CHAPTER 918

An act to amend Section 2019 of the Code of Civil Procedure, relating to discovery in civil cases.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 2019 of the Code of Civil Procedure is amended to read:

2019. (a) (1) A party desiring to take the deposition of any person upon oral examination shall give notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. Such notice must be at least 10 days, adding also one day for every 300 miles of the distance of the place of examination from the residence of the person to whom the notice is given, except that on motion of any party, with or without notice, and for good cause shown, the court may enlarge or shorten the time, or may stay the taking of the deposition until the hearing and determination of a motion for an order pursuant to subdivision (b) of this section. Service of such notice or motion may be made upon any party or his attorney in the manner provided in Chapter 5 (commencing with Section 1010) of Title 14 of Part 2 of this code.

(2) Notwithstanding Section 1989 and the distance provisions specified in paragraph (4) of this subdivision, the deposition, whether of a party or any other person, shall be taken only in the county of residence of the deponent or at a place not more than 75 miles from the residence of the deponent or, if the deponent is a party, in the county of place of trial when the place of deposition is less than 150 miles from the residence of the deponent, unless the court, pursuant to paragraph (1) or (2) of subdivision (b) of this section, otherwise orders. If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions.

(3) If an adverse party is in default for not appearing within the time allowed by the law or the court, or if, in a special proceeding, some or all of the parties interested have not appeared, a deposition may be taken without the giving of any notice to the party so in default or not appearing; and in any case on motion of any party, with or without notice, and for good cause shown, the court may authorize the taking of a deposition without the giving of notice to parties who have not been served with summons.

(4) In the case of depositions of a party to the record of any civil action or proceeding or of anyone who at the time of tak-

ing the deposition is an officer, director or managing agent of any such party, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney for such party or to the party, if he has no attorney. In the case of depositions of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of anyone who at the time of taking the deposition is an officer, director or managing agent of any such person, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney of the party prosecuting or defending the action or proceeding for the immediate benefit of the deponent or to such party, if he has no attorney. A notice to take the deposition of a person described in this paragraph cannot require the attendance of such person at a place more than 150 miles from the residence of such person, unless the party desiring to take such deposition first obtains an order pursuant to the provisions of paragraph (2) of subdivision (b) of this section.

(b) (1) Upon motion seasonably made by any party or by the person to be examined and upon notice, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case for good cause shown, the court in which the action is pending may make an order that the deposition shall not be taken, or that it may be taken only at some designated time or place other than stated in the notice of taking the deposition, or that the deposition may be taken outside the county of residence and at a place more than 75 miles and less than 150 miles from the residence of the deponent in cases not provided for by paragraph (2) of subdivision (a) of this section, or that it shall not be taken except by allowing written interrogatories by one or more parties, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs and expenses, including attorney's fees, as the court may deem reasonable.

(2) Notwithstanding Section 1989, the court may, upon motion on 10 days' written notice and for good cause shown, make an order requiring a deponent who is a party to the record of any civil action or proceeding or is a person for whose immediate benefit said action is prosecuted or defended

or is at the time of the taking of the deposition an officer, director or managing agent of any such party or person to attend a deposition at a place more than 150 miles from the residence of such deponent. In granting or refusing such order, the court shall consider whether the moving party selected the forum, whether the deponent will be present at the trial, the convenience of the deponent, the suitability of discovery through a deposition by written interrogatories or other discovery methods, the number of depositions sought under this section, the expense to the parties of requiring the deposition to be taken within 150 miles of the residence of the deponent, the whereabouts of the deponent at the time the deposition is scheduled to be taken, and all other factors tending to show whether or not the interests of justice and the convenience of the parties and witnesses will be served by requiring the deponent to appear for his depositioin at a place more than 150 miles from his residence. Such order may provide that the party desiring to take such deposition shall pay the reasonable expenses incurred by the deponent in attending such deposition and that he furnish an undertaking approved by the court to secure such payment and may contain such other terms and conditions as are equitable and just.

(c) The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.

(d) At any time during the taking of the deposition, on motion of any party or of the deponent, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or the superior court in the county where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subdivision (b) of this section. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending. Upon demand of the objecting party or deponent, the taking of the deposition shall be sus-

pended for the time necessary to make a motion for an order. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs or expenses, including attorney's fees, as the court may deem reasonable.

(e) When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress under subdivision (d) of Section 2021 of this code the court holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(f) (1) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in an envelope endorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly file it with the court in which the action is pending or send it by registered mail to the clerk thereof for filing.

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

(g) (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving the notice to pay such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

(2) If the party giving the notice of the taking of a deposition of a witness fails to serve a subpoena upon him and the witness because of such failure does not attend, and if another party attends in person or by attorney because he expects the deposition of that witness to be taken, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

CHAPTER 919

In promulgating any additional requirements the State Board of Education is hereby directed to emphasize academic and subject matter preparation, professional preparation, and student teaching or its equivalent in teaching experience. CHAPTER 923

An act to add Chapter 5 (commencing with Section 31100) to Division 17 of the Streets and Highways Code, relating to the El Dorado County Toll Tunnel Authority.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 31100) is added to Division 17 of the Streets and Highways Code, to read:

CHAPTER 5. EL DORADO COUNTY TOLL TUNNEL AUTHORITY ACT

Article 1. General Provisions

31100. This chapter may be cited as the El Dorado County Toll Tunnel Authority Act.

31101. Unless the particular provision or the context otherwise requires the general provisions set forth in this article govern the construction of this chapter.

31102. "Authority" means the El Dorado County Toll Tunnel Authority.

31103. "Toll tunnel" means the tunnel from U.S. Highway 50 in the vicinity of Twin Bridges to U.S. Highway 50 in the vicinity of Meyers which the authority is authorized to finance, construct, operate, and maintain as a toll facility pursuant to this chapter, and includes all appurtenances and additions, alterations or improvements thereto or replacements thereof, and the approaches to each end thereof, including any necessary connections with U.S. Highway 50, all lands and interest therein used therefor, and buildings and improvements thereon.

31104. "Bond" means any written evidence of indebtedness which the authority may issue pursuant to this chapter in order to secure funds with which to carry out the purposes of this chapter.

31105. Nothing in this chapter prevents the state from making appropriations from time to time in aid of the construction pursuant to this chapter of the toll tunnel or property, franchises, or rights appurtenant thereto or for the purpose of making preliminary surveys, plans, and estimates of the cost thereof, and meeting other preliminary expenses as the Legislature deems proper.

Article 2. Organization of the Authority

31110. The El Dorado County Toll Tunnel Authority is hereby created. The authority shall be governed by a board consisting of the members of the Board of Supervisors of El Dorado County.

31111. All of the members of the authority shall serve thereon without compensation, but they shall receive their necessary actual traveling expenses incurred in the discharge of their duties.

31112. A majority of the members of the authority may act for the authority.

31113. The authority may employ a secretary, a treasurer, an attorney, a chief engineer, and such other persons as are necessary to enable it properly to perform the duties imposed upon it by this chapter.

31114. The authority may sue and be sued in the name of the El Dorado County Toll Tunnel Authority.

31115. The authority shall select one of its members to serve as chairman of the authority.

Article 3. General Powers and Duties of the Authority

31120. The authority may study the feasibility of, plan, design, finance, construct, operate, and maintain a tunnel from

U S. Highway 50 in the vicinity of Twin Bridges to U.S. Highway 50 in the vicinity of Meyers.

The authority shall require that any tunnel constructed shall meet state highway standards.

31121. The authority shall fix the rates of toll and other charges for the toll tunnel.

31122. The authority in establishing toll charges shall give consideration to the cost of operating and maintaining the toll tunnel, including the cost of insurance, and to the amount required annually to meet the redemption of bonds and interest payments thereon. At all times the tolls and charges shall be fixed at rates to yield annual revenue equal to annual operating and maintenance expenses, including insurance costs, and all redemption payments and interest charges of the bonds issued for the toll tunnel as they fall due.

31123. Toll charges so fixed may be changed from time to time as conditions warrant.

31124. The authority may do such acts and make such agreements not inconsistent with laws as are necessary or desirable in connection with the duties and powers conferred upon it by law regarding the construction, maintenance, operation, and insurance of the toll tunnel or the safeguarding of the funds and revenues required for such purposes and the payment of the indebtedness incurred therefor.

31125. The authority, through such engineers or experts as it may employ, shall design the toll tunnel, and may build it or any portions of it either by its own employees or by contract with any person. The cost of the toll tunnel shall be paid from the proceeds of bonds issued and sold pursuant to this chapter, or from contributions or appropriations from other sources as provided in this chapter.

31126. The authority shall keep full, complete, and separate accounts of the toll tunnel and annually shall prepare balance sheets and income and profit and loss statements showing the financial condition of the toll tunnel. The statements shall be open to the inspection of holders of bonds issued by the authority at all reasonable times.

31127. The authority may issue permits for the use of the toll tunnel on a credit basis. The holder of such a permit shall furnish to and maintain in force with the authority a cash deposit or a corporate surety bond, in an amount equal to twice the authority's estimate of the toll charges to be incurred under such permit during one month.

31128. The authority may require the holder of such permit to increase the amount of cash bond, or to furnish an additional surety bond, or may reduce the amount of the cash bond or surety bond required, as the amount of charges incurred and regularity of payment warrant, or may revoke any permit granted for failure of the holder to comply with its terms.

31129. The authority may also require the holder of any such permit to pay a fee of not to exceed five dollars ($5) a

month to cover printing and other overhead expense, the proceeds thereof to be deposited in the fund from which such expenses are paid.

31130. When necessary to facilitate movement of traffic, the authority may limit the use of the toll tunnel on a credit basis to particular classes of vehicles.

31131. The authority may adopt rules and regulations not inconsistent with the Vehicle Code for the control of traffic in the toll tunnel, to aid and insure the safe and orderly flow of traffic, and shall so far as practicable notify the public of such rules and regulations by signs placed along the route of the toll tunnel.

31132. The California Highway Patrol shall have the authority and it shall be its duty to provide for proper and adequate policing of the toll tunnel, to insure the enforcement thereon of the Vehicle Code and rules and regulations adopted by the authority pursuant to Section 31131, and to cooperate with the authority, to the end that the toll tunnel be operated at all times in such a manner as to carry traffic efficiently.

All required accident and supplemental reports, and all other reports made to the California Highway Patrol by any peace officer or employee of the Department of Motor Vehicles relative to accidents and incidents occurring on property of the authority shall be immediately available for the confidential use of the authority.

Article 4. Bonds

31140. Whenever the authority determines that it is for the best interests of the public highways in the state that the toll tunnel be constructed and operated by the authority, based upon preliminary estimates of the cost of construction thereof, an estimate of the amount required to be raised for that purpose by the issuance of revenue bonds, and a statement of the probable amount of money, property, materials, or labor to be contributed from other sources in aid of the construction prepared by its staff, it shall adopt a resolution declaring that public interest and necessity require the construction of the toll tunnel and authorizing the issuance of revenue bonds for the purpose of obtaining funds in an amount not in excess of that estimated to be required for the construction thereof.

31141. All bonds authorized pursuant to this chapter shall be issued in the name of the authority and shall constitute obligations of the authority only. Such bonds shall be identified as toll tunnel bonds and shall contain a recital on the face thereof that the payment or redemption of the bonds and the payment of the interest thereon is secured by a direct and exclusive charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the toll tunnel, and that neither the payment of the principal or any part thereof or any interest thereon, constitutes a debt, liability, or obligation of the state or of El Dorado County.

31142. The authority shall determine the form, conditions, and denominations of all bonds, the dates which the bonds to be sold shall bear, and the interest rate thereon which shall not exceed 6 percent per annum. The rate of interest need not be uniform for all bonds of the same authorized issue. Principal and interest of the bonds shall be payable at such places as are fixed and determined by the authority. The bonds may contain provisions for registration as to principal only and as to both principal and interest. The bonds shall be issued in coupon form with interest payable at such times as are determined by the authority, and shall mature at such times and in such amounts as the authority prescribes.

31143. The authority may provide for the retirement of the bonds at any time or times prior to their maturity, in such manner and upon payment of such premiums as may be fixed and determined in the proceedings providing for the issuance of the bonds and referred to therein.

31144. All bonds shall be signed by the treasurer and countersigned by the chairman. The signatures of the treasurer and the chairman may be by facsimile, but said bonds shall be authenticated by such signatures as the bond resolution or indenture may require. All interest coupons shall bear the facsimile signature of the treasurer. In case any officer whose signature or countersignature appears on the bonds or coupons ceases to hold his office before the delivery of the bonds to the purchaser, his signature or countersignature is nevertheless valid and sufficient for all purposes the same as if he had remained in office until the delivery of the bonds.

31145. All revenue bonds authorized pursuant to this chapter may be issued and sold by the authority from time to time and in such amounts as the authority deems necessary to provide sufficient funds for the purposes for which the bonds were authorized, including the payment of interest on the bonds during the period of actual construction, and for a period of six months thereafter, and the proceeds thereof are available for those purposes.

31146. Bonds authorized pursuant to this chapter may be sold below the par or face value thereof, but the sale price shall not be less than that which will yield the purchaser 6 percent a year according to standard tables of bond values, and shall include the interest which has accrued thereon up to the date of delivery of the bonds.

31147. Successive issues of bonds within the limits of the original authorization for the issuance of bonds for the acquisition or construction of the toll tunnel shall have equal preference with respect to the redemption thereof and the payment of interest thereon, but the authority may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization.

31148. All bonds issued and sold pursuant to this chapter shall be sold on sealed proposals to the highest and best bidder

after such advertising for bids as the authority deems proper. The authority may reject any and all bids submitted and may thereafter sell the bonds so advertised for sale at private sale under such terms and conditions as it deems most advantageous to its own interest, but the bonds shall not be sold at a price below that of the best bid which was rejected.

31149. Temporary or interim bonds, certificates, or receipts, signed by the treasurer, of any denomination whatever and with or without coupons attached thereto, may be issued and delivered until the definitive bonds are executed and available for delivery.

31150. The purchase price of all bonds issued pursuant to this chapter shall be paid to the treasurer for the account of the authority.

31151. The authority may include in the proceedings authorizing the issuance of bonds any provisions not inconsistent with this chapter which limit, restrict, or regulate the holding, deposit, investment, and application of money consisting of the proceeds from the sale of the bonds or the tolls and other revenues received from the operation of the toll tunnel, and such provisions shall constitute a contract with the holders of the bonds and be binding upon the authority as long as the bonds are outstanding.

31152. The authority may provide in the proceedings authorizing the issuance of bonds for the setting up of one or more reserve funds out of the proceeds of the bonds or out of the tolls and other revenues not needed for the payment of interest on the bonds and the principal of the bonds as they currently mature, and for the preservation and continuance thereof in a manner to be provided therein, and may also require the immediate application of all surplus money in any such toll revenue fund to the retirement, by call or purchase, of the bonds prior to maturity in such manner and upon such terms and the payment of such premiums as the authority deems advisable.

31153. The authority may provide in the proceedings authorizing the issuance of bonds, or may otherwise agree with the purchasers of bonds, regarding the deposit of all money constituting the Acquisition and Construction Fund and the Toll Revenue Fund, and may provide for the deposit of such money at such times, with such depositaries or paying agents, and upon the furnishing of such security as may meet with the approval of the purchasers of the bonds. The depositaries and security provided for or agreed upon, however, shall be qualified and eligible in accordance with law.

31154. The authority may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter, and the purchase and carrying of such insurance shall thereupon be obligatory upon the authority and be paid for out of the Toll Revenue Fund as may be specified in the proceedings.

31155. Whenever any bonds are to be issued pursuant to this chapter, the authority, from time to time, upon such terms and conditions in all respects as it approves and consistently with this chapter, may enter into indentures or agreements containing any or all of the following provisions:

(a) Providing for the amount, form, maturities, registration, and transfer and interchange of the bonds and coupons and the terms and conditions upon which they shall be issued, sold, paid, retired, funded, and refunded.

(b) Providing for a sinking fund for the bonds and designating a trustee or trustees, which shall be a bank or trust company or banks or trust companies duly qualified to do business in this state, to receive and disburse the revenues of the toll bridge works or improvement.

(c) Providing that as long as any of such bonds are outstanding there shall be raised in each year by tolls not less than the minimum amounts required for interest, sinking fund, redemption, and reserve requirements for the bonds, in addition to the amount needed for current operating and maintenance expenses, including insurance costs, required to be paid from such sources.

(d) Such other provisions for the protection of the holders of the bonds as the authority approves including, without limiting (a), (b), or (c), provisions that in the event of refusal or failure to comply with any provision of this chapter or any other applicable law, or of any agreement made with the holders of the bonds or of any issue thereof, the holders of a stated percentage in aggregate principal amount of the bonds, or of such issue thereof as the case may be, then outstanding may, in accordance with such appropriate procedure as is provided in the agreement or indenture, appoint a trustee to represent all the holders of the bonds, or all the holders of the issue thereof as the case may be, in the matter of exercising and prosecuting on their behalf such rights and remedies as are available to them under the law. The authority shall in its absolute discretion fix the terms and conditions upon which the trustee or trustees shall receive, hold and disburse the revenues and may prescribe the powers and duties of the trustee or trustees.

31156. All benefits conferred or obligations imposed by this chapter or by any other law with respect to making provision for the payment, whether from tolls or other revenues received from the use and operation of the toll tunnel or from other sources, of expenses in connection with the operation, maintenance, and insurance of, and the construction of approaches to, the toll tunnel, shall, notwithstanding the retirement or discharge of any or all of the bonds issued by the authority for the purpose of constructing the toll tunnel, inure to and continue for the benefit of any other bonds issued pursuant to this chapter as additional to, or funding, or refunding the bonds originally issued.

31157. The authority may contract loans and borrow money through the sale of bonds of the same character as those authorized pursuant to this chapter, from the United States or any of its departments, agencies, or instrumentalities upon such conditions and terms as may be agreed to. Such bonds shall be subject to all the provisions of this chapter except the requirement that bonds be first offered at public sale pursuant to advertisement.

31158. If a bond issue for the acquisition or construction of the toll tunnel is authorized and sold in whole or in part and the authority deems it advisable and advantageous to enlarge or extend the toll tunnel or to change the structure or design thereof in order to afford new or greater facilities for any type or class of traffic, the authority may issue additional bonds for the purpose of enlarging or extending the toll tunnel or changing the structure or design thereof in order to afford such new or greater facilities. Such additional bonds shall be issued only if the surrender and cancellation of all outstanding bonds issued for the acquisition or construction of the toll tunnel as originally designed can be assured or obtained by call or by consent of the holders thereof. Such additional bonds shall not constitute a debt or obligation of the state or of El Dorado County but shall be bonds of the authority of the same character and payable from the same funds as other bonds authorized pursuant to this chapter. The pledge of the tolls and other revenues to be received from the operation of the toll tunnel to the payment of outstanding bonds shall not be lessened, diminished, or affected in any way by the issuance of such additional bonds.

31159. If the outstanding bonds issued for the acquisition or construction of the toll tunnel as originally designed are, at the time of issuance of the additional bonds, by their terms subject to immediate retirement before maturity at the option of the authority, or if the holders consent to the retirement of such bonds, the authority may include in the issue of bonds to be sold for the purpose of enlarging or extending the toll tunnel or changing the design thereof, an amount of bonds sufficient to produce funds with which to retire the outstanding bonds according to their terms. Before any such additional bonds are delivered the authority shall first duly call the outstanding bonds for redemption in accordance with their terms and conditions or obtain the consent of the holders thereof to their retirement.

31160. Out of the proceeds derived from the sale of any such additional bonds there shall be set aside an amount of money sufficient to retire such outstanding bonds as may be thereafter presented for payment. Bonds of the new authorized issue may be delivered in part in exchange for a like principal amount of outstanding bonds of the original issue if the holders of the outstanding bonds to be exchanged consent thereto.

31161. All provisions of this chapter apply with like force and effect to the issuance of any bonds of the new authorized issue, and the holders thereof are subrogated to all the rights and powers of the holders of the bonds which are surrendered in exchange therefor, except as such rights and powers are modified by the express terms of the bonds of the new authorized issue or the proceedings authorizing their issuance.

31162. Whenever bonds of any kind have been issued and are outstanding pursuant to this chapter, the authority may from time to time or at one time issue and sell or exchange funding or refunding bonds for the purpose of retiring, paying, funding, or refunding either all or such part of the outstanding bonds or of one or more issues or series thereof, as it deems advisable. Such funding or refunding bonds shall be issued and delivered only when the issue or series of bonds to be funded or refunded have matured, are about to mature, are subject to retirement before maturity, or if the outstanding bonds are not subject to retirement, the retirement thereof has been assured or obtained by consent of the holders thereof. Funding or refunding bonds may be delivered wholly or in part in exchange for outstanding bonds to be funded or refunded thereby, if the holders of the outstanding bonds to be exchanged consent thereto.

31163. Funding or refunding bonds shall not constitute a debt or obligation of the state or of El Dorado County, but shall be bonds of the authority of the same character and payable from the same funds as other bonds authorized pursuant to this chapter. Any and all reserve or other funds applicable to the payment of the bonds funded or refunded, may, if so directed by the authority, be transferred to any reserve or other funds provided with respect to the funding or refunding bonds. The pledge of the tolls and other revenues to be received from the operation of the toll tunnel to the payment of outstanding bonds shall not be lessened, diminished, or affected in any way by the issuance of such funding or refunding bonds.

31164. Except as otherwise provided in this article, and except as modified by the express terms of the funding or refunding bonds or the proceedings authorizing their issuance, all the provisions of this chapter apply to such funding or refunding bonds and to the issuance and sale or exchange thereof, and the holders thereof shall be subrogated to all the rights and powers of the holders of the bonds funded or refunded thereby or surrendered in exchange therefor.

31165. Any funding or refunding bonds may be issued in a principal amount sufficient to provide funds for:

(a) The payment of the bonds to be funded or refunded thereby.

(b) All expenses incidental to the calling, retiring, or payment of the outstanding bonds and the issuance of the funding or refunding bonds, including the difference in amount be-

tween the par value of the funding or refunding bonds and any amount less than par for which they may be sold.

(c) Any amount necessary to be made available for the payment of interest upon the funding or refunding bonds from the date of their sale to the date of maturity or payment of the bonds to be funded or refunded out of the proceeds of the sale, or the date upon which the bonds to be funded or refunded will be paid pursuant to call thereof or agreement with the holders thereof.

(d) The premium, if any, necessary to be paid in order to call or retire the outstanding bonds.

31166. All bonds issued pursuant to this chapter are negotiable instruments under the law merchant.

31167. All bonds issued pursuant to this chapter and the income therefrom are at all times exempt from taxation, except for transfer, inheritance, and estate taxes.

31168. Bonds issued pursuant to this chapter shall not constitute or be a debt, liability, or obligation of the state or El Dorado County. The payment of both principal and interest of all bonds shall be secured only by the tolls or other revenues collected from the toll tunnel, other revenues and interest thereon, and sinking funds created therefrom received by the authority, and shall be paid from such tolls or revenues or from such other contributions or appropriations as may be made available pursuant to this chapter.

31169. The bond redemption and interest payments constitute a first direct and exclusive charge and lien on all tolls and other revenues, and interest thereon, and sinking funds created therefrom received from the use and operation of the toll tunnel. Such tolls and revenues together with the interest earned thereon constitute a trust fund for the security and payment of the bonds and shall not be used or pledged for any other purpose as long as any such bonds are outstanding and unpaid.

31170. While any bonds issued by the authority remain outstanding, the powers, duties, or existence of the authority shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of the bonds.

31171. The holder of any bond may by mandamus or other appropriate proceeding compel the performance of any of the duties imposed upon the authority or its officers, agents, and employees in connection with the construction, maintenance, operation, and insurance of the toll tunnel, in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of the toll tunnel, and in connection with the deposit, investment, and disbursement of the proceeds received from the sale of bonds. The enumeration of rights and remedies in this chapter does not exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.

31172. The Superintendent of Banks may investigate and ascertain the status or sufficiency as investments for savings banks in this state of any such bonds. If upon investigation it is determined in his opinion that such bonds constitute a proper investment for savings banks, he shall so certify. He may revoke any such certificate issued by him at any time in his discretion.

31173. All bonds issued by the authority pursuant to this chapter, and which have been first certified by the Superintendent of Banks, are legal investments for all trust funds, for the funds of all insurance companies, commercial and savings banks, and trust companies, and for state school funds.

31174. Any money or funds which may by law be invested in bonds of the state, cities, counties, or school districts in the state may be invested in the bonds issued by the authority.

31175. Whenever any bonds of the state, or of any city, county, or school district in the state, may by law be used as security for the performance of any act or the deposit of any public money the bonds issued by the authority may be so used.

Article 5. Custody and Use of Money

31180. The proceeds from the sale of all bonds authorized pursuant to this chapter shall be paid to the treasurer for the credit of the authority and forthwith deposited as demand deposits in such depositary or depositaries as are authorized by law to receive deposits of state funds, to the credit of a fund to be designated as the acquisition and construction fund of the toll tunnel. The fund shall at all times be kept segregated and set apart from all other funds.

31181. The proceeds from the sale of the bonds shall be paid out or disbursed solely for the acquisition or construction of the toll tunnel, the acquisition of the necessary lands and easements therefor, and the payment of interest on the bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor arises. The authority may agree with the purchaser of the bonds upon any conditions or limitations restricting the disbursement of such funds which are deemed advisable for the purposes of assuring the proper application of the funds.

31182. All money in the acquisition and construction fund not required to meet current acquisition or construction costs of the toll tunnel, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they are required to be applied or to which they are pledged, shall be invested in bonds and obligations eligible for investment of surplus state money. The authority may provide in the proceedings authorizing the issuance of the bonds that the investment of such money shall be made only in particular bonds and obligations within the classifications eligible for such investment, and such provisions shall be binding upon the authority and all officials having anything to do with the investment.

31183. Any surplus which exists in the acquisition and construction fund shall be applied to the retirement, by purchase or call, of bonds issued for the acquisition or construction of the toll tunnel. If such bonds cannot be purchased at a price satisfactory to the authority and are not by their terms callable prior to maturity, the surplus shall be paid into the fund applicable to the payment of principal and interest of such bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying the surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called, and such limitations and conditions shall be followed and observed in the application and use of the surplus. All bonds retired by purchase or call shall be immediately canceled.

31184. All tolls or other revenues received from the operation of the toll tunnel shall be paid over by the department at least monthly to the treasurer who shall deposit them forthwith in such depositary or depositaries as are authorized by law to receive deposits of state funds, to the credit of a special fund to be designated as the toll revenue fund of the toll tunnel, which fund shall at all times be kept segregated and set apart from all other funds.

31185. From the money deposited in the acquisition and construction fund, the treasurer shall transfer to the place or places of payment named in the bonds such sums as are required to pay the interest as it becomes due on all bonds sold and outstanding for the construction of the toll tunnel during the period of actual construction and during the period of six months immediately thereafter. The treasurer shall thereafter transfer from the toll revenue fund to the place or places of payment named in the bonds such sums as are required to pay the interest on the bonds and to redeem the principal thereof as such interest payments and bond redemptions fall due for all bonds issued and sold for the construction or acquisition of the toll tunnel. All funds transferred for the payment of principal or interest on bonds issued for the toll tunnel shall be segregated and applied solely for the payment of such principal and interest.

31186. The money remaining in the toll revenue fund, after providing the amount required for interest and redemption of bonds, shall be held and applied as provided in the proceedings authorizing the issuance of the bonds. If the proceedings authorizing the issuance of the bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the acquisition, construction, operation, and maintenance of the toll tunnel as the authority determines.

31187. Money required to meet the costs of acquisition or construction and all expenses and costs incidental to the acquisition or construction of the toll tunnel, or to meet the costs

of operating, maintaining, and repairing it, shall be paid from the proper fund therefor upon demand of the authority.

31188. All interest received or earned on money deposited in each and every fund provided for in this article shall be credited to and become a part of the particular fund upon which the interest accrues.

31189. Notwithstanding anything contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of the toll tunnel may be used to defray any expenses incurred by the authority in connection with and incidental to the issuance and sale of bonds for the acquisition or construction of the toll tunnel, including expenses for the preparation of surveys and estimates and the making of inspections and examinations as may be required by the purchasers of the bonds, except that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of the bond proceeds and toll or other revenues for the purposes specified in this section.

Article 6. Acquisition and Disposition of Property

31200. The authority may acquire by gift, purchase, or eminent domain proceedings any franchise, rights, privileges, easements, or other property, either real or personal, necessary therefor, when the construction of the toll tunnel is authorized by the authority. This article shall not apply to any portion of the state highway system.

31201. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, private, public, or municipal corporation, county, city, district, or any political subdivision of the state, may be condemned and taken, and the acquisition and use thereof as provided in this chapter for the same public use or purpose to which such property has been appropriated or dedicated or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated.

It shall not be necessary in any eminent domain proceedings pursuant to this section to plead or prove any acts or proceedings preliminary or prior to the adoption of the resolution provided for in this article describing the property sought to be taken and directing such proceedings.

31202. Pursuant to the Constitution and laws relating to eminent domain proceedings, the authority may condemn and take, in fee or otherwise, as the authority determines, in the name of the authority, any real estate, personal property, franchises, rights, privileges, or easements, whether publicly

or privately owned and whether or not already devoted to a public use or purpose, deemed necessary for the toll tunnel.

31203. The authority shall commence any such proceedings in eminent domain whenever it first passes a resolution declaring that public interest and necessity require the construction of the toll tunnel and that the acquisition of any particular real estate, personal property, franchises, rights, privileges, or easements is necessary therefor. Such resolution shall be conclusive evidence:

(a) Of the public necessity of such construction.

(b) That such property and franchises, rights, privileges, or easements are, and that the acquisition of the fee or other interest therein is, necessary therefor.

(c) That such proposed construction is planned or located in a manner which will be most compatible with the greatest public good and the least private injury.

31204. The authority may condemn and take, in fee or otherwise as the authority determines, in the name of the authority, pursuant to or in conjunction with any other proceedings at any time brought pursuant to this article, any real property considered necessary for the purpose of exchanging it for other real property to be used for any of the purposes of this chapter.

Real property may be acquired for such purposes only when the owner of the property needed for a purpose provided in this chapter has agreed in writing to such exchange, and when, in the opinion of the authority, an economy in the acquisition of the necessary property can be effected thereby. The determination of the authority is conclusive evidence of all matters set forth in this section.

31205. The right-of-way is given, dedicated, and set apart upon which to locate, construct, and maintain the toll tunnel through, over, under, on, or across any property of the state now or hereafter owned, opened, or dedicated to or for public use and howsoever acquired, and through, over, under, on, or across the streets, alleys, lanes, and roads now or hereafter opened or dedicated to or for public use and howsoever acquired which are now or may be within any county, city, public or municipal corporation, district, or political subdivision of the state.

31206. If any property belonging to any county, city, public or municipal corporation, district, or political subdivision of the state, is taken for the acquisition or construction of the toll tunnel, or if any such property is injured or damaged by such acquisition or construction, and the payment of compensation therefor is necessary, proper and necessary compensation therefor as is agreed upon may be paid by the authority to the particular county, city, public or municipal corporation, district, or political subdivision of the state owning or in charge of such property, or the authority may direct that eminent domain proceedings be brought pursuant to this article for the determination of such compensation, including the

determination of the interest of any such county, city, public or municipal corporation, district, or political subdivision in such property and the necessity for the payment of such compensation.

Whenever the authority requires a public utility to remove and relocate any utility facility, the authority shall reimburse the owner of the public utility facility for the expense of the removal and relocation.

31207. In all cases where, by statute or otherwise, any right is reserved or granted to the state or any state agency to construct or maintain highways, bridges, or approaches thereto, or other highway crossings, over, through, under, on, or across any public or private property, the authority is entitled to the benefit of such reservation or grant.

31208. Whenever any property acquired for any of the purposes of this chapter, whether by agreement, grant, or eminent domain, either in fee or in any lesser estate or interest, is no longer necessary for use in connection with any improvement authorized to be constructed pursuant to this chapter, or whenever a lesser interest than is owned therein is sufficient for the construction, maintenance, and operation of any improvement, or whenever it is for any other reason in the public interest so to do, the property, any part thereof, or any interest therein may be leased, sold, exchanged, or otherwise disposed of or dealt with by the authority in the manner, upon such terms, and subject to such reservations as it deems necessary or desirable.

31209. Whenever, either before or after the construction or reconstruction of streets, sidewalks, or other like facilities upon any property or interest in property acquired pursuant to this chapter, it appears desirable to dedicate the property to public use for such purpose, the authority may dedicate or transfer the property to any county, city, or other public or municipal corporation within which it is located, subject, however, to any rights or interests necessary for the proper construction, maintenance, and operation of the toll tunnel which extends through, over, under, on, or across the property.

31210. Any money received for any such property shall be received into the funds for the toll tunnel for which the property was originally acquired.

Article 7. Insurance of Property

31220. When the toll tunnel is being built by the authority, it may carry or cause to be carried such an amount of insurance or indemnity bond as protection against loss or damage as it deems proper.

31221. The authority may carry insurance in such amount as it deems proper to cover any accident or destruction in part or in whole to the toll tunnel until all bonds sold for the acquisition or construction of such toll tunnel and interest accrued thereon have been fully redeemed and paid.

31222. All money collected on any indemnity bond or insurance policy as the result of any damage or injury to the toll tunnel shall be used for the purpose of repairing or rebuilding the toll tunnel, as long as there are revenue bonds against such structure outstanding and unredeemed.

31223. The authority may also carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from the toll tunnel by reason of any interruption in the use of the toll tunnel from any cause whatever. The proceeds of the insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the toll tunnel so insured are required to be paid and shall be applied to the same purposes and in the same manner as other money in the fund. The insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of the toll tunnel during any period of time determined by the authority and fixed in its discretion, and may be paid for out of the toll revenue fund as specified in the proceedings.

Article 8. Local Cooperation

31230. Any city, county, district, or political subdivision of the state upon the request of the authority may advance or contribute money, rights-of-way, labor, materials, and other property toward the expense of building, acquiring, and maintaining the toll tunnel, and for preliminary surveys and the preparation of plans and estimates of cost thereof and other preliminary expenses. Appropriations for such purposes may be made from any funds available, including highway funds received from the state.

31231. Any city, county, district, or political subdivision of the state may issue general obligation bonds for any of the purposes enumerated in this article. All proceedings for the authorization, issue, and sale of such bonds shall be had under the law governing the issue and sale of bonds for public improvements by the particular political subdivision or public corporation.

31232. Money or property advanced or contributed pursuant to this article may be immediately transferred or delivered to the authority to be used for the purpose for which such advance or contribution was made.

31233. The authority may enter into a binding agreement with any city, county, district, or political subdivision of the state to repay any money or the value of any rights-of-way, labor, materials, or other property advanced or contributed toward the expense of acquiring or constructing the toll tunnel, but no repayment therefor shall be made until all obligations issued by the authority for the construction of such toll tunnel have been fully redeemed and paid, and then only out of the tolls and revenues received from the operation of the toll tunnel.

31234. The collection of tolls shall be continued on the toll tunnel until all bonds issued pursuant to this chapter for its construction are fully redeemed and paid.

31235. After all bonds issued pursuant to this chapter for the construction of the toll tunnel have been fully redeemed and paid, the authority may continue to collect tolls and other revenues for the use of such toll tunnel for the purpose of reimbursing the state for any expenditures which have been made by it in connection with the toll tunnel and for the purpose of repayment to any city, county, district, or political subdivision of the state of any amount the authority has agreed to repay for money, rights-of-way, labor, materials, or other property advanced or contributed for the acquisition or construction of the toll tunnel.

Article 9. State Cooperation

31240. The California Highway Commission and the Department of Public Works shall, upon the request of the authority, aid in the construction of any necessary connections with U.S. Highway 50.

Article 10. Operation and Maintenance After Retirement of Bonds

31245. After all bonds issued pursuant to this chapter for the construction of the toll tunnel have been fully redeemed and paid, the authority shall either:

(a) Transfer the toll tunnel to the state for operation and maintenance as a state highway by the department, either free of tolls or at the rates of tolls adjusted so as to provide a fund of not to exceed the amount necessary for the proper maintenance, repair, and operation of the toll tunnel under economical management; or

(b) Operate and maintain the toll tunnel itself, either free of tolls or at rates of toll adjusted so as to provide a fund of not to exceed the amount necessary for the proper maintenance, repair, and operation of the toll tunnel under economical management.

31246. If the toll tunnel is transferred to the state pursuant to subdivision (a) of Section 31245, the existence of the authority shall thereupon automatically terminate, and all property, funds, and records relating to the toll tunnel shall be transferred to the state and thereafter the state shall be responsible for the maintenance, repair, and operation of the toll tunnel, and for the fulfillment of any outstanding contracts executed by the authority and the payment of any outstanding debts or liabilities incurred by the authority.

CHAPTER 924

An act to amend Sections 66604 and 66632 of the Government Code, relating to San Francisco Bay Conservation and Development Commission.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 66604 of the Government Code is amended to read:

66604. The Legislature further finds and declares that in order to protect the present shoreline and body of the San Francisco Bay to the maximum extent possible, it is essential that the commission be empowered to issue or deny permits, after public hearings, for any proposed project that involves placing fill in the bay or extracting submerged materials from the bay.

SEC. 2. Section 66632 of the Government Code is amended to read:

66632. (a) During the existence of the San Francisco Bay Conservation and Development Commission, any person or governmental agency wishing to place fill in the bay or to extract submerged materials from the bay shall secure a permit from the commission. For purposes of this section, "fill" means earth or any other substance or material, including pilings or structures placed on pilings, which pilings were not in existence on the effective date of this title. For the purposes of this section "materials" means items exceeding twenty dollars ($20) in value.

(b) Whenever a permit is required by a city or county an applicant for a permit shall file an application with the city council of the city if the proposed project is located in incorporated territory, or the board of supervisors of the county, if the proposed project is located in unincorporated territory. The city council or the board of supervisors, as the case may be, shall investigate the proposed project and shall file a report thereon with the commission within 90 days after the application is filed with it.

Whenever a permit is not required by a city or county, application for a permit shall be made directly to the commission.

(c) Upon receipt of the report from the city council or the board of supervisors, as the case may be, or, if the city council or the board of supervisors does not file a report with the commission within the 90-day period, upon the expiration of such 90-day period, or upon receipt of an application for a permit made directly to it, the commission shall hold a public hearing or hearings as to the proposed project and conduct such further investigation as it deems necessary. The commission shall give full consideration to the report of the city council or board of supervisors.

(d) The commission shall take action upon the application for the permit, either denying or granting the permit, within 60 days after it receives the report; or, if the city council or the board of supervisors did not file a report with the commission within the 90-day period, within 60 days after the expiration of such 90-day period; or if an application for a permit was made directly to the commission, within 60 days after it receives the application. The permit shall be automatically granted if the commission shall fail to take specific action either denying or granting the permit within the time period specified in this section. A permit may be granted for a project if the project is either (1) necessary to the health, safety or welfare of the public in the entire bay area, or (2) of such a nature that it will not adversely affect the comprehensive plan being prepared. Thirteen affirmative votes of members of the commission are required to grant a permit. Neither of the federal representatives who are members of the commission may vote on whether or not a permit shall be granted.

The commission shall provide by regulation for the issuance of permits by the executive director, without compliance with the above procedure, in cases of emergency or for minor repairs or improvement.

(e) If the commission denies the permit, the applicant may submit another application for the permit directly to the commission after 90 days from the date of such denial.

(f) If, prior to the effective date of this section, any person or governmental agency has already obtained a permit from the appropriate local body to place fill in the bay or to extract submerged materials from the bay, application may be made directly to the San Francisco Bay Conservation and Development Commission and the permit from the local body shall constitute the report of the local body.

CHAPTER 925

An act to amend Sections 7736 and 7737 of, and to add Section 7737.5 to, the Business and Professions Code, and to amend Section 11158 of the Welfare and Institutions Code, relating to trusts for funeral, cremation or interment expenses.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 7736 of the Business and Professions Code is amended to read:

7736. For the purposes of this article the term "trustee" shall mean any banking institution or trust company legally authorized and empowered by the State of California to act as

trustee in the handling of trust funds or not less than three persons one of whom may be an employee of the funeral director; the word "trustor" shall mean any person who pays the money or deposits the securities used for such preneed arrangements; the term "beneficiary" shall be the person for whom such fund was established; the words "corpus of the trust" shall include all moneys paid and securities delivered pursuant to the provisions of the article other than the amount paid as a trustees' fee.

SEC. 2. Section 7737 of the Business and Professions Code is amended to read:

7737. An act to amend Sections 2104, 2107, 2110, and 2152 of, and to add Section 2110.5 to, the Streets and Highways Code, relating to city streets and county roads.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 2104 of the Streets and Highways Code is amended to read:

2104. A sum equal to the net revenue derived from 1.625 cents ($0.01625) per gallon tax under the Motor Vehicle Fuel License Tax Law shall be apportioned among the counties, as follows:

(a) Each county shall be paid one thousand six hundred sixty-seven dollars ($1,667) during each calendar month, which amount shall be expended exclusively for engineering costs and administrative expenses in respect to county roads.

(b) A sum equal to the total of all reimbursable snow removal costs filed pursuant to subdivision (d) of Section 2152, or one million dollars ($1,000,000), whichever is less, shall be apportioned in 12 approximately equal monthly apportionments for snow removal on county roads as provided in Section 2110.

(c) A sum equal to five hundred thousand dollars ($500,000) shall be apportioned in 12 approximately equal monthly apportionments, as provided in Section 2110.5.

(d) Seventy-five percent (75%) of the funds payable under this section shall be apportioned among the several counties monthly in the respective proportions that the number of fee-

paid and exempt vehicles registered, as calculated by the Department of Motor Vehicles pursuant to Section 4004.5 of the Vehicle Code, in each county bears to the total number of fee-paid and exempt vehicles registered in the state during the 12 calendar months covered by the 12 verified statements of registrations last filed with the State Controller, as herein provided, prior to the making of such apportionment.

For purposes of apportionment under this subdivision, the Department of Motor Vehicles shall, as soon as possible after the last day of each calendar month, furnish to the State Controller a verified statement showing the number of fee-paid and exempt vehicles registered in each county and in the state during the preceding calendar month.

(e) Of the remaining moneys payable there shall be paid to each eligible county an amount monthly computed, as follows: The number of miles of maintained county road in each county shall be multiplied by forty-two dollars ($42); from the resultant amount there shall be deducted the amount received by each county under subdivision (d) of this section and the remainder, if any, shall be paid to each county.

(f) The remaining moneys payable after the foregoing apportionments shall be apportioned among the several counties in the same proportion as the moneys referred to in subdivision (d) of this section.

SEC. 2. Section 2107 of the Streets and Highways Code is amended to read:

2107. A sum equal to 72.5 percent of one cent ($0.00725) per gallon tax under the Motor Vehicle Fuel License Tax Law shall be apportioned monthly to the cities and cities and counties of this state from the Highway Users Tax Fund as provided in this section.

From such amount, the Controller shall allocate annually to each city which has filed a report containing the information prescribed by subdivision (c) of Section 2152 and which had expenditures in excess of five thousand dollars ($5,000) during the preceding fiscal year for snow removal, an amount equal to one-half of the amount of its expenditures for snow removal in excess of five thousand dollars ($5,000) during such fiscal year.

The balance of such apportionments from the Highway Users Tax Fund shall be made to each city, including city and county, in the proportion that the total population of such city bears to the total population of all cities in this state. For the purpose of this section the population in each city is that determined by the last preceding federal census. In the case of a city incorporated subsequent to the last census, or in the case of inhabited unincorporated territory being annexed to a city subsequent to the last census, the Controller shall ascertain the population of the city, or of the annexed territory, by multiplying the number of registered electors therein by three or, at the election of the city, the population

of annexed territory may be ascertained pursuant to Section 2107.2. In the case of uninhabited unincorporated territory being annexed to a city subsequent to the last census, the Controller shall ascertain the population of the annexed territory, by the use of any federal decennial or special census or an estimate pursuant to Section 2107.2 by which the population of the annexed territory was counted, or, if no such other estimate or census was made, by multiplying the number of registered electors therein by three two years after the completion of annexation proceedings or at such earlier time as the legislative body may request.

SEC. 3. Section 2110 of the Streets and Highways Code is amended to read:

2110. The moneys payable to the counties under subdivision (b) of Section 2104 shall be apportioned monthly among the several counties as follows:

A sum equal to the total of all reimbursable snow removal costs filed pursuant to subdivision (d) of Section 2152, or one million dollars ($1,000,000), whichever is less, shall be apportioned in 12 approximately equal monthly apportionments for snow removal on county roads as follows:

If such total is less than one million dollars ($1,000,000), the full amount of such reimbursable snow removal costs shall be apportioned to the several counties in an amount equal to that computed pursuant to subdivision (d) of the report filed by each such county pursuant to Section 2152.

If such total is one million dollars ($1,000,000) or more, each fiscal year the Controller shall compute percentages for the apportionment of one million dollars ($1,000,000) to the several counties in the state for snow removal on county roads, including the purchase of snow removal equipment therefor, and shall apportion such amount to the counties in the computed percentages. The percentage each county is to be apportioned during such fiscal year shall be derived by adding its reimbursable snow removal expenditures for the three preceding fiscal years as to which the Controller has received snow removal expenditure reports pursuant to Section 2152, and dividing the sum by the total amount of reimbursable snow removal expenditures by all counties in the state during said fiscal years.

On or before the first day of March of each year, the Controller shall notify each county of the amount apportioned to it pursuant to this section for expenditure for snow removal on county roads during the following fiscal year.

SEC. 4. Section 2110.5 is added to the Streets and Highways Code, to read:

An act to amend Sections 20021.5, 20022, and 20023 of, and to add Section 20023.1 to, the Education Code, relating to junior college construction, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 1, 1968 Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 20021.5 of the Education Code is amended to read:

20021.5. "Federal funds" means construction and equipment moneys provided by the federal government to a junior college district for a project or any part of a project, which are or will be available to the district under the Higher Education Facilities Act of 1963 (Public Law 88-204), the Vocational Education Act of 1963 (Public Law 88-210), the National Defense Education Act of 1958 (Public Law 85-864), the Higher Education Act of 1965 (Public Law 89-329), and Public Law 815 entitled "School Facilities-Areas Affected by Federal Activities."

SEC. 1.5. Section 20022 of the Education Code is amended to read:

20022. "District entitlement" shall be computed for each junior college district for the 1967–1968 fiscal year based upon estimated growth in weekly student contact hours during that year. The entitlement shall be computed by multiplying one-half of the "average cost of providing junior college facilities" for the district by the "relative district ability," multiplying this product by the "growth in weekly student contact hours" of "resident students" for the district for the fiscal year, which shall be called the minimum district share, and this minimum district share shall be subtracted from the "cost of

providing junior college facilities" for the district. The remainder shall be called the district entitlement.

SEC. 2. Section 20023 of the Education Code is amended to read:

20023. "District entitlement" shall be computed for each junior college district beginning with the 1968–69 fiscal year based upon the estimated growth in weekly student contact hours during that year. The entitlement shall be computed by multiplying one-half of the "average cost of providing junior college facilities" for the district by the "relative district ability," multiplying this product by the "growth in weekly student contact hours," of "resident students" for the district for the fiscal year, which shall be called the minimum district share, and shall be subtracted from the "cost of providing junior college facilities" for the district, which remainder shall be called the district entitlement.

SEC. 2.5. Section 20023.1 is added to the Education Code, to read:

20023.1. For fiscal years 1967–68 and 1968–69, the Department of Finance shall determine the total cost of each project based on appropriate costs for the type and scope of such project, or any part thereof as included in the application for each of such fiscal years.

If federal funds as defined in Section 20021.5 are granted to a district for a project for fiscal years 1967–68 or 1968–69, the total cost of the project as determined by the Department of Finance shall be reduced by the amount of such grant in each of such fiscal years. The remainder shall be used in the computation of the ratio of state funds to local property tax funds pursuant to Section 20022 or 20023, or Section 20043 in the event of accumulated district entitlement.

SEC. 3. This act shall be given retroactive effect, and shall be construed, interpreted and applied, and shall for purposes of the computation of the district's share by the Department of Education be deemed to authorize the computation of such district's share from and after June 30, 1967, according to the provisions of this act.

There is hereby appropriated from the State Construction Program Fund to the Board of Governors of the California Community Colleges, in augmentation of the appropriation made by Item 369 of the Budget Act of 1968 and for the purposes specified in Section 2.4 and Item 369 of the Budget Act of 1968, the sum of one million six hundred twenty-five thousand dollars ($1,625,000), or so much thereof as may be necessary for such purposes. Such moneys shall be allocated for expenditure in augmentation of the amounts provided for the eligible projects enumerated in Item 369 pursuant to agreement between the Department of Finance and the Board of Governors of the California Community Colleges; provided that any undistributed amounts remaining from this appropriation, plus any return of state funds realized from projects enumerated in Item 332 of the Budget Act of 1967,

shall revert to the unappropriated balance of the State Construction Program Fund on June 30, 1969.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Confusion exists on the present state of the law with respect to computations of the districts' share under the Junior College Construction Act. In order to clarify such situation before such act expires on July 1, 1968, it is necessary that this act go into immediate effect.

CHAPTER 934

An act to add Chapter 9 (commencing with Section 1900) to Division 2.5 of the Welfare and Institutions Code, relating to juveniles, and making an appropriation therefor.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 9 (commencing with Section 1900) is added to Division 2.5 of the Welfare and Institutions Code, to read:

CHAPTER 9. YOUTH SERVICE BUREAUS

1900. The Legislature hereby finds that delinquency prevention efforts must be concentrated at the local level to be meaningful and effective, and that while sufficient services and resources already exist in most California communities to wage a highly effective battle against delinquency, such services and resources are badly in need of coordination.

It is the intent of this act to explore the use of a program which would allow local delinquency prevention services and resources to operate within a single facility and organizational structure as a means to (a) provide needed coordination of efforts, and (b) reduce the incidence of delinquency in selected project areas.

1901. Pursuant to the provisions of this chapter, county delinquency prevention commissions may assist in the establishment of one or more youth service bureaus in a county in order to provide a wide range of services and continuity of treatment for individual youths and to eliminate duplication of delinquency-prevention efforts in a community.

1902. In order to promote the development of youth service bureaus under this chapter, the California Delinquency Prevention Commission shall select no more than four communities in the state for the establishment of pilot youth service bureau programs. The California Delinquency Prevention Commission may use the staff and services of the Division of Delinquency Prevention of the Department of the Youth Authority in selecting such communities. It shall also be the responsibility of the California Delinquency Prevention Commission, working in cooperation with local county delinquency prevention commissions, to set standards for this program and to establish guidelines for proposals to be submitted for funding under this chapter.

This program of pilot projects shall terminate on the 61st day after adjournment of the 1971 Regular Session of the Legislature.

The California Delinquency Prevention Commission shall submit annual reports to the Legislature on the progress of the Youth Service Bureau pilot projects. Such reports should

be made within 30 days after the commencement of each year's regular session. The first such report shall be made to the 1970 session. A final report shall be submitted to the 1972 session.

1903. A youth services coordinator shall be in charge of each youth service bureau. A coordinator shall be hired by the county delinquency prevention commission.

1904. To further the development of a youth service bureau, it shall be the duty of a coordinator under this chapter to reconcile, unify, clarify and make known the activities of all persons and public and private agencies and organizations in the field of delinquency prevention in the community. Accordingly, he shall call meetings of all such persons representative of such agencies and organizations in the community, including judges of the juvenile court, the chief probation officer, the local heads of public agencies for recreation, welfare, health, schools, employment, and law enforcement, and representatives from private organizations, religious groups, and ethnic minority groups involved in delinquency prevention, in order to:

(a) Determine the extent to which various departments, agencies, and organizations may wish to cooperate in a common effort and coordinate their existing programs, as well as develop new programs using the unique opportunities presented by a multiservice approach.

(b) Develop necessary formal agreements, including joint exercise of powers agreements.

(c) Consider and finalize a choice for the best possible location for a youth service bureau and the provision of necessary equipment.

A permanent managing board, to be appointed by the county delinquency prevention commission, shall be responsible for overall policy and direction of the youth service bureau project. Such board should include the chairman of the local county delinquency prevention commission, one person from each public agency or department and private organization participating in the project, and residents from the area served. Further, if there exists in the community a community coordinating council, such council should also have one representative on the managing board.

It shall be the duty of a youth services coordinator under this chapter to serve as executive officer for the managing board.

It shall also be the duty of the coordinator to seek additional funds and resources to carry out the purposes of this program, and to initiate, where feasible, other special projects in delinquency prevention, utilizing and coordinating existing resources within the community.

1905. There is hereby appropriated from the General Fund to the Department of the Youth Authority the sum of one hundred thousand dollars ($100,000) to defray expenses, including the salaries of coordinators, incurred under the pilot program established in Section 1902.

CHAPTER 935

The rate of compensation for such medical treatment and confinement within a California state prison or correctional facility shall be established by the Department of Corrections of this state and shall be a charge against the county making the request for such treatment and confinement.

In permitting a transit district to impose the tax permitted by this act, it is necessary that this act be by means of a general authorization in order that desired facilities will be provided in an orderly manner and at a time when the areas throughout the state involved need the facilities and will be able to pay for them.

(c) The price received for labor or services used in installing or applying the property sold.

(d) The amount of any tax (not including, however, any manufacturers' or importers' excise tax) imposed by the United States upon or with respect to retail sales whether imposed upon the retailer or the consumer.

The "sales tax reimbursement schedule" shall be available for inspection and duplication or reproduction.

Each retailer who collects amounts from a consumer in reimbursement of the sales tax shall use the appropriate schedule prepared by the board in computing the amount of the reimbursement, based upon the sales price of the item sold where one item is sold, and where more than one item is sold in any one transaction, upon the sum of the aggregate sales prices of the items sold, or he shall include in the sales price of each item an amount of reimbursement computed to the nearest mill at the applicable tax rate and post a notice in his premises stating that each posted or advertised price includes reimbursement so computed. When both taxable and

nontaxable items are included in the same transaction, the foregoing requirement regarding computation of tax reimbursement upon the sum of the aggregate sales prices shall apply only if the purchaser requests at the time of the sale that the computation be made in this way.

Current and prior service pensions of such members retired prior to the effective date shall be continued in accordance with the provisions of this part (commencing with Section 20000) as they existed on the day preceding the effective date.

The percentage shall be reduced by one-third, as applied to that part of the member's final compensation which does not exceed four hundred dollars ($400) per month for service after the effective date of coverage of a member under the

federal system; provided, however, that the retirement allowance of any member who was a law enforcement member on October 1, 1965, and who is subject to such reduced percentage, shall not be less than the actuarial equivalent of the retirement allowance he would have received under this section prior to its amendment at the 1965 Regular Session of the Legislature.

SEC. 40. Section 21252.2 of the Government Code is repealed.

SEC. 41. Section 21252.2 is added to the Government Code, to read:

21252.2. The combined current and prior service pension for a warden member or a forestry member other than such warden or forestry member who is subject to the provisions of this part applicable to state miscellaneous members as provided in Section 20014.6 of this code, upon retirement at or after age 60, is a pension derived from contributions of the employer which, when added to that portion of the service retirement annuity which is derived from the accumulated normal contributions of the member, shall equal a percentage of final compensation multipled by the number of years of warden or forestry service, such percentage to be 2½ or, if less, the percentage obtained by division of 50 percent by the difference between age 60 and the member's age at his birthday nearest to the date of his first entry into such service. Any member entering service at or after age 60 shall be deemed, for purposes of this section, to have entered such service at age 59.

This section shall apply only to such members retiring on and after its effective date. Current and prior service pensions of such members retired prior to its effective date shall be continued in accordance with the provisions of this part as they existed on the day preceding such effective date.

SEC. 42. Section 21252.3 of the Government Code is repealed.

SEC. 43. Section 21252.4 of the Government Code is repealed.

SEC. 44. Section 21252.45 of the Government Code is amended to read:

21252.45. The percentage of final compensation, for purposes of calculating the combined prior and current service pensions under Section 21252.1 for a local safety member retiring after the effective date of his coverage under the federal system shall be reduced by one-third as applied to that part of the member's final compensation which does not exceed four hundred dollars ($400) per month.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, or in the case of contracts made after the date this section takes effect, by express provision

in such contract making the contracting agency subject to the provisions of this section.

This section and Section 21252.1 shall supersede Section 21252.5 with respect to all service to a contracting agency electing to be subject hereto; provided, however, that members in employment of such contracting agency on the effective date of the contract amendment subjecting the agency and its employees to this Section 21252.45 may elect, in accordance with board rules, to continue subject to Section 21252.5, and the contracting agency shall be subject to Section 21252.5 rather than this section with respect to members who so elect.

SEC. 45. Section 21252.6 of the Government Code is amended to read:

21252.6. The combined prior and current service pensions for local safety members who are firemen, upon retirement at or after age 50, is a pension derived from the contributions of the employer, which, when added to the service retirement annuity that is derived from the accumulated normal contributions of the member, shall equal a percentage of final compensation multiplied by the number of years of fire service, such percentage to be 2½ or, if less, the percentage obtained by division of 50 percent by the difference between age 50 and the member's age at his birthday nearest to the date of his first entry into such service. Any member entering such service at or after age 50 shall be deemed, for purpose of this section, to have entered such service at age 49.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section and of Section 20952.6 by amendment to its contract made in the manner prescribed for approval of contracts, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

Whenever this section becomes applicable to the employees of any contracting agency, as to those members to whom it applies it shall supersede the provisions of Section 21252.1.

SEC. 46. Section 21252.8 of the Government Code is amended to read:

21252.8. The combined prior and current service pensions for local safety members who are police officers or deputy sheriffs, upon retirement at or after age 50, is a pension derived from the contributions of the employer, which, when added to the service retirement annuity that is derived from the accumulated normal contributions of the member, shall equal a percentage of final compensation multiplied by the number of years of police officer or deputy sheriff service, such percentage to be 2½ or, if less, the percentage obtained by division of 50 percent by the difference between age 50 and the member's age at his birthday nearest to the date of his first entry into such service. Any member entering such

service at or after age 50 shall be deemed, for purpose of this section, to have entered such service at age 49.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section and of Section 20952.8 by amendment to its contract made in the manner prescribed for approval of contracts, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

CHAPTER 942

An act to add Chapter 12.5 (commencing with Section 7800) to Division 3 of the Business and Professions Code, relating to the registration and regulation of geologists, creating the State Board of Registration for Geologists, prescribing its organization, powers and duties, and making an appropriation therefor.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. This chapter is enacted in order to introduce qualifying criteria in a presently unregulated professional field. Such action recommends itself through benefits to the safety, health, and property of the people of California and to the promotion of the public welfare. These benefits are in the fields of geology as related to engineering, ground water, mineral exploration and development, geologic hazards, the further development of the science of geology, and other geologic matters of concern to the people of the state.

SEC. 3. Chapter 12.5 (commencing with Section 7800) is added to Division 3 of the Business and Professions Code, to read:

CHAPTER 12.5. GEOLOGIST

Article 1. General Provisions

7800. This chapter of the Business and Professions Code constitutes the chapter on geologists. It may be cited as the Geologist Act.

7801. "Board," as used in this chapter, means the State Board of Registration for Geologists.

7802. "Geology," as used in this chapter, refers to that science which treats of the earth in general; investigation of the earth's crust and the rocks and other materials which compose it; and the applied science of utilizing knowledge of the earth and its constituent rocks, minerals, liquids, gases and other materials for the benefit of mankind.

7803. "Geologist," as used in this chapter, refers to a person engaged in the practice of geology.

7804. Only a person registered under the provisions of this chapter shall be entitled to take and use the title "registered geologist." Only a person registered and certified under the provisions of this chapter shall be entitled to take and use the title of a registered certified specialty geologist.

7805. The term "responsible charge of work" means the independent control and direction by the use of initiative, skill and independent judgment of geological work or the supervision of such work.

7806. A subordinate is any person who assists a registered geologist in the practice of geology without assuming the responsible charge of work.

7807. A qualified geologist is a person who possesses all the qualifications specified in Section 7841 for registration except that he is not registered.

Article 2. Administration

7810 The State Board of Registration for Geologists is within the department and is subject to the jurisdiction of the department. The board shall consist of seven members appointed by the Governor, one of whom shall be a public member and six of whom shall be geologists.

7811. Each member of the board shall be a citizen of the United States, shall be at least 30 years of age, and shall have been a resident of this state for at least five years immediately preceding his appointment. Each of the first appointed geologist members of the board shall have at least 12 years' active experience and shall be a qualified geologist; each subsequent geologist member of the board shall be a geologist registered under this chapter. The initial board shall include not less than two engineering geologists and two petroleum geologists.

7812. For administrative purposes, and for the purposes of appointment to the board, the state is divided into administrative districts constituted by combining counties and designated by numbers, as follows:

(a) Administrative District No. 1, comprising the following counties: Del Norte, Siskiyou, Modoc, Humboldt, Trinity, Shasta, Lassen, Mendocino, Tehama, Plumas, Glenn, Butte, Sierra, Lake, Colusa, Sutter, Yuba, Nevada, Yolo, Sacramento, Placer, El Dorado, San Joaquin, Amador, Calaveras and Alpine.

(b) Administrative District No. 2, comprising the following counties: Marin, Sonoma, Napa, Solano, Contra Costa, Alameda, Santa Clara, Santa Cruz, San Mateo and San Francisco.

(c) Administrative District No. 3, comprising the following counties: Stanislaus, Tuolumne, Mono, Merced, Mariposa, Madera, Fresno, Inyo, Kings, Tulare and Kern.

(d) Administrative District No. 4, comprising the following counties: San Benito, Monterey, San Luis Obispo, Santa Barbara and Ventura.

(e) Administrative District No. 5, comprising the following counties: Los Angeles, Orange, San Diego, San Bernardino, Riverside and Imperial.

7813. The six geologist members of the board shall be appointed by administrative districts as follows:

(a) One member from each of Administrative Districts 1, 2, 3 and 4.

(b) Two members from Administrative District 5.

As each geologist member's term expires, his place shall be filled by the appointment of a registered geologist whose principal office for the practice of geology is in the same administrative district as the person in the expiring term.

The public members of the board may reside anywhere in the state.

7814. The terms of the members of the board first appointed shall expire as follows: three members, January 1, 1970; three members, January 1, 1971; and three members, January 1, 1972. Thereafter appointments shall be for a four-year term. Each member shall hold office until the appointment and qualification of his successor or until six months shall have elapsed since the expiration of the term for which he was appointed, whichever first occurs. Vacancies occurring prior to the expiration of the term shall be filled by appointment for the unexpired term.

No person shall serve as a member of the board for more than two consecutive terms.

7815. Each member of the board shall receive a per diem and expenses as provided in Section 103.

7816. The board shall meet annually and at such other times as it may determine.

7817. Five members of the board shall constitute a quorum for the transaction of business.

7818. The board, pursuant to the provisions contained in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, may adopt,

amend or repeal rules and regulations to carry out the provisions of this chapter.

7819. Except as otherwise provided by law, all records of the board shall be open to inspection by the public during regular office hours.

7820. The board shall have and use a seal bearing the name "State Board of Registration for Geologists."

7821. The board shall prepare annually a list of the names and addresses of every person who is registered by it and a list of every person whose registration has been suspended or revoked within the previous year. Such lists shall be mailed to the county clerks of each county and shall be held by him as a public record.

7822. The board may, by regulation, provide for the division of the certification of registration into different specialties, including, but not limited to, petroleum, mining, and ground water, and may issue certificates in one or more of the specialties in which the applicant demonstrated proficiency. The board shall provide such a certificate for those qualified in engineering geology.

7823. The board shall have the authority to appoint committees as required or as deemed advisable to perform such duties as the board may direct. Such committees shall be composed of registered geologists, except that until the first anniversary of the effective date of this chapter qualified geologists may serve.

Membership on all such committees is at the pleasure of the board.

No member of any such committee shall receive any other compensation than his necessary expenses, as approved by the board, connected with the performance of his duties as a member of any such committee.

7824. The board shall establish such professional affairs committees, as needed, to represent each of the specialties into which the board determines certification of registration may be divided. Each such committee shall establish qualifications, which shall include a written examination, for certification in its specialty, and shall establish a definition of that specialty, subject to approval of the board; and shall advise the board on professional affairs in which the committee is concerned. Membership of each such committee shall be made up exclusively of geologists certified or qualified in the particular specialty involved. Definition of specialties shall be substantially the same as are on the effective date of this chapter in use in local ordinances throughout the state, subject to the approval of the board. Qualifications for certification in a specialty shall be substantially the same as, but no less than, those in existence under local ordinances throughout the state.

7825. The board shall establish relations with bodies which regulate the practice of geology, or closely related geologic disciplines, or which register geologists in the other states, and may establish relations with such bodies in other countries, for

the purposes of working toward (1) uniformly high professional standards and (2) mutual recognition of registration.

Article 3. Scope of Regulation

7830. After December 31, 1969, it is unlawful for anyone other than a geologist registered under this chapter to stamp or seal any plans, specifications, plats, reports, or other documents with the seal or stamp of a registered geologist or registered certified specialty geologist, or to use in any manner the title "registered geologist" or the title of any registered certified specialty geologist unless registered, or registered and certified, hereunder.

7831. It is unlawful for anyone to stamp or seal any plans, specifications, plats, reports, or other documents with the seal after the certificate of the registrant, named thereon, has expired or has been suspended or revoked, unless the certificate has been renewed or reissued.

7832. Any person, except as in this chapter specifically exempted, who shall practice or offer to practice geology for others in this state is subject to the provisions of this chapter.

7833. This chapter does not prohibit one or more geologists from practicing through the medium of a sole proprietorship, partnership, or corporation. In a partnership or corporation whose primary activity consists of geological services, at least one partner or officer shall be a registered geologist.

7834. This chapter does not prevent or prohibit an individual, firm, company, association or corporation whose principal business is other than the practice of geology from employing a geologist to perform professional services in geology incidental to the conduct of their business.

7835. All geologic plans, specifications, reports or documents shall be prepared by a registered geologist, or registered certified specialty geologist, or by a subordinate employee under his direction. In addition, they shall be signed by him or stamped with his seal, either of which shall indicate his responsibility for them.

7836. Officers and employees of the United States of America practicing solely as such officers or employees are exempt from registration under the provisions of this chapter.

7837. A subordinate to a geologist registered under this chapter, insofar as he acts solely in such capacity, is exempt from registration under the provisions of this chapter. This exemption, however, does not permit any such subordinate to practice geology for others in his own right or to use the title "registered geologist."

7838. A civil engineer empowered to practice civil engineering in this state, and a petroleum engineer registered in this state, under provisions of Chapter 7 (commencing with Section 6700) of Division 3 of this code insofar as they practice civil engineering in its various branches or petroleum engineering, respectively, are exempt from registration under the provisions of this chapter.

7839. This chapter shall not empower a geologist registered under this chapter to practice or offer to practice civil engineering and any of its various recognized branches.

Article 4. Registration

7840. An application for registration as a geologist shall be made to the board on a form prescribed by it and shall be accompanied by the application fee fixed by this chapter.

7841. An applicant for registration as a geologist shall have all the following qualifications:

(a) Be of good moral character.

(b) Meet one of the following educational requirements fulfilled at a school or university whose geological curricula meet criteria established by rules of the board:

(1) Graduation with a major in geology.

(2) Completion of 30 semester units in geological science courses leading to a major in geology, of which at least 24 units are in the third or fourth year, or graduate courses.

(c) Have at least seven years of professional geological work which shall include either a minimum of three years of professional geological work under the supervision of a registered geologist or a registered civil or petroleum engineer, except that prior to January 1, 1970, professional geological work shall qualify under this subdivision if it is under the supervision of a qualified geologist or a registered civil or petroleum engineer, or a minimum of five years' experience in responsible charge of geological work.

Each year of undergraduate study in the geological sciences shall count as one-half year of training up to a maximum of two years, and each year of graduate study or research counts as a year of training.

Teaching in the geological sciences at college level shall be credited year for year toward meeting the requirement in this category, provided that the total teaching experience includes six semester units of third or fourth year or graduate courses.

Credit for undergraduate study, graduate study, and teaching, individually, or in any combination thereof, shall in no case exceed a total of four years towards meeting the requirement for at least seven years of professional geological work as set forth above.

The ability of the applicant shall have been demonstrated by his having performed the work in a responsible position, as the term "responsible position" is defined in regulations adopted by the board. The adequacy of the required supervision and experience shall be determined by the board in accordance with standards set forth in regulations adopted by it.

(d) Successfully pass a written examination.

7842. An applicant for certification in a specialty shall meet all of the requirements of Section 7841 and, in addition, his

seven years of professional geological work shall include one of the following:

(a) A minimum of three years performed under the supervision of a geologist registered in the specialty for which he is seeking certification or under the supervision of a registered civil engineer if the applicant is seeking registration as an engineering geologist or under the supervision of a registered petroleum engineer if the applicant is seeking registration as a petroleum geologist, except that prior to January 1, 1970, professional geological work shall qualify under this subdivision if it is performed under the supervision of a geologist qualified in the specialty for which the applicant is seeking certification or under the supervision of a registered civil engineer if the applicant is seeking registration as an engineering geologist or under the supervision of a registered petroleum engineer if the applicant is seeking registration as a petroleum geologist.

(b) A minimum of five years' experience in responsible charge of geological work in the specialty for which the applicant is seeking certification.

7843. The board shall waive the examination requirement for registration as a geologist or for registration as a geologist and certification in a specialty for one who complies with the following:

(a) Who makes written application to the board under this section not later than one year following the effective date of this chapter.

(b) Who complies with the provisions of subdivisions (a), (b), and (c) of Section 7841.

7844. Examination for registration shall be held at the times and places within the state as the board shall determine. The scope of examinations and the methods of procedure may be prescribed by rule of the board.

7845. Examinations shall test the applicant's knowledge basic to geology and his ability to apply that knowledge and to assume responsible charge in the professional practice of geology or a certified specialty geology, or both geology and a certified specialty geology.

7846. An applicant failing in an examination may be examined again upon filing a new application and the payment of the application fee fixed by this chapter.

7847. The board, upon application therefor, on its prescribed form, and upon the payment of the application and registration fees fixed by this chapter, which fees shall be retained by the board, may issue a certificate of registration as a geologist, without written examination, to any person holding a certificate of registration issued to him by any state or country when the applicant's qualifications meet the other requirements of this chapter and the rules established by the board.

7847.5. The board, upon application therefor on its prescribed form, and upon the payment of the application and registration fees fixed by this chapter, which fees shall be retained by the board, may issue a certificate of registration as

a geologist, without written examination, to any person who meets the requirements of subdivisions (a) and (b) of Section 7841 and who has at least 14 years of professional geological work, which shall include either a minimum of three years of professional geological work under the supervision of a registered or qualified geologist or a registered civil or petroleum engineer, or a minimum of five years' experience in responsible charge of geological work.

The ability of the applicant shall have been demonstrated by his having performed the work in a responsible position, as the term "responsible position" is defined in regulations adopted by the board. The adequacy of the required supervision and experience shall be determined by the board in accordance with standards set forth in regulations adopted by it.

7848. A temporary authorization for the practice of geology or a certified specialty geology, or both geology and a certified specialty geology, may be granted, for a specific project, upon application and payment of the fee prescribed in Section 7887 for a period not to exceed 60 consecutive days in any calendar year; provided:

(a) He maintains no office for the practice of geology or a certified specialty geology, or both geology and a certified specialty geology, other than for the authorized project, in this state.

(b) He is qualified to practice geology or a certified specialty geology, or both geology and a certified specialty geology for others, and is not legally prohibited from so doing, in the state or country where he maintains an office for such practice.

(c) The applicant demonstrates by means of an individual appearance before the board, or before a committee appointed by the board for such purpose, satisfactory evidence of adequate knowledge in that phase of geology for which the applicant proposes to practice under the temporary authorization.

(d) If the applicant can satisfy the board that the completion of the specific project for which the authorization is granted will require more than 60 consecutive calendar days, the board may extend the authorization to a period not to exceed a total of 120 days.

Upon completion of these requirements as necessary, the secretary on direction of the board shall issue a temporary authorization to the applicant.

7849. In determining the qualifications of an applicant for registration or authorization, a majority vote of the board is required.

7850. Any applicant who has passed the examination and has otherwise qualified hereunder as a geologist, upon payment of the registration fee fixed by this chapter shall have a certificate of registration issued to him as a geologist.

A certificate of registration for a geologist shall be signed by the president and secretary and issued under the seal of the board.

7851. If an applicant for registration as a geologist is found by the board to lack the qualifications required for admission to the examination for such registration, the board shall, notwithstanding the provisions of Section 158 of this code, refund to him one-half of the amount of his application fee.

7852. Each geologist registered under this chapter may, upon registration, obtain a seal of the design authorized by the board bearing the registrant's name, number of his certificate, and the legend "registered geologist."

7853. A duplicate certificate of registration to replace one lost, destroyed, or mutilated may be issued subject to the rules and regulations of the board. The duplicate certificate fee fixed by this chapter shall be charged.

7854. An unsuspended, unrevoked and unexpired certificate and endorsement of registry made under this chapter is presumptive evidence in all courts and places that the person named therein is legally registered.

7855. Any applicant who is denied registration or authorization shall, in writing, be so notified and informed of the reason therefor. Within 30 days after receipt of notice, such applicant may make written request to the board for a hearing which, if granted, shall be conducted as specified in Section 7861.

Article 5. Disciplinary Proceedings

7860. The board may receive and investigate complaints against registered geologists, and persons granted temporary authorizations pursuant to Section 7848, and make findings thereon.

By a majority vote, the board may reprove, privately or publicly, or may suspend for a period not to exceed two years, or may revoke the certificate of any geologist registered hereunder, or may reprove, privately or publicly, or revoke the authorization granted to any person pursuant to Section 7848:

(a) Who has been convicted of a felony, arising from or in connection with the practice of geology, or of a crime involving moral turpitude.

(b) Who has not a good character.

(c) Who has committed any deceit, misrepresentation, violation of contract, fraud or incompetency in his practice.

(d) Who has committed any fraud or deceit in obtaining his certificate.

(e) Who aids or abets any person in the violation of any provisions of this chapter.

(f) Who violates any provision of this chapter.

7861. The proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

7862. The board may reissue a certificate of registration, certification, or authority, to any person whose certificate has

been revoked if a majority of the members of the board vote in favor of such reissuance for reasons the board deems sufficient.

7863. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge of a felony or a crime involving moral turpitude is deemed to be a conviction within the meaning of this article. The board may order the certificate or authorization suspended or revoked, or may decline to issue a certificate or authorization, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information or indictment.

Article 6. Offenses Against the Chapter

7870. The board shall have the power, duty and authority to investigate violations of the provisions of this chapter.

7871. It shall be the duty of the respective officers charged with the enforcement of laws and ordinances to prosecute all persons charged with the violation of any of the provisions of this chapter.

It shall be the duty of the secretary of the board, under the direction of the board, to aid such officers in the enforcement of this chapter.

7872. Every person is guilty of a misdemeanor and for each offense of which he is convicted is punishable by a fine of not more than five hundred dollars ($500) or by imprisonment not to exceed three months, or by both fine and imprisonment:

(a) Who, unless he is exempt from registration under this chapter, practices or offers to practice geology for others in this state according to the provisions of this chapter without legal authorization.

(b) Who presents or attempts to file as his own the certificate of registration of another.

(c) Who gives false evidence of any kind to the board, or to any member thereof, in obtaining a certificate of registration.

(d) Who impersonates or uses the seal of any other practitioner.

(e) Who uses an expired or revoked certificate of registration.

(f) Who shall represent himself as, or use the title of, registered geologist, or any other title whereby such person could be considered as practicing or offering to practice geology for others, unless he is qualified by registration as a geologist under this chapter.

(g) Who manages, or conducts as manager, proprietor, or agent, any place of business from which geologic work is

solicited, performed or practiced for others, unless such work is supervised or performed by a registered geologist.

(h) Who violates any provision of this chapter.

7873. Whenever any person has engaged in or is about to engage in any act or practice which constitutes or which, in the opinion of the board, will constitute an offense against this chapter, the superior court of the county in which the offense has occurred or is about to occur, on application of the board, may issue an injunction or other appropriate order restraining such act or practice.

The proceedings authorized by this section shall be in accordance with the provisions contained in Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that no undertaking or bond shall be required.

Article 7. Revenue

7880. A certificate of registration as a geologist expires at 12 p.m. on June 30 of each even-numbered year, if not renewed. To renew an unexpired certificate, the certificate holder shall, on or before June 30, of each even-numbered year, apply for renewal on a form prescribed by the board, and pay the renewal fee prescribed by this chapter.

7881. Except as otherwise provided in this article, certificates of registration as a geologist may be renewed at any time within five years after expiration on filing an application for renewal on a form prescribed by the board and payment of the renewal fee in effect on the last preceding regular renewal date. If the certificate is renewed more than 30 days after its expiration, the certificate holder, as a condition precedent to renewal, shall also pay the delinquency fee prescribed by this chapter. Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee, if any, is paid, whichever last occurs. If so renewed, the certificate shall continue in effect through the date provided in Section 7880 which next occurs after the effective date of the renewal, when it shall expire if it is not again renewed.

7882. A suspended certificate is subject to expiration and shall be renewed as provided in this article, but such renewal does not entitle the holder of the certificate, while it remains suspended and until it is reinstated, to engage in the activity to which the certificate relates, or in any other activity or conduct in violation of the order or judgment by which it was suspended.

7883. A revoked certificate is subject to expiration as provided in this article, but it may not be renewed. If it is reinstated after its expiration, the holder of the certificate, as a condition precedent to its reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last regular date before the date on which it is rein-

stated, plus the delinquency fee, if any, accrued at the time of its revocation.

7884. Certificates of registration as a geologist which are not renewed within five years after expiration may not be renewed, restored, reinstated, or reissued thereafter. The holder of such certificate may apply for and obtain a new certificate, however, if:

(a) He is of good moral character.

(b) No fact, circumstance, or condition exists which, if the certificate were issued, would justify its revocation or suspension.

(c) He takes and passes the examination, if any, which would be required of him if he were then applying for the certificate for the first time.

The board may, by regulation, provide for the waiver or refund of all or any part of the application fee in those cases in which a certificate is issued without an examination pursuant to the provisions of this section.

7885. The board shall report each month to the State Controller the amount and source of all revenue received by it pursuant to this chapter and at the same time pay the entire amount thereof into the State Treasury for credit to the Geology Fund, which fund is hereby created.

7886. The money paid into the Geology Fund is continuously appropriated to the board to carry out the provisions of this chapter.

7887. The amount of the fees prescribed by this chapter shall be fixed by the board in accordance with the following schedule:

(a) The fee for filing each application for registration as a geologist at not less than twenty-five dollars ($25) and not more than forty dollars ($40).

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 8 of Chapter 1222 of 1965 is amended to read:

Sec. 8. The provisions of this act shall be operative only until the 61st day after final adjournment of the 1972 Regular Session of the Legislature unless such expiration date is extended by the Legislature. If there is no such extension and this act ceases to be operative, then the agencies and functions which are transferred by this act to the Department of Housing and Community Development shall be retransferred to the agencies from which they were removed and all employees involved shall have the same civil service rights of transfer and return to their original agencies as are provided under the terms of this act.

CHAPTER 945

An act to add Sections 39052.1 and 39083.5 to the Health and Safety Code, relating to air pollution, making an appropriation therefor and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 39083.5 is added to the Health and Safety Code, to read:

39083.5. (a) The board shall establish a statewide one-year exhaust control device testing program so as (1) to improve the state of the art of exhaust emission controls, (2) to ascertain technological feasibility to meet specific standards, (3) to establish that low emission devices are feasible from the standpoint of economy, and (4) to compile information and data on the basis of experience on the use of various types of exhaust emission control devices on motor vehicles. As part of such program, the board shall require the supplier or his agent to install the exhaust control devices of one or more types, and the board

shall, when the supplier or suppliers or their agents are personally present, test, inspect and service the exhaust control devices on not more than 75 new motor vehicles purchased by the state, and operated by the Department of the California Highway Patrol, Department of General Services, and Division of Highways. Not more than 10 motor vehicles operated by the Department of the California Highway Patrol shall be used to test, inspect and service exhaust control devices pursuant to this section.

In case of an emergency, the board may perform the necessary emergency repair work on the devices without the presence of the supplier or his agent, but the board shall forthwith notify the supplier or his agent, orally and in writing, of the nature and extent of the emergency repairs. The board shall permit the supplier or his agent, at the earliest opportunity, to repair or replace the devices without any charge to the state for such repair or replacement, if the supplier or his agent elects to do so.

(b) The board shall adopt standards for exhaust emissions for such motor vehicles and engines, and shall select exhaust control devices which comply with such standards and which are technologically feasible. Exhaust emissions from such motor vehicles and engines shall be at substantially the following levels or as near thereto as it is technologically feasible to attain:

(1) Hydrocarbons—1 gram per vehicle-mile;

(2) Carbon monoxide—15 grams per vehicle-mile;

(3) Oxides of nitrogen—1.5 grams per vehicle-mile.

(c) The test procedure for determining automotive exhaust emissions of hydrocarbons, carbon monoxide and nitrogen oxides pursuant to this section shall be, as follows:

(1) Each vehicle to be tested shall be assessed for weight by adding 400 pounds to the published shipping weight, or, if this is unknown, by adding 300 pounds to actual operational weight unladen. Dynamometers shall be used in such testing, and the dynamometers shall be provided with inertia wheels equivalent to 1,500 pounds and up in 500-pound increments. A vehicle to be tested must then be tested with the dynamometer inertia weight closest to its own above-specified test weight according to the following seven-mode cycle:

Seven-Mode Cycle Table

Sequence No.	Mode m.p.h.	Acceleration m.p.h. in secs.	Elapsed time seconds	Cumulative time seconds
(1)	Idle	--	20	20
(2)	0 to 30	2.2	14	34
(3)	30	--	15	49
(4)	30 to 15	—1.4	11	60
(5)	15	--	15	75
(6)	15 to 50	1.2	29	104
(7)	50 to 0	—1.5	33	137

(2) Dynamometer testing of the motor vehicle shall begin with a cold start following at least eight hours of inoperative cooling of the motor vehicle. The initial 20 seconds shall not be sampled. The above seven-mode cycle shall be performed in sequence seven times, followed by one contiguous acceleration at wide open throttle from zero to 60 m.p.h. for however many seconds elapsed time are required to perform such acceleration, followed by a power-off deceleration, in gear, which shall end the test either when the car achieves idle r.p.m. or at the end of 30 seconds, whichever shall first occur.

(3) A plastic bag of sufficient capacity to contain the entire sample shall be flushed with air and evacuated. The entire exhaust gas volume shall be reduced to ambient temperature, and water thereby precipitated shall be drained out of the system. The remaining dry exhaust gas shall then be gathered into the plastic bag and mixed for at least five minutes by end-to-end circulation employing a blower of 35 cubic feet per minute minimum capacity. Samples shall be drawn to determine hydrocarbons and oxides of nitrogen in parts per million and carbon dioxide and carbon monoxide in percentage. Hydrocarbon readings obtained by NDIR shall be multiplied by 1.8. The following calculation is necessary to ascertain air dilution:

$$\frac{14.5}{\%\ CO_2 + (0.5)\ \%\ CO + (6.0)\ \%\ HC},$$

where HC, CO, and CO_2 are expressed in percentages $\left\{\frac{\text{ppm}}{10{,}000}\right\}$ and the resulting air dilution factor used as a multiplier to correct HC, CO, and NO_x values.

(4) For the duration of the test, consumption of fuel (normally extracted from a separate tank to insure uniformity) shall be noted and dynamometer mileage measured. These data are sufficient to calculate the following results:

$$.116\,\frac{\text{ppm HC}}{\text{mi/gal}} = \text{grams/mile HC}$$

$$379\,\frac{\%\ CO}{\text{mi/gal}} = \text{grams/mile CO}$$

$$.062\,\frac{\text{ppm } NO_x}{\text{mi/gal}} = \text{grams/mile } NO_2$$

(d) For not more than one year after the date of installation of such exhaust control devices, the board shall, at intervals of 5,000 miles or four months, whichever comes first, test, inspect, and service such exhaust control devices. The Department of General Services, the Department of the California Highway Patrol, and the Division of Highways shall furnish to the board, upon request, the motor vehicles upon which such devices are to be installed and shall cooperate with the board in the testing, inspection and servicing by the board of such devices.

(e) The board shall report to the Legislature within 30 days after the effective date of this section on the number of motor vehicles it has selected for the installation of exhaust control devices pursuant to this section, on the different types of such exhaust control devices it has approved for such installation, and on the cost of such devices. The board shall also report to the Legislature within 18 months after the effective date of this section on the result of the four points of the exhaust control device testing program established pursuant to this section, including all data on all vehicles tested under this program.

(f) The abbreviations used in this section have the following meanings:

(1) HC means hydrocarbons.
(2) CO_2 means carbon dioxide.

SEC. 3. Section 2 of this act shall become operative only if Assembly Bill No. 357 is enacted by the Legislature at its 1968 Regular Session and in such case at the same time as Assembly Bill No. 357 takes effect; at which time Section 39083.5 of the Health and Safety Code as added by Section 1 of this act is repealed.

SEC. 4. There is hereby appropriated from the Motor Vehicle Fund to the State Air Resources Board for expenditure during the 1968–69 fiscal year in carrying out the purposes of this act the sum of two hundred thousand dollars ($200,000) in augmentation of Item 127 of the Budget Act of 1968.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is imperative for the health of the public that immediate steps be taken to develop and use effective exhaust control devices so as to control air pollution emissions from motor vehicles. In order that such devices be developed and used, it is essential that certain tests be conducted to produce valuable experience data and to determine the technological feasibility. The minimum schoolday in grades 1, 2, and 3 in elementary schools, except in opportunity schools or classes, is 230 minutes, except where the governing board of a school district has prescribed a shorter length for the schoolday because of lack of school facilities which requires double sessions, in which case the minimum schoolday in such grades shall be 200 minutes.

CHAPTER 948

An act to amend Sections 12259 and 12704 of the Education Code, relating to work experience education.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

12259. The person authorized to issue permits to work may also issue to any minor over the age of 14 years a permit to work outside of school hours for a period of time which when added to the time the minor is required by law to attend school does not exceed eight hours in any one day. The eight-hour limitation shall not apply to a minor who is enrolled in an approved work experience education program. Such a minor may, in any day in which he is required to attend school, work in such program outside of school hours for a period of time not to exceed four hours.

CHAPTER 949

An act to add Article 4.5 (commencing with Section 13390) to Chapter 2 of Division 10 of the Education Code, relating to in-service training of educational personnel.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 4.5 (commencing with Section 13390) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 4.5. In-service Training of Educational Personnel

13390. It is the intent of the Legislature to encourage California's institutions of higher education, whether public or private, to enter into cooperative arrangements with local school districts for the provision of training programs designed to improve elementary teachers' instructional skills. The Legislature recognizes that the usual teacher preparation required by law and provided by most teacher-training institutions—while meeting high quality standards—may not provide desirable exposure to the range of new and innovative teaching techniques being developed and tested by and in cooperation with major universities throughout the United States; nor does the usual preparation provide, even with practice teaching, on-the-job experience under the guidance of resource and consulting personnel involved in development of new techniques or of so-called master teachers chosen for their exceptional ability and supplementary research in the field.

The Legislature, therefore, intends, in enacting this article, to facilitate the process whereby institutions of higher education, research centers, or regional educational laboratories may provide resource personnel and special courses under contracts or other cooperative arrangements with local school districts.

13390.5. As used in this article, the term "staff development project," means training programs established to improve elementary teachers' instructional skills pursuant to this article.

13391. Staff development projects shall be made available whenever possible to the following personnel:

(a) New elementary teachers of the district who have not yet completed the fifth year of university or college education requirements for a standard teaching credential with a specialization in elementary teaching;

(b) New teachers of the district, whether from California or out of state, who may already have completed all requirements for a standard teaching credential with a specialization in elementary teaching;

(c) Teachers who may already be teaching in the district, including those who have, as well as those who have not, completed the fifth year requirement for a standard teaching credential with a specialization in elementary teaching;

(d) Elementary school counselors or visiting teachers; and

(e) Elementary school administrators.

13392. The governing board of any school district desiring to establish a staff development project shall submit one or more project proposals to the State Department of Education for review and for final approval by the State Board of Education. No funds appropriated for purposes of this article shall be allocated to a school district for a staff development project until the State Board of Education approves of the project.

13393. A staff development project proposal shall include, but not be limited to, the following components, as well as any other components which the State Board of Education determines meet the needs and purposes of a staff development project:

(a) A statement of the school district's objectives in establishing the project, specifying the school district's particular needs with reference to specialized instructional personnel.

(b) A description of the component parts of the proposed staff development project, including:

(1) Courses to be made available to trainees through arrangements with an institution of higher education, research center, or regional education laboratory; and

(2) Other planned trainee activities.

(c) A statement outlining methods and criteria to be used in selecting trainees for the project.

(d) A statement indicating generally the duration of the program and the number of hours per week each trainee would be involved in designated activities.

(e) A statement describing the manner in which the staff development project is to be evaluated upon termination of a unit of training.

(f) A statement of proposed expenditures and reasonably expected costs, and an outline of proposed federal or state and local fund matching arrangements.

13394. The governing board of any school district may contract with institutions of higher education, including the University of California, the California State Colleges, and private institutions, and with research centers or regional education laboratories, for such institutions, centers, or laboratories to furnish academic and consulting services for purposes of a staff development project. The school district shall be deemed the contracting agency and shall be responsible for coordination and administration of the staff development project.

13395. The school district shall bear 50 percent of the cost of a staff development project coordinator's salary, and shall provide the necessary facilities, equipment, and instructional materials for the project.

13396. Certificated employees participating as trainees in a staff development project shall be remunerated on a basis consistent with usual procedures of the school district.

13397. The Superintendent of Public Instruction shall allow, out of funds appropriated to the Department of Education for the purpose, to each school district an amount sufficient to pay the tuition costs and other fees necessary for trainees to take courses prescribed in the staff development project at the college or university level, and to pay the consultation costs of the project, and to pay 50 percent of the cost of the salary of the staff development project coordinator.

13398. Any institution of higher learning participating in a staff development project pursuant to this article shall grant academic credit for the courses established under terms of the contract arranged when a staff development project has been approved by the State Board of Education. Such academic credit shall be granted on whatever hour or unit basis is the practice at the participating institution.

13399. A staff development project submitted by a school district may be renewed, but it shall include any modifications recommended by the State Board of Education upon review of the school district's evaluation of the staff development project.

13399.5. The Department of Education shall, subject to the approval of the State Board of Education, establish rules and regulations for the administration of this article, including the use of any federal funds that may be available for purposes of this article.

SEC. 2. The State Board of Education shall allocate not more than five hundred thousand dollars ($500,000) from the funds received by the state under the provisions of Public Law 90-35, Part 6, subpart 2, and Part 10 for programs authorized by this article.

135.3. The Legislature intends by this act to provide prompt and equitable relocation assistance to low-income individuals and families displaced because of the construction of state highway projects in areas where the market value of real property is economically depressed. The Legislature by establishing a replacement housing program for such individuals and families intends to accomplish this objective of providing housing which is decent, safe, sanitary, and functionally equivalent to the housing eliminated by highway construction. Such replacement housing program shall be coordinated with the relocation advisory assistance provided by the department in accordance with Section 135.1. The Legislature further intends that to the extent the department deems feasible such housing shall be supplied by existing housing, moved housing, and refurbished housing before new replacement housing is constructed on a volume basis.

SEC. 2. Section 135.4 is added to the Streets and Highways Code, to read:

135.4. As used in Sections 135.3, 135.4, 135.5, 135.6, and 135.7:

(b) "Economically depressed area" means an area which the commission by resolution determines to meet all of the following criteria:

(1) The state highway project is located in an area consisting principally of housing occupied by low-income individuals and families.

(2) An adequate number of replacement housing units for low-income individuals and families is not available in the immediate area of the state highway project.

(3) Relocation advisory assistance will be insufficient to place a majority of such individuals and families in replacement housing in the immediate area of the state highway project.

(c) "Replacement housing" means functionally comparable single or multiple dwelling units which are decent, safe, and sanitary for low-income individuals and families.

SEC. 3. Section 135.5 is added to the Streets and Highways Code, to read:

135.5. (a) As used in this section, "relocation assistance" means, and shall be limited to, that assistance reasonably necessary to place low-income individuals and families who lack the financial ability and income to obtain replacement housing without relocation assistance, and who own and reside in housing in an economically depressed area and who are displaced because of the acquisition or clearance of right-of-way for a project on the state highway system, in replacement housing in the same relative economic ownership position as before displacement by transferring or exchanging their right, title, and interest in property required for state highway purposes for the right, title, and interest in replacement housing.

(b) The department is authorized to provide relocation assistance to low-income individuals and families who own and reside in housing in an economically depressed area and who are displaced because of the acquisition or clearance of rights-of-way for a project on the state highway system, which project is located in an economically depressed area.

(c) The department is authorized to adopt rules and regulations to implement this section. Such rules and regulations shall include provisions relating to:

(1) The methods and priorities for placing such low-income individuals and families in replacement housing.

(2) The standards for determining the relative economic ownership position of such low-income individuals and families before displacement. The department in determining such standards shall consider the equity value and monthly payments of principal and interest, the availability of federal housing programs, and such other similar ownership factors.

(3) The standards for determining which of such low-income individuals and families lack the financial ability and income necessary to obtain replacement housing without relocation assistance.

(4) The procedure for transferring or exchanging right, title, and interest in property required for state highway purposes for the right, title, and interest in replacement housing.

SEC. 4. Section 135.6 is added to the Streets and Highways Code, to read:

135.6. The department may acquire, either in fee or in any lesser estate or interest, any unimproved or unoccupied real property, or real property not devoted primarily to residential use, to provide replacement housing for low-income individuals and families who reside in economically depressed areas and are displaced because of the acquisition or clearance of rights-of-way for a project on the state highway system, in order to enable them to live in decent, safe, and sanitary dwellings. All other property acquired for such purpose shall be acquired by means other than condemnation. The acquisition of such property is declared to be a public purpose and use.

SEC. 5. Section 135.7 is added to the Streets and Highways Code, to read:

135.7. The department may contract with other public agencies, private individuals, and corporations for the financing, planning, development, construction, management, sale, exchange, or lease of replacement housing. Low-income individuals and families displaced because of the acquisition or clearance of rights-of-way for a project on the state highway system shall be given priority in buying, leasing, transferring, or exchanging property for replacement housing.

SEC. 7. The Department of Public Works shall submit a report to the Legislature not later than the fifth legislative day of the 1970 Regular Session as to the program developed and progress made in providing replacement housing in economically depressed areas for low-income individuals and families displaced by highway construction.

SEC. 8. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Knowledge shall be presumed if notice has been given by the department to such person. The presumption established by this subdivision is a presumption affecting burden of proof.

(b) Any person convicted under this section shall be punished upon a first conviction by imprisonment in the county jail for not less than five days nor more than six months and by fine of not more than five hundred dollars ($500), and upon a second or any subsequent conviction, within seven years of a prior conviction, by imprisonment in the county jail for not less than 10 days nor more than one year and by fine of not more than one thousand dollars ($1,000), or by both such fine and imprisonment.

(c) If any person is convicted of a second or subsequent offense under this section within seven years of a prior conviction and is granted probation, it shall be a condition of probation that such person be confined in jail for at least 10 days.

SEC. 4. Section 14601.1 is added to the Vehicle Code, to read:

14601.1. (a) No person shall drive a motor vehicle on a highway when his driving privilege is suspended or revoked for any reason other than those listed in Section 14601 when the person so driving has knowledge of either such fact. Knowledge shall be presumed if notice has been given by the department to such person. The presumption established by this subdivision is a presumption affecting the burden of proof.

(b) Any person convicted under this section shall be punished upon a first conviction by imprisonment in the county jail for not more than six months or by fine of not more than five hundred dollars ($500) or by both such fine and imprisonment, and upon a second or any subsequent conviction under this section or Section 14601, within seven years of a prior conviction, by imprisonment in the county jail for not less than five days nor more than one year and by fine of not more than one thousand dollars ($1,000), or by both such fine and imprisonment.

SEC. 5. Sections 2, 3, and 4 of this act shall become operative only if Assembly Bill 1197 is enacted by the Legislature at its 1968 Regular Session, and in such case at the same time

as Assembly Bill 1197 takes effect, at which time Section 14601 of the Vehicle Code, as amended by Section 1 of this act, is repealed.

CHAPTER 964

An act to add Section 5326 to the Business and Professions Code, relating to outdoor advertising.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 5326 is added to the Business and Professions Code, to read:

5326. In addition to the fees set forth in Section 5325, no application for an original permit to place an advertising structure shall be accepted by the department unless it is also accompanied by an application fee of twenty dollars ($20). The application fee shall be retained by the department whether or not a permit is issued.

CHAPTER 965

An act to amend Section 21809 of the Education Code, relating to school district bonds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 21809 of the Education Code is amended to read:

21809. The board of supervisors by an order entered upon its minutes shall prescribe the form of the bonds and of the interest coupons attached thereto, if any. Said bonds shall be signed by the chairman of the board of supervisors, or by such other member thereof as the board of supervisors shall, by resolution adopted by a four-fifths vote of all its members, authorize and designate for that purpose, and also signed by the treasurer or auditor of the county, and shall be countersigned by the county clerk or the clerk of the board of supervisors or by a deputy of either of such officers. The coupons of said bonds shall be signed by the treasurer or auditor. Unless the board of supervisors otherwise provides, all such signatures and countersignatures may be printed, lithographed, engraved, or otherwise mechanically reproduced except that one of said signatures or countersignatures to said bonds shall be

manually affixed. Any such signature may be affixed in accordance with the provisions of the Uniform Facsimile Signatures of Public Officials Act, Chapter 6 (commencing with Section 5500) of Title 1 of the Government Code. All expense incurred for the preparation, sale, and delivery of the school bonds, including but not limited to, fees of an independent financial consultant, the publication of the official notice of sale of the bonds, the preparation, printing and distribution of the official statement, the preparation of the certified copy of the transcript for the successful bidder, the printing of the bonds, and legal fees of independent bond counsel retained by the school district issuing the bonds are legal charges against the funds of the school district issuing the bonds and may be paid from the proceeds of sale of the bonds.

SEC. 2. The amendment of Section 21809 of the Education Code made by this act does not constitute a change in, but is declaratory of, the preexisting law.

The provisions of Section 21809 of the Education Code as amended by this act shall be applicable to bonds of a district which have been authorized by the district prior to the effective date of this act but which have not been issued prior to such date.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The high rate of interest and small demand for tax-exempt bonds during this period of chaotic conditions in the nation's money markets has made it exceedingly difficult to sell school bonds, at the most favorable interest rate to the district. With the large volume of bonding required for school construction throughout the state it is essential for the welfare of the taxpayer that a district seek and utilize professional advice from bond marketing specialists (who do not participate in the underwriting) in order to make their bonds more marketable, structure the debt carefully to each district's individual needs and ability to repay at the lowest possible interest cost, and to stimulate competition to achieve the lowest interest rate possible on the bonds. It is therefore imperative that this act, which will clearly allow districts to retain independent financial consultants to market their bonds more successfully in order to obtain the lowest interest rate possible which could result in the savings of hundreds of thousands of dollars of interest costs, take effect immediately.

CHAPTER 966

An act to amend Section 2943 of the Civil Code, relating to secured land transactions.

[Approved by Governor August 1, 1968 Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 2943 of the Civil Code is amended to read:

2943. As used in this section:

(a) "Beneficiary" means a mortgagee or beneficiary of a deed of trust, or his assignees.

(b) "Entitled person" means the trustor or mortgagor, or his successor in interest, in the mortgaged or trust property, or any part thereof, or any beneficiary under a subordinate deed of trust or any other person having a subordinate lien or encumbrance of record thereon.

A beneficiary, or his authorized agent, shall, on the written demand of an entitled person, or his authorized agent, made at any time before, or within two months after, the recording of a notice of default under a mortgage or deed of trust, if the power of sale therein is to be exercised, or otherwise made more than 30 days prior to entry of the decree of foreclosure, prepare and deliver to the person demanding it a written statement showing:

(a) The amount of the unpaid balance of the obligation secured by the mortgage or deed of trust and the interest rate, together with the total amounts, if any, of all overdue installments of either principal or interest, or both.

(b) The amounts of periodic payments, if any.

(c) The date on which the obligation is due in whole or in part.

(d) The date to which real estate taxes and special assessments have been paid to the extent such information is known to the lender.

(e) The amount of hazard insurance in effect and the term and premium of such insurance to the extent such information is known to the lender.

(f) The amount in an account, if any, maintained for the accumulation of funds with which to pay taxes and insurance premiums.

(g) The nature and, if known, the amount of any additional charges, costs, or expenses paid or incurred by the beneficiary which have become a lien on the real property involved.

The beneficiary may, before delivering a statement, require reasonable proof that the person making the demand is, in fact, an entitled person or an authorized agent of an entitled person, in which event the beneficiary shall not be subject to the penalties of this section until 21 days after receipt of the proof herein provided for. A statement in writing signed by the en-

titled person appointing an authorized agent when delivered personally to the beneficiary or delivered by registered return receipt mail shall constitute reasonable proof as to the identity of an agent. Similar delivery of a policy of title insurance, preliminary report issued by a title company, original or photographic copy of a grant deed or certified copy of letters testamentary, guardianship, or conservatorship shall constitute reasonable proof as to the identity of a successor in interest, provided the person demanding a statement is named as successor in interest in the document.

Delivery of the statement by the beneficiary, as herein referred to, shall mean depositing or causing to be deposited in the United States mail an envelope, with postage prepaid, containing a copy of the statement, addressed to the person whose name and address is set forth in the demand therefor.

If a beneficiary for a period of 21 days after receipt of such written demand willfully fails to prepare and deliver such statement, he is liable to the entitled person for all damages which he may sustain by reason of such refusal and, whether or not actual damages are sustained, he shall forfeit to the entitled person the sum of one hundred dollars ($100). Each such failure to prepare and deliver such a statement, occurring at a time when, pursuant to this section, the beneficiary is required to prepare and deliver the statement, creates a separate cause of action, but a judgment awarding an entitled person such forfeiture, or damages and forfeiture, for any such failure to prepare and deliver a statement bars recovery of such damages and forfeiture for any other failure to prepare and deliver a statement, with respect to the same obligation, in compliance with a demand therefor made within six months before or after the demand as to which the award was made.

If the beneficiary has more than one branch, office or other place of business, then the demand shall be made to the branch or office at which the payments of the obligation are made, and the statement, unless it specifies otherwise, shall be deemed to apply only to the unpaid balance owing to or payable at the branch or office secured by the mortgage or deed of trust.

The beneficiary may make a charge not to exceed fifteen dollars ($15) for furnishing the required statement, except that no charge shall be made for such statement unless such charge has been specifically provided for in such mortgage or deed of trust, and that this requirement for provision for such charge in the instrument shall not apply to mortgages or deeds of trust insured by the Federal Housing Administrator or guaranteed by the Administrator of Veterans Affairs.

This section applies only to mortgages and deeds of trust executed on or after January 1, 1964.

CHAPTER 967

An act to amend Section 13920 of the Government Code, relating to State Board of Control.

[Approved by Governor August 1, 1968. Filed with Secretary of State August 1, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 13920 of the Government Code is amended to read:

13920. By a majority vote, the board shall adopt general rules and regulations:

(a) Limiting the amount, time, and place of expenses and allowances to be paid to officers, agents, and employees of the state while traveling on official state business. The rules and regulations shall provide for reasonable reimbursement to an officer, agent or employee of the state for expenses incurred by him to repair a privately owned vehicle which was damaged through no fault of said officer, agent or employee; provided that the damage occurred while the vehicle was used on official state business with the permission or authorization of an employing agency.

(b) Governing such matters as are specifically committed to its jurisdiction.

(c) Governing the presentation and audit of claims against the state for which an appropriation has been made or for which a state fund is available.

SEC. 2. Section 35561.4 is added to the Government Code, to read:

35561.4. The legislative body of a city may initiate proceedings to exclude a portion of uninhabited territory annexed to the city as uninhabited territory on its own motion without requiring a petition. SECTION 1. Section 858.7 is added to the Penal Code, to read:

858.7. (a) In any case in which the defendant has been convicted of a misdemeanor and is serving a sentence as a result of such conviction and there has been filed and is pend-

ing in another county a complaint charging him with a misdemeanor Vehicle Code violation, the defendant may appear before the court that sentenced him, and a magistrate of that court shall give such instructions to the defendant as required by law and inform the defendant of his rights under this section, and, if the defendant desires to plead guilty or nolo contendere to the charge in the complaint, he may so advise the magistrate. If the magistrate determines that such plea would be in the interest of justice, he shall direct the defendant to appear before a specified appropriate court in the county in which defendant is serving his sentence at a designated certain time for plea and sentencing. The magistrate shall request the court in which the complaint has been filed to transmit a certified copy of the complaint and any citation and any factual report which may have been prepared by the law enforcement agency that investigated the case to the court in which defendant is to appear for plea and sentencing. If the court of which the request is made deems such action to be in the interest of justice, and the district attorney of the county in which that court sits, after notice from the court of the request it has received, does not object to such action, the court shall immediately transmit a certified copy of the complaint and any report of the law enforcement agency that investigated the case, and, if not, shall advise the requesting magistrate of its decision not to take such action.

When defendant appears for plea and sentencing, and if a copy of the complaint has been transmitted, the court shall read the copy of the complaint to him, and the defendant may plead guilty or nolo contendere. Such court shall have jurisdiction to accept the plea and impose a sentence. Such court shall notify the court in which the complaint was originally filed of the disposition of the case. If defendant does not plead guilty or nolo contendere, or if transmittal of a copy of the complaint has been refused or if a copy of the complaint has not been received, the court shall terminate the proceedings under this section and shall direct the defendant to appear before the court in which the complaint was filed and is pending on or before a certain day.

(b) (1) Any fines imposed by a court which is given authority to sentence pursuant to this section shall be remitted to the court in which the complaint was originally filed for disposition as required by law. Except as otherwise provided in paragraph (2) of this subdivision, the county of the sentencing court shall bear all costs incurred incident to acceptance of the plea and sentencing, and no part of such costs shall be deducted from the fine remitted to the court in which the complaint was filed.

(2) In any case in which a defendant is sentenced to imprisonment pursuant to this section, and as a result of such sentence he is required to be imprisoned for a time in addition to, and not concurrent with, the time he is imprisoned as a result of the sentence he is otherwise serving, the county in

which the complaint was originally filed shall bear the cost of such additional time of imprisonment that the defendant is required to serve. Such cost may be deducted from any fine required to be remitted pursuant to paragraph (1) of this subdivision to the court in which the complaint was originally filed.

(c) As used in this section, "complaint" includes, but is not limited to, a notice to appear which is within the provisions of Section 40513 of the Vehicle Code.

An act to add Section 31141 and 31142 to the Water Code, relating to county water districts.

[Approved by Governor August 1, 1968 Filed with Secretary of State August 1, 1968.]

SECTION 1. Section 31141 is added to the Water Code, to read:

31141. A district may adopt ordinances relating to the provision of sanitation services and the regulation of such services. Every such ordinance shall be in full force and effect forthwith upon adoption, but shall be published once in full in a newspaper of general circulation, printed, published and circulated in the district within 10 days after adoption, or if there be no such newspaper it shall be posted within said time in three public places within the district.

The consolidated election shall be held and conducted in all respects as if there were only one election and only one form of ballot shall be used. Except as otherwise provided in this act, all of the provisions of law relating to the submission of measures proposed by the Legislature shall apply to the measure submitted pursuant to this act, and only one form of ballot and ballot pamphlet shall be used. The distribution of ballot pamphlets in all respects shall be conducted in accordance with the provisions of Section 3573 of the Elections Code.

SEC. 13. At the special election called by this act there shall be submitted to the electors Sections 1 to 10.5, inclusive, of this act.

SEC. 14. Upon the effective date of this section, the author of the measure submitted pursuant to this act and two members of the other house who voted with the majority on the measure, shall be appointed by the presiding officers of the respective houses to draft the arguments for the adoption of the measure. If the measure is not adopted unanimously by the house in which it originated, one member of the house in which it originated, who voted against it, shall be appointed

by the presiding officer of that house to write an argument against it. If there are no negative votes on the measure in the house in which it originated, the presiding officer of that house shall appoint some qualified person to draft an argument against it. Each argument shall consist of not more than 500 words and shall be submitted to the Secretary of State on or before the fifth day after this section takes effect.

SEC. 15. The special election provided for in this act shall be proclaimed, held, conducted, the ballots shall be prepared, marked, collected, counted and canvassed and the results shall be ascertained and the returns thereof made in all respects in accordance with the provisions of the Constitution applicable thereto and the law governing general elections insofar as provisions thereof are applicable to the election provided for in this act.

SEC. 16. All ballots at said election shall have printed thereon in boldface type and in a square thereof, the words: "For bonds to provide state college, university, and urban school facilities." In the square immediately below the square containing such words there shall be printed on said ballot in boldface type the words: "Against bonds to provide state college, university, and urban school facilities." In each square containing the language specified above, immediately below that language and enclosed in parentheses, there shall be printed, in 8-point type, the words: "This act provides for a bond issue of two hundred fifty million dollars ($250,000,000)." Opposite the words: "For bonds to provide state college, university, and urban school facilities," and the language immediately following such statement, and "Against bonds to provide state college, university, and urban school facilities," and the language immediately following such statement, there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against said act. Those voting for said bonds shall do so by placing a cross opposite the words: "For bonds to provide state college, university, and urban school facilities," and those voting against said bonds shall do so by placing a cross opposite the words: "Against bonds to provide state college, university, and urban school facilities"; provided that where the voting of said election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, the use of such voting machines and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section. The measures shall appear on the ballot and in the ballot pamphlets in substantially the following form:

FOR BONDS TO PROVIDE STATE COLLEGE, UNIVERSITY, AND URBAN SCHOOL FACILITIES. (This act provides for a bond issue of two hundred fifty million dollars ($250,000,000).)	
AGAINST BONDS TO PROVIDE STATE COLLEGE, UNIVERSITY, AND URBAN SCHOOL FACILITIES. (This act provides for a bond issue of two hundred fifty million dollars ($250,000,000).)	

The Governor of this state shall include the submission of the measure to the people, as aforesaid, in his proclamation calling for said election.

SEC. 17. If it appears that the measure shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against the measure then the same shall be and become void.

SEC. 18. Upon the effective date of this section the Secretary of State shall request the Legislative Counsel to prepare an analysis of the measure in accordance with Section 3566 of the Elections Code.

SEC. 18.5. Chapter 6 (commencing with Section 19250) is added to Division 14 of the Education Code, to read:

CHAPTER 6. URBAN SCHOOL CONSTRUCTION AID LAW OF 1968

Article 1. General Provisions

19250. This chapter may be cited as the "Urban School Construction Aid Law of 1968."

19251. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to aid urban school districts of the state in reconstructing, modernizing, or replacing school sites and buildings for pupils of the public school system who are now housed in substandard schools constructed prior to 1943.

19252. As used in this chapter:

(a) "Board" means the State Allocation Board, created by Section 7 of the Construction and Employment Act as amended.

(b) "Director" means the Director of Education.

(c) "Project" means the purpose or purposes for which a school district has applied for an apportionment or apportionments.

(d) "Apportionment" means an apportionment made under this chapter unless the context otherwise requires.

(e) "Urban district" means any school district, the boundaries of which are substantially identical to or which encompass the boundaries of a city having a population in 1960 of not less than 50,000 persons.

19253. The Director of General Services shall administer this chapter and shall provide such assistance to the board as it may require.

19254. The State Allocation Board is continued in existence for the purposes of this chapter. The members of the board and the Members of the Legislature meeting with the board shall receive no compensation for their services under this chapter but shall be reimbursed for their actual and necessary expenses incurred in connection with the performance of their duties hereunder, to be paid out of the Urban School Construction Aid Fund.

19255. The board by the adoption of rules shall give priority in allocating funds to urban districts to such districts where the children will benefit most from schoolhouse facilities. This priority shall be based upon the age of existing buildings and the acuteness of overcrowding at the school or schools where the construction or reconstruction will occur, the density of population in the attendance areas affected, or such other factors which will insure that the greatest need will be served.

19256. In addition to such other powers and duties as are granted the board by this chapter, the board shall:

(a) Establish such qualifications not in conflict with other provisions of this chapter as it deems will best serve the purposes of this chapter for determining the eligibility of school districts to apportionments of funds under this chapter.

(b) Establish such procedures and policies in connection with the administration of, and the expenditure of funds made available for the purpose of, this chapter as it deems necessary.

(c) Adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

19257. The board shall prescribe instructions specifying the manner in which property, real or personal, being replaced through the apportionment, shall be disposed of, and compliance with the instructions shall be a condition upon the making of the apportionment. The net proceeds derived from such a disposition shall be contributed in reduction of any apportionment. Any school district affected shall comply with instructions prescribed by the board. The board may require a district to transfer to the state, by any instruments deemed appropriate by the board, title to any such property, whereupon, the board shall dispose of the property in any manner it deems

appropriate to insure the highest return to the state, and apply the proceeds therefrom in reduction of apportionments to the district. The district affected shall do all things deemed necessary by the board to implement such disposition.

19258. The Urban School Construction Aid Fund is hereby created in the State Treasury. Apportionments from the fund shall be limited to urban districts and shall be made for the sole purpose of reconstructing or replacing existing substandard buildings constructed prior to 1943. Such apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes:

(1) The acquisition, by purchase or lease, and the installation and equipping portable classrooms for instructional purposes.

(2) The acquisition and development of school sites.

(3) The construction and equipping of permanent school buildings and facilities.

(4) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(5) Any combination of the above.

As a part of such purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to said district out of said apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects said apportionments are eligible for payment under provisions of this chapter.

A leasehold or use permit interest held by a school district in land owned in fee simple by the government of the United States may, for all purposes of this chapter, be deemed a purchase of land by the district and to vest title and ownership in the district.

19259. The board shall not make any apportionment with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate said facilities.

19260. In addition to the purposes for which apportionments may be made to school districts under Section 19258, apportionments may also be made to school districts for the construction, repair, attachment or development of off-site facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made, all of which purposes are hereby declared to be, and are, public works.

19261. In making applications for, and in expending apportionments of funds under this chapter, a school district

acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, reconstructed, altered, or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds apportioned under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing such real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. Such certificate shall as to any party thereafter acquiring real property or any interest therein in the county from said school district have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. Such effect shall commence upon recordation and continue until the certificate is discharged or released as provided herein.

Upon request the Director of General Services shall (1) issue a release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under this chapter, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest; (2) issue a disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under this chapter, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interests of the state, including conditions relating to the amount of consideration to be received from such disposition where the board asserts an interest in the proceeds of such disposition under other provisions of this chapter. Such release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter (1) the Director of General Services shall file with the recorder a release of any such certificate which release shall be recorded and indexed in the same index as said certificate; and (2) the title to personal property purchased by such school district with funds apportioned under this chapter shall revert thereto without further action by the state.

19262. A school district shall not expend money apportioned under this chapter unless the contracts under which the funds are expended have been let after competitive bids thereafter pursuant to this code.

19263. Each school district which desires an apportionment shall submit through its governing board to the board an application therefor in such form and number of copies as the board shall prescribe. Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project for which the district desires an apportionment.

Estimates of costs for new construction or equipment appearing in an application shall not exceed typical current costs of comparable new construction or equipment by school districts in the same area not receiving an apportionment under this chapter, as determined by the Director of General Services, or if there has been no new construction by school districts in the area, the estimates of costs shall not exceed the reasonable current cost of similar construction or equipment in the area as determined by the Director of General Services.

A school district may at any time file an application or amend or supplement an application. Upon receipt of any application, the Director of General Services shall as promptly as possible prepare a report and recommendation with respect to the application after having received recommendations from the director in respect to any matter which is subject to the jurisdiction or approval of the Director or Department of Education. The board shall, subject to the provisions of this chapter, approve, in whole or in part, or reject each application referred to it by the Director of General Services. If the board approves of the application, either in whole or in part, it shall, by a resolution adopted by it, apportion to the district from the Urban School Construction Aid Fund the amount applied for, or such portion thereof as the board may determine appropriate; provided, that it may order that the apportionment or any part thereof shall be paid in progressive installments at such times and under such conditions as it may then prescribe.

19264. The board may approve, in whole or in part, an application submitted by a school district under Section 19263 and in such amount, not exceeding the amount applied for, as the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount approved in the application of the district by the board to the applicant school district from the Urban School Construction Aid Fund for such portion or portions of the project as the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a project, the board may approve the remaining portion or portions of the project and make an additional apportionment or apportionments as it deems appropriate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to such district in an amount equal to such excess even though such additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter.

19265. No apportionment shall be made for new construction, the area of which exceeds the area of the unsafe buildings being replaced under Section 19258. The area of school buildings shall be computed in a uniform manner as prescribed by the board.

19266. Payment shall be made in accordance with the terms of an apportionment, either directly or by way of reimbursement, to a school district for expenditures, or commitments therefor, which have been made by the district subsequent to the effective date of this chapter for any items approved by the board in such apportionment; provided, however, that where expenditures were made for, or work was commenced with respect to, any item so approved, prior to the time the application of such district containing such item was received by the board, payment or reimbursement for such item, either with state funds or with district funds which the district is required to contribute by said apportionment, shall be made only upon authorization of the board by special resolution citing this section.

19267. Notwithstanding any provision to the contrary, the board, with the approval of the Director of General Services, shall, pursuant to this section, fix the rate of interest to be paid by the districts on the sums apportioned during that fiscal year. Beginning each fiscal year the board shall compute the average of the rates of interest which the state pays upon the state school reconstruction and replacement bonds, sold at the three sales of state school reconstruction and replacement bonds occurring immediately prior to that fiscal year, or, if the board so determines, at all of the sales of such bonds occurring in the two years immediately prior thereto, giving effect to the price at which the state school reconstruction and replacement bonds sold at such sales, and the premium, if any paid, thereon. If an apportionment is made prior to the sale of state school reconstruction and replacement bonds, the board shall use the computed average rate of interest which the state paid on the last sale of state school building bonds. Such average rate shall be adjusted to the next highest one-tenth of 1 percent to cover the cost of sale and issuance of the bonds and

costs of administration. Such adjusted average rate shall be the rate paid by districts on apportionments received during that fiscal year, and shall be compounded annually through the 30th day of June of each year.

19268. Apportionments may be made irrespective of whether there is on deposit at the time thereof a sufficient amount in the Urban School Construction Aid Fund to permit the payment of such apportionments. Disbursements may be made under any apportionment from any funds in the Urban School Construction Aid Fund irrespective of whether there exists at the time of such disbursement a sufficient amount in such fund to permit the payment in full of all apportionments previously made; provided, that no disbursements shall be made from any funds in the Urban School Construction Aid Fund required by law to be transferred to the General Fund, or from any moneys therein which the Controller deems necessary to satisfy appropriations from such fund for purposes other than apportionments.

19269. No apportionment shall be made to a district for the construction, reconstruction, or alteration of, or addition to, school buildings if the requirements prescribed by this code for the construction of school buildings are not met by the plans for the entire building program of the district in connection with which the district applied for an apportionment.

19270. Each district to which an apportionment or apportionments has been made under this chapter shall repay one-half of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each apportionment if computed separately.

The State Controller shall make the computation to determine the annual repayment due in the next fiscal year following the fiscal year in which the apportionment is made. In any year in which the annual repayment exceeds the amount which may be raised by a three-cent ($0.03) tax rate per one hundred dollars ($100) of assessed valuation in the district, the governing board of the school district shall so certify to the State Controller whereupon the State Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax rate of three cents ($0.03) per one hundred dollars ($100) of assessed valuation of the district. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

19271. The State Controller shall, during the next fiscal year following that in which he determines the annual repayment as herein provided, deduct the total amount of the annual repayment of each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 11256, 11257, and 17251, Sec-

tions 17401 to 17417, inclusive, and Sections 17601 to 18460, inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the Urban School Construction Aid Fund. All money transferred to the Urban School Construction Aid Fund under the provisions of this section shall be available only for transfer to the General Fund.

19272. The State Controller shall determine and maintain a record of the amount due the state in connection with each apportionment made to a district under the provisions of this chapter. He shall compute interest, at the rate fixed by the board, on each amount disbursed by the state pursuant to any such apportionment, from the date of issuance of the State Controller's warrant covering the payment to the county treasurer of such amount until the first day of July of the fiscal year next succeeding that in which such warrant was issued. Thereafter, interest shall accrue to and be compounded as a part of the principal amount due the state pursuant to such apportionment, through the 30th day of the following June of each year, until the principal and interest have been paid.

19273. Upon computing in any fiscal year the amount to be deducted from the apportionments to the district from the State School Fund during the succeeding fiscal year, the State Controller shall notify the governing board of the district and the county auditor of the county, the county superintendent of which has jurisdiction over the district, of the amount to be deducted.

19274. Except as otherwise provided in Section 1822, the board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this chapter will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district sufficient to raise for the district the amount of money to be withheld by the State Controller during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

19275. The board shall prescribe in such detail as it deems necessary, the purposes for which moneys apportioned by it or which it requires the district to contribute toward, or in reduction of the cost of a project, may be expended, and such prescription shall be binding upon the governing board of the district, save as it may be changed or modified by the board for such cause as it sees fit.

19276. An urban school construction fund is hereby created in the county treasury in each county for each school district in such county. The county treasurer of each county

shall pay into the urban school construction fund of each school district, exactly as apportioned by the board, all moneys received by him under this chapter with respect to each such school district.

19277. Interest earned on those portions of deposits in an urban school construction fund representing allocations from the proceeds of state school reconstruction and replacement bonds received by the county treasurer for the benefit of a school district under this chapter shall be paid into the urban school construction fund created by Section 19278.

19278. A fund in the State Treasury is hereby created, to be known as the Urban School Construction Aid Fund. All money in the Urban School Construction Aid Fund, including any money deposited in said fund from any source whatsoever is hereby continuously appropriated without regard to fiscal years for expenditure pursuant to apportionments made under the provisions of this chapter.

19279. The governing board of each school district to which an apportionment has been made under this chapter shall expend the moneys in the urban school construction fund of the school district exactly as apportioned by the board and only for the purposes for which said moneys were apportioned to the district, and for no other purpose, and shall make such reports relating to the expenditure of such moneys as the board and the State Controller shall require.

19280. A complete detailed report of expenditure of funds allocated pursuant to this chapter shall be made by the board annually to the Legislature. The report shall contain a detailed statement of facilities provided, type of construction, square footage provided and all other items which will enable the Legislature fully to understand the nature of the construction performed by the school districts.

19281. It shall be the duty of the State Controller to make such audit or audits of the books and records of counties and school districts receiving apportionments under this chapter, as he may deem necessary from time to time, for the purpose of determining that the money received by school districts as apportionments hereunder has been expended for the purposes and under the conditions authorized by this chapter.

19282. Whenever the State Controller determines that any money apportioned to a school district has been expended by such school district for purposes not authorized by this chapter, or exceeds the final cost of the project which is authorized by this chapter to be paid therefrom, the State Controller shall furnish written notice to the board, the governing board of the school district, the county superintendent of schools, the county auditor, and the county treasurer of the county whose county superintendent of schools has jurisdiction over the school district, directing the school district and the county treasurer to pay into the State Treasury the amount of such unauthorized expenditures, or the amount of such excess apportionment, as the case may be. Upon receipt of such notice,

such governing board shall order the county treasurer to pay to the State Treasurer, out of any moneys in the county treasury available to the school district for that purpose, the amount set forth in such notice. Such amount shall, upon order of the State Controller, be deposited in the State Treasury to the credit of the Urban School Construction Aid Fund, to be reapportioned by the board.

It shall be the duty of such governing body and the county treasurer to make the payments to the State Treasurer as provided in this section, and it shall be the duty of the State Controller to enforce such collection on behalf of the state.

If the district fails to make the payment specified within one year after written notice of the amount due, the State Controller shall deduct the amount thereof with interest from date of the notice from the February payment made to the district under the provisions of Section 17352 in the next succeeding fiscal year.

19283. (a) As used in this chapter:

(1) "State-aided district" means a district to which an apportionment has been made under this chapter.

(2) "Acquiring district" means a district in which all or a part of, a state-aided district or an applicant district has been included.

(3) "Original district" means a state-aided or applicant district included in whole or in part in an acquiring district.

(b) For the purposes of this article as it applies to an original district or to an acquiring district, the effective date of any change of boundaries, annexation, formation of a new district, or other reorganization shall be the date such action became effective for the purposes of Section 1701.

19284. Whenever, subsequent to the date of an apportionment to a district, the state-aided district is included in whole or in part in another district, the acquiring district in which a state-aid project is located shall, on the effective date of such inclusion, succeed to and be vested with all of the duties, powers, purposes, jurisdiction, and responsibilities of the state-aided district with respect to any apportionment or apportionments for such project and the property acquired or to be acquired from funds provided thereby, and all funds in the Urban School Construction Fund of the state-aided district shall be transferred to the Urban School Construction Fund of the acquiring district. All amounts which would, after the effective date of such inclusion, have been otherwise paid to the state-aided district under the terms of or pursuant to said apportionment, shall be paid to the acquiring district. In addition, the acquiring district shall, on the effective date of the inclusion of the state-aided district in the acquiring district become liable for the annual repayments and other payments due the state under this chapter.

SEC. 19 The provisions of Senate Bill No. 292 of the 1968 Regular Session, if enacted, do not apply to this act.

CHAPTER 988

An act to amend Sections 66801, 67040, and 67070 of, and to add Sections 67041.1, 67042.1, and 67103.1 to, the Government Code, and to amend Section 4 of Chapter 1589 of the Statutes of 1967, Regular Session, relating to Tahoe Regional Planning, making an appropriation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 2, 1968. Filed with Secretary of State August 2, 1968.]

The people of the State of California do enact as follows:

The regional plan shall include the following correlated elements:

(1) A land-use plan for the integrated arrangement and general location and extent of, and the criteria and standards for, the uses of land, water, air, space and other natural resources within the region, including but not limited to, an indication or allocation of maximum population densities.

(2) A transportation plan for the integrated development of a regional system of transportation, including but not limited to, freeways, parkways, highways, transportation facilities, transit routes, waterways, navigation and aviation aids and facilities, and appurtenant terminals and facilities for the movement of people and goods within the region.

(e) The agency shall maintain the data, maps and other information developed in the course of formulating and administering the regional plan and interim plan, in a form suitable to assure a consistent view of developmental trends and other relevant information for the availability of and use by other agencies of government and by private organizations and individuals concerned.

(f) All provisions of the interim plan shall be enforced by the agency and by the states, the counties, and cities.

Article VI. Agency's Powers

(a) The governing body shall adopt all necessary ordinances, rules, regulations and policies to effectuate the adopted regional and interim plans. Every such ordinance, rule or regulation shall establish a minimum standard applicable throughout the basin, and any political subdivision may adopt and enforce an equal or higher standard applicable to the same subject of regulation in its territory. The regulations shall contain general, regional standards including but not limited to the following: water purity and clarity; subdivision; zoning; tree removal; solid waste disposal; sewage disposal; land fills, excavations, cuts and grading; piers; harbors, breakwaters; or channels and other shoreline developments; waste disposal in shoreline areas; waste disposal from boats; mobilehome parks; house relocation; outdoor advertising; flood plain protection; soil and sedimentation control; air pollution; and watershed protection. Whenever possible without diminishing the effectiveness of the interim plan or the general plan, the ordinances, rules, regulations and policies shall be confined to matters which are general and regional in application, leaving to the jurisdiction of the respective states, counties and cities the enactment of specific and local ordinances, rules, regulations and policies which conform to the interim or general plan.

Every ordinance adopted by the agency shall be published at least once by title in a newspaper or combination of newspapers whose circulation is general throughout the region. Except an ordinance adopting or amending the interim plan or the regional plan, no ordinance shall become effective until 60 days after its adoption. Immediately after its adoption, a copy of each ordinance shall be transmitted to the governing body of each political subdivision having territory within the region.

Interim regulations shall be adopted within 90 days from the formation of the agency and final regulations within 18 months after the formation of the agency.

Every plan, ordinance, rule, regulation or policy adopted by the agency shall recognize as a permitted and conforming use any business or recreational establishment which is required by law of the state in which it is located to be individually licensed by the state, if such business or establishment:

(1) Was so licensed on February 5, 1968, or was licensed for a limited season during any part of the calendar year immediately preceding February 5, 1968.

(2) Is to be constructed on land which was so zoned or designated in a finally adopted master plan on February 5, 1968, as to permit the construction of such a business or establishment.

(b) All ordinances, rules, regulations and policies adopted by the agency shall be enforced by the agency and by the respective states, counties, and cities. The appropriate courts of the respective states, each within its limits of territory and subject matter provided by state law, are vested with jurisdiction over civil actions to which the agency is a party and criminal actions for violations of its ordinances. Each such action shall be brought in a court of the state where the violation is committed or where the property affected by a civil action is situated, unless the action is brought in a federal court. For this purpose, the agency shall be deemed a political subdivision of both the State of California and the State of Nevada.

(c) Except as otherwise provided in paragraph (d), all public works projects shall be reviewed prior to construction and approved by the agency as to the project's compliance with the adopted regional general plan.

(d) All plans, programs and proposals of the State of California or Nevada, or of its executive or administrative agencies, which may substantially affect, or may specifically apply, to the uses of land, water, air, space and other natural resources in the region, including but not limited to public works plans, programs and proposals concerning highway routing, design and construction, shall be referred to the agency for its review, as to conformity with the regional plan or interim plan, and for report and recommendations by the agency to the executive head of the state agency concerned and to the Governor. A public works project which is initiated

and is to be constructed by a department of either state shall be submitted to the agency for review and recommendation, but may be constructed as proposed.

(e) The agency shall police the region to ensure compliance with the general plan and adopted ordinances, rules, regulations and policies. If it is found that the general plan, or ordinances, rules, regulations and policies are not being enforced by a local jurisdiction, the agency may bring action in a court of competent jurisdiction to ensure compliance.

(f) Violation of any ordinance of the agency is a misdemeanor.

(g) The agency is hereby empowered to initiate, negotiate and participate in contracts and agreements among the local governmental authorities of the region, or any other intergovernmental contracts or agreements authorized by state or federal law.

(h) Each intergovernmental contract or agreement shall provide for its own funding and staffing, but this shall not preclude financial contributions from the local authorities concerned or from supplementary sources.

(i) Whenever a new city is formed within the region, the membership of the governing body shall be increased by two additional members, one appointed by, and who shall be a member of, the legislative body of the new city, and one appointed by the Governor of the state in which the city is not located. A member appointed by the Governor of California is subject to Senate confirmation.

(j) Every record of the agency, whether public or not, shall be open for examination to the Legislative Analyst of the State of California and the Fiscal Analyst of the State of Nevada.

(k) Whenever under the provisions of this article or any ordinance, rule, regulation or policy adopted pursuant thereto, the agency is required to review or approve any proposal, public or private, the agency shall take final action, whether to approve, to require modification or to reject such proposal, within 60 days after such proposal is delivered to the agency. If the agency does not take final action within 60 days, the proposal shall be deemed approved.

Article VII. Finances

(a) Except as provided in subdivision (e), on or before December 30 of each calendar year the agency shall establish the amount of money necessary to support its activities for the next succeeding fiscal year commencing July 1 of the following year. The agency shall apportion not more than $150,000 of this amount among the counties within the region on the same ratio to the total sum required as the full cash valuation of taxable property within the region in each county bears to the total full cash valuation of taxable property within the region. Each county in California shall pay the sum allotted to it by the agency from any funds available therefor and may levy a

tax on any taxable property within its boundaries sufficient to pay the amount so allocated to it Each county in Nevada shall pay such sum from its general fund or from any other moneys available therefor.

(b) The agency may fix and collect reasonable fees for any services rendered by it

(c) The agency shall be strictly accountable to any county in the region for all funds paid by it to the agency and shall be strictly accountable to all participating bodies for all receipts and disbursements.

(d) The agency is authorized to receive gifts, donations, subventions, grants, and other financial aids and funds.

(e) As soon as possible after the ratification of this compact, the agency shall estimate the amount of money necessary to support its activities·

(1) For the remainder of the then current fiscal year; and

(2) If the first estimate is made between January 1 and June 30, for the fiscal year beginning on July 1 of that calendar year

The agency shall then allot such amount among the several counties, subject to the restriction and in the manner provided in paragraph (a), and each county shall pay such amount.

(f) The agency shall not obligate itself beyond the moneys due under this article for its support from the several counties for the current fiscal year, plus any moneys on hand or irrevocably pledged to its support from other sources. No obligation contracted by the agency shall bind either of the party states or any political subdivision thereof.

Article VIII. Miscellaneous

(a) It is intended that the provisions of this compact shall be reasonably and liberally construed to effectuate the purposes thereof. Except as provided in paragraph (c), the provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining state and in full force and effect as to the state affected as to all severable matters.

(b) The agency shall have such additional powers and duties as may hereafter be delegated or imposed upon it from time to time by the action of the legislature of either state concurred in by the legislature of the other.

(c) A state party to this compact may withdraw therefrom by enacting a statute repealing the compact. Notice of withdrawal shall be communicated officially and in writing to the Governor of the other state and to the agency administrators. This provision is not severable, and if it is held to be unconstitutional or invalid, no other provision of this compact shall be binding upon the State of Nevada or the State of California.

(d) No provision of this compact shall have any effect upon the allocation or distribution of interstate waters or upon any appropriative water right.

The people of the State of California do enact as follows:

SECTION 1. Part 2 (commencing with Section 5600) of Division 5 of the Welfare and Institutions Code is repealed.

SEC. 2. Part 2 (commencing with Section 5600) is added to Division 5 of the Welfare and Institutions Code, to read:

PART 2. THE SHORT-DOYLE ACT

CHAPTER 1. GENERAL PROVISIONS

5600. This part shall be known and may be cited as the Short-Doyle Act. This part is intended to organize and finance community mental health services for the mentally disordered in every county through locally administered and locally controlled community mental health programs. It is furthermore intended to better utilize existing resources at both the state and local levels in order to improve the effectiveness of necessary mental health services; to integrate state-operated and community mental health programs into a unified mental health system; to ensure that all mental health professions be appropriately represented and utilized in such mental health programs; to provide a means for participation by local governments in the determination of the need for and the allocation of mental health resources; to establish a uniform ratio of local and state government responsibility for financing mental health services; and to provide a means of allocating state mental health funds according to community needs. It is furthermore intended to provide a means of reimbursing local governments for certain services to the mentally retarded and persons afflicted with alcoholism which counties may elect to provide.

5601. As used in this part:

(a) "Governing body" means the county board of supervisors or boards of supervisors in the case of counties acting

jointly; and in the case of a city, the city council or city councils acting jointly.

(b) "Conference" means the California Conference of Local Mental Health Directors as established under Section 5757.

(c) "County Short-Doyle Plan" means the mental health plan which must be adopted by each county, or combination of counties acting jointly, in accordance with Section 5650.

(d) "Part 1" refers to the Lanterman-Petris-Short Act (Part 1 (commencing with Section 5000) of this division).

(e) "Director of Mental Hygiene" means the Director of the Department of Mental Hygiene.

5602. By July 1, 1969, the board of supervisors of every county, or the boards of supervisors of counties acting under the joint powers provisions of Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code shall establish a community mental health service to cover the entire area of the county or counties. Services to mentally disordered persons in the county or counties by county agencies and county institutions and by the hospitals of the State Department of Mental Hygiene shall be provided in accordance with the County Short-Doyle Plan. Services of the State Department of Mental Hygiene shall be provided to the county, or counties acting jointly, by contract or, if both parties agree, the state facilities may, in whole or in part, be leased, rented or sold to the county or counties for county operation, subject to such terms and conditions as are approved by the Director of General Services

5603. Effective July 1, 1969, all state funds appropriated for mental health services shall be available for services provided under the County Short-Doyle Plans pursuant to Section 5700, except for funds allocated for the mentally retarded, neuropsychiatric institutes services to the judicially committed, central office functions, and research and training functions.

For purposes of this part, "the judicially committed" means persons committed pursuant to Article 1 (commencing with Section 6300), Article 2 (commencing with Section 6350), Article 3 (commencing with Section 6400), Article 4 (commencing with Section 6450), Article 5 (commencing with Section 6500) or Article 6 (commencing with Section 6550) of Chapter 2 of Part 2 of Division 6.

5604. Each community mental health service shall have an advisory board of 13 members appointed by the governing body. Three members of the advisory board shall be physicians and surgeons engaged in the private practice of medicine, one of whom, when available, shall be a specialist in psychiatry. One member shall be the chairman of the local governing body, and five members shall be persons representative of the public interest in mental health, mental retardation and alcoholism. The advisory board shall also contain a psychologist, a social worker, a nurse, and a hospital administrator, preferably with psychiatric hospital experience. The term of each member of

the board shall be for three years; provided, however, that of the members first appointed, five shall be appointed for one year, four for a term of two years, and four for a term of three years. When a person qualifies for membership on the board because he holds a specified office, such membership ceases when his term of office ceases. No member of the advisory board shall be a full- or part-time county employee of the county mental health service or the Department of Mental Hygiene or an employee of a Short-Doyle contract facility.

The chairman of a governing body may designate a member of that body to serve in his stead as a member of the advisory board.

If it is not possible to secure membership as specified from among persons who reside in the county, the governing body may substitute representatives of the public interest in mental health, mental retardation, and alcoholism who are not full-time or part-time employees of the county mental health service, the State Department of Mental Hygiene, or on the staff of a Short-Doyle contract facility.

5605. Local mental health advisory boards shall be subject to the provisions of Chapter 9 (commencing with Section 54950) of Part 1 of Division 2 of Title 5 of the Government Code, relating to meetings of local agencies.

5606. The local mental health advisory board shall:

(a) Review and evaluate the community's mental health needs, services, facilities, and special problems.

(b) Review the County Short-Doyle Plan.

(c) Advise and report directly to the governing body as to a program of community mental health services and facilities, submit an annual report to the governing body, and, when requested by such governing body may make recommendations regarding the appointment of a local director of mental health services.

(d) After adoption of a program, continue to act in an advisory capacity to the governing body and to the local director of mental health services.

5607. The local mental health services shall be administered by a local director of mental health services to be appointed by the governing body. He shall meet such standards of training and experience as the State Department of Mental Hygiene, by regulation, shall require. Applicants for such positions need not be residents of the city, county, or state, and may be employed on a full- or part-time basis. If a county is unable to secure the services of a person who meets the standards of the State Department of Mental Hygiene, the county may select an alternate administrator subject to the approval of the Director of Mental Hygiene.

5608. The local director of mental health services shall have the following powers and duties:

(a) He shall serve as chief executive officer of the community mental health service responsible to the governing body

through administrative channels designated by the governing body;

(b) He shall be responsible for the preparation of the County Short-Doyle Plan, as specified in Section 5650;

(c) He shall exercise general supervision over mental health services provided under the County Short-Doyle Plan;

(d) He shall recommend to the governing body, after consultation with the advisory board, the provision of services, establishment of facilities, contracting for services or facilities and other matters necessary or desirable in accomplishing the purposes of this division;

(e) He shall submit an annual report to the governing body reporting all activities of the program, including a financial accounting of expenditures and a forecast of anticipated needs for the ensuing year;

(f) He shall carry on such studies as may be appropriate for the discharge of his duties, including the control and prevention of psychiatric disorders.

5609. Subject to the approval of the Director of Mental Hygiene any community mental health service may by contract furnish community mental health services to any other county.

5610. The expenses incurred under the provisions of this division shall be a charge against the city or cities, county or counties, as the case may be, and shall be audited, levied, collected, and paid in the same manner as other charges.

5611. Any agreement between two or more counties or cities for the establishment of a joint mental health service may provide that the treasurer of one participating county or city shall be the custodian of moneys made available for the purposes of such joint services, and that the treasurer may make payments from such moneys upon audit of the appropriate auditing officer or body of the county or city for which he is treasurer.

5612. Any agreement between two or more counties or cities for the establishment of a joint mental health service may also provide:

(a) For the joint provision or operation of services and facilities or for the provision or operation of services and facilities by one participating county or city under contract for the other participating counties or cities.

(b) For appointments of members of the local mental health advisory board between or among participating counties or cities.

(c) That, for specified purposes, officers and employees of a joint mental health service shall be considered to be officers and employees of one participating county or city only.

(d) For such other matters as are necessary or proper to effectuate the purposes of this part.

5613. Unless otherwise expressly provided or required by the context, the provisions of this part relating to community mental health service, and the appointment of local mental

health advisory boards and directors shall apply to joint mental health services.

5614. A community mental health service may contract for services and facilities with any hospital, clinic, laboratory or other similar institution. Any such contract may be entered into notwithstanding that the local director of mental health service is a member of the medical or consultant staff of such hospital, clinic, laboratory or institution.

5615. If they so elect, cities that were operating independent Short-Doyle programs on January 1, 1968, shall continue to receive state payment to maintain existing programs at the 1968–1969 program levels as to types of services offered and the quantity of such services after all payments have been made pursuant to subdivision (1) of Section 5704. Requests by cities for state payments shall be considered to be in the same priority as requests under County Short-Doyle Plans under subdivision (2) of Section 5704.

5616. Nothing in this part shall prevent any city or combination of cities from owning, financing, and operating a mental health program, by entering into arrangements with the county to provide and be reimbursed for services provided as part of the County Short-Doyle Plan.

CHAPTER 2. THE COUNTY SHORT-DOYLE PLAN

5650. No later than the first day of the month following the month in which statutes enacted at the 1968 Regular Session of the Legislature are effective and on or before October 1 of each year thereafter, the board of supervisors of each county, or boards of supervisors of counties acting jointly, shall adopt, and submit to the Director of Mental Hygiene, an annual County Short-Doyle Plan for the next fiscal year for mental health services in the county or counties. The purpose of a county plan shall be to provide the basis for reimbursement pursuant to the provisions of this division and to coordinate services as specified in this chapter in such a manner as to avoid duplication, fragmentation of services, and unnecessary expenditures. To achieve this purpose, a County Short-Doyle Plan shall provide for the most appropriate and economical use of all existing public and private agencies and personnel A County Short-Doyle Plan must include the fullest possible and most appropriate participation by existing city Short-Doyle programs, state hospitals and clinics, public and private general and psychiatric hospitals, city, county, and state health and welfare agencies, public guardians, mental health counselors, alcoholism programs, probation departments, physicians, psychologists, social workers, public health nurses, and all such other public and private agencies and personnel as are required to, or may agree to, participate in the County Short-Doyle Plan.

5651. The County Short-Doyle Plan shall provide an inventory of all public and private mental health resources in the county.

5652. The County Short-Doyle Plan shall present an estimate of the number of involuntary patients to be provided the services legally required under Part 1 (commencing with Section 5000) of this division including evaluation, prepetition screening, referral, crisis intervention, intensive treatment, conservatorship, and postcertification treatment. The County Short-Doyle Plan shall also indicate the agencies or individuals who will provide these services and the estimated average cost per patient for each service. The County Short-Doyle Plan shall show all expected expenditures of county, state, and federal government funds for those services and all anticipated public and private revenues. The plan shall also show the estimated cost of diagnostic screening for voluntary state hospital patients.

5653. The County Short-Doyle Plan shall specify all other Short-Doyle mental health services in addition to those included under the provisions of Section 5652 which were in operation in fiscal year 1968–1969 which the county or city wishes to continue to operate in the next fiscal year and the estimated costs of such services.

5654. The County Short-Doyle Plan shall also include the estimated number of county residents who will reside in the state hospital on July 1, 1969, the estimated cost of state hospital care for such patients during the fiscal year and all sources of revenue for the care of such patients. This section shall not apply to persons committed as mentally disordered sex offenders, narcotic drug addicts, habit-forming drug addicts, mentally abnormal sex offenders, mentally retarded persons, juvenile court wards, and mentally disordered criminal offenders.

The State Department of Mental Hygiene shall provide the counties, to the extent possible, the information upon which to base this estimate.

5655. The County Short-Doyle Plan shall include an estimate of the number of persons from the county who will require voluntary state hospital care, in the next fiscal year, the estimated cost of care for such persons and all expected revenues. After July 1, 1969, no mentally disordered person or person afflicted with alcoholism shall be admitted to a state hospital prior to screening and referral by an agency designated in the County Short-Doyle Plan to provide this service.

5656. The County Short-Doyle Plan may propose the expansion of existing services to accommodate increased clientele over and above those served in fiscal year 1968–1969, or the establishment of any of the following services to the mentally disordered, mentally retarded, or persons afflicted with alcoholism:

(a) Inpatient services;

(b) Outpatient services;

(c) Partial hospitalization services, such as day care, night care, weekend care;

(d) Emergency services 24 hours per day available within one of the three services listed above;

(e) Consultation and education services available to community agencies and professional personnel and information services to the general public;

(f) Diagnostic services;

(g) Rehabilitative services, including vocational and educational programs;

(h) Precare and aftercare services in the community, including foster home placement, home visiting and halfway houses;

(i) Training;

(j) Research and evaluation.

5657. The County Short-Doyle Plan shall set forth priorities for the services included in Sections 5655 and 5656 during the next fiscal year.

5658. The County Short-Doyle Plan shall include provisions for evaluating mental health services in the county or counties. After July 1, 1970, program evaluations shall include studies of relative cost and effectiveness of alternative comparable forms and patterns of services.

5659. After October 1, 1970, each County Short-Doyle Plan shall include a projection of county needs for mental health services for the succeeding five-year period. The County Short-Doyle Plan shall provide for the orderly and economical development of those services and shall indicate priorities and anticipated expenditures and revenues.

5660. In developing the County Short-Doyle Plan, optimum use shall be made of appropriate state agencies, public and private organizations, and community professional personnel. Optimum use shall also be made of federal, state, county, and private funds which may be available for mental health planning.

In order that maximum utilization be made of federal and other funds made available to the State Department of Rehabilitation, the State Department of Rehabilitation may serve as a contractual provider under the provisions of a County Short-Doyle Plan of vocational rehabilitation services for the mentally disordered, mentally retarded, and persons afflicted with alcoholism.

So much of each county allocation as is required to provide vocational rehabilitation services in accordance with each County Short-Doyle Plan will be retained by the state and used to contract with the State Department of Rehabilitation for such services.

Facilities established pursuant to Article 10 (commencing with Section 427) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code shall be considered in the development of the county plan.

5661. All departments of state government and all local public agencies shall cooperate with county officials to assist them in mental health planning. The State Department of Mental Hygiene shall, upon request and with available staff, provide consultation services to the local mental health directors, local governing bodies and local mental health advisory boards.

5662. The County Short-Doyle Plan shall be submitted annually to the Director of Mental Hygiene, in the form, and according to procedures specified by the director.

CHAPTER 3. FINANCIAL PROVISIONS

5700. Mental health expenditures made by counties and cities pursuant to this part shall be paid by the state pursuant to the provisions of this chapter.

5701. There shall be a single state appropriation for services for mentally disordered persons. The single appropriation shall be made to the State Department of Mental Hygiene for mental health services and shall consolidate appropriations previously made to the department for mental health services under the Short-Doyle Act, and for the operation of the state hospitals for the mentally disordered, and other direct services of the department.

5702. The department shall continue to receive separate appropriations for central office functions, neuropsychiatric institutes, research and training functions, and state hospital services for the mentally retarded and the judicially committed.

5703. If after the review specified in Section 5752, the County Short-Doyle Plan is approved, the Director of Mental Hygiene shall determine the amount of state funds available for each county or city for specific services under the approved County Short-Doyle Plan, from the funds appropriated for mental health services.

5704. When allocating funds for each county, the director shall use the following priorities:

(1) County Short-Doyle Plans shall be funded to provide the approved required services for involuntary patients specified in Section 5652 and for diagnostic screening of voluntary patients admitted to state hospitals in accordance with Section 5655.

(2) County Short-Doyle Plans shall be funded to provide for the maintenance of Short-Doyle services in addition to those funded under subdivision (1) of this section established prior to July 1, 1969, as specified in Section 5653 and to provide for the care of state hospital patients admitted prior to July 1, 1969, as specified in Section 5654.

(3) County Short-Doyle Plans shall be funded, within the limit of available funds, to expand existing programs; to provide service to voluntary patients entering the state hospital after July 1, 1969, as specified in Section 5655, or to establish new programs as specified in Section 5656 in accordance with priorities determined by the county as specified in Section 5657.

If in any fiscal year the approved appropriation is insufficient to finance the programs and services specified by this subdivision, the Director of Mental Hygiene shall have the authority to determine the amount of state funds available to each county for such purposes in accordance with the priorities in both the state and county plans.

5705. To continue the approximate 1968–1969 ratio of state-county mental health expenditures, the net cost of all services specified in the approved County Short-Doyle Plans shall be financed on a basis of 90 percent state funds and 10 percent county funds, irrespective of where or by whom the services are provided, except for services to be financed from other public or private sources as indicated in the County Short-Doyle Plan.

5706. In order to maintain its effort in the mental health field the Legislature should appropriate a sum to pay County Short-Doyle Plans which is at least equal to the appropriation for mental health services during fiscal year 1968–1969 reduced by an amount equal to the fees collected by the state during that fiscal year adjusted for price changes unless additional increases are specifically appropriated by the Legislature. Funds allocated for the mentally retarded, the neuropsychiatric institutes, services to the judicially committed, central office functions, research and training functions shall not be included in the determination of such amount.

5707. Subject to the provisions of Section 5714.1, services specified in the approved County Short-Doyle Plans shall be financed within the fixed amounts appropriated each year by the state and the counties except for services that are to be financed from other public or private sources.

Upon approval by both parties, the County Short-Doyle Plan shall be deemed to be a contractual arrangement between the state and county.

5708. During the course of each fiscal year, a county may reallocate funds initially allocated for the approved County Short-Doyle Plan between state-operated and other approved services with the approval of the Director of Mental Hygiene.

The director shall approve such requests for reallocation if the services to be provided by a county requesting the reallocation are in accordance with the priorities in the County Short-Doyle and state plans.

The Director of Mental Hygiene may reallocate among County Short-Doyle Plans the state share of any savings occurring during the year in services provided under the County Short-Doyle Plans. Reallocations shall be to counties desiring to provide services supplementary to services specified in approved County Short-Doyle Plans in accordance with county and state mental health priorities.

5709. Nothing in Sections 5705 to 5708, inclusive, shall prevent a county, or counties acting jointly, from appropriating additional funds for mental health services. In no event shall counties be required to appropriate more than the mini-

mum amount required to finance 10 percent of the legally required services specified in Section 5652 and for the provision of care for mentally disordered residents of the state hospital as of July 1, 1969, as specified in Section 5654.

5709.5. No county shall be required to increase its expenditure for mental health services by more than an amount equal to one cent ($0.01) for each one hundred dollars ($100) in assessed value of taxable property in the county in any one fiscal year in order to implement the provisions of this division.

5709.6. The provisions of this division shall apply to a county with a population under 100,000 only if the governing body thereof so elects by the adoption of a resolution to such effect. If a county with a population under 100,000 does not elect to participate financially in the services provided under this division, the state shall provide voluntary care, and services pursuant to Part 1 (commencing with Section 5000) of this division, in state hospitals for the residents of the county; and the cost of such care, except to the extent a patient is able to pay, shall be paid by the state.

For the purposes of this section the population of a county shall be that determined by the Department of Finance in accordance with the July 1 provisional estimates of county population for the fiscal year in which the county plan is to be adopted.

5710. City-operated Short-Doyle programs paid by the state under the provisions of Section 5615 shall be directly funded on the basis of a 90 percent state—10 percent city cost-sharing formula.

5711. A city Short-Doyle program may also serve as a contractual provider of services under the provisions of a County Short-Doyle Plan.

5712. Expenditures incurred for the items specified in Section 5704, shall, in accordance with the regulations of the Director of Mental Hygiene, be subject to payment whether incurred by direct or joint operation of such facilities and services, by provisions therefor through contract, or by other arrangement pursuant to the provisions of this division. The Director of Mental Hygiene may make investigations and audits of such expenditures as he may deem necessary.

5713. In determining the amounts which may be paid, fees paid by persons receiving services or fees paid on behalf of such persons by the federal government, by the California Medical Assistance Program set forth in Chapters 7 (commencing with Section 14000) and 8 (commencing with Section 14500) of Part 3 of Division 9, and by other public or private sources, shall be deducted from the costs of providing services. Whenever feasible, mentally disordered persons who are eligible for mental health services under the California Medical Assistance Program shall be treated in a facility approved for reimbursement in that program.

5714. Of the funds allocated to each county in accordance with Sections 5704 to 5708, inclusive, there shall be reimbursed to each county 90 percent of the amount required by that county to carry out its local mental health activity in accordance with the approved County Short-Doyle Plan required by Chapter 2 (commencing with Section 5650) of this part. So much of each county allocation as is required to care for patients in state hospitals shall be retained by the state and used to support such hospitals. During fiscal year 1969–70 such reimbursement shall be for three-month periods, commencing with the July, August, and September of that year. During fiscal year 1970–71, such reimbursement shall be for two-month periods commencing with the July–August period of that year. During fiscal year 1971–72, and thereafter, such reimbursement shall be for one-month periods.

Claims for reimbursement shall be presented within 60 days after the close of the period for which such reimbursement is sought.

5714.1. Claims for state reimbursement shall be made in such form and in such manner as the Director of Mental Hygiene shall determine. When certified by the Director of Mental Hygiene, claims for state reimbursement shall be presented to the State Controller for payment. The State Controller shall make such audit as he deems necessary, before or after disbursement, for the purpose of determining that such reimbursement is for expenditures made for the purposes and under the conditions authorized under this part.

Each claim for state reimbursement shall be payable from the appropriation made for the fiscal year in which the expenses upon which the claim is based are incurred, except that each claim for reimbursement for the last three-month period of the 1969–1970 fiscal year, for the last two-month period of the 1970–1971 fiscal year, and for the last one-month period of the 1971–1972 fiscal year, shall be payable from the appropriation made for the fiscal year next succeeding that in which the expenses upon which the claim is based are incurred.

5714.2. Each claim for state reimbursement by a city or county for the fourth quarter of the 1968–1969 fiscal year under Division 8 (commencing with Section 9000) of this code, as it read immediately prior to the operative date of the repeal of that division enacted at the 1967 Regular Session of the Legislature, shall be made, paid, and audited pursuant to that division and the regulations promulgated thereunder, and such provisions shall remain in effect for the purpose of this section until such claims are made, paid, and audited.

5715. Expenditures subject to payment shall include expenditures for the items specified in Section 5704; salaries of personnel; approved facilities and services provided through contract; operation, maintenance and service costs; depreciation of county facilities as established in the state's uniform accounting manual; expenses incurred under this act by members of the Conference of Local Mental Health Directors for

attendance at regular meetings of such conferences; and such other expenditures as may be approved by the Director of Mental Hygiene. It shall not include expenditures for initial capital improvements; the purchase or construction of buildings except for such equipment items and remodeling expense as may be provided for in regulation of the Department of Mental Hygiene; compensation to members of a local mental health advisory board (except actual and necessary expenses incurred in the performance of official duties); or expenditures for a purpose for which state reimbursement is claimed under any other provision of law.

5716. The provisions of subdivision (c) of Section 14000 shall not be construed to prevent providers of mental health services pursuant to this part from also being providers of medical assistance mental health services for the purposes of Chapter 7 (commencing with Section 14000) and Chapter 8 (commencing with Section 14500) of Part 3 of Division 9. Clinics providing mental health services pursuant to this part shall not be required to be licensed as a condition to reimbursement for providing such medical assistance mental health services.

5717. Fees shall be charged in accordance with the ability to pay for mental health services rendered but not in excess of actual cost.

5718. Charges shall be made for services rendered to each mentally disordered person or patient affected with alcoholism under a County Short-Doyle Plan in accordance with this section. Charges for the care and treatment of each such patient receiving service under a County Short-Doyle Plan shall not exceed the actual cost thereof as determined by the Director of Mental Hygiene in accordance with standard accounting practices. The director is not prohibited from including the amount of expenditures for capital outlay or the interest thereon, or both, in his determination of actual cost. The responsibility of a patient, his estate, or his responsible relatives to pay such charges and the powers of the director with respect thereto shall be determined in accordance with Article 4 (commencing with Section 7275) of Chapter 3 of Division 7 of this code.

The director may delegate to each county all or part of the responsibility for determining the liability of patients rendered services under a County Short-Doyle Plan other than in a state hospital, and of their estates or responsible relatives to pay such charges, and all or part of the responsibility for collecting such charges. If such responsibility is delegated by the director, he shall establish and maintain the policies and procedures for making such determinations and collections, and each county to which the responsibility is delegated shall comply with such policy and procedures.

Each county shall furnish the Director of Mental Hygiene with such information as he shall require to enable him to establish and maintain a cost reporting system of the costs of mental health services in the county, except state hospitals,

funded in whole or in part by state funds. Each county shall maintain records containing such information and in such form as the director shall require for the purposes of this section.

Pending the development of a cost reporting system, the director shall prepare and adopt a uniform patient fee schedule to be used in all mental health agencies for services rendered to each mentally disordered patient and each patient afflicted with alcoholism. In preparing such uniform patient fee schedule, the director shall take into account the existing charges for state hospital services and those for Short-Doyle Act community mental health program services. If the director determines that it is not practicable to devise a single uniform patient fee schedule applicable to both state hospital services and services of other mental health agencies, he may adopt a separate fee schedule for state hospital services which differs from the uniform patient fee schedule applicable to other mental health agencies. Such patient fee schedules shall not be used after the development and implementation of the cost reporting system provided for in this section or after December 31, 1971, whichever occurs first.

5719. To continue county expenditures for legal proceedings involving mentally disordered people and persons with alcoholism, the following costs incurred in carrying out Part 1 (commencing with Section 5000) of this division shall be non-state-reimbursable charges:

(a) The costs involved in bringing a person in for 72-hour treatment and evaluation;

(b) The costs of court proceedings for court-ordered evaluation, including the service of the court order and the apprehension of the person ordered to evaluation when necessary;

(c) The costs of court proceedings in cases of appeal from 14-day intensive treatment;

(d) The cost of conservatorship investigation and legal proceedings in conservatorship;

(e) The court costs in postcertification proceedings;

(f) The cost of providing a public defender or other court-appointed attorneys in proceedings for those unable to pay.

CHAPTER 4. OPERATION AND ADMINISTRATION

5750. The State Department of Mental Hygiene shall administer this division and shall adopt standards for approval of mental health services, and rules and regulations necessary thereto; provided, however, that such standards, rules and regulations shall be adopted only after consultation with both the citizens advisory council and the California Conference of Local Mental Health Directors. Adoption of such standards, rules and regulations shall require approval by the California Conference of Local Mental Health Directors by majority vote of those present at an official session.

If the conference refuses or fails to approve standards, rules, or regulations submitted to it by the department for its approval, the department may submit such standards, rules,

or regulations to the conference at its next semiannual meeting, and if the conference again refuses to approve them, the matter shall be referred for decision to a committee composed of the Administrator of the Health and Welfare Agency, the Director of Mental Hygiene, the President of the California Conference of Local Mental Health Directors, the Chairman of the Citizens Advisory Council, and a member designated by the State Health Planning Council.

5751. The State Director of Mental Hygiene, after approval by the California Conference of Local Mental Health Directors, shall by regulation establish standards of education and experience for professional and technical personnel employed in mental health services and for the organization and operation of mental health services. Regulations pertaining to the qualifications of directors of local mental health services shall be administered in accordance with Section 5608. Such standards may include the maintenance of records of services, finances and expenditures, which shall be reported to the State Department of Mental Hygiene in a manner and at such times as it may specify.

The regulations shall be adopted in accordance with the Administrative Procedure Act, Chapter 4 (commencing with Section 11370) of Part 1 of Division 3 of the Government Code.

5752. The director shall review each County Short-Doyle Plan to determine that:

(a) It complies with the requirements of this division and with the standards adopted under this division;

(b) That the most effective and economical use will be made of available public and private mental health resources in the county or counties;

(c) The five-year plan for community mental health services has been adequately prepared. The director shall insure that careful consideration is given to the most effective and economical alternative forms and patterns of services;

(d) Adequate provisions have been made for review and evaluation of the services provided in the county or counties.

5753. The director shall allocate funds to pay approved County Short-Doyle Plans, and to finance services in state hospitals according to the provisions of this part.

5754. The director shall require modifications in the County Short-Doyle Plan which he deems necessary to bring the plan into conformance with the provisions of this division.

5755. By October 1, 1970, the State Department of Mental Hygiene shall adopt a five-year state plan for community mental health services. The state plan shall consider the community mental health needs set forth in the county plans and shall include a system of priorities for allocating state mental health funds to the counties. The director shall consult with the California Conference of Local Mental Health Directors and the Citizens Advisory Council in developing the state plan. The state plan shall be reviewed and revised as necessary to pro-

vide a basis for allocating mental health funds throughout the state. The state plan and the system of priorities shall encourage innovations by county mental health programs.

5756. The director shall submit to the Legislature, no later than January 1, 1969, a statement of goals to be achieved in California's mental health system and proposals as to how the system can be evaluated to determine the relative effectiveness of the various services in accomplishing the desired goals.

5757. There is hereby established the California Conference of Local Mental Health Directors, with which the Director of Mental Hygiene shall consult in establishing standards, rules, and regulations pursuant to this division.

5758. The California Conference of Local Mental Health Directors shall consist of all regularly appointed directors of community mental health services and program chiefs as defined by regulation. It shall organize and shall annually elect a president, a vice president, and a secretary, who shall serve as the executive committee of the conference. The president of the conference, after consultation with the Director of Mental Hygiene, may appoint, for the purpose of advising the director, such other committees of the conference as may from time to time be necessary.

5759. Meetings of the conference for the purposes of this division shall be called by the Director of Mental Hygiene, who shall give the members at least 10 days' notice of such meetings. At official sessions of meetings of the conference the president of the conference shall preside; provided, however, that the conference may hold additional sessions as may be determined by the executive committee of the conference at which the president or other members of the conference shall preside. Each community mental health service shall have one vote cast by the director or his designee.

5760. Actual and necessary expenses incurred by a member as incident to his attendance at meetings of the conference shall be a legal charge against the local government unit which he represents. Actual and necessary expense incurred by members of the conference incident to attendance at special meetings of the committees of the conference called by the Director of Mental Hygiene shall be a legal charge against any funds available for the administration of this division.

5761. The State Department of Mental Hygiene, after approval by the California Conference of Local Mental Health Directors, may provide for consultant and advisory services and for the training of technical and professional personnel in educational institutions and field training centers approved by the department and for the establishment and maintenance of field training centers.

5762. The President of the California Conference of Local Mental Health Directors, for the purposes of this division, may, after consultation with the Director of Mental Hygiene, appoint such psychiatric and such other consultants as may be deemed necessary who shall serve without pay but who shall

receive actual and necessary travel and other expenses incurred.

5763. There is a Citizens Advisory Council to advise and assist the Director of Mental Hygiene in carrying out the provisions of this division.

The council shall consist of fifteen (15) appointed voting members. Each of the following professions shall be represented by one member: general medicine, general psychiatry, child psychiatry, psychology, social work, sociology, law, and nursing. The Speaker of the Assembly shall appoint the following three (3) members of the council: a representative of the profession of sociology; a member of the California Conference of Local Mental Health Directors; and a representative of the general public.

Of the members first appointed by the Governor, three shall hold office for three years, three shall hold office for two years, and three shall hold office for one year. Of the members first appointed by the Speaker of the Assembly, one shall hold office for three years, one shall hold office for two years, and one shall hold office for one year. Of the members first appointed by the Chairman of the Senate Rules Committee, one shall hold office for three years, one shall hold office for two years, and one shall hold office for one year. Thereafter, each member shall hold office for three years.

The members of the Citizens Advisory Council shall serve without compensation but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this chapter.

The Citizens Advisory Council shall meet at least quarterly, and on call of the council chairman as often as necessary to fulfill its duties. All meetings and records of the Citizens Advisory Council shall be open to the public.

The Citizens Advisory Council shall, by majority vote of the voting members, elect its own chairman from among the 15 appointed members, and shall establish such committees as it deems necessary or desirable. The council chairman shall ap-

point all members of committees of the Citizens Advisory Council.

5764. The powers, duties, and responsibilities of the Citizens Advisory Council shall include the following:

(a) To advise the Director of Mental Hygiene on the development of the state five-year mental health plan and the system of priorities contained in that plan.

(b) To periodically review all mental health services in California, conducting independent investigations and studies as necessary. The Citizens Advisory Council may prepare such reports as necessary to the Governor, the Legislature, the Director of Mental Hygiene, and the State Health Planning Council.

(c) To suggest rules, regulations and standards for the administration of this division.

(d) To encourage, whenever necessary and possible the coordination on a regional basis of community mental health resources, with the purpose of avoiding duplication and fragmentation of services.

(e) To mediate disputes between counties and the state arising under this part.

5765. The state five-year mental health plan shall be submitted to the Health Planning Council for review and recommendations as to conformance with California's comprehensive statewide health plan. The state five-year mental health plan shall be submitted on an annual basis or as often as there are amendments or changes thereto.

It is the intent of the Legislature to carefully review the state five-year mental health plan prior to the adoption of the budget in the 1970–1971 fiscal year. To this end, the Department of Mental Hygiene shall report to the Legislature on the plan and any changes therein no later than the fifth legislative day of the 1970 Regular Session and each subsequent regular session of the Legislature.

5766. The Citizens Advisory Council may utilize such staff of the central and regional offices of the Department of Mental Hygiene as are available, and such staff of all other public or private agencies which have an interest in the mental health of the public and which are able and willing to provide such services.

5767. All departments of state government, as well as each facility named in the County Short-Doyle Plan, are encouraged to cooperate with, and provide such information, records, documents, and studies as the Citizens Advisory Council may request.

SEC. 3. Section 48 of Chapter 1667 of the Statutes of 1967 is amended to read:

CHAPTER 991

An act to add Chapter 5 (commencing with Section 55700) to Part 2 of Division 2 of Title 5 of the Government Code, relating to tax sharing by local agencies, and calling a special election for that purpose.

[Approved by Governor August 3, 1968. Filed with Secretary of State August 3, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 55700) is added to Part 2 of Division 2 of Title 5 of the Government Code, to read:

CHAPTER 5. TAX SHARING

Article 1. Bradley-Burns Revenues

55700. As used in this article, "local agency" means a county, city and county, and city, both chartered and general law.

55701. As used in this article, "legislative body" means the board of supervisors in the case of a county or city and county and the city council or board of trustees in the case of a city.

55702. As used in this article, "revenue" means revenue derived from the tax collected pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law provided for in Part 1.5 (commencing with Section 7200) of Division 2 of the Revenue and Taxation Code.

55703. Except as specifically provided in this article, and unless the context otherwise requires, terms used in this article shall have the same meaning as the meaning accorded them in

the Sales and Use Tax Law provided for in Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code.

55704. In any case in which a legislative body, by resolution, determines that one or more retailers have been established, or will be established, in one local agency and that consumers residing in one or more other local agencies are, or will be, purchasing tangible personal property from such retailers to the extent that equity requires the revenues of such local agency be distributed in a fair and just manner to all local agencies concerned, a contract may be entered into pursuant to this article to apportion the revenue of the local agency in which such retailers are located. Each local agency desiring to become a party to such a contract, shall, by resolution, so state and name the party authorized by the local agency to sign the contract on the agency's behalf.

55705. The apportionment of revenue pursuant to this article shall be on such terms as the parties may agree pursuant to a contract signed by the individuals authorized by the resolution of each legislative body of a local agency which is a party thereto.

55706. A copy of the contract and a copy of each resolution shall be transmitted to the auditor, or officer holding the equivalent position, of each local agency which is a party to the contract. Thereafter, upon the receipt of revenues transmitted by the State Board of Equalization pursuant to Section 7204 of the Revenue and Taxation Code, the auditor or equivalent officer shall allocate the funds pursuant to the terms of the contract.

SEC. 2. (a) A special election is hereby called to be held throughout the state on the fifth day of November, 1968. The special election shall be consolidated with the general election to be held on the same date Such consolidated election shall be held and conducted in all respects as if there were only one election and only one form of ballot shall be used. At such consolidated election there shall be submitted to the electors, in addition to such other measures as may be submitted in accordance with law, the constitutional amendment to add Section 25 5 to Article XIII of the Constitution to provide a system of local tax sharing, as proposed by Assembly Constitutional Amendment No. 36 of the 1968 Regular Session of the Legislature. Except as otherwise provided in this section, all of the provisions of law applicable to the submission of constitutional amendments proposed by the Legislature and to arguments for and against such measures shall apply to the measure submitted pursuant to this section.

(b) Within five days after the effective date of this section, or within five days after the adoption by the Legislature of Assembly Constitutional Amendment No. 36 of the 1968 Regular Session, whichever occurs later, the author of the constitutional amendment and one member of the opposite house who voted with the majority on the amendment, shall be ap-

pointed by the presiding officers of the respective houses to draft the argument for the adoption of the measure. If the constitutional amendment was not adopted unanimously by the house in which it was introduced, one member of that house, who voted against it, shall be appointed by the presiding officer of that house to write an argument against the measure. If there was no negative vote on the measure in the house in which it was introduced, the presiding officer of that house shall appoint some qualified person to draft an argument against the measure. No argument shall exceed 500 words. All such arguments shall be filed with the Secretary of State within 10 days after the effective date of this section, or within 10 days after the adoption by the Legislature of Assembly Constitutional Amendment No. 36 of the 1968 Regular Session, whichever occurs later.

(c) Upon the effective date of this section or upon the adoption by the Legislature of Assembly Constitutional Amendment No. 36 of the 1968 Regular Session, whichever occurs later, the Secretary of State shall request the Attorney General to prepare a ballot title for the measures submitted pursuant to this section and shall also request the Legislative Counsel to prepare an analysis of said measure in accordance with Section 3566 of the Elections Code. Said title and said analysis shall be filed with the Secretary of State within 10 days after the effective date of this section, or within 10 days after the adoption by the Legislature of Assembly Constitutional Amendment No. 36 of the 1968 Regular Session, whichever occurs later. The measure submitted pursuant to this section shall be designated on the ballots at the election by its ballot title.

(d) This section calls an election within the meaning of Article IV of the Constitution and shall go into immediate effect.

SEC. 3. Section 1 of this act shall become operative only if the addition of Section 25.5 to Article XIII of the Constitution of the State of California proposed by Assembly Constitutional Amendment No. 36 of the 1968 Regular Session of the Legislature is approved by the voters; in which case, Section 1 of this act shall become operative on January 1, 1969.

SEC. 4. The Legislature finds and declares that new shopping centers continue to open, as merchants strive to keep pace with California's rapid development. Frequently, these new shopping centers draw their patrons from a wide area which reaches far outside the boundaries of the local agency in which the shopping center is located. When this occurs, the surrounding cities and unincorporated areas experience a sharp drop in retail sales, which causes a corresponding reduction in sales tax revenues in adjacent entities of local government. It has sometimes happened that newer, more elaborate shopping areas have opened and superseded relatively new shopping centers in popularity, causing local agencies which experienced a short term gain in sales tax revenues to impose additional bur-

densome property taxes to provide the same level of services.

In order to ease these unpredictable fluctuations in local sales tax revenues and in order to enable the electors to vote on this matter at the earliest opportunity, it is necessary that this act provide for the submission to the voters of Assembly Constitutional Amendment No. 36 on November 5, 1968.

CHAPTER 992

An act to add Sections 20812, 20813, and 20814 to the Education Code, relating to school district taxes, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 20812 is added to the Education Code, to read:

20812. For the purpose of providing funds for the repair of school buildings, underground gas lines, underground water lines, and underground utility lines that were constructed or installed at least 15 years prior to the date of the adoption of the annual school district budget, and to replace or repair equipment of the district, except school buses, on which guaranties and warranties have expired, school district taxes may be levied, if approved at an election as provided in Section 20803, and collected annually at the same time and in the same manner as other district taxes are levied and collected. The tax shall be in addition to any other district tax now or hereafter authorized by law, and shall not be considered in fixing maximum rates of tax for school district purposes. The moneys received from such taxes shall be deposited in the county treasury to the credit of the school district repair and maintenance fund, the establishment of which is hereby authorized.

The tax authorized by this section shall not exceed fifteen cents ($0.15) on each one hundred dollars ($100) of the assessed valuation of property within the district in each fiscal year.

If at the end of any school year, there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school years for expenditures of the school district required for purposes of this section.

If at the end of any school year, the total balance in the fund exceeds the amount which would be produced if a tax of forty-five cents ($0.45) on each one hundred dollars ($100) of assessed valuation of property within the district was levied in that school year, no tax authorized by this section shall be levied in the succeeding school year.

Any interest earned on the revenue of the increase in tax rates hereby provided shall be credited to such fund until the fund reaches the maximum limit specified in the preceding paragraph. Any interest earned thereafter shall be credited to the general fund of the school district.

Any interest earned on such revenue shall not be considered as miscellaneous income to the school district.

SEC. 2. Section 20813 is added to the Education Code, to read:

20813. The maximum rate of school district tax for any school district is hereby increased by such amount as will, when levied against each one hundred dollars ($100) of assessed value of property in the district, produce the amount necessary to recover any loss in revenues suffered and not recouped in the prior fiscal year through the omission to levy statutory maximum tax rate increases required to be levied under Sections 6913.1, 11706, 14210, 14214, 19443, 19619, 20801, 20801.5, 20807, 20808, and 25541.5 of this code, and Section 20532 of the Government Code.

The provisions of this section shall be operative only for the 1968–69 school year and shall have no force or effect thereafter.

SEC. 3. Section 20814 is added to the Education Code, to read:

20814. For purposes of any law requiring the maximum tax rate of a school district to be fixed on the basis of the revenues received by the district, whether from state subventions or local taxation, or both, the county superintendent of schools shall adjust such revenue factor to produce a higher maximum tax rate which will reflect the lower revenues received by the district as a result of any omission to levy the statutory maximum tax rate increases required to be levied under Section 20813 in any fiscal year. Such additional revenue shall be placed in the general fund of the district.

The provisions of this section shall be operative only for the 1968–69 school year and shall have no force or effect thereafter.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A number of school districts are faced with critical financial needs for the 1968–1969 fiscal year, which can be provided for under the provisions of this act. In order that the taxing authority afforded by this act may be availed of by such districts immediately following the beginning of the 1968–1969 fiscal year, it is essential that this act take effect immediately.

CHAPTER 993

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

7555. Upon request of the governing board of any school district, the State Board of Education may, for a number of years to be specified by the board, grant the district exemption from one or more of the course of study requirements set forth in this division. The exemption may be renewed. Any test so adopted shall be in national use and nationwide norms shall have been developed for such test. Pupils who have been determined to be mentally retarded or educationally handicapped, as defined in this code, shall be exempted from the testing requirement imposed by this chapter.

The testing program imposed by this chapter shall be used exclusively for the purposes herein set forth, and no test scores or results shall be employed to rank school districts according to their test results in any publication, other than a publication which may be made necessary in order to effectively administer this chapter.

The tests administered pursuant to this article shall be employed to determine each school district's quota of specialist reading teachers, as required by Article 4 (commencing with Section 7790) of this chapter and Chapter 10 (commencing with Section 12851) of Division 9.

SEC. 1.5. For the 1967–68 school year and school years thereafter any school district in which forty percent (40%) or more of the first grade pupils received scores falling below the first quartile of scores established on a statewide basis for the reading section of the statewide achievement test given during the preceding school year pursuant to Chapter 9 (commencing with

For the 1967–68 school year and school years thereafter any school district in which forty percent (40%) or more of the first grade pupils received scores falling below the first quartile of scores established on a statewide basis for the reading section of the statewide achievement test given during the preceding school year pursuant to Chapter 9 (commencing with Section 12820) of Division 9, the basic quota established pursuant to Section 5781 shall be increased as ordered by the Department of Education following an investigation of the circumstances of the district.

7805.1. Beginning with 1968–69 fiscal year a district not eligible pursuant to Section 7790 may apply for an allowance for the employment of specialist teachers. The application shall be made pursuant to the provisions of Section 7805, but shall also provide assurance that the district has funds to meet one-half of the cost of employing specialist teachers.

Allowance approved under this section shall be one-half of the amount computed pursuant to Section 7808, except that no amount shall be allowed as salary allotments for professional school librarians.

SEC. 4. Section 7805.5 of the Education Code is amended to read:

7805.5. Pursuant to its authority under Section 7772, the State Board of Education shall adopt, by rules and regulations, minimum standards of course content for basic reading programs authorized by this chapter, and criteria to be used by the Superintendent of Public Instruction in approving district applications for funds pursuant to Section 7805. No allowance for a special reading program shall be made to a school district unless the Superintendent of Public Instruction approves the district application and certifies that the minimum standards and criteria of the State Board of Education are met by the district.

Beginning with the 1969–1970 fiscal year and each fiscal year therafter, the Superintendent of Public Instruction shall notify each district of his action on the application, including the estimated allowance to be provided based upon the application filed pursuant to Section 7805. Such notice shall be given to each district prior to September 1 following the receipt of the application. The total of the estimated allowances determined pursuant to this section for all applicant districts shall not exceed the funds appropriated therefor.

The superintendent shall not disapprove any application on the basis of the methodology of providing basic reading instruction pursuant to this chapter which the school district has selected.

SEC. 5. Section 7807 of the Education Code is amended to read:

7807. Allowances under this article shall be made by the Superintendent of Public Instruction in accordance with a system of priorities that he shall by rule and regulation adopt, designed to carry out the intent and purpose of the Legislature stated in Section 7771.

The system shall be designed to give priority to districts in the following order:

(a) First, to insure that the districts participating in the program during the preceding fiscal year, which continue to be eligible, will not be required to reduce programs below the level of the preceding year.

(b) Second, to insure that applications for expansion of programs and applications for new programs in eligible districts be considered on a priority basis in terms of the percent of pupils in the district receiving scores in the first quartile of scores established on a statewide basis for the reading tests administered pursuant to Article 3 (commencing with Section 7785) of this chapter to the extent that appropriations will allow.

(c) Third, to insure, to the extent that appropriations allow, consideration of applications made pursuant to Section 7805.5 under the same priority basis established in subdivision (b) of this section.

Beginning with the 1969–70 fiscal year and each fiscal year thereafter, the Superintendent of Public Instruction shall determine and use the relative need of the district for specialist teachers as measured by the percentage of pupils in grades 2 and 3 that, based upon test results in grade 1 administered pursuant to Article 3 (commencing with Section 7785) of this chapter, failed to progress at least one year for each year in school.

The Superintendent of Public Instruction shall make no allowances in any year in excess of the amount appropriated by the Legislature for the purposes of this chapter.

If the Superintendent of Public Instruction finds that the school district failed to conduct the program in full or in part as previously approved, the allowances shall be corrected accordingly.

SEC. 8. Section 5779 of the Education Code, as proposed by Senate Bill No. 1, is amended to read:

5779. Commencing with the school years 1965–66, the State Board of Education shall require that uniform tests to determine achievement of basic reading fundamentals and skills shall be administered to all pupils who are completing the first and second grades. The State Board of Education shall adopt rules and regulations governing the time, place and methods for administration of the testing program.

The State Board of Education shall determine the form in which the results of uniform tests under this article shall be reported to the Department of Education, and beginning with the tests administered in the 1968–69 school year to second and third grade pupils, shall require, in addition to reports presently required for purposes of Section 5782, and as based on publishers' norms, that such reports include a distribution, based on first grade test results, of the number of months of progress achieved for each year the pupils have been in school.

10960. Within 30 days after receiving the proposed decision of a referee adopted by the director or a decision issued by the director himself, the affected county or applicant or recipient may file a request with the director for a rehearing and the director, within 10 days after receipt of the request, shall grant or deny the request. If the director grants the request, the rehearing shall be conducted in the same manner and subject to the same time limits as the original hearing. If action is not taken by the director within the time allowed, the request shall be deemed denied.

SEC. 2. Section 10962 of the Welfare and Institutions Code is amended to read:

10962. The applicant or recipient or the affected county, within one year after receiving notice of the director's final decision, may file a petition with the superior court, under the provisions of Section 1094.5 of the Code of Civil Procedure, praying for a review of the entire proceedings in the matter, upon questions of law involved in the case. Such review, if granted, shall be the exclusive remedy available to the applicant or recipient or county for review of the director's decision. The director shall be the sole respondent in such proceedings.

No filing fee shall be required for the filing of a petition pursuant to this section. Any such petition to the superior court shall be entitled to a preference in setting a date for hearing on the petition. No bond shall be required in the case of any petition for review, nor in any appeal therefrom. The applicant or recipient shall be entitled to reasonable attorney's fees and costs, if he obtains a decision in his favor.

CHAPTER 1009

An act to amend Section 16 of, and to add Section 6.3 to, the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), and to amend Section 55668.1 of the Water Code, relating to the Ventura County districts engaged in flood control or water supply activities.

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 16 of the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session) is amended to read:

Sec. 16. If the issuance of the bonds is authorized at said election, the said board of supervisors may thereafter adopt a resolution or resolutions providing for the issuance of all or any part of the bonds authorized at said election. Said resolution shall prescribe the form of the bonds and of the interest coupons attached thereto, and shall fix the times of the maturities of the bonds. The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The board may fix a date, not more than 10 years from the date of issuance, for the earliest maturity of each issue or series of bonds, and defer the payment of the first installment of principal of each issue or series of bonds accordingly. Beginning with the date of the earliest maturity of each issue or series, not less than one-fortieth of the principal amount of such issue or series shall be paid every year; provided, however, the bonds of any issue or series may be made to mature and become payable in approximately equal total annual installments of principal and interest during the term of the bonds, computed from the first year in which any part of the principal shall mature to the date of final maturity, which annual installments may vary one from the other in amounts not exceeding in any year more than 5 percent of the total principal amount of the bonds of such issue or series thereof then proposed to be issued. The final maturity date of any bond shall not exceed 40 years from the date of the bond. The board may provide call and redemption of all or any part of any issue or series of bonds before maturity at prices determined by the board. No bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect.

The bonds may be issued in such denomination or denominations as the board of supervisors may prescribe, and each bond shall be payable on the day and at the place fixed in said bonds, and with interest at the rate specified in such bond, which rate shall not be in excess of six percent (6%)

per annum, and shall be payable annually or semiannually. Said bonds shall be signed by the chairman of the board of supervisors, and countersigned by the auditor of said Ventura County, and the seal of said district shall be affixed thereto. The interest coupons of said bonds shall be numbered consecutively and signed by the Auditor of Ventura County by his engraved or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 3. Section 6.3 is added to the Ventura County Flood Control Act (Chapter 44 of the Statutes of 1944, Second Extraordinary Session), to read:

Sec. 6.3. The board of supervisors is authorized and empowered at any time and from time to time to annex territory to or withdraw territory from a special zone or to terminate a special zone after payment of all debts of said zone. Annexation to or withdrawal of territory from a special zone or termination after payment of all debts of a special zone may be accomplished on order of the board after notice and public hearing before the board and findings by the board as hereinafter indicated. In the case of a proposed annexation of territory to a special zone, notice of the hearing shall be published in a newspaper of general circulation within the territory proposed to be included within said special zone, if there be one, otherwise notice of the meeting shall be posted in at least seven places within the territory proposed to be included within said special zone. In the case of a proposed withdrawal of territory from or termination of a special zone, notice of the hearing shall be published in a newspaper of general circulation within said special zone, if there be one, otherwise notice of the meeting shall be posted in at least seven places within said special zone. Said notice shall describe the boundaries of the existing special zone and the boundaries of the territory proposed to be annexed or withdrawn from said zone, as the case may be, and shall contain a general statement of the nature of the work proposed to be done. At the hearing any interested party may appear and protest the proposed change. In the case of a proposed annexation if in the opinion of the board the territory proposed to be annexed will receive a special benefit from annexing to a special zone, the board shall enter its order annexing such territory to said zone. In the case of a proposed withdrawal or termination if in the opinion of the board the territory proposed to be withdrawn will receive no special benefit from remaining in the special zone or the land included within a special zone has no outstanding debts and will receive no special benefit from continuation of the zone, as the case may be, the board shall enter its order withdrawing such territory from the special zone or

terminating the special zone as the case may be. Any territory annexed to a special zone shall be liable for payment of principal and interest and any other amounts which shall become due on account of any outstanding or then authorized but thereafter issued bonds or any thereafter authorized or incurred contractual or other obligations or expenses of said special zone and shall be subject to the levying or fixing and collection of any special zone taxes or assessments or fees or charges or all of them, including but not limited to taxes or assessments pursuant to Sections 6.2 and 19 of this act for payment of principal and interest on any bonded indebtedness of the special zone, as may be necessary to provide for such payment. Any territory withdrawn from a special zone shall remain liable for payment of principal and interest on any outstanding or then authorized and issued bonds of the special zone and discharge of contractual or other obligations or expenses existing or authorized prior to such withdrawal and shall be subject to the levying or fixing and collection of any special zone taxes or assessments or fees or charges or all of them, including but not limited to taxes or assessments pursuant to Sections 6.2 and 19 of this act for payment of principal and interest on any bonded indebtedness of the special zone, as may be necessary to provide for such payment. All assets of a special zone which is terminated shall be paid to the general fund of and belong to the zone within which the terminated special zone shall have been situated.

SEC. 4. Section 55668.1 of the Water Code is amended to read:

55668.1. If the board determines that property (hereinafter called the "benefited property") within the district is receiving service from improvements which do not benefit the district as a whole and such benefited property is not obligated to pay for any portion of such improvements by means of a special rate or special tax but other property within the district is paying for such improvements by a special rate or tax, and if the board determines further that unless such benefited property is obligated to pay its pro rata share of the cost of improvements it will benefit unjustly and cast an inequitable burden on the property paying for such improvements, the board, after public hearing to determine the benefited property, by resolution adopted by $\frac{4}{5}$ vote of all of its members, may declare a special zone formed, describing the boundaries of the benefited property and the board thereupon shall be authorized to fix and collect a special rate or charge so that such benefited property shall pay its pro rata share of the capital cost of such improvements.

This section shall remain in effect until the 61st day after the final adjournment of the 1970 Regular Session of the Legislature, and shall have no force or effect after that date.

This section shall only apply to the Ventura County Waterworks District No. 6. It is hereby declared to be necessary to

enact this special law with respect to such district because of special facts and circumstances existing therein:

Due to inadvertence, a portion of the district, although receiving the benefits of certain public improvements acquired by the district, is not included within the area of the district which is being assessed to pay the bond interest and principal of the bonds issued to finance acquisition of the public improvements. Under existing law no zone can be created unless a petition is presented by owners representing at least 25 percent of the total assessed valuation of the real property within such proposed zone. Property owners of the benefited land will not request that they be made part of the existing zone and be subject to assessments for their pro rata share of the improvement costs. Thus, this special law is necessary in order to require the owners of land, benefited by the improvements but excluded from the existing zone, to pay their pro rata share of the cost of such improvements.

SEC. 5. The provisions in Section 1 of this act amending Section 16 of the Ventura County Flood Control Act to the effect that the board may provide for call and redemption of all or any part of any issue or series of bonds before maturity at prices determined by the board and to the effect that no bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect is intended to be declaratory of existing law.

Regional occupational centers are vitally important in the technical and vocational training programs of this state in order to prepare people for a more useful role in society. The complex administrative details involved in crediting state apportionments for pupils enrolled in regional occupational centers and in providing more adequate procedures for the construction of needed facilities necessitate that a regional occupational center be recognized as a separate entity for limited purposes. In order that regional occupational centers may be granted such status and continue their vital training programs that serve the social and economic needs of the area they serve, it is necessary that this act go into effect immediately.

The district may include land in different counties with the consent of the board of supervisors of the counties affected. The county which includes the majority of acreage in the district shall be designated the principal county. The agricultural commissioner and county officers in the principal county shall perform the acts required by the provisions of this chapter. District funds shall be deposited in the treasury of the principal county.

The provisions of Chapter 6.6 (commencing with Section 54773) of Part 1 of Division 2 of the Government Code and of the District Reorganization Act of 1965, shall not be applicable to cotton pests abatement districts organized pursuant to the provisions of this chapter.

The petition may consist of any number of separate instruments. The petition shall be signed by 25 percent of the cottongrowers or by 25 cottongrowers who grow cotton within the proposed district, whichever is less.

6053. Upon receipt of the petition, the board of supervisors shall direct the agricultural commissioner to create a reg-

ister of all cottongrowers growing cotton within the proposed district describing the net acreage of land devoted to the growing of cotton by each grower.

6054. The agricultural commissioner shall file the cottongrowers register within 60 days of receipt of the order from the board of supervisors or by March 1st whichever date is the latest. 6056. Upon receipt of the petition the board of supervisors shall immediately refer the petition to the agricultural commissioner who shall examine it by reference to the register of cottongrowers, and shall within 15 days after receiving the petition, return the petition to the board of supervisors with his certificate attached thereto certifying from the cottongrowers register that the petition qualifies as valid. The board of supervisors shall not modify the boundaries so as to exclude from the district any lands growing or capable of growing cotton which would be benefited by the formation of the district. The board of super-

The determination of the board of supervisors shall be entered upon the minutes of the meeting. The board of supervisors of the county shall annually establish a fee for a permit to grow cotton within each cotton pests abatement district situated within the county and shall issue the permit to any cottongrower who satisfies the requirements of this chapter. The board of supervisors shall determine the amount of the fee by dividing the budget by the number of acres which will be devoted to cotton production

during the ensuing growing season as reported on the register of cottongrowers submitted to the board of supervisors on March 1st of each year.

6073. The permit fee shall be entered in the minutes of the board of supervisors who shall advise the board of directors of the district of the fee per acre required for the issuance of a permit. The board of directors shall collect this fee from the applicant for a permit to grow cotton in the district. The fees shall be paid into the county treasury for the use of the district. The board of directors may provide for the method and time of payment of the fees which may be monthly, quarterly, or as otherwise determined to be reasonable. The board of directors may provide for the refund of fees, or appropriate part thereof, collected from growers who have not grown any cotton or have grown less than that for which they have a permit, insofar as such a refund would not adversely affect the programs being conducted by the district.

The board of directors shall, at the close of the district's fiscal year, refund any money not required for continuing programs that remains in the district fund on a pro rata basis to the persons from whom the fees being refunded were collected.

The board of directors shall pay the county or counties in which it is located the costs of county services performed at the request of the district. The district shall also reimburse the county or counties for services performed pursuant to Sections 6076, 6077, and 6081.

6074. The treasury of the county shall be the repository of all the moneys of the district. The county treasurer shall receive and receipt for all such moneys, and place the same to the credit of the district. Any interest earned on the district funds shall be the property of the district. He shall be responsible upon his official bond for the safekeeping and disbursement, in the manner herein provided, of all moneys of any such district so held by him. The county treasurer shall pay out the moneys of the district only upon warrants of the county auditor drawn upon the order of the board of directors of the district signed by the president of the board and attested by the secretary. The county treasurer shall report in writing on the first day of July, October, January and March of each year, to the board of directors of each district in his county, the amount of money he then holds for the district, the amount of receipts since his last report, and the amounts paid out; and each report shall be verified and filed with the secretary of the district to whom it is addressed

6075. The board of directors when prohibiting the planting, growing or maintenance of cotton plants within the boundaries of the district, shall notify persons affected by such action within 15 days. The grower within 30 days may appeal the decision of the board of directors to the board of supervisors, which may, by a majority decision, modify or rescind the decision of the board of directors.

6076. In each cotton pests abatement district, a biennial election shall be held in April of each odd-numbered year by the county clerk of the county in which a majority of the acreage in the district is contained. Notice of the election, and of the offices to be filled, shall be published in a newspaper of general circulation in the county once a week for three successive weeks before the first day of March. At the election a sufficient number of directors shall be elected to fill the places of those directors whose terms expire the first day of May immediately following the election.

The county clerk shall make declarations of candidacy available from March 1st through March 15th. Any person eligible for the office of director, desiring to be a candidate for election, shall file a declaration with the county clerk on or before March 15th. The county clerk shall certify the qualified candidates and have ballots prepared and printed. The election shall be conducted, as nearly as practicable, in accordance with the general election laws of this state.

6077. The county clerk on or before April 1st, shall mail a ballot, an identification envelope and a stamped and addressed return envelope to each cottongrower on the register submitted by the agricultural commissioner. The ballot shall indicate the number of votes and the number shall be written on the ballot by the clerk. Each cottongrower appearing on the register shall be entitled to one vote for each acre of cotton for which a valid permit to grow cotton is possessed for each office to be filled, or proposition to be voted upon, at that election. Cumulative voting is not authorized.

The ballot shall be printed in substantially the following form:

6079. Any owner of land devoted to the growing of cotton in the county where the district is situated may file a petition for inclusion in the district with the board of directors of any cotton pests abatement district, and the land may, by order of the board of directors be included within the district. 6081. Whenever the board of supervisors, by resolution, desires to dissolve the district or whenever a petition signed by not less than 25 percent of the cottongrowers within a district who are engaged in the growing of cotton, requesting the dissolution of the district is presented to and filed with the board of directors of the district, the board of directors shall submit the question of the dissolution of the district to the qualified voters of the district at the next biennial election of the district; provided, however, the board of directors shall not be required to accept a petition for the dissolution of the district within 10 days preceding any biennial election of a district. If, at the election 60 percent of the votes cast are in favor of the dissolution of the district, the directors of the district shall, within 60 days, file for record in the office of the county recorder of the county

a certified copy of an order declaring the district to be dissolved, and cease all activities, and shall proceed immediately to wind up the affairs of the district. The dissolution election procedures shall be the same as those contained in Sections 6076 and 6077.

6082. At the expiration of 90 days after the election, the board of directors shall deliver on the basis of the ratio of the acreage devoted to cottongrowing in each county in the district all property and assets in their possession belonging to the district to the agricultural commissioner of each county in the district to be held and used for the benefit of cotton production. Any funds which may be in the hands of the county treasurer to the credit of the district or to which the district may thereafter become entitled, shall be transferred to the credit of the county in which the district is located and shall be expended by the board of supervisors for the benefit of cotton production.

6083. All claims and accounts against the district which have not been settled by the board of directors within 90 days after the election authorizing the dissolution of the district shall be presented to the board of supervisors of the county in which the district was located and shall be passed and approved by them in the same manner as county claims and shall be paid out of the funds of the dissolved district. In the event that there are insufficient funds to discharge all claims and accounts, the board of supervisors shall, at the time of levying the next general county taxes, make a levy upon the net acreage devoted to the growing of cotton which was included in the dissolved district sufficient in amount to discharge all outstanding claims and accounts against the district.

CHAPTER 1031

An act to amend Section 10506 of the Insurance Code, relating to insurers.

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 10506 of the Insurance Code is amended to read:

10506. (A) Any domestic life insurance company may, after adoption of a resolution by its board of directors, allocate to one or more separate accounts, in accordance with the terms of a written agreement which shall be filed with the Insurance Commissioner for approval, any amounts which are paid to the company in connection with a pension, retirement or profit-sharing plan, or program for one or more persons, and which are to be, or may be, applied in payment or in making provision for payment under the company's policies or contracts of retirement benefits, and other benefits incidental thereto, in fixed or variable dollar amounts, or both. The income, if any, and gains or losses, realized or unrealized, on each such account shall be credited to or charged against the amount allocated to the account in accordance with the agreement, without regard to the other income, gains or losses of the company. The amounts allocated to such accounts and accumulations thereon, by any life insurance company shall be invested and reinvested as specified in the agreement, except a domestic company shall invest or reinvest only in such investments described in Article 3 (commencing with Section 1170), and Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1, or without limitation in all or any portion of the shares of an investment company or companies (as defined by the Investment Company Act of 1940, Title 15, U.S.C., Sec. 80a-1 et seq). The limitations contained in Sections 1192.4 and 1198 are not applicable to such investments. Such investments shall not be included in determining the propriety of other investments of the company. The liability of the company with respect thereto, but only to the extent prescribed in the agreement, shall be shown on the statement of the company in the manner prescribed by the commissioner. Amounts allocated by an insurance company to separate accounts in the exercise of the power granted by this section shall be owned by the company, but shall not be chargeable with liabilities arising out of any other business the company may conduct except and to the extent provided in the agreement. The company shall not hold itself out to be a trustee in respect to such amounts.

(B) In addition to amounts otherwise allocated to separate accounts, a domestic life insurer may allocate to such account or accounts amounts which otherwise would be subject to investment in accordance with Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1. The aggregate of such additional amounts shall not, however, exceed 1 percent of its admitted assets as of the preceding December 31, or 5 percent of the excess of its admitted assets over its liabilities and required reserves as of the preceding December 31, whichever is the smaller. Such company shall be entitled to withdraw at any time, in whole or in part, its participation in any separate account to which funds have been allocated as provided in this subdivision and to receive, upon with-

drawal, its proportionate share of the value of the assets of the separate account at the time of withdrawal.

(C) In addition to the allocations to separate accounts provided for in subdivision (A) of this section, a domestic insurer may, at the request of a policyholder or contractholder or the beneficiary of a policy or contract, allocate to any such separate account or accounts death payments, proceeds of matured endowments, dividends, or surrender values.

(D) Any domestic life insurance company which establishes one or more separate accounts pursuant to this section may provide for special voting rights and procedures for participants in such separate account relating to investment policy, investment advisory services, and selection of certified public accountants in relation to the administration of the assets in any such separate account. Such voting rights shall be in addition to, and shall not affect, voting rights of mutual insurers.

(E) The purpose and intent of this section is to permit the issuance and delivery of policies or contracts, in connection with a pension, retirement or profit-sharing plan, or program for one or more persons, providing for the payment of benefits in fixed or variable amounts, or both, and the establishment of separate accounts by domestic companies for the administration of and investments under such agreements. To protect the public and policyholders located in this state from hazardous operation by domestic and foreign companies, and to further the purpose and provision of this section, no domestic or foreign life insurance company shall undertake the issuance of any contract providing for variable benefits until said company has satisfied the commissioner that it has been engaged in transacting the business of life insurance for a period of at least two years and that its condition or method of operation in connection with the issuance of such contracts will not be such as would render its operation hazardous to the public or its policyholders in this state. In determining the qualification of a company requesting authority to issue contracts providing for variable benefits within this state the commissioner will consider among other things, (a) the history of the company; (b) the character, responsibility and general fitness of the officers and directors of the company; and (c) the regulation of a foreign company by its state of domicile. The commissioner may make such reasonable rules and regulations as he considers necessary, proper and advisable concerning the issuance and delivery of such policies and contracts and the payment of benefits thereunder and the manner in which the separate accounts shall be administered.

Provided, however, that no company may provide variable benefits in its contracts unless it is an admitted insurer meeting, at the time it obtains approval from the Insurance Com-

missioner in accordance with subdivision (E), one or more of the following criteria:

1. It is a domestic insurer and has combined capital and surplus of at least five million dollars ($5,000,000) and has been admitted to California and under the same management for at least five years.

2. It is an admitted insurer and has combined capital and surplus of at least sixteen million dollars ($16,000,000) or admitted assets of at least two hundred fifty million dollars ($250,000,000).

3. It is an admitted insurer which has been admitted to California for at least five years and is presently controlled by: (a) an admitted insurer (owning 50 percent or more of its voting shares) which meets the criteria of paragraph 2 of this subdivision, or (b) an investment advisor (owning 50 percent or more of its voting shares) to an investment company or companies (as defined by the Investment Company Act of 1940, Title 15 U.S.C. Sec. 80a-1 et seq.), provided the aggregate assets of such investment company or companies total at least two hundred fifty million dollars ($250,000,000).

4. It is a domestic insurer which has been admitted to California for at least two years and is a wholly owned subsidiary of a domestic insurer having admitted assets in excess of one billion dollars ($1,000,000,000).

"Under the same management," as used in this section, means the insurer has been controlled by the same person or group of persons (owning 50 percent or more of its voting shares) for the time specified.

SEC. 2. Section 10506 of the Insurance Code is amended to read:

10506. (A) Any domestic life insurance company may, after adoption of a resolution by its board of directors, allocate to one or more separate accounts, in accordance with the terms of a written agreement which shall be filed with the Insurance Commissioner for approval, any amounts which are paid to the company in connection with a pension, retirement or profit-sharing plan, or program for one or more persons, and which are to be, or may be, applied in payment or in making provision for payment under the company's policies or contracts of retirement benefits, and other benefits incidental thereto, in fixed or variable dollar amounts, or both. The income, if any, and gains or losses, realized or unrealized, on each such account shall be credited to or charged against the amount allocated to the account in accordance with the agreement, without regard to the other income, gains or losses of the company. The amounts allocated to such accounts and accumulations thereon, by any life insurance company shall be invested and reinvested as specified in the agreement, except a domestic company shall invest or reinvest only in such investments described in Article 3 (commencing with Section 1170), and Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Divi-

sion 1, or without limitation in all or any portion of the shares of an investment company or companies (as defined by the Investment Company Act of 1940, Title 15, U.S.C. Sec. 80a-1 *et seq.*). The limitations contained in Sections 1192.4 and 1198 are not applicable to such investments. Such investments shall not be included in determining the propriety of other investments of the company. The liability of the company with respect thereto, but only to the extent prescribed in the agreement, shall be shown on the statement of the company in the manner prescribed by the commissioner. Amounts allocated by an insurance company to separate accounts in the exercise of the power granted by this section shall be owned by the company, but shall not be chargeable with liabilities arising out of any other business the company may conduct except and to the extent provided in the agreement. The company shall not hold itself out to be a trustee in respect to such amounts.

(B) In addition to amounts otherwise allocated to separate accounts, a domestic life insurer may allocate to such account or accounts amounts which otherwise would be subject to investment in accordance with Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1. The aggregate of such additional amounts shall not, however, exceed 1 percent of its admitted assets as of the preceding December 31, or 5 percent of the excess of its admitted assets over its liabilities and required reserves as of the preceding December 31, whichever is the smaller. Such company shall be entitled to withdraw at any time, in whole or in part, its participation in any separate account to which funds have been allocated as provided in this subdivision and to receive, upon withdrawal, its proportionate share of the value of the assets of the separate account at the time of withdrawal.

(C) In addition to the allocations to separate accounts provided for in subdivision (A) of this section, a domestic insurer may, at the request of a policyholder or contractholder or the beneficiary of a policy or contract, allocate to any such separate account or accounts death payments, proceeds of matured endowments, dividends, or surrender values.

(D) Any domestic life insurance company which establishes one or more separate accounts pursuant to this section may provide for special voting rights and procedures for participants in such separate account relating to investment policy, investment advisory services, and selection of certified public accountants in relation to the administration of the assets in any such separate account. Such voting rights shall be in addition to, and shall not affect, voting rights of mutual insurers.

(E) The purpose and intent of this section is to permit the issuance and delivery of policies or contracts, in connection with a pension, retirement or profit-sharing plan, or program for one or more persons, providing for the payment of benefits in fixed or variable amounts, or both, and the establishment of separate accounts by domestic companies for the adminis-

tration of and investments under such agreements. To protect the public and policyholders located in this state from hazardous operation by domestic and foreign companies, and to further the purpose and provision of this section, no domestic or foreign life insurance company shall undertake the issuance of any contract providing for variable benefits until said company has satisfied the commissioner that its condition or method of operation in connection with the issuance of such contracts will not be such as would render its operation hazardous to the public or its policyholders in this state and, in the case of a foreign or alien insurer, that it meets the conditions prescribed in Section 716, for the issuance of a certificate of authority. In determining the qualification of a company requesting authority to issue contracts providing for variable benefits within this state the commissioner will consider among other things, (a) the history of the company; (b) the character, responsibility and general fitness of the officers and directors of the company; (c) the regulation of a foreign company by its state of domicile; (d) the adequacy of the investment management which the company is providing; and (e) the company's arrangements for the supervision of the marketing of such contracts. The commissioner may make such reasonable rules and regulations as he considers necessary, proper and advisable concerning the issuance and delivery of such policies and contracts and the payment of benefits thereunder and the manner in which the separate accounts shall be administered.

Provided, however, that no company may provide variable benefits in its contracts unless it is an admitted insurer having and maintaining a combined capital and surplus of at least two million dollars ($2,000.000).

SEC. 3. Section 2 of this act shall become operative only if Assembly Bill No. 1375 is enacted by the Legislature at the 1968 Regular Session and amends Section 10506 of the Insurance Code, and in such case at the same time as Assembly Bill No. 1375 takes effect at which time Section 10506 of the Insurance Code as amended by Section 1 of this act is repealed.

The people of the State of California do enact as follows:

This section shall have no force and effect after August 19, 1968.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1037

An act to amend Sections 13590.2 and 13656 of, and to add Section 13590.4 to, the Education Code, relating to overtime pay for classified school employees, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 13590.2 of the Education Code is amended to read:

13590.2. The governing board of each district shall provide the extent to which, and establish the method by which, ordered overtime or overtime in time of critical emergency is compensated. The board shall provide for such compensation or compensatory time off at a rate at least equal to time and one-half the regular rate of pay of the employee designated and authorized to perform the overtime. Notwithstanding the foregoing provisions the board may declare overtime to have been necessary as a critical emergency and provide for cash compensation or compensatory time off at a rate less than the overtime rate.

Overtime is defined to include any time required to be worked in excess of eight hours in any one day and in excess of 40 hours in any calendar week. If a governing board establishes a workday of less than eight hours but more than seven hours and a workweek of less than 40 hours but more than 35 hours for all of its classified positions or for certain classes of classified positions, all time worked in excess of the established workday and workweek shall be deemed to be overtime. The foregoing provisions are not intended to apply to properly designated part-time positions with an assigned workday of less than eight hours and a workweek of less than 40 hours even though all such positions constitute all of the positions within a class.

Critical emergency as used in this section means a civil disaster or other such major occurrence that requires the use of school employees to the detriment of the financial ability of the district to meet the requirements of this section.

For the purpose of computing the number of hours worked, time during which an employee is excused from work because of holidays, sick leave, vacation, compensating time off, or other paid leave of absence shall be considered as time worked by the employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

SEC. 2. Section 13590.4 is added to the Education Code, to read:

13590.4. Notwithstanding the provisions of Sections 13590.1 and 13590.2, a personnel commission, when applicable, or a governing board of a school district may specify certain positions or classes of positions as supervisory, administrative, or executive and exclude the employees serving in such positions and the positions from the overtime provisions.

To be excluded from such overtime provisions, the positions or classes of positions must clearly and reasonably be management positions. In approving positions or classes of positions for exclusion from the overtime provisions, the personnel commission, when applicable, or the governing board of a school district shall certify, in writing, that the duties, flexibility of hours, salary, benefit structure, and authority of the positions or classes of positions are of such a nature that they should be set apart from those positions which are subject to the overtime provisions, and that employees serving in such excluded positions or classes of positions will not be unreasonably discriminated against as a result of the exclusion.

Notwithstanding the provisions of this section, if a person serving in an excluded position is required to work on a holiday, as provided for in this code, or by action of a governing board, he shall be paid, in addition to his regular pay for the holiday, compensation, or given compensating time off, at a rate not less than his normal rate of pay.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

SEC. 3. Section 13656 of the Education Code is amended to read:

13656. All employees a part of the classified service shall be entitled to the following paid holidays provided they are in a paid status during any portion of the working day immediately preceding or succeeding the holiday: January 1, February 12, February 22, May 30, July 4, the first Monday in September, September 9, November 11, December 25, every day appointed by the President, or the Governor of this state, as provided for in subsections (b) and (c) of Section 5201 for a public fast, thanksgiving or holiday, or any day declared a holiday under Section 5202 of this code in which the board specifies it shall be a holiday for classified or certificated employees.

Regular employees of the district who are not normally assigned to duty during the school holidays of December 25 and January 1 shall be paid for those two holidays provided that they were in a paid status during any portion of the working day of their normal assignment immediately preceding or succeeding the holiday period.

When a holiday herein listed falls on a Sunday, the following Monday shall be deemed to be the holiday in lieu of the

day observed. When a holiday herein listed falls on a Saturday, the preceding Friday shall be deemed to be the holiday in lieu of the day observed. When a classified employee is required to work on any of said holidays, he shall be paid compensation, or given compensating time off, for such work, in addition to the regular pay received for the holiday, at the rate specified in Section 13590.2.

The provisions of Article 3, Chapter 2, Division 6, shall not be construed to in any way limit the provisions of this section, nor shall anything in this section be construed to prohibit the governing board from providing holiday pay for employees who have not been in paid status on the days specified herein.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Attorney General has suggested classification of law relating to workweek and overtime provisions for classified school employees due to confusion in the existing law. Qualification and classification are needed in order to exclude overtime payment to management personnel. In order that the provisions of this act may take effect at the beginning of the 1968–1969 school year, it is necessary that this act take immediate effect.

No person shall be initially employed by a school district in a certificated or classified position unless the person has submitted to an examination within the past two years to determine that he is free of active tuberculosis, by a physician and surgeon licensed under Chapter 5 (commencing at Section 2000) of Division 2 of the Business and Professions Code. This examination shall consist of an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, shall be followed by an X-ray of the lungs.

The X-ray film may be taken by a competent and qualified X-ray technician if the X-ray film is subsequently interpreted by a physician and surgeon licensed under Chapter 5 of Division 2 of the Business and Professions Code.

Thereafter all employees shall be required to undergo the foregoing examination at least once in each two years, or oftener if the governing board so determines by rule.

After such examination, each employee shall cause to be on file with the district superintendent of schools a certificate from the examining physician and surgeon showing the employee was examined and found free from active tuberculosis. The county board of education may require, by rule, that all such certificates be filed in the office of the county superintendent of schools or shall require such files be maintained in the office of the county superintendent of schools if a majority of the governing boards of the districts within such county so petition the county board of education, except that in either case a district or districts with a common board having an average daily attendance of 60,000 or more may elect to maintain the files for its employees in that district. "Certificate" as used herein means a certificate signed by the examining physician and surgeon or a notice from a public health agency or unit of the Tuberculosis Association which indicates freedom from active tuberculosis. The latter, regardless of form, will constitute evidence of compliance with this section. Nothing in this section shall prevent the governing board from establishing a rule requiring a more extensive physical examination than required by this section but such rule shall provide for reimbursement on the same basis as hereinafter required.

This examination is a condition of initial employment and the expense incident thereto shall be borne by the applicant unless otherwise provided by rules of the governing board. However, the board may, if an applicant is accepted for employment, reimburse such person in a like manner hereinafter prescribed for employees.

The governing board of each district shall reimburse the employee for the cost, if any, of this examination. The board may provide for the examination required by this section or may establish a reasonable fee for such examination that is

reimbursable to employees of the district complying with the provisions of this section.

At the discretion of the governing board this section shall not apply to those employees not requiring certification qualifications who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with pupils.

The governing board may, however, require such examination and may as a contract condition require the examination of persons employed for construction or repair work if the board believes the presence of such persons in and around school premises would constitute a health hazard to pupils.

If the governing board of a school district determines by resolution, after hearing, that the health of pupils in the district would not be jeopardized thereby, the provisions of this section shall not apply to any employee of the district who files an affidavit stating that he adheres to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion and that to the best of his knowledge and belief he is free from active tuberculosis. If at any time there should be probable cause to believe that such affiant is afflicted with active tuberculosis, he may be excluded from service until the governing board of the employing district is satisfied that he is not so afflicted.

CHAPTER 1049

An act to amend Sections 6730.1 and 6732.1 of the Business and Professions Code, relating to engineers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 6730.1 of the Business and Professions Code is amended to read:

6730.1. Any person registered prior to June 30, 1969, or any person who has been granted permission to use the title "consulting engineer" prior to June 30, 1969, who submits proof satisfactory to the board that he has practiced for five years as a mechanical or electrical engineer, either self-employed or as an employee of an employer receiving wages or salary, shall be permitted to be registered in one or both of these branches.

A person who has been granted permission to use the title "consulting engineer" as provided in Section 6732.1 shall

have complied with this section upon submitting proof that he has, since receiving such permission, continued in that practice of mechanical or electrical engineering or both.

SEC. 2. Section 6732.1 of the Business and Professions Code is amended to read:

6732.1. Any person who has been engaged in the practice of engineering exempt from the provisions of the chapter and who submits proof satisfactory to the board that he has engaged in the activities of a "consulting engineer" for a period of five years prior to the effective date of the amendments made to this section at the 1968 Regular Session shall be exempt from the provisions of Section 6732 as it restricts the use of the title "consulting engineer" if he files application with the board before June 30, 1969, provided such person was qualified to file such application on June 29, 1966, and pays the application fee prescribed by this chapter for registration as a professional engineer, for permission to use that title. Such application shall disclose, under oath, information on the practice and use of the title by the applicant in a recognized engineering activity which has an established curriculum in one or more engineering schools or colleges approved by the board.

The board shall grant an acknowledgment of the filing for the purposes of this section if it finds that the applicant qualified for the exemption provided in this section, and such exemption shall apply so long as the applicant remains in practice and advises the board of any change of address within 30 days of such change. The board may adopt such rules under provisions of the Administrative Procedure Act as are necessary to implement this section.

A person who has been granted permission to use the title "consulting engineer" pursuant to legislation enacted in 1963 and 1965 shall not be required to apply again pursuant to the amendments to this section enacted at the 1968 Regular Session.

The provisions of Articles 5 (commencing with Section 6775), 6 (commencing with Section 6785), and 7 (commencing with Section 6795) of this chapter shall apply to all persons who are granted permission to use the title "consulting engineer" pursuant to legislation enacted in 1963 and 1965 and the amendments to this section enacted at the 1968 Regular Session.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are many persons who previously were able to use the title "consulting engineer," but with the changes made by legislation in 1967, their means of earning a living were seriously affected. This act would allow qualified persons to use the title "consulting engineer" if they file an application be-

fore June 30, 1969, if they were qualified to do so on June 29, 1966. It is imperative that such persons be allowed to utilize their skills.

CHAPTER 1050

An act to add Chapter 16 (commencing with Section 7495) to Division 6 of the Education Code, relating to year-around elementary school operation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 6, 1968. Filed with Secretary of State August 6, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 16 (commencing with Section 7495) is added to Division 6 of the Education Code, to read:

CHAPTER 16. YEAR-AROUND ELEMENTARY SCHOOL OPERATION

Article 1. General Provisions

7495. It is the intent and purpose of the Legislature, by the provisions of this chapter, to authorize the establishment of an experimental four-quarter year-around elementary school program on a mandatory attendance basis at one elementary school maintained by a unified school district which has a current average daily attendance of not less than 30,000 nor more than 35,000. The program should enable the adoption of innovative instructional systems and techniques including special concentration upon critical elements of the required curricula over the longer academic year, permit maximum utilization of school plant, facilities and equipment, permit closer coordination of the elementary school instructional operations with the teacher training operations of many institutions of higher education, permit the most efficient utilization of teachers' specializations, effect the replacement of the present system of lengthy summer vacations with shorter quarterly vacation periods with resultant diminution of pupils' vacation "learning loss," and afford numerous related benefits. This chapter shall be liberally construed to permit the accomplishment of these ends and to facilitate the complete evaluation of the school operations to enable the Legislature to determine what administrative, social, and other problems are presented thereby, and whether the same may feasibly be put into operation on a broader scale throughout the state.

7495.1. The Superintendent of Public Instruction may approve the establishment of a year-around school program in an elementary school maintained by a unified school district for the education of kindergarten and grades 1 to 6, inclusive. The program shall be conducted pursuant to the provisions of

this chapter, and the approval shall be based upon a program proposal submitted by the governing board of the school district demonstrating that the same shall be so conducted.

7495.2. A year-around elementary school program established pursuant to this chapter shall be of an experimental or pilot-program nature and shall have a duration of two full academic years, as established by the governing board of the district for purposes of the program.

7495.3. The State Board of Education shall adopt all rules and regulations prescribing necessary standards and making provision for all other matters necessary for the effective administration of this chapter.

Article 2. Elements of the Year-Around Program

7495.11. A year-around program established pursuant to this chapter shall involve the conduct of school operations throughout a 12-month academic year divided into four academic quarters. Such academic year and academic quarters may be established without reference to the school year as defined in Section 5101. Regular schools and classes shall be conducted for a total of no fewer than 195 nor more than 200 days during such academic year, and each quarter shall be divided into approximately 50 regular schooldays.

7495.12. The provisions of Chapter 6 (commencing with Section 12101) of Division 9, and all other laws relating to compulsory full-time education and the enrollment and attendance of pupils in the kindergarten and elementary grades shall be applicable with respect to the regular schooldays prescribed for the entire academic year and for each academic quarter thereof established for the school at which a program pursuant to this chapter is conducted, and to the attendance area established for such school; subject to the power of the governing board to permit individual pupils to attend schools maintained in other attendance areas. The governing board shall exempt from the year-around program any pupil whose parent or guardian requests such exemption and shall provide transportation to schools in other attendance areas for such pupils.

7495.13. The courses of instruction offered at a school maintained pursuant to this article shall meet all applicable requirements of law, except that the operations of the school shall be exempt from the provisions of Section 7605 and any other requirements prescribed by or pursuant to law fixing a minimum time to be devoted to particular courses of study during any day, week, or other period of lesser duration than a school year, other than the requirements prescribed by or pursuant to Article 7 (commencing with Section 8151) of Chapter 3 of Division 7 relating to physical education. For such purposes the instructional program shall be designed to provide at least the overall equivalent in instruction in each course of study required by law to be provided in kindergarten

and grades 1 to 6, inclusive, upon a pupil's completion of the work prescribed for any particular grade.

7495.14. The governing board of a school district shall prescribe a separate salary schedule for the certificated and classified employees of the district who are employed at an elementary school maintained pursuant to this chapter, and who, because of such employment, will be engaged in rendering services for the district for a greater number of total days during the academic year than would be the case for a regular academic year.

Article 3. Finance

7495.21. A school district maintaining an elementary school pursuant to this chapter, shall be entitled to additional support from the State School Fund on account of the average daily attendance in regular schools and classes in kindergarten and grades 1 to 6, inclusive, of pupils attending the school. The Superintendent of Public Instruction shall prescribe an appropriate procedure under which allowances are to be computed and apportionments and disbursements are to be made to the district for any one or more of the purposes specified in Sections 17303 and 17303.5 for the average daily attendance in kindergarten and grades 1 to 6, inclusive, at such school. The computation of the allowances may be based upon rates reflecting the difference in the length of the academic year established pursuant to this article and the minimum number of days for a school year otherwise prescribed by law for purposes of eligibility for support from the State School Fund. Any additional amounts from the State School Fund to which the district is entitled may be included in allowances, apportionments and disbursements made for any fiscal year during all or part of which the school is maintained pursuant to this chapter by the district.

7495.22. The Superintendent of Public Instruction, notwithstanding any provisions of law to the contrary, shall have the power to require the submission of such reports and information, and to take such other actions as are reasonably necessary to effectuate the purposes of this chapter.

Article 4. Testing and Reports

7495.31. The governing board of the district maintaining an elementary school program pursuant to this chapter shall, under the direction of the Superintendent of Public Instruction, conduct a comprehensive testing program in kindergarten and grades 1 to 6, inclusive, to be directed primarily to ascertaining whether achievement levels of the pupils in attendance at the school involved are raised by the year-around instructional program, as compared to pupils similarly situated and in attendance at the regularly constituted schools of the district and throughout the state. For such purposes the testing program shall, at least, measure the level of accomplishment

of the pupils at the commencement of each academic year, and at the end of each academic year.

7495 32. Within 30 calendar days after the commencement of the regular session of the Legislature convened during the second academic year during which an educational program established pursuant to this chapter is in operation at a school, and within 30 calendar days after the commencement of such a session convened following the expiration of the second academic year, the governing board of the school district, acting through and in conjunction with the Department of Education, shall submit to the Legislature a comprehensive report concerning the same. The report shall contain information concerning the results of the testing program conducted pursuant to Section 7495.31, the administrative and fiscal problems connected with the program, the impact of the program upon the community and its acceptance by citizens, parents, and taxpayers, and all other relevant matters.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The governing board of at least one unified school district has completed the planning and preparation necessary to put into effect, commencing in September, 1968, at an elementary school maintained by the district, the special year-around program provided for by this act. In order that the necessary final preparations and measures necessary for those purposes may be undertaken as soon as possible by the district and state authorities, it is essential that this act take effect immediately.

CHAPTER 1051

An act to add Section 16801.5 of the Education Code, relating to school transportation.

SECTION 1. Section 16801.5 is added to the Education Code, to read:

16801.5. The governing board of any school district may contract with the county superintendent of schools to provide necessary transportation services. The commission may, with or without hearing, issue such certificate, or refuse to issue it, or issue it for the partial exercise only of the privilege sought, and may attach to its order granting the certificate such terms and conditions as, in its judgment, the public convenience and necessity require. The commission may at any time, for good cause shown and upon notice to the holder of any such certificate, revoke, alter, or amend any such certificate.

(b) Each application for a certificate of public convenience and necessity made under the provisions of this section shall be accompanied by a fee of five hundred dollars ($500).

CHAPTER 1055

An act to add Article 4 (commencing with Section 6550.1) to Chapter 4 of Part 1 of Division 6 of the Health and Safety Code, relating to sanitary districts.

[Approved by Governor August 7, 1968. Filed with Secretary of State August 7, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 4 (commencing with Section 6550.1) is added to Chapter 4 of Part 1 of Division 6 of the Health and Safety Code, to read:

Article 4. Improvement Districts

6550.1. An improvement district may be formed to undertake any project for any one or more of the purposes stated in Section 6512 that is of special benefit to the area of such improvement district, including in any such project, any required investigation, study, analysis, appraisal or financing plan.

6550.2. The formation of an improvement district shall be initiated by a resolution of the district board which shall contain all of the following:

(a) A description of the proposed boundaries of the improvement district proposed to be formed.

(b) A brief general description of the project proposed to be undertaken within such improvement district.

(c) A statement that the proposed project will be a special benefit to such improvement district.

(d) A statement of the district board's intention to undertake the project.

(e) An estimate of the cost of the proposed project.

(f) The method by which the proposed project is proposed to be financed, including the amount of bonded debt, if any, to be incurred; and, to the extent that the project is to be financed by taxes levied in such improvement district for purposes other than the payment of the principal of, and interest on, bonds, the proposed maximum amount of such tax which may be levied in any year, which maximum shall not exceed one dollar ($1) per one hundred dollars ($100) of the assessed value of the taxable property in such improvement district.

(g) The time, place, and date for a hearing by the district board on the matters stated in such resolution, which shall be not less than 15 nor more than 60 days after the date of adoption of the resolution initiating formation proceedings.

6550.3. The secretary shall give notice of the time and place of the hearing by causing a copy of the resolution adopted pursuant to Section 6550.2 to be published for the time provided by Section 6066 of the Government Code in a newspaper of general circulation, circulated in the proposed improvement district, but if there is no such newspaper, then in one circulated in the county in which the proposed improvement district is situated. The secretary shall also mail copies of the resolution to all landowners owning land within the proposed improvement district.

6550.4. The hearing on the proposed improvement district shall be held by the board of directors upon the date and at the time specified in the resolution initiating proceedings. At the hearing the board of directors shall hear and receive any oral or written protests, objections, or evidence which shall be made, presented, or filed. Any person who shall have filed a written protest may withdraw the same at any time prior to the conclusion of the hearing.

6550.5. The district board shall have power to change the boundaries of the proposed improvement district, the project to be undertaken, the estimate of the cost of the project, the method by which the project is to be financed, or any two or more of such matters; provided, however, that the board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by such improvement and shall exclude from the proposed improvement district any territory which it finds will not be benefited by inclusion therein.

6550.6. If the district board proposes to change the boundaries of the proposed improvement district by adding territory thereto, the project, the estimate of cost, or the method by which the project is to be financed or to increase the proposed maximum amount of the tax, it shall state the proposed change and the time and place for a hearing thereon in a resolution and give notice of such hearing in the manner required by Section 6550.3. At the time and place fixed for the hearing, or at any time and place to which the hearing is adjourned, the district board shall continue with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed improvement district, may appear and present any matters material to the changes stated in the notice.

6550.7. If prior to the conclusion of the hearing written protests against the formation of the proposed improvement district or the proposed project signed by the current holders of title to taxable property within the proposed improvement district which, as shown by the last equalized assessment roll, constitutes more than one-half of the total assessed value of

taxable property within the proposed improvement district, are filed with the district board, further proceedings relating to the proposed improvement district and the proposed project shall be terminated and no proceedings for the formation of any improvement district to undertake the proposed project shall be instituted for a period of six months following the date of the conclusion of the hearing.

Where taxable property is owned in joint tenancy, tenancy in common, or any other multiple ownership, the first one of such owners who signs the written protest shall commit all such property to the protest.

6550.8. At the conclusion of the hearing, if the proceedings are not terminated pursuant to Section 6550.7, the district board shall by resolution determine whether it is deemed necessary to form the improvement district and to undertake the project and, if so, the amount of any proposed debt to be incurred to finance the project, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the district board (which map shall govern for all details as to the extent of the improvement district), and that such portion of the district set forth on such map shall thereupon constitute and be known as "Improvement District No. ___ of _____ (name of sanitary district)," and the determination made in said resolution shall be final and conclusive. After the formation of such improvement district within a sanitary district, all proceedings for the purpose of any bond election for the project for which the improvement district was formed shall be limited and shall apply only to such improvement district, and taxes for the payment of such bonds and the interest thereon, shall be derived exclusively from an annual tax upon the taxable property in such improvement district.

6550.9. When the district board has made its determinations as provided in Section 6550.8, and if the board deems it necessary to incur a bonded indebtedness to finance the project for which the improvement district was formed, the board shall by resolution call a special election in such improvement district for the purpose of submitting to the qualified voters thereof, the proposition of incurring such indebtedness by the issuance of bonds of the district for such improvement district. Such resolution shall state:

(a) That the board deems it necessary to incur the bonded indebtedness.

(b) The purpose for which the bonded indebtedness will be incurred.

(c) The amount of debt to be incurred.

(d) The name of the improvement district to be benefited by such indebtedness, and that a map showing the exterior boundaries of such improvement district is on file with the district board, which map shall govern for all details as to the extent of the improvement district.

(e) That taxes for the payment of such bonds and the interest thereon shall be derived exclusively from an annual tax upon the taxable property in such improvement district.

(f) The maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years.

(g) The maximum rate of interest to be paid, which shall not be more than the rate specified in this part for bonds of the district, payable at the times specified in this chapter for bonds of the district.

(h) The measure to be submitted to the voters.

(i) The date of the election.

(j) The election precincts, poling places and election officers.

6550.10. Except as otherwise provided in this article, notice of the election shall be given and the election shall be held and conducted in the same manner as elections for the authorization of bonds of the entire sanitary district, and if two-thirds of the votes cast are in favor of incurring the bonded indebtedness, as proposed, bonds of the district, issued in the name of the district and designated "Bonds of _____ (naming the sanitary district) for Improvement District No. __", shall be issued and sold for the amount stated in the resolution calling the election in the same form and manner as bonds of the entire sanitary district. Each bond of the district for an improvement district and all interest coupons thereof, shall state that taxes for the payment thereof shall be derived exclusively from an annual tax upon the taxable property in the improvement district.

6550.11. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted. Any action or proceedings, wherein the validity of the formation of the improvement district or of any bonds issued for it or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, such bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

6550.12. Any moneys required to be raised from taxes for the purpose of paying the principal of and interest on bonds of the district for an improvement district shall be derived exclusively from an annual tax upon the taxable property in the improvement district of such sanitary district, and all the taxable property within the improvement district of such sanitary district shall be and remain liable to be taxed for such payments. The district board shall annually, at the time and in the manner of levying other district taxes, levy and cause to be collected a tax upon the taxable property in the improvement district, based upon the last equalized assessment roll of the district, sufficient to pay the interest on the bonds for that year and such portion of the principal as is to become due before the

time for making the next general tax levy. Such bonds and the interest thereon shall not be taxable in this state.

6550.13. Subject to such limitations as may be contained in the resolution declaring the improvement district to be formed, the district board shall have the power in any year to cause taxes to be levied and collected in any improvement district to finance any project of such improvement district and to pay the costs of administration, maintenance, and operation of any works or facilities of, or for, such improvement district.

6550.14. The procedure for levying and collecting taxes in any improvement district shall be the same as is provided in Chapter 7 (commencing at Section 6695) of this part for taxes on property in districts.

6550.15. All taxes collected pursuant to this article shall be expended only for the payment of bond principal and interest, or only for the improvement district project for which levied, except that any surplus tax proceeds levied otherwise than for payment of bond principal and interest which remain after the completion of any improvement district project for which levied shall be transferred to the bond interest and redemption fund of such improvement district, if any, otherwise to the district's general fund.

6550.16. For the purpose of any tax levied under this article, the properties within any improvement district shall be deemed to be equally benefited.

6550.17. Territory within a district, but not a part of an improvement district created pursuant to this article, may be annexed to such improvement district whether or not contiguous thereto.

6550.18. Annexation of territory to an improvement district shall be initiated by a resolution of the district board which shall contain at least all of the following:

(a) A description of the territory proposed to be annexed.

(b) A statement that the area to be annexed to the improvement district will be benefited by such annexation.

(c) The time, place, and date for a hearing by the district board on the proposed annexation, which shall not be less than 15 nor more than 60 days after the date of adoption of the resolution initiating annexation proceedings.

(d) Any additional matters which the district board may determine are necessary or convenient to the annexation proceedings.

6550.19. The resolution shall be published and notice of the hearing on the proposed annexation shall be given, in the manner required by Section 6550 3, except that in applying such section the words "improvement district" shall mean the territory proposed to be annexed.

6550.20. The hearing on the proposed annexation shall be held in the manner required by Section 6550.4, except that in applying such section the words, "improvement district" shall mean the territory proposed to be annexed.

6550.21. The district board shall have the power to change the boundaries of territory proposed to be annexed to an improvement district, but shall not include any territory which, in its judgment, will not be benefited by inclusion within the improvement district, nor shall it exclude any territory which it finds would be benefited by inclusion within the improvement district.

6550.22. If the district board proposes to change the boundaries of the territory proposed to be annexed by adding territory thereto, it shall give notice thereof in the manner provided in Section 6550.19. Owners of land within the affected territory shall be given an opportunity to appear before the district board pursuant to Section 6550.20 and to register any protests.

6550.23. At the conclusion of the hearing, the district board may, by resolution, order the annexation to the improvement district of such territory as it determines will be benefited by inclusion therein.

6550.24. If all the owners of land within the territory proposed to be annexed have given their written assent to such annexation, the board may, by resolution, order such an annexation without notice and hearing by the board.

6550.25. After the adoption of a resolution ordering such annexation, or a resolution confirming an order of annexation following an election thereon, the secretary shall file a certified copy thereof with a map of the territory thus annexed with the county assessor and the county tax collector of each county in which such annexed territory is situated and with the State Board of Equalization.

6550.26. Territory annexed to an improvement district shall be subject to existing bond issues and indebtedness of the improvement district from and after the filing with the county assessor specified in Section 6550.25.

CHAPTER 1059

An act to amend Section 10506 of the Insurance Code, relating to variable benefit insurance contracts.

[Approved by Governor August 7, 1968. Filed with Secretary of State August 7, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 10506 of the Insurance Code is amended to read:

10506. (A) Any domestic life insurance company may, after adoption of a resolution by its board of directors, allocate to one or more separate accounts, in accordance with the terms of a written agreement which shall be filed with the Insurance Commissioner for approval, any amounts which are paid to the company in connection with a pension, retirement or profit-sharing plan, and which are to be applied in payment or in making provision for payment under the company's policies or contracts of retirement benefits, and other benefits incidental thereto, in fixed or variable dollar amounts, or both. The income, if any, and gains or losses, realized or unrealized, on each such account shall be credited to or charged against the amount allocated to the account in accordance with the agreement, without regard to the other income, gains or losses of the company. The amounts allocated to such accounts and accumulations thereon, by any life insurance company shall be invested and reinvested as specified in the agreement, except a domestic company shall invest or reinvest only in such investments described in Article 3 (commencing with Section 1170), and Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1. The limitations contained in Sections 1192.4 and 1198 are not applicable to such investments. Such investments shall not be included in determining the propriety of other investments of the company. The liability of the company with respect thereto, but only to the extent prescribed in the agreement, shall be shown on the statement of the company in the manner prescribed by the commissioner. Amounts allocated by an insurance company to separate accounts in the exercise of the power granted by this section shall be owned by the company, but shall not be chargeable with liabilities arising out of any other business the company may conduct except and to the extent provided in the agreement. The company shall not hold itself out to be a trustee in respect to such amounts.

(B) This section shall not apply to amounts contributed by a participant who is entitled to retirement or other incidental benefits under a pension, retirement or profit-sharing plan, except, this provision shall not be construed to prevent contribution of amounts by a participant or application of amounts to the purchase of retirement or other incidental benefits under

pension, retirement and profit-sharing plans established pursuant to the Self-Employed Individuals' Tax Retirement Act of 1962 nor shall it be construed to prevent contribution or application of amounts to the purchase of retirement or other incidental benefits under pension or retirement plans established pursuant to the provisions of Section 403(b) of the Internal Revenue Code of 1954 as amended.

(C) The purpose and intent of this section is to permit the issuance and delivery of policies or contracts, in connection with a pension, retirement or profit-sharing plan, providing for the payment of benefits in fixed or variable amounts, or both, and the establishment of separate accounts by domestic companies for the administration of and investments under such agreements. To protect the public and policyholders located in this state from hazardous operation by domestic and foreign companies, and to further the purpose and provision of this section, no domestic or foreign life insurance company shall undertake the issuance of any contract providing for variable benefits until said company has satisfied the commissioner that its condition or method of operation in connection with the issuance of such contracts will not be such as would render its operation hazardous to the public or its policyholders in this state and, in the case of a foreign or alien insurer, that it meets the conditions prescribed in Section 716, for the issuance of a certificate of authority. In determining the qualification of a company requesting authority to issue contracts providing for variable benefits within the state the commissioner will consider among other things, (a) the history of the company; (b) the character, responsibility and general fitness of the officers and directors of the company; (c) the regulation of a foreign company by its state of domicile; (d) the adequacy of the investment management which the company is providing; and (e) the company's arrangements for the supervision of the marketing of such contracts. The commissioner may make such reasonable rules and regulations as are necessary, proper and advisable concerning the issuance and delivery of such policies and contracts and the payment of benefits thereunder and the manner in which the separate accounts shall be administered.

Provided, however, that no company may provide variable benefits in its contracts unless it is an admitted insurer having and maintaining a combined capital and surplus of at least two million dollars ($2,000,000).

SEC. 2. Section 10506 of the Insurance Code is amended to read:

10506. (A) Any domestic life insurance company may, after adoption of a resolution by its board of directors, allocate to one or more separate accounts, in accordance with the terms of a written agreement which shall be filed with the Insurance Commissioner for approval, any amounts which are paid to the company in connection with a pension, retirement or profit-sharing plan, or program for one or more persons, and which

are to be, or may be, applied in payment or in making provision for payment under the company's policies or contracts of retirement benefits, and other benefits incidental thereto, in fixed or variable dollar amounts, or both. The income, if any, and gains or losses, realized or unrealized, on each such account shall be credited to or charged against the amount allocated to the account in accordance with the agreement, without regard to the other income, gains or losses of the company. The amounts allocated to such accounts and accumulations thereon, by any life insurance company shall be invested and reinvested as specified in the agreement, except a domestic company shall invest or reinvest only in such investments described in Article 3 (commencing with Section 1170), and Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1, or without limitation in all or any portion of the shares of an investment company or companies (as defined by the Investment Company Act of 1940, Title 15, U.S.C. Sec. 80a-1 et seq.). The limitations contained in Sections 1192.4 and 1198 are not applicable to such investments. Such investments shall not be included in determining the propriety of other investments of the company. The liability of the company with respect thereto, but only to the extent prescribed in the agreement, shall be shown on the statement of the company in the manner prescribed by the commissioner. Amounts allocated by an insurance company to separate accounts in the exercise of the power granted by this section shall be owned by the company, but shall not be chargeable with liabilities arising out of any other business the company may conduct except and to the extent provided in the agreement The company shall not hold itself out to be a trustee in respect to such amounts.

(B) In addition to amounts otherwise allocated to separate accounts, a domestic life insurer may allocate to such account or accounts amounts which otherwise would be subject to investment in accordance with Article 4 (commencing with Section 1190) of Chapter 2, Part 2, Division 1. The aggregate of such additional amounts shall not, however, exceed 1 percent of its admitted assets as of the preceding December 31, or 5 percent of the excess of its admitted assets over its liabilities and required reserves as of the preceding December 31, whichever is the smaller. Such company shall be entitled to withdraw at any time, in whole or in part, its participation in any separate account to which funds have been allocated as provided in this subdivision and to receive, upon withdrawal, its proportionate share of the value of the assets of the separate account at the time of withdrawal.

(C) In addition to the allocations to separate accounts provided for in subdivision (A) of this section, a domestic insurer may, at the request of a policyholder or contractholder or the beneficiary of a policy or contract, allocate to any such separate account or accounts death payments, proceeds of matured endowments, dividends, or surrender values.

(D) Any domestic life insurance company which establishes one or more separate accounts pursuant to this section may provide for special voting rights and procedures for participants in such separate account relating to investment policy, investment advisory services, and selection of certified public accountants in relation to the administration of the assets in any such separate account. Such voting rights shall be in addition to, and shall not affect, voting rights of mutual insurers.

(E) The purpose and intent of this section is to permit the issuance and delivery of policies or contracts, in connection with a pension, retirement or profit-sharing plan, or program for one or more persons, providing for the payment of benefits in fixed or variable amounts, or both, and the establishment of separate accounts by domestic companies for the administration of and investments under such agreements. To protect the public and policyholders located in this state from hazardous operation by domestic and foreign companies, and to further the purpose and provision of this section, no domestic or foreign life insurance company shall undertake the issuance of any contract providing for variable benefits until said company has satisfied the commissioner that its condition or method of operation in connection with the issuance of such contracts will not be such as would render its operation hazardous to the public or its policyholders in this state and, in the case of a foreign or alien insurer, that it meets the conditions prescribed in Section 716, for the issuance of a certificate of authority. In determining the qualification of a company requesting authority to issue contracts providing for variable benefits within this state the commissioner will consider among other things, (a) the history of the company; (b) the character, responsibility and general fitness of the officers and directors of the company; (c) the regulation of a foreign company by its state of domicile; (d) the adequacy of the investment management which the company is providing; and (e) the company's arrangements for the supervision of the marketing of such contracts. The commissioner may make such reasonable rules and regulations as he considers necessary, proper and advisable concerning the issuance and delivery of such policies and contracts and the payment of benefits thereunder and the manner in which the separate accounts shall be administered.

Provided, however, that no company may provide variable benefits in its contracts unless it is an admitted insurer having and maintaining a combined capital and surplus of at least two million dollars ($2,000,000).

Section 2 of this act shall become operative only if Assembly Bill No. 1119 is enacted by the Legislature at the 1968 Regular Session and amends Section 10506 of the Insurance Code, and in such case at the same time as Assembly Bill No. 1119 takes effect at which time Section 10506 of the Insurance Code as amended by Section 1 of this act is repealed.

[Approved by Governor August 7, 1968 Filed with Secretary of State August 7, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 186.3 of the Streets and Highways Code is amended to read:

186.3. Funds apportioned pursuant to Section 2106 shall be expended exclusively for acquisition of rights-of-way for and construction of routes on the select system of county roads and city streets for such county or city established as provided in this section; provided, however, that any expenditure of funds apportioned pursuant to Section 2106 or 2107 for any such purpose upon a state highway, or upon a select system road or street in a county or city, shall be deemed an expenditure upon the select system of the county or city making such expenditure.

Each county and city, to be eligible for allocation and apportionment of funds pursuant to Section 2106 or 2107, shall file a report and map or maps with the department indicating its select system of county roads or city streets, and thereafter each eligible county and city may submit a supplemental report with map or maps recommending proposed additions or deletions to the system where such additions or deletions are warranted by changes brought about by annexations or changes in traffic or land-use patterns or by other causes. Such submittals shall be reviewed and approved or modified by the department and shall constitute the select system upon which funds may thereafter be expended.

All select systems and their modifications or revisions heretofore approved by the commission shall be effective upon the date of such approval.

SEC. 2. Section 186.4 of the Streets and Highways Code is amended to read:

186.4. In selecting or revising the select system of county roads or city streets in accordance with Section 186.3, the county or city, and the department in making its review and modification, if any, shall give consideration to the following criteria:

(a) The total mileage of the select system for any county or city shall not exceed 50 percent of the sum of state highway and locally maintained road or street mileage in the county or city less the state highway mileage in the county or city; except that this limit may be exceeded in the case of unusual circumstances reported by the county or city and determined

by the department to constitute sufficient cause for exceeding the limit.

(b) Any route included in the select system of county roads or city streets shall meet one or more of the following tests:

(1) It shall provide an important traffic connection to a route in the state highway system.

(2) It shall be an important traffic lateral between two or more routes in the state highway system.

(3) It shall afford substantial traffic relief to one or more routes in the state highway system.

Routes in the state highway system may be included in the select system for the purpose of providing for contributions to and processing of projects pursuant to cooperative agreements with the department.

Any route not qualifying, or only partially qualifying, under any one or more of the foregoing tests may be included in the select system for the county or city only upon a showing of cause by the county or city in its report and upon a determination by the department that sufficient cause exists for the inclusion of the route in the system.

(c) A showing shall be made by the county or city in its report that every route included in its select system is coordinated with route selections of contiguous local jurisdictions and with routes in the state highway system.

(d) Notwithstanding any other provisions of this section, each county shall be entitled to include within its select system as many miles of county road as were included in its approved system of primary roads pursuant to Chapter 1 (commencing with Section 2000) of Division 3 on January 1, 1963, and each city shall be entitled to include within its select system as many miles of city streets as were included in its approved system of major city streets pursuant to Chapter 2 (commencing with Section 2050) of Division 3 on January 1, 1963.

(e) Notwithstanding any other provisions of this section, the general or master plan of county roads, as adopted and modified from time to time by the board of supervisors, may be designated by the board of supervisors as the select system of county roads for the county. The board of supervisors shall endeavor to coordinate the routes in the general or master plan of county roads with route selections of contiguous local jurisdictions and with routes in the state highway system. If the board of supervisors makes the designation authorized by this subdivision, and any route in the general or master plan of county roads is not coordinated with the route selections of a contiguous local jurisdiction, such contiguous local jurisdiction shall not be required, under subdivision (c), to make a showing of coordination of its select system routes with such route.

SEC. 3. Section 186.5 of the Streets and Highways Code is amended to read:

186.5. Whenever local entities are unable to agree upon the number and width of traffic lanes for a street or road proposed

to be constructed by any such entity where such specifications will affect the uniform flow of traffic on a select system road or street from one such local entity to another, the matter may be submitted to the department. The department shall thereupon endeavor to establish such specifications for such street or road proposed to be constructed, and, if established, such specifications shall be binding upon the local entity constructing such road or street.

SEC. 4. Section 823.5 of the Streets and Highways Code is amended to read:

823.5. The department may maintain any street or highway which is not a part of the state highway system whenever all of the following facts exist:

(a) The department has performed upon such street or highway a construction or improvement project;

(b) Such project was financed in whole or in part by moneys contributed by the government of the United States;

(c) Either the governmental agency having jurisdiction over such street or highway, or in the case of annexed areas, the county prior to such annexation, has agreed either with the State of California, acting by and through the department, or with the United States to maintain such street or highway to the satisfaction of the authorized agents of the United States; and

(d) The governmental agency having jurisdiction over such street or highway has failed to so maintain such street or highway, and the authorized agents of the United States have demanded of the department that such street or highway be maintained in accordance with such agreement.

The department shall carefully segregate all items of cost of such maintenance, including not to exceed 10 percent for overhead and administration. In the event the governmental agency having jurisdiction over such street or highway is a county or city, the director shall notify the State Controller of the expenditures by the department on such street or highway. The State Controller thereupon shall deduct from the succeeding apportionments to said county or city from the Highway Users Tax Fund the amount certified by the director and shall place said amount in the State Highway Fund.

SEC. 5. Section 1808 of the Streets and Highways Code is amended to read:

1808. Where practical or desirable, the legislative body of any city shall, along any street or highway under its jurisdiction, possession, or control, replace trees that have been destroyed or removed because of projects undertaken to widen the street or highway.

Money received by a city from the Highway Users Tax Fund available for the widening of streets or highways is also available for the planting of trees pursuant to this section.

SEC. 6. Section 2106 of the Streets and Highways Code is amended to read:

2106. A sum equal to the net revenue derived from one and four one-hundredths cent ($0.0104) per gallon tax under the Motor Vehicle Fuel License Tax Law shall be apportioned monthly from the Highway Users Tax Fund among counties and cities for use exclusively for county road and city street purposes, as provided in this section.

The amounts available under this section shall be apportioned, as follows:

(a) Four hundred dollars ($400) per month shall be apportioned to each city and city and county and eight hundred dollars ($800) per month shall be apportioned to each county and city and county.

(2) For each county the percentage of the total assessed valuation of tangible property subject to local tax levies within the county which is represented by the assessed valuation of tangible property outside the incorporated cities of the county shall be applied to its base sum, and the resulting amount shall be apportioned to the county. The assessed valuation of taxable tangible property for purposes of this computation shall be that most recently used for countywide tax levies as reported to the State Controller by the State Board of Equalization.

(3) The difference between the base sum for each county and the amount apportioned to the county shall be apportioned to the cities of that county in the proportion that the population of each city bears to the total population of all cities in the county. Populations used for determining expenditure of moneys under Section 2107 are to be used for purposes of this section.

No apportionment shall be made to any city or county which does not have a select system established in accordance with the provisions of Section 186.3. If all or a portion of the select system of a city or county shall by a change in the physical limits of such city or county be included within the boundaries of another city or county, such portion shall be considered to be a part of the select system of such other city or county. Any amounts which would otherwise have been apportioned to a city which does not so qualify for an apportionment shall be reapportioned to the remaining cities in the county in which such city is located or, if there are no eligible cities in the county, to the county. Any amounts which would otherwise have been apportioned to a county which does not so qualify for an apportionment shall be reapportioned to the eligible cities in such county or, if there are no eligible cities in the county, to other counties and cities pursuant to this section.

SEC. 7. Section 2107.4 of the Streets and Highways Code is amended to read:

2107.4. Two-fifths of the moneys apportioned under the provisions of Section 2107 shall be expended for the construction of streets included in the select system within such city or city and county as established pursuant to the provisions of Section 186.3 of this code.

Three-fifths of the moneys apportioned under the provisions of Section 2107 shall be expended for the maintenance of the select system and of other streets within such city or city and county; provided, that a portion of such moneys so apportioned for maintenance may be expended for construction of streets included within the select system within such city or city and county.

SEC. 8. Section 2107.5 of the Streets and Highways Code is amended to read:

2107.5. In addition to the amounts apportioned to cities from the Highway Users Tax Fund under Sections 2106 and 2107, the following amounts shall be allocated annually during the month of July of each fiscal year for expenditure exclusively for engineering costs and administrative expenses in respect to city streets:

For the purpose of this section the population in each city shall be determined in accordance with Sections 2107, 2107.1, and 2107.2 at the time of allocation. Any city incorporated after the first day of July of any year shall receive the full annual allocation prescribed in this section, such allocation to be made during the month succeeding the filing or certification of the incorporation by the Secretary of State.

Any city under subdivision (h) or (i) above may expend the moneys allocated to it hereunder for acquisition of rights-of-way for and construction of routes on its select system.

SEC. 9. Section 2111 of the Streets and Highways Code is amended to read:

2111. Apportionments from the Highway Users Tax Fund shall not be made to any incorporated city the streets of which are not public streets or which has not held an election of municipal officers within a period of 10 years preceding the date of such apportionment. Apportionments heretofore accumulated for expenditure within any such city shall be reapportioned to all other cities and cities and counties in the manner provided by Sections 2106 and 2107, respectively.

SEC. 10. Section 2113 of the Streets and Highways Code is amended to read:

On satisfactory proof by such county or city to the State Controller of the establishment of such road or street fund, the depositing of money in a separate bank account, the filing of such report, or the restoration of the improperly expended moneys, such warrant shall be issued.

A county or city shall have a reasonable time, after notification from the State Controller, to comply with the provisions of this section.

The waiver shall be substantially in the following form:

If the motion is denied, and the accused has not previously answered the indictment or information, either by demurring or pleading thereto, he shall immediately do so. If the motion is granted, the court must order that the defendant, if in custody, be discharged therefrom; or, if admitted to bail, that his bail be exonerated; or, if he has deposited money, or if money has been deposited by another or others instead of bail for his appearance, that the same be refunded to him or to the person or persons found by the court to have deposited said money on behalf of said defendant, unless it directs that the case be resubmitted to the same or another grand jury, or that an information be filed by the district attorney; provided, that after such order of resubmission the defendant may be examined before a magistrate, and discharged or committed by him, as in other cases, if before indictment or information filed he has not been examined and committed by a magistrate.

TITLE 13. INSPECTION WARRANTS

1822.50. An inspection warrant is an order, in writing, in the name of the people, signed by a judge of a court of record, directed to a state or local official, commanding him to conduct any inspection required or authorized by state or local law or regulation relating to building, fire, safety, plumbing, electrical, health, or zoning.

1822.51. An inspection warrant shall be issued only upon cause, supported by affidavit, particularly describing the place dwelling, structure, premises, or vehicle to be searched and the purpose for which the search is made. In addition, the affidavit shall contain either a statement that consent to inspect has been sought and refused or facts or circumstances reasonably justifying the failure to seek such consent.

1822.52. Cause shall be deemed to exist if either reasonable legislative or administrative standards for conducting a routine or area inspection are satisfied with respect to the particular place, dwelling, structure, premises, or vehicle, or there is reason to believe that a condition of nonconformity exists with respect to the particular place, dwelling, structure, premises, or vehicle.

1822.53. Before issuing an inspection warrant, the judge may examine on oath the applicant and any other witness, and shall satisfy himself of the existence of grounds for granting such application.

1822.54. If the judge is satisfied that cause for the inspection exists, he shall issue the warrant particularly describing each place, dwelling, structure, premises, or vehicle to be inspected and designating on the warrant the purpose and limitations of the inspection, including the limitations required by this title.

1822.55. An inspection warrant shall be effective for the time specified therein, but not for a period of more than 14 days, unless extended or renewed by the judge who signed and issued the original warrant, upon satisfying himself that such extension or renewal is in the public interest. Such inspection warrant must be executed and returned to the judge by whom it was issued within the time specified in the warrant or within

the extended or renewed time. After the expiration of such time, the warrant, unless executed, is void.

An inspection pursuant to this warrant may not be made between 6:00 p.m. of any day and 8:00 a.m. of the succeeding day, nor in the absence of an owner or occupant of the particular place, dwelling, structure, premises or vehicle unless specifically authorized by the judge upon a showing that such authority is reasonably necessary to effectuate the purpose of the regulation being enforced. An inspection pursuant to a warrant shall not be made by means of forcible entry, except that the judge may expressly authorize a forcible entry where facts are shown sufficient to create a reasonable suspicion of a violation of a state or local law or regulation relating to building, fire, safety, plumbing, electrical, health, or zoning, which, if such violation existed, would be an immediate threat to health or safety, or where facts are shown establishing that reasonable attempts to serve a previous warrant have been unsuccessful. Where prior consent has been sought and refused, notice that a warrant has been issued must be given at least 24 hours before the warrant is executed, unless the judge finds that immediate execution is reasonably necessary in the circumstances shown.

1822.57. Any person who willfully refuses to permit an inspection lawfully authorized by warrant issued pursuant to this title is guilty of a misdemeanor.

The examination of each such person shall be conducted separately but within the physical presence of each such other person or persons unless the court, in its discretion, shall order otherwise. The party or parties adopting shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party or parties. If satisfied that the interest of the child will be promoted by the adoption, the court may thereupon make and enter a decree of adoption of the child by the adopting parent or parents, and the child and the adopting parents shall thereupon and thereafter sustain toward each other the legal relationship of parent and child and have all the rights and be subject to all the duties of that relation. The court must examine all persons appearing before it pursuant to this section. The examination of each such person shall be conducted separately but within the physical presence of each such other person or persons unless the court, in its discretion, shall order otherwise. The party or parties adopting shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party or parties. If satisfied that the interest of the child will be promoted by the adoption, the court may thereupon make and enter a decree of adoption of the child by the adopting parent or parents, and the child and the adopting parents shall thereupon and thereafter sustain toward each other the legal relationship of parent and child and have all the rights and be subject to all the duties of that relation. In a case where the adopting parent is permitted to appear by counsel, the agreement may be executed and acknowledged by such counsel for such absent party, or may be executed by such absent party before a notary public, or any other person authorized to take acknowledgments including the persons authorized by Sections 1183 and 1183.5 of this code; provided, that in any case where said adoptive parent is permitted to appear by counsel hereunder, or otherwise, the court may, in its discretion, cause such examination of said adoptive parent, other interested party, or witness to be made upon deposition, as it deems necessary, said deposition to be taken upon commission, as prescribed by the Code of Civil Procedure, and the expense thereof to be borne by the petitioner. The petition, relinquishment, agreement, order, and

any power of attorney and deposition must be filed in the office of the county clerk and shall not be open to inspection by any other than the parties to the action and their attorneys and the State Department of Social Welfare except upon the written authority of the judge of the superior court. A judge of the superior court shall not authorize anyone to inspect the petition, relinquishment, agreement, order, or power of attorney or deposition or any portion of any such documents except in exceptional circumstances and for good cause approaching the necessitous. The petitioner may be required to pay the expenses for preparing the copies of the documents to be inspected.

The provisions of this section permitting an adoptive parent, who is commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, to make an appearance through his or her counsel, commissioned and empowered in writing to do so, are equally applicable to the spouse of such adoptive parent who resides with such adoptive parent outside of this state.

"Amusement ride" does not include the operation of articles of husbandry incidental to any agricultural operations or the operation of amusement devices of a permanent nature which are subject to building regulations issued by cities or counties and existing applicable safety orders.

(b) "Operator" or "owner" means a person who owns or controls or has the duty to control the operation of an amusement ride. It includes the state and every state agency, and each county, city, district, and all public and quasi-public corporations and public agencies therein.

Before a new amusement ride is erected, or whenever any additions or alterations are made which change the structure, mechanism, classification, or capacity of any amusement ride, the operator shall file with the division or a public entity a notice of his intention and any plans or diagrams requested by the division.

7909. The division may order, in writing, a temporary cessation of operation of an amusement ride if it has been determined after inspection to be hazardous or unsafe. Operation shall not resume until such conditions are corrected to the satisfaction of the division.

7911. If there are practical difficulties or unnecessary hardships for an operator to comply with the rules and regulations under this part, the division may modify the application of such rules or regulations if the spirit of the rules and regulations shall be observed and the public safety is secure. Any operator may make a written request to the division stating his grounds and applying for such modification. Any authorization by the division shall be in writing and shall describe the conditions under which the modifications are permitted A record of all modifications shall be kept in the division and open to the public.

Household furnishings and personal effects shall not include boats, aircraft, motor vehicles or personal property held or used in connection with a trade, profession, or business enterprise.

(a) The property statement shall be filed under oath with the assessor between the lien date and 5 p.m. on the last Monday in May, annually, or within such time as the assessor may appoint.

(b) If the assessor appoints a time other than the last Monday in May, it shall be no earlier than April 1. In this event the penalty provided by Section 463 shall apply if the property statement is not filed with the assessor by 5 o'clock p.m. on the last Monday in May or if:

463. If any person who is required by law or is requested by the assessor to make an annual property statement fails to file it with the assessor by 5 p.m. on the last Monday in May, or if, after written demand by the assessor, any person fails to file an annual property statement within the time limit specified by Section 441 or make and subscribe the affidavit respecting his name and place of residence, a penalty of 10 percent of the assessed value of the unreported taxable tangible property of such person placed on the current roll shall be added to the assessment made on the current roll.

Notice of any penalty added to the secured roll pursuant to this section shall be mailed by the assessor to the assessee at his address as contained in the official records of the county assessor.

If the assessee establishes to the satisfaction of the county board of equalization or the assessment appeals board that the failure to file the property statement within the time required by Section 441 was due to reasonable cause and not due to willful neglect, it may order the penalty abated, provided the assessee has filed with the county board written application for abatement of the penalty within the time prescribed by law for the filing of applications for assessment reductions.

If the penalty is abated it shall be canceled or refunded in the same manner as an amount of tax erroneously charged or collected.

4010. "Person," as used in this chapter, includes any public utility, municipality, or other public body or institution.

An act to amend Section 51220 of the Government Code, relating to the California Land Conservation Act of 1965.

[Approved by Governor August 8, 1968. Filed with Secretary of State August 8, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 51220 of the Government Code is amended to read:

51220. The Legislature finds:

(a) That the preservation of a maximum amount of the limited supply of agricultural land is necessary to the conservation of the state's economic resources, and is necessary not only to the maintenance of the agricultural economy of the state, but also for the assurance of adequate, healthful and nutritious food for future residents of this state and nation.

(b) That the discouragement of premature and unnecessary conversion of agricultural land to urban uses is a matter of public interest and will be of benefit to urban dwellers themselves in that it will discourage discontiguous urban development patterns which unnecessarily increase the costs of community services to community residents.

(c) That in a rapidly urbanizing society agricultural lands have a definite public value as open space, and the preservation in agricultural production of such lands, the use of which may be limited under the provisions of this chapter, constitutes an important physical, social, esthetic and economic asset to existing or pending urban or metropolitan developments.

(d) For these reasons, this chapter is necessary for the promotion of the general welfare and the protection of the public interest in agricultural land.

CHAPTER 1139

An act to amend Sections 375 and 582 of the Streets and Highways Code, relating to state highways, and declaring the urgency thereof, to take effect immediately.

The portion of this route described in subdivision (a) shall cease to be a state highway when the San Diego-Coronado Toll Bridge and approaches are completed and open for traffic.

(b) Orange Avenue to the Naval Air Station at North Island in Coronado.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The San Diego-Coronado Bridge is scheduled to be opened to traffic in the fall of 1969. Fourth Street in Coronado will constitute the direct approach to the bridge from the North

Island Naval Air Station, and in order to bring this street up to the standards necessary to provide for a free and orderly flow of traffic thereon between the bridge and the North Island Naval Air Station it will require improvement. In the interest of traffic safety, it is imperative that the improvement be timed to coincide with the opening of the bridge. To permit the expenditure of state highway funds for such improvement to be completed by the date the bridge is opened, it is necessary that this act go into immediate effect.

11715. Any workmen's compensation insurer may, in lieu of and subject to the same conditions as the bond required by Section 11690 and upon payment of the fee prescribed in this article, deposit with the commissioner cash or approved interest-bearing securities or approved preferred stocks readily convertible into cash. Such deposit shall be made from time to time as demanded by the commissioner. He shall forthwith redeposit such cash and securities as a separate deposit with the State Treasurer or bank or trust company pursuant to the approval of the commissioner under such rules and regulations as he may deem necessary. Such deposit shall be maintained at an amount not less than twenty-five thousand dollars ($25,000) nor less than the reserves required of such insurer to be maintained under any of the provisions of Article 1 (commencing with Section 11550), Chapter 1, Part 3, Division 2 of this code, relating to loss reserves on workmen's compensation business of the insurer in this state nor less than the sum of the amounts specified in subdivision (a) of Section 11699.

No deposit so placed with a bank or trust company shall be subject to any lien or claim asserted by it or be subject to any disposition or claim other than as is permitted by the commissioner. Irrespective of any other provisions of this code such deposit shall be physically retained by the State Treasurer or such bank or trust company approved by the commissioner and only released in accordance with the provisions of this article.

The people of the State of California do enact as follows:

SECTION 1. Any junior college district which was a part of a unified school district before July 1, 1966, and which is leasing buildings and facilities from such unified school district and is required to vacate such buildings and facilities prior to the 1970–1971 school year, may award bids for construction of buildings and facilities, the proposed projects for which have been approved by the Department of Education and the Department of Finance pursuant to Sections 20076 and 20077 of the Education Code, prior to the appropriation by the Legislature of the state's share of the funding thereof from the Junior College Construction Program Bond Act of 1968 pursuant to Section 20082 of the Education Code, if such district has demonstrated to the satisfaction of the Department of Education and the Department of Finance that the district has substantiated the need for the early awarding of bids by its capital construction program, and the construction dates contained therein, and that the district has the financial capabilities to complete the building projects for which the bids have been awarded in the event the Legislature fails to appropriate the necessary state funding.

(b) Deputy clerk II ---------- Range 19½
(c) Senior deputy clerk ---------- Range 21½
(d) Chief deputy clerk ---------- Range 23½
(e) Clerk ---------- Range 30½

Each person employed on the effective date of this section in the office of the clerk, including the clerk, shall receive credit for prior continuous service in office including service in departments superseded upon the establishment of the municipal court, and his prior service shall be deemed service in the new position, provided, however, that such credit shall be given only when the judge of the court determines that the officer or employee is entitled to receive it. Officers and employees shall be appointed at the first step for the range assigned to their classification except if it is difficult to secure qualified personnel, or if a person of unusual qualifications is appointed, the judge may appoint such person at the second step of the range assigned to that classification.

In the case of the appointment of the clerk of the municipal court, the judge shall be authorized, if he deems it necessary, to appoint the clerk at a higher step, not to exceed the fifth step of the range assigned to that classification as set forth in Section 73676, and, provided further, that if the judge is unable to secure a qualified person to fulfill the position of clerk of the municipal court for a salary as hereinabove provided, then the judge with the concurrence of the board of supervisors may establish a salary at a rate not to exceed eight hundred eighty-three dollars ($883) monthly.

If an employee begins his employment on the first working day of a month, it shall be considered for purposes of this section that such employment began on the first calendar day of that month. Subsequent merit increase eligibility dates shall be the first day of the month following completion of an additional six months' service, the first day of the month following completion of an additional 12 months' service, and the first day of the month following completion of an additional 18 months' service. The granting of any leave of absence without pay, other than military leave of absence, exceeding 15 consecutive calendar days shall cause the merit increase eligibility date to be extended to the first of the month following completion of the leave of absence without pay.

Notwithstanding the foregoing provisions of this section, an officer or employee who is promoted or reclassified to a position in a class with a higher salary range shall receive the recruiting salary for the higher class if it is greater than his salary prior to promotion or reclassification, or such higher amount as would constitute a one-step increase in the salary range over the salary received prior to the promotion or reclassification, not to exceed the top step of the new salary range. The effective date of all promotions shall coincide with the first working day of a pay period. Upon the promotion or reclassification, a new merit increase eligibility date shall be established, which shall be the first day of the month following completion of the number of months' service which corresponds with the required period of service as is governed by the next preceding paragraph of this section.

(a) Deputy clerk I ---------- Range 18½
(b) Deputy clerk II ---------- Range 19½
(c) Senior deputy clerk ---------- Range 21½
(d) Chief deputy clerk ---------- Range 23½
(e) Clerk ---------- Range 31½
(f) Clerk II ---------- Range 17½
(g) Deputy marshal—female ---------- Range 21½
(h) Deputy marshal ---------- Range 27½
(i) Chief deputy marshal—office supervisors ---------- Range 28½

Each person employed in the office of the clerk and the office of the marshal, including the clerk and the marshal, on the effective date of the amendments to this section enacted at the 1967 Regular Session of the Legislature shall receive credit for prior continuous service in office including service in departments superseded upon the establishment of the municipal court, and his prior service shall be deemed service in the new position, provided, however, that such credit shall be given only when the judges of the court determine that the officer or employee is entitled to receive it. The clerk, deputy clerks, and attachés of the court shall be appointed at the first step for the range assigned to their classification, except if it is difficult to secure qualified personnel, or if a person of unusual qualifications is hired, the judges may appoint such person at the second step of the range assigned to that classification. In the case of the appointment of the clerk of the municipal court, the judges shall be authorized, if they deem it necessary, to appoint the clerk at a higher step, not to exceed the fifth step of the range assigned to that classification as set forth in Section 74846, and, provided, further, that if the judges are unable to secure a qualified person to fulfill the position of clerk of the municipal court for a salary as hereinabove provided, then the judges with the concurrence of the board of supervisors may establish a salary at a rate not to exceed nine hundred twenty-seven dollars ($927) monthly.

SEC. 6. Section 74848 of the Government Code is amended to read:

74848. All increases in salary shall not be given as matter of right but only when the judges of the court determine that the officer or employee is properly entitled to receive it. Each person employed in the office of the clerk and in the office of the marshal, including the clerk but not including the marshal, shall have a merit increase eligibility date which shall be the first day of the month following completion of six months' service with the municipal court. If an employee begins his employment on the first working day of a month, it shall be considered for purposes of this section that such employment began on the first calendar day of that month. Subsequent merit increase eligibility dates shall be the first day of the month following completion of an additional six months' service, the first day of the month following completion of an addi-

tional 12 months' service, and the first day of the month following completion of an additional 18 months' service. The granting of any leave of absence without pay, other than military leave of absence, exceeding 15 consecutive calendar days shall cause the merit increase eligibility date to be extended to the first of the month following completion of the leave of absence without pay.

Notwithstanding the foregoing provisions of this section, an officer or employee who is promoted or reclassified to a position in a class with a higher salary range shall receive the recruiting salary for the higher class if it is greater than his salary prior to promotion or reclassification, or such higher amount as would constitute a one-step increase on the salary range over the salary received prior to the promotion or reclassification, not to exceed the top step of the new salary range. The effective date of all promotions shall coincide with the first working day of a pay period. Upon the promotion or reclassification, a new merit increase eligibility date shall be established, which shall be the first day of the month following completion of the number of months' service which corresponds with the required period of service as is governed by the next preceding paragraph of this section.

ing association is a mutual association. Regardless of any other provisions of law, the vote or written consent of borrower members of the contracting associations is not required, and the vote or written consent of the shareholders of a contracting association which issues both stock and shares is not required, provided the vote or written consent of the stockholders is secured as provided in (a) above. Any such transfer shall have prior written approval of the commissioner.

9201. Any domestic association may transfer all or substantially all of its property and assets to a federal savings and loan association, or any federal savings and loan association may transfer all or substantially all of its property and assets to any domestic association, upon such terms as may be agreed by the affirmative vote of at least a majority of their respective directors, ratified, in the case of the contracting domestic association by either (a) the vote or written consent of stockholders holding in the aggregate not less than two-thirds of the outstanding stock of the contracting association, or (b) by the vote or written consent of shareholders holding in the aggregate not less than two-thirds in value of the outstanding shares if the domestic contracting association is a mutual association. In the case of contracting federal savings and loan associations, the transfer shall be ratified by the vote or written consent prescribed by the laws of the United States and the regulations of the Federal Home Loan Bank Board applicable thereto. Regardless of any other provisions of law, the vote or written consent of borrowing members of a domestic contracting association is not required, and the vote or written consent of the shareholders of a domestic contracting association which issues both stock and shares is not required, provided the vote or written consent of the stockholders is secured as provided in (a) above. Any such transfer shall have prior written approval of the commissioner.

9202. Any two or more domestic associations may be merged into one of such constituent associations, or consolidated into a new association with or without any division of the funds or property of either of them.

9203 Any one or more domestic associations, and any one or more federal savings and loan associations, may be merged into one of such constituent associations, or consolidated into a new association, domestic or federal, with or without any division of the funds or property of any of them.

9204. Each merger or consolidation shall be approved by the commissioner upon a finding by him that the terms and conditions of the proposed merger or consolidation are fair, just, and equitable, and with respect to any constituent domestic association shall be made in conformity with the provisions of law applicable to mergers and consolidations in the case of corporations generally except as otherwise expressly provided in this article, and with respect to any constituent federal savings and loan association, be made in conformity with the provisions of the laws of the United States, and the

The agreement may provide for the distribution of cash, property, or securities, in whole or in part, in lieu of stock, to stockholders of the constituent associations.

9206. If the agreement is for a merger, it shall state any matters with respect to which the articles of the surviving association are amended and the articles shall be amended accordingly, without any further proceedings, upon the effective date of the merger, but with respect to any such amendments, the agreement shall meet the requirements of Section 3631 of the Corporations Code in identifying any provisions to be amended, stricken, or added and shall set forth in full the wording of the provision as amended or added or the wording of the amended articles if they be amended in full.

9207. The agreement shall be approved by either (a) the vote or written consent of stockholders holding in the aggregate not less than two-thirds of the outstanding stock of each association or (b) the vote or written consent of shareholders holding in the aggregate not less than two-thirds in value of the outstanding shares if the association is a mutual association. Regardless of any other provisions of law, the vote or written consent of borrowing members of each association is not required and the vote or written consent of the shareholders of an association which issues both stock and shares is not required provided the vote or written consent of the stockholders is secured as provided in (a) above. If the written consent of the stockholders or shareholders is not received a notice of a meeting to vote duly called upon notice of the time, place, and purpose thereof shall be duly given to each stockholder or shareholder entitled to vote at least 20 days prior to the date of the meeting.

9208. The approval of the stockholders or shareholders may be given before or after the approval of the agreement by the board of directors.

9209. When the agreement has been approved by the directors and the stockholders or shareholders of an association, the association shall mail notice of the approval to each of its stockholders or shareholders.

9210. After approval by the directors and stockholders or shareholders has been given, the president or a vice president and the secretary or an assistant secretary of each association shall execute and submit to the commissioner for his written approval a certificate, which shall be verified by their affidavit stating, in effect, that the matters set forth in the certificate are true of their own knowledge, and shall set forth:

(f) The name of the surviving or consolidated association.

(g) That the agreement for merger or consolidation submitted to the commissioner for his written approval and for filing thereafter with the Secretary of State concurrently with this certificate is the agreement hereinabove referred to and sets forth the terms and conditions approved by said resolution of directors and vote or written consent of stockholders or shareholders.

(h) Such additional matters as the commissioner may require.

9211. Any amendment to the agreement may be adopted, and the agreement so amended may be approved at the meeting of the stockholders or shareholders of any of the associations or by written consent of such stockholders or shareholders, in the same manner and by the same vote as the original agreement. If the agreement so amended is approved at a meeting or by written consent by the stockholders or shareholders and by the board of directors of each of the associations by the vote or written consent required for approval of the original agreement, the agreement so amended shall be signed and acknowledged and shall have certified therewith the approval of the directors and of the stockholders or shareholders in the same manner as provided for the original agreement, and shall then constitute the merging or consolidating agreement.

9212. The directors of an association may, in their discretion, abandon a merger or consolidation, subject to the rights of third parties under any contracts relating thereto, without further action or approval by the stockholders or shareholders

of the association, at any time before the merger or consolidation has been completed.

9213. The executed agreement, or an executed counterpart thereof and the respective certificate of each constituent domestic association and of the surviving domestic association shall be separately filed with the Secretary of State. Neither the agreement nor any certificate shall be filed, however, unless the commissioner's written approval is attached thereto and until there has been filed with the Secretary of State, by or on behalf of each association taxed under the provisions of Chapter 2 (commencing with Section 23101) of Part 11 of Division 2 of the Revenue and Taxation Code, the existence of which is terminated by the merger or consolidation, the certificate of satisfaction of the Franchise Tax Board that all taxes imposed by such act have been paid or secured. A copy of the approved agreement certified by the Secretary of State shall be filed with the commissioner. The effective date of the merger or consolidation under this article shall be the date of the filing with the commissioner of the copy of the approved agreement of merger or consolidation certified by the Secretary of State. The commissioner shall promptly notify the Secretary of State of the date of filing of such documents.

9214. In the case of a merger, the provisions of Article 2 (commencing with Section 4300) of Chapter 3, Part 8, Division 1, Title 1 of the Corporations Code shall apply only to stockholders and shares of stock owned by them in the association being merged into a surviving association.

9215. A domestic association may acquire all of the issued and outstanding stock of another domestic association, or any other corporation, with the prior written approval of the commissioner upon such conditions as he may impose as a step in a plan of merger to be approved by the commissioner. The acquisition of such stock shall be upon such terms as may be agreed by the affirmative vote of at least a majority of the board of directors of the acquiring association ratified by the vote or written consent of stockholders of the acquiring association holding in the aggregate not less than a majority of its outstanding stock.

9216. Any domestic association, owning all the outstanding stock of any corporation, may merge such wholly owned subsidiary corporation if the laws under which the subsidiary corporation exists permits a merger as this section provides. Such association shall submit to the commissioner for approval a certificate of ownership in its name signed by its president or a vice president, and its secretary or an assistant secretary, which shall be verified by their affidavit, stating, in effect, that the matters set forth in the certificate are true of their own knowledge. The certificate shall set forth:

(a) That it owns all the outstanding stock of the merged corporation.

(b) A copy of the resolution adopted by a majority of its board of directors to merge such corporation, and to assume all of its obligations.

(c) The time and place of the meeting of the board of directors at which such resolution was adopted, and the vote by which it was adopted.

If the commissioner approves such merger, he shall attach to the certificate his written approval, and the certificate shall be filed with the Secretary of State. A copy of the approved certificate certified by the Secretary of State shall be filed with the commissioner. Thereupon, all of the estate, property, rights, privileges, and franchises of the merged corporation shall vest in and be held and enjoyed by the parent association as fully as the same were before held and enjoyed by the merged corporation, but subject to all the liabilities and obligations of the merged corporation and the rights of all creditors thereof. The parent association shall not, however, thereby acquire the right to engage in any business or to exercise any right, privilege, or franchise of a kind which it could not lawfully engage in or exercise under the provisions of this division. The parent association shall be deemed to have assumed all the liabilities and obligations of the merged corporation, and shall be liable in the same manner as if it had itself incurred such liabilities and obligations.

If the merged subsidiary is a domestic corporation, a copy of the certificate shall be filed in the office of the Secretary of State on behalf of the subsidiary corporation. If the merged subsidiary is a foreign corporation qualified for the transaction of intrastate business in this state there shall be filed in the office of the Secretary of State on behalf of the foreign subsidiary a certificate of surrender and right to transact intrastate business as provided in Section 6700 of the Corporations Code. Certified copies of the certificate shall also be filed as provided in Section 4114 of the Corporations Code. No copy of the certificate shall be filed unless there is also filed with the Secretary of State the certificate of satisfaction of the Franchise Tax Board that all taxes imposed upon such subsidiary corporation by the Bank and Corporation Tax Law, Part 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code, have been paid or secured.

9217. A filing fee of seven hundred fifty dollars ($750) shall be paid to the commissioner for each application for merger, consolidation or transfer requiring the commissioner's approval.

9218. The commissioner may adopt rules and regulations relating to any transaction regulated by this article.

(2) The land sold is under similar use, or in a use productive of a similar return, unless there is reason to believe that the land being valued has the capability and imminent opportunity of being put to a use similar in nature or productivity to the use of the land sold.

(b) At least five sales of land qualifying as comparable in subdivision (a) shall be required before the board may consider them to be representative of the value of the land being

valued. A lesser number of sales may be considered to be representative if two or more of the lands sold abut upon the land being valued.

In arriving at a value by capitalizing income, the capitalization rate shall be predicated on a rate of return which is based on allowances for risk, interest and property taxes, and shall not be derived from sales data from other lands. In arriving at a value by capitalizing income in those instances where the board's appraisers have proved to the board's satisfaction that the permitted use or uses will be changed in the predictable future, the income shall be predicated on estimated income which could be realized from such use or uses of the land and the capitalization rate shall be predicated on a rate of return which is based on allowances for risk, interest and property taxes, and shall not be derived from sales data from other lands.

(1) The effects of the federal or state income, estate or gift taxes on the buyers and sellers that are not common to a large number of buyers or sellers.

If the assessor or taxpayer wishes to rebut such presumption in such succeeding years, he shall give written notice of the proposed full cash value and assessed value to the other party and the matter shall automatically be placed before the county board unless such other party files a written statement with the board that he does not want to contest the matter and in that event the matter will not be placed before the county board. The burden of rebutting the presumption rests upon the party that did not prevail in the proceeding which gave rise to the presumption.

When any matter is placed before the county board pursuant to this section, the clerk shall notify the taxpayer of the time and place of hearing in the same manner as notice is given for application for changes of assessments. If the taxpayer or his agent does not appear or has not made timely request for continuance, the matter shall be heard by the county board and the assessor shall present his evidence in rebuttal of the presumption notwithstanding the failure of the taxpayer or his agent to appear or to request a continuance.

If, at the election, the requisite number of voters cast their ballots in favor of the issuance of bonds, the bonds shall be issued and sold in the manner provided by law, and the results

SEC. 11. Section 18058.1 of the Education Code is amended to read:

18058.1. Whenever a unified district is formed under Section 1976, if such formation occurred without any affirmative

action taken by the electors of such district, and if it is necessary for the newly formed unified district, because of lack of adequate facilities, to contract with another school district under the provisions of Section 11256 for the education of a part of its day pupils, the Superintendent of Public Instruction shall allow to such district, in addition to the current expenses allowed under Section 18056.1 an amount equal to the cost of schoolbuses, as determined by him to have been required for the transportation of pupils to such district, purchased during any of the first three fiscal years following that in which the district was formed. In each of the nine consecutive fiscal years following the close of the third fiscal year in which the district was formed, the Superintendent of Public Instruction shall reduce the allowance to which the district is otherwise entitled under Section 18056 by an amount equal to one-twelfth of the actual cost of such buses purchased or the amount computed pursuant to Section 18056, whichever is the lesser.

SEC. 12. Section 18061 of the Education Code is amended to read:

18061. (a) In the event that the total amount which may be allowed under Section 18051 during any fiscal year is less than the total allowances computed under Sections 18055, 18056, 18056.1, 18057, 18058, and 18058.1, the amount allowed shall be successively recomputed by adding one-tenth of one cent ($0.001) to the lower tax rates provided for in Sections 18055, 18056, and 18057, respectively, until there is no deficit. Any balance remaining shall be allowed pursuant to Section 18460.

(b) In the event the total amount which may be allowed under Section 18051 during any fiscal year is more than the total allowances computed under Sections 18055, 18056, 18056.1, 18057, 18058, and 18058.1, the balance shall be allowed pursuant to Section 18460.

SEC. 13. Section 1927 of the Education Code, as proposed by Senate Bill No. 705, is amended to read:

19270. Each district to which an apportionment or apportionments has been made under this chapter shall repay a portion or all of the principal amount of such apportionment or apportionments and the accrued interest thereon in 30 equal annual payments, as shall be determined by the State Controller pursuant to this section. If more than one apportionment is made the annual amount payable shall be the sum of the amounts which would be payable on each apportionment if computed separately.

The State Controller shall determine the portion of the principal amount of the apportionment or apportionments made to each district to be repaid by the district by diminishing such principal amount by the product of the ratio which the assessed valuation of the district per unit of average daily attendance of pupils in the grades maintained by the district during the preceding fiscal year bears to the assessed valuation

per unit of such average daily attendance in the same type of districts in the state and one-half of the principal amount of the apportionment or apportionments, except that the amount to be repaid shall not exceed the amount of the principal apportionment or apportionments.

The State Controller shall make the computation to determine the annual repayment due in the next fiscal year following the fiscal year in which the apportionment is made. In any year in which the annual repayment exceeds the amount which may be raised by a three-cent ($0.03) tax rate per one hundred dollars ($100) of assessed valuation in the district, the governing board of the school district shall so certify to the State Controller whereupon the State Controller shall grant a deferment of the annual repayment which is in excess of the amount that would be produced by a tax rate of three cents ($0.03) per one hundred dollars ($100) of assessed valuation of the district. The amount deferred shall be added to the annual repayment for the next succeeding fiscal year.

SEC. 14. Section 13 of this act shall be operative only if Senate Bill No. 705 of the 1968 Regular Session is enacted, in which event it shall become operative at the same time as Chapter 6 (commencing with Section 19250) of Division 14 added to the Education Code by Senate Bill No. 705.

The estimate shall be based on current costs and may include other costs to reflect modern educational needs. Also an estimate of the cost of replacement based on the standards established by the State Allocation Board for area per pupil and cost per square foot, shall be made and reported.

The report required by this section shall include a statement that each of the buildings examined is safe or unsafe for school use. For the purpose of this statement the sole consideration shall be protection of life and the prevention of personal injury at a level of safety equivalent to that established by Article 4 (commencing with Section 15451) of this chapter and the rules and regulations adopted thereunder, disregarding, insofar as possible, such building damage not jeopardizing life which would be expected from one disturbance of nature of the intensity used for design purposes in said rules and regulations.

The governing board, utilizing the information acquired from the examination and report developed pursuant to this section, shall establish a system of priorities for the repair, reconstruction, or replacement of unsafe school buildings.

SEC. 2. Section 15505 of the Education Code is amended to read:

15505. If the district does not have sufficient funds available to permit the governing board of the district to proceed with the repair, reconstruction, or replacement of the building or buildings, the governing board shall within six months after receiving the report of the examination of the building or buildings, call an election. At such election there shall be submitted to the qualified electors of the district either proposition (a) or (b), or both propositions (a) and (b), as determined by the governing board of the district, as follows:

(a) (1) Authorization of bonds of the district in an amount sufficient, as shown by the estimate, to provide funds for the repair, or reconstruction, of the building or buildings, in accordance with the governing board's plan; or

(2) Authorization of bonds of the district in an amount sufficient as shown by the estimate obtained by the district to construct new school facilities on the site of one or more of the unfit building or buildings, or on other sites, in accordance with the governing board's plan.

(b) Authorization of the increase of the maximum tax rate of the district for such length of time as will permit raising sufficient funds by district taxation for the repair, reconstruction, or replacement of the building in accordance with the governing board's plan.

In connection with the submission of either proposition (a) or (b), or both propositions (a) and (b), the governing board of the district may submit to the qualified electors of the district a proposition for the abandonment of the building and the use of tents or other temporary structures for school purposes in lieu of the building abandoned.

Neither of the propositions under (a) and (b) shall be required to make provision for financing of the entire repair, reconstruction or replacement program of the district, but shall at least provide funds for commencement of such repair, reconstruction or replacement, consistent with the governing board's plan.

SEC. 3. Section 15511 of the Education Code is amended to read:

15511. If at the election, no proposition which is required to be submitted to the qualified electors is approved and authorized, the governing board of the district shall, in accordance with the same or a modified plan, submit either the proposition to authorize the issuance of bonds, or the proposition to increase the tax rate, or both, no later than five years following the last submission of either or both of these propositions to the qualified electors of the district. The result of the voting on the proposition to authorize the use of tents or other temporary structures shall be considered by the governing board as an advisory vote, and the tents or other temporary structures may be used for school purposes to the extent that such use is deemed necessary by the governing board.

SEC. 4. Section 15515 of the Education Code is amended to read:

15515. No member of the governing board of a school district shall be held personally liable for injury to persons or damage to property resulting from the fact that a school building was not constructed under the requirements of Article 4 (commencing with Section 15451) of this chapter, if such governing board complies with the provisions of this article. Such limit on liability shall commence when such governing board initiates action to comply with the provisions of Section 15503.

A licensed structural engineer or licensed architect employed by a governing board to examine any school building under this article shall not be held personally liable for injury to persons or damage to property as a result of the structural

inadequacy and failure of a building, provided he has exercised normal professional diligence in carrying out his functions under Article 4 (commencing with Section 15451) of this chapter and the provisions of this article.

CHAPTER 1177

An act to amend Section 25113.1 of, and to add Section 14696.2 to, the Education Code, and to add Section 22152.6 to the Government Code, relating to school districts, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 9, 1968. Filed with Secretary of State August 9, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 25413.1 of the Education Code is amended to read:

25413.1. When a junior college district, members of the governing board of which are also members of the governing board of a city school district with an average daily attendance of 400,000 or more in grades kindergarten through 12, serves a greater area than the city school district, the persons who serve as members on the governing board of the junior college district shall not serve also as members of the city school district board. Those persons who serve as members of the governing boards of both the junior college district and the city school district shall, on or before December 31, 1968, elect on which of the two boards they will continue to serve. Those persons who elect to serve as members of either the governing board of the junior college district or the governing board of the city school district shall continue to serve also as members of the governing board from which they have elected to withdraw until their successors on such board are elected at the governing board election next following December 31, 1968, and have assumed office.

Prior to December 1, 1968, the governing board shall identify each position the wages or salary of which is paid in whole or in part from the funds of the junior college district and shall so notify each incumbent. Each employee whose

regular-position wages or salary is paid exclusively from the funds of either district as of June 30, 1969, shall be deemed on July 1, 1969 to be an employee of the district paying the wages or salary. Each classified employee whose regular-position wages or salary was upon written notification made after July 1, 1968, paid in part from junior college district funds and in part from city school district funds, and each certificated employee paid 50 percent or more from the funds of the junior college districts, shall make an irrevocable, written election on or before December 31, 1968, as to the district in which he will serve. Upon the effective date of the election, a classified employee in either district shall have the right, based upon his seniority in the position classification in which he is then serving, to transfer to a position in the same position classification in the other district and to displace a classified employee with lesser seniority in such class employed in the other district, under rules established by the personnel commission serving the city school district. Should such an employee fail to make such election he shall be deemed to have elected to serve the city school district. Such election shall become effective on July 1, 1969, unless the employee has prior to June 30, 1969 voluntarily accepted regular assignment to a regular position the wages or salary of which is paid on June 30, 1969 exclusively by one district, and he is the incumbent in such position on said date. After June 30, 1969, no such employee shall have tenure or classification as a permanent employee in other than the district in which he elects to serve.

If both the city school district and the junior college district have adopted a merit system as provided in Article 5 (commencing with Section 13701) of Chapter 3, Division 10 of this code, and were served by a single personnel commission as provided in Section 13705, then a new personnel commission shall be appointed for the junior college district effective January 1, 1969, or as soon thereafter as possible, under the procedures applicable to the original appointments to the personnel commission which has served both districts. Subsequent appointments shall be made in accordance with Section 13707.4. The new personnel commission shall be empowered to meet prior to July 1, 1969, for the purpose of appointing a personal director, and may enter into a contract with the personnel commission which has served both districts for the necessary selection procedures. It may also take action on all other matters necessary for the orderly transition of responsibility between the two personnel commissions. The new personnel commission shall appoint a personnel director in the manner provided in Section 13717 within 90 days after the appointment of at least two of its members, but not before July 1, 1969. The personnel commission which had served both districts may continue to serve both districts pursuant to the terms of a contract which may be entered into by the personnel commissions of both school districts until such time as the newly appointed per-

sonnel commission determines that it can serve the junior college district.

Except as otherwise provided in this section, the rights, benefits and burdens of regular classified employees of both the city school district and the junior college district shall be fixed in accordance with the provisions of Sections 13584 and 13584.1. The personnel commission of the junior college district shall initially adopt the rules of the personnel commission which had served both districts. The governing board of the junior college district shall fix the compensation of classified employees in accordance with Section 13601.5. The junior college district shall maintain for a period of two years after June 30, 1969 at least the same benefits of salary, vacation, hospital-medical insurance, paid illness leave, and other paid leaves provided for classified employees on June 30, 1969.

A classified employee who has probationary status in either district on June 30, 1969, shall remain in probationary status, with accumulated seniority credit, until he completes his probationary period. A classified employee who has permanent status on June 30, 1969, shall have the rights and privileges listed below on and after the separation of the junior college and city school boards of education:

(a) Seniority for all purposes for all creditable service, as provided by the rules of the appropriate personnel commission, in either district.

(b) Until July 1, 1970, in case of layoff from one district the right of reemployment in the other district, including the exercise of bumping rights, if the employee has the least seniority in his class in the employing district. Subject to the approval of the employing district, the privilege of being reinstated after layoff in either district in a parallel class for a period of 27 months commencing July 1, 1970.

(c) Subject to the approval of the employing district, the privilege of reinstatement after resignation or voluntary demotion, and the privilege of transfer or voluntary demotion in either district, with the approval of both districts, for a period of 39 months after July 1, 1969.

(d) The right to compete in promotional examinations in both districts through June 30, 1970 for classes for which he is qualified.

(e) The retention of all accrued vacation and illness leave benefits.

All classified eligibility lists which are in effect on June 30, 1969, shall continue to be in effect in both districts, for applicable classes, until they expire in accordance with Section 13738 Employees of both the city school district and the junior college district who are on such lists on June 30, 1969 may be certified for and may accept appointments to positions in either district.

For the purposes of Section 13723, the junior college district shall be deemed to be a school district which had already

adopted the merit system prior to the amendment of Section 13723 in 1965.

It is the intent of the Legislature in enacting this act to continue the rights, benefits, and privileges of regular classified employees, insofar as practicable, without disruption which may be caused by the separation of the junior college and city boards of education.

Any part or all of the land, buildings, fixtures, leases, and other real property which are jointly owned by the city school district and the junior college district may, at the option of the city school district, become the property of the city school district subject to the requirement that the city school district pay cash, or other valuable consideration acceptable to the junior college district, to the junior college district for its proportionate interest in such real property. Such payments may be made in installments over a five-year period, commencing July 1, 1969. Not less than 20 percent of such proportionate interest of the junior college district shall be paid in any one installment. Such property shall be valued at its insurable value as of May 1, 1969. In cases where the value of real property cannot be established by reference to insurable value the market value of the property shall be used for valuation purposes. In order to provide for such payments, and for cash payments authorized in this section for the purpose of purchasing equipment, supplies, fixtures, vehicles, and other personal property, the maximum school district tax for such city school district is hereby increased by such amount as will produce the amount of such payments made pursuant to this section, and the increase shall be in addition to any other schools district tax authorized by law to be levied. Such maximum school district tax increase may be levied commencing July 1, 1968 and shall remain in effect until all payments to the junior college district for its interest in such real and personal property have been made.

All equipment and supplies, including fixtures, and other personal property located in any school shall remain with and become the property of the district operating such school. Any part or all of the equipment, supplies, fixtures, and other personal property, located in a facility owned jointly by both such districts, and which property has been used jointly by both such districts may, at the option of the city school district, become the property of the city school district subject to the requirement that the city school district pay cash, or other valuable consideration acceptable to the junior college district, to the junior college district for its proportionate interest in such personal property. Such personal property shall be valued at its insurable value as of May 1, 1969.

Equipment, supplies, and other stores possessed jointly by both districts as of July 1, 1969 shall be distributed in kind or in cash value in accordance with the costs as reflected in the records of the junior college district and the city school district.

Vehicles jointly owned or jointly used by the city school district and by the junior college district, including those used for grading, landscaping, building or ground maintenance, cleaning, and for materials handling purposes, regardless of location, may, at the option of the city school district, become the property of the city school district, subject to the requirement that the city school district pay cash, or other valuable consideration acceptable to the junior college district, to the junior college district for its proportionate interest in such personal property. Such personal property shall be valued at its insurable value as of May 1, 1969.

One district may contract with the other district for the performance of services under such terms and conditions as may be agreed upon by the two districts.

Whenever in this code a section refers to a district, or to two or more districts, governed by a single governing board, or by governing boards of identical personnel, or to a district or districts in which the average daily attendance is in excess of 400,000, or makes a similar such reference, all provisions of such section shall apply with equal force to both such city school district and junior college district.

SEC. 2. Section 14696.2 is added to the Education Code, to read:

14696.2. If two districts, one of which is a junior college district, have been included in one contract between the Board of Administration of the Public Employees' Retirement System and the governing board of said districts, as provided in paragraph (7) of subdivision (b) of Section 14696 of the Education Code, and thereafter members of the governing board of the junior college district are precluded by law from serving as members of the governing body of the other district, such contract shall be deemed a separate contract as to each district. The Board of Administration of the Public Employees' Retirement System shall determine the accumulated contributions held for or as having been made by each district and its employees, and shall credit such contributions to the respective contracts. Benefits based on all service of an employee to the districts prior to the date upon which employees' elections to serve the respective districts are effective shall be a liability of the contract of the district employing such person on such effective date. A person retired prior to such effective date shall, for all purposes of this section, be deemed an employee of the district other than the junior college district.

SEC. 3. Section 22152.6 is added to the Government Code, to read:

22152.6. Notwithstanding any provision of this part to the contrary, the board shall divide the Public Employees' Retirement System with respect to the employees of any junior college district whose employees who are members and who are not covered under the federal system on July 1, 1969, and shall execute a modification to the agreement to include services in positions covered by the retirement system, as defined in para-

graph (1) of subdivision (e) of Section 22009.1, established by such division with coverage as of July 1, 1969. The division shall be conducted in accordance with this article. The district shall perform such function in connection with the division as the board may direct.

A school district whose employees are included in the agreement pursuant to this section shall be subject to all obligations, duties and liabilities imposed and shall have the powers conferred on a public agency under Article 2 (commencing at Section 22550) of Chapter 2 of this part.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to allow the necessary time and to provide the necessary information for city school district and junior college district employees, as defined in Section 1 hereof, for the purpose of selecting their school district employers, and in order to allow for an orderly distribution of real and personal property between the two school districts, it is necessary that this act go into effect immediately.

at their request, and for all money paid for or advanced to such guests, boarders, tenants, or lodgers, and for the costs of enforcing such lien, with the right to the possession of such baggage and other property until such charges and moneys are paid; and unless such charges and moneys shall be paid within 60 days from the time when the same become due, said hotel, motel, inn, furnished apartment house, boardinghouse or lodginghouse keeper may sell said baggage and property at public auction to the highest bidder, after giving notice of such sale by publication of a notice containing the name of the debtor, the amount due, a brief description of the property to be sold, and the time and place of such sale, pursuant to Section 6064 of the Government Code in the county in which said hotel, motel, inn, furnished apartment house, boardinghouse or lodginghouse is situated and also by mailing, at least fifteen (15) days before such sale, a copy of such notice addressed to such guest, boarder, tenant, or lodger at his post office address, if known, and if not known, such notice shall be addressed to such guest, boarder, tenant, or lodger at the place where such hotel, motel, inn, furnished apartment house, boardinghouse or lodginghouse is situated; and after satisfying such lien out of the proceeds of such sale together with any reasonable costs that may have been incurred in enforcing said lien, the residue of said proceeds of sale, if any, shall upon demand made within six months after such sale, be paid by said hotel, motel, inn, furnished apartment house, boardinghouse, or lodginghouse keeper to such guest, boarder, tenant, or lodger; and if not demanded within six months from the date of such sale, such residue shall be paid into the treasury of the county in which such sale took place; and if the same be not claimed by the owner thereof, or his legal representatives, within one year thereafter, the same shall be paid into the general fund of said county; and such sale shall be a perpetual bar to any action against said hotel, motel, inn, furnished apartment house, boardinghouse or lodginghouse keeper for the recovery of such baggage or property or of the value thereof, or for any damages growing out of the failure of such guest, boarder, tenant, or lodger to receive such baggage or property; provided, however, that if any baggage or property becoming subject to the lien herein provided for does not belong to the guest, lodger, tenant, or boarder who incurred the charges or indebtedness secured thereby, at the time when such charges or indebtedness was incurred, and if the hotel, motel, inn, furnished apartment house, boarding or lodging house keeper entitled to such lien receives notice of such fact at any time before the sale of such baggage or property hereunder, then, and in that event, such baggage and property which is subject to said lien and did not belong to said guest, boarder, tenant, or lodger at the time when such charges or indebtedness was incurred shall not be subject to sale in the manner hereinbefore provided, but such baggage and property may be sold in the manner provided by the

CHAPTER 1183

An act to amend Section 69604 of the Government Code, relating to courts.

[Approved by Governor August 9, 1968. Filed with Secretary of State August 9, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 69604 of the Government Code is amended to read:

69604. In the County of Stanislaus there shall be five judges of the superior court.

CHAPTER 1184

An act to amend Section 30001 of, and to add Section 30636.2 to, the Public Utilities Code, relating to rapid transit.

[Approved by Governor August 9, 1968. Filed with Secretary of State August 9, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 30001 of the Public Utilities Code is amended to read:

30001. The Legislature hereby finds and declares:

(a) There is an imperative need for a comprehensive mass rapid transit system in the southern California area, and particularly in Los Angeles County. Diminution of congestion on the streets and highways in Los Angeles will facilitate passage of all Californians motoring through the most populous area of this state and will especially benefit domiciliaries of that county who reside both within and without the rapid transit district.

(b) In view of the limited powers of the Los Angeles Metropolitan Transit Authority (herein sometimes referred to as "authority") it has become apparent that the authority is unable to solve the transit problems of the southern California area and provide the needed comprehensive mass rapid transit system.

(c) It is, therefore, necessary to provide a successor corporation to the authority, to wit: a transit district, and to establish such transit district governed by representatives of the governmental agencies in the southern California area so that there will be sufficient power and authority to solve the transportation problems in the southern California area and to provide the needed comprehensive mass rapid transit system.

(d) It is evident, therefore, that such a transit district may plan to meet the transit needs and problems of the whole southern California area; and that the estimates of future

population growth for the southern California area make it imperative that a comprehensive plan for rapid transit contain projections of population trends extending over the next 30 years.

SEC. 2. Section 30636.2 is added to the Public Utilities Code, to read:

30636.2. In planning the development of a rapid transit system or any part thereof within its territory and in carrying out the provisions of Section 30001, the district may extend its studies to include any city or unincorporated area not within the territory of the district. The district may invite the participation in such studies of government agencies having planning jurisdiction in such extended areas, and the studies shall be coordinated with regional comprehensive and transportation planning programs. The district may accept and use for the purpose of rapid transit planning in such extended areas any funds provided for such purpose.

his work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his leaving to return to school at the close of, his vacation period, shall be entitled to a ruling as prescribed by this section. The period during which the employer may submit such facts may be extended by the director for good cause.

(b) The department shall consider such facts together with any information in its possession and promptly notify the employer of its ruling as to the cause of the termination of the exhaustee's most recent employment. Any ruling may for good cause be reconsidered by the department within 15 days after mailing or personal service of the notice of ruling. An appeal may be taken from a ruling or reconsidered ruling in the manner prescribed in Section 3655.

(c) Rulings under this section shall have the effect prescribed by Section 1032.

SEC. 4. The provisions of Sections 1030, 1032, and 3701 of the Unemployment Insurance Code as amended by this act shall apply to new, primary, and additional claims filed with an effective date beginning on or after the effective date of this act. The mere presence in a vehicle of a firearm and unexpended ammunition capable of being discharged from such firearm, without such ammunition being in, or attached in any manner to, the firearm, shall not be enough to consider a firearm to be loaded.

(f) Nothing in this section shall prevent any person engaged in any lawful business, including a nonprofit organization, or any officer, employee, or agent authorized by such person for lawful purposes connected with such business, from having a loaded firearm within such person's place of business, or any person in lawful possession of private property from having a loaded firearm on such property.

634. When it appears to the court that the minor or his parent or guardian desires counsel but is unable to afford and cannot for that reason employ counsel, the court may appoint counsel. In any case in which the minor is alleged to be a person described in Section 601 or 602, he shall be represented by counsel and the court shall appoint counsel for the minor if the minor or his parent or guardian desires counsel but is unable to afford and cannot for that reason employ counsel, unless there is an intelligent waiver of the right of counsel by the minor. If the parent or guardian does not furnish counsel and the court determines that such parent or guardian has the ability to pay, the court shall appoint counsel at the expense of the parent or guardian. In any case in which it appears to the court that there is such a conflict of interest between a parent or guardian and child that one attorney could not properly represent both, the court may appoint counsel, in addition to counsel already employed by a parent or guardian or appointed by the court to represent the minor or parent or guardian. If such person is unable to afford counsel and desires to have the minor represented by counsel, the court may in a case in which the minor is alleged to be within the provisions of Section 600, appoint counsel to represent the minor. In any case in which the minor is alleged to be a person described in Section 601 or 602, he shall be represented by counsel and the court shall appoint counsel to represent the minor if the minor or his parent or guardian desires counsel but is unable to afford and cannot for that reason employ counsel, unless there is an intelligent waiver of the right of counsel by the minor. If the parent or guardian does not furnish counsel and the court determines that such parent or guardian has the ability to pay, the court shall appoint counsel at the expense of the parent or guardian. The court shall continue the hearing for not to exceed seven days, as necessary to make an appointment of counsel, or to enable counsel to acquaint himself with the case, or to determine whether the parent or guardian or adult relative is unable to afford counsel at his own expense, and shall continue the hearing as necessary to provide reasonable opportunity for the minor and the parent or guardian or adult relative to prepare for the hearing.

services rendered to, or for the cost of probation supervision of, the minor claims that the minor's estate or relative is financially unable to pay the amounts established under this article for the care, support, and maintenance of, or legal services rendered to, or probation supervision of, the minor, he may make such claim in writing to the probation officer of the county in which the juvenile court making the order of placement, detention, or commitment is located. The probation officer shall, upon receipt of such a claim, make an investigation to determine whether the minor's estate or responsible relative is financially able to pay the said amounts established under this article, or any part thereof, and report the results of his investigation to the juvenile court. On receipt of the probation officer's report, the juvenile court shall hear and determine the claim, and may order that the representative of the estate or the relative pay all of the said amounts established under this article or any part thereof which the juvenile court finds that the estate or relative is financially able to pay.

Each container which contains a product resembling a milk product, other than an imitation milk product, shall be labeled with the name and address of the manufacturer or distributor, and the names of the ingredients contained in such product. Such product shall be labeled with a fanciful or brand

The director may require satisfactory proof of the compliance of any statement with the provisions of this section.

38955. On the labels of imitation milk products the use of pictures and symbols depicting dairy or agricultural activities, or associating the product with such activities, and use of dairy or agricultural terms or words, or derivations or cognates thereof, shall be subject to restriction or prohibition by the director by regulation. The basis for such regulations shall be the degree to which such symbols or words make or fail to make a significant contribution to a truthful and complete representation of the product, or appear to be likely to be deceptive and misleading to the purchaser.

38956. Trade products containers and labels shall not contain any combination of words, symbols, marks, designs, or representations commonly used or associated with the sale, advertising, or distribution of milk products. The director shall determine whether the schedule reflects a reasonable time in which the labels of the products are to be changed to comply with the provisions of this article. The di-

If the director determines that the schedule does not reflect a reasonable time for compliance, he shall reject the schedule stating his reasons in writing. Within 30 days of the rejection, the petitioner may file an amended schedule of compliance with the director. If the director rejects the amended schedule, the provisions of this article shall become applicable within 30 days of notice of the final rejection.

In addition the director may distinguish between different products or types of products on the basis of the nature of the product, its labeling, the manner in which it is customarily presented or is likely to be presented to the consumer, and any other relevant factors, if he determines such differentiation is warranted and in the public interest.

CHAPTER 4. CIVIL OFFENSES

151. Except where permitted pursuant to the provisions of Chapter 4 (commencing with Section 13040) of Division 7 of the Water Code, any person that intentionally or negligently causes or permits any oil to be deposited in the water of this state, including but not limited to navigable waters, shall be liable civilly in an amount not exceeding six thousand dollars ($6,000) and, in addition, shall be liable to any governmental agency charged with the responsibility for cleaning up or abating any such oil for all actual damages, in addition to the reasonable costs actually incurred in abating or cleaning up the oil deposit in such waters. The amount of the civil penalty which is assessed pursuant to this section shall be based upon the amount of discharge and the likelihood of permanent injury and shall be recoverable in a civil action by, and paid to, such governmental agency. If more than one such agency has responsibility for the waters in question, the agency which conducts the cleaning or abating activities shall be the agency authorized to proceed under this section.

152. The agency cleaning up the oil deposit shall notify, in writing, the appropriate regional water quality control board of the nature of the deposit and of the corrective action taken or contemplated.

SEC. 2. This act shall not be construed to limit or prevent any other agency or governmental authority from enforcing this act or any other provision of law.

SEC. 3. It is the intention of the Legislature hereby to correct and to eliminate the major pollution threat to the state's harbors and waterways by deposits and spillages of oil by those persons who are either manufacturing, drilling, transporting, shipping, discharging, or using oil in greater than minimal quantities.

Nothing in this section shall be interpreted to abrogate, in any manner, the rights of the individual to represent himself in employer-employee relations, nor the rights accorded employee organizations by this article, nor shall it be construed to limit, in any manner, the right of an employee organization to designate the person or persons, whether employees of the district or not, to represent it, its members, or a member, in employer-employee relationships.

to limit, in any manner, the right of an employee organization to designate the person or persons, whether employees of the district or not, to represent it, its members, or a member, in employer-employee relationships.

SEC. 3. Section 2 of this act shall become operative only if Senate Bill No. 458 is enacted by the Legislature at its 1968 Regular Session, and in such case at the same time as Senate Bill No. 458 takes effect; in which event Section 1 of this act shall not become operative.

CHAPTER 1263

An act to amend Section 69594 of the Government Code, relating to judges.

[Approved by Governor August 12, 1968. Filed with Secretary of State August 12, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 69594 of the Government Code is amended to read:

69594. In the County of San Bernardino there shall be 10 judges. On and after January 1, 1969, there shall be 11 judges.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 14150 of the Welfare and Institutions Code is amended to read:

14150. The total expenditures authorized for cost of care and county administration in any fiscal year by this chapter and Chapter 8 of this part shall not exceed the sum, added to the maximum available federal funds, of eighteen dollars and twenty-five cents ($18.25) multiplied by the sum of the 12 monthly numbers of (1) recipients under Chapter 2 (commencing with Section 11200) of this part, (2) certified medically indigent persons, and (3) recipients under Chapters 3 (commencing with Section 12000), 4 (commencing with Section 12500), 5 (commencing with Section 13000), and 6 (commencing with Section 13500) of this part, as evidenced by billings received for services and state and county administra-

tion by the close of the fiscal year, unless the Legislature, in the Budget Act, appropriates additional funds to be expended under this chapter and Chapter 8 of this part, and authorizes the expenditure of such funds notwithstanding the limitation fixed by this section. As used in this paragraph "total expenditures authorized for cost of care and county administration" includes the cost for health care for categorical aid recipients and certified medically indigent persons as enumerated in this paragraph, but does not include costs of care for other persons in a county hospital or a contract hospital nor that portion of the county cost of administration which is attributable to the health care provided to other persons, in a county hospital or contract hospital.

The sums authorized for expenditure pursuant to this section shall not be construed as limiting the amount of service or the period over which such service may be granted with respect to any person found to be eligible for care under this chapter or Chapter 8 of this part.

In addition to the sums specified in Section 14151, the county share towards the cost of care and county administration provided under this chapter and Chapter 8 (commencing with Section 14500) shall include:

(c) An amount equal to 90 percent of any part of the cost of care paid as the result of Title XVIII of the Federal Social Security Act for each person eligible under a state plan approved under Title XIX of the Federal Social Security Act which results in an excess of receipts over the amounts of uncompensated costs of health care which would otherwise have been incurred by the county.

The percentage specified in subdivision (c) hereof shall be reduced, for each county, to be from July 1, 1967 to June 30,

1968 eighty-five percent (85%) of said amount; from July 1, 1968 to June 30, 1969 eighty percent (80%) of said amount; and after July 1, 1969 seventy-five percent (75%) of said amount.

The remaining percentage of the base sums specified shall be used by the county for medical and health services.

SEC. 2. Section 14150.1 of the Welfare and Institutions Code is amended to read:

14150.1. In lieu of the amounts specified in Section 14150, a county may elect to pay as its share one hundred percent (100%) of the county cost of health care uncompensated from any source in 1964–65 for all categorical aid recipients, and all other persons in the county hospital or in a contract hospital, increased for such county for each fiscal year subsequent to 1964–65 by an amount proportionate to the increase in population, except that the military population may only be decreased, for such county, as determined by the Department of Finance in its official revised estimate, measured from July 1, 1965, and, in addition, any part of the cost of care paid as the result of Title XVIII of the Federal Social Security Act for each person eligible under a state plan approved under Title XIX of the Federal Social Security Act which results in an excess of receipts over the amounts of uncompensated costs of health care which would otherwise have been incurred by the county. If the county so elects, the county costs of health care in any fiscal year shall not exceed the total county costs of health care uncompensated from any source in 1964–65 for all categorical aid recipients, and all other persons in the county hospital or in a contract hospital, increased for such county for each fiscal year subsequent to 1964–65 by an amount proportionate to the increase in population, except that the military population may only be decreased, for such county, as determined by the Department of Finance, measured from July 1, 1965.

If a county elects to have its share computed under this section, such election shall be irrevocable until June 30, 1970.

SEC. 3. Section 14155 of the Welfare and Institutions Code is amended to read:

14155. Notwithstanding any other provisions of this code, net cost to a county for health care and county administration for recipients under this chapter and Chapter 8 (commencing with Section 14500), shall not exceed actual county costs for the fiscal year 1964–65 for the county share of costs of the following, increased for each county on July 1 of each year by an amount proportionate to the increase in population, except that the military population may only be decreased, for such county, as determined by the Department of Finance in its official estimate, measured from July 1, 1965:

(a) Medical assistance for the aged under Chapter 8 (commencing with Section 14500) of Part 3 of Division 9 of this code.

(b) Administrative costs of medical assistance for the aged under Chapter 8 (commencing with Section 14500) of Part 3 of Division 9 of this code.

(c) Medical services to public assistance recipients under Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of this code.

(d) Administrative cost of medical services to public assistance recipients under Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of this code.

(e) Health care to recipients of public assistance provided by the county under Chapter 2.5 (commencing with Section 1440) of Division 2 of the Health and Safety Code, or if a county elects to have its share computed under the provisions of Section 14150.1, health care to recipients of public assistance and other persons provided by the county under Chapter 2.5 (commencing with Section 1440) of Division 2 of the Health and Safety Code.

SEC. 4 This act shall become operative on July 1, 1969.

CHAPTER 1265

An act to add Section 7203.5 to the Revenue and Taxation Code, relating to sales and use taxes, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1968 Filed with Secretary of State August 13, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 7203.5 is added to the Revenue and Taxation Code, to read:

7203.5. Nothing in this part shall be construed as prohibiting the State Board of Equalization from administering or relieving it of the obligation to administer a taxing ordinance of a city conforming to the requirements of subdivision (h) of Section 7202 on the ground that the city imposes an additional sales and use tax; provided that the additional sales and use tax ordinance is enacted after August 1, 1968, and before September 1, 1968, and becomes operative on October 1, 1968, but such city does not levy such sales and use taxes on or after April 1, 1969, and further provided that the city imposing the additional tax had a population of more than 1,000,000 according to the 1960 federal census. The provisions of this paragraph shall only apply if the city imposes an additional sales and use tax at the rate of 1 percent and has adopted a sales tax reimbursement schedule as a part of the sales and use tax ordinance.

Except as herein provided, the State Board of Equalization shall not administer any sales or use tax ordinance of a city, county or city and county, if such city, county or city and

county imposes a sales or use tax in addition to the sales and use taxes imposed under an ordinance conforming to the provisions of Sections 7202 and 7203.

Nothing in this section shall be construed as prohibiting the levy or collection by a city, county or city and county of any other substantially different tax authorized by the Constitution of California or by statute or by the charter of any charter city.

SEC. 2. The Legislature finds that the overlapping tax structures of the federal, state and local governments are seriously hampering the functioning of the State of California. Due to the high rate of the federal income tax, the state is precluded from making the personal income tax and bank and corporation taxes its chief sources of revenue, as high state taxes, when combined with the high federal tax, would make the income and franchise taxes prohibitive in this state. Moreover, the state in the past has allowed local government to make the property tax its chief source of revenue and for the state again to rely on this source of revenue would cause great consternation among property owners.

Therefore, the state must rely on sales and use taxes as its chief source of revenue.

In addition, the Legislature is well aware that prior to the enactment of the Bradley-Burns Uniform Local Sales and Use Tax Law in 1955 the differences in the amount of sales tax levied among the various communities of the state created a very difficult situation not only for retailers but also created fiscal problems for the cities and counties. The retailer was faced with many situations which complicated tax collection, reporting, auditing and accounting. Because of the differences in taxes between areas, the retailer was affected competitively. Many areas advertised "no city sales tax if you buy in this area." This factor distorted what would otherwise have been logical economic advantages or disadvantages. It is apparent that enactment of the Bradley-Burns Law has brought about reduced costs to the retailer and has corrected illogical competitive situations.

Moreover, the Legislature finds that recent amendments to the state's Sales and Use Tax Law, which are incorporated into the ordinances of local government operating under the Bradley-Burns Law, have complicated the administration of sales and use taxes in such areas as prepayments and the taxing of certain occasional sales and leases. The increasing complexity of these taxes has made it more and more apparent that a return to the conflicting systems in existence prior to the adoption of the Bradley-Burns Law would be disastrous in California today.

In the big metropolitan areas where most taxable sales occur, local officials have shown the most interest in returning to the older system of independent sales and use tax administration. And it is in these areas that most of the poor and the minority groups are concentrated, and it is these persons who

are least able to pay increased consumer taxes. In addition, the recent trend of businesses to locate outside of metropolitan areas can only be accelerated by a system which grants them a competitive advantage by locating in the suburbs. And the fact should not be overlooked that varying and conflicting sales tax rates will have an adverse effect on the general business climate in California.

Therefore, the Legislature declares that the state, by enactment of the Sales and Use Tax Law and the Bradley-Burns Uniform Local Sales and Use Tax Law, has preempted this area of taxation.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

It has come to the attention of the Legislature that one or more cities in the State of California have enacted, or are considering enacting, sales and use tax ordinances which would impose taxes at rates in excess of the 1-percent rate provided by the Bradley-Burns Uniform Local Sales and Use Tax Law. It is essential that statewide uniformity in sales and use taxes imposed by local taxing jurisdictions be preserved.

CHAPTER 1266

An act to add Section 270 to, and to repeal Section 270 of, the Revenue and Taxation Code and to provide for the cancellation and refund of property taxes, relating to property tax exemptions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 270 of the Revenue and Taxation Code is repealed.

SEC. 2. Section 270 is added to the Revenue and Taxation Code, to read:

270. Any tax, or any penalty or interest thereon, for any fiscal year commencing during the calendar year 1968 and any calendar year thereafter, imposed upon property owned by any organization qualified for the college, cemetery, church, orphanage or welfare exemption, which is acquired by such organization during a given calendar year, after the lien date but prior to the first day of the fiscal year commencing within that calendar year, when the property is of a kind which would have been qualified for the college, cemetery, church, orphanage or welfare exemption if it had been owned by such organization

on the lien date, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division, as if it had been levied or charged erroneously, and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division, as if it had been erroneously collected, if an appropriate application for exemption is made on or before the 15th day of January of the calendar year next succeeding the calendar year in which the property was acquired.

SEC. 3. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1967 on property owned by any nonprofit institution which was acquired by it during that calendar year after the lien date in that year but prior to the commencement of such fiscal year, and of a kind that presently qualifies for the welfare exemption and that would have so qualified for such fiscal year had it been owned by such institution on such lien date, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected, if an appropriate application for exemption is filed on or before the 15th day of January of the calendar year 1969.

SEC. 4. With respect to Section 2 of this act the Legislature finds that organizations eligible for the welfare, church, college, orphanage or cemetery exemption often acquire property after the lien date to be put to use immediately for one or more of the purposes which give rise to an exemption from property taxation. If forced to pay the tax on such property, it will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the application of the exemption to such property. In doing so, the public policy of the state as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit.

SEC. 5. Section 3 of this act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some organizations qualified for the welfare exemption purchased property during the 1967 calendar year, after the lien date for that year, which property was taxed for the fiscal year 1967–68, although it would have been exempt from taxation for that year by reason of the welfare exemption had it been acquired prior to such lien date. If required to meet such tax obligation, the ability of such organizations to function effectively will be seriously impaired to the great detriment of our state. This act will remedy that situation, and in so doing,

the public policy of the state for the exemption of property owned by welfare organizations, as expressed in the Constitution, will be subserved and the state as a whole will benefit.

CHAPTER 1267

An act to add Sections 1327, 1328, 1329 and 1330 to the Education Code, relating to school district elections.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 1327 is added to the Education Code, to read:

1327. If at 12 o'clock noon on the 54th day prior to a school district election only one person has been nominated for the position of governing board member to be filled at that election or no person has been nominated for any such office, and a petition signed by 5 percent of the voters voting at the last school district election in such district requesting that the election be held has not been presented to the county superintendent by the 40th day prior to the election, an election shall not be held.

The provisions of this section shall not be applicable if the election has been consolidated pursuant to Section 1331 with any other school district governing board member election in which more than one candidate has been nominated for the position of governing board member to be filled at such other election

SEC. 2. Section 1328 is added to the Education Code, to read:

1328. [Approved by Governor August 13, 1968 Filed with Secretary of State August 13, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 13189 of the Education Code is amended to read:

13189. The minimum requirements for the standard teaching credential with a specialization in elementary teaching shall be all requirements specified in (a), (b), either (c) or (d), and (e):

(a) Five years (with the fifth year to be completed within seven years of the first employment of the certificated employee in elementary teaching), or its equivalent of university or college education.

(b) A baccalaureate degree or higher degree from an institution approved by the State Board of Education.

(c) One of the following:

(1) A major in an academic subject matter area commonly taught in the public elementary schools. The State Board of Education may define a diversified major in academic subject areas commonly taught in the public elementary schools to fulfill this requirement.

(3) Two minors in subject matter areas commonly taught in the public elementary schools and a major, other than education and educational methodology, not commonly taught therein. If the major is not in an academic subject matter area, each minor shall be in an academic subject matter area. If the major is in an academic subject matter area, one of the minors shall be in an academic subject matter area. Specialized preparation may be substituted for one of the minors.

The State Board of Education shall adopt regulations defining the terms "major" and "minor" for the purposes of this subdivision (c).

(d) A diversified major, hereby declared to be an academic subject matter major, totaling 88 semester hours of coursework in the enumerated subject matter areas, with a minimum of 21 semester hours in each of the first four areas. Four semester hours of coursework meets the health science requirement.

(1) English, including grammar, literature, composition, and speech.

(2) Mathematics and the physical or life sciences.

(3) Social sciences (other than education and education methodology).

(4) Humanities and fine arts, including foreign language.

(5) Health science.

Coursework in the listed fields taken in fulfillment of any other requirements that may be specified by the State Board of Education pursuant to subdivision (e) shall be credited toward this major. Notwithstanding any additional requirements as may be prescribed by the State Board of Education, the academic subject matter requirements set forth in this subdivision (d) shall constitute the total of such requirements for the standard teaching credential with a specialization in elementary teaching and with a diversified major as defined in this subdivision (d).

Notwithstanding any provisions of this section to the contrary, the Trustees of the California State Colleges, upon the recommendation of the chancellor, may approve a major in education, provided that such major meets the requirements of the diversified major as set forth in this subdivision (d) and that all coursework used to meet such requirements be provided in the several academic schools or departments, other than the school or department of education or educational methodology, of the institution. In addition to such major in education, a major in a subject matter area commonly taught in the public elementary schools shall be completed within the fifth academic year required in subdivision (a) of this section.

CHAPTER 1269

An act to add Section 71960 to the Water Code, relating to municipal water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 71960 is added to the Water Code, to read:

71960. The board may, without a vote of the electors, provide for the issuance of, and issue, general obligation bonds of the district or for an improvement district thereof if:

(a) The principal amount of such bonds do not exceed the then unissued balance of the principal amount of bonds authorized at an election held in the district, or in such improvement district, prior to May 9, 1967;

(b) The bonds are issued for the same purpose as that for which said unissued bonds were authorized; and

(c) The bonds are issued in accordance with the provisions of this article, except for the requirement of a bond election.

Bonds issued pursuant to this section may bear interest at a rate or rates not to exceed 6½ percent per year, payable semiannually, except that interest for the first year may be payable at the end of that year. When bonds are issued pursuant to this section, unissued bonds as referred to in (a) and (b) above in a principal amount at least equal to the principal amount of bonds issued pursuant to this section, shall be canceled by order of the board and shall not be issued.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Various municipal water districts have authorized but have not issued bonds which were authorized to provide funds for improvements urgently needed for the preservation of the public health and safety. In many cases, these bonds were authorized at an election held prior to May 9, 1967, at a time when the maximum interest rate under Section 71953 of the Water Code was 5 percent per annum. Because of rising interest rates many of these issues cannot be sold at a 5 percent rate. Although Section 71953 was amended on May 9, 1967, to raise the maximum to 6½ percent, a question has arisen as to whether or not bonds authorized at an election held prior to this amendment can be issued at a rate higher than 5 percent. The Legislature has the power to authorize municipal water districts to issue bonds without an election. This bill so authorizes but with appropriate restrictions insuring that the amount of bonds so issued will not exceed the amount previously authorized and will be issued for the same purpose.

CHAPTER 1270

230. No employer shall discharge an employee for taking time off to serve as required by law on an inquest jury or trial jury, if such employee, prior to taking such time off, gives reasonable notice to the employer that he is required to serve.

CHAPTER 1271

An act to add Section 2418.1 to the Vehicle Code, relating to ambulances.

As a condition to holding an executive session on the complaints or charges to consider disciplinary action or to consider dismissal such officer or employee shall be given written notice of his right to have a public hearing rather than an executive session, which notice shall be delivered to him personally or by mail at least 24 hours before the time for holding a regular or special meeting. Nothing in this article shall be construed to prevent the Board of Corrections from holding executive sessions when considering reports of crime conditions under the provisions of Section 6027 of the Penal Code.

Nothing in this article shall be construed to prevent the Motor Vehicle Pollution Control Board from holding executive sessions when considering the proprietary specifications and performance data of manufacturers.

Nothing in this article shall be construed to prevent the Board of Administration of the Public Employees Retirement System from holding executive sessions when considering investment decisions.

Nothing in this article shall be construed to prevent the governing body of a public agency, or such boards, commissions, administrative officers, or other representatives as may properly be designated by law or by such governing body, from holding executive sessions with its representatives at any time in discharging its responsibilities under Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 of this code as such sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 3100 of the Education Code is amended to read:

3100. It is the intent and purpose of the Legislature that the procedures prescribed by the provisions of this chapter and Chapter 9 (commencing with Section 3001) of this division be utilized primarily for the formation of unified school

districts maintaining grades kindergarten or 1 through 12, and that this form of organization be ultimately adopted throughout the state. It is the further intent of the Legislature that in exercising the authority to approve master plans and plans and recommendations developed at the local level, the State Board of Education consider the boundaries of existing high school districts as the minimum geographical base for the organization of individual unified school districts, to be deviated from only in exceptional situations. The State Board of Education may approve proposals for the formation of districts based upon the division of the territory of existing high school districts, provided that the board has determined, with respect to the proposal and the resulting new districts that all of the following conditions are met:

(a) That the new districts will be adequate in terms of number of pupils enrolled, having a projected average daily attendance of at least 10,000 by the beginning of the seventh fiscal year following the date that any such new district became effective for all purposes.

(b) That the new districts will be adequate in terms of financial ability. For purposes of determining financial ability, the board shall consider assessed valuations per pupil. In addition, solely for purposes of evaluating proposals pursuant to this section with reference to adequacy of districts in terms of financial ability, the board may, in conjunction with assessed valuations per pupil, give such consideration as it deems appropriate to federal funds received by a school district under the act of Congress entitled "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress) or under any similar act of Congress. The board shall not approve of the formation of districts by division of the territory of existing high school districts, where the assessed valuation per pupil in grades kindergarten to 12, inclusive, in any of the proposed new districts varies from the average assessed valuation per pupil in such grades in all of the territory of which the proposed new districts are comprised by more than 10 percent, except that if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in each and every proposed new district is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board shall not approve of the formation where the assessed valuation per pupil in grades kindergarten to 12, inclusive, in any of the new districts varies by more than 15 percent from the average assessed valuation per pupil in such grades in all of the territory of which the proposed new districts are comprised.

(c) That the new districts are each organized on the basis of a substantial community identity.

(d) That the proposal will result in an equitable division of property and facilities of the original district.

(e) That the proposal and the formation of the new districts will not promote racial or ethnic discrimination or segregation. The State Board of Education may secure the advice and assistance of any other public agencies concerned with intergroup relationships for purposes of making determinations under this subdivision.

The board may require that proposals combine the area of existing high school districts, with respect to any proposed new or reorganized districts which would not meet the requirements prescribed by Section 17672 or come within the exceptions prescribed by Section 17673.

22861. An out-of-state employee eligible to enroll under this part shall be eligible to receive the benefits provided by this part otherwise than by this article, or in the alternative and at his election, made in accordance with such reasonable rules as the board may prescribe, may receive the benefits provided by this article. An election to receive the benefits provided by this article shall render such person ineligible for enrollment under plans approved or contracted for under this part at any time thereafter while in the out-of-state employment or during retirement from such employment.

22862. An out-of-state employee may enter into a group plan, group insurance policy, group service agreement, membership or subscription contract, or other similar group arrangement provided by a carrier for the purpose of providing, arranging, paying for, or reimbursing the cost of basic hospital and medical care and for major medical or other comprehensive benefit plans to persons and their dependents and which is established and in operation in the community or area where the employee's duties are usually performed. 22864. When an employee receiving benefits under this article is permanently reassigned to perform his duties within the state such benefits may be continued only until the employee has had reasonable opportunity to become eligible to participate in the benefits provided by this part otherwise than by this article.

CHAPTER 1291

An act to add Section 30032 to the Education Code, relating to Stanford University.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 30032 is added to the Education Code, to read:

30032. Property held in trust for the founding, maintenance or benefit of the Leland Stanford Junior University shall be deemed to be held and used by the university exclusively for educational purposes as required by Article IX, Section 10, of the California Constitution if it constitutes part of a medical facility wherein medical students, interns, residents and fellows receive medical training or participate in medical research.

It is the intent and purpose of this section to clarify the provisions of Article IX, Section 10, of the California Constitution and to clarify the provisions of Section 30031 of this code.

SEC. 2. Any tax or penalty or interest thereon for any fiscal year commencing during the calendar year 1966, 1967 or 1968 on property reasonably necessary for the educational purposes of the Leland Stanford Junior University as to which the exemption provided for in Section 30031 of the Education Code was available for such fiscal year shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been levied or charged erroneously, and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been erroneously collected, if an appropriate application for exemption is filed on or before the 15th day of January of the calendar year 1969.

SEC. 3. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 4. The Legislature finds that the amendments to Section 30031 of the Education Code by Assembly Bill No. 2719 of the 1959 Regular Session (Ch. 1997, Stats. 1959) have been misconstrued. In addition to the exemption provided in Section 203 of the Revenue and Taxation Code for educational institutions of collegiate grade generally, the Legislature in 1959, by special act, provided that all real property used by

the Leland Stanford Junior University for purposes which were incidental to, and reasonably necessary for, the educational functions of a complete and modern university would be exempt from taxation. The Legislature further finds that all of the property of a medical facility wherein medical students, interns, residents and fellows receive medical training or participate in medical research is reasonably necessary to the educational functions of such a university.

In order to clarify the law with respect to the exemption which has been available for the property of Leland Stanford Junior University since 1959 and in order to remove any procedural bars relative to a failure to timely file for such exemption, it has become necessary to enact additional legislation on this subject. This act will remove undue financial burdens from the Leland Stanford Junior University and, in this way, it will be able to function fully and effectively and carry out the purposes of benefit to all of California, as such public purposes have been expressed in Section 10 of Article IX of the Constitution of the State of California.

CHAPTER 1292

An act to amend Section 33670 of the Health and Safety Code, relating to the community redevelopment law, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 33670 of the Health and Safety Code is amended to read:

33670. not include the territory in a redevelopment project on the effective date of such ordinance but to which such territory has been annexed or otherwise included after such effective date, the assessment roll of the county last equalized on the effective date of the ordinance shall be used in determining the assessed valuation of the taxable property in the project on the effective date); and

(b) That portion of the levied taxes each year in excess of such amount shall be allocated to and when collected shall be paid into a special fund of the redevelopment agency to pay the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by such redevelopment agency to finance or refinance, in whole or in part, such redevelopment project. Unless and until the total assessed valuation of the taxable property in a redevelopment project exceeds the total assessed value of the taxable property in such project as shown by the last equalized assessment roll referred to in subdivision (a), all of the taxes levied and collected upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies. When such loans, advances, and indebtedness, if any, and interest thereon, have been paid, all moneys thereafter received from taxes upon the taxable property in such redevelopment project shall be paid into the funds of the respective taxing agencies as taxes on all other property are paid.

(c) In any redevelopment project in which taxes have been divided pursuant to this section prior to 1966, located within any county with total assessed valuation subject to general property taxes for the fiscal year 1967–1968 between two billion dollars ($2,000,000,000) and two billion one hundred million dollars ($2,100,000,000), if the total assessed valuation of taxable property within the redevelopment project for the fiscal year 1967–1968 was reduced, the total sum of the assessed value of taxable property used as the basis for apportionment of taxes under subdivision (a) shall be reduced by 10 percent for the fiscal year 1968–1969 and fiscal years thereafter.

SEC. 2. The Legislature finds and declares that the adjustment in the basis for apportionment made by this act is for a public purpose in that the fair and equitable division of taxes as contemplated by Section 33670 of the Health and Safety Code prior to amendment by this act has, in some cases, been rendered unfair and inequitable because of unrelated alterations in assessment practices.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of changes in assessment practices, the assessed valuation of property within some redevelopment projects has been reduced without actual reduction in the full cash value of such

property, resulting in a substantial loss of revenue to such projects and jeopardizing the financing of such projects to the detriment of the taxpayers and taxing agencies. This act will remedy the situation and in order to accomplish that objective before irreparable damage is done, it is essential that this act take immediate effect.

CHAPTER 1293

An act to repeal Chapter 3 (commencing with Section 2800) of Part 5 and Chapter 2 (commencing with Section 4146) of Part 7 of Division 1 of, and to add Chapter 3 (commencing with Section 2801) to Part 5 and Chapter 2 (commencing with Section 4131) to Part 7 of Division 1 of, the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 2800) of Part 5 of Division 1 of the Revenue and Taxation Code is repealed.

SEC. 2. Chapter 3 (commencing with Section 2801) is added to Part 5 of Division 1 of the Revenue and Taxation Code, to read:

CHAPTER 3. COLLECTION OF PART OF AN ASSESSMENT

Article 1. General Provisions and Definitions

2801. It is hereby declared to be the policy of the state and the intent of this chapter to provide for:

(a) The satisfaction and removal of any lien secured to any parcel of real property appearing on the current roll.

(b) The payment of taxes on any parcel of real property separately from the whole assessment, if the parcel (1) is described in any duly executed and recorded deed, purchase contract, deed of trust, mortgage or final decree of court; or (2) has a separate valuation on the current roll.

2802. For the purposes of this chapter:

(a) Improvements are not a parcel separate from the land on which they are situated.

(b) An undivided interest is a parcel separate from the whole assessment.

(c) A lien is the amount created by the assessment of personal property, or leasehold improvements, or possessory interests; or the amount levied against property by a taxing agency or revenue district when such amount is not determined by the application of a tax rate on a valuation of property. A lien includes any special assessment bond, or installment thereof, together with interest and charges authorized and

accruing thereto. A lien also includes any charge of any nature whatsoever authorized by law to be levied against property by any taxing agency or revenue district.

Article 2. Payments

2811. Any person may apply to the tax collector to satisfy and remove any lien by paying the sum of the following:

(a) The amount computed by multiplying the assessed value of the personal property, or leasehold improvements, or possessory interests by the applicable tax rate for the current year, if the lien sought to be satisfied and removed was created by a determination of the value of personal property, or leasehold improvements, or possessory interests; or the amount of the lien of the special assessment; or the amount of any other lien authorized by law to be levied against real property.

(b) Delinquent penalties in an amount which bear the same proportion to the delinquent penalties in the whole assessment as the amount of the lien bears to the total taxes in the whole assessment.

(c) Costs computed in the same manner as provided for the computation of delinquent penalties.

2812. The amount due on the remainder of the assessment shall be the difference between the amount due on the whole assessment and the amount paid to satisfy and remove the lien.

Article 3. Applications and Computations for Separate Assessments

2821. Any person filing an affidavit of interest may apply to the tax collector to have any parcel separately valued on the current roll for the purpose of paying taxes.

The application shall be made during the current fiscal year, and shall set forth the fact that a duly executed and recorded deed, purchase contract, deed of trust, mortgage, or final decree of court describes the parcel sought to be separately valued.

The application may request that the tax created by the assessment of personal property, or leasehold improvements, or possessory interests on the whole assessment be allowed to remain as a lien on the parcel sought to be separately valued.

If any lien not determined by the application of a tax rate on a valuation of property has been levied or placed on the whole assessment, the application may be accompanied by the certification of the taxing agency or revenue district authorized by law to levy or place the lien, setting forth the specific amount of that portion of the lien levied or placed on the whole assessment which is to continue to be levied or placed on the parcel sought to be separately valued.

2822. When the application is made for the purpose of paying the tax on an undivided interest, the tax collector shall accept an amount which bears the same proportion to the tax as the undivided interest bears to the interest as assessed, but

no more than four acceptances of payment of undivided interests in a whole assessment shall be made under this section.

In all other cases the tax collector shall transmit the application for separate valuation to the assessor.

2823. The county assessor shall determine a separate valuation on the parcel, and shall determine the valuation of the remaining parcel. The sum of the valuations of the parcels shall equal their total valuation before separation

A separate valuation shall not be made of any parcel covered by a subdivision map filed for record after the next preceding lien date.

A separate valuation shall not be made dividing any piece of property separately assessed in the original assessment into more than four parcels.

If the application requested that the tax created by the assessment of personal property, or leasehold improvements, or possessory interests be allowed to remain as a lien on the parcel sought to be separately valued, and the assessor determines that the value of the parcel is sufficient to secure the payment of the tax, the assessor shall set forth the value of such personal property, or leasehold improvements, or possessory interests opposite his determination of the value of the parcel.

2824. The assessor shall transmit the application to the auditor, who shall enter the descriptions and the valuations of the parcels on the roll, and shall compute the amount due thereon.

2825. If the assessor has set forth the value of personal property, or leasehold improvements, or possessory interests opposite his determination of the value of the parcel, the amount due on the parcel is the sum of the following:

(a) That amount computed by multiplying the assessed value of the parcel by the applicable tax rate for the current year.

(b) That amount set forth in the certification of the taxing agency or revenue district as being the portion of the lien which is to continue to be levied or placed on the parcel.

(c) Delinquent penalties in an amount which bears the same proportion to the delinquent penalties in the whole assessment as the amount of taxes and liens on the parcel bears to the total amount of taxes and liens levied against the whole assessment.

(d) Costs computed in the same manner provided for the computation of delinquent penalties.

2826. If the assessor has not set forth the value of personal property, or leasehold improvements, or possessory interests opposite his determination of the value of the parcel, the amount due on the parcel is the sum of the following:

(a) The amount computed by multiplying the assessed value of the parcel by the applicable tax rate for the current year.

(b) That amount of the tax on personal property, or leasehold improvements, or possessory interests computed by multiplying the assessed value by the applicable tax rate for the

current year, which bears the same proportion as the value of the parcel bears to the value of the whole assessment excepting the value of such personal property, leasehold improvements, or possessory interests.

(c) The amount set forth in the certification of the taxing agency or revenue district as being the portion of the lien which is to continue to be levied or placed on the parcel.

(d) Delinquent penalties in an amount which bears the same proportion to the delinquent penalties in the whole assessment as the amount which is the sum of the amounts determined in (a) and in (b) and in (c) above bears to the total amount of taxes and liens levied against the whole assessment.

(e) Costs computed in the same manner as provided for the computation of delinquent penalties.

2827. The amount due on the remaining parcel shall be the difference between the amount due on the whole assessment and the amount due on the parcel separately assessed.

SEC. 3. Chapter 2 (commencing with Section 4146) of Part 7 of Division 1 of the Revenue and Taxation Code is repealed.

SEC. 4. Chapter 2 (commencing with Section 4131) is added to Part 7 of Division 1 of the Revenue and Taxation Code, to read:

CHAPTER 2. REDEMPTION OF PART OF ASSESSMENT

Article 1. General Provisions and Definitions

4131. It is hereby declared to be the policy of the state and the intent of this chapter to provide for:

(a) The satisfaction and removal of any lien secured to any parcel of tax-sold property, and if the right of redemption has not been terminated, to any parcel of tax-deeded property.

(b) The redemption of any parcel of tax-sold property and, if the right of redemption has not been terminated, any parcel of tax-deeded property, separately from the whole parcel which was originally sold to the state, if the parcel sought to be redeemed (1) is described in any duly executed and recorded deed, purchase contract, deed of trust, mortgage, or final decree of court; (2) had a separate valuation on the roll of the year for which it was sold to the state; or (3) has a separate valuation on the current roll.

4132. For the purposes of this chapter:

(a) Improvements are not a parcel separate from the land on which they are situated.

(b) An undivided interest is a parcel separate from the whole assessment.

(c) A lien is the amount created by the assessment of personal property, or leasehold improvements, or possessory interests; or the amount levied against property by a taxing agency or revenue district when such amount is not determined by the application of a tax rate on a valuation of property. A lien includes any special assessment bond, or installment thereof, together with interest and charges author-

ized and accruing thereto. A lien also includes any charge of any nature whatsoever authorized by law to be levied against property by any taxing agency or revenue district.

Article 2. Payments

4141. Any person may apply to the redemption officer to satisfy and remove any lien by paying the sum of the following:

(a) The sum of the amounts computed by multiplying the assessed value of the personal property, or leasehold improvements, or possessory interests by the applicable tax rate for each of the years for which it was delinquent, if the lien sought to be removed was created by a determination of the value of personal property, or leasehold improvements, or possessory interests; or the sum of the amounts of the lien of the special assessment for each of the years for which it was delinquent; or the sum of the amounts of any other lien authorized by law to be levied against real property for each of the years for which is was delinquent.

(b) Delinquent penalties in an amount which bear the same proportion to the delinquent penalties in the whole assessment as the amount of the lien bears to the total taxes levied in the whole assessment for each of the years for which it was delinquent.

(c) Costs computed in the same manner as provided for the computation of delinquent penalties.

(d) Redemption penalties computed on the amount of the lien for each of the years for which it was delinquent.

(e) The redemption fee provided for in this part, if the payment of the lien satisfies and removes all taxes levied against the parcel.

4142. Where delinquent taxes are being paid in installments, and a lien is sought to be satisfied and removed under this chapter, there shall be credited on the amount required to satisfy and remove the lien an amount which bears the same proportion to the amount which has been paid in installments on the whole assessment as the amount required to satisfy and remove the lien, excepting the redemption fee, bears to the amount necessary to redeem the whole assessment, excepting the redemption fee.

Article 3. Applications and Computations

4151. Any person filing an affidavit of interest may apply to the redemption officer to have any parcel separately valued in order that it may be redeemed under the provisions of this chapter. The redemption officer may file an application to have any parcel separately valued when such application is based on the fact that the parcel sought to be separately valued is separately assessed on the current roll.

The application shall set forth the fact that a duly executed and recorded deed, purchase contract, deed of trust, mort-

gage, or final decree of court describes the parcel sought to be separately valued.

The application may request that the tax created by the assessment of personal property, or leasehold improvements, or possessory interests on the whole assessment for each of the years for which it was delinquent be allowed to remain as a lien on the parcel sought to be separately valued.

If any lien not determined by the application of a tax rate on a valuation of property has been levied or placed on the whole assessment, the application may be accompanied by the certification of the taxing agency or revenue district authorized by law to levy or place the lien, setting forth the specific amount of that portion of the lien levied or placed on the whole assessment which is to continue to be levied or placed on the parcel sought to be separately valued for each of the years for which it was delinquent.

4152. When the application is made for the purpose of paying the tax on an undivided interest, the redemption officer shall accept an amount which bears the same proportion to the tax as the undivided interest bears to the interest as assessed.

In all other cases the redemption officer shall transmit the application for separate valuation to the assessor.

4153. The county assessor shall determine a separate valuation on the parcel for each of the years for which it was delinquent, and shall determine the valuation of the remaining parcel for each of the years for which it was delinquent. The sum of the valuations of the parcels shall equal their total valuation before separation.

If the application requested that the tax created by the assessment of personal property, or leasehold improvements, or possessory interests be allowed to remain as a lien on the parcel sought to be separately valued, and the assessor determines that the value of the parcel is sufficient to secure the payment of the tax, the assessor shall set forth the value of such personal property, or leasehold improvements, or possessory interest, for each of the years for which it was delinquent, opposite his determination of the value of the parcel.

4154. If the assessor has set forth the value of personal property, or leasehold improvements, or possessory interests opposite his determination of the value of the parcel, the amount of sold taxes on the parcel is the sum of the following:

(a) The sum of the amounts computed by multiplying the assessed value of the parcel by the applicable tax rate for each of the years for which it was delinquent.

(b) The sum of the amounts set forth in the certification of the taxing agency or revenue district as being the portion of the lien for each of the years for which it was delinquent which is to continue to be levied or placed on the parcel.

4155. If the assessor has not set forth the value of personal property, or leasehold improvements, or possessory interests opposite his determination of the value of the parcel,

the amount of sold taxes on the parcel is the sum of the following:

(a) The sum of the amounts computed by multiplying the assessed value of the parcel by the applicable tax rate for each of the years for which it was delinquent.

(b) The sum of those amounts of tax on personal property, or leasehold improvements, or possessory interests computed by multiplying the assessed value by the applicable tax rate for each of the years for which it was delinquent, which bears the same proportion as the value of the parcel bears to the value of the whole assessment excepting the value of personal property, leasehold improvements, and possessory interests for each of the years for which it was delinquent.

(c) The sum of the amounts set forth in the certification of the taxing agency or revenue district as being the portion of the lien for each of the years for which it was delinquent which is to continue to be levied or placed on the parcel.

4156. The amount necessary to redeem the parcel is the sum of the following:

(a) The amount of sold taxes on the parcel.

(b) Delinquent penalties in an amount which bear the same proportion to the delinquent penalties in the whole assessment as the amount of taxes and liens on the parcel bears to the total amount of taxes and liens on the whole assessment, determined for each of the years for which it was delinquent.

(c) Costs computed in the same manner provided for the computation of delinquent penalties.

(d) Redemption penalties computed on the amount of taxes and liens levied against the parcel for each of the years for which it was delinquent.

(e) The redemption fee provided for in this part.

4157. The amount necessary to redeem the remaining parcel is the sum of the following:

(a) The amount of sold taxes on the whole assessment less the amount of sold taxes on the parcel separately valued.

(b) Delinquent penalties on the whole assessment less the amount of delinquent penalties on the parcel separately valued.

(c) Costs on the whole assessment less the amount of costs on the parcel separately valued.

(d) Redemption penalties computed on the amount of taxes and liens remaining on the parcel for each of the years for which it was delinquent.

(e) The redemption fee provided for in this part.

4158. Where delinquent taxes are being paid in installments, and a parcel is separately redeemed under this chapter, there shall be credited on the amount necessary to redeem the parcel an amount which bears the same proportion to the total amount which has been paid in installments on the whole parcel as the redemption amount less the redemption fee on the parcel bears to the redemption amount less the redemption fee on the whole parcel.

4159. In all other respects, the redemption shall be made in the ordinary manner.

SEC. 5. In enacting this act and specifically in adding Sections 2822 and 4152 to the Revenue and Taxation Code, it is the intent of the Legislature to expressly disapprove any interpretation of Smith v. Anderson (1967), 67 A.C. 646, 63 Cal. Rptr. 391, which would require an assessor to make separate valuation in the assessment roll for current taxes or future taxes of any undivided interest in property on which a separate tax bill or separate redemption is requested.

CHAPTER 1294

An act to amend Section 1261 of the Business and Professions Code, relating to clinical laboratory technology.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 1261 of the Business and Professions Code is amended to read:

1261. The board shall issue a clinical laboratory technologist's license to each person found by it to be properly qualified and it shall hold written, oral, or practical examinations to aid it in judging the qualifications of applicants. The examinations for license to work in a clinical laboratory as a technologist shall cover the fields of biochemistry, hematology, and microbiology, except that the examination for a special clinical laboratory technologist's license shall be concerned only with the subject or subjects in which the license is to be issued. The minimum prerequisites for entrance into the examination shall be one of the following:

(a) Graduation from a college or university maintaining standards equivalent, as determined by the department, to those institutions accredited by the Western Association of Schools and Colleges or an essentially equivalent accrediting agency with a baccalaureate and a major in clinical laboratory technique, the last year of which course shall have been primarily clinical laboratory procedure; provided, however, that if the curriculum did not include practical clinical laboratory work, six months as a clinical laboratory technologist trainee or the equivalent as determined by the department in a clinical laboratory approved by the department shall be required; or

(b) Graduation from a college or university maintaining standards equivalent, as determined by the department, to those institutions accredited by the Western Association of Schools and Colleges, or an essentially equivalent accrediting agency, with a baccalaureate and a major in one of the biological sciences or essential equivalent as may be determined

by the department plus one year as a clinical laboratory technologist trainee or the equivalent as determined by the department in a clinical laboratory approved by the department. One year of practical experience in a public health laboratory may be accepted if such experience or if university or college courses included practical work in clinical biochemistry and hematology; or

(c) A minimum of three years of experience as a clinical laboratory technologist trainee or the equivalent as determined by the department doing clinical laboratory work embracing the various fields of clinical laboratory activity in a clinical laboratory approved by the department and 60 semester hours or equivalent quarter hours of university or college work in which are included the following courses, or essential equivalent as may be determined by the department; general inorganic chemistry—8; quantitative analysis—3; basic biological science—8; bacteriology—4. Additional college or university work which includes courses in the fundamental sciences may be substituted for two of the three years of experience in the ratio of 30 semester hours or equivalent quarter hours for each year of experience; provided, however, that individuals seeking admission to the examination on or after January 1, 1965, shall meet the prerequisites specified in subdivisions (a) or (b) of this section, or the prerequisites as set forth by the Council of Medical Education and Hospitals of the American Medical Association and the Board of Registry of Medical Technologists of the American Society of Clinical Pathologists, and the American Society of Medical Technologists, or equivalent accreditation body approved by the Department of Public Health, provided, however, that the total or combined time of college or university work and practical training and experience in an approved clinical laboratory be not less than five years or as specified in subdivision (a).

Experience as a clinical technician in any branch of the armed forces of the United States may be considered equivalent to the experience as a clinical laboratory technologist trainee, if such experience as a technician is approved by the board. Each year of training and experience as a clinical technician in such armed forces shall be equivalent to 15 semester hours, which shall be credited to the minimum number of hours required to qualify for registration as a clinical laboratory technologist trainee. The semester hours acquired in this manner shall not be in organic chemistry, quantitative analysis, basic biological science, and bacteriology, unless these courses have been completed at a college, university, or institution maintaining standards equivalent, as determined by the department, to those institutions accredited by the Western College Association or an essentially equivalent accrediting agency. The maximum number of hours granted shall not exceed 60 semester hours or its equivalent.

An applicant whose application is based upon a certificate issued by such certifying board or body shall satisfy the de-

partment that the standard of the certifying board on the date that the certificate was issued was in no degree or particular less than that which was required for a technologist license under this chapter on or after January 1, 1962.

CHAPTER 1295

An act to amend Section 13470 of the Education Code, relating to bereavement leave of absence.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 13470 of the Education Code is amended to read:

13470. Every person employed by a school district in a position requiring certification qualifications is entitled to a leave of absence, not to exceed three days, or five days if out-of-state travel is required, on account of the death of any member of his immediate family. No deduction shall be made from the salary of such employee nor shall such leave be deducted from leave granted by other sections of this code or provided by the governing board of the district. The governing board may enlarge the benefits of this section and may expand the class of relatives listed below as members of the immediate family. Members of the immediate family, as used in this section, means the mother, father, grandmother, or grandfather of the employee or of the spouse of the employee, and the spouse, son, son-in-law, daughter, daughter-in-law, brother, or sister of the employee, or any relative living in the immediate household of the employee.

CHAPTER 1296

An act relating to a study of the effects of marijuana use.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated to the University of California from the General Fund the sum of forty thousand dollars ($40,000) for purposes of designing and implementing a research program related to the effects of marijuana use. Such research shall consider marijuana usage in all pertinent research perspectives, including, but not limited to, pharmacology, physiology, psychology, and sociology. The University of California shall provide the Legislature with a report of any

findings and conclusions or research progress to date before June 30, 1969.

The moneys appropriated herein shall be available for expenditure on and after January 1, 1969, but only if the University of California applies for, but is not in receipt of, federal funds for similar research purposes.

CHAPTER 1297

An act to add Section 54952.3 to the Government Code, relating to meetings of local agencies.

[Approved by Governor August 13, 1968 Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 54952.3 is added to the Government Code, to read:

54952.3. As used in this chapter "legislative body" also includes any advisory commission, advisory committee or advisory body of a local agency, created by charter, ordinance, resolution, or by any similar formal action of a governing body of a local agency.

Meetings of such advisory commissions, committees or bodies concerning subjects which do not require an examination of facts and data outside the territory of the local agency shall be held within the territory of the local agency and shall be open and public, and notice thereof must be delivered personally or by mail at least 24 hours before the time of such meeting to each person who has requested, in writing, notice of such meeting.

If the advisory commission, committee or body elects to provide for the holding of regular meetings, it shall provide by bylaws, or by whatever other rule is utilized by that advisory body for the conduct of its business, for the time and place for holding such regular meetings. No other notice of regular meetings is required.

"Legislative body" as defined in this section does not include a committee composed solely of members of the governing body of a local agency which are less than a quorum of such governing body.

The provisions of Sections 54954, 54955, 54955.1, and 54956 shall not apply to meetings under this section.

CHAPTER 1298

An act to amend Section 1192.1 of the Code of Civil Procedure, relating to mechanics' liens.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 1192.1 of the Code of Civil Procedure is amended to read:

1192.1. (a) Any materialman or person furnishing materials, provisions, provender, or other supplies used in, upon, for, or about the performance of work contracted to be executed or performed to which Chapter 3 of Division 5, Title 1 of the Government Code applies, except the prime contractor, or any person, excluding the prime contractor, renting or hiring teams or implements or machinery for or contributing to the work to be done, or any person, except the prime contractor, who performed work or labor upon the same or any person, except the prime contractor, who supplies both work and materials, and whose claim has not been paid by the contractor or person to whom the contract has been awarded, or by the subcontractors of the contractor or person, may at any time, after he has furnished material or ceased to perform labor, or both, and before the expiration of the periods within which claims of lien must be filed for record as prescribed by this section or by Section 1193 1, file with the public agency, body or officer by whom the contract was awarded, or with the controller, auditor, or other public disbursing officer whose duty it is to make payments under the provisions of such contract a verified statement of such claims, together with a statement that the same have not been paid. No later than 10 days after the filing of a notice of completion or after the cessation of labor has been deemed a completion of the contract, structure, or work of improvement or after the acceptance of completion, whichever is later, the public agency, body, or officer by whom the contract was awarded shall give notice of such cessation of labor or completion to every such claimant by personal service, or registered or certified mail. When service is by registered or certified mail, service is complete at the time of the deposit of the registered or certified mail in a United States post office, addressed to the claimant at the address shown upon his claim. No such notice need be given unless a claimant shall have paid to the public agency, body, or officer the sum of two dollars ($2) at the time of filing a verified statement of claims.

(b) Except as to contracts awarded under the State Contract Act, Chapter 3 Part 5, Division 3, Title 2 of the Government Code, a cessation of labor on any work of improvement at any time after the commencement thereof, for a continuous period of 30 days or more, shall be deemed a completion of

the contract, structure, or work of improvement. Within 10 days after the acceptance of completion by resolution, minute order or other official act of the awarding authority or by any officer or employee to whom the awarding authority has delegated appropriate authority of any contract, structure, or work of improvement to which Chapter 3 of Division 5, Title 1 of the Government Code applies, the state, or any public board, commission, or officer thereof, or any political subdivision thereof, may file for record in the office of the county recorder of the county or counties where the property is situated a notice setting forth the date when the project was accepted or on which cessation from labor occurred, together with the name of the state or such public board, commission, or officer thereof, or such political subdivision thereof, and a description of the property or public work or structure sufficient for identification, and the name of the contractor or contractors, and the names of the sureties, if any. The notice shall be verified by some officer of the state or some member of such board, commission, or officer thereof, or of such political subdivision thereof. If the notice is not so filed, the failure to do so has the same effect as is provided in Section 1193.1 with reference to the "owner." In the case of any contract awarded under the provisions of the State Contract Act, such notice of completion, if filed, shall be filed within 10 days after acceptance of the project, and as to such contracts, verified statements of claims may be filed at any time after the claimant has furnished materials or ceased to perform labor, or both, and before the expiration of 30 days from the filing for record of such notice, or if such notice is not so filed, before the expiration of 90 days after the acceptance of the project.

(c) Actions against the state, public board, commission, or officer thereof, or the political subdivision of the state, or the disbursing officer whose duty it is to make payments under the provisions of the contract for the public improvement in question, brought by any claimant who has filed claim under this section, or his assign, shall be governed by the provisions of Sections 1190.1 and 1197.1 and the verified notice provided for in those sections is equivalent for all purposes to the verified claim provided for herein.

(d) No assignment by the contractor of the whole or any part of the money due him or to be due him under the contract, or for "extras" in connection therewith, whether made before a verified claim is filed as provided for herein or after the claim is filed, takes priority over claims filed under this section and such assignment has no binding force insofar as the rights of the claimants who file claims hereunder, or their assigns, are concerned.

(e) This section does not prohibit the payment of any money to the contractor or his assigns, so long as no verified claim is on file before the disbursing officer has actually surrendered possession of the warrant, checks, bonds, or money or the payment to the contractor or his assigns of any money

due him or his assigns over and above the total amount of the claims filed at that time plus such interest and court costs as might be reasonably anticipated in connection with the claims.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

1305. If, without sufficient excuse, the defendant neglects to appear for arraignment or for trial or judgment, or upon any other occasion when his presence in court is lawfully re-

quired, or to surrender himself in execution of the judgment, the court must direct the fact to be entered upon its minutes and the undertaking of bail, or the money deposited instead of bail, as the case may be, must thereupon be declared forfeited, and, if the amount of the forfeiture exceeds fifty dollars ($50), the clerk of the court shall, promptly upon entering the fact of such failure to appear in the minutes, mail notice of the forfeiture to the surety on the bond or depositor of money instead of a bond, and shall execute an affidavit of such mailing and place it in the court's file in the case. If the surety is an authorized corporate surety insurer, and if the bond has plainly printed or stamped thereon the address of its principal office in California, such notice shall be mailed to such surety at such address, and mailing to the bail agent or solicitor who posted said bond shall not constitute compliance with this section; the clerk shall at the same time send a copy of such notice to the bail agent or solicitor who posted said bond. If the clerk fails to mail such notice within 30 days after such entry, the surety or depositor shall be released from all obligations under the bond. But if at any time within 180 days after such entry in the minutes or, if mailing of notice of forfeiture is required, within 180 days after mailing such notice of forfeiture, the defendant and his bail appear, and satisfactorily excuse the defendant's neglect or show to the satisfaction of the court that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just. If within said 180 days after such entry in the minutes or mailing as the case may be, it be made to appear to the satisfaction of the court that the defendant is dead or is physically unable, by reason of illness or insanity, or by reason of detention by civil or military authorities, to appear in court at any time during said 180 days, and that the absence of the defendant was not with the connivance of the bail, the court shall direct the forfeiture of the undertaking or the deposit to be discharged upon such terms as may be just. If at any time within said 180 days after such entry in the minutes or mailing as the case may be, the surety insurer, its bail agent, the surety, or depositor of money instead of a bond should surrender the defendant to the court or to custody, then, upon seven days' written notice to the district attorney or representative of the people by the bail agent of the surety insurer, such surety, or such depositor, any of whom may give such notice and appear either in person or by attorney, or by the surety insurer, through its attorney, the court shall direct such fact to be entered upon its minutes and the forfeiture of the undertaking or the deposit shall be discharged upon such terms as may be just.

This section shall remain in effect only until July 1, 1970, and thereafter shall be of no force or effect. This section shall remain in effect until such date regardless of the repeal or expiration of Section 15517.

(b) Arrivals and departures is the number of arrivals in and departures from airports within the state of certificated aircraft during a representative period as compared to the total number of arrivals in and departures from airports both within this state and elsewhere in the representative period. This factor shall be multiplied by 25 percent.

Air taxis are not subject to the provisions of Part 10 (commencing with Section 5301) of this division and shall be assessed in accordance with the allocation formula set forth in Section 1152.

1155. For purposes of Section 404, certificated aircraft shall be deemed to be situated only in those taxing agencies in which the aircraft normally make physical contact with sufficient regularity to entitle such agencies to tax the aircraft under the laws and Constitution of the United States. Flight time within the state shall be allocated as follows:

(a) If the aircraft takes off in one taxing agency which is entitled to tax (within the meaning of the preceding sentence) and lands in another agency which is entitled to tax, the flight time between such taxing agencies shall be allocated one-half to each such agency.

(b) If the aircraft arrives from out of state or leaves the state, the flight time from or to the state boundary shall be allocated to the taxing agency entitled to tax in which the aircraft first lands or last takes off, as the case may be.

1156. Nothing in this article shall be construed to enlarge the right of any taxing agency to tax certificated aircraft in a manner not permitted by the laws or Constitution of the United States.

(b) Notwithstanding the provisions of subdivision (d) of Section 1152, for the purposes of this part the valuation of property owned or rented by the taxpayer shall be determined under the provisions of Section 25130.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 2.5. LICENSES ISSUED BY CALIFORNIA HIGHWAY PATROL

Article 1. General Provisions

2500. The provisions of this chapter shall apply to all licenses issued by the Department of the California Highway Patrol unless the particular provisions applicable to each license otherwise provide.

2501. The Commissioner of the California Highway Patrol shall have the authority to issue licenses for the operation of privately owned and operated ambulances used to respond to emergency calls, armored cars, official lamp and brake adjusting stations, official motor vehicle pollution control stations, and for the transportation of explosives, and shall license lamp and brake adjusters and motor vehicle pollution control device installers. Such licenses shall be issued in accordance with the provisions of this chapter and regulations adopted by the commissioner pursuant hereto. All licenses issued by the commissioner shall expire one year from the date of issue. They may be renewed upon application and payment of the renewal fees if the application for renewal is made within the 30-day period prior to the date of expiration. Persons whose licenses have expired shall immediately cease the activity requiring a license, but the commissioner shall accept applications for renewal during the 30-day period following the date of expiration if they are accompanied by the new license fee. In no case shall a license be renewed where the application is received more than 30 days after the date of expiration.

2502. Each application for a new or renewal license, except an adjuster's or installer's license, shall be accompanied by a fee of ten dollars ($10) for a new license or five dollars ($5) for a renewal license. The application shall be made upon a form furnished by the commissioner. It shall contain such information concerning the applicant's background and experience as the commissioner may prescribe, in addition to other information required by law.

2503. (a) Licenses issued by the commissioner shall not be transferable.

(b) In the event of a change of name, not involving a change of ownership, or of a change of address of the licensee, the license shall be returned to the commissioner for cancellation, and a new license application form shall be submitted. The commissioner shall cancel the returned license and issue a new license for the unexpired term without fee.

(c) If the owner of a licensed station desires to vacate the license in favor of another license permitting a greater or lesser scope of activity, the license to be vacated shall be returned to the commissioner for cancellation and an application shall be submitted for the new license accompanied by the ten-dollar ($10) new license fee.

(d) In the event of loss, destruction, or mutilation of a license issued by the commissioner, the person to whom it was issued may obtain a duplicate upon furnishing satisfactory proof of such fact and paying a fee of two dollars ($2). Any person who loses a license issued by the commissioner and who, after obtaining a duplicate, finds the original license shall immediately surrender the original license to the commissioner.

2504. Violation of regulations adopted by the commissioner pursuant to this chapter governing the operation of ambulances or armored cars shall be a misdemeanor.

Article 2. Privately Owned and Operated Ambulances and Armored Cars

2510. A person applying for a license to operate ambulances or armored cars shall provide separate identification data and reports of inspection for each vehicle as prescribed by the commissioner. A licensee acquiring an additional vehicle shall not operate it as either an ambulance or an armored car until it has been inspected by a member of the California Highway Patrol and determined to comply with this code.

2511. Licenses for the operation of ambulances may be issued only to those persons or entities which operate ambulances designed and operated exclusively as such and which are used to respond to emergency calls

2512. (a) The commissioner, after consultation with, and pursuant to the recommendations of, the State Department of Public Health, shall adopt and enforce such reasonable regulations as he determines are necessary for the public health and safety regarding the operation and equipment of all ambulances used for emergency services. The commissioner

shall exempt, upon request of the county board of supervisors that such exemption is necessary for public health and safety, noncommercial ambulances operated within the county from such regulations adopted under this section as are specified in the board of supervisors' request. The State Department of Public Health shall be notified by the county boards of supervisors of any such exemptions.

(b) This section shall not preclude the adoption of more restrictive regulations by local authorities, but it is the intent of the Legislature that regulations adopted by the commissioner pursuant to this section shall be the minimum necessary to protect public health and safety, and shall not be so restrictive as to preclude compliance by ambulances operated in sparsely populated areas. The provisions of this subdivision shall not relieve the owner or driver of any ambulance from compliance with Section 21055.

Article 3. Lamp and Brake Adjusting Stations and Motor Vehicle Pollution Control Device Installation and Inspection Stations

2520. As used in this chapter:

(a) "Station" means a lamp adjusting station, a brake adjusting station, or a motor vehicle pollution control device installation and inspection station.

2521. The commissioner shall adopt regulations which prescribe the qualifications of any station as a condition to licensing the station as an official station for adjusting lamps or brakes and for installing, repairing, inspecting, or recharging motor vehicle pollution control devices and shall prescribe the qualifications of adjusters and installers employed therein.

2522. No person shall operate a motor vehicle pollution control device installation and inspection station or an "official" lamp or brake adjusting station unless a license therefor has been issued by the commissioner. No person shall issue, cause or permit to be issued, any certificate purported to be an official lamp adjustment certificate unless he is a licensed lamp adjuster, an official brake adjustment certificate unless he is a licensed brake adjuster, or a certificate of compliance unless he is a licensed motor vehicle pollution control device installer.

2523. An owner of a fleet of three or more vehicles may be licensed by the commissioner as a licensed station, provided such owner complies with the regulations of the department.

Fleet owner stations shall not certify the adjustment of lamps or brakes nor the installation, inspection, repair, or service of motor vehicle pollution control devices or systems except on vehicles which constitute such fleet.

Article 4. Transportation of Explosives

2530. Licenses for the transportation of explosives shall not be subject to the provisions of Sections 2541, 2542, 2543, and 2544 of Article 5.

2531. The commissioner may deny, suspend, or revoke a license to transport explosives when, upon a showing by the records of the Department of Motor Vehicles or the Department of the California Highway Patrol, it is evident that the applicant or licensee or his employees have been guilty of repeated violations of the provisions of this code to such an extent as to demonstrate that it would be unsafe and not in the public interest to permit the applicant to operate or permit the operation of any vehicle owned by him for the transportation of explosives upon the public highways.

2532. Any person who is denied a license to transport explosives or whose license to transport explosives is suspended or revoked is entitled to a hearing. Any proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

Article 5. Denial, Suspension and Revocation

2540. Any license issued may be suspended or revoked by the commissioner. The commissioner may refuse to issue a license to any applicant for the reasons set forth in Section 2541. The proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner shall have all the powers granted therein.

2541. The commissioner may deny a license if the applicant or any partner, officer, or director thereof:

(a) Fails to meet the qualifications established by the department pursuant to this chapter for the issuance of the license applied for.

(b) Was previously the holder of a license issued under this chapter which license has been revoked and never reissued or which license was suspended and the terms of the suspension have not been fulfilled.

(c) Has committed any act which, if committed by any licensee, would be grounds for the suspension or revocation of a license issued pursuant to this chapter.

(d) Has committed any act involving dishonesty, fraud, or deceit whereby another is injured or whereby the applicant has benefited.

(e) Has acted in the capacity of a licensed person or firm under this chapter without having a license therefor.

(f) Has entered a plea of guilty or nolo contendere to, or been found guilty of, or been convicted of, a felony, or a crime involving moral turpitude, and the time for appeal has elapsed or the judgment of conviction has been affirmed on appeal, irrespective of an order granting probation following such conviction, suspending the imposition of sentence, or of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the plea or verdict of guilty, or dismissing the accusation or information.

2542. The commissioner may suspend, revoke, or take other disciplinary action against a license as provided in this article if the licensee or any partner, officer, or director thereof:

(a) Violates any section of the Vehicle Code which relates to his licensed activities.

(b) Is convicted of any felony.

(c) Is convicted of any misdemeanor involving moral turpitude.

(d) Violates any of the regulations promulgated by the commissioner pursuant to this chapter.

(i) Violates or attempts to violate the provisions of this chapter relating to the particular activity for which he is licensed.

2543. A plea or verdict of guilty or a conviction following a plea of nolo contendere is deemed to be a conviction within the meaning of this article. The commissioner may order the license suspended or revoked, or may decline to issue a license, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information or indictment.

2544. The commissioner may take disciplinary action against any licensee after a hearing as provided in this chapter by any of the following:

(a) Imposing probation upon terms and conditions to be set forth by the commissioner.

(b) Suspending the license.

(c) Revoking the license.

2545. Upon the effective date of any order of suspension or revocation of any license governed by this chapter, the licensee shall surrender the license to the commissioner.

2546. The expiration or suspension of a license by operation of law or by order or decision of the commissioner or a court of law, or the voluntary surrender of a license by a licensee shall not deprive the commissioner of jurisdiction to proceed with any investigation of or action or disciplinary proceedings against such licensee, or to render a decision suspending or revoking such license.

2547. All accusations against licensees shall be filed within three years after the act or omission alleged as the ground for disciplinary action, except that with respect to an accusation alleging a violation of subdivision (f) of Section 2542, the accusation may be filed within two years after the discovery by the California Highway Patrol of the alleged facts constituting the fraud or misrepresentation prohibited by said section.

2548. When any license has been revoked or suspended following a hearing under the provisions of this chapter, any additional license issued under this chapter in the name of the licensee may be likewise revoked or suspended by the commissioner.

2549. After suspension of the license upon any of the grounds set forth in this article, the commissioner may reinstate the license upon proof of compliance by the applicant with all provisions of the decision as to reinstatement. After revocation of a license upon any of the grounds set forth in this article, the license shall not be reinstated or reissued within a period of one year after the effective date of revocation.

(d) In the event the owner of a vehicle leases the same to be used in the transportation of explosives for which a license is required, the lessee shall be deemed the owner for the purposes of this division.

2512. (a) The commissioner, after consultation with, and pursuant to the recommendations of the State Department of Public Health, shall adopt and enforce such reasonable regulations as he determines are necessary for the public health and safety regarding the operation and equipment of all ambulances used for emergency services. The commissioner shall exempt, upon request of the county board of supervisors that such exemption is necessary for public health and safety, noncommercial ambulances operated within the county from such regulations adopted under this section as are specified in the board of supervisors' request. The State Department of Public Health shall be notified by the county boards of supervisors of any such exemptions.

(b) This section shall not preclude the adoption of more restrictive regulations by local authorities, but it is the intent of the Legislature that regulations adopted by the commissioner pursuant to this section shall be the minimum necessary to protect public health and safety, and shall not be so restrictive as to preclude compliance by ambulances operated in

sparsely populated areas. It is the intent of the Legislature that the commissioner, when adopting regulations pursuant to this section, shall take into consideration the work and recommendations of the California Advisory Council on Medical Transportation established by the Quimby Act, Chapter 13 (commencing with Section 25965), Division 20 of the Health and Safety Code. Branches may be established in existing institutions of the Department of Corrections or of the Department of the Youth Authority, in halfway houses as described in Section 3153, and in such other facilities as may be made available on the grounds of other state institutions. Branches placed in a facility of the Department of Mental Hygiene shall have prior approval of the Director of Mental Hygiene. The branches in

the Department of the Youth Authority shall be established on order of the Administrator of the Youth and Adult Corrections Agency and shall be subject to the administrative direction of the Director of the Youth Authority.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to the present overcrowding of the existing institution, and the current rate of intake, it is imperative that additional facilities not presently being used by other state agencies be utilized for the care and treatment of narcotic addicts.

CHAPTER 1311

An act to amend Sections 554 and 1006 of the Education Code, relating to school districts, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 554 of the Education Code is amended to read:

554. The board of governors of the State Nautical School on behalf of the State Nautical School, and the governing board of a school district on behalf of any school or junior college maintained by the district is vested with all necessary power and authority to perform all acts necessary to receive the benefits and to expend the funds provided by the act of Congress known as the "National Defense Education Act of 1958," by the act of Congress known as the "Elementary and Secondary Education Act of 1965," by the act of Congress known as the "Manpower Development and Training Act of 1962," (as amended), including but not limited to the "JOBS program" (Job Opportunities In The Business Sector), and by the act of Congress known as the "Education Professions Development Act of 1965," (as amended), and with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof, and with the State Board of Education and with other school districts and private organizations for the purpose of receiving the benefits and expending the funds provided by said acts of Congress, in accordance with said acts, or any rules or regulations adopted thereunder, or any state plan or rules or regulations of the State Board of Education adopted in accordance with said acts of Congress.

SEC. 2. Section 1006 of the Education Code is amended to read:

1006. The governing board of any school district, or any county superintendent of schools, may participate in any program authorized by the "Economic Opportunity Act of 1964," the "Elementary and Secondary Education Act of 1965," by the act of Congress known as the "Manpower Development and Training Act of 1962" (as amended), including but not limited to the "JOBS program" (Job Opportunities In The Business Sector), or the "Education Professions Development Act of 1965."

Participation may include, but is not limited to, entering into agreements with the Director of the Office of Economic Opportunity, the United States Commissioner of Education, or any public or private nonprofit agency, or combination thereof, pursuant to the "Economic Opportunity Act of 1964" (P.L. 88-452; 78 Stat. 508), the "Elementary and Secondary Education Act of 1965" (P.L 89-10; 79 Stat. 27), by the act of Congress known as the "Manpower Development and Training Act of 1962" (as amended), including but not limited to the "JOBS program (Job Opportunities In The Business Sector), or the "Education Professions Development Act of 1965" (P.L. 89-329; 79 Stats 1254), as the case may be, and acts amending or supplementing those acts. Participation may also include the expenditure by county superintendents of schools and school districts of whatever funds may be required by the federal government as a condition to such participation.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to enable school districts and county superintendents of schools to apply for and receive funds under the Elementary and Secondary Education Act of 1965, the Manpower Development and Training Act of 1962 (as amended), and the Education Professions Development Act of 1965 (as amended) and to prevent the disruption of educational programs prepared in contemplation of receipt of such funds, this act must take effect immediately.

CHAPTER 1312

An act to add Section 16002.1 to the Business and Professions Code, relating to real estate auctions.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 16002.1 is added to the Business and Professions Code, to read:

16002.1. No license fee for the privilege of auctioning real estate may be collected from any real estate auctioneer, whose business is limited exclusively to auctioning real estate, except by the city in which he has a permanent place of business.

CHAPTER 1313

An act to add Sections 11103 and 11451.5 to the Welfare and Institutions Code, relating to public assistance, making an appropriation therefor and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 11103 is added to the Welfare and Institutions Code, to read:

11103. In the event the durational residence requirements as set forth in Sections 11252, 12050, 13550 and 17104 of this code or the application thereof to any person or circumstances are held invalid, the department shall establish such regulations as are necessary to insure that aid is paid only to those persons who have established a permanent residence in this state. Notwithstanding the provisions of Section 11100 of this code, during such times as durational residence requirements as set forth by the above-listed code sections are held invalid, payment of aid to any person living outside of this state shall be discontinued within 30 days of the date that such person becomes eligible to apply for aid in the state where he is living.

SEC. 2. Section 11451.5 is added to the Welfare and Institutions Code, to read:

11451.5. The purpose of this section is to provide the department with the necessary support and authority to implement provisions of the Work Incentive Program as established pursuant to Division 2 (commencing with Section 5000) of the Unemployment Insurance Code. The cost of work or training-related expenses shall be paid from special funds appropriated by the Legislature for the purpose. The state shall pay 67½ percent and the county shall pay 32½ percent of the additional aid furnished for such work or training-connected expenses after a deduction therefrom of any funds received from the United States government.

The county welfare department in each county of this state shall establish a program of day care services in order to permit mothers of children, qualified for aid under this chapter, to exercise their right to participate in the Work Incentive Program authorized by Division 2 (commencing with Section 5000) of the Unemployment Insurance Code.

It is the intent of this section to make maximum use of federal funds that are available to provide training or work-related expenses and home care services. Accordingly, each county shall be required to provide or purchase day care services and to pay for training or work-related expenses under that plan which provides the greatest financial participation by the United States government. No allowance for day care of children shall be included in the grant authorized by Section 11450 of this code.

The state shall pay 67½ percent and the county shall pay 32½ percent of the cost of day care services after deducting therefrom the amount of funds received from the United States government.

SEC. 3. There is hereby appropriated from the General Fund in the State Treasury the sum of five hundred thousand dollars ($500,000) to the State Department of Social Welfare for payments to counties for the state share of the cost of services as required by this act and for the augmentation of the department's support budget to cover additional administrative costs of the department's administration of the Work Incentive Program established pursuant to Division 2 (commencing with Section 5000) of the Unemployment Insurance Code.

SEC. 4. This act is an urgency statute necessary for the immediate preservation for the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Public Law 90-248, as enacted by Congress amends provisions of the Social Security Act as it relates to Aid to Families with Dependent Children, provides for termination of the Community Work and Training Programs and establishes a Work Incentive Program to be administered by the State Department of Employment. Federal funds heretofore available to this state for costs of administration of the Community Work and Training Program are no longer available. Under the new federal program, which must go into effect no later than July 1, 1968, county welfare departments must provide funds for expenses connected with the Work Incentive Program and must provide day care for children in order that the maximum number of public assistance recipients can participate in the program which is vital to their ultimate achievement of self-support. It is therefore essential that this act go into effect immediately.

SEC. 5. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

CHAPTER 1314

An act to amend Section 11580.1 of the Insurance Code and to amend Sections 16057, 16451, and 16452 of the Vehicle Code, relating to insurance.

[Approved by Governor August 13, 1968. Filed with Secretary of State August 13, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 11580.1 of the Insurance Code is amended to read:

11580.1. No policy of automobile liability insurance as provided in Section 16057 of the Vehicle Code covering liability arising out of the ownership, maintenance or use of any motor vehicle shall be issued or delivered in this state to the owner of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state, upon any motor vehicle then principally garaged or principally used in this state unless it contains the following provisions:

(a) Provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code.

(b) Provision designating by explicit description or by appropriate reference all motor vehicles with respect to which coverage is intended to be granted.

(c) Provision designating by explicit description the purposes of use of such motor vehicles with respect to which coverage is not intended to be granted.

(d) Provision insuring the insured named therein and to the same extent that coverage is afforded such named insured in respect to said described motor vehicles, any other person using, or legally responsible for the use of, said motor vehicles, provided the motor vehicles are being used by the named insured or with his permission, express or implied.

(e) Notwithstanding the foregoing subdivisions or the provisions of Article 2 (commencing with Section 16450), Chapter 3, Division 7 of the Vehicle Code, the insurer and any named insured may, by the terms of such policy or by a separate writing, agree that coverage under the policy shall not apply, nor accrue to the benefit of the insured or any third party claimant, while said motor vehicles are being used by a natural person or persons designated by name. Such agreement by any named insured shall be binding upon every insured to whom such policy applies and upon every third party claimant.

(f) Where two or more policies are applicable to the same loss and one of such policies affords coverage to a named insured engaged in selling, repairing, servicing, delivering, testing, road testing, parking, or storing automobiles, such policies may contain a provision that the insurance coverage applicable to such motor vehicles afforded a person other than

the named insured or his agent or employee shall not be applicable if there is any other valid and collectible insurance applicable to the same loss covering such person as a named insured or as an agent or employee of a named insured under a policy with limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code; and in such event, the two or more policies shall not be construed as providing cumulative or concurrent coverage and only that policy which covers the liability of such person as a named insured, or as an agent or employee of a named insured, shall apply. In the event there is no such other valid and collectible insurance, the coverage afforded a person other than the named insured, his agent or employee, may be limited to the financial responsibility requirements specified in Section 16059 of the Vehicle Code.

SEC. 2. Section 11580.1 of the Insurance Code is amended to read:

11580.1. No policy of automobile liability insurance as provided in Section 16057 of the Vehicle Code covering liability arising out of the ownership, maintenance or use of any motor vehicle shall be issued or delivered in this state to the owner of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state, upon any motor vehicle then principally garaged or principally used in this state unless it contains the following provisions:

(a) Provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code.

(b) Provision designating by explicit description or by appropriate reference all motor vehicles with respect to which coverage is intended to be granted.

(c) Provision designating by explicit description the purposes of use of such motor vehicles with respect to which coverage is not intended to be granted.

(d) Provision insuring the insured named therein and to the same extent that coverage is afforded such named insured in respect to said described motor vehicles, any other person using, or legally responsible for the use of, said motor vehicles, provided the motor vehicles are being used by the named insured or with his permission, express or implied.

(e) Notwithstanding the foregoing subdivisions or the provisions of Article 2 (commencing with Section 16450), Chapter 3, Division 7 of the Vehicle Code, the insurer and any named insured may, by the terms of such policy or by a separate writing, agree that coverage under the policy shall not apply, nor accrue to the benefit of the insured or any third party claimant, while said motor vehicles are being used by a natural person or persons designated by name. Such agreement by any named insured shall be binding upon every insured to whom such policy applies and upon every third party claimant.

(f) Where two or more policies are applicable to the same loss and one of such policies affords coverage to a named

insured engaged in selling, repairing, servicing, delivering, testing, road testing, parking, or storing automobiles, such policies may contain a provision that the insurance coverage applicable to such motor vehicles afforded a person other than the named insured or his agent or employee shall not be applicable if there is any other valid and collectible insurance applicable to the same loss covering such person as a named insured or as an agent or employee of a named insured under a policy with limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code; and in such event, the two or more policies shall not be construed as providing cumulative or concurrent coverage and only that policy which covers the liability of such person as a named insured, or as an agent or employee of a named insured, shall apply. In the event there is no such other valid and collectible insurance, the coverage afforded a person other than the named insured, his agent or employee, may be limited to the financial responsibility requirements specified in Section 16059 of the Vehicle Code.

(g) Nothing in this section nor in Section 16057 or 16450 of the Vehicle Code shall be construed to constitute a homeowner's policy as an "automobile liability policy" within the meaning of Section 16057 of said code nor as a "motor vehicle liability policy" within the meaning of Section 16450 of said code, notwithstanding that such homeowner's policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining. For the purposes of this section, "homeowner's policy" means an insurance policy providing fire and other insurances covering either residence properties occupied by not more than four families and appurtenances, or the contents thereof other than merchandise, or both.

SEC. 3. Section 16057 of the Vehicle Code is amended to read:

16057. Exemption may be established by filing with the department satisfactory evidence:

(a) That the owner had an automobile liability policy or motor vehicle liability policy or bond in effect at the time of the accident with respect to the driver or the motor vehicle involved in the accident, unless it is established that at the time of the accident the motor vehicle was being operated without the owner's permission, express or implied, or was parked by a driver who had been operating the vehicle without permission.

(b) That the driver of the motor vehicle involved in the accident, if he was not the owner of such motor vehicle, had in effect at the time of the accident an automobile liability policy or motor vehicle liability policy or bond with respect to his operation of motor vehicles not owned by him.

(c) That such liability as may arise from the driver's operation of the motor vehicle involved in the accident is, in the judgment of the department covered by some form of liability insurance or bond.

(d) Any automobile liability policy or bond referred to in this section shall comply with the requirements of Section 16059 of this code and Sections 11580, 11580.1 and 11580.2 of the Insurance Code, but need not contain provisions other than those required by said sections.

SEC. 4. Section 16451 of the Vehicle Code is amended to read:

16451. An owner's policy of motor vehicle liability insurance shall insure the person named therein and any other person, as insured, using any owned motor vehicle with the express or implied permission of said assured, against loss from the liability imposed by law for damages arising out of ownership, maintenance, or use of such motor vehicle within the continental limits of the United States to the extent and aggregate amount, exclusive of interest and costs, with respect to each motor vehicle, of fifteen thousand dollars ($15,000) for bodily injury to or death of each person as a result of any one accident and, subject to said limit as to one person, the amount of thirty thousand dollars ($30,000) for bodily injury to or death of all persons as a result of any one accident and the amount of five thousand dollars ($5,000) for damage to property of others as a result of any one accident.

SEC. 5. Section 16452 of the Vehicle Code is amended to read:

16452. An operator's policy of motor vehicle liability insurance shall insure the person named as insured therein against loss from the liability imposed on him by law for damages arising out of use by him of any motor vehicle not owned by him, and for any subsequently acquired motor vehicle for a period not to exceed 10 days from date of purchase, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance.

SEC. 6. Section 2 of this act shall become operative only if Assembly Bill No. 590 is enacted by the Legislature at its 1968 session, and in such case at the same time as Assembly Bill No. 590 takes effect; at which time Section 11580.1 of the Insurance Code as amended by Section 1 of this act is repealed.

256 The designated agency shall determine the financial eligibility of the family according to standards established by the department. The agency will also determine if the parents are residents of the county, if the guardian of the child is a resident of the county, or if the emancipated minor is a resident of the county where application for services is made. If the agency finds that the family, guardian, or emancipated minor is a resident of the county and financially eligible for services, it shall make a record of the facts and shall certify this child for care under the program.

257. The designated agency shall enter into an agreement with the parents or estate of the child to repay the program for the costs of treatment in accordance with the formula for repayment established by the department. Any payment made by the parents or estate will be paid to the treasurer of the county in which the certificate of eligibility is issued and credited to the state and county account from which the expenditure was originally drawn.

258. A county of under 200,000 population, administering its county program jointly with the state department, shall

forward to the department a statement certifying the family of the handicapped child as financially eligible for treatment services. The department shall authorize necessary services within the limits of available funds. Payment for services will be made by the state department, with reimbursement from the county for its proportionate share as specified in this article.

259. The state department may, without the possession of a county certification, pay the expenses for services required by any physically handicapped child out of any funds received by it through gift, devise, or bequest or from private, state, federal or other grant or source.

The department may authorize or contract with any person or institution properly qualified to furnish services to handicapped children. It may pay for services out of any funds appropriated for the purpose or from funds it may receive by gift, devise or bequest.

The department may receive gifts, legacies, and bequests and expend them for the purpose of this article, but not for administrative expense.

260. When the department provides, or arranges for the provision of services to physically handicapped children directly, as in the case of nonresident physically handicapped children, it shall enter into an agreement with parents, guardians or persons responsible for the care of handicapped children to repay the program for the costs of treatment in accordance with the uniform formula for repayment established by the department. Payment shall be credited to the state account from which the expenditure was originally drawn.

261. Upon the request of another state or of a federal agency, the department may pay the expenses of services required by any physically handicapped child who is not a resident of the state; provided, that the cost of such services is fully covered by special grants or allotments received from such state or federal agency for that purpose.

262. The department and designated agencies shall maintain surveillance and supervision over the services provided handicapped children under authorization by the program to assure a high quality of service and shall cause a record to be kept showing the condition and improvement of these handicapped children.

263. This article does not authorize any treatment service without the written consent of a parent or guardian except as a person under 21 years is an emancipated minor.

264. A handicapped child shall not be denied services pursuant to this article because he is mentally retarded.

265. Annually the board of supervisors of each county shall appropriate for services for handicapped children of the county, including diagnosis, treatment, and therapy services for physically handicapped children in public schools, exclusive of administrative costs, a sum of money not less than that represented by a rate of one-tenth of one mill ($0.0001) on

each dollar on the assessed valuation of the taxable property in the county, except that whenever the department on or before May 1st of any year certifies to the board of supervisors a smaller amount needed for such purposes in that county, the latter shall be the minimum amount appropriable for expenditure therefor in that county during the next succeeding fiscal year.

The state shall appropriate funds sufficient to bring each county program to twenty thousand dollars ($20,000) or four-tenths of one mill ($0.0004), whichever is greater, except if the county has appropriated less than one-tenth mill ($0.0001) as provided in this section.

Nothing in this section shall prevent a county board of supervisors from appropriating additional money for services to handicapped children, and the state shall be obligated to match such appropriations in a ratio of three dollars ($3) for one dollar ($1) of county money up to a maximum county appropriation of two-tenths of a mill ($0.0002) of assessed valuation upon a determination by the department that a need based on departmental priorities exists for such supplemental state and county funds.

Expenditures for services shall represent a concurrent obligation against state and county funds according to the method of reimbursement specified in this section.

The state shall reimburse counties quarterly on a 3:1 matching basis for county expenditures, provided that the state quarterly payment shall not exceed by more than 10 percent the total state funds allocated quarterly to each county, except as provided in Section 266.

Expenditures made to reimburse counties for the state's share of the cost of such services shall be charged to the fiscal year in which the county issues its warrant in payment of such services Expenditures made by the state on behalf of counties for the cost of such services shall be charged to the fiscal year in which the warrant is issued by the State Controller.

Federal grant funds allocated for the support of the crippled children's program shall be used for the purpose of state matching of county appropriations for services except for the cost of the administration of the program by the department.

State matching dollars for services for handicapped children shall not exceed the amount actually appropriated for the program.

266. For those counties with a total appropriation of county and state funds not exceeding one hundred fifty thousand dollars ($150,000) and upon the expenditure of county funds equivalent to a county appropriation of two-tenths mill ($0.0002), the state may from state-appropriated funds pay for services for cases deemed by the department to represent emergencies or cases where medical care cannot be delayed without great harm to the child.

267. The designated county agency shall administer the medical-therapy program in local public schools for physically handicapped children. As provided in Section 265, the state and counties will share in the cost of support of therapist salaries in these schools in the ratio of three dollars ($3) of state funds reimbursed quarterly to one dollar ($1) of county funds. The director shall establish standards for the maximum number of therapists employed in the schools eligible for state financial support in this program, the services to be provided, and the county administrative services subject to reimbursement by the state.

268. The state and the counties will share in the cost of administration of the crippled children's program at the local level. The director will establish the standards for administration, staffing and local operation of the program subject to reimbursement by the state. Reimbursable administrative costs, to be paid by the state to counties, shall not exceed 4.1 percent of the gross total expenditures for diagnosis, treatment and therapy by counties as specified in Section 265.

269. The department shall require of participating local governments the provision of program data including, but not limited to, the number of children treated, the kinds of disabilities, and the costs of treatment, to enable the department, the Department of Finance, and the Legislature to evaluate in a timely fashion and to adequately fund the crippled children's program.

SEC. 3. This act shall become operative on July 1, 1969.

CHAPTER 1321

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 18102 of the Education Code is amended to read:

18102. (1) The Superintendent of Public Instruction shall allow to each school district and each county superintendent of schools, for each special day class, maintained during the current fiscal year, of the size prescribed by the State Board of Education for the particular category of handicapped pupils involved, an amount as follows:

(a) For mentally retarded minors (as defined by Section 6902)	$7,830

(c) For educationally handicapped minors (as defined by Section 6750)	13,680
(d) For physically handicapped minors (as defined by Section 6801)	12,215

(2) Insofar as practicable, the attendance in each school district of the particular categories of minors enumerated in subdivision (1) shall be concentrated in a minimum number of such classes. For any special day class for educationally handicapped minors or physically handicapped minors in which are enrolled fewer than one-half of the number of pupils prescribed by the State Board of Education as the appropriate class size for the particular category of minors involved, there shall be allowed to the district, in lieu of the allowance specified in subdivision (1), an amount of one thousand one hundred forty dollars ($1,140) per pupil in average daily attendance in each such class for educationally handicapped minors in the current fiscal year, and one thousand eighteen dollars ($1,018) per pupil in average daily attendance in each such class for physically handcapped minors in the current fiscal year.

For any special day class for mentally retarded minors (as defined by Section 6902) or mentally retarded minors (as defined by Section 6903) in which are enrolled fewer than one-half of the number of pupils prescribed by the State Board of Education as the appropriate class size for the particular category of minors involved, there shall be allowed to the district, in lieu of the allowance specified in subdivision (1), an amount of four hundred thirty-five dollars ($435) per pupil in average daily attendance in each such class for mentally retarded minors (as defined by Section 6902) in the current fiscal year, and seven hundred ninety-five dollars ($795) per pupil in average daily attendance in each such class for mentally retarded minors (as defined by Section 6903) in the current fiscal year.

(3) In addition to the allowances provided under subdivisions (1) and (2), the following amounts per pupil in average daily attendance in the current fiscal year shall be allowed to each school district and county superintendent of schools:

(a) For instruction of educationally handicapped minors in learning disability groups, one thousand eight hundred eighty dollars ($1,880).

(f) For other individual instruction of physically handicapped minors, one thousand three hundred dollars ($1,300).

(4) (a) The allowances provided under subdivisions (1), (2), and (3), may be increased proportionately on account of special day classes convened, or other instruction provided a pupil, for days in a school year which are in excess of the number of days in the school year on which the regular day schools of a district are convened.

(b) The Superintendent of Public Instruction shall compute for each applicant school district and county superintendent of schools in providing in such year a program of specialized consultation to teachers, counselors and supervisors for educationally handicapped minors who come within the provisions of subdivision (c) of Section 6751, an amount equal to the product of the average daily attendance of pupils enrolled in such programs in subdivision (a) of this section and ten dollars ($10).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1322

An act to add Chapter 2.1 (commencing with Section 16115) to Part 4 of Division 9 of the Welfare and Institutions Code, relating to aid for adoption of children.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.1 (commencing with Section 16115) is added to Part 4 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 2.1. AID FOR ADOPTION OF CHILDREN

16115. Aid under this chapter shall be known as aid for adoption of children.

16116. For purposes of this chapter, a "hard-to-place" child is a child who is disadvantaged because of adverse parental background, or a handicapped child, or a child of the age of seven years or more. The provisions of this chapter apply only to hard-to-place children.

16117. It is the purpose of this chapter to encourage and promote the placement in adoptive homes of children who because of their ethnic background, race, color, language, physical handicaps, or age have become difficult to place in adoptive homes. It is the legislative intent to make available to prospective adoptive parents information concerning the availability of relinquished children, information and assistance in completing the adoption process, and the financial aid which might be required to enable them to adopt an otherwise hard-to-place child.

16118. The department shall administer and establish a two-year pilot program to be carried out by any licensed county adoption agency.

The pilot program shall be carried out to determine (a) the extent to which a public information campaign on adoptions would tend to increase the number of persons seeking to adopt hard-to-place children, (b) the extent to which financial assistance can increase the number of adoptions, especially among lower income families, and (c) the extent of financial assistance, if any, which is needed.

The department shall keep such records as are necessary to evaluate the programs' effectiveness in encouraging and promoting the adoption of hard-to-place children. The department shall make annual progress reports to the Legislature by March 1st of each year and shall make a final report to the 1971 Legislature in time for that Legislature to make a decision whether to make this pilot program a permanent part of the adoption program of the state.

16119. The department shall disseminate information to prospective adoptive families, especially those families of lower income levels and those belonging to disadvantaged groups, as to the availability of adoptable children and of the existence of aid to adoptive families under this chapter.

The department shall assist families, wishing to adopt hard-to-place children, in completing the legal and procedural requirements necessary to effect the adoption.

The department shall provide financial aid to the adoptive family in an amount it has determined pursuant to Section 16120.

16120. The adoption fees may be waived for all adoptive parents who participate in the program. In addition, there may be paid for a period not to exceed three years an amount of financial assistance not more than the amount that would be paid for foster care for the child if the placement for adoption had not taken place. The Director of Finance is authorized to transfer funds to a special account for use by the department to provide the in-lieu foster care payments as provided by this section. Such transfer of funds shall not exceed the amount of the estimated reduction in foster care payments which will result from the placement of hard-to-place children in adoptive homes. The county share of the cost of in-lieu foster care payments to adoptive parents shall be paid from county funds.

16121. It is the intent of the Legislature in enacting this chapter to benefit hard-to-place children residing in foster homes at state expense by providing the stability and security of permanent homes, and, in so doing, achieve a reduction in total state expense by reducing costly foster home care.

16122. The department shall actively seek, and make maximum use of, federal funds which might be available for the purposes of this chapter. All gifts or grants received from private sources for the purposes of this chapter shall be used to offset state costs incurred under the pilot program established by this chapter.

16123. The provisions of this chapter shall become operative on January 1, 1969 and no further adoptive placements of children shall be made pursuant to provisions of this chapter after December 31, 1971. The in-lieu foster care payments authorized under this chapter shall continue for those children placed prior to December 31, 1971, for so long as necessary, but not to exceed a period of three years from the date of the placement of the child.

SEC. 2. It is not the intent of this act to increase expenditures but to provide for payments to adoptive parents in the same way that such persons would be eligible to receive aid payments if they were to apply for a boardinghome license.

CHAPTER 1323

An act to amend Sections 101, 2841, 2893, 2894, 4501, 4502, 4505, 4506, 4510, 4511, 4512, 4513, 4514, 4515, 4516, 4520, 4521, 4523, 4544, 4545, 4545.1, 4545.2, 4545.3, 4546, 4547, and 4549 of, and to amend the heading of Article 2 (commencing with Section 4510) of Chapter 10 of Division 2 of, to amend and renumber Sections 4540, 4541, and 4542 of, and to add Sections 4506.5, 4507, 4508, and 4510 to, the Business and Professions Code, relating to psychiatric technicians.
