In effect September 15, 1961

[Approved by Governor June 9, 1961. Filed with Secretary of State June 9, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 19615.5 is added to the Education Code, to read:

19615.5. The provisions of this section shall apply to any school district which has succeeded to and become vested with all duties, powers, purposes, jurisdiction, and responsibility with respect to a portion of an apportionment determined or redetermined to have been expended, or to be expendable, for property acquired or to be acquired by it, and which has become liable for a portion of the annual repayment of a portion of an apportionment, as provided in Section 19662.

If, on or before June 30th of any fiscal year, the governing board of any such school district files a request with the State Controller for a deferment of the annual repayment due from such district during the next succeeding fiscal year for an apportionment received by the district pursuant to this chapter, and it is determined, in accordance with this section, that the district is entitled to a deferment of all or part of such annual repayment, the deferment shall be made in accordance with such determination. The request for deferment, once filed with the State Controller, shall remain in effect in each ensuing year, and the State Controller shall continue to compute and allow the deferment in accordance with this section each year, until such time as the governing board of the school district files a written request with the State Controller to discontinue the deferment.

The portion of the annual repayment to be deferred under this section shall be determined as follows:

There shall be computed the amount required to be raised by taxes on property within the district during the fiscal year in which the annual repayment is to be deducted pursuant to Section 19611, for the payment of principal and interest on: (a) that portion of the annual repayment and all other payments due the State under Section 19604 and other provisions of this chapter with respect to the portion of the apportionment for which the district has been determined to be liable under Section 19662; (b) any bonded indebtedness incurred for school purposes prior to the first conditional apportionment to the school district under this chapter; (c) any bonded indebtedness which was incurred as a condition to any apportionment under this chapter; and (d) any bonded indebtedness incurred, the proceeds of which were required to be contributed for the purposes for which an apportionment was made under this chapter. To this amount shall be added the amount required during such fiscal year, for the annual repayment of school building apportionments under this chapter. The total of these amounts shall constitute the "basic tax amount."

If the applicant district is a unified district, the amount to be deferred shall be separately considered for each grade level thereof. For this purpose, the basic tax amount shall only include the amounts specified in the preceding paragraph required to be raised for the repayment of principal and interest on bonded indebtedness which was incurred for, or as a condition to receiving an apportionment for, or required by the board to be contributed for the purposes of, the grade level being considered, plus those amounts required for the annual repayment of apportionments made under this chapter for such grade level.

There shall be computed the amount which would be produced by a tax of forty cents ($0.40) on each one hundred dollars ($100) of assessed valuation of the district during such

year, to be known as the "forty-cent tax amount." The amount of the annual repayment to be deferred during the fiscal year in which the annual repayment is due shall be the amount, if any, by which the basic tax amount exceeds the forty-cent tax amount. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

On or before the last day of July of each fiscal year, the State Controller shall request the Director of Finance to, and the Director of Finance shall, determine and certify to the State Controller the amount of bonded debt service included in the "basic tax amount." On or before the third Monday in August of each fiscal year, the State Controller shall request the county auditor of each county to, and the county auditor of each county shall, determine and certify to the State Controller the current assessed valuation of property within each district which has filed a request for a deferment under this section.

Before the date on which the board of supervisors makes the levy of taxes for county purposes, the State Controller shall make the deferment determination required by this section for each district requesting a deferment, and, for each district which is entitled to a deferment, shall notify, in writing, the board of supervisors of the county, the governing board of the district, the county auditor, and the county superintendent of schools having jurisdiction over the district of the amount of the repayment of the district which is to be deferred under this section.

For the purposes of this section the "annual repayment" means the amount of the annual repayment of the district due in a fiscal year as determined pursuant to Section 19604, plus the then unpaid deferred amount of any annual repayment due in any previous fiscal years.

Notwithstanding any other provision of this chapter, if, at the end of the 30-year period provided in Section 19614 there are any deferred amounts due in any previous fiscal year remaining unpaid, repayments shall continue to be made in the manner provided by this section during each fiscal year thereafter until the amounts are paid, or for an additional period of 10 years, whichever first occurs. At the expiration of the additional 10-year period the unpaid portion of the deferred amounts shall be canceled on the books of the State Controller, and the provisions of Section 19614 shall thereupon become applicable thereto and the board shall execute a conveyance to the district as provided in Section 19616.

In effect September 15, 1961

[Approved by Governor June 9, 1961. Filed with Secretary of State June 10, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 1161 of the Code of Civil Procedure is amended to read:

Unlawful detainer by tenant, etc

1161. A tenant of real property, for a term less than life, or the executor or administrator of his estate heretofore qualified and now acting or hereafter to be qualified and act, is guilty of unlawful detainer:

1. When he continues in possession, in person or by subtenant, of the property, or any part thereof, after the expiration of the term for which it is let to him; provided such expiration is of a nondefault nature however brought about without the permission of his landlord, or the successor in estate of his landlord, if any there be; including the case where the person to be removed became the occupant of the premises as a servant, employee, agent, or licensee and the relation of master and servant or employer and employee or principal and agent or licensor and licensee has been lawfully terminated or the time fixed for such occupancy by the agreement between the parties has expired; but nothing in this subdivision contained shall be construed as preventing the removal of such occupant in any other lawful manner; but in case of a tenancy at will, it must first be terminated by notice, as prescribed in the Civil Code.

2. When he continues in possession, in person or by subtenant, without the permission of his landlord, or the successor in estate of his landlord, if any there be, after default in the payment of rent, pursuant to the lease or agreement under which the property is held, and three days' notice, in writing, requiring its payment, stating the amount which is due, or possession of the property, shall have been served upon him and if there is a subtenant in actual occupation of the premises, also upon such subtenant.

Such notice may be served at any time within one year after the rent becomes due. In all cases of tenancy upon agricultural lands, where the tenant has held over and retained possession for more than 60 days after the expiration of the term without any demand of possession or notice to quit by the landlord or the successor in estate of his landlord, if any there be, he shall be deemed to be holding by permission of the landlord or successor in estate of his landlord, if any there be, and shall be entitled to hold under the terms of the lease for another full year, and shall not be guilty of an unlawful detainer during said year, and such holding over for the period aforesaid shall

be taken and construed as a consent on the part of a tenant to hold for another year.

3. When he continues in possession, in person or by subtenant, after a neglect or failure to perform other conditions or covenants of the lease or agreement under which the property is held, including any covenant not to assign or sublet, than the one for the payment of rent, and three days' notice, in writing, requiring the performance of such conditions or covenants, or the possession of the property, shall have been served upon him, and if there is a subtenant in actual occupation of the premises, also, upon such subtenant. Within three days after the service of the notice, the tenant, or any subtenant in actual occupation of the premises, or any mortgagee of the term, or other person interested in its continuance, may perform the conditions or covenants of the lease or pay the stipulated rent, as the case may be, and thereby save the lease from forfeiture; provided, if the conditions and covenants of the lease, violated by the lessee, cannot afterward be performed, then no notice, as last prescribed herein, need be given to said lessee or his subtenant, demanding the performance of the violated conditions or covenants of the lease.

A tenant may take proceedings, similar to those prescribed in this chapter, to obtain possession of the premises let to a subtenant or held by a servant, employee, agent, or licensee, in case of his unlawful detention of the premises underlet to him or held by him.

4. Any tenant, subtenant, or executor or administrator of his estate heretofore qualified and now acting, or hereafter to be qualified and act, assigning or subletting or committing waste upon the demised premises, contrary to the conditions or covenants of his lease, or maintaining, committing, or permitting the maintenance or commission of a nuisance upon the demised premises or using such premises for an unlawful purpose, thereby terminates the lease, and the landlord, or his successor in estate, shall upon service of three days' notice to quit upon the person or persons in possession, be entitled to restitution of possession of such demised premises under the provision of this chapter.

5. When he gives written notice as provided in Section 1946 of the Civil Code of his intention to terminate the hiring of the real property, or makes a written offer to surrender which is accepted in writing by the landlord, but fails to deliver up possession at the time specified in said written notice, without the permission of his landlord, or the successor in estate of the landlord, if any there be.

County of 35,000 or less

SEC. 12. Section 24077 is added to said code, to read:

24077. Notwithstanding any other provision of law, no license shall be transferred into any county having a population of 35,000 or less.

Urgency

SEC 13. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the existing law, unless amended immediately, the Department of Alcoholic Beverage Control will be forced to issue a huge number of new liquor licenses in view of the population increases in several counties, as shown by the 1960 decennial census, which issuance would result in overconcentration of licensed premises in many counties.

Furthermore, there are in the existing law no meaningful standards for distributing these licenses to meet actual demand, but instead they would merely be issued on a first-come, first-served basis. This act is designed to alleviate the above problems in the interest of the public welfare and morals, and it is therefore necessary that this act go into immediate effect.

Section 1. There is hereby granted to the County of Sonoma, and to its successors all of the right, title, and interest of the State of California, held by said State by virtue of its sovereignty in and to all of the tide and submerged lands bounded and described as follows:

That part of Bodega Harbor, in Sonoma County, California, situated inside and landward of a straight line beginning at the southwesterly end of the South Jetty at the entrance to said Bodega Harbor at its intersection with Bodega Head, running thence north to a point in the North Jetty on the sand spit locally known as "Doran Park"; said tide and submerged lands lie bayward of the ordinary high water mark as meandered and shown on the United States General Land Office Plat for Bodega Ranch, and specifically described on said plat between stations; and by courses numbered 79 to 131, both inclusive, as surveyed by the U. S. Surveyor General for California and dated November 21, 1857.

To be forever held by said county, and its successors, in trust for the uses and purposes and upon the express conditions following, to wit:

(a) That said lands shall be used by said county, and its successors, only for the establishment, improvement and conduct of a harbor, including an airport or aviation facilities, and for the construction, maintenance and operation thereon of wharves, docks, piers, slips, quays and other utilities, structures, facilities and appliances necessary or convenient for the promotion and accommodation of commerce and navigation by air as well as by water, and said county, or its successors, shall not, at any time, grant, convey, give or alien said lands, or any part thereof, to any individual, firm or corporation for any purposes whatever; provided, that said county, or its successors, may grant franchises thereon for limited periods (but in no event exceeding 50 years), for wharves and other public uses and purposes and may lease said lands, or any part thereof, for limited periods (but in no event exceeding 50 years), for purposes consistent with the trust upon which said lands are held by the State of California, and with the requirements of commerce and navigation at said harbor, and collect and retain rents from such leases.

Nothing contained in this paragraph (a) shall be deemed to affect the validity or term of any franchise granted by said county under the Broughton Act, and any such franchise shall be effective with respect to said lands when title thereto passes to said county hereunder.

(b) That said lands shall be improved by said county without expense to the State, and shall always remain available for public use for all purposes of commerce and navigation, and the State of California shall have at all times, the right to use, without charge, all wharves, docks, piers, slips, quays, and other improvements and facilities constructed on said lands, or any part thereof, for any vessel or other water or aircraft, or railroad, owned or operated by the State of California.

(c) That in the management, conduct or operation of said harbor, or of any of the utilities, structures, appliances or facilities mentioned in paragraph (a), no discrimination in rates, tolls, or charges or in facilities for any use or service in connection therewith shall ever be made, authorized or permitted by said county or its successors.

(d) There is hereby reserved, however, in the people of the State of California the absolute right to fish in the waters of said harbor with the right of convenient access to said waters over said lands for said purposes.

(e) There is hereby excepted and reserved to the State of California all deposits of minerals, including oil and gas, in said land, and to the State of California, or persons authorized by the State of California, the right to prospect for, mine, and remove such deposits from said land: provided, that any lease of said land proposed to be made by said county may, with respect to the reservation of mineral rights by the State set forth in this subdivision (e), be submitted by said county to the State Lands Commission. Acting by and through the State Lands Commission, indicated by appropriate endorsement on the proposed lease, the State may agree that, for the term of said lease, the State, its successors or assigns, shall not have the right to enter upon the surface of the lands proposed to be leased for the purpose of extracting or removing said minerals, but shall have the right to extract and remove said minerals by means of slant-drilled wells located on adjacent or nearby land or by any other means that shall not require entry upon the surface of the premises proposed to be leased, and which will not impair the lateral or subjacent support of the demised premises and of any fill or improvements then on the demised premises or which may thereafter be placed thereon. As a condition precedent to such action, the State Lands Commission shall first ascertain that the State has immediate and unimpaired access to lands adjacent or contiguous, or both, to the premises described in the proposed lease for the purpose of carrying out such mineral extractions, without cost to the State, and that such access by the State shall remain unimpaired for the term of the proposed lease. Any interruption of such unimpaired access by the State, during the term of the lease, shall operate to terminate any limitation upon its rights which may have been accepted by the State, pursuant to this subdivision (e), prior to the effective date of the lease.

(f) The lands herein described are granted subject to the express reservation and condition that the State may at any time in the future use said lands or any portion thereof for highway purposes without compensation to the county, its successors or assigns, or any person, firm or public or private corporation claiming under it, except that in the event improvements have been placed upon the property taken by the State for said purposes, compensation shall be made to the per-

son entitled thereto for the value of his interest in the improvements taken or the damages to such interest.

(g) That within 10 years from the effective date of this act said lands shall be substantially improved by said county without expense to the State, and if the State Lands Commission determines that the county has failed to improve said lands as herein required, all right, title, and interest of said county in and to all lands granted by this act shall cease and said lands shall revert and rest in the State.

(h) Within 10 years from the effective date of this act said county may present to the State Lands Commission a plan for the improvement and development of said lands. If the commission determines that the plan and the improvements contemplated therein would, if completed, constitute substantial improvement within the meaning of subdivision (g) of this section, it shall conditionally approve the plan. Completion of the improvements thus conditionally approved, if completed within 10 years of the effective date of this act, and a determination of such completion by the commission, shall constitute a conclusive determination that the lands have been "substantially improved" within the meaning of subdivision (g), and, upon such determination by the commission, subdivision (g) and the conditions expressed therein shall be of no force or effect. Such improvements must be completed within the 10-year period, but such determination of their completion by the commission may be made after the 10-year period has elapsed.

An act to amend Sections 1185.1, 1188.2, 1189.1, 1190.1 and 1200.1 of the Code of Civil Procedure, relating to mechanics' liens.

In effect September 15, 1961

[Approved by Governor June 12, 1961. Filed with Secretary of State June 12, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 1185.1 of the Code of Civil Procedure is amended to read:

Mechanics' liens

1185.1. (a) The liens provided for by this chapter shall be direct liens and shall not in the case of any claimants other than the contractor be limited, as to amount, by any contract price agreed upon between the contractor and the owner except as hereinafter provided. Such liens shall not in any case exceed in amount the reasonable value of the labor done or the material furnished, or both, for which the lien is claimed, nor the price agreed upon for the same between the claimant and the person by whom he was employed. Such liens shall not, in any case where the claimant was employed by a contractor or subcontractor, extend to any labor or materials not embraced within or covered by the original contract between the contractor and the owner, or any modification thereof made

by or with the consent of such owner, and of which such contract or modification thereof the claimant shall have had actual notice before the performance of such labor or the furnishing of such materials.

(b) The filing of an original contract for a work of improvement or of a modification of such original contract in the office of the county recorder of the county where the property is situated, before the commencement of the work, shall be equivalent to the giving of actual notice of the provisions thereof by the owner to all persons performing work or furnishing materials thereunder.

(c) In case said original contract is so filed and the bond of the contractor is recorded in the office of the county recorder before the work is commenced and that said bond shall have good and sufficient sureties in an amount not less than fifty (50) percent of the contract price named in said contract, which bond shall, in addition to any conditions for the performance of the contract, be also conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to, such work, and shall also by its terms be made to inure to the benefit of any and all persons who perform labor upon or furnish materials to be used in or furnish appliances, teams, or power contributing to, the work described in said contract as to give such persons a right of action to recover upon said bond in any suit brought to foreclose the liens provided for in this chapter or in a separate suit brought on said bond, then the court must, where it would be equitable so to do, restrict the recovery under such liens to an aggregate amount equal to the amount found to be due from the owner to the contractor and render judgment against the contractor and his sureties on said bond for any deficiency or difference there may remain between said amount so found to be due to the contractor and the whole amount found to be due to claimants for such labor or materials or both.

(d) It is the intent and purpose of this section to limit the owner's liability, in all cases, to the measure of the contract price where he shall have filed or caused to be filed in good faith his original contract and to have recorded a valid bond with good and sufficient sureties in the amount and upon the conditions as herein provided. It shall be lawful for the owner to protect himself against any failure of the contractor to perform his contract and make full payment for all work done and materials furnished thereunder by exacting such bond or other security as he may deem necessary.

SEC. 2. Section 1188.2 of the Code of Civil Procedure is amended to read:

1188.2. In the event the holder of any mortgage or deed of trust which otherwise would be inferior to the liens provided for in Articles 1 to 4, inclusive, of Chapter 2, Title 4, Part 3 of the Code of Civil Procedure, which liens arise out of a work

Holder of mortgage, trust deed

of improvement upon the property to which the mortgage or deed of trust attaches, shall procure or cause to be procured a bond with good and sufficient sureties which complies with the requirements of this section and shall record such bond in the office of the county recorder of the county in which the property is situated either concurrently with or after the filing for record of such mortgage or deed of trust, then such mortgage or deed of trust shall be prior and paramount to the liens of all persons arising out of such work of improvement for work done or materials furnished subsequent to the time such bond is recorded as herein provided. Such bond, upon which either the contractor or owner may be the principal, must comply with the following requirements: (1) it must be in an amount not less than 75 percent of the face principal amount of such mortgage or deed of trust, (2) it must refer to the mortgage or deed of trust in connection with which the bond is given, and (3) it must be conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to such work of improvement, and there must be incorporated in such bond a provision by its express terms making it inure to the sole benefit of any and all persons who perform labor upon, or furnish materials to be used in, or furnish appliances, teams, or power contributing to such work of improvement, so as to give such persons a right to recover upon said bond in any suit to foreclose such liens, or in a separate suit brought on said bond.

The provisions of this section shall not apply to liens provided for by Section 1184.1 of the Code of Civil Procedure, the priority of such liens being as provided by Section 1189.1(b) of the Code of Civil Procedure.

The original record of any bond, or a certified copy thereof, which has been filed for record pursuant to this chapter may be read in evidence in an action or proceeding with the like effect as the original instrument, without further proof.

SEC. 3. Section 1189.1 of the Code of Civil Procedure is amended to read:

Separate contracts

1189.1. (a) If the work of improvement of the character referred to in Section 1184.1 is provided for in a separate contract from any contract or agreement with respect to the erection of residential units or other structures upon said lot or tract of land, then the work of improvement of the character referred to in that section shall be deemed a separate work of improvement and the commencement thereof shall not constitute a commencement of the work of improvement consisting of the erection of any residential unit or other structure upon said lot or tract of land.

Preference of liens

(b) The liens provided for in Section 1184.1 are preferred to (1) any mortgage, deed of trust, or other encumbrance which may have attached subsequent to the time when the work of improvement of the character referred to in that sec-

tion in connection with which the lien claimant has done his work or furnished his materials was commenced; or to (2) any mortgage, deed of trust, or other encumbrance of which the lien claimant had no notice and which was unrecorded at the time when such work of improvement was commenced; or to (3) any mortgage, deed of trust, or other encumbrance recorded before the commencement of the work of improvement of the character referred to in that section which was given for the sole or primary purpose of financing such work of improvement unless the loan proceeds are, in good faith, placed in the control of the lender under a binding agreement with the borrower to the effect that such proceeds are to be applied to the payment of claims for labor performed or materials used or consumed in such work of improvement and that no portion of such proceeds will be paid to the borrower in the absence of satisfactory evidence that all claims for such labor or materials have been paid or that the time for filing claims of lien arising out of such work of improvement has expired and no such claims have been filed; provided, however, that in the event the owner of the land or the holder of any mortgage, deed of trust, or other encumbrance thereon shall procure or cause to be procured a bond with good and sufficient sureties which shall be conditioned for the payment in full of the claims of all persons performing labor upon or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to such work of improvement, and shall cause to be incorporated in said bond a provision by its express terms making it inure to the benefit of any and all persons who perform labor upon, or furnish materials to be used in, or furnish appliances, teams, or power contributing to such work of improvement, so as to give such persons a right to recover upon said bond in any suit brought to foreclose the liens provided for in this chapter, or in a separate suit brought on said bond, then such mortgage, deed of trust, or other encumbrance shall be prior and paramount to the liens provided for in that section arising out of such work of improvement irrespective of whether or not such mortgage, deed of trust, or other encumbrance attached before or after the time when the work of improvement commenced and irrespective of the nature or provisions for payment of the consideration of such mortgage, deed of trust, or encumbrance. Such bond given under this section must, in order to comply with its requirements, be either (1) a statutory labor and materials bond, complying with all of the provisions of Section 1185 1 of this code, save and except that said last mentioned bond may instead of being recorded, before the work of improvement is commenced, in the office of the county recorder of the county where the property is situated, be recorded in such office at any time before such work of improvement has been completed, or such bond may be (2) a bond with good and sufficient sureties in an amount not less than fifty (50) percent of the face principal amount of such mortgage, deed of trust, or other encumbrance,

and shall be given for the sole benefit of persons performing labor upon, or furnishing materials to be used in, or furnishing appliances, teams, or power contributing to the work of improvement to which said bond refers, upon which last mentioned bond either the contractor or the owner may be principal, and which last mentioned bond shall be recorded, in order to comply with the requirements of this section, before the work of improvement to which said bond refers is completed.

SEC. 4. Section 1190.1 of the Code of Civil Procedure is amended to read:

Notice of performance

1190.1. (a) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor, and all persons, firms and corporations, excluding the contractor, performing work or furnishing materials, or both, upon any public improvement, including highways, streets, wagon roads, viaducts or sewers, may at any time, prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, give to the owner, a notice that they have performed labor or furnished materials, or both, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor and materials and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both, and any of said persons who shall on the written demand of the owner refuse to give such notice shall thereby deprive himself of the right to claim a lien under this chapter.

Verification

(b) Such notice must be verified by the claimant, or by some person acting in his behalf, and may be given by delivering the same to said owner, personally, or by leaving it at his residence or place of business with some person in charge, or by delivering it to his architect, if any; provided, however, that in all cases in which said work is being done under a contract with the State, or with any public board, commission, or officer thereof, or with any political subdivision thereof, such notice must be filed, within said time, in the office of the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract, or with the commissioners, managers, trustees, officers, board of supervisors, board of trustees, common council or other body by whom the contract for the improvement was awarded. In the case of any contract of the State by or through the Department of Public Works, such notice must be filed with the Director of Public Works, and not with the State Controller. In the case of any contract of the State by or through any other state department, board, commission, or officer, such notice must be filed within said time with the head of such state department, board, commission, or officer and not with the State Controller. No such notice shall be invalid by reason of any defect in form;

provided, it is sufficient to inform the owner of the substantial matters herein provided for.

Duties of owner

(c) Upon such notice being given it shall be the duty of the person to whom such notice is given to, and he shall withhold from his contractor or from any person acting under his authority and to whom said labor or materials, or both have been furnished, or agreed to be furnished, sufficient money or sufficient bonds, where bonds are to be issued in lieu of money by the political subdivision which contracted for said work, due or that may become due to such contractor to answer such claim and any lien that may be filed therefor, and, if the owner is a public body whose property, by reason of public policy or otherwise, is not subject to the liens in this chapter provided for, also the reasonable cost of any litigation thereunder.

Provided, however, that if in connection with any private work of improvement, any statutory labor and material bond has been furnished under Section 1185 1 of this code complying with the provisions of such last mentioned section and has been recorded in the office of the county recorder, as in said section, provided, then in said event, it shall not be the duty of the person to whom such notice is given to withhold any moneys pursuant to such notice but such moneys may be withheld by such person to whom such notice is given.

Grounds for dispute

If the contractor asserts that the claim upon which any such notice is based, or out of which it arises, is either: (1) not included within the types or classifications of claims referred to in this section, or (2) that the claimant is not one of the persons mentioned in Sections 1181 and 1184.1, or (3) that the amount of the claim as specified in such notice is excessive, or (4) that there is no basis in law for the claim as referred to and set out in such notice, then, on any such ground, or any combination thereof, such contractor may avail himself of the right to prepare and deliver to the department head, board, commission, or officer thereof, to whom such notice was given, an affidavit and a copy thereof alleging any one or more of the grounds hereinabove set out, and claiming that the moneys or bonds withheld by such officer, or any part of either such moneys or bonds, are being withheld improperly or in an excessive amount, and further demanding the release of all or such portion of such moneys or bonds as is alleged to be withheld improperly or in an excessive amount. Such affidavit shall state all of the facts necessary to support the claim of the contractor, and shall also state his address within this State for the purpose of permitting service by mail upon him of any counteraffidavit, notice of motion, or other notice or legal document

Affidavit stating ground

Notice to claimant

The department head, board, commission, or officer thereof, shall serve upon the claimant, either personally or by mail, a copy of the affidavit, together with a written notice stating that the affidavit and demand for release has been received and that such department head, board, commission, or officer thereof will release such moneys or bonds, or such portion of either as

has been demanded, unless the claimant files with such department head, board, commission, or officer thereof, a counter-affidavit on or before a time designated in the notice, which shall be not less than 10 nor more than 20 days after service of the copy of such affidavit. Service by mail shall be complete by placing the notice and copy of the affidavit in a sealed envelope addressed to the last known address of the claimant, registered with return receipt requested, and depositing it in the United States mail with postage fully prepaid. Proof of service, either personally or by mail, shall be made by an affidavit.

Counter-affidavit

If the claimant desires to contest the contractor's affidavit and demand for release, he shall, within the time allowed, file with the department head, board, commission, or officer thereof, a counteraffidavit alleging the details of his claim and shall also set forth in detail the specific basis upon which he contests or rebuts the claim or claims of the contractor, together with proof of service of a copy of such counteraffidavit upon the contractor.

The department head, board, commission, or officer thereof, shall not be responsible for the validity of said affidavit or counteraffidavit.

Filing

If no such counteraffidavit with proof of service is filed with the department head, board, commission, or officer thereof, within the time allowed, then such department head, commission, or officer thereof, shall forthwith release the moneys or bonds, or such portion thereof as has been demanded by such affidavit, without further notice to the claimant and shall not be liable in any manner for making such release.

Action

If such counteraffidavit, together with proof of service, is so filed, either the contractor or the claimant may file an action in the appropriate superior court for a declaration of his rights in and to such moneys or bonds as have been withheld under the original notice, together with such other relief as may be appropriate. After the filing of a suit requesting such a declaration of rights, either the contractor or the claimant shall be entitled to a hearing in the court in which the action is pending for the purpose of determining his rights under the affidavit and demand for release of such moneys or bonds or any portion of either of them and the counteraffidavit. Such hearing must be granted by the court upon motion of either party, and such hearing must be had within 15 days from the date of making of such motion, unless continued by the court for good cause. The party making the motion for hearing must give not less than five days notice in writing of such hearing to the department head, board, commission, or officer thereof, and to the other party, and shall specify in the notice that the hearing is for the purpose of determining the sufficiency of and the issues involved in the demand for release of such moneys or bonds. The notice may be of the motion or of the hearing, and upon the filing of the notice with the clerk of the court, the motion is deemed made.

At such hearing, the contractor who has filed the affidavit and made the demand for the release of such moneys or bonds shall have the burden of proof. The affidavit and counter-affidavits shall be filed with the court by the department head, board, commission, or officer thereof, who received them, and they shall constitute the pleadings, subject to the power of the court to permit an amendment in the interest of justice. The affidavit of the contractor shall be deemed controverted by the counteraffidavit, and both shall be received in evidence. Hearing

Nothing herein contained shall be construed to deprive any party of the right of a jury trial in any case where such right is given by the Constitution, but a jury trial may be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury and no evidence other than the affidavit and counter-affidavit is offered, if the court is satisfied that sufficient facts are shown thereby, it may make its determination thereon, otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counteraffidavits. At the conclusion of the hearing, the court shall make and enter its order determining whether the demand for release of such moneys or bonds shall be allowed or not, which order shall be determinative as to the right of the claimant to have the moneys or bonds further withheld by the department head, board, commission, or officer thereof. No determination in the summary proceedings under this section shall be res adjudicata with respect to any right of action by the claimant against either principal or surety on or under the statutory labor and material bond given under Sections 4200 to 4208, inclusive, of the Government Code, commonly referred to as the California Public Works Bond Act, or with respect to any right of action against any party personally liable to claimant. The contractor shall, either personally or by mail, serve a copy of said order on the appropriate department head, board, commission, or officer thereof. Jury trial

(d) In the event the moneys so withheld or required to be withheld shall be insufficient to pay in full the valid demands of all persons by whom such notices were given, the same shall be distributed among such persons in the same ratio that their respective claims bear to the aggregate of such valid demands. Such pro rata distribution of said moneys shall be made among the persons entitled to share therein, without regard to the order of priority in which their respective notices may have been given or their respective actions, if any, commenced. Pro rata distribution

(e) Any person who shall willfully give a false notice of his claim to the owner or who shall willfully include in his claim work or materials not performed upon or furnished for the property described in such notice shall forfeit all right to participate in the pro rata distribution of such moneys and all right to any lien under this chapter. False notice Penalty

(f) Nothing in this article contained shall be construed to impair in any manner the right of any person by whom such

notice has been given to recover from the contractor or his sureties any deficit that may remain unpaid after such pro rata distribution in an action upon the bond provided for by Section 4200 of the Government Code.

"Owner" (g) The word "owner" as used in this action, includes the State, or any public board, commission, or officer, thereof, or any political subdivision thereof, whether the said work be done by or under the direction of said State, public board, commission, or officer thereof, or any political subdivision thereof.

Notice of claims (h) Any of the persons mentioned in Sections 1181 and 1184.1, except the contractor at any time prior to the expiration of the period within which claims of lien must be filed for record, as prescribed by the provisions of Section 1193.1 of this code, may, in any instance in which the funds with which the cost of the work of improvements are, wholly or in part, to be defrayed from the proceeds of a building loan, give to the mortgagee, beneficiary under deed of trust, or assignee or successor in interest of either, or to any escrow holder or other party holding any funds furnished or to be furnished by the owner or lender or any other person as a fund from which to pay construction costs or arising out of a construction or building loan, a notice similar to the one provided for in subdivision (a) of this section, whereupon the person so given such notice under this subsection may withhold funds to answer such claims and any lien that may be filed therefor, but shall be under no obligation to do so unless a bond is furnished as hereinafter provided.

If such person entitled to file such a claim under this subsection files with the person holding such funds as a fund from which to pay such construction costs, a bond with good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, undertaking that if the defendant recovers judgment in an action brought on said verified claim or on the lien filed by the claimant, the lien claimant will pay all costs that may be awarded against the owner, contractor, or person holding such funds, or any of them, and all damages that such owner, contractor, or person holding such funds may sustain by reason of the equitable garnishment effected by the claim or by reason of the lien, not exceeding the sum specified in the undertaking, then the person holding such funds must withhold from the borrower or other person to whom said owner may be obligated to make payments or advancements out of said fund sufficient money to answer such claim, and any lien that may be filed therefor. No assignment by the owner or contractor of construction loan funds, whether made before a verified claim is filed, or after such claim is filed shall be held to take priority over claims filed under this subsection (h) and such assignment shall have no binding force insofar as the rights of claimants who file claims hereunder are concerned.

Disputed claims

(i) If the contractor, subcontractor, or any other person against whom any claim is filed under subsection (h) above, or if the owner, mortgagee, beneficiary under deed of trust, escrow holder or any other person, disputes the correctness or validity of any claim so filed on private construction work, the contractor, subcontractor, owner or any such other person disputing such claim, may file with the custodian of such fund a bond executed by good and sufficient sureties in a penal sum equal to one and one-quarter times the amount of such claim, which bond shall guarantee the payment of any sum not exceeding the penal obligation of the bond, which the claimant may recover on the claim, together with his costs of suit in the action, if he recovers therein. Upon the filing of such last mentioned bond the funds withheld to respond to the verified claim shall forthwith be released.

Applicability

(j) Subsections (h) and (i) above shall not apply to public work; nor shall either of such sections be applicable if in connection with a private work of improvement any statutory labor and material bond has been furnished under Section 1185.1 of this code complying with the provisions of such Section 1185.1, and has been recorded in the office of the county recorder at any time prior to the filing of the first verified claim or notice to withhold.

Service of claim or notice

(k) To be effective any verified claim or notice to withhold filed under subsection (h) served upon a banking corporation or association, building and loan association, title insurance company, escrow holder or other person holding such construction funds, and maintaining branch offices must be given to or served upon the manager or other responsible officer or person at the office or branch thereof administering or holding such construction funds.

Same Registered mail

(*l*) Any verified claim or notice to withhold may be served by registered mail with the same effect as by personal service.

Objection to sufficiency of sureties

(m) If the person holding the funds objects to the sufficiency of the sureties on the bond referred to in subsection (h) above, he must give notice in writing to the claimant within 20 days after the service of the notice provided for in subsection (h) that he so objects, in which event the claimant may within 10 days after the receipt of such written objection substitute for the bond so objected to a similar bond in like amount executed by a corporate surety licensed to write such bonds in the State of California, and if the claimant fails to do so the party served with such verified claim or notice to withhold may disregard the same and release all funds withheld in response thereto.

SEC 5. Section 1200.1 of the Code of Civil Procedure is amended to read:

Exoneration of sureties

1200.1. (a) The surety or sureties on any bond given pursuant to any of the provisions of this chapter shall not be exonerated or released from the obligation of the bond by any change, alteration, or modification in or of any contract, plans, specifications, or agreement pertaining or relating to any

scheme or work of improvement or pertaining or relating to the furnishing of labor, materials, or equipment therefor, nor by any change or modification of any terms of payment or extension of the time for any payment relating or pertaining to any scheme or work of improvement, nor by any rescission or attempted rescission of any such contract or agreement, nor by rescission or attempted rescission of the bond, nor by any conditions precedent or subsequent in the bond attempting to limit the right of recovery of laborers or materialmen otherwise entitled to recover under any such contract or agreement or under the bond, nor, where the bond is given for the benefit of laborers, materialmen, or other persons entitled to claim a lien under this chapter, by any fraud practiced by any person other than such laborer, materialman, or like person as is seeking to recover on the bond.

Construction of bond agreements

(b) All bonds given pursuant to the provisions of this chapter will be construed most strongly against the surety and in favor of all persons for whose benefit such a bond is given, and under no circumstances shall a surety be in anywise released from liability to the said laborers or materialmen or persons furnishing appliances, teams, or power, for whose benefit said bond has been written, by reason of any breach of contract between owner and contractor or on the part of any obligee named in said bond, but the sole condition of recovery on the part of such person furnishing labor or material or appliances, teams, or power, as aforesaid, shall be that said labor or material has been used or consumed in or said appliances, teams, or power have contributed to the work of improvement to which said bond refers, and that the said third person for whose benefit said bond has so been made to inure has not been actually paid some part or all of the sums due him for the same.

Invalid bond provisions

(c) No provisions in any of the bonds given pursuant to any of the provisions of this chapter attempting by contract to shorten the period prescribed for the commencement of an action thereon, as laid down in Section 337 of this code, shall be valid if such provision attempts to limit the time for commencement of action thereon to a shorter period than six months from the completion of said structure or work of improvements, as "completion" is defined in Article 3 of this chapter, nor shall any provision in any of said bonds attempting to limit the period for the commencement of actions thereon be valid insofar as actions brought by persons furnishing labor or materials, appliances or teams or power, as aforesaid, are concerned, unless said bond be filed for record, before the work of improvement is commenced, with the county recorder of the county or city and county in which the property referred to therein, or some part thereof, is situated.

Recorded bonds

(d) In case the surety or sureties on any bond given as in this chapter provided shall have caused said bond to be recorded in the office of the county recorder of the county in which the property is situated before the work of improve-

ment is completed, then no action may be maintained thereon unless there shall previously have either been filed a mechanic's lien claim as in this chapter provided or unless written notice shall previously have been given to the surety on said bond before the expiration of the time prescribed in this chapter for filing a lien to enforce such claim, which notice shall state that the person giving such notice has performed labor or furnished materials, or both, or furnished appliances, teams, or power, to the contractor or other person acting by the authority of the owner, or that they have agreed to do so, stating in general terms the kind of labor, materials, appliances, teams, or power and the name of the person to or for whom the same was done or furnished, or both, and the amount in value, as near as may be, of that already done or furnished, or both, and of the whole agreed to be done or furnished, or both. The filing of an action to foreclose such lien shall not be a condition precedent to a recovery on said bond. If said bond has been so recorded as herein last provided, then any suit brought against such surety or sureties shall be filed within six months after completion of said structure or work of improvement, as "completion" is defined in Article 3 of this chapter.

Notice to sureties

(e) The written notice to be given to the surety or sureties hereinabove provided for may be given by delivery thereof personally to, or by depositing same in the mail, postage prepaid, and registered, addressed,

(1) If to an individual surety, at his residence or place of business, if known, or

(2) If to an individual surety and his residence is unknown, then in care of the county clerk of the county in which said bond has been so filed, or

(3) At the place designated as the residence of the surety in the certificate, if any, filed by such surety or sureties as provided by Section 1163 of the Civil Code, or

(4) If to a corporate surety, at the office or care of the agent designated by the surety in the bond as the address to which such notice shall be sent, or

(5) At the office or care of any officer of the surety in the State of California, or

(6) At the office of or care of the statutory agent of the surety in the State of California, or

(7) By service in the manner prescribed for the service of summons as provided by Section 411 of the Code of Civil Procedure.

(f) Any bond given pursuant to any of the provisions of this chapter which otherwise fully complies therewith shall be conclusively presumed a good and sufficient bond if the surety thereon is a corporation duly authorized to issue surety bonds in this state.

CHAPTER 805

An act to add Section 104.12 to the Streets and Highways Code, relating to state highway property.

In effect September 15, 1961

[Approved by Governor June 12, 1961. Filed with Secretary of State June 12, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 104.12 is added to the Streets and Highways Code, to read:

104.12. The department may lease to public agencies or private entities the use of areas above or below state highways, subject to such reservations, restrictions and conditions as it deems necessary to assure adequate protection to the safety and the adequacy of highway facilities and to abutting or adjacent land uses. Prior to entering into any such lease, the department shall determine that the proposed use is not in conflict with the zoning regulations of the local government concerned. Such leases shall be made in accordance with procedures to be prescribed by the California Highway Commission, except that in the case of leases with private entities such leases shall only be made after competitive bidding unless the commission finds by unanimous vote that in certain cases competitive bidding would not be in the best interests of the State. The possibilities of entering into such leases and the consequent benefits to be derived therefrom may be considered by the department in designing and constructing such highways.

Revenues from such leases shall be deposited in the State Highway Fund.

CHAPTER 806

An act to amend Section 7682 of the Labor Code, relating to inspection of boilers.

In effect September 15, 1961

[Approved by Governor June 12, 1961. Filed with Secretary of State June 12, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 7682 of the Labor Code is amended to read:

7682. The division shall inspect or cause to be inspected each installed fired boiler internally at least every year. For other classes of boilers the division shall establish internal inspection intervals which will insure the safety of people working in the vicinity of the boiler. In determining such intervals the division shall consider such factors as the design and construction of the boilers and the conditions under which they operate.

External inspection shall be made of all boilers at the time of the internal inspection and at such other intervals as are deemed necessary by the division acting through qualified safety engineers and certified inspectors.

CHAPTER 807

An act to amend Sections 10163, 10164, 10165, 10489.2, and 10489.3 of the Insurance Code, relating to valuation and nonforfeiture requirements.

[Approved by Governor June 12, 1961. Filed with Secretary of State June 12, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 10163 of the Insurance Code is amended to read:

Adjusted premiums

10163. Except as provided in the third paragraph of this section, the adjusted premiums for any policy shall be calculated on an annual basis and shall be such uniform percentage of the respective premiums specified in the policy for each policy year, excluding extra premiums on a substandard policy, that the present value, at the date of issue of the policy, of all such adjusted premiums shall be equal to the sum of (i) the then present value of the future guaranteed benefits provided for by the policy; (ii) two percent (2%) of the amount of insurance, if the insurance be uniform in amount, or of the equivalent uniform amount, as hereinafter defined, if the amount of insurance varies with duration of the policy; (iii) forty percent (40%) of the adjusted premium for the first policy year; (iv) twenty-five percent (25%) of either the adjusted premium for the first policy year or the adjusted premium for a whole life policy of the same uniform or equivalent uniform amount with uniform premiums for the whole of life issued at the same age for the same amount of insurance, whichever is less. In applying the percentages specified in (iii) and (iv) above, no adjusted premium shall be deemed to exceed four percent (4%) of the amount of insurance or uniform amount equivalent thereto

In the case of a policy providing an amount of insurance varying with duration of the policy, the equivalent uniform amount thereof for the purpose of this section shall be deemed to be the uniform amount of insurance provided by an otherwise similar policy, containing the same endowment benefit or benefits, if any, issued at the same age and for the same term, the amount of which does not vary with duration and the benefits under which have the same present value at the date of issue as the benefits under the policy, provided, however, that in the case of a policy providing a varying amount of insurance issued on the life of a child under age 10, the equivalent uniform amount may be computed as though the amount of insurance provided by the policy prior to the attainment of age 10 were the amount provided by such policy at age 10

The adjusted premiums for any policy providing term insurance benefits by rider or supplemental policy provision unless such term insurance benefits are disregarded under Section 10164 shall be equal to (a) the adjusted premiums for

an otherwise similar policy issued at the same age without such term insurance benefits, increased, during the period for which premiums for such term insurance benefits are payable, by (b) the adjusted premiums for such term insurance, the foregoing items (a) and (b) being calculated separately and as specified in the first two paragraphs of this section.

Except as otherwise provided in Section 10163.5, all adjusted premiums and present values referred to in this article shall for all policies of ordinary insurance be calculated on the basis of the Commissioners 1941 Standard Ordinary Mortality Table; provided, however, that for any category of ordinary insurance issued on female risks, adjusted premiums and present values may be calculated, at the option of the insurer, according to an age not more than three years younger than the actual age of the insured. Such calculations for all policies of industrial insurance shall be made on the basis of the 1941 Standard Industrial Mortality Table. All calculations shall be made on the basis of the rate of interest, not exceeding three and one-half percent (3½%) per annum, specified in the policy for calculating cash surrender values and paid-up nonforfeiture benefits. However, in calculating the present value of any paid-up term insurance with accompanying pure endowment, if any, offered as a nonforfeiture benefit, the rates of mortality assumed may be not more than one hundred thirty percent (130%) of the rates of mortality according to such applicable table; and for insurance issued on a substandard basis, the calculation of any such adjusted premiums and present values may be based on such other table of mortality as may be specified by the insurer and approved by the commissioner.

SEC. 2. Section 10164 of said code is amended to read:

Proration of values

10164 Any cash surrender value and any paid-up nonforfeiture benefit available under the policy in the event of default in a premium payment due at any time other than on the policy anniversary, shall be calculated with allowance for the lapse of time and the payment of fractional premiums beyond the last preceding policy anniversary. All values referred to in Sections 10161, 10162, 10163 and 10163.5 may be calculated upon the assumption that any death benefit is payable at the end of the policy year of death. The net value of any paid-up additions, other than paid-up term additions, shall be not less than the dividends used to provide such additions. Notwithstanding the provisions of Section 10161, additional benefits payable (a) in the event of death or dismemberment by accident or accidental means, (b) in the event of total and permanent disability, (c) as reversionary annuity or deferred reversionary annuity benefits, (d) as term insurance benefits provided by a rider or supplemental policy provision to which, if issued as a separate policy, this article would not apply, (e) as term insurance on the life of a child or on the lives of children provided in a policy on the life of a parent of the child, if such term insurance expires

before the child's age is 26, is uniform in amount after the child's age is one, and has not become paid up by reason of the death of a parent of the child, and (f) as other policy benefits additional to life insurance and endowment benefits, and premiums for all such additional benefits, shall be disregarded in ascertaining cash surrender values and nonforfeiture benefits required by this article, and no such additional benefits shall be required to be included in any paid-up nonforfeiture benefits.

SEC. 3. Section 10165 of said code is amended to read:

Exemptions

10165. This article shall not apply to any reinsurance, group insurance, pure endowment, annuity or reversionary annuity contract, nor to any term policy of uniform amount, or renewal thereof, of 15 years or less expiring before age 66, for which uniform premiums are payable during the entire term of the policy, nor to any term policy of decreasing amount on which each adjusted premium, calculated as specified in Sections 10163 and 10163.5, is less than the adjusted premium so calculated on a policy issued at the same age and for the same initial amount of insurance for a term defined as follows: for ages at issue 50 and under the term shall be 15 years; thereafter, the term shall decrease one year for each year of age beyond 50, nor to any policy which shall be delivered outside this State through an agent or other representative of the company issuing the policy.

SEC. 4. Section 10489.2 of said code is amended to read:

Minimum standard

10489.2. The minimum standard for the valuation of all such policies and contracts shall be the commissioners reserve valuation method defined in Section 10489.3, three and one-half percent (3½%) interest, and the following tables:

(a) For all ordinary policies of life insurance issued on the standard basis, excluding any disability and accidental death benefits in such policies—the Commissioners 1941 Standard Ordinary Mortality Table for such policies issued prior to the operative date of Section 10163.5, and the Commissioners 1958 Standard Ordinary Mortality Table for such policies issued on or after such operative date; provided, however, that for any category of such policies issued on female risks modified net premiums and present values, referred to in Section 10489.3, may be calculated, at the option of the insurer, according to an age not more than three years younger than the actual age of the insured.

(b) For all industrial life insurance policies issued on the standard basis, excluding any disability and accidental death benefits in such policies—the 1941 Standard Industrial Mortality Table.

(c) For individual annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies—the 1937 Standard Annuity Mortality Table or, at the option of the company, the Annuity Mortality Table for 1949, Ultimate, or any modification of either of these tables approved by the commissioner.

(d) For group annuity and pure endowment contracts, excluding any disability and accidental death benefits in such policies—the Group Annuity Mortality Table for 1951, any modification of such table approved by the commissioner, or, at the option of the company, any of the tables or modifications of tables specified for individual annuity and pure endowment contracts.

(e) For total and permanent disability benefits in or supplementary to ordinary policies or contracts—for policies or contracts issued on or after January 1, 1966, the tables of Period 2 disablement rates and the 1930 to 1950 termination rates of the 1952 Disability Study of the Society of Actuaries, with due regard to the type of benefit; for policies or contracts issued on or after January 1, 1961, and prior to January 1, 1966, either such tables or, at the option of the company, the Class (3) Disability Table (1926); and for policies issued prior to January 1, 1961, the Class (3) Disability Table (1926) Any such table shall, for active lives, be combined with a mortality table permitted for calculating the reserves for life insurance policies

(f) For accidental death benefits in or supplementary to policies—for policies issued on or after January 1, 1966, the 1959 Accidental Death Benefits Table, for policies issued on or after January 1, 1961, and prior to January 1, 1966, either such table or, at the option of the company, the Inter-Company Double Indemnity Mortality Table; and for policies issued prior to January 1, 1961, the Inter-Company Double Indemnity Mortality Table. Either table shall be combined with a mortality table permitted for calculating the reserves for life insurance policies

(g) For group life insurance, life insurance issued on the substandard basis and other special benefits—such tables as may be approved by the commissioner.

SEC. 5. Section 10489.3 of said code is amended to read:

Life and endowment reserves

10489.3. Reserves according to the commissioners reserve valuation method, for the life insurance and endowment benefits of policies providing for a uniform amount of insurance and requiring the payment of uniform premiums shall be the excess, if any, of the present value, at the date of valuation, of such future guaranteed benefits provided for by such policies, over the then present value of any future modified net premiums therefor. The modified net premiums for any such policy shall be such uniform percentage of the respective contract premiums for such benefits that the present value, at the date of issue of the policy, of all such modified net premiums shall be equal to the sum of the then present value of such benefits provided for by the policy and the excess of (a) over (b), as follows:

(a) A net level annual premium equal to the present value, at the date of issue, of such benefits provided for after the first policy year, divided by the present value, at the date of issue, of an annuity of one per annum payable on the first and each

subsequent anniversary of such policy on which a premium falls due; except that such net level annual premium shall not exceed the net level annual premium on the 19-year premium whole life plan for insurance of the same amount at an age one year higher than the age at issue of such policy.

(b) A net one-year term premium for such benefits provided for in the first policy year.

Reserves according to the commissioners reserve valuation method for (1) life insurance policies providing for a varying amount of insurance or requiring the payment of varying premiums, (2) annuity and pure endowment contracts, (3) disability and accidental death benefits in all policies and contracts, and (4) all other benefits, except life insurance and endowment benefits in life insurance policies, shall be calculated by a method consistent with the principles of the preceding paragraph, except that any extra premiums charged because of impairments or special hazards shall be disregarded in the determination of modified net premiums

1874. The Regents of the University of California may provide by resolution or regulation for the care, restitution, sale or destruction of unclaimed property in the possession of the Regents of the University of California or of the University of California Police Department. Any resolution or regulation adopted pursuant to this section shall provide therein (1) that such unclaimed property shall be held by the Regents of the University of California or the University of California Police Department for a period of at least six months, (2) that thereafter such property will be sold at public auction to the highest bidder, and (3) that notice of such sale shall be given by the Regents of the University of California or the University of California Police Department at least five days before the time therefor by publication once in a newspaper of general circulation published in the county in which such property is held. CHAPTER 817

An act to add Section 2943 to the Civil Code, relating to the duties of a mortgagee and beneficiary of a deed of trust.

[Approved by Governor June 13, 1961. Filed with Secretary of State June 13, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 2943 is added to the Civil Code, to read:

2943. A mortgagee or beneficiary of a deed of trust, or his assignees, or his authorized agent, shall, on the written demand of the mortgagor or trustor, or his authorized agent or his successor in interest, made before the recording of a notice of default under a deed of trust containing a power of sale or before the commencement of a foreclosure proceeding or recordation of notice of default, prepare and deliver to him a written statement showing the amount of the unpaid balance of the obligation secured by the mortgage or deed of trust and the interest rate, the amounts of periodic payments, if any, and the date on which the obligation is due in whole or in part.

The written demand of the mortgagor or trustor or his successor in interest shall be in substantially the following form:

In accordance with Section 2943, Civil Code, demand is hereby made that a statement pertaining to that certain promissory note, $_____ dated _____ executed by _____ to _____ secured by deed of trust affecting the property more commonly known as _____ or described as
(Street address)
follows:

_____
(Legal description of trust property)
be mailed to _____ at _____
Name Address

_____
Signature

If demand is made by an agent of the trustor or by the successor in interest of the trustor, the beneficiary may, before delivering a statement, require reasonable proof that the person making the demand is, in fact, an authorized agent or a successor in interest, in which event the beneficiary shall not be subject to the penalties of this section until 30 days after receipt of statement by the trustor or his successor in interest appointing the authorized agent or successor in interest. A statement in writing signed by the trustor or his successor in interest appointing an authorized agent when delivered personally to the mortgagee or beneficiary or delivered by registered return receipt mail shall constitute reasonable proof as to the identity of an agent. Similar delivery of a policy of title

insurance, preliminary report issued by a title insurance company, original or photographic copy of a grant deed or certified copy of letters testamentary, guardianship, or conservatorship shall constitute reasonable proof as to the identity of a successor of interest, provided the person demanding a statement is named as successor in interest in the document.

Delivery of the statement by the mortgagee or beneficiary, as herein referred to, shall mean depositing or causing to be deposited in the United States mail an envelope, registered return receipt requested and with postage prepaid, containing a copy of the statement, addressed to the person whose name and address is set forth in the demand therefor.

If a mortgagee or beneficiary under a deed of trust, or his assignee, for a period of 30 days after receipt of such written demand willfully fails to prepare and deliver such statement, he is liable to the mortgagor or trustor or his successor in interest for all damages which he may sustain by reason of such refusal and, whether or not actual damages are sustained, he shall forfeit to the mortgagor or trustor the sum of one hundred dollars ($100). Each such failure to prepare and deliver such a statement, occurring at a time when, pursuant to this section, the mortgagee or trustee, is required to prepare and deliver the statement, creates a separate cause of action, but a judgment awarding a mortgagor or trustor such forfeiture, or damages and forfeiture, for any such failure to prepare and deliver a statement bars recovery of such damages and forfeiture for any other failure to prepare and deliver a statement, with respect to the same obligation, in compliance with a demand therefor made within six months before or after the demand as to which the award was made.

Notwithstanding any other provisions of this section, a mortgagee or beneficiary of a deed of trust, or his assignee, who has furnished one such statement as herein required need not furnish another until a period of six months has elapsed. If the mortgagee or beneficiary of a deed of trust, or his assignee, has more than one branch, office or other place of business, then the demand shall be made to the branch or office at which the payments of the obligation are made, and the statement, unless it specifies otherwise, shall be deemed to apply only to the unpaid balance owing to or payable at the branch or office secured by the mortgage or deed of trust.

The mortgagee or beneficiary of a deed of trust, or his assignees, may make a reasonable charge for furnishing the required statement

This section applies only to mortgages and deeds of trust executed on or after the effective date of this section.

Clinical laboratory technologist license

1261. The board shall issue a clinical laboratory technologist's license to each person found by it to be properly qualified and it shall hold written, oral, or practical examinations to aid it in judging the qualifications of applicants. The examinations for license to work in a clinical laboratory as a technologist shall cover the fields of biochemistry, hematology, and microbiology, except that the examination for a special clinical laboratory technologist's license shall be concerned only with the subject or subjects in which the license is to be issued. The minimum prerequisites for entrance into the examination shall be one of the following:

Minimum prerequisites

(a) Graduation from a college or university maintaining standards equivalent, as determined by the department, to those institutions accredited by the Western College Association or an essentially equivalent accrediting agency with a baccalaureate and a major in clinical laboratory technique, the last year of which course shall have been primarily clinical laboratory procedure; provided, however, that if the curriculum did not include practical clinical laboratory work, six months as a clinical laboratory technologist trainee or the equivalent as determined by the department in a clinical laboratory approved by the department shall be required; or

(b) Graduation from a college or university maintaining standards equivalent, as determined by the department, to those institutions accredited by the Western College Association, or an essentially equivalent accrediting agency, with a baccalaureate and a major in one of the biological sciences or essential equivalent as may be determined by the department plus one year as a clinical laboratory technologist trainee or the equivalent as determined by the department in a clinical laboratory approved by the department. One year of practical experience in a public health laboratory may be accepted if

such experience or if university or college courses included practical work in clinical biochemistry and hematology; or

(c) A minimum of three years of experience as a clinical laboratory technologist trainee or the equivalent as determined by the department doing clinical laboratory work embracing the various fields of clinical laboratory activity in a clinical laboratory approved by the department and 60 semester hours or equivalent quarter hours of university or college work in which are included the following courses, or essential equivalent as may be determined by the department; general inorganic chemistry—8; quantitative analysis—3; basic biological science—8; bacteriology—4. Additional college or university work which includes courses in the fundamental sciences may be substituted for two of the three years of experience in the ratio of 30 semester hours or equivalent quarter hours for each year of experience; provided, however, that individuals seeking admission to the examination on or after January 1, 1965, shall meet the prerequisites specified in subdivisions (a) or (b) of this section, or the prerequisites as set forth by the Council of Medical Education and Hospitals of the American Medical Association and the Board of Registry of Medical Technologist of the American Society of Clinical Pathologists, and the American Society of Medical Technologists, or equivalent accreditation body approved by the Department of Public Health, provided, however, that the total or combined time of college or university work and practical training and experience in an approved clinical laboratory be not less than five years or as specified in subsection a.

An applicant whose application is based upon a certificate issued by such certifying board or body shall satisfy the department that the standard of the certifying board on the date that the certificate was issued was in no degree or particular less than that which was required for a technologist license under this chapter on or after January 1, 1962.

SEC. 2. Section 1263 of said code is amended to read:

Registration as a clinical laboratory technologist trainee. Qualifications

1263. The department shall register as a clinical laboratory technologist trainee each qualified person who desires a trainee status in any laboratory that is approved by the department to provide training. In order to qualify for registration an applicant must have 60 semester hours or equivalent quarter hours of university or college work in which are included the following courses, or essential equivalent as may be determined by the department; general inorganic chemistry—8; quantitative anaylsis—3; basic biological sciences—8; bacteriology—4; provided, however, that an applicant seeking registration on or after January 1, 1965, shall have graduated from a college or university maintaining standards equivalent, as determined by the department, to those institutions accredited by the Western College Association or an essentially equivalent accrediting agency with a baccalaureate and a major in clinical laboratory technique, one of the biological sciences, or essential equivalent as may be determined by the department. If the

prerequisites for certification as set forth by the Council of Medical Education and Hospitals of the American Medical Association and the Board of Registry of Medical Technologist of the American Society of Clinical Pathologists, and the American Society of Medical Technologists or equivalent accreditation body approved by the department have been fulfilled, but the total requirement specified in subsection (c) has not been fulfilled then the department shall register such person as a clinical laboratory technologist trainee. Registration certificates shall not be issued for a period in excess of two years after completion of the minimum training period required for the trainee to qualify for the clinical laboratory technologist's examination.

[Approved by Governor June 13, 1961. Filed with Secretary of State June 14, 1961.]

CHAPTER 836

An act to add Section 2572 to the Education Code, and to add Section 1733 to Division 5 of the Education Code as enacted by Assembly Bill No. 463 of the 1961 Regular Session, relating to taxes of junior college districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 13, 1961. Filed with Secretary of State June 14, 1961.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 2572 is added to the Education Code, to read:

2572. Upon the formation of a junior college district the boundaries of which are coterminous with the boundaries of a single existing high school district of any type and which said districts are thereafter governed by governing boards of identical personnel, if prior to the formation of such junior college district the voters of the high school district at an election had voted a district tax rate in excess of the maximum rate prescribed by Section 20751 of this code such excess tax rate shall be continued at the option of the governing boards of the high school and junior college districts as the maximum combined tax rate of both of said districts for combined high school and junior college purposes for a period not to exceed the period of time for which such excess tax rate was so previously authorized by the voters of the high school district. Junior college district boundaries

SEC. 2. Section 1733 is added to Division 5 of the Education Code as enacted by Assembly Bill No. 463 of the 1961 Regular Session, to read:

1733. Upon the formation of a junior college district the boundaries of which are coterminous with the boundaries of a single existing high school district of any type and which said districts are thereafter governed by governing boards of identical personnel, if prior to the formation of such junior college district the voters of the high school district at an election had voted a district tax rate in excess of the maximum rate prescribed by Section 20751 of this code such excess tax rate shall be continued at the option of the governing boards of the high school and junior college districts as the maximum combined tax rate of both of said districts for combined high school and junior college purposes for a period not to exceed the period of time for which such excess tax rate was so previously authorized by the voters of the high school district. Same

SEC. 3. The addition of Section 1733 to Division 5 of the Education Code as enacted by Assembly Bill No. 463 of the 1961 Regular Session by Section 2 of this act, shall take effect only if Assembly Bill No. 463 of said session is enacted into law; in which case it shall take effect at the same time as As- Effect Assembly Bill No. 463

sembly Bill No. 463 and Section 2572 added to the Education Code by Section 1 of this act shall be of no force or effect.

Urgency

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety, within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

When a single high school district of any type by the vote of its electorate has increased its maximum tax rate for a specified or unspecified period of time in order to meet the cost of increased current district expenditures for such period of time, and at a later date a junior college district is formed the boundaries of which are coterminous with the high school district which has so provided for an excess tax rate, and the governing boards of which said high school district and junior college district are composed of identical personnel, under the law as it now exists the express provisions of subdivision (e) of Section 20751 of the Education Code would prohibit a continuance of the excess tax rate so previously authorized by the electorate of the high school district and which electorate is identical to that of the newly formed junior college district by virtue of the fact that the boundaries of each of said districts are coterminous. Thus the existing law (by virtue of the limitation prescribed by said subdivision (e) of Section 20751) adversely affects the formation of a junior college district (which includes and comprises all and the same territory of an existing single high school district) by terminating the excess tax rate previously authorized by the electors of said high school district and which excess tax rate was authorized for the particular purpose of carrying out a specified program of the district during the period of time for which the excess tax rate was authorized. This termination of the previously authorized excess tax rate at the time when a junior college district is organized (and the boundaries of which are coterminous with said existing high school district) and before the completion of the program for which such excess tax rate was provided, creates a serious problem in that neither the high school district nor the junior college district is able to finance its respective programs within the combined limits prescribed by said subdivision (e) of Section 20751 which as so prescribed for combined high school and junior college purposes is less than the excess tax rate specifically authorized by the electorate for such combined purposes when conducted by the high school district alone and prior to the formation of the junior college district. In the absence of authority to continue the excess tax rate so previously authorized by the electorate of the high school district (and which has now become the same electorate within the coterminous junior college district) the only course is to abandon the expanded educational program financed under such excess tax rate at an incomplete stage of such program when such abandonment will render worthless or seriously im-

pair the completed part of the program and further will wholly eliminate in the future a continuance of such expanded program because of lack of continuing finances available from such excess tax revenues. In order to remove at the earliest possible time this serious obstacle to the formation of a junior college district which includes all of the identical territory comprising a single existing high school district and to continue the policy of this Legislature in encouraging the formation of such districts and in order to prevent the hardships resulting from the termination of the excess tax rate previously authorized by the identical electorate and to insure the continuous orderly administration of the entire high school and junior college program in operation and effect under such excess tax rate so authorized by the electorate, and all without interruption or loss of tax income essential to the purposes of both districts, it is necessary that this act take effect immediately.

CHAPTER 837

An act to add Chapter 7 (commencing with Section 3380) to Division 4 of the Health and Safety Code, relating to the immunization of pupils of schools.

[Approved by Governor June 13, 1961 Filed with Secretary of State June 14, 1961]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 3380) is added to Division 4 of the Health and Safety Code, to read:

CHAPTER 7. IMMUNIZATION AGAINST POLIOMYELITIS

Immunization against poliomyelitis

3380. No minor or adult shall be admitted to any public or private elementary or secondary school as a pupil unless such person has, prior to admission, been immunized against poliomyelitis in the manner and with immunizing agents approved by the State Department of Public Health.

Same Written record

3381. Such immunization shall be evidenced by a written record made on a form prescribed by the department. A copy of the record shall be given to the parent or guardian of the child, or if the person receiving immunization is an adult, the copy shall be given to him.

Immunization program

3382. The county health officer of each county shall organize and have in operation by January 1, 1962, an immunization program so that immunization is made available to all persons required by this chapter to be immunized. He shall also determine how the cost of such a program is to be recovered. To the extent that the cost to the county is in excess of that sum recovered from persons immunized, funds made available by the school districts may be used to pay the cost of

the immunization of any persons seeking admission to the public schools. The remainder of the cost shall be paid by the county in the same manner as other expenses of the county are paid.

Immunization performed by a private physician shall be acceptable for admission to school if the immunization is performed and records are made in accordance with rules established by the State Department of Public Health.

Co-operation with county health officer

3383. The governing board of each school district and the governing authority of each private school shall co-operate with the county health officer in carrying out the program for immunization of persons applying for admission to any school under its jurisdiction. The governing board of any school district may use any funds, property, and personnel of the district for that purpose. The governing board of any school district and the governing authority of any private school may permit any person licensed as a physician and surgeon to administer immunization agents to the children and adults seeking admission to any school under its jurisdiction.

Exemption on account of beliefs

3384. Immunization of a person shall not be required for admission to a public or private elementary or secondary school if the parent or guardian (in the case of a minor), or the person seeking admission (if an adult), files with the governing board of the school district or the governing authority of the private school, as the case may be, a letter stating that such immunization is contrary to his or her beliefs. However, whenever there is good cause to believe that a person is suffering from poliomyelitis, the person may be temporarily excluded from the school until the governing board of the school district or the governing authority of the private school is satisfied that the disease does not exist.

Exemption on account of medical circumstances

3385. If the parent or guardian (in the case of a minor) or the person seeking admission (if an adult) files with the governing board of the school district or the governing authority of the private school a written statement by a licensed physician to the effect that the physical condition of the child or adult is such, or medical circumstances relating to the child or adult are such that immunization is not considered safe, indicating the specific nature and probable duration of the medical condition or circumstances which contraindicate immunization, such person shall be exempt from the requirements of this chapter to the extent indicated by the physician's statement.

Rules and regulations

3386. The department shall adopt and enforce all rules and regulations necessary to carry out the provisions of this chapter.

CHAPTER 838

The requirement respecting the equivalent of one day's rest in seven shall apply, notwithstanding the other provisions of this section relating to collective bargaining agreements, where the employer and a labor organization representing employees of the employer have entered into a valid collective bargaining agreement respecting the hours of work of the employees, unless the agreement expressly provides otherwise.

In addition to the exceptions herein, the Chief of the Division of Labor Law Enforcement may, when in his judgment hardship will result, exempt any employer or employees from this chapter. Nothing contained herein shall affect contracts existing on the effective date of this amendment.

CHAPTER 842

An act to amend Section 795 of the Agricultural Code, relating to citrus fruit

In effect September 15, 1961

[Approved by Governor June 16, 1961. Filed with Secretary of State June 16, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 795 of the Agricultural Code is amended to read:

795. Oranges and limes shall be mature and free from decay; free from serious damage due to freezing, drying at the stem or stylar end (resulting from causes other than freezing), splits, bruises or punctures. Damage by drying at the stem or stylar end of all oranges and limes (resulting from causes other than freezing), is not serious unless 20 percent or more of the pulp shows staining, drying or desiccation.

Damage from freezing to any one fruit is serious if it causes either a condition of (a) "damage on the segment

walls" to the extent defined herein or (b) drying or desiccation in 20 percent or more of the exposed pulp as shown on a transverse cut through the center.

"Damage on the segment walls" means a water-soaked appearance, or evidence of previous water-soaking, or the presence of crystals or crystalline deposit, on the two surface membranes of each of two or more segments as shown on the separation of two or more segments of a section, which section shall not be less than one inch or more than one and one-half inches in thickness, obtained from the central portion of the fruit by cutting off a portion of each end—such evidence of freezing injury to show for the entire length but not necessarily the entire area of the surface membranes.

In any season in which freezing damage to oranges produced in California has occurred, the extent of damage by freezing to such oranges shall be determined as follows:

(a) By examination for damage on the segment walls from and after the time when the oranges were first exposed to freezing temperatures to the date, herein designated as date A, when the director, after survey, shall make a determination in writing that the drying process has developed to such extent as to furnish additional evidence of the extent of actual damage to the fruit.

(b) By examination of the exposed pulp on a transverse cut through the center, from and after the date, herein designated as date B, when the director, after survey, shall make a determination in writing that the drying process has developed to such extent as to permit reasonably accurate determination of the full extent of freezing damage by such examination, without regard to damage on the segment walls.

(c) Either by examination for damage on the segment walls or by examination of the exposed pulp on a transverse cut through the center, or by both such examinations, during the period from date A to date B. In no event shall the interval from date A to date B exceed three weeks.

As to oranges produced outside of the State of California and offered for distribution and sale in this State, the extent of damage by freezing shall be determined by the same methods and procedures as required for oranges produced in California unless it is not practicable to obtain sufficient accurate information upon which to establish dates A and B as required by this section for such oranges. In such case the extent of damage by freezing in any lot of such oranges shall be determined by the "damage on the segment walls" unless examination of a representative sample of the oranges in said lot shows that the drying process has developed to such extent as to permit reasonably accurate determination of the full extent of freezing damage by examination of the exposed pulp on a transverse cut through the center, in which case the latter method shall be used.

The percentage of serious damage to oranges and limes in containers, or in bulk, may be established by inspection of a

representative sample which shall consist of not less than 100 fruits. Damage caused by splits, bruises or punctures in oranges and limes is not serious if the injury is well healed and free from mold or decay.

With the exception of serious damage caused by freezing, not more than 10 percent, by count, of the oranges and limes in any one container or bulk lot may be below these requirements but with the exception of serious damage by drying at the stem or stylar end of oranges and limes (resulting from causes other than freezing), not to exceed one-half of this tolerance shall be allowed for any one cause. In the case of serious damage by freezing injury, not more than 15 percent, by count, of the oranges and limes in any one container or bulk lot may be below these requirements, but not to exceed one-third of this tolerance shall be allowed for oranges and limes which show a drying or desiccation in 40 percent or more of the exposed pulp, as shown on a transverse cut through the center. The total tolerance for a combination of defects shall not exceed the tolerance permitted for any one cause by more than 5 percent, by count.

SECTION 1. Section 24307 of the Revenue and Taxation Code is amended to read:

Discharge of indebtedness

24307. (a) No amount shall be included in gross income by reason of the discharge, in whole or in part, within the income year, of any indebtedness for which the taxpayer is liable, or subject to which the taxpayer holds property, if—

(1) The indebtedness was incurred or assumed—

(A) By a corporation; or

(B) By an individual in connection with property used in his trade or business; and

(2) Such taxpayer makes and files a consent to the regulations prescribed under Section 24918 (relating to adjustment of basis) then in effect at such time and in such manner as the Franchise Tax Board by regulations prescribes.

In such case, the amount of any income of such taxpayer attributable to any unamortized premium (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be included in gross income, and the amount of the deduction attributable to any unamortized discount (computed as of the first day of the income year in which such discharge occurred) with respect to such indebtedness shall not be allowed as a deduction.

(b) No amount shall be included in gross income by reason of the discharge, cancellation, or modification, in whole or in part, within the income year, of any indebtedness of a railroad corporation, as defined in Section 77(m) of the Bankruptcy Act (11 U.S.C. 205(m)), if such discharge, cancellation, or modification is effected pursuant to an order of a court in a receivership proceeding or in a proceeding under Section 77 of the Bankruptcy Act commenced before January 1, 1961. (c) No deduction shall be allowed under subsection (a) for any contribution or gift which would be allowable as a de-

duction under Section 24357 were it not for the percentage limitations, or the requirements as to the time of payment, set forth in such section.

(d) For purposes of this part, whenever the amount of capital contributions evidenced by a share of stock issued pursuant to Section 303 (c) of the Federal National Mortgage Association Charter Act (12 U.S.C., Section 1718) exceeds the fair market value of the stock as of the issue date of such stock, the initial holder of the stock shall treat the excess as ordinary and necessary expenses paid or incurred during the income year in carrying on a trade or business.

(b) (1) In the case of any sale of real property; if—

(A) A bank or corporation may not, by reason of its method of accounting, deduct any amount for taxes unless paid; and

(4) In the case of any sale of real property, if the bank or corporation's net income for the income year during which the sale occurs is computed under an accrual method of accounting, and if no election under Section 24681(b) (relating to the accrual of real property taxes) applies, then, for purposes of Section 24345(a), that portion of such tax which—

(A) Is treated, under subsection (a), as imposed on the bank or corporation; and

(B) May not, by reason of the bank or corporation's method of accounting, be deducted by the bank or corporation for any income year, shall be treated as having accrued on the date of the sale.

24901. (a) The gain from the sale or other disposition of property shall be the excess of the amount realized therefrom over the adjusted basis provided in Section 24911 for determining gain, and the loss shall be the excess of the adjusted basis provided in such section for determining loss over the amount realized.

Amount realized

(b) The amount realized from the sale or other disposition of property shall be the sum of any money received plus the fair market value of the property (other than money) received. In determining the amount realized—

(1) There shall not be taken into account any amount received as reimbursement for real property taxes which are treated under Section 24346 as imposed on the purchaser; and

(2) There shall be taken into account amounts representing real property taxes which are treated under Section 24346 as imposed on the bank or corporation if such taxes are to be paid by the purchaser.

Amount recognized

(c) In the case of a sale or exchange of property, the extent to which the gain or loss determined under this section shall be recognized for purposes of this part shall be determined under Section 24902.

Installment sales

Prepaid subscription income

24676. (a) Prepaid subscription income to which this section applies shall be included in gross income for the income years during which the liability described in subsection (d)(2) exists.

(b) In the case of any prepaid subscription income to which this section applies—

(1) If the liability described in subsection (d)(2) ends, then so much of such income as was not includible in gross income under subsection (a) for preceding income years shall be included in gross income for the income year in which the liability ends.

(2) If the taxpayer ceases to be subject to tax measured by net income imposed under Chapter 2 (commencing at Section 23101) or Chapter 3 (commencing at Section 23501) of this part, then so much of such income as was not includible in gross income under subsection (a) for preceding income years shall be included in the measure of tax for the last year in which the taxpayer is subject to the tax measured by net income imposed under Chapter 2 or Chapter 3 of this part.

(c) (1) This section shall apply to prepaid subscription income if and only if the taxpayer makes an election under this section with respect to the trade or business in connection with which such income is received. (2) An election made under this section shall apply to all prepaid subscription income received in connection with the trade or business with respect to which the taxpayer has made the election; except that the taxpayer may, to the extent permitted under regulations prescribed by the Franchise Tax

Board, include in gross income for the income year of receipt the entire amount of any prepaid subscription income if the liability from which it arose is to end within 12 months after the date of receipt. An election made under this section shall not apply to any prepaid subscription income received before the first income year for which the election is made.

(3) (A) A taxpayer may, with the consent of the Franchise Tax Board, make an election under this section at any time.

(B) A taxpayer may, without the consent of the Franchise Tax Board, make an election under this section for his first income year (i) which begins after December 31, 1960, and (ii) in which it receives prepaid subscription income in the trade or business. (4) An election under this section shall be effective for the income year with respect to which it is first made and for all subsequent income years, unless the taxpayer secures the consent of the Franchise Tax Board to the revocation of such election. For purposes of this part, the computation of net income under an election made under this section shall be treated as a method of accounting.

(d) For purposes of this section—

(1) The term "prepaid subscription income" means any amount (includible in gross income) which is received in connection with, and is directly attributable to, a liability which extends beyond the close of the income year in which such amount is received, and which is income from a subscription to a newspaper, magazine, or other periodical. 24677. year of that part of such amount which would have been received or accrued by the bank or corporation in a prior income year or years but for the breach of contract, or breach of a fiduciary duty or relationship, shall not be greater than the aggregate of the increases in taxes which would have resulted had such part been included in gross income for such prior income year or years.

(b) A bank or corporation in computing said tax shall be entitled to deduct all credits and deductions for depletion, depreciation, and other items to which it would have been entitled, had such income been received or accrued by the bank or corporation in the year during which it would have received or accrued it, except for such breach of contract or for such breach of fiduciary duty or relationship. The credits, deductions, or other items referred to in the prior sentence, attributable to property, shall be allowed only with respect to that part of the award which represents the bank or corporation's share of income from the actual operation of such property.

(c) Subsection (a) shall not apply unless the amount representing damage is three thousand dollars ($3,000) or more.

SEC. 32. Section 24678 is added to the Revenue and Taxation Code, to read:

Damages recovered under the Clayton Act

24678. (a) If an amount representing damages is received or accrued during an income year as a result of an award in, or settlement of, a civil action brought under Section 4 of the act entitled "An act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," approved October 15, 1914 (commonly known as the Clayton Act), for injuries sustained by a bank or corporation in its business or property by reason of anything forbidden in the antitrust laws, then the tax attributable to the inclusion of such amount in gross income for the income year shall not be greater than the aggregate of the increases in taxes which would have resulted if such amount had been included in gross income in equal installments for each month during the period in which such injuries were sustained by the bank or corporation.

(b) This section shall apply to income years ending after the date that this section is enacted, but only with respect to amounts received or accrued after such date as a result of awards or settlements made after such date.

SEC. 33. Section 24679 is added to the Revenue and Taxation Code, to read:

Fractional parts of month

24679. For purposes of Sections 24675 through 24678, a fractional part of a month shall be disregarded unless it amounts to more than half a month, in which case it should be considered as a month.

SEC. 34. Section 24683 is added to the Revenue and Taxation Code, to read:

Accrual taxpayers

24683. (a) In the case of a taxpayer whose net income is computed under an accrual method of accounting, to the

extent that the time for accruing taxes is earlier than it would be but for any action of any taxing jurisdiction taken after December 31, 1960, then, under regulations prescribed by the Franchise Tax Board, such taxes shall be treated as accruing at the time they would have accrued but for such action by such taxing jurisdiction.

(b) Under regulations prescribed by the Franchise Tax Board, subdivision (a) shall be inapplicable to any item of tax to the extent that its application would (but for this paragraph) prevent all persons (including successors in interest) from ever taking such item into account.

SEC. 35. Section 24721 of the Revenue and Taxation Code is amended to read:

Computation of net income

24721. In computing the taxpayer's net income for any income year (referred to in this article as the "year of the change")—

(a) If such computation is under a method of accounting different from the method under which the taxpayer's net income for the preceding income year was computed; then

(b) There shall be taken into account those adjustments which are determined to be necessary solely by reason of the change in order to prevent amounts from being duplicated or omitted, except there shall not be taken into account any adjustment in respect of any income year to which this article does not apply unless the adjustment is attributable to a change in the method of accounting initiated by the taxpayer.

SEC. 36. Section 24722 of the Revenue and Taxation Code is amended to read:

Limitation

24722. (a) If—

(1) The method of accounting from which the change is made was used by the taxpayer in computing his income for the two income years preceding the year of the change; and

(2) The increase in net income for the year of the change which results solely by reason of the adjustments required by Section 24721(b), other than the amount of such adjustments to which Section 24722.1 applies, exceeds three thousand dollars ($3,000),

then the tax under this part attributable to such increase in net income shall not be greater than the aggregate increase in the taxes under this part (or under the corresponding provisions of prior laws) which would result if one-third of such increase in net income were included in net income for the year of the change and one-third of such increase were included for each of the two preceding income years.

(b) If—

(1) The increase in net income for the year of the change which results solely by reason of the adjustments required by Section 24721(b), other than the amount of such adjustments to which Section 24722.1 applies, exceeds three thousand dollars ($3,000); and

(2) The taxpayer establishes its net income (under the new method of accounting) for one or more income years

consecutively preceding the income year of the change for which the taxpayer in computing net income used the method of accounting from which the change is made;

then the tax under this part attributable to such increase in net income shall not be greater than the net increase in the taxes under this part (or under the corresponding provision of prior tax laws) which would result if the adjustments required by Section 24721(b), other than the amount of such adjustments to which Section 24722.1 applies, were allocated to the income year or years specified in paragraph (2) to which they are properly allocable under the new method of accounting and the balance of the adjustments required by Section 24721(b), other than the amount of such adjustments to which Section 24722.1 applies, was allocated to the income year of the change.

(c) The increase or decrease in the tax for any taxable year for which an assessment of any deficiency, or a credit or refund of any overpayment, is prevented by any law or rule of law, shall be determined by reference to the tax previously determined for such year.

SEC. 37. Section 24722.1 is added to the Revenue and Taxation Code, to read:

24722.1 Except as provided in Section 24722.2—

Adjustments

(a) The net amount of the adjustments required by Section 24721, to the extent that such amount does not exceed the net amount of adjustments which would have been required if the change in method of accounting had been made in the first income year beginning after December 31, 1954, shall be taken into account by the taxpayer in computing net income in the manner provided in subsection (b), but only if such net amount of such adjustment would increase the net income of such taxpayer by more than three thousand dollars ($3,000).

(b) One-tenth of the net amount of the adjustments described in subsection (a) shall (except as provided in subsection (c)) be taken into account in each of the 10 income years beginning with the year of the change. The amount to be taken into account for each income year in the 10-year period shall be taken into account whether or not for such year the assessment of tax is prevented by operation of any law or rule of law. If the year of the change was an income year ending before January 1, 1961, and if the taxpayer so elects (at such time and in such manner as the Franchise Tax Board shall by regulations prescribe), the 10-year period shall begin with the first income year which begins after December 31, 1960. If the taxpayer elects under the preceding sentence to begin the 10-year period with the first income year which begins after December 31, 1960, the 10-year period shall be reduced by the number of years, beginning with the year of the change, in respect of which assessment of tax is prevented by operation of any law or rule of law on the date of the enactment of this section.

(c) The net amount of any adjustments described in subsection (a), to the extent not taken into account in prior income years under subsection (b), shall, if the taxpayer ceases to be subject to tax measured by net income imposed under Chapter 2 (commencing at Section 23101) or Chapter 3 (commencing at Section 23501) of this part, be included in the measure of the tax for the last year in which the taxpayer is subject to the tax measured by net income imposed under Chapter 2 or Chapter 3 of this part. This subsection is not applicable if the assets of a taxpayer are transferred pursuant to a reorganization as defined in Sections 24562 and 24563 to another taxpayer a party to the reorganization, which is subject to tax under the same chapter as the transferor.

(d) The provisions of this section shall not apply with respect to changes in methods of accounting made in income years beginning after December 31, 1964.

SEC. 38. Section 24722.2 is added to the Revenue and Taxation Code, to read:

Election

24722.2. Section 24722.1 shall not apply with respect to any taxpayer, if the taxpayer elects to take the net amount of the adjustments described in Section 24722.1(a) into account in the manner provided by Section 24722. An election to take the net amount of such adjustments into account in the manner provided by Section 24722 may be made only if the taxpayer consents in writing to the assessment, within such period as may be agreed on with the Franchise Tax Board, of any deficiency for the year of the change, to the extent attributable to taking the net amount of the adjustments described in Section 24722.1(a) into account in the manner provided by Section 24722, even though at the time of filing such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law. An election under this section shall be made at such time and in such manner as the Franchise Tax Board shall by regulations prescribe.

SEC. 39. Section 24722 3 is added to the Revenue and Taxation Code, to read:

(b) The amendments to Sections 24721 and 24722 shall not apply if before the date of enactment of this section—

(i) The taxpayer applied for a change in the method of accounting in the manner provided by regulations prescribed by the Franchise Tax Board, and

(ii) The taxpayer and the Franchise Tax Board agreed to the terms and conditions for making the change.

Basis of gifts

(1) The property is acquired by gift on or after the date of the enactment of this section, the basis shall be the basis determined under Section 24914, increased (but not above the fair market value of the property at the time of the gift) by the amount of federal gift tax paid with respect to such gift, or

(2) The property was acquired by gift before the date of the enactment of this section and has not been sold, exchanged, or otherwise disposed of before such date, the basis of the property shall be increased on such date by the amount of federal gift tax paid with respect to such gift, but such increase shall not exceed an amount equal to the amount by which the fair market value of the property at the time of the gift exceeded the basis of the property in the hands of the donor at the time of the gift.

(b) For purposes of subsection (a), the amount of federal gift tax paid with respect to any gift is an amount which bears the same ratio to the amount of gift tax paid under Chapter 12 of Subtitle B of the Internal Revenue Code of 1954 with respect to all gifts made by the donor for the calendar year in which such gift is made as the amount of such gift bears to the taxable gifts (as defined in Section 2503(a) of the Internal Revenue Code of 1954 but computed without the deduction allowed by Section 2521 of the Internal Revenue Code of 1954) made by the donor during such calendar year. For purposes of the preceding sentence, the amount of any gift shall be the amount included with respect to such gift in determining (for the purposes of Section 2503(a) of the Internal Revenue Code of 1954) the total amount of gifts made during the calendar year, reduced by the amount of any deduction allowed with respect to such gift under Section 2522 of the Internal Revenue Code of 1954 (relating to charitable deduction) or under Section 2523 of the Internal Revenue Code of 1954 (relating to marital deduction).

(c) For purposes of subsection (a), where the donor and his spouse elected, under Section 2513 of the Internal Revenue Code of 1954 to have the gift considered as made one-half by each, the amount of gift tax paid with respect to such gift under Chapter 12 of Subtitle B of the Internal Revenue Code of 1954 shall be the sum of the amounts of tax paid with respect to each half of such gift (computed in the manner provided in subsection (b)).

(d) For purposes of Section 24917, an increase in basis under subsection (a) shall be treated as an adjustment under Section 24916.

(e) With respect to any property acquired by gift before 1955, references in this section to any provision of this part shall be deemed to refer to the corresponding provision of the Federal Internal Revenue Code of 1939 or prior revenue

laws which was effective for the year in which such gift was made.

(c) In the case of stock (to the extent not provided for in the foregoing subsections) for the amount of distributions previously made which, under the law applicable to the year in which the distribution was made, either were tax free or were applicable in reduction of basis (not including distributions made by a corporation, which was classified as a personal service corporation under the provisions of the Federal Revenue Act of 1918 or 1921, out of its earnings or profits which were taxable in accordance with the provisions of Section 218 of the Federal Revenue Act of 1918 or 1921).

24361, and in the case of any other bond (as defined in Section 24363) to the extent of the deductions allowable pursuant to Section 24361 with respect thereto.

Repeal

SEC. 42. Section 24917 of the Revenue and Taxation Code is repealed.

SEC. 43. Section 24917 is added to the Revenue and Taxation Code, to read:

Adjustments to substituted basis

24917. Whenever it appears that the basis of property in the hands of the bank or corporation is a substituted basis, then the adjustments provided in Section 24916 shall be made after first making in respect of such substituted basis proper adjustments of a similar nature in respect of the period during which the property was held by the transferor, donor, or grantor, or during which the other property was held by the person for whom the basis is to be determined. A similar rule shall be applied in the case of a series of substituted bases. The term "substituted basis" as used in this section and Section 24916 means a basis determined under any provision of this chapter and Chapter 8 (commencing at Section 24451, relating to corporate distributions and adjustments), or under any corresponding provision of a prior tax law, providing that the basis shall be determined—

(1) By reference to the basis in the hands of a transferor, donor, or grantor; or

(2) By reference to other property held at any time by the person for whom the basis is to be determined.

SEC. 44. Section 24941 of the Revenue and Taxation Code is amended to read:

Exchanges for like property

24941. (a) No gain or loss shall be recognized if property held for productive use in trade or business or for investment (not including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

(b) If an exchange would be within the provisions of subsection (a), of Section 24950, or of Section 24951, if it were not for the fact that the property received in exchange consists not only of property permitted by such provisions to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property

(c) If an exchange would be within the provisions of subsection (a), of Section 24950, or of Section 24951, if it were not for the fact that the property received in exchange consists not only of property permitted by such provisions to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

Same: Basis

(d) If property was acquired on an exchange described in this section, Section 24950, or Section 24951, then the basis shall be the same as that of the property exchanged decreased in the amount of any money received by the bank or corporation and increase in the amount of gain or decreased in the amount of loss to the bank or corporation that was recognized on such exchange. If the property so acquired consisted in part of the type of property permitted by this section, Section 24950, or Section 24951, to be received without the recognition of gain or loss, and in part of other property, the basis provided in this subsection shall be allocated between the properties (other than money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. For purposes of this section, Section 24950, and Section 24951, where as part of the consideration to the bank or corporation another party to the exchange assumed a liability of the bank or corporation or acquired from the bank or corporation property subject to a liability, such assumption or acquisition (in the amount of the liability) shall be considered as money received by the bank or corporation on the exchange

(b) Into money, and the disposition of the converted property occurred before January 1, 1953, no gain shall be recognized if such money is forthwith in good faith, under regulations prescribed by the Franchise Tax Board, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund. If any part of the money is not so expended, the gain shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more income years and regardless of whether or not the money which is not so expended constitutes gain). For purposes of this subsection and Section 24944, the term "disposition of the converted property" means the destruction, theft, seizure, requisition, or condemnation of the converted property, or the sale or exchange of such property under threat or imminence of requisition or condemnation.

"Disposition of converted property"

(3) Rentals or other payments required to be made as a condition to the continued use or possession, for purposes of the trade or business, of property to which the taxpayer has not taken or is not taking title or in which he has no equity.

For purposes of the preceding sentence, the place of residence of a Member of Congress (including any delegate and resident commissioner) within the State, congressional district, territory, or possession which he represents in Congress shall be considered his home, but amounts expended by such members within each taxable year for living expenses shall not be deductible for income tax purposes in excess of three thousand dollars ($3,000).

(b) No deduction shall be allowed under subsection (a) for any contribution or gift which would be allowable as a deduction under Section 17214 were it not for the percentage limitations, or the requirements as to the time of payment, set forth in such section. Exception

(c) No deduction shall be allowed under subsection (a) for any expenses paid or incurred if the payment thereof is made, directly or indirectly, to an official or employee of a foreign country, and if the making of the payment would be unlawful under the laws of the United States if such laws were applicable to such payment and to such official or employee.

(4) Taxes computed as an addition to, or as a percentage of, taxes which are not deductible under this section;

(5) Taxes assessed against local benefits of a kind tending to increase the value of the property assessed, but this does not exclude the allowance as a deduction of so much of the taxes assessed against local benefits as is properly allocable to maintenance or interest charges. Nor does this exclude the allowance of any irrigation or other water district taxes or assessments which are levied for the payment of the principal of any improvement or other bonds for which a general assessment on all lands within the district is levied as distinguished from a special assessment levied on part of the area within the district.

(6) Federal stamp taxes (not described in subsections (b)(2), (3), (4), or (5)); but this subsection shall not prevent such taxes from being deducted under Section 17202 (relating to trade or business expenses) or Section 17252 (relating to expenses for the production of income).

(7) Taxes on real property, to the extent that Section 17205 requires such taxes to be treated as imposed on another taxpayer.

(c) (1) In the case of any state or local sales tax, if the amount of the tax is separately stated, then, to the extent that the amount so stated is paid by the consumer (otherwise than in connection with the consumer's trade or business) to his seller, such amount shall be allowed as a deduction to the con-

sumer as if it constituted a tax imposed on, and paid by such consumer.

(2) For purposes of paragraph (c)(1), the term "state or local sales tax" means a tax imposed by a state, a territory, a possession of the United States, or a political subdivision of any of the foregoing, or by the District of Columbia, which tax—

(A) Is imposed on persons engaged in selling tangible personal property at retail (or on persons selling gasoline or other motor vehicle fuels at wholesale or retail) and is a stated sum per unit of property sold or is measured either by the gross sales price or by the gross receipts from the sale; or

For purposes of the preceding sentence, if neither party is liable for the tax, then the party holding the property at the time the tax becomes a lien on the property shall be considered liable for the real property tax for the real property tax year.

(2) Subsection (a) shall apply to taxable years beginning after December 31, 1960, but only in the case of sales after December 31, 1960.

(3) Subsection (a) shall not apply to any real property tax, to the extent that such tax was allowable as a deduction under the Personal Income Tax Law of 1954 to the seller for a taxable year which ended before January 1, 1961.

(4) In the case of any sale of real property, if the taxpayer's taxable income for the taxable year during which the sale occurs is computed under an accrual method of accounting, and if no election under Section 17592(c) (relating to the accrual of real property taxes) applies, then, for purposes of Section 17204, that portion of such tax which—

(A) Is treated, under subsection (a), as imposed on the taxpayer; and

In the case of any real property tax which would, but for this section, be allowable as a deduction for the first taxable year of the taxpayer which ends after December 31, 1960, then, to the extent that such tax is related to any period before the first day of such first taxable year, the tax shall be allowable as a deduction for such first taxable year.

(c) (1) A taxpayer may, without the consent of the Franchise Tax Board, make an election under this section for his first taxable year which ends after the enactment of this section, in which the taxpayer incurs real property taxes. Such an election shall be made not later than the time prescribed by law for filing the return for such year (including extensions thereof).

(b) Under regulations prescribed by the Franchise Tax Board, subdivision (a) shall be inapplicable to any item of tax to the extent that its application would (but for this paragraph) prevent all persons (including successors in interest) from ever taking such item into account.

(2) Property used in the trade or business (as defined in subsection (i)), but only if the unrealized depreciation on all such property on which there is unrealized depreciation exceeds the unrealized appreciation on all such property on which there is unrealized appreciation;

(3) If there is net unrealized appreciation on all property used in the trade or business (as defined in subsection (i)), which, in the hands of a shareholder who owns more than 20 percent in value of the outstanding stock of the corporation, would be property gain from the sale or exchange of which would under any provision of this part be considered in whole or in part as gain from the sale or exchange of property which is neither a capital asset nor property described in Section 18182; and

artistic composition, or similar property, or any interest in any such property, if the property was created in whole or in part by the personal efforts of any individual who owns more than 5 percent in value of the stock of the corporation. The determination as to whether property of the corporation in the hands of the corporation is, or in the hands of a shareholder would be, property gain from the sale or exchange of which would under any provision of this part be considered in whole or in part as gain from the sale or exchange of property which is neither a capital asset nor property described in Section 18182 shall be made as if all property of the corporation has been sold or exchanged to one person in one transaction.

(ii) For purposes of subsection (e), the term "Section 17415 asset" means, with respect to property held by any corporation, property described in clauses (1), (2), (3), and (4) of subparagraph (i), except that clauses (1) and (3) shall apply in respect of any shareholder who owns more than 5 percent in value of the outstanding stock of the corporation (in lieu of any shareholder who owns more than 20 percent in value of such stock).

Net worth of a corporation

(g) For purposes of this section, the net worth of a corporation, as of any day, is the amount by which—

(i) (1) The fair market value of all its assets at the close of such day, plus

(2) The amount of any distribution in complete liquidation made by it on or before such day, exceeds

For purposes of this subsection, the net worth of a corporation as of any day shall not take into account any increase in net worth during the one-year period ending on such day to the extent attributable to any amount received by it for stock, or as a contribution to capital or as paid-in surplus, if it appears that there was not a bona fide business purpose for the transaction in respect of which such amount was received.

Persons related to shareholders

(b) Any acquisition of stock described in such sections which occurred on or after December 31, 1954, and on or before December 31, 1960, pursuant to a contract entered into before December 31, 1954,

the extent to which the property received after December 31, 1960, in return for such acquisition shall be treated as a dividend shall be determined as if the Personal Income Tax Law of 1954 continued to apply in respect of such acquisition and as if Sections 17332 through 17334 had not been enacted.

SEC. 31. Section 17367 is added to said code, to read:

SEC. 32. Section 17511 of said code is amended to read:

Annuity contracts

17511. Except as provided in subsection (a), if an annuity contract is purchased by an employer for an employee under a plan which meets the requirements of Section 17515 (whether

or not the employer deducts the amounts paid for the contract under such section), the employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17108, inclusive.

(a) If—

(1) An annuity contract is purchased by an employer for an employee under a plan which meets the requirements of Section 17501(c), (d), (e), and (f);

(3) The total amounts payable by reason of an employee's death or other separation from the service, or by reason of the death of an employee after the employee's separation from the service, are paid to the payee within one taxable year of the payee,

then the amount of such payments, to the extent exceeding the amount contributed by the employee, which employee contributions shall be reduced by any amounts theretofore paid to him which were not includable in gross income, shall be considered a gain from the sale or exchange of a capital asset held for more than six months.

(b) For purposes of subsection (a), the term "total amounts" means the balance to the credit of an employee which becomes payable to the payee by reason of the employee's death or other separation from the service, or by reason of his death after separation from the service. "Total amounts"

SEC. 33. Section 17512 of said code is amended to read:

(B) Such annuity contract is not subject to Section 17511, and

(C) The employee's rights under the contract are nonforfeitable, except for failure to pay future premiums,

then amounts contributed by such employer for such annuity contract on or after such rights become nonforfeitable shall be excluded from the gross income of the employee for the taxable year to the extent that the aggregate of such amounts does not exceed the exclusion allowance for such taxable year. The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17108, inclusive.

(2) For purposes of this section, the exclusion allowance for any employee for the taxable year is an amount equal to the excess, if any, of—

(A) The amount determined by multiplying (i) 20 percent of his includable compensation, by (ii) the number of years of service, over

(B) The aggregate of the amounts contributed by the employer for annuity contracts and excludable from the gross income of the employee for any prior taxable year.

'Includable compensation"

(3) For purposes of this section, the term "includable compensation" means, in the case of any employee, the amount of compensation which is received from the employer described in Section 23701d of this code and exempt from tax under Section 23701 of this code, and which is includable in gross income (computed without regard to Section 17139(d)) for the most recent period (ending not later than the close of the taxable year) which under paragraph (4) may be counted as one year of service. Such term does not include any amount contributed by the employer for any annuity contract to which this section applies.

(4) In determining the number of years of service for purposes of this section, there shall be included—

(A) One year for each full year during which the individual was a full-time employee of the organization purchasing the annuity for him, and

(B) A fraction of a year (determined in accordance with regulations prescribed by the Franchise Tax Board) for each full year during which such individual was a part-time employee of such organization and for each part of a year during which such individual was a full-time or part-time employee of such organization.

In no case shall the number of years of service be less than one.

(5) If for any taxable year of the employee this section applies to two or more annuity contracts purchased by the employer, such contracts shall be treated as one contract.

(6) For purposes of this section if rights of the employee under an annuity contract described in subparagraphs (A) and (B) of paragraph (1) change from forfeitable to nonforfeitable rights, then the amount (determined without regard to this subsection) includable in gross income by reason of such change shall be treated as an amount contributed by the employer for such annuity contract as of the time such rights become nonforfeitable.

(b) If an annuity contract purchased by an employer for an employee is not subject to Section 17511 and the employee's rights under the contract are nonforfeitable, except for failure to pay future premiums, the amount contributed by the employer for such annuity contract on or after such rights become nonforfeitable shall be included in the gross income of the employee in the year in which the amount is contributed. The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17108, inclusive.

tion 17631 or by an employer which claims the special deduction allowed by Section 24404 or 24405 of this code change from forfeitable to nonforfeitable rights, the value of such contract on the date of such change (to the extent attributable to amounts contributed by the employer after December 31, 1960) shall, except as provided in subsection (a), be included in the gross income of the employee in the year of such change.

SEC. 34. Section 17132 of said code is amended to read:

17132. (a) Gross income does not include amounts received (whether in a single sum or otherwise) by the beneficiaries or the estate of an employee, if such amounts are paid by or on behalf of an employer and are paid by reason of the death of the employee. Exclusions from gross income

(b) (1) The aggregate amounts excludable under subsection (a) with respect to the death of any employee shall not exceed five thousand dollars ($5,000).

(2) Subsection (a) shall not apply to amounts with respect to which the employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living.

This subsection shall not apply to total distributions payable (as defined in Section 17503(c)(3) which are paid to a distributee within one taxable year of the distributee by reason of the employee's death—

(i) By a stock bonus, pension, or profit-sharing trust described in Section 17501 which is exempt from tax under Section 17631,

(ii) Under an annuity contract under a plan which meets the requirements of paragraphs (c), (d), (e), and (f) of Section 17501, or

(iii) Under an annuity contract purchased by an employer which is an organization referred to in Section 23701d of this code but only with respect to that portion of such total distributions payable which bears the same ratio to the amount of such total distributions payable which is (without regard to this section) includable in gross income, as the amounts contributed by the employer for such annuity contract which are excludable from gross income under Section 17512 bear to the total amounts contributed by the employer for such annuity contract.

(3) Subsection (a) shall not apply to amounts received by a surviving annuitant under a joint and survivor's annuity contract after the first day of the first period for which an amount was received as an annuity by the employee (or would have been received if the employee had lived).

(4) In the case of any amount to which Sections 17101 to 17108, inclusive (relating to annuities, etc.), apply, the amount which is excludable under subsection (a) (as modified by this subsection) shall be determined by reference to the value of such amount as of the day on which the employee died. Any amount so excludable under subsection (a) shall, for purposes of Sections 17101 to 17108, inclusive, be treated as additional consideration paid by the employee.

SEC. 35. Section 17513 of said code is amended to read:

Deductions for contributions to stock bonus, etc., plans

17513. If contributions are paid by an employer to or under a stock bonus, pension, profit-sharing, or annuity plan, or if compensation is paid or accrued on account of any employee under a plan deferring the receipt of such compensation, such contributions or compensation shall not be deductible under Section 17202 (relating to trade or business expenses) or Section 17252 (relating to expenses for the production of income); but, if they satisfy the conditions of either of such sections, they shall be deductible under Sections 17513 to 17523, inclusive, subject, however, to the limitations contained in Sections 17514 to 17523, inclusive, as to the amounts deductible in any year.

SEC. 36 Section 17531 of said code is amended to read:

Stock transfers by exercise of restricted stock option

17531. If a share of stock is transferred to an individual pursuant to his exercise after December 31, 1950, of a restricted stock option, and no disposition of such share is made by him within two years from the date of the granting of the option nor within six months after the transfer of such share to him no income shall result at the time of the transfer of such share to the individual upon his exercise of the option with respect to such share; this section and 17532 shall not apply unless (a) the individual, at the time he exercises the restricted stock option, is an employee of either the corporation granting such option, a parent or subsidiary corporation of such corporation, or a corporation or a parent or subsidiary of such corporation issuing or assuming a stock option in a transaction to which Section 17540 is applicable, or (b) the option is exercised by him within three months after the date he ceases to be an employee of such corporations. In applying subsections (a) and (b) of Section 17535 for purposes of the preceding sentence, there shall be substituted for the term "employer corporation" wherever it appears in such subsections the term "grantor corporation," or the term "corporation issuing or assuming a stock option in a transaction to which Section 17540 is applicable," as the case may be.

SEC. 37. Section 17534 of said code is amended to read:

"Restricted stock option"

17534. For purposes of Sections 17531, 17532, and 17533—the term "restricted stock option" means an option granted after February 26, 1945, to an individual, for any reason connected with his employment by a corporation, if granted by the employer corporation or its parent or subsidiary corporation, to purchase stock of any of such corporations, but only if—

(a) At the time such option is granted—

(1) The option price is at least 85 percent of the fair market value at such time of the stock subject to the option, or

(2) In the case of a variable price option, the option price (computed as if the option had been exercised when granted) is at least 85 percent of the value of the stock at the time such option is granted; and

(b) Such option by its terms is not transferable by such individual otherwise than by will or the laws of descent and distribution, and is exercisable, during his lifetime, only by him; and

(c) Such individual, at the time the option is granted, does not own stock possessing more than 10 percent of the total combined voting power of all classes of stock of the employer corporation or of its parent or subsidiary corporation. This section shall not apply if at the time such option is granted the option price is at least 110 percent of the fair market value of the stock subject to the option and such option either by its terms is not exercisable after the expiration of five years from the date such option is granted or is exercised within one year after the date of enactment of this part.

For purposes of this section—

(1) Such individual shall be considered as owning the stock owned, directly or indirectly, by or for his brothers and sisters (whether by the whole or half blood), spouse, ancestors, and lineal descendants; and

(2) Stock owned, directly or indirectly, by or for a corporation, partnership, estate, or trust, shall be considered as being owned proportionately by or for its shareholders, partners, or beneficiaries; and

(d) Such option by its terms is not exercisable after the expiration of 10 years from the date such option is granted, if such option has been granted on or after December 31, 1954.

SEC. 38. Section 17537.1 is added to said code, to read:

"Variable price option"

17537.1. The term "variable price option" means an option under which the purchase price of the stock is fixed or determinable under a formula in which the only variable is the fair market value of the stock at any time during a period of six months which includes the time the option is exercised; except that in the case of options granted after December 31, 1960, such term does not include any such option in which such formula provides for determining such price by reference to the fair market value of the stock at any time before the option is exercised if such value may be greater than the average fair market value of the stock during the calendar month in which the option is exercised.

SEC. 39. Section 17537 of said code is amended to read:

Restricted stock option exercised by employee's estate

17537. (a) If a restricted stock option is exercised subsequent to the death of the employee by the estate of the decedent, or by a person who acquired the right to exercise such option by bequest or inheritance or by reason of the death of the decedent, the provisions of Sections 17531 to 17537, inclusive, shall apply to the same extent as if the option had been exercised by the decedent except that—

(1) The holding period and employment requirements of Section 17531 shall not apply, and

(2) Any transfer by the estate of stock acquired shall be considered a disposition of such stock for purposes of Section 17532.

(b) If an amount is required to be included under Section 17532 in gross income of the estate of the deceased employee or of a person described in subsection (a), there shall be allowed to the estate or such person a deduction with respect to the inheritance tax attributable to the inclusion in the taxable estate of the deceased employee of the net value for inheritance tax purposes of the restricted stock option. For this purpose, the deduction shall be determined under Sections 17836 and 17837 as if the option acquired from the deceased employee were an item of gross income in respect of the decedent under Sections 17831 to 17838, inclusive, and as if the amount includable in gross income under Section 17532 were an amount included in gross income under Sections 17831 to 17837, inclusive, in respect of such item of gross income.

(c) In the case of a share of stock acquired by the exercise of an option to which subsection (a) applies—

(i) The basis of such share shall include so much of the basis of the option as is attributable to such share; except that the basis of such share shall be reduced by the excess (if any) of the amount, which would have been includable in gross income under Section 17532 if the employee had exercised the option and held such share at the time of his death, over the amount which is includable in gross income under Section 17532; and

(ii) The last sentence of Section 17532 shall apply only to the extent that the amount includable in gross income under such section exceeds so much of the basis of the option as is attributable to such share.

Repeal

SEC. 40. Section 18047 of said code is hereby repealed.

SEC. 41. Section 17580 of said code is amended to read:

Satisfaction of installment obligations

17580. (a) If an installment obligation is satisfied at other than its face value or distributed, transmitted, sold, or otherwise disposed of, gain or loss shall result to the extent of the difference between the basis of the obligation and—

(1) The amount realized, in the case of satisfaction at other than face value or a sale or exchange, or

(2) The fair market value of the obligation at the time of distribution, transmission, or disposition, in the case of the distribution, transmission, or disposition otherwise than by sale or exchange.

Any gain or loss so resulting shall be considered as resulting from the sale or exchange of the property in respect of which the installment obligation was received.

(b) The basis of an installment obligation shall be the excess of the face value of the obligation over an amount equal to the income which would be returnable were the obligation satisfied in full.

(c) Except as provided in Sections 17831 to 17837, inclusive (relating to recipients of income in respect of decedents), this section shall not apply to the transmission of installment obligations at death.

(2) The lease is of premises in a building primarily designed for occupancy, and occupied, by the organization

(e) In determining the amount of the business lease indebtedness where only a portion of the real property is subject to a business lease, proper allocation to the premises covered by such lease shall be made of the indebtedness incurred by the lessor with respect to the real property.

(b) If under the trust instrument it is impossible, at any time prior to the satisfaction of all liabilities with respect to

employees and their beneficiaries under the trust, for any part of the corpus or income to be (within the taxable year or thereafter) used for, or diverted to, purposes other than for the exclusive benefit of his employees or their beneficiaries;

(c) If the trust, or two or more trusts, or the trust or trusts and annuity plan or plans are designated by the employer as constituting parts of a plan intended to qualify under this section which benefits either—

Neither shall a plan be considered discriminatory within the meaning of such provisions merely because the contributions or benefits of or on behalf of the employees under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of such employees, or merely because the contributions or benefits based on that part of an employee's remuneration which is excluded from "wages" by Section 3121(a)(1) of the Internal Revenue Code, or of the California Unemployment Insurance Act differ from the contributions or benefits based on employee's remuneration not so excluded, or differ because of any retirement benefits created under state or federal law.

SEC. 69. Section 17503 of said code is amended to read:

(b) In the case of an employees' trust described in Section 17501, which is exempt from tax under Section 17631, if the total distributions payable with respect to any employee are paid to the distributee within one taxable year of the distributee on account of the employee's death or other separation from the service, or on account of the death of the employee after his separation from the service, the amount of such distribution, to the extent exceeding the amounts contributed by the employee, which employee contributions shall be reduced by any amounts theretofore distributed to him which were not includable in gross income, shall be considered a gain from the sale or exchange of a capital asset held for more than six months

Where such total distributions include securities of the employer corporation, there shall be excluded from such excess the net unrealized appreciation attributable to that part of the total distributions which consists of the securities of the employer corporation so distributed. The amount of such net unrealized appreciation and the resulting adjustments to basis of the securities of the employer corporation so distributed shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

(a) An amount not in excess of 5 percent of the compensation otherwise paid or accrued during the taxable year to all the employees under the trust, but such amount may be reduced for future years if found by the Franchise Tax Board upon periodical examinations at not less than five-year intervals to be more than the amount reasonably necessary to provide the remaining unfunded cost of past and current service credits of all employees under the plan, plus

(b) Any excess over the amount allowable under subsection (a) necessary to provide with respect to all of the employees under the trust the remaining unfunded cost of their past and current service credits distributed as a level amount, or a level percentage of compensation, over the remaining future service of each such employee, as determined under regulations prescribed by the Franchise Tax Board, but if such remaining unfunded cost with respect to any three individuals is more than 50 percent of such remaining unfunded cost, the amount of such unfunded cost attributable to such individuals shall be distributed over a period of at least five taxable years, or

(c) In lieu of the amounts allowable under subsections (a) and (b) above, an amount equal to the normal cost of the plan, as determined under regulations prescribed by the Franchise Tax Board plus, if past service or other supplementary pension or annuity credits are provided by the plan, an amount not in excess of 10 percent of the cost which would be required to completely fund or purchase such pension or annuity credits as of the date when they are included in the plan, as determined under regulations prescribed by the Franchise Tax Board, except that in no case shall a deduction be allowed for any amount (other than the normal cost) paid in after such pension or annuity credits are completely funded or purchased.

(d) Any amount paid in a taxable year in excess of the amount deductible in such year under the foregoing limitations shall be deductible in the succeeding taxable years in order of time to the extent of the difference between the

amount paid and deductible in each succeeding year and the maximum amount deductible for such year in accordance with the foregoing limitations.

SEC. 72. Section 17516 of said code is amended to read:

Deduction for contributions to stock bonus, etc., trust

17516. (a) A deduction shall be allowed in the taxable year when paid, if the contributions are paid into a stock bonus or profit-sharing trust, and if such taxable year ends within or with a taxable year of the trust with respect to which the trust is exempt under Section 17631, in an amount not in excess of 15 percent of the compensation otherwise paid or accrued during the taxable year to all employees under the stock bonus or profit-sharing plan. If in any taxable year there is paid into the trust, or a similar trust then in effect, amounts less than the amounts deductible under the preceding sentence, the excess, or if no amount is paid, the amounts deductible, shall be carried forward and be deductible when paid in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any such succeeding taxable year shall not exceed 15 percent of the compensation otherwise paid or accrued during such succeeding taxable year to the beneficiaries under the plan. In addition, any amount paid into the trust in any taxable year in excess of the amount allowable with respect to such year under the preceding provisions of this section shall be deductible in the succeeding taxable years in order of time, but the amount so deductible under this sentence in any one such succeeding taxable year together with the amount allowable under the first sentence of this section shall not exceed 15 percent of the compensation otherwise paid or accrued during such taxable year to the beneficiaries under the plan. The term "stock bonus or profit-sharing trust," as used in this section, shall not include any trust designed to provide benefits upon retirement and covering a period of years, if under the plan the amounts to be contributed by the employer can be determined actuarially as provided in Section 17514. If the contributions are made to two or more stock bonus or profit-sharing trusts, such trusts shall be considered a single trust for purposes of applying the limitations in this section.

(b) In the case of a profit-sharing plan, or a stock bonus plan in which contributions are determined with reference to profits, of a group of corporations which is an affiliated group within the meaning of Section 1504 of the Federal Internal Revenue Code, if any member of such affiliated group is prevented from making a contribution which it would otherwise have made under the plan, by reason of having no current or accumulated earnings or profits or because such earnings or profits are less than the contributions which it would otherwise have made, then so much of the contribution which such member was so prevented from making may be made, for the benefit of the employees of such member, by the other members of the group, to the extent of current or accumulated earnings or profits, except that such contribution by each such other

member shall be limited, where the group does not file a consolidated return, to that proportion of its total current and accumulated earnings or profits remaining after adjustment for its contribution deductible without regard to this subsection which the total prevented contribution bears to the total current and accumulated earnings or profits of all the members of the group remaining after adjustment for all contributions deductible without regard to this subsection. Contributions made under the preceding sentence shall be deductible under subsection (a) of this section by the employer making such contributions, and, for the purpose of determining amounts which may be carried forward and deducted under the second sentence of subsection (a) of this section in succeeding taxable years, shall be deemed to have been made by the employer on behalf of whose employees such contributions were made.

SEC. 73. Section 17517 of said code is amended to read:

Contributions to out-of-state trust

17517. If a stock bonus, pension, or profit-sharing trust would qualify for exemption under Section 17631 except for the fact that it is a trust created or organized outside of this State, contributions to such a trust by an employer which is a resident, or corporation, or other entity of this State, shall be deductible under the preceding sections.

SEC. 74. Section 17522 of said code is amended to read:

Other employer contributions

17522. If contributions are paid by an employer—

(a) Under a plan under which such contributions are held in trust for the purpose of paying (either from principal or income or both) for the benefit of employees and their families and dependents at least medical or hospital care, and pensions on retirement or death of employees; and

(b) Such plan was established prior to January 1, 1955, as a result of an agreement between employee representatives and the government of the United States during a period of government operation, under seizure powers, of a major part of the productive facilities of the industry in which such employer is engaged,

such contributions shall not be deductible under this section nor be made nondeductible by this section, but the deductibility thereof shall be governed solely by Section 17202 (relating to trade or business expenses). This section shall have no application with respect to amounts contributed to a trust on or after any date on which such trust is qualified for exemption from tax under Section 17631.

SEC. 75. Section 17583 is added to said code, to read:

Prepaid subscription income

17583. (a) Prepaid subscription income to which this section applies shall be included in gross income for the taxable years during which the liability described in subsection (d)(2) exists.

(b) In the case of any prepaid subscription income to which this section applies—

(1) If the liability described in subsection (d)(2) ends, then so much of such income as was not includable in gross

income under subsection (a) for preceding taxable years shall be included in gross income for the taxable year in which the liability ends.

(2) If the taxpayer dies or ceases to exist, then so much of such income as was not includable in gross income under subsection (a) for preceding taxable years shall be included in gross income for the taxable year in which such death, or such cessation of existence, occurs.

(c) (1) This section shall apply to prepaid subscription income if and only if the taxpayer makes an election under this section with respect to the trade or business in connection with which such income is received. The election shall be made in such manner as the Franchise Tax Board may by regulations prescribe. No election may be made with respect to a trade or business if in computing taxable income the cash receipts and disbursements method of accounting is used with respect to such trade or business

(2) An election made under this section shall apply to all prepaid subscription income received in connection with the trade or business with respect to which the taxpayer has made the election; except that the taxpayer may, to the extent permitted under regulations prescribed by the Franchise Tax Board, include in gross income for the taxable year of receipt the entire amount of any prepaid subscription income if the liability from which it arose is to end within 12 months after the date of receipt. An election made under this section shall not apply to any prepaid subscription income received before the first taxable year for which the election is made.

(3) (A) A taxpayer may, with the consent of the Franchise Tax Board, make an election under this section at any time.

(B) A taxpayer may, without the consent of the Franchise Tax Board, make an election under this section for his first taxable year (i) which begins after December 31, 1960, and (ii) in which he receives prepaid subscription income in the trade or business. Such election shall be made not later than the time prescribed by law for filing the return for the taxable year (including extensions thereof) with respect to which such election is made.

(4) An election under this section shall be effective for the taxable year with respect to which it is first made and for all subsequent taxable years, unless the taxpayer secures the consent of the Franchise Tax Board to the revocation of such election. For purposes of this part, the computation of taxable income under an election made under this section shall be treated as a method of accounting.

(d) For purposes of this section—

(1) The term "prepaid subscription income" means any amount (includable in gross income) which is received in connection with, and is directly attributable to, a liability which extends beyond the close of the taxable year in which

"Prepaid subscription income"

"Liability" such amount is received, and which is income from a subscription to a newspaper, magazine, or other periodical.

(2) The term "liability" means a liability to furnish or deliver a newspaper, magazine, or other periodical.

(3) Prepaid subscription income shall be treated as received during the taxable year for which it is includable in gross income under Section 17571 (without regard to this section).

(e) Notwithstanding the provisions of this section, any taxpayer who has, for taxable years prior to the first taxable year to which this section applies, reported his income under an established and consistent method of practice of accounting for prepaid subscription income (to which this section would apply if an election were made) may continue to report his income for taxable years to which this part applies in accordance with such method or practice.

SEC. 76. Section 17611 of said code is amended to read:

Computation of net income in "year of the change" 17611. In computing the taxpayer's taxable income for any taxable year (referred to in Sections 17611 to 17614, inclusive, as the "year of the change")—

(a) If such computation is under a method of accounting different from the method under which the taxpayer's taxable income for the preceding taxable year was computed; then

(b) There shall be taken into account those adjustments which are determined to be necessary solely by reason of the change in order to prevent amounts from being duplicated or omitted, except there shall not be taken into account any adjustment in respect of any taxable year to which Sections 17611 to 17614, inclusive, do not apply unless the adjustment is attributable to a change in the method of accounting initiated by the taxpayer.

SEC. 77. Section 17612 of said code is amended to read:

Limit on taxable income 17612. (a) If—

(1) The method of accounting from which the change is made was used by the taxpayer in computing his taxable income for the two taxable years preceding the year of the change, and

(2) The increase in taxable income for the year of the change which results solely by reason of the adjustments required by Section 17611(b), other than the amount of such adjustments to which Section 17612.1 or 17612.2 applies, exceeds three thousand dollars ($3,000),

then the tax under this part attributable to such increase in taxable income shall not be greater than the aggregate increase in the taxes under this part (or under the corresponding provisions of prior income tax laws) which would result if one-third of such increase in taxable income were included in taxable income for the year of the change and one-third of such increase were included for each of the two preceding taxable years.

(b) If—

(1) The increase in taxable income for the year of the change which results solely by reason of the adjustments required by Section 17611(b), other than the amount of

such adjustments to which Section 17612.1 or 17612.2 applies, exceeds three thousand dollars ($3,000); and

(2) The taxpayer establishes his taxable income (under the new method of accounting) for one or more taxable years consecutively preceding the taxable year of the change for which the taxpayer in computing taxable income used the method of accounting from which the change is made;

then the tax under this part attributable to such increase in taxable income shall not be greater than the net increase in the taxes under this part (or under the corresponding provisions of prior income tax laws) which would result if the adjustments required by Section 17611(b), other than the amount of such adjustments to which Section 17612.1 or 17612.2 applies, were allocated to the taxable year or years specified in paragraph (2) to which they are properly allocable under the new method of accounting and the balance of the adjustments required by Section 17611(b), other than the amount of such adjustments to which Sections 17612.1 or 17612.2 applies, was allocated to the taxable year of the change.

(c) The increase or decrease in the tax for any taxable year for which an assessment of any deficiency, or a credit or refund of any overpayment, is prevented by any law or rule of law, shall be determined by reference to the tax previously determined for such year.

SEC. 78. Section 17612.1 is added to said code, to read:

Adjustments taken into account

17612.1. Except as provided in Sections 17612.2 and 17612.3—

(a) The net amount of the adjustments required by Section 17611, to the extent that such amount does not exceed the net amount of adjustments which would have been required if the change in method of accounting had been made in the first taxable year beginning after December 31, 1954, shall be taken into account by the taxpayer in computing taxable income in the manner provided in subsection (b), but only if such net amount of such adjustment would increase the taxable income of such taxpayer by more than three thousand dollars ($3,000).

(b) One-tenth of the net amount of the adjustments described in subsection (a) shall (except as provided in subsection (c)) be taken into account in each of the 10 taxable years beginning with the year of the change. The amount to be taken into account for each taxable year in the 10-year period shall be taken into account whether or not for such year the assessment of tax is prevented by operation of any law or rule of law. If the year of the change was a taxable year ending before January 1, 1961, and if the taxpayer so elects (at such time and in such manner as the Franchise Tax Board shall by regulations prescribe), the 10-year period shall begin with the first taxable year which begins after December 31, 1960. If the taxpayer elects under the preceding sentence to begin the 10-year period with the first taxable year which begins after December 31, 1960, the 10-year period shall be reduced by the

number of years, beginning with the year of the change, in respect of which assessment of tax is prevented by operation of any law or rule of law on the date of the enactment of this section.

(c) The net amount of any adjustments described in subsection (a), to the extent not taken into account in prior taxable years under subsection (b)—

(i) In the case of a taxpayer who is an individual, shall be taken into account in the taxable year in which he dies or ceases to engage in a trade or business or

(ii) In the case of a taxpayer who is a partner, his distributive share of such net amount shall be taken into account in the taxable year in which the partnership terminates, or in which the entire interest of such partner is transferred or liquidated.

(d) The provisions of this section shall not apply with respect to changes in methods of accounting made in taxable years beginning after December 31, 1964.

SEC. 79. Section 17612.2 is added to said code, to read:

Change to accrual method applicable to estate

17612.2. A change from the cash receipts and disbursements method to the accrual method in any case involving the use of inventories, made on or after December 31, 1954, and before January 1, 1961, for a taxable year to which Sections 17611 to 17614, inclusive, apply, by the executor or administrator of a decedent's estate in the first return filed by such executor or administrator on behalf of the decedent, shall be given effect in determining taxable income, and, if the net amount of any adjustments required by Section 17611 in respect of taxable years to which Sections 17611 to 17614, inclusive, do not apply would increase the taxable income of the decedent by more than three thousand dollars ($3,000), then the tax attributable to such net adjustments shall not exceed an amount equal to the tax that would have been payable on the cash receipts and disbursements method for the years for which the executor or administrator filed returns on behalf of the decedent, computed for each such year as though a ratable portion of the taxable income for such year had been received in each of 10 taxable years beginning and ending on the same dates as the taxable year for which the tax is being computed.

SEC. 80. Section 17612.3 is added to said code, to read:

Election under Section 17612, (a) or (b)

17612.3. Section 17612.1 shall not apply with respect to any taxpayer, if the taxpayer elects to take the net amount of the adjustments described in Section 17612.1(a) into account in the manner provided by Section 17612(a) or (b). An election to take the net amount of such adjustments into account in the manner provided by Section 17612(a) or (b) may be made only if the taxpayer consents in writing to the assessment, within such period as may be agreed on with the Franchise Tax Board of any deficiency for the year of the change, to the extent attributable to taking the net amount of the adjustments described in Section 17612.1(a) into account

in the manner provided by Section 17612(a) or (b), even though at the time of filing such consent the assessment of such deficiency would otherwise be prevented by the operation of any law or rule of law An election under this section shall be made at such time and in such manner as the Franchise Tax Board shall by regulations prescribe.

SEC. 81. Section 17612.4 is added to said code, to read:

Applicability of provisions

17612.4. (a) The provisions of Sections 17612.1, 17612.2, and 17612.3, and the amendments to Sections 17611 and 17612 shall apply with respect to any change in a method of accounting where the year of the change (within the meaning of Sections 17611 through 17614) is a taxable year beginning after December 31, 1954.

(b) The amendments to Sections 17611 and 17612 shall not apply if before the date of enactment of this section—

(i) The taxpayer applied for a change in the method of accounting in the manner provided by regulations prescribed by the Franchise Tax Board, and

(ii) The taxpayer and the Franchise Tax Board agreed to the terms and conditions for making the change.

SEC. 82. Section 17711 of said code is amended to read:

Cutting of timber

17711. If the taxpayer so elects upon his return for a taxable year, the cutting of timber (for sale or for use in the taxpayer's trade or business) during such year by the taxpayer who owns, or has a contract right to cut, such timber (providing he has owned such timber or has held such contract right for a period of more than six months prior to the beginning of such year) shall be considered as a sale or exchange of such timber cut during such year. In case such election has been made, gain or loss to the taxpayer shall be recognized in an amount equal to the difference between the adjusted basis for depletion of such timber in the hands of the taxpayer and the fair market value of such timber. Such fair market value shall be the fair market value as of the first day of the taxable year in which such timber is cut, and shall thereafter be considered as the cost of such cut timber to the taxpayer for all purposes for which such cost is a necessary factor. If a taxpayer makes an election under this section such election shall apply with respect to all timber which is owned by the taxpayer or which the taxpayer has a contract right to cut and shall be binding upon the taxpayer for the taxable year for which the election is made and for all subsequent years, unless the Franchise Tax Board, on showing of undue hardship, permits the taxpayer to revoke his election; such revocation, however, shall preclude any further elections under this section except with the consent of the Franchise Tax Board. For purposes of this section and Section 17712, the term "timber" includes evergreen trees which are more than six years old at the time severed from the roots and are sold for ornamental purposes.

SEC. 83. Section 17865 of said code is amended to read:

No deduction for certain sale or exchange losses

17865. (a) No deduction shall be allowed in respect of losses from sales or exchanges of property (other than an interest in the partnership), directly or indirectly, between—

(1) A partnership and a partner owning, directly or indirectly, more than 50 percent of the capital interest, or the profits interest, in such partnership; or

(2) Two partnerships in which the same persons own, directly or indirectly, more than 50 percent of the capital interests or profits interests.

In the case of a subsequent sale or exchange by a transferee described in this subsection, Section 17290 shall be applicable as if the loss were disallowed under Section 17287(a).

(b) In the case of a sale or exchange, directly or indirectly, of property, which, in the hands of the transferee, is property other than a capital asset as defined in Section 18161—

(1) Between a partnership and a partner owning, directly or indirectly, more than 80 percent of the capital interest, or profits interest, in such partnership; or

(2) Between two partnerships in which the same persons own, directly or indirectly, more than 80 percent of the capital interests or profits interests;

any gain recognized shall be considered as gain from the sale or exchange of property other than a capital asset.

(c) For purposes of subsections (a) and (b), the ownership of a capital or profits interest in a partnership shall be determined in accordance with the rules for constructive ownership of stock provided in Section 17289 other than subsection (c) of such section.

SEC. 84. Section 18051.1 is added to said code, to read:

18051.1. (a) If—

Basis of gifts

(1) The property is acquired by gift on or after the date of the enactment of this section, the basis shall be the basis determined under Section 18049, increased (but not above the fair market value of the property at the time of the gift) by the amount of federal gift tax paid with respect to such gift, or

(2) The property was acquired by gift before the date of the enactment of this section and has not been sold, exchanged, or otherwise disposed of before such date, the basis of the property shall be increased on such date by the amount of federal gift tax paid with respect to such gift, but such increase shall not exceed an amount equal to the amount by which the fair market value of the property at the time of the gift exceeded the basis of the property in the hands of the donor at the time of the gift.

Gift tax

(b) For purposes of subsection (a), the amount of federal gift tax paid with respect to any gift is an amount which bears the same ratio to the amount of gift tax paid under Chapter 12 of the Internal Revenue Code of 1954 with respect to all gifts made by the donor for the calendar year in which such gift is made as the amount of such gift bears to the taxable gifts (as defined in Section 2503(a) of the Internal

Revenue Code of 1954 but computed without the deduction allowed by Section 2521 of the Internal Revenue Code of 1954) made by the donor during such calendar year. For purposes of the preceding sentence, the amount of any gift shall be the amount included with respect to such gift in determining (for the purposes of Section 2503(a) of the Internal Revenue Code of 1954) the total amount of gifts made during the calendar year, reduced by the amount of any deduction allowed with respect to such gift under Section 2522 of the Internal Revenue Code of 1954 (relating to charitable deduction) or under Section 2523 of the Internal Revenue Code of 1954 (relating to marital deduction).

(c) For purposes of subsection (a), where the donor and his spouse elected, under Section 2513 of the Internal Revenue Code of 1954 to have the gift considered as made one-half by each, the amount of gift tax paid with respect to such gift under Chapter 12 of the Internal Revenue Code of 1954 shall be the sum of the amounts of tax paid with respect to each half of such gift (computed in the manner provided in subsection (b)).

(d) For purposes of Section 18053(d), an increase in basis under subsection (a) shall be treated as an adjustment under Section 18052.

(e) With respect to any property acquired by gift before 1955, references in this section to any provision of the Internal Revenue Code shall be deemed to refer to the corresponding provision of the Internal Revenue Code of 1939 or prior federal revenue laws which was effective for the year in which such gift was made.

SEC. 85. Section 18052 of said code is amended to read:

Adjustments in property acquired by gift

18052. Proper adjustment in respect of the property shall in all cases be made—

(a) For expenditures, receipts, losses, or other items, properly chargeable to capital account, but no such adjustment shall be made—

(1) For taxes or other carrying charges described in Section 17286; or

(2) For expenditures described in Section 17222 (relating to circulation expenditures);

for which deductions have been taken by the taxpayer in determining taxable income for the taxable year or prior taxable years;

(b) To the extent sustained prior to January 1, 1935, and for periods thereafter, for exhaustion, wear and tear, obsolescence, amortization, and depletion, to the extent of the amount—

(1) Allowed as deductions in computing taxable income under this part or prior income tax law; and

(2) Resulting (by reason of the deductions so allowed) in a reduction for any taxable year of the taxpayer's taxes under this part;

but not less than the amount allowable under this part or prior income tax laws Where no method has been adopted under Sections 17208 to 17212, inclusive (relating to depreciation deduction), the amount allowable shall be determined under Section 17208(b)(1).

(c) In respect to any period—

(1) Before January 1, 1935; and

(2) Since December 31, 1934, during which such property was held by a person or an organization not subject to income taxation under this part or prior income tax laws; for exhaustion, wear and tear, obsolescence, amortization, and depletion, to the extent sustained;

(d) In the case of stock (to the extent not provided for in the foregoing subsection) for the amount of distributions previously made which, under the law applicable to the year in which the distribution was made, either were tax-free or were applicable in reduction of basis (not including distributions made by a corporation which was classified as a personal service corporation under the provisions of the Revenue Act of 1918 (40 Stat. 1057), or the Revenue Act of 1921 (42 Stat. 227), out of its earnings or profits which were taxable in accordance with the provisions of Section 218 of the Revenue Act of 1918 or 1921);

(e) In the case of any bond (as defined in Section 17220) the interest on which is wholly exempt from the tax imposed by this part, to the extent of the amortizable bond premium disallowable as a deduction pursuant to Section 17217;

(f) In the case of any municipal bond (as defined in Section 17116), to the extent provided in Section 17115(b);

(g) In the case of a residence the acquisition of which resulted, under Sections 18091 to 18100, inclusive, in the nonrecognition of any part of the gain realized on the sale, exchange, or involuntary conversion of another residence, to the extent provided in Sections 18091 to 18100, inclusive;

(h) In the case of property pledged to the Commodity Credit Corporation, to the extent of the amount received as a loan from the Commodity Credit Corporation and treated by the taxpayer as income for the year in which received pursuant to Section 17117, and to the extent of any deficiency on such loan with respect to which the taxpayer has been relieved from liability;

(i) For amounts allowed as deductions as deferred expenses under Section 17692(b) (relating to certain expenditures in the development of mines) and resulting in a reduction of the taxpayer's taxes under this part, but not less than the amounts allowable under such section for the taxable year and prior years;

(j) For amounts allowed as deductions as deferred expenses under Section 17691(b) (relating to certain exploration expenditures) and resulting in a reduction of the taxpayer's taxes under this part, but not less than the amounts allowable under such section for the taxable year and prior years;

(k) For deductions to the extent disallowed under Section 17291 (relating to sale of land with unharvested crops), notwithstanding the provisions of any other subsection of this section.

(*l*) For amounts allowed as deductions as deferred expenses under Section 17223(b)(1) (relating to research and experimental expenditures) and resulting in a reduction of the taxpayer's taxes under this part, but not less than the amounts allowable under such section for the taxable year and prior years;

(m) For amounts allowed as deductions for expenditures treated as deferred expenses under Section 17227 (relating to trademark and trade name expenditures) and resulting in a reduction of the taxpayer's taxes under this part, but not less than the amounts allowable under such section for the taxable year and prior years.

SEC. 86. Section 18081 of said code is amended to read:

Exchanges for property of like kind

18081. (a) No gain or loss shall be recognized if property held for productive use in trade or business or for investment (not including stock in trade or other property held primarily for sale, nor stocks, bonds, notes, choses in action, certificates of trust or beneficial interest, or other securities or evidences of indebtedness or interest) is exchanged solely for property of a like kind to be held either for productive use in trade or business or for investment.

(b) If an exchange would be within the provisions of subsection (a), of Section 18101, or of Section 18102, if it were not for the fact that the property received in exchange consists not only of property permitted by such provisions to be received without the recognition of gain, but also of other property or money, then the gain, if any, to the recipient shall be recognized, but in an amount not in excess of the sum of such money and the fair market value of such other property.

(c) If an exchange would be within the provisions of subsection (a), of Section 18101, or of Section 18102, if it were not for the fact that the property received in exchange consists not only of property permitted by such provisions to be received without the recognition of gain or loss, but also of other property or money, then no loss from the exchange shall be recognized.

Same Basis

(d) If property was acquired on an exchange described in this section, Section 18101, or Section 18102, then the basis shall be the same as that of the property exchanged decreased in the amount of any money received by the taxpayer and increased in the amount of gain or decreased in the amount of loss to the taxpayer that was recognized on such exchange. If the property so acquired consisted in part of the type of property permitted by this section, Section 18101, or Section 18102, to be received without the recognition of gain or loss, and in part of other property, the basis provided in this subsection shall be allocated between the properties (other than

money) received, and for the purpose of the allocation there shall be assigned to such other property an amount equivalent to its fair market value at the date of the exchange. For purposes of this section, Section 18101, and Section 18102, where as part of the consideration to the taxpayer another party to the exchange assumed a liability of the taxpayer or acquired from the taxpayer property subject to a liability, such assumption or acquisition (in the amount of the liability) shall be considered as money received by the taxpayer on the exchange.

SEC. 87. Section 18082 of said code is amended to read:

Converted property

18082. If property (as a result of its destruction in whole or in part, theft, seizure, or requisition or condemnation or threat or imminence thereof) is compulsorily or involuntarily converted—

(a) Into property similar or related in service or use to the property so converted, no gain shall be recognized.

(b) Into money, and the disposition of the converted property occurred before January 1, 1953, no gain shall be recognized if such money is forthwith in good faith, under regulations prescribed by the Franchise Tax Board, expended in the acquisition of other property similar or related in service or use to the property so converted, or in the acquisition of control of a corporation owning such other property, or in the establishment of a replacement fund. If any part of the money is not so expended, the gain shall be recognized to the extent of the money which is not so expended (regardless of whether such money is received in one or more taxable years and regardless of whether or not the money which is not so expended constitutes gain). SEC. 99. Section 18197 of said code is amended to read:

Subdivided property

18197. Any lot or parcel which is part of a tract of real property in the hands of a taxpayer shall not be deemed to be held primarily for sale to customers in the ordinary course of trade or business at the time of sale solely because of the taxpayer having subdivided such tract for purposes of sale or because of any activity incident to such subdivision or sale, if—

(a) Such tract, or any lot or parcel thereof, had not previously been held by such taxpayer primarily for sale to customers in the ordinary course of trade or business (unless such tract at such previous time would have been covered by this section) and, in the same taxable year in which the sale occurs, such taxpayer does not so hold any other real property; and

(b) No substantial improvement that substantially enhances the value of the lot or parcel sold is made by the taxpayer on such tract while held by the taxpayer or is made pursuant to a contract of sale entered into between the taxpayer and the buyer. For purposes of this subsection, an improvement shall be deemed to be made by the taxpayer if such improvement was made by—

(1) The taxpayer or members of his family (as defined in Section 17289(d)), by a corporation controlled by the taxpayer, or by a partnership which included the taxpayer as a partner; or

(2) A lessee, but only if the improvement constitutes income to the taxpayer; or

(c) Such lot or parcel, except in the case of real property acquired by inheritance or devise, is held by the taxpayer for a period of five years.

SEC. 100. Section 18198 of said code is amended to read:

Sale of tracts by parcels

18198. (a) If more than five lots or parcels contained in the same tract of real property are sold or exchanged, gain from any sale or exchange (which occurs in or after the taxable year in which the sixth lot or parcel is sold or exchanged) of any lot or parcel which comes within the provisions of Section 18197 shall be deemed to be gain from the sale of property held primarily for sale to customers in the ordinary course of the trade or business to the extent of 5 percent of the selling price.

(b) For the purpose of computing gain under subsection (a), expenditures incurred in connection with the sale or exchange of any lot or parcel shall neither be allowed as a deduction in computing taxable income, nor treated as reducing

the amount realized on such sale or exchange; but so much of such expenditures as does not exceed the portion of gain deemed under subsection (a) to be gain from the sale of property held primarily for sale to customers in the ordinary course of trade or business shall be so allowed as a deduction, and the remainder, if any, shall be treated as reducing the amount realized on such sale or exchange.

(c) No improvement shall be deemed a substantial improvement for purposes of Section 18197 if the lot or parcel is held by the taxpayer for a period of 10 years and if—

(1) Such improvement is the building or installation of water, sewer, or drainage facilities or roads (if such improvement would except for this paragraph constitute a substantial improvement);

(2) It is shown to the satisfaction of the Franchise Tax Board that the lot or parcel, the value of which was substantially enhanced by such improvement, would not have been marketable at the prevailing local price for similar building sites without such improvement; and

(3) The taxpayer elects, in accordance with regulations prescribed by the Franchise Tax Board, to make no adjustment to basis of the lot or parcel, or of any other property owned by the taxpayer, on account of the expenditures for such improvements. Such election shall not make any item deductible which would not otherwise be deductible.

The requirements of subparagraphs (2) and (3) shall not apply in the case of property acquired through the foreclosure of a lien thereon which secured the payment of an indebtedness to the taxpayer.

SEC. 101. Section 18246 is added to said code, to read:

Recovery of damages

18246. (a) If an amount representing damages is received or accrued by a taxpayer during a taxable year as a result of an award in a civil action for breach of contract or breach of a fiduciary duty or relationship, then the tax attributable to the inclusion in gross income for the taxable year of that part of such amount which would have been received or accrued by the taxpayer in a prior taxable year or years but for the breach of contract, or breach of a fiduciary duty or relationship, shall not be greater than the aggregate of the increases in taxes which would have resulted had such part been included in gross income for such prior taxable year or years.

(b) The taxpayer in computing said tax shall be entitled to deduct all credits and deductions for depletion, depreciation, and other items to which he would have been entitled, had such income been received or accrued by the taxpayer in the year during which he would have received or accrued it, except for such breach of contract or for such breach of a fiduciary duty or relationship. The credits, deductions, or other items referred to in the prior sentence, attributable to property, shall be allowed only with respect to that part of the award which represents the taxpayer's share of income from the actual operation of such property.

(c) Subsection (a) shall not apply unless the amount representing damages is three thousand dollars ($3,000) or more.

(b) This section shall apply to taxable years ending after the date that this section is enacted, but only with respect to amounts received or accrued after such date as a result of awards or settlements made after such date.

SEC. 103. Section 18246 of said code is amended and renumbered to read:

Fractional part of month

18248. (a) For purposes of this article, a fractional part of a month shall be disregarded unless it amounts to more than half a month, in which case it should be considered as a month.

(b) For the purpose of computing the tax attributable to the amount of an item of gross income allocable under this article to a particular taxable year, such amount shall be considered income only of the person who would be required to include the item of gross income in a separate return filed for the taxable year in which such item was received or accrued.

(c) Subsection (c) of Section 18241 and subsection (b) of this section shall apply only to amounts received or accrued after December 31, 1954. Notwithstanding any other provision of this part, Sections 17054 to 17059, inclusive, of the Personal Income Tax Law of 1954 shall apply to amounts received or accrued as a partner on or before December 31, 1954, under this section and to the computation of tax on amounts received or accrued on or before December 31, 1954.

(1) The tax of the payor for prior taxable years shall be recomputed as if the amount received or accrued by him with respect to which the repayment is made did not include an amount equal to the amount of the repayment, and

(2) The tax of the payee for prior taxable years shall be recomputed as if the amount paid or incurred by him with respect to which the repayment is made did not include an amount equal to the amount of the repayment.

(b) Subsection (a) shall apply only to a subcontract which is subject to renegotiation under the applicable federal renegotiation act.

(c) Subsection (a) shall not apply to any repayment to the extent that Sections 18351 to 18361, inclusive, apply to the amount repaid.

(d) The amount of any repayment to which subsection (a) applies shall not be taken into account by the payor or payee for the taxable year in which the repayment is made, but any overpayment or underpayment of tax resulting from the application of subsection (a) shall be treated as if it were an overpayment or underpayment for the taxable year in which the repayment is made.

(e) This section shall apply only with respect to subcontracts entered into after December 31, 1960, and only to repayments for taxable years beginning after December 31, 1960.

CHAPTER 849

An act authorizing the Director of Finance to sell to the City of Visalia certain real property belonging to the State in the City of Visalia, and providing for the disposition of the proceeds from the sale thereof, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

In effect immediately

The people of the State of California do enact as follows:

Land sale to Visalia

SECTION 1. The Director of Finance is hereby authorized to sell to the City of Visalia, at the price prescribed in Section 2, and upon such terms and conditions and with such reservations and exceptions as in his opinion may be for the best interest of the State, the following described real property:

Approximately 0.53 acre, being a portion of the south one-half of Lot 24 of Stephenson's Addition to Visalia, in the City of Visalia, County of Tulare, State of California, and comprising the former office of the California Highway Patrol.

Consideration

SEC. 2. As consideration for the sale of the real property described in Section 1, the City of Visalia shall pay to the State of California the sum of twenty-two thousand five hundred dollars ($22,500), of which amount ten thousand dollars ($10,000) shall represent the value of the land and twelve thousand five hundred dollars ($12,500) shall represent the value of the building located on said land.

Costs

SEC. 3. Any costs or expenses necessarily incurred in the sale of the real property described in Section 1 shall be reimbursed from the proceeds of the sale.

Deed

SEC. 4. A copy of the deed of conveyance executed and delivered by the Director of Finance pursuant to this act shall be delivered to the State Lands Commission.

Distribution of money received

SEC. 5. Subject to Section 3 hereof, any money received from the sale of the real property described in Section 1 shall be distributed as follows:

(a) Ten thousand dollars ($10,000) of said amount shall be paid into the State Highway Fund in the State Treasury and shall be credited to the then current allocation of funds for expenditure within the City of Visalia made by California Highway Commission pursuant to Section 194 of the Streets and Highways Code and shall be available for expenditure on city streets therein in addition to any other funds allocated pursuant to Section 194.

(b) The remainder of said amount shall be deposited in the funds in the State Treasury from which the moneys for the construction and repair of the building were expended in the same proportion that the amount expended from each of such funds for the construction and repair of said building bears to the total amount so expended from all of such funds, as determined by the State Controller.

Urgency

SEC 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The former office of the California Highway Patrol is presently standing idle and is urgently needed by the City of Visalia. The land on which this building is located was not purchased or condemned by the State, but was given to the State by the City of Visalia with no reversionary clause in the event the State ceased to use the land. Since the time of said gift the State has in many instances accepted similar gifts of land with a reversionary clause, so that the title to the land will revert to the original owner if the State ceases to use it. The purpose of this act is to permit the early sale of the land and building to the City of Visalia and to make the portion of the consideration equivalent to the value of the land given to the State by the City of Visalia available for expenditure upon city streets in the city. For the reasons cited above, it is essential that this act go into immediate effect.

CHAPTER 850

An act to add Article 6 (commencing at Section 11850) to Chapter 7, Division 10, of the Health and Safety Code, and to add Chapter 11 (commencing with Section 6400) and Chapter 12 (commencing with Section 6550) to Title 7 of Part 3 of, and to amend Sections 1237 and 1466 of, the Penal Code, and to amend Section 1755.5 of the Welfare and Institutions Code, relating to narcotics.

All registration requirements set forth in this article shall terminate five years after the discharge from prison, release from jail or termination of probation or parole of the person convicted. Nothing in this section shall be construed to conflict with the provisions of Section 1203.4 of the Penal Code concerning termination of probation and release from penalties and disabilities of probation.

Any person required to register under the provisions of this section who shall knowingly violate any of the provisions thereof is guilty of a misdemeanor.

The statements, photographs and fingerprints herein required shall not be open to inspection by the public or by any person other than a regularly employed peace or other law enforcement officer.

(d) An organization which is operated, supervised, controlled, or principally supported by a religious organization (other than a trust) which is itself not subject to the provisions of this article; and

(b) For purposes of subsection (a), a bond, debenture, note, or certificate or other evidence of indebtedness (hereinafter in this section referred to as "obligation") acquired by a trust described in Section 23701n shall not be treated as a loan made without the receipt of adequate security if—

(1) Such obligation is acquired—

(A) On the market, either (i) at the price of the obligation prevailing on a national securities exchange which is registered with the Securities and Exchange Commission, or (ii) if the obligation is not traded on such a national securities exchange, at a price not less favorable to the trust than the offering price for the obligation as established by current bid and asked prices quoted by persons independent of the issuer;

Subsection (a) shall not apply to a loan made by a trust described in Section 23701n to the employer (or to a renewal of such a loan or, if the loan is repayable upon demand, to a continuation of such a loan) if the loan bears a reasonable rate of interest, and if (in the case of a making or renewal)—

(A) The employer is prohibited (at the time of such making or renewal) by any law of the United States or regulation thereunder from directly or indirectly pledging, as security for such a loan, a particular class or classes of his assets the value of which (at such time) represents more than one-half of the value of all his assets;

(B) The making or renewal, as the case may be, is approved in writing as an investment which is consistent with the exempt purposes of the trust by a trustee who is independent of the employer, and no other such trustee had previously refused to give such written approval; and

(C) Immediately following the making or renewal, as the case may be, the aggregate amount loaned by the trust to the employer, without the receipt of adequate security, does not exceed 25 percent of the value of all the assets of the trust.

"Trustee" For purposes of paragraph (B) the term "trustee" means, with respect to any trust for which there is more than one trustee who is independent of the employer, a majority of such independent trustees. For purposes of paragraph (3), the determination as to whether any amount loaned by the trust to the employer is loaned without the receipt of adequate security shall be made without regard to subsection (b).

(4) (A) In the case of a trust described in Section 23701n, or in the case of a corporation described in Section 23701h, all of the stock of which was acquired before January 1, 1961, by a trust described in Section 23701n, any indebtedness incurred by such trust or such corporation before January 1, 1961, in connection with real property which is leased before January 1, 1961, and any indebtedness incurred by such trust or such corporation on or after such date necessary to carry out the terms of such lease, shall not be considered as an indebtedness with respect to such trust or such corporation for purposes of this section.

(B) In the application of subsection (1), if a trust described in Section 23701n forming part of a supplemental unemployment compensation benefit plan lends any money to another trust described in Section 23701n forming part of the same plan, such loan shall not be treated as an indebtedness of the borrowing trust, except to the extent that the loaning trust—

(i) Incurs any indebtedness in order to make such loan,

(ii) Incurred indebtedness before the making of such loan which would not have been incurred but for the making of such loan, or

(iii) Incurred indebtedness after the making of such loan which would not have been incurred but for the making of such loan and which was reasonably foreseeable at the time of making such loan.

SEC. 6. Section 23736.2 of the Revenue and Taxation Code is amended to read:

Loss of exempt status

23736.2. An organization described in Section 23701d which is subject to the provisions of this article, except those specified in Sections 23736, shall not be exempt from taxation under Article 1 of this chapter if it has engaged in a prohibited transaction after January 1, 1951; and an organization described in Section 23701n which is subject to the provisions of this article shall not be exempt from taxation under Article 1 of this chapter if it has engaged in a prohibited transaction after December 31, 1960.

SEC. 7. Section 23736.3 of the Revenue and Taxation Code is amended to read:

Same

23736.3. An organization described in Section 23701n or Section 23701d, except as specified in Section 23736, shall be denied exemption under Section 23736.2 only for income years subsequent to the income years during which it is notified by the Franchise Tax Board that it has engaged in a prohibited transaction, unless such organization entered into such prohibited transaction with the purpose of diverting corpus or income of the organization from its exempt purposes, and such transaction involved a substantial part of the corpus or income of such organization.

SEC. 8. Section 23736.4 of the Revenue and Taxation Code is amended to read:

Claim for exemption

23736.4. Any organization denied exemption under Section 23701d or Section 23701n by reason of the provisions of Section 23736.2 with respect to any income year following the income year in which notice of denial of exemption was received, may, under regulations prescribed by the Franchise Tax Board, file claim for exemption, and if the Franchise Tax Board pursuant to such regulations, is satisfied that such organizations will not knowingly again engage in a prohibited transaction, such organization shall be exempt with respect to income years subsequent to the year in which such claim is filed.

SEC. 9. Section 23701n is added to the Revenue and Taxation Code, to read:

Supplemental unemployment compensation benefit trust

23701n. (1) A trust or trusts forming part of a plan providing for the payment of supplemental unemployment compensation benefits, if—

(A) Under the plan, it is impossible, at any time prior to the satisfaction of all liabilities with respect to employees under the plan, for any part of the corpus or income to be (within the income year or thereafter) used for, or diverted to, any purpose other than the providing of supplemental unemployment compensation benefits,

(B) Such benefits are payable to employees under a classification which is set forth in the plan and which is found by the Franchise Tax Board not to be discriminatory in favor of employees who are officers, shareholders, persons whose principal duties consist of supervising the work of other employees, or highly compensated employees, and

(C) Such benefits do not discriminate in favor of employees who are officers, shareholders, persons whose principal duties consist of supervising the work of other employees, or highly compensated employees. A plan shall not be considered discriminatory within the meaning of this clause merely because the benefits received under the plan bear a uniform relationship to the total compensation, or the basic or regular rate of compensation, of the employees covered by the plan.

(2) In determining whether a plan meets the requirements of subparagraph (1), any benefits provided under any other plan shall not be taken into consideration, except that a plan shall not be considered discriminatory—

(A) Merely because the benefits under the plan which are first determined in a nondiscriminatory manner within the meaning of subparagraph (1) are then reduced by any sick, accident, or unemployment compensation benefits received under state or federal law (or reduced by a portion of such benefits if determined in a nondiscriminatory manner), or

(B) Merely because the plan provides only for employees who are not eligible to receive sick, accident, or unemployment compensation benefits under state or federal law the same benefits (or a portion of such benefits if determined in a nondiscriminatory manner) which such employees would receive under such laws if such employees were eligible for such benefits, or

(C) Merely because the plan provides only for employees who are not eligible under another plan (which meets the requirements of subparagraph (1)) of supplemental unemployment compensation benefits provided wholly by the employer the same benefits (or a portion of such benefits if determined in a nondiscriminatory manner) which such employees would receive under such other plan if such employees were eligible under such other plan, but only if the employees were eligible under both plans would make a classification which would be nondiscriminatory within the meaning of subparagraph (1).

(3) A plan shall be considered to meet the requirements of subparagraph (1) during the whole of any year of the plan if on one day in each quarter it satisfies such requirements.

"Supplemental unemployment compensation benefits"

(4) The term "supplemental unemployment compensation benefits" means only—

(A) Benefits which are paid to an employee because of his involuntary separation from the employment of the employer (whether or not such separation is temporary) resulting directly from a reduction in force, the discontinuance of a plant or operation, or other similar conditions, and

(B) Sick and accident benefits subordinate to the benefits described in clause (A).

(5) Exemption shall not be denied under this article to any organization entitled to such exemption as an association described in Section 23701i merely because such organization provides for the payment of supplemental unemployment benefits (as defined in subparagraph (4)(A)).

Tax levy

SEC. 10. This act provides for a tax levy within the meaning of Article IV of the Constitution, and shall go into immediate effect.

CHAPTER 858

An act to amend Section 18057 of the Education Code, relating to transportation of public school pupils, declaring the urgency thereof to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 18057 of the Education Code is amended to read:

18057. He shall compute for each group of two or more school districts which have been continuously from a time prior of July 1, 1949, governed by boards of identical personnel during the preceding fiscal year and have maintained a single transportation system for all of such districts which provided for the transportation of pupils, an amount which shall be computed as follows:

He shall determine the total current expenses of the districts for such transportation during the preceding fiscal year.

(a) He shall, if such group comprises an elementary school district and a high school district not maintaining a junior college and each district provided for the transportation of pupils, or comprises an elementary school district, a high school district, and a junior college district and each district except the junior college district provided for the transportation of pupils residing in the district, or comprises a high school district and a junior college district and each district provided for the transportation of pupils, then determine what rate of tax

levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of that one of such districts providing for the transportation of pupils which has the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than three cents ($0.03) he shall allow the district (1) 50 percent of the amount which would be produced by not more than twelve cents ($0.12) of the computed tax rate less three cents ($0.03) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of twelve cents ($0.12).

(b) He shall, if such group comprises an elementary school district, and a high school district maintaining a junior college, each of which provided for the transportation of pupils, including those attending the junior college, or comprises an elementary school district, a high school district, and a junior college district (other than one providing transportation only for pupils not residing in the district), each of which provided for the transportation of pupils, then determine what rate of tax levied on each one hundred dollars ($100) of 90 percent of the assessed valuation of that one of such districts providing for the transportation of pupils which had the largest assessed valuation as shown by the equalized assessment roll of the district for the preceding fiscal year, hereinafter referred to in this section as computed tax rate, would, if levied, produce such amount. If the computed rate of tax is more than four cents ($0.04) he shall allow to the district (1) 50 percent of the amount which would be produced by not more than sixteen cents ($0.16) of the computed tax rate less four cents ($0.04) and (2) 100 percent of the amount which would be produced by the computed tax rate in excess of sixteen cents ($0.16).

He shall then allow to each district in the group the same ratio of the total amount computed for the group as the governing boards of the districts in the groups certify to him is the ratio the amount expended for such transportation in such district during the preceding fiscal year was of the total expenditures of all districts in the group for such transportation during the preceding fiscal year.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At least one group of three school districts with a common administration and a single transportation system, which provide for transportation of pupils residing within district boundaries only in the case of pupils of two of the districts, have for one or more fiscal years received State School Fund transportation allowances computed on formulas applicable to situations where such transportation is being offered to such

pupils residing in all three of the districts. Those formulas contemplate a higher district contribution rate where transportation is being afforded on a three-district basis. In order to make allowances for three district transportation systems computable under the two-district formula where resident pupil transportation is provided only with respect to pupils of two of the districts, to remove the present inequities in allowances, and to enable the newly applicable procedures to be effective at the beginning of the fiscal year for which the allowances are payable, it is necessary that this act take effect immediately.

CHAPTER 859

An act to add Article 2.5 (commencing with Section 6350) to Chapter 4, Part 4, Division 8 of the Harbors and Navigation Code, relating to port districts, and declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 6350) is added to Chapter 4, Part 4, Division 8 of the Harbors and Navigation Code, to read:

Article 2.5. Additional Stockton Port District Bonds

Additional bonded debt

6350 Pursuant to this article, the Stockton Port District may also create an additional bonded debt up to but not in excess of 3 percent of the assessed value of all taxable real and personal property within the district.

Purpose

6350.1. This bonded indebtedness may be created solely for the purpose of providing funds for the acquisition or construction of revenue-producing harbor improvements of a self-liquidating character.

Concurrence required

6350.2. All bonds issued pursuant to this article shall be authorized by ordinance passed by two-thirds of all of the members of the board concurred in by ordinance of the Stockton City Council. But an election need not be held within the district and it is unnecessary to secure the approval of the electors within the district for the issuance of bonds for the purposes and within the limitations of this article.

Maturity

6350.3. The bonds shall be payable within 30 years from their date and shall mature serially at such times as may be fixed by the board, but the earliest maturity of the principal of the bonds shall be fixed at a date not more than 10 years from the date of issue.

Denominations

6350.4. The bonds may be issued in such denominations as the board determines, except that no bond shall be of a de-

nomination less than one hundred dollars ($100) nor of a greater denomination than one thousand dollars ($1,000).

The bonds shall be payable on the day and at the place or places fixed in such bonds, with interest at the rate specified in the bonds, which rate shall not be in excess of 6 percent per annum of the face amount, payable annually or semiannually.

The board may provide for redemption of the bonds before maturity at prices and upon terms and conditions determined by it. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital on its face to that effect.

Validity of signatures, etc.

6350 5. If any officer whose signature or countersignature appears on the bonds or coupons ceases to be an officer before the delivery of the bonds to the purchaser, his signature or countersignature is nevertheless as valid and sufficient for all purposes as if he had remained in office.

The bonds may be issued and sold by the board for not less than their par value and accrued interest to date of delivery, at such time and under such conditions as may be designated by the board.

The proceeds shall be placed in the treasury of the district to the credit of the proper improvement fund and applied exclusively to the objects and purposes mentioned in the ordinance.

Form of bonds

6350.6. The form of the bonds shall be prescribed by the board and they shall be signed by the officer or officers that the board designates. The coupons appertaining to the bonds shall be numbered consecutively and shall be signed by the facsimile signature of the officer or officers that the board has designated.

Deposit of income or revenue

6350 7. The income and revenue derived or to be realized from the harbor improvement acquired or to be acquired from the proceeds of the bonds shall be deposited in a special fund and kept separate and apart from all other revenues of the district. It shall be applied, firstly, to the creation of an interest fund, herein designated as "interest fund," for the payment of the annual interest due or to become due upon the bonds during the next ensuing fiscal year and before the time for the fixing of the next general tax levy in the county in which the district is located.

"Interest fund"

"Sinking fund"

6350.8. The special fund shall be applied, secondly, to the creation of a sinking fund, herein designated as "sinking fund," to provide for the payment of the principal of the bonds at or before their maturity date or dates.

"Operation fund"

6350.9. Any additional revenues over and above the amounts required to be deposited in the interest fund and the sinking fund, may be deposited in an operation fund, herein designated as "operation fund," to be applied to the costs of operation and maintenance, including reasonable repairs and depreciation, of the particular revenue-producing harbor improvement acquired by the issuance and sale of the bonds.

Surplus revenues

6351. Surplus revenues in the operation fund may be deposited either in the interest fund or the sinking fund, but money allocated to the interest fund or the sinking fund shall not be transferred to any other fund or used for any other

purpose than the payment of the bonds and the interest thereon so long as the bonds are outstanding.

Hypothecation of revenues

6351.5. The board, in and by the ordinance authorizing the issuance of the bonds, shall hypothecate and allocate all of the revenues to be realized from the revenue-producing harbor improvement to be acquired or constructed from the proceeds of the bonds to the payment of both principal and interest.

The allocation and hypothecation is irrevocable until all bonds and the accrued interest thereon are paid.

The allocation and hypothecation shall be made in each case for the exclusive benefit of the bonds to be issued for the purpose of acquiring or constructing the particular revenue-producing harbor improvement, and as additional security for the payment of the principal and interest of the bonds.

But the allocation and hypothecation do not constitute the exclusive source of payment. The bonds constitute general obligations of the district and both principal and interest may be paid from any money or sources of revenue of any kind, including taxes, on hand and available for that purpose.

Insufficient revenues

6352. Whenever the revenues of the district are, or in the opinion of the board will be insufficient to provide for the payment in full of the principal or interest on the bonds, the board may, and if the revenues in the interest fund are insufficient to meet the next ensuing fiscal year's interest on the bonds issued and then outstanding or if the moneys in the sinking fund are insufficient to pay or provide for the payment of any bonds maturing during the next ensuing fiscal year, it shall cause a tax to be levied and collected, upon all of the taxable property in the district, sufficient to meet all sums coming due for principal and interest on the bonds during the next ensuing fiscal year and before the time for fixing the next general tax levy in the county in which the district is located.

The tax shall be levied and collected annually in the manner provided by Chapter 5 (commencing with Section 6360) of this part, and shall be in addition to all other taxes authorized to be levied and collected. When collected, the tax shall not be used for any purpose other than the payment of the bonds and the accruing interest thereon.

General law not applicable

6353. The Legislature hereby finds and declares that because of the unique, complex problems existing with respect to the Stockton Port District, as a large inland port district, it is necessary that special legislation be enacted to authorize additional, limited financing provisions for said port district, and that a general law cannot be made applicable.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act would provide additional, limited financing provisions for the Stockton Port District in order to enable said

district to finance the acquisition or construction of urgently needed revenue-producing harbor improvements In order that such financing may be commenced at the earliest possible time, it is necessary that this act go into effect immediately.

CHAPTER 860

An act to amend Sections 6, 12, 13, 13.1, and 25 of the Lake County Flood Control and Water Conservation District Act (Chapter 1544 of the Statutes of 1951), relating to the Lake County Flood Control and Water Conservation District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1961 Filed with Secretary of State June 26, 1961]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 6 of the Lake County Flood Control and Water Conservation District Act is amended to read:

Board of Directors:

Sec. 6. The Board of Supervisors of Lake County shall be and is hereby designated as, and empowered to act as, ex officio the Board of Directors of the Lake County Flood Control and Water Conservation District. As used elsewhere in this act the terms "board" and "board of supervisors" mean the Board of Directors of the Lake County Flood Control and Water Conservation District.

Expenses

Each member of the board of directors of the district shall receive his actual and necessary expenses in the performance of official duties under this act, payable from the funds of said district in addition to his salary as county supervisor.

Ordinances, etc

All ordinances, resolutions and other legislative acts for said district shall be adopted by said board of directors, and certified to, recorded and published, in the same manner, except as herein otherwise expressly provided, as are ordinances, resolutions or other legislative acts for the County of Lake.

SEC. 2. Section 12 of said act is amended to read:

Formation of zones

Sec. 12. The board may institute proceedings for the formation of single zones and also institute projects for single zones and joint projects for two or more zones that may involve the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. The board may also institute separate projects for operation and maintenance of works or improvements for any such zones whether such works or improvements have been constructed by the board or by the State of California or the federal government or by any agency or authority or either, or both of them. Any such zone shall include, as far as practicable, all lands which will be benefited by any project proposed for such zone. Proceedings for the formation of any

zone and for the establishment of any project for such zone may be conducted jointly. For the purpose of establishing any such zone or participating zones or of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to establish such zone or zones or to undertake such project, or both thereof, together with the engineering and other estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution; and said resolution shall refer to a map or maps showing the boundaries of each such zone and the general location and general construction of said project. Said resolution shall also describe the boundaries of any zone proposed to be established; otherwise adequate reference to any established zone involving such project shall be sufficient.

Publication of notice of hearing

Notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code in a newspaper of general circulation, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Publication shall be completed at least seven days before the date of the hearing. Said notice shall contain a copy of said resolution. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of each proposed single zone and any project for a single zone or the joint project for participating zones may be seen by any interested person, and said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

Hearing

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed zone or project.

Inclusions, exclusions

If it is shown that any land is improperly included in the boundaries proposed for the zone the board, in its order for formation of the zone, shall exclude such land therefrom. If the board shall conclude that lands that will be benefited by the zone are improperly omitted from the proposed zone and the owners thereof have not appeared at the hearing the board shall continue the hearing and direct that notice be given to the nonappearing landowners to appear before the board and show cause why their lands should not be included in the proposed zone. Such notice shall be given either by publication or posting in the same manner and for the same period as the original notice of hearing or by personal service on each such landowner. Any personal service shall be made at least three days prior to the date fixed for further hearing. Proof of the notice given must be filed with the clerk of the board on or before the day to which the hearing is continued.

The board may continue the hearing from time to time, by order entered upon its minutes, to the end that a full hearing may be had.

Boundaries of zone

If an order for formation of the zone is made at the conclusion of the hearing such order shall describe the exterior boundaries of the zone as determined by the board, shall be be signed by the chairman of the board and attested by the clerk thereof and be recorded by the county recorder in his official records.

Conclusion of hearing, action, etc

Upon the conclusion of the hearing the board may abandon the proposed zone or project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed zone or project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones, be filed with the board, in which event further proceedings relating to such zone or project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

Assessment roll of Lake County

In all matters in this section referred to, the last equalized assessment roll of the County of Lake next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and numbers of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Representatives' protest

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced

Multiple owners' protest

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, that the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county. Any joint owner or partner or tenant in common may sign and thus be counted independently for his proportionate share of the assessed valuation of any such real property as shall be deter-

mined by division of such valuation by the number of jointly interested owners thereof.

Trustee's protest

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

Corporation's or association's protest

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board

Real property owner's protest

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Real property vendee's protest

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

Annual assessment amount

In its resolution of intention on the institution of any project for operation and maintenance of works or improvements for any zone and in the order of adoption of such project the board shall fix a total sum that it will raise annually thereafter by assessments under Section 13.1 to pay the expenses of such operation and maintenance and the Lake County Flood Control and Water Conservation District shall pay any expenses incurred for such purposes which are in excess of said sum; and where any zone has already been formed prior to this enactment, the board, after notice of hearing therefor in the manner provided in this section, may likewise fix a total sum that it will raise annually for the same

purposes for such zone, and thereafter in respect of such zone, the Lake County Flood Control and Water Conservation District shall pay any expenses incurred for such purposes which are in excess of said sum.

Inclusion of additional lands

After any zone has been established the board may include additional lands therein or exclude lands therefrom through and by the procedures which are prescribed in Sections 53620 to 53678, inclusive, of the Water Code, insofar as they are consistent with this act, and said sections are hereby incorporated in and made a part of this act and shall be applicable and be adjusted and applied under this act to the full possible extent thereof as though expressly enacted, originally, as part of this act.

SEC. 3. Section 13 of said act is amended to read:

Powers of the board

SEC. 13. The board shall have power, in any year:

Taxation, assessments

1. To levy ad valorem taxes or assessments upon all real property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district; provided, however, that said ad valorem tax or assessments shall not exceed fifty cents ($0.50) on each one hundred dollars ($100) of assessed valuation; and

Taxation, assessments

2. To levy ad valorem taxes or assessments upon all real property in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones It is declared that for the purposes of any tax or assessment levied under this subdivision, all property within a given zone is equally benefited.

Assessments

3. To levy assessments upon all real property in each or any of said zones, according to the special benefits derived or to be derived by such properties, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such properties, including the constructing, maintaining, operating, extending, repairing or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

In the event of project co-operation with any of the governmental bodies as authorized in subdivision 6 of Section 5 of this act, and requiring the making of a contract with any such governmental body for the purposes set forth in said subdivision 6 by the terms of which work other than operation and maintenance is to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by said proposed contract the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after pro-

ceedings in the manner prescribed in Section 12 of this act, levy and collect either an ad valorem tax or assessment or a special benefit assessment upon the real property in such zone, or participating zones, whereby to raise funds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said ad valorem taxes or assessments shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from said ad valorem taxes or assessments shall be paid into the county treasury to the credit of said district, or the proper zone or zones thereof.

Said special benefit assessments may be levied and collected as provided in Sections 51230 to 51260, inclusive, 51500 to 51522, inclusive, 51600 to 51654, inclusive, and 51660 to 51894, inclusive, of the Water Code; and said sections of the Water Code, insofar as they are consistent with this act, are hereby incorporated in and made a part of this act and in the proper case shall be applicable and be adjusted and applied under this act to the full possible extent thereof as though expressly enacted, originally, as part of this act.

Expenditures

The board shall have the power to control and order the expenditure for said purposes of all funds so raised; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivision 2 or 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing, or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones. The total amount that may be taxed or assessed against any zone annually for operation and maintenance expenses shall not exceed the amount established in the order prescribed in Section 12 hereof and any expenses in excess of such limitation shall be borne by the Lake County Flood Control and Water Conservation District; but this provision shall not prevent the Lake County Flood Control and Water Conservation District from agreeing to carry a larger share of such expenses.

SEC. 4. Section 13.1 of said act is amended to read:

Operation of zones

Sec. 13.1. Where, pursuant to Section 12, a zone has been established and the project adopted therefor is that of operation and maintenance of works or improvements for such zone which have been constructed by the State of California or the federal government or any agency or authority of either or both of them other than the board and the board has been requested in writing to provide such operation and maintenance of such works or improvements by said zone, funds for

such purpose shall be raised by assessment in the manner, and only in the manner, herein provided, namely:

(1) The board shall appoint three valuation assessment commissioners who have no interest in any real property within the zone and each of whom, before entering upon his duties, shall make and subscribe an oath that he is not in any manner interested in any real property within the zone, directly or indirectly, and that he will perform the duties of a commissioner to the best of his ability. At least one of the commissioners shall be a civil engineer who has had experience in the establishment of valuation assessments in reclamation districts. For purposes of satisfying this requirement it shall be sufficient that such civil engineer shall have had experience in assessment work in the zone covered in this act or assessment work in the district.

(2) The commissioners shall view and fix upon the real property in the zone an assessment valuation at a per acre rate for each parcel which is in proportion to the benefits to be derived from the continuance in operation and maintenance of such works or improvements.

(3) The commissioners shall prepare an operation and maintenance assessment roll in duplicate containing the following information in separate columns:

(a) A description of each parcel assessed by legal subdivisions, swampland surveys, or other boundaries sufficient to identify the same.

(b) The number of acres, or part of an acre, in each parcel.

(c) The names of the owners of each parcel, if known, and if unknown, that fact.

(d) The assessment valuation per acre rate of each parcel assessed.

(e) The total assessment valuation of each parcel.

(f) A blank column for rate to be fixed as shown hereinafter.

(g) A blank column for amount of assessment to be computed as shown hereinafter.

The board, by resolution, may direct the assessment commissioners, in the preparation of the valuation assessment roll, to divide the zone into numbered subzones which shall be described in such resolution. In such case the assessment valuations on the lands in each subzone shall be separately grouped on such assessment roll under the proper number for each such zone. Before assessment valuations are placed by the assessment commissioner on any real property within any subzone they shall first ascertain and fix the comparative shares of any operation and maintenance assessment on the entire zone which shall be borne by each subzone and only thereafter shall establish the assessment valuations upon the real property in each zone.

(4) No error in the name of the owner or supposed owner of any parcel assessed, and no error in any other particular, shall render the assessment thereof invalid.

(5) Such assessment valuations shall be used as a basis for levying assessments against the parcels described in such assessment roll for the purpose of raising such funds, including expenses of levying, calling and collecting such assessments.

(6) The assessment roll shall be filed with the clerk of the board. Thereupon the board shall appoint a time when it will meet for the purpose of hearing objections thereto.

(7) No objection to any assessment valuations on such roll shall be considered by the board, or allowed in any other action or proceeding, unless the objection is made in writing to the board either before or on the hearing.

(8) Notice of the hearing shall be given by publication once a week for two successive weeks in some newspaper of general circulation published in the principal county and having circulation within such zone.

(9) At the hearing, the board shall hear any evidence offered in support of the written objections and may modify or amend the assessment valuations.

(10) The board shall then make an order approving the assessment valuation or any modification thereof and shall endorse the order on the assessment roll. The endorsement shall be signed by the chairman of the board and attested by the clerk thereof.

(11) The decision of the board in approving the assessment roll is final, and thereafter the endorsed assessment roll is conclusive evidence that the assessment valuations were determined and fixed according to law, except in an action commenced pursuant to subdivision (12) of this section.

(12) Within 30 days after an operation and maintenance assessment roll is approved by the board any person aggrieved by the decision may commence an action in the superior court of the principal county to have the assessment valuations corrected, modified or annulled.

(13) If the action is not commenced within 30 days after approval of the operation and maintenance assessment roll, no action or defense shall thereafter be maintained attacking the legality of the assessment valuations therein.

(14) When the board determines that it is necessary to raise any sum for a purpose specified in subdivision (5) of this section it shall, by order entered in its minutes, state the total amount necessary to be raised and fix a rate designating the number of cents to be levied on each one hundred dollars ($100) of assessment valuation shown on the operation and maintenance assessment roll.

(15) In lieu of completing the operation and maintenance assessment roll, the board may, following each levy of assessment, cause a supplement to be prepared and filed with the county treasurer setting forth the rate and total assessment as determined by the board, and when so filed it shall be deemed a part of the original operation and maintenance assessment roll to the same extent and purpose as if said rate and total

assessment had actually been inserted in said original operation and maintenance assessment roll.

(16) The board, by order entered upon its minutes and endorsed on or made a part of the operation and maintenance assessment roll or supplement, may direct that the payment of the assessment be made in one installment or in more than one annual or semiannual installment over a period not to exceed five years.

(17) If the board orders payment of the total assessment inserted in column (g) in installments over a period of years, the due date and the amount of each installment shall be endorsed by, or under the direction of, the board, on the operation and maintenance assessment roll or supplement.

(18) When the operation and maintenance assessment roll or supplement has been completed by inserting the rate and assessment in columns (f) and (g), and an order has been entered providing for the payment of all or any part thereof, it shall be filed forthwith in the office of the county treasurer.

(19) An assessment levy is a lien upon the parcels against which it is levied from the date the completed operation and maintenance assessment roll or supplement is filed in the office of the county treasurer until paid, and bears interest until paid from a date 60 days from the date of such filing.

(20) The rate of interest on unpaid operation and maintenance assessments is 7 percent per year unless the board, by resolution, adopts a lesser rate and files a certified copy of the resolution with the county treasurer for insertion in the operation and maintenance assessment roll.

(21) Additional operation and maintenance assessment levies may be made by the board, as required, so long as the operation and maintenance assessment roll remains in effect.

(22) The operation and maintenance assessment roll shall be returned to and held by the board except during such periods as it is filed in the office of the county treasurer during the period of assessment or installment collections or while any warrants of the district payable from such assessment levy are outstanding and unpaid. Such operation and maintenance assessment roll shall be the original roll, or a copy thereof, certified by the secretary of the board as correctly setting forth the subject matter of the original roll, together with all reapportioned assessment valuations of all subdivisions of any original assessment parcel.

(23) The operation and maintenance assessment roll shall be used for the purposes specified in subdivision (5) of this section until the board, on its own motion or on petition by landowners representing at least 15 percent of the zone lands, makes an order directing the valuation assessment commissioners who made the original operation and maintenance assessment roll or new valuation assessment commissioners, to be named in the order, to prepare a new operation and maintenance assessment roll.

(24) Valuation assessment commissioners appointed to prepare a new operation and maintenance assessment roll shall have the same qualifications and take the same oath as the original assessment commissioners.

(25) The new operation and maintenance assessment roll when prepared by the valuation assessment commissioners shall be filed with the clerk of the board and shall be subject to the same provisions as an original operation and maintenance assessment roll.

(26) No bonds shall be issued for funds for the payment of the principal or interest of any bonded indebtedness of the zone raised on the basis of operation and maintenance assessments.

(27) When the board has ordered an operation and maintenance assessment levy and has fixed the installments, the secretary shall enter in the minutes of the board a notice in substantially the following form:

(Name of zone, location of principal place of business.)

Notice is hereby given that at a meeting of the Board of the Lake County Flood Control and Water Conservation District held on the (date) an installment of (amount) was ordered paid within 60 days from (date assessment levy will be filed in the office of county treasurer) to _____, at _____. Any installment which shall remain unpaid on the (day fixed) will be delinquent, together with accrued interest (if any be due) and 10 percent will be added thereto and collected for the use of the zone.

(28) The notice shall be personally served upon each owner of land in the zone, or in lieu of personal service, shall be mailed to the owner at his place of residence, if known or entered upon the assessment roll of the county, and if not known, at the place where the principal office of the zone is situated, or be published once a week for two weeks successively in some newspaper having circulation within the zone and, if no such newspaper has circulation within the zone, then published in a newspaper of general circulation which is published in the county seat of the county.

(29) The county treasurer shall, immediately following the expiration of the period of 60 days from the date of the order, report all payments of assessments on each parcel and shall also report all parcels which are delinquent, and the amount of delinquencies thereon.

(30) All money collected on such assessment, including interest and penalties derived by sale or otherwise, from original and additional assessments shall be placed by the county treasurer to the credit of the zone in a special fund designated "maintenance fund" of the zone.

(31) When the operation and maintenance assessment levy is to be paid in more than one installment the secretary shall give notice for 60 days immediately preceding the due date of each installment in substantially the form prescribed in subdivision (27) of this section.

(32) The maintenance fund shall be disbursed only upon warrants of the board drawn in payment of the cost or expense of maintenance and operation of the works or improvements of the zone and of levying, calling and collecting assessments.

(33) In other matters appertaining to the levy, call and enforcement of such assessments and the dispositions of funds collected thereby and of any real property acquired thereunder the following sections of the Water Code, namely Sections 51600 to 51618, inclusive, Sections 51660 to 51757, inclusive, and Sections 51890 to 51894, inclusive, are, insofar as they are consistent with this act, hereby incorporated herein and made a part of this act and shall be applicable and be adjusted and applied under this act to the full, possible extent thereof as though expressly enacted, originally, as part of this act.

(34) In any assessment under this section the board, to provide a reserve fund for use in emergencies, may include not more than an additional 10 percent of the amount which the board shall establish under subparagraph (14) of this section.

(35) The total amount of all assessments levied in any year for operation and maintenance charges and a reserve fund on the basis of benefits received shall not exceed an amount equal to the sum which can be produced by a rate of one dollar and fifty cents ($1.50) per one hundred dollars ($100) on the total of the assessed valuations of the lands in the zone as such valuations appear on the last equalized county assessment roll of the County of Lake.

(36) Operation and maintenance assessments under this section of the act shall be known and designated as special benefit assessments to distinguish them from ad valorem taxes or assessments.

SEC. 5. Section 25 of said act is amended to read:

Contracts Bidding, etc.

SEC. 25. All contracts for any improvement or unit of work when the cost thereof according to the estimate of the engineer, will exceed four thousand dollars ($4,000), shall be let to the lowest responsible bidder or bidders in the manner hereinafter provided. The board shall first determine whether such contract shall be let as a single unit for the whole of the work, or shall be divided into severable convenient parts, or both, according to the best interests of the district. The board shall make call for bids and advertise such call in said district pursuant to Section 6066 of the Government Code inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. Such call for bids shall state whether such work is to be performed as a unit for the whole thereof or shall be divided into severable convenient specific parts, or both, as stated in the call. The board may let such work by single contract for the whole thereof as a unit or it may divide such work into severable convenient parts by separate contracts, as stated in such call, according to the best interests of the district. The board shall require the successful bidder or bidders to file with the board good and sufficient bonds to be approved by the board

conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Title 1, Division 5, Chapter 3 of the Government Code and to be subject to the provisions of that chapter. The board shall also have the right to reject any and all bids In the event no proposals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of four thousand dollars ($4,000), or the work consists of channel protection, or maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have said work done by day labor, under the direction of the board, by contract, or by a combination of the two. The district shall have the power to acquire in the open market without advertising for bids therefor, materials, equipment and supplies for use in any work or for any other purpose; provided, however, that materials and supplies for use in any new construction work or improvement, except work referred to in the preceding sentence, may not be purchased if the cost thereof exceeds two thousand five hundred dollars ($2,500), without advertising for bids and awarding the contract therefor to the lowest responsible bidder.

In effect September 15, 1961

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 6 of the Metropolitan Water District Act (Chapter 429 of the Statutes of 1927) is amended to read:

Sec. 6. All powers, privileges and duties vested in or imposed upon any district incorporated hereunder shall be exercised and performed by and through a board of directors; provided, however, that the exercise of any and all executive, administrative and ministerial powers may be by said board of directors delegated and redelegated to any of the offices created hereby or by the board of directors acting hereunder.

The board of directors herein referred to shall consist of at least one representative from each municipality, the area of

which shall lie within the metropolitan water district. Such representatives shall serve without compensation from the district and shall be designated and appointed by the chief executive officers of municipalities, respectively, with the consent and approval of the governing bodies of the municipalities, respectively. As a member of the board of directors, each representative shall be entitled to vote on all questions, orders, resolutions and ordinances coming before the board, and shall be entitled to cast one vote for each ten million dollars ($10,000,000), or major fractional part thereof, of assessed valuation of property taxable for district purposes in the city represented by him as shown by the assessment records of the county and evidenced by the certificate of the county auditor; provided, that each representative shall have at least one vote and no municipality shall have votes exceeding in number the total number of votes of all the other municipalities whose corporate areas are included in such district. Any meeting may be adjourned or recessed from day to day or from time to time, by vote of the director or directors present, irrespective of the number of directors present or the number of votes represented at such meeting. For the purposes of this section, the term "major fractional part" shall be deemed to mean a fractional part larger than one-half. Members of the board of directors so constituted shall convene at the time and place fixed by the chief executive officer of the municipality initiating the proceedings hereunder, and immediately upon convening, such board of directors shall elect from its membership a chairman, a vice chairman, and a secretary, who shall serve for a period of two years, or until their respective successors shall be elected and qualified.

The board of directors shall have power:

(1) To fix the time and place or places at which its regular meetings shall be held, and shall provide for the calling and holding of special meetings.

(2) To make and pass ordinances, resolutions and orders not repugnant to the Constitution of the United States or of the

State of California, or to the provisions of this act, necessary for the government and management of the affairs of the district, for the execution of the powers vested in the district and for carrying into effect the provisions of this act. On all ordinances the roll shall be called and the ayes and noes recorded. Resolutions and orders may be adopted by viva voce, but on demand of any member the roll shall be called. No ordinance shall be adopted unless it shall have been introduced on a day previous to the time of such adoption except by unanimous vote of all the members of the board of directors present; provided, there shall be present directors from not less than three-fourths of all cities whose corporate areas are included in said metropolitan water district and representing not less than three-fourths of the total votes of said district; provided, that in lieu of such previous introduction or unanimous vote any ordinance may be mailed by registered mail, postage prepaid, to each member of the board of directors at least five (5) days prior to the day upon which such ordinance shall be presented for adoption. No ordinance adopted by the board of directors shall take effect until the expiration of thirty (30) days following the adoption thereof, except an ordinance ordering or otherwise relating to an election or to the issuance or sale of bonds or to the levying or collection of taxes or the fixing of water rates; and an ordinance necessary for the immediate preservation or protection of the property, interests or welfare of the district, which shall contain a specific statement showing its urgency, and is passed by three-fourths of the total vote of the board of directors but all ordinances of any of the classes heretofore excepted by this section shall take effect upon their adoption. All ordinances except those which shall take effect upon their adoption as provided in this section shall be subject to referendum in the manner provided by law for the legislative acts of boards of supervisors of counties.

(3) To fix the location of the principal place of business of the district and the location of all offices and departments maintained hereunder.

(4) To prescribe by ordinance a system of business administration and to create any and all necessary offices which shall include the offices of controller and of treasurer and to establish and re-establish the powers and duties and compensation of all officers and employees and to require and fix the amount of all official bonds necessary for the protection of the funds and property of the district.

(5) To prescribe by ordinance a system of civil service.

(6) To delegate and redelegate by ordinance to officers of the district power to employ clerical, legal and engineering assistants and labor, and under such conditions and restrictions as shall be fixed by the directors, power to bind the district by contract.

(7) To prescribe a method of auditing and allowing or rejecting claims and demands; also to prescribe methods for the construction of works and for the letting of contracts for

the construction of works, structures or equipment, or the performance or furnishing of labor, materials or supplies, required for the carrying out of any of the purposes of this act; provided that, in cases where work is not to be done by the district itself by force account, and the amount involved shall be ten thousand dollars ($10,000), or more, the board of directors shall provide for the letting of contracts to the lowest responsible bidder, after publication of notices inviting bids, subject to the right of said board to reject any and all proposals; provided, likewise, that the board of directors in advertising for bids and in letting contracts as above provided, may require all articles to be furnished to the district thereunder to be manufactured, produced or fabricated in the United States or its territories, and may prohibit the use in, or employment in connection with, the carrying out of such contracts by the contractor or any subcontractor, of all machinery or materials except such as shall have been manufactured, produced or fabricated in the United States or its territories, if such are available, the question of such availability to be determined by the board of directors; provided further, that contracts, in writing or otherwise, may be let without advertising for or inviting bids, when any repairs, alterations, or other work, or the purchase of materials, supplies, equipment or other property, shall be deemed by the board of directors to be of urgent necessity, and shall be authorized by a two-thirds vote thereof.

(8) To fix the rate or rates at which water shall be sold. Such rates, in the discretion of the board, may differ with reference to different sources from which water shall be obtained by the district. The board of directors, under conditions and on terms found and determined by the board to be equitable, may fix rates for the sale and delivery to constituent municipalities of water obtained by the district from one source of supply in substitution for water obtained by the district from another and different source of supply, and may charge for such substitute water at the rate fixed for the water for which it is so substituted. The board of directors, so far as practicable, shall fix such rate or rates for water as will result in revenue which will pay the operating expenses of the district, provide for repairs and maintenance, provide for payment of the purchase price or other charges for property or services or other rights acquired by the district, and provide for the payment of the interest and principal of the bonded debt subject to the applicable provisions of this act authorizing the issuance and retirement of the bonds. Such rates, subject to the foregoing provisions of this paragraph (8), shall be uniform for like classes of service throughout the district.

CHAPTER 863

An act to add Section 15517 to the Education Code, relating to school buildings declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 15517 is added to the Education Code, to read:

15517. The governing board of a school district may undertake the installation of fire sprinkler systems or other fire prevention facilities recommended to the governing board by the State Fire Marshal in connection with any school building under the jurisdiction of the governing board without compliance with the procedures otherwise prescribed by this article.

The maximum rate of tax of any school district for any school year is hereby increased by such amount as will produce the amount necessary to effect the installation of fire sprinkler systems or other fire facilities recommended by the State Fire Marshal, as provided in the preceding paragraph, as shown by the budget of the district for such school year, as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section.

The increase provided by this section shall not exceed ten cents ($0.10) for each one hundred dollars ($100) of the assessed valuation of property within the district in each fiscal year.

If at the end of any school year, there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for expenditures of the school district during that school year required for purposes of this section.

This section shall remain in effect until July 1, 1965.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the installation of the urgently needed fire prevention facilities authorized by this bill may be commenced as soon as possible, it will be necessary that the forthcoming school budget proceedings include consideration thereof, and that the tax rates established for the forthcoming fiscal year be such as will raise the necessary revenue. Since those procedural matters are carried on very early in the fiscal year, it is necessary that this act take effect immediately rather than on the 91st day after adjournment of the 1961 Regular Session.

CHAPTER 864

An act to amend Section 5780.15 of the Public Resources Code, relating to recreation and park districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.] In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 5780.15 of the Public Resources Code is amended to read:

5780.15. Any district previously organized or reorganized under the provisions of this chapter or any statutory predecessor of this chapter, shall submit to the Secretary of State an affidavit reciting the facts of such organization or reorganization, together with certified copies of any documentary proof of such organization or reorganization, and a description of the boundaries of such district, and shall specify one of the methods of selecting the board of directors of the district, provided for in Section 5781.4. Upon receipt of the affidavit the Secretary of State shall issue to the district board of such district a certificate evidencing the existence of such district under such organization or reorganization.

Not less than twenty (20) days nor more than forty (40) days after receipt by the governing board of the certificate evidencing the existence of the district, the governing board of the district shall call for elections in accordance with Article 5 (commencing with Section 5783) of this chapter, whenever the affidavit specifies that the method of selecting the governing board shall be by election.

At such election the three nominees receiving the largest vote shall be considered as having been elected for four-year terms and the two nominees receiving the fourth and fifth largest number of votes shall be considered as having been elected for two-year terms.

Upon qualification of the members of the governing board selected, in accordance with the provisions of this chapter, the terms of all members of the governing board holding office under any statutory predecessor of this chapter shall expire.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

There is presently a considerable amount of confusion as a result of the lack of provision for changeover and reorganization of boards of districts which are reorganized as, or come under the law regarding recreation and park districts, lack of provision for termination of existing terms so that much of the action of boards not yet reorganized or even reorgan-

ized but having no statutory method which to follow, is clouded.

As a result of these clouds, potential bond issues for development and even tax rate levies might be in jeopardy. It is, therefore imperative that this act take effect immediately.

CHAPTER 865

An act to add Section 19594.5 to the Education Code, relating to state school building aid, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 19594.5 is added to the Education Code, to read:

19594.5. This section applies only to the approval of an application for an apportionment for a construction project by the board prior to August 12, 1959, and to a conditional apportionment which was made to a district under such application prior to August 12, 1959, and with respect to which the following events occurred: (a) as a result of error in the amount of the assessed value of property in the district, the board required the district to issue and sell an amount of district bonds which was insufficient to qualify the district for an apportionment under the requirements of Section 19590; (b) thereafter, the county superintendent of schools of the county having jurisdiction over such district certified to the board and the State Controller that at an election called, held and conducted in the district for that purpose, two-thirds of the qualified electors of the district voting thereat authorized the governing board of the applicant school district to accept, expend, and repay an apportionment under the provisions of this chapter; (c) such county superintendent of schools, prior to nine months after the making of the conditional apportionment, certified to the board and the State Controller that the amount of district bonds in the amount required by the board, as a condition to the apportionment becoming final, was issued and sold and the proceeds thereof made available for the purposes of the application; (d) subsequently, the board discovered the error in the amount of assessed valuation and the conditional apportionment became void.

Such conditional apportionment is hereby revived and shall, notwithstanding Section 19590 or any other section, become final upon the effective date of this section, in the amount of the original conditional apportionment, but not exceeding sixteen thousand dollars ($16,000).

The approval of the application under which the conditional apportionment was made is hereby ratified and made fully ef-

fective and the board may approve the remaining portion or portions of the construction project for which the application referred was made and may make an additional apportionment or apportionments, not exceeding the total amount applied for in the application, within three years after the original approval without requiring the applicant district to issue additional bonds.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are: Urgency

As a result of an error beyond the control of a school district, the building program of a district has been interrupted to serious detriment of the pupils of the district. In order that school buildings be provided for pupils whose education will otherwise be impaired by the lack of adequate educational facilities, it is necessary that this act take effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 6369 is added to the Revenue and Taxation Code, to read:

6369. There are exempted from the taxes imposed by this part the gross receipts from the sale, and the storage, use, or other consumption, in this State of medicines prescribed for the treatment of a human being by a person authorized to prescribe the medicines, and dispensed on prescription filled by a registered pharmacist in accordance with law. 11901. It is the purpose of this chapter to provide for the planning and construction of water storage, conservation, and regulation facilities and associated fish and wildlife and recreation features consistent with this declaration and to make provision for funds therefor on a continuing basis, and to provide for the operation and maintenance of such fish and wildlife and recreation features.

In enacting this chapter, however, it is not the intent of the Legislature to diminish any existing powers of the Department of Water Resources, the Department of Natural Resources, or the Department of Fish and Game, but rather to provide specifically for the preservation and enhancement of fish and wildlife resources and for a system of public recreation facilities at state water projects as part of a co-ordinated plan for multipurpose use of these projects.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the federal "Temporary Extended Unemployment Compensation Act of 1961" a program of unemployment compensation benefits is provided for individuals who have ex-

hausted their California unemployment compensation benefit rights after June 30, 1960. Provisions of California law are necessary to prevent the duplication of federal and California benefits, to establish a limitation on total California and federal benefits co-ordinated with the federal law, and to protect and preserve the rights of California claimants to receive the full amount of extended duration benefits provided by California law upon the expiration of the federal law. In order to clarify the state law and co-ordinate it with the federal law and to protect and preserve the rights of California claimants, it is necessary that this act take immediate effect.

CHAPTER 869

An act to add Section 6052.5 to the Revenue and Taxation Code, relating to collection of the sales tax.

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 6052.5 is added to the Revenue and Taxation Code, to read:

6052.5. The board shall prepare sales tax reimbursement schedules showing the total amount that may be collected by the retailer from a consumer in reimbursement of the sales tax, computed on each sales price, from one cent ($0.01) to and including one hundred dollars ($100), at the 3 percent rate, and at the 4 percent rate. The schedules shall be identical with the following tables up to the amounts specified therein:

3 percent		4 percent	
Price	Tax	Price	Tax
.01– .13	.00	.01–.12	.00
.14– .46	.01	.13–.34	.01
.47– .79	.02	.35–.59	.02
.80–1.16	.03	.60–.87	.03

The remainder of the schedules shall show amounts of reimbursement computed by applying the applicable tax rate to the sales price, rounded off to the nearest cent by eliminating any fraction less than one-half cent and increasing any fraction of one-half cent or over to the next higher cent.

The "sales tax reimbursement schedule" shall be available for inspection and duplication or reproduction.

Each retailer who collects amounts from a consumer in reimbursement of the sales tax shall use the appropriate schedule prepared by the board in computing the amount of the reimbursement, based upon the sales price of the item sold where one item is sold, and where more than one item is sold in any one transaction, upon the sum of the aggregate sales

prices of the items sold, or he shall include in the sales price of each item an amount of reimbursement computed to the nearest mill at the applicable tax rate and post a notice in his premises stating that each posted or advertised price includes reimbursement so computed. When both taxable and nontaxable items are included in the same transaction, the foregoing requirement regarding computation of tax reimbursement upon the sum of the aggregate sales prices shall apply only if the purchaser requests at the time of the sale that the computation be made in this way.

The board shall enforce the provisions of this section.

SEC. 2. This act shall not affect the legal incidence of the tax imposed under Section 6051 of the Revenue and Taxation Code.

CHAPTER 872

An act to add Section 6054.5 to the Revenue and Taxation Code, relating to reimbursement for sales tax

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 6054.5 is added to the Revenue and Taxation Code, to read:

6054.5. When an amount represented by a person to a customer as constituting reimbursement for taxes due under this part is computed upon an amount that is not taxable or is in excess of the taxable amount and is actually paid by the customer to the person, the amount so paid shall be returned by the person to the customer upon notification by the Board of Equalization or by the customer that such excess has been ascertained. In the event of his failure or refusal to do so, the amount so paid, if knowingly computed by the person upon an amount that is not taxable or is in excess of the taxable amount, shall constitute an obligation due from him to this State. Such obligation may be determined and collected by the board in accordance with Chapters 5 and 6 of this part. The amount so collected shall be refunded by the board to the person in accordance with Chapter 7 of this part, only upon submission of proof to the satisfaction of the board, or in the event the board denies his claim for refund, to the satisfaction of the superior court, that such amount has been returned or will be returned to the customer.

The foregoing shall not apply to an amount computed by using a schedule designed to result in reimbursement in an amount as nearly equivalent as practicable to the tax applica-

ble to total taxable sales and to the average amount of individual taxable sales.

SEC. 2. Whereas it appears to the satisfaction of the Legislature that persons are collecting money from the public under the representation that they are entitled to collect such amounts by way of reimbursement under the Sales and Use Tax Law, when in fact no tax reimbursement or a lesser tax reimbursement is authorized by law, and whereas such conduct is an improper use of the provisions of the Sales and Use Tax Law which allows retailers to reimburse themselves from the customers for sales and use taxes actually due the State,

Now, therefore, it is the intent of this legislation to discourage such a practice by preventing persons from profiting from such erroneous collection of tax reimbursement authorized by this part. It is further the intent of the Legislature that nothing in this legislation shall be construed to affect the basic principle that the incidence of the California sales tax is on the retailer.

CHAPTER 873

An act to amend Sections 16801, 16802, 18059 of, and add Section 16803.1 to the Education Code, relating to the transportation of pupils, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 16801 of the Education Code is amended to read:

Transportation of pupils

16801. The governing board of any school district may provide, with the written approval of the county superintendent of schools, for the transportation of pupils to and from school whenever in the judgment of the board such transportation is advisable and good reasons exist therefor. The governing board may purchase or rent and provide for the upkeep, care, and operation of vehicles, or may contract and pay for the transportation of pupils to and from school by common carrier or municipally owned transit system, or may contract with and pay responsible private parties for the transportation. Such contracts may be made with the parent or guardian of the pupil being transported.

Whenever the term "municipally owned transit system" appears in this chapter, it means a transit system owned by a city, or by a district created under Part 1 (commencing with Section 24501) of Division 10 of the Public Utilities Code.

SEC. 2. Section 16802 of said code is amended to read:

Bids and contracts for service

16802. In order to procure the service at the lowest possible figure consistent with proper and satisfactory service, the gov-

erning board shall, whenever an expenditure of more than one thousand dollars ($1,000) is involved, secure bids pursuant to Sections 15951 and 15952 of this code whenever it be contemplated that a contract may be made with a person or corporation other than a common carrier or a municipally owned transit system or a parent or guardian of the pupils to be transported. The governing board may let the contract for the service to other than the lowest bidder. No board shall make any purchase or enter into any contract for the service without securing the written approval of the county superintendent of schools.

SEC. 3. Section 18059 of said code is amended to read:

Standards for transportation allowances

18059. The Superintendent of Public Instruction in approving, under this article (commencing at Section 18051), current expenses of school districts for the transportation of pupils shall apply the same standards and basis for such approval to expenditures for such transportation provided by a school district in schoolbuses owned and operated by the school district and expenditures for such transportation provided by a contract with a common carrier, municipally owned transit system as defined in Section 16801, or a private party.

SEC. 4. Section 16803.1 is added to said code, to read:

The amount determined by the board shall be no greater than that paid for transportation on a common carrier or municipally owned transit system by other pupils in the district who do not use the transportation provided by the contract of the district. No charge under this section shall be made for the transportation of handicapped children.

Urgency

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many school districts, faced with financial obligations in connection with the furnishing of transportation to their pupils, urgently need the authority contained in this act to permit their consummating the necessary agreements with a common carrier or a municipally owned transit system prior to the commencement of the 1961 fall semester.

CHAPTER 874

SEC. 3. Section 31790 of said code is amended to read:

Inadequate revenues

31790. If a district has no revenue or if the revenues of the district are, or in the judgment of the board of directors are likely to be, inadequate to pay the interest on or principal of any bonded debt as it becomes due, or any other expenses or claims against the district, the board shall, within 15 days after the close of its session as a board of equalization:

(c) Each improvement district tax shall be levied solely upon the property within the improvement district as described in the resolution of the board creating such improvement district.

(d) The general tax shall be levied on all the property within the district.

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are: Urgency

The fair and equitable distribution of costs of furnishing water and sanitation services to users is of great concern in areas of the State which are wholly dependent upon water and sanitation services provided by county water districts. Where such districts are located in more than one county, they must levy and collect their own taxes. The present law provides no means whereby county water districts levying their own taxes may restrict maintenance and operation taxes to a benefited improvement district as may be done when the levy is made under the main tax procedure by a board of supervisors

In order to provide for the immediate solution of existing inequities it is necessary that this act take effect immediately.

CHAPTER 875

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 1720) is added to Chapter 9, Division 2 of the Streets and Highways Code, to read:

Article 5. County Highways Within Cities

Alternative procedure

1720. This article provides an alternative procedure for the establishment of a county highway within a city. This article shall be applicable in those counties adopting a county highway bond issue after January 1, 1961.

Resolution declaring a county highway

1721. The board of supervisors by resolution may determine that it is of general county interest that an existing street in the county extending in whole or in part within a city be made a county highway within the city or that a new county highway be laid out, acquired, constructed and maintained in whole or in part within a city. The resolution shall describe the proposed location or relocation and the general nature of construction proposed to be undertaken by the county. A copy of such resolution shall be forwarded to the governing body of the city within which is included any portion of the highway.

Consent of city

1722. The governing body of the city, by resolution, may consent to the establishment of the proposed county highway and may relinquish to the county in whole or in part an existing city street. If the governing body of the city wishes to change the location or relocation of the highway proposed by the board of supervisors, it may adopt a report describing the proposed revisions and file a copy with the board of supervisors. The board shall consider the report and may modify its resolution. If the board modifies its resolution it shall forward a copy of such resolution to the governing body of the city. The city may then adopt a resolution of consent to the modified county resolution.

Adoption of resolution

1723. Upon the adoption of the resolution of consent by the city, such street or portion thereof within the city shall thereupon constitute a county highway. A certified copy of such resolution shall be filed with the board of supervisors. (b) The special road improvement fund;

(c) The county general fund;

(d) Any other funds available for county highway purposes.

Extension to unincorporated area

1725. Whenever a county highway has been established within a city, as provided in this article, and an extension of such highway in the unincorporated area of the county is thereafter annexed by the city, the portion annexed shall continue to be a county highway until a resolution of relinquishment is adopted in accordance with Section 1731.

Construction etc., by city

1726. The county and city may agree that the city shall acquire, construct or maintain designated county highways or portions thereof within the city, the cost thereof to be paid by the county or the city or both agencies as may be agreed upon.

City-county co-operation

No city street or other public highway shall be opened into or connected with any county highway declared to be a freeway by the board of supervisors unless and until the board of supervisors adopts a resolution consenting to the same and fixing the terms and conditions on which such connection shall be made and the board of supervisors may give or withhold its consent or fix such terms and conditions as in its opinion will best serve the public interest.

The board of supervisors is authorized to enter into an agreement with the city council to close any city street at or near the point of its interception with any county highway declared to be a freeway under Section 941.1 or to make provision for carrying such city street over or under or to a connection with

the freeway, and the board of supervisors may do any and all work on such city street as is necessary therefor.

SEC. 30. Chapter 2c (commencing with Section 2985) is added to Title 14, Part 4, Division 3 of said code, to read:

CHAPTER 2c. REAL PROPERTY SALES CONTRACTS

2985. A real property sales contract is an agreement wherein one party agrees to convey title to real property to another party upon the satisfaction of specified conditions set forth in the contract. Real property sales contract

Transfer of contract

2985.1. A real property sales contract may not be transferred by the fee owner of the real property unless accompanied by a transfer of the real property which is the subject of the contract, and real property may not be transferred by the fee owner thereof unless accompanied by an assignment of the contract.

Explanation of prior repeal

SEC. 31. In 1955 the Legislature enacted two sections of the Business and Professions Code, partially identical, numbered 10131.1. These sections were, respectively, added by Chapters 1791 and 1792, Statutes of 1955. Chapter 1942, Statutes of 1959, repealed "Section 10131.1 of the Business and Professions Code." Some confusion has arisen on the question of whether both sections so numbered or only one, and if so, which one, was repealed. From an examination of the bill (Senate Bill No. 1397) which became Chapter 1942, Statutes of 1959, it appears that it was the section as added by Chapter 1792 that was so repealed. Section 6 of this act repeals Section 10131.1 of the Business and Professions Code as added by Chapter 1791, Statutes of 1955. It is thus the intention of the Legislature to dispel any ambiguity and to make it quite clear that both sections added in 1955 numbered Section 10131.1 of the Business and Professions Code are repealed.

SEC. 32. Section 25102 of the Corporations Code is amended to read:

Exempted securities

25102. Except as otherwise expressly provided in this division, the Corporate Securities Law does not apply to any of the following classes of securities:

(a) Any security (except notes, bonds, debentures, or other evidences of indebtedness, whether interest-bearing or not) issued by a company organized under the laws of this State exclusively for educational, benevolent, fraternal, charitable, or reformatory purposes and not for pecuniary profit, no part of the earnings of which inures to the benefit of any private shareholder or individual.

(b) Bills of exchange, trade acceptances, promissory notes and any guarantee thereof, and other commercial paper issued, given, or acquired in a bona fide way in the ordinary course of legitimate business, trade, or commerce.

(c) Promissory notes, whether secured or unsecured, and any guarantee thereof, where the notes are not offered to the public, or are not sold to an underwriter for the purpose of resale.

(d) A promissory note, secured by a lien on a single parcel of real property, when such note is not offered to the public and is not one of a series of notes secured by interests in the same real property.

Repeal

SEC. 33. Section 25102.1 of the Corporations Code as added by Chapter 1792 of the Statutes of 1955 is repealed.

Repeal

SEC. 34. Section 25102.1 of the Corporations Code as added by Chapter 1791 of the Statutes of 1955 is repealed.

Severability

SEC. 35. If any provision of this act or the application thereof to any person or circumstances is held invalid, such in-

validity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Urgency

SEC. 36. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Emergency legislation controlling and regulating the market in mortgages and trust deeds was enacted at the 1960 (First Extraordinary) Session of the Legislature. Since that legislation became effective serious irregularities in the mortgage market have been discovered and the investments of many people have been placed in great jeopardy. This deplorable situation was discussed in the "Final Report of the Subcommittee on Real Estate Contracts and Trust Deeds," of the Assembly Interim Committee on Judiciary—Civil, dated December, 1960. The Legislature finds that the bulk of promotional trust deeds as herein defined were sold by so-called trust deed companies and brokers, purchasing and selling such notes and real property sales contracts developed through subdivision financing. As was pointed out in the report of the Attorney General to the Legislature on "Trust Deed Financing," dated March 1961, such notes and real property sales contracts were sold upon appraisals of value far in excess of actual fair market value and subjected the purchasing public to all the financial risks in subdivision promotion and construction. Millions of dollars have been lost by investors through numerous defaults on such notes and real property sales contracts. Permanent legislation is urgently needed to provide uniform and effective regulation, and to give stability to the mortgage and trust deed market.

[Approved by Governor June 27, 1961 Filed with Secretary of State June 28, 1961]

In effect immediately

The people of the State of California do enact as follows:

SECTION 1. Section 5659 of the Education Code is amended to read:

Computation

5659. The tuition for the education of any person described in Section 5658 shall be computed as follows:

From the total current expense of education, exclusive of the expense of transportation, of pupils in grades 9 through 12 of the high school district or unified school district for the preceding school year subtract state and federal apportionments received by the district except federal apportionments under the act of Congress entitled, "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress), or under any similar provision of any other act of Congress received on account of the attendance of pupils residing in the district; and divide the remainder by the total number of units of average daily attendance in grades 9 through 12 of the high school district or unified school district during the preceding school year.

The total tuition chargeable to any elementary school district shall be computed as follows:

(a) Multiply the resulting quotient by the units of average daily attendance during the preceding school year of pupils in grades 9 through 12 residing in the elementary school district, and not residing on a military reservation of the United States, and attending the high schools of the high school district or unified school district; subtract the amount of federal apportionments under the act of Congress entitled, "An act to provide financial assistance for local educational agencies in areas affected by federal activities and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress), or under any similar provision of any other act of Congress received on account of attendance of pupils residing in the elementary school districts, and not residing on a military reservation of the United States, and attending the high schools of the high school district or unified school district; add two hundred dollars ($200) for each of such units of average daily attendance for the use of buildings and equipment; and add the actual expense of transportation provided by the high school district to such pupils.

(b) Add to the total arrived at under subdivision (a) the total current expense less federal and state apportionments to the high school district or unified school district of education of pupils of the elementary school district as described in Section 5658 in any classes whatever other than classes in grades 9 through 12 of the high school district or unified school district.

The total amount chargeable against the county school service fund of any county shall be determined by: (a) multiplying the quotient utilized under subdivision (a), above, by the units of average daily attendance during the preceding school year of pupils in grades 9 through 12 residing in the elementary school district, and on a military reservation of the United States, and attending the high schools of the high

school district or unified school district; and (b) adding thereto the total current expense less federal and state apportionments to the high school district or unified school district of education of pupils of the elementary school district as described in Section 5658 and residing on a military reservation of the United States in any classes whatever other than classes in grades 9 through 12 of the high school district or unified school district.

For the purposes of this section, the Superintendent of Public Instruction shall define the term "total current expense of education" and the term "actual expense of transportation."

SEC. 1.5. Section 5718.5 is added to said code, to read:

5718.5. The State Board of Education shall establish criteria and standards for graded classes in grades 13 and 14. Criteria and standards for grades 13 and 14

SEC. 2. Section 17263 of said code is amended to read:

17263. Notwithstanding any other provision of this code, whenever the assessed valuation of the district has been modified upward under Section 17262, measures to provide additional local tax revenues to provide the funds required to offset the decrease in school equalization aid resulting from such modification of the assessed value shall be undertaken pursuant to Section 17263.1. Additional tax revenue measures

SEC. 3. Section 17263.1 is added to said code, to read:

17263.1. Whenever the assessed valuation of a district has been modified upward pursuant to Section 17262, the governing board of the district shall certify to the county superintendent of schools the amount of funds required by the district to offset the decrease in school equalization aid resulting from such modification of the assessed value. The county superintendent of schools shall certify to the county auditor of the county in which the districts are included the amounts required to offset the decrease of equalization aid in all the districts under his jurisdiction. The county auditor shall certify such amounts to the county board of supervisors who shall, at the time other taxes are levied, levy a tax upon all the assessed valuation of the county sufficient to provide the total of the amounts certified. Upon the collection of such taxes the county auditor shall pay to each school district the amount certified as required to offset the decrease in equalization aid. Additional tax levy

SEC. 4. Section 17300 of said code is amended to read:

17300. It is the intent of the Legislature that the administration of the laws governing the financial support of the public school system in this State be conducted within the purview of the following principles and policies: Legislative intent

The system of public school support should be designed to strengthen and encourage local responsibility for control of public education. Local school districts should be so organized that they can facilitate the provision of full educational opportunities for all who attend the public schools. Local control is best accomplished by the development of strong, vigorous, and properly organized local school administrative units. It

is the State's responsibility to create or facilitate the creation of local school districts of sufficient size to properly discharge local responsibilities and to spend the tax dollar effectively.

Effective local control requires that all local administrative units contribute to the support of school budgets in proportion to their respective abilities, and that all have such flexibility in their taxing programs as will readily permit of progress in the improvement of the educational program. Effective local control requires a local taxing power, and a local tax base which is not unduly restricted or overburdened.

The system of public school support should assure that state, local, and other funds are adequate for the support of a realistic foundation program. It is unrealistic and unfair to the less wealthy districts to provide for only a part of the financing necessary for an adequate educational program.

The system of public school support should permit and encourage local school districts to provide and support improved district organization and educational programs. The system of public school support should prohibit the introduction of undesirable organization and educational practices, and should discourage any such practices now in effect. Improvement of programs in particular districts is in the interests of the State as a whole as well as of the people in individual districts, since the excellence of the programs in some districts will tend to bring about program improvement in other districts.

The system of public school support should make provision for the apportionment of state funds to local school districts on a strictly objective basis that can be computed as well by the local districts as by the State. The principle of local responsibility requires that the granting of discretionary powers to state officials over the distribution of state aid and the granting to these officials of the power to impose undue restriction on the use of funds and the conduct of educational programs at the local level be avoided.

The system of public school support should effect a partnership between the State, the county, and the local district, with each participating equitably in accordance with its relative ability. The respective abilities should be combined to provide a financial plan between the State and the local agencies known as the foundation program for public school support. Toward this foundation program, each county and district, through a uniform method should contribute in accordance with its true financial ability.

The system of public school support should provide, through the foundation program, for essential educational opportunities for all who attend the public schools Provision should be made in the foundation program for adequate financing of all educational services.

The broader based taxing power of the State should be utilized to raise the level of financial support in the properly organized but financially weak districts of the State, thus contributing greatly to the equalization of educational opportu-

nity for the students residing therein. It should also be used to provide a minimum amount of guaranteed support to all districts, for such state assistance serves to develop among all districts a sense of responsibility to the entire system of public education in the State. State assistance to all districts also would create a tax leeway for the exercise of local initiative.

SEC. 5 Section 17301 of said code is amended to read:

17301. (a) The State Controller shall during each fiscal year transfer from the General Fund of the State to the State School Fund such sums, in addition to the sums accruing to the State School Fund from other sources, as shall provide in the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school and junior college schools in the State and to the county school tuition funds, as certified by the Superintendent of Public Instruction, one hundred eighty dollars ($180). (6) For each one which had an average daily attendance during the preceding fiscal year of 91 or more and less than 106 and for which at least eight certificated employees were employed full time, he shall compute fifty-eight thousand five hundred dollars ($58,500).

(7) For each one which had an average daily attendance during the preceding fiscal year of 106 or more and less than 121 and for which at least nine certificated employees were employed full time, he shall compute sixty-three thousand six hundred dollars ($63,600).

(8) For each one which had an average daily attendance during the preceding fiscal year of 121 or more and less than 136 and for which at least 10 certificated employees were employed full time, he shall compute sixty-eight thousand seven hundred dollars ($68,700).

(9) For each one which had an average daily attendance during the preceding fiscal year of 136 or more and less than 151 and for which at least 11 certificated employees were employed full time, he shall compute seventy-three thousand eight hundred dollars ($73,800).

(10) For each one which had an average daily attendance during the preceding fiscal year of 151 or more and less than 181 and for which at least 12 certificated employees were employed full time, he shall compute seventy-eight thousand nine hundred dollars ($78,900).

(11) For each one which had an average daily attendance during the preceding fiscal year of 181 or more and less than 221 and for which at least 13 certificated employees were employed full time, he shall compute eighty-four thousand dollars ($84,000).

(12) For each one which had an average daily attendance during the preceding fiscal year of 221 or more and less than 261 and for which at least 14 certificated employees were employed full time, he shall compute eighty-nine thousand one hundred dollars ($89,100).

(13) For each one which had an average daily attendance during the preceding fiscal year of 261 or more and less than 301 and for which at least 15 certificated employees were employed full time, he shall compute ninety-four thousand two hundred dollars ($94,200).

(14) For each one which had an average daily attendance of less than 21 and for which fewer than three certificated employees were employed, he shall compute five thousand one hundred dollars ($5,100) for each of the teachers employed in the school.

(b) For each district on account of each small high school not determined to be a necessary small high school under Sections 17663, 17633.5, and 17663.7, he shall make one of the following computations, whichever applies:

(1) If the total of the units of average daily attendance in the district during the preceding fiscal year was less than 301, he shall multiply the units of average daily attendance during the preceding fiscal year in the school by three hundred fourteen dollars ($314).

(2) If the total of the units of average daily attendance in the district during the preceding fiscal year was more than 300, he shall multiply the units of average daily attendance during the preceding fiscal year in the school by three hundred twenty-four dollars ($324).

For the purposes of this section a "certificated employee" is an equivalent full-time position of an individual holding a credential authorizing service, and performing service in grades 9 through 12 in any secondary school. Any fraction of an equivalent full-time position shall be deemed to be a full-time position.

The foundation program established by this section for high schools with an average daily attendance of less than 301 shall not apply to any high school established after July 1, 1961 unless the establishment of such school has been approved by the Superintendent of Public Instruction.

SEC. 21. Section 17663 of said code is amended to read:

Necessary small high school defined

17663. A necessary small high school for the purposes of Section 17664, is a high school with an average daily attendance of less than 301, or a junior high school with an average daily attendance of less than 75 in grade nine, which comes within any of the following conditions (except that a single high school maintained by a unified district formed under the provisions of Sections 3001 to 3451, inclusive, or formed under Sections 813, 1481 to 1493, inclusive, 2811 to 2931, inclusive, 13005, 13554, and 21802, or a high school maintained by any district for the exclusive purpose of educating continuation, juvenile hall, physically handicapped, or mentally retarded pupils shall be considered a necessary small high school):

(a) The projection of its future enrollment on the basis of the enrollment of the elementary schools in the district shows that within eight years the enrollment in high school in grades 9 through 12 will exceed 300 pupils.

(b) Any one of the following combinations of distance and units of average daily attendance applies:

(1) The high school had an average daily attendance of less than 100 in grades 9 through 12 during the preceding fiscal year and is more than 15 miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 20 miles or 25 percent of the pupils would be required to travel 30 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(2) The high school had an average daily attendance of 100 or more and less than 150 in grades 9 through 12 during the preceding fiscal year and is more than 10 miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 18 miles or 25 percent of the pupils would be required to travel 25 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(3) The high school had an average daily attendance of 150 or more and less than 200 in grades 9 through 12 during the preceding fiscal year and is more than 7½ miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 15 miles or 25 percent of the pupils would be required to travel 20 miles one way from a point on a well-traveled road nearest their homes to the nearest other public high school.

(4) The high school had an average daily attendance of 200 or more and less than 300 in grades 9 through 12 during the preceding fiscal year and is more than five miles by well-traveled road from the nearest other public high school and either 90 percent of the pupils would be required to travel 10 miles or 25 percent of the pupils would be required to travel 15 miles to the nearest other public high school.

(c) Topographical or other conditions exist in the district which would impose unusual hardships on the pupils if the number of miles specified above were required to be traveled. In these cases, the Superintendent of Public Instruction may, when requested, and after investigation, grant exceptions from the distance requirements.

(d) The Superintendent of Public Instruction has approved the recommendation of a county committee on school district organization designating one of two or more schools as necessary isolated schools in a situation where the schools are operated by two or more districts and the average daily attendance of each of the schools is less than 300 in grades 9 through 12.

SEC. 22. Section 18003 of said code is amended to read:

Computation of allowance for growth

18003. The Superintendent of Public Instruction shall allow for each unit of average daily attendance attributable to growth, for each period referred to above, an amount which shall be computed as follows:

The average daily attendance of the district during the period in the then current fiscal year and for the same period in the preceding fiscal year shall be computed in the manner prescribed in Sections 11251 to 11255, inclusive, and Sections 11301 to 11653, inclusive, except that there shall be excluded the average daily attendance of adults, as adults are defined in Section 6352, and the average daily attendance in classes for inmates of any state institution for adults, or of any city, county, or city and county jail, road camp or farm for adults.

The Superintendent of Public Instruction shall allow for each period for each district which was in existence for all pur-

poses during the preceding fiscal year an amount equal to the difference between (1) the amount of basic state aid and state equalization aid which was apportioned on account of average daily attendance in such district during the preceding fiscal year and (2) the amount which would have been apportioned had the total average daily attendance in such district during such year been equal to the total average daily attendance during the period of the current year, and had the apportionment been computed by subtracting the district aid from the foundation program, multiplied for the first period by the ratio of days the regular day schools of the district were maintained during said period of the then current fiscal year to 175, and for the second period by the ratio of the difference between 175 and the days the regular day schools of the district were maintained during the first period of the current fiscal year to 175.

In making any computation under Section 17702 for the purposes of this section, the assessed valuation of the district for the current year increased by the adjustments to the assessed valuation of the preceding fiscal year made under the provisions of Section 17602 of this chapter, shall be used

SEC. 23. Section 18004 of said code is amended to read:

Same New districts

18004. The Superintendent of Public Instruction shall allow, for each period referred to above, to each school district which was not in existence for all purposes during the preceding fiscal year an amount which shall be computed as follows:

The average daily attendance of the district during the period in the then current fiscal year shall be computed in the manner prescribed in Sections 11251 to 11255, inclusive, and Sections 11301 to 11652, inclusive, except that the computation of a day of attendance shall be determined according to the law in effect during the preceding fiscal year and there shall be excluded the average daily attendance of adults, as adults are defined in Section 6352, and the average daily attendance in classes for inmates of any state institution for adults, or of any city, county, or city and county jail, road camp or farm for adults.

The Superintendent of Public Instruction shall allow to each such district for each unit of average daily attendance so computed for the first period of the then current fiscal year an amount determined by dividing the total of the amounts of aid which would have been apportioned to such district during the current fiscal year on account of such average daily attendance had the district been in existence for all purposes during the preceding fiscal year, had the computation been made by subtracting the district aid from the foundation program, and had the tax required to be levied for such district under Section 17905 or 17906, or 17905.1 or 17906.1, whichever are in effect, been levied, by such average daily attendance multiplied by the ratio of days the regular day schools of the district were maintained during said period of the then current fiscal year to 175.

The Superintendent of Public Instruction shall allow to each such district for each unit of average daily attendance so computed for the second period of the then current fiscal year an amount determined by dividing the amounts of aid which would have been apportioned to such district during the current fiscal year on account of such average daily attendance had the district been in existence for all purposes during the preceding fiscal year, had the computation been made by subtracting the district aid from the foundation program, and had the tax required to be levied for such district under Section 17905 or 17906, or 17905.1 or 17906.1, whichever are in effect, been levied, by such average daily attendance multiplied by the ratio of the difference between 175 and the days the regular day schools of the district were maintained during the first period of the then current fiscal year to 175.

In making any computation under Section 17702 or 17702.1, whichever is in effect, for the purposes of this section, the assessed valuation of the district for the current year shall be used.

SEC. 24. Section 18007 of said code is amended to read:

Recomputation of growth allowance: First period

18007. If the total amount which may be allowed to all districts under subdivision (b) of Section 18001 for the first period during any fiscal year is less than the total amount allowed to all districts for the first period under this article (commencing at Section 18001), the amounts allowed shall be successively recomputed by adding one-tenth of one cent ($0.001) to the district aid computational tax rate prescribed for use in making the computation for the then current fiscal year by Article 3 (commencing with Section 17701), or Article 7 (commencing with Section 17901), of this chapter, whichever is applicable, until there is no deficit.

SEC. 25. Section 18008 of said code is amended to read:

Same Second period

18008. If the total amount which may be allowed to all districts under subdivision (c) of Section 18001 for the second period during any fiscal year is less than the total amount allowed to all districts for the second period under this article (commencing at Section 18001), the amounts allowed shall be successively recomputed by adding one-tenth of one cent ($0.001) to the district aid computational tax rate prescribed for use in making the computation for the then current fiscal year by Article 3 (commencing with Section 17701), or Article 7 (commencing with Section 17901), of this chapter, whichever is applicable, until there is no deficit.

SEC. 36.5. Section 18106 of said code is amended to read:

Aid for blind pupils Total amount

18106. The total amount which may be allowed to school districts and county superintendents of schools under Sections 18102 and 18103 for readers provided blind pupils to assist them with their studies, or for the purchase of Braille books, the cost of transcribing ink print materials into Braille, the purchase or making of sound recordings and the purchase of special supplies and equipment for blind pupils shall not exceed one hundred fifteen thousand dollars ($115,000) in any

fiscal year. If the total amount which may be allowed under this section during any fiscal year is less than the total allowances computed under Sections 18102 and 18103 for that purpose, the amounts allowed shall be reduced proportionately.

SEC. 37. Section 18062 of said code is amended to read:

Allowances for transportation physically handicapped pupils

18062. In addition to all other amounts allowed to a school district under this article (commencing at Section 18051), the Superintendent of Public Instruction shall allow to each school district an amount equal to the current expense of the district during the preceding fiscal year of transporting minor pupils whose vision or hearing is impaired to a degree making it practical to transport them to some location in another district where specialized instruction may be afforded. The amount allowed shall not be in excess of four hundred seventy-five dollars ($475) for each unit of average daily attendance of such pupils during the next preceding fiscal year resulting from the attendance of such pupils on the classes of specialized instruction to and from which they are transported.

Allowances under this section shall be subject to the approval of the Superintendent of Public Instruction of the practicality of transporting the pupils involved in any particular instance to the place where specialized instruction is afforded.

SEC. 38. Section 18251 of said code is amended to read:

Driver training. Total allowance

18251. The Superintendent of Public Instruction shall allow to each school district an amount equal to the actual cost, but not in excess of forty-two dollars ($42) per pupil instructed in automobile driver training, during the preceding fiscal year in accordance with regulations set forth by the State Board of Education to districts for instructing pupils in automobile driver training.

SEC. 39. Section 18253 is added to said code, to read:

Replacement of driving training vehicle. Total allowance

18253. The Superintendent of Public Instruction shall allow to each school district an amount equal to the actual expense of replacing vehicles used exclusively in automobile driver training programs and of replacing simulators used in such programs, but the amount shall not exceed three-fourths of the actual amount in excess of forty-two dollars ($42) per pupil instructed in automobile driver training during the preceding fiscal year which was expended by the district in replacing such vehicles and simulators.

A "simulator" is any automobile driver training device approved by the Department of Education to be used in classrooms for purposes of driver training instruction under simulated driving conditions.

SEC. 39.5. Section 18254 is added to said code, to read:

Reduction in allowances for driver training

18254. The allowances made to the several school districts under Sections 18251 and 18253 shall, when the Superintendent of Public Instruction determines that the funds available in the Driver Training Penalty Assessment Fund during the fiscal year will be insufficient to provide the full amounts otherwise allowable, be proportionately reduced. In making such

reductions, the Superintendent of Public Instruction may adjust apportionments of the amounts allowable, and shall take any other actions he deems necessary with respect to apportionments of the allowances, to insure that each district receives an equal amount during the fiscal year per pupil instructed in automobile driver training and per vehicle or simulator replaced.

SEC. 40. Section 18460 of said code is amended to read:

Distribution of balances

18460. If the total amount allowed county school service funds under Sections 18351 to 18354, inclusive, is less than the amounts provided by Section 18352 the balance shall be added to the balances resulting from the application of Sections 18009, 18061, 18452, 18453, and subdivision (b) of Section 17404. Only so much of the total of such balances as is actually necessary shall be used as follows:

(a) First, to increase proportionately the allowances made to which Section 18455 applied. The increased allowances shall not exceed the amounts computed under Sections 17614, 17615, 17751, 17801, 17851, 17951, 17952, 17901, 17902, 17903, 17904, 17905, 17906, 18355, 18356, 18357, 18358, and 18401. The increase for each elementary, high school, or junior college district, shall be an amount that bears the same ratio to the total balance as the amount of equalization aid allowed such district bears to the total amount of equalization aid allowed to all districts.

(b) Second, to restore, in the order herein listed, the amounts reduced under Sections 18007, 18008, 18456, and subdivision (a) of Section 18061.

Any remaining balances otherwise transferable under subdivision (b) of Section 17301 shall remain in the General Fund, but shall be considered, to the extent applicable, pursuant to subdivision (c) of Section 17301 in determining the total amount available to meet deficits in computed apportionments for the purposes set forth in Sections 17303 and 17303.5 in subsequent fiscal years.

SEC. 41. Section 18461 is added to said code, to read:

Same

18461. Any undistributed balance from the amounts transferred to the State School Fund under subdivision (a) of Section 17301 which for any reason remains in the State School Fund and has not otherwise been apportioned by law shall be apportioned as additional state aid to all the districts. The amount of additional state aid allowed each such district for each unit of average daily attendance shall be determined by dividing such remaining balance by the average daily attendance of all districts. The Controller shall draw warrants on the State Treasury in favor of the county treasurer of each county in the last month of each fiscal year in the amounts certified by the Superintendent of Public Instruction as apportioned under this section. The warrants shall be paid by the State Treasurer from the State School Fund and are not subject to the provisions of Government Code Section 16003.

SEC. 42. Section 20201 of said code is amended to read:

20201. Not later than August 8th of each year, the superintendent of schools of each county in which there is not a county junior college shall certify the following items to the board of supervisors and to the county auditor of the county in accordance with the rules and regulations of the Superintendent of Public Instruction, which he is hereby authorized to adopt: Certification of costs of education

(a) The total current expense of education, exclusive of the expense for transportation of pupils, during the next preceding fiscal year of all junior college pupils, exclusive of pupils in grades 11 and 12, residing in the county and not in any school district maintaining a junior college, less state basic aid and federal apportionments received during the next preceding fiscal year for such junior college pupils.

(b) The actual expense of transportation of such pupils not reimbursed by the State.

(c) An amount equal to three hundred dollars ($300) per unit of average daily attendance of such pupils during the preceding fiscal year for the use of buildings and equipment.

(d) The estimated amount needed as specified in subdivisions (a), (b), and (c) of this section for the current year.

The Superintendent of Public Instruction shall define, for the purposes of this section, the term "current total expense of education" and the term "actual expense of transportation."

If during any fiscal year the county superintendent of schools determines that an amount of at least one hundred dollars ($100) more or an amount at least one hundred dollars ($100) less than was required under either subsection (a), (b), or (c) of this section was certified to the board of supervisors and the county auditor during a prior fiscal year, such amount shall, not later than the third succeeding fiscal year, be deducted from or added to the amount otherwise certified for subdivisions (a), (b), or (c) for the current fiscal year, as appropriate.

SEC. 43. Section 20206 of said code is amended to read:

20206. The amount apportioned to each school district under this article (commencing at Section 20201) shall be paid into the treasury of the county whose superintendent of schools has jurisdiction over the district to the credit of the following funds of the district: Disposition of funds

(a) An amount equal to the amounts specified in subdivisions (a) and (b) of Section 20201 shall be credited to the general fund of the district for junior college purposes.

(b) Upon authorization by the governing board of the district, (1) all of the amount specified in subdivision (c) of Section 20201 may be credited for junior college purposes to either the interest and sinking fund or the special reserve fund of the district; or (2) a portion of the amount may be credited to each of such funds. If no authorization is given by the governing board for the crediting of moneys to either fund, the

amount shall be credited to the special reserve fund for junior college purposes.

Operative date

SEC. 44. This act shall become operative on July 1, 1961.

CHAPTER 888

An act making appropriations for the support of the government of the State of California and for several public purposes in accordance with the provisions of Section 34 of Article IV of the Constitution of the State of California, and declaring the urgency thereof, to take effect immediately

In effect immediately

[Approved by Governor June 24, 1961. Filed with Secretary of State June 26, 1961.]

I object to the following appropriations in A B No 800:

Item 265—Water Resources I reduce this appropriation from $57,846,013 to $23,245,059 by eliminating paragraph (e) Direct construction and acquisition. This appropriation is a matter of form, it adds no funds to those now available to the Department of Water Resources under the California Water Resources Bond Act approved by the people last November I am taking this action so that no possibly confusing precedent will be established. The Bond Act itself completes the act of appropriation for direct acquisition and construction of the state water resources system, and no further legislative action is required in this or future budgets

Item 266 1—For investigations, etc, relating to a dam on Fish Slough in Inyo County I eliminate this item This appropriation from the California Water Fund is inconsistent with the legislative policy declared in A B No. 261 that recreational expenses associated with state water projects should be financed from the General Fund

Item 403—For transfer to the State Water Pollution Control Fund I eliminate this item This is an appropriation from the California Water Fund to the Water Pollution Control Fund for a loan to the June Lake Public Utility District However, no provision is made for repayment to the California Water Fund I have eliminated this item and Item 266 1 to protect the California Water Fund for the purposes for which it was created Other means for financing these activities are available.

With this reduction and these eliminations, I approve the bill

Approved·

EDMUND G BROWN, Governor

The aggregate taxes levied under this section for any fiscal year shall not exceed ten cents ($0.10) on each one hundred dollars ($100) of the assessed valuation of the taxable land in the agency exclusive of any tax levied to meet the principal or interest on any bonded indebtedness of the agency duly authorized by a vote of the electors. These taxes shall be levied and collected with, and not separately from, taxes for county purposes and the revenue derived from these taxes shall be paid into the treasury of the county to the credit of the agency and the board shall have the power to control and order the expenditure thereof. The provisions of the laws of the State of California prescribing the priority, time, and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency and the redemption from such sale and the duties of the various county officers with respect thereof, are, so far as they are applicable and not in conflict with the specific provisions of this act, hereby adopted for the agency and made a part hereof. Such officers shall be liable upon their several bonds for the faithful discharge of the duties imposed upon them by this act. The agency may, in addition to any other tax or assessment, levy a tax or assessment each year upon all real property in the agency sufficient to pay the interest and such portion of the principal of its bonds as is due or to become due before the time for making the next general tax levy.

The agency is empowered, without complying with the provisions of Chapter 8 (commencing with Section 54900), Part 1, Division 2, Title 5 of the Government Code, to levy an ad valorem tax on land only, for the fiscal year 1961-1962.

Dissolution

Sec. 32.5. Whenever a sufficient change in the population occurs in a division after its organization which makes it desirable in the opinion of the board of directors of the agency to relocate the boundary or boundaries of any division or divisions, or whenever any territory is added to or excluded from any division, the board of directors shall, by resolution, relocate the boundary lines of the division or divisions so as to equalize, as nearly as may be practicable, the population in the respective divisions. For this purpose, the board of directors may estimate the population by reference to the register of voters used at the last general elections, and may relocate the boundary lines of the respective divisions without regard to the places of residence of the directors then in office. The board of directors may relocate the boundary or boundaries of any division to make them correspond to county election precinct boundary lines. No such change in the division lines shall be made within the four (4) months immediately preceding the election of any director nor shall such change in division lines work a forfeiture of office of any director. Whenever changes are made in the division lines, each director then in office, and until his office becomes vacant by expiration of his term or otherwise, shall continue to be the director from the respective division bearing the number of his division as formerly located even though such director is not a resident of the relocated division. Determination of necessary moneys

Sec. 14. The board may estimate and determine the amount of money necessary to be raised to construct or purchase necessary works and acquire the necessary property and rights therefor and otherwise carry out the provisions of this act.

Prior to the calling of the bond election hereinafter referred to, the board shall cause the entire district to be divided into zones, if in its opinion such division is necessary because of varying benefits to the property within the district, together with a statement as to the percentages or amounts of the sum to be raised from each of the zones for the payment of the principal and interest of the bonds of the district. The district may be divided into as many zones as may be deemed necessary and each zone shall be composed of and include all of the lands in the district which in the opinion of the board will be benefited in substantially the same manner. The board may determine that no percentage or amount should be raised from a zone if in the board's determination no benefit will result to said zone from such project Each zone shall be designated on a map or plat of the district filed in the office of the board and such designation shall show the separate boundaries of each zone and a statement of the percentage or amount, if any, to be raised from each zone.

All such objections shall be in writing, verified by the person or persons making the objection, and filed with the board on or before the date fixed for such hearing. Upon such hearing, the board may change or modify any of the zones or the percentages or amounts to be raised therefrom and shall distribute proportionately the percentage or amount to be raised in each zone in accordance with the benefits received therefrom. Such hearing may be continued from time to time by the board by an order entered on its minutes. At the conclusion of the hearing the board shall make a final determination as to the extent and boundaries of the zones and the percentages or amounts to be raised therefrom.

The location and extent of the zones within the district and the percentages or amounts to be raised therefrom shall be finally established and determined by the board and shall prevail for all purposes until any bonds to be issued by the district shall have been fully paid and discharged. Findings and determination of the board as to the extent and boundaries of the zones and the percentages or amounts to be raised therefrom shall be final and conclusive subject to ratification by the electors as herein provided.

SEC. 8. Section 16 of said act is amended to read:

Thereupon said charges against said zone or zones shall be canceled to the extent of said amount so agreed to be paid, and thereafter the electors residing within said zone or zones shall not be entitled to vote at such bond election. Such contract shall contain such other and additional provisions as the board deems necessary or advisable in order to protect the interests of the district and to substitute the contract in lieu and instead of the assessments within the zone or zones so assumed by said municipality or other political subdivision.

It shall be wholly optional with the board whether or not to proceed as provided in this section.

The court hearing any proceeding or action inquiring into the regularity, legality or correctness of the proceeding leading up to the issuance of bonds or the validity of the bonds must disregard any error, irregularity, or omission which does not affect the substantial rights of the parties to said action or proceeding. All the provisions of this act relating to the issuance of bonds are applicable to refunding bonds and their issuance, sale, or exchange, except that the report submitted to the voters for ratification under Section 16 of this act shall concern the necessity or desirability and the proposed terms, times and manner of issuing refunding bonds instead of the nature and cost of works, property and rights to be constructed and acquired.

SEC. 15. Section 28 of said act is amended to read:

Levy and collection of tax to pay interest, etc

If the district has been divided into zones and the percentage or amount of the sum to be raised for the redemption of principal and interest of said bonds from each such zone has been determined as provided in this act, the said sum of said tax levied shall be divided according to said percentage or amount,

and the percentage or amount to be raised from the taxable property within each zone shall be levied upon and against the property in such zone as hereinbefore provided.

The provisions of law of this State prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes including the sale of property for delinquency, and for redemption from such sale, and the duties of the several county officers with respect thereto, so far as they are applicable, and not in conflict with the specific provisions of this act, are hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act.

The board shall take the assessment on the equalized roll of the County of Yolo as the basis for district taxes and for its taxes collected by the county officials of said county. SEC. 7. This act shall become operative on July 1, 1961.

Urgency

SEC. 8. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The board of administration has redetermined the rate of interest being earned on the State Employees' Retirement Fund, and an adjustment in the State's rate of contribution to the State Employees' Retirement System is required. In order that the adjusted rates may be placed into effect July 1, 1961, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 13514 is added to the Education Code, to read:

Service without valid credential in force

13514. The service of any certificated employee, who prior to the effective date of this section rendered service in a position requiring certification qualifications for a period during which he did not have a valid credential in force, and who during such period had the necessary qualifications for the credential required for the position, and to whom there has been issued subsequently a credential required for the position in which the service was rendered, is hereby validated, and the employee shall be entitled to compensation for such period as though the credential were in force during the period of service, and the attendance of the pupils taught by such person shall be included in the computation of the average daily attendance of the district. This section shall be inoperative after September 30, 1961.

SEC. 2. Section 13515 is added to said code, to read:

Validation of service

13515. Whenever, on or after September 15, 1961, a person has rendered service in a position requiring certification qualifications, or the governing board of a district has employed a person in a position requiring certification qualifications, or the county superintendent has drawn an order for a warrant in favor of a person in a position requiring certification qualifications, for a period of service during which the person did not have a valid credential required for such position in force as required by law, because the credential issued to such person had expired, and when as a result thereof the employment of the person to render such service, the rendering of such service, the inclusion of the attendance of pupils taught by the person in the average daily attendance of the district, or the drawing of the order warrant for the service of such person, is in violation of Sections 11251, 13251, 13511 or any other provision of this code, such employment, rendering of service,

In order to prevent an inequitable reduction in the quality of the educational program which such school districts furnish the children of this State, it is necessary that this act take effect immediately.

In effect September 15, 1961

[Approved by Governor July 4, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 6830.1 is added to the Public Resources Code, to read:

Legislative determination

6830.1. It is hereby found and determined by the Legislature of the State of California as follows:

(a) That the people of the State of California have a direct and primary interest in assuring the production of the optimum quantities of oil and gas from lands owned by the State, and that a minimum of oil and gas be left wasted and unrecovered in such lands.

(b) That the State owns tide and submerged lands within the oil and gas field hereinafter named, which lands have been developed under oil and gas leases issued by the State to such extent that it is desirable that secondary operations be undertaken within such lands in an effort to obtain the maximum economic ultimate recovery of oil and gas from said lands; and that it is desirable that the carrying on of secondary recovery operations in such lands be encouraged, which operations the holders of such leases may otherwise not undertake because certain of the leases covering such lands provide for the payment of graduated royalties dependent upon daily per well rates of oil production, which graduated royalties were established without contemplation of secondary recovery operations and the economics respecting such operations.

The oil and gas field above referred to, as delineated and defined by the State Oil and Gas Supervisor, is as follows:

1. Huntington Beach Oil and Gas Field

SEC. 2. Section 6830.2 is added to the Public Resources Code, to read:

Modification of gas and oil lease

6830.2. Whenever the holder of an oil and gas lease, issued before the effective date of this section, of State owned lands located within an oil and gas field named in Section 6830.1 of this code, proposes to engage in secondary recovery operations within such lease, the commission and the holder of the lease may mutually agree to modifications of the lease in furtherance of such proposal and with the object of obtaining the maximum economic ultimate recovery of oil and gas from the lands included within such lease, so far as such is reasonably practicable.

Any such amendatory agreement shall contain provisions to assure, so far as reasonably practicable:

Provisions of amendatory agreement

(a) That the total royalty production to which the State shall thereafter be entitled shall be no less than the total

royalty production to which the State would thereafter have been entitled if such lease had continued to be operated under primary recovery methods, absent any secondary recovery operations, and (b) that the royalty production accruing to the State from the additional oil produced, if any, as a result of the conduct of secondary recovery operations shall be calculated and determined in such manner as to be at least as great in proportion to such additional oil as the royalty production agreed upon in conformance with subdivision (a) of this section is in proportion to the total remaining primary production agreed upon in conformance with subdivision (a).

As a basis for making a determination that it is in the best interests of the State that it enter into such an agreement, and before authorizing the execution thereof, and to determine the appropriate royalty rates on primary and on additional production, the commission shall, using all information available to it, make a calculated projection of the volume of primary royalty to which the State would be entitled under the existing royalty provisions of the lease for the zone or zones involved in the proposal, absent secondary recovery operations, and shall compare its determinations with those of the holder of the lease in an effort to arrive at a mutual agreement.

SEC. 3. Section 6830.3 is added to said code, to read:

Same: Means of determining

6830.3. In satisfaction of the requirements of subdivisions (a) and (b) of Section 6830.2, the commission may consider, use, apply or adopt any means, methods, formulas or data available to it in order to arrive, in accordance with generally recognized good engineering practice, at any provisions to be included in any agreement amendatory to the lease, mutually acceptable to the holder of the lease, including the rate or rates of royalty to be applied, and otherwise in conformity with the provisions of this section and Section 6830.2.

Royalty rates

The royalty rate or rates to be applied during secondary recovery operations shall in no event be less than the minimum royalty provided by the lease prior to any amendment thereof entered into pursuant to this section and Section 6830.2, but nothing in this section and Section 6830.2 is intended to require that the holder of the lease shall account to the State for a guaranteed quantity of royalty production, but neither shall it prohibit the holder of the lease from guaranteeing to the State any given quantity of royalty production.

Amendatory agreements entered into pursuant to and in conformity with this section and Section 6830.2 may be made in conjunction with agreements entered into for the purpose of effecting a co-operative or unit plan of development pursuant to the provisions of this code, including Section 6832 thereof.

No such sewerage system shall be constructed, maintained, or operated in any city not in the district except by consent granted by an affirmative vote by a majority of the full membership of the governing body of the city.

It may also acquire lands and acquire and construct refuse transfer or disposal facilities, or both, within or without the district, and it may maintain and operate within the district boundaries a system for transfer or disposal of refuse, or both; provided, however, that such system shall not include "refuse collection" which is defined as the house-to-house pickup of refuse or any part thereof.

A district shall not acquire land for, or establish and operate a refuse transfer or disposal facility within either a city or the unincorporated area of a county until the city council, if the facility is proposed to be located in the city, or the board of supervisors of the county, if it is proposed to be located in the unincorporated area of the county, has by resolution, consented to the use of the proposed site for that purpose.

If 90 percent or more of the total area of the district is unincorporated territory, and the land proposed to be acquired for a refuse transfer or disposal facility is located in the unincorporated territory of the county, the board of supervisors shall, before adopting any resolution consenting to the use of land for that purpose, hold a public hearing upon the question of the adoption of the resolution. Notice of such

hearing shall be given by publication in the area pursuant to Section 6066 of the Government Code, not more than 30 nor less than 10 days prior to the hearing. If at any time before the hearing, there is filed with the board of supervisors a written objection to the use of the proposed site for a refuse transfer or disposal facility, signed by 2 percent or more of the registered voters of the district, the board shall submit the matter of the proposed use to the voters of the district at an election. The proposition shall be submitted to the voters in the manner and under the procedure prescribed in Article 5 of this chapter for submission of the proposition of incurring a bonded indebtedness. If a majority of the votes cast in such an election are in favor of the proposed use the board shall adopt the resolution consenting thereto, but if a majority of the votes cast are against the proposed use the board shall dismiss the proceedings, and no resolution consenting to the use of any of such land shall be adopted by the board for at least one year from the date of the election.

If the board of supervisors requires the payment of any amount as a condition to the annexation of territory to the district, the annexation proceedings shall not be completed until the amount has been paid to the district; unless the board of supervisors, upon recommendation of the district board, authorizes such payment in equal installments over a specified period not to exceed 10 years.

Upon making of reproductions of court records, the originals may be destroyed. Reproductions of permanent judicial records shall never be destroyed.

Every reproduction shall be deemed to be an original record. A transcript, exemplification or certified copy of any reproduction shall be deemed to be a transcript, exemplification or certified copy, as the case may be, of the original.

All photographs, microphotographs, microfilms and photocopies of court records shall be properly indexed and kept in convenient, accessible files. Each roll of microfilm shall be a book, and shall be designated and numbered, and provision shall be made for its preservation and examination and use by the public.

A duplicate of each roll of microfilm of permanent records shall be made and kept in a safe and separate place to assure its preservation indefinitely against loss, theft, defacement or destruction.

SECTION 1. Chapter 9 (commencing with Section 12820) is added to Division 9 of the Education Code, to read:

CHAPTER 9. TESTING PROGRAMS

Definitions: "Achievement test"

12820. As used in this chapter:

(a) "Achievement test" means any standardized test which measures or attempts to measure the level of performance which a pupil has attained in one or more courses of study.

"Intelligence test"

(b) "Intelligence test" means any standardized test which measures or attempts to measure the scholastic aptitude of a pupil.

"Testing program"

(c) "Testing program" means the systematic achievement and intelligence testing of any or all pupils in any or all grades, except 13 and 14, in any or all schools within a school district.

Testing programs

12821. The State Board of Education shall require a testing program in all school districts and shall adopt rules and regulations governing the frequency and methods of administration of the testing programs.

This list may be revised from time to time. The list shall include two or more alternative intelligence tests and the governing board of a school district or the county board of education, as the case may be, shall select, from the intelligence tests listed, the particular intelligence test or tests to be used in the district. Whenever the State Board of Education determines to include on the list an achievement test relating to a particular course of study or a particular group of courses of study, the board shall also include one or more alternative achievement tests for such course or group of courses and the governing board of a school district or the county board of education, as the case may be, shall select, from the achievement tests listed, the particular test or tests to be used in the district.

In effect September 15, 1961

[Approved by Governor July 4, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 10293 is added to the Insurance Code, to read:

10293. (a) The commissioner shall not approve an individual hospital, medical or surgical insurance policy for delivery or issuance for delivery to any person in this State unless the policy contains on its face page either a schedule of coverages of the policy or, in prominent type, a brief description of the policy. In lieu of a schedule of coverages or a brief description on the face page of the policy, the insurer may furnish the insured, in a separate document attached to the face of the policy, the schedule of coverages or brief description. No such separate document may be used for such purpose unless it has been filed with and approved by the commissioner as provided in Section 10290.

(b) The commissioner shall, after notice and hearing, promulgate such reasonable rules and regulations as are necessary

to establish the standard or standards by which he shall approve a policy conforming to the provisions of subdivision (a) of this section. Any such rule or regulation shall be promulgated in accordance with the procedure provided in Chapter 4 of Part 1 of Division 3 of Title 2 of the Government Code, and shall be effective 90 days after adoption by the commissioner.

(c) The commissioner shall, after notice and hearing, withdraw approval of an individual hospital, medical or surgical policy if after consideration of all relevant factors the commissioner finds that the benefits provided under such policy are unreasonable in relation to the premium charged. The commissioner shall, from time to time as conditions warrant, after notice and hearing, promulgate such reasonable rules and regulations, and amendments and additions thereto, as are necessary to establish the standard or standards by which he shall withdraw approval of any such policy. Any such rule or regulation shall be promulgated in accordance with the procedure provided in Chapter 4 of Part 1 of Division 3 of Title 2 of the Government Code, and shall be effective 90 days after adoption by the commissioner.

(d) Unless the commissioner specifies otherwise in writing in the withdrawals, or subsequent thereto, grants an extension, any such withdrawal shall be effective prospectively and not retroactively on the 91st day following the mailing or delivery of the withdrawal.

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 8722 of the Fish and Game Code is repealed.

SEC. 2. Section 8724 of said code is amended to read:

8724. In Districts 10, 17, 18, and 19, drift and set trammel nets may be used the meshes of which are at least eight inches in length, except that such nets may not be used in District 18 within one mile of any pier or jetty, nor may they be used for the taking of salmon.

CHAPTER 1000

An act to amend Sections 20498, 20630, and 20933.5 of, and to add Sections 20168, and 20804.51 to, the Government Code, relating to the State Employees' Retirement System.

In effect September 15, 1961

[Approved by Governor July 4, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 20168 is added to the Government Code, to read:

Prior acts ratified

20168. All computations, payments, and other acts heretofore made or done by the board or its officers and employees which would be valid if Sections 20498, 20630, 20804.51, and 20933.5, as these sections exist on the effective date of this section, had been in effect at the time such computations, payments, or other acts were made or done, are hereby ratified, confirmed, and validated.

SEC. 2. Section 20498 of said code is amended to read:

Retroactive employee and employer contributions

20498. If the effective date of coverage under the federal system of members who are employees of a contracting agency under the State Employees' Retirement System is prior to the time employee federal contributions are first deducted from the salaries and wages of such employees and a reduced benefit is provided with respect to service from and after said effective date of coverage, retroactive employee and employer contributions may be paid on the contracting agency's election in the manner provided in this section.

Employee and employer federal contributions for such retroactive period shall be paid from the State Employees' Retirement Fund and charged to the account of the employer. There shall be transferred to the employer account from the member's accumulated contributions an amount equal to employee federal contributions charged to the account of the employer for such member. The amount so transferred shall not exceed the difference between the total normal contributions of the member and the normal contributions which would have been credited to his account had the reduced rate of contribution provided in the amended contract with the public agency been in effect from and after the effective date of coverage, assuming that contributions in any year were made in equal monthly installments.

The amount by which such retroactive employee contributions for a member charged to the account of the employer exceeds the amount transferred from the employee account shall constitute an indebtedness of the member to the employer and a lien on any salary or wages payable to such employee or on his account.

Notwithstanding Sections 20654 and 20804.5, the amount of contributions under any election to deposit or redeposit contributions under this part with respect to service for which

retroactive employee contributions are transferable to the employer account and which election is then not fully paid or is made thereafter, shall be adjusted so that the total accumulated contributions in the member's account upon completion of the deposit will equal the total accumulated contributions which would be in the member's account had the deposit or redeposit been completed when amounts became transferable from the member's account under this section. Such adjustment shall be accomplished by whichever of the following means is appropriate under the facts and the provisions of this section: (1) transfer to the employer account of amounts deposited where such account has not been fully reimbursed for retroactive employee contributions on account of the member paid from it, (2) reduction of the amount to be deposited under the election, or (3) refund to the member of the adjustment in his account.

If said contract is or has been amended to provide for the payment of retroactive employee and employer contributions in the manner provided in this section, it may be further amended to provide that the amount by which (1) the total normal contributions of each member for the period subsequent to the effective date of coverage under the federal system less the total normal contributions which would have been credited to the account of such member had the reduced rate of contribution provided in the amended contract with the public agency been in effect from and after the aforesaid date of coverage exceed (2) the employee federal contributions for such member for the period after said date of coverage shall be paid to such member.

This section shall apply to the county superintendent of schools as a contracting agency without election. Any excess normal contributions, determined in the manner prescribed in the preceding paragraph, of a member under a contract with a county superintendent of schools or a contract of a school district, whose services were included in the federal system, shall be refunded to the member.

SEC. 3. Section 20630 of said code is amended to read:

Contributions by member in excess of normal contribution

20630. Subject to rules prescribed by the board any member may elect to make contributions in excess of his normal contributions, for the purpose of providing additional benefits The exercise of this privilege by a member does not require his employer to make any additional contributions. Upon application, the board shall furnish information concerning the nature and amount of additional benefits to be obtained from additional contributions. The board may by rule provide for refund of accumulated additional contributions to a member.

SEC. 4. Section 20804.51 is added to said code, to read:

Prior credited service modified on co-ordination

20804.51. Service credited under Section 20804.5 to a member who at membership became subject to a reduced or modified retirement allowance formula because of co-ordination with the federal system shall be subject to such modified formula, to the extent that the service was rendered to any contracting

agency in which such modified formula applies, after the effective date of coverage under the federal system of members in the employ of that agency.

SEC. 5. Section 20933.5 of said code is amended to read:

Ineffective election

20933.5. Any election under this article shall be ineffective with respect to any service which subsequent thereto becomes creditable to the member under this part as prior service rendered a contracting agency or under another retirement system supported wholly or in part by public funds, and any contributions made with respect to such service pursuant to such election shall be refunded to the member. Refunds under this section shall include the interest credited to the member's account on the contributions refunded.

Operative date

SEC. 6. This act shall become operative on October 1, 1961.

The agency shall have the power to construct its pipes, pipelines, flumes and tunnels and other conduits, including facilities for the transmission of electric energy to the works of the agency, along, under or across any public road, street, alley, avenue, highway or sidewalk, or across any stream of water, watercourse, railway, canal, ditch, or flume which the route of said pipes, pipelines, canals, flumes, tunnels, or other conduits may intersect or cross, except that such works shall be constructed in compliance with any applicable laws and in such manner as to afford security for life and property, and the agency shall restore at its own expense any such crossings and intersections to their former state as nearly as may be, or to an extent which does not unnecessarily impair their usefulness. (a) If by any judgment in condemnation or agreement the agency is required to relocate any street, road, highway, railroad, canal or other property subject or devoted to public use, the board may acquire in the name of the agency, by agreement or condemnation, all rights-of-way and other property necessary or proper for compliance with such agreement or judgment of condemnation and thereafter to make such conveyance of the relocated street, road, highway, railroad, canal, or other property as may be proper to comply with the agreement or judgment. All agreements for the exchange of property and all judgments requiring relocation of other public uses, as specified in this section and in Section 3.4 of this act, shall provide that in making the exchange the property condemned and exchanged shall be dedicated to public use by the party with whom such exchange is made.

SEC. 4.15. In connection with the construction and operation of the works of the agency, the agency shall have the power to contract for the sale of the right to use falling water for electric energy purposes with any public agency or private entity engaged in the retail distribution of electric energy, for a term not to exceed 50 years.

The agency may transfer such water or the use of agency works for use outside the agency upon a finding by the board that the water or works involved will not be needed for use within the agency.

Contracts

SEC. 5.1 The agency may enter into contracts with any member unit or with any district which becomes a member unit of the agency for any of the following purposes:

(a) The lease, purchase, or other acquisition by the agency of any of the works of such member unit or district

(3) There shall not be delivered to any member unit more water than the amount to which such member unit is entitled

under the contract entered into by the agency and such member unit, except that the release of water from any reservoir in the amount required to satisfy any vested right shall not constitute a delivery of water, and any amount of water assigned under Section 5 5 by one member unit to another member unit shall be delivered to the latter.

Suspension of water delivery

SEC. 5 2. The agency in its discretion may suspend delivery of water conserved by the agency or obtained by or on behalf of the agency or a member unit to any member unit during the period which said member unit is delinquent in its payment for or obligations due in respect to such water under any contract entered into by it with the agency.

Liability of each member unit

SEC. 5.3. The liability of each member unit, as distinguished from the liability of its taxpayers and property therein for taxes levied by the agency for agency purposes, shall be limited to that portion of the total cost for water or water supply or to that portion of the total cost of construction and the operation and maintenance cost of the works acquired or constructed by or on behalf of the agency or member unit which such member unit agrees to bear.

The liability of each member unit shall be set forth fully in a written contract which shall be legally approved by the member unit in accordance with the laws governing such member unit. No contract shall be altered or modified without the consent of the agency and the legal approval of the member unit.

Provisions allowed in contracts

(a) The total capital obligation which the member unit agrees to bear.

(b) The minimum annual payments which the member unit shall make in amortization of its capital obligation.

(c) The amount or pro rata portion of water which shall be delivered to or held in storage for the member unit.

(d) The basis of allocation of operation and maintenance costs to be borne by the member unit.

(e) The amount or other measure of water supply or water agreed to be acquired by or furnished or sold to such member unit and the cost thereof to such member unit.

Such contracts shall be executed in accordance with the laws governing such districts.

Reduction in debt principal

SEC. 5.4. (a) In the event of any reduction in the principal of any debt of the agency underwritten by one or more member units, other than by payment thereof, the amounts to be paid to the agency by each member unit in amortization of its remaining portion of such debt shall be reduced proportionately so that the relative obligations of each such member unit shall be unchanged.

If any capital asset of the agency is sold or otherwise disposed of, the net proceeds therefrom shall be distributed to the member units, or applied against any liability of the member units to the agency in proportion to the amount contributed by each member unit to the cost of the capital asset. However, if any liability on the part of the agency or its member units for the original cost or any subsequent improvement or refinancing of such capital asset is not completely extinguished at or before the time of the sale or disposal thereof, the agency may apply as much of the proceeds of the sale as are necessary to extinguish the liability. In extinguishing such liability, the proceeds of the sale shall be applied only as the interests and liabilities of the agency and its member units shall appear.

Power to contract under Federal Reclamation Act

SEC. 6. Retention of liability

SEC. 20. The repeal or amendment of this act shall not in any way affect or release any of the property in the agency or any member unit thereof from the obligations of any outstanding bonds or indebtedness until all such bonds and outstanding indebtedness have been fully paid and discharged.

Taxes a lien on property

SEC. 21.2. All taxes levied under this act are a lien on the property on which they are levied. The provisions of law of this State, prescribing the priority, time and manner of assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are hereby adopted for the agency and made a part hereof, so far as they are applicable and not in conflict with this act. Proceeding in rem

Action by assessee or taxpayer

If no proceedings have been brought by the agency pursuant to this section, any agency assessee or taxpayer may at any time within thirty (30) days after the authorization of any bonds or execution of such contract bring an action in the superior court to determine the validity of the assessment or bonds or contract. The agency shall be a defendant. If more than one action is pending at the same time concerning similar contests provided for in this section, they shall be consolidated and tried together. The rules of pleading and practice in the Code of Civil Procedure, not inconsistent with the provisions of this section, are applicable to all actions or proceedings provided for by this section. In a contest provided for by this section, the court shall disregard any irregularity or omission which does not affect the substantial rights of the parties. The judgment shall declare the bonds or contract either valid or invalid. The costs of any hearing or contest may be allowed and apportioned between the parties or taxed to the losing party in the discretion of the court. Any party may appeal at any time within thirty (30) days after the entry of the judgment. No contest of any act or proceeding authorized under this act shall be made other than in the time and manner provided in this section. In any such action all findings of fact or conclusions of the board upon all matters shall be conclusive unless the action was instituted within six months after the finding or conclusion was made.

Effect: Stats 1961, Ch 1479

This section shall become operative only if Assembly Bill No. 1412 is enacted by the Legislature at its 1961 Regular Session, and in such case at the same time as Assembly Bill No. 1412 takes effect; at which time Section 22 of this act is repealed.

Continuing rights of certain agencies

SEC. 23. Neither the establishment of the agency nor any provision of this act shall affect, restrict nor supersede the existence, property, right, or power of any municipality, public district, or public agency now or hereafter established in or partially within the limits of the agency for the purpose of flood control, reclamation, conservation, storage, distribution, sale, use, or development of water. The legislature, because of conditions special to the county, hereby expressly declares its intent to permit within the limits of the Kern County Water Agency, the existence of more than one district, municipality or combination thereof, having similar powers over similar territory in regard to flood control, reclamation and water conservation, storage, distribution, sale, use or development.

Retention of vested rights

SEC. 24. Neither the formation of the agency nor this act shall impair the vested right of any person, association, corporation, municipality or public district in or to any water or the use thereof.

Action to determine legality of agency

SEC. 25. The agency, in order to determine the legality of its existence, may institute a proceeding therefor in the Superior Court of this State, in and for the County of Kern, by filing with the clerk of said county a complaint setting forth the name of the agency, its exterior boundaries, the date of its organization and a prayer that it be adjudged a legal agency formed under this act. The summons in such proceeding shall be served by publishing a copy thereof once a week for four weeks in a newspaper of general circulation published in the county. The State of California shall be a defendant in such action, and consent therefor is given. Service of summons therein shall be made on the Attorney General. The Attorney General shall appear in such action on behalf of the State in the same manner as with appearances in civil actions. Within thirty (30) days after proof of publication of said summons the State, any property owner or resident in said agency, or any person interested may appear as a defendant in said action by serving and filing an answer to said complaint, in which case said answer shall set forth the facts relied upon to show the invalidity of the agency and shall be served upon the county counsel before being filed in such proceeding. Such proceeding is hereby declared to be a proceeding in rem and the final judgment rendered therein shall be conclusive against all persons whomsoever, including the agency and the State of California.

Proceeding in rem

Action to determine legality of existence

SEC. 25.1. An action to determine the legality of existence of the agency may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure If such action is brought by the agency, the State of California shall be a defendant, and consent therefor is given. Service of summons therein shall be made on the Attorney General who shall appear in such action on behalf of the State in the same manner as with appearances in civil actions.

Effect: Stats 1961, Ch 1479

This section shall become operative only if Assembly Bill No. 1412 is enacted by the Legislature at its 1961 Regular Session, and in such case at the same time as Assembly Bill No. 1412 takes effect; at which time Section 25 of this act is repealed.

Dissolution

SEC. 26. The agency may be dissolved in the manner provided for the dissolution of districts by Chapter 4 (commencing at Section 58950) of Division 1 of Title 6 of the Government Code, and the agency shall be considered a district within the meaning of all of the provisions of said chapter.

Special law

SEC. 27. The Legislature hereby finds that water problems in the county require countywide water conservation, flood control and development of water resources; that these problems are not general or statewide; that the county for many years has had made investigations and engineering surveys of the county's water resources by private and public engineers; that irrigation districts, county water districts, water storage districts, municipalities, and California water districts now exist within portions of the county, have acquired property and works, developed a limited water supply, and have incurred indebtedness, but have been and are unable alone to economically develop an adequate water supply and control the floods of said county and for such reason it is necessary to have a political entity coextensive with the geographical limits of the entire county; that the county cannot be supplied with water from a common source or by a common system of works; that investigation having shown conditions in said county to be peculiar to it. It is, therefore, hereby declared that a general law cannot be made applicable to said county and that the enactment of this special law is necessary for the conservation, development, control and use of said water for the public good and for the protection of life and property therein.

Severability

SEC. 28. If any provision of this act is declared unconstitutional or invalid, for any reason, the remainder of the act shall not thereby be invalidated, but shall remain in full force and effect.

Short title

SEC. 29. This act may be designated and referred to as "the Kern County Water Agency Act," and any reference thereto by such designation shall be sufficient for all purposes.

Urgency

SEC. 30. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The creation of the Kern County Water Agency is urgently needed in order to provide a water supply for inhabitants of Kern County, and particularly in order to contract with the State for such a water supply. In order that an election may be held in the county early this year and the Kern County Water Agency may commence to function and exercise its powers, it is necessary that this act go into immediate effect.

CHAPTER 1005

An act to add Section 17852 to the Education Code, relating to financial support for junior colleges, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 4, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 17852 is added to the Education Code, to read:

17852. Notwithstanding any provision of Section 17851, the Superintendent of Public Instruction shall, for the fiscal year 1961-62, withhold from the apportionment to a junior college district the basic aid apportionment allowed the junior college district for the attendance of all students who were residing within the district and attending a junior college in another district under an interdistrict attendance agreement, and on account of which average daily attendance tuition payment is required by the junior college district of residence, provided such attendance exceeds 3,000 units of average daily attendance. The Superintendent of Public Instruction shall add the amount withheld to the apportionment required to be made to the district of attendance.

Urgency

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that an extreme budgetary and financial hardship will not result for districts which have an unusually large number of students attending junior college during 1960-61 in another district under a cost agreement involving abatement of apportionments against the cost of education, it is necessary that this act take effect immediately.

CHAPTER 1006

An act to add Article 16.5 (commencing with Section 18360) and Chapter 17 (commencing at Section 20001) to Division 14 of the Education Code, relating to public school financing, and making an appropriation therefor.

In effect September 15, 1961

[Approved by Governor July 5, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 17 (commencing at Section 20001) is added to Division 14 of the Education Code, to read:

CHAPTER 17. JUNIOR COLLEGE TAX RELIEF ACT

20001. As used in this chapter: Definitions

(a) "Junior college district" means any district maintaining a junior college.

(b) "Junior college" means grades 13 and 14 of a two- or four-year junior college.

(c) "Unit of average daily attendance" means a unit of average daily attendance during the preceding fiscal year in a graded class in grade 13 or 14 of a junior college of pupils who are residents of the district maintaining the junior college and who are not adults as defined in Section 6352.

20002. This chapter shall be administered by the Department of Education. The department shall adopt such rules and regulations as it deems necessary to carry out the purposes of this chapter. Administration

20003. Any junior college district is eligible to apply for a tax relief grant under this chapter. Grant eligibility

20004. A junior college district eligible for a tax relief grant may file with the State Department of Education one or more applications for a grant within 16 months after the effective date of this chapter. The form of the application shall be prescribed by the Superintendent of Public Instruction. The Superintendent of Public Instruction shall examine and approve within 18 months after the effective date of this chapter all applications of junior college districts eligible for a tax relief grant under this chapter. Application

20005. A tax relief grant shall be used for either of the two following purposes: Purposes of tax relief grant

(a) For the payment of the interest and redemption of outstanding bonds of the district (or in the case of a city and county, bonds of the city and county) issued for junior college purposes or for money borrowed for capital outlay purposes from the county school service fund.

(b) For the purchase or improvement of junior college sites or the planning and construction of junior college buildings, on a matching basis of not to exceed one part state funds for each four parts district funds.

20006. The Superintendent of Public Instruction shall compute for each eligible junior college district a maximum entitlement which may be used as a junior college tax relief grant computed as follows: Computation of maximum entitlement

(a) Dividing the average assessed valuation per unit of average daily attendance in all junior college districts in the State, by the assessed valuation per unit of average daily attendance in the district.

(b) Multiplying the quotient derived under subdivision (a) by the number of units of average daily attendance of the district

(c) Computing the total of the products derived under subdivision (b) for each junior college district in the State.

(d) Dividing five million dollars ($5,000,000) by the total computed under subdivision (c).

(e) Multiplying the quotient derived under subdivision (d) by the product derived under subdivision (b).

For the purposes of this section the Superintendent of Public Instruction shall estimate for each eligible junior college district which is in existence for all purposes for less than three years prior to the effective date of this chapter, or which has had graded classes for less than three years, the total number of units of average daily attendance which would be credited to the district if it had been in existence for three years; the units of average daily attendance so estimated shall be used for such a district instead of the actual number of units of average daily attendance. For the purposes of this section no junior college district shall be considered to have fewer than 300 units of average daily attendance.

Certification, warrant, etc

20007. Upon approving an application for a tax relief grant, the Superintendent of Public Instruction shall certify to the State Controller the amount of the tax relief grant approved for the junior college pursuant to this chapter. The State Controller shall thereupon draw his warrant on the State Treasurer in favor of the county treasurer of the county having jurisdiction over the district in accordance with the terms of the approved application. The warrant shall be paid from the General Fund in the State Treasury. All money received by the treasurer of any county pursuant to this section shall be immediately credited by the county treasurer to the interest and sinking fund, the special reserve fund, or the general fund of the junior college district whichever fund the Superintendent of Public Instruction shall specify in approving the application.

SEC. 3. Article 16 5 (commencing with Section 18360) is added to Division 14 of said code, to read:

Article 16 5. Recovery of County School Service Fund Accumulated Surpluses

Elimination of accumulated surpluses in county school service funds

18360. After making all determinations provided for in Article 16 (commencing with Section 18351), Chapter 3, Division 14 of this code for the fiscal year 1961-62, but prior to authorizing any transfer of funds from the General Fund to the State School Fund under Chapter 2 (commencing with Section 17300) of that division, the Superintendent of Public Instruction shall proceed as specified in this article to eliminate accumulated surpluses in the several county school service funds.

Computation

18361. The superintendent shall compute an amount equal to the surplus in each of the county school service funds as of June 30, 1961, as shown by each of the budgets for the 1961-62 fiscal year submitted to him pursuant to Section 18351. For the purpose of this article the surplus for each county school service fund is the total beginning balances shown on the budget so submitted, exclusive of trust funds or funds otherwise dedicated. For the purpose of this section trust funds or funds otherwise dedicated are defined as

Surplus trust funds excluded

(1) Unexpended balance of any funds that have accrued to a county school service fund under a grant of federal funds, or a grant of private or foundation funds, required to have been expended for a specified purpose, plus the amounts of county school service fund money committed for the specific purposes as required to receive the grant or trust;

(2) Unexpended balance of any state funds allocated on an average daily attendance basis for the purpose of maintaining special schools and classes for the mentally retarded and juvenile hall schools;

(3) Unexpended balances of a county or school district tax funds the levy for which was to maintain special schools and classes for the mentally retarded and juvenile hall schools;

(4) The unexpended balance of any account within the county school service fund contributed by school districts for a specific purpose and from which account expenditures are made by the county superintendent of schools acting as an agent of the districts contributing to the account.

Other exclusion

18361.5. In addition to the amounts to be excluded in computing the balance in each of the county school service funds pursuant to Section 18361, there shall also be excluded any amounts derived from county school taxes levied and collected prior to 1935 which still remain in a county school service fund. The Department of Education shall, on or before the fifth calendar day of the 1962 Regular Session of the Legislature, submit to the Legislature a report specifying the amounts of such moneys remaining in the respective county school service funds, the derivation of the moneys, and related data pertaining to the retention and handling of such moneys in the respective county school service funds.

Reduction of total allowance

18362. The superintendent shall reduce the total allowance or apportionment under subdivisions (a) and (b) of Section 18352 to each county school service fund for the 1961-62 fiscal year by the amount of the surplus for each fund computed as provided in this article. If the accumulated surplus exceeds the allowance or apportionment determined for any county school service fund in the 1961-62 fiscal year, he shall reduce the allowance or apportionment to zero for that year. The total of the reductions so made shall constitute "county school service fund accumulated surpluses" for the purpose of this article.

Reduction of State School Fund transfer amount

18363. For the 1961-62 fiscal year, the total amount to be transferred from the General Fund to the State School Fund pursuant to Section 17301 and the total amount available for allowance or apportionment to county school service funds shall each be diminished by the amount of the county school service fund accumulated surpluses.

Elimination of balance of surplus

18364. CHAPTER 1007

An act to amend Section 1263 of the Agricultural Code, relating to produce dealers.

In effect September 15, 1961

[Approved by Governor July 5, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 1263 of the Agricultural Code is amended to read:

1263. No person shall act as a commission merchant, dealer, broker, cash buyer, or agent without having obtained a license as provided in this chapter. Every person, before acting as a commission merchant, dealer, broker, cash buyer, or agent, as herein defined, shall file an application with the director for a license to transact the business of commission merchant, dealer, broker, cash buyer, or agent, and such application shall be accompanied by the license fee herein provided for each specified class of business. Separate applications shall be filed for each class of business.

The application shall in each case state the class or classes of farm products applicant proposes to handle, the full name of the person applying for such license, and if the applicant be a firm, exchange, association or corporation, the full name of each member of the firm, or the names of the officers of the exchange, association or corporation shall be given in the application. Such application shall further state the principal business address of the applicant in the State of California and elsewhere and the name or names of the person or persons authorized to receive and accept service of summons and legal notices of all kinds for the applicant. The director shall require the applicant to make a showing of character, responsibility and good faith in seeking to carry on the business stated in the application, and may make investigations, hold hearings, and make determinations respecting such matters.

Should the applicant be a corporation or partnership, it shall likewise satisfy the director of the character, responsibility, and good faith of any or all persons connected with it in a responsible or managing position, such as manager, superintendent, officer, or director of a corporation, or manager, superintendent, or member of a partnership. Failure of any such person to satisfy the director of his character, responsibility, or good faith may be considered by the director as adverse to a showing of such qualifications by such corporation or partnership, and shall be good and sufficient grounds for the denial of an application for license or of the renewal thereof.

Previous conviction of a felony, previous bankruptcy, voluntary or involuntary, or previous violation of this chapter shall be considered by the director as adverse to a showing of such character, responsibility, or good faith on the part of any applicant, or on the part of any manager, superintendent, director, or officer of an applicant corporation, or on the part of any superintendent, manager, or member of an applicant partnership. The same considerations are applicable to an individual applicant who has previously been in a responsible or managing position with a corporation or partnership which has suffered revocation or suspension of license by reason of violation of this chapter or by reason of violation of Chapter 9, Division 6, of the Agricultural Code.

Any person adjudged a bankrupt, or any person against whose bondsman or bondsmen a claim or claims have been collected by the director in accordance with the provisions of this chapter or Chapter 9 (commencing at Section 1299.18) of Division 6 of this code, and who has not made full settlement with all producer-creditors, shall not be licensed by the director during the period of three (3) years from the date of such adjudication or collection.

In addition to the general requirements applicable to all classes of applications as in this section set forth, the following requirements shall apply to the class of applications noted:

(a) Commission Merchants. Each application shall include a complete schedule of commissions, together with itemized listing of all charges for all services, and such designated commissions and charges shall not be changed or varied for the license period except by written contract between the parties or by written notice to the director. If changed by a written contract, such charges shall be clearly set forth in detail in said written contract. Any services rendered for which charges are made, if not listed in the schedule on the application, shall be rendered on a strictly cost basis.

(b) Agents. Each application shall include such information as the director may consider proper or necessary, and shall include the name and address of applicant, and the name and address of the commission merchant, dealer, broker, or cash buyer represented or sought to be represented by said agent, and the written endorsement or nomination of such commission merchant, dealer, broker, or cash buyer.

The director shall thereupon issue to such applicant a license entitling the applicant to conduct the business described in the application at the place named in the application for a year from the date thereof or until the same shall have been suspended or revoked for cause; provided, however, that licenses of agents shall expire upon the date of expiration of the license of the principal for whom the agent acts. The director may also issue to each agent a card or cards, which shall bear the signature of said agent, separate cards being required for each principal. Any agent shall show said card or cards upon the request of any interested person. Any agent who displays a void or expired license card is guilty of a misdemeanor, punishable as provided in Section 1273 of this chapter.

Fraud or misrepresentation in making any application shall ipso facto work a revocation of any license granted thereunder. All indicia of the possession of a license shall be at all times the property of the State of California and each licensee shall be entitled to the possession thereof only for the duration of said license.

For filing the application herein described, each applicant must pay a fee as follows:

(a) Commission Merchants. Fifty-five dollars ($55) for each year; provided, that a person licensed as a slaughterer under the provisions of Article 13 (commencing at Section 359) of Chapter 2 of Division 3 of this code shall be entitled to be licensed as a commission merchant without payment of further fees.

(b) Dealers. Fifty-five dollars ($55) for each year.

(c) Brokers. Fifty-five dollars ($55) for each year.

(d) Cash Buyers. Fifty-five dollars ($55) for each year.

(e) Agents. Five dollars ($5) for each license period of the principal.

Should any commission merchant, dealer, broker, or cash buyer fail, refuse, or neglect to apply for the renewal of a preexisting license on or before the date of the expiration thereof,

a penalty of ten dollars ($10) shall apply to and be added to the original fee of fifty-five dollars ($55), and shall be paid by the applicant before the renewal license may be issued.

Any person who has applied for and obtained a license within the classification of commission merchant, or dealer, or broker, or cash buyer, in the manner and upon payment of the fee herein set forth, may apply for and secure a license in any or all of the remaining such classifications without payment of further fee, and upon further complying with those parts of this chapter regulating the licensing of the other particular classification involved. All licenses held by any licensee under the provisions of this section shall automatically expire on the expiration date for the particular license for which the license fee was paid.

Such market value shall be only the cost of acquisition to the person concerned and does not include the value of services or commodities added subsequent to acquisition. Payment of such amount shall preclude any further enforcement action in connection with such transaction. If such person shall refuse to pay or fail to pay the amount demanded, the director shall thereupon proceed in accordance with the other provisions of Section 1300.19. Any moneys recovered pursuant to this subdivision shall be deposited in accordance with subdivision (f) of Section 1300.17.

In addition to such civil penalty, any person knowingly exceeding any quota or allotment or marketable percentage fixed for him under any marketing order, or rule or regulation issued by the director thereunder, shall forfeit to the State of California a sum equal to the current market value of such excess (or three times such amount, in the discretion of the court) which forfeiture may be recoverable in a civil suit brought in the name of the State of California. Any moneys recovered pursuant to this subdivision shall be deposited in accordance with subdivision (f) of Section 1300.17.

(3) Any handler to receive, handle or have in his possession any agricultural commodity regulated by a marketing order or marketing agreement issued hereunder, which commodity the handler knows is being marketed by the producer thereof without complying with, or in violation of the provisions of such marketing order or agreement.

(m) The penalties and remedies prescribed in this section with respect to any violation mentioned in this section shall be concurrent and alternative and neither singly nor combined shall the same be exclusive and either singly or combined the same shall be cumulative with any and all other civil, criminal or administrative rights, remedies, forfeitures or penalties provided or allowed by law with respect to any such violation.

(n) Any authorized inspector or other authorized person discharging his duties in the checking of compliance with the provisions of any marketing order made effective pursuant to this chapter may enter and inspect any premises, enclosure, building or conveyance where he has reason to believe any agricultural commodity subject to a marketing order is produced, stored, being prepared for market or marketed, and inspect or cause to be inspected such representative samples of the commodity as may be necessary to determine whether or not any lot of said commodity is in compliance with applicable regulations of any marketing order made effective pursuant to the provisions of this chapter.

(o) Any authorized inspector or other authorized person in the discharge of his duties, if he has reason to believe that a lot of any agricultural commodity subject to a marketing order or marketing agreement issued hereunder is not in compliance with the requirements of such marketing order or agreement, or of marketing rules and regulations issued pursuant thereto, as to quality, condition, size, maturity, pack, labeling or markings, may hold such lot for a reasonable period of time sufficient to enable such officer to ascertain by an authorized inspection whether such lot complies with such marketing requirements but in any event not to exceed 24 hours in the case of perishables or 72 hours in the case of nonperishables, except as hereinafter provided.

Following inspection, such inspector or other authorized person may affix to any lot which is determined to be in noncompliance, an official notice, warning tag or other appropriate marking warning that the lot is held and stating the reasons therefor. It is unlawful for any person, other than an authorized inspector or enforcing officer, to detach, alter, deface or destroy any such official notice, warning tag or marking so affixed to any such lot or to remove or dispose of such lot in any manner or under conditions other than as prescribed in such notice of noncompliance except upon written permission of an authorized enforcing officer or by order of a court of competent jurisdiction.

The director, or the authorized person by whom such lot is being held, shall serve the person in possession of said lot with a notice of noncompliance. Such notice shall be served in person or by mail to the last known address of such person in possession. It shall be the duty of such person in possession to notify the owner of said lot or other persons having an interest therein, of the serving of such notice of noncompliance.

Such notice of noncompliance shall include a description of the lot, the place where and the reasons for which it is held and shall cite the applicable marketing order or agreement or marketing rules and regulations and the section or sections thereof upon which said notice of noncompliance is based.

The owner of said lot shall have, in the case of a perishable commodity not to exceed 48 hours, and in the case of a nonperishable commodity not to exceed 72 hours from the time of serving such notice of noncompliance for reconditioning or for the correction of the deficiencies noted in said notice of noncompliance. If such lot is reconditioned or the deficiencies corrected the enforcing officer shall remove said warning tags or markings and release said lot for marketing; or with the consent of the owner of such lot the enforcing officer is hereby authorized to divert said lot to other lawful uses or to destroy such lot.

(p) If the owner of such lot fails or refuses to give such consent, or if the lot has not been reconditioned or the deficiencies otherwise corrected so as to bring said lot into compliance within the time specified in the notice, then the

enforcing officer shall proceed as provided hereinafter. The enforcing officer may file a verified petition in any superior or inferior court of this State requesting permission to divert such lot to any other available lawful use or to destroy such lot. Such verified petition shall show the condition of the lot; that the lot is situated within the territorial jurisdiction of the court in which said petition is being filed; that the lot is held, and that the notice of noncompliance has been served as hereinbefore provided; that the lot has not been reconditioned as required; the name and address of the owner and the person in possession of said lot and that the owner has refused permission to divert or to destroy said lot. Upon the filing of such verified petition the court may issue an order to show cause returnable in five (5) days after service upon the owner why the lot shall not be reconditioned or the deficiencies corrected or why the lot shall not be diverted to other lawful uses or destroyed. The owner of said lot may, prior to the date when said order to show cause is returnable, either recondition or correct the deficiencies in said lot so as to bring said lot into compliance or may file at or before the hearing on said order an answer with the court showing why said lot shall not be reconditioned or the deficiencies corrected so as to bring it into compliance or showing why said lot should not be diverted to other lawful uses or destroyed.

If at the expiration of the said period the owner of said lot has failed or refused to recondition or to correct the deficiencies so as to bring said lot into compliance the court may enter judgment ordering that said lot be reconditioned or diverted to any other lawful uses or destroyed in the manner directed by the court or relabeled, or denatured or otherwise processed, or sold or released upon such conditions as the court in its discretion may impose, except that said lot may not be sold or released into the regular channels of trade.

In the event of sale of any lot by order of court, the costs of storage, handling and reconditioning or disposal shall be deducted from the proceeds of sale and the balance, if any, paid into court for the account of the owner of any such lot.

(q) Disposal of any lot or portion of any lot pursuant to the provisions of this section whether such disposal be by arrangement with an enforcement officer or by court order shall not waive any of the penalty provisions of this chapter

CHAPTER 1024

An act to amend Section 19582 of the Education Code, relating to state school building aid.

In effect September 15, 1961

[Approved by Governor July 5, 1961 Filed with Secretary of State July 6, 1961]

The people of the State of California do enact as follows

SECTION 1. Section 19582 of the Education Code is amended to read:

19582. The board by the adoption of rules shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Such rules shall define and provide for the

method of determining building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction.

The board may make exceptions to the provisions of this section or to the rules adopted pursuant to such section when it determines that such will be for the benefit of children affected.

For the purposes of this section, "service area" may be defined as (1) buildings which when constructed were intended to be used for a purpose to which the provisions of Education Code Sections 15451 to 15465, inclusive, would not apply, whether or not such sections were in effect at the time when the building was constructed, or (2) buildings which when constructed were intended to be used for a purpose to which Education Code Sections 15451 to 15465, inclusive, would apply, whether or not such sections were in effect when the building was constructed, but which building has been converted or is intended to be converted, as shown by the application, to use for purposes to which such sections would not apply. Service area may include, but is not limited to, construction used as bus garages, maintenance shops, centrally located district storage and warehouses, custodial houses, utility shelters, administration offices, transformer vaults, and service yards.

In the event that a school district has expended funds for the purpose of constructing buildings used for housing certificated employees of the district and their families, the area of such buildings and the funds expended therefor shall be accounted for in the following manner:

(a) The area of such buildings constructed or acquired with the proceeds of a tax levied under Chapter 3 (commencing with Section 20701), Division 16, of this code, shall be excluded from the building area of the district.

(b) The area of such buildings constructed or acquired with the proceeds from the sale of school district bonds prior to July 1, 1961, shall be excluded from the building area of the district, however, such bond funds shall not be considered as "eligible bonded debt service" as defined in Section 19601(d) and 19615.

The board shall exclude from the building area of a district the area of any building which is or will be used exclusively for a parent co-operative nursery education facility, and for no other purpose, and which building at the time of acquisition thereof by the district was incidental to the purchase of a school site and unsuitable for classroom purposes or which was acquired by the district without expenditure of school district funds.

The area of adequate school construction existing in a district at the time of application shall be initially computed as all of the construction area of a district except (1) such areas as may be eligible for replacement under standards established by the board, and (2) such areas in an existing

structurally inadequate building for which an application has been filed for structural rehabilitation or in a building previously structurally rehabilitated under either Sections 19401 to 19486, inclusive, or Sections 19551 to 19689, inclusive, of the Education Code, that exceeds the maximum building area allowed by Section 19581 for a number of pupils, equivalent to those that could be housed in the building after rehabilitation. The board shall prescribe by rule the method of computing the number of pupils which could be so housed for the purposes of this subsection. If such area of adequate school construction, when added to the minimum facilities needed by the district, results in a total construction area in excess of the amount prescribed in Section 19581, then the board may make the following adjustments to the initial computation or such revisions thereof as the board, in its discretion, deems desirable:

(a) Service areas constructed prior to July 19, 1947, shall be excluded, except as provided in (c) below.

(b) Service areas constructed subsequent to July 19, 1947, shall be recomputed by multiplying the total number of square feet of said service area by the percentage determined from dividing the actual construction cost per square foot as determined by the Director of Finance by the estimated average cost per square foot of the new school facilities for which the district has made application.

(c) If any inadequate nonservice area constructed prior to July 19, 1947, is, or will be, converted to a service area, such area shall be recomputed by multiplying said area by the percentage determined by dividing the depreciated value of said area by the replacement cost as such value and cost are determined by the Director of Finance.

(d) If, after the revised computation of service areas is made as prescribed under subsections (a), (b), and (c) of this section, the existing and requested building area of the district is in excess of the schedule set forth in Section 19581, the existing building area of nonservice facilities may be determined on the basis of the number of pupils housed by such facilities at an allowance per pupil which is not more than 25 percent in excess of the amount per pupil prescribed in Section 19581.

The board shall prescribe by rule the method for computing the number of adequately housed pupils for purposes of this subsection.

CHAPTER 1025

An act to add Article 4 (commencing with Section 11115) to Chapter 1, Title 1, Part 4 of the Penal Code, relating to criminal records and reports of disposition of arrested persons.

Procedures and forms

11117. The Bureau of Criminal Identification and Investigation shall prescribe and furnish the procedures and forms to be used for the reports required in this article and shall establish uniform classifications of dispositions, which shall include the reason for such disposition in those cases where an arrested person is released without having been brought to trial or without having entered a plea of guilty. CHAPTER 1039

An act to amend Section 92 of the Agricultural Code, relating to fairs.

[Approved by Governor July 5, 1961. Filed with Secretary of State July 6, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 92 of the Agricultural Code is amended to read:

92. The Department of Finance shall apportion any money appropriated by the State for the encouragement of county, district or combined county and district fairs to the various agricultural fairs on the basis of the amount which each fair actually paid in premiums for agricultural, horticultural, mineral and livestock exhibits, and exhibits of do-

mestic arts, agricultural mechanics and industrial education made or manufactured for other than commercial purposes in each year. The money so apportioned shall be paid to the several counties and district agricultural associations as soon as such apportionment is determined.

The Department of Finance, out of any money on hand to be apportioned, may advance to any county or district agricultural association, for the purpose of paying premiums, at any time during the year, any portion of the money to which, in the opinion of the Director of Finance, the county or district agricultural association will become entitled for that year. The county or district agricultural association shall deposit such money in a bank account approved by the Director of Finance in accordance with the provisions of Section 16506 of the Government Code. Such money may be expended for premiums, capital outlay, including purchase of land, construction, improvements, equipment, for the acquisition, installation, maintenance, and operation of recreational facilities at fairgrounds of the county or district agricultural associations or support of county or district agricultural association fairs pursuant to a budget submitted to, and approved by, the Department of Finance subject to the provisions of Sections 13320 to 13324, inclusive, of the Government Code.

All sums expended from such moneys for construction and improvements by counties shall be subject to the provisions of Sections 25450 to 25463, inclusive, of the Government Code. The county auditor or secretary of any such fair desiring to share in any such appropriation shall file with the Department of Finance on or before December 31st, of each year, a sworn statement setting forth the actual amount paid for premiums by such fair held in that year.

Six thousand dollars ($6,000) shall be the maximum base of allocation paid any fair for its first year of operation, and thereafter in each subsequent year in which a fair is held the maximum base of allocation shall increase by 10 percent over the maximum base for the year in which a fair was last held.

In the event the premiums paid during any year in which a fair is held are less than the maximum base of allocation for that year, the base of allocation for that year shall be the premiums so paid during such year. For any fair operated prior to 1933 which received, or was qualified to receive, money from appropriations for the support of agricultural fairs, the basis may be increased 10 percent for each year in which a fair was held from the time the fair was first held, except that if no fair was held by the county or district for a period of five or more years the percentage of increase shall apply only from the first fair held after said period. Any fair may pay premiums in an amount greater than that used as the base of apportionment to it.

The Department of Finance shall prescribe rules and regulations for the judging of exhibits, and the maximum amount of premiums which may be offered and paid for all classes, sec-

tions, and types of exhibits. Said rules and regulations and the maximum amount of premiums which may be offered and paid shall be exempt from the provisions of Section 11380 of the Government Code but may be filed with the Secretary of State under the provisions of Section 11385 of the Government Code. No fair shall receive any apportionment of funds under this section unless it complies with such rules and regulations.

No allotment from the apportionment herein provided shall be made for more than one fair in any one year in any county or district. The fact that a county or district contracts one with the other or with a county fair association, to hold an agricultural fair shall not bar it from receiving a proper proportion of the moneys herein appropriated, except that no county or district may hold a joint or combined fair and receive an allotment of money under the provisions of this section. No fair for which a separate appropriation is made by the State shall participate in the apportionment of any money appropriated for the encouragement of county and district agricultural fairs. On or after January 1, 1943, allotments from the appropriation herein provided shall be made only to district agricultural associations or counties which received allotments under this section on the basis of the premiums paid at fairs held during the calendar year 1941 except that: (1) A district agricultural association which did not receive an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941 may receive an allotment as provided in this section unless a county whose area lies in whole or in part within the boundaries of the agricultural district received an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941; (2) Solano County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district comprising Solano County received an allotment during the calendar year 1941; (3) Marin County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district of which Marin County is a part received an allotment during the calendar year 1941; (4) Santa Cruz County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district comprising Santa Cruz County received an allotment during the calendar year 1941; (5) Merced and Madera Counties may each receive an allotment although those counties held no fairs in the calendar year 1941 and the agricultural associations of the agricultural districts comprising Merced and Madera Counties each received an allotment during the calendar year 1941; (6) a district agricultural association which did not receive an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941, may receive an allotment as provided in this section; provided, the board of supervisors of each county, whose

area lies in whole or in part within the boundaries of the agricultural district and which received an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941, shall by resolution announce its intention to permanently discontinue the holding of fairs for which the county would be eligible to participate in the allocation from the appropriation herein provided. A certified copy of said resolution shall be filed with the Department of Finance. Upon adoption of said resolution by the board of supervisors, and the filing thereof as herein provided, the county referred to shall no longer be eligible to receive allotments under this section and the district agricultural association which becomes eligible to receive an allotment due to the adoption of said resolution shall, for the purpose of determining the maximum base of allocation for said association, be entitled to receive credit for the fairs previously held by said county and said fairs shall be considered as fairs held by the association in calculating the maximum base for said association as provided herein. Within one year from and after the date said resolution is adopted, the county shall pay to said district agricultural association the unexpended balance of any moneys previously apportioned to said county under this section. Notwithstanding the foregoing provisions of this paragraph a district agricultural association of a district created subsequent to January 1, 1943, may receive an allotment as provided in this section.

The Department of Finance, in its discretion, may at any time examine the books and records of any fair to determine the correctness of any statement or report filed with the Department of Finance.

Agency divisions

SEC. 3. The board of directors shall, at its first meeting, or as soon thereafter as practicable, divide the agency into five divisions, according to and based upon the population as estimated by the board of directors from the registrar of voters used at the last general election, in such manner as to equalize, as nearly as practicable, the population in the respective divisions. Such divisions shall be numbered first, second, third, fourth and fifth, and one director, who shall be a resident thereof, shall be elected for each division by the voters thereof at the next general Desert Water Agency election following the organization of this agency, and shall take office as hereinafter provided.

Relocation of division boundaries

SEC. 4. Whenever a sufficient change in the population occurs in a division after its organization which makes it desirable in the opinion of the board of directors of the Desert Water Agency to relocate the boundary or boundaries of any division or divisions, or whenever any territory is added to or excluded from any division, the board of directors shall, by resolution, relocate the boundary lines of the division or divisions so as to equalize, as nearly as may be practicable, the population in the respective divisions. For this purpose, the board of directors may estimate the population by reference to the register of voters used at the last general elections, and may relocate the boundary lines of the respective divisions without regard to the places of residence of the directors then in office. No such change in the division lines shall be made within the four (4) months immediately preceding the election of any director nor shall such change in division lines work a forfeiture of office of any director Whenever such change is made in the division lines, each director then in office, and until his office becomes vacant by expiration of his term or otherwise, shall continue to be the director for the respective division bearing the number of his division as formerly located even though such director is not a resident of the relocated division. His successor shall be a resident and voter of the relocated division.

Board of directors

SEC. 5. The board of directors of the Desert Water Agency organized under this act shall consist of five members. The Board of Supervisors of Riverside County shall appoint the first board of directors, each of whom shall be a resident of the agency, and shall hold office until his successor is elected. Following the creation of the five divisions of the agency by the first board of directors, and at the first Desert Water Agency election thereafter, all successors of the first board shall be elected or chosen at the time and in the manner hereinafter provided.

(a) Only one director shall be a resident of a division of the agency.

(b) Each director elected or appointed at the first general Desert Water Agency election shall hold office for the term of

four (4) years from and after the date of his taking office as herein provided, and until the election and qualification of his successor; except that the five directors elected or appointed at the first general Desert Water Agency election shall classify themselves by lot, so that two of them shall hold office until the qualification of and taking office by their successors elected at an election held the next succeeding even-numbered year, and so that three shall hold office until the qualification of and taking office by their successors at an election held in the second successive even-numbered year.

Election of directors

(c) The elections of directors shall be held at the time of the direct primary election and shall be consolidated therewith. Each candidate for director who at such election receives votes on a majority of all the ballots cast for candidates for the office for which he seeks nomination shall be elected to such office. If at such primary election, as to any such office, none of the candidates receives such majority, the two candidates who receive the highest number of votes cast on all the ballots cast for candidates for such office, shall be the candidates for such office at the ensuing agency election, which latter election shall be held at the same time as the next succeeding general election and shall be consolidated therewith. Candidates shall declare their candidacy and shall be nominated, election returns shall be canvassed, the election shall be held and conducted, the results shall be declared, and the certificates of election shall be issued, in the same manner as the declaration of candidacy, nomination, election, canvassing of returns, declaration of results, and issuance of certificates of election for county officers are made, declared, held, and conducted, and issued, so far as consistent with the provisions of this act and except as otherwise herein expressly provided. Directors elected hereunder, except the first board of directors, shall take office at the same time provided by the Government Code for county officers. Said election held at the same time of the direct primary election and consolidated therewith shall be known as the general Desert Water Agency election and each other election which may be held by authority of this act or the Elections Code or other law applicable thereto shall be known as a special Desert Water Agency election.

Order that election shall not be held

SEC. 6. If, on the 65th day prior to the day fixed for the agency general election, only one person has been nominated for each office or member of the board of directors to be filed at that election, or if no person has been nominated for any one or more of said offices, said board of directors shall by resolution entered in their minutes order that an election shall not be held, and shall immediately request that the board of supervisors of the county in which the agency or a greater portion thereof is situated, at a regular or special meeting held prior to the day of election, appoint, and the board of supervisors shall thereupon appoint, to the office or offices the person or persons who have been nominated, or if no person or persons have been nominated, any qualified person or persons. The

person appointed shall qualify and take office and serve exactly as if elected at an agency general election.

In such case the publication provided for in Article 6 (commencing at Sec. 2699), Chapter 2, Division 5 of the Elections Code shall, instead of calling an election, state that no election is to be held but that the board of supervisors will either appoint those nominated for the positions of directors or appoint a qualified person or persons to the office or offices for which no one has been nominated, as the circumstances may warrant.

Voters

SEC. 7. No person shall vote at any Desert Water Agency election held under the provisions of this act who is not a voter within the meaning of the Elections Code, residing in the division of the Desert Water Agency in which he casts his vote. The ballots thus provided shall be furnished by the precinct officers

only to those voters within their respective precincts who shall appear on the register as duly registered voters, within that division of the Desert Water Agency, and in precincts which lie partly within such Desert Water Agency and partly without the precinct board shall be supplied with two kinds of ballots by said county clerk or registrar of voters, one of which shall contain the matters hereinabove set forth for the use of voters of the Desert Water Agency, and the other of which shall be without such heading containing the names of candidates for the office of members of the board of directors, and which shall be furnished to those voters who are not voters of the Desert Water Agency and who are voters of the precinct.

If any Desert Water Agency election is consolidated with any state or county election, then the voting precincts, polling places, and election officers for the agency election shall be the same as those established for such state or county election.

The people of the State of California do enact as follows:

SECTION 1. Section 226 of the Civil Code is amended to read:

Petition for adoption

226. Any person desiring to adopt a child may for that purpose petition the superior court of the county in which the petitioner resides and the clerk of the court shall immediately

Notification of department

notify the State Department of Social Welfare at Sacramento in writing of the pendency of the action and of any subsequent action taken. In all cases in which consent is required, except in the case of an adoption by a stepparent where one natural

or adoptive parent retains his or her custody and control of the child, unless an agency licensed by the State Department of Social Welfare to find homes for children and place children in homes for adoption joins in the petition for adoption, the petition shall contain an allegation that the petitioners will file promptly with the department or the county adoption agency information required by the department in the investigation of the proposed adoption. The department or county adoption agency shall interview the parties to the adoption as soon as possible and in any event within 45 days after the filing of the adoption petition. The consent of the natural parent or parents to the adoption by the petitioners must be signed in the presence of an agent of the State Department of Social Welfare or of a licensed county adoption agency on a form prescribed by such department and filed with the clerk of the superior court, in the county of the petitioner's residence.

Interview

Consent of parents

Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

In all cases of adoption in which no agency licensed to place children for adoption is a party, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the said child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to accept the consent of the natural parents to the adoption of the child by the petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing its report with the court.

In all cases in which the consent of the natural parent or parents is not necessary and an agency licensed to place children for adoption is not a party to the petition, the State Department of Social Welfare or the licensed county adoption agency shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the Department of Social Welfare or the licensed county adoption agency unless the child's welfare will be promoted by the adoption.

Report of inquiry facts

Except in the case of the adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, it shall be the duty of the Department of Social Welfare or of the licensed county adoption agency to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition. In those cases in which the investigation establishes that there is a serious question concerning the suitability of the petitioners or the care provided the child or the availability of the consent to adoption the report shall be filed imme-

diately. The court may allow such additional time for the filing of said reports as in its discretion it may see fit, after at least five days' notice to the petitioner or petitioners and opportunity for such petitioner or petitioners to be heard with respect to the request for additional time. The report required of the Department of Social Welfare or of the licensed county adoption agency may be waived by the department in all cases in which an agency, licensed by the Department of Social Welfare to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

Copy of report to petitioner's attorney

Whenever any report or findings are submitted to the court by the Department of Social Welfare or by a licensed county adoption agency under any provision of this section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of record, or to the petitioner.

If the findings of the State Department of Social Welfare or the county adoption agency are that the home of the petitioners is not suitable for the child or that the required consents are not available and it recommends that the petition be denied, or if the petitioners desire to withdraw the petition, and it recommends that the petition be denied, the county clerk upon receipt of the report of the State Department of Social Welfare or the county adoption agency shall immediately refer it to the superior court for review

Hearing and notice

Upon receipt of such reports the court shall set a date for a hearing of the petition and shall give reasonable notice of such hearing to the agency, the petitioners, and the natural parents, as provided in Section 1200 of the Probate Code.

The department or county agency shall appear to represent the child.

In case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk or probation officer of any county of this State on a form prescribed by the State Department of Social Welfare and the county clerk or probation officer before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Welfare.

Parent outside of State

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts, and in such case the consent of the Department of Social Welfare or of a licensed county adoption agency will also be necessary, but such consent shall not be necessary where the adoption is by a stepparent and one natural parent retains custody and control of the child.

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation by reason of such minority. Parent who is a minor

If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the Department of Social Welfare or the licensed county adoption agency fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department or agency fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the Department of Social Welfare of such appeal and the department or agency shall within 10 days file a report of its findings and the reasons for its failure or refusal or consent to the adoption or to accept the consent of the natural parent. After the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department or agency to consent thereto, grant the petition without such consent.

SEC. 2. Section 226b of said code is amended to read:

226b. In effect September 15, 1961

[Approved by Governor July 5, 1961. Filed with Secretary of State July 6, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 5512 of the Welfare and Institutions Code is amended to read:

5512. If, after examination and hearing, it appears there is sufficient cause to believe that the person is a sexual psychopath within the meaning of this chapter, the judge may make and sign an order that the person be placed temporarily in a suitable psychiatric facility maintained by a county or in a state hospital of the Department of Mental Hygiene designated by the court for observation and diagnosis for a period not to exceed 90 days, with the further provision in said order that the superintendent of the hospital or person in charge of the county facility shall report to the court the diagnosis and recommendations concerning such person within the 90-day period. The court shall attach to the order for observation its findings and copies of the certification and statement from the other court, any affidavits filed, the written reports of the court-appointed psychiatrists, and the report of the probation officer, together with such social and other data that it has available bearing upon the case, and the same shall be delivered to the institution with such order.

The superintendent of the hospital or person in charge of the county facility shall within 90 days cause the person to be examined and forward to the committing court his opinion as to whether or not the person is a sexual psychopath, whether or not he is a menace to the health and safety of others, and whether or not he will benefit by care and treatment in a state hospital, including therein a report, diagnosis and recommendation concerning the person's future care, supervision and treatment.

If the superintendent of the hospital or person in charge of the county facility reports to the court that the person is not a sexual psychopath, the person shall be returned to the court for further disposition of his case. The court shall then cause the person to be returned to the court in which the criminal charge was tried to await further action with reference to such criminal charge.

If the superintendent of the hospital or person in charge of the county facility reports to the committing court that the person is a sexual psychopath but will not benefit by care or treatment in a state hospital and is a menace to the health and safety of others, the court shall then cause the person to be returned to the court in which the criminal charge was tried to await further action with reference to such criminal charge.

Such court shall resume the proceedings and shall impose sentence or make such other suitable disposition of the case as the court deems necessary. If, however, such court is satisfied that the person is a sexual psychopath but would not benefit by care or treatment in a state hospital and is a menace to the health and safety of others, it may recertify the person to the superior court of the county. If the superior court, after hearing, finds that the person is a sexual psychopath but would not benefit by care or treatment in a state hospital and is a menace to the health and safety of others, it may make an order committing the person for an indefinite period to the Department of Mental Hygiene for placement in a state institution or institutional unit for the care and treatment of sexual psychopaths designated by the court and provided pursuant to Section 5518. At such hearing or hearings, the person shall be entitled to present witnesses in his own behalf, to be represented by counsel and to cross-examine any witnesses who testify against him. The person shall remain in such institution or institutional unit until he is no longer a menace to the health and safety of others. Thereupon, the proceedings set forth in Section 5517 shall be followed with respect to the certifying of an opinion to the committing court and the release of the person thereby.

If the superintendent of the hospital or person in charge of the county facility reports to the court that the person is a sexual psychopath and that the person could benefit by treatment in a state hospital, the court shall make an order committing the person to the department for placement in a state hospital for an indeterminate period and a copy of such commitment shall be personally served upon said person within five days after the making of such order and such person may within 10 days demand a hearing in court as to the question of sexual psychopathy and upon such demand said court shall order the return of said person to said court and fix a time and place for a hearing. Upon such hearing the court may accept the report of the superintendent of the hospital or person in charge of the county facility, if verified, in lieu of the examination by and testimony of court-appointed psychiatrists, or may consider the report as additional evidence. Upon such further hearing the court may make an order committing the person to the department for placement in a state hospital designated by the court for an indeterminate period, or may make other suitable disposition of the case.

No person shall be committed for an indeterminate period as a sexual psychopath unless an observation placement has been made and reported, diagnosed and recommended upon as provided by this section.

CHAPTER 1125

An act to amend Section 7071.5 of the Business and Professions Code, relating to contractors.

[Approved by Governor July 5, 1961. Filed with Secretary of State July 6, 1961.] In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 7071.5 of the Business and Professions Code is amended to read:

7071.5. If application for a license, or for restoration or renewal of a license, is made by any person whose license has been suspended or revoked as a result of disciplinary action for violation of this chapter, or is made by any copartnership, association or corporation whose license has been suspended or revoked as a result of disciplinary action for violation of this

chapter, or by any person who may have been associated with such copartnership, association or corporation, the board shall require as a condition precedent to the issuance of a license to such applicant, or removal of suspension, that such applicant file or have on file with the registrar a bond issued by an admitted surety insurer in a sum to be fixed by the board based upon the magnitude of the operations of the applicant, but which sum shall not be less than two thousand dollars ($2,000) nor more than ten thousand dollars ($10,000), running to the State of California and conditioned upon his compliance with all the provisions of this chapter, or in lieu thereof that such applicant or licensee post with the registrar a cash deposit in an amount based upon the magnitude of the operations of the applicant but of a sum of not less than two thousand dollars ($2,000) nor more than ten thousand dollars ($10,000).

Every person injured as a result of a violation of this chapter by such contractor may bring an action in a proper court on the bond required to be posted by the contractor under the preceding paragraph, or a claim against the cash deposit for the amount of the damage he suffered as a result thereof to the extent covered by the bond or the cash deposit.

The claim of any employee of the contractor for wages shall be a preferred claim against any bond or cash deposit required by rule of the board.

The determination of the validity and priority of any such claim for wages shall be based upon a finding of fact made by the registrar in accordance with the provisions of Article 7, Section 7090 to 7120 of the chapter.

If any bond or cash deposit which may be required is insufficient to pay all claims for wages in full, the sum recovered shall be distributed among all claimants for wages in proportion to the amount of their respective claims. The partial payment of such claims shall not be considered as full payment and claimants may file for the completion of payment of any unpaid balance as otherwise provided, and the registrar may continue suspension or revocation of any license involved until such time as such claim or claims are satisfied in full.

Such bond or cash deposit shall remain in force and with the registrar for a period of one year and during such additional time as there may be unsatisfied claims outstanding against the same.

The failure of a licensee to maintain in full force and effect the bond or cash deposit required by this section shall result in the automatic suspension of his license, which shall not be reinstated until a new bond has been filed.

Any reference by a contractor in his advertising, soliciting, or other presentments to the public to any bond required to be filed pursuant to this chapter is a ground for the suspension of the license of such contractor.

Each licensee shall be required to file only one bond of the type described in this section.

Any honored claim against the bond or cash deposit shall constitute grounds for disciplinary action against such contractor. The board shall require the contractor to file a new bond in an amount not to exceed ten thousand dollars ($10,000).

Nothing contained in this section shall apply to a person or firm whose license has been suspended or revoked pursuant to Section 7124.1 or for a failure to comply with Section 7083.

Legal proceedings affecting conditional apportionment

The amount of the apportionment may be diminished by the board after a second investigation at which the board shall determine whether conditions existing at the time it approved the project for which apportionment was made have so changed that the needs of the district are less than originally determined and if so the conditional apportionment shall be reduced by a corresponding amount.

The amount of the apportionment may be diminished by the board after a second investigation at which the board shall determine whether conditions existing at the time it approved the project for which apportionment was made have so changed that the needs of the district are less than originally determined, and if so, the conditional apportionment shall be reduced by a corresponding amount.

The trustees may carry out work in excess of five thousand dollars ($5,000) under the provisions of this section by day labor if they deem that the award of a contract, the acceptance of bids, or the acceptance of further bids is not in the best interests of the State, but the amount of work performed by day labor under this section shall not exceed the sum of twenty thousand dollars ($20,000).

Agreements

25206. The trustees and the Department of Public Works may enter into an agreement under which the Department of Public Works will carry out any of the functions of the trustees under this chapter, upon such terms as are mutually agreed upon.

Article 2. Plans and Specifications

Plans, specifications, etc.

25230. Before entering into any contract for a project, the trustees, pursuant to the powers invested in them by Chapter 3 (commencing with Section 22600), Division 16.5 of this code, shall cause to be prepared full, complete, and accurate plans and specifications and estimates of cost, giving such directions

as will enable any competent mechanic or other builder to carry them out.

Approval, filing

25231. The plans, specifications, and estimates of cost shall be approved by the trustees and the original draft or a certified copy filed permanently in the office of the trustees before further action is taken.

Lowest responsible bidder

25232. Work on all projects shall be done under contract awarded to the lowest responsible bidder pursuant to this chapter, except that it may be done by day's labor under the direction of the trustees:

(a) In case of emergency due to the failure of any bridge or other highway structure.

(b) In case of emergency due to damage to a building owned by the trustees or any other real property owned by the trustees or improvements located thereon, by an act of God, including but not limited to damage by storm, flood, fire or earthquake, for work and remedial measures which are required immediately.

(c) At any time after the approval of plans, specifications and estimates of cost, if the trustees deem the advertising or award of a contract, the acceptance of any bid, or the acceptance of any further bids after the rejection of all submitted bids, is not in the best interests of the State.

Informal bidding

25233. Upon the approval of the trustees the authorized employees of the trustees may, when proceeding upon the basis of day's labor, let any subdivision or unit of the work by contract upon informal bids; but such work shall be let only to a holder of a valid state contractor's license unless such work is exempt from such licensing requirement by any other provision of law.

Unit basis awards

25234. Bids may be received and contracts awarded on a unit basis, that is, the bids compared upon the basis of estimates of the quantities of the work to be done.

Estimates by trustees

25235. Except in unit basis contracts, contracts shall not be made exceeding in amount the estimates of costs approved by the trustees and plans and specifications and estimates of costs including expense of advertising and inspection, shall not be approved by the trustees requiring a greater expenditure of money than is appropriated for the specific purpose in the law authorizing the expenditure.

Bids for several projects as a single project

25236. The trustees may receive bids for the construction of several public works projects at one state college as a single project. Where more than one appropriation has been made for the several projects united as a single project under the provisions of this section, payments for the single project shall be made from the separate appropriations on such proportional basis as may be determined by the trustees and approved by the Department of Finance.

Article 3. Advertisement for Bids

Public notice

25250. When it appears from the estimates of cost that the estimated contract price of any project will not exceed

fifteen thousand dollars ($15,000), the trustees may direct that public notice to bidders be given as follows:

(a) By publication for two consecutive insertions in a weekly trades paper of general circulation, published either in Los Angeles or San Francisco, devoted primarily to the dissemination of contract news among contracting firms; and

(b) Once a week for two consecutive weeks in a newspaper of general circulation in the county in which the project is located, or, if located in more than one county in such a newspaper in a county in which a major portion of the work is to be done.

Contents of notice

25251. The notices shall state the time and place for the receiving and opening of sealed bids and describe in general terms the work to be done.

Publication

25252. When it appears that the estimated contract price will exceed fifteen thousand dollars ($15,000), public notice to bidders shall be given by publication once a week for a least two consecutive weeks, or once a week for more than two consecutive weeks if such longer period of advertising is deemed necessary by the trustees, next preceding the day set for the receiving of bids:

(a) In two trade papers of general circulation, one published in Los Angeles and one in San Francisco, devoted primarily to the dissemination of contract and building news among contracting and building material supply firms; or

(b) In the discretion of the trustees, in one newspaper of general circulation published in the county in which the major portion of the project is located, and in one such trade paper published in the county group, as defined in Section 187 of the Streets and Highways Code, in which the work is to be done.

Contents of notice

25253. The notices shall state the time and place for the receiving and opening of sealed bids and that the bids will be required for the entire project and for the performance of segregate designated parts of the entire project, when the trustees determines that segregation is advisable.

Article 4. Bids and Bidders

Questionnaires

25270. The trustees may, and on contracts the estimated cost of which exceeds fifty thousand dollars ($50,000) the trustees shall, require from prospective bidders answers to questions contained in a standard form of questionnaire and financial statement including a complete statement of the prospective bidder's financial ability and experience in performing public works. When completed, the questionnaire and financial statement shall be verified under oath by the bidder in the manner in which pleadings in civil actions are verified.

Uniform system of rating bidders

25271. The trustees shall adopt and apply a uniform system of rating bidders, on the basis of the standard questionnaires and financial statements, in respect to the size of the contracts upon which each bidder is qualified to bid.

Projects involving federal funds

25272. In all projects for road, street and bridge work where federal funds are involved and where a bidder is required to be and has been prequalified pursuant to Sections 25270 and 25271, no bid submitted or contract thereafter awarded shall be invalidated by the failure of the bidder or contractor to be properly licensed in accordance with the laws of this State, nor shall any such contractor be denied payment under any such contract because of such failure; provided, however, that the first payment for work or material under such contract shall not be made by the State Controller unless and until the Registrar of Contractors certifies to him that the records of the Contractors State License Board indicate that such contractor was or became properly licensed between the time of bid opening and the making of the certification. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by such laws, including but not limited to any appropriate disciplinary action by the Contractors State License Board, and the trustees shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement.

Public records

25273. The questionnaires and financial statements are not public records and are not open to public inspection.

Standard proposal form

25274. The trustees shall furnish to each bidder a standard proposal form, which, when filled out and executed may be submitted as his bid. Bids not presented on forms so furnished shall be disregarded. The trustees shall not furnish proposal forms to any person who is required to submit and has not submitted a questionnaire and financial statement for prequalification at least five days prior to the date fixed for publicly opening sealed bids and been prequalified for at least one day prior to that date.

Sealed bids, bidder's security

25275. All bids shall be presented under sealed cover and accompanied by one of the following forms of bidder's security: cash, a cashier's check, certified check, or a bidder's bond executed by an admitted surety insurer, made payable to the trustees. The security shall be in an amount equal to at least 10 percent of the amount bid. A bid shall not be considered unless one of the forms of bidder's security is enclosed with it.

Opening of bids

25276. Whether or not bids are opened exactly at the time fixed in the public notice for opening bids, a bid shall not be received after that time.

Withdrawal of bid

25277. Any bid may be withdrawn at any time prior to the time fixed in the public notice for the opening of bids only by written request for the withdrawal of the bid filed with the trustees. The request shall be executed by the bidder or his duly authorized representative. The withdrawal of a bid does not prejudice the right of the bidder to file a new bid.

This section does not authorize the withdrawal of any bid after the time fixed in the public notice for the opening of bids.

Article 5. Award of Contracts

Public opening of bids

25290. On the day named in the public notice the trustees shall publicly open the sealed bids and award the contracts to the lowest responsible bidders.

Forfeiture of security

25291. If the successful bidder fails to execute the contract, his bidder's security shall be forfeited to the State. The cash or proceeds shall be deposited in the fund out of which the expenses of preparation and printing of the plans and specifications, estimates of cost, and publication of notice are paid.

Refusal of lowest bid

25292. If the trustees deem it is for the best interest of the State, they may, on the refusal or failure of the successful bidder to execute the contract, award it to the second lowest responsible bidder.

If the second lowest responsible bidder fails or refuses to execute the contract, the trustees may likewise award it to the third lowest responsible bidder.

On the failure or refusal of the second or third lowest bidder, to whom a contract is so awarded, to execute it, his bidder's security shall be likewise forfeited to the State.

Failure to furnish bond

25293. The failure of the successful bidder to furnish any bond required of him by law, within the time fixed for his execution of the contract, constitutes a failure to execute the contract.

Withholding of bidder's security

25294. The bidder's security of the second and third lowest responsible bidders may be withheld until the contract has been finally executed. The cash, cashier's checks and certified checks submitted by all other unsuccessful bidders shall be returned to them within 10 days after the contract is awarded, and their bidders' bonds shall be of no further effect.

Rejection of all bids

25295. If the trustees deem the acceptance of the lowest responsible bid or bids is not for the best interests of the State, they may reject all bids and proceed by day's labor or advertise for other bids in the manner required by this chapter.

Article 6. Relief of Bidders

Bidder's action

25310. A bidder shall not be relieved of his bid nor shall any change be made in his bid because of mistake, but he may bring an action against the trustees in a court of competent jurisdiction in the county in which the bids were opened for the recovery of the amount forfeited, without interest or costs.

The bond of an admitted surety insurer shall be filed with the complaint, in such sum as the court may fix, but not less than five hundred dollars ($500), conditioned that, if the plaintiff fails to recover judgment, he shall pay all costs incurred by the trustees in the suit, including a reasonable attorney's fee to be fixed by the court.

Limitations

25311. The complaint shall be filed, and summons served on the trustees, or an appearance made, within 90 days after the opening of the bid; otherwise, the action shall be dismissed.

Elements of cause of action

25312. The bidder shall establish to the satisfaction of the court that:

(a) A mistake was made.

(b) He gave the trustees written notice within five days after the opening of the bids of the mistake, specifying in the notice in detail how the mistake occurred.

(c) The mistake made the bid materially different than he intended it to be.

(d) The mistake was made in filling out the bid and not due to error in judgment or to carelessness in inspecting the site or the work, or in reading the plans or specifications.

Notice

25313. Other than the notice to the trustees, no claim is required to be filed before bringing the action.

Article 7. Contract Requirements

Trustee's attorney

25330. Every contract awarded under this chapter shall be submitted to the Attorney General or the attorney appointed according to law and authorized to represent the trustees. Such a contract is not binding on the State until the appropriate attorney finds it to be in accordance with the requirements of this chapter, and endorses such finding thereon.

A certified copy of each contract shall be filed with the Controller, but the failure so to file does not invalidate it.

Labor and material bonds

25331. Every contract shall provide for the filing of separate performance and labor and material bonds by the contractor executed by an admitted surety insurer, subject to the approval of the trustees.

Sum of bond

25332. Each bond shall be in a sum equal to at least one-half of the contract price, except as otherwise provided in Section 4202 of the Government Code.

Labor and material bond security

25333. The labor and material bond shall secure the payment of the claims of laborers, mechanics or materialmen employed on the work under the contract and shall contain all other provisions required by law.

25334. The performance bond shall guarantee the faithful performance of the contract by the contractor.

Additional surety

25335. Whenever the trustees have cause to believe that the surety has become insufficient, they may demand in writing of the contractor such further bonds or additional surety, not exceeding that originally required, as in their opinion is necessary, considering the extent of the work remaining to be done. Thereafter no payment shall be made upon such contract to the contractor or any assignee of the contractor until the further bonds or additional surety has been furnished.

Time of completion

25336. Every contract shall contain a provision in regard to the time when the whole or any specified portion of the work contemplated shall be completed, and shall provide that for each day completion is delayed beyond the specified time, the contractor shall forfeit and pay to the State a specified sum of money, to be deducted from any payments due or to become due to the contractor. A contract for a road project

may also provide for the payment of extra compensation to the contractor, as a bonus for completion prior to the specified time, such provision, if used, to be included in the specifications and to clearly set forth the basis for such payment.

Clause for changes in plans and specifications

25337. Every contract shall provide that the trustees may make changes in the plans and specifications pursuant to this chapter.

Article 8. Modifications; Performance; Payment

Change in quantities to be done

25360. The trustees may increase or decrease quantities of work to be done under a unit basis contract during the progress of the work.

Extra work

25361. The trustees may cause the insertion of provisions in any contract for the performance of such extra work and the furnishing of materials therefor by the contractor as the trustees require for the proper completion or construction of the whole work contemplated, if the bidders have equal opportunity of knowing the proposed terms for the extra work

Extension of time

25362. The trustees may grant such extensions of time for completion as they deem for the best interests of the State.

Default

25363. If the trustees deem that a contractor has failed to supply an adequate working force, or material of proper quality, or has failed in any other respect to prosecute the work with the diligence and force specified by the contract, the trustees may:

(a) After written notice of at least five days to the contractor, specifying the defaults to be remedied, provide any such labor or materials and deduct the cost from any money due or to become due to the contractor under the contract; or

(b) If the trustees consider that the failure is sufficient ground for such action, they may give written notice of at least five days to the contractor and the contractor's sureties, that if the defaults are not remedied the contractor's control over the work will be terminated.

Termination of control

25364. If the defaults are not remedied within the time specified in the notice, the contractor's control shall terminate as of the expiration of that time.

Possession of materials, tools and equipment upon default

25365. Upon such termination, the trustees may take possession of and use all or any part of the contractor's materials, tools, equipment, and appliances upon the premises to complete the contract. Thereupon, the trustees may permit the surety to complete or cause the contract work to be completed, or they may direct that all or any part of the work be completed by day's labor or by employment of other contractors on informal contracts, or both.

Informal contracts

25366. Such informal contracts may be awarded only after a proposal form has been prepared, a copy is served upon the contractor whose control has been terminated, and upon his surety, and three days allowed thereafter so that he may

cause others to bid. Any person who is prequalified therefor under Article 4 may bid on informal contracts.

Applicability of provisions

25367. The provisions of this chapter, except as to prequalifications, are not applicable to the award of informal contracts.

Completion by day's labor or informal contract

25368. If the control of a contractor is terminated or he abandons the work, and the work is performed by day's labor or informal contract as provided in Section 25365, he is not entitled to receive any portion of the amount to be paid under the contract until it is fully completed. After completion, if the unpaid balance exceeds the sum of the amount expended by the State in finishing the work, plus all damages sustained or to be sustained by the State, the excess not otherwise required by law to be retained shall be paid to the contractor, but if such sum exceeds the unpaid balance, the contractor and his surety are liable to the State for the excess. If the surety completes the contract work, as provided in Section 25365, such surety shall be subrogated to money due under the contract and to money which shall become due in the course of completion by the surety, to the extent provided by law.

Return of unused material, tools and equipment

25369. On the completion of the contract, the original contractor is entitled to the return of all his unused materials, and his equipment, tools, and appliances, except that he shall have no claim on account of usual and ordinary depreciation, loss, and wear and tear.

Notice

25370. The notices required by this article may be served on the contractor or on his agent having charge of the work, personally, or by registered mail addressed to the contractor or his agent, or, if neither can be located or their addresses are unknown, by posting in a conspicuous place upon the premises of the project.

Payments upon contracts

25371. Payments upon contracts shall be made as the trustees prescribe upon estimates made and approved by the trustees, but progress payments shall not be made in excess of 90 percent of the percentage of actual work completed plus a like percentage of the value of material delivered on the ground or stored subject to or under the control of the State, and unused. The trustees shall withhold not less than 10 percent of the contract price until final completion and acceptance of the project. However, at any time after 50 percent of the work has been completed, if the trustees find that satisfactory progress is being made, the trustees may make any of the remaining progress payments in full for actual work completed, or may withhold any amount up to 10 percent thereof as the trustees may find appropriate based on the contractor's progress. The Controller shall draw his warrants upon estimates so made and approved by the trustees and the Treasurer shall pay them.

Article 9. Offenses

Corruption

25390. Any officer or employee of the trustees who corruptly performs any official act to the injury of the State, is guilty of a felony.

Corrupt permission of violation

25391. Any contractor or his agent or employee who corruptly permits the violation of any contract awarded under this chapter to the injury of the State, is guilty of a felony.

Knowledge of violation

25392. Any subcontractor or agent or employee of any contractor or subcontractor, who has knowledge of any work being done in violation of any contract under this chapter and does no immediately notify the trustees or the inspector or resident engineer upon the project of the violation, is guilty of a felony.

Penalty

25393. Such felonies are punishable by imprisonment in the state prison for not less than one nor more than five years.

Double liability

25394. Such persons are also liable to the State for double the amount the State may have lost, or be liable to lose by reason of the acts made crimes by this article.

In effect September 15, 1961

[Approved by Governor July 6, 1961 Filed with Secretary of State July 7, 1961]

The people of the State of California do enact as follows:

SECTION 1. Section 1500 of the Fish and Game Code is amended to read:

1500. The department may, with the approval of the commission and the Department of Finance, exchange any portion of the property lying within the boundaries of any area or range referred to in this section for any property within or contiguous to such area or range or may sell any portion of the property within such boundaries and with the proceeds thereof acquire any property within or contiguous to such area or range; provided, that no exchange or sale of property authorized in this section shall materially reduce the total area of any range or area referred to in this section. A copy of each deed of conveyance executed and delivered by the department, and of each deed conveying lands to the State, pursuant to this section shall be delivered to the State Lands Commission.

In effect September 15, 1961

SECTION 1. Section 190.1 is added to the Streets and Highways Code, to read:

The Legislature hereby finds and declares that although Mathilda Avenue is presently a portion of Route 114, the commission has approved an alternate routing, the department has commenced acquisition of the property necessary for the right-of-way along the new route, and Mathilda Avenue will be returned to the City of Sunnyvale within a few years. Because of the heavy traffic congestion at the intersection of Mathilda Avenue and the Southern Pacific Company's railroad tracks, it is necessary that Mathilda Avenue be eligible for a grade separation allocation as soon as possible.

(c) The application for any permit shall specifically describe the trailer coach to be moved and the particular highways over which the permit to operate is requested, and whether the permit is requested for a single trip or for continuous operation.

(d) The State Department of Public Works or local authority is authorized to establish seasonal or other time limitations within which the trailer coach described may be moved on the highways indicated, and may require an undertaking or other security as may be deemed necessary to protect the highways and bridges from injury or to provide indemnity for any injury resulting from the operation.

(g) Every permit shall be carried in the trailer coach to which it refers and shall be open to inspection of any peace officer or traffic officer, any authorized agent of the Department of Public Works or any other officer or employee charged with the care and protection of the highways.

(h) It is a misdemeanor for any person to violate any of the terms or conditions of any such special permit.

(i) To the extent that the application of this section to highways which are a part of the National System of Interstate and Defense Highways (as referred to in subdivision (a) of Section 108 of the Federal-aid Highway Act of 1956) would cause this State to be deprived of any federal funds for highway purposes, this section to such extent shall not be applicable to highways which are a part of such system.

The people of the State of California do enact as follows:

SECTION 1. Section 689b of the Code of Civil Procedure is amended to read:

SECTION 1. Section 689b of the Code of Civil Procedure is amended to read:

689b. (1) Where the property levied upon is a vehicle or vessel required to be registered with the Department of Motor Vehicles, the officer shall forthwith determine from the department the name and address of the legal owner of the vehicle or vessel and shall notify any such legal owner who is not also the registered owner of such vehicle or vessel of the levy by registered mail or certified mail or personal service.

(2) A seller or mortgagee may file with the officer levying on personal property a verified written claim, together with a copy thereof, containing a detailed statement of the sales contract or mortgage and the total amount of sums due or to accrue to him under the contract or mortgage, above setoffs, with interest to date of tender, and also stating therein his address within this State for the purpose of permitting service by mail upon him of any notice in connection with said claim. The officer making the levy may demand and exact the payment or undertaking herein provided for, notwithstanding any defect, informality or insufficiency of the verified claim delivered to him.

(3) Within five days after being served with such verified claim the officer levying on such property must make demand by registered mail or certified mail on the plaintiff or his attorney for the amount of the claimed debt and interest due to date of tender or the delivery to the officer of an undertaking and statement as hereinafter provided, which demand shall include the copy of such claim.

(4) Within five days after receipt by the plaintiff or his attorney of such officer's demand the plaintiff shall deposit with the officer the amount of such debt and interest or deliver the undertaking and statement hereinafter provided, or the levying officer must release the property.

(5) Within five days after receipt by him of such deposit the officer must pay or tender same to the seller or mortgagee; provided, that should such deposit be made by check the officer shall be allowed a reasonable time for check to clear.

(6) If the tender is accepted, all right, title, and interest of the seller or mortgagee in the property levied upon shall pass to the party to the action making the payment.

(7) If the tender is refused, the amount thereof shall be deposited with the county treasurer, payable to the order of the seller or mortgagee.

(8) Until such payment or deposit covering such claim is made, or the undertaking and statement herein provided delivered to the officer, the property cannot be sold under the levy; but when made (and also in case the seller or mortgagee fails to render his claim within 30 days after the personal service upon him of a written demand therefor, which service must be attested by the certificate of the serving officer, filed before the sale with the papers of the action wherein the attachment or execution was issued), then the officer must retain the property, and, in the case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee. Such written demand of the levying officer may be served by him, or for him by any sheriff, marshal, or constable whose office is closer to the place of service, and whose fees and mileage shall be paid out of the prepaid fees in the possession of the levying officer.

(9) When an attachment or execution creditor presents to the officer, within the time allowed from the officer's demand, a verified statement that the sales contract or mortgage is void or invalid for the reasons specified therein, and delivers to the officer a good and sufficient undertaking in double the amount of the indebtedness claimed by the seller or mortgagee or double the value of the personal property as the officer may determine and require, the officer shall retain the property and in case of an execution sell it in the manner provided by law, free of all liens or claims of the seller or mortgagee.

The undertaking shall be made to the seller or mortgagee and shall indemnify him for the taking of the property against loss, liability, damages, costs and counsel fees. Exceptions to the sufficiency of the sureties and their justification may be had

and taken in the same manner as upon an undertaking on attachment.

If such undertaking be given, such officer shall not be liable for damages to any such claimant for the taking, keeping, or sale of such property in accordance with the provisions of this code.

(10) Whenever a verified claim herein is delivered to the officer as herein provided, upon levy of execution or attachment (whether any undertaking hereinabove mentioned be given or not), the plaintiff, or the person in whose favor the writ runs, the claimant, or any one or more such joint claimants, shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the validity of such sales contract or chattel mortgage. Such hearing may be had and taken, and stay of execution or other order made in the same manner as on third party claims under Section 689 of this code. At the conclusion of the hearing the court shall give judgment determining the validity of the claim under the sales contract or chattel mortgage which shall be conclusive between the claimant and the plaintiff, or other person in whose favor the writ runs. The court in which the action is pending, or which issued such writ, shall have original jurisdiction in all proceedings under this section.

If the property shall have been released by the officer for want of an undertaking or payment, and final judgment shall go for the plaintiff or other person in whose favor the writ runs, the officer shall retake the property on such writ, if the writ shall still be in his hands, or if the writ shall have been returned, another writ may be issued on which the officer may take such property.

The board shall make call for bids and advertise such call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. If any change or alteration in a contract awarded under the provisions of this section is deemed necessary and the cost thereof does not exceed ten percent (10%) of the original contract price, the board may authorize the contractor to proceed with the change or alteration without the formality of obtaining bids therefor. If a change or alteration in a contract awarded under the provisions of this section is requested by any person, firm, corporation, or public agency, other than

the district, which person, firm, corporation or public agency agrees to pay all or a portion of the cost of such change or alteration, the board may authorize the contractor to proceed with such change or alteration without the formality of obtaining bids therefor, provided that the cost of such change or alteration does not exceed fifteen percent (15%) of the original contract price. "Retail installment contract," "contract"

1802.6. "Retail installment contract" or "contract" means any contract for a retail installment sale between a buyer and seller, entered into or performed in this State, which provides

for repayment in installments, whether or not such contract contains a title retention provision, and in which a time price differential is computed upon and added to the unpaid balance at the time of sale or where no time price differential is added but the goods or services are available at a lesser price if paid by cash or where the buyer, if he had paid cash, would have received any additional goods or services or any higher quality goods or services at no added cost over the total amount he pays in installments. When taken or given in connection with a retail installment sale, the term includes but is not limited to a chattel mortgage, a conditional sales contract and a contract for the bailment or leasing of goods by which the bailee or lessee contracts to pay as compensation for their use a sum substantially equivalent to or in excess of their value and by which it is agreed that the bailee or lessee is bound to become, or has the option of becoming, the owner of the goods upon full compliance with the terms of the contract.

SEC. 2. Section 1803.2 of said code is amended to read:

Form and content of contract

1803.2. Except as provided in Section 1808.3, every retail installment contract shall be contained in a single document which shall contain:

(a) The entire agreement of the parties with respect to the cost and terms of payment for the goods and services, including any promissory notes or any other evidences of indebtedness between the parties relating to the transaction, and including any promise, whether made in writing or orally, by the seller, made as an inducement to the buyer to become a party to the contract or which is part of the contract or which is made incidental to negotiations between the seller and the buyer with respect to the sale of the goods or services that are the subject of the contract, that the seller will compensate the buyer for referring customers or prospective customers to the seller for goods or services which the seller has for sale or for referring the seller to such customers or prospective customers. In any case in which, pursuant to the preceding provisions, the contract contains a promise to compensate the buyer for referring customers or prospective customers to the seller or the seller to such customers, the contract must contain a provision to the effect that the amount otherwise owing under the contract at any time is reduced by the amount of compensation owing pursuant to such promise.

(b) Either at the top of the contract or directly above the space reserved for the signature of the buyer, the words "Conditional Sale Contract" or "Lien Contract," as the case may be, shall appear in at least 10-point bold type where a security interest in the goods is retained or a lien on other goods or realty is obtained by the seller as security for the goods or services purchased. Either at the top of the contract or directly above the space reserved for the signature of the buyer, the words "Retail Installment Contract" shall appear in at least 10-point bold type where security is not obtained by the seller for the goods or services purchased. The requirements of this

subdivision shall be in addition to any applicable designation required of a chattel mortgage by Civil Code Sections 2956 and 2957.

(c) A notice in at least eight-point bold type reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank space. Any acknowledgment by the buyer of delivery of a copy of the contract shall be printed or written in a size equal to at least 10-point bold type and, if contained in the contract shall also appear directly above the space reserved for the buyer's signature. The buyer's written acknowledgment, conforming to the requirements of this section of delivery of a copy of a contract shall be a rebuttable presumption of such delivery and of compliance with this section and Section 1803.4, in any action or proceeding by or against an assignee of the contract without knowledge to the contrary when he purchases the contract. If the holder furnishes the buyer a copy of the contract, or a notice containing the items required by Section 1803.3 and stating that the buyer should notify the holder in writing within 30 days if he was not furnished a copy of the contract, and no such notification is given, it shall be conclusively presumed in favor of the third party that a copy was furnished as required by Sections 1803.4 and 1803.7.

(c) A power of attorney is given to confess judgment in this State, or an assignment of wages is given; provided, that nothing herein contained shall prohibit the giving of an assignment of wages contained in a separate instrument, executed pursuant to Section 300 of the Labor Code.

(d) The seller or holder of the contract or other person acting on his behalf is given authority to enter upon the buyer's premises unlawfully or to commit any breach of the peace in the repossession of goods.

(e) The buyer waives any right of action against the seller or holder of the contract or other person acting on his behalf, for any illegal act committed in the collection of payments under the contract or in the repossession of goods.

(f) The buyer executes a power of attorney appointing the seller or holder of the contract, or other person acting on his behalf, as the buyer's agent in collection of payments under the contract or in the repossession of goods.

(g) The buyer relieves the seller from liability for any legal remedies which the buyer may have against the seller under the contract or any separate instrument executed in connection therewith.

SEC. 5. Section 1804.2 of said code is amended to read:

Assignment

1804.2. No right of action or defense arising out of a retail installment sale which the buyer has against the seller, and which would be cut off by assignment, shall be cut off by assignment of the contract to any third party whether or not he acquires the contract in good faith and for value unless the assignee gives notice of the assignment to the buyer as provided in this section, and within 15 days of the mailing of such notice receives no written notice of the facts giving rise to the claim or defense of the buyer. A notice of assignment shall be in writing addressed to the buyer at the address shown on the contract and shall: identify the contract; state the name of the seller and buyer; describe the goods and/or services; state the time balance and the number and amounts of the installments. Attorney's fees, etc.

1811.1. Reasonable attorney's fees and costs shall be awarded to the prevailing party in any action on a contract or installment account subject to the provisions of this chapter regardless of whether such action is instituted by the seller, holder or buyer. Where the defendant alleges in his answer that he tendered to the plaintiff the full amount to which he was entitled, and thereupon deposits in court, for the plaintiff, the amount so tendered, and the allegation is found to be true, then the defendant is deemed to be a prevailing party within the meaning of this article.

SEC. 7. Section 1812.2 of said code is amended to read:

Sellers remedies upon buyers default

1812.2. In the event of any default by the buyer in the performance of his obligations under a contract or installment account, the holder, pursuant to any rights granted therein, may proceed to recover judgment for the balance due without retaking the goods, or he may retake the goods and proceed as hereinafter provided. If he retakes the goods, he shall, within 10 days, give notice to the buyer of his intention to sell the goods at public sale or give notice to the buyer of his intention

to retain the goods in satisfaction of the balance due. The notice must state the amount of the charges, in addition to overdue payments, that the buyer must pay, if he pays within 10 days of the notice, in order to redeem the goods. In either case the buyer shall have an absolute right to redeem the goods within 10 days after the notice is given by paying or tendering the amount owing under the contract and any expense of taking, keeping and storage. If the holder gives notice of election to sell the goods the buyer shall also have the absolute right to redeem the goods at any time before sale by paying or tendering the amounts specified above and also any expense reasonably incurred by the seller or holder in good faith in repairing, reconditioning the goods or preparing them for sale. If the holder gives notice of his intention to retain the goods in satisfaction of the indebtedness he shall be deemed to have done so at the end of the 10-day period if the goods are not redeemed; at the time the notice is given, the holder shall furnish the buyer a written statement of the sum due under the contract and the expenses provided for in this section. For failure to render such a statement the holder shall forfeit to the buyer ten dollars ($10) and also be liable to him for all damages suffered because of such failure.

SEC. 8 Section 1812.3 of said code is amended to read:

Notice to buyer

1812.3. The notice provided for in Section 1812.2 shall be given to the buyer and any other person liable by causing it to be delivered personally or to be deposited in the United States mail addressed to the buyer or to such other person at his last known address and shall advise the buyer or such other person of his right to redeem as provided for in Section 1812.2. If the holder determines to sell the goods at public sale he shall give notice of the time and place of sale at least 10 days before the date of sale by delivering a copy of the notice personally to the buyer or other person liable or depositing the same in the United States mail addressed to the buyer or such other person at his last known address.

SEC. 9. Section 1812.8 of said code is amended to read:

Corrections of failure to comply

1812.8. Notwithstanding the provisions of this article, any failure to comply with any provision of this chapter may be corrected by the holder in accordance with the provisions of this section, provided that a willful violation may not be corrected, and a correction which will increase the amount owed by the buyer or the amount of any payment shall not be effective unless the buyer concurs in writing to the correction. If a violation is corrected by the holder in accordance with the provisions of this section, neither the seller nor the holder shall be subject to any penalty under this article. The correction shall be made by delivery to the buyer of a corrected copy of the contract within 30 days of the execution of the original contract by the buyer. Any amount improperly collected from the buyer shall be credited against the indebtedness evidenced by the contract.

SEC. 10. Section 1812.9 of said code is amended to read:

Irrespective of the provisions of Sections 1090 and 1091 of this code, the board member who is an officer of a life insurer may participate in all board activities in administering the provisions of this part, except that he shall not vote on the question of whether a contract should be entered into or approval should be given concerning any plan.

22776. The board shall withdraw its approval of any health benefits plan if it finds that the standards prescribed therefor are not being complied with, that claims accrued or to accrue will not be paid, or for other good cause shown. The board shall give reasonable notice of its intention to withdraw approval of a plan to any carrier, employee organization, or organization of physicians which may be directly interested, to the persons enrolled in the plan, and to such other persons and organizations as the board may deem necessary and proper. The notice shall state the effective date of, and the reason for, the withdrawal Approval of a health benefits plan shall not be withdrawn except after such notice, and after all interested parties have been afforded reasonable opportunity for public hearing on the question. The hearings shall be conducted, insofar as practicable, pursuant to the provisions of Chapter 5 of Part 1 of Division 3 of Title 2 of this code.

Period of coverage, etc

22777. The regulations of the board shall also make provision respecting the beginning and ending dates of coverage of employees and annuitants and family members under health benefits plans, and may permit coverage to continue, exclusive of any temporary extension of coverage otherwise authorized under this part, until the end of the pay period in which an employee is separated from service or until the end of the month in which an annuitant ceases to be entitled to an annuity; and in case of the death of an employee or annuitant may permit a temporary extension of the coverage of family members of his family for a period of not less than 30 days.

Furnishing of information

22778. The board shall make available to employees and annuitants eligible to enroll in any health benefit plan pursuant to this part such information, in such form as it may deem satisfactory, as will enable the employees or annuitants to exercise an informed choice among the various types of health benefits plans which have been contracted for or approved. Each employee or annuitant enrolled in a health benefits plan shall be issued an appropriate document setting forth or summarizing the services or benefits to which the employee or annuitant or family members are entitled thereunder, the procedure for obtaining benefits, and the principal provisions of the plan affecting the employee, annuitant, or family members.

Studies

The board shall, with the advice of and in consultation and co-operation with, professional medical organizations and individuals or organizations having special skills or experience in the organization and provision of health care services on a prepaid basis, study methods of evaluating and improving the quality and cost of medical and hospital care provided under this part.

Article 3 Health Benefit Plans and Contracts

Contract with carrier, approvals, etc

22790. The board may contract with carriers for basic health benefit plans or approve basic health benefit plans offered by employee organizations, provided that the carriers have operated successfully in the prepaid hospital and medical care field prior to the contracting for or approval thereof. Such plans shall include hospital benefits, surgical benefits, in-hospital medical benefits, outpatient benefits, obstetrical benefits, and may include other benefits including, but not limited to, benefits offered by a bona fide church, sect, denomination or organization whose principles include healing entirely by prayer or spiritual means. The board shall approve any basic health benefit plan in existence on January 1, 1962, which meets the requirements of this part and the minimum standards and other rules and requirements prescribed by the board, and for which payroll deductions were authorized under Section 1156 of this code.

Types of basic health benefit plans

22791. The basic health benefit plans which may be approved by the board shall include the following types:

(a) One or more statewide service benefit plans under which payment is made by a carrier under contracts with physicians, hospitals, or other providers of health services rendered to employees or annuitants or family members, or under which, under certain conditions, payment is made by a carrier to the employee or annuitant or family member.

(b) One or more statewide indemnity benefit plans under which a carrier agrees to pay certain sums of money, not in excess of actual expenses incurred, for health services.

(c) Comprehensive group-practice prepayment plans which offer benefits, in whole or in substantial part, on a prepaid basis, with professional services thereunder provided by physicians practicing as a group in a common center or centers. Such a group shall include physicians representing at least three major medical specialties who receive all or a substantial part of their professional income from the prepaid funds.

(d) Individual practice prepayment plans which offer health services in whole or in part on a prepaid basis, with professional services thereunder provided by individual physicians who agree, under such conditions as may be prescribed by the board, to accept the payments provided by the plans as full payment for covered services rendered by them.

Irrespective of any other provision of law, the sponsors of a plan approved under this subsection may reinsure the operation of such plan with an admitted insurer authorized to write disability insurance, provided that the premium for such insurance shall include the entire prepayment fee.

Contracts with carriers

22792. The board may, without compliance with any provisions of law relating to competitive bidding, enter into contracts with carriers offering health benefit plans. Every such contract shall be for a uniform term of at least one year, but may be made automatically renewable from term to term in the absence of notice of termination by either party.

Same Contents, limitations, etc

22793 Each contract shall contain a detailed statement of benefits offered and shall include such maximums, limitations, exclusions, and other definitions of benefits as the board may deem necessary or desirable.

No contract shall be made or plan approved which excludes any person on account of his physical condition, age, race, or other status at the time of original group enrollment. If individual applications are permitted during nonenrollment periods, existing health disabilities may be excluded, but the right to coverage may not. Transfer of enrollment in any plan shall be open to all employees and annuitants in accordance with the provisions of Section 22813 of this code.

No contract shall be made or plan approved which does not offer to each annuitant whose enrollment in the plan is terminated other than by cancellation of enrollment, or each employee whose enrollment in the plan is terminated other than by cancellation of enrollment, voluntary separation from state service, or dismissal from state service for cause, a temporary extension of coverage during which he may exercise the option to convert, without evidence of good health, to a nongroup contract providing health benefits. An employee or annuitant who exercises this option shall pay the full periodic charges of the nongroup contract, on such terms or conditions as are prescribed by the carrier and approved by the board.

The benefits and coverage made available pursuant to the provisions of the above paragraph shall, at the option of the employee or annuitant, be continued in effect by the carrier except for fraud or nonpayment of periodic charges; provided,

however, that in the case of a comprehensive group-practice prepayment plan, in which services are provided by a limited panel of physicians associated with the plan, it is recognized that it may be impossible or impractical to maintain acceptable physician-patient relationships with particular employees or annuitants or members of their families entitled to the benefits of continued conversion coverage under the foregoing provision. In any such case the plan may submit the question of ability to maintain adequate physician-patient relationships for consideration under the grievance procedure provided below, and in the event such grievance procedure shall result in a determination that such relationship cannot reasonably be maintained, then the plan shall have the right to provide such annuitant or employee with coverage, by contract with a service benefits plan or an indemnity carrier. Such coverage shall provide benefits substantially equivalent to the benefits available to annuitants or employees under the best conversion coverage offered by a service benefits plan or an indemnity benefit plan under this act at a prepayment rate not in excess of the rate charged by the comprehensive group-practice prepayment plan for the conversion coverage otherwise available to such annuitant or employee.

No contract shall be made or plan approved which does not provide for grievance procedures to protect the rights of employees and annuitants.

Rates charged

22794. Rates charged under any health benefits plan shall reasonably reflect the cost of the benefits provided. Rates determined for the first contract term shall be continued for subsequent contract terms, except that they may be readjusted for any subsequent term, based upon past experience (which, in the case of community-rating plans, shall be the experience of the total membership upon which the rates of such plans are based) and upon benefit adjustments under the subsequent contract. Any readjustment in rates shall be made at a time and manner which, in the judgment of the board, is consistent with the general practice of carriers which issue group health benefit plans to large employers; provided however, that this section shall not be construed to require any plan to be experience rated or to require any community rated plan to provide accounting data or statistical data which is not acquired in the normal operation of the plan.

Scope and interpretation of article

22795. The provisions of this article shall not supersede, modify, or in any manner alter or impair the effect of any provision, section, or article of Chapter 5 of Division 2 of the Business and Professions Code, or any provision, section, article, or chapter of the Insurance Code. This article shall be interpreted and applied in a manner consistent with Chapter 5 of Division 2 of the Business and Professions Code, and with the Insurance Code.

Article 4. Coverage

Enrollment

22810. Any employee or annuitant may, in the manner, and under such eligibility rules as the board may by regulation prescribe, enroll in an approved health benefits plan, either as an individual or for self and family. The regulations may pro vide for the exclusion of employees on the basis of the nature and type of their employment or conditions pertaining thereto, such as, but not limited to, short term appointments, seasonal or intermittent employment, and employment of a like nature, but no employee or group of employees shall be excluded solely on the basis of the hazardous nature of the employment. Any such enrollment shall authorize the deduction of the contributions required under this part from the employee's or annuitant's salary or retirement allowance

Any annuitant who, at the time he became an annuitant was enrolled in a health benefits plan, may continue his enrollment as provided by regulations of the board, without discrimination as to premium rates or benefit coverage.

The board shall, by rule and regulation, make such provision as it deems necessary to eliminate or minimize the impact of adverse selection which would affect any plans approved or contracted for, because of enrollment of annuitants who acquired that status prior to the effective date of this part.

Enrollments in a health benefits plan under this part may not be effective prior to January 1, 1962. If any employee or annuitant is participating in an approved plan immediately prior to his enrollment under this part, and if he chooses to enroll in the same plan, his enrollment for purposes of the State's contribution shall not interrupt continuous coverage under the plan.

Spouse of employee or annuitant

22811. If an employee or annuitant has a spouse who is an employee or annuitant, each spouse may enroll as an individual. No person may be enrolled both as an employee or annuitant and as a family member A family member may be enrolled as such in respect to only one employee or annuitant.

Request for change in coverage

22812. A request for change in coverage based upon a change in the family status of any employee or annuitant, or of any employee or annuitant and members of family, enrolled in a health benefits plan may be made by the employee or annuitant upon application filed within 30 days after the occurrence of the change in family status or at such other times and under such conditions as may be prescribed by regulations of the board.

Transfer of enrollment

22813. A transfer of enrollment from one health benefits plan to another such plan may be made by an employee or annuitant at such times and under such conditions as may be prescribed by regulations of the board. In the case of a comprehensive group-practice prepayment plan in which services are provided by a limited panel of physicians associated with the plan, it is recognized that it may be impossible or impractical to maintain acceptable physician-patient relation-

ships with particular employees or annuitants or members of their families. In any such case the plan may submit the question of ability to maintain adequate physician-patient relationships for consideration under the grievance procedure provided pursuant to Section 22793, and in the event such grievance procedure shall result in a determination that such relationship cannot reasonably be maintained, then the plan shall have the right to provide such annuitant or employee with coverage by contract with a service benefits plan or an indemnity carrier. Such coverage shall provide benefits substantially equivalent to the benefits available to annuitants or employees under the best coverage offered by a service benefits plan or an indemnity benefit plan under this act at a prepayment rate not in excess of the rate charged by the comprehensive group-practice prepayment plan for the coverage otherwise available to such annuitant or employee.

Employee's removal, suspension, reinstatement

22814. An employee enrolled in a health benefits plan who is removed or suspended without pay and later reinstated or restored to duty on the ground that such removal or suspension was unjustified, unwarranted or illegal shall not be deprived of coverage or benefits for the interim, but any contributions otherwise payable by the State which were actually paid by him shall be restored to the same extent and effect as though such removal or suspension had not taken place, and any other equitable adjustments necessary and proper under the circumstances shall be made in premiums, subscription charges, contributions and claims.

Appeals, hearings

22815. If an employee or annuitant is dissatisfied with any action or failure to act which has occurred in connection with his coverage or the coverage of his family members under this part, he shall have the right of appeal to the board and shall be accorded an opportunity for a fair hearing. The hearings shall be conducted, insofar as practicable, pursuant to the provisions of Chapter 5 of Part 1, of Division 3 of Title 2 of this code.

22816. An employee enrolled in a health benefits plan under this part who is granted a leave of absence without pay under the State Civil Service Act and the rules of the State Personnel Board, or other comparable leave, shall be entitled to have his coverage and the coverage of any family members continued for the duration of the leave of absence upon his application, but only upon assuming payment of the contributions otherwise required of the State on account of his enrollment.

Article 5. Contributions

Contributions toward cost

22825. The State of California and each employee or annuitant shall contribute a portion of the cost of providing for each employee and annuitant the benefit coverage afforded under any health benefit plan which the board has approved or for which it has executed a contract pursuant to this part, and in which the employee or annuitant may be enrolled.

State's contribution

The State's contribution shall be the amount necessary to pay the cost of a basic health benefits plan, or five dollars ($5) per month for each employee or annuitant, whichever is the lesser. The State's contribution to the basic health benefits plan to each employee shall commence on the first day of the calendar month next following the completion of six months of employment by the State or the University of California; provided the employment has not been interrupted by a break of more than one month, except that absence for military service shall not be considered a break.

Employee's or annuitant's contribution

The contribution of each employee and annuitant shall be the total cost per month of the benefit coverage afforded him under the plan less the portion thereof to be contributed by the State

Additional contributions by state

22826. The State of California shall, in addition to the contributions required by Section 22825, contribute additional amounts necessary to provide funds for the administration of this part, and for the establishment and continuation of the State Employees' Contingency Reserve Fund.

Same: Amount

The additional contributions shall be in amounts reasonably adequate to pay the administrative expenses and to establish and maintain the State Employees' Contingency Reserve Fund, as determined by the board, but shall not exceed, for each employee or annuitant, the following amounts:

Same. Administrative expenses

(1) For administrative expenses—two percent (2%) of the total of the contributions made by the employee or annuitant, and the State on behalf of the employee or annuitant, under a plan.

The amount of the tuberculosis subsidy provided by the State to cities or counties separately providing care under this chapter for persons suffering from tuberculosis and the amount of the tuberculosis subsidy provided by the State to each county participating jointly with one or more other counties in the establishment and maintenance of a tuberculosis ward, hospital or sanatorium shall be based upon the patient-days of care provided to persons whose admission and care have been authorized by that county, as follows:

(a) For the first thirty-six thousand five hundred (36,500) patient-days of care during a year, the amount shall be two dollars and sixty cents ($2.60) per patient-day.

SEC. 2. Section 3300.1 is added to said code, to read:

Use of contributions 3300.1. A city or county receiving contributions from or on behalf of any person for whom subsidy has been or is claimed under Section 3300 shall use the total amount of all such contributions as an offset from any state subventions for this purpose in the following manner:

The total number of patient-days for which subsidy is paid by the State in each fiscal year shall be reduced by the number resulting from division of the total amount of contributions received from or on behalf of tuberculosis patients during each fiscal year, by the per diem cost; such per diem cost to be determined in accordance with Section 203.5 of the Welfare and Institutions Code, or by the contract cost with another public agency or private hospital. This method shall apply to the total of all contributions received by cities or counties on and after July 1, 1961.

Urgency SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The existing manner in which a city or county is required to use contributions which it receives from or on behalf of any person for whom the tuberculosis subsidy has been claimed has proven cumbersome and unworkable.

In order that this situation may be corrected for the fiscal year commencing July 1, 1961, it is imperative that this act take effect immediately.
