CHAPTER 1702

An act to amend Sections 5823.5, 5825, 5828, 5829.1 and 5865 of the Public Resources Code, relating to small craft harbors.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 5823.5 of the Public Resources Code is amended to read:

5823.5. The division may prepare or contract for the preparation of plans for, acquire or contract for the acquisition of, construct or contract for the construction of, develop and improve or contract for the development and improvement of, any portion of coastal small craft harbors which normally are nonrevenue producing, such as jetties, breakwaters, dredging, seawalls, piers, and communication centers

This program shall be conducted in cooperation with the federal government for harbor development along the coastline of California. In such cooperative projects, the division may assume the role of "local sponsor" as that term is used in agreements with the federal government with regard to those projects referred to in this section, providing that before the division may assume the role of "local sponsor" it shall determine to its satisfaction that the local entity which would otherwise be designated as local sponsor cannot fulfill the obligations commensurate with that designation.

If the nonrevenue producing facilities are to be a portion of an existing harbor, the division, prior to construction thereof, shall enter into an agreement with the local governing body of the harbor which provides that revenues from harbor operations and harbor district taxes, if any, shall serve as security for repayment of the state contribution to the cost of construction and the local governing body shall assume responsibility for the operation and maintenance of the facilities constructed under the agreement. If, however, unencumbered income to the harbor is insufficient to repay construction costs, such repayment shall be deferred until the division determines that such income is sufficient to initiate repayment thereof.

If nonrevenue producing facilities are to be constructed at a location where no harbor operation is being conducted by any governmental entity, the division may initiate construction of such facilities after securing an agreement with the appropriate local jurisdiction that the local entity shall assume the responsibility of operation and maintenance thereof and repayment of all costs of the division related thereto. Repayment of costs shall commence when it has been determined by the division that revenues attributable to such harbor operations are sufficient for the local entity to assume such responsibilities.

Prior to the date so determined by the division, the division may reimburse the local governing body annually for any deficiency of revenues to the harbor as determined by the division to meet the costs of operation and maintenance of the project.

Harbor facilities provided by the division pursuant to this section shall be defined as nonrevenue producing features for the purpose of the term of repayment under subdivision (g) of Section 5829.1.

SEC. 2. Section 5825 of said code is amended to read:

5825. The division may contract with any federal agency, any state agency, or a city, county, or district, in the planning, construction, development and improvement of small craft harbors pursuant to this chapter, or for the maintenance and operation of any small craft harbors under the jurisdiction of the division.

SEC. 3. Section 5828 of said code is amended to read:

5828. A transfer pursuant to Section 5823 or a loan pursuant to Section 5827 shall not be made to a city, county, or district if it would provide for an indebtedness or liability contrary to the provisions of Section 18 of Article XI of the Constitution unless, at an election called by the governing body of the city, county, or district two-thirds of the qualified electors thereof voting thereat have authorized the governing body to accept, expend, and repay the amount of the indebtedness or liability under this chapter; nor shall such transfer or loan be made if written protest thereto signed by owners of one-half or more of the assessed valuation of taxable property in said city, county, or district is received by the governing body of such city, county, or district. Such election shall be held in accordance with provisions of law for the incurring of bonded indebtedness by the city, county, or district, as near as the same may be applicable. Except as may be prohibited by this section, a transfer pursuant to Section 5823 or a loan pursuant to Section 5827 may be made to a city, county, or district and it may accept such a transfer or loan, notwithstanding any other provision of law limiting or prohibiting the creation of any indebtedness on the part of the city, county, or district.

A transfer pursuant to Section 5823 or a loan pursuant to Section 5827 may be made to a city, county, or district without an election if the transfer or loan agreement provides that payments shall be made from the gross revenues of a small craft harbor, and that such gross revenues shall constitute security for such payments. Gross revenues of a small craft harbor include all charges received from, and all other income and receipts derived by the city, county, or district from, the operation of a small craft harbor.

Gross revenues include any income received by such governmental entity from any concession or other contract operations had by the entity on its harbor facilities, but does not include gross revenues to a concessioner.

SEC. 4. Section 5829.1 of said code is amended to read:

5829.1. CHAPTER 1717

An act to amend Sections 16601, 16603, 16604, 16605, 16606, 16606.5, 16607, 16608, 16611, 16612, 16613, 16614, 16615, 16616, 16617, 16618, 16619, 16620, 16621, 16622, 16623, 16624, 16625, 16625.1, 16625.2, 16625.3, 16626, 16626.5, 16627, 16628, 16630, 16631, 16632, 16633, 16633.5, 16634, 16635, 16635.1, 16636, 16637, 16638, 16639 and 16640 of, and the heading of Chapter 5 (commencing with Section 16601) of Division 12 of, and to add Sections 16616.1 and 16625.01 to, the Education Code, relating to children's centers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Chapter 5 (commencing with Section 16601) of Division 12 of the Education Code is amended to read:

CHAPTER 5. CHILDREN'S CENTERS

SEC. 2. Section 16601 of the Education Code is amended to read:

16601. It is the intent of the Legislature that the programs established in children's centers provide educational services for children to aid them in developing the abilities and skills which will make school achievement more possible. The policy of the Legislature in enacting this chapter (commencing at Section 16601) is to continue children's centers to provide supervision and instruction for children necessitated by the employment of women with children, who must be employed to achieve economic self-sufficiency for the family and for children of parents in the public assistance programs and other families who might become dependent on such programs, without imposing additional taxes on property which the

owners of such property cannot, because of the burden now imposed, be reasonably expected to bear.

SEC. 3. Section 16603 of said code is amended to read:

16603. The need of a parent and child for service in a children's center shall be determined upon the following conditions:

(a) That there is but one parent in the home and such parent supports and cares for the child, or there is but one parent in the home who requires education or training to qualify for entrance upon employment that will make the family economically self-sufficient, or

(b) That there are two parents in the home, both of whom are working, or one of whom is physically or mentally unable to either support the family or care for the child, or

(c) That a child is in need of a preschool educational program before entrance to kindergarten because of disadvantage arising from home and community environmental conditions.

(d) That either parent is attending school or receiving instruction, and the other parent, if any, is gainfully employed, or

(e) That the services of the parent having care of the child are necessary as a qualified and acceptable teacher in a public school or as a qualified and acceptable supervisor to serve in the supervision and instruction of children in a children's center or a supervisor of a children's program, as shall be evidenced by a statement from the employing authority of the public school to the governing body of the children's center, or

(f) That the services of the parent having care of the child are necessary as a registered nurse, as shall be evidenced by a statement from the responsible employer to the governing body of the children's center, or

(g) That the services of the parent having care of the child are necessary as a worker in industry essential to the mobilization effort, as shall be evidenced by a statement from the employer in such industry as shall have been designated as essential to the mobilization effort by the Director of Employment, or

(h) That the services of the parent having care of the child are necessary to meet an emergency arising from the necessity of harvesting or processing crops, or as an agricultural worker, or

(i) That the parent or parents having care of the child are attending school or receiving instruction under the state vocational rehabilitation program or under the Manpower Development and Training Act or under other programs authorized for a parent or parents in families qualifying for aid to families with dependent children, as shall be evidenced by a statement from any one of such agencies, or that one parent in a two-parent family is attending school or receiving instruction under any one of such programs, and the other parent is employed or mentally or physically incapacitated.

The need of a parent to utilize a children's center who comes within subdivision (a), (b) or (c) of this section or is receiving or is likely to receive public assistance shall take precedence over the need for children of a parent, or parents, and child who come within subdivisions (d) to (i), inclusive, of this section.

SEC. 4. Section 16604 of said code is amended to read:

16604. Except as provided in Section 16605, no child shall be admitted to a children's center if the total monthly income from all sources of the child's immediate family:

(a) Where both parents are working, exceeds five hundred eight dollars ($508) if there is one child in the family, and an additional sixty-six dollars ($66) for each additional child.

(b) Where but one parent, who has both custody and care of the child, is the sole wage earner of the child's immediate family, exceeds three hundred sixty-three dollars ($363) if there is one child in the family, and an additional sixty-six dollars ($66) for each additional child.

Except as provided in Section 16605 the maximum "total monthly income" figure in either case may be exceeded in any month or months of the year if in the opinion of the board the total income from all sources, of the child's immediate family for the calendar year divided by 12 will not exceed such maximum. In computing the maximum "total monthly income" of self-employed persons the gross income of such persons may be reduced by the legitimate business expenses incident to the self-employment. In estimating earnings of any member of the child's immediate family the computation of weekly wages shall be on the basis of wages based on a five-day week if the employer of such person certifies to said governing board that the workweek of such person is five days or more.

SEC. 5. Section 16605 of said code is amended to read:

16605. If either parent is a veteran coming within subdivision (d) of Section 16603 and is attending school or receiving instruction for not less than half time, or if the parent or if either parent comes within subdivision (a), (e), (f), (g), (h), or (i) of Section 16603, and if the income from all sources of the child's immediate family exceeds that fixed by Section 16604, but is not greater than three times the amount fixed by Section 16604, a child of such parent may be admitted to a children's center but the governing board of the school district maintaining the children's center shall, notwithstanding anything in Section 16614 to the contrary, charge and collect from the person having custody of the child, except a parent coming within (a) of Section 16603, a weekly fee which shall be in such amount as will reimburse the district for the cost of supervision instruction, and the cost of all food furnished such child. The governing board shall charge a parent coming within (a) of Section 16603 the fee required for the applicable maximum income as provided in Section 16604, plus, for each full eleven dollars ($11) of an additional sixty-six dollars ($66) of income, one-sixth of the difference between that fee

and the amount which will reimburse the district for the cost of supervision, instruction, and all food furnished the child.

As applied to the families of men on active duty with the United States armed forces, only that portion of the pay of enlisted personnel shall be included in the "total monthly income" which is the amount which is accounted for as "base pay."

SEC. 6. Section 16606 of said code is amended to read:

16606. The governing board of any school district may, subject to the provisions of this chapter (commencing at Section 16601), establish and maintain such children's centers within the district as it may deem necessary to provide for the proper supervision and instruction, including such health supervision as may be established under the standards established for children's centers by the Superintendent of Public Instruction as hereinafter provided, of children between 2 years and 16 years of age living within, and in the custody of persons residing in, the district when such supervision and instruction cannot be provided by such persons.

SEC. 7. Section 16606.5 of said code is amended to read:

16606.5. The county superintendent of schools of each county, with the approval of the county board of education, shall have the authority to establish and maintain children's centers in the same manner and to the same extent as governing boards of school districts, except that nothing in this section shall be construed as vesting in the county superintendent of schools any authority to alone effect the levy and collection of any county, school, or other local taxes for the support of any such center.

The establishment and maintenance of any children's center by the county superintendent of schools shall be undertaken, subject to the prior approval of the county board of education, upon the application of one or more school districts under his jurisdiction, and such establishment and maintenance shall be upon such terms and conditions as may be provided for in a written contract entered into between the county superintendent of schools and the governing board of any such district.

SEC. 8 Section 16607 of said code is amended to read:

16607. Children regularly enrolled in a children's center who are absent on account of illness or quarantine shall be considered to be in regular attendance for the number of hours per day for which they are enrolled for the purpose of reporting attendance for state apportionments, whenever the school district certifies that such absence was on account of illness or quarantine and is verified by the district in such manner as the Superintendent of Public Instruction shall require. All attendance shall be recorded and reported in accordance with the requirements of the Superintendent of Public Instruction.

SEC. 9. Section 16608 of said code is amended to read:

16608. Said governing board may accommodate in a children's center maintained by it children residing in another

district, upon such terms and under such conditions as may be agreed upon by the governing boards of both districts.

SEC. 10. Section 16611 of said code is amended to read:

16611. The Superintendent of Public Instruction shall establish reasonable and uniform standards not in conflict with the provisions of this chapter (commencing at Section 16601) for children's centers established and maintained under the provisions of this chapter (commencing at Section 16601) and no center shall be so established and maintained which does not comply with such standards.

SEC. 11. Section 16612 of said code is amended to read:

16612. The hours in any day, the days in any week and the months in any year during which such children's centers may be maintained shall be determined by said governing board.

SEC. 12. Section 16613 of said code is amended to read:

16613. Children shall be accommodated at such children's centers that part of the day as designated by the governing board as a preschool educational period when there is a special emphasis on cognitive and developmental tasks not to exceed four (4) clock hours daily; and only during those other hours in which the person or persons having custody of children are at work, or unable to care for children for any reason connected with such work, or unable to care for children for any reason specified in Section 16603.

SEC 13. Section 16614 of said code is amended to read:

16614. Said governing board shall charge and collect, in advance, from the person having custody of any child admitted to a children's center a weekly fee equal to that specified in the fee schedule prescribed by the Superintendent of Public Instruction except those daily hours for which payment is made under other agreements or when the governing board determines that another method of collecting fees would prevent imposing a hardship on the person having custody of the child. Payments made on behalf of a parent may be made after services are rendered.

It is hereby declared to be the policy of the Legislature that the sliding scale of fees prepared by the Superintendent of Public Instruction shall provide that increasingly larger fees shall be charged for children of families having larger incomes. It is further declared to be the policy of the Legislature that so far as possible when it becomes necessary for the Superintendent of Public Instruction to adjust the fee schedule that any increase shall be made first in fees charged to those in the higher income brackets, and the rate of increase in fees charged for children of families of different income levels need not be uniform as between the different income levels. It is further declared to be the policy of the Legislature that the fee sched-

ule shall, so far as reasonably possible, be established on such basis and in accordance with such principles as the Superintendent of Public Instruction may determine to insure proper administration of the children's center program and to establish uniform budgetary and accounting procedures.

SEC. 14. Section 16615 of said code is amended to read:

16615. It is hereby declared to be the policy of the Legislature that, on a statewide average, of the total amount of the cost for the maintenance and operation of children's centers paid for by state funds apportioned to the districts and fees collected from parents, two-thirds of such total cost shall be paid from such state funds and one-third from such fees Funds derived from district taxes levied under this chapter (commencing at Section 16601) may be expended to addition to parent fees and state funds, and shall not operate to affect the operation of either the fee schedule or the formula for apportioning state funds provided for in this chapter (commencing at Section 16601).

SEC. 14.3. Section 16616 of said code is amended to read:

16616. The Superintendent of Public Instruction shall prepare a schedule of fees which shall be used by each school district for the charging of fees to parents. For parents who come within the provisions of Section 16604, the schedule shall be on a sliding scale, ranging from a lesser amount for parents within low income levels to a higher amount for higher income levels. The schedule shall provide as nearly as possible an amount equal to fourteen cents ($0.14) per hour per child. The fee schedule shall be on an hourly basis, and shall be uniformly applied.

For parents of mentally retarded or physically handicapped children, the schedule shall be as provided in Section 16645.9.

The State Department of Education and the State Department of Social Welfare are authorized to enter into a contract to provide for the provision of services to families receiving public assistance or with comparable income; provided that any payment of fees exceeding an average of fourteen cents ($0.14) shall only be paid under such contract if necessary to assure the existence of facilities for such families.

The State Department of Social Welfare shall have only such functions, duties and responsibilities with respect to the educational program carried on in children's centers as is required by law and federal regulations.

SEC. 23. Section 16625 of said code is amended to read:

SECTION 1. Section 1203 of the Penal Code is amended to read:

1203. After the conviction by plea or verdict of guilty of a public offense not amounting to a felony, in cases where discretion is conferred on the court or any board or commission or other authority as to the extent of the punishment, the court, upon application of the defendant or of the people or upon its own motion, may summarily deny probation, or at a time fixed may hear and determine in the presence of the defendant the matter of probation of the defendant and the conditions of such probation, if granted. If probation is not

denied, and in every felony case in which the defendant is eligible for probation, before any judgment is pronounced, and whether or not an application for probation has been made, the court must immediately refer the matter to the probation officer to investigate and to report to the court, at a specified time, upon the circumstances surrounding the crime and concerning the defendant and his prior record, which may be taken into consideration either in aggravation or mitigation of punishment. The probation officer must thereupon make an investigation of the circumstances surrounding the crime and of the prior record and history of the defendant, must make a written report to the court of the facts found upon such investigation, and must accompany said report with his written recommendations, including his recommendations as to the granting or withholding of probation to the defendant and as to the conditions of probation if it shall be granted. The report and recommendations must be made available to the court and the prosecuting and defense attorneys at least two days prior to the time fixed by the court for the hearing and determination of such report and must be filed with the clerk of the court as a record in the case at the time of said hearing. By written stipulation of the prosecuting attorney and the defense attorney, filed with the court, or by oral stipulation in open court made and entered upon the minutes of the court, the time within which the report and recommendations must be made available and filed, under the preceding provisions of this section, may be waived. At the time or times fixed by the court, the court must hear and determine such application, if one has been made, or in any case the suitability of probation in the particular case, and in connection therewith must consider any report of the probation officer, and must make a statement that it has considered such report which must be filed with the clerk of the court as a record in the case. If the court shall determine that there are circumstances in mitigation of punishment prescribed by law, or that the ends of justice would be subserved by granting probation to the defendant, the court shall have power in its discretion to place the defendant on probation as hereinafter provided; if probation is denied, the clerk of the court must forthwith send a copy of the report and recommendations to the Department of Corrections at the prison or other institution to which the defendant is delivered.

In every misdemeanor case, the court may, at its option refer the matter to the probation officer for investigation and report or summarily deny probation or summarily grant probation.

Except as hereafter provided in this section, probation shall not be granted to any person who shall have been convicted of burglary with explosives, rape with force or violence, murder, assault with intent to commit murder, attempt to commit murder, train wrecking, kidnaping, escape from a state prison, conspiracy to commit any one or more of the aforementioned felonies, and who at the time of the perpetration of said crime or any of them or at the time of his arrest was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same), nor to a defendant who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he was convicted, nor to one who in the perpetration of the crime of which he was convicted willfully inflicted great bodily injury or torture, nor to any defendant unless the court shall be satisfied that he has not been twice previously convicted of felony in this state nor twice previously convicted in any other place or places of public offenses which would have been felonies if committed in this state; nor to any defendant convicted of the crime of burglary with explosives, rape with force or violence, murder, attempt to commit murder, assault with intent to commit murder, train wrecking, extortion, kidnaping, escape from a state prison, violation of Sections 286, 288 or 288a of this code, or conspiracy to commit any one or more of the aforesaid felonies, unless the court shall be satisfied that he has never been previously convicted of a felony in this state nor previously convicted in any other place of a public offense which would have been a felony if committed in this state; nor to any defendant unless the court shall be satisfied that he has never been previously convicted of a felony in this state nor convicted in any other place of a public offense which would have been a felony if committed in this state and at the time of the perpetration of said previous offense or at the time of his arrest for said previous offense he was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same) or he personally used or attempted to use a deadly weapon upon a human being in connection with the perpetration of said previous offense or in the perpetration of said previous offense he willfully inflicted great bodily injury or torture; nor to any public official or peace officer of the state, county, city, city and county, or other political subdivision who, in the discharge

of the duties of his public office or employment, accepted or gave or offered to accept or give any bribe or embezzled public money or was guilty of extortion.

In unusual cases, otherwise subject to the preceding paragraph, in which the interests of justice would best be served thereby, the judge may, with the concurrence of the district attorney, grant probation.

No probationer shall be released to enter another state of the United States, unless and until his case has been referred to the California Administrator, Interstate Probation and Parole Compacts, pursuant to the Uniform Act for Out-of-state Probationer and Parolee Supervision.

In those cases in which the defendant is not eligible for probation, the judge may in his discretion refer the matter to the probation officer for an investigation of the facts relevant to sentence. The probation officer must thereupon make an investigation of circumstances surrounding the crime and the prior record and history of the defendant and make a written report to the court of the facts found upon such investigation.

Any person who refuses to transact business with a dealer because of any action taken by the dealer under this section is guilty of a misdemeanor.

As used in this section "person" includes a corporation, partnership or other association.

30132. Any state agency, including but not limited to local school districts, and any community organization organized pursuant to the Economic Opportunity Act of 1964 (P.L. 452, 88th Congress (78 Stat. 508)) or any other similar training or retraining program authorized by the federal or state governments, may use any federal, state, local, or private funds to provide training or retraining programs operated by private business, trade and technical schools.

CHAPTER 1725

An act to add Article 4 (commencing with Section 71682) to Chapter 3, Part 5, Division 20 of, and to add Section 71757 to, the Water Code, relating to municipal water districts.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Article 4 (commencing with Section 71682) is added to Chapter 3, Part 5, Division 20, of the Water Code, to read:

Article 4. Water Replenishment Assessment

71682. The provisions of this article apply only to districts in which the producers of a majority of the production of ground water within the boundaries of the district are or will within one year from the enactment of this article be subject to a court judgment requiring the delivery of makeup water to downstream users.

71682.1. For the purpose of replenishing the ground water supplies within such district and to provide such makeup water, a district may cause assessments to be levied as provided in this article. Provided, that:

(a) This article shall not apply to a district 80 percent of the area of which is included within the boundaries of a water replenishment district organized pursuant to Division 18 (commencing with Section 60000) of this code or 80 percent of the area of which is included within the boundaries of any other special district of any kind or type having replenishment powers and the power to levy an assessment on the ground water extractions.

(b) This article shall cease to apply to a district as of the end of any water year during which 80 percent of the area thereof becomes included within the boundaries of such a water replenishment district or any such other special district denoted in subdivision (a) of this section.

71683 As used in this article:

"Include," except when used in relation to the inclusion of land into a district, does not necessarily exclude matters not enumerated.

"Person" means any public agency or public corporation, whether federal, state, or local, or any private corporation, firm, partnership, individual, or group of individuals and includes a district levying a water replenishment assessment hereunder.

"Water year" means the period commencing on October 1st of one calendar year and ending on September 30th of the calendar year immediately following.

"Fiscal year" means the period commencing on July 1st of one calendar year and ending on June 30th of the calendar year immediately following.

"Ground water" means nonsaline water beneath the surface of the ground, whether or not flowing through known and definite channels.

"Nonsaline water" means water which has less than 1,000 parts of chlorides to 1,000,000 parts of water.

"Production" or "producing" means the extraction or extracting of ground water, by pumping or any other method, from shafts, tunnels, wells (including, but not limited to, abandoned oil wells), excavations, or other sources of such ground water, for domestic, municipal, irrigation, industrial, or other beneficial use, except that such terms shall not mean or include the extraction or extracting of ground water incidentally produced with oil in the production of oil or gas nor the extraction or extracting of ground water incidentally produced in a bona fide mining operation or in the bona fide construction of a tunnel for railroad, highway, aqueduct, pipeline, or other useful purpose (except the production of ground water for use or sale) unless the ground water so extracted shall be used or sold by the producer for domestic, municipal, irrigation, industrial, or other beneficial purpose.

"Water-producing facility" means any device or method, mechanical or otherwise, for the production of ground water from the ground water supplies within the district.

"Owner" means the person or persons owning any water-producing facility or any interest therein other than a lien to secure the payment of a debt or other obligation.

"Operator" means the person or persons operating a water-producing facility; the owner thereof shall be conclusively presumed to be such operator unless satisfactory showing be made to the board of directors of the district that such water-producing facility actually is operated by some other person or persons. "Operator" shall mean any "person" mentioned in Section 71683 who is operating a water-producing facility, it being the purpose of this article to include any such person within the provisions hereof.

"Producer" means any person or operator producing ground water within the boundaries of the district.

"Annual overdraft" means the amount, as determined by the board, by which the quantity of ground water removed by any natural or artificial means from the ground water supplies within the district during the water year exceeds the quantity of nonsaline water replaced therein by the replenishment of such ground water supplies in such water year by any natural or artificial means other than replenishment under the provisions of this article or by any other governmental agency or entity

"Accumulated overdraft" means the aggregate amount, as determined from time to time by the board, by which the quantity of ground water removed by any natural or artificial

means from the ground water supplies within the district during all preceding water years shall have exceeded the quantity of nonsaline water replaced therein by the replenishment of such ground water supplies in such water years by any natural or artificial means, the respective determination to be based upon reports, records, and other data or evidence found by the board to be adequate for the purpose of making such determination.

"Makeup water" means water of useable quality for ground water recharge required to be delivered to downstream users pursuant to a court judgment.

71684. Proceeds raised by the water replenishment assessments hereunder may only be used for the purchase of water for replenishment of the ground waters of the district and for the purchase, in whole or in part, of makeup water requirements.

71685. Not later than the second Tuesday in February each year the board shall order an engineering survey and report to be made regarding the ground water supplies of the district. The same shall include, among all other information and data which the board may require, the following:

(a) Records, data and other information for the consideration of the board in its determination of the annual overdraft.

(b) Records, data and other information for the consideration of the board in its determination of the accumulated overdraft as of the last day of the preceding water year.

(c) A report, with supporting data, as to the total production of ground water from the ground water supplies within the district during the preceding water year.

(d) A report, with supporting data, as to the changes during the preceding water year in the ground water levels and pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and as to the effects thereof upon the ground water supplies within the district.

(e) An estimate of the annual overdraft for the current water year and for the ensuing water year.

(f) An estimate of the accumulated overdraft as of the last day of the current water year.

(g) An estimate of the total production of ground water from the ground water supplies within the district for the current water year and for the ensuing water year.

(h) An estimate of the changes during the current water year in the ground water levels, pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and of the effects thereof upon the ground water supplies and makeup water requirements of the district.

(i) An estimate of the quantity, source, and cost of water available for replenishment of the ground water supplies and meeting the makeup water requirements of the district during the ensuing water year under the provisions of Section 71687.

(j) Records, data, estimates and other information for the consideration of the board in its determination of the makeup water requirements for the preceding, current and ensuing water years.

71686. On or before the second Tuesday in March of each year, and provided the survey and report called for by Section 71685 has been made, the board, by resolution, shall declare whether funds shall be raised to purchase water for replenishment and makeup water for the next ensuing water year pursuant to this article and whether the replenishment assessment will benefit, directly or indirectly, all of the persons or real property and improvements within the district.

71686.1. If the board, by resolution, determines that the funds needed to purchase replenishment or makeup water shall be raised by the levy of a replenishment assessment, then the board shall immediately publish a notice that a public hearing will be held on the second Tuesday of April for the purpose of determining whether and to what extent the estimated cost of purchasing water for replenishment and makeup requirements for the ensuing water year shall be paid for by a replenishment assessment. Such notice shall contain a copy of the board's resolution, the time and place of the hearing, and an invitation to all interested parties to attend and be heard in support of or opposition to the proposed assessment, the engineering survey and report, and the board's determination, and shall invite inspection of the engineering survey and report upon which the board acted. The notice shall be published in each affected county pursuant to Section 6061 of the Government Code, at least 10 days before the hearing date.

71686.2. The hearing shall be held before the board and a quorum shall be present. The hearing may be adjourned from time to time by the president or presiding officer or hearing officer but shall be completed by the first Tuesday in May next following.

71686.3. The board may appoint a qualified registered engineer familiar with water problems as a hearing officer to conduct the hearing.

71686.4. All evidence relevant to the engineering survey and report and the board's determination that such a replenishment assessment shall be levied may be introduced.

71687. Upon completing the hearing, but no later than the second Tuesday in May, the board shall, by resolution, find:

(a) The annual overdraft for the preceding water year.

(b) The estimated annual overdraft for the current water year.

(c) The estimated annual overdraft for the ensuing water year.

(d) The accumulated overdraft as of the last day of the preceding water year.

(e) The estimated accumulated overdraft as of the last day of the current water year.

(f) The total production of ground water from the ground water supplies within the district during the preceding water year.

(g) The estimated total production of ground water from the ground water supplies within the district for the current water year.

(h) The estimated total production of ground water from the ground water supplies within the district for the ensuing water year.

(i) The changes during the preceding water year in the ground water levels, pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and the effects thereof upon the ground water supplies and makeup water requirements of the district.

(j) The estimated changes during the current water year in the ground water levels, pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, and the estimated effects thereof upon the ground water supplies within the district.

(k) The quantity of water which should be purchased for the replenishment of the ground water supplies and makeup water requirements of the district during the ensuing water year.

(*l*) The source and estimated cost of water available for such replenishment and makeup water requirements.

(m) The estimated costs of replenishing such ground water supplies and meeting makeup water requirements of the district with such water so purchased.

(n) The estimated costs of purchasing, in water years succeeding the ensuing water year, that portion of the quantity of water which should be purchased for the replenishment of the ground water supplies and meeting the makeup water requirements of the district during the ensuing water year, but which is estimated to be unavailable for purchase during said ensuing water year; the estimated costs shall be based on the estimated price of water for replenishment and makeup purposes during the ensuing water year.

(o) The estimated rate of the replenishment assessment required to be levied upon the production of ground water from the ground water supplies within the district during the ensuing fiscal year for the purposes of accomplishing such replenishment makeup water requirements and providing a reserve fund to purchase in future years, when available, that portion of the quantity of water which should be purchased for the replenishment of the ground water supplies and meeting the makeup water requirements of the district during the ensuing water year, but which is estimated to be unavailable for purchase during such ensuing water year.

(p) That persons extracting in the aggregate in excess of 50 percent of the water which would be subject to the water replenishment assessment, based upon production during the preceding fiscal year, have not filed their written objections

to a proposed water replenishment assessment for the next succeeding fiscal year.

Without the specific finding required by this subdivision (p), no further steps shall be taken to establish such water replenishment assessment for the next succeeding fiscal year.

71687.1. Based on such findings the board shall, by resolution, determine what portion, if any, of the estimated cost of purchasing water for replenishment and makeup for the ensuing fiscal year shall be paid for by a replenishment assessment, and what portion, not exceeding 25 percent of the said portion, of the estimated cost of purchasing in the future that quantity of water which should be purchased during the ensuing water year, but which is estimated to be unavailable during that year, should be raised by a replenishment assessment.

71687.2. If the board determines that a replenishment assessment should be levied upon the production of ground water from ground water supplies within the district during the ensuing fiscal year, then immediately following the making of such determination the board shall levy a replenishment assessment on the production of ground water from the ground water supplies within the district during the fiscal year commencing on July 1st next, and such replenishment assessment shall be fixed by the board at a uniform rate per acre-foot of ground water so produced. The producers of such ground water shall pay such replenishment assessment to the district at the times and in the manner hereinafter in this article provided.

71688. The district, after the levying of the replenishment assessment, shall give notice thereof to the operators of all water-producing facilities in the district as disclosed by the records of such district, which notice shall state the rate of replenishment assessment for each acre-foot of ground water to be produced during the ensuing fiscal year. The notice may be sent by postal card or by other first-class mail with postage prepaid by the district.

71688.1. The operator of each water-producing facility within the district, on or before the last day of the month immediately following the respective quarterly periods ending March 31st, June 30th, September 30th, and December 31st of each year, shall file with the district a sworn statement setting forth the total production in acre-feet of ground water from such water-producing facility during the respective quarterly periods immediately preceding the filing of the respective statements, a general description or number locating such water-producing facility, and the method or basis of the computation of such ground water production. Each statement also shall contain such other information as the district may require.

If the board by its resolution determines that additional reports or statements are necessary or useful to carry out the purposes of this article and to administer the replenishment of the ground water supplies and meet the makeup water re-

quirements of the district, then the board shall by its resolution so declare and shall give notice of the adoption of the resolution by immediately publishing the same in each affected county pursuant to Section 6061 of the Government Code. Effective 30 days after such publication, the operator of each water-producing facility in such district shall file with the district the report or statement required by such resolution, at such times and in such manner and form as are provided in such resolution.

71688.2. Any replenishment assessment levied pursuant to this article shall be due and payable to the district by each producer in quarterly installments on the last day for filing the statement of the production of ground water from the water-producing facility operated by such producer during the quarterly period required to be covered by such statement. The amount so due and payable shall be computed by multiplying the production in acre-feet of ground water so produced from such water-producing facility, as reported in such statement, by the rate of the replenishment assessment fixed and levied by the board for the fiscal year in which such production shall occur.

71688.3. The board shall authorize, and the district shall make, refunds in whole or in part of replenishment assessments theretofore paid, to any producer who has erroneously overstated his production of ground water in any sworn statement for a quarterly period required under the provisions of Section 71688.1, and who has overpaid his replenishment assessment for that quarter, but only upon compliance by the producer with the procedure hereinafter set forth and within the time hereinafter provided.

Any such producer, within one year of the last day for filing of the said sworn statement for the quarterly period in question, may file a verified application with the district on a form to be furnished by the district, containing such information as the district may require, requesting a refund of that portion of any replenishment assessment claimed to have been paid by reason of that producer's erroneous overstatement of ground water production. If incomplete information is contained in said application, or if the board desires other or further information than called for by that application, the same shall also be furnished by a verified statement within 30 days of mailing of written notice of request therefor to the producer at his address as shown by the district's records, or the application shall be deemed abandoned. Such request by the board shall not cause any application otherwise timely filed to be considered as not filed within said one-year period. The board may authorize, and the district may pay, any refund claimed without a hearing thereon, but no application shall be denied in whole or in part without a hearing being accorded to the applicant in which he shall have the burden of proof. Any determination by the board on any matter in connection with

said application shall be final and conclusive upon the producer.

Any refund authorized to be paid under the provisions of this section may be paid only out of moneys realized from replenishment assessments levied pursuant to Section 71687.2, then or thereafter raised. Upon election of the producer, any refund determined by the board to be owing may be credited to the producer against any subsequent replenishment assessments which might become due and owing from him. No refunds shall be made except as authorized by this section.

71689. If any producer shall knowingly fail to pay a replenishment assessment within 30 days of when due, such producer shall become liable to the district for interest at the rate of 1 percent per month on the delinquent amount of the assessment.

71689.1. Should any operator of a water-producing facility knowingly fail to register his water-producing facility or knowingly fail to file the ground water production statement, or knowingly fail to file and furnish any other reports or statements required by resolution of the board adopted pursuant to Section 71688.1, he shall, in addition to interest as provided in Section 71689, become liable to the district for a penalty of one hundred fifty dollars ($150).

71689.2. The board, at the time of fixing the replenishment assessment rate, may provide by resolution that any producer operating a water-producing facility having a discharge opening not greater than two inches in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, shall pay the amount fixed in such resolution as the replenishment assessment to be paid by such producer. No sworn statement as to the production of ground water from such water-producing facility need be filed.

71689.3. The superior court of the principal county may issue a temporary restraining order upon the filing by the district with the court of a verified petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district or that such defendant is delinquent in the payment of a replenishment assessment. Such temporary restraining order shall be returnable to the court on or before 10 days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established by the preponderance of the evidence at a hearing that the defendant has failed to register such water-producing facility with the district or that the defendant is delinquent in the payment of a replenishment assessment. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed 10 days to permit the defendant to register

the water-producing facility or to pay the delinquent replenishment assessment.

Service of process shall be made by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which such water-producing facility is located and by personal service of such summons and complaint upon the named defendant.

The right to proceed for injunctive relief as provided herein shall be in addition to any other right which may be provided elsewhere in this act or which may be otherwise allowed by law. The procedure provided in Part 2, Title 7, Chapter 3 (commencing with Section 525) of the Code of Civil Procedure regarding injunctions shall be followed except insofar as it may be otherwise provided herein. The district shall not be required to furnish an undertaking or bond as a condition to the granting of injunctive relief.

71689.4. If the board shall have probable cause to believe that the production of ground water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering a water-producing facility, the board may cause an investigation and report to be made concerning the production of ground water from such water-producing facility. The board may fix the amount of ground water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing facility; provided, however, where a water-measuring device is permanently attached thereto, the record of production as disclosed by such water-measuring device shall be presumed to be accurate and the burden is upon the district to establish to the contrary.

After such determination has been made by the board, a written notice thereof shall be mailed to the operator of such water-producing facility at his address as shown by the district's records. Any such determination made by the district shall be conclusive on the operator, and on any producer producing water from such water-producing facility, and the replenishment assessment based thereon, together with interest and penalties, shall be payable forthwith, unless such operator or producer shall file with the board of directors of the district within 10 days after the mailing of such notice a written protest setting forth the ground or grounds for protesting the amount of production so fixed or the replenishment assessment, interest, and penalties so levied thereon. Upon the filing of such protest, the board shall hold a hearing at which time the total amount of the ground water production and the replenishment assessment thereon shall be determined, and the interest and penalties fixed, which action shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant. The producer shall have 20 days

from the date of mailing of such notice to pay the replenishment assessment, interest and penalties so fixed by the board.

71689.5. The district may bring a suit in the court having jurisdiction against any producer of ground water from the ground water supplies within the district for the collection of any delinquent replenishment assessment, interest, or penalties. The court having jurisdiction of the suit may, in addition to any judgment, award interest and costs on any judgment as allowed by law. Should the district seek an attachment against the property of any named defendant therein, the district shall not be required to furnish bond or other undertaking as provided in Part 2, Title 7, Chapter 4 (commencing with Section 537) of the Code of Civil Procedure.

71689.6. It shall be unlawful to produce ground water from any water-producing facility within any district from and after one year following the adoption of the resolution provided for in Section 71686 hereof, unless such water-producing facility shall have a water-measuring device affixed thereto capable of registering the accumulated amount of ground water produced therefrom.

The board by resolution may extend such date on a year-to-year basis upon its determination that availability, price of water-measuring devices, or other circumstances justify such extension Should the date be extended, notice thereof shall be published in the district pursuant to Section 6066 of the Government Code, such publication to be completed not less than two months prior to the date so extended.

This section shall not be applicable to any operator of a water-producing facility having a discharge opening two inches or less in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, who is required to pay a replenishment assessment in an amount fixed by resolution of the board of the district as hereinabove in this part provided.

Violation of this section shall be punishable by a fine not to exceed five hundred dollars ($500), or by imprisonment in the county jail for not to exceed six (6) months, or by both such fine and imprisonment. Each day of operation of a water-producing facility in violation hereof shall constitute a separate offense.

71689.7. Following a final adjudication of all or substantially all of the rights to extract ground water and a determination of the natural safe yield of the ground water supplies within the district, and a determination of the amount or extent to which the rights to extract ground water so adjudicated may be exercised without exceeding the natural safe yield of such ground water supplies, the board shall recognize such judicial determination by exempting from replenishment assessments the amount of water pumped by each person whose rights have been so adjudicated which does not exceed his proportionate share of the natural safe yield of the ground water supplies of the district, as so adjudicated from time to time by

the court having jurisdiction over such adjudication proceeding. The replenishment assessment shall thenceforth be levied on each producer by multiplying the production in acre-feet of ground water so produced by such producer's water-producing facility in excess of his said adjudicated share of the natural safe yield by the rate of the replenishment assessment fixed and levied by the board for the fiscal year in which such production shall occur.

71689.8. To the extent that the replenishment assessment after adjudication hereunder shifts from all producers to those who extract water in excess of their respective shares of the natural safe yield of the ground water supplies within the district as so adjudicated, such replenishment assessment shall be deemed to benefit those persons who continue to pump and extract ground water in excess of their adjudicated shares of the natural safe yield. Inasmuch as such persons must buy supplemental water or be in contempt of the court's order limiting their extraction of ground water, they shall be deemed to benefit by the payment of a replenishment assessment which is used to purchase water to supplement the natural supplies of ground water available for use.

71689.9. To the extent that ground water supplies are replenished under this article no person shall acquire any property or other right in the waters provided by the district for replenishment purposes.

SEC. 2. Section 71757 is added to said code, to read:

71757. To carry out the purposes of this division, a district shall have the power to commence, maintain, intervene in, defend and compromise, in the name of the district, or as a class representative of the inhabitants, property owners, taxpayers, water producers or water users within the district, or otherwise, and to assume the costs and expenses of any and all actions and proceedings now or hereafter begun to determine or adjudicate all or substantially all of the water rights of a basin or other hydrologic unit overlain, in whole or in part, by the district, as between owners of or claimants to such rights, to prevent any interference with water or water rights used or useful to the lands, inhabitants, owners, operators, or producers within the district, or to prevent the diminution of the quantity or quality of the water supply of the district or such basin, or to prevent unlawful exportation of water from the district or such basin.

CHAPTER 1726

An act to amend the second Section 6 of Chapter 1983 of the Statutes of 1963, relating to vocational educational classes.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. The second Section 6 of Chapter 1983 of the Statutes of 1963 is amended to read:

Sec. 6. Sections 5 and 6 shall become operative on the 91st day after final adjournment of the 1963 Regular Session.

CHAPTER 1727

An act to amend Sections 7068.2 and 7076 of the Business and Professions Code, relating to contractors.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 7068.2 of the Business and Professions Code is amended to read:

7068.2. If the individual qualifying for the license is a responsible managing officer or responsible managing employee and ceases for any reason whatsoever to be connected with the individual or firm to whom the license is issued, the licensee and the responsible managing officer or responsible managing employee qualifying for such license shall notify the registrar in writing within 30 days from such cessation. If a notice is given the license shall remain in force for a reasonable length of time to be determined by rules of the board.

If the licensee or his responsible managing officer or responsible managing employee qualifying for the license fails to notify the registrar in writing within the 30-day period, at the end of the period the license shall be automatically suspended. The license shall be reinstated upon the filing of an application, executed by the licensee or a member of the licentiate firm and filed with the registrar, designating another individual to qualify as required by this chapter on behalf of the licensee. The application shall state that the individual qualifying has not had his license suspended or revoked or that he has not been connected with a licensee who has had a license suspended or revoked for reasons that would preclude such individual from personally qualifying as to the good character required of an applicant.

SEC. 2. Section 7076 of said code is amended to read:

7076. In case of the death of a partner, the surviving partner or partners of a licensed copartnership shall be entitled to continue in business under such license for a reasonable length of time to be determined by rules of the board, provided application for permission is made to the registrar within 30 days after death of the partner, and such application is approved by the registrar.

In case of the death of a person licensed as an individual, a member of the immediate family of the deceased licensee shall be entitled to continue the business under the same license for a reasonable length of time to be determined by rules of the board, provided application for permission is made to the registrar within 30 days after the death of the licensee and such application is approved by the registrar.

A license so extended under Sections 7068.2 and 7076 is subject to all other provisions of this chapter

CHAPTER 1728

An act to amend Sections 1320 and 1322 of the Insurance Code, relating to reciprocals or interinsurance exchanges.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 1320 of the Insurance Code is amended to read:

1320. The attorney of every admitted reciprocal or interinsurance exchange shall verify and cause to be filed with the commissioner copies of the following forms used by the exchange:

(a) The form of every amendment to, revision of, or substitution for the power of attorney in use at the time of admission.

(b) The form of each application for insurance and the form of each contract for exchange of indemnity which would have to be filed with or approved by the commissioner if such insurer were a capital stock insurer, including where applicable the rates to be used therewith.

(c) Every amendment, revision or replacement of forms described in subdivision (b).

(d) Such other specific forms of applications for insurance or specific contracts for exchange of indemnity as the commissioner may from time to time by written order require be filed.

The commissioner may disapprove of any form filed in accordance with this section if:

(1) It be contrary to law, or

(2) He finds it contains any material which is unintelligible, uncertain, unfair, ambiguous, or obtuse, or likely to mislead a person to whom the form is offered, delivered, or issued.

The procedure for such disapproval shall be that specified in Section 12957 for withdrawal of approval of previously approved forms of other insurers.

It shall be unlawful for such insurer to use any such form after such disapproval has become final.

SEC. 2. Section 1322 of said code is amended to read:

1322. The attorney prior to admission shall file with the commissioner a declaration verified by his oath or, where such attorney is a corporation, by the oath of its duly authorized officers. Such declaration shall set forth or have annexed thereto:

In the event the streets or any of them shown on a subdivision map are not offered for dedication the certificate may contain a statement to this effect. (i) "Producer" means any operator producing ground water or taking surface delivery of water.

(j) "Annual overdraft" means the amount, as determined by the board of directors of the district, by which the production of water from the ground water supplies within the district during the water year exceeds the natural replenishment of such ground water supplies in such year.

(k) "Accumulated overdraft" means the aggregate amount, as determined from time to time by the board of directors of the district, by which the quantity of ground water removed from the ground water supplies within said district during all preceding water years shall have exceeded the quantity of water replaced therein by the replenishment of such ground water supplies in such water years by any natural or artificial means, the respective determination to be based upon reports, records, and other data or evidence found by such board of directors to be adequate for the purpose of making such determination.

(*l*) "Delinquent account" means the sum or sums owing to the district by an operator for water produced by a water-producing facility for which payment is required by this act and for which payment in full has not been received by the district within the time specified for payment by this act and the applicable rules and regulations duly adopted by the board of directors.

(o) "Delinquent parcel" means a parcel of land upon which one or more delinquent water-producing facilities are located.

(p) "Delinquent water-producing facility" means a water-producing facility which has produced water for which payment is required by this act and for which payment in full has not been received by the district for the production of such water within the time specified for payment by this act and any applicable rules and regulations duly adopted by the board of directors.

(q) "Unregistered water-producing facility" means a water-producing facility which has not been registered with the district as required by this act and any applicable rules and regulations duly adopted by the board of directors.

SEC. 3. Section 8 of said act is amended to read:

Sec. 8. The board of directors at a regular meeting in March of each year shall hold a public hearing to determine whether a replenishment assessment is required to be levied and whether a surface delivery charge shall be made. Notice of said hearing shall be published pursuant to Section 6061 of the Government Code at least 10 days prior to the date of said meeting. Any operator of a water-producing facility within said district or any person interested in the condition of the water supplies of said district may in person or by representative appear and submit evidence concerning the water conditions of said district. The board may levy and assess a charge or replenishment assessment against all persons operating water-producing facilities and producing water during the current year and may fix charges for the use, sale, or lease of water for surface delivery or may establish a rate for such water on a consumptive use basis or on a flat rate acreage basis. The method of computing such charges may be uniform for all water-producing facilities or may be uniform for each of several classes of water-producing facilities, said classes being determined by such criteria as are set forth hereinafter in this paragraph. At the time of fixing such charges, assessments, or rates, the board may establish a method or methods to be used in computing the amount of water produced or consumptively used from a water-producing facility which is not measured by a measuring device. Such methods may be based on any or all or a combination of some of the following criteria; size of water-producing facility discharge opening, area served by the water-producing facility, number of persons served by the water-producing facility, use of land served by the water-producing facility, crops grown on land served by the water-producing facility, on a flat rate acreage basis, or any other criteria which may be used to determine with reasonable accuracy the amount of water produced or consumptively used from a water-producing facility whether used for extracting ground water by pumping or taking surface delivery of water furnished by the district and to distribute such charges equitably as determined by the board. The board may waive a charge or assessment upon any class of water-producing facilities, which because of the small amount of water produced by such facilities, would yield to the district a sum less than the estimated cost of making and collecting such charges or assessments.

The total of the replenishment assessment levied and charges fixed in any year shall not exceed an amount of money found to be necessary to purchase sufficient water which the board finds is required to replenish the ground water basin and to

furnish surface deliveries and for the operation and maintenance costs related thereto.

In computing and fixing the replenishment assessment rate and charge there shall be allowed such percent, not to exceed 15 percent, as shall be determined by the board of directors of the district for delinquencies, but in no event shall an assessment be levied under the provisions of this act which shall exceed a rate of four dollars ($4) per acre-foot for water furnished by surface delivery where such water is used for agricultural purposes, or seventy-five cents ($0.75) per acre-foot for water produced from the underground where such water is used for agricultural or agricultural product processing purposes and not to exceed three dollars ($3) per acre-foot for water used for nonagricultural purposes. Notice of such hearing shall be published in the district pursuant to Section 6061 of the Government Code, at least 10 days prior to the date set for said hearing.

Any replenishment assessment levied or charge made by this section shall be in addition to any general assessment levied by said district. The board of directors shall have authority to commingle the funds of the district produced by any general assessment and by any replenishment assessment levied or charges made pursuant to this section and to use any of such funds for all district purposes, provided that no funds produced by any replenishment assessment levied or charges made pursuant to this section shall be used other than for the acquisition of water for replenishment of the ground water supplies of the district and for acquisition of water for surface deliveries and for operation and maintenance costs related thereto.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly assessed, or in the making or extension of any assessment upon the records, which do not affect the substantial rights of the assessee or assessees, shall not invalidate the assessment.

SEC. 4. Section 9 of said act is amended to read:

Sec 9. The district, after the levying of the replenishment assessment and fixing charges, shall give notice thereof to the operator of each water-producing facility in the district and each person taking surface delivery as disclosed by the records of said district. Said notice may be sent by postal card or by other first class mail with postage prepaid by said district.

SEC 5. Section 10 of said act is amended to read:

Sec. 10. Within six months after the effective date of this act, all water-producing facilities located within the boundaries of the district shall be registered with said district by the operator thereof. Any new water-producing facility constructed or reestablished after such date shall be registered with said district within 30 days after the completion or reestablishment thereof.

In addition to other information which said district may determine is necessary and may require in the registration form provided, there shall also be given information as to the owner or owners of the land upon which each water-producing facility is located, a general description and location of each water-producing facility, the name and address of the person charged with the operation of each water-producing facility and the name or names and addresses of all persons owning or claiming to own an interest in the water-producing facility.

The provisions of this section shall not be applicable to any class of water-producing facilities which is excluded from the requirements of registration by any rules and regulations adopted by the board. The board may so exclude a determinable class of water-producing facilities from the requirements of registration because of the small quantity of water produced by such water-producing facilities, or because charges and assessments are to be imposed on such a class of water-producing facilities by a method not requiring the board to have knowledge of the exact number and location of the water-producing facilities in such a class. The board may, by the adoption of appropriate rules and regulations. subsequently require registration of any class of water-producing facilities previously excluded from the requirement of registration and subject such facilities to all the requirements of this section.

SEC. 6. Section 11 of said act is amended to read:

Sec. 11. Each operator of a water-producing facility within said district whose use of water is measured by a measuring device, until such time as said water-producing facility has been permanently abandoned, shall file with said district, on or before the 31st day of January and on or before the 31st day of July of each year, a statement setting forth the total production in acre-feet of water for the preceding six months period (excluding the month in which the statement is due), a general description or number locating each water-producing facility and the method or basis of the computation of such water production. If no water has been produced from said water-producing facility during the preceding six months period, said statement shall be filed as provided for herein setting forth that no water has been produced during said period. Each water user whose use of water is not measured by a measuring device shall likewise file a statement setting forth such information as the board of directors may deem necessary or desirable to effectuate the purposes of this act and as required by the rules and regulations duly adopted by the board of directors. Such statements shall be verified by a written declaration that it is made under the penalties of perjury. The replenishment assessment and charges are payable to said district on or before the last date on which said statements shall be filed and is computed by multiplying the production in acre-feet of water as disclosed in the statement, by the replenishment assessment rate or by such other method authorized by this act and adopted by the board. At such time as any

said water-producing facility has been permanently abandoned, the operator thereof shall give written notice of such abandonment to said district.

Upon failure to pay the replenishment assessment or charges when due, said district shall charge interest at the rate of one (1) percent each month on the delinquent amounts.

Should any operator of a water-producing facility fail to register each water-producing facility or should any water user fail to file on or before the 31st day of January and the 31st day of July of each year the statement required, said district shall, in addition to charging interest as provided herein, assess a penalty charge against such operator or water user in an amount of ten (10) percent of the amount found by said district to be due.

Should any operator of a water-producing facility fail to register any water-producing facility within the time required by this act and any applicable rules and regulations duly adopted by the board of directors, then the board of directors may levy a supplemental penalty, in addition to penalties and interest otherwise authorized by this act, of not to exceed three times the amount found by the district to be due for water produced from such a facility on and after the effective date of this amendment to this act pursuant to rules and regulations adopted by the board of directors.

No semiannual statement need be filed by any operator of a water-producing facility which facility has been excluded from the requirement of registration pursuant to Section 10 of this act. No semiannual statement need be filed by the operators of any class of water-producing facilities which is excluded from the requirements of filing such statements by any rules and regulations adopted by the board. The board may so exclude a determinable class of water-producing facilities from the requirement of filing semiannual statements in the event that the board determines that such filing is unnecessary because the charges and assessments to be imposed on such a class of water-producing facilities are to be imposed by a method not requiring the board to have the knowledge it would receive from such semiannual statements.

In the event that the board determines, pursuant to Section 10, not to require the registration of a particular class of water-producing facilities or not to require the submission of semiannual statements by the operators of a particular class of water-producing facilities and the charges or assessments on such facilities are otherwise established such charges and assessments shall be paid at the time and in the manner set forth in appropriate rules and regulations adopted by the board.

SEC. 7. Section 12 of said act is repealed.

SEC. 8. Section 13 of said act is amended and renumbered to read:

Sec. 12. Upon good cause shown an amended statement of water production may be filed or a correction of the records

may be made at any time prior to the final date for filing the next semiannual water production statement.

SEC. 9. Section 14 of said act is amended and renumbered to read:

Sec. 13. The district shall prepare each year a record called "The Record of Water Production" in which shall be noted the annual water production.

The district shall also prepare each year a record called "The Record of Replenishment Assessment and Charges" in which shall be entered each district assessment levy and charge, a general description and location of the property upon which each assessment or charge is made, and any identifying number or code which may be assigned to such facility.

SEC. 10. Section 15 of said act is amended and renumbered to read:

Sec. 14. The superior court of the county in which said district lies may issue a temporary restraining order upon the filing by said district with said court a verified petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district, or is a water user who has failed to file a required statement, or that such defendant is delinquent in the payment of a replenishment assessment or charge. Such temporary restraining order shall be returnable to said court on or before ten (10) days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility or from the use of water when it is established by a preponderance of the evidence at the hearing that the defendant has failed to register such water-producing facility with said district or has failed to file the required statement, or that the defendant is delinquent in a replenishment assessment or charge thereon. Such court can provide that the injunction so made and issued shall be stayed for a period not to exceed ten (10) days to permit the defendant to register the water-producing facility or to pay the delinquent replenishment assessment.

Service of process is completed by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which it is located or upon which the water is used and by personal service upon the named defendant.

The right to proceed for injunctive relief granted herein is an additional right to those which may be provided elsewhere in this act or otherwise allowed by law. The procedure provided in Part 2, Title 7, Chapter 3 of the Code of Civil Procedure regarding injunctions shall be followed except insofar as it may herein be otherwise provided. Said district shall not be required to provide an undertaking or bond as a condition to granting injunctive relief.

The provisions of this section shall not be applicable in any case in which a particular act need not be performed by the

operator of a water-producing facility pursuant to duly adopted rules and regulations of the district.

SEC. 11. Section 16 of said act is amended and renumbered to read:

SEC. 15. If said district has probable cause to believe that the production of water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering any water-producing facility, said district may cause an investigation and report to be made concerning the production of water from each such water-producing facility. Said district may fix the amount of water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing facility; provided, however, where a water-measuring device is permanently attached thereto, the record of production as disclosed by such water-measuring device shall be presumed to be accurate and the burden is upon said district to establish to the contrary.

After such determination has been made by said district, a written notice thereof shall be mailed to the person operating such water-producing facility at his address as shown by the district's records. Any such determination made by said district shall be conclusive on all persons having an interest in such water-producing facility and the replenishment assessment interest and penalties thereon, payable forthwith, unless such person files with the board of directors of said district within ten (10) days after the mailing of such notice a written protest setting forth the ground or grounds for protesting the amount of production so fixed. Upon the filing of such protest, said board of directors thereafter shall hold a hearing at which time the total amount of the water production and the replenishment assessment thereon shall be determined, which shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to protestant at least ten (10) days before the date fixed for the hearing. Notice of the determination by said board of directors shall be mailed to each protestant who shall have twenty (20) days from the date of mailing to pay the replenishment assessment, interest or penalties provided by the provisions of this act.

Notice as required in this section shall be given by deposit thereof in any postal facility regularly maintained by the government of the United States, in a sealed envelope with postage paid, addressed to the person on whom it is served at his name and address as disclosed by the record of said district. The service is complete at the time of deposit.

SEC. 12. Section 17 of said act is amended and renumbered to read:

SEC. 16. Said district may bring a suit in the court having jurisdiction against any operator of a water-producing facility within said district for the collection of any delinquent replenishment assessment or charge. The court having

jurisdiction of said suit may, in addition to allowing recovery of costs to said district as allowed by law, fix and allow a part of the judgment, interest and penalties as provided in Section 12. Should said district, as a provisional remedy in bringing such suit, seek an attachment against the property of any named defendant therein, said district shall not be required to provide a bond or undertaking as is otherwise provided for in the Code of Civil Procedure of the State of California in Part 2, Title 7, Chapter 4 thereof.

SEC. 13. Section 18 of said act is repealed.

SEC. 14. Section 19 of said act is amended and renumbered to read:

SEC. 16. Section 21 of said act is amended and renumbered to read:

Sec. 19. No rules and regulations shall be adopted by the board without first reviewing such at a public hearing held by the board. Notice of such a public hearing shall be published pursuant to Section 6061 of the Government Code at least 10 days prior to the date of such a hearing and the notice shall contain a brief description of any rules and regulations to be considered at the hearing.

SEC. 17. Section 22 of said act is amended and renumbered to read:

Sec. 20. There shall be within the district a board of review. The board of review shall consist of three members to be appointed, except as otherwise provided in this act, as follows: one by the City Council of the City of Stockton, one by the Board of Supervisors of the County of San Joaquin, and one by the board of directors of the district. Each of the members of the board of review shall have such experience or training so as to qualify them to deal with the matters which it is reasonably anticipated will come before the board of review The members of the board of review shall each serve at the pleasure of the governing board making the respective appointment. If either the city council or the board of super-

visors fails to appoint its respective member of the board of review, or to fill a vacancy with respect to its member, within 30 days after being requested in writing by the board of directors to do so then the board of directors shall fill such a vacancy and a person so appointed shall serve until such time as the city council or the board of supervisors respectively makes the necessary appointment but any person so appointed by the board of directors, because of the failure of the city council or the board of supervisors to act, shall continue to serve until any matters pending before the board and in which he has participated have been finally acted upon by the board as to such matters.

The board of review shall meet from time to time as is necessary to review the actions of the board of directors pursuant to this section. The board of directors shall provide for the actual and necessary expenses of the board of review and shall in addition thereto pay to each member of the board of review twenty-five dollars ($25) per meeting actually attended. The board of directors shall establish appropriate rules of procedure for the conduct of the business of the board of review. Two members of the board of review shall constitute a quorum for all purposes. All meetings of the board of review shall be open to the public and at any meeting of the board of review the board of directors, or members thereof, may be present or may be represented by counsel or other personnel or officials of the district.

If any interested person is dissatisfied with the action of the board of directors in connection with the adoption of any rule or regulation or in connection with the establishment of any rates or charges such action may be presented to the board of review by such interested person. Any person desiring to request review of an action by the board of directors shall file a request for review in writing either on forms provided by the district or in such other written form as will give the district adequate notice of the nature of the request, the action which it is requested be reviewed, the reasons for such request, the name, address, and telephone number of the person requesting review, and whether such person is represented by an attorney or other person and the name, address and telephone number of such representative. The request shall be filed with the secretary of the district and shall be filed not later than 10 days after the subject action is taken by the board of directors. Upon filing of a request for review the action of the board of directors to which the request relates shall be suspended and have no further effect until 10 days after either the board of review has approved the action of the board of directors or the board of directors has finally reconsidered its action after an order for reconsideration by the board of review.

Upon the filing of a request for review the secretary of the district shall set the matter for hearing by the board of review not later than 20 days after the filing of such a request, pro-

vided, however, that the president or secretary of the district shall have authority to extend the time for such hearing for a period not to exceed 30 additional days in the event that it is impractical to obtain a quorum of the board of review during the initial 20-day period. Prior to the hearing the secretary shall publish notice in the district pursuant to Section 6061 of the Government Code, at least 10 days prior to the date set for the hearing. The notice need not set out the nature of the appeal in detail, but shall contain a brief description of the nature of the appeal.

At the hearing the board of review shall hear evidence both written and oral from the person requesting the review and from all other interested persons desiring to be heard. At the conclusion of the hearing, and any continuances thereof, the board of review shall either approve the action of the board of directors or shall order a reconsideration thereof by the board of directors. Action shall be taken by the board of review on a matter brought before it not later than 45 days after the date set for the first hearing by the board of review on the matter. In the event that the board of review orders a reconsideration the board of review shall prepare a report and recommendations and submit the same to the board of directors within 10 days following the conclusion of the hearing or the final continuance thereof. In the event of an order for reconsideration the secretary shall transmit the report and recommendations to the board of directors and the board of directors shall meet at a regular or special meeting and shall consider the report and recommendations submitted to it and take such action thereon as it deems to be in the best interest of the district.

Upon either approval by the board of review or upon final reconsideration by the board of directors the action of the board of directors shall be final and shall take effect as of the date of the original action of the board of directors.

Nothing herein shall be deemed to deprive any person of any other rights of appeal or review he might have.

Notwithstanding any other provision in this section, in the event that the review process established by this section results in the suspension of an act of the board of directors until the completion of review, and delays the completion of any act required in the law beyond the time in which it should be done, the board shall have a reasonable time within which to act.

SEC 18. Section 21 is added to said act, to read:

Sec. 21. (a) Within ninety (90) days of nonpayment, when due, of all or any portion of any replenishment assessment or surface water charge due the district pursuant to this act the secretary of the district shall transmit to the board of directors the amount of any such delinquent account, together with the name of the delinquent operator, the name of the delinquent landowner, and the current description of the delinquent parcel as such description is then disclosed by the

applicable current records of the Assessor of the County of San Joaquin.

(b) Upon receipt of such a delinquent account, together with the information specified in paragraph (a) of this section, the board of directors shall cause notice to be given to the delinquent landowner and to the delinquent operator of the intention of the board of directors to create a lien upon said delinquent parcel The notice shall set forth said intention of the board of directors, the amount of the delinquent account, a description of the delinquent parcel, and shall further state that a delinquent landowner or delinquent operator may file a written protest with the secretary in the office of the district within twenty (20) days after the mailing of such notice together with such other information as may be deemed necessary or desirable by the board of directors. The notice shall be mailed to such delinquent landowner at the address of the delinquent landowner as such address is disclosed by the most recent equalized tax roll of the County of San Joaquin. On the same day that notice is mailed to such delinquent landowner, if the delinquent operator be other than the delinquent landowner, a copy of the notice shall be mailed to such delinquent operator at the address of the delinquent operator as such address is disclosed by the most recent records of the district. Not later than ten (10) days following the mailing of the notice a copy of such notice shall be published in the district pursuant to Section 6061 of the Government Code.

(c) Within twenty (20) days after the mailing of the notice a delinquent landowner or a delinquent operator may file a written protest to the amount of the delinquent account or to any other error stated in the notice with the secretary of the district at the office of the district. Such a protest shall either be on forms provided by the district or shall be in such other written form as will give the district adequate notice of the nature of the request, the ground or grounds of protest, the name, address, and telephone number of the protestant, and whether such protestant is represented by an attorney or other representative and the name, address, and telephone number of such representative. The protest required by this paragraph shall be verified by the protestant filing the same.

(d) Upon the receipt of any protest filed pursuant to paragraph (c) above, the president of the board of directors shall set a time and place for a hearing on the matter before the board of directors. The hearing shall be set not later than sixty (60) days after the mailing of the notice mentioned in paragraph (b) and notice of such hearing shall be given to protestant by the mailing of a notice of the hearing to his mailing address specified in his protest. The notice of hearing shall be mailed at least ten (10) days prior to the time set for said hearing. At the hearing upon the protest any protestant shall be given an opportunity to present oral and documentary testimony, either personally or by an attorney or other representative, as to his grounds and reasons for the protest and the

board of directors shall also hear evidence with respect to the matter from the secretary of the district and from such other persons as it deems necessary and proper.

(e) At the conclusion of the hearing upon a protest, or at the conclusion of any continuance thereof, or if no protest has been filed within forty (40) days after the mailing of the notice mentioned in paragraph (b) of this section, then at any special or regular meeting of the board of directors, the board of directors shall review said delinquent account and shall revise or confirm it, based upon evidence presented by any protestant and upon evidence presented by the secretary of the district and the evidence of any other person heard by the board of directors, and shall then compute the penalties due on the delinquent account pursuant to this act to the date of the hearing, continuance thereof, or meeting and the board of directors shall then certify, by the adoption of an appropriate resolution, to the total amount of the delinquent account together with the penalties due thereon, the name of the delinquent landowner, and the description of the delinquent parcel On or before the 10th day of August, next, succeeding the adoption of such a resolution, the secretary shall transmit a certified copy of such resolution to the Auditor of the County of San Joaquin. The description provided for, herein, shall be the description or other designation currently used by the Assessor of the County of San Joaquin and shall include the tax account number and the code area of the delinquent parcel.

(f) Upon receipt of such a certified resolution, the Auditor of the County of San Joaquin shall enter the amount of the delinquent account, together with the penalties computed, as above in paragraph (e) of this section, against the delinquent parcel designated in the resolution as such parcel appears on the current assessment roll.

(g) The tax collector of the County of San Joaquin shall then include the amount of such assessment or charges and penalties, together with such penalties, on bills for county taxes levied against the delinquent parcel of land.

(h) Thereafter the amount of such assessments or charges and penalties shall be collected at the same time and in the same manner as county taxes are collected, and are subject to the same penalties and the same procedure and sale in case of delinquency, as provided for ordinary county taxes.

(i) Upon collection of such delinquent accounts and penalties, within a reasonable time the Auditor of the County of San Joaquin shall deposit the sums so collected to the account of the district, but the auditor may deduct, from time to time, an amount not to exceed one-quarter of one percent (¼ of 1%) of the sums collected pursuant to this section to defray the costs of the County of San Joaquin in processing such accounts.

(j) All laws applicable to the levy, collection, and enforcement of county taxes are applicable to such delinquent accounts and penalties so transmitted to the Auditor of the County of San Joaquin, pursuant to this section.

(k) All or any portion of any such delinquent account and penalties shall on order of the Board of Supervisors of the County of San Joaquin be canceled by the Auditor of the County of San Joaquin if uncollected, or except in the case provided for in subparagraph (5) hereof, refunded by the Treasurer of the County of San Joaquin, out of district funds, if collected, if it or they were entered, charged, or paid:

(1) More than once;

(2) Through clerical error;

(3) Through the error or mistake of the board of directors of the district in respect to any material fact, in the course of establishing the amount of the delinquent account and the penalties due upon said delinquent account under this act;

(4) Illegally; or

(5) On property acquired after the lien date by the State of California or by any county, city, school district, or other political subdivision of the State of California and because of such public ownership not subject to sale for delinquent taxes.

(*l*) No order for a refund under the foregoing paragraph shall be made except on a claim:

(1) Verified by the person who paid said delinquent account and penalties or his guardian, executor, or administrator; and

(2) Filed within three (3) years after making the payment sought to be refunded.

The provisions of this paragraph do not apply to cancellations.

(m) Mailed notice when required by this section shall be given by deposit thereof in any postal facility regularly maintained by the government of the United States, in a sealed envelope with postage paid, addressed to the person on whom it is served at the address specified by this section for such notice. The service is complete at the time of deposit.

(n) In such cases as are convenient and appropriate, procedures, acts, documents, and notices required under this section may be made applicable to more than one delinquent parcel, delinquent operator, delinquent landowner, or delinquent water-producing facility.

(o) The provisions of this section shall not be applicable to a delinquent parcel owned by the State of California or by any county, city, school district, or other political subdivision of the State of California.

SEC. 19. Section 22 is added to said act to read:

Sec. 22. In the case of an unregistered water-producing facility, known to the district, or at the time such a facility is discovered by the district, the total amount due for water produced by such a facility for all periods during which water was produced from such a facility shall be determined, charged, billed, and paid in the same manner as is provided in Section 15. In cases of unregistered water-producing facilities and in cases in which no required statement covering a water-producing facility has been filed and in such cases, and in all other cases provided for by Section 15, following the

final determination of the amount due pursuant to Section 15, if payment is not thereafter made within the time required by Section 15, any such delinquent account shall then in all respects be treated as any other delinquent account and shall be processed in accordance with the provisions established by Section 21.

SEC. 20. Section 23 is added to said act, to read:

Sec. 23. All of the procedures and remedies applicable to the processing, collection, and enforcement of delinquent accounts, including, but not limited to, those relating to the creation of tax liens, established by this amendment to this act shall be retroactively applicable to any delinquent replenishment assessment or charges accrued or incurred under this act at any time since September 21, 1963. For the purposes of the procedures established by Section 21 of this act, as amended, but not for any other purpose, including, but not limited to, the computation of penalties, delinquencies which accrued prior to the effective date of this amendment, shall be deemed to be delinquencies occurring on the effective date of this amendment. It is the express intention of the legislature in adopting this section to make such procedures and remedies granted to the district by this amendment retroactive. Nothing in this section or this amendment to this act shall be deemed to increase the total amount due upon any delinquent account at any time above that obligation which would have accrued upon any such delinquent account prior to the effective date of this amendment to this act had this amendment to this act not been adopted.

SEC. 21. Section 24 is added to said act, to read:

Sec. 24. Failure of the district at any time to take action to collect any delinquent replenishment assessment or charge or a failure of the district to compel registration of any unregistered water-producing facility shall not be a waiver of the right of the district to collect such account at any time in the future by the utilization of such procedures and remedies as are granted to the district by this act as amended by this amendment.

SEC. 22. Section 25 is added to said act, to read:

Sec. 25. All of the procedures and remedies applicable to the processing, collection, and enforcement of delinquent accounts and penalties granted to the district by this act as amended are alternative and the utilization of one such procedure or remedy shall not bar the use of another.

CHAPTER 1749

An act to amend Section 657 of the Code of Civil Procedure, relating to new trials.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 657 of the Code of Civil Procedure is amended to read:

657. The verdict may be vacated and any other decision may be modified or vacated, in whole or in part, and a new or further trial granted on all or part of the issues, on the application of the party aggrieved, for any of the following causes, materially affecting the substantial rights of such party:

1. Irregularity in the proceedings of the court, jury or adverse party, or any order of the court or abuse of discretion by which either party was prevented from having a fair trial;

2. Misconduct of the jury; and whenever any one or more of the jurors have been induced to assent to any general or special verdict, or to a finding on any question submitted to them by the court, by a resort to the determination of chance, such misconduct may be proved by the affidavit of any one of the jurors;

3. Accident or surprise, which ordinary prudence could not have guarded against;

4. Newly discovered evidence, material for the party making the application, which he could not, with reasonable diligence, have discovered and produced at the trial;

5. Excessive damages, appearing to have been given under the influence of passion or prejudice;

6. Insufficiency of the evidence to justify the verdict or other decision, or that it is against law;

7. Error in law, occurring at the trial and excepted to by the party making the application.

When a new trial is granted, on all or part of the issues, the court shall specify the ground or grounds upon which it is granted and the court's reason or reasons for granting the new trial upon each ground stated.

A new trial shall not be granted upon the ground of insufficiency of the evidence to justify the verdict or other decision unless after weighing the evidence the court is convinced from the entire record, including reasonable inferences therefrom, that the court or jury clearly should have reached a contrary verdict or decision.

The order passing upon and determining the motion must be made and entered as provided in Section 660 and if the motion is granted must state the ground or grounds relied upon by the court, and may contain the specification of reasons. If an order granting such motion does not contain such specification of reasons, the court must, within 10 days after

filing such order, prepare, sign and file such specification of reasons in writing with the clerk. The court shall not direct the attorney for a party to prepare either or both said order and said specification of reasons.

On appeal from an order granting a new trial the order shall be affirmed if it should have been granted upon any ground stated in the motion, whether or not specified in the order or specification of reasons; provided, that the order shall not be affirmed upon the ground of the insufficiency of the evidence to justify the verdict or other decision unless such ground is stated in the order granting the motion; and provided further that on appeal from an order granting a new trial upon the ground of the insufficiency of the evidence to justify the verdict or other decision, or upon the ground of excessive damages appearing to have been given under the influence of passion or prejudice, it shall be conclusively presumed that said order as to such ground was made only for the reasons specified in said order or said specification of reasons, and such order shall be reversed as to such ground only if there is no substantial basis in the record for any of such reasons.

CHAPTER 1750

Service of process in any such suit shall be made upon the Chairman of the State Lands Commission and the Attorney General, and it shall be the duty of the Attorney General to represent the state in any such suit. In any such action, whether or not judgment is given against the state, no costs shall be recovered against the state. Any action brought under the provisions of this act shall be commenced prior to January 1, 1967.

SECTION 1. Chapter 8.5 (commencing with Section 1501) is added to Part 1 of Division 1 of the Public Utilities Code, to read:

CHAPTER 8.5. SERVICE DUPLICATION

1501. The Legislature recognizes the substantial obligation undertaken by a privately owned public utility which is franchised under the Constitution or by a certificate of public convenience and necessity to provide water service in that the utility must provide facilities to meet the present and prospective needs of those in its service area who may request service. At the same time, the rates that may be charged for water service by a regulated utility are fixed by the Public Utilities Commission at levels which assume that the facilities so installed will remain used and useful in the operation of the

utility for a period of time measured by the physical life of such facilities.

The Legislature finds and declares that the potential loss of value of such facilities which may result from the construction and operation by a political subdivision of similar or duplicating facilities in the service area of such a private utility often deters such private utility from obtaining a certificate or extending its facilities to provide in many areas a water supply essential to the health and safety of the citizens thereof.

The Legislature further finds and declares that it is necessary for the public health, safety, and welfare that privately owned public utilities regulated by the state be compensated for damages that they may suffer by reason of political subdivisions extending their facilities into the service areas of such privately owned public utilities.

1502. (a) As used in this chapter, "political subdivision" means a county, city and county, city, municipal water district, county water district, irrigation district, public utility district, or any other public corporation.

(b) As used in this chapter, "service area" means an area served by a privately owned public utility in which the facilities have been dedicated to public use and in which territory the utility is required to render service to the public.

(c) As used in this chapter, "operating system" means an integrated water system for the supply of water to a service area of a privately owned public utility.

(d) As used in this chapter, "private utility" means a privately owned public utility providing a water service.

(e) As used in this chapter, "type of service" means, among other things, domestic, commercial, industrial, fire protection, wholesale, or irrigation service.

1503. The Legislature finds and declares that whenever a political subdivision constructs facilities to provide or extend water service, or provides or extends such service, to any service area of a private utility with the same type of service, such an act constitutes a taking of the property of the private utility for a public purpose to the extent that the private utility is injured by reason of any of its property employed in providing the water service being made inoperative, reduced in value or rendered useless to the private utility for the purpose of providing water service to the service area, and such taking shall be compensable under Section 14 of Article I of the Constitution of California.

1504. Just compensation for the property so taken for public purposes shall be as may be mutually agreed by the political subdivision and the private utility or as ascertained and fixed by a court of competent jurisdiction pursuant to the laws of this state relating to eminent domain, including consideration of the useful value to the political subdivision of the property so taken.

Whenever the compensation by a political subdivision under this section is an amount equal to the just compensation value

of all the property of the private utility in the operating system that the private utility employs in providing water service to the service area, the political subdivision may, by resolution, provide for the acquisition of all such property.

A political subdivision engaged in activities set forth in Section 1503 shall pay just compensation for the property so taken for public purposes.

1505. The provisions of Sections 1503 and 1504 will be applicable to any private utility which constructs facilities to provide or extend water service or provides or extends such service to any territory theretofore served by a political subdivision with the same type of service.

1506. As used in this chapter, "private utility" includes a mutual water company. In its application to mutual water companies, this chapter affects and relates only to the property, or portion of any property, of a mutual water company that is employed by the company in providing water service in or for a territory that is actually being provided with water service by the company when a political subdivision constructs facilities to provide or extend water service or provides or extends such service to the territory, and that territory shall constitute the "service area" of a mutual water company as used in Section 1502.

(c) For the benefit of a single zone.

SEC. 5 Section 2291 2 is added to said code, to read:

2291.2. The district board may institute projects for single zones and joint projects for two or more zones, for the financing and execution of algae research, algae control, or algae monitoring projects of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne by each of the participating zones and

fixing a time and place for public hearing of the resolution and which shall contain a general statement of the objectives of any research project and of the operation of any control or monitoring project. Notice of such hearing shall be given by publication once a week for two consecutive weeks prior to said hearing, the last publication of which notice shall be at least seven days before such hearing, in a newspaper of general circulation, circulated in such zone or each of the participating zones, if there be such newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to the hearing in five public places designated by the board, in such zone or in each of the participating zones. The resolution shall be posted in each of such public places so designated in the notice at least two weeks prior to the hearing.

At the time and place fixed for the hearing, or any time to which the hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing, the board may abandon the proposed project or proceed with it, unless prior to the conclusion of the hearing a written protest against the proposed project signed by persons representing one-half or more of the assessed valuation of the property within such zone or within any of the participating zones for which the project was initiated, is filed with the board. If such a written protest is filed with the board, further proceedings relating to such project shall be suspended for not less than six months following the date of the conclusion of the hearing, or the proceeding may be abandoned in the discretion of the board.

In all matters in this section referred to, the last equalized assessment roll of the county or counties within which a mosquito abatement district lies next preceding the filing of the protest shall be prima facie evidence as to the ownership of property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators and guardians may sign the protest provided for in this section on behalf of the estate represented by them. If the property is assessed in the name of such representatives, the fact shall establish the right of such representatives to sign the protest. If it is assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board shall be produced.

Where property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all

joint owners or representatives or partners. The party claiming the right to protest for all shall produce the written consent of his coowners or representatives or partners so to do. Where however, property appears to be owned in common or jointly by husband and wife, either may sign the protest without the written consent of the other.

Where property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest. If it is assessed in the name of more than one trustee, the right to sign the protest shall be determined in like manner as above provided with respect to coowners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, such authorization shall be in writing. A proxy executed by an officer or officers thereof, attested by its seal, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, may sign the protest represented thereby, if he produces a proxy from such former owner, or furnishes evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee may sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor may do so.

The board may inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. Unless satisfactory evidence is furnished, the right to sign the protest may be denied.

SEC. 6. Section 2291.3 is added to said code, to read:

2291.3. The provisions of Section 2291.2 shall be exclusive in determining the proper procedure for the institution of projects under Sections 2291, 2291.1, and 2291.2, any other provision of law notwithstanding.

ing out the projects within or on behalf of the respective zones, according to the benefits derived or to be derived by the respective zones, by a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property.

In the event of project cooperation with any of the governmental bodies as authorized in subdivision (d) of Section 2291, and requiring the making of a contract with any such governmental body for the purposes set forth in Section 2291, by the terms of which contract work is to be performed by any such governmental body in or on behalf of any specified zone or participating zones, for the particular benefit thereof, and by the proposed contract the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after proceedings in the manner prescribed in Section 2291.2, levy and collect a special tax or assessment upon the property in such zone or participating zones, to raise funds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Determination of the rate, computation, levy, and collection of such taxes, and the deposit and withdrawal of funds derived therefrom, and the raising of additional funds, shall be accomplished pursuant to Sections 2302 to 2312, inclusive,. No revenues or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivision (a) or (b) of this section shall, however, be expended for projects located in or on behalf of any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones shall become, and shall be referred to as, participating zones.

Zones may be established for the purpose of providing or maintaining facilities and programs such as parks and recreation facilities which are within the powers of the district to provide or maintain, but which are in addition to facilities and programs provided or maintained for the benefit of the district as a whole. The establishment of a zone as a special assessment district will permit the additional cost of such facilities and programs to the extent that they are not of districtwide benefit to be charged to the taxpayers of the zone for whose benefit the additional facilities and programs are provided or maintained.

5788.2. Zone formation proceedings may be commenced by the presentation to the governing body of a petition signed by owners representing at least 25 percent of the total assessed valuation of real property within the proposed zone as shown by the last equalized assessment roll, or by not less than 25 percent of the registered voters within the proposed zone.

5788.3. The petition shall contain a statement of the reasons justifying the formation of a zone, a map showing the boundaries of the proposed zone, a general description of the facilities and programs desired, and an estimate of the costs of providing and maintaining such facilities and programs.

5788.6. The notice shall be headed: "Notice of the Proposed Formation of a Zone in the _____ Recreation and Park District in _____ County". The notice shall contain a copy of the petition and a statement of the time and place fixed by the governing body for a hearing on the matter. If more than 50 percent of the total number of voters living within the territory to be included or the owners of more than 50 percent of the assessed value of land therein have at or prior to the hearing filed written objections to the formation, the governing body shall terminate the proceedings. If written objections are filed by 50 percent or less of such voters or owners, the governing body may proceed in accordance with the following provisions of this article.

5788.8. If the governing body determines to form the zone it shall so declare by resolution. The formation shall be effective upon the date of the adoption of the resolution unless more than 1 percent of the total number of voters living within the territory to be included have at or prior to the hearing filed written objections to the formation. If written objection to the proposed formation is made by the number of voters specified in this section, the resolution of formation shall not be effective until it is approved by a majority of the voters of the territory to be included in the proposed zone.

5788.9. The election shall be held within 90 days after the adoption of the resolution of formation. The election shall to the extent practicable be conducted in accordance with the general election laws of this state. The district shall pay the cost of the election.

5788.10. The maximum tax levied by the district upon property within a zone shall not exceed a rate of ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation in addition to the tax allowed pursuant to Section 5784.5.

5788.11. If an election is held for the formation of a zone, the proposition may be placed on the ballot as to whether

or not a tax ceiling should be established for the zone, and if so, the amount of such ceiling over and above any ceiling established for the entire district. If no ceiling has been established for the entire district, the amount of the ceiling shall be over and above the general tax rate for the entire district as established from year to year. Any such ceiling shall not exceed the maximum tax which may be levied upon property within a zone. No ceiling shall be established below the general tax rate for the entire district as established from year to year. Any ceiling established for a zone shall be a fixed increment above the rate for the entire district and shall automatically change in accordance with the rate for the entire district.

5788.12. Upon the establishment of the zone, the governing board may fix and collect special zone taxes for use solely within the zone, and do all things necessary within its powers to carry out the purposes of the zone.

The provisions in this chapter for the form, issuance, and sale of bonds, the levying and collecting of taxes for the payment thereof, and of other matters relating to bonds of the district shall govern in the case of bonds authorized for the zone, except that all taxes for payment of interest and principal on the bonds shall be levied solely upon the taxable property within the zone. The zone shall not incur a bonded indebtedness exceeding 10 percent of the assessed value of all the taxable property in the zone. Any bonded indebtedness of the entire district shall be included in computing the 10-percent limitation. For the purpose of including the bonded indebtedness of the entire district, it shall be assumed that the assessed valuation is uniform throughout the entire district.

10002. When an applicant for or recipient of public social services is incapable of managing his own resources and planning or carrying out arrangements for his own care and maintenance, and the applicant or recipient cannot secure the

services of a private attorney, the county counsel at the request of the county department, or the district attorney, if a county counsel does not exist, shall initiate and carry out proceedings for the appointment of a public or private guardian, or for changing the form of legal protection when this is indicated. Costs incurred in such proceedings for the protection of applicants or recipients, when not available from the person's own resources, shall be a proper welfare administrative or service cost, except where a relative engages a private attorney to accomplish this purpose.

10501. No person concerned with the administration of a public assistance program shall dictate how any recipient shall expend the aid granted to him.

CHAPTER 2. STATE DEPARTMENT OF SOCIAL WELFARE

Article 1. Organization

10550. There is in the Health and Welfare Agency a Department of Social Welfare.

10551. The department consists of the director, the State Social Welfare Board, and such divisions, in addition to the Division for the Blind, or other administrative units as the director may find necessary for proper administration.

10552. With the consent of the Senate, the Governor shall appoint, to serve at his pleasure, an executive officer who shall be director of the department. The director shall be appointed wholly on the basis of training, demonstrated ability, experience, and leadership in organized social welfare administration. He shall receive the salary provided for by Chapter 6 (commencing with Section 11550), Part 1, Division 3, Title 2 of the Government Code.

10553. The director shall:

(a) Be responsible for the management of the department.

(b) Administer the laws pertaining to the administration of public social services.

(c) Observe and report to the Governor on the conditions of public social services throughout the state.

(d) Formulate, adopt, amend or repeal regulations and general policies affecting the purposes, responsibilities, and jurisdiction of the department and which are consistent with law and necessary for the administration of public social services.

All regulations heretofore adopted by the board shall remain in effect and shall be fully enforceable unless and until readopted, amended or repealed by the director.

(e) Perform such other duties as may be prescribed by law and such other administrative and executive duties as have by other provisions of law been previously imposed upon the board.

10554. The director is the only person authorized to adopt regulations, orders, or standards of general application to implement, interpret, or make specific the law enforced by the department, and such regulations, orders, and standards shall be adopted, amended, or repealed by the director only in accordance with the provisions of Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2 of the Government Code, except that such regulations need not be printed in the California Administrative Code or California Administrative Register if they are included in the publications of the department.

In adopting regulations the director shall strive for clarity of language which may be readily understood by those administering public social services or subject to such regulations.

The rules of the department need not specify or include the detail of forms, reports or records, but shall include the essential authority by which any person, agency, organization, association or institution subject to the supervision or investigation of the department is required to use, submit or maintain such forms, reports or records.

10555. Subject to the State Civil Service Act, the director shall appoint such assistants and other employees as are necessary for the administration of the affairs of the department and shall prescribe their duties and, subject to the approval of the Department of Finance, fix their salaries.

10556. The administrative adviser and the chief referee of the department shall be attorneys, and shall otherwise meet such qualifications as may be prescribed by the State Personnel Board.

10557. No person, while holding the office of director or member of the State Social Welfare Board, or of the merit system committee, shall be a trustee, manager, director, or other officer or employee of any agency performing any function supervised by the department or any institution which is subject to examination, inspection, or supervision by the department; nor shall any member of the State Social Welfare Board or of the merit system committee hold any other office or employment in the department.

10558. Except as otherwise expressly provided, the provisions of Part 1 (commencing with Section 11000) of Division 3 of Title 2 of the Government Code, as the same may be added to or amended from time to time, shall apply to the conduct of the department.

10559. There is in the department a division devoted to carrying out the provisions of this division pertaining to aid to the blind. The division shall be headed by a chief, who is a trained social worker experienced in work for the blind. The duties of both the division and the chief shall be confined to carrying out the provisions of this division pertaining to aid to the blind. Blindness shall not be grounds to disqualify a person from holding the position of Chief of the Division for the Blind. The Division for the Blind shall not be made a part of any other division or subdivision of the department. The Chief of the Division for the Blind shall be directly responsible to the director.

Article 2. Powers and Duties

10600. It is hereby declared that provision for public social services in this code is a matter of statewide concern. The department is hereby designated as the single state agency with full power to supervise every phase of the administration of the public social services for which grants-in-aid are received from the United States government or made by the state in order to secure full compliance with the applicable provisions of state and federal laws.

10601. The department may expend, in accordance with law, all moneys made available for its use or for the administration of any statute administered by it.

10602. The department shall investigate, examine and make reports upon:

(a) The charitable institutions of the state and of the counties and cities of the state, other than county hospitals and institutions under the jurisdiction of another state department.

(b) The public officers who are in any way responsible for the administration of public funds used for public social services.

10603. The department shall advise public officers regarding the administration of public social services by public agencies throughout the state, and shall supervise the administration of state aid to all persons receiving or eligible to receive state aid. It shall also supervise the expenditure of any funds for Indian relief which may be granted to the state by the federal government.

10604. In administering any funds appropriated or made available to the department for disbursement through the counties for welfare purposes, the department shall:

(a) Require as a condition for receiving such grants-in-aid, that the county shall bear that proportion of the total expense of furnishing aid, as is fixed by the law relating to such aid.

(b) Establish regulations, not in conflict with the law fixing statewide standards for the administration of all state or federally aided public social service programs, defining and controlling the conditions under which aid may be granted or re-

fused. All regulations established by the department shall be binding upon the boards of supervisors and the county department.

10605. If the director considers a county director to be failing, in a substantial manner, to comply with any provision of this code or any regulation, he shall put the county director on written notice to that effect, and shall give a copy of the notice to the board of supervisors.

If within 60 days the county director fails to give reasonable assurance that he is complying and will continue to comply with the laws and regulations, the director shall order the county to appear at a hearing, before the director, with the State Social Welfare Board, to show cause why the department should not take action to secure compliance. The county shall be given at least 30 days' notice of such hearing. The director shall consider the case on the record established at the hearing, and the advice of the State Social Welfare Board, and, within 30 days, shall render proposed findings and a proposed decision on the issues. The proposed findings and decision shall be submitted to the county, and the county shall have an opportunity to appear within 10 days at such time and place as may be fixed by the director, for the purpose of presenting oral arguments respecting the proposed findings and decision. Thereupon the director shall make his final findings and decision.

If the director determines that there is a failure on the part of the county to comply with the provisions of this code or the established regulations, and that administrative sanctions are necessary to secure compliance, the department may invoke any of the following sanctions:

(a) Withhold part or all of state and federal funds from such county until the county shall make a showing to the director of compliance; or

(b) Assume, temporarily, direct responsibility for the administration of any or all state-aided public social service programs in such county until the county shall provide reasonable assurance to the director of its intention and ability to comply with such laws and regulations. During such period of state administrative responsibility for county programs, the director or his authorized representative shall have all of the powers and responsibilities of the county director, with the exception that he shall not be subject to the authority of the board of supervisors; or

(c) Bring an action in mandamus or such other action in court as may be appropriate to compel compliance. Any such action shall be entitled to a preference in setting a date for a hearing.

Nothing in this section shall be construed as relieving the board of supervisors of the responsibility to provide funds necessary for the continued public social services required by law.

Nothing contained in this section shall be construed as preventing a county from seeking judicial review of action taken by the director pursuant to this section under Section 1094.5 of the Code of Civil Procedure or, except in cases arising under Sections 10962 and 10963, from seeking injunctive relief when deemed appropriate.

10606. The department shall cause to be published and made available for sale to the public, at the cost of publishing, all of its rules and regulations relating to:

(a) The government of the department.

(b) Any form of public social services for which state aid is granted to the counties or over the administration of which the department has supervision.

The department shall also provide at cost such subscription service as may be necessary to assure to purchasers of the printed rules and regulations prompt receipt of all additions and amendments to the rules and regulations of the department and digests of decisions compiled under Section 10964.

10607. Where the department causes to be published for public distribution informational pamphlets and related materials relating to public assistance programs administered or supervised by the department, they shall be printed in English and may be printed separately in Spanish, or at the discretion of the department, in English and Spanish, in such numbers as the department may determine.

10608. Copies of all laws relating to any form of public social service for which state aid is granted to counties, and over the administration of which the department has supervision, and of all bulletins and rules and regulations of the department, shall be made available to the public and for public inspection during regular office hours at each county office administering such aid and in each local or regional office of the department.

10609. The department may act as the agent or representative of or cooperate with the federal government in any matters within the scope of the functions of the department, for the administration of federal funds granted to this state or for any other purpose in furtherance of those functions.

The department may cooperate with the federal government, its agencies or instrumentalities, in establishing, extending, and strengthening services for the protection and care of homeless, dependent, and neglected children, and children in danger of becoming delinquent, and may receive and expend all funds made available for such purposes by the federal government to the department, the state, a county, a district, a municipal corporation, or a political subdivision.

Any contract or agreement entered into by the department with the federal government or any agency thereof for the expenditure of any funds in the exercise of any power granted to the department by this section shall be subject to approval by the State Department of Finance.

10610. The department may join associations of social welfare agencies having as their purpose the interchanging or supplying of information relating to the technique of social welfare administration.

10611. All plans for the use of existing buildings or for new buildings, parts of buildings, or additions to or alterations in buildings, for any public institution under the supervision of the department or for any state, city, or county charitable institution (other than county hospitals and institutions under the jurisdiction of another state department) or for any privately operated institution which receives state aid for the care or support of its inmates shall, before their adoption, be submitted to the department for suggestions and approval as to the social requirements of the occupants.

10612. Two months prior to each annual session of the Legislature, the department shall make a full and complete report to the Governor of all its transactions during the preceding year, showing specifically all expenses incurred and moneys paid out by it, with suggestions and recommendations for legislative and executive action.

The department shall include in its report a complete report on its administration of appeals.

10613. The functions of the department may include the administration and the supervision of the administration of public social services within this state as an agent of the federal government, and acting as a service agency for the federal government in the field of social service and welfare.

CHAPTER 3. STATE SOCIAL WELFARE BOARD

10700. The State Social Welfare Board consists of seven members. Each member of the board shall be appointed by the Governor with the advice and consent of the Senate, and shall serve at the pleasure of the Governor. It shall be the duty of the Governor to fill all vacancies on the board within 60 days.

The members of the board shall be selected for their interest and leadership in social welfare activities without regard to political or religious affiliations or profession or occupation.

10701. The members of the board shall serve without compensation, except that each member shall be paid a per diem of twenty-five dollars ($25) for each day's attendance at a meeting of the board, not to exceed six days in any month. The members of the board shall also receive their actual and necessary traveling expenses incurred in the course of their duties.

10702. Two Members of the Senate, appointed by the Senate Committee on Rules, and two Members of the Assembly, appointed by the Speaker, shall meet with and participate in the work of the board under subdivisions (a) and (b) of Section 10705 to the extent that such participation is not incompatible with their positions as Members of the Legislature. The

Members of the Legislature appointed to the board shall serve at the pleasure of the appointing power. For the purposes of this chapter, such Members of the Legislature shall constitute a joint interim legislative committee on the subject of this chapter and shall have the powers and duties imposed on such committees by the Joint Rules of the Senate and Assembly.

10703. The members of the board shall meet at such times as may be determined by resolution of the board. Special meetings may be called by the chairman, who shall be designated by the Governor. Members who fail to attend three consecutive regular meetings shall be deemed to have resigned from the board, but the board may for good cause grant leaves of absence to its members.

Four members of the board shall constitute a quorum for the performance of any duty or for the exercise of any power of the board.

10704. All meetings of the board shall be open and public.

10705. The board shall:

(a) Study statewide problems of poverty, neglect, and deprivation and undertake systematic and continuing reappraisal of policies, programs, and operations in the area of public social services in order to evaluate the effectiveness of public social services and to determine how best to meet the problems of dependent poverty in a balanced manner considering the fiscal capabilities of both the state and the counties.

(b) Submit annual reports to the director, the Governor, and the Legislature, with suggestions and recommendations for administrative, executive, and legislative action to better meet problems of poverty, neglect, and deprivation, and to improve the administration of public social services.

(c) Advise the director on all matters referred by him to the board for recommendation.

CHAPTER 4. COUNTY DEPARTMENTS

10800. The administration of public social services in each of the several counties of the state is hereby declared to be a county function and responsibility and therefore rests upon the boards of supervisors in the respective counties pursuant to the applicable laws, and in the case of public social services for which federal or state funds are provided, subject to the regulations of the department.

For the purpose of providing for and carrying out this function and responsibility, the board of supervisors of each county, or other agency as may be otherwise provided by county charter, shall establish a county department, unless otherwise provided by the county charter. Except as provided herein, the county department shall be the county agency for the administration of public social services and for the promotion of public understanding of the public social services provided under this code and the problems with which they deal.

10801. A county director shall be appointed in each county by the board of supervisors or other agency designated by county charter, subject to either local merit system standards or to standards prescribed under the merit system administered by the department.

The county director shall at all times be under the general direction and supervision of the board of supervisors, unless otherwise provided by county charter.

10802. The county director shall, for and in behalf of the board of supervisors, have full charge of the county department and the responsibility for administering and enforcing the provisions of this code pertaining to public social services under the regulations of the department. He shall abide by all lawful directives of the department, transmitted through the board of supervisors.

10803. The county director shall:

(a) Serve as the executive and administrative officer of the county department. The county director may delegate his powers and functions to any member of his staff.

(b) Establish such administrative units as he may deem necessary or desirable for the proper and efficient administration of the county department, and employ such personnel as may be authorized subject to merit system regulations and the state standards established pursuant to Section 10901 of this code.

(c) Perform such other duties as may be prescribed by law, and, except for Section 10801, such other administrative and executive duties pertaining to the public social services as may, by other provisions of law, be imposed upon the board of supervisors.

(d) Perform such other duties as may be prescribed by the board of supervisors.

10804. The board of supervisors in any county may contract with any other county or counties or with the department for the operation and maintenance of such public social services as are provided in one or more of the contracting counties, or for the establishment and maintenance of such public social services as the board of supervisors shall deem to be desirable to discharge the duties of the county to provide for public social services for those eligible therefor or the health and care of the sick. The cost of contracted services shall be borne by the contracting county or counties and shall, insofar as state or federal funds are involved, conform to department standards and regulations generally applicable to such services.

10805. Each social worker employed by the department shall be provided with an identification card, showing the name and position of the worker, and containing a recent picture. Upon calling at the home of any applicant for or recipient of public social services, the social worker shall display the identification card to the applicant or recipient.

Should a social worker terminate his employment with the agency, he shall return his identification card to the agency.

10806. If a dispute occurs between counties as to the responsibility for an applicant or recipient, either county may submit the dispute to the department. The decision of the department shall be final.

10807. Each county department shall compile and maintain a list of private and public agencies which provide charitable and social services in the county, showing the name of each agency and the type of service performed by the agency. If an applicant for public assistance, including an applicant for assistance under Part 5 of this division, is found to be ineligible for such assistance, the county department, if necessary, shall make every effort to refer him to an agency in the county that may be able to assist him with his problem.

10808. Any report published by the county in written or graphic form of expenditures for public social services shall show clearly the amount and proportion of costs borne by local taxes and the amount and proportion of costs borne by the state and federal governments.

10809. The county department shall administer the public social services authorized or permitted under the applicable portions of this code in accordance with the regulations of the department.

The county department shall make such reports to the department as may be required.

Chapter 5. Records

10850. Except as otherwise provided in this section, all applications and records concerning any individual made or kept by any public officer or agency in connection with the administration of any provision of this code relating to any form of public social services for which grants-in-aid are received by this state from the United States government shall be confidential, and shall not be open to examination for any purpose not directly connected with the administration of such public social service; provided, however, that any agency having custody of such records may make the disbursement records available to the district attorney upon his request. The information thus obtained shall be made available to the district attorney for the official conduct of his office and shall not be used for any other purpose.

Except as otherwise provided in this section, no person shall publish or disclose or permit or cause to be published or disclosed any list of persons receiving public social services. Except for purposes directly connected with the administration of public social services, no person shall publish, disclose, or use or permit or cause to be published, disclosed, or used any confidential information pertaining to an applicant or recipient. Any violation of this paragraph is a misdemeanor.

The department may make rules and regulations governing the custody, use and preservation of all records, papers, files and communications pertaining to the administration of the laws relating to public social services. The rules and regulations shall be binding on all departments, officials and employees of the state, or of any political subdivision of the state and may provide for giving information to or exchanging information with agencies, public or private, which are engaged in planning, providing or securing social services for or in behalf of recipients or applicants; and for making case records available for research purposes, provided, that such research will not result in the disclosure of the identity of applicants for or recipients of public social services.

Any person, including every public officer and employee, who knowingly secures or possesses, other than in the course of official duty, an official list or a list compiled from official sources, published or disclosed in violation of this section, of persons who have applied for or who have been granted any form of public social services for which state or federal funds are made available to the counties is guilty of a misdemeanor.

10851. The board of supervisors in each county may authorize the destruction or disposition of the case history, or any part thereof, of any recipient of public assistance who has not received such assistance from the county for a period of five years prior thereto.

10852. All persons who are subject to investigation or supervision by the department, or who are connected with any institution subject to such investigation or supervision, or who are in any way responsible for the administration or expenditure of funds which are subject to investigation or supervision by the department, shall furnish to the department such information and statistics as it may request or require, and shall allow the department free access to all such institutions and to all records of such institutions and persons.

10853. In order to secure accuracy, uniformity, and completeness in such statistics and information, the department, by regulation, may prescribe forms of report and records to be kept by all persons, associations, or institutions subject to investigation or supervision by the department, and each such person, association, or institution shall keep such records and render such reports in conformity with the forms so prescribed.

CHAPTER 6. PERSONNEL

10900. The department shall, within the limits of funds made available, provide welfare personnel training courses and services, including in-service training, educational leaves or stipends, traineeships, internships, and the expansion of fieldwork training facilities within county departments for the use of colleges and universities in preparing students for employment in the administration of public social services programs. The training courses and services provided pursuant

to this section shall be designed to promote welfare personnel training in every county in this state, which will provide the quality and quantity of trained personnel required to eliminate or reduce the circumstances or conditions which impede or prevent an individual or a family from making progress toward proper social adjustment, self-support, and self-direction.

10901. For the purposes of the administration of state or federally supported public social services, the director shall, by regulation, establish and maintain personnel standards on a merit basis (including therein standards of qualifications, competency, education, experience, tenure and compensation) necessary for proper and efficient administration, and to assure state conformity with applicable federal requirements.

In the exercise of his functions under this section, the director shall exercise no authority with respect to the selection, tenure of office and compensation of any individual employed in accordance with such standards.

Nothing in this section shall prevent any county from establishing its own merit system and determining thereunder the personnel standards to be applicable to its employees, but as to employees engaged in administering state and federally supported public social services, such county systems and standards shall be subject to approval and review by the department.

10902. The director shall contract with either the State Personnel Board or such other public agency as may be deemed advisable for the examination and certification of eligible personnel.

10903. The director shall appoint a merit system committee consisting of seven members, including a chairman designated by the director, to serve for a term of four years. All members shall meet federal qualifications for membership on a Merit System Council, and shall be chosen solely on the basis of their proficiency in the field of personnel administration and their knowledge of public welfare and other social welfare functions. All members shall serve without compensation but shall receive their actual and necessary traveling expenses incurred in the course of their duties. Two of the seven members shall be appointed from a list of at least six nominees secured by the director from non-civil-service counties. One member of the seven shall be appointed from a list of at least three nominees secured by the director from civil service counties. Initial appointments shall be one member for one year and each of two members for two, three, and four years respectively.

10904. The merit system committee shall:

(a) Advise the director on standards and other matters relating to personnel.

(b) Hear and decide appeals of any applicant for employment or officer or employee in a county not having its own approved civil service system from the decision of a county department or board of supervisors affecting the em-

ployment rights of such persons under merit systems standards and regulations. Any decision rendered in such an appeal shall be binding upon the county. Hearings under this section shall not be subject to the provisions of Sections 11500 to 11528 of the Government Code.

10905. If, when, and during such times as the federal government allots money to this state for training grants for public welfare personnel, pursuant to Title VII of the Federal Social Security Act, the department is authorized to act as the agent and representative of this state.

10906. Employees of the department who are engaged in the administration of public social services are authorized (1) to attend courses of training provided by institutions of higher learning, (2) to attend special courses of study or seminars of short duration conducted by experts on a temporary basis for the purpose, (3) to accept fellowships or traineeships at institutions of higher learning with such stipends as are permitted by regulations of the federal government.

Any leave of absence granted to any employee of the department, as authorized by this section, shall be subject to the approval of the State Personnel Board.

10907. The board of supervisors of any county may grant to any permanent employee of the county department a leave of absence with pay to attend an institution of learning for the purpose of improving his skill, knowledge and technique in the administration of social welfare programs which will benefit the county department.

In order to be eligible for an educational leave, the employee must have a satisfactory service record with the county and must execute an agreement to return to the county department to render one year of service. The employee shall furnish a suitable bond indemnifying the county against possible loss in the event the employee fails to return to the county and render the required period of service stipulated in the agreement. Such bond shall be exonerated in the event the failure of the employee to render the stipulated period of service is caused by death, physical or mental disability of the employee. If the board of supervisors finds, and by resolution declares, that the interests of the county will be protected by written agreement of the employee to return to the service of the county and render at least one year of service therein following his return from leave, the board of supervisors may waive the furnishing of the bond.

The terms and amount of pay or stipend to be paid shall be set by the board of supervisors. Any such pay or stipend shall be considered a proper charge against the administration of the public welfare programs.

Notwithstanding any other provisions in this section to the contrary, the board of supervisors may provide educational leaves to employees under such conditions as may be prescribed in an agreement or plan entered into by this state with the federal government.

CHAPTER 7. HEARINGS

10950. If any applicant for or recipient of public social services is dissatisfied with any action of the county department relating to his application for or receipt of aid or services, or if his application is not acted upon with reasonable promptness, or if any person who desires to apply for such aid or services is refused the opportunity to submit a signed application therefor, and is dissatisfied with such refusal, he shall, in person or through an authorized representative, without the necessity of filing a claim with the board of supervisors, upon filing a request with the department, be accorded an opportunity for a fair hearing.

As used in this chapter, "recipient" means an applicant for or recipient of aid or services except aid or services exclusively financed by county funds.

10951. No person shall be entitled to a hearing pursuant to this chapter unless he files his request for the same within one year after the order or action complained of.

10952. The department shall set the hearing to commence within 45 days after the request is filed, and, at least 10 days prior to the hearing, shall give all parties concerned written notice of the time and place of the hearing.

10953. A hearing under this chapter shall be conducted by referees employed by the department, unless the director orders that it shall be conducted by himself or by the administrative adviser of the department in behalf of the director.

10954. The director, administrative adviser, or referee, in conducting the hearing, shall have all of the powers and authority conferred upon the head of a department in Article 2 (commencing with Section 11180) of Chapter 2 of Part 1 of Division 3 of Title 2 of the Government Code.

10955. The hearing shall be conducted in an impartial and informal manner in order to encourage free and open discussion by participants. All testimony shall be submitted under oath or affirmation. The person conducting the hearing shall not be bound by rules of procedure or evidence applicable in judicial proceedings. At the hearing the applicant or recipient may appear in person with counsel of his own choosing, or in person and without such counsel.

10956. The proceedings at the hearing shall be reported by a phonographic reporter or otherwise perpetuated by mechanical, electronic, or other means capable of reproduction or transcription.

10957. The person conducting the hearing, upon good cause shown, may continue the hearing for a period of not to exceed 30 days. When the refusal of a county to accept a signed application for aid or services is an issue, the director may require the county to accept the application, and may continue the case until the results of the investigation have been reported to him. In any such case in which aid is awarded by

the director, the payments shall commence at the time indicated by the director.

10958. If the hearing is conducted by a referee, he shall prepare a proposed decision, in writing and in such form that it may be adopted as the decision in the case, and, after approval of the decision by the chief referee of the department, shall file a copy of the proposed decision, within 75 days after the conclusion of the hearing, with the director.

10959. Within 30 days after receiving a copy of the referee's proposed decision, the director may adopt the decision in its entirety; decide the matter himself on the record, including the transcript, with or without taking additional evidence; or order a rehearing to be conducted by himself, the administrative adviser of the department or another referee in behalf of the director. If the director decides the matter, a copy of his decision shall be served on the applicant or recipient and on the affected county, and, if his decision differs materially from the proposed decision of the referee, a copy of that proposed decision shall also be served on the applicant or recipient and on the affected county. If a rehearing is ordered, it shall be conducted in the same manner and within the same time limits specified for the original hearing.

10960. Within 30 days after adoption by the director of the proposed decision of a referee or the issuance by the director of his own decision, the affected county or applicant or recipient may file a request with the director for a rehearing and the director, within 10 days after receipt of the request, shall grant or deny the request. If the director grants the request, the rehearing shall be conducted in the same manner and subject to the same time limits as the original hearing.

10961. The decision of the director need not specify the amount of the award to be paid unless the amount of the award is an issue. If the decision is in favor of the applicant or recipient, the county department shall pay to the applicant or recipient, without the necessity of establishing his present need, the amount of aid he is entitled to receive pursuant to the director's decision, payment to commence as of the date the person was first entitled thereto, or grant to him the services to which the director finds he is entitled.

10962. After having exhausted the administrative remedy provided for in Section 10960, the applicant or recipient or the affected county, within one year after receiving notice of the director's final decision, may file a petition with the superior court, under the provisions of Section 1094.5 of the Code of Civil Procedure, praying for a review of the entire proceedings in the matter, upon questions of law involved in the case. Such review, if granted, shall be the exclusive remedy available to the applicant or recipient or county for review of the director's decision. The director shall be the sole respondent in such proceedings.

No filing fee shall be required for the filing of a petition pursuant to this section. Any such petition to the superior

court shall be entitled to a preference in setting a date for hearing on the petition. No bond shall be required in the case of any petition for review, nor in any appeal therefrom. The applicant or recipient shall be entitled to reasonable attorney's fees and costs, if he obtains a decision in his favor.

10963. The county director shall comply with and execute every decision of the director rendered pursuant to this chapter.

10964. The department shall compile and distribute to each county department a current digest of decisions, properly indexed, rendered under this chapter, and each such digest shall be open to public inspection, subject, however, to the confidentiality requirements set forth in federal and state laws and regulations.

10965. Nothing in this chapter shall prevent the filing of the request for a hearing by the legal representative, or, if there is no authorized legal representative, by an heir of a deceased applicant or recipient, in behalf of the decedent's estate, to the end that rights not determined at the time of death shall accrue to the estate of the applicant or recipient.

PART 3. AID AND MEDICAL ASSISTANCE

CHAPTER 1. GENERAL PROVISIONS

Article 1. Policies and Purposes

11000. The provisions of law relating to a public assistance program shall be liberally construed to effect the stated objects and purposes of the program.

11001. No person receiving aid under a public assistance program shall be considered a pauper or an indigent by reason thereof, and no warrant drawn in payment of the aid given shall contain any reference to indigency or pauperism.

11002. All aid given under a public assistance program shall be absolutely inalienable by any assignment, sale, attachment, execution, or otherwise, and in case of bankruptcy the aid shall not pass through any trustee or other person acting on behalf of creditors.

11003. If the United States Department of Health, Education, and Welfare issues a formal ruling that any section of this code relating to public assistance cannot be given effect without causing this state's plan to be out of conformity with federal requirements, the section shall become inoperative to the extent that it is not in conformity with federal requirements.

11004. The provisions of this code relative to public social services for which state grant-in-aid are made to the counties shall be administered fairly to the end that all persons who are eligible and apply for such public social services shall receive the assistance to which they are entitled promptly,

with due consideration for the needs of applicants and the safeguarding of public funds.

(a) Any applicant for, or recipient or payee of, such public social services shall be informed as to the provisions of eligibility and his responsibility for reporting facts material to a correct determination of eligibility and grant.

(b) Any applicant for, or recipient or payee of, such public social services shall be responsible for reporting accurately and completely within his competence those facts required of him pursuant to subdivision (a) and to report promptly any changes in those facts.

(c) Any person who makes full and complete disclosure of those facts as explained to him pursuant to subdivision (a) is entitled to rely upon the award of aid as being accurate, and that the warrant he receives correctly reflects the award made, except that the county paying the aid shall be allowed a period of two months following the month of payment within which to adjust any errors or changes in amount of grant resulting from changes in income or need which occur too late to be reflected in the grant for the current month.

(d) If any overpayment which results because of the failure to report facts in accordance with subdivision (b) is not adjusted within a period of two months following the month of the discovery of the overpayment, the person receiving the aid shall make restitution and all actions necessary to secure restitution may be brought against him.

If the recipient or family is currently eligible in accordance with law and the regulations of the department, collection of overpayments shall not be made through discontinuance or reduction of aid beyond the grant adjustment period permitted by subsection (c) except where the recipient or family at the time of determination of the overpayment possessed liquid assets sufficient to meet the needs of himself or his family, according to department standard, during the period of reduction or discontinuance thereof.

(e) If it is found that a recipient or a family was possessed of property in excess of the amount permitted by law, and it cannot be established that the recipient or family received such aid in bad faith, without honestly believing eligibility was properly established, the amount collectible shall be limited to an amount equal to the market value of the excess property or the amount of aid granted during the period the excess property was held, whichever is the lesser.

(f) When an underpayment or denial of aid occurs because of an administrative error or inadvertence on the part of a county, and as a result the applicant or recipient does not receive the amount to which he is entitled, the county shall pay aid equal to the full amount of the underpayment which occurred during the period of four years immediately preceding the date the error or inadvertence is discovered.

11005. Any special need allowance for mileage and for the expenses of the operation and maintenance of an automobile shall be fixed to operate in a uniform manner throughout the state by the department.

11006. All money paid to a recipient or recipient group as aid is intended to help the recipient meet his individual needs or, in the case of a recipient group, the needs of the recipient group, and is not for the benefit of any other person. Aid granted shall not be construed as income to any person other than the recipient or, in the case of a recipient group, the recipient group.

11007. Aid granted to a recipient of public assistance shall not constitute a lien upon any property of the recipient.

The cost of hospitalization furnished by a county to the recipient shall not constitute a lien against the personal property or personal effects of the recipient, or against an interment plot as defined in Section 7022 of the Health and Safety Code.

The cost of hospitalization furnished by a county to a recipient, other than a recipient of aid to families with dependent children, on or after May 21, 1963, and any judgment obtained by a county against the recipient to obtain repayment of such costs, shall not constitute a lien against the real property of the recipient, and no lien shall be taken therefor.

11008. In order that recipients of public assistance may become self-supporting and productive members of their communities, it is essential that they be permitted to earn money without a proportionate deduction in their aid grants. It is the intention of the Legislature to promote this objective to the extent possible within the limitations imposed by federal law, and the department, in implementing public assistance laws, is directed to do so in the light of this objective.

In determining the income of a recipient, the following requirements shall be observed:

(a) To the extent permitted by federal law, earned income of a recipient shall not be considered income or resources of the recipient, and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

(b) In computing the amount of income determined to be available to support a recipient, the value of currently used resources shall be included but the value of casual income and inconsequential resources shall be excluded.

11009. Interest on money on deposit in a savings account in a bank, savings and loan association, or other institution authorized by law to accept savings deposits by members of the public, which is received by a recipient, shall be considered an inconsequential resource of the recipient.

11010. In determining the amount of aid grants payable under a public assistance program, no consideration shall be given to voluntary contributions or grants from other public sources, private agencies, friends or relatives when such contributions or grants meet the following conditions:

1. The service to be provided is designated by the department and is not covered by an assistance allowance under the particular program, and

2. The contribution or grant would not be available for expenditure by or in behalf of the recipient unless it is used in accordance with the conditions imposed by the donor.

11011. If, when, and during such times as the United States government increases or decreases its contributions for any public assistance program in this state, other than aid to families with dependent children, above or below the amount being paid on January 1, 1963, or above or below the amount payable as a result of any such increase or decrease, the maximum grants of aid provided in that program shall be increased or decreased by an amount equal to such increase or decrease by the United States government. It is the intent of the Legislature that any change in contributions by the United States government, whether increase or decrease, shall result in a corresponding change in the amount of the maximum grants prescribed in the public assistance program to which the increase or decrease relates.

In no event shall this section operate to decrease the maximum grant of aid prescribed in Section 12150 below one hundred five dollars ($105) per month, prescribed in Section 12650, below one hundred twenty-two dollars ($122) per month, or prescribed in Section 13700 below an average grant of one hundred dollars ($100) per month.

It is also the intent of the Legislature that should the federal government require that any increase in assistance granted by it after May 1, 1955, be considered necessary to meet medical or health needs of the recipient, such increase shall be considered necessary to meet such medical or health needs.

11012. To encourage the spouse of an applicant or recipient to retain or seek employment in order to be self-supporting, taxpaying, and to avoid becoming a recipient of public aid, the net earnings of the spouse, up to the amount of two hundred dollars ($200) per month, after deduction for the expenses incurred in connection with such earnings, shall not be considered community property in computing how much of such earnings should be allocated to the applicant or recipient as income to him. Where the spouse is engaged in seasonal employment, the estimated annual earnings of the spouse shall be prorated on a monthly basis.

This section does not apply to the aid to families with dependent children program.

11013. For the purpose of expediting the admission of needy persons requiring hospitalization and first aid treatment to hospitals, clinics, and first aid receiving stations, identification cards shall be issued to recipients of public assistance. Such card shall be solely for the purpose of identification and shall not be construed to authorize admission to hospitals, clinics or first aid stations.

The department shall make available and keep each county supplied with sufficient identification cards as required by the county. The county shall fill out and mail the completed card, with a brief explanation of its purpose, to the recipient in sufficient time to insure receipt thereof by the recipient within 30 days following his qualification for aid.

The identification card shall contain the following information:

(1) Name and address of the recipient.
(2) State or county case numbers, or both.
(3) Date of issuance.
(4) Name of county agency issuing card.

The card, bearing the Great Seal of the State of California, shall not be larger than 2½ x 3½ inches in size, and shall be headed "State of California"—"Department of Social Welfare"—"Identification Card."—"This card is provided for the purpose of establishing the identity of the bearer and does not establish eligibility of the holder to receive care in hospitals, clinics or first aid stations or the liability of the state or county for the cost of care rendered."

Upon request, the county shall furnish the hospital, clinic, or first aid receiving station, with such further and additional information as they may require regarding the patient for the completion of their records.

In the event an identification card issued pursuant to this section is lost or destroyed, the county shall prepare and issue a duplicate card to the recipient upon application being made therefor.

The department may use both sides of the card for additional information and instructions.

Upon request for entrance, the identification card may be surrendered and shall be returned to the patient before his departure.

Article 2. Applications

11050. Except as provided in Sections 11403 and 14552 of this code, applications for public social services or public assistance by any person, or in behalf of any person, shall be made to the county department in the county in which the applicant is living. The application may be made in writing or reduced to writing upon the standard form prescribed in regulations of the department and a copy shall be furnished to each applicant at the time of the application.

11051. Whenever a former recipient of aid requests restoration of aid before the expiration of one year from the effective date of a cancellation or a discontinuance, and if it is determined that he is eligible for such aid, it shall be granted to him without the necessity for a new application. Such person shall, however, be required to file a new affirmation of eligibility as required by Section 11054.

11052. Application for aid may be made within 60 days prior to the date on which the applicant meets the technical

requirements for such aid which have to do with factors other than need.

Application made on behalf of a child deprived of parental support because of separation or desertion may be made within 60 days prior to the date on which he will become eligible.

The application shall be promptly investigated and acted upon, but in no event shall the aid, if granted, begin as of a date prior to the date on which he meets such requirements.

11053. When a recipient or former recipient of public assistance moves from one county to another, the determination of the existence of particular conditions of eligibility made by the former county shall be binding on subsequent counties, provided that the determination was made within the sound exercise of discretion by, and that no fraud was practiced on, the former county and that there has not been a material change in circumstances.

11054. Each applicant shall be required before approval of assistance or services to file an affirmation setting forth his belief that he meets the specific conditions of eligibility. Such statements shall be on forms prescribed by the department and, in the case of applicants for aid to families with dependent children, shall contain a written declaration that the affirmation is made under penalty of perjury. Any person signing a statement containing such declaration, who willfully and knowingly with intent to deceive states as true any material matter which he knows to be false, is subject to the penalty prescribed for perjury in the Penal Code. A copy of the affirmation shall be furnished to the applicant at the time he files it.

A county department may also require like statements to be completed prior to approving restoration of aid as provided by Section 11051, and may require new statements at any time for purposes of continuing assistance.

11055. The county shall promptly investigate all applications for public assistance as prescribed by the regulations of the department.

11056. If the applicant is determined to be eligible, aid shall be granted from the first day of the month following the date of application, or from the first day of the month following the date on which he becomes eligible if found to be later than the date of application, or upon an earlier date if determined by and in connection with a petition for a fair hearing; provided, however, that nothing contained herein shall be construed to prevent a county department from making aid to families with dependent children effective as soon as eligibility is determined, if such date is earlier than that specified herein.

The county at the time of receiving an application for public assistance shall determine whether the applicant needs immediate assistance. If it appears that the applicant is eligible for public assistance, and a signed affirmation is on file to this effect, aid shall be granted immediately. If subsequent investigation establishes ineligibility, the cost of such assist-

ance shall be shared by the state and county in accordance with the applicable sharing ratio after federal contributions are deducted.

11057. Any recipient who becomes ineligible for aid under the public assistance program under which he is receiving aid, but appears to be eligible for aid under another public assistance program, shall be so informed, and his application for aid under that other program taken promptly, so that there is no interruption in warrant payments to the recipient.

11058. An applicant for aid to the aged or for aid to the blind, whose application for aid has been rejected, may not again apply for such aid until the expiration of 90 days from the date the previous application was denied, except with the consent of the county or an order of the department, or until the condition because of which his application was rejected has been eliminated.

11059. Immedidately upon request therefor, the county department shall, without charge, mail application blanks for aid to the blind to any person in the county.

11060. The application, evidence and documents submitted by an applicant for aid to the blind may be used to grant the applicant aid to the potentially self-supporting blind, if he is eligible therefor, and the application, evidence, and documents submitted by an applicant for aid to the potentially self-supporting blind may be used to grant the applicant aid to the blind, if he is eligible therefor.

11061. The board of supervisors of each county shall file in the office of the Chief of the Division for the Blind in the department a record of the action of such county in granting or refusing to grant aid to the blind to each blind applicant.

Article 3. Residence

11100. For the purposes of the provisions of this code relating to public assistance, the continued absence of a recipient of public assistance from this state for a period of one year or longer shall be prima facie evidence of the intent of the recipient to have changed his residence to a place outside this state. The county granting the aid shall make inquiry from such persons as to their intent to remain residents of California or to become residents of another state, and shall redetermine the residence of such persons. In any case where the inquiry made under this section establishes that the recipient is no longer a resident of this state, his aid shall be terminated immediately.

If a recipient is prevented by illness or other good cause from returning to this state at the end of one year, and has not by act or intent established residence elsewhere, he shall not be deemed to have lost his residence in this state.

If a recipient is disqualified for aid on the ground that he has left the state, and returns to the state within one year after leaving, he shall be considered to have resided

in the state for a sufficient time to qualify for aid, and, if otherwise eligible, aid shall be granted to him as of the first day of the month following his application.

11101. When a recipient of public assistance is absent from the United States for a period in excess of 30 days, his aid shall thereafter be suspended whenever need cannot be determined for the ensuing period of his absence from the United States. No person shall be considered absent from the United States in accordance with this section if he is residing in any of the states, territories, possessions or other districts eligible to receive grants-in-aid from the federal government under the Social Security Act.

11102. County residence is not a qualification for aid under any public assistance program.

County responsibility for making aid payments is determined as follows:

(a) The county where the applicant lives shall accept the application and shall be responsible for paying the aid.

(b) Responsibility for payment of aid to any person qualifying for and receiving aid from any county, who removes to another county in this state to make his home, shall be transferred to the second county as soon as administratively possible, but not later than the first day of the month following 60 days after notification to the second county.

Article 4. Property Qualifications

11150. It is the intent of this article to set forth the amount of personal or real property, or both, which an applicant for or recipient of public assistance may retain and remain eligible to receive public assistance provided he meets the other eligibility requirements for the category of public assistance for which he is an applicant or recipient.

In the formulation of any regulations pursuant to this article and in the administration thereof, consideration shall be given to the ability and circumstances of the applicant or recipient in order that undue hardship is not imposed upon any applicant or recipient in making plans to comply with the provisions of this article. No applicant or recipient shall be considered ineligible for retaining property where disposition would alter or impair reasonable access to or the normal use of his home.

This article does not apply to aid to families with dependent children, unless otherwise expressly indicated.

11151. An applicant or recipient shall be ineligible to receive public assistance unless the property he owns is held for the following purposes:

1. The property is used to provide the applicant or recipient with a home and conforms to the provisions of Section 11152 of this code.

2. The property is producing income for the support of the applicant or recipient and conforms to the provisions of Section 11153 of this code.

3. The property is held as a reserve to meet a contingent need, not included within the standard of assistance for which an aid payment is made, and conforms to the provisions of Section 11154 of this code.

4. The property is personal in nature, or meets a special need of the applicant or recipient, or is part of a self-care or rehabilitation plan, or is not available for expenditure or disposition by the applicant or recipient and conforms to provisions of Section 11155 of this code.

11152. An applicant or recipient may retain personal or real property owned by him, or in combination with any other person, without reference to its value, if it serves to provide the applicant or recipient with a home. The basic home may be a multiple-dwelling unit if the units not occupied by the applicant or recipient are producing income for the support of the applicant or recipient consistent with their rental value.

Any applicant or recipient who does not own a suitable home may apply other real property or the proceeds received therefrom for the acquisition of a home. Such property in whatever form held shall be considered to be used as a home during such time as the following conditions apply:

1. A plan has been made which will provide that the property will be used through conversion or transfer within six months for the purpose of providing a home.

2. Any proceeds received from the sale are used within one year of the date of conversion or application for aid, whichever is later, for the purchase of a home, or for the costs of moving, necessary furnishings, or necessary repairs or alterations to the home, except that an amount may be set aside within the limits permitted by Section 11154 of this code.

3. Proceeds of conversion which are received in a form not readily applicable to the initial payment on purchase of the home are retained, and all payments thereafter received on such proceeds are applied to the balance due on the home, or for the costs of moving, necessary furnishings, or necessary repairs or alterations to the home.

11153. Real property owned by the applicant or recipient, or in combination with his spouse, which is producing income, reasonably consistent with its value, which is used for the support of the applicant or recipient, may be retained in an amount not to exceed an assessed valuation of five thousand dollars ($5,000) as assessed by the county assessor.

11154. The applicant or recipient may retain as a reserve for future contingencies any combination of personal or real property not to exceed a total value of one thousand two hundred dollars ($1,200), or, in case of a married couple both receiving public assistance, two thousand dollars ($2,000). Any real property held as such reserve shall be valued at its net appraised market value.

11155. The value of the following property shall be excluded in determining eligibility:

1. Personal jewelry, personal effects, home furnishings and other property used to provide, equip and maintain a home for the applicant or recipient.

2. Equipment and material which is necessary to implement a rehabilitation or self-care plan for the applicant or recipient.

3. Motor vehicle needed for transportation.

4. Any property right which is essential to land use or which is not available for the use of or expenditure by or in behalf of the applicant or recipient to meet a current or future need of the applicant or recipient.

11156. If a recipient purchases with cash an essential item, and such purchase under the rules and regulations of the department would have entitled him to a special need allowance each month to meet monthly installments on such purchase had he paid for the item in monthly installments, the recipient shall be considered to have purchased the item from his personal property holdings, and shall be allowed to place in his savings, each month, without deduction from his grant, an amount of income equivalent to the special need allowance he would have been granted had he paid for the item on a monthly installment basis, if he reports the purchase to the county department within 90 days after the date on which it was made. The income placed in his savings shall be considered personal property.

The county department, for good and sufficient reason, may extend the period during which a recipient may report a purchase under this section. The department, in its rules and regulations, shall indicate what constitutes good and sufficient reason for extending that period.

11157. Gifts of money received by an applicant or recipient, including an applicant for or recipient of aid to families with dependent children, shall be deemed personal property to the extent that the amounts received do not cause the value of the personal property holdings of the applicant or recipient to exceed the amount prescribed by law. In the event the amounts received cause the personal property holdings of the applicant or recipient to exceed the amount prescribed by law, the excess shall be considered income to the applicant or recipient.

This section shall not apply to gifts of money received by a recipient at regular recurring intervals, which from past experience may be reasonably expected to be continued in the future.

11158. The Legislature recognizes that certain property and rights owned by a recipient, including a recipient of aid to families with dependent children, are of negligible value in enabling the recipient to meet his present needs, and cannot be classified as available resources of the recipient. The Legislature also recognizes that the present value of such property and rights is at most nominal when considered for the

purpose of computing the net worth of the individual. It is the purpose of this section to designate such property and rights, and to place a value thereon.

For the purposes of evaluating the personal property of a recipient, the following items, in the aggregate, shall be deemed to have a monetary value of thirty-five dollars ($35) if the amount paid for the same does not exceed six hundred fifty dollars ($650), or fifty dollars ($50) if the amount paid for the same does not exceed one thousand dollars ($1,000):

(a) Interment plots as defined in Section 7022 of the Health and Safety Code.

(b) Money placed in an irrevocable trust for funeral, cremation, or interment expenses.

(c) Life or burial insurance purchased specifically for funeral, cremation, or interment expense.

CHAPTER 2. AID TO FAMILIES WITH DEPENDENT CHILDREN

Article 1. General Provisions

11200. This chapter shall be known and may be cited as the Burton-Miller Act.

11201. For the purposes of this chapter, "unemployed parent" means a natural parent, adoptive parent, or stepparent with whom the child is living, and who:

(a) Is not working but is available for and seeking employment or, as a result of unemployment, has been accepted for or is participating in a training project essential to future self-support, or

(b) Is employed only part time as determined in accordance with such standards as may be developed by the department in its rules and regulations, which standards shall be consistent with federal law and regulations governing the payment of federal funds to this state under the Social Security Act and consistent with other provisions of this chapter.

11202. As used in this chapter, the term "needy child" means a child living in a family as described in Section 11250, or a child as described in Section 11251.

11203. During such times as the federal government provides funds for the care of a needy relative with whom a needy child or needy children are living, aid to the child or children for any month includes aid to meet the needs of such relative, if money payments are made with respect to the child or children for that month, and if the relative is not receiving aid to the aged for that month under the Old Age Security Law.

11204. Nothing in this chapter shall be construed as authorizing any public official, agent, or representative, in carrying out any of the provisions of this chapter, to take charge of any child over the objection of either of the parents of

such child, or of the person standing in the place of a parent to such child, except pursuant to a proper court order.

11205. It is the object and purpose of this chapter to provide aid for children whose dependency is caused by circumstances defined in Sections 11250 and 11251, to keep children in their own homes wherever possible, and to provide the best substitute for their own homes for those children who must be given foster care.

Those engaged in the administration of aid under this chapter are responsible to the community for its effective, humane, and economical administration.

It is the intent of the Legislature that the employment and self-maintenance of parents of needy children be encouraged to the maximum extent and that this chapter shall be administered in such a way that needy children and their parents will be encouraged and inspired to assist in their own maintenance. The department shall take all steps necessary to implement this section.

11206. In case of dispute, the application and supporting documents pertaining to his case on file in the department or on file in any county office shall be open to inspection at any time during business hours by the applicant or recipient or his attorney or agent.

11207. Every county shall grant aid to any child eligible therefor, in any amount needed, not to exceed the amount specified in Section 11450, and shall administer this chapter in such a manner as to achieve the greatest possible reduction of dependency and to promote the rehabilitation of recipients. At the time of application the county department shall discuss parental responsibility with the applicant.

11208. Caseworker services shall be made available immediately to an applicant for aid under this chapter upon the filing of his application.

11209. The department shall: (a) make rules and regulations for the proper maintenance and care of needy children; (b) make rules and regulations for the administration of aid to families with dependent children. Such rules and regulations shall be binding upon the institutions and counties.

The department may inquire at any time into the management of any institution receiving aid under the provisions of this chapter or into the management by any county of aid to families with dependent children.

If an institution or county fails to comply promptly with the provisions of this chapter and the rules and regulations of the department cannot be enforced in any other manner, the institution or county failing or refusing to comply with such provisions, rules, and regulations, or to permit the inquiry provided for in this section, shall not thereafter receive aid under the provisions of this chapter until it has complied with all such provisions, rules, and regulations and has permitted the inquiry by the department, if such inquiry is demanded.

11210. The department shall make such reports, in such form and containing such information, as the United States Department of Health, Education, and Welfare from time to time requires, and shall comply with such provisions as that department from time to time finds necessary to assure correctness and verification of such reports.

Article 2. Eligibility for Aid

11250. Aid, services, or both, shall be granted under the provisions of this chapter, and subject to the regulations of the department, to families with related children under the age of 18 years, in need thereof because they have been deprived of parental support or care due to:

(a) The death, physical or mental incapacity, or incarceration of a parent; or

(b) The divorce, separation or desertion of a parent or parents and resultant continued absence of a parent from the home for these or other reasons; or

(c) The unemployment of a parent or parents.

11251. Aid and services shall also be provided under this chapter to or in behalf of any child under the age of 18 who is in need and lacks parental support and care and who:

(a) Has been relinquished, for purposes of adoption, to a county adoption agency or an organization licensed by the department as an adoption agency, if such child was receiving assistance under this chapter at the time of relinquishment, or subsequent to relinquishment has been found to be unplaceable for adoption; or

(b) Lacks parental support for the same reasons set out in Section 11250, is in need of aid as well as protection or care by persons other than his parents, and has been placed in foster care for purposes of providing such care and protection.

For purposes of this chapter, "foster care" means care other than in the home of his parent or relative, as these terms are used in Title IV of the Federal Social Security Act.

11252. No child is eligible to receive aid unless he has residence in the state.

For the purposes of this chapter, a child who meets any of the following qualifications has residence in the state:

(a) If he has been physically present in the state for one year immediately preceding the date of application.

(b) If his parent or parents have resided in the state for the period of one year immediately preceding the date of application.

(c) If the parent or other relative with whom the child is living has resided in the state for the period of one year immediately preceding the birth of the child and the child was born within one year immediately preceding the date of application.

(d) If he is born in the state.

11253. Aid may not be granted under the provisions of this chapter to or in behalf of any child over the age of 16 unless:

(a) He is regularly attending school or a training program, or

(b) He is physically or mentally disabled, or

(c) He is employed and contributing to the family, or applying his earnings to a plan approved by the county department for his further education or preparation for future employment.

11254. Aid may not be granted under the provisions of this chapter to or in behalf of persons whose need and deprivation are due to parental separation or desertion which has endured for less than three months.

11255. No aid under this chapter shall be granted or paid to any child who owns, or whose parent owns, real property, the combined assessed value of which as assessed by the county assessor, less all encumbrances thereon of record, exceeds five thousand dollars ($5,000) at the time application for aid is made, or while in receipt of such aid. Real property owned but not occupied as a home by a child receiving aid under this chapter or by the parent of such child shall be used to provide for the needs of the child or his parent, or both. No child shall be disqualified for aid if such property is not available for sale or use.

11256. For the purposes of this chapter only, the ownership of stock in a water company not appurtenant to the land shall be considered real property to the extent of and in the amount necessary to obtain water for agricultural purposes.

11257. No aid under this chapter shall be granted or paid for any child who has personal property, the total value of which exceeds six hundred dollars ($600), nor for any child or children in one family who have, or whose parents have, or the child or children and parents have, personal property the combined value of which exceeds six hundred dollars ($600).

11258. For the purposes of this chapter, the term personal property shall not include the value of clothing, furniture, household equipment including musical instruments and other recreational items, foodstuffs, fuel, personal effects and personal jewelry.

11259. For the purposes of this chapter, "personal property" shall not include the value of property belonging to an absent parent and not available to the family.

11260. A child's share of any estate, which share has not been distributed and of which he has no present economic use, does not constitute property for the purpose of this chapter.

11261. For the purposes of this chapter, the value of supplies, equipment, tools of the trade, motor vehicles within reasonable values established by the department when used for work or to seek work, and other personal property directly connected with efforts to become self-supporting, which are a part of a program to assist in maintenance and self-support, shall not be considered as personal property.

11262. Lump sum income received and available for the support of a needy child, which has accrued over a period of two or more months and may be expected to be repeated in the future, shall be utilized to meet the needs of such needy child. No portion thereof shall be considered personal property.

11263. Except as provided in Section 11455, no child over the age of 18 years is a needy child within the meaning of this chapter.

11264. No child maintained in an institution, for whom a bona fide offer of a proper home has been made, is eligible for further aid; but no institution shall be required to surrender a child to any person of religious faith different from that of the child or the parents of the child.

11265. The county shall redetermine eligibility annually. The county shall at the time of such redetermination, and may monthly or at such other intervals as may be deemed necessary, require the family to complete a certificate of eligibility containing a written declaration of such information as may be required to establish the continuing eligibility and amount of grant pursuant to Section 11004 of this code.

The certificate shall include blanks wherein shall be stated the names of all children receiving aid, their present place of residence, the names and status of any other adults living in the home, and any outside income that may have been received through employment, gifts, or the sale of real or personal property.

If the certificate is mailed to the family, it shall be accompanied by a stamped envelope for its return. In the event the certificate is not completed and returned within 10 days after it is mailed or personally delivered to the family, a home visit shall be made to the family, and the certificate shall then be completed with the assistance of the social worker, if needed. If there is a refusal to complete such certificate, the warrant for the succeeding month may be withheld pending clarification of eligibility.

Any person signing such certificate who willfully states therein any material matter which he knows to be false is guilty of a misdemeanor.

Article 3. Work and Vocational Training

11300. The provision of useful work experience and constructive vocational training for unemployed recipients is a matter of statewide concern.

Insofar as practical, each county department shall establish a community work experience and vocational training program for unemployed persons and others for whom such experience and training is deemed desirable as part of a plan to help them become self-supporting.

Such programs shall be conducted in accordance with standards and regulations established by the department as desir-

able and necessary to qualify for such federal funds as are available.

The cost of materials, equipment and supervision provided by agencies cooperating with the county department in community work experience and training programs shall not be charged as an administrative expense under this chapter or with respect to other public assistance programs.

All public entities, including state agencies, are authorized to cooperate and participate with the county department in the establishment of community work experience and training projects.

Work projects developed under this section shall be confined to projects which serve a useful public purpose, do not result either in displacement of regular workers or in the performance of work that would otherwise be performed by employees of public or private agencies, institutions, or organizations, and (except in cases of projects which involve emergencies or which are generally of a nonrecurring nature) are of a type which has not normally been undertaken in the past by the state or community, as the case may be.

11301. Any child who is otherwise qualified to receive aid under this chapter may be disqualified from receiving such aid for so long as the parent of the child refuses to accept vocational rehabilitative training necessary to improve or restore his capacity to support himself and his dependents, or fails to cooperate to the best of his ability in order to render himself more fully capable of supporting himself and his dependents.

The county may refer the incapacitated parent of a needy child to the Department of Rehabilitation to determine the feasibility of rehabilitation of such person. The department and the Department of Rehabilitation shall jointly develop plans for the orderly processing of such cases. Priority shall be given to cases for which rehabilitation is determined to be most feasible.

Nothing in this section shall be construed to prevent the department and the Department of Rehabilitation from determining the types of cases for which vocational rehabilitation is not feasible and for which referral is unnecessary.

11302. Any child may be disqualified to receive aid for so long as the parent of the child refuses to accept reasonable employment or fails to cooperate to the best of his ability with plans designed to render him more fully capable of supporting himself and his dependents.

Each county shall, in administering aid under this chapter, make a determination as to the competence, physical ability and availability of each parent to engage in remunerative work and shall require those parents, where it is deemed feasible, to register for employment at the nearest office of the State Department of Employment.

The department and the State Department of Employment shall jointly develop plans for the orderly processing and

placement of such cases. Priority shall be given to those cases with the maximum availability and ability to work.

Nothing in this section shall be construed to prevent the department and the State Department of Employment from jointly setting forth the types of cases and conditions for which employment is not reasonable and for which referral to the Department of Employment is unnecessary.

11303. Aid shall be denied to an unemployed parent and his family if it is determined by the county department, in accordance with regulations of the department, that:

(a) He fails to seek and to keep himself currently available for employment as required by standards set by the department, or

(b) He refuses without good cause to accept part-time, full-time, temporary or permanent employment without reference to his customary occupation or skill. Good cause for refusal of employment shall be deemed to exist, when:

(1) The offer of employment is not for a specific job at a stated wage comparable to the prevailing wage for that type of employment in the community, or

(2) The job is available because of a bona fide labor dispute, the existence of which has been established by the State Department of Employment, or

(3) The job is not within the physical or mental capacity of the person, as established, when necessary, by competent professional authority, or

(4) Acceptance would be an unreasonable act because of hardships imposed upon the person or his family due to illness or remoteness; interruption of a program in process for permanent rehabilitation or self-support; or conflicting with an imminent likelihood of reemployment at his regular work.

11304. The State Department of Employment shall report immediately to the county department whenever an unemployed parent willfully fails or refuses to comply with the provisions of Section 11303.

11305. An unemployed parent shall be denied aid for himself and his family if without good cause:

(a) He refuses to accept assignment to a community work or training project, or

(b) He willfully fails to report to an assigned community work or training project.

11306. When aid is granted under this chapter to an unemployed parent and his family, whenever practical or feasible, such parent or other employable family member shall be assigned to a community work or training project established and conducted under the provisions of Section 11300 of this code.

Article 4. Relatives' Responsibility

11350. If at any time during the continuance of aid under this chapter, the county, upon investigation, determines that the parent of a recipient has been gainfully employed or has

had sufficient assets to enable him to reasonably assist the recipient during the period in which the child was receiving aid, it may, after notifying the parent of the amount of assistance granted, bring suit against the parent to recover the amount of assistance paid under the provisions of this chapter, including any assistance paid after commencement of the suit and before rendition of judgment.

11351. Where a needy child lives with his mother and a stepfather or an adult male person assuming the role of spouse to the mother although not legally married to her, the amount of the grant made pursuant to Section 11450 of this code shall be computed after consideration is given to the income of the stepfather or such adult male person. The county granting aid shall determine if the stepfather or such adult male person is able to support the child either wholly or in part. The determination shall be based upon a standard which takes into account the stepfather's or such adult male person's income and expenses under regulations adopted by the department.

Notwithstanding the provisions of Section 209 of the Civil Code, a stepfather or such adult male person is bound to support, if able to do so, his wife's children if without support from such stepfather or adult male person they would be needy children eligible for aid under this chapter. However, such liability for support shall not exceed the wife's community property interest in his income.

A natural father is not relieved of any legal obligation to support his children by the liability for their support imposed upon their stepfather by this section.

As used in this section, "adult male person" means any male person of age 18 years or older.

11352. The department shall establish a scale of suggested minimum contributions to assist counties and courts in determining the amount that a parent should be expected to pay toward the support of his child under this chapter. The scale shall include consideration of gross income, shall authorize an expense deduction for determining net income, shall designate other available resources to be considered, and shall specify the circumstances which should be considered in reducing liability on the basis of hardship.

The department shall accept and compile information from the counties in order to establish such minimum scale of suggested contributions, and copies of the scale shall be made available to courts, county departments, district attorneys, and, upon request, to any other county officer or agency engaged in the administration or enforcement of this chapter in any manner.

It is intended that the use of the scale formulated pursuant to this section be optional, and that no county, court, officer, or agency be required to use that scale unless they so desire.

11353. Any parent in the state whose absence is the basis upon which an application is filed for aid in behalf of a child shall be required to complete a statement of his current monthly income, his total income over the past 12 months, the number of dependents for whom he is providing support, the amount he is contributing regularly toward the support of all children for whom application for aid is made under this chapter, his current monthly living expenses and such other information as is pertinent to determining his ability to support his children.

A violation of this section constitutes a misdemeanor.

Article 5. Institutions and Boarding Homes

11400. If, when and during such times as the federal statutes provide federal funds for any child who is granted aid pursuant to subsection (b) of Section 11450, the department shall establish such regulations as are necessary for this state to qualify for any federal funds available.

11401. No child shall receive aid under this chapter while he is a patient in a public hospital, except with respect to temporary medical or surgical care not exceeding two calendar months, in which event the child shall be eligible to receive not to exceed two monthly warrants after becoming a patient.

11402. County claims for aid to needy children placed in boarding homes, as defined by the rules and regulations of the department, and institutions shall be filed separately and distinct from other claims and shall be filed for aid furnished by the county at times and in the manner prescribed by the department. Payments for such children may be made subsequent to the furnishing of care and support to needy children in boarding homes and institutions and may be made at the end of each month for amounts granted to such boarding homes and institutions providing care and support for the needy children maintained therein during the month.

11403. An institution maintaining a needy child may make application to the department for aid for the child. Upon receipt of documents and facts establishing the eligibility of a needy child under this chapter, the Director of Social Welfare shall award aid to such child to be paid to the institution in an amount not to exceed 67.5 percent of eighty-five dollars ($85) per month, or so much thereof as is necessary for the adequate care of the child.

11404. If the application is filed by an institution and is granted by the department in the calendar month in which it was signed, payment of aid shall commence as of the date the application was signed; but if the application is filed by an institution and is granted by the department in a subsequent month, payment shall be commenced as of the date determined by the department, but in no event shall payments of aid antedate the date of an application.

11405. Claims for aid to needy children in institutions, eligible under the provisions of this chapter to receive aid, and

the county claims provided for in Section 11402 of this code for aid to needy children placed in boarding homes, as defined by the rules and regulations of the department, and institutions, shall be presented by the institutions and counties at times and in the form prescribed by the department. Such claims shall be audited by the department and the State Controller. When and in the amount approved, the State Controller shall draw the necessary warrant for the amount allowed in favor of the institution or the county, and the State Treasurer, on presentation, shall pay the same from the sums appropriated in Section 15200. No money appropriated by the state to any institution claiming aid under this chapter shall be expended either in improvements or in the erection of any buildings by such institution.

Article 6. Computation and Payment of Aid Grants

11450. (a) For each needy family which includes one or more needy children qualified for aid under this chapter, except as provided in Section 11403, there shall be paid the sums specified in the following table, or so much thereof as is necessary for the adequate care of the needy family:

Number of needy children in the same home	Maximum aid
1 child	$145
2 children	168
3 children	215
4 children	256
5 children	291
6 children	320
7 children	343
8 children	360
9 children	371

Plus five dollars ($5) per child for each additional child.

If, when and during such times as the United States government increases or decreases its contributions in assistance of needy children in this state above or below the amount paid on January 1, 1961, the amounts specified in the above table shall be increased or decreased by an amount equal to such increase or decrease by the United States government.

(b) For children receiving foster care who are qualified for aid under the provisions of this chapter, except as provided in Section 11403, there shall be paid the sum necessary for the adequate care of each child, but not to exceed in any month the product of eighty dollars ($80) multiplied by the number of children in each county receiving foster care. The state shall pay 67.5 percent and the county shall pay 32.5 percent of the aid furnished for the adequate care of such children.

(c) As used in this chapter, "foster care" means care in a boarding home or institution.

11451. Any county may, in its discretion, pay from its own funds additional sums for the care of any needy child, and the state and county may pay such aid as is needed for the adequate care of the family from other state or county funds.

11452. Minimum basic standards of adequate care shall be distributed to the counties and shall be binding upon them. Such standards shall be determined by the rules and regulations of the department, to insure:

(a) Safe, healthful housing.

(b) Minimum clothing for health and decency.

(c) Low cost adequate food budget meeting recommended dietary allowances of the National Research Council adapted to prices of the area in which the recipient resides.

(d) Utilities in accordance with the basic minimum need.

(e) Other items verified as needed, including household operation, education and incidentals, recreation, personal needs, and insurance.

(f) Allowance for essential household furniture and equipment.

(g) Allowance for essential medical, dental, or other remedial care when not available through a public facility.

(h) Allowances for special needs for any one or more of the following items: special diets upon the recommendation of a physician, transportation, laundry, housekeeping service, and telephone; and utilities in excess of the basic minimum need.

11453. The budget established by the department in compliance with Section 11452 shall be revised no oftener than semiannually and each county shall have a minimum of three months between the receipt thereof and the effective date of such budget revision within which to comply with such revision.

All grants computed in accordance with the budget shall be paid to the nearer dollar. No change shall be made in the grant for increases or decreases of less than two dollars ($2).

11454. Aid under this chapter may be paid in kind, wholly or in part, in any case where it is determined by the county director of the county in which the case is pending that there is mismanagement of aid payments in cash by the person in receipt thereof. The department shall make rules and regulations for the payment of aid under this section so that such aid will be paid only in cases wherein it is shown to be necessary. Aid under this section shall be paid in accordance with minimum basic standards of adequate care as prescribed by Section 11452 of this code. The cost of aid shall be borne by the state and county in the same proportion and up to the same maximums as are specified for state-county participation in aid in Sections 11450 and 11207 of this code. Noth-

ing in this section shall be construed as requiring a county to provide aid in an amount in excess of that which it is required to provide under Section 11450 of this code. Aid granted under provisions of this section shall be paid without federal participation in the cost thereof whenever such federal participation is not provided by the laws of the United States or rules and regulations promulgated thereunder.

11455. If on the first day of the month a child is eligible for aid, aid for the entire month shall be paid.

11456 Payments made under this chapter shall be issued at periods most nearly consistent with prevailing patterns for wages in local industry.

11457. When payments for child support, or fines, penalties or forfeitures imposed under Section 270d of the Penal Code, are made by or collected in any way from absent parents, such payments will be taken into account in determining the amount of aid to be paid.

Money from absent parents for support of a needy child, when collected by or paid through any public officer or agency, shall be transmitted to the county department providing aid to be used for the support of the child. All absent parents' payments or collections available to the county department for support of the child shall be applied first to support for the calendar month following receipt by the county department, and any balance remaining shall either be applied against future needs or be treated as reimbursement for past support furnished from public assistance funds.

11458. The county may cancel, suspend or revoke aid under this chapter for cause. Upon instructions from the department, the county shall cancel, suspend or revoke aid under this chapter.

Upon request of the department, an immediate report of every suspension of aid shall be made to the department stating the reason for the suspension and showing the action of the county in approving the suspension.

Article 7. Enforcement

11475. It is the duty of the district attorney to take such action as may be prescribed in this article, and in Section 270 of the Penal Code, to enforce the support liability of persons responsible for the support of children receiving aid under this chapter.

However, it is not intended that the district attorney shall initiate any support proceedings under this article against caretaker parents except on the request of the county department. The filing of an application for aid under this chapter shall not constitute and shall not be construed as a failure or refusal of any parent signing the application to carry out his parental responsibilities as provided in Section 270 of the Penal Code.

11476. In all cases in which the whereabouts of the parent is unknown, the county department shall refer the applicant to the district attorney at the time the application for assistance is signed.

In all cases in which the absent parent is in the county and his whereabouts is known, it shall be the duty of the county department to interview him as soon as possible after the application for assistance is signed. The county department shall determine his ability to support his children, make arrangements for his complying with his obligation to support, discuss his parental responsibilities, and explore the possibility of a reconciliation and the resumption of a parental relationship with his children. If the county department is unable to enter into a satisfactory support agreement with the absent parent within 45 days after the application for assistance is signed, the county department shall refer the case to the district attorney unless it has definitely determined that the man is financially incapable of supporting the child. If the absent parent is residing out of the county and his whereabouts is known, the county department may, within its discretion, attempt to interview him for the same purposes and under the same conditions as stated above.

Anything in this section to the contrary notwithstanding, it shall be the duty of the county department to refer to the district attorney any case in which one or more of the following factors appear:

1. The absent parent refuses to be interviewed, to provide necessary information, or to discuss his parental responsibilities.

2. The absent parent refuses to make a contribution in accordance with his financial ability.

3. There is reason to believe that the parent may flee or hide if contacted by the county department.

4. The absent parent's previous history indicates that although he is capable of a support contribution, efforts by the county department to obtain support would be fruitless.

5. Legal action is necessary to establish paternity.

6. The absent parent has entered into an agreement with the county department to support his child and without good cause has failed to comply with that agreement for an unreasonable period, which in no event shall exceed 60 days.

The county department shall cooperate with the district attorney and shall report to him all information contained in the case record which concerns the question of nonsupport and the suitability of prosecution as a method of obtaining support for the child in each case.

Upon referral, the district attorney shall immediately investigate the question of nonsupport and shall take all steps necessary to obtain support for the needy child. However, upon the advice of the county department that a child is being considered for adoption, the district attorney shall delay his investigation and other action with respect to the case

until advised that the adoption is no longer under consideration.

The granting of aid to the applicant shall not be delayed or contingent upon investigation by the district attorney.

The county department shall immediately notify the district attorney of the county whenever aid is granted to a child who is not being supported by a parent, unless it is definitely established that the parent is financially incapable of providing such support. Such notice shall require no action by the district attorney unless and until the case has been referred to him by the county department.

11477. Any child, who is otherwise qualified to receive a grant or payments of aid under this chapter by reason of the continued absence of one of such child's parents from the home and who is residing with, or is in the custody or control of the other parent, shall be disqualified from receiving such grant or payments for so long as the parent, who has such custody and control or with whom such child resides, refuses law enforcement officers charged with the duty or right of enforcing the obligation of such absent parent for the care, support and maintenance of such child under and by virtue of the penal laws of the State of California, reasonable assistance in the enforcement of such obligation.

Any one or more of the following acts by the parent having custody of the child shall be deemed to be a refusal to offer reasonable assistance to law enforcement officers:

(a) A refusal to be interviewed by the district attorney.

(b) A refusal to sign a complaint against the absent parent.

(c) A request to dismiss the complaint.

(d) The concealment of the identity or whereabouts of the absent parent.

11478. All state, county, and local agencies shall cooperate in the location of parents who have abandoned or deserted children, irrespective of whether such children are or are not receiving aid to families with dependent children, and shall on request supply the county department, any county probation officer, or the district attorney of any county in this state with all information on hand relative to the location, income, and property of such absent parents, notwithstanding any other provision of law making such information confidential, and with all information on hand relative to the location and prosecution of any person who has, by means of false statement or representation or by impersonation or other fraudulent device, obtained aid for a child under this chapter. The county department shall use such information only for the purposes of administration of aid under this chapter, and the district attorney or county probation officer shall use it only for the purpose of enforcing the support liability of such absent parents or for the prosecution of other persons mentioned in this section, and neither shall use the information, or disclose it, for any other purpose.

Nothing in this section shall be construed to compel the disclosure of information relating to a deserting parent who is a recipient of aid under a public assistance program for which federal aid is paid to this state, if such information is required to be kept confidential by the federal law or regulations relating to such program.

11479. In all cases in which the paternity of the child has not been established to the satisfaction of the county department, the county department shall refer the applicant to the district attorney at the time the application is signed. Upon the advice of a county department that a child is being considered for adoption, and regardless of whether or not the whereabouts of the parent is known, the district attorney shall delay his investigation and other action with respect to the case until advised that the adoption is no longer under consideration. The district attorney shall conduct such investigation as he considers necessary, and where he deems it appropriate, he may bring an action under Section 231 of the Civil Code. When the cause is at issue, it shall be set for trial at the earliest possible date and shall take precedence of all other cases except older matters of the same character and matters to which precedence may be given by law.

11480. Any person other than a needy child, who willfully and knowingly receives or uses any part of an aid grant paid pursuant to this chapter for a purpose other than support of the needy children and the caretaker involved, is guilty of a misdemeanor.

11481. If the district attorney, during the course of any investigation made by him pursuant to this article, determines that any person has committed any act or has omitted the performance of any duty, which act or omission causes or tends to cause or encourage any child receiving aid under this chapter to come within the provisions of Sections 600, 601, or 602 of this code, the district attorney shall prosecute such person under the provisions of Section 272 of the Penal Code.

11482. Any person other than a needy child, who willfully and knowingly, with the intent to deceive, makes a false statement or representation or knowingly fails to disclose a material fact to obtain aid, or who, knowing he is not entitled thereto, attempts to obtain aid or to continue to receive aid to which he is not entitled, or a larger amount than that to which he is legally entitled, is guilty of a misdemeanor.

11483. Whenever any person has, by means of false statement or representation or by impersonation or other fraudulent device, obtained aid for a child not in fact entitled thereto, the person obtaining such aid shall make restitution and all actions necessary to secure restitution may be brought against him.

11484. If aid has been applied for or granted to a child of parents who are divorced or legally separated, or who are engaged in a divorce or separate maintenance action which is pending, the district attorney may apply to the superior court

in such action for an order directing either parent or both to show cause:

(1) Why an order of support for the child should not be entered, or

(2) Why the amount of support previously ordered should not be increased, or

(3) Why the parent should not be held in contempt for his failure to comply with any order of support previously entered.

11485. If, to the knowledge of the court, aid has been applied for or granted to a child of parents who are engaged in a divorce or separate maintenance action which is pending, or if the court at any stage of the litigation believes that within the near future there is a likelihood that aid will be applied for on behalf of the child, the court shall direct the clerk to notify the district attorney and the county department of the pending action.

In any case in which aid has been applied for on behalf of the child, and the county department has knowledge that an action for divorce or separate maintenance has been filed, it shall be the duty of the county director to notify the court that aid is being paid or has been applied for, and to furnish to it such information as is available to the county department as to the financial resources of the parents which might be applied to child support

The enforcement remedies provided the district attorney under this article shall not preclude the use of any other remedy which he has under the law to enforce this article.

11487. Whenever any aid under this chapter is repaid to a county or recovered by a county pursuant to Section 11350, the state shall be entitled to a share of the amount received or recovered, proportionate to the amount of state funds paid, and, if funds advanced by the federal government were paid, the federal government shall be entitled to a share of the amount received or recovered, proportionate to the amount of federal funds paid.

Repayments to the state and to the federal government made pursuant to this section shall be computed after deducting the costs reasonably and necessarily incurred by the district attorney's office in locating and recovering from the parents of the children receiving aid under this chapter. The county shall establish a recordkeeping system, in accordance with standards prescribed by the department, to support the deductions provided for in this section.

The second paragraph of this section shall take effect if and when amendments to the federal statutes or rules and regulations of the United States Department of Health, Education, and Welfare take effect permitting the use of federal funds to reimburse local law enforcement agencies for the costs incurred by them in enforcing the support liability of parents of children receiving aid under this chapter.

CHAPTER 3. OLD AGE SECURITY LAW

Article 1. General Provisions

12000. This chapter may be cited as the Old Age Security Law, and aid granted under this chapter shall be known as aid to the aged.

12001. The board of supervisors of every county shall follow the policy of giving the aid provided for in this chapter to every applicant in his own or in some other suitable home of his own choosing, in preference to placing him in an institution.

It is the intent of the Legislature that employment and self-maintenance of aged persons shall be encouraged whenever feasible. Participation shall be entirely voluntary on the part of the aged person and no pressure shall be exercised to obtain his participation. The department shall take all steps necessary to effectuate this general purpose. No aged person shall be disqualified for assistance or otherwise penalized if he refuses to seek or accept employment.

12002. All aid granted under the provisions of this chapter shall be deemed to be granted and held subject to the provisions of any law hereafter enacted amending or repealing in whole or in part the provisions of this chapter. No recipient under this chapter shall have any claim for compensation or otherwise because his aid is affected in any way by any such amending or repealing act.

12003. Nothing in this chapter shall be construed as repealing any act or part of an act providing for the support of the poor except insofar as inconsistent therewith.

12004. Any person who, knowing that the owner of property is an applicant, aids or abets in buying or in any way disposing of the property, shall give 15 days' notice of the intention to make the transfer to the board of supervisors, by serving upon the chairman of the board a declaration in writing setting forth the name of the owner of the property, the fact that he is an applicant, a description of the property sufficient to enable it to be identified with reasonable certainty, and the time and place where the contemplated transaction will be completed, and failure to give such notice shall constitute a misdemeanor.

12005. No person shall be denied aid under this chapter for any transfer of his property which transfer has not deprived him of the present use, enjoyment or income thereof, and which property would not have rendered him ineligible under Article 4 (commencing with Section 11150) of Chapter 1 of this part.

12006. No question, inquiry, or recommendation under the authority of this chapter or the rules of the department shall relate to the political or religious opinions or affiliations of any person, and no grant or denial of aid under this chapter shall

be in any manner affected or influenced by such opinions or affiliations.

12007. Whenever complaints are repeatedly made to the department concerning the conduct or acts of any county officer or employee in connection with the administration of this chapter, the department shall consider such complaints, and if it finds that the conduct or acts complained of are inimical to the purposes and proper administration of this chapter, the department shall report the complaints and its findings relating thereto to the board of supervisors of the county for investigation and appropriate action designed to eliminate such conduct or acts promptly. The board of supervisors shall utilize dismissal, suspension, or demotion of such officer or employee, whenever necessary to eliminate the inimical acts or conduct, and shall immediately thereafter report to the department the action taken.

12008. In case of dispute, the application and supporting documents pertaining to his case on file in the department or on file in any county office or elsewhere, shall be open to inspection at any time during business hours by the applicant or recipient, or by his designated attorney or agent, upon proof of his designation as such attorney or agent. The county department shall transmit to the applicant or recipient, and to his designated attorney or agent, if any, within 10 days after request is made therefor, such information as is available in the case record, which will assist the applicant or recipient in filing an appeal to, or applying for a hearing before, the department or in filing a petition for judicial review under Section 10962.

12009. After advice, instructions given by a representative of a county to an applicant or recipient regarding the sale of real or personal property by the applicant or recipient shall be in writing, and shall indicate the effect of such sale on the eligibility of the applicant or recipient for aid under this chapter.

Nothing in this section is intended to limit the right of the representatives of the county and the recipient, or his representatives, to freely discuss any matters germane to his aid.

12010. During such time as grants-in-aid are provided or made available to the states by the United States government as assistance to aged persons, the Governor may enter into and execute on behalf of this state all necessary agreements in connection therewith which may be required by the United States government. Any money refunded under the provisions of Sections 12203 and 12205 of this code shall be repaid to the county, to the state, and to the United States government. The federal government shall be entitled to a share of any amounts collected from recipients or from their estates proportionate to the amount of federal funds paid, which proportionate share may be specified by the department. The amount due the United States shall be paid promptly by the state to the United States government and the remainder shall be paid to the

county and the state in the proportion that each may have contributed to the aid granted.

12011. No rule or regulation shall be adopted by the department or continued in force, the operation of which results in discrimination against practitioners of any type of therapy, treatment by prayer or spiritual means, or other treatment recognized as a branch of the healing arts in favor of the practitioners of any other branch of the healing arts.

12012. The department shall supervise and pass upon the measures taken by the county boards of supervisors for the care of needy aged citizens, to the end that they shall receive suitable care and that there shall be throughout the state a uniform standard of records and method of treatment of aged persons based upon their individual needs and circumstances.

12013. No citizen of California receiving aid under this chapter shall be considered in the custody of the State of California, or any subdivision thereof, by reason of such aid, or subject to control in his manner of living, by state or county officials or employees of the county in which he shall reside; save when adjudged incompetent to care for himself by proper tribunal or when admitted to a state or county hospital for medical attention, in which case he shall be subject to the rules of the institution in the same degree as other patients. Nothing contained in this section shall prevent the payment of aid to any responsible person acceptable to the recipient for the benefit of the recipient, as provided in Section 12158

12014. If any recipient of aid under this chapter also qualifies for aid to the blind, aid to the potentially self-supporting blind, or aid to the needy disabled, he shall be so informed, and if he wishes to transfer, his application for aid under such other program shall be taken promptly, so that there is no interruption in warrant payments to the recipient.

12015. The board of supervisors shall immediately notify the applicant in writing of its decision regarding the granting of aid, and that he may, upon application to the board within 30 days, appear before the board at a time to be fixed by the board, and show cause why the action of the board is not satisfactory. The hearing shall be held within 30 days from the time of application for hearing. Upon good cause shown, the board may reconsider its previous action, and take whatever action the board deems proper upon the application. The decision of the board confirming or reconsidering its previous action shall be rendered within 15 days after the hearing.

The right of hearing by the board of supervisors provided by this section is intended as an alternative to direct appeal to the department, and an applicant who has applied for hearing before the board of supervisors shall not appeal to the department until the decision of the board of supervisors has been rendered. After the decision of the board of supervisors has been rendered, the applicant may appeal therefrom to the department. An applicant who does not apply for hear-

ing before the board of supervisors may appeal directly to the department as provided in Section 10950.

Article 2. Eligibility for Aid

12050. Aid shall be granted under this chapter to any person who comes within all of the following descriptions:

(a) Who has attained the age of 65 years; provided, that if, when and during such time as the federal government shall provide or make available to this state grants-in-aid to persons who have attained the age of 60 years, the age contained in this subdivision shall be reduced to 60 years and persons who have attained the age of 60 years and who come within all of the descriptions hereinafter contained shall be eligible for aid under this chapter;

(b) Who resides in the state and has so resided continuously for at least one year immediately preceding the date of application and for at least five years within the nine years immediately preceding the date of application; or, who resides in the state and is, or has been within one year prior to his application under this chapter, receiving aid to the blind or potentially self-supporting blind, to which he has become ineligible because of restoration of sight; provided, however, that if, when, and during such time as the federal government shall fix maximum residence requirements, aid shall be paid to any person, otherwise eligible, who meets those requirements;

(c) Who is not cared for under a contract for a period of time exceeding one month; provided, however, that during such times as the federal statutes or rules and regulations provide for federal sharing, all persons cared for under such a contract may be granted assistance for their personal and incidental expenses not to exceed ten dollars ($10) per month if the contract does not specifically provide for this need; provided further, that during such time as the additional federal funds made available for that purpose by federal legislation enacted in 1952 remain available, all persons cared for under a contract mentioned in the last preceding clause of this subdivision may be granted assistance for their personal and incidental expenses not to exceed fifteen dollars ($15) per month in lieu of the ten-dollar ($10) grant authorized by the last preceding clause, if the contract does not specifically provide for this need.

(d) Who is not receiving adequate support from a husband or wife, or child able and responsible under the laws of this state to furnish such support; free board and lodging supplied to an applicant, because of his necessity, by a friend or relative who is not responsible for his support, shall not be grounds for refusing aid;

(e) Who has not made any voluntary assignment or transfer of property for the purpose of qualifying for such aid.

(f) Who is not a patient in a public institution for tuberculosis or mental disease.

(g) Who is not a patient in a public medical institution as the result of a diagnosis as having tuberculosis or psychosis.

(h) Who is not an inmate of a public institution of a custodial (nonmedical), penal or correctional character.

(i) Who is not an inmate in a federal medical institution.

12051. For the purposes of this chapter, neither the domicile nor residence of the husband or wife shall be deemed to be the domicile or residence of the other, but each may have a separate domicile or residence dependent upon proof of the fact and not upon legal presumptions. An applicant for or recipient of aid under this chapter shall not lose residence because of marriage.

12052. For the purposes of this chapter, lump sum income received by a recipient shall be deemed personal property to the extent that the amounts received do not cause the value of the personal property reserve of the recipient to exceed the amount prescribed in Section 11154 of this code. In the event that the amounts received cause the personal property reserve of the recipient to exceed the amount prescribed in Section 11154, the excess shall be considered income to the recipient.

This section shall not apply to lump sum income received by the recipient which has accrued over a period of two or more months as an accumulation of earnings or benefits of a recurring type. Such income shall be utilized fully by the recipient to meet his needs.

12053. Any patient or inmate of a public institution who is not qualified for aid because of the provisions of subdivisions (g), (h) or (i) of Section 12050 may make application for aid under this chapter and have his application investigated and acted upon without delay, in the same manner as applications of other persons are acted upon, while he is such a patient or inmate, and, if he is otherwise qualified under the terms of this chapter, such application shall be approved. The applicant may remain a patient or inmate of such institution until he receives his first monthly payment, whereupon he shall leave the institution.

12054. No aid shall be granted under this chapter to any alien who has been convicted of an overt act against the government of the United States.

12055. Aid shall be granted to any person who is a resident of a home or institution maintained by any fraternal, benevolent, or other nonprofit organization if the organization has not been paid for the life care and maintenance of the person through assessment of or dues of the person or otherwise, whether or not the person has agreed or promised to pay for his maintenance in the event that he receives any pension, bequest, devise, or other inheritance.

The county from which the person came to such home prior to October 1, 1959, shall, for the purpose of this section, be considered the residence of such person to grant such aid.

12056. If on the first day of the month a recipient of aid is eligible for aid though an inmate of an institution or hospital, he is entitled to receive aid for the month.

If a recipient of aid becomes ineligible for aid due to confinement in an institution or hospital, the order of the board of supervisors suspending his aid may provide that aid shall be restored to him by the county auditor when the recipient ceases to be an inmate, without further order from the board of supervisors.

12057. For the purpose of determining the age of an applicant for aid under this chapter, any of the following documents shall be sufficient proof of the age of the applicant:

(a) Certificate of birth;

(b) Certificate of baptism;

(c) Statement of age as recorded on marriage license or certificate;

(d) Statement of age of the applicant as shown by the record of registration of voters in any political subdivision of this state, at least five years prior to the date of such application;

(e) Entries in a family Bible or other genealogical record or memorandum of the family of such applicant;

(f) The returns of the United States census taken at least five years prior to the date of such application;

(g) The affidavit of a reputable person, if it is based upon his personal knowledge of facts which would determine the probable age of the applicant and is not merely a statement of belief based on applicant's personal appearance; such affidavit shall contain statements of the circumstances upon which the affiant's knowledge is based;

(h) Such other evidence as the department may approve.

12058. The board of supervisors may annually or oftener make such investigation as the board deems necessary to determine the recipient's eligibility to continue to receive aid under this chapter. The amount of aid may be changed or aid may be discontinued if the board finds that the recipient's circumstances have changed sufficiently to warrant it.

Article 3. Relatives' Responsibilty

12100. If an adult child living within this state fails to contribute to the support of his parent as required by Section 12101, the county granting aid under this chapter may proceed against such child. Upon request to do so, the district attorney or other civil legal officer of the county may maintain an action in the superior court of the county granting such aid, to recover that portion of the aid granted as it is determined that

the child is liable to pay, and to secure an order requiring payment of any sums which may become due in the future.

The granting of or continued receipt of aid shall not be held to be contingent upon any court action or order or the child's compliance with provisions of Section 12101.

Any adult child held to be liable to make a contribution for the full or partial support of his parent pursuant to the provisions of Section 12101 of this code may appeal to the department for modification of the required contributions. Such appeal shall be handled in the same manner as specified in Chapter 7 (commencing with Section 10950) of Part 2 of this division for appeals filed by an applicant or recipient.

In the event the amount of earnings, as reported by the relative, is disputed, and it is found necessary to contact the relative's employer, the county shall give prior notice of its intention to do so to the relative.

12101. The ability of an adult child to contribute to the support of a parent shall be determined in accordance with this section.

The maximum monthly amount an adult child shall be required to contribute toward the support of a parent in receipt of aid under this chapter shall not exceed the amount specified by the Relatives' Contribution Scale. Regulations of the department shall prescribe the criteria, methods of investigation and test check procedures relating to the determination of the maximum amount any adult child may be held liable to contribute toward the support of a parent to the end that the required contribution does not impose an undue hardship upon the adult child and administrative time and effort are not expended on nonproductive investigative activities.

For purposes of this chapter, income of an adult child is defined as the sum of the income constituting the separate property of the adult child, the income (excluding earnings) which is community property subject to the direction and control of the adult child, and the earnings of the adult child but not of his or her spouse.

In computing net income, a flat 25 percent allowance shall be permitted for the cost of personal income taxes, disability insurance taxes and social security taxes, expenses necessary to produce the income, including the cost of transportation to and from work, meals eaten at work, and union dues, and the cost of tools, equipment and uniforms.

A responsible relative who is self-employed shall also be allowed to deduct the expenses necessary for obtaining the income.

The department, in establishing criteria and regulations for the administration of this section, shall provide for consideration of contributions made in kind.

The maximum required monthly contribution of responsible relatives in one family where the net monthly income is over one thousand one hundred fifty dollars ($1,150) shall be the amount computed by entering the column of maximum required monthly contribution appropriate to number of persons dependent upon income as shown in the relatives' contribution scale for a net monthly income of one thousand one hundred twenty-six dollars ($1,126) to one thousand one hundred fifty dollars ($1,150) and then adding to the required monthly contribution thus ascertained an additional sum of five dollars ($5) contribution for each and every bracket of twenty-five dollars ($25) net income over and above one thousand one hundred fifty dollars ($1,150), the same as if the relatives' contribution scale were extended by brackets of twenty-five dollars ($25) net income in column A with corresponding step by step increases of five dollars ($5) monthly contribution in each column under B and C.

Notwithstanding any other provision of this code to the contrary, the provisions of this section and the regulations of the department adopted pursuant thereto shall be the basis for determining the extent of liability of an adult child to contribute to the support of, or defray the cost of any medical care or hospital care and other services rendered to a recipient pursuant to any provision of this code if he is a recipient

of aid under this chapter at the time such medical care or hospital care or other services are rendered.

12102. Notwithstanding any provision of Section 12101, no grant of aid shall be withheld pending investigation of the financial condition of responsible relatives, if the applicant has established the fact that he is not receiving support from such relatives.

12103. Written statements of information required from responsible relatives of applicants need not be under oath, but shall contain a written declaration that they are made under the penalties of perjury, and any person so signing such statements who willfully states therein as true any material matter which he knows to be false, is subject to the penalties prescribed for perjury in the Penal Code.

12104. If the board of supervisors of a county makes an order, under the authority of Section 206.7 of the Civil Code, freeing the responsible relative from the duty of supporting an applicant for or recipient of aid under this chapter, or if the superior court of a county makes a similar order under the authority of Section 206.5 of the Civil Code, such an order shall be deemed to have a retroactive effect and to free the relative from the duty of paying, either to the applicant, recipient, or county, any sum for which he would otherwise have been liable prior to the making of the order, and which yet remains unpaid on the day the order is made.

Nothing in this section shall be construed to give to any responsible relative any right whatever to recover from an applicant, recipient, or county any sum already actually and properly paid by the relative to the applicant, recipient, or county prior to the date upon which the board of supervisors or superior court of the county makes its order under Section 206.7 or 206.5 of the Civil Code.

12105. The obligation of a relative to contribute to the support of an applicant for or recipient of aid under this chapter shall be enforced by civil action and not by criminal prosecution. No relative shall be held criminally responsible for a refusal or failure to contribute or to submit or return any form required of him under this chapter.

12106. No officer or employee of any county shall make any demand upon any person, other than a legally responsible relative, of any applicant for or recipient of aid under this chapter, to contribute a stated amount to the support of the applicant or recipient each month, or to agree so to contribute, or shall threaten any such person with any legal action against him by or on behalf of the county, or with any penalty whatsoever, unless he agrees so to contribute.

Article 4. Computation and Payment of Aid

12150. Any applicant shall be entitled to an amount of aid which, when added to the income of the applicant, equals one hundred five dollars ($105) per month plus any adjust-

ment reflecting cost-of-living changes subsequent to January 1, 1962.

The amount of the grant as set forth in this section and Section 12151 shall be adjusted annually by the department to reflect any increases or decreases in the cost of living occurring after January 1, 1962. The average of the separate indices of the cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics, shall be used as the basis for determining the changes in the cost of living. Whenever the cost of living increases or decreases by a percentage which when multiplied by one hundred dollars ($100) results in a product of one dollar ($1) or more, this product adjusted to the nearer dollar amount shall be added to or subtracted from the monetary amount specified in the preceding paragraph and to the corresponding figure specified in Section 12151. The resultant sum shall be declared by formal action of the department to be the monthly grants payable under this section and Section 12151, respectively. In giving effect to the cost-of-living feature of this section, the department shall select a base month for computation of the percentage change in the cost of living after January 1, 1962. The same month shall be used annually thereafter. The ordered change in the maximum grant shall become effective on the first day of the month following the expiration of a ninety (90) day period following the date of the formal action of the department directing the change.

In any case where it is found that the need of an applicant exceeds the maximum provided by this section, an additional amount of aid shall be paid as provided by Section 12151.

12151. Any recipient whose need exceeds the amount of the maximum grant payable under Section 12150 shall be entitled to receive an additional amount as necessary to meet his need, but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1962.

The additional grant provided by this section is to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients and not included or adequately covered by the allowance provided by Section 12150.

12152. If the physical or mental condition of a recipient of aid under this chapter is such that he requires the services of a full-time or part-time attendant or other special services, he shall be entitled to an additional grant in an amount sufficient to enable him to pay for those services, but not to exceed three hundred dollars ($300) in any month. The grant payable to a recipient under this section shall not be considered in computing the grant payable to the recipient under Sections 12150 and 12151 of this code, and shall not be subject to the monetary limitations set forth in those sections.

12153. Within 10 days after making a request, and within 10 days after any change in his grant, every applicant or recipient shall be given an itemized report setting forth the amount of deductions if any, and aid granted to him, and the budget allowances made in determining the amount of aid granted to him; except for a supplemental grant, a simple explanation of the additional payment shall suffice. The department may waive this requirement for statutory changes in grant. The pricing established for food, clothing, incidentals, and personal needs, household operations and transportation, shall be compatible with decency and health.

Budgetary allowances for goods and services shall not be reduced solely on the basis that the goods and services are being purchased from a responsible relative of the recipient, but such allowances shall not exceed the prevailing community rate for such goods and services.

12154. The actual need of any recipient eligible for aid under this chapter shall include the monthly cost of a telephone when a telephone is not readily available for the use of the recipient on the premises in which he resides. However, such need shall not be included as a basic need which is provided by the maximum grant payable under this chapter.

12155. The department shall allow as a special need debts incurred for the medical care of any recipient of aid under this chapter and other essential members of the recipient's immediate family who reside in his household, if the recipient is legally liable for payment of the incurred debt.

The provisions of this section shall not apply to debts incurred for items of medical care which could have been obtained by a recipient, without cost, under the provisions of Chapter 7 of this part.

12156. The department shall in setting the maximum allowance for shelter for recipients of aid under this chapter take into account, among other things, the cost of shelter in low-rent housing developments for the elderly financed in whole or in part with federal or state funds or by means of a loan insured in whole or in part by the federal or state government.

It is the policy of state government to encourage the development and retention of safe and healthful low-rent housing for the elderly which is especially designed to meet the housing needs of the aged. Insofar as practical, the shelter standards set by the department shall be consistent with this general objective.

12157. Free board, lodging and other items of need furnished free to a recipient of aid under this chapter shall constitute income to the recipient in computing the grant of assistance provided for in this chapter. However, such free items shall not be evaluated at an amount higher than specified for such items in the assistance standard established by the department. If a recipient pays less for an item of need than the amount specified in the basic budget formulated by the department, the difference shall not be considered deductible in-

come unless it is established that the difference is in fact a regular contribution toward the support of the recipient. For the purpose of this section, casual income or the value of inconsequential assistance furnished without charge to the recipient by another shall not be deducted from his grant. This section shall not apply to medical services provided pursuant to Chapter 7 of this part.

12158. If the application for aid is granted, the clerk of the board of supervisors shall report the fact to the auditor of the county. All payments of aid under this chapter shall be made monthly in advance by the treasurer of the county and shall be paid as of the first day of each month.

The warrant shall be placed in the mail in time for delivery on the first postal delivery day of each month.

Such payment shall be paid by warrant and shall be delivered to the recipient at his residence if he so requests. If the recipient is, on the testimony of reputable witnesses, found incapable of taking care of himself or his money, upon recommendation of the board of supervisors and with the approval of the department, the aid authorized in this chapter may be paid to any responsible person acceptable to the recipient for the benefit of the recipient, but it shall be unlawful for the board of supervisors to order any part of the aid granted under this chapter to be paid in the form of merchandise orders for food, rent or otherwise.

If a recipient of aid dies before any warrant or warrants to which he is found to be entitled can be issued to him as payee, such warrant or warrants may designate the legal representative of the decedent's estate as payee, or, if there be no authorized legal representative, the heir of the decedent who can demonstrate his legal right thereto may be designated as payee.

12159. Subject to the provisions of Section 12150 and Section 12151 the amount of grant payable under this chapter shall be determined in accordance with a standard of assistance established by the department. The standard of assistance shall serve to establish the need of aged persons and the amount of assistance each such aged person is entitled to receive. Money amounts shall be established for each consumption item or group of items included within the scope of the allowance prescribed in Section 12150 and the additional allowance provided for in Section 12151.

The department shall analyze the standard of assistance at least annually and at the time of any increase in grant and shall adopt necessary amendments to the standard of assistance.

12160. The department shall adopt no rule requiring recipients to obtain estimates from vendors in establishing the cost of medicines, appliances, or devices needed by the recipient to enable him to meet his physical or health needs, where compliance with such rule would be impossible for any recipient or would cause undue hardship to recipients. No recipient shall be compelled to purchase used materials for his

personal or household needs. No estimate shall be required in cases where the department has established a ceiling price on the item needed by the recipient and the cost of the item does not exceed the ceiling price.

12161. The department shall adopt no rule, regulation, or order which would limit the period of time required by an applicant or recipient to pay for physician services, medical needs and hospitalization not covered by the medical care program established under Chapter 7 of this part.

Article 5. Termination and Recovery of Aid

12200. The county may for cause, and upon instructions so to do by the department, shall cancel, suspend, or revoke aid. Upon request of the department, an immediate report of every suspension shall be made to the department stating the reason for the suspension and showing the action of the board of supervisors in approving the suspension.

Eligibility for medical assistance for the aged does not constitute cause for retroactive cancellation, suspension, or revocation of aid.

12201. If the board of supervisors, in accordance with Section 12200, cancels, suspends, or revokes aid, the recipient shall be immediately notified in writing of the county's action, the date thereof, and of the reason therefor and the recipient's right to appeal therefrom.

12202. If, at any time, the department has reason to believe that aid has been obtained improperly, it shall cause special inquiry to be made and may suspend payment of any installment pending the inquiry. It shall notify the board of supervisors of such suspension. If it appears upon inquiry that the aid was obtained improperly, it shall be canceled by the department, but if it appears that aid was obtained properly, the suspended payments shall be payable.

12203. If, at any time during the continuance of aid, the recipient thereof or the husband or wife of the recipient becomes possessed of any property or income in excess of the amount prescribed by law for a recipient of aid to the aged, the recipient shall immediately notify the board of supervisors of the receipt and possession of such property or income. The board may, on inquiry and with the approval of the department, either cancel the aid or vary the amount thereof in accordance with circumstances. Any excess aid theretofore paid shall be returned to the United States government, the state, and the county participating in the granting of such aid, in accordance with the provisions of Section 12011, and shall be recoverable as a debt due proportionately to the state and such county.

12204. Whenever moneys collected from recipients in repayment of aid granted under this chapter have been collected erroneously, because of mistake of law or fact, refunds shall be made as provided in this section.

Upon investigation and a finding by the county that the repayment of aid was made and collected erroneously, the county shall refund to the recipient the amount of the county and state shares of the repayment, and the state shall allow to the county in computing the amounts payable to the county pursuant to Section 15152 a credit for any amount of such refund which has previously been credited to the state. If the United States government pays or credits to the state the amount of the repayment which has been credited to the United States government, the state shall allow a credit to the county in the amount of the credit received by the state from the United States government, and the county shall refund to the recipient the amount so credited to the county.

12205. If, on the death of a recipient of aid under this chapter, it is found that he was possessed of property or income in excess of the amount prescribed by law for a recipient of aid to the aged, and that he has not disclosed the same to the board of supervisors, it shall be presumed that he was possessed of such property or income since the date of his first application for aid, and double the amount of the aid paid him in excess of that to which he was legally entitled may be recovered by the Department of Social Welfare as a preferred claim from his estate and upon recovery shall be repaid to the county, to the state, and to the United States government in accordance with the provisions of Section 12011.

Collections based solely on this presumption shall not exceed the market value of the excess property.

12206. Notwithstanding the provisions of Sections 12203 and 12205, a recipient who has received aid in good faith, honestly believing himself to be entitled thereto, but who is found to have possessed property in excess of the amount prescribed by law for a recipient of aid to the aged, or the personal representative of such a deceased recipient, may by way of an affirmative defense, show when, and the circumstances under which, the recipient acquired such property in excess of the amount allowed under the provisions of this chapter. If it is established that the recipient received such aid in good faith, honestly believing himself entitled thereto, he shall be considered to have been ineligible for aid only during the period for which the excess property, if it had been applied to his support at the rate of the aid granted to him, would have supported him. In such case the recipient or his estate shall repay only the aid he received during such period of ineligibility.

12207. No person administering aid under this chapter shall demand that a recipient sign any check, or other document transferring his property to the county, as reimbursement for overpayments of aid made to the recipient, unless the recipient is notified in writing of the causes of the overpayment and of his right of appeal, and that he may have a representative of his own selection at the time the demand for reimbursement is discussed with him, and at the time

he signs or delivers any instrument or paper by way of reimbursement.

Article 6. Penalties

12250. Any person who, knowing he is not entitled thereto, obtains or attempts to obtain aid to which he is not entitled, or a larger amount than that to which he is legally entitled, or the payment of any forfeited installment grant, is guilty of a misdemeanor.

It is the intent of the Legislature that restitution shall be sought by request, civil action, or other suitable means prior to the bringing of a criminal action.

12251. Any person who knowingly violates any provision of this chapter for which no penalty is specifically provided is guilty of a misdemeanor.

12252. Any person who accepts compensation or other remuneration, or a gift, for making application for aid under this chapter on behalf of an aged person, for assisting an aged person to apply for such aid, or for assisting an aged person to obtain a greater amount of aid than he has been granted, is guilty of a misdemeanor.

This section does not prohibit an active member of the State Bar from accepting a fee for representing an aged person in a hearing before the board of supervisors, in an appeal to the department, or in any court action.

CHAPTER 4. AID TO THE BLIND

Article 1. General Provisions

12500. The purpose of this chapter is to relieve blind persons from the distress of poverty, to promote self-care, to enlarge the economic opportunities of the blind, and to stimulate the blind to greater efforts in striving to render themselves self-supporting. Aid granted under this chapter shall be known as aid to the blind.

12501. This chapter and Chapter 5 of this part shall be construed separate and apart from any provisions of law for the aid and relief of indigents. It is recognized that the needs of blind persons may be different from the needs of aged persons.

12502. As used in this chapter, "blind person" means any person who by reason of loss or impairment of eyesight is unable to provide himself with the necessities of life and who has not sufficient income of his own to maintain himself as further set forth in Section 12650 and Section 12651 of this code.

12503. The department shall adopt no rule, regulation, or order under this chapter or Chapter 5 of this part which would limit to less than 24 months the period of time required by an applicant or recipient to pay for physician services, medical needs and hospitalization.

12504. Whenever any aid under this chapter is refunded to a county, the state shall be entitled to a share of the amount received, proportionate to the amount of state funds paid, and, if the payment of aid was participated in by the federal government, the federal government shall be entitled to a share of the amount received, proportionate to the amount of federal funds paid. The amount to be paid to the federal government shall be specified by the department.

12505. The department shall keep a complete list of all applications for aid to the blind, and shall prepare application blanks for use of applicants for aid, which shall be printed by the State Printer and supplied to each county.

12506. In any county which has a caseload of two hundred fifty (250) or more recipients of aid to the blind, the board of supervisors shall create a special bureau to be devoted exclusively to the administration of this chapter and Chapter 5 of this part. When possible, the board of supervisors, subject to applicable civil service and merit system laws, ordinances and rules, may select to administer this chapter and the provisions of Chapter 5 of this part, blind persons who are eligible for appointment under such laws, ordinances and rules to social work positions in the special bureau for the blind. Subject to the applicable laws, ordinances, and rules governing county civil service and merit systems, and when practicable, appointments to these positions may be made in such a manner that approximately 50 percent of the social workers employed in the special bureau shall be blind.

12507. Every person administering aid under this chapter or Chapter 5 of this part shall endeavor at all times to perform his duties in such manner as to assist applicants for and recipients of aid to the blind to decrease or eliminate their dependency by means of more adequate physical, social, and economic adjustments. The number of recipients of aid to the blind for whom any one social worker has responsibility shall be sufficiently small to make possible an effective administration of the provisions of this chapter or Chapter 5 of this part, including the reduction or elimination of dependency whenever possible.

12508. No applicant for or recipient of aid under this chapter or Chapter 5 of this part shall be required to pay any part of the cost of an eye examination as required by the department in connection with his application for or continued receipt of aid under this chapter or Chapter 5 of this part. The costs of all such eye examinations shall be paid entirely by the county in the same manner as other expenses of the county are paid.

12509. The board of supervisors shall immediately notify the applicant in writing of its decision regarding the granting of aid, and that he may, upon application to the board within 30 days, appear before the board at a time to be fixed by the board and show cause why the action of the board is not satisfactory. The hearing shall be held within 30

days from the time of application for hearing. Upon good cause shown, the board may reconsider its previous action, and take whatever action the board deems proper upon the application. The decision of the board confirming or reconsidering its previous action shall be rendered within 15 days after the hearing.

The right of hearing by the board of supervisors provided by this section is intended as an alternative to direct appeal to the department, and an applicant who has applied for hearing before the board of supervisors shall not appeal to the department until the decision of the board of supervisors has been rendered. After the decision of the board of supervisors has been rendered, the applicant may appeal therefrom to the department. An applicant who does not apply for hearing before the board of supervisors may appeal directly to the department as provided in Section 10950.

The right of appeal to the board of supervisors, provided in this section, shall also be available to an applicant for aid under Chapter 5 of this part.

12510. The board of supervisors shall investigate, annually or oftener, the qualifications of blind persons receiving aid under this chapter and may increase or decrease the allowance within the limits prescribed in this chapter, or, if the board is satisfied that any person receiving such aid is not entitled thereto, it shall deny him further aid and shall forthwith notify the county auditor and the Chief of the Division for the Blind in the department of such action. The person receiving aid however, shall have the right of appeal to the department from such action.

12511. The department shall make such reports in such form and containing such information as the United States Department of Health, Education, and Welfare may from time to time require, and shall comply with such provisions as the United States Department of Health, Education, and Welfare may from time to time find necessary to assure the correctness and verification of such reports.

12512. The department may appoint an advisory committee of six ophthalmologists, which shall serve in a consulting capacity.

The members of the committee shall receive no compensation for their services but shall be allowed their actual traveling expenses incurred in the discharge of their duties.

The committee shall make recommendations and give advice to the department on rules and regulations governing all questions of eligibility as to blindness under this chapter.

12513. All papers and records pertaining to his case on file in the department or on file in the office of any county clerk or elsewhere shall be open to inspection at any time during business hours by the applicant or his attorney or agent.

12514. All rules and regulations pertaining to the provisions of this chapter and Chapter 5 of this part shall be pro-

mulgated and construed separate and apart from other rules and regulations made by the department.

Article 2. Eligibility for Aid

12550. No person is entitled to aid under the provisions of this chapter or Chapter 5 of this part, unless he is at least 16 years of age and is a resident of the state. No period of residence in this state is required.

12551. Any blind resident of California who is eligible for aid under this chapter and who regularly matriculates at the University of California or other institution of higher learning in this state and who is regularly working for an academic degree or certificate of completion shall be deemed eligible to receive aid under Chapter 5 of this part.

12552. No applicant shall receive aid under this chapter, who is a patient in a public institution for tuberculosis or mental disease, who is a patient in a public medical institution as the result of a diagnosis of tuberculosis or psychosis, who is an inmate of a public institution of a custodial (nonmedical), penal, or correctional character or who is a patient in a federal medical institution.

Any such ineligible patient or inmate, however, may make an application for aid under this chapter and have his application investigated and acted upon without delay while he is such an ineligible patient or inmate, and if he is otherwise qualified under this chapter, such application shall be approved. The applicant may remain a patient or inmate of such institution until he receives his first monthly payment whereupon he shall leave the institution.

12553. For the purposes of this chapter and Chapter 5 of this part, neither the residence nor domicile of the husband or wife shall be deemed the residence or domicile of the other, but each may have a separate residence or domicile dependent upon proof of the fact and not on legal presumptions.

For the purposes of this chapter and Chapter 5 of this part, a minor child shall be deemed to have resided in the state during any period in which such child has been physically present in the state.

12554. An applicant or recipient who is a patient in a public medical institution and who is otherwise eligible under this chapter is entitled to receive aid.

Notwithstanding any other provision of this chapter, payment may be made in behalf of the recipient directly to the public medical institution, except for the allowance for personal and incidental needs as provided in the standard of assistance established by the department. Wherever it is necessary, the county shall assist the recipient to make full use of his personal and incidental needs allowance to obtain items which will add to his comfort and contentment while under care in the public medical institution.

If a person enters the public medical institution as a recipient, payment directly to such institution shall not be made for a period prior to the first calendar month following the expiration of 60 days.

Payment to the institution under this section shall not be made in advance of furnishing the care. If a recipient leaves the institution during the month and remains on aid, the full monthly grant shall be paid to the recipient.

12555. Aid shall be granted to any person who is an inmate of a home or institution maintained by any fraternal, benevolent, or other nonprofit organization if the organization has not been paid for the life care and maintenance of the person through assessment of or dues of the inmate or otherwise, whether or not the person has agreed or promised to pay for his maintenance in the event that he receives any pension, bequest, devise, or other inheritance.

12556. No aid shall be given under the provisions of this chapter or Chapter 5 of this part to any individual who receives aid under the Old Age Security Law or aid to the disabled.

12557. Notwithstanding any other provisions of this code, persons receiving or applying for aid under Chapter 5 of this part but eligible under this chapter and the provisions of Section 12562 may instead be granted aid under this chapter without the necessity of filing a new application and be restored to aid under Chapter 5 at the end of 12 months or such other period as may be authorized by federal law or regulations

An otherwise eligible applicant for aid under Chapter 5 of this part may continue to be granted aid under this chapter up to a period of 12 months or such other period as may be authorized by federal law or regulations

12558. No person who publicly solicits alms in any part of the state shall be eligible to receive aid under the provisions of this chapter or Chapter 5 of this part. "Publicly solicits" shall be construed to mean either wearing, carrying, or exhibiting signs denoting blindness for the securing of alms, or carrying receptacles, for the purpose of securing alms, or doing the same by proxy; or stationary or house-to-house begging; or any other means of publicly seeking alms.

12559. The board of supervisors shall not grant any certificate of qualification for aid under the provisions of this chapter or Chapter 5 of this part until it has been satisfied that the applicant is entitled to such aid by the evidence of one reputable citizen of the state that he knows that the applicant has the required residential qualifications to entitle him to the aid asked for, or, in case such citizen is not available, then by such other evidence as is acceptable to the department, and by the evidence of a duly licensed and practicing physician skilled in the diseases of the eye or of a duly licensed and practicing physician skilled in neurology or psychiatry or of a duly licensed and practicing optometrist that the applicant is blind. The physi-

cian skilled in the diseases of the eye shall describe the condition of the applicant's eyes and testify to the degree of his blindness. Whenever a physician skilled in the diseases of the eye is unable to find sufficient pathology to account for the degree of visual impairment claimed by the applicant, and whenever such physician skilled in the diseases of the eye shall recommend a further examination by a physician skilled in neurology or psychiatry, the applicant shall have the right to be examined by a physician skilled in neurology or psychiatry, who shall determine whether the degree of visual impairment claimed by the applicant is substantiated by the results of a neurological or psychiatric examination. The duly licensed and practicing optometrist shall testify to the degree of the applicant's blindness. The cost of such examination shall be paid entirely by the county in the same manner as other expenses of the county are paid. The evidence of each person shall be in writing, signed by him, and he shall be subject to cross-examination by the board of supervisors or any other person appointed by the board of supervisors to conduct such investigation.

The department may appoint an advisory committee of six optometrists, which shall serve in a consulting capacity, and which shall make recommendations and give advice to the department on rules and regulations governing all questions relating to the services of optometrists under this chapter and under Chapter 5 of this part. Each member of the committee shall be appointed for a term of two years. The members of the committee shall receive no compensation for their services but shall be allowed their actual traveling expenses incurred in the discharge of their duties.

The department shall make rules and regulations to prescribe the qualifications, number, and geographical distribution of such physicians and optometrists as are necessary to carry out the eye examinations provided under this chapter and Chapter 5 of this part.

12560. The county shall review annually the case of every person receiving aid under this chapter to determine whether he will be eligible for aid under Chapter 5 of this part during the ensuing year period. The review shall include consideration in detail of the work capacity of the recipient and employment opportunities in the county. The determination by the county as to the chapter under which it is to grant aid shall be subject to review by the department upon appeal by the applicant or upon request of the department.

The department shall establish and maintain procedures to insure that determinations by counties are based on accurate appraisals of the work capacity of the recipient and employment opportunities in the county.

12561. Funds for readers, or an educational scholarship, or both, which are not available to meet basic needs and which have been awarded by a high school, college, or university to any recipient of aid under this chapter while he is regularly attending any public school in this state, the University

of California, or any other institution of higher learning in this state, shall not be deemed property, income, or resource of the recipient for any purpose and no deduction therefor shall be made from the recipient's amount of aid.

12562. Notwithstanding any other provisions of this chapter or of Chapter 5 of this part, any recipient who has a plan for achieving self-support may retain, beginning July 1, 1963, such additional amounts of other income and resources as may be necessary for the fulfillment of such plan for a period not to exceed 12 months or such other period as may be authorized by federal law or regulations.

Article 3. Relatives' Responsibility

12600. No relative shall be held legally liable to support or to contribute to the support of any applicant for or recipient of aid under this chapter or Chapter 5 of this part. No relative shall be held liable to defray in whole or in part the cost of any medical care or hospital care or other service rendered to the recipient pursuant to any provision of this code if he is an applicant for or a recipient of aid under this chapter or Chapter 5 of this part at the time such medical care or hospital care or other service is rendered.

Notwithstanding the provisions of Section 206 of the Civil Code, or Section 270c of the Penal Code, or any other provision of this code, no demand shall be made upon any relative to support or contribute toward the support of any applicant for or recipient of aid under this chapter or Chapter 5 of this part. No county or officer or employee thereof shall threaten any such relative with any legal action against him by or in behalf of the county or with any penalty whatsoever.

Article 4. Computation and Payment of Aid

12650. Any applicant shall be entitled to an amount of aid which, when added to the income of the applicant from all other sources, equals one hundred twenty dollars ($120) per month, plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1960.

The amount of the grant as set forth in this section and Section 12651 shall be adjusted annually by the department to reflect any increases or decreases in the cost of living occurring after January 1, 1960. The average of the separate indices of cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics, shall be used as the basis for determining the changes in the cost of living. Whenever the cost of living increases or decreases by a percentage which when multiplied by one hundred fifteen dollars ($115) results in a product of one dollar ($1) or more, this product adjusted to the nearer dollar amount shall be added to or subtracted from the monetary amount specified in the preceding paragraph and to the corresponding figure specified in

Section 12651. The resultant sum shall be declared by formal action of the department to be the monthly grants payable under this section and Section 12651, respectively. In giving effect to the cost-of-living feature of this section the department shall select a base month for computation of the percentage change in the cost of living since January 1, 1960. The same month shall be used annually thereafter. The ordered change in maximum grant shall become effective on the first day of the month following the expiration of a ninety (90) day period following the date of the formal action of the department directing the change.

In any case where it is found that the need of an applicant exceeds the maximum provided by this section, an additional amount of aid shall be paid as provided by Section 12651 of this code.

The department may provide by rule that any change in grant for an amount of two dollars ($2) or less may be delayed for not more than two months beyond the month in which the recipient reported the change in circumstances.

12651. Any recipient whose need exceeds the amount of the maximum grant payable under Section 12650 of this code shall be entitled to receive an additional amount as necessary to meet his need, but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month, plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1960.

The additional amount granted by this section is intended to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients, which are not included or not adequately covered by the allowance provided by Section 12650.

12652. If the physical condition of a recipient of aid under this chapter or Chapter 5 of this part is such that he requires the services of a full-time or part-time attendant or other special services, he shall be entitled to an additional grant in an amount sufficient to enable him to pay for those services, but not to exceed three hundred dollars ($300) in any month. The grant payable to a recipient under this section shall not be considered in computing the grant payable to the recipient under Sections 12650, 12651, 13100 and, 13101 of this code, and shall not be subject to the monetary limitations set forth in those sections.

12653. Any recipient of aid under this chapter or Chapter 5 of this part who is ineligible, by reason of age, for medical assistance for the aged shall be entitled to the same inpatient benefits as are provided for persons receiving medical assistance for the aged, which shall be provided to the recipient under the provisions of Chapter 7 of this part.

12654. For the purposes of Section 12650 and Section 12651, earnings or other income of an applicant shall not be considered, and shall not be deducted from the amount of aid to which the applicant would otherwise be entitled. The prop-

erty of the applicant shall not be considered in determining his eligibility for aid.

This section shall become operative if and when amendments to the federal statutes or rules and regulations of the United States Department of Health, Education, and Welfare take effect permitting this state to give effect to this section without thereby rendering this state ineligible to receive federal grants-in-aid for assistance or aid to the blind of this state, and to the extent to which those statutes or rules and regulations permit it to be given effect.

12655. Free board and lodging supplied to an applicant because of his necessity therefor, prior to receipt of aid under this chapter or Chapter 5 of this part, shall not be grounds for refusing aid; notwithstanding any other provisions of this chapter, free board and lodging and other items of need furnished free under this chapter shall constitute income to the recipient in computing the grant pursuant to Sections 12650, 12651, 13100, and 13101, respectively. However, such free items shall not be evaluated at an amount higher than specified for such items in the assistance standard established by the department. This section shall not apply to medical services provided pursuant to Chapter 7 of this part.

12656. Notwithstanding any other provision of this chapter or Chapter 5 of this part, whenever a former recipient of aid under this chapter or Chapter 5 of this part, whose aid has been canceled or discontinued for any cause, requests restoration of aid before the expiration of one year from the date of such cancellation or discontinuance, and if it is determined that he is eligible therefor, aid shall be granted to him beginning not later than the first day of the month immediately following the date of such request for restoration, and no new application shall be required.

12657. Lump sum income received by a recipient, which has accrued over a period of two or more months and may be expected to be repeated in the future, shall be utilized by the recipient to meet his needs. No portion thereof shall be considered as personal property. Provisions of this section shall not apply to earned income which is exempt under Section 11008.

12658. For the purposes of this chapter and Chapter 5 of this part, an applicant's share of his wife's community income shall be determined in accordance with the rules contained in Sections 3088 and 3474.

12659. The occupancy value of a home owned and occupied by a recipient of aid under this chapter or Chapter 5 of this part shall not be considered income or resources of the recipient, and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

12660. Payment of aid under this chapter or Chapter 5 of this part shall be made promptly and shall be commenced as of the first day of the month in which the application is granted, unless otherwise directed by the department in cases

in which an appeal is taken; aid shall not commence prior to the date of application, unless otherwise directed by the department in cases in which an appeal has been taken on the ground that the county has refused to accept a signed application for aid.

All payments of aid under this chapter or Chapter 5 of this part shall be made monthly in advance and shall be paid as of the first day of each month. The warrant shall be placed in the mail in time for delivery on the first postal delivery day of each month.

Article 5. Termination and Recovery of Aid

12700. The board of supervisors may, for cause, and upon instructions so to do by the department, shall cancel, suspend, or revoke aid. Upon request of the department, an immediate report of every suspension shall be made to the department stating the reason for the suspension and showing the action of the board of supervisors in approving the suspension.

12701. The department may, on behalf of the state, at any time inquire into the management by any county of aid to blind persons under the provisions of this chapter and Chapter 5 of this part. The Division for the Blind shall have its own staff to supervise the administration of aid to the blind and aid to the potentially self-supporting blind, and all employees of the division shall be responsible to the Chief of the Division for the Blind irrespective of their headquarters.

If at any time the department has reason to believe that aid to the blind or aid to the potentially self-supporting blind has been obtained improperly, it shall cause special inquiry to be made and may suspend payment for any installment pending the inquiry. It shall notify the board of supervisors of such suspension. If it appears, upon the inquiry, that the aid has been obtained improperly, it shall be canceled by the department, and if it appears that aid was obtained properly, the suspended payment shall be payable

Any person dissatisfied with the action of the department in suspending or canceling aid may appeal to the department and upon such appeal shall be granted an opportunity for a fair hearing.

Any county which refuses, upon due demand, to permit such inquiry or to comply with any provision of this chapter or Chapter 5 of this part, shall not thereafter receive any aid or reimbursement from the state under the provisions of this chapter or Chapter 5 of this part until it has complied with all the requirements of this chapter or Chapter 5 of this part.

12702. Whenever moneys collected from recipients in repayment of aid granted under this chapter or under Chapter 5 of this part have been collected erroneously, because of mistake of law or fact, refunds shall be made as provided in this section.

Upon investigation and a finding by the county that the repayment of aid was made and collected erroneously, the county shall refund to the recipient the amount of the county and state shares of the repayment, and the state shall allow to the county in computing the amounts payable to the county a credit for any amount of such refund which has previously been credited to the state. If the United States government pays or credits to the state the amount of the repayment which has been credited to the United States government, the state shall allow a credit to the county in the amount of the credit received by the state from the United States government, and the county shall refund to the recipient the amount so credited to the county.

Article 6. Treatment of Blindness

12750. The department may provide for treatment or operations to prevent blindness, or restore vision to applicants for or recipients of aid to the blind under this chapter or Chapter 5 of this part, who voluntarily request and make written application for such treatment or operation.

This service shall be extended only to those persons whose age and physical and mental condition will make such physical rehabilitation profitable to the individual, shown by the findings of the physician in the report of the eye examination to be eligible for such treatment, and recommended for such treatment after a full investigation of each case by the advisory committee of ophthalmologists or by an ophthalmologist who has been designated by the advisory committee.

The treatment or operation recommended shall be given at any hospital or clinic designated by the advisory committee, and necessary traveling expenses shall be allowed as part of the expense of the treatment. The department shall reimburse the county or the eye patient for all necessary expenses incurred in connection with the diagnosis and treatment. Necessary expenses shall include the costs of guide service, maintenance while the patient is away from his home, transportation to the eye physician or hospital and return to his home, and the cost of nursing home care when such care is necessary.

Article 7. Loans to Blind Persons

12800. There is in the State Treasury a permanent revolving fund, in the amount of thirty-five thousand dollars ($35,000), to be known as the Revolving Loan Fund, and to be administered by the department. The fund shall be used to make loans to recipients of aid under this chapter or Chapter 5 of this part, at a rate of interest not to exceed 3 percent per year, to enable those recipients to establish themselves in businesses, professions, or other gainful employment, including, but not limited to self-employment. No loan in excess of five

thousand dollars ($5,000) shall be made to any individual under this section.

The department shall establish the terms and conditions of loans made pursuant to this section, and shall prescribe the procedure to be followed in making application for such loans. All funds received in repayment of loans made pursuant to this section shall be deposited in the Revolving Loan Fund, and shall be available for the making of additional loans as provided in this section.

In no event shall the amount expended in any fiscal year from the Revolving Loan Fund exceed the amount saved by the state as a result of discontinuance of aid due to the earnings of persons during the preceding fiscal year.

Article 8. Penalties

12850. Any person who, in order to secure for himself or another the aid provided in this chapter or Chapter 5 of this part, makes a false statement under oath, shall be deemed guilty of perjury. Whenever any person has, by means of false statement or representation or by impersonation or other fraudulent device obtained aid under this chapter or Chapter 5 of this part, he shall make restitution and all actions necessary to secure restitution may be brought against him.

It is the intent of the Legislature that restitution shall be sought by request, civil action, or other suitable means prior to the bringing of a criminal action.

CHAPTER 5. AID TO THE POTENTIALLY SELF-SUPPORTING BLIND

Article 1. General Provisions

13000. The purpose of this chapter is to provide a plan for this state whereby the blind residents of this state may be encouraged to take advantage of and to enlarge their economic opportunities, to the end that they may render themselves independent of public assistance and become entirely self-supporting.

To achieve this objective, resources and income beyond the necessities of bare decency and subsistence are required. This chapter, by allowing the retention of necessary income and resources by those of the blind showing a reasonable probability of being able and willing to undertake the acquisition of resources and income necessary for self-support, will encourage them in their efforts to become self-supporting.

Aid granted under this chapter shall be known as aid to the potentially self-supporting blind.

13001. As used in this chapter, "blind persons" means any person who by reason of loss or impairment of sight is unable to provide himself fully with the necessities of life and who has not income and resources through his own means, as de-

fined under this chapter, sufficient to provide a reasonable and decent standard of living.

13002. Whenever any aid under this chapter is refunded to a county, the state shall be entitled to a share of the amount received, proportionate to the amount of state funds paid.

13003. Unless otherwise expressly provided in this chapter, all provisions of this code applicable to the powers and duties of the department and the counties with respect to the blind shall apply to the powers and duties of the department and the counties with respect to aid under this chapter.

Article 2. Eligibility for Aid

13050. No applicant shall receive aid under the provisions of this chapter while he is an inmate of any institution supported in whole or in part by the state or any of its political subdivisions, but recipients of aid under the provisions of this chapter who are patients in a public hospital for a period not exceeding two calender months, and blind persons employed in a shop maintained by the state when such shop does not provide board and room to the employee, shall not be considered inmates of public institutions No applicant shall be denied the aid provided for in this chapter, however, because he is attending or intends to attend any public high school in this state, the University of California, or any other institution of higher learning in this state.

Any such inmate, however, may make an application for aid under this chapter and have his application investigated and acted upon without delay, in the same manner as applications of other persons are acted upon, while he is such an inmate, and, if he is otherwise qualified under the terms of this chapter, such application shall be approved. The aid shall be granted to him from the first day of the month in which the determination is made that he is eligible, but in no event shall the aid commence prior to the date of application.

The applicant may remain an inmate until he receives his first monthly payment, whereupon he shall cease to be such inmate.

If on the first day of the month a recipient of aid is eligible for aid though an inmate of an institution or hospital, he is entitled to receive aid for the month.

If a recipient of aid becomes ineligible for aid due to confinement in an institution or hospital, the order of the board of supervisors suspending his aid may provide that the aid shall be restored when the recipient ceases to be an inmate, without further order from the board of supervisors.

13051. Aid shall not be received under the provisions of this chapter by any person who owns, in addition to property authorized by Article 4 (commencing with Section 11150) of Chapter 1 of this part, personal or real property, or both, the county-assessed valuation of which, less all encumbrances

thereon of record, is in excess of five thousand dollars ($5,000). Aid shall not be denied under the provisions of this chapter to any blind person with a plan for achieving self-support on the ground that he owns personal property in addition to that authorized in Article 4 (commencing with Section 11150) of Chapter 1 of this part; provided, that such additional property is necessary to implement his plan for achieving self-support; and provided, that the county-assessed valuation of such additional personal property does not exceed five thousand dollars ($5,000).

13052. For the purposes of this chapter and Article 4 (commencing with Section 11150) of Chapter 1 of this part, as the latter applies to recipients of aid under this chapter, the term personal property does not include interment plots as defined in Section 7022 of the Health and Safety Code, nor money placed in trust or insurance for funeral or interment expenses or similar purposes, nor any contract rights connected therewith if such money, insurance, or contract rights do not exceed five hundred dollars ($500) in value.

13053. The term "personal property" shall not include a policy or policies of life insurance on the life of the applicant or recipient, which has or have been in effect at least five years prior to the date of application, if the value of the policy or policies at maturity is in an amount not exceeding one thousand dollars ($1,000).

13054. No life insurance policy shall be valued at more than its present surrender value to the applicant or recipient. Premiums paid on life insurance policies shall not be deemed income or resources of the applicant or recipient, whether or not the person by whom the premiums are paid is a relative of the applicant or recipient, and no deduction therefor shall be made from the amount of aid granted to the recipient.

13055. Funds for readers, or an educational scholarship, or both, which have been awarded to any recipient of aid under this chapter shall not be deemed property, income, or a resource of the recipient for any purpose and no deduction therefor shall be made from the recipient's amount of aid.

13056. An applicant for aid under this chapter shall prove that he is able to secure and willing to use resources and income he is permitted to retain under this chapter for the purposes of achieving self-support.

The county shall determine whether the applicant has the qualifications necessary for aid under this chapter and may, despite his application, deny him aid under this chapter, and, if eligible thereunder, grant him aid to the blind under Chapter 4 of this part.

Article 3. Computation and Payment of Aid

13100. Any applicant shall be entitled to an amount of aid which, when added to the income of the applicant from all

other sources, equals one hundred twenty dollars ($120) per month.

The amount of the grant as set forth in this section and Section 13101 shall be adjusted annually by the department to reflect any increases or decreases in the cost of living occurring after January 1, 1960. The average of the separate indices of cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics, shall be used as the basis for determining the changes in the cost of living. Whenever the cost-of-living increases or decreases by a percentage which when multiplied by one hundred fifteen dollars ($115) results in a product of one dollar ($1) or more, this product adjusted to the nearer dollar amount shall be added to or subtracted from the monetary amount specified in the preceding paragraph and to the corresponding figure specified in Section 13101. The resultant sum shall be declared by formal action of the department to be the monthly grants payable under this section and Section 13101, respectively. In giving effect to the cost-of-living feature of this section, the department shall select a base month for computation of the percentage change in the cost of living since January 1, 1960. The same month shall be used annually thereafter. The ordered change in maximum grant shall become effective on the first day of the month following the expiration of a ninety (90) day period following the date of the formal action of the department directing the change.

In any case where it is found that the need of an applicant exceeds the maximum provided by this section, an additional amount of aid shall be paid as provided by Section 13101 of this code.

Annual net income from any of the following sources of a combined total value not exceeding one thousand five hundred dollars ($1,500), increased by one-half of that part of the recipient's annual income which is in excess of one thousand five hundred dollars ($1,500), shall not be considered for any purpose:

(a) Income from applicant's labor or services;

(b) The value of foodstuffs produced by the applicant or his family for his use or that of his family;

(c) The value of firewood or water, or both, produced on the premises of the applicant or given to him by another for the applicant's use;

(d) The value of gifts;

(e) The value of the use and occupancy of premises owned and occupied by the applicant;

(f) The net income from real and personal property owned by the applicant.

Income in addition to the above specified shall be computed on the basis of net income. For the purpose of enabling and encouraging a greater number of recipients of aid under this chapter to become self-supporting, all expenditures incurred

by an applicant for or a recipient of aid under this chapter in effecting his plan to become self-supporting, including payments made for the purchase of material for fixtures and equipment needed by him in effecting such plan, shall be deducted from gross income in computing his net income for purposes of this chapter; provided, such payments shall not be more than one hundred dollars ($100) per month.

13101. Any recipient whose need exceeds the amount of the maximum grant payable under Section 13000 of this code shall be entitled to receive an additional amount as necessary to meet his need, but in no event shall the sum of his grant and income exceed one hundred seventy dollars ($170) per month, plus any adjustment reflecting cost-of-living changes subsequent to January 1, 1960.

The additional amount granted by this section is intended to provide additional aid to persons with needs arising because of circumstances and situations not common to all recipients, which are not included or not adequately covered by the allowance provided by Section 13100.

13102. If, when, and during such times as the amount of the grant of aid to the blind provided by Chapter 4 of this part is increased or decreased, pursuant to Section 11012, the maximum grant provided by this chapter shall be increased or decreased by an amount equal to such increase or decrease in the grant of aid to blind persons under Chapter 4 of this part, but in no event shall the maximum grant under this chapter be decreased by operation of this section below one hundred twenty-two dollars ($122) per month.

It is the intent of the Legislature that should the federal government require that any increase in assistance to the blind in this state granted by it after November 1, 1956, be considered necessary to meet medical or health needs of the applicant or recipient, an increase in aid to the potentially self-supporting blind resulting therefrom shall be considered necessary to meet the medical or health needs of applicants or recipients.

CHAPTER 6. AID TO THE NEEDY DISABLED

Article 1. General Provisions

13500. It is the object and purpose of this chapter to provide persons whose dependency results from disability defined by Section 13501 with assistance and services which will encourage them to make greater efforts to achieve self-care and self-support and to enlarge their opportunities for independence.

In supervising the administration of this chapter, the department shall encourage the rehabilitation or employment of the recipient if it appears that with proper care and training such person may become more self-sufficient.

The department and the Department of Rehabilitation shall jointly develop plans for the orderly processing of cases re-

ferred to the Department of Rehabilitation for a determination of feasibility and planning for vocational rehabilitation.

The department and the State Department of Employment shall jointly develop plans for the orderly processing of cases referred to the Department of Employment.

The policy shall be followed of granting aid to the recipient in his own home or in some other suitable home of his own choosing, in preference to placing him in an institution.

Aid grant under the provisions of this chapter shall be known as aid to the disabled.

13501. When used in this chapter, the following words shall have the meanings ascribed to them in this section:

(a) "Needy disabled person" means a person who meets the eligibility requirements set forth in this chapter and who is both permanently impaired and totally disabled.

(b) "Permanently impaired" means that the individual has a major physical or a major mental impairment, or a combination of both, which is verified by medical findings and appears reasonably certain to continue throughout the lifetime of the individual without substantial improvement.

(c) "Totally disabled" means that the impairment substantially precludes the individual from engaging in useful occupations within his competence, such as holding a job or homemaking. Employment in a sheltered workshop or under an approved vocational rehabilitation plan shall not be considered a "useful occupation" for purposes of this chapter.

13502. All aid granted under the provisions of this chapter is granted and held subject to the provisions of any law hereafter enacted amending, repealing, or supplementing in whole or in part the provisions of this chapter, and subject to the rules and regulations of the department. No recipient under this chapter shall have any claim for compensation or otherwise because his aid is affected in any way by any such amending, repealing, or supplemental act, or by any such rule or regulation or by any addition, amendment, or repeal of such rules and regulations.

13503. Nothing in this chapter shall be construed as repealing any law or part of a law providing for the support of the poor except insofar as inconsistent therewith, and the provisions of this chapter shall be construed as an additional method of supporting and providing for the needy disabled.

13504. The Governor of the State of California may enter into and execute on behalf of this state all necessary agreements in connection therewith, which may be required by the United States government. Any money refunded under the provisions of this chapter shall be paid to the county, to the state, and to the United States government. The federal government shall be entitled to a share of any amounts collected from recipients or from their estates proportionate to the amount of federal funds paid, which proportionate share may be specified by the department. The amount due the United

States shall be paid promptly by the state to the United States government and the remainder shall be paid to the county and the state in the proportion that each may have contributed to the aid granted.

13505. Aid shall be granted under this chapter only for and during such time as grants-in-aid are provided or made available to the state by the Social Security Act or other federal legislation for aid to the disabled on the basis of a state plan which has been approved by the federal government.

13506. No rule or regulation of the department shall be adopted or continued in force the operation of which results in discrimination against treatment by prayer or spiritual means in the practice of the religion of any bona fide church, sect, denomination, or organization.

13507. The department shall appoint an advisory committee consisting of not more than nine persons, which shall serve in a consulting capacity. The members of the committee shall receive no compensation for their services but shall be allowed their actual traveling expenses incurred in the discharge of their duties. The committee shall make recommendations and give advice to the department on the medical and rehabilitative aspects of aid to the disabled under this chapter.

13508. No applicant for or recipient of aid under this chapter shall be required to pay any part of the cost of any examination required under this chapter or the rules and regulations made thereunder for the granting or continuance of aid. The costs of all such examinations shall be paid by the county in the same manner as other expenses of the county are paid.

Article 2. Eligibility for Aid

13550. Aid shall be granted under this chapter to any needy disabled person who comes within all of the following descriptions:

(a) Who has attained the age of 18 years.

(b) Who resides in the state and has so resided for at least one year immediately preceding the date of application and for at least three years within the nine years immediately preceding the date of application, has become disabled while a resident of this state, or is eligible under the terms of a reciprocal agreement entered into by the department with another state.

(c) Who has not made any voluntary assignment or transfer of property for the purpose of qualifying for aid.

(d) Who is not at the time of receiving such aid a patient in an institution for tuberculosis or mental disease, a patient in a medical institution as the result of a diagnosis of tuberculosis or psychosis, an inmate of a public institution of a custodial (nonmedical), penal, or correctional character, or an inmate in a federal medical institution. Any such inmate or patient, however, may make an application for aid under this

chapter and have his application investigated and acted upon without delay, in the same manner as applications of other persons are acted upon, while he is such an inmate or patient, and, if he is otherwise qualified under the terms of this chapter, such application shall be approved. The aid shall be granted to him from the first day of the month in which the determination is made that he is eligible, but in no event shall the aid commence prior to the date of the application. The applicant may remain an inmate or patient until he receives his first monthly payment, whereupon he shall cease to be such inmate or patient.

(e) Who is not receiving adequate support from a husband or wife, or parent, or child.

13551. An applicant or recipient who is a patient in a public medical institution, who is otherwise eligible under this chapter, is entitled to receive aid.

Notwithstanding any other provision of this chapter, payment may be made in behalf of the recipient directly to the public medical institution except for the allowance for personal and incidental needs as provided in the standard of assistance established by the department. Wherever it is necessary, the county shall assist the recipient to make full use of his personal and incidental needs allowance to obtain items which will add to his comfort and contentment while under care in the public medical institution

If a person enters the public medical institution as a recipient, payment directly to such institution shall not be made for a period prior to the first calendar month following the expiration of 60 days.

Payment to the institution under this section shall not be made in advance of furnishing the care. If a recipient leaves the institution during the month and remains on aid, the full monthly grant shall be paid to the recipient.

13552. No aid shall be granted under this chapter to any alien who has been convicted of an overt act against the government of the United States.

13553. No aid shall be granted under this chapter to any individual with respect to any period with respect to which he is receiving old age security, aid to the blind, aid to the potentially self-supporting blind, or aid to families with dependent children.

13554. Any person who qualifies for medical assistance for the aged, and who is confined as an inpatient in a hospital or nursing home, shall be presumed to be a needy disabled person within the meaning of Section 13501 of this code.

13555. The department shall make the final determination as to permanent impairment and total disability.

13556. The county shall upon application, and periodically as required, submit a complete report, with a recommendation as to eligibility, of the medical information and other essential facts relative to the determination of permanent impairment and total disability to the department for decision.

If the department finds the person to be disabled in accordance with the definitions set forth in Section 13501, the county shall, if the person is otherwise eligible, authorize aid as soon as administratively possible.

Article 3. Relatives' Responsibility

13600. No relative shall be held legally liable to support or to contribute to the support of any applicant for or recipient of aid under this chapter. No relative shall be held liable to defray in whole or in part the cost of any medical care or hospital care or other service rendered to a recipient pursuant to any provision of this code if he is an applicant for or a recipient of aid under this chapter at the time such medical care or hospital care or other service is rendered.

Notwithstanding the provisions of Section 206 of the Civil Code or Section 270c of the Penal Code, or any other provision of this code, no demand shall be made upon any relative to support or contribute toward the support of any applicant for or recipient of aid under this chapter. No county or officer or employee thereof shall threaten any such relative with any legal action against him by or in behalf of the county or with any penalty whatsoever.

Article 4. Work and Vocational Training

13650. The provision of useful work experience and constructive training for disabled recipients is a matter of statewide concern. Insofar as practical, each county department shall establish a community work experience and vocational training program for disabled persons for whom such experience and training is deemed desirable as part of a self-help plan.

Such programs shall be conducted in accordance with standards and regulations established by the department as desirable and necessary to qualify for such federal funds as are available.

The cost of materials, equipment and supervision provided by agencies cooperating with the county department in community work experience and training programs shall not be charged as an administrative expense under this chapter or with respect to other public assistance programs.

Projects developed under this section shall be confined to projects which serve a useful public purpose, do not result either in displacement of regular workers or in the performance of work that would otherwise be performed by employees of public or private agencies, institutions, or organizations, and (except in cases of projects which involve emergencies or which are generally of a nonrecurring nature) are of a type which has not normally been undertaken in the past by the state or community, as the case may be.

Article 5. Computation and Payment of Aid

13700. For needy disabled persons qualifying for aid under the provisions of this chapter, there shall be paid an amount equivalent to the actual needs of the recipient as set forth in this section, but not to exceed an average grant computed statewide for all recipients of aid under this chapter of one hundred dollars ($100) per month. In the event the average grant per recipient exceeds an amount of one hundred dollars ($100), the department shall take immediate steps to reduce or curtail payments for attendant services or other special services arising from their disability to the end that the monthly average per recipient for the full fiscal year does not exceed one hundred dollars ($100).

The department shall establish a standard of assistance, within the limits set forth in this section, which will enable each recipient to maintain himself in decency and health. The department shall establish a standard to cover actual needs, common to all persons. Within the limit of the average grant set forth in this section, the department may provide for payment of an additional sum to those recipients whose physical or mental condition is such that they require the services of a full- or part-time attendant or other special services. In determining whether an applicant or recipient is entitled to receive payment for attendant or other special services, the scale set forth in Section 12101 of this code shall be used to determine his share of his spouse's community income that is available to meet his needs for such services. Allowance for attendant services shall not be made when rendered by a responsible relative with whom the recipient is living.

The department shall give priority to persons in the greatest need without replacing other public or private resources which can provide the services. Voluntary contributions or grants from other public sources, private agencies, friends or relatives which are specifically and solely provided for such attendant services and which would not otherwise be available shall not be considered as applying toward the actual needs of said recipient.

The department may provide by rule that any change in grant for an amount of two dollars ($2) or less may be delayed not more than two months beyond the month in which the recipients reported the change in circumstances.

13701. The amount of the average grant set forth in Section 13700 shall be adjusted annually by the department to reflect any increases or decreases in the cost of living occurring after January 1, 1964. The average of the separate indices of the cost of living for Los Angeles and San Francisco, as published by the United States Bureau of Labor Statistics, shall be used as the basis for determining the changes in the cost of living.

In giving effect to the cost-of-living provisions of this section, the department shall select a comparison month for computation of the percentage change in the cost of living after January 1, 1964. The same month shall be used annually thereafter. The determination of whether an adjustment is to be made, and the amount of such adjustment, shall be made by comparing the average index for the comparison month with the average index for January 1, 1964 The product of any percentage increase or decrease in the average index and one hundred dollars ($100) shall be adjusted by the dollar amount of any cost-of-living change currently in effect pursuant to the provisions of this section. If the resultant amount, when adjusted to the nearer dollar, is one dollar ($1) or more, it shall be added to or subtracted from the maximum average grant currently in effect under Section 13700. The resultant sum shall be declared by formal action of the director to be the maximum average grant payable under Section 13700.

The maximum average grant established by this action shall become effective on the first day of the month following the expiration of a 90-day period following the date of the formal action of the director.

13702. In order to assist a disabled recipient unable to manage his cash grant, aid under this chapter may be paid in kind, wholly or in part, or to a guardian, conservator or other responsible person designated in accordance with regulations of the department to act in his behalf. Such method of payment may only be used when it is determined by the county director that the recipient is mismanaging or is unable to properly manage aid payments in cash. The department shall make regulations for the payment of aid under this section and for the selection of designated representatives so that aid in kind will be used only in cases wherein it is shown to be necessary.

Aid under this section shall be paid in accordance with the standards prescribed by Section 13700 of this code. The cost of aid shall be borne by the state and county in the same proportion and up to the same maximums as those specified for state-county participation in aid as set forth in Sections 13700 and 15204 of the code Aid granted under provisions of this section shall be paid without federal participation whenever federal funds are not provided by the laws of the United States or rules and regulations promulgated thereunder.

Article 6. Termination and Recovery of Aid

13750. The county, at any time when it appears to its satisfaction after investigation, that a person is receiving aid to which he is not entitled, or receiving aid in a greater or lesser amount than he should receive, may cancel, suspend, revoke, increase, or decrease such aid as the case may warrant under the terms of this chapter and the rules and regulations made thereunder.

Article 7. Penalties

13800. Any person who, knowing he is not entitled thereto, obtains or attempts to obtain aid to which he is not entitled, or a larger amount than that to which he is legally entitled, is guilty of a misdemeanor.

Whenever any person has illegally obtained aid under this chapter, he shall make restitution, and all actions necessary to secure restitution may be brought against him.

13801. Any person who knowingly violates any provision of this chapter for which no penalty is specifically provided is guilty of a misdemeanor.

Chapter 7. Medical Care for Public Assistance Recipients

Article 1. General Provisions

14000. The purpose of this chapter is to provide medical services or other remedial care to a recipient of public assistance who is unable from his own resources to provide such required services or care.

14001. Medical care provided under this chapter may include diagnostic, preventive, corrective, and curative services and supplies essential thereto, provided by qualified medical and related personnel for conditions that cause suffering, endanger life, result in illness or infirmity, interfere with capacity for normal activity including employment, or for conditions which may develop into some significant handicap.

Medical care shall include, but is not limited to, other remedial care, not necessarily medical. Other remedial care shall include, without being limited to, treatment by prayer or healing by spiritual means in the practice of the religion of any church or religious denomination.

14002. Nothing in this chapter shall be construed as repealing any act or part of an act providing for the support of the poor except insofar as inconsistent therewith, and the provisions of this chapter shall be construed as an additional method of providing medical services or remedial care to recipients of public assistance.

14003. All service or care granted under the provisions of this chapter is held subject to the provisions of any law hereafter enacted amending, repealing, or supplementing in whole or in part the provisions of this chapter, and subject to the rules and regulations of the department. No recipient of service or care under this chapter shall have any claim for compensation or otherwise because his service is affected in any way by any such amending, repealing, or supplemental act, or by any such rule or regulation or by any addition, amendment, or repeal of such rules or regulations.

14004. The Governor may enter into and execute in behalf of the state all necessary agreements in connection with this chapter as may be required by the United States government.

14005. If any individual in good faith adheres to the teachings of any bona fide church, sect, denomination, or organization, and in accordance with its principles depends for healing entirely upon prayer or spiritual means, no medical examination shall be required to receive remedial care authorized by this chapter, but in lieu thereof the certificate of a practitioner of such bona fide sect, denomination, or organization approved and authorized by the department, shall be accepted as to the need of such individual for service. No rule or regulation shall be adopted or continued in force which discriminates against such an individual.

14006. Services shall be provided under this chapter to any recipient of public assistance, except that no recipient shall be required to accept such services.

14007. The degree of liability of relatives to support recipients of public assistance shall not be increased as a result of the services provided such recipients under this chapter. Liability for such support shall be determined in accordance with the laws and regulations of the respective public assistance programs under which eligibility is determined.

14008. The provisions of Section 11004 of this code shall be applied in determining the liability of any person to repay the cost of medical services received by him during any period of time he was ineligible to receive public assistance.

Article 2. Administration

14050. The administration of this chapter shall be carried out by the same agents as are authorized by the several boards of supervisors to administer the public assistance programs.

14051. The authorization of the board of supervisors awarding public assistance to a recipient shall be considered authorization for any medical services provided by this chapter, which the recipient may require and be qualified to receive under provisions of this chapter and the rules and regulations of the department.

14052. In order to provide the maximum services possible within the funds available, the department may contract with one or more public or private agencies, or nonprofit membership corporations lawfully operating under Section 9200 or 9201 of the Corporations Code, or with medical societies or other medical groups, or with vendors of medical supplies, or private insurance companies holding valid outstanding certificates of authority from the Insurance Commissioner of this state or with nonprofit hospital service plans qualifying under Chapter 11A of Part 2 of Division 2 of the Insurance Code, under subdivision (a) or subdivision (b) of this section, or both.

(a) The department may enter into nonexclusive contracts providing arrangements under which funds available for medical care under this chapter shall be administered and

disbursed to providers of medical care in consideration for services rendered and supplies furnished by them in accordance with the provisions of the applicable contract and any schedule of charges or formula for determining payment established pursuant to such contract. No contract entered into pursuant to this subdivision shall deny to recipients of public assistance free choice of physicians willing to provide services under the terms of such contract.

(b) Notwithstanding subdivision (a) of this section, the department may contract for one or more indemnity or service-type partial or full prepayment or group payment programs to provide medical care or any aspect thereof, with any agency or organization qualified under the first paragraph of this section.

Insofar as practical, consistent with the efficient and economical administration of this chapter, the department shall afford recipients of public assistance free choice of arrangements under which they shall receive medical care, and insofar as practical, consistent with the efficient and economical administration of this chapter, at least one arrangement available to all recipients of public assistance shall afford free choice among physicians willing to provide services under the terms of a contract entered into pursuant to this section.

Nothing in this section shall prevent any county in providing services required of it under this chapter from entering into contracts with another county, with one or more nonprofit membership corporations organized and operating under Section 9200 or 9201 of the Corporations Code, with medical societies, with medical groups, or with vendors of medical supplies, except that such contracts shall comply with subdivision (a) or subdivision (b) of this section and with the scope and rules prescribed by the department.

14053. The department shall prescribe the policies and scope of the services to be provided under this chapter, and shall adopt such rules and regulations as are necessary for carrying out the provisions of this chapter and not inconsistent therewith.

In establishing the scope of medical services pursuant to this section, the department shall give priority to outpatient services which will permit an aged person to remain in his own home or some other suitable home of his own choosing, in preference to having to accept care in an institution.

14054. The department shall appoint an advisory committee consisting of not more than nine persons, which committee shall serve in a consulting capacity. Members of the committee shall be representative of organizations and groups which have had a wide range of experience in providing medical care. The members of the committee shall receive no compensation for their services, but shall be allowed their actual traveling expenses incurred in the discharge of their duties. The committee shall make recommendations and give advice to the department as to the medical needs of public assistance recipients.

14055. An authorized agent of the board of supervisors shall determine the eligibility of any recipient of public assistance to receive services as provided by the rules and regulations of the department, and, if such recipient is eligible, shall certify him to the public or private agency, nonprofit membership corporation, medical society, medical group, or private vendor designated to provide the required medical services or supplies. No recipient shall be held liable for the cost of medical care paid for under this chapter.

14056. Itemized bills for service under this chapter shall be submitted not more than six months after the month in which the service is rendered.

Article 3. Fiscal Provisions

14100. The total expenditures authorized in any fiscal year by this chapter shall not exceed the following sums:

(a) Three dollars ($3) multiplied by the sum of the 12 monthly numbers of recipients of public assistance under Chapter 2 of this part, plus six dollars ($6) multiplied by the sum of the 12 monthly numbers of needy parents or needy persons taking the place of a parent in the supervision or care of needy children receiving assistance under Chapter 2 of this part.

(b) Fifteen dollars ($15) multiplied by the sum of the 12 monthly numbers of recipients of public assistance under Chapters 3, 4, 5, and 6 of this part.

The sums appropriated pursuant to this section shall not be construed as limiting the amount of service or the period over which such service may be granted with respect to any recipient found to be eligible for care under this chapter

There is hereby appropriated, out of any money in the State Treasury not otherwise appropriated, the money necessary to pay each county for expenditures incurred by payment of bills for authorized medical care services to recipients of public assistance; the sum shall be determined as the balance after payment by each county of the amount required by Section 14101 and payment of any sums available for medical care from the federal government.

14101. Each county shall each quarter bear the cost of services and care provided adult recipients under this chapter in an amount equal to the product of one dollar ($1) multiplied by the number of recipients authorized to receive aid as of the first calendar month of each quarter under Chapters 3, 4, 5, and 6 of this part.

The count of recipients for whom the county must bear the cost pursuant to this section shall be those recipients authorized to receive aid as of the first day of the month and the count of recipients shall not be subject to change or adjustment for recipients added or discontinued during the month

14102. The department shall estimate the amount required by each county to provide medical care under this chapter. The department shall reduce its estimate by the amount to be expended by each county, and shall also indicate the amounts

to by paid from the General Fund and from the Social Welfare Federal Fund.

The estimate of amounts to be paid from the Social Welfare Federal Fund shall include:

1. For each needy child for whom federal funds are received, the sum of one dollar and fifty cents ($1.50) per month.

2. For each relative of a needy child for whom federal funds are received, the sum of three dollars ($3) per month.

3. For each recipient of aid to the blind for whom federal funds are received, the sum of three dollars ($3) per month.

4. For each recipient of aid to the needy disabled for whom federal funds are received, the sum of three dollars ($3) per month.

5. For each recipient of old age security for whom federal funds are received, the sum of three dollars ($3) per month, plus an amount equal to one-half of the medical expenditures made in behalf of each such recipient under this chapter.

14103. All necessary expenses incurred by the county in carrying out the provisions of this chapter shall be paid by the county in the same manner as other expenses of the county are paid.

14104. During such times as grants-in-aid are provided or made available by the United States government for the costs of administering the services provided by this chapter, the State Treasurer shall pay to each county from the sums so granted an amount equal to the county's proportionate share of any amount granted or made available. The department shall determine the portion of the amount so granted or made available for administrative costs to be paid to the counties, which portion for each county shall bear the same proportion to the total amount granted or made available to the state for such administrative costs as the administrative costs of that county bear to the total administrative costs of all counties and of the state.

14105. The department shall, prior to the beginning of each quarter, estimate the amount required by each county to provide medical care under this chapter, and shall certify to the State Controller the amounts estimated by it. The department shall adjust its estimates by any sum by which its estimates for any prior quarter were greater or less than the amount which should have been paid to the counties

The State Controller shall thereupon draw his warrants against the General Fund, and prior to audit or settlement by the department and the Controller, the State Treasurer shall pay to the treasurer of each county the amount certified for the county.

14106. Reports of services and expenditures under this chapter shall be presented by the respective counties at times and in the form prescribed by the department and the State Controller. The amounts approved shall be allowed as a credit to apply against advances made under Section 14105.

14107. It is the intention of the Legislature, whenever feasible, that the needs of recipients of public assistance for medical and allied care and services be met under the provisions of this chapter.

In order to accomplish this result, the State Treasurer, upon the request of the Director of Social Welfare and with the approval of the Director of Finance, shall transfer from the General Fund to such appropriation as may be made to pay for medical care pursuant to this chapter an amount, not to exceed two dollars and fifty cents ($2.50) per month for each recipient of public assistance, and, equivalent to the estimated state share of the amount per recipient per month, which would otherwise be payable to recipients as allowances for such medical care and services in their monthly grants. The expenditure of the amounts transferred hereunder is authorized in addition to that authorized in Section 14100 of this code.

14108. The cost of services and care to be borne by the county, as specified in Section 14101, shall be increased by an amount equivalent to one-sixth ($\frac{1}{6}$) of the amount transferred during the preceding quarter by the State Controller pursuant to Section 14107 of this code. The expenditure of the amount each county is required to bear under the provisions of this section is authorized in addition to that authorized in Section 14101 of this code.

CHAPTER 8. MEDICAL ASSISTANCE FOR THE AGED

Article 1. General Provisions

14500. The object and purpose of this chapter is to establish a program of medical assistance for the aged which will more adequately furnish medical care to those elderly persons who are financially unable to pay for medical and hospital care needed to preserve their health and prolong life. Insofar as it is practical to do so, the program authorized by this chapter shall be planned and administered in such a way as to supplement the financial ability of the county governments of this state to meet the health needs of aged persons who are not recipients of old age security, by utilizing to the fullest extent possible the federal funds available to this state for such aged persons under Title I of the Federal Social Security Act.

14501. As used in this chapter:

(a) "Medical assistance" means medical care, as defined in Section 14001 of this code, which is rendered in behalf of aged persons as provided by Section 14555 and the regulations of the department pursuant thereto.

(b) "Aged person" means any person 65 years of age or older who meets the following conditions:

1. Who resides in California.

4. Who is not a recipient of old age security.

14502. Whenever the term "hospital" or "nursing home" is used in this chapter, it shall be construed as referring to a medical institution as defined for the purposes of securing federal approval of plans for public assistance.

14503. Nothing in this chapter shall be construed as repealing any act or part of an act providing for the medical care or hospitalization of aged persons. The provisions of this chapter shall be considered as an additional method of providing medical care or hospitalization and supplementation to medical services or remedial care provided to aged persons under other provisions of state law.

14504. All service or care granted under the provisions of this chapter is held subject to the provisions of any law hereafter enacted, amending, repealing, or supplementing in whole or in part the provisions of this chapter, and subject to the rules and regulations of the department. No recipient of service or care under this chapter shall have any claim for compensation or otherwise because his service is affected in any way by any such amending, repealing, or supplemental act, or by any such rule or regulation or by any addition, amendment, or repeal of such rules or regulations.

14505. The Governor may enter into and execute in behalf of the state all necessary agreements in connection with this chapter as may be required by the United States government.

part of the insurance benefit program for qualified beneficiaries under Title II of the Federal Social Security Act, any aged persons eligible for such medical services shall be ineligible for any similar medical assistance as may be available under this chapter.

14508. Whenever an aged person, by virtue of other federal or state statutes or by virtue of an enforceable contract, is entitled to medical care or payment for medical care, benefits payable under this chapter shall be reduced by the amount of his entitlement. Such reduction shall not preclude the use of benefits under this chapter to supplement his entitlement to the point where his medical needs are met.

14509. If federal requirements permit a recipient of aid under this chapter to own an automobile of greater value than is permitted in the case of recipients of aid under Chapter 3 of this part, the department shall adopt the more liberal allowance in its rules and regulations.

14510. To the extent that federal sharing is available for the cost of care for the patient involved, medical care as defined and paid for under this chapter shall also include medical assistance provided in a medical institution licensed by the State Department of Mental Hygiene under Section 5700 of this code. Whenever the term "nursing home" is used in this chapter, it shall be construed to include facilities described in this section.

14511. The advisory committee appointed pursuant to Section 14054 of this code is also authorized to act in an advisory capacity to the department in relation to the medical care content of the services to be provided under this chapter.

14512. Nothing in this chapter shall be construed as imposing any control over the management of any medical care facility, except that such facility shall be required to comply reasonable standards of service in order to participate in the program provided by this chapter.

14513. No relative shall be held legally liable to support or to contribute to the support of any applicant for or recipient of assistance under this chapter.

14515. This chapter shall be known and may be cited as the Rattigan-Burton Act.

Article 2. Administration

14550 Medical assistance shall be provided under this chapter to any aged person who meets the requirements of this chapter and the regulations of the department, and who has been certified as eligible by the county agency designated by the board of supervisors to administer this chapter.

14551. The county agency established to carry out the local administrative responsibilities of the public assistance programs shall carry out the local administrative responsibilities of this chapter, except as otherwise provided by regulations of the department authorizing the board of supervisors to designate another county agency. In the event the selection of another county agency is permitted, the designation of that agency shall be made by formal resolution adopted by the board of supervisors. The designated agency shall comply with all provisions of this chapter and regulations issued pursuant thereto, and shall be responsible to the department for the administrative performance pertaining thereto.

14552. Application for certification of eligibility for medical assistance, as provided by this chapter, shall be made to the county agency designated by the board of supervisors.

14553. The county agency shall immediately and without delay determine the eligibility of an applicant for benefits provided by this chapter. The investigation of eligibility shall be conducted in accordance with standards and procedures prescribed by regulations of the department.

14554. The agency designated by the board of supervisors under Section 14551 shall determine the eligibility of any aged person to receive medical assistance as provided by this chapter and the rules and regulations of the department promulgated thereunder. Any aged person eligible to receive medical assistance under this chapter shall be certified as eligible by the county agency to the public or private agency, nonprofit membership corporation, medical society, medical group, or private vendor designated to provide the required medical assistance.

14555. The department shall establish the maximum allowances for services to be provided and shall prescribe the policies, standards, and scope of services to be provided under this chapter, and shall adopt such rules and regulations as are necessary for carrying out every provision of this chapter and not inconsistent therewith.

In establishing the scope and limitations of medical assistance to be provided pursuant to this chapter, the department shall be limited to providing medical care to an aged person who requires care in a hospital or a nursing home and outpatient care for such aged person following discharge therefrom.

Medical care includes medical assistance required in a medical facility operated or licensed by the United States, one of the several states, or a political subdivision of a state, or in a facility exempt from licensure pursuant to subdivision (c) of Section 1415 of the Health and Safety Code, or in a facility

licensed by the State Department of Public Health. Such medical care shall include the services of physicians and related personnel as well as the other inpatient services provided by the hospital or nursing home Medical assistance shall be continued, as needed, on an outpatient basis upon release from the hospital or nursing home.

A transfer from one facility to another shall not be considered as an interruption in the continuity of care.

No cost of care shall be paid for under this chapter for the first 30 days of confinement in a hospital or nursing home, except as is expressly provided elsewhere in this chapter.

Upon a showing of favorable cost experience and the approval of the State Department of Finance, the department may reduce the required period of confinement and the period for which costs of care may not be paid, but in no event shall either of these periods of time be reduced below 21 days

In adopting the schedule of maximum allowances as required by this section, the department shall not adopt a schedule which offers local public medical facilities a lesser rate of return in comparison to actual costs than is offered to nonpublic facilities. To the extent that rate schedules established for nonpublic facilities include a factor for plant depreciation or replacement, the same consideration shall be extended in determining rates for public facilities.

No cost of care shall be paid for under this chapter to a medical facility unless:

(a) It is licensed by the State Department of Public Health as a hospital within the meaning of Section 1401 of the Health and Safety Code; or

(b) It is licensed by a comparable agency in another state; or

(c) It is exempt from licensure pursuant to subdivision (c) of Section 1415 of the Health and Safety Code; or

(d) It is operated by the Regents of the University of California.

14556. The department may contract or may authorize a county to contract with one or more nonprofit membership corporations lawfully operating under Section 9200 or 9201 of the Corporations Code, or with medical societies or other medical groups, or with private insurance companies holding valid outstanding certificates of authority from the Insurance Commissioner of this state or with nonprofit hospital service plans qualifying under Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 of the Insurance Code, under subdivision (a) or subdivision (b) of this section, or both.

Insofar as practical, consistent with the efficient and economical administration of this chapter, the department shall afford aged persons free choice of arrangements under which they shall receive medical assistance, and insofar as practical, consistent with the efficient and economical administration of this chapter, at least one arrangement available to

all recipients of medical assistance shall afford free choice among physicians willing to provide services under the terms of a contract entered into pursuant to this section.

The department may establish, and revise as necessary, uniform monthly rates which may be paid under a contract pursuant to this section as partial or full prepayment for services to be rendered in behalf of aged persons under this chapter.

(a) The department may enter into nonexclusive contracts providing arrangements under which funds available for medical assistance under this chapter shall be administered and disbursed to providers of medical care in consideration for services rendered and supplies furnished by them in accordance with the provisions of the applicable contract and any schedule of charges or formula for determining payment established pursuant to such contract. No contract entered into pursuant to this subdivision shall deny to aged persons free choice of physicians willing to provide services under the terms of such contract.

(b) Notwithstanding subdivision (a) of this section, the department may contract for one or more indemnity or service-type partial or full prepayment or group payment programs to provide medical care or any aspect thereof, with any agency or organization qualified under the first paragraph of this section.

14557. The director of a county agency which administers the provisions of this chapter and also administers medical facilities may not delegate to an employee the decision to authorize or deny aid under this chapter, if he has also delegated authority to that employee to operate or participate in the operation of any such medical facility.

14558. (a) Notwithstanding the provisions of Section 14555, payment shall be made for the first 30 days of care if confinement occurs in a county hospital or in a contract hospital, or nursing home to which an aged person transfers from a county hospital or contract hospital.

(b) Payment shall be made from the first day of the month following the date on which a person enters a nursing home from his own home or a private hospital.

(c) Payment shall be made within the first 30 days of confinement in any hospital or nursing home whenever the cost of care therein exceeds two thousand dollars ($2,000).

14559. The department may provide, by regulation, for the care and treatment, or both, of a recipient, pursuant to the provisions of this chapter or Chapter 7 of this part, by or in facilities in another state in those cases where out-of-state care or treatment is rendered on an emergency basis or is otherwise in the best interests of the recipient under the circumstances.

14560. Unless otherwise specified by any contract executed in accordance with Section 14556 of this code, a certificate of eligibility issued to an aged person shall remain in effect for a period of 12 months from the date of issuance unless the

aged person dies or his circumstances change in such a manner as to render him ineligible for further assistance under this chapter.

14561. A certificate of eligibility issued to an aged person shall be authorization for payment of any services rendered under this chapter in behalf of the person, for the three months immediately prior to the month in which the application for assistance was made.

If such services were rendered in a county hospital or in a contract hospital, or in a hospital or nursing home to which the person is transferred from a county hospital or contract hospital, payment for such services shall be made as provided in Section 14604. If the service was otherwise rendered, payment shall be made as provided in Section 14603.

14562. An aged person who receives long-term hospitalization or nursing home care shall be required to apply his regular income to defray part of the cost of his care, provided, however, that he shall be allowed to retain income as provided by regulations of the department for the following purposes:

(a) Personal and incidental need while a patient.

(b) The upkeep and maintenance of his home.

(c) The support and care of his spouse, minor dependents and any disabled relative for whose support he has contributed regularly.

The department shall also issue, by regulations, general standards and criteria to be used to measure the ability of aged persons to pay part of the cost of outpatient medical assistance provided under this chapter.

14563. Any aged person who does not have sufficient income to pay for his personal and incidental expenses while receiving hospital or nursing home care under this chapter shall be provided, at county expense, with a cash drawing account from which such aged person can make withdrawals up to fifteen dollars ($15) in any month to meet his personal and incidental needs.

The cost of providing such withdrawal account pursuant to this section shall not be considered as an expenditure subject to state and federal reimbursement under this chapter. No claim may be made for repayment against the aged person or any of his relatives, and no action shall be undertaken to collect by levying a lien or other attachment against the property of such aged person or his kindred.

14564. Any recipient of assistance under this chapter, who is discharged from a hospital or nursing home, meets the eligibility qualifications for aid under Chapter 3 of this part, and otherwise has insufficient income to maintain himself until old age assistance is granted to him, shall be provided with sufficient funds, from general assistance, for the cost of his maintenance as determined by the standard of assistance for a recipient of old age assistance. If the recipient's care under this chapter was paid for by county and federal funds only, the grant payable under this section shall be paid entirely out

of county funds. If such care was paid for, in part, out of state funds, the state and county shall share in the aid grant payable under this section in the same ratio as they share in the payment of aid grants under Chapter 3 of this part.

Any recipient of assistance under this chapter who is discharged from a hospital or nursing home, and who was a recipient of aid under Chapter 4, Chapter 5, or Chapter 6 of this part, shall be entitled to have his aid grant increased or restored immediately upon his discharge from the hospital or nursing home, and no new application shall be required.

14565. Itemized bills for service under this chapter shall be submitted not more than six months after the month in which the service is rendered.

Article 3. Fiscal Provisions

14600. All necessary expenses incurred by the county in carrying out the provisions of this chapter shall be paid by the county in the same manner as other expenses of the county are paid.

14601. The total expenditures authorized in any fiscal year by this chapter shall not exceed:

(a) Three hundred eighty dollars ($380) multiplied by the sum of the 12 monthly numbers of recipients of medical assistance for the aged who received full-time care in a hospital as defined by Section 1401 of the Health and Safety Code, plus (b) twenty-seven dollars ($27) multiplied by the sum of the 12 monthly numbers of aged persons eligible to receive noninstitutional services under this chapter.

The sums appropriated pursuant to this section shall not be construed as limiting the amount of service or the period over which such service may be granted with respect to any recipient found to be eligible for care under this chapter.

There is hereby appropriated, out of any money in the State Treasury, otherwise not appropriated, the money necessary to pay each county for expenditures incurred by payment for authorized medical care pursuant to this chapter; after payment of any sums available from the federal government for the purposes of this chapter, the sum shall be determined as the balance after payment by each county of the amount required by Sections 14603 and 14604.

14602. Any federal funds received by this state for the proper and efficient administration of the medical assistance program for aged persons authorized by this chapter shall be distributed to each county in accordance with Section 14104 of this code.

14603. Each county shall bear one-fourth of the total expenditures under this chapter for the care of aged persons who are patients in a hospital or nursing home, except as is hereinafter provided.

The cost of medical assistance provided on an outpatient basis shall be borne by the state, after deducting therefrom

such federal funds as are received pursuant to Title I of the Federal Social Security Act.

14604. Until the cost of medical assistance exceeds two thousand dollars ($2,000), such assistance provided during the first 30 days in accordance with subdivision (a) of Section 14558 of this code, or during the period prior to the date of application as provided in Section 14561 of this code, shall be borne by the county, after deducting therefrom such federal funds as are received pursuant to Title I of the Federal Social Security Act.

14605. Funds shall be advanced to counties in the same manner as prescribed by Section 14105 of this code.

14606. Each county shall provide a system of recordkeeping related to the services rendered in behalf of aged persons and the expenditures made under this chapter. Reports of the services rendered and expenditures shall be presented by the respective counties at times and in the manner prescribed by the department. The amount of expenditures approved shall be allowed as a credit to apply against advances made under Section 14105 of this code.

CHAPTER 9. FINANCIAL PROVISIONS

Article 1. General Provisions

15000. Notwithstanding any provisions of Sections 29800 and 29805 of the Government Code, warrants payable to recipients of public assistance shall not include any word or abbreviation indicative of aid, assistance, charity, needy, support, or welfare. Nothing in this section prohibits the use of code numbers or other code symbols used and understood by county officers and agencies to identify the purpose and liability for which such warrants are drawn, if such code numbers or other code symbols are not generally so understood by the public.

15001. Any warrant issued in payment of old age security or aid to the blind is void if not presented to the county treasurer for payment within six months after its date, and shall be canceled and the face amount shall revert and be credited in the manner provided by Section 29802 of the Government Code. Each such warrant shall bear on its face a statement that the warrant shall be void if not presented to the county treasurer for payment within six months after the date of issuance thereof.

However, if a recipient of any warrant is in possession of such a warrant made payable to him, which has been voided under the provisions of this section, he may, upon surrender of the voided warrant, have issued to him a substitute warrant bearing the date that it is issued and the same face amount as the voided warrant.

The provision for a substitute warrant shall also apply to the legal representative or heir of a deceased recipient, in accord with the provisions of Section 12158 of this code.

Article 2. Social Welfare Federal Fund

15050. The Social Welfare Federal Fund in the State Treasury is hereby created. All grants of money received by the state from the United States, the expenditure of which is administered through or under the direction of the department, shall, on order of the State Controller, be deposited in the Social Welfare Federal Fund.

15051. All money in the Social Welfare Federal Fund is hereby appropriated to the department, without regard to fiscal years, for expenditure for the purposes for which the money deposited therein is made available by the United States for expenditure by the state.

15052. The department and the State Controller shall keep a record of the classes and sources of income deposited in or transferred to the Social Welfare Federal Fund, and of the disbursements therefrom.

15053. The Director of Finance and the State Controller may approve any general plan whereby:

(a) Any expenditures which are a proper charge against the money made available by the United States and deposited in the Social Welfare Federal Fund may be paid, in the first instance, from the General Fund, and

(b) The General Fund shall be reimbursed for expenditures made therefrom that are a proper charge against the Social Welfare Federal Fund.

Such a general plan may provide for advance transfers from the Social Welfare Federal Fund to the General Fund, based on estimates of expenditures to be made from the General Fund which will be subject to reimbursement from the Social Welfare Federal Fund pursuant to such plan, and may provide for reimbursements to the Social Welfare Federal Fund.

Requests for reimbursement pursuant to such a plan shall be furnished to the State Controller in writing by the department, accompanied by such financial statements as the plan may provide; and on order of the State Controller, the required amount shall be transferred in accordance therewith.

Article 3. Welfare Advance Fund

15100. A revolving fund in the State Treasury is hereby created, to be known as the Welfare Advance Fund. All moneys in the fund are appropriated for the purpose of making payments or advances to counties of the state and federal shares of assistance or medical care programs or the cost of administration of such programs, and for the payment of refunds.

Payments or advances of funds to counties, which are properly chargeable to appropriations made from other funds in the State Treasury, may be made by Controller's warrant drawn against the Welfare Advance Fund. For every warrant so issued, the several purposes and amounts for which it was drawn shall be identified for the payee.

The amounts to be transferred to the Welfare Advance Fund at any time shall be determined by the department, and, upon order of the Controller, shall be transferred from the funds and appropriations otherwise properly chargeable therewith to the Welfare Advance Fund.

Refunds of amounts disbursed from the Welfare Advance Fund shall, on order of the Controller, be deposited in the Welfare Advance Fund, and, on order of the Controller, shall be transferred therefrom to the funds and appropriations from which such amounts were originally derived. Claims for amounts erroneously paid into the Welfare Advance Fund shall be submitted by the department to the State Controller who, if he approves such claims, shall draw his warrant in payment thereof against the Welfare Advance Fund.

All amounts increasing the cash balance in the Welfare Advance Fund, which were derived from the cancellation of warrants issued therefrom, shall, on order of the Controller, be transferred to and in augmentation of the appropriations from which such amounts were originally derived

Article 4. Payment of State and Federal Funds to Counties for Public Assistance Programs

15150. During such time as grants-in-aid are provided or made available by the United States government for public assistance in this state, the State Treasurer shall pay to each county from the sums so granted (1) an amount which shall be used exclusively as public assistance equal to the full amount of any sums received from the United States government as public assistance in respect to recipients within the provisions of this chapter maintained or supported by the county; and (2) an additional amount equal to such county's proportionate share of any amount so granted or made available to this state by the United States government for the costs of administering such aid, which additional amount shall be used exclusively for paying such administration costs. The department shall determine the portion of the amount so granted or made available for administration costs to be paid to the counties, which portion for each county shall bear the same proportion to the total amount made available to this state for such administrative costs that the administrative costs of that county bear to the total administrative costs of all counties and of the state. The department shall adopt rules and regulations which shall be of uniform application for determining the proportionate shares for such quarter to each county under the provisions of this section and Section 15152.

15151. During such times as grants-in-aid are provided or made available by the United States government for the purpose of defraying any portion of the costs of administration incurred for public assistance, the State Treasurer shall pay to each county an amount equal to such county's proportionate share of the sum so granted for the cost of administra-

tion, which amount shall be used exclusively for paying such administration costs. The department shall determine the portion of the amount so granted or made available for administration costs to be paid to the counties, which portion shall be determined pursuant to rules and regulations of the department and shall be not less than one-half of the amount so granted or made available. The department shall adopt rules and regulations which shall be of uniform application for determining the proportionate shares of the respective counties of the portion so determined to be paid to such counties.

This section shall become operative and shall supersede subdivision (2) of Section 15150 during such times as grants by the United States government, provided or made available to defray any portion of administration costs incurred for public assistance, are not computed as a proportion of such costs of administration. Whenever this section is in effect, all other sections referring to Section 15150 shall also be deemed to refer to this section.

15152. From the sums appropriated therefor by the State of California, the State Treasurer shall pay to each county an additional amount, which shall be used exclusively for public assistance, equal to that proportion of the aid grants paid by the county under each public assistance program as is specified in the appropriation for that program, after deducting from the sums so expended the amount paid to the county under subdivision (1) of Section 15150 of this code.

15153. Notwithstanding the provisions of any other section of this code, the method of computing and advancing funds to counties, both as to state funds and funds made available by the United States government, shall be as follows:

1. The department shall prior to the beginning of each month estimate the amount to be paid for such month to each county under this part.

2. The department shall then certify to the State Controller the amounts so estimated by it for each county, adjusted by any sum by which it finds that its estimate for any prior period was greater or less than the amount which should have been paid.

3. The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the department and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified.

4. Moneys may be advanced by or on behalf of any county to a corporation or association in accordance with the provisions of a contract executed between such county and the corporation or association pursuant to Section 14052 or 14556 of this code.

15154. Reports of amounts paid out for public assistance shall be presented by the respective counties at times and in the form prescribed by the department. Such reports shall be audited by the department and the State Controller, and,

when and in the amount approved, shall be allowed to the county as a credit to apply against advances made under the terms of Section 15153.

Article 5. Appropriations for Public Assistance

15200. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated, and after deducting federal funds available, the following sums:

(a) To each county for the support and maintenance of needy children, 67.5 percent of the sums specified in Section 11450.

(b) To the department for the support and maintenance of needy children, the sum specified in Section 11403.

15201. There is hereby appropriated, out of any moneys in the State Treasury not otherwise appropriated, to every county within this state for maintaining or supporting aged persons who come within the provisions of Chapter 3 of this part, aid not in excess of a sum equal to six-sevenths of the grant made pursuant to that chapter to every such aged person, after deducting therefrom the amount of any sum received from the United States government as old-age assistance in respect to such aged persons, each month for each such aged person maintained or supported by such county.

Payments of aid shall be made in the manner provided in Article 4 of this chapter.

15202. There is hereby appropriated, out of any money in the State Treasury not otherwise appropriated, to every county in the state for maintaining, supporting, or caring for blind persons who come within the provisions of Chapter 4 of this part, aid not in excess of a sum equal to three-fourths of the grant made pursuant to that chapter to every such blind person, after deducting therefrom the amount of any sum received from the United States government for aid to the blind in respect to such blind person, each month for each such blind person maintained, supported and cared for by such county.

Payments of aid shall be made in the manner provided in Article 4 of this chapter.

15203. There is hereby appropriated, out of any money in the State Treasury not otherwise appropriated, to every county in the state for maintaining, supporting, or caring for blind persons who come within the provisions of Chapter 5 of this part, aid not in excess of a sum equal to five-sixths of the grant made pursuant to that chapter to every such blind person, each month for each such blind person so maintained, supported and cared for, by such county.

15204. There is hereby appropriated, out of any money in the State Treasury not otherwise appropriated, to every county within this state for maintaining or supporting needy disabled persons who come within the provisions of Chapter 6 of this part, aid not in excess of a sum equal to six-sevenths of the grant made pursuant to Section 13700 to every such needy

disabled person, after deducting therefrom the amount of any sum received from the United States government as aid to the permanently and totally disabled in respect to such needy disabled person, each month for each such needy disabled person maintained or supported by such county.

PART 4. INSTITUTIONS AND OTHER FACILITIES FOR THE CARE OF CHILDREN AND AGED PERSONS

CHAPTER 1. INSTITUTIONS FOR CHILD CARE AND HOME-FINDING AGENCIES

16000. No person, association, or corporation shall, without first having obtained a written license or permit therefor from the department or from an inspection service approved or accredited by the department:

(a) Maintain or conduct any institution, boarding home, day nursery, or other place for the reception or care of children under 16 years of age, nor engage in the business of receiving or caring for such children, nor receive nor care for any such child in the absence of its parents or guardian, either with or without compensation.

(b) Engage in the finding of homes for children under 16 years of age, or place any such child in any home or other place either for temporary or permanent care or for adoption.

The provisions of subdivision (a) do not apply to any hospital or establishment holding a license in good standing issued under the provisions of Chapter 2 or Chapter 3 of Division 2 of the Health and Safety Code. However, where a hospital or establishment holding such a license from the State Department of Public Health provides services not incidental to its primary purpose, the provisions of subdivision (a) continue to apply to the hospital or establishment in respect to such additional services.

16001. The provisions of Section 16000 shall not apply to the receiving and care of a child or children under 16 years of age by a relative, nor to such receiving and care during a temporary period by a close friend of the parent or guardian with the consent of the parent or guardian, when such receiving and care is without compensation.

16002. No license shall be required pursuant to, and it shall not be a violation of subdivision (b) of Section 16000 of this code, for a maternity home licensed by the department, or a hospital or establishment holding a license in good standing issued under the provisions of Chapter 2, or Chapter 3 of Division 2, of the Health and Safety Code, to release or surrender the custody of a child under 16 years of age to any person, association or corporation designated in a written authorization signed by its parent, or, if there is no parent, by the person having legal custody of the child.

On the release of a child to any person other than a parent or relative by blood or marriage, the hospital or maternity

home shall report within 48 hours to the department, on forms supplied by that agency, the name and address of the person, organization or corporation into whose custody the child was released.

16003. The department shall make such reasonably necessary rules and regulations as it deems best for the government of any institution or the performance of any service specified in Section 16000 of this code. The department may, by any duly authorized representative, inspect and examine any such institution, home, or place, or the performance of any such service.

16004. The department may inspect, examine and license under this chapter, or any county or city may establish, and the department may accredit and approve, a county or city inspection service to perform such functions under this chapter.

If any county or city establishes an inspection service, and such service is approved by the department, the inspection may be made by a health department having at least one regularly licensed physician, or a qualified social service department.

The inspection service shall conform to the requirements of this chapter and to the rules of the department.

The costs of any inspection service undertaken by a county or city, with the approval of the department, shall be borne by the state in the amount found necessary by the department for proper and efficient administration, but not to exceed in any fiscal year an amount equal to sixty-five dollars ($65) for each new or renewal license granted. Claims shall be filed with the department, at the time and in the manner specified by the department, for reimbursement of the expenses incurred. Whenever a claim covering a prior fiscal year is found to have been in error, adjustment may be made on a current claim without the necessity of applying the adjustment to the appropriation for the prior fiscal year. If any grants-in-aid are made by the federal government for the support of any inspection service approved by the department, the amount of the federal grant shall first be applied to defer the costs of the service and the remainder of the costs, if any, shall be borne by the state

16005. Any holder of a valid license issued by the department, which authorizes the licensee to engage in any of the functions specified in subdivision (b) of Section 16000, may, unless the license provides otherwise, place children in any boarding home selected and exclusively used for the reception and care of children placed by such licensee. A boarding home selected by such licensee shall not, during the time it is used exclusively for such placements or care, be subject to the provisions of subdivision (a) of Section 16000 or Section 16013. Nothing herein contained shall divest local authorities of their regulatory powers as contemplated by Section 16016.

16006. Any county may apply for, and the department may issue to any county department designated by the county

making the application, a license to perform the home-finding and placement functions, other than adoption, specified in subdivision (b) of Section 16000.

16007. A permit or license issued by the department or by an approved and accredited inspection service shall expire 12 months from its date of issuance.

16008. Application for renewal of a permit or license shall be filed 10 days prior to its expiration each year. If the application is not so filed, the license or permit is automatically canceled. Where a hearing is held under this section, the proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

16009. Failure to comply with any rule or regulation promulgated under Section 16003 is cause for revocation or suspension of a permit or license by the department. Any person whose permit or license is revoked or suspended shall have the right to appeal to the department. The proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

16010. No license shall be transferred. Neither the location of any institution, boarding home, or other place specified in Section 16000 of this code, nor the place of performance of any service specified therein, shall be changed without the written consent of the department or of an approved or accredited inspection service.

16011. Every holder of a permit or license shall maintain a register setting forth the following facts concerning each child under the age of 16 years received, cared for, or placed in any home by such license holder:

(a) Name.
(b) Last previous address.
(c) Age.
(d) Nearest of kin.
(e) Mother's maiden name.
(f) Person responsible for his care and maintenance.
(g) Such other data as the department requires.

16012. Upon the occurrence of any deaths of children or changes in the administrative personnel of any such home, the holder of the license or permit shall, within 48 hours, give written notice thereof to the department or to the approved and accredited inspection service by which such license or permit was issued.

16013. Any person, association, or corporation that maintains, conducts, or, as manager or officer or in any other administrative capacity, assists in maintaining or conducting any institution, boarding home, or other place or the performance of any service specified in Section 16000 of this code without first having secured a license or permit therefor, in writing, or refuses to permit or interferes with the inspection

authorized in Section 16003 of this code, is guilty of a misdemeanor.

16014. The director may bring an action to enjoin the threatened violation or continued violation of the provisions of this chapter, including the operation of a home or institution without a license or permit; or of any of the regulations promulgated under this chapter, in the superior court located in the county in which the violation occurred or is about to occur. Any proceeding under the provisions of this section shall conform to the requirements of Chapter 3 of Title 7 of Part 2 of the Code of Civil Procedure, except that the director shall not be required to allege facts necessary to show or tending to show the lack of an adequate remedy at law or to show or tending to show irreparable damage or loss.

At least 30 days prior to the filing of a complaint against a licensee, the director shall serve the licensee with a written notice specifying each deficiency in the licensed home or institution, and of the violation or continued violation by such home or institution of this chapter or any of the regulations promulgated under this chapter. No restraining order shall be issued in such action.

16015. The district attorney of every county shall, upon application by the department or its authorized representatives, or by an approved and accredited inspection service, institute and conduct the prosecution of any action brought for the violation within his county of any of the provisions of this chapter.

16016. The provisions of this chapter shall not prevent local authorities of any county, city, or city and county, within the reasonable exercise of the police power, from adopting rules and regulations, by ordinance or resolution, prescribing standards of sanitation, health, and hygiene for institutions, boarding homes, day nurseries or other places for the reception or care of children under 16 years of age, not in conflict with the provisions of this chapter, and requiring a local health permit to maintain or conduct any such institution, boarding home or day nursery within such county, city, or city and county.

16017. Each person who operates and lives in, or who is employed in, an institution licensed by the department pursuant to subdivision (a) of Section 16000 of this code shall have on file with the institution a certificate from a physician showing that during the preceding year he has submitted to an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, was followed by an X-ray of the lungs, and has been found free from active tuberculosis. The provisions of this section shall not apply to any boarding home, institution or other facility, for the reception and care of children, operated by and for the adherents of a bona fide church, sect, or denomination, who rely upon prayer in the practice of religion for their protection and health; pro-

vided that such institution, boarding home or other facility for the reception and care of children limits its admission to members of the particular faith of those operating the facility.

16018. Before issuing a license to any person to operate a boarding home, foster home, or other place maintained to receive and care for children, the department or the county or city inspection service, as the case may be, shall secure from the Federal Bureau of Investigation or State Bureau of Criminal Identification and Investigation a full criminal record to determine whether the applicant or his spouse has ever been convicted of a crime other than a minor traffic violation. If it is found that the applicant, or his spouse living in the same location, has been so convicted, the application shall be denied, unless otherwise provided pursuant to the following paragraph.

After review of the record, the Director of Social Welfare, or the person in charge of the county or city inspection service, as the case may be, may exempt any applicant for a license from the provisions of this section, if the record reveals no conviction of a felony involving intentional bodily harm or a sex offense, and if the director or person in charge of the county or city inspection service believes the applicant to be of such good character as to justify issuance of a license.

CHAPTER 2. COUNTY ADOPTION AGENCIES

16100. Any county may apply for, and the department may issue pursuant to Chapter 1 of this part to any county agency designated by the county making the application, a license to perform the home-finding and placement functions specified in subdivision (b) of Section 16000 of this code, to investigate, examine, and make reports upon petitions for adoption filed in the superior court, to act as a placement agency in the placement of children for adoption, to accept relinquishments for adoption, and to perform such other functions in connection with adoption as the department deems necessary, or to do any of them.

In order to extend the services of county adoption agencies to the maximum number of counties practicable within the limits of funds appropriated therefor, the department may license a county adoption agency to operate in such other counties in the general area of the agency as it deems conducive to the effective and efficient administration of the adoption program.

A license issued to a county agency pursuant to this section constitutes the holder thereof a "county adoption agency," and the holder shall be deemed to be an "organization" within the meaning of this code and of Chapter 2, Title 2, Part 3, Division 1, of the Civil Code.

16101. The cost of administering the adoption programs undertaken by a county under license issued pursuant to Sec-

tion 16100 of this code shall be borne by the state in the amount found necessary by the department for proper and efficient administration. The state shall reimburse the county for all such necessary administrative costs, after deducting therefrom the amount of fees up to three hundred dollars ($300) collected by the county agency pursuant to Section 225p of the Civil Code.

16102. Any county maintaining a county adoption agency may enter into an agreement with a physician and surgeon, a hospital operated by the Regents of the University of California, or a licensed hospital other than a county hospital, to pay all or part of the expense of prenatal care, delivery, and postnatal care including hospitalization in connection therewith, given to any expectant unmarried mother, when such expectant mother is in the opinion of the county adoption agency financially unable to provide such care.

Nothing in this section shall be construed as to require the execution of any agreement on the part of the county. No agreement to pay shall be entered into, nor shall the expense of such care be paid, by any county or county adoption agency, unless the mother has requested such county agency to study the child with a view to accepting a relinquishment for adoptive placement.

16103 At least once each month, the county shall remit to the department that part of the fees collected pursuant to Section 225p of the Civil Code which has been collected for the purpose of providing for the expense of prenatal care, delivery, and postnatal care of expectant unmarried mothers under Section 16102 of this code. The department shall deposit such remittances in the Special Deposit Fund in the State Treasury.

16104 The state shall reimburse each county which provides for prenatal care, delivery, and postnatal care of expectant unmarried mothers, pursuant to Section 16102 of this code, for the actual cost of providing such care, to the extent that funds deposited for that purpose are available in the Special Deposit Fund

The department shall prescribe the manner and form in which claims for reimbursement shall be presented.

16105 County claims for reimbursement for expenses incurred for the operation of a county adoption agency shall be filed with the department at the time and in the manner specified by the department, and the claims shall be subject to audit by the department. Whenever a claim covering a prior fiscal year is found to have been in error, adjustment may be made on a current claim without the necessity of applying adjustment to the appropriation for the prior fiscal year.

The department shall adopt such rules as may be necessary to determine the cost of administration and the cost of care of children relinquished for adoption, and to provide for the presentation, allowance, and payment of such claims.

If any grants-in-aid are made by the federal government for the cost of administering an adoption program, or for the cost of care of children relinquished for adoption, the amount of the federal grant shall first be applied to defer the cost of administration or of care, and the remainder of the cost, if any, shall be borne by the state.

16106. The state shall reimburse each county for the cost of care of any child placed under the custody of a county department pursuant to Section 226c of the Civil Code. County claims for reimbursement of expenses incurred pursuant to Section 226c of the Civil Code shall be filed with the department at the time and in the manner specified by the department, and the claims shall be subject to audit by the department. Whenever a claim covering a prior fiscal year is found to have been in error, adjustment may be made on a current claim without the necessity of applying adjustment to the appropriation for the prior fiscal year.

CHAPTER 3. INSTITUTIONS AND BOARDING HOMES FOR AGED PERSONS

16200. No person, association, or corporation shall, without first having obtained a written license or permit therefor from the department or from an inspection service approved or accredited by the department, maintain or conduct any institution, boarding home, or other place for the reception or care of aged persons, nor receive or care for any such person not related to him by blood or affinity within the second degree. The provisions of this chapter do not apply to any hospital or establishment holding a license in good standing, issued under the provisions of Chapter 2 or Chapter 3 of Division 2 of the Health and Safety Code, or to hospitals exempt from the provisions of either or both of those chapters. However, where a hospital or establishment holding such a license from the State Department of Public Health provides services not incidental to its primary purpose, the provisions of this chapter continue to apply to the hospital or establishment in respect to such additional services.

The department shall require, as a condition to the issuance or retention of a license or permit, that any contracts made by the institution, home, or place, under which payment is made in advance for care of the aged person for a period of one year or more, shall be in writing and in a form approved by the department, prior to its use by the institution, home, or place.

16201. The department shall make such rules and regulations as it deems best for the government of any institution or for the performance of any service specified in Section 16200 of this code, and the department may, by any duly authorized representative, inspect and examine any such institution, home, or place, or the performance of any such service. Such inspection or examination shall be made not less than twice each year.

16202. The department may inspect, examine and license under this chapter, or any county or city may establish, and the department may accredit and approve, a county or city inspection service to inspect, make licensing decisions, issue licenses, consult with licensees, require compliance with statutory law, rules and regulations and minimum standards, and make recommendations to the department on revocation and suspension of licenses.

If any county or city establishes an inspection service, and such service is approved by the department, the inspection may be made by either a health department having at least one regularly licensed physician or a qualified social service department.

The inspection service shall conform to the requirements of this chapter, to the rules and regulations of the department, and to the minimum requirements and interpretations made by the department. Functions performed by a county or city inspection service are undertaken as agent of the department. Any applicant for a license or renewal thereof, or any licensee, may request the department to review any action taken by an accredited and approved inspection agency, and the department is authorized to take any action which it may deem advisable.

The costs of any inspection service undertaken by a county or city, with the approval of the department, shall be borne by the state in the amount found necessary by the department for proper and efficient administration, but not to exceed in any fiscal year an amount equal to sixty-five dollars ($65) for each new or renewal license granted. Claims shall be filed with the department, at the time and in the manner specified by the department, for reimbursement of the expenses incurred. Whenever a claim covering a prior fiscal year is found to have been in error, adjustment may be made on a current claim, without the necessity of applying the adjustment to the appropriation for the prior fiscal year. If any grants-in-aid are made by the federal government for the support of any inspection service approved by the department, the amount of the federal grant shall first be applied to defer the costs of the service, and the remainder of the costs, if any, shall be borne by the state.

16203. A permit or license issued under this chapter shall expire one year from the date of its issuance and shall be renewed automatically upon application for renewal made pursuant to Section 16204 of this code, unless notice of nonrenewal be given to the licensee at least thirty (30) days prior to the expiration date of the license.

Nothing in this section shall be construed to amend, directly or indirectly, Section 16206 of this code.

16204. Application for renewal of a permit or license shall be filed 10 days prior to its expiration. If such application is not so filed, such license or permit is automatically canceled. Where a hearing is held under this section, the pro-

ceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

16205. Failure to comply with any rule or regulation promulgated under Section 16201 is cause for revocation or suspension of a permit or license by the department. Any person whose permit or license is revoked or suspended shall have the right to appeal to the department. The proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

16206. No license shall be transferred. Neither the location of any institution, boarding home, or other place specified in Section 16200, nor the place of performance of any service specified therein, shall be changed without the written consent of the department or of an approved and accredited inspection service. No license issued under this chapter shall be deemed to have value for sale or exchange as property, and it is a misdemeanor for any person, whether acting as principal, agent, broker, or otherwise, to sell or attempt to sell or otherwise trade or deal with any license for commercial purposes.

16207. Every holder of a permit or license shall maintain a register setting forth the following facts concerning each aged person received or cared for:

(a) Name.
(b) Last previous address.
(c) Age.
(d) Nearest of kin.
(e) Mother's maiden name.
(f) The person responsible for his care and maintenance.
(g) Such other data as the department requires.

16208. Upon the death of an aged person or change in the administrative personnel of any such home, the holder of the license or permit shall, within 48 hours, give written notice thereof to the department or to the approved and accredited inspection service by which such license or permit was issued.

16209. Any person, association, or corporation that maintains, conducts, or, as manager or officer or in any other administrative capacity, assists in maintaining or conducting any institution, boarding home, or other place, for the reception and care of aged persons not related to him by blood or affinity within the second degree, or performs any service specified in Section 16200 of this code, without first having secured a license or permit therefor, in writing, as required by Section 16200 of this code, or refuses to permit or interferes with the inspection authorized in Section 16201 of this code, is guilty or a misdemeanor.

16210. The district attorney of every county shall, upon application by the department or its authorized representatives, or by an approved and accredited inspection service, institute and conduct the prosecution of any action brought for the vio-

lation within his county of any of the provisions of this chapter.

16211. The provisions of this chapter shall not prevent local authorities of any county, city, or city and county, within the reasonable exercise of the police power, from adopting rules and regulations, by ordinance or resolution, prescribing standards of sanitation, health and hygiene for institutions, boarding homes, and other places for the reception or care of aged persons, not in conflict with the provisions of this chapter or the rules and regulations and minimum standards adopted by the department hereunder, and requiring a local health permit to maintain or conduct any such boarding home or institution within such county, city, or city and county.

16212. The director may bring an action to enjoin the threatened violation or continued violation of the provisions of this chapter, including the operation of a home or institution without a license or permit, or of any of the regulations promulgated under this chapter, in the superior court located in the county in which the violation occurred or is about to occur. Any proceeding under the provisions of this section shall conform to the requirements of Chapter 3 of Title 7 of Part 2 of the Code of Civil Procedure, except that the director shall not be required to allege facts necessary to show or tending to show the lack of an adequate remedy at law or to show or tending to show irreparable damage or loss.

At least 30 days prior to the filing of a complaint against a licensee, the director shall serve the licensee with a written notice specifying each deficiency in the licensed home or institution, and of the violation or continued violation by such home or institution of this chapter or any of the regulations promulgated under this chapter. No restraining order shall be issued in such action.

16213. The director shall require as a condition precedent to the issuance or renewal of any license or permit for any institution, boarding home, or other place for the reception or care of aged persons pursuant to this chapter, if the operator handles or will handle money of aged persons received or cared for therein, that the applicant for the license or the renewal of the license file, or have on file with the director, a bond issued by a company admitted to do business in this state, in a sum to be fixed by the director, based upon the magnitude of the operations of the applicant, but which sum shall not be less than one thousand dollars ($1,000), running to the State of California and conditioned upon his faithful and honest handling of money of aged persons received or cared for in such institution, home or other place for the reception or care of aged persons.

Every person injured as a result of any improper or unlawful handling of the money of an aged person in an institution, home, or other place for the reception or care of aged persons, may bring an action in a proper court, on the bond required to be posted by the operator pursuant to this section,

for the amount of damage he suffered as a result thereof to the extent covered by the bond.

Whenever the director determines that the amount of any bond which is filed with him pursuant to this section is inadequate to protect the money of the aged persons in an institution, home, or other place for the reception or care of aged persons, which is being handled by the operator thereof, or whenever the amount of any such bond is impaired by any recovery against the bond, the director may require the operator to file with the director an additional bond in such amount as the director determines is necessary to adequately protect the money of the aged persons, which is being handled by the operator of the institution, home, or other place for the reception or care of aged persons.

The failure of the operator of any institution, home, or other place for the reception or care of aged persons, which has a license or permit issued pursuant to this chapter, to maintain on file with the director a bond in the amount prescribed by the director pursuant to this section, is a ground for the revocation of the license or permit of the institution, home, or other place for the reception or care of aged persons.

The provisions of this section shall not apply if the operator of the institution, boarding home, home, or other place for the reception or care of aged persons handles in any month less than twenty-five dollars ($25) per patient and less than five hundred dollars ($500) for all patients in the institution, home, or other place.

Chapter 4. Supervision of Life Care Contracts

16300. Any organization or person may receive transfers of property from an aged person, conditioned upon an agreement to furnish life care or care for a period of more than one year, which agreement may include the cash payment of personal and incidental expenses to the transferor or his nominee; provided, such organization or person has received a written license or permit pursuant to Section 16200 or 5700 of this code or Chapter 2 of Division 2 of the Health and Safety Code, and such organization or person has been granted a certificate of authority by the department.

Organizations or persons who furnish care exclusively under agreements, which may be canceled by either party without cause, are required to obtain a certificate of authority from the department for all agreements issued after October 1, 1957, if payment or transfer of property is made in advance to cover cost of care for one year or more; provided, however, that, if any such organization or person is a nonprofit benevolent organization, which accepts property in an amount less than the cost of care, the amount of reserve required of it under Section 16304 shall be reduced in the same proportion as the estimated cost of care bears to the value of the property transferred.

16301. When necessary to secure the performance of all obligations of the certificate holder to transferors, the department may record with the recorder of any county a notice of lien on behalf of the transferors. From the time of such recording, there exists a lien on all real property of the certificate holder, not exempt from execution, owned by him at the time or which he may afterward acquire before the release of the lien, and located within the county where such notice is recorded. The department shall file a release of the lien upon proof of complete performance of all obligations to transferors, or upon the filing of a bond meeting the conditions set forth in Section 16302 of this code. The department may file a release of the lien if the department deems the lien no longer necessary to secure the performance of all obligations of the certificate holder to the transferors. The certificate holder may appeal to the department from a refusal of a request for release of the lien. The decision of the board shall be subject to court review pursuant to Section 1094.5 of the Code of Civil Procedure, upon petition of the certificate holder filed within 30 days of service of the decision.

16302. Before issuing the certificate of authority, the department may, if it deems it necessary to safeguard the interests of the aged in the state, require any applicant for a certificate to file with the department, and maintain in effect during the period that the certificate of authority is in force, a bond executed by an admitted surety insurer, in an amount satisfactory to the department, conditioned that the principal will faithfully perform all obligations undertaken by him pursuant to the certificate of authority, to and for the use and benefit of all persons who may be injured or aggrieved by the failure of the principal to perform any such obligation, and any person so injured or aggrieved may bring suit on such bond, in his own name, without an assignment thereof.

16303. Before issuing the certificate of authority, the department shall require that any agent or employee of the applicant, who, in the course of his agency or employment, has access to any substantial amount of funds furnish, and maintain in effect during the period that the certificate of authority is in force, a surety bond in such form and penal sum as the department finds necessary to protect all persons from loss of the funds.

16304. Any organization or person receiving a certificate of authority to enter into care agreements shall maintain reserves covering obligations assumed under all agreements entered into and maintained. Such reserves shall be in an amount not less than the sum computed in accordance with the standard of valuation based upon a modern and up-to-date table of mortality selected by the department in consultation with the Department of Insurance. The table of mortality shall be employed in connection with all care agreements entered into on or after January 1, 1958, while McClintock's table of mortality among annuitants shall be em-

ployed in connection with care agreements entered into prior to January 1, 1958. The interest assumption for such computation shall be determined by the department in consultation with the Department of Insurance.

Failure to maintain reserves as provided in this section shall be deemed a breach of all agreements to furnish care.

The reserves shall consist of the following:

1. Deposits in commercial and savings accounts with banks which are members of the Federal Deposit Insurance Corporation, to the extent that such deposits are insured by that corporation.

2. Investments in certificates issued by building and loan associations which are members of the Federal Savings and Loan Insurance Corporation, to the extent that such certificates are insured by such corporation.

3. Notes receivable secured by first deeds of trust and first mortgages.

4. Bonds and stocks selected from an approved list, as determined by the department in consultation with the Department of Insurance and the Department of Investment. In the event stocks, bonds, and securities that are not on the approved list are part of the reserves, and if they are to be retained as part of the reserves, it shall not be necessary that such unapproved stocks, bonds, and securities be disposed of immediately, but they shall be disposed of in accord with regulations of the department, which disposal shall be accomplished in a gradual manner so as to avoid loss to certificate holders. Securities which, although not on the approved list, should be retained in the reserve for reasons acceptable to the department may be retained with the specific approval of the department.

5. Real estate used to provide care and housing for holders of life care contracts, or equities therein, owned by the organization or person, to the extent of 60 percent of the net value thereof, except that beginning January 1, 1958, such percentage shall be reduced by 2 percent per year to a minimum of 25 percent of the net value thereof. Appraisals shall be made by two appraisers approved by the department.

6. Furniture and equipment situated in property used to provide care and housing for holders of life care contracts, to the extent of 50 percent of the net value thereof, except that beginning January 1, 1958, such percentage shall be reduced by 2 percent per year to a minimum of 25 percent of the net value thereof. Appraisals shall be made by two appraisers approved by the department.

7. Real estate or equities therein owned by the organization or person as an investment, the rents from which are used to discharge obligations to the holder of life care contracts or to reinvest as a part of the reserves.

8. Investment certificates or shares in open end investment trusts (1) whose management must have been managing a mutual fund registered under the Investment Company Act

of 1940, or the management must have been registered as an investment advisor under the Investment Advisors' Act of 1940, and in either case must currently have at least $100,000,000 under its supervision; (2) which is qualified for sale in California; (3) has at least 40 percent of its directors or trustees not affiliated with the fund's management company or principal underwriter or any of their affiliates; (4) is registered under the Investment Company Act of 1940; and (5) is a fund listed as qualifying under rules maintained by the Commissioner of Corporations in cooperation with the Department of Insurance.

9. At least 25 percent of the reserve necessary to maintain all care agreements must consist of listed bonds, stocks, commercial and savings accounts and building and loan certificates. Any person or organization holding a certificate of authority to enter into life care agreements upon the effective date of this act, that is unable to meet the reserve requirements of this subdivision, may petition the department for a modification of the percentage in the reserve requirement.

Any person or organization which has entered into care agreements prior to October 1, 1957, but which was not required prior to September 11, 1957, to obtain a certificate of authority under this chapter, is not required to maintain reserves covering obligations assumed under any agreement entered into prior to October 1, 1957.

16305. Life care agreements executed by an organization or person shall be deemed a preferred claim against all assets owned by the organization or person in the event of liquidation.

For purposes of computing the reserve, the liens required under Section 16301 shall not be deducted from the value of real or personal property.

16306. The department may require the filing with the department of a copy of any agreement entered into between the certificate holder and transferor, by every person or organization holding a certificate of authority to receive transfers under this chapter. All agreements entered into between the certificate holder and the transferor shall be in writing and shall contain all information required under Section 16307.

The department shall require that any forms used by the certificate holder in concluding an agreement with any transferor be filed with and approved by the department prior to their use by the certificate holder. The department may contract with the Department of Insurance, on such terms as may be mutually agreeable, for any assistance which the department may require in evaluating any submitted forms

16307 The agreement must:

(a) Show the value of all property transferred, including, but not limited to, donations, subscriptions, fees, and any other amounts paid or payable by or on behalf of the aged person.

(b) Show all the services which are to be provided by the person or organization to the transferor, including, in detail,

all items which the transferor will receive, such as board, room, medical care, clothing, burial, incidentals, and whether such items will be provided for a designated time period or for life.

(c) Be accompanied by a financial statement showing all facts pertinent to the financial condition of the certificate holder.

(d) Be furnished, together with the financial statement, to the transferor.

16308. If the agreement permits dismissal or discharge of the aged person from the home prior to the expiration of the agreement, with or without cause, an amount equal to the difference between the amount paid in and the amount used for the care of the aged person during the time he remains in the institution, based upon the per capita cost to the institution, shall be refunded to the transferor; however, in cases where a consideration greater than the minimum charge has been paid for accommodations above standard, a sum equal to the difference between the amount paid in and the ratio of the amount paid to the minimum consideration for standard accommodations times the current per capita cost to the institution applied to the period the aged person remained in the institution shall be refunded to the transferor. If the per capita cost to the institution during the period cannot be established otherwise, the cost during the period shall be deemed to be the cost at the time of the dismissal or discharge.

16309. The department shall make such rules and regulations as it deems best for the government of any institution or organization specified in Section 16300, in order that the rights of aged persons may be protected. The department may, by any duly authorized representative, inspect and examine any such institution, home, or place, books and records, or the performance of any service required pursuant to the agreement.

16310. In lieu of making a detailed financial investigation, the department may accept an annual audit of the records of the organization or person, made by a certified public accountant or public accountant, which shall include a certification, if such is the case, that the organization or person is maintaining reserves in accordance with the requirements of Section 16304.

Each organization or person specified in Section 16300 shall have an annual audit made of its financial affairs by a certified public accountant or a public accountant, which audit shall include full details on per capita costs of operation and on the matter of reserves. A copy of the audit shall be filed with the department. Funds and property received as advance payments for maintenance of the transferors shall be reported separately from membership fees, donations, or other funds available for capital expansion.

16311. A formal application shall be made by a person or organization to the department for a certificate of authority. When issued, the certificate of authority shall remain in force

until suspended or revoked by the department in accordance with Section 16312.

16312. Certificates of authority may be suspended or revoked for cause by the department.

Failure of the organization or person to meet the licensing requirements of Chapter 3 of this part or the reserve requirements of Section 16304 of this code shall constitute cause for suspension or revocation of the certificate of authority.

The person or organization whose certificate of authority is suspended or revoked shall have right of appeal to the department. The proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all of the powers granted therein.

16313. For the failure of any organization or person to establish and maintain reserves as provided in this chapter, the department shall, after due notice, revoke its certificate of authority. The department may request the Department of Insurance to aid in the determination as to whether or not sufficient reserves are established and maintained.

16314. No certificate of authority shall be transferred. Neither the terms of the agreement nor the place of performance specified in any agreement shall be changed without the written consent of the department, except in circumstances where residents are removed for medical treatment.

16315. A holder of a certificate of authority, who has life care residents in the home, and who wishes to sell or transfer ownership of the home to another party, shall first obtain approval from the department.

16316. Any person, association, or corporation that maintains, enters into, or, as manager or officer or in any other administrative capacity, assists in maintaining or entering into any agreement providing for transfer of property, conditioned upon an agreement to furnish life care to the transferor or his nominee, without first having secured a certificate of authority therefor in writing, or refuses to permit or interferes with the inspection authorized in this chapter, is guilty of a misdemeanor.

16317. Any report, circular, public announcement, certificate, financial statement, or any other printed matter or advertising material, which is designed for or used to solicit or induce persons to enter into any agreement providing for the transfer of property, conditioned upon an agreement to furnish life care or care for a period of more than one year, and which lists or refers to the name of any individual or organization as being interested in or connected with the person, association, or corporation to perform the contract, shall clearly state the extent of financial responsibility assumed by that individual or organization for the person, association, or corporation and the fulfillment of its contracts.

Any person, association, or corporation, that issues, delivers, or publishes, or, as manager or officer or in any other admin-

istrative capacity, assists in the issuance, delivery, or publication of any printed matter or advertising material which does not conform to the requirements of this section is guilty of a misdemeanor.

16318 The district attorney of every county shall, upon application by the department or its authorized representatives, institute and conduct the prosecution of any action brought for the violation within his county of any of the provisions of this chapter.

PART 5. COUNTY AID AND RELIEF TO INDIGENTS

CHAPTER 1. GENERAL PROVISIONS

17000. Every county and every city and county shall relieve and support all incompetent, poor, indigent persons, and those incapacitated by age, disease, or accident, lawfully resident therein, when such persons are not supported and relieved by their relatives or friends, by their own means, or by state hospitals or other state or private institutions.

17001. The board of supervisors of each county, or the agency authorized by county charter, shall adopt standards of aid and care for the indigent and dependent poor of the county or city and county, and such standards shall be open to public inspection.

17002. The boards of supervisors may establish almshouses and county farms, prescribe rules and regulations for their government and management, and appoint the necessary officers and employees thereof, who shall hold office during the pleasure of the board.

17003. Every county may give such emergency relief to dependent nonresidents as the respective boards of supervisors deem necessary.

17004. If no other funds are available for the purpose, a county may incur all necessary expenses in transporting a nonresident indigent to another state or county, when information at hand reasonably tends to show that the person has a legal residence in such state or county.

17005. If a dispute occurs between counties as to the responsibility for an indigent, either county may submit the dispute to the department. The decision of the department thereon shall be final.

17006. The board of supervisors of every county as a board, or by committee or by such person or society as it may authorize, shall investigate every application for relief from the funds of the county, shall supervise by periodic visitation every person receiving such relief, shall devise ways and means for bringing persons unable to maintain themselves to self-support, and shall keep full and complete records of such investigation, supervision, relief, and rehabilitation as shall be prescribed by the department. Such records shall be confidential and shall not be open to examination

or inspection, except by the grand jury of the county or by a board or an officer of the state or the county charged with the supervision or direction of such relief or with the control or expenditure of funds applicable to such relief. Any citizen shall be entitled to demand and receive from the board, officer, committee, person, or society having custody of such records a statement of the amount, character, and value of the relief received by any person.

17007. No fee shall be charged by any public officer for filing any petition for guardianship under the provisions of Section 17403, or for any official act done or necessary in the course thereof, except that a county employee acting as such guardian shall be entitled to such costs therefor as will reimburse him in full for moneys advanced by him in such guardianship.

Where a county officer or employee is appointed and acts as such guardian, the board of supervisors may, by resolution, order that expenses necessary in the conduct of the guardianship and any necessary premiums on the bond of the guardian be advanced by the county to such guardian, and such expenses shall be a charge against the county, but the county shall be reimbursed out of any funds or property of the estate of the ward.

17008. In cases in which an indigent has an interest in the real property upon which he resides, a county may allow an amount that would otherwise be included in his budget for rentals, when such amount is necessary and will be used entirely for the purpose of preserving so far as possible the retention of such interest to provide a place of residence for the indigent.

17009. The board of supervisors may provide for the burial or cremation of the indigent dead and may provide for the maintenance of the graves of such dead.

Chapter 2. Eligibility

17100. Except as otherwise provided in this chapter, a person, in order to be entitled to aid, shall be a resident of the state and of the county wherein application is made.

17101. The residence is the place where one remains when not called elsewhere for labor or other special or temporary purpose, and to which he returns in seasons of repose.

17102. The residence of an unmarried minor child is the residence of the father, while he has legal custody of the minor, or if he has not such legal custody, the residence of the mother while she remains unmarried and has the legal custody of the minor.

The residence of an orphan is that of the last deceased person who had his legal custody.

The residence of a dependent child who has been declared free from the custody and control of his parent or parents, by

order of the juvenile court, is not changed by change of the residence of the parent or parents.

17103. Neither the domicile nor residence of the husband shall be deemed to be the domicile or residence of the wife, if they are living separate and apart, and in such case each may have a separate domicile or residence dependent upon proof of the fact and not upon legal presumptions.

17104. A resident of the State of California is a person who comes within all the following descriptions:

(a) Who has lived continuously in the state for a period of three years with the intent to make it his home; but time spent in a public institution or on parole therefrom shall not be counted in determining the matter of residence in this or another state.

(b) Who has not lost his residence by remaining away from this state for an uninterrupted period of one year. Absence from the state for labor or other special or temporary purpose does not occasion loss of residence.

17105. A person who is a resident of California within the meaning of this chapter is a lawful resident of the county wherein he applies for aid, if he has resided therein continuously for one year immediately preceding his application for assistance. If the applicant has no such residence, the county wherein he last resided continuously for one year immediately preceding his application shall be responsible for his support. If the applicant has no such year's residence within three years preceding application, that county shall be responsible for his support wherein he was present for the longest time during the three-year period. Time spent in a public institution or on parole therefrom or in a private charitable institution shall not in any case be counted in determining the matter of county residence.

17106. The eligibility of an indigent or needy person to receive surplus food under any program supported or sponsored by the federal government shall not be limited by any provision in this chapter, nor shall any county, by ordinance or otherwise, limit the eligibility of such persons to receive such food by the imposition of residence requirements, whether or not such food is distributed by a county agency.

17107. The board of supervisors may establish its own policies with reference to the amount of property, if any, a person shall be permitted to have while receiving assistance, to the end that, so far as it is possible, an applicant for public relief shall be required to apply his own property to his support.

17108. The policies established under Section 17107 shall not deny needed care in a county hospital or contract hospital, as defined in Section 14501 of this code, to any person who meets the eligibility requirements for medical assistance for the aged, and shall not require the application of any property of such a person to his support or the taking of any lien upon that property.

17109. As a condition to the grant or continuation of aid to an indigent, the board of supervisors may require, as security for the moneys so expended, that the applicant transfer or grant to it such property or interest in property as the applicant has, or such portion thereof or estate therein or lien thereon as the board specifies. Such property shall be managed by the board of supervisors and the net income thereof shall be applied to the reimbursement of the county for the aid granted, and any surplus in excess of such reimbursement shall be paid to the indigent. In the case of any estate, interest, or lien in such property held by the board, or any right of management transferred thereto, the board shall have all the powers of an attorney in fact for the indigent as to such estate, interest, or lien, and may sell, lease, or transfer the same, defend and prosecute all suits concerning it, pay all just claims against it and be reimbursed out of the proceeds, and do all things necessary for the protection, preservation, and management thereof. Any such estate, interest, or lien shall be held by the board, subject to the claim of the county for reimbursement for aid granted to the applicant or for moneys expended in its management, preservation, or protection, and such reimbursement shall constitute a preferred claim against such estate, interest, or lien.

17110. Whenever the respective boards of supervisors deem it best for the welfare of a family or in the public interest that an indigent remain in a county not responsible for his support, the county responsible for the support of the indigent may agree to support him in the county not so responsible; but no indigent supported in this manner shall be deemed to have acquired a residence in the nonresponsible county. Such agreement shall be made by the responsible county with the nonresponsible county, and a record or copy thereof shall be sent to and filed in the office of the department.

CHAPTER 3. WORK RELIEF PROJECTS

17200. Work may be required of an indigent, who is not incapacitated by reason of age, disease, or accident, as a condition of relief. Such work shall be created for the purpose of keeping the indigent from idleness and assisting in his rehabilitation and the preservation of his self-respect.

17201. Work relief projects conducted pursuant to Section 17200, which consist of the work of repairing or maintaining any shipping facility or public building, shall not be subject to the competitive bidding provisions of Sections 25450 and following of the Government Code where the work is to be done entirely by indigents, except that those providing supervision need not be indigents. In counties employing a purchasing agent, the materials and supplies used in such a project may be purchased by the purchasing agent without limit and without the formality of obtaining bids, letting contracts, pre-

paring specifications, and the other formalities otherwise required by law.

CHAPTER 4. RELATIVES' RESPONSIBILITY

17300. All aid rendered by the county under this part shall be a charge against the spouse, parent, and adult child of the recipient thereof, and the county rendering aid shall be entitled to reimbursement therefor.

The board of supervisors of the county rendering aid shall determine if the spouse, parent, or adult child, or any of them, have financial ability to support or contribute to the support of the recipient and were pecuniarily able to support or contribute to the support of the recipient during the time aid was rendered. If in the opinion of the board of supervisors pecuniary ability existed when the aid was given, and exists when the matter comes before the board of supervisors, the board shall request the district attorney or other civil legal officer of the county granting aid to proceed against such responsible relative or relatives.

Upon such request, the district attorney or other civil legal officer shall maintain an action on behalf of the county granting aid against the relative or relatives to recover for the county the aid rendered and to secure an order requiring the payment of any sums which may become due in the future.

The board of supervisors shall, in the case of aid granted by institutional care, fix a reasonable charge therefor, which shall be the measure of reimbursement to the county, and the existence of the order fixing the charge shall constitute prima facie evidence of its reasonableness.

17301 In any case where a person so ordered to make such payments fails so to do, the court may by order require him to show cause for such failure, and may otherwise enforce the order to make such payments by such order or orders as in its discretion it deems necessary from time to time, and such order or orders may be modified, altered, or revoked at the discretion of the court.

CHAPTER 5. TERMINATION AND RECOVERY OF ASSISTANCE

17400. In any case in which a county has taken a lien against real property owned by a recipient of public assistance for any purpose, including hospitalization or medical care furnished to the recipient, and such lien is subordinate to a mortgage or deed of trust on the property, the county, upon learning of the pending sale of the property in connection with the foreclosure of that mortgage or deed of trust, shall notify the recipient if it has no intention of bidding at the sale or redeeming the property and agrees to subordinate its liens to any subsequent mortgage or deed of trust on the real property so long as the title thereto remains in the name of the recipient.

17401. No lien taken by a county pursuant to Section 17109 for care provided to a person in a county hospital shall be enforced against the home of that person (1) during his lifetime or that of his spouse, or (2) during the minority of his children if they reside in the home, or (3) during the lifetime of any dependent adult child who resides in the home and who is incapable of self-support because of mental or physical disability.

Any lien taken by a county for county hospital care shall be released immediately when the amount owing the county for that care is paid. The county shall render to a person to whom care has been provided in a county hospital a statement setting forth the charges upon which its claim for reimbursement is based. No interest or carrying charge shall be charged in connection with any debt incurred for county hospital care.

If a person against whose home a lien has been imposed for county hospital care desires to sell his home, the county shall release its lien against the original home and transfer it to the new home, provided that it finds that its security will not be impaired. If the person desires to borrow money for the purpose of making improvements to his home, using his home for security, the county shall subordinate its lien to the mortgage or other security interest given for the loan, if the county finds that its security will not be impaired.

No lien shall be taken pursuant to Section 17109 against the home of a person for care provided him in a county hospital, if he was confined to the county hospital as the result of a diagnosis of tuberculosis.

No lien shall be taken pursuant to this part against the home or other property of any relative, except for a parent of a minor or a spouse, liable for the support of a person confined in a county hospital or otherwise receiving aid under this part.

In no way do the authorizations and limitations expressed in this section enlarge upon the power of counties to take or impose liens under existing law. Nothing contained in this section shall be construed to permit a county to impose a lien for aid or other assistance granted under any public assistance program established by this code for which federal funds are received by this state, or under the aid to the potentially self-supporting blind program.

17402. If there is in the hands of any officer of the county, or there is surrendered to any officer of the county, upon the death of any indigent person, any personal property of a total of less than twenty-five dollars ($25) in value, belonging to such person, the board of supervisors of the county may, by resolution, order such property to be sold, and if the proceeds thereof do not exceed the sum of twenty-five dollars ($25), they shall be applied to the payment of the claim of the county against such person. If the value of such property or the proceeds received from its sale exceeds the sum of

twenty-five dollars ($25), or exceeds the indebtedness due to the county, such property or the proceeds of the sale thereof in excess of twenty-five dollars ($25), or the amount of the claims of the county, shall be delivered to the public administrator of the county or to any other legal representative of the deceased for administration.

17403. If a person for the support of whom public moneys have been expended acquires property, the county shall have a claim against him to the amount of a reasonable charge for moneys so expended, and such claim shall be enforced by action against him by the district attorney of the county on request of the board of supervisors. In a proper case therefor, the district attorney shall apply to the proper court for the appointment of a guardian of the person or estate, or both, of the indigent. The support of such indigent from public funds shall be deemed a ground for sale or encumbrance of his property under the provisions of Section 1530 of the Probate Code.

17404. From the proceeds of a sale or encumbrance of the property of such ward, or from such funds as may be collected from the property of the ward, there shall be paid to the county the expense of the support of the ward prior to collection, together with the subsequent expense of such support.

17405. Any estate, interest or lien in property transferred or granted to the board of supervisors under the provisions of Section 17109, or under the provisions of Section 9 of an act entitled "An act to provide for the aid and relief of indigents," approved June 5, 1933, may be reconveyed or released by them upon payment to the county of the amount of aid repayment of which is thereby secured or upon payment to the county of such amount as in the opinion of the board of supervisors equals the net amount which would be realized in the event that the lien was foreclosed or such estate or interest was sold at forced sale.

17406. Any estate, interest, or lien held by the board of supervisors under the provisions of Section 17109, or under the provisions of Section 9 of an act entitled "An act to provide for the aid and relief of indigents," approved June 5, 1933, may be subordinated by them to the lien of any mortgage or deed of trust given to renew or refinance any mortage, deed of trust, or other encumbrance, the lien or charge of which had priority over such estate, interest or lien.

17407. In any case in which the board of supervisors determines, after investigation, that the purposes of this part will be served by releasing or subordinating any lien in whole or in part or reconveying or subordinating in whole or in part any interest or estate transferred or granted to the board of supervisors under the provisions of Section 17109 or under the provisions of Section 9 of an act entitled "An act to provide for the aid and relief of indigents," approved June 5, 1933, and determines that the property affected by such lien, transfer or grant, except such interest or estate as may have

been conveyed to the county, is at the time owned by the recipient of aid, the board of supervisors may release such lien in whole or in part or may reconvey such interest or estate in whole or in part or may subordinate the lien, interest or estate so transferred or granted to it to one or more designated encumbrances executed by the recipient of aid, without consideration or for such consideration as the board may determine.

17408. The releases, reconveyances and subordinations herein provided for shall be authorized by a resolution of the board of supervisors, and the instruments of release, reconveyance, or subordination shall be executed by an officer of the county, designated by the board of supervisors, in the name of the county and the State of California, and any release, reconveyance or subordination authorized by the board of supervisors and executed by the designated county officer shall conclusively bind the county and the state in favor of any bona fide purchaser or encumbrancer for value.

17409. There shall be exempt from the transfers and grants authorized by Section 17109 and from attachment and execution on claims under Section 17403 against property acquired by persons for the support of whom public moneys have been expended all of the following property:

(a) Cash to the amount of fifty dollars ($50).

(b) Personal effects and household furniture to the value of five hundred dollars ($500).

(c) An interment space, crypt, or niche intended for the interment of the applicant or recipient of aid.

(d) Funds placed in trust for funeral or burial expenses to the extent that such funds do not exceed the sum of five hundred dollars ($500).

(e) Insurance policies having an actual cash surrender value of not to exceed five hundred dollars ($500).

(f) Real or personal property of a recipient of public assistance, with respect to aid or county hospital care granted after May 21, 1963.

No county shall withhold emergency medical or hospital care from any person pending his giving security for reimbursement to the county for the care or hospitalization to be provided to him.

PART 6. MISCELLANEOUS PROVISIONS

CHAPTER 1. WELFARE EMERGENCY FINANCING

18000. The purpose of this chapter is to provide for the continued operation of the state plans for aid to the aged, the blind, aid to the disabled, and families with dependent children in the event that federal assistance therefor is temporarily delayed or not available, without the changes and modifications in such plans provided for in this code as a consequence of the withdrawal of federal assistance for such aid from this state.

18001. As used in this chapter "joint public assistance" means aid to families with dependent children, aid to the aged, aid to the blind, and aid to the disabled, and "eligible recipient" means any person eligible for such joint public assistance.

18002. The Governor may, within 15 days prior to the commencement of any fiscal quarter or during any fiscal quarter, proclaim the existence of a period of welfare emergency, whenever he finds as facts all of the following:

(a) Assistance to this state for joint public assistance is provided for by the Federal Social Security Act or other federal legislation.

(b) This state has qualified to receive federal assistance for joint public assistance, and has not been notified that further payment of such federal assistance will not be made because of the failure of this state to comply with the requirements of the federal legislation.

(c) Federal assistance to this state for joint public assistance for the entire fiscal quarter has not been received, and it is improbable that such federal assistance will be received by this state prior to the usual time for transmitting such federal assistance to the counties of this state.

Any period of welfare emergency proclaimed by the Governor pursuant to this section shall commence on the date of the proclamation by the Governor, and shall continue until federal assistance is received by this state for joint public assistance for the first quarter following the date of the proclamation, or until the commencement of the second quarter following that date, whichever first occurs. In no event shall any period of welfare emergency continue for more than four calendar months, nor shall any subsequent period of welfare emergency be proclaimed unless federal assistance has been received by this state for each prior fiscal quarter commencing during any prior period of welfare emergency

18003. Out of any money in the State Treasury not otherwise appropriated, there is hereby appropriated each month to every county within this state for joint public assistance to eligible recipients, an amount, as estimated by the department, equal to the aggregate amount of federal assistance payable to this state under federal law for joint public assistance to eligible recipients within the county. This appropriation is in addition to any other appropriation to the counties of the state for joint public assistance or for any aid within the definition of joint public assistance.

Payment of the sums appropriated by this section shall be made in the manner provided by Chapter 9 of Part 3 of this code.

This section shall be operative only during periods of welfare emergency duly proclaimed by the Governor pursuant to Section 18002.

18004. The sums appropriated by Section 18003 shall be considered for all purposes to be "federal assistance" and

"grants-in-aid" from the United States government for aid to families with dependent children, aid to the aged, aid to the blind, and aid to the disabled, respectively, and shall not be considered to be state moneys or appropriations from the State Treasury. All such sums shall be subject to all of the provisions applicable to funds received by this state from the United States government, and all of the provisions of the chapters governing public assistance programs shall be construed and applied in every respect as if such funds had been in fact received by this state from the United States government. However, none of such sums shall be considered for any purpose to be federal assistance or grants for the cost of administering joint public assistance.

18005. Whenever federal assistance to this state for joint public assistance for any period of welfare emergency during which sums appropriated by Section 18002 have been expended is received by this state, any sums appropriated by Section 18002, which have theretofore been expended for joint public assistance pursuant to this chapter, shall be repaid to the state from the funds so received, and deposited in the General Fund in the State Treasury to the credit of the appropriation made by Section 18002.

CHAPTER 2. COUNTY BOARDS OF PUBLIC WELFARE

18100. In each county, except where county boards of public welfare or boards or officials with like powers are otherwise provided under a charter, the board of supervisors may, and upon the petition of 100 electors of the county shall, appoint seven persons, not more than four of whom shall be of the same sex, who shall constitute a county board of public welfare.

18101. The board of supervisors making the appointments shall designate one member to serve for one year, two for two years, two for three years, and two for four years, and upon the resignation or expiration of the term of each, his successor shall in like manner be appointed for the term of four years. Appointments to fill vacancies caused by death, resignation, or removal shall be made for the residue of such terms in the same manner as the original appointments.

18102. The members of the county board of public welfare shall serve without compensation, and no person shall be appointed or shall serve on such board who is in any manner officially connected with any charitable or correctional institution within the county and supported wholly or partly at public expense.

18103. The clerk of the board of supervisors shall notify each person appointed to the county board of public welfare of his appointment. Within one week after receiving the notice, the persons so appointed shall appear before a judge of the superior court and qualify by taking an oath faithfully to perform to the best of their ability the duties of members of the

county board of public welfare. Within one month after receiving such notice, they shall meet and organize by electing a chairman and a secretary from their own number. The secretary shall file a report of such organization, signed by himself and by the chairman, with the clerk of the board of supervisors, for the information of the board, and shall send a copy of the report to each state department having jurisdiction over any institution or function subject to supervision, inspection, or other control by the county board of public welfare.

18104. The board of supervisors shall appropriate and allow a sum, not exceeding fifty dollars ($50) each year, for the actual expenses of the county board of public welfare for stationery, blanks, postage stamps, traveling, and other necessary incidental expenses, presented and sworn to by its secretary, and approved by the board of supervisors.

18105. The county board of public welfare shall meet quarterly and as much oftener as it deems necessary. It may make such rules for the regulation of its own proceedings as it deems proper.

18106. Whenever the annual report of the board of public welfare to the board of supervisors shows that any member has been absent from two consecutive quarterly meetings, such member shall be deemed to have resigned from the board, and the board of supervisors shall thereupon fill the vacancy caused by such resignation as provided in Section 18101.

18107. At least once each quarter and as much oftener as it deems necessary, the board of public welfare, as a body or by committee, shall visit and inspect the county hospital, the county infirmary or relief home for the aged, and the county jail. As often as it deems proper, or as it is directed by the board of supervisors or by a judge of the superior court, the board shall visit and inspect, in like manner, each jail or lockup in the county, and any charitable or correctional institution in the county, which receives any support from county funds. It shall examine every department of each institution visited and shall ascertain its condition as to effective and economical administration, and the cleanliness, discipline, and comfort of its inmates. It shall carefully study the rules prescribed by the board of supervisors for the control of each county institution, and the suggestions offered by the state departments having jurisdiction over the respective institutions, and shall ascertain whether or not such rules are being complied with.

18108. The board of public welfare may make suggestions for improving the administration to the persons in charge of such county institutions, and may report to the board of supervisors, or to any other official having jurisdiction, any facts which the board believes such officials should know. If the board of public welfare or one of its committees finds in any institution any condition contrary to public policy and good order, or which it believes is injurious to the county or to the

inmates of the institution, it shall report such condition to the board of supervisors or to any other officials having jurisdiction, stating the facts observed and suggesting remedies.

18109. On or before the first Monday in March, June, September, and December of each year, the county board of public welfare shall make a report in writing to the grand jury of the county, if there is any, and if there is none, the board shall file the report with the district attorney who shall present it to the first grand jury thereafter constituted, as soon as impaneled and sworn. Annually on or before the first Monday in June of each year, the board shall present a report to the board of supervisors, which shall be filed as a public document with its clerk. In such annual report the county board of public welfare shall include a report of the attendance of each member of the board at each of its quarterly meetings.

18110. Whenever the county board of public welfare presents any report to the board of supervisors concerning an institution or function under the jurisdiction of any state department, it shall at the same time transmit a copy of such report to the state department having jurisdiction over the institution or function.

Chapter 3. County Demonstration Projects

18200. The Legislature recognizes the necessity to improve the administration of public assistance so as to minimize dependency and reduce the total costs of public welfare services by restorative and preventive measures, and to expand protective services for children and adults.

It is the intent of the Legislature in enacting this chapter to provide state assistance to counties to encourage them to establish demonstration and experimental projects calculated to achieve the objectives stated in this section and to strengthen, extend, and improve public welfare services and their administration.

18201. The department may authorize the payment of state funds to defray in whole or in part the cost of a project undertaken by the county department of any county or by the county departments of a group of counties or by the department in behalf of county departments generally, if the project is consistent with the purpose of this chapter and meets the criteria established pursuant to Section 18202. Any county shall meet at least the cost of equipment, supplies, and facilities required by the staff engaged in carrying out any project approved pursuant to this chapter, except that state funds may be used to defray the entire cost of any project which is undertaken by a group of counties or is directed by the department in behalf of county departments generally or is directed by a recognized institution of higher learning. To the extent this section authorizes the department or a recognized institution of higher learning to undertake and direct a project in behalf of county

departments, the provisions of Section 18202 shall not apply to such projects.

18202. The department shall develop and publish criteria for the submission and approval of county plans for projects proposed to be undertaken pursuant to this chapter. Such criteria shall be so devised as to encourage and stimulate local efforts to improve staff performance and to undertake new and experimental activities specifically designed to increase family responsibility and capacity for self-care.

In order to qualify for state participation in the cost of any local project or activity, the county shall submit a plan to the department, which shall provide the following assurances:

(1) The project or activity will be undertaken and directed by the county department.

(2) None of the state funds will be used to offset or reduce the amount of county funds currently applied to or budgeted for ongoing administrative activities and services.

(3) The employment of personnel with qualifications consistent with the disciplines required by the project.

(4) A system for maintaining records and methods of analyses which will permit accurate and regular evaluations of the results achieved by the project or activity.

18203. Among the projects approved by the department, priority shall be given to those which involve:

(a) Efforts to minimize as much as possible, within the limits of state and federal laws, the administrative differences between the several categories of assistance;

(b) Demonstrations in providing family service programs;

(c) Employment counseling, training, and placement programs for public assistance recipients;

(d) Extension of rehabilitation and self-care services for handicapped and incapacitated persons not accepted for services offered by the Department of Rehabilitation;

(e) Efforts designed to give particular attention to the family where dependency is associated with illegitimacy, parental behavior, delinquency, and other family relationship problems;

(f) Coordinated use of medical, psychiatric, and casework services with public assistance recipients;

(g) Development of caseload management and case classification programs;

(h) Homemaker services for families and adults;

(i) Protective services for both children and adults;

(j) Projects demonstrating use of preventive services related to dependency, family breakdown, or personal maladjustment; and

(k) Participation of county departments in community service programs, particularly in approaches to problems of the underprivileged presented by recipients from minority groups.

18204. To enable it to conduct and administer experimental projects to test methods and procedures of administering assistance and services to recipients of public social services,

the department may waive the enforcement of specific statutory requirements, regulations, and standards in one or more counties or on a statewide basis by formal order of the director. The order establishing the waiver shall provide alternative methods and procedures of administration, shall not be in conflict with the basic purposes, coverage, or benefits provided by law, shall not be general in scope but shall apply only for the duration of such a project and not to exceed three years, and shall not take effect unless and until the following conditions have been met:

a The Secretary of Health, Education and Welfare of the United States has agreed, for the same project, to waive the public assistance plan requirements relative to statewide uniformity.

b A comprehensive plan, including an analysis of the expected costs, has been published in a newspaper of general circulation and filed with the Rules Committee of each house of the Legislature

CHAPTER 4 PROTECTIVE SERVICES FOR CHILDREN

18250. The board of supervisors of any county may establish such programs as are deemed necessary to provide protective services for children, so as to insure that the rights or physical, mental, or moral welfare of children are not violated or threatened by their present circumstances or environment.

18251. As used in this part, "protective services" means social casework consultation and guidance on behalf of children who are in danger of the threatened existence of any of the conditions set forth in Section 600 of this code.

18252. The services authorized by this chapter may be provided and continued irrespective of the financial condition of the child or family concerned and irrespective of whether the child or the family of the child is otherwise a recipient of public aid or assistance.

18253. The administrative responsibility for conducting such programs as are established pursuant to this chapter may be delegated to such county department or departments as the board of supervisors may designate.

CHAPTER 5. CITIZENS' ADVISORY COMMITTEE ON AGING

18300. There is in the Health and Welfare Agency, to advise the Governor on the needs and problems of the senior citizens of California, a Citizens' Advisory Committee on Aging. The committee shall be composed of eight persons appointed by the Governor and selected on the basis of their demonstrated interest in the health, welfare, and happiness and the maintaining of adequate living standards for senior citizens in this state. The committee shall be advisory in character and shall not be delegated any administrative authority or responsibility beyond what is stated in this chapter. The Gover-

nor shall designate the chairman and vice chairman of the committee and committee members shall serve at the pleasure of the Governor. Committee members shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this chapter.

18301. Two Members of the Senate, appointed by the Senate Committee on Rules, and two Members of the Assembly, appointed by the Speaker, shall meet with and participate in the work of the committee to the extent that such participation is not incompatible with their positions as Members of the Legislature. The Members of the Legislature appointed to the committee shall serve at the pleasure of the appointing power. For the purposes of this chapter, such Members of the Legislature shall constitute a joint interim legislative committee on the subject of this chapter and shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and Assembly.

18302. The functions of the committee shall be:

1. To hold hearings on, and in other ways to study, all aspects of the problems of aging and to advise the Governor on action needed to solve these problems.

2. To assist and guide, by providing consultation to, the communities of the state in developing programs to meet the needs of their senior citizens.

3. To work closely with the pertinent departments and agencies of the state government to the end that the resources of the state shall be used as effectively and efficiently as possible in behalf of the senior citizens of California.

4. To act as a clearing house and information center on all aspects of aging. Such information shall be made available to state and local public agencies, voluntary organizations, churches, industry, labor, and all other interested persons and organizations.

18303. The committee shall prepare and render annually a written report of its activities and its recommendations to the Governor, through the Administrator of the Health and Welfare Agency, for improvements and additions to the existing efforts of state government on behalf of the senior citizens of California and to the ways the State of California could encourage and promote programs and services by local communities on behalf of their senior citizens.

18304. The committee may accept gifts and grants from any source, public or private, to assist it in the performance of its functions, and such gifts and grants shall operate to augment any appropriation made for the support of the committee.

CHAPTER 6. COMMUNITY SERVICES FOR OLDER PERSONS

18350. The purpose of this chapter is to promote local community activities which will further the efforts of older

persons, their families, religious groups, legislative bodies, public and voluntary social agencies, and related professions in providing for older persons an opportunity to remain active and contributing members in their community to the fullest extent possible.

18351. Funds appropriated by the Legislature or otherwise subject to expenditure for the purposes of this chapter shall be made available to local public agencies on a matching basis, but the state share of any project shall not exceed 50 percent of the funds expended in connection with that project. Local matching funds may be in the form of cash, facilities, or services on the basis of a local plan submitted to and approved by the Director of Social Welfare. The local plan shall be in the form of a contract setting forth the objectives of the plan and the responsibilities of the local organization. No plan shall be approved unless it is generally available to the older citizens of the community without discrimination because of race, religion, creed, color, national origin or ancestry.

18352. As used in this chapter:

(a) "Public agencies" means any city, county, or other political subdivision of this state.

(b) "Older person" means any person of the age of 50 years or older.

18353. The department shall formulate and promulgate criteria by which community projects are to be approved for matching funds. Such criteria shall be developed by consultation with recognized experts in the field, and interested groups or organizations shall be afforded full opportunity to be heard prior to their publication.

The Citizens' Advisory Committee on Aging, as established by Section 18300 of this code, shall serve in an advisory capacity to the Director of Social Welfare for the purpose of assisting in the establishment of criteria and evaluating proposals under which projects of local public agencies are to be approved as being eligible to receive matching state funds.

18354. The department shall include in its annual report an evaluative summary of the progress made in accomplishing the purpose of this chapter. Such report shall also include a synopsis of local projects submitted to the department for matching funds, showing the action taken in relation to them.

18355. In addition to any funds appropriated by the Legislature to carry out the provisions of this chapter, the department is authorized to receive and expend any private grants of funds made available by individuals, organizations, and foundations.

18356. The governing body of any city or county may construct or acquire facilities to serve as a community service or recreational center for senior citizens.

It is the intent of the Legislature that city and county governments, separately or jointly, should exercise their authority

to raise funds and to make full use of any state or federal funds which are now available or which may be made available in the future to expand the existing facilities which are dedicated to the recreational needs of the elderly. To the extent it is possible to solicit private contributions, either through direct community solicitation or through private foundation grants, those sources shall be used to supplement funds which may be obtainable through tax levies.

CHAPTER 7. UNIFORM TRANSFER OF DEPENDENTS ACT

18400. The department, subject to the approval of the Attorney General, may enter into reciprocal agreements with corresponding state agencies of other states regarding the interstate transportation of poor and indigent persons, and to arrange with the proper officials in this state for the acceptance, transfer, and support of persons receiving public aid in other states in accordance with the terms of such reciprocal agreements; provided, that this state shall not nor shall any county or other political subdivision of this state be committed to the support of persons who are not in the opinion of the department entitled to public support by the laws of this state.

18401. This chapter shall be so interpreted and construed as to effectuate its general purpose to make uniform the laws of those states which enact it.

18402. This chapter may be cited as the Uniform Transfer of Dependents Act.

CHAPTER 8. RELIEF LAW OF 1945

Article 1. General Provisions

18450. This chapter shall be known and may be cited as the Relief Law of 1945.

18451. The provisions of this chapter (except the provisions of this section) are suspended and continue suspended from operation until the occurrence of an economic emergency in this state, which results from widespread hardship and destitution and necessitates immediate action for the relief of such hardship and destitution. No act shall be done nor power be exercised nor money be expended under or pursuant to such provisions until the occurrence of such an economic emergency has been determined as provided in this section.

Ascertainment and determination of the fact of the occurrence of such an economic emergency is committed to the Senate and Assembly and to the Governor. If and when the Senate and Assembly, by concurrent resolution filed with the Secretary of State, find and declare, and the Governor, by his proclamation filed with the Secretary of State, finds and declares, that there exists an economic emergency in this state, which results from widespread hardship and destitution and

necessitates immediate action for the relief of such hardship and destitution (the resolution and the proclamation, respectively, to contain a statement of the facts upon which the finding is based), such an economic emergency is determined to have occurred and to exist, and thenceforth all of the provisions of this chapter are fully operative.

18452. After the provisions of this chapter become operative, the provisions of Part 5 of this division, relating to county aid and relief to indigents, shall not apply to any person who receives or is eligible to receive relief under this chapter; but Part 5 is not repealed by this chapter, and shall continue in full force and effect in respect to persons not eligible to receive relief under this chapter.

18453. As used in this chapter, the terms defined in this article have the meanings set forth in this article.

18454 "Department" means the State Department of Social Welfare.

18455. "Aid" means state financial assistance to counties for the direct cost of relief and the cost of administration thereof.

18456. "Relief" means assistance in cash or in kind provided to individuals or families to relieve hardship and destitution.

Relief to a person includes relief to his dependents, but relief does not include hospital or medical care.

18457. In accordance with the provisions of this chapter, every county shall provide relief to needy persons who are residents of this state.

18458. For the purposes of this chapter, a resident of the state is a person who comes within all of the following descriptions:

(a) Who has lived continuously in the state for a period of one year preceding his application for relief.

(b) Who, during the one-year period, has not received any form of public assistance from any other state or political subdivision thereof.

(c) Who has not lost his residence by remaining away from this state for an uninterrupted period of one year. Absence from the state for labor or other special or temporary purpose does not occasion loss of residence.

18459 For the purposes of this chapter, a person who is a resident of the state is a resident of the county in which he has resided continuously for one year immediately preceding his application for relief.

18460. A county may incur all necessary expenses in transporting a nonresident applicant for or recipient of relief under this chapter to another state or county, when information at hand reasonably tends to show that the person has a legal residence in that state or county. The state shall reimburse the county for the full amount of the cost of such transportation.

Article 2. Administration

18470. The direct administration of this chapter shall be carried out by the boards of supervisors of the several counties, directly or through their authorized agents. The administration shall be supervised by the department.

18471. The department shall:

(a) Establish minimum and maximum standards for the amount and form of relief, on a budgetary basis, as provided in Sections 18472, 18473, and 18474.

(b) Establish standards of eligibility for relief, which shall be of uniform application throughout the state.

(c) Make investigations in relation to the administration of relief.

(d) Secure information and make reports thereon.

18472. The department shall from time to time fix for each county maximum and minimum relief case budgets within the range of which the board of supervisors may establish its own policies.

All budgets and standards shall be based upon need and minimum budgets shall be sufficient to maintain the recipient and his dependents in accordance with minimum living requirements as provided in Section 18473.

18473. In determining and redetermining budgets and standards, the department may give consideration to living costs and may establish budgets and standards varying in monetary worth or amount, but providing a standard of living compatible with decency and health.

18474. Relief may be granted in cash or in kind, but relief may be granted in kind only after the method has been approved by the department.

18475. All income received by a person or family, regardless of source, shall be considered in determining the amount of relief to be provided.

18476. In administering any funds appropriated or made available to the department for disbursement through the counties for relief purposes, the department shall:

(a) Require as a condition for receiving such grants-in-aid that the county shall bear the proportion of the total expense of furnishing relief required to be paid by the county under Section 18521.

(b) Establish rules and regulations, not in conflict with law, defining and controlling the conditions under which state aid may be granted or refused.

(c) Terminate any grants-in-aid to any county if the laws providing such grants, or the minimum standards prescribed by the department, are not complied with by the county or its officers or employees.

18477. If any county fails to comply with the provisions of this chapter or the rules and regulations or orders of the department for the administration of relief by the county under this chapter, the director of the department shall formally

notify the county of the particular respects in which it fails to comply with the law or the rules and regulations of the department, and of the changes which are necessary to effect full compliance. The county shall be allowed a reasonable time to effect compliance; if it fails to do so within such reasonable time, it shall be ordered to appear before the director to show cause, if it has any, for its failure to comply with the law or the rules and regulations of the department.

If a county is charged by the director with failure to comply with the law or the rules and regulations of the department, the county may demand a public hearing before the director. If a hearing is demanded, the director shall hold it promptly.

If the director finds that a county has failed to comply with the law or the rules and regulations of the department, and is unwilling or unable to make the changes necessary to effect full compliance, the director may withhold financial assistance for the direct and administrative costs of relief, or either, until the county complies.

18478. The department may operate the relief administration in any county after the denial of financial assistance to the county in accordance with the provisions of Section 18477, and the county proportion of the costs thereof shall be charged against the county and shall be a proper charge against the county. The department shall certify to the county auditor any amounts so charged against the county, the county auditor shall include in his state settlement report rendered to the Controller in the months of January and June the amounts so certified and due under the provisions of this section, and the county treasurer, at the time of the settlement with the state in such months, shall pay to the State Treasurer, upon the order of the Controller, the amounts due under the provisions of this section.

Article 3. Procedure

18490. Application for relief may be made to the county of which the applicant is a resident, or, in the case of an applicant who is a resident of the state but who is not a resident of any county, to the county in which the applicant is present.

18491. The board of supervisors of every county as a board, or by committee or by such person as it may authorize, shall investigate every application for relief under this chapter, shall supervise by periodic visitation every person receiving such relief, shall devise ways and means for bringing persons unable to maintain themselves to self-support, and shall keep full and complete records of such investigation, supervision, relief, and rehabilitation as shall be prescribed by the department.

Such records shall be confidential and shall not be open to examination or inspection, except by the grand jury of the county or by a board or an officer of the state or the county charged with the supervision or direction of such relief or with

the control of the expenditure of funds applicable to such relief.

Any citizen shall be entitled to demand and receive from the board, officer, committee, or person having custody of such records a statement of the amount, character, and value of the relief received by any person.

18492. Persons eligible for relief, who are residents of the state and residents of the county in which they apply for relief, shall be granted relief by the county of their residence, and the state shall pay to the county the state's share of the cost of the relief.

Persons eligible for relief, who are residents of the state but who are not residents of any county, shall be granted relief by the county in which they apply for relief, and the state shall pay to the county providing the relief the full cost of the relief provided, until such persons have remained in a county for the period necessary to acquire residence in that county.

18493. In case of dispute between two or more counties as to the responsibility for any person, or in case of dispute between a county and the department, either may appeal to the department for a hearing. The decision of the department is final.

18494. If any applicant or recipient is dissatisfied with the action of the board of supervisors, he shall, upon filing a petition with the department, have the right of appeal and shall be accorded an opportunity for a fair hearing The department shall set such appeal for hearing and shall give all parties concerned written notice of the time and place of the hearing. At the hearing, the applicant or recipient may appear in person with counsel of his own choosing or in person and without such counsel

The department shall consider the appeal and shall dismiss the appeal or award relief as prescribed in this chapter. The board of supervisors shall then pay to such person the sum awarded, if any, by the department.

Article 4. Eligibility

18500. Relief shall be provided only to persons who are in need, as determined by an investigation as prescribed by the department. Subject to the rules and regulations of the department, the county shall grant such emergency relief as may be necessary pending completion of the investigation.

18501. As a condition to the grant or continuance of relief, the county may require the recipient to perform work provided by the county. Such work shall not be or replace work which otherwise would be undertaken through private or public employment. All persons performing such work shall be paid the prevailing wage scale for work of a similar character performed in the county.

No state funds shall be used for material or supplies, or for nonrelief employment, on work programs.

18502. Persons who are eligible for aid to the aged under the Old Age Security Law, aid to the blind, aid to the disabled, or aid to families with dependent children (including the caretaker of such children), are not eligible for relief under this chapter.

18503. No person shall be considered a needy person who has made any voluntary assignment or transfer of property for the purpose of qualifying for relief, and any transfer of property, other than heirlooms, made without adequate consideration in money or property within a period of one year prior to making application for relief shall be presumed to have been made for the purpose of qualifying for relief.

18504. No person is eligible for relief who, being physically capable thereof, refuses suitable employment. The department shall define "suitable employment," but no person shall be required to accept work where a labor dispute exists.

Article 5 Responsibility for Repayment

18510. Relief granted to any person who is not entitled thereto under the provisions of this chapter shall constitute a debt of the recipient, to the amount of such relief, to the state and the county participating in the granting of such relief. Recovery may be had upon such debt out of any property of the recipient not exempt from execution.

Any money refunded under the provisions of this section shall be repaid to the state and the county in the proportion that each contributed to the relief granted.

18511. If the spouse, parent, or adult child of any recipient of relief is financially able to contribute to the support of the recipient, such relative is liable to reimburse the state and county for relief granted to the recipient to the extent of his financial ability so to do.

The board of supervisors of the county granting relief shall determine if the spouse, parent, or adult child has financial ability to support or contribute to the support of the recipient and was pecuniarily able to support or contribute to the support of the recipient during the time relief was provided to him. If, in the opinion of the board of supervisors, pecuniary ability existed when the relief was granted, and exists when the matter comes before the board of supervisors, the board shall request the district attorney or other civil legal officer of the county granting the relief to proceed against such responsible relative or relatives.

Upon such request, the district attorney or other civil legal officer shall maintain an action on behalf of the county granting relief against the relative or relatives to recover for the county the relief granted and to secure an order requiring the payment of any sums which may become due in the future.

All money collected by the county under the provisions of this section shall be credited to the state and the county in the proportion that each contributed to the relief granted.

Article 6. Payment of Relief Costs

18520. The provisions of this chapter providing for state payments to counties do not constitute appropriations of money from the State Treasury, and no provision of this chapter shall be construed to make an appropriation. No money shall be available for expenditure under this chapter until an appropriation for that purpose is made by the Legislature.

Any money appropriated to carry out the purposes of this chapter shall be deposited in, and disbursed from, the Relief Fund in the State Treasury, which fund is continued in existence.

18521. (a) Until the rate of county expenditure for the direct and administrative costs of welfare activities under this chapter exceeds, on a fiscal year basis determined not less frequently than quarterly, eight one-hundredths of 1 percent (.08%) of the total assessed valuation of the property subject to county taxation, the state shall not participate in the expenditure.

(b) With respect to county funds expended at a rate exceeding eight one-hundredths of 1 percent (.08%) of the total assessed valuation of the property subject to county taxation, but not exceeding twelve one-hundredths of 1 percent (.12%) thereof, the state shall pay each county eighty percent (80%) of such expenditures.

(c) With respect to county funds expended at a rate exceeding twelve one-hundredths of 1 percent (.12%) of the total assessed valuation of the property subject to county taxation, but not exceeding sixteen one-hundredths of 1 percent (.16%) thereof, the state shall pay each county ninety percent (90%) of such expenditures.

(d) With respect to county funds expended at a rate exceeding sixteen one-hundredths of 1 percent (.16%) of the total assessed valuation of the property subject to county taxation, the state shall pay each county ninety-five percent (95%) of such expenditures.

(e) The state shall pay to each county the full amount of the total costs of relief to persons who are residents of the state but who are not residents of any county.

18522. During such time as grants-in-aid are provided or made available by the United States government for either direct costs or administrative costs of welfare activities under this chapter, or both, the State Treasurer shall transfer the sums so granted to the Relief Fund. Of such sums, there shall be credited to the state an amount which bears the same proportion to the total of the sums so granted that the total state expenditure under this chapter during the period for which

the grants are made bears to the total of both state and county expenditures under this chapter during that period. The remainder of such sums shall be credited to the counties of the state, and the State Treasurer shall pay to each county therefrom an amount which bears the same proportion to the whole of such remainder that the county funds expended by that county under this chapter during the period bears to the total of all county funds expended by all counties under this chapter during the period.

18523 The method of computing and paying the amounts provided for in Sections 18521 and 18522 for each quarter shall be as follows:

(a) The department shall, prior to the beginning of each quarter, estimate the amount to be paid for such quarter to each county under the provisions of Sections 18521 and 18522, such estimate to be based on a report filed by each county containing (1) its estimate of the total sum to be expended in such quarter in accordance with the provisions of this chapter; (2) records showing the number of individuals (cases) estimated to be in need of relief during the ensuing quarter; and (3) such other information and investigation as the department may find necessary.

(b) The department shall then certify to the State Controller the amounts so estimated by it for each county, reduced or increased as the case may be, by any sum by which it finds that its estimate for any prior quarter was greater or less than the amount which should have been paid to the county under this chapter for such quarter.

(c) The State Controller shall thereupon draw the necessary warrants, and prior to audit or settlement by the department and the State Controller, the State Treasurer shall pay to the treasurer of each county the amount so certified.

Upon the order of the department, the amount approved for the quarter may be paid in monthly installments and, if paid in monthly installments, all necessary adjustments for the prior quarters shall be made by additions or deductions from the allowance for the first month of each new quarter or in the manner prescribed by the department.

18524. Reports of payments of relief and of payments for the cost of administration thereof made under this chapter shall be presented by the respective counties at times and in the form prescribed by the department.

Such reports shall be audited by the department and the State Controller and, when and in the amount approved, shall be allowed to the county as a credit to apply against advances made under the terms of Section 18523.

Chapter 9. State Programs for the Blind Other Than Public Assistance

Article 1. Coordinating Council on State Programs for the Blind

18600. There is established a Coordinating Council on State Programs for the Blind, the membership of such council to consist of the Director of Education, the Director of Rehabilitation, the Director of Social Welfare, and the Director of Public Health. The council shall elect a chairman from among its membership, who shall be replaced at the end of six months by another member of the council, who in turn shall be replaced in six months by the third member of the council, who in turn shall be replaced in six months by the fourth member of the council. Upon the expiration of a six-month term for such fourth member of the council, the director from the department originally elected shall again become chairman, to be succeeded in turn in the same order at six-month intervals.

18603. The council may establish such interdepartmental committees as may be necessary to coordinate the programs of the four departments and advise the council on matters of general or specific interest. Persons appointed to the interdepartmental committees shall be employees of the respective Departments of Education, Rehabilitation, Public Health, and Social Welfare.

18604. The council shall meet quarterly, or on call of the chairman, and may invite other persons to attend its meetings in an advisory capacity, and may accept and act upon the advice and counsel of such persons

18605. The council may designate a secretary, who need not be a member of the council, but who shall be an employee of one of the four departments above mentioned.

18606. Expenses entailed in carrying out the functions of this chapter shall be borne by the respective departments incurring such expenses.

Article 2. Oakland Orientation Center for the Blind

the Oakland Orientation Center for the Blind as a residential facility for blind persons, who were residents of the Oakland Orientation Center on March 1, 1951, and as an orientation center for the blind, the Department of Education shall provide comparable services for blind residents and students of the orientation center program in other locations as may be deemed appropriate.

18651. Every blind person who was a resident of the Oakland Orientation Center for the Blind on March 1, 1951, who may be transferred to other facilities either public or private and who is unable to work, shall be considered as a beneficiary of the state in exercise of the power to assist the handicapped, and when he has no other source of income or support, shall receive not less than two dollars ($2) per week as aid for his personal needs. Such payments shall be made from funds appropriated for the support of the Department of Education.

Upon proper representation by the Department of Education to the Department of General Services that any raw material used in the production of articles and commodities is in short supply, the Department of General Services may grant to the Department of Education an authorization to purchase such raw materials without prior approval by any other state agency. After making a purchase of any raw materials in short supply under such authorization, the Department of Education shall notify the Department of General Services of the purchase made and the cost thereof. The Department of General Services may determine when such raw materials are no longer in short supply and withdraw the authorization.

18703. The Department of Education may cause the raw materials, goods in process, finished products, and equipment necessary for the production thereof, of the California Industries for the Blind, wherever located, to be insured against any or all risks of loss.

The cost of such insurance shall be paid from the California Industries for the Blind Manufacturing Fund.

The rate of wages to be paid workers and the conditions of employment in the California Industries for the Blind shall be fixed by the Department of Education.

18706. Blind persons and other physically handicapped persons employed in California Industries for the Blind may authorize deductions to be made from their earnings, in accordance with the rules and regulations of the Director of Education, for the payment of premiums on any policy or cer-

18707. 18708. Blind persons and other physically handicapped persons employed by California Industries for the Blind shall be deemed to be employees of the state for the purposes of unemployment compensation insurance and unemployment compensation disability insurance.

The fund shall be used for the purchase of materials and purchase or rental of equipment needed in the manufacturing, fabricating, or assembly of products, and for the payment of salaries of blind workers engaged in such manufacturing, fabricating, or assembly at any state training center or industrial workshop for the blind operated under the jurisdiction of the Department of Education, and for the payment of employer and worker contributions, penalties and interest, with respect to the services of blind and physically handicapped workers, required under the Unemployment Insurance Code. The fund may be used for the payment of other costs of such manufacturing, fabricating, and assembly, the cost of ad-

ministration of the work program, and cost of distribution of products. The fund may also be used for the refund of overpayment to any person making such overpayment, whatever the amount, to California Industries for the Blind. Any amount due to any person for merchandise returned to the California Industries for the Blind for credit shall be deemed to be an "overpayment" within the meaning of this section.

The Controller shall transfer from the fund to the Old Age and Survivors Insurance Revolving Fund, from time to time, an amount sufficient to pay all costs incurred by the state in the administration of the Old Age and Survivors Insurance System as it affects blind and handicapped persons employed by California Industries for the Blind, and to pay, with respect to such person, the contributions required of an employer under the provisions of Section 3111 of the Internal Revenue Code of 1954.

Money hereafter received from the manufacture, fabrication, assembly, or distribution of products at any state training center or industrial workshop for the blind shall be paid to the State Treasurer monthly, and shall be credited to the California Industries for the Blind Manufacturing Fund.

Whenever, in the opinion of the Director of Education or the Director of Finance, the balance in the revolving fund herein created is greater than is necessary to carry out the purposes of this section, either shall so inform the State Controller and request a transfer of the unneeded balance from the revolving fund to the Genral Fund. The fund may be used for the payment of the cost of distribution of products.

Money received from the manufacture, fabrication, assembly, or distribution of products at any opportunity work center shall be paid to the State Treasurer monthly, and shall be credited to the Opportunity Work Center Revolving Fund.

Whenever, in the opinion of the Director of Education or the Director of Finance, the balance in the revolving fund herein created is greater than is necessary to carry out the purposes of this section, either shall so inform the State Controller and request a transfer of the unneeded balance from the revolving fund to the General Fund. superior court for an order to commit him to a state hospital under the provisions of this code. Such order shall not be made unless the judge finds, and certifies in the order, that such person is not properly or suitably cared for by his relatives or guardian, or that it is dangerous to the public to allow him to be cared for and maintained by such relatives or guardian.

4021. When the department has reason to believe that any person held in custody as mentally ill, mentally retarded or incompetent is wrongfully deprived of his liberty, or is cruelly or negligently treated, or that inadequate provision is made for the skillful medical care, proper supervision, and safekeeping of any such person, it may ascertain the facts. It may issue compulsory process for the attendance of witnesses and the production of papers, and may excercise the powers conferred upon a referee in a superior court. The Department of Mental Hygiene shall send to the Department of Veterans Affairs whenever requested a list of all persons who have been patients for six months or more in each state institution within the jurisdiction of the department and who are known to have served in the armed forces of the United States.

4125. The superintendent of any state institution under the jurisdiction of the Department of Mental Hygiene may deposit any funds of patients in his possession in trust with the Treasurer pursuant to Section 16305.3, Government Code, or, subject to the approval of the Department of General Services, may deposit such funds in interest-bearing bank accounts or invest and reinvest such funds in bonds of the State of California, or in bonds or obligations of the United States of America or for the payment of which the faith and credit of the United States are pledged and for the purposes of deposit or investment only may mingle the funds of any patient with the funds of other patients. The superintendent may deposit the interest or increment accruing on such funds in a special fund, to be designated the "Benefit Fund," of which he shall be the trustee. He may expend the moneys in any such fund for the education or entertainment of the patients of the institution.

4126. Whenever any patient in any state institution subject to the jurisdiction of the Department of Mental Hygiene dies, and any personal funds or property of such patient remains in the hands of the superintendent thereof, and no demand is made upon said superintendent by the owner of the funds or property or his legally appointed representative, all money and other personal property of such decedent remaining in the custody or possession of the superintendent thereof shall be held by him for a period of one year from the date of death of the decedent, for the benefit of the heirs, legatees, or successors in interest of such decedent.

Upon the expiration of said one-year period, any money remaining unclaimed in the custody or possession of the superintendent shall be delivered by him to the State Treasurer for deposit in the Unclaimed Property Fund under the provisions of Article 1 of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure.

Upon the expiration of said one-year period, all personal property and documents of the decedent, other than cash, remaining unclaimed in the custody or possession of the superintendent, shall be disposed of as follows:

(b) All other personal property shall be sold by the superintendent at public auction, or upon a sealed bid basis, and the proceeds of the sale delivered by him to the State Treasurer in the same manner as is herein provided with respect to unclaimed money of the decedent. If he deems it expedient to do so, the superintendent may accumulate the property of several decedents and sell the property in such lots as he may determine, provided that he makes a determination as to each decedent's share of the proceeds;

(c) If any personal property of the decedent is not salable at public auction, or upon a sealed bid basis, or if it has no intrinsic value, or if its value is not sufficient to justify the deposit of such property in the State Treasury, the superintendent may order it destroyed;

(d) All other unclaimed personal property of the decedent not disposed of as provided in paragraphs (a), (b), or (c) hereof, shall be delivered by the superintendent to the State Controller for deposit in the State Treasury under the provisions of Article 1 of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure.

4127. Whenever any patient in any state institution subject to the jurisdiction of the Department of Mental Hygiene escapes, or is discharged or is on leave of absence from such institution, and any personal funds or property of such patient remains in the hands of the superintendent thereof, and no demand is made upon said superintendent by the owner of the funds or property or his legally appointed representative, all money and other intangible personal property of such patient, other than deeds, contracts, or assignments, remaining in the custody or possession of the superintendent thereof shall be held by him for a period of seven years from the date of such escape, discharge, or leave of absence, for the benefit of such patient or his successors in interest; provided, however, that unclaimed personal funds or property of minors on leave of absence may be exempted from the provisions of this section during the period of their minority and for a period of one year thereafter, at the discretion of the Director of Mental Hygiene.

Upon the expiration of said seven-year period, any money and other intangible property, other than deeds, contracts, or assignments, remaining unclaimed in the custody or possession of the superintendent shall be subject to the provisions of Chapter 7 of Title 10 of Part 3 of the Code of Civil Procedure.

Upon the expiration of one year from the date of such escape, discharge, or parole:

(a) All deeds, contracts or assignments shall be filed by the superintendent with the public administrator of the county of commitment of such patient;

(b) All tangible personal property other than money, remaining unclaimed in his custody or possession, shall be sold by the superintendent at public auction, or upon a sealed bid basis, and the proceeds of the sale shall be held by him subject to the provisions of Section 4125 of this code, and subject to the provisions of Chapter 7 of Title 10 of Part 3 of the Code of Civil Procedure. If he deems it expedient to do so, the superintendent may accumulate the property of several patients and may sell the property in such lots as he may determine, provided that he makes a determination as to each patient's share of the proceeds;

If any tangible personal property covered by this section is not salable at public auction or upon a sealed bid basis, or if it has no intrinsic value, or if its value is not sufficient to justify its retention by the superintendent to be offered for sale at public auction or upon a sealed bid basis at a later date, the superintendent may order it destroyed.

4128. Before any money or other personal property or documents are delivered to the State Treasurer, State Controller, or public administrator, or sold at auction or upon a sealed-bid basis, or destroyed, under the provisions of Section 4126, and before any personal property or documents are delivered to the public administrator, or sold at auction or upon a sealed-bid basis, or destroyed, under the provisions of Section 4127, of this code, notice of said intended disposition shall be posted at least 30 days prior to the disposition, in a public place at the institution where the disposition is to be made, and a copy of such notice shall be mailed to the last known address of the owner or deceased owner, at least 30 days prior to such disposition. The notice prescribed by this section need not specifically described each item of property to be disposed of.

4129. At the time of delivering any money or other personal property to the State Treasurer or State Controller under the provisions of Section 4126 or of Chapter 7 of Title 10 of Part 3 of the Code of Civil Procedure, the superintendent shall deliver to the State Controller a schedule setting forth a statement and description of all money and other personal property delivered, and the name and last known address of the owner or deceased owner.

4130. When any personal property has been destroyed as provided in Sections 4126 or 4127, no suit shall thereafter be

maintained by any person against the state or any officer thereof for or on account of such property.

4131. Notwithstanding any other provision of law, the provisions of Sections 4126 and 4127 shall apply (1) to all money and other personal property delivered to the State Treasurer or State Controller prior to the effective date of said sections, which would have been subject to the provisions thereof if they had been in effect on the date of such delivery; and (2) to all money and other personal property delivered to the State Treasurer or State Controller prior to the effective date of the 1961 amendments to said sections, as said provisions would have applied on the date of such delivery if, on said date of delivery, the provisions of Chapter 1809, Statutes of 1959, had not been in effect.

4132. It is hereby declared that the provisions of this code reflect the concern of the Legislature that mentally ill persons are to be regarded as patients to be provided care and treatment and not as inmates of institutions for the purposes of secluding them from the rest of the public.

Whenever any provision of this code heretofore or hereafter enacted uses the term "inmate," it shall be construed to mean "patient."

4133. Any day hospitals and rehabilitation centers maintained by the Department of Mental Hygiene shall be subject to the provisions of this code pertaining to the admission, transfer, and discharge of patients at the state hospitals, except that all admissions to such facilities shall be subject to the approval of the chief officer thereof. Whenever, in the opinion of the Director of Mental Hygiene, it appears that a person committed to the Department of Mental Hygiene for placement in a designated institution would be benefited by a transfer from that designated institution to another institution in the department, the director may cause the transfer of the patient from that institution to another institution under the jurisdiction of the department. Preference shall be given in any such transfer to an institution in an adjoining rather than a remote district.

However, before any inmate of a correctional school may be transferred to a state hospital for the mentally ill, he shall first be returned to a court of competent jurisdiction, and, after hearing, may be committed to a state hospital for the mentally ill in accordance with law.

The expense of such transfers is chargeable to the state, and the bills for the same, when approved by the Director of Mental Hygiene, shall be paid by the Treasurer on the warrant of the Controller, out of any moneys provided for the care or support of the patients or out of the moneys provided for the support of the department, in the discretion of the department.

However, they shall be subject to the general rules of the Director of Corrections and of the facility where they are confined and any correctional employee dealing with such persons during the course of an escape or attempted escape, a fight or a riot, shall have the same rights, privileges and immunities as if the person transferred had been committed to the Director of Corrections.

SEC. 39. Section 6701 of said code is amended to read:

6701. Patients may be transferred to a like institution at the request of relatives or friends, if there is room in the like institution to which transfer is sought and if the Department of Mental Hygiene and the superintendents of the institutions from which and to which the transfer is to be made consent thereto. The expense of such transfer shall be paid by such relatives or friends.

Whenever a person, committed to the care of the Department of Mental Hygiene under one of the commitment laws which provides for reimbursement for care and treatment to the state by the county of commitment of such person, is transferred under Section 6700, to an institution under the jurisdiction of the department where the state rather than the county is liable for the support and care of patients, the county of commitment may have the original commitment vacated and a new commitment issued, designating the institution to which the person has been transferred, in order to absolve the county from liability under the original commitment.

SEC. 41. Section 6720 of said code is amended to read:

6720. When any patient has escaped from any state hospital or from any hospital or facility operated by or under the Veterans' Administration of the United States government, or when a patient's return from leave of absence has been authorized or ordered by the Department of Mental Hygiene or the facility of the Veterans' Administration, any peace officer, upon written request of a state hospital or veterans' facility, shall without the necessity of a warrant or court order, or any officer or employee of the Department of Mental Hygiene designated to perform such duties may, apprehend, take into custody and deliver him to a state hospital or to a facility of the Veterans' Administration, or to any person or place authorized by the Department of Mental Hygiene, or by the Veterans' Administration, as the case may be, to receive him Every officer or employee of the department designated to apprehend or return such patients shall have the powers and privileges of peace officers so far as necessary to enforce the provisions of this section.

As used in this section "any peace officer" means any sheriff, undersheriff, deputy sheriff, constable of a township, chief of police or policeman of a city or town, who is regularly employed and paid as such by a county, township, city or town.

SEC 43 Section 6724 of said code is amended to read:

6724. When any patient has escaped from any public mental hospital in a state of the United States other than

California and is present in this state, any peace officer, health officer, county physician, or assistant county physician may take such person into custody within five years after the escape. Such person may be admitted and detained in the quarters provided in any county hospital or state hospital upon application of the peace officer, health officer, county physician, or assistant county physician. The application shall be in writing and shall state the identity of the person, the name and place of the institution from which he escaped and the approximate date of the escape, and the fact that the person has been apprehended pursuant to this section.

As soon as possible after the person is apprehended, the district attorney of the county in which the person is present shall file a petition in the superior court alleging the facts of the escape, and requesting an immediate hearing on the question of whether the person has escaped from a public mental hospital in another state within five years prior to his apprehension. The hearing shall be held within three days after the day on which the person was taken into custody. If the court finds that the person has not escaped from such a hospital within five years prior to his apprehension, he shall be released immediately.

If the court finds that the person did escape from a public mental hospital in another state within five years prior to his apprehension, the superintendent or physician in charge of the quarters provided in such county hospital or state hospital may care for and treat the person, and the district attorney of the county in which such person is present immediately shall present to a judge of the superior court a petition asking that the person be committed to a state hospital in this state. The hearing on the petition shall be held within seven days after the court's determination in the original hearing that the person did escape from a public mental hospital in another state within five years prior to his apprehension. Proceedings shall thereafter be conducted as on a petition of mental illness. If the court finds that the person is mentally ill it shall order him committed to a state hospital in this state; otherwise, it shall order him to be released. It shall be the duty of the superintendent of the state hospital to accept custody of such person, if he has been determined to be mentally ill. The Department of Mental Hygiene will promptly cause such person to be returned to the institution from which he escaped if the authorities in charge of such institution agree to accept him. If such authorities refuse to accept such person, the superintendent of the state hospital in which the person is confined shall continue to care for and treat the person in the same manner as any other person committed to the hospital as mentally ill.

SEC. 44. Section 6726 of said code is amended to read:

6726. The superintendent of a state hospital for the mentally ill or mentally retarded may grant a leave of absence

to a patient under general conditions prescribed by the Department of Mental Hygiene.

The department may pay at a monthly rate any private home, certified by the department, for any patient on leave of absence from a state hospital during the time such patient is cared for at such private home at a rate not exceeding one hundred thirty dollars ($130) per month. Payments for such care of patients on leave of absence shall be made from funds available to the department for that purpose or for the support of patients in the state hospital or hospitals from which such patients are on leave of absence.

SEC. 45. Section 6726.5 of said code is amended to read:

6726.5. The department may grant certificates to private homes for family care of patients on leave of absence from state hospitals. Such certificates shall be granted without payment of fees. Each such home may care for not more than six (6) patients and shall be regulated by standards established by the department for the care of such patients.

SEC. 46. Section 6727 of said code is amended to read:

6727. No patient shall be discharged or granted a leave of absence from a state hospital without suitable clothing adapted to the season in which he is discharged; and, if it cannot otherwise be obtained, the superintendent, under general conditions prescribed by the Department of Mental Hygiene, shall furnish such clothing and money, not exceeding twenty-five dollars ($25) to defray the necessary expenses of such patient who is going on leave of absence or is to be discharged until he can reach his relatives or friends, or find employment to earn a subsistence.

The superintendent may, under general conditions prescribed by the Department of Mental Hygiene, furnish to patients while on leave of absence such incidental moneys, supplies or services as are necessary and advisable in the care, supervision and rehabilitation of such patients on leave of absence. Payments therefor shall be made from funds available for support of patients in the state hospital or hospitals from which such patients have been granted a leave of absence.

SEC. 47. Section 6734 of said code is amended to read:

6734. If any person who has been duly adjudged to be mentally ill and duly committed to a state hospital under the provisions of any law of this state, and who is absent from the hospital to which he was committed or transferred under the order of commitment, on leave of absence granted by the medical superintendent thereof, or who has been discharged therefrom by the superintendent as provided by this article, desires to be declared sane and restored to reason, the mentally ill person, or a relative or friend on his behalf, may make application in writing to the medical superintendent for a certificate that the person is sane. On receiving such application, the medical superintendent may make such examination of such person and require such proof as he reasonably deems necessary to determine whether or not such person is sane. For

the purpose of making such examination the superintendent may also require the person to present himself at the hospital for examination. If, on making such examination and receiving such proofs as he deems reasonably necessary, the medical superintendent is satisfied that the person has recovered his reason and is sane, or was not mentally ill when admitted to the hospital, the medical superintendent shall issue to the person his certificate that such person is sane, and recovered and restored to reason, and shall file a copy of such certificate with the Director of Mental Hygiene; provided, that if it is the conclusion of the superintendent that such person was not mentally ill when admitted to the hospital, the certificate shall not be so worded as to imply that the person has, in fact, been mentally ill. A duly certified copy of such certificate shall be filed by the Department of Mental Hygiene with the county clerk of the county from which the person was committed and, if no guardian has been appointed for such person, such certified copy and the record thereof shall have the same legal effect as provided in Section 6729 of this code. A copy thereof shall also be filed at the hospital and a proper record made thereof.

SEC. 48. Section 6735 of said code is amended to read:

6735. If the medical superintendent of a state hospital is unwilling or refuses to issue a certificate of recovery upon application as in this article provided, he shall so certify in writing, giving his reasons therefor, and the mentally ill person, or a relative or friend in his behalf, if no guardian has been appointed for such person, may make application, by petition duly verified to a judge of the superior court of the county where such mentally ill person resides, for an order adjudging that the person is sane and restored to reason. Notice of the hearing of the application shall be given in the manner directed by a judge of the court, to the medical superintendent, and to such relative or relatives of the mentally ill person residing in the county as the judge directs, and such persons shall be given opportunity to appear and be heard on the hearing of the application. The hearing shall be conducted in the same manner as civil cases, and on demand of the petitioner the question of the mental illness of the person shall be tried by a jury, as in civil cases. If on the hearing of the application the court is satisfied from the proofs produced, or, if a jury trial is had, and the jury renders a verdict that the person is sane, the court shall by order adjudge the person to be sane and restored to reason. The order shall be filed and recorded in the office of the county clerk and the clerk shall file certified copies thereof with the State Department of Mental Hygiene and also with the superintendent of the hospital from which the mentally ill person was granted leave of absence or discharged. If the matter is tried by a jury the cause against the mentally ill person shall be represented by the district attorney of the county. From a decision of the court or verdict of the jury

finding the person mentally ill, an appeal may be taken as in civil cases. If three-fourths of the jury fail to declare the person sane, or the court or the jury finds the person to be mentally ill, the proceeding shall be dismissed and no new application to declare the person sane shall be made for six months thereafter.

The board shall have the power, in addition to the powers enumerated elsewhere in this act, to levy and collect a ground water charge for the production of water from the ground water supplies within a zone or zones of the district which will benefit from the recharge of underground water supplies or the distribution of imported water in such zone or zones.

SEC. 3. Section 7.2 is added to said act, to read:

Sec. 7.2. As used in connection with the ground water charge, the following words shall mean:

"Person" or "operator" means public agencies, federal, state, and local, private corporations, firms, partnerships, individuals or groups of individuals, whether legally organized or not; "owner" or "operator" also means the person to whom

a water-producing facility is assessed by the county assessor, or, if not separately assessed, the person who owns the land upon which a water-producing facility is located.

"Ground water" means all water beneath the earth's surface, but does not include water which is produced with oil in the production of oil and gas, or in a bona fide mining operation, or during construction operations, or from gravity or artesian springs.

"Production" or "producing" means the act of extracting ground water by pumping or otherwise.

"Water-producing facility" means any device or method, mechanical or otherwise, for the production of water from the ground water supplies within the district or a zone thereof.

"Accumulated overdraft" means the amount of water necessary to be replaced in the intake areas of the ground water basins within the district or any zone or zones thereof to prevent the landward movement of salt water into the fresh ground water body, or to prevent subsidence of the land within any such zone or zones, as determined by the board from time to time.

"Annual overdraft" means the amount, determined by the board, by which the production of water from the ground water supplies within the district or any zone or zones thereof during the water year exceeds the natural replenishment of such ground water supplies in such water year.

"Water year" means July 1st of one calendar year to June 30th of the following calendar year.

"Agricultural water" means water first used on lands in the production of plant crops or livestock for market.

Said zone or zones shall be established and may be amended to the extent and in the manner prescribed in Section 12 of this act.

SEC. 5. Section 7 4 is added to said act, to read:

Sec. 7.4. Ground water charges levied pursuant to this act are declared to be in furtherance of district activities in the protection and augmentation of the water supplies for users within a zone or zones of the district which are necessary for the public health, welfare and safety of the people of this state. The ground water charges are authorized to be levied upon the production of ground water from all water-producing facilities, whether public or private, within said zone or zones of the district for the benefit of all who rely directly or indirectly upon the ground water supplies of such zone or zones and water imported into such zone or zones.

The proceeds of ground water charges levied and collected upon the production of water from ground water supplies within such zone or zones of the district are authorized and

shall be used exclusively by the board for the following purposes.

1. To pay the costs of constructing, maintaining and operating facilities which will import water into the district which will benefit such zone or zones, including payments made under any contract between the district and the State of California, the United States of America, or any public, private or municipal utility.

2. To pay the costs of purchasing water for importation into such zone or zones, including payments made under contract to the State of California, the United States of America, or any public, private or municipal utility.

3. To pay the costs of constructing, maintaining and operating facilities which will conserve or distribute water within such zone or zones, including facilities for ground water recharge, surface distribution, and the purification and treatment of such water.

4. To pay the principal or interest of any bonded indebtedness or other obligations incurred by the district on behalf of such zone or zones for any of the purposes set forth in paragraphs 1, 2 and 3 of this section.

The district may apply to any one or more of the purposes set forth in paragraphs 1, 2, 3 and 4 of this section any or all revenues received by the district from water sale contracts executed by the district pursuant to this act.

SEC. 6. Section 7.5 is added to said act, to read:

Sec. 7.5. Within six months after the date of establishing any such zone or zones, all water-producing facilities located within the boundaries of such zone or zones shall be registered with the district and, if required by the board, measured with a water-measuring device satisfactory to the district installed by the district or at the district's option by the operator thereof. Any new water-producing facility, constructed or reestablished after such date, shall be registered with the district and, if required by the board, measured with a water-measuring device satisfactory to the district within 30 days after the completion or reestablishment thereof.

Failure to register any water-producing facility, as required by this act, is a misdemeanor punishable by a fine of not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment.

In addition to other information which the district may determine is necessary and may require in the registration form provided, there shall also be given information as to the owner or owners of the land upon which each water-producing facility is located, a general description and location of each water-producing facility, the name and address of the person charged with the operation of each water-producing facility, and the name or names and addresses of all persons owning or claiming to own an interest in the water-producing facility.

SEC. 7. Section 7.6 is added to said act, to read:

Sec. 7.6. The district engineer shall annually prepare an investigation and report upon ground water conditions of the district and the zones thereof. The investigation and report shall include, among other information which the district may desire, information for the consideration of the board in its determination of the annual overdraft, information for the consideration of the board in its determination of the accumulated overdraft as of the last day of the preceding water year, a report as to the total production of water from the ground water supplies of the district and the zones thereof for the preceding water year, an estimate of the annual overdraft for the current water year and for the ensuing water year, the amount of water the district is obligated to purchase during the ensuing water year, and a recommendation as to the quantity of water needed for surface delivery and for replenishment of the ground water supplies of the district and the zones thereof for the ensuing year.

SEC. 8. Section 7.7 is added to said act, to read:

Sec. 7.7. On the second Monday in March of each year the engineering investigation and report shall be delivered to the clerk of the district board in writing. Said clerk shall publish, pursuant to Section 6061 of the Government Code, a notice of the receipt of such report and of the public hearing to be held on the second Monday of April in a newspaper of general circulation printed and published within the district, at least 10 days prior to the date at which the public hearing regarding said engineering investigation and report shall be held. Said notice, among other information which the district may provide therein, shall contain an invitation to all operators of water-producing facilities within the district to call at the offices of the district to examine said engineering investigation and report.

There shall be held by the board on the second Monday of April of each year, in the chambers of the board, a public hearing at which time any operator of a water-producing facility within the district, or any person interested in the condition of the ground water supplies or the surface water supplies of the district, may in person, or by representative, appear and submit evidence concerning the ground water conditions and the surface water supplies of the district. Appearances also may be made supporting or protesting said written engineering investigation and report. The board shall, before the levy of the ground water charge, find and determine the average annual overdraft for the immediate past 10 water years; the estimated annual overdraft for the current water year; the estimated annual overdraft for the ensuing water year; the accumulated overdraft as of the last day of the preceding water year; the estimated accumulated overdraft as of the last day of the current water year; the estimated amount of agricultural water to be withdrawn from the ground water supplies of the district and the zones thereof for the ensuing

water year; the amount of water other than agricultural water to be drawn from the ground water supplies of the district and the zones thereof for the ensuing water year; the estimated amount of water necessary for surface distribution for the ensuing water year; the amount of water which is necessary for the replenishment of the ground water supplies of the zones of the district; and the amount of water the district is obligated by contract to purchase.

Said findings and determinations by the board shall be conclusive and binding upon all persons and parties.

SEC. 9. Section 7.8 is added to said act, to read:

Sec. 7.8. Prior to the end of the water year in which said hearing is held, and based upon the findings and determinations from said hearing, the board shall determine whether or not a ground water charge should be levied in any zone or zones. If the board determines that a ground water charge should be levied, it shall levy, assess, and affix such charge or charges against all persons operating ground water-producing facilities within such zone or zones during the ensuing water year. The charge shall be computed at a fixed and uniform rate per acre-foot for agricultural water, and at a fixed and uniform rate per acre-foot for all water other than agricultural water. Different rates may be established in different zones; provided, however, that in each zone the rate for agricultural water shall be fixed and uniform and the rate for water other than agricultural water shall be fixed and uniform.

The ground water charge in any year shall not exceed a fixed and uniform rate of five dollars ($5) per acre-foot for agricultural water, or a fixed and uniform rate of fifteen dollars ($15) per acre-foot for all water other than agricultural water, or a fixed and uniform rate of fifteen dollars ($15) per acre-foot for all water produced from a source within a zone and transported or used out of said zone.

Any ground water charge levied pursuant to this section shall be in addition to any general tax or assessment levied within the district or any zone or zones thereof.

Clerical errors occurring or appearing in the name of any person or in the description of the water-producing facility where the production of water therefrom is otherwise properly charged, or in the making or extension of any charge upon the records which do not affect the substantial rights of the assessee or assessees, shall not invalidate the ground water charge.

SEC. 10. Section 7.9 is added to said act, to read:

Sec. 7.9. The district, after the levying of the ground water charge, shall give notice thereof to each operator of each water-producing facility in the zone or zones as disclosed by the records of said district, which notice shall state the rate for each class of water of the ground water charge for each acre-foot of water to be produced during the ensuing water year. Said notice may be sent by postal card or by other first-class mail and with postage prepaid by the district.

SEC. 11. Section 7.10 is added to said act, to read:

Sec. 7.10. After the establishment of a zone in which a ground water charge may be levied, each operator of a water-producing facility within said zone, until such time as said water-producing facility has been permanently abandoned, shall file with the district, on or before the 31st day of January and on or before the 31st day of July in each year, a statement setting forth the total production in acre-feet of water for the preceding six-months period (excluding the month in which the statement is due), a general description or number locating each water-producing facility and the method or basis of the computation of such water production. If no water has been produced from said water-producing facility during the preceding six-months period, said statement shall be filed as provided for herein, setting forth that no water has been produced during said period. Said statement shall be verified by a written declaration that it is made under the penalties of perjury. The ground water charge is payable to the district on or before the last date upon which the water production statement shall be filed, and is computed by multiplying the production in acre-feet of water for each classification as disclosed in the statement by the ground water charge for each classification of water. At such time as any said water-producing facility has been permanently abandoned, the operator thereof shall give written notice of such abandonment to the district. If any operator of a water-producing facility shall fail to pay the ground water charge when due, the district shall charge interest at the rate of 1 percent each month on the delinquent amount of the ground water charge.

Should any operator of a water-producing facility fail to register each water-producing facility, or fail to file the water production statement as required by this act, the district shall, in addition to charging interest as provided herein, assess a penalty charge against such operator in an amount of 10 percent of the amount found by said district to be due.

The board may, at the time of fixing the ground water charge, establish a method or methods to be used in computing the amount of water produced from a water-producing facility which is not measured by a measuring device. Such methods may be based upon any, or all, or a combination of some of the following criteria: size of water-producing facility discharge opening, area served by the water-producing facility, number of persons served by the water-producing facility, use of land served by the water-producing facility, crops grown on land served by the water-producing facility, or any other criteria which may be used to determine with reasonable accuracy the amount of water produced from such water-producing facility.

SEC. 12. Section 7.11 is added to said act, to read:

Sec. 7.11. Upon good cause shown, an amended statement of water production may be filed or a correction of the records may be made at any time prior to the final date for filing the next semiannual water production statement.

SEC. 13. Section 7.12 is added to said act, to read:

Sec. 7.12. The district shall prepare each year a record called "The Record of Water Production and Ground Water Charges" in which shall be entered a general description of the property upon which each water-producing facility is located, an identifying number or code which is assigned to such facility, the annual water production for each class of water produced from each water-producing facility, and the ground water charge for each class of water.

SEC. 14. Section 7.13 is added to said act, to read:

Sec. 7.13. The superior court of the county in which the district lies may issue a temporary restraining order upon the filing by the district with said court of a petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district, or that such defendant is delinquent in the payment of a ground water charge. Such temporary restraining order shall be returnable to said court on or before 10 days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established at the hearing that the defendant has failed to register such water-producing facility with the district, or that the defendant is delinquent in payment of ground water charges thereon. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed 10 days to permit the defendant to register the water-producing facility or to pay the delinquent ground water charge.

Service of process is completed by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which it is located and by personal service upon the named defendant.

The right to proceed for injunctive relief granted herein is an additional right to those which may be provided elsewhere in this act or otherwise allowed by law. The procedure provided in Chapter 3 (commencing with Section 525), Title 7, Part 2, of the Code of Civil Procedure, regarding injunctions shall be followed except insofar as it may herein be otherwise provided. The district shall not be required to provide an undertaking or bond as a condition to granting injunctive relief.

SEC. 15. Section 7.14 is added to said act, to read:

Sec. 7.14. If the district has probable cause to believe that the production of water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering any water-producing facility, the district may cause an investigation and report to be made concerning the production of water from each such water-producing facility. The district may fix the amount of water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing fa-

cility; provided, however, where a water-measuring device is permanently attached thereto, the record of production, as disclosed by such water-measuring device, shall be presumed to be accurate and the burden is upon the district to establish to the contrary.

After such determination has been made by the district, a written notice thereof shall be mailed to the person operating such water-producing facility at his address as shown by the district's records. Any such determination made by the district shall be conclusive on all persons having an interest in such water-producing facility, and the ground water charge, interest and penalties thereon, shall be paid forthwith, unless such person files with the board within 10 days after the mailing of such notice, a written protest setting forth the ground or grounds for protesting the amount of production so fixed. Upon the filing of such protest, the board thereafter shall hold a hearing at which time the total amount of the water production and the ground water charge thereon shall be determined, which shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to the protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant, who shall have 20 days from the date of mailing to pay the ground water charge, interest or penalties provided by the provisions of this act.

Notice as required in this section shall be given by deposit thereof in any postal facility regularly maintained by the government of the United States in a sealed envelope with postage paid, addressed to the person on whom it is served at his name and address as disclosed by the records of the district. The service is complete at the time of deposit.

SEC. 16. Section 7.15 is added to said act, to read:

Sec. 7.15. The district may bring a suit in the court having jurisdiction against any operator of a water-producing facility within the district for the collection of any delinquent ground water charge. The court having jurisdiction of said suit, may, in addition to allowing recovery of costs to said district as allowed by law, fix and allow as part of the judgment interest and penalties as provided in Section 26 9. Should the district, as a provisional remedy in bringing such suit, seek an attachment against the property of any named defendant therein, the district shall not be required to provide a bond or undertaking as is otherwise provided for in the Code of Civil Procedure of the State of California in Chapter 4 (commencing with Section 537), Title 7, Part 2, thereof.

SEC. 17. Section 7.16 is added to said act, to read:

Sec. 7.16. It shall be unlawful to produce water from any water-producing facility required to be registered pursuant to the terms of this act unless such water-producing facility has been registered with the district within the time required by the provisions of this act and, if required by the board, has a

water-measuring device affixed thereto capable of registering the accumulated amount of water produced therefrom

Violation of this provision shall be punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail for not to exceed six months, or by both such fine and imprisonment. Each day of operation in violation hereof shall constitute a separate offense.

SEC. 18. Section 7.17 is added to said act, to read:

Sec. 7.17. Any person who injures, alters, removes, resets, adjusts, manipulates, obstructs or in any manner interferes or tampers with or procures or causes or directs any person to injure, alter, remove, reset, adjust, manipulate, obstruct or in any manner interfere or tamper with any water-measuring device affixed to any water-producing facility as required by this act, so as to cause said water-measuring device to improperly or inaccurately measure and record said water production, or any person who with intent to evade any provision or requirement of this act files with the district any false or fraudulent water production statement is guilty of a misdemeanor and is punishable by a fine not to exceed five hundred dollars ($500), or imprisonment in the county jail not to exceed six months, or by both such fine and imprisonment.

SEC. 19. Section 9.3 of said act is amended to read:

Sec. 9.3. A general district election shall be held in the district on the second Tuesday after the first Monday in February in each odd-numbered year, at which a successor shall be chosen for each director whose term of elective office expires thereafter. The term of elected directors expires at noon on the first Tuesday in March of the next odd-numbered year after the year in which the meeting provided for in Section 9.1 is held.

One hundred days before the election the board of directors shall cause to be published once a notice to the effect that petitions of nomination may be filed for the office or offices of director to be filled at the election.

Not more than 91 days and not less than 60 days prior to the election, any five or more landowners of the district may file with the board of directors a petition requesting that the name of a certain person be placed upon the ballot as a candidate for the office of director. Each person nominated shall be an owner of land and a resident within the district. For this purpose ownership of land may be shown by reference to the last equalized assessment roll of the county. Prior to casting a ballot at such election every voter must execute an affidavit that he is an owner of land within the district at the time of the election and submit such affidavit with his ballot.

SEC. 20. Section 9.4 of said act is amended to read:

Sec. 9.4. If on the 50th day prior to the day fixed for the general district election it appears that one person but not more than one, or that no person, has been nominated for the position of director, which is to be filled at that election, and that a petition, signed by not less than 5 percent of the land-

owners of the district requesting that the general district election be held has not been filed with the board of directors, the board of supervisors at a regular, adjourned or special meeting held prior to the day fixed for the election shall appoint to the position the person who has been nominated therefor, or if no person has been nominated, any qualified person. The person so appointed shall qualify, take office and serve exactly as if elected at a general district election.

In such instances a notice that no election is to be held but that the board of supervisors will appoint the nominated, or qualified person if none has been nominated, for said position of director, shall be published by the board of directors once at least five days prior to the date on which the election would have been held.

Notice that such appointment may be made by the board of supervisors in the event that only one or no nomination is made and no petition requesting an election is filed shall be published by the board of directors in a newspaper of general circulation in the district, once, not less than 7 days and not more than 14 days prior to the final day on which nominations may be made.

SEC. 21. Section 38.3 is added to said act, to read:

Sec. 38.3. Any parcel, parcels, or tract of land may be annexed to a zone if the land will be benefited, and any parcel, parcels, or tract of land within any zone may be excluded if not benefited.

Proceedings for annexation or exclusion may be instituted by the board by resolution specifying its intention to annex or exclude such parcel, parcels, or tract of land, describing the proposed land to be annexed or excluded and specifying a time and place for public hearing on said resolution, which public hearing may be held at any place within the district. Notice of the time and place of said hearing shall be mailed to each landowner in the area sought to be annexed or excluded at his address as shown on the last equalized assessment roll of the county at least 20 days prior to the date of said hearing. The notice shall also be published in a newspaper of general circulation within the district pursuant to Section 6066 of the Government Code.

The alternative, such proceedings may be instituted by the filing with the board a petition signed by 10 percent or more of the owners of the land sought to be annexed or excluded. The petition shall contain:

(a) The name of the zone affected by the annexation or exclusion;

(b) The reason for annexation or exclusion of the land;

(c) A description of the land to be annexed or excluded;

(d) The assent of the petitioners to the annexation or exclusion; and

(e) A request that the described land be annexed to or excluded from the zone.

When the petition has been filed with the board, the board shall fix a time and place for a public hearing thereon, which public hearing may be held at any place within the district, and cause a notice of such hearing to be given as hereinbefore provided.

Failure to show cause why the change should not be made by any person interested in or affected by the change is deemed to be his ascent to any change the board may make in the zone boundaries.

At the conclusion of the hearing, if it deems the annexation or exclusion of all or part of the land to be for the best interest of the zone, the board may by resolution annex or exclude all or part of the land sought to be annexed or excluded and shall, in such resolution, describe the zone boundaries as charged. If no effective date for such annexation or exclusion is specified in the resolution, then the effective date shall be deemed to be the date of the resolution.

Any land or territory annexed to a zone pursuant to this section shall assume and be liable for its proportionate share of any existing outstanding debts or obligations of the zone.

CHAPTER 1813

An act to amend Section 1229 of the Education Code, relating to unified school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 1229 of the Education Code is amended to read:

1229. If a unified district governed by a board of education of five members includes a chartered city, the charter of which provides for a board of education, the members of which are to be elected pursuant to this code and to hold office for the terms provided by this code, and three members of such board of education were elected to hold office for a term expiring during the school year commencing on the date the district was formed for all purposes, the office of three members of the board of education shall be filled at the first election of governing board members following such date of formation for all purposes.

The term of office of such three members shall be determined by lot. The term of one member shall expire on June 30th of the next succeeding odd-numbered year following his election; and the terms of two members shall expire on June 30th of the second succeeding odd-numbered year following their election. The persons elected to succeed such three members shall hold office for four years.

In a unified school district formed pursuant to Chapter 10 (commencing with Section 3100) of Division 5 which includes a chartered city, the governing board of the district shall be the board of education of such city or city and county; provided, that all qualified electors residing within the unified school district are eligible to vote at all elections held for the election of members of the city board of education and any elector residing in the district, or in a trustee area if the district is divided into trustee areas, is eligible to serve as a member of said board.

In the event a unified district includes a chartered city the governing board of the unified district shall consist of either five or seven members and shall be elected at large or by trustee areas, as designated by the unification proposal, and

any elector residing in the district, or in a trustee area if the district is divided into trustee areas, is eligible to serve as a member of the board. The first governing board of any such unified school district shall be elected in the manner prescribed by Section 1102, except where the charter of the included chartered city expressly provides for the election of the first governing board of a newly formed unified school district, in which case such provisions of the charter shall control the election of the governing board.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Legislature has stated in Chapter 10 (commencing with Section 3100) of Division 5 of this code (Stats. 1964, Ch. 132) that it is the intent and purpose of the Legislature that the procedures prescribed by the provisions of said chapter be utilized for the formation of unified school districts, and the Legislature has further prescribed in said chapter time limitations within which such unification shall be accomplished. In order to eliminate delay in the formation of unified school districts which include chartered cities it is necessary that this act take effect immediately.

An act to add Sections 9159, 9160 and 9161 to the Education Code, relating to curriculum publications.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 9159 is added to the Education Code, to read:

9159. If the county superintendent of schools has prepared or published basic courses of study and teachers' guides relating thereto, for use in connection with the teaching of any subject or curriculum, no unified school district in the county which had less than 5,000 units of average daily attendance during the preceding fiscal year exclusive of any attendance in a junior college operated by the district, no high school district in the county which had less than 5,000 units of average daily attendance during the preceding year exclusive of any attendance in a junior college operated by the district, and no elementary school district in the county which had less than 10,000 units of average daily attendance during the preceding year shall prepare or publish similar materials, but shall use the materials prepared or published by the county superintendent relating to the same subject matter. Upon application from the district governing board, a county board of education may grant to the district permission to develop basic courses of study or teachers' guides, or both, when the need for such district development has been demonstrated to the satisfaction of the county board of education.

Nothing contained in this section shall be construed as a restriction on individual classroom teachers in developing material to be used by them as a part of the instructional program under their direction

This section shall not apply to a countywide unified school district. This section shall become operative on July 1, 1966, except that any district which, as of June 30, 1965, was in the process of preparation or publication of basic courses of study and teachers' guides relating thereto for use in connection with the teaching of any subject or curriculum may complete the

preparation and publication of such basic courses of study and teachers' guides.

The county school publications review board shall meet as often as is necessary to carry out its duties, pursuant to Section 9161.

SEC. 3. Section 9161 is added to said code, to read:

9161. The county school publications review board, if established by the county board of education, shall serve in an advisory capacity to the county board of education in its review of school district applications submitted pursuant to Section 9159. It shall further be the responsibility of the review board to screen all basic courses of study and teachers' guides and other curriculum publications published by the office of the county superintendent of schools and by the several school districts in the county, with the purpose of recommending to the county board of education ways and means of reducing the duplication of such material to the greatest extent possible. The review board may recommend to the county board of education that basic courses of study, teachers' guides and other curriculum publications published by individual school districts in the county be adopted for countywide use in lieu of a publication on the same subject by the county superintendent of schools. If such an arrangement is approved by the county board of education, the county school service fund may be used to finance the cost of the publication, through a contractual arrangement between the county superintendent of schools and the school district producing the publication.

CHAPTER 1817

An act to add Section 12800.5 to the Vehicle Code, relating to drivers' licenses.

photograph of the licensee in profile. A license issued to any person 21 years of age or over shall bear a fullface photograph of the licensee. If a person is issued a license while under 21 years of age, and such person reaches the age of 21 years before the license expires, the department shall issue to him, upon application therefor, a license bearing a fullface photograph, upon payment of the duplicate license fee specified in Section 14901.

The department may demand proof of age prior to the issuance of a license.

CHAPTER 1818

An act to add Section 816 to, and to add Article 13.3 (commencing with Section 995) to Chapter 1 of Part 2 of Division 1 of, the Insurance Code, relating to the business of insurance.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 816 is added to the Insurance Code, to read:

816. No insurer shall pay any person given discretion as to settlement of claims under policies of automobile or automobile liability insurance, whether in direct negotiation with the claimant or in supervision of the person negotiating, a compensation which in any way is contingent upon the amount of settlement of such claims, except as in this section otherwise expressly provided.

This section shall apply equally to a single claim, a number of specified claims, an aggregate of claims during a specified period of time or an aggregate of claims under any contract, agreement or arrangement.

This section shall not affect the interpretation or provisions of Section 815.

The word "person" as used in this section includes, but is not limited to: employees, agents, brokers, representatives, general agents, managing general agents, surplus line brokers, insureds, coinsureds, adjusters and independent contractors but does not include attorneys in fact or other exclusive managers of an insurer.

This section does not apply to:

(a) Compensation of a producer, managing general agent, surplus line broker or general agent under any arrangement, agreement or contract whereby the producer or general agent is not granted discretion in the actual adjustment or settlement of any or all individual claims settled for an amount exceeding five hundred dollars ($500).

(b) A producer, managing general agent, surplus line broker or general agent who is compensated by a contingent

commission arrangement based wholly or partly on underwriting results, unless the arrangement guarantees an agreed return to the insurer which may exceed the underwriting profit actually earned by the insurer on business written through the producer, managing general agent, surplus line broker or general agent.

(c) Contracts of reinsurance between insurers.

(d) An arrangement, schedule of charges, agreement or contract, express or implied, for the adjustment of claims under which the compensation for the services of the person making the adjustment (exclusive of reimbursement for actual expenses) consistently increases, in reasonable brackets, as the amount paid in settlement of a claim increases.

An insurer which in any other jurisdiction is making payments which would be in violation of this section if made in respect to insurance business done in this state shall not be admitted to this state until it presents evidence satisfactory to the commissioner that it will not make such payments in this state and that it will within one year after admission to this state cease to make any such payments in any other jurisdiction and, within the same period, terminate any contract or arrangement under which such payments are to be paid. Failure to so cease such payments and to so terminate such contracts and arrangements within such period of one year shall constitute grounds for revocation of the insurer's certificate of authority.

SEC. 2. Article 13.3 (commencing with Section 995) is added to Chapter 1 of Part 2 of Division 1 of the Insurance Code, to read:

Article 13.3. Obligations of Automobile Insurers and Their Agents Under Contingent and Retrospective Compensation Arrangements

995. (a) As used in this article, "contingent compensation arrangement" means an arrangement having as its purpose the payment of a variable commission by the insurer, depending on the overall operating profit on the insurance business produced and handled by the payee, with other provisions of the arrangement auxiliary or incidental to such purpose.

(b) As used in this article, "retrospective commission arrangement" means an arrangement having as its purpose the retention by the insurer of a fixed proportion of the gross premiums, or gross premiums plus policy fees with the balance of the premiums, or premiums plus policy fees, retained by the producer of the business, who assumes to pay therefrom all losses, all subordinate commissions, loss adjustment expenses and his profit, if any, with other provisions of the arrangement auxiliary or incidental to such purpose.

(c) The phrases defined in subdivisions (a) and (b) of this section shall not be deemed to include a contingent commission

arrangement of a producer, managing general agent, surplus line broker, or general agent based wholly or partly on underwriting results, unless the arrangement guarantees an agreed return to the insurer which may exceed the underwriting profit actually earned by the insurer on business written through the producer, managing general agent, surplus line broker, or general agent.

(d) As used in this article, "policy fee" means any sum specified in the policy as paid, or payable, in addition to the specified premium, as a consideration for the policy; and does not include expenses customarily charged to the insured which are not recited in the policy.

(e) This article shall apply only to automobile and automobile liability insurance.

995.1. An agent, broker, surplus line broker, general agent or other person operating under a contingent or retrospective compensation arrangement with any insurer shall promptly notify the insurer of every policy claim against the insurer of which he has knowledge with sufficient particulars to enable the insurer to establish an adequate claim reserve. Every insurer so notified of a policy claim or receiving independent knowledge of any policy claim shall promptly make a record thereof and establish a claim reserve for the same.

If the commissioner has reason to believe such agent, broker, general agent or other person is not so notifying the insurer, he shall give the insurer seven days written notice of such belief and if the insurer does not correct the situation within seven days thereafter he may examine such agent, broker, general agent or other person at the expense of the insurer.

In the case of any arrangement whereby the producer receives from the insurer an initial percentage commission to be augmented if loss ratios or profits are more favorable than a stated standard, the insurer shall establish a contingent commission reserve for the amount, if any, which will become due to the producer because of such favorable loss ratios or profits.

Notwithstanding any provision of the contingent or retrospective arrangement, such claims and contingent commission reserves shall be a liability of the insurer.

Nothing contained in this section is intended to prohibit reasonable arrangements between a managing general agent, surplus line broker or general agent and an insurer which provide (a) for the amount of claim reserve to be recommended by the managing general agent, surplus line broker or general agent to the insurer, without particulars other than those needed by the insurer to establish the claim reserve on its books, or (b) for the handling of claim reserves on smaller claims of not more than two thousand dollars ($2,000) each on a bulk or group basis, upon recommendation of the amount by the managing general agent, surplus line broker or general agent, or (c) for the handling of losses not exceeding five hundred dollars ($500) each by the managing general agent, surplus line broker or general agent without establishment of

claim reserves, or (d) for the reporting of losses and recommended reserves by the managing general agent, surplus line broker, or general agent on a monthly basis.

995.2. An insurer shall not claim as an asset by reason of any provision of a contingent or retrospective compensation arrangement, any account due from the other party pursuant to such an arrangement in an amount in excess of the money actually held by such party in a trusteed bank account for such insurer, unless such party is solvent without giving effect to any contingent or retrospective compensation not specifically acknowledged in writing by the insurer as settled in amount and payable in cash, or usable as an absolute offset against the insurer, within 90 days.

If the commissioner has reason to doubt the solvency of any person dealing with an insurer under a contingent or retrospective commission arrangement, he may examine him at the expense of the insurer.

Nothing contained in this section is intended to modify any provision contained in Section 1735 of this code.

995.3. Every person operating under a retrospective or contingent compensation arrangement with any insurer shall report to the insurer within a reasonable time, and policy by policy, the full premium charge including any policy fee made to the insured and the amount of premium and policy fee, if any, collected from the insured in respect to each such policy. Such reporting need not be policy by policy in a case where such arrangement covers only policies which are all uniform in coverage, uniform as to premium and such premium is not over ten dollars ($10) annually.

If the commissioner has reason to believe any such person is not complying with this section, he shall give the insurer seven days written notice of such belief and if the insurer does not correct the situation within seven days thereafter, he may examine such person at the expense of the insurer.

Nothing contained in this section is intended to prohibit or invalidate use of the bordereau method of accounting or accounting by transmission of computer data by a managing general agent, surplus line broker, or general agent, nor to require him to report premium collections to an insurer where the managing general agent, surplus line broker, or general agent is liable to pay the insurer bordereau or accounting balances in full whether collected or not.

995.4. An insurer, notwithstanding the provisions of any contingent or retrospective compensation arrangement with any person, shall maintain as a liability, as part of its unearned premium reserve the unearned portion of all premium charges made to insureds without deduction for uncollected charges.

995.5. An insurer, notwithstanding the provisions of any contingent or retrospective compensation arrangement with any person, shall report and pay the premium tax liability set forth in the Revenue and Taxation Code on the basis that it

has received the full premium charge including policy fees made to the insureds under policies less return premiums as permitted by law.

995.6. The provisions of Sections 995.1, 995.2, and 995.3 permitting the commissioner, in certain situations, to examine a person operating under a contingent or retrospective commission arrangement with an insurer at the expense of the insurer, and the other provisions of this article, shall not prevent the insurer from making a contract in advance with such person that in such event the person will reimburse the insurer for such expense. If in the course of examining such person the commissioner finds such person also operates under such contingent or retrospective commission arrangements with other insurers, he may prorate the expense of examination on an equitable basis among all the insurers so dealing with the person.

995.7. The purposes of Section 816 and the provisions of this article are to promote the solvency of insurers and the producers dealing with them under contracts, arrangements and practices therein described; to protect the public from unjustifiable claims practices and the inconvenience, hardship and possible loss attendant upon the insolvency of any of the insurers or persons described therein; and to prevent any frauds or mistakes which may arise from any of the contracts, arrangements or practices described therein. In furtherance of these purposes the commissioner shall at least 90 days prior to charging any person with a violation of Section 816 or the provisions of this article make reasonable rules and regulations clarifying or defining any word, term or phrase used in Section 816 or in this article, including establishment of detailed standards to determine solvency as that word is used in Section 995.2. Such rules and regulations shall be adopted, amended or repealed in accordance with the procedures provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

CHAPTER 1819

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 12812 is added to the Vehicle Code, to read:

12812. In the event that a driver is presumed to be a negligent operator as defined in Section 12810, the department may as a condition of probation issue a restricted driver's license to

SEC. 2. Section 13364 of said code is amended to read:

13364. The department, upon receiving a record of the conviction of any person upon a charge of violating Section 14601:

(a) Shall suspend or revoke the driving privilege of the person for an additional period, not to exceed 12 months, equal to any term of suspension or revocation in effect at the time of the violation. The suspension or revocation shall be made effective upon the date of conviction.

(b) May suspend for a period not to exceed six months if the conviction was upon a charge of driving while the driving privilege was revoked or suspended for an indeterminate period or, during a period of suspension or revocation in which the termination is dependent upon an action by the person suspended or revoked.

The people of the State of California do enact as follows:

SECTION 1. Section 27132 of the Education Code is amended to read:

27132. All grants shall be made according to the provisions of this chapter and the terms of the written contracts entered into between the respective public agencies and the State Librarian. These contracts, for establishment and per capita grants, shall, among other things:

(c) Specify that payment is to be conditioned upon receipt by the board of any progress report from the system, if it is one which has been requested for submission by the date of payment by the State Librarian.

(e) Specify that all requirements of Section 27131 shall be met.

The State Librarian may then approve grants in the full amount to which the public agencies would be eligible were they to meet all standards, subject to the condition that a review will be made by the State Librarian of the provisional annual reports for the library systems, and that the second annual per capita grant will be contingent upon satisfactory achievement of the goals set up for the first fiscal year, according to the plan of service.

SEC. 6. Section 2 of this act shall not be operative unless the Legislature enacts a formula to insure that factors such as need, effort and ability shall govern the apportionment of state aid under Chapter 1.5 (commencing with Section 27111) of Division 20 of the Education Code. SECTION 1. Article 10 (commencing with Section 25180) is added to Chapter 1 of Part 2 of Division 2 of Title 3 of the Government Code, to read:

Article 10. Compensation

25180. In enacting this article, the Legislature recognizes the public policy of this state, that decisions on a matter purely of local concern should be made by the citizens directly affected by that decision.

Being desirous of protecting the principle of home rule, and recognizing the importance of the process of determining suitable compensation for public service, the Legislature provides in this article for an appropriate expression of the view of local authorities as a basis for increase of the compensation of members of boards of supervisors.

25181. In addition to the recommendation of the grand jury of a county made pursuant to Section 927 of the Penal Code, the board of supervisors of a county for which an increase of compensation is proposed, shall transmit to the Legislature a resolution expressing the conclusion of the board of supervisors with respect to such matter, in order to provide the Legislature with a basis for informed legislative action.

CHAPTER 1824

An act to amend Section 225p of the Civil Code, and to amend Section 1642 of the Welfare and Institutions Code and Section 16102 of Division 9 of the Welfare and Institutions Code as proposed by Assembly Bill 1682 of the 1965 Regular Session, relating to adoptions.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 225p of the Civil Code is amended to read:

225p. Whenever a petition is filed for the adoption of a child who has been placed for adoption by a licensed county

adoption agency, the county adoption agency may, at the time of filing a favorable report in the superior court, require the persons petitioning to become the adoptive parents to pay to the county agency, as agent of the state, a fee of five hundred dollars ($500). The amount of the fee collected which exceeds three hundred dollars ($300) shall be placed in a special deposit fund for the purpose of providing for the expense of prenatal care, delivery and postnatal care of mothers pursuant to Section 1642 of the Welfare and Institutions Code. No part of the expense shall be paid if application for maternity care assistance is made more than 30 days after birth of the child. The county adoption agency may defer, waive or reduce the fee when its payment would cause economic hardship to the adoptive parents detrimental to the welfare of the adopted child.

Nothing in this section shall be construed to require the payment of such fee to a county in the case of an adoption resulting from the independent placement of a child.

SEC. 2. Section 1642 of the Welfare and Institutions Code is amended to read:

1642. Any county maintaining a licensed county adoption agency may enter into an agreement with a licensed physician and surgeon, a hospital operated by the Regents of the University of California, or a licensed hospital other than a county hospital to pay all or part of the expense of prenatal care, delivery and postnatal care including hospitalization in connection therewith given to any mother, when such mother is in the opinion of the licensed county adoption agency financially unable to provide such care.

Nothing in this section shall be construed as to require the execution of any agreement on the part of the county. No agreement to pay shall be entered into, nor shall the expense of such care be paid by any county or licensed county adoption agency unless the mother has requested such county agency to study the child with a view to accepting a relinquishment for adoptive placement.

SEC. 3. Section 16102 of Division 9 of the Welfare and Institutions Code as proposed by Assembly Bill 1682 of the 1965 Regular Session is amended to read:

16102. Any county maintaining a county adoption agency may enter into an agreement with a physician and surgeon, a hospital operated by the Regents of the University of California, or a licensed hospital other than a county hospital, to pay all or part of the expense of prenatal care, delivery, and postnatal care including hospitalization in connection therewith, given to any mother, when such mother is in the opinion of the county adoption agency financially unable to provide such care.

Nothing in this section shall be construed as to require the execution of any agreement on the part of the county. No agreement to pay shall be entered into, nor shall the expense of such care be paid, by any county or county adoption agency,

unless the mother has requested such county agency to study the child with a view to accepting a relinquishment for adoptive placement.

SEC. 4. Section 3 of this act shall become operative only if Assembly Bill No. 1682 is enacted by the Legislature at its 1965 Regular Session, and in such case at the same time as Assembly Bill No. 1682 takes effect; at which time Section 1642 of the Welfare and Institutions Code as amended by Section 2 of this act is repealed.

An additional two (2) copies of each state publication as selected by the State Archivist shall be printed and delivered to the State Archivist by the State Printer or the department, commission, or other agency concerned, and all remaining copies in excess of two (2) copies heretofore received shall be distributed to interested parties without charge or destroyed. The cost of printing, publishing, and distributing such copies shall be fixed and charged pursuant to Section 14866. Additional amounts shall be charged by the State Printer to cover the cost of preparing, printing, and distributing the lists of publications required by Section 14910.

18901. There is in the Department of General Services a State Building Standards Commission consisting of the Director of General Services and 10 members appointed by the Governor subject to confirmation by the Senate.

All appointed members of the commission shall be experienced in building construction and building codes and standards, except that the public members need not have such experience.

The Governor shall appoint (a) three members from among the professions and industries concerned with building construction, of whom one shall be an architect, one a structural engineer and one a contractor; (b) three members from among the general public; (c) one member from organized labor in the building trades; and (d) three members from among local government officials.

The members of the commission shall serve without compensation. Members of the commission who are not state officers shall be paid their actual necessary travel expenses.

The term of office of such appointed members shall be four years and they shall hold office until the appointment and qualification of their successors. The terms of two members of the commission in office on the effective date of the amendments to this section enacted at the 1965 Regular Session of the Legislature shall expire on January 1, 1966, the term of three on January 1, 1967, the term of two on January 1, 1968, and the term of three on January 1, 1969. The term of each such member shall be determined by lot.

The Director of General Services shall serve as the chairman of the commission. The Director of General Services may, as provided in Section 7.5 of the Government Code, designate a Deputy Director of the Department of General Services to act in his place as chairman. The commission shall elect a vice chairman annually from among its members.

The Governor may appoint advisory members from the state agencies which administer and enforce building regulations.

The Director of General Services shall provide the necessary staff services to the commission and may appoint, in accordance

with civil service and other provisions of law, such officers and employees as may be necessary to carry out the intent and purposes of this part.

Such code shall indicate the agency having responsibility vested by law for the administration of each building regulation. The code shall include an index and reference guide. The provisions of such code shall when adopted and published as provided in this part, supersede all then existing administrative regulations relating to building standards issued by individual state agencies. Thereafter, such state agencies shall use the nomenclature and arrangement adopted by the commission as provided in this part.

The commission may approve and publish amendments to the code not oftener than once each 90 days, except that by three-fourths vote of all its members the commission may find that an emergency exists and may then adopt and publish amendments as needed.

Such code may contain references to state laws relating to building standards.

Such code shall be known as the State Building Standards Code.

The Department of General Services shall publish the State Building Standards Code and all amendments and publications relating thereto in suitable looseleaf form and shall make it available to the public at a reasonable price. SEC. 5. Section 18903 of said code is amended and renumbered to read:

18904. It is the purpose of this part to provide the means for eliminating duplication, conflict and overlapping in state building regulations and not to substitute the commission for

the responsibilities now vested by law in various state agencies. To that end each state agency concerned shall continue to prepare such building regulations as it is authorized and finds necessary, but such regulations shall not be effective until approved by the commission. The commission shall review such regulations, and if it finds duplication, conflict, or overlapping, or if it finds that the nomenclature or arrangement does not conform to that adopted by the commission or that a proposed regulation is not written in conformance with standards required under Section 18911, it shall require any agency to submit revisions of such regulations within not less than 120 days nor more than 180 days after date of the receipt of the request. If such agency does not do so within 180 days, the commission may rewrite, edit, or amend such existing and proposed regulations consistent with the intent of this part, and as provided by the Administrative Procedure Act. It shall not, however, be required that hearings or other administrative procedures be duplicated on unchanged portions of administrative regulations previously adopted, and approved by the commission.

SEC. 6. Section 18904 of said code is amended and renumbered to read:

18907. The commission shall withhold approval and shall require change, including substantive change where necessary, in any proposed or existing regulation only if it finds duplication, conflict or overlapping, or when the nomenclature or arrangement does not conform to that adopted by the commission or when the proposed regulation is not written in conformance with standards required under Section 18911. New or amended regulations submitted to the commission shall be approved, or the state agency concerned shall be notified in writing why approval is denied within 120 calendar days after such regulations have been submitted. The commission shall notify all other state agencies concerned with respect to existing as well as proposed regulations and shall make recommendations to eliminate conflicts and to assure consistency and uniformity of all statewide building standards.

SEC. 7. Section 18905 of said code is amended and renumbered to read:

18910. Any agency, person, firm or corporation that is or may be affected by any regulation, rule, omission or decision of any state agency, relating to duplication, conflict, or over-

Any request for interpretation or reconsideration shall be in writing to the commission, and the decisions of the commission shall likewise be in writing.

The commission may designate a committee to investigate and report to the commission its findings on any such request for interpretation or reconsideration filed with the commission.

After such interpretation by the commission, proceedings for appeal shall be conducted in accordance with the provisions of the Administrative Procedure Act.

If the commission determines that any regulations are necessary to carry out the intent and purpose of this part, it shall request the appropriate agency having regulatory powers to adopt such regulations. If such agency does not do so within 180 days following the date of the request, the commission shall adopt regulations relating to the subject matter which shall remain in effect until such agency adopts regulations on the subject matter and such regulations are approved by the commission in accordance with the provisions of Sections 18904 and 18907.

SEC. 11. Section 18906 of said code is repealed.

SEC. 12. Section 18906 is added to said code, to read:

18906. The commission shall appoint from the building construction industry, the occupancies to be affected by the proposed regulations, and interested governmental agencies, appropriate advisory panels to advise the commission and its staff with respect to building regulations. The persons appointed to such panels shall be specifically qualified in the type of work embraced by the building standards in question. It is the intent of this part that the commission shall make use of such panels when sustantive changes are being considered. Such persons shall serve without compensation.

95002. "District" means the Santa Barbara Metropolitan Transit District formed under this act.

95003. "Board" means the board of directors of this district.

95004. "Voter" means any elector who is registered under the Elections Code.

95005. "Transit" means the transportation of passengers only and their incidental baggage by means other than by chartered bus, sightseeing bus, or any other motor vehicle not on an individual passenger fare-paying basis. 95006. "Transit works" or "transit facilities" means all real and personal property, equipment, rights, or interests owned or to be acquired by the district for transit service.

It is necessary that a transit district be established in the Santa Barbara metropolitan area which includes the City of Santa Barbara and adjacent unincorporated territory, including but not limited to the Carpinteria, Summerland, Montecito and Goleta areas, all situated in Santa Barbara County, in order to meet the public transit problem of the area. The geographic location of the city in relation to the adjacent unincorporated territory requiring transportation services makes it necessary to develop a single transit system to protect the public interest and welfare.

95031. The Santa Barbara Metropolitan Transit District may be created as provided in this act and when so created may exercise the powers herein granted.

95032. Except as otherwise provided in this act elections shall be held and conducted and the result ascertained, determined, and declared in, all respects as nearly as practicable in conformity with the general elections laws of the state

95034 Whenever the signature of any officer or employee of a district or of any member of the retirement board or of any officer or employee of the retirement system is authorized or required under the provisions of this act, except in the single instance provided in Section 96443, the signature may be made by the use of a plate bearing facsimiles of such signatures.

CHAPTER 2. FORMATION OF DISTRICT

Article 1. General Provisions

95100. The City of Santa Barbara, together with unincorporated territory, may organize and incorporate as the Santa Barbara Metropolitan Transit District.

95101. The request for the formation of the Santa Barbara Metropolitan Transit District may be made by resolution or by petition as set out in this chapter.

Article 2. Request by Resolution

95130. The legislative body, the City Council of the City of Santa Barbara, may pass a resolution declaring that in its opinion public interest or necessity demands the creation and maintenance of the Santa Barbara Metropolitan Transit District.

95131. The resolution may state the transit facilities proposed to be first acquired, but failure to acquire such transit facilities shall not affect the validity of the district. The resolution shall set forth and describe the boundaries of the proposed district.

95132. Certified copies of the resolution shall be presented to the Board of Supervisors of Santa Barbara County requesting the board of supervisors to call an election without delay for determining whether the district will be created.

Article 3. Request by Petition

95160. Instead of a resolution, a petition may be presented to the board of supervisors signed by voters within the proposed district equal in number to at least 25 percent of the total vote cast at the last general election.

95161. The petition shall contain substantially the same declarations and statements required to be contained in the resolution presented to the board of supervisors under this chapter, including the description of the boundaries, and declare that, in the opinion of the petitioners, public interest or necessity demands the creation and maintenance of the metropolitan transit district.

95162. The petition may be on separate papers, but each paper shall contain the affidavit of the person who circulated it certifying that each name signed thereto is a true signature of the person whose name it purports to be.

95163. The County Clerk of the County of Santa Barbara shall compare the signatures to the petition with the affidavits of registration and certify to their sufficiency or insufficiency.

Article 4. Election

95190. Upon receipt of certified copies of the resolution or of a sufficient petition, the board of supervisors shall hold a hearing on the question of forming a Santa Barbara Metropolitan Transit District. The hearing shall be held not less than 20 days nor more than 60 days following the filing of such resolution or petition. A notice of such hearing shall be published at least twice in newspapers of general circulation in the proposed district.

95191. The board of supervisors shall have the power to exclude unincorporated areas which, in the board's determination, would not receive reasonable benefit from inclusion in the district.

95192. At the conclusion of the hearing, if the board of supervisors approves the resolution or petition as orginally presented or in modified form, it shall by resolution entered upon its minutes:

(a) Fix and describe the exterior boundaries of the proposed district as determined by the board of supervisors.

(b) Fix the date on which an election will be held in the proposed district and the hours during which the polls will be open.

(c) State the purpose for which the election is held.

95193. The election shall be held not less than 60 days nor more than 90 days from the date of the adoption of the resolution prescribed by Section 95192.

95194. The election shall be called by publishing notice calling the election pursuant to Section 6066 of the Government Code not less than 20 days before the election. Said notice need only specify the time and place of the election, the hours during which the polls will be open, the purpose of the election, and the description of the exterior boundaries of the proposed district as determined by the board of supervisors.

No notice of the election other than the notice prescribed by this section need be given except that the county clerk shall mail notice of polling place and purpose of election to each qualified elector of the proposed district.

95195. The ballot for the election shall contain such instructions as are required by law to be printed thereon and in addition thereto the following:

Shall the "Santa Barbara Metropolitan Transit District" be created and established?	YES	
	NO	

95196. No person shall be entitled to vote at the election unless he is a voter of the territory included in the proposed district.

95197. The election may be held on the same day as any other state, county, or city election and be consolidated therewith.

95198. The board of supervisors shall meet on the Tuesday next succeeding the day of the election and canvass the returns.

95199. The board of supervisors shall make all provisions for the holding of the election throughout the entire district as proposed, and shall pay the cost thereof.

95200. If a special election is held exclusively on the proposition of organizing the district, the expenditure therefor shall be reimbursed to the county by means of a tax on all the taxable property within the district, and this tax shall be added to the next county tax bills by the proper official of the county.

Article 5. Establishment of the District

95230. If a majority of the electors voting on the proposition vote in favor of the creation and establishment of the district, the board of supervisors shall cause a certified copy of the order declaring the result of the election to be filed in the office of the Secretary of State, from and after which the establishment of the district shall be deemed complete.

Article 6. Contest of Incorporation.

95250. No informality in any proceeding or in the conduct of the election, not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate the incorporation of the district. Any proceedings wherein the validity of incorporation is denied shall be commenced within three months from the date of filing the order declaring the result of the election with the Secretary of State, otherwise the incorporation and the legal existence of the district shall be held to be valid and in every respect legal and incontestable.

Chapter 3. Internal Organization of District

95402. A vacancy on the board shall be filled by the body which appointed the director whose office is vacated and the new appointee shall hold his office for the unexpired term.

95403. Article 2. Terms of Office

95430. The term of office of each director is four years from the time of his appointment, except that for the board first appointed, the director appointed by the board as herein provided shall hold office for two years, and the remaining directors first appointed to the board shall classify themselves by lot, so that the two appointed by the board of supervisors shall hold office for one and three years and the two appointed by the city council shall hold office for two and four years.

95456. The board may adopt a personnel system for the purpose of recruiting and maintaining an effective working force with good morale. The board shall by resolution determine and create such number and character of positions as are necessary properly to carry on the functions of the district and shall establish an appropriate salary, salary range, or wage for each position so created. The board may by resolution abolish any such position. Except as otherwise provided, appointments to such positions shall be made by the general manager.

95457. The board may from time to time contract for or employ any professional service required by the district or for the performance of work or services which cannot satisfactorily be performed by the regular employees of the district.

95458. The board shall have an annual audit made of all books and accounts of the district by a certified public accountant or public accountant.

95459. 95491. A majority of the board constitutes a quorum for the transaction of business.

95492. The board shall establish rules for its proceedings and may provide by ordinance or resolution that each member shall receive for each attendance at the meetings of the board the sum of fifteen dollars ($15) but not to exceed sixty dollars ($60) in any calendar month and shall be allowed such necessary traveling and personal expenses incurred in the performance of his duties as authorized by the board.

Notwithstanding anything to the contrary in Section 95523, until such time as the district has operated, controlled, or used facilities or parts of facilities for providing the inhabitants within the boundaries of the district with transit services for a period of six months, the board may, but is not required to, appoint a general manager. A general manager appointed during such time holds office at the pleasure of the majority of the board.

95525. The board may appoint a secretary and an attorney who may hold office during the pleasure of the board.

95535. The general manager shall provide for the custody of the funds of the district and the keeping of accounts of all receipts and disbursements. Payments shall be made only upon warrants duly and regularly signed by the chairman or vice

chairman of the board, or other person authorized by the board so to do, and by the general manager or secretary.

95536. With the consent of the board, the general manager may:

The bank or trust company selected shall have a total paid-in capital of at least one million dollars ($1,000,000). CHAPTER 4. LABOR PROVISIONS

95650. Whenever a majority of the employees employed by said transit district in a unit appropriate for collective bargaining indicate a desire to be represented by a labor organization, the board, upon determining as provided in Section 95651 that said labor organization represents the employees in the appropriate unit, and the accredited representative shall bargain in good faith and make all reasonable efforts to reach agreement on the terms of a written contract governing wages, salaries, hours, working conditions and grievance procedures. In case of a dispute over the terms of a written contract governing wages, salaries, hours or working conditions, which is not resolved by negotiations in good faith between the board and the representatives of the employees, the board and the representatives of the employees shall submit said dispute to the decision of the majority of an arbitration board, and the decision of a majority of such arbitration board shall be final. The arbitration board shall be composed of two representatives of the transit board and two representatives of the labor organization, and they shall endeavor to agree upon the selection of a fifth member. If they are unable to agree, the fifth member shall be designated by the Secretary of the Judicial Council and shall be a person experienced in labor arbitrations. The expenses of such impartial arbitrator shall be

provided half by the transit board and half by the labor organization.

No contract or agreement shall be made with any labor organization, association, group or individual where such organization, association, group or individual denies membership on the grounds of race, creed or color, provided such organization may preclude from membership any individual who advocates the overthrow of the government by force or violence.

95651. If there is a question whether a labor organization represents a majority of employees or whether the proposed unit is or is not appropriate, such matters shall be submitted to the State Conciliation Service for disposition. The State Conciliation Service shall promptly hold a public hearing and may, by decision, establish the boundaries of any collective bargaining unit and provide for an election to determine the question of representation. Provided, however, any certification of a labor organization to represent or act for the employees in any collective bargaining unit shall not be subject to challenge on the ground that a new substantial question of representation within such collective bargaining unit exists until the lapse of one year from the date of certification or the expiration of any collective bargaining agreement, whichever is later.

95652. Whenever any district acquires existing facilities from a publicly or privately owned public utility either in proceedings by eminent domain or otherwise, to the extent necessary for operation of facilities, all of the employees of such public utility whose duties pertain to the facilities acquired who have been employed by said utility for at least seventy-five (75) days shall be appointed to comparable positions in the district without examination and shall be governed thereafter by the personnel system adopted by the board, and these employees shall be given sick leave, seniority and vacation credits in accordance with the records of the acquired public utility.

The provisions of this section shall apply only to those officers or supervisory employees of the acquired utility as shall be designated by the board.

95653. Whenever any district acquires existing facilities from a publicly or privately owned public utility, either in proceedings in eminent domain or otherwise, that has a pension plan in operation, members and beneficiaries of such pension plan shall continue to have the rights, privileges, benefits, obligations and status with respect to such established system.

Whenever any such facilities are acquired by the district, the board shall consider and take into account the outstanding obligations and liabilities of the publicly or privately owned public utility by reason of such pension plan and shall negotiate an allowance in the purchase price of such utility for the assumption of such obligations and liabilities when acquiring the facilities.

95654. The persons entitled to pension benefits as provided for in Section 95653 and the benefits which are provided shall be specified in the agreement or order by which any public utility is acquired by the district.

95655. All persons receiving pension benefits from such acquired public utility and all persons entitled to pension benefits under the pension plan of such acquired public utility may become members or receive pensions under the retirement system established by the district by mutual agreement of such persons and the district.

95656. Notwithstanding any provisions of the Government Code, the board may authorize payment of any or all of the premiums on any group life, accident and health insurance, health and welfare plan, or pension or retirement plan, on officers or employees of the district. Upon authorization by its employees, the district may make deductions from the wages and salaries of its employees:

(a) Pursuant to collective bargaining agreement with a duly designated or certified labor organization for the payment of union dues, fees, or assessments.

(b) For the payment of contributions pursuant to any health and welfare, pension, or retirement plan.

(c) For any purpose for which deductions may be authorized by employees of any private employer.

CHAPTER 5. RETIREMENT SYSTEM

Article 1. Establishment

95800. The board may establish a retirement system for the officers and employees of the district and provide for the payment of annuities, pensions, retirement allowances, disability payments, and death benefits or any of them.

95801. The district may maintain its own retirement fund or may provide for benefits to eligible officers and employees, or their beneficiaries, by means of group insurance, or other insurance, or by such means as in the opinion of the board will satisfactorily provide an adequate and sure method of meeting the payments contemplated by the retirement system.

95802. Before establishing any retirement system the board shall secure a report from a qualified actuary, which shall show the cost of the benefits provided by the system, and the prospective assets and liabilities of the system.

95803. The board may adopt all ordinances and resolutions and perform all acts necessary or convenient to the initiation, maintenance, and administration of the retirement system.

95804. Nothing in this chapter prevents the district from participating in and making all or part of its employees members of the State Employees' Retirement System by contract entered into between the district and the board of administration of the system under the State Employees' Retirement Law or from participating in the Federal Social Security Act

pursuant to Part 4 (commencing with Section 22000), Division 5, Title 2 of the Government Code, and the district may perform all acts necessary or convenient for such participation. Nothing in this chapter shall prevent the district from participating in and making all of its employees members of the Santa Barbara County Employees' Retirement System.

95805. The board may classify and determine the officers and employees who shall be included as members in the retirement system and may change the classification from time to time. Membership of all officers and employees so classified and included in the retirement system is compulsory. The retirement system shall not apply to members of the board.

Article 2. Benefits and Contributions

95830. The board may prescribe the terms and conditions upon which the officers and employees of the district or their beneficiaries shall be entitled to benefits and the amounts thereof, provided, that said board shall have no such authority respecting the County Employees Retirement Act of 1937.

95831. The retirement allowance may be predicated in part upon service rendered the district by a member prior to the establishment of the retirement system, which service is known as "prior service."

95832. The board shall provide that both the district and the members shall contribute to the retirement system. The rate of contribution by an officer or employee of the district becoming a member of the retirement system shall be so fixed as to provide, with accumulated interest and based on tables and assumptions adopted by the board, substantially one-half the value of any retirement allowance granted for service, exclusive of any credits allowed for prior service.

95833. All members of the retirement system shall contribute in the manner and amount fixed by the board and such contributions may be collected by deducting the amounts thereof from the salary, wages or compensation due such members.

95834. Liabilities accruing under the retirement system because of benefits other than such as are the equivalent of contributions by the members, with accumulated interests, shall be met by contributions by the district. Prior service or other liabilities of the district may be met by annual appropriations instead of by one appropriation for the total of the liabilities; but until the present value of regular contributions for current service, together with assets then available, equals the present value of all allowances and benefits granted or to be granted under the system, the appropriation for any one year when added to any unused balance of any previous appropriations for such purpose shall not be less than the amount disbursed during that year on account of prior service or other liabilities of the district.

95835. If any member withdraws from the retirement system prior to retirement the total amount contributed by him with such interest as may be credited thereto, shall be returned to him; provided, however, that the board may prescribe the terms and conditions upon which a member, whose district service is terminated except by death or retirement, may elect to leave his contributions and interest thereon in the retirement fund, and the terms and conditions upon which a retirement allowance may be made to him after such termination based upon his contributions prior to such termination.

95836. All money received by any person as an annuity, pension, retirement allowance, disability payment or death benefit, from the retirement system, and all contributions and interest thereon returned to any member of the retirement system, whether in the actual possession of such member or deposited, loaned, or invested by him, is exempt from execution, garnishment, or attachment and is unassignable.

Article 3. Retirement Board

95861. All members of the retirement board shall serve without pay.

95862. The retirement board shall determine the eligibility of officers, employees, and their dependents to participation in the system and shall be the sole authority and judge under such ordinances as may be adopted by the board as to the conditions under which persons may be admitted to and continue to receive benefits of any sort under the retirement system, and may modify allowances for service and disability. The determination of the retirement board shall be final and conclusive and shall not be modified or set aside except for fraud or abuse of discretion.

95863. If the district maintains its own retirement fund the retirement board shall have exclusive control of the administration, investment, and disbursement of such fund. Investment of the fund shall be subject to the terms, conditions, limitations, and restrictions imposed by the laws of this state upon savings banks in the making of investments by savings banks, and cash may be deposited in any licensed national bank or banks in this state or in any bank, banks, or corporations authorized or licensed to do a banking business and organized under the laws of this state.

Article 4. Investigation and Penalties

95890. At least once in each four-year period after the establishment of the retirement system the board shall cause

to be made an actuarial valuation of the assets and liabilities of the retirement fund and upon the basis of such investigation and valuation shall make such revision or change of the rate of contribution, the periods and conditions of service, and amounts of retirement allowances as may be necessary.

95891. Except as herein provided, no member of the board or of the retirement board, nor any member of the retirement system or employee of the district, shall have any interest direct or indirect in the making of any investment or in the gains or profits accruing therefrom, and no such person, directly or indirectly, for himself or as an agent or partner of others, shall borrow any of its funds, nor shall any such person in any manner use the same except to make such current and necessary payments as are authorized by the retirement board, nor shall such a person become an endorser or surety as to, or in any manner an obligor for investments of the retirement fund.

No such taking or acquisition by the district which would involve the abandonment, removal, relocation, or use of property of a railroad corporation, as defined in Section 230 of this code, shall be permitted, unless the Public Utilities Commission, after hearing, shall find and determine that the public

interest and necessity require the abandonment, removal, relocation, or use of such property and that such taking or acquisition will not unreasonably impair the ability of the railroad corporation involved to provide safe, adequate, economical, and efficient service.

Article 2. Contracts

96030. The district may make contracts and enter into stipulations of any nature whatsoever either in connection with eminent domain proceedings or otherwise, including, without limiting the generality of the foregoing, contracts and stipulations to indemnify and save harmless, to employ labor, and to do all acts necessary and convenient for the full exercise of the powers granted in this part.

96062. In case of any great public calamity, such as an extraordinary fire, flood, storm, epidemic, or other disaster, the board may, by resolution passed by a four-fifths vote of all its members declare and determine that public interest and necessity demand the immediate expenditure of public money to safeguard life, health, or property and thereupon proceed to expend or enter into a contract involving the expenditure of any sum needed in such emergency without observance of the provisions requiring contracts, bids, or notice.

Article 4 Property

96090 The district may take by grant, purchase, gift, devise or lease, or condemn in proceedings under eminent domain, or otherwise acquire, and hold and enjoy, real and personal property of every kind within or without the district necessary to the full or convenient exercise of its powers. The board may lease, mortgage, sell, or otherwise dispose of any real or personal property within or without the district when in its judgment it is for the best interests of the district so to do

96130. Within 30 days after submission of the case, the board shall render its decision and its decision shall be final.

Article 6. Indebtedness

96150. The district may borrow money for the purpose of defraying the expenses of the district lawfully incurred after the commencement of the fiscal year, but prior to the time moneys from the tax levy for the fiscal year are received by

the district, in a sum which shall not exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation of taxable property in the district at the time the moneys are borrowed, and may evidence such borrowing by notes bearing interest at a rate not to exceed 6 percent per annum. The notes shall be payable from the tax levy from the then current fiscal year, which levy shall contain a sum sufficient to provide for the payment of the notes and the interest thereon. 96222. The board shall, in addition to the general tax levy as set forth in Section 96220, levy and collect annually until the district's bonds are paid, or until there is a sum in the treasury of the district set apart for that purpose to meet all sums coming due for principal and interest on the bonds as they become due a tax sufficient to pay the annual interest on the bonds and such part of the principal thereof as becomes due before the proceeds of a tax levied at the next general tax levy will be available. 96224. The board shall avail itself of the assessments made by the assessor of the county and of the assessments made by the State Board of Equalization for the county and shall take such assessments as the basis for district taxation and have its taxes collected by the tax collector of the county.

96225. In such case the county auditor shall, on or before the third Monday in August of each year, transmit to the board a statement in writing showing the total value of all property within the district, ascertained from the assessments referred to in Section 96224 as equalized.

96226. The board shall, on or before the first day in September, fix the rate of taxes, designating the number of cents upon each hundred dollars, using as a basis the value of property transmitted to the board by the county auditor, which rate of taxation shall be sufficient to raise the amount previously fixed by the board. These acts by the board shall constitute a valid assessment of the property and a valid levy of the taxes so fixed, but the rate of taxation shall not exceed the limit imposed by this article.

96227. The board shall immediately after fixing the rate of taxes as above provided transmit to the county auditor of the county a statement of the rate of taxes fixed by the board.

96228. The district's taxes so levied shall be collected at the same time and in the same manner as county taxes. When collected the net amount, ascertained as provided in this article, shall be paid to the treasurer of the district, under the

general requirements and penalties provided by law for the settlement of other taxes.

96229. Whenever any real property has been sold for taxes and has been redeemed, the money paid for redemption shall be apportioned and paid to the district by the county treasurer in the proportion which the tax due to the district bears to the total tax for which the property was sold

96230. The compensation to be charged by and paid to any county for the performance of services under this article shall be fixed by agreement between the board of supervisors of the county and the board. The compensation shall in no event exceed one-half of 1 percent of all money collected for the district. The compensation collected by the county shall be placed to the credit of the county general fund.

All taxes levied under this part are a lien on the property on which they are levied and shall become a lien at the same time as county taxes. The enforcement of the collection of such taxes shall be in the same manner and by the same means provided by law for the enforcement of liens for county taxes, all the provisions of law relating to the enforcement of the latter being made a part of this part so far as applicable.

CHAPTER 7. BONDS

Article 1. Issuance

96400. The district may from time to time incur a bonded indebtedness as provided in this chapter to pay the cost of acquiring, constructing, or completing the whole or any portion of any transit facilities, or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district.

96401. Whenever the board by resolution passed by vote of two-thirds of all its members determines that the public interest or necessity demands the acquisition, construction, or completion by the district of any transit facilities or any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, the cost of which will be too great to be paid out of the ordinary annual income and revenue of the district, it may at any subsequent meeting of the board provide by ordinance for the submission of the proposition of incurring a bonded indebtedness for the purpose set forth in the resolution to the voters of the district at a special bond election held for that purpose.

96402. In lieu of a resolution passed by the board, proceedings for the issuance of bonds for the purposes provided in this chapter may be initiated by petition of the voters of the district.

96403. Whenever any petition signed by voters within the district equal in number to at least 15 percent of the total

vote cast at the last general statewide election is presented to the board asking for the acquisition, construction, or completion of the whole or any portion of any transit facilities or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, and also asking that a bonded indebtedness be incurred to pay for the cost thereof, the secretary of the district shall immediately examine and verify the signatures of the petition and certify the result of the examination to the board.

96404. If the required number of signatures is found to be genuine, the secretary shall transmit to the board an authentic copy of the petition without the signatures.

96405. Upon receiving a petition with the certificate of the secretary stating that it contains the required number of signatures, the board shall formulate for submission to the voters of the district at a special bond election called for that purpose the proposition of incurring a bonded indebtedness for the purposes set forth in the petition. In its discretion the board may defer the calling of the election until the next general election to be held in the district in order to consolidate them.

96406. The ordinance calling a special bond election shall fix the date on which the election will be held, and the manner of holding the election and of voting for or against incurring the indebtedness. It shall also recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the transit facilities, works, lands, structures, rights, equipment, or other property proposed to be acquired, constructed, or completed, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness, which shall not exceed 6 percent per annum, payable semiannually or annually the first year and thereafter semiannually.

96407. Propositions for incurring indebtedness for more than one object or purpose may be submitted at the same election.

96408. Any special bond election may be held separately, or may be consolidated with any other election authorized by law at which the voters of the district may vote. If a special bond election is consolidated with any other election, the provisions of this chapter setting forth the procedure for the calling and holding of the special bond election shall be complied with, except that the ordinance calling the election need not set forth the election precincts, polling places, and officers of election, but may provide that the precincts, polling places, and officers of election shall be the same as those set forth in the ordinance, notice, or other proceedings calling the election with which the special bond election is consolidated, and shall refer to the ordinance, notice, or other proceedings by number and title, or by other definite description.

96409. The ordinance shall be published, and no other notice of election need be given.

96410. The board shall comply with the provisions of Article 3, (commencing with Section 3780) of Chapter 2 of Division 4 of the Elections Code, the provisions of which are applicable to any bond election held pursuant to this article. Wherever the words "county clerk" appear in the Elections Code the words "secretary of the board" shall be substituted, for the purposes of this article, and wherever the words "board of supervisors" appear in the Elections Code, the words "board of directors" shall be substituted, and wherever the words "district attorney or county counsel" appear in the Elections Code, the words "attorney for the district" shall be substituted.

96411. The votes of two-thirds ($\frac{2}{3}$) of all the voters voting on the proposition at the election are required to authorize the issuance of bonds under this chapter.

96412. If the proposition submitted at a special bond election fails to receive the requisite number of votes, the board shall not within six months after the election hold another special election for the submission of a proposition of incurring a bonded indebtedness substantially the same as the proposition voted upon at the prior election unless a petition signed by voters within the district equal in number to at least 15 percent of the total vote cast at the last general statewide election is filed with the board, requesting that the proposition, or a proposition substantially the same, be submitted at an election to be called for that purpose.

Article 2. Form and Content

96440. Bonds authorized by this chapter shall mature serially in amounts to be fixed by the board; except that payment shall begin not later than 10 years from the date thereof and shall be completed in not more than 50 years from that date.

The board may divide any issue of bonds authorized pursuant to this chapter into two or more series, and may fix different dates of issuance and different maturity dates for the bonds of each series. The bonds of each series shall mature serially in amounts to be fixed by the board, and the board shall fix a date not more than 10 years from the date of issuance of each series for the earliest maturity of such series, and shall fix a date not more than 50 years from the date of issuance of each series for the final maturity of such series.

Pending the actual issuance or delivery of bonds, a district may issue temporary or interim bonds, certificates, or receipts, of any denomination whatsoever, with or without coupon, and in such form as may be prescribed by the board, to be exchanged for definite bonds when ready for delivery.

96441. The bonds shall be issued in such denominations as the board determines, except that no bonds shall be of a denomination less than one hundred dollars ($100), nor of a greater denomination than one thousand dollars ($1,000) or any multiple thereof, and shall be payable on the day and

at the place or places fixed in the bonds, and with interest at the rate specified therein, payable semiannually.

96442. The board may at any time prior to the issuance and sale of any bonds provide for the call and redemption of any or all of the bonds on any interest payment date prior to their fixed maturity at not exceeding the par value and accrued interest plus a premium of not exceeding 5 percent upon the principal amount of the bonds, in which event the call price fixed by the board shall be set forth on the face of the bond. Notice of such redemption shall be published. If there is no newspaper of general circulation printed and published within the district, then the publication shall be made in a newspaper of general circulation printed and published within the county in which the district or any part thereof is situated. The first publication shall be at least 30 days prior to the date fixed for the redemption. After the date fixed for such redemption interest on the bonds thereafter shall cease.

96443. The bonds shall be signed by the president of the board or by such officer of the district as the board shall by resolution authorize and designate for that purpose. They shall also be signed by the treasurer, and be countersigned by the secretary. The coupons of the bonds shall be numbered consecutively and be signed by the treasurer. All signatures and countersignatures, except one of the signatures or countersignatures on the bonds, may be printed, lithographed, or engraved. If any officer whose signature or countersignature appears on the bonds or coupons ceases to be such officer before the delivery of the bonds to the purchaser, the signature or countersignature is nevertheless valid and sufficient for all purposes as if he had remained in office until the delivery of the bonds.

Article 3. Issue and Sale

96470. The bonds may be issued and sold for not less than their par value, but otherwise as the board determines. Before selling any bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as the board may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either again give notice inviting bids or sell the bonds at private sale.

96471. All premiums and accrued interest received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds. The remainder of the proceeds of the bonds shall be placed in the district treasury to the credit of the proper fund, and shall be used exclusively for the objects or purposes for which the bonds were voted; provided that when such objects and purposes have been accomplished any moneys remaining shall be

transferred to the fund to be used for the payment of principal of and interest on the bonds, and that when all principal of and interest on the bonds shall have been paid, any balance of money then remaining shall be transferred to the general fund of the district.

96472. In lieu of the immediate levy of a tax to pay the interest or any part thereof on any bonded indebtedness incurred in accordance with this division, the board may in the estimate of the amount of money necessary to be raised by the bonds include a sum sufficient to pay interest on all of the bonds or part thereof during the period of acquisition, construction, or completion, but for no period in excess of five years.

Article 4. Refunding

96500. Whenever the board by resolution passed by a vote of two-thirds of all its members determines that the refunding of the whole or any portion of the bonded indebtedness will be of advantage to the district the board may refund the bonded indebtedness or any portion thereof and issue refunding bonds of the district therefor.

96501. The issuance of refunding bonds shall not be construed as the incurring or increase of an indebtedness within the meaning of this act, and the approval of the voters is not required for the issuance of refunding bonds The board may provide for the call and redemption of any or all of the bonds on any interest payment date prior to their fixed maturity in the ordinance authorizing the issuance of the refunding bonds

96502. Except as otherwise provided, the provisions of this chapter shall substantially govern as to all matters pertaining to the issuance of refunding bonds, including and without limiting the generality of the foregoing, the form, execution, issuance, maturity, redemption, refunding, validation, the payment of interest from bond funds, and the status of the bonds as investments.

96503. Refunding bonds shall bear interest at a rate not exceeding the interest rate on the refunded bonds, but payment of the refunding bonds shall begin not later than one year from the date thereof and be completed in not more than 40 years from that date.

96504. The proceeds of the sale of refunding bonds shall be applied only to the purchase, or retirement at not more than par and accrued interest, or the call price, of the bonded indebtedness for which the refunding bonds were issued.

96505. In lieu of selling refunding bonds and using the proceeds to purchase or retire the bonds to be refunded, the board may exchange refunding bonds at not less than par and accrued interest for the bonds so refunded

96506. Whenever outstanding bonds are refunded they shall be surrendered to the treasurer of the district, who shall cancel them by endorsing on their face the manner in which the refunding was effected (whether by exchange or purchase,

and the amount for which so purchased, if any) and by perforating through each bond and each coupon attached thereto the word "canceled" together with the date of cancellation.

Article 5 Status as Investments

96530. All bonds including refunding bonds issued by a district are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the State School Fund and for all sinking funds under the control of the State Treasurer. Whenever any money or funds may by law be invested in or loaned upon the security of bonds of cities, cities and counties, counties, or school districts, in the state, such money or funds may be invested in or loaned upon the security of the bonds of the district; and whenever bonds of cities, cities and counties, counties, or school districts by law may be used as security for the faithful performance or execution of any court or private trust or of any other act, bonds of the district may be so used.

96531. All bonds of the district, to the same extent as bonds of any other municipality, are legal for use by any state or national bank or banks in the state as security for the deposit of funds of the state or of any county, city and county, city, municipality, or other public or municipal corporation within the state.

Article 6. Validation

96560. An action to determine the validity of bonds, including refunding bonds, may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

Article 7. Revenue Bonds

96590. As an alternative procedure for the raising of funds, the district may issue bonds, payable from revenues of any facility or enterprise to be acquired or constructed by the district, in the manner provided by the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code), all of the provisions of which are applicable to the district.

96591. The district is a local agency within the meaning of the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code). The term "enterprise" as used in the Revenue Bond Law of 1941 shall, for all purposes of this part, include transit facilities and any and all parts thereof and all additions, extensions and improvements thereto and all other facilities authorized to be acquired, constructed or completed by the district. A district may issue revenue bonds under the Revenue Bond Law of 1941, for any one or more

facilities or enterprises authorized to be acquired, constructed, or completed by a district or, in the alternative, may issue revenue bonds under the Revenue Bond Law of 1941, for the acquisition, construction and completion of any one of such facilities. Nothing in this article shall prevent the district from availing itself of, or making use of, any procedure provided in this part for the issuance of bonds of any type or character for any of the facilities or works authorized hereunder, and all proceedings may be carried on simultaneously or, in the alternative, as the directors may determine.

CHAPTER 8. ANNEXATION

96750. Territory may be annexed to the district in the manner provided in this chapter.

96751. Whenever the board finds and determines that additional territory will be benefited by annexation to the district, it shall pass a resolution to that effect.

96752. The resolution shall be passed by a vote of two-thirds of the members of the board and be approved by the board of supervisors of the county in which the territory is situated.

96753. The resolution shall:

(a) Describe the boundaries of the territory proposed to be annexed.

(b) Designate the proposed annexation by an appropriate name.

(c) Declare that the area to be annexed to the district will be benefited by such annexation.

(d) Name the time and place for the hearing of objections by any person interested in the proposed annexation.

96754. The resolution, together with the names of the members of the board, voting for and against it shall be published pursuant to Section 6066 of the Government Code in a newspaper published in the territory proposed to be annexed, or if there is no such paper, then in some newspaper of general circulation, circulated in such territory.

96755. On the day fixed for hearing or any day to which the hearing is adjourned, the board shall hear and consider any objections presented to the annexation of the territory. After the hearing of objections, if it shall be determined by a vote of two-thirds of all the members of the board that the territory proposed to be annexed will be benefited by such annexation, the board shall proceed to fix and determine the boundaries of the territory to be annexed to the district.

96756. After making all necessary and proper changes in the boundaries, by a resolution passed by a vote of two-thirds of the members, the board shall order the annexation of the territory so described. The resolution, together with the names of the members of the board voting for and against the same shall be spread upon the minutes of the board.

96757. Whenever any territory is annexed to the district it shall thereupon become a part of the district subject to all the liabilities and entitled to all the benefits of the district.

CHAPTER 9. EXCLUSION

96900. Unincorporated territory within the district may be excluded from the district in the manner provided in this chapter.

96901. Proceedings for the exclusion of such unincorporated territory may be initiated by the filing of a petition with the board of supervisors signed by not less than 10 percent of the registered voters in the territory proposed to be excluded.

96902 The petition shall:

(a) Describe the boundaries of the territory proposed to be excluded.

(b) Declare that the area to be excluded from the district is not benefited by remaining in the district.

(c) Request exclusion of the territory.

96903. After the petition is filed with the board of supervisors, the board of supervisors shall determine whether the petition is signed by a sufficient number of registered voters and, if the petition is sufficient, the board of supervisors shall fix a date for public hearing on the said petition not less than 20 nor more than 60 days after the filing of the said petition with the board of supervisors and shall cause notice of the said hearing to be published in a newspaper of general circulation, in compliance with Government Code Section 6066.

96904. The notice shall contain the following:

(a) That a petition for exclusion has been filed with the board of supervisors.

(b) That a public hearing will be held upon the said petition and the proposed exclusion, stating the time and place of said public hearing.

(c) That any interested person may appear and be heard at said public hearing.

(d) Describe the boundaries of the territory proposed to be excluded.

96905. On the day fixed for the hearing, or any day to which the hearing may be adjourned, the board of supervisors shall hear persons interested, and shall hear and consider any objections to the proposed exclusion. After the hearing, if it shall be determined by a vote of two-thirds of all of the members of the board of supervisors that the territory proposed to be excluded will not be benefited by remaining in the district, the board of supervisors shall, by resolution, order the said territory excluded. The exclusion shall be effective immediately, provided, however, that the excluded territory shall not be relieved by such exclusion from liability for taxation for the payment of any bonded indebtedness existing at the time

of the exclusion. Notice of the exclusion shall be given pursuant to Government Code Sections 54900 et seq.

CHAPTER 10. DISSOLUTION

97000. If the district operates no transit facilities, or its exterior boundaries become coincident with the boundaries of a single city, the board may call an election at any time for the purpose of submitting to the voters of the district the question of whether the district will be dissolved. Upon the filing with the secretary of the district of a petition signed by voters within the district equal in number to at least 25 percent of the total vote cast at the last general statewide election, asking that the question of dissolution of the district be submitted to the voters of the district, the board shall call such an election.

97001. The election for the purpose of submitting to the voters of the district the question of whether or not the district shall be dissolved shall be held within 60 days next succeeding the date on which the petition is filed.

97002. Notice of any election for dissolution, whether called because of the filing of a petition or ordered by the board without petition, shall be published. The date fixed for the election shall not be less than 30 days from the date of the first publication of the notice.

97003. The ballots for the election shall contain substantially the instructions required to be printed on ballots for use at general state and county elections and in addition the following:

Shall the Santa Barbara Metropolitan Transit District be dissolved?	YES	
	NO	

97004. The board shall canvass the vote. If a majority of the votes favor dissolution, the board shall by resolution dissolve the district.

97005. The board shall file a certified copy of the resolution with the Secretary of State and for record in the office of the county recorder.

97006. Upon dissolution the right, title, and interest to property owned or controlled by the district situated within the limits of any city vests absolutely in the city. If such property is situated outside the limits of a city, it vests in the county in which it is situated.

97007. The board of supervisors is, ex officio, the governing body of any dissolved district. It may levy taxes and assessments and perform other acts necessary to wind up the district affairs and to raise money for the payment of outstanding indebtedness.

CHAPTER 11.

97100. If a district is not formed under the provisions of this act prior to October 1, 1967, then this act shall terminate on such date.

CHAPTER 1836

An act to add Chapter 4 (commencing with Section 74450) to Part 5, Division 21, of the Water Code, relating to water conservation districts.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4 (commencing with Section 74450) is added to Part 5, Division 21 of the Water Code, to read:

CHAPTER 4. REDIVISION OF A DISTRICT WITHIN VENTURA COUNTY

Article 1. Introduction

74450. The provisions of this chapter apply only to districts within Ventura County.

74451. Except as provided in this chapter every district within Ventura County shall be governed by the provisions of this division.

Article 2. Redivision Procedure

74460. The number of members of the board and the basis for dividing a district into divisions for the election of directors may be changed in the manner prescribed in this chapter.

74461. Such change may be initiated by the board by resolution or may be initiated by a petition signed by not less than 5 percent of the electors of the district. Such resolution or petition shall state the new number of members of the board or the new basis for dividing the district into divisions based either on area or population.

74462. If the divisions are based on population, the population of each as determined by the last published decennial federal census shall be substantially equal in population. In no event shall the total population of any combination of divisions comprising a majority of the number of divisions of the district equal less than one-half of the population of the district. In no event shall the largest division exceed the population of the smallest division by a ratio exceeding 2 to 1.

In establishing the boundaries of the divisions consideration may be given to the following factors: topography, geography,

cohesiveness, contiguity, compactness of territory, and community of interests of the divisions.

74463. When such change has been initiated the board within 60 days thereafter shall submit to the board of supervisors its report thereon containing a map or description of recommended division boundaries in accordance with this Division 21.

74464. Within 40 days after receipt of the report of the board, the board of supervisors may change the division boundaries recommended by the board provided such change is in accordance with such resolution or petition and this chapter and shall fix the time and place of a hearing by the board not less than 30 nor more than 60 days thereafter.

74465. The clerk of the board of supervisors shall cause a notice of the time and place of the hearing to be given by publication within the district in accordance with Section 6066 of the Government Code. Such notice shall state the number of existing divisions of the district, the proposed new number of divisions or the proposed new basis for dividing the district, or both, and shall contain a general description of, or map showing, the division boundaries proposed by the board of supervisors and the population of each division.

74466. The board of supervisors shall hear all interested persons and may adjourn the hearing from time to time. Following such hearing the board of supervisors may further change the proposed division boundaries provided such change is in accordance with this chapter and the resolution and petition. The board of supervisors shall make an order describing the proposed divisions of the district, numbering such divisions consecutively, and directing that such proposed redivision be submitted to the electors of the district at a special election to be consolidated with the next district general election to be held not earlier than 120 days thereafter.

74467. The election on the proposed redivision of the district shall be held in the same manner as elections for the formation of a district so far as applicable. No particular form of ballot shall be required except that the ballot shall contain the words "_____Water Conservation District representation to be based on (population) (area) rather than on (area) (population) (and _____ Water Conservation District directors to be (increased (decreased) from _____ to _____ Yes _____ No," or words equivalent thereto. Any proposed redivision or change in number of directors shall become effective if a majority of the electors voting in the election vote "yes" thereon.

74468. Directors to fill vacancies in new divisions in the event the redivision is approved by the voters shall be nominated and elected at the same election in the same manner as for election of directors of a district so far as applicable. If one incumbent director resides within a proposed new division his term of office shall not be affected by the approval of the redivision by the voters of the district. If two or more incum-

bent directors reside within a proposed new division, the term of office of each of them will terminate on the approval of such redivision unless only one is duly nominated, in which case his term of office shall not be affected by the approval of such redivision A candidate who is a director of the district shall be permitted to have the word "Incumbent" or words equivalent thereto placed after his name on the ballot.

74469. Following approval by the voters of a redivision of the district, the directors shall, to the extent necessary, classify themselves in the manner provided by Section 74202.

74470. If the board of supervisors, at any time after making an order as provided by Section 74466 and prior to the election on the proposed redivision of the district, finds that it is in the public interest to do so, it may appoint not more than two electors of the district as temporary additional directors of the district. The number of temporary additional directors thus appointed shall be irrespective of the number of existing divisions of the district and of the number of proposed new divisions of the district. Such temporary additional directors shall have all of the powers, rights and privileges of elected directors and shall hold office until the election on the proposed redivision of the district

SEC. 2. The Legislature hereby finds and declares that facts and circumstances exist in Ventura County peculiar to that county which necessitates the special procedure provided by this act for redividing water conservation districts within Ventura County including, but not limited to, the general location of this district and its proximity to the ocean, the extremely rapid changes in geographic and economic distribution of the elements which are involved in the activities of the district, and the problem of salt water intrusion which the entire district is engaged in combating although it is basically an urban problem.

CHAPTER 1837

An act to amend Sections 7153 and 7153.1 of the Financial Code, relating to savings and loan associations.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 7153 of the Financial Code is amended to read:

7153. An association may make amortized loans upon the security of residential real property, the principal improvements on which consist of a dwelling or dwellings for not more than four families, in an amount not in excess of 80 percent of the appraised value of such real property if the appraised value does not exceed forty thousand dollars ($40,000), or not

in excess of 80 percent of the first forty thousand dollars ($40,000) of such appraised value if it exceeds forty thousand dollars ($40,000) plus 70 percent of the remainder of such appraised value.

SEC. 2. Section 7153.1 of said code is amended to read:

7153.1. (a) The real property is a condominium, as defined in Civil Code Section 783, designed for one-family occupancy, and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the condominium project.

(b) The real property is a residential unit designed for one-family occupancy within a community apartment project in which an undivided interest in the fee is coupled with the exclusive right of occupancy of such residential unit and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the community apartment project.

(c) The real property is a residential unit, designed for one-family occupancy, within a cluster-type residential project, in which the fee interest in such real property is coupled with an undivided interest in common in a portion of the remaining real property on which such project is located, and binding contracts have been entered into for the bona fide sale of not less than the majority of the residential units in the project.

CHAPTER 1838

An act to add Section 31535 to the Government Code, relating to the County Employees Retirement Law.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 31535 is added to the Government Code, to read:

31535. The board may issue subpoenas and subpoenas duces tecum, and compensate persons subpoenaed. This power shall be exercised and enforced in the same manner as the similar power granted the board of supervisors in Article 9 (commencing with Section 25170) of Chapter 1, Part 2, Division 2

of this title; except that such power shall extend only to matters within the retirement board's jurisdiction, and committees of the board shall not have this power. Reasonable fees and expenses may be provided for by board regulation for any or all of such witnesses regardless of which party subpoenaed them.

Subpoenas shall be signed by the chairman or secretary of the retirement board, except that the board may by regulation provide for express written delegation of its subpoena power to any referee it appoints pursuant to this chapter.

Any member of the board, the referee, or any person otherwise empowered to issue subpoenas may administer oaths to, or take depositions from, witnesses before the board or referee.

CHAPTER 1839

An act to amend Section 26292 of the Health and Safety Code, relating to drugs.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 26292 of the Health and Safety Code is amended to read:

26292. Section 26288 shall not apply to any of the following:

CHAPTER 1845

An act to add Section 5865.1 to the Public Resources Code, relating to small craft launching facilities.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 5865.1 is added to the Public Resources Code, to read:

5865.1. If the commission determines that any loan not exceeding the sum of fifty thousand dollars ($50,000) which was made to a local agency pursuant to Section 5827 prior to September 15, 1961, (the effective date of the program of grants to local agencies for the construction and development of small craft launching facilities) for the construction and development of small craft launching facilities, would have been made as a grant under Section 5865 if that section had been in effect, the commission may amend the existing loan contract to provide that no further repayments due or payable thereunder on the effective date of this section are required and such loan shall thereafter be considered for all purposes a grant pursuant to Section 5865. If the commission so amends such a contract, the contract shall provide, however, that if in any fiscal year there is any net profit over and above operational and maintenance expenses from the facilities constructed or developed with funds obtained by such a loan, the local agency shall pay such net profit for each such fiscal year to the state as a partial repayment of the loan until the loan is repaid in full. The contract, if so amended, shall further provide that use of any launching ramp shall be free of charge.

The Legislature hereby finds and declares that the enactment of this section is necessary in the public interest in order to permit the continued operation and maintenance of certain launching facilities financed prior to September 15, 1961, since the inadequacy of revenues from said launching facilities, one of the principal factors which prompted the enactment in 1961 of the grant program, may, if loan repayments are required, result in the economic failure and discontinuance of these facilities.

CHAPTER 1846

An act to add Section 440 to, and to amend Sections 2183 and 2193 of, and repeal Section 4183 of, the Welfare and Institutions Code and to add Section 11006.5 to, and to amend Sections 12013 and 12158 of, and repeal Section 13702 of Division 9 of the Welfare and Institutions Code as proposed by Assembly Bill No. 1682 of the 1965 Regular Session, relating to protective payments to public assistance recipients.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 440 of the Welfare and Institutions Code is added, to read:

440. This section shall be applicable only to those aid recipients under Chapter 1 (commencing with Section 2000) of Division 3, Chapter 1 (commencing with Section 3000) of Part 1 of Division 5, and Chapter 1 (commencing with Section 4000) of Part 2 of Division 5 of this code.

Alternate methods of providing assistance may be used for recipients of aid under the programs mentioned above who are found to be unable to manage the cash grant to their own best advantage. Such payment may only be used when it is determined by the county director that the recipient has, by reason of his physical or mental condition, such inability to manage funds that making cash payments to him would be contrary to his welfare.

Aid under this section may be paid to a guardian or conservator on behalf of the recipient. If no guardian or conservator is available, aid shall be paid, in whole or in part, to some other individual who is interested in or concerned with the welfare of the recipient. The department shall make regulations for the payment of aid under this section and for the selection of such substitute payee.

to create the emergency. No defect in such statement shall invalidate the special meeting. If any vacancy occurs in any appointive office of the board of directors, such vacancy shall be filled within 60 days from the date it occurs in the same manner as the original appointment was made. The board shall adopt a seal. It may also provide rules and regulations for the conduct of its meetings and may change such rules and regulations from time to time.

SEC. 2. Section 22(a) of said act is amended to read:

Sec. 22(a). If the board of directors determines that the money needed by the district for acquisition and construction of land and improvements has been reduced by reason of the completion of works of improvement in a natural drainage area with defined boundaries either by use of general funds or by the formation of an assessment district in such area and the levy of special assessments on the lands therein, or the establishment of a zone and the issuance and sale of bonds for said zone, then the board may proportionately reduce the amount to be assessed upon the taxable real property in such drainage area for the fiscal year, so that the property owners in such drainage area will not be assessed for costs of acquisitions and improvements outside of such drainage area, and the board of directors may request that the board of supervisors determine the rate of assessment tax separately for such drainage area.

SEC. 3. Section 23 of said act is amended to read:

Sec. 23. The board of supervisors shall annually, not later than the first Monday in September, levy an assessment tax upon the taxable real property in the district sufficient to raise the amount stated in the annual budget, and also an assessment tax sufficient to raise the amount required for payment of principal and interest of bonds of the district. The board of supervisors shall determine the rate of each such assessment tax in the district and separately in any natural drainage area with defined boundaries if so requested by the board of directors of the district pursuant to the provisions of Section 22(a) hereof by deducting 10 percent for anticipated delinquencies from the total assessed value of the taxable real property in the district as it appears on the assessment roll of the county and then dividing the sum to be raised by the remainder of such total assessed value in the district and separately in any natural drainage area with defined boundaries which is the subject of a request pursuant to the provisions of Section 22(a) hereof; provided, that if a fraction of a cent occurs on a valuation of one hundred dollars ($100) it shall be taken as a full cent. The assessment tax levied during any year for all purposes other than bond principal and interest shall not exceed twenty cents ($0.20) on each one hundred dollars ($100) of the assessed value of the taxable real property in the district according to the last equalized county assessment roll; provided, that such maximum permissible rate of assessment tax may be increased

by the qualified voters of the district. Said tax shall be extended and collected in the same manner and by the same officers and with the same penalties and interest as general county taxes, and when collected shall be paid into the treasury of the county and credited to the district.

CHAPTER 1858

An act to add Sections 6303.2 and 5006.4 to the Public Resources Code, relating to public resources, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 6303.2 is added to the Public Resources Code, to read:

6303.2. The State Lands Commission, in order to improve navigation, to enhance, improve, protect, preserve or restore public resources, including recreational resources, the development thereof in the public interest, and other public values, may lease to a lessee the privilege to remove sand, gravel or other related materials from the bed of the Russian River, Sonoma County, in accordance with such terms and conditions as will be in the best interest of the people of the state. Such lease shall be made with the advice of the Administrator of the Resources Agency.

The advice of the Administrator of the Resources Agency shall be based upon a finding by him that the consideration to be received from the lessee shall result in the enhancement, improvement, protection, preservation, or restoration of public resources and facilities, and the development thereof in the public interest, in the Russian River area, Sonoma County.

As a further consideration for the awarding of such lease by the commission for the privilege of removing sand, gravel

or other related materials, the lessee may be required to construct or maintain, or both, jetties, groins, seawalls, or other structures to improve public navigation at the mouth of the Russian River or its vicinity.

The awarding of any lease pursuant to this section shall be accomplished by the commission by competitive bidding to the highest responsible bidder pursuant to Sections 6890 to 6900, inclusive, under general regulations adopted by the commission.

This section does not affect any existing authority of the County of Sonoma to control land use.

SEC. 2. Section 5006.4 is added to said code, to read:

5006.4. Upon a finding by the director that enhancement, improvement, protection, preservation, and restoration of park and recreational lands and facilities belonging to this state will be substantially served by an exchange of certain state lands and properties for other lands owned by the lessee referred to in Section 6303.2 of this code, the director, with the approval of the Administrator of the Resources Agency, the Director of the Department of General Services, and the Director of the Department of Finance, may convey or exchange, for other lands of equal or greater value owned by such lessee and upon such other terms and conditions and with such reservations and exceptions as the director, in his discretion, deems appropriate, the following described property or any portion thereof:

(a) Approximately 17.5 acres in Sonoma Coast State Beach in Sonoma County, lying westerly of the mouth of the Russian River and easterly of the Pacific Ocean.

(b) A strip of land approximately 2,500 feet in length, containing approximately 11.44 acres in Sonoma Coast State Beach in Sonoma County, lying along and contiguous to the Russian River and adjacent to a portion of the former Wright-Bodega Range.

(c) Approximately 30 percent of the rock lying above mean high water on that portion of real property commonly known as Goat Rock in Sonoma Coast State Beach.

When it is further found by the director and the Administrator of the Resources Agency that the acquisition by the state of any real property owned by the lessee referred to in Section 6303 2 within a distance of not more than 10 miles from the mouth of the Russian River, would be of substantial public benefit as recreational lands, the State Lands Commission may include as a condition of the lease with such lessee, subject to and conditioned upon the approval of the Administrator of the Resources Agency, and the director, provisions for the immediate or ultimate use or acquisition in fee, or both, of such real property for recreational purposes, from such lessee, in lieu of or in addition to any monetary or other consideration to be received from such lessee for the privilege of removing sand, gravel or other related materials as referred to in Section 6303.2.

The title to any real property acquired by the state under this section shall be received by, and vest in, the Department of Parks and Recreation as part of the State Park System, except that any portion of such lands which are dredged so as to become navigable waters shall be received by and vest in the State Lands Commission.

This section does not affect any existing authority of the County of Sonoma to control land use.

SEC. 3. This act shall terminate on January 31, 1968.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The State of California, through the Resources Agency, is presently conducting negotiations, with elements of private enterprise, a transaction which, if consummated, would affect public or private lands at and near the mouth of the Russian River, Sonoma County. Under such transaction, if consummated, the state, in consideration of granting the privilege of extracting from public lands in such area the materials described in this act, and of making related transfers of public lands in such area, would receive from private enterprise certain other lands which would enhance and improve the lands of the State Park System in the area, and would realize the construction and maintenance of certain facilities at the mouth of the Russian River which would improve marine navigation in the area and the public use and enjoyment thereof. This act would authorize and enable the state to consummate the contemplated transaction. Immediate enactment of this act will permit the present negotiations with private enterprise to continue as presently in progress; will permit the state to consummate the contemplated transaction at the earliest possible date, thereby realizing to the state the substantial economic advantage of both conveying and receiving property at present values; and will permit the contemplated public benefits to be achieved at the earliest possible date. It is therefore necessary that this act take effect immediately.

CHAPTER 1859

An act to amend Section 1301 of the Penal Code, relating to bail.

Any bail or other person who willfully fails to deliver a defendant to the court, magistrate, sheriff, or police as required by this section is guilty of a misdemeanor.

The provisions of this section relating to the time of delivery of a defendant are for his benefit and, with the consent of the bail, may be waived by him. To be valid, such waiver shall be in writing, signed by the defendant, and delivered to such bail or other person within 48 hours after the defendant's arrest or entry into this state, as the case may be. The defendant, at any time and in the same manner, may revoke said waiver. Whereupon, he shall be delivered as provided herein without unnecessary delay and, in any event within 48 hours from the time of such revocation.

SECTION 1. Section 4360 of the Agricultural Code is amended to read:

4360. Following such hearings, investigation, surveys or examinations authorized above, the director shall establish

minimum wholesale and minimum retail prices for such marketing area for distributors therein, and minimum retail prices for retail stores therein, which minimum wholesale and minimum retail prices shall be sufficient, but not more than reasonably sufficient, to cover costs, as such costs are described in Section 4355 of this code, according to method of distribution, and reasonable return upon necessary capital investment, and shown to the director by the facts available to the director from the hearings, investigation, surveys or examinations for such marketing area required in this chapter, and the director shall declare such prices effective in the same manner as that prescribed in this chapter for declaring producer prices effective; provided, however, that whenever the director shall determine from credible evidence that any prices established as hereinabove set forth will not or would not conform to and effectuate the legislative declarations, purposes and intent set forth in this chapter, then he shall instead establish minimum wholesale or minimum retail prices which are higher or lower than those sufficient to cover said costs and reasonable return on capital investment, without limitations based upon the costs of individual distributors and retail stores described in subdivisions (e) and (g) of Section 4355, upon the condition that he shall determine in his judgment and shall find in writing with respect to such higher or lower minimum prices:

(a) That such minimum prices will tend to maintain in the business of distributing fluid milk and fluid cream, or both, such reasonably efficient retail stores and distributors of fluid milk and fluid cream, or both, in such marketing area as the director finds necessary to insure to consumers in such marketing area sufficient distribution facilities to supply the quantity of fluid milk or fluid cream, or both, required by such consumers without requiring such consumers to pay more for their supplies of such fluid milk, or fluid cream, or both, than is necessary to maintain adequate and efficient distribution facilities in such marketing area.

(b) That such minimum prices will not tend to induce or authorize the development of unfair trade practices, unfair competition, conditions of monopoly or combinations in restraint of trade, and that such minimum prices will tend to encourage the orderly and efficient marketing of fluid milk or fluid cream, or both.

It may not acquire, construct, reconstruct, operate and maintain any lateral or collecting sewer lines, whether tributary to the trunk lines or otherwise. It may acquire, construct, reconstruct, operate and maintain works to control flood and storm water within Zone 2. As an alternate to other means of financing such acquisition, including the procedures under Section 179.5 the Board of Trustees of Zone 2 may pursuant to such agreement issue bonds without further approval by the electorate on behalf of the area already bonded to provide funds for paying off the bonded indebtedness of such constructing agency either on call or at maturity and for paying principal and interest on such bonds until they are callable.

Zone 2 may enter into contracts with any public agency from whom it acquires such works or lines for the repayment of the costs of such acquisition in installments.

If a sewage treatment plant or sewer trunk line is acquired or constructed for Zone 2, any public agency or improvement district within the zone which connects thereto shall pay, through charges, an appropriate portion of the fixed charges incurred in connection with the treatment plant or sewer trunk line, as determined by the Board of Trustees of Zone 2, including where appropriate, in the case of a late comer, reimbursement to other agencies for fixed charges previously paid by them.

The tax so levied shall be assessed and collected in the same manner and by the same officers as county taxes are assessed and collected.

Sec. 179.10. The boundaries of Zone 2 and of its wards shall be automatically enlarged or contracted as a consequence of annexation to and exclusions from the boundaries of public agencies existing at the time Zone 2 is created and lying wholly within said zone, which have power to collect, treat, or dispose of sanitary sewage; provided that all territory annexed to the

City of Redding shall be included within either Wards 4, 5, 6 or 7 as the board of trustees deems appropriate. No part of the City of Redding shall ever be included in either Wards 1, 2, or 3.

The provisions of Chapters 1 and 4 of Part 7 of the Community Services District Law are hereby incorporated in this act as they may exist from time to time, to the end that annexations to and exclusions of territory from Zone 2 shall be made in the same way as such changes are made in community services districts, but no exclusions shall be ordered when, in the judgment of the board of trustees, it will be detrimental to the interests of Zone 2 and all references therein to the "board" shall be deemed references to the board of trustees of Zone 2

The same per-unit rate shall be charged all nonresident students attending any summer sessions maintained by the junior college.

A district shall report annually to the State Department of Education the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six units, and the total amount of fees collected from each category.

The provisions of this section which require a mandatory fee for nonresidents shall not apply to any district in which during the school year 1962–63 more than 25 percent of the students enrolled were residents of another state; except that the provisions of this section shall apply to such districts beginning with the school year 1970–71 and except that the provisions of this section which require annual reports to be filed with the State Department of Education on the number of such students enrolled shall apply to such districts in the same manner as to any other district.

SEC. 17. Section 25505.9 is added to said code, to read:

Pending adoption of such rules by the State Board of Education, governing boards of junior college districts may adopt rules providing for such refunds.

SEC. 18. This act is an urgency measure necessary for the immediate preservation of public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of citizens of the state require the continued orderly and unhampered functioning of the educational processes including admissions to public junior colleges. The admissions procedures depend, in part, upon the determination of place of residence of the applicants for admission and upon valid interchange of students from one district to another. This act provides means for the orderly establishment of interdistrict attendance agreements and for a uniform basis for determination of responsibility for providing educational services.

CHAPTER 1877

An act to amend Section 437c of the Code of Civil Procedure, relating to procedure in civil cases.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 437c of the Code of Civil Procedure is amended to read:

437c. In superior courts and municipal courts if it is claimed the action has no merit, or that there is no defense to the action, on motion of either party, after notice of the time and place thereof in writing served on the other party at least 10 days before such motion, supported by affidavit of any person or persons having knowledge of the facts, the answer may be stricken out or the complaint may be dismissed and judgment may be entered, in the discretion of the court unless the other party, by affidavit or affidavits shall show such facts as may be deemed by the judge hearing the motion sufficient to present a triable issue of fact. A judgment so entered is an appealable judgment as in other cases. The word "action" as used in this section shall be construed to include all types of proceedings. The word "answer" as used in this section shall be construed to include counterclaim and cross-complaint. The filing of a motion under this section shall not

extend the time within which a party must otherwise file an answer, demurrer or motion to strike

The affidavit or affidavits in support of the motion must contain facts sufficient to entitle plaintiff or defendant to a judgment in the action, and the facts stated therein shall be within the personal knowledge of the affiant, and shall be set forth with particularity, and each affidavit shall show affirmatively that affiant, if sworn as a witness, can testify competently thereto.

The affidavit or affidavits in opposition to said motion shall be made by the plaintiff or defendant, or by any other person having knowledge of the facts, and together shall set forth facts showing that the party has a good and substantial defense to the plaintiff's action (or to a portion thereof) or that a good cause of action exists upon the merits. The facts stated in each affidavit shall be within the personal knowledge of the affiant, shall be set forth with particularity, and each affidavit shall show affirmatively that the affiant, if sworn as a witness, can testify competently thereto. When the party resisting the motion appears in a representative capacity, such as a trustee, guardian, executor, administrator, or receiver, then the affidavit in opposition by such representative may be made upon his information and belief.

If it appear that such defense applies only to a part of the plaintiff's claim, or that a good cause of action does not exist as to a part of the plaintiff's claim, or that any part of a claim is admitted or any part of a defense is conceded, the court shall, by order, so declare, and the claim or defense shall be deemed established as to so much thereof as is by such order declared and the cause of action may be severed accordingly, and the action may proceed as to the issues remaining between the parties. No judgment shall be entered prior to the termination of such action but the judgment in such action shall, in addition to any matters determined in such action, award judgment as established by the proceedings herein provided for. A judgment entered under this section is an appealable judgment as in other cases.

CHAPTER 1878

An act to add Section 620 to the Revenue and Taxation Code, relating to the assessment of real property.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 620 is added to the Revenue and Taxation Code, to read:

620. When the assessed value of any real property on the secured roll has been increased by more than five hundred dol-

lars ($500), or by more than 10 percent, over its assessed value on the roll for the year immediately preceding but notice of the assessed value of such property or notice of such increase has not been issued pursuant to Section 619, the taxes thereon may be paid under protest. If payments are made in installments, the protest need not be repeated with the second installment. Protests shall be made by filing with the tax collector, together with the payment of the taxes or their first installment, a petition for assessment reduction on the form prescribed by the county board, which form the collector is to forward to the clerk of the county board with the notation that taxes were paid under protest pursuant to this section. If the taxes are so paid and the assessee has not previously applied for a reduction of the assessment, the county board at its next annual meeting as an equalization board shall thereupon equalize such assessment in the manner prescribed by Article 1 (commencing with Section 1601), Chapter 1, Part 3 of this division.

The tax rate fixed for property on the roll on which the property so equalized appears at the time of its original assessment shall be applied to the amount of the equalized assessment, determined in accordance with the preceding paragraph. In the event that the resulting figure is less than the tax theretofore computed, the taxpayer shall be liable for tax only for the lesser amount, and the difference shall be canceled. If the taxpayer has already paid the tax previously computed, such difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

If any taxes are paid under protest pursuant to this section, the taxing agency to which the taxes are paid may, in accordance with Section 26906.1 of the Government Code, impound such taxes until the final disposition of the claim or action respecting the protest. No such impounding is required.

SEC. 2. This act shall become operative on July 1, 1966.

CHAPTER 1879

SEC. 2. It is hereby found and determined:

(a) Because of geographical factors, the city can better administer for public use the subject lands for park, playground, marine, recreational and beach purposes than the state.

(b) The city is willing to accept such administration and control from the state upon the following conditions, which the state finds are necessary, reasonable and proper:

(1) The state shall convey to the city all its right, title and interest in and to the surface of the subject lands, and in and to all portions of the subsurface of said lands down to and including two hundred (200) feet below such surface. (2) Except as provided in paragraph (3), the conveyance of the grants is made upon the express condition that the property conveyed hereby shall be used for a public park, or beach used by all the public for recreational purposes, and for no other purposes whatsoever, and should said property or any portion thereof be used for any other purpose, then, in that event, such portion of the property hereby conveyed shall immediately revert unto the grantor herein, its successors or assigns.

(3) The city may for limited periods, not exceeding 99 years, lease any or all of the portion of the subject lands which lie east of the eastern line of the land described in the deed to the Capitola Sanitation District, recorded July 24, 1933, in Volume 245 of Official Records, page 397, Santa Cruz County, for purposes consistent with purposes specified in paragraph (2) of this section, including, but not limited to, motels or hotels, or both.

The conveyance is not to take effect until the execution of an agreement between the City of Capitola and the Department of Parks and Recreation specifying all the conditions and the agreement is approved by the Department of General Services.

The provisions of this section are directory, not mandatory, and the failure to refer such plan or any part or element thereof as herein provided shall not in any manner affect its validity.

65306. Whenever a county planning agency is considering a general plan or any part or element thereof it shall be referred to the planning agency of every city within the county, every other city which abuts upon such county, every county which abuts upon such county, and every county or city the territory of which is included in said plan or part or element thereof, for the purpose of informing such planning agency or agencies of said plan or part or element thereof and receiving its or their comments thereon. The provisions of this section are directory, not mandatory, and the failure to refer such plan or any part or element thereof as herein provided shall not in any manner affect its validity.

Article 6. Adoption of General Plan

65350. The general plan or any part or element thereof, and any amendment to such plan or any part or element thereof, shall be adopted in the manner provided in this article.

65351. When the county or city has a planning commission, the planning commission shall hold at least one public hearing before approving a general plan or any part or element thereof, or any amendment to such plan or any part or element thereof. Notice of the time and place of the hearing shall be given at least 10 calendar days before the hearing in the following manner:

(a) If the matter is before a county planning commission, the notice shall be published at least once in a newspaper of general circulation published and circulated in the county, or if there is none, it shall be posted in at least three public places in the county.

(b) If the matter is before a city planning commission, the notice shall be published at least once in a newspaper of general circulation published and circulated in the city, or if there is none, it shall be posted in at least three public places in the city.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary or desirable.

Any hearing may be continued from time to time.

65352. The approval by the planning commission of the general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, shall be by resolution of the commission carried by the affirmative votes of not less than a majority of its total voting members.

65353. The general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, shall be endorsed in the manner provided by the legislative body to show that it has been approved by the planning commission.

65354. Upon approval by the planning commission of the general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, it shall be transmitted to the legislative body of the county or city.

65355. Before adopting the general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, the county or city legislative body shall hold at least one public hearing. Notice of the time and place of the hearing shall be given in the time and manner provided for the giving of notice of the hearing by the planning commission as specified in Section 65351.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary or desirable.

Any hearing may be continued from time to time.

65356. In adopting a general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, which has been approved by the planning commission, the legislative body shall not make any change or addition until the proposed change or addition has been referred to the planning commission for a report and a copy of the report has

been filed with the legislative body. Failure of the planning commission to report within 40 days after the reference, or such longer period as may be designated by the legislative body, shall be deemed to be approval of the proposed change or addition. It shall not be necessary for the planning commission to hold a public hearing on such proposed change or addition.

65357. The adoption of the general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, shall be by resolution of the legislative body of the county or city.

65358. If the city does not have a planning commission, the only procedural steps required for the adoption of the general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, shall be those provided in this article for action by the legislative body.

65359. The general plan or any part or element thereof, or any amendment to such plan or any part or element thereof, shall be endorsed in the manner provided by the legislative body to show that it has been adopted by the legislative body.

65360. A copy of the adopted general plan of a county shall be sent to the planning agency of each city within the county, and said plan or any portion thereof may be adopted as a part of the city general plan. A copy of the adopted general plan of a city shall be sent to the planning agency of the county within which the city is located, and said plan or any portion thereof may be adopted as a part of the county general plan. The provisions of this section are directory, not mandatory, and the failure to send such adopted plan or any portion thereof as herein provided shall not in any manner affect its validity.

Article 7. Administration of General Plan

65400. After the county or city legislative body has adopted all or part of a general plan, the planning agency shall:

(a) Investigate and make recommendations to the legislative body upon reasonable and practical means for putting into effect the general plan or part thereof, in order that it will serve as a pattern and guide for the orderly physical growth and development of the county or city and as a basis for the efficient expenditure of its funds relating to the subjects of the general plan; the measures recommended may include plans, regulations, financial reports, and capital budgets.

(b) Render an annual report to the legislative body on the status of the plan and progress in its application.

(c) Endeavor to promote public interest in and understanding of the general plan, and regulations relating to it.

(d) Consult and advise with public officials and agencies, public utility companies, civic, educational, professional and other organizations, and citizens generally with relation to carrying out the general plan.

65401. If a general plan or part thereof has been adopted, within such time as may be fixed by the legislative body, each county or city officer, department, board, or commission, and each governmental body, commission, or board whose jurisdiction lies entirely within the county or city, whose functions include recommending, preparing plans for, or constructing, major public works, shall submit to the official agency, as designated by the respective county board of supervisors or city council, a list of the proposed public works recommended for planning, initiation or construction during the ensuing fiscal year. The official agency receiving the list of proposed public works shall list and classify all such recommendations and shall prepare a coordinated program of proposed public works for the ensuing fiscal year. Such coordinated program shall be submitted to the county or city planning agency for review and report to said official agency as to conformity with the adopted general plan or part thereof.

65402. (a) If a general plan or part thereof has been adopted, no real property shall be acquired by dedication or otherwise for street, square, park or other public purposes, and no real property shall be disposed of, no street shall be vacated or abandoned, and no public building or structure shall be constructed or authorized, if the adopted general plan or part thereof applies thereto, until the location, purpose and extent of such acquisition or disposition, such street vacation or abandonment, or such public building or structure have been submitted to and reported upon by the planning agency as to conformity with said adopted general plan or part thereof. The planning agency shall render its report as to conformity with said adopted general plan or part thereof within forty (40) days after the matter was submitted to it, or such longer period of time as may be designated by the legislative body. The provisions of this paragraph (a) shall not apply to acquisitions or abandonments for street widening or alignment projects of a minor nature if the legislative body so provides by ordinance or resolution.

(b) A county shall not acquire real property for any of the purposes specified in paragraph (a), nor dispose of any real property, nor construct or authorize a public building or structure, in another county or within the corporate limits of a city, if such city or other county has adopted a general plan or part thereof and such general plan or part thereof is applicable thereto, and a city shall not acquire real property for any of the purposes specified in paragraph (a), nor dispose of any real property, nor construct or authorize a public building or structure, in another city or in unincorporated territory, if such other city or the county in which such unincorporated territory is situated has adopted a general plan or part thereof and such general plan or part thereof is applicable thereto, until the location, purpose and extent of such acquisition, disposition, or such public building or structure have been submitted to and reported upon by the planning agency having

jurisdiction, as to conformity with said adopted general plan or part thereof. Failure of the planning agency to report within forty (40) days after the matter has been submitted to it shall be conclusively deemed a finding that the proposed acquisition, disposition, or public building or structure is in conformity with said adopted general plan or part thereof.

(c) A local agency shall not acquire real property for any of the purposes specified in paragraph (a) nor dispose of any real property, nor construct or authorize a public building or structure, in any county or city, if such county or city has adopted a general plan or part thereof and such general plan or part thereof is applicable thereto, until the location, purpose and extent of such acquisition, disposition, or such public building or structure have been submitted to and reported upon by the planning agency having jurisdiction, as to conformity with said adopted general plan or part thereof. Failure of the planning agency to report within forty (40) days after the matter has been submitted to it shall be conclusively deemed a finding that the proposed acquisition, disposition, or public building or structure is in conformity with said adopted general plan or part thereof. If the planning agency disapproves the location, purpose or extent of such acquisition, disposition, or the public building or structure, the disapproval may be overruled by the local agency.

Local agency as used in this paragraph (c) means an agency of the state for the local performance of governmental or proprietary functions within limited boundaries. Local agency does not include the state, or county, or a city.

Article 8. Authority For and Scope of Specific Plans

65450. The planning agency may, or if so directed by the legislative body shall, prepare specific plans based on the general plan and drafts of such regulations, programs, and legislation as may in its judgment be required for the systematic execution of the general plan and the planning agency may recommend such plans and measures to the legislative body for adoption.

65451. Such specific plans may include:

(a) Regulations limiting the location of buildings and other improvements with respect to existing or planned rights-of-way.

(b) Regulations of the use of land and buildings, the height and bulk of buildings, and the open spaces about buildings.

(c) Street and highway naming and numbering plans in order to establish the official names of streets and highways, to remove conflicts, duplication and uncertainty among such names, and to provide an orderly system for the numbering of buildings and properties.

(d) Such other matters which will accomplish the purposes of this chapter, including procedure for the administration of such regulations.

(e) Such other measures as may be required to insure the execution of the general plan.

Article 9. Procedure for Adoption of Specific Plans and Regulations

65500. Before recommending to the legislative body that it adopt a specific plan or regulation or any amendment to a specific plan or regulation, the planning commission shall hold at least one (1) public hearing. Notice of the time and place of said hearing shall be given at least 10 calendar days before the hearing in the following manner:

(a) If the matter is before a county planning commission, the notice shall be published at least once in a newspaper of general circulation published and circulated in the county, or if there is none, it shall be posted in at least three public places in the county.

(b) If the matter is before a city planning commission, the notice shall be published at least once in a newspaper of general circulation published and circulated in the city, or if there is none, it shall be posted in at least three public places in the city.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary or desirable.

Any hearing may be continued from time to time.

65501. The recommendation of any specific plan or regulation, or of any amendment to a specific plan or regulation shall be by resolution of the planning commission carried by the affirmative votes of not less than a majority of its total voting members.

65502. A copy of any specific plan, regulation, or amendment recommended pursuant to this article shall be submitted to the legislative body and shall be accompanied by a statement of the planning commission's reasons for such recommendation.

65503 Upon receipt of a copy of any proposed specific plan or regulation or amendment of such plan or regulation the legislative body may by ordinance or resolution adopt the plan or regulation. Before adopting the proposed specific plan or regulation the legislative body shall hold at least one (1) public hearing. Notice of the time and place of said hearing shall be given in the time and manner provided for the giving of notice of the hearing by the planning commission as specified in Section 65500.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary or desirable.

Any hearing may be continued from time to time.

Such plan or regulation, as adopted, shall be designated as a specific plan or regulation.

65504. The legislative body shall not make any change or addition in any proposed specific plan, regulation, or amendment thereto recommended by the planning commission until the proposed change or addition has been referred to the planning commission for a report and a copy of the report has been filed with the legislative body. Failure of the planning commission to report within forty (40) days after the reference, or such longer period as may be designated by the legislative body, shall be deemed to be approval of the proposed change or addition. It shall not be necessary for the planning commission to hold a public hearing on such proposed change or addition.

65505. If the city does not have a planning commission, the only procedural steps required for the adoption of a specific plan or regulation or any amendment to a specific plan or regulation shall be those provided in this article for action by the legislative body.

65506. Nothing in this chapter applies to the adoption or amendment of any ordinance by the legislative body, whether or not it may relate to the subjects mentioned in Article 8 of this chapter, except ordinances expressly adopting or amending a specific plan initiated pursuant to this chapter.

Article 10. Administration of Specific Plans and Regulations

65550. The legislative body may determine and establish administrative rules and procedures for the application and enforcement of specific plans and regulations, and may assign or delegate such administrative functions, powers, and duties to the planning or other agency as may be necessary or desirable.

65551. The legislative body may create administrative agencies, boards of review, appeal, and adjustment, and provide for other officials, and for funds for the compensation of such officers, employees, and agencies and for the support of their work.

65552. No street shall be improved and no sewers or connections or other improvements shall be laid or authorized in any street within any territory for which the legislative body has adopted a specific street or highway plan until the matter has been referred to the planning agency for a report as to conformity with such specific street or highway plan and a copy of the report has been filed with the legislative body unless one of the following conditions applies:

(a) The street has been accepted, opened, or has otherwise received the legal status of a public street prior to the adoption of the plan.

(b) It corresponds with streets shown on the plan.

(c) It corresponds with streets shown on a subdivision map or record of survey approved by the legislative body.

(d) It corresponds with streets shown on a subdivision map previously approved by the planning commission.

Such report shall be submitted to the legislative body within forty (40) days after the matter was referred to the planning agency.

Article 11. Area Planning

65600 A planning area for area planning purposes may include populated areas, unpopulated areas, or unimproved areas within or outside of cities, or any combination of such areas. A planning area shall consist of contiguous territory.

65601. By resolution, the governing bodies of the city, or cities, county, or counties, or any of them in which a planning area lies may establish an area planning commission.

65602. The legislative bodies of the cities and counties affected shall appoint the area planning commission members.

65603. A member of an area planning commission from any city or county may be removed by majority vote of the legislative body of such city or county.

65604. The functions and the operation of an area planning commission, including the employment of personnel, consultants and specialists by contract, shall be in accord with a plan for organization, functions and financing mutually agreed upon by the cooperating counties and cities.

65651. Two or more county, city or area planning commissions, or any combination of them, may make cooperative arrangements for a joint director of planning and for such other employees as may be required to operate a joint staff and may contract to render technical service to another commission in the same area. Such arrangements or contracts shall be approved by the legislative bodies concerned

Article 13. Applicability of Chapter

65700. The provisions of this chapter shall not apply to a charter city, except to the extent that the same may be adopted by charter or ordinance of the city.

SEC. 6. Chapter 4 (commencing with Section 65800) is added to Title 7 of said code, to read:

CHAPTER 4. ZONING REGULATIONS

Article 1. General Provisions

65800. It is the purpose of this chapter to provide for the adoption and administration of zoning laws, ordinances, rules and regulations by counties and cities, as well as to implement such general plan as may be in effect in any such county or city. The Legislature declares that in enacting this chapter it is its intention to provide only a minimum of limitation in order that counties and cities may exercise the maximum degree of control over local zoning matters.

65801. Formal rules of evidence or procedure which must be followed in court shall not be applied in zoning matters, except to the extent that a county or city may provide therefor. No action, inaction or recommendation regarding any zoning matter by any legislative body or any administrative body or official of any county or city shall be held void or invalid or be set aside by any court on the ground of the improper admission or rejection of evidence or by reason of any error, irregularity, informality, neglect or omission (hereinafter called "error") as to any matter pertaining to petitions, applications, notices, findings, records, hearings, reports, recommendations, appeals or any matters of procedure whatever, including, but not limited to, those included in this section, unless after an examination of the entire case, including the evidence, the court shall be of the opinion that the error complained of was prejudicial, and that by reason of such error the party complaining or appealing sustained and suffered substantial injury, and that a different result would have been probable if such error had not occurred or existed There shall be no presumption that error is prejudicial or that injury was done if error is shown.

65802. No provisions of this code, other than the provisions of this chapter, and no provisions of any other code or statute shall restrict or limit the procedures provided in this chapter by which the legislative body of any county or city enacts, amends, administers, or provides for the administration of any zoning law, ordinance, rule or regulation.

65803 The provisions of this chapter shall not apply to a chartered city, except to the extent that the same may be adopted by charter or ordinance of the city.

Article 2. Adoption of Regulations

65850. Pursuant to the provisions of this chapter, the legislative body of any county or city by ordinance may:

(a) Regulate the use of buildings, structures and land as between agriculture, industry, business, residence and other purposes.

(b) Regulate signs and billboards.

(c) Regulate location, height, bulk, number of stories and size of buildings and structures; the size and use of lots, yards,

courts and other open spaces; the percentage of a lot which may be occupied by a building or structure; the intensity of land use.

(d) Establish requirements for off-street parking and loading.

(e) Establish and maintain building setback lines.

(f) Create civic districts around civic centers, public parks, public buildings or public grounds and establish regulations therefor.

65851. For such purposes the legislative body may divide a county, a city, or portions thereof, into zones of the number, shape and area it deems best suited to carry out the purpose of this chapter.

65852. All such regulations shall be uniform for each class or kind of building or use of land throughout each zone, but the regulation in one type of zone may differ from those in other types of zones.

65853. A zoning ordinance or an amendment to a zoning ordinance, which amendment changes any property from one zone to another or imposes any regulation listed in Section 65850 not theretofore imposed or removes or modifies any such regulation theretofore imposed shall be adopted in the manner set forth in Sections 65854 to 65857, inclusive. Any other amendment to a zoning ordinance may be adopted as other ordinances are adopted.

65854 The planning commission shall hold a public hearing on any such ordinance or amendment. Notice of the time and place of said hearing including a general explanation of the matter to be considered and including a general description of the area affected shall be given at least 10 calendar days before the hearing in the following manner:

(a) If the matter is before a county planning commission, the notice shall be published at least once in a newspaper of general circulation, published and circulated in the county, or if there is none, it shall be posted in at least three public places in the county.

(b) If the matter is before a city planning commission the notice shall be published at least once in a newspaper of general circulation, published and circulated in the city, or if there is none, it shall be posted in at least three public places in the city.

(c) In prezoning, if the matter is before a city planning commission the notice shall be published at least once in a newspaper of general circulation, published and circulated in the area to be prezoned, or if there is none, it shall be posted in at least three public places in the area to be prezoned.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary or desirable.

Any hearing may be continued from time to time.

65855. After the hearing, the planning commission shall render its decision in the form of a written recommendation

to the legislative body. Such recommendation shall include the reasons for the recommendation and shall be transmitted to the legislative body in such form and manner as may be specified by the legislative body.

65856. Upon receipt of the recommendation of the planning commission, the legislative body shall hold a public hearing; provided, however, that if the matter under consideration is an amendment to a zoning ordinance to change property from one zone to another, and the planning commission has recommended against the adoption of such amendment, the legislative body shall not be required to take any further action thereon unless otherwise provided by ordinance or unless an interested party shall request such a hearing by filing a written request with the clerk of the legislative body within five days after the planning commission files its recommendations with the legislative body.

Notice of the time and place of said hearing shall be given in the time and manner provided for the giving of notice of the hearing by the planning commission as specified in Section 65854.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary or desirable.

Any hearing may be continued from time to time.

65857. The legislative body may approve, modify or disapprove the recommendation of the planning commission; provided that any modification of the proposed ordinance or amendment by the legislative body shall first be referred to the planning commission for report and recommendation, but the planning commission shall not be required to hold a public hearing thereon. Failure of the planning commission to report within forty (40) days after the reference, or such longer period as may be designated by the legislative body, shall be deemed to be approval of the proposed modification

65858. Without following the procedures otherwise required preliminary to the adoption of a zoning ordinance, the legislative body, to protect the public safety, health and welfare, may adopt as an urgency measure an interim ordinance prohibiting any uses which may be in conflict with a contemplated zoning proposal which the legislative body, planning commission or the planning department is considering or studying or intends to study within a reasonable time. Such urgency measure shall require a four-fifths vote of the legislative body for adoption. Such interim ordinance shall be of no further force and effect 90 days from the date of adoption thereof; provided, however, that after notice pursuant to Section 65856 and public hearing, the legislative body may by a four-fifths vote extend such interim ordinance for one year. Not more than two such extensions may be adopted. When such interim ordinance has been adopted, every subsequent ordinance adopted pursuant to this section, covering the whole or a part of the same property, shall automatically

terminate and be of no further force or effect upon the termination of the first such ordinance or any extension thereof as herein provided.

65859. A city may prezone unincorporated territory adjoining the city for the purpose of determining the zoning that will apply to such property in the event of subsequent annexation to the city. The method of accomplishing such prezoning shall be as provided by this chapter for zoning within the city. Such zoning shall become effective at the same time that the annexation becomes effective.

If a city has not prezoned territory which is annexed, it may adopt an interim ordinance in accordance with the provisions of Section 65858.

65860. No county or city shall be required to adopt a general plan prior to the adoption of a zoning ordinance.

65861. When there is no city planning commission, the legislative body of such city shall do all things required or authorized by this chapter of the city planning commission.

Article 3. Administration

65900. The legislative body of a city or county may, by ordinance, create and establish either a board of zoning adjustment, or the office of zoning administrator or both. It may also, by ordinance, create and establish a board of appeals. Members of a board of zoning adjustment and members of a board of appeals may receive compensation for their attendance at each meeting of their respective boards in a sum to be fixed by the legislative body by which they are appointed. In addition, they may also receive reasonable traveling expenses to and from the usual place of business of such board to any place of meeting of the board within the county or city.

65901. The board of zoning adjustment or zoning administrator shall hear and decide applications for conditional uses or other permits when the zoning ordinance provides therefor and establishes criteria for determining such matters, and applications for variances from the terms of the zoning ordinance. Said board or said zoning administrator may also exercise such other powers as may be granted by local ordinance, and adopt all rules and procedures necessary or convenient for the conduct of its or his business.

65902. In the event that neither a board of zoning adjustment or the office of a zoning administrator has been created and established, the planning commission shall exercise all of the functions and duties of said board or said administrator.

65903. A board of appeals, if one has been created and established by local ordinance, shall hear and determine appeals from the decisions of the board of zoning adjustment or the zoning administrator, as the case may be. Procedures for such appeals shall be as provided by local ordinance. Such board may reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed

from, and may make such order, requirement, decision, or determination as should be made, and such action shall be final.

65904. If a board of appeals has not been created and established the local legislative body shall exercise all of the functions and duties of the board of appeals in the same manner and to the same effect as provided in Section 65903.

65905. Whenever an application for a variance, or a conditional use permit or other permit, for revocation or modification of same or an appeal from the action taken thereon, is submitted to the body or person charged with conducting a public hearing thereon, notice of hearing shall be given by notice through the United States mails, with postage prepaid using addresses from the last equalized assessment roll, or alternatively, from such other records of the assessor or the tax collector as contain more recent addresses in the opinion of said body, or by both publication in a newspaper of general circulation in accordance with Section 65854 and posting said notice in conspicuous places close to the property affected. Procedure for mailing or posting of said notices shall be governed by the provisions of the local ordinance.

65906. Variances from the terms of the zoning ordinance shall be granted only when, because of special circumstances applicable to the property, including size, shape, topography, location or surroundings, the strict application of the zoning ordinance deprives such property of privileges enjoyed by other property in the vicinity and under identical zoning classification.

Any variance granted shall be subject to such conditions as will assure that the adjustment thereby authorized shall not constitute a grant of special privileges inconsistent with the limitations upon other properties in the vicinity and zone in which such property is situated.

SEC. 7. Section 65005 of said code is repealed

SEC. 8 Chapter 3 (commencing with Section 65090) of Title 7 of said code is repealed.

SEC. 9. Chapter 4 (commencing with Section 65800) of Title 7 of said code is repealed.

CHAPTER 1881

An act to amend Section 6651 of the Health and Safety Code, relating to sanitary districts.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 6651 of the Health and Safety Code is amended to read:

6651. The outstanding bonds of the district shall not at any one time exceed 15 percent of the assessed value of the real and personal property of the district, except where the board elects to use the county assessor's tax roll pursuant to Article 6 (commencing with Section 6780) of Chapter 7 of this part, in which case the outstanding bonds of the district may equal an amount not to exceed 20 percent of the assessed value of the real and personal property of the district.

Within the meaning of this section the term "bonds" means only bonds payable from the proceeds of taxes levied upon taxable property in the district.

CHAPTER 1882

An act to add Section 268.8 to the Revenue and Taxation Code, relating to the welfare exemption, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 268.8 is added to the Revenue and Taxation Code, to read:

268.8. For the purposes of Section 268, "property as to which the welfare exemption was available for any fiscal year commencing during the calendar year 1964" includes property owned by a nonprofit corporation which would otherwise qualify for the welfare exemption, except that at the lien date for that year its articles of incorporation did not provide that its property was irrevocably dedicated to charitable, scientific or hospital purposes, and upon its liquidation, dissolution or abandonment would not inure to the benefit of any private person, except a fund, foundation or corporation organized and operated for charitable, scientific or hospital purposes, if the nonprofit corporation does all of the following:

(1) Files an affidavit with the assessor that its property was at that time and has been since then irrevocably dedicated to religious, charitable, scientific, or hospital purposes and upon liquidation, dissolution or abandonment of the owner would not inure to the benefit of any private person, except a fund, foundation or corporation organized and operated for religious, hospital, scientific or charitable purposes.

(a) Amended its articles of incorporation during the calendar year 1964 to provide that its property is irrevocably dedicated to charitable, scientific, or hospital purposes and upon liquidation, dissolution or abandonment of the owner, will not inure to the benefit of any private person, except a

fund, foundation or corporation organized and operated for charitable, scientific or hospital purposes.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some organizations have inadvertently failed to amend their articles of incorporation to reflect their actual status, in support of the tax exemption of their property which is granted by the State Constitution, and as a result now are confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the state as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit.

CHAPTER 1883

An act to add Article 10 (commencing with Section 29520) to Chapter 2 of Division 3 of Title 3 of the Government Code, relating to county funds.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Article 10 (commencing with Section 29520) is added to Chapter 2 of Division 3 of Title 3 of the Government Code, to read:

Article 10. Property Tax Reduction Fund

29520. The board of supervisors may establish a property tax reduction fund, into which shall be placed all new revenues, other than property taxes, made available by the Legislature for use by boards of supervisors.

29521. The board may appropriate moneys to the fund and shall require deposit therein of all moneys required to be deposited in the property tax reduction fund by any provision of law. The board shall require that no estimates of new revenues, other than property taxes, made available by the Legislature for use by boards of supervisors shall be placed in the preliminary county budget. On the concluding day of the public budget hearing the board of supervisors shall receive from the county auditor a list of estimated revenues, that will have been made available by the Legislature for use by boards of supervisors and after reviewing and making any necessary changes they shall then make these additional revenues a part

of the county final budget and order the depositing of the additional revenues in the property tax reduction fund.

29522. After any money has been deposited in the property tax reduction fund, it may be withdrawn therefrom only if the board reduces the rate of county and district taxes in an amount sufficient to reduce the revenue derived from property taxes in an amount equal to the amount withdrawn from the fund. Such reduction shall be made prior to the time the county auditor performs the duties imposed upon him by Section 2152 of the Revenue and Taxation Code. Withdrawals from the property tax fund and reductions in the rate of county and district taxes shall be authorized by the board of supervisors only on the concluding day of the public budget hearing.

29523. Any moneys withdrawn from the property tax reduction fund may be expended for any purpose authorized by law.

CHAPTER 1884

An act to add Section 4257.5 to the Agricultural Code, relating to milk sales.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

All bids and certifications filed pursuant to this section shall be confidential and shall not be divulged except when necessary for the proper determination of any court proceeding or hearing before the director.

CHAPTER 1885

An act to add Article 8 (commencing with Section 30798) to Chapter 2 of Division 17 of the Streets and Highways Code, relating to planning and study of toll crossings.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Article 8, commencing with Section 30798, is added to Chapter 2 of Division 17 of said code, to read:

Article 8. San Francisco-Marin Crossing

30798. From funds in the Revenue Fund of the San Francisco-Oakland Bay Bridge which have accrued up to December 31, 1964, the Department of Public Works is authorized to use the sum of eight hundred fifty thousand dollars ($850,000) or so much thereof as is determined by the Director of Public Works to be available after providing for payment for the work necessary to complete the reconstruction of the San Francisco-Oakland Bay Bridge as authorized by Section 30609 of this code, and after providing for payment for completion of the improvement of the San Mateo-Hayward Bridge as authorized by Section 30791 of this code, for the purpose of making studies and performing all preliminary work, including but not limited to, surveys, plans, estimates of costs, right-of-way appraisals, engineering studies, layouts, traffic studies, approach studies, consultant fees and other preliminary expenses necessary for investigation and study of the feasibility of financing through revenue bonds and constructing a toll bridge or other toll highway crossing from the City and County of San Francisco to the County of Marin with a leg therefrom crossing either to Contra Costa County or Alameda County, including the feasibility of rapid transit thereon. The department shall submit a progress report to the Legislature as to said studies and preliminary work at the 1966 Regular Session of the Legislature not later than February 1, 1966, and shall submit a final report thereon to the Legislature at the 1967 Regular Session not later than May 1, 1967.

CHAPTER 1886

An act to amend Section 20812 of, and to add Section 20810.6 to, the Government Code, relating to the State Employees' Retirement System.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 20812 of the Government Code is amended to read:

20812. All contributions made pursuant to Sections 20810.5, 20810.6 and 20811 shall be considered to be, and shall be administered as, normal contributions by the member, and his normal rate of contribution and his normal accumulated contributions shall be adjusted to what they would have been if his membership in this system had been effective at the beginning of the time for which the contributions are made pursuant to such sections. The state service credited pursuant to such sections shall be credited as current service or prior service, or both, as it would be credited if the member had been an employee of the contracting agency throughout the service so credited.

SEC. 2. Section 20810.6 is added to said code, to read:

20810.6. A local member who is an employee of a county which is a contracting agency and who, prior to entering county employment, was employed by a housing authority created under the provisions of Chapter 1 (commencing with Section 34200) of Part 2, Division 24 of the Health and Safety Code within the county, which housing authority was not a contracting agency at the time of such employment, shall receive credit as state service under the contract of such contracting agency for time during which he was employed by such public agency in the same manner and to the same extent as if he had been employed by such contracting agency during such time if he does not receive credit for such time in any other publicly supported retirement system, and if he elects while in such county employment and within 90 days after notice of his right to elect to pay to the system in amounts, at times, and in the manner prescribed by the board, and thereafter pays in accordance with such election, (1) any contributions which he would have paid to this system had he been an employee of such contracting agency during such time; and (2) an amount equal to the interest which would have been credited to the date or dates of payment to such contributions had he been such an employee.

This section shall not apply to any contracting agency nor to the employees of such agency unless and until the agency elects to be subject to the provisions of this section by amendments to its contract made in the manner prescribed for approval of contracts, except that an election among employees

is not required. An election of a contracting agency to be subject to this section may not be made after June 30, 1966.

CHAPTER 1887

An act to add Chapter 19.2 (commencing with Section 5530) to Part 3, Division 7 of the Streets and Highways Code, relating to the Improvement Act of 1911.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Chapter 19.2 (commencing with Section 5530) is added to Part 3, Division 7 of the Streets and Highways Code, to read:

CHAPTER 19.2. ADDITIONAL ASSESSMENT

5530. In the event that the cost and expense of the improvement work payable by the real estate benefited by such work exceeds the construction costs set forth in the contract, because of an act or omission of the legislative body or its superintendent of streets, officers, or employees occurring prior to the award of the contract which subjects the legislative body to liability pursuant to Division 3.6 (commencing with Section 810), Title 1 of the Government Code, the legislative body may settle this liability out of court, or may pay a judgment rendered by the court as to this liability, by a payment out of the General Fund or by an additional assessment.

5531. In the event payment is to be made by an additional assessment, the additional assessment shall be made and collected, and notice thereof shall be given in the same manner, as nearly as may be, as in the case of the original assessment. The superintendent of streets shall prepare and file with the additional assessment, a diagram showing the lots or parcels of land deemed by him to have been benefited by the work. The superintendent of streets shall assess the additional assessment upon the several lots or parcels of land shown in such diagram in the proportion to the estimated benefits to be received by each of the several lots or parcels of land.

5532. Sections 5366, 5367, 5368, 5369 and 5372 of this code shall apply to the additional assessment except that the objections, appeals or protests referred to in Section 5366 shall be limited to the matter of the cost of liability and not relate to the work, acquisition or improvement.

5533. The lien of an additional assessment, whether bonds issued to represent the additional assessment or otherwise, shall be subordinate to all special assessment liens previously imposed upon the property, but it shall have priority over all special assessment liens which may thereafter be created

against the property; and from and after the date of the recording of any warrant, special assessment and diagram, all persons shall be deemed to have notice of the contents thereof.

CHAPTER 1888

An act to amend Section 501 of the Agricultural Code, relating to milk inspection.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 501 of the Agricultural Code is amended to read:

501. (a) The city or county or group of either or both maintaining an approved milk inspection service where an inspection fee is levied and collected shall determine the actual cost of making an inspection of a dairy farm producing market milk, or a milk products plant processing or handling market milk and related products, or both such farm and plant, within the area designated and assigned to such service by the director.

(b) For the purpose of maintaining an approved milk inspection service, the city or county or group of either or both may, but is not required to, levy and collect an inspection fee or fees from distributors of market milk produced at dairy farms, or processed and handled at milk products plants, or both, within the area designated and assigned to such service by the director. The dairy farm inspection fee shall not exceed the actual cost to the city or county of making the dairy farms inspection. No approved milk inspection service and no distributor shall charge any portion of such fees to any producer. The milk products plant inspection fee shall not exceed the actual cost of making the milk products plant inspection. The cost of such inspections, dairy and plant, may include all directly related costs.

(c) Where an approved milk inspection service inspects a dairy farm, said dairy farm inspection fee, if levied, shall be collected from the distributor or distributors of market milk produced on said dairy farm, whether or not the milk products plants of said distributors are located within the area designated and assigned to such service by the director. Where an approved milk inspection service inspects a milk products plant, said milk products plant inspection fee, if levied, shall be collected from the distributor maintaining said milk products plant.

(d) Nothing in this section shall require any city or county to levy and collect an inspection fee for either dairy farm

inspection or milk products plant inspection, or both, where such fee or fees are not presently levied or collected.

(e) Whenever market milk produced at a dairy farm is delivered to more than one milk products plant, any inspection fee levied for the cost of said dairy farm inspection service shall be proportioned upon an equitable basis between distributors receiving said market milk at their milk products plants and shall be paid for in such proportions by each such distributor to the approved milk inspection service rendering the inspection service.

An act to repeal Sections 89 and 134 of the Civil Code, and to amend Section 426a of the Code of Civil Procedure and to amend Section 26859 of the Government Code and to amend Section 10000 of, and to repeal and add Chapter 6.5 (commencing with Section 10360) of Division 9 of, and to add Article 4 (commencing with Section 10620) to Chapter 12 of Division 9 of, and to add Sections 10000.1, 10038, 10584, and 10678.1 to, the Health and Safety Code, relating to vital statistics, and making an appropriation.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that adequate, accurate and accessible information about divorces, annulments, and legal separations which occur in this state is of vital importance to the persons involved, legislators who must make important decisions relating thereto, and scholars and researchers attempting to aid in the solution of marriage and divorce problems through collection and analysis of relevant data.

The Legislature recognizes that California is one of the states which keep such minimal records concerning divorce that they are ineligible to participate in the divorce registration area established by the National Office of Vital Statistics as a comprehensive program aimed at improving vital statistics collection throughout the country concerning vital events in the lives of our people, such as birth, marriage, death and divorce. The result is that California does not have basic vital statistics information about divorces occurring within the

state The present system does not serve effectively either the purpose of a statewide index or to furnish basic vital statistics data regarding divorce.

It is the intent and purpose of the Legislature to upgrade California's information-gathering procedures in order to bring more information into accessibility for the legal and other professions which need this data and to make possible more enlightened and detailed studies of the divorce phenomenon as an aid to remedial legislation. The procedures set forth herein, creating a certificate of divorce registry, represent no innovation, but merely the extension of long-established methods and procedures for obtaining basic vital statistics data. The Legislature recognizes, however, that the completion of a birth or marriage certificate is usually a happy occasion in the lives of the persons concerned; that the information furnished on a death certificate seldom may be detrimental to the deceased or survivors; but that the execution of the certificate of divorce occurs at a time of great trauma for the parties involved and, because of the adversary nature of divorce litigation, may be used to their detriment if not properly protected. For these reasons, intent of the Legislature is to encourage the furnishing of accurate and truthful data by protecting the information so furnished. Accordingly such data is expressly deemed confidential and shall not be made available to anyone except those expressly authorized by the Legislature in this legislation.

SEC. 1.5. Section 89 of the Civil Code is repealed.

SEC. 2. Section 134 of said code is repealed.

SEC. 3. Section 426a of the Code of Civil Procedure is amended to read:

426a. In an action for divorce, annulment or separate maintenance, there shall be furnished to the county clerk by the plaintiff at the time of filing of the initial complaint, or within 10 days thereafter and before the date of the first hearing, that information, required to be collected by the State Registrar of Vital Statistics, in the manner specified under Chapter 6.5 (commencing with Section 10360) of Division 9 of the Health and Safety Code. The clerk shall accept the complaint for filing, whether or not said information is then furnished. At any time after the filing of the complaint, the defendant may also furnish such information, whether or not it has been first furnished by the plaintiff. The clerk shall take all ministerial steps required of him in the action, whether or not such information has been furnished; but the clerk shall advise the court, at the time set for any hearing, if at such time no party has furnished such information. In such cases, the court may decline to hear any matter encompassed within the action if good cause for such failure to furnish information has not been shown.

The court's inquiry in such cases shall be confined solely to the question of the existence of good cause for not furnishing the information; and such report and the contents thereof

shall not be admissible in evidence and shall not be furnished to the court.

SEC. 4. Section 26859 of the Government Code is amended to read:

26859. The fee for the filing of the vital statistics information required to be collected under Chapter 6 5 (commencing with Section 10360) of Division 9 of the Health and Safety Code is two dollars ($2), and shall be paid at the time of filing of each initial complaint action for divorce, annulment or separate maintenance. In any action for divorce, annulment or separate maintenance, in which the complaint was filed before January 1, 1966, and which has not resulted in final judgment before such date, the filing fee of two dollars ($2) shall be paid before final judgment is entered.

The county clerk by the 10th day of each month shall pay to the State Registrar of Vital Statistics one-half of all such fees collected during the immediately preceding month. The State Registrar of Vital Statistics shall transmit such sums to the State Treasurer for deposit in the General Fund.

SEC. 5. Section 10000 of the Health and Safety Code is amended to read:

10000. Each live birth, fetal death, death, and marriage which occurs in the state shall be registered as provided in this division on the prescribed certificate forms.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Part 4 (commencing with Section 40000) is added to Division 10 of the Public Utilities Code, to read:

PART 4. ORANGE COUNTY TRANSIT DISTRICT

CHAPTER 1. GENERAL PROVISIONS

Article 1. Definitions

40000. This part shall be known and cited as the "Orange County Transit District Act of 1965."

40001. Unless the context otherwise requires, the provisions of this article govern the construction of this part.

40002. "District" means the Orange County Transit District formed under this part.

40003. "Board" means the board of directors of this district.

40004. "Voter" means any elector who is registered under the Elections Code.

40005. "Transit" means the transportation of passengers only and their incidental baggage by means other than by chartered bus, sightseeing bus, or any other motor vehicle not on an individual passenger fare-paying basis. Nothing in this section shall be construed to prohibit the district from leasing its buses to private certified public carriers or to prohibit the district from providing schoolbus service for the transportation of pupils between their homes and schools.

40006. "Transit works" or "transit facilities" means all real and personal property, equipment, rights, or interests owned or to be acquired by the district for transit service.

Article 2. General Provisions

40010. It is necessary that a transit district be established in Orange County in order to provide an interim solution to the transit problem of this area pending inclusion, if at all, of Orange County into the Southern California Rapid Transit District. The problem is unique in that presently there are several existing transportation facilities serving various parts of the area but independently operated, without interchange of transportation services, and without possibility of merger. The geographic location of the area requiring transportation services makes it necessary to develop a single transit system to protect the public interest.

It shall be the ultimate purpose of the Orange County Transit District to establish, when financing therefor becomes feasible, a permanent rapid transit system designed to be part of a unified Los Angeles-Orange County areawide regional system. When such permanent system is planned it shall incorporate physical characteristics necessary for full compatibility with the system of the Southern California Rapid Transit District, and unified management of the operations of such an areawide system shall be provided. Such unified management may be provided by management or operating contract with, or by annexation of the Orange County Transit District to, the Southern California Rapid Transit District or by any other lawful means; and shall take into full account the financial burdens already assumed by the citizens of the area comprising the Los Angeles Rapid Transit District to establish its system, which should be recognized in the operation of the unified system. The share of such financial burdens to be assumed by the Orange County Transit District, determined by its board by agreement with the board of the Southern California Rapid Transit District to be in the best mutual interest of the citizens of the two districts, may be made payable out of bond proceeds (subject to authorization of the bonds at an election), tax levies or any other available funds and may be made payable at such times and upon such rate of interest and other terms as shall be agreed between the boards of the two districts.

40011. The Orange County Transit District may be created as provided in this part and when so created may exercise the powers herein granted.

40012. Except as otherwise provided in this part elections shall be held and conducted and the result ascertained, determined, and declared in all respects as nearly as practicable in conformity with the general election laws of the state.

40013. Except as otherwise provided in this part all ordinances and notices which are required to be published shall

be published within the district pursuant to Section 6066 of the Government Code.

40014. Whenever the signature of any officer or employee of a district or of any member of the retirement board or of any officer or employee of the retirement system is authorized or required under the provisions of this part, except in the single instance provided in Section 40243, the signature may be made by the use of a plate bearing facsimilies of such signatures.

40015. A citizens advisory committee may be appointed as provided in this section. The members shall serve without compensation but shall receive necessary expenses incurred in the performance of their advisory duties The committee shall advise the Board of Supervisors of the County of Orange on matters relating to the Orange County Transit District. The committee may be appointed prior to the formation of the district to advise the board of supervisors on matters relating to the formation of the district.

The membership of the committee shall be made up of members appointed as follows: The Board of Supervisors of the County of Orange may appoint five members, the League of California Cities may appoint six members, each Congressman from a district within the County of Orange may appoint one member, each State Senator from a district within the County of Orange may appoint one member, and each Assemblyman from a district within the County of Orange may appoint one member. tion within the proposed district for the purpose of determining whether the proposed district will be created and established.

40038. The board of supervisors shall publish notice of the election within the proposed district.

40039. The notice shall state the name of the proposed district, and describe the boundaries thereof.

40040. The ballot for the election shall contain such instructions as are required by law to be printed thereon and in addition thereto the following:

Article 6. Contest of Incorporation

40055. No informality in any proceeding or in the conduct of the election, not substantially affecting adversely the legal rights of any citizen, shall be held to invalidate the incorporation of the district. Any proceedings wherein the validity of incorporation is denied shall be commenced within three months from the date of filing the order declaring the result of the election with the Secretary of State, otherwise the incorporation and the legal existence of the district shall be held to be valid and in every respect legal and incontestable.

The district shall not discriminate in regard to employment against any person because of his race, creed, or color.

The State Conciliation Service shall promptly hold a public hearing after due notice to all interested parties and shall thereupon determine the unit appropriate for the purposes of collective bargaining. Notwithstanding the provisions of the Government Code or other laws or statutes, the district shall make deductions from wages and salaries of its employees upon receipt of authorization therefor for the payment of union dues, fees or assessments, for the payment of contributions pursuant to any health and welfare plan or pension plan or for any other purpose for which deductions may be authorized by employees of any private employer, where such deductions are pursuant to a collective bargaining agreement with a duly designated or certified labor organization.

40127. The district may provide for a retirement system; provided, that the adoption, terms and conditions of any re-

tirement system covering employees of the district represented by a labor organization in accordance with this section shall be pursuant to a collective bargaining agreement between such labor organization and the district.

No such taking or acquisition by the district which would involve the abandonment, removal, relocation, or use of property of a railroad corporation, as defined in Section 230 of this code, shall be permitted, unless the Public Utilities Commission, after hearing, shall find and determine that the public interest and necessity require the abandonment, removal, relocation, or use of such property and that such taking or acquisition will not unreasonably impair the ability of the railroad corporation involved to provide safe, adequate, economical, and efficient service.

40183. The district may lease or contract for the use of its transit facilities, or any portion thereof, to any operator, and may provide for subleases by such operator upon such terms and conditions as it deems in the public interest. The word "operator" as used in this section means any city or public agency or any person, firm or private corporation.

40184. The district may construct and operate or acquire and operate works and facilities in, under, upon, over, across, or along any street or public highway or any stream, bay or watercourse, or over any of the lands which are the property of the state, to the same extent that such rights and privileges appertaining thereto are granted to municipalities within the state, and to install adequate bus stops, including the painting of curbs, subject to the governing body in charge of such streets, highways, stream, watercourse or lands.

40185. The district may enter into agreements for the joint use of any property and rights by the district and any city, public agency or public utility operating transit facilities; may enter into agreements with any city, public agency or public utility operating any transit facilities, either wholly or partially within, or without, the district, for the joint use of any property of the district or of such city, public agency or public utility, or the establishment of through routes, joint fares, transfer of passengers or pooling arrangements.

40186. The rates and charges for service furnished pursuant to this part shall be fixed by the board and shall be reasonable.

40187. The district shall be subject to the provisions of Division 14.8 (commencing with Section 34500) of the Vehicle Code with respect to the operation of buses and to the rules and regulations prescribed by the Department of the California Highway Patrol pursuant to that chapter regulating the safe operation of buses.

Article 6. Indebtedness

40200. The district shall have the power to obtain temporary transfers of funds in accordance with the last paragraph of Section 31, Article IV of the State Constitution.

40201. The district may accept, without limitation by any other provisions of this part requiring approval of indebtedness, contributions or loans from the United States, this state, or any department, instrumentality, or agency of either thereof, for the purpose of financing the acquisition, construction, maintenance, and operation of transit facilities, and may enter into contracts and cooperate with, and accept cooperation from, the United States, this state, or any department, instrumentality, or agency of either thereof, in the acquisition, construction, maintenance, and operation, and in financing the acquisition, construction, maintenance, and operation of any such transit facilities in accordance with any legislation which Congress or the Legislature of the State of California may have heretofore adopted or may hereafter adopt, under which aid, assistance, and cooperation may be furnished by the United States or this state in the acquisition, construction, maintenance, and operation or in financing the acquisition, construction, maintenance and operation of any such transit facilities. The district may do any and all things necessary in order to avail itself of such aid, assistance, and cooperation under any federal or state legislation now or hereafter enacted. Any evidence of indebtedness issued under this section shall constitute a negotiable instrument.

Article 7. Taxation

40210. The district may levy, and collect or cause to be collected, taxes for any lawful purpose subject to a maximum

limit of five cents ($0 05) per one hundred dollars ($100) of assessed valuation within the district.

40211. If, in the opinion of the board, the transit operation revenues will not be sufficient for any and all lawful purposes the board shall levy a tax for such purpose or purposes and fix the amount of money necessary to be raised therefor by taxation.

40212. The board shall, as part of the general tax levy as set forth in Section 40210, levy and collect annually until the district's bonds are paid, or until there is a sum in the treasury of the district set apart for that purpose to meet all sums coming due for principal and interest on the bonds as they become due a tax sufficient to pay the annual interest on the bonds and such part of the principal thereof as becomes due before the proceeds of a tax levied at the next general tax levy will be available. If the maturity of the indebtedness created by the issue of bonds begins more than one year after the date of the issuance thereof, the tax shall be levied and collected annually at the time and in the manner aforesaid, sufficient to pay the interest on the indebtedness as it falls due and to constitute a sinking fund for the payment of the principal on or before maturity.

40213. The board may provide for the assessment, levy, and collection of taxes by the district, including the sale of property to the district for delinquent taxes, with penalties, interest, and cost.

40214. The board shall avail itself of the assessments made by the assessor of the county and of the assessments made by the State Board of Equalization for the county and shall take such assessments as the basis for district taxation and have its taxes collected by the tax collector of the county.

40215. In such case the county auditor shall, on or before the third Monday in August of each year, transmit to the board a statement in writing showing the total value of all property within the district, ascertained from the assessments referred to in Section 40214 as equalized.

40216. The board shall on or before the first day of September fix the rate of taxes, designating the number of cents upon each one hundred dollars ($100) using as a basis the value of property transmitted to the board by the county auditor, which rate of taxation shall be sufficient to raise the amount previously fixed by the board. These acts by the board shall constitute a valid assessment of the property and a valid levy of the taxes so fixed but the rate of taxation shall not exceed the limit imposed by this article.

40217. The board shall immediately after fixing the rate of taxes as above provided transmit to the county auditor of the county a statement of the rate of taxes fixed by the board.

40218. The district's taxes so levied shall be collected at the same time and in the same manner as county taxes. When collected the net amount, ascertained as provided in this article, shall be paid to the treasurer of the district, under the

general requirements and penalties provided by law for the settlement of other taxes.

40219 Whenever any real property has been sold for taxes and has been redeemed, the money paid for redemption shall be apportioned and paid to the district by the county treasurer in the proportion which the tax due to the district bears to the total tax for which the property was sold.

40220. All taxes levied under this part are a lien on the property on which they are levied. The enforcement of the collection of such taxes shall be in the same manner and by the same means provided by law for the enforcement of liens for county taxes, all the provisions of law relating to the enforcement of the latter being made a part of this part so far as applicable.

CHAPTER 6.5. EXISTING SYSTEMS

40221. As used in this chapter:

(a) "Establish" includes establish, construct, complete, acquire, extend, or reroute. It does not, however, include the maintenance and operation of any existing system acquired by the district.

(b) "Existing system" means any transit service or system of a publicly or privately owned public utility situated entirely within Orange County, or at least 75 percent of whose revenue vehicle miles for the preceding calendar year were operated within Orange County.

40222. Notwithstanding any other provision of this part, before the district may establish any transit service or system which may at any time divert, lessen, or compete for the patronage or revenues of any existing system, the district shall give a written notice to the public utility which is operating the existing system. The written notice shall describe the transit service or system which the district proposes to establish and shall state the time within which the district proposes to establish such service or system.

40222.5. The district shall not establish the proposed service or system, or maintain and operate the service or system until it has completed the purchase of the existing system or any part thereof.

40223. The purchase price to be paid for the existing system, or any portion thereof to be purchased, shall be the reproduction cost new, including going concern value, at the date upon which the district commences negotiations for the purchase of the existing system, or the portion of the existing system, less depreciation, including wear, tear and obsolescence, if any. The purchase price shall not, however, in any event be less than the average annual gross revenue, less charter and contract revenue, for the preceding three calendar years of the existing system. Should the district determine that it is necessary to enter the area of transporting school

pupils, then that portion of the contract revenues shall be included.

40223.5. The district and the public utility operating the existing system may agree upon the purchase price or they may agree that the purchase price is to be established by arbitration and upon the method of naming arbitrators and the method of conducting such arbitration. If they do not, the purchase price may be fixed and judgment entered thereon in a suit brought either by the public utility or the district in the superior court in and for the county in which is located that portion of the existing system to be acquired by the district which has the highest value.

40224. Section 851 of the Public Utilities Code does not apply to any contract for sale or sale of an existing system, or any portion thereof, pursuant to this chapter, and the Public Utilities Commission shall have no jurisdiction with respect thereto.

CHAPTER 7. BONDS

Article 1. Issuance

40225. The district may from time to time incur a bonded indebtedness as provided in this chapter to pay the cost of acquiring, constructing or completing the whole or any portion of any transit facilities, or for acquiring any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district. The total amount of bonds issued and outstanding shall not exceed twenty percent (20%) of the assessed value of the taxable property of the district as shown by the last equalized assessment roll of the County of Orange.

40226. Whenever the board by resolution passed by vote of two-thirds of all its members determines that the public interest or necessity demands the acquisition, construction, or completion by the district of any transit facilities or any works, lands, structures, rights, equipment, or other property necessary or convenient to carry out the objects, purposes, or powers of the district, the cost of which will be too great to be paid out of the ordinary annual income and revenue of the district, it may at any subsequent meeting of the board provide by ordinance for the submission of the proposition of incurring a bonded indebtedness for the purpose set forth in the resolution to the voters of the district at a special bond election held for that purpose.

40231. The ordinance calling a special bond election shall fix the date on which the election will be held, and the manner of holding the election and of voting for or against incurring the indebtedness. It shall also recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the transit facilities, works, lands, structures, rights, equipment, or other property proposed to be acquired, constructed, or completed, the amount of the principal of the

indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness, which shall not exceed 6 percent per annum, payable semiannually or annually the first year and thereafter semiannually.

40232. Propositions for incurring indebtedness for more than one object or purpose may be submitted at the same election.

40233. Any special bond election may be held separately, or may be consolidated with any other election authorized by law at which the voters of the district may vote. If a special bond election is consolidated with any other election, the provisions of this chapter setting forth the procedure for the calling and holding of the special bond election shall be complied with, except that the ordinance calling the election need not set forth the election precincts, polling places, and officers of election, but may provide that the precincts, polling places, and officers of election shall be the same as those set forth in the ordinance, notice, or other proceedings calling the election with which the special bond election is consolidated, and shall refer to the ordinance, notice, or other proceedings by number and title, or by other definite description.

40234. The ordinance shall be published, and no other notice of election need be given.

40235. The board shall comply with the provisions of Article 3 (commencing with Section 3780) of Chapter 2 of Division 4 of the Elections Code, the provisions of which are applicable to any bond election held pursuant to this article.

40236. The votes of sixty percent (60%) of all voters voting on the proposition at the election are required to authorize the issuance of bonds under this chapter.

40237. If the proposition submitted at a special bond election fails to receive the requisite number of votes, the board shall not within six months after the election hold another special election for the submission of a proposition of incurring a bonded indebtedness substantially the same as the proposition voted upon at the prior election unless a petition signed by voters within the district equal in number to at least 15 percent of the total vote cast at the last general statewide election is filed with the board, requesting that the proposition, or a proposition substantially the same, be submitted at an election to be called for that purpose.

Article 2. Form and Content

40240. Bonds authorized by this chapter shall mature serially in amounts to be fixed by the board; except that payment shall begin not later than 10 years from the date thereof and shall be completed in not more than 50 years from that date.

The board may divide any issue of bonds authorized pursuant to this chapter into two or more series, and may fix different dates of issuance and different maturity dates for the

bonds of each series. The bonds of each series shall mature serially in amounts to be fixed by the board, and the board shall fix a date not more than 10 years from the date of issuance of each series for the earliest maturity of such series, and shall fix a date not more than 50 years from the date of issuance of each series for the final maturity of such series.

Pending the actual issuance or delivery of bonds, a district may issue temporary or interim bonds, certificates, or receipts, of any denomination whatsoever, with or without coupon, and in such form as may be prescribed by the board, to be exchanged for definite bonds when ready for delivery.

40241. The bonds shall be issued in such denominations as the board determines, except that no bonds shall be issued of a denomination less than one thousand dollars ($1,000) and shall be payable on the day and at the place or places fixed in the bond, and with interest at the rate specified therein, payable semiannually.

40242. The board may at any time prior to the issuance and sale of any bonds provide for the call and redemption of any or all of the bonds on any interest payment date prior to their fixed maturity at not exceeding the par value and accrued interest plus a premium of not exceeding 5 percent upon the principal amount of the bonds, in which event the call price fixed by the board shall be set forth on the face of the bond. Notice of such redemption shall be published. If there is no newspaper of general circulation printed and published within the district, then the publication shall be made in a newspaper of general circulation printed and published within the county in which the district or any part thereof is situated. The first publication shall be at least 30 days prior to the date fixed for the redemption. After the date fixed for such redemption interest on the bonds thereafter shall cease.

40243. The bonds shall be signed by the chairman of the board or by such officer of the district as the board shall by resolution authorize and designate for that purpose. They shall also be signed by the treasurer, and be countersigned by the auditor. The coupons of the bonds shall be numbered consecutively and be signed by the treasurer. All signatures and countersignatures, except one of the signatures or countersignatures on the bonds, may be printed, lithographed or engraved. If any officer whose signature or countersignature appears on the bonds or coupons ceases to be such officer before the delivery of the bonds to the purchaser, the signature or countersignature is nevertheless valid and sufficient for all purposes as if he had remained in office until the delivery of the bonds.

Article 3. Issue and Sale

40245. The bonds may be issued and sold for not less than their par value, but otherwise as the board determines. Before selling any bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as the board

may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either again give notice inviting bids or sell the bonds at private sale.

40246. All premiums and accrued interest received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds. The remainder of the proceeds of the bonds shall be placed in the district treasury to the credit of the proper fund, and shall be used exclusively for the objects or purposes for which the bonds were voted; provided that when such objects and purposes have been accomplished any moneys remaining shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, and that when all principal of and interest on the bonds shall have been paid, any balance of money then remaining shall be transferred to the general fund of the district.

Article 4. Status as Investments

40260. All bonds including refunding bonds issued by a district are legal investments for all trust funds and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the State School Fund and for all sinking funds under the control of the State Treasurer. Whenever any money or funds may by law be invested in or loaned upon the security of bonds of cities, cities and counties, counties, or school districts, in the state, such money or funds may be invested in or loaned upon the security of the bonds of the district; and whenever bonds of cities, cities and counties, counties, or school districts by law may be used as security for the faithful performance or execution of any court or private trust or of any other act, bonds of the district may be so used.

40261. All bonds of the district, to the same extent as bonds of any other municipality, are legal for use by any state or national bank or banks in the state as security for the deposit of funds of the state or of any county, city and county, city, municipality or other public or municipal corporation within the state.

Article 5. Validation

40263. An action to determine the validity of bonds, including refunding bonds, may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

Article 6. Revenue Bonds

40265. As an alternative procedure for the raising of funds, the district may issue bonds, payable from revenues of any facility or enterprise to be acquired or constructed by the district, in the manner provided by the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code), all of the provisions of which are applicable to the district.

40266. The district is a local agency within the meaning of the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code). The term "enterprise" as used in the Revenue Bond Law of 1941 shall, for all purposes of this part, include transit facilities and any and all parts thereof and all additions, extensions and improvements thereto and all other facilities authorized to be acquired, constructed or completed by the district. A district may issue revenue bonds under the Revenue Bond Law of 1941, for any one or more facilities or enterprises authorized to be acquired, constructed, or completed by a district or, in the alternative, may issue revenue bonds under the Revenue Bond Law of 1941, for the acquisition, construction and completion of any one of such facilities. Nothing in this article shall prevent the district from availing itself of, or making use of, any procedure provided in this part for the issuance of bonds of any type or character for any of the facilities or works authorized hereunder, and all proceedings may be carried on simultaneously or, in the alternative, as the directors may determine.

Chapter 8. Annexation

40270. Territory within Orange County may be annexed to the district in the manner provided in this chapter.

40271. Whenever the board finds and determines that additional territory will be benefited by annexation to the district, it shall pass a resolution to that effect.

40272. The resolution shall be passed by a vote of two-thirds of the members of the board.

40273. The resolution shall:

(a) Describe the boundaries of the territory proposed to be annexed.

(b) Designate the proposed annexation by an appropriate name.

(c) Declare that the area to be annexed to the district will be benefited by such annexation.

(d) Name the time and place for the hearing of objections by any person interested in the proposed annexation.

40274. The resolution, together with the names of the members of the board, voting for and against it shall be published pursuant to Section 6066 of the Government Code in a newspaper published in the territory proposed to be annexed, or

if there is no such paper, then in some newspaper of general circulation, circulated in such territory.

40275. On the day fixed for hearing or any day to which the hearing is adjourned, the board shall hear and consider any objections presented to the annexation of the territory. After the hearing of objections, if it shall be determined by a vote of two-thirds of all the members of the board that the territory proposed to be annexed will be benefited by such annexation, the board shall proceed to fix and determine the boundaries of the territory to be annexed to the district, provided, however, that if there is filed with the clerk of the board prior to the close of said hearing, written protests against said annexation signed by fifty percent (50%) or more of the registered voters within the area proposed to be annexed, then said annexation proceedings shall be terminated by board action and the board shall not within six months after said termination adopt a resolution pursuant to Section 40271 applicable to the same or substantially the same area involved in the prior terminated proceeding.

40276. After making all necessary and proper changes in the boundaries, by a resolution passed by a vote of two-thirds of the members, the board shall order the annexation of the territory so described. The resolution, together with the names of the members of the board voting for and against the same shall be spread upon the minutes of the board.

40277. Whenever any territory is annexed to the district it shall thereupon become a part of the district subject to all the liabilities and entitled to all the benefits of the district.

Chapter 9. Dissolution

40500. The board may call an election any time for the purpose of submitting to the voters of the district the question of whether the district will be dissolved. Upon the filing with the clerk of the district of a petition signed by voters within the district equal in number to at least twenty-five percent (25%) of the total vote cast within the district at the last general statewide election asking that the question of dissolution of the district be submitted to the voters of the district, the board shall call such an election.

40501. The election for the purpose of submitting to the voters of the district the question of whether or not the district shall be dissolved shall be held within 60 days next succeeding the date on which the petition is filed.

40502. Notice of any election for dissolution, whether called because of the filing of a petition or ordered by the board without petition, shall be published. The date fixed for the election shall not be less than 30 days from the date of the first publication of the notice.

40503. The ballots for the election shall contain substantially the instructions required to be printed on ballots for use

at general state and county elections and in addition the following:

Shall the Orange County Transit District be dissolved?	YES	
	NO	

40504. The board shall canvass the vote. If a majority of the votes favor dissolution, the board shall by resolution dissolve the district.

40505. The board shall file a certified copy of the resolution with the Secretary of State and for record in the office of the county recorder.

40506. Upon dissolution the right, title, and interest to property owned or controlled by the district situated within the limits of any city vests absolutely in the city. If such property is situated outside the limits of a city, it vests in the county in which it is situated.

40507. The board of supervisors is, ex officio, the governing body of the dissolved district. It may levy taxes and assessments and perform other acts necessary to wind up the district affairs and to raise money for the payment of outstanding indebtedness.

CHAPTER 10. CONSOLIDATION WITH OTHER DISTRICTS

40600 The district may be consolidated with the Southern California Rapid Transit District organized and operating pursuant to Part 3 (commencing with Section 30000) of this division, in the manner provided in this chapter.

40601. Whenever the board finds and determines that:

(a) The Southern California Rapid Transit District is willing to annex the territory comprising the district;

(b) The annexing district has adequate facilities for and is able to supply transit service to the district in a manner equal to or superior to that presently rendered by the district;

(c) Annexation will not result in assumption of financial obligations by the taxpayers of the district disproportionate to the services which they will receive; the board shall thereafter negotiate an agreement with the annexing district specifying the terms and conditions of annexation and such other matters as are necessary and incidental thereto.

40602. The board shall thereafter, by resolution setting forth the terms and conditions of the proposed contract at length, declare its intention to cause the agreement to be approved and effect consolidation of the district with the Southern California Rapid Transit District.

40603. The resolution, together with a notice fixing the time and place for hearing thereon, shall be published once in a newspaper of general circulation published in the district. The time fixed for hearing shall not be less than 30 nor more than 60 days from the date of publication of such notice.

40604. At the hearing any interested person may file with the board written objections to the approval of the terms and conditions of the proposed contract or the consolidation, or both the proposed contract and the consolidation.

40605. Upon the hearing, the board shall determine whether or not the terms and conditions of the contract will be approved and the consolidation effected, and shall hear and determine all objections thereto.

40606. Any hearing on the agreement and consolidation may be adjourned from time to time by the board, not exceeding 30 days in all, without further notice other than an order entered upon the minutes of the meeting fixing the time and place of adjournment.

40607. If no protests are filed, or if the protests filed are overruled and denied by the board, the board shall thereupon by resolution finally approve the terms and conditions of the agreement and proceed with the consolidation.

40608. At any time after the board of directors of the district has finally approved the agreement the Board of Supervisors of Orange County shall cause an election to be held in the district to determine whether the Orange County Transit District will be consolidated with the Southern California Rapid Transit District upon the terms and conditions stated in the agreement.

40609. Notice of election shall be published once a week for two successive weeks (two publications) in a newspaper of general circulation published within the district, and shall either state that a copy of the consolidation agreement is on file in the office of the Clerk of Orange County, and open to the inspection of all persons interested, or set forth the terms and conditions of the consolidation agreement at length, in the discretion of the board of supervisors calling the election.

40610. The ballots for the election shall contain substantially the instructions required to be printed on ballots for use at general state and county elections and in addition shall set forth the proposition of consolidation substantially as follows:

Shall the Orange County Transit District be consolidated with the Southern California Rapid Transit District in accordance with and subject to all the terms and conditions of a consolidation agreement dated _____ now on file in the office of the Clerk of Orange County?	YES	
	NO	

40611. If upon a canvass of the election it is found that a majority of all votes cast on the proposition at the election were cast in favor of the consolidation, the proposition and all of the terms and conditions of the consolidation agreement shall be deemed carried and approved by the voters.

40612. If the proposition fails to carry, the result shall be entered upon the minutes of the Board of Supervisors of Orange County.

40613. If the proposition receives the vote of the requisite majority of voters, the Board of Supervisors of Orange County shall enter in its minutes an order declaring the result of the election and shall thereupon cause the consolidation agreement to be executed by its duly authorized officers.

40614. Upon receipt by the Southern California Rapid Transit District of a copy of the consolidation agreement properly executed by the district and Orange County the board of directors of the Southern California Rapid Transit District shall pass a resolution declaring the Orange County Transit District consolidated with the Southern California Rapid Transit District, and shall cause a certified copy of the resolution to be filed with the Secretary of State. From and after the date of filing of the resolution with the Secretary of State the consolidation of the Orange County Transit District with the Southern California Rapid Transit District is complete.

40615. From and after the date of consolidation the board of directors of the Southern California Rapid Transit District shall levy upon all of the property in the former Orange County Transit District such taxes, tolls, or charges as are necessary to provide funds for the payment of the indebtedness assumed by the former district or otherwise necessary to comply with the terms and conditions of the consolidation agreement, all in addition to the general district taxes authorized elsewhere in Part 3 (commencing with Section 30000) of this division to be levied and collected.

40616. The validity of any consolidating proceedings shall not be contested in any action unless the action is brought within three (3) months after the completion of the proceedings.

40617. Upon the completion of such consolidation procedure, the Orange County Transit District shall be deemed to be dissolved. Thereafter, all property and assets of the district which are not subject to the negotiated contract pertaining to consolidation shall be distributed to the County of Orange.

CHAPTER 1900

An act to add Section 75030.7 to the Government Code, relating to the Judges' Retirement Law.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 75030.7 is added to the Government Code, to read:

75030.7. A Member of the Senate or Assembly who is not returned to office, or who chooses not to run, when the Senate or Assembly district, respectively, to which he was last elected, is altered pursuant to a reapportionment of legislative districts other than a decennial reapportionment, and whose contributions as a judge remain on deposit in the fund under Section 75033, shall, during the term of office for which he was elected:

(a) Have a right under Section 75030.5 to elect by written election filed with the Controller at any time prior to his retirement, to make contributions pursuant to Section 75030.5 and to receive credit in this system as service rendered for all or any part of his service as an elected state constitutional officer, or as a public legal officer, as defined in Section 75030.5, either before or after his service as a judge, excluding any period of time for which he is receiving or is entitled to receive a retirement allowance from any other public retirement system.

(b) Be retired as a judge under Section 75025 upon attaining, as provided in this section, the age and service requirements specified in that section.

For the purposes of this section, "service as an elected state constitutional officer" shall include all or any portion of the term of office for which he was duly elected as such elected state constitutional officer as specified by law at the time of his election preceding such reapportionment.

CHAPTER 1901

An act to amend Sections 852 and 853 of, and to add Section 851.5 to, the Probate Code, relating to conveyances by personal representatives.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 851.5 is added to the Probate Code, to read:

851.5. If a person dies in possession of, or holding title to, real or personal property which, or some interest in which, is claimed to belong to another, the executor or administrator may file with the clerk of the court a verified petition setting forth the facts upon which the claim is predicated. There shall be attached to the petition the affidavit of the claimant attesting to the truth of the facts set forth in said petition. Thereupon the clerk shall set the petition for hearing by the court and give notice thereof for the period and in the manner required by Section 1200. The petitioner shall cause notice of the hearing to be mailed to all known heirs and devisees at

their last known addresses, as provided in Section 1200, whether they have requested special notice or given notice of appearance or not.

SEC. 2. Section 852 of said code is amended to read:

852. At the time appointed, the court, upon proof that due notice of the hearing of the petition filed under Section 851 or Section 851.5 has been given, shall proceed to hear the matter; and if the court is satisfied that the conveyance or transfer should be made, it shall make an order authorizing and directing the executor or administrator to execute the same to the party entitled thereto; except that the court shall not grant a petition under Section 851.5 if objection thereto is made, or if a civil action is then pending, or if the court determines the matter should be determined by civil action. If the transaction relates to real property, a certified copy of the decree must be recorded with the deed in the office of the county recorder of the county in which the land or any portion thereof lies.

SEC. 3. Section 853 of said code is amended to read:

853. The decree shall be prima facie evidence of the correctness of the proceedings and of the authority of the executor or administrator to make the conveyance or transfer; and after its entry the person entitled to the conveyance or transfer has a right to the possession of the property, and to hold the same according to the terms of the intended conveyance or transfer, in like manner as if the same had been conveyed or transferred in pursuance of the decree. Nevertheless, the executor or administrator must execute the conveyance or transfer according to the directions of the decree, and the court may enforce its execution by process. The conveyance or transfer shall pass title to the property, as fully as if the decedent had executed it while living.

CHAPTER 1902

An act to amend Sections 2341 and 2342 of the Agricultural Code, relating to marketing program fees.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 2341 of the Agricultural Code is amended to read:

At the end of any marketing season as designated in each marketing program, after proper provision has been made for the payment of all necessary expense incurred in connection therewith, any moneys remaining to the credit of the program committee may be refunded upon a pro rata basis to all persons from whom certificate fees were collected;

provided, that during any marketing season the program committee may, with the approval of the director, carry forward any unexpended balances for expenditure during seasons subsequent to the season during which such fees were collected. Alternatively, the refund may, upon the resolution of the program committee with the approval of the director, be deferred so as to permit the program committee to use the residual funds to meet operating expenses in the succeeding season or until sufficient funds have been collected or the collection of sufficient funds is assured to enable the committee to make the refund and to defray the expenses of the then current marketing season, including an allowance for preliminary expenses of the next succeeding season.

SEC. 2. Section 2342 of said code is amended to read:

2342. At the time a refund is made, the program committee shall file with the director a claim for the refund to growers entitled thereto. If the director finds that as of the end of any marketing season the amount remaining to the credit of the program committee is so small as to make impractical the computation and remitting of the pro rata refund, the director may authorize the transfer of the funds to the then current marketing season for expenditure in carrying out the marketing program.

Authorized emergency vehicles as defined in Section 165 of the Vehicle Code which are on active duty and are not merely being stored shall be given preference in the use of such areas, and no payment of consideration shall be required for this use of the areas by such vehicles. Prior to entering into any such lease, the department shall determine that the proposed use is not in conflict with the zoning regulations of the local government concerned. Such leases shall be made in accordance with procedures to be prescribed by the California Highway Commission, except that in the case of leases with private entities such leases shall only be made after competitive bidding unless the commission finds by unanimous vote that in certain cases competitive bidding would not be in the best interests of the state. The possibilities of entering into such leases and the consequent benefits to be derived there-

from may be considered by the department in designing and constructing such highways.

Revenues from such leases shall be deposited in the State Highway Fund.

CHAPTER 1907

An act to add Article 6.5 (commencing with Section 3321) to Chapter 10 of Division 5 of the Education Code, relating to the public school system.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Article 6.5 (commencing with Section 3321) is added to Chapter 10 of Division 5 of the Education Code, to read:

Article 6.5. Appeal and Review of Reorganization Proposals

3321. Notwithstanding any provisions of this division to the contrary, any master plan developed under Chapter 9 (commencing with Section 3001) of this division, any plans and recommendations developed under this chapter, and any other proposal involving the unification of school district territory, may be subject to not more than one review upon petition therefor submitted by the governing board of any school district included in such proposal to the State Board of Education. The review shall occur if the petition has been filed prior to the calling of any election required to be held on the question of the approval of the proposal, or, where such an election is not required to be held, prior to the final order of the public agency or officer upon which the proposal is made effective, or if the petition has been filed prior to 60 days following the rejection by the State Board of Education of a proposal by a county committee.

3322. Immediately upon the filing of the petition for review, the State Board of Education shall transmit the proposal in question for review by a school district reorganization review committee. It shall also direct any public officer or agency participating in the proceedings involving the proposal to cooperate with and furnish any necessary data and materials to the committee, and it shall be the duty of such officer or agency to comply with such direction.

3323. The school district reorganization review committee shall be composed of six members. The members shall be as follows:

(a) One member from the staff of the Department of Education, appointed by the Superintendent of Public Instruction.

(b) The county superintendent of schools of the county having jurisdiction over the territory in question, or his designee.

(c) A member of the county board of education of the county in which the territory in question is located, appointed by the chairman of the county board of education.

(d) Three members, each a member of the county board of education of three different counties, no part of which county is included in the plans to be reviewed. The Superintendent of Public Instruction shall designate the counties from which the members of the review committee are to be appointed and shall notify each county board of education thereof. The chairman of the county board shall then appoint the members to the review committee.

The committee shall continue in existence until it has accomplished all necessary matters attendant upon reviewing and taking action upon the particular proposal submitted to it for review. The committee shall organize itself for the conduct of business and shall designate one of its members chairman. The executive secretary of the committee shall be the employee of the Department of Education designated by the Superintendent of Public Instruction. The committee shall be subject to the provisions of Chapter 9 (commencing with Section 54950) of Part 1, Division 2, Title 5 of the Government Code, and shall be considered a "legislative body" as defined in those provisions. All hearings of the committee shall be conducted within the territory affected by the plan under review.

The committee members shall serve without compensation, but shall receive the necessary expenses incurred by them in the performance of their duties under this chapter. All expenses incurred by the committee, except the expenses of the executive secretary, in the performance of its duties shall be charged to and paid from the general fund of each county from which members have been appointed.

3324. Within 60 days after the submission to it of any proposal, the school district reorganization review committee shall hold hearings on the appeal of the appellant school district, and determine, with respect to a plan approved by the State Board of Education, and with respect to a plan rejected by the State Board of Education, whether it shall recommend to the State Board of Education that it reconsider the plan. If the approved plan is recommended for reconsideration by the committee, no election on the plan shall be held, and it shall be returned to the State Board of Education for reconsideration and shall be reconsidered at the earliest possible regular meeting of the board. Action of the board on any review committee recommendation for reconsideration shall be final with respect to that plan. Failure of the committee to recommend that the plan be stayed or reconsidered within the time prescribed shall be deemed approval of the action.

With respect to the requirement of Section 3321 that a unification proposal may be reviewed no more than once, upon petition by any school district included in such a proposal, if a unification plan is similar to a plan previously reviewed by a review committee, the State Board of Education shall determine whether the new proposal is significantly different from the original proposal. If such determination is made by the board, a review committee may, upon application of an affected school district, make a review and submit its recommendations with respect to that proposal. If the board determines that the proposal is not significantly different from the proposal originally considered by the review committee no such review by the school district reorganization review committee shall be permitted.

3325. If the State Board of Education fails to approve the recommendation of a county committee for the formation of a unified school district, and the same plan is resubmitted pursuant to Section 3009 and disapproved by the State Board of Education a second time, the board shall declare that an impasse exists between the county committee and the State Board of Education, and shall direct the Department of Education to prepare a plan for the unification of the territory included in the disapproved plans of the county committee on school district organization The board shall then submit to the school district reorganization review committee established pursuant to Section 3323 both the disapproved plan of the county committee and the plan prepared by the Department of Education. The review committee shall, within 60 days following submission to it of such plans by the State Board of Education, hold a public hearing on the matter. The review committee shall recommend to the State Board of Education which of the two plans are, in the opinion of the review committee, most suitable for adoption. The State Board of Education shall consider the recommendations of the review committee at the earliest possible date following their submission to it, and shall determine which of the two plans shall be approved for the territory.

The decision of the State Board of Education pursuant to this section with regard to a unification plan shall not be subject to a further review by the school district reorganization review committee pursuant to Section 3321.

If any member of a precinct board receives, by mail or otherwise, any document or list concerning the residence or other voting qualifications of any person or persons, with the express or implied suggestion, request, or demand that such person or persons be challenged, he shall first determine whether the document or list contains or is accompanied by evidence constituting probable cause to justify or substantiate a challenge. In any case, before making any use whatever of such a list or document, the member of the precinct board shall immediately contact the county clerk or registrar of voters and describe to him the contents of such document or list and such evidence, if any, received bearing on voting qualifications. The county clerk shall advise the members of the precinct board as to the sufficiency of probable cause for instituting and substantiating the challenge and as to the law as herein provided, relating to hearings and procedures for challenges by members of the precinct board and determination thereof by a precinct board. The county clerk may, if

necessary, designate a deputy to receive and answer inquiries from precinct board members as herein provided.

SEC. 4. Section 14246 of said code is amended to read:

14246. If the challenge is on the ground that the person challenged has been convicted of a felony or that he has been convicted of the embezzlement or misappropriation of public money, he shall not be questioned, but the fact may be proved by the production of an authenticated copy of the record or by the sworn oral testimony of two witnesses.

SEC. 5. Section 14249 of said code is amended to read:

14249. Challenges for causes other than those specified in Section 14248 shall be tried and determined by the precinct board at the time of the challenge.

SEC. 9. Section 14254 is added to said code, to read:

14254. In the event the precinct board determines that persistent challenging of voters is resulting in a delay of voting sufficient to cause voters to forego voting because of in-

sufficient time or for fear of unwarranted intimidation, the board shall summarily overrule all challenges.

SEC. 10. Section 14255 is added to said code, to read:

14255. Any doubt in the interpretation of the law shall be resolved in favor of the challenged voter.

CHAPTER 1909

An act to add Section 25829 to the Government Code, relating to county government.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 25829 is added to the Government Code, to read:

25829. The San Mateo County Board of Supervisors may acquire, construct, reconstruct, alter, enlarge, lay, renew, replace, maintain, and operate dump sites, incinerators, garbage disposal systems, sewers, drains, septic tanks, sewerage collection, outfall and treatment works and other sanitary disposal systems, and storm water drains and storm water collection, outfall and disposal systems for the disposal of combustible or noncombustible garbage or rubbish, for the treatment and disposal of sewage or storm waters, or any of them.

The board may make and enforce all necessary and proper regulations for the use of disposal facilities not in conflict with the Constitution and the laws of the state. The board may collect compensation from private or public parties for the right to dump or for the use of any dump site, incinerator, or other disposal plant, or system or for the disposal of garbage, rubbish, sewerage or storm waters brought to any dump site, incinerator, or other disposal plant. It may restrict the use of the facilities to the inhabitants of the county.

This article does not limit the right of the county to buy, lease, or otherwise acquire and operate a dump site, incinerator or other disposal plant or system in another county for the disposal of garbage, rubbish, sewerage or storm waters.

SEC. 2. The Legislature finds and declares that special problems of sanitation exist in the County of San Mateo in that the extremely rapid growth in population and the rapid opening of large tracts of land to residential development have caused serious difficulties involving the disposal of garbage, rubbish, sewage and storm waters.

This problem is not common to all areas of the state. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary to effectuate the solution of problems which threaten the health of the residents of San Mateo County.

CHAPTER 1910

An act to amend Sections 1203.45 and 11116 of, and to add Section 11105.5 to, the Penal Code, relating to sealing of criminal records.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 1203.45 of the Penal Code is amended to read:

1203.45. In any case in which a person was under the age of 21 years at the time of commission of a misdemeanor, except a traffic violation, for which he was arrested, and (1) such person was not convicted of any crime, or (2) such person is eligible for, or has previously received, the relief provided by Section 1203.4 or Section 1203.4a, such person, in a proceeding under Section 1203.4 or Section 1203.4a, or a separate proceeding, may petition the court for an order sealing the record of conviction and other official records in the case, including records of arrests resulting in the criminal proceeding, and including records relating to other offenses charged in the accusatory pleading, whether defendant was acquitted or charges were dismissed. If the court finds that such person was under the age of 21 at the time of the commission of the misdemeanor, and is eligible for relief under Section 1203.4 or Section 1203.4a, or has previously received such relief, or has not been convicted of any crime, except a traffic violation, it may issue its order granting the relief prayed for. Thereafter such conviction, arrest, or other proceeding shall be deemed not to have occurred, and the petitioner may answer accordingly any question relating to their occurrence.

This section applies to convictions which occurred before, as well as those which occur after, the effective date of this section. This section shall not apply to offenses for which registration is required under Section 290 of this code or to violations of Division 10 (commencing with Section 11000) of

the Health and Safety Code. This section does not apply to a person convicted of more than one offense unless:

(a) One of the offenses includes the other or others; or

(b) The other conviction or convictions were violations of local ordinances relating to stopping, standing or parking of a motor vehicle; or

(c) The other conviction or convictions consisted of any combination of (a) and (b).

SEC. 2. Section 11105.5 is added to said code, to read:

11105.5. When the Bureau of Criminal Identification and Investigation receives a report that the record of a minor has been sealed under Section 1203.45 of the Penal Code, it shall send notice of that fact to all officers and agencies that it had previously notified of the arrest or other proceedings against the minor. Thereafter, the arrest or other proceedings shall be deemed not to have occurred, and the Bureau of Criminal Identification and Investigation shall answer accordingly any inquiry directed to it relating to their occurrence.

SEC. 3. Section 11116 of said code is amended to read:

11116. Whenever a criminal complaint or accusation is filed in any superior, municipal or justice court, the clerk, or, if there be no clerk, the judge of that court shall furnish a report of the disposition of such case to the sheriff, police department or other law enforcement agency primarily responsible for the investigation of the crime alleged, in a form and manner prescribed or approved by the Bureau of Criminal Identification and Investigation.

"Disposition," as used herein, includes any discharge or commitment of the defendant in a preliminary hearing and any judgment after conviction, judgment of acquittal, order of dismissal or other order or judgment which terminates a criminal case.

Whenever a court shall dismiss the accusation or information against a defendant under the provisions of Section 1203.4 of this code, and whenever a court shall order the record of a minor sealed under the provisions of Section 1203.45 of this code, the clerk, or, if there be no clerk, the judge of that court shall furnish a report of such proceedings to the Bureau of Criminal Identification and Investigation and shall include therein such information as may be required by said bureau.

On or before July 10th of each year the county superintendent of schools shall notify the governing board of each affected school district of the total number of units of average daily attendance of pupils residing in that district who were in attendance at such facilities maintained by another district.

SEC. 2. Section 19687 of said code is amended to read:

19687. On or before July 20th of each year, the governing board of a school district which has received a notification pursuant to Section 19686, shall determine, and notify the county board of supervisors and the county auditor, whether the amounts required to be paid on behalf of the district under Section 19689 shall be provided from the general fund of the district or by a special district tax levied by the county board of supervisors.

In the event that the district notification specifies that the amounts so required shall be provided by a special district tax, or if no notification is made, the board of supervisors with whom the certificate prescribed by Section 19686 is filed shall, at the time of making the tax levy for that year for county purposes, levy a special tax upon all taxable property in the district of residence of each pupil enrolled in the facilities other than the district maintaining such facilities, sufficient in amount to raise, for the use of the facilities, the sum of one hundred sixty dollars ($160) per unit of average daily attendance, less any amounts per unit of such average daily attendance remaining in the county school building aid fund from levies and collections made in any prior year and not paid to the state pursuant to Section 19689.

SEC. 3. Section 19688 of said code is amended to read:

19688. If the board of supervisors fails to make a district tax levy required under Section 19687, the auditor shall make the levy.

In the event the governing board of a school district has elected to provide from the district general fund the amounts required to be paid on behalf of the district from the county school building aid fund under Section 19689, the county superintendent of schools shall order the payment to be made in the amount required from the general fund of the district.

SEC. 4. Section 19688.5 is added to said code, to read:

19688.5. In the event that the governing board of a school district determines, subject to the approval of the county superintendent of schools, that the amounts collected within the district by special taxes levied pursuant to Section 19687 or Section 19688 and credited to the district in the county school building aid fund are substantially in excess of amounts required of the district for purposes of Section 19689 for the ensuing three-year period, the county superintendent may order the payment to the district from the county school building aid fund of so much of such excess moneys as he may deem appropriate.

CHAPTER 1912

CHAPTER 1913

An act to add Chapter 5 (commencing with Section 288) to Division 2 of the Agricultural Code, relating to a pest control compact.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 288) is added to Division 2 of the Agricultural Code, to read:

Chapter 5. Pest Control Compact

288. The Pest Control Compact is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

Pest Control Compact

Article I. Findings

The party states find that:

(a) In the absence of the higher degree of cooperation among them possible under this compact, the annual loss of approximately seven billion dollars from the depredations of pests is virtually certain to continue, if not to increase.

(b) Because of varying climatic, geographic and economic factors, each state may be affected differently by particular species of pests; but all states share the inability to protect themselves fully against those pests which present serious dangers to them.

(c) The migratory character of pest infestations makes it necessary for states both adjacent to and distant from one another, to complement each other's activities when faced with conditions of infestation and reinfestation.

(d) While every state is seriously affected by a substantial number of pests, and every state is susceptible of infestation by many species of pests not now causing damage to its crop and plant life and products, the fact that relatively few species of pests present equal danger to or are of interest to all states makes the establishment and operation of a fund, from which individual states may obtain financial support for pest control programs of benefit to them in other states and to which they may contribute in accordance with their relative interests, the most equitable means of financing cooperative pest eradication and control programs.

Article II. Definitions

As used in this compact, unless the context clearly requires a different construction:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico.

(b) "Requesting state" means a state which invokes the procedures of the compact to secure the undertaking or intensification of measures to control or eradicate one or more pests within one or more other states.

(c) "Responding state" means a state requested to undertake or intensify the measures referred to in subdivision (b) of this article.

(d) "Pest" means any invertebrate animal, pathogen, parasitic plant or similar or allied organism which can cause dis-

ease or damage in any crops, trees, shrubs, grasses or other plants of substantial value.

(e) "Fund" means the Pest Control Fund established pursuant to this compact.

(f) "Governing board" means the administrators of this compact representing all of the party states when such administrators are acting as a body in pursuance of authority vested in them by this compact.

(g) "Executive committee" means the committee established pursuant to Article V (e) of this compact.

Article III. The Fund

There is hereby established the Pest Control Fund for the purpose of financing other than normal pest control operations which states may be called upon to engage in pursuant to this compact. The fund shall contain moneys appropriated to it by the party states and any donations and grants accepted by it. All appropriations, except as conditioned by the rights and obligations of party states expressly set forth in this compact, shall be unconditional and may not be restricted by the appropriating state to use in the control of any specified pest or pests. Donations and grants may be conditional or unconditional, provided that the fund shall not accept any donation or grant whose terms are inconsistent with any provision of this compact.

Article IV. The Fund, Internal Operations and Management

(a) The fund shall be administered by a governing board and executive committee as hereinafter provided. The actions of the governing board and executive committee pursuant to this compact shall be deemed the actions of the fund.

(b) The members of the governing board shall be entitled to one vote each on such board. No action of the governing board shall be binding unless taken at a meeting at which a majority of the total number of votes on the governing board are cast in favor thereof. Action of the governing board shall be only at a meeting at which a majority of the members are present.

(c) The fund shall have a seal which may be employed as an official symbol and which may be affixed to documents and otherwise used as the governing board may provide.

(d) The governing board shall elect annually, from among its members, a chairman, a vice chairman, a secretary and a treasurer. The chairman may not succeed himself. The governing board may appoint an executive director and fix his duties and his compensation, if any. Such executive director shall serve at the pleasure of the governing board. The governing board shall make provision for the bonding of such of the officers and employees of the fund as may be appropriate.

(e) Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director, or if there be no executive director, the chairman, in accordance with such procedures as the bylaws may provide, shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the fund and shall fix the duties and compensation of such personnel. The governing board in its bylaws shall provide for the personnel policies and programs of the fund.

(f) The fund may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental agency, or from any person, firm, association or corporation.

(g) The fund may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association or corporation, and may receive, utilize and dispose of the same. Any donation, gift or grant accepted by the governing board pursuant to this paragraph or services borrowed pursuant to paragraph (f) of this article shall be reported in the annual report of the fund. Such report shall include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender.

(h) The governing board shall adopt bylaws for the conduct of the business of the fund and shall have the power to amend and rescind these bylaws. The fund shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto with the appropriate agency or officer in each of the party states.

(i) The fund annually shall make to the Governor and Legislature of each party state a report covering its activities for the preceding year. The fund may make such additional reports as it may deem desirable.

(j) In addition to the powers and duties specifically authorized and imposed, the fund may do such other things as are necessary and incidental to the conduct of its affairs pursuant to this compact.

Article V. Compact Fund Administration

(a) In each party state there shall be a compact administrator, who shall be selected and serve in such manner as the laws of his state may provide, and who shall:

1. Assist in the coordination of activities pursuant to the compact in his state; and

2. Represent his state on the governing board of the fund.

(b) If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the

governing board of the fund by not to exceed three representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, but no such representative shall have a vote on the governing board or on the executive committee thereof.

(c) The governing board shall meet at least once each year for the purpose of determining policies and procedures in the administration of the fund and, consistent with the provisions of the compact, supervising and giving direction to the expenditure of moneys from the fund. Additional meetings of the governing board shall be held on call of the chairman, the executive committee, or a majority of the membership of the governing board.

(d) At such times as it may be meeting, the governing board shall pass upon applications for assistance from the fund and authorize disbursements therefrom. When the governing board is not in session, the executive committee thereof shall act as agent of the governing board, with full authority to act for it in passing upon such applications.

(e) The executive committee shall be composed of the chairman of the governing board and four additional members of the governing board chosen by it so that there shall be one member representing each of four geographic groupings of party states. The governing board shall make such geographic groupings. If there is representation of the United States on the governing board, one such representative may meet with the executive committee. The chairman of the governing board shall be chairman of the executive committee. No action of the executive committee shall be binding unless taken at a meeting at which at least four members of such committee are present and vote in favor thereof. Necessary expenses of each of the five members of the executive committee incurred in attending meetings of such committee, when not held at the same time and place as a meeting of the governing board, shall be charges against the fund.

Article VI. Assistance and Reimbursement

(a) Each party state pledges to each other party state that it will employ its best efforts to eradicate, or control within the strictest practicable limits, any and all pests. It is recognized that performance of this responsibility involves:

1. The maintenance of pest control and eradication activities of interstate significance by a party state at a level that would be reasonable for its own protection in the absence of this compact.

2. The meeting of emergency outbreaks or infestations of interstate significance to no less an extent than would have been done in the absence of this compact.

(b) Whenever a party state is threatened by a pest not present within its borders but present within another party

state, or whenever a party state is undertaking or engaged in activities for the control or eradication of a pest or pests, and finds that such activities are or would be impracticable or substantially more difficult of success by reason of failure of another party state to cope with infestation or threatened infestation, that state may request the governing board to authorize expenditures from the fund for eradication or control measures to be taken by one or more of such other party states at a level sufficient to prevent, or to reduce to the greatest practicable extent, infestation or reinfestation of the requesting state. Upon such authorization the responding state or states shall take or increase such eradication or control measures as may be warranted. A responding state shall use moneys made available from the fund expeditiously and efficiently to assist in affording the protection requested.

(c) In order to apply for expenditures from the fund, a requesting state shall submit the following in writing:

1. A detailed statement of the circumstances which occasion the request for the invoking of the compact.

2. Evidence that the pest on account of whose eradication or control assistance is requested constitutes a danger to an agricultural or forest crop, product, tree, shrub, grass or other plant having a substantial value to the requesting state.

3. A statement of the extent of the present and projected program of the requesting state and its subdivisions, including full information as to the legal authority for the conduct of such program or programs and the expenditures being made or budgeted therefor, in connection with the eradication, control, or prevention of introduction of the pest concerned.

4. Proof that the expenditures being made or budgeted as detailed in item 3 do not constitute a reduction of the effort for the control or eradication of the pest concerned or, if there is a reduction, the reasons why the level of program detailed in item 3 constitutes a normal level of pest control activity.

5. A declaration as to whether, to the best of its knowledge and belief, the conditions which in its view occasion the invoking of the compact in the particular instance can be abated by a program undertaken with the aid of moneys from the fund in one year or less, or whether the request is for an installment in a program which is likely to continue for a longer period of time.

6. Such other information as the governing board may require consistent with the provisions of this compact.

(d) The governing board or executive committee shall give due notice of any meeting at which an application for assistance from the fund is to be considered. Such notice shall be given to the compact administrator of each party state and to such other officers and agencies as may be designated by the laws of the party states. The requesting state and any other party state shall be entitled to be represented and present evidence and argument at such meeting.

(e) Upon the submission as required by paragraph (c) of this article and such other information as it may have or acquire, and upon determining that an expenditure of funds is within the purposes of this compact and justified thereby, the governing board or executive committee shall authorize support of the program. The governing board or the executive committee may meet at any time or place for the purpose of receiving and considering an application. Any and all determinations of the governing board or executive committee, with respect to an application, together with the reasons therefor shall be recorded and subscribed in such manner as to show and preserve the votes of the individual members thereof.

(f) A requesting state which is dissatisfied with a determination of the executive committee shall upon notice in writing given within 20 days of the determination with which it is dissatisfied, be entitled to receive a review thereof at the next meeting of the governing board. Determinations of the executive committee shall be reviewable only by the governing board at one of its regular meetings, or at a special meeting held in such manner as the governing board may authorize.

(g) Responding states required to undertake or increase measures pursuant to this compact may receive moneys from the fund, either at the time or times when such state incurs expenditures on account of such measures, or as reimbursement for expenses incurred and chargeable to the fund. The governing board shall adopt and, from time to time, may amend or revise procedures for submission of claims upon it and for payment thereof.

(h) Before authorizing the expenditure of moneys from the fund pursuant to an application of a requesting state, the fund shall ascertain the extent and nature of any timely assistance or participation which may be available from the federal government and shall request the appropriate agency or agencies of the federal government for such assistance and participation.

(i) The fund may negotiate and execute a memorandum of understanding or other appropriate instrument defining the extent and degree of assistance or participation between and among the fund, cooperating federal agencies, states and any other entities concerned.

Article VII. Advisory and Technical Committees

The governing board may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any such advisory or technical committee, or any member or members thereof may meet with and participate in its deliberations. Upon request of the governing board or executive committee an advisory or technical committee may furnish information and recommendations with respect to any application for assistance from the fund being considered by such board or committee and the board or committee may

receive and consider the same: provided that any participant in a meeting of the governing board or executive committee held pursuant to Article VI (d) of the compact shall be entitled to know the substance of any such information and recommendations, at the time of the meeting if made prior thereto or as a part thereof or, if made thereafter, no later than the time at which the governing board or executive committee makes its disposition of the application.

Article VIII. Relations with Nonparty Jurisdictions

(a) A party state may make application for assistance from the fund in respect of a pest in a nonparty state. Such application shall be considered and disposed of by the governing board or executive committee in the same manner as an application with respect to a pest within a party state, except as provided in this article.

(b) At or in connection with any meeting of the governing board or executive committee held pursuant to Article VI (d) of this compact a nonparty state shall be entitled to appear, participate, and receive information only to such extent as the governing board or executive committee may provide A nonparty state shall not be entitled to review of any determination made by the executive committee.

(c) The governing board or executive committee shall authorize expenditures from the fund to be made in a nonparty state only after determining that the conditions in such state and the value of such expenditures to the party states as a whole jusify them. The governing board or executive committee may set any conditions which it deems appropriate with respect to the expenditure of moneys from the fund in a nonparty state and may enter into such agreement or agreements with nonparty states and other jurisdictions or entities as it may deem necessary or appropriate to protect the interests of the fund with respect to expenditures and activities outside of party states.

Article IX. Finance

(a) The fund shall submit to the executive head or designated officer or officers of each party state a budget for the fund for such period as may be required by the laws of that party state for presentation to the Legislature thereof.

(b) Each of the budgets shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The requests for appropriations shall be apportioned among the party states as follows: one-tenth of the total budget in equal shares and the remainder in proportion to the value of agricultural and forest crops and products, excluding animals and animal products, produced in each party state In determining the value of such crops and products the fund may employ such source or sources of information as in its judgment present the most equitable and accurate compari-

sons among the party states. Each of the budgets and requests for appropriations shall indicate the source or sources used in obtaining information concerning value of products.

(c) The financial assets of the fund shall be maintained in two accounts to be designated respectively as the "operating account" and the "claims account." The operating account shall consist only of those assets necessary for the administration of the fund during the next ensuing two-year period. The claims account shall contain all moneys not included in the operating account and shall not exceed the amount reasonably estimated to be sufficient to pay all legitimate claims on the fund for a period of three years. At any time when the claims account has reached its maximum limit or would reach its maximum limit by the addition of moneys requested for appropriation by the party states, the governing board shall reduce its budget requests on a pro rata basis in such manner as to keep the claims account within such maximum limit. Any moneys in the claims account by virtue of conditional donations, grants or gifts shall be included in calculations made pursuant to this paragraph only to the extent that such moneys are available to meet demands arising out of claims.

(d) The fund shall not pledge the credit of any party state. The fund may meet any of its obligations in whole or in part with moneys available to it under Article IV (g) of this compact, provided that the governing board takes specific action setting aside such moneys prior to incurring any obligation to be met in whole or in part in such manner. Except where the fund makes use of moneys available to it under Article IV (g) hereof, the fund shall not incur any obligation prior to the allotment of moneys by the party states adequate to meet the same.

(e) The fund shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the fund shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the fund shall be audited yearly by a certified or licensed public accountant and a report of the audit shall be included in and become part of the annual report of the fund.

(f) The accounts of the fund shall be open at any reasonable time for inspection by duly authorized officers of the party states and by any persons authorized by the fund.

Article X. Entry Into Force and Withdrawal

(a) This compact shall enter into force when enacted into law by any five or more states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until two years after the executive head of the

withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

Article XI. Construction and Severability

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating herein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

288.1. Consistent with law and within available appropriations, the departments, agencies, and officers of this state may cooperate with the fund established by the Pest Control Compact.

288.2. Pursuant to Article IV (h) of the compact, copies of bylaws and amendments thereto shall be filed with the Office of Administrative Procedure.

288.3. The compact administrator for this state is the Director of Agriculture.

288.4. Within the meaning of Article VI (b) or VIII (a), a request or application for assistance from the fund may be made by the Governor whenever in his judgment the conditions qualifying this state for such assistance exist and it would be in the interest of this state to make such request.

288.5. The notice of any meeting at which an application for assistance from the fund is to be considered given pursuant to Article VI (d), shall also be given to the Speaker of the Assembly and the President pro Tempore of the Senate.

288.6. The department, agency, or officer expending or becoming liable for an expenditure on account of a control or eradication program undertaken or intensified pursuant to the compact shall have credited to his account in the State Treasury the amount or amounts of any payments made to this state to defray the cost of such program, or any part thereof, or as reimbursement thereof.

288.7. As used in the compact, with reference to this state, the term "executive head" shall mean the Governor.

SEC. 2. The change of the name of the fund under this compact from the Pest Control Insurance Fund to the Pest Control Fund is a nonsubstantive change intended only to reflect California's preference in nomenclature.

SEC. 3. The Legislature does not intend by this act to authorize the expenditure of any money which has not been duly appropriated or to obligate the state to make any appropriation therefor.

CHAPTER 1914

An act to amend Sections 6801, 6806, 6807, 6808, 6811, 6812, 6813, and 6815 of, and repeal Section 8903 of, the Education Code, relating to education of physically handicapped minors, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 6801 of the Education Code is amended to read:

6801. Subject to the provisions of this article (commencing at Section 6801) and Section 8901 the governing board of any school district may make such special provisions as in its judgment may be necessary for the education of physically handicapped minors. "Physically handicapped minor," as used in this article (commencing at Section 6801) means a physically defective or handicapped person under the age of 21 years who is in need of education.

SEC. 2. Section 6806 of said code is amended to read:

6806. Subject to the provisions of Section 8901 any school district which does not maintain facilities for the education of physically handicapped minors shall enter into a contract with a school district in the same county, or a county superintendent of schools maintaining such facilities. If there is no district in the same county maintaining such facilities, the governing board of the school district shall enter into a contract with a school district maintaining such facilities in any other county. If any question arises concerning the adequacy of the facilities provided for the education of physically handicapped minors by the school district in which the child is actually living, the parent or guardian of such child may appeal to the county superintendent of schools, and if the county superintendent of schools determines that the facilities offered are inadequate, he shall order the school district in which the child is actually living either to provide the facilities or enter into a contract with a school district maintaining adequate facilities.

Such contract shall provide for the payment of the cost of tuition by the district in which the physically handicapped minor actually lives and may provide for payment of the cost of the use of the buildings and equipment. The cost of tuition shall not be greater than the difference between current expenditures per unit of average daily attendance, including trans-

portation, for the education of a pupil in the particular category of physically handicapped minors to which the pupil belongs and the apportionment of state funds for the education of physically handicapped minors in that category.

The amount shall be determined not later than the last Monday in December and the last Monday in May of each year by the county superintendent of schools of the county in which the child attends schools and certified to the superintendent of schools having jurisdiction over the schools of the school district in which the child actually lives. The amount shall be forthwith paid from any funds of the school district available for that purpose.

SEC. 3. Section 6807 of said code is amended to read:

6807. Subject to the provisions of Section 8901 the governing board of a school district may provide for the transportation of pupils assigned to special schools or classes for physically handicapped pupils, and shall provide transportation for those pupils whose physical handicaps prevent their walking to school.

SEC. 4. Section 6808 of said code is amended to read:

6808. Subject to the provisions of Section 8901 the governing board of the school district in which any physically handicapped minor is actually living, although the residence of his parents or guardian is outside the district, shall provide for the transportation of such minor to the school at which education is furnished, if his handicap prevents his walking to school or if the distance is greater than one mile, regardless of whether such education is furnished within or without the district.

SEC. 5. Section 6811 of said code is amended to read:

6811. Subject to the provisions of Section 8901 the governing board of a school district may establish regulations determining who can profit by and who shall receive the special instruction provided by this article (commencing with Section 6801). The regulations shall be subject to such standards as may be prescribed by the State Department of Education.

SEC. 6. Section 6812 of said code is amended to read:

6812. Subject to the provisions of Section 8901 physically handicapped minors may be instructed in special schools or special classes, in hospitals, sanatoriums, or preventoriums, in the home through the employment of home instructors, by cooperative arrangement with the Department of Rehabilitation, or by any other means approved by the State Department of Education.

Minors with speech disorders or defects may be admitted at school for individual instruction at the age of three years for the purpose of remedying such speech disorders or defects.

Minors who are deaf or hard of hearing, as determined by the State Board of Education, and between the ages of three and six years may be admitted at school for individual instruction or be instructed in the home through the employment of a home instructor, provided there are fewer than five such ed-

ucable minors in the community making the establishment of a special day class impracticable, or the establishment of a special day class for such minors is impracticable because there are fewer than five such minors in the community within reasonable travel distance of a school suitable for the establishment of such a special day class, and provided, further, that such instruction is afforded by a teacher or home instructor possessing full qualifications for the credential to teach deaf pupils as prescribed by the regulations of the State Board of Education.

SEC. 7. Section 6813 of said code is amended to read:

6813. Subject to the provisions of Section 8901 special classes or individual instruction provided for pretuberculous, tuberculous, convalescent, or other physically handicapped minors in hospitals, sanatoriums, and preventoriums, may be maintained in the institutions within or without the school district, and the attendance of pupils in the institutions shall be credited to the district providing the instruction.

SEC. 8. Section 6815 of said code is amended to read:

6815. Subject to the provisions of Section 8901 a minor with cerebral palsy may attend a special school or class maintained by any school district for minors with cerebral palsy. The governing board of the district of residence shall pay to the district of attendance at the close of each school year the total current expenditures of the district of attendance, for the education of such minor during such school year, less all apportionments of state and federal funds made on account of the attendance of such pupils. The governing board of the district of residence may agree to reimburse the district of attendance for use of buildings and equipment. If the district of residence has insufficient funds to make such payment, the county superintendent of schools having jurisdiction over the district of residence shall apportion to the district from the county school service fund such sum as may be necessary to permit the district to meet its obligation under this section.

SEC. 9. Section 8903 of said code is repealed.

SEC. 10. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The programs for physically handicapped children are of immediate need and it is important that they be established according to the standards and conditions imposed by this act. Accordingly, it is necessary that the act go into effect immediately so that arrangements may be made for programs based on these standards and conditions for the forthcoming school year.

The authority or board shall make a written record of its determination and transmit a copy thereof to the parolee. If the authority or board so determines that such person's term shall be terminated, he shall be deemed completely discharged at the end of such 30-day period.

If the defendant is not represented by counsel, he shall not be deemed under this section to have consented to the date for his trial unless the court has explained to him his rights under this section and the effect of his consent.

SEC. 2. Section 1382 of the Penal Code is amended to read:

CHAPTER 1926

An act to amend Sections 1305, 1306, and 1307 of, and to add Section 1306.1 to, the Penal Code, relating to forfeiture of bail.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 1305 of the Penal Code is amended to read:

1305. If, without sufficient excuse, the defendant neglects to appear for arraignment or for trial or judgment, or upon any other occasion when his presence in court is lawfully required, or to surrender himself in execution of the judgment, the court must direct the fact to be entered upon its minutes and the undertaking of bail, or the money deposited instead of bail, as the case may be, must thereupon be declared forfeited, and, if the amount of the forfeiture exceeds fifty dollars ($50), the clerk of the court shall, promptly upon entering the fact of such failure to appear in the minutes, mail notice of the forfeiture to the surety on the bond or depositor of money instead of a bond. If the clerk fails to promptly mail such notice or post a copy of the order, the surety or depositor shall be released from all obligations under the bond. But if at any time within 180 days after such entry in the minutes, the defendant and his bail appear, and satisfactorily excuse the defendant's neglect or show to the satisfaction of the court that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just. If within said 180 days after such entry in the minutes, it be made to appear to the satisfaction of the court that the defendant is dead or is physically unable, by reason of illness or insanity, or by reason of detention by civil or military authorities, to appear in court at any time during said 180 days, and that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just. If at any time within said 180 days after such entry in the minutes, the bail with the defendant in his custody should appear, the bail may surrender the defendant to the court, may make a motion to set aside the forfeiture, and may request the court not to reinstate the bail.

SEC. 1.5. Section 1305 of said code is amended to read:

1305. If, without sufficient excuse, the defendant neglects to appear for arraignment or for trial or judgment, or upon any other occasion when his presence in court is lawfully required, or to surrender himself in execution of the judgment, the court must direct the fact to be entered upon its minutes and the undertaking of bail, or the money deposited instead of bail, as the case may be, must thereupon be declared forfeited, and, if the amount of the forfeiture exceeds fifty dollars ($50), the clerk of the court shall, promptly upon entering the fact of such failure to appear in the minutes, mail notice of the forfeiture to the surety on the bond or depositor of money instead of a bond. If, in any case the name or address of the depositor of money deposited instead of bail is unknown, the clerk shall post a copy of the order of forfeiture at the courthouse in the county where the order is made. But if at any time within 180 days after such entry in the minutes, the defendant and his bail appear, and satisfactorily excuse the defendant's neglect or show to the satisfaction of the court that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just. If within said 180 days after such entry in the minutes, it be made to appear to the satisfaction of the court that the defendant is dead or is physically unable, by reason of illness or insanity, or by reason of detention by civil or military authorities, to appear in court at any time during said 180 days, and that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just.

SEC. 2. Section 1306 of said code is amended to read:

1306. When any bond is forfeited, if the court which has declared the same forfeited has civil jurisdiction to render judgment in an action arising upon a contract of similar nature and amount, 180 days after such forfeiture, if the same has not been set aside, it shall enter a summary judgment against each bondsman named in such bond in the amount for which such bondsman shall have bound himself; if the court declaring such forfeiture has not jurisdiction to give judgment in an action arising upon a contract of similar nature and amount, said court 180 days after such forfeiture, if the same has not been set aside, shall deliver to the district attorney of the county in which said court is located said bond, together with a certified copy of its order declaring the same forfeited, and immediately thereafter said district attorney must file said bond and said certified copy of forfeiture in a court having jurisdiction to render judgment in an action arising upon a contract of similar nature and amount. The court in which said bond and certified copy of forfeiture shall be so filed shall forthwith enter a summary

judgment against each bondsman named in such bond in the amount for which said bondsman shall have bound himself.

If, because of the failure of any court or district attorney to promptly perform the duties enjoined upon them pursuant to this section, summary judgment is not entered within 60 days after the date upon which it may first be entered, the right to do so expires and the bail is exonerated.

A dismissal of the indictment or information after the default of the defendant shall not release or affect the obligation of the bail bond or undertaking.

Within five days after said judgment becomes final the district attorney or other civil legal adviser of the board of supervisors shall demand immediate payment of said judgment. If the judgment remains unpaid for a period of 10 days after demand has been made, he shall forthwith cause a writ of execution to issue and be levied upon the property of the judgment debtor and shall take any other steps necessary to collect such judgment.

The right to enforce a summary judgment entered against a bondsman pursuant to this section shall expire two years after the entry of such judgment.

SEC. 3. Section 1306.1 is added to said code, to read:

1306.1. The provisions of Sections 1305 and 1306 shall not affect the payment of bail deposits into the city or county treasury, as the case may be, pursuant to Section 40512 of the Vehicle Code in those cases arising under Section 40500 of the Vehicle Code.

SEC. 4. Section 1307 of said code is amended to read:

1307. If, by reason of the neglect of the defendant to appear, money deposited instead of bail is forfeited, and the forfeiture is not discharged or remitted, the clerk with whom it is deposited must, at the end of 180 days, unless the court has before that time discharged the forfeiture, pay over the money deposited to the county treasurer.

SEC. 4. Section 1 5 of this act shall become operative only if Assembly Bill No. 2047 is enacted by the Legislature at its 1965 Regular Session, and in such case at the same time as Assembly Bill No. 2047 takes effect; at which time Section 1305 of the Penal Code as amended by Section 1 of this act is repealed.

particular service. Any person who was employed by a district on or before February 1, 1963, to perform any of the services designated by the State Board of Education to require a supervision or administration credential, may continue to perform such services without possessing the credential otherwise required as long as he remains continuously employed to perform the same services in that district in which he was employed on that date, or is continuously employed to perform the same services in a district which results from a reorganization involving the same district. The State Board of Education shall, on or before July 1, 1963, determine whether a supervision credential or an administration credential shall authorize the service of directing, coordinating, supervising or administering all or any portion or portions of the types of functions listed below in this section. On or before such date the board shall establish standards for and issue credentials authorizing such service if such service is not authorized by an administration or supervision credential which the board is authorized to issue under other provisions of law in effect on such date.

The list of functions is as follows:

13058.1. Any person who, on June 30, 1965, was serving in a position requiring certification qualifications pursuant to the provisions of subdivisions (m), (n) and (o) of Section 13055 in effect immediately prior to the effective date of this section,

shall be deemed to be an employee in a position requiring certification qualifications for as long as he holds such position after the effective date of this section and such position shall be deemed to be a certificated position for as long as such person holds such position.

SEC. 3. Section 13581.1 is added to said code, to read:

13581.1. Every position not defined by this code as a position requiring certification qualifications and not specifically exempted from the classified service according to the provisions of Section 13581 or 13712 shall be classified as required by those sections and shall be a part of the classified service. Such positions may not be designated as certificated nor shall the assignment of a title to any such a position remove the position from the classified service, nor shall possession of a certification document be made a requirement for employment in any such position.

Nothing in this section shall be construed to prohibit the employment of any individual in a position described by this section as part of the classified service who is in possession of certification qualifications, nor shall the possession of certification qualifications be grounds for the elimination of an individual for consideration for employment in such a position.

The commission shall, by rule, provide for an open competitive examination only, for the positions that existed or could be created, when such positions become available for competitive examination, under the provisions of subdivisions (m), (n), and (o) of Section 13055 of this code as those subdivisions existed prior to their repeal by action of the 1965 General Session of the Legislature.

CHAPTER 1929

An act to add Section 39 to the Alameda County Flood Control and Water Conservation District Act (Chapter 1275, Statutes 1949), relating to the establishment of a ground water replenishment and pump tax program.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 39 is added to the Alameda County Flood Control and Water Conservation District Act (Chapter 1275, Statutes 1949), to read:

Sec. 39. Replenishment assessments may be levied and are declared to be in furtherance of district activities or any zone

thereof in the protection of the water supplies for users within the district or any zone thereof which are necessary for the public health, welfare and safety of the people of this state. The replenishment assessments are authorized to be levied upon the production of ground water from all water-producing facilities, whether public or private, within the district or any zone thereof for the benefit of all who rely directly or indirectly upon the ground water supplies of such district or any zone thereof.

The following procedures and regulations shall apply to allow the enactment of this purpose:

(a) Not later than the second Tuesday in February of each year the board shall order an engineering survey and report to be made regarding the ground water supplies of the district or any zone thereof. The report shall include the following:

(1) Records, data, and other information for the consideration of the board in its determination of the annual overdraft and the accumulated overdraft as of the last day of the preceding water year.

(2) A report, with supporting data, as to the total production of ground water from the ground water supplies within the district or any zone thereof during the preceding water year and as to the changes during the preceding water year in the pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district, or any zone thereof and as to the effects thereof upon the ground water supplies within the district or any zone thereof.

(3) An estimate of the annual overdraft for the current and the ensuing water years, of the accumulated overdraft as of the last day of the current water year, of the total production of ground water from the ground water supplies within the district or any zone thereof for the current and ensuing water years, and of the changes during the current water year in the pressure levels or piezometric heights of the ground water contained in pressure-level areas of the district or any zone thereof and the effects upon the ground water supplies in the district or any zone thereof.

(4) An estimate of the quantity, source, and cost of water available for replenishment of the ground water supplies during the ensuing water year.

(5) A recommendation as to the quantity of water which should be purchased for replenishment of the ground water supplies within the district or any zone thereof during the ensuing water year.

(6) An estimate of the costs of replenishing the ground water supplies with purchased water and of the rate of the replenishment assessment required to be levied upon the production of ground water from the ground water supplies within the district or any zone thereof during the ensuing fiscal year for the purpose of accomplishing such replenishment.

(b) On or before the second Tuesday in March of each year, and provided the survey and report required by subdivision (a) has been made, the board, by resolution, shall declare whether funds shall be raised to purchase water for replenishment during the ensuing fiscal year and whether such funds or any portion thereof shall be raised either by a water charge, a replenishment assessment, or a combination of water charges and replenishment assessments, and whether the funds so to be raised will benefit, directly or indirectly, all of the persons or real property and improvements within the district or any zone thereof.

(c) If the board, by resolution, determines that all or a portion of the funds needed to purchase replenishment water shall be raised by the levy of a replenishment assessment, then the board shall immediately publish a notice that a public hearing will be held on the second Tuesday of April for the purpose of determining whether and to what extent the estimated cost of purchasing water for replenishment for the ensuing year shall be paid for by a replenishment assessment. Such notice shall invite inspection of the engineering survey and report upon which the board acted, a copy of the board's resolution, the time and place of said hearing, and an invitation to all interested parties to attend and be heard in support of or opposition to the proposed assessment, the engineering survey and report, and the board's determination. The notice shall be published in the county pursuant to Section 6061 of the Government Code, at least 10 days before the hearing date.

The hearing shall be held before the board and a quorum shall be present. The hearing may be adjourned from time to time by the president or presiding officer or hearing officer but shall be completed by the first Tuesday in May next following.

The board may appoint a qualified registered engineer familiar with water problems as a hearing officer to conduct said hearing

All evidence relevant to the engineering survey and report and the board's determination that such a replenishment assessment shall be levied may be introduced.

(d) Upon completing said hearing, but no later than the second Tuesday in May, the board shall, by resolution, find:

(1) The annual overdraft for the preceding water year;

(2) The estimated annual overdraft for the current water year;

(3) The estimated annual overdraft for the ensuing water year;

(4) The accumulated overdraft as of the last day of the preceding water year;

(5) The estimated accumulated overdraft as of the last day of the current water year;

(6) The total production of ground water from the ground water supplies within the district or any zone thereof during the preceding water year;

(7) The estimated total production of ground water from the ground water supplies within the district or any zone thereof for the current water year;

(8) The estimated total production of ground water from the ground water supplies within the district or any zone thereof for the ensuing water year;

(9) The changes during the preceding water year in the pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district or any zone thereof, and the effects thereof upon the ground water supplies within such district or any zone thereof;

(10) The estimated changes during the current water year in the pressure levels or piezometric heights of the ground water contained within pressure-level areas of the district or any zone thereof and the estimated effects thereof upon the ground water supplies within such district or any zone thereof;

(11) The quantity of water which should be purchased for the replenishment of the ground water supplies of the district or any zone thereof during the ensuing water year;

(12) The source and estimated cost of water available for such replenishment;

(13) The estimated costs of replenishing such ground water supplies with such water so purchased;

(14) The estimated rate of the replenishment assessment required to be levied upon the production of ground water from the ground water supplies within the district or any zone thereof during the ensuing fiscal year for the purpose of accomplishing such replenishment.

(e) Based on the findings at the hearing the board shall, by resolution, determine what portion, if any, of the estimated cost of purchasing water for replenishment for the ensuing fiscal year shall be paid for by a replenishment assessment.

If the board determines that a replenishment assessment should be levied upon the production of ground water from ground water supplies within the district or any zone thereof during the ensuing fiscal year, then immediately following the making of such determination the board shall levy a replenishment assessment on the production of ground water from the ground water supplies within the district or any zone thereof during the fiscal year commencing on July 1st next, and such replenishment assessment shall be fixed by said board at a uniform rate per acre-foot of ground water so produced. The producers of such ground water shall pay such replenishment assessment to the district or any zone thereof at the times and in the manner hereinafter in this section provided.

(f) The district or any zone thereof, after the levying of the replenishment assessment, shall give notice thereof to the operators of all water-producing facilities in the district or any zone thereof as disclosed by the records of such district or any zone thereof, which notice shall state the rate of replenishment assessment for each acre-foot of ground water to be pro-

duced during the ensuing fiscal year. The notice may be sent by postal card or by other first-class mail with postage prepaid by the district or any zone thereof.

(g) Within ninety (90) days after the adoption of the resolution of the board provided in subdivision (b), the operator of each water-producing facility within such district or any zone thereof shall file with it an information ground water production statement. Such statements shall contain, in addition to such other information as the district or any zone thereof may require, an estimate of the total production of ground water from such water-producing facility for the preceding water year, an estimate of the production of ground water from such water-producing facility for the current water year, an estimate of the production of ground water from such water-producing facility for the ensuing water year, and information as to the method or basis of making such estimates.

Thereafter, the operator of each water-producing facility within the district or any zone thereof, on or before the last day of the month immediately following the respective quarterly periods ending March 31st, June 30th, September 30th, and December 31st of each year, shall file with the district or any zone thereof a sworn statement setting forth the total production in acre-feet of ground water from such water-producing facility during the respective quarterly periods immediately preceding the filing of the respective statements, a general description or number locating such water-producing facility, and the method or basis of the computation of such ground water production. Each statement also shall contain such other information as the district or any zone thereof may require. The first such statement required to be filed pursuant to the provisions of this section shall cover the first calendar quarter commencing not less than thirty (30) days after the adoption of the resolution of the board provided in subdivision (b).

(h) Any replenishment assessment levied pursuant to this section shall be due and payable to the district or any zone thereof by each producer in quarterly installments on the last day for filing the statement of the production of ground water from the water-producing facility operated by such producer during the quarterly period required to be covered by such statement. The amount so due and payable shall be computed by multiplying the production in acre-feet of ground water so produced from such water-producing facility, as reported in such statement, by the rate of the replenishment assessment fixed and levied by the board of the district or any zone thereof for the fiscal year in which such production shall occur.

(i) If any producer shall fail to pay a replenishment assessment when due, the board of the district or any zone thereof may charge interest at a rate not to exceed 1 percent per month on the delinquent amount of the assessment.

Should any operator of a water-producing facility fail to register his water-producing facility or fail to file the ground water production statement, the district or any zone thereof, in addition to charging interest as provided above, may assess a penalty charge against such operator in an amount not to exceed 10 percent of the amount of the replenishment assessment found by the district or any zone thereof to be due with respect to the production of ground water from such water-producing facility.

(j) The board, at the time of fixing the replenishment assessment rate, may provide by resolution that any producer operating a water-producing facility having a discharge opening not greater than two inches in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, shall pay the amount fixed in such resolution as the replenishment assessment to be paid by such producer. No sworn statement as to the production of ground water from such water-producing facility need be filed.

Upon good cause shown, an amended statement of ground water production may be filed or a correction of the records may be made at any time prior to the final date for filing the next quarterly ground water production statement.

(k) The Superior Court of the County of Alameda may issue a temporary restraining order upon the filing by the district or any zone thereof with the court of a verified petition or complaint setting forth that the person named therein as defendant is the operator of a water-producing facility which has not been registered with the district or any zone thereof or that such defendant is delinquent in the payment of a replenishment assessment. Such temporary restraining order shall be returnable to the court on or before ten (10) days after its issuance.

The court may issue and grant an injunction restraining and prohibiting the named defendant from the operation of any water-producing facility when it is established by the preponderance of the evidence at a hearing that the defendant has failed to register such water-producing facility with the district or any zone thereof or that the defendant is delinquent in the payment of a replenishment assessment. Such court may provide that the injunction so made and issued shall be stayed for a period not to exceed ten (10) days to permit the defendant to register the water-producing facility or to pay the delinquent replenishment assessment.

Service of process shall be made by posting a copy of the summons and complaint upon the water-producing facility or the parcel of land upon which such water-producing facility is located and by personal service of such summons and complaint upon the named defendant.

The right to proceed for injunctive relief as provided herein shall be in addition to any other right which may be provided elsewhere in this act or which may be otherwise allowed by

law. The procedure provided in Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure regarding injunctions shall be followed except insofar as it may be otherwise provided herein. The district or any zone thereof shall not be required to furnish an undertaking or bond as a condition to the granting of injunctive relief.

(*l*) If the board of the district or any zone thereof shall have probable cause to believe that the production of ground water from any water-producing facility is in excess of that disclosed by the sworn statements covering such water-producing facility, or if no statements are filed covering a water-producing facility, the board of the district or any zone thereof may cause an investigation and report to be made concerning the production of ground water from such water-producing facility. The board of the district or any zone thereof may fix the amount of ground water production from any such water-producing facility at an amount not to exceed the maximum production capacity of such water-producing facility; provided, however, where a water-measuring device is permanently attached thereto, the record of production as disclosed by such water-measuring device shall be presumed to be accurate and the burden is upon the district or any zone thereof to establish to the contrary.

After such determination has been made by the board of the district, or any zone thereof, a written notice thereof shall be mailed to the operator of such water-producing facility at his address as shown by the district's records or the records of any zone thereof. Any such determination made by the district or any zone thereof shall be conclusive on the operator, and on any producer producing water from such water-producing facility, and the replenishment assessment based thereon, together with interest and penalties, shall be payable forthwith, unless such operator or producer shall file with the board of directors of the district or any zone thereof within ten (10) days after the mailing of such notice a written protest setting forth the ground or grounds for protesting the amount of production so fixed or the replenishment assessment, interest, and penalties so levied thereon. Upon the filing of such protest, said board shall hold a hearing at which time the total amount of the ground water production and the replenishment assessment thereon shall be determined, and the interest and penalties fixed, which action shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to protestant at least 10 days before the date fixed for the hearing. Notice of the determination by the board shall be mailed to each protestant. The producer shall have 20 days from the date of mailing of such notice to pay the replenishment assessment, interest and penalties so fixed by the board.

(m) The district or any zone thereof may bring a suit in the court having jurisdiction against any producer of ground water from the ground water supplies within the district or

any zone thereof for the collection of any delinquent replenishment assessment. The court having jurisdiction of the suit may, in addition to allowing recovery of costs to the district or any zone thereof as allowed by law, fix and allow as part of the judgment, interest and penalties as provided in subdivision (i). Should the district or any zone thereof seek an attachment against the property of any named defendant therein, the district or any zone thereof shall not be required to furnish bond or other undertaking as provided in Chapter 4 (commencing with Section 537), Title 7, Part 2 of the Code of Civil Procedure.

(n) It shall be unlawful to produce ground water from any water-producing facility within the district or any zone thereof from and after one year following the adoption of the resolution provided for in subdivision (b) hereof, unless such water-producing facility shall have a water-measuring device affixed thereto capable of registering the accumulated amount of ground water produced therefrom.

The board by resolution may extend such date on a year-to-year basis upon its determination that availability, price of water-measuring devices, or other circumstances justify such extension. Should the date be extended, notice thereof shall be given by publication in a newspaper of general circulation in the district or any zone thereof once a week for two successive weeks, such publication to be completed not less than two months prior to the date so extended.

This section shall not be applicable to any operator of a water-producing facility having a discharge opening two inches or less in diameter and providing ground water for domestic or irrigation uses on an area not exceeding one acre in extent, who is required to pay a replenishment assessment in an amount fixed by resolution of the board of the district or any zone thereof as hereinabove in this section provided.

Violation of this section shall be punishable by a fine not to exceed five hundred dollars ($500), or by imprisonment in the county jail for not to exceed six (6) months, or by both such fine and imprisonment. Each day of operation of a water-producing facility in violation hereof shall constitute a separate offense.

(o) In the event of an adjudication of all or substantially all of the rights to extract ground water and a determination of the natural safe yield of the ground water supplies within the district, or any zone thereof, and a determination of the amount or extent to which the rights to extract ground water so adjudicated may be exercised without exceeding the natural safe yield of such ground water supplies, the board of the district or any zone thereof shall recognize such judicial determination by exempting from replenishment assessments the amount of water pumped by each person whose rights have been so adjudicated which does not exceed his proportionate share of the natural safe yield of the ground water supplies of the district or any zone thereof, as so adjudicated from

time to time by the court having jurisdiction over such adjudication proceeding. The replenishment assessment shall thenceforth be levied on each producer by multiplying the production in acre-feet of ground water so produced by such producer's water-producing facility in excess of his said adjudicated share of the natural safe yield by the rate of the replenishment assessment fixed and levied by the board for the fiscal year in which such production shall occur.

To the extent that ground water supplies are replenished under this section no person shall acquire any property or other right in the waters distributed by the district or any zone thereof for replenishment purposes.

To the extent that the replenishment assessment after adjudication hereunder shifts from all producers to those who extract water in excess of their respective shares of the natural safe yield of the ground water supplies within the district or any zone thereof as so adjudicated, such replenishment assessment shall be deemed to benefit those persons who continue to pump and extract ground water in excess of their adjudicated shares of the natural safe yield. Inasmuch as such persons must buy supplemental water or be in contempt of the court's order limiting their extraction of ground water, they shall be deemed to benefit by the payment of a replenishment assessment which is used to purchase water to supplement the natural supplies of ground water available for use.

"Zone" as used herein shall mean the entire zone or any portion thereof.

In the event the holder of the school of cosmetology or school of electrology license proposes to conduct a part of his school activity on premises other than those heretofore licensed by the board, then such licensee shall obtain an additional license for the newly proposed premises as a school of electrology or a school of cosmetology.

Nothing in this article shall be construed as authorization or permission to conduct a school of cosmetology or a school of electrology without a valid, existing, and unexpired certificate of registration covering the premises where such school is conducted.

No school of cosmetology shall be licensed until the board has had ample opportunity to verify sworn statements as to the actual ownership and in this respect, if false statements are submitted to the board in connection with said application, this in itself shall constitute sufficient grounds for the refusal to grant any application hereunder, or if an application is granted and thereafter the board discovers that false statements were made in connection therewith, this shall constitute sufficient grounds for the cancellation of said school of cosmetology license even though it is detected after a license has been issued.

The board reserves the right to deny a school of cosmetology license to any applicant who fails to present satisfactory evidence of personal integrity and moral responsibility, and in

the event that the said applicant is a corporation, this shall apply to all the officers thereof; provided further, that no school of cosmetology license shall be issued until the real owner files with the department a statement definitely designating who is authorized to accept service of notice from the said board and to transact all business negotiations in behalf of said school, including answers to citations for hearing, and compliance with rulings issued by the said board.

No school of cosmetology shall advertise student work to the public for pay through any medium including radio, unless the work advertised is expressly designated as student work.

The people of the State of California do enact as follows:

SECTION 1. Section 13602 of the Education Code is amended to read:

13602. The governing board of a school district may during any school year increase the annual salaries of persons employed by the district in positions not requiring certification qualifications at any time; provided, the board has retained the right to increase the salaries of such employees during the school year by appropriate rules and regulations adopted by the board prior to the commencement of the school year or by appropriate provisions in the contracts of employment entered into with such employees.

If prior to the commencement of a school year the governing board of a school district is engaged in a study to increase the annual salaries for persons employed by the district in positions not requiring certification qualifications for that school year, and such study shall not be completed at the com-

SECTION 1. Section 7851 of the Education Code is amended to read:

7851. Each teacher shall endeavor to impress upon the minds of the pupils the principles of morality, truth, justice, patriotism, and a true comprehension of the rights, duties, and dignity of American citizenship, including kindness toward domestic pets and the humane treatment of living creatures, to teach them to avoid idleness, profanity, and falsehood, and to instruct them in manners and morals and the principles of a free government.

CHAPTER 1971

An act to amend Sections 22793 and 22810 of the Government Code, relating to coverage under the Meyers-Geddes State Employees' Medical and Hospital Care Act.

[Approved by Governor July 17, 1965 Filed with Secretary of State July 23, 1965]

The people of the State of California do enact as follows:

SECTION 1. Section 22793 of the Government Code is amended to read:

22793. Each contract shall contain a detailed statement of benefits offered and shall include such maximums, limitations, exclusions, and other definitions of benefits as the board may deem necessary or desirable.

No contract shall be made or plan approved which excludes any person on account of his physical condition, age, race, or other status at the time of original group enrollment. Transfer of enrollment in any plan shall be open to all employees and annuitants in accordance with the provisions of Section 22813 of this code.

No contract shall be made or plan approved which does not offer to each annuitant whose enrollment in the plan is terminated other than by cancellation of enrollment, or each employee whose enrollment in the plan is terminated other than by cancellation of enrollment, voluntary separation from state service, or dismissal from state service for cause, the option to convert, without evidence of good health and within such time limits as are prescribed by the carrier and approved by the board, to a nongroup contract providing health benefits. An employee or annuitant who exercises this option shall pay the full periodic charges of the nongroup contract, on such terms or conditions as are prescribed by the carrier and approved by the board.

The benefits and coverage made available pursuant to the provisions of the above paragraph shall, at the option of the employee or annuitant, be continued in effect by the carrier except for fraud or nonpayment of periodic charges; provided, however, that in the case of a comprehensive group-practice prepayment plan, in which services are provided by a limited panel of physicians associated with the plan, it is recognized that it may be impossible or impractical to maintain acceptable physician-patient relationships with particular employees or annuitants or members of their families entitled to the benefits of continued conversion coverage under the foregoing provision. In any such case the plan may submit the question of ability to maintain adequate physician-patient relationships for consideration under the grievance procedure provided below, and in the event such grievance procedure shall result in a determination that such relationship cannot reasonably be maintained, then the plan shall have the right to provide such annuitant or employee with coverage, by contract with a service benefits plan or an indemnity carrier. Such coverage shall provide benefits substantially equivalent to the benefits available to annuitants or employees under the best conversion coverage offered by a service benefits plan or an indemnity benefit plan under this act at a prepayment rate not in excess of the rate charged by the comprehensive group-practice prepayment plan for the conversion coverage otherwise available to such annuitant or employee.

No contract shall be made or plan approved which does not provide for grievance procedures to protect the rights of employees and annuitants.

SEC. 2. Section 22810 of said code is amended to read:

22810. Any employee or annuitant may, in the manner, and under such eligibility rules as the board may by regulation prescribe, enroll in an approved health benefits plan, either as

an individual or for self and family. The regulations may provide for the exclusion of employees on the basis of the nature and type of their employment or conditions pertaining thereto, such as, but not limited to, short-term appointments, seasonal or intermittent employment, and employment of a like nature, but no employee or group of employees shall be excluded solely on the basis of the hazardous nature of the employment. Any such enrollment shall authorize the deduction of the contributions required under this part from the employee's or annuitant's salary or retirement allowance.

Any annuitant who, at the time he became an annuitant was enrolled in a health benefits plan, may continue his enrollment as provided by regulations of the board, without discrimination as to premium rates or benefit coverage.

The board shall, by rule and regulation, make such provision as it deems necessary to eliminate or minimize the impact of adverse selection which would affect any plans approved or contracted for, because of enrollment of annuitants.

Enrollments in a health benefits plan under this part may not be effective prior to January 1, 1962. If any employee or annuitant is participating in an approved plan immediately prior to his enrollment under this part, and if he chooses to enroll in the same plan, his enrollment for purposes of the state's contribution shall not interrupt continuous coverage under the plan.

The review committee shall also examine periodically the performance of established regional dialysis centers and recommend continuation grants to the director. The members of the review committee shall serve for a two-year period and may be reappointed. Not more than half the membership of the committee shall be changed during any one year. [Approved by Governor July 17, 1965. Filed with Secretary of State July 23, 1965.]

The people of the State of California do enact as follows:

SECTION 1. Section 595 of the Code of Civil Procedure is amended to read:

595. The trial of any civil action, or proceeding in a court, or of any administrative proceeding before a state board or commission or officer, irrespective of the date of the filing thereof or when it became at issue, or the hearing of any motion, demurrer, or other proceeding, shall be postponed when it appears to the court, board, commission, or officer before which such action or proceeding is pending that either a party thereto, or any attorney of record therein (whether he became an attorney of record before or after the commencement of a legislative session or before or after his appointment to a legislative committee), or a principal witness, is a Member of the Legislature of this state and that the Legislature is in session or in recess (not exceeding a recess of forty (40) days) or that a legislative interim committee of which he is a duly appointed member is meeting, or is to meet within a period which the court finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel. When the Legislature is in session or in recess such action or proceeding shall not, without the consent of the attorney of record therein, be brought on for trial or hearing before the expiration of thirty (30) days next following final adjournment of the Legislature or the commencement of a recess of more than forty (40) days. If a date is available during recess, continuance shall be given if possible to such earlier date. When a legislative committee is meeting or is to meet within a period which the court finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel, such action or proceeding shall not, without the consent of the attorney of record therein, be brought on for trial or hearing before the expiration of such period necessary following the adjournment or recess of the committee meeting as the court finds is reasonably necessary to enable the member to reach the place of trial or hearing by the ordinary mode of travel from the place of the committee meeting, unless at the expiration of that period the Legislature is to be in session; and in that case the action or proceeding shall not, without such consent, be brought on for trial or hearing before the expiration of thirty (30) days next following final adjournment or the commencement of a recess of more than

forty (40) days. If a date is available during the recess, continuance shall be given to such earlier date. However, any postponement granted under the provisions of this paragraph shall suspend for the same period of time as the postponement, the running of any period of time for any ruling or proceeding by a court, board, commission, or officer, or for the performance by any party of any act affected by said postponement.

SEC. 2. Section 595.4 is added to said code, to read:

595.4. A motion to postpone a trial on the ground of the absence of evidence can only be made upon affidavit showing the materiality of the evidence expected to be obtained, and that due diligence has been used to procure it. The court may require the moving party, where application is made on account of the absence of a material witness, to state upon affidavit the evidence which he expects to obtain; and if the adverse party thereupon admits that such evidence would be given, and that it be considered as actually given on the trial, or offered and overruled as improper, the trial must not be postponed.

SEC. 3. Section 595.2 is added to said code, to read:

595.2. In all cases, the court shall postpone a trial, or the hearing of any motion or demurrer, for a period not to exceed thirty (30) days, when all attorneys of record of parties who have appeared in the action agree in writing to such postponement.

SEC. 4. Section 595.3 is added to said code, to read:

595.3. In actions involving the title to mining claims, or involving trespass for damage upon mining claims, if it be made to appear to the satisfaction of the court that, in order that justice may be done and the action fairly tried on its merits, it is necessary that further developments should be made, underground or upon the surface of the mining claims involved in such action, the court shall grant the postponement of the trial of the action, giving the party a reasonable time in which to prepare for trial and to do said development work.

SEC. 5. Section 1054.1 of said code is amended to read:

1054.1. When an act to be done in any action or proceeding in any court of this state or before any state administrative agency, as provided by law or rule, relates to the pleadings in the action, or the undertakings to be filed, or the justification of sureties, or the preparation of bills of exceptions, or of amendments thereto, or to the service of notices (other than of appeal, of intention to move for a new trial, and of intention to move to vacate a judgment), and such act is not a motion for a judgment notwithstanding the verdict, the time allowed therefor, unless otherwise expressly provided, shall be extended by the judges of the court or by the agency in which the action or proceeding is pending, or by the judge who presided at the trial of said action, when it appears to the judge of any court or to the agency to whom such application is made that an attorney of record for the party applying for such

extension is a Member of the Legislature of this state, and that the Legislature is in session or in recess not exceeding a recess of forty (40) days or that a legislative committee of which he is a duly appointed member is meeting or is to meet within a period which the court or agency finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel. When the Legislature is in session or in recess, extension shall be to a date not less than thirty (30) days next following the final adjournment of the Legislature or the commencement of a recess of more than forty (40) days. If a date is available during recess, extension shall be to such earlier date. When a legislative committee is meeting or is to meet within a period which the court or agency finds does not exceed the time reasonably necessary to enable the member to reach the committee meeting by the ordinary mode of travel, extension shall be for such period as the court or agency finds will be reasonably necessary to enable the member to perform the act to be done in the action or proceeding, unless said extension would expire when the Legislature is to be in session; and in that case the extension shall be to a date not less than thirty (30) days following the final adjournment of the Legislature or the commencement of a recess of more than forty (40) days If such act may be reasonably done by the member within such recess, continuance shall be to such earlier date. Upon filing the affidavit the voter shall deposit with the county clerk an amount sufficient to cover the expense of the recount, as prescribed by the county clerk. The voter shall be entitled to the return of the balance of such deposit remaining after the expense of the recount has been paid.

Sec. 9. The provisions of this section shall not apply to Divisions 8, 9 and 10 of said district, where the directors therefrom are appointed as provided elsewhere in this act.

Only the holders of title to land situated within said district or to assessable rights in said lands, or to improvements on said lands, shall be entitled to vote at any election for directors held under the provisions of this act, and every such holder of title shall be entitled to vote in person or by proxy as hereinafter provided in each division of said district in which any of the lands, including assessable rights therein or improvements thereon, owned by him are situated, and to cast one vote for each one hundred dollars ($100) or fraction thereof worth of land including assessable rights therein or improvements thereon, in each said division so owned by him.

The boundaries of the respective divisions, for the purpose of nomination and election of directors, as provided in this section, shall be the boundaries of said divisions as they shall exist as provided by Section 1 of this act, on the first Tuesday of August preceding the date of election.

Such ownership and value shall be determined from the last equalized assessment roll of said Orange County.

Where land is owned by two or more persons, the votes shall be divided in accordance with the interests of each owner. Where land is assessed to unknown owners or anyone other than the true owner, any person producing a certificate of a title insurance or abstract company certifying the true ownership of such land at the date of the election, or at any time within five days previous thereto, accompanied by an affidavit of the person certified to be the owner that he is the owner of the property at the time of the election, said person so certified to be the owner shall be entitled to vote in like manner as if his name appeared upon the assessment rolls as above mentioned unless the owner as shown on the assessment roll has voted prior to the time such certificate and affidavit is furnished to the precinct board.
