CHAPTER 504

An act to amend Section 1374 of, and to add Sections 1312 and 1401.5 to, the Insurance Code, relating to reciprocal or interinsurance exchanges.

[Approved by Governor June 4, 1965. Filed with Secretary of State June 4, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 1312 is added to the Insurance Code, to read:

1312. (a) Any reciprocal or interinsurance exchange, domestic or foreign, which has obtained a certificate of capability to reinsure or a favorable order under Section 1401.5 and whose subscribers by such order have no liability for assessment, may accept reinsurance of risks for all classes of insurance which it writes in California including the class in which such reinsurance is to be accepted.

(b) Contracts accepting such reinsurance shall be entered into between the ceding insurer and the reinsuring reciprocal or interinsurance exchange by its attorney in fact. The ceding insurer need not become a member of or a subscriber to the reinsuring reciprocal or interinsurance exchange and such contracts of reinsurance may contain any or all of the terms and conditions customary in reinsurances of the classes of insurance covered.

SEC. 2. Section 1374 of said code is amended to read:

1374. In estimating the financial condition of any exchange the commissioner shall observe the following rules:

(a) He shall charge as liabilities the same reserves as are required of incorporated insurers issuing nonassessable policies on a reserve basis.

(b) There shall be allowed as an admitted asset the surplus deposits of subscribers, except that in the case of any subscriber whose premium deposit is due and unpaid for 90 days, such premium deposit shall be first charged against such surplus deposit.

(c) The surplus deposits of subscribers shall not be charged as a liability.

(d) All premium deposits due and unpaid for a period not exceeding 90 days shall be allowed as admitted assets, as in the case of incorporated insurers issuing nonassessable policies on a reserve basis.

(e) An assessment levied as provided in this chapter, and not collected shall in no event be allowed as an asset.

(f) The computation of reserves shall be based upon premium deposits without any deduction for the compensation of the attorney.

"Surplus deposits of subscribers" as used in this article means the amount of premium deposits reflected in the individually maintained accounts of each of the subscribers of a reciprocal or interinsurance exchange as a credit balance over and above all charges against such accounts, including any unpaid premium for the current terms of the policies of the subscriber.

SEC. 3. Section 1401.5 is added to said code, to read:

1401.5. (a) When the commissioner finds after a public hearing that a reciprocal or interinsurance exchange has at all times during any consecutive five-year period terminating on December 31, 1964, or on the last day of any subsequent calendar year, as shown by its annual statements, as filed or as adjusted by the commissioner, as the case may be, maintained a surplus of admitted assets over all liabilities of at least three million dollars ($3,000,000) the commissioner may make an order that such reciprocal or interinsurance exchange need not obtain the certificate provided in Section 1401 and that its subscribers shall thereafter in perpetuity have no liability for assessment on policies issued or renewed at any time after such order becomes final or may, if the reciprocal desires not to become nonassessable, issue a certificate of capability to reinsure. To request such an order such reciprocal or interinsurance exchange shall file a petition with the commissioner, on a form prescribed by the commissioner. The filing fee for such a petition shall be two hundred dollars ($200). The commissioner shall give notice of such hearing in the insurance press and in such other ways as he deems advisable and to the extent he deems advisable. Such an order is subject to the provisions of Section 12940 and any person with sufficient relevant interest shall be authorized to bring any permitted action thereunder.

(b) When any such order of the commissioner becomes final any domestic reciprocal or interinsurance exchange obtaining such an order shall no longer be subject to or entitled to the benefits of: subdivision (c) of Section 1307, subdivisions (b) and (c) of Section 1374, and Article 6 of this chapter.

(c) At such time as all reciprocal or interinsurance exchanges conducting insurance business in this state are by law governed for all purposes as to required minimum surplus (including that for admission, amendment of certificate of

authority and solvency) by the same standards for minimum paid-in capital and surplus as are then applicable to capital stock insurers, any domestic reciprocal or interinsurance exchange may obtain the order provided in (a) hereof, subject to the provisions thereof by showing that it has maintained such minimum paid-in capital and surplus requirement applicable to capital stock insurers for at least five consecutive years in lieu of the three million dollars ($3,000,000) surplus prescribed in said subdivision (a) hereof.

(d) If the power of attorney or any policy of any domestic reciprocal or interinsurance exchange obtaining the order provided by (a) hereof contains language directly or indirectly creating a liability for assessment, in respect to policies issued prior to or issued after such an order becomes final such power of attorney and all such policies shall be deemed in law to have been amended to delete and repeal any and all such assessment provisions as of the date such order becomes final without any further action on the part of such a reciprocal or interinsurance exchange, its subscribers, its attorney in fact or the body exercising the subscriber's rights.

SEC. 4. The revenues derived from the increases in fees provided for in this act shall not be available for expenditure until appropriated.

CHAPTER 505

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 (commencing with Section 8400) is added to Part 2 of Division 5 of the Water Code, to read:

CHAPTER 4. COBEY-ALQUIST FLOOD PLAIN MANAGEMENT ACT

Article 1. Declaration of Policy

8400. This chapter may be cited as the Cobey-Alquist Flood Plain Management Act.

8401. The Legislature finds and declares that:

(a) A large portion of the state's land resources is subject to recurrent flooding by overflow of streams and watercourses causing loss of life and property, disruption of commerce, and interruption of transportation and communications, all of which are detrimental to the health, safety, welfare, and property of the people of this state.

(b) The public interest necessitates sound development of land use, as land is a limited, valuable, and irreplaceable resource, and the flood plains of this state are a land resource to be developed in a manner which, in conjunction with economically justified structural measures for flood control, will result in (1) prevention of loss of life, and (2) prevention of economic loss caused by excessive flooding.

(c) The primary responsibility for planning, adoption, and enforcement of land use regulations to accomplish flood plain management rests with local levels of government.

(d) It is the policy of this state to encourage local levels of government to plan land use regulations to accomplish flood plain management and to provide state assistance and guidance therefor as appropriate.

Article 2. Definitions

8402. Unless the context otherwise requires, the following definitions apply throughout this chapter:

(a) "Department" means Department of Water Resources.

(b) "Board" means the State Reclamation Board.

(c) Wherever the words "department or board" or "department and board" are used together in this chapter they shall mean board as to any area within a project which by law is under the jurisdiction of the State Reclamation Board, and the department in all areas of the state outside these areas.

(d) "Public agency" means any city, city and county, county, or district organized, existing, and acting pursuant to the laws of this state.

(e) "Design flood" means the selected flood against which protection is provided, or eventually will be provided, by means of flood protective or control works. When a federal survey has been authorized the design flood will be determined by the appropriate federal agency and in all other cases it will be determined by the responsible local agency. It is the basis for design and operation of a particular project after full consideration of flood characteristics, frequencies,

and potentials and economic and other practical considerations.

(f) "Designated floodway" means the channel of a stream and that portion of the adjoining flood plain required to reasonably provide for the construction of a project for passage of the design flood including the lands necessary for construction of project levees.

(g) "Restrictive zone" means the portion of the natural floodway between the limits of the designated floodway and the limits of the flood plain where inundation may occur but where depths and velocities are generally low.

Article 3. Review of Flood Plain Management Plans

8403. Prior to the establishment by a public agency of flood plain management regulations, the public agency may request and receive a review by the department or the board of the public agency's flood plain management plans and shall furnish with the request necessary hydrologic studies, including flood routings or surveys adequate to properly delineate flood plain categories together with such additional supporting data as the department or the board may require.

8404. Where adequate personnel are not available to a public agency to prepare the necessary flood routing or other engineering data needed for support of its flood plain management plans, the department or board may, upon request of the public agency, make or cause to be made the necessary investigation and provide the data to the requesting public agency for its use in developing such plans. The cost of such investigations shall be borne by the public agency making the request.

Article 4. Establishment of Flood Plain Regulations

8410. Flood plain regulations established to comply with requirements of Section 8411 shall meet the following criteria:

(a) Construction of structures in the designated floodway which may endanger life or significantly restrict the carrying capacity of the designated floodway shall be prohibited. For the purpose of this subdivision, the word "structures" does not include public utility electric, gas, or communication lines which may be located within the designated floodway; provided, that any permit or permits as may be required by law, other than this chapter, to so locate such lines have been granted.

(b) Developments shall be permitted within the restrictive zone in accordance with local agency policy, giving full consideration to the protection of human life and the carrying capacity of the flood plain.

8411. Within any area classified "designated floodway" by the department or board after completion of a federal proj-

ect report where an appropriate public agency fails to establish the necessary flood plain regulations within a reasonable time, as determined by the department or board, following notification by the department or board, the state shall not appropriate money to pay any cost of lands, easements, and rights-of-way associated with that flood control project as set forth in the project report of the federal agency.

Article 5. Administrative Regulations

8415. The department and the board, within their respective jurisdictions as provided in this chapter, shall establish general policy and may prescribe such rules and regulations as may be necessary to carry out this chapter.

[Approved by Governor June 4, 1965. Filed with Secretary of State June 4, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 1802 of the Insurance Code is amended to read:

1802. A bail agent's license by its terms permits the licensee to solicit, negotiate, and effect undertakings of bail on behalf of any surety insurer while there is in effect an unrevoked notice of appointment of such insurer filed pursuant to Section 1802.1. Such license shall not be issued unless and until there is filed with the commissioner a bond having an admitted surety insurer as surety thereon in the penal sum of one thousand dollars ($1,000), conditioned upon the proper application and disposal of all moneys collected or received by the bail agent, his solicitors licensed pursuant to his appointment, and his employees, in favor of the people of the State of California.

SEC. 2. Section 1802.1 is added to said code, to read:

1802.1. Every applicant for a license to act as bail agent must file with the commissioner a notice of appointment executed by a surety insurer or its authorized representative authorizing such applicant to execute undertakings of bail and to solicit and negotiate such undertakings on its behalf. Additional notices of appointment may be filed by other surety insurers, upon the payment for each additional notice of the fees specified in subdivision (a) of Section 1811, before such license is issued and thereafter, as long as such license remains in force. Each appointment shall, by its terms, continue in force until:

(a) Termination of the bail agent's license;

(b) The end of the license year, if the fee provided in subdivision (d) of Section 1811 for filing an annual notice of intention to keep the license in force or a renewal application is not paid; or

(c) For filing an application for examination, or reexamination twenty dollars ($20).

In the case of a bail agent with more than one valid notice of appointment on file, the fee to be charged pursuant to this subsection shall be the fee provided herein multiplied by the number of insurers whose valid appointments are on file at the date such document is filed unless such bail agent in such document advises the commissioner of his intent to terminate the appointment of one or more such insurers, in which event the fee shall be based upon the number of insurers remaining.

At the time of filing an application for a license, if a qualifying examination is required for issue or in connection with such license, the fee for filing the first application to take the qualifying examination shall be paid at the time of filing application for the license.

SEC. 4. The revenues derived from the increases in fees provided for in this act shall not be available for expenditure until appropriated.

SEC. 2. Section 12285 of said code is amended to read:

12285. On or before October 15th any insurer dissatisfied with the assessment of the retaliatory tax may apply to the

board to have the assessment corrected in any particular. The petition shall state the grounds of the objection to the assessment and the corrections sought. At the time the petition is filed with the board a copy of the petition shall be filed with the commissioner.

SECTION 1. Article 18 (commencing with Section 31895) is added to Chapter 3 of Part 3 of Division 4 of Title 3 of the Government Code, to read:

Article 18. Adjustment to Fit Other Allowances

31895. As used in this article "public agency" includes the federal government or any federal department or agency, this state, any other state or any state department or agency, a county, city, public corporation, or public district of this state or any other state. Section 31478 does not apply to this article.

31895.5. As used in this article, "total benefits" means the retirement allowance or other benefit payable to any beneficiary pursuant to the provisions of this chapter plus any other monetary payments due to the same beneficiary from any public agency.

31896. If an increase in the retirement allowance or other benefit payable to any beneficiary pursuant to the provisions of this chapter, whether such increase begins prior or subsequent to the effective date of this article, results in the decrease of the amount of any monetary payments due to the same beneficiary from any public agency, such retirement allowance or other benefit shall be so reduced as to result in the maximum total benefits to such beneficiary.

31896.5. If the statutes, ordinances, rules, regulations, or orders of any public agency are so changed, or if for any other reason the effect of the increase of the retirement allowance or other benefit payable to any beneficiary pursuant to the provisions of this chapter on the amount of any monetary payments due to the same beneficiary by such public agency are changed, the board shall adjust such retirement allowance or other benefit, but not to an amount greater than otherwise authorized by this chapter so as to result in the maximum total benefits to such beneficiary.

31897. The provisions of this article are mandatory and not subject to option or election by any member or other beneficiary. Every such beneficiary shall inform the board of all facts necessary in order to comply with this article. The board shall ascertain such facts by such procedures as it sees fit to adopt.

31897.5. If the board in good faith diligently seeks to ascertain all facts necessary in order to comply with this article, but, despite such effort, a payment of a retirement allowance or other benefit to any beneficiary is made without having been reduced as required by this article, neither the board, nor any member thereof, nor any public officer nor public employee shall be liable for such excess payment.

31898. A retirement allowance or other benefit payable to a beneficiary pursuant to this chapter shall not be reduced pursuant to this article if such reduction would impair the constitutional rights of any person.

CHAPTER 512

An act to add Section 31831.1 to the Government Code, relating to the county retirement system.

[Approved by Governor June 4, 1965. Filed with Secretary of State June 4, 1965.]

31831.1. Any member who left county service prior to July 1, 1960, and within 100 calendar days became a member of a retirement system established under this chapter in another county may elect deferred retirement pursuant to Article 9 of this chapter, provided that he redeposits, in the retirement fund of the county he left, the amount of any refund of contributions and interest he received from such county plus regular interest thereon from date of such separation, and provided further that he may not, after such election and redeposit, rescind such election or withdraw any of his accumulated contributions while a member of the system of the county he entered within said 100 days. Upon such election and redeposition as described in this section, the member shall be entitled to the benefits provided in Sections 31830 through 31840, inclusive.

CHAPTER 513

An act to amend Sections 31452.5, 31458.2, 31781.1 of the Government Code, relating to the County Employees' Retirement Law of 1937.

[Approved by Governor June 4, 1965. Filed with Secretary of State June 4, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 31452.5 of the Government Code is amended to read:

31452.5. The board may comply with and give effect to a revocable written authorization signed by a retired member entitled to a retirement allowance or benefit under this chapter, authorizing the treasurer to deduct a specified amount from the retirement allowance or benefit payable to any such retired member for the purpose of paying premiums on any policy or certificate of group life insurance or group disability insurance issued by an admitted insurer, or for any prepaid group medical or hospital service plan, or both, approved by such board, for the benefit of such retired member or his dependents, or for the payment of premiums on national service life insurance or United States government converted insurance, or for the purchase of shares in or the payment of money to any regularly chartered credit union, and each month shall draw his order in favor of the insurer, institution or credit union named in said written authorization for an amount equal to the deductions so authorized and made during the month. The board may charge a reasonable fee for the making of such deductions and payments and such fees shall be deposited in the county fund from which salaries are paid.

SEC. 2. Section 31458.2 of said code is amended to read:

31458.2. If, after December 31, 1957, and either before or after retirement a member dies leaving a spouse and has not

designated a beneficiary, and, prior to the payment of any portion of the death benefit, such spouse files with the board written evidence, satisfactory to the board, that she or he is the surviving spouse and the date of the marriage, such surviving spouse shall be deemed, for the purposes of this chapter, to have been nominated as the beneficiary by such member.

SEC. 4. Section 31781.1 of said code is amended to read:

31781.1. If any member of a retirement system established in a county subject to the provisions of Section 31676.1 would have been entitled to retirement in the event of his becoming disabled by a non-service-connected disability, dies as the result of any such injury or illness prior to his retirement, leaving a surviving spouse, such spouse shall have the right to elect by written notice filed with the board, to receive and be paid in lieu of the death benefit provided for in Sections 31780 and 31781 of this act, an "optional death allowance."

Such allowance shall consist of a monthly payment equal to 60 percent of the monthly retirement allowance to which such deceased member would have been entitled if he had retired or been retired by reason of non-service-connected disability as of the date of his death.

If such surviving spouse shall elect to receive such "optional death allowance" the payments so becoming due such spouse shall be retroactive to the date of the deceased member's death, and shall continue during and throughout the life of such spouse.

If such surviving spouse elects to receive such "optional death allowance," and thereafter dies leaving an unmarried surviving child or unmarried children of such deceased member under the age of 18 years, such "optional death allowance" shall thereafter be paid to such surviving children collectively until they die, marry, or reach the age of 18 years; provided, however, that the right of any such children respectively to share in such allowance shall cease upon their death or marriage, or upon their reaching the age of 18 years, and the entire amount of such allowance shall thereafter be paid collectively to the other qualified children.

If such deceased member leaves no spouse surviving him but leaves unmarried children under the age of 18 years, the legally appointed guardian of such children shall make the election herein provided for on behalf of such surviving children as in his judgment may appear to be in their interest and advantage, and the election so made shall be binding and conclusive upon all parties in interest.

The rights and privileges conferred by this section upon the surviving spouse and/or children of such deceased member shall not be dependent upon whether they or any of them shall have been nominated by the deceased member as the beneficiary of any benefits payable upon or by reason of his death, but shall be superior to and shall supersede the rights and claims of any other beneficiary so nominated.

CHAPTER 514

An act to amend Section 28135 of the Government Code, relating to county officers.

For other classes of boilers, the division shall establish internal inspection intervals which will insure the safety of people working in the vicinity of the boiler. In determining such intervals the division shall consider such factors as the design and construction of the boilers and the conditions under which they operate.

External inspection shall be made of all boilers at the time of the internal inspection and at such other intervals as are deemed necessary by the division acting through qualified safety engineers and certified inspectors.

31461.3. The average compensation during any period of service as a member of the State Employees' Retirement System or a member of a retirement system established under this chapter in another county shall be considered compensation earnable by a member for purposes of computing final compensation for such member provided:

(2) He retires concurrently under both systems and is credited with such period of service under such other system at the time of retirement.

This section shall be applied retroactively under this chapter in favor of any member whose membership in the State Employees' Retirement System or in a retirement system established under this chapter in any county terminated prior to October 1, 1957, provided that he was eligible to and elected deferred retirement therein within 180 days after such termination, the period intervening between active memberships in the respective systems did not exceed 90 days, and he retires concurrently under both systems and is credited with such period of service under such other system at the time of retirement. 265. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1964 on property owned by an educational institution of collegiate grade, acquired by it during that fiscal year and of a kind that might qualify for the college exemption, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some educational institutions of collegiate grade purchased property during the 1964–65 fiscal year, after the lien date thereof, which property was taxed for that fiscal year, although now within the scope of the college exemption. If required to meet such tax obligations, the ability of such institutions to function effectively will be seriously impaired, to the great detriment of our educational system. This act will remedy that situation, and in doing so the public policy of the state for the exemption of property owned by educational institutions of collegiate grade, as expressed in Section 1a of Article XIII of the Constitution, will be subserved and the state as a whole will benefit.

The people of the State of California do enact as follows:

SECTION 1. Section 1622.5 is added to the Revenue and Taxation Code, to read:

1622.5. In any county in which two or more boards have been created and are functioning:

(a) The clerk of the tax appeals boards may assign a member from one board to serve temporarily as a member of another board in order to complete a quorum, and

(b) The board of supervisors may appoint an alternate member for each board. Whenever any regular member of a board is temporarily unable to act as a member of the board, the alternate member may sit on the board and shall have the same authority to act as a regular member.

31875. Any county may provide by ordinance that the principles set forth in Article 16.5 (commencing with Section 31870), as a basis for adjustment of retirement allowances in accordance with future cost-of-living changes, shall be applied for the purpose of adjusting retirement allowances in accordance with past cost-of-living changes.

31876. The retirement allowances payable following the effective date of this article in the county shall be in the same amounts as would be payable if Article 16.5 had been in effect in the county on the date specified in the ordinance as the date for application of this article in the county.

If all or part of a bill is not paid, the district may discontinue any or all services or facilities for which the bill is rendered.

The district may provide for the collection of charges. Remedies for their collection and enforcement are cumulative and may be pursued alternatively or consecutively as the district determines.

The district may provide for a basic penalty of not more than 10 percent for nonpayment of the charges within the time and in the manner prescribed by it, and in addition may provide for a penalty of not exceeding one-half of 1 percent per month for nonpayment of the charges and basic penalty. It may provide for collection of the penalties herein provided for.

SEC. 2. Section 9 of said act is amended to read:

Sec. 9. The legal title to all property acquired under the provisions of this act shall immediately and by operation of law vest in the district, and shall be held by the district, in trust for, and is hereby dedicated and set apart to, the uses and purposes set forth in this act. The board is authorized to hold, use, acquire, manage, occupy and possess said property, as provided herein. If the board determines by resolution duly passed and entered in its minutes, that any district property, real or personal, is no longer necessary to be retained for the uses and purposes of the district it may thereafter sell or otherwise dispose of said property, or lease the same, in the manner provided by law for the disposition and sale of property of counties, except that the title to water rights held by the district shall not be conveyed or alienated except by vote of the electors at an election held for that purpose; provided, however, that the district may, upon a finding by the board that such disposition will not adversely affect the district in any respect, and without compliance with provisions of law governing sale of property by counties, release or convey any right-of-way or easement to other public agencies, with or without consideration, or, for an adequate consideration, to any nonpublic person, corporation or association. The considera-

tion for any such release or conveyance, or the adequacy thereof, or whether such release or conveyance shall be made to a public agency without consideration, shall be determined by a four-fifths vote of the board at a meeting of the board after the board has considered such release or conveyance as a scheduled agenda item at not less than two of its regularly scheduled meetings. Nothing contained in this section, however, shall be deemed or construed to prevent the board by majority vote thereof from entering into a contract or contracts binding the district to provide a firm supply of water either within or without the boundaries of the district to any person, firm, corporation, municipal corporation or any other agency whatsoever without either a vote of the electorate or compliance with the law relating to the sale of property of counties.

SEC. 3. Section 11 of said act is amended to read:

Sec. 11. The district shall not incur any indebtedness or liability in any manner or for any purposes exceeding in any year the income and revenue provided for such year, and any indebtedness or liability incurred in violation of this section shall be absolutely void and unenforceable.

This section shall have no application to debts or liabilities incurred pursuant to the provisions of this act, authorizing the issuance of bonds, the levying of special assessments, the execution of contracts with the United States, the State of California, or other governmental agencies, including the repayment of loans from the United States or the state for projects in which the United States or the state has participated and for the maintenance, operation, and capital improvement of such projects, nor to the incurring of any indebtedness or liability authorized by a vote of the electors of the district at an election held for such purpose, nor to the incurring of any indebtedness or liability repayable entirely out of revenues derived or to be derived from the sale of water pursuant to Section 30.17 or otherwise, nor to the incurring of any indebtedness or liability incurred during one fiscal year and repayable during the following fiscal year to provide funds for highway and utility relocations and purchase of lands, easements, and rights-of-way required for flood control or water conservation projects approved by the United States and the State of California as to which the district is eligible for reimbursement of the cost of highway and utility relocations and lands, easements, and rights-of-way during the following fiscal year under provisions of Part 6 (commencing with Section 12570) of Division 6 of the Water Code.

SEC. 4. Section 12 of said act is amended to read:

Sec. 12. The board in any year shall have the power to levy a tax, which shall be in addition to taxes for the payment of and interest on any bonded indebtedness, upon the taxable property in said district. Said tax shall be levied and collected at the same time and in the same manner, together with and not separately from taxes for county purposes, and not to exceed, however, the sum of fifteen cents ($0.15) on each

one hundred dollars ($100) of the assessed valuation of all property within the district, measured by the county assessment roll last equalized prior to the levying of said tax, to pay for the construction of new projects of the district or the maintenance, repair, or extension of any projects in the district or to accumulate reserves to expend for any of such purposes in subsequent fiscal years; or to pay the costs and expenses of surveys, compensation for clerical, engineering, legal, printing and advertising of all resolutions, notices, and other matter required to be printed, posted or published; all costs and expenses of legal actions or proceedings; the rental or purchase of real or personal property used in connection with such work and surveys, or any other of its purposes; and to repay the county any and all moneys loaned to the district for the purposes herein stated and prior to the receipt of taxes.

SEC. 5. Section 12.1 of said act is repealed.

SEC. 6. Section 12.2 of said act is amended to read:

Sec. 12.2. The board in any year shall have the power to levy a tax upon the taxable property in the district, which shall be in addition to other taxes of the district levied pursuant to Section 12 of this act and shall be in addition to other taxes of the district or any zone within the district levied pursuant to any other provision of this act. The tax shall be levied and collected at the same time and in the same manner, together with and not separately from taxes for county purposes, to pay or otherwise meet the district's contractual obligation or undertaking to the federal government or the federal government and the State of California of the project for Russian River, Dry Creek, California, as authorized by act of Congress approved October 23, 1962, Public Law 87-874, 87th Congress, 2d Session, 76 Stat. 1173, and the proposed project in Knights Valley, Russian River Basin, with dams on Maacama and Franz Creeks, and the proposed project on Big Sulphur Creek, or to the State of California of the cost of construction, operation, and maintenance of elements of the California Water Plan to the extent that the elements of that plan may be constructed, operated and maintained, as a cooperative undertaking with Napa and Solano Counties and local retail water agencies in Sonoma County, to deliver water to the district.

SEC. 7. Section 13.1 of said act is amended to read:

Sec. 13.1. The board may establish zones, or annex new territory to an existing zone, within the district to undertake any project or works of improvement. As used in Sections 13.1 to 13.9, inclusive, of this act, "works of improvement" includes, without limitation as to the generality thereof, construction of new works, and repair, or reconstruction of existing works.

Proceedings for the establishment of a zone or annexation of territory to a zone may be instituted by the board, by resolution, on its own initiative and shall be instituted by the board upon receipt of a petition requesting the formation, or

annexation to, of a zone and signed by not less than 25 percent of the owners of real property in the territory proposed to be included within the zone as shown by the last equalized assessment roll of the county. The petition may consist of any number of separate instruments, each of which must comply with all of the requirements of a petition except as to number of signatures.

The procedure for undertaking projects or works of improvement through the creation of zones or annexation to zones is an alternate method for undertaking district projects and shall not affect or limit any other provisions of law authorizing or providing for undertaking such projects or works of improvement by the district as a whole.

A zone may be created and exist within a zone under this act. A zone including all or any part of an existing zone may be created and exist without destruction of such existing zone, except that the aggregate zone tax on such land included within two or more zones shall not exceed twenty-five cents ($0.25) on each one hundred dollars ($100) of assessed valuation, exclusive of any tax to pay principal and interest on bonded indebtedness of a zone, unless such excess tax is authorized by a majority of votes cast at an election held as follows within such area of land included within two or more zones. The board may, by resolution, call an election within an area included within two or more zones created under this act for the purpose of proposing the question whether or not assessments in excess of twenty-five cents ($0 25) on each one hundred dollars ($100) of assessed valuation shall be levied within such area so included within two or more zones, prescribing the notice, time, place and manner of conducting the election which shall be as nearly as practicable in conformity with the provisions of the Elections Code relating to general elections. Notice of the time, places and purpose of the election shall be given by publication in the district pursuant to Section 6066 of the Government Code and posted in not less than three public places within such area.

Where all or any part of an area within a second or subsequent zone is also within the boundaries of a pre-existing zone or zones, the limit of the assessment for such zone, exclusive of any tax to pay principal and interest on bonded indebtedness of a zone, shall not exceed an amount equal to the difference between the assessments of the pre-existing zone or zones and twenty-five cents ($0.25) on each one hundred dollars ($100) of assessed valuation unless a higher rate is authorized by a majority of the vote cast at an election held as provided in this section within the area of the land included in two or more zones. The question of whether or not assessments may be made in excess of twenty-five cents ($0.25) on each one hundred dollars ($100) may be submitted to the voters at the time of the formation of the zone or at any time thereafter.

Withdrawal of territory from a zone or termination after payment of all debts of a zone may be accomplished on order

of the board after notice and hearing before the board and findings by the board as hereinafter indicated either upon the board's own initiative or after receiving of a petition therefor signed by owners of not less than 25 percent of the assessed valuation or by not less than 25 percent of the owners of real property in the territory proposed to be withdrawn or the zone proposed to be terminated as the case may be, and determination by the board that the territory proposed to be withdrawn will receive no benefit from remaining within the zone or that the land included within a zone will receive no benefit from continuation of the zone as the case may be. Within 30 days after receiving such a petition bearing the requisite number of signatures or immediately upon determination on its own initiative that proceedings for withdrawal of territory from a zone or termination of a zone should be instituted the board shall adopt a resolution of intention to consider the withdrawal of territory or termination of zone setting forth the name of the zone and describing the territory proposed to be withdrawn or stating the proposal to terminate the zone as the case may be and stating the time and place for a public hearing at which the board will consider such proposal, which hearing shall be not less than 30 days nor more than 60 days after the adoption of the resolution. The clerk of the board shall publish the resolution which shall constitute a notice of hearing at least once not closer than seven days prior to the date of the hearing in a newspaper of general circulation printed and published within the district. Copies of such resolution entitled "Notice of Hearing" in bold letters at least one inch in height shall also be posted in not less than three public places within the zone at least two weeks before the date set for hearing. If written protest is filed with the clerk by the owners of real property within the zone in excess of 50 percent of the owners of land within the zone as shown by the last equalized assessment roll of the county, the proceeding shall be abandoned. In the absence of such protest the board shall hear all persons interested in or protesting the proposal and if in the opinion of the board the territory proposed to be withdrawn will receive no benefit from remaining in the zone or the land included within a zone will receive no benefit from continuation of the zone as the case may be the board shall enter its order withdrawing such territory from the zone or terminating the zone as the case may be. Any territory withdrawn from a zone shall remain liable for assessment pursuant to Section 28 of this act for payment of interest and principal on any bonded indebtedness of the zone and discharge of contractual obligations existing or authorized prior to such withdrawal, except that land removed from one zone and attached to another zone pursuant to the authority of Section 13.15 of this act may be relieved of liability for assessment for discharge of contractual obligations other than bonded indebtedness of the zone from which said land is so removed by such boundary adjustment. All assets of a zone which is terminated

shall be paid and belong to any remaining zone whose boundaries overlap those of the terminated zone or, should there be more than one, to all remaining zones in proportion to the area overlapping the terminated zone, or, if no zone remains, to the general fund of district.

The board shall be and it is hereby designated as, and empowered to act as, ex officio the board of directors of any zone created under this act and shall exercise the powers of any zone created under this act, and may perform all other acts necessary or proper, in its discretion, to accomplish the purposes of such a zone created under this act.

SEC. 8. Section 13.9 of said act is amended to read:

Sec. 13.9. Each year at the time the board of supervisors fixes and levies taxes for county purposes, they shall also fix the rates of zone assessments and shall levy the assessment upon the zone. The rate shall be such as will produce, after allowance of not to exceed 15 percent for delinquencies, the amount required to meet the expenditures incident to the project or works of improvement for which the zone is established and the cost of the maintenance thereof or both, during the current fiscal year. The assessment in any one fiscal year shall not exceed an aggregate of twenty-five cents ($0.25) on each one hundred dollars ($100) of assessed valuation for any and all zone projects or works of improvement unless the excess is authorized at an election as provided in this section.

The assessments levied pursuant to this section shall be in addition to any other taxes or assessments provided by this act and shall be levied and collected at the same time and in the same manner as other district taxes and assessments. All funds collected by reason of the assessment shall be expended only on behalf of the zone and only for the purpose for which the zone was formed as set forth in the notice of hearing on the proposal to establish the zone.

Whenever the board determines it in the best interest of a zone to undertake a project or works of improvement which will require a rate of zone assessment in excess of twenty-five cents ($0 25) on each one hundred dollars ($100) of assessed valuation it may submit the proposition to the electors within the zone. The board shall, by resolution, call an election for the purpose of proposing the question as to whether or not the assessments in excess of twenty-five cents ($0.25) for each one hundred dollars ($100) of excess valuation shall be proposed within the zone, prescribing the notice, time, place, and manner of conducting the election in conformity, as nearly as practicable, with the provisions of the Elections Code governing general elections. An election is invalid unless held within the zone and notice of the time, place, and purpose of the election has been given by publication in the district pursuant to Section 6066 of the Government Code and posted in not less than three public places in the zone.

SEC. 9. Section 13.15 of said act is amended to read:

Sec. 13.15. Proceedings heretofore had under this act creating the following described zones within the Sonoma County Flood Control and Water Conservation District are hereby ratified, confirmed and validated and, in addition thereto, said zones are hereby declared to exist for the purposes of and with the powers necessarily incident to the undertaking within the boundaries of said zone of any projects or works of improvement authorized to be undertaken by the Sonoma County Flood Control and Water Conservation District or which could be authorized to be undertaken by a zone created under this act notwithstanding any defect in or lack of ability to obtain such broad powers for such zones through said proceedings heretofore had; provided, that the zone assessment in any one fiscal year shall not exceed an aggregate of twenty-five cents ($0.25) on each one hundred dollars ($100) of assessed valuation for any and all of such zone projects or works of improvement, exclusive of the tax necessary to pay principal and interest on such zone bonded indebtedness, unless the excess has been authorized at an election as provided in Section 13.9 of this act.

Such zones created and declared are particularly described as follows:

Zone No. 1-A, Laguna-Mark West. That land within the County of Sonoma, State of California, comprising and contained within substantially all of the watershed tributary to the Russian River through Mark West Creek and/or the Laguna de Santa Rosa together with certain neighboring closely abutting land thereto, said zone being more particularly described in "Sonoma County Flood Control and Water Conservation District, Zone No. 1-A, Laguna-Mark West" description of boundaries recorded in the office of the County Recorder of Sonoma County in Official Records Book 1662 beginning at page 3, Sonoma County Records.

Zone No. 2-A, Petaluma Basin. That land within the County of Sonoma, State of California, comprising and contained within substantially all of the watershed tributary to San Pablo Bay through Petaluma Creek otherwise known as Petaluma River together with certain neighboring closely abutting land thereto, said zone being more particularly described in "Sonoma County Flood Control and Water Conservation District, Zone No. 2-A, Petaluma Basin" description of boundaries recorded in the office of the County Recorder of Sonoma County in Official Records Book 1662 beginning at page 8, Sonoma County Records.

Zone No. 5-A, Lower Russian River. That land within the County of Sonoma, State of California, comprising and contained within substantially all of the watershed tributary to the Russian River downstream from State Highway 101 bridge at Healdsburg together with certain neighboring closely abutting lands thereof excluding the lands tributary to the Russian River through Mark West Creek and Laguna de Santa Rosa

and through Dry Creek, said zone being more particularly described in "Sonoma County Flood Control and Water Conservation District, Zone No. 5-A, Lower Russian River" description of boundaries recorded in the office of the County Recorder of Sonoma County in Official Records Book 1662 beginning at page 14, Sonoma County Records.

Zone No. 7-A, North Coastal. Substantially all of the watershed tributary directly to the Pacific Ocean which lies within the County of Sonoma, State of California, northerly of the mouth of the Russian River together with certain neighboring closely abutting land thereto but excluding substantially all land tributary to the Russian River, said zone being more particularly described in "Sonoma County Flood Control and Water Conservation District, Zone No. 7-A, North Coastal" description of boundaries recorded in the office of the County Recorder of Sonoma County in Official Records Book 1662 beginning at page 19, Sonoma County Records.

Zone No. 8-A, South Coastal Substantially all of the watershed tributary directly to the Pacific Ocean which lies within the County of Sonoma, State of California, southerly of the mouth of the Russian River together with certain neighboring closely abutting land thereto but excluding substantially all land tributary to the Russian River, said zone being more particularly described in "Sonoma County Flood Control and Water Conservation District, Zone No. 8-A, South Coastal" description of boundaries recorded in the office of the County Recorder of Sonoma County in Official Records Book 1662 beginning at page 21, Sonoma County Records

In connection with each of the foregoing zones, the board of directors of Sonoma County Flood Control and Water Conservation District may by resolution, upon certification of the chief engineer of said district to the effect that fifty percent (50%) or more of the area of a particular parcel of land in one ownership lies within another of the foregoing zones instead of the zone within which it has theretofore been contained and upon request for adjustment of zone boundaries made by the owners of record of such parcel, subdivide said parcel and appropriately adjust the boundaries of said zones to include within each the land lying within the principal watersheds thereof or transfer the entire parcel into the zone within which more than fifty percent (50%) of the area of such parcel is contained notwithstanding any other provision of this act.

In connection with each of the foregoing zones, the board of directors of Sonoma County Flood Control and Water Conservation District may by resolution, upon certification of the chief engineer of said district to the effect that all of the area of a particular parcel of land in one ownership lies outside of the watershed of the zone within which it is contained and upon request of the owner of record thereof that said land be excluded from such zone, exclude said land from said zone notwithstanding any other provision of this act.

SEC. 10. This act is an urgency measure necessary for the immediate preservation of public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Sonoma County Flood Control and Water Conservation District is presently and actively engaged, during the 1964–65 fiscal year, in actual construction of the central Sonoma watershed project and in construction of the Russian River project in association with the Corps of Engineers, U.S. Army, and is awaiting federal legislation that will initiate the proposed Sonoma Creek and Knights Valley projects and that will provide the federal funds permitting actual construction of the Warm Springs Dam project to commence. Completion of all these projects is vitally necessary in order to implement the purposes of the Sonoma County Flood Control and Water Conservation District Act and to prevent further serious flood damage in the County of Sonoma, such as was disastrously experienced in the recent floods of December 1964 and January 1965. Limitations upon the district's authority under existing law are such that progress on these projects will be substantially halted by the end of the 1964–65 fiscal year unless the provisions of this act are placed in immediate effect. In order to permit uninterrupted progress on each of these projects, it is necessary that this act take effect immediately

Any alienist so appointed by the court may be called by either party to the action or by the court itself and when so called shall be subject to all legal objections as to competency and bias and as to qualifications as an expert. When called by the court, or by either party, to the action, the court may examine the alienist, as deemed necessary, but either party shall have the same right to object to the questions asked by the court and the evidence adduced as though the alienist were a witness for the adverse party. (b) This section shall not apply to the formation of a junior college district in any county in which there are only two junior college districts and in which county the only territory not included in a junior college district consists of three contiguous unified school districts. This subdivision shall remain in effect until December 31, 1967, and shall have no force or effect after that date.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act will permit the formation of a junior college district in that area. The people of the State of California do enact as follows:

SECTION 1. Section 155.4 is added to the Revenue and Taxation Code, to read:

155.4. Notwithstanding anything in this code to the contrary, in any county with a population of 4,000,000 or more, as determined by the 1960 federal census, the board of supervisors may by ordinance provide that every person who at 12 o'clock meridian of the first Monday in March, 1964, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed by flood or storm conditions prior to December 31, 1964, in an area or region subsequently proclaimed by the Governor to be in a state of disaster may, within thirty (30) days after the effective date of this section, make application for reassessment of such property and deliver to the assessor a written statement under oath, accompanied by a certificate of a disinterested competent person or authority, showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown therein to be in excess of five hundred dollars ($500). The assessor shall, within sixty (60) days after the effective date of this section, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value

of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the taxpayer has already paid the tax previously computed, such difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

SEC. 2. Section 43005.5 is added to the Government Code, to read:

43005.5. Notwithstanding any other contrary provisions of law, in any county with a population of 4,000,000 or more, as determined by the 1960 federal census, the city legislative body may by ordinance provide that every person who at 12 o'clock meridian of the first Monday in March, 1964, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed by flood or storm conditions in an area or region subsequently proclaimed by the Governor to be in a state of disaster, may, within thirty (30) days after the effective date of this section, make application for the reassessment of such property and deliver to the assessing official of the city a written statement under oath, accompanied by a certificate of a disinterested competent person or authority showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown thereon to be in excess of five hundred dollars ($500). The assessor shall, within sixty (60) days after the effective date of this section, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the tax-

payer has already paid the tax previously computed, such difference shall be refunded to him, as an erroneously collected tax.

This section shall apply to all cities, whether operating under a charter or the general laws of this state.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. Facts constituting such necessity are:

The recent disastrous flood in the City of Burbank, an area subsequently proclaimed by the Governor to be in a state of disaster has destroyed and damaged property to such an extent that unless partial relief from taxation is given to the owners thereof, there is grave danger that they may be unable to pay the taxes currently levied thereon. Section 2.8 of Article XIII of the Constitution authorizes the Legislature to provide for appropriate relief from ad valorem taxation in such situations. In order that such relief may be afforded at the earliest possible time to the people in these stricken areas, it is necessary that this act go into immediate effect.

The member shall receive credit for such service, as a safety member, if he con-

The member shall also contribute interest on the difference at the rates at which interest was credited on member contributions for each year of the period for which credit is sought.

An election under this section shall be irrevocable, and the additional contribution payments hereunder required, if not completed as specified, shall be forfeited to the retirement fund, and a forfeiting member shall then receive only general membership benefits. Additional contributions shall be made by lump sum payment or in such monthly payroll deduction amounts as determined by the board, but must be made prior to the member's retirement.

54783. Except for the terms of office of the members of the first commission, the term of office of each member shall be four years and until the appointment and qualification of his successor. The members of the first commission shall classify themselves by lot so that the term of office of one member is one year, of one member is two years, of two members is three years and of one member is four years. The body which originally appointed a member whose term has expired shall appoint his successor for a full term of four years. Any member may be removed at any time and without cause by the body appointing him. The expiration date of the term of office of each member shall be the first Monday in May in the year in which his term is to expire. Any vacancy in the membership of the commission shall be filled for the unexpired term by appointment by the body which originally appointed the member whose office has become vacant.

In each county containing two or more cities, there shall be a city selection committee consisting of the mayor of each city within such county, or, where there is no mayor, the chairman or president of the city legislative body. A majority of the members of each city selection committee shall constitute a quorum.

The city selection committee shall meet at the call of the local agency formation commission chairman, or at the request of 60 percent of the members of the city selection committee to fill vacancies in the commission.

The city selection committee shall appoint one alternate member to the commission in the same manner as it appoints a regular member. When the commission is considering a proposal for the annexation of territory to a city of which one of the members of the commission is an officer, the member is disqualified from participating in the proceedings of the commission with respect to the proposal and the alternate member shall serve in his place for such purpose.

54785. A city or county officer may serve as a member of the commission while holding office as a city or county officer.

If a member who is a city or county officer ceases to be an officer of a city or county during his term, his membership on the commission shall thereafter be considered vacant.

(e) To appoint and assign staff personnel and to employ or contract for professional or consulting services to carry out and effect the functions of the commission.

(f) To review the boundaries of the territory involved in any proposal with respect to the definiteness and certainty thereof, the nonconformance of proposed boundaries with lines of assessment or ownership, the creation of islands or corridors of unincorporated territory, and other similar matters affecting the proposed boundaries.

54791. Before a notice of intention to circulate a petition seeking the incorporation of a new city may be filed, the proponents shall file a notice of intention to form the new city with the commission. The notice shall contain the specific boundaries of the territory proposed to be incorporated. Within 15 days after receipt of such notice the executive officer of the commission shall report to the proponents on the definiteness and certainty of the boundaries as described in the notice.

54792. Before proceedings are initiated to form a special district, the proponents of the creation of such district, or the legislative body initiating the formation of the district, shall file a notice of intention to form the special district with the commission. The notice shall contain the specific boundaries of the proposed district and a description of the kind of district proposed to be formed. Within 15 days after receipt of such notice the executive officer shall report to the proponents on the definiteness and certainty of the boundaries of the district as described in the notice.

For the purpose of this section proceedings to initiate the formation of a special district means:

(1) The circulation of a petition to form a special district or the filing of notice to circulate such a petition, if such a petition is required.

(2) The adoption of a resolution or ordinance by the board of supervisors initiating the formation of a special district.

54793. Within 10 days after

(1) The clerk of the board of supervisors certifies pursuant to Section 34306 that a petition for the incorporation of a new city is sufficient; or

(2) The appropriate officer or legislative body has determined the sufficiency of a petition to form a special district; or

(3) A resolution or ordinance has been adopted by a legislative body initiating the formation of a special district,

the appropriate officer, body or agency shall notify the commission of such action. No further action shall be taken concerning the proposed formation until the commission has rendered its decision as provided in Section 54799.

54794. No petition seeking the annexation of territory to a local agency shall be circulated or filed, nor shall any public officer accept any such petition for filing, nor shall any governing body initiate proceedings to annex on its own motion until it has filed a notice of intention to annex with the commission. The notice shall contain the specific boundaries of the territory proposed to be annexed. Within 15 days after receipt of such notice the executive officer of the commission shall report to the proponents on the definiteness and certainty of the boundaries as described in the notice.

No further action shall be taken concerning the proposed annexation until the commission has rendered its decision as provided in Section 54799.

54795. If the territory of an existing or proposed special district, or the territory proposed to be annexed to an existing special district shall be located in more than one county, a copy of the petition or resolution shall be filed with the executive officer of each commission within which any of the territory is located. The commission of the principal county shall have sole and exclusive jurisdiction over the proceedings required by this chapter.

54796. When any filing has been made with the executive officer pursuant to Sections 54791, 54792 or 54794, he shall set a date, time, and place for a hearing by the commission on the proposal. The date of the hearing shall not be more than 60 days following the date of such filing. At least 15 days prior to any hearing on a proposal filed pursuant to Sections 54791, 54792 or 54794, the executive officer shall give mailed notice of the hearing to the legislative body of each local agency whose boundaries shall lie within three miles of the territory involved in any proposal, to any interested party who has filed a written request for such notice with the executive officer, and to any proponents of a proceed-

In addition, at least 15 days prior to the hearing, notice of any hearing on a proposal filed pursuant to Section 54791 or Section 54792 shall be published by the executive officer, in accordance with Section 6061, in a newspaper of general circulation which is circulated within the affected territory.

54797. At the hearing, the commission shall hear any interested parties and consider the report of the commission's staff.

54798. Factors to be considered in the review of a proposal shall include but not be limited to:

(a) Population, population density; land area and land use; per capita assessed valuation; topography, natural boundaries, and drainage basins; proximity to other populated areas; the likelihood of significant growth in the area, and in adjacent incorporated and unincorporated areas, during the next 10 years.

(b) Need for organized community services; the present cost and adequacy of governmental services and controls in the area; probable future needs for such services and controls; probable effect of the proposed incorporation, formation or annexation and of alternative courses of action on the cost and adequacy of services and controls in the area and adjacent areas.

(c) The effect of the proposed action and of alternative actions, on adjacent areas, on mutual social and economic interests and on the local governmental structure of the county.

(d) The definiteness and certainty of the boundaries of the territory, the nonconformance of proposed boundaries with lines of assessment or ownership, the creation of islands or corridors of unincorporated territory, and other similar matters affecting the proposed boundaries.

54799. The commission may continue the hearing from time to time, not to exceed 60 days from the date specified in the notice of hearing. Within 31 days after the conclusion of the hearing, the commission shall make its determination upon the proposal.

If the commission approves a proposal, further proceedings may thereafter be conducted and completed pursuant to applicable law and in accordance with the determinations of the commission. If the commission approves the proposal with modifications or conditions, further proceedings may be continued only in compliance with such modifications or conditions. If the commission disapproves of the proposal, further proceedings shall terminate.

54799.1. If the commission disapproves a proposal, no further proceeding shall be taken thereon. No subsequent proposal involving the same or substantially the same territory and undertaken under the same provisions of law may be filed with the commission for at least one year after the date of disapproval.

SEC. 11. Chapter 3 (commencing with Section 58850) of Division 1, Title 6 of said code is repealed.

SEC. 12. Chapter 3 (commencing with Section 58850) is added to Division 1, Title 6 of said code, to read:

CHAPTER 3. CHANGE OF BOUNDARIES

58850. Unless the provisions or context otherwise require, the following definitions shall govern the construction of this chapter:

(a) "County surveyor" means the county surveyor or such other county officer or employee as the board of supervisors may designate.

(b) "Proposal" means any proposal for the formation of a new, or a change in the boundaries of an existing, district exercising functions that are, or may be, supported by taxes or special assessment taxes levied on property within the district and collected with county taxes. This chapter does not apply to proposals concerning special assessment districts formed for the purpose of providing various municipal and county improvements, or to a municipal utility district, or a transit district organized under the Transit District Law (Division 10, commencing with Section 24501, of the Public Utilities Code), whose boundaries include all or portions of two or more counties.

58851. The county surveyor and the county assessor shall review the boundary description contained in those proposals which are not subject to the jurisdiction of the local agency formation commission pursuant to Chapter 6.6 (commencing with Section 54775) of Part 1 of Division 2 of Title 5 of this code. Whenever the county boundary commission is referred to in state law, the reference shall be deemed to be to the local agency formation commission when the reference is in connection with any proposal over which the local agency formation commission has jurisdiction.

58852. Prior to circulation of a petition, if such circulation is required, or otherwise prior to filing with the board of supervisors or with the governing body of a district, the proposal shall be submitted to the county surveyor as provided in this chapter. Each such proposal shall be accompanied by a map showing the boundaries of the territory involved and by a specific detailed legal description of the boundaries of such territory.

58853. If the territory involved in the proposal is located in two or more counties, a copy of the proposal shall be filed with the county surveyor of each such county. The county surveyor of each such county shall have jurisdiction over and shall report upon those portions of the boundaries and territory which shall be located within each such county.

58854. Within 30 days after filing, the county surveyor shall review and report on boundaries set forth in the proposal. Failure to report on a proposal within said 30-day

period shall be deemed approval of the boundaries as set forth therein.

58855. Within 10 days after the filing of any proposal, the county surveyor shall give mailed notice of such filing to each city and district whose boundaries shall lie within three miles of the territory described in the proposal. All such notices shall in general terms indicate the area described in the proposal and shall be mailed to the clerk or secretary of the legislative body of any such city or district. Failure to give or receive any such notice will not invalidate any proceedings.

58856. Factors to be considered by the county surveyor in review of a proposal shall include:

(a) The definiteness and certainty of the proposed boundaries;

(b) Conformance of the proposed boundaries with lines of ownership, as shown on the last equalized assessment roll of the county or by documents of record in the office of the county recorder; and

(c) Other similar matters of public interest resulting from the location of the proposed boundaries.

SECTION 1. Section 26508 of the Vehicle Code is amended to read:

26508. Every vehicle or combination of vehicles using compressed air at the wheels for applying the service brakes shall be equipped with an emergency stopping system meeting the requirements of this section and capable of stopping the vehicle or combination of vehicles in the event of failure in the service brake air system as follows:

(a) Every motor vehicle operated either singly or in a combination of vehicles and every towed vehicle shall be equipped with an emergency stopping system.

(b) Motor vehicles used to tow vehicles which use compressed air at the wheels for applying the service brakes shall be equipped with a device or devices with both a manual and automatic means of actuating the emergency stopping system on the towed vehicle as follows:

(1) The automatic device shall operate automatically in the event of reduction of the service brake air supply of the towing vehicle to a fixed pressure which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch.

(2) The manual device shall be readily operable by a person seated in the driver's seat, with its emergency position or method of operation clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means.

(c) Motor vehicles manufactured prior to 1964 shall be deemed to be in compliance with subdivisions (e) and (f) when equipped with axle-by-axle protected airbrakes using a separate air tank system for each of at least two axles, provided that each system independently meets all other requirements of this section. Each system shall be capable of being manually applied, released, and reapplied from the driver's seat but shall not be capable of being released from the driver's seat after any reapplication unless there is available a means which can be applied from the driver's seat to stop and hold the vehicle or combination of vehicles.

(d) Towed vehicles shall be deemed to be in compliance with this section when:

(1) The towed vehicle is equipped with a no-bleed-back relay-emergency valve or equivalent device, so designed that the supply reservoir used to provide air for the brakes is safe-

guarded against backflow of air from the reservoir through the supply line,

(2) The brakes are applied automatically and promptly upon breakaway from the towing vehicle and maintain application for at least 15 minutes, and

(3) The combination of vehicles is capable of stopping within the distance and under the conditions specified in subdivisions (k) and (*l*).

(e) If the service brake system and the emergency stopping system are connected in any way, they shall be so constructed that a failure or malfunction in any one part of either system, including brake chamber diaphragm failure but not including failure in the drums, brakeshoes, or other mechanical parts of the wheel brake assemblies, shall not leave the vehicle without one operative stopping system capable of complying with the performance requirements in subdivision (k).

(f) Every emergency stopping system shall be designed so that it is capable of being manually applied, released, and reapplied by a person seated in the driver's seat. The system shall be designed so that it cannot be released from the driver's seat after any reapplication unless immediate further application can be made from the driver's seat to stop and hold the vehicle or combination of vehicles. The emergency stopping system may also be applied automatically.

(g) No vehicle or combination of vehicles upon failure of the service brake air system shall be driven on a highway under its own power except to the extent necessary to move the vehicles off the roadway to the nearest place of safety.

(h) No vehicle or combination of vehicles shall be equipped with an emergency stopping system that creates a hazard on the highway, or increases the service brake stopping distance of a vehicle or combination of vehicles, or interferes in any way with the application of the service brakes on any vehicle or combination of vehicles.

(i) Any energy-storing device which is a part of the emergency stopping system shall be designed so that it is recharged or reset from the source of compressed air or other energy produced by the vehicle, except that energy to release the emergency stopping system may be produced by the driver's muscular effort from the driver's seat. No device shall be used which can be set to prevent automatic delivery of air to protected air supply reservoirs of motor vehicle emergency stopping systems when air is available in the service brake air supply system.

(j) Any vehicle manufactured on or after January 1, 1964, which uses axle-by-axle protected airbrakes as the emergency stopping system shall use a separate air tank system for each axle.

(k) Every motor vehicle or combination of vehicles, at all times and under all conditions of loading, upon application of the emergency stopping system, shall be capable of:

(1) Developing a stopping force that is not less than the percentage of its gross weight tabulated herein for its classification.

(2) Decelerating in a stop from 20 miles per hour at not less than the feet per second per second tabulated herein for its classification, and

(3) Stopping from a speed of 20 miles per hour in not more than the distance tabulated herein for its classification, such distance to be measured from the point at which movement of the emergency stopping system control begins.

EMERGENCY STOPPING SYSTEM REQUIREMENTS

	Classification of vehicle and combination of vehicles	Stopping force as a percentage of gross vehicle or combination weight	Deceleration in feet per second per second	Stopping distance in feet
A	Single-motor vehicles	16.7	5.5	90
B	Combination of vehicles	19.0	6.0	90
C	Single-motor vehicle with 3 or more axles manufactured prior to 1964	12.1	4.0	120

(*l*) Tests for deceleration and stopping distance shall be made on a substantially level, dry, smooth, hard surface that is free from loose material and where the grade does not exceed plus or minus 1 percent. No test of emergency stopping system performance shall be made upon a highway at a speed in excess of 25 miles per hour

(m) The provisions of this section shall not apply to:

(1) Auxiliary dollies, special mobile equipment, or special construction equipment.

(2) Motor vehicles which are operated in a driveaway-towaway operation and not registered in this state.

26670. As used in this chapter, "public agency" means any city or district, other than an irrigation district, authorized to distribute water, which is in whole or in part included within the exterior boundaries of an irrigation district.

26671. Any district may enter into a contract with any public agency which provides in effect as follows:

1. The public agency shall:

a. Collect for the district assessments levied by the district against all or part of the lands within the district and shall collect such assessments and pay the amount thereof over to the district at such times and in the manner agreed upon between the district and the public agency; or, in the alternative,

b. Pay to the district in lieu of assessments by the district upon all or any part of the lands within the district a sum of money which shall not be less than the total amount of assessments which would have been levied by the district against those lands in the absence of such contract calculated upon the same basis as assessments made upon an acreage basis against other land in the district receiving gravity water service. Such payment shall be made at such time and in the manner agreed upon between the district and the public agency.

2. The district shall make available to the public agency each year for distribution and use upon the lands within the district covered by the contract, such a quantity of water as may be agreed upon by the district and the public agency.

3. The owner of lands within the district covered by such a contract shall each year be entitled to receive and use from the water so made available by the district to the public agency, or from other water available to the public agency, an amount of water sufficient to supply his reasonable and beneficial needs, limited however to his proportionate share of such water made available by the district based upon the ratio which the number of acres owned by him bears to the total number of acres within the district receiving a surface supply of water from the district and the public agency.

4. The public agency may charge such rates as it may determine for the service of water to any lands covered by the contract unless such rates are limited by agreement between the district and the public agency.

26672. The water made available by the district to the public agency may be used upon the lands covered by such contract for such irrigation, municipal, domestic or other uses as the district and the public agency may agree upon.

26673. Upon the execution of such contract and so long as the contract remains in force and effect, the district shall be relieved of any further obligation to furnish water for use on the lands covered by the contract.

26674. Nothing in this chapter authorizes the sale or transfer of any water right nor shall the agreement authorized in Section 26671 be construed or deemed to constitute the sale or transfer of a water right.

26675. No right in any water or water right owned by the district or the public agency shall be acquired or lost by the use permitted by this chapter.

26676. Except as otherwise provided herein the contract between the district and the public agency may include such terms and conditions as may be agreed upon between the district and the public agency.

26677. The provisions of this chapter shall supersede all provisions of this code inconsistent herewith.

CHAPTER 604

An act to amend Section 6 53 of the West Bay Rapid Transit Authority Act (Chapter 104 of the Statutes of the 1964 First Extraordinary Session), relating to the West Bay Rapid Transit Authority, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 10, 1965 Filed with Secretary of State June 11, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 6.53 of the West Bay Rapid Transit Authority Act (Chapter 104 of the Statutes of the 1964 First Extraordinary Session) is amended to read:

6.53. In addition to any taxes which the authority is authorized to levy pursuant to Section 6 52, at the time of the first county tax levy following the first meeting of the authority, the authority may levy and collect a tax at a rate of one cent ($0.01) on each one hundred dollars ($100) of assessed valuation upon all taxable property within each county in which the authority is authorized to operate to pay the preliminary expenses of the authority, including, but not limited to the preparation of the master plan pursuant to

Chapter 5 (commencing with Section 5.1) of this act and the calling and conducting of the election thereon.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under the present law, the West Bay Rapid Transit Authority is required, at the time of the first county tax levy following the first meeting of the authority, to levy and collect a tax at a rate of one cent ($0.01) on each one hundred dollars ($100) of assessed valuation upon all taxable property within each county in which the authority is authorized to operate to pay the preliminary expenses of the authority.

It now appears that the levy of this tax may not be necessary. In order that this act, which would make the levy of the tax permissive rather then mandatory, may become effective before the tax would be required to be levied, it is imperative that this act take effect immediately.

CHAPTER 605

An act to amend Sections 912, 1201, and 1760.7 of the Welfare and Institutions Code, relating to the Youth Authority.

The Youth Authority shall present to the county, not more frequently than monthly, a claim for the amount due the state under this section, which the county shall process and pay pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code.

SEC. 2. Section 1201 of said code is amended to read:

1201. For each person committed to any state school the county from which he was committed shall make payments to the state as provided in Section 911 of this code.

The director may also, upon request, establish standards for the operation and maintenance of juvenile halls established pursuant to Article 14 (commencing with Section 850) of Chapter 2 of Part 1 of Division 2 of this code, and for the training and qualifications of personnel who are to serve in such halls. He may, upon request, consult with, make investigations for, and recommendations to probation officers, probation committees, juvenile justice commissions, and to judges of the superior courts, including such judges as are designated juvenile court judges of any county, to aid them in the operation and maintenance of their juvenile halls.

CHAPTER 606

An act to add Section 1729.5 to the Insurance Code, relating to insurance.

[Approved by Governor June 10, 1965. Filed with Secretary of State June 11, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 1729.5 is added to the Insurance Code, to read:

1729.5. An independent agent who has a service contract with a corporation licensed under this code or who is a stockholder or member of any incorporated association or corporation organized under the Corporations Code for the purpose of providing services to insurance agents and brokers may use the name of such a corporation or association on any stationery or advertisements and other written or printed matter used to identify the business of the agent or broker provided that the name of the agent or broker is clearly identified as bearing only such relationship to the corporation or association in one of the following ways:

"Representing _____;"

"A stockholder of _____;"

"Placing business through_____;"

"Using services of _____."

The use of such corporation or association name in the manner provided in this section shall not constitute such use as would mislead the public within the meaning of Section 1724.5.

CHAPTER 607

An act to add Section 11004.8 to the Business and Professions Code, and to add Sections 25102.3 and 25102.4 to the Corporations Code, relating to corporate securities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 10, 1965. Filed with Secretary of State June 11, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 11004 8 is added to the Business and Professions Code, to read:

11004.8. The provisions of this chapter shall not be applicable to the formation of a stock cooperative, as defined in Section 25102.4 of the Corporations Code, or to the sale or issuance of shares or other interests therein, if:

(a) All of the shares or other interests therein were sold or issued prior to October 1, 1965, or the effective date of legislation, if any, adopted or to be adopted at the 1965 Regular Session of the Legislature which adds a Section 11004.5 to this code, whichever date is earlier; and

(b) The sale or issuance of such shares or other interests in such stock cooperative is or was pursuant to and in accordance with a permit issued by the Commissioner of Corporations pursuant to Section 25507 of the Corporations Code, authorizing such sale or issuance.

SEC. 2. Section 25102.3 is added to the Corporations Code, to read:

25102.3. Except as otherwise expressly provided in this division, the Corporate Securities Law does not apply to any security, other than that of a stock cooperative, which is also subdivided land or a subdivision, as defined in Section 11000 of the Business and Professions Code, or which is included within such subdivided lands or such a subdivision, and for which a public report has been issued by the Real Estate Commissioner prior to January 1, 1964, pursuant to Section 11018 of the Business and Professions Code.

SEC. 3. Section 25102.4 is added to said code, to read:

25102.4. A "stock cooperative," as that term is used in Section 25102.3 of this code, and in Section 11004.8 of the Business and Professions Code, is a corporation which is formed or availed of primarily for the purpose of holding title to (either in fee simple or for a term of years) improved real property, if all or substantially all of the shareholders of such corporation receive a right of exclusive occupancy in a

portion of the real property, title to which is held by the corporation, which right of occupancy is transferable only concurrently with the transfer of the share or shares of stock in the corporation held by the person having such right of occupancy.

SEC. 4. It is at the present time unclear whether or not the utilization of a stock cooperative, for the purpose of developing real estate, requires that such a stock cooperative obtain the issuance of a public report by the Real Estate Commissioner pursuant to Section 11018 of the Business and Professions Code, in addition to the obligation that a permit be obtained from the Commissioner of Corporations pursuant to Division 1 (commencing with Section 25000) of Title 4 of the Corporations Code. It is the intent of the Legislature, by its enactment of this act, and of Section 1 in particular, to remove such uncertainty and to validate the good faith activities of such stock cooperatives which failed to obtain public reports from the Real Estate Commissioner, but which did obtain permits from the Commissioner of Corporations.

SEC. 5. Prior to January 1, 1964, it was unclear to the public whether or not the issuer of securities such as those defined herein in Section 25102.3 of the Corporations Code was required to apply for and obtain a permit with respect to such issuance from the Commissioner of Corporations, pursuant to Division 1 (commencing with Section 2500) of Title 4 of the Corporations Code, in addition to the obligation upon such issuer to obtain the issuance of a public report by the Real Estate Commissioner pursuant to Section 11018 of the Business and Professions Code. By January 1, 1964, such uncertainty had been dissipated. It is the intent of the Legislature, by its enactment of this act, and of Section 2 in particular, to validate the good faith activities of such issuers, who failed to obtain permits from the Commissioner of Corporations, but who did obtain public reports from the Real Estate Commissioner.

SEC. 6. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

In order to prevent the imposition of an undue burden on persons who made a good-faith attempt to comply with the law, and to clarify the procedures in the issuance of securities and subdivision of lands, thereby expediting such issuance and subdivision and spurring the economy, it is imperative that this act take effect immediately.

CHAPTER 608

An act to amend Section 37110 of the Government Code, relating to city government.

SECTION 1. Section 37110 of the Government Code is amended to read:

37110. The legislative body may expend a sum not to exceed 5 percent of the money accruing to the general fund in the fiscal year for music and promotion. This limitation shall not be applicable to any moneys accruing to the general fund derived pursuant to Section 51030.

CHAPTER 609

An act to amend Section 84 of Chapter 2146, Statutes of 1959, relating to the Antelope Valley-East Kern Water Agency.

[Approved by Governor June 10, 1965. Filed with Secretary of State June 11, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 84 of Chapter 2146 of the Statutes of 1959 is amended to read:

Sec. 84. Territory included within the Antelope Valley-East Kern Water Agency may be excluded from such agency; provided, that where any part of the corporate area of any city is included in the territory proposed to be excluded from the agency, the whole of the corporate area of such city, or part thereof, then included within such agency shall be included in the territory so proposed to be excluded from such agency. Such territory may consist of one or more parcels, which need not be contiguous one with the other.

Proceedings for the exclusion of territory from the agency may be initiated by petition. Such petition, which may consist of any number of separate instruments, shall be filed with the secretary of the agency, signed by voters residing within the boundaries of the area proposed to be excluded equal in number to at least fifteen (15) percentum of the number of such voters voting for all candidates for the office of Governor of this state at the last general election prior to the filing of such petition and signed by owners of at least 25 percent of the land sought to be excluded; provided, that where one or more cities, or parts thereof, are included in the area so proposed to be excluded, such petition must be signed by at least fifteen (15) percentum of the voters of each such city, or part thereof,

so voting at such election and must be signed by owners of at least 25 percent of the land sought to be excluded from each such city or part thereof.

Such petition may consist of any number of separate instruments and must be filed with the secretary of the agency. Such petition shall be accompanied by a certified check in the amount of one thousand dollars ($1,000) which shall be deposited in the treasury of the agency to be used for the purpose of defraying the costs of the election and other procedural expenses. The funds so deposited shall be used solely for such purpose, and any funds, remaining after the completion of the proceedings shall be refunded to the person whose name appears on the petition or first instrument of the petition filed with the agency.

Such petition shall set forth and describe the boundaries of the area proposed to be excluded, shall state the reason for proposing such exclusion and shall contain a prayer that such area be excluded from the agency.

Within ten (10) days of the date of filing of such petition, the secretary of the agency shall submit the description to the boundary commission of the county in which the area to be excluded lies, and the secretary of the agency after receiving report of such boundary from said commission shall examine the same and ascertain whether or not such petition is signed by the requisite number of voters and if requested by the secretary of the agency, the board of directors shall authorize him to employ persons especially for that purpose, in addition to the persons regularly employed in his office, and shall provide for their compensation. When the secretary of the agency has completed his examination of the petition, he shall attach to the same his certificate, properly dated, showing the result of such examination; and if from such examination he shall find that said petition is signed by the requisite number of voters, or is not so signed, he shall certify that the same is sufficient or insufficient, as the case may be.

If, by the certificate of the secretary of the agency, the petition is found to be insufficient, he shall also certify to the number of voters required to make such petition sufficient, and it may be amended by filing a supplemental petition or petitions within ten (10) days of the date of such certificate. The secretary of the agency shall, within ten (10) days after the filing of such supplemental petition or petitions, make like examination of the same and certify to the result of such examination as hereinbefore provided.

If any supplemental petition be filed, all the signatures appended to the petition or to the supplemental petition or petitions shall be considered in determining the number of voters signing the petition.

If his certificate shall show any such petition, or such petition as amended, to be insufficient, it shall be filed by him with the board of directors of the agency and kept as a public record, without prejudice, however, to the filing of a new

petition to the same effect. But if, by the certificate of the secretary, such petition, or petition as amended is shown to be sufficient, the secretary shall present the same to the board of directors without delay.

The text of such petition shall be published once each week for at least two weeks, the last publication to be made not less than one week nor more than four weeks, before the time at which the same is to be presented *to* the board of directors of the agency in at least one, but not to exceed three, newspapers printed and published in such agency, together with a notice stating the time of the meeting at which the same will be presented. When contained upon more than one instrument, one copy only of such petition need be published. No more than five of the names attached to said petition need appear in such publication of said petition and notice, but the number of signers shall be stated.

After an election for the exclusion of such area from the agency the sufficiency of such petition in any respect shall not be subject to judicial review or be otherwise questioned.

The board of directors of the agency, by resolution, may initiate proceedings for the exclusion of territory from such agency. Such resolution shall describe the boundaries of the area proposed to be excluded, shall state the reason for proposing such exclusion, shall require all persons interested in the proposed exclusion to appear before the board and be heard as to why said area should not be so excluded, shall fix the time of the meeting of the board at which persons so interested will be heard, and shall direct the secretary of the agency to give notice thereof. The secretary whereupon shall cause the text of said resolution and a notice of the time and place of said hearing to be published once each week for at least two weeks, the last publication to be made not less than one week nor more than four weeks, before the time so fixed for the hearing, in at least one, but not to exceed three, newspapers printed and published in the agency.

After an election for the exclusion of such area from the agency the sufficiency of such resolution shall not be subject to judicial review or be otherwise questioned.

If the proceedings for exclusion have been initiated by petition, such petition shall be granted by ordinance of the board of directors of such agency. If such proceedings have been initiated by resolution, the board of directors shall hear all persons interested in the proposed exclusion who appear at the hearing, which may be adjourned from time to time, and after the conclusion of the hearing, the board may determine by ordinance that such area should be excluded from the agency. When such petition is granted or if such determination is made, the proposition of such exclusion shall be submitted to the vote of the voters within the area proposed to be excluded, at an election called by the board of directors and held, as herein provided, within 70 days after the effective date of such ordinance. Notice of such election shall be given by publi-

cation in a newspaper of general circulation published in the agency once a week for three successive weeks, the last publication to be not more than four weeks nor less than one week, prior to the date fixed for such election. Such notice shall describe the boundaries of the area so proposed to be excluded and shall designate such area by some appropriate name, or other words of identification, by which such area may be referred to and indicated upon the ballot to be used at any election at which the question of such exclusion is submitted, as in this act provided. The measure so submitted at such election shall be stated on the ballot substantially as follows:

"Shall _____ (giving the name or other designation of the area proposed to be excluded, as stated in the notice of the election) be excluded from the Antelope Valley-East Kern Water Agency?"

At the right of such proposition there shall be printed the words, "Yes" and "No" with voting squares. The board of directors shall canvass the votes cast at such election and if such proposition is approved by a majority of the voters voting thereon at such election, the president and secretary of the board of directors shall certify that fact to the Secretary of State. All elections on propositions for the withdrawing of territory shall be combined, when possible, with the next ensuing primary or general election.

Upon receipt of such last-mentioned certificate, the Secretary of State shall, within 10 days, issue his certificate reciting the passage of said ordinance and the exclusion of said area from said agency. A copy of said certificate shall be transmitted to, and filed with, the county clerk of the county or counties in which the Antelope Valley-East Kern Water Agency is situated. From and after the date of such certificate, the area named therein shall be deemed excluded from, and shall no longer form a part of, said Antelope Valley-East Kern Water Agency, but the taxable property within such excluded area shall continue taxable by the Antelope Valley-East Kern Water Agency for the purpose of paying the bonded or other indebtedness of the Antelope Valley-East Kern Water Agency outstanding or contracted for at the time of such exclusion and until such bonded or other indebtedness shall have been satisfied, to the same extent that such property would be taxable for such purpose if such exclusion had not occurred.

[Approved by Governor June 10, 1965 Filed with Secretary of State June 11, 1965]

The people of the State of California do enact as follows:

Sec 94 The inclusion in, or annexation or addition to, the Antelope Valley-East Kern Water Agency, of the corporate area of any public corporation or public agency, shall not destroy the identity or legal existence or impair the powers of any such public corporation or public agency, notwithstanding the identity of purpose, or substantial identity of purpose, of the Antelope Valley-East Kern Water Agency.

CHAPTER 611

[Approved by Governor June 10, 1965 Filed with Secretary of State June 11, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 13841.5 is added to the Health and Safety Code, to read:

13841.5. The secretary may be a member of the district board. He may receive such compensation as may be set by the district board, which compensation shall be in lieu of any other compensation to which he may be entitled by reason of attendance at any meetings of the district board.

[Approved by Governor June 10, 1965 Filed with Secretary of State June 11, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 13019 of the Public Resources Code is amended to read:

13019. "Voter" means an owner, or the officer appointed therefor by the board of directors of a corporation owner, or the legal representative of the owner, including one joint tenant or one tenant in common. If the voters at a district election so determine in accordance with Section 13050.1, "voter" shall mean a registered voter of the district.

SEC. 2. Section 13050.1 is added to said code, to read:

13050.1. The district board may submit to the voters at any district election substantially the following proposition: "Shall voting at district elections be by registered voters rather than by property owners?" Upon petition of not less than 50 voters, the district board shall submit such proposition to the voters, and if so requested in the petition shall for the purpose call a special election, which shall be held within 90 days after the petition is received. If a majority of the votes cast is in favor of the proposition, thereafter only registered voters in the district shall be entitled to vote in district elections, and ownership of property shall not be a qualification to vote.

SEC. 3. Section 13058 of said code is amended to read:

13058. Each voter, as defined in Section 13019, shall have one vote.

CHAPTER 613

An act to add Section 2505 to the Elections Code, relating to elections in special districts, and declaring the urgency thereof, to take effect immediately.

The election shall be held not later than 90 days after it is called by the board of supervisors, and shall be conducted in the same manner as the regular district election. The costs of such special election shall be borne by the district for which the election is held.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

This act permits the board of supervisors of a county in which a special district is located to call a special election for the selection of governing board members of the district, when the governing body of the district fails to take the necessary steps for the holding of the regular district election. There now exist situations in which governing board members of special districts will not be elected because of the failure of the governing body to provide for the regular election. In order that this situation may be remedied, so that the residents of these districts can be represented by persons of their choice, it is essential that this act take effect immediately.

The standby charge shall not exceed five dollars ($5) per acre per year for each acre of land or parcel less than one acre within the agency boundaries. The ordinance fixing a standby charge may establish schedules varying the charges according to land uses, water uses, and degree of water availability. If any standby charge remains unpaid on the first day of the month before the month in which the board of supervisors of each affected county is required by law to levy the amount of taxes required for county purposes, the amount of the unpaid standby charge shall be added to and become part of the annual tax levied upon the land to which water for which the standby charge is unpaid was available. The amount of the unpaid standby charge shall constitute a lien on that land, and shall be added to and become a part of the first installment of the tax. At least 15 days before the first day of the month in which the board of supervisors of each affected county is required by law to levy the amount of taxes required for county purposes, the board shall furnish in writing to the board of supervisors and the county auditor of

each affected county a description of each parcel of land within the agency upon which a standby charge remains unpaid, together with the amount of the unpaid standby charge on each such parcel of land.

CHAPTER 615

An act to amend Section 11200 of the Health and Safety Code, relating to narcotics.

Such preparation, however, may be dispensed upon an oral order, whether telephonic or otherwise, which shall be reduced to writing within 24 hours.

The exemptions provided in this section do not exempt any person from the provisions of Section 11225 of this division.

CHAPTER 616

An act to add Sections 17417 and 18103 to, and to amend Section 17411 of the Revenue and Taxation Code, relating to personal income taxes.

[Approved by Governor June 10, 1965. Filed with Secretary of State June 11, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 17411 of the Revenue and Taxation Code is amended to read:

17411. Gain from—

(a) The sale or exchange of stock of a collapsible corporation;

(b) A distribution in partial or complete liquidation of a collapsible corporation, which distribution is treated under this part as in part or full payment in exchange for stock; and

(c) A distribution made by a collapsible corporation which, under Section 17323(c)(1),

is treated, to the extent it exceeds the basis of the stock, in the same manner as a gain from the sale or exchange of property, to the extent that it would be considered (but for the provisions of this article) as gain from the sale or exchange of a capital asset held for more than six months shall, except as provided in this article, be considered as gain from the sale or exchange of property which is not a capital asset.

SEC. 2. Section 17417 is added to said code, to read:

17417. (a) Subdivision (a) of Section 17411 shall not apply to a sale of stock of a corporation (other than a sale to the issuing corporation) if such corporation (hereinafter in this section referred to as "consenting corporation") consents (at such time and in such manner as the Franchise Tax Board may by regulations prescribe) to have the provisions of subdivision (b) apply. Such consent shall apply with respect to each sale of stock of such corporation made within the six-month period beginning with the date on which such consent is filed.

(b) Except as provided in subdivision (c), if a Section 17417 asset (as defined in subdivision (d)) is disposed of at any time by a consenting corporation (or, if subdivision (c) applies, by a transferee corporation), then the amount by which—

(1) In the case of a sale, exchange, or involuntary conversion, the amount realized, or

(2) In the case of any other disposition, the fair market value of such asset,

exceeds the adjusted basis of such asset shall be treated as gain from the sale or exchange of such asset. Such gain shall be recognized notwithstanding any other provision of this part, but only to the extent such gain is not recognized under any other provisions of this part.

(c) If the basis of a Section 17417 asset in the hands of a transferee is determined by reference to its basis in the hands of the transferor by reason of the application of Section 24502, 24521, 24551, 24571, or 24578(a) of Part 11 of this code, then the amount of gain taken into account by the transferor under subdivision (b) shall not exceed the amount of gain recognized to the transferor on the transfer of such asset (determined without regard to this section). This subdivision shall apply only if the transferee—

(1) Is not an organization which is exempt from tax imposed by Part 11 of this code, and

(2) Agrees (at such time and in such manner as the Franchise Tax Board may by regulations prescribe) to have the

provisions of subdivision (b) apply to any disposition by it of such Section 17417 asset.

(d) For purposes of this section—

(1) The term "Section 17417 asset" means any property which, as of the date of any sale of stock referred to in subdivision (a), is not a capital asset as defined in Section 18161, and is property owned by, or subject to an option to acquire held by, the consenting corporation. For purposes of this paragraph, land or any interest in real property (other than a security interest), and unrealized receivables or fees (as defined in Section 17412(d)), shall be treated as property which is not a capital asset.

(2) If manufacture, construction, or production with respect to any property described in paragraph (1) has commenced before any date of sale described therein, the term "Section 17417 asset" includes the property resulting from such manufacture, construction, or production.

(3) In the case of land or any interest in real property (other than a security interest) described in paragraph (1), the term "Section 17417 asset" includes any improvements resulting from construction with respect to such property if such construction is commenced (by the consenting corporation or by a transferee corporation which has agreed to the application of subdivision (b)) within two years after the date of any sale described in paragraph (1).

(e) Subdivision (a) shall not apply to the sale of stock of a corporation by a shareholder if, during the five-year period ending on the date of such sale, such shareholder (or any related person within the meaning of subdivision (h) of Section 17415) sold any stock of another consenting corporation within any six-month period beginning on a date on which a consent was filed under subdivision (a) by such other corporation.

(f) If a corporation (hereinafter in this paragraph referred to as "owning corporation") owns 5 percent or more in value of the outstanding stock of another corporation on the date of any sale of stock of the owning corporation during a six-month period with respect to which a consent under subdivision (a) was filed by the owning corporation, such consent shall not be valid with respect to such sale unless such other corporation has (within the six-month period ending on the date of such sale) filed a valid consent under subdivision (a) with respect to sales of its stock. For purposes of applying subdivision (d) to such other corporation, a sale of stock of the owning corporation to which subdivision (a) applies shall be treated as a sale of stock of such other corporation. In the case of a chain of corporations connected by the 5-percent ownership requirements of this paragraph, rules similar to the rules of the two preceding sentences shall be applied.

(g) The Franchise Tax Board shall prescribe such regulations as it may deem necessary to provide for adjustments to

the basis of property to reflect gain recognized under subdivision (b).

SEC. 3. Section 18103 is added to said code, to read:

18103. (a) If—

(1) A sale of real property gives rise to indebtedness to the seller which is secured by the real property sold, and

(2) The seller of such property reacquires such property in partial or full satisfaction of such indebtedness,

then, except as provided in subdivisions (b) and (d), no gain or loss shall result to the seller from such reacquisition, and no debt shall become worthless or partially worthless as a result of such reacquisition.

(b) (1) In the case of a reacquisition of real property to which subdivision (a) applies, gain shall result from such reacquisition to the extent that—

(A) The amount of money and the fair market value of other property (other than obligations of the purchaser) received, prior to such reacquisition, with respect to the sale of such property, exceeds

(B) The amount of the gain on the sale of such property returned as income for periods prior to such reacquisition.

(2) The amount of gain determined under paragraph (1) resulting from a reacquisition during any taxable year beginning after December 31, 1964, shall not exceed the amount by which the price at which the real property was sold exceeded its adjusted basis, reduced by the sum of—

(A) The amount of the gain on the sale of such property returned as income for periods prior to the reacquisition of such property, and

(B) The amount of money and the fair market value of other property (other than obligations of the purchaser received with respect to the sale of such property) paid or transferred by the seller in connection with the reacquisition of such property.

For purposes of this paragraph, the price at which real property is sold is the gross sales price reduced by the selling commissions, legal fees, and other expenses incident to the sale of such property which are properly taken into account in determining gain or loss on such sale.

(3) Except as provided in this section, the gain determined under this subdivision resulting from a reacquisition to which subdivision (a) applies shall be recognized, notwithstanding any other provision of this part.

(c) If subdivision (a) applies to the reacquisition of any real property, the basis of such property upon such reacquisition shall be the adjusted basis of the indebtedness to the seller secured by such property (determined as of the date of reacquisition), increased by the sum of—

(1) The amount of the gain determined under subdivision (b) resulting from such reacquisition, and

(2) The amount described in subdivision (b) (2) (B).

If any indebtedness to the seller secured by such property is

not discharged upon the reacquisition of such property, the basis of such indebtedness shall be zero.

(d) If, prior to a reacquisition of real property to which subsection (a) applies, the seller has treated indebtedness secured by such property as having become worthless or partially worthless—

(1) Such seller shall be considered as receiving, upon the reacquisition of such property, an amount equal to the amount of such indebtedness treated by him as having become worthless, and

(2) The adjusted basis of such indebtedness shall be increased (as of the date of reacquisition) by an amount equal to the amount so considered as received by such seller.

(e) If—

(1) Subdivision (a) applies to a reacquisition of real property with respect to the sale of which—

(A) An election under Section 17154 (relating to gain from sale or exchange of residence of an individual who has attained age 65) is in effect, or

(B) Gain was not recognized under Sections 18091 to 18100, inclusive (relating to sale or exchange of residence);

and

(2) Within one year after the date of the reacquisition of such property by the seller, such property is resold by him,

then, under regulations prescribed by the Franchise Tax Board, subdivisions (b), (c), and (d) of this section shall not apply to the reacquisition of such property and, for purposes of applying Sections 17154 and 18091 to 18100, inclusive, the resale of such property shall be treated as a part of the transaction constituting the original sale of such property.

[Approved by Governor June 10, 1965. Filed with Secretary of State June 11, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Article 7 (commencing with Section 9880) of Chapter 20 of Division 3 of the Business and Professions Code is repealed.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety, within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The act repeals the provision of the Electronic Repair Dealer Registration Law which terminates such law on September 20, 1965. If, because of the pendency of this measure, the period of effectiveness of the law remains uncertain, it is likely that registrants will be reluctant to renew their registrations, that persons required to be registered will be disposed not to register, and that registrants will be encouraged to disregard the provisions of the law which govern their conduct. In order that the protection of the public which the law affords may not be thus diminished, it is necessary that this act take effect immediately.

CHAPTER 634

An act to amend Section 542 of the Code of Civil Procedure, relating to writs of attachment.

[Approved by Governor June 11, 1965. Filed with Secretary of State June 12, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 542 of the Code of Civil Procedure is amended to read:

542. The sheriff, constable, or marshal, to whom the writ is directed and delivered, must, upon receipt of instructions in writing, signed by the plaintiff or his attorney of record, and containing a description of the property, and in the case of real property or growing crops the name of the record owner of the real property to be attached, or upon which the crops are growing, execute the same without delay, and if the undertaking mentioned in Section 540 of this code be not given, as follows:

1. Real property, standing upon the records of the county in the name of the defendant, must be attached, by recording with the recorder of the county a copy of the writ, together with a description of the property attached, and a notice that it is attached, and by serving an occupant of the property, if there is one upon the property at the time service is attempted, with a similar copy of the writ, description and notice, or if there is no occupant then on the property, then, by posting the same in a conspicuous place on the property attached. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the property described in the notice consists of more than one distinct lot, parcel or governmental subdivision and any of such lots, parcels, or governmental subdivisions lie with relation to any of the others so as to form one or more continuous, unbroken tracts, one service or posting need be made as to each such continuous, unbroken tract.

1a Growing crops (which, until severed, shall be deemed personal property not capable of manual delivery), growing upon real property standing upon the records of the county in the name of the defendant, must be attached by recording with the recorder of the county a copy of the writ, together with a description of the growing crops to be attached, and of the real property upon which the same are growing, and a notice that such growing crops are attached in pursuance of the writ, and by serving an occupant of the real property, if there is one upon the real property at the time service is attempted, with a similar copy of the writ, description and

notice, or if there is no occupant then on the real property, then, by posting the same in a conspicuous place on the real property. Service upon the occupant may be made by leaving said copy of the writ, description and notice with the occupant personally, or, in his absence, with any person, of suitable age and discretion, found upon the real property at the time service thereof is attempted and who is either an employee or agent of such occupant or a member of his family or household. Where the real property described in the notice consists of more than one distinct lot, parcel or governmental subdivision, and any of such lots, parcels or governmental subdivisions lie with relation to any of the others so as to form one or more continuous unbroken tracts, one service or posting need be made as to each such continuous unbroken tract.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value, unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and after due notice to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold on execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

2. Real property, or any interest therein, belonging to the defendant, and held by any other person, or standing on the records of the county in the name of any other person, must be attached in the same manner as is real property standing upon the records of the county in the name of the defendant by the provisions of subdivision 1 of this section and the notice of attachment shall state that the real property therein described, and any interest of the defendant therein held by or standing on the records of the county in the name of such other person (naming him), are attached. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if within the county. The recorder must index such attachment when recorded, in the names, both of the defendant and of the person by whom the property is held or in whose name it stands of record.

2a. Growing crops (which, until severance, shall be deemed personal property not capable of manual delivery), or any interest therein, belonging to the defendant, and growing upon real property held by any other person or standing upon

the records of the county in the name of any other person, must be attached in the same manner as growing crops growing upon real property standing upon the records of the county in the name of the defendant are attached by the provisions of subdivision 1a of this section, and the notice of attachment shall state that the crops therein described or any interest of the defendant therein, held by, or standing upon the records of the county in the name of, such other person (naming him), are attached in pursuance of the writ. In addition, a similar copy of the writ, description and notice shall be delivered to such other person, or his agent, if known and within the county, or left at the residence of either, if known and within the county. The recorder must index such attachment when recorded, in the names of both the defendant and of the person by whom the real property is held, or in whose name it stands on the record.

Whenever growing crops have been attached under the provisions of this subdivision, which will greatly deteriorate in value unless properly cultivated, cared for, harvested, packed or sold, the court issuing such writ, upon application of the person in whose favor the writ runs, and with or without notice as the court directs to the owner of said property, may direct the sheriff to take possession of said property and to cultivate, care for and preserve the same and, when necessary, harvest, pack and sell such property. Any sale of such property shall be made in the same manner that property is sold under execution and the proceeds must be retained by the sheriff to be applied to the satisfaction of any judgment which may be recovered in the action in which said writ is issued. The court shall order said applicant to pay such expenses in advance if the court may deem it proper, or may direct that the whole or any part of such expenses be paid from the proceeds of any sale of such property.

3. Personal property, capable of manual delivery, in the possession of the defendant, must be attached by taking it into custody. When the personal property is used as a dwelling, such as a house trailer, mobilehome, or boat, the same is to be attached by placing a keeper in charge of the property, at plaintiff's expense, for at least two (2) days. At the expiration of said period the officer shall remove its occupants, and take the property into his immediate custody, unless other disposition is made by the court or the parties to the action. Whenever a levy under attachment or execution shall be made on personal property, other than money, or a vehicle required to be registered under the Vehicle Code belonging to a going concern, then the officer making the levy must, if the defendant consents, place a keeper in charge of said property levied upon, at plaintiff's expense, for at least two days, and said keeper's fees must be prepaid by the levying creditor. During said period defendant may continue to operate in the ordinary course of business at his own expense provided all sales are for cash and the full proceeds are given to the keeper for the

purposes of the levy unless otherwise authorized by the creditor. After the expiration of said two days the sheriff, constable, or marshal shall take said property into his immediate possession unless other disposition is made by the court or the parties to the action.

4. In cases where the sheriff, constable, or marshal is instructed to take into possession personal property capable of manual delivery, whether the same is to be placed in a warehouse or in custody of a keeper, the sheriff, constable or marshal shall require, as a prerequisite to the taking of such property, that in addition to written instructions the plaintiff or his attorney of record deposit with the sheriff, constable or marshal, a sum of money sufficient to pay the expenses of taking and keeping safely said property for a period not to exceed 15 days. In the event that a further detention of said property is required, the sheriff, constable or marshal must, from time to time, make written demand upon the plaintiff or his attorney for further deposits to cover estimated expenses for periods not to exceed five days each. Such demand must be served as provided in Section 1011 of this code, or by depositing such notice in the post office in a sealed envelope, as first-class registered mail, postage prepaid, addressed to the person on whom it is served at his last known office or place of residence. In the event that the money so demanded is not paid, the sheriff, constable or marshal shall release the property to the person or persons from whom the same was taken. There shall be no liability upon the part of the sheriff, constable or marshal to take or hold personal property unless the provisions of this section shall have been fully complied with. There shall be no liability upon the part of the sheriff, constable or marshal, either to the plaintiff or the defendant for loss by fire, theft, injury or damage of any kind to personal property capable of manual delivery while in the possession of the sheriff, constable or marshal either in a warehouse or in the custody of a keeper or en route to or from a warehouse unless the sheriff, constable or marshal shall be negligent in his care or handling of the property.

5. Debts and credits and other personal property not capable of manual delivery must be attached by leaving with the persons owing such debts, or having in his possession, or under his control, such credits and other personal property, or with his agent or, in the case of a corporation, with the president of the corporation, vice president, secretary, assistant secretary, cashier, or managing agent thereof, a copy of the writ, and, if the demand as stated in the writ does not exceed three hundred dollars ($300) exclusive of interest, attorney's fees and costs, a copy of the complaint in the action from which the writ issued, and, in every case, a notice that the debts owing by him to the defendant, or the credits and other personal property in his possession, or under his control, belonging to the defendant, are attached in pursuance of such writ; provided, that debts owing to defendant arising from

personal services rendered at any time within 30 days next preceding the levy of attachment such attachment is subject to the provisions of Section 690.11 of the Code of Civil Procedure; provided, however, that debts owing to the defendant by any of the following financial institutions: (a) banks; (b) savings and loan associations; (c) title insurance companies or underwritten title companies (as defined in Section 12402 of the Insurance Code); (d) industrial loan companies (as defined in Section 18003 of the Financial Code), maintaining branch offices, or credits or other personal property whether or not the same is capable of manual delivery, belonging to the defendant and in the possession of or under the control of such financial institution must be attached by leaving a copy of the writ and the notice, together with a copy of the complaint if required hereunder, with the manager or other officer of such financial institution at the office or branch thereof at which the account evidencing such indebtedness of the defendant is carried, or at which such financial institution has credits or other personal property belonging to the defendant in its possession or under its control; and no attachment shall be effective as to any debt owing by such financial institution if the account evidencing such indebtedness is carried at an office or branch thereof not so served, or as to any credits or other personal property in its possession or under its control at any office or branch thereof not so served Whenever wages have been attached under the provisions of this subdivision, the notice described above shall state the provisions of Section 690.11 of this code, and shall state that the debtor, to avail himself of an exemption of more than one-half of his wages earned the preceding 30 days, must file an affidavit with the levying officer as provided in Section 690.26 of this code.

6. When checks, drafts, money orders and other orders for the withdrawal of money from a banking corporation or association, the United States, any state or public entity within any state, payable to the defendant or judgment debtor on demand, come into the possession of a levying officer under a writ of attachment or execution, the sheriff, constable, or marshal, to whom the writ is directed and delivered, shall promptly thereafter endorse the same and present, or cause the same to be presented, for payment. The sheriff, constable, or marshal shall endorse such check, draft, money order or other order for the withdrawal of money by writing the name of the defendant or judgment debtor thereon and the name and official title of the officer making the levy with the statement that such endorsement is made pursuant to levy of writ of attachment or execution and giving the title of court and cause in which such writ was issued, and such endorsement shall be sufficient endorsement and no banking corporation or association or public entity on which said check, draft, money order or other order for the withdrawal of money is drawn shall incur any liability to any person, firm or corporation by reason of paying to such officer such check, draft, money order

or other order for withdrawal of money by reason of such endorsement, nor shall the officer making the levy incur any liability by reason of his endorsing and presenting for and obtaining payment of such check, draft, money order or other order for the payment of money; provided, however, that the funds or credit resulting from the payment of such check, draft, money order or other order for withdrawal of money shall be held by said officer subject to the levy of said writ of attachment or execution. If it appear from the face of such check, draft, money order or other order for the withdrawal of money that the same has been tendered to the defendant or judgment debtor in satisfaction of a claim or demand and that endorsement thereof shall be considered a release and satisfaction by defendant or judgment debtor of such claim or demand, then, in such event, the officer making the levy shall not endorse said check, draft, money order or other order for the withdrawal of money unless the defendant or judgment debtor shall first endorse the same to the officer making the levy; provided, however, that if said defendant shall not endorse said check, draft, money order or other order for withdrawal of money to the officer making the levy, said officer may thereafter hold such check, draft, money order or other order for the withdrawal of money subject to such levy and shall incur no liability to the defendant or judgment debtor or to any other person, firm or corporation for delay in presentment of the same for payment.

SECTION 1. Section 23153 of the Revenue and Taxation Code is amended to read:

23153. Every corporation not otherwise taxed under this chapter and not expressly exempted by the provisions of this part or the Constitution of this state shall pay annually to the state a tax of one hundred dollars ($100), except that the following corporations shall pay annually to the state a tax of twenty-five dollars ($25):

(b) A corporation formed under the laws of this state whose principal business when formed was gold mining, which is inactive and has not done business within the limits of the state since 1950.

Every such domestic corporation taxable under this section shall be subject to the said tax from the date of incorporation until the effective date of dissolution as provided in Section 23331.

For the purpose of paragraph (b) a corporation shall not be considered to have done business if it engages in incidental activities, other than mining.

SEC. 2. Section 23186a of said code is amended to read:

23186a. The Franchise Tax Board, after public hearing and opportunity given to examine the data on which its determination is based, shall determine not later than the 31st day of December of each year the average percentage of net income above specified, and, within 30 days after its determination, shall mail notice of its determination and the amount of tax payable or refundable, as the case may be, on the basis of such determination to all banks and financial corporations affected thereby, which are then classified on its records as banks or financial corporations. If additional tax is payable such determination shall be treated as a notice and demand for payment but shall not be considered a deficiency assessment within the meaning of Article 1 of Chapter 20. The data gathered by the Franchise Tax Board in determining the rate, referred to herein, shall be made available to the taxpayers affected by such determination at the time and in the manner prescribed by regulations adopted by the Franchise Tax Board.

SEC. 3. Section 23222a of said code is amended to read:

23222a. In every case in which the second or succeeding taxable years of a commencing taxpayer constitute a period of less than 12 months or in which the taxpayer does business for a period of less than 12 months during its second or succeeding taxable years, the tax for such year or years shall be measured by the income of that period or periods subject to the continuation of the prepayment procedure outlined in Section 23222. In no event shall the income of any period or periods herein described be used as the measure of the tax for the succeeding taxable year, other than the prepayment, until the last short period is succeeded by a taxable period of 12 months, in which case the income of the last short period

shall, if greater than the income of the 12-month period, constitute the measure of the tax for such 12-month period.

Thereafter the procedure outlined in Section 23222, in respect of the second and third taxable years, shall apply and the taxpayer shall not be subject to the provisions of this section.

In the event that a taxpayer is dissolved or withdraws from this state while subject to the provisions of this section, its tax for the year of dissolution or withdrawal shall be measured by its net income for such year. However, in no event shall the tax be less than the minimum tax provided by Section 23153.

SEC. 4. Section 23253 of said code is amended to read:

23253. Where, pursuant to a reorganization, all or a substantial portion of the business or property of a taxpayer, a party to the reorganization, is transferred to another taxpayer, a party to the reorganization:

(a) The net gain of the transferor from the business or property so transferred to any taxpayer for the taxable year in which the transfer occurs, shall be included in the measure of the tax on the transferee for the taxable year succeeding the taxable year in which the transfer occurs if the taxable year of the transferee in which the transfer occurs ends at the same time as or before the time the taxable year of the transferor in which the transfer occurs ends Gain of the transferor so included in the measure of the tax on the transferee shall be considered the income of the transferee for the purposes of Chapter 2.

(b) If the taxable year of the transferee in which the transfer occurs ends after the taxable year of the transferor in which the transfer occurs ends, the transferee shall, within two months and 15 days after the close of the taxable year of the transferor in which the transfer occurs, file a return disclosing the net income of the transferor from the business or property transferred for the taxable year in which the transfer occurs, and pay a tax measured by such income.

(c) For the purposes of this section "party to the reorganization" includes any taxpayer subject to the tax imposed under this part who acquires and continues to operate all or a substantial part of the operating assets of the original transferor, regardless of whether such assets are received directly from the original transferor, or by merger, or as otherwise described in Section 23251.

SEC. 5. Section 23282 of said code is amended to read:

23282. The tax imposed upon any taxpayer which has suffered the suspension or forfeiture provided in Section 23301, and which revives in any taxable year other than the taxable year in which suspension or forfeiture occurred, shall be computed in the same manner as provided in Sections 23222 to 23224, inclusive, relative to the computation of taxes upon taxpayers commencing to do business for the first time after incorporation or qualification. In addition to the taxes, penal-

ties, and interest specified in Section 23305, such taxpayer shall prepay a tax in an amount equal to the minimum tax provided for in Section 23153 as a condition precedent to the issuance of a certificate of revivor.

SEC. 6. Section 24424 of said code is amended to read:

24424. (a) No deduction shall be allowed for—

(1) Premiums paid on any life insurance policy covering the life of any officer or employee, or of any person financially interested in any trade or business carried on by the taxpayer, when the taxpayer is directly or indirectly a beneficiary under such policy.

(2) Any amount paid or accrued on indebtedness incurred or continued to purchase or carry a single premium life insurance, endowment, or annuity contract. Paragraph (2) shall apply in respect of annuity contracts only as to contracts purchased after December 31, 1954.

(3) Except as provided in subsection (c), any amount paid or accrued on indebtedness incurred or continued to purchase or carry a life insurance, endowment, or annuity contract (other than a single premium contract or a contract treated as a single premium contract) pursuant to a plan of purchase which contemplates the systematic direct or indirect borrowing of part or all of the increases in the cash value of such contract (either from the insurer or otherwise).

Paragraph (3) shall apply only in respect of contracts purchased after August 6, 1963.

(b) For purposes of subsection (a)(2), a contract shall be treated as a single premium contract—

(1) If substantially all the premiums on the contract are paid within a period of four years from the date on which the contract is purchased; or

(2) If an amount is deposited after December 31, 1954, with the insurer for payment of a substantial number of future premiums on the contract.

(c) Subsection (a)(3) shall not apply to any amount paid or accrued by a person during an income year on indebtedness incurred or continued as part of a plan referred to in subsection (a)(3).

(1) If no part of four of the annual premiums due during the seven-year period (beginning with the date the first premium on the contract to which such plan relates was paid) is paid under such plan by means of indebtedness.

(2) If the total of the amounts paid or accrued by such person during such income year for which (without regard to this paragraph) no deduction would be allowable by reason of subsection (a)(3) does not exceed one hundred dollars ($100).

(3) If such amount was paid or accrued on indebtedness incurred because of an unforeseen substantial loss of income or unforeseen substantial increase in its financial obligations, or

(4) If such indebtedness was incurred in connection with its trade or business.

For purposes of applying paragraph (1), if there is a substantial increase in the premiums on a contract, a new seven-year period described in such paragraph with respect to such contract shall commence on the date the first such increased premium is paid.

SEC. 7. Section 24562 of said code is amended to read:

24562. (a) For purposes of Chapters 8 and 9 and this chapter, the term "reorganization" means—

(1) A statutory merger or consolidation;

(2) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of stock of another corporation if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition);

(3) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of substantially all of the properties of another corporation, but in determining whether the exchange is solely for stock the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded;

(4) A transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor, or one or more of its shareholders (including persons who were shareholders immediately before the transfer), or any combination thereof, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan, stock or securities of the corporation to which the assets are transferred are distributed in a transaction which qualifies under Section 24531, 24533, or 24535;

(5) A recapitalization; or

(6) A mere change in identity, form, or place of organization, however effected.

(b) (1) If a transaction is described in both subdivision (a)(3) and subdivision (a)(4), then, for purposes of this chapter, such transaction shall be treated as described only in subdivision (a)(4).

(2) If—

(A) One corporation acquires substantially all of the properties of another corporation;

(B) The acquisition would qualify under subdivision (a)(3) but for the fact that the acquiring corporation exchanges money or other property in addition to voting stock; and

(C) The acquiring corporation acquires, solely for voting stock described in subdivision (a)(3), property of the other corporation having a fair market value which is at

least 80 percent of the fair market value of all of the property of the other corporation;

then such acquisition shall (subject to paragraph (1) of this subdivision) be treated as qualifying under subdivision (a)(3). Solely for the purpose of determining whether subparagraph (C) of the preceding sentence applies, the amount of any liability assumed by the acquiring corporation, and the amount of any liability to which any property acquired by the acquiring corporation is subject, shall be treated as money paid for the property.

(3) A transaction otherwise qualifying under subdivisions (a)(1), (a)(2) or (a)(3) shall not be disqualified by reason of the fact that part or all of the assets or stock which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets or stock.

SEC. 8. Section 24563 of said code is amended to read:

24563. For purposes of this article, the term "a party to a reorganization" includes—

(a) A corporation resulting from a reorganization; and

(b) Both corporations, in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

In the case of a reorganization qualifying under subdivision (a)(2) or (a)(3) of Section 24562, if the stock exchanged for the stock or properties is stock of a corporation which is in control of the acquiring corporation, the term "a party to a reorganization" includes the corporation so controlling the acquiring corporation. In the case of a reorganization qualifying under subdivisions (a)(1), (a)(2), or (a)(3) of Section 24562 by reason of subdivision (b)(3) of Section 24562, the term "a party to a reorganization" includes the corporation controlling the corporation to which the acquired assets or stock are transferred.

SEC. 9. Section 24621 of said code is amended to read:

24621. If a share of stock is transferred to an individual in a transfer in respect of which the requirements of Section 17532(a), 17533(a), or 17534(a) of Part 10 of this code are met—

(a) Except as provided in Section 17532(a)(1), no income shall result at the time of the transfer of such share to the individual upon his exercise of the option with respect to such share;

(b) No deduction under Section 24343 (relating to trade or business expenses) shall be allowable at any time to the employer corporation, a parent or subsidiary corporation of such corporation, or a corporation issuing or assuming a stock option in a transaction to which Section 17535(a) of Part 10 of this code applies, with respect to the share so transferred; and

(c) No amount other than the price paid under the option shall be considered as received by any of such corporations for the share so transferred.

SEC. 10. Section 25663c of said code is amended to read:

25663c. (1) If the taxpayer omits from gross income an amount properly includible therein which is in excess of 25 percent of the amount of gross income stated in the return, the tax may be assessed, or a proceeding in court for the collection of such tax may be begun without assessment, at any time within six years after the return was filed.

(2) For purposes of this section—

(A) In the case of a trade or business, the term "gross income" means the total of the amounts received or accrued from the sale of goods or services (if such amounts are required to be shown on the return) prior to diminution by the cost of such sales or services; and

(B) In determining the amount omitted from gross income, there shall not be taken into account any amount which is omitted from gross income stated in the return if such amount is disclosed in the return, or in a statement attached to the return, in a manner adequate to apprise the Franchise Tax Board of the nature and amount of such item.

SEC. 11. Section 25670 of said code is amended to read:

25670. Any amount of tax in excess of that disclosed by the return, due to a mathematical error, or failure of the taxpayer to compute properly the liability based on the net income reported on its return, notice of which has been mailed to the taxpayer, is not a deficiency assessment within the meaning of this article. The taxpayer has no right of protest or appeal based on such notice; however, the amount of tax erroneously omitted or computed as specified by this section may be assessed and collected in the manner provided in this part in the case of deficiency assessments.

SEC. 12. Section 26072 of said code is amended to read:

26072. (a) No credit or refund exceeding one thousand dollars ($1,000) shall be allowed or made until approved by the State Board of Control.

(b) If the Franchise Tax Board determines that an amount not exceeding one thousand dollars ($1,000) was not required to be paid under this part, the Franchise Tax Board without obtaining the approval of the State Board of Control may credit the amount on any amounts then due and payable under this part from the taxpayer by whom the amount was paid and may refund the balance to the taxpayer or its successors.

SEC. 13. Section 26073 of said code is amended to read:

26073. No such credit or refund shall be allowed or made after four years from the last day prescribed for filing the return or after one year from the date of the overpayment, whichever period expires the later, unless before the expiration of such period a claim therefor is filed by the taxpayer, or unless before the expiration of such period the Franchise Tax Board allowed a credit or made a refund, where the over-

payment does not exceed one thousand dollars ($1,000), or if the amount exceeds one thousand dollars ($1,000) has certified such overpayment to the State Board of Control for approval of the refunding or the crediting thereof.

SEC. 14. Section 26073c of said code is amended to read:

26073c. (1) Notwithstanding any statute of limitations otherwise provided for in this part, any overpayment due a taxpayer for any year, shall be allowed as an offset in computing any deficiency in tax, for the same or any other year, if such overpayment results from:

(a) A transfer of items of income or deductions or both to or from another year for the same taxpayer; or

(b) A transfer of items of income or deductions or both to or from another taxpayer for the same or different years if such items of income or deductions are transferred between affiliated taxpayers whose tax is determined under Chapter 17 of this part.

(2) The offset provided by subdivision (1) shall not be allowed after the expiration of seven years from the due date of the return or returns on which the overpayment is determined.

(3) No refund shall be allowed under subdivision (1) unless the overpayment is certified to the State Board of Control, or a claim for refund is filed within the time otherwise provided for in this part.

SEC. 15. Section 26132 of said code is amended to read:

26132. The Franchise Tax Board may by notice, served personally or by registered mail, require any bank, corporation or person, and any officer or department of the state or any political subdivision or agency of the state, or any city organized under a freeholder's charter, or any political body not a subdivision or agency of the state, having in their possession, or under their control, any credits or other personal property or other things of value, belonging to a taxpayer to withhold, from such credits or other property the amount of any tax, interest or penalties due from the taxpayer or the amount of any liability incurred by such person for failure to withhold and transmit amounts due from a taxpayer under this part and to transmit the amount withheld to the Franchise Tax Board at such times as it may designate. Any bank, corporation or person failing to withhold the amounts due from any taxpayer and transmit the same to the Franchise Tax Board after service of such a notice shall be liable for such amounts.

SEC. 16. Section 23301.5 is added to said code, to read:

23301.5. CHAPTER 642

An act to amend Section 1208 of the Penal Code, relating to work furlough rehabilitation of prisoners.

[Approved by Governor June 12, 1965. Filed with Secretary of State June 12, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 1208 of the Penal Code is amended to read:

1208. (a) The provisions of this section shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section in that county is feasible. In such ordinance the board shall prescribe whether the sheriff, the probation officer, or the superintendent of a county industrial farm or industrial road camp in the county shall perform the functions of the work furlough administrator. The board of supervisors may also terminate the operativeness of this section in the county if it finds by ordinance that, because of changed circumstances, the operation of this section in that county is no longer feasible.

(b) When a person is convicted of a misdemeanor and sentenced to the county jail, or is imprisoned therein for nonpayment of a fine, for contempt, or as a condition of probation for any criminal offense, the work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular employment, if that is compatible with the requirements

of subdivision (d), or may authorize the person to secure employment for himself in the county, unless the court at the time of sentencing has ordered that such person not be granted work furloughs.

(c) If the work furlough administrator so directs that the prisoner be permitted to continue in his regular employment, the administrator shall arrange for a continuation of such employment so far as possible without interruption. If the prisoner does not have regular employment, and the administrator has authorized the prisoner to secure employment for himself, the prisoner may do so, and the administrator may assist him in doing so. Any employment so secured must be suitable for the prisoner. Such employment must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment be permitted where there is a labor dispute in the establishment in which the prisoner is, or is to be, employed.

(d) Whenever the prisoner is not employed and between the hours or periods of employment, he shall be confined in the jail unless the court directs otherwise.

(e) The earnings of the prisoner shall be collected by the work furlough administrator, and it shall be the duty of the prisoner's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of attachment or execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. In a case in which the functions of the administrator are performed by a sheriff, and such sheriff receives a writ of attachment or execution for the earnings of a prisoner subject to this section but has not yet requested transmittal of the prisoner's earnings pursuant to this section, he shall first levy on the earnings pursuant to the writ. When an employer transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the prisoner for such earnings. From such earnings the administrator shall pay the prisoner's board and personal expenses, both inside and outside the jail, and shall deduct so much of the costs of administration of this section as is allocable to such prisoner, and, in an amount determined by the administrator, shall pay the support of the prisoner's dependents, if any. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the prisoner, pay, in whole or in part, the preexisting debts of the prisoner. Any balance shall be retained until the prisoner's discharge and thereupon shall be paid to him.

(f) The prisoner shall be eligible for time credits pursuant to Sections 4018, 4019, and 4019.2.

(g) In the event the prisoner violates the conditions laid down for his conduct, custody, or employment, the work fur-

lough administrator may order the balance of the prisoner's sentence to be spent in actual confinement.

(h) Willful failure of the prisoner to return to the place of confinement not later than the expiration of any period during which he is authorized to be away from the place of confinement pursuant to this section is punishable as provided in Section 4532 of the Penal Code.

(i) This section shall be known and may be cited as the "Cobey Work Furlough Law."

ard Order N 18 or any corresponding rules or regulations of the Federal Aviation Agency, unless the Federal Aviation Agency has determined that such pole, line, tower, or structure does not constitute a hazard to air navigation. This section shall not apply to existing poles, lines, towers, or structures or to the repair, replacement, or reconstruction thereof if the original height is not materially exceeded and shall not apply unless just compensation shall have first been paid to the public utility by the owner of any such airport for any property or property rights which would be taken or damaged hereby.

CHAPTER 645

An act to amend Sections 821 and 1269b of the Penal Code, relating to arrests.

The people of the State of California do enact as follows:

SECTION 1. Section 821 of the Penal Code is amended to read:

821. If the offense charged is a felony, and the arrest occurs in the county in which the warrant was issued, the officer making the arrest must take the defendant before the magistrate who issued the warrant or some other magistrate of the same county.

If the defendant is arrested in another county, the officer must, without unnecessary delay, inform the defendant in writing of his right to be taken before a magistrate in that county, note on the warrant that he has so informed defendant, and, upon being required by defendant, take him before a magistrate in that county, who must admit him to bail in the amount specified in the endorsement referred to in Section 815a, and direct the defendant to appear before the court or magistrate by whom the warrant was issued on or before a day certain which shall in no case be more than 10 days after such admittance to bail. If bail be forthwith given, the magistrate shall take the same and endorse thereon a memorandum of the aforesaid order for the appearance of the defendant, or, if the defendant so requires, he may be released on bail set on the warrant by the issuing court, as provided in Section 1269b of this code, without an appearance before a magistrate.

If the warrant on which the defendant is arrested in another county does not have bail set thereon, or if the defendant arrested in another county does not require the arresting officer to take him before a magistrate in that county for the purpose of being admitted to bail, or if such defendant, after being admitted to bail, does not forthwith give bail, the arresting officer shall immediately notify the law enforcement

agency requesting the arrest in the county in which the warrant was issued that such defendant is in custody, and thereafter such law enforcement agency shall take custody of such defendant within five days in the county in which he was arrested and shall take such defendant before the magistrate who issued the warrant, or before some other magistrate of the same county.

SEC. 2. Section 1269b of said code is amended to read:

1269b. The officer in charge of a jail wherein an arrested person is held in custody and the clerk of the justice or municipal court of the judicial district in which the offense was alleged to have been committed and the clerk of the superior court in which the case against the defendant is pending shall have authority to approve and accept bail in such amount as fixed by the warrant of arrest or schedule of bail or order admitting to bail in cash or surety bond executed by a certified, admitted surety insurer as provided in the Insurance Code, to issue and sign an order for the release of the arrested person, and to set a time and place for the appearance of the arrested person before the appropriate court and give notice thereof, as follows:

(a) For appearance before the court of an arrested person who has been arrested for having committed a misdemeanor and is being held in custody prior to the filing of a formal complaint, and for appearance before the court of a defendant charged with a misdemeanor by a formal complaint filed in the court. If a defendant has appeared before a judge of the court on the charge contained in the complaint the bail shall be in the amount fixed by such judge at the time of such appearance; if no such appearance has been made the bail shall be in the amount fixed in the warrant of arrest or, if no warrant of arrest has been issued, the amount of bail shall be pursuant to a schedule of bail in such case previously fixed and approved by the judge or judges of the court of the judicial district in which the offense is alleged to have been committed.

(b) For appearance before the court of a defendant charged with a felony by a formal complaint filed in court. If a defendant has appeared before a judge of the court on the charge contained in the complaint, the bail shall be in the amount fixed by such judge at the time of such appearance; if no such appearance has been made the bail shall be in the amount fixed in the warrant of arrest.

(c) It is the duty of the municipal and justice court judges in each county to prepare and adopt, by a majority vote, a schedule of bail for all misdemeanor offenses. It shall contain a list of such misdemeanor offenses and the amounts of bail applicable thereto as the judges determine to be appropriate, and, if it does not list all misdemeanor offenses specifically, it shall contain a general clause providing for a designated amount of bail as the judges of the county determine to be appropriate for all misdemeanor offenses not specifically listed in the sched-

ule. The schedule of bail may be revised from time to time by the judges of the county, and the senior judge at each county seat shall call not more than two or less than one meeting each year of all municipal and justice court judges in the county for the purpose of establishing or revising a countywide uniform bail schedule. A copy of the schedule shall be sent to the officer in charge of the county jail and to the officer in charge of each city jail within the county.

Upon posting such bail the defendant or arrested person shall be discharged from custody as to the offense on which the bail is posted.

All money and surety bonds so deposited with such officer shall be transmitted immediately to the judge or clerk of the court by which the order was made or warrant issued or bail schedule fixed.

If a defendant or arrested person so released fails to appear at the time and in the court so ordered upon his release from custody, the court before which he was ordered to appear may forfeit the cash bail or surety bond, with or without issuing a warrant, and if the bail is a surety bond the surety company is obligated as provided by Section 1306 of the Penal Code, subject to the right of the court to set aside the forfeiture as provided by law.

(d) For the appearance before the proper court of a person who has been arrested for an offense on a warrant issued in a county of this state other than the county where such person is held in custody.

[Approved by Governor June 12, 1965. Filed with Secretary of State June 12, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 11503 of the Vehicle Code is amended to read:

11503. The department may refuse to issue a license and certificate to an applicant when it determines:

(a) The applicant was previously the holder of a license and certificate issued under this code, which license and certificate were revoked for cause and never reissued by the department, or which license and certificate were suspended for cause and the terms of suspension have not been terminated, and

(b) That one or more of the partners, if the applicant be a partnership, or one or more of the stockholders, directors, or officers of the corporation, if a corporation be the applicant, was previously the holder of a license and certificate, issued under the authority of this code, which were revoked for cause

and never reissued or were suspended for cause and the terms of suspension have not been terminated, and

(1) That by reason of the facts and circumstances touching the organization, control and management of the partnership or corporation business will be directed, controlled, or managed by individuals who, by reason of their conviction of violations of this code, would be ineligible for a license and that by licensing such corporation or partnership the purposes of this code would likely be defeated.

(c) The applicant, or one of the partners, if the applicant be a partnership, or one or more of the officers or directors of the corporation, if a corporation be the applicant, or one or more of the stockholders if the policy of such business will be directed, controlled, or managed by such stockholder or stockholders, has ever been convicted of a felony or a crime involving moral turpitude.

(e) The applicant, or one of the partners, if the applicant be a partnership, or one or more of the officers, directors or stockholders of the corporation, if a corporation be the applicant, based on the information contained in the application or by subsequent investigation, is not of good moral character.

(f) The decision of the department to suspend or revoke a license under the provisions of subdivision (b) of Section 11518 or subdivision (c) of Section 11721 has been entered, and the applicant was the licensee, a copartner, or an officer, director, or stockholder of such suspended or revoked licensee.

SEC. 2. Section 11509 of said code is amended to read:

11509. The department after notice and hearing may suspend, revoke or refuse to renew the certificate and license and special plates issued to an automobile dismantler upon determining that any such automobile dismantler is not lawfully entitled thereto, has made or knowingly or negligently permitted an illegal use of the special plates issued to said person, used a false or fictitious name, knowingly made any false statements or concealed any material fact in any application or other document filed with the department, or has violated one or more terms and provisions of Divisions 3 (commencing with Section 4000) or 4 (commencing with Section 10500) or Chapter 3 (commencing with Section 11500) of Division 5, of this code or Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code, or has been convicted of a felony or a crime involving moral turpitude arising out of or in connection with any business licensed under this code; or has purchased, or concealed, or had in his possession, or has otherwise acquired or disposed of a vehicle, knowing the same to be stolen; or has failed to meet and maintain the requirements for issuance of an automobile dismantler license and certificate and special plates as provided for in this code; or has failed to pay within 30 days after written demand from

the department any fees or penalties due on vehicles acquired for dismantling.

When a check, draft, or money order submitted to the department by a licensee dismantler for any obligation or fee due the state is dishonored or refused payment upon presentation, it shall be a cause, after notice and hearing, to suspend, revoke, or refuse to renew a license and certificate issued to such dismantler.

Any of the causes specified in Section 11503 as a cause for refusal to issue a license and certificate to an automobile dismantler applicant, shall be cause, after notice and hearing, to suspend, revoke, or refuse to renew a license and certificate issued to an automobile dismantler.

(b) The voluntary or involuntary surrender for any cause by the licensee of the said special plates, license and certificate; provided, that such surrender, or the cessation of business by the licensee, or the suspension of the corporate charter of the licensee by the State of California, shall not prevent the filing of an accusation for revocation or suspension of the surrendered license as provided in Section 11509, and the department's decision that such license should be suspended or revoked; and provided further, that such decision may be considered in granting or refusing to grant any subsequent license authorized by Division 5 of this code to such licensee, copartner, or any officer, director, or stockholder of such prior licensee.

(c) When the person as defined in Section 470 of this code and designated as licensee has changed, except that the special plates issued to the original licensee may be transferred upon application as provided in Section 11501 and the newly designated licensee as transferee thereof shall succeed to the privileges evidenced by said plates until the expiration thereof.

SEC. 2. Section 3.6 of said act is amended to read:

Sec. 3.6. The board, by resolutions thereof adopted from time to time, may establish zones of benefit within said district without reference to the boundaries of other zones, setting forth in such resolutions descriptions thereof by metes and bounds and entitle each of such zones by zone number. The board may, by resolution, amend the boundaries by annexing property to or by withdrawing property from said zones or may divide existing zones into two or more zones or may superimpose a new or amended zone on zones already in existence, setting forth in such resolutions descriptions of the amended, divided or superimposed zones by metes and bounds and entitle each of such zones by zone number.

Proceedings for the establishment of such zones may, but need not, be conducted concurrently with and as a part of proceedings for the instituting of projects relating to such zones as prescribed in Sections 14 and following of this act.

The assumption of any indebtedness which the district is authorized to incur may be by the entire district, or may be by a zone or zones thereof if less than the entire district will be benefited by the purpose for which such indebtedness is incurred. In the latter event any election required to authorize the indebtedness shall be held only within the affected zone or zones.

SEC. 3. Section 4 of said act is amended to read:

Said ground water charge shall take into consideration and be based upon the existence and amount of benefit to the ground water supply of the land

as a result of such recharge or such distribution of imported water. Nothing contained herein shall prohibit the establishment of such charge or charges by a zone or zones of the district as established pursuant to Section 3.6 of this act, rather than by individual ownerships of land, provided the foregoing standard of benefit is adhered to and the amount of benefit to all land within each such zone is substantially the same. A ground water charge to be used to help repay the principal and interest of bonds authorized under Section 16 of this act may not be levied outside the zone or zones which authorized the issuance of said bonds at an election held under said Section 16.

SEC. 4. Section 4.2 of said act is amended to read:

Sec. 4.2. Prior to the establishment of any ground water charge, the board shall adopt a resolution stating its intention to do so, describing the lands of the district in which it is proposed that such charges be levied, and requiring the registration of all water-producing facilities located within such described lands as provided in Section 4.4 of this act. Said resolution shall be published once a week for three successive weeks in a newspaper of general circulation published in the district. Any such lands may be described by reference to the zone or zones in which such land is located.

SEC. 5. Section 4 3 of said act is amended to read:

Sec. 4.3. Ground water charges levied pursuant to this act are declared to be in furtherance of district activities in the protection and augmentation of the water supplies of the district which are necessary for the public health, welfare and safety of the people of this state. The ground water charges are authorized to be levied upon the production of ground water from all water-producing facilities, whether public or private, on lands within the district, the ground water supply of which is benefited by the recharge of underground water supplies or the distribution of imported water into the district.

The proceeds of ground water charges levied and collected upon the production of water from ground water supplies on such lands of the district are authorized and shall be used exclusively by the board for the following purposes:

(a) To pay the costs of acquiring, constructing, maintaining and operating facilities which will import water into the district which will benefit such lands, including payments made under any contract between the district and the State of California, the United States of America, or any public, private or municipal utility.

(b) To pay the costs of purchasing water for importation into the district which will benefit such lands, including payments made under any contract with the State of California, the United States of America, or any public, private or municipal utility.

(c) To pay the costs of acquiring, constructing, maintaining, and operating facilities which will conserve water for distribution, or which will distribute water to such lands, in-

cluding facilities for surface storage, ground water recharge, surface distribution, and drainage of waste or return flow from such water.

(d) To pay the principal or interest of any bonded indebtedness or other obligations incurred by the district for any of the purposes set forth in subdivisions (a), (b), and (c) of this section.

The district may apply to any one or more of the purposes set forth in subdivisions (a), (b), (c) and (d) of this section any or all revenues received by the district from the furnishing, selling, or leasing of any water, service or facilities pursuant to this act.

SEC. 6. Section 4.4 of said act is amended to read:

Sec. 4.4. Within six months after the last date of publication of the resolution provided for in Section 4.2 of this act, all water-producing facilities located within the lands described in said resolution shall be registered with the district by the operator of each such facility. Any new water-producing facility, constructed or reestablished on such lands after such date, shall be registered with the district by the operator of such facility within 30 days after the completion or reestablishment thereof.

Failure to register any such water-producing facility is a misdemeanor punishable by a fine of not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment.

In addition to other information which the district may determine is necessary and may require in the registration form provided, there shall also be given information as to the owner or owners of the land upon which each water-producing facility is located, a general description and location of each water-producing facility, the name and address of the person charged with the operation of each water-producing facility, and the name or names and addresses of all persons owning or claiming to own an interest in the water-producing facility.

SEC. 7. Section 4.7 of said act is amended to read:

Sec. 4.7. Within five weeks from the close of said hearing, the board shall determine whether or not, in the interests of the most beneficial conjunctive operation of the ground water and surface water supplies of the district, a ground water charge or charges should be levied on lands within the district, the ground water supply of which the board has determined will be benefited under the standard of benefit set forth in Section 4 of this act. If the board determines that a ground water charge or charges should be so levied, it shall levy, assess, and affix such charge or charges against all persons operating ground water-producing facilities on such lands within the district during the ensuing water year. The charges shall be in accordance with the benefits to the ground water supply of the various lands and zones so that the rates per acre-foot may be different in different lands and different

zones, but where said benefits are substantially the same the charges shall be computed at a fixed and uniform rate per acre-foot for agricultural water, and at a fixed and uniform rate per acre-foot for all water other than agricultural water; provided, that with respect to small water-producing facilities which have a discharge opening not greater than a size specified by the board and which do not provide water for an area in excess of that specified by the board, for administrative convenience the board may provide for either a flat annual charge or for no charge in lieu of a charge computed at such fixed and uniform rate. Such fixed and uniform rate shall not exceed two dollars ($2) per acre-foot.

Any ground water charge levied pursuant to this section shall be in addition to any general tax or assessment levied within the district or any zone or zones thereof.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly charged, or in the making or extension of any charge upon the records, which do not affect the substantial rights of the assessee or assessees, shall not invalidate the ground water charge.

SEC. 8. Section 4 8 of said act is amended to read:

Sec. 4.8. The district, after the levying of the ground water charge, shall give notice thereof to each operator of each water-producing facility in the lands within the district in which such charge or charges are levied as disclosed by the records of said district, which notice shall state the rate for each class of water of the ground water charge applicable to said water-producing facility for each acre-foot of water to be produced during the ensuing water year. Said notice may be sent by postal card or by other first-class mail and with postage prepaid by the district.

Any person interested in land or in a water-producing facility within the district and aggrieved by a decision of the board respecting the establishment or levying of a ground water charge or charges may obtain court review thereof in the Superior Court of the State of California in and for the County of Yolo by filing a petition for a writ of mandate not later than 30 days after the mailing of the notice provided for in this section. The proceeding shall be governed by Code of Civil Procedure Section 1094.5 and the superior court shall exercise its independent judgment on the evidence.

SEC. 9. Section 27.5 of said act is amended to read:

Sec. 27.5. So far as possible, the board shall fix the rates and charges (including the ground water charge) for water, service and benefit from its operation so as to pay such portion of the expenses of the district as the board determines to be justly apportionable to the furnishing of such water, service and benefit; provided, that the board shall not be precluded by this provision from using the tax authorized by Section 12

to help pay such expenses. The expenses to be paid include:

(a) The operating expenses of the district.

(b) Provision for a fund for repairs and depreciation of works owned or operated by the district.

(c) The interest on any bonded debt.

(d) Provision for a fund for payment of the principal of the bonded debt as it becomes due.

(e) Any other costs and expenses of constructing, maintaining, operating, purchasing or leasing works used in providing such water, service and benefit.

It is intended by this section that such rates and charges for water, service and benefit together with the tax authorized by Section 12 of this act shall be fixed so as to be sufficient to pay the interest and principal of any bonded debt incurred to finance the construction and acquisition of the works which provide such water, service and benefit; provided, that this section shall in no way impair the district's general obligation to bondholders to pay the interest and principal of bonds authorized under Section 16 of this act.

SEC. 10. Section 32.3 is added to said act, to read:

Sec. 32.3. In addition to the other powers provided in this act, the district by agreement authorized by resolution of the board may incur indebtedness for acquisition or construction of any works or property, including water or water rights, for any purposes of the district, to be repaid and liquidated as to both principal and interest only from revenues designated in such agreement which are produced from the collection of rates, tolls or charges for any water or service or facilities furnished, sold or leased by the district or from the ground water charge authorized by Sections 4 et seq., of this act, provided the proposal to incur such indebtedness is first approved at a special district election at which there is submitted to the qualified voters of the district the proposition whether such indebtedness shall be incurred. Such election shall be held as nearly as practicable in accordance with the procedures set forth in Section 16 of this act, except that the incurring of such indebtedness shall be approved if a majority or more of the votes cast on such proposition are in favor thereof. The maximum rate of interest to be paid on said indebtedness shall not exceed 6 percent per annum. In the agreement incurring said indebtedness, the district may pledge to the payment of the amounts to become due thereunder all or any part of the revenue from which such amounts are payable. In connection with such pledge the agreement may contain such covenants, promises, restrictions and provisions as the district may deem necessary or desirable, including but not limited to covenants, promises, restrictions and provisions relating to (a) the operation, maintenance and preservation of the works or property so acquired or constructed, (b) the rates, tolls or charges from which said indebtedness is to be repaid, (c) the incurring of additional indebtedness payable from the revenue pledged, and (d) the establishment, maintenance and use of reserve funds,

maintenance and operation funds, funds for the payment of amounts due under the agreement and other funds for the security of the one to whom the indebtedness is owed.

SEC. 11. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Yolo County Flood Control and Water Conservation District is planning the acquisition and construction of the Cache Creek project to provide urgently needed water supplies for said district, and it is necessary to revise and clarify the provisions of the act relating to the ground water charge and to provide for additional authority to incur indebtedness payable out of revenue so that procedures to finance said project can proceed at the earliest possible date. Unless this act takes effect immediately, this urgently needed water project will be delayed.

(b) Before the Appeals Board issues its decision upon an appeal from the referee's decision on a petition for reassessment, the payment shall constitute the filing of a claim for refund, the claim shall be deemed denied by the director, the denial shall be deemed affirmed by the referee, and the appeal shall automatically become an appeal from a referee's decision upholding the director's denial of the claim for refund.

CHAPTER 665

An act to amend Sections 1035, 1055, 1133 and 1180 of the Unemployment Insurance Code, relating to unemployment insurance.

An additional 30 days for the filing of such petition may for good cause be granted by the referee. The referee shall give at least 20 days' notice of the time and place of the hearing on the petition by delivering or mailing the notice to the employer and to the director. The time of notice may be shortened with the consent of the parties. The referee shall render a decision in the matter. The employer and the director shall be promptly notified of the referee's decision, together with his reasons therefor.

(b) The referee's decision shall be final unless, within 30 days after the mailing of the decision, the employer or the director files an appeal to the Appeals Board. This appeal period may be extended where good cause is found to exist by the Appeals Board.

(c) A decision of the Appeals Board under this section shall be subject to judicial review, as provided by law, if an appropriate proceeding is filed by the employer within 90 days of the date of mailing of the decision. The director may in writing extend for a period of not exceeding two years the time within which such proceeding may be instituted if written request for such extension is filed with the director within the 90-day period.

SEC. 2. Section 1055 of said code is amended to read:

1055. (a) In the event of a denial or granting of an application for transfer of reserve account, the director shall give notice to the employing unit making such application, and to

Such notices shall be served personally, or by mail pursuant to Section 1013 of the Code of Civil Procedure and addressed to the employing unit at its address as it appears in the records of the department. Service by mail is complete at the time of deposit in the U.S. mail. Within 30 days after service of notice of denial or granting of transfer of reserve account any employing unit affected may file with a referee a petition for review. An additional 30 days for the filing of such petition may for good cause be granted by the referee. The referee shall give at least 20 days' notice of the time and place of the hearing on the petition by delivering or mailing the notice to the employing unit which filed the petition and to the director. (b) The referee's decision shall be final unless, within 30 days after the mailing of the decision, any employing unit which is a party to the petition or the director files an appeal to the Appeals Board. This appeal period may be extended where good cause is found to exist by the Appeals Board.

(c) Within 90 days after the mailing of the notice of the decision of the Appeals Board, any interested party may bring an action against the director with respect to that decision. An additional 30 days for the filing of a petition may for good cause be granted by the referee. 1180. (a) The director shall give notice to the claimant whenever he denies any claim for refund or credit in whole or in part, notice to be served in the manner prescribed for service of notice of assessments under Section 1140.

Within 30 days of notice of denial, the claimant may file with a referee a petition for review. An additional 30 days for the filing of such petition may for good cause be granted by the referee. If the director fails within 60 days after a claim is filed to mail notice of his action on the claim, the

claimant may consider the claim denied and file a petition with a referee as set forth in this article. If the petition is filed within the time prescribed a referee shall review the claim and, if requested by the claimant, shall grant a hearing. A hearing is not required on such petition if a prior hearing has been afforded the claimant involving the same issues, but regardless of any prior proceedings, if the claimant files an affidavit setting forth new and additional evidence in support of his claim, a referee may grant an additional hearing under this section. The referee shall give at least 20 days' notice of the time and place of the hearing on the petition by delivering or mailing the notice to the claimant and to the director. The time of notice may be shortened with the consent of the parties. The referee shall render a decision in the matter. The claimant and the director shall be promptly notified of the referee's decision, together with his reasons therefor.

The document shall be in duplicate and shall be signed by the transferee or obligor and a copy shall be kept for two years as a permanent record by the dealer or holder of the security interest. CHAPTER 688

An act to add Section 9359.01 to, and to amend Section 9359.1 of, the Government Code, relating to the Legislators' Retirement Law.

[Approved by Governor June 15, 1965. Filed with Secretary of State June 15, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 9359.01 is added to the Government Code, to read:

9359.01. A Member of the Senate or Assembly who is not returned to office, or who chooses not to run, when the boundaries of the Senate or Assembly district, respectively, in which he was resident, when last elected to the Senate or Assembly, respectively, are altered pursuant to a reapportionment of legislative districts, may be retired, upon his written application to the board, at the conclusion of his current term pro-

vided the member is credited with a minimum of four years service.

SEC. 2. Section 9359.1 of said code is amended to read:

9359.1. (a) The retirement allowance for a member all of whose credited service was rendered as a Member of the Senate or Assembly except as provided in subdivision (d) is an annual amount equal to five percent (5%) of the compensation payable, at the time payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member who serves more than 15 years shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of 15 years.

(b) The retirement allowance for a member all of whose credited service was rendered as an elective officer of the state whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly) is an annual amount equal to five percent (5%) of the compensation payable at the time payments of the allowance fall due, to the officer holding the office which the retired member last held prior to his retirement, or five percent (5%) of the highest compensation fixed for such office during the member's last term or any subsequent term prior to his retirement, whichever is greater, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years.

(c) The retirement allowance for a member part of whose credited service was rendered as a Member of the Senate or Assembly and part of whose credited service was rendered as an elective officer of the state whose office is provided for by the Constitution, other than a judge (and other than a Member of the Senate or Assembly) is an annual amount equal to five percent (5%) of all the compensation, at the time payment of the allowance falls due, to the officer holding the highest salaried office which the member held at any time during his service prior to retirement, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years. If, however, the member would be entitled to receive a greater allowance under subdivision (a), (b), or (d) of this section if all of his credited service had been rendered as a Member of the Senate or Assembly or as an elective officer of the state whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly),

then all of his credited service shall be deemed to have been rendered as a Member of the Senate or Assembly or as such other elective officer, and he shall receive a retirement allowance computed under subdivision (a), (b), or (d) of this section, whichever is greater.

(d) The retirement allowance for a member, all of whose service was rendered as a Member of the Senate or Assembly, who is the surviving widow of a deceased Member of the Senate or Assembly and who becomes the immediate successor in office of such deceased Member of the Senate or Assembly is an annual amount equal to five percent (5%) of the compensation payable, at the time the payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of retirement plus the number of years of service as a Member of the Senate or Assembly rendered by the member's deceased husband plus any period in the term, for which the deceased member was elected, following his death, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member, whose total service creditable under this subdivision is in excess of fifteen (15) years, shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of fifteen (15) years. This same computation of total service creditable shall be used as a basis in determining eligibility for retirement, under Sections 9359 and 9359.16, of a member described in this subdivision. Any member to whom this subdvision applies shall redeposit an amount equal to the contributions which were required to be contributed by her deceased spouse while he was a member of the system for his service, computed on the basis of the salary and rate of contribution in effect at the time such service was rendered, or would have been rendered, in the Legislators' Retirement Fund on account of the service of her deceased husband in order to use such service for the purposes of this section and Sections 9359 and 9359.16.

[Approved by Governor June 15, 1965. Filed with Secretary of State June 15, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 7872 of the Revenue and Taxation Code is amended to read:

7872. If any amount required to be paid to the state under this part is not paid when due, the Controller may within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

SEC. 2. Section 8996 of said code is amended to read:

8996. If any amount required to be paid to the state under this part is not paid when due, the board may within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterward and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

SEC. 3. Section 10099 of said code is amended to read:

10099. If any amount required to be paid to the state under this part is not paid when due, the Controller may within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

SEC. 4. Section 30322 of said code is amended to read:

30322. If any amount required to be paid to the state under this part is not paid when due, the board may within three years after the amount is due file for record in the office

of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the board of the person liable for the same, and the fact that the board has complied with all provisions of this part in the determination of the amount required to be paid. From the time of the filing for record, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. 32362. An abstract or copy of the judgment entered under Section 32361 may be recorded with the county recorder of any county, and from the time of such recording, the amount of the taxes, interest, and penalty set forth in the judgment shall constitute a lien upon all the real property owned by the taxpayer in the county or which he may acquire afterwards and before the lien expires, which lien shall have the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the recording of the abstract unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the recording of the abstract or within 10 years from the date of the last extension of the lien, be extended by recording a new abstract in the office of the county recorder of any county and from the time of such recording, the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged. [Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965]

SECTION 1. Section 4904 of the Labor Code is amended to read:

4904. If notice is given in writing to the insurer, or to the employer if uninsured, setting forth the nature and extent of any claim that is allowable as a lien, the claim is a lien against any amount thereafter payable as compensation, subject to the determination of the amount and approval of the lien by the commission. The claim of lien shall be perfected pursuant to rules and regulations prescribed by the commission. In determining the amount of lien to be allowed for unemployment compensation disability benefits under subdivision (f) of Section 4903 the commission shall allow such lien in the amount of benefits which it finds were paid for the same day or days of disability for which an award of compensation for temporary disability indemnity is made. In the case of agreements for the compromise and release of a disputed claim for compensation, the applicant and defendant may propose to the commission, as part of the compromise and release agreement, an amount out of the settlement to be paid to any lien claimant claiming under subdivision (f) of Section 4903. The determination of the commission, subject to petition for reconsideration and to the right of judicial review, as to the amount of lien allowed under subdivision (f) of Section 4903, whether in connection with an award of compensation or the approval of a compromise and release agreement, shall be binding on the lien claimant, the applicant, and the defendant, insofar as the right to benefits paid under the Unemployment Insurance Code for which the lien was claimed. The commission may order the amount of any lien claim, as determined and allowed by it, to be paid directly to the person entitled, either in a lump sum or in installments.

SEC. 2. Section 2629.1 is added to the Unemployment Insurance Code, to read:

2629.1. CHAPTER 692

An act to amend Section 120 of the Agricultural Code, relating to nursery licenses.

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 120 of the Agricultural Code is amended to read:

120. It is unlawful to sell any nursery stock without first having obtained an annual license so to do from the director. Such license for the fiscal year shall be issued to any person who sells plants at any place in the state upon receipt of payment of a minimum license fee to be established by the director but not to exceed thirty dollars ($30), to which shall be added an equal sum for each branch salesyard, store or sales location owned and operated in the state as an additional license fee. The director may fix the minimum license fee at a lesser amount and may adjust the license fee when after investigation and due notice he finds that the cost of administering the provisions of this chapter and Chapter 9 (commencing with Section 1148) of Division 5 of this code relating to nursery stock, can be defrayed from revenues derived from such license fee in combination with such sums as are provided by Sections 34.6 and 120.5. The applicant shall further satisfy the director of his or its character and good faith in seeking to carry on the business of selling nursery stock.

The fees for the renewal of the annual license shall be paid between the 1st day of April and the 1st day of July of each year for the fiscal year beginning July 1st of such year. Failure to pay the renewal license fee prior to the 11th day of July of each year, for the year ensuing, shall ipso facto work a forfeiture of the right to sell nursery stock. Any person who has been previously licensed to sell nursery stock and whose right to so sell has been forfeited shall not be issued a renewal license except upon written application to the department, accompanied by a sum equal to the regular license fee or equal to any portion thereof remaining unpaid prior to said 11th day of July in the event of a deficiency in the amount due plus a restoration fee in an amount equal to the regular license fee or in an amount equal to the said unpaid portion thereof; but no such restoration fee shall be required of any person whose application for renewal of license is accompanied by his signed statement that prior to the date of his application he has not sold any nursery stock during any part of the fiscal year for which he applies for renewal of license.

A person shall not be required to pay the above-mentioned fee if his sales of plants amount to less than five hundred dollars ($500) within any one fiscal year and if he has reported to the commissioner his intention to make such sales. All plants

sold by him must be of his own production, and sold for planting within the county where grown.

The license may be suspended or revoked or issuance or renewal thereof refused when, after investigation and hearing, it is determined that the licensee or the applicant has wilfully refused to comply with the laws and regulations relative to nursery stock, or to any pest which might be carried by such nursery stock, or was intentionally guilty of fraud or deception in the procurement of such license, or has been guilty of fraud or misrepresentation in the handling or sale of nursery stock. The proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the director shall have all the powers granted therein.

Retail florists and others who sell plants at retail for indoor decorative purposes only are exempt as to such plants from the provisions of this section.

Persons who sell seeds and who do not sell or ship any other kinds of nursery stock are exempt from the provisions of this section.

The director may publish in pamphlet form as often as he deems necessary a list of all persons licensed under the provisions of this section, together with such additional information as he deems advisable concerning the enforcement of laws and regulations pertaining to nursery stock.

SEC. 2. Any revenues derived from any increases in fees provided for in this act shall not be available for expenditures unless appropriated.

CHAPTER 693

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 80.5 of the Agricultural Code is amended to read:

80.5. The 51st District Agricultural Association is abolished. All property, both real and personal, of the district is transferred to the Department of General Services to be held by it until the Legislature determines, by appropriate act, that the property should be used to meet the educational needs of San Fernando Valley State College or devoted to some other

urgent educational use. Pending the determination by the Legislature pursuant to this section, the Department of General Services may lease or otherwise use such property, on such terms and conditions as the Director of General Services deems to be in the best interests of the state.

SEC. 2. Section 81 of said code is amended to read:

81. Fifty or more persons, residents of the county or of all the counties or parts of counties comprising an agricultural district, may form an association to be known as and designated as the _____ District Agricultural Association, for the purpose of holding fairs, expositions and exhibitions of all of the industries and industrial enterprises, resources and products of every kind or nature of the state with a view of improving, exploiting, encouraging, and stimulating the same.

The officers of such association shall consist of a board of directors of nine members. The directors shall be resident citizens of the district. Where two or more counties constitute an agricultural district, each county shall be represented on the board of directors by at least two resident citizens. If, by reason of the formation of a new agricultural district, a director in one district becomes a resident of another district, his term of office as director expires 60 days after the formation of the new agricultural district. Copies of the articles of association shall be filed with the Governor, the Secretary of State, and the Department of Agriculture.

SEC. 3. Section 86 of said code is amended to read:

86. Each district agricultural association is a state institution. Each association by its name has perpetual succession, may have a seal, and may be sued, and with approval of the Department of Agriculture, may sue and may do any and all things necessary to carry out the powers and the objects and purposes for which the association is formed; provided, however, that claims against district agricultural associations shall be presented to the State Board of Control in accordance with Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code, and, with the approval of both the Department of Agriculture and the Department of General Services may:

(a) Contract.

(b) Purchase, acquire, hold, sell, exchange or convey any interest in real or personal property and beautify or improve such property. Any acquisition of land or other real property shall be subject to the provisions of the Property Acquisition Law (Part 11, commencing with Section 15850, Division 3, Title 2 of the Government Code).

(c) Lease, let or grant licenses for the use of its real estate or personal property or any portion thereof to any person or public body for whatever purpose may be approved by the board of directors and the Department of General Services.

(d) Use or manage its real estate or personal property or any part thereof for any or all of the foregoing purposes

jointly with any lessee, sublessee or licensee, or otherwise use or manage said property in connection with such lease, sublease or license heretofore or hereinafter made or granted.

(e) Lease or let its real property for public park, recreational, or playground purposes.

(f) Rent or permit the use of its premises for purposes beneficial to the agricultural industry, including but not limited to the holding of sales or auctions of cattle or other livestock.

(g) Contract with any county or county fair association for holding a fair jointly with the same. Such joint fair shall constitute a district fair of the association.

SEC. 4. Section 86.4 of said code is amended to read:

86.4. In addition to any other power granted by this article, the Sixth District Agricultural Association, known and designated as the California Museum of Science and Industry, and 22nd District Agricultural Association, with the approval of the Department of Agriculture, may build, construct, and maintain and operate a sports stadium or stadia, a sports arena or sports pavilion or other building for holding sports events, athletic contests, contests of skill, exhibitions, spectacles and other public meetings, and may lease, let, or grant licenses for their use.

SEC. 5. Section 87.5 of said code is amended to read:

87.5. (a) Any district agricultural association and any county may jointly construct a building to constitute a war memorial and to be used for any purpose for which real property of a district agricultural association may be used.

(b) The buildings or war memorials may be constructed and managed under such terms and conditions as may be agreed upon by the directors of the association with the approval of the Department of Agriculture and the board of supervisors of the county, and shall be owned and used jointly by the association and county.

(c) Any construction work done pursuant to any such agreement shall be performed in accordance with and subject to the provisions of the State Contract Act.

SEC. 6. Section 88 of said code is amended to read:

88. The proceeds of the sale of any interest in real property owned by any association shall be paid into the Fair and Exposition Fund in the State Treasury. The amount paid into such fund under the provisions of this section shall be available for expenditure by the association, with the approval of the State Department of Agriculture and the State Public Works Board, for permanent improvements for fair purposes on the property of the association or the purchase of equipment for fair purposes, or the acquisition or purchase of real property, including costs of appraisal, or other incidental costs, to be used as sites for such permanent improvements. Said funds or any portion thereof which are not expended within three years after being so paid into the State Treasury as provided in this section shall be added to and become a part

of the amount available under Section 19630 of the Business and Professions Code for permanent improvements upon the property of the state, citrus, county, or district agricultural associations for fair purposes, or the purchase of equipment for fair purposes, or the acquisition or purchase of real property, including costs of appraisal or other incidental costs, to be used as sites for such permanent improvements, in such amounts as may be allocated by executive order of the State Director of Agriculture. The execution of any lease, easement, or agreement for the extraction of any oil, or gas from lands owned or controlled by a district agricultural association is not a sale of an interest of real property within the meaning of this section. All revenues received by any association pursuant to any such lease, easement, or agreement for the extraction of oil or gas shall be paid into the General Fund in the State Treasury.

SEC. 7. Section 88.5 of said code is amended to read:

88 5. The Director of Agriculture may make available for the use of any district agricultural association any property of the state, suitable for the purposes of the district, which has been obtained by the state by gift from counties, cities and counties, or cities, or otherwise without cost to the state.

SEC. 8. Section 88 6 of said code is amended to read:

88 6. When the board of directors of a district agricultural association shall, by resolution, adopted by vote of two-thirds of all its members, have found and determined that the public interest and necessity require the acquisition of any buildings or improvements situated on property owned by said association, in trust or otherwise or of any outstanding rights to such property, such association may, with the approval of the Department of Agriculture, acquire such buildings, improvements or outstanding rights by condemnation.

The use by such association of its property shall be considered a more necessary public use than the use thereof by any grantee, lessee or licensee for the purposes specified in Section 86 of this chapter.

SEC 9. Section 91 of said code is amended to read:

91. The directors of each district agricultural association shall annually make to the Department of Agriculture such report as such department may direct.

SEC 10. Section 92.3 of said code is amended to read:

92 3. During the 1960–61 fiscal year and each fiscal year thereafter, the funds apportioned by the Department of Agriculture under the provisions of Section 92 of this code and other applicable provisions of law shall be paid monthly to the several counties and district agricultural associations from the revenue deposited in the Fair and Exposition Fund and appropriated for encouragement of county, district or combined county and district agricultural fairs under the provisions of Section 19627 of the Business and Professions Code during the fiscal year in which the apportionment is made. The depart-

The amount of the premiums used in determining such apportionments shall be the amount of premiums paid by each of the several counties and district agricultural associations in the calendar year preceding the fiscal year in which the apportionment is made.

SEC. 11. Section 92.5 of said code is amended to read:

92.5. In the event the audited total of eligible premiums paid by any fair in any year differs from the total set forth in the sworn statement filed with the Department of Agriculture under Section 92 of the Agricultural Code, the amount of the apportionment made to such fair for such year under Section 92 shall be recalculated on the basis of the audited total of eligible premiums paid multiplied by the factor used in calculating the original apportionment. If the recalculated apportionment is less than the original apportionment, the amount of such difference shall be returned to the Fair and Exposition Fund and be added to and become a part of the funds appropriated for the encouragement of agricultural fairs under Section 19627 of the Business and Professions Code, during the fiscal year in which said difference is returned to said fund.

SEC. 12. Section 92.6 of said code is amended to read:

92.6. Every agency conducting a fair for which an apportionment is sought under the provisions of Section 92 shall file a detailed statement of its operations in the previous calendar year with the Department of Agriculture on or before the 20th day of January in each year. The content and form of such statement shall be prescribed by said department.

SEC 13. Section 92.8 of said code is amended to read:

92.8. The Department of Agriculture shall review the statements of operation filed by the several fairs pursuant to Section 92 6. It shall consider such reports, statistics and other information as to the conduct, operation, management of, and other matters relating to all fairs which are subject to Section 92.6.

The Department of Agriculture shall, from time to time, classify such fairs In making such classifications it shall take into consideration all of the following:

(a) The type and class of agricultural, including livestock, industrial and natural resources exhibited and the amount of premiums paid in accordance with the approved premium list of such fair.

(b) Whether the fair is regional in nature, offers a special feature for agriculture, livestock or industry, or is a sectional fair limiting exhibits to the region in which the fair is held.

and such other characteristics and factors as the Department of Agriculture deems necessary.

(c) The ratio of attendance at the fair to the population of the area served by it.

(d) The efficiency of management, including operational procedures, revenue from sources other than the state, quality of exhibits and community interest in such fair.

The content and form of such statement shall be prescribed by said department.

SEC. 15. Section 95 of said code is amended to read:

95. Where a charge is made for admission to enter a state, district, county, or citrus fruit fair in this state, entrance to such fairgrounds, without the payment of the established admission price, shall be limited as follows:

Credential admissions shall be those admissions authorized by the board of directors of a state, district, or citrus fruit fair or by the board of supervisors of a county for admission to a fair without payment when a service is rendered necessary for the conduct of the fair. The words "credential admission" shall be printed on each ticket so issued.

Credential admissions may be issued to individuals, associations, and bodies who prepare or service educational, commercial, industrial, livestock, agricultural, horticultural, viticultural displays or exhibits, service, maintain or operate concessions; render, through agreement with the fair, a service to fair patrons; render a necessary public service, safeguard health, provide for public safety, participate in parades or events necessary for the conduct of the fair; representatives of press, radio, and television personally engaged in obtaining and transmitting public information; ambulance drivers, firemen on duty, and repairmen necessary to service utilities, and to employees of the fair, and state officials in the performance of duty.

Courtesy pass admissions shall be all admissions, without payment of the admission charge, to any state, county, district, citrus fruit, or county fair, except credential admissions, children under 12 years of age, and military personnel in uniform.

The number of courtesy passes for admittance without payment to any state, district, citrus fruit, or county fair shall not exceed 4 percent of the gross paid admissions to the fair in the preceding calendar year.

Any courtesy pass or courtesy passes issued pursuant to the limitation of this section shall not be transferred to any other person.

Each fair shall maintain complete records of the number of credential and courtesy admissions issued for each fair period.

Each fair shall make an annual report to the Department of Agriculture, as prescribed by said department, of the total number of credential and courtesy pass admissions issued and honored at each fair.

The Department of Agriculture shall allocate monthly to the several citrus fruit fairs and expositions, the funds available for such allocation in such amounts as the department shall determine; provided, however, that the aggregate of the monthly allocations to each of the several citrus fruit fairs and expositions shall equal the allocation provided by law.

Forty percent, but not more than four million six hundred eighty thousand dollars ($4,680,000), of the first balance of the fund is hereby annually appropriated for the encouragement of county, district, or combined county and district fairs (exclusive of the California State Fair and Exposition, the Los Angeles County Fair, 1-A District Agricul-

No such fair shall receive such an apportionment in excess of such need as established by the department. (3) The amount of money available to the fair from its own resources or from sources other than the state.

(6) The classification of the fair.

No such county, district or combined county and district agricultural fair shall receive an apportionment of more than sixty-five thousand dollars ($65,000) in any one year. No such fair shall be eligible for an apportionment pursuant to this section unless it has filed, for each year subsequent to 1958, a statement of its operations during such year as provided in Section 92.6 of the Agricultural Code, irrespective of whether or not an apportionment for any such year or years is sought or made and all such fairs shall be deemed to be subject to said Section 92.6 for all purposes.

(b) The purchase of equipment for fair purposes of such fairs, citrus fruit fairs and citrus fruit fairs and expositions.

(c) The acquisition or purchase of real property, including costs of appraisal and incidental costs, to be used as sites for the permanent improvements specified in subdivision (a).

The date of such executive order is deemed to be the date when the appropriation becomes available for expenditure

All appropriations and allocations made by this article which are not exempted by this section from the provisions of Section

16304 of the Government Code are subject to those provisions.

Allocations for permanent improvements for fair purposes under Section 19630 of this code are available to defray expenditures lawfully incurred prior to the date of the executive order involved, if the executive order so provides.

Upon reversion an allocation made by the Director of Agriculture for permanent improvements for fair purposes under Section 19630 reverts to and becomes a part of the appropriation from which the allocation was made.

SEC. 27. Section 25902 of the Government Code is amended to read:

25902. If any real property which was acquired or used for fair purposes and which was purchased or improved in whole or in part from funds apportioned or allocated to the county for fair purposes by the state is sold by any county, there shall be paid into the Fair and Exposition Fund in the State Treasury from the proceeds of the sale an amount equal to that proportion of the cost of the real property and improvements which was paid for out of funds apportioned or allocated by the state for fair purposes, less a reasonable allowance for depreciation in value in an amount approved by the Department of Agriculture.

SEC. 28. Section 25903 of said code is amended to read:

25903. With the approval of the Department of Agriculture and the State Public Works Board, the amount paid into the Fair and Exposition Fund shall be available for expenditure by the county for permanent improvements for fair purposes on the property of the county, the purchase of equipment for fair purposes, or the acquisition or purchase of real property, including costs of appraisal or other incidental costs, to be used as sites for such permanent improvements. Any portion of such funds which is not so expended within three years after being paid into the State Treasury shall be added to and become a part of the amount available under law for permanent improvements upon the property of the state, citrus, county, or district agricultural associations for fair purposes, or the purchase of equipment for fair purposes, or the acquisition or purchase of real property and appraisal or other incidental costs, to be used as sites for such permanent improvements, in such amounts as are allocated by executive order of the Director of Agriculture.

SEC. 29. Section 25905 of said code is amended to read:

25905. The board of supervisors may contract with a nonprofit corporation or association for the conducting of an agricultural fair, as agent of the county, for a period not exceeding five years. Such contract may provide for the use, possession, and management of any public park or fairgrounds by such nonprofit corporation, as agent of the county, during the period of the contract.

All net proceeds received by such nonprofit corporation, from whatever source, shall be deposited within 60 days after the conclusion of any fair in a county fair fund which shall

be established in the county treasury for such purpose. The moneys in the fund shall be expended only for support of the county fair, including maintenance and operation of the county fair facilities, premiums, purposes incidental to the fair, capital outlay for fair purposes and for the acquisition or purchase of real property to be used for fair purposes.

The corporation shall submit an annual budget to the State Department of Agriculture, showing the estimated revenues and the proposed expenditures from all sources during the ensuing calendar year, which budget shall first be approved by the county board of supervisors and shall be considered as complying with the provisions of Section 92 of the Agricultural Code relating to budgets.

Any other provisions of law relating to county fairs as a condition to receiving an allocation of state money for fair purposes shall be observed by such nonprofit corporation.

When such use, possession, and management is granted, the board may also allocate and pay to such nonprofit corporation in advance such sum of money it deems necessary to be used for the purposes for which such use, possession, and management is granted.

SEC. 30. Section 25906 of said code is amended to read:

25906. The board of supervisors of a county may contract with a nonprofit corporation or association for the conducting of an agricultural fair in such county for such period and under such conditions as the board may determine. Such contracts may provide for the use, possession, and management of any public park or fairgrounds by such nonprofit corporation during the period of the contract. When such use, possession, and management is granted, the board may also allocate to such nonprofit corporation such sum of money it deems necessary to be used for any purpose incidental to the fair. If such contract involves the use of property acquired with money derived from the state or if the contract contemplates the use of money allocated or appropriated by the state for such fair, the contract shall be subject to approval by the Department of Agriculture. If such county desires to receive an allocation under the provisions of Section 92 of the Agricultural Code, the corporation shall submit an annual budget to the State Department of Agriculture, showing the estimated revenues and the proposed expenditures from all sources during the ensuing calendar year, which budget shall first be approved by the board of supervisors, and shall be considered as complying with the provisions of Section 92 of the Agricultural Code relating to budgets. (b) On and after the effective date of this section, the following regulations will govern the administration of the classification and compensation schedules contained herein:

(1) Except as otherwise provided in this article, all employees shall be entitled to the same vacation, sick leave, leave of absence, and similar benefits, and shall be subject to the same rules and regulations concerning length of work week, anniversary dates and changes thereof and may be appointed, promoted, demoted, terminated, or transferred or their status otherwise adjusted, in the same manner and with the same

effect as is or may be provided by the current salary and personnel ordinances and policies approved by the Board of Supervisors of Santa Barbara County for other employees of the county

Any increase in salary under this subparagraph will establish a new anniversary date.

(5) An employee holding a position for which a new range of salaries is established by this section will normally be paid the compensation provided in column A of the new range. In the event such compensation is less than the employee's salary immediately prior to the effective date of this section, the employee's salary shall be adjusted to the closest column in dollar amount in the new range If payment of the compensation provided in the closest column would result in a salary decrease the employee shall be paid the same compensation he received immediately prior to the effective date of this section until such closest column is otherwise increased or decreased or the employee is promoted, demoted or granted a merit increase under the provisions of this article, at which time the employee shall be paid the amount provided in said column as increased or decreased or in the appropriate column in the event of promotion, demotion or merit increase. If the payment of compensation under this section results in an inequity to an employee in the opinion of the appointing authority, or presiding judge in the case of the marshal, the employee may, with the consent of the board of supervisors,

be paid the compensation provided for in any column of the new range or up to 5 percent in excess of the new range.

(6) For the purposes of this article, an employee, unless otherwise designated, refers to every person filling any position established by Sections 74642 and 74643.

SEC. 4. Section 74644.1 of said code is repealed.

SEC. 5. Section 74644.1 is added to said code, to read:

74644.1. Notwithstanding any other provisions of this article, if at any date on or after January 1, 1965, any different compensation is established for any of the hereafter mentioned positions under the County of Santa Barbara Salary Ordinance, the following provisions shall apply to salaries mentioned in this article:

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 5019.10 of the Public Resources Code is amended to read:

5019.10. The Department of Parks and Recreation may enter into contracts with persons, firms or corporations to construct, maintain and operate concessions within the state park areas for the safety and convenience of the general public in the use and enjoyment of the state park system.. The approval of the Director of General Services shall not be required, notwithstanding Section 11005.2 of the Government Code or other provisions of law, unless the contract authorizes occupancy of the state park system for a period of more than one year.

SEC. 2. Section 5019.11 of said code is amended to read:

5019.11. Except as provided in Section 5019.23 all concession contracts authorizing occupancy of any portion of the state park system for a period of more than two years shall be awarded to the best responsible bidder. "Best responsible bidder" means the bidder, as determined by standards established by the department, and who, in the opinion of the department, will operate the concession consistent with the contract and in the best interest of the state and public.

SEC. 3. Section 5019.12 of said code is amended to read:

5019.12. For any concession contract authorizing occupancy by the concessionaire for a period of more than two years of any portion of the state park system, the department shall prepare an invitation to bid, which shall include a summary of the terms and conditions of the concession sufficient to enable persons to bid solely on the basis of rates to be paid to the state. Bids will be made only on the basis of the invitation to bid.

SEC. 4. Section 5019.13 of said code is amended to read:

5019.13. Notwithstanding the provisions of Sections 11080 or 11081 of the Government Code, public notice to bidders shall be given of all proposed concession contracts authorizing occupancy for a period of more than two years of property in state park system as follows:

(a) The department shall advertise the notice through appropriate public media to the extent it determines is sufficient to provide adequate coverage.

(b) Publish an advertisement for bid at least once a week for two consecutive weeks in a newspaper of general circulation in the county in which the concession is to operate.

(c) If the director determines that, in view of the type of concession involved, the public interest would be best served by the solicitation of bids from out-of-state bidders, he shall give such additional notice as he finds is best suited to attract bids from out-of-state bidders.

SEC. 5. Section 5019.14 of said code is amended to read:

5019.14. The published notice shall state where bid forms may be obtained, the time and place for the receiving and opening of sealed bids, and shall describe, in general terms, the concession to be operated.

SEC. 6. Section 5019.15 of said code is amended to read:

5019.15. The department shall require from prospective bidders answers to questions contained in a standard form of questionnaire and financial statement including a complete statement of the prospective bidder's financial ability and experience in maintaining and operating similar or related concessions or business activities. When completed, the questionnaire and financial statement shall be verified under oath by the bidder.

SEC. 7. Section 5019.16 of said code is amended to read:

5019.16. Such questionnaires and financial statements are confidential and not open to public inspection, provided, however, nothing herein contained shall be construed to prevent reference thereto or use thereof in a civil action or a criminal prosecution by the state for a false statement contained therein.

SEC. 8. Section 5019.19 of said code is amended to read:

5019.19. Any bid may be withdrawn at any time prior to the time fixed in the public notice for the opening of bids but only by written request of the withdrawal of the bid filed with the Director of Parks and Recreation. The request shall be executed by the bidder or by an authorized representative. The withdrawal of a bid does not prejudice the right of a bidder to file a new bid prior to the date and time set for the opening of bids.

This section does not authorize the withdrawal of any bid after the time fixed in the public notice for the opening of bids.

SEC. 9. Section 5019.20 of said code is amended to read:

5019.20. On the day named in the public notice the department shall publicly open the sealed bids. The department shall carefully study and analyze all such bids and, on or after the 15th day after the bids are opened, may award the concession to the person then determined to be the best responsible bidder.

SEC. 10. Section 5019.21 of said code is amended to read:

5019.21. A failure on the part of the successful bidder to sign and deliver the concession contract within 30 days of receipt thereof and to provide the state with any bond and any evidence of insurance required thereunder, and on the time limit presented, may be treated as a refusal to execute if the

department so elects. If the director deems it is for the best interests of the state, he may, on the refusal or failure of the successful bidder to execute the contract, award it to the second best responsible bidder.

If the second best responsible bidder fails or refuses to execute the contract, the director may likewise award it to the third best responsible bidder.

SEC. 11. Section 5019.22 of said code is amended to read:

5019.22. If the director deems that the acceptance of any bid is not for the best interests of the state, he may reject all bids.

SEC. 12. Section 5019.23 of said code is amended to read:

5019.23. If the director deems it is for the best interests of the state he may, upon giving notice of his intention to the State Park Commission, negotiate a contract including terms and conditions when one or more of the following conditions exist:

(a) The bid process as prescribed in this article has failed to produce a best responsible bidder, or

(b) It constitutes an extension of an existing concession contract obtained through the process required by this article and such extended concession contract shall provide for substantial and additional concession facilities constructed at the sole expense of the concessioner, or

(c) Lands in the state park system administered by the department and lands under the legal control of the prospective concessioner are so situated that the concession is dependent upon the use of such public and private lands for the physical or economic success, or both, of the concession.

(d) Where a concession is desired for interpretive purposes in a unit of the state park system.

SEC. 13. Section 5019.25 of said code is amended to read:

5019.25. Every contract awarded pursuant to the bidding requirements of this article and those negotiated contracts pursuant to subdivisions (a), (b), and (c) of Section 5019.23, shall be submitted to the Attorney General for approval. Such a contract is not binding on the state until such approval by the Attorney General.

SEC. 14. Section 5019.26 of said code is amended to read:

5019.26. Within five days after the opening of bids as directed in Section 5019.20, the Auditor General shall be furnished such bid information as he may require.

The Auditor General shall ascertain, study and analyze all facts relating to such concession contracts, and report annually thereon to the Legislature to the end that the Legislature will be informed as to the adequacy of the contracts, financial statements and questionnaires in accordance with generally accepted accounting principles, and may include in his reports his recommendations for appropriate legislation.

The enforcing officer may affix a warning tag or notice to such nuisance. If, after notice of such violation is given to the packer or owner of such honey, or to the agent of such packer or owner, such person, so notified, refuses, or fails within a reasonable time, to recondition or remark the same so as to comply with all requirements of this chapter, such honey and its containers may be seized by the director or any enforcing officer and by order of the justice's, municipal or superior court of the county, city, or township within which the same may be, shall be condemned and destroyed, or released upon such conditions as the court,

in its discretion, may impose to insure that it will not be packed, delivered for shipment, shipped, transported, or sold in violation of this chapter. In case an agent is found in possession of such honey, notice of rejection or any order of the court concerning such honey may be served on such agent and need not be served on such packer or owner. It is unlawful to fail to comply with the directions of any officer relating to the disposition of such honey, or with any order of court respecting the same

SEC. 2. Section 843.2 of said code is amended to read:

843 2. When any markings are used or required to be used by this chapter, on any container of honey to identify the container or describe the contents thereof, such markings must be plainly and conspicuously marked, stamped, stenciled, printed, labeled or branded in the English language, unless the container is intended for and is shipped outside of the United States, in letters large enough to be readily discernible by any person, on the top, front, or side of any container. If the marking is on a placard used in display the placard must be placed or posted in such a position that there is no doubt as to the product it is to identify.

SEC. 3. Section 844 of said code is amended to read:

844. All comb honey shall be conspicuously marked, either on the section or on its individual container, with (1) the name and address of the producer or distributor; (2) the net weight of the comb section, stated in terms of whole ounces; and (3) one of the U.S. grades established for honey by the U.S. Department of Agriculture.

Comb honey which has crystallized shall be conspicuously marked with the word "crystallized" on a placard used in connection therewith having reference to such honey.

SEC. 4. Section 845.3 of said code is amended to read:

845.3. Whenever, upon petition of persons interested in the production or handling of honey, or upon his own motion the director finds that any provision of this chapter relating to standards for honey, standard units of net weight, type of container, color classifications, or markings required on any container is difficult or impossible of performance by reason of laws or orders promulgated by authority of the government of the United States, or the standard weights are not appro-

priate for the country of destination as to honey intended to be shipped outside the United States, or because of scarcity of materials, labor, or equipment used in the production or marketing of honey regulated by this chapter, or that any such provision of this chapter results in a serious waste of honey otherwise available for human consumption, or in serious waste of other resources or prevents the utilization of new technological developments to the serious disadvantage of California producers or handlers of honey, he may establish emergency standards for honey, standard units of weight, type of container, color classifications, or markings required on any container; and until expiration hereinafter provided, such emergency standards shall be in full force and effect notwithstanding any other provision of this chapter and all provisions of this chapter applying to standards which apply to such emergency standards in lieu of the standards set forth in this chapter.

All emergency standards established under the provisions of this section shall be reasonably calculated to effectuate the purposes of the standards which they supersede. No emergency standards shall be established which tend to lower any standards relating to carrying or keeping quality of honey.

No emergency standards shall be construed to modify in any respect any provision of this chapter designed to prevent deception or mislabeling, or designed to prevent the marketing of honey which is unwholesome or which would fail to give consumer satisfaction.

All emergency standards issued under the provisions of this section, before they may become effective, shall be published in one or more newspapers, trade papers, or industry publications deemed best adapted to give notice to interested persons, together with a notice of the time and place for hearing objections. Such hearing shall be not less than 10 nor more than 20 days from the date of publication. Notice of hearing shall be mailed not less than 10 days prior to the date of the hearing to all persons who theretofore have filed with the director a request for notice of such hearings. If at the hearing it shall be developed by competent testimony that additional time will be required to produce further essential evidence the director shall continue the hearing to a date which will allow sufficient time for the production of such evidence. At the hearing, interested parties shall be heard and a record kept of the proceedings for determination by the director of the facts shown at the hearing. The director, upon his findings on the facts shown at the hearing, shall rescind, modify or affirm the emergency standards as published; and such emergency standards shall take effect on the day appointed therefor, and shall continue in effect until suspended or rescinded by the director, or until the 91st day after adjournment of the next regular session of the Legislature, whichever first occurs.

Emergency standards may be amended, suspended, or rescinded upon notice and hearing in the same manner as provided for the establishment of such standards.

CHAPTER 710

An act to add Section 172.95 to the Penal Code, relating to alcoholic beverages, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 172.95 is added to the Penal Code, to read:

172.95. Sections 172 to 172.9, inclusive, do not apply to sales to wholesalers or retailers by licensed winegrowers, brandy manufacturers, beer manufacturers, distilled spirits manufacturers' agents, distilled spirits manufacturers, or wholesalers.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Prior to April 27, 1965, Sections 172 to 172.9, inclusive, were interpreted by the Department of Alcoholic Beverage Control as inapplicable to licensed winegrowers, brandy manufacturers, beer manufacturers, distilled spirits manufacturers, or wholesalers. On April 27, 1965, in Opinion No. 65166, the Attorney General concluded that these sections prohibit licensed distilled spirits manufacturers, operators of wineries and breweries, and alcoholic beverage wholesalers from selling, giving away, exposing or offering for sale various intoxicating beverages near certain institutions. As a consequence of this ruling at least one major building project has been suspended and many businesses and firms are affected. In order to eliminate these undue interpretations and detrimental economic effects, it is imperative that this act take effect immediately.

CHAPTER 711

An act to add Section 155.1 to the Revenue and Taxation Code and Section 43005 to the Government Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 155.1 is added to the Revenue and Taxation Code, to read:

155.1. Notwithstanding anything in this code to the contrary, the board of supervisors, of any county with a population of 20,000 or less as determined by the 1960 federal census may by ordinance provide that every person who at 12 o'clock meridian of the first Monday in March, 1964, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed by flood or storm conditions prior to December 31, 1964, in an area or region subsequently proclaimed by the Governor to be in a state of disaster, may, within 30 days after the effective date of this section make application for reassessment of such property and deliver to the assessor a written statement under oath, accompanied by a certificate of a disinterested competent person or authority, showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown therein to be in excess of five hundred dollars ($500). The assessor shall, on or before September 1, 1965, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer's liability for the tax shall be as follows:

(a) He shall remain liable for the first installment of the tax on property on the secured roll as computed on the original equalized assessment of the property.

(b) He shall be liable for a second installment of tax on property on the secured roll in an amount equal to the amount of a second installment of tax computed on the equalized reassessment of the property.

(c) With respect to property on the unsecured roll, he shall be liable only for one-half of the tax computed on the equalized reassessment of the property.

(d) If the taxpayer has already paid the second installment of tax on property on the secured roll as computed on the original equalized assessment, and that installment is greater than the second installment computed on the equalized reassessment, the difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

(e) If the taxpayer has already paid the tax on property on the unsecured roll as computed on the original equalized assessment, and the tax computed on that roll is greater than the tax computed on the equalized reassessment, the difference between one-half the tax as computed on the original assessment and one-half the tax computed on the reassessment shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division as an erroneously collected tax.

SEC. 2. Section 43005 is added to the Government Code, to read:

43005. Notwithstanding any other contrary provisions of law, the legislative body of a city in any county with a population of 20,000 or less as determined by the 1960 federal census may by ordinance provide that every person who at 12 o'clock meridian of the first Monday in March, 1964, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed by flood or storm conditions in an area or region subsequently proclaimed by the Governor to be in a state of disaster, may, within 30 days after the effective date of this section, make application for the reassessment of such property and deliver to the assessing official of the city a written statement under oath, accompanied by a certificate of a disinterested competent person or authority showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown thereon to be in excess of five hundred dollars ($500). The assessor shall, on or before September 1, 1965, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer's liability for the tax shall be as follows:

(a) He shall remain liable for the first installment of the tax on property on the secured roll as computed on the original equalized assessment of the property.

(b) He shall be liable for a second installment of tax on property on the secured roll in an amount equal to the amount of a second installment of tax computed on the equalized reassessment of the property.

(c) With respect to property on the unsecured roll, he shall be liable only for one-half of the tax computed on the equalized reassessment of the property.

(d) If the taxpayer has already paid the second installment of tax on property on the secured roll as computed on the original equalized assessment, and that installment is greater than the second installment computed on the equalized reassessment, the difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

(e) If the taxpayer has already paid the tax on property on the unsecured roll as computed on the original equalized assessment, and the tax computed on that roll is greater than the tax computed on the equalized reassessment, the difference between one-half the tax as computed on the original assessment and one-half the tax computed on the reassessment shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division as an erroneously collected tax.

This section shall apply to all cities, whether operating under a charter or the general laws of this state.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. Facts constituting such necessity are:

The recent disastrous and extensive floods in the northern part of the state in areas and regions subsequently proclaimed by the Governor to be in a state of disaster have destroyed and damaged property to such an extent that unless partial relief from taxation is given to the owners thereof, there is grave danger that they may be unable to pay the taxes currently levied thereon. Section 2.8 of Article XIII of the Constitution authorizes the Legislature to provide for appropriate relief from ad valorem taxation in such situations. In order that such relief may be afforded at the earliest possible time to the people in these stricken areas, it is necessary that this act go into immediate effect.

CHAPTER 712

An act to amend Section 7420.5 of the Business and Professions Code, relating to the practice of cosmetology.

Any commodity specified in this section, however, need not be weighed at the time of sale if at that time it is packed in a package or container upon which appears the net weight of the commodity therein. Any person, including but not limited to a manu-

The people of the State of California do enact as follows:

SECTION 1. Section 653 is added to the Harbors and Navigation Code, to read:

Any such rule or regulation shall be promulgated in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2, of the Government Code. SECTION 1. Section 658 of the Education Code is amended to read:

658. Upon the adoption of a resolution by the board of supervisors of the county consenting to the transfer of the functions specified in the sections set forth below in this section, the functions specified in such section shall be transferred from the county board of supervisors to the county board of education. The functions, including but not limited to the receipt of petition and reports and other papers, are those specified in Sections 912, 913, 1647, 1701, 1705, 1744, 1822.1, 2307, 2367, 2368, 2369, 2703, 2704, 2705, 2746, and 3303.

those required of the county under the county retirement law, and such amounts shall be legal charges against the county school service fund. The election authorized by this section shall be made no later than the date preceding the date upon which his status is changed in accordance with procedures to be established by the board of supervisors, which shall allow at least 30 days to make the election. The election once made may not be rescinded. An employee who does not elect to continue membership in the county system shall be deemed to have discontinued county employment for purposes of the county system at the close of the day preceding the date upon which his status changes.

SEC. 3. Section 20580 of the Government Code is amended to read:

20580. Every county superintendent of schools shall enter into a contract with the board for the inclusion in this system of: (a) all of the employees of the office of county superintendent whose compensation is paid from the county school service fund other than employees electing pursuant to Section 873.1 of the Education Code to continue in membership in a county system; and (b) all of the employees of school districts existing on July 1, 1949, or thereafter formed, within his jurisdiction, other than school districts which are contracting agencies or which maintain a district, joint district, or other local retirement system, in respect to service rendered in a status in which they are not eligible for membership in the State Teachers' Retirement System. The effective date of each such contract shall be not later than July 1, 1949. For the purposes of this part such school district employees shall be considered to be employees of the county superintendent of schools having jurisdiction over the school district by which they are employed and service to the district shall be considered as service to the county superintendent of schools

SEC. 4. Section 16653.5 is added to the Education Code, to read:

16653.5. Upon the transfer of duties and functions of the county board of supervisors to the county board of education, the county board of supervisors may provide by agreement with the county board of education that the county board of education will perform all or any portion of the duties and functions of the county under this article.

SEC. 5. Section 31469 of the Government Code is amended to read:

SEC. 8. This act is an urgency measure necessary for the preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Legislature has authorized the transfer, by mutual agreement, of certain duties, functions and responsibilities from a county board of supervisors to a county board of education, but in certain counties, the retirement rights, privileges and benefits of transferred employees will be seriously impaired unless corrective legislation is enacted. The transfer provisions are hampered by this problem and transfer cannot be effected at the beginning of the 1965–66 fiscal year unless these problems are effectively resolved.

CHAPTER 720

An act to amend Sections 760 and 760.5 of the Insurance Code, relating to unlawful rebates.

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 760 of the Insurance Code is amended to read:

760. As used in this section "personal or controlled insurance" means insurance covering an insurance agent, broker, or solicitor, or

(a) His spouse, his employer or his employer's spouse.

(b) Any person related to him or the persons mentioned in subdivision (a) within the second degree by blood or marriage.

(c) If his employer is a corporation, any person directly or indirectly owning or controlling a majority of the voting stock or controlling interest in such corporation.

(d) If his employer is a partnership or association, any person owning any interest in such partnership or association.

(e) If the agent or broker is a corporation, any person directly or indirectly owning or controlling a majority of the voting stock or controlling interest in the agent or broker and any corporation which is also similarly directly or indirectly controlled by the person who directly or indirectly controls the agent or broker.

(f) If the agent or broker is a corporation, any corporation making consolidated returns for United States income tax purposes with any corporation described in subdivision (e).

If premiums on personal or controlled insurance transacted by an insurance agent, broker, or solicitor payable in one year exceed the premiums on other insurance transacted by such licensee payable in the same year, the receipt of commissions upon the excess is an unlawful rebate.

Provided that during and after the sixth calendar year following the initial licensing of such agent, broker, or solicitor, in any manner as an agent, broker or solicitor, whether continuously licensed or not, if premiums on personal or controlled insurance transacted by him payable in any one such calendar year exceed 33⅓ percent of the premiums transacted by him payable in the same calendar year, the receipt of commissions upon the excess over such 33⅓ percent is an unlawful rebate. For the purposes of this paragraph, if the agent or broker be an organization the sixth calendar year shall be the first calendar year beginning five years or more after the initial licensing of the organization, or any predecessor thereof, as an agent or broker.

Provided further, that this section does not apply to an individual licensee who: (1) is licensed during all of such calendar year as a solicitor, or individually as an agent or

broker; (2) during such calendar year conducts an individual business, not being named to transact on any organization license nor owning any interest in any corporation or partnership transacting an insurance agency or brokerage business; (3) has been continuously licensed in some manner as an active agent, broker or solicitor for at least 25 years; and (4) is at least 65 years of age at the beginning of the calendar year.

Whenever an officer or director of a corporation acts as agent, broker, or solicitor in the transaction of insurance covering the corporation, he shall be conclusively presumed to have received the full commission on such contract while an employee of the corporation. Whenever the remuneration for services of an employee is decreased by the employer or is made unreasonably small in amount but the employee is permitted, as an insurance agent, broker, or solicitor, to transact personal or controlled insurance, it shall be conclusively presumed that such employee receives the full amount of commission on such personal or controlled insurance.

"Year" as used in this section means the calendar year. Suspension, revocation or denial of license for violation of this section may be ordered at any time within five years after the close of the year in which the violation occurred.

(d) If his employer is a partnership or association, any person owning any interest in such partnership or association.

(e) If the agent is a corporation, any person directly or indirectly owning or controlling a majority of the voting stock or controlling interest in the agent.

If commissions on personal or controlled insurance transacted by a life agent under his license as a life agent received in one year exceed the commissions received in that year on other insurance transacted by such licensee under his license as life agent, the receipt of commissions upon personal or controlled insurance in excess of those on such other insurance is an unlawful rebate.

Provided that during and after the sixth calendar year following the initial licensing of such life agent in any manner as a life agent, disability agent or life and disability agent, whether continuously licensed or not, if commissions on personal or controlled insurance transacted by him under any or all such licenses received in any such calendar year exceed

33⅓ percent of the commissions received in the same calendar year on other insurance transacted by him under any or all such licenses, the receipt of commissions upon personal or controlled insurance in excess of 33⅓ percent of those on such other insurance is an unlawful rebate. For the purposes of this paragraph, if the license be a joint firm license: The sixth calendar year as respects the firm shall be the first calendar year beginning five years or more after the initial licensing of the firm or any predecessor thereof as a joint firm licensee with any individual; the firm may be charged with a violation of this section separately based upon all joint firm licenses it may have held during the calendar year; and an individual named on one or more joint firm licenses may be charged with a violation of this section separately based upon all life licenses, individual and joint firm, he may have held during the calendar year.

Provided, further, that this section does not apply to an individual licensee who: (1) is licensed during all of such calendar year under one or more kinds of individual life licenses; (2) during all of such calendar year conducts an individual business, not being named in any joint firm license nor owning any interest in a corporation or partnership transacting business under any kind of life license; (3) has been continuously licensed in some manner as an active agent under some kind of life license for at least 25 years; and (4) is at least 65 years of age at the beginning of the calendar year.

Such resolution shall be filed with the board of supervisors of the county in which the district was organized and shall contain a description of the lands which the board of directors desires to have excluded from the district. Thereupon the board of supervisors shall set up a time for a hearing on such exclusion, which shall be the next regular meeting of the board after the full publication of the notice thereof hereinafter required, and shall cause the clerk of such board of supervisors to give notice of such hearing by publishing such notice once a week for at least two weeks, prior to the hearing, in some newspaper or newspapers of general circulation published in each of the counties in which any portion of such district is situated. If no newspaper be published in either of such counties then such notice shall be posted for the same length of time in at least three public places in a portion of the district situated within the county wherein no newspaper is published and be published as aforesaid in the remaining counties in which the district is situated. Such notice shall state the filing of the resolution, a description of the lands mentioned in the resolution, and, substantially, any other matter contained in the resolution, and the time of the hearing; and it shall notify all persons interested in, or who may be affected by, such a change in the boundaries of the district, to appear at the office of the board of supervisors at the time of the hearing, and show cause in writing, if any they have, why the change of the boundaries of the district, as proposed in the resolution, should not be made.

SEC. 3. Section 36.3 is added to said act, to read:

If, upon the hearing of any such exclusion, no evidence or proof in support thereof be introduced, or if the evidence fails to sustain such exclusion, or if the board of supervisors deem it not for the best interests of the district that the lands, mentioned in the resolution or some portion thereof, should be excluded from the district, the board shall order that such exclusion be denied as to such lands; but if the board deems it for the best interests of the district that the lands mentioned in the resolution be excluded from the district, and, if no person interested in the district show cause in writing why the lands, or some portion thereof, should not be excluded from the district, or if, having shown cause, withdraws the same, or upon the hearing fails to establish such objections as he may have made, then it shall be the duty of the board to, and it shall forthwith, make an order that the lands mentioned and described in the resolution, or some defined portion or portions thereof, as the board may deem proper, be excluded from the district pursuant to the resolution. CHAPTER 735

An act to amend Sections 18661 and 22458.1 of, and to add Sections 18661.1, 18661.2, 18661.3 and 22458.2 to, the Financial Code, relating to credit disability insurance.

[Approved by Governor June 17, 1965. Filed with Secretary of State June 18, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 18661 of the Financial Code is amended to read:

18661. An industrial loan company may provide and collect the costs for credit life insurance on the life of one or more of the borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with his or her consent, the form to be approved by the commissioner and in an amount not in excess of the amount of the indebtedness. The amount charged to the borrower for such insurance shall not exceed, in the case of credit life insurance, the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to Section 18661.1, in which case the amount charged shall not exceed the amount prescribed by such regulation, the amount provided in (1) following:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 (commencing with Section 779.1), Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such

different maximum as is fixed by the Commissioner of Insurance by a valid and effective regulation hereafter adopted.

An industrial loan company may collect the costs for insurance of tangible personal or real property offered as security for a loan, reasonably insured against loss for a reasonable term considering the circumstances of the loan, when the policy of insurance is made payable to the borrower or any member of his family, even though the customary mortgagee clause is attached, and if the insurance is sold at standard rates through duly licensed insurance agents except that if title insurance is obtained in connection with a loan, the costs for such insurance may only be collected if: (a) the loan is in an amount of at least one thousand dollars ($1,000) and is secured by the lien of a deed of trust or mortgage on real property which is the subject of such policy of title insurance; (b) the policy of title insurance is made payable to the lender or jointly to such lender and the borrower as their interests may appear; (c) the amount of such insurance does not exceed the amount of the loan; (d) such insurance is placed at standard rates through a title insurance company authorized to do business in the State of California; and (e) the provisions of the loan require payment in not less than 12 months. A policy of title insurance may not be required in connection with the renewal or extension of a loan with an unpaid principal balance of less than one thousand dollars ($1,000). Such costs as herein authorized are not included in computing the maximum charges which may be made under this division.

If life or disability insurance is provided pursuant to this section, and if the insured borrower dies or becomes disabled during the term of the loan contract, the insurance shall be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death, or all amounts which become due on the loan thereafter during the period of such disability, as the case may be, without any exception, reservation or limitation, subject, however, to the provisions of Section 18661.2. Any such life or disability insurance as is provided shall be in force as soon as the loan is made. A licensee shall not require credit life or disability insurance as a condition of making a loan

SEC. 2. Section 18661 1 is added to said code, to read:

18661.1. Each two years beginning in 1967, the commissioner shall, not later than 90 days after the date when licensees are required to file annual reports pursuant to Section 18610, compile and send to the Commissioner of Insurance the total dollar amount of all death and disability claims paid on insured borrowers together with data from which the amounts at risk may be calculated, the sum of the total charges collected by such licensees for such insurance, and data as to the actual costs to such licensees for providing and servicing such insurance (excluding any sums paid to or received from insurance companies) for each of the 12 months during each of the preceding years being reported upon. The Commissioner of In-

surance shall study the data so furnished by the Commissioner of Corporations together with any trend factors established by other California credit life and credit disability insurance experience and shall promulgate and establish a general regulation fixing the maximum which may be charged for such insurance by licensees hereunder having due regard to the relation of the total amount of death and disability claims paid to the amounts at risk during the same period, and a reasonable margin for contingencies and cost and compensation to licensees for providing and servicing such insurance, plus the premium taxes payable on the probable premiums to be charged by insurers, plus the probable, but not unreasonable, markup to be added by insurers to the risk cost. Any such changed maximum rate of premium or identifiable charge shall not affect any insurance then in force on borrowers. Any regulation under this section shall be adopted after a hearing and in accordance with Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2 of the Government Code.

SEC. 3. Section 18661.2 is added to said code, to read:

18661.2. Credit disability insurance written pursuant to Sections 18661 and 18661.1 shall not provide indemnity against the risk of a borrower becoming disabled for a period of less than 14 days. Such insurance may provide indemnity for any single period of continuous disability of 14 days or longer, after which the risk may become compensable. In no event shall any such credit disability insurance provide for retroactive coverage to an earlier date based upon such disability having continued for a period stated in the policy, or for any other reason. Credit disability insurance, if made available by a licensee, shall be available by the month as well as by the year, and the premium by the month shall not exceed a pro rata relationship to the annual premium. No such credit disability insurance shall be written for a period in excess of the term of the loan to which it is applicable.

SEC. 4. Section 18661.3 is added to said code, to read:

18661.3. In the event a licensee provides credit disability insurance pursuant to this division, the licensee shall also deliver an understandable written statement to the borrower detailing the conditions when the borrower will be entitled to make a claim under the insurance policy and the procedure to be followed in making such claim. This statement shall be first approved by the commissioner.

SEC. 5. Section 22458.1 of said code is amended to read:

22458.1. Credit life insurance on the life of a borrower and credit disability insurance shall not be deemed to be a collateral sale, purchase, or agreement within the terms of Sections 22004, 22456 or 22457 when such insurance is provided in accordance with the provisions of the Insurance Code and this section.

(a) A licensee may provide insurance on the life of one or more borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with

his or her consent, the form to be approved by the commissioner and in an amount not in excess of the amount of the indebtedness and may collect from the borrower an amount not in excess of that permitted by subdivision (d) of this section. If the loan is prepaid in full by cash, a new loan, refinancing or otherwise (except by said insurance) before the final installment date, the borrower shall receive a rebate of said amount computed in accordance with the method established in Section 22480 or in accordance with the formula approved by the Commissioner of Insurance pursuant to Section 779 14 of the Insurance Code, whichever would result in a greater rebate to the borrower. When charges for the loan are precomputed in accordance with Section 22480, any required rebate and any permitted deferment charge may be computed on the combined total of the precomputed charge and the life or credit disability insurance charge. Only one such amount may be collected in connection with any loan contract irrespective of the number of borrowers, and only one borrower need be insured. Such amount may be deducted from the principal of the loan. If such life or disability insurance is provided, and if the insured borrower dies or becomes disabled during the term of the loan contract, the insurance shall be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death, or all amounts which become due on the loan thereafter during the period of such disability, as the case may be, without any exception, reservation or limitation, subject, however, to the provisions of Section 22458.2. Any such life or disability insurance as is provided shall be in force as soon as the loan is made.

(b) No licensee shall decline new or existing insurance which meets or exceeds the standards set forth in this section, nor prevent any borrower from obtaining such insurance coverage from other sources. A licensee shall not require credit life or disability insurance as a condition of making a loan.

(c) If a borrower procures such insurance by or through a licensee, the statement required by Section 22473 shall disclose the cost thereof to the borrower, and the licensee shall deliver or cause to be delivered to the borrower a copy of the policy, certificate, or other evidence thereof, within a reasonable time. In the event a licensee provides credit disability insurance pursuant to this division, the licensee shall also deliver an understandable written statement to the borrower detailing the conditions when the borrower will be entitled to make a claim under the insurance policy and the procedure to be followed in making such claim This statement shall be first approved by the commissioner.

(d) The amount charged to the borrower for such insurance shall not exceed in the case of credit life insurance the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to sub-

division (e) of this section, in which case the amount charged shall not exceed the amount prescribed by such regulation, the amount provided in (1) following:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 of Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as shall have been fixed by the Commissioner of Insurance by a valid and effective regulation adopted on or after December 31, 1961 and applicable to all licensees under the Personal Property Broker Law.

(e) Each two years beginning in 1961, the commissioner shall, not later than 90 days after the date when licensees are required to file annual reports pursuant to Section 22408 compile and send to the Commissioner of Insurance the total dollar amount of all death and disability claims paid on insured borrowers together with data from which the amounts at risk may be calculated, the sum of the total charges collected by such licensees for such insurance and data as to the actual costs to such licensees for providing and servicing such insurance (excluding any sums paid to or received from insurance companies) for each of the 12 months during each of the preceding years being reported upon. The Commissioner of Insurance shall study the data so furnished by the Commissioner of Corporations together with any trend factors established by other California credit life and disability insurance experience and shall promulgate and establish a general regulation fixing the maximum which may be charged for such insurance by licensees hereunder having due regard to the relation of the total amount of death and disability claims paid to the amounts at risk during the same period, and a reasonable margin for contingencies and cost and compensation to licensees for providing and servicing such insurance, plus the premium taxes payable on the probable premiums to be charged by insurers, plus the probable, but not unreasonable, markup to be added by insurers to the risk cost. Any such changed maximum rate of premium or identifiable charge shall not affect any insurance then in force on borrowers. Any regulation under this section shall be adopted after a hearing and in accordance with Title 2, Division 3, Part 1, Chapter 4 of the Government Code.

SEC. 6. Section 22458.2 is added to said code, to read:

22458.2. Credit disability insurance written pursuant to Section 22458.1 shall not provide indemnity against the risk of a borrower becoming disabled for a period of less than 14 days. Such insurance may provide indemnity for any single period of continuous disability of 14 days or longer, after which the risk may become compensable. In no event shall any such credit disability insurance provide for retroactive cover-

age to an earlier date based upon such disability having continued for a period stated in the policy, or for any other reason. Credit disability insurance if made available by a licensee, shall be available by the month as well as by the year, and the premium by the month shall not exceed a pro rata relationship to the annual premium. No such credit disability insurance shall be written for a period in excess of the term of the loan to which it is applicable.

CHAPTER 736

An act to add Chapter 4 (commencing with Section 2740) to Part 2 of Division 1 of the Public Utilities Code, relating to the regulation of passenger air carriers.

[Approved by Governor June 17, 1965 Filed with Secretary of State June 18, 1965]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 (commencing with Section 2740) is added to Part 2 of Division 1 of the Public Utilities Code, to read:

CHAPTER 4. PASSENGER AIR CARRIERS

Article 1. General Provisions

2740. Unless the context otherwise requires, the definitions in Part 1 (commencing with Section 21001) of Division 9 shall govern the construction of this chapter.

2741. As used in this chapter, "passenger air carrier" means a person or corporation owning, controlling, operating, or managing aircraft as a common carrier of passengers for compensation wholly within this state, between terminal points including intermediate points if any.

2742. As used in this chapter, "commission" means the Public Utilities Commission.

2743. The provisions of this chapter do not apply to common carriers of passengers by aircraft who operate within this state pursuant to the provisions of a current certificate of public convenience and necessity issued by the federal government.

2744. This state recognizes the authority of the federal government to regulate and control safety factors in the operation of aircraft and the use of airspace.

Article 2. Certification and Regulation

2750. No passenger air carrier shall operate aircraft except in accordance with the provisions of this chapter.

2751. The commission may:

(a) Supervise and regulate every passenger air carrier in those matters affecting ticketing, flight reservations, passenger

baggage, advertising, and passenger convenience and comfort.

(b) Fix the rates, fares, charges, classifications, and rules of each such carrier.

(c) Regulate the accounts of each such carrier, and require the filing of annual and other reports and of other data by such carriers.

(d) By general order or otherwise, prescribe rules applicable to any and all passenger air carriers. The commission, in the exercise of the jurisdiction conferred upon it by the Constitution of this state and by this part, may make orders and prescribe rules affecting passenger air carriers, notwithstanding the provisions of any ordinance or permit of any district, city, city and county, or county, and in case of conflict between any such order or rule and any such ordinance or permit, the order or rule of the commission shall prevail.

2752. No passenger air carrier shall engage in any operation in this state without first having obtained from the commission a certificate of public convenience and necessity authorizing such operation.

2753. An applicant shall submit his written verified application to the commission. The application shall be in such form and contain such information and be accompanied by proof of service upon all passenger air carriers with which the proposed service is likely to compete and such other interested parties as the commission requires.

In awarding certificates of public convenience and necessity pursuant to Section 2752, the commission shall take into consideration, among other things, the business experience of the particular passenger air carrier in the field of air operations, the financial stability of the carrier, the insurance coverage of the carrier, the type of aircraft which the carrier would employ, proposed routes and minimum schedules to be established, whether the carrier could economically give adequate service to the communities involved, the need for the service, and any other factors which may affect the public interest.

2754. Each application for a certificate of public convenience and necessity made under the provisions of this part shall be accompanied by a fee of one hundred fifty dollars ($150).

The commission may, with or without hearing, issue the certificate as prayed for, or refuse to issue it but only after a hearing is held, or issue it only after a hearing is held for the partial exercise only of the privilege sought. The commission may attach to the exercise of the rights granted by the certificate such terms and conditions as, in its judgment, the public convenience and necessity require. Minimum schedules may be received and revised by the commission at intervals of not less than one year.

2755. A fee of one hundred fifty dollars ($150) shall be paid to the commission for filing each application to sell, mortgage, lease, assign, transfer, or otherwise encumber any certificate.

The commission may, with or without a hearing, approve the application or, after a hearing, refuse to approve it, and may approve it under such terms and conditions as, in its judgment, the public convenience and necessity require.

2756. Notwithstanding any other provision in this chapter, the commission shall issue a certificate of public convenience and necessity to any passenger air carrier actually operating in good faith and doing business between major airports as of January 1, 1965, without a hearing, if such carrier meets the conditions and requirements specified in this chapter, provided the application therefor shall have been filed with the commission on or before January 2, 1966. The commission may issue a temporary certificate of public convenience and necessity pending action on the application, and the passenger air carrier may operate until its application is either granted or denied by the commission.

2757. Without the express approval of the commission, no certificate of public convenience and necessity issued to one passenger air carrier under the provisions of this chapter shall be combined, united, or consolidated with another such certificate issued to or possessed by another such carrier, so as to permit through service between any point or points served by one carrier on the one hand, and any point or points served by another such carrier, on the other hand.

2758. Unless prohibited by the terms and conditions of any certificate that may be involved, any one passenger air carrier may establish through routes and joint rates, charges, and classifications between any and all points served by it under any and all certificates or operative rights issued to or possessed by it.

2759. The commission may at any time suspend the certificate of any passenger air carrier for failure to comply with the insurance regulations established pursuant to Section 2761 of this chapter. For any other good cause, the commission may at any time upon notice to the holder of any certificate and opportunity to be heard, suspend, revoke, alter, or amend any such certificate.

2760. When a complaint has been filed with the commission alleging that any aircraft is being operated without a certificate of public convenience and necessity, as required by this chapter, or when the commission has reason to believe that this chapter is being violated, the commission shall investigate such operations and may, after a hearing, make its order requiring the owner or operator of the aircraft to cease and desist from any operation in violation of this chapter. The commission shall enforce compliance with such order under the powers vested in the commission by law, including, but not limited to, the provisions of Chapter 2 (commencing with Section 301) of Part 1 of Division 1 of this code.

2761 The commission may, upon its own motion, or upon application of any interested party, and after hearing, require any passenger air carrier to procure and maintain insurance

in such amounts and upon such terms as the commission may determine.

2762 The commission shall have the power to suspend and enforce the suspension of certificates of public convenience and necessity, issued by the commission, upon a finding by any agency of the federal government that an air passenger carrier is operating in violation of any federal safety law or regulation.

2763. No passenger air carrier shall discontinue operations between any two or more terminals without authority of the commission, unless such operations are unprofitable. Unprofitable operations may be discontinued upon 30 days' notice to the commission, and to such other persons as the commission may require, unless within such 30-day period the commission, after hearing, makes a finding that such operation is not unprofitable and orders its continuance.

2764. Nothing contained in this chapter shall be construed as giving the commission authority to require the establishment of service from or to terminal or to intermediate points not specified in the passenger air carrier's certificate of public convenience and necessity unless the carrier makes application to establish such additional service.

2765. Nothing contained in this chapter is to be construed as affecting in any way the constitutional regulatory authority of the commission over the intrastate rates and charges of air carriers.

(b) Refunds under this section shall be made by the director from the Disability Fund if, within six months after the calendar year in which the wages in excess of the applicable

limitation are received, the employee makes a claim establishing his right to the refund. No interest shall be allowed or paid with respect to such refund. The director shall in accordance with authorized regulations determine the portion of the aggregate amount of such refunds made during any calendar year which is applicable to voluntary plans for which deductions were made under Section 3260, such determination to be based upon the relation during the preceding calendar year of the amount of wages subject to contributions to the Disability Fund to the amount of wages exempt from contributions to the Disability Fund under Section 3252. The director shall in accordance with authorized regulations prorate such aggregate amount among the applicable voluntary plans and shall assess and recover from the employer, or the insurer if the insurer has indemnified the employer with respect thereto, the amount so prorated. The provisions of Section 3265 in respect to assessment and recovery of amounts paid by the Disability Fund shall apply to the assessments under this section.

SEC. 6. Section 2653 of said code is amended to read:

2653. The maximum amount of benefits payable to an individual during any one disability benefit period shall be 26 times his weekly benefit amount, but in no case shall the total amount of such benefits payable be more than one-half the total wages paid to the individual during his base period. If the benefit is not a multiple of one dollar ($1) it shall be computed to the next higher multiple of one dollar ($1).

SEC. 7. Section 2655 of said code is amended to read:

2655. An individual's "weekly benefit amount" shall be the amount appearing in column B in the table set forth in this subdivision on the line of which in column A of such table there appears the wage bracket containing the amount of wages paid to such individual for employment by employers during the quarter of his disability base period in which such wages were the highest.

3260. An employer may, but need not, assume all or part of the cost of the plan, and may deduct from the wages of an employee covered by the plan for the purpose of providing the disability benefits specified in this part an amount not in excess of that which would be required by Section 984 if the employee were not covered by the plan. Any such deductions

from the wages of an employee remaining in the possession of the employer upon termination of the plan, as a result of plan contributions being in excess of plan costs, which are not disposed of in conformity with authorized regulations, shall be remitted to the Disability Fund. If an employer fails to remit any such deductions to the Disability Fund, the director shall assess the amount thereof against the employer. The provisions of Part 1 of this division with respect to the assessment and collection of contributions shall apply to assessments provided by this section, except that interest shall not accrue until 30 days after notice of assessment.

With respect to individuals covered by a voluntary plan on August 1st of the calendar year 1965, or on January 1st of any succeeding calendar year for which the limitation on taxable wages under Section 985 is increased or the tax rate under Section 984 is increased, the amount of the deduction on or after that date may be increased to a maximum of 1 percent or 1.1 percent, whichever percentage is in effect, of the limitation on taxable wages without any further consent of the individual or approval of the director, but only if such increase in the amount of the deduction is made immediately effective as of August 1, 1965 and, with respect to any calendar year after December 31, 1965, is made immediately effective as of January 1st of that particular year.

SEC. 9. Section 2 of Chapter 1547 of the Statutes of 1963 is amended to read:

2. The provisions of Section 3007 added to the Unemployment Insurance Code by Chapter 1547 of the Statutes of 1963 shall become inoperative on December 31, 1967.

SEC. 10. Section 2655 5 of said code is repealed.

SEC. 11. The provisions of Sections 940, 984, 985, 1088, 1110, 1129, and 1176 of the Unemployment Insurance Code as amended by Sections 1, 1.3, 1.5, 2, 3, 4, and 5 of this act shall be operative with respect to wages paid on and after August 1, 1965. The provisions of Sections 940, 984, 985, 1088, 1110, 1129, and 1176 of said code as in effect prior to the amendments made by this act shall continue to be applicable to wages paid prior to August 1, 1965.

SEC. 12. The provisions of Sections 2653 and 2655 of the Unemployment Insurance Code as amended by Sections 6 and 7 of this act shall be operative with respect to periods of disability commencing on and after August 1, 1965. The provisions of Sections 2653 and 2655 of said code as in effect prior to the amendments made by this act shall continue to be applicable with respect to periods of disability commencing prior to August 1, 1965.

SEC. 13. The repeal of Section 2655.5 of the Unemployment Insurance Code by Section 10 of this act shall become operative with respect to periods of disability commencing on and after August 1, 1965. The provisions of Section 2655.5 of said code as in effect prior to the repeal by this act shall

It is therefore essential that this act take effect immediately.

CHAPTER 746

An act to add Part 8.1 (commencing with Section 37800) to Division 13 of the Water Code, relating to the merger of the Westlands Water District and West Plains Water Storage District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1965. Filed with Secretary of State June 29, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Part 8.1 (commencing with Section 37800) is added to Division 13 of the Water Code, to read:

PART 8.1. WESTLANDS WATER DISTRICT MERGER

CHAPTER 1. GENERAL PROVISIONS

37800. This part shall be known and may be cited as the Westlands Water District Merger Law.

37801. The state and the people thereof have a primary and supreme interest in securing to the inhabitants and property owners within and adjacent to the federal service area of the San Luis unit of the Central Valley project now under construction by the United States the greatest possible use and conservation of the waters to be made available from said unit and the greatest use thereof to the area, thereby assuring that the greatest productivity of the largest possible area may be accomplished and safely carried on within reasonable limits of economy.

37802. Investigation having shown that conditions in and surrounding the federal service area of the San Luis unit of the Central Valley project are peculiar to that area, it is hereby declared that a general law cannot be made applicable thereto and that this part is therefore necessary for the proper distribution, use, and control of the natural supplies of water now available for said area and of the water to be made available from the San Luis unit of the Central Valley project, and for elimination of duplication of governmental authority, the securing of greater economy of administration, and the more efficient and effective utilization of ground water and imported water supplies.

37803. The Westlands Water District, situated in Fresno and Kings Counties, was formed, prior to the enactment of this part, and is operating under this division, primarily for irrigation purposes.

The West Plains Water Storage District, situated in Fresno and Kings Counties, was formed, prior to the enactment of this part, and is operating under the California Water Storage District Law, primarily for irrigation purposes.

37804. This part is enacted in part under the authority expressly granted in Section 13 of Article XI of the Constitution of the state.

37805. This part shall be given a liberal construction for the purpose of sustaining any and all proceedings taken hereunder.

37806. Nothing in this part shall impair or adversely affect any right of any bondholder or creditor of the water storage district or the California water district.

CHAPTER 2. THE MERGER

37820. The West Plains Water Storage District is, on the effective date of this section, hereby merged into the Westlands Water District.

37821. The surviving district comprises all land in the water district immediately following the merger plus inclusion, and less exclusions, of land thereafter made pursuant to law.

37822. The name of the surviving district is Westlands Water District.

37823. The surviving district is a public agency of the state.

37824. Upon the merger of the two districts, the water storage district for all purposes ceases to exist, and the offices of its directors and officers are terminated.

37825. Upon the merger, the directors and officers of the California water district then in office constitute the directors and officers of the surviving district.

37826. Upon the merger, the surviving district succeeds to all properties, rights, and contracts of each of the two districts and any funds to which it succeeds may be expended

and properly disposed of as provided by law for California water districts generally.

CHAPTER 3. OPERATION OF SURVIVING DISTRICT

37850. Except as in this part expressly provided, the surviving district shall in all respects be operated, managed, and governed, its directors and officers shall be elected or appointed, and its revenues shall be raised and expended as provided by law for California water districts generally.

37851. All actions and proceedings pending by or against the water storage district at the time of the merger may be prosecuted to final judgment for or against the water storage district or the surviving district may be substituted as a party.

37852. After the merger, no action or proceeding shall be brought for or against the water storage district or its directors or officers.

37853. All actions and proceedings commenced after the merger, either on account of the affairs of the water storage district or affairs of the California water district, shall be prosecuted by or against the surviving district.

37854. All outstanding bonded and other indebtedness of the water storage district and of the California water district at the time of the merger is hereby assumed by the surviving district, and all bondholders and creditors of the two districts may enforce their rights against the surviving district in like manner as might have been done against the water storage district or the California water district if the two districts had not been merged.

37855 The board of directors and officers of the surviving district shall perform all duties and functions of the board of directors and corresponding officers of the water storage district relating to the assessment, levy, and collection of assessments with respect to assessments levied but uncollected as of the date of the merger in the same manner and at the same times as is provided in the California Water Storage District Law, and all county officers and boards of supervisors shall likewise perform their functions and duties with relation to the assessment, levy, and collection of such assessments as is provided in the California Water Storage District Law.

37856. Lands which were within the Westlands Water District immediately prior to the merger shall, so long as said lands remain in the said district, have a prior right with respect to water to which said district was entitled under any contract with the United States in effect on the date of said merger over (1) lands added to the Westlands Water District as a result of the merger and (2) lands annexed to the said district subsequent to the merger.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

In order that the merger of the Westlands Water District and the West Plains Water Storage District may be effected at the earliest possible date, thereby enabling the proper and efficient distribution of urgently needed water supplies in the area affected, it is essential that this act go into immediate effect.

CHAPTER 747

An act to add Section 8651.5 to the Revenue and Taxation Code and to amend Sections 186.1, 186.3, 186.5, 186.7, 186.8, and 2156 of the Streets and Highways Code, relating to highways, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1965 Filed with Secretary of State June 29, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 186.1 of the Streets and Highways Code is amended to read:

186.1. Out of the money received in the State Highway Fund each month during the 1963–1964 fiscal year, commencing with the month of January, 1964, an amount equal to the net revenue derived in the preceding calendar month from one and four one-hundredths cent ($0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law shall be allocated by the commission for the period commencing January 1, 1964, and ending June 30, 1964, to be apportioned monthly by the department among counties and cities for use exclusively for county road and city street purposes, as provided in this section.

Out of the money available each year, commencing with the 1964–1965 fiscal year, in the State Highway Fund, an amount equal to the net revenue derived from one and four one-hundredths cent ($0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law shall be allocated by the commission, to be apportioned monthly by the department among counties and cities for use exclusively for county road and city street purposes, as provided in this section.

The amounts available under this section shall be allocated and apportioned, as follows:

(a) Four hundred dollars ($400) per month shall be allocated and apportioned to each city and city and county and eight hundred dollars ($800) per month shall be allocated and apportioned to each county and city and county.

(b) The balance shall be allocated and apportioned, as follows:

(1) A base sum shall be computed for each county by using the same proportions of fee-paid and exempt vehicles as are

established for purposes of apportionment of funds under subdivision (c) of Section 2104.

(2) For each county the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property for purposes of this computation shall be that most recently used for countywide tax levies as reported to the department by the State Board of Equalization.

(3) The difference between the base sum for each county and the amount apportioned to the county shall be allocated to the cities of that county in the proportion that the population of each city bears to the total population of all cities in the county. Populations used for determining expenditure of moneys under Section 194 are to be used for purposes of this section.

No apportionments shall be made to any city or county pursuant to this section unless it has adopted a resolution stating that it approves the imposition of the additional highway users taxes and fees pursuant to the act enacted at the 1963 Regular Session adding this section to provide revenues for such apportionments and that it desires such apportionments to be made to it and has transmitted a copy of such resolution to the department, nor shall any apportionment be made to any city or county which does not have a select system established in accordance with the provisions of Section 186 3. If all or a portion of the select system of a city or county shall by a change in the physical limits of such city or county be included within the boundaries of another city or county, such portion shall be considered to be a part of the select system of such other city or county. Any amounts which would otherwise have been apportioned to a city which does not so qualify for an apportionment shall be reapportioned to the remaining cities in the county in which such city is located or, if there are no eligible cities in the county, to the county. Any amounts which would otherwise have been apportioned to a county which does not so qualify for an apportionment shall be reapportioned to the eligible cities in such county or, if there are no eligible cities in the county, to other counties and cities pursuant to this section.

SEC. 2. Section 186.3 of said code is amended to read:

186 3. Funds allocated and apportioned pursuant to Section 186.1 shall be expended exclusively for acquisition of rights-of-way for and construction of routes on the select system of county roads and city streets for such county or city established as provided in this section.

Until modified as provided in the following paragraph, the select system for each county shall consist of the roads designated as primary roads or secondary collector roads, and for each city shall consist of the streets designated as major ar-

terials and collector streets, in the audited findings of the department as used in the preparation of the report made pursuant to Resolution Chapter No. 208 (Senate Concurrent Resolution No. 62) of the Statutes of 1959.

On or before October 1, 1964, each county and city eligible for allocation and apportionment of funds pursuant to Section 186.1 shall file a report and map or maps with the department indicating its select system of county roads or city streets, and thereafter each county and city may submit a supplemental report with map or maps recommending proposed additions or deletions to the system where such additions or deletions are warranted by changes brought about by annexations or changes in traffic or land-use patterns or by other causes acceptable to the California Highway Commission. Such submittals shall be reviewed and approved or modified by the commission and shall constitute the select system upon which funds may thereafter be expended.

Notwithstanding prior law, all modifications or revisions heretofore approved by the commission shall be effective upon the date of such approval.

SEC. 3. Section 186.5 of said code is amended to read:

186.5. During each fiscal year for which apportionments are expended pursuant to Section 186.3, the recipient of apportioned funds shall expend for construction and rights-of-way on its select system an additional amount, which additional amount shall be derived from sources other than federal highway funds or the State Highway Users Tax Fund or the State Highway Fund (the additional amounts hereby required shall hereinafter be referred to as "matching funds"), as follows:

(a) For the fiscal years 1963–64, 1964–65, 1965–66 and 1966–67, an amount equal to 50 percent of the apportionment expended pursuant to Section 186.3.

(b) For the fiscal year 1967–68, an amount equal to 66⅔ percent of such apportionment so expended.

(c) For the fiscal year 1968–69, an amount equal to 80 percent of such apportionment so expended.

(d) For the fiscal year 1969–70 and each fiscal year thereafter, an amount equal to such apportionment so expended.

Notwithstanding the above provisions, no matching funds shall be required with respect to apportionments received by the recipient pursuant to subdivision (a) of Section 186.1.

The recipient of apportioned funds shall report and certify to the department pursuant to Section 186.8 the amount of matching funds it has expended during the preceding fiscal year.

If the recipient of funds apportioned pursuant to Section 186.1 expends in any fiscal year more than the amount of matching funds required by this section, the excess matching fund expenditures may be carried forward as a credit toward matching funds required in the following 10 years.

Notwithstanding prior law, expenditures by a city or county made on or after September 20, 1963, pursuant to contracts

awarded prior to that date shall be eligible for matching credit to the extent that such expenditures meet the other criteria for matching funds prescribed in this section and Section 186.8.

In the event that any such recipient fails in any fiscal year to expend such matching funds as required by this section, the commission and the department shall withhold from future allocations and apportionments to such recipient the difference between the amount apportioned during said fiscal year and the amount which was properly matched from matching funds as required by this section. Amounts so withheld shall be available for allocation and apportionment among the counties and cities pursuant to Section 186.1.

When funds apportioned pursuant to Section 186.1 are utilized on joint or cooperative projects between cities or between a city or cities and a county, the agreement or resolution authorizing the use of such funds on such joint or cooperative projects shall designate the agency or agencies which shall provide the matching funds required by this section.

If an agreement authorized by Section 186.2 is in effect, the ultimate recipient of apportioned funds pursuant to such agreement shall provide the matching funds required by this section.

SEC. 4. Section 186.7 of said code is amended to read:

186.7. On or after September 20, 1963, the value of work performed, the value of right-of-way, and the funds expended on the select system of a county or city by public agencies other than counties and cities or by persons, as defined in this code, shall to the extent that the other criteria for matching funds prescribed in Sections 186.5 and 186.8 are met, be deemed to be expenditures made by the county or city.

SEC. 5. Section 186.8 of said code is amended to read:

186.8. Except as otherwise provided herein, projects on the select system utilizing funds allocated and apportioned under Section 186.1 and utilizing funds for matching as set forth in Section 186.5 shall be designed and constructed in accordance with the Engineering Standards and Instructions for County Roads and City Streets included in the report of the department on the California county road and city street deficiencies made pursuant to Senate Concurrent Resolution No. 62 (1959), Resolutions Chapter 208, Statutes of 1959. These standards may be revised by the department with concurrence of a majority of the advisory committee of city, county and other officials appointed by the Legislature in accordance with Section 2156. Upon a showing by a city, county, or city and county of adequate cause for deviating from the aforementioned standards on a particular project the department may authorize such deviation.

On or before the 1st day of October of each year each county, city, or city and county shall file with the department a report in a form prescribed by the department showing its expenditures of funds during the preceding fiscal year pursu-

ant to Sections 186.1 through 186.7 and Section 2105. Each report shall contain such detail concerning individual projects and sources of other funds that have been expended for construction or rights-of-way on the select system as may be prescribed by the department. Reports submitted by each city shall be certified by the city's fiscal officer, and reports submitted by each county shall be certified in accordance with provisions of Section 2151. The department may make such audits and such inspections of completed work or work in progress as it deems necessary to verify that the requirements of Sections 186.2 through 186.7, Section 195, Section 2105 and this section have been met. The department shall withhold funds from future apportionments under Section 186.1 in an amount equivalent to the value of any work which is found to be not in conformance with the requirements of said sections. Such funds withheld shall be released to the city or county upon a showing to the satisfaction of the department that the reasons for the withholding have been corrected. Upon the expiration of two years following a withholding of funds the amount withheld shall be returned to the fund from which it came, for reapportionment among the cities and counties in accordance with the statutes; provided, that through appeal to and approval of the California Highway Commission for good cause the aforementioned two-year period may be extended for an additional period of not to exceed two years. The department shall summarize the reports of the local agencies and the results of its audits and inspections in an annual report to the Legislature.

SEC. 6. Section 2156 of said code is amended to read:

2156. (a) On or before May 1, 1964, and on or before May 1st of each four years thereafter, every county and city shall transmit to the department a report setting forth in such detail as the department may require the following:

(1) The progress it has made in the construction or improvement of its road or street system.

(2) An estimate of its road or street needs for the next five years.

(3) A projected estimate of its road or street needs for the next 10 years.

(b) The department shall review and audit the information and estimates contained in the reports submitted by the counties and cities. The department shall combine all of such information and estimates in a report which shall be submitted to the Legislature at or prior to the 1965 regular session and each four years thereafter, through such interim committee or committees as may be designated by legislative resolution.

(c) At the 1963 Regular Session of the Legislature and each four years thereafter, the Speaker of the Assembly and the President pro Tempore of the Senate are requested jointly to appoint a committee of 14 members, to consist of officials of cities and counties and others interested in street, road and highway problems, to act in an advisory capacity to the depart-

ment, and the department is directed to cooperate and confer with the advisory committee so appointed. Each committee so appointed shall remain in existence until such time as a new advisory committee is appointed.

SEC. 7. Section 8651.5 is added to the Revenue and Taxation Code, to read:

8651.5. Notwithstanding the provisions of Section 8651, on or after January 1, 1966 the excise tax imposed upon liquefied petroleum gas shall be at the rate of six cents ($0.06) for each gallon of fuel used. All references in this code to Section 8651 shall be deemed, with respect to the rate imposed upon liquefied petroleum gas on or after January 1, 1966, to also refer to this section.

SEC. 8. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Reports that are now required by cities and counties are due within 60 days following the close of each fiscal year. The Legislature has determined that this due date should be extended until October 1 of each year. In order that this extension of time may be effective for this year, it is necessary that this act take immediate effect.

SECTION 1. Section 54927 is added to the Government Code, to read:

54927. Notwithstanding the provisions of Sections 54902, 54903 and 54903.1 of this code and Sections 1703 and 1704 of the Education Code, any annexation of a unified school district to a contiguous junior college district effected pursuant to the provisions of Article 9 (commencing with Section 25470) of Chapter 2 of Division 18.5 of the Education Code which was completed prior to February 1, 1965, shall be effective for assessment and taxation purposes if the statement and map or plat required by Sections 54900 and 54901 is filed by the district on or before the effective date of this section.

This act will permit junior college districts which annexed a unified school district prior to February 1, 1965, to levy taxes for fiscal year commencing on July 1, 1965. The people of the State of California do enact as follows:

815.1. All melons, except cantaloupes, casabas shipped intrastate, and watermelons, shall be packed in standard containers numbers 44H, 44I, 44J and 44K and closed or lidded.

As used in this section "closed" or "lidded" as applied to containers of melons means (1) in the case of fiberboard con-

tainers that the opening is completely covered, except for necessary ventilation openings, with material of similar quality and strength to the adjoining portion of the container and (2) in the case of nailed wooden, wirebound, or other containers, that 40 percent or more of the opening is covered with material similar to that used in the construction of the sides and bottom of said containers, securely attached to the top.

This section shall not apply to melons in a retail establishment in possession of a retailer for the purpose of resale directly to consumers; nor to melons sold by a producer regularly engaged in the production of melons directly to consumers on the premises where produced or at a retail stand operated by such producer near the point of production, which in no case shall be outside of the county in which the melons were produced. As used in this section "consumer" means a person who buys melons for use as food and not for resale.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to avoid unnecessary waste of casaba melons and their containers during the 1965 marketing season it is necessary that this act be in effect immediately.

rowing of money in anticipation of taxes, revenues or other income of such body, and all instruments payable from revenues or special funds of such public bodies, and all instruments funding or refunding any thereof or any indebtedness.

Every such public body shall have all the rights, powers, and privileges, and be subject to all the duties and obligations of such a public body regularly formed pursuant to law.

This shall include all acts and proceedings of the governing board of such public body and of any person, public officer, board or agency heretofore done or taken upon the question of the authorization, issuance, sale, or exchange of such bonds.

All bonds of any public body heretofore issued shall be, in the form and manner in which issued and delivered, the legal, valid and binding obligations of the public body. All such bonds heretofore authorized to be issued and hereafter issued and delivered in accordance with such authorization shall be the legal, valid and binding obligations of the public body. Whenever an election has heretofore been called for the purpose of submitting to the voters of any public body the question of issuing bonds for any public purpose, such bonds, if hereafter authorized by the required vote and in accordance with the proceedings heretofore taken, and issued and delivered in accordance with such authorization, shall be the legal, valid and binding obligations of the public body.

SEC. 6. (a) The foregoing provisions of this act shall operate to supply such legislative authorization as may be neces-

sary to validate any such acts and proceedings heretofore taken which the Legislature could have supplied or provided for in the law under which such acts or proceedings were taken.

(b) The foregoing provisions of this act shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions.

(c) The foregoing provisions of this act shall not operate to confirm, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal proceeding now pending and undetermined or which may be pending or undetermined during the period of 30 days from and after the effective date of this act, and shall not operate to confirm, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void or ineffective.

This section shall not extend the period in which any action may be brought beyond the period in which it would be barred by any presently existing valid statute of limitations.

SEC. 8. Nothing contained in this act shall be construed to render the creation of any city or district, or any change in the boundaries of any city or district, effective for purposes of assessment or taxation unless the statement, together with the map or plat, required to be filed under Sections 54900 to 54904, inclusive, of the Government Code, is filed within the time and substantially in the manner required by said sections.

SEC. 11. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and

shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the state require the orderly and unhampered functioning of public bodies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of public bodies, and upon the validity of acts, proceedings, and bonds of public bodies, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the state can be afforded the protection of the police, fire, safety, sanitary, and other regulations and protections provided by public bodies;

(2) Public works and construction by public bodies can be commenced and continued without delay or restriction, to provide sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety, and immediately needed to provide for an increased population;

(3) Public bodies can issue and sell bonds heretofore authorized for the purpose of providing sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some public body or in the authorization of such bonds, which defects will be cured by this act.

CHAPTER 753

An act to add Chapter 11 to Part 1, Division 2, Title 5 of the Government Code, relating to the antipoverty program, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1965. Filed with Secretary of State June 29, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 11, consisting of Section 54965, is hereby added to Part 1, Division 2, Title 5 of the Government Code, to read:

CHAPTER 11. ANTIPOVERTY PROGRAM, PARTICIPATION

54965. The legislative body may, within the powers otherwise conferred by law upon the special district, do and perform

all acts necessary to enable the special district to participate in the "Economic Opportunity Act of 1964" (P.L. 88-452; 78 Stat. 508), including the authorization of the expenditure by the special district of whatever funds that may be required by the federal government as a condition to such participation.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Congress of the United States has enacted the "Economic Opportunity Act of 1964" (P.L. 88-452; 78 Stat. 508) in an effort to alleviate the effects of poverty in our country. The "Economic Opportunity Act of 1964," among other things, provides for cooperative action between federal and state agencies. In order that special districts will be empowered as soon as possible to participate in the "Economic Opportunity Act of 1964," it is necessary that this provision authorizing them to so participate take immediate effect.

CHAPTER 754

An act to add Section 54925 to the Government Code and to amend Section 37201 of the Water Code, relating to water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1965. Filed with Secretary of State June 29, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 54925 is added to the Government Code, to read:

54925. Notwithstanding the provisions of Sections 54902 and 54903 of this code, any creation of a California water district organized pursuant to the California Water District Law (Division 13 (commencing with Section 34000) of the Water Code) or a county water district organized pursuant to the County Water District Law (Division 12 (commencing with Section 30000) of the Water Code) which was completed between February 16, 1965, and March 10, 1965, both dates inclusive, shall be effective for assessment and taxation purposes if the statement and map or plat required by Section 54900 were filed by the district on or before April 1, 1965.

SEC. 2. Section 37201 of the Water Code is amended to read:

37201. Notwithstanding the provisions of Section 37206, any California water district organized pursuant to this division, which organization was completed prior to the effective date of the act amending this section enacted at the 1965 Regu-

lar Session of the Legislature, shall have until the first day of May, 1965, in which to adopt a resolution and file with the auditor, assessor, tax collector and treasurer of the county within which the district is located the resolution provided for by Section 37203 of this code.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

Recent unforeseen developments in the efforts to solve the problems of the importation of sufficient waters to the southern San Joaquin Valley have made the formation of certain water districts imperative. The proponents of these districts have used all reasonable diligence to complete the formation thereof prior to January 1, 1965, but the various time limits imposed upon the formation proceedings by the provisions of the California Water District Law, the County Water District Law and the local agency formation commission law have prevented them from so doing until a short time after said date. Tax revenue is essential to the proper functioning of the districts and it is therefore necessary to extend the date prescribed by Section 54902 in order to allow these districts to obtain such revenue for the tax year 1965–66. This urgency is further emphasized by the fact that these water districts have been formed at this time in order to enable them to contract for water from the Feather River project prior to the deadline date for such contracts, to wit: July 1, 1965.

CHAPTER 755

An act to amend Sections 45556, 45700, 48227, 48230, and 48250 of, and to add Article 5 (commencing with Section 42290) to Chapter 1, Part 5, Division 14 of, the Water Code, relating to water storage districts and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1965. Filed with Secretary of State June 29, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 42290) is added to Chapter 1, Part 5, Division 14 of the Water Code, to read:

Article 5. Improvement Districts

42290. At any time before the board shall have filed its report with the commission with respect to a project, or, if the board has divided the project into units of construction pursuant to Section 42225, at any time before the board has trans-

mitted to the commission its resolution determining upon the construction of a unit pursuant to Section 42226, the board may by resolution determine that it is likely that such project or unit will benefit only a portion of the district. If the board so determines, the board shall provide for a hearing on the questions whether the project or unit will benefit only a portion of the district and whether an improvement district consisting of that portion should be established.

42291. The board shall fix the time and place for any such hearing, and shall cause notice of such hearing, setting forth the purpose, time and place thereof, to be given by publication once a week for two successive weeks. Such publication shall be made in a newspaper of general circulation, printed and published in each affected county, and, if in any such county there is no such newspaper, in a newspaper printed and published in an adjoining county.

42292. At the time and place fixed for the hearing, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. Any person interested, including any person owning land within the district, may appear at the hearing and present any matters material to the questions which are the subject of the hearing.

42293. At the conclusion of the hearing, the board shall by resolution determine whether the whole or only a portion of the district will be benefited by the project or unit. If the board determines that only a portion of the district will be benefited by the project or unit, the board may by resolution establish an improvement district consisting of that portion of the district. The resolution shall describe the territory within the improvement district in a manner sufficient for identification, and shall designate the improvement district by a distinctive name or number. In accordance with the resolution, said portion of the district shall thereupon constitute and be known as "_____ Improvement District of _____ Water Storage District" or as "Improvement District No. _____ of _____ Water Storage District."

42294. The determination of the board establishing an improvement district shall be final and conclusive.

42295. After the establishment of an improvement district within a district pursuant to this article:

(a) All proceedings with respect to the project or unit for which the improvement district was established shall apply only to the improvement district.

(b) Any election with respect to such project or unit or bonds therefor or warrants relating thereto, held pursuant to Chapter 2 (commencing with Section 42300) of this part, Chapter 3 (commencing with Section 42500) of this part, Part 7 (commencing with Section 44400) of this division or Part 8 (commencing with Section 45100) of this division, shall be held only within the improvement district.

(c) Any assessment with respect to such project or unit shall be levied only upon the land within the improvement district.

(d) Any bonds or warrants issued with respect to such project or unit shall be bonds or warrants of the improvement district, secured by an assessment levied upon the land within the improvement district only, and that fact shall be indicated on the face of each such bond or warrant.

42296. Any improvement district shall be governed, and its business shall be conducted, by the board and the officers of the district. An improvement district shall not have its own officers or employees.

SEC. 2. Section 45556 of said code is amended to read:

45556. The bonds shall be payable within 40 years from their date, and not less than 10 percent of the aggregate face value of the bonds issued shall be payable within 15 years from their date.

SEC. 3. Section 45700 of said code is amended to read:

45700. If any district having authorized the issuance of a series of bonds shall issue an additional series of bonds based on another assessment, the dates of maturity of the additional series of bonds shall be such that the latest maturity thereof shall not exceed 50 years from their date.

SEC. 4. Section 48227 of said code is amended to read:

48227. The board shall order the boundaries of the district changed so as to include the land described in the inclusion petition, or such portion thereof as the board has found it feasible to serve by the system of works of the district and for the best interests of the district to include, only if:

(a) No protest against such change is made to the board in writing by the board, or a protest has been made and withdrawn.

(b) No protest against such change is made by holders of title to land pursuant to Section 48250, or such protest has been made and enough signatures withdrawn to render it insufficient.

SEC. 5. Section 48230 of said code is amended to read:

48230. If the board determines that it is not feasible and practicable to serve any of the land described in the petition or that it is not for the best interest of the district that any of the land be included, it shall make an order denying the petition.

SEC. 6. Section 48250 of said code is amended to read:

48250. If upon the inclusion hearing the board concludes that it is feasible to serve the land, or a portion thereof, described in the inclusion petition, and that it is for the best interest of the district to include the land, or a portion thereof, within the district, it shall make a finding in writing describing the boundaries of the land which it proposes to include, if a protest signed by not less than 3 percent of the holders of title to not less than 3 percent in value of the land within the district according to the last equalized county tax assess-

ment roll has been presented to the board, and after deducting all withdrawals is still signed by 3 percent of the holders of title to land within the district.

SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many agricultural areas are depressed because of lack of water, causing unemployment with resulting burdens on welfare facilities of the state and affecting the health and safety of such unemployed persons. In order to facilitate the financing of projects of water storage districts and to accelerate the completion of such projects and thereby make provision for needed water for agriculture in such districts, it is essential that this act go into immediate effect.

CHAPTER 756

An act to amend Section 39033 of the Water Code, relating to water storage districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 29, 1965. Filed with Secretary of State June 29, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 39033 of the Water Code is amended to read:

39033. "Other district" means any district or other public agency formed under any law of the state.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Several California water storage districts contemplate entering into water supply contracts with certain public agencies which must be negotiated, executed and validated at the earliest possible date in order that final engineering, planning and construction of projects may be commenced in such time as will enable such districts to accept water when the same is first available. In order to avoid legal obstacles arising from the present ambiguity of the law, it is necessary to clarify the authority of such districts to enter into contracts providing for the supply of water. It is, therefore, essential that the act go into immediate effect in order that such contracts may be negotiated, executed and validated in the immediate future.

SEC. 3.6. All amounts accruing to the California Water Fund pursuant to Section 6816 of the Public Resources Code and Chapter 138 of the Statutes of 1964, First Extraordinary Session, during the 1965–66 fiscal year, in excess of eleven million dollars ($11,000,000), are appropriated for the purpose of making all or part of the transfers required by subdivision (b) of Section 17301 of the Education Code, subject to the limitations as to amount contained in said subdivision (b). To the extent money is made available from the California Water Fund to the State School Fund pursuant to this section, the amount transferred from the General Fund to the State School Fund pursuant to subdivision (b) of Section 17301 of the Education Code shall be reduced thereby.

SEC. 4.5. Subject to the provisions of this act, any appropriation for expenditure under this act during the 1965–66 fiscal year, may, with the approval of the Department of Finance, be encumbered prior to July 1, 1965, by incurring obligations to be paid after June 30, 1965.

SEC. 5. Because it is necessary to insure the availability of adequate equipment for physical facilities constructed for the operation of custodial, mental health, educational, administrative, military, and other agencies of the state government; because uncertainties as to completion dates make precise advance planning of equipment purchases impossible; and since delivery of some kinds of equipment cannot be made for six months or longer from the date of ordering; state agencies are therefore authorized to incur obligations, to be met during the 1966–67 fiscal year, for the purchase of equipment related to capital outlay projects for which the Legislature has appropriated construction funds; provided, that no obligation shall be incurred under the provisions of this section without the approval of the Department of Finance and the State Public Works Board. Purchase orders issued and contracts entered into under the provisions of this section shall not exceed a total of one million dollars ($1,000,000) in estimated cost.

SEC. 6. Any project, except minor projects, included in any appropriation made herein for capital outlay shall be subject to the provisions of Section 15790 of the Government Code.

SEC. 7. Any acquisition of land or other real property included in any appropriation made herein for capital outlay except appropriations from the California Water Fund shall be subject to the provisions of the Property Acquisition Law.

Nothing contained in this section shall be construed to limit or control the Regents of the University of California in the expenditure of funds appropriated for acquisition of land or other real property for the use, development or enlargement of the University of California.

All property acquisitions, notwithstanding other exemptions of this section, shall be reported to the State Public Works Board.

SEC. 8 No money appropriated herein in any item for capital outlay may be expended by any state agency except amounts for acquisition of land or other real property, amount needed for equipment, preliminary surveys, studies and planning and minor projects until the State Public Works Board and the Department of Finance have approved preliminary plans for the project to be financed from such time of appropriation for capital outlay; provided further, no major project for which appropriation is made hereunder regarding which the Director of Finance or his authorized representative requests review of working plans shall be put out to bid until the working plans therefor have been approved by the Department of Finance; provided further, that no money appropriated herein may be spent for working drawings for any project as to which there has been made substantial change or changes from the preliminary plans as approved by the State Public Works Board and the Department of Finance unless there has first been obtained the approval of the Department of Finance to make such change or changes; provided further, that no money appropriated herein may be spent for equipment until prior approval for purchase of such equipment shall have been given by the Department of Finance

Nothing in this section shall be construed to limit or control the Regents of the University of California in the expenditure of funds appropriated for capital outlay for the use, development or enlargement of the University of California.

The Regents of the University of California shall report to the State Public Works Board the expenditures for capital outlay, except minor projects, from appropriations contained in this act.

SEC. 8.5. In making appropriations to state agencies which are eligible for the various federal assistance programs, it is the intent and understanding of the Legislature that applications made by such agencies for federal funds under any such programs shall be for the maximum amount allowable under federal law.

SEC. 9. Notwithstanding any other provision of law, the portion of each sum of money heretofore appropriated or allocated, hereby appropriated or hereafter allocated to the Regents of the University of California for capital outlay which remains after the purpose for which each said sum was appropriated or allocated has been accomplished, and which have been or hereafter are withdrawn from the State Treasury by the Regents of the University of California pursuant to the provisions of Section 23201 of the Education Code, together with increments, by way of interest or otherwise, on any such appropriation or allocations, shall be used and expended by the Regents of the University of California in executing and furthering the building and improvement program of the University of California; provided, that no such sums shall be allocated by the Regents of the University of California to projects not otherwise authorized by legislative appropriation

or by allocation by the State Public Works Board. Such sums shall be available for expenditure in payment of any encumbrances heretofore or hereafter incurred without regard to fiscal years; provided, however, that any unencumbered balances existing as of the date on which each such appropriation or allocation otherwise would lapse, shall then revert.

A report shall be submitted to the State Public Works Board of any allocations made by the Regents of the University of California pursuant to the provisions of this section.

SEC. 10. Notwithstanding any other provision of law, the unencumbered balances, as of June 30, 1965, of the appropriations created by Chapter 143, Statutes of 1964, First Extraordinary Session; Chapter 148, Statutes of 1964, First Extraordinary Session; Chapter 1690, Statutes of 1963; Chapter 2, Statutes of 1962, Third Extraordinary Session; Chapter 21, Statutes of 1962, First Extraordinary Session; Chapter 22, Statutes of 1962, First Extraordinary Session; Chapter 50, Statutes of 1960, First Extraordinary Session; Chapter 75, Statutes of 1960, First Extraordinary Session; Chapter 88, Statutes of 1958, First Extraordinary Session; and Chapter 103, Statutes of 1958, First Extraordinary Session shall revert to the unappropriated balance of the General Fund.

As of July 1, 1965, the amounts that revert as of June 30, 1965 for the above cited appropriations are reappropriated for the same purpose and shall be available for encumbrance until June 30, 1966.

SEC. 18. As of June 30, 1965, the unencumbered balance of the appropriation made by the provisions of Section 16409 of the Government Code shall revert to the unappropriated balance of the General Fund. In addition to the amounts that may be transferred on order of the Director of Finance to and in augmentation of the appropriation made by Section 16409 of the Government Code, $1,000,000 is appropriated by Item 343 of this act for augmentation of and in accordance with the provisions of Section 16409 of the Government Code.

SEC. 18.5. Notwithstanding any other provisions of this act, the Director of Finance may from time to time direct that any appropriation made in Section 2.3 of this act shall be payable from the General Fund instead of the State Construction Program Fund.

SEC. 19. On or before September 30, 1965, the State Controller shall transfer to the General Fund any amount of surplus and working capital advances in the Service Revolving Fund for the Office of State Printing which totals in excess of $5,095,044 as of June 30, 1965.

No machinery or equipment shall be purchased by or for the Office of State Printing except as provided for in this act and for emergency replacements which shall be reported to the Joint Legislative Budget Committee quarterly.

No augmentation shall be made to the capital of the Service Revolving Fund for the benefit of the Office of State Printing during the 1965–66 fiscal year except as specifically provided for in this act.

Any proposed capital addition to the Service Revolving Fund for the benefit of the Office of State Printing for the 1966–67 fiscal year shall be included in the proposed budget for that fiscal year as an appropriation out of the General Fund.

SEC. 19.1. The unencumbered balance of the Department of Employment Contingent Fund, which at any time during the 1965–66 fiscal year exceeds $1,000,000, is hereby appropriated for transfer to the General Fund; such transfer to be made from time to time by the State Controller.

SEC. 19.5. The special reserve account in the General Fund established by Section 19.5 of the Budget Act of 1963 and Section 19.5 of the Budget Act of 1964, is abolished, and the unencumbered balance accumulated under both of those budget acts in that account as of July 1, 1965, is appropriated for the purpose of making all or part of the transfers required by subdivision (b) of Section 17301 of the Education Code, subject to the limitations as to amount contained in subdivision (b). To the extent that money is made available from the account pursuant to this section, the amount otherwise transferable from the General Fund to the State School Fund pursuant to subdivision (b) of Section 17301 of the Education Code shall be reduced thereby.

SEC. 19.6. Since the State Scholarship Commission must announce in the spring of 1966, those individuals to whom state scholarship awards will be granted for the following fall semester of 1966 and, since the Budget Act of 1966 may not be enacted in adequate time, the State Scholarship Commission is authorized to incur scholarship obligations for 5,120 awards in an amount not to exceed $4,000,000 during the 1965–66 fiscal year for awards to be in effect during the 1966–67 fiscal year.

The intent of this authorization is to prevent the occurrence of there being insufficient funds available to support state scholarships, the recipients of which have already been notified of their award. It is necessary that the State Scholarship Commission announce awards in the spring of each year, often prior to the time the Budget Bill containing the appropriation for this purpose is enacted, in order that students receiving the scholarship awards may have sufficient time to plan for entering or returning to school the following fall.

SEC. 20. No money appropriated by this act shall be used to pay the salary of any authorized state position, which position was vacant and had been vacant or continuously unfilled during the period between October 1, 1964, and July 1, 1965, except with the specific approval of the Department of Finance, subsequent to July 1, 1965

The Department of Finance, not later than 30 days prior to the convening of the 1966 Regular Session of the Legislature, shall furnish the Joint Legislative Budget Committee a report of all positions as of July 1, 1965, which were vacant or continuously unfilled during the period between October 1, 1964, and July 1, 1965, and a report of all authorizations to fill vacant positions and all positions abolished pursuant to this section.

SEC. 21. Since it is imperative for the university and the state colleges to recruit adequate and competent faculty necessary to maintain the current academic standards and the faculty-student ratios and to meet the immediately foreseeable needs occasioned by the rapid growth of enrollment during the years just ahead, and since, by the nature of their duties, faculty members must as a rule be employed on an annual basis, therefore, the University of California and the California State Colleges are authorized to incure salary obligations in an amount not to exceed $1,500,000 for the university and a total of $1,500,000 for the state colleges by appointment of additional academic staff members during the 1965–66 fiscal year for services beginning in the 1966–67 fiscal year.

The intent of this authorization is to assist in maintaining current academic standards and faculty-student ratios in relationship to expanding student enrollments.

SEC. 21.1. The Trustees of the California State Colleges may authorize the California State Colleges to hire all the instructional faculty positions authorized in the 1965–66 Governor's Budget. In the event that such hiring makes it impossible for any state college to meet its budgeted salary savings, the Trustees of the California State Colleges may request, and the Director of Finance may authorize, the allocation of funds from the Emergency Fund in such amounts as are necessary to enable the colleges to offset the shortage created by this authorization. This authorization applies only to those full-time instructional faculty positions actually engaged in classroom instruction None of the positions or funds subject to the provisions of this section may be utilized for purposes other than those indicated in the Governor's Budget.

SEC. 22. No purchase order for acquisition or replacement of motor vehicles shall be issued against any appropriation made herein until the Department of Finance has investigated and established the necessity therefor.

All passenger-type motor vehicles purchased from any appropriation made by this act for the use of state employees and officers, except constitutional officers, shall be of the light class, as defined by the State Board of Control, unless excepted

by the Director of General Services on the basis of unusual requirements, such as use by the California Highway Patrol, which would justify the need for an automobile of a heavier class.

SEC. 23. All passenger-type motor vehicles purchased either from any appropriation made by this act or from any other appropriation available therefor for the use of the Department of Public Works, except for use of officers excepted in Section 22 of this act, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements which would justify the need for an automobile of a heavier class.

SEC. 24. None of the moneys appropriated by this act or for an expenditure which is supplemented from money appropriated by this act shall be used to purchase furnishings for any house or apartment of three or more rooms other than a dormitory which is rented to a state employee except for a superintendent of an institution, warden of a prison, or physicians. This provision shall not apply to the purchase of refrigerators, heaters, air-conditioning equipment, stoves, linoleum, or equipment normally furnished in construction of the house as may be determined by the State Board of Control. Any such funds that are appropriated by this act for this purpose shall be held intact and be reverted to the fund from which they were appropriated. It is the intent of the Legislature that no money shall be appropriated henceforth for the purpose of house furnishings. Such furnishings are not to be provided by the state nor shall any money be paid from this appropriation for their replacement, repair or otherwise except in connection with the disposal of the same.

SEC. 24.5. No money appropriated by this act shall be available for expenditure for any of the purposes specified in Assembly Bill No. 2380 unless such bill is enacted by the Legislature at the 1965 Regular Session of the Legislature.

SEC. 25. No moneys appropriated by this act shall be used, either directly or by supplementing any other appropriation, to purchase rugs or carpets for any state office except for offices used by elective officers and other department heads. The Director of Finance shall furnish a detailed report annually to the Joint Legislative Budget Committee of all rugs or carpets purchased for state offices under this section.

SEC. 26. Whenever herein an appropriation is made for support it shall include salaries and all other proper expenses, including repairs and equipment, incurred in connection with the institution, department, board, bureau, commission, officer, employee, or other agency, for which such appropriation is made.

Whenever herein an appropriation is made for capital outlay, it shall include acquisition of land or other real property, major construction, improvements, equipment, designs, working plans, specifications, repairs and equipment necessary in connection with a construction or improvement project.

Whenever herein any item of appropriation contains provision for acquisition of land or other real property, it shall include all necessary expenses in connection with the acquisition of such property.

Whenever herein an appropriation is made in accordance with a schedule set forth after such appropriation, the expenditures from such item for each category or project included in the schedule shall be limited to the amount specified for such category or project, except as otherwise provided in this act. Each such schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to such schedules "category" or "project" means a class of expenditures such as, but not limited to:

(a) "Personal services" which shall include all expenditures for payment of officers and employees of the state; including salaries and wages, the state's contributions to the Employees' Retirement Fund, the Teachers' Retirement Fund, the Old Age and Survivors' Insurance Revolving Fund, the State Employees' Contingency Reserve Fund, and the state's cost of a basic health benefits plan; but do not include compensation of independent contractors rendering personal services to the state under contract, or payments into a private fund as authorized by Section 18853.5 of the Government Code;

(b) "Operating expenses and equipment" which shall include all expenditures for purchase of materials, supplies, equipment, services (other than services of state officers and employees), and all other proper expenses;

(c) "Construct" or "construction" when used in connection with a capital outlay project shall include all such related things as fixtures, installed equipment, and auxiliary facilities;

(d) "Working drawings" are defined as a complete set of plans and specifications showing and describing all phases of a project, architectural, structural, mechanical, electrical, civil engineering, and landscaping systems to the degree necessary for the purposes of accurate bidding by contractors and for the use of artisans in constructing the project. All necessary professional fees and administrative service costs are included in the preparation of such drawings.

(e) "Minor projects" include construction, improvements, repairs and equipment projects not specifically set forth in the schedule.

For the purpose of further interpreting the meaning of the words, terms and phrases used in such schedules, reference is hereby made to those documents entitled, "State of California Support and Local Assistance budget for the fiscal year July 1, 1965, to June 30, 1966," and "State of California Capital Outlay budget for the fiscal year July 1, 1965 to June 30,

1966," submitted by the Governor to the Legislature at the 1965 Regular Session, the uniform accounting system prescribed by the Department of General Services under the provisions of Section 13290 of the Government Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every state agency to whom appropriations are made under this act.

SEC. 26.5. Whenever herein an appropriation is made for support or other expenses for an institution, department, board, bureau, commission, officer, employee, or other agency, there shall be charged to such appropriation from which salaries and wages are paid: the state's contribution to the State Employees' Retirement Fund as provided by Sections 20751 and 20752 of the Government Code, the state's contribution to the Teachers' Permanent Fund and the Retirement Annuity Fund as provided by Sections 14209 and 14210 of the Education Code, the state's contribution to the Old Age and Survivors' Insurance Revolving Fund as provided by Sections 20782 and 20783 of the Government Code, the state's contribution to the State Employees' Contingency Reserve Fund and the state's contribution for the cost of a basic health benefits plan as provided by Sections 22828 and 22829 of the Government Code.

As of the effective date of this act, the state's contributions as provided by Sections 22828 and 22829 of the Government Code for any month shall be charged to the same appropriations used for payment of salaries and wages from which the employee premium contributions for such month are deducted.

The appropriations made by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, by Sections 14209 and 14210 of the Education Code, shall continue to be available for expenditure, and shall be charged for any expenditure which is not chargeable to an appropriation for support or other expenses as provided in this section.

The State Controller may transfer to the State Payroll Revolving Fund the contributions required by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, and upon certification by the Board of Administration of the State Employees' Retirement System in accordance with Sections 20754 and 20784 of the Government Code, may transfer from the State Payroll Revolving Fund to the State Employees' Retirement Fund and the Old Age and Survivors' Insurance Revolving Fund the amounts of contributions so certified

SEC 27 The Director of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for a category or project designated in any schedule set forth for such appropriation by transfer from

any of the other designated categories or projects within the same schedule. The Director of Finance shall furnish the Joint Legislative Budget Committee a report on all authorizations given pursuant to this section during the preceding quarter.

SEC. 28. The Director of Finance may authorize the augmentation of the amount available for expenditure for any category in the schedule set forth for any appropriation in this act or any additional category in the amount of any funds which he estimates will be received by an officer, department, division, bureau, or other agency during the 1965–66 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration, except that the director may authorize expenditures for a new program not identified in the budget as such or for purposes which in his judgment constitute an increase in the level of services above that authorized by the Budget Act or other existing law not sooner than 30 days after notification in writing of the necessity therefor to the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of said committee, or his designee, may in each instance determine.

The Director of Finance may also reduce any category whenever he determines that funds to be received will be less than the amount taken into consideration in the schedule.

SEC. 29. Premiums for official bonds may be paid out of appropriations contained in this act, notwithstanding the period covered by such bonds.

SEC. 30. Whenever an expenditure is authorized from the Emergency Fund, from price increase funds, from the salary increase funds, or from a special fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures may, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

SEC. 31. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new positions or change in grade or class of an existing position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency and submitted to the Department of Finance the unencumbered balance remaining in each allotment for salaries

and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any salary savings reserve may be expended to pay increases in salary ranges established after July 1, 1964, unless the Department of Finance certifies to the State Personnel Board, or other salary-fixing authority, prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom. Provided, that the provisions of this paragraph shall not apply to salaries fixed by the State Personnel Board based on prevailing rates pursuant to Government Code Section 18853.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that such expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 31.2. Notwithstanding any other provisions of this act, the Department of Finance, acting pursuant to its authority under Section 13320 of the Government Code and Section 31, of this act, shall control expenditures under this act in such a manner as to accumulate the sum of seven million five hundred thousand dollars ($7,500,000) in undistributed savings at the end of the 1965–66 fiscal year.

SEC. 31.5. All appropriations under this act for the support of the state colleges and the Trustees of the California State Colleges shall be subject to the provisions of Section 13320 of the Government Code and Section 31 of this act, with the following exceptions: The Trustees of the California State Colleges may approve any transfer of funds within the major budgetary functions of general administration, student and general institutional services, instruction, library, plant operation, reimbursed activities, and reimbursements, as provided in fiscal year budgets of the state colleges approved by the

Department of Finance; provided, that no transfers between the categories of personal services, operating expenses and equipment shall be made without the approval of the Director of Finance. In addition, the trustees may approve the substitution of one item of equipment for another within such aforementioned budgetary functions and the use of savings in equipment allotments, and may approve travel, both within and outside the state, and the payment of allowances and expenses related to travel, moving and the relocation of employees in accordance with the allowances established by the State Board of Control and within funds appropriated by this act for this purpose.

Subject to the foregoing, the trustees may approve adjustments in programs, within appropriations as adjusted for changes in enrollments approved by the Director of Finance.

Any transfers of funds, substitution of items of equipment. use of equipment savings, or approval of travel, moving or relocation allowances made under provision of this section shall be reported to the Director of Finance at such times and on forms prescribed by him.

SEC. 32. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Joint Legislative Budget Committee quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 32.5. Notwithstanding the provisions of any appropriation of state funds made in the Welfare and Institutions Code for the public assistance programs specified in the following schedule, expenditures of state funds for those programs for the fiscal year ending June 30, 1966, shall not

exceed, in the aggregate, the sum of four hundred twenty-four million two hundred fifty-five thousand three hundred seventy-two dollars ($424,255,372).

The Department of Social Welfare, subject to the limit placed on aggregate expenditures by this section, may transfer funds between the programs specified in the following schedule, when the need appears, but shall, subject to the provisions of this section, limit expenditures to the total of the following schedule:

Schedule:

(a) Aid to the Blind	10,616,100
(b) Aid to Potentially Self-supporting Blind	100,000
(c) Aid to the Disabled	71,101,938
(d) Aid to Families with Dependent Children	134,620,900
(e) Old Age Security	175,190,634
(f) Medical Assistance for the Aged	32,125,800
(g) Legislation adopted in the 1965 session in which no specific appropriation is contained	500,000
Total of schedule	424,255,372

The Department of Social Welfare shall administer the public assistance programs specified in this section so that the counties will bear no more than the amount of welfare costs that they would be obligated to bear under the applicable provisions of the Welfare and Institutions Code, without the expenditure limitations set forth herein, and so that the amount authorized to be expended under this section shall fully cover the state's share of aid payments and for services under such programs for the 1965–66 fiscal year.

The limitations on amounts imposed by this section shall apply to any amounts which are determined by the Director of Finance to be necessary to meet increases in cost arising out of approvals made by the Department of Finance pursuant to the provisions contained in Item 168.

Provided further, that the Director of Finance is authorized to approve expenditures in those amounts made necessary by changes in either caseload or payments, or both, unrelated to any change in rule or regulation adopted during the current fiscal year which are in excess of Budget Bill estimates for 1965–66, except that this shall not apply to (g) in the schedule above. Not later than the fifth day following the submission of the Governor's Budget in the 1966 Regular Session of the Legislature the Director of Finance shall report to the Legislature the amount, if any, by which the current estimate of expenditures for public assistance programs in the fiscal year ending June 30, 1966, will exceed the limitation on aggregate expenditures in this section. At such time the amount of the limitation shall be increased by the amount of such excess unless and until otherwise provided by law.

Provided further, that the Department of Social Welfare shall submit to the Director of Finance and to the Joint Legislative Budget Committee by July 1, 1965, a schedule of an-

ticipated quarterly expenditures of the amounts specified for each program in this section. The Department of Social Welfare shall report quarterly to the Director of Finance and to the Joint Legislative Budget Committee the extent to which quarterly expenditures vary from such schedule, with specific and detailed explanations of any expenditures which are in excess of those scheduled and a description of all administrative actions taken previously which may have affected the excess in caseloads or payments or both for that quarter, including but not limited to actions or interpretations expressed in rules and regulations, circular letters, department bulletins, press releases, official speeches, and other items of communication or direction to county welfare departments.

Provided further, that no part of the appropriation made in this section shall be available for the purpose of providing prepaid health insurance.

SEC. 32.6. The balance of the Social Welfare Federal Fund in the State Treasury, as contemplated by Section 124.4 of the Welfare and Institutions Code, shall be transferred to the General Fund immediately and transfers to insure reimbursement of the General Fund shall be made at least quarterly thereafter; provided, that the portion of the balance for advances to counties for public assistance programs shall be excluded from the provisions of this section.

SEC. 32.7. The fees and revenues specifically declared by the Legislature, in any bill enacted at the 1965 Regular Session, not to be available for expenditure until appropriated, are hereby appropriated for the purposes set forth in such bill or in statutory provisions otherwise appropriating and governing the expenditure thereof. Such appropriation shall become effective with respect to the fees and revenues provided for in such bill on the date, in each instance, that the bill becomes effective or operative as law.

SEC. 33. If any item of appropriation in this act is vetoed, eliminated or reduced by the Governor under Sections 16 and 34 of Article IV of the Constitution while approving portions of this act, such veto, elimination or reduction shall not affect the other portions of this act and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act and as if any reduced item of appropriation had not been reduced.

SEC. 34. If any section, subsection, sentence, clause, or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared unconstitutional.

SEC. 35. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under

the provisions of Section 1 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the state government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the state. If they are not available for expenditure on July 1, 1965, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the state's business requires the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect.

CHAPTER 758

An act to add Sections 14601.5, 14655.5 and 16627.5 to the Education Code, relating to school district retirement plans, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 14601 5 is added to the Education Code, to read:

14601.5. Any person who is a member of the State Employees' Retirement System or of the State Teachers' Retirement System and who subsequently is employed in a status requisite for membership in a district retirement plan is excluded from membership in the district retirement plan if he elects, by a writing filed in the office of the Board of Administration of the State Employees' Retirement System or in the office of the district retirement plan if the employee is a member of the State Teachers' Retirement System, as the case may be, within 90 days after such employment, or prior to January 1, 1966, whichever is later, to continue as a member of the State Employees' Retirement System, or as a member of the State Teachers' Retirement System not subject to membership in a district retirement plan, as the case may be, with respect to his new duties. Any person who is a member of a

district retirement plan because of employment to perform duties which are requisite for membership in such plan, and who subsequently is employed by the same school district, or a different school district governed by a governing board composed of the same personnel, to perform duties which are not so requisite but instead are requisite for membership in a different public retirement system under this state, and who enters upon such duties not so requisite, shall continue to be a member of the district retirement plan with respect to the latter duties, unless he elects by a writing filed in the office of the retirement board of the school district, within 90 days after such entry not to continue as a member with respect to his new duties.

This section also shall apply retroactively to such employments entered on or after July 1, 1957. The election of any such member to reestablish his membership shall be filed in the office of both the district retirement plan and in the appropriate office of the public retirement system prior to July 1, 1966. Membership shall be reestablished as it would have been, and the member shall contribute to the system or plan the amounts he would have contributed had the election been made at the time of such entry into employment prior to the effective date of this section. Contributions of a member to a retirement system or plan during such employment and prior to his election to reestablish membership in another system or plan shall be transferred to that system or plan and shall be credited to his contribution obligation to that system or plan. Any amount transferred in excess of such obligation shall be refunded to the member. Membership in the system or plan transferring contributions shall cease upon such transfer with respect to such employment.

SEC. 2. Section 14655.5 is added to said code, to read:

14655 5. In respect to an employee who has been employed in a status not requisite for membership in a district plan and who is subsequently employed under a governing board composed of the same personnel, to perform duties which are requisite for membership in a district plan, the death benefit payable from the district plan shall be based on one-twelfth of his annual salary at the rate payable to him immediately preceding his death, multiplied by the number of years of classified or certificated service, not to exceed six years, under a governing board composed of the same personnel, less any death benefit paid or payable on his behalf from the State Employees' Retirement System or the State Teachers' Retirement System, or any combination of these systems.

SEC. 2.5. Section 16627.5 is added to said code, to read:

16627.5. Any person who is employed in a child care center on October 1, 1965, and who was brought into membership in a retirement system on October 1, 1963, notwithstanding his prior election pursuant to Section 16627 as it read prior to October 1, 1963, not to be a member of such system, shall have the same rights under such system with respect to his service

in child care centers as he would have had under Section 16627 had he elected thereunder to be a member of such system.

SEC. 3. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This measure will aid in the recruitment of teachers. It also meets the needs of school districts to transfer employees between classified and certificated positions, thus retaining in the one individual a dual experience without undue financial hardship for the individual.

Since school contracts are generally renewed at the end of the school year in June, and to enable earlier negotiations for personnel for the forthcoming year, it is necessary that this measure take effect immediately.

CHAPTER 759

An act to amend Sections 17301, 17301.3, 17303.5, 17304, 18451, 18452 and 18455 of the Education Code, relating to adult schools.

The people of the State of California do enact as follows:

SECTION 1. Section 17301 of the Education Code is amended to read:

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to the State School Fund as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual computed apportionments from the State School Fund for the purposes set forth in Section 17303.5; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, forty dollars and eighty-eight cents ($40.88) for the fiscal year 1964–65, and fifty-five dollars and sixty-four

(c) In addition to the amounts authorized to be transferred to the State School Fund from the General Fund under subdivisions (a) and (b) of this section, the Controller shall transfer from the General Fund to the State School Fund during the fiscal year, upon certification of the Superintendent of Public Instruction, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Sections 17303 and 17303.5, an amount not to exceed the lesser of: (1) 1 percent of the total apportionment from the State School Fund in the preceding fiscal year for the purposes set forth in Sections 17303 or 17303.5, or (2) the net amount, if any, by which the total amounts authorized to be transferred from the General Fund to the State School Fund under subdivisions (a) and (b) of this section in prior fiscal years have exceeded the total amounts actually apportioned in prior fiscal years for the purposes set forth in Sections 17303 and 17303.5.

(d) He shall also transfer to the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts prescribed for any of the purposes set forth in Sections 17303 and 17303.5 and such additional amounts shall be allowed and apportioned by the Superintendent of Public Instruction and warrants therefor drawn by the Controller in the manner provided in Articles 1 and 2 (Sections 17301 to 17354, inclusive) of this chapter and in Sections 11256, and 17251, and Sections 17401 to 17417, inclusive, and Sections 17601 to 18460, inclusive.

Adjustment of such errors will be subject to the time limitations as provided in Section 17414. Such adjustments with regard to the amount to be transferred to

the State School Fund shall be at the state's rate of contribution under Section 17301 in effect in the fiscal year to which the error applied, and shall be applied in accordance with the purposes set forth under Section 17303. The amount of any adjustment shall not, however, cause the amount to be transferred to the State School Fund during any fiscal year under Section 17301 to be less than one hundred eighty dollars ($180) per pupil in average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, junior college and adult schools in the state and to county school tuition funds.

(b) If in any fiscal year the amount transferred to the State School Fund under Sections 17305 and 17307 is reported to be in error, the Superintendent of Public Instruction shall notify the Controller of such error and he shall add to or withhold from the next apportionment moneys due the district by transfers from or returns to the General Fund of such erroneous amounts.

SEC. 3. Section 17303.5 of said code is amended to read:

CHAPTER 760

An act to amend Sections 7450, 7451, 7452, 7453, 7454, 7455, 7456, 11052, 11061, and 11411, to amend the headings of Chapter 14 (commencing with Section 7451) of Division 6, and Article 3.5 (commencing with Section 11061) of Chapter 2 of Division 9 of, and Article 4.5 (commencing with Section 11411) of Chapter 3 of Division 9 of, and to add Sections 5207.2, 7451.5 to, the Education Code, relating to the public school system, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Chapter 14 (commencing with Section 7451) of Division 6 of the Education Code, is amended to read:

CHAPTER 14. REGIONAL OCCUPATIONAL CENTERS

SEC. 1.5. Section 5207.2 is added to said code, to read:

5207.2. The governing board of any high school district or unified school district may provide for the maintenance on Saturday of classes in regional occupational centers.

SEC. 2. Section 7450 of said code is amended to read:

7450. In enacting this article, it is the intent of the Legislature to provide qualified students with the opportunity to attend a technical school and enroll in a vocational or technical training program, regardless of the geographical location of their residence in a county or region. The Legislature hereby declares that a regional occupational center will serve the state and national interests in providing vocational and technical education to prepare students for an increasingly technological society in which generalized training and skills are

insufficient to prepare high school students and graduates, and out-of-school youth for the many employment opportunities which require special or technical training and skills. The Legislature also declares that regional occupational centers will enable a broader curriculum in technical subjects to be offered, and will avoid unnecessary duplication of courses and expensive training equipment, and will provide a flexibility in operation which will facilitate rapid program adjustments and meeting changing training needs as they arise.

SEC. 3. Section 7451 of said code is amended to read:

7451. The county superintendent of schools of each county may establish and maintain, or with one or more counties may establish and maintain, at least one regional occupational center in the county to provide education and training in vocational courses. The governing board of any school district maintaining a high school in the county may in cooperation with other school districts, with the consent of the county superintendent of schools, establish and maintain a regional occupational center, except that if such a school district also maintains five hundred (500) or more schools its governing board may establish and maintain one or more regional occupational centers without such restrictions. If a school district establishes and maintains such a regional occupational center pursuant to this chapter, the county superintendent of schools may, but is not required, to establish and maintain a separate regional occupational center or centers.

SEC. 4. Section 7451.5 is added to said code, to read:

7451.5. A regional occupational center may:

(a) Be established pursuant to Section 7451 to provide day, including Saturday, and evening full-time and part-time vocational education programs for minors.

(b) Include within its vocational training programs, the establishment and operation of a sheltered workshop.

SEC. 5. Section 7452 of said code is amended to read:

7452. Each regional occupational center shall be established at a readily accessible place selected to serve the pupils who will attend the center. The county superintendent of schools or district or districts, as the case may be, maintaining, or participating in the operation of, the center may provide necessary transportation to the pupils attending such center.

SEC. 6. Section 7453 of said code is amended to read:

7453. For the purposes of this chapter the county superintendent of schools or the governing board of the school district establishing a regional occupational center may acquire a site for each regional occupational center maintained by him or the district, or districts, as the case may be, and may plan, construct, purchase, or lease buildings therefor, and may purchase or lease furniture, equipment, fixtures, and other personal property therefor.

SEC. 7. Section 7454 of said code is amended to read:

7454. The county superintendent of schools or governing board of a school district or districts, as the case may be, maintaining a regional occupational center may accept and expend grants from the federal government or from other public or private sources for the purposes of this chapter.

SEC. 8. Section 7455 of said code is amended to read:

7455. Any pupil eligible to attend a high school in the county, and who resides in a school district which by itself or in cooperation with other school districts, has not established a regional occupational center, is eligible to attend a regional occupational center maintained by the county superintendent of schools. Any school district which in cooperation with other school districts maintains a regional occupational center or any such cooperating school districts may admit to such center any pupil, otherwise eligible, who resides in the district or in any of the cooperating districts. Any school district which by itself maintains a regional occupational center may admit to such center any pupil, otherwise eligible, who resides in the district. No pupil, including minors under subdivision (a) of Section 7451.5, shall be admitted to a regional occupational center unless the county superintendent of schools or governing board of the district or districts maintaining the center, as the case may be, determines that the pupil will benefit therefrom and approves of his admission to the regional occupational center.

A pupil may be admitted on a full-time or part-time basis, as determined by the county superintendent of schools or governing board of the school district or districts maintaining the center, as the case may be. A school district which by itself or in cooperation with other school districts maintains a regional occupational center may admit pupils residing in other school districts under interdistrict attendance agreements made pursuant to Sections 10801 and 10805.

SEC. 9. Section 7456 of said code is amended to read:

7456. The county superintendent of schools, with the approval of the county board of education, and the governing board of each school district which maintains a regional occupational center pursuant to this chapter, shall certify to the county auditor and to the county board of supervisors, on or before July 15 of each year, the amount of money required to be raised by a tax for the education of pupils attending the regional occupational center maintained by the county superintendent of schools or by a school district, as the case may be, and for the purposes set forth in Section 7453.

The amount shall be determined by subtracting from the total cost of education of such pupils in the regional occupational center, including transportation, to the county superintendent of schools or school district, as the case may be, (1) the total of any balances remaining to be expended for this purpose and (2) the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund or to the school district, as the case may be, for

the education of such pupils and by adding to the result the amount required for the purposes set forth in Section 7453. At the time of levying county taxes, the board of supervisors shall levy a district tax for each regional occupational center maintained in the county by the governing board of a school district pursuant to this chapter upon the taxable property of the school district sufficient to produce the amount required by this section; and the board of supervisors may levy a county tax for each regional occupational center maintained in the county by the county superintendent of schools pursuant to to this chapter, upon the taxable property of the county sufficient to produce the amount required by this section. The amount received from this tax shall be deposited in the county school service fund, or, if the regional occupational center for which such tax was levied is maintained by a school district, in the county treasury to the credit of the general fund of that school district. The maximum rate of the countywide or district tax levied for the purposes of this section, except for the purposes set forth in Section 7453, shall not exceed ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation within the county or district, as the case may be, and the maximum rate of the countywide or district tax levied under this section for the purposes set forth in Section 7453 shall not exceed five cents ($0 05) on each one hundred dollars ($100) of assessed valuation in the county or district, as the case may be.

As used in this section school district includes each of those school districts which are cooperating in the maintenance of a regional occupational center with the approval of the county superintendent of schools pursuant to Section 7451.

SEC. 9.5. Section 11052 of said code is amended to read:

11052. The minimum school day in any high school, except in an evening high school, a regional occupational center, a continuation high school, and in continuation education classes, is 240 minutes.

SEC. 10. The heading of Article 3.5 (commencing with Section 11061) of Chapter 2, Division 9 of said code is amended to read:

Article 3.5. Regional Occupational Centers

SEC. 11. Section 11061 of said code is amended to read:

11061. The minimum day in a regional occupational center is 180 minutes.

SEC. 12. The heading of Article 4.5 (commencing with Section 11411) of Chapter 3 of Division 9 of said code is amended to read:

Article 4.5. Regional Occupational Centers

SEC. 13. Section 11411 of said code is amended to read:

11411. Units of average daily attendance in the regional

occupational centers of a county for a fiscal year are the quotient arising from dividing the total number of days of pupil's attendance in such centers during the fiscal year by 175 and the average daily attendance so computed shall be credited to the county school service fund if the center is maintained by a county superintendent of schools or if the center is maintained by a school district, to the district maintaining the center.

Attendance in regional occupational centers operated under subdivision (a) of Section 7451.5 shall be considered pupil's attendance under this section, but attendance in regional occupational centers under subdivision (b) of Section 7451.5 shall not be so considered.

As used in this section, "school district" includes each of those districts which are cooperating in the maintenance of the center, with the approval of the county superintendent of schools, pursuant to Section 7451; and units of average daily attendance of pupils residing in such school district shall be credited to the school district.

SEC. 14. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is an urgent need for an integrated vocational and occupational training program as authorized by this act to prepare minors to meet specialized employment opportunities in a changing economy. In order that a school district could meet this need for the 1965–1966 fiscal year, and take advantage of any federal funds which may be available for that fiscal year, it is necessary that this act go into immediate effect.

CHAPTER 761

An act to amend Section 26309 of the Government Code, relating to county revenue bond projects, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 26309 of the Government Code is amended to read:

26309. The board may only use for the payment of the acquisition, construction, completion, maintenance, or insurance of any project undertaken under the authority of this chapter, the proceeds of revenue bonds issued and sold by the board, or the revenues from such project.

The following provisions of this section shall only be applicable to projects in counties containing a population of 4,000,000 or more.

If at the beginning of any fiscal year it is estimated that the revenues from the project will be insufficient to meet the bond interest and redemption requirements and the operation and maintenance requirements of any indenture entered into in connection with the issuance of revenue bonds for the project, the board may, by a four-fifths vote, advance an amount of money which, when added to any other funds available for that purpose, will be sufficient to maintain and operate the project for the year. Any such advance shall only be available for expenditure under terms and conditions prescribed by the board and shall be repaid from the first revenues of the project which can legally be made available for that purpose under the revenue bond indenture.

If the board of supervisors determines that any lands within the project are not suitable for revenue-producing use but can be used for public beaches, parks or other facilities for general public nonrevenue-producing use, it may adopt a resolution setting aside specific lands for such use. If the board of supervisors determines that the revenues of the project will be impaired by setting aside any such lands, provision shall be made for monthly payments into the revenue fund of an amount not less than the amount of such impairment, but not to exceed the fair rental value of the land.

SEC. 2 This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under existing law there is no authority for a county to advance funds required for the operation and maintenance of revenue bond projects. Without the ability to make such advances if there is a decrease in anticipated revenue for any year projects will be inadequately maintained and future revenues will be adversely affected. In order to enable counties to include in the county budget for the next fiscal year funds which can be advanced for the maintenance and operation of revenue bond projects it is essential that this act go into immediate effect.

CHAPTER 762

An act to amend Section 29007.5 of, and to add Section 29007.6 to, the Education Code, relating to private educational institutions, making an appropriation under the provisions of Section 1 of Article IV of the Constitution, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 29007.5 of the Education Code is amended to read:

Application for such approval shall be made in writing on application forms provided by the Bureau of Readjustment Education of the Department of Education. Pending final approval of new or added courses of instruction, the Superintendent of Public Instruction shall issue a temporary approval upon submission of the complete application. (7) Adequate records shall be maintained by the institution to show attendance, progress, and grades.

(8) The institution complies with all local city, county, municipal, state and federal regulations such as fire, building, and sanitation codes. The Bureau of Readjustment Education may require evidence of compliance.

(9) The institution is financially capable of fulfilling its commitments for its approved courses.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the Superintendent of Public Instruction made pursuant to this section.

SEC. 2. Section 29007.6 is added to said code, to read:

29007.6. An original application by a person, firm, association, partnership or corporation for approval to grant degrees under Section 29007(a)(2), or for approval of courses under the requirements of Section 29007.5, or for authorization to issue diplomas under the provisions of Sections 29007(f) and 29007.2 shall be accompanied by an application fee of one hundred dollars ($100). This fee shall apply to evaluations and

approvals made subsequent to the original application of a school.

Schools filing under Section 29007(a)(3) shall accompany the annual report required by Section 29009 with a fifty dollar ($50) annual filing fee.

Fees required by this section are hereby appropriated in augmentation of the appropriation for support of the Department of Education current at the date of issuance of the State Controller's receipt thereof as may be designated by the Department of Education prior to their deposit in the State Treasury and shall be nonrefundable irrespective of whether or not approval or authorization is granted.

SEC. 3. This act shall be operative July 1, 1965.

SEC. 4. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 1 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 5. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The majority of applications for approval occur near the beginning of the fiscal year. In order that the provisions of this act may apply to such applications, it is necessary that this act go into immediate effect.

CHAPTER 763

An act to amend Section 29007.3 of the Education Code, relating to fees for applications for permits to act as correspondence school salesmen, making an appropriation under the provisions of Section 1 of Article IV of the Constitution, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 29007.3 of the Education Code is amended to read:

29007.3. No person, either on his own behalf or as the representative of any privately conducted correspondence school or of any private person, firm, association, partnership, or corporation whatever, shall, by personal contact, in California, solicit the sale of or solicit and sell any correspondence course of study beyond high school, of high school level, or below high school level, for a remuneration or other consideration to be provided for such course, unless he holds a valid permit to engage in such activity issued by the State Board

of Education. The State Board of Education may delegate its authority to issue this permit to the State Superintendent of Public Instruction.

The State Board of Education, or the State Superintendent of Public Instruction, if such authority has been delegated by the State Board of Education, shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the person's own behalf. Where the person for whom the issuance of a permit is sought is to engage in the activities as a representative, the application shall be made by the correspondence school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted on forms to be furnished by the Bureau of Readjustment Education of the Department of Education. The original application shall be accompanied by an application fee of fifteen dollars ($15), renewal applications when renewed on a continuous basis and applications for additional sales permits shall be accompanied by an application fee of ten dollars ($10). Fees required by this section are hereby appropriated in augmentation of the appropriation for support of the Department of Education current at the date of issuance of the State Controller's receipt thereof as may be designated by the Department of Education prior to their deposit in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit The bond may be supplied by the correspondence school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual such person or to provide blanket coverage for all persons to be

engaged as representatives of a correspondence school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of correspondence courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars ($1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The permittee shall carry the permit with him for identification purposes when engaged in the solicitation of sales and the selling of correspondence courses of study.

No recovery by the correspondence school, or representative thereof, shall be had on any contract for or in connection with a course of study by any person selling or administering such course if the representative of such person, firm, association, partnership or corporation was not the holder of a permit as required by this section at the time that such representative negotiated the contract for or sold such course.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study shall, if the plaintiff is the prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education made pursuant to this section.

The issuance of a permit pursuant to this section shall not be interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education has made, any evaluation, recognition, accreditation or endorsement of any correspondence course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with

respect to the possessor and that he has submitted satisfactory evidence of good moral character.

SEC. 2. This act shall be operative July 1, 1965.

SEC. 3. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 1 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some applications for sales permits are filed near the beginning of the fiscal year. In order that the provisions of this act may apply to such applications, it is necessary that this act go into immediate effect.

CHAPTER 764

An act to amend Section 21101 of the Vehicle Code, relating to vehicular traffic and pedestrians, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 21101 of the Vehicle Code is amended to read:

21101. Local authorities may adopt rules and regulations by ordinance or resolution on the following matters:

(a) Designating particular highways as one-way highways and requiring that all vehicles thereon be moved in one specified direction.

(b) Closing any highway to vehicular traffic when in the opinion of the legislative body having jurisdiction the highway is no longer needed for vehicular traffic.

(c) Designating any highway as a through highway and requiring that all vehicles stop before entering or crossing the same or designating any intersection as a stop intersection and requiring all vehicles to stop at one or more entrances to the intersection.

(d) Prohibiting the use of particular highways by certain vehicles, except as otherwise provided by the Public Utilities Commission pursuant to Article 2 of Chapter 5 of Part 1 of Division 1 of the Public Utilities Code.

(e) Closing particular streets during regular school hours for the purpose of conducting automobile driver training programs in the secondary schools and colleges of this state.

(f) Temporarily closing a portion of any street for celebrations, parades, local special events, and other purposes when

in the opinion of local authorities having jurisdiction such closing is necessary for the safety and protection of persons who are to use that portion of the street during the temporary closing.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Until the Legislature expressly declares its intent to authorize local authorities to temporarily close portions of streets for the protection of persons during local events many local authorities will not undertake such protection of the public which is urgently needed.

It is therefore necessary that this act take effect immediately.

CHAPTER 765

An act to amend Section 11804 of the Streets and Highways Code, relating to pedestrian malls, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 11804 of the Streets and Highways Code is amended to read:

11804. The legislative body may levy and collect in any year upon and against all of the taxable land and improvements within the district a special ad valorem assessment sufficient to raise a sum of money not exceeding the net amount determined pursuant to Section 11803 but the rate of assessment in any one year shall not exceed fifty cents ($0.50) on each one hundred dollars ($100) assessed value as shown on the assessment roll used by the city for city taxation.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Local agencies at present do not have the necessary funds to provide for adequate pedestrian malls to protect the public safety or otherwise serve the public interest and there is at present a further need for such malls to stimulate the interest of the public. In order that this problem may be solved without delay and the local agencies have the necessary funds, it is imperative that the act take effect immediately.

CHAPTER 766

An act to amend Section 443 of the Welfare and Institutions Code and Section 11008 of Division 9 of the Welfare and Institutions Code as proposed by Assembly Bill 1682 of the 1965 Regular Session, relating to public assistance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 443 of the Welfare and Institutions Code is amended to read:

443. In order that recipients of public assistance may become self-supporting and productive members of their communities, it is essential that they be permitted to earn money without a proportionate deduction in their aid grants. It is the intention of the Legislature to promote this objective to the extent possible within the limitations imposed by federal law, and the State Social Welfare Board, in implementing public assistance laws, is directed to do so in the light of this objective.

In determining the income of a recipient, the following requirements shall be observed:

(a) To the extent permitted by federal law, earned income of a recipient of aid under any public assistance program for which federal funds are available shall not be considered income or resources of the recipient, and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

(b) In computing the amount of income determined to be available to support a recipient, the value of currently used resources shall be included but the value of casual income and inconsequential resources shall be excluded.

(c) To the extent required by federal law and regulations, payments made available to any person through any of the various titles of the Economic Opportunity Act of 1964 shall not be regarded as income nor as a resource in determining need under any public assistance program established by this code.

SEC. 2. Section 11008 of Division 9 of the Welfare and Institutions Code as proposed by Assembly Bill 1682 of the 1965 Regular Session is amended to read:

11008. In order that recipients of public assistance may become self-supporting and productive members of their communities, it is essential that they be permitted to earn money without a proportionate deduction in their aid grants. It is the intention of the Legislature to promote this objective to the extent possible within the limitations imposed by federal law, and the department, in implementing public assistance laws, is directed to do so in the light of this objective.

In determining the income of a recipient, the following requirements shall be observed:

(a) To the extent permitted by federal law, earned income of a recipient of aid under any public assistance program for which federal funds are available shall not be considered income or resources of the recipient, and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

(b) In computing the amount of income determined to be available to support a recipient, the value of currently used resources shall be included but the value of casual income and inconsequential resources shall be excluded.

(c) To the extent required by federal law and regulations, payment made available to any person through any of the various titles of the Economic Opportunity Act of 1964 shall not be regarded as income nor as a resource in determining need under any public assistance program established by this code.

SEC. 3. Section 2 of this act shall become operative only if the revision of the Welfare and Institutions Code as proposed by Assembly Bill No. 1682 is enacted by the Legislature at its 1965 Regular Session, and in such case at the same time as Assembly Bill No. 1682 takes effect; at which time Section 443 of the Welfare and Institutions Code as amended by Section 1 of this act is repealed.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Federal law now requires that income received by public assistance recipients under the Economic Opportunity Act of 1964, up to designated amounts, shall be disregarded in computing the aid grants of the recipients. In order that state law may be brought into conformity with the federal requirement, so as to not jeopardize California's entitlement to federal funds, it is essential that this act go into effect immediately.

CHAPTER 767

An act to add Section 17507.4 to the Education Code, relating to the public schools system.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 17507.4 is added to the Education Code, to read:

17507.4. For any elementary school district which is situated in a county in which more than 1,500,000 pupils are

enrolled in public schools, has an average daily attendance of between 6,500 and 8,000, operates fewer than 13 schools, and receives more than seventy percent (70%) of its revenues from state funds, and in which district in the 1963–64 fiscal year had a larger average class size in grades 4 to 8 than existed in the same grades in the 1964–65 fiscal year, the Superintendent of Public Instruction may, upon application of the district governing board, grant a hardship exemption from the penalty provisions of Section 17507 which pertain to maintenance of pupil-teacher ratios in grades 4 to 8. A hardship exemption may be granted pursuant to this section on a yearly basis, but not beyond the 1967–1968 fiscal year, and only after approval by the Superintendent of Public Instruction of justification documents and other evidences of hardship submitted by the district.

For purposes of Section 17507 in the 1968–1969 fiscal year, with respect to any district which has received hardship exemption under this section, the pupil-teacher ratio in grades 4 to 8, inclusive, during the preceding fiscal year shall be deemed to be the pupil-teacher ratio in such grades which existed in the district in the 1964–1965 fiscal year.

CHAPTER 768

An act to amend Sections 16801, 17411, 17653, 18452, and 20930 of, and to add Section 1013.5 to, the Education Code, relating to the public school system, declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1965. Filed with Secretary of State June 30, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 16801 of the Education Code is amended to read:

16801. The governing board of any school district may provide, with the written approval of the county superintendent of schools, for the transportation of pupils to and from school whenever in the judgment of the board such transportation is advisable and good reasons exist therefor. The governing board may purchase or rent and provide for the upkeep, care, and operation of vehicles, or may contract and pay for the transportation of pupils to and from school by common carrier or municipally owned transit system, or may contract with and pay responsible private parties for the transportation. Such contracts may be made with the parent or guardian of the pupil being transported. A governing board may allow the transportation in school buses owned or operated by the district of preschool or nursery school pupils, provided that there is space available on the regular bus or vehicle runs made by

the school district. No state reimbursement may be received by a district for the transportation of such pupils.

Whenever the term "municipally owned transit system" appears in this chapter, it means a transit system owned by a city, or by a district created under Part 1 (commencing with Section 24501) of Division 10 of the Public Utilities Code.

SEC. 1.5. Section 17411 of said code is amended to read:

17411. The Superintendent of Public Instruction shall withhold from the apportionment to an elementary school district, as a part of the first principal apportionment and second principal apportionment, the amount allowed the elementary school district for the average daily attendance in grades 7 and 8 in a junior high school by reason of the operation of subdivisions (a) and (b) of Section 17601 and subdivisions (a) and (b) of Section 20910. The amount withheld shall be determined by multiplying the total amount of (a) basic state aid, (b) state equalization aid reduced by the increase in foundation program pursuant to Section 17674 or the amount of the state equalization aid, whichever is lesser, and (c) supplemental support computed for the district by the foundation program for units of average daily attendance in grades 7 and 8 and dividing the product by the total foundation program of the district, exclusive of the increase in foundation program pursuant to Section 17674.

The Superintendent of Public Instruction shall add the amount withheld to the apportionment required to be made to the high school district maintaining the junior high school.

SEC. 2. Section 17653 of said code is amended to read:

17653. For any unified school district which was effective for all purposes on or before July 1, 1964, and which during the current fiscal year meets the standards prescribed in Section 17672, the foundation program actually computed for such district under this article and the supplemental support program for such district under Article 7.1 of this chapter shall be increased by 5 percent for the first fiscal year of its existence, 4 percent for the second fiscal year of its existence, 3 percent for the third fiscal year of its existence, 2 percent for the fourth fiscal year of its existence, and 1 percent for the fifth fiscal year of its existence.

SEC. 3. Section 18452 of said code is amended to read:

18452. If the total amount allowed from the State School Fund to all school districts, county school service funds, and county school tuition funds under Sections 6426, 6762, 17751, 17801, 17851, 17901, 17902, 17904, 17905, 17906, 17926, 17951, 17952, 17970, 18355, 18356, 18357, 18358, and 18401 on account of average daily attendance during the fiscal year credited to all kindergarten, elementary, high school, junior college and adult schools in the state and county school tuition funds is less than the amount provided by law for such purposes, the balance shall be allowed pursuant to Section 18460.

SEC. 4. Section 20930 of said code is amended to read:

20930. The maximum rate of school district tax otherwise authorized by law to be assessed for any school district for elementary school and high school purposes shall be reduced by:

The applicable rates provided for in Section 20912, except that when the amount of tax moneys allocated under Article 2 of this chapter to a district is less than the amount that such a rate would raise if levied for the district, the maximum rate shall be reduced by the amount of the tax rate that would raise the amount of the allocation plus the increase, if any, in state equalization aid.

For purposes of this section, the phrase "maximum rate of school district tax otherwise authorized by law to be assessed" shall mean the maximum rates prescribed by Section 20751 for elementary school or high school purposes and any increases in such maximum rates adopted pursuant to Sections 20803 and 20804.

SEC 4.5. Section 1013 5 is added to said code, to read:

1013.5. Notwithstanding Section 1013, the governing board of a union high school district having an average daily attendance, exclusive of adults, for the 1964–65 fiscal year which is not in excess of 1,250, may in one or more tax years pay all or any portion of a judgment for debts, liabilities or damages out of funds raised pursuant to this section.

The maximum rate of school district tax for any school year for such district is hereby increased by such amount as will produce the amount of the proposed expenditures authorized by this section, as shown by the budget of the union high school district for such tax year as finally adopted by the governing board of the union high school district.

The increase provided by this section shall not exceed ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of the property in the district, and said increase shall be in addition to any other school district tax authorized by law to be levied

This section shall have no force or effect after July 1, 1968.

SEC 5. It is the intent and purpose of the Legislature, on the effective date of this act, to require the provisions of Section 17653 of the Education Code as amended by Section 2 of this act to be immediately operative and applicable with respect to State School Fund allowances and apportionments for the 1964–1965 fiscal year. The Superintendent of Public Instruction shall have full authority to take all appropriate steps, including measures to adjust foundation programs, compute allowances, and make apportionments, so that the foundation program support provided school districts affected by Section 17653 for the 1964–1965 fiscal year shall be in the same amount as would have been provided if Section 17653, as amended by Section 2 of this act had been in effect on and after July 1, 1964.

SEC. 5.5. For the 1964–65 fiscal year only, in the event that the amounts available pursuant to subdivision (c) of

Section 17301 and Section 18460 are insufficient to provide the additional allowances provided by Section 17653 as amended by this act, said allowances otherwise payable to any unified district in its third, fourth, or fifth fiscal year of existence for all purposes, which, during the year preceding the effective date for all purposes had, in all the districts which were formed into the unified district, an average daily attendance of more than ten thousand (10,000) and in which there was on July 1, 1952 or thereafter a single chief administrative officer and staff that administered the program of education for all the secondary schools and those elementary schools of the district to which were credited 50 percent or more of the average daily attendance during the year preceding the effective date for all purposes in all the districts formed into the unified district, shall be reduced proportionately.

This section shall have no force and effect after June 30, 1965.

SEC. 6. It is the intent and purpose of the Legislature on the effective date of this act, to require the provisions of Section 18452 of the Education Code as amended by Section 3 of this act to be immediately operative and applicable with respect to State School Fund allowances and apportionments for the 1964–1965 fiscal year. The Superintendent of Public Instruction shall have full authority to take all appropriate measures so that the additional amounts provided for the purposes of mentally gifted and educationally handicapped minors, over computed allowances, for the fiscal year 1964–1965, shall be allocated pursuant to the provisions of Section 18460 of the Education Code.

SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At the 1964 First Extraordinary Session of the Legislature there was enacted into law legislation to provide a system of areawide local tax support to be provided certain school districts. This tax support program will go into effect on July 1, 1965, and the technical changes made by this act, which are essential to its effective administration both for local tax purposes and for purposes of State School Fund apportionments, must, therefore, go into immediate effect.

Also, at the 1964 First Extraordinary Session of the Legislature there was enacted into law legislation to provide substantial increases in foundation program support to school districts in the form of increased state equalization aid. Some special foundation program incentive increases provided for the unified school districts under prior law were eliminated in conjunction with a new general program of affording increases in support on a unification incentive basis. Since the latter new program is not to become operative until the 1965–1966 fiscal year, a gap in continuity of added support was

created, and several unified school districts will suffer substantial reductions in foundation program support for the 1964–1965 fiscal year unless emergency action is taken

Furthermore, the Legislature has ascertained that while amounts to be transferred to the State School Fund for support of foundation programs for the 1964–1965 fiscal year will very probably be inadequate to meet computed allowances for those purposes, amounts transferred for purposes of the special educational programs for mentally gifted minors and educationally handicapped minors will probably exceed needs as based upon computed allowances. The Legislature has determined that the latter additional funds should be diverted to contribute toward making up the deficits in the foundation program support allowances. In order that this can be accomplished before the end of the fiscal year, it is necessary that this act, which prescribes the required procedures, take effect immediately.

In addition, there is at least one union high school district which is required to pay a judgment against it and is unable to provide the educational program required for its pupils and pay the judgment within the present maximum tax rate limitations. In order that such district may continue to provide its educational program and to pay its debts for the 1965–1966 fiscal year, it is necessary that this act go into immediate effect.

CHAPTER 769

SEC. 4. Section 6767 is added to said code, to read:

6767. (i) Who violates any provision of this chapter.

SEC. 6. Any revenues derived from any new fees provided for in this act shall not be available for expenditure unless appropriated.

[Approved by Governor July 6, 1965. Filed with Secretary of State July 6, 1965.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 29.5 (commencing at Section 74700) of Chapter 10 of Title 8 of the Government Code is amended to read:

Article 29.5. Central Sonoma County

SEC. 2. Section 74700 of said code is amended to read:

31214.3. An individual who is awarded a competitive scholarship and enrolls in a public junior college may elect to have the scholarship held in trust for him for a period not to exceed two academic years, except that the commission may extend the period in which his scholarship may be held in trust up to a period of three academic years if, in the commission's judgment, the student's rate of academic progress has been as rapid as could be expected for the personal and financial conditions which the student has encountered. The State Scholarship Commission shall, in such case, hold the scholarship in trust, to be granted to the award winner upon receipt of his request therefor within such period, provided that at the time of making the request he meets all of the requirements of this chapter (commencing at Section 31201). Upon receipt of the request the State Scholarship Commission shall assess or reassess the financial needs of the award winner. The State Scholarship Commission may prescribe the forms and procedures to be utilized for the purposes of this section. The State Scholarship Commission may award to another eligible individual any scholarship being so held in trust, subject to the provisions of this section and any other conditions and

restrictions that may be imposed by the commission, to the end that all authorized scholarships are being continually utilized. Following the first year for which any such scholarship is awarded, awards thereof shall be included in the number of the continuing scholarships available for any year and not the authorized new scholarships for the year.

CHAPTER 772

An act to amend Sections 28.5 and 28.6 of the Agricultural Code, relating to agricultural fees.

[Approved by Governor July 6, 1965. Filed with Secretary of State July 6, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 28.5 of the Agricultural Code is amended to read:

28.5. The director may, pursuant to this section, authorize the refund of moneys which are received or collected by the department in the payment of fees, assessments or taxes. For the purposes of this section, "fees" includes, but is not limited to, application fees, license fees, permit fees, inspection fees, certification fees, registration fees, identification fees, analysis fees, and certificate fees.

Refunds may be made in whole or in part if: (a) the purpose for a fee cannot lawfully be accomplished for the person who paid the fee through no fault of his own; or (b) a refund of a fee is requested by the payer before any examination or inspection has been performed or service rendered by the department for the payer; or (c) the payment of a fee, assessment, or tax represents an overpayment, payment in duplicate, payment in error in law, or payment through error of the payer or the department.

Any such refund shall be covered by a voucher prepared by the director or his authorized representative setting forth the facts pertaining to the refund and authorizing payment thereof, whereupon payment of such refund shall be made by the accounting officer of the department. In the event the moneys received or collected, for which refund is to be made, have been deposited in the State Treasury, the State Controller shall draw his warrant thereupon, from the fund to which said moneys were credited, upon receipt of claim filed by the department.

Whenever the director finds that the amount of any refund authorized under the provisions of this section will be less than three dollars ($3) or that after computation of the amount of any refund authorized to be made by any other sections of this code will be less than three dollars ($3), he may retain such amounts for use for the same purpose for

which the original payment was made, unless demand for the payment of such refund is made within six months after the determination that a refund is due and if such demand is made, the refund shall be paid.

Demand for the payment of a refund of more than one dollar ($1) but less than three dollars ($3), which has been determined to be due prior to the effective date of the amendment to this section in 1965, may be made within six months after the effective date of such amendment.

SEC. 2. Section 28.6 of said code is amended to read:

28.6. In cases where the director is authorized to perform sampling, grading, testing, inspection or certification services in relation to agricultural products, or identification services in relation to root or top stock of fruit and nut trees, and to fix reasonable fees which shall pay the cost of services necessary to perform such sampling, grading, testing, inspection, certification, or identification, he may collect such fees in advance of performing the services but shall not be required to do so if, in his opinion, the benefit of such services would be lessened by such advance payment. In lieu of collecting such fees in advance the director is authorized, if he deems it necessary, to accept a bond guaranteeing payment of the fees chargeable for any such services; provided said bond is satisfactory to the director.

Against any person required to take out a license or pay fees under the provisions of this code and who fails, neglects, or refuses to take out such license or pay such fees, or who carries on or attempts to carry on the business or do any act for which such license or payment of such fees is required without such license or payment of fees, the director in addition to other remedies provided by law may direct suit in the name of the people of the State of California as plaintiff, to be brought for the recovery of the license or other fees; and in such case the director may make the necessary affidavit for and a writ of attachment may issue, without any bonds being given on behalf of the plaintiff.

Whenever the director finds the amounts due under any section of this code to be so small in amount as not to justify the cost of their collection or for any reason believes that collection is improbable and provided the amount involved in either instance is not in excess of three dollars ($3), then the director may remove the amounts so due from the records of the department and he shall not be held accountable for their collection.

The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of the hearing shall be given by publication pursuant to Section 6066 of the Government Code in a newspaper of general circulation, circulated in such zone or each of said participating zones, if there be such newspaper, and if there is no such newspaper, notice shall be given by posting notice of the hearing for a period of fourteen (14) days prior to said hearing in five (5) public places designated by the board, in such zone or in each of said participating zones. Publication shall be complete at least seven (7) days before the date of the hearing. Said notice shall designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of the project or joint projects may be seen by any interested person. Said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone

or within any of the participating zones for which said project was initiated, be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board.

At the hearing, or at any time to which it may be adjourned, the board may sustain any or all of the objections filed and change or alter the boundaries of the proposed zone to conform to the needs of the zone, and to exclude any land that will not be benefited by the formation of the zone. Any owner of lands adjacent to the zone may, by written application filed with the board at or before the time of the hearing, in the discretion of the board have such lands included within the proposed zone. Except as in this act hereinafter set forth, other lands not included in the proposed zone by the original resolution may not be included in the zone.

In all matters in this section referred to, the last equalized assessment roll of the County of San Luis Obispo next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his coowners or representatives or partners so to do, duly acknowledged by the consenting coowners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to coowners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed

by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

SEC. 3. Section 4 of said act is amended to read:

Sec. 4. The objects and purposes of this act are to provide for the control, disposition and distribution of the flood and storm waters of the district and the flood and storm waters of streams that have their sources outside the district, but which streams and floodwaters flow into the district, and to conserve such waters for beneficial and useful purposes by spreading, storing, retaining, and causing such waters to percolate into the soil within the district, or to save and conserve in any manner all or any of such waters and to protect from such flood or storm waters the public highways, life and property in the district, and the watercourses and watersheds of streams flowing into the district, and to increase, and prevent the waste or diminution of the water supply in the district, and to obtain, retain and reclaim drainage, storm, flood and other waters for beneficial use, including the purchase and sale thereof, within the district, and to provide for recreation activities incidental to and in connection with said purposes. Sec. 14. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the Recorder of San Luis Obispo County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied upon all the taxable property situated within the zone or participating zones, and all such property shall be and remain liable to be taxed or assessed for such payments as provided in this act.

(3) Said board shall call such special bond election by ordinance and not otherwise and submit to the qualified electors of said zone or participating zones, the proposition of incurring of bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness. Said board shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed six percent (6%) per annum. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector,

one judge and one clerk for each of such special bond election precincts.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published pursuant to Section 6062 of the Government Code in a newspaper of general circulation circulated in each zone and participating zone affected. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

An act to amend Section 13339 of the Education Code, relating to employment in the public schools.

[Approved by Governor July 6, 1965. Filed with Secretary of State July 6, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 13339 of the Education Code is amended to read:

13339. The governing board of any school district may employ or engage as an independent contractor a qualified person to serve as limited-term or part-time reader assistant in connection with instruction in composition and writing, and in mathematics, to teachers. Any person employed as a reader shall not be deemed to be employed in a position requiring certification qualifications, and, unless otherwise determined

by the governing board, shall not be subject to the provisions of Chapter 3 (commencing with Section 13580) of Division 10 of this code. The governing board may pay such hourly or unit compensation rates as it deems proper for the services rendered. It is the intent of the Legislature in enacting this section not to authorize an increase in the number of pupils who may be assigned to any class, but to provide an opportunity for improvement in the quality of student writing and mathematics abilities through more frequent assignments of compositions and more work in mathematics made possible by the employment of suitably trained persons to assist the instructor in the careful marking and analysis of the pupils' work. Furthermore, the means adopted for employing persons as reader assistants is not intended as an encroachment upon the merit system of public employment, but is adopted as the most practical arrangement, since most work of such nature will be done as part-time work and in the home.

CHAPTER 788

An act to amend Section 820 of the Streets and Highways Code, relating to federal aid to highways.

[Approved by Governor July 6, 1965. Filed with Secretary of State July 6, 1965.]

Laws of this state inconsistent with such laws, or rules and regulations of the United States, shall not apply to such work, to the extent of such inconsistency. This reenactment of this section is for the purpose of stating the assent of the State of California to the provisions of the applicable federal statutes, rules and regulations.

CHAPTER 789

An act to add Chapter 5.5 (commencing with Section 1450) to Division 2 of the Streets and Highways Code, relating to county highways.

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.5 (commencing with Section 1450) is added to Division 2 of the Streets and Highways Code, to read:

CHAPTER 5.5. THE CARE AND PROTECTION OF COUNTY HIGHWAYS

Article 1. General Provisions

1450. As used in this chapter:

(a) The term "highway" includes all or any part of the entire width of right of way of a county highway, whether or not such entire area is actually used for highway purposes.

(b) The term "encroachment" includes any tower, pole, poleline, pipe, pipeline, driveway, private road, fence, billboard, stand or building, or any structure or object of any kind or character not particularly mentioned in this section, which is placed in, under or over any portion of the highway.

(c) "Public agency" includes any city, public corporation, political subdivision, or district.

(d) "Road commissioner" means the county road commissioner appointed pursuant to Section 2006.

This chapter shall only apply to any works or facilities of any public agency or public utility if such works or facilities are installed pursuant to franchise in, under or over any public highway. This chapter shall not limit the powers and duties vested by law in the Public Utilities Commission of this state, and in the event of any conflict with regard to the powers and duties given the road commissioner in this chapter, those of the Public Utilities Commission shall prevail.

Article 2. Permit Provisions

1460. The road commissioner may issue written permits, as provided in this chapter, authorizing the permittee to do any of the following acts:

(a) Make an opening or excavation for any purpose in any county highway.

(b) Place, change or renew an encroachment.

(c) Place or display in, under or over any county highway any kind of advertising sign or device. Any such sign or device placed or displayed contrary to the provisions of this section

is a public nuisance and the road commissioner may immediately remove it. The provisions of this section shall not prohibit the posting of any notice in the manner required by law or by the order of any court of this state.

(d) Plant, remove, cut, cut down, injure or destroy any tree, shrub, plant or flower growing within any county highway.

Any person who does any of the acts specified in this section, without the authority of such a permit, is guilty of a misdemeanor.

1461. Any act done under the authority of a written permit, issued pursuant to the provisions of this chapter, shall be done in accordance with the applicable provisions of this chapter, and the terms and conditions of such permit.

1462. Any permit issued under the provisions of this chapter may provide that the permittee will pay the entire expense of replacing the highway in as good condition as before, and may provide such other conditions as to the location and the manner in which the work is to be done as the road commissioner finds necessary for the protection of the highway.

1463 Any permit issued to a public agency or a public utility having lawful authority to occupy the highways shall contain a provision that in the event the future improvement of the highway necessitates the relocation of such encroachment the permittee will relocate the same at his sole expense. In said event the road commissioner shall serve on the permittee his written demand specifying the place of relocation, and specifying a reasonable time within which the work of relocation must be commenced. The permittee must commence such relocation within the time specified in said demand and thereafter diligently prosecute the same to completion.

All permits other than those issued to public agencies or a public utility having lawful authority to occupy the highways are revocable on five days' notice and the encroachment must be removed or relocated as may be specified by the road commissioner in the notice revoking the permit and within a reasonable time specified by the road commissioner unless the permit provides a specified time.

Public utilities may be required, within a reasonable time, to relocate such of their facilities as interfere with an enlarged public use of the highway, except in those cases where the enlarged use of the highway involves a state freeway.

1464. The road commissioner may, but is not required to, supervise any work done under any permit issued under the provisions of this chapter, in which event the permittee shall pay the reasonable cost of such supervision to the road commissioner, but no cost of supervision shall be charged by the road commissioner to any public corporation, provided, however, this section shall not operate to prevent charges made pursuant to Government Code Section 6103.6.

1465. (a) Permittees may excavate openings in county highways to make repairs in cases of emergency requiring immediate action. In such cases the appropriate representative of the road commissioner shall be promptly notified of any such action, and such permittee, at his own expense, shall immediately replace such county highway in as good condition as before such excavation.

(b) A public agency supplying water service to its inhabitants may, within its corporate limits, excavate a county highway without a permit in cases of emergency requiring immediate action; but in such cases the county highway shall, at the expense of the public agency, be replaced in as good condition as before such excavation.

1466. The road commissioner may delegate to any city any of the road commissioner's powers, duties, and authority, other than those of approval, under this chapter as to any county highway, or any part thereof, within such city, and may withdraw any such delegation of authority.

1467. The road commissioner may require the applicant to file with the road commissioner a satisfactory bond payable to the people of the county in such amount as the road commissioner deems sufficient, conditioned on the proper compliance by the permittee with the provisions of this chapter.

1468. Except as otherwise provided in this section, such a bond shall not be required of any public agency or public utility having lawful authority to occupy the highways which is authorized by law to establish or maintain any works or facilities in, under or over any public highway, nor shall the application of any such public agency or public utility for a permit be denied.

The road commissioner may require of any such applicant a bond in a sum not to exceed twenty thousand dollars ($20,000), if such applicant has in fact prior to such application failed to comply with the provisions of this chapter or with the provisions of a previous permit.

1469. Any city, municipal utility district, municipal water district, public utility having lawful authority to occupy the highways or metropolitan water district is entitled to a blanket permit issued by the road commissioner, renewable annually, for the installation of its service connections and for ordinary maintenance of its facilities located or installed in county highways; but the road commissioner may revoke any such blanket permit if the permittee fails to comply with the provisions of this article. When any such permit is revoked in a proper case such municipal utility district, municipal water district or metropolitan water district or public utility is entitled to a permit only on furnishing a bond as provided in Section 1467.

1470. This chapter shall not supersede the provisions of Chapter 3 (commencing with Section 7030), Division 4 of the Water Code.

19590. No apportionment to a school district shall become final unless: (a) the total amount of outstanding bonds of the district exceeds ninety-five percent (95%) of the maximum amount of bonds which the district could have had outstanding under any law on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is less than ninety-five percent (95%) of the amount of the bonds permitted to be issued by the district, the amount of district bonds outstanding is within twenty-five thousand dollars ($25,000) of the total bond limit permitted, as of the date on which the conditional apportionment is made. At the time the board makes a conditional apportionment pursuant to Section 19571, it shall determine what portion of the total amount of bonds which a district is permitted to issue and sell by law shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought; provided, that in the event the school district has previously received apportionments, such proceeds shall first be applied toward the reduction, in chronological order beginning with the earliest, of any apportionments previously made to the district, before being applied toward the cost of the project for which an apportionment is sought, provided further that no such proceeds shall be applied toward the reduction of any apportionment for a site made pursuant to Section 19577 prior to the combination of such site apportionment with a construction apportionment pursuant to subsection (d) of Section 19577. The portion so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 19571 shall be conditioned upon the approval and sale of such bonds by the district. The amount of any apportionment for a construction project made as a consequence of applying district bond proceeds toward the reduction of prior apportionments pursuant to this section instead of applying the district bond proceeds toward the cost of such construction project, shall be excluded in determining the amount chargeable against the apportionments authorized by the electorate of the district to be accepted, expended and repaid. It is hereby declared that this

provision, added by the amendment to this section enacted at the 1958 First Extraordinary Session of the Legislature, is not intended as a change in the law, but rather as a declaration of existing law.

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to such district. Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board. The portion so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 19571 shall be conditioned upon the approval and sale of such bonds by the district.

No apportionment to a school district under this chapter shall become final, nor any agreement authorized by Section 19579.1 be entered into unless at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat, or unless such an election is a primary or general election and 60 percent of such electors voting thereat, have authorized the governing board to accept, expend and repay as provided in this chapter an apportionment under the provisions thereof or, with respect to said agreement, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated by said agreement, or by any act of its governing board or for which it is responsible, contemplated or permitted thereby. Said election shall be called, held and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words:

"Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of Chapter 10 of Division 14 of the Education Code, which amount is subject to repayment as provided by said chapter, or (2) to enter into an agreement or agreements with the state pursuant to Section 19579.1 of the Education Code, which will at the time of such agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than _____ dollars, or both. Yes _____ No _____."

SEC. 4. Section 21754 of said code is amended to read:

21754. If it appears from the certificate of election results that two-thirds of the votes cast on the proposition of issuing bonds of the district are in favor of issuing the bonds, or that the election is a primary or general election and 60 percent of the votes so cast on the proposition are in favor of issuing the bonds, the governing board of the school district shall cause an entry of that fact to be made upon its minutes. The governing board shall then certify to the board of supervisors of the county whose superintendent of schools has jurisdiction over the district, all proceedings had in the premises. The county superintendent of schools shall send a copy of the certificate of election results to the board of supervisors of the county.

SEC. 4 5. Section 27955 of said code is amended to read:

27955. The board of library trustees shall meet on the seventh day after the election, at 8 o'clock p.m., and canvass the returns. If it appears that two-thirds of the votes cast at the election were cast in favor of issuing the bonds or that the election is a primary or general election and 60 percent of the votes so cast on the proposition are in favor of issuing the bonds, the board shall enter the fact upon its minutes and shall certify all the proceedings to the supervising board of supervisors. Thereupon the board of supervisors shall issue the bonds of the district, in the number and amount provided in the proceedings, and the district shall be named on the bonds. The bonds shall be paid out of the building fund of the district.

The money for the redemption of the bonds and the payment of interest thereon shall be raised by taxation upon the taxable property in the district.

SEC. 5. Section 25211.14 of the Government Code is amended to read:

25211.14. The vote specified by the Constitution shall be required for the issuance of general obligation bonds.

SEC. 6. Section 25211.15 of said code is amended to read:

25211.15. If the proposition receives the necessary vote at the election on incurring the indebtedness, the board may by resolution, at the time or times it deems proper, provide for the following:

(a) The form of the bonds.

(b) The execution of the bonds.

(c) The issuance of any part of the bonds.

SEC. 7. Section 29908 of said code is amended to read:

29908. If the proposition receives the vote required by the Constitution, the bonds in an amount not exceeding that specified in said proposition may be issued. When two or more propositions are submitted at the same election, the votes cast for and against each proposition shall be separately counted

SEC. 8. Section 43614 of said code is amended to read:

43614. If the proposition receives the vote required by the Constitution the bonds may be issued. This act shall not be-

come operative unless and until Assembly Constitutional Amendment No. 8 of the 1965 Regular Session of the Legislature is approved by the electors.

CHAPTER 796

An act to add Section 155.2 to the Revenue and Taxation Code, Section 43006 to the Government Code and Section 17708 to the Education Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1965. Filed with Secretary of State July 6, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 155.2 is added to the Revenue and Taxation Code, to read:

155.2. Notwithstanding anything in this code to the contrary, the board of supervisors may by ordinance provide that every person who at 12 o'clock meridian of the first Monday in March, 1964, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed as a result of any forest fire occurring prior to September 30, 1964, in an area or region subsequently proclaimed by the Governor to be in a state of disaster due to major and widespread fires, may, within 30 days after the effective date of this section, make application for reassessment of such property and deliver to the assessor a written statement under oath, accompanied by a certificate of a disinterested competent person or authority, showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown therein to be in excess of five hundred dollars ($500). The assessor shall, within 60 days after the effective date of this section, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the tax-

payer has already paid the tax previously computed, such difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

For the purposes of this section, the term "forest fire" shall mean a fire which burns 100 contiguous acres or more.

SEC. 2. Section 43006 is added to the Government Code, to read:

43006. Notwithstanding any other contrary provisions of law, the city council may by ordinance provide that every person who at 12 o'clock meridian of the first Monday in March, 1964, was the owner of, or had in his possession or under his control, any taxable property, which property was thereafter damaged or destroyed as a result of any forest fire occurring prior to September 30, 1964, in an area or region subsequently proclaimed by the Governor to be in a state of disaster due to major and widespread fires, may, within 30 days after the effective date of this section, make application for the reassessment of such property and deliver to the assessing official of the city a written statement under oath, accompanied by a certificate of a disinterested competent person or authority showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown thereon to be in excess of five hundred dollars ($500). The assessor shall, within 60 days after the effective date of this section, assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the board a description of the property so reassessed, the name of the person making the application in connection with the property, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the taxpayer has already paid the tax previously computed, such difference shall be refunded to him, as an erroneously collected tax.

For purposes of this section, the term "forest fire" shall mean any fire which burns 100 contiguous acres or more.

This section shall apply to all cities, whether operating under a charter or the general laws of this state.

SEC. 3. Section 17708 is added to the Education Code, to read:

17708. If a board of supervisors or city council has adopted an ordinance pursuant to Section 155.2 of the Revenue and Taxation Code or Section 43006 of the Government Code, the county superintendent of schools, on behalf of any school district under his jurisdiction, when such district or portion of a district is located in a county situated in an area proclaimed by the Governor to be in a state of disaster as a result of a forest fire occurring prior to September 30, 1964, may file an application with the Superintendent of Public Instruction to compute district aid for the district under this section.

The application shall be forwarded to the Superintendent of Public Instruction on or before May 15, 1965, in the form and manner prescribed by the Superintendent of Public Instruction.

Upon receipt of such a request, the Superintendent of Public Instruction shall, in computing district aid, reduce the amount of the total assessed valuation in the district as shown by the equalized assessment roll for the fiscal year 1964–1965 by the amount that such assessed valuation is reduced pursuant to Section 155.2 of the Revenue and Taxation Code and Section 43006 of the Government Code.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. Facts constituting such necessity are:

The disastrous and extensive forest fires which occurred in several counties of the state in September of 1964, which counties were proclaimed by the Governor to be in a state of disaster, destroyed and damaged property to such an extent that unless partial relief from taxation is given to the owners thereof, there is grave danger that they may be unable to pay the taxes currently levied thereon. Section 2.8 of Article XIII of the Constitution authorizes the Legislature to provide for appropriate relief from ad valorem taxation in such situations. In order that such relief may be afforded at the earliest possible time to the people in these stricken areas, it is necessary that this act go into immediate effect.

1197.5. (a) No employer shall pay any female in his employ at wage rates less than the rates paid to male employees in the same establishment for the same quantity and quality of the same classification of work; provided, that nothing herein shall prohibit a variation of rates of pay for male and female employees engaged in the same classification of work based upon a difference in seniority, length of service, ability, skill, difference in duties or services performed, whether regularly or occasionally, difference in the shift or time of day worked, hours of work, or restrictions or prohibitions on lifting or moving objects in excess of specified weight, or other reasonable differentiation, factor or factors other than sex, when exercised in good faith.

The consent of any employee to the bringing of any such action shall constitute a waiver on the part of the employee of her cause of action under subdivision (g) unless such action is dismissed without prejudice by the department or the division.

(g) Any woman receiving less than the wage to which she is entitled under this section may recover in a civil action the balance of such wages, together with the costs of suit, notwithstanding any agreement to work for a lesser wage.

(h) The burden of proof in any civil action shall be upon the person bringing the claim to establish that the differentiation in rate of pay is based upon the factor of sex and not upon other differences, factor or factors

(i) A civil action to recover wages under subdivision (a) of this section may be commenced no later than two years after the cause of action occurs, if the female employee does not have knowledge of such violation, and not later than 180 days after the cause of action occurs if the employee has knowledge of such violation.

SEC. 4. Section 4603 of said code is amended to read:

4603. This chapter does not affect any other law under which improvements may be made within or by any city but it provides an alternate system of proceedings for sewer work or improvement. Improvements may be made either pursuant to this chapter, or pursuant to any other law. If, however, any proceedings are commenced pursuant to this chapter, its provisions apply to any improvement made under those proceedings until such improvement is completed.

If, after an improvement has been made pursuant to this chapter, the governing body of any city determines that it is necessary or convenient to make any additional improvement, the governing body may proceed to do so either pursuant to this chapter or under any other appropriate law. If the additional improvement is made pursuant to this chapter for the same district, the procedure shall be the same as that which is provided under this chapter for the making of the initial improvement. It is not necessary to reform the district if the governing body finds, following the hearing which is provided for by Section 4611 that the additional improvement is of benefit to the entire district which was previously formed under this chapter as such district is then constituted. As an alternative method, the governing body may make such additional improvement by forming a new district pursuant to this chapter which may include, in whole or in part, territory which is included in any district previously formed pursuant to this chapter.

SEC. 5. Section 4605 of said code is amended to read:

4605. The governing body of any city may create an improvement district within the city pursuant to this chapter whenever in its judgment the district is necessary or convenient for proper sanitation, drainage, or flood control.

4606. A district may be formed to make any improvement and to provide for the incurring of indebtedness to pay for the costs and expenses of such improvement.

SEC. 7. Section 4607 of said code is amended to read:

4607. Whenever the governing body of a city determines that the public interest or convenience requires the making of any improvement in any part of the territory of the city, it may pass a resolution to that effect. The resolution shall be passed by a vote of at least two-thirds of the members of the governing body. It shall describe the improvement in general terms. For the purpose of such description, reference may be made to maps, plats, plans, or other documents on file in the office of the clerk of the city. Any improvements may be combined into a single project, the indebtedness for which is to be submitted to the electors as a single proposition.

The resolution shall also contain the total dollar amount of a general estimate of the costs and expenses of the proposed improvement. In arriving at such estimate, the governing body may include the estimated amounts of any or all of the items which are set forth in Section 4625. The resolution need not, however, itemize or separately state any of the items included in the costs and expenses.

SEC. 8. Section 4609 of said code is amended to read:

4609. The resolution shall do all of the following:

(a) Describe the boundaries of the proposed district. The district may consist of two or more noncontiguous parcels.

(b) Designate the district by a distinctive name and number.

(c) Declare the district to be the district benefited by the proposed improvement.

(d) Name a time and place for the hearing of objections by any person interested in the formation of the district, in the inclusion within the district of any land within the boundaries described in the resolution or in the making of the proposed improvement.

SEC. 9. Section 4611 of said code is amended to read:

4611. On the day fixed for the hearing, or any day to which the hearing is continued, the governing body shall hear and consider all written and oral objections presented to the formation of the district, the inclusion of any lands in the district, or the making of the improvement which is proposed.

At the hearing, the governing body may make changes in the improvement but the estimated costs and expenses of the improvement as changed, as determined by the governing body at the time of the change, shall not exceed by more than 10 percent the amount determined under Section 4607.

At the hearing, the governing body may exclude from the district any territory that in its opinion would not be benefited by the improvement as finally determined. The governing body shall not, however, modify the boundaries of the proposed district so as to exclude from it any land which would in the judgment of the governing body be benefited by the improvement as finally determined nor shall the governing body include in the proposed district any lands which will not in its judgment be so benefited.

SEC. 10. Section 4612 of said code is amended to read.

4612. After making all necessary and proper changes in the boundaries, or in the improvement, the governing body may, by a resolution which is passed by a vote of two-thirds of all of its members, establish the district, fix and determine its boundaries, and generally describe the improvement as finally determined. This resolution, together with the names of the members of the governing body voting for and against it shall be spread upon the minutes of the governing body.

SEC. 11. Section 4614.1 of said code is amended to read:

4614.1. Districts may be formed pursuant to this article for the purpose of making any improvement which will be of benefit to territory partially within the initiating city and partially within any other city or within unincorporated area of the same county, or both.

SEC. 12. Section 4614.2 of said code is amended to read:

4614.2. Any city may initiate proceedings for the formation of a district and the making of improvements pursuant to this article whenever the governing body of such city determines that it is desirable that a district be organized pursuant to this article. Except as otherwise provided in this article, the procedure for the formation of a district pursuant to this article shall be the same as the procedure which is provided in this chapter where the district is within a single city.

SEC. 13. Section 4614.5 of said code is amended to read:

4614.5. Whenever the governing body of each city which is included in whole or in part within the district which is to be organized, and the board of supervisors if the district includes any unincorporated territory, has consented to the formation of the district by filing a resolution of concurrence with the governing body of the initiating city, the governing body of the initiating city has full jurisdiction to proceed with the formation of the proposed district. Upon the filing with the governing body of the initiating city of all necessary concurring resolutions of the governing body of any city or of the board of supervisors of the county, as the case may be, the governing body of the initiating city has the sole and exclusive jurisdiction to proceed with the formation of the district, to conduct all hearings on the formation of the district, to make all necessary changes in the boundaries of the proposed district or improvement, to conduct all proceedings on the formation of the district and to take any other action permitted by this chapter with like force and effect as though such district were wholly within the boundaries of the initiating city. The governing body of the initiating city shall not, however, add to the district at the hearing which is provided for by Section 4611 any territory within another city or within unincorporated territory unless it first obtains a consent to such addition which is expressed by a resolution adopted by the governing body of such other city or by the board of supervisors, as the case may be.

SEC. 14. Section 4614.11 of said code is amended to read:

4614.11. Upon the formation of any district pursuant to this article, the district shall be governed by and under the jurisdiction of the governing body of the initiating city. The governing body of the initiating city may conduct all of the affairs of the district, call and hold bond elections in the district, construct all improvements in the district, cause taxes to be levied and collected upon all taxable property in the district, and pass such necessary legislation as may be required for proper sanitation, sewage, and flood control purposes, with the same force and effect as though all of the area in the district were included within the boundaries of the initiating city.

SEC. 15. Section 4615 of said code is amended to read:

4615. At any meeting after the passage and recording of the resolution establishing the district, the governing body may, by a resolution passed by a vote of two-thirds of all its members, call an election to be held in the district for the purpose of voting on the question of incurring indebtedness for the purpose of making the improvement as finally determined.

SEC. 16. Section 4616 of said code is amended to read:

4616. The resolution calling the special election shall do all of the following:

(a) Describe the boundaries of the district as finally determined and refer to the district by its name and number.

(b) Describe in general terms the improvement as finally determined and state the dollar amount of the estimated cost and expenses of the proposed improvement, which amount shall not exceed by more than 10 percent the amount determined under Section 4607.

(c) State the amount of the principal of the indebtedness to be incurred for the purpose of paying the costs and expenses, which amount shall not exceed the estimate under subdivision (b) of this section.

(d) State the rate of interest or a maximum rate of interest to be paid on the indebtedness, which rate shall not be more than the rate specified in this chapter.

(e) Fix the date on which the special election shall be held.

(f) Determine the manner of holding the election, and the manner of voting for or against the incurring of the indebtedness.

SEC. 17. Section 4623 of said code is amended to read:

4623. The governing body may issue and sell the bonds at not less than their par value. The proceeds of the sale shall be placed in the city treasury to the credit of the proper improvement district fund and shall be applied exclusively to the purposes and objects specified in the resolution calling the election.

SEC. 18. Section 4625 of said code is amended to read:

4625. In determining the amount of bonds to be issued, the legislative body may include all of the following:

(b) All engineering, inspection, legal, and fiscal agent's fees, expenses in connection with the formation of the district, costs of the bond election and of the issuance of the bonds, bond reserve funds and working capital, and bond interest estimated to accrue during the construction period and for a period of not to exceed 12 months after completion of construction.

SEC. 19. Section 4627 of said code is amended to read:

4627. Any contract for the construction of any improvement may be let and entered into as other contracts for similar work are let and entered into by the city. If the improvement includes the acquisition of any property, the city may acquire such property by purchase, gift, eminent domain, or otherwise.

SEC. 20. Section 4634 of said code is amended to read:

4634. Instead of letting contracts for the improvement, the city may itself construct or complete the improvement, and buy the necessary materials, and employ the necessary labor.

SEC. 21. Section 4636 of said code is amended to read:

4636. The governing body of each city in which an improvement is being made or acquired pursuant to this chapter may make all needful rules and regulations for carrying out and maintaining the improvement, and may appoint all agents, superintendents, and engineers necessary properly to look after the construction and operation of the improvement. However, in any city operating under a charter framed pursuant to Section 8 of Article XI of the Constitution of the state which has a board or department of public works, the powers and duties of the governing body which are stated in this section may be exercised and performed by the city board or department of public works.

SEC. 22. Section 4636.8 of said code is amended to read:

4636.8. SECTION 1. Article 6 (commencing with Section 50140) is added to Chapter 1, Part 1, Division 1, Title 5 of the Government Code, to read:

Article 6. Reimbursement for Use of Drainage Structures

50140. Whenever any statute, ordinance, or regulation requires that as a condition to the erection of one or more buildings or structures, sewers, drains, or other facilities for sewers or drains, or both, be installed, and where, in the opinion of the legislative body of the local agency in which such buildings or structures will be located, laterals or other facilities must be constructed which can be or will be used for the benefit of property other than that on which such buildings or structures are, or will be erected and such sewers, drains, or other facilities are dedicated to the public, the legislative body or bodies of the local agency or agencies in which any portion of such other properties are situated may by contract with the person erecting such buildings or structures agree to reimburse and may reimburse such person for such lateral or other facility. Such contract shall provide that each governing body may collect from any person using the lateral or other facility for the benefit of property subject to the jurisdiction of such governing body but other than the property on which such buildings or structures are erected, a reasonable charge for such use.

50141. Whenever the legislative body of a local agency pursuant to this article has reimbursed or agreed to reimburse a builder for the construction of a lateral or other facility, which can or will be used by persons for the benefit of property other than the property on which such buildings or structures are or will be erected, such governing body may impose and collect for such use within its jurisdiction, a reasonable charge.

50142. The word "person" as used in this article in reference to a person liable to pay a charge includes districts formed for the purpose of constructing or maintaining sewers. Charges imposed on such districts pursuant to this article shall be included in assessments levied for district purposes and in any bonds which may be issued by such districts.

SEC. 2. Section 11543.5 of the Business and Professions Code is amended to read:

11543.5. A local ordinance may require the payment of a fee as a condition of approval of a final subdivision map for purposes of defraying the actual or estimated costs of constructing planned drainage facilities for the removal of surface and storm waters from local or neighborhood drainage areas.

Such local ordinances may require payment of fees pursuant to this section if:

(1) The ordinance has been in effect for a period of 30 days prior to the filing of the tentative map of any subdivision for which payment of a fee is required;

(2) The ordinance refers to a drainage plan adopted for a particular drainage area, which contains an estimate of the total costs of constructing the local drainage facilities required

by the plan, and a map of the drainage area showing its boundaries and the location of planned drainage facilities;

(3) The drainage plan, in the case of a city, situated in a county having a countywide general drainage plan, has been determined by resolution of the governing body of the county to be in conformity with the county drainage plan, or in the case of a city situated in a county not having a countywide general drainage plan but in a district having a general drainage plan, has been determined by resolution of the governing body of the district to be in conformity with the district general plan, or in the case of a city situated in a county having a countywide general drainage plan and in a district having a general drainage plan, has been determined by resolution of the governing body of the county to be in conformity with the county drainage plan and by resolution of the governing body of the district to be in conformity with the district general plan;

(4) The costs, whether actual or estimated, are based upon findings by the governing body that subdivision and development of property within the planned local drainage area will require construction of the facilities described in the drainage plan, and that the fees are fairly apportioned within the local drainage area either on the basis of benefits conferred on property proposed for subdivision or on the need for local drainage facilities created by the proposed subdivision and development of other property within the local drainage area;

(5) The fee as to any property proposed for subdivision within a local drainage area does not exceed the pro rata share of the amount of the total actual or estimated costs of all facilities within the local drainage area which would be assessable on such property if such costs were apportioned uniformly on a per acre basis.

(6) The drainage facilities planned are in addition to existing local drainage facilities serving the area at the time of the adoption of the drainage plan for the area.

Fees required by an ordinance adopted pursuant to this section shall be paid into a "planned local drainage facilities fund." A separate fund shall be established for each local drainage area. Moneys in such fund shall be expended solely for the construction or reimbursement for construction of local drainage facilities within the planned local drainage area from which the fees comprising the fund were collected. An ordinance adopted pursuant to this section may provide for the acceptance of cash or other consideration in lieu of the payment of fees.

A county or city imposing fees pursuant to this section may advance money from its general fund to pay the costs of constructing drainage facilities within a local drainage area and reimburse the general fund for such advances from the planned local drainage facilities fund for the local drainage area in which the drainage facilities were constructed.

A county or city imposing fees pursuant to this section may incur an indebtedness for the construction of drainage facilities within a local drainage area; provided that the sole security for repayment of such indebtedness shall be moneys in the planned local drainage facilities fund.

SEC. 3. Section 11543.6 is added to said code, to read:

11543.6. Any city or county within a drainage area may adopt the plan and map designated in Section 11543.5 and impose a reasonable charge on property within the area which, in the opinion of the legislative body, is benefited by the drainage facilities. The charge collected must be paid to the county, city, or subdivider constructing the drainage facilities pursuant to Sections 11543 or 11543.5, and any city or county within the drainage area may enter into a reimbursement agreement with the subdivider.

SECTION 1. Section 22425 of the Water Code is amended to read:

(b) Works being constructed.

(c) Stock of domestic or foreign corporations owning water, water rights, canals, waterworks, franchises, concessions, or rights.

(d) Works by which land has been or may be supplied with water for irrigation.

(e) Property not otherwise authorized herein that may be required as a condition to obtaining state financial assistance for local projects as set forth in Chapter 5 (commencing with Section 12880), of Part 6, Division 6, of the Water Code.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The laws applying to an irrigation district, as now worded, do not clearly confer upon a district all of the power conferred upon the district by this act, although such power, if not expressly, is impliedly conferred and intended to be so conferred. Public funds have heretofore been voted and provided to construct for certain irrigation districts dams and reservoirs which are now under construction and which will not only furnish water for beneficial uses but have already and will continue to prevent substantial flood damage to property. The development of these pending projects by irrigation districts which now include areas and facilities intended for the purposes specified in this act will serve a necessary and desirable public purpose and effect material economies in the cost if such lands are acquired at the same time as the lands for the reservoir and dam sites are being acquired, and to accomplish these purposes it is necessary that this act take effect immediately.

3. The plaintiff must then produce the evidence on his part;
4. The defendant may then open his defense, if he has not done so previously;
5. The defendant may then produce the evidence on his part;
6. The parties may then respectively offer rebutting evidence only, unless the court, for good reason, in furtherance of justice, permit them to offer evidence upon their original case;
7. When the evidence is concluded, unless the case is submitted to the jury on either side or on both sides without argument, the plaintiff must commence and may conclude the argument;
8. If several defendants having separate defenses, appear by different counsel, the court must determine their relative order in the evidence and argument;
9. The court may then charge the jury.

[Approved by Governor July 6, 1965. Filed with Secretary of State July 6, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 21337 of the Government Code is amended to read:

21337. If a member who is a local fireman or policeman dies prior to retirement but after having qualified for retirement by age and length of service, in circumstances in which

the basic death benefit is payable, and leaving a surviving wife or one or more children under age 18, or both, in lieu of the basic death benefit a monthly allowance equal to one-half of the unmodified retirement allowance which the member would have been entitled to receive if he had retired on the date of his death shall be payable:

(a) To the surviving wife of a male member as long as she lives or until her remarriage; or

(b) To the children under age 18 collectively of a female member, or of a male member if there is no surviving wife or if the surviving wife dies or remarries before all children of the deceased member attain age 18, until every child dies or attains age 18, provided that no child shall receive any allowance after marrying or attaining the age of 18.

Where a member does not have a surviving wife nor any children under the age of 18 years at the time of his death, no allowance shall be payable under this section.

A beneficiary under subdivision (a) of this section, or the legal representative of the beneficiaries under subdivision (b) of this section, may elect before the first monthly allowance is paid to receive an amount equal to the basic death benefit in lieu of the benefits provided for herein.

This section shall apply only to a contracting agency, and its employees, which elected to be subject to it before October 1, 1965, and which has not elected to be subject to Section 21365.5 of this part. A contracting agency subject to this section shall cease to be so subject on the effective date of an amendment to its contract making it subject to Section 21365.5 of this part.

SEC. 2. Sec. Section 21365 5 of said code is amended to read:

21365.5. Upon the death of a member who has attained the minimum age for voluntary service retirement applicable to him in his last employment preceding death, and who is credited with 20 or more years of state service, and in circumstances in which the basic death benefit is payable other than solely that of membership in a county retirement system, or a retirement system maintained by the university, a monthly allowance equal to one-half of and derived from the same source as the unmodified retirement allowance which the member would have been entitled to receive if he had retired for service on the date of his death shall be payable:

(a) To the surviving wife of a male member as long as she lives or until her remarriage; or

(b) To a dependent surviving husband of a female member as long as he lives or until remarriage.

(c) To the children under age 18 collectively if there is no surviving spouse or if the surviving spouse dies or remarries before all children of the deceased member attain age 18, until every child dies or attains age 18; provided, that no child shall receive any allowance after marrying or attaining the age of 18.

Where a member does not have a surviving spouse nor any children under the age of 18 years at the time of death, no allowance shall be payable under this section.

No allowance shall be payable under this section if a special death benefit or a benefit under Section 21337 is payable.

The allowance provided by this section shall be paid in lieu of the basic death benefit but a person or such person's guardian, qualifying for the allowance may elect before the first payment on account of it to receive such basic death benefit in lieu of the allowance.

Any person who is receiving the allowance under this section on October 1, 1959, shall have the right to elect, not later than ninety (90) days after the date upon which notice of such right is mailed to him by this system, to receive in lieu of further payments of the allowance, a sum equal to the excess of the basic death benefit which was otherwise payable on account of the member's death over the sum of the monthly payments made prior to such election.

If the total of the payments made hereunder is less than the basic death benefit which was otherwise payable on account of the member's death, the amount of the basic death benefit less any payments made pursuant to this section shall be paid in a lump sum as follows:

(a) If the person last entitled to the allowance is the remarried spouse of such member, to such spouse;

(b) Otherwise, to the surviving children of the member, share and share alike, or if there are no such children, to the estate of the person last entitled to the allowance.

The board shall compute the amount by which benefits paid pursuant to this section exceed the benefits which would otherwise be payable and shall charge any such excess against the contributions of the state so that there shall be no increase in contributions of members by reason of benefits paid pursuant to this section. As used in this section, "a surviving wife" means a wife that was married to the member for at least one year prior to his death, a "dependent surviving husband" means a dependent husband that was married to the member for at least one year prior to the member's death, and "child" includes a posthumously born child of the member.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment of its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the time this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

If no bonded indebtedness is proposed to be incurred and the project to be approved by the voters is a contract with the United States for a water supply for any purpose, the board may proceed with the project if at the election two-thirds or more of the votes are cast in favor of ratifying the adoption of the report by the board.

SECTION 1. Section 2 of Chapter 1697 of the Statutes of 1955 is amended to read:

Sec. 2. If a toll tube or other toll highway crossing described in Section 1 of this act is constructed, and will accommodate a substantial part of the traffic served by a privately owned toll bridge, ferry, tube, or other toll highway crossing, the authority shall authorize and direct the department to acquire such ferry and its property required for its operations either through mutual agreement with the ferry owners or by the exercise of eminent domain. The authority shall provide in the mutual agreement or in the exercise of eminent domain that the owners of the ferry shall through a process of collective bargaining pay operating, maintenance and toll collection personnel the actuarial value of accrued pension rights and in addition thereto, if such toll bridge, ferry, tube or other toll highway crossing is not to be operated by the authority, shall pay not exceeding one basic month's severance pay for each year of service up to and including 25 years to any of such personnel as are not offered employment by any state agency under the conditions hereinafter set forth in Section 3 of this act. As used in this act, the term "basic month's severance pay" shall mean the employee's hourly wage at straight time multiplied by 173.3 hours. The authority shall reimburse the owners for the amounts so paid respecting accrued pension rights but not exceeding the amounts which the owners could have been required to pay under any collective bargaining agreement in effect at the time the authority authorizes construction of the toll tube or other toll highway crossing, by applying to all operating, maintenance and toll collection personnel the formula of any collective bargaining agreement in effect on April 1, 1963. The authority shall also reimburse the owners for the amounts so paid respecting severance pay but not exceeding one basic month's severance pay for each year of service with the toll bridge, ferry, tube or other toll highway crossing up to and including 25 years. In making such reimbursements respecting both accrued pension rights and severance pay, the obligation of the authority shall, notwithstanding any other provision of this act, be limited to making reimbursement for payments made by the owner to personnel who, on the date the authority authorizes construction of the proj-

ect, are not eligible, under the terms of any retirement plan then in effect, for immediate retirement.

The authority may authorize the department to operate a toll bridge, ferry, tube, or other toll highway crossing which has been acquired, with the personnel theretofore employed thereon, until such time as the authority and the department in their discretion deem it necessary or desirable to discontinue operations, in which event the authority shall authorize and direct the department to discontinue the toll bridge, ferry, tube, or other toll highway. At the time the authority directs the department to discontinue the operation of the toll bridge, ferry, tube, or other toll highway crossing, it shall also direct the department to pay the personnel engaged in the operating, maintenance and toll collection functions thereof one month's severance pay for each year of service up to and including 25 years.

SEC. 2. Section 3 is added to said chapter, to read:

Sec. 3 Severance pay shall not, however, be payable to any such personnel who are offered permanent employment and who become permanent employees of any state agency under the following conditions:

1. The rate of pay shall be substantially the same as that received at the time operations are discontinued.

2. The place of employment shall be within a radius of 50 miles of the City of San Diego unless the employee, at his option, accepts employment at a place outside said 50-mile radius.

3 Any employee who accepts employment with a state agency and whose employment is terminated by said agency prior to the expiration of his probationary period for any reason which is the fault of said employee shall not be entitled to severance pay.

SEC. 3 Section 4 is added to said chapter, to read:

Sec 4. An employee eligible for retirement under any collective bargaining agreement with the owners of a privately owned toll bridge, ferry, tube, or other highway crossing who accepts such retirement shall not be entitled to severance pay.

SEC. 4. Section 5 is added to said chapter, to read:

Sec. 5. In the employment of personnel the department shall, insofar as possible, employ persons displaced from their usual positions with a privately owned toll bridge, ferry, tube, or other highway crossing, because of the operations of the authority and department, and pay said personnel substantially the same rates of pay which such persons received in private employment.

SEC. 5. Section 6 is added to said chapter, to read:

Sec. 6. In the event that the authority determines it to be necessary or desirable in connection with the financing of the crossing, it shall authorize and direct the department to acquire by mutual agreement with the ferry owners or by the exercise of eminent domain any passenger ferry operating

across the Bay of San Diego which is engaged in the transportation of persons and property other than vehicles. If the authority directs the department to acquire any such passenger ferry, the provisions of this chapter, to the extent applicable, shall apply to such acquisition, provided, however, that no pension rights shall be created by such acquisition, and the provisions of this chapter relating to pension rights shall be applicable only with respect to pension rights in existence prior to May 1, 1965. In addition to the requirements of this chapter relating to eligibility for severance pay, no employee of such passenger ferry company shall be entitled to severance pay unless his employment with such passenger ferry company is necessarily terminated as a result of the acquisition of the passenger ferry company's facilities. Should the department be directed to acquire such passenger ferry, the department shall be required to acquire only such facilities of the passenger ferry company as are used exclusively for the operation of the passenger ferry service across the Bay of San Diego.

(b) In any separate elementary school district the boundaries of which are not coterminous with those of a high school district and whose current expenses of education for the 1963–1964 or 1964–1965 fiscal year were less than twice the amount of the foundation program applicable to the district, one dollar and twenty-five cents ($1.25) for elementary school purposes, or one dollar and thirty-five cents ($1.35) for combined kindergarten and elementary school purposes.

If any such voted increase in effect on such effective date results in a maximum rate which is less than that prescribed in subdivision (1) of this section as so amended in 1964, the maximum rate of such district shall be that prescribed in subdivision (1) of this section as so amended. Nothing in this section shall be construed to prevent a change in the maximum tax rate of a school district subject to and in the manner prescribed by Section 20803.

(c) A membership contract shall be deemed to be deceptive if the contract taken as a whole, and with consideration given to typography and format, as well as language, shall be such as to cause a reasonable person, not possessing special knowledge regarding health care coverage and contracts therefor, to expect benefits, services, rates or other advantages which the contract does not provide or which the health care service plan issuing such contract does not regularly make available for members covered under such contract.

12532. It shall be a violation of this article for any health care service plan or any representative of a health care service plan to use, or cause, or knowingly permit the use of:

12533. If the Attorney General shall for any reason have cause to believe that any violation of this article has occurred or is threatened, the Attorney General may give written notice to the health care service plan and to the representatives, or other persons who appear to be involved in such suspected violation, to arrange a conference with the alleged violators or their authorized representative for the purpose of attempting to ascertain the facts relating to such suspected violation, and,

in the event it appears that any violation has occurred or is threatened, to arrive at an adequate and effective means of correcting or preventing any such violation.

Proceedings under this section shall not be governed by any formal procedural requirements, and may be conducted in such manner as the Attorney General may deem appropriate under the circumstances.

12534. The Attorney General acting in the name of the state may issue an order directing a health care service plan or a representative of a health care service plan to cease and desist from engaging in any act or practice in violation of the provisions of this article.

Within 15 days after service of the order of cease and desist, the respondent may request a hearing on the question of whether acts or practices in violation of this article have occurred. Such hearings shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and judicial review shall be available as provided by Section 11523 of the Government Code.

12535. In the case of any violation of the provisions of this article, if the Attorney General elects not to issue a cease and desist order, or in the event of noncompliance with a cease and desist order issued pursuant to Section 12534, the Attorney General may institute a proceeding to obtain injunctive relief, in receivership, or seeking other appropriate relief, in the superior court in and for the county in which the violation occurs, or in which the principal place of business of the plan is located. Any proceeding under this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the Attorney General shall not be required to allege facts tending to show the lack of an adequate remedy at law or tending to show irreparable damage or loss.

12536. This article does not:

(a) Authorize any person, other than a licentiate of a healing art, acting within the scope of his license, to engage directly or indirectly in the practice of any healing art;

(b) Affect in any manner the practice of any healing art by any person duly licensed to engage in such practice;

(c) Repeal, alter, modify, or otherwise affect Division 2 (commencing with Section 500) of the Business and Professions Code, or any section thereof; or any act defining, or governing, or regulating the practice of any healing art.

(d) Authorize any governmental agency to regulate rates, or prescribe or limit benefits to be provided for by membership contracts issued by health care service plans.

(e) Authorize any person to regulate, interfere or intervene in any manner in the practice of any healing art or in the relationship between the practitioner of any healing art and his patients.

(f) Authorize any governmental agency to adjust claims in which a determination must be made as to the interpretation of the contract terms, or to determine the adequacy of the services rendered pursuant to the contract, provided that this provision shall in no way modify, restrict or otherwise affect the jurisdiction of the Attorney General or other governmental agency derived from authority extrinsic to this article.

12537. The Attorney General shall maintain a register of health care service plans. On or before March 31 of the calendar year following the effective date of this article and annually thereafter, each health care service plan shall register with the Attorney General by submitting the name, organizational form and principal place of business of the plan and the following:

(a) A form of each standard membership contract which the plan proposes to issue, including standard forms in use on the date of submission.

(b) Copies of all advertising which the plan proposes to use.

(c) Such other pertinent and relevant information as the Attorney General may reasonably require for the proper administration of this article; provided, however, that

(1) Nothing in this article shall affect or modify the physician-patient relationship prescribed in Section 1881 of the Code of Civil Procedure; and

(2) All information furnished under this paragraph (c) shall be kept confidential by the Attorney General, except to the extent that it may be produced in any judicial or administrative proceeding and may be admissible in evidence therein.

12538. Every health care service plan in operation as of the effective date of this article shall register with the Attorney General on or before January 1, 1966.

Any plan which is not in operation as of the effective date of this article shall not commence to operate until 30 days after such plan has filed a complete registration with the Attorney General.

For purposes of this section, a plan shall be deemed to be in operation on the effective date of this article if and only if it has arrangements in effect with a provider of health care service and is providing health care coverage to the public generally or to some group or groups thereof

Every health care service plan shall reregister with the Attorney General annually after its initial registration on or before December 31st of each year.

12538.1. In the case of any contract covering a single individual or family unit, and in the case of any contract with a group of less than 50 individuals or family units pursuant to which there is no contribution toward prepayment from either a health and welfare trust fund or by an employer or by payroll deduction, the following provisions shall apply:

(a) Before any change in the form of such contract is made or before any new form of contract is adopted, the proposed

change or proposed new contract shall be submitted to the Attorney General who shall within 30 days forbid its use if he determines that the contract as proposed does not conform to the requirements of this article. He may issue rules prescribing the procedure for such submission. If requested, he shall confer with representatives of the plan after notifying the plan of such determination. Such notice may be mailed to the address of the plan set forth in his register or if it is nonregistered then to such address as he may have. It is a violation of this article to issue a membership contract subject to this section if the form of contract has not been submitted or has been submitted less than 30 days without notice that it conforms to the requirements of this article or after notice that it does not so conform.

(b) Any membership contract in force may be continued in force without change unless the Attorney General notifies the plan in the manner above specified that the form of the contract or the manner of use violates this article. It is a violation of this article to maintain such a contract in force more than 90 days after such notice except for the purpose of continuing to afford health care service to a member under such contract, unless prior to expiration of the 90 days the plan brings an action to nullify or vacate such notice. In case of such action, unless the court otherwise orders, it is a violation of this article to maintain the contract in force after final judgment determining that the form of the contract or the manner of its use violates this article.

12538.2. In lieu of a notice of noncompliance under Section 12538.1, the Attorney General may accept a written statement by the plan agreeing to a practice or interpretation of part or all of the contract which he determines will, if followed, obviate the effect on the members of the alleged noncompliance. He may require such a statement as a condition of withdrawing a notice of noncompliance.

12538.3. The books and records of any health care service plan shall be open to inspection or examination of the Attorney General at all times during normal business hours.

12538.4. Upon registration, each health care service plan shall pay a registration fee of six cents ($0.06) for each individual or family unit covered as of the close of its last accounting year; except that the minimum registration fee shall be one hundred dollars ($100) as it is the legislative intent that this measure be self-supporting. Any prepaid drug plan entered into by the State Department of Social Welfare for recipients of public assistance shall not be subject to said registration fee.

12538.5. The Attorney General may adopt, amend, or repeal such rules and regulations as are necessary for the enforcement of the provisions of this act Such rules and regulations shall be adopted, amended, or repealed in accordance with the provisions of the Administrative Procedure Act.

12539 This article shall be known and may be cited as the Knox-Mills Plan Act.

58752. The issuance of any proposed district bonds shall be subject to prior investigation, report, and approval by the commission whenever all of the following conditions are present:

(a) There are less than 500 registered voters residing within the district; and

(b) The amount of the outstanding district indebtedness plus the principal amount of the proposed district bonds shall exceed 200 percent of assessed value of the real property within the district; and

58754. If any bonds proposed to be issued under the Improvement Bond Act of 1915 will, upon their issuance, be eligible for investment of funds in the Retirement Fund, under and pursuant to the provisions of the State Employees' Retirement Law, such bonds shall not be subject to prior investigation, report, and approval by the commission.

58755. If the board of directors of a district determines that the proposed issuance of any district or subdistrict bonds is subject to prior investigation, report, and approval by the commission, application and proceedings for such investigation, report, and approval shall be made and taken, as provided in Section 58758.

58756. If the board of directors of a district determines that the issuance of any district or subdistrict bonds is not subject to prior investigation, report, and approval, said board shall adopt a resolution so determining. Said resolution shall contain all such data and information concerning the matters referred to in Sections 58752 to 58754, inclusive, as may be necessary to ascertain the applicability of said sections. A certified copy of such resolution shall be filed with the commission at least 14 days prior to the proposed date, if any, for the issuance of all or any part of any such bonds.

58757. Within 10 days after the date of filing of the resolution provided for by Section 58756, the executive secretary of the commission shall give written or telegraphic notice to the clerk or secretary of the district or the governing body thereof stating either (i) that the proposed bonds referred to in said resolution do not appear to be subject to prior investigation, report, and approval by the commission or (ii) that there are reasonable grounds to believe that some or all of the determinations made in said resolution may be substantially in error or that there has been a change of circumstances which may substantially affect any such determinations and that the commission will hold a hearing to review such determinations, specifying the time and place of such hearing. Said hearing shall be held not earlier than 7 nor later than 35 days after the date of giving such notice unless the district shall consent to an earlier or later time for such hearing. After

receipt of any notice providing for any such hearing and review the legislative body shall not issue all or any part of the proposed bonds until (i) the commission has found that such determinations are substantially correct or have not been substantially affected by a change of circumstances, or (ii) the commission has investigated, reported, and approved the issuance of such proposed bonds. The hearing shall be concluded upon the date specified in the notice unless the district shall consent to a continuance of the hearing. At the conclusion of the hearing and any continuance thereof, the commission shall determine whether the issuance of the proposed bonds is subject to investigation, report, and approval by the commission, as provided in Section 58758, and shall immediately notify the district of such determination. The district shall be entitled to appear and be heard at any such hearings.

58758. Unless it shall be determined that the proposed issuance of bonds is not subject to investigation, report, and approval by the commission, no district shall issue any bonds until the commission shall have made an investigation, report, and approval thereon. All such investigations, reports, and approvals shall be made under and pursuant to Division 10 (commencing at Section 20000) of the Water Code. The provisions of Section 20004 of the Water Code shall apply to all investigations, reports, and approvals. The commission shall complete its investigation, report, and approval within 60 days after the date of filing with it of a resolution of application of a district for such investigation, report, and approval, unless the applicant-district gives written consent to an extension of time.

58759. If the bonds of any district shall be certified pursuant to Division 10 (commencing at Section 20000) of the Water Code, the provisions of said Division 10 shall continue to apply to such district (i) so long as any such bonds shall be outstanding, or (ii) until the legislative body of said district determines by resolution that said district is no longer subject to the jurisdiction of said commission, whichever may be earlier. Any such resolution and the determinations made therein shall be made and filed and be subject to review in accordance with Sections 58752, 58753, 58754, 58756 and 58757, except that the determinations shall be based upon the outstanding indebtedness, assessed value, population and areas within the district or the subdistrict, as the case may be, as the same exist on the date of adoption of said resolution.

58760. Failure of the board of directors of a district or of the commission to comply with the provisions of this chapter shall not invalidate any bonds issued by a district; provided, that if any bonds so issued shall be a part of a larger issue or series of bonds, no authorized but unissued portion of said bonds shall thereafter be issued except upon compliance with the provisions of this chapter.

58761. The intentional failure or refusal by any member of the board of directors of a district or any member of the

commission to comply with the provisions of this chapter shall constitute willful or corrupt misconduct in office and such member may be removed from office in the manner provided by Article 3 (commencing at Section 3060) of Chapter 7, Division 4, Title 1.

SEC. 2. Section 20027 of the Water Code is amended to read:

20027. The commission shall periodically establish a fee schedule which shall result in the collection of amounts sufficient to cover the estimated costs incurred by the commission in performing its functions pursuant to this chapter and Divisions 11, 12, and 13 of this code. The commission may adjust the fees as to any particular district to meet special circumstances in relation to that district. The commission shall charge and collect fees from districts and other local agencies for whom services are performed in accordance with the schedule. All funds collected by the commission shall be deposited in the General Fund. All funds for the support of the commission shall come from the General Fund.

The benefit of any services performed and any data obtained by any member of the commission or any other public official in pursuance of the requirements of any law other than this chapter shall be available for the use of the commission without charge to the district whose affairs are under investigation.

SEC. 3. This act is intended to implement the recommendations of the Assembly Interim Committee on Municipal and County Government as set forth in Volume 6, Number 22 of the Assembly Interim Committee Reports to the 1965 Legislature.

SEC. 4. The issuance of any bonds of any district issued, or to be issued, to finance any project which has obtained the approval of a city or county prior to the effective date of this act and on which project construction has commenced prior to such date is not subject to this act and such a district is not subject to this act in relation to the issuing of such bonds.

6. To commit any crime against the person of the President or Vice President of the United States, the governor of any state or territory, any United States justice or judge, or the secretary of any of the executive departments of the United States.

They are punishable as follows:

When they conspire to commit any crime against the person of any official specified in subdivision 6, they are guilty of a

felony and are punishable by imprisonment in the state prison for not less than 10 years.

When they conspire to commit any other felony, they shall be punishable in the same manner and to the same extent as is provided for the punishment of the said felony. If the felony is one for which different punishments are prescribed for different degrees, the jury or court which finds the defendant guilty thereof shall determine the degree of the felony defendant conspired to commit. If the degree is not so determined, the punishment for conspiracy to commit such felony shall be that prescribed for the lesser degree, except in the case of conspiracy to commit murder, in which case the punishment shall be that prescribed for murder in the first degree.

CHAPTER 925

An act to amend Sections 81, 89, 92, and 94.5 of, and to add Section 94 3 to, the Agricultural Code, and to add Section 19630 5 to the Business and Professions Code, relating to fairs and expositions.

[Approved by Governor July 9, 1965. Filed with Secretary of State July 9, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 81 of the Agricultural Code is amended to read:

81. Fifty or more persons, residents of the county or of all of the counties or parts of counties comprising an agricultural district, may form an association to be known as and designated as the _____ District Agricultural Association, for

the purpose of holding fairs, expositions and exhibitions of all of the industries and industrial enterprises, resources and products of every kind or nature of the state with a view of improving, exploiting, encouraging, and stimulating the same and for the purpose of constructing, maintaining and operating recreational and cultural facilities of general public interest.

The officers of such association shall consist of a board of directors of nine members. The directors shall be resident citizens of the district. Where two or more counties constitute an agricultural district, each county shall be represented on the board of directors by at least two resident citizens. If, by reason of the formation of a new agricultural district, a director in one district becomes a resident of another district, his term of office as director expires 60 days after the formation of the new agricultural district. Copies of the articles of association shall be filed with the Governor, the Secretary of State, and the Department of Finance.

SEC. 2 Section 89 of said code is amended to read:

89. All moneys received by any district agricultural association other than from the sale of real property shall be retained and used by such association for its general use and purposes and for its maintenance, membership in livestock registry associations and fair associations, support and operation and for the acquisition, installation, maintenance, and operation of recreational and cultural facilities at their respective fair grounds.

SEC. 3. Section 92 of said code is amended to read:

92. The Department of Agriculture shall apportion any money appropriated by the state for the encouragement of county, district or combined county and district fairs to the various agricultural fairs on the basis of the amount which each fair actually paid in premiums for agricultural, horticultural, mineral and livestock exhibits, and exhibits of domestic arts, agricultural mechanics and industrial education made or manufactured for other than commercial purposes in each year. The money so apportioned shall be paid to the several counties and district agricultural associations as soon as such apportionment is determined.

The Department of Agriculture, out of any money on hand to be apportioned, may advance to any county or district agricultural association, for the purpose of paying premiums, at any time during the year, any portion of the money to which, in the opinion of the Director of Agriculture, the county or district agricultural association will become entitled for that year. The county or district agricultural association shall deposit such money in a bank account approved by the Director of General Services in accordance with the provisions of Section 16506 of the Government Code. Such money may be expended for premiums, capital outlay, including purchase of land, construction improvements, equipment, for the acquisition, installation, maintenance, and operation of recreational

and cultural facilities at fairgrounds of the county or district agricultural associations or support of county or district agricultural association fairs pursuant to a budget submitted to the Department of Agriculture and approved by the Department of Finance subject to the provisions of Sections 13320 to 13324, inclusive, of the Government Code.

All sums expended from such moneys for construction and improvements by counties shall be subject to the provisions of Sections 25450 to 25463, inclusive, of the Government Code. The county auditor or secretary of any such fair desiring to share in any such appropriation shall file with the Department of Agriculture on or before December 31st, of each year, a sworn statement setting forth the actual amount paid for premiums by such fair held in that year.

Six thousand dollars ($6.000) shall be the maximum base of allocation paid any fair for its first year of operation, and thereafter in each subsequent year in which a fair is held the maximum base of allocation shall increase by 10 percent over the maximum base for the year in which a fair was last held.

In the event the premiums paid during any year in which a fair is held are less than the maximum base of allocation for that year, the base of allocation for that year shall be the premiums so paid during such year. For any fair operated prior to 1933 which received, or was qualified to receive, money from appropriations for the support of agricultural fairs, the basis may be increased 10 percent for each year in which a fair was held from the time the fair was first held, except that if no fair was held by the county or district for a period of five or more years the percentage of increase shall apply only from the first fair held after said period. Any fair may pay premiums in an amount greater than that used as the base of apportionment to it.

The Department of Agriculture shall prescribe rules and regulations for the judging of exhibits, and the maximum amount of premiums which may be offered and paid for all classes, sections, and types of exhibits. Said rules and regulations and the maximum amount of premiums which may be offered and paid shall be exempt from the provisions of Section 11380 of the Government Code but may be filed with the Secretary of State under the provisions of Section 11385 of the Government Code. No fair shall receive any apportionment of funds under this section unless it complies with such rules and regulations.

No allotment from the apportionment herein provided shall be made for more than one fair in any one year in any county or district. The fact that a county or district contracts one with the other or with a county fair association, to hold an agricultural fair shall not bar it from receiving a proper proportion of the moneys herein appropriated, except that no county or district may hold a joint or combined fair and receive an allotment of money under the provisions of this section. No fair for which a separate appropriation is made by

the state shall participate in the apportionment of any money appropriated for the encouragement of county and district agricultural fairs. On or after January 1, 1943, allotments from the appropriation herein provided shall be made only to district agricultural associations or counties which received allotments under this section on the basis of the premiums paid at fairs held during the calendar year 1941 except that: (1) A district agricultural association which did not receive an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941 may receive an allotment as provided in this section unless a county whose area lies in whole or in part within the boundaries of the agricultural district received an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941; (2) Solano County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district comprising Solano County received an allotment during the calendar year 1941; (3) Marin County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district of which Marin County is a part received an allotment during the calendar year 1941; (4) Santa Cruz County may receive an allotment although that county held no fair in the calendar year 1941 and the agricultural association of the agricultural district comprising Santa Cruz County received an allotment during the calendar year 1941; (5) Merced and Madera Counties may each receive an allotment although those counties held no fairs in the calendar year 1941 and the agricultural associations of the agricultural districts comprising Merced and Madera Counties each received an allotment during the calendar year 1941; (6) a district agricultural association which did not receive an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941, may receive an allotment as provided in this section; provided, the board of supervisors of each county, whose area lies in whole or in part within the boundaries of the agricultural district and which received an allotment under this section on the basis of the premiums paid at a fair held during the calendar year 1941, shall by resolution announce its intention to permanently discontinue the holding of fairs for which the county would be eligible to participate in the allocation from the appropriation herein provided. A certified copy of said resolution shall be filed with the Department of Agriculture. Upon adoption of said resolution by the board of supervisors, and the filing thereof as herein provided, the county referred to shall no longer be eligible to receive allotments under this section and the district agricultural association which becomes eligible to receive an allotment due to the adoption of said resolution shall, for the purpose of determining the maximum base of allocation for said association, be entitled to receive credit for the fairs previously held by said

county and said fairs shall be considered as fairs held by the association in calculating the maximum base for said association as provided herein. Within one year from and after the date said resolution is adopted, the county shall pay to said district agricultural association the unexpended balance of any moneys previously apportioned to said county under this section. Notwithstanding the foregoing provisions of this paragraph a district agricultural association of a district created subsequent to January 1, 1943, may receive an allotment as provided in this section.

The Department of Agriculture, in its discretion, may at any time examine the books and records of any fair to determine the correctness of any statement or report filed with the Department of Agriculture.

SEC. 4. Section 94.3 is added to said code, to read:

94.3. Associations mentioned in Section 94 of this code and citrus fruit fairs eligible to receive allocations under Section 19626 of the Business and Professions Code shall have the same power as a district agricultural association to construct, maintain and operate recreational and cultural facilities of general public interest.

94.5. Associations mentioned in Section 94 of this code and citrus fruit fairs eligible to receive allocations under Section 19626 of the Business and Professions Code shall be deemed instrumentalities of the state for the purposes mentioned in Sections 94 and 94.3 and upon dissolution of any such association or fair, all property thereof, after payment of outstanding debts, shall escheat to the state. Property of "associations," as defined in Section 94 of this code, and of citrus fruit fairs, as mentioned in this section, used exclusively in conducting citrus fruit fairs, and their recreational and cultural facilities which are of general public interest, shall be exempt from taxation, and no affidavit need be filed to claim this exemption.

SEC. 6. Section 19630.5 is added to the Business and Professions Code, to read:

19630.5. Notwithstanding any other provision of law, any county, district agricultural association, citrus fruit fair defined in Section 94 of the Agricultural Code, or citrus fruit fair and exposition qualified to receive an allocation under Section 19626, may, with the approval of the Department of Agriculture, expend any money available for expenditure by it for the construction or operation of recreational and cultural facilities of general public interest.

[Approved by Governor July 9, 1965 Filed with Secretary of State July 9, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 795.2 of the Agricultural Code is amended to read:

795.2. As used in this section, the term "tangerines or mandarins" shall include all varieties and hybrids of the mandarin group (Citrus reticulata) and all varieties of tangelos. Tangerines or mandarins shall be (1) well colored, (2) free from serious damage by freezing or drying due to any cause, and (3) free from serious decay.

The following standards shall be applied in determining whether or not tangerines or mandarins meet the requirements of this section:

(1) Tangerines or mandarins are not well colored unless 90 percent, by count, of the fruits in any lot show a yellow, orange or red color on 75 percent or more of the surface of the fruit.

(2) Damage by freezing or drying due to any cause is serious if 20 percent or more of the pulp or edible portion of the fruit shows evidence of drying, desiccation, or a mushy condition. Evidence of damage shall be determined by as many cuts of each individual fruit as are necessary.

(3) Decay is serious if any part of the fruit is affected with decay.

Not more than 10 percent, by count, of the tangerines or mandarins in any one container or bulk lot may fail to meet the requirements because of damage by freezing or drying due to any cause.

Not more than 5 percent, by count, of the tangerines or mandarins in any one container or bulk lot may fail to meet the requirements because of serious decay.

The diameter in inches of tangerines or mandarins in containers marked with one of the size designations tabulated in Column A, below, shall be between the measurements tabulated in corresponding lines of Column B and Column C; provided, however, that the diameter in inches of not more than 10 percent, by count, of the fruit in the container may measure less than the corresponding measurement in Column B, and not more than 10 percent, by count, of the fruit in the container may measure more than the corresponding measurement in Column C.

Column A	Column B	Column C
Super colossal	3.25	4.00
Colossal	3.00	3.25
Mammoth	2.75	3 00
Jumbo	2.50	2.75
Large	2.25	2.50
Medium	2.00	2.25
Small	1.75	2.00

Containers of tangerines or mandarins which fail to meet the size requirement shall be considered as complying with this section if the container is marked with the words "irregular sizes."

Not more than one of the above size designations shall appear on any container.

SEC. 2. Section 795.8 of said code is amended to read:

795.8. Except as otherwise permitted by the tolerance provided in this section, the standard citrus field picking box shall have a cubic content of 3,115 cubic inches and shall not have cleats over one inch high. The volume added to such box by

the cleats shall not be considered in computing the cubic content.

It is unlawful to load, ship, transport or deliver citrus fruits from the orchard where they were produced or elsewhere within the state in any citrus field picking box that is not standard unless such box is conspicuously marked on an outside end with the word "irregular" and with the cubic content in cubic inches, in letters and figures not less than one inch in height; provided, however, that the provisions of this Section 795.8 shall not apply to any citrus field picking box which is designed to hold more than 500 pounds.

In order to provide for reasonable variation in the cubic content of standard citrus field picking boxes because of atmospheric changes, normal use and normal manufacturing variations, a tolerance of 4 percent either above or below said standard cubic content shall be permissible. An equal tolerance shall be permissible in the case of irregular citrus field picking boxes above or below the cubic content as marked thereon.

SEC. 3. Section 796.1 of said code is amended to read:

796.1. It shall be unlawful to mix or blend citrus fruits which fail to conform to the requirements of this chapter with other citrus fruits which conform to such requirements for the purpose of selling, marketing, or transporting the fruit which has thus failed to conform to the requirements of this chapter.

Any citrus fruit which has been in storage or after being shipped fails to meet the requirements of the standards for citrus fruits established in this chapter only by reason of brown rot, blue mold, or green mold which has occurred after being packed, or placed loose in a container shall not be held for violation of the provisions of this chapter on account of such deterioration.

All containers of oranges, lemons and grapefruit holding more than 25 pounds and all containers of tangerines or mandarins holding more than 12 pounds shall bear upon them in plain sight and in plainly legible letters on one outside end:

3. In the case of oranges, grapefruit and tangerines or mandarins the name of the variety, if known, and when not known, the words "unknown variety" or "seedlings". With respect to all varieties of navel oranges, the varietal designation shall be "Navel"; for all varieties of valencia oranges, "Valencia"; for all varieties of white grapefruit, "Marsh White"; and for all varieties of pink grapefruit, "Marsh Ruby." In the case of citrus fruit imported from another state the average diameter or size designation of the fruit

in the container need not be shown and in the case of citrus intended for shipment directly from the State of California to the State of Baja California, Republic of Mexico, the marking requirements of this section need not be shown.

SEC. 4. Section 796.2 of said code is amended to read:

As used in this section, "consumer" means a person who buys oranges, grapefruit, lemons or tangerines or mandarins for use as a food and not for resale.

Citrus fruit imported into this state from another state need not be in standard containers as specified in this code for such fruit if it is packed in containers conforming to the applicable laws or regulations of the state of origin or of the United States.

CHAPTER 957

An act to add Article 4.5 (commencing with Section 13670) to Chapter 3 of Division 10 of the Education Code, relating to public school employees.

[Approved by Governor July 9, 1965. Filed with Secretary of State July 9, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Article 4.5 (commencing with Section 13670) is added to Chapter 3 of Division 10 of the Education Code, to read:

Article 4.5. Retraining and Study

13670. In enacting this article the Legislature recognizes that technological and other changes are occurring which may displace otherwise desirable classified employees in the public school systems of the state. The Legislature intends that the enactment of this article will encourage classified employees to prepare themselves for the changes that are occurring and will also encourage governing boards to utilize the article to further study and retraining by classified personnel.

13671. The governing board of any school district may grant any classified employee a leave of absence not to exceed one year for the purpose of permitting study by the employee or for the purpose of retraining the employee to meet changing conditions within the district.

The governing board may provide that such a leave of absence shall be taken in separate six-month periods or in any other appropriate periods, rather than for a continuous one-year period; provided, that the separate periods of leave of absence shall be commenced and completed within a three-year period. Any period of service by the individual intervening between the authorized separate periods shall comprise a part of the service required for a subsequent leave of absence for study or retraining purposes.

In school districts operating under the merit system, such leaves of absence shall be granted in accordance with rules established by the personnel commission.

13672. No leave of absence shall be granted under this article to any employee for study purposes who has not rendered service to the district for at least seven consecutive years, or for retraining purposes who has not rendered service to the district for at least three consecutive years preceding the granting of the leave, and no more than one such leave of absence shall be granted in each seven- or three-year period, respectively. The governing board, or personnel commission in merit system districts, may prescribe standards of service which shall entitle the employee to the leave of absence.

Any leave of absence granted under this article shall not be deemed a break in service for any purpose, except that such leave shall not be included as service in computing service for the granting of any subsequent leave under this article.

13673. Every employee granted a leave of absence pursuant to this article may be required to perform such services during the leave as the governing board of the district and the employee may agree upon in writing. The employee shall receive such compensation during the period of the leave as the governing board and the employee may agree upon in writing, which compensation shall be not less than the difference between the salary of the employee on leave and the salary of a substitute employee in the position which the employee held prior to the granting of the leave. However, in lieu of such difference, the board may pay one-half of the salary of the employee on leave or any additional amount up to and including the full salary of the employee on leave.

13674 Compensation granted by the governing board to the employee on leave may be paid in two equal annual installments during the first two years of service rendered in the employ of the governing board following the return of the employee from the leave of absence. The compensation shall be paid the employee while on the leave of absence in the same manner as if the employee were working for the district, upon the furnishing by the employee of a suitable bond indemnifying the governing board of the district against loss in the event that the employee fails to render at least two years' service in the employ of the governing board following the return of the employee from the leave of absence. The bond shall be exonerated in the event the failure of the employee to

return and render two years' service is caused by the death or physical or mental disability of the employee. If the governing board finds, and by resolution declares, that the interests of the district will be protected by the written agreement of the employee to return to the service of the district and render at least two years' service therein following his return from the leave, the governing board in its discretion may waive the furnishing of the bond and pay the employee on leave in the same manner as though a bond is furnished.

13675. Where one governing board serves as the governing board of two or more separate districts, an employee may fulfill the service requirements provided in Sections 13672 or 13674, or both, by service in any one or more of the districts under the jurisdiction of such governing board

13676. This article shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter or other applicable provisions of this code that may hereafter be enacted.

CHAPTER 958

If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of 18 years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age; provided, that no child shall receive any allowance after marrying or attaining the age of 18 years. Should said member leave no surviving wife and no children under the age of 18 years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member at least one year prior to his retirement. If at the effective date of said retirement, said member has no wife, children or dependent parents, who would so qualify and if said member elects as provided in Section 21330 to have the actuarial equivalent of his retirement allowance applied to a lesser retirement allowance, in accordance with an optional settlement, no allowance shall be paid under this section.

The basic death benefit for a member who dies under the circumstances described in subdivision (a)(5) of Section 21360 shall not exceed an amount which when added to the death benefit paid for such member under such other system equals the maximum death benefit payable under that system,

if the death is not the result of injury or disease arising out of and in the course of his employment under that system; provided, however, that such benefit shall be at least equal to his accumulated contributions. The basic death benefit for such member shall be the amount of his accumulated contributions if death is the result of disease or injury arising out of and in the course of employment under such other system.

SEC. 5. Section 21364 of said code is amended to read:

21364. The special death benefit consists of:

(a) An amount equal to and derived from the same source as the basic death benefit; and

(b) An amount sufficient, when added to the amount equal to the basic death benefit, exclusive of the annuity provided by the deceased's accumulated additional contributions, to provide when applied according to tables adopted by the board, a monthly death allowance equal to one-half of his final compensation in the membership category applicable to him at the time of the injury or the onset of the disease causing death, payable to the surviving wife to whom he was married prior to sustaining the injury or disease resulting in death, as long as she lives or until her remarriage; or if there is no widow, or if the widow dies or remarries before all children of the deceased member attain age 18, then the allowance which the surviving wife would have received had she lived and not remarried, shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age; provided, that no child shall receive any allowance after marrying or attaining 18. During the lifetime of the widow or until she remarries, an additional percentage of the death benefit allowed by this section, exclusive of the annuity provided by the deceased's accumulated additional contributions, shall be paid to the widow of a member who is killed in the performance of his duty or who dies as a result of an accident or an injury caused by external violence or physical force, incurred in the performance of his duty, for each of his children during the lifetime of the child, or until the child marries or reaches the age of 18, as follows: for one child, twenty-five percent (25%); for two children, forty percent (40%); and for three or more children, fifty percent (50%).

CHAPTER 1008

An act to amend Section 17503 of the Education Code, relating to apportionments of State School Fund, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1965. Filed with Secretary of State July 12, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 17503 of the Education Code is amended to read:

17503. For purposes of this section:

(a) "Salaries of classroom teachers" and "teacher" shall have the same meanings as prescribed by Section 17200 of this code.

(b) "Current expense of education" means the gross total expended (not reduced by estimated income or estimated federal and state apportionments) for the purposes classified in the final budget of a school district (except one which, during the preceding fiscal year, had less than 101 units of average daily attendance) submitted to and approved by the county superintendent of schools pursuant to Section 20651 of this code for administration, instruction (including salaries and other expense), auxiliary services, school plant (including operation and maintenance), and fixed charges. "Current expense of education" shall not include those purposes classified as transportation of pupils, food service, community service, capital outlay, state school building loan repayment; and shall not include the amount expended pursuant to any lease agreement for plant and equipment or the amount expended from funds received from the federal government pursuant to the "Economic Opportunity Act of 1964" or any extension of such act of Congress.

There shall be expended during each fiscal year for payment of salaries of classroom teachers:

(a) By an elementary school district, sixty percent (60%) of the district's current expense of education.

(b) By a high school district, fifty percent (50%) of the district's current expense of education.

(c) By a junior college district, fifty percent (50%) of the district's current expense of education.

(d) By a unified school district, fifty-five percent (55%) of the district's current expense of education.

If the Superintendent of Public Instruction determines that a school district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom teachers during the preceding fiscal year, he shall, in apportionments made to the school district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any

amount so designated by the Superintendent of Public Instruction shall be deposited in the county treasury to the credit of the school district, but shall be unavailable for expenditure by the district pending the determination to be made by the Superintendent of Public Instruction on any application for exemption which may be submitted to the Superintendent of Public Instruction. In the event it appears to the governing board of a school district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom teachers in excess of the salaries of classroom teachers paid by other districts of comparable type and functioning under comparable conditions, the board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the Superintendent of Public Instruction in writing not later than September 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the Superintendent of Public Instruction shall grant the district exemption for any amount that is less than one thousand dollars ($1,000), and if the amount is one thousand dollars ($1,000), or greater may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemption is granted the designated moneys shall be immediately available for expenditure by the school district governing board. If no application for exemption is made or exemption is denied, the Superintendent of Public Instruction shall order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom teachers during the next fiscal year.

The Superintendent of Public Instruction shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. He may require the submission to him, during the school year, by school district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of the rapid expansion in the number of pupils in many school districts throughout the state, a great number of these districts have found it necessary to enter into lease agreements for their plants and equipment in lieu of capital outlay, which is already excluded from the definition of "current expense of education." In order to prevent an unfair apportionment of the State School Fund, because of the dis-

crimination against school districts that are forced to provide facilities in this manner; it is necessary that this law go into effect immediately in order to prevent a reduction in state funds going to the school districts that utilize these means for obtaining the necessary facilities during the current fiscal year.

CHAPTER 1009

An act to add Section 12103 to the Education Code, relating to compulsory education.

[Approved by Governor July 12, 1965. Filed with Secretary of State July 12, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 12103 is added to the Education Code, to read:

12103. The county board of education of each county may establish, by resolution, the following regulation:

The report shall include names, ages, last known address and the reason for each such severance.

(b) It shall be the duty of the county superintendent of such county to examine such reports and draw to the attention of the county board of education and local district board of education any cases in which the interests of the child or the welfare of the state may need further examination.

(c) After preliminary study of available information in cases so referred to it, the county board of education may, on its own action, hold hearings on such cases in the manner provided in Education Code Section 10608 and with the same powers of final decision as therein provided.

CHAPTER 1010
