If at the conclusion of said hearing the board of supervisors of the county determines that all of the allegations of the petition and resolution of the board of directors of the district are true and that there is no useful purpose in continuing the existence of the district, the board of supervisors of the county shall pass a resolution declaring the district to be dissolved; provided, however, that the district shall not be dissolved pursuant to this article if, at the conclusion of said hearing, the written protest of 10 percent of the registered voters of the district has been received.

Protest bar to dissolution

Disposition of cash reserves

58997. Upon dissolution of the district pursuant to this article, any unexpended cash reserves standing to the credit of the district shall be deposited in the general fund of the county hearing the petition; if the district lies in more than one county, unexpended cash reserves shall be divided pro rata among the counties on the basis of the assessed valuation of the property within the district in each county.

SECTION 1. Section 262 of the Revenue and Taxation Code is amended to read:

Refunds

Urgency

SEC. 3. This act is an urgency measure, necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(a) Some churches have inadvertently failed to file the required affidavit in support of the tax exemption of their property which is granted by the State Constitution, and as a result now are confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the State as expressed in the Constitution will be entirely fulfilled and the State as a whole will benefit.

(b) Some organizations qualified for the welfare exemption pursuant to Section 214 purchased property during the 1957 calendar year, after the lien date for that year, which property was taxed for the fiscal year 1957-58, although it would have been exempt from taxation for that year by reason of the welfare exemption had it been acquired prior to such lien date. If required to meet such tax obligation, the ability of such organizations to function effectively will be seriously impaired to the great detriment of our State. This act will remedy that situation, and in so doing, the public policy of the State for the exemption of property owned by welfare organizations, as expressed in Section 1c of Article XIII of the Constitution, will be subserved and the State as a whole will benefit.

CHAPTER 1765

An act to add Part 6 (commencing with Section 35800) to Division 24 of the Health and Safety Code, relating to housing for elderly persons of low income, and making an appropriation therefor.

[Approved by Governor July 15, 1961. Filed with Secretary of State July 13, 1961.] In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Part 6 (commencing with Section 35800) is added to Division 24 of the Health and Safety Code, to read:

PART 6. HOUSING FOR ELDERLY PERSONS OF LOW INCOME

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

35800. This part may be cited and shall be known as the Housing for the Elderly Law. Short title

35801. It is hereby declared: Legislature's declaration

(a) That there exist in the State insanitary or unsafe dwelling accommodations and that elderly persons of low income are forced to reside in such accommodations; that within the State there is a shortage of safe or sanitary dwelling accommodations available at rents which elderly persons of low income can afford and that such persons are forced to occupy overcrowded and congested dwelling accommodations; that these conditions cause an increase in and spread of disease and crime

and constitute a menace to the health, safety, morals, and welfare of the residents of the State and impair economic values; that these conditions necessitate excessive and disproportionate expenditures of public funds for crime prevention and punishment, public health and safety, fire and accident protection, and other public services and facilities.

(b) That these slum areas cannot be cleared, nor can the shortage of safe and sanitary dwellings for elderly persons of low income be relieved, entirely through the operation of private enterprise, and that the construction, acquisition, and development of housing projects for elderly persons of low income should therefore be on a co-operative basis between private enterprise and public agencies.

(c) That the clearance, replanning, and reconstruction of the areas in which insanitary or unsafe housing conditions exist and the providing of safe and sanitary dwelling accommodations for elderly persons of low income are public uses and purposes for which public money may be spent and private property acquired and are governmental functions of state concern; that it is in the public interest that work on such projects be commenced as soon as possible; and the necessity in the public interest for the provisions of this chapter is declared as a matter of legislative determination.

It is intended that the use of the scale formulated pursuant to this section be optional, and that no county, court, officer, or agency be required to use that scale unless they so desire.

CHAPTER 1784

An act to add Article 5 (commencing with Section 1570) to Chapter 1 of Part 2 of Division 2 of, and to repeal Sections 1523, 1552.4, and 1552.6 of, the Welfare and Institutions Code, relating to aid to needy children.

[Approved by Governor July 15, 1961. Filed with Secretary of State July 18, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 1570) is added to Chapter 1 of Part 2 of Division 2 of the Welfare and Institutions Code, to read:

Article 5. Enforcement

District attorney to enforce

1570. It is the duty of the district attorney to take such action as may be prescribed in this article, and in Section 270 of the Penal Code, to enforce the support liability of persons responsible for the support of children receiving aid under this chapter.

Same Limitations

However, it is not intended that the district attorney shall initiate any support proceedings under this article against caretaker parents except on the request of the county welfare department. The filing of an application for aid under this chapter shall not constitute and shall not be construed as a failure or refusal of any parent signing said application to carry out his parental responsibilities as provided in Section 270 of the Penal Code.

Supervisor's to notify district attorney

1571. The board of supervisors shall immediately notify the district attorney of the county whenever aid is granted to a child who is not being supported by a parent unless it is definitely established that the parent is financially incapable of providing such support.

Referral to district attorney

In all cases in which the whereabouts of the parent is unknown, the county welfare department shall refer the applicant to the district attorney at the time the application for assistance is signed, irrespective of whether or not it is definitely established that the parent is financially incapable of supporting the child in whose behalf the application is being made. Upon the advice of the county welfare department that a child

is being considered for adoption, the district attorney shall delay his investigation and other action with respect to the case until advised that the adoption is no longer under consideration.

Co-operation with district attorney

The county welfare department shall co-operate with the district attorney and shall report to him all information contained in the case record which concerns the question of nonsupport and the suitability of prosecution as a method of obtaining support for the child in each case.

Investigation

The district attorney shall immediately investigate the question of nonsupport and shall take all steps necessary to obtain support for the needy child. The granting of aid to the applicant shall not be delayed or contingent upon such investigation by the district attorney. The district attorney shall report regularly to the board of supervisors on the progress of his efforts.

Parent's refusal of reasonable assistance

1572. Any child, who is otherwise qualified to receive a grant or payments for aid under this chapter by reason of the continued absence of one of such child's parents from the home and who is residing with, or is in the custody or control of the other parent, shall be disqualified from receiving such grant or payments for so long as the parent, who has such custody and control or with whom such child resides, refuses law enforcement officers charged with the duty or right of enforcing the obligation of such absent parent for the care, support and maintenance of such child under and by virtue of the penal laws of the State of California, reasonable assistance in the enforcement of such obligation.

Any one or more of the following acts by the parent having custody of the child shall be deemed to be a refusal to offer reasonable assistance to law enforcement officers:

(a) A refusal to be interviewed by the district attorney.

(b) A refusal to sign a complaint against the absent parent.

(c) A request to dismiss the complaint.

(d) The concealment of the identity or whereabouts of the absent parent.

Co-operation of state, local, agencies

1573. All state, county, and local agencies shall co-operate in the location of parents who have abandoned or deserted children irrespective of whether such children are or are not receiving public assistance under Division 2 of Part 2 of the code, and shall on request supply the county welfare department, any county probation officer, or the district attorney of any county in this State with all information on hand relative to the location, income, and property of such absent parents, notwithstanding any other provision of law making such information confidential, and with all information on hand relative to the location and prosecution of any person who has, by means of false statement or representation or by impersonation or other fraudulent device, obtained aid for a child under this chapter. The county welfare department shall use such information only for the purposes of administration of aid to needy children, and the district attorney or county probation officer

shall use it only for the purpose of enforcing the support liability of such absent parents or for the prosecution of other persons mentioned in this section, and neither shall use the information, or disclose it, for any other purpose.

Nothing in this section shall be construed to compel the disclosure of information relating to a deserting parent who is a recipient of aid under a public assistance program for which federal aid is paid to this State, if such information is required to be kept confidential by the federal law or regulations relating to such program.

Paternity referral, investigation, etc

1574. In all cases in which the paternity of the child has not been established to the satisfaction of the county welfare department, the county welfare department shall refer the applicant to the district attorney at the time the application is signed. Upon the advice of a county welfare department that a child is being considered for adoption, and regardless of whether or not the whereabouts of the parent is known, the district attorney shall delay his investigation and other action with respect to the case until advised that the adoption is no longer under consideration. The district attorney shall conduct such investigation as he considers necessary, and where he deems it appropriate he may bring an action under Section 231 of the Civil Code. When the cause is at issue, it shall be set for trial at the earliest possible date and shall take precedence of all other cases except older matters of the same character and matters to which precedence may be given by law.

Misdemeanor

1575. Any person other than a needy child, as defined in Section 1500, who willfully and knowingly receives or uses any part of an aid grant paid pursuant to this chapter for a purpose other than support of the needy children and the caretaker involved is guilty of a misdemeanor.

Prosecution

1576. If the district attorney, during the course of any investigation made by him pursuant to this article, determines that any person has committed any act or has omitted the performance of any duty, which act or omission causes or tends to cause or encourage any child receiving aid under this chapter to come within the provisions of any of the subdivisions of Section 700 of this code, the district attorney shall prosecute such person under the provisions of Section 702 of this code

Misdemeanor

1577. Any person other than a needy child, as defined in Section 1500, who willfully and knowingly, with the intent to deceive, makes a false statement or representation or knowingly fails to disclose a material fact to obtain aid, or who, knowing he is not entitled thereto, attempts to obtain aid or to continue to receive aid to which he is not entitled, or a larger amount than that to which he is legally entitled, is guilty of a misdemeanor.

Orders in divorce, etc., cases

1578 If aid has been applied for or granted to a child of parents who are divorced or legally separated, or who are engaged in divorce or separate maintenance action which is pending, the district attorney may apply to the superior court

in such action for an order directing either parent or both to show cause:

(1) Why an order of support for the child should not be entered, or

(2) Why the amount of support previously ordered should not be increased, or

(3) Why the parent should not be held in contempt for his failure to comply with any order of support previously entered.

Poles

(b) Tools and materials incidental to the work to be performed may be transported on a single-axle pole or pipe dolly or otherwise lawful single-axle semitrailer used as a pole or pipe dolly, transporting not more than three poles not exceeding 80 feet in length and when used by public utility companies or local public agencies engaged in the business of supplying electricity or telephone service, by the Department of Public Works, or by a licensed contractor in the performance of work for a utility, the department, or a local public agency, when such transportation is between a storage yard and job location where such tools and materials are to be used, in which event the limitations of this chapter as to length of vehicles and loads shall not apply.

CHAPTER 1848

An act to amend Sections 14113, 14127, 14128, 14251, 14256, 14259, 14365, 14367, 14368, 14372, and 14410 of the Education Code, relating to Teachers' Retirement System.

[Approved by Governor July 15, 1961. Filed with Secretary of State July 18, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 14113 of the Education Code is amended to read:

Annuity deposits for additional benefits

14113. Subject to rules prescribed by the board, any member may elect to make annuity deposits for the purpose of providing additional benefits. Annuity deposits may be (a) deducted from earned compensation, deposited in the county treasury, remitted and reported to the board, in the manner prescribed for annuity contributions or (b) remitted by the member directly to the retirement system. The member may cancel such election and later elect again at any time, but accumulated annuity deposits derived from such deposits made after June 30, 1956, may be withdrawn only as provided in Section 14151.

SEC. 2. Section 14127 of said code is amended to read:

Adjustments for improper amount of contributions

14127. If more or less than the correct amount of the contributions is paid with respect to any salary payment, including salary payments to exchange teachers for service outside of this State, proper adjustments shall be made, without interest, in connection with subsequent salary payments, or adjustments may be made by direct cash payments between the member and the county superintendent of schools, employer, or the Retirement Board. Adjustments to correct any other errors in payments to or by the Retirement Board may be made in the same manner. If the board determines that an amount is due the system from a person who has retired, including one who has applied for retirement but has not received his first retirement warrant, and that the person is unable to pay the amount due, the board may withhold all or part of subsequent payments due the member, or on his account, until the amounts so withheld equal the amount due plus interest at the rate in use under the system.

SEC. 3. Section 14128 of said code is amended to read:

Claims for advances on retirement allowances

14128. Whenever the board determines that payments to a member who has applied for retirement cannot be made until after the first day of the month following that month for which such payments are due, the board may present claims for advances on retirement allowances which would normally be due a retired member of the system estimated on preliminary information in the possession of the board, and the State Controller shall draw warrants in payment of such claims. Any loss incurred in connection with an advance payment shall be a charge against the fund from which the payment was derived. Such advances to an individual may not be made in excess of the amount of Permanent Fund contributions and accumulated Retirement Annuity Fund contributions credited to his account and shall be a lien on said contributions until otherwise accounted for.

Upon the mailing of the first warrant drawn pursuant to this section, the member shall be considered as a retired person and subject to all of the provisions of this chapter which apply to such persons, except that any additional amount due pursuant to the provisions of Section 14106 for service rendered after July 1, 1944, shall be due and payable when the system has mailed to the member a statement of the amount so due,

and also except that any refund due the member pursuant to the provisions of Section 14107 shall be made not later than 90 days after termination of payments under this section.

If any such advances are more or less than the correct amount due to the member, or beneficiary of the member receiving the advances, the difference between such correct amount and the advance shall be adjusted in subsequent payments to such retired member or beneficiary, or the State Controller may state an account with the member or beneficiary, pursuant to Government Code Section 12419.

SEC. 4. Section 14251 of said code is amended to read:

Payments to beneficiary

14251. Except as provided in Sections 14364, 14365, or 14366, upon receipt of proof of a member's death which occurred before the effective date of his retirement or after said date but before the date upon which the warrant for his first retirement allowance is mailed, including a warrant for an advance payment as permitted by Section 14128, and within four months after the termination of the member's employment in a status requisite for membership in this retirement system, or while the member was physically or mentally incapacitated for performance of his duty, if such incapacity had been continuous from said termination, there shall be paid to such beneficiary as he has nominated by written designation duly filed with the Retirement Board:

(a) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(b) The accumulated annuity contributions standing to the credit of his individual account in the Retirement Annuity Fund.

(c) Any moneys standing to the credit of his individual account in the Annuity Deposit Fund pursuant to Section 13906, together with the interest accumulated thereon.

(d) An amount, provided from contributions by the State, and payable from the Retirement Annuity Fund, for each completed year of service as a member, not to exceed six and excluding those years of service with respect to which contributions have been refunded and the member had not elected to redeposit pursuant to Section 14155, equal to one-twelfth of the salary which would have been earned by the member at the rate of salary at which he was last employed preceding death, assuming engagement in duties for the number of school days during the school year in which said employment existed From the amount determined under the sentence next preceding, there shall be deducted an amount equal to that portion of the benefit payable on account of said death by a local retirement system or the State Employees' Retirement System, which is provided from contributions of the employer, and is in addition to the portion of the benefit payable by said systems which is made up of the accumulated contributions of the member, and independently of any optional election made by said person at the time of his retire-

ment, under which he received a reduced retirement allowance and a benefit was provided at his death.

SEC. 5. Section 14256 of said code is amended to read:

Survivors' benefits for members dying after September 30, 1959

14256. If the member at the time of death which occurs after September 30, 1959, was entitled to be credited with one or more years of service, and, if there has been a break in the member's employment of more than one year, one-half year of such service having been rendered after the end of the last such break, and on account of whose death the benefit provided by Section 14251 is payable (a) the surviving wife or surviving dependent husband of the member, who has the care of unmarried children, including stepchildren, of the member who are under 18 years of age or are incapacitated because of a disability which began before and has continued without interruption after attainment of such age, or if there is no such spouse, then (b) the guardian of surviving unmarried children, including stepchildren, of the member who are under 18 years of age or so incapacitated, if any, or if none, then (c) the surviving wife or surviving dependent husband of the member, who does not qualify under (a) of this paragraph, if any, or if none, then (d) each surviving parent of the member, shall be paid regardless of the beneficiary designated by the member under Section 14251, the following applicable survivor allowance, under the conditions stated and from contributions of the State:

(1) A widow, or a widower receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has the care of unmarried children, including stepchildren, of the deceased member under 18 years of age or so incapacitated, shall be paid one hundred eighty dollars ($180) per month if there is one such child, or two hundred fifty dollars ($250) per month if there are two or more such children. If there also are such children who are not in the care of the surviving spouse, the portion of the allowance payable under this paragraph assuming that these children were in the care of the surviving spouse, which is in excess of ninety dollars ($90) per month, shall be divided equally among all such children and payments made to the spouse and such other children, as the case may be.

(2) If there is no such surviving spouse, or if such surviving spouse dies or remarries and if there are unmarried children, including stepchildren, of the deceased member under 18 years of age or so incapacitated, or if there are such children not in the care of the surviving spouse, such children shall be paid an allowance as follows:

(a) If there is only one such child, such child shall be paid ninety dollars ($90) per month;

(b) If there are two such children, such children shall be paid one hundred eighty dollars ($180) per month divided equally between them; and

(c) If there are three or more such children, such children shall be paid two hundred fifty dollars ($250) per month divided equally among them.

(3) A widow who has attained or attains the age of 62 years, or a widower who has attained or attains the age of 65 years and was receiving at least one-half of his support from the deceased member at the time of the member's death, and, with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has not remarried subsequent to the member's death, shall be paid ninety dollars ($90) per month. No allowance shall be paid under this paragraph while the surviving spouse is receiving an allowance under paragraph (1) of this section, or while an allowance is being paid under subparagraph (c), paragraph (2) of this section. The allowance paid under this paragraph shall be seventy dollars ($70) per month while an allowance is being paid under subparagraph (b), paragraph (2) of this section.

(4) If there is no surviving spouse, or surviving children who qualify for a survivor allowance, or if such surviving spouse dies or remarries, or if such children reach age 18 or die or marry prior thereto, or cease to be disabled after reaching such age, each of the member's dependent mother and father who has attained or attains the age of 62 or 65, respectively, and who received at least one-half of his support from the member at the time of the member's death, shall be paid ninety dollars ($90) per month.

SEC. 6. Section 14259 of said code is amended to read:

Effect of earnings of beneficiary

14259. If, during any calendar year, a surviving spouse or parent to and on account of whom a survivor allowance is payable, earns at least two thousand four hundred dollars ($2,400), or at least two hundred dollars ($200) multiplied by the months, if less than twelve (12), of a calendar year during which such allowance is payable, the allowance thereafter during that year, shall be withheld and not paid the same as if never payable, for any month during which such person thereafter during that year, earns at least two hundred dollars ($200). If the survivor allowance to a widow, or dependent widower, is reduced under this section the benefit payable on account of surviving children shall be paid in amounts provided by subparagraph (2) of Section 14256.

SEC. 7. Section 14365 of said code is amended to read:

Election of options, etc

14365. Any member who has qualified for service retirement under Section 14301, may elect, as provided in Section 14363, and without right of revocation or change after approval of the election by the retirement board, to receive the actuarial equivalent as of the date of his retirement, of the retirement allowance payable to him when and if he retires for service or disability in a reduced retirement allowance according to the provisions of either Option 2 or Option 3 as stated in Section 14363. If such a member at the time of making the election has a living spouse who would qualify

for an allowance under Section 14366, the election under this Section 14365 shall be invalid and of no effect unless and until the consent of such spouse to it, is filed at the office of the Retirement System in Sacramento, California. If the death of such member occurs within 30 days after the date upon which the election is received in the office of the Retirement System in Sacramento, California, then the election shall be void and of no effect and he shall be considered as an active member at the time of death.

Upon such member's death at least 30 days after the date upon which the election is received in the office of the retirement system in Sacramento, California, and prior to the effective date of his retirement, the person who was nominated by him under the option he elected and who survives him, shall receive an allowance calculated under such option, upon the assumption that such member retired for service on the date of his death and died immediately thereafter. The payment of such allowance to such person shall be in lieu of both the death benefit provided by Section 14251 or Section 14151 and the allowance provided by Section 14366, and no such death benefit or such allowance shall be paid on account of such death to any person or beneficiary, regardless of whether the person nominated under the option elected, survives the member.

If such member subsequently retires for service or disability, he shall receive, regardless of whether the person nominated by him under the option elected, is then living, a reduced allowance according to the provisions of Section 14363 and the option elected, and he shall be subject to Section 14364.

The amount of the allowance prior to optional modification, shall be calculated on the basis of the member's age at death before retirement, or at retirement, as the case may be, but the reduction of such allowance under the option elected, shall be based on the ages of such member and the person nominated by him under such option, at the effective date of such election.

SEC. 8. Section 14367 of said code is amended to read:

Death before retirement

14367. The allowance provided by Section 14366 shall be paid from the Retirement Annuity Fund, and shall begin to accrue on the day next following the date of death of the member, and payments to a surviving spouse shall continue only until death or remarriage, and to or on account of children with respect to each child, until the attainment of age 18 or prior marriage.

If payment of the allowance provided by Section 14366 is stopped because of remarriage of the surviving spouse, or the attainment of the age of 18 years by a child, before the sum of the monthly payments made, equals the death benefit provided by Section 14251, exclusive of accumulated annuity deposits, a lump sum equal to the difference shall be paid to the remarried spouse, or if there is no such spouse, to the surviving children of the member, share and share alike.

From the monthly allowance payable under Section 14366, there shall be deducted a total amount equal to that portion of the benefit payable on account of said death by a local retirement system, which is provided from contributions of the district operating said system, and is in addition to the portion of the benefit payable by said local system which is made up of the accumulated contributions of the member, and no monthly allowance shall be paid under this section until the total amount deducted equals said portion provided by district contributions.

SEC. 9. Section 14368 of said code is amended to read:

Election to deposit by survivor

14368. If the member, on account of whose death an allowance is payable under Section 14365 or 14366, was a member of a local retirement system, the person who was nominated by him under Section 14365, or, if no option was elected under that section, then under Section 14366 his surviving spouse who is eligible to receive said allowance, or, if none, the guardian of his children under 18 years of age, shall have the right to elect to deposit in the Retirement Annuity Fund, an amount equal to that which the member would have had the right to deposit if he had retired for service and then had ceased to be entitled to benefits from the local retirement system on the day of his death. In the event that said person, or the surviving spouse or the guardian, as the case may be, (a) makes or (b) does not make such deposit within 90 days after the date a notice of the right to make such deposit is mailed to the person having the right to make the deposit, the monthly retirement allowance prior to optional modification, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be calculated as if he had ceased to be entitled to retirement benefits from the local retirement system, and (c) had deposited, with respect to (a), or had not deposited, with respect to (b), such contributions in such fund. Any amount so deposited shall be included as having been made by the member, in determining the death benefit provided by Section 14251.

SEC. 10. Section 14372 of said code is amended to read:

Retirement after prior retirement

14372. When a member who has been retired and has thereafter re-entered membership in the retirement system, subsequently retires and the prior and subsequent retirements were either both for service or disability or if the prior retirement was for service and the subsequent retirement is for disability, he shall not receive the full retirement annuities specified in subdivision (b) of Section 14355, or 14369, according to whether retirement is for service or disability, but shall receive (1) an annuity, based upon his salary earned in service from the date of re-entry into the retirement system to the date of his subsequent retirement, and calculated under Section 14355 or 14369, as the case may be, plus (2) annuities equal to the annuities he received next preceding his re-entry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances

made after said re-entry and applicable to allowances being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his re-entry, at least one year of service credited under the retirement system; otherwise, plus (3) annuities based on the same salary and service as that upon which the annuities he received next preceding said re-entry were based, but calculated under Section 14355 or 14369, as the case may be, on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement; provided, however, that if the subsequent retirement is for disability such adjusted age shall not be less than the age at which the member would have received 90 percent of the benefit payable for retirement at age 60 if the retirement had been for service. If the member renders five years of service after his re-entry into membership, the salary earnable by him after his re-entry shall be used in the calculation of benefits due for service rendered prior to such re-entry into membership.

Such a member likewise shall not receive the full retirement salary specified in subdivision (a) of Section 14355 or 14369, according to whether retirement is for service or disability, but shall receive (1) a retirement salary, based upon his credited service from the date of re-entry into the retirement system to the date of his subsequent retirement, and calculated under Section 14355 or 14369, as the case may be, plus (2) a retirement salary equal to the retirement salary he received next preceding his re-entry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances made after said re-entry and applicable to allowances being paid at the date of the change; provided, that such subsequent retirement occurs before he renders after his re-entry, at least one year of service credited under the retirement system; otherwise, plus (3) a retirement salary based on the same service as that upon which the retirement salary he received next preceding said re-entry was based, but calculated under Section 14355, or 14369, as the case may be, on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement.

SEC. 11. Section 14410 of said code is amended to read:

Unclaimed warrants

14410. Notwithstanding any provision in this or any other code to the contrary, whenever any warrant drawn in payment of contributions or accumulated contributions or benefits under this retirement system, remains unclaimed or the claimant cannot be found, the proceeds of such warrant shall be redeposited in the fund, and held for the claimant without further accumulation of interest, and such redeposit shall not operate to reinstate the membership of the claimant in this system. Said proceeds, whether heretofore or hereafter redeposited, shall revert to and become a part of the contributions of the State for

the respective year, and shall be applied to meet the liabilities of the State on account of which said contributions were made.

The board may credit the proceeds of any unclaimed benefit due under this chapter directly to the contributions of the State for the respective year if it determines that the legal claimant to the benefit cannot be located. Any amount credited by the board under this authority shall be administered as though a warrant had been written and the proceeds credited to state contributions.

The provisions of this section apply to warrants drawn under this retirement system and canceled by the Controller pursuant to Section 17070 of the Government Code, except that upon notice of cancellation, the proceeds shall revert to and become a part of the contributions of the State, for the respective year, and shall be applied to meet the liabilities of the State on account of which said contributions were made.

The board may at any time, after reversion of proceeds to the State, and upon receipt of proper information satisfactory to it, return from state contributions, an amount equal to such proceeds, to the credit of the claimant to be administered in the manner provided under this retirement system.

Such payment into court shall constitute payment of the condemnation award within the meaning of Section 1251 of this code. Upon such payment into court and the filing with the county clerk of such abstract or transcript of judgment and affidavit, the county clerk shall notify by mail, through their attorneys, if any, all parties interested in said award of the time and place at which the court which tried the condemnation proceeding will determine the conflicting claims to said award. At said time and place the court shall make such

determination and order the distribution of the money held by the county clerk in accordance therewith.

(e) The judgment creditor may state in the affidavit any fact or facts tending to establish the identity of the judgment debtor. No public officer or employee shall be liable for failure to perform any duty imposed by this section unless sufficient information is furnished by the abstract or transcript together with the affidavit to enable him in the exercise of reasonable diligence to ascertain such identity therefrom and from the papers and records on file in the office in which he works. In effect September 15, 1961

[Approved by Governor July 15, 1961. Filed with Secretary of State July 18, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 29007.3 is added to the Education Code, to read:

29007.3. No person, either on his own behalf or as the representative of any privately conducted correspondence school or of any private person, firm, association, partnership, or corporation whatever, shall, by personal contact, in California, solicit the sale of or solicit and sell any correspondence course of study beyond high school, of high school level, or below high school level, for a remuneration or other consideration to be provided for such course, unless he holds a valid permit to engage in such activity issued by the State Board of Education.

The State Board of Education shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the

person's own behalf. Where the person for whom the issuance of a permit is sought is to engage in the activities as a representative, the application shall be made by the correspondence school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted on forms to be furnished by the Bureau of Readjustment Education of the Department of Education. The application shall be accompanied by an application fee of five dollars ($5), which fee shall be deposited in the General Fund in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit. The bond may be supplied by the correspondence school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual such person or to provide blanket coverage for all persons to be engaged as representatives of a correspondence school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of correspondence courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars ($1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study shall, if the plaintiff is the prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education made pursuant to this section.

The issuance of a permit pursuant to this section shall not be interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education has made, any evaluation, recognition, accreditation or endorsement of any correspondence course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with respect to the possessor and that he has submitted satisfactory evidence of good moral character.

The initiative and referendum powers are hereby granted to the electors of the agency to be exercised in relation to the enactment or rejection of agency ordinances in accordance with the proced-

ure established by the laws of this State for the exercise of such powers in relation to counties.

Claims

SEC. 42. Claims against the agency shall be prepared, presented, audited and allowed or disallowed in the same manner and within the periods of time specified in the laws of the State of California, now or hereinafter enacted, for the preparing, presenting, auditing, and allowance or disallowance of claims against counties.

SEC. 43. The legal title to all property acquired under the provisions of this act shall be in the agency and shall be held for the uses and purposes of this act. The board may hold, use, acquire, manage, occupy and possess such property and, after declaring by resolution entered in the minutes that any real or personal property held by the agency is no longer necessary, may sell or otherwise dispose of such property, or lease the same, in the manner provided by law for the disposition and sale of property by counties.

Bids

SEC. 44. All contracts for any improvement or unit of work, when the cost according to the estimate of the engineer will exceed five thousand dollars ($5,000) shall be let to the lowest responsible bidder or bidders as provided in this section. The board shall first determine whether the contract shall be let as a single unit for the whole of the work, or divided into several convenient parts. The board shall advertise for bids by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in the agency, inviting sealed proposals for the construction or performance of the improvement or work. The call for bids shall state whether the work shall be performed in one unit or divided into parts. The work may be let under a single contract or several contracts, as stated in such call. The board shall require the successful bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material. The bonds shall comply with Chapter 3 (commencing with Section 4200) of Division 5 of Title 1 of the Government Code. The board may reject any and all bids. In the event all proposals are rejected or no proposals are received, or the estimated cost of the work does not exceed five thousand dollars ($5,000), or the work consists of channel protection, maintenance work, or emergency work when necessary in order to protect life and property, the board may have the work done by force account without advertising for bids. In such event a majority vote of all board members shall be required. The board may purchase in the open market without advertising for bids, materials and supplies for use in any work, either under contract or by force account.

SEC. 45. If from any cause, the revenues of the agency shall be, or in the judgment of the board are likely to be, inadequate for any lawful purpose of the agency, the board shall have the power in any year to levy an ad valorem tax

upon all taxable property in the agency for such purposes except that the aggregate taxes or assessments levied for any one fiscal year shall not exceed five cents ($0.05) on each one hundred dollars ($100) of the assessed valuation of the taxable property within the agency. Such taxes shall be levied and collected with and not separately from taxes for county purposes, and the revenue derived from said agency taxes shall be paid into the county treasury to the credit of the agency, and the board shall have the power to control and order the expenditure thereof for any lawful purposes of the agency.

Tax laws applicable

SEC. 46. The provisions of law of this State, prescribing the priority, time, and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are hereby adopted for the agency and made a part hereof, so far as they are applicable and not in conflict with this act. Such officers shall be liable upon their official bond for the faithful discharge of the duties imposed upon them by this act.

Sale of real property for taxes

SEC. 47. Whenever any real property situated in the agency and has been sold for taxes due to the agency and has been redeemed, the money paid for redemption shall be apportioned and paid to the agency by the county auditor receiving it in accordance with the provisions of Chapter 1c (commencing with Section 4656) of Part 8 of Division 1 of the Revenue and Taxation Code.

Revenue bonds

SEC. 48. The agency may borrow money to provide funds to pay all costs of any public improvement as defined and authorized under Sections 11 to 17 inclusive, herein, by the issuance of revenue bonds. Such revenue bonds shall be issued pursuant to the Revenue Bond Law of 1941. Chapter 6 (commencing with Section 54300) of Division 2 of Title 5 of the Government Code, except as otherwise provided in this act. However, notwithstanding the provisions of Government Code Section 54310, the board shall have the power, subject to the limitations of Section 11, to borrow money and issue revenue bonds for, and to define "enterprise" to include, systems, plants, works or undertakings for the generation, production, transmission and sale of hydroelectric energy. Notwithstanding the provisions of Section 54400 of the Government Code, the board may determine and provide, in any resolution for the issuance of revenue bonds, for maturity dates of the revenue bonds not exceeding 50 years from their date of issuance.

(a) Such revenue bonds shall constitute special obligations and evidence a special indebtedness of the agency which shall be a charge upon, and payable, as to the principal thereof, interest thereon, and any premiums upon the redemption of any thereof, solely from, such revenues and funds as are specified therein and in the proceeding for their issuance. They shall not constitute general obligations of the agency and they shall neither constitute obligations nor evidence any indebted-

ness of any other public agency of which the agency may be a part, or of the State.

(b) All such bonds shall recite upon their face the substance of the preceding portions of this section and shall also recite upon their face that they are issued under this provision.

Improvement districts

SEC. 49. Improvement districts may be formed within the agency in the same manner as improvement districts are formed in irrigation districts. When formed, such improvement districts shall be governed in the same manner as improvement districts in irrigation districts.

Inclusion of land

SEC. 50. Land not a part of the agency whether or not contiguous to it may be included within the agency in the same manner as provided under Chapter 2 (commencing with Section 26875) of Part 11 of Division 11 of the Water Code.

Legislative intent

SEC. 51. Neither the establishment of the agency nor any provision of this act shall affect, restrict nor supersede the existence, property, right or power of any municipality, public district, or public agency now or hereafter established in or partially within the limits of the agency for the purpose of flood control, reclamation, conservation, storage, distribution, sale, use, or development of water or electric energy. The Legislature, hereby expressly declares its intent to permit within the limits of the Alpine County Water Agency, the existence of more than one district, municipality or combination thereof, having similar power over similar territory in regard to flood control, reclamation and water conservation, storage, distribution, sale, use, development of water or electric energy.

There shall be no encroachment or overlapping by the agency of water applications, water rights, or proposed projects for the development of water for irrigation and domestic uses and electric energy of any municipality, public district, or public agency now or hereafter established in or partially within the limits of the agency.

Revenues from electric energy shall be used by the agency for the benefit of the entire agency, and no financial obligation shall be placed upon the areas within the boundaries of any municipality, public district, or public agency now or hereafter established in or partially within the limits of the agency for the purpose of flood control, reclamation, conservation, storage, distribution, sale, use, or development of water or electric energy unless a direct benefit is derived by the lands located therein.

Vested rights

SEC. 52. Neither the formation of the agency nor this act shall impair the vested right of any person, association, corporation, municipality or public district in or to any water or the use thereof or any electric energy or the use thereof.

Dissolution of agency

SEC. 53. The agency may be dissolved in the manner provided for the dissolution of districts by Chapter 4 (commencing with Section 58950) of Division 1 of Title 6 of the Government Code, and the agency shall be considered a district within the meaning of all of the provisions of said chapter.

SEC. 54. The Legislature hereby finds that water problems in the County of Alpine require countywide water conservation, flood control and development of water resources; that all land within the county will be benefited thereby; that the solution of these problems lies within and is peculiar to the area to be included in the Alpine County Water Agency; that the county has caused to be made private investigations and engineering surveys of the county's water resources, water consumption and future water needs; state and federal engineers have also made such surveys; a publicly appointed County Water Resources Board has conducted water studies for years; that such investigations have shown that water conditions in Alpine County are peculiar to it and that these problems are not general nor statewide; that the county cannot be supplied with water from a common source or by a common system of works; that county water districts, municipalities, irrigation districts and soil conservation districts now exist within portions of the county, have acquired property and works, developed a limited water supply, and have incurred indebtedness, but have been and are unable alone to economically develop an adequate water supply and control the floods of said county, and for such reason it is necessary to have a political entity at least coextensive with the geographical limits of the entire county. It is therefore hereby declared that a general law cannot be made applicable to said county, and that the enactment of this special law is necessary for the conservation, development, control and use of said water for the public good and for the protection of life and property therein. Legislative findings

SEC. 55. If any provision of this act is declared unconstitutional or invalid, for any reason, the remainder of the act shall not thereby be invalidated, but shall remain in full force and effect. Constitutionality

SEC. 56. This act may be designated and referred to as the Alpine County Water Agency Act, and any reference thereto by such designation shall be sufficient for all purposes. Short title

Application

A written application for retirement may be filed at any time during the term of office of the member, or within thirty (30) days after the expiration of his term of office. Any application which does not specify a different date as the effective date of retirement applied for shall be deemed to be an application for retirement as of the day following the expiration of the term of office of the member.

SEC. 2. Section 9359.1 of said code is amended to read:

Benefits

9359.1. (a) The retirement allowance for a member all of whose credited service was rendered as a Member of the Senate or Assembly is an annual amount equal to five percent (5%) of the compensation payable, at the time payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member who serves more than 15 years shall be increased by 2 percent for each year or fraction of a year in excess of 15 years.

(b) The retirement allowance for a member all of whose credited service was rendered as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly) is an annual amount equal to five percent (5%) of the compensation payable at the time payments of the allowance fall due, to the officer holding the office which the retired member last held prior to his retirement, or five percent (5%) of the highest compensation fixed for such office during the member's last term or any subsequent term prior to his retirement, whichever is greater, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years.

five percent (5%) of all the compensation, at the time payment of the allowance falls due, to the officer holding the highest salaried office which the member held at any time during his service prior to retirement, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years. If, however, the member would be entitled to receive a greater allowance under subdivision (a) or subdivision (b) of this section if all of his credited service had been rendered as a Member of the Senate or Assembly or as an elective officer of the State whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly), then all of his credited service shall be deemed to have been rendered as a Member of the Senate or Assembly or as such other elective officer, and he shall receive a retirement allowance computed under subdivision (a) or subdivision (b) of this section, whichever is greater.

The allowance shall be equal to the retirement allowance which he would receive under subdivision (a) of Section 9359.1 reduced by two percent (2%) for each year by which the member's age at the time of retirement is below age 60.

SEC. 4. Section 9355.7 is added to said code, to read:

9355.7. Any member who while serving a term of office as a Member of the Senate or Assembly is elected or appointed to another public office and resigns his office as Member of the Senate or Assembly shall be credited with a period of service equal to the remainder of his term as Member of the Senate or Assembly if he makes contributions therefor to the Legislators' Retirement Fund. Such contributions shall be in an amount equal to four percent (4%) of the compensation he would have received as a Member of the Senate or Assembly during the remainder of his term.

SEC. 5. Section 9360.7 is added to said code, to read:

Election by surviving spouse

9360 7. Any Member of the Senate or Assembly who after the effective date of this section retires for service or disability shall receive the retirement allowance provided by this chapter unmodified by any optional settlement elected pursuant to Article 7 (commencing with Section 9361) of this chapter.

The surviving spouse of such a member who dies after retirement may elect to receive an allowance under this section. Any surviving spouse making such election shall receive an allowance equal to one-half of the retirement allowance, un-

modified by any optional settlement which would be payable to the member were he living and retired under this chapter.

The surviving spouse of a member who is a Member of the Senate or Assembly and who dies before retirement but after becoming eligible for retirement may elect to receive an allowance under this section. Any surviving spouse making such election shall receive an allowance equal to one-half of the amount of the retirement allowance, unmodified by any optional settlement, that would be payable to the member were he living and retired under this chapter.

The allowance to a surviving spouse provided by this section is payable commencing upon the death of the member and continuing until the death or remarriage of the surviving spouse. (d) Any sum payable on any other written instruments issued in this State on which a banking or financial organization is directly liable, including, by way of illustration but not of limitation, drafts, certified checks, and money orders, that has been outstanding for more than seven years from the date it was payable, or from the date of its issuance if payable on demand, excluding any charges that may lawfully be withheld, unless the owner has within seven years corresponded in writing with the banking or financial organization concerning it, or otherwise indicated an interest as evidenced by a memorandum on file with the banking or financial organization.

it, within seven years after the date prescribed for payment or delivery, is presumed abandoned if:

(1) It is held or owing by a business association organized under the laws of or created in this State; or

(2) It is held or owing by a business association doing business in this State, including a national banking association, but not organized under the laws of or created in this State, and the records of the business association indicate that the last known address of the person entitled thereto is in this State.

(1) The business association was organized under the laws of or created in this State; or

(2) The business association is doing business in this State, including a national banking association, but was not organized under the laws of or created in this State, and the records of the business association indicate that the last known address of the person entitled to such interest is in this State.

For the purposes of this chapter the business association with respect to such interest shall be deemed a holder.

(c) Any dividends or other distributions held for or owing to a person at the time the stock or other security to which they attach became presumptively abandoned are also presumed abandoned as of the same time.

SEC. 3. Section 1506 of said code is amended to read:

Same

1506. (a) If the property is held by a business association, banking organization, or financial organization organized under the laws of or created in this State; or

(b) If it is held by a business association, banking organization, or financial organization (including a national banking association) doing business in this State, but not organized under the laws of or created in this State, and the records of the business association, banking organization, or financial organization indicate that the last known address of the person entitled thereto is in this State; or

(c) If it is held in this State by another person.

For the purpose of this section, when a banking organization (including a national banking association), a business association, or a person holds the above described property as an agent for a business association, such holder shall be deemed to hold such property in a fiduciary capacity for the business association alone, unless the agreement between such a holder and such a business association clearly provides the contrary. In the event such property is deemed held for the business association alone such association shall be deemed the holder of such property for all purposes contemplated by this chapter.

SEC. 4. Section 1510 of said code is amended to read:

Report with respect to abandoned property

1510. (a) Every person holding funds or other property, tangible or intangible, presumed abandoned under this chapter shall report to the State Controller with respect to the property as hereinafter provided.

(b) The report shall be verified and shall include:

(1) The name, if known, and last known address, if any, of each person appearing from the records of the holder to be the owner of any property of value of ten dollars ($10) or more presumed abandoned under this chapter;

(2) In case of unclaimed funds of life insurance corporations, the full name of the insured or annuitant and his last known address according to the life insurance corporation's records;

(3) In case of money or other personal property removed from a safe deposit box or other repository or agency, reference to such property. The report shall set forth any amounts owing to the holder for unpaid rent and for the cost of opening the safe deposit box.

(4) The nature and identifying number, if any, or description of the property and the amount appearing from the records to be due, except that items of value under ten dollars ($10) each may be reported in aggregate;

(5) The date when the property became payable, demandable, or returnable, and the date of the last transaction with the owner with respect to the property; and

(6) Other information which the State Controller prescribes by rule as necessary for the administration of this chapter.

(c) If the person holding property presumed abandoned is a successor to other persons who previously held the property for the owner, or if the holder has changed his name while holding the property, he shall file with his report all prior known names and addresses of each holder of the property.

(d) The report shall be filed before November 1st of each year as of June 30th or fiscal year-end next preceding, but the report of life insurance corporations shall be filed before May 1st of each year as of December 31st next preceding. The State Controller may postpone the reporting date upon his own motion or upon written request by any person required to file a report.

(e) If the holder of property presumed abandoned under this chapter knows the whereabouts of the owner and if the owner's claim has not been barred by the statute of limitations, the holder shall, before filing the annual report, communicate with the owner and take necessary steps to prevent abandonment from being presumed. The holder shall exercise reasonable diligence to ascertain the whereabouts of the owner.

(f) Verification, if made by a partnership, shall be executed by a partner; if made by an unincorporated association or private corporation, by an officer; and if made by a public corporation, by its chief fiscal officer.

(g) The initial report filed under this chapter shall include all items of property held for another person which are ascertainable from the available records of the holder, which items of property would have been presumed abandoned if this chapter had been in effect at and after the time such property first became payable, demandable or returnable; provided, that only such moneys which first became unclaimed funds, as that term is defined in this chapter, within three years preceding the effective date of this chapter must be included within the initial report and any other moneys constituting unclaimed funds as thus defined may be included within the initial or any subsequent report and if so included the holder shall be entitled to the protection afforded by Section 1513. All items of property, less proper charges and offsets, other than unclaimed funds, which on January 1, 1949 appeared from the available records to be held for another person and were thereafter without notice to the owner or without prior approval of any regulatory or licensing authority of this State transferred or credited by the holder directly to capital or surplus or undivided profits shall be deemed to be subject to the provisions of this chapter and shall be included within the initial report.

SEC. 5. Section 1512 of said code is amended to read:

Delivery to State Controller

1512. Every person who has filed a report as provided by Section 1510 shall, within seven months from the final date for filing reports as required by Section 1510, pay or deliver to the State Controller all abandoned property specified in the report; provided, that if the owner establishes his right to receive any abandoned property to the satisfaction of the holder before such property has been delivered to the State Controller, or if it appears that for some other reason the presumption of abandonment is erroneous, the holder need not pay or deliver the property, which will no longer be presumed abandoned, to the State Controller, but in lieu thereof shall file with the State Controller a written explanation of the proof of claim or of the error in the presumption of abandonment. The holder of any interest under Section 1504 (b) shall deliver a duplicate certificate to the State Controller. Upon delivery of a duplicate certificate to the State Controller, the holder and any transfer agent, registrar or other person acting for or on behalf of the holder in executing or delivering such duplicate

certificate shall be relieved from all liability of every kind to any person including, but not limited to, any person acquiring the certificate presumed abandoned or the certificate issued to the State Controller for any losses or damages resulting to such person by the issuance and delivery to the State Controller of such duplicate certificate.

SEC. 6. Section 1513 of said code is amended to read:

Custody and safekeeping of abandoned property

1513. Upon the payment or delivery of abandoned property to the State Controller, the State shall assume custody and shall be responsible for the safekeeping thereof. Any person who pays or delivers abandoned property to the State Controller under this chapter is relieved of all liability to the extent of the value of the property so paid or delivered for any claim which then exists or which thereafter may arise or be made in respect to the property. Property removed from a safe deposit box or other repository shall be received by the State Controller subject to any valid lien of the holder for rent and other charges, such rent and other charges to be paid out of the proceeds remaining after the State Controller has deducted therefrom his selling cost. Any holder who has paid moneys to the State Controller pursuant to this chapter may make payment to any person appearing to such holder to be entitled thereto, and upon filing proof of such payment and proof that the payee was entitled thereto, the State Controller shall forthwith reimburse the holder for the payment.

Any holder who has delivered personal property including a certificate of any interest in a business association to the State Controller pursuant to this chapter may reclaim such personal property if still in the possession of the State Controller without payment of any fee or other charges upon filing proof that the owner thereof has claimed such personal property from such holder.

SEC. 7. Section 1514 of said code is amended to read:

Owner's account

1514. When property other than money is delivered to the State Controller under this chapter, any dividends, interest or other increments realized or accruing on such property at or prior to liquidation or conversion thereof into money, shall upon receipt be credited to the owner's account by the State Controller. Except for amounts so credited the owner is not entitled to receive income or other increments on money or other property paid or delivered to the State Controller under this chapter. All interest received and other income derived from the investment of moneys deposited in the Unclaimed Property Fund under the provisions of this chapter shall, on order of the State Controller, be transferred to the General Fund.

SEC. 8. Section 1521 of said code is amended to read:

Property with no obvious commercial value

1521. Any property delivered to the State Controller pursuant to this chapter which has no obvious commercial value shall be retained by the State Controller until such time as he determines to destroy or otherwise dispose of the same. If the State Controller determines that any property delivered to him

pursuant to this chapter has no obvious commercial value, he may at any time thereafter destroy or otherwise dispose of the same, and in that event no action or proceeding shall be brought or maintained against the State or any officer thereof or against the holder for or on account of any action taken by the State Controller pursuant to this chapter with respect to said property.

The director shall approve any voluntary plan under this section as to which it finds that all of the following exist: More than one employer

(a) The rights afforded to the covered employees are greater than those provided for in Chapters 2 and 3 of this part, and are separately stated and designated "unemployment compensation disability benefits" separate and distinct from other benefits, if any.

(b) The plan applies to all employees whose wages are paid at such central place or places with respect to all employment for which wages are paid at such central place or places.

(c) Seventy-five percent of the workers regularly paid at the central place or places have consented to the plan prior to the filing of the initial application for approval.

(d) If the plan provides for insurance the form of the insurance policies to be issued have been approved by the Insurance Commissioner and are to be issued by an admitted disability insurer.

(e) All employers paying wages through the central place or places have agreed to participate in the plan and the agent appointed under Section 1096 has agreed to make the payroll deductions required, if any, and transmit the proceeds to the plan insurer, if any.

(f) The plan provides for the inclusion of all future employees paid at the central place or places.

(g) The plan is to be in effect for a period of not less than one year and, thereafter, continuously unless the director finds that the agent or a majority of the employees regularly paid at the central place or places has given written notice of termination of the plan. Such notice shall be filed in writing with the director at least 30 days before it is to become effective and, upon the filing, shall be effective only as to wages paid after the beginning of the calendar quarter next occurring on or after the anniversary of the effective date of the plan; except that the plan may be terminated on the operative date of any law increasing the benefit amounts provided by Sections 2653, 2655, and 2801, if notice of the termination of the plan is transmitted to the director not less than 30 days prior to the operative date of such law. If the plan is not terminated on such 30 days notice because of the enactment of a law increasing

benefits, the plan shall be amended to conform to such increase on the operative date of the increase.

(h) The amount of deductions from the wages of an employee in effect for any plan shall not be increased on other than an anniversary of the effective date of the plan except to the extent that any increase in the deductions from the wages of an employee allowed by Section 3260 permits such amount to exceed the amount of deductions in effect

(i) The approval of the plan or plans will not result in a substantial selection of risks adverse to the Disability Fund.

SEC. 4 Section 3265 of said code is amended to read:

Failure to make payments

Amounts so collected shall be deposited in the Disability Fund.

(b) If an approved voluntary plan is not terminated because of the enactment of any law increasing the benefit amounts provided by Sections 2653, 2655, and 2801 and the employer or insurer fails to pay such increase under the plan, the director shall pay such benefits to an employee, if otherwise eligible, and assess the amount thereof against the employer or the insurer, and the provisions of Part 1 of this division with respect to the assessment and collection of contributions shall apply to the recovery of such benefit payments. Amounts so collected shall be deposited in the Disability Fund.

CHAPTER 1906

An act to amend Sections 19581, 19595, 19602, and 21802 of, and to add Sections 19553.1, 19601.1, 19615.1, and 19663.5 to, the Education Code, relating to state school building aid

In effect September 15 1961

[Approved by Governor July 15, 1961. Filed with Secretary of State July 18, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 19553.1 is added to the Education Code, to read:

"Grade level maintained by district"

19553.1 With respect to applications filed on and after the effective date of this section by a unified district and any apportionments and repayments made under such applications,

"grade level maintained by the district" means (1) the kindergarten, if any, and grades 1 to 12, inclusive, maintained by the district, or (2) grades 13 and 14 maintained by the district.

A unified district if otherwise eligible, may apply for and receive an apportionment for either one or both of such grade levels.

This section shall not apply to a unified district during the first three fiscal years in which the district is in existence for all purposes, if the governing board of the district transmits to the board a written notice stating the district desires to be exempted from this section during such period.

SEC. 2. Section 19581 of said code is amended to read:

Apportionment for new construction

19581. No apportionment shall be made for new construction which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of average daily attendance of the estimated average daily attendance in excess of that computed in accordance with Sections 19583, 19585, 19586, 19587, and 19588.

As used in Sections 19583, 19585, 19586, 19587, and 19588, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 19586, 19587, and 19588, "attendance center" means a school maintained or to be maintained at a given location within a district. The Department of Education shall approve or disapprove, the allocation by an applicant district of units of estimated average attendance among the attendance centers of the district.

To the building area permitted to an applicant school district by Sections 19583, 19585, 19586, 19587, and 19588, there may be added such additional building area as may be required to provide adequate facilities for exceptional children pursuant to Article 3 (Sections 19681 to 19689, inclusive) of this chapter.

No estimate of average daily attendance made by an applicant for the purpose of justifying an apportionment shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, except that an estimate for the purpose of justifying an apportionment for a grade level maintained by a unified district, under an application filed prior to the effective date of the amendment to this section made at the 1961 Regular Session or by a high school district composed of grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, inclusive, or of justifying an apportionment for a unified district for a junior high school or high school project under an application made on or after such effective date shall not be made for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. The estimates of average daily attendance

shall be based upon the number of family dwellings under construction in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the Department of Education.

For the purposes of this chapter pupils attending grades 7 and 8 in an elementary district but residing in a high school district which maintains one or more junior high schools shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district, is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1959. When such pupils are so considered in determining or estimating the average daily attendance of the elementary district in making an apportionment to the elementary district, such pupils shall not be considered in determining or estimating average daily attendance of the high school district in making an apportionment to the high school district for junior high school purposes.

SEC. 3. Section 19595 of said code is amended to read:

Limitation

19595 No apportionment shall be made to a school district for any grade level if the estimated cost of the project, as approved by the Director of Finance, is (1) an amount which would result in an apportionment to the district exceeding the amount authorized at the district election held under Section 19590, or (2) is an amount which if raised by the issuance and sale of bonds of the district running for 25 years bearing the current going rate of interest as determined by the board and the principal of which is payable in 25 equal annual payments, would require the levy of a tax under Section 22101 upon property in the district which would, when added to the tax actually being levied upon property in the district for the grade level as determined by the Director of Finance under said section, amount to less than thirty cents ($0.30) on each one hundred dollars ($100) of assessed valuation of property in the district during the next fiscal year, or in the case of a unified district receiving an apportionment for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, on the basis of an application made on or after the effective date of the amendment of this section made at the 1961 Regular Session, sixty cents ($0.60) on each one hundred dollars ($100) of assessed valuation of property in the district during the next fiscal year.

SEC. 4. Section 19601.1 is added to said code, to read:

Unified school district-Application filed on or after effective date of section

19601.1. This section applies only to unified school district filing an application on or after the effective date of this section for an apportionment for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, and the repayments required for apportionments made under such applications.

The following definitions apply to the computation and determinations required to be made under Sections 19602, 19603, and 19604, and they apply with respect to such grade

level of a unified district for which grade level an apportionment has become final during any preceding fiscal year.

(a) "Forty-cent tax amount" means the amount that would be produced by a tax of eighty cents ($0.80) on each one hundred dollars ($100) of assessed valuation, excluding the assessed valuation of solvent credits and other intangible property, for the current fiscal year within the district;

(b) "Thirty-cent tax amount" means the amount that would be produced by a tax of sixty cents ($0 60) on each one hundred dollars ($100) of such assessed valuation; and

(c) "Ten-cent tax amount" means the amount that would be produced by a tax of twenty cents ($0 20) on each one hundred dollars ($100) of such assessed valuation.

(d) "Eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the bonded indebtedness of the district that was incurred for each such grade level prior to the making of the first apportionment for such grade level to said district under the provisions of this chapter computed as provided in Section 19602 plus the amount of the annual repayment under Chapter 8 (commencing with Section 19401) of this division

If the unified district's first apportionment under this chapter was for a grade level consisting of kindergarten, if any, and grades 1 to 6, inclusive, grades 1 to 8, inclusive, grades 7 to 12, inclusive, grades 9 to 12, inclusive, or 7 to 10, inclusive, "eligible bonded debt service" means the amount raised and to be raised by the district during the current fiscal year for the repayment of principal and interest on the portion of the indebtedness that was incurred for elementary and high school purposes prior to the making of such first apportionment under this chapter computed as provided in Section 19602 together with the amount of the annual repayment under Chapter 8 (commencing with Section 19401) of this division.

SEC. 5. Section 19602 of said code is amended to read:

Bonded indebtedness Determination by Director of Finance

19602. On or before the first day of December of each fiscal year, the Director of Finance shall determine for each grade level and certify to the State Controller the eligible bonded debt service for the district, as follows:

(a) He shall determine the amount of the bonded indebtedness that was incurred by the district for each grade level, when bonds were issued and sold for purposes of more than one grade level. When one or more additional apportionments have been made to a grade level of a school district, conditioned upon the issuance and sale of additional bonds of the district or upon the requirement that the proceeds of bonds issued and sold be contributed for the purposes of the application for which the apportionment is made, the Director of Finance shall determine and include in the eligible bonded debt service and in his certificate the amount raised and to be

raised by the district during the current fiscal year for the payment of principal and interest on that portion of the additional bonded indebtedness of the district that was incurred for each such grade level as a condition to receiving such additional apportionment or which was incurred for bonds issued and sold, the proceeds of which were required to be contributed for purposes for which the apportionment was made.

(b) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is more than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19601 and subdivision (a) of this section, then the Director of Finance shall subtract from the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance.

(c) If the Director of Finance determines in any fiscal year that the amount certified to the State Controller as the eligible bonded debt service during the last preceding fiscal year is less than the amount actually raised by the district for the repayment of principal and interest of the bonded indebtedness referred to in subdivision (d) of Section 19601 and subdivision (a) of this section, then the Director of Finance shall add to the amount determined as the eligible bonded debt service for the current fiscal year an amount equal to the difference between the amount actually raised by the district during the preceding fiscal year for the repayment of such bonded indebtedness and the amount so certified by the Director of Finance.

(d) If an apportionment has been made to a district for a grade level for which the district also received an apportionment pursuant to Chapter 8 (Sections 19401 to 19486, inclusive), the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for such grade level as required by Chapter 8 (Sections 19401 to 19486, inclusive) and such amount shall be included by the Controller in the eligible bonded debt service of the district for that grade level. For an apportionment to a unified district for a grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive, for which an application for an apportionment was filed on or after the effective date of the amendment to this section made at the 1961 Session of the Legislature, if an apportionment had also been made to the district pursuant to Chapter 8 (commencing with Section 19401) for a grade level consisting of kinderten, if any, and grades 1 to 6, inclusive, or 1 to 8, inclusive, or grades 7 to 12, inclusive, 9 to 12, inclusive, or 7 to 10, in-

clusive, the Controller shall determine the amount of the annual repayment, if any, due from the district during the next succeeding fiscal year for all of such grade levels as required by said Chapter 8 and such amount shall be included by the Controller in the eligible bonded debt service of the district for the grade level consisting of kindergarten, if any, and grades 1 to 12, inclusive.

SEC. 6. Section 19615.1 is added to said code, to read:

"45-cent tax amount"

19615.1. For purposes of computing, under Section 19615, the portion of the annual repayment to be deferred in the case of a unified school district which has applied for and received an apportionment under Section 19553.1, the "45-cent tax amount" shall be the amount produced by a tax of ninety cents ($0.90) on each one hundred dollars ($100) of assessed valuation of the district during the year.

SEC. 7. Section 19663 5 is added to said code, to read:

Unpaid balances

19663 5. If a unified school district, after the effective date of this section, applies for and is granted an apportionment under this chapter (Sections 19551 to 19689, inclusive) on the basis of grade levels as defined in Section 19553 1, all unpaid balances of prior apportionments made to the district, subject to the provisions of Section 19663, shall be added to the balances of the apportionments made on the basis of the provisions of Section 19553.1. In such cases, no further computations or repayments under Sections 19601, 19602, 19603, 19604, and 19615 shall be made with respect to the prior apportionments alone, but such computations and repayments shall thenceforth be based solely upon the combined apportionments, and shall be made as provided in Sections 19601, 19602, 19603, 19604, and 19615.

SEC. 8. Section 21802 of said code is amended to read:

Unified school districts maintaining junior college
Bonded indebtedness

21802. Any unified school district maintaining a junior college may issue bonds not to exceed 15 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. Any unified school district not maintaining a junior college may issue bonds not to exceed 10 percent of the taxable property of the district as shown by such equalized assessment.

In computing the outstanding bonded indebtedness of any unified school district for all purposes of this section, except as provided in subdivision (b) of this section, any outstanding bonds shall be deemed to have been issued for elementary school purposes, high school purposes and junior college purposes, respectively, in the respective amounts that the proceeds of the sale of such outstanding bonds, excluding any premium and accrued interest received on said sale, were or have been allocated by the governing board of such unified school district to each of said purposes respectively.

(a) For the purposes of the State School Building Aid Law of 1952 (commencing with Section 19551) with respect to applications for apportionments and apportionments filed or made prior to the effective date of the amendment to this sec-

tion made at the 1961 Regular Session and to the repayment thereof, Sections 19401 to 19486, inclusive, only, any unified school district shall be considered to have a bonding capacity in the amount permitted by law for an elementary school district, a bonding capacity in the amount permitted by law for a high school district, and if the district maintains a junior college, a bonding capacity in the amount permitted by law for a junior college district.

(b) Except as provided in subdivision (a) of this section, for the purposes of the State School Building Aid Law of 1952 (commencing with Section 19551) only, in computing the outstanding bonded indebtedness of a unified district maintaining a junior college, outstanding bonds shall be deemed to have been issued for either (1) junior college purposes or (2) both elementary school and high school purposes, together as a single purpose, in the respective amounts that the proceeds of the sale of the outstanding bonds, excluding any premium or accrued interest received on such sale, were or have been allocated by the governing board of the unified district to each of the two purposes and no separate allocation shall be made as between elementary school purposes and high school purposes. For the purposes of such law in computing the outstanding bonded indebtedness of a unified district which does not maintain a junior college, all of such indebtedness shall be deemed to have been issued for elementary and high school purposes which shall constitute a single purpose, without allocation between elementary schools and high schools.

The provisions of this section apply only with respect to bonds issued by the Mariana Ranchos County Water District, in San Bernardino County, after October 1, 1961.

As an alternative to, and in addition to, the proceedings prescribed in Section 11 of this act for the establishment, annexation, division or superimposition of any zone or any project, the board of supervisors of the district may submit proposals for the establishment, annexation, division or superimposition of any zone or any project to the registered voters residing within the zone, the territory of a proposed zone or the territory to be annexed, as the case may be, which election shall be called and held as nearly as practicable in the manner provided in Section 13.

Concurrence of city

Sec. 3.5. Before acquiring authority to proceed with the annexation to or establishment of any zone the exterior boundaries of which will include any land lying within the exterior boundaries of any chartered or incorporated city within the district, the board of supervisors shall first obtain the concurrence of such city to conduct such proceedings, such concurrence to be evidenced by a resolution or ordinance adopted by a majority of the members of the city council of such city, or by a vote of a majority of the qualified electors residing in such city or portion thereof to be included in said zone voting at any regular or special election on said proposition; said election shall in all particulars be held as provided by law for holding a municipal election in said city and the cost thereof shall be a city charge.

SEC. 3. Section 11 of said act is amended to read:

Projects for zones

Sec. 11. The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zones or participating zones and may establish, amend, divide or superimpose zones. For the purpose of acquiring authority to proceed with any such project or establishment, amendment, division, or superimposition of a zone, the board shall adopt a resolution specifying its intention to

undertake such project or zone establishment, amendment, division or superimposition, together with the engineering estimates of the cost of any project to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project or proposed zone. Notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code, in a newspaper of general circulation, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or territory of a proposed zone or in each of said participating zones. Said notice must designate a public place in such zone or territory of a proposed zone or in each of said participating zones where a copy or copies of the map or maps of said joint project may be seen by any interested person. Said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project, or establishment, amendment, division or superimposition of a zone. Upon the hearing, the board may modify the proportionate cost of any project to be borne by each of the participating zones according to the benefits to be derived from the project by the participating zones. Upon the hearing, the board may modify the boundaries of the proposed zone, as set forth in the resolution of intention to establish, annex to, divide, or superimpose the zone, by excluding therefrom any land which would not be benefited by inclusion in the zone; the boundaries shall not be modified to include any land which is neither described in the resolution of intention nor formerly within the boundaries of a zone. At the conclusion of the hearing the board may abandon the proposed project or plan or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project or plan signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated or within the territory to be included in the proposed zone or within the territory to be added to or subtracted from a zone, be filed with the board, in which event further proceedings relating to such project or plan must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

In all matters in this section referred to, the last equalized assessment roll of the County of Marin next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone, or proposed zone, or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protect for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county except that if the property jointly held is held by husband and wife and occupied by them as a dwelling, if the other spouse consents, the protest may be signed by either spouse without producing written evidence of the other's consent.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of

his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

After the expiration of one year from the date of the filing, the certificate shall be conclusive evidence that the junior college district has been legally organized or the boundaries of the district legally changed, as the case may be, and no suit shall be maintained which questions the validity thereof.

Apportionment from State School Fund

The people of the State of California do enact as follows:

Definitions

SECTION 1. The following definitions apply to the words used in this act:

(a) "District" means the Alameda County Water District (organized pursuant to the County Water District Law, commencing with Section 30000 of the Water Code).

(b) "Water year" means the period commencing on July 1st of one calendar year and ending on June 30th of the calendar year immediately following.

(c) "Ground water" means the water beneath the surface of the ground, whether or not flowing through known and definite channels.

(d) "Nonsaline water" means water, the salinity of which does not exceed the tolerance generally accepted within the district for salinity of water used for domestic or agricultural purposes therein.

(e) "Production" or "producing" means the extraction or extracting of ground water, by pumping or any other method from shafts, tunnels, wells, excavations, or other sources of ground water for domestic, municipal, irrigation, industrial, or other beneficial use, except that such terms shall not mean or include the extraction or extracting of ground water incidentally produced with oil in the production of oil or gas, nor the extraction or extracting of ground water incidentally produced in a bona fide mining operation or construction of a tunnel or railroad, highway, aqueduct, pipeline, or other useful purpose unless the ground water so extracted shall be used or sold by the producer for domestic, municipal, irrigation, industrial, or other beneficial purpose.

(f) "Water-producing facility" means any device or method, mechanical or otherwise, for the production of ground water from the ground water supplies within the district.

(g) "Owner" means the person or persons owning any water-producing facility or any interest therein other than a lien to secure the payment of a debt or other obligation.

(h) "Operator" means the person or persons operating a water-producing facility; the owner thereof shall be conclusively presumed to be such operator unless satisfactory showing be made to the board of directors of the district that such water-producing facility actually is operated by some other person or persons.

(i) "Producer" means any operator producing ground water.

(j) "Annual overdraft" means the amount, as determined by the board of directors of the district, by which the quantity of ground water removed by any natural or artificial means from the ground water supplies within the district during the water year exceeds the quantity of nonsaline water replaced therein by the replenishment of such ground water supplies in such water year by any natural or artificial means other than replenishment under the provisions of this act.

(k) "Accumulated overdraft" as used in this act means the amount of water necessary to be replaced in the intake area of the ground water basin within said district to prevent the landward movement of ocean water into the fresh ground water body, as determined by the board of directors from time to time.

(*l*) "Existing agency" means any public corporation, agency, district, or political subdivision, now or hereafter created, which has any of the powers granted the Alameda County Water District by this act.

Powers of district

SEC. 2. The district may do any act necessary to replenish the ground water of the district or to prevent salt water intrusion into the ground waters of the district, including any of the following:

(a) Buy and sell water.

(b) Exchange water.

(c) Distribute water to persons in exchange for ceasing or reducing ground water extractions.

(d) Spread, sink, and inject water into the underground.

(e) Store, transport, recapture, reclaim, purify, treat, or otherwise manage and control water for the beneficial use of persons or property in the district.

(f) Build the necessary works to achieve ground water replenishment or the prevention of salt water intrusion.

(g) Put to beneficial use any water subject to the control or management of the district.

SEC. 3. The district may take any action necessary to protect or prevent interference with the water, the quality of water, or the water rights of persons or property within the district, subject to the limitations contained in Section 4.

Additional powers

SEC. 4. For the purposes of replenishing the ground water supplies in the district and of preventing the intrusion of salt water into such supplies, the district shall have, in addition to its powers under the County Water District Law (commencing with Section 30000 of the Water Code), the following powers:

(a) Within or outside of the district to construct, purchase, lease or otherwise acquire, and to operate and maintain necessary waterworks and other works, machinery and facilities, canals, conduits, waters, water rights, spreading grounds, lands, rights and privileges useful or necessary to replenish the underground water basin in the district, to augment the common water supplies of the district, or to prevent salt water intrusion into the ground waters of the district.

(b) For the common benefit of the district, to store water in underground water basins or reservoirs in, or outside of, the district, to appropriate and acquire water and water rights in, or outside of, the district, to import water into the district, and to conserve water in, or outside of, the district.

(c) To carry out the purposes of this act, to commence, maintain, intervene in, defend and compromise, in the name of the district, or otherwise, and to assume the costs and expenses of any and all actions and proceedings now or hereafter begun to prevent interference with water or water rights used or useful to lands within the district, or dimunition of the quantity, pollution, or contamination of the water supply of the district, or to prevent unlawful exportation of water from the district, or to prevent any interference with the water or water rights used or useful in the district which may endanger or damage the inhabitants, lands or use of water in the district; provided, however, that the district shall not have the power to intervene or take part in, or to pay costs or expenses

of actions or controversies between the owners of land or water rights all of which are entirely within the boundaries of the district, unless such action is one to adjudicate all or substantially all of the rights to use or extract ground water within the district

(d) To have and exercise the right of eminent domain and in the manner provided by law for the condemnation of private property for public use, to take any property necessary to supply the district, or any portion thereof, with replenishment water, except (a) water and water rights already devoted to beneficial use, and (b) property (other than water and water rights) already appropriated to public use unless the taking be for a more necessary public use than that to which the property is already appropriated; provided, the district in exercising such power shall, in addition to the damage for taking, injuring, or destruction of property, also pay the cost of removal, reconstruction, or relocation of any structure, including railways, mains, pipes, conduits, wires, cables, towers, or poles of any public utility which is required to be removed to a new location. No use by the district of property owned, at the time the action to condemn is brought, by an existing agency having powers to provide for the replenishment of ground waters, shall constitute a more necessary public use than the use to which the property is already appropriated. In proceedings relative to the exercise of such right, the district shall have all of the rights, powers, and privileges of a city. No action in eminent domain to acquire property or interests therein outside the boundaries of the County of Alameda shall be commenced unless the board of supervisors of each affected county has consented to such acquisition by resolution.

(e) To act jointly with or co-operate with the United States or any agency thereof, and, under the applicable laws of this State, co-operate and act jointly with the State of California, or any county or agency thereof, or any political subdivision or district therein, including flood control districts, public and private corporations, and any person, to the end that the purposes and activities of the district may be fully and economically performed.

(f) To cause assessments and charges to be levied as hereinafter provided.

(g) To carry on technical and other investigations of all kinds, necessary to carry out the provisions of this act, and for this purpose the district shall have the right of access through its authorized representative to all properties within the district.

(h) To fix the rates at which water shall be sold for replenishment purposes, and to establish different rates for different classes of service or conditions of service, provided that the rates shall be uniform for like classes and conditions of service.

(i) To fix the terms and conditions of any contract under which producers may agree voluntarily to use replenishment water from a nontributary source in lieu of ground water,

and to such end a district may become a party to such contract and pay from district funds such portion of the cost of replenishment waters as will encourage the purchase and use of such water in lieu of pumping so long as the persons or property within the district are directly or indirectly benefited by the resulting replenishment.

Board of the district

SEC. 5. The powers and duties herein enumerated shall, except as herein otherwise expressly provided, be exercised and performed by the board of the district. In the event an existing agency has facilities available and adequate to accomplish any part of the purposes of the district, the district shall investigate and determine the cost of contracting for the accomplishment of such purpose through such existing agency. Thereupon, the board shall make a finding as to whether or not the purpose proposed to be accomplished by the district can be achieved more economically and for the best interests of the area to be benefited by entering into such a contract with an existing agency. If the board finds that such contract is more economical and for the best interests of the area to be benefited, it shall so contract for the accomplishment of said purpose, if such agency so agrees. The purpose of this section is to avoid duplication of similar operations by existing agencies and replenishment districts.

Rates

SEC. 6. The board shall fix such rate or rates for the sale or exchange of water for replenishment purposes as will result in revenues which will pay, insofar as practicable, the operating expenses of the district which are attributable to providing such water. The rate charged shall be uniform for like classes and conditions of service.

Engineering survey and report

SEC. 7. Not later than the second Tuesday in February of each year the board shall order an engineering survey and report to be made regarding the ground water supplies of the district and the extent of salt water intrusion therein. The report shall include the following:

(a) Records, data, and other information for the consideration of the board in its determination of the annual overdraft, the accumulated overdraft as of the last day of the preceding water year, and the extent of salt water intrusion in the district.

(b) A report, with supporting data, as to the total production of ground water from the ground water supplies within the district during the preceding water year and as to the changes during the preceding water year in the pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and as to the effects thereof upon the ground water supplies within the district.

(c) An estimate of the annual overdraft for the current and the ensuing water years, of the accumulated overdraft as of the last day of the current water year, of the total production of ground water from the ground water supplies

within the district for the current and ensuing water years, and of the changes during the current water year in the pressure levels or piezometric heights of the ground water contained in pressure-level areas of the district and the effects upon the ground water supplies in the district.

(d) An estimate of the quantity, source, and cost of water available for replenishment of the ground water supplies during the ensuing water year.

(e) A recommendation as to the quantity of water which should be purchased for replenishment of the ground water supplies within the district during the ensuing water year.

(f) An estimate of the costs of replenishing the ground water supplies with purchased water and of the rate of the replenishment assessment required to be levied upon the production of ground water from the ground water supplies within the district during the ensuing fiscal year for the purpose of accomplishing such replenishment.

Funds for replenishment

SEC. 8. On or before the second Tuesday in March of each year, and provided the survey and report required by Section 7 has been made, the board, by resolution, shall declare whether funds shall be raised to purchase water for replenishment during the ensuing fiscal year and whether such funds or any portion thereof shall be raised either by (a) a water charge, (b) a replenishment assessment, or (c) a combination of water charges and replenishment assessments, and whether the funds so to be raised will benefit, directly or indirectly, all of the persons or real property and improvements within the district.

Replenishment assessment

SEC. 9. If the board, by resolution, determines that all or a portion of the funds needed to purchase replenishment water shall be raised by the levy of a replenishment assessment, then the board shall immediately publish a notice that a public hearing will be held on the second Tuesday of April for the purpose of determining whether and to what extent the estimated cost of purchasing water for replenishment for the ensuing year shall be paid for by a replenishment assessment. Such notice shall invite inspection of the engineering survey and report upon which the board acted, a copy of said board's resolution, the time and place of said hearing, and an invitation to all interested parties to attend and be heard in support of or opposition to said proposed assessment, the engineering survey and report, and the board's determination. The notice shall be published in the county pursuant to Section 6061 of the Government Code, at least 10 days before the hearing date.

Said hearing shall be held before the board and a quorum shall be present. The hearing may be adjourned from time to time by the president or presiding officer or hearing officer but shall be completed by the first Tuesday in May next following.

The board may appoint a qualified registered engineer familiar with water problems as a hearing officer to conduct said hearing.

All evidence relevant to the engineering survey and report and the board's determination that such a replenishment assessment shall be levied may be introduced.

Resolution

SEC 10 Upon completing said hearing, but no later than the second Tuesday in May, the board shall, by resolution, find:

(a) The annual overdraft for the preceding water year;

(b) The estimated annual overdraft for the current water year;

(c) The estimated annual overdraft for the ensuing water year;

(d) The accumulated overdraft as of the last day of the preceding water year;

(h) The estimated total production of ground water from the ground water supplies within the district for the ensuing water year;

(i) The changes during the preceding water year in the pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and the effects thereof upon the ground water supplies within such district;

(j) The estimated changes during the current water year in the pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and the estimated effects thereof upon the ground water supplies within such district;

(k) The quantity of water which should be purchased for the replenishment of the ground water supplies of the district during the ensuing water year;

(*l*) The source and estimated cost of water available for such replenishment;

(m) The estimated costs of replenishing such ground water supplies with such water so purchased;

(n) The estimated rate of the replenishment assessment required to be levied upon the production of ground water from the ground water supplies within the district during the ensuing fiscal year for the purpose of accomplishing such replenishment.

Determination of cost

SEC. 11. Based on the findings at the hearing the board shall, by resolution, determine what portion, if any, of the estimated cost of purchasing water for replenishment for the ensuing fiscal year shall be paid for by a replenishment assessment.

If the board determines that a replenishment assessment should be levied upon the production of ground water from ground water supplies within the district during the ensuing fiscal year, then immediately following the making of such determination said board shall levy a replenishment assessment on the production of ground water from the ground water supplies within the district during the fiscal year commencing on July 1st next, and such replenishment assessment shall be fixed by said board at a uniform rate per acre-foot of ground water so produced. The producers of such ground water shall pay such replenishment assessment to the district at the times and in the manner hereinafter in this act provided.

The notice may be sent by postal card or by other first-class mail with postage prepaid by the district.

SEC. 13. Within ninety (90) days after the adoption of the resolution of the board provided in Section 8, the operator of each water-producing facility within such district shall file with it an information ground water production statement. Such statement shall contain, in addition to such other information as the district may require, an estimate of the total production of ground water from such water-producing facility for the preceding water year, an estimate of the production of ground water from such water-producing facility for the current water year, an estimate of the production of ground water from such water-producing facility for the ensuing water year, and information as to the method or basis of making such estimates.

Thereafter, the operator of each water-producing facility within the district, on or before the last day of the month immediately following the respective quarterly periods ending March 31st, June 30th, September 30th, and December 31st of each year, shall file with the district a sworn statement setting forth the total production in acre-feet of ground water from such water-producing facility during the respective quarterly periods immediately preceding the filing of the respective statements, a general description or number locating such water-producing facility, and the method or basis of the computation of such ground water production. Each statement also shall contain such other information as the district may require. The first such statement required to be filed pursuant to the provisions of this section shall cover the first calendar quarter commencing not less than thirty (30) days after the adoption of the resolution of the board provided in Section 8.

Installments

SEC. 14. Any replenishment assessment levied pursuant to this act shall be due and payable to the district by each producer in quarterly installments on the last day for filing the statement of the production of ground water from the water-producing facility operated by such producer during the quarterly period required to be covered by such statement. The amount so due and payable shall be computed by multiplying the production in acre-feet of ground water so produced from such water-producing facility, as reported in such statement, by the rate of the replenishment assessment fixed and levied by the board of the district for the fiscal year in which such production shall occur.

Interest rate on delinquency

SEC. 15. If any producer shall fail to pay a replenishment assessment when due, the board of the district may charge interest at a rate not to exceed 1 percent per month on the delinquent amount of the assessment.

Should any operator of a water-producing facility fail to register his water-producing facility or fail to file the ground water production statement, the district, in addition to charging interest as provided above, may assess a penalty charge against such operator in an amount not to exceed 10 percent of the amount of the replenishment assessment found by the district to be due with respect to the production of ground water from such water-producing facility.

Fixed rate

SEC. 16. The board, at the time of fixing the replenishment assessment rate, may provide by resolution that any producer operating a water-producing facility having a discharge opening not greater than two inches in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, shall pay the amount fixed in such resolution as the replenishment assessment to be paid by such producer. No sworn statement as to the production of ground water from such water-producing facility need be filed.

Upon good cause shown, an amended statement of ground water production may be filed or a correction of the records may be made at any time prior to the final date for filing the next quarterly ground water production statement.

Unregistered operators Restraining orders

SEC. 17. The Superior Court of the County of Alameda may issue a temporary restraining order upon the filing by the district with the court of a verified petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district or that such defendant is delinquent in the payment of a replenishment assessment. Such temporary restraining order shall be returnable to the court on or before ten (10) days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established by the preponderance of the evidence at a hearing that the defendant has failed to register such water-producing facility with the district or that the defendant is delinquent in the payment

of a replenishment assessment. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed ten (10) days to permit the defendant to register the water-producing facility or to pay the delinquent replenishment assessment.

Service of process shall be made by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which such water-producing facility is located and by personal service of such summons and complaint upon the named defendant.

The right to proceed for injunctive relief as provided herein shall be in addition to any other right which may be provided elsewhere in this act or which may be otherwise allowed by law. The procedure provided in Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure regarding injunctions shall be followed except insofar as it may be otherwise provided herein. The district shall not be required to furnish an undertaking or bond as a condition to the granting of injunctive relief.

Investigations and reports

SEC. 18. If the board of the district shall have probable cause to believe that the production of ground water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering a water-producing facility, the board of the district may cause an investigation and report to be made concerning the production of ground water from such water-producing facility. The board of the district may fix the amount of ground water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing facility; provided, however, where a water-measuring device is permanently attached thereto, the record of production as disclosed by such water-measuring device shall be presumed to be accurate and the burden is upon the district to establish to the contrary.

After such determination has been made by the board of the district, a written notice thereof shall be mailed to the operator of such water-producing facility at his address as shown by the district's records. Any such determination made by the district shall be conclusive on the operator, and on any producer producing water from such water-producing facility, and the replenishment assessment based thereon, together with interest and penalties, shall be payable forthwith, unless such operator or producer shall file with the board of directors of the district within ten (10) days after the mailing of such notice a written protest setting forth the ground or grounds for protesting the amount of production so fixed or the replenishment assessment, interest, and penalties so levied thereon. Upon the filing of such protest, said board shall hold a hearing at which time the total amount of the ground water production

and the replenishment assessment thereon shall be determined, and the interest and penalties fixed, which action shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant. The producer shall have 20 days from the date of mailing of such notice to pay the replenishment assessment, interest and penalties so fixed by the board.

SEC. 19. The district may bring a suit in the court having jurisdiction against any producer of ground water from the ground water supplies within the district for the collection of any delinquent replenishment assessment. The court having jurisdiction of the suit may, in addition to allowing recovery of costs to the district as allowed by law, fix and allow as part of the judgment, interest and penalties as provided in Section 15. Should the district seek an attachment against the property of any named defendant therein, the district shall not be required to furnish bond or other undertaking as provided in Chapter 4 (commencing with Section 537), Title 7, Part 2 of the Code of Civil Procedure.

Water measuring devices

SEC. 20. It shall be unlawful to produce ground water from any water-producing facility within the district from and after one year following the adoption of the resolution provided for in Section 8 hereof, unless such water-producing facility shall have a water-measuring device affixed thereto capable of registering the accumulated amount of ground water produced therefrom.

The board by resolution may extend such date on a year-to-year basis upon its determination that availability, price of water-measuring devices, or other circumstances justify such extension. Should the date be extended, notice thereof shall be given by publication in a newspaper of general circulation in the district once a week for two successive weeks, such publication to be completed not less than two months prior to the date so extended.

This section shall not be applicable to any operator of a water-producing facility having a discharge opening two inches or less in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, who is required to pay a replenishment assessment in an amount fixed by resolution of the board of the district as hereinabove in this act provided.

Violation of this section shall be punishable by a fine not to exceed five hundred dollars ($500), or by imprisonment in the county jail for not to exceed six (6) months, or by both such fine and imprisonment. Each day of operation of a water-producing facility in violation hereof shall constitute a separate offense.

Effect of judicial determinations

SEC. 21. In the event of an adjudication of all or substantially all of the rights to extract ground water and a determination of the natural safe yield of the ground water sup-

plies within the district, and a determination of the amount or extent to which the rights to extract ground water so adjudicated may be exercised without exceeding the natural safe yield of such ground water supplies, the board of the district shall recognize such judicial determination by exempting from replenishment assessments the amount of water pumped by each person whose rights have been so adjudicated which does not exceed his proportionate share of the natural safe yield of the ground water supplies of the district, as so adjudicated from time to time by the court having jurisdiction over such adjudication proceeding. The replenishment assessment shall thenceforth be levied on each producer by multiplying the production in acre-feet of ground water so produced by such producer's water-producing facility in excess of his said adjudicated share of the natural safe yield by the rate of the replenishment assessment fixed and levied by the board for the fiscal year in which such production shall occur.

To the extent that ground water supplies are replenished under this act no person shall acquire any property or other right in the waters distributed by the district for replenishment purposes.

To the extent that the replenishment assessment after adjudication hereunder shifts from all producers to those who extract water in excess of their respective shares of the natural safe yield of the ground water supplies within the district as so adjudicated, such replenishment assessment shall be deemed to benefit those persons who continue to pump and extract ground water in excess of their adjudicated shares of the natural safe yield. Inasmuch as such persons must buy supplemental water or be in contempt of the court's order limiting their extraction of ground water, they shall be deemed to benefit by the payment of a replenishment assessment which is used to purchase water to supplement the natural supplies of ground water available for use

Legislative purpose

SEC. 22 It is hereby declared to be necessary to enact the special law contained in this act with respect to the Alameda County Water District because of the following special facts and circumstances existing therein: That the quantity of ground water removed by natural and artificial means from the ground water supplies within the district during the preceding water years has exceeded the quantity of nonsaline water replaced therein by the replenishment of such ground water for the aforesaid period by any natural or artificial means, and that as a result thereof, saline waters have intruded the ground water supplies within the district and that replenishment assessments levied pursuant to this act, and in furtherance of the district's activities in the protection of the water supplies for users within the district are necessary for the public health, welfare and safety of the people of this State.

Where evidence of insurability is required and such evidence is furnished more than thirty (30) days after the date when the debtor becomes obligated to the creditor, the term of the insurance may commence on the date on which the insurance company determines the evidence to be satisfactory, and in such event there shall be an appropriate refund or adjustment of any charge to the debtor for insurance. The term of such insurance shall not extend more than 15 days beyond the scheduled maturity date of the indebtedness except when extended without additional cost to the debtor. No interest will be paid upon deposit made by the successful bidder.

(f) It shall state that the district shall reject any and all bids which do not comply with the terms of the notice. Any bidder whose bid has been rejected by reason of any irregularity or informality or other defect in the bid shall be disqualified from purchasing the bonds offered pursuant to the notice of sale at any subsequent private sale of the same bonds.

(g) It shall state that if no bids are received, or if the highest bid received is not satisfactory as to price, the district may reject all bids received, if any, and either readvertise or sell the bonds at private sale. However, if the bonds are to be sold at private sale, they may not be sold at a price lower than the highest bid received at public sale. Bidders whose bids have been rejected at public sale because of irregularity or informality in their bids will not be permitted to bid at private sale.

(h) It shall state that the district will take action awarding the bonds or rejecting all bids not later than 24 hours after expiration of the time prescribed in the notice for receipt of proposals, provided that the award may be made after the expiration of the specified time, if the bidder shall not have given the district notice in writing of the withdrawal of such proposal.

(i) It shall state that delivery of bonds will be made to the successful bidder at a designated office as soon as the bonds can be prepared (but not prior to the date of the bonds). The district may also provide for delivery of bonds at such place or places, anywhere in the United States, as may be specified in the notice of sale and for receipt and transmittal of purchase price in cash or bank credits in the form of certified Federal Reserve Bank funds. The cost of printing, engraving, or lithographing the bonds will be borne by the district.

(j) It shall provide that the successful bidder shall have the right, at his option, to cancel the contract of purchase if the bonds are not tendered for delivery within 60 days from

the date of sale thereof, and in such event the successful bidder shall be entitled to the return of the deposit accompanying his bid.

(k) It shall provide that if prior to the delivery of the bonds the income received by private holders from bonds of the same type and character shall be declared to be taxable under any federal income tax laws, either by the term of such laws or by ruling of a federal income tax authority or official, which is followed by the Internal Revenue Service or by decision of any federal court, the successful bidder may at his option prior to the tender of said bonds by the district, be relieved of his obligation under the contract to purchase the bonds and in such case the deposit accompanying his bid will be returned.

(*l*) It shall state that there is no controversy or litigation pending or threatened concerning the validity of the bonds to be sold, the corporate existence of said district, or the title of the officers to their respective offices, and the district will deliver to the successful bidder a no-litigation certificate certifying to the foregoing as of and at the same time of delivery of the bonds.

(m) It shall state that a legal opinion from a nationally recognized firm of municipal bond attorneys, approving the validity of bonds in all respects, will be furnished to the successful bidder without charge. Such opinions of municipal bond attorneys may be printed on the back of the bonds with or without cost to the successful bidder, as the district may determine.

SEC. 15. Section 29240 of said code is amended to read:

Alternative procedure for raising funds

29240. As an alternative procedure for the raising of funds, the district is hereby authorized to issue bonds, payable from revenues of any facility or enterprise to be acquired or constructed by the district, in the manner provided by the Revenue Bond Law of 1941, all of the provisions of which are hereby made applicable to the district, provided however, that no election shall be required in the case of revenue bonds authorized by the board of directors for the acquisition of equipment such as cars, trolley buses and motor buses and rolling equipment if prior to such authorization a proposition for the issuance of general obligation bonds has been adopted by vote of the qualified electors of the district pursuant to Section 29168; and provided, further, that nothing contained in the Revenue Bond Law of 1941 shall be deemed to restrict the power of the district to levy taxes and use their proceeds for all district purposes within the restrictions established by this part.

All money required to be paid by the district under the provisions of such agreements, leases and equipment trust certificates shall be payable solely from the revenue or income to be derived from the transportation system and from grants and loans as provided in Sections 29080 and 29081 of this part. Payment for such equipment, or rentals therefor, may be made in installments, and the deferred installments may be evidenced by equipment trust certificates payable solely from such revenue or income, and title to such equipment shall not vest in the district until the equipment trust certificates are paid.

SEC. 17. Section 29252 of said code is amended to read:

SECTION 1. Section 103.4 of the Welfare and Institutions Code is amended to read:

103.4. For the purposes of the provisions of this code relating to public assistance, including but not limited to aid to the aged, aid to needy children, aid to the needy disabled, aid to needy blind, and aid to potentially self-supporting blind residents, the continued absence of a recipient of public assistance from this State for a period of one year or longer shall be prima facie evidence of the intent of the recipient to have changed his residence to a place outside this State. The county granting the aid shall make inquiry from such persons as to their intent to remain residents of California or to become residents of another state, and shall redetermine the residence of such persons for purposes of this chapter. In any case where the inquiry made under this section establishes that the recipient is no longer a resident of this State, his aid shall be terminated immediately.

If a recipient of aid is prevented by illness or other good cause from returning to this State at the end of one year, and has not by act or intent, established residence elsewhere, he shall not be deemed to have lost his residence in this State.

If a recipient of aid is disqualified for aid on the ground that he has left the State, and returns to the State within one year after leaving, he shall be considered to have resided in the State for a sufficient time to qualify for aid, and, if otherwise eligible, aid shall be granted to him as of the first day of the month following his application.

450. It is the intent of this chapter to set forth the amount of personal or real property or both which an applicant for public assistance may retain and remain eligible to receive public assistance provided he meets the other eligibility requirements for the category of public assistance for which he is an applicant.

In the formulation of any regulations pursuant to this chapter and in the administration thereof consideration shall be given to the ability and circumstances of the applicant in order that undue hardship is not imposed upon any applicant in making plans to comply with the provisions of this chapter. No applicant shall be considered ineligible for retaining property where disposition would alter or impair reasonable access to or the normal use of his home.

Conformity with federal requirements

451. If the United States Department of Health, Education, and Welfare issues a formal ruling that any section of this code relating to public assistance cannot be given effect without causing this State's plan to be out of conformity with federal requirements, the section shall become inoperative to the extent that it is not in conformity with federal requirements.

452. As used in this chapter:

Definitions

(a) "Public assistance" means Old Age Security, Aid to Needy Blind, Aid to Needy Disabled, and Medical Assistance for the Aged as provided for in Chapter 1 (commencing with Section 2000) of Division 3, Chapter 1 (commencing with Section 3000) of Part 1 of Division 5, Chapter 1 (commencing with Section 4000) of Part 2 of Division 5, and Part 4 (commencing with Section 4700) of Division 5 respectively of this code

The basic home may be a multiple dwelling unit if the units not occupied by the applicant are producing income for the support of the applicant consistent with their rental value.

Any applicant who does not own a suitable home may apply other real property or the proceeds received therefrom for the acquisition of a home. Such property in whatever form held shall be considered to be used as a home during such time as the following conditions apply:

1. A plan has been made which will provide that the property will be used through conversion or transfer within six months for the purpose of providing a home.

Proceeds of conversion which are received in a form not readily applicable to the initial payment on purchase of the home are retained and all payments thereafter received on such proceeds are applied to the balance due on the home, or for the costs of moving, necessary furnishings, or necessary repairs or alterations to the home.

CHAPTER 1975

An act to amend Sections 4830, 4831, 4831.5, 4831.7 and 4833 of the Health and Safety Code, relative to annexations to county sanitation districts.

[Approved by Governor July 18, 1961. Filed with Secretary of State July 20, 1961.] In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 4830 of the Health and Safety Code is amended to read:

Annexation

4830. Territory, whether situated within the same or another county and whether incorporated or unincorporated, which is contiguous to a district, and not included in any other county sanitation district or other district formed for similar purposes, may be annexed, if the board of supervisors finds and determines that the additional territory will be benefited by annexation. Such annexation may include annexation to an existing improvement district of the district. Territory already a part of a district may be annexed to an improvement district of the district in the same manner as annexation of territory to a sanitation district. The annexation may be effected in the same manner as the formation of a sanitation district in the first instance, in which case the procedure set forth in Section 4831 shall be followed or by verified petition in the manner provided in Section 4831.5, or 4831.7.

SEC. 2. Section 4831 of said code is amended to read:

Proceedings: Property in same county

4831. For the purpose of annexing territory situated within the same county to a district the board of supervisors may proceed in the same manner as for the formation of a sanitation district in the first instance; except that wherever

it is required to set forth the boundaries of the proposed district there shall instead be set forth the boundaries of the territory proposed to be annexed and wherever protests are called for or authorized or an election is to be held, the provisions relating thereto shall refer only to the territory proposed to be annexed.

The district board shall before such annexation is completed, by resolution, find and declare that the district will be benefited by the annexation of the territory and consent to its annexation.

Provided, however, that if a refuse transfer or disposal system of the district, or both, is in existence, said territory proposed to be annexed shall be and become a part of said system unless an express finding is made by the board of supervisors that said territory proposed to be annexed will not be benefited by its inclusion in said system.

SEC. 3. Section 4831.5 of said code is amended to read:

Same. Property in other county

4831.5. Property contiguous to a sanitation district but which is situated in a county other than the county in which the sanitation district has been organized may be annexed to said sanitation district and to any improvement district therein pursuant to this section. A verified petition signed by the owners of more than 50 percent of the assessed value of the property sought to be annexed shall be presented to the board of supervisors of the county in which said annexing property is located. Upon receipt of such petition, the board of supervisors shall either approve or disapprove said proposed annexation, and, if such approval is given, it shall transmit to the board of directors of the sanitation district a copy of the petition for annexation and a copy of the resolution approving same. Upon receipt of said petition and resolution, the board of directors of the sanitation district shall either consent to or reject said proposed annexation and shall give written notice to said board of supervisors of the action so taken. Any consent granted may be contingent upon the territory to be annexed being subject to existing or authorized bonded indebtedness of the district or of any improvement district therein and to such other terms and conditions as the board of directors may deem advisable. Upon receipt of notice that said board of directors have consented to said proposed annexation, the board of supervisors of said county in which the annexing territory is so located shall proceed on the matter of annexation in the same manner as for the formation of a district in the first instance; except that wherever it is required to set forth the boundaries of the proposed district there shall be set forth the boundaries of the territory proposed to be annexed, and wherever protests are called for or authorized or an election is to be held, the provisions therefor shall refer only to the territory proposed to be annexed. Upon either (a) disapproval of said proposed annexation by said board of supervisors or (b) rejection thereof by the board of directors of

said sanitation district as specified above, the procedures for annexation shall terminate and no further petitions for annexation shall be circulated or presented for a period of six months thereafter.

SEC. 4. Section 4831.7 of said code is amended to read:

Bonded debt Petition requesting election

4831.7. If a district to which it is proposed to annex territory has incurred or authorized the incurring of any bonded indebtedness for the acquisition, construction, or completion of sewerage lines or sewage disposal facilities, a verified petition signed by at least 10 percent of the registered voters in the territory proposed to be annexed may be filed with the board of supervisors of the county in which the territory is located requesting that an election be held for the purpose of submitting to the registered voters in the territory the question whether the territory shall be annexed to the district and the property in the territory subjected to taxation after annexation equally with the property in the district to pay a portion of the bonded indebtedness of the district outstanding or authorized on the date the petition is filed

If it is proposed to annex territory to a district and also to an improvement district of such district which has authorized the incurring of any bonded indebtedness for the acquisition, construction, or completion of sewerage lines or sewage disposal facilities, a verified petition signed by at least 10 percent of the registered voters in the territory proposed to be annexed may be filed with the board of supervisors of the county in which the territory is located requesting that an election be held for the purpose of submitting to the registered voters in the territory the question whether the territory shall be annexed to the district and the property in the territory subjected to taxation after annexation equally with the property in the improvement district to pay a portion of the bonded indebtedness authorized by the improvement district on the date the petition is filed.

If the board of directors of either such district has fixed an amount of money to represent the value to the territory proposed to be annexed of sewerage lines and sewage disposal facilities in the district, or within an improvement district in the district, which have already been paid for by district taxpayers or by taxpayers in the improvement district, a petition requesting the holding of an election may request that, in addition or alternatively to either question referred to above, there be submitted to the registered voters in the territory the question whether the territory shall be annexed to the district and the property in the territory subjected to taxation after annexation to pay the amount of money fixed by the board of directors

Election

Upon the receipt of a petition of a type prescribed by this section, the board of supervisors of the county in which the territory proposed to be annexed is located shall call an election at which the question, or questions, presented by the petition shall be submitted to the registered voters in the territory.

The provisions relating to an election for the formation of a district in the first instance shall govern the manner in which the election is called and held except the provisions therefor shall refer only to the territory proposed to be annexed. If a question to be submitted at the election provides that the property in the territory shall be subjected to taxation after annexation to pay a portion of the bonded indebtedness of the district outstanding or authorized on the date the petition was filed, or a portion of the bonded indebtedness authorized by an improvement district in the district on the date the petition was filed, the board of supervisors shall notify the board of directors of the district and the board of directors of the district shall fix the portion of the bonded indebtedness to be stated in the question.

Results Order annexing territory

If a majority of the votes cast upon a question at the election are in favor of annexation upon the terms prescribed by the question, and the district board by resolution has found and declared that the district will be benefited by the annexation and consents thereto, the board of supervisors shall make an order annexing the territory to the district. The property in the territory annexed shall not be subjected to taxation to pay a greater portion of the bonded indebtedness of the district outstanding or authorized on the date the petition was filed, or a greater portion of the bonded indebtedness authorized by an improvement district in the district on the date the petition was filed, than that stated in a question which received an affirmative vote by a majority of those voting thereon. Nor shall the property in the territory be subjected to taxation to pay a greater amount of money to represent the value to the territory of sewerage lines and sewage facilities in the district, or within an improvement district in the district, paid for prior to the annexation by district taxpayers, or by taxpayers in the improvement district, than that stated in a question which received an affirmative vote by a majority of those voting thereon.

SEC. 5. Section 4833 of said code is amended to read:

Tax levy

4833. Taxes for a district which is situated in more than one county as provided in this article shall be levied in accordance with the following procedure:

(a) The board of directors shall annually, before the time of fixing the general tax levy for county purposes, estimate the amount of money necessary to be raised by taxation to meet the requirements for operation, maintenance, and payment of principal and interest on outstanding bonds which will become payable before the proceeds of another tax levy made at the time of the next general tax levy for county purposes can be made available for payment of such operation, maintenance, principal and interest.

(b) The total estimate shall be divided by the board of directors in proportion to the value of the real property of the district and any improvement district in each county. The value shall be determined from the equalized values of the

last assessment rolls of the counties. When the division of the estimate has been made, the board of directors shall promptly certify to the boards of supervisors of the counties in which the district is situated the respective parts of the estimate apportioned to each county.

(c) The board of supervisors of each county in which is situated any part of a district shall annually, at the time of levying county taxes, levy a tax upon all the property within the district or any improvement district situated in the county sufficient to raise the amount so certified to the board of supervisors by the board of directors.

(d) The tax shall be collected by the same officers and in the same manner as other county taxes, and the money so collected shall be deposited in the county treasury of the county in which the original district was created and credited to the account of said district.

(e) The treasurer of the county in which is situated the annexing territory shall at any time, but not oftener than twice a year, upon order of the board of directors, settle with the board of directors and pay over to the county treasurer, who is the repository of the funds of said district, all money in his possession belonging to said district.

Except as otherwise provided in this article, all employments of any municipal court and marshal's office now established or which may be established in Contra Costa County shall be compensated and receive other benefits in accordance with the provisions of the salary ordinance of the county governing other county employments. Any subsequent change in benefits provided by the salary ordinance to employees of the county shall apply equally to employees of the municipal courts and marshals' offices, and shall have the same effective date. These benefits may also be retroactively applied. References hereafter to range allocation and salary steps apply to the basic salary schedule set forth in Section 73351.

Overtime payments must bear the same approval as within range step increases.

In recognition of previous service for which no formal sick leave accruals were provided those marshals who prior to the effective date of this section were elective officers shall receive a credit of sixteen (16) hours sick leave for each completed year or portion thereof of service with Contra Costa County. Notwithstanding the effective date of this section, vacation credits for these marshals shall commence accruing on July 1, 1961 and shall accrue from that date forward in accordance with the provisions of the salary ordinance governing other county employments.

[Approved by Governor July 19, 1961 Filed with Secretary of State July 20, 1961]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 is added to Division 2 of the Health and Safety Code, to read:

CHAPTER 2.5. COUNTY MEDICAL FACILITIES

Article 1. Administration

"Board" 1440. As used in this chapter the term "board" means the board of supervisors of a county.

County hospital 1441. The board of supervisors in each county may establish and maintain a county hospital, prescribe rules for the government and management thereof, appoint a county physician and other necessary officers and employees thereof, who shall hold office during the pleasure of the board and authorize said hospital to be a member of and maintain membership in any local, state or national group or association organized and operated for the promotion of the public health and welfare or the advancement of the efficiency of hospital administration and in connection therewith to use tax funds for the payment of dues and fees.

Transportation 1443. The board may provide for transporting the needy sick to and from hospitals to which they may be sent by authority of the board, and may provide for transporting indigents to other counties or states when such indigents will thereby cease to become public charges, or when friends or relatives of such indigents agree to assume the cost and expense of the care and maintenance of such indigents, or when such indigents are legally public charges in the places to which they are so transported.

Ambulance service 1444. The board of supervisors in each county or city and county, having a population of one million or more, may purchase ambulances, establish and maintain an ambulance service, and prescribe rules for the government and management thereof. In any county where such a service has been established, any person who has been injured in an accident or is ill and in need of immediate transportation to a hospital may be taken to any available hospital. If he is indigent and unable to pay for the service, the cost shall be a proper charge against the county. If he is not indigent, he shall reimburse the county for the cost of transportation, which shall be in accordance with a schedule to be adopted by the board, and in no case less than the actual cost.

Indigents 1445. Under such limitations and restrictions as are prescribed by law, and in addition to jurisdiction and powers otherwise conferred, the boards of supervisors in each county may provide for the care and maintenance of the indigent sick or dependent poor of the county, and may provide medical and dental care and health services and supplies to persons in need thereof who are unable to provide the same for themselves, and for these purposes may levy the necessary taxes. Each county may, insofar as it is able to do so, provide the means to meet promptly and adequately the health needs of the indigent sick, the aged, and the poor, for the better prevention of serious illness and incapacity, to the end that such persons

will not become public charges at the greater expense of those resources set aside for the public health and welfare.

Residence required

1446. Except as otherwise provided in this chapter, a person, in order to be eligible for care, shall be a resident of the State and county wherein care is furnished as defined in Division 4, Chapter 2, Article 2, of the Welfare and Institutions Code.

Provision for medical care

1447. Notwithstanding any other provisions of the Welfare and Institutions Code, the county which is responsible for the payment of public assistance to any person or group of persons under Chapter 1 of Part 2 of Division 2, Chapter 1 of Division 3, or Division 5 of that code, and the needy relative in the case of aid to needy children, shall provide the necessary hospital or medical care, or both, if otherwise qualified for such care. If a recipient of public assistance moves from one county to another county within this State to make his home, the county to which such recipient removes shall become responsible for providing medical or hospital care or both, if he is otherwise qualified for such care, upon notification by the first county that such recipient has moved to the second county for the purpose of making his home in said county.

Care for indigent sick, etc., by contract

1451. (a) The board shall not let the care, maintenance or attendance of the indigent sick or dependent poor by contract to any person. However, in cases:

(1) Of unusual difficulty, or

(2) Which require treatment, or hospital services, or the use of facilities not immediately available in the county hospital, or

(3) Of emergency and for continued treatment after the emergency has ceased to exist,

the board may secure for the indigent sick, and other persons admissible to the county hospital, at an agreed rate, hospital service or any portion thereof from any public or private hospital, clinic, rest home, sanitarium, or other suitable facility or from any corporation formed under Section 9201 of the Corporations Code or under Chapter 11A of Part 2, Division 2, of the Insurance Code, and operating in the State.

(b) As used in this section, "hospital service" includes medical, surgical, radiological, laboratory, nursing service, convalescent care, and the furnishing of the necessary professional personnel, equipment, and facilities to manage the needs of patients on a continuing basis in accordance with accepted medical standards, with a staff of professional nursing personnel who are assigned and available under a clear and definite responsibility to the institution rendering the service for the provision of services to the patients, and such other care, service or supplies as may be necessary for the treatment of the sick or injured.

(c) The county may also contract with licensed boarding homes for 24-hour care for dependent children under the age

of 21 years, when suitable facilities are not otherwise available in any institution or establishment maintained and operated by the county.

(d) The county may also contract for medical treatment of persons admissible to the county hospital with any licensed physician and surgeon, or a corporation operating under Section 9201 of the Corporations Code.

Hospital trust fund

1452. The board of supervisors of counties of the 20th class and 40th to 58th class, inclusive, in connection with the administration of a county hospital may establish in the county treasury a special fund to be known as the "Hospital Trust Fund," into which may be placed deposits made voluntarily by patients entering such hospital.

At the time of any patient's dismissal from a county hospital, there shall be refunded to him, upon the order of the business manager or other person designated by the board of supervisors, such portion of the deposit made voluntarily by the patient at the time of his entrance into the hospital as was unneeded for his care while confined therein. The portion earned by the hospital shall be transferred to the hospital fund in the county treasury.

Upon presentation of an order for refund under this section, the county auditor shall draw his warrant on the Hospital Trust Fund, and the county treasurer shall pay the amount due thereon.

If no refund is made within 30 days after the patient's discharge, the patient may file a claim against the county pursuant to Article 1 of Chapter 4 of Division 3 of Title 3 of the Government Code

Patients' personal deposit fund

1453. The board of supervisors of any county in connection with the administration of any county hospital may establish in the county treasury a special fund to be known as the "patients' personal deposit fund." When such fund is established, any patient in such hospital may request the superintendent thereof to deposit in said fund any moneys belonging to such patient. Upon any such request by any patient any moneys belonging to him shall be deposited in the name of that patient in said patients' personal deposit fund, except that if a guardian of the estate is appointed for any such patient, then said guardian shall have the right to demand and receive such moneys or to withdraw either in whole or in part the moneys theretofore deposited in said fund in the name of any such patient. Any of the funds belonging to a patient deposited in the patients' personal deposit fund may be used for the purchase of personal incidentals for the patient or otherwise used for the personal needs and benefits of said patient upon his request. At the time of the discharge from the hospital of any patient there shall be refunded to him upon the order of the superintendent the balance of any moneys standing to the credit of such patient in said fund.

Prior to the time of the discharge of any patient, upon the demand of the patient there shall be refunded to him upon

the order of the superintendent the whole or any portion of the balance of any moneys standing to the credit of such patient in said fund. Upon such demand of the patient, or upon the discharge of the patient from the hospital, or upon the demand of the guardian of the estate of the patient, the superintendent shall order the refund to the patient or the payment to such guardian as hereinbefore provided.

Expectant mothers

1454. In any county where a county hospital has been established, any expectant mother who is unable to pay for her necessary care shall be admitted to the county hospital, and the cost of her maintenance and care shall be a proper charge against and shall be paid by the county of her residence.

Graduates in medicine

1455 The board shall appoint a suitable graduate, or graduates, in medicine to attend such indigent sick or dependent poor in the county hospitals and almshouses.

Article 2. Liability for Cost of Care

Rates

1473 The board of supervisors in each county may fix the rates to be charged patients admitted to any county hospital and may direct any county officer to collect the amounts due the county for hospitalization and medical care. In fixing and collecting hospital charges the board may exercise all the powers conferred by Article 4 of Chapter 2 of Division 4 of the Welfare and Institutions Code. The board, or such county officer as it may authorize or designate, may adjust or compromise hospital charges according to the financial condition of the patient, his estate, or legally responsible relatives.

Collection charges

1474. In collecting charges for care rendered under this chapter, the board may exercise all powers provided in Article 4, Chapter 2, Division 4 of the Welfare and Institutions Code, and as it may be amended at the 1961 Regular Session and thereafter.

Duty of county

1475. Unless there exists a reciprocal agreement relating to the expense of medical care and treatment, it shall be the duty of every county to pay for the expense of treatment of its indigent residents furnished by the county hospital of any other county. As a condition of liability, the county providing such medical and hospital care shall, not more than ten (10) days after admission, give notice to the county of residence.

In effect September 15, 1961

[Approved by Governor July 19, 1961. Filed with Secretary of State July 20, 1961.]

The people of the State of California do enact as follows:

Adult child Support of parent

2181. The ability of an adult child to contribute to the support of a parent shall be determined in accordance with this section.

Maximum amount

The maximum monthly amount an adult child shall be required to contribute toward the support of a parent in receipt of aid under this chapter shall not exceed the amount specified by the relatives' contribution scale. Regulations of the State Social Welfare Board shall prescribe the criteria, methods of investigation and test check procedures relating to the determination of the maximum amount any adult child may be held liable to contribute toward the support of a parent to the end that the required contribution does not impose an undue hardship upon the adult child and administrative time and effort are not expended on nonproductive investigative activities.

Definition

For purposes of this chapter, income of an adult child is defined as the sum of the income constituting the separate property of the adult child, the income (excluding earnings) which is community property subject to the direction and control of the adult child, and the earnings of the adult child but not of his or her spouse.

25 percent allowance

In computing net income, a flat 25 percent allowance shall be permitted for the cost of personal income taxes, disability insurance taxes and social security taxes, expenses necessary to produce the income, including the cost of transportation to and from work, meals eaten at work, and union dues, and the cost of tools, equipment and uniforms.

A responsible relative who is self-employed shall also be allowed to deduct the expenses necessary for obtaining the income.

The State Social Welfare Board in establishing criteria and regulations for the administration of this section shall provide for consideration of contributions made in kind.

CHAPTER 2067

An act to amend Section 2016 of the Code of Civil Procedure, relating to depositions.

In effect September 15, 1961

[Approved by Governor July 19, 1961. Filed with Secretary of State July 20, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 2016 of the Code of Civil Procedure is amended to read:

2016. (a) Any party may take the testimony of any person, including a party, by deposition upon oral examination or written interrogatories for the purpose of discovery or for use as evidence in the action or for both purposes. Such depositions may be taken in an action at any time after the service of the summons or in a special proceeding after the service of the petition or after the appearance of the defendant or respondent. After commencement of the action or proceedings, the deposition may be taken without leave of court, except that leave of court, granted with or without notice, and for good cause shown, must be obtained if the notice of the taking of the deposition is served by the plaintiff within 20 days after service of the summons or petition on, or appearance of, the defendant or respondent. The attendance of witnesses or the production of books, documents, or other things at depositions may be compelled by the use of subpoena as provided in Chapter 2 (commencing with Section 1985), Title 3, Part 4 of this code.

(b) Unless otherwise ordered by the court as provided by subdivision (b) or (d) of Section 2019 of this code, the deponent may be examined regarding any matter, not privileged, which is relevant to the subject matter involved in the pending action, whether it relates to the claim or defense of the examining party, or to the claim or defense of any other party, including the existence, description, nature, custody, condition and location of any books, documents, or other tangible things and the identity and location of persons having knowledge of relevant facts. It is not ground for objection that the testimony will be inadmissable at the trial if the testimony sought appears reasonably calculated to lead to the discovery of admissible evidence. All matters which are privileged against disclosure upon the trial under the law of this State are privileged against disclosure through any discovery procedure. This article shall not be construed to change the law of this State with respect

to the existence of any privilege, whether provided for by statute or judicial decision, nor shall it be construed to incorporate by reference any judicial decisions on privilege of any other jurisdiction.

(c) Examination and cross-examination of deponents may proceed as permitted at the trial under the provisions of this code.

(d) At the trial or upon the hearing of a motion or an interlocutory proceeding, any part or all of a deposition, so far as admissible under the rules of evidence, may be used against any party who was present or represented at the taking of the deposition or who had due notice thereof, in accordance with any one of the following provisions:

(1) Any deposition may be used by any party for the purpose of contradicting or impeaching the testimony of deponent as a witness.

(2) The deposition of a party to the record of any civil action or proceeding or of a person for whose immediate benefit said action or proceeding is prosecuted or defended, or of anyone who at the time of taking the deposition was an officer, director, superintendent, member, agent, employee, or managing agent of any such party or person may be used by an adverse party for any purpose.

(3) The deposition of a witness, whether or not a party, may be used by any party for any purpose if the court finds: (i) that the witness is dead; or (ii) that the witness is at a greater distance than 150 miles from the place of trial or hearing, or is out of the State, unless it appears that the absence of the witness was procured by the party offering the deposition; or (iii) that the witness is unable to attend or testify because of age, sickness, infirmity, or imprisonment; or (iv) that the party offering the deposition has been unable to procure the attendance of the witness by subpoena; or (v) upon application and notice, that such exceptional circumstances exist as to make it desirable, in the interest of justice and with due regard to the importance of presenting the testimony of witnesses orally in open court, to allow the deposition to be used.

(4) Subject to the requirements of this section, a party may offer in evidence all or any part of a deposition, and if such party introduces only part of such deposition, any party may introduce any other parts.

Substitution of parties does not affect the right to use depositions previously taken; and, when an action in any court of the United States or of any state has been dismissed and another action involving the same subject matter is afterward brought between the same parties or their representatives or successors in interest, all depositions lawfully taken and duly filed in the former action may be used in the latter as if originally taken therefor.

(e) Subject to the provisions of subdivision (c) of Section 2021 of this code, objection may be made at the trial or hearing to receiving in evidence any deposition or part thereof

for any reason which would require the exclusion of the evidence if the witness were then present and testifying.

(f) A party shall not be deemed to make a person his own witness for any purpose by taking his deposition. Except where the deposition is used under the provisions of paragraph (2) of subdivision (d) of this section, the introduction in evidence of the deposition or any part thereof for any purpose other than that of contradicting or impeaching the deponent, or for explaining or clarifying portions of the said deposition offered by an adverse party, makes the deponent the witness of the party introducing the deposition, as to the portions of the deposition introduced by said party. At the trial or hearing any party may rebut any relevant evidence contained in a deposition whether introduced by him or by another party.

CHAPTER 2068

An act to add Part 4 (commencing with Section 19900) to Division 13 of the Health and Safety Code, relating to housing for the elderly.

property and assets of the district between the city and the remaining district. If, within such period a mutually agreeable basis is reached, the property and assets of the district shall be distributed between the city and the remaining district upon such basis.

(c) If, under the provisions of subdivision (b), no mutually agreeable basis for the distribution of the property and assets of the district is reached within the six-month period, on the date the district ceases to furnish district services to the area withdrawn or upon the end of the six-month period, whichever is the last to occur, all of the property and unencumbered funds of the district shall be divided between the city and the remaining district in proportion to the average assessed value of the real property within the area withdrawn to the average assessed value of the real property within the entire district during the five-year period prior to the effective date of the withdrawal, as determined from the equalized assessment rolls for such period.

All funds and property received by the city shall be used exclusively and directly for the types of services furnished by the district; provided, that nothing herein shall prevent the sale of property not needed for such purposes for its fair market value if the funds derived from such sale are used solely for such purposes.

For the purpose of this section, the unencumbered funds are the sum of money, uncollected taxes, and other uncollected amounts in excess of an amount sufficient to pay all claims and accounts against the district, but shall not include funds necessary for the maintenance and operation of the district for any period for which the district has the duty to provide district services within the area withdrawn.

[Approved by Governor July 19, 1961. Filed with Secretary of State July 20, 1961.] In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 3106 of the Public Resources Code is amended to read:

3106. The supervisor shall so supervise the drilling, operation, maintenance, and abandonment of wells as to prevent, as far as possible, damage to underground oil and gas deposits from infiltrating water and other causes, loss of oil, gas, or reservoir energy and damage to underground and surface waters suitable for irrigation or domestic purposes by the infiltration of, or the addition of, detrimental substances, by reason of the drilling, operation, maintenance, or abandonment of wells. Duty of supervisor

The supervisor shall also supervise the drilling, operation, maintenance, and abandonment of wells so as to permit the owners or operators of such wells to utilize all methods and practices known to the oil industry for the purpose of increasing the ultimate recovery of underground hydrocarbons and which, in the opinion of the supervisor, are suitable for such purpose in each proposed case. In order to further the elimination of waste by increasing the recovery of underground hydrocarbons it is hereby declared as a policy of this State that the grant in an oil and gas lease or contract to a lessee or operator of the right or power, in substance, to explore for and remove all hydrocarbons from any lands in the State of California, in the absence of an express provision to the contrary contained in such lease or contract, is deemed to allow the lessee or contractor or his successors or assigns, to do what a prudent operator using reasonable diligence would

do, having in mind the best interests of the lessor, lessee and the State, in producing and removing hydrocarbons, including but not limited to the injection of air, gas, water or other fluids into the productive strata, the application of pressure heat or other means to the reduction of viscosity of the hydrocarbons, the supplying of additional motive force or creating of enlarged or new channels for the underground movement of hydrocarbons into production wells, when such methods or processes employed have been approved by the supervisor; provided, however, nothing contained in this section imposes a legal duty upon such lessee or contractor, his successors or assigns, to conduct such operations.

SEC. 2. Section 3227 of said code is amended to read:

Statement by owner

3227. The owner of any well producing or capable of producing oil or gas shall file with the supervisor, on or before the 10th day of each month, for the last preceding calendar month, a statement, in such form as the supervisor may designate, showing:

Contents

(a) The amount of oil and gas produced from each well during the period indicated, together with the gravity of the oil, the amount of water produced from each well, estimated in accordance with methods approved by the supervisor, and the number of days during which fluid was produced from each well.

(b) The number of wells drilling, producing, or idle, owned or operated by such person.

(c) What disposition was made of the gas produced from each well, including the names of persons, if any, to whom the gas was delivered, and such other information regarding the gas and the disposition thereof as the supervisor may require.

Upon request and satisfactory showing, a longer interval may be fixed by the supervisor for such reports in the case of any specific owner or operator.

(d) It is the duty of the supervisor to compile from such statements and to publish monthly statistics showing the amount of oil and gas produced in the State by oil fields and pools, together with the number of wells drilling, number of wells producing or idle, all separately stated as to oil fields and pools, with such other information as the supervisor deems proper.

"Pool"

(e) As used in this section, "pool" means an underground reservoir containing a common accumulation of crude petroleum oil or natural gas or both. Each zone of a general structure which is separated from any other zone in the structure is a separate pool.

SEC. 7. Section 3608 of said code is amended to read:

Declarations covering parcels less than one acre

3608. Where land aggregating less than one acre is surrounded by other lands, which other lands are subject to an oil and gas lease aggregating one acre or more, and if, under the provisions of Sections 3600 to 3607, inclusive, of the Public Resources Code, the drilling or producing of a well on said land is declared to be a public nuisance, said land shall, for oil and gas development purposes and to prevent waste and to protect the oil and gas rights of landowners, be deemed included in said oil and gas lease on said other lands, and shall be subject to all the terms and provisions thereof, when the State Oil and Gas Supervisor has caused to be recorded with the county recorder of the county in which said land aggregating less than one acre is located a declaration as hereinafter provided. A request for inclusion of surrounded land aggregating less than one acre may be filed with the supervisor at any time by either the lessee of such other lands or by the owner or lessee of such surrounded land or the supervisor may act upon his own motion. Before filing such request the lessee of such other lands shall make a reasonable effort to include each parcel of surrounded land, within the oil and gas lease upon such other lands.

There shall be attached to such request a statement which shall set forth the name or names of the record owner or record owners of said land aggregating less than one acre which is to be included in said oil and gas lease on said other lands, the legal description of said land aggregating less than one acre, name of the lessee of the oil and gas lease in which such land is to be included, and a reference to the book and page of the official records of the county recorder where such oil and gas lease is recorded or a reference to the document number and date of recordation of such oil and gas lease. Within 20 days following receipt of such request and attached statement, the supervisor shall cause to be recorded with the county recorder of the county in which said land aggregating less than one acre is located, a declaration, signed by him or his assistant or deputy, that said land is deemed by the provisions of this section to be included in said oil and gas lease on said other lands. Such declaration shall set forth the same information required to be set forth in the statement attached to the request, and a copy thereof shall be mailed or otherwise delivered by the supervisor to the lessee. The county recorder shall

accept such declaration for recordation and shall index such declaration in the names of all persons or corporations mentioned therein. From the time of recording thereof in the office of the county recorder such notice shall impart constructive notice of the contents thereof to all persons dealing with the land therein described.

The owners of the oil and gas mineral rights in said land so deemed included in said oil and gas lease on said other lands, as herein provided, shall thereafter receive in money, based upon the production of oil and gas from the leasehold including said land or lands unitized or pooled therewith, a pro rata share of the landowners' royalty determined in accordance with the provisions of said oil and gas lease in the proportion that the area of said land bears to the aggregate of the total area covered by said oil and gas lease including the area of said land or as otherwise provided in said lease; provided further, that said owners of said oil and gas mineral rights in said land shall in no case receive less than their pro rata share determined, as herein provided, of the value of one-eighth part of the oil and gas produced, saved and sold from or allocated to the operating unit comprising said leasehold on said other lands and said land, computed in accordance with the provisions of said oil and gas lease with respect to the computation of landowners' royalty; provided further that upon recordation of the statement by the supervisor, the owners of such oil and gas mineral rights in such land shall also receive a pro rata share of any other benefits thereafter accruing to the owners of the oil and gas mineral rights under the terms of the oil and gas lease on such other lands; and provided further, that without the consent of said owners of said land the lessee or operator of said oil and gas leasehold shall have no right to use the surface of said land nor to use the subsurface thereof down to a depth of 200 feet below the surface thereof.

Where said land aggregating less than one acre is surrounded by lands which are not subject to a single oil and gas lease but is surrounded by lands which are subject to two or more separate oil and gas leases, one or more of which oil or gas leases aggregates one acre or more, then in such event the said land aggregating less than one acre shall, as herein provided, be included within and be joined to that oil and gas lease aggregating one acre or more as to which said parcel of land aggregating less than one acre has the longest common boundary. If there is no longest common boundary, the request shall designate the lease, aggregating one acre or more, into which the parcel aggregating less than one acre shall be included by the declaration of the supervisor; otherwise the supervisor shall make such designation.

In determining the contiguity of any parcels of land for the purposes hereof, no road, street or alley shall be deemed to interrupt such contiguity.

CHAPTER 2075

An act to amend Section 75060 6 of the Government Code, relating to judges' retirement

[Approved by Governor July 19, 1961. Filed with Secretary of State July 20, 1961.]

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 75060 6 of the Government Code is amended to read:

75060.6. Except as provided in Section 75060.5, every judge who retires pursuant to Section 75060 shall during the remainder of his life, receive an allowance equal to one-half of the salary payable, at the time the allowance falls due, to the judge holding the judicial office to which he was last elected by the people. The allowance shall be paid by the State at the times and in the manner provided for the payment of salaries of justices of the Supreme Court.

The Commission on Judicial Qualifications, in its discretion, and from time to time, may require any judge who is receiving an allowance under this section and who is under the age of 65 years to undergo medical examination. Such examination shall be made by one or more physicians or surgeons, appointed by the Commission on Judicial Qualifications, at the place of residence of the judge or other place mutually agreed upon. Upon the basis of such examination the commission shall determine whether he is still incapacitated, physically or mentally, for service as a judge. If the commission determines, on the basis of the results of such medical examination, that he is not so incapacitated, he shall be a judicial officer of the State, but shall not exercise any of the powers of a justice or judge except while under assignment to a court by the Chairman of the Judicial Council. The allowance of such judge shall cease if he refuses an assignment while he is not so incapacitated. The provisions of Section 68543.5 are applicable to such a judge. The transfers and deductions required by Sections 75102 and 75103 shall be made with respect to the salary paid such a judge while he is so assigned. If such judge subsequently retires pursuant to Section 75025, the period of time he served while so assigned shall be included in the computation of years of service for the purpose of Section 75025. The provisions of this section and of Section 75060 are applicable to all judges of courts of record in this State.

CHAPTER 2076

In effect September 15, 1961

[Approved by Governor July 19, 1961. Filed with Secretary of State July 20, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 30609 of the Streets and Highways Code is amended to read:

Alterations, etc.

30609. Subject to the limitations hereinafter prescribed and under the provisions of Chapter 1 of this division, the department may make such revisions of, and improvements or alterations to, the San Francisco-Oakland Bay Bridge, its approaches, connections and other appurtenances, including the terminal building in San Francisco, as are deemed desirable and necessary by the department to permit the use of the entire San Francisco-Oakland Bay Bridge for traffic. Such revisions may include work necessary for the routing of traffic in one direction on each deck of the bridge.

Funds

The department may use for such purposes any funds now on hand from the revenues of the San Francisco-Oakland Bay Bridge, and the future revenues of the bridge accruing up to July 1, 1961, or so much thereof as may be necessary, over and above those required to repay the State Highway Fund as required by Sections 30605 and 30607, and to provide the costs of maintenance, operation, insurance and other expenses of the San Francisco-Oakland Bay Bridge.

Rapid transit bonds

In the event bonds are issued for the construction of the rapid transit tube to be secured by the revenues of the San Francisco-Oakland Bay Bridge, the authority may provide for the completion of the work on the San Francisco-Oakland Bay Bridge, and for any work on the San Mateo-Hayward Bridge, from the proceeds of bonds to be included in such an issue or it may reserve from the revenues which would secure such a bond issue sufficient revenues to complete the work.

SEC. 2. Section 30778 of said code is amended to read:

Pledge of tolls and revenues

30778. The annual tolls and revenues of the San Francisco-Oakland Bay Bridge or so much thereof as may be necessary after provision for the payment in full of all annual costs of maintenance, operation, insurance and other expenses of the San Francisco-Oakland Bay Bridge, and after payment or provision for payment in full of all the costs of revisions, improvements and alterations referred to in and subject to the limitations of Section 30609, and all of the costs of any project involving the San Mateo-Hayward Bridge, shall be pledged and used to finance and pay for the cost of construction of the rapid transit tube, including but not limited to payment of the principal of, and interest and premiums, if any, on, and

provision for security of, the revenue bonds of the authority issued pursuant to this article. The costs of the approaches of the rapid transit tube, including but not limited to the portion of all financing costs attributable to such approaches, shall be reimbursed to the authority by the district in accordance with Section 29081 of the Public Utilities Code, over a period to be fixed by agreement between the district and the authority at not less than the estimated period for retirement of said revenue bonds and not longer than the full term of such bonds having the latest maturity. Such reimbursement shall be in equal annual installments or in such installments as may be agreed upon. The district at its option may anticipate any of such installments in whole or in part. No other payments shall be required of the district for the use of the rapid transit tube.

SEC. 3 Section 30779 of said code is amended to read:

Precedence of construction

30779. Other than the improvement of the San Francisco-Oakland Bay Bridge and the improvement of the San Mateo-Hayward Bridge, the construction of the rapid transit tube shall precede the construction of any additional crossing of San Francisco Bay, financed in whole or in part by the tolls or revenues of the San Francisco-Oakland Bay Bridge, providing, however, that if by November 30, 1963, the voters of the district have not approved the issuance of general obligation bonds of the district for the construction of a regional rapid transit system, the provisions of this section and Sections 30775, 30777, and 30778 shall be of no further force or effect.

In the event the voters of the district have not approved the issuance of such bonds by November 30, 1963, the accumulated tolls or revenues from the San Francisco-Oakland Bay Bridge shall be used to finance a vehicular crossing of San Francisco Bay from a point south of the San Francisco-Oakland Bay Bridge to an eastern terminus in Alameda County after the completion of the work involved in the improvement of the San Francisco-Oakland Bay Bridge and the improvement of the San Mateo-Hayward Bridge. A portion of such accumulated tolls and revenues may be used to finance engineering studies by the department to determine the most appropriate termini for, and the approaches to, the crossing.

SEC. 4 Section 30791.5 is added to said code, to read:

San Mateo-Hayward Bridge

30791.5. The department is requested to design and construct the improved San Mateo-Hayward Bridge facility as a high level fixed span bridge, if it finds that the necessary approvals of such plans can be obtained from the appropriate officials of the federal government and that the improvement can be constructed with available funds.

SEC. 5. Section 30794 of said code (as proposed by Chapter 57, Statutes of 1961) is amended to read:

Alternative method of financing

30794. As an alternative method of financing, the California Toll Bridge Authority may pay for the costs of the reconstruction and improvement work on the San Mateo-

Hayward Bridge, including repayment to the State Highway Fund for funds advanced for studies, from any funds now on hand or from future revenues of the San Francisco-Oakland Bay Bridge up to and including June 30, 1964, insofar as such funds are determined by the authority to be available after providing for the payment for the work necessary to complete the reconstruction of the San Francisco-Oakland Bay Bridge as authorized by Section 30609. In the event the work is so financed the authority shall continue to assess, and the department shall collect, tolls on the San Mateo-Hayward and Dumbarton Bridges after the repayment of all bonds secured thereby either at rates then in effect or at rates equal to or in excess of those payable on the San Francisco-Oakland Bay Bridge. All revenues so collected shall be paid into the same fund as revenues of the San Francisco-Oakland Bay Bridge and shall be available for expenditure for the same purposes as the revenues from the San Francisco-Oakland Bay Bridge, including the pledging thereof as security for future issues of revenue bonds that may be authorized by the authority.

(a) If the policyholder is not a trustee or the trustees of a fund established or maintained in whole or in part by the

employer, the policy shall provide that the employee's individual contribution shall be the rate in the policy, on the date cessation of work occurs, applicable to an individual in the class to which the employee belongs as set forth in the policy. If the policy does not provide for a rate applicable to individuals, the policy shall provide that the employee's individual contribution shall be an amount equal to the amount determined by dividing (1) the total monthly premium in effect under the policy at the date of cessation of work by (2) the total number of persons insured under the policy at such date.

(b) If the policyholder is a trustee or the trustees of a fund established or maintained in whole or in part by the employer, the employee's contribution shall be the amount which he and his employer would have been required to contribute to the trust for such employee if (1) the cessation of work had not occurred and (2) the agreement requiring the employer to make contributions to the trust were in full force.

(c) The policy may provide that the continuation of insurance is contingent upon the collection of individual contributions by the union or unions representing the employees for policies referred to in subdivision (a) above, and by the policyholder or the policyholder's agent with respect to policies referred to in subdivision (b) above.

(d) The policy may provide that the continuation of insurance on each employee is contingent upon timely payment of contributions by the individual and timely payment of the premium by the entity responsible for collecting the individual contributions.

(e) The policy may provide that each individual premium rate shall be increased by any amount up to twenty percent (20%), or any higher percent which may be approved by the commissioner, of that otherwise shown in the policy during the period of cessation of work in order to provide sufficient compensation to the insurer to cover increased administrative costs and increased mortality and morbidity. If the policy does provide for such an increase, this shall have the effect of increasing the employee's contribution by a like percent.

(f) Nothing in this section shall be deemed to limit any right which the insurer may have in accordance with the terms of the policy to increase or decrease the premium rates before, during or after such cessation of work if, in fact, the insurer would have had the right to increase the premium rate had the cessation of work not occurred. If such a premium rate change is made, it shall be effective, notwithstanding any other provisions of this section, on such date as the insurer shall determine in accordance with the terms of the policy.

(g) The policy may contain such other provisions with respect to such continuation of insurance as the commissioner may approve.

(h) The policy may provide that, if a premium is unpaid at the date of cessation of work and such premium became due prior to such cessation of work, the continuation of insurance

is contingent upon payment of such premium prior to the date the next premium becomes due under the terms of the policy.

Nothing herein shall be deemed to require the continuation of any loss of time payments included in any such group disability policy, nor of any other coverages beyond the time that seventy-five percent (75%) of the employees continue such coverage or as to any individual employee beyond the time that he takes full-time employment with another employer; nor shall anything herein be deemed to require continuation of coverage more than six (6) months after the cessation of work.

Nothing in this section shall be construed as modifying or in any way affecting the operation and effect of the provisions of Part 2 of Division 1 of the Unemployment Insurance Code

That portion of the decree or judgment making any such allowance or allowances, and the order or orders of the court to enforce the same, including any order for support of children or order for support of the other party based on a provision for such support in an integrated property settlement agreement, may be modified or revoked at any time at the discretion of the court except as to any amount that may have accrued prior to the order of modification or revocation. The board may, by appropriate regulation, provide for the waiver or refund of the initial license fee where the license is issued less than 45 days before the date on which it will expire.

Any such harbor shall be turned over to a county, city, or district as provided in this chapter for other small craft harbors constructed, developed or improved by the division, for operation, and no such harbor shall be constructed until an agreement for such transfer has been entered into. The people of the State of California do enact as follows:

SECTION 1. Section 1503 of the Welfare and Institutions Code is amended to read:

1503. It is the object and purpose of this chapter to provide aid for children whose dependency is caused by circum-

stances defined in Section 1500 and to keep children in their own homes wherever possible and to provide the best substitute for their own homes for those children who must be given foster care.

Those engaged in the administration of aid under this chapter are responsible to the community for its effective, humane, and economical administration.

It is the intent of the Legislature that the employment and self-maintenance of parents of needy children be encouraged to the maximum extent and that this chapter shall be administered in such a way that needy children and their parents will be encouraged and inspired to assist in their own maintenance. The State Department of Social Welfare shall take all necessary steps to implement this section.

For the purposes of this chapter the value of supplies, equipment and other items which are a part of a program to assist in the maintenance and self-support shall not be considered as personal property as established by Section 1521.

The people of the State of California do enact as follows:

SECTION 1. Section 1504 of the Welfare and Institutions Code is amended to read:

1504. Whenever any aid under this chapter is repaid to a county or recovered by a county pursuant to Section 1506.5, the State shall be entitled to a share of the amount received or recovered, proportionate to the amount of state funds paid,

and, if the funds advanced by the federal government were paid, the federal government shall be entitled to a share of the amount received or recovered, proportionate to the amount of federal funds paid.

Repayments to the State and to the federal government made pursuant to this section shall be computed after deducting the costs reasonably and necessarily incurred by the district attorney's office in locating and recovering from the parents of the children receiving aid under this chapter. The county shall establish a recordkeeping system, in accordance with the standards prescribed by the State Social Welfare Board, to support the deductions provided for in this section.

This section shall take effect if and when amendments to the federal statutes or rules and regulations of the United States Department of Health, Education, and Welfare take effect permitting the use of federal funds to reimburse local law enforcement agencies for the costs incurred by them in enforcing the support liability of parents of children receiving aid under the chapter.

Where a needy child as defined in this chapter lives with his mother and a stepfather or an adult male person assuming the role of spouse to the mother although not legally married to her, the amount of the grant made pursuant to Section 1511 of this code shall be computed after consideration is given to the income of the stepfather or such adult male person. The county granting aid shall determine if the stepfather or such adult male person is able to support the child either wholly or in part. Said determination shall be based upon a standard which takes into account the stepfather's or such adult male person's income and expenses under regulations set forth by the State Board of Social Welfare.

Notwithstanding the provisions of Section 209 of the Civil Code, a stepfather or such adult male person is bound to support, if able to do so, his wife's children if without support from such stepfather or adult male person they would be needy children eligible for aid under this chapter. However, such liability for support shall not exceed the wife's community property interest in his income.

A natural father is not relieved of any legal obligation to support his children by the liability for their support imposed upon their stepfather by this section.

As used in this section, "adult male person" means any male person of age 18 years or older.

Legislative declaration

of statewide interest; (2) The prosecution and conduct of trials of persons accused of homicide should not be hampered or delayed by any lack of funds available to the counties for such purposes; (3) A county should not be required to bear the entire costs of a trial involving a homicide if such costs will seriously impair the finances of the county; and (4) It is the intention of the Legislature in enacting this chapter to provide for state assistance to counties in such emergency situations.

A redevelopment agency may, in order to facilitate the rehousing of families and single persons who are displaced from their homes in a project area, utilize the aids made available through federal urban renewal, redevelopment and housing legislation and may use funds derived from any public or private source to carry out the purposes of this section.

In effect September 15, 1961

The people of the State of California do enact as follows:

SECTION 1. Section 661 of the Harbors and Navigation Code is repealed.

SEC. 2. Section 661 is added to said code, to read:

661. (a) Every owner of an undocumented vessel numbered under this code is liable and responsible for the death of or injury to person or property resulting from negligence in the operation of such vessel, in the business of the owner or otherwise, by any person using and operating the same with the permission, express or implied, of the owner, and the negligence of such person shall be imputed to the owner for all purposes of civil damage. It shall be presumed that such vessel is being operated with the knowledge and consent of the owner if at the time of the injury, death or damage it is under the control of his or her spouse, father, mother, brother, sister, son, daughter, or other immediate member of the owner's family. Nothing contained in this chapter shall be construed to relieve any person from any liability which he would otherwise have, but nothing contained in this chapter shall be construed to authorize or permit any recovery in excess of injury or damage actually incurred.

Liability for negligent operation

Presumption of knowledge

(b) The liability of an owner for imputed negligence imposed by this section and not arising through the relationship of principal and agent or master and servant is limited to the amount of ten thousand dollars ($10.000) for the death of or injury to one person in any one accident and, subject to the limit as to one person, is limited to the amount of twenty thousand dollars ($20,000) for the death of or injury to more than one person in any one accident and is limited to the amount of ten thousand dollars ($10,000) for damage to property of others in any one accident.

Upon recovery of judgment, recourse shall first be had against the property of the operator so served.

Subrogation

(d) If there is recovery under this section against an owner based on imputed negligence, the owner is subrogated to all the rights of the person injured or whose property has been injured and may recover from the operator the total amount of any judgment and costs recovered against the owner.

Bailee of owner

(e) If the bailee of an owner with the permission, expressed or implied, of the owner permits another to operate the vessel of the owner, then the bailee and such operator shall both be deemed operators of the vessel of the owner within the meaning of subdivisions (c) and (d) of this section.

Settlement of claims

(f) Where two or more persons are injured or killed in one accident, the owner may settle and pay any bona fide claims for damages arising out of personal injuries or death, whether reduced to judgment or not, and the payments shall diminish to the extent thereof the owner's total liability on account of the accident. Payments aggregating the full sum of twenty thousand dollars ($20,000) shall extinguish all liability of the owner for death or personal injury arising out of the accident which exists by reason of imputed negligence, pursuant to this section, and did not arise through the negligence of the owner nor through the relationship of principal and agent or master and servant.

Sale under conditional sale

(g) If a vessel is sold under a contract of conditional sale whereby the title to such vessel remains in the vendor, such vendor or his assignee shall not be deemed an owner within the provisions of this section relating to imputed negligence, but the vendee or his assignee shall be deemed the owner notwithstanding the terms of such contract, until the vendor or his assignee retakes possession of the vessel. A chattel mortgagee of a vessel out of possession is not an owner within the provisions of this section relating to imputed negligence.

Abatement

(h) No action based on imputed negligence under this section shall abate by reason of the death of any injured person or of any person liable or responsible under the provisions of this section. In any action for physical injury based on imputed negligence under this section by the executor, administrator, or personal representative of any deceased person, the damages recoverable shall be the same as those recoverable under Section 956 of the Civil Code.

(a) The director shall determine and shall file with the Secretary of State prior to November 30 of each calendar year, beginning with the calendar year 1962, a "weekly benefit amount factor," for the immediately succeeding calendar year, which shall be two-thirds of the average weekly total wage paid in "employment" by all employers during the second

Weekly benefit amount factor

calendar quarter in the year in which the determination is made. "Employment" as used in this subdivision only, shall mean "employment" as that term was defined under this division as of December 31, 1960, except that any exclusions of service from "employment" under this division operative after December 31, 1960 shall be excluded from "employment" under this subdivision. Additional weekly benefit amount levels

(b) For each one dollar ($1) by which the weekly benefit amount factor determined under subdivision (a) of this section exceeds seventy dollars ($70), there shall be added to the table of benefits set forth under Section 2655 an additional line having the same wage intervals in increments of twenty-five dollars ($25) as set forth in column A opposite the weekly benefit amounts of sixty-eight dollars ($68) and sixty-nine dollars ($69) in column B of Section 2655, so as to provide for one dollar ($1) of weekly benefit amount, in addition to seventy dollars ($70), for each such increase in the weekly benefit amount factor. Any additional weekly benefit amount established pursuant to this section shall apply to periods of disability commencing on or after January 1st of the calendar year for which the additional weekly benefit amount is first established and shall remain in effect for each succeeding calendar year, unless changed pursuant to subdivision (c) of this section.

Same: Cancellation

(c) Any additional weekly benefit amount established pursuant to subdivision (b) of this section shall be subject to cancellation. If the weekly benefit amount factor is reduced in any year, there shall be a corresponding reduction in any additional weekly benefit amount established pursuant to subdivision (b). In no event shall the maximum weekly benefit amount be below seventy dollars ($70).

In effect September 15, 1961

[Approved by Governor July 19, 1961. Filed with Secretary of State July 20, 1961.]

The people of the State of California do enact as follows:

SECTION 1. Section 711 is added to the Unemployment Insurance Code, to read:

"Nonprofit organization"

711. (a) As used in this section "nonprofit organization" means any corporation, community chest, fund, or foundation, organized and operated exclusively for religious, charitable, scientific, literary, or educational purposes, or for the prevention of cruelty to children or animals, no part of the net earnings of which inures to the benefit of any private shareholder or individual, no substantial part of the activities of which is carrying on propaganda, or otherwise attempting to influence legislation, which does not participate in, or intervene in (including the publishing or distributing of statements), any political campaign on behalf of any candidate for public office and which is exempt from income tax under Section 501(a) of the Internal Revenue Code of 1954.

Election to become an employer

(b) If Congress enacts legislation exempting nonprofit organizations from the provisions of Section 3303 of the Federal Unemployment Tax Act, a nonprofit organization may, when requested by a written petition signed by a majority of its employees to be covered by the election, elect to become an employer subject to this division for not less than two calendar years with respect to all of its employees who are covered by the election, and may file its written election with the director. If the director finds that a majority of the employees to be covered by the election to become an employer have signed the petition, the nonprofit organization shall, upon the written approval of the director, become an employer subject to this

division to the same extent as other employers, and services performed by its employees covered by the election, shall constitute employment subject to this division. Beginning at that time it shall withhold from the wages of employees covered by the election the contributions required for unemployment compensation disability benefits. A nonprofit organization may exclude from coverage under an election pursuant to this section any of the following service:

Exclusion of certain services

(1) Service performed in any calendar quarter in the employ of any such nonprofit organization exempt from federal income tax if the remuneration for such service is less than fifty dollars ($50).

(2) Service performed in the employ of a school, college, or university, if such service is performed by a student who is enrolled and is regularly attending classes at such school, college, or university.

(3) Service performed as a student nurse in the employ of a hospital or a nurses' training school by an individual who is enrolled and is regularly attending classes in a nurses' training school chartered or approved pursuant to state law.

(c) In lieu of the contributions required of employers except as provided by Section 714, each nonprofit organization that has elected coverage under this section may elect any one of the following:

Alternative method of paying contributions

(1) To pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (d) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits paid with respect to employment for the nonprofit organization. Benefits otherwise payable irrespective of this section shall be charged

to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid pursuant to this section shall be borne solely by the appropriate nonprofit organization. If benefits are based on wages paid by two or more nonprofit organizations, the benefits shall be borne by each of the nonprofit organizations in the proportion that the total wages paid to the individual in employment by each nonprofit organization bears to the total wages paid to the individual in employment by all nonprofit organizations during the base period. "Total wages paid" as used in this subdivision include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930.

(2) To pay into the Unemployment Fund the cost of benefits paid with respect to employment for the nonprofit organization and charged to its account in accordance with Section 1026, pursuant to authorized regulations which shall prescribe the rate or amount, time, manner, and method of payment of contributions and the extent to which the reserve account elements of any nonprofit organization that has made contributions pursuant to an elective coverage agreement either under Section 702 or this section may be included in its account under this subdivision (c)(2). Sections 712, 1030, 1031, and 1032 shall not apply to an election under this subdivision (c)(2).

Joint accounts

(3) Two or more nonprofit organizations that have elected coverage under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purpose of determining the rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to employment for such nonprofit organizations. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits paid with respect to employment for such members, or to share the cost of benefits paid with respect to employment for such members and charged to the joint account in accordance with Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in accordance with Section 1026. Section 712 shall not apply to any joint account established pursuant to this subdivision, but the director may by authorized regulations prescribe the extent to which the reserve account elements of any nonprofit organization that has made contributions pursuant to an elective coverage agreement either under Section 702 or this section may be included in the joint account. Sections 1030, 1031, and 1032 shall not apply to any joint account established pursuant to this subdivision.

(d) In making the payments prescribed by subdivision (c) (1) of this section, and by subdivision (c)(3) of this section for a joint account on an additional cost basis, there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each nonprofit organization on an additional cost basis under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director. Payments on an additional cost basis, adjustments, etc

Upon making such determination, the director shall certify to the nonprofit organization the amount determined with respect to it. The contributions due from the nonprofit organization shall be paid to the Unemployment Fund by the nonprofit organization.

(e) After the termination of any election under this section, nonprofit organizations shall remain liable for their proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to their accounts in accordance with Section 1026, which are based on wages paid for services during the period of the election. Termination of election

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

SEC. 2. Section 712 is added to said code, to read:

712. No contributions shall be due from any nonprofit organization which has elected to become subject to Section 711 and which has made contributions required of employers pursuant to an elective coverage agreement within the five years prior to the effective date of Section 711, until the benefits chargeable to the nonprofit organization under Section 711 together with the benefits charged to the nonprofit organization during the preceding five years exceed the contributions made by the nonprofit organization during the preceding five years. Contributions due under Section 711 election

total wages paid to the individual by all such nonprofit organizations and governmental entities during the base period. "Total wages paid" as used in this section include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930.

SEC. 4. Section 714 is added to said code, to read:

Additional contributions

714. Each nonprofit organization that has elected coverage under Section 711 on the basis of sharing the cost of benefits paid with respect to employment and charged pursuant to Section 1026 either on its own account or by inclusion in a joint account shall pay into the Unemployment Fund the additional contributions required by Part 3 of this division, in addition to other contributions required by this article.

Operative dates

SEC. 5. The provisions of Sections 711, 712, 713, and 714 of the Unemployment Insurance Code added by this act shall be operative with respect to wages paid on and after October 1, 1961, or on or after the first day of the calendar quarter next succeeding the date of enactment by Congress of legislation exempting nonprofit organizations from the provisions of Section 3303 of the Federal Unemployment Tax Act, whichever is later. Notwithstanding the provisions of Section 705 of the Unemployment Insurance Code, any nonprofit organization as defined in Section 711 of said code added by this act that has elected coverage under the provisions of said code as in effect prior to this act may terminate such elective coverage as of September 30, 1961, or as of the last day of the calendar quarter in which the date of enactment by Congress of legislation exempting nonprofit organizations from Section 3303 of the Federal Unemployment Tax Act falls, whichever is later.

[Approved by Governor July 20, 1961. Filed with Secretary of State July 21, 1961.]

SECTION 1. Section 222 is added to Fish and Game Code, to read:

222. A copy of the booklet published pursuant to Section 217 may be given by the issuer of the license to every license purchaser at the time he purchases his license. It shall be the booklet containing the latest regulations so printed applicable to the activity authorized by the license being purchased.

Such booklet shall contain in the front portion the following:

COMMISSION

The Fish and Game Commission, composed of five members, appointed by the Governor, subject to confirmation by the Senate, for a six-year term has been a constitutional body since 1940. It possesses such powers as are delegated to it by the Legislature. In general, the Legislature has granted the commission the power to regulate the taking or possession of birds (both resident and migratory), mammals (including deer, bear, elk, antelope, rabbits and squirrels), fish, amphibians (frogs) and reptiles, except for commercial purposes.

These powers have been delegated for two-year intervals by each general session of the Legislature. Other regulatory powers pertaining to less significant fish and game matters have been granted on an unrestricted basis. One of the major responsibilities of the commission is to hold public meetings to hear and consider the recommendations of interested citizens and groups before setting fish and game regulations.

As stipulated by the Fish and Game Code, general policies for conduct of the department are formulated by the Fish and Game Commission and the Director of the Department of Fish and Game is responsible to the commission for administration of the department in accordance with the policies thus established. Moreover, both the Wildlife Conservation Board and the Marine Research Committee indirectly set policies for the department since both agencies are empowered by the code to request and direct the department to take certain actions. Notwithstanding that the department is subject by law to certain decisions of the commission, the Wildlife Conservation Board and the Marine Research Committee, the Director of the Department of Fish and Game is responsible to the Governor.

Wildlife Board

The Wildlife Conservation Board was established by the Wildlife Conservation Act of 1947. It consists of the President of the Fish and Game Commission, the Director of the Department of Fish and Game and the Director of Finance. Additionally, three Members of the Senate and three Members of the Assembly meet with the board and participate in its activities. The primary responsibilities of the board consist of selecting and authorizing the acquisition of land and property suitable for recreation purposes and the preservation, protection and restoration of wildlife. The board is empowered to authorize construction of facilities on property it has acquired, consistent with the purpose for which the property was purchased. The acquisition and construction program of the board is financed out of the Wildlife Restoration Fund for which, in 1955, the Legislature established a continuing annual appropriation of $750,000 from the State's share of parimutuel revenues derived from wagers on horseracing.

Marine Research Committee

The Marine Research Committee which was established by the Legislature in 1947, is made up of nine members, five representing commercial fish processors, at least one member representing organized sportsmen's groups and at least one representing organized labor. The membership is appointed by the Governor for two-year terms. The committee is empowered to employ personnel or contract for research in the development of commercial fisheries of the Pacific Ocean and financial support for the committee is derived from a special privilege tax on fish dealers and fish packers.

Department

The Department of Fish and Game is charged with the administration and enforcement of the Fish and Game Code. It is organized as a headquarters staff in Sacramento, five regional managers, each responsible for Fish and Game operations in his portion of the State, and the marine resources operations located at Terminal Island in Los Angeles County. General policies for the conduct of the department are formulated by the Fish and Game Commission and the director is responsible to the commission for administration of the department in accordance with such policies. The Director of the Department is the appointing power of all employees within the department and they are responsible to him for the proper carrying out of the duties and responsibilities of their respective positions.

Support of the Department of Fish and Game comes from the Fish and Game Preservation Fund, which derives its revenue from the sale of hunting and fishing licenses, court fines and commercial fishing taxes. Generally speaking, one-half of the fines and forfeitures collected as a result of violations of the Fish and Game Code are deposited in the Fish and Game Preservation Fund and the other one-half goes to the county in which the offense was committed. The moneys going to the county must be deposited in the County Fish and Game Propagation Fund and expended for the propagation and conservation of fish or game within the county under the direction of the board of supervisors.

There are also grants of federal funds for fisheries projects under the so-called Dingell-Johnson Act and for wildlife projects under the so-called Pittman-Robinson Act, allocated to the states from taxes on sporting articles, in ratio to the number of licensed hunters and fishermen and the area involved.

Legislative Interim Committees on Fish and Game
