CHAPTER 2194

An act to repeal Section 17503 of, and to add Section 17503 to, the Education Code, relating to public school district expenditures, declaring the urgency thereof, to take effect immediately.

In effect immediately

[Approved by Governor July 20, 1961. Filed with Secretary of State July 21, 1961.]

The people of the State of California do enact as follows:

Repeal

SECTION 1. Section 17503 of the Education Code is repealed.

SEC. 2. Section 17503 is added to said code, to read:

17503. For purposes of this section:

Definitions

(a) "Salaries of classroom teachers" and "teacher" shall have the same meanings as prescribed by Section 17200 of this code.

(b) "Current expense of education" means the gross total expended (not reduced by estimated income or estimated federal and state apportionments) for the purposes classified in the final budget of a school district submitted to and approved

by the county superintendent of schools pursuant to Section 20651 of this code for administration, instruction (including salaries and other expense), auxiliary services, school plant (including operation and maintenance), and fixed charges. "Current expense of education" shall not include those purposes classified as transportation of pupils, food service, community service, capital outlay, and state school building loan repayment.

(c) "Elementary school district," "high school district," "junior college district," and "unified school district" shall have the same meanings as prescribed by Section 17601.

There shall be expended during each fiscal year for payment of salaries of classroom teachers:

(a) By an elementary school district, sixty percent (60%) of the district's current expense of education.

(b) By a high school district, fifty percent (50%) of the district's current expense of education.

(c) By a junior college district, fifty percent (50%) of the district's current expense of education.

(d) By a unified school district, fifty-five percent (55%) of the district's current expense of education.

Percentage expended for classroom teachers' salaries Deficiency

If the Superintendent of Public Instruction determines that a school district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom teachers during the preceding fiscal year, he shall, in apportionments made to the school district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any amount so designated by the Superintendent of Public Instruction shall be deposited in the county treasury to the credit of the school district, but shall be unavailable for expenditure by the district pending the determination to be made by the Superintendent of Public Instruction on any application for exemption which may be submitted to the Superintendent of Public Instruction. In the event it appears to the governing board of a school district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom teachers in excess of the salaries of classroom teachers paid by other districts of comparable type and functioning under comparable conditions, the board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the Superintendent of Public Instruction in writing not later than July 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the Superintendent of Public Instruction may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemp-

tion is granted the designated moneys shall be immediately available for expenditure by the school district governing board. If no application for exemption is made or exemption is denied, the Superintendent of Public Instruction shall either order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom teachers during the next fiscal year; or order not less than fifty percent (50%) of the designated amount or amount not exempted to be transferred to the county school service fund, in which case the amount not ordered transferred to county school service fund shall be immediately available for expenditure by the district.

Enforcement, etc.

The Superintendent of Public Instruction shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. He may require the submission to him, during the school year, by school district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

Operative date

SEC. 2. This act shall become operative on July 1, 1961.

Urgency

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to ensure that the necessary percentages of school district expenditures are devoted to salaries for classroom teachers which are so sorely needed during this critical period of our nation's history and are so important to insuring an adequate education for the children of this State, and to enable the program to effect this end which is embodied in this measure to become operative at the commencement of the fiscal year and control the financial operations of the school district to that end, thereafter, it is necessary that this act take effect immediately.

SEC. 2. The Legislature hereby finds and declares that the payment of allowances to the surviving spouse of a member pursuant to Section 14260 of the Education Code, as amended at the 1961 Regular Session of the Legislature, serves a public purpose in that it promotes the public welfare by encouraging experienced and competent members to continue their service to the youth of this State in the expectation that the Legislature will fairly provide for their surviving spouses under changing circumstances, as the Legislature is now doing for the spouses of members who hereafter or who have heretofore died. Continued service by, and the increased efficiency of, members secure in this knowledge will more than compensate the State for any increased expense for allowances to surviving spouses provided by the amendment to Section 14260 of the Education Code enacted at the 1961 Session of the Legislature

In addition, the Legislature finds and declares that the purpose of the amendment to Section 14260 of the Education Code enacted at the 1961 Regular Session was merely to implement the intention of the Legislature when it originally enacted Section 14260.

Subsection 3. Except as provided in Subsection 2 above and except refunding sewer revenue bonds, revenue bonds payable from the Sewer Revenue Fund shall be authorized in the manner provided in this Subsection 3.

The first step in the proceedings shall be a recommendation by the City Manager that bonds be issued hereunder, which recommendation shall state generally the purposes of the revenue bond issue and the principal amount thereof. Such recommendation need not be in any particular form. After the recommendation by the City Manager has been received by the Council it may adopt an ordinance finding the need for the issuance of revenue bonds under this section for the purposes set forth in the recommendation of the City Manager. The Council, by said ordinance, shall submit to the qualified voters of the city at an election held for that purpose the question of issuing revenue bonds pursuant to this section to provide moneys for the purposes stated in the recommendation of the City Manager.

The Council, by a vote of two-thirds of the members thereof, may adopt a resolution stating that it determines to proceed under this section without a recommendation by the City Manager. Any such resolution also shall state generally the purposes of the proposed revenue bond issue and the principal amount thereof and in the event such resolution is adopted the recommendation of the City Manager shall not be required and the ordinance shall find the need for the issuance of revenue bonds under this section for the purposes stated in the resolution and the purposes stated in the proposition submitted to the qualified voters of the city shall be the purposes stated in such resolution In the event the Council adopts a resolution to proceed without the recommendation by the City Manager, the ordinance calling the election may be adopted only by a vote of at least two-thirds of the members of the Council and at a meeting subsequent to that at which the resolution was adopted.

Subdivision A The ordinance calling the election also shall:

(2) state the principal amount of the bonds;

(3) state the maximum rate of interest on the bonds, which shall not exceed six per cent per annum, payable semiannually;

(4) call the election and fix the election date;

(5) fix the manner of holding the election;

(6) fix the manner of voting for or against the issuance of the bonds.

In all particulars not stated in said ordinance the election shall be held and the votes canvassed in the manner provided by law for general municipal elections in the city.

Subdivision B. The proposition shall be submitted at a special election called for that purpose and any special election called for the purpose of voting upon a proposition to

issue bonds under this section may be consolidated with any city or other election at which all of the qualified voters residing within the city are entitled to vote. Such consolidation may be made in the manner authorized under the Elections Code of the State of California or under the Elections Code of the city.

Subdivision C. The ordinance shall be published once a week for two succeeding weeks in the official newspaper of the city, the first publication to be at least 21 days prior to the election. No other notice of such election need be given. If a majority of the voters voting on the proposition of issuing the bonds vote in favor of the issuance thereof bonds in an amount not exceeding the amount stated in the ordinance calling the election may be issued.

No error, irregularity or omission in the election or in any of the proceedings prior thereto which does not affect the substantial rights of the people of the city or the electors voting at the election at which any revenue bonds are authorized under this section shall invalidate the election.

Subsection 4. The Council may issue all bonds authorized at an election in one issue or in two or more series and may fix different dates and maturities for the bonds of each series. It may issue all bonds authorized by Subsection 2 hereof in one issue or in two or more issues or series and may fix different dates and maturities for the bonds of each issue or series. The bonds of any issue or series issued under this section may be serial bonds or term bonds or any combination thereof with such maturities as may be determined by the Council, but no bond shall run more than forty (40) years from its date.

Said bonds shall be issued in negotiable form and shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and sold under this section shall be conclusive evidence of compliance with the provisions of this section and of the validity of such bonds, and no bona fide purchaser of any such bond containing the recital permitted by this section shall be required to see to the existence of any fact or to the performance of any condition or to the taking of any proceeding required prior to the actual issuance and delivery of said bonds or to the application of the purchase price paid for said bonds.

Subdivision A. REVENUE BONDS—TERMS AND CONDITIONS: In any ordinance providing for the issuance of revenue bonds under this section, the Council may fix the terms and conditions thereof (including convenants) and may in any article,

section, sentence or clause thereof make such provision (including covenant) as it may deem necessary or desirable to facilitate the issuance and sale of the bonds or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, any or all of the following:

(1) The denomination or denominations of the bonds, the medium of payment thereof, the place or places of payment thereof, which may be within or without the State of California, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination and conditions of any temporary bonds or interim certificates, and the manual (one signature must be manual) and facsimile signatures to be affixed to said bonds (definitive or temporary) or interim certificates, and the facsimile signature to be affixed to interest coupons;

(2) The terms and conditions under which said bonds or any part thereof may be paid and redeemed before maturity (including the premiums, if any, payable upon bonds redeemed prior to maturity), exchanged, registered, transferred, or negotiated;

(3) Covenants or provisions relating to rates (called in this section Sewer Service Charges). The ordinance may also state the extent, if any, to which such sewer service may be furnished or rendered to the city free or to the United States of America, the State of California, or to any city or other public corporation or body at lower rates than otherwise charged;

(4) The collection, deposit and safekeeping of the revenues and the permissible uses thereof; provided, however, that the cost of maintenance and operation of the sewer system (and only such cost) shall be payable from the Sewer Revenue Fund prior to the payment of principal and interest of the revenue bonds or the setting aside in the bond service, sinking, redemption, reserve, or other fund, monthly or otherwise, of funds therefor;

(5) The special fund or funds to be established and maintained for the payment of principal and interest of the bonds; including reserve, sinking, bond service, redemption, and trust funds, and any revenue bond payable from the Sewer Revenue Fund may be paid from any such special fund set up therefor; the permissible investments of moneys in said funds, or any

thereof; the accounts and records to be kept, audits thereof and examination thereof by bondholders and others;

(6) Carrying of insurance upon any sewers, sewage treatment plant or plants or sewage disposal works against any or all risks, and in case of loss the application of the insurance proceeds;

(7) Prohibition against or limitations upon the sale, lease or other disposition or transfer of the sewer system or any substantial part thereof, and the use of any funds derived from any sale, lease or other disposition or transfer permitted under the terms of said ordinance;

(8) Limitations upon the issuance of any additional bonds payable from the Sewer Revenue Fund, but no bond shall be issued pursuant to this section or under any other provision of this charter or any other law having any priority in payment of principal or interest out of such fund or out of any revenues payable into such fund over any revenue bonds theretofore issued and payable out of said fund;

(9) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of provisions of any ordinance, resolution or order authorizing or providing for the issuance of such bonds or the sale thereof, or to a refunding of said bonds and to calls or exchanges in connection with such refunding;

(10) For the issuance of a duplicate in the manner and upon such terms and conditions as the Council may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue in lost, destroyed or mutilated;

(11) Any other provision (including covenant) valid under the Constitution of the State of California and the United States of America.

Such ordinance shall be subject to referendum in the manner that other ordinances of the City are subject to referendum.

Any ordinance providing for the issuance of any revenue bonds under this section and all other ordinances, resolutions or orders in the proceeding for the issuance of said bonds shall constitute a contract with the holders of the bonds and may be enforced by any holder by mandamus, injunction or any applicable legal action, suit, proceeding or other remedy.

Limitations

Subsection 5. LIMITATIONS. Revenue bonds issued under this section shall be issued substantially in compliance with the following limitations:

(a) No bond shall run more than forty years from its date;

(b) Said bonds shall be designated 'Sewer Revenue Bonds'' and each bond shall state on its face that it does not constitute an indebtedness of the City but is an obligation payable, principal and interest, and premiums, if any, upon the redemption thereof only from the Sewer Revenue Fund. Such statement shall not preclude the payment or redemption thereof from the funds or moneys specified in Subdivision A of Subsection 1;

(c) Said bonds shall be sold only at public sale following such notice as the Council by resolution or order may prescribe; provided, however, that if no bid or no satisfactory bid is received pursuant to such notice the Council may reject all bids received, if any, and may thereafter sell such bonds at public or private sale; provided, further, that the provisions of this subsection shall not apply to the exchange of any refunding bonds for outstanding bonds. Any such revenue bonds may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates of interest at which they will purchase said bonds, but no rate of interest on any of the bonds shall exceed the maximum rate stated in the ordinance calling the election to vote upon the issuance of said bonds or as to bonds authorized by Subsection 2 hereof the maximum rate stated in said Subsection 2. If the bidders are invited to state the interest rate or rates, then upon the acceptance of a bid the Council shall by resolution or order, which shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on the bonds sold;

(d) Said bonds shall be sold for not less than par and accrued interest to date of delivery. The proceeds from the sale (except premium and accrued interest which shall be paid into the bond service or other fund designated or established for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the ordinance providing for issuance of such bonds and shall be applied exclusively to the objects and purposes set forth in such ordinance; provided, however, (1) that the Sewer Revenue Fund from which the bonds are payable may be reimbursed from such proceeds for expenditures for purposes for which the bonds were issued made from such Sewer Revenue Fund after the issuance of the bonds has been authorized by the voters or as to bonds authorized by Subsection 2 hereof, after the date this amendment becomes effective; (2) that said proceeds may be used for the payment of interest on said bonds during the period of acquisition and construction and for the first six months thereafter; and (3) that when the objects and purposes for which the bonds are issued have been accomplished any remaining unexpended funds derived from the sale of said bonds shall be used for the payment of principal and interest of said revenue bonds or for the redemption of any callable bonds thereof.

Refunding revenue bonds

Subsection 6. Refunding revenue bonds payable from the Sewer Revenue Fund may be issued for the payment or redemption of any revenue bonds issued pursuant to this section and such refunding bonds may be issued in principal amount sufficient to refund the outstanding bonds proposed to be refunded thereby, including payment of interest to maturity on any noncallable bonds to be refunded and of accrued interest to date of redemption and of any premiums payable upon redemption of bonds which by their terms are

subject to call and redemption prior to maturity, and all expenses of such refunding. Refunding revenue bonds may be authorized, issued and sold substantially in the manner provided for the issuance and sale of other revenue bonds hereunder or may be exchanged for the outstanding bonds to be refunded upon such terms and conditions as may be stated in the ordinance authorizing such refunding bonds, except that no election shall be necessary to authorize the issuance of refunding bonds hereunder and the first step in the proceeding shall be the ordinance of issuance. The ordinance providing for the issuance of refunding bonds shall be subject to referendum in the same manner as other ordinances of the city.

Subsection 7. To the extent that any provision of any ordinance authorizing the issuance of revenue bonds pursuant to this section or any provision of any ordinance, resolution or order pertaining to such revenue bonds adopted pursuant to the authority of this section is inconsistent with any of the provisions of any other section of this charter the provisions of such ordinance, resolution or order shall control so long as any of the bonds or coupons to which the same pertain are outstanding and unpaid No bond shall be deemed to be outstanding and unpaid within the meaning of this section if moneys for the purpose of paying the same or redeeming the same prior to maturity and sufficient therefor have been irrevocably set aside in a bond service fund, sinking fund, redemption fund, or other trust fund created to insure the payment or redemption thereof.

The Council is authorized to take any and all steps necessary or convenient for the authorization, issuance and sale of revenue bonds under this section and for the payment or redemption thereof.

Subsection 8.

Sewer service charges

Subdivision A. The Council may at any time establish and provide for the collection of sewer service charges and must establish and provide for the collection of such sewer service charges as are required by any ordinance providing for the issuance of revenue bonds under this section. Sewer service charges shall not be deemed taxes or assessments within the meaning of any section of this charter and shall not be enforceable by any lien upon real property. 'Sewer service charges' may be collected with water rates, fees or charges (herein called 'water rates') of The City of San Diego The Council may provide and covenant that where the city furnishes water to the property receiving sewer service the sewer service charges shall be collected with and not separately from the water rates of said city and that all charges shall be billed upon the same bill and collected as one item and may also provide and covenant that in the event of nonpayment of any part of the bill for the sewer service charge and water rate, the water service shall be shut off within such time as may be or shall have been prescribed by the Council. Delinquent sewer service charges may be collected by suit in any court of

competent jurisdiction. The Council may provide additional methods of collecting sewer service charges. The Council also may prescribe and establish penalities for the nonpayment of sewer service charges. The Council may take any and all steps to establish and provide for the collection of sewer service charges.

Sewer Revenue Fund

Subdivision B. All revenues shall be paid into the Sewer Revenue Fund and shall be used only for the following purposes: (1) paying the cost of maintenance and operation of the sewer system; (2) paying principal and interest (including payments into any reserve or sinking fund) and premiums, if any, upon redemption, of sewer revenue bonds issued under this section and payable from said Sewer Revenue Fund; (3) paying all or any part of the cost and expense of extending, reconstructing or improving the sewer system or any part thereof or making additions to such system; (4) transferring from any surplus in the Sewer Revenue Fund to the Capital Outlays Fund, at one time or from time to time, all or any part of the sums expended from said Capital Outlays Fund after July 1, 1960, for any purpose for which revenue bonds may be issued under this section; (5) paying from any surplus in the Sewer Revenue Fund principal or interest, or both, or any part thereof, of general obligation bonds heretofore or hereafter issued for any purpose for which revenue bonds may be issued under this section.

Any ordinance providing for the issuance of revenue bonds hereunder may contain covenants defining, limiting or restricting the use of moneys in said Sewer Revenue Fund and said covenants shall control so long as any bonds issued under said ordinance are outstanding and unpaid within the meaning of this section.

Interest

Subdivision C. Interest (including interest on investments) on the Sewer Revenue Fund or on any fund created by or under the authority of this section shall be credited to the particular fund.

Subsection 9.

General obligation bonds

Subdivision A. The City may issue general obligation bonds for sewer purposes. General obligation bonds of the city may also be issued to refund any revenue bonds, principal, interest and premium, if any, issued under this section, if authorized by a two-thirds vote of the qualified electors of the city voting upon the question of the issuance thereof at an election called and held for that purpose. Such election may be called by ordinance in the same manner as any other special election is called under the charter of the city.

The city may expend funds derived from taxes for the acquisition and construction of sewers, and to the extent that may legally be done under this section may expend funds derived from taxes for the maintenance and operation of sewers, but no funds derived from taxes shall be considered revenues as in this section defined and no such funds derived from taxes shall be paid into the Sewer Revenue Fund and no revenue

bond issued under this section or any interest thereon shall be or become an obligation chargeable or enforceable against any of the tax revenues of the city.

Special assessments

Subdivision B. The city may levy special assessments for the acquisition and construction of sewers or sewer works and such assessments shall not be construed as 'revenues' as defined in this section and shall not be paid into the Sewer Revenue Fund.

Nothing in this section shall be construed to restrict the power of the city to consent to the formation or organization of special districts for the purpose of collection, transmission, treatment or disposal of sewage within portions of the city which are not at that time served by the city sewer system and which in the opinion of the Council cannot conveniently be served by or through the city sewer system. Before any such district is formed or organized which includes territory of the city therein the consent of the city to the inclusion therein of such territory shall be manifested by ordinance of the Council. The Council shall have authority to provide reasonable terms and conditions under which the portion of the city may be included in said district and upon which the district may operate its facilities within The City of San Diego.

Nothing in this section shall be construed as implying any doubt of the power of the city to establish and collect service charges for service by or for the use of sewers under its general charter powers.

Liberal construction

Subsection 10. This section and every part thereof shall be liberally construed to promote the objects thereof and to carry out its intents and purposes.

"PROPOSAL B

Repeal

To amend Articles VIII, XI, and XX, Sections 43, 44, 52, 71, 165 and 183 of the City Charter, adding new Sections 52a and 183a, and repealing Sections 179, 180, and 181, to read as follows:

EXEMPTIONS AND CLASSIFIED SERVICE

Civil Service: Exemptions

Sec. 43. The officers and employees of the city who shall be exempt from the rules and regulations of the Civil Service Board shall include:

(a) Officers directly elected by the people;
(b) Members of advisory boards and commissions;
(c) The City Manager, and any person or persons employed as Assistant City Manager and Confidential Secretary;
(d) Those officials of the City government responsible for the operation of a city department or division, along with those persons who may be employed as assistants to such officials; and
(e) Those employees occupying positions in classes which are filled only on a part-time, seasonal, or limited term basis.

The City Council shall, by resolution, designate those classes of positions, employees in which shall be considered exempt from the rules and regulations of the Civil Service Board, in accordance with the intent and meaning of this section.

Any regular full-time employee who, on the effective date of this amendment, occupies a position in any class heretofore considered exempt, who has occupied such position for at least six (6) months, and which may be placed in the classified service by the operation of these provisions, shall be 'blanketed-in' to the classified service with permanent status, and thereafter be subject to all rules and regulations of the Civil Service Board.

EXAMINATIONS

Examinations

Sec. 44. For the purpose of establishing eligible registers from which positions in the classified service shall be filled, it shall be the duty of the Civil Service Board to conduct competitive examinations open to all persons who lawfully may be appointed to any position within the class for which such examinations are held, and who meet the minimum qualifications requisite to the performance of the duties of such position as established by the Civil Service Board.

Positions in the higher classes shall be filled, as far as is practicable and consistent with the best interests of the service, by promotion following competitive tests of employees in lower classes holding permanent civil service status. The Civil Service Board shall, by rule, establish regulations for promotional eligibility, except that in the Police and Fire Departments, all higher uniform positions in the classified service shall be filled from eligible registers established as a result of promotional examination only, and no such member shall be eligible for promotion to a higher class until he has served at least three (3) years in such department and that in subsequent promotions the member must have held the rank from which he is promoted for at least two (2) years.

All officers or employees shall be chosen or promoted, whenever a list of eligibles is furnished by the Civil Service Board, from the three candidates standing highest on the list.

SCALE OF WAGES

Review of salary ranges

Sec. 52. The Civil Service Board shall, at least once yearly, review the existing compensation plan and make recommendations to the City Council on salary ranges to apply to each class of position in the municipal service. Salary ranges so recommended shall be based on the principle that like salaries shall be paid for comparable duties and responsibilities, and in making such recommendations, the Board shall take into consideration the generally prevailing rates for such service in other California cities of comparable size, other public employment and private business in the Sacramento Metropolitan Area, and the general trend of salary levels.

After considering the recommendation of the Civil Service Board, it shall be the duty and responsibility of the City Council to determine by adoption of an ordinance, the salary ranges to apply for all classes of positions in the municipal service.

POWER AND DUTIES OF THE CIVIL SERVICE BOARD

Duties of the board

Sec. 52a. It shall be the duty of the Civil Service Board to:

(1) Adopt and maintain the classification plan. The Classification plan shall consist of classes of positions in the classified service defined by class specifications, including title, a description of duties and responsibilities and a statement of employment standards to be required of applicants for employment in each class. From time to time as it deems necessary, the Board may establish additional classes and divide, combine, alter, or abolish existing classes.

Each position in the classified service shall be allocated by the Personnel Officer to one of the classes established by the plan; provided that whenever a new or additional position is authorized by the City Manager, the Personnel Officer shall allocate each proposed position to an appropriate existing class or recommend the creation of a new class to the Civil Service Board.

When action is taken by the Board to establish additional classes or to divide, combine, alter, or abolish existing classes, or upon the reallocation of positions by the Personnel Officer, the Civil Service Board shall determine the manner in which the incumbents of positions affected shall attain status.

(2) Formulate rules and regulations covering the examination of applicants for positions in the classified service and the promotion of employees in the classified service, including rules for preparation of examination announcement notices, accepting applications, administering examinations, eligibility for promotion, seniority credits, establishing eligible registers and reinstatement lists, certification, appointment, probationary period, and any other matter necessary to the recruitment and selection of employees.

(3) Hear appeals, upon written request from any employee in any city department in the classified service, who may be

suspended without pay, demoted, dismissed, or otherwise disciplined by the appointing authority. The Board shall define the manner, time and place by which such appeal shall be heard and the judgment of the Board shall be final; provided, that the provisions of this section providing for appeal to the Civil Service Board in the case of a dismissal shall not apply when an employee is dismissed in accordance with the provisions of Section 178 of this Charter.

(4) Hear appeals, upon written request, from any employee in any city department in the classified service, with reference to the allocation or re-allocation of his position by the Personnel Officer.

(5) Prepare annual wage and salary surveys, and make recommendations to the City Council on salary ranges to apply to each class of position in the municipal service, in accordance with the provisions of Section 52 of this Charter; provide, by rule, for the interpretation and administration of ordinances affecting personnel, when specifically directed to do so by the City Council; and to provide, by rule, for the regulation of any other matter pertaining to personnel administration not in contradiction with the provisions of this section.

Officers' and Employees' General Qualifications

Qualification for employment

Sec. 165. Every officer or employee of the City of Sacramento must be a citizen of the United States. In addition to meeting those qualifications which may be established by the Civil Service Board for any examination, all applicants for positions in the classified service must have resided within the City of Sacramento for at least one (1) year immediately preceding the date of the examination, except that the Civil Service Board shall have the authority to waive this residence requirement for any examination when a shortage of qualified applicants exists.

Any person whose residence is outside the city limits and (a) who is successful in a civil service examination, or (b) who is appointed to an exempt position, shall be required to move his residence within the city limits within a period of one (1) year after appointment. Except as hereinbefore provided, all persons regularly employed by the city shall at all times reside within the city.

The requirement of one year of residence within the city limits shall not apply to those persons appointed to (a) positions in classes which are filled only on a part-time, seasonal, or limited-term basis, or (b) to positions in the classified service of a temporary, seasonal, part-time, relief or limited-term nature. Such positions shall be filled, however, by persons whose bona fide residence is within the city limits at time of appointment.

VACATIONS

Vacation allowances

Sec. 183. All officers and employees of the City of Sacramento shall be entitled to vacation allowances on the following basis:

(a) During the first calendar year of employment, and after the completion of at least six (6) months of service, employees shall be entitled to a vacation allowance on a pro rata basis of ten (10) working days per year for the number of months worked prior to the beginning of the first calendar year;

(b) Upon the completion of one calendar year and continuing thereafter through the fifth calendar year of employment, all employees shall be entitled to a vacation allowance of ten (10) working days per year;

(c) Upon the completion of five calendar years and continuing thereafter through the fifteenth calendar year of employment, all employees shall be entitled to a vacation allowance of fifteen (15) working days per year;

(d) Upon the completion of fifteen calendar years of employment and continuing thereafter, all employees shall be entitled to a vacation allowance of twenty (20) working days per year; provided, further, that such employees so qualified to receive twenty (20) working days of yearly vacation allowance shall have the option, to be exercised not later than the first day of December in each year, to receive pro rata payment for five (5) days of such vacation in lieu of using such five (5) days for vacation purposes.

For the purpose of this section, the first calendar year shall be considered to be the period between January 1 and December 31 next following the employee's original date of appointment. For the purpose of computing vacation time, each employee shall be considered to work not more than five (5) days each week. Vacation time shall not be earned when an employee is absent from duty without pay, except that there shall be no reduction in the yearly vacation allowance if such time absent from duty without pay does not exceed ten (10) days per year.

Upon termination of employment for any reason, after completion of at least six (6) months of service, an employee entitled to receive vacation allowance shall be paid in a lump sum for all unused accumulated vacation time. All vacations shall be taken at such time as the executive head of the department in which such officer or employee may be serving shall direct.

Any city employee in the Reserve Corps, Naval Reserve, Marine Corps, or National Guard of the United States Army and Navy, when called for his annual period of intensive training, shall be permitted to participate therein and shall not suffer loss of pay through such absence nor shall such period devoted to said training be construed as the annual vacation of such employee but said employee shall have in

addition thereto, the usual vacation period on pay alloted to city employees.

The Civil Service Board shall by rule define and interpret the terms of this section and such definition and interpretation shall be conclusive, shall by rule provide for the regulation and accumulation of vacations; shall by rule define those categories of temporary employment in which employees shall not be entitled to earn vacation allowance; and shall by rule provide for the method of computation of accumulated or unused vacation allowance for employees leaving city service.

Any employee who, on the effective date of this amendment, may be entitled to receive a vacation allowance in excess of the preceding schedule, shall not suffer any reduction in vacation allowance.

LONGEVITY PAY

Sec. 183a. All regular full-time employees of the City of Sacramento, meeting such requirements as may be established by the City Council to carry out the provisions of this section, shall be entitled to receive longevity pay on the following basis: Longevity pay

(a) Upon completion of twenty (20) years of service, an employee shall receive yearly thereafter a lump sum of $100 in addition to his regular compensation; said amount to be paid during the month of July of each year next succeeding the completion of said twenty (20) years of service; and

(b) Upon completion of twenty-five (25) years of service, an employee shall receive yearly thereafter a lump sum of $200 in addition to his regular compensation and in addition to the longevity allowance described in paragraph (a) preceding, said amount to be paid during the month of July of each year next succeeding the completion of said twenty-five (25) years of service.

No deductions for retirement system contributions shall be made from any amount paid to an employee for longevity, and such longevity pay shall be excluded from an employee's earnings when computing retirement allowances.

The City Council shall, by ordinance, adopt rules and regulations for employee eligibility and administration of the provisions of this section.

That the provisions with reference to the length of City service in determining salaries, set forth in Section 71 are hereby repealed.

Sections 179, 180 and 181, Suspensions and Removals and Trials, are hereby repealed." Repeal

"(A) The definition 'Final compensation' contained in Section 10 of Article 6 of said Charter hereby is amended to read as follows:

" 'Final compensation' shall mean the highest average monthly compensation earnable by a member during any period of three consecutive years. In the calculation of 'final compensation', periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in the computation of final compensation. If a break in service exceeded six months in duration, only the first six months thereof and the compensation earnable during those six months shall be included in the computation of final compensation. For the purposes of this paragraph, absence from duty without compensation, because of disability retirement, is not a break in service. "Final compensation"

"Allowances which were effective, because of a member's retirement or death before retirement, after July 31, 1957 and prior to the effective date hereof shall be adjusted to the new basis provided herein.

"This amendment shall become effective and operative on the first day of July, 1960, or on the first day of the month next following its ratification by the legislature, whichever is first." Effective date

"(B) Section 12 of Article 6 of said Charter hereby is amended to read as follows:

Reduction of benefits

"Section 12. Reduction of Benefits. That portion of any allowance or other benefit which is provided by contributions of the City, payable by the Retirement System because of the death or retirement of any member, shall be reduced, in the manner fixed by the legislative body, by the amount of any pension, except social security payments or pensions paid on account of service in the military or naval forces of the United States, paid to or on account of the death of such member, from funds of the United States, State of California or any political subdivision thereof, on account of, or on the basis of service credited under the Retirement System.

Effective date

"This amendment shall become effective and operative on the first day of July, 1960, or on the first day of the month next following its ratification by the legislature, whichever is first."

"(C) The first two paragraphs of subsection (b) of Section 14 of Article 6 of said Charter hereby are amended to read as follows:

Retirement allowances

"(b) Upon retirement for service, a member shall receive a service retirement allowance equal to the same percentage of his final compensation for each year of service rendered by him in the Fire or Police Department, as the contributions of the member and the city are calculated to provide upon retirement for service at fifty-five years of age, or upon completion of twenty years of service at an age higher than fifty-five years, for each year of service as a member. Upon the death of the retired member, two-thirds of the retirement allowance shall be continued throughout life or until remarriage, to his surviving wife, to whom he was married at least one year prior to his retirement, provided said wife is of the same age as said member. If said surviving wife is of a greater or less age than said member, then such portion of the retirement allowance shall be continued to her throughout her life or until her remarriage, as the amount which would have been necessary at retirement to provide for the continuance after said member's death of two-thirds of the entire allowance to a surviving wife of the same age as the said member, will provide when applied at the time of retirement, according to tables and rates recommended by the actuary and approved by the Retirement Board to provide a retirement allowance to begin at the death of the retired member and continue throughout the life of the surviving wife If there be no such surviving wife or if she die or remarry before any unmarried child of such deceased member shall have attained the age of twenty-one years, then the allowance which would have been paid to her had she qualified and lived and not remarried, shall be paid to such child or children under said age collectively, to continue until every such child dies, attains said age or marries, provided that no child shall receive any allowance after attaining the age of twenty-one years or marriage. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of twenty-one by or marriage of a

child before the sum of the monthly payments made shall equal the sum of the retired member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike, provided that this sentence shall be of no effect if there be no wife at the time of retirement who qualified for the continuance of an allowance to her after the death of the said member.

"Upon retirement for disability resulting from injury or illness incurred in performance of duty, a member shall receive a disability retirement allowance of fifty per centum of his final compensation. Upon the death of the retired member, the retirement allowance shall be continued, throughout life or until remarriage, to the surviving wife, to whom he was married at least one year prior to his retirement. If there be no such surviving wife or if she die or remarry before any unmarried child of such deceased member shall have attained the age of twenty-one years, then the allowance shall be continued to such child or children under said age collectively, to continue until every such child dies, attains said age or marries, provided that no child shall receive any allowance after attaining the age of twenty-one years or marriage If payment of the allowance be stopped because of marriage of the widow or attainment of the age of twenty-one years by or marriage of a child before the sum of the monthly payments made shall equal the sum of the retired member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike, provided that this sentence shall be of no effect if there be no wife at the time of retirement who qualifies for the continuance of an allowance to her after the death of the said member.

CHAPTER 17

Senate Concurrent Resolution No. 2—Relative to adoption of the Joint Rules of the Senate and Assembly.

[Filed with Secretary of State January 23, 1961.]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the following rules be adopted as the Joint Rules for the 1961 Regular Session:

JOINT RULES OF THE SENATE AND ASSEMBLY

Committees and Committee Meetings

Standing Committees

1. Each house shall appoint such standing committees as the business of the house may require, the committees, the number of members and the manner of selection to be determined by the rules of each house.

Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

Effect of Adoption of Joint Rules

3.5. The adoption of the Joint Rules for any budget session or extraordinary session shall not be construed as modifying or rescinding the Joint Rules of the Senate and Assembly for any previous session, nor as affecting in any way the status or powers of the interim committees created by those rules.

Bills and Resolutions

Definition of Word Bill

4. Whenever the word "bill" is used in these rules, it shall include constitutional amendments, concurrent and joint resolutions.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the federal government.

Resolutions Treated as Bills

6. Constitutional amendments, concurrent and joint resolutions shall be treated in all respects as bills; except that they shall be given only one formal reading in each house and that they shall not be deemed bills within the meaning of Section 2 of Article IV of the Constitution, and shall not be referred to the Committee on Introduction of Bills, and except as provided in Rule 24. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

Preparation and Introduction of Bills

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Introduction of Bills

8.3. No bill shall be introduced after the 110th calendar day of a general session except as follows:

(a) A written notice of intention to introduce a bill, a copy of the bill and a digest prepared pursuant to Rule 8.5 shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and shall be transmitted to the Rules Committee of the appropriate house. The notice and digest shall be printed in the Journal of that house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for the introduction of the proposed bill.

(c) If the Rules Committee recommends that introduction of the proposed bill be permitted, the member may offer a resolution, without further reference thereof to committee, granting permission to introduce the bill. The adoption of the resolution granting such permission shall require an affirmative recorded vote of two-thirds of the elected members of the house in which the request is made.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Digest of Bills Introduced

8.5. No bill shall be introduced unless it is contained in a cover attached by the Legislative Counsel and unless it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law which are proposed by the bill. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction which does not comply with the foregoing requirements of this rule the Secretary or Chief Clerk shall return it to the member who presented it.

He shall deliver the corrected digest to the Secretary or the Chief Clerk, as the case may be. The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

It shall require the affirmative vote of not less than two of the Senate Members and two of the Assembly Members constituting the committee to agree upon a report. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill.

The report of a conference committee shall be in writing, and a copy of any amendments proposed in the report shall be placed on the desk of each member of the house before it is acted upon by the house.

When Conference Committee Report Is in Order

30. The presentation of the report of a committee on conference shall always be in order, except when a question of order or a motion to adjourn is pending, or during rollcall, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Measures

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency measure, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

CHAPTER 35

Assembly Concurrent Resolution No. 30—Relative to congratulating the Citizens' Advisory Commission on Education.

[Filed with Secretary of State February 6, 1961.]

WHEREAS, The Citizens' Advisory Commission on Education to the Joint Interim Committee on Education was authorized by the Legislature to examine the complete public education system of the State; and

WHEREAS, During the two years of this complex and monumental undertaking the commission and its subcommittees held over 50 public hearings, involving over 5,000 pages of testimony from more than 250 witnesses representing a cross section of thinking and experience in education from every part of the State; and

WHEREAS, The final report of the commission dated November 1, 1960, and transmitted to the Joint Interim Committee on Education, is composed essentially of suggestions calling for a number of positive steps to be taken within the structure of education in California, and that portion of the report entitled "The Objectives, Duties and Responsibilities of the California Public Schools" is particularly valuable for the consideration and future guidance of the people of the State; and

WHEREAS, The statement of "The Objectives, Duties and Responsibilities of the California Public Schools" is as follows:

"The California Public School System should provide the opportunity for every individual to become educated to the maximum of his ability. Human liberty is best guaranteed through representative government and democratic processes. Only an enlightened people can wisely exercise liberty and pursue happiness.

"The strength of our culture depends upon individuals who are competent to fulfill the essential occupations. It is an important function of the schools to develop the competence necessary to carry on the jobs of society—the jobs in the work world, in the cultural world, in the physical world, in engineering, in merchandising, in medicine, in law, in teaching and in all the other various areas.

"The primary objective of the public schools should be the fullest development within the capability of every individual to think and act effectively through the mastery, by each student, to the extent of his ability, of the skills, knowledge, thought and appreciation which embody the major achievements of civilization. They are mainly language, literature, art and music, history, geography, government, mathematics and natural science. The school, in cooperation with the family, church, community and other educative agencies seeks to develop individuals who think and act according to the highest ethical standards.

"We regard a competitive spirit, within a framework of mutual respect, cooperation and regard for the rights of others, as an integral part of our social structure; one which is just as desirable in the classroom as on the athletic field. The school should foster in each student the desire to excel or at least to do his best. Examinations, grading and reports are essential so that each student may know his own powers and limitations.

"Although 'life adjustment, social adaptations' and similar purposes are desirable they are not primary goals. The school has neither the chief responsibility nor the means for dealing with all aspects of personal development. It cannot perform its primary function adequately if its efforts are widely scattered.

"A major responsibility of the school, and one which is shared with other institutions of our society, is to develop good citizens. A free society makes wise, moral and informed choices based on knowledge, ideals and individual courage.

Schools in a free society must develop knowledge and capacity for thought in the individual citizen which will enable him to make wise and moral decisions and act upon them effectively.

"There are many educational institutions in our society and the school is one of the most important. From the standpoint of the importance of the individual, the shaping of his character, his personality and his way of life, the family is the most important educational institution. For many families the church is the second most important educational institution. In the combination of these three institutions, and in the life of the community, are developed the values, the ideals and the basic interests which are of paramount importance in our culture. Here are developed the basic values, ideals and loyalties of the individual, to the family, to the church, to the State, to the Country and to all mankind. Also in these institutions is developed an appreciation of, and a belief in, our traditional values—values that have grown out of the great ethical traditions inherent in our way of life. The schools should definitely share in meeting these responsibilities, not by attempting to create a new social order, but by augmenting and implementing the teachings and the ideals of home and church.

"The school cannot serve as a substitute for the influences of the home, church and community, nor should it be expected to do so, but it can supplement and complement them in developing ideals, loyalties and character.

"The schools carry out many functions, such as vaccination and driver education, simply because students are organized in a body. The criteria for meeting these needs should be an analysis as to whether the function is necessary and proper and whether it can be more effectively and economically accomplished elsewhere."

and

WHEREAS, The Citizens' Advisory Commission on Education deserves the warm thanks and appreciation of all the citizens of the State for a difficult task performed with enthusiasm, energy, ability and a fine dedication to public duty; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Citizens' Advisory Commission on Education is congratulated for its diligence to the problem assigned to it and especially commended for that portion of its final report entitled "The Objectives, Duties and Responsibilities of the California Public Schools" which will serve as a guide post to administrators of education at all levels in the State; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a suitably prepared copy of this resolution to Dr. William V. Lawlor, Chairman, Citizens Advisory Commission on Education, Mr. Fordyce Cowing, former chairman, and to the individual members of the commission.

CHAPTER 43

Assembly Concurrent Resolution No. 16—Relative to the encouragement of cities and counties to form public utility co-ordinating committees.

[Filed with Secretary of State February 20, 1961.]

WHEREAS, Continued growth of the population in California has made necessary the construction of new highways, the rerouting and widening of existing highways, and extensive redevelopment projects; and

WHEREAS, With this growth and development the need increases for co-ordination in the planning activities of local governmental agencies and public utilities whose facilities may be relocated to permit the construction; and

WHEREAS, The experience of cities and counties in California that have formed public utility co-ordinating committees demonstrate that such committees are beneficial to all parties concerned through the elimination of unnecessary relocation of public utility facilities occasioned by inadequate planning and co-ordination of activities; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the cities and counties of the

State of California are encouraged to and urged to form public utility co-ordinating committees composed of members of government, public utilities and other interested parties, to form a means for exchanging information as to proposed projects which might entail placement or replacement of utility facilities; and be it further

Resolved, That the cities and counties that have already established public utility co-ordinating committees are commended for their foresight and their efficient, imaginative, and feasible solution to one of the most vexing community problems.

CHAPTER 44

Assembly Joint Resolution No. 6—Relative to flood control practices and recreation on the Sacramento River.

[Filed with Secretary of State February 20, 1961.]

WHEREAS, Many of the channels and adjacent banks of the lower Sacramento River and the Delta are known for their beauty and therefore attract thousands of visitors who spend their leisure time in boating, hunting, fishing and other recreational activities; and

WHEREAS, Some of these channels and banks are leveed floodways of the Sacramento River Flood Control Project, a joint federal-state undertaking, and other such channels and banks have been leveed by private citizens or local reclamation districts to protect their low-lying lands against damaging floods; and

WHEREAS, In maintaining these leveed channels against the forces of current, wind, seepage and burrowing animals, efforts are made by maintaining agencies to promote growth of grasses and other low-growing vegetation and to eliminate trees and thick brush from levee sections, thus leaving relatively barren or even rubble-lined slopes instead of aesthetically attractive banks; and

WHEREAS, These maintenance practices are prescribed by federal law and regulations in the case of the Sacramento River Flood Control Project; and

WHEREAS, The Legislature desires to preserve and enhance the natural beauty of the channels and banks of the Delta wherever it can be done without endangering life and property through unsafe operation and maintenance of flood protective works, and recognizes that such preservation and enhancement will be increasingly important as the population of California grows and more of its citizens participate in water recreation; and

WHEREAS, The Chief of Engineers of the United States Army has recognized, in public statements, the importance of and need for recreational and wildlife habitat areas in the

Delta region and has expressed willingness to co-operate in co-ordinating the selection and development of such areas with flood control requirements governing the authorized Sacramento River Flood Control Projects; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California hereby requests the Director of Natural Resources, in co-operation with the Director of Water Resources, the Director of Fish and Game, and the State Reclamation Board, to undertake a survey and to make a report following public hearings to identify those channel reaches and banks of the lower Sacramento River and Delta which might be preserved and developed as recreational and wildlife habitat areas, including boat anchorages, which areas could be so preserved and developed without in any way impairing the flood control functioning of any channel or levee of the authorized Sacramento River Flood Control Project or of any channel or levee constructed or maintained by private persons or political subdivisions of the State; provided, that such survey and report, in identifying areas which could be preserved and developed for recreational and wildlife habitat purposes except for flood control requirements, shall describe alternative methods and the costs thereof of meeting flood control needs while at the same time permitting recreational uses, such survey and report to be completed not later than October 31, 1961; and be it further

Resolved, That the Legislature of the State of California respectfully requests the Secretary of the Army, through the Corps of Engineers, to co-operate in the preparation of such survey and report insofar as concerns sound flood control practices on levee and channel systems; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Director of Natural Resources, the Director of Water Resources, the Director of Fish and Game, the State Reclamation Board, and the Secretary of the Army.

WHEREAS, All social agencies and the great majority of the people of the nation are now deeply concerned about the problems of the aged, approximately 16,000,000 men and women over the age of 65 years; and

WHEREAS, Of this number, approximately 2,000,000 are those who served in the armed forces of the United States during the first World War, and whose present condition, generally, is below that of the average, as a direct result of their having served this country in World War I; and

WHEREAS, There has been no general pension granted to veterans of World War I by the government of the United States; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is urged to enact legislation granting pensions, adequate to meet the cost of living, to the veterans of World War I, so that none who served honorably in that war shall be compelled to live his remaining years in a condition of near poverty; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send copies of this resolution to the President of the United States, the President pro Tempore of the Senate, the Speaker of the House of Representatives, and each member of the California delegation in the Congress of the United States.

CHAPTER 57

Assembly Joint Resolution No. 10—Relative to federally insured home loans.

[Filed with Secretary of State March 6, 1961.]

WHEREAS, In recent months California's economy has been undergoing a gradual but persistent recession; and

WHEREAS, At the present time approximately 6 percent of the labor force in the State is unemployed; and

WHEREAS, On the other hand, the cost of constructing or acquiring a home has steadily increased to the point where it has become difficult if not impossible for thousands of Californians who are desperately in need of homes to obtain them because of the high down payment and high monthly payments required; and

WHEREAS, If the maximum period of federally insured home loans were increased to 40 years, it would greatly stimulate the building industry and enable many more families in the lower income groups to purchase homes; and

WHEREAS, The first five years of a mortgage are the critical years for young homebuyers because of additional expenses in connection with buying a home such as furniture and landscaping; and

WHEREAS, Forty-year mortgages with small monthly payments in the first 10 years to fit the increasing income of young homebuyers whose job potential will enable them to pay larger monthly payments during the life of the mortgage would aid

substantial numbers of Californians in obtaining a home and greatly stimulate the State's economy; and

WHEREAS, Such payments could be based upon a 40-year term for the five years, a 30-year term for the second five years, with the outstanding principal balance, at the end of the 10 years, to be amortized over a term of 20 years, thus being "stepped up" as the years go by and available income increases; and

WHEREAS, Further aid and encouragement for homebuyers could be secured by increasing loan limits and repayment periods for home improvement loans; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature respectfully requests Congress to take such steps as are necessary to increase to 40 years the maximum period for which home loans may be insured by the federal government and also to increase the limits and liberalize the terms for home improvement loans, in order that the young homebuyer and the low income homebuyer may acquire and maintain a home on reasonable terms; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, One of the finest areas in the world for glider competition is in Bishop, California, as is evidenced by the fact the world's record for altitude above sea level by a glider

was established in Bishop on December 30, 1950, an altitude of 42,100 feet; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature of the State of California extends its invitation to the officials of the International Glider Meet to hold this international event in this State in 1962; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit suitably prepared copies of this resolution to Mr. Lloyd M. Licher, the Executive Secretary of the Soaring Society of America, in Los Angeles, California.

CHAPTER 59

Senate Concurrent Resolution No. 24—Relative to memorial resolutions.

[Filed with Secretary of State March 6, 1961.]

Resolved by the Senate of the State of California, the Assembly thereof concurring, That Joint Rule 34.2 of the Joint Rules of the Senate and Assembly be amended to read:

34.2. Whenever the death of a member of the Legislature or a former member whose service was particularly notable, or any other person who has rendered exceptional service to society or has been unusually prominent in public life occurs, a concurrent resolution may be used as a memorial resolution in respect thereto. In all other instances a Senate resolution or a House resolution, or both, shall be used as a memorial resolution with respect to the deaths of other persons. CHAPTER 60

Senate Concurrent Resolution No. 28—Relative to proclaiming March as Easter Seal Month.

[Filed with Secretary of State March 6, 1961.]

WHEREAS, The California Society for Crippled Children and Adults, the Easter Seal agency in this State, was established in 1926 to meet a long-pressing need for organized citizen help for handicapped children; and

WHEREAS, Since then, the society has organized 49 local county chapters which provide a congeries of service in the fields of medicine, therapy, recreation and rehabilitation—all designed to speed the recovery and adjustment of the physically handicapped; and

WHEREAS, Last year, Easter Seal aid was given to more than 22,000 Californians who thereby moved closer to personal, physical and economic independence; and

WHEREAS, Easter Seal efforts have always been co-ordinated with services available to the handicapped from other agencies, whether tax-supported or voluntary; and

WHEREAS, This co-ordination or teamwork was evidenced early by the California society's part in the establishment of the State Bureau of Crippled Children Services and in the founding and expansion of special education programs for crippled children; and

WHEREAS, For all the joint efforts of the governmental and voluntary agencies concerned with our physically handicapped population, the harsh truths are that medical science has hardly begun to understand, much less control and cure, certain crippling diseases and disorders, and that thousands of crippled Californians are not getting the help they need because there is a shortage of rehabilitation centers, sheltered workshops and other treatment and training facilities; and

WHEREAS, Even though such needed facilities may be built, it will still be necessary to recruit and retain the professionally trained personnel to maintain them; and

WHEREAS, The public, including the medical profession, still needs to be educated about the rehabilitation potential of the handicapped—to counter the unfortunately still prevalent prejudice that a physically handicapped individual is beyond help; and

WHEREAS, John Ellis of Placentia, California, has been chosen as the State's 1961 Easter Seal Boy as a symbol of the courage and achievements of our handicapped children; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature in honor of the occasion of the visit to its chambers by John Ellis, hereby designates the period from March 2nd through April 2nd, 1961, as Easter Seal Month to alert the California public to the necessity during that month of contributing generously to the Easter Seal fund campaign in order that the physically handicapped in our midst may become self-sustaining members of our commonwealth; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a suitably prepared copy of this resolution to John Ellis and to the California Society for Crippled Children and Adults, Inc.

[Filed with Secretary of State March 9, 1961]

WHEREAS, Farms and agricultural workers are one of the foundation stones on which our nation rests; and

WHEREAS, The United States is a bulwark of the free world in the fight for peace and freedom and against communism, and without a strong farm economy this nation cannot maintain its position in the free world; and

WHEREAS, The health and welfare of our country depends in large part on the food produced by our farms, and without sufficient experienced and competent agricultural workers, our crops cannot be properly harvested and our farms cannot prosper and play their part in maintaining a healthy and strong America; and

WHEREAS, For the past several decades agricultural workers in many regions of the United States have not received an adequate proportion of the nation's agricultural earnings and, in some areas of the United States, such workers have had to subsist on an extremely low annual wage as compared with other agricultural workers; and

WHEREAS, California farmers must compete in the sale of farm products with other states having not only a more favorable freight rate, but which in addition pay wages to their farm workers far less than those paid in California and the West, thus putting California and western agriculture at a tremendous disadvantage in the highly competitive national market for farm products; and

WHEREAS, The federal government has not enacted a national minimum wage law that applies to the agricultural workers throughout the country, which wage would be of tremendous benefit to the national farm economy; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact a national minimum wage law for the agricultural workers of the nation; and be it further

WHEREAS, The latest increase in fares by the Los Angeles Metropolitan Transit Authority has caused a great hardship to those senior citizens who are unemployed and who live on a small, fixed income; and

WHEREAS, Higher fares may contribute to the immobilization of these senior citizens which would seriously affect their well-being and that of the entire community; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Los Angeles Metropolitan Transit Authority is respectfully requested to consider a plan to reduce fares for unemployed senior citizens over 65 years of age who use these transit facilities between the hours of 9:30 a.m. and 3:00 p.m. when traffic is less heavy than at peak hours; and be it further

[Filed with Secretary of State March 10, 1961.]

WHEREAS, Heavy unemployment now exists in the many areas of the State and particularly in the lumber industry; and

WHEREAS, The welfare of the State requires that all public agencies in the State do all within their power to reduce unemployment and alleviate the pockets of hardship that exist in particular localities and industries; and

WHEREAS, California hardwoods and other California lumber products are available at competitive costs and increased purchases thereof by public agencies or by contractors on public works projects would provide work for California citizens and help to reduce unemployment; and

WHEREAS, Appropriate action by state and local public agencies requiring the use of such California lumber products on public works projects would be in accord with the spirit of Chapter 4 (commencing with Section 4300) of Division 5 of Title 1 of the Government Code expressing a public policy preferring the use of California-made and American-made materials; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That all state and local public agencies are requested to assist in reducing unemployment in the lumber industry of the State by using, and requiring the use of, California hardwood and lumber products, if available, on all public works projects and by encouraging the citizens of the State to use such products whenever possible; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the Governor.

CHAPTER 72

Senate Concurrent Resolution No. 25—Relative to forest fires in California.

[Filed with Secretary of State March 10, 1961.]

WHEREAS, Forest fires in the State of California have caused severe losses in critical watersheds and in timber, recreational, and livestock range resources; and

WHEREAS, Such losses create an intolerable effect upon the natural resource economy, threaten the property and lives of persons and otherwise create heavy burdens of public and private expense in controlling said fires and in rehabilitating the burned-over areas; and

WHEREAS, There is evidence that forest fires spread very rapidly and without adequate means of control under adverse weather conditions where large areas of vegetative cover and fire-hazardous material exist without sufficient breaks to permit fire control forces to safely and adequately attack and stop the advance of such fires; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Director of Natural Resources and the State Forester of the State of California be and they are hereby requested to initiate an experimental and demonstrational project in a forested area of Northern California similar to the project now being conducted by the Division of Forestry jointly with other agencies of the state and federal government, on Southern California watershed areas, wherein the lands are blocked out in relatively small units by breaks in the natural vegetation, commonly called "fuel breaks," on which the fire hazard has been reduced, to the end that a practical means may be found for reducing the spread of forest fires over large areas; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the Director of Natural Resources and the State Forester of the State of California and to the Regional Forester of Region V and the Director of the Pacific Southwest Forest and Range Experiment Station, United States Forest Service.

CHAPTER 73

Senate Joint Resolution No. 13—Relative to mass public transportation in metropolitan areas.

[Filed with Secretary of State March 10, 1961]

WHEREAS, The federal government has historically pursued the policy of aiding and encouraging the development and maintenance of adequate public transportation throughout the country, including subsidies to railroads and airlines and financial grants for navigable rivers, harbors, interstate highways, farm-to-market roads, airports and other transportation facilities; and

WHEREAS, The federal government has been extremely active in encouraging the development of public highways for the use of motor vehicles through its Federal Aid Highway program and other financial grants for highway purposes; and

WHEREAS, The development of interstate and other highways has encouraged greater and greater dependence upon motor vehicles for public transportation purposes; and

WHEREAS, The growing dependence upon motor vehicles, especially private passenger automobiles, is contributing greatly to the problem of traffic congestion in metropolitan areas and other centers of population, which in turn has al-

lowed mass public transit and private commuter railroads to decline in quality and quantity of service rendered; and

WHEREAS, The problem of growing traffic congestion is expected to become worse as the population of people and motor vehicles increases and approaches a doubling of the present level; and

WHEREAS, The recognized solution to the growing traffic congestion problem is the establishment of modern systems of rail rapid transit operating on grade-separated roadbeds which will not interfere with the movement of vehicular traffic on streets and highways, and which will move vast numbers of people efficiently and economically in a manner fully competitive with the attraction and convenience of individual passenger automobiles; and

WHEREAS, It is now evident that urban areas alone cannot assume their many pressing responsibilities in the field of education, social welfare, public health, police protection, public works and many others, and still provide the vast sums of money needed to build modern systems of public transportation for the mass movement of people; and

WHEREAS, There is pending in Congress legislation to encourage the states and their political subdivisions to plan, acquire, and/or construct facilities for mass public transportation in metropolitan areas, including financial grants and low-interest loans for such purposes; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urges upon the Congress of the United States its favorable consideration of legislation providing federal financial and other assistance to the states and their political subdivisions for mass public transportation purposes in metropolitan areas; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 74

Senate Joint Resolution No. 15—Relating to predatory animals.

[Filed with Secretary of State March 10, 1961]

WHEREAS, In recent years there has been an alarming increase in the population of predatory animals in California; and

WHEREAS, This increase in predator population poses a serious threat, not only to agricultural and wildlife interest, but

to public health because certain of these predatory animals are a definite factor in rabies control; and

WHEREAS, Forty-six percent of the land of California is now owned by the federal government, and this land serves as a reservoir of predatory animals; and

WHEREAS, At the present time, the share of the costs borne by the federal government for the co-operative predator control program, estimated at 18 percent, is not proportionate to the percentage of land held by the federal government in California; and

WHEREAS, State and county agencies and grower organizations interested in the problem of predator control are contributing their fair share of the cost of the existing co-operative program; and

WHEREAS, Unless additional federal funds are made available, the rabies control problem will become more severe, and agricultural and wildlife interests will continue to experience increased losses; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is memorialized to take such steps as may be necessary to make available additional funds to the Bureau of Sport Fisheries and Wildlife of the United States Department of Interior for an expanded co-operative program of predatory animal control in California; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 75

Senate Joint Resolution No. 18—Relative to acquisition of federal surplus property by municipal and county governments.

[Filed with Secretary of State March 10, 1961]

WHEREAS, The federal government now possesses and will continue to acquire considerable quantities of property no longer needed for their original governmental purposes; and

WHEREAS, Much of this property, declared surplus, is stored and ultimately sold through the offices of the General Services Administration; and

WHEREAS, Certain rights and privileges to the acquisition of this surplus property are accorded to nonprofit organizations and to school jurisdictions; and

WHEREAS, The rights and privileges of cities and counties to acquire such surplus property are severely restricted and are generally limited to purposes of civil defense; and

WHEREAS, Much surplus property is purchased by private individuals for speculative purposes; and

WHEREAS, In effect, municipal and county jurisdictions do not have the same rights and privileges now enjoyed by school districts and by certain nonprofit groups; and

WHEREAS, All such surplus property has been purchased with public funds and paid for by the taxpayers; and

WHEREAS, It is generally deemed equitable that municipal and county governments should enjoy the same rights and privileges, insofar as surplus property is concerned, now accorded to school districts and to nonprofit organizations; and

WHEREAS, The rights and privileges of cities and counties should in all justice take precedence over the rights and privileges of private speculators; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to take appropriate administrative and legislative action which will grant to municipal and county governments the same rights and privileges now granted to school districts and other nonprofit organizations with respect to the acquisition of federal surplus property; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 76

Assembly Concurrent Resolution No. 10—Relative to issuing additional sets of motor vehicle license plates and tabs to Members of the Legislature.

[Filed with Secretary of State March 13, 1961.]

WHEREAS, One set of distinctively numbered motor vehicle license plates is presently issued by the Department of Motor Vehicles to each Member of the State Legislature; and

WHEREAS, Such distinctive license plates serve as a means of identifying these officers to the public, and are of great assistance to such representatives in the performance of their duties; and

WHEREAS, An additional set of distinctively numbered license plates and appropriate tabs should be furnished to each member of the Legislature who might need them to assist him in the performance of his duties; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That each Member of the Legislature who desires an additional set of distinctively numbered license plates may submit his request therefor to the Rules

Committee of the house of which he is a member; and be it further

Resolved, That the Department of Motor Vehicles is hereby requested to furnish upon request of a Member of the Legislature, approved by the Rules Committee of the house of which he is a member, an additional set of distinctively numbered license plates and appropriate tabs to each Member of the State Legislature; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Motor Vehicles.

CHAPTER 77

Senate Concurrent Resolution No. 27—Relative to a study of migrant family housing needs.

[Filed with Secretary of State March 15, 1961]

WHEREAS, Because of the farm labor shortage which existed during World War II, the California Legislature in 1943 created the Farm Production Council, giving its director, among other things, the authority to provide for "housing and sustenance of farm labor and for the facilities required by or in connection with the use of such labor"; and

WHEREAS, During the present peak harvest seasons there is sufficient housing for the single migrant farm worker; however, it appears that a shortage of family housing for migrant agricultural workers does exist; and

WHEREAS, The present status of the housing and sustenance facilities, which were established by the Farm Production Council is not known; and

WHEREAS, To date, no comprehensive survey has been made of the present status of Farm Production Council housing facilities nor of areas of migrant family housing needs and deficiencies; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Division of Housing of the Department of Industrial Relations is requested to immediately initiate such a survey and report its findings to the Legislature prior to January 1, 1962; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the Commission of Housing and the Chief of the Division of Housing, Department of Industrial Relations.

CHAPTER 78

Senate Joint Resolution No. 7—Relating to imports of livestock and livestock products.

[Filed with Secretary of State March 15, 1961]

WHEREAS, The sheep and cattle industry of the United States has for the three years past sought adequate protection from excessive imports from low-wage foreign countries; and

WHEREAS, Livestock production, employment and related business in the producing communities have been seriously curtailed and are threatened with further curtailment; and

WHEREAS, Definite relief for the livestock industry was unanimously recommended by the National Wool Growers Association and American National Cattlemen's Association, which recommendation was preceded by a thorough investigation made by the United States Department of Agriculture upon the request of the industry, the Congress and administration officials; and

WHEREAS, The Wool Act was provided for the sheep industry by the President and the Congress in lieu of the recommended tariff relief; and

WHEREAS, The effectiveness of the Wool Act has been seriously hampered by excessive importations of wool fabrics and lambs selling at prices below our costs of production, which has resulted in a progressive decline in sheep production in many areas; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to provide immediate relief under the terms of the escape or peril point clause of the Trade Agreements Act or by establishing import quotas or any other appropriate action to relieve the stock raising industry of the United States from the vast and ever increasing quantities of meat and meat products, hides, wool, woolens and other related products flooding our domestic markets; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of the resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 79

Assembly Concurrent Resolution No. 25—Relative to the historical resources of California.

[Filed with Secretary of State March 15, 1961.]

WHEREAS, In spite of the increasing awareness of and interest in California history as shown by the more than one

hundred local and regional historical societies throughout the State, the study of history on the physical sites of its occurrence is facing a real crisis and a great many significant and interesting sites that form a vital cultural link with the past are rapidly disappearing; and

WHEREAS, This process is a natural deterioration and is due to neglect, indifference and the lack of a statewide co-ordinated plan for preservation, restoration, and interpretation of our California heritage. As new subdivisions are built, highways constructed, and conservation projects developed, these historical relics and sites are being razed, destroyed, and forgotten and these important cultural links, some possessing intrinsic values, are being lost; and

WHEREAS, This destructive process is occurring at a time when the population of the State is growing at the rate of half a million a year and many of the thousands of new residents of the State are unaware of the significant and colorful history of the State; and

WHEREAS, The education of the youth of the State, as well as of the new resident, in the heritage of our State, the importance of which cannot be overestimated, can be most effectively accomplished by the preservation and marking of representative sites, buildings, factories, mines, ghost towns, and old sections of major communities, and similar landmarks; and

WHEREAS, This program of preservation, restoration, and interpretation through an adequate rebuilding, restoring, and marking program will add a great deal to the recreational attractions of the State and will help to bring thousands of tourists to the State each year which will add millions of dollars to the economy of the State; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Division of Beaches and Parks of the Department of Natural Resources is directed to undertake a study of the historical resources of the State and formulate a long-range plan for the preservation, restoration, and interpretation of the historical values and resources of the State; and be it further

Resolved, As follows:

1. That this study and plan be carried out in co-operation with the Conference of California Historical Societies and other historically interested organizations;

2. That this study shall first be directed toward making an inventory of historical resources in the State, marked and unmarked, such as Indian remains, ghost towns, historic sites or shrines, buildings, bridges, mines, churches, etc., based on a careful definition of what is an historic location;

3. That a plan for the preservation as well as an analysis of the economic feasibility of the acquisition and development of these historical resources for the greatest public good and general benefit of the economy of the State shall be made;

4. That a long-range plan shall be formulated for a coordinated statewide program of acquisition and preservation of historical sites which will not only give consideration to the different geographical regions of the State but will be representative of the historical periods in California history, such as the Indian, the Spanish, the English, the Russian, the Mexican, and American periods;

5. That this plan shall include provisions to encourage the participation of private enterprise, and local and intercounty governments to acquire or operate authentic historical examples for the public education and enjoyment;

6. That emphasis shall be given in this study to putting appropriate historical buildings to uses other than as museums through their use as coffeeshops, restaurants, gift shops, playhouses, headquarters for community nonprofit organizations, and other such uses which would attract visitors, provide revenue to the State and not be incompatible with the historical significance of such buildings; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to prepare and transmit copies of this resolution to the Director of Natural Resources and the Chief of the Division of Beaches and Parks of the Department of Natural Resources.

CHAPTER 80

Assembly Joint Resolution No 9—Relative to beach erosion and flood damage in Ventura County.

[Filed with Secretary of State March 15, 1961]

WHEREAS, The shoreline area along the Pacific Ocean in Ventura County has, since the early 1920's, suffered from problems of beach erosion and flood damage caused by high tides and high wave action; and

WHEREAS, This condition exists primarily in the Pierpont Beach area and affects not only the San Buenaventura Beach State Park, but also a substantial residential area adjoining the State Beach Park; and

WHEREAS, Within the past few weeks, extremely high tides and high wave action have presented a serious threat to public and private property in this area, and if such condition continues it will result in major damage to public and private property; and

WHEREAS, Such property damage will not only directly affect the private property owners in this area, but also will result in a high loss of tax revenues to the city, county, and State; and

WHEREAS, The federal government, acting through the Corps of Engineers of the United States Army, has assumed leadership and responsibility in carrying on beach erosion control activities, in co-operation with state and local authorities; and

WHEREAS, The Corps of Engineers, in 1951 and 1952, conducted a study of shoreline conditions along the beach at Ventura (published in House Documents No. 29, 83d Congress, First Session, Appendix 1) and, among other things, recommended construction of a stone and steel sheet piling groin along the beach in front of the San Buenaventura Beach State Park to trap sand and build up the beach; and

WHEREAS, While the above recommendation would serve to alleviate conditions along the shore in front of the State Beach Park, it would aggravate the condition in the residential area adjoining the State Beach Park, according to engineering opinion; and

WHEREAS, In view of the imminent threat to both public and private property from current high tide and high wave action along the entire beach area, it is urgent that the previous study and recommendations by the Corps of Engineers be extended to cover the Pierpont Beach area adjacent to the San Buenaventura Beach State Park, and that immediate remedial action be taken to prevent beach erosion and flood damage in this area; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact legislation appropriating the necessary funds so that the Corps of Engineers may immediately extend their study of shoreline conditions along the Pierpont Beach area in Ventura County to include the residential area adjacent to the San Buenaventura Beach State Park and take remedial action to prevent beach erosion and flood damage in the entire affected area; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of the resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Chief of Engineers of the Corps of Engineers.

CHAPTER 81

Assembly Concurrent Resolution No. 57—Relative to hardwood research by the University of California.

[Filed with Secretary of State March 16, 1961.]

WHEREAS, Over the past five years the University of California, at its forest products laboratory, has carried on considerable research on the properties of native California hardwoods, research which has dealt primarily with the basic strength properties of these woods together with the development of information on the drying of these woods; and

WHEREAS, This work has been carried on using funds provided through the normal university budget for the laboratory together with some grant-in-aid and contract funds from industry, private individuals, and the State Division of Forestry; and

WHEREAS, A considerable job remains yet to be done on the hardwood research with one of the major problems in utilizing these woods being that of successfully drying them to a proper moisture content for commercial uses; and

WHEREAS, These woods are also potential sources of pulp for certain types of paper products and very little is known about the pulping characteristics and the quality of paper which these woods will make; and

WHEREAS, Another important research aspect is the chemistry of the barks and the wood itself in these species, and a solvent drying process on which there has been done preliminary work offers real promise in successfully drying tan oak as well as making it possible to recover tannins from bark and wood much more cheaply than heretofore possible; and

WHEREAS, Other studies which are extremely important in developing uses of these woods include machining, finishing, and gluing; and

WHEREAS, Past utilization attempts have failed largely due to lack of the knowledge which can only be acquired by these studies, and utilization of California hardwoods would make it possible for these woods to move into the home construction, pulping, and chemical industries; and

WHEREAS, All of the work mentioned above could, over a long period, be accomplished through the use of the small amount of regular budget funds now budgeted to the university; however, it appears very desirable to accelerate this research work because of the interest by industry in utilizing this material; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the University of California is commended for the excellent work it has done thus far in studies on the characteristics and uses of hardwoods and is urged to accelerate its program of hardwood research just as rapidly as available funds will permit; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to send copies of this resolution to the Regents of the University of California and to Dr. Clark Kerr, President of the University of California.

CHAPTER 82

Assembly Joint Resolution No. 12—Relative to fishing in the Delta-Mendota Canal.

[Filed with Secretary of State March 20, 1961]

WHEREAS, With the tremendous expansion of population in California, it is of the utmost importance to the health and welfare of the people of this State that every available source of recreation potential be developed; and

WHEREAS, Fishing is one of the major types of recreation available to and enjoyed by a vast segment of the population of this State; and

WHEREAS, There is in the San Joaquin Valley an insufficient number of locations at which this form of recreation can be enjoyed; and

WHEREAS, The Delta-Mendota Canal, which is a part of the Federal Central Valley Project, traverses a considerable portion of the San Joaquin Valley; and

WHEREAS, With proper safeguards and with relatively minor expenditures, portions of the Delta-Mendota Canal could be stocked with fish and opened to the public for fishing without jeopardizing the operation and maintenance of the canal by the Bureau of Reclamation for water transportation purposes; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President of the United States and the Secretary of the Interior to take whatever steps may be necessary, in co-operation with appropriate agencies of the State of California, to make portions of the Delta-Mendota Canal available for public fishing; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President of the United States and to the Secretary of the Interior.

CHAPTER 83

Assembly Joint Resolution No. 18—Relative to the importation of mink.

[Filed with Secretary of State March 20, 1961]

WHEREAS, The mink farmers of California are a substantial and permanent part of California's business economy and a source of considerable income to the State and to its citizens; and

WHEREAS, This important segment of our economy is being threatened by the fact that over the years there has been an ever increasing rise in the importation of mink skins from foreign countries to the point that these imports are far exceeding exports; and

WHEREAS, Since these imports are often from areas of depressed economic conditions they can be sold at a price far below cost of production for California mink farmers; and

WHEREAS, Some of these mink skins being imported in competition with locally produced mink skins are coming, in spite of restrictions imposed by law, from China and Russia, resulting not only in slave labor competition with domestic production, but also results in a poor quality being imported; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Congress of the United States is respectfully requested to take action which will bring about a balance between imports and exports in the mink industry before domestic mink farmers are forced from the business; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 84

Assembly Concurrent Resolution No. 69—Relative to the passing of former Senator Ben Hulse.

[Filed with Secretary of State March 21, 1961]

WHEREAS, The Members of the Legislature were deeply grieved to learn of the passing of former Senator Ben Hulse on March 2, 1961; and

WHEREAS, Ben Hulse, who served as President pro Tempore of the Senate and for several sessions as Chairman of the Senate Finance Committee, was regarded as one of the most conscientious and best informed men on finances to ever serve in the Legislature; and

WHEREAS, Ben Hulse settled in the Imperial Valley in the early 1900s, and was an important force in bringing water and progress to that portion of the State; and

WHEREAS, Ben Hulse began his long career in politics, of more than 30 years' duration, as an appointee to the Imperial County Board of Supervisors; and

WHEREAS, He was first elected to the Senate in 1932, serving one four-year term, and was subsequently elected to that house in 1944, serving for three consecutive terms and until his retirement in 1956; and

WHEREAS, Senator Hulse won fame for his steadfast effort in placing the government of the State on a sound and efficient fiscal basis, and was ever a foe of wasteful and unnecessary spending; and

WHEREAS, Ben Hulse will always be remembered for his devotion and services in behalf of this State and for the methods espoused by him in bringing about an efficient and fiscally sound state government; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Members of the Legislature take this means to express their sorrow at the passing of former Senator Ben Hulse, and to extend to his widow their condolences at his passing; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a suitably prepared copy of this resolution to Mrs. Laura Hulse, his widow.

CHAPTER 85

Assembly Joint Resolution No. 19—Relative to requesting construction of the East Side Canal in the eastern San Joaquin Valley.

[Filed with Secretary of State March 21, 1961]

WHEREAS, The lower San Joaquin Valley is one of the most prosperous and productive agricultural areas of the world; and

WHEREAS, The east-central area of this valley had a gross farm income in 1959 in excess of one billion dollars; and

WHEREAS, More than one-fourth of all the ground water pumped for irrigation in the United States is taken from the San Joaquin Valley; and

WHEREAS, In the east-central part of the San Joaquin Valley the long-term water supply has not been in balance with the demand; and

WHEREAS, The imbalance in this area is characterized by increasing fluctuations in the water table and alarming overdrafts of the underground reservoir of water; and

WHEREAS, The continued growth, development and prosperity of the San Joaquin Valley is of utmost importance to the total economy of California; and

WHEREAS, Such continued growth, development and prosperity is contingent upon supplies of supplemental surface water which are adequate to bring the pumping of underground water into balance with underground water replenishment; and

WHEREAS, Hydrographs made from 1921 to 1958 show a reversal of the downward trends in the water table levels in overdraft areas of the State where waters of the Central Valley Project have been delivered; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States and the Secretary of the Interior are respectfully requested to take immediate steps to implement the past decade of study by the Bureau of Reclamation, entitled "East Side Investigation," by constructing, as an extension of the Central Valley Project, a canal along the east side of the San Joaquin Valley to sup-

plement the inadequate water supplies of this vital area; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Secretary of the Interior, to the Chief of the Bureau of Reclamation, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 86

Assembly Concurrent Resolution No. 63—Relating to St. Patrick's Day.

[Filed with Secretary of State March 23, 1961]

WHEREAS, On this 17th day of March, 1961, throughout the entire world, those of Irish birth and those of Irish heritage, and, yes, even those of other races, celebrate St. Patrick's Day in honor of a scholar, a servant of God, and a man whose memory survives in American minds as a gracious symbol of understanding; and

WHEREAS, Everywhere beneath the sun—under blue vault of heaven—whether under the humble and contented roof of the home of the weary exile, or on the sea, or in the marts of trade and industry, or in any other place where Irish blood pulses in the veins of a generous Celt, the memory of this great saint gives rise to thoughts of a far-off yesterday; and

WHEREAS, On this St. Patrick's Day, 1961, we again commemorate the life of an ancient race and an illustrious saint who dedicated himself to tolerance, faith in God, and preaching of Christianity to the peoples of Ireland in the early days of paganism; and

WHEREAS, While we honor the patron saint of Ireland, it is the hope of all who hold St. Patrick as a happy symbol of American tolerance that the men and women of this nation and those of Irish heritage, whatever their creed or race or color, shall remain before the world as sons and daughters of one national family; and

WHEREAS, The Legislature of the State of California thus deems it fitting and proper that the patron saint of Ireland be so honored and revered; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That this body, along with the citizens of the State of California, of America, and of the world, pay homage during its daily deliberation to that great scholar and man of God, St. Patrick, the patron saint of Ireland; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a suitably prepared copy of this resolution to Mr. J. J. Mulvihill, President, San Francisco United

Irish Societies; Mr. Charles F. Horan, President, Los Angeles United Irish Society; Mr. Clarence Derr, President of Ancient Order of Hibernians of Sacramento, and Mr. George R. Reilly, Chairman, St. Patrick's Day Parade, San Francisco.

CHAPTER 87

Senate Joint Resolution No. 19—Relative to federal aid to schools.

[Filed with Secretary of State March 23, 1961]

WHEREAS, Amendments to Public Law 874 and Public Law 815 of the 81st Congress, which established programs of federal aid to school districts which have suffered financial burdens as the result of federal activities, are being considered by Congress; and

WHEREAS, These programs assist districts in which local revenues for schools have been reduced due to the acquisition of real property by the United States, districts which provide education for children living on federal property or whose parents are employed on federal property, and districts experiencing a sudden and substantial increase in school attendance because of federal activities; and

WHEREAS, These public laws have been of extreme importance to local school districts whose attendance has been greatly increased by the children of military personnel; and

WHEREAS, There are many areas in California, as well as in other parts of the country, where an adequate school program will be seriously jeopardized if Congress fails to continue the payment of entitlement with respect to "B" category children—those who either reside on federal property or reside with a parent employed on federal property; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to continue the vitally needed programs of assistance to public education in Public Law 874 and Public Law 815 by amending the provisions of Titles II and III of HR4970 and S1021 to include entitlement for "B" category children as provided in present law for the 1960-61 fiscal year; and be it further

Resolved, That the President and Congress take action at the earliest possible time on legislation restoring full entitlement for "B" category children so that the impending budget problem faced by California's federally impacted school districts may be eliminated; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California to the Congress of the United States.

CHAPTER 90

Assembly Joint Resolution No 14—Relative to international traffic in narcotics.

[Filed with Secretary of State March 23, 1961]

WHEREAS, It has been reliably estimated that over 70 percent of the heroin that reaches our State is derived from opium poppy fields in Mexico; and

WHEREAS, It has been reliably estimated that over 90 percent of the marijuana found in this State is illegally smuggled across the border from Mexico; and

WHEREAS, The enforcement problem at the border is aggravated by the large amount of traffic that crosses the border, the annual traffic across the United States-Mexico border having been as high as in excess of six million vehicles and nearly eighteen million passengers and in excess of five million pedestrians; and

WHEREAS, The control of the smuggling of narcotics and the negotiating of co-operative agreements with friendly nations to eliminate the source of narcotics is a federal responsibility; and

WHEREAS, One of the acknowledged requirements for the solution of narcotics problems is drying up the source of narcotics; and

WHEREAS, Measures which would require closer surveillance of traffic across the border would also aid enforcement of the narcotics laws, and such measures can effectively be taken only by the government of the United States; now, therefore, be it

CHAPTER 93

Senate Joint Resolution No. 30—Relating to the centennial of modern California viticulture.

[Filed with Secretary of State March 30, 1961]

WHEREAS, The Legislature of California on April 1, 1861, enacted a joint resolution requesting the then Governor John G. Downey to appoint a commission to consider "Ways and means best adapted to promote the improvement and culture of the grapevine in California"; and

WHEREAS, This farsighted action resulted in the appointment of Colonel Agoston Haraszthy to the commission and his subsequent voyage to Europe, a mission from which he returned with more than 100,000 cuttings of about 300 varieties of grapes, all choice wine types; and

WHEREAS, The foresight and initiative exhibited by Colonel Haraszthy was typical of the man, who also was among the first to advocate a state college of agriculture and who developed, at his "Buena Vista" ranch at Sonoma, one of the world's finest wineries which still is in existence; and

WHEREAS, The grape cuttings he supplied led to an increase in vineyard acreage in California from an estimated 7,000 acres in 1860 to more than 450,000 acres at present, to the end that Colonel Haraszthy was recognized as the "father" of modern California viticulture and this State is now the wine land of America; and

WHEREAS, Grapes and winegrowing constitute the State's leading fruit industry, with vineyards and winery property worth over $650 million, an annual return to farmers of $140 million, an annual grape crop of two and three-quarter million tons and an annual gross wine production of 160 million gallons; and

WHEREAS, The quality of the wine produced from descendants of the vines brought to California 100 years ago has become so widely and favorably known that this State now grows 85 percent of all wine produced and consumed in America, and

WHEREAS, Saturday, April 1, 1961, will mark the centennial of the legislative act which was instrumental in bringing about this result; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California does hereby urge the State's residents to join in honoring the memory of the pioneer California lawmakers responsible for this fruitful contribution to the State's economy and the welfare of its citizens, and to join in honoring the memory of Colonel Agoston Haraszthy as the father of modern California viticulture; and be it further

Resolved, That Saturday, April 1, 1961, be observed with appropriate ceremony as the centennial of modern California viticulture; and be it further

Resolved, That the Congress of the United States is hereby respectfully requested to join the State of California in recognition of this historic event; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and the Vice President of the United States, the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Governor of the State of California; two suitably prepared copies to the Wine Institute; and a suitably prepared copy to the owner of Buena Vista Vineyards, Sonoma, California.

CHAPTER 94

Senate Joint Resolution No. 8—Relative to the price of gold.

[Filed with Secretary of State March 30, 1961]

WHEREAS, The State of California is cognizant of the current national crisis in the amount of gold reserves; and

WHEREAS, An increase in our national gold reserve would alleviate this situation and provide sound stability to our economy; and

WHEREAS, The State of California, since the gold rush days of 1849, has been highly interested in the gold mining industry; and

WHEREAS, Practically all gold mines in this nation have been closed due to increased costs of operation and the low price of gold; and

WHEREAS, The gold mining industry has been so severely depressed in this and other states with heavy losses being sustained by persons in the industry, that it has almost been suppressed; and

WHEREAS, The State of California contains extensive land areas from which gold could profitably be extracted in the event of a gold price increase; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That it is the sense of the Legislature that the following program should be adopted by the United States:

1. A Treasury grant should be provided in the sum of $45 per ounce of newly mined domestic gold. This should be in addition to the present price of $35, thereby making a total price of $80.

2. The Treasury grant price of $45 should apply for a minimum term of 14 years with right of extension for special development.

3. To aid in early maximum production of gold without hindrance during the current gold crisis, all restrictions on mining on all government lands should be removed, including the restrictions in connection with power and military withdrawals (excepting those lands in withdrawn areas actually in use) and the general mining law of 1872 should again become applicable.

4. To further aid in an early resumption of gold mining, an examining board should be set up by Congress to assess the amount of damage and order payment to those mines that were closed by War Production Board Limiting Order L-208.

5. A short term of seven years should be allowed for amortization during this crisis period.

6. An additional depletion allowance should be provided for deep mines to compensate for increased cost of operation. The amount should be 5 percent for mines requiring hoisting or pumping 200-300 feet deep, 10 percent for mines 1,000 feet deep and 15 percent for deeper mines.

7. The gold so produced should be only newly mined domestic gold with supporting affidavits to verify. Violation should carry heavy penalties; and be it further

Resolved, That the Legislature of the State of California respectfully urges Congress to enact the above program into law; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a copy of this resolution to the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 95

Assembly Concurrent Resolution No. 19—Relative to approving continuation of studies by the California Law Revision Commission.

[Filed with Secretary of State March 30, 1961]

WHEREAS, Section 10335 of the Government Code provides that the commission shall file a report at each regular session of the Legislature which shall contain a calendar of topics selected by it for study, including a list of the studies in progress; and

WHEREAS, The commission has submitted to the Governor and the Legislature its 1961 report, containing a list of studies in progress, all of which the Legislature has heretofore approved for study; and

WHEREAS, Section 10335 of the Government Code provides that after the filing of its first report the commission shall confine its studies to those topics set forth in the calendar contained in its last preceding report which are thereafter approved for its study by concurrent resolution of the Legislature; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature approves for continued study by the California Law Revision Commission the heretofore approved topics on which studies are in progress as listed in the commission's 1961 report.

CHAPTER 96

Assembly Joint Resolution No 15—Relating to the importation of agricultural products.

[Filed with Secretary of State March 31, 1961]

WHEREAS, Increasing costs of production for American farmers and vintners pose a serious problem; and

WHEREAS, The importation of foreign wines and of low-cost agricultural products into the United States at times for certain crops creates competition which adversely affects the salability and price level of our own production; and

WHEREAS, This situation has been of special concern to fruit and vegetable growers and vintners in recent years because of increased imports of competitive fruits, vegetables and wines imported from areas where costs and standards are much below those in comparable domestic areas; and

WHEREAS, This import problem is particularly acute for vegetable growers in the Imperial Valley of California particularly as to tomatoes, cantaloupes, watermelons and squash and as to all producers of California wines and as to all California fruit producers; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is hereby respectfully requested to take immediate action to properly protect the domestic producers of fruits, vegetables and wines which action should include as minimum measures requirements that such imports be of the same quality, grade, sanitary and other standards applicable to similar domestic production and that seasonal or other import duties be established to insure a cost basis for such imports equal to comparable domestic production; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 101

Assembly Joint Resolution No. 3—Relative to memorializing the Congress of the United States to adopt an amendment to the Constitution of the United States either to substantially reform or abolish the Electoral College.

[Filed with Secretary of State April 10, 1961.]

WHEREAS, The present system of election of the President and the Vice President of the United States by means of the Electoral College and the Congress of the United States originated as a political compromise of the founding fathers at the Constitutional Convention of 1787 between those favoring a strong executive and those representing the large states on the one hand, and those favoring a weak executive and those representing the small states on the other hand; and

WHEREAS, Under the Electoral College system, the people do not know, when they vote, whether these high officers will be selected by the Electoral College or by the Congress of the United States and whether or not either of these groups will follow the will of the people as expressed in the popular vote for those offices; and

WHEREAS, In proportion to their populations, the small states are overrepresented in the Electoral College by reason of their two Senatorial votes and in the Congress of the United States by reason of the equal voting power of each state in this matter; and

WHEREAS, In proportion to their actual popular vote, the light-voting states are overrepresented in the Electoral College and the Congress of the United States, when voting on this matter; and

WHEREAS, Because of the unit rule method of voting in the Electoral College attention is concentrated in the campaigns for these high offices upon the largest states either to the practical exclusion of the remainder of the states or to their considerable disadvantage; and

WHEREAS, The representation of large states, such as California, in the Electoral College is changed only once every 10 years and the elections for these high offices occur every four years; and

WHEREAS, Neither the vote in the Electoral College nor that in the Congress of the United States is guaranteed to reflect exactly and accurately the popular vote for these high offices; and

WHEREAS, The selection among the candidates for these high offices is accomplished in both the Electoral College and the Congress of the United States not on the basis of who receives the most popular votes for these offices but rather where and in what states they receive their votes; and

WHEREAS, Each vote of voters voting throughout the nation, from California to Maine, should be equal in arithmetical value, except when voting for the members of bicameral legislative bodies, local, state and national; and

WHEREAS, In the years 1824, 1876 and 1888 candidates were chosen for the highest office in the land who did not obtain a plurality of the popular vote; and

WHEREAS, By means of a constitutional amendment, even the United States Senate has been elected by direct popular vote for over one-half century; and

WHEREAS, Election by direct popular vote is the rule rather than the exception throughout the United States in local, state and other federal elections; and

[Filed with Secretary of State April 12, 1961]

WHEREAS, It has come to the attention of the Legislature that the State Department of Education has burned 185,000 unused elementary textbooks which are "obsolete" because of the adoption of a new series of textbooks; and

WHEREAS, The Legislature has been informed that the United States Naval Base at Port Hueneme is ready, willing and anxious to pick up any and all such obsolete textbooks and distribute them to proper authorities in the Philippines, Okinawa, and other areas where a desperate need for such textbooks exists and where they would be greatly appreciated and used; and

WHEREAS, The disposition of such textbooks in this manner, as an alternative to burning them, would not only relieve the State of the expense of storing such obsolete textbooks but would greatly benefit the State, our nation, and areas abroad and would be a positive factor in increasing the respect abroad for the United States, now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, In the event that the Legislature provides for distribution of obsolete textbooks to places outside the United States, that the Superintendent of Public Instruction is directed to take such appropriate action as may be necessary to make available to the United States Naval Base in Port Hueneme and to any other such appropriate groups for distribution to proper authorities; and be it further

CHAPTER 108

Assembly Joint Resolution No. 24—Relative to chemical warfare.

[Filed with Secretary of State April 12, 1961]

WHEREAS, The present balance of power in the world today makes the threat of localized war greater than the threat of nuclear war; and

WHEREAS, There is a great possibility that the United States would suffer inestimable losses in such small conflicts; and

WHEREAS, In these small conflicts it is exceedingly difficult to strike the enemy armed forces without also severely harming the civilian population, which may well include people friendly to our side; and

WHEREAS, Such conflicts may involve many of the underdeveloped countries of the world and as a result require the United States to feed the population and rebuild the economy of these countries; and

WHEREAS, There is one form of warfare, known as chemical warfare, which can suppress a Communist advance without causing widespread loss of life and property; and

WHEREAS, The scientists working in the field of chemical warfare have developed amazing chemical agents which cause temporary incapacity without causing dangerous or lasting effects; and

WHEREAS, The United States is not a party to any major treaty which forbids the use of chemical warfare; and

WHEREAS, The American public and many of its elected representatives know little about the science of chemical warfare and propagandists have given the false impression that chemical warfare is vicious and inhuman; and

WHEREAS, Recent world events may lead to an urgent need for utilizing this type of military operation and there is a strong possibility that the United States has not developed the science of chemical warfare to its greatest capacity; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Congress of the United States be urged to give serious consideration to taking such steps as may be necessary to weld the Chemical Warfare Corps into an effective operating force in the use of nonlethal gases, and to inform the American people as to the true value and the humane nature of the use of chemical agents in limited warfare; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, the President pro Tempore of the Senate, the Secretary of Defense, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 109

Assembly Joint Resolution No. 32—Relative to air pollution.

[Filed with Secretary of State April 12, 1961.]

WHEREAS, California has made significant progress in its battle to conserve air as a natural resource; and

WHEREAS, The State has established the first standards in the United States for air quality and motor vehicle emissions which serve as guidelines for control programs; and

WHEREAS, Local air pollution control districts in 12 of the State's 58 counties embracing 79 percent of the State's total population have made appreciable progress in controlling pollution from stationary sources; and

WHEREAS, California became the first state to establish a program for the control of pollution from mobile sources, the motor vehicle, when it created the Motor Vehicle Pollution Control Board; and

WHEREAS, This progress in California has been made possible by the research and technical assistance of both private and governmental agencies on a fedeal, state and local level including the United States Public Health Service; and

WHEREAS, In spite of the progress made, air pollution in California continues to spread and become more intense in ever-widening areas of the State and its effects have now been detected in 26 of California's 58 counties; and

WHEREAS, Photochemical air pollution is not solely a California problem but a problem of national concern, as evidenced by the fact that its manifestations have been detected in the

District of Columbia and in 19 states including Arizona, California, Colorado, Connecticut, Delaware, Hawaii, Illinois, Indiana, Maryland, Massachusetts, Missouri, North Carolina, New Jersey, New York, Ohio, Pennsylvania, Utah, Washington, and West Virginia; and

WHEREAS, There is in California and the rest of the nation a continuing and increasing need for research and technical data on the causes and effects of air pollution and particularly on the causes and effects of motor-vehicle-created air pollution and its relation to total air pollution; now, therefore, be it

Resolved by the Assembly and Senate of the State of California jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to make provision for an increase in the air pollution research programs of the United States Public Health Service to provide the technical information necessary for the establishment, improvement and implementation of air quality and motor vehicle emission standards in California and other states, and specifically to provide technical and research resources to California to assist with the State's program for the control of motor-vehicle-created air pollution; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 110

Senate Joint Resolution No. 21—Relative to single plane direct service between Sacramento and Fresno.

[Filed with Secretary of State April 14, 1961]

WHEREAS, United Air Lines for many years has had the exclusive right to render single plane direct service between Sacramento and Fresno, without the necessity of a stopover at San Francisco International Airport; and

WHEREAS, Direct single plane service involves less travel time as well as less travel cost to air passengers traveling between Sacramento and Fresno; and

WHEREAS, Origin and destination passenger surveys of the Civil Aeronautics Board reveal that more passengers to and from Fresno are generated to and from Sacramento than any other city in California except Los Angeles and San Francisco; and

WHEREAS, United Air Lines has not, except for an inadequate effort from May, 1955 to September, 1957, attempted to properly exploit the true traffic potential available between Sacramento and Fresno; and

WHEREAS, The Hearing Examiner of the Civil Aeronautics Board in the current Pacific Southwest Local Service Case has recommended against any other airline receiving said direct single plane service between Sacramento and Fresno; and

WHEREAS, This recommendation if permitted to stand by the board will continue to prevent adequate exploitation and development of the obvious air transportation needs between Sacramento and Fresno unless United Air Lines reinstitutes such service prior to the board's decision in said case; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Civil Aeronautics Board to carefully review the initial decision of the examiner in the Pacific Southwest Local Service Case to the end that one of the local service carrier applicants in said case shall be authorized to render direct single plane service between Sacramento and Fresno without a stopover at San Francisco International Airport if United Air Lines has failed to reinstitute such service when said case is reviewed by the board; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to each member of the Civil Aeronautics Board.

CHAPTER 111

Senate Joint Resolution No. 23.—Relative to research projects in connection with the aid to dependent children program.

[Filed with Secretary of State April 14, 1961]

WHEREAS, Federal regulations now require that the aid to dependent children program be administered uniformly in all parts of the State; and

WHEREAS, This requirement prevents the states from engaging in research projects in selected areas to determine the most efficient method of administering the program; and

WHEREAS, There are many phases of the program in which improvements could be made if the states could establish pilot studies in specified areas suitable for the conduct of such studies; and

WHEREAS, An attempt on the part of any state to do this at the present time would give rise to a question of conformity with federal requirements, and might cause the state to lose federal funds otherwise available to it; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature hereby requests the United States Department of Health, Education, and Welfare to modify its regulations to permit the states to conduct research projects limited in their scope to specific areas, so

that a state will not jeopardize its continued eligibility for federal funds under the aid to dependent children program; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a suitably prepared copy of this resolution to Mr. Abraham Ribicoff, Secretary of Health, Education, and Welfare.

CHAPTER 112

Senate Joint Resolution No. 24—Relative to memorializing Congress to appropriate funds for research projects in connection with the aid to dependent children program.

[Filed with Secretary of State April 14, 1961.]

WHEREAS, The States would be enabled to restore to self-sufficiency many families now receiving assistance under the aid to dependent children program if more were known about the causes of dependency and means to reduce that dependency; and

WHEREAS, The States could also determine, by means of an adequate research program, how the administration and operation of the aid to dependent children program could be improved to the benefit of both recipients and taxpayers; and

WHEREAS, The States are not now financially able to undertake research programs of a magnitude sufficient to achieve these ends, and federal funds are not available to aid the States in this regard; and

WHEREAS, Federal funds spent for research would ultimately result in a less costly aid program by the reduction of the aid rolls and increased efficiency in administration; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California hereby memorializes the Congress of the United States to appropriate funds for use by the States for research projects in connection with the aid to dependent children program; and be it further

Resolved, That the Secretary of the Senate is directed to transmit suitably prepared copies of this resolution to the President of the United States, the President pro Tempore of the United States Senate, the Speaker of the House of Representatives, to each Senator and Representative in this State's delegation to the Congress of the United States, and to the United States Department of Health, Education, and Welfare.

CHAPTER 113

Senate Joint Resolution No. 25—Relating to repayments to the federal government under the aid to dependent children program.

[Filed with Secretary of State April 14, 1961.]

WHEREAS, There is a federal conformity question relating to whether the law enforcement agencies may deduct costs incurred by them in recovering funds paid out under the aid to dependent children program when the parent was gainfully employed or had sufficient assets to assist the recipient; and

WHEREAS, This question arises because the federal law requires that the program be administered by a single state agency; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is memorialized to take such steps as may be necessary to permit a county or state to deduct the costs incurred by the law enforcement agencies in recovering aid from the amount returnable to the federal government in proportion to the amount contributed by the federal government toward the aid recovered; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Health, Education, and Welfare, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of the United States Department of Health, Education, and Welfare.

CHAPTER 114

Senate Joint Resolution No. 26—Relative to memorializing Congress to enact legislation permitting youths receiving aid to dependent children to earn money without affecting their aid grants.

[Filed with Secretary of State April 14, 1961.]

WHEREAS, The basic purpose of the aid to dependent children program is to assist children deprived of parental support and to enable these children to grow into self-supporting, independent, and responsible members of the community; and

WHEREAS, This purpose is now frustrated by federal statutes and regulations which require that the earnings of employed youth receiving aid to dependent children be deducted in computing their aid grants, thus discouraging them from seeking suitable part-time and summer employment; and

WHEREAS, Modification of this federal requirement would enable the youth to derive some immediate personal benefit from their employment in addition to teaching them the values of employment, self-support, and independence; and

WHEREAS, Such a modification would also, by assisting needy families to achieve self-support, ease the burden on the taxpayers, who are now compelled to support families which are potentially capable of supporting themselves; now, therefore, be it

Resolved by the Senate and Assembly, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation that would exempt 50 percent of the earnings of youth receiving aid to dependent children from deduction from aid grants, and thus to encourage these youth to become self-supporting; and be it further

Resolved, That the Secretary of the Senate is directed to transmit suitably prepared copies of this resolution to the President of the United States, the President pro Tempore of the United States Senate, the Speaker of the House of Representatives, to each Senator and Representative in this State's delegation to the Congress of the United States, and to the Secretary of the United States Department of Health, Education, and Welfare.

CHAPTER 115

Senate Joint Resolution No. 27—Relative to memorializing Congress to provide aid to dependent children in boarding homes or foster homes.

[Filed with Secretary of State April 14, 1961]

WHEREAS, Federal funds are now available under the Aid to Dependent Children Program only for children who are in the homes of their parents or other relatives; and

WHEREAS, Many needy children are now deprived of the benefit of federal aid by reason of their being confined in boarding homes or foster homes; and

WHEREAS, The states, as a result, are severely handicapped in providing proper care and supervision for such children; and

WHEREAS, It is essential that children in boarding homes and foster homes be given the same opportunities and advantages as are available to those children whose families are available to care for them; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature hereby memorializes the Congress of the United States to enact legislation amending the Social Security Act to permit the payment of federal funds to the states for dependent children who are confined in boarding homes or foster homes; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a suitably prepared copy of this resolution to the President of the United States, the President pro Tempore of the United States Senate, the Speaker of the House of Representatives, to each Senator and Representative in this State's delegation to the Congress of the United States, and to the Secretary of the United States Department of Health, Education, and Welfare.

CHAPTER 116

Senate Joint Resolution No. 28—Relative to aid to dependent children.

[Filed with Secretary of State April 14, 1961.]

WHEREAS, There are a significant number of children receiving aid to dependent children whose caretakers misappropriate the funds granted to promote and protect the health and welfare of the children; and

WHEREAS, In many cases social casework services prove ineffective in correcting such money management problems; and

WHEREAS, The Social Security Act prohibits federal participation in aid-in-kind and vendor payments in such cases; and

WHEREAS, The counties of California in administering the aid to dependent children program have demonstrated a reluctance to place such cases on aid-in-kind and vendor payment status because of the loss of federal participation in the grant; and

WHEREAS, The effect, therefore, of the Social Security Act is to place in jeopardy the public funds expended under the aid to dependent children program and, more importantly, the health and welfare of such needy children, now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Congress of the United States is hereby urged to amend the Social Security Act to provide for federal participation in the costs of aid-in-kind and vendor payments to aid to dependent children recipients, but only after the extension of social casework services by the local administrators of the program, and such services have proved ineffective in solving money-grant mismanagement problems; and be it further

Resolved, That the Secretary of the Senate is directed to prepare and send copies of this resolution to the President and Vice President of the United States, the President pro Tempore of the Senate, the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of the United States Department of Health, Education, and Welfare.

CHAPTER 117

Assembly Joint Resolution No. 23—Relative to acquiring and establishing the John Muir Home in Martinez as a national monument.

[Filed with Secretary of State April 14, 1961]

WHEREAS, John Muir was one of the nation's foremost naturalists and an untiring proponent of the conservation of our great natural resources to preserve them for public use and enjoyment; and

WHEREAS, Although born in Scotland, John Muir came to the United States in 1849 and settled in California in 1868, where he traveled extensively throughout the State and North America, exploring, often on foot, the many wilderness areas of our State and our country; and

WHEREAS, Through accounts of his travels and his many other efforts and activities John Muir brought to the attention of his countrymen the beauties of nature and the scenic areas existing throughout California and North America and the need for national parks and reservations to preserve the great scenic and natural resources of our country; and

WHEREAS, There is in Martinez, California, the house John Muir called his home for nearly 20 years while making his many explorations and carrying on his worthwhile activities; and

WHEREAS, If this house is not preserved and saved for future generations as a monument to him and his many efforts on behalf of the citizens of our country it will eventually be lost to future generations; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States that funds be made available to acquire the John Muir home in Martinez, California, and establish it as a national monument; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 118

Assembly Joint Resolution No. 28—Relative to income tax incentives which encourage foreign investments.

[Filed with Secretary of State April 14, 1961]

WHEREAS, The economies of many foreign countries which are already highly developed and industrialized are expand-

ing at a rate greater than that at which the economy of the United States is expanding; and

WHEREAS, The Internal Revenue Code of 1954 contains provisions which are designed to indiscriminately encourage the investment of American capital in foreign countries; and

WHEREAS, Among such provisions are those relating to the tax treatment of foreign subsidiaries, foreign tax credit, differential rates, and tax-free exchanges; and

WHEREAS, These provisions have the effect of sending abroad capital that today is vitally needed in this country for domestic business and industry; and

WHEREAS, Indiscriminate American investment abroad is today contributing substantially to a critical reduction of our gold reserves, and thus may have an adverse effect on the value of the dollar; and

WHEREAS, It is essential to the national defense and to the health, welfare and safety of the people that the economy of the United States be stable and expand at a rate to meet its needs; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to revise the Internal Revenue Code of 1954 so as to limit the application of the provisions in it which are designed to encourage the investment of American capital in foreign countries to those countries of Africa, Asia and South America which are underdeveloped and underindustrialized; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 119

Senate Joint Resolution No. 17—Relative to air pollution control equipment.

[Filed with Secretary of State April 18, 1961]

WHEREAS, Air pollution control districts and other similar legislative agencies throughout the United States have adopted and will adopt further regulations controlling the emission of air pollution to the atmosphere; and

WHEREAS, There will be millions of dollars of air pollution control equipment installed in air pollution control districts for the community benefit in the immediate future; and

WHEREAS, Action by the federal government providing the quickest possible tax writeoff for capital expenditures for air

pollution control equipment will serve to encourage and support the installation of such equipment in air pollution control districts in California and elsewhere in the United States; and

WHEREAS, Air pollution control problems and the requirements for corrective equipment are becoming less and less a matter of protection against claims for property damage by neighbors of plants that are sources of air pollution and are becoming increasingly a matter of general community betterment, even though no public liability exists for claims against the source; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorialize the President and the Congress of the United States to enact legislation that will provide the quickest possible tax writeoff for capital expenditures for air pollution control equipment; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 120

Senate Joint Resolution No. 34—Relative to the proposed closing of Benicia Arsenal

[Filed with Secretary of State April 18, 1961]

WHEREAS, The Department of Defense has ordered the closing of Benicia Arsenal, Benicia, California, a unit of the army ordnance depot and maintenance system; and

WHEREAS, Benicia Arsenal is the only ordnance depot located on deep water in the Western United States and has been a major supply and maintenance installation for the West Coast and the Pacific Area in World War II and the Korean conflict, and in support of military assistance in such crises as have occurred in Viet Nam, Formosa, and Laos; and

WHEREAS, The function now performed by Benicia Arsenal will be continued by the Army and will, as a result of this order, be transferred to another depot; and

WHEREAS, The Benicia Arsenal now employs 2,400 civilians and is essentially the single industry within the City of Benicia which has a population of only 6,000 persons; and

WHEREAS, The closing of Benicia Arsenal will, despite efforts to relocate existing employees, undoubtedly result in some unemployment; and

WHEREAS, The closing of the arsenal and exodus of employees from that community will cause grave problems regarding the financing of schools and other local governmental

agencies for which commitments have already been made, and the financing of the repayment of bond issues which have been passed by Benicia's schools and the City of Benicia to finance local improvements; and

WHEREAS, The City of Benicia since 1848 has existed primarily to serve the United States Army and to provide support to the Benicia Arsenal and its predecessor Army installations at that community and has developed a corps of dedicated and experienced employees to perform the vital functions of that depot; and

WHEREAS, The artificial creation of an economic depressed area and the imposition of hardship on thousands of Benicia residents can be averted by federal action in consideration of all the factors which may be involved in this problem; and

WHEREAS, Inspections made of Benicia Arsenal during this current year by personnel of the Department of the Army from Washington, D.C., have resulted in commendations to the arsenal for excellence of performance and citing the vital function performed at Benicia and the adequacy of workload to sustain that function there: now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President of the United States and the Secretary of Defense to reconsider the order closing the Benicia Arsenal at Benicia, California, in the light of all circumstances in order to prevent the hardships enumerated in this resolution; and be it further

Resolved, That the Secretary of the Senate be directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Secretary of Defense and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, Each year small boat owners purchase many millions of gallons of gasoline and pay tax on each gallon in the same amount as that required of purchasers of gasoline for use in motor vehicles; and

WHEREAS, Although small boat owners are permitted to reclaim the moneys paid pursuant to such tax, many do not, and therefore an undetermined amount of gasoline tax moneys accrue each year to the Motor Vehicle Fuel Fund; and

WHEREAS, The original sum of seven hundred fifty thousand dollars ($750,000) so provided by the Legislature may have been unrealistic and may not have truly reflected the appropriate proportionate amount of unclaimed tax moneys of boat owners in the Motor Vehicle Fuel Fund, and in the intervening two years boating in California has increased; and

WHEREAS, In the future boating and use of gasoline by small boat owners in our State will increase and unless some method of determining unclaimed gasoline tax moneys paid by small boat owners is devised, the sum of seven hundred fifty thousand dollars ($750,000) annually, may become with each passing year a less appropriate proportion of the funds in the Motor Vehicle Fuel Fund attributable to unclaimed gasoline taxes paid by small boat owners; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Legislative Budget Committee is requested to conduct a study as to how the amount of gasoline tax which is paid by small boat owners and unclaimed by them can be determined on an annual basis and to report is findings and recommendations thereon to the Legislature by the first calendar day of the 1963 Regular Session; and be it further

Senate Joint Resolution No. 36—Relating to the Office of Saline Water of the United States Department of the Interior

[Filed with Secretary of State June 7, 1961]

WHEREAS, The Office of Saline Water of the United States Department of the Interior has requested Congress for $1,755,000 in appropriations to continue its program of research and development of sea and brackish water conversion processes; and

WHEREAS, In testimony before the House of Representatives Appropriations Subcommittee, officials of the Office of Saline Water said that construction of larger plants and incorporation of additional improvements can lower present costs considerably, and research "holds promise of developing entirely new methods which may permit the attainment of a major breakthrough;" and

WHEREAS, The Office of Saline Water, by contracts with private industrial firms authorized in their program by Congress, will complete construction in the summer of this year a demonstration plant to convert sea water into fresh water at Point Loma, near San Diego; and

WHEREAS, The chief of basic research of the Office of Saline Water testified before a House of Representatives appropriations subcommittee, "I think we are approaching economically competitive converted water"; and

WHEREAS, All these signs point to the fact that the future municipal and industrial water needs of the Southern California coastal shelf could soon be served economically and feasibly from the bordering Pacific Ocean; and

WHEREAS, An economic process to treat brackish waters so as to improve their quality and permit their reuse would be of great benefit to a number of areas of California; and

WHEREAS, Water conversion processes, when applied in an economically feasible manner, will help permit the State of California to go to the bond market to finance other needed programs in addition to water development; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully endorses the aims and purposes of the program of the Office of Saline Water, and urges the California delegation in the Congress to support the appropriations requested by the Office of Saline Water, Department of the Interior; and be it further

Resolved, That the Secretary of the Senate be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 183

Senate Joint Resolution No. 12—Relative to federal income taxation of the interest derived from public bonds.

[Filed with Secretary of State June 7, 1961.]

WHEREAS, The State of California and the political subdivisions thereof have in the past and are now currently engaged in financing, through the issuance of bonds, needed public improvements such as the building of schools, highways, water

and sewer distribution systems and other projects for the promotion of the health, safety, and welfare of the people; and

WHEREAS, The interest income which the owner derives from such bonds has in the past and is now currently exempt from the imposition of any federal income tax; and

WHEREAS, The federal taxation of the interest of such bonds, as income, would result in the curtailment of construction of needed public improvements, and would result in either an increase of taxes imposed by the State of California and any political subdivision thereof in order to pay higher interest costs, or the assumption by the federal government of the responsibility of financing such improvements; and

WHEREAS, There is currently a national movement to permit the imposition of the federal income tax on the interest income from the bonds issued or to be issued by the several states and their political subdivisions; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to oppose any amendment of the Constitution of the United States, or any other action by the Congress of the United States, or the executive branch thereof, which would have the effect of subjecting the income from state and local bonds to a federal tax or to cause the tax to be increased because of such bond holdings by a taxpayer whether or not the increase is in fact titled a tax; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 184

Senate Joint Resolution No. 45—Relative to establishment of a Youth Conservation Corps

[Filed with Secretary of State June 7, 1961.]

WHEREAS, The Senate and House of Representatives of the United States are now considering legislation to establish a Youth Conservation Corps; and

WHEREAS, Among the most pressing and depressing problems of today are the rise in unemployment, rising relief costs, and increase of juvenile delinquency; and

WHEREAS, It has been established that a Youth Conservation Corps would be a most important resource of combating all of these three undesirable phases of our national life, and

WHEREAS, Such a Youth Conservation Corps could achieve essential public improvements, worth more than the cost entailed; and

WHEREAS, The work most needed to be done generally lies in national forests, in national parks, or in such projects as flood prevention and prevention of soil erosion, far removed from the cities or states where most of the youths enrolled for such program now reside; and

WHEREAS, The State of California and several of the counties of this State have camp programs for youths already under sentence by the courts, and the Federal Youth Conservation Corps would provide for voluntary enrollment; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully urges Congress to enact legislation as proposed in S. 404, which would authorize the establishment of a Youth Conservation Corps to provide healthful outdoor training and employment for young men and to advance the conservation, development, and management of national resources of timber, soil, and range, and of recreational areas; and be it further

Resolved, That the Secretary of the Senate is hereby directed to transmit a copy of this resolution to the Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 185

Assembly Joint Resolution No. 34—Relative to the proposed cutting down of trees in the Presidio.

[Filed with Secretary of State June 7, 1961.]

WHEREAS, It has been reported that the United States Army intends to cut down 26 acres of beautiful and hand-planted eucalyptus, acacia, pine and other trees in the Presidio in San Francisco in order to expand a cemetery; and

WHEREAS, The felling of these trees and removal of the shrubs from these rolling acres in the Presidio will remove an area of rare beauty which has laboriously been planted and maintained since the first planned reforestation, on a large scale, in 1882, and would put off, probably forever, the release of any acreage of the Presidio to the City of San Francisco for a new and unique San Francisco residential area; and

WHEREAS, With the armed forces declaring their various real estate holdings surplus at a growing rate, it is indeed appropriate to ask if among these other properties an appropriate site for a cemetery could not be found without permanently destroying or impairing the historic beauties of the Presidio; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of

the United States and the Secretary of the Department of Defense to take appropriate executive and legislative action to prevent the removal of trees at the Presidio in San Francisco for the extension of a cemetery, to direct the United States Army to seek another more appropriate site among its vast real property holdings for such a cemetery, and to take such other action as will insure that the historic and carefully nurtured natural beauties of the rolling acres of the Presidio will remain for the enjoyment and appreciation of the people of the entire nation as well as the citizens of the State of California and the City of San Francisco; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the Department of Defense, and to the Secretary of the Army.

[Filed with Secretary of State June 7, 1961.]

Resolved by the Assembly and Senate of the State of California, jointly, That the National Park Service is requested to recommend the development of surplus Fort Funston property for a state park and recreational area; and be it further

Resolved, That the General Services Administration is requested to take no action to dispose of the Fort Funston property until the State of California has an opportunity to take such action as may be necessary to acquire the property for a public park and recreational area; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to prepare and transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the Interior, to the Director of the National Park Service, and to the Administrator of General Services.

WHEREAS, The Joint Budget Committee has recommended certain changes in the accounting and cost analysis system of the State Printing Office to improve its efficiency; and

WHEREAS, Recent events have indicated that the public interest requires a careful study of the printing of school textbooks in the State Printing Office and the effect thereof on other state printing costs; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Committee on Legislative Organization is hereby directed to continue and expand its study of state printing to include a study and investigation of all facts relating to state printing and the operation of the State Printing Office, including the printing of school textbooks, and to report to the Legislature thereon not later than the fifth calendar day of the 1963 Regular Session, and to include in its report any recommendations it may have designed to bring about greater economy and efficiency in state printing.

Resolved by the Assembly of the State of California, the Senate concurring, That the State Department of Public Health is hereby requested to collect and analyze data necessary for the development of standards in governmental health

CHAPTER 203

Assembly Concurrent Resolution No. 97—Relative to the filing of an action in the United States Supreme Court against the State of Nevada for an equitable apportionment of the waters of the Walker River.

[Filed with Secretary of State June 12, 1961]

WHEREAS, The States of California and Nevada, through interstate compact commissions representing each state, are presently engaged in negotiating an interstate compact relating, among other things, to the distribution and use of the waters of the West Walker River, which arises in California and flows into Nevada; and

WHEREAS, One of the objectives of said negotiations is to settle by interstate agreement a controversy between the two states respecting the amounts of water of the West Walker River which should equitably be allocated to each state; and

WHEREAS, Water users and landowners in the California portion of the West Walker River Basin, lying within the County of Mono, are in great need of supplemental water supplies and there will also be need in the future for water for domestic and recreational development in said basin, and it is in the interest of the State of California that an adequate share of the presently unused waters of said river be allocated to California for said purposes; and

WHEREAS, Despite the fact that said negotiations are still in progress and the issue of the apportionment of the waters of said river has not been resolved between the two states, the Walker River Irrigation District of the State of Nevada on April 4, 1961, authorized the issuance of bonds and is proceeding actively with plans to sell said bonds and construct the proposed Hoye Canyon Dam and Reservoir project on the West Walker River in Nevada as soon as possible; and

WHEREAS, The purpose of said project is to store virtually all the presently unused waters of said West Walker River which are capable of development, for the sole benefit of water users and landowners of said district in Nevada, thus depriving California of any further benefits from said river; and

WHEREAS, The equitable rights of California to an adequate share of the waters of said river would be gravely prejudiced by the sale of said bonds and the construction of said project; and

WHEREAS, A suit by the State of California against the State of Nevada in the United States Supreme Court for an equitable apportionment of the waters of said river may be the only means to preserve the equitable rights of California to the waters of said river against the threat posed by said proposed sale of bonds and construction of said project by said Walker River Irrigation District before the issue of apportionment of water between the States of California and Nevada is resolved by interstate negotiation; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Attorney General of the State of California be and hereby is requested to file an action by the State of California against the State of Nevada in the United States Supreme Court for an equitable apportionment of the waters of the Walker River when, in his judgment, such an action is necessary in order to preserve the equitable rights of the State of California to the waters of the West Walker River against the threats posed by the actions of the Walker River Irrigation District of the State of Nevada relating to financing and constructing said district's proposed Hoye Canyon Dam and Reservoir project; and be it further

Resolved, That the Department of Water Resources be and hereby is requested to render all possible assistance to the Attorney General in preparing and prosecuting such an action for equitable apportionment; and be it further

WHEREAS, Born in Scotland, John Muir came to the United States at an early age and as a young man settled in 1868 in California, the State he later came to call his home; and

WHEREAS, John Muir thereafter spent his life exploring, largely on foot, the mountainous and wilderness areas of California, the United States and Alaska and writing stirring poetry and numerous articles, and books extolling the beauties of nature, recounting his travels, and seeking to acquaint his countrymen with the great inheritance available to all in the natural resources of our scenic forests and wilderness areas; and

WHEREAS, It was to a great extent through these explorations and writings of John Muir that our country was awakened to the heritage of our great forests and mountains and the great need for national parks and reservations to preserve all these for future generations; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Postmaster General of the United States to provide for the issuance of a commemorative stamp honoring the 50th anniversary of John Muir's death; and be it further

CHAPTER 206

Assembly Joint Resolution No. 40—Relative to Project Mohole.

[Filed with Secretary of State June 12, 1961]

WHEREAS, The drilling barge Cuss I, named after the Continental, Union, Shell, and Superior Oil Companies which were responsible for its construction, and now owned and operated by the Global Marine Exploration Company, recently successfully drilled in the deepest ocean depths ever achieved and opened new vistas for exploring the earth and its origin, and thus vindicating the dedicated scientists who conceived this daring and improbable object; and

WHEREAS, This unprecedented drilling took place as part of a scientific project called "Mohole" under the able sponsorship, guidance, and direction of the National Science Foundation, the National Academy of Sciences, and the Global Marine Exploration Company; and

WHEREAS, Some of the major achievements of this scientific experiment included the unusual engineering design of the ship which made Project Mohole possible in the first place, the positioning of the ship in a stationary spot on the ocean through an intricate system of radar and sonar buoys, the completion of permanent undersea anchored buoys at depths of 12,000 feet, the securing in place of 12,000 feet of drill pipe in the ocean through the device of a guide shoe assembly which prevents bending in the pipe at the surface, and the gathering of cores from the earth's ocean bottom; and

WHEREAS, The success of this scientific gamble was brought about only through the untiring and co-ordinated efforts, the technical ingenuity, and the courageous faith of the many scientists who participated in this extraordinary achievement; and

WHEREAS, The knowledge gained from ocean sediments alone will greatly enhance our understanding of the history of the oceans, climatic changes, and the evolution of life, and Project Mohole is one of the most important scientific undertakings of modern times, for it will probe into new and totally unknown regions of the world; and

WHEREAS, The scientists' goal is to drill a hole all the way down to where the light crust of the planet rests on its dense mantle, known as the Moho, after Andrija Mohorovičić, a Yugoslav who discovered it in 1909 by a brilliant analysis of earthquake vibrations; and

WHEREAS, Drilling through the sea is the only feasible way of reaching the Moho, and the result of reaching the Moho should bring back cores of ages-old material rich in information about the earth's beginnings and its structure; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature highly commends and congratulates the many scientists, workers, and members of

the petroleum industry who made this achievement possible, and expresses its deep interest and encouragement in the furtherance of Project Mohole; and be it further

Resolved, That the Legislature respectfully urges the Congress of the United States to take such steps as may be necessary to support Project Mohole so that the scientists may achieve their ultimate goal; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

In the exercise of these rights and powers, the Legislature shall not constitute the State or any agency thereof a manufacturer or seller of alcoholic beverages.

All alcoholic beverages may be bought, sold, served, consumed and otherwise disposed of in premises which shall be licensed as provided by the Legislature In providing for the licensing of premises, the Legislature may provide for the issuance of, among other licenses, licenses for the following types of premises where the alcoholic beverages specified in the licenses may be sold and served for consumption upon the premises:

(a) For bona fide public eating places, as defined by the Legislature.

(b) For public premises in which food shall not be sold or served as in a bona fide public eating place, but upon which premises the Legislature may permit the sale or service of food products incidental to the sale and service of alcoholic beverages. No person under the age of 21 years shall be permitted to enter and remain in any such premises without lawful business therein.

(c) For public premises for the sale and service of beers alone.

(d) Under such conditions as the Legislature may impose, for railroad dining or club cars, passenger ships, common carriers by air, and bona fide clubs after such clubs have been lawfully operated for not less than one year.

The sale, furnishing, giving, or causing to be sold, furnished, or giving away of any alcoholic beverage to any person under the age of 21 years is hereby prohibited, and no person shall sell, furnish, give, or cause to be sold, furnished, or given away any alcoholic beverage to any person under the age of 21 years, and no person under the age of 21 years shall purchase any alcoholic beverage.

The Director of Alcoholic Beverage Control shall be the head of the Department of Alcoholic Beverage Control, shall be appointed by the Governor subject to confirmation by a majority vote of all of the members elected to the Senate, and shall serve at the pleasure of the Governor. The director may be removed from office by the Governor, and the Legislature shall have the power, by a majority vote of all members elected to each house, to remove the director from office for dereliction of duty or corruption or incompetency. The director may appoint three persons who shall be exempt from civil service, in addition to the person he is authorized to appoint by Section 4 of Article XXIV.

The Department of Alcoholic Beverage Control shall have the exclusive power, except as herein provided and in accordance with laws enacted by the Legislature, to license the manufacture, importation and sale of alcoholic beverages in this State, and to collect license fees or occupation taxes on account thereof. The department shall have the power, in its discretion, to deny, suspend or revoke any specific alcoholic beverages license if it shall determine for good cause that the granting or continuance of such license would be contrary to public welfare or morals, or that a person seeking or holding a license has violated any law prohibiting conduct involving moral turpitude. It shall be unlawful for any person other than a licensee of said department to manufacture, import or sell alcoholic beverages in this State.

The Alcoholic Beverage Control Appeals Board shall consist of three members appointed by the Governor, subject to confirmation by a majority vote of all of the members elected to the Senate. Each member, at the time of his initial appointment, shall be a resident of a different county from the one in which either of the other members resides. On January 1,

1963, the terms of the members then in office shall terminate, but such members shall continue to hold office until the appointment and qualification of their successors. Each member shall hold office until the appointment and qualification of his successor. Whenever a vacancy in the office of member shall occur, the Governor shall forthwith appoint a qualified person to fill the same for the unexpired term. The members of the board may be removed from office by the Governor, or the Legislature, by a majority vote of all members elected to each house, for dereliction of duty or corruption or incompetency.

When any person aggrieved thereby appeals from a decision of the department ordering any penalty assessment, issuing, denying, transferring, suspending or revoking any license for the manufacture, importation, or sale of alcoholic beverages, the board shall review the decision subject to such limitations as may be imposed by the Legislature. In such cases, the board shall not receive evidence in addition to that considered by the department. Review by the board of a decision of the department shall be limited to the questions whether the department has proceeded without or in excess of its jurisdiction, whether the department has proceeded in the manner required by law, whether the decision is supported by the findings, and whether the findings are supported by substantial evidence in the light of the whole record viewed in its entirety, including the body of evidence opposed to the department's findings. In appeals where the board finds that there is relevant evidence which, in the exercise of reasonable diligence, could not have been produced or which was improperly excluded at the hearing before the department it may enter an order remanding the matter to the department for reconsideration in the light of such evidence. In all other appeals the board shall enter an order either affirming or reversing the decision of the department. When the order reverses the decision of the department, the board may direct the reconsideration of the matter in the light of its order and may direct the department to take such further action as is specially enjoined upon it by law, but the order shall not limit or control in any way the discretion vested by law in the department. Orders of the board shall be subject to judicial review upon petition of the director or any party aggrieved by such order.

A concurrent resolution for the removal of either the director or any member of the board may be introduced in the Legislature only if five Members of the Senate, or 10 Members of the Assembly, join as authors.

Until the Legislature shall otherwise provide, the privilege of keeping, buying, selling, serving, and otherwise disposing of alcoholic beverages in bona fide hotels, restaurants, cafes,

cafeterias, railroad dining or club cars, passenger ships, and other public eating places, and in bona fide clubs after such clubs have been lawfully operated for not less than one year, and the privilege of keeping, buying, selling, serving, and otherwise disposing of beers on any premises open to the general public shall be licensed and regulated under the applicable provisions of the Alcoholic Beverage Control Act, insofar as the same are not inconsistent with the provisions hereof, and excepting that the license fee to be charged bona fide hotels, restaurants, cafes, cafeterias, railroad dining or club cars, passenger ships, and other public eating places, and any bona fide clubs after such clubs have been lawfully operated for not less than one year, for the privilege of keeping, buying, selling, or otherwise disposing of alcoholic beverages, shall be the amounts prescribed as of the operative date hereof, subject to the power of the Legislature to change such fees.

The State Board of Equalization shall assess and collect such excise taxes as are or may be imposed by the Legislature on account of the manufacture, importation and sale of alcoholic beverages in this State

The Legislature may authorize, subject to reasonable restrictions, the sale in retail stores of alcoholic beverages contained in the original packages, where such alcoholic beverages are not to be consumed on the premises where sold; and may provide for the issuance of all types of licenses necessary to carry on the activities referred to in the first paragraph of this section, including, but not limited to, licenses necessary for the manufacture, production, processing, importation, exportation, transportation, wholesaling, distribution, and sale of any and all kinds of alcoholic beverages.

The Legislature shall provide for apportioning the amounts collected for license fees or occupation taxes under the provisions hereof between the State and the cities, counties and cities and counties of the State, in such manner as the Legislature may deem proper.

All constitutional provisions and laws inconsistent with the provisions hereof are hereby repealed

The provisions of this section shall be self-executing, but nothing herein shall prohibit the Legislature from enacting laws implementing and not inconsistent with such provisions.

The amendments to this section proposed by the Legislature at the 1961 Regular Session of the Legislature shall become operative on January 1, 1963.

(b) In establishing an area as a historical landmark area:

(1) The ordinance shall state that this section shall be operative within the boundaries of the city.

(2) The law or ordinance shall provide for the preservation, protection, enhancement and perpetuation of structures of special historical interest

(3) The structures shall be located within an historical landmark area specifically described in the law or ordinance

(4) The law or ordinance shall prohibit the demolition or destruction of any structure within the area without first obtaining a permit from the State or city, whichever establishes the area, or a specified department or other agency thereof.

(5) The law or ordinance shall prohibit the construction or alteration of any structure within the area unless the exterior of the structure conforms to a type of architecture specified in the law or ordinance that is commonly associated with the historical period to which the area relates.

(6) The law or ordinance shall prohibit the construction or alteration of any structure within the area without first obtaining a permit from the State or city, whichever establishes the area, or a specified department or other agency thereof.

(c) (1) The assessor shall not assess any property pursuant to subdivision (a) of this section unless each owner of the property agrees in writing with the assessor, prior to the completion of the assessment roll, that in the event the law or city ordinance which establishes an area as a historical landmark area is repealed, the owner, his heirs, successors, administrators, executors or assigns will pay the taxing agency involved an amount equal to the difference between the taxes paid or payable on the basis of the assessment made and any greater sum of taxes that would have been paid or payable for each year affected in the absence of any such agreement for a period not exceeding five years next preceding the year in which the law or ordinance was repealed.

(2) The assessor shall not assess any property for any tax year pursuant to subdivision (a) of this section unless each owner of the property agrees in writing with the assessor, prior to the completion of the assessment roll for that year that the property to be assessed pursuant to subdivision (a) shall not be used for any purpose during the tax year other than that for which it is used on the lien date for that year. In the event the property is used for such other purposes during the tax year, the owner, his successors, administrators, executors or assigns shall be liable to the local taxing agency involved for an amount equal to the difference between the taxes paid or payable for that year on the basis of the assessment made and any greater sum of taxes that would have been paid or payable for that year in the absence of such agreement.

(d) The assessor shall not assess any property pursuant to subdivision (a) of this section unless, after the enactment or adoption of any law or ordinance which establishes any historical landmark area, the Legislature enacts a law to specifically permit the assessor to so assess the property in that particular historical landmark area.

WHEREAS, Many millions of acre-feet of water from streams in the north coastal area are wasted each year through flow into the Pacific Ocean; and

WHEREAS, The uncontrolled flow of many of the streams in the north coastal area constitute a continuing threat of floods with the attendant dangers of extensive loss of lives and property damage; and

WHEREAS, Watershed development and protection is essential for maintaining the quality of water, preserving and promoting timber growths, grazing lands, farming lands and wildlife, fishing, and recreation areas, and preventing serious and irreparable damage for soil erosion; and

WHEREAS, The State Department of Water Resources is conducting studies of the water resources development of the north coastal area, with particular reference to major project development and associated reference to local water development; and

WHEREAS, It is safe to say that there have been countless misdeeds by public officials brought to light only because someone with knowledge of wrongdoing passed the information on to such a reporter of the news, secure in the knowledge that his confidence would be respected; and

WHEREAS, Without the privilege of keeping secret his sources of information, such a reporter of the news would soon find that his sources of information had dried up, thus severely limiting his effectiveness; and

WHEREAS, This is an age in which we should be doing everything possible to keep the public informed rather than raising barriers in the channels of communication between the people and their government; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is respectfully requested to enact legislation to protect all report-

[Filed with Secretary of State June 13, 1961.]

WHEREAS, There has been introduced into the 87th Congress of the United States H.R. 213, the purpose of which is to repeal the six percent (6%) construction bid differential for Pacific Coast shipbuilders; and

WHEREAS, This bid differential is still essential and necessary to offset the freight differential which Pacific Coast shipyards must pay in transporting steel from the East Coast; and

WHEREAS, The Pacific Coast shipyards have a wartime production record of which they are justifiably proud; and

WHEREAS, Our voters cannot risk the loss of the highly skilled labor pool of shipbuilders on the West Coast in the event their services are again needed in time of war or national emergency; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California hereby memorializes the Congress and President of the United States to do all that is necessary to defeat H.R. 213 and any other bill or action which would deprive the Pacific Coast of this equitable and necessary six percent (6%) construction bid differential on shipbuilding; and be it further

[Filed with Secretary of State June 14, 1961.]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1961 Regular Session commencing on the second day of January, 1961, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First—That the fifth paragraph of subdivision (a) of Section 2 of Article IV is amended to read:

At the general session, no bill, other than the Budget Bill, shall be heard by any committee until 20 calendar days have elapsed following the date the bill was first introduced, or shall be acted upon by either house until 30 calendar days have elapsed following the date the bill was first introduced; provided, that this provision may be dispensed with by the consent of three-fourths of the members of the house.

Second—That subdivision (d) is added to Section 2 of Article IV, to read:

[Filed with Secretary of State June 16, 1961.]

WHEREAS, There is insufficient money to provide necessary medical care for public assistance recipients under the new medical care program established by the Legislature in 1957; and

WHEREAS, In spite of this the State Social Welfare Board, in its rules and regulations, recently authorized payment under the program for annual, complete physical examinations for old age assistance recipients; and

WHEREAS, The Department of Social Welfare has issued instructions to the counties to give positive encouragement to recipients to undergo such physical examinations, and thus to take advantage of their availability; and

WHEREAS, The State has undertaken to pay the sum of $28 to each doctor performing a physical examination under this authorization, and each examination involves from $25 to $35 in laboratory costs; and

WHEREAS, The department has prescribed a form to be filled out in minute detail by each physician in connection with a physical examination, and each form has many copies to be filled out in like detail by welfare personnel; and

WHEREAS, These forms appear to be designed to provide welfare agencies, including the department, with statistical data, rather than to provide recipients with better medical care; and

WHEREAS, The time required to fill out the quantity of forms involved with respect to physical examinations alone takes the doctor away from his essential duties for long periods of time; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature hereby requests the State Department of Social Welfare and the State Social Welfare Board to revoke their authorization for complete annual physical examinations for old age assistance recipients, and to refrain from reinstating such authorization until such time as the Legislature has investigated the matter and signified its approval of such authorization; and be it further

Resolved, That the Secretary of the Senate is directed to transmit copies of this resolution to Mr. J. M. Wedemeyer, Director of Social Welfare, and Dr. Jacobus tenBroek, Chairman of the State Board of Social Welfare.

WHEREAS, It has come to the attention of the Legislature that an increasingly serious problem exists in the Sacramento-San Joaquin Delta area due to the depredations of muskrats which inhabit many of the islands protected by levees; and

WHEREAS, Such muskrats burrow into the levees, causing weakening of the levees and consequent flooding to the extent that in some cases, such as on Winter Island, there is danger of losing portions of the levees during high tides; and

WHEREAS, While there has been a history of muskrat control through private licensed trappers, such trappers are generally no longer available because such activities have become unsuccessful financially; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Agriculture is hereby requested to study and recommend a solution to the problem set forth in this resolution, including, but not limited to, consideration of habitat elimination by the reclaiming or drying up of some of the marsh areas of the delta and methods of assisting landowners to control muskrats through trapping with state assistance; and be it further

Resolved, That the Department of Agriculture is requested to report hereon to the Legislature not later than the fifth calendar day of the 1962 Regular (Budget) Session, including in the report any recommendation it may have for legislation; and be it further

Resolved, That the Secretary of the Senate is directed to transmit a copy of this resolution to the Director of Agriculture.

[Filed with Secretary of State June 19, 1961.]

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1961 Regular Session commencing on the second day of January, 1961, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended as follows:

First—That Section 1 of Article XVI be amended to read:

SECTION 1. The Legislature shall not, in any manner create any debt or debts, liability or liabilities, which shall, singly or in the aggregate with any previous debts or liabilities, exceed the sum of three hundred thousand dollars ($300,000), except in case of war to repel invasion or suppress insurrection, unless the same shall be authorized by law for some single object or work to be distinctly specified therein which law shall provide ways and means, exclusive of loans, for the payment of the interest of such debt or liability as it falls due, and also to pay and discharge the principal of such debt or liability within 50 years of the time of the contracting thereof, and shall be irrepealable until the principal and interest thereon shall be paid and discharged, and such law may make provision for a sinking fund to pay the principal of such debt or liability to commence at a time after the incurring of such debt or liability of not more than a period of one-fourth of the time of maturity of such debt or liability; but no such law shall take effect unless it has been passed by a two-thirds vote of all the members elected to each house of the Legislature and until, at a general election or at a direct primary, it shall have been submitted to the people and shall have received a majority of all the votes cast for and against it at such election; and all moneys raised by authority of such law shall be applied only to the specific object therein stated or to the payment of the debt thereby created. Full publicity as to matters to be voted upon by the people is afforded by the setting out of the complete text of the proposed laws, together with the arguments for and against them, in the ballot pamphlet mailed to each elector preceding the election at which they are submitted, and the only requirement for publication of such law shall be that it be set out at length in ballot pamphlets which the Secretary of State shall cause to be printed. The Legislature may,

at any time after the approval of such law by the people, reduce the amount of the indebtedness authorized by the law to an amount not less than the amount contracted at the time of the reduction, or it may repeal the law if no debt shall have been contracted in pursuance thereof.

Notwithstanding any other provision of this Constitution, Members of the Legislature who are required to meet with the State Allocation Board shall have equal rights and duties with the nonlegislative members to vote and act upon matters pending or coming before such board for the allocation and apportionment of funds to school districts for school construction purposes or purposes related thereto.

Second—That the sections of the Constitution enumerated in subdivision (c) of Section 2 of Article XVI, as added by this amendment, are repealed as provided in said section.

Third—That a new Section 2 is added to Article XVI, to read:

SEC. 2. (a) No amendment to this Constitution which provides for the preparation, issuance and sale of bonds of the State of California shall hereafter be submitted to the electors, nor shall any such amendment to the Constitution hereafter submitted to or approved by the electors become effective for any purpose.

Each measure providing for the preparation, issuance and sale of bonds of the State of California shall hereafter be submitted to the electors in the form of a bond act or statute.

(b) The provisions of this Constitution enumerated in subdivision (c) of this section are repealed and such provisions are continued as statutes which have been approved, adopted, legalized, ratified, validated, and made fully and completely effective, by means of the adoption by the electorate of a ratifying constitutional amendment, except that the Legislature, in addition to whatever powers it possessed under such provisions, may amend or repeal such provisions when the bonds issued thereunder have been fully retired and when no rights thereunder will be damaged.

(c) The enumerated provisions of this Constitution are: Article XVI, Sections 2, 3, 4, 4½, 5, 6, 8, 8½, 15, 16, 16.5, 17, 18, 19, 19.5, 20 and 21.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1961 Regular Session commencing on the second day of January, 1961, two-

thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by amending Section 1 of Article XVIII, to read:

SECTION 1. Any amendment or amendments to, or revision of, this Constitution may be proposed in the Senate or Assembly, and if two-thirds of all the members elected to each of the two houses shall vote in favor thereof, such proposed amendment, amendments, or revision shall be entered in their Journals, with the yeas and nays taken thereon; and it shall be the duty of the Legislature to submit such proposed amendment, amendments, or revision to the people in such manner, and at such time, and after such publication as may be deemed expedient. Should more amendments than one be submitted at the same election they shall be so prepared and distinguished, by numbers or otherwise, that each can be voted on separately. If the people shall approve and ratify such amendment or amendments, or any of them, or such revision, by a majority of the qualified electors voting thereon such amendment or amendments shall become a part of this Constitution, and such revision shall be the Constitution of the State of California or shall become a part of the Constitution if the measure revises only a part of the Constitution.

Resolved by the Assembly, the Senate concurring, That the Legislature of the State of California at its 1961 Regular Session commencing on the second day of January, 1961, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the State be amended by adding Section 1.5 to Article XVI thereof, to read:

Accounts shall be maintained in the "General Obligation Bond Proceeds Fund" of all moneys

deposited in the State Treasury to the credit of that fund and the proceeds of each bond issue shall be maintained as a separate and distinct account and shall be paid out only in accordance with the law authorizing the issuance of the particular bonds from which the proceeds were derived. The Legislature may abolish, subject to the conditions of this section, any fund in the State Treasury heretofore or hereafter created by any act for the purpose of having deposited therein the proceeds from the issuance of bonds if such proceeds are transferred to or paid into the "General Obligation Bond Proceeds Fund" pursuant to the authority granted in this section; provided, however, that nothing in this section shall prevent the Legislature from re-establishing any bond proceeds fund so abolished and transferring back to its credit all proceeds in the "General Obligation Bond Proceeds Fund" which constitute the proceeds of the particular bond fund being re-established.

CHAPTER 224

Assembly Concurrent Resolution No. 84—Relative to small craft harbors.

[Filed with Secretary of State June 19, 1961.]

WHEREAS, The Small Craft Harbors Commission is authorized to make loans for small craft harbor projects pursuant to the Small Craft Harbors Law (Div. 5.7, commencing at Sec. 5801, P.R.C.) and the Harbor Development Bond Law of 1958 (Ch. 103, Stats. 1958, 1st Ex. Sess.); and

WHEREAS, The commission is required by law to find that a proposed project is feasible before making a loan for its development (Sec. 5827, P.R.C.); and

WHEREAS, The commission has found certain projects to be economically and engineeringly feasible as required and is considering the feasibility of other projects; and

WHEREAS, There are presently on the priority list for project construction loans, which was established by the commission and approved by the Legislature by A.C.R. 30 (1959) and S.C.R. 3 (1960), projects which have not been commenced and as to which the commission has announced that the applications for loans will be canceled by it unless the projects are begun or are being diligently pursued; and

WHEREAS, There has been prepared a Berkeley Marina Development Plan for the improvement and expansion of the Berkeley Yacht Harbor which has been approved by the Small Craft Harbors Division and the commission; and

WHEREAS, The commission has determined that the Berkeley project has both economic and engineering feasibility; and

WHEREAS, The City of Berkeley has requested a $1,800,000 construction loan for the purpose of developing the Berkeley small craft harbor; and

WHEREAS, The development of small craft harbor facilities is of statewide importance because of the recreational and commercial values accruing to every citizen, and the harbor of Berkeley is used and enjoyed by 100,000 people; and

WHEREAS, Small craft harbors bolster the economy with increased tourist trade, improved property values and revenues from boats, equipment and services; and

WHEREAS, The desire of the people of the State for rapid development of small craft harbors for boating facilities which could not be provided on a local basis was clearly evidenced by approval of the Harbor Development Bond Law of 1958 by the voters at the general election of November 1958 (A.C.A. No. 11); now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That, if, within the fund limits presently established by legislative action for Small Craft Harbor loans by the Small Craft Harbors Commission, the commission determines funds are available by reason of cancellation by the commission of applications for loans for projects enumerated in A.C.R. 30 (1959) and S.C.R. 3 (1960), projects found to be feasible subsequent to the above-mentioned concurrent resolutions shall be granted the available funds in accordance with criteria established by the Small Craft Harbors Commission; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit a copy of this resolution to the Small Craft Harbors Commission.

WHEREAS, The increased heavy truck traffic will constitute a serious hazard to public travel, schoolbus travel, tourist and increasing recreation travel; and

WHEREAS, The County of Placer is financially unable, under these heavy traffic conditions, to maintain a safe and reasonably traveled road to adequately protect the lives and property of the local residents and traveling public; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Division of Highways, Department of Public Works, is requested to study the feasibility of bringing County Road P-88, in Placer County, from its intersection with State Highway Route 65 at the American River Bridge to Baker Ranch in Placer County, into the state highway system, and to report its findings thereon to the Legislature by not later than the fifth calendar day of the 1962 Regular Session; and be it further

WHEREAS, Father Serra's influence in water conservation, through his famed projects, was not limited to the local area but extended throughout California and the Southwest; and

WHEREAS, It is most fitting that the memory of Father Serra, which is cherished by many Californians, should be honored by a permanent memorial in the San Diego area as it is the first of the many areas in California in which he brought the Christian heritage; and

WHEREAS, Mission Gorge Road, in the area of the Mission San Diego, is ideally suited as a memorial for Father Serra; now, therefore, be it

WHEREAS, The San Francisco Bay Area Rapid Transit District is proposing to construct a regional rapid transit system, a portion of which would follow approximately the same route as the proposed Grove-Shafter Freeway; and

Resolved, That the Chief Clerk of the Assembly be directed to transmit copies of this resolution to the Director of Public Works and to the Chairman of the Board of Directors of the San Francisco Bay Area Rapid Transit District.

CHAPTER 235

Assembly Concurrent Resolution No. 123—Relative to amending Rule 36 of the Joint Rules of the Senate and Assembly, concerning expenses of members.

[Filed with Secretary of State June 21, 1961]

Resolved by the Assembly of the State of California, the Senate thereof concurring, As follows:

That Rule 36 of the Joint Rules of the Senate and Assembly be amended to read:

36. In order to expedite the work of the Legislature either house, or both houses jointly, may by resolution or statute provide for the appointment of committees to ascertain facts and to make recommendations as to any subject within the scope of legislative regulation or control.

The resolution providing for the appointment of a committee shall state the purpose of the committee, and the scope of the subject concerning which it is to act and may authorize it to act either during sessions of the Legislature or, when such authorization may lawfully be made, after final adjournment.

In the exercise of the power granted by this rule, each committee may appoint a secretary and adopt and amend such rules governing its procedure (including the fixing of its own quorum and the number of votes necessary to take action on any matter) as may appear necessary and proper to carry out the powers granted and duties imposed under this rule. It may employ such clerical, legal and technical assistants as may appear necessary.

Each such committee is authorized and empowered to summon and subpoena witnesses, require the production of papers, books, accounts, reports, documents, records and papers of every kind and description, to issue subpoenas and to take all necessary means to compel the attendance of witnesses and to procure testimony, oral and documentary.

Each member of such committees is authorized and empowered to administer oaths, and all of the provisions of Chapter 4, Part 1, Division 2, Title 2 of the Government Code, relating to the attendance and examination of witnesses before the Legislature and the committees thereof, shall apply to such committees.

The Sergeant at Arms of the Senate or Assembly, or such other person as may be designated by the chairman of the committee, shall serve any and all subpoenas, orders and other process that may be issued by the committee, when directed to do so by the chairman or by a majority of the membership of the committee.

Every department, commission, board, agency, officer and employee of the state government, including the Legislative Counsel and the Attorney General and their subordinates, and of every political subdivision, county, city, or public district of or in this State, shall give and furnish to these committees

and to their subcommittees upon request such information, records and documents as the committees deem necessary or proper for the achievement of the purposes for which each such committee was created.

Each such committee may meet at any time during the period in which it is authorized to act, even though the Legislature is in session, either, at the State Capitol or at any other place in the State of California, in public or executive session, and do any and all things necessary or convenient to enable it to exercise the powers and perform the duties herein granted to it or accomplish the objects and purposes of the resolution creating it. Each such committee may expend such money as may be made available to it for such purpose but no committee shall incur any indebtedness unless money shall have been first made available therefor.

Members shall not be entitled to any salary because of membership on any such committee but shall be allowed mileage at the rate of twelve and one-half cents ($0.125) per mile each way for travel both within and without the State incurred in connection with their services upon the committee and actual and necessary expenses for living accommodations and meals incurred in connection with their services upon the committee, or in lieu of such expenses for accommodations and meals, an allowance of twenty-five dollars ($25) per day. No expenses for accommodations or meals or any allowance in lieu thereof shall be allowed for a day when the member is entitled to reimbursement for expenses under Joint Rule No. 35. The chairman of each committee shall audit and approve the expense claims of the members of the committee including claims for mileage in connection with attendance on committee business, or in connection with specific assignments by the committee chairman, but excluding other types of mileage, and shall certify the amount approved to the Controller, and the Controller shall draw his warrants upon the certification of the chairman.

The chairman of any such committee may appoint subcommittees and chairman thereof for the purpose of more expeditiously handling and considering matters referred to it, and such subcommittees and the chairman thereof shall have all the powers and authority herein conferred upon the committee and its chairman. The chairman of such subcommittee shall audit the expense claims of the members of such subcommittees and other claims and the expenses incurred by it and shall certify the amount thereof to the chairman of the committee who shall, if he approves the same, certify the amount thereof to the Controller, and the Controller shall draw his warrant therefor upon such certification, and the Treasurer shall pay the same. Whenever such committee or any subcommittee thereof is authorized to leave the State of California in the performance of its duties, then such committee or subcommittee shall, while out of the State, have the same authority as if it were acting and functioning within the State, and the

members thereof shall be entitled to receive the same expense allowances as if the committee were functioning within the State.

This rule governs mileage only with respect to travel to and from committee meetings and with respect to travel necessary to carry out specific assignments made by the chairman of a committee. Such mileage is chargeable to the funds allocated to the specific committee for whom the travel was undertaken. Nothing in this rule shall prevent either house from providing by rule or resolution for the payment of mileage at the same rate herein specified for travel incurred in connection with committee business generally, payable from the contingent funds of either house after approval by the Rules Committee of that house, or its authorized representative.

Notwithstanding any provision of this rule, if the standing rules of either house require that expense claims of members of committees be audited or approved, after approval of the committee chairman, by another agency of either house, the Controller shall draw his warrants only upon the certification of such other agency.

Except salary claims of employees clearly subject to federal withheld tax and the requirement as to loyalty oaths, claims presented for services or pursuant to contract shall refer to the agreement, the terms of which shall be made available to the Controller.

CHAPTER 236

Assembly Joint Resolution No. 36—Relative to memorializing the Congress of the United States to enact into law proposed legislation to authorize the use of the airspace above and below the gradeline of highways within the interstate system.

[Filed with Secretary of State June 21, 1961.]

WHEREAS, There is presently pending before the Congress of the United States legislation authorizing a more beneficial use of the airspace above and below the established gradeline of highways within the interstate system; and

WHEREAS, The enactment of legislation to accomplish this purpose will result in greater financial benefits to the State of California and its political subdivisions without in any way impairing the full use and safety of the highways, or in any way interfering with the free flow of traffic on the interstate system; now, therefore, be it

Resolved by the Assembly and the Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress and the President of the United States to enact into law the legislation to authorize the more beneficial use of the airspace above and below the gradeline of highways within the interstate system; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 237

Assembly Joint Resolution No. 41—Relative to optimum development of the Central Valley Basin and San Francisco Bay region of California, including multipurpose development of certain watersheds therein.

[Filed with Secretary of State June 21, 1961]

WHEREAS, The settled policy of the Congress of the United States in the field of water resources activities and basin planning is stated repeatedly in the symposium of 31 reports of the Select Committee on Natural Water Resources United States Senate, established pursuant to Senate Resolution 48, 86th Congress; and

WHEREAS, In committee print No. 15 of said reports it is specifically stated that,

"The obvious way to achieve such coordination is to require that all developments within a basin shall fit as nearly as possible into and constitute an integral part of a comprehensive plan for the optimum development of the basins resources. This concept is now well established and the Congress has taken a number of steps to implement it. One important step in this direction is the efforts the Congress has, in a number of instances, authorized the Federal agencies to develop overall plans for important regions. At the present time comprehensive plans have been completed or are being completed under the leadership of the Corps of Engineers, and in full cooperation with States and other Federal agencies, in the Delaware and Columbia River Basins, and are being developed for river basins in the Southeast, and for the Texas basins, by 'Study Commissions' established by Congress for the purpose. Such developments indicate that the Congress is willing to do its part to implement the concept of comprehensive and coordinated development plans."

and

WHEREAS, The State of California has benefited greatly in past years from the co-ordinated activities of federal agencies in the construction of projects to control floods, conserve water, and to provide other water-associated benefits as carried out by the Bureau of Reclamation of the Department of Interior and the Corps of Engineers of the Department of the Army; and

WHEREAS, The State of California looks forward to continued activity by these two agencies toward the fuller development of the State's water resources; and

WHEREAS, Major projects such as the San Luis Unit have been authorized for construction by the Bureau of Reclamation and other major units such as Auburn Dam, Folsom South Unit, and the East Side Division of the Central Valley Project are approaching the authorization stage; and

WHEREAS, Virtually no multiple-purpose projects remain to be constructed in California which have been authorized for construction by the Corps of Engineers; and

WHEREAS, A number of proposed flood control and water development projects do remain in California which may be susceptible of development by the Corps of Engineers on the upper Sacramento River, Cache Creek, the Fresno River, Chowchilla River, Eel River and other North Coast streams, Cosumnes River, and streams in the San Francisco Bay Area; and

WHEREAS, The Congress throughout the decades has assigned to the Corps of Engineers the tasks of planning and developing systems of public works, for the control of floods in the rivers of the nation; for the improvement of navigation in rivers, canals, and harbors of the nation; for the protection of riverbanks and coastal shores, for the planning of highways and systems of transportation needed for the military defense of the nation, and the making of co-ordinated basin plans for public works; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation and provide funds to authorize the Corps of Engineers, in co-operation with the Federal Bureau of Reclamation and the California Department of Water Resources, and in conjunction with a study commission and other federal and state agencies, to make studies which would lead to multipurpose development of these basins; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of the Army, and to the Chief of Engineers.

CHAPTER 238

Assembly Joint Resolution No. 44—Relative to water resources development.

[Filed with Secretary of State June 21, 1961.]

WHEREAS, The federal government is presently engaged in the construction and operation of the Central Valley Project in the State of California, which project has resulted in great

benefits to many areas in the Sacramento and San Joaquin Valleys in this State; and

WHEREAS, One of the units of the Central Valley Project is the Tehama-Colusa Canal, which will deliver water from the Shasta and Trinity units of the Central Valley Project to service areas in the western portion of the Sacramento Valley; and

WHEREAS, There is an urgent need for water for agricultural purposes in Yolo and Lake Counties in this State, which regions have not been included in the service areas of any existing or proposed federal or state water development projects; and

WHEREAS, The need for water in these regions has resulted in studies of methods of developing the necessary water supplies, culminating in the recent report with respect to the proposed multipurpose Wilson Valley Project contained in Bulletin 90 of the State Department of Water Resources, dated March, 1961; and

WHEREAS, It would appear that either an extension of the Tehama-Colusa Canal through Yolo County to a terminus in the vicinity of Putah Creek or the Wilson Valley Project, or both, might be appropriate and feasible additions to the Central Valley Project; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to make funds available for a study of the feasibility of either extending the Tehama-Colusa Canal through Yolo County to a terminus in the vicinity of Putah Creek, or constructing the proposed multipurpose Wilson Valley Project, substantially as described in Bulletin 90 of the State Department of Water Resources, dated March, 1961, or both, as a part of the Central Valley Project for the benefit of both Yolo and Lake Counties; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State June 21, 1961.]

WHEREAS, The people of the State of California take great pride in the beauty of their highways; and

WHEREAS, At present the Division of Highways has a practice of clearing accumulated debris from but one side of the fences it maintains along our highways; and

WHEREAS, This practice results in significant quantities of unsightly debris accumulating adjacent to our highways; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Division of Highways be requested to clear accumulated debris from both sides of all fences which the division maintains along our highways where the Division of Highways has jurisdiction over sufficient property on both sides of the fence to reasonably permit such clearance; and be it further

Resolved, That, in other situations, the Division of Highways is requested to attempt to ascertain means, such as obtaining the permission without compensation of the abutting owner, of clearing weeds lying against the outer side of the fence which might affect the highway operation or view and not located there through the fault of the abutting owner where it is practical so to clear; and be it further

A complete system of workmen's compensation includes adequate provisions for the comfort, health and safety and general welfare of any and all workmen and those dependent upon them for support to the extent of relieving from the consequences of any injury or death incurred or sustained by workmen in the course of their employment, irrespective of the fault of any party; also full provision for securing safety in places of employment; full provision for such medical, surgical, hospital and other remedial treatment as is requisite to cure and relieve from the effects of such injury; full provision for adequate insurance coverage against liability to pay or furnish compensation; full provision for regulating such insurance coverage in all its aspects, including the establishment and management of a state compensation insurance fund; full provision for otherwise securing the payment of compensation; and full provision for vesting power, authority and jurisdiction in an administrative body with all the requisite governmental functions to determine any dispute or matter arising under such legislation, to the end that the administration of such legislation shall accomplish substantial justice in all cases expeditiously, inexpensively, and without incumbrance of any character; all of which matters are expressly declared to be the social public policy of this State, binding upon all departments of the state government.

The Legislature is vested with plenary powers, to provide for the settlement of any disputes arising under such legislation

The Legislature may combine in one statute all the provisions for a complete system of workmen's compensation, as herein defined.

The Legislature shall have power to provide for the payment of an award to the State in the case of the accidental death of an employee without dependents, and such awards may be used for the payment of extra compensation for subsequent injuries beyond the liability of a single employer for awards to his employees.

Nothing contained herein shall be taken or construed to impair or render ineffectual in any measure the creation and existence of the industrial accident commission of this State or the State Compensation Insurance Fund, the creation and existence of which, with all the functions vested in them, are hereby ratified and confirmed.

At said election a majority of the qualified electors voting upon each of the proposed charter amendments voted in favor thereof and adopted and ratified the same, as appears by the official canvass of the returns thereof by the City Clerk of The City of Los Angeles, heretofore certified by him to the Council of said City, and the declaration of the Council of the said The City of Los Angeles, which pursuant to law met on June 9, 1961, at its usual time and place of meeting, and duly declared the result of said canvass of the returns of said election, as certified by the said City Clerk.

(a) In the case of a disability pensioner retired under the provisions of Section 182, the amount payable as of June 30, 1960 calculated, however, on the degree of disability as of the effective date of this Section. shall be increased in the ratio which the consumer price index for the month of June, 1960 bears to the consumer price index for the month in which such pension became effective. The power vested in the Board of Pension Commissioners under the provision of Section 182 to change the amount of pension by reason of the degree of disability, as therein provided, is expressly continued and in the event of any such change subsequent to the effective date of this Section the amount established hereunder shall be increased or decreased in the ratio which the newly determined degree of disability bears to the degree of disability immediately preceding such change.

(b) In the case of a widow. or child or children, entitled to a pension based on service-connected disability or death pursuant to Section 183, the amount payable, calculated as of June 30. 1960, shall be increased in the ratio which the sum of the consumer price indexes for the three-year period ending June 30, 1960, or lesser period where the original pension was calculated on a period of less than three years, bears to the sum of such indexes for the period during which salary was originally taken into account in determining the amount of such pension; provided, however, that in the case of a widow receiving an additional amount on account of a child or children pursuant to Section 183, the increase provided by this Section shall first be calculated upon the amount due her, exclusive of such additional amount and the applicable percentage increase on account of children shall then be applied to her new pension amount.

The consumer price indexes referred to in this Section shall be those published by the Bureau of Labor Statistics for the Los Angeles area (all items and commodity groups 1947-49 = 100 base) and for those months for which a monthly index is not published, monthly indexes shall be established by a straight line interpolation between the published monthly indexes.

This Section shall not apply to any pension payment which fluctuates with the current salaries established for the several ranks and positions in the Fire or Police Department and in the event it is held by any final judgment or decree of a court of competent jurisdiction, subsequent to the effective date of

this Section that any person granted an increase under the provisions of this Section is entitled to a fluctuating pension based upon such salary rates, then, from and after the effective date of such adjudication, this Section shall have no further force or effect as to such person.

The additional liabilities assumed by the System under this Section, shall be funded under the provisions of Section 186.2 (2).

Charter Amendment No. 2

The Charter of The City of Los Angeles is hereby amended by adding Section 510.1 thereto, to read as follows:

Sec. 510.1. Cost of Living Adjustment.

Cost of living adjustments

From and after the first day of the month succeeding the effective date of this section, the monthly retirement allowance payable on account of any person retired on or before June 30, 1960, excluding therefrom any adjustment granted subsequent to the original effective date of such retirement, shall be increased in the ratio that the sum of the monthly consumer price indexes for the five-year period ending June 30, 1960 bears to the sum of such monthly price indexes for the five-year period ending on the last day of the month in which such allowance became effective; provided, that in the case of those retirement allowances effective prior to April 21, 1953 where the application of the foregoing formula produces an increase of less than $10.00 per month over the allowance payable as of June 30, 1960, such allowance shall, nevertheless, be increased by $10.00 per month.

For the purpose of this section the phrase "any person retired on or before June 30, 1960" shall comprehend and include the surviving spouse of a member who retired under one of the options provided by Section 509 and the surviving spouse of a member to whom the survivorship allowance provided by Section 511 A (3) is being paid.

The consumer price indexes, referred to in this section, shall be those published by the Bureau of Labor Statistics for the Los Angeles area (all items and commodity groups, 1947-49 = 100 base), and for those months for which a monthly index is not published, monthly indexes shall be established by a straight line interpolation between the published monthly indexes.

This section shall not be applicable to persons with less than 10 years of city service at the time of their retirement or those being paid an allowance under the vested right provisions of subsection B of Section 508.

A sum sufficient to liquidate the additional liabilities assumed by the System under this section over a period of years to be determined by the Board of Administration, shall be included in the annual budget for the City Employees' Retirement Fund in addition to the items specified in Section 506.

Charter Amendment No. 3

Subsection (h) of Section 139 of the Charter of The City of Los Angeles is amended to read as follows:

Powers of Board of Harbor Commissioners

(h) The powers conferred in this section upon the Board of Harbor Commissioners relating to the making and enforcement of rules and regulations of general application, and to the fixing, regulating and collecting of rates, tolls, and charges to be collected by the city, shall be exercised by order of the board adopted by a majority of its members. Every such order must be approved by the Council by ordinance before the same shall become effective; provided, however, that the board shall have power to suspend, modify or amend temporarily any such rule or regulation, or rate, toll or charge, or to place in effect any temporary rule or regulation, or rate, toll or charge, for periods not exceeding ninety days, and every such ordinance shall so provide. Every such ordinance shall prescribe penalties for the violation of the provisions of such order, and any person, firm or corporation who shall violate the provisions of any such order shall be guilty of a misdemeanor and shall be punishable by imprisonment in the city jail for a period not exceeding six months, or by a fine not exceeding five hundred dollars, or by both such fine and imprisonment, as may be prescribed in such ordinance.

We further certify that we have compared the text of the foregoing amendments with the original proposals submitting the same to the electors of said City and find that the foregoing are full, true, correct, complete and exact copies thereof, and each of them. That as to all of said amendments, this certificate shall be taken as a full and complete certification of the regularity of all proceedings had and done in connection therewith.

In witness whereof, we have hereunto set our hands and have caused the corporate seal of The City of Los Angeles to be affixed hereto this 9th day of June, 1961.

said amendments to the charter of the City of Los Angeles as proposed to and adopted and ratified by the electors of said city, and as hereinbefore fully set forth, be and the same are hereby approved as a whole, without amendment or alteration, for and as amendments to and as a part of the charter of the said the City of Los Angeles.

CHAPTER 266

Assembly Joint Resolution No. 43—Relative to amendments to the National Bankruptcy Act

[Filed with Secretary of State June 26, 1961.]

WHEREAS, The State of California has enacted laws licensing and regulating companies and persons engaged in the business of selling various types of investments to the public and as a part of such licensing and regulation the state law authorizes the particular licensing and regulating agency to take possession of the affairs and assets of such company or person under a conservatorship whenever it appears that the licensee is operating contrary to law or is in a hazardous financial condition; and

WHEREAS, At the present time there are some 11 trust deed investment companies which are licensees of the State, and in which the public has invested millions of dollars; and

WHEREAS, These companies are in receivership or bankruptcy under the provisions of the National Bankruptcy Act (Title 11, United States Code); and

WHEREAS, The Legislature of the State of California has before it legislation which would grant the agency having licensing jurisdiction over trust deed companies to take possession of a company if it was found to be operating contrary to law or in a hazardous and unsafe financial condition, for the purpose of rehabilitating or liquidating the company in order to safeguard the funds and property of the investing public; and

WHEREAS, In the past, under similar laws granting conservatorship and liquidation authority over licensees engaged in the investment of the public money, the State has been ousted of its conservatorship and jurisdiction by the licensee company petitioning for relief under the various provisions of the National Bankruptcy Act; and

WHEREAS, It is highly desirable and beneficial that state agencies, which are fully informed concerning the operations of the particular business of a licensee and are able to rehabilitate or liquidate the licensee, should not be stopped in the process by the intervention of federal authority under the Bankruptcy Act; and

WHEREAS, The State of California believes that such interruption of the conservatorship or liquidation proceedings not only delays the marshaling of assets but increases the cost and

expenses to the detriment of both creditors and investors and as well deprives the licensing agency of applying its expert knowledge to the affairs of the said licensees; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Congress of the United States is respectfully memorialized to enact appropriate amendments to the National Bankruptcy Act to exclude from the provisions of that act any person or company with respect to which the regulatory laws of the State applicable to the business in which the person or company is engaged provides for the conservatorship or liquidation of the licensed business, under the jurisdiction of a state court, and over which the conservatorship authority or liquidation authority is being exercised; and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to prepare and transmit copies of this resolution to the President and Vice President of the United States, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

CHAPTER 267

Assembly Concurrent Resolution No. 78—Relative to faculty participation in academic policy matters for state colleges.

[Filed with Secretary of State June 27, 1961.]

WHEREAS, It is traditional that faculty members in great institutions of higher learning participate in policy formation on academic and professional matters at such institutions through academic senates and councils; and

WHEREAS, The state colleges are to be organized and administered as a separate and independent system of higher education, one of the largest in the nation, under the Board of Trustees for the California State Colleges; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring therein, That the Trustees of the California State Colleges are hereby requested to provide for the establishment at each state college, of an academic senate or council wherein the faculty members shall be freely selected by their colleagues for the purpose of representing them in the formation of policy on academic and professional matters at such state colleges, and be it further

Resolved, That the Chief Clerk of the Assembly is hereby directed to transmit suitably prepared copies of this resolution to the Trustees of the California State Colleges.

CHAPTER 268

Assembly Concurrent Resolution No. 83—Relative to tolls on the San Mateo-Hayward Bridge and the Dumbarton Bridge.

[Filed with Secretary of State June 27, 1961.]

WHEREAS, All outstanding bonds issued in connection with the San Mateo-Hayward Bridge and the Dumbarton Bridge have recently been retired, and there is therefore no longer any legal obstacle to reduction in the tolls charged for the use of either of said bridges other than as provided by law in connection with the reconstruction of the San Mateo-Hayward Bridge; and

WHEREAS, It is proposed to operate these two bridges as a unit; and

WHEREAS, The toll schedules on these two bridges vary in several respects from those on the San Francisco-Oakland Bay Bridge, and

WHEREAS, Uniformity of tolls would be advantageous from the standpoint of administration and a great convenience to the public, now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Toll Bridge Authority and the Department of Public Works be requested to study the feasibility of making the tolls on the San Mateo-Hayward, Dumbarton, and the San Francisco-Oakland Bay bridges uniform or to reduce the tolls on automobiles on the San Mateo-Hayward or Dumbarton bridges to the rates now in effect on the San Francisco-Oakland Bay Bridge, and to determine the dates upon which such changes in toll rates could be made effective without interfering with any construction program authorized by law; and be it further

Resolved, That a report be made to the Legislature within the first 15 days of the 1962 Session; and be it further

Resolved, That the Chief Clerk of the Assembly be directed to transmit copies of this resolution to the Director of Public Works.

CHAPTER 269

Assembly Concurrent Resolution No. 99—Relative to an interim study of the investment of public retirement and pension funds, and creating the Joint Interim Committee on Investment of Public Retirement and Pension Funds

[Filed with Secretary of State June 27, 1961.]

WHEREAS, Both houses of the Legislature have approved Assembly Constitutional Amendment No. 45 which, if approved by the voters, would authorize the Legislature to permit the investment of public pension or retirement funds in the stock of any corporation; and

WHEREAS, The pension and retirement funds affected are a sacred trust deserving the most meticulous care; and

WHEREAS, The magnitude of these funds now exceeds in the aggregate three billion dollars and the investment and management of such amounts require the finest, most experienced and highly trained personnel and the most modern equipment for economical, profitable and secure handling of investments; and

WHEREAS, It is necessary that the Legislature have before it all pertinent data in order to fully consider the problems and opportunities presented by Assembly Constitutional Amendment No. 45 if it is approved by the voters; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, As follows:

1. The Joint Interim Committee on Investment of Public Retirement and Pension Funds is hereby created and authorized and directed to ascertain, study and analyze all facts relating to the investment of public retirement and pension funds with emphasis on the problems, opportunities, needs of personnel, methods, and equipment, and policies which will be required under the constitutional amendment proposed by Assembly Constitutional Amendment No. 45 at this session, including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Legislature, including in the reports its recommendations for appropriate legislation by not later than the 30th calendar day of the 1963 Regular Session.

2. The committee shall consist of two Members of the Senate appointed by the Committee on Rules thereof, and two Members of the Assembly appointed by the Speaker thereof. Vacancies occurring in the membership of the committee shall be filled by the appointing power.

3. The committee is authorized to act during and after this session and until the filing of its report at the 1963 Regular Session.

4. The committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time at this session, which provisions are incorporated herein and made applicable to this committee and its members.

5. The committee has the following additional powers and duties:

(a) To select a chairman and a vice chairman from its membership.

(b) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such

services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

(c) To report its findings and recommendations to the Legislature within the time herein specified.

(d) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution.

6. The sum of five thousand dollars ($5,000) or so much thereof as may be necessary is hereby made available from the Contingent Funds of the Senate and Assembly for the expenses of the committee and its members and for any charges, expenses or claims it may incur under this resolution, to be paid from the said contingent funds equally and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

CHAPTER 270

Assembly Concurrent Resolution No. 100—Relative to receipt and allocation of federal funds for education.

[Filed with Secretary of State June 27, 1961.]

WHEREAS, There are now pending before the Congress of the United States measures H.R 4970 and S. 1012 which, if enacted, would authorize a "three-year program of federal grants to states to assist their local education agencies to construct classrooms and pay teachers' salaries"; and

WHEREAS, Under this pending legislation California would be entitled to receive substantial federal funds in the fiscal years 1962, 1963, and 1964; and

WHEREAS, In order to receive the aforesaid amounts, it will be necessary for the state educational agency, as defined in proposed legislation, to submit to the United States Commissioner of Education an application for his approval which must meet criteria set forth in H.R. 4970 and S. 1012; and

WHEREAS, The criteria indicated above are designed to provide assurances by the state educational agency that in the allocation of funds received under the proposed legislation, it will specify at the beginning of each year "the proportion of its allotment for such year that will be expended for (A) public school teachers' salaries and (B) the construction of public school facilities"; and the amounts "to be used for school facilities construction will be allocated within the State so that priority is given to local education agencies which, in the judgment of the state education agency, have the greatest need for additional school facilities, and which are least able to finance the costs of needed school facilities"; and

WHEREAS, The plan submitted must indicate that the amounts "to be used for school teachers' salaries will be allocated so that preference is given to local education agencies

which, in the judgment of the state education agency, have the greatest need for additional teachers or increases in their teachers' salaries and which are least able to finance such costs"; and

WHEREAS, It is the further intent of the Congress, as set forth in the proposed legislation, that "the inequalities of educational opportunities within and between states will be substantially reduced"; and

WHEREAS, The aforesaid legislation may be enacted following the adjournment of the 1961 Regular Session of the California Legislature and the need for prompt submittal of the application prior to the 1962 Budget Session will exist; and

WHEREAS, It is desirable that the Legislature express its intent to the State Board of Education and the State Superintendent of Public Instruction concerning the distribution of any additional federal funds which may be forthcoming to the State of California under the terms of H.R. 4970, S. 1012, or similar legislation, if enacted, to guide these state agencies in the preparation and submission of the State's application to the United States Commissioner; now, therefore, be it

Resolved, That in any allocation of such funds for teachers' salaries, any or all school districts in the State may be given consideration where need is shown, with preference given "to the local education agencies which, in the judgment" of the State Board of Education "have the greatest need for additional teachers or increases in their teachers' salaries, and which are least able to finance such costs"; and be it further

Resolved, That as used in this resolution "teachers' salaries" means "salaries of classroom teachers" as defined in Education Code Section 17200, and "construction of school facilities" means the acquisition or additions to sites, improvement of sites, construction or purchase of new buildings, additions to and replacement of buildings, and acquisition of new equipment for facilities; and be it further

Resolved, That in determining "the greatest need", as used in the proposed federal legislation, full consideration shall be given to the total effort of the local education agency in light of the total financial resources otherwise available to it to meet such need; and be it further

Resolved, That any portion of such federal funds which are authorized by the federal law to be used in any manner similar to that described in Section 109 of S. 1021 (as of May 25, 1961) may be allocated by the State Board of Education for such purposes, but, in any event, such allocation shall be in addition to any funds otherwise available for such purposes; and be it further

Resolved, That, insofar as practicable and where not inconsistent with the other considerations set forth above, allocations to local education agencies shall be made with a view to assisting the reduction of class size in those agencies maintaining classes (exclusive of kindergarten and special classes) of

an average size in excess of 30 pupils in elementary grades and 28 pupils in secondary grades; and be it further

Resolved, That the Chief Clerk of the Assembly shall forward copies of this resolution to the President of the State Board of Education and the State Superintendent of Public Instruction.

CHAPTER 271

Assembly Concurrent Resolution No. 106—Relative to the shortage of professors.

[Filed with Secretary of State June 27, 1961.]

WHEREAS, Increased state college and state university enrollments during the 1960's will place a demand for qualified professors with doctorate degrees which cannot possibly be met by the numbers of persons holding Ph.D. degrees currently expected to be available to state colleges and universities during the 1960's; and

WHEREAS, Business institutions, other professions, and industry are obtaining the services of these qualified people because of the attraction of greater benefits and higher salaries; and

WHEREAS, The following are but a few examples to substantiate this situation:

1. That at the turn of the century, 80 percent of all persons holding Ph.D. degrees went into academic life; today only 60 percent go into academic life.

2. That between 253,000 and 387,000 new professors will be needed during 1961-70. We can expect that 51,000 to 61,000 of the persons who will have Ph.D. degrees conferred upon them during the decade 1961-70 will go into academic life.

3. That it takes a substantial time after the receipt of the B.A. degree for an individual to acquire a Ph.D.; and that those starting their training now will not be available until near the end of the decade.

4. That the State Personnel Board has recognized the recruiting advantages of other colleges in the nature of their offering "greater opportunity for research, broader programs of employee benefits, including health and welfare plans paid in part or full by the college, and more liberal provisions for sabbatical leave."

5. That in 1939 a full professor's salary was among the top 2 percent of wages and salaries in the United States; and that while in the last 20 years, the real wage of college professors has increased only 7.2 percent, the weekly real wage of production workers in manufacturing industry increased 77 percent, of physicians 84 percent and dentists 43 percent.

6. That private colleges and universities in this State have initiated aggressive crash programs to raise their competitive level in salary and benefits for matching nonacademic employees; with Stanford University, for example, setting a

three-year period in which it will seek 75 percent increase in faculty salaries; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That in order for California's state colleges and universities to be able to compete for the talent necessary to provide the highest quality of education the California Legislature recommends that the Trustees of the California State Colleges, the Coordinating Council for Higher Education and the Regents of the University of California co-operate and work with the State Department of Finance in making a study to find ways and means of making substantial increases in the salaries, working conditions and fringe benefits of the professors in California's state colleges and university, during the next six to eight years if their study substantiates the need for such increases; and be it further

Resolved, That the Coordinating Council for Higher Education is requested to compile the results of such studies and to report its findings thereon to the Legislature by the fifth calendar day of the 1963 Regular Session.

CHAPTER 272

Assembly Concurrent Resolution No. 133—Relative to a study of the need and feasibility of establishing a state college in San Mateo County.

[Filed with Secretary of State June 27, 1961.]

WHEREAS, The tremendous population growth which has occurred in California in recent years and which will continue for decades to come, confronts the structure of public higher education in this State with projected future enrollments at educational institutions of collegiate grade of such magnitude as to make imperative the immediate development of plans for expansion of state college facilities and campuses; and

WHEREAS, The population growth of San Mateo County and vicinity has occurred and will concededly continue at a rate substantially higher than that prevailing throughout the State as a whole; and

WHEREAS, The number of students of collegiate grade from San Mateo County and vicinity is already substantial and will, within a few years, be more than sufficient to justify accommodation by a separate state college campus located in that area, the establishment of which is essential if the undue impact of those students upon neighboring institutions of higher learning is to be lessened and the difficulties otherwise imposed upon the students and the public in general in requiring that the students travel over considerable distances to attend such other institutions are to be avoided; and

WHEREAS, The report of the Subcommittee on Higher Education Beyond the Twelfth Grade, of the 1957-1959 Assembly Interim Committee on Education, published in March, 1959,

has recommended that consideration of the establishment of a separate state college in San Mateo County be given top priority in any plans for expansion of state college facilities and campuses; and

WHEREAS, Assembly Bill No. 504 of the 1961 Regular Session would establish in the area consisting of San Mateo County the San Mateo State College; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Trustees of the California State Colleges and the Coordinating Council for Higher Education are directed to undertake immediately a joint study of the subject matter of Assembly Bill No. 504 of the 1961 Regular Session and the need and feasibility for the establishment of a state college in San Mateo County, and to report thereon to Legislature on or before the fifth calendar day of the 1963 Regular Session, including in the report their findings and recommendations; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the Trustees of the State College System and the Coordinating Council for Higher Education.

CHAPTER 273

Assembly Concurrent Resolution No. 135—Relative to augmenting the funds of the Joint Committee on Legislative Organization.

[Filed with Secretary of State June 27, 1961.]

Resolved by the Assembly of the State of California, the Senate thereof concurring, That in addition to any other money made available, the sum of fifty thousand dollars ($50,000), or so much thereof as may be necessary, is hereby made available from the Contingent Funds of the Assembly and the Senate, in equal shares, for the expenses of the Joint Committee on Legislative Organization (created by Joint Rule 40 of the 1961 Regular Session) and its members and for any charges, expenses, or claims it may incur, to be paid equally from the said contingent funds and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasurer.

CHAPTER 274

Assembly Concurrent Resolution No. 137—Relative to printing maps of assembly, senate and congressional districts.

[Filed with Secretary of State June 27, 1961.]

Resolved by the Assembly of the State of California, the Senate thereof concurring, That there shall be drafted and

printed, as public documents, five thousand (5,000) copies, each, of maps showing the boundaries of assembly districts, senate districts, and congressional districts, as formed by the Legislature at its 1961 Regular Session; and be it further

Resolved, That the Chief Clerk of the Assembly and the Secretary of the Senate are hereby instructed to make available 25 copies of each of the maps to each member of the Assembly and the Senate; to distribute copies of each of the maps to each constitutional officer, department head, and state agency that may have occasion to use such maps, such distribution not to exceed a total of 200 copies of each such map; and to hold the remainder for sale by the Division of Printing; and be it further

Resolved, That the cost of such printing shall be payable from the legislative printing appropriation.

CHAPTER 275

Assembly Joint Resolution No. 45—Relative to establishment of a federal water pollution control research facility in California.

[Filed with Secretary of State June 27, 1961]

WHEREAS, The Congress of the United States is considering legislation for the establishment of several regional laboratories and research facilities for the conduct of technical investigations, experiments, field studies and training relative to the prevention and control of water pollution; and

WHEREAS, One of said research facilities is to be located in the southwestern area, and insofar as practicable, said facilities are to be located near institutions of higher learning in which graduate training in such research might be carried out; and

WHEREAS, Regional research facilities are urgently needed to supplement the activities of the Robert A. Taft Sanitary Engineering Center, Cincinnati, Ohio, in providing technical assistance to the states and local agencies on the mounting problems of water pollution control and water resources management; and

WHEREAS, It is both logical and desirable that a regional research facility be established in California, not only because of the magnitude of water pollution and water quality problems in this State but also for the reason that California agencies have been conducting a substantial portion of water pollution control research at the state level; and

WHEREAS, California is one of the areas of the United States in which the problems of water quality management are both critical and of great magnitude as evidenced by the fact that the State's present population of over 15 million is expected to almost double in the next 20 years and, to make possible

this growth, the people of the State last year voted a $1,750,000,000 water bond proposition initiating the greatest water development project ever conceived in any state of the union; and

WHEREAS, California is ideally located for studying the ground water quality problems that are unique to the southwest, since one-third of the nation's ground water supplies are developed here and since California has been the forerunner in conserving and augmenting water resources by recharging ground water basins; and

WHEREAS, Ground water problems associated with sea water intrusion also can be studied in California for the reason that 13 ground water basins along the State's coastline already have been damaged by the encroachment of saline waters and other basins are now being threatened; and

WHEREAS, California has the added geographical advantage of being situated where studies of marine waste disposal problems can be undertaken since two-thirds of the State's sewage and industrial wastes are discharged into ocean waters; and

WHEREAS, The State has, in the University of California, an institution of higher learning that provides graduate education in the fields of research to be carried out in the proposed regional research facilities; and

WHEREAS, The extent of said university's educational and research activities in the field of water pollution control is documented by the following facts;

(1) It has the oldest sanitary engineering program on the West Coast, with the largest full-time academic staff in the United States, the greatest number of resident graduate students, and the largest number of sanitary engineers working for doctorates;

(2) It has the nation's most extensive academic research program in the field of water pollution control, operating research laboratories with a paid staff of 115 and undertaking over $750,000 annually on research studies, including, but not limited to, waste water reclamation, marine waste disposal, ground water pollution problems, and waste treatment processes;

(3) It has a School of Public Health with internationally recognized competence in the field of radiological health sciences—a field of increasing significance in water pollution control programs; and

WHEREAS, A research facility located near the University of California would be able not only to draw upon a large reservoir of academic personnel and graduate students but would also benefit from the extensive research being conducted by the university in the fields of water pollution control and water resources management; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of

the United States to enact legislation establishing regional water pollution control research facilities and to locate one of these facilities near the University of California; and be it further

Resolved, That the Chief Clerk of the Assembly be hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Health, Education, and Welfare.

CHAPTER 276

Assembly Joint Resolution No. 46—Relative to urging the federal government to continue to permit employment service administrative funds to be expended for classified advertising in the operations of the placement service of the California Department of Employment.

[Filed with Secretary of State June 27, 1961.]

WHEREAS, For more than eight years the California Department of Employment has utilized paid classified advertising as an integral part of placement operations conducted under the uniform national system of public employment offices established under federal law; and

WHEREAS, The effectiveness of such activity and the resultant benefit to individuals, industry and the community as a whole far outweighs costs involved, particularly when considered in connection with the additional free public-service advertising it has tended to cause publishers to make available to the department; and

WHEREAS, This method of communicating job opportunities has always been utilized in California only to a modest extent involving a comparatively minor portion of the administrative expenditures connected with placement operations, and has been strictly limited always to advertising to obtain applicants in shortage occupations, and not to advertise jobs for which applicants are available from the active application file; and

WHEREAS, The filling of a few such key jobs through classified advertising has frequently resulted in affecting the subsequent placement of substantial numbers of active file applicants in related positions; and

WHEREAS, Though the administrative expense funds for the State's placement operations are provided by the federal government, they are in fact collected from California employers under the Federal Unemployment Tax Act; and

WHEREAS, Statements contained in House Report No. 392 accompanying proposed legislation embodied in H.R. 7035, the appropriation bill for the Department of Labor, Health, Edu-

cation and Welfare, and related agencies indicates that it is contemplated that measures be undertaken to impose restrictions which would prohibit expenditures of administrative funds for such classified advertising; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States is urged to permit continuation of the utilization of classified advertising as an integral part of state placement operations in the national system of employment offices; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit copies of this resolution to the President and Vice President of the United States, and to each Member of the Congress of the United States representing the State of California.
