exchange, and for such purposes the stock and securities of the distributing corporation which are retained shall be treated as surrendered, and received back, in the exchange.

(d) Where, as part of the consideration to the taxpayer, another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall, for purposes of this section, be treated as money received by the taxpayer on the exchange.

(e) This section shall not apply to property acquired by a corporation by the issuance of its stock or securities as consideration in whole or in part for the transfer of the property to it.

SEC. 9. Section 24561 of the Revenue and Taxation Code is amended to read:

Foreign corporations

24561. In determining the extent to which gain shall be recognized in the case of any of the exchanges described in Sections 24502, 24521, 24532, 24533, 24535, or 24551, a foreign corporation shall not be considered as a corporation unless, before such exchange, it has been established to the satisfaction of the Franchise Tax Board that such exchange is not in pursuance of a plan having as one of its principal purposes the avoidance of taxes under this part.

SEC. 10. Section 17433 is added to the Revenue and Taxation Code, to read:

No recognition of gain or loss

17433. (a) If—

(1) A corporation (referred to in this section as the "distributing corporation")—

(A) Distributes to a shareholder, with respect to its stock; or

(B) Distributes to a security holder, in exchange for its securities, solely stock or securities of a corporation (referred to in this section and Section 17434 as "controlled corporation") which it controls immediately before the distribution;

(2) The transaction was not used principally as a device for the distribution of the earnings and profits of the distributing corporation or the controlled corporation or both (but the mere fact that subsequent to the distribution stock or securities in one or more of such corporations are sold or exchanged by

all or some of the distributees (other than pursuant to an arrangement negotiated or agreed upon prior to such distribution) shall not be construed to mean that the transaction was used principally as such a device);

(3) The requirements of Section 17434 (relating to active businesses) are satisfied; and

(4) As part of the distribution, the distributing corporation distributes—

(A) All of the stock and securities in the controlled corporation held by it immediately before the distribution; or

(B) An amount of stock in the controlled corporation constituting control within the meaning of Section 17463, and it is established to the satisfaction of the Franchise Tax Board that the retention by the distributing corporation of stock (or stock and securities) in the controlled corporation was not in pursuance of a plan having as one of its principal purposes the avoidance of income tax,

then no gain or loss shall be recognized to (and no amount shall be includible in the income of) such shareholder or security holder on the receipt of such stock or securities.

Application

(b) Subsection (a) shall be applied without regard to the following:

(1) Whether or not the distribution is pro rata with respect to all of the shareholders of the distributing corporation;

(2) Whether or not the shareholder surrenders stock in the distributing corporation; and

(3) Whether or not the distribution is in pursuance of a plan of reorganization (within the meaning of Section 17461 (a)(4)).

(c) Subsection (a) shall not apply if—

(1) The principal amount of the securities in the controlled corporation which are received exceeds the principal amount of the securities which are surrendered in connection with such distribution; or

(2) Securities in the controlled corporation are received and no securities are surrendered in connection with such distribution. For purposes of this section and Section 17434 (other than subsection (a)(3)) and so much of Sections 17435 to 17439 as relates to this section and Section 17434, stock of a controlled corporation acquired by the distributing corporation by reason of any transaction which occurs within five years of the distribution of such stock and in which gain or loss was recognized in whole or in part, shall not be treated as stock of such controlled corporation, but as other property.

(d) For treatment of the distribution if any property is received which is not permitted to be received under this section (including an excess principal amount of securities received over securities surrendered), see Sections 17435 to 17439, inclusive.

SEC. 11. Section 17434 of the Revenue and Taxation Code is amended to read:

Application

17434. (a) Section 17433 shall apply only if either—

(1) The distributing corporation, and the controlled corporation (or, if stock of more than one controlled corporation is distributed, each of such corporations), is engaged immediately after the distribution in the active conduct of a trade or business; or

(2) Immediately before the distribution, the distributing corporation had no assets other than stock or securities in the controlled corporation and each of the controlled corporations is engaged immediately after the distribution in the active conduct of a trade or business.

(b) For purposes of subsection (a), a corporation shall be treated as engaged in the active conduct of a trade or business if and only if—

Engaged in trade or business

(1) It is engaged in the active conduct of a trade or business, or substantially all of its assets consist of stock and securities of a corporation controlled by it (immediately after the distribution) which is so engaged;

(2) Such trade or business has been actively conducted throughout the five-year period ending on the date of the distribution;

(3) Such trade or business was not acquired within the period described in paragraph (2) in a transaction in which gain or loss was recognized in whole or in part; and

(4) Control of a corporation which (at the time of acquisition of control) was conducting such trade or business—

(A) Was not acquired directly (or through one or more corporations) by another corporation within the period described in paragraph (2); or

When the application for restoration of the license is made and all delinquent license fees and penalties are paid within three years after the suspension, no examination shall be required. In effect September 7, 1955

[Approved by Governor July 5, 1955. Filed with Secretary of State July 7, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 2957 of the Civil Code is hereby amended to read as follows:

Priority of mortgages on personal property or crops

2957. A mortgage of personal property or crops is void as against creditors of the mortgagor and subsequent purchasers and encumbrancers of the property in good faith and for value, unless

1. It is acknowledged, or proved and certified, in like manner as grants of real property;

2. The mortgage, if of animate personal property other than crops growing or to be grown, is recorded in the office of the recorder of the county where the mortgagor resides at the time the mortgage is executed, or in case the mortgagor is a nonresident of this State, in the office of the recorder of the county where the property mortgaged is located at the time the mortgage is executed;

3. The mortgage, if of crops growing or to be grown, is recorded in the office of the recorder of the county where the land is located upon which such crops are growing or to be grown;

4. The mortgage, if of personal property other than crops growing or to be grown or animate personal property, is recorded in the office of the recorder of each of the counties where the property mortgaged is located and where the mortgagor resides at the time the mortgage is executed, provided that in case the mortgagor is a nonresident of this State no recordation where the mortgagor resides is required, and, in case the property mortgaged is thereafter removed to another county of this State, either the mortgage is recorded in that county or there is or has been filed a statement of recordation as prescribed in Section 2965;

5. Each such mortgage is clearly entitled on the face thereof, apart from and preceding all other terms of the mortgage, to be a mortgage of crops and chattels, or either;

6. Within four years from the last recording or rerecording thereof, it be recorded in its entirety or in lieu thereof there be recorded a certificate executed by the mortgagor or mortgagee, or the successor in interest of either thereof, and recorded in the office of the recorder of each county in which

the mortgage has been recorded, which said certificate shall be in substantially the following form:

CERTIFICATE OF RERECORDATION

(Signed)_____A.B.

Said certificate shall be acknowledged, or proved and certified, in like manner as grants of real property. No certificate shall be deemed defective because it does not refer to all of the recordation of the original mortgage. The provisions of subdivision 6 of this section shall not apply to any mortgage heretofore or hereafter made pursuant to an order, judgment, or decree of court of record, or heretofore or hereafter made to secure the payment of bonds or other evidences of indebtedness authorized or permitted to be issued by the Commissioner of Corporations, or heretofore or hereafter made by a public utility as defined in the Public Utilities Act, but such a mortgage when once recorded as provided by law, shall remain valid and effective as against creditors of the mortgagor and subsequent purchasers and encumbrancers of the property, mortgaged without rerecording, anything in this section to the contrary notwithstanding. Discontinuance of district retirement salary plan

14746. (a) A district retirement salary plan established under this article in any school district or districts, in which the average daily attendance of all districts combined is in excess of 200,000, governed by the same governing board may be discontinued by the governing board of the district or districts, with the consent of the majority of the active members of the system expressing their desires with respect to the discontinuance of the plan evidenced in such manner as the governing board may prescribe; but no discontinuance of any such retirement plan shall be effective for any purpose unless provision is made for retirement allowances for active and retired employees of the district as provided in subdivisions (b), (c), (d), and (e) of this section.

Transfer to State Employees' Retirement System

(b) Active and retired employees of the district or districts who otherwise would be members of such plan, other than teachers and persons employed in a status requisite for membership in the State Teachers' Retirement System or who were so employed prior to retirement, shall be made members and beneficiaries, respectively, of the State Employees' Retirement System according to the provisions of Part 3, of Division 5, of Title 2 of the Government Code, including transfer to said system of the accumulated contributions of said employees, together with such other assets of said plan as may be determined.

Transfer of contributions

(c) Notwithstanding any other provisions of this division, contributions to the discontinued district retirement plan made by teachers and other persons employed by the district or districts in a status requisite for membership in the State Teachers' Retirement System standing to their individual

credit at the date of discontinuance of the district retirement plan shall be deposited forthwith in the Retirement Annuity Fund with credited interest, to be applied on the amount due from said teachers and other persons under Section 14680 of this code, but not to exceed the amount so due. Likewise an amount equal to the actuarial equivalent of the annuity portion of the retirement allowance to which the respective retired teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System were entitled under said plan, based on the interest rate and mortality tables used in its determination, shall be deposited in the Retirement Annuity Fund, to be applied on the amount due from said respective retired teachers and other persons under Section 14683 of this code, but not to exceed the amount so due. Any excess of the contributions with credited interest or the actuarial equivalents, as the case may be, over the respective amounts due under said sections, shall be paid forthwith to the respective active and retired teachers and other persons. Further amounts, if any, due under said sections after said deposits, shall be paid to the Retirement Annuity Fund by the respective active and retired teachers and other persons. The balance of the assets held in the various funds of the discontinued district retirement plan after the deposits and payments required by this section, shall be delivered to the district or districts in which the plan is discontinued.

Payment to retired employees

(d) The district or districts in which the district retirement plan is discontinued shall pay monthly to teachers and other persons employed by the district or districts, prior to retirement, in a status requisite for membership in the State Teachers' Retirement System who were retired prior to the date of such discontinuance an amount equal to the amount by which the retirement allowance to which any of said retired teachers or other persons was entitled under said plan exceeds the increase in said teacher's or other person's retirement allowance under the State Teachers' Retirement System resulting from said discontinuance. If the amount payable to any such teacher or other person, under the sentence next preceding, is less than two dollars ($2), the district or districts may pay, in lieu of such amount, one amount which shall be actuarially equivalent to such monthly amount thereafter payable, according to the interest rate and mortality table used in the determination of the teacher's or other person's retirement allowance under the said district retirement plan. The payment of such actuarially equivalent amount shall discharge fully the district's liability to such teacher or other person under this subdivision (d). The arrangement under which said amounts are paid by said district shall not be considered to be a local retirement system for the purposes of Chapter 14, of Division 7, of the Education Code, nor shall said amount be taken into account in the calculation of re-

tirement allowances under the State Teachers' Retirement System.

Right of employee to change election

(e) If any person who was retired prior to such discontinuance from a position requisite for membership in the State Teachers' Retirement System, under a district retirement salary plan which is discontinued pursuant to this section, elected either under such plan or under such system, but not under both, to have his retirement allowance modified according to an option under which he would receive a smaller allowance and provide a benefit for his beneficiary, such person shall have the right, to be exercised not later than sixty (60) days after the discontinuance of such plan to change his election under the State Teachers' Retirement System with respect to said options. Any computations of actuarial equivalent under a changed election shall be made as of the date of discontinuance of the plan, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date.

The presiding officer of the governing body of each city, the whole or part of which is included in the sanitation district, is a member of the board. A member of the governing body of each sanitary district, the whole or part of which is included in the sanitation district, is a member of the board.

If the sanitation district includes territory which is unincorporated and not included in a sanitary district, then the presiding officer of the county board of supervisors is a member of the board.

The governing body of each city and the board of supervisors shall each select one of its members, other than its presiding officer, as an alternate director to act as a member of the district board in place of the presiding officer during his absence, inability or refusal to act.

If the sanitation district includes unincorporated territory and all or part of one city and no sanitary district, or unincorporated territory and one sanitary district and no city, then the presiding officer and one other member of the board of supervisors are members of the board, unless the population included in the city or sanitary district is more than half of the population of the whole sanitation district, in which case the presiding officer of the board of supervisors and the presiding officer and one other member of the governing body of

If the district includes no territory which is in cities or sanitary districts, then the county board of supervisors is the board of directors of the district.

If the territory of the district lies wholly within a city, the legislative body of said city is the board of directors of the district.

A city within a sanitation district, the sewered portion of which city lies entirely within a sanitary district, shall have no representation on the board.

"Sanitary district" The term "sanitary district" as used in this section shall mean a sanitary district formed prior to the formation of the sanitation district in which it is included in whole or in part.

SEC. 2. Section 4830 of said code is amended to read:

The district board shall before such annexation is completed, by resolution, find and declare that the district will be bene-

A verified petition signed by the owners of more than 50 percent of the assessed value of the property sought to be annexed shall be presented to the board of supervisors of the county in which said annexing property is located. Upon receipt of such petition, the board of supervisors shall either approve or disapprove said proposed annexation and, if such approval is given, it shall transmit to the board of directors of the sanitation district a copy of the petition for annexation and a copy of the resolution approving same. Upon receipt of said petition and resolution, the board of directors of the sanitation district shall either consent to or reject said proposed annexation and shall give written notice to said board of supervisors of the action so taken. Upon receipt of notice that said board of directors have consented to said proposed annexation, the board of supervisors of said county in which the annexing territory is so located shall proceed on the matter of annexation in the same manner as for the formation of a district in the first instance; except that wherever it is required to set forth the boundaries of the proposed district there shall be set forth the boundaries of the territory proposed to be annexed, and wherever protests are called for or authorized or an election is to be held, the provisions therefor shall refer only to the territory proposed to be annexed. Upon either (a) disapproval of said proposed annexation by said board of supervisors or (b) rejection thereof by the board of directors of said sanitation district as specified above, the procedures for annexation shall terminate and no further petitions for annexation shall be circulated or presented for a period of six months thereafter.

All ordinances theretofore and thereafter adopted by the board of directors shall have full force and effect in all portions of the district regardless in which county the property is situated.

SEC. 7. Section 4833 is added to said code, to read:

Taxes for district located in more than one county

4833. Taxes for a district which is situated in more than one county as provided in this article shall be levied in accordance with the following procedure:

(a) The board of directors shall annually, before the time of fixing the general tax levy for county purposes, estimate the amount of money necessary to be raised by taxation to meet the requirements for operation, maintenance, and payment of principal and interest on outstanding bonds which will become payable before the proceeds of another tax levy made at the time of the next general tax levy for county purposes can be made available for payment of such operation, maintenance, principal and interest.

(b) The total estimate shall be divided by the board of directors in proportion to the value of the real property of the district in each county. The value shall be determined from the equalized values of the last assessment rolls of the counties. When the division of the estimate has been made, the board of directors shall promptly certify to the boards of supervisors of the counties in which the district is situated the respective parts of the estimate apportioned to each county.

(c) The board of supervisors of each county in which is situated any part of a district shall annually, at the time of levying county taxes, levy a tax upon all the property within the district situated in the county sufficient to raise the amount so certified to the board of supervisors by the board of directors.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect to become operative July 1, 1955. The facts constituting such necessity are: Urgency

The assessment of a substantial portion of the property in some school districts has been contested. As a result of this, the tax receipts from the contested assessments have been withheld from the districts. However, the total assessed valuation of the district has had to be used to compute the district's equalization aid. In order that the assessed valuation, upon which the districts actually received taxes, may be used in computing the district's equalization aid for the Fiscal Year 1955-56, it is necessary that this act take effect immediately

SEC. 7. This act shall become operative on July 1, 1955. Operative date

CHAPTER 1643

An act relating to the availability of funds previously appropriated and available for vending stands for the blind, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 5, 1955. Filed with Secretary of State July 7, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 21 of the Budget Act of 1954 shall not apply to that portion of the appropriation made by Item 84 of said act which is available for use in connection with eating facilities installed by the Bureau of Vocational Rehabilitation when hot foods are not prepared on the premises.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 21 of the Budget Act of 1954 prevents the spending of money for the purchasing of equipment or supplies for the cafeteria type blind vending stand where hot meals are served, unless previously established. It is of the greatest importance that blind persons be provided with remunerative employment. Their economic opportunities must be enlarged and it is in the best interests of the State that the blind are stimulated to greater efforts in striving to make themselves self-supporting. Construction is now in progress on various cafeteria facilities for the blind which now appear to be within the restrictive provisions of Section 21 of the Budget Act of 1954. Unless such portion of the appropriation made by Item 84 of such act, which portion is available for use in connection with eating facilities installed by the Bureau of Vocational Rehabilitation, is released from the restriction of Section 21 of such act, moneys set aside for the completion of facilities now in the process of construction will be lost and such facilities will not be capable of being completed. Also, plans for the construction of other similar facilities in the near future will be greatly curtailed, if not completely nullified. The money for these facilities is urgently needed to effectuate the interests of the State in blind persons hereinbefore set forth. It is therefore necessary that this act go into effect immediately.

(c) The department shall make or cause to be made such scientific laboratory test of every lamp or device submitted for approval as the department determines is appropriate or as may be required herein to determine whether or not the same will conform to the requirements of this code or department regulation adopted pursuant to this code, and may expend such sums as may be necessary for this purpose from funds appropriated for the support of the department. The department shall report its approval or disapproval of the same

within 60 days after submission of such lamp or device for approval accompanied by the proper fee.

648. Multiple-beam Road Lighting Equipment. Except as hereinafter provided, the headlamps, or the auxiliary driving lamps, or combinations thereof, on motor vehicles at the times mentioned in Section 618 shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and such lamps may, in addition, be so arranged that such selection can be made automatically, subject to the following requirements and limitations:

(b) Whenever the driver of a vehicle approaches an oncoming vehicle within 500 feet, such driver shall use a distribution of light or composite beam so aimed that the glaring rays are not projected into the eyes of the oncoming driver.

The lowermost distribution of light specified in Section 648, paragraph (b) shall be deemed to avoid glare at all times regardless of road contour and loading.

(c) Whenever the driver of a vehicle follows another vehicle within 200 feet to the rear, such driver shall use a distribution of light permissible under this code other than the uppermost distribution of light specified in paragraph (a) of Section 648.

SEC. 6. Section 650 5 of said code is amended to read:

For such retest the department may purchase in the open market one or more units of such approved lamp or device. In the event such lamp or device upon such retest fails to meet the requirements of this code and department regulations adopted pursuant to this code, the department shall have authority to suspend or revoke the certificate of approval previously issued therefor. No fee shall be charged for any such retest; however, the department may pay from the funds appropriated for maintenance of the department such sums as may be necessary to carry out the provisions of this section.

When an approved device is no longer manufactured for commercial sale, the department may revoke such prior approval, but such revocation shall not prevent the use of any such device sold during the time it was approved.

The department may, however, at its discretion revoke approval of any device other than any device or equipment which is part of the original equipment of a vehicle if it is found unsafe, impractical, or objectionable in actual use or is defective for any of the reasons for which an original approval may be denied under Section 652.

SEC. 11. Section 660 of said code is amended to read:

Light and brake adjustments

660. Light and Brake Adjustments on Sale of New or Used Vehicles. No dealer shall sell a new or used motor vehicle

without first testing and if necessary adjusting the lights and brakes on such vehicle to conform with the provisions of this code and department regulations adopted pursuant to this code unless such vehicle is sold for the purpose of being wrecked or dismantled.

SEC. 12. Section 663 of said code is amended to read:

Inspection by patrolmen

663. Members of Highway Patrol May Inspect Lamps. Any member of the California Highway Patrol having reasonable grounds to believe that any headlamp or auxiliary driving or fog lamp or any device subject to approval upon a vehicle fails to comply with the requirements of this code and department regulations adopted pursuant to this code may require the driver of such vehicle to stop and submit such lamp or device to an inspection or test. In the event any such lamp or device is not of a type which has been approved by the department, the officer making such inspection shall require the driver of such vehicle to remove such illegal lamp or device within 24 hours and may arrest such driver and give him a notice to appear and may further require such driver or the owner of the vehicle to produce in court satisfactory evidence of the removal of such illegal lamp or device.

In the event any headlamp or auxiliary driving or fog lamp or device of a type which has been approved by the department by reason of faulty adjustment or otherwise fails to comply with this code and department regulations adopted pursuant to this code, the officer making the inspection shall direct the driver to make such lamp, lamps, or devices conform to the requirements of this code and such department regulations within 48 hours. Such officer may also arrest such driver and give him a notice to appear and further require said driver or the owner of the vehicle to produce in court satisfactory evidence that such lamp, lamps, or devices have been made to conform with the requirements of this code and such department regulations.

The department may prescribe the qualifications of any such station as a condition of such designation and further may suspend or revoke any such designation upon determining that the business of such station is improperly conducted.

(b) Whenever any such station upon an inspection or after an adjustment, made in conformity with the instructions of the department, determines that the headlamps, auxiliary driving, fog lamps or other required lamps or the brakes upon any vehicle conform with the requirements of this code and department regulations adopted pursuant to this code, said station shall issue to the owner or operator of such vehicle a certificate

of adjustment on a form prescribed by the department which certificate shall contain the date of issuance, the make and registration number of the vehicle, the name of the owner of the vehicle and the official designation of said station.

SEC. 14. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

In the interests of public safety it is essential that vehicles traveling on the highways of this State be equipped with the best possible lighting. This act will make it possible for the California Highway Patrol to test and approve for use on such vehicles a new type headlight and other lighting devices representing the latest technological advances in the automotive industry. Since these headlamps will be made available by the manufacturer to the public on July 1, 1955, it is essential that the California Highway Patrol be given authority as soon as possible to make tests and adopt rules and regulations regulating their use so that they may be obtained at the earliest possible time. Furthermore, unless this act takes effect immediately, vehicles from other states which have already authorized the use of the new headlamps and other lighting devices may not legally be operated in this State if equipped with such headlamps or devices until 90 days after the present legislative session and whatever additional time will be necessary for the California Highway Patrol to test and approve them for use in this State; confusion will result in the minds of the public as to the propriety of using the headlamps and devices in question; and the distribution of such headlamps and devices will be seriously impaired.

CHAPTER 1661

An act to amend Section 11517 of the Government Code, relating to administrative adjudications by state agencies.

[Approved by Governor July 5, 1955. Filed with Secretary of State July 7, 1955.] In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 11517 of the Government Code is amended to read:

11517. (a) If a contested case is heard before an agency itself the hearing officer who presided at the hearing shall be present during the consideration of the case and, if requested, shall assist and advise the agency. Where a contested case is heard before an agency itself, no member thereof who did not hear the evidence shall vote on the decision.

(b) If a contested case is heard by a hearing officer alone, he shall prepare a proposed decision in such form that it may be adopted as the decision in the case. A copy of the proposed decision shall be filed by the agency as a public record and a copy of the proposed decision shall be served by the agency on each party in the case and his attorney. The agency itself may adopt the proposed decision in its entirety, or may reduce the proposed penalty and adopt the balance of the proposed decision.

(c) If the proposed decision is not adopted as provided in subdivision (b), the agency itself may decide the case upon the record, including the transcript, with or without taking additional evidence, or may refer the case to the same or another hearing officer to take additional evidence. If the case is so assigned to a hearing officer he shall prepare a proposed decision as provided in subdivision (b) upon the additional evidence and the transcript and other papers which are part of the record of the prior hearing. A copy of such proposed decision shall be furnished to each party and his attorney as prescribed by subdivision (b). The agency itself shall decide no case provided for in this subdivision without affording the parties the opportunity to present either oral or written argument before the agency itself. The people of the State of California do enact as follows:

SECTION 1. Section 14192 is added to the Public Utilities Code, to read:

14192. In connection with the annexation of territory the board may require that an election be held to authorize the issuance of bonds to raise money for the purpose of construction of water facilities and for the benefit of the territory proposed to be annexed, and the election therefor shall be held in the same manner as any general district election for such purpose, except that only qualified voters resident within the annexed territory are entitled to vote in the proceedings. In the event any such bonds are issued in such annexed territory, the board shall annually levy a tax upon the taxable property in said annexed area sufficient to pay the interest and principal then due. Said levy shall be in addition to the levy applicable for all other taxes, tolls or charges of the district.

In the event that the voters of the area proposed to be annexed fail to approve the issuance of such bonds the board shall reject such proposed annexation.

SEC. 2. Section 14193 is added to said code, to read:

14193. The provisions of this article with reference to bonds in annexed territory do not limit the powers or alter the procedure provided for the issuance of bonds by the entire district and payable out of taxes levied upon all taxable property within the entire district.

SECTION 1. Section 8025.5 is added to the Elections Code, to read:

Such a computation is for the most part ministerial in nature, is conducted by a ministerial body, and in no way impinges upon the constitutional guaranty that each house of the Legislature shall be the judge of the elections, returns, and qualifications of its members since it is not binding on the Legislature.

SEC. 2. Section 8026 of said code is amended to read:

8026. At any time prior to the fourth day following the completion of the canvass, including that of the absentee ballots, any candidate for an office may file with the election board a declaration alleging that because of mistake, error or misconduct the votes in one or more precincts specified in the declaration were so incorrectly counted that the returns do not correctly show which candidate received the plurality of the votes cast for the office in the precinct. A copy of the declaration may be personally served upon each other candidate for nomination for the same office prior to the filing of the declaration and shall be so served before the recount provided for in this article is commenced.

CHAPTER 1672

An act to amend Section 18102 of the Government Code and Section 3754 of the Labor Code, relating to sick leave benefit, vacation benefit and workmen's compensation benefits of state officers and employees.

In effect September 7, 1955

[Approved by Governor July 5, 1955. Filed with Secretary of State July 7, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 18102 of the Government Code is hereby amended to read:

18102. A state officer or employee who is entitled to temporary disability indemnity under Division 4 or Division 4.5 of the Labor Code may elect to take as much of his accumulated sick leave, or his accumulated vacation, as when added to his disability indemnity will result in a payment to him of his full salary or wage. When computing vacation or sick leave under this section the employee shall be given credit for any holidays that occur during the period of absence hereunder.

He is nevertheless entitled to medical, surgical, and hospital treatment as provided in the Labor Code. When his accumu-

lated sick leave or vacation, or both, are exhausted, he is still entitled to receive disability indemnity.

SEC. 2. Section 3754 of the Labor Code is hereby amended to read:

CHAPTER 1673

An act to add Section 13831.3 to the Education Code, relating to school district employees, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 5, 1955. Filed with Secretary of State July 7, 1955.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 13831.3 is added to the Education Code, to read:

13831.3. Notwithstanding any other provisions of law, if, prior to the effective date of this section, payment of the salary of any person employed in a position requiring certification qualification has been withheld because the certification document of such person was not in force for the period such salary was earned and the credentials of such person have been renewed within 90 days after the end of such period, the district may pay the person the amount of salary withheld.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law when a teacher fails to renew his certification documents at the legally prescribed time, his salary cannot be paid for the period the documents are not in force. This provision works a severe hardship on the many teachers who by mistake, or because of the pressure of teaching duties, or otherwise, are late in renewing their documents, but who continue to teach in their usual positions during the period the documents are not in force and who are assured by the school district authorities that their salaries will be paid for such period as soon as the renewal is effective.

In order to restore the confidence of such teachers in the Public School System, and to encourage them to remain in the teaching profession, rather than seeking employment in other fields subject to fewer strict regulations, at a time when an increase rather than a decrease in the number of teachers is essential to furnish an adequate education to the children of the State, it is necessary that this act go into immediate effect.

Joint action with Arizona representatives

Sec. 2. It shall be the duty of said commission to confer and act in conjunction with said representatives to be ap-

pointed on behalf of the State of Arizona for the following purposes:

(a) To make a joint investigation at the joint expense of said two states as to the location of the common boundary between the two states with respect to the present channel of the Colorado River from the southern boundary of the State of Nevada to the international boundary between the State of California and the United Mexican States;

(b) To investigate, negotiate and report as to the necessity and advisability of a compact between said two states defining or relocating said common boundary;

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety

within the meaning of Section 1 of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

Owing to the meandering of the Colorado River since the adoption of the Constitution of California in 1849 and since the adoption of the Arizona Constitution in 1912, doubts exist as to where the true boundary line between the two states may be. Conflicts which may lead to violence, exist between private claimants of title to the same land under the laws of Arizona and under the laws of California. Uncertainties exist as to the right of public officials of California to assess, tax and police certain lands, which uncertainties affect the public revenues of California. Because of said facts it is necessary that this act go into effect immediately.

DIVISION 9. SOIL CONSERVATION

CHAPTER 1. GENERAL PROVISIONS

Article 1. Policy of State

State policy

9000. The Legislature hereby declares that the conservation of the soil is of fundamental importance to the prosperity and welfare of the people of this State. Severe pressure has been placed upon the State's soil resources in order to supply the basic food requirements of a greatly expanded population, and the productivity of agricultural, range and forest lands must be preserved and increased if the present standard of living is to be maintained under continuing population in-

creases. Special effort must be made to speed up the present program of soil and water conservation in order to provide for permanent productive use of all remaining resources. To promote such effort, the Legislature believes that the State must assume leadership in formulating and putting into effect a state-wide program of soil and water conservation and hereby declares that the provisions of this division of this code are enacted to accomplish the following purposes:

(a) To provide a means by which the State may cooperate with the United States and with soil conservation districts organized pursuant to this division in securing the adoption in this State of farm, range, and woodland practices best adapted to save the soil resources of the State from unreasonable and economically preventable waste.

(b) To provide for the organization and operation of soil conservation districts for the purposes of soil and water conservation, the control of runoff and the prevention and control of soil erosion, including, but not limited to, the improvement of farm irrigation, the development of storage and distribution of water, land drainage and land clearing. Such districts, in addition to their other powers, shall have legal authority:

(1) To cooperate with the United States, this State, counties, public districts, other soil conservation districts, persons, associations, and corporations in matters relating to the control of runoff and to soil conservation through the prevention and control of soil erosion.

(2) With the consent of the owner, to construct on privately or publicly owned lands necessary works for the control of runoff and the prevention and control of soil erosion.

Such districts shall not have legal authority to conserve water for power purposes or to produce or distribute power for their own use or for the use of others.

Expenditures for general public interest

9001. It is hereby declared as a matter of legislative determination:

(a) That the construction and maintenance on privately or publicly owned land of works for the control of runoff and the prevention and control of soil erosion caused by the action of water or wind or otherwise is in the general public interest and for the general public benefit.

(b) That the expenditure of state, county, district or other public funds for the construction or maintenance of such control or preventive works on privately or publicly owned land constitutes expenditure for the general public benefit.

Estimate

9360. The directors, on or before the fifteenth day of August of each year, shall furnish the auditor and the board of supervisors an estimate in writing of the amount of money to be raised by assessment which is needed for the purposes of the district for the next ensuing fiscal year.

work which the directors may deem advisable to be done during the ensuing year, the estimated costs of repairs to and maintenance of the property and works of the district, and the estimated expenses of any action or proceeding to which the district is or may be a party, including the cost of employing engineers and attorneys.

Acquisition and construction of public buildings

15810. In the act authorizing the acquisition and construction of public buildings pursuant to this part, the Legislature shall provide whether certificates or revenue bonds shall be issued to finance such acquisition and construction, or whether the board may elect to use either method of financing; but the board may not issue both certificates and revenue bonds to finance the acquisition and construction of public buildings authorized under this part at any one session of the Legislature.

15811. The board has no power at any time or in any manner to pledge the credit or taxing power of the State or any of its local agencies.

CHAPTER 3. CONSTRUCTION AND LEASING OF PUBLIC BUILDINGS

Plans and specifications

15815. The plans and specifications of any public building constructed pursuant to this part shall be prepared by the Division of Architecture and the board shall reimburse the division for the costs of such services from the funds available for the purpose. Any public building constructed under the provisions of this part shall be constructed in accordance with the provisions of the State Contract Act.

Revenues, rentals, etc

15816. When any public building has been acquired or constructed by the board, and the revenues, rentals, or receipts

from the operation of such public building are no longer required or pledged for the payment of principal or interest on any of the certificates or revenue bonds of the board undertaken under this part, the board shall forthwith notify the Department of Finance of that fact, and thereafter such public building shall be under the jurisdiction of, and operated and maintained by, the Department of Finance.

If at any time funds are available by law to retire any certificates or revenue bonds issued to defray the cost of any public building, such funds shall be applied to the redemption of certificates or revenue bonds secured by the rentals and revenues from said public building.

Leases

15817. Any state agency, with the approval of the Department of Finance, may lease, as lessee, any public building constructed by the board for a term not exceeding 20 years from the date of occupancy at such rentals as are determined by the board; and at any time after sufficient progress has been made on the public building to render it usable, the state agency may lease as lessee, with the approval of the Department of Finance, any portion of the public building completed or usable for a term not exceeding 20 years from the date of occupancy at such rentals as are determined by the board. The certificates or revenue bonds issued to finance the public buildings authorized at one session shall be equally secured by a lien upon the revenues, rentals, or receipts pledged to secure them without priority for number, date of certificates or revenue bonds, of sale, of execution, or of delivery pursuant to this part.

CHAPTER 4. CERTIFICATES

Sale of certificates

15823. The certificates shall be sold by the board at their face value to state agencies having jurisdiction over special or trust funds, without advertisement or competitive bidding. Such certificates are a legal investment for any state special or trust fund notwithstanding any provision of law limiting the investment which may be made by such special or trust fund. Payment of the purchase price may be made in accordance with mutual agreement between the state agency and the board, which agreement may provide for such payment in installments as work upon the public building or buildings progresses and funds necessary therefor are required.

Resolutions Contents

15824. Any resolutions authorizing any certificates may contain provisions which are part of the contract with the state agency as to:

(a) Pledging all or any of the revenues, rentals, or receipts of the authority from specific properties.

(b) The construction or acquisition of any public building and the duties of the board with reference thereto.

(c) The terms and provisions of the certificates.

(d) Limitations on the purposes to which the proceeds of the certificates, then or thereafter to be issued may be applied.

(e) The rate of rentals and other charges for use of the public buildings of, or for the services rendered by, the board, including limitations upon the power of the board to modify any leases or other agreements pursuant to which any rentals or other charges are payable.

15825. The board may provide, by resolution, for the issuance of refunding certificates for the purpose of refunding any certificates of the board issued pursuant to this part and then outstanding, either by voluntary exchange with the holders of the outstanding certificates, or to provide funds to redeem and retire the outstanding certificates, with accrued interest and any redemption value payable on any call date. The issuance of the refunding certificates, the maturities and other details of the certificates, the rights of the certificate holders, and the duties of the board in respect to the certificates, are governed

by the provisions of this part insofar as they are applicable. Refunding certificates may be issued by the board to refund certificates originally issued or to refund certificates of the board previously issued for refunding purposes.

Trustee

15826. The State Treasurer shall act as trustee for the board and the holders of the certificates issued under this part, and the board may authorize the trustee to act on behalf of the holders of the certificates, or any stated percentage thereof, and to exercise and prosecute on behalf of the holders of the certificates such rights and remedies as may be available to the holders.

The board shall, by resolution, prescribe the duties and powers of such trustee with respect to the issuance, authentication, sale, and delivery of the certificates, and the payment of principal and interest thereof, the redemption of the certificates, and the management, exclusive of the investment or reinvestment thereof, of any sinking fund or other funds provided as security for the certificates.

Rights remedies, etc

15827. The rights and remedies conferred by this part upon or granted to certificate holders are in addition to and not in limitation of any rights and remedies lawfully granted to such certificate holders by the resolutions providing for the issuance of certificates.

If the board defaults in the payment of principal or interest on any of the certificates after such principal or interest becomes due, whether at maturity or upon call for redemption, and if such default continues for a period of 60 days, or if the board fails or refuses to comply with the provisions of this part or defaults in any agreement made with the certificate holders, the holders of 25 percent in aggregate principal amount of the certificates then outstanding by instruments filed in the Office of the County Recorder of the County of Sacramento, and acknowledged in the same manner as a deed to be recorded except as this right is limited under the provisions of any deed of trust, indenture, or other agreement, may appoint a trustee to represent the certificate holders for the purposes provided in this part. The trustee or any trustee under any deed of trust, indenture, or other agreement may, and upon written request of the holders of 25 percent in principal amount of the certificates then outstanding, or such other percentage as is specified in the deed of trust, indenture or other agreement, shall in his name:

(a) By proper proceedings and actions enforce all rights of the certificate holders, including the right to require the board to collect rates, rentals and other charges adequate to carry out any agreement as to the revenues, or the pledge of revenues or receipts of the board, to lease public buildings to state agencies or otherwise and require the board to carry out any other agreements with or for the benefit of the certificate holders, and to perform its duties under this part.

(b) Bring suit upon the certificates.

(c) By an action require the board to account as if it were the trustee of an express trust for the certificate holders.

(d) By an action enjoin any acts or things which may be unlawful or in violation of the certificate holders' rights.

(e) By notice in writing to the board declare certificates due and payable, and if all defaults are made good then with the consent of the holders of 25 percent of the principal amount of the certificates then outstanding or such other percentage as is specified in any deed of trust, indenture, or other agreement, annul the declaration that certificates are due and payable.

Receiver· Powers and duties

15828. A trustee, appointed pursuant to Section 15827, or acting under a deed of trust, indenture, or other agreement, whether or not all certificates have been declared due and payable, may have a receiver appointed. The receiver may, to the same extent that the board itself could do, enter and take possession of the public buildings of the board, or any parts thereof, the revenues, rentals, or receipts from which are applicable to the payment of the certificates in default, and operate and maintain the public buildings and collect and receive all rentals and revenues thereof arising therefrom in the same manner as the board might do. The receiver shall deposit money in a separate account and apply it in such manner as the court directs. In any action or proceeding by the trustees, the fees, counsel fees, and expenses of the trustees, and of the receiver, and all costs and disbursements allowed by the court, are a first charge on any revenues and receipts derived from the public buildings of the board, the revenues or receipts from which are or may be applicable to the payment of the certificates in default. The trustee shall have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth in this part or incident to the general representation of the certificate holders in the protection and enforcement of their rights; provided, however, that nothing in this section or any other section in this part shall authorize any trustee appointed pursuant to Section 15827, for the purpose of operating and maintaining any public buildings of the board, to sell, assign, mortgage, or otherwise dispose of, any of the assets of whatever kind and character belonging to the board.

Powers and duties of trustee

Additional rights and remedies

15829. In addition to all other rights and all other remedies the holder of certificates of the board may by an action at law enforce his rights against the board, including the right to require the board to collect fees, rentals, and other charges adequate to carry out any agreement as to fees, rentals, or other charges or income, revenue and receipts and require the board to carry out any of its covenants and agreements with the certificate holders and perform its duties under this part.

Applicability

15829.5. This chapter shall not apply to the Unemployment Compensation Disability Fund.

CHAPTER 5. REVENUE BONDS

Bonds

15830. The bonds issued to finance the construction of a public building or buildings pursuant to this part shall be special obligations of this State secured solely by the revenues, rentals, or receipts received from the operation of all public buildings authorized at any one session of the Legislature financed by such bonds.

Not a lien

No bond issued or sold pursuant to this part shall be or become a lien, charge, or liability against the State of California or against its property or funds except to the extent of the pledges expressly made by this part. Every bond issued pursuant to this part shall contain a recital on the face thereof stating that neither the payment of the principal nor any part thereof, nor any interest thereon, constitutes a debt, liability, or general obligation of the State of California other than as provided in this part. The board has no power at any time or in any manner to pledge the credit or taxing power of the State, other than as provided in this part.

Signatures

15831. All bonds issued under this part shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of issuance thereof, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of issuance of the bond to which said coupons pertain. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, are valid although the sale thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the time of signing, countersigning, or endorsing said bonds or coupons. Each bond issued under this part, if subject to call or redemption prior to maturity, shall contain a recital to that effect.

Interest rates

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division and may be determined and fixed by the board by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the State would be required to pay from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to

Bids

the State. The lowest net interest cost to the State shall be computed between the dates aforesaid according to standard bond interest tables.

Sale of bonds

15832. Upon receipt of a resolution of the board authorizing the issuance of bonds, the State Treasurer shall provide for their preparation in accordance with the resolution. The bonds authorized to be issued shall be sold by the State Treasurer to the highest bidder for cash at public sale upon sealed bids in such parcels and numbers as the State Treasurer shall be directed by the board, but the State Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the State Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as the State Treasurer may select. Each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for one-half of one percent (0.5%) of the par value of the bonds so offered for sale, but not exceeding one hundred thousand dollars ($100,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Public Buildings Construction Fund, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the State Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, etc

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

Notice

15833. Due notice of the time and place of sale of all bonds shall be given by the State Treasurer by publication in one newspaper published in the City and County of San Francisco, by publication in one newspaper published in the City of Sacramento, and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars ($500) for each sale so advertised.

Receipt as a negotiable instrument

15835. The bond or interim receipt is a negotiable instrument unless there is an express recital on its face that the bond or interim receipt is nonnegotiable.

Investment status

15836. Bonds issued pursuant to this part are a legal investment for any state special or trust fund notwithstanding any provision of law limiting the investments which may be made by such special or trust fund.

Legal opinions

15837. Whenever the board deems that it will increase the salability or the price of the bonds to obtain, prior to or after sale, a legal opinion, other than that of the Attorney General, as to the validity of the bonds, the board may authorize the State Treasurer, or the Department of Finance, or both, to obtain such a legal opinion. Payment for such legal services shall be made out of the proceeds of the sale of the bonds.

Contents of resolutions

15838. Any resolutions authorizing any bonds may contain provisions which are part of the contract with the bondholders as to:

(a) Pledging all or any of the revenues, rentals or receipts of the board from all or any public buildings.

(b) The acquisition, construction, improvement, operation, extension, enlargement, maintenance, and repair of any public buildings and the duties of the board with reference thereto.

(c) The terms and provisions of the bonds.

(d) Limitations on the purposes to which the proceeds of the bonds, then or thereafter to be issued, or of any loan or grant by the United States, may be applied.

(e) The rate of rentals and other charges for use of the public buildings of, or for the services rendered by, the board, including limitations upon the power of the board to modify any leases or other agreement pursuant to which any rentals or other charges are payable.

(h) The terms and provisions of any deed of trust or indenture securing the bonds, or under which the bonds are issued.

15839. The board may enter into any deeds of trust, indentures, or other agreements with any bank or trust company,

or other person in the United States having power to enter into such agreements, including any federal agency, as security for such bonds, and may assign and pledge the revenues, rentals, or receipts of the board thereunder. The deeds of trust, indentures, or other agreements may contain such provisions as are customary in the instruments, or as the board authorizes, including but without limiting provisions as to:

(a) The acquisition, construction, improvement, operation, maintenance and repair of any public buildings, and the duties of the board with reference thereto.

(b) The application of funds and the safeguarding of funds on hand or on deposit.

(c) The rights and remedies of the trustee and the holders of the bonds, which may include restrictions upon the individual right of action of the bondholders.

(d) The terms and provisions of the bonds, or the resolutions authorizing the issuance of the bonds.

Issuance of refunding bonds

15840. The board may provide, by resolution, for the issuance of refunding bonds for the purpose of refunding any bonds of the board issued pursuant to this part and then outstanding, either by voluntary exchange with the holders of the outstanding bonds, or to provide funds to redeem and retire the outstanding bonds, with accrued interest, and any premium payable on the bond at maturity or at any call date. The issuance of the refunding bonds, the maturities and other details of the bonds, the rights of the bondholders, and the duties of the board in respect to the bonds, are governed by the foregoing provisions of this part insofar as they are applicable. Refunding bonds may be issued by the board to refund bonds originally issued, or to refund bonds of the board previously issued for refunding purposes.

Rights and remedies, etc

15841. The rights and remedies conferred by this part upon or granted to bondholders are in addition to and not in limitation of any rights and remedies lawfully granted to such bondholders by the resolutions providing for the issuance of bonds, or by any deed of trust, indenture, or other agreement under which the bonds are issued.

If the board defaults in the payment of principal or interest on any of the bonds after the principal or interest becomes due, whether at maturity or upon call for redemption, and if such default continues for a period of 60 days, or if the board fails or refuses to comply with the provisions of this part or defaults in any agreement made with the bondholders, the holders of 25 percent in aggregate principal amount of the bonds then outstanding by instruments filed in the Office of the County Recorder of the County of Sacramento, and acknowledged in the same manner as a deed to be recorded except as this right is limited under the provisions of any deed of trust, indenture, or other agreement, may appoint a trustee to represent the bondholders for the purposes provided in this part. The trustee or any trustee under any deed of trust, indenture, or other agreement may, and upon written request of the holders of 25

percent in principal amount of the bonds then outstanding, or such other percentage as is specified in the deed of trust, indenture or other agreement, shall in his name:

(a) By proper proceedings and actions enforce all rights of the bondholders, including the right to require the board to collect rates, rentals, and other charges adequate to carry out any agreement as to the revenues, or the pledge of the revenues or receipts of the board, to lease public buildings to state agencies or otherwise, and require the board to carry out any other agreements with or for the benefit of the bondholders, and to perform its duties under this part.

(b) Bring suit upon the bonds.

(c) By an action require the board to account as if it were the trustee of an express trust for the bondholders.

Receiver

15842. A trustee, appointed pursuant to Section 15841, or acting under a deed of trust, indenture, or other agreement, whether or not all bonds have been declared due and payable, may have a receiver appointed. The receiver may, to the same extent that the board itself could do, enter and take possession of the public buildings of the board, or any parts thereof, the revenues, rentals, or receipts from which are applicable to the payment of the bonds in default, and operate and maintain the public buildings and collect and receive all rentals and revenues thereof arising therefrom in the same manner as the board might do. The receiver shall deposit money in a separate account and apply it in such manner as the court directs. In any action or proceeding by the trustees, the fees, counsel fees, and expenses of the trustees, and of the receiver, and all costs and disbursements allowed by the court, are a first charge on any revenues and receipts derived from the public buildings of the board, the revenues or receipts from which are or may be applicable to the payment of the bonds in default. The trustee shall have and possess all the powers necessary or appropriate for the exercise of any functions specifically set forth in this part or incident to the general representation of the bondholders in the protection and enforcement of their rights; provided, however, that nothing in this section or any other section in this part shall authorize any trustee appointed pursuant to Section 15841, for the purpose of operating and maintaining any public buildings of the board, to sell, assign, mortgage, or otherwise dispose of, any of the assets of whatever kind and character belonging to the board.

Periodically, the waters of the Sacramento River between the City of Redding and Keswick Dam become so highly polluted that many of the fish in the river are killed. Before measures can be taken to correct this dangerous condition it is necessary that studies and investigations be made of all phases of the matter. This act would provide the necessary funds for such studies and investigations, and it is therefore necessary for the immediate preservation of the public peace, health or safety that this act take effect immediately.

CHAPTER 1699

An act to add Chapter 4 to Part 2, Division 2, Title 2 of the Government Code, relating to state fiscal affairs, creating the Legislative Audit Bureau, and the Joint Legislative Audit Committee, prescribing the duties thereof, and providing for the transfer of funds.

[Approved by Governor July 6, 1955 Filed with Secretary of State July 7, 1955] In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 is added to Part 2, Division 2, Title 2 of the Government Code, to read as follows:

CHAPTER 4. LEGISLATIVE AUDIT BUREAU

Article 1. Joint Legislative Audit Committee

Legislative declaration

10500. The Legislature finds that auditing is now conducted by various state agencies and recognizes the needs of the executive branch of the State Government for periodic and special audits of the revenues and expenditures of any state agency, and the accounting and fiscal reporting systems established in state agencies, as a means of insuring the proper and lawful expenditure of state funds. The Legislature, also, recognizes the necessity of an independent audit, in addition to the audit conducted within the executive branch of State Government, for the use of both the executive and legislative branches of the State Government in establishing a sound fiscal and administrative policy for the government of the State.

Therefore, it is the desire of this Legislature that the internal auditing be coordinated in the executive branch of the government in the interest of economy and efficiency. It is also the desire of the Legislature to create the Office of the Auditor General, whose primary duties shall be to examine and report annually upon the financial statements prepared by the executive branch of the State and to perform such other related assignments as may be requested by the Legislature. The authority of the office under the direction of the Joint Legislative Audit Committee is confined to examining and reporting and is in no way to interfere with adequate internal audit to be conducted by the executive branch of the government.

Joint Legislative Audit Committee

10501. The Joint Legislative Audit Committee is hereby created. The committee shall determine the policies of the Auditor General, ascertain facts, review reports and take action thereon, and make reports and recommendations to the Legislature and to the houses thereof concerning the state audit, the revenues and expenditures of the State, its departments, subdivisions, and agencies whether created by the Constitution or otherwise, and such other matters as may be provided for in the Joint Rules of the Senate and Assembly. The committee has a continuing existence and may meet, act, and conduct its business at any place within this State, during the sessions of the Legislature or any recess thereof, and in the interim period between sessions.

Members

10502. The committee shall consist of three Members of the Senate and three Members of the Assembly who shall be selected in the manner provided for in the Joint Rules of the Senate and Assembly. The committee shall elect its own chairman. Vacancies occurring in the membership of the committee between general sessions of the Legislature shall be filled in the manner provided for in the Joint Rules of the Senate and Assembly. A vacancy shall be deemed to exist as

to any member of the committee whose term is expiring whenever such member is not re-elected at the general election.

Rules, subcommittees, etc

10503. The committee is authorized to make rules governing its own proceedings and to create subcommittees from its membership and assign to such subcommittees any study, inquiry, investigation, or hearing which the committee itself has authority to undertake or hold. The provisions of Rule 36 of the Joint Rules of the Senate and Assembly relating to investigating committees shall apply to the committee and it shall have such powers, duties and responsibilities as the Joint Rules of the Senate and Assembly shall from time to time prescribe, and all the powers conferred upon committees by Section 37, Article IV, of the Constitution.

Auditor General and deputy

10504. The committee shall have authority to appoint an Auditor General and a deputy who shall serve at the pleasure of the committee. The committee shall fix the salary of the Auditor General. The funds for the support of the committee shall be provided from the Contingent Funds of the Senate and the Assembly in the same manner that such funds are made available to other joint committees of the Legislature.

(b) He shall have had at least seven years of experience in governmental accounting in an executive position involving responsibility for directing the work of an auditing staff of not less than 20 accountants.

(c) Or he shall have any combination of experience which in the opinion of the committee is the equivalent of (b).

10522. The Auditor General shall be paid the salary fixed by the Joint Legislative Audit Committee and shall be repaid all actual expenses incurred or paid by him in the discharge of his duties.

10523. The Auditor General may employ and fix the compensation, in accordance with Article XXIV of the Constitution, of such professional assistants and clerical and other employees as he deems necessary for the effective conduct of the work under his charge.

Location of office

10524. The permanent office of the Auditor General shall be in Sacramento, where he shall be provided with suitable and sufficient offices. When in his judgment the conduct of his work requires, he may maintain offices at other places in the State.

Books, etc., as public records

10525. All books, papers, records, and correspondence of the bureau pertaining to its work are public records and shall

be filed at any of the regularly maintained offices of the Auditor General, except:

(a) Papers or memoranda that are of no further use may be destroyed upon approval of the Joint Legislative Audit Committee.

(b) Personal papers and correspondence of any person receiving assistance from the Auditor General when such person has requested in writing that his papers and correspondence be kept private and confidential. Such papers and correspondence shall become public records whenever the Auditor General or the Legislature shall so order or the written request is withdrawn.

(c) Papers, correspondence or memoranda pertaining to any audit or investigation not completed, when in the judgment of the Auditor General, disclosure of such papers, correspondence, or memoranda will impede such audit or investigation.

(d) Any record, document, or information, the disclosure of which is restricted by law or public policy.

Disclosure of information prohibited

10526. It shall be a misdemeanor for the Auditor General or any employee of the bureau to divulge or make known in any manner not permitted by law, any particulars of any record, document, or information the disclosure of which is restricted by law.

The Auditor General during regular business hours shall have access to, and authority to examine, any and all books, accounts, reports, vouchers, correspondence files, and other records, bank accounts, and money or other property, of any agency of the State whether created by the Constitution or otherwise, and it shall be the duty of any officer or employee of any such agency, having such records or property in his possession or under his control, to permit access to, and examination thereof upon the request of the Auditor General or his authorized representative. Any officer or person who shall fail or refuse to permit such access and examination, shall be guilty of a misdemeanor.

Annual report

10528. The Auditor General shall examine and report annually upon the financial statements prepared by the executive branch of the State to the end that the Legislature will be informed as to the adequacy of such financial statements in compliance with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal year. In making such examination, he is authorized to make such audit examination of accounts and records, accounting procedures and internal auditing performance as in his judgment are necessary to disclose all material facts necessary to proper reporting to the Legislature in accordance with the statement of purposes set forth in Section 10500. He shall make such special audits and investigations of any state agency whether created by the Constitution or otherwise, as requested by the Legislature or any committee of the Legislature.

Transfer of funds

SEC. 2. Upon the effective date of this act or during the fiscal year in which this act becomes effective, the

Director of Finance, together with the Auditor General, shall determine the amount of money in any item of appropriation for the support of auditing functions that are to be assumed by the Auditor General under the provisions of Article 2 of this chapter. The Director of Finance shall direct the State Controller to transfer to the Contingent Funds of the Senate and of the Assembly said amount from any such appropriation and the State Controller shall make such transfer.

The people of the State of California do enact as follows:

SECTION 1. Section 135 is added to the Labor Code, to read:

135. In accordance with rules of practice and procedure which it may adopt, the commission may, with the approval of the Department of Finance, destroy or otherwise dispose of any file kept by it in connection with any proceeding under Division 4 or Division 4.5 of this code, after such file has been retained by it for a period of at least 25 years from the date of filing of the application to which the file pertains.

CHAPTER 1701

An act to add Section 5067.1 to the Education Code, transferring certain funds out of the Public School Building Loan Fund to the State School Building Aid Fund, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1955. Filed with Secretary of State July 7, 1955.]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 5067.1 is hereby added to the Education Code, to read:

5067.1. Notwithstanding any provision of law to the contrary, the State Allocation Board may from time to time by appropriate resolution order the transfer from the Public School Building Loan Fund to the State School Building Aid Fund of any amounts therein which it deems no longer desira-

ble to retain for the purposes of Chapters 1.6 and 1.7, Division 3 of the Education Code; providing, that nothing herein shall be deemed to apply to any moneys heretofore or hereafter deposited in the Public School Building Loan Fund by virtue of Sections 5058, 5105.1, and 5107; or to any moneys heretofore or hereafter deposited in said fund from deductions made from the State School Fund pursuant to Section 5047.8; or to any moneys appropriated from the Public School Building Loan Fund by virtue of the Budget Acts of 1954 and 1955, and which remain available for expenditure. SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Inasmuch as Chapter 19, Division 3 of the Education Code is deemed a more satisfactory law than Chapter 1.6, Division 3 of the Education Code under which to make apportionments to school districts, it is desired that funds unexpended or unencumbered under Chapter 1.6 be transferred for the purpose of making apportionments under Chapter 19. In order to do so at the earliest date possible with consequently greater benefit to the school districts affected, this bill is made an urgency measure.

The people of the State of California do enact as follows:

SECTION 1. Section 20864 of the Government Code is amended to read:

Calculating retirement benefits

20864. For the purpose of calculating retirement benefits based on part-time service, except under Section 21258 and under Section 21258.1, compensation earnable shall be taken as the compensation which would have been earnable if the employment had been on a full-time basis and the member had worked full time.

SEC. 2. Section 21258 of said code is amended to read:

Retirement allowance.

21258. (a) The retirement allowance referred to in this section excludes that portion of a member's service retirement annuity that was purchased by his accumulated additional contributions.

Retirement after age 65

(b) If a member enters this system with credit for prior service, and retires after attaining the compulsory age for service retirement applicable to him, or if a member is entitled to be credited with 20 years of continuous state service and retires after attaining age 65, and his retirement allowance is less than one-half of his final compensation and less than seven hundred twenty dollars ($720) per year, his prior or current service pension, as the case may be, shall be increased so as to cause his total retirement allowance from this system, and from the retiring annuities system of the university, if any, to amount to one-half of such final compensation or seven hundred twenty dollars ($720) per year, whichever is less.

(c) Subdivision (b) of this section applies only to local members, and then only if the contract between the board and

the employing contracting agency so provides, and if the employing contracting agency has elected to subject itself and its employees to the provisions of subdivision (b) by amendment to its contract with the board, made as provided in Section 20461.5, and has not elected to subject itself to the provisions of subdivision (b) of Section 21258.1.

If the contract between the board and the employing contracting agency provides therefor, and if the employing contracting agency does not elect to subject itself and its employees to the provisions of subdivision (b), when a local member enters this system with credit for prior service and retires after attaining age 70, and his retirement allowance is less than one-half of his final compensation and less than four hundred eighty dollars ($480) per year, his prior service pension shall be increased so as to cause his total retirement allowance from this system, and from the retiring annuities system of the university, if any, to amount to one-half of such final compensation or four hundred eighty dollars ($480) per year, whichever is less.

If a local member is employed by more than one contracting agency, his aggregate retirement allowances shall be taken into account and this subdivision shall apply as if he were employed by one or more state agencies.

SEC. 3. Section 21258.1 is added to said code, to read:

21258.1. (a) The retirement allowance referred to in this section excludes that portion of a member's service retirement annuity that was purchased by his accumulated additional contributions. Same Retirement after age 60

(c) Subdivision (b) of this section applies to state members and also to local members if the contract between the board and the employing contracting agency so provides, or if the employing contracting agency elects to subject itself and its employees to the provisions of subdivision (b) by amendment to its contract with the board, made as provided in Section 20461.5.

If a local member to whom this section applies is employed by more than one contracting agency, his aggregate retirement allowances shall be taken into account irrespective of the employer.

SEC. 4. Section 21258.2 is added to said code, to read:

Current and prior service pensions

21258.2. Every current service pension and every prior service pension payable for time commencing on the effective date of this section to any member who was retired prior to said effective date is hereby increased to the amount it would be if the provisions of Section 21258.1, as they exist on said effective date, had been in effect on the date of the actual retirement of the member; but this section does not authorize any decrease in any such pension, nor does this section give any such retired member, or his successors in interest, any claim against the State for any increase in any pension paid or payable for time prior to its effective date. Calculation of pensions under this section shall be made on the basis of current interest rate and mortality tables.

Exception

This section shall not apply to any contracting agency with respect to its employees who have retired under this system prior to the effective date the agency elects to be subject to the provisions of this section, with respect to such employees, by amendment to its contract with the board, made as provided in Section 20461.5, and unless and until the contracting agency also elects to be subject to the provisions of Section 21258.1.

SEC. 5. Section 21251.4 is added to the Government Code, to read:

Retirement allowance Amount of increase

21251.4. (a) Every retirement allowance payable for time commencing on the effective date of this section to or on account of any member who was retired prior to October 1, 1953, is hereby increased by a monthly amount which, when added to any other increases in such retirement allowance made by the Legislature at its 1955 Regular Session, equals the full amount set forth in the following table opposite the period during which the member's retirement became effective, if the retired member is entitled to be credited with 20 years or more of state service, or, if the retired member is entitled to be credited with less than 20 years of state service, by an amount which, when added to any other increases in such retirement allowance made by the Legislature at its 1955 Regular Session, bears the same ratio to the amount set forth in the following table opposite the period during which the member's retirement became effective that the number of completed years of state service with which the member is entitled to be credited bears to 20 years:

Period during which retirement became effective	Amount of increase in monthly retirement allowance where member is entitled to be credited with 20 or more years of state service
Prior to July 1, 1951	$25
Twelve months ended June 30, 1952	20
Fifteen months ended September 30, 1953	15

Where a member to or on account of whom an increased retirement allowance is payable under this section has elected pursuant to Article 4 of Chapter 9 of this part to have his retirement allowance modified in accordance with an optional settlement provided in Section 21333, Section 21334, or Section 21335, if both the retired member and his beneficiary are living on the effective date of this section, the increase provided by this section shall be modified under the optional settlement so elected, on the basis of ages on the most recent retirement date, and current mortality tables and interest rate; but if either such retired member or his beneficiary is not living on said effective date, then the increase shall be made in the allowance payable to the survivor, in the same manner that increases are made in retirement allowances to persons who did not elect such an optional settlement.

The increase in each retirement allowance provided by this section shall be apportioned between the current service pension and the prior service pension of the retired member in the same proportions that the current service and the prior service with which the member is credited bear to the total state service with which he is credited, and shall be derived from the same source as such pensions.

Special death benefit

(b) Every special death benefit payable for time commencing on the effective date of this section on account of the industrial death of any member who died prior to October 1, 1953, is hereby increased by a monthly amount which, when added to any other increases in such death benefit made by the Legislature at its 1955 Regular Session, equals the full amount set forth in the following table opposite the period during which the member's death occurred:

Period during which industrial death occurred	Amount of increase in monthly special death benefit installments
Prior to July 1, 1951	$25
Twelve months ended June 30, 1952	20
Fifteen months ended September 30, 1953	15

(c) This section does not authorize any decrease in any retirement allowance or special death benefit, nor does this section give any retired member, or his successors in interest, or his beneficiary, or any payee of any special death benefit in respect to a deceased member any claim against the State for any increase in any retirement allowance or special death benefit paid or payable for time prior to its effective date.

Intention of Legislature

(d) It is the intention of the Legislature that the increases in retirement allowances and special death benefits provided by this section shall not be cumulative with any other increases in such allowances or such special death benefits, or both, which may be made by the Legislature at its 1955 Regular Session. If the retirement allowances and special death benefits to which this section is otherwise applicable, or any of them, are increased pursuant to any other legislation enacted

by the Legislature at its 1955 Regular Session, this section shall be applicable only to the extent that the increased amounts payable pursuant to it exceed the increased amounts payable pursuant to such other 1955 legislation.

(e) This section shall not apply to any contracting agency, nor to retirement allowances or special death benefits payable to or in respect to the retired or deceased employees of any contracting agency, unless and until the contracting agency elects to be subject to its provisions by amendment to its contract with the board, made as provided in Section 20461.5, except that an election among the employees is not required, or by express provision in its contract with the board.

Any increase in allowances provided by this section shall not take effect prior to the date the contract is amended to subject the contracting agency to the provisions of this section.

If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in computation of final compensation. If a break in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months shall be included in computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in computation of final compensation. Time during which a member is in state service

and is also a member of another retirement system to which the State or the university contributes shall not be considered to be an absence for the purposes of Section 20023 nor to be a break in service for the purposes of this section, and the determination of the final compensation of such a member shall take into consideration his compensation earnable while he was a member of such other system.

SEC. 3. Section 20024.01, as added by Chapter 1687 of the Statutes of 1953, is amended to read:

For the purposes of this section, periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months shall be included in computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in computation of final compensation. Time during which a member is in state service and is also a member of another retirement system to which the State or the university contributes shall not be considered to be an absence for the purposes of Section 20023 nor to be a break in service for the purposes of this section, and the determination of the final compensation of such a member shall take into consideration his compensation earnable while he was a member of such other system.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

Income, of whatever nature, earned on the Retirement Fund during any fiscal year, in excess of the interest credited to contributions during that year shall be retained in the fund as a reserve against deficiencies in interest earned in other years, losses under investments, and other contingencies. The board, however, may apply to reduce the book value of securities purchased all or part of the excess of the proceeds of the sale or the redemption prior to maturity of securities over the book value of the securities sold (a) if the purchase of securities is made with those proceeds and (b) if the terms of both securities from the date of sale, redemption prior to maturity, or purchase, as the case may be, to the respective dates of maturity do not differ by more than five years. 21368. Purpose

SEC. 2. The primary purpose of this act is to provide the necessary funds to meet the major building construction, equipment and site acquisition needs for the departments of the State Government which are financed primarily from general revenues rather than from special funds, as more particularly described in the report submitted by the Department of Finance pursuant to Senate Resolution No. 15 of the 1954 First Extraordinary Session, entitled "Report on State Building Construction Program," which report was transmitted to the Senate by letter of transmittal printed in the Senate Journal for January 20, 1955, at page 608 and ordered printed in the Appendix to the Journal. Nothing in this act is intended to prevent the Legislature from deviating from the specific projects mentioned in said report in utilizing the proceeds of the bonds herein authorized; provided, such funds are not used for purposes specifically excluded from the program contemplated by said report or for purposes not reasonably related thereto. Nothing in this act is intended to bind the Legislature to follow the system of priorities contained in said report. The sum of not less than sixty million dollars ($60,000,000) from the proceeds of the sale of bonds pursuant to this act shall be available for expenditure for major building construction, equipment and site acquisition for state colleges now or hereafter established.

Bonds

SEC. 3. Bonds in the total amount of two hundred million dollars ($200,000,000), or so much thereof as is necessary, may be issued and sold to provide a fund to be used for carrying out the purposes expressed in Section 2 of this act. Said bonds shall be known and designated as State Construction Program bonds and, when sold, shall be and constitute a valid and binding obligation of the State of California, and the full faith and credit of the State of California are hereby pledged for the punctual payment of both principal and interest on said bonds as said principal and interest become due and payable.

SEC. 4. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal and interest on bonds issued and sold pursuant to this act, as such principal and interest become due and payable. There shall be collected each year and in the same manner and at the same time as other state revenue is collected, such sum in addition to the ordinary revenues of the State as shall be required to pay the principal and interest on said bonds maturing in said year, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue to do and perform each and every act which shall be necessary to collect such additional sum.

State Construction Program Fund

SEC. 5. The State Construction Program Fund is hereby created as a special fund in the State Treasury. The proceeds

of bonds issued and sold pursuant to this act, together with interest earned thereon, if any, shall be deposited in said fund. The money in the fund may be expended only for the purposes specified in this act and only pursuant to appropriation by the Legislature in the manner hereinafter prescribed.

Budget Bill

SEC. 6. A section shall be included in the Budget Bill for each fiscal year bearing the caption State Construction Bond Act Program. Said section shall contain proposed appropriations only for the program contemplated by this act, and no funds derived from the bonds authorized by this act may be expended pursuant to an appropriation not contained in said section of the Budget Act. The Department of Finance, which is hereby designated as the board for the purposes of this act, shall annually total the Budget Act appropriations referred to in this section and, pursuant to Section 16730 of the Government Code, request the State Construction Program Committee to cause bonds to be issued and sold in quantities sufficient to carry out the projects for which such appropriations were made.

Preparation, etc., of bonds

SEC. 7. The bonds authorized by this act shall be prepared, executed, issued, sold, paid and redeemed as provided in the State General Obligation Bond Law (Chapter 4 of Part 3, Division 4, Title 2 of the Government Code), and all of the provisions of said law are applicable to said bonds and to this act, and are hereby incorporated in this act as though set forth in full herein.

State Construction Program Committee

SEC. 8. The State Construction Program Committee is hereby created. The committee shall consist of the Governor, the State Controller, the State Treasurer, the Director of Finance, and the Director of Public Works. For the purpose of this act the State Construction Program Committee shall be "the committee" as that term is used in the State General Obligation Bond Law.

Appropriation

SEC. 9. The sum of seventy-five thousand dollars ($75,000) is hereby appropriated from the General Fund to pay the expenses incurred by the State Treasurer in preparing and advertising the sale or prior redemption of bonds issued pursuant to this act, to defray expenses incurred by the State Construction Program Committee pursuant to Section 16758 of the Government Code, and for the payment of legal services, upon approval of the State Board of Control, pursuant to Section 16760 of said code. Out of the first money realized from the sale of bonds issued pursuant to this act there shall be redeposited to the credit of the appropriation made by this section such sums as have been expended for the purposes specified in this section. The amounts so redeposited may be used for the same purposes whenever additional sales of bonds

are made pursuant to this act. The appropriation made by this section is made without regard to fiscal years but, when all the bonds authorized by this act have been sold, the unexpended and unobligated balance of this appropriation shall revert to the General Fund.

[Approved by Governor July 6, 1955. Filed with Secretary of State July 7, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 6801 of the Public Resources Code is amended to read:

6801. A lease or prospecting permit under this chapter shall be issued only to and held by:

Lease or prospecting permit issuance

(a) Persons or associations of persons who are citizens of the United States or who have declared their intention of becoming such, or who are citizens of any country, dependency, colony, or province, the laws, customs, and regulations of which permit the grant of similar or like privileges to citizens of the United States.

(b) Any corporation or corporations organized and existing under and by virtue of the laws of the United States or of any state or territory thereof; or any corporation or corporations 90 percent or more of the shares of which are owned by persons eligible to hold a lease or permit under subdivision (a) or (c) of this section; or any corporation or corporations 90 percent or more of the shares of which are owned either by a corporation eligible to hold a lease or permit hereunder, or by any combination of such eligible persons or corporations, or both.

(c) Any alien person entitled thereto by virtue of any treaty between the United States and the nation or country of which the alien person is a citizen or subject.

SEC. 2. Section 6804 of said code is amended to read:

Assigning, transferring, etc

6804. A lease or permit issued under this chapter may be assigned, transferred or sublet as to all or any part of the leased or permitted lands, and as to either a divided or undivided interest therein, or as to any separate and distinct zone or geological horizon or portion thereof, subject to approval by the commission, to any person, association of persons, or corporation, who at the time of the proposed assignment, transfer, or sublease, possesses the qualifications provided in this chapter. Any assignment, transfer or sublease shall take effect as of the first day of the month following the approval by the commission and filing with the commission of an executed counterpart thereof, together with any required bond and proof of the qualification, under this act and the rules and regulations of the commission, of the assignee, transferee or sublessee to take or hold such lease or permit or interest therein. Unless approved by the commission no assignment, transfer or sublease shall be of any effect. Upon approval of any assignment, transfer or sublease the assignee, transferee or sublessee shall be bound by the terms of the lease or permit to the same extent as if such assignee, transferee or sublessee were the original lessee or permittee, any conditions in the assignment, transfer or sublease to the contrary notwithstanding. Any assignment or transfer of a separate portion of any lease or permit or of a separate and distinct zone or geological horizon, or a portion thereof, shall segregate the assigned, transferred or subleased portion thereof from the retained portion thereof, and such approval shall release and discharge the assignor or transferor from all obligations thereafter accruing under said lease or permit with respect to the assigned or transferred lands or zones or horizons, and such segregated leases or permits shall continue in full force and effect for the primary term of the original lease or permit, but, in the case of any lease, for not less than two (2) years after the date of discovery of oil or gas in paying quantities, or commercially valuable deposit of minerals, upon any segregated portion of the lands or zones or horizons originally subject to such lease, and so long thereafter as oil or gas is produced in paying quantities. Assignments or transfers under this section may also be made with the approval of the commission of parts of leases which are in their extended term because of production, and the segregated lease of any undeveloped lands or zones or horizons shall continue in full force and effect for two (2) years and so long thereafter as oil or gas or minerals are produced in paying quantities from the segregated lease lands or zones or horizons.

SEC. 3. Section 6804.1 is added to said code, to read:

Quitclaim or relinquishment of rights

6804.1. Notwithstanding any provisions of this code to the contrary, a lessee may at any time make and file with the commission a written quitclaim or relinquishment of all rights under any lease or of any portion thereof comprising a 10-acre parcel or multiple thereof in a compact form, or of any separate or distinct zone or geological horizon or portion thereof underlying such 10-acre parcel or multiple thereof. Such quitclaim or relinquishment shall be effective as of the date of its filing, subject to the continued obligation of the lessee and his surety to make payment of all rentals and royalties theretofore accrued and to place all wells on the lands, or in the zones or horizons to be quitclaimed or relinquished, in condition for suspension or abandonment in accordance with the applicable lease terms and regulations; thereupon the lessee shall be released from all obligations thereafter accruing under said lease with respect to the lands, zones or horizons quitclaimed or relinquished, but no such quitclaim or relinquishment shall release such lessee or his surety from any liability for breach of any obligation of the lease with respect to which such lessee is in default at the time of the filing of such quitclaim or relinquishment.

SEC. 4. Section 6805 of said code is amended to read:

Cancellation of permit, etc

6805. The commission shall reserve and may exercise the authority to cancel any prospecting permit or lease upon which a commercially valuable deposit of minerals other than oil or gas has not been discovered or upon which oil or gas has not been discovered in paying quantities upon failure of the permittee or lessee (after 30 days' written notice and demand for performance) to exercise due diligence and care in the prosecution of the prospecting or development work in accordance with the terms and conditions of the permit or lease. After discovery of a commercially valuable deposit of minerals other than oil or gas on lands subject to any permit or lease issued pursuant to Section 6895, or after discovery of oil or gas in paying quantities on lands subject to any lease, such permit or lease may be forfeited and canceled only upon failure of the lessee after 90 days' written notice and demand to comply with any of the provisions of the permit or lease or of the regulations applicable thereto and in force at the date of the permit or lease; provided, however, that in the event of any such cancellation the lessee under any oil or gas lease shall have the right to retain under said lease any and all drilling or producing wells as to which no default exists, together with a parcel of land surrounding each such well or wells and such rights of way through the lease lands as may be reasonably necessary to enable such lessee to drill and operate such retained well or wells. In the event of the cancellation of any permit or lease the permittee or lessee shall have a reasonable time within which to remove any and all property, equipment and facilities owned or used by the permittee or lessee in connection with operations under the permit or lease. The com-

mission shall insert in every permit or lease issued under this chapter appropriate provisions for its cancellation in accordance with the provisions of this section.

SEC. 5. Section 6815 of said code is amended to read:

Compensation for drainage by private wells

6815. Whenever it appears to the commission that wells drilled upon private lands are draining or may drain oil or gas from lands owned by the State, the commission, in lieu of following the provisions of Section 6827, may negotiate and enter into agreements with the owners or operators of such wells on private lands for the payment of compensation to the State for such drainage.

SEC. 6. Section 6826 of said code is amended to read:

Surveys

6826. The commission, however, may permit geological or geophysical surveys on state lands and may grant permits therefor upon such terms and conditions as the commission shall specify by regulation, but any such permit shall not give the permittee any preferential right to an oil and gas lease. The taking of cores and other samples may be freely conducted on and under tide and submerged lands of the State; provided, that the commission may require that a permit first be obtained covering such types of drilling operations for the purpose of obtaining geological samples as the commission may determine by regulation, such permit to be issued upon such terms and conditions as the commission may specify by regulation, but any such permit shall not give the permittee any preferential right to an oil and gas lease.

SEC. 7. Section 6827 of said code is amended to read:

Leases for extraction of oil or gas

6827. Leases for the extraction and removal of oil and gas deposits may be made by the commission to the highest qualified bidder, or joint bidders, as provided in this chapter. Such a lease shall include all oil and gas deposits in the leased land and be for a term of 20 years and for so long thereafter as gas or oil is produced in paying quantities from the leased land, or lessee shall be diligently conducting producing, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land. Any lease heretofore issued under this chapter for a term of 20 years, or any renewal or extension thereof, may at any time or times prior to its expiration be extended upon such terms and conditions and for such period of time as the commission deems for the best interests of the State or as the Legislature may provide; provided further, that upon the lessee's timely application therefor the commission may issue a new lease in exchange for any lease issued for a term of 20 years, or any renewal or extension thereof; such new lease shall be issued at the same royalty and upon the same terms and conditions as the lease for which it is exchanged, unless the commission and the lessee shall otherwise agree, except that the term of such exchange lease shall be for a term of five years and for so long thereafter as oil or gas is produced in paying quantities, or lessee shall be conducting producing, drilling, deepen-

ing, repairing, redrilling or other necessary lease or well maintenance operations on the leased land.

State tide and submerged lands

When state tide and submerged lands offered for lease by the commission are lands not within the known geologic structure, as determined by the commission, of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil or gas lease thereon, the commission shall specify a flat-rate royalty to be paid under such lease of 12½ percent in kind, or of 12½ percent of the current market price or the price received for the production removed or sold from the leased land, subject to an allowance for oil treatment and dehydration of not to exceed five cents ($0.05) per net barrel for the royalty oil and shall specify a flat royalty of 10 percent of the current gross market value or price received for all dry gas, natural gasoline, and other products extracted and saved from the gas produced from the leased land, except gas used for lease use or reinjection in state lands, and an annual rental payment in advance of not to exceed one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying the royalty and rental requirements and all other provisions of the lease.

State lands

When state lands, including tide and submerged lands, offered for lease by the commission are lands within the known geologic structure, as determined by the commission, of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, the commission shall specify a fixed royalty on oil of not less than 16⅔ percent or a sliding scale royalty commencing at not less than 16⅔ percent up to a maximum percentage specified in the invitation to bid to be paid on the average production of oil per well per day under such lease, and a royalty of 15 percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection in state lands. Such royalties shall be paid in kind or as a percentage of the current market price at the well of, and of any premium or bonus paid on, the production removed or sold from the leased land, subject to a reasonable allowance for oil treatment and dehydration, and an annual rental payable in advance of not to exceed one dollar ($1) for each acre of the land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying the royalty and rental requirements and all other provisions of the lease.

If, at any time or from time to time, before or after the expiration of the primary term of such lease, the leased lands

cease to produce oil or gas, the lease shall, nevertheless, continue in full force and effect if within six months after the cessation of production, or such longer period of time as the commission may authorize, lessee shall commence and thereafter prosecute with reasonable diligence drilling, deepening, repairing, redrilling or other operations which shall result in the restoration of production of oil or gas from the leased lands.

SEC. 8. Section 6827.1 is added to said code, to read:

Lease held by two or more persons

6827.1. Nothing contained in this chapter or any other law shall prevent or prohibit two or more persons who are individually eligible to hold a lease under this chapter from making a joint bid for any lease or leases offered under this chapter.

SEC. 9. Section 6829 of said code is amended to read:

6829. Every oil and gas lease executed under this chapter shall include the following:

(a) Such terms, conditions, and provisions as will protect the interests of the State with reference to securing the payment to the State of the proper amount or value of production.

(b) Such terms, conditions and provisions as will protect the interests of the State with reference to the spacing of wells for the purpose of properly offsetting the drainage of oil and gas from state lands by wells drilled and operated on and within privately owned lands; diligence on the part of the lessee in drilling wells to the oil sands and requirements as to depth of such wells for the purpose of reaching the oil sands and producing oil and gas therefrom in commercial quantities.

(c) Provisions specifying methods of operation and standard requirements for carrying on operations in proper and workmanlike manner; the prevention of waste; the protection of the safety and health of workmen; and the liability of the lessee for personal injuries and property damage.

(d) Security for faithful performance by the lessee, including provisions for the forfeiture of the lease, as set forth in Section 6805, and the requirement that the lessee shall, at the time of execution of the lease, furnish and thereafter maintain a good and sufficient bond in such sum as may be specified by the commission, in favor of the State, guaranteeing faithful performance by the lessee of the terms, covenants, and conditions of the lease and of the provisions of this chapter.

(e) Such other covenants, conditions, requirements, and reservations as may be deemed advisable by the commission in effecting the purpose of this chapter and not inconsistent with any of its provisions; provided, that any provision of an oil and gas lease executed under this chapter which purports to deprive the State or a lessee of any right or benefit secured by law, or is otherwise inconsistent with the provisions of this chapter, shall be void, and shall be deemed separable from and without effect upon the valid provisions of such lease.

SEC. 10. Section 6829.1 is added to said code, to read:

6829.1. Every oil and gas lease, including leases of tide and submerged lands, executed under this chapter, shall specify a period of not to exceed five (5) years, as specified by the commission in the invitation for bids, subject to extension by the commission as provided in this chapter, as the drilling term of the lease within which the lessee may commence operations for the drilling of a well for oil or gas if the lease shall embrace lands which were not within the known geologic structure of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, or a period, fixed by the commission, of not to exceed three years, subject to extension by the commission as provided in this chapter, as the drilling term of the lease within which the lessee may commence operations for the drilling of a well for oil or gas if the lease shall embrace lands which were within the known geologic structure of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, and, in either case, providing that, if lessee fails to commence such operations and to thereafter diligently prosecute them, the lease shall terminate. The commission may, with the consent of the holders of leases involved, establish, alter, change, and revoke any drilling and production requirements of such leases, permit apportionment of production, and may make such regulations with reference to such leases, with like consent on the part of such lessees, in connection with the institution and operation of any such cooperative or unit plan, as the commission deems necessary or proper to secure the proper protection of the interests of the State. SEC. 17. Section 6871.3 is added to said code, to read:

6871.3. Whenever it appears to the commission that it is for the best interests of the State to lease lands subject to the provisions of Section 6871.1 of this code for the production of oil or gas therefrom, or whenever a person who possesses the qualifications provided in this chapter makes written request therefor, the commission may, subject to the provisions of Section 6871.4, offer the same for bidding at such times and in such parcels as the commission shall determine to be in the best interests of the State.

SEC. 18. Section 6871.4 is added to said code, to read:

Division into parcels, etc

6871.4. The commission may divide the lands within the area proposed to be leased into parcels of convenient size and shape and shall prepare a form of lease or leases therefor embracing not to exceed 5,760 acres in any one lease, and if the lands are not within the known geologic structure of a producing oil or gas field at the date of issuance by the commission of an invitation to bid for an oil and gas lease thereon, such lease shall embrace not less than 1,920 acres, or the whole thereof if less than 1,920 acres are available for leasing.

SEC. 19. Section 6872 of said code is amended to read:

Other tide and submerged lands

6872. Tide and submerged lands other than those which may be leased under Section 6871.1 and Section 6872.1, and beds of navigable rivers and lakes may be leased by the commission if the commission shall determine (1) that oil or gas deposits are believed to be contained in such lands, (2) that the same are being drained by means of wells upon adjacent lands, and (3) that the leasing of the same for the production of oil and gas will be in the best interests of the State.

SEC. 20. Section 6872.1 is added to said code, to read:

Draining by adjacent wells

6872.1. Whenever it appears to the commission that oil and gas deposits are known or believed to be contained in any such lands as are described in Section 6871.2, subdivision (b), of this code and are being drained by means of wells upon adjacent lands owned by others than the State, the commission shall thereupon be authorized and empowered to lease state-owned tide and submerged lands adjacent to any such wells for the production of oil and gas therefrom, either as a tract or in parcels of such size and shape as the commission shall determine but only within an area and to an extent necessary to offset such drainage of state-owned tide and submerged lands by any such wells upon adjacent lands owned by others.

SEC. 21. Section 6872.2 is added to said code, to read:

Slant-drilled wells

6872.2 If the commission determines that any tide and submerged lands belonging to the State in the area hereinafter referred to should be drilled pursuant to the terms of Section 6872 of this code, then, notwithstanding the provisions of Section 6874 of this code, in order to preserve and protect the highly developed recreational and residential area now re-

ferred to, the commission shall require that any well or wells drilled pursuant to the terms of any lease issued with respect to any part of the hereinafter described area be slant-drilled from an upland or littoral site to and into the subsurface of the tide or submerged lands covered by the lease. The area to which this section is applicable is the tide and submerged lands along the coast of the Pacific Ocean south of the northerly city limits of the City of Newport Beach in Orange County to the southerly boundary of the State.

SEC. 22. Section 6873 of said code is amended to read:

6873. When leasing tide or submerged lands, the commission shall prepare a form of lease which shall contain, in addition to other provisions deemed desirable and necessary by the commission, appropriate provisions contained in this chapter and the following: Lease contents

(a) Each well drilled pursuant to the terms of the lease may be drilled or slant-drilled to and into the subsurface of the tide or submerged lands covered by the lease from upland or littoral drill sites owned or controlled by the State or owned by or available to the lessee, or from drill sites located upon any filled lands heretofore or hereafter filled, whether contiguous or noncontiguous to the littoral lands or uplands, or from any pier heretofore or hereafter constructed owned by or available to the lessee and available for such purpose, or from platforms or other fixed or floating structures in, on or over the tide or submerged lands covered by the lease or otherwise available to the lessee.

(b) Pollution and contamination of the ocean and tidelands and all impairment of and interference with bathing, fishing or navigation in the waters of the ocean or any bay or inlet thereof is prohibited, and no oil, tar, residuary product of oil or any refuse of any kind from any well or works shall be permitted to be deposited on or pass into the waters of the ocean or any bay or inlet thereof.

(c) If the lessee, as disclosed by information submitted with his bid, proposes to drill one or more wells from filled lands, whether contiguous or noncontiguous to the littoral lands or uplands, or from any pier or from platforms or other fixed or floating structures to be constructed for such purpose, and if permission from any federal or state agency is legally required in order to construct any such filled land or structures, the lessee shall be allowed a reasonable time following the execution of the lease and prior to the commencement of the drilling term thereof within which to secure the necessary permission from such federal and state agencies as shall be legally required, and, upon the securing of such permission, a further reasonable time, determined with regard to the nature of the filled lands or structure or structures to be constructed, within which to commence operations for the drilling of such well or wells, and, if necessary, the drilling term of the lease shall be extended by the commission to the date to which the time to

commence operations for the drilling of such well or wells has been extended.

(d) Any offshore filled lands or structure or structures constructed for the purpose of drilling pursuant to this section shall conform to the rules and regulations of the commission in effect at the time of invitation for bids in pursuance of which the lease is awarded. Drilling, whether from upland, littoral or offshore locations, shall be conducted in conformance with such rules and regulations in effect at the time of invitation for bids in pursuance of which the lease is awarded.

SEC. 23. Section 6873.1 is added to said code, to read:

Filled lands

6873.1. Filled lands shall include, but not be limited to, tide or submerged lands reclaimed artificially through raising such lands above the highest probable elevation of the tides to form dry land, by placement of a fill or deposit of earth, rock, sand or other solid imperishable material. Such fill may be retained in place or protected by bulkheads, seawalls, revetments or similar enclosures and may be placed at any location approved by the commission under a lease heretofore or hereafter issued pursuant to this article.

SEC. 24. Section 6873.2 is added to said code, to read:

Notice, publication

6873.2. Before offering any tide or submerged land area for an oil and gas lease, the commission shall publish notice thereof, and any affected city or county may, within thirty (30) days after the publication of such notice, request in writing to the commission that a hearing be held with respect thereto. Upon receipt of such request, the commission shall hold such a hearing and give not less than ten (10) days written notice thereof to the city or county, or both such city and county, making such request, and to the Department of Natural Resources, and shall publish such notice. The commission in its discretion and irrespective of any such requests may hold such hearings as it shall determine. Published notices shall be given in the manner prescribed in Section 6834 of this chapter.

Hearing

Determination by commission

Within thirty (30) days after such hearing the commission shall determine to offer the land for lease, as provided under Sections 6871.3, 6872 and 6872.1, unless the commission shall determine that the issuance of a lease as to all or a part of such land would result in an impairment or interference with the developed shore line recreational or residential areas adjacent to the proposed leased acreage, or the commission may determine to offer such land for lease as to all or a part thereof and include in the offer for lease such reasonable rules and regulations which, in the opinion of the commission, are necessary for the exploration, development, and operation of said lease in a manner which will not impair or interfere with said developed shore line recreational or residential areas; provided, however, that no tide or submerged lands shall be offered for lease under any conditions, rules, or regulations which will result in a discrimination between bidders as prohibited by Section 6874.

The commission in determining whether the issuance of such lease or leases would result in such impairment or interference with the developed shore line, recreational or residential areas adjacent to the proposed leased acreage or in determining such rules and regulations as shall be necessary in connection therewith shall at said hearing receive evidence upon and consider whether such proposed lease or leases would Evidence

(a) Be detrimental to the health, safety, comfort, convenience, or welfare of persons residing in, owning real property, or working in the neighborhood of such areas;

(b) Interfere with the developed shore line, residential or recreational areas to an extent that would render such areas unfit for recreational or residential uses or unfit for park purposes;

(c) Destroy, impair, or interfere with the esthetic and scenic value of such recreational, residential or park areas;

(d) Create any fire hazard or hazards, or smoke, smog or dust nuisance, or pollution of waters surrounding or adjoining said areas.

Authority to hold the hearings provided in this section may be delegated by the commission to its officers or employees.

SEC. 25. Section 6874 of said code is amended to read:

6874. Each bid shall be accompanied by information giving a description of the location or locations, structure or structures, from which the bidder proposes to drill. In awarding a lease, the commission shall not discriminate between bidders by prohibiting drilling from upland or littoral drillsites, or drilling from sites upon filled lands, whether contiguous or noncontiguous to the littoral lands or uplands, or upon any pier or platform or other fixed or floating structure in, on or over tide and submerged lands with respect to which the State or other owner thereof has consented to such use; provided, however, that in the event state-owned tide or submerged lands are determined by the commission to contain oil or gas deposits which are being drained by wells owned by others upon adjacent lands, and such state-owned tide and submerged lands cannot be developed by a particular method of exploration, development or operation without interfering with or impairing developed shore line, recreational or residential areas, then the commission may offer and award an oil and gas lease on such lands with a prohibition against said particular method of exploration, development or operation. Awarding of lease

SEC. 26. Section 6876 of said code is amended to read:

6876. Should it appear to the commission that any person, association of persons, or corporation, has drilled, or is making preparation to drill, wells upon or into tide or submerged lands of which the State is the owner, or from which the State has the right to extract oil or gas or both, for the extraction of oil or gas therefrom, other than pursuant to authority granted in accordance with this chapter, whether or not such person, association of persons, or corporation may be acting under purported authority, the commission shall cause an Injunction

action to be instituted in the name of and upon behalf of the State in a court of appropriate jurisdiction, to enjoin the occupancy and operations upon or in such lands and to demand compensation for injury and damage, if any, to such lands; except that, should the drilling operations be conducted upon or in lands which have been filled and if such operations have been commenced prior to March 24, 1938, the commission, if it appears to be in the interests of the State, may, upon behalf of the State, issue a lease to any such person, association of persons, or corporation in accordance with the provisions of this chapter insofar as applicable, and upon a royalty basis, retrospective and prospective, which appears reasonable and just in the circumstances to the lessee and the State.

Exception

Severability

SEC. 27. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Short title

SEC. 28. This act shall be known and may be cited as the Cunningham-Shell Tidelands Act of 1955.

CHAPTER 1732

An act to amend Sections 5046 and 7707 of the Education Code, relating to school district public works, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 6, 1955. Filed with Secretary of State July 8, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 5046 of the Education Code is amended to read:

Apportionment from Public School Building Loan Fund

5046. Apportionment from the Public School Building Loan Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes: (a) the purchase and improvement of school sites which have been approved by the State Department of Education; (b) the purchase of desks, tables, chairs, and built-in or fixed equipment, as listed in Part III of the California School Accounting Manual contained in the Bulletin of the California State Department of Education, Volume XIII, No. 2, June, 1944, or as amended or revised; and (c) the planning and construction, reconstruction, alteration of, and addition to, school buildings for such facilities as are approved by the Department of Education as essential, all of which purposes are hereby declared to be, and are, public works.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the costs thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

SEC. 2. Section 7707 of the Education Code is amended to read as follows:

Apportionment from State School Building Aid Fund

7707. Apportionment from the State School Building Aid Fund to school districts shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board, for the following purposes,

all of which purposes are hereby declared to be, and are, public works: (a) the purchase and improvement of school sites which have been approved by the State Department of Education; (b) the purchase of desks, tables, chairs, and built-in or fixed equipment, as approved by the Department of Education and as listed in Part III of the California School Accounting Manual contained in the Bulletin of the California State Department of Education, Volume XX, No. 2, March, 1951, or as amended or revised; and (c) the planning and construction, reconstruction, alteration of, and addition to, school buildings for such facilities as are approved by the Department of Education as essential, except (1) a room used solely for an auditorium for a school of any type or class and (2) a room used solely for a gymnasium or a room used solely for a cafeteria for elementary schools. This section does not prohibit the Department of Education from approving multipurpose rooms which are rooms designed to be used for two or more of the following purposes:

(a) Classroom
(b) Auditorium
(c) Gymnasium
(d) Cafeteria
(e) Such other purposes as the district requires which are approved by the Department of Education.

Where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution and shall go into effect immediately. A statement of the facts constituting such necessity is as follows: Urgency

Because of the last sentences of Sections 5047.2 and 7710 of the Education Code, the Attorney General has ruled that the State cannot under Chapters 1.6 and 19, Division 3 of the Education Code, pay from funds apportioned thereunder the cost of insurance required to be obtained by a school district at its own expense under a contract for construction approved pursuant to the said chapters. This would result in many cases in financial loss to the school districts affected, creating additional budgetary problems, and intensifying the already serious financial problem of providing adequate education for the children served by such districts. To prevent this result, and to afford the districts affected immediate relief, the foregoing sections of the Education Code have been amended.

CHAPTER 1733

An act to amend Section 7702 of the Education Code, relating to state school building aid, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 6, 1955. Filed with Secretary of State July 8, 1955.]

(b) "Director" means the Director of Education.

(c) "Project" means the purposes for which a school district has applied for an apportionment under this chapter.

(d) "Construction project" means the purposes for which a school district has applied for an apportionment at a given location.

(e) "Grade level maintained by a district" means (1) the kindergarten, if any, and grades 1 to 6, or grades 1 to 8, inclusive, maintained by an elementary school district or a unified school district; or (2) grades 7 to 12, grades 9 to 12, inclusive, or grades 7 to 10, inclusive, maintained by a high school district or unified school district; and (3) grades 13 and 14 maintained by a high school district, unified school district, or junior college district, but not more than one grade level shall be claimed by any district under any one of the subdivisions of this paragraph.

(f) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires. The term "apportionment" in Sections 7737, 7742, 7744, 7745, 7746, 7747, and any other section in this chapter where the context justifies, shall be deemed to include funds of a school district required by the board to be contributed toward the purposes thereof. It is hereby declared that this construction is not intended as a change in the present law but rather as a declaration of existing law.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution. A statement of the facts constituting such necessity is as follows:

Most state school building aid projects are financed jointly by school district and state funds. While the law is very clear as to the disposition and use of state funds that are applied to a project, certain sections do not clearly specify the dis-

position and use of district funds that are made available towards the cost of a project. By amending the term "apportionment" to include district funds as well as state funds, such ambiguities will be clarified. It is necessary that this act take effect immediately so that urgently needed school construction can be properly financed without further delay.

CHAPTER 1734

An act to amend Sections 5048, 5064, 7713 and 7737 of the Education Code, relating to state school building aid, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1955. Filed with Secretary of State July 8, 1955.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7713 of the Education Code is amended to read:

7713. Each school district which desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment. Before the board approves an application for a construction project and makes an apportionment pursuant to this chapter, it shall after consultation with the Division of Architecture establish standards for all new construction included therein. After such consultation the board shall establish current construction cost standards for such construction. Such standards shall not exceed typical comparable new construction by school districts in the same area not receiving or eligible for apportionment under this chapter, or if there has been no new construction by school districts in the area, the standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine such typical current costs or such reasonable current costs. In applying such standards the board shall take into account the size and type of the construction proposed and may make such deviations as in their judgment are justified. When a standard has been set by the board to cover any individual apportionment, no apportionment shall be made by the board in excess of such standard, unless the board shall find that in view of a rapid increase in building costs an adjustment is warranted. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of Finance. Application for apportionment

A school district shall not let any contract for new construction included in an application for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for such new construction.

A school district may at any time amend or supplement its application.

Each construction project for which a district applies for an apportionment shall be applied for on a separate application and shall be considered separately by the board. If a district applies for more than one construction project, at the same time or at different times, the priority points of the district shall be recalculated after the approval of each separate construction project and before a subsequent construction project is approved.

The Allocation Board shall require such changes in the plans which an applicant school district submits with its application as the board determines is necessary or desirable to reduce the cost of the project. The board may also by rule provide for the vesting in the director or in the Director of Finance of the responsibility for requiring such changes, according to whether the subject matter of the change is subject to the jurisdiction or approval of the director or the Director of Finance, respectively.

The board may for such good cause as it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a school district under the terms of an apportionment, other than any contribution required of such district under Section 7719 from the sale of bonds; provided, that the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.

Report

The Director of Finance shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount which the school district can contribute toward the cost of the project out of its available funds, and shall submit his report thereon to the board.

The director shall as promptly as possible prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of Finance, who shall, if he finds said documents to be in proper form and otherwise sufficient, refer them to the board. If the Director of Finance finds said documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or Department of Education, he shall refer them to the director who shall take such action as may be necessary. The board shall, subject to the provisions of this chapter approve or reject each application

referred to it by the Director of Finance. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the State School Building Aid Fund the amount applied for, or such portion thereof as the board may deem appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 7719 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of said resolution of the board, and if it does not become a final apportionment by that date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

SEC. 2. Section 5064 of said code is amended to read:

Use of funds

5064. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose; provided, however, that changes or substitutions in the purposes for which such funds were earmarked or encumbered, with respect to such requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of Finance.

SEC. 3. Section 5048 of said code is amended to read:

Grade level apportionment

5048. Each school district which desires an apportionment for a grade level maintained by it, shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire project for which the district desires an apportionment. Estimates of cost for new construction appearing in an application shall not exceed typical current costs of comparable new construction by school districts in the same area not receiving or not eligible for apportionment under this chapter, as determined by the Director of Finance, or if there has been no new construction by school districts in the area, the estimates of cost shall not exceed the reasonable current cost of similar construction in the area as determined by the Director of

Finance. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the director and to the Director of Finance.

A school district may at any time amend or supplement its application.

The Director of Finance shall determine the school district's financial ability to meet all or a portion of the cost of the project and the amount which the school district can contribute toward the cost of the project out of its available funds, and shall submit his report thereon to the board.

The directors shall as promptly as possible prepare a report and recommendation with respect to the application and refer the application, report, and recommendation to the Director of Finance, who shall, if he finds said documents to be in proper form and otherwise sufficient, refer them to the board. If the Director of Finance finds said documents to be lacking in any respect as to any matter which is subject to the jurisdiction or approval of the director or Department of Education, he shall refer them to the director who shall take such action as may be necessary. The board shall, subject to the provisions of this chapter approve or reject each application referred to it by the Director of Finance. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Public School Building Loan Fund the amount applied for, or such portion thereof as the board may deem appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe. This shall be known as a conditional apportionment and shall become final only if the vote provided for in Section 5050 is favorable and if bonds are authorized and sold in the amounts prescribed by the board, and the proceeds of the bonds sold earmarked for the project as approved. The conditional apportionment shall remain effective for a period of nine months from the date of said resolution of the board, and if it does not become a final apportionment by the date, it shall become void and the money so apportioned shall become again available for apportionment pursuant to this chapter.

Conditional apportionment

The board may for such good cause as it shall determine, reduce the amount of, or modify any provisions relating to, any contribution required of a school district under the terms of an apportionment, other than any contribution required of such district under Section 5050 from the sale of bonds; provided, that the board may not, without the consent of the district, increase the amount of any district contribution under the terms of an apportionment, in the absence of mistake arising from any source, or misrepresentation, concealment, or omission, on the part of the district, intentional or otherwise. The provisions of this paragraph shall be applicable to apportionments heretofore or hereafter made.

SEC. 4. Section 7737 of said code is amended to read:

7737. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit. In determining funds which can be contributed by the district, the board may require the district to contribute unexpended balances of funds earmarked or encumbered by the district for furniture, equipment, or any other lawful purpose; provided, however, that changes or substitutions in the purposes for which such funds were earmarked or encumbered, with respect to such requirement under any apportionment heretofore or hereafter made, may be authorized by the board, or pursuant to its delegation, by the Director of Finance. Purposes of apportionment

SEC. 5. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution. A statement of the facts constituting such necessity is as follows: Urgency

The State Allocation Board is now without authority in some cases to adjust the amount a school district is to contribute towards the cost of a state-aided school project where, subsequent to the approval of an application, it is found that district contributions which were originally required, actually are not available, or that certain district funds are available but were not known to the board at the time the application was approved.

School districts are required to contribute towards the cost of school building aid projects, any unused balance remaining from capital outlay funds which are earmarked or encumbered for specific purposes other than the state aid application. Such items are listed in detail in the application. There are a number of cases where such funds are later expended for slightly different purposes than those reported in the approved application. Where such deviations occur, it has been held that amounts spent for items and quantities other than those specifically listed, must be applied toward the cost of the state-aided project and that the State Allocation Board cannot later approve such deviations, even though they would have been approved originally and represent an equally necessary or a better utilization of district funds. Many school districts are therefore required to contribute amounts already spent for essential purposes, towards the cost of state-aided projects. As a result the amounts involved cannot be paid either by the district or the State to meet the cost of state-aided projects.

It is necessary that this act take effect immediately so that the financing of urgently needed school facilities can be completed.

CHAPTER 1735

An act to add Chapter 8 to Part 4 of Division 6 of, and to amend Section 7409 of, the Welfare and Institutions Code, relating to the establishment and operation of the Neuropsychiatric Institute in the City of Los Angeles.

In effect September 7, 1955

[Approved by Governor July 6, 1955. Filed with Secretary of State July 8, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 8 is added to Part 4 of Division 6 of the Welfare and Institutions Code, to read:

CHAPTER 8. THE NEUROPSYCHIATRIC INSTITUTE

Hospital established

7400. A neuropsychiatric hospital for which an appropriation for planning was provided by Item 328.1 of Chapter 1, Statutes of 1954, shall be established on the grounds belonging to the Regents of the University of California at Los Angeles as a part of the Medical Center. Said hospital which shall be the Neuropsychiatric Institute shall be operated and maintained under the jurisdiction of the Department of Mental Hygiene in cooperation with the Medical School of the University of California at Los Angeles under a coordinating plan and agreement entered into by and between the Regents of the University of California and the Department of Mental Hygiene.

Admissions may be either on a voluntary basis after approval by the superintendent and medical director, or on transfer from another institution under the jurisdiction of the department after approval by the Director of Mental Hygiene, and no person shall be committed either directly to the Neuropsychiatric Institute or to the Department of Mental Hygiene for placement therein. All admissions shall be for observation, research, diagnosis and treatment purposes as determined by the superintendent and medical director; in the cases of transfer from another institution the patients so transferred may be returned upon the completion of the study, diagnosis or treatment to an institution of the type from which they came.

Charges for care, etc.

The charges for the care, treatment or services rendered to all persons admitted to the hospital shall not be limited by any provision of this code but shall be based on the average cost per day as determined by the Director of Mental Hygiene. The liability for the charges so determined shall be governed by the provisions of Article 5 of Chapter 1, Part 4 of this division.

Outpatient clinic

There shall be conducted and maintained in conjunction with the hospital unit an outpatient clinic. The charges for services in the outpatient clinic shall be determined by the superin-

tendent and medical director in accordance with schedules for such charges established by the department.

The Neuropsychiatric Institute shall have a board of five trustees appointed by the Governor, two of whom shall be selected from the faculty or administrative staff of the University of California Medical School at Los Angeles. Each member of said board of trustees shall hold office for the term of four years, and shall serve without compensation other than necessary expenses incurred in performance of duty. Any trustee is subject to removal by the Governor, upon good cause shown and opportunity to be heard.

Legislators, etc.

7403. No person is eligible to the office of trustee who is a member of the Legislature or an elective state officer, and if he becomes such after his appointment his office is thereby vacated. If any trustee fails to attend three consecutive regular meetings of the board, unless he is ill or absent from the State, his office becomes vacant, and the board, by resolution, shall so declare, and shall forthwith transmit a certified copy of such resolution to the Governor.

Removal

Advisory board

The board of trustees is an advisory board to the Department of Mental Hygiene and to the superintendent and medical director of the institute with power of visitation and advice with respect to the conduct of the institute. In addition said board shall have power to arbitrate and suggest settlement of any differences arising between the Department of Mental Hygiene and the Regents of the University of California relating to the operation of the institute.

SEC. 2. Section 7409 of said code is amended to read:

Qualifications of superintendent and medical director

7409. The superintendent and medical director of the Neuropsychiatric Institute shall have the qualifications required for superintendents of state hospitals under the jurisdiction of the department, and in addition shall have demonstrated by past experience his qualifications in the field of psychiatry and neurology. The questions for the examination of such superintendent shall also weigh his qualifications or experience in hospital administration, in the field of teaching, and in the organization and successful prosecution of meritorious research projects and shall be prepared by the Personnel Board together with the Director of Mental Hygiene or any medical superintendent that he shall designate, and the dean of the University of California Medical School at Los Angeles, or such member of the faculty of the medical school as the dean shall designate, in consultation with a representative of the State Personnel Board.

Temporary appointments

Nothing herein contained shall prevent the making of a temporary appointment pending the holding of an examination to qualify a list of persons eligible to be appointed such superintendent.

Should the Department of Finance determine a different quality than that specified by the agency will best serve the interests of the State, it shall notify the state agency before a purchase order is issued. If the agency is of the opinion the interests of the State would not be served by the purchase of supplies or equipment of a lesser quality or different than that specified by the agency, the agency may request a hearing before the Board of Control and the board shall determine the supplies or equipment which will best serve the interests of the State, whereupon the Department of Finance shall issue a purchase order for the supplies or equipment specified by the Board of Control.

If the low bidder, or any other bidder, files a protest with the Department of Finance against the awarding of a purchase order or contract, such contract or purchase order shall not be awarded until either the protest has been withdrawn or the Board of Control has made a final decision as to the action to be taken relative to the protest.

Redemption

61760. Whenever any real property situate in any district has been sold for taxes and has been redeemed, the money paid for such redemption shall be apportioned and paid by the county treasurers receiving the same to such district, in the proportion which the tax due to such district bears to the total tax for which such property was sold.

SEC. 4. Section 33747 is added to said code, to read:

33747. If at any time after the adoption of a tentative or redevelopment plan for a project area by the legislative body, it becomes necessary or desirable to amend or modify such plan, the legislative body may amend such plan upon the recommendation of the agency. Amendment of plan

Before recommending amendment of the plan the agency shall hold a public hearing on the proposed amendment. Notice of such hearing shall be published once a week for three successive weeks prior to the date of hearing in a newspaper of general circulation, printed and published in the community, or, if there is none, in a newspaper selected by the agency. The notice of hearing shall include a legal description of the boundaries of the area designated in the plan to be amended and a general statement of the purpose of the amendment. Copies of the notices shall be mailed to the last known assessee of each parcel of land within such boundaries, at his last known address as shown by the records of the assessor for the Notice, hearing, etc

community, and to persons, firms, or corporations which have acquired property within such boundaries from the agency, at his last known address as shown by the records of the agency. If after the public hearings the agency recommends substantial changes in the plan which affect the master or community plan adopted by the planning commission or the legislative body, such changes shall be submitted to the planning commission for its report and recommendation to the legislative body within 30 days after such submission.

Recommendation

After receiving the recommendation of the agency concerning such changes in the plan, and not sooner than 30 days after the submission of changes to the planning commission,

Hearing

the legislative body shall hold a public hearing on the proposed amendment, notice of which hearing shall be published in a newspaper in the manner and at the times designated above for notice of hearing by the agency. If after such hearing the legislative body determines that the amendments in the plan, proposed by the agency, are necessary or desirable, the legislative body shall adopt an ordinance amending the ordinance adopting the plan thus amended.

Urgency

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At the present time the law provides no method for amending a redevelopment plan after it has been officially adopted. In many communities of the State in which such plans have been adopted there is an urgent need for an amendment to a portion of such plan in order to more adequately meet the needs of the community. In order to expedite the orderly redevelopment of blighted areas necessary for the public health, safety and welfare of this State, it is necessary that this act take effect immediately.

CHAPTER 1762

An act to amend Section 7747 of the Education Code, relating to state school building aid, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 7, 1955. Filed with Secretary of State July 8, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 7747 of the Education Code is amended to read:

Failure to use site or improvements

7747. Whenever a school district receives, or has received, an apportionment under this chapter for or toward the purchase or improvement of a school building site and whenever, within a period of three years after the date on which the

duly authorized representative of the board shall have heretofore or hereafter authorized in writing, pursuant to the terms of such apportionment, the expenditure by the district for said site, either from state funds apportioned or funds which the district is required by the board to contribute toward the cost thereof, the district sells or otherwise disposes of such site or the improvements thereon, or any portion thereof purchased or improved in whole or part from said apportionment, or within not less than one year nor more than three years from the date of said authorization, as the board shall determine, the district does not begin to use such site or the improvements thereon for the purpose or purposes for which said apportionment was made, the board shall demand the return by the school district of the total amount of state funds apportioned to and received by the school district for such purpose or purposes less any repayment made prior to such demand by the district on account of such apportionment, or, in case of a sale of a portion of such site or the improvements thereon, a proportionate share of such apportionment taking into consideration any improvement of the site from such apportionment. Written notice of such demand, setting forth the amount due the State pursuant thereto, shall be furnished by the board to the governing board of the school district, the county superintendent of schools, the county auditor, the county treasurer of the county whose county has jurisdiction over the school district, and the State Controller. Upon receipt of such notice and demand, the governing board of the school district shall, at the time of the next county settlement following receipt of such notice, order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the State School Building Aid Fund, to be reapportioned by the board.

Notice of demand

Whenever a school district receives or has received an apportionment under this chapter for the purchase of a site which contains existing improvements, the board may require the district to dispose of such existing improvements as a condition of receiving an apportionment in such manner as the board deems proper, and contribute the net proceeds therefrom or the value of any consideration received therefor, in reduction of any apportionment. In the event that the district is not so required to dispose of such existing improvements but after receiving such apportionment subsequently disposes thereof, the net proceeds therefrom or the value of the consideration received therefor, shall be contributed by the district in reduction of any remaining indebtedness to the State under this chapter or Chapter 1.6 of Division 3 of the Education Code.

Existing improvements

Where a district has been unable to use any building site acquired by an apportionment under this chapter because of the delay of the board in acting upon its application for an

Extension of time

apportionment for the planning and construction of school buildings on such site, the board may withhold demand for repayment of the apportionment for such building site for a period of not less than one or more than three years after approval of the apportionment for planning and construction.

Enforcement

It shall be the duty of such governing body and county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the State.

Urgency

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution. A statement of the facts constituting such necessity is as follows:

The law is not clear as to the extent to which the State can recover the proceeds from the sale of improvements or other surplus property acquired as a result of purchase of school sites with state aid. Substantial amounts are sometimes involved, and the amount recovered correspondingly reduces the apportionment to the school district. Any failure to recover such funds would result in less funds available for apportionment to other school districts for urgently needed school facilities. It is therefore necessary that this act take effect immediately.

CHAPTER 1763

An act to repeal Sections 1501, 1572, 4728, 7206, 7207, 9607.2, 9607.3, 9807, 9807.2, 9808, 9809.1, 10324, 10324.5, 10506, 10506.5, 13322, 13323, 16461, 16463, and 19131, and Article 5 of Chapter 1 of Division 2 (Sections 1101-1107, inclusive), Article 7 of Chapter 8 of Division 4 (Sections 9481-9485, inclusive), Article 2 of Chapter 9 of Division 4 (Sections 9641-9646, inclusive), Article 10 of Chapter 4 of Division 8 (Sections 16791-16794, inclusive), Article 5 of Chapter 6 of Division 9 (Sections 18941-18946, inclusive), Article 3.5 of Chapter 7 of Division 9 (Sections 19101-19105, inclusive), and Article 4.5 of Chapter 7 of Division 9 (Sections 19141-19143, inclusive) of the Education Code; to add Chapter 8.1 to Division 4 of, and Section 364.1 to said code; and to amend Sections 9801.1, 9801.2, 9804, and 9807.1 of said code, and to amend the article heading of Article 4, Chapter 3, Division 8 of said code, relating to county school service funds and the Public School System.

In effect September 7, 1955

[Approved by Governor July 7, 1955. Filed with Secretary of State July 8, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Sections 1501, 1572, 4728, 7206, 7207, 9607.2, 9607.3, 9807, 9807.2, 9808, 9809.1, 10324, 10324.5, 10506, 10506.5, 13322, 13323, 16461, 16463, and 19131, and Ar-

Repeal

SEC. 2. Chapter 8.1 is added to Division 4 of said code, to read:

CHAPTER 8.1. COUNTY SCHOOL SERVICE FUND SERVICES

Article 1. General Provisions

9501. The Legislature hereby declares that it is in the interest of the State and of the people for the office of the county superintendent of schools, through the county school service fund, to provide coordination of the educational program among districts under his jurisdiction and to provide professional and financial assistance to school districts which otherwise, because of size or location, would not be able to furnish a satisfactory program of education for their children. Such assistance is a matter of general concern inasmuch as the education of the children of the State is an obligation and function of the State. Legislative declaration:

In adopting this act, the Legislature considers that the coordination of the educational program constitutes the greatest continuing need to be met through the county school service fund. To meet this need the necessity is recognized to provide professional services to coordinate courses of study, guidance services, health services, special education, attendance activities, and advisory services in school business administration.

As an additional need, the Legislature recognizes the necessity to provide professional services in districts too small to supply such services for themselves economically and effectively, such as, (1) to prepare courses of study; (2) to supervise instructional practices; (3) to provide direct guidance services, health services, and attendance services normally provided in an educational program; (4) to provide for the purchase, distribution, and use of supplementary instructional materials and equipment; and (5) to provide educational opportunity to normal and special pupils who would otherwise be denied it. It is recognized further that providing for professional service is a transitory function of the county school service fund to be assumed by school districts when, through growth or reorganization, they will be able to perform the services for themselves.

It is the further intent of the Legislature that: Same

(a) Services involving the coordination of the educational program which have among others the purposes of (1) enforc-

ing minimum standards, (2) improving the educational program, and (3) promoting order and reasonable uniformity in the educational program shall be provided, except as may be specifically authorized, at the district level, reserving to the district the opportunity and responsibility for internal improvement, and that such services will be provided in such a manner that recognition will be given to the responsibilities placed upon school districts by the Legislature to determine and administer their own educational program.

(b) Services to school districts which do not constitute coordination among districts shall be provided in such a manner that impetus will be given to strengthening school districts and to improving district organization to the end that more effective programs of education may be offered, and that the provision of services through the county school service fund shall not act to deter or delay any school districts from furnishing such services for themselves.

(c) Services to school districts shall be cooperatively provided by two or more county superintendents of schools without regard for county boundaries whenever a particular service may be so provided with economy and effectiveness.

(d) The direct operation of an educational program by the county superintendent of schools shall, except as specifically authorized by the Legislature, be limited to those emergency cases where children would otherwise be denied an opportunity for education.

County school service fund

9502. The county school service fund shall be used to pay for those services provided by the county superintendent of schools that are authorized by this chapter, and for such other purposes as are specifically authorized elsewhere in this code.

Article 2. Coordination

Coordination of courses of study, etc

9505. The county superintendent of schools may, with the approval of the county board of education and in accordance with regulations of the Superintendent of Public Instruction which he is hereby authorized to adopt, employ qualified personnel to provide for the coordination of courses of study, guidance services, health services, special education, attendance activities, and advisory services in school business administration activities among the school districts under his jurisdiction. The regulation of the Superintendent of Public Instruction adopted pursuant to this section shall be adopted with the advice of an advisory committee to include county superintendents of schools, which the Superintendent of Public Instruction is herewith authorized to appoint.

(b) Elementary or secondary school supervision credential
(c) Special subject supervision credential
(d) A credential which authorizes service similar to that authorized by one or more of the foregoing types of credentials.

Any person who is employed in the office of a county superintendent of schools on the effective date of this section and is performing any of the services described in this article may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed in his position.

Article 3. Preparation of Courses of Studies

"Excess expense"

9564. The Superintendent of Public Instruction shall determine the amount of excess expense incurred by each county superintendent of schools for the education of physically handicapped pupils. "Excess expense" as used in this section means that amount by which the current expense of education incurred for physically handicapped pupils exceeds the amount to be apportioned under the provisions of Article 5 of Chapter 15 of Division 3 of this code to the county school service fund during the then current year on account of the average daily attendance of all pupils whose attendance is credited to the county school service fund at the level for which the excess expense is to be determined, exclusive of the average daily attendance of pupils in a juvenile hall school maintained by the county superintendent of schools during the preceding fiscal year.

9565. In determining the excess expense incurred by a county superintendent of schools for the education of physically handicapped minor pupils under Section 9564, the Superintendent of Public Instruction shall exclude all current expenses of the county superintendent of schools for the transportation of blind, deaf, cerebral palsied, and orthopedically handicapped pupils, referred to in Section 7018.1, to and from special day classes.

Article 13. Education of Mentally Retarded

Special training schools

9570. (a) The county superintendent of schools shall establish and maintain special training schools or classes for mentally retarded minors who reside in the county and in elementary or unified school districts which have an average daily attendance of less than 901 and who come within the provisions of Section 9801 1. Such schools and classes shall be established at centrally located places, and the county super-

(b) The county superintendent of schools may, with the approval of the county board of education, establish and maintain special training schools or classes for mentally retarded minors who reside in the county and who come within the provisions of Section 9801.1 and contract with an elementary or unified school district with an average daily attendance of 901 or more, subject to such terms and conditions as may be agreed upon. The contract shall be approved by the county board of education and shall require the district to pay to the county school service fund of the county in which the district is located all costs of the education of such minors which are in excess of the amounts apportioned from the State School Fund for the average daily attendance of such minors.

Whenever a special training school or class is established under the provisions of this subdivision, the computations prescribed by Sections 7034 and 7037 shall not apply.

(c) The county superintendent of schools may, with the approval of the county board of education, establish and maintain special training schools or classes for mentally retarded minors who reside in the county and who come within the provisions of Section 9801.2.

Minors who become 18

9571. Each county superintendent of schools maintaining special training schools or classes for mentally retarded minors pursuant to subdivision (c) of Section 9570 may limit the number of minors to be admitted to such schools or classes. Any minor who becomes 18 years of age while in attendance upon a special training school or class shall be permitted to continue to attend thereon for the remainder of the time the school or class is maintained during the then current school year.

Transportation to schools

9572. Any county superintendent of schools otherwise required or authorized to maintain special training schools and classes under Section 9570 for mentally retarded minors may provide for the education of such minors in, and for the transportation of such minors to, special training schools or classes maintained by a school district under Chapter 11 of this division or by a county superintendent of schools under this article, subject to such terms and conditions as may be agreed upon. The agreement shall be approved by the county board of education.

9573. In lieu of entering into an agreement for the transportation of mentally retarded minors by the school district or county superintendent of schools, in the special training schools and classes of which the education of such minors is provided under Section 9807.1 or 9572, the school district or county superintendent of schools of the county required to provide for their education may provide such transportation.

Tax

9574. The county superintendent of schools shall, with the approval of the county board of education, certify to the

county auditor and the board of supervisors, on or before July 15th of each year, the amount of money required to be raised by a county tax for the education of mentally retarded minors who come within the provisions of Section 9801.1 and for rental of property by the county superintendent of schools for special training schools or classes for such minors. Also, the county superintendent of schools shall, with the approval of the county board of education, certify to the county auditor and the board of supervisors, on or before July 15th of each year, the amount of money required to be raised for the education of mentally retarded minors who come within the provisions of Section 9801 2. The amount shall be determined by subtracting from the total cost of the education of such minors, including transportation, to the county superintendent of schools the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund for the education of mentally retarded minors and by adding to the result the amount required for rental of property. The board of supervisors may include in such amount a sum for capital outlay.

Tax levy

The board of supervisors shall at the time of levying other county taxes levy a county tax for the education of mentally retarded minors who come within the provisions of Section 9801.1 upon the taxable property of the county sufficient to produce the amount required and may increase such tax in such amount as will produce the amount required for the education of mentally retarded minors who come within the provisions of Section 9801.2. The amount received from this tax shall be deposited in the county school service fund.

"Excess expense"

9575. The Superintendent of Public Instruction shall determine the amount of the excess expense incurred by each county superintendent of schools for the education of mentally retarded minors. "Excess expense" as employed in this section includes the total current expenses of education incurred for mentally retarded minors instructed in special schools or classes, over the amount to be apportioned as basic state aid under the provisions of Article 5 of Chapter 15 of Division 3 of this code to the county school service fund during the then current fiscal year on account of all pupils whose attendance is credited to the county school service fund at the level for which the excess expense is to be determined, exclusive of the average daily attendance of pupils in a juvenile hall school maintained by the county superintendent of schools during the preceding fiscal year.

CHAPTER 1766

An act to amend Section 21364 of the Government Code, relating to the special death benefit under the State Employees' Retirement System.

[Approved by Governor July 7, 1955. Filed with Secretary of State July 8, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 21364 of the Government Code is amended to read:

21364. The special death benefit consists of:

(a) An amount equal to and derived from the same source as the basic death benefit; and

(b) An amount sufficient, when added to the amount equal to the basic death benefit, exclusive of the annuity provided by the deceased's accumulated additional contributions, to provide when applied according to tables adopted by the board, a monthly death allowance, equal to one-half of his final compensation in the membership category applicable to him at the time of the injury or the onset of the disease causing death, payable to the surviving wife to whom he was married prior to sustaining the injury or disease resulting in death, as long as she lives or until her remarriage; or if there is no widow, or if the widow dies or remarries before all children of the deceased member attain age 18, to his children under 18 collectively until every child dies or attains 18. (c) An annuity which is the actuarial equivalent, assuming monthly payments for life to the surviving wife, of the deceased's accumulated additional contributions at the date of his death, plus his accumulated contributions at that date based on compensation earned in any membership category other than the category applicable to him at the time of the injury or the onset of the disease causing death.

CHAPTER 1767

An act to add Section 7714.3 to the Education Code, relating to state school building aid, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 7, 1955 Filed with Secretary of State July 8, 1955] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 7714.3 is added to the Education Code, to read:

7714.3. If an apportionment is or has been made at any time after September 9, 1953, for construction on a site for which an apportionment was made pursuant to Section 7714.1, from and after the date said apportionment for construction becomes, or became, final, no repayment deductions by the Controller pursuant to Section 7731 attributable to the apportionment for said site shall thereafter be made, except that any such repayment deductions attributable to such site apportionment which would otherwise be made by the Controller during the fiscal year in which such construction apportionment becomes final shall be made during such fiscal year only. The balance of the principal amount of the apportionment for said site, and accrued interest thereon, shall be added by the Controller to and become part of the apportionment for construction, as of the date of such apportionment, and repaid in the manner otherwise prescribed by this article. The Controller shall promptly notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of any revision required by this section of any previous computation made by him pursuant to Section 7735.

SEC. 2. This act is hereby declared to be an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Section 1 of Article IV of the Constitution. A statement of the facts constituting such necessity is as follows:

According to legal opinion, the first annual repayment under this chapter is constructively paid at the beginning of the fiscal year following the year in which an apportionment for a school site has been made, although the actual cash transfers and tax collections involved, occur between one and two years later. As a result, school districts that have had site apportionments merged with construction apportionments, as provided by Section 7714.1, must nevertheless levy the special additional taxes with respect to such site apportionment a year or more after the consolidation of the two apportionments.

The situation arising out of this legal interpretation was contrary to the general understanding of the operation of the special repayment provisions of Section 7714.1. It inadvertently leaves an additional tax burden on heavily taxed school

districts and discourages the purchase of urgently needed school sites. Since such additional taxes will be levied in the 1955-56 Fiscal Year if this act does not become operative until 90 days after adjournment of the 1955 Legislature, it is necessary that it take effect immediately.

CHAPTER 1768

An act to add Section 169 to the Vehicle Code, relating to implements of husbandry.

SECTION 1. Section 169 is added to the Vehicle Code, to read:

169. Implement of Husbandry Identification Plate. Any person who owns an implement of husbandry which is exempt from registration may, but is not required to, apply to the department, on a form prescribed by the department, for an identification plate for such vehicle. The department shall issue an identification plate to the owner upon presentation of the application and payment of a service fee of five dollars ($5), which fee shall be credited to the Motor Vehicle Fund.

The application shall include a statement by the owner of the use or uses which he intends to make of the implement of husbandry, a description of such vehicle, including distinctive marks or features, if any, a photograph of the vehicle, and such other information as may reasonably be required by the department to determine whether the applicant is entitled to be issued an identification plate for the vehicle.

Each identification plate issued under this section shall bear a distinctive number to identify the implement of husbandry for which it is issued. The owner, upon being issued a plate, shall attach it to the vehicle for which it is issued, and it shall be unlawful for any person to attach or use the plate upon any other vehicle. If the vehicle is destroyed or the ownership thereof transferred to another person, the person to whom the plate was issued shall first remove the plate and, within 10 days after removing the plate, return it to the department, together with a notice, on a form approved by the department, that the vehicle has been destroyed or the ownership thereof transferred to another person.

Such original real estate salesman's license shall be renewable for a period of two consecutive years before the holder thereof shall be required to take and pass the qualifying examination for an original real estate salesman's license.

Severability

SEC. 11. If any provision of this act, or the application of such provision to any person or circumstance, shall be held invalid, the remainder of this act, or the application of such provisions to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

Legislative finding

SEC. 12. The Legislature finds the necessity for the enactment of the legislation contained in this act to be as follows: In many parts of the State, citizens of small means who are in need of borrowing money through loans secured by liens on real estate, especially, but not entirely, on deeds of trust, representing equities on their home property, are being required and induced to pay exorbitant and excessive fees and charges to persons negotiating said loans in the form of brokerage commissions and costs and expenses in great disproportion to the amount of money actually received. Such brokerage and charges are secured through the writing of loans for periods of one and two years, with final payments beyond the ability of the borrower to pay. This large final payment requires the borrower to renew or refinance the loan and thereby to pay another brokerage fee, and to incur additional costs and expenses. The total amount of the charges, costs and expenses, and interest become in the aggregate so high that such necessitous persons are faced with the loss of their security, or are finding themselves continuing in debt far beyond the normal amortization period of the loan. There is also evidence that the charges and costs and expenses are indirect means by which money-lenders may secure rates of interest beyond those authorized. Inasmuch as this legislation will require a change in

the business methods of those persons affected thereby, it is desirable that the legislation become effective on the first day of a calendar month. Inasmuch as the restrictions imposed by this legislation involve a new field of lending practices it is desirable that the legislation be in effect for a stated term in order that the Legislature may review the problems involved more thoroughly before determining the provisions of permanent legislation.

It is also desirable to make clear what transactions involving the public offering of promissory notes secured by liens on real estate are within the jurisdiction of the Real Estate Commissioner.

CHAPTER 1792

An act to amend Section 5010 of, and to add Sections 5011, 25006.1 and 25102.1 to the Corporations Code and Sections 10131.1, 10132.1, and 10134.1 to the Business and Professions Code, relating to the regulation of business activities, including the disposition of unclaimed property of dissolved corporations, and including securities in real estate transactions, declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 25006.1 is added to the Corporations Code, to read:

A real estate broker within the meaning of this part also includes a person who, for a compensation, sells or offers to sell, buys or offers to buy, negotiates the purchase or sale or exchange of a promissory note secured by a lien on real property, unless such note is sold to an underwriter or is one of a series of notes. Notwithstanding any other provisions of law, any person who, on the effective date of this act and for three (3) months prior thereto held an unrevoked and un-

suspended license as a securities broker under the provisions of the Corporations Code and was engaged in the business of buying, selling or exchanging promissory notes secured by liens on real property, shall, upon application made not later than 60 days after such effective date and payment of the appropriate fees to the Real Estate Commissioner on such form as said commissioner may prescribe, be issued an original real estate broker's license. Such original real estate broker's license shall be renewable for a period of two consecutive years before the holder thereof shall be required to take and pass the qualifying examination for an original real estate broker's license.

SEC. 4. A new Section 10132.1 is added to the Business and Professions Code, to read:

10132.1. A real estate salesman within the meaning of this part includes a natural person who for a compensation is employed by a licensed real estate broker to sell a promissory note secured by a lien on real property, unless such note is sold to an underwriter or is one of a series of notes. Notwithstanding any other provision of law, any person who, on the effective date of this act and for three (3) months prior thereto held an unrevoked and unsuspended license as a securities agent under the provisions of the Corporations Code and was employed to buy, sell or exchange promissory notes secured by liens on real property, shall, upon application made not later than 60 days after such effective date and payment of the appropriate fees to the Real Estate Commissioner on such form as said commissioner may prescribe, be issued an original real estate salesman's license. Such original real estate salesman's license shall be renewable for a period of two consecutive years before the holder thereof shall be required to take and pass the qualifying examination for an original real estate salesman's license.

SEC. 5. Section 10134 1 is added to the Business and Professions Code, to read:

One transaction

10134.1. One act, for a compensation, of selling or offering to sell, buying or offering to buy, or negotiating the purchase or sale or exchange of a promissory note secured by a lien on real property, and when such note is not sold to an underwriter or is not one of a series of notes, constitutes the person making such offer, sale, purchase or exchange a real estate broker or real estate salesman within the meaning of this part.

SEC. 6 Section 5010 of the Corporations Code is amended to read:

Corporation in process of dissolution, etc

5010. If there is any unclaimed deposit or dividend payable, or any debt owed, by a corporation in process of winding up or dissolution, to any person whose whereabouts is unknown to the directors, trustees, or other persons conducting the winding up, they may deposit the amount due such person with the State Treasurer or with some bank or trust company in this

State, at interest, if possible, if the deposit is made in a bank or trust company, for the benefit of those who appear and establish their claim thereto within three years from the time of deposit. The deposit shall be accompanied with a statement of the name of the person entitled to the deposit, dividend, or debt, the time when the deposit was made, the dividend declared, or the debt created, and any information possessed as to the residence of the person entitled to the deposit, dividend, or debt.

SEC. 7. Section 5011 is added to said code, to read:

Distribution of unclaimed property

5011. If no claimants have made satisfactory proof of title within three years from the time of deposit pursuant to Section 5009 or 5010, the property so unclaimed shall be distributed pro rata among those others who were shareholders at the time of distribution and their successors. Such unclaimed property may be distributed at any time among the known and existing shareholders if suitable bond or security is given to the depositary for the payment of any claimants who appear and establish their claims against the corporation within three years from the time of deposit.

Urgency

SEC. 8. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall therefore go into effect immediately. The facts constituting such necessity are:

A recent opinion of the Attorney General (No. 54/82) holds that promissory notes referred to in Section 25102 of the Corporations Code are securities within the meaning of the Corporate Securities Law and if offered to the public are not exempt from the law. The person making such an offer to the public is held in the opinion to be a security broker. This has been neither the practice nor the understanding of persons engaged either in the securities or the real estate business. Transactions in such promissory notes relating to real estate always have been conducted by real estate brokers, and not by security brokers. It is the practice of the public having such promissory notes to buy or sell to go to real estate brokers. As a result of the opinion of the Attorney General a divided authority exists as between the Division of Real Estate and the Department of Corporations and a cloud is placed upon the enforcement of the law. If established practices are in violation of law as interpreted by the Attorney General, then it will be necessary for the State to require dual licensing of many thousands of real estate licensees. Not to immediately alter the law as above proposed would impose a great hardship on the public, the real estate brokers and the departments involved.

CHAPTER 1793

An act to amend Sections 200 and 202 of the Welfare and Institutions Code, relating to county medical and hospital services.

Article 6. Municipal Park Improvement District Bonds

Municipal park improvement district

5350. Any portion of a municipality incorporated under the laws of this State may be formed into a municipal park improvement district for the purpose of creating an indebtedness, to be represented by bonds of the district, the proceeds from the sale of which shall be used for the acquisition or construction of any public park improvement or work which such municipality is authorized by law to acquire or construct, pursuant to this article.

"Work" or "improvement"

"Work" or "improvement" whether used singly or in combination mean and include any work or improvement for public park or recreation purposes together with the acquisition of property necessary and convenient therefor, as well as the construction, reconstruction and repair of all or any part of such work or improvement.

Petition

5351. Whenever a petition, verified by one or more persons and signed by not less than 10 percent of the qualified electors residing in the territory which is proposed to be formed into a municipal park improvement district, setting forth a general description of the improvement or work to be acquired or constructed and a general description of the exterior boundaries of such proposed district, shall have been filed in the office of the clerk of the legislative body of the city, and the genuineness of the signatures shall have been certified to by the city clerk, the legislative body may adopt an ordinance declaring its intention to call an election in the proposed district for the

purpose of submitting to the qualified electors of the district the proposition of authorizing the issuance and sale of bonds of the district in the manner and for the purpose set forth in the ordinance of intention. The legislative body shall have power to change or modify the boundaries of the district and the nature, character or extent of the proposed public improvement or work.

Ordinance

5352. The ordinance of intention shall contain:

(a) An accurate description of the exterior boundaries of the proposed municipal park district;

(b) A general description of the improvement or work proposed to be acquired or constructed;

(c) An estimate of the cost of the proposed improvement or work, and an estimate of the incidental expense in connection therewith;

In municipalities where no newspaper is published the ordinance shall be posted in three public places, and in case of posting notice the ordinance shall take effect two weeks after date of such posting of notice.

Protest

5354. The legislative body shall hear the protests at the time appointed or at any time to which the hearing may be adjourned, and pass upon the same, and its decision thereon shall be final and conclusive.

5355. If the protest is against the proposed work or improvement and the legislative body finds that the protest is made by the owners of more than one-half of the area of the property to be taxed for the work or improvement, and protests are not withdrawn so as to reduce the same to less than a majority, no further proceedings shall be taken for a period of one year from the date of the decision of the legislative body on the hearing.

Changes in boundaries, etc

5356. If any protests are against the extent of the district, or against the inclusion of property in the district, then the legislative body shall have power to make such changes in the boundaries of the proposed district as it shall find to be proper and advisable, and shall define and establish such boundaries, but such boundaries shall not include any territory which will not be benefited by the improvement or work. The legislative body shall not modify the boundaries except after notice of its intention given in the same manner as publication of the ordinance of intention to call the bond election, describing the proposed modification, and specifying a time for hearing objections to such modification, which time shall be at least 10 days after the publication of the notice, and the objections shall be heard and determined as are objections to the proposed improvement or work.

Election

5357. If the legislative body has denied all protests, it may call an election to be held within the district described in the ordinance or resolution calling the election, which description shall conform with any changes in boundaries that may have been made under Section 5356, and provide for the submission of the proposition of incurring a debt by the issuance of bonds of the district for the purposes set forth in the ordinance of intention. The ordinance or resolution calling such election, shall also recite the objects and purposes for which the proposed indebtedness is to be incurred, the nature of the improvement or work, the estimated cost, the estimated cost of the incidental expense, the amount of the principal of the indebtedness to be incurred and the rate of interest to be paid on such indebtedness; provided, however, that in its discretion the legislative body may recite in the ordinance or resolution a maximum rate of interest to be paid on such indebtedness not to exceed 7 per centum per annum, which rate when so recited shall not be exceeded in the issuance of bonds for such indebtedness; and said ordinance or resolution shall fix the date on which the election shall be held, the manner of holding the election and the manner of voting for or against the proposition.

Polling places, etc

5358. For the purposes of the bond election the legislative body shall establish in the ordinance, or resolution, one or more precincts within the boundaries of the district, designate a polling place and appoint one inspector, one judge and one clerk for each precinct. In all particulars not recited in such ordinance, or resolution, the election shall be held as provided by law for the holding of general municipal elections in such

city. The ordinance, or resolution, ordering the holding of the election shall be published in the same manner as was the ordinance of intention.

Authority to issue bonds

5359. If at such election two-thirds of all the voters voting, vote in favor of incurring the bonded indebtedness, then the legislative body shall thereupon be authorized and empowered to issue the bonds of the district for the amount provided for in the ordinance or resolution calling the election.

Form and interest

5360. The legislative body shall, subject to the provisions of this article, prescribe the form of the bonds, and of the interest coupons.

Manner of payment

5361. The bonds shall be payable in the following manner: a part, to be determined by the legislative body, and which shall not be less than one-fortieth part of the whole amount of such indebtedness, shall be payable every year, on a date and at a place to be fixed by the legislative body and designated in the bonds, together with the interest on all sums unpaid on such date, interest to be paid semiannually, until the whole of the indebtedness shall have been paid; provided, however, that the legislative body may in its discretion determine and fix a date for the earliest maturity of the principal of the bonds, not more than ten (10) years from the date of the issue of the bonds, but in this event the whole amount of such indebtedness must be made payable in equal annual parts in not to exceed 40 years from the time of contracting the same. The principal and interest on the bonds shall be paid by the city treasurer in the manner provided by law for the payment of bonds of the city. Such bonds shall not be an obligation of the municipality issuing them but shall be payable from the funds of the district as herein provided and neither the municipality nor any officer thereof shall be holden for payment otherwise of their principal and interest.

Denominations, etc

5362. The bonds shall be issued in such denomination as the legislative body may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000), and shall be signed by the chief executive of the municipality, or by such other officer thereof as the legislative body of the municipality shall, by resolution adopted by a two-thirds vote of all its members, authorize and designate for that purpose, and also signed by the treasurer thereof, and shall be countersigned by the clerk. The interest coupons on said bonds shall be numbered consecutively and signed by the treasurer of such municipality by his engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, the signature or countersignature shall nevertheless be valid and sufficient for all purposes, the same as if such officer had remained in office until the delivery of the bonds.

Sale, etc

5363. The legislative body may issue and sell the bonds at not less than par value, and the proceeds of the sale of the

bonds shall be placed in the treasury of the municipality to the credit of the proper district funds and shall be applied exclusively to the purposes and objects mentioned in the ordinance or resolution ordering the holding of the bond election and to the incidental expense in connection therewith.

Tax levy, etc

5364. CHAPTER 1797

An act to add Chapter 2.5 to Division 20 of, and to add Sections 24213 and 24214 to, the Health and Safety Code, creating the Bay Area Air Pollution Control District, setting forth its organization, powers, and duties, all relating to the control of air pollution.

[Approved by Governor July 7, 1955. Filed with Secretary of State July 8, 1955.]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 is added to the Health and Safety Code, to read:

CHAPTER 2.5. BAY AREA AIR POLLUTION CONTROL DISTRICT

Article 1. Short Title

24345. This chapter may be cited and shall be known as the Bay Area Air Pollution Control Law. Short title

Article 2. Declaration of Policy

24346. The Legislature finds and declares that the people of the State of California have a primary interest in atmospheric purity and freedom of the air from any air contaminants and that there is pollution of the atmosphere in certain portions of the State which is detrimental to the public peace, health, safety, and welfare of the people of the State. Legislative declaration

24346.1. The Legislature further finds and declares:

(a) That in portions of the State the air is polluted with smoke, charred paper, dust, soot, grime, carbon, noxious acids, fumes, gases, odors, particulate matter, and other air contaminants.

(b) That it is not practical or feasible to prevent or reduce such air contaminants by local county and city ordinances.

(c) That it is necessary, therefore, to provide for air pollution control districts in those portions of the State where regulations are necessary and feasible to reduce air contaminants

in order to safeguard life, health, property and the public welfare and to make possible the comfortable enjoyment of life and property.

Problems of air pollution

24346.2. The problems of air pollution are primarily regional and dependent upon factors of weather, topography, population, transportation, methods of waste disposal, and agricultural and industrial development. These factors vary greatly from area to area. The San Francisco Bay area, with its permanent temperature inversion layer, presents a special problem, distinct from that found in the remainder of the State. This chapter is enacted to provide a special district to control and suppress air pollution in that area.

Since the problem requiring this legislation is local and special due to atmospheric and geographic conditions, a general law cannot be made applicable so as to insure its effective alleviation. It is necessary, therefore, to create, by special law, an air pollution control district which includes only that area within the boundaries of the Counties of Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano, and Sonoma.

Definitions.

Article 3. Definitions

Local ordinances

24360.3. The Legislature does not, by the provisions of this chapter, intend to occupy the field.

The provisions of this chapter do not prohibit the enactment or enforcement by any county or city of any local ordinance stricter than the provisions of this article and stricter than the rules and regulations adopted pursuant to this chap-

24360.4. The provisions of this chapter do not supersede any such local county or city ordinance.

24360.5. If it should be held that the provisions of this chapter supersede the provisions of any local county or city ordinance, such suspension shall not bar the prosecution or punishment of any violation of such ordinance which violation was committed when such ordinance was in full force and effect.

24360.6. Nothing in this article limits in any way the power of the board to make needful orders, rules, and regulations pursuant to other provisions of this chapter. Nothing in this article permits any action contrary to any such order, rule, or regulation.

At any time after October 1, 1956, the board may by resolution declare it necessary that the district adopt rules and regulations to control the release of air contaminants in order to reduce or alleviate air pollution within the district. Such determination shall be based on surveys and studies made by the district and such other information as may be available to the district. The determination shall be made only after the board has considered the matter at a public hearing at which all interested persons are afforded the opportunity to appear and urge or oppose adoption of the resolution. The board shall give notice of its intention to adopt the resolution and give notice of the hearing by publication in a newspaper of general circulation in each of the counties within the district not less than 10 days prior to the hearing. General orders, etc., to reduce, etc., contaminants

24362.3. Whenever the board finds that the air in the district is so polluted as to cause discomfort or property damage at intervals to a substantial number of inhabitants of the district, the board may make and enforce such general orders, rules, and regulations as will reduce the amount of air contaminants released within the district, but no order, rule or regulation of the board shall specify the design of equipment, type of construction, or particular method to be used in reducing the release of air contaminants.

Request for information, analyses, etc

24362.4. The control officer at any time may require from any person subject to regulations of the board, such information or analyses as will disclose the nature, extent, quantity, or degree of air contaminants which are or may be discharged by such source, and may require that such disclosures be certified by a professional engineer registered in the State. In addition to such report, the control officer may designate and employ a registered professional engineer of his choice to make an independent study and report as to the nature, extent, quantity, and degree of any air contaminants which are or may be discharged from the source. An engineer so designated is authorized to inspect any article, machine, equipment or other contrivance necessary to make the inspection and report.

Failure to comply with request

24362.5. If any person within a reasonable time wilfully fails or refuses to furnish to the control officer information or analyses requested by such control officer, or if the control officer finds that any order, rule or regulation of the board is being violated after a reasonable time has been allowed for compliance, the control officer shall notify the hearing board of such facts and request a public hearing on the matter.

Hearing

24362.6. Within 30 days after the control officer has requested a public hearing, the hearing board shall hold such a hearing and give notice of the time and place of such hearing to the person cited, to the control officer and to such other persons as the hearing board deems should be notified, not less than 10 days before the date of the public hearing.

24362.7. After a public hearing, the hearing board may find that no violation exists, or may take any of the actions provided in Article 12 and Article 13 of this chapter.

Article 12. Variances

Construction

24365. The provisions of this chapter do not prohibit the discharge of air contaminants to a greater extent or for a longer time, or both, than permitted by Article 10 or by rules, regulations, or orders of the board, if not of a greater extent or longer time than the hearing board or a court after a hearing before the hearing board finds necessary pursuant to the provisions of this article.

Hearing

24365.1. The hearing board on its own motion or at the request of any person may hold a hearing to determine under

what conditions and to what extent a variance from the requirements established by Article 10 or by rules, regulations, or orders of the board is necessary and will be permitted.

Fees for variances, etc

24365.2. The board may provide, by regulation, a schedule of fees which will yield a sum not exceeding the estimated cost of the administration of this article, for the filing of applications for variances or to revoke or modify variances. All applicants shall pay the fees required by such regulations.

24365.3. All such fees shall be paid to the district treasurer to the credit of the district.

Notice

24365.4. The hearing board shall serve a notice of the time and place of a hearing to grant a variance upon the control officer and upon the applicant, if any, not less than 10 days prior to such hearing.

Where compliance will result in arbitrary, etc., taking of property

24365.5. If the hearing board finds that because of conditions beyond control compliance with Article 10 or with any rule, regulation, or order of the air pollution control board will result in an arbitrary and unreasonable taking of property or in the practical closing and elimination of any lawful business, occupation or activity, in either case without a sufficient corresponding benefit or advantage to the people in the reduction of air contamination, it shall prescribe other and different requirements not more onerous applicable to plants and equipment operated either by named classes of industries or persons, or to the operation of separate persons; provided, however, that no variance may permit or authorize the maintenance of a nuisance.

Discretion of hearing board

24365.6. In determining under what conditions and to what extent a variance from said requirements is necessary and will be permitted, the hearing board shall exercise a wide discretion in weighing the equities involved and the advantages and disadvantages to the residents of the district and to any lawful business, occupation or activity involved, resulting from requiring compliance with said requirements or resulting from granting a variance.

Revoking, etc., order

24365.7. The hearing board may revoke or modify by written order, after a public hearing held upon not less than 10 days' notice, any order permitting a variance.

Notice of hearing, etc

24365.8. The hearing board shall serve notice of the time and place of a hearing to revoke or modify any order permitting a variance not less than 10 days prior to such hearing upon the control officer, upon all persons who will be subjected to greater restrictions if such order is revoked or modified as proposed and upon all other persons interested or likely to be affected who have filed with the hearing board or control officer a written request for such notification.

Service of notice

24365.9. The hearing board shall serve a notice of the time and place of a hearing to grant a variance or to revoke or modify an order permitting a variance either by personal service or by first-class mail, postage prepaid. If either the identity or address of any person entitled to notice is unknown, the hearing board shall serve such person by publica-

tion of notice once in a newspaper of general circulation published within the district.

Duration of variance

24365.10. The hearing board in making any order permitting a variance may specify the time during which such order will be effective, in no event to exceed one year, but such variance may be continued from year to year without another hearing on the approval of the control officer.

Local ordinances

24365.11. If any local county or city ordinance has provided regulations similar to those in Article 10 or to any order, regulation, or rule prescribed by the board, and has provided for the granting of variances, and pursuant to such local ordinance a variance has been granted prior to notification of the district, such variance shall be continued as a variance of the hearing board for the time specified therein or one year, whichever is shorter, or until and unless prior to the expiration of such time the hearing board modifies or revokes such variance as provided in this article.

Article 13. Procedure

Hearing board-Procedure

24367. This article applies to all hearings which either Article 11 or Article 12 of this chapter provides shall be held by the hearing board.

24367.1. The hearing board shall select from its number a chairman.

24367.2. The hearing board may hold a hearing in bank or may designate two or one of their number to hold a hearing.

24367.3. If two or three members of the hearing board conduct a hearing the concurrence of two shall be necessary to a decision.

24367.4. The hearing board, not less than two being present, may, in its discretion, within 30 days rehear any matter which was decided by a single member.

Subpena of witnesses, etc.

24367.5. Whenever the members of the hearing board conducting any hearing deem it necessary to examine any person as a witness at such hearing, the chairman of the hearing board shall issue a subpena, in proper form, commanding such person to appear before it at a time and place specified to be examined as a witness. The subpena may require such person to produce all books, papers, and documents in his possession or under his control material to such hearing.

24367.6. A subpena to appear before the hearing board shall be served in the same manner as a subpena in a civil action.

Refusal to appear

24367.7. Whenever any person duly subpenaed to appear and give evidence or to produce any books and papers before the hearing board neglects or refuses to appear, or to produce any books and papers, as required by the subpena, or refuses to testify or to answer any question which the hearing board decides is proper and pertinent, he shall be deemed in contempt, and the hearing board shall report the fact to the judge of the superior court of the county in which the person resides.

Attachment of person

24367.8. Upon receipt of the report, the judge of the superior court shall issue an attachment directed to the sheriff of the county where the witness was required to appear and testify, commanding the sheriff to attach such person and forthwith bring him before the judge who ordered the attachment issued.

Punishment

24367.9. On the return of the attachment and the production of the body of the defendant, the judge has jurisdiction of the matter. The person charged may purge himself of the contempt in the same way, and the same proceeding shall be had, and the same penalties may be imposed, and the same punishment inflicted as in the case of a witness subpenaed to appear and give evidence on the trial of a civil cause before a superior court.

Oaths

24367.10. Every member of the hearing board may administer oaths in every hearing in which he participates, and at any hearing the hearing board may require all or any witnesses to be sworn before testifying.

Person in violation of board order, etc

24367.11. Whenever the hearing board finds that any person is in violation of any order, rule or regulation of the board, and that no variance is justified, and that reasonable time has been allowed for compliance, the hearing board shall certify such facts to the district attorney for the county in which the discharge originates, whereupon such district attorney shall petition the superior court in and for the county for the issuance of an injunction restraining such person or persons from continuing any activity causing or threatening a pollution or nuisance. The court shall thereupon issue an order directing the person to appear before the court and show cause why the injunction should not be issued. Thereafter the court shall have jurisdiction of the matter, and proceedings thereon shall be conducted in the same manner as in any other action brought for an injunction. The court shall receive in evidence any order, rule or regulation of the board, any transcript of the proceedings before the hearing board, and such further evidence as the court in its discretion deems proper.

Person aggrieved

24367.12. Any person deeming himself aggrieved, including the district, may maintain a special proceeding in a superior court within the district, to determine the reasonableness and legality of any action of the hearing board.

Special proceeding

24367.13. 24370.1. Before the fifteenth day of June of each year the board shall estimate and determine the amount of money required by the district for purposes of the district during the ensuing fiscal year and shall apportion this amount to the counties included within the district, one-half according to the relative value of the real estate of each county within the district as determined by the board and one-half in the proportion that the population of each county bears to the total population of the district. For the purposes of this section the board shall base its determination of the population of the several counties on the latest official information available to it. The total amount of money required by the district for district purposes during any one fiscal year shall not exceed one cent ($0 01) on each one hundred dollars ($100) of the assessed valuation of all the property included within the district.

1. The boards of supervisors of the counties containing more than fifty percent (50%) of the population of the entire district shall adopt a resolution stating that the existence of the district is no longer necessary or desirable for the public welfare, and announcing the intention to withdraw therefrom and to dissolve the district.

2. The resolutions so adopted shall be communicated to the clerks of the boards of supervisors of all counties comprising the district and also to the board

3. If it appears that the resolutions were adopted by the boards of supervisors in the counties desiring to withdraw, and that such counties contain more than fifty percent (50%) of the entire population in the district, the board, by resolution, shall call an election to determine the question of dissolution. The resolution shall state the time and place and purpose thereof, establish election precincts, designate polling places, and appoint election officers and, in all respects not provided in this section, the election shall be held and conducted, as nearly as practicable, in the same manner as elections for county officers in the counties. In the event such election shall be consolidated with any other election, the resolution calling the election hereunder need not describe the precincts, polling places, or appoint officers of election, but may refer to the ordinance, order, resolution or notice calling or providing for such other election, or listing or designating the precincts, polling places, and election officers therefor for the precincts, polling places and officers of election for the election called hereunder. Such resolution shall be published twice in some newspaper of general circulation in each county within the district and the first publication shall be at least 30 days prior to the date of election.

4. If a majority of the qualified electors voting at such election vote in favor of such dissolution, the board shall declare the results of the election, proceed to wind up the affairs of the district, and pay all indebtedness thereof. Any surplus funds shall be paid over to the counties in which the district lies in proportion to the amount last previously apportioned by the board to each county for purposes of levying taxes. The board shall exercise only such powers and secure such revenue from taxation as shall be necessary to wind up the affairs of the district.

5. Upon the completion of the process of winding up the affairs of the district, the board shall, by resolution, entered upon its minutes, declare the district dissolved. A certified copy of such resolution shall be filed with the county recorder of each county within the district and with the Secretary of

State. Upon the adoption of such resolution the district shall be dissolved.

In effect September 7, 1955

[Approved by Governor July 7, 1955. Filed with Secretary of State July 8, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Article 8 is added to Chapter 5, Part 2, Division 2, Title 3 of the Government Code, to read:

Article 8. Sale or Lease of Real Property

Conveyances

25520. The board of supervisors of any county shall receive in the name of the county conveyances for all property received and purchased by it, and shall make in the name of the county conveyances of all property belonging to the county and sold by it.

Sale or lease of property

25521. The board of supervisors of any county may sell or lease for a term not exceeding 99 years, without a vote of the electors of the county first being taken, any real property belonging to the county.

25522. The sale may be made for cash, or for part cash and upon such terms of deferred payments secured by purchase money, mortgage, or deed of trust as are determined by the action of the board of supervisors.

25523. The funds derived from the sale shall be used for capital outlay.

25524. Any lease may be made upon such consideration or for such rental, as is authorized by the action of the board of supervisors.

25525. Every sale or lease shall be made in the manner provided by this article.

Resolution

25526. Before ordering the sale or lease of any property the board of supervisors shall, in a regular open meeting, by a two-thirds vote of all its members, adopt a resolution, declaring its intention to sell the property, or a resolution declaring its intention to lease it, as the case may be. The resolution shall describe the property proposed to be sold, or leased, in such manner as to identify it and shall specify the minimum price, or rental, and the terms upon which it will be sold, or leased, and the commission, or rate thereof, if any, which the board will pay to a licensed real estate broker, either out of the minimum price, rental, or otherwise, and shall fix a time, not less than three weeks thereafter for a public meeting of the board of supervisors to be held at its regular place of meeting, at which sealed proposals to purchase or lease will be received and considered.

Commission to real estate broker

25527. If, in the discretion of the board, it is advisable to offer to pay a commission to a licensed real estate broker who is instrumental in obtaining any proposal, the commission shall be specified in the resolution. No commission shall be paid unless there is contained in or with the sealed proposal or stated in or with the oral bid, which is finally accepted, the name of the licensed real estate broker to whom it is to be paid, and the amount or rate thereof. Any commission shall, however, be paid only out of money received by the board from the sale or rental of the real property.

Notice of adoption of resolution, etc

25528. Notice of the adoption of the resolution and of the time and place of holding the meeting shall be given by posting copies of the resolution signed by the board or by a majority thereof in three public places in the county, not less than 15 days before the date of the meeting, and by publishing the notice not less than once a week for three successive weeks before the meeting in a newspaper of general circulation published in the county, if any such newspaper is published therein.

Publication of date of meeting

25529. Whenever it is proposed to lease real property and the board of supervisors unanimously determines in the resolution that in its opinion, the monthly rental value of the property does not exceed the sum of fifty dollars ($50), the resolution may, before the date of the meeting, be published in two successive issues of a weekly newspaper of general circulation or in five successive issues of a newspaper of general circulation, published daily.

Examination, etc., of proposals

25530. At the time and place fixed in the resolution for the meeting of the board of supervisors, all sealed proposals which have been received shall, in public session, be opened, exam-

ined, and declared by the board. Of the proposals submitted which conform to all terms and conditions specified in the resolution of intention to sell or to lease and which are made by responsible bidders, the proposal which is the highest shall be finally accepted, unless a higher oral bid is accepted or the board rejects all bids. In determining which is the highest sealed proposal, the board shall not subtract therefrom the commission which the proposal provides shall be paid to a licensed real estate broker. If the highest bid provides for such commission, the board shall pay to the broker either the commission specified in the resolution, as provided in Section 25527, or, if no commission was so specified, then a reasonable compensation for the services of the broker.

Call for oral bids

25531. Before accepting any written proposal, the board shall call for oral bids. If, upon the call for oral bidding, any responsible person offers to purchase the property or to lease the property, as the case may be, upon the terms and conditions specified in the resolution, for a price or rental exceeding by at least 5 percent, the highest written proposal which is made by a responsible person, such highest oral bid shall be finally accepted. In determining which is the highest oral bid the board shall not subtract therefrom any commission to be allowed to a licensed real estate broker, stated in or with the oral bid, but the board shall allow a commission at the rate specified in the resolution, as prescribed by Section 25527, or, if no commission was so specified, then a reasonable compensation for the services of the broker. Such commission shall not exceed one-half the difference between the highest sealed proposal and such highest oral bid, except that if both the highest sealed proposal and the highest oral bid were procured by licensed real estate brokers then the commission shall be divided between them in the manner provided by Section 25532.

Higher oral bid

25532. In the event of a sale on a higher oral bid to a purchaser procured by a licensed real estate broker, other than the broker who submitted the highest written proposal, and who is qualified as provided in Section 25527 of this code, the board shall allow a commission on the full amount for which the sale is confirmed. One-half of the commission on the amount of the highest written proposal shall be paid to the broker who submitted it, and the balance of the commission on the purchase price to the broker who procured the purchaser to whom the sale was confirmed.

Final acceptance

25533. The final acceptance by the board of supervisors may be made either at the same session or at any adjourned session of the same meeting held within the 10 days next following.

Rejecting of bids

25534. The board of supervisors may at the session, if it deems such action to be for the best public interest, reject any and all bids, either written or oral, and withdraw the property from sale or lease.

Resolution of acceptance

25535. Any resolution of acceptance of any bid made by the board of supervisors authorizes and directs the president

of the board of supervisors, or other presiding officer, or the members thereof, to execute a deed or lease and to deliver it upon performance and compliance by the purchaser or lessee of all the terms or conditions of his contract to be performed concurrently therewith.

Construction

25536. Nothing in this article shall prevent the board of supervisors of any county from acquiring, leasing or subleasing property pursuant to Section 1261 of the Military and Veterans Code.

The fee for a caterer's permit shall be one hun-

dred dollars ($100) per year, and such permit may be renewable annually at the same time as the licensee's license. The caterer's permit shall be transferable as a part of the license.

3. That the premises are not maintained for the purpose of keeping, serving, consuming or otherwise disposing of alcoholic beverages.

20654. Subject to minimum payments fixed by the board, a member may redeposit at any time in the Retirement Fund, in one or more sums or in not to exceed 60 monthly or 120 semimonthly payments, (1) an amount equal to the accumulated contributions that he has withdrawn at one or more terminations of service, but in reverse chronological order in which they occurred, and (2) an amount equal to the interest which would have been credited to his account to the first day of the calendar month following the date the election to redeposit is received in the office of the system had such contributions not been withdrawn, and (3) if he elects to redeposit in other than one sum, interest on the unpaid balance of the amount payable to the Retirement Fund, beginning on such first day, at the rate of interest currently being used from time to time under the system.

20655. If a member elects to redeposit withdrawn contributions as provided in Section 20654, his normal rate of contribution beginning on the first day of the calendar month following the date his election is received in the office of the system shall be based on an age determined by adding the number of completed years of his absence from membership, beginning with the earliest termination of his membership included in such redeposit, to the age upon which his normal rate of contribution, as it was prior to the termination, was based. His membership is the same as if it were unbroken by such termination. The same percentage of his final compensation per year of service which, prior to such termination, his contributions and those of his employer were calculated to provide upon retirement for service at his lowest optional service retirement age without reduced benefit shall be used in the calculation of his normal rate of contribution at reinstatement. That percentage shall be adjusted for any change in that retirement age made after the member left state service.

SEC. 4. Section 20656 of said code is amended to read:

Failure to elect or redeposit

20656. Upon re-entering this system after a termination of his membership, if a member does not elect to redeposit withdrawn contributions as provided in Section 20654 or, having so elected, subsequently does not make such redeposit, he re-enters as a new member without credit for any service except the prior service credited to him as a state member before termination, and his normal rate of contribution beginning on his re-entering the system is that for his age at reentrance.

12582. "Trustee" means (a) any individual, group of individuals, corporation, or other legal entity holding property in trust pursuant to any charitable trust, (b) any corporation which has accepted property to be used for a particular charitable corporate purpose as distinguished from the general purposes of the corporation, and (c) a corporation formed for the administration of a charitable trust, pursuant to the directions of the settlor or at the instance of the trustee.

This article does not apply to the United States, any state, territory, or possession of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or to any of their agencies or governmental subdivisions, to any religious corporation sole or other religious corporation or organization which holds property for religious purposes, or to any officer, director, or trustee thereof who holds property for like purposes, to a cemetery corporation regulated under Chapter 19 of Division 3 of the Business and Professions Code, or to a charitable corporation organized and operated primarily for educational, religious, scientific, or hospital purposes.

Register of trustees

12584. The Attorney General shall establish and maintain a register of trustees subject to this article and of the particular trust or other relationship under which they hold property for charitable purposes and, to that end, may conduct whatever investigation is necessary, and shall obtain from public records, court officers, taxing authorities, trustees, and other sources, whatever information, copies of instruments, reports, and records are needed for the establishment and maintenance of the register.

Filing copy of trust instrument

12585. Every trustee subject to this article who has received property for charitable purposes shall file with the Attorney General, within six months after any part of the income or principal is authorized or required to be applied to a charitable purpose, a copy of the instrument providing for his title, powers or duties. The Attorney General may suspend the filing of reports as to a particular charitable trust or relationship for a reasonable, specifically designated time upon written application of the trustee filed with the Attorney General and after the Attorney General has filed in the register of charitable trusts a written statement that the interests of the beneficiaries will not be prejudiced thereby and that periodic reports are not required for proper supervision by his office.

(c) A copy of an account filed by the trustee in any court having jurisdiction of the trust or other relationship, if the account substantially complies with the rules and regulations of the Attorney General, may be filed as a report required by this section.

Date of filing

Such order shall have the same force and effect as a subpena and, upon application of the Attorney General, obedience to the order may be enforced by the superior court in the county where the person receiving it resides or is found, in the same manner as though the notice were a subpena. The court, after hearing, for cause, and upon application of any person aggrieved by the order, shall have the right to alter, amend, revise, suspend or postpone all or any part of its provisions.

A finding by the Governor that it is impracticable to conform rules and regulations to those governing the United States Army, United States Air Force or United States Navy shall be conclusive and such rules and regulations shall have force and effect over inconsistent rules, regulations, directives, manuals or practices governing any of the armed forces of the United States.

223. Persons eligible for insurance

(a) The persons eligible for insurance shall be all of the employees of the employers or all of the members of the unions, or all of any class or classes thereof determined by conditions pertaining to their employment, or to membership in the unions, or to both. The policy may provide that the term "employees" shall include retired employees, and the individual proprietor or partners if an employer is an individual proprietor or a partnership. No director of a corporate employer shall be eligible for insurance under the policy unless such person is otherwise eligible as a bona fide employee of the corporation by performing services other than the usual duties of a director. No individual proprietor or partner shall be eligible for insurance under the policy unless he is actively engaged in and devotes a substantial part of his time to the conduct of the business of the proprietor or partnership. The policy may provide that the term "employees" shall include the trustees or their employees, or both, if their duties are principally connected with such trusteeship.

Premiums

(b) The premium for the policy shall be paid by the trustees either: (a) wholly from funds contributed by the employer or employers of the insured persons, or by the union or unions, or by both; or (b) partly from such funds and partly from funds contributed by either all of the insured persons or by one or more classes thereof. No policy may be issued on which the entire premium is to be derived from funds contributed by the insured persons specifically for their insurance.

Minimum coverage, etc.

A policy on which part of the premium is to be derived from funds contributed by all of the insured persons may be placed in force only if at least 75 percent of the then eligible employees of any employer unit participating in the trust, or 75 percent of the then eligible members of any participating union if no employer unit is participating in the trust, elect to make the required contributions. A policy on which no part of the premium is to be derived from funds contributed by the

insured persons must insure all eligible persons. A policy on which part of the premium is to be derived from funds contributed by one or more classes of insured persons but not from all the insured persons, must insure all eligible persons from whom no contributions are required and must extend insurance to each class from whom contributions are required when 75 percent of the then eligible persons of any such class elect to make the required contributions. Any eligible person as to whom evidence of individual insurability is not satisfactory to the insurer shall be excluded.

(c) The policy must cover at the date of issue at least 50 persons. If the fund is established by the members of an association of employers the policy may be issued only if (i) either (a) the participating employers constitute at date of issue at least 60 percent of those employer members whose employees are not already covered for group life insurance or (b) the total number of persons covered at date of issue exceeds 600; and (ii) the policy shall not require that, if a participating employer discontinues membership in the association, the insurance of his employees shall cease solely by reason of such discontinuance.

Amounts of insurance

(d) The amounts of insurance under the policy must be based upon some plan precluding individual selection by the insured persons or by the trustees, employers or unions. No policy may be issued which provides term insurance on any person which together with any other term insurance under any group life insurance policy or policies issued to the employers, or any of them, or to the trustee of a fund established in whole or in part by the employers, or any of them, exceeds twenty thousand dollars ($20,000).

Medical examination

Such insurance may be issued with or without medical examination. For the purpose of this section the word "industry" shall not include licensed professions, such as medicine, dentistry, pharmacy, law and accountancy.

Any sale of such property shall be made in the same manner that property is sold under execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

In the event that the money so demanded is not paid, the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless

the provisions of this section shall have been fully complied with. There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy shall not endorse said check, draft, money order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

The board may make such rules for the enforcement of the provisions of Section 32202 as it deems necessary to adequately insure the collection of the tax.

Article 2. Presumptions and Exemptions

Chapter 6. Determinations

Article 1. Returns and Payments

Remittance of tax

32251. The tax is a direct obligation of the taxpayer and is due and payable monthly on or before the fifteenth day of each calendar month. Each taxpayer, on or before the fifteenth day of each month, shall make out a tax return for the preceding calendar month, in such form as is prescribed by the board, showing the amount of beer or wine or distilled spirits sold in this State, the amount of tax for the period covered by the return, and such other information as the board deems necessary. The taxpayer shall deliver the return, together with a remittance of the amount of tax due, to the office of the board on or before the fifteenth day of the month.

Penalty

32252. If the tax is not paid to the board within the time prescribed for the payment of the tax, a penalty of 5 percent of the amount of the tax shall be added thereto on account of the delinquency.

Time extension

32253. The board for good cause may extend for not to exceed 30 days the time for making any report or paying any tax. Any person to whom an extension is granted and who pays the tax within the period for which the extension is granted shall pay, in addition to the tax, interest at the rate of 6 percent per annum from the date the tax would have been due without the extension to the date of payment.

Interest

32254. All taxes not paid on the date when due and payable shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from and after that date until paid.

Article 2. Deficiency Determinations

Deficiency determinations

32271. If the board is dissatisfied with the return or returns filed or amount of tax paid to the State by any taxpayer, it may compute and determine the amount to be paid based upon any information available to it. One or more additional determinations may be made of the amount of tax due for one or for more than one month. The amount of tax so determined shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been reported until the date of payment. In making a determination, the board may offset overpayment for a month or months against underpayments for another month or months and against the interest and penalties on the underpayments. If any part of the deficiency for which a determination of an additional amount due is made is found to have been occasioned by negligence or intentional disregard of this part or authorized rules, a penalty of 10 percent of the amount of the determination shall be added, plus interest as above provided. If any part of the deficiency for which a determination of an additional amount due is made is found to be

occasioned by fraud or an intent to evade this part or authorized rules, a penalty of 25 percent of the amount of the determination shall be added, plus interest as above provided. The board shall give to the taxpayer written notice of its determination. The notice may be served personally or by mail; if by mail, service shall be made pursuant to Section 1013 of the Code of Civil Procedure and shall be addressed to the taxpayer at his address as it appears in the records of the board, but the service shall be deemed complete at the time of the deposit of the notice in the mail without extension of time on account of the distance between the place of deposit and the place of address.

Fraudulent returns, etc

32272. Except in the case of a fraudulent return or neglect or refusal to make a return, every notice of a determination of an additional amount due shall be given within three years after the date when the amount should have been returned.

Article 3. Determinations if No Return Made

Determinations where no return made

32291. If any taxpayer fails to make a return required by this part, the board shall make an estimate, based upon any information available to it, for the month or months with respect to which the taxpayer failed to make a return of all alcoholic beverages sold in this State by him. Upon the basis of this estimate the board shall compute and determine the amount required to be paid to the State, adding to the sum thus fixed a penalty equal to 5 percent thereof. One or more determinations may be made of the amount of tax due for one or for more than one month. The amount of tax so determined shall bear interest at the rate of one-half of 1 percent per month, or fraction thereof, from the fifteenth day after the close of the month for which the amount of the tax, or any portion thereof, should have been returned until the date of payment. In making a determination the board may offset overpayments for a month or months against underpayments for another month or months and against interest and penalties on the underpayments. If any part of the deficiency for which a determination is made is due to negligence or intentional disregard of this part or authorized rules, an additional penalty of 10 percent of the amount of the determination shall be added. If the neglect or refusal of a taxpayer to file a return as required by this part was due to fraud or an intent to evade the tax, there shall be added to the tax a penalty equal to 25 percent thereof in addition to the 5 percent penalty. The board shall give to the taxpayer written notice of the estimate and determination, the notice to be served personally or by mail in the same manner as prescribed for service of notice by Section 32271.

Penalty

32292. Except as provided in Section 32253, a penalty of five dollars ($5) shall be imposed on any taxpayer who fails to file a tax return within the time prescribed for the filing of the

return, but this penalty shall not be in addition to the 5 percent penalty provided under Section 32252 for the late payment of tax if the 5 percent penalty exceeds five dollars ($5).

Article 4. Redeterminations

Redeterminations

32301. Any person from whom an amount is determined to be due under Articles 2 or 3 of this chapter or any person directly interested may petition for a redetermination thereof within 15 days after service upon him of notice of the determination. If a petition for redetermination is not filed within the 15-day period, the amount determined to be due becomes final at the expiration thereof. If a petition for redetermination is filed within the 15-day period, the board shall reconsider the amount determined to be due, and if the person has so requested in his petition, shall grant him an oral hearing and shall give him 10 days' notice of the time and place of the hearing. The board may continue the hearing from time to time as may be necessary.

The board may decrease or increase the amount of the determination. The amount of the determination may be increased, however, only if claim for the increase is asserted by the board at or before the hearing.

The order or decision of the board upon a petition for redetermination shall become final 15 days after service upon the petitioner of notice thereof.

All amounts determined to be due by the board under Articles 2 or 3 of this chapter are due and payable at the time they become final, and if not paid when due and payable, there shall be added thereto a penalty of 10 percent of the amount determined to be due.

Any notice required by this section shall be served personally or by mail in the same manner as prescribed for service of notice by Section 32271.

Article 5. Jeopardy Determinations

Jeopardy determinations

32311. If the board believes that the collection of any amount of tax will be jeopardized by delay, it shall thereupon make a determination of the amount of tax due, noting that fact upon the determination, and the amount of tax shall be immediately due and payable. If the amount of the tax, interest, and penalty specified in the jeopardy determination is not paid, or a petition for redetermination is not filed, within 10 days after the service upon the taxpayer of notice of the determination, the determination becomes final, and the delinquency penalty and interest provided in Sections 32252 and 32254 shall attach to the amount of tax specified therein.

Petition for redetermination

32312. The taxpayer against whom a jeopardy determination is made may file a petition for the redetermination thereof with the board within 10 days after the service upon him of notice of the determination, but he shall within the 10-day

period deposit with the board such security as it deems necessary to insure compliance with the provisions of this part. The security may be sold by the board at public sale if it becomes necessary in order to recover any amount due under this part. Notice of the sale may be served upon the person who deposited the security personally or by mail in the same manner as prescribed for service of notice by Section 32271. Upon any such sale, the surplus, if any, above the amount due under this division shall be returned to the person who deposited the security.

CHAPTER 7. COLLECTION OF TAX

Article 1. Suit for Tax

Suit for tax

32351. The board may bring such legal actions as are necessary to collect any deficiency in the tax required to be paid, and, upon the board's request, the Attorney General shall bring the actions.

Evidence

32352. In any suit brought to enforce the rights of the State with respect to taxes, a certificate by the board showing the delinquency shall be prima facie evidence of the levy of the tax, of the delinquency of the amount of tax, interest, and penalty set forth therein, and of compliance by the board with all provisions of this part in relation to the computation and levy of the tax. In the action a writ of attachment may issue, and no bond or affidavit previous to the issuing of the attachment shall be required.

Article 2. Judgment for Tax

Certificate

32361. Whenever any tax, interest, or penalty is not paid when due, the board may file in the office of the County Clerk of Sacramento County or any other county a certificate specifying the amount of the tax, interest, and penalty due, the name and last known address of the taxpayer liable for it, that the board has complied with all the provisions of this part in relation to the computation and levy of the tax, and requesting that judgment be entered against the taxpayer in the amount of the tax, interest, and penalty set forth in the certificate. The county clerk immediately upon the filing of the certificate shall enter a judgment for the people of the State of California against the taxpayer in the amount of the tax, interest, and penalty set forth in the certificate. The judgment may be filed by the county clerk in a loose-leaf book entitled "Special Judgment for State Excise Tax."

Judgment

Lien

32362. An abstract or copy of the judgment entered under Section 32361 may be recorded with the county recorder of any county, and from the time of such recording, the amount of the taxes, interest, and penalty set forth in the judgment shall constitute a lien upon all the real property owned by the taxpayer in the county or which he may acquire afterwards and before the lien expires, which lien shall have the force,

effect, and priority of a judgment lien. Execution shall issue upon such a judgment upon the request of the board in the same manner as execution may issue upon other judgments, and sales shall be held under the execution as prescribed in the Code of Civil Procedure. In all proceedings under this section the board shall act on behalf of the people of the State of California.

Article 3. Seizure and Sale

Seizure and sale of property

32371. Whenever any taxpayer is delinquent in the payment of the tax, the board or its authorized representative may seize any property, real or personal, of the taxpayer, and sell at public auction the property seized, or a sufficient portion thereof, to pay the tax due, together with any penalties imposed for the delinquency and all costs that have been incurred on account of the seizure and sale.

Notice

32372. Written notice of the intended sale, and the time and place thereof, shall be given to the delinquent taxpayer and to all persons appearing of record to have an interest in the property at least 10 days before the date set for the sale by enclosing the notice in an envelope addressed to the taxpayer at his last known residence or place of business in this State as appears upon the records of the board, if any, and depositing it in the United States registered mail, postage prepaid. The notice shall also be published for at least 10 days before the date set for the sale in a newspaper of general circulation published in the county in which the property seized is to be sold. If there is no newspaper of general circulation in the county, the notice shall be posted in three public places in the county for the 10-day period. The notice shall contain a description of the property to be sold, a statement of the amount of the taxes, penalties, and costs, the name of the taxpayer, and the further statement that unless the taxes, penalties, and costs are paid on or before the time fixed in the notice for the sale, the property, or so much thereof as may be necessary, will be sold in accordance with law and the notice.

Publication

Contents of notice

Sale

32373. At the sale the property shall be sold by the board or by its authorized agent in accordance with law and the notice, and the board shall deliver to the purchaser a bill of sale for the personal property and a deed for any real property sold. The bill of sale or deed vests title in the purchaser subject to a right of redemption as prescribed in the Code of Civil Procedure upon sales of real property on execution. The unsold portion of any property seized may be left at the place of sale at the risk of the taxpayer.

Disposition of excess proceeds

32374. If upon the sale the moneys received exceed the amount of all license taxes, penalties, and costs due the State from the taxpayer, the board shall return the excess to him and obtain his receipt. If any person having an interest in or lien upon the property files with the board prior to the sale notice of his interest, the board shall withhold any excess pending a determination of the rights of the respective parties

thereto by a court of competent jurisdiction. If for any reason the receipt of the taxpayer is not available, the board shall deposit the excess moneys with the State Treasurer, as trustee for the owner, subject to the order of the taxpayer, his heirs, successors, or assigns.

Article 4. Miscellaneous

Notice of delinquency

32381. If any taxpayer is delinquent in the payment of any obligations imposed by this part, the board may give notice of the amount of the delinquency by registered mail to all persons having in their possession or under their control any credits or other personal property belonging to the taxpayer, or owing any debts to the taxpayer, at the time of the receipt by them of the notice. Thereafter any person so notified shall neither transfer nor make other disposition of such credits, personal property, or debts until the board has consented to a transfer or disposition or until 20 days have elapsed from and after the receipt of the notice. All persons so notified shall, within five days after the receipt of the notice, advise the board of all such credits, personal property, or debts, in their possession, under their control, or owing by them, as the case may be.

Remedies cumulative

32382. The remedies of the State provided for in this chapter are cumulative, and no action taken by the board or Attorney General constitutes an election by the State or any of its officers to pursue any remedy to the exclusion of any other remedy for which provision is made in this part.

Priority

32383. Whenever any person liable for any tax is insolvent, whenever any person makes a voluntary assignment of his assets, whenever the estate of a deceased person in the hands of executors, administrators, or heirs is insufficient to pay all the debts due from the deceased, or whenever the estate and effects of an absconding, concealed, or absent person are levied upon by process of law, the tax, together with interest and penalties attaching thereto, shall be first satisfied. This section shall not be construed to give the State a preference over any recorded lien which attached prior to the date when the tax became a lien.

Chapter 8. Overpayments and Refunds

Article 1. Claim for Refund

Refund

32401. If the board determines that any amount of tax, penalty, or interest has been paid more than once or has been erroneously or illegally collected or computed, the board shall set forth that fact in the records of the board and shall certify to the State Board of Control the amount collected in excess of what was legally due and the person from whom it was collected or by whom paid. If approved by the State Board of Control the excess amount collected or paid shall be credited

on any amounts then due from the person under this part, and the balance shall be refunded to the person, or his successors, administrators, or executors.

Claim

32402. No refund shall be allowed unless a claim therefor is filed with the State Board of Equalization within three years from the fifteenth day after the close of the monthly period for which the overpayment was made, or, with respect to determinations made under Articles 2 or 3 of Chapter 6 of this part, within six months after the determinations become final, whichever period expires the later. No credit shall be allowed after the expiration of the period specified for filing claims for refund unless a claim for credit is filed with the board within such period. Every claim for refund or credit shall be in writing and shall state the specific grounds upon which the claim is founded.

Effect of failure to file claim

32403. Failure to file a claim within the time prescribed in this article constitutes a waiver of all demands against the State on account of the overpayment.

Notice of disallowance

32404. Within 30 days after disallowing any claim in whole or in part, the board shall serve written notice of its action on the claimant, such service to be made as provided by Section 32271.

Interest

32405. Interest shall be computed, allowed, and paid upon any overpayment of any amount of tax at the rate of one-half of 1 percent per month from the fifteenth day of the calendar month following the monthly period for which the overpayment was made, but no refund or credit shall be made of any interest imposed upon the claimant with respect to the amount being refunded or credited.

The interest shall be paid:

(a) In the case of a refund, to the fifteenth day of the calendar month following the date upon which the claimant is notified by the board that a claim may be filed or the date upon which the claim is certified to the State Board of Control, whichever date is the earlier.

(b) In the case of a credit, to the same date as that to which interest is computed on the tax or amount against which the credit is applied.

32406. If the board determines that any overpayment has been made intentionally or by reason of carelessness, it shall not allow any interest thereon.

Article 2. Suit for Refund

Collection of tax not to be prevented

32411. No injunction or writ of mandate or other legal or equitable process shall issue in any suit, action, or proceeding in any court against this State or against any officer of the State to prevent or enjoin the collection of any tax sought to be collected.

Filing of claim necessary for suit

32412. No suit or proceeding shall be maintained in any court for the recovery of any amount alleged to have been erroneously or illegally assessed or collected unless a claim for refund or credit has been duly filed.

Bringing of action

32413. Within 90 days after the mailing of the notice of the board's action upon a claim for refund or credit, the claimant may bring an action against the board on the grounds set forth in the claim in a court of competent jurisdiction in the County of Sacramento for the recovery of the whole or any part of the amount with respect to which the claim has been disallowed.

Effect of failure to notify claimant

32414. If the board fails to mail notice of action on a claim within six months after the claim is filed, the claimant may, prior to the mailing of notice by the board, consider the claim disallowed and bring an action against the board on the grounds set forth in the claim for the recovery of the whole or any part of the amount claimed as an overpayment.

Failure to bring action as waiver

32415. Failure to bring suit or action within the time specified in this article constitutes a waiver of all demands against the State on account of any alleged overpayments.

Judgment

32416. If judgment is rendered for the plaintiff, the amount of the judgment shall first be credited on any taxes due from the plaintiff, and the balance shall be refunded to the plaintiff.

Interest

32417. In any judgment, interest shall be allowed at the rate of 6 percent per annum upon the amount found to have been illegally collected from the date of payment of the amount to the date of allowance of credit on account of the judgment or to a date preceding the date of the refund warrant by not more than 30 days, the date to be determined by the board.

Taxpayer *only may* bring action

32418. A judgment shall not be rendered in favor of the plaintiff in any action brought against the board to recover any tax paid when the action is brought by or in the name of an assignee of the taxpayer paying the tax or by any person other than the person who has paid the tax.

Article 3. Recovery of Erroneous Refunds

Recovery of erroneous refunds

32431. The Controller may recover any refund or part thereof which is erroneously made and any credit or part thereof which is erroneously allowed in an action brought in a court of competent jurisdiction in the County of Sacramento in the name of the people of the State of California, and the action shall be tried in the County of Sacramento unless the court, with the consent of the Attorney General, orders a change of place of trial. The Attorney General shall prosecute the action, and the provisions of the Code of Civil Procedure relating to service of summons, pleadings, proofs, trials, and appeals are applicable to the proceedings.

Article 4. Cancellations

Cancellations

32440. If any amount has been illegally determined, the board shall certify this fact to the State Board of Control and the latter shall authorize the cancellation of the amount upon the records of the board.

CHAPTER 9. ADMINISTRATION

Enforcement

32451. The board shall enforce the provisions of this part and may prescribe, adopt, and enforce rules and regulations relating to the administration and enforcement of this part.

Additional reports

32452. In addition to any other reports required under this part, the board may, by rule and otherwise, require additional, other, or supplemental reports from alcoholic beverage licensees, common and private carriers, and other persons and prescribe the form, including verification, of the information to be given on, and the times for filing of, such additional, other, or supplemental reports. The failure or refusal of any person to render the reports required under this section is a misdemeanor.

Examination of books and records

32453. The board may make such examinations of the books and records of any person selling, manufacturing, warehousing, or transporting alcoholic beverages as it may deem necessary in carrying out the provisions of this part.

Employees

32454. The board may employ accountants, auditors, investigators and other expert and clerical assistance necessary to enforce its powers and perform its duties under this part.

CHAPTER 10. DISPOSITION OF PROCEEDS

Disposition of taxes, interest, and penalties

32501. All taxes, interest, and penalties imposed and all amounts of tax required to be paid to the State under this part shall be paid to the board in the form of remittances payable to the State Board of Equalization of the State of California. The board shall transmit the payments to the State Treasurer to be deposited in the State Treasury to the credit of the Alcohol Beverage Control Fund.

32502. The money in the fund shall, upon order of the Controller, be drawn therefrom for refunds under this part or be transferred to the General Fund of the State.

CHAPTER 11. VIOLATIONS

Penalties

32551. Any person who knowingly or wilfully files a false tax return with the board, and any person who refuses to permit the board or any of its representatives to make any inspection or examination for which provision is made in this part, or who fails to keep books of account as prescribed by the board, or who fails to preserve such books for the inspection of the board for such time as the board deems necessary, or who alters, cancels, or obliterates entries in such books of account for the purpose of falsifying the records of sales of alcoholic beverages made under this part, is guilty of a misdemeanor and shall be punished by a fine of not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000), or by imprisonment in the county jail for not less than one month nor more than six months, or by both such fine and imprisonment.

Liberal construction. Severability

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall take effect immediately. The facts constituting such necessity are: Urgency

There is presently an unprecedented population growth under way within the State and the cities therein. In many cities this growth has caused the facilities within the commercial area of a city to be taxed beyond the general financial means of the city or for which no general benefit exists beyond

the commercial area therein. The proceeds of sales taxes are derived from the sale of merchandise within such commercial areas and constitute an appropriate means of revenue for relieving the conditions existing within said commercial areas.

Other improvements required by reason of said growth are of a more general benefit. However, by reason of said unprecedented growth, property taxes have seriously increased and it is required that other sources of revenue be provided to pay the costs of needed improvements.

SECTION 1. Chapter 8 is added to Part 1 of Division 6 of the Public Resources Code, to read:

CHAPTER 8. SMALL CRAFT HARBORS

Acquisition, etc by State Lands Commission

6475. The State Lands Commission is the agency of the State designated to, and shall have power to, acquire, construct, develop, improve, and maintain and operate small craft harbors, and facilities in connection therewith, along the coast of this State or on or adjacent to bays, inlets, or estuaries thereof, or on or adjacent to navigable bodies of water, after it has prepared and the Legislature has approved any of the master plans specified in Section 6476.

Master plans

6476. The commission shall prepare master plans by counties for the development and improvement of small craft harbors. In preparing such master plans the commission shall take into consideration, correlate, and coordinate, as nearly as feasible, such master plans of shore line development and improvement as have been or will be drawn up by the various counties of the State. The commission may alter, change, or amend master plans for development and improvement of small craft harbors but such alterations, changes or amendments shall be made in collaboration and cooperation with the appropriate authorities of the affected counties and cities. When completed the commission shall submit the master plan for any county to the Legislature for its consideration.

Acquisition of property

6477. For the purposes of this chapter, the commission may acquire by purchase or by condemnation proceedings brought in the name of the people, title to or any interest in real and personal property which the commission deems necessary or proper for the development or improvement of small craft harbors.

Development and maintenance of waterway routes

6478. The commission may develop and maintain waterway routes along the tidal and inland navigable waters of the State, for the purpose of navigation by small craft.

Cooperation with other agencies

6479. In the performance of its functions under this chapter, the commission may cooperate or contract with the State

Park Commission or any other state agency, the Corps of Engineers of the Department of the Army of the United States, or with any other federal agency, or with any county or city, upon such terms and conditions, and in such manner as will be for the best interests of the State and further the purposes of this chapter.

Rules and regulations

6480. The commission may establish rules and regulations relating to the operation and maintenance of small craft harbors under its jurisdiction. It may enter into contracts with county or city agencies, persons, firms, or corporations to maintain and operate small craft harbor facilities and concessions in connection with such small craft harbors.

Contracts

Acceptance of gifts, devises, etc

6491. For the purposes of this chapter, the commission may receive and accept for the State any gift, devise, grant, or other conveyance of title to or any interest in real property. It may receive and accept gifts, donations, contributions, or bequests of money to be used in acquiring title to or any interest in real property, or in improving it in connection with the development and operation of small craft harbors. It may also receive and accept personal property for such purposes.

Fees, rentals, etc

6492. The commission, wherever in its judgment it is practicable to do so, may collect fees, rentals, and other return for the use of any small craft harbor under its jurisdiction, the amounts to be determined by the commission, and to be paid into the Small Craft Harbor Revolving Fund.

Tide and submerged lands

6493. Any ungranted tidelands and submerged lands owned by the State and under the jurisdiction of the commission may be used by the commission for the purposes of this chapter.

Cooperation with local agencies

6494. The commission may cooperate with, advise, and assist local agencies in developing and operating small craft harbors on tide and submerged lands which have been granted to such agencies.

Use of appropriations

6495. Whenever the Legislature has appropriated money to be expended by the Department of Finance for the acquisition of a site and the development of a small craft harbor and recreation area, the State Lands Commission, in lieu of the Department of Finance, may expend for such purpose the money thereby appropriated and may enter into leases or agreements with a county, city, city and county or other political subdivision of the State for the development, operation and maintenance thereof by such county, city, city and county or other political subdivision. If the legislative appropriation contemplates that any such lease or agreement shall be entered into with a particular county, city, city and county or political subdivision, the lease or agreement shall be entered into with that local agency.

Leases and agreements

Contents

Such leases or agreements shall provide for a plan of development of the harbor and area, and may provide for the development, operation and maintenance thereof by the county, city, city and county or other political subdivision of the State for a term not to exceed 60 years. Such leases or

agreements may provide for cooperative agreements between the State, the local agency and the Federal Government for federal participation in the development of the harbor and area. Such leases or agreements may also authorize the local agency to grant concessions or subleases consistent with and in furtherance of the plan of development and the public use of the harbor and recreation area. The State Lands Commission may reserve the right to approve any such concessions or subleases.

If the appropriation requires payments to the State, then the lease or agreement shall provide for such payments plus any additional amount which may be required by the appropriation either by agreed upon rental payments or by payments from the revenues to be derived from the harbor and area. The intervals, amounts and method of payment shall be as mutually agreed upon by the State Lands Commission and the local contracting agency.

Legislative declaration

6496. The Legislature hereby finds and declares that the acquisition, development, maintenance and operation of small craft harbor and recreation areas is of state-wide interest and concern and the appropriation of state funds for the acquisition of a particular site for that purpose constitutes a determination of state-wide interest therein.

Approval of leases

6497. Any acquisition of real property and any lease or agreement entered into by the State Lands Commission pursuant to this chapter is subject to the approval of the Director of Finance.

Appropriation

6498. There is hereby appropriated from the State Lands Act Fund out of the remaining balance described in subdivision (c) of Section 6816 and prior to the transfer specified therein, the sum of twenty thousand dollars ($20,000) which shall be transferred to the Small Craft Harbors Revolving Fund which is hereby created. SECTION 1. Section 50 of the Fish and Game Code is amended to read:

Licensed game bird clubs

In order to provide additional hunting by stocking domestically propagated pheasants, and to permit the taking of pheasants under conditions which will not conflict with the public interest, any person who owns or controls the shooting rights on a tract of land of not more than 2,500 acres may apply to the commission for a licensed game bird club license authorizing the killing by shooting only pheasants upon such land in accordance with the provisions of this chapter, and the rules and regulations thereon as may be prescribed by the commission, from time to time, for the administration of this chapter. Commercial licensed game bird clubs are clubs which are open to any member of the general public on a daily fee basis. If the license is issued for a commercial licensed game bird club, such club must be open to any licensed hunter on shooting days upon payment of such fee or charge as set forth in the application filed by the licensee with the Department of Fish and Game and the licensee shall on each such day allow at least one hunter for each 50 acres in the licensed game bird club; providing the number of birds remaining to be legally taken on such club is equal to or exceeds one legal limit for each permittee on such club. The licensee shall fix at least three shooting days per week including Saturday and Sunday. Private licensed game bird clubs are those clubs in which membership is restricted at the discretion of the operator. Private licensed game bird clubs shall not exceed 1,500 acres within the exterior boundaries of the licensed area. The commission shall prescribe rules and regulations for the conduct of hunters on such clubs in the interest of safety of hunters, to prevent wastage of game, and to promote orderly operation of the club. The application shall show the name and address of the applicant; whether the application is for a commercial or private license; the legal description of the tract of land, and description by exterior boundaries of the tract with reference insofar as possible to roads, rivers, railroads or natural boundaries; whether the applicant proposes to propagate and rear the birds to be released and if so the location or proposed location where the birds are to be propagated and reared; whether the applicant proposes to purchase birds for release; the fee to be charged on commercial clubs; and such other information as the commission may require. CHAPTER 1859

An act to amend Section 7717.1 of the Education Code, relating to state school building aid.

In effect September 7, 1955

[Approved by Governor July 9, 1955. Filed with Secretary of State July 11, 1955]

The people of the State of California do enact as follows:

SECTION 1. Section 7717.1 of the Education Code is amended to read:

School building construction Method of determining need

7717.1. The board by the adoption of rules shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Such rules shall define and provide the method of determining building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction.

The board may make exceptions to the provisions of this section or to the rules adopted pursuant to such section when it determines that such will be for the benefit of children affected.

"Service area"

For the purposes of this section, "service area" may be defined as (1) buildings which when constructed were intended to be used for a purpose to which the provisions of Education Code Sections 18191 to 18205, inclusive, would not apply, whether or not such sections were in effect at the time when the building was constructed, or (2) buildings which when constructed were intended to be used for a purpose to which Education Code 18191 to 18205, inclusive, would apply, whether or not such sections were in effect when the building was constructed, but which building has been converted or is intended to be converted, as shown by the application, to use for purposes to which such sections would not apply. Service area may include, but is not limited to, construction used as bus garages, maintenance shops, centrally located district

storage and warehouses, teacherage and custodial houses, utility shelters, transformer vaults, and service yards.

Computation of area of adequate school construction

The area of adequate school construction existing in a district at the time of application shall be initially computed as all of the construction area of the district except (1) such areas as may be eligible for replacement under standards established by the board, and (2) such areas in an existing structurally inadequate building for which an application has been filed for structural rehabilitation or in a building previously structurally rehabilitated under either Chapter 1.6 or Chapter 19, Division 3 of the Education Code, that exceeds the maximum building area allowed by Section 7717 for a number of pupils, equivalent to those that could be housed in the building after rehabilitation. The board shall prescribe by rule the method of computing the number of pupils which could be so housed for the purposes of this subsection. If such area of adequate school construction, when added to the minimum facilities needed by the district, results in a total construction area in excess of the amount prescribed in Section 7717, then the board may make the following adjustments to the initial computation or such revisions thereof as the board, in its discretion, deems desirable:

(a) Service areas constructed prior to July 19, 1947, shall be excluded, except as provided in (c) below.

(b) Service areas constructed subsequent to July 19, 1947, shall be recomputed by multiplying the total number of square feet of said service area by the percentage determined from dividing the actual construction cost per square foot as determined by the Director of Finance by the estimated average cost per square foot of the new school facilities for which the district has made application.

(c) If any inadequate nonservice area constructed prior to July 19, 1947, is, or will be, converted to a service area, such area shall be recomputed by multiplying said area by the percentage determined by dividing the depreciated value of said area by the replacement cost as such value and cost are determined by the Director of Finance.

(d) If, after the revised computation of service areas is made as prescribed under subsections (a), (b), and (c) of this section, the existing and requested building area of the district is in excess of the schedule set forth in Section 7717, the existing building area of nonservice facilities may be determined on the basis of the number of pupils housed by such facilities at an allowance per pupil which is not more than 25 percent in excess of the amount per pupil prescribed in Section 7717.

The board shall prescribe by rule the method for computing the number of adequately housed pupils for purposes of this subsection.

Termination date

This section shall remain in effect until the ninety-first day after the final adjournment of the 1957 Regular Session of the Legislature.

In effect September 7, 1955

[Approved by Governor July 9, 1955. Filed with Secretary of State July 11, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Section 11000.5 is hereby added to the Business and Professions Code, to read:

Commercial agricultural land

11000.5. Land or lands, improved or unimproved, divided or proposed to be divided for sale or lease shall not be deemed "subdivided lands" or "a subdivision" within the meaning of Section 11000 if such lands are to be sold or leased solely for commercial agricultural purposes in parcels of 20 acres or more.

SEC. 1.5. Section 11013 of said code is amended to read:

Blanket encumbrance

11013. For the purposes of this part, a blanket encumbrance shall be considered to mean a trust deed or mortgage or any other lien or encumbrance, mechanics' lien or otherwise, securing or evidencing the payment of money and affecting land to be subdivided or affecting more than one lot or parcel of subdivided land, or an agreement affecting more than one such lot or parcel by which the owner or subdivider holds said subdivision under an option, contract to sell, or trust agreement.

SEC. 2. Section 11013.1 is added to said code, to read:

Release clause

11013.1. It shall be unlawful, except as provided in Section 11013.2, for the owner or subdivider to sell or lease lots or parcels within a subdivision that is subject to a blanket encumbrance unless there exists in such blanket encumbrance or other supplementary agreement a provision, hereinafter referred to as a release clause, which by its terms shall unconditionally provide that the purchaser or lessee of a lot or parcel can obtain title or other interest contracted for, free and clear of such blanket encumbrance, upon compliance with the terms and conditions of the purchase or lease.

SEC. 3. Section 11013.2 is added to said code, to read:

Effect of no release clause

11013.2. Should there not exist in the blanket encumbrance or supplementary agreement a release clause as set forth in

Section 11013.1, then it shall be unlawful for the owner or subdivider to sell or lease lots or parcels within said subdivision unless one of the following conditions is complied with:

(a) The entire sum of money paid or advanced by the purchaser or lessee of any such lot or parcel, or such portion thereof as the commissioner shall determine is sufficient to protect the interest of the purchaser or lessee, shall be deposited into an escrow depository acceptable to the commissioner until either (1) a proper release is obtained from such blanket encumbrance; or (2) either the owner or subdivider or the purchaser or lessee may default under their contract of sale or lease and there is a determination as to the disposition of such moneys; or (3) the owner or subdivider orders the return of such moneys to such purchaser or lessee.

(b) The title to the subdivision is to be held in trust under an agreement of trust acceptable to the commissioner until a proper release from such blanket encumbrance is obtained.

(c) A bond to the State of California is furnished to the commissioner for the benefit and protection of purchasers or lessees of such lots or parcels, in such amount and subject to such terms as may be approved by the commissioner, which shall provide for the return of the moneys paid or advanced by any purchaser or lessee, for or on account of the purchase or lease of any such lot or parcel if a proper release from such blanket encumbrance is not obtained; provided, however, that if it should be determined that such purchaser or lessee, by reason of default or otherwise, is not entitled to the return of such moneys, or any portion thereof, then such bond shall be exonerated to the extent of the amount of such moneys to which such purchaser or lessee is not entitled.

(d) There is conformance to such other alternative requirement or method which the commissioner may deem acceptable to carry into effect the intent and provisions of this part.

SEC. 4. Section 11013.3 is added to said code, to read:

Taxes and assessments

11013.3. Taxes and assessments levied by public authority shall not be considered a blanket encumbrance within the meaning of Section 11013.

SEC. 5. Section 11013.4 is added to said code, to read:

Effect of no blanket encumbrance

11013.4. If a subdivision is not subject to a blanket encumbrance, as defined in Section 11013, it shall be unlawful for the owner or subdivider to sell or lease lots or parcels within a subdivision unless one of the following conditions is complied with:

(a) The entire sum of money paid or advanced by the purchaser or lessee of any such lot or parcel, or such portion thereof as the commissioner shall determine is sufficient to protect the interest of the purchaser or lessee, shall be deposited into an escrow depository acceptable to the commissioner or into a trust account acceptable to the commissioner to be held in such escrow depository or trust account until the title or other interest contracted for, whether it be title of record, equitable or other interest, is delivered to such purchaser or

lessee or until (1) either the owner or subdivider or the purchaser or lessee may default under their contract of sale or lease and a determination is made as to the disposition of such moneys; or (2) the owner or subdivider orders the return of such moneys to such purchaser or lessee.

(b) A bond to the State of California is furnished to the commissioner for the benefit and protection of purchasers or lessees of such lots or parcels, in such amount and subject to such terms as may be approved by the commissioner, which shall provide for the return of the moneys paid or advanced by any purchaser or lessee, for or on account of the purchase or lease of any such lot or parcel in the event that the owner or subdivider does not, within the time specified in his contract to sell or lease, or any extension thereof, deliver the title or other interest contracted for, whether it be title of record, equitable or other interest, to such purchaser or lessee for any reason other than an uncured default of such purchaser or lessee.

(c) An association, approved by the commissioner, files with the commissioner a certificate in which it certifies that the owner or subdivider is a member of such association and that there is on file with the commissioner a bond, of the kind specified in subdivision (b) of this section, which has been approved by the commissioner as to amount, terms and coverage, and which is for the benefit and protection of all purchasers and lessees of subdivided lots or parcels to be sold or leased by members of such association (all which the commissioner may, at his option, verify or require to be verified). The commissioner may also, from time to time, require an increase in the amount of such bond as a condition to the continued applicability of the provisions of this subdivision to such association and its members or permit a decrease in the amount thereof.

(d) Proof, satisfactory to the commissioner, is furnished: (1) that such bonds or deposits, as provided or contemplated to be filed or made pursuant to the provisions of Articles 8 and 9 of Chapter 2, Part 2, Division 4 of this code, have been filed or made in such amounts as the commissioner shall approve, or that the filing or making of such bonds or deposits are unnecessary; and (2) that a lien and completion bond or bonds, approved by the commissioner as to amount, terms and coverage and including within its scope all on-site construction work to be undertaken on such lots or parcels, has been written and issued by a corporate surety company authorized to do such business in this State; provided, however, that this subdivision shall apply only to an owner or subdivider who proposes to sell or lease such lots or parcels with improvements thereon in the nature of residential structures.

(e) The entire sums of moneys paid or advanced by the purchasers or lessees of such lots or parcels, or such portion thereof as the commissioner shall determine is sufficient to protect the interest of the purchaser or lessee, shall be deposited into an escrow depository or other agency, acceptable to the

commissioner, to be held, in whole or in part, by such escrow depository or other agency as provided by subdivision (a) of this section, or, at the election of the owner or subdivider, to be disbursed, in whole or in part, for the construction of residential or other structures to be built on such lots or parcels within said subdivision, or such unit or units thereof as the commissioner shall determine, in such manner and pursuant to such instructions as the commissioner shall approve; provided, however, that the provisions of this subdivision shall apply only to an owner or subdivider who proposes to sell or lease such lots or parcels with improvements thereon in the nature of residential structures.

(f) There is conformance to such other alternative requirement or method which the commissioner may deem acceptable to carry into effect the intent and provisions of this part.

SEC. 6. Section 11013.5 is added to said code, to read:

11013.5. The public report of the commissioner, when issued, shall indicate the method or procedure selected by the owner or subdivider to comply with the provisions of Sections 11013.1, 11013.2 or 11013.4. Public report

The people of the State of California do enact as follows:

SECTION 1. Section 1202.1 is added to the Public Utilities Code, to read:

Costs

1202.1. In any proceeding under Section 1202, where the application to the commission states that the parties are not in agreement as to apportionment of costs, but the applicant is willing to advance the amount of money reasonably necessary to enable the respondent to complete the work which must be done by it, the commission shall set the application for hearing as soon as its calendar permits on the questions of (a) the necessity for the project, (b) the approval of the location and the engineering plans, including provisions for handling traffic during construction and the work to be performed by each party, and (c) the sum to be advanced by the applicant for the work to be done by the respondent. The commission shall render as promptly as possible an interim decision effective within twenty (20) days on said questions, reserving for later hearing and decision the question of apportionment of costs. Said decision shall also order the respondent to proceed upon receipt of the sum to be advanced by applicant without delay to perform the work to be done by respondent, integrating such work with that of the applicant or its contractor in such manner

Hearing

that neither will unreasonably obstruct or delay the work of the other, to the end that the people of the State may have the use of the project at the earliest possible date.

Failure to grant right of entry, etc.

In the event of the failure or refusal of the respondent to grant a right of entry to permit the applicant to proceed with the work to be performed by it or its contractor, applicant may, pursuant to Section 14 of Article I of the Constitution, obtain an order of immediate possession in a court of competent jurisdiction if a condemnation action has previously been filed in such court, or file such action and obtain an order of immediate possession in the event such action has not previously been filed, and upon obtaining such order, may proceed in the same manner as if a right of entry had been granted, and thereupon the same duties to proceed with respondent's own work and integrate the same with that of applicant or its contractor, shall fall upon respondent.

Credit

In the final decision apportioning costs, the sum advanced by the applicant shall be credited against the applicant's share of said costs. In said final decision there shall also be credited against applicant's share of the costs any increases in said costs found by the commission to be directly attributable to respondent's wilful failure or refusal, after the effective date of such interim decision, to proceed with its own work or to integrate said work with that of applicant or its contractor.

CHAPTER 1869

An act to add Part 5 to Division 2 of the Water Code, relating to water rights.

In effect September 7, 1955

[Approved by Governor July 9, 1955. Filed with Secretary of State July 11, 1955.]

The people of the State of California do enact as follows:

SECTION 1. Part 5 is added to Division 2 of the Water Code, to read:

PART 5. RECORDATION OF WATER EXTRACTIONS AND DIVERSIONS

Legislative declaration

4999. The Legislature finds and declares that by reason of the combination of light rainfall, concentrated population, the transition of considerable areas of land from agricultural use to urban use, and a similar dependence on ground water supplies which prevails in the Counties of Riverside, San Bernardino, Los Angeles, Ventura and Santa Barbara, together with the fact that most such underground water supplies are overdrawn, it is necessary that the provisions of this part apply to said counties only.

Definitions

5000. As used in this Part 5, the following terms shall have the respective meanings stated below, viz.:

(a) "Ground water" means water beneath the surface of the ground whether or not flowing through known and definite channels.

(b) "Surface water" means water on the surface of the ground.

(c) "Division" means the Division of Water Resources of the Department of Public Works, of the State of California, and any public body or agency which may hereafter perform the functions now performed by the division.

(d) "Five counties" means the Counties of Riverside, San Bernardino, Los Angeles, Ventura and Santa Barbara.

(e) "Person" means all persons whether natural or artificial, including the United States of America, the State of California, and all political subdivisions, districts, municipalities and public agencies of or in either the State or the United States.

(f) "Sources" means any point of diversion or extraction of water and includes among other things wells, tunnels, and headworks.

Notice of extraction and diversion of water

5001. Each person who, after 1955, extracts ground water in excess of 25 acre feet in any year shall, file with the division on or before March 1st of the succeeding year a "Notice of Extraction and Diversion of Water" (hereinafter called "notice") in the form provided below; provided, however, that no notice need be filed with respect to, and there shall not be required to be included in any such notice, (a) information concerning the extraction or diversion of water from a source from which less than 10 acre-feet has been taken during such year, or (b) information concerning a taking or diversion of surface water for the purpose of generating electrical energy and other nonconsumptive uses, and for incidental uses in connection therewith.

Form and contents

5002. Each notice shall be on a form provided by the division. The first notice filed by any person shall state:

(a) The name of the person extracting ground water or diverting surface water.

(b) The quantity of water taken and the method of measurement used by such person or his predecessor in interest in

each preceding year from each surface or ground water source; provided, that if the period of such taking exceeds 10 years, such person is not required to state such quantities for any period greater than the preceding 10 calendar years.

(c) The location (sufficient for identification) of each surface or ground water source through or by means of which water has been taken, and if any person or persons other than the person filing said notice claims any interest in such source or the right to extract water therefrom, the name or names, so far as known, of such other person or persons.

(d) A general description of the area in which such water has been used.

(e) Any other facts which the division may require by general regulation and which tend to prove the facts above required to be stated, the origin of water supplying any ground water source mentioned in the notice, water levels in any such source, or the extent of any ground water basin from which such water is withdrawn.

(f) Any person diverting only surface water and not more than 25 acre-feet of ground water in any year need not file such notice for such year.

Other notices

Notices, other than the first notice filed, shall state, in addition to the name of the person extracting or diverting such water:

First: The quantity of water taken from each surface and ground water source from which such person received any water in the preceding calendar year.

Second: Location of each such surface and ground water source through or by means of which water has been taken in such preceding year. This may be stated, so far as applicable, by reference to the water sources described in the original notice.

Third: If such person diverts surface water in excess of three miner's inches, such person shall further state in said notice the period or periods of such diversion, and the maximum and minimum flows so diverted in each period.

Fourth: Any other facts which the division may require by general regulation, and which tend to prove facts above required to be stated, the origin of water supplying any surface or ground water source mentioned in the notice, water levels or flow in any such source, or the extent or origin of the water source supplying the ground water supply from which such water is extracted.

Effect of failure to file notice

5003. No prescriptive right which might otherwise accrue to extract ground water shall arise or accrue to, nor shall any statute of limitations operate in regard to such ground water in the five counties or any of them after the year 1956 in favor of any person required to file such notice of extraction and diversion of water, until such person shall file with the division the first "Notice of Extraction and Diversion of Water" substantially in the form above mentioned; and as to each person who fails to file such notice by the end of the year 1957, it shall

be deemed for the period from that time until the first notice of such person is filed, that no claim of right to the extraction of ground water from any such source in the five counties has been made by such person, and that water so extracted by such person from such ground water source during such period has not been devoted to or used for any beneficial use. The beneficial use of water from any ground water source within the five counties in any year by such person shall be deemed not to exceed the quantity reported in the notice filed for such year.

5004. After the year 1959, failure to file with the division a notice for any calendar year within six months after the close of such calendar year shall be deemed equivalent for all purposes to nonuse for such year of any ground water within the five counties by each person failing to so file a notice within said period; provided, that this section and Section 5003 shall not apply to any person whose aggregate extractions of ground water in any year does not exceed 25 acre-feet nor to any extractions of ground water with respect to which no notice is required to be filed under this part.

5005. Except as specified in Section 5004, failure to file the notice or delay in filing the same shall not cause the loss of rights to ground water which existed on January 1, 1956.

Oath and fees

5006. Each notice shall be sworn to and shall be accompanied by a filing fee which shall be fixed by the division. Such filing fees shall be fixed so as to be sufficient on the average to pay the administrative expenses of the division in listing and processing notices of the character presented, and may be graduated in accordance with the number of water sources from which extractions or diversions are shown.

Investigation

5007. Any person may apply to the division to investigate the facts stated in any specified notice so filed and to state in writing its determination of the facts found by it upon such investigation. The cost of such investigation and determination shall be paid by such applicant by such deposits or in such payments as may be fixed by the division. In the event the division makes a determination which differs in any material respect from the facts contained in the notice, then, prior to making its final determination, the division shall notify both the person filing said notice and the person requesting a determination of facts of its proposed findings, and shall invite either party to submit further information prior to making its final determination, and no such final determination shall be made until sixty (60) days after the parties have been so notified of the division's proposed determination.

Notices as evidence

In any action or proceeding hereafter pending in which the facts, or any of them, contained in the notices so filed are material, such notices shall not be evidence of any fact stated therein, but such determination by the division shall be prima facie evidence of said facts.

Penalty

5008. The making of any wilful misstatement in any notice shall be a misdemeanor, punishable by a fine of not exceeding

five hundred dollars ($500) or by imprisonment in the county jail for not to exceed six months, or both.

Severability

SEC. 3. If any section, subsection, sentence, clause or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act; and the Legislature would have enacted each section, subsection and sentence hereof independent of each other section, subsection and sentence; and would have enacted such remaining portions and each of them irrespective of such holding of unconstitutionality as any portion which may be held unconstitutional.

CHAPTER 1870

An act to amend Section 7352 of the Revenue and Taxation Code, relating to taxable distributions of motor vehicle fuel.

In effect September 7, 1955

[Approved by Governor July 9, 1955. Filed with Secretary of State July 11, 1955.]

This presumption cannot be overcome by proof that the motor vehicle fuel has been converted to his own use by any person to whom the distributor has entrusted the control or possession of the fuel either as bailee, consignee, employee, or agent; provided, however, any such person causing a distribution by the act of converting to his own use any fuel so entrusted to him, as well as any other person receiving such fuel with the knowledge that it was so converted, shall be jointly and severally liable with the distributor for payment of the tax imposed upon such distribution, and all such persons shall be considered as distributors for the purpose of Chapter 6 of this part.

CHAPTER 1872

An act to amend Sections 830.3, 830.5 and 830.6 of, and to add Section 830.35 to, the Agricultural Code, relating to agricultural products.

[Approved by Governor July 9, 1955. Filed with Secretary of State July 11, 1955]

In effect September 7, 1955

The people of the State of California do enact as follows:

SECTION 1. Section 830.3 of the Agricultural Code is amended to read:

Permits to sell, etc., fruits, nuts, etc

830.3. Any commissioner may issue to any person residing in his county or maintaining a principal place of business therein a permit to sell, buy, receive, transport, deliver, or cause to be transported fruits, nuts or vegetables exempt from the standards established in this chapter, for any one or more of the purposes set forth in Section 830; but no permit shall be issued for the purpose set forth in subparagraph (a) of Section 830 unless and until the commissioner has found and determined that the packing plant from which the fruits, nuts, or vegetables are to be transported or delivered has not proper and adequate facilities for processing, grading, packing, or reconditioning the particular lot of fruits, nuts, or vegetables, and that the packing plant to which the fruits, nuts, or vegetables are to be transported has such facilities. Such permits may be issued for a period not exceeding 12 months.

No permit issued hereunder, except to the seller and the receiver, shall be valid except in the county where issued unless the permit, or a rider securely attached thereto, carries the endorsement of the commissioner of the county (1) to which the fruits, nuts, or vegetables are to be transported or delivered and (2) from which such products are to be transported or delivered.

Proof

A permittee shall, upon request of any commissioner, furnish such affidavits, receipts and other evidence as such

commissioner reasonably may require as proof that the commodities have been disposed of in accordance with the provisions of this chapter and the terms of the permit.

SEC. 2. Section 830.35 is added to said code, to read:

Revocation, etc., of permit

830.35. Any commissioner may refuse to issue or to endorse a permit described in Section 830.3 of this code, or may revoke or suspend any permit or endorsement issued by him, if after investigation and in his judgment the permittee or applicant for permit does not have available proper and adequate facilities with which to pack, process or otherwise dispose of the commodities described in Section 830 of this code in accordance with the provisions of this chapter, or if the permittee or applicant for permit has previously violated any of the provisions of this chapter or the terms of any permit issued hereunder, or has failed or refused to furnish the evidence required by the commissioner, as hereinabove provided in said Section 830.3. Any order of the commissioner refusing to endorse or issue a permit, or suspending or revoking the same shall be in writing.

Appeal

Any person may appeal to the director, within 10 days, for a hearing upon a written order of the commissioner refusing to endorse or issue a permit, or suspending or revoking the same. The proceedings for such hearing shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, except that the provisions of Sections 11505 and 11506 thereof shall not apply, and the statement of issues or accusation, as the case may be, shall be delivered or mailed to the parties as provided in Section 11509 of said code.

Construction

Nothing herein contained shall be construed to allow a permittee or applicant to operate pending the disposition of his application or petition. Nothing herein contained shall be construed to prevent the commissioner from suspending or revoking a permit forthwith, and without notice or hearing; provided, however, that such peremptory action must be supported by previous investigation, the results of which reasonably indicate to said commissioner that to allow an existing permit to remain in use pending a hearing would encourage, allow or permit additional or other violations of the provisions of this chapter.

SEC. 3. Section 830.5 of said code is amended to read:

Prohibitions

830.5. It is unlawful for any person who does not hold a valid permit issued under the provisions of Section 830.3 to sell, buy, receive, transport, deliver, or cause to be transported, any fruits, nuts, or vegetables, which are exempt from the standards established in this chapter, and which do not conform to such standards.

It is unlawful to transport any fruits, nuts, or vegetables which do not conform to such standards unless a valid permit accompanies the vehicle in which such produce is being transported, and such permit shall be submitted for inspection upon demand of any enforcing officer.

This section shall not apply to: Exemptions

(1) A common carrier operating over a regular route or between fixed termini and transporting any such fruits, nuts, or vegetables, in good faith and in accordance with its duties as a common carrier.

(2) Any person transporting fruits, nuts, or vegetables from the orchard or field where they were produced to a packing plant within the State for first processing, grading, or packing.

(3) Any person transporting fruits, nuts, or vegetables in accordance with the terms of a disposal order duly issued under the provisions of Section 830.1.

SEC. 4. Section 830.6 of said code is amended to read:

830.6. It is hereby declared that recurrent floods on rivers and streams of this State, causing loss of life and damage to property, disruption of commerce, interruption of transportation and communications, and wasting of water, are detrimental to the peace, health, safety and welfare of the people of the State. The control and prevention of such floods and the loss and damage caused thereby and the conservation and protection of the State's land and water resources are proper functions and activities of the State, in cooperation with counties, cities, state agencies and public districts, and in cooperation with the United States, or any of its departments or agencies.

Cost figures based upon a reconnaisance-type survey may be used for such purpose providing the board finds that all elements of cost reasonably appear to be included and the cost figures appear reasonably accurate for the purpose of supporting a finding that total costs will be less than the total benefits for an entire project or for such portion or portions thereof that may be under consideration.

(d) The board recommends to the Legislature that an appropriation of funds be made for the entire project or for such portion or portions thereof as constitute complete and usable independent units for reallocation for payment of the costs of lands, easements and rights of way which it finds have already been incurred or which it is anticipated will be incurred during the next fiscal year.

Same

(3) Make arrangements satisfactory to the secretary for defraying costs of operating and maintaining such works of improvement, in accordance with regulations presented by the Secretary of Agriculture;

(4) Acquire, or provide assurance that landowners have acquired, such water rights, pursuant to state law, as may be needed in the installation and operation of the work of improvement.

(5) Obtain agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than 50 per centum of the lands situated in the drainage area above each retention reservoir to be installed with federal assistance.

(c) The Secretary of Agriculture has determined that the benefits to be derived from the proposed works of improvement will exceed the cost.

(d) The Secretary of Agriculture has transmitted a copy of the plan and justification therefor to the Congress through the President and, where applicable, to the Secretary of the Interior and the Secretary of the Army, as required by said Public Law 566.

(e) The board finds in its judgment that the benefits of the proposed works of improvement for an entire project will reasonably exceed the costs thereof. Cost figures based upon a reconnaissance-type survey may be used for such purpose providing the board finds that all elements of cost reasonably appear to be included and the cost figures appear reasonably accurate for the purpose of supporting a finding that total costs will be less than the total benefits.

(f) The board recommends to the Legislature that an appropriation of funds be made for the project for reallocation for payment of the costs of lands, easements and rights of way which it finds have already been incurred or which it is anticipated will be incurred during the next fiscal year.

12873. The findings of the board required by subsection (c) of Section 12867 or by subsections (a) to (e) of Section 12868 need be made only once, at the time the board first recommends an entire project or such portion or portions thereof as constitute complete and usable independent units to the Legislature, and need not be made again each year thereafter in which the board recommends an allocation of funds therefor. If conditions change so as in the judgment of the board to warrant new or different findings, the board may however make additional or contrary findings, and make recommendations thereon to the Legislature.

Reallocation of funds

12874. Money appropriated to the board for reallocation to local organizations shall be reallocated to local organizations upon order of the board after application therefor has been made to it by such local organizations showing the necessity, purpose and use to be made of the money or showing that such organizations have made necessary advances or incurred obligations for the purpose of expediting projects for which the allocation is made and giving such other information as the board may require. Such application may be filed with or as a part of the application for recommendation to the Legislature for appropriation of funds. SECTION 1. Section 31530 of the Streets and Highways Code is amended to read:

Petition

31530. The formation of a vehicle parking district may be proposed by petition signed by the owners of land in the proposed district, as shown by the last equalized assessment roll of the county in which the proposed district lies, owning lands of an assessed value of not less than fifty-one percent (51%) of the total assessed value of all land in the district, as shown by the last equalized county assessment roll, which lands also constitute more than one-half of the area of all land in the proposed district.

SEC. 2. Section 31557 of said code is amended to read:

Hearing

31557. At the hearing the legislative body may decrease, change or otherwise modify the acquisitions or improvements proposed by the ordinance of intention.

The term "decrease, change or otherwise modify" includes the substitution of additional acquisitions or improvements in lieu of acquisitions or improvements eliminated.

SEC. 4. Section 31559 of said code is amended to read:

Contents

31559. The notice shall:

(a) Describe generally the decrease, change or other modification proposed to be made.

(b) Excludes from the district all land which in its opinion will not be benefited by the resulting acquisition and improvement.

SEC. 6. Section 31569.1 is added to said code, to read:

Petition

31569.1. A petition for the formation of a district may request that if the petition is signed by owners, as defined in Section 31530, owning lands and improvements thereon of an assessed value of not less than sixty percent (60%) of the total assessed value of all lands in the district and the improvements thereon, as defined in Section 31530, which lands also constitute more than one-half of the area of all lands in the proposed district, then in lieu of the limit provided by Section 31569, the limit on the assessment shall be an amount not exceeding thirty-five percent (35%) of the assessed valuation of all land in the district subject to assessment and all improvements on such land, as shown by the last equalized county assessment roll at the date the assessment is confirmed. If at any time subsequent to the adoption of the ordinance ordering the acquisition and improvement and declaring the district formed the legislative body determines that the limit on the assessment imposed by Section 31569 or Section 31569.1, as the case may be, will prevent the making of all the acquisitions and improvements so ordered the legislative body may decrease, change or otherwise modify the acquisition and improvement after notice and hearing in the same manner as provided in Sections 31557 to 31560. In proceedings under this section no change shall be made in the boundaries of the district and the legislative body shall not decrease, change or otherwise modify the acquisition and improvement unless following the hearing it determines by a four-fifths vote of all its members that all of the lands in the district will be benefited by the acquisition and improvement

remaining after such decrease, change or modification. Any such decrease, change or modification shall be ordered by an ordinance amending the ordinance ordering the acquisition and improvement and declaring the district formed, and thereafter further proceedings under this part shall be taken pursuant to such ordinance as amended. The term "decrease, change or otherwise modify" includes the substitution of additional acquisitions or improvements in lieu of acquisitions or improvements eliminated. If a condemnation action has been brought on any property eliminated, such action may be dismissed as to the property eliminated even though an interlocutory judgment has been entered, and a further condemnation action may be brought as to any property substituted for any property eliminated.

SEC. 8. Section 31860 of said code is amended to read:

31860. The purposes specified in the ordinance may also include the application of such revenues as a credit upon the levied assessments in the same manner as is provided in Sections 31828, 31829 and 31830. From the effective date of the ordinance such revenues shall for the period specified be placed in such fund or funds of the district as the board of commissioners specify and may be expended only for the purposes specified in the ordinance.

The constantly increasing traffic congestion in the State of California and particularly in its urban areas brings death or injury to many persons each day. Series

(b) The district board of the regional district issuing any bonds heretofore or hereafter authorized may, in its discretion, divide the aggregate principal amount of such issue into two or more divisions or series and fix different dates for the bonds of each separate division or series. In the event any authorized issue is divided into two or more divisions or series, the bonds of each division or series may be made payable at such time or times as may be fixed by the district board of the regional district separate and distinct from the time or times of payment of bonds of any other division or series of the same issue.

6071. If the result of any election upon the question of the issuance of bonds is in favor of issuance, the board may, in its discretion, commence, in the superior court of the county, a special proceeding to determine its right to issue the bonds and their validity, similar to the proceeding in relation to irrigation bonds, provided for by the Irrigation District Law, and all supplementary acts, and all their provisions apply to and govern the proceedings to be commenced by the board, so far as applicable.

The treasurer is authorized to deposit said fund in such bank or banks in the county as may be authorized to receive deposits of public funds in the same manner and upon the same security as public moneys of cities and counties are deposited in such banks and with like force and effect, and shall be subject to withdrawal upon the signature of the treasurer, or such other official of the district as may be authorized by the board of directors, for the use and purpose provided for herein.

In lieu of the one inspector, two judges, and three clerks provided for in this section, the board of supervisors may, not less than 30 days prior to any election, find that a different number of election officers will be sufficient for the election and in such case may provide that the precinct board shall consist of either one inspector, one judge, and two clerks or one inspector, one judge, and three clerks; or, the precinct board shall consist of one inspector, one assistant inspector, and two judges, all of whom shall serve from the time of the opening of the polls on election day; provided, that said precinct board shall further consist of four clerks who shall serve immediately upon the closing of the polls for voting and the commencement of the canvass of the votes together with the inspector, assistant inspector and two judges, and each of which clerks shall be appointed, qualified and sworn as are the other members of the precinct board.

SEC. 2. Section 690 of said code is amended to read:

Compensation

690. Each member of a precinct board shall receive as compensation for his services a sum fixed by the board of supervisors of the county which sum shall be paid out of the treasury of the county in which he acts. The inspector may receive up to three dollars ($3) more compensation than the other members of the precinct board. The inspector shall receive not more than eighteen dollars ($18) and the other members shall receive not more than fifteen dollars ($15); except that in those precincts wherein the precinct board consists of not less than four clerks in addition to the other four members of said board, the compensation received by said four clerks shall not be more than five dollars ($5).

SEC. 3. Article 1.5 is added to Chapter 1 of Division 9 of said code, to read:

Article 1.5. Canvass by Eight-member Board After Closing of Polls

Canvass of ballots Removal of ballots

7035. In precincts in which the precinct board consists of not less than eight members appointed in accordance with the provisions of Article 3, Chapter 2 of Division 2 of this code, as soon as the polls are finally closed the precinct board shall immediately commence to canvass the votes by taking out of the box the ballots, unopened, except so far as to ascertain whether each ballot is single, and counting them to ascertain whether the number of ballots corresponds with the number of names on the roster kept by the precinct board.

Canvass to be public

7036. The canvass shall be in public, in the presence of bystanders, and shall be continued without adjournment until completed and the result is declared.

Ballots folded together

7037. If the precinct board finds two or more separate ballots so folded together as to present the appearance of a single ballot, it shall lay them aside until the accounting of the ballots

is completed. If upon comparison of the count with the number of names of voters on the roster, it appears that the two ballots folded together were cast by one voter, the precinct board shall reject them.

7038. After laying aside ballots folded together, the precinct board shall immediately replace all of the other ballots.

Excess ballots

7039. If the ballots in the box exceed in number the names on the roster, one of the judges shall publicly, and without looking into the box, draw out singly, and destroy, unopened, a number of ballots equal to such excess. The precinct board shall make a record upon the roster and tally list of the number of ballots so drawn and destroyed.

Roster, etc

7040. The number of ballots agreeing or being thus made to agree with the number of names on the roster, the inspector, the assistant inspector and judges shall sign the roster and also the certificate of ballots accounted for printed on the tally lists. The clerks shall attest the roster and the certificate of ballots accounted for on the tally lists. The precinct board shall then certify the number of names on the roster in the certificate printed therein as provided for by this code, except that such certificate shall also contain the signature of the assistant inspector and the fourth clerk, otherwise substantially in the form prescribed in Section 5565 of this code, and in the manner designated for certification and attestation of ballots accounted for.

Opening of ballots

7041. After the roster and tally lists are thus signed, the precinct board shall open the ballots, stacking them in one or more stacks according to the kinds of ballots voted at the precinct. As the ballots are unfolded and opened, they shall be examined for any irregularities. Any illegal ballots shall be rejected in the manner set forth in Section 7011. Those ballots not rejected shall be the ballots to be canvassed in the manner required by this article, notwithstanding provisions to the contrary contained elsewhere in this code.

Two groups

7042. The canvass shall be conducted by the eight members of the precinct board by forming themselves into two groups as follows:

(a) Group one shall consist of the inspector, one judge and two clerks.

(b) Group two shall consist of the assistant inspector, the remaining judge and two clerks.

Count

The inspector shall have charge of all ballots to be canvassed and shall commence the canvass by proceeding to count by taking off the vote for one or more offices or measures at a time, for only those offices or measures contained in the tally lists prepared for use by group one. As soon as 10 ballots have been canvassed by group one for as many offices or measures as provided for in their tally lists, the inspector shall, without delay, personally deliver these counted ballots direct to the assistant inspector, who shall, in like manner, proceed with the canvass

of the remainder of the offices or measures contained in the tally lists prepared for use by group two. The ballots, upon being canvassed by group two, shall remain in the possession of the assistant inspector until the canvass of all ballots by both group one and group two has been completed and verified. Thereafter, the ballots shall not be examined by any person, but shall, as soon as all are counted, be carefully sealed in a strong envelope, each member of the precinct board writing his name across the seal.

Tally lists

7043. The tally list shall be in such form as may be prepared by the county clerk, clerk, or secretary of the body conducting the election, except that it shall be prepared in such manner as to provide for the canvass of approximately one-half of the sum total of candidates and measures appearing on the ballots for the precinct in two tally books prepared and furnished for the use by group one of the precinct board, while the remaining approximately one-half of the candidates and measures shall be contained in an additional two tally lists prepared and furnished for use by group two of the precinct board. The tally lists shall be prepared with the names of candidates and measures in the same chronological order as they appear upon the ballots and shall otherwise conform to the provisions of Section 7019, except that the certificate shall be signed by the members of the group canvassing the ballots tallied therein. The tally lists shall be distinctly marked for group one and group two.

Applicable provisions

7044. In all other respects the canvass and declaration of results shall be made in the manner provided in Article 1 of Chapter 1, Division 9, and the duties of the assistant inspector shall be the same as those of the inspector in relation to the canvass of the ballots by group two.

424.6. Sale of Motor Vehicles. No owner, including a purchaser under a conditional sales contract, of a motor vehicle of which the registration card and license plates are suspended under the provisions of Section 424.1 shall transfer title to said motor vehicle nor his interest therein unless he furnishes to the department security in an amount which the department is satisfied is equivalent to the value of said vehicle or his interest therein, but not exceeding the amount of security fixed by the department under Section 420.

Construction

424.7. Rights and Remedies of Lien Holds as to Stored Motor Vehicles. (a) Nothing in this chapter shall affect the interest of any legal owner holding a valid mortgage, condi-
