If the license is renewed more than 30 days after its expiration, the holder, as a condition precedent to renewal, shall also pay the delinquency fee prescribed by this chapter. Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee, if any, is paid, whichever last occurs. If so renewed, the license shall continue in effect through the date provided in Section 4544 which next occurs after the effective date of the renewal, when it shall expire if it is not again renewed.

A certificate which was forfeited for failure to renew under the law in effect before October 1, 1961, shall, for the purposes of this article, be considered to have expired on the date that it became forfeited.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Part 11 (commencing with Section 99000) is added to Division 10 of the Public Utilities Code, to read:

PART 11. PROVISIONS APPLICABLE TO ALL PUBLIC TRANSIT

CHAPTER 1. SPECIAL BENEFIT DISTRICTS

99000. Whenever the board of directors of any transit district or rapid transit district finds that areas adjacent to any transit station of the district, exclusive of any right-of-way of a common carrier, receive special benefit by reason of the operation thereof and deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion or repair of any or all improvements, works, property or facilities otherwise authorized by law for such district, or convenient or necessary to carry out the powers of the district, and to provide for such bonded indebtedness to be payable from a special assessment tax levied upon less than all the real property of the district, it shall, by resolution adopted by a vote of two-thirds of all members of the board so declare and state:

(a) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to or connected with the accomplishment of such purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance and sale of the bonds;

(b) The estimated cost of accomplishing said purposes and the amount of the principal of the indebtedness to be incurred;

(c) That the board intends to form a special benefit district of a portion of the district which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the proposed benefit district, and to call an election in such proposed benefit district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said benefit district;

(d) That assessments for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable land in the benefit district, except for any right-of-way of a common carrier;

(e) The extent to which, if at all, all or a portion of the revenues of the district are to be used to pay the principal of, interest on, and sinking fund payments for, said bonds, including the establishment and maintenance of any reserve fund therefor;

(f) That a general description of the proposed construction area, together with a map showing the exterior boundaries of said proposed benefit district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the district and is available for inspection by any person or persons interested;

(g) The time and place for a hearing by the board on the questions of the formation of said proposed benefit district, the extent thereof, the proposed construction, the estimated cost and the amount of debt to be incurred;

(h) That at the time and place specified in the resolution any person interested, including all persons owning property in the district or in the proposed benefit district, will be heard; and

(i) That at the same time as the board of supervisors is required by law to fix the general tax levy and in the manner provided for such general tax levy, the board of directors shall levy and collect upon all land in the proposed benefit district, except for any right-of-way of a common carrier, an ad valorem assessment at a uniform rate which is sufficient, together with revenues already collected and available therefor, to pay the interest on the said bonds as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the district's agreements with holders of bonds issued for the benefit district, as will become due before the proceeds of an assessment levied at the time of the next general tax levy will be available for such purposes, and sufficient to provide or to restore such reserve fund to the amount required by any of the district's agreements with holders of bonds issued for the benefit district.

99001. The board of directors of any transit district or rapid transit district may establish one or more special benefit districts within the district pursuant to this chapter. Any special benefit district may contain separate zones, which may consist of either contiguous or noncontiguous areas of land within the district. Each zone within a special benefit district shall be an area adjacent to a transit station which the board determines will receive special benefit by reason of the operation of transit facilities but all zones within a special benefit district need not be adjacent to the same transit station.

99002. Whenever the board of directors of any transit district or rapid transit district finds that areas adjacent to two or more transit stations of the district, exclusive of any right-of-way of a common carrier, receive special benefit by reason of the operation thereof and deems it necessary to form a special benefit district containing two or more zones, in order to incur a bonded indebtedness for the acquisition, construction, completion or repair of any or all improvements, works, property or facilities otherwise authorized by law for such district, or convenient or necessary to carry out the powers of the district, and in order to provide for such bonded indebtedness to be payable from a special assessment tax levied upon less than all the real property of the district, it shall, by a resolution adopted by a vote of two-thirds of all members of the board, declare and state:

(a) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to or connected with the accomplishment of such purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance and sale of the bonds;

(b) The estimated cost of accomplishing said purposes and the amount of the principal of the indebtedness to be incurred;

(c) That the board intends to form a special benefit district composed of a specified number of zones within a portion of the territory of the district, which in the opinion of the board will be benefited, and that the exterior boundaries of each such zone within the special benefit district are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the zones within the proposed benefit district;

(d) That the board intends to call an election in all zones of the proposed benefit district on a date to be fixed for the purpose of submitting to the qualified voters of the proposed benefit district the proposition of incurring indebtedness by the issuance of bonds of the district for the special benefit district, which shall be deemed for all purposes to be a single election;

(e) That assessments for the payment of the bonds and the interest thereon shall be levied exclusively upon the taxable land in all zones of the benefit district, except for any right-of-way of a common carrier, at a uniform rate to pay the indebtedness of the entire special benefit district;

(f) The extent to which, if at all, all or a portion of the revenues of the district are to be used to pay the principal of, interest on, and sinking fund payments for, said bonds, including the establishment and maintenance of any reserve fund therefor;

(g) That a general description of each proposed construction area, together with a map showing the exterior boundaries of each zone of the benefit district with relation to the territory contiguous thereto and to the proposed improvements, is on file with the secretary of the district and is available for inspection by any person or persons interested;

(h) The time and place for a hearing by the board on the questions of the formation of said proposed benefit district, the extent thereof, the proposed construction, the estimated cost and the amount of debt to be incurred;

(i) That at the time and place specified in the resolution any person interested, including all persons owning property in the district or in the proposed benefit district, will be heard; and

(j) That at the same time as the board of supervisors is required by law to fix the general tax levy and in the manner provided for such general tax levy, the board of directors shall levy and collect upon all land in each zone of the proposed benefit district, except for any right-of-way of a common carrier, an ad valorem assessment at a uniform rate which is sufficient, together with revenues already collected and available therefor, to pay the interest on the said bonds as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the district's agreements with holders of bonds issued for the benefit district, as will become due before the proceeds of an assessment levied at the time of the next general tax levy will be available for such purposes, and sufficient to provide or to restore such reserve fund to the amount required by any of the district's agreements with holders of bonds issued for the benefit district.

99003. The notice of the time and place of hearing specified in either Section 99000 or Section 99002 shall be given by publishing a copy of the resolution declaring the necessity pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in at least one newspaper published in the district.

99004. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed benefit district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity.

99005. The board shall have power to change the purposes for which the proposed debt is to be incurred, or the estimated cost, or the amount of bonded debt to be incurred, or the boundaries of said proposed benefit district or any zone therein, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said construction. For all purposes of this chapter, it shall

be conclusively presumed that any right-of-way of a common carrier will not be benefited by said construction.

99006. The purposes, estimated cost, amount of bonded debt or boundaries shall not be changed by said board except after notice of its intention to do so, given by publication pursuant to Section 6061 of the Government Code in at least one newspaper published in the district. Said notice shall state the changed purposes and estimated cost and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the proposed benefit district and as to any zone contained therein, and specify the time and place for hearing on such change or changes, which time shall be at least ten days after publication of said notice.

99007. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or the proposed benefit district, may appear and present any matters material to the changes stated in the notice.

99008. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purposes for which said proposed debt is to be incurred, the estimated cost of accomplishing said purposes, the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the secretary of the district, which map shall govern for all details as to the extent of the benefit district, and that said portion of the district set forth on said map shall thereupon constitute and be known as "Benefit District No. __ of the _____ Transit District," and the determinations made in said resolution shall be final and conclusive.

99009. After the formation of such benefit district within the district and after the assessments have been confirmed pursuant to this chapter, all proceedings for the authorization and issuance of bonds of the district for such benefit district shall be limited and shall apply only to the benefit district; and assessments for the payment of said bonds and the interest thereon, except as otherwise provided in the resolution of necessity, shall be levied exclusively upon the land in the benefit district, except for any right-of-way of a common carrier; and the revenues of the district shall be used only to the extent set forth in the resolution declaring the necessity. If zones have been established within the benefit district, the ad valorem assessment shall be imposed at a uniform rate throughout all zones of the benefit district to pay the principal and interest on all bonds of the district issued for the benefit district.

99010. After the board has made its determination of the matters required to be determined by this chapter, and if the board deems it necessary to incur the bonded indebtedness, the board shall by ordinance call a special election in said benefit district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said benefit district. Said ordinance shall state:

(a) That the board deems it necessary to incur the bonded indebtedness.

(b) The purposes for which the bonded indebtedness will be incurred.

(c) The estimated cost of accomplishing said purposes.

(d) The amount of the principal of the indebtedness to be incurred.

(e) The benefit district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said benefit district and all zones contained therein is on file with the secretary of the district, which map shall govern for all details as to the extent of the benefit district.

(f) That assessments for the payment of such bonds and the interest thereon shall be levied exclusively and at a uniform rate upon the land in said benefit district and all zones contained therein, except for any right-of-way of a common carrier; and that revenues of the district shall be used only to the extent set forth in the resolution declaring the necessity.

(g) The maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 50 years from the date thereof or the date of each series thereof.

(h) The maximum rate of interest to be paid, which shall not exceed 6 percent per annum.

(i) The proposition to be submitted to the voters which may include one or more purposes.

(j) The date of the election.

(k) The manner of holding the election and the procedure for voting for and against the measure.

99011. Notice of the holding of such election shall be given by publishing, pursuant to Section 6066 of the Government Code, the ordinance calling the election in at least one newspaper published in such district. No other notice of such election need be given. Except as otherwise provided in the ordinance, the election shall be conducted as other district elections. If a special benefit district has been divided into zones, the votes cast in all zones shall be counted as in the case of a benefit district without such zones to determine the outcome of the election.

99012. If any proposition is defeated by the electors, the board shall not call another election on a substantially similar proposition to be held within six months after the prior election. If a petition requesting submission of such a proposition, signed by 15 percent of the benefit district electors, as shown

by the votes cast for all candidates for governor at the last gubernatorial election, is filed with the board, it may call an election before the expiration of six months.

99013. If 66⅔ percent of the electors in the entire benefit district voting on the proposition vote for it, then the board may, by resolution, at such time or times as it deems proper, issue bonds of the district for the benefit district for the whole or any part of the amount of the indebtedness so authorized and may from time to time, by resolution, provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates and different dates of payment fixed for the bonds of each series. A bond need not mature on an anniversary of its date. The maximum term the bonds of any series shall run before maturity shall not exceed 50 years from the date of each series respectively. In such resolution or resolutions the board shall prescribe the form of the bonds (including, without limitation, registered bonds and coupon bonds) and the form of any coupons to be attached thereto, the registration, conversion and exchange privileges, if any, pertaining thereto, and fix the time when the whole or any part of the principal shall become due and payable.

99014. The bonds shall bear interest at a rate or rates not exceeding 6 percent per annum, payable semiannually, except that the first interest payable on the bonds or any series thereof may be for any period not exceeding one year as determined by the board. In the resolution or resolutions providing for the issuance of such bonds the board may also provide for call and redemption of such bonds prior to maturity at such times and prices and upon such other terms as it may specify, provided that no bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon. The denomination or denominations of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars ($1,000). The principal of and interest on such bonds shall be payable in lawful money of the United States at the office of the treasurer of the district or at such other place or places as may be designated, or at either place or places at the option of the holders of the bonds. The bonds shall be dated, numbered consecutively and shall be signed by the president and treasurer, countersigned by the secretary and the official seal of the district attached. The interest coupons of such bonds shall be signed by the treasurer. All such signatures, countersignatures and seal may be printed, lithographed or mechanically reproduced, except that one of such signatures or countersignatures on the bonds shall be manually affixed. If any officer whose signature or countersignature appears on bonds or coupons ceases to be such officer before the delivery of the bonds, his signature is as effective as if he had remained in office.

99015. The bonds may be sold as the board determines by resolution but for not less than par. Before selling the bonds, or any part thereof, the board shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

99016. Delivery of any bonds may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

99017. All accrued interest and premiums received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds and the remainder of the proceeds of the bonds shall be placed in the treasury to the credit of the proper benefit fund and applied exclusively to the purposes for which the debt was incurred; provided, however, that when said purposes have been accomplished any moneys remaining in such benefit fund (a) shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, or (b) shall be placed in a fund to be used for the purchase of outstanding bonds of the benefit district from time to time in the open market at such prices and in such manner, either at public or private sale or otherwise, as the board may determine. Bonds so purchased shall be canceled immediately.

99018. After the expiration of three years after a bond election the board may determine, by ordinance adopted by a vote of two-thirds of all the members of the board, that any or all of the bonds authorized at said election remaining unsold shall not be issued or sold. When the ordinance takes effect, the authorization to issue said bonds shall become void.

99019. Whenever the board deems that the expenditure of money for the purposes for which the bonds were authorized by the voters is impractical or unwise, it may, by ordinance adopted by a vote of two-thirds of all members of the board, so declare and call an election to be held in the district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of such bonds for some other purposes or, in the case where bonds have been sold, the proposition to use the proceeds for some other purposes. The procedure, so far as applicable, shall be the same as when a bond proposition is originally submitted.

99020. The board may provide for the issuance, sale or exchange of refunding bonds to redeem or retire any bonds issued by the district upon the terms, at the times and in the manner which it determines. Refunding bonds may be issued in a principal amount sufficient to pay all or any part of the principal of such outstanding bonds, the interest thereon and the premiums, if any, due upon call and redemption thereof

prior to maturity and all expenses of such refunding. The provisions of this chapter for issuance and sale of bonds apply to the issuance and sale of such refunding bonds; except that (i) no election need be called or held for the purpose of authorizing the issuance of refunding bonds, and (ii) when refunding bonds are to be exchanged for outstanding bonds the method of exchange shall be as determined by the board.

99021. The provisions of Article 4 (commencing with Section 53500) of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code are applicable to the district.

99022. Any bonds which shall be issued under the provisions of this chapter shall be legal investment for all trust funds; for the funds of insurance companies, banks—both commercial and savings—and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts, or other districts within the State of California, such money or funds may be invested in the bonds issued under this part, and whenever bonds of cities, cities and counties, counties, school districts, or other districts within this state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public moneys, the said bonds issued under this part may be so used The provisions of this article shall be in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

99023. Any action or proceeding, wherein the validity of the formation of the benefit district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three (3) months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the benefit district, shall be held to be valid and in every respect legal and incontestable.

99024. If 66⅔ percent of the electors of the benefit district voting on the proposition at the special election called pursuant to Section 99011 have voted in favor of it and the board has issued a resolution for the issuance of bonds and has imposed the assessments, the secretary shall so certify to the assessor of the county or counties in which territory of the benefit district is located and deliver to the assessor copies of all maps and diagrams of the benefit district and the assessments to be levied on the lots or parcels of land therein. The assessments authorized by this chapter shall be levied and collected at the same time and in the same manner by the county or counties as taxes are levied and collected.

99025. The powers granted to transit districts and rapid transit districts by this chapter shall be in addition to any powers otherwise granted to such districts by law.

99026. This part may be cited as "the Mills Act."

CHAPTER 2. LOCAL TRANSPORTATION SYSTEMS

99100. Whenever the legislative body of any city, or the board of supervisors of any city and county owns, a municipal transportation system, either by means of an independent transit authority established by charter or otherwise, and the legislative body or board of supervisors finds that areas adjacent to any station of the transportation system or along the route or lines of the transportation system, exclusive of any right-of-way of a common carrier, receive special benefit by reason of the operation thereof and the legislative body or board of supervisors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion or repair of any or all improvements, works, property or facilities for such system, or convenient or necessary to carry out the purposes of the system, and to provide for such bonded indebtedness to be payable from a special assessment levied upon less than all the real property of the city or city and county, it shall, by a resolution adopted by a vote of two-thirds of all members of the legislative body or board of supervisors, declare and state:

(a) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to or connected with the accomplishment of such purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance and sale of the bonds;

(b) The estimated cost of accomplishing said purposes and the amount of the principal of the indebtedness to be incurred;

(c) That the legislative body or board of supervisors intends to form a special benefit district of a portion of the territory of the city or city and county which in the opinion of the legislative body or board of supervisors will be benefited, the exterior boundaries of which portion are set forth on a map on file with the clerk of the legislative body or the clerk of the board of supervisors, which map shall govern for all details as to the extent of the proposed benefit district, and to call an election in such proposed benefit district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the city or city and county for said benefit district;

(d) That assessments for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable land in the benefit district, except for any right-of-way of a common carrier;

(e) The extent to which, if at all, all or a portion of the revenues of the city or city and county are to be used to pay the principal of, interest on, and sinking fund payments for,

said bonds, including the establishment and maintenance of any reserve fund therefor;

(f) That a general description of the proposed construction area, together with a map showing the exterior boundaries of said proposed benefit district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the clerk of the legislative body or the clerk of the board of supervisors and is available for inspection by any person or persons interested;

(g) The time and place for a hearing by the legislative body or the board of supervisors on the questions of the formation of said proposed benefit district, the extent thereof, the proposed construction, the estimated cost and the amount of debt to be incurred;

(h) That at the time and place specified in the resolution any person interested, including all persons owning property in the city or city and county or in the proposed benefit district, will be heard; and

(i) That at the same time as the board of supervisors is required by law to fix the general tax levy and in the manner provided for such general tax levy, the legislative body of any city, or the board of supervisors of any city and county shall levy and collect upon all land in the proposed benefit district, except for any right-of-way of a common carrier, an ad valorem assessment at a uniform rate which is sufficient, together with revenues already collected and available therefor, to pay the interest on the said bonds as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the system's agreements with holders of bonds issued for the benefit district, as will become due before the proceeds of an assessment levied at the time of the next general tax levy will be available for such purposes, and sufficient to provide or to restore such reserve fund to the amount required by any of the system's agreements with holders of bonds issued for the benefit district.

99101. The legislative body of any city or the board of supervisors of any city and county may establish one or more special benefit districts within the city and city and county pursuant to this chapter.

Any special benefit district may contain separate zones, which may consist of either contiguous or noncontiguous areas of land within the city or city and county. Each zone within a special benefit district shall be an area adjacent to a station of the municipal transportation system or along the route or lines of such system which the legislative body or board of supervisors determines will receive special benefit by reason of the operation of transportation facilities but all zones within a special benefit district need not be adjacent to the same station or adjacent to the same portion of the route or lines.

99102. Whenever the legislative body of a city or the board of supervisors of a city and county finds that areas adjacent to two or more stations of the municipal transportation system or adjacent to different portions of the system's route or lines, exclusive of any right-of-way of a common carrier, receive special benefit by reason of the operation of such system and deems it necessary to form a special benefit district containing two or more zones, in order to incur a bonded indebtedness for the acquisition, construction, completion or repair of any or all improvements, works, property or facilities for the municipal transportation system, or convenient or necessary to carry out the functions of the system, and in order to provide for such bonded indebtedness to be payable from a special assessment tax levied upon less than all the real property of the city or city and county, it shall, by a resolution adopted by a vote of two-thirds of all members of the board, declare and state:

(a) The purposes for which the proposed debt is to be incurred, which may include all costs and estimated costs incidental to or connected with the accomplishment of such purposes, including, without limitation, engineering, inspection, legal, fiscal agents, financial consultant, bond and other reserve funds, working capital, bond interest estimated to accrue during the construction period and for a period not to exceed three years thereafter, and expenses of all proceedings for the authorization, issuance and sale of the bonds;

(b) The estimated cost of accomplishing said purposes and the amount of the principal of the indebtedness to be incurred;

(c) That the legislative body or board of supervisors intends to form a special benefit district composed of a specified number of zones within a portion of the territory of the city or city and county, which in the opinion of the legislative body or board of supervisors will be benefited, and that the exterior boundaries of each such zone within the special benefit district are set forth on a map on file with the clerk of the legislative body or board of supervisors, which map shall govern for all details as to the extent of the zones within the proposed benefit district;

(d) That the legislative body or board of supervisors intends to call an election in all zones of the proposed benefit district on a date to be fixed for the purpose of submitting to the qualified voters of the proposed benefit district the proposition of incurring indebtedness by the issuance of bonds of the city or city and county for the special benefit district, which shall be deemed for all purposes to be a single election;

(e) That assessments for the payment of the bonds and the interest thereon shall be levied exclusively upon the taxable land in all zones of the benefit district, except for any right-of-way of a common carrier, at a uniform rate to pay the indebtedness of the entire special benefit district;

(f) The extent to which, if at all, all or a portion of the revenues of the city or city and county are to be used to pay the principal of, interest on, and sinking fund payments for,

said bonds, including the establishment and maintenance of any reserve fund therefor;

(g) That a general description of each proposed construction area, together with a map showing the exterior boundaries of each zone of the benefit district with relation to the territory contiguous thereto and to the proposed improvements, is on file with the clerk of the legislative body or board of supervisors and is available for inspection by any person or persons interested;

(h) The time and place for a hearing by the legislative body or board of supervisors on the questions of the formation of said proposed benefit district, the extent thereof, the proposed construction, the estimated cost and the amount of debt to be incurred;

(i) That at the time and place specified in the resolution any person interested, including all persons owning property in the county or city and county or in the proposed benefit district, will be heard; and

(j) That at the same time as the board of supervisors is required by law to fix the general tax levy and in the manner provided for such general tax levy, the legislative body of any city, or the board of supervisors of any city and county shall levy and collect upon all land in the proposed benefit district, except for any right-of-way of a common carrier, an ad valorem assessment at a uniform rate which is sufficient, together with revenues already collected and available therefor, to pay the interest on the said bonds as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the system's agreements with holders of bonds issued for the benefit district, as will become due before the proceeds of an assessment levied at the time of the next general tax levy will be available for such purposes, and sufficient to provide or to restore such reserve fund to the amount required by any of the system's agreements with holders of bonds issued for the benefit district.

99103. Notice of the time and place of the hearing specified in Section 99100 or 99102 shall be given by publishing a copy of the resolution declaring the necessity pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in at least one newspaper published in the city or city and county.

99104. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the legislative body or board of supervisors shall proceed with the hearing. At the hearing any person interested, including any person owning property within the city or city and county or within the proposed benefit district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity.

99105. The legislative body or board of supervisors shall have power to change the purposes for which the proposed debt is to be incurred, or the estimated cost, or the amount of

bonded debt to be incurred, or the boundaries of said proposed benefit district, or one or all of said matters; provided, however, that the legislative body or board of supervisors shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said construction. For all purposes of this chapter, it shall be conclusively presumed that any right-of-way of a common carrier will not be benefited by said construction.

99106. The purposes, estimated cost, amount of bonded debt or boundaries shall not be changed by the legislative body or board of supervisors, except after notice of its intention to do so, given by publication pursuant to Section 6061 of the Government Code in at least one newspaper published in the city or city and county. Said notice shall state the changed purposes and estimated cost and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the clerk of the legislative body or board of supervisors, which map shall govern for all details as to the extent of the proposed benefit district and as to any zone contained therein, and specify the time and place for hearing on such change or changes, which time shall be at least 10 days after publication of said notice.

99107. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the legislative body or board of supervisors shall proceed with the hearing. At the hearing any person interested, including any person owning property within the city or city and county or the proposed benefit district, may appear and present any matters material to the changes stated in the notice.

99108. At the conclusion of the hearing, the legislative body or board of supervisors shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purposes for which said proposed debt is to be incurred, the estimated cost of accomplishing said purposes, the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the clerk of the legislative body or the board of supervisors, which map shall govern for all details as to the extent of the benefit district, and that said portion of the district set forth on said map shall thereupon constitute and be known as "Benefit District No. __ of the _____" and the determinations made in said resolution shall be final and conclusive

99109. After the formation of such benefit district within the city or city and county and after the assessments have been confirmed pursuant to this chapter, all proceedings for the authorization and issuance of bonds of the city or city and county for such benefit district shall be limited and shall apply only to the benefit district; and assessments for the payment of said bonds and the interest thereon, except as otherwise provided in the resolution of necessity, shall be levied exclusively upon the land in the benefit district; except for any right-of-

way of a common carrier; and the revenues of the city or city and county shall be used only to the extent set forth in the resolution declaring the necessity. If zones have been established within the benefit district, the ad valorem assessment shall be imposed at a uniform rate throughout all zones of the benefit district to pay the principal and interest on all bonds of the city or city and county issued for the benefit district.

99110. After the legislative body or board of supervisors has made its determination of the matters required to be determined by this chapter, and if the legislative body or board of supervisors deems it necessary to incur the bonded indebtedness, the legislative body or board of supervisors shall by ordinance call a special election in said benefit district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said benefit district. Said ordinance shall state:

(a) That the legislative body or board of supervisors deems it necessary to incur the bonded indebtedness.

(b) The purposes for which the bonded indebtedness will be incurred.

(c) The estimated cost of accomplishing said purposes.

(d) The amount of the principal of the indebtedness to be incurred.

(e) The benefit district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said benefit district and all zones contained therein is on file with the clerk of the legislative body or board of supervisors, which map shall govern for all details as to the extent of the benefit district.

(f) That assessments for the payment of such bonds and the interest thereon shall be levied exclusively and at a uniform rate upon the land in said benefit district and all zones contained therein, except for any right-of-way of a common carrier; and that revenues of the city or city and county shall be used only to the extent set forth in the resolution declaring the necessity.

(g) The maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 50 years from the date thereof or the date of each series thereof.

(h) The maximum rate of interest to be paid, which shall not exceed 6 percent per annum.

(i) The proposition to be submitted to the voters which may include one or more purposes.

(j) The date of the election.

(k) The manner of holding the election and the procedure for voting for and against the measure.

99111. Notice of the holding of such election shall be given by publishing, pursuant to Section 6066 of the Government Code, the ordinance calling the election in at least one newspaper published in such city or city and county. No other notice of such election need be given. Except as otherwise provided in the ordinance, the election shall be conducted as

other city or city and county elections. If a special benefit district has been divided into zones, the votes cast in all zones shall be counted as in the case of a benefit district without such zones to determine the outcome of the election.

99112. If any proposition is defeated by the electors, the legislative body or board of supervisors shall not call another election on a substantially similar proposition to be held within six months after the prior election. If a petition requesting submission of such a proposition, signed by 15 percent of the benefit district electors, as shown by the votes cast for all candidates for governor at the last gubernatorial election, is filed with the legislative body or board of supervisors, it may call an election before the expiration of six months.

99113. If 66⅔ percent of the electors in the entire benefit district voting on the proposition vote for it, then the legislative body or board of supervisors may, by resolution, at such time or times as it deems proper, issue bonds of the city or city and county for the benefit district for the whole or any part of the amount of the indebtedness so authorized and may from time to time, by resolution, provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates and different dates of payment fixed for the bonds of each series. A bond need not mature on an anniversary of its date. The maximum term the bonds of any series shall run before maturity shall not exceed 50 years from the date of each series respectively. In such resolution or resolutions the legislative body or board of supervisors shall prescribe the form of the bonds (including, without limitation, registered bonds and coupon bonds) and the form of any coupons to be attached thereto, the registration, conversion and exchange privileges, if any, pertaining thereto, and fix the time when the whole or any part of the principal shall become due and payable.

99114. The bonds shall bear interest at a rate or rates not exceeding 6 percent per annum, payable semiannually, except that the first interest payable on the bonds or any series thereof may be for any period not exceeding one year as determined by the legislative body or board of supervisors. In the resolution or resolutions providing for the issuance of such bonds the legislative body or board of supervisors may also provide for call and redemption of such bonds prior to maturity at such times and prices and upon such other terms as it may specify, provided that no bond shall be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon. The denomination or denominations of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one thousand dollars ($1,000). The principal of and interest on such bonds shall be payable in lawful money

of the United States at the office of the treasurer of the city or city and county or at such other place or places as may be designated, or at either place or places at the option of holders of the bonds. The bonds shall be dated, numbered consecutively and shall be signed by the mayor and treasurer, countersigned by the secretary and the official seal of the city or city and county attached. The interest coupons of such bonds shall be signed by the treasurer. All such signatures, countersignatures and seal may be printed, lithographed or mechanically reproduced, except that one of such signatures or countersignatures on the bonds shall be manually affixed. If any officer whose signature or countersignature appears on bonds or coupons ceases to be such officer before the delivery of the bonds, his signature is as effective as if he had remained in office.

99115. The bonds may be sold as the legislative body or board of supervisors determines by resolution but for not less than par. Before selling the bonds, or any part thereof, the legislative body or board of supervisors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the legislative body or board of supervisors determines that the bids received are not satisfactory as to price or responsibility of the bidders the legislative body or board of supervisors may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

99116. Delivery of any bonds may be made at any place either inside or outside the state, and the purchase price may be received in cash or bank credits.

99117. All accrued interest and premiums received on the sale of bonds shall be placed in the fund to be used for the payment of principal of and interest on the bonds and the remainder of the proceeds of the bonds shall be placed in the treasury to the credit of the proper benefit fund and applied exclusively to the purposes for which the debt was incurred; provided, however, that when said purposes have been accomplished any moneys remaining in such benefit fund (a) shall be transferred to the fund to be used for the payment of principal of and interest on the bonds, or (b) shall be placed in a fund to be used for the purchase of outstanding bonds of the benefit district from time to time in the open market at such prices and in such manner, either at public or private sale or otherwise, as the legislative body or board of supervisors may determine. Bonds so purchased shall be canceled immediately.

99118. After the expiration of three years after a bond election the legislative body or board of supervisors may determine, by ordinance adopted by a vote of two-thirds of all the members of the legislative body or board of supervisors, that any or all of the bonds authorized at said election remaining unsold shall not be issued or sold. When the ordinance takes effect, the authorization to issue said bonds shall become void.

99119. Whenever the legislative body or board of supervisors deems that the expenditure of money for the purposes for which the bonds were authorized by the voters is impractical or unwise, it may, by ordinance adopted by a vote of two-thirds of all members of the legislative body or board of supervisors, so declare and call an election to be held in the benefit district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of such bonds for some other purposes or, in the case where bonds have been sold, the proposition to use the proceeds for some other purposes. The procedure, so far as applicable, shall be the same as when a bond proposition is originally submitted.

99120. The legislative body or board of supervisors may provide for the issuance, sale or exchange of refunding bonds to redeem or retire any bonds issued by the city or city and county upon the terms, at the times and in the manner which it determines. Refunding bonds may be issued in a principal amount sufficient to pay all or any part of the principal of such outstanding bonds, the interest thereon and the premiums, if any, due upon call and redemption thereof prior to maturity and all expenses of such refunding. The provisions of this chapter for issuance and sale of bonds apply to the issuance and sale of such refunding bonds; except that (i) no election need be called or held for the purpose of authorizing the issuance of refunding bonds, and (ii) when refunding bonds are to be exchanged for outstanding bonds the method of exchange shall be as determined by the legislative body or board of supervisors.

99121. The provisions of Article 4 (commencing with Section 53500) of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code are applicable to a city or city and county issuing bonds pursuant to the authorization provided in this chapter.

99122. Any bonds which shall be issued under the provisions of this chapter shall be legal investment for all trust funds; for the funds of insurance companies, banks—both commercial and savings—and trust companies; and for state school funds; and whenever any money or funds may, by any law now or hereafter enacted, be invested in bonds of cities, cities and counties, counties, school districts, or other districts within the State of California, such money or funds may be invested in the bonds issued under this chapter, and whenever bonds of cities, cities and counties, counties, school districts, or other districts, within this state may, by any law now or hereafter enacted, be used as security for the performance of any act or the deposit of any public moneys, the said bonds issued under this chapter may be so used. The provisions of this chapter shall be in addition to all other laws relating to legal investments and shall be controlling as the latest expression of the Legislature with respect thereto.

99123. Any action or proceeding, wherein the validity of the formation of the benefit district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the benefit district, shall be held to be valid and in every respect legal and incontestable.

99124. If 66⅔ percent of the electors of the benefit district voting on the proposition at the special election called pursuant to Section 99111 have voted in favor of it and the legislative body or board of supervisors has issued a resolution for the issuance of bonds and has imposed the assessments, the clerk of the legislative body or the board of supervisors shall so certify to the assessor of the county and deliver to the assessor copies of all maps and diagrams of the benefit district and the assessments to be levied on the lots or parcels of land therein. The assessments authorized by this chapter shall be levied and collected at the same time and in the same manner by the county as taxes are levied and collected.

99125. Notwithstanding any other provision of this chapter, no city nor city and county shall pledge any portion of its general fund revenues to pay any part of any bonded indebtedness unless the provisions of Section 18 of Article XI of the Constitution of the State of California are complied with.

CHAPTER 1326

An act to add Section 18102.4 to the Education Code, relating to special education.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 18102.4 is added to the Education Code, to read:

18102.4. As used in Section 18102, "special day classes" includes integrated programs of instruction for physically handicapped children including those handicapped in vision or hearing where the services of a qualified special teacher are provided.

An integrated program of instruction for physically handicapped children including those handicapped in vision or hearing shall be defined as any program in which such physically handicapped children receive their education in regular classrooms from regular classroom teachers, but receive, in addition, supplementary teaching services of a full-time special teacher, possessing a valid credential to teach exceptional children of the type enrolled in the program. Such supplementary teaching

services may include instruction in the appropriate tool skills, the provision of special materials and use of appropriate special equipment, and counseling and guidance necessary to enable physically handicapped children and those handicapped in vision and hearing to benefit fully from their instruction.

As used in this section, physically handicapped children means those physically handicapped children who are deemed eligible for special class placement as defined by the State Board of Education.

CHAPTER 1327

An act to add Chapter 7 (commencing with Section 11700) to Part 1 of Division 3 of Title 2 of the Government Code, relating to electronic data processing, and making an appropriation therefor.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 11700) is added to Part 1 of Division 3 of Title 2 of the Government Code, to read:

CHAPTER 7. ELECTRONIC DATA PROCESSING

Article 1. Policy

11700. The Legislature finds that electronic data processing technology is an indispensable tool of modern government for the rapid and efficient handling of data, records, information and transactions, and for assisting decisionmakers in carrying out their tasks and responsibilities at all levels of government. Electronic data processing is defined as the process that encompasses all computerized and auxiliary automated information handling, including systems analysis and design, conversion of data, computer programming, information storage and retrieval, data transmission, requisite system controls, simulation, and all the related man-machine interaction. Effective and economical use of this management tool requires comprehensive planning; coordination and cooperation among agencies and levels of government; sound policies; effective implementation practices; and adequate management controls.

11701. It is the intent of the Legislature:

(a) That there be specific objectives and definitive policies to guide the development of electronic data processing systems, procedures, and techniques within the governmental sector;

(b) That policies and plans developed within state government recognize fully the interrelationships and impact of state activities on local governments and on agencies of the federal

government, and that such policies and plans represent the best interests of all of California's citizens;

(c) That there be a master plan for the use of electronic data processing within state government, encompassing both short-term and long-range needs, and that this plan be continually updated;

(d) That the master plan provide for consolidation and optimum utilization of electronic data processing equipment, maximum practical integration of electronic data processing systems; the establishment of service centers, as required, to provide data processing services to units of state government not included in consolidation plans; adherence to standards insuring appropriate compatibility of systems and interchange of data and information; and proper management controls to insure the most efficient effective and economical use of the state's resources for electronic data processing;

(e) That a goal of any consolidation be to create functional information systems which are designed to process and provide information related to particular broad areas of subject matter;

(f) That the ultimate goal of this state is information systems that provide the most effective means of data storage, retrieval and exchange between units and agencies of state and local governments;

(g) It is not the intention of the Legislature to authorize through this enactment any new systems or related personnel without specific budgetary authorization after evaluation of cost, utility, and need through normal channels of technical and budgetary approval;

(h) That appropriate criteria be developed for cost sharing and evaluation of effectiveness for the utilization of electronic data processing systems; and

(i) That such goals as one-time collection of data, minimum duplication of records, and maximum availability of information at lowest overall cost will not jeopardize or compromise the confidentiality of information as provided by statute or the protection of the right of individual privacy as established by law.

Article 2. Intergovernmental Board on Electronic Data Processing

11710 There is in the state government an Intergovernmental Board on Electronic Data Processing, hereafter referred to as the board.

It shall consist of 12 members and alternates appointed by the Governor with four members from state government representing the Transportation Agency, the Resources Agency, the Health and Welfare Agency, and the Department of Agriculture, three members representing county governments, three members representing city governments, and two members representing school districts. County representatives will be selected from among candidates nominated by the County

Supervisors Association of California. City representatives will be selected from among candidates nominated by the League of California Cities. One school district representative will be selected from among candidates nominated by the California Association of School Administrators; the other will be selected from among candidates nominated by the California School Boards Association. Each of the state government agencies represented will have a designated alternate. The counties collectively will have a designated alternate, as will the cities collectively and the school districts collectively. Alternates may attend all meetings and will have full voting power in the absence of a regular member whom the alternate represents. The board will elect its own chairman. Members of the board shall receive no compensation for their services, except for the chairman who shall be reimbursed for his expenses actually and necessarily incurred by him in the performance of his duties under this act.

11711. The functions and responsibilities of the Intergovernmental Board on Electronic Data Processing are:

(a) Establish the goals and objectives for intergovernmental information systems in California;

(b) Establish general policies governing coordination, cooperation, joint efforts, working relationships, and cost sharing relative to development and maintenance of intergovernmental information systems;

(c) Establish priorities (in terms of both importance and time sequencing) for development and implementation of intergovernmental information systems;

(d) Establish the means whereby counties, cities, school districts, and the state government and other public agencies may approve statewide goals, policies, and plans for intergovernmental information systems;

(e) Coordinate the development and implementation of minimum standards of compatibility of procedures, programming languages, codes, and media to facilitate the exchange of information within and among systems and an eventual goal of integrated, statewide information systems providing optimum service to all levels of government;

(f) Recommend any legislation required to insure the protection of individual privacy and the necessary confidentiality of information becoming part of an intergovernmental information system;

(g) Review and comment upon applications for grants-in-aid for planning, development, and implementation of programs with potential significant impact on intergovernmental information systems;

(h) Represent the interests of the public agencies in California to insure that any federal standards shall be flexible enough to allow for the cooperative and coordinated approach undertaken in this state in relation to intergovernmental information systems;

(i) Provide advice to the Governor and Legislature on long-range policies, programs, and plans relative to intergovernmental information systems; and

(j) Review and comment upon policies affecting intergovernmental information exchange established by the State Electronic Data Processing Policy Committee.

11712. The board shall report annually to the Governor, the Legislature, and to all organizations which it represents, during the regular session of the Legislature. The report shall include information on the board's activities, accomplishments, plans, and recommendations.

11713. The board shall have the authority to:

(a) Implement fully and carry out the functions and responsibilities set forth in Section 11711;

(b) Select and recommend for appointment by the Governor an executive secretary and other necessary staff support;

(c) Receive and disburse funds, including the acquisition and administration of grants-in-aid and the contracting for services, the purpose of which is to advance the work of the board as previously defined;

(d) Appoint such advisory groups as may be necessary to carry out its function;

(e) Be the hearing body to consider and recommend solutions to unreconciled systems conflicts which may arise between levels or units of government.

Article 3. State Electronic Data Processing Policy Committee

11720. There is in the state government a State Electronic Data Processing Policy Committee, hereafter referred to as the policy committee.

It shall consist of the Lieutenant Governor; the Attorney General; the Treasurer; the Controller; the Secretary of State; the State Superintendent of Public Instruction; a representative of the Board of Equalization chosen by its membership; a Member of the Senate to be appointed by the Senate Rules Committee; a Member of the Assembly to be appointed by the Speaker of the Assembly; the chairman of the Intergovernmental Board on Electronic Data Processing; three representatives of private industry to be appointed by the Governor; the administrators of the Transportation, Health and Welfare, and Resources Agencies; and the directors of the Departments of Finance, General Services and Agriculture. The chairman of the policy committee shall be designated by the Governor. The Director of the Office of Management Services will serve as the executive secretary of the policy committee. The legislative members shall participate in the work of the policy committee to the extent that such participation is not incompatible with their positions as Members of the Legislature.

11721. The functions and responsibilities of the policy committee are to:

(a) Review and accept or reject recommendations formulated and proposed by the Office of Management Services, including policies, procedures, standards, and a master plan for optimum utilization of electronic data processing systems for state government. The recommendations submitted by the Office of Management Services must consider requirements, as well as suggestions, of other units within state government. In addition, policy committee members may originate recommendations for consideration by the committee as a whole;

(b) Provide advice to the Governor and Legislature on long-range management services plans, programs and policies;

(c) Review policies for intergovernmental information exchange established by the Intergovernmental Board on Electronic Data Processing;

(d) Act on reports submitted by the Office of Management Services on the evaluation of operational effectiveness and performance of electronic data processing utilization in the state government; and

(e) Submit an annual report of activities and recommendations to the Governor and to the Legislature at each regular session of the Legislature.

Article 4. Office of Management Services

11730. There is in the state government an Office of Management Services. The organizational placement of this office shall be at the discretion of the Governor until January 1, 1971, when the Office of Management Services shall become a unit of the Department of Finance. The Office of Management Services shall be staffed by a director appointed by the Governor; a deputy director; and a small group of specialists in the information sciences, cost effectiveness, and systems planning.

11731. The functions of the Office of Management Services are:

CHAPTER 1328

An act to add Section 1241.7 to the Code of Civil Procedure, and to add Section 210.1 to the Streets and Highways Code, relating to eminent domain.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 1241.7 is added to the Code of Civil Procedure, to read:

1241.7. (a) Except as provided in subdivision (b), notwithstanding any other provision of law to the contrary, the fact that property is appropriated for public use as a state, regional, county, or city park establishes a rebuttable presumption of its having been appropriated for the best and most necessary public use. The presumption established by this section is a presumption affecting the burden of proof.

(b) When property appropriated for a public use as a state, regional, county, or city park is sought to be acquired for state highway purposes, and such park was dedicated to or established for park purposes prior to the initiation of highway route location studies, an action for declaratory relief may be brought only by the public agency owning such park in the superior court to determine the question of which public use is the best and most necessary public use for such property. Such action for declaratory relief shall be filed and served within 120 days after written notice to the public agency owning such park by the California Highway Commission that a

proposed route or an adopted route includes park land owned by that agency. In such declaratory relief action, the resolution of the commission shall not be conclusive evidence of the matters set forth in Section 103 of the Streets and Highways Code. Such action for declaratory relief shall have preference over all other civil actions in the matter of setting the same for hearing or trial to the end that any such action shall be quickly heard and determined. If an action for declaratory relief is not filed and served within such 120-day period, the right to bring such action is waived and the provisions of subdivision (a) shall not apply. When a declaratory relief action, with respect to such property being sought for highway purposes, may not be brought pursuant to this subdivision, the provisions of subdivision (a) of this section shall not apply.

SEC. 2. Section 210.1 is added to the Streets and Highways Code, to read:

210.1. (a) The department and the commission, in the planning and design of highway projects, shall attempt to avoid using lands for public parks, and where such lands are necessary for state highway purposes shall attempt to minimize the intrusion or impact on such parks by special design, construction and landscape treatment so that the highway will be harmonious with the environment. The department shall coordinate and confer with appropriate public agencies responsible for park development during the route planning, design and construction phase of a state highway project. The feasibility of bypassing a public park by an alternative route shall be studied and included in the report of alternate route studies to the commission.

(b) Public agencies having jurisdiction over parks shall, in their planning and location of parks, consider present and future needs for safe and modern highway transportation, including highway access to such parks, and shall coordinate their planning with public agencies having jurisdiction over streets and highways so that conflicts are minimized and the public interest is best served.

The Department of Finance may, within 90 days after the time of such filing, determine and notify the City and County of San Francisco that such capital improvement is not in the statewide in-

Capital improvements for nonmaritime activities may be considered as expenditures for the purpose of determining net revenues if they have the prior authorization of the Department of Finance. The question of what constitutes a maritime activity or a nonmaritime activity, for the purposes of this section, shall be one of the subjects for negotiation between the Director of Finance and the City and County of San Francisco pursuant to Section 2 of this act.

The excess revenue, as determined pursuant to this section, shall be divided as follows: 85 percent to the State General Fund, and 15 percent to the City and County of San Francisco to be deposited in the harbor trust fund and used for any purpose authorized by Sections 3 and 5 of this act.

Upon certification of the vote specified in Section 10, the authority, jurisdiction and control of San Francisco Port Authority over San Francisco Harbor and the facilities thereof shall be deemed transferred to the City and County of San Francisco and the port authority shall cease to function and be dissolved. The City and County of San Francisco shall thereupon assume control and jurisdiction over the San Francisco Harbor and facilities and shall have complete authority to use, operate, maintain, manage, regulate, improve and control the harbor of San Francisco and to do and perform all acts as may be deemed necessary in connection with the use, operation, maintenance, management, regulation, improvement and control of said harbor as may be prescribed.

The commission shall consist of five members, each member serving for a term of four years. Except as hereinafter provided, each of said members shall be appointed by the mayor, said appointment being subject to confirmation by the Board of Supervisors of the City and County of San Francisco. In order that there be no interruption in the orderly operation and management of San Francisco Harbor, the incumbent members of the San Francisco Port Authority shall serve as the initial members of the commission for periods corresponding to the unexpired portions of their respective terms as members of the San Francisco Port Authority. In addition to the appointive members, the Director of Finance and the Secretary for Agriculture and Services, or their designated deputies, shall be ex officio members of the commission.

SEC 13. The Department of Finance, at the request of the City and County of San Francisco, shall grant an extension of time, not to exceed 30 calendar days, for filing any report or statement required by this act which was not filed due to mistake or inadvertence.

or any extension period granted pursuant to this act, or fails or refuses to carry out the terms of the transfer by which the lands were transferred to it pursuant to this act, the Attorney General shall, upon request of the Department of Finance, bring such judicial proceedings for correction and enforcement as are appropriate, and shall act to protect any properties and assets situated on the transferred lands or derived therefrom. The Department of Finance shall notify the Chief Clerk of the Assembly and the Secretary of the Senate within 30 days of the occurrence of such failure or refusal and of actions taken as a result thereof.

SEC. 15. The Department of Finance shall, from time to time, recommend to the Legislature such amendments as it may deem necessary in the terms and conditions of this act.

SEC. 16. The Department of Finance shall, from time to time, institute a formal inquiry to determine that the terms and conditions of this act, and amendments thereto, have been complied with, and that all other applicable provisions of law concerning these specific transferred lands are being complied with in good faith.

SEC. 17. The Department of Finance shall, on or before December 31st of each year, report to the Chief Clerk of the Assembly and to the Secretary of the Senate, the full details of any transaction or condition reported to the department pursuant to this act which it deems in probable conflict with the requirements of this act, or with any other provision of law.

SEC. 18. The Legislature reserves the right to amend, modify, or revoke, in whole or in part, the transfer of lands in trust provided for in this act, provided that the state shall thereupon assume all lawful obligations related to such lands as may revert to the state by such action.

SEC. 19. The Attorney General, at his own instance, or upon formal request of the Department of Finance, or by resolution of either house of the Legislature, shall bring an action in the superior court of the city and county to declare that the transfer under which the city and county holds such transferred lands is revoked for gross and willful violation of the terms of such transfer or the provisions of this act or other legislative enactment, or to compel compliance with the terms and conditions of the transfer and any other provision of law including, but not limited to, this act.

SEC. 20. All persons actually employed in the service of the San Francisco Port Authority at the time this act takes effect and who at said date shall be entitled to the benefits of the civil service provisions of the State of California insofar as the same may be applicable to the employees of the San Francisco Port Authority, shall be continued in their respective positions and shall continue to hold their positions pursuant to the civil service provisions of the Charter of the City and County of San Francisco and they shall be entitled to all of the rights, benefits, and privileges which such persons might have or might have had, had such persons been originally

appointed to their respective positions under certification from the civil service commission of the City and County of San Francisco, and in the matter of seniority in service of such employees entitled to the benefits of said civil service provisions as herein provided, the seniority of each employee shall be reckoned from his first permanent appointment to employment under the State of California, and as to their respective positions such employees shall have preference over all other employees of the City and County of San Francisco. The employment rights of such state employees shall be fully protected at the time of the transfer authorized by this act. Salary, employment conditions, and benefits shall be no less than those received by the employees of the San Francisco Port Authority at the time of transfer. These rights and benefits include, but are not limited to: probationary or permanent civil service status, and any career executive appointments; retention of employees' positions on existing subdivisional and departmental promotional and eligible lists, as long as they are in effect; no less than the same wage and salary range for comparable classes; overtime and shift premium pay whenever and wherever applicable; callback and standby pay whenever and wherever applicable; continued membership in the Public Employees' Retirement System provided by the City and County of San Francisco, or any other retirement program in effect with the San Francisco Port Authority; retention of vacation and sick leave balances which such employees now have when they become employees of the City and County of San Francisco; waiver of residence requirements; and retention of the option to continue any present health insurance and group life coverage. Upon assent to the transfer of lands as authorized by this act by the City and County of San Francisco, any employee desiring to transfer to another state agency or to be placed on a state layoff list may do so within six months of such assent and shall retain all state civil service rights and benefits.

SEC. 21. If negotiations are not concluded by October 21, 1968, unless such time is extended by mutual agreement, or if by December 31, 1970, the transfer authorized by this act has not been negotiated and the voters of the City and County of San Francisco have not assented to the transfer, the provisions of this act shall be of no further force or effect.

SEC. 22. Within 10 years from the effective date of this act, the lands transferred pursuant to this act shall be substantially improved by the city and county without expense to the state, and the city and county shall issue bonds in the amount of at least fifty million dollars ($50,000,000) for harbor purposes. If the Department of Finance determines that the city and county has failed to improve the lands as herein required and issue such bonds as herein required, all right, title, and interest of the city and county in and to all such lands shall cease and the lands shall revert and rest in the state. The city and county shall also issue additional bonds in

the amount of at least fifty million dollars ($50,000,000) for harbor purposes within 25 years from the effective date of this act, and if the Department of Finance determines that the city and county has failed to issue such additional bonds, all right, title, and interest of the city and county in and to all such lands shall cease and the lands shall revert and rest in the state.

SEC. 23. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The earliest and most convenient opportunity for a vote by the people of the City and County of San Francisco on this matter is the forthcoming general election in November of this year. In order that there will be sufficient time available after the effective date of this act to prepare for such a vote on this matter at the forthcoming general election, it is necessary that this act shall go into immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 11655 of the Health and Safety Code is amended to read:

11655. The state division may dispose of narcotics, other than heroin or smoking opium, by gift to the medical superintendent of state prisons or state hospitals, for medical purposes. The head of the approved research project shall personally receipt for such quantities of marijuana (Cannabis sativa) and shall make a record of their disposition. The receipt and record shall be retained by the Chief of the Bureau of Narcotic Enforcement. The head of the approved research project shall also, at intervals and in the manner required by the Research Advisory Panel, report the progress or conclusions of the research project.

SEC. 2. Section 11655.5 is added to the Health and Safety Code, to read:

11655.5. The Legislature finds that there is a need to encourage further research into the nature and effects of marijuana (Cannabis sativa) and to coordinate research efforts on this subject.

There shall be established a Research Advisory Panel, which shall consist of a representative of the State Department of Public Health, a representative of the Department of Mental Hygiene, a representative of the State Board of Pharmacy, a representative of the Attorney General, a representative of the University of California, and a representative of a private university in this state. The Governor shall annually designate the private university represented on the panel. Members of the panel shall be appointed by the heads of the entities to be represented, and they shall serve at the pleasure of the appointing power.

The panel shall report annually to the Legislature and the Governor those research projects approved by the panel, the nature of each research project, and, where available, the conclusions of the research project.

CHAPTER 1335

An act to amend Section 6806 of the Education Code, relating to special education programs, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 6806 of the Education Code is amended to read:

6806. Subject to the provisions of Section 8901 any school district which does not maintain facilities for the education of

physically handicapped minors shall enter into a contract with a school district in the same county, or a county superintendent of schools maintaining such facilities. If there is no district in the same county or county superintendent of schools maintaining such facilities, the governing board of the school district shall enter into a contract with a school district maintaining such facilities in any other county. If the governing board of the district should determine the same to be more economical and practical, it may enter into a contract with a school district situated in another county, in lieu of entering into a contract with the county superintendent of schools or a school district in the county in which such district is situated.

If any question arises concerning the adequacy of the facilities provided for the education of physically handicapped minors by the school district in which the child is actually living, the parent or guardian of such child may appeal to the county superintendent of schools, and if the county superintendent of schools determines that the facilities offered are inadequate, he shall order the school district in which the child is actually living either to provide the facilities or enter into a contract with a school district maintaining adequate facilities.

Such contract shall provide for the payment of the cost of tuition by the district in which the physically handicapped minor actually lives and may provide for payment of the cost of the use of the buildings and equipment. The cost of tuition shall not be greater than the difference between current expenditures per unit of average daily attendance, including transportation, for the education of a pupil in the particular category of physically handicapped minors to which the pupil belongs and the apportionment of state funds for the education of physically handicapped minors in that category.

The amount shall be determined not later than the last Monday in December and the last Monday in May of each year by the county superintendent of schools of the county in which the child attends schools and certified to the superintendent of schools having jurisdiction over the schools of the school district in which the child actually lives. The amount shall be forthwith paid from any funds of the school district available for that purpose.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts may contract for services and programs for physically handicapped minors, during the 1968–69 fiscal year which begins on July 1, 1968, with school districts in other counties where such contract would be more practical or convenient than a like contract with a district in the same county, it is necessary that this act go into immediate effect.

SEC. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. This act shall not become operative, however, until the first day of the calendar quarter following the quarter within which it goes into effect.

CHAPTER 1337

An act to repeal Section 1013.5 of, and to add Sections 1013.5 and 20815 to, the Education Code, relating to school districts.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 1013.5 of the Education Code is repealed.

The increase provided by this section shall not exceed ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of the property in the district, and said increase shall be in addition to any other school district tax authorized by law to be levied.

This section shall have no force or effect after July 1, 1971.

SEC. 3. Section 20815 is added to the Education Code, to read:

20815. The maximum rate of school district tax prescribed by Article 2 (commencing with Section 20751) of this chapter for a high school district is increased for the 1968–1969, 1969–1970, and 1970–1971 fiscal years, for any high school district with an assessed valuation of less than twenty-nine thousand dollars ($29,000) per pupil in average daily attendance in grades 9 to 12, inclusive, during the fiscal year, by an amount sufficient to provide the difference in the supplemental support received by the district during the fiscal year pursuant to Article 7.1 (commencing with Section 17920) of Chapter 3 of Division 14 and the amount of such supplemental support which would have been received by the district during the fiscal year under the provisions of said Article 7.1 as they read on June 30, 1967.

The increase provided by this section shall not exceed ten cents ($0.10) per each one hundred dollars ($100) of the assessed valuation of the property in the district, and said increase shall be in addition to any other school district tax authorized by law to be levied.

SEC. 2. Section 12532.5 is added to the Government Code, to read:

12532 5. A health care service plan contract may not provide an exception for other coverage where such other coverage is entitlement to Medi-Cal benefits under Chapter 7 (commencing with Section 14000) or Chapter 8 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code.

Each health care service plan contract shall be interpreted not to provide an exception for such Medi-Cal benefits

A health care service plan contract may not provide that the benefits payable thereunder are subject to reduction if the individual insured has entitlement to such Medi-Cal benefits.

SEC. 3. This act shall be applicable to policies and contracts in existence on the effective date with respect to premiums, dues, or other consideration paid pursuant to such policies and contracts on or after the effective date and with respect to services provided on or after the effective date or indemnities for services provided on or after the effective date pursuant to such policies and contracts.

SEC 4. This is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some insurers and other organizations offering disability insurance and health care service plans have been interpreting policies and contracts as not being payable when there is also

Medi-Cal coverage whereas the Medi-Cal benefits have been interpreted as not being payable when the recipient has other resources from which to obtain medical care. The resulting confusion has left some providers of service unpaid, has increased administrative costs and has reduced the amount available to provide needed medical assistance to indigent persons.

CHAPTER 1350

An act to add Article 1.4 (commencing with Section 13186.5) to Chapter 2 of Division 10 of the Education Code, relating to an interstate agreement on qualification of educational personnel.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968]

The people of the State of California do enact as follows:

SECTION 1. Article 1.4 (commencing with Section 13186.5) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 1.4. Interstate Agreement on Qualification of Educational Personnel

13186.5. The Interstate Agreement on Qualification of Educational Personnel is hereby entered into with all jurisdictions joining therein, in the form as follows:

Article I

Purpose, Findings, and Policy

1. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interests of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

2. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations

from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this compact can increase the availability of educational manpower.

Article II

Definitions

As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

1. "Educational personnel" means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

2. "Designated state official" means the education official of a state selected by that state to negotiate and enter into, on behalf of his state, contracts pursuant to this agreement.

3. "Accept," or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

4. "State" means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

5. "Originating state" means a state (and the subdivision thereof, if any) whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to Article III.

6. "Receiving state" means a state (and the subdivisions thereof) which accept educational personnel in accordance with the terms of a contract made pursuant to Article III.

Article III

Interstate Educational Personnel Contracts

1. The designated state official of a party state may make one or more contracts on behalf of his state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which

he finds that there are programs of education, certification standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in his own state.

2. Any such contract shall provide for:

(a) Its duration.

(b) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(c) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(d) Any other necessary matters.

3. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

4. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

5. The certification or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any certificate or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a certificate or other qualifying document initially granted or approved in the receiving state.

6. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

Article IV

Approved and Accepted Programs

1. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

2. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such

procedures and requirements as may be provided in the applicable contract.

Article V

Interstate Cooperation

The party states agree that:

1. They will, so far as practicable, prefer the making of multilateral contracts pursuant to Article III of this agreement.

2. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

Article VI

Agreement Evaluation

The designated state officials of any party state may meet from time to time as a group to evaluate progress under the agreement, and to formulate recommendations for changes.

Article VII

Other Arrangements

Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

Article VIII

Effect and Withdrawal

1. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

2. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

3. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

Article IX

Construction and Severability

This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or pro-

vision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

13186.6. The "designated state official" for this state shall be the Superintendent of Public Instruction. He shall enter into contracts pursuant to Article III of the agreement only with the approval of the specific text thereof by the State Board of Education.

CHAPTER 1351

An act to amend Section 255 of, to add Section 277 to, and to repeal Sections 262, 263, 264, 274 and 275 of, the Revenue and Taxation Code, relating to property tax exemptions.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 255 of the Revenue and Taxation Code is amended to read:

255. Affidavits required for exemptions named in this article, except the veterans' exemption, shall be filed with the assessor between the lien date and 5 o'clock p.m. on March 15. Veterans' exemptions shall be filed with the assessor between the lien date and 5 o'clock p.m. on April 15.

SEC. 1.5. Section 262 of the Revenue and Taxation Code is repealed.

SEC. 2. Section 263 of the Revenue and Taxation Code is repealed.

SEC. 3. Section 264 of the Revenue and Taxation Code is repealed.

SEC. 4. Section 274 of the Revenue and Taxation Code is repealed.

SEC. 5. Section 275 of the Revenue and Taxation Code is repealed.

SEC. 6. Section 277 is added to the Revenue and Taxation Code, to read:

277. Ninety percent of any tax or penalty or interest thereon, imposed on property as to which the cemetery, college, exhibition, church, orphanage or welfare exemption was available, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division as if it had been levied or charged erroneously,

and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division as if it had been erroneously collected, provided that application for such cancellation or refund is made on or before the 15th day of January of the calendar year next succeeding the calendar year in which the exemption was not claimed by a timely application therefor. With respect to property as to which the welfare exemption was available, all provisions of Section 254.5, other than the specified dates for the filing of affidavits and other acts, are applicable to this section.

SEC. 6.3. Any tax or penalty, or interest thereon for any fiscal year commencing during the calendar year 1967 on property owned by any organization qualified for the church exemption pursuant to Sections 206 and 206.1 which was acquired by it during that calendar year after the lien date in that year but prior to the commencement of such fiscal year, and of a kind that presently qualifies for the church exemption and that would have so qualified for such fiscal year had it been owned by such organization on such lien date, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been levied or charged erroneously and, if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been erroneously collected. Any cancellation or refund made pursuant to this section shall be made notwithstanding any limitation upon the time within which such cancellation or refund could otherwise be made.

SEC 6.5. (a) Notwithstanding any other provision of law which may be construed to the contrary, the failure to make a timely application for the free museum exemption for the 1968–69 fiscal year shall not be a basis for denial of such exemption and any tax, penalty or interest imposed on this basis on property as to which the free museum exemption was otherwise available shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been levied or charged erroneously, and. if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been erroneously collected, provided that application for such cancellation or refund is made on or before the 15th day of January, 1969.

SEC. 7. The Legislature finds and declares that certain persons and organizations inadvertently fail to file affidavits required for the cemetery, college, exhibition, church, orphanage or welfare exemptions, and some organizations entitled to the church exemption acquired church property after the lien date in 1967 but prior to the commencement of the 1967–68 fiscal year. If forced to pay the full tax on such property, the

ability of these persons and organizations to function effectively will be substantially impaired. This act will remedy the situation by removing, in part, the procedural bar to the application for the exemption to such property. In doing so, the public policy of the state as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit.

SEC. 7.5. The Legislature further finds and declares that with respect to the free museum exemption certain organizations which have qualified therefor in previous years have been, with respect to the 1968–69 fiscal year, required for the first time to file claims therefor by a time certain. Since some such organizations were not apprised of this new duty until after the administratively set date for filing, they may be subject to litigation and expense over their property tax liability for the 1968–69 fiscal year. In order to prevent such an unfair situation, Section 6.5 of this act removes the possible procedural bar to the free museum exemption and in so doing, the public policy of the state as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit.

SEC. 8. Except as otherwise herein provided, this act shall become operative for exemptions claimed for fiscal years commencing during calendar year 1969. However, the repeal of Sections 262, 263, 264, 274 and 275 of the Revenue and Taxation Code shall not affect the rights of any party who has claimed a cancellation or refund pursuant to any of such sections prior to the operative date of this act and he may pursue any remedy available to him as though such section had not been repealed.

SEC. 9. Section 1 of the act shall become operative January 1, 1970.

SEC. 10. Section 6 of the act shall become operative on January 15, 1969.

SEC. 11. Sections 6.3 and 6.5 of this act shall become operative on the 61st day following final adjournment of the 1968 Regular Session of the Legislature.

CHAPTER 1352

SECTION 1. Section 6307 of the Public Resources Code is amended to read:

6307. Whenever it appears to the commission to be in the best interests of the state, for the improvement of navigation, aid in reclamation, or for flood control protection, or to enhance the configuration of the shoreline for the improvement of the water and upland, on navigable rivers, sloughs, streams, lakes, bays, estuaries, inlets, or straits, and that it will not substantially interfere with the right of navigation and fishing in the waters involved, the commission may exchange lands of equal value, whether filled or unfilled with any state agency, political subdivision, person, or the United States or any agency thereof. Any land so acquired shall have the same status as to administration, control and disposition as the lands for which it was exchanged. The state may release the mineral rights in the land conveyed, as provided in Section 6401, if it receives the mineral rights in the land conveyed to it. The lands exchanged may be improved, filled, and reclaimed by the grantee, and upon the adoption of a resolution by the State Lands Commission finding and declaring that such lands have been improved, filled, and reclaimed, and have thereby been excluded from the public channels and are no longer available or useful or susceptible of being used for navigation and fishing, and are no longer in fact tidelands or submerged lands, such lands shall thereupon be free from the public trust for navigation and fishing. The grantee of any such lands conveyed

by the state may bring a quiet title action under the provisions of Chapter 7 (commencing with Section 6461) of this part.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1357

An act to add Sections 12803.2, 12803.3 and 12803.4 to the Government Code, and to add Sections 17202.2, 17202.3, 24343.5, and 24343.6 to the Revenue and Taxation Code, relating to the relief of unemployment and small business employers, and making an appropriation therefor, to take effect immediately, tax levy.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 12803.2 is added to the Government Code, to read:

12803.2. The Administrator of the Health and Welfare Agency or his designee may certify persons as certified trainees to qualifying employers under Section 24343.6 of the Revenue and Taxation Code. In so certifying, the administrator or his designee shall limit the total number of trainees to be certified to not more than 2,500 trainees in any fiscal year or such lesser number as the Department of Finance may establish after determination that the loss of revenue in any fiscal year as a result of the deductions allowed by Sections 17202.3 and 24343.6 of the Revenue and Taxation Code would exceed the total amount of three hundred thousand dollars ($300,000) and that it would be in the best interest of the state to limit the amount of the revenue loss. The administrator or his designee shall give preference to the following groups in order:

First Priority: Unemployed recipients of public assistance under Division 9 (commencing with Section 10000) of the Welfare and Institutions Code.

Second Priority: Unemployed persons receiving neither such assistance nor unemployment insurance.

Third Priority: Employed recipients of public assistance under Division 9 (commencing with Section 10000) of the Welfare and Institutions Code.

When certifying trainees to employers qualifying under Section 24343.6 of the Revenue and Taxation Code, the administrator or his designee shall make every effort to insure that at least 50 percent of the certified trainees reside in economically disadvantaged areas as defined in Section 9111 of the Unemployment Insurance Code.

SEC. 2. Section 12803.3 is added to the Government Code, to read:

12803 3. No person shall be certified under Section 12803.2 if:

(a) The administrator or his designee finds that the qualifying employer does not have a reasonable expectation of at least six months continuous full-time employment for each certified trainee certified to him; or

(b) The administrator or his designee finds that there is reasonable cause to believe that the qualifying employer will demote, discharge or lay off persons now employed by him and replace such persons with certified trainees; or

(c) The qualifying employer is engaged in a labor dispute; or

(d) The employment of certified trainees by the qualifying employer would constitute a breach of a collective bargaining agreement entered into by the qualifying employer; or

(e) The administrator or his designee finds that there is no substantial likelihood that the employment offered by the qualifying employer to the certified trainee will result in either substantially permanent full-time employment or an upgrading of the certified trainee's job skills to a level at which reasonably permanent full-time employment may be expected to be available to him in the community; or

CHAPTER 1358

An act making an appropriation for a loan to the City of Madera for planning and development of sewage treatment facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 14, 1968. Filed with Secretary of State August 14, 1968]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the State Water Quality Control Fund the sum of one hundred forty

thousand dollars ($140,000) to the State Water Resources Control Board for a loan by the board to the City of Madera of so much of such amount as the board determines is necessary to permit necessary planning and development of adequate sewage treatment facilities. Such loan shall be made by the board to the City of Madera subject to such conditions as the board determines are usual and necessary to insure proper and efficient use of such funds. The amount of the loan, with interest, shall be repaid by the City of Madera at such time as the actual construction of sewage treatment facilities is commenced, but in no event later than five years from the effective date of this act. Interest on such loan shall be payable at an annual rate equal to the average, as determined by the board, of the net-interest costs to the state on the sales of general obligation bonds of the state that occurred during the calendar year immediately preceding the calendar year in which the interest falls due, during each calendar year in which the loan remains outstanding; provided, that when the applicable average of the net-interest costs to the state is not a multiple of one-tenth of 1 percent, the interest rate shall be at the multiple of one-tenth of 1 percent next above the applicable average of the net-interest costs.

SEC. 2. This special act is declared to be necessary because of the serious health problem existing within the City of Madera. The City of Madera has been the only city in California since the early 1930's to suffer a waterborne epidemic resulting from a sewage treatment plant which was incapable of effectively treating waste effluent because of its age and lack of capacity, and which thereby permitted waste effluent to penetrate the city's water supply. It is hereby declared to be essential to the public health and welfare that an adequate sewage treatment facility be constructed in the City of Madera at the earliest possible time, and that in order to accomplish this it is necessary that the loan authorized pursuant to this act be made available to the City of Madera.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The City of Madera is vitally in need of modern sewage treatment facilities in order to correct grave problems of water quality control and public health. In order that such sewage treatment facilities are made available at the earliest possible time it is essential that this act shall go into immediate effect.

SEC. 5. This act shall become operative on July 1, 1968.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety

within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Golden Gate Bridge and Highway District, the only district formed pursuant to the Bridge and Highway District Act, now has on hand sufficient money to pay the principal and interest on all outstanding bonds and to make the repayment to the state required by Chapter 1505, Statutes of 1945, and to counties as required by Chapter 1946, Statutes of 1963, and inasmuch as the state and each of said counties urgently need all available revenue to assist in financing the operation of the state government and each of said county governments for the 1968–69 fiscal year, it is essential that this act go into immediate effect so that the money repaid may be available at the commencement of the 1968–1969 fiscal year.

CHAPTER 1367

An act to amend Section 5605 of the Education Code, relating to seventh and eighth grade tuition payments, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 15, 1968 Filed with Secretary of State August 15, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 5605 of the Education Code is amended to read:

5605. The governing board of any elementary school district situated within a high school district maintaining a junior high school shall permit pupils who have completed the sixth year of the elementary school to attend the junior high school and shall pay to the high school district for the education of the pupils a tuition charge determined pursuant to this section. The amount of the tuition charge shall be computed as follows:

(a) By multiplying each one hundred dollars ($100) of the assessed valuation of the elementary school district for the current fiscal year, by a computational tax rate. The computational tax rate shall be one dollar and fifty cents ($1.50), increased, where necessary, by a rate which will raise an amount equal to the percentage of miscellaneous funds (as defined by Section 17606), and the percentage of federal funds (as defined by Section 17605) utilized for the fiscal year for purposes of Section 17603.5. For purposes of such computations, the assessed valuation of the district shall be modified as required by Section 17262.

(b) By multiplying the product derived under subdivision (a) by the ratio which the average daily attendance of pupils of the elementary school district attending grades 7 and 8 of

the junior high school during the current fiscal year, bears to the total average daily attendance of the elementary school district, including such pupils in grades 7 and 8, during the current fiscal year. For the purposes of this section, average daily attendance of kindergarten pupils shall not be adjusted by a factor of 1.5, as provided in Section 11301.

On or before January 1st of each fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of fifty percent (50%) of the estimated tuition charge due to the high school district for the attendance of pupils at the junior high school during the current fiscal year. The amount of the warrant shall be credited to the general fund of the high school district.

On or before July 15th following the close of the fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of the difference between the final tuition as computed by this section and the first installment paid to the high school district. The amount of the warrant shall be credited to the general fund of the high school district The revenues, although received after the close of the fiscal year shall be considered revenues of the preceding fiscal year

SEC. 1.5. Section 5605 of the Education Code, as amended by Section 1 of this act, shall, at the election of the governing board of any affected high school district, govern the determination of tuition charges for the 1967–1968 school year as though the section, as so amended, had been in effect and operative on July 1, 1967. For such purposes, notwithstanding the provisions of Section 5605 fixing the 15th day of July as the final date for drawing of the warrant for the final tuition payment, the date for making such final tuition payment shall be extended to September 15, 1968. Final tuition payments made for the 1967–1968 school year on or before July 15, 1968, shall be corrected pursuant to this act on or before September 15, 1968, when the governing board of an affected high school district has exercised the election provided for in this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to the passage of three measures concerning Section 11301 of the Education Code, unforeseen effects have resulted regarding seventh and eighth grade tuition computations that were not intended. Immediate clarification of this condition is necessary to ensure the continued efficient and effective operation of the public schools of the state. Therefore, it is necessary that this act take immediate effect.

mother and her family, and that adequate child care will be provided in her absence.

11308. Payments or advances of funds to counties or the Department of Employment, which are properly chargeable to appropriations made from other funds in the State Treasury, may be made by Controller's warrant drawn against the Welfare Advance Fund. For every warrant so issued, the several purposes and amounts for which it was drawn shall be identified for the payee.

The amounts to be transferred to the Welfare Advance Fund at any time shall be determined by the department, and, upon order of the Controller, shall be transferred from the funds and appropriations otherwise properly chargeable therewith to the Welfare Advance Fund.

Refunds of amounts disbursed from the Welfare Advance Fund shall, on order of the Controller, be deposited in the Welfare Advance Fund, and, on order of the Controller, shall be transferred therefrom to the funds and appropriations from which such amounts were originally derived. SEC. 4.1. Section 11006.5 is added to the Unemployment Insurance Code, to read:

11006.5. Notwithstanding the provisions of Section 11006, funds shall be deposited by the Director of Finance in the Manpower Development Fund under the provisions of Section 11006, only upon recommendation of, and in the amount determined by, the Secretary of the Human Relations Agency upon a finding that such amount is reasonably necessary to provide services for eligible persons under this part. DIVISION 2. WORK INCENTIVE PROGRAMS

CHAPTER 1. GENERAL PROVISIONS

5000. The purpose of this division is to establish a program utilizing all available manpower services, including those authorized under other provisions of law, under which individuals receiving aid to families with dependent children will be furnished incentives, opportunities, and necessary services towards the employment of such individuals in the regular economy, the training of such individuals for work in the regular economy, and the participation of such individuals in special work projects, thus restoring the families of such individuals to independence and useful roles in their communities. It is expected that the individuals participating in the program established under this division will acquire a sense of dignity, self-worth, and confidence which will flow from being recognized as a wage-earning member of society and that the example of a working adult in these families will have beneficial effects on the children in such families.

5001. It is the intent of the Legislature to concentrate maximum state efforts on providing increased employment opportunities and upgrading of employment skills in order to open the way to permanent self-support for persons who have been or otherwise might become dependent on public aid. To this end the Legislature intends that persons affected by this chapter shall be assigned to the primary jurisdiction of the Department of Employment, which shall be responsible for implementing and executing the provisions of this chapter.

Consistent with the intent of the Legislature to promote and achieve permanent employment of persons qualifying for work incentive programs under this division, it shall be the responsibility of each state agency and the political subdivisions of this state to cooperate by providing as many opportunities as possible for the permanent employment of such persons.

5002. The provisions of this division shall be administered by the Department of Employment.

5003. As used in this division, "department" shall mean the Department of Employment.

5004. As used in this division, an "employment and training program" means a work incentive program as described in subdivision (1) of Section 432(b) of the Social Security Act as amended by Public Law 90-248 for persons under this division, an "institutional and work experience training program" means a work incentive program as described in subdivision (2) of Section 432(b) of the Social Security Act as amended by Public Law 90-248 for persons under this division, and a "special work projects program" means a work incentive program as described in subdivision (3) of Section 432(b) of the Social Security Act as amended by Public Law 90-248 for persons under this division.

5005. As used in this division, the term "work incentive programs" means those programs established by the department pursuant to Section 5200.

5006. Nothing in this division or Article 3 (commencing with Section 11300) of Chapter 2 of Part 3 of Division 9 of the Welfare and Institutions Code shall be construed to remove persons under this division from the operation of subdivision (a) of Section 14005 of the Welfare and Institutions Code to the extent permitted by federal law.

5007. (a) Good cause for refusal to participate in a work incentive program shall be deemed to exist, when:

(1) Participation would be unreasonable because it would interrupt a program in process for permanent rehabilitation or self-support or conflict with an imminent likelihood of reemployment at the person's regular work, or

(2) Participation would be unreasonable because the assignment is not suited to the person's abilities or potential, or will not lead to realistic employment opportunities suited to the person's abilities or potential.

(b) Good cause for refusal of employment shall be deemed to exist when:

(1) The offer of employment is not for a specific job at a stated wage which meets the wage rate requirements set by the department, or

(2) The job is available because of a bona fide labor dispute, or

(3) The job is not within the physical or mental capacity of the person, as established, when necessary, by competent professional authority, or

(4) Acceptance would be unreasonable because it would interrupt a program in process for permanent rehabilitation or self-support or conflict with an imminent likelihood of reemployment at the person's regular work.

5008. The department shall make every effort to meet the following priorities in wage rates for persons under this division, and may require in its regulations that such rates be paid, whenever reasonable:

(1) The prevailing wage for such work in the community.

(2) A wage at least comparable to the lowest wage for such work in the community.

5009. To the extent permitted by federal law, state and federal income taxes, employee's contributions for unemployment compensation disability benefits and old age survivors and disability insurance, and any work-related expenses deductible for the purposes of state or federal income taxes, shall not be considered in computing the amount of payments under Section 5402.

5010. If the Secretary of Labor or the Secretary of Health, Education, and Welfare issues a formal ruling that any provision of this division or of the Welfare and Institutions Code pertaining to programs established under this division cannot be given effect without causing the state's plan to be out of conformity with federal requirements, that provision shall become inoperative to the extent it is out of conformity with federal requirements.

In the event that such a ruling is issued, the department shall immediately inform the appropriate policy committees of the Legislature in writing.

5011. As used in this division, the term "training stipend" shall mean the total monthly payment to persons in work incentive programs as designated in subdivision (2) of Section 432(b) of the Social Security Act as amended by Public Law 90-248.

5012. Notwithstanding any other provision of state law, the Department of Employment in cooperation with the Department of Social Welfare shall, to the extent practicable and permitted by federal law, develop methods and procedures which shall provide for payment of all moneys due a participant in the form of a single payment by the Department of Employment for each pay period.

5013. To the maximum extent possible, the department shall conform to the following priorities in assigning persons to work incentive programs:

(1) Persons who were in training or employment under a community work and training program immediately preceding the effective date of this division.

(2) Unemployed fathers.

(3) Unemployed mothers whose children are school age or older.

(4) Unemployed mothers with preschool age children.

5014. It is the intent of the Legislature that the department shall make maximum use of the accumulated experience of personnel who were employed by county welfare departments in job training and placement programs immediately preceding the effective date of this division.

5015. Institutional and work experience training programs and special work projects developed under this division shall be confined to programs which serve a useful public purpose and do not result in the displacement of employed workers.

CHAPTER 3. WORK INCENTIVE PROGRAMS

5200. The Department of Employment, in cooperation with the Secretary of Labor, shall establish work incentive programs as designated in Part C (commencing with Section 430) of Title 4 of the Social Security Act, as amended by Public Law 90-248, for persons as described in Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code and such other persons as may be permitted under subdivision (19) of Section 402(a) of the Social Security Act as amended by Public Law 90-248.

5201. The department shall contract with state departments or public or private agencies or organizations for the provision of work incentive programs to all persons under this division who need or would benefit from such services as may be permitted under federal law.

In selecting facilities for institutional and work experience programs under this division, the department shall consider whether existing private and community facilities in the area are being utilized to the fullest extent before establishing any new facilities at public expense. In order to assure that increased utilization of such existing facilities is accomplished where appropriate, the department shall survey the area to be served and shall notify all such facilities in the area prior to establishing institutional and work experience programs.

5202. The department, in cooperation with the Department of Social Welfare, shall report to each regular session of the Legislature, not later than the fifth legislative day, on the effectiveness of the program established under this division. The department's reports shall detail any economic and other advantages to the people of California which have resulted from the program, including the effect upon state costs, increased productivity and improved social performance by persons under the program, taxes paid by such persons, and the payment of wages as opposed to cash grants.

CHAPTER 4. DETERMINATIONS, HEARING, AND APPEALS PROCEDURE

5300. To the extent permitted by federal law, the manner and conduct of hearings and appeals concerning determinations under this chapter shall be in accordance with this chapter and with rules prescribed by the California Unemployment Insurance Appeals Board as provided by Section 411. As used in this chapter, "Appeals Board" means the California Unemployment Insurance Appeals Board.

5301. Whenever an individual referred to the department pursuant to Section 11300 of the Welfare and Institutions Code refuses to accept employment or refuses to participate in, or withdraws from, a work incentive program established pursuant to Section 5200, the department shall determine within three days thereof whether the individual had good cause for refusal or withdrawal.

5302. If the department determines under Section 5301 that an individual had good cause for refusal or withdrawal, the department shall notify the individual, the county welfare department, and the Department of Social Welfare. If the department determines under Section 5301 that an individual did not have good cause for refusal or withdrawal, the department shall so notify him by mail or personal service within three days of the determination, stating the reasons for the determination, and shall notify the county welfare department and the Department of Social Welfare. The notice to the individual shall set forth the possible effect of the determination on the individual's payments under this division and Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of the Welfare and Institutions Code, and shall inform him of his right to an appeal and to a fair hearing. He may, within 10 days after the mailing or personal service of the determination, file an appeal to a referee of the appeals board. The 10-day period may be extended for good cause. An appeal need not be formal, but it shall be in writing.

5303. The referee shall hold a fair hearing promptly after the filing of an appeal from a determination under this chapter. The referee shall give the individual and the department at least seven days' notice of the time and place of the hearing. The time of notice may be shortened with the consent of the parties.

5304. The hearing shall be conducted in such manner as to ascertain the substantial rights of the parties and the referee shall not be bound by common law or statutory rules of evidence or by technical or formal rules of procedure. Sections 1953, 1954, 1955, and 1956 shall apply to hearings held under this chapter.

5305. Promptly after the hearing, the referee shall mail or personally serve on the appellant, the department, the county welfare department, and the Department of Social Welfare a written copy of his decision whether the appellant had good cause for the refusal or withdrawal.

5306. The individual and the department may, within 10 days after the mailing or personal service of the referee's decision under Section 5305, file an appeal to the appeals board. The 10-day period may be extended for good cause. An appeal need not be formal, but it shall be in writing.

5307. Sections 407, 408, 409, 1953, 1954, 1955, 1956, and 1959 shall apply to an appeal to the appeals board under this chapter. The appeals board shall promptly render its decision upon the appeal. A copy of the decision shall be mailed to or personally served on the individual, the county welfare department, the Department of Social Welfare, and the department.

5308. A decision of the appeals board under this chapter shall be final except that the individual shall be entitled to any right of further appeal guaranteed him by federal law.

CHAPTER 5. FISCAL PROVISIONS

All moneys received by the department from the federal government available for work incentive programs, and any other moneys received by the department for such purposes, shall be deposited in the Manpower Development Fund.

The following sums are hereby appropriated to the State Department of Employment for the purposes of this division:

(3) No moneys appropriated under this subdivision shall be available until they are allocated by the Director of Finance.

5401. Pursuant to Section 5012, the department shall pay a training stipend from the Manpower Development Fund to each participant in an institutional and work experience training program each month equal to the sum of an amount not less than the grant for which he would otherwise qualify under the aid to families with dependent children program, plus an incentive payment of not more than thirty dollars ($30) per month, payable in such amounts and at such times as permitted by federal law. To the extent permitted by federal law, incentive payments shall be less than thirty dollars ($30) only in cases of pro rata reduction for absence from a program.

5402. Pursuant to Section 5012, the department shall pay as compensation from the Manpower Development Fund to each participant in a special work projects program each month an amount which, when added to his wages paid by his employer, is not less than the amount of the grant he would otherwise qualify for under the aid to families with dependent children program plus 20 percent of his wages.

5403. The department shall estimate costs of the work incentive programs and submit to the Department of Finance for inclusion in the Governor's Budget a complete and detailed budget at such time and in such form as may be prescribed by the Department of Finance. The Department of Social Welfare and all other state and county departments and agencies shall cooperate in all matters relating to the preparation of such budget.

SEC. 5.5. The appropriation made by this act is intended to relieve local government from the necessity of making expenditures from revenues derived from property taxation and the amount appropriated by this act shall be deemed to be for property tax relief within the meaning of Section 64 of Chapter 1209 of the Statutes of the 1967 Regular Session of the Legislature, as amended by Section 4 of Chapter 408 of the Statutes of the 1968 Regular Session of the Legislature.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Governor has named the concentration on, and expansion of, opportunities for welfare recipients to reenter the productive labor market as a leading priority in welfare. He has also encouraged measures to relieve some of the burdens placed by welfare programs on the local property tax.

Public Law 90-248, as enacted by Congress, amends provisions of the Social Security Act as it relates to aid to families with dependent children, provides for termination of the community work and training programs and establishes a Work Incentive Program to be administered by the Department of Labor.

To assure that the state can derive maximum benefits from the institution of this program in accordance with the provisions contained in Section 6 of this act, it is essential that this act go into effect immediately.

CHAPTER 1370

An act to add Chapter 3.5 (commencing with Section 23480) to Division 17 of the Education Code, relating to graduate community teaching fellowships, and making an appropriation therefor.

[Approved by Governor August 15, 1968. Filed with Secretary of State August 15, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.5 (commencing with Section 23480) is added to Division 17 of the Education Code, to read:

CHAPTER 3.5. GRADUATE COMMUNITY TEACHING FELLOWSHIPS

23480. It is the intent of the Legislature in providing funds for graduate community teaching fellowships:

(a) To encourage school districts with large numbers of educationally disadvantaged children to enter into cooperative arrangements with branches of the University of California for the provision of specialized teaching for disadvantaged children at the elementary level; and

(b) To provide graduate students in mathematics who wish to engage in such services a source of financial support comparable to that provided by the teaching assistant program.

23481. All moneys appropriated to the University of California, for the purposes of this chapter, shall be distributed on the same basis as funds for teaching assistantships, subject to the following criteria:

(1) The administration of the University of California shall have final authority with regard to release of such funds.

(2) In order to participate in this program as a paid employee of the university assigned to a particular school district, (1) a student must be enrolled at any one of the participating branches of the university for a graduate degree in one of the mathematical sciences; (2) the student's program adviser and the chairman of the department in which the graduate student is undertaking a majority of his academic work must approve and certify that the student's program will not be jeopardized; and (3) a contract entered into between a branch of the university and a school district shall be contingent upon a joint recommendation by the student's program adviser and department chairman.

23482. Although employed in a school district and conducting himself according to stipulations set forth by the school district in the agreement, the graduate student shall be deemed the employee of the University of California for all purposes.

23483. In order to receive a salary comparable to that provided a teaching assistant or research assistant, the community teaching fellow shall teach the equivalent of one full class period per day for five days per week for the school year.

23484. If for any reason other than reasons applicable to the teaching assistant program, the graduate teaching fellow does not teach for as many hours per week or per semester as called for in the agreement, his stipend shall be reduced on a pro rata basis.

23485. Provisions of this chapter shall apply only to the University of California, and graduate community teaching fellowships are to be limited to students enrolled for a graduate degree in one of the mathematical sciences.

23486. Although all school districts are encouraged to undertake cooperative arrangements with the University of California for the purposes of this chapter, only school districts with elementary schools serving areas which meet the criteria

set forth in Section 6482 may utilize a graduate community teaching fellow whose salary is provided under preceding sections of this chapter.

23487. Results of the graduate community teaching fellowship program are to be evaluated by the school district separately in the same manner as current programs of compensatory education at the end of each school year. Provisions for such evaluation shall be included in the terms and conditions of the contract between the school district and the university.

SEC. 2. There is hereby appropriated from the General Fund to the University of California the sum of fifteen thousand dollars ($15,000), to be available upon the effective date of this act, for purposes of developing procedures to administer the program provided for in Chapter 3.5 (commencing with Section 23480) of Division 17 of the Education Code; provided, that funds unexpended from this appropriation shall revert to the General Fund.

SEC. 3. The graduate community teaching fellowship program established pursuant to Chapter 3.5 (commencing with Section 23480) of Division 17 of the Education Code shall become operative on July 1, 1969.

SEC. 4. The University of California shall report to the Legislature by the fifth legislative day of the 1971 Regular Session on (1) the extent to which the program has been utilized; (2) the effect of the program on the overall achievement of pupils who have participated in the program; (3) the effect participation in the program is deemed to have had on graduate community teaching fellows.

CHAPTER 1371

An act to add Article 4.5 (commencing with Section 8375) to Chapter 4 of Division 7 of the Education Code, relating to work experience education in high schools.

[Approved by Governor August 15, 1968. Filed with Secretary of State August 15, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 4.5 (commencing with Section 8375) is added to Chapter 4 of Division 7 of the Education Code, to read:

Article 4.5. High School Work Experience Education

8375. In order to encourage high schools to make available programs of work experience education as provided in Article 4 of this chapter, there is hereby appropriated the sum of fifty thousand dollars ($50,000) for the 1968–69 fiscal year

and three hundred thousand dollars ($300.000) for each of the fiscal years, 1969–70 and 1970–71 from the General Fund to the Department of Education. These funds are to be used for providing new or expanded work experience education programs in high schools serving areas with high concentrations of urban poverty as defined in Section 6482, and in other high schools of the state.

8376. It is the intent of the Legislature in enacting this article to increase the ability of the school districts of the state to provide useful occupational training and marketable skills for all students who desire such experience, by providing school districts easier access to federal matching funds available under the Vocational Education Act of 1963.

The Legislature intends that the total state appropriation each fiscal year for the purposes of this article, when added to the required effort of participating school districts shall be used as matching funds for federal funds available under the Vocational Education Act of 1963.

8377. School districts desiring to participate under the provisions of this article shall submit applications demonstrating their plan for the establishment or improvement of such programs.

8378. Funds appropriated under this article shall be used, to the greatest extent possible, for the employment of work experience education coordinators and for the expenses necessary for the support of their function.

8379. In order that equal numbers of coordinators may be employed in high schools serving areas with high concentrations of urban poverty as well as in other high schools of the state, funds not utilized in one area as defined in Education Code Section 6482 may be used in other such defined areas, or in other high schools of the state.

8380. In school districts with high schools in areas having high concentrations of urban poverty as defined in Education Code Section 6482, the state's contribution from funds available under Section 8375 for the employment of work experience education coordinators and necessary ancillary services shall be equalized on the basis of 50 percent of the local districts' expenditures, exclusive of federal funds for the purpose of this article, in districts with an average assessed valuation per unit of average daily attendance.

For such programs in other high schools of the state, the state's contribution shall be equalized on the basis of 25 percent of the local districts' expenditures, exclusive of federal funds for the purpose of this article, in districts with an average assessed valuation per unit of average daily attendance.

8381. Subject to the provisions of Section 8379, 75 percent of the amounts appropriated pursuant to Section 8375 shall be allocated to districts in areas having high concentration of urban poverty as defined by Section 6482, and 25 percent shall be allocated to other districts.

8381.1. The Superintendent of Public Instruction shall allow to each district with high schools in areas having high concentration of urban poverty as defined in Section 6482 for which an application under this article has been approved, an amount equal to the total funds, exclusive of federal funds, to be expended for the purposes of this article, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance in grades 9 through 12 during the preceding fiscal year in the district bears to the assessed valuation per unit of such average daily attendance in the state and one-half of the total funds, exclusive of federal funds to be expended for the purpose of this article.

8381.2. The Superintendent of Public Instruction shall allow to each district, other than those for which an allowance was made under Section 8381.1, for which an application has been approved under this article, an amount equal to the total funds, exclusive of federal funds, to be expended for the purposes of this article, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance in grades 9 through 12 during the preceding fiscal year in the district bears to the assessed valuation of such average daily attendance in the state and three-fourths of the total funds, exclusive of federal funds to be expended for the purpose of this article.

8382. The Superintendent of Public Instruction shall report to the Legislature no later than the fifth legislative day of the 1971 Regular Session on the extent to which school districts in the state have utilized the funds herein provided.

Such report shall also indicate the number of students served as a direct result of this support and their total earnings, and shall provide followup data to indicate as nearly as possible the post-high school employment success of each participating student.

8383. The State Board of Education shall adopt rules and regulations necessary to the effective administration of this article.

CHAPTER 1372

An act to add Division 12 (commencing with Section 28000) to the Financial Code, relating to small business assistance, and making an appropriation therefor.

[Approved by Governor August 15, 1968. Filed with Secretary of State August 15, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Division 12 (commencing with Section 28000) is added to the Financial Code, to read:

DIVISION 12. SMALL BUSINESS ASSISTANCE PROGRAM

CHAPTER 1. GENERAL PROVISIONS

28000. This division shall be known as the Small Business Assistance Program Law.

28001. The Legislature hereby finds and declares that:

(a) There exist serious problems of unemployment in various low income areas in the state.

(b) Certain noneconomic risks exist within such low income areas in the state which make it difficult for financial institutions to grant small business opportunity loans to persons for small businesses in such areas in order to provide employment opportunities for the unemployed.

(c) It is in the best interests of the state to eliminate unemployment in these areas by the promotion of small business enterprises within such areas, as well as to develop the entrepreneurial talent of persons in such areas.

28002. It is the intention of the Legislature in enacting this division, on a pilot program basis, to promote small business enterprises within various low income areas, as well as to develop the entrepreneurial talent of residents therein, to eliminate unemployment in such areas. It is also the intention of the Legislature that banks and other financial institutions cooperate with any public or private organization which is attempting to assist the economic development of such areas, and work in conjunction with federal loan-guaranteeing agencies such as the Small Business Administration in making loans to persons eligible for technical assistance. It is not the intention of the Legislature to provide funds under this division for the capitalization of any small business; but to promote and encourage such loans by private banks and other financial institutions to persons eligible for technical assistance under this division, and to permit such banks and financial institutions to make loans on a risk basis giving consideration to the technical assistance to be provided to a loan applicant.

CHAPTER 2. DEFINITIONS

28010. Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this division.

28011. "Low income area" means an area as defined by a severity score based upon the sum of the following:

(1) The percentage of families of not less than 20 percent in the census tract or tracts whose 1959 income reported to the census was under three thousand dollars ($3,000).

(2) Twice the percentage of unemployment reported by the 1960 decennial census for the census tract or tracts in which reside the persons eligible for technical assistance under this division or in which a small business is located or will be established for such technical assistance.

28012. "Small business" means a business whose gross receipts from all sources in any year cannot reasonably be expected to exceed two hundred fifty thousand dollars ($250,000), or will not employ more than 15 persons, or both. "Small business" does not include any business whose prime function is the sale of alcoholic beverages.

28013. "Association" includes corporation.

CHAPTER 3. ADMINISTRATION

28020. The Superintendent of Banks shall administer the provisions of this division, and shall adopt any rules or regulations necessary to effectuate its administration.

CHAPTER 4. PILOT PROGRAM

28030. There is hereby established a pilot program whereby the Superintendent of Banks shall contract with qualified private nonprofit associations to provide technical assistance to eligible persons in order that such persons may establish and operate small businesses in low income areas of the state. The technical assistance may include, but not be limited to, the following:

(a) Aid in preparing loan applications and presentations.

(b) Consulting services relating to:

(1) Business organization.

(2) Business management.

(3) Accounting services.

(4) General entrepreneurial skills.

(c) Ongoing consulting services for not exceeding one year after the establishment of or reorganization of a small business. Such consulting services may be extended for one year if requested by the applicant.

(d) Referral services to provide a contract between the applicant and the banking and financial community and with existing public and private small business assistance programs.

28031. A private nonprofit association shall be eligible to contract under this division if the Superintendent of Banks finds that such association has a demonstrated competence to provide the kind of technical services required to be provided to eligible persons under this division.

28032. The Superintendent of Banks shall select two low income areas for purposes of this division, and shall notify the banking and financial industry and any interested nonprofit association of his selection. The Superintendent of Banks shall select not more than three eligible nonprofit associations to provide technical assistance under this division, and shall enter into contracts with each of them for this purpose. The Superintendent of Banks shall include provisions in each of such contracts to insure the security of any funds paid over to the nonprofit association pursuant to Section 28041. The Superintendent of Banks may include such other terms and conditions in such contracts as will effectuate the purposes

of this division. A nonprofit association which enters into such a contract shall comply with the provisions of this division in providing technical assistance to eligible persons, and shall cooperate with banks and other financial institutions for such purposes. It shall also cooperate with any federal or other public agency to effectuate such purposes.

28033. A person shall be eligible for assistance under this division if he owns a small business, or will establish one, in a low income area selected by the Superintendent of Banks.

28034. A person eligible for technical assistance may apply to a qualified nonprofit association selected by the Superintendent of Banks for technical assistance pursuant to this division.

28035. Technical assistance shall be granted to any eligible person in conjunction with a prospective loan to be secured by such person to finance the small business, or without a loan if the person is in need of technical assistance only. If the loan exceeds twenty-five thousand dollars ($25,000), technical assistance shall be granted only upon written approval of the Superintendent of Banks. Such approval may be granted after the nonprofit association to which the application was submitted makes a request to the Superintendent of Banks for such approval.

Without the written approval of the Superintendent of Banks, the total amount of technical assistance granted to an eligible person shall not exceed the greater of the following:

(a) One thousand dollars ($1,000).

(b) An amount equal to 15 percent of the prospective loan to be secured by the eligible person to finance the small business.

28036. Preference shall be given for technical assistance to eligible persons in the following order:

(a) Persons who own and operate small businesses in low income areas.

(b) Persons who have previous business experience of a kind necessary for the establishment and operation of the small business involved.

(c) Persons who have a history of skill needed in a particular small business.

28037. No technical assistance shall be granted to any eligible person unless he has the primary responsibility for the business he represents and he meets all of the following conditions:

(a) Submits with his application an employment plan for the small business involved which reflects increase of employment opportunities in the low income area in which the small business is to be operated.

(b) Agrees with the nonprofit association to give prime consideration to employing persons who are eligible for, or are recipients of public assistance.

(c) Agrees to grant disbursement control to the nonprofit association over any funds, including loans, secured to finance the small business. If a person breaches such agreement, the

nonprofit association may terminate technical services to such a person, in which event it shall notify the grantor or lender of such funds of its action.

CHAPTER 5. FINANCES

28041. Out of money appropriated for such purposes, the Superintendent of Banks shall allocate to each of the nonprofit associations selected by him pursuant to Section 28032, a lump sum, as determined by him, for payment for the total technical assistance to be provided eligible persons pursuant to contracts entered under Section 28032. Out of the money allocated to a nonprofit association, the superintendent from time to time may make payments to the nonprofit association pursuant to the terms of the contract.

CHAPTER 6. REPORTS

28051. The Superintendent of Banks shall submit a report to the Legislature on or before May 1, 1970, on the operation of the pilot program established pursuant to this division. Such report shall include, but is not limited to, the following information:

(a) History of all applicants for technical assistance.

(b) The dollar amounts of loans generated by such technical assistance, including the type of loans which were granted and the type which were not granted.

(c) The value of small businesses assisted, including:

(1) Number of new jobs created.

(2) Number of new employees and their characteristics.

(d) The tax revenue returned to the state by such new small businesses.

(e) The financial intermediaries involved in any loan service and their opinions as to the worth of such technical assistance.

SEC. 1.5. (a) If the Superintendent of Banks determines that the California Job Development Corporation Law Executive Board is able to undertake all duties, powers, and responsibilities vested in the Superintendent of Banks by Division 12 (commencing with Section 28000) of the Financial Code, he may with the approval of the California Job Development Corporation Law Executive Board transfer such duties, powers, and responsibilities to the board. Upon such transfer, the California Job Development Corporation Law Executive Board shall undertake all duties, powers, and responsibilities vested in the Superintendent of Banks by Division 12 (commencing with Section 28000) of the Financial Code. The Superintendent of Banks and the board shall make all arrangements necessary to assure the effectuation of such transfer in an orderly manner and with no disruption of functions. In the event of such a transfer, there shall be transferred to the board the unencumbered balances of money available to the

Superintendent of Banks for expenditure in exercising the powers, duties and responsibilities transferred to the board.

(b) This section shall become operative only if Assembly Bill No. 109 of the 1968 Regular Session is enacted, and in such case at the same time as Assembly Bill No. 109 becomes operative.

SEC. 2. Sections 1 and 1.5 of this act shall terminate on the 61st day after final adjournment of the 1970 Regular Session of the Legislature.

SEC. 3. There is hereby appropriated from the General Fund to the Superintendent of Banks the sum of one hundred fifty thousand dollars ($150,000) for administration of this act, and for allocation and payment pursuant to Section 28041 of the Financial Code.

(a) There is but one parent in the home and such parent supports and cares for the child, or the parent is physically or mentally unable either to support the family or care for the child, or there is but one parent in the home who requires education or training to qualify for entrance upon employment that will make the family economically self-sufficient.

(b) There are two parents in the home, each of whom is either working or is physically or mentally unable to either support the family or care for the child.

(c) A child is in need of a preschool educational program before entrance to kindergarten because of disadvantage arising from home and community environmental conditions.

public school or as a qualified and acceptable supervisor to serve in the supervision and instruction of children in a children's center or a supervisor of a children's center program, or as a qualified and acceptable aide in such program, as shall be evidenced by a statement from the employing authority of the public school to the governing body of the children's center.

A person continuously employed or engaged in on-the-job training for one year under a program described in Section 432(b)(1) of that act shall, for the purposes of this section, be deemed to be participating under a work incentive program during that year, unless federal law or regulations shall prescribe a different period.

SEC. 2. Section 16603.1 is added to the Education Code, to read:

16603.1. A person meeting a condition described in subdivision (a), (b), (c), or (j) of Section 16603 has priority over a person meeting a condition described in subdivisions (d) through (i), inclusive, of that section.

SEC. 3. Section 16620 of the Education Code is amended to read:

16620. In computing amounts under Section 16618, the Superintendent of Public Instruction shall not include:

(a) Hours of attendance of children of, and fees collected from, parents required by this chapter (commencing with Section 16601) to pay the full cost of supervision, instruction, and all food of a child in a children's center shall not be used in computing amounts under Section 16618.

(b) Hours of attendance of children of participants in a work incentive program described in subdivision (j) of Section 16603 for whom the Department of Education advanced or reimbursed the district for, all costs of children's center services; and funds received from the Department of Education for services to those children.

SEC. 4. Section 16621 of the Education Code is amended to read:

16621. The said governing board shall establish in the county treasury a fund to be known as the "children's center fund" into which shall be paid all funds received by the district for, or from the operation of, children's centers including, but not limited to, all funds derived under Sections 16634 and 16635. The costs incurred in the maintenance and operation of children's centers shall be paid from said fund, except that any contributions, other than those described in Section 16621.1, authorized or required to be paid by the district on account of services of employees of a children's center to a retirement system shall be paid from the general fund of the district or from funds of the district derived from a special tax levied pursuant to Section 14657 or 14758 of the Education Code or Section 20532 of the Government Code.

No other funds of a district derived from the receipts of district taxes, except a district tax levied under Sections 16633 and 16635, or derived from moneys apportioned to the district for the support of the schools thereof, except state moneys expressly appropriated from the General Fund for the support of children's centers, may be expended for, or in connection with, a children's center.

SEC. 6. Section 16630.5 is added to the Education Code, to read:

pay to the Department of Education, or to reimburse it for, all costs, including administrative costs, and preoperational costs, of services to participants but such costs shall not exceed the amount paid by a parent paying full cost pursuant to Section 16620 and receiving the same service. The Department of Social Welfare may advance funds for this purpose. It is the intent of the Legislature that to the extent federal law permits, federal funds will be used by the Department of Social Welfare in making payments to the Department of Education, and to the extent federal money is so paid to the Department of Education, it shall expend such money, on a nonreimbursable basis, for providing additional children's center services or development center services, or both, for persons who are participating in a work incentive program.

The Department of Education, in performance of the agreement, if any, shall enter into contracts with school districts or county superintendents willing to furnish children's center services or development center services, or both, to persons certified by the Department of Social Welfare as participants in such a work incentive program wherein the school district or county superintendent of schools agrees to furnish such services in consideration of payment by the Department of Education of all costs thereof, including administrative costs. The Department of Education may advance funds for the purpose. School districts and county superintendents are authorized to enter into such contracts.

The costs incurred in the maintenance and operation of development centers shall be paid from the fund, except that any contributions, other than those described in Section 16645.11a, authorized or required to be paid by the district on account of services of employees of a development center to a retirement system shall be paid from the general fund of the district or from funds of the district derived from a special tax levied pursuant to Section 14657 or 14758 of the Education Code or Section 20532 of the Government Code.

No other funds of a district derived from the receipts of district taxes, except a district tax levied under Section

16645.9, or derived from moneys apportioned to the district for the support of the schools thereof, except state moneys expressly appropriated from the General Fund for the support of development centers, may be expended for, or in connection with, a development center.

19699.21. The Legislature hereby declares that it is in the interest of the state and of the people thereof for the state to provide assistance to school districts and to county superintendents of schools for the construction of children's center facilities. Children's centers are of general concern and interest to all the people of the state, and the education and care of children of working parents are a joint obligation of both the state and local agencies operating children's centers.

In enacting this article, the Legislature considers that the greatest need is to provide children's center facilities for the education and care of children during the time the sole parent is at work making the family economically self-sufficient, or is in school or in training to gain economic self-responsibility. The Legislature recognizes the need to encourage the provision of additional children's center facilities to permit more families to become economically self-sufficient.

19699.22. The following terms, whether used or referred to in this article, have the following meanings, unless a different meaning clearly appears from the context:

(a) "Local agency" means a school district or a county superintendent of schools operating or authorized to operate a children's center pursuant to this chapter.

(b) "Board" means the State Allocation Board

(c) "Project" means the purposes for which a local agency has applied for assistance. A project may include the acquisition and improvement of sites, the planning and construction of permanent facilities, and the acquisition of equipment for children's centers.

19699.23. This article shall be administered by the State Allocation Board. The board shall adopt such rules and regulations as it deems necessary to carry out the purposes of this article. The rules and regulations of the board shall establish a system of priorities to determine the relative necessity to establish children's center facilities by a local agency, which shall contain, among other factors, the need for facilities evidenced by existing waiting lists for service, the availability to the local agency of adequate alternate facilities in the area to be served, and the extent of local participation in providing children's center facilities.

19699.24. No local agency shall receive an initial allocation from any appropriation made for the purposes of this article more than an amount to be known as the local agency entitlement. This amount shall be computed as follows:

(a) Determine the percentage that the amount apportioned to the local agency in the previous fiscal year for operation purposes pursuant to Section 16618 bears to the total amount allocated to all local agencies under the same section.

(b) Determine the percentage that the statewide modified assessed valuation per average daily attendance for the grade level involved in the previous fiscal year bears to the assessed valuation per unit of average daily attendance of the local agency. Local agencies other than school districts shall use a percentage of 1.00.

(c) Determine the local agency eligibility factor by multiplying the percentage derived in (a) by that derived in (b).

(d) Determine the local agency entitlement by multiplying the district eligibility factor derived in (c) by two million dollars ($2,000,000).

Amounts of the appropriation initially unallocated may be allocated subsequently without regard to the limitation of the local agency entitlement Amounts of local agency entitlement not applied for within 60 days of the notification of entitlement, and amounts approved pursuant to Section 19699.28 but not allocated pursuant to Section 19699.29, and not made available on an extended basis after six months from the date of the original approval, may also be allocated without regard to the limitation of local agency entitlement.

19699 25. Any local agency operating or authorized to operate a children's center may apply for assistance under this article to undertake one or more projects. Any local agency not operating a children's center in the 1967–68 fiscal year shall have its eligibility and other factors determined by a method similar to that in Section 19699.24. Reasonable estimates may be used.

19699.26. Applications for assistance under this article shall be made on forms prescribed and furnished by the board. Such applications shall include, but not be limited to, the following data and information:

(a) An outline and general description of the project to be undertaken;

(b) An estimate of the cost of the project to be undertaken and the anticipated source of funds to complete the project;

(c) The estimated number of children to be served by the project;

(d) The waiting list of the local agency for children's centers; and

(e) The amount expended by the local agency from local sources during the past five years for the provision of children's center facilities.

19699.27. Not more than 25 percent of any allocation made to a local agency for a project shall be used for the reconstruction or rehabilitation of existing children's center facilities. Not less than 75 percent of any allocation made to a local agency for a project shall be used for the acquisition and improvement of sites, the planning and construction of new permanent facilities, and the acquisition of equipment for new children's centers.

19699.28. The board shall notify a local agency when a preliminary approval of project has been given, and shall reserve from the appropriation made a sum in the amount of the approval given.

19699.29. Funds reserved for a project shall be allocated to the local agency upon certification of the board to the Controller when the board has determined both of the following:

(a) All required approvals of the projects have been granted; and

(b) The local agency has subsequent to the effective date of this section, committed the expenditures through the granting of a contract or the authorization of an agreement which requires the payment of funds.

19699.30. In administering this article, the board shall (a) prescribe and furnish application forms, (b) approve the application, (c) approve the acquisition of children's center sites included in any project, (d) approve plans and specifications for each project and (e) certify to the Controller the allocation of funds to which a local agency is eligible.

19699.31. The allocation of funds to the local agency pursuant to this article shall be conditioned upon the prior approval of the proposed facilities by the Department of Education.

19699.32. For each one dollar ($1) of money allocated to a local agency which is expended for a project, the local agency shall expend local funds for such project in an amount which bears the same percentage to said one dollar ($1) as the modified assessed valuation per unit of the average daily attendance of the local agency bears to the statewide modified assessed valuation per average daily attendance of all local agencies. Local agencies other than school districts shall use a percentage of 1.00.

SEC. 10. The sum of two million eight hundred thousand dollars ($2,800,000) is appropriated from the General Fund

in the State Treasury for children's centers purposes in accordance with the following schedule:

(a) One million dollars ($1,000,000) to the State Allocation Board for allocation to school districts or county superintendents of schools pursuant to the provisions of Article 7.5 (commencing with Section 19699.20) of Chapter 10 of Division 14 of the Education Code.

(b) One million eight hundred thousand dollars ($1,800,000) to the Department of Education in augmentation of Item 282 of the Budget Act of 1968. Of this amount the Department of Education is hereby authorized to apportion not to exceed two hundred thousand dollars ($200,000) to school districts or county superintendents of schools establishing new children's centers for the first year of operation only, upon the demonstrated need for supplemental support for preoperational costs, including, but not limited to, preoperational salaries, leasing or renovation of facilities, and purchase of supplies and equipment.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

School enrollments in many districts have increased drastically and many schools have been filled to capacity and have been compelled to use structures intended for children's centers to accommodate elementary students. The maintenance of children's centers meets a vital and continuing public need, and it is essential to provide additional facilities for that purpose at the earliest possible date.

SEC. 12. This act shall be known as the Dymally-Sieroty Children's Center Construction Law of 1968.

(b) In the case of a minor person, the application shall be made by his parents, or by the parent, guardian, or other person entitled to his custody to any of such mental hospitals as may be designated by the Director of Mental Hygiene to admit minors on voluntary applications.

Any such person received in a state hospital shall be deemed a voluntary patient.

The responsibility of the mentally retarded patient and his kindred for reimbursement to the county shall be governed by Chapters 1, 2, 4, and 5 (commencing with Section 17000) of Part 5 of Division 10 of this code.

7513. Each mentally retarded person and his estate shall pay the department for the cost of such person's care and treatment as defined in Section 4025 while in the state hospital and while on leave of absence at state expense, less the sums payable therefor by the county. The provisions of Sections 7276 and 7277 shall govern the assessment, cancellation, collection, and remission of charges for such care and treatment.

This section shall not be construed to impose any liability on the parents of mentally retarded persons.

7254. The provisions of this section apply to any person who has been lawfully committed or admitted to any state hospital for the mentally disordered or mentally retarded and who is afflicted with, or suffers from, any of the following conditions:

(a) Mental disease which may have been inherited and is likely to be transmitted to descendants.

(b) Mental retardation, in any of its various grades.

(c) Marked departures from normal mentality.

The State Department of Mental Hygiene, upon compliance with the provisions of this section, may cause any such person to be sterilized by the operation of vasectomy upon the patient if a male and of salpingectomy if a female or any other operation or treatment that will permanently sterilize but not unsex the patient. When the superintendent of the state hospital or state home is of the opinion that a patient who is afflicted with or suffering from any of the conditions specified in this section should be sterilized, he shall certify such opinion to the Director of Mental Hygiene and shall at the same time give written notice of such certification to the patient and to his known parents, spouse, adult children, or guardian, if any, by registered mail to their last known address. If the patient has no known relatives or guardian, such notice shall be given to the person who petitioned for the patient's commitment. Such notice shall further state that written objection or written consent to the proposed sterilization should be filed with the Director of Mental Hygiene at his office in Sacramento within 30 days by the patient, spouse, next of kin or guardian.

When a written consent is filed, or if no objection is filed within the 30 days, the Director of Mental Hygiene, if satisfied that the sterilization will not unduly endanger the patient's health and that it is a proper case for sterilization, may authorize the superintendent to proceed with the sterilization of the patient. The director may cause such examination of the patient and other inquiry to be made as he deems advisable before issuing the authorization to the superintendent

If a written objection is filed within the 30 days by the patient, his spouse, next of kin, or guardian, and in those cases where the patient has no known relatives or guardian, the proposed sterilization shall not be authorized or performed until the Director of Mental Hygiene has determined the matter. He shall make full inquiry into the case, and may hold a hearing at the institution at which hearing the patient shall be present, and the objecting party and others interested on behalf of the patient may be heard. If the decision of the director is that the patient shall not be sterilized, he shall so order and notify the superintendent, the patient and the objecting party. If the decision of the director is that the patient should be sterilized, he shall send notice of such decision to the patient, his known parents, spouse, adult children, and guardian, if any, and the objecting party, by registered mail to their last known address. Such notice shall further state that any such party has the right within 30 days to petition the superior court of the county in which the institution is situated or of the county of the patient's residence for a review of the decision.

If such petition is filed in court within 30 days, and a true copy thereof is served upon the Director of Mental Hygiene, the patient shall not be sterilized unless and until the court, after hearing, issues an order authorizing the sterilization of

the patient in accordance with the provisions of this section. If such petition is not filed in court within 30 days, the director may authorize the superintendent to proceed with such sterilization. The sterilization of a patient in accordance with the provisions of this section, whether performed with or without the consent of the patient, shall be lawful and shall not render the department, its officers or employees, or any person participating in the operation liable either civilly or criminally.

7284. If any incompetent person, who has no guardian and who has been admitted or committed to the Department of Mental Hygiene for placement in any state hospital for the mentally disordered or the mentally retarded is the owner of any property, the Department of Mental Hygiene, acting through its designated officer, may apply to a court of competent jurisdiction for its appointment as guardian of the estate of such incompetent person.

For the purposes of this section, the Department of Mental Hygiene is hereby made a corporation and may act as executor, administrator, guardian of estates, assignee, receiver, depositary or trustee, under appointment of any court or by authority of any law of this state, and may transact business in such capacity in like manner as an individual, and for this purpose may sue and be sued in any of the courts of this state.

If a person admitted or committed to the Department of Mental Hygiene dies, leaving any estate, and having no rela-

When the Department of Mental Hygiene is appointed as guardian or administrator, the department shall be appointed as guardian or administrator without bond. The officer designated by the department shall be required to give a surety bond in such amount as may be deemed necessary from time to time by the director, but in no event shall the initial bond be less than ten thousand dollars ($10,000), which bond shall be for the joint benefit of the several estates and the State of California. The Department of Mental Hygiene shall receive such reasonable fees for its services as such guardian or administrator as the court allows. The fees paid to the Department of Mental Hygiene for its services as guardian or administrator of the various estates may be used as a trust account from which may be drawn expenses for filing fees, bond premiums, court costs, and other expenses required in the administration of the various estates. Whenever the balance remaining in such trust fund account shall exceed a sum deemed necessary by the department for the payment of said expenses, such excess shall be paid quarterly by the department into the State Treasury to the credit of the General Fund.

SEC. 124. Section 7300 of the Welfare and Institutions Code is amended to read:

7300 It shall be the policy of the department to make available to all persons judicially committed or remanded to its jurisdiction all of the facilities under the control of the department. Whenever, in the opinion of the Director of Mental Hygiene, it appears that a person judicially committed or remanded to the Department of Mental Hygiene for placement in an institution would be benefited by a transfer from that institution to another institution in the department, the director may cause the transfer of the patient from that institution to another institution under the jurisdiction of the department. Preference shall be given in any such transfer to an institution in an adjoining rather than a remote district.

However, before any inmate of a correctional school may be transferred to a state hospital for the mentally disordered he shall first be returned to a court of competent jurisdiction and, if subject to commitment, after hearing, may be committed to a state hospital for the mentally disordered in accordance with law.

The expense of such transfers is chargeable to the state, and the bills for the same, when approved by the Director of Mental Hygiene, shall be paid by the Treasurer on the warrant of the Controller, out of any moneys provided for the care or support of the patients or out of the moneys provided for the support of the department, in the discretion of the department.

Persons so transferred shall not be subject to the provisions of Section 4500, 4501, 4501.5, 4502, 4530, or 4531 of the Penal Code. However, they shall be subject to the general rules of the Director of Corrections and of the facility where they are confined and any correctional employee dealing with such persons during the course of an escape or attempted escape, a fight or a riot, shall have the same rights, privileges and immunities as if the person transferred had been committed to the Director of Corrections.

The right of employees to form, join and participate in the activities of employee organizations shall not be restricted by a public agency on any grounds other than those set forth in this section.

Nothing in this chapter authorizes the possession or furnishing by prescription of LSD or DMT, including their salts and derivatives, or any compounds, mixtures, or preparations which are chemically identical with such substances.

As used in this section, "hospital" means a hospital located in this state and approved for residency training in psychiatry by the American College of Psychiatry.

The panel may approve research projects into the nature and effects of marijuana (Cannabis sativa) or hallucinogenic drugs, and shall inform the Chief of the Bureau of Narcotic Enforcement of the head of such approved research projects which are entitled to receive quantities of marijuana (Cannabis sativa) pursuant to Section 11655.

11724. The fact that a person is or has been or is suspected of being, a user of marijuana is not alone sufficient grounds upon which to invoke Section 11722 or 11723.

time as the added Section 11655.5, as contained in Assembly Bill No. 194, becomes operative, at which time Section 11916 of the Health and Safety Code, as amended by Section 2 of this act, and Section 11655.5 as added by Assembly Bill No. 194 are repealed.

CHAPTER 1392

An act to add Chapter 7 (commencing with Section 33701) to Part 1 of Division 24 of the Health and Safety Code, relating to community redevelopment.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 33701) is added to Part 1 of Division 24 of the Health and Safety Code, to read:

CHAPTER 7. SPECIAL HOUSING AND RENEWAL

33701. Unless the context otherwise requires, the definitions contained in this chapter govern the construction of this chapter.

33702. (a) "Commission" means a planning commission organized pursuant to law or city charter.

(b) "Legislative body" means the city council, board of supervisors, or other legislative body of a community

(c) "Renewal area agency" means a renewal area agency formed pursuant to this chapter.

(d) "Actual cost" means (1) the cost of the land and buildings, (2) charges, including reasonable attorney fees, for the formation of a renewal area agency, for the reasonable costs of preparing a preliminary general plan and for financing and supervision, and (3) carrying charges during construction, including interest on borrowed money and invested capital, when such charges have been approved by the commission.

(e) "Fixed charges" include all operating and maintenance charges, taxes, assessments, insurance and depreciation, amortization, interest, sinking fund, and other expenses and charges approved by the legislative body.

(f) "Bond" means any bonds, notes, interim certificates, debentures, or other obligations issued by a renewal area agency pursuant to Section 33732.

(g) "Renewal area" means any area of real property a substantial part of which is occupied by deteriorated, obsolete, substandard, unsafe or unsanitary structures or other improvements. A renewal area shall not be less than three acres nor more than 30 acres except upon approval of the commission, which shall not approve an area in excess of five additional

acres; provided, however, that in a city, a county, or city and county with a population in excess of 1,000.000 persons, a renewal area shall not exceed 100 acres except upon approval of the commission, which shall not approve an area in excess of 25 additional acres.

(h) "Low-income housing" means housing for persons of low income as that term is defined from time to time by a local public agency.

(i) "Middle-income housing" means housing for persons of middle income as that term is defined from time to time by a local public agency.

(j) "Normal-market housing" means housing for persons other than those of low and middle income.

(k) "Local public agency" means a housing authority created under the Housing Authorities Law of this state, Chapter 1 (commencing with Section 34200) of Part 2 of this division; or in a city or county wherein a housing authority is not functioning, an agency designated by the legislative body thereof.

33703. The Legislature has found and declared herein that deteriorated, obsolete, substandard, unsafe or unsanitary housing conditions in the urban areas of this state are a menace to the health, safety, morals, welfare and reasonable comfort of the residents of such areas and the residents of this state. The Legislature further finds and declares that the participation by the property owners and persons residing in renewal areas in their rebuilding and rehabilitation is desirable to the extent that is feasible and practicable without jeopardizing the success of proposals to rebuild and rehabilitate the renewal areas. It is further found and declared that the above conditions necessitate the formation of renewal area agencies empowered to initiate and carry out plans for the rebuilding and rehabilitation of renewal areas, that the public interest requires the formation of such renewal area agencies in order to facilitate the execution of such plans by the cooperative efforts of persons owning property or residing in such areas, that such rebuilding and rehabilitation, financed in part by the issuance of tax-exempt bonds and in part by minimum use of public funds are essential to provide low-income, middle-income and normal-market housing together with small commercial establishments in a number sufficient to serve those persons who reside within or a reasonable distance of the renewal area, and that such rebuilding and rehabilitation are public uses and purposes and governmental functions of state concern. It is further found and declared that the correction of the above housing conditions is a public necessity and that the acquisition of property within the renewal area to permit the rebuilding and rehabilitation thereof is a public use within the meaning of the laws relating to proceedings in eminent domain. As a matter of legislative determination, it is hereby found and declared that the property and bonds of a renewal area agency formed in accordance with the provisions of this

chapter are of such character as shall be exempt from taxation.

The purposes of this chapter are to provide persons in renewal areas of this state with a mechanism, the renewal area agency, through which they can initiate, plan, finance and carry out the rebuilding or rehabilitation of such areas; to reduce or eliminate the need for the acquisition of property by the renewal area agency by enabling it to act as agent of the property owners and persons residing in the renewal area; to encourage persons in such areas voluntarily to engage in a cooperative effort based on self-help, with a minimum use of public funds, the objective of which is to improve the quality of urban life for themselves and their neighbors; and to enlist the capital and technological resources of the private sector in meeting that objective.

33704. (a) A renewal area shall be designated as such only upon a verified petition addressed to the legislative body and signed by not less than 20 percent of those persons who reside within the boundaries of such renewal area. Such petition shall describe the boundaries proposed by petitioners, and it shall contain the names and addresses of all those persons signing the petition, any two of whom shall be designated as acting chairman and acting vice chairman.

(b) Registration as a voter within a renewal area for a period of at least 126 days preceding execution of the petition described in subdivision (a) shall be conclusive evidence of residence in the renewal area.

(c) The payment by any person of rent or for water, gas, electricity or telephone services arising out of his occupancy of real property within the renewal area for a period of 234 days preceding execution of the petition described in subdivision (a) shall be prima facie evidence of residence within the renewal area.

33705. Upon the receipt of such a petition by the legislative body, it shall immediately refer the petition to the commission for study. Study by the commission shall be made expeditiously and with the participation in the study of petitioners, and a report of the study shall be made to the legislative body. Such report shall show all the following:

(a) The boundaries of the proposed renewal area.

(b) The number and type of deteriorated, obsolete, unsafe or unsanitary single or multiple buildings, and which, if any, are recommended for rehabilitation or removal.

(c) A preliminary general plan for the rehabilitation and renewal of the area in conformity with the master plan of the community.

(d) The number of single persons and families residing within the area.

33706. The legislative body may, upon receipt of such report from the commission, approve the formation of a renewal area agency for the renewal area in accordance with this chapter if the legislative body finds and adopts a resolu-

tion stating that the provisions of this chapter for formation have been complied with, that a substantial part of the area included within the boundaries of the proposed renewal area is occupied by deteriorated, obsolete, substandard, unsafe or unsanitary structures or other improvements, and that all the property within the boundaries of the proposed renewal area must be included within the renewal area to accomplish the purposes of this chapter. The renewal area agency shall be deemed created and authorized to exercise its powers, functions and responsibilities from and after the date of recordation of a certified copy of the resolution in the office of the county recorder in the county in which the real property is located.

33707. In any proceeding involving the validity or enforcement of or relating to any contract of a renewal area agency, the renewal area agency is conclusively deemed to have been established and authorized to transact business and exercise its powers upon proof of the adoption of a resolution by the legislative body pursuant to Section 33706. The resolution is sufficient if it finds in substantially the terms of Section 33706 that all the conditions set forth in that section exist in the renewal area. A copy of the resolution duly certified by the clerk is admissible in evidence in any proceeding.

33708. A renewal area agency for a renewal area may be formed pursuant to this chapter for the purpose of providing low-income, middle-income and normal-market housing, including single- or multiple-family dwellings, and sufficient commercial establishments to serve persons living within a reasonable distance of the renewal area, and for the purpose of rebuilding or rehabilitating a renewal area to maintain its neighborhood character. An undertaking of a renewal area agency pursuant to the provisions of this chapter shall be treated for all purposes as though it were a redevelopment project as that term is defined in Section 33010.

33709. A renewal area agency is a public agency of the state. The business and affairs of every renewal area agency shall be controlled by a board of not more than 15 directors, two-thirds of whom shall be persons residing within the boundaries of the renewal area. Residence within the boundaries of a renewal area shall be determined in accordance with the provisions of subdivisions (b) and (c) of Section 33704.

Such directors shall be elected for a term of three years at a public meeting called for that purpose upon written notice to all those persons registered to vote and all persons owning real property within the renewal area on the date of the notice at least 15 days prior to such public meeting. The notice shall be signed by the acting chairman and the acting vice chairman and sent by one or both of them to such registered voters and real property owners. The notice provided for in this section shall be sent by certified mail with a return receipt requested. Candidates for election to the board of directors shall be nominated by a petition in writing signed by three or more persons qualified to vote at such election and

filed with the acting chairman or acting vice chairman not more than 20 days after the petition provided for in Section 33704 is filed with the legislative body. The names of those so nominated shall appear in the notice of election provided for in this section. The acting chairman or, in his absence, the acting vice chairman, shall conduct the public meeting provided for in this section. The 15 persons receiving the highest number of votes at such election shall be declared elected, and there shall be no cumulative voting. Their terms of office shall be for three years. Thereafter, the board of directors shall elect its chairman and such other officers as it may deem necessary. All voting provided for in this section shall be by secret ballot.

When any office of director becomes vacant for any reason other than the expiration of his term, the remaining directors shall appoint a person to fill the vacancy to serve for the remainder of the unexpired term.

Vacancies in the board of directors as a result of the expiration of their terms shall be filled by election at a public meeting called by the chairman of the board of directors six months prior to the expiration of such terms. Candidates for election to the board of directors shall be nominated by petition in writing signed by three or more persons qualified to vote at such election, and filed with the chairman not more than 60 days after the election is called. Such election shall thereafter be noticed, held, and conducted by the chairman and vice chairman of the board pursuant to the provisions of this section.

33710. None of the earnings or profits of the renewal area agency shall inure or be paid to any private individual, and the renewal area agency shall only issue bonds which qualify for tax exempt status under the laws of the United States and the State of California.

33711. Upon completion of all requirements incident to the formation of the renewal area agency, it may:

(a) Sue and be sued.

(b) Make and execute contracts and other instruments necessary or convenient to the exercise of its powers.

(c) Make, amend, and repeal rules and regulations, not inconsistent with this chapter, to carry into effect the powers and purposes of the renewal area agency.

33712. Upon completion of all requirements incident to the formation of the renewal area agency, its board of directors may make agreements with such agencies of the local or state government, or agencies of the United States, as may be necessary to assist it in further developing the preliminary general plan described in subdivision (c) of Section 33705, and to advise it as to the economic feasibility of such plan, and it may also make agreements with qualified private concerns for such purpose. The reasonable charges therefor, if any, shall be paid by the renewal area agency.

33713. (a) The renewal area agency may invite persons or combinations of companies specializing in urban economics and

design, architecture, construction, housing, and commercial development to submit proposals to rebuild or rehabilitate all or any part of the renewal area using new techniques and technology to the end that the same may enable the project to be carried out at low cost.

(b) Such proposals may be submitted without regard to local building codes applicable to construction within a renewal area, and, upon a showing satisfactory to it that the construction proposed may be accomplished consistently with such standards of strength, effectiveness, fire resistance, durability and safety, as the legislative body determines are reasonably necessary for the protection of the health and safety of the occupants, the legislative body, by ordinance, may, for a period long enough to complete construction within the renewal area, suspend those provisions of the local building codes which are inconsistent with the proposal or proposals submitted in accordance with subdivision (a) of this section and more restrictive than minimum state standards.

33714. A renewal area agency may:

(a) Lease or rent any dwellings, houses, accommodations, lands, buildings, structures, or facilities embraced in any renewal area.

(b) Own, hold, and improve real or personal property.

(c) Purchase, lease, obtain option upon, acquire by gift, grant, bequest, devise, or otherwise any real or personal property or any interest in property.

(d) Sell, lease, exchange, transfer, assign, pledge, or dispose of any real or personal property or any interest in it.

(e) Insure or provide for the insurance of any real or personal property or operations of the authority against any risks or hazards.

33715. The renewal area agency may make agreements with an agency of the local or state government, or an agency of the United States, for the payment by such agency of loans by persons owning property within the renewal area if such loans are secured by liens on such property.

33716. (a) The owners of rebuilt or rehabilitated residential property within the renewal area may do any of the following:

(1) Occupy all or a part of such property themselves;

(2) Lease all or a part of such property to third persons;

(3) Lease all or a part of such property to a local public agency for sublease by it to persons qualifying for occupancy of low or middle income housing.

(b) The owners of rebuilt or rehabilitated commercial property within the renewal area may do any of the following:

(1) Occupy all or a part of such property themselves;

(2) Lease all or a part of such property to third persons.

(c) (1) Owners who choose to occupy their property under the provisions of paragraph (1) of subdivision (a) or paragraph (1) of subdivision (b) of this section shall, for the period necessary to amortize the bonds issued pursuant to the

provisions of Section 33732, make monthly payments in lieu of rental thereon to the renewal area agency. Such payments shall be determined by dividing the fair rental value for all of such property after its construction or rehabilitation by the percentage of such property occupied by the owner of the property.

(2) Owners who choose to lease their property under the provisions of paragraph (2) of subdivision (a), or paragraph (2) of subdivision (b) of this section, shall, from the rental received therefrom during the period necessary to amortize the bonds issued pursuant to the provisions of Section 33732, pay to the renewal area agency such amount as will provide the owner of the property a fair rate of return over that period.

(3) Owners who choose to lease their property under the provisions of paragraph (3) of subdivision (a) of this section shall be paid as rent on such property not more than an amount equal to a fair rate of return over the period necessary to amortize the bonds issued pursuant to the provisions of Section 33732. During such period, 90 percent of the moneys paid to the local public agency for the rental of such property shall be pledged to the repayment of such bonds in the event of any default in the payment to the holders of the bonds of principal of, or interest on, the bonds, provided, however, that if no such default occurs, such moneys shall be subject to such disposition as the legislative body may determine.

(d) Subject to approval of the legislative body, a fair rental value for all property within the renewal area shall be determined by a local public agency as of the date of the application made pursuant to the provisions of Section 33717. "Fair rental value," as used in this section, means the amount for which the property was, or in good faith could have been, rented on such date by a willing owner to a willing tenant as the result of an arm's length agreement. Fair rental value for structures proposed for property having no improvements thereon at the time of said application shall not exceed the fair rental value of comparable unimproved property elsewhere within the renewal area. For a period of not to exceed 10 years from the date of completion of construction or rehabilitation of property within the renewal area, the fair rental value of all property within such area may be increased by 6 percent of such fair rental value in each year of such 10-year period.

(e) "Fair return," as used in this section, means the amount each owner would have received on his property in its condition on the date of the application made pursuant to the provisions of Section 33717, and such fair return shall not exceed an average of 8 percent per year of the fair market value of the property in such condition over the period necessary to amortize the bonds issued pursuant to the provisions of Section 33732. In determining a fair return to each owner, all pertinent factors shall be considered including, but without be-

ing limited to, the discounted cash flow that will be received by him from property within the renewal area which is newly constructed or rehabilitated. The discounted cash flow shall include an estimate of the capitalized value of such property at the end of the period necessary to amortize the bonds issued pursuant to the provisions of Section 33732

(f) "Discounted cash flow," as used in this section, means the value of the year-to-year cash flow available to the owner of the newly constructed or rehabilitated property because of his investment in that property. Such value shall be determined by discounting annually the cash flow available to him by a compound interest factor of 8 percent back to the first year in which such new construction or rehabilitation occurred.

(g) Except as otherwise provided therein, all amounts paid to the renewal area agency under the provisions of paragraphs (1), (2) and (3) of subdivision (c) of this section shall be applied by it to the amortization of the bonds issued pursuant to the provisions of Section 33732.

(h) Nothing in this section shall be construed as a prohibition against sale or conveyance of his property by an owner or owners thereof.

33717. Upon completion by the renewal area agency of specific plans for the rehabilitation and renewal of the renewal area, it shall, by verified application, apply to the commission for approval of such plans. Such application shall be submitted to the commission within nine months from the date the resolution provided for in Section 33706 has been adopted by the legislative body, except that, for good cause shown by the renewal area agency, the commission may allow an additional period of six months within which such application may be submitted to it. If such application is not submitted within the time specified in this section, or such period as it may be extended as provided for herein, the renewal area agency shall be deemed dissolved and the project planned by it shall be deemed abandoned. The commission shall not approve such plans unless they show all the following:

(a) The exact boundaries of the renewal area.

(b) The number and type of buildings to be rehabilitated or removed.

(c) The number of single persons and families who have indicated they have requested temporary or permanent relocation housing and that such housing is available to them at a fair rental value.

(d) Site development with plans, elevations, design and perspective of the housing and commercial construction proposed.

(e) Specifications and estimates of the cost of carrying out such plans.

(f) A reasonable scheme of protective restrictions and of permanent maintenance of neighborhood design and architectural control.

(g) A practicable method of financing the cost of carrying out the plans by issuing the bonds described in Section 33732

or evidence in writing that such bonds, when issued, will be guaranteed by an agency of the United States or the State of California, or both.

(h) The number of persons who have made agreements with the renewal area agency to lease their property within the renewal area to a local public agency and the amount of money necessary to make payments of the rental under such agreements.

(i) The number of persons who have made agreements with the renewal area agency to make payments to it in lieu of rental and other charges.

(j) The assessed value of all real property within the renewal area as of the date of the application pursuant to this section.

(k) The fair rental value of all residential and commercial property within the renewal area of the date of the application pursuant to this section.

(*l*) Consent to the application in writing from 60 percent or more of those persons owning real property within the renewal area. Ownership of real property shall be determined on the basis of the last equalized assessment roll of the city or city and county wherein the renewal area is located, provided, however, that persons purchasing real property within the renewal area between the date of such last equalized assessment roll and the date of the petition provided for in Section 33704 shall be included in determining whether 60 percent or more of those persons owning real property within the renewal area have consented to the application provided for in this subdivision.

(m) The election of directors provided for in Section 33709 was duly held pursuant to notice of the election, and no proceedings are pending for the removal of any director so elected on the ground that notice was not given as provided for in Section 33709.

(n) That notice in writing has been sent to all registered voters and persons owning real property within the renewal area. Such notice shall be sent by certified mail with a return receipt requested, and it shall specify the date, time and place for a hearing on the application before the commission.

33718. In approving plans submitted in accordance with Section 33717, the commission, in giving or withholding its approval of plans, shall give due consideration to the need estimated to exist at the time of completion of the project for low-income, middle-income and normal-market housing, and it shall also give due consideration to the need for small commercial establishments necessary to serve the needs of the neighborhood, the importance of play and park spaces within the area, the preservation of neighborhood characteristics and the need for light, air and open space between low and medium rise housing and other structures In a city or city and county which has enacted an ordinance the effect of which is to encourage the inclusion of these features in residential areas

33722. The hearing shall be held at a time and place appointed by the legislative body. At least 10 days prior to the hearing the legislative body shall give notice of the hearing by publication in a newspaper designated by the legislative body and published or circulated in the city or county where the property is located.

If the legislative body is considering the report and recommendations pertaining to the plans for more than one renewal area, it may assign a priority to each of such separate plans or otherwise provide for the execution of such plans at different times, provided however that it shall not approve a plan for a renewal area within the boundaries of an area previously approved by the commission as a redevelopment project area, except with the consent of the redevelopment agency, as defined in Section 33003.

A renewal area agency may make covenants and do any and all acts and things necessary, convenient, or desirable to secure its bonds, or which will tend to make them more marketable notwithstanding that such covenants, acts, or things are not enumerated in this chapter.

(q) A renewal area agency may submit to the Attorney General any bonds to be issued pursuant to this chapter after all proceedings for their issuance have been taken. Upon such submission the Attorney General shall examine into and pass upon the validity of the bonds and the regularity of all proceedings in connection with them. If the proceedings conform to this chapter and are otherwise regular in form and if the bonds when delivered and paid for will constitute binding and legal obligations of the renewal area agency enforceable according to their terms, the Attorney General shall certify in substance upon the back of each bond that it is issued in accordance with the Constitution and state laws.

(b) During the period necessary to amortize the bonds issued pursuant to the provisions of Section 33732, persons owning real property within the renewal area shall pay to the renewal area agency each year during such period, an amount equal to 5 percent of the assessed value of such real property, if such persons have not (i) given their consent to the application provided for in Section 33717, and (ii) the improvements on such real property are found by the legislative body to be deteriorated. obsolete, substandard, unsafe or unsanitary.

Each such conveyance shall contain a provision that title to the property so conveyed shall revert to the grantor within two years from the date of such conveyance. Each such conveyance shall be made to or accepted by the renewal area agency only upon evidence satisfactory to it that construction or rehabilitation

of the real property so conveyed shall be completed within a period of two years or less from the date of such conveyance.

33737.5. No conveyance under Section 33737 shall be valid unless the renewal area agency records the deed with the county recorder in the county in which the real property is located. The deed shall contain the following information:

The State Department of Social Welfare shall develop methods and plans which will carry out the purpose and objectives as stated in this section to the maximum extent possible.

11181. The State Department of Social Welfare shall take appropriate action to simplify the construction of the standard of assistance and thereby reduce the administrative costs of computing the amount of grant recipients are entitled to receive.

To the maximum extent possible and practical, the department may, in carrying out the provisions of this article, treat items of special need heretofore authorized under Sections 12151, 12651, 13101, and 13700, as items of common need to be incorporated into the appropriate basic allowance schedules when they are, in fact, items recognized as essential to normal modern living by generally accepted community standards, or as items constituting specialized social services or adjuncts thereto under the social service provisions of the appropriate titles of the Social Security Act.

Every consideration shall be given by the department to reinvesting savings of state and county funds achieved by this method to improve aid grants in the affected categories.

11182. It is not the purpose of this article to reduce the amount of aid that is payable pursuant to the provisions of

Sections 12150, 12151, 12650, 12651, 13100, 13101 and 13700 of this code upon the effective date of this section but to provide a means for a more equitable and appropriate determination of the amount of aid to be paid as future increases in aid grants are voted by the Legislature.

11183. The State Department of Social Welfare shall file an annual report to the Legislature on the progress made in simplifying the standard of assistance. Whenever it is consistent with interim committee hearings the department shall make verbal reports to the appropriate legislative policy committee.

CHAPTER 1397

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 6224 is added to the Public Resources Code, to read:

6224. (a) The commission shall conduct title searches on the real property in this state of the beaches of Lake Tahoe which is dedicated for public use and make a report of its findings which shall be open for public inspection. For the purpose of this section the commission may contract upon such terms and conditions as will be in the best interest of the people of the state with one or more private persons, firms, associations, organizations, partnerships, corporations, companies, or public agencies to conduct such title searches.

(b) Notwithstanding any other provision of law, whenever it appears by final decree of any court of competent jurisdiction that title to any beach property of Lake Tahoe, for which the commission in cooperation with the county has conducted a title search, is vested in a county, the county shall dedicate such beach property to the state.

(c) The state shall be under no obligation to operate and maintain the beach property so dedicated to the state. The county or a public agency in which the beach property is situated may, subject to approval of the commission, operate, maintain, or make improvements on such beach property.

SEC. 2. There is hereby appropriated from the General Fund the sum of thirty thousand dollars ($30,000) to the State Lands Commission for the purpose of conducting title searches on the real property in this state of the beaches of Lake Tahoe.

CHAPTER 1398

An act making an appropriation for educational improvement programs.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the General Fund in the State Treasury to the Department of Education the sum of three hundred thousand dollars ($300,000), or so much thereof as may be necessary, to be expended by the department, provided that Assembly Bill No. 908 is enacted, for the following scheduled purposes:

(a) For planning grants to school districts pursuant to Section 1068.6 as added to the Education Code by Assembly Bill No. 908 ..... $275,000

(b) For expenses of the department in administering cooperative improvement programs pursuant to Article 7.2 (commencing with Section 1068) as added to Chapter 3 of Division 4 of the Education Code by Assembly Bill No. 908 ..... $25,000

CHAPTER 1399

An act to add Chapter 6.5 (commencing with Section 13900) to Part 3 of Division 9 of the Welfare and Institutions Code, relating to in-home and out-of-home nonmedical care services for public assistance recipients.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6.5 (commencing with Section 13900) is added to Part 3 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 6.5. NONMEDICAL CARE FACILITIES AND SUPPORTIVE HOME CARE SERVICES

Article 1. General

13900. The object and purpose of this chapter is to provide a coordinated, comprehensive approach to providing assistance and services for recipients of public assistance who qualify for aid under Chapter 3 (commencing with Section 12000), Old Age Security Law; Chapter 4 (commencing with Section 12500), Aid to the Blind; Chapter 5 (commencing with Sec-

tion 13000), Aid to the Potentially Self-Supporting Blind; Chapter 6 (commencing with Section 13500), Aid to the Needy Disabled, of this part, and who are capable of self-care and self-direction but are so impaired that such persons require or can function more effectively if protected by a living arrangement or through the provision of supportive services while residing in their own homes.

13901. It is further the purpose of this chapter to give recognition to the fact that persons who require provision of a protective living arrangement or extensive supportive services in their own homes present a common set of personal problems, whether they are classified as aged, blind or disabled.

13902. Insofar as practicable and consistent with the best interest of the recipients, the provisions of this chapter shall be administered as a separate program which provides the aged, blind or disabled persons who qualify under the provisions of the separate aid categories with a unified and comprehensive program of care. In developing administrative plans to implement the provisions of this chapter priority shall be given to the plan utilizing the most favorable federal cost-sharing formula.

The State Department of Social Welfare and the county departments of the various counties in a manner consistent with efficient administration shall, where recruitment, training and employment of personnel is economical and practical, establish special civil service or merit system classifications for the employment of supportive home care service personnel

In the recruitment, training and employment of staff to carry out the provisions of this chapter, preference shall be given whenever possible to recipients of public assistance. Persons engaged in training under programs conducted by the Department of Employment shall be given every consideration in competing and qualifying for employment under the applicable civil service and merit system requirements.

In the event that it is not consistent with efficient administration to recruit, train and employ in-home supportive care service workers as regular county employees, the service may be provided pursuant to contract with another public agency, or with a voluntary nonprofit agency. Such a contract shall include a provision that assures preference will be given to the employment of recipients of public assistance.

13903. It is the intent of the Legislature that aged, blind and disabled persons who can benefit from the services provided by this chapter, and for whom it is the most appropriate and economical plan, shall be kept in their own homes or in a home of their own choosing through the provision of supportive services in preference to placement or maintenance in any type of medical or nonmedical facility.

Article 2. In-Home Supportive Service

13910. The purpose of this article is to provide a range of supportive services for those recipients of public assistance who can remain in their own homes or an abode of their own choosing when such services are provided.

Supportive services include, but are not limited to, homemaker services, housekeeping service, volunteer visiting services, consultation and assistance of a protective service worker, and other nonmedical services which make it possible for the recipient to live in comfort and safety under an independent living arrangement.

13911. In developing in-home supportive services, the department shall program a plan for the orderly development of such services on a county-by-county basis to the end that service becomes available in all counties of the state.

13912. Each county welfare department shall file a certificate with the department stating that they have developed a plan pursuant to the objectives and conditions of this chapter with regard to in-home supportive services. Notwithstanding the provisions of Sections 12152, 12652, or 13700, upon approval of the county plan by the department, no further public assistance allowances shall be made by the county to allow recipients to employ homemaker or attendant care services, or other in-home supportive care services under this chapter. State funds appropriated to such county pursuant to the provisions of Sections 15201 to 15204, inclusive, of this code, for that purpose shall constitute the nonfederal share of the costs of services provided under this article.

Article 3. Out-of-Home Care

13920. The purpose of this article is to provide out-of-home care to those recipients of public assistance for whom care in their own homes is impractical.

13921. The Health and Welfare Agency shall, by regulation, establish standards including rate schedules for specialized out-of-home care. Rate schedules may be in the form of payments to facilities as specified in Section 13932, authorizing the department to provide for payments to be made in behalf of or services to be rendered for recipients of aid. Rate schedules shall establish separate rates for board and room and for the specialized care component.

The administrator shall develop an overall plan which integrates the system of out-of-home nonmedical care facility services covered by the provisions of this chapter with the system of medical care facility services covered by the provisions of Chapter 7 (commencing with Section 14000) and Chapter 8 (commencing with Section 14500) of Part 3 of Division 9 of this code. The purpose of such overall plan shall be to maintain an appropriate balance between nonmedical and medical facilities to the end that recipients of public assistance or per-

sons otherwise defined as needy by the provisions of this code are given the care they require at the lowest possible cost.

The plan established by the administrator pursuant to this section may include the use of an interdisciplinary review process to insure that persons are not placed or retained in medical care facilities when appropriate care can otherwise be provided at lower cost.

Nothing in this article shall be interpreted to preclude any facility licensed under the provisions of Chapter 2 (commencing with Section 1400) of Division 2 of the Health and Safety Code, or under the provisions of Chapter 1 (commencing with Section 6200) of Part 2 of Division 6 of this code from providing out-of-home care services, provided such facilities meet the standards established by the provisions of this section.

13922. In the establishment of the rate schedules the Administrator of the Health and Welfare Agency shall consider, in addition to any other factors he deems to be relevant, the availability of such homes in the community, cost of living, appropriateness of the facility, the costs of providing care under the required standards, and activity programs required for the maintenance or restoration of function of aged and disabled persons.

13923. The Administrator of the Health and Welfare Agency shall submit an annual report to the Legislature by March 1 of each year setting forth pertinent facts on the operation of the program established by this chapter and its significance in relation to the out-of-home care services of the Medi-Cal program.

Article 4. Fiscal Provisions

13930. Counties shall be reimbursed for the cost of services provided pursuant to this chapter pursuant to the provisions of Sections 15201, 15202, 15203 and 15204, applying the appropriate section to each category of aid recipient, provided that such reimbursement shall not exceed the amount specified in Section 13931.

Reimbursement to the counties under this section shall constitute the nonfederal share of costs with regard to the specialized care component established in Article 3 of this chapter, and with regard to services pursuant to Articles 2 and 3 of this chapter when such services are provided as an administrative expense.

13931. If the physical or mental condition of a recipient of aid is such that he requires services under this chapter or other special services, he shall be entitled to an additional allowance in his behalf in an amount sufficient to provide for the payment of those services, but not to exceed three hundred dollars ($300) in any month.

13932. When, and during such times as, the provisions of the Federal Social Security Act authorize the state to claim federal reimbursement for services rendered in behalf of re-

cipients of aid, the department is authorized to set forth plans and implementing regulations to provide for payments to be made in behalf of, or services to be rendered for recipients of aid to cover all of the benefits authorized under this chapter instead of the cash payments made to the recipient. Payment of cash assistance authorized under the relevant chapter under which a recipient qualifies for aid shall be limited to those needs not covered by provisions of this chapter. The department shall establish maximum amounts for personal and incidental needs when such incidental allowances are the only need of the recipient. The amount so established shall be subject to increases in accordance with the cost of living increase formula set forth in each assistance category.

SEC. 2. The provisions of this act shall be operative under a developmental plan established by the Administrator of the Health and Welfare Agency and approved by the State Department of Finance. The purpose of this plan shall be to provide an orderly development of the service on a county-by-county basis to prevent an interruption in the existing services and to provide a means whereby the cost implications in terms of shifting of caseload from nursing homes to nonmedical care homes and in terms of any possible impact on increasing the rate structure for nonmedical care facilities without affecting such transfer can be clearly observed and reported to the Legislature for corrective legislative action.

CHAPTER 1400

An act to add Article 5 (commencing with Section 11170) to Chapter 1 of Part 3 of Division 9 of the Welfare and Institutions Code, relating to public assistance, and making an appropriation therefor.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 11170) is added to Chapter 1 of Part 3 of Division 9 of the Welfare and Institutions Code, to read:

Article 5. Homemaker Services

11170. The department shall establish a program of homemaker services in cooperation with the county welfare department in each county of the state where such service is essential to maintaining recipients of public assistance in their own home in preference to placement in protective living arrangements.

In developing these services, the department shall program a plan for the orderly development of the service on a county-

by-county basis to the end that service becomes available in all counties of the state.

11171. A county plan shall provide for employment of homemakers as a regular part of county welfare department staff in accordance with established county civil service requirements or merit system requirements for those counties not having civil service. Priority shall be given to training recipients of public assistance to meet the requirements for employment in preference to the recruitment of homemakers by other means.

In the event that it is not consistent with the efficient administration to recruit, train and employ homemakers as regular county employees, the service may be provided pursuant to contract with a voluntary nonprofit agency. Such a contract shall include a provision that assures preference will be given to the employment of recipients of public assistance.

11172. The county welfare department shall file a certificate with the department stating that they have developed a plan pursuant to Section 11171. Notwithstanding the provisions of Section 12152, 12652, or 13700, upon approval of the county plan by the department, no further public assistance allowances shall be made by such county to allow recipients to employ homemaker or attendant care services. State funds appropriated to such county pursuant to the provisions of Sections 15201 to 15204, inclusive, for that purpose are hereby appropriated to the county for the purpose of providing homemaker services pursuant to this article.

CHAPTER 1401

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the General Fund the amount of four hundred forty thousand dollars ($440,000) to the Department of Parks and Recreation for the acquisition of Red Rock Canyon in Kern County for inclusion in the state park system. Such acquisition shall be subject to the provisions of the Property Acquisition Law.

An act to amend Section 2600 of, and to repeal Sections 2601 and 2602 of, the Penal Code, relating to civil rights.

The people of the State of California do enact as follows:

SECTION 1. Section 2600 of the Penal Code is amended to read:

2600. A sentence of imprisonment in a state prison for any term suspends all the civil rights of the person so sentenced, and forfeits all public offices and all private trusts, authority, or power during such imprisonment. But the Adult Authority may restore to said person during his imprisonment such civil rights as the authority may deem proper, except the right to act as a trustee, or hold public office or exercise the privilege of an elector or give a general power of attorney.

Between the time of the imposition of a sentence of imprisonment in a state prison for any term and the time the said person commences serving such sentence, the judge who imposed such sentence may restore to said person for said period of time such civil rights as the judge may deem proper, except the right to act as a trustee, or hold public office or exercise the privilege of an elector or give a general power of attorney.

This section shall be construed so as not to deprive such person of the following civil rights, in accordance with the laws of this state:

(1) To inherit real or personal property.

(2) To correspond, confidentially, with any member of the State Bar, or holder of public office, provided that the prison authorities may open and inspect such mail to search for contraband.

(3) To own all written material produced by such person during the period of imprisonment.

(4) To purchase, receive, and read any and all newspapers, periodicals, and books accepted for distribution by the United States Post Office. Pursuant to the provisions of this section, prison authorities shall have the authority to exclude obscene publications or writings, and mail containing information concerning where, how, or from whom such matter may be obtained; and any matter of a character tending to incite murder, arson, riot, violent racism, or any other form of violence; and any matter concerning gambling or a lottery. Nothing in this section shall be construed as limiting the right of prison authorities (i) to open and inspect any and all packages received by an inmate and (ii) to establish reasonable restrictions as to the number of newspapers, magazines, and

books that the inmate may have in his cell or elsewhere in the prison at one time.

SEC. 2. Section 2601 of the Penal Code is repealed.

The Legislature recognizes that certain property and rights owned by a recipient, including a recipient of aid to families with dependent children, are of negligible value in enabling the recipient to meet his present needs, and cannot be classified as available resources of the recipient. The Legislature also recognizes that the present value of such property and rights is at most nominal when considered for the purpose of computing the net worth of the individual. It is the purpose of this section to designate such property and rights.

For the purposes of evaluating the personal property of a recipient, the following items, in the aggregate, shall be deemed to have no value if the amount paid for the same does not exceed one thousand dollars ($1,000):

SECTION 1. Section 11008 of the Welfare and Institutions Code is amended to read:

To the maximum extent permitted by federal law, earned income of a recipient of aid under any public assistance program for which federal funds are available shall not be considered income or resources of the recipient, and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

In computing the amount of income determined to be available to support a recipient, the value of currently used resources shall be included but the value of casual income and inconsequential resources shall be excluded.

said other one-half were her separate property, except as provided in Section 296.3.

If a portion of the estate which was the community property of the husband and wife would otherwise escheat to the state under this section and Sections 201, 228, and 231 because there is no relative, including next of kin, of one of the spouses to succeed to such portion of the estate, such portion of the estate shall be distributed in equal shares to the children of the other spouse and to their descendants by right of representation, or if such other spouse leaves no children, nor descendants of a deceased child, in equal shares to the parents of such other spouse, or if either is dead to the survivor, or if both are dead, in equal shares to the brothers and sisters of such other spouse and to their descendants by right of representation, or if such other spouse leaves neither parent, brother, sister, nor descendant of a deceased brother or sister, such portion of the estate goes to the next of kin of such other spouse in equal degree, except that when there are two or more collateral kindred in equal degree, but claiming through different ancestors, those who claim through the nearest ancestor must be preferred to those claiming through an ancestor more remote.

SEC. 2. Section 904 of the Probate Code is amended to read:

904. Any executor or administrator, at any time after four months from the issuance of letters testamentary or of administration, and upon such notice to the persons interested in the estate as the court or a judge thereof shall require, may apply to the court for an allowance upon his commissions; and on the hearing the court shall make an order allowing him such portion of his commissions, for services rendered up to that time, as the court shall deem proper, and the portion so allowed may be thereupon charged against the estate.

SEC. 4. Section 1 of this act shall apply to any portion of an estate which on the effective date of this act has not vested absolutely in the state or has not permanently escheated to the state, whether the decedent died before or after such date.

11503. Home care shall be provided by mothers of other needy children as part of a work incentive program whenever possible, and otherwise by other mothers receiving aid under this part who are qualified to provide such care. No person shall provide home care for more than six children at one time.

11504. A person providing home care shall be compensated at the prevailing rate in the community and at a rate no less than the federal minimum wage for such services, subject to funds available for compensation of such person.

11505. The department shall set standards of health, safety, and quality of home care in its regulations.

11506. A needy child shall qualify for home care during such times as the child's mother is away from the home because she is participating in a rehabilitation, community work and training or work incentive program, or is actively seeking employment, and there is no other person living in the child's home capable of providing such care.

11507. Notwithstanding the provisions of Section 15200, state funds appropriated to a county pursuant to that section, to the extent such funds would otherwise be paid to recipients under this chapter as grant allowances for home care for needy children, shall be used by the county to purchase such services on behalf of such recipients as provided in this article, and such funds shall constitute the total nonfederal contribution for the costs of home care for needy children.

Programs may be maintained only by the governing board of a district in an elementary school in which 15 or more pupils in that school of the district are unable, at the time of enrollment for the second year in a California school, not counting kindergarten, to speak, understand, read or write the English language well enough to carry on the normal class activities of the grade in which he is enrolled.

The section shall not apply to pupils participating in a class in a compensatory education program of the district or other program funded through federal or state moneys for low-income or disadvantaged pupils.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.4 (commencing with Section 31261) is added to Division 22 of the Education Code, to read:

CHAPTER 4.4. COLLEGE OPPORTUNITY GRANT PROGRAM

31261. (a) The Legislature finds and declares that because of financial and home and community environmental conditions numerous students with substantial potential for success in college and for future leadership in the community are un-

able to pursue a higher education and attain their full educational potential. It further recognizes that to effectively combat the forces which prevent these students from pursuing a higher education different programs and methods must be tried. There is hereby created a state financial assistance program to be known as the "College Opportunity Grant Program." It is the purpose of this program to provide financial assistance for undergraduate study to disadvantaged students who are not necessarily able to avail themselves of present state competitive scholarships by the use of conventional selection methods, pursuant to Chapter 3 (commencing with Section 31201) of this division.

(b) The Legislature further recognizes that the role of the community or junior colleges, as the least expensive level of California higher education, is a crucial role in increasing the higher education opportunities for disadvantaged students, and it is the intent of the Legislature that the additional opportunities for higher education provided pursuant to this chapter shall be initiated primarily on the public community or junior college level.

31262. The College Opportunity Grant Program shall be a pilot demonstration program administered by the State Scholarship and Loan Commission, which shall adopt rules and regulations necessary or appropriate to effectuate the provisions of this chapter and may use experimental methods and subjective judgments as well as conventional selection methods.

31263. There shall be available up to 1,000 grants in each of the fiscal years 1969–70, 1970–71, 1971–72, and 1972–73, and the recipients of such grants shall be eligible for renewal of their awards until they have completed an A.B. degree or its equivalent in conformance with the terms prescribed by the State Scholarship and Loan Commission, which terms shall not be in conflict with this chapter. Such grants may be awarded to eligible students who attend public junior colleges for vocational purposes terminating with a two-year course of study.

31264. To be eligible for a grant under this chapter, a student shall meet all of the following:

(a) Be a disadvantaged student under criteria to be established by the State Scholarship and Loan Commission, which shall take into consideration those financial, educational, cultural, language, home, community, environmental, and other conditions which tend to make difficult the gaining access to and persisting in postsecondary programs.

(b) Be in need of financial assistance to attend college.

(c) Have demonstrated substantial potential for successfully participating at an institution of higher education and for future leadership in the community.

(d) Be a resident of the State of California, as defined in subdivision (a) of Section 31203.

(e) Be a citizen of the United States or have been admitted to permanent residence.

(f) Be admitted to and enroll in a California public community or junior college or a California public or private college accredited by the Western Association of Schools and Colleges as a full-time undergraduate student.

(g) Maintain satisfactory progress toward a degree and eligibility as defined by the State Scholarship and Loan Commission.

31265. Grants awarded under this chapter shall be for living expenses, transportation, supplies and books, according to the student's financial need, and shall not be in excess of one thousand one hundred dollars ($1,100) per academic year. The State Scholarship and Loan Commission may also award such grants and an additional amount to pay tuition and fees to students who attend college at a public or private four-year college or university.

31266. The State Scholarship and Loan Commission shall submit to the Legislature at its 1970 Regular Session, and at each regular session thereafter until the program under this chapter is completed, an evaluation of the operation of the College Opportunity Grant Program. The commission shall not award any additional grants for any fiscal years other than those specified in Section 31263 unless there is specific authorization by the Legislature to continue the awarding of college opportunity grants pursuant to this chapter.

31267. The commission is hereby authorized to accept and receive any federal funds made available under any act of Congress for purposes of this chapter, and to participate in any federal program under such act of Congress in order to secure such funds. The commission shall assist any person eligible for a grant under this chapter to secure or obtain any scholarships or loans which such person might be eligible to receive, in order to minimize the expense of this program to the State of California.

CHAPTER 1411

An act to amend Section 1777.5 of the Labor Code, relating to public works.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 1777.5 of the Labor Code is amended to read:

1777.5. Nothing in this chapter shall prevent the employment of properly indentured apprentices upon public works.

Every such apprentice shall be paid the standard wage paid to apprentices under the regulations of the craft or trade at which he is employed, and shall be employed only at the work of the craft or trade to which he is indentured.

Only apprentices, as defined in Section 3077, who are in training under apprenticeship standards and written apprentice agreements under Chapter 4 (commencing at Section 3070), Division 3, of the Labor Code, are eligible to be employed on public works. The employment and training of each apprentice shall be in accordance with the provisions of the apprenticeship standards and apprentice agreements under which he is training.

When the contractor to whom the contract is awarded by the state or any political subdivision, or any subcontractor under him, in performing any of the work under the contract or subcontract, employs workmen in any apprenticeable craft or trade, the contractor and subcontractor shall apply in each such case to the joint apprenticeship committee administering the apprenticeship standards of the craft or trade in the area of the site of the public work for a certificate approving the contractor or subcontractor under the apprenticeship standards for the employment and training of apprentices in the area of the site of the public work. The committee shall issue a certificate fixing the number of apprentices or the ratio of apprentices to journeymen who shall be employed in the craft or trade on the public work. The ratio shall not exceed that stipulated in the apprenticeship standards under which the joint apprenticeship committee operates, but in no case shall the ratio be less than one apprentice for each five journeymen, except as otherwise provided in this section.

The contractor or subcontractor, if he is covered by this section, shall, upon the issuance of the approval certificate in each such craft or trade, employ the number of apprentices or the ratio of apprentices to journeymen fixed in the certificate issued by the joint apprenticeship committee. Upon proper showing by the contractor that he employs apprentices in such craft or trade in the state on all of his contracts on an annual average of not less than one apprentice to each eight journeymen, the Division of Apprenticeship Standards shall grant a certificate exempting the contractor from the one-to-five ratio as set forth in this section.

"Apprenticeable craft or trade," as used in this section, shall mean a craft or trade determined as an apprenticeable occupation in accordance with rules and regulations prescribed by the Apprenticeship Council. The provisions of this section, in the discretion of the joint apprenticeship committee, shall not apply within a joint apprenticeship training area:

(a) In the event unemployment for the previous three-month period in such area exceeds an average of 15 percent, or

(b) In the event the number of apprentices in training in such area exceeds a ratio of one to five, or

(c) If there is a showing that the apprenticeable craft or trade is replacing at least one-thirtieth of its journeymen annually through apprenticeship training, either (1) on a statewide basis, or (2) on a local basis.

A contractor to whom the contract is awarded, or any subcontractor under him, who, in performing any of the work under the contract, employs journeymen or apprentices in any apprenticeable craft or trade and who is not contributing to a fund or funds to administer and conduct the apprenticeship program in any such craft or trade in the area of the site of the public work, to which fund or funds other contractors in the area of the site of the public work are contributing, shall contribute to the fund or funds in each craft or trade in which he employs journeymen or apprentices on the public work in the same amount or upon the same basis and in the same manner as the other contractors do. The contractor or subcontractor may add the amount of such contributions in computing his bid for the contract. The Division of Labor Law Enforcement is authorized to enforce the payment of such contributions to the fund or funds as set forth in Section 227.

The body awarding the contract shall cause to be inserted in the contract stipulations to effectuate this section.

In the event a contractor willfully fails to comply with this section, such contractor shall be denied the right to bid on a public works contract for a period of six months from the date the determination is made.

The interpretation and enforcement of this section shall be in accordance with rules and procedures prescribed by the Apprenticeship Council.

CHAPTER 1412

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 20750.141 is added to the Government Code, to read:

The contribution to the retirement fund of a public employer subject to Section 20750.1, with respect to miscellaneous members provided by any and all other provisions of this chapter is increased by a sum equal to four-hundredths (0.04) of 1 percent of the compensation paid such members by such employer.

The section shall supersede the provisions of Section 21367.5 as to the retired employees of the state and as to the retired employees of any contracting agency which has elected to be subject to the provisions of this section.

This section shall not apply to the retired employees of any contracting agency nor to any such agency unless and until the contracting agency elects to be subject to its provisions by amendment to its contract with the board, made as provided in Section 20461.5, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

CHAPTER 1413

An act to add Article 7.2 (commencing with Section 1068) to Chapter 3 of Division 4 of the Education Code, relating to cooperative improvement programs.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 7.2 (commencing with Section 1068) is added to Chapter 3 of Division 4 of the Education Code, to read:

Article 7.2. Cooperative Improvement Programs

1068. It is the intent and purpose of the Legislature in enacting this chapter to encourage local school districts to improve their educational systems and to enrich their educational offerings by utilizing, whenever possible and appropriate, resources which exist in the community. Such resources may include, but not be limited to, business, industry, institutions of higher learning, private consulting firms, other school districts, the University of California, or the State of California itself. In the implementation of this chapter, particular emphasis is to be placed upon programs oriented toward agriculture, science, business and commerce, vocational education, teacher training, and, with reference to school district administration, development of modern budgetary techniques, such as program planning and budgeting.

1068.1. Upon approval by the State Board of Education, local school districts, or schools within local districts, may enter into cooperative or contractual arrangements with business, industry, or elements within the community for improvement of the local education program. Such arrangements may include evaluation, planning, cooperation in the operation of educational programs, and use of noncertificated personnel, including the elderly, youth, college students, and other nonprofessionals.

1068.2. Approval by the State Board of Education of such proposals shall be based upon the recommendation of the State Superintendent of Public Instruction.

1068.3. Nothing in this chapter is intended to modify the law with respect to experimental mathematics and reading programs established under the McAteer Act (Chapter 6.5 (commencing with Section 6450) of Division 6) or is to be construed to authorize school districts to contract for services required to be performed by classified school employees.

1068.4. The Department of Education shall select a consultant to assist local districts or schools in the preparation of proposals to be submitted to the board. Such assistance shall include the securing of outside funds, if necessary. The consultant shall also assist the Superintendent of Public Instruc-

tion in establishing rules, regulations, and guidelines for proposals of cooperative improvement programs, and to evaluate the progress of such programs once underway.

1068.5. The department shall encourage and seek out assistance from colleges and universities in order that college and university programs may be functional and effectively integrated with and provide assistance to the public schools.

1068.6. Planning grants may be made by the department, after approval by the State Board of Education, for the purposes of developing, submitting, and implementing the initial phases of a cooperative improvement program pursuant to this chapter; provided, that no such grant shall be made for other than actual costs, and no more than fifteen thousand dollars ($15,000) in such grants may be made in any biennium to any one recipient.

1068.7. The governing board of a school district, in its application, may request waiver of the provisions of any section or sections of this code relating to the educational programs or administrative functions described in Section 1068 if such waiver is necessary to establish and operate a program under this chapter. The need for a waiver shall be explained and justified in the application. The Superintendent of Public Instruction, with the approval of the State Board of Education, may grant, in whole, or in part, any such request.

CHAPTER 1414

An act to add Article 3.5 (commencing with Section 6475) to Chapter 6.5 of Division 6 of, and to add Article 3.6 (commencing with Section 13355) to Chapter 2 of Division 10 of, the Education Code, relating to teacher training.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 3.5 (commencing with Section 6475) is added to Chapter 6.5 of Division 6 of the Education Code, to read:

Article 3.5. Preservice and In-Service Training Programs for School Educational Personnel in Poverty-Area Schools

6475. The Legislature hereby declares that there is a need for enrichment in the training provided for teachers working in poverty areas in order that the objectives, organization, and structure, as well as the methodology, of the instructional program in such areas may be brought into harmony with the needs of the educationally disadvantaged. It is recognized that schools serving the educationally disadvantaged face serious

teacher recruitment problems as well as extreme difficulty in maintaining stability in their teaching staffs.

It is the purpose of this article to establish criteria to assist local school districts in developing a program to identify, recruit, and train teachers, principals, and other educational personnel who express a desire to serve in a school serving educationally disadvantaged pupils. Such a goal would be accomplished through a comprehensive program of preservice and in-service training for those who have the aptitude and motivation to serve as a corps of model teachers and instructional leaders equipped to handle the problems of the educationally disadvantaged. The Legislature recognizes that enriched, specialized instruction for participating teachers will:

(a) Increase the teacher's effectiveness.

(b) Provide enriched instruction for the pupils and serve as an example for other teachers.

(c) Significantly reduce state and local school district costs, resulting from the present teacher turnover and consequential teacher recruitment activities.

(d) Provide pupils with instruction conducive to educational, intellectual, and personal attainment.

(e) Improve community relations by providing teachers genuinely desirous of teaching in an urban core area.

The Legislature declares that a statewide cooperative effort is essential to the development of effective programs in recruitment, preservice, and in-service training of personnel for poverty-area schools, including substantial efforts by local school districts to make such programs available to selected school counselors, teachers' aides and home visitors.

6475.2. (a) For the purposes of this article, preservice training means the training provided for educational personnel who are about to enter upon their first year of employment in a position requiring certification qualifications in the public schools and who are to be employed in such a position in a poverty-area school

(b) For the purposes of this article, in-service training means training provided for educational personnel who have been employed in a position requiring certification qualifications in the district and who are to be employed, but are not currently employed, in such a position in a poverty-area school of the district.

6475 3. The governing board of any school district may submit an application through the Director of Compensatory Education to the State Board of Education to establish a preservice or in-service training program for any school or schools in areas designated as concentrated areas of poverty and social tension pursuant to Section 6482.

6475.4. Each application shall include the following:

(a) A comprehensive plan for the development, administration, and evaluation of a preservice or in-service training program, which indicates that such program is an integral part of the district's total compensatory education program.

(b) A detailed budget of anticipated expenditures of the entire program, including costs for staff, consultants, materials, equipment and supplies, and the fees and tuition of the colleges or universities participating in the training program, and available revenue from federal, state, and private sources.

(c) The names, positions, and educational qualifications of the teachers, principals, counselors, teacher aides and other personnel nominated by the governing board of the school district to participate in the program.

(d) Applications of the district after the establishment of a training program in a previous year shall reflect program improvements based on the evaluation of earlier programs.

6475.5. The governing board may contract for resource personnel essential to the training program and, with the participating college or university, for consultant and educational services.

6475.6. The Superintendent of Public Instruction, upon the recommendation of the Director of Compensatory Education and with the approval of the State Board of Education, shall prescribe rules and regulations for the administration of this article.

6475.7. The Superintendent of Public Instruction shall allow to school districts an amount equal to the expenditures, in excess of the available revenue, detailed on the application as approved by the State Board of Education. Funds apportioned under this section shall only be used for the purposes of this article.

6475.8. The preservice or in-service programs established under this article shall meet the following specifications:

(a) The training period shall be for at least eight weeks.

(b) During each day of the first six weeks of the program, one-half of the scheduled program day shall be devoted to the professional training of each trainee participant with the other half of the program spent in demonstration teaching, classroom observation, and home visitation in the school to which the district expects to assign a trainee, whenever possible.

(c) The aim of this professional training shall be to develop (1) recognition of and sensitivity to student needs, (2) an ability to accurately diagnose deficiencies in the basic skill areas, such as reading and mathematics, and to prescribe corrective programs of instruction, and (3) an ability to guide the student to full development and attainment. To fulfill this aim, the professional training shall be a course of study which includes study in one or more of the following areas, at the discretion of, and in accordance with, the needs of the local school district: (1) psychology of the disadvantaged child, (2) sociology of the poverty area, (3) language problems in various cultures, (4) culture of minorities, (5) learning disabilities of the educationally disadvantaged minor, (6) learning patterns of the culturally deprived minor, (7) self-image and achievement, and (8) intergroup relations.

(d) During the final two weeks, at least one-half of the scheduled program day shall be devoted to seminars, workshops, and home visitations, as may be deemed desirable by the local school district. Such activities shall be conducted, whenever possible, in the schools to which the trainees may be assigned.

6475.9. The evaluation of the training program shall indicate the changes in teacher and pupil behavior as a result of the program, evaluated as follows:

(a) An attitude inventory, as selected or developed by the State Board of Education, to be given to each trainee before and after completion of the program.

(b) Objective and subjective analysis as recorded from the trainees, instructors, resource personnel and staff, district administrators, and the pupils and parents involved in the program.

(c) The effectiveness of the trainee at the completion of the program and at the end of the first and second semesters of teaching in a poverty-area school, to be made by the principal and other school personnel supervising the trainee.

6476. The governing board of a school district establishing a preservice or in-service training program shall provide training or evaluation seminars and other forms of professional improvement as followthrough training experience for trainees in the school year immediately succeeding participation in such training program.

6476.1. The school district may nominate and contract for the services of personnel who have received training in a preservice or in-service training program for advanced training, or as resource personnel in later training programs.

6476.2. The governing board of a school district may accept on behalf of, and in the name of, the district such funds and gifts as are made to the district by private organizations or groups for the establishment of a training program pursuant to this article.

SEC. 2. Article 3.6 (commencing with Section 13355) is added to Chapter 2 of Division 10 of the Education Code, to read:

Article 3 6. Professional Development and Program Improvement Act of 1968

13355. This article may be cited as the Professional Development and Program Improvement Act of 1968.

13355 1. It is the intent of the Legislature that professional development and program improvement centers be established throughout the state to offer comprehensive in-service and preservice training programs to strengthen the instructional techniques of classroom teachers in kindergarten and grades 1 through 6, inclusive, and of those teachers who will be entering classroom teaching in the same grade levels from teacher training institutions in California and from out-

side of the state. It is also the intention of the Legislature that the professional development and program improvement centers shall emphasize the improvement of teaching and programs in reading and mathematics, improve the teacher's skills in diagnosing learning disabilities of pupils, and develop corrective programs of instruction.

It is also the intention of the Legislature that in sparsely populated areas, involving long distances, in which the establishment of professional development and program improvement centers are not feasible, the in-service and preservice teacher training shall be provided under joint programs between school districts and county superintendents of schools to strengthen the instructional techniques of classroom teachers in kindergarten and grades 1 through 8 and of those teachers who will be entering classroom teaching in the same grade levels from teacher training institutions in California and from outside the state.

It is the further intention of the Legislature that all district, state, and federal resources related to teacher training be integrated and coordinated with preservice and in-service training programs established by this article in order to improve the educational achievement of pupils enrolled in both categorical aid programs and regular instructional programs.

13355.2. As used in this article:

(a) "Center" means a professional development and program improvement center which is an elementary school designated as such upon application of a school district by the State Board of Education. It is a school in which a program under either Title I of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act (Chapter 2.5 (commencing with Section 7770) of Division 7), or the mathematics improvement program (Chapter 2.6 (commencing with Section 7828) of Division 7) is in operation.

(b) "Satellite school" means any other school or schools in the district designated as such by the district and approved by the State Board of Education. Satellite schools shall be named in accordance with the priority measures established by Section 13355.6.

(c) "Program" means a professional development and program improvement center program established pursuant to this article.

(d) "Joint program" shall mean a program undertaken through joint agreement by two or more school districts or county superintendents of schools joined together for the purpose of providing in-service and preservice training to teachers, teaching kindergarten and grades 1 through 8 and to those teachers who will be entering classroom teaching in the same grade levels in the schools of the districts participating in the joint agreement.

13355.3. A school may be designated as a center when all of the following conditions are met:

(a) The director of the center, as appointed by the school district, has the concurrence of the cooperating teacher training institution;

(b) The professional staff proposed by the teacher training institution to coordinate the preservice training program of the teacher training institution at the site of the center has the concurrence of the applicant school district;

(c) The master teachers at the center have by qualification been determined by the State Department of Education to be outstanding teachers; and

(d) The center has at least the staff for auxiliary and administrative services that would be present in an adequately staffed school.

13355.4. Each school designated as a center shall employ a staff of teachers, administrative and auxiliary personnel, and teacher aides and shall provide training for such staff which serve as substitutes in the satellite school when the regular satellite school staff is released for in-service training.

The center may also provide preservice training for teacher candidates from any teacher training institution, for teacher aides, and for preservice training of newly employed teachers from outside of the state.

13355.5. Any school district may apply to establish a center. The application shall be submitted to the State Board of Education and shall contain a detailed plan cooperatively developed with a teacher training institution and shall include all of the following:

(a) A description of the training program for the replacement teachers and administrative and auxiliary personnel attached to the center;

(b) A description of the in-service training program to be provided by the center to the staff of satellite schools on a regular rotational basis until all staff members of the satellite schools have participated in the center's in-service training program. "Staff of satellite schools" shall include specialist teachers in reading and mathematics regularly employed in such schools, and administrative and auxiliary personnel, and teacher aides;

(c) A description of the preservice training program to be provided to teacher candidates and new teachers from outside of the state;

13355.6. Satellite schools shall be designated and approved as those schools which meet all of the following criteria:

(a) The schools which have the largest concentration of pupils whose reading achievement scores fall below the first quartile, as measured by the most recently administered Miller-Unruh Basic Reading Test, or any other applicable statewide reading test, and those schools which have the largest concentration of pupils whose mathematic achievement scores fall below the first quartile as measured by applicable statewide mathematic achievement tests. In each satellite school, the district shall designate one or more master teachers to act as resource teachers in reading and mathematics and to work with other teachers in the strengthening of instructional techniques and program improvement;

(b) The schools shall maintain a summer session and integrate its instructional program with the preservice and inservice training program performed during the summer;

(c) The schools which have the largest concentration of teachers who will assure the district that they will continue to teach in the satellite schools for the second school year following their participation in the center program.

13355.61. A program proposed by a joint agreement may be considered when all the following conditions are met:

(a) The director of the program, as appointed by the joint agreement, has the concurrence of the cooperating teaching training institution.

13355.62. The designated agent of any joint program may apply to establish a program of in-service and preservice training for classroom teachers in lieu of applying to establish a center pursuant to Section 13355.5. The application shall contain a detailed plan cooperatively developed with a teacher training institution and shall include all of the following:

(a) A description of the training program for the staff employed by the joint program to provide in-service and preservice training in the schools of the participating districts.

(f) Assurance that joint programs shall be undertaken first in the schools of the participating districts which have (1) the largest concentration of pupils whose reading achievement scores fall in the first quartile, as measured by the most recently administered Miller-Unruh Basic Reading Test, or any other applicable statewide reading test, (2) the largest concentration of pupils whose mathematic achievement scores fall in the first quartile as measured by applicable statewide mathematic achievement tests, and (3) the largest concentration of teachers who will assure the district that they will continue to teach in the schools for the second school year following their participation in the program.

13355.7. The State Board of Education shall adopt rules and regulations necessary to implement the provision of this article, including the establishment of minimum standards for in-service and preservice programs offered.

Reports shall also be made revealing the amount of progress each pupil in satellite schools made for each year of instruction by teachers receiving in-service or preservice training in the centers. The State Board of Education, on the basis of such reports, shall report annually to the Legislature the success of the program and shall make recommendations to improve the program.

13355.10. Not later than the 1971–1972 fiscal year, the State Board of Education shall cause to be disseminated a description of and the results achieved from the exemplary programs conducted. Comprehensive information regarding such exemplary programs shall be distributed to each school

district of the state. The cost of preparing and disseminating such information shall be financed from funds allowed under Title III of the Elementary and Secondary Education Act of 1965.

13355.11. The State Board of Education shall establish procedures for allocating funds to support the preservice and in-service training programs authorized by this article.

13355.12. The federal funds may also be used: (1) to pay the salaries of the professional staff from the teacher training institutions who will be attached to each center, not to exceed the cost of two full-time equivalent positions for each center or joint program, and (2) to pay for other supporting services designed to strengthen the preservice and in-service training programs authorized by this act and by Public Law 90-35 (90th Congress) upon approval by the State Board of Education.

13355.15. There is hereby established within the Office of Compensatory Education a unit of Professional Development and Program Improvement which shall administer the provisions of this article and all programs financed under the provisions of Public Law 90-35 (90th Congress), Part B and Part D.

SEC. 3. [Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 14001.1 is added to the Education Code, to read:

14001.1. Notwithstanding the provisions of subdivision (h) of Section 14001, a regularly credentialed teacher who was a former member of the retirement system and who is employed only as an instructor in classes organized under the Economic Opportunity Act of 1964 may elect, with the approval of the governing board of the school district employing such teacher, to be a member of the retirement system.

CHAPTER 1416

An act to amend Section 19683 of the Education Code, relating to state school building aid.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 19683 of the Education Code is amended to read:

19683. Allocations under this article (Sections 19681 to 19689, inclusive) may be made in such amount as may be necessary, and in such manner as to distribute the available funds

equitably among school districts, giving consideration to the needs of each district and the number of children within each district who are blind, partially seeing, aphasic, deaf, hard of hearing, mentally retarded, orthopedically handicapped, cerebral palsied, speech handicapped, or educationally handicapped.

In computing the number of such children there shall be included:

(a) The number of them residing in the district.

(b) The number of handicapped minors who are actually living within the district five or more days a week, although their legal residence may be outside the district and who are educated pursuant to Section 6805.

(c) The number of them who reside outside of the district, except those described in subdivision (b), and who are to be educated by the district, excluding mentally retarded minors within the provisions of Section 6902 who reside within a district having an average daily attendance of 900 or more and which does not meet the requirements of Section 19590 concerning outstanding bonded indebtedness.

Allocations for housing and equipment for minors having speech defects or disorders shall be allowed only in new schools constructed after July 1, 1968. Such housing and equipment shall be designed and provided to permit their utilization for remedial and other special services including speech therapy, speech reading (lipreading) and auditory training for the speech and hearing handicapped, screening and testing for speech and hearing defects, or both, psychological testing of exceptional children, subject matter tutoring of exceptional children, and other specialized activities required by such children. In addition to the maximum building area allowances provided in Sections 19583, 19585, 19586, and 19587, not more than an additional 200 square feet of building area shall be allowed for each new school so planned and constructed.

SEC. 2. The estimated increased cost of this act to the State General Fund which is intended to relieve local government from the necessity of making expenditures from revenues derived from property taxation is determined to be two hundred thousand dollars ($200,000) in 1968–69 and shall constitute an appropriation for property tax relief in that amount within the meaning of Section 64 of Chapter 1209 of the Statutes of the 1967 Regular Session of the Legislature, as amended by Section 4 of Chapter 408 of the Statutes of the 1968 Regular Session of the Legislature.

CHAPTER 1417

An act to amend Sections 17101, 17102, 17103, 17104, 17105, 17106, 17107, 17107.5, 17108, 17132, 17503, 17504, 17506, 17511, 17512, 18045 and 18802 of, and to add Sections 17109, 17110, 17111, 17112, 17838 and 18057 to, the Revenue and Taxation Code, relating to personal income taxes, to take effect immediately, tax levy.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 17101 of the Revenue and Taxation Code is amended to read:

17101. Except as otherwise provided in this part, gross income includes any amount received as an annuity (whether for a period certain or during one or more lives) under an annuity, endowment, or life insurance contract.

SEC. 2. Section 17102 of the Revenue and Taxation Code is amended to read:

17102. Gross income does not include that part of any amount received as an annuity under an annuity, endowment, or life insurance contract which bears the same ratio to such amount as the investment in the contract (as of the annuity starting date) bears to the expected return under the contract (as of such date). This section shall not apply to any amount to which Section 17104(a) (relating to certain employee annuities) applies.

SEC. 3. Section 17103 of the Revenue and Taxation Code is amended to read:

17103. (a) For purposes of Section 17102, the investment in the contract as of the annuity starting date is—

(1) The aggregate amount of premiums or other consideration paid for the contract, minus

(2) The aggregate amount received under the contract before such date, to the extent that such amount was excludable from gross income under this part or prior income tax laws.

(b) If—

(1) The expected return under the contract depends in whole or in part on the life expectancy of one or more individuals;

(2) The contract provides for payments to be made to a beneficiary (or to the estate of an annuitant) on or after the death of the annuitant or annuitants; and

(3) Such payments are in the nature of a refund of the consideration paid;

then the value (computed without discount for interest) of such payments on the annuity starting date shall be subtracted from the amount determined under subdivision (a). Such value shall be computed in accordance with actuarial tables prescribed by the Franchise Tax Board. For purposes of this

section and of Section 17105(b)(1), the term "refund of the consideration paid" includes amounts payable after the death of an annuitant by reason of a provision in the contract for a life annuity with minimum period of payments certain, but (if part of the consideration was contributed by an employer) does not include that part of any payment to a beneficiary (or to the estate of the annuitant) which is not attributable to the consideration paid by the employee for the contract as determined under subdivision (a)(1).

(c) For purposes of Section 17102, the expected return under the contract shall be determined as follows:

(1) If the expected return under the contract, for the period on and after the annuity starting date, depends in whole or in part on the life expectancy of one or more individuals, the expected return shall be computed with reference to actuarial tables prescribed by the Franchise Tax Board.

(2) If subdivision (c)(1) does not apply, the expected return is the aggregate of the amounts receivable under the contract as an annuity.

(d) For purposes of Sections 17101 to 17112, inclusive, the annuity starting date in the case of any contract is the first day of the first period for which an amount is received as an annuity under the contract.

SEC. 4. Section 17104 of the Revenue and Taxation Code is amended to read:

17104. (a) Where—

(1) Part of the consideration for an annuity, endowment, or life insurance contract is contributed by the employer, and

(2) During the three-year period beginning on or after the annuity starting date, the aggregate amount receivable by the employee under the terms of the contract is equal to or greater than the consideration for the contract contributed by the employee,

then all amounts received as an annuity under the contract shall be excluded from gross income until there has been so excluded (under this article and prior income tax laws) an amount equal to the consideration for the contract contributed by the employee. Thereafter all amounts so received under the contract shall be included in gross income.

(b) For purposes of subdivision (a), if the employee died before any amount was received as an annuity under the contract, the words "receivable by the employee" shall be read as "receivable by a beneficiary of the employee."

(c) For certain rules for determining whether amounts contributed by employer are includable in the gross income of the employee, see Article 1 (commencing at Section 17501) of Chapter 5 of this part, relating to pension, profit-sharing, and stock bonus plans, etc.

SEC. 5. Section 17105 of the Revenue and Taxation Code is amended to read:

17105. (a) If any amount is received under an annuity, endowment, or life insurance contract, if such amount is not

received as an annuity, and if no other provision of this part applies, then such amount—

(1) If received on or after the annuity starting date, shall be included in gross income; or

(2) If subdivision (a)(1) does not apply, shall be included in gross income, but only to the extent that it (when added to amounts previously received under the contract which were excludable from gross income under this part or prior income tax laws) exceeds the aggregate premiums or other consideration paid.

For purposes of Sections 17101 to 17112, inclusive, any amount received which is in the nature of a dividend or similar distribution shall be treated as an amount not received as an annuity.

(b) For purposes of subdivision (a), the following shall be treated as amounts not received as an annuity:

(1) Any amount received, whether in a single sum or otherwise, under a contract in full discharge of the obligation under the contract which is in the nature of a refund of the consideration paid for the contract; and

(2) Any amount received under a contract on its surrender, redemption, or maturity.

In the case of any amount to which the preceding sentence applies, the rule of subdivision (a)(2) shall apply (and the rule of subdivision (a)(1) shall not apply).

SEC. 6. Section 17106 of the Revenue and Taxation Code is amended to read:

17106. In computing, for purposes of Section 17103(a)(1), the aggregate amount of premiums or other consideration paid for the contract, for purposes of Section 17104(a), the consideration for the contract contributed by the employee, and for purposes of Section 17105(a)(2), the aggregate premiums or other consideration paid, amounts contributed by the employer shall be included, but only to the extent that—

(a) Such amounts were includable in the gross income of the employee under this part or prior income tax laws; or

(b) If such amounts had been paid directly to the employee at the time they were contributed, they would not have been includable in the gross income of the employee under the law applicable at the time of such contribution.

SEC. 7. Section 17107 of the Revenue and Taxation Code is amended to read:

17107. Where any contract (or any interest therein) is transferred (by assignment or otherwise) for a valuable consideration, to the extent that the contract (or interest therein) does not, in the hands of the transferee, have a basis which is determined by reference to the basis in the hands of the transferor, then—

(a) For purposes of Sections 17101 to 17112, inclusive, only the actual value of such consideration, plus the amount of the premiums and other consideration paid by the transferee after the transfer, shall be taken into account in computing the

aggregate amount of the premiums or other consideration paid for the contract;

(b) For purposes of Section 17103(a)(2), there shall be taken into account only the aggregate amount received under the contract by the transferee before the annuity starting date, to the extent that such amount was excludable from gross income under this part or prior income tax laws.

For purposes of this section, the term "transferee" includes a beneficiary of, or the estate of, the transferee.

SEC. 8. Section 17107.5 of the Revenue and Taxation Code is amended to read:

17107.5. Sections 17102 and 17104 shall not apply in the case of amounts received after December 31, 1965, as an annuity under Chapter 73 of Title 10 of the United States Code, but all such amounts shall be excluded from gross income until there has been so excluded (under Section 17157(b)(1) or this section, including amounts excluded before January 1, 1966) an amount equal to the consideration for the contract (as defined by Section 17157(b)(2)), plus any amount treated pursuant to Section 17132(b)(4) as additional consideration paid by the employee. Thereafter all amounts so received shall be included in gross income.

SEC. 9. Section 17108 of the Revenue and Taxation Code is amended to read:

17108. If—

(a) A contract provides for payment of a lump sum in full discharge of an obligation under the contract, subject to an option to receive an annuity in lieu of such lump sum;

(b) The option is exercised within 60 days after the day on which such lump sum first became payable; and

(c) Part or all of such lump sum would (but for this section) be includable in gross income by reason of Section 17105(a);

then, for purposes of this part, no part of such lump sum shall be considered as includable in gross income at the time such lump sum first became payable.

SEC. 10. Section 17109 is added to the Revenue and Taxation Code, to read:

17109. Where an annuitant died after December 31, 1952, and before the annuity starting date, if such date is on or after January 1, 1968, and the basis of a surviving annuitant's interest in the joint and survivor annuity contract was determinable under Section 17746.5 of the Personal Income Tax Law of 1954 or Section 18045(f) then—

(a) Section 17104 shall not apply with respect to such contracts:

(b) For purposes of Sections 17101 to 17112, inclusive, the aggregate amount of premiums or other consideration paid for the contract is the basis of the contract determined under such Section 17746.5 of the Personal Income Tax Law of 1954 or Section 18045(f);

(c) For purposes of Section 17103(a)(2), there shall be taken into account only the aggregate amount received by the surviving annuitant under the contract before the annuity starting date, to the extent that such amount was excludable from gross income under this part or prior income tax laws.

SEC. 11. Section 17110 is added to the Revenue and Taxation Code, to read:

17110. Notwithstanding any other provision of Sections 17101 to 17112, inclusive, if any amount is held under an agreement to pay interest thereon, the interest payments shall be included in gross income.

SEC. 12. Section 17111 is added to the Revenue and Taxation Code, to read:

17111. (a) Sections 17101 to 17112, inclusive, shall not apply to so much of any payment under an annuity, endowment, or life insurance contract (or any interest therein) as is includable in the gross income of the wife under Sections 17081, 17082 and 17083 or Sections 17819 and 17820 (relating to income of an estate or trust in case of divorce, etc.).

(b) For definition of "wife," see Section 17021.

SEC. 13. Section 17112 is added to the Revenue and Taxation Code, to read:

17112. For purposes of Sections 17101 to 17112, inclusive, the term "endowment contract" includes a face-amount certificate, as defined in Section 2(a)(15) of the Investment Company Act of 1940 (15 U.S.C., Sec. 80a-2), issued after December 31, 1967.

SEC. 14. Section 17132 of the Revenue and Taxation Code is amended to read:

17132. (a) Gross income does not include amounts received (whether in a single sum or otherwise) by the beneficiaries or the estate of an employee, if such amounts are paid by or on behalf of an employer and are paid by reason of the death of the employee.

(b) (1) The aggregate amounts excludable under subdivision (a) with respect to the death of any employee shall not exceed five thousand dollars ($5,000).

(2) Subdivision (a) shall not apply to amounts with respect to which the employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living.

This subdivision shall not apply to total distributions payable (as defined in Section 17503(e)(3)) which are paid to a distributee within one taxable year of the distributee by reason of the employee's death—

(i) By a stock bonus, pension, or profit-sharing trust described in Section 17501 which is exempt from tax under Section 17631,

(ii) Under an annuity contract under a plan described in Section 17511, or

(iii) Under an annuity contract purchased by an employer which is an organization referred to in Section 23701d of this

code but only with respect to that portion of such total distributions payable which bears the same ratio to the amount of such total distributions payable which is (without regard to this section) includable in gross income, as the amounts contributed by the employer for such annuity contract which are excludable from gross income under Section 17512 bear to the total amounts contributed by the employer for such annuity contract.

(3) Subdivision (a) shall not apply to amounts received by a surviving annuitant under a joint and survivor's annuity contract after the first day of the first period for which an amount was received as an annuity by the employee (or would have been received if the employee had lived).

(4) In the case of any amount to which Sections 17101 to 17112, inclusive (relating to annuities, etc.), apply, the amount which is excludable under subdivision (a) (as modified by this subdivision) shall be determined by reference to the value of such amount as of the day on which the employee died. Any amount so excludable under subdivision (a) shall, for purposes of Sections 17101 to 17112, inclusive, be treated as additional consideration paid by the employee. Subdivision (a) shall not apply in the case of an annuity under Chapter 73 of Title 10 of the United States Code if the individual who made the election under such chapter died after attaining retirement age.

SEC. 15. Section 17503 of the Revenue and Taxation Code is amended to read:

17503. (a) Except as provided in subdivision (b), the amount actually distributed or made available to any distributee by any employees' trust described in Section 17501 which is exempt from tax under Section 17631 shall be taxable to him, in the year in which so distributed or made available, under Sections 17101 to 17112, inclusive, (relating to annuities). The amount actually distributed or made available to any distributee shall not include net unrealized appreciation in securities of the employer corporation attributable to the amount contributed by the employee. Such net unrealized appreciation and the resulting adjustments to basis of such securities shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

(b) In the case of an employees' trust described in Section 17501, which is exempt from tax under Section 17631, if the total distributions payable with respect to any employee are paid to the distributee within one taxable year of the distributee on account of the employee's death or other separation from the service, or on account of the death of the employee after his separation from the service, the amount of such distribution, to the extent exceeding the amounts contributed by the employee (determined by applying Section 17106), which employee contributions shall be reduced by any amounts theretofore distributed to him which were not includable in gross

income, shall be considered a gain from the sale or exchange of a capital asset held for more than six months.

Where such total distributions include securities of the employer corporation, there shall be excluded from such excess the net unrealized appreciation attributable to that part of the total distributions which consists of the securities of the employer corporation so distributed The amount of such net unrealized appreciation and the resulting adjustments to basis of the securities of the employer corporation so distributed shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

(c) For purposes of this section—

(1) The term "securities" means only shares of stock and bonds or debentures issued by a corporation with interest coupons or in registered form.

(2) The term "securities of the employer corporation" includes securities of a parent or subsidiary corporation (as defined in subdivisions (e) and (f) of Section 17535) of the employer corporation.

(3) The term "total distributions payable" means the balance to the credit of an employee which becomes payable to a distributee on account of the employee's death or other separation from the service, or on account of his death after separation from the service.

SEC. 16. Section 17504 of the Revenue and Taxation Code is amended to read:

17504. Contributions to an employees' trust made by an employer during a taxable year of the employer which ends within or with a taxable year of the trust for which the trust is not exempt from tax under Section 17631 shall be included in the gross income of an employee for the taxable year in which the contribution is made to the trust in the case of an employee whose beneficial interest in such contribution is nonforfeitable at the time the contribution is made. The amount actually distributed or made available to any distributee by any such trust shall be taxable to him, in the year in which so distributed or made available, under Sections 17101 to 17112, inclusive (relating to annuities).

SEC. 17. Section 17506 of the Revenue and Taxation Code is amended to read:

17506. Notwithstanding Section 17504 or any other provision of this part, a contribution to a trust by an employer shall not be included in the gross income of the employee in the year in which the contribution is made if—

(a) Such contribution is to be applied by the trustee for the purchase of annuity contracts for the benefit of such employee;

(b) Such contribution is made to the trustee pursuant to a written agreement entered into prior to September 1, 1943, between the employer and the trustee, or between the employer and the employee; and

(c) Under the terms of the trust agreement the employee is not entitled during his lifetime, except with the consent of the trustee, to any payments under annuity contracts purchased by the trustee other than annuity payments.

The employee shall include in his gross income the amounts received under such contracts for the year received as provided in Sections 17101 to 17112, inclusive (relating to annuities). This section shall have no application with respect to amounts contributed to a trust after June 1, 1951, if the trust on such date was exempt under Sections 18156 to 18167, inclusive, of the Personal Income Tax Law of 1954. For purposes of this section, amounts paid by an employer for the purchase of annuity contracts which are transferred to the trustee shall be deemed to be contributions made to a trust or trustee and contributions applied by the trustee for the purchase of annuity contracts; the term "annuity contracts purchased by the trustee" shall include annuity contracts so purchased by the employer and transferred to the trustee; and the term "employee" shall include only a person who was in the employ of the employer, and was covered by the agreement referred to in subdivision (b) prior to September 1, 1943.

SEC. 18. Section 17511 of the Revenue and Taxation Code is amended to read:

17511. Except as provided in subdivision (a), if an annuity contract is purchased by an employer for an employee under a plan which meets the requirements of Section 17515 (whether or not the employer deducts the amounts paid for the contract under such section), the employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17112, inclusive (relating to annuities).

(a) If—

(1) An annuity contract is purchased by an employer for an employee under a plan described in the first paragraph;

(2) Such plan requires that refunds of contributions with respect to annuity contracts purchased under such plan be used to reduce subsequent premiums on the contracts under the plan; and

(3) The total amounts payable by reason of an employee's death or other separation from the service, or by reason of the death of an employee after the employee's separation from the service, are paid to the payee within one taxable year of the payee,

then the amount of such payments, to the extent exceeding the amount contributed by the employee (determined by applying Section 17106), which employee contributions shall be reduced by any amounts theretofore paid to him which were not includable in gross income, shall be considered a gain from the sale or exchange of a capital asset held for more than six months.

(b) For purposes of subdivision (a), the term "total amounts" means the balance to the credit of an employee which becomes payable to the payee by reason of the employee's death or other separation from the service, or by reason of his death after separation from the service.

SEC. 19. Section 17512 of the Revenue and Taxation Code is amended to read:

17512. (a) (1) If—

(A) An annuity contract is purchased—

(i) For an employee by an employer described in Section 23701d which is exempt from tax under Section 23701, or

(ii) For an employee (other than an employee described in clause (A)(i)), who performs services for an educational institution (as defined in Section 17150(c)), by an employer which is a state, a political subdivision of a state, or an agency or instrumentality of any one or more of the foregoing;

(B) Such annuity contract is not subject to Section 17511, and

(C) The employee's rights under the contract are nonforfeitable, except for failure to pay future premiums,

then amounts contributed by such employer for such annuity contract on or after such rights become nonforfeitable shall be excluded from the gross income of the employee for the taxable year to the extent that the aggregate of such amounts does not exceed the exclusion allowance for such taxable year. The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17112, inclusive (relating to annuities).

(2) For purposes of this section, the exclusion allowance for any employee for the taxable year is an amount equal to the excess, if any, of—

(A) The amount determined by multiplying (i) 20 percent of his includable compensation, by (ii) the number of years of service, over

(B) The aggregate of the amounts contributed by the employer for annuity contracts and excludable from the gross income of the employee for any prior taxable year.

(3) For purposes of this section, the term "includable compensation" means, in the case of any employee, the amount of compensation which is received from the employer described in paragraph (1)(A), and which is includable in gross income (computed without regard to Section 17139(d)) for the most recent period (ending not later than the close of the taxable year) which under paragraph (4) may be counted as one year of service. Such term does not include any amount contributed by the employer for any annuity contract to which this section applies.

(4) In determining the number of years of service for purposes of this section, there shall be included—

(A) One year for each full year during which the individual was a full-time employee of the organization purchasing the annuity for him, and

(B) A fraction of a year (determined in accordance with regulations prescribed by the Franchise Tax Board) for each full year during which such individual was a part-time employee of such organization and for each part of a year during which such individual was a full-time or part-time employee of such organization.

In no case shall the number of years of service be less than one

(5) If for any taxable year of the employee this section applies to two or more annuity contracts purchased by the employer, such contracts shall be treated as one contract.

(6) For purposes of this section and Section 17106 (relating to special rules for computing employees' contributions to annuity contracts), if rights of the employee under an annuity contract described in subparagraphs (A) and (B) of paragraph (1) change from forfeitable to nonforfeitable rights, then the amount (determined without regard to this subdivision) includable in gross income by reason of such change shall be treated as an amount contributed by the employer for such annuity contract as of the time such rights become nonforfeitable.

(b) If an annuity contract purchased by an employer for an employee is not subject to Section 17511 and the employee's rights under the contract are nonforfeitable, except for failure to pay future premiums, the amount contributed by the employer for such annuity contract on or after such rights become nonforfeitable shall be included in the gross income of the employee in the year in which the amount is contributed. The employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17112, inclusive, (relating to annuities).

shall, to the extent included in gross income under Sections 17101 to 17112, inclusive, be considered as amounts included in gross income under Sections 17831 to 17834, inclusive.

(b) In determining the net value for inheritance tax purposes under Section 17837(b) for purposes of this section, the value for inheritance tax purposes of the items described in subdivision (a) shall be computed—

(1) By determining the excess of the value of the annuity at the date of the death of the deceased annuitant over the total amount excludable from the gross income of the surviving annuitant under Sections 17101 to 17112, inclusive, during the surviving annuitant's life expectancy period, and

(2) By multiplying the figure so obtained by the ratio which the value of the annuity for inheritance tax purposes bears to the value of the annuity at the date of the death of the deceased.

(c) For purposes of this section—

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 5756 of the Education Code is amended to read:

5756. For the purpose of crediting attendance for apportionments from the State School Fund during the fiscal year, "adult" means any person who has attained his 21st birthday on or before September 1st or February 1st of the semester or quarter for which he has enrolled, and who has enrolled in less than 10 class hours as defined in Section 11480 for junior college districts or 10 periods of not less than 40 minutes each per week for high school districts.

SEC. 2. Article 5.5 (commencing with Section 11475) is added to Chapter 3 of Division 9 of the Education Code, to read:

Article 5.5. Junior College Attendance

11475. The units of average daily attendance of pupils resident of a junior college district enrolled in 13th- and 14th-grade courses during the academic year, as defined in Section 25511.5, exclusive of adults as defined in Section 5756, shall be computed by computing the mean average of the quotients derived in each semester or quarter by dividing by 15 the product obtained by multiplying a factor as determined by the Department of Finance in cooperation with the Board of Governors of the California Community Colleges, to represent the relationship of weekly student contact hours, as averaged between two attendance counts per semester or quarter, to average daily attendance, by the sum of the total number of class hours for which pupils are regularly enrolled as recorded for the fourth week of six consecutive schooldays each semester or quarter.

Such factor shall be reviewed from time to time by the Department of Finance in cooperation with the Board of Governors of the California Community Colleges.

Attendance of such pupils in classes held on Saturday shall be used in the computation of average daily attendance only for courses which are recognized upon transfer to an accredited college or university and any vocational education course, provided that any such course is also conducted for at least two class hours on separate days during the regular five-day school week.

11476 The attendance of adults as defined in Section 5756 shall be kept separately from all other attendance. The units of average daily attendance of adults resident of the junior college district enrolled in regular 13th- and 14th-grade courses during the academic year shall be computed in the manner prescribed in Section 11475 except that the factor prescribed therein shall be adjusted as required to reflect the attendance of resident adults. The attendance of such resident adults in summer schools and classes for adults shall be computed in the manner prescribed in Sections 11479 and 11501, respectively.

11477. The attendance of all pupils not residents of a junior college district, including adults as defined by Section 5756, enrolled in regular 13th- and 14th-grade courses during the academic year shall be kept separately from all other attendance and the units of average daily attendance for such pupils and adults shall be computed on an individual basis in the manner prescribed in Section 11475 except that for adults the factor shall be adjusted as required in Section 11476.

The units of average daily attendance of pupils and adults not residents of the junior college district enrolled in summer schools and classes for adults shall be kept separately from all other attendance and be computed on an individual basis in the manner prescribed in Section 11479 and Section 11501, as appropriate.

11478. Each junior college district shall report to the Superintendent of Public Instruction on forms prepared by the Department of Education, in addition to all other attendance data as required, and cumulative enrollment, the active enrollment and the contact hours of all students enrolled in 13th- and 14th-grade courses of summer school and show the relationship of attendance to contact hours for the second week of the summer session. The total number of whole and partial class hours of attendance and related contact hours of students enrolled in such 13th- and 14th-grade courses of less than the full summer session shall be reported separately for the week.

The Superintendent of Public Instruction shall adopt rules and regulations defining the terms "active enrollment," "contact hours," and "cumulative enrollment," for the purposes of this section.

For the purposes of this section and of Sections 11102, 11475, 11476, and 11477, the term "13th- and 14th-grade courses" has the same meaning as that presented in the "Criteria and Standards for Graded Junior College Courses in Grades 13 and 14" in Section 131.5 of Title 5 of the California Administrative Code.

11479. The units of average daily attendance of pupils, including adults as defined in Section 5756, enrolled in summer schools shall be computed by dividing the total class hours of attendance by 525.

11480. For purposes of this article, the class hour unit is defined as not less than 50 minutes exclusive of passing time.

For any class period scheduled for more than one clock hour, 50 minutes of attendance or enrollment, as appropriate, during each clock hour shall represent one class hour but the sum of the class hours of attendance shall not be more than the scheduled number of clock hours in the period.

The State Board of Education may, by rule and regulation, make any and all other provisions necessary to carry out the provisions of this article.

11481. The total units of average daily attendance in the junior colleges of a district shall be the total of units of average daily attendance computed under Sections 11475, 11476, 11477, 11479, and 11482.

11482. The units of average daily attendance in the 11th and 12th grades of each four-year junior college of the district shall be computed by dividing the total number of days of pupils' attendance in such grades of the junior college during the fiscal year by the number of days school was actually taught in the regular day junior colleges of the district during the fiscal year.

SEC. 2.5. Article 5 (commencing with Section 11451) of Chapter 3 of Division 9 of the Education Code is repealed.

SEC. 3. Section 17601.1 of the Education Code is amended to read:

Such average daily attendance shall be computed by dividing the days of attendance by 175. For junior colleges, the hours of attendance shall be divided by 525, and the average daily attendance shall not exceed 1.2 times the total number of different pupils enrolled in the district in the summer school.

(d) The attendance for schools and classes maintained by the county superintendent of schools and for the county school tuition fund credited after the last full school month of the second period of the preceding year and prior to the end of each reporting period shall be reported on each report. (1) If the property mentioned in Sections 690.1 to 690.25, inclusive, shall be levied upon under writ of attachment or execution, the defendant or judgment debtor (herein referred to as "the debtor"), in order to avail himself of his exemption rights as to such property, shall deliver to the levying officer an affidavit of himself or his agent, together with a copy thereof, alleging that the property levied upon, identifying it, is exempt, specifying the section or sections of this code on which he relies for his claim to exemption, and all facts necessary to support his claim, and also stating therein his address within this state for the purpose of permitting service by mail upon him of the counteraffidavit and any notice of the motion herein provided.

(2) Forthwith upon receiving the affidavit of exemption the levying officer shall serve upon the plaintiff or the person in whose favor the writ runs (herein referred to as "the creditor"), either personally or by mail, a copy of the affidavit of exemption, together with a writing, signed by the levying officer, stating that the claim to exemption has been received and that the officer will release the property unless he receives from the creditor a counteraffidavit within five days after service of such writing.

(3) If the creditor desires to contest the claim to exemption, he shall within such period of five days, file with the levying officer a counteraffidavit alleging that the property is not exempt within the meaning of the section or sections relied upon, or if the claim to exemption be based on Sections 690.1, 690.3, 690.6, 690.8, 690.9, 690.12, 690.17, 690.18, 690.21, 690.24, alleging that the value of the property claimed to be exempt is in excess of the value stated in the applicable section or sections, together with proof of service of a copy of such counteraffidavit upon the debtor.

(4) If no such counteraffidavit, with such proof of service, is so filed with the levying officer within the time allowed, the officer shall forthwith release the property.

(5) If such counteraffidavit, with such proof of service, is so filed, either the creditor or the debtor shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the claim to exemption, the priority or division of payment between one or more creditors from nonexempt earnings under the provisions of Section 690.12, or the value of the property claimed to be exempt. Such hearing must be granted by the court upon motion of either party made within five days

after the counteraffidavit is filed with the levying officer, and such hearing must be had within 15 days from the date of the making of such motion unless continued by the court for good cause. The party making the motion for hearing must give not less than five days' notice in writing of such hearing to the levying officer and to the other party and specify therein that the hearing is for the purpose of determining the claim to exemption The notice may be of motion or of hearing and upon the filing of the notice with the clerk of court, the motion is deemed made.

(6) If neither party makes such motion within the time allowed, or if the levying officer shall not have been served with a copy of the notice of hearing within 10 days after the filing of the counteraffidavit. the levying officer shall forthwith release the property to the debtor.

(7) At any time while the proceedings are pending, upon motion of either party or upon its own motion, the court may (a) order the sale of any perishable property held by such officer and direct disposition of the proceeds of such sale; and (b) make such other orders as may be proper under the particular circumstances of the case. Any orders so made may be modified or vacated by the court or judge granting the same, or by the court in which the proceedings are pending. at any time during the pendency of the proceedings, upon such terms as may be just.

(8) The levying officer in all cases shall retain physical possession of the property levied upon if it be capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect, pending the final determination of the claim to exemption; provided, however, that no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide.

(9) At such hearing, the party claiming the exemption shall have the burden of proof. The affidavits and counteraffidavits shall be filed by the levying officer with the court and shall constitute the pleadings, subject to the power of the court to permit an amendment in the interests of justice. The affidavit of exemption shall be deemed controverted by the counteraffidavit and both shall be received in evidence. Nothing herein contained shall be construed to deprive anybody of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as in the trial of an action. No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury, and no evidence other than the affidavit and counteraffidavit is offered, the court if satisfied that sufficient facts are shown thereby, may make its determination thereon; otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits

and counteraffidavits. At the conclusion of the hearing, the court shall give judgment determining whether the claim to exemption shall be allowed or not, in whole or in part, and may give judgment determining the priority or division of payment between one or more creditors from nonexempt earnings under the provisions of Section 690.12, which judgment shall be determinative as to the right of the creditor to have the property taken and held by the officer or to subject the property to payment or other satisfaction of his judgment. In such judgment the court shall make all proper orders for the disposition of such property or the proceeds thereof.

(10) A copy of any judgment entered in the trial court shall be forthwith transmitted by the clerk to the levying officer in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal from the judgment be waived, or the judgment has otherwise become final, shall continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final; provided, however, that if a claim to exemption under Section 690.11 be allowed by such judgment, the debtor shall be entitled to a release of the earnings so exempted at the expiration of three days, unless otherwise ordered by the court or unless the levying officer shall have been served with a copy of a notice of appeal from the judgment.

(11) When any documents required hereunder are served by mail, the provisions of this code relating to service by mail shall be applicable thereto.

(12) Whenever the time allowed for an act to be done hereunder is extended by the court, written notice thereof shall be given promptly to the opposing party, unless such notice be waived, and to the levying officer.

(13) An appeal lies from any judgment under this section; such appeal to be taken in the manner provided for appeals in the court in which the proceeding is had.

(2) Forthwith upon receiving the affidavit of exemption the levying officer shall serve upon the plaintiff or the person in whose favor the writ runs (herein referred to as "the creditor"), either personally or by mail a copy of the affidavit of exemption, together with a writing, signed by the levying officer, stating that the claim to exemption has been received and that the officer will release the property unless he receives from the creditor a counteraffidavit within five days after service of such writing.

(3) If the creditor desires to contest the claim to exemption, he shall within such period of five days, file with the levying officer a counteraffidavit alleging that the property is not exempt within the meaning of the section or sections relied upon, or if the claim to exemption be based on Sections 690.2, 690.3, 690.4, 690.6, 690.7, alleging that the value of the property claimed to be exempt is in excess of the value stated in the applicable section or sections, together with proof of service of a copy of such counteraffidavit upon the debtor.

(4) If no such counteraffidavit, with such proof of service, is so filed with the levying officer within the time allowed, the officer shall forthwith release the property.

(5) If such counteraffidavit, with such proof of service, is so filed, either the creditor or the debtor shall be entitled to a hearing in the court in which the action is pending or from which the writ issued for the purpose of determining the claim to exemption, the priority or division of payment between one or more creditors from nonexempt earnings under the provisions of Section 690.53, or the value of the property claimed to be exempt. (7) At any time while the proceedings are pending, upon motion of either party or upon its own motion, the court may (a) order the sale of any perishable property held by such officer and direct disposition of the proceeds of such sale; and (b) make such other orders as may be proper under the particular circumstances of the case. Any orders so made may be

modified or vacated by the court or judge granting the same, or by the court in which the proceedings are pending, at any time during the pendency of the proceedings, upon such terms as may be just.

(8) The levying officer in all cases shall retain physical possession of the property levied upon if it be capable of physical possession, or in the case of property not capable of physical possession, the levy shall remain in full force and effect, pending the final determination of the claim to exemption; provided, however, that no sale under execution shall be had prior to such final determination unless an order of the court hearing the claim for exemption shall so provide.

(9) At such hearing, the party claiming the exemption shall have the burden of proof. The affidavits and counteraffidavits shall be filed by the levying officer with the court and shall constitute the pleadings, subject to the power of the court to permit an amendment in the interests of justice. The affidavit of exemption shall be deemed controverted by the counteraffidavit and both shall be received in evidence. Nothing herein contained shall be construed to deprive anybody of the right to a jury trial in any case where by the Constitution such right is given, but a jury trial shall be waived in any such case in like manner as in the trial of an action No findings shall be required in a proceeding under this section. When the hearing is before the court sitting without a jury, and no evidence other than the affidavit and counteraffidavit is offered, the court is satisfied that sufficient facts are shown thereby, may make its determination thereon; otherwise, it shall order the hearing continued for the production of other evidence, oral or documentary, or the filing of other affidavits and counteraffidavits. At the conclusion of the hearing, the court shall give judgment determining whether the claim to exemption shall be allowed or not, in whole or in part, and may give judgment determining the priority or division of payment between one or more creditors from nonexempt earnings under the provisions of Section 690.53, which judgment shall be determinative as to the right of the creditor to have the property taken and held by the officer or to subject the property to payment or other satisfaction of his judgment In such judgment the court shall make all proper orders for the disposition of such property or the proceeds thereof.

(10) A copy of any judgment entered in the trial court shall be forthwith transmitted by the clerk to the levying officer in order to permit such officer to either release the property attached or to continue to hold it or sell it, in accordance with the provisions of the writ previously delivered to him. Such officer, unless an appeal from the judgment be waived, or the judgment has otherwise become final, shall continue to hold such property under attachment or execution, continuing the sale of any property held under execution until such judgment becomes final; provided, however, that if a claim to exemption under Section 690.6 be allowed by such judgment,

the debtor shall be entitled to a release of the earnings so exempted at the expiration of three days, unless otherwise ordered by the court or unless the levying officer shall have been served with a copy of a notice of appeal from the judgment.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Article 1.6 (commencing with Section 13599) is added to Chapter 3 of Division 10 of the Education Code, to read:

Article 1.6. Instructional Aides

13599. This article may be cited as the Instructional Aide Act of 1968. The provisions of this article shall apply to personnel referred to in Sections 931.5, 6458, 6481.5, 6481.6, 6499.5, 13253, 13253.5, and 16625.01 of this code or any other

section heretofore or hereafter enacted, who perform the duties of instructional aides.

13599.1. The Legislature recognizes the need to provide classroom teachers and other certificated personnel with more time to teach and to provide the means for them to utilize their professional knowledge and skills more effectively in the educational programs of the public schools. It is the intent of the Legislature to authorize the employment of instructional aides in order that classroom teachers and other certificated personnel may draw upon the services of such aides to assist them in ways determined to be useful in improving the quality of educational opportunities for pupils.

13599.2. Instructional aides shall not be utilized to increase the number of pupils in relation to the number of classroom teachers in any school, any school district, or in the state.

All instructional aide positions in a school district shall be assigned the basic title of "instructional aide." To provide for differences in responsibilities and duties, additions to the basic title may be assigned such as "instructional aide I or II" or "instructional aide—volunteer," or other appropriate title designated by the governing board.

13599.3. (a) As used in this article, "instructional aide" means a person employed to assist classroom teachers and other certificated personnel in the performance of their duties and in the supervision of pupils and in instructional tasks which, in the judgment of the certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom teacher.

An instructional aide shall perform only such duties as, in the judgment of the certificated personnel to whom the instructional aide is assigned, may be performed by a person not licensed as a classroom teacher. These duties shall not include assignment of grades to pupils. An instructional aide need not perform such duties in the physical presence of the teacher but the teacher shall retain his responsibility for the instruction and supervision of the pupils in his charge.

(b) Educational qualifications for instructional aides shall be prescribed by the school district employer and shall be appropriate to the responsibilities to be assigned.

13599.5. Notwithstanding the provisions of Section 10751, no instructional aide shall give out any personal information concerning any pupil who is not his own child or ward, except under judicial process, to any person other than a teacher or administrator in the school which the pupil attends. A violation

of this section may be a cause for disciplinary action, including dismissal.

13599.6. Classroom teachers and other certificated personnel shall not be required to hold a standard supervision credential or a standard administration credential as a prerequisite to the supervision and direction of instructional aides.

13599.7. (a) An instructional aide shall not be deemed a certificated employee for the purposes of apportioning state aid and no regrouping of pupils with instructional aides shall be construed as a class for apportionment purposes.

(b) Instructional aides shall be classified employees of the district, and shall be subject to all of the rights, benefits, and burdens of the classified service, except as specified in Section 13581.2 for "restricted" positions.

13599.8. The school district shall pay to each person employed as an instructional aide compensation at a rate not less than the minimum hourly rate prescribed by federal law.

13599.9. Notwithstanding the provisions of this article, or any other provisions of law, a school district may utilize volunteers in the supervision and instruction of pupils, but any such volunteer shall be subject to the provisions of Section 931.5 and this article.

CHAPTER 1435

SECTION 1. Section 17461 of the Revenue and Taxation Code is amended to read:

17461. (a) For the purposes of Article 1 (commencing with Section 17321) to Article 7 (commencing with Section 17431), inclusive, of this chapter, the term "reorganization" means—

(1) A statutory merger or consolidation;

(2) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of stock of another corporation if, immediately after the acquisition, the acquiring corporation has control of such other corporation (whether or not such acquiring corporation had control immediately before the acquisition);

(3) The acquisition by one corporation, in exchange solely for all or a part of its voting stock (or in exchange solely for all or a part of the voting stock of a corporation which is in control of the acquiring corporation), of substantially all of the properties of another corporation, but in determining whether the exchange is solely for stock the assumption by the acquiring corporation of a liability of the other, or the fact that property acquired is subject to a liability, shall be disregarded;

(4) A transfer by a corporation of all or a part of its assets to another corporation if immediately after the transfer the transferor, or one or more of its shareholders (including persons who were shareholders immediately before the transfer), or any combination thereof, is in control of the corporation to which the assets are transferred; but only if, in pursuance of the plan, stock or securities of the corporation to which the assets are transferred are distributed in a transaction which qualifies under Sections 17432 to 17439, inclusive;

(5) A recapitalization; or

(6) A mere change in identity, form, or place of organization, however effected.

(b) (1) If a transaction is described in both paragraph (3) and paragraph (4) of subdivision (a), then, for purposes of this chapter, such transactions shall be treated as described only in paragraph (4) of subdivision (a).

(2) If—

(A) One corporation acquires substantially all of the properties of another corporation,

(B) The acquisition would qualify under paragraph (3) of subdivision (a) but for the fact that the acquiring corporation exchanges money or other property in addition to voting stock, and

(C) The acquiring corporation acquires, solely for voting stock described in paragraph (3) of subdivision (a), property of the other corporation having a fair market value which is at least 80 percent of the fair market value of all of the property of the other corporation,

then such acquisition shall (subject to paragraph (1) of this subdivision) be treated as qualifying under paragraph (3) of subdivision (a). Solely for the purpose of determining whether subparagraph (C) of the preceding sentence applies, the amount of any liability assumed by the acquiring corporation, and the amount of any liability to which any property acquired by the acquiring corporation is subject, shall be treated as money paid for the property.

(3) A transaction otherwise qualifying under paragraph (1), paragraph (2) or paragraph (3) of subdivision (a) shall not be disqualified by reason of the fact that part or all of the assets which were acquired in the transaction are transferred to a corporation controlled by the corporation acquiring such assets.

SEC. 2. Section 17462 of the Revenue and Taxation Code is amended to read:

17462. For purposes of this article, the term "a party to a reorganization" includes—

(a) A corporation resulting from a reorganization, and

(b) Both corporations, in the case of a reorganization resulting from the acquisition by one corporation of stock or properties of another.

In the case of a reorganization qualifying under paragraph (2) or paragraph (3) of subdivision (a) of Section 17461, if the stock exchange for the stock or properties is stock of a corporation which is in control of the acquiring corporation, the term "a party to reorganization" includes the corporation so controlling the acquiring corporation. In the case of a reorganization qualifying under paragraph (1), paragraph (2) or paragraph (3) of subdivision (a) of Section 17461 by reason of paragraph (3) of subdivision (b) of Section 17461, the term "a party to a reorganization" includes the corporation

controlling the corporation to which the acquired assets or stock are transferred.

SEC. 3. Sections 1 and 2 of this act shall be effective for the tax years beginning after December 31, 1967.

SEC. 2. The sum of thirty-five thousand dollars ($35,000) is hereby appropriated from the General Fund to the Department of Education for the purpose of continuing the conduct of the study required by this act during the 1968–1969 fiscal year.

SECTION 1. Section 14005 of the Welfare and Institutions Code is amended to read:

14005. Health care and related remedial or preventive services, to the extent they are not provided under any other federal or state law or under other contractual or legal entitlements of the person, shall be provided under this chapter to any person who is a resident of the state and is:

(a) A recipient of public assistance; or

(b) A medically indigent adult person whose average monthly income in excess of the amount required for maintenance established pursuant to Section 14005.2 (exclusive of any amounts considered exempt as income under other provisions of this code pertaining to public assistance recipients) is not sufficient to provide for the cost of health care or coverage less any amount by which the value of his other resources, owned by him alone, or in combination with his spouse, exceeds the value established in accordance with Section 14006, or a reasonable portion of such value thereof as may be determined in accordance with standards established by the director; or

(c) A medically indigent family person in a family whose monthly family income in excess of the amount required for maintenance established pursuant to Section 14005.2, by family size (exclusive of any amounts considered exempt as income) is not sufficient to provide for the cost of health care or coverage less any amount by which the value of the family's other resources exceeds the value established in accordance with Section 14006, or a reasonable portion of such value thereof as may be determined in accordance with standards established by the director.

Health care shall also be provided after January 1, 1967 under this chapter and Chapter 8 of this part to any individual in the case of a catastrophic illness or accident, when the uninsured cost of care for such illness or accident exceeds 50 percent of the annual adjusted gross income of the individual and his immediate family, as established by an average of his federal income tax returns for the three preceding years. 5 persons	335
6 persons	375
7 or more persons	457

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A recent amendment of the Federal Social Security Act changes the requirements as to the schedule of maintenance needs to be used by the state. Also included may be projects for educational problems associated with general curriculum development, community relations, urbanization and work-study programs. The standards for such demonstrational and experimental projects shall be recommended by the commission and approved by the state board, based upon the best interests of the students involved, except that a project shall be approved only if it can be shown that, if successful, the cost-effectiveness of the project will be such so as to be adaptable within the budgets of other similar school districts throughout the state.

Article 6. Evaluation of Projects

592. A school district operating a project funded under this chapter shall submit at least an annual evaluation to the State Board of Education through the commission which shall document the degree to which the project has improved the achievement levels of pupils in the instructional areas emphasized within the grant.

592.1. The State Board of Education shall submit an annual comprehensive report to the Governor and the Legislature which shall document:

(a) Improved achievement levels resulting from the projects.

(b) The degree to which the program has motivated schools, both participating and nonparticipating in the program, to improve their curriculum in the basic skills area and other instructional areas emphasized in grants approved.

(c) The degree to which the program has fostered cooperation between school districts and institutions of higher education in the development of new techniques for the benefit of student achievement, particularly within the project areas specified in Section 591.

Article 7. Incentive Grants

593. The commission shall identify and submit to the State Board of Education 5 to 10 projects conducted during the current year as "exemplary projects," which projects exhibited the greatest degree of success in achieving their objectives, with the highest priority given to those who demonstrate the highest achievement levels. Information concerning such exemplary projects shall be disseminated by the State Board of Education to all school districts in the state which maintain the grade levels involved in such projects.

593.1. The State Board of Education shall reserve not more than 5 percent of the state's federal allocation for incentive grants to the school districts which have operated exemplary projects during the preceding year. Such funds shall be used by such districts to expand and adapt such successful projects.

School districts operating programs and projects which have been funded under Title III prior to the effective date of this chapter shall be allowed to continue their operations outside the priorities set by the State Board of Education pursuant to this chapter, if the State Board of Education determines that the continuance of such programs and projects are in the best interest of the pupils involved in such programs. The school districts operating such programs and projects shall submit comprehensive evaluations of their programs and projects through the commission to the State Board of Education. In no case shall such programs and projects continue outside of the priorities set by the State Board of Education pursuant to this chapter for more than one year.

593.2. In the event that the United States Commissioner of Education finds that the state plan is not in accordance with federal law and regulations the State Board of Education may, within the scope and consistent with the provisions of this chapter, by rule and regulation, take the minimum action necessary to modify the plan in conformity with federal requirements and to assure a continuation of such federal funds. Such modification shall not have any force or effect upon the expiration of one year from the date of modification.

The remainder of such funds so accumulated shall be

lease-purchase arrangement and the issuance and transfer of revenue bonds of the authority to such person, firm, or corporation.

SEC. 4. Section 30952 of the Streets and Highways Code is amended to read:

30952. The authority shall determine the form, conditions, and denominations of all bonds, the dates which the bonds to be sold shall bear, and the interest rate thereon. The sum of six thousand three hundred dollars ($6,300) is hereby appropriated from the General Fund in the State Treasury for payment by the State Controller to the authority for the support of the Folsom Lake Bridge Authority in the 1968–1969 fiscal year. This appropriation shall be repaid from the proceeds of the first sale of bonds of the authority with interest at that rate which is equal to the average of net interest costs to the state, as determined by the State Controller, on the sales of general obligation bonds of the state which occurred during the calendar year immediately preceding the year in which repayment occurs.

CHAPTER 1449

An act to add Section 2772 to the Unemployment Insurance Code, relating to disability insurance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 21, 1968. Filed with Secretary of State August 22, 1968]

The people of the State of California do enact as follows:

SECTION 1. Section 2772 is added to the Unemployment Insurance Code, to read:

2772. Notwithstanding any inconsistent provision of this part, any trainee who was a resident of this state at the time of his entrance into the military service, who is a resident of this state at the time he applies for disability compensation benefits under this section, and who has been disabled in the military service and is eligible to receive disability compensation from the federal government for such disability, shall be eligible, upon his discharge from the military service, to receive disability compensation benefits under Section 2655 from the time he is determined by the federal government to be eligible for disability compensation payments from the federal government until such time as he begins to receive his disability compensation payments from the federal government.

Such trainee's weekly benefit amount shall be the maximum amount specified in Section 2655 or the amount of the disability compensation which he is eligible to receive from the federal government, whichever is smaller.

Each trainee receiving any benefits pursuant to this section shall repay to the state the amount received as benefits hereunder. Each trainee, as a condition of receiving benefit hereunder, shall assign to the state the disability compensation which he is eligible to receive from the federal government to the extent that he receives benefits from the state pursuant to this section and shall enter into a contract with the director, in a form prescribed by the director, under which the trainee will be obligated to repay the state over a period of not more than one year following the date he first receives disability compensation from the federal government for his disability. Repayments made by such trainees shall be deposited by the director in the General Fund.

SEC. 2. The Legislature hereby declares its intention to appropriate each year from the General Fund to the Disability Fund amounts expended from the Disability Fund during the preceding year to pay benefits provided for in this act and amounts to reimburse the administrative costs of the Department of Employment in administering the provisions of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Disabled veterans returning from the Vietnam conflict in many cases must wait a period of up to 15 weeks before they receive any disability compensation from the federal government. In order that these disabled veterans will receive some disability benefit during this lag period and at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 1450

An act to add Article 4 (commencing with Section 6478) to Chapter 6.5 of Division 6 of the Education Code, relating to compensatory education.

[Approved by Governor August 24, 1968. Filed with Secretary of State August 26, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Article 4 (commencing with Section 6478) is added to Chapter 6.5 of Division 6 of the Education Code, to read:

Article 4. Experimental Program for More Effective Schools

6478. This article shall be known and may be cited as "The More Effective Schools Act."

It is the intent and purpose of the Legislature in enacting this article to provide for an experimental program in two school districts designed to measure the effectiveness of a total program combining intensive classroom instruction with fully adequate medical, psychological, dental, counseling, and ancillary services.

The Legislature finds and declares that the physical and mental well-being of severely disadvantaged children is sometimes so great that no instructional program, by itself, can produce the necessary academic and social achievement required by all youth in this era.

It is the further intent of the Legislature that programs authorized and initiated under this article shall be thoroughly evaluated by participating local school districts and by the Superintendent of Public Instruction, and that such evaluation report be submitted to the 1972 Regular Session of the Legislature.

6478.1. The Superintendent of Public Instruction may contract with not more than two school districts which have significant numbers of disadvantaged youth and are located in separate geographical areas of the state for the purpose of establishing a More Effective Schools Program in such districts. Each contracting school district shall establish such program in one elementary school within the district where the average achievement level in reading, as measured by tests given under the provisions of Chapter 2.5 (commencing with Section 7770) of Division 7, is at or near the lowest level for the district.

At least one contracting school district shall have an assessed valuation per unit of average daily attendance, such that one dollar ($1) of tax rate on each one hundred dollars ($100) of assessed valuation produces no more than twenty-eight dollars ($28) per unit of average daily attendance in revenue for the district.

6478.5. As used in this article, a More Effective Schools Program shall include the following provisions:

(a) A maximum class size of 22 pupils for grades 1–6.

(b) A maximum class size of 15 for kindergarten.

(c) One additional teacher for every three classes.

(d) One guidance counselor for every 350 pupils.

(e) One secretary for every 250 pupils.

(f) Parents employed as teacher-aides to relieve teachers of nonteaching functions.

(g) One full-time psychologist.

(h) One full-time social worker.

(i) Medical and dental services when determined to be necessary by the Superintendent of Public Instruction

(j) Breakfast and luncheon food services when determined to be necessary by the Superintendent of Public Instruction so as to assure a proper diet.

(k) A total elementary school enrollment not to exceed 500 pupils.

(*l*) Adequate administrative and supervisory staff as determined jointly by the superintendent of the contracting school district and the Superintendent of Public Instruction.

6478.7. Federal funds may be authorized under this article to provide necessary and required school facilities. The total of such federal funds shall not exceed five hundred thousand dollars ($500,000) per school year.

6479. The experimental program shall commence with the 1968–1969 school year and continue through the 1971–1972 school year. In evaluating the program, the Superintendent of Public Instruction may cite differences, if any, in academic and social growth between groups of pupils which have, by 1972, spent all their school years under this program and groups which have had less than a complete school program under this program.

6479.1. The Superintendent of Public Instruction shall conduct a study, prior to July 1, 1970, of the More Effective Schools Program in view of the purposes of this article and may submit a report to the Legislature if, in his opinion on clear and persuasive evidence, the purposes of this article are not effectuated by such program.

SEC. 2. The Educational Innovation Commission shall annually provide for the allocation of federal funds received under Title III of the Elementary and Secondary Education Act of 1965, as amended by Public Law 90-247 (90th Congress—1st Session) to the More Effective Schools Program established by school districts pursuant to Article 4 (commencing with Section 6478) of Chapter 6.5 of Division 6 of the Education Code. Such funds, if any, shall be apportioned by the Superintendent of Public Instruction, upon notification by the contracting school districts of the September enrollment in programs under this act, by such amounts as may be necessary for pupils enrolled in More Effective Schools Programs.

SEC. 3. Section 2 of this act shall become operative only if Assembly Bill No. 1865 is enacted by the Legislature at its 1968 Regular Session. In the event that Assembly Bill No. 1865 is not enacted, or is not applicable to this act, the State Board of Education, in approving any state plans for the administration of federal funds to be received under Title III of the Elementary and Secondary Education Act of 1965, may, in the 1968–1969, 1969–1970, 1970–1971, and 1971–1972 school years, assure the reservation from federal funds of an amount of one million dollars ($1,000,000) annually, to the More Effective Schools Program established by school districts pursuant to Article 4 (commencing with Section 6478) of Chapter 6.5 of Division 6 of the Education Code.

CHAPTER 1451

An act making an appropriation to the Department of Public Health for assistance to various agencies for the construction of hospital facilities.

[Approved by Governor August 24, 1968. Filed with Secretary of State August 26, 1968.]

The people of the State of California do enact as follows:

SECTION 1. The sum of sixteen million dollars ($16,000,000) is hereby appropriated from the General Fund to the Department of Public Health for assistance to public agencies, as defined in Sections 435 and 435.1 of the Health and Safety Code, in the construction of hospital facilities, to be expended under provisions of the California Hospital Survey and Construction Act. No money which is appropriated by this act shall be expended for any hospital facility which refuses to admit persons certified as eligible for benefits under the provisions of Chapter 7 (commencing with Section 14000) or Chapter 8 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code. No allocation shall be made to a hospital until the local share of construction costs is assured, as determined by the Hospital Advisory Council.

The appropriation made by this act is intended to relieve local government from the necessity of making expenditures from revenues derived from property taxation, and the amount appropriated by this act shall be deemed to be for property tax relief purposes within the meaning of Section 64 of Chapter 1209 of the Statutes of the 1967 Regular Session of the Legislature, as amended by Section 4 of Chapter 408 of the Statutes of the 1968 Regular Session of the Legislature

CHAPTER 1452

Subject to the foregoing provisions, the division shall, upon written request, make available to persons whose legal rights may be affected thereby, information and material developed in the course of its administration of this part.

24254. (a) The operation of an aircraft on the land or waters of, or in the air over, this state shall be deemed an appointment by the owner or operator of the division to be his true and lawful attorney upon whom may be served all legal process in any action or proceeding against him, arising from the ownership, maintenance, use or operation of such aircraft and resulting in damage or loss to person or property, and said use or operation shall be signification of their agreement that any such process against him which is so served,

shall be of the same legal force and validity as though served upon him personally; provided, such person is a nonresident of this state or at the time a cause of action arises is a resident of this state but subsequently becomes a nonresident of this state.

(b) Service of such process shall be made by leaving a copy of the summons and complaint with the division or in its office at Sacramento, together with a fee of two dollars ($2), and by the mailing of a copy of such summons and complaint by the plaintiff or his attorney to the defendant, and to each of the defendants if more than one at his last known address, within 10 days thereafter by registered mail. In lieu of such mailing to such defendant in a foreign state, plaintiff may cause a copy of the summons and complaint to be served personally in the foreign state upon such defendant by any adult person not a party to the suit, by actually delivering the same to such defendant or by offering to make such delivery in case defendant refuses to accept delivery.

(c) Proof of the service of such process upon the division, and proof of the mailing or personal delivery thereof to the defendant, shall be made by the affidavit or affidavits of the party or parties doing the acts, which shall be filed with the court from out of which such summons issued, within such time as the court may allow for the return of such summons. Process shall be deemed to be completed upon the filing of such affidavit or affidavits and of the original registry receipt issued by the post office upon the mailing of such registered letter, if service is obtained by mail.

CHAPTER 3. SECURITY FOLLOWING ACCIDENT

Article 1. Accident Report

24300. The operator of any aircraft involved in an accident within this state in which any person is killed or injured or damage in excess of four hundred dollars ($400) is sustained to the property of any person, other than property owned by the owner or operator or in his care, custody or control or carried in or on the aircraft, shall immediately but not later than 48 hours after the accident report the matter in writing to the division. If the operator is physically incapable of making the report, the owner of the aircraft involved in the accident, shall immediately but not later than 48 hours after learning of the accident, make the report. If neither the operator nor the owner is physically capable of making the report, then each passenger shall, within 10 days after learning of the incapacity of the operator or owner, make the report. If the owner or operator dies as a result of the accident, the legal representative of the operator or owner shall make the report within 10 days after his qualifications. The sheriff of the county in which the accident occurred or the chief of police of the city in which the accident occurred, as the case may be, shall notify the divi-

sion in writing immediately but not later than 48 hours after learning of the accident.

24301. The report, the form of which shall be prescribed by the division, shall include information to enable the division to determine whether the requirements for the deposit of security under Article 2 (commencing with Section 24325) are inapplicable by reason of existence of insurance or other exceptions specified in this part. The division may rely upon the accuracy of the information until it has reason to believe that the information is erroneous.

24302. The operator and the owner shall furnish such additional information as the division may require.

Article 2. Security

24325. As promptly as practicable but not later than 30 days after receipt of an accident report as required in Article 1 (commencing with Section 24300), the division shall determine by an order entered of record (a) the amount of security within the limits specified in Section 24350, which it deems sufficient to satisfy any judgment for damages resulting from the accident which may be recovered against each owner or operator, and (b) the name and address of each claimant.

24326. As promptly as practicable but not later than 30 days after the entry of the order required by Section 24325, the division, the owner or the operator, or both, as the case may be, shall deposit for the benefit of the owner or operator or both, as the case may be, security in the sum so determined by the division.

24327. The requirements as to security do not apply:

(a) To the operator of an aircraft involved in an accident in which no injury was caused to the person of anyone other than the operator or guests, and no damage in excess of four hundred dollars ($400) was caused to property not owned, rented, occupied or used by such operator nor in his care, custody or control nor carried in or on the aircraft.

(b) To the operator or owner of an aircraft if at the time of the accident the aircraft was stationary, without passengers thereon or boarding the aircraft or alighting therefrom and the aircraft was parked in an area legally used for aircraft parking with no engine running nor in the process of being started.

(c) To the owner of an aircraft if at the time of the accident the aircraft was being operated, or was parked, without his permission, express or implied.

(d) To the owner if there is in effect at the time of the accident an aircraft liability policy or bond with respect to the aircraft involved in the accident.

(e) To the operator, if not the owner of the aircraft, if there is in effect at the time of the accident an aircraft liability policy or bond with respect to his operation of the aircraft involved in the accident.

(f) To the operator or owner if his liability for damages resulting from such accident is covered by any other form of liability insurance policy or bond in effect at the time of the accident.

(g) To any person qualifying as a self-insurer under Section 24353, or to any person operating an aircraft for the self-insurer for whose acts the self-insurer is legally responsible.

(h) After there is filed with the division satisfactory evidence that the person otherwise required to deposit security has (1) been released from liability, or (2) been adjudicated not to be liable by judgment, or (3) executed a written agreement with all claimants providing for payment of an agreed amount with respect to all claims for injuries or damages resulting from the accident.

Article 3. Financial Responsibility

24350. A policy or bond is not effective under Article 2 unless:

(a) Issued either (1) by an insurer or surety company authorized to do business in this state, or (2) by an insurer or surety company not authorized to do business in this state but which is found by the division to afford adequate protection and which has filed or shall file with the division a power of attorney authorizing the division to accept service on his behalf of notice or process in any action upon the policy or bond arising out of such accident.

(b) If the accident results in bodily injury to or death of a person not a passenger, the policy or bond provides coverage of not less than fifty thousand dollars ($50,000) because of bodily injury to or death of one person in any accident and one hundred thousand dollars ($100,000) because of bodily injury to or death of two or more persons in any one accident.

(c) If the accident results in damage to or destruction of property, the policy or bond provides coverage of not less than fifty thousand dollars ($50,000) because of damage to or destruction of property in any one accident with the exception of the following property which is exempted from the security required under this part: property owned, rented, occupied or used by, or in the care, custody or control of the owner or operator or carried in or on the aircraft.

24351. The policy or bond need not cover:

(a) Any liability on account of bodily injury to or death of any employee of the owner or operator while the employee is engaged in the duties of his employment.

(b) Any obligation for which the owner or operator or his insurer may be held liable under any workmen's compensation law.

(c) A guest, or any other person, riding in or upon any aircraft without giving compensation.

24352. Any person may at any time apply to the division for a certificate of self-insurance, whether or not there has

occurred an accident as a result of which he might be affected by some other provision of this part.

24353. The division may in its discretion issue a certificate of self-insurance when satisfied that the applicant is possessed and will continue to be possessed of ability to pay judgments against him within the limits provided in this part.

24354. Upon not less than 10 days notification of a self-insurer the division may for reasonable cause cancel a certificate of self-insurance and shall cancel such certificate upon failure to pay any judgment within 30 days.

24355. The security required under this part shall be cash or securities permissible under state law as security for deposit of state funds and in such amount as the division may require but in no case in excess of the limits specified in Section 24350 in reference to the limits of a policy or bond. If at the time of the accident there is in effect a liability policy or a bond meeting the requisites of this part other than in the amount of coverage set forth in Section 24350, the division may consider such policy or bond in fixing the amount of security. The person depositing security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while such deposit is in the custody of the state agency with which the deposit is made the person depositing it may, upon approval of the division, amend in writing the specification of the person or persons on whose behalf the deposit is made to include an additional person or persons; provided, however, that a single deposit of security shall be applicable only on behalf of persons required to furnish security because of the same accident.

24356. Upon 10 days notification of the parties concerned, the division may reduce, or, within the limits specified in Section 24350, increase the amount of security ordered in any case if in its discretion the amount ordered is excessive or insufficient. In case the security originally ordered has been deposited, the excess shall be returned to the depositor notwithstanding the provisions of Section 24357. Substitution of security shall be permitted.

24357. Security deposited in compliance with the requirements of this part shall be delivered to the division. The division shall deposit all cash received as security in a special account in the Special Deposit Fund provided by Article 2 (commencing with Section 16370) of Chapter 2, Part 2, Division 4, Title 2 of the Government Code, shall record the receipt of all securities received by it and deposit such securities with the State Treasurer, and shall retain in its custody all original insurance policies or copies thereof delivered to it. Security deposited with any agency other than the division shall be released only:

(a) Upon certificate of the division in the payment of a judgment rendered against the person or persons on whose behalf the deposit was made, for damages arising out of the accident in a civil action, begun not later than one year after

the date of the accident or within one year after the date of deposit of any security under subdivision (c) of Section 24330 or in the payment of a settlement, agreed to by the depositor and all the claimants, of a claim or claims arising out of the accident.

(b) Upon certificate of the division issued after 10 days notification of all claimants upon evidence satisfactory to the division that all claims arising from such accident have been satisfied by either (1) a release from liability, or (2) a judgment of nonliability, or (3) a written agreement in accordance with subdivision (h) of Section 24327, or whenever, after the expiration of one year from the time of the accident or from the date of deposit of any security under subdivision (c) of Section 24330 the division is given evidence satisfactory that there is no such action pending and that no judgment rendered in any such action is unpaid.

(c) Upon the certificate of the division that other security complying with Section 24355 and satisfactory in form, character and amount, has been deposited with it in lieu of the original security deposited hereunder.

(d) Upon the death of the person on whose behalf such proof was filed.

(e) In the event of the permanent incapacity of such person to operate an aircraft if the division is furnished proof of such incapacity.

The division shall not release such proof: (1) if any action for damages upon a liability referred to in this part is then pending, or (2) if any judgment upon any such liability is outstanding and unsatisfied.

An affidavit of the applicant of the nonexistence of such facts shall be prima facie evidence thereof.

Any security deposited with the division shall be released by it for any reason authorizing it to issue a certificate pursuant to subdivision (a), (b) or (c) when security is in the custody of another state agency.

24358. Such security shall be available for the following purposes:

(a) Payment of a final judgment or judgments in any amount for bodily injury or in excess of four hundred dollars ($400) for property damage, rendered against the owner or operator on whose behalf the deposit was made, for damages arising out of the accident in an action at law, begun not later than one year after the date of such accident.

(b) Payment of any settlement agreement covering any claim arising out of the accident.

(c) Payment of any final judgment rendered as a result of default under any duly acknowledged settlement agreement.

Every distribution of funds from the security deposit shall be subject to the limits of the division's evaluation on behalf of a claimant but not in excess of the maximum amounts provided in this part for bodily injury and for property damage.

24359. Every judgment shall for the purposes of this part be deemed satisfied:

(a) When fifty thousand dollars ($50,000) has been credited, upon any judgment in excess of that amount, or upon all judgments, collectively, which together total in excess of that amount, for personal injury to or death of one person as a result of any one accident.

(b) When, subject to the limit of fifty thousand dollars ($50,000) as to one person, the sum of one hundred thousand dollars ($100,000) has been credited upon any judgment in excess of that amount, or upon all judgments, collectively, which together total in excess of that amount, for personal injury to or death of more than one person as a result of any one accident.

(c) When fifty thousand dollars ($50,000) has been credited upon any judgment in excess of that amount, or upon all judgments, collectively, each of which is in excess of fifty thousand dollars ($50,000), and which together total in excess of fifty thousand dollars ($50,000), for damage to property of others as a result of any one accident.

24360. Whenever any evidence of proof of ability to respond in damages filed by any person under the provisions of this part no longer fulfills the purpose for which required the division shall, for the purpose of this part, require other evidence of ability to respond in damages as required by this part.

24361. No insurance policy meeting the requirements of Section 24350 shall be canceled unless 30 days' prior notice is given to the division by either the insured or the insurance company.

CHAPTER 4. PENALTIES

24400. Any owner or operator who knowingly refuses or fails to make any report of an accident as required in Article 1 (commencing with Section 24300) of Chapter 3 of this part shall be guilty of a misdemeanor and upon conviction shall be fined not more than one thousand dollars ($1,000).

24401. Any owner or operator who knowingly makes a false statement or representation of a material fact in a report to or written instrument filed with the division shall be guilty of a misdemeanor and upon conviction shall be fined not less than two hundred fifty dollars ($250) nor more than one thousand dollars ($1,000), or imprisoned for not more than 90 days, or both.

24402. Any owner or operator who refuses or fails to comply with the provisions of Article 2 (commencing with Section 24325) of Chapter 3 of this part or of Section 24360, and who without compliance with such provisions operates any aircraft in this state or knowingly permits any aircraft owned by such person to be operated by another in this state is guilty of a misdemeanor.

CHAPTER 5. DECLARATION OF INTENT

24410. It is the purpose of this part to establish minimum standards for aircraft financial responsibility, and nothing in this part shall be construed as preventing any local city or county ordinance from exceeding the minimum insurance requirements prescribed in this part.

SEC. 3. The sum of twenty-eight thousand two hundred fifty dollars ($28,250) is hereby appropriated from the Aeronautics Fund, notwithstanding the provisions of subdivision (f) of Section 8352 of the Revenue and Taxation Code, to the Division of Aeronautics for the purpose of administering this act.

CHAPTER 1. CALIFORNIA JOB DEVELOPMENT CORPORATIONS

Article 1. General Provisions

14000. This chapter shall be known and may be cited as the "California Job Development Corporation Law."

14001. The Legislature finds that:

(a) Unemployment in economically disadvantaged areas of California is a matter of statewide concern requiring concerted public and private action to develop employment opportunities for the disadvantaged.

(b) It is necessary to direct additional capital, management assistance, business education, and other resources to economically disadvantaged areas to encourage the development of

small business opportunity, minority group entrepreneurship, and alleviation of unemployment in economically disadvantaged areas.

14002. It is the intention of the Legislature in enacting this part to promote the health, safety, and social welfare of the citizens of California and to eliminate unemployment in economically disadvantaged areas of the state, and to do this by stimulating economic development, employment, minority group entrepreneurship, and job training within economically disadvantaged areas by encouraging job-producing industry to locate or expand there, and making available capital, management assistance, and other resources, including loan services, personnel and business education, to small business entrepreneurs in economically disadvantaged areas. It is the further intent of the Legislature to provide a flexible means to mobilize and commit all available and potential resources in the various regions of the state to fulfill these objectives. It is the further intent of the Legislature that corporations operating pursuant to this law, shall to the maximum extent feasible, coordinate with other job training and other job development efforts within their region directed toward implementing the purpose of this chapter.

Director of the Department of Commerce;

Nine members appointed by the Governor, including:

Two persons residing in economically disadvantaged areas who are actively engaged in providing leadership and assistance for persons residing in these areas;

One person who is an officer of a labor organization.

Two Members of the Legislature, one of whom shall be appointed by the Speaker of the Assembly, and one by the Senate Rules Committee, shall advise with the board insofar as it does not conflict with the duties of the legislators. For purposes of this chapter, such two Members of the Legislature shall constitute a joint interim legislative committee on the subject of this chapter and shall have all the powers and duties imposed upon such committees by the Joint Rules of the Senate and Assembly.

(b) Stimulate the formation of regional job development corporations.

(c) Review the articles of incorporation and any subsequent amendments to the articles of incorporation of all corporations formed under this chapter in the following manner:

(1) Examine the articles to determine whether they contain the provisions required by this chapter and conform with the regulations adopted by the executive board for the operation and suspension of job development corporations.

(2) Determine whether the legislative intent expressed in Section 14002 shall be served by the proposed corporation.

(3) Determine if the economically disadvantaged area the incorporators propose to serve meets the requirements of subdivision (c) of Section 14010.

(4) Determine if the region is sufficient and complete and meets the population requirement set by subdivision (d) of Section 14010.

(5) Determine whether the responsibility, character, and general fitness of the incorporators and directors named in the articles are such as to command the confidence of the region and to warrant the belief that the business of the proposed corporation will be honestly and efficiently conducted in accordance with the intent and purpose of this chapter and that they include representatives of the financial and business community as well as local government and the economically disadvantaged.

(6) Approve or disapprove the articles and any subsequent amendments to the articles expeditiously.

(5) An agreement to require, as a condition to the granting of any loan or guarantee, that the borrower in an employment incentive loan will accept for permanent employment a significant number of disadvantaged persons referred for placement by the Department of Human Resources Development or the Department of Employment. There shall be no discrimination on the basis of race by an employment incentive borrower in hiring employees from disadvantaged areas. If the executive board gives notice of the withdrawal of state funds pursuant to this article, and the corporation does not return such funds within 15 days after such notice, the corporate powers, rights, and privileges of such corporation shall be suspended. Such suspension shall in no way impair the effectiveness of any outstanding loan or guarantee.

The board shall transmit the name of such corporation to the Secretary of State, and the suspension shall thereupon become effective upon the issuance of a certificate of the Secretary of State which shall be prima facie evidence of such suspension.

14025.6. Any corporation which has suffered the suspension may be relieved therefrom upon making an application therefor in writing to the board and upon return of the state funds and payment of interest, and upon the issuance of a certificate of revivor by the Secretary of State upon the request of the executive board.

14026. The executive board shall have the power to examine, or cause to be examined, at any reasonable time all of the books, records, documents of every kind, and the physical properties of a corporation. Such inspection shall include the right to make extracts of such records.

Likewise, the executive board shall approve all amendments to the articles and endorse the approval on the amendatory document before the document is forwarded to the Secretary of State for his approval and filing.

14034. The corporation's existence begins upon the filing of the articles with the Secretary of State and continues perpetually, unless otherwise expressly provided by law.

Article 5. The State Job Development Loan Guarantee Fund

14040. There is hereby created in the State Treasury the State Job Development Loan Guarantee Fund.

14041. 14043. All money deposited in the State Job Development Loan Guarantee Fund is hereby appropriated, without regard to fiscal years, for the purposes of this chapter. The state shall not be liable or obligated in any way beyond the state money

Such fund shall not be subject to any state regulation other than by the executive board and Department of Finance.

14046. The purpose of a regional job development corporation loan guarantee fund shall be to guarantee member loans based upon a call of the corporation or member loans directly to borrowers, as otherwise authorized by law, which meet the California Job Development Corporation Law loan criteria established by the executive board, policies of the corporation, and provisions of Article 7.5 (commencing with Section 14066) of this chapter. The state shall not be liable or obligated in any way as a result of the allocation of state money to a regional job development corporation loan guarantee fund beyond the state money which is allocated and deposited in the fund pursuant to this chapter, and which is not otherwise withdrawn by the state pursuant to this chapter.

14047. The corporation shall use all reasonable means to maintain and enlarge the Job Development Corporation Loan Guarantee Fund, in order to accomplish the purposes of this chapter.

14063. If any director ceases to meet the qualifications established in Section 14062, he shall immediately vacate his position as a director and such position shall be deemed vacant.

14064. If any vacancy occurs in the elective membership of the board of directors through death, resignation, or otherwise, the remaining directors shall elect a person representing the appropriate category as provided in Section 14061 to fill the vacancy for the unexpired term.

Article 7.5. Job Development Corporation Loan Committee

(b) A loan committee shall review every application to the corporation for a loan, guarantee, or other financial assistance and shall:

(1) Determine the feasibility of the proposed transaction and the likelihood of successful use of the corporation's money and credit within the overall objectives of the corporation; and

(2) On the basis of such determination, recommend to the board of directors such action as the committee deems appropriate under the circumstances, provided, however, that the loan committee shall not recommend the granting of any loan, guarantee, or other financial assistance unless it determines that the conditions of Section 14081 are satisfied, and so certifies to the board of directors.

(c) A loan committee shall expeditiously act to accept or reject loan applications.

Article 8. Members

14070. Notwithstanding any other law, rule, or regulation, any financial institution, nonprofit organization, or other business may become a member of a job development corporation, if accepted for membership by the board of directors.

14071. Each member shall lend funds to the corporation or make other resources available as negotiated in the membership agreement and when called upon by the corporation to do so, but the total amount on loan by any member shall not exceed the loan limits determined by Section 14072 and the membership agreement, which shall not exceed loan limits specified by Section 14072.

14072. All such borrowings shall be be prorated among the membership of the corporation in the same proportion as the maximum loan limit of each bears to the aggregate loan limits of all members of the corporation.

14074. Upon six months' prior written notice to the board of directors, a member of the corporation may withdraw from membership, effective at the end of such six-month period and, after the effective date of such withdrawal, such member shall be free of obligations under this chapter except those accrued or committed by such corporation prior to such effective date of withdrawal.

14075. In all matters requiring the vote or written consent of the membership, each member shall have one vote, and each member shall have one additional vote for every fifty thousand dollars ($50,000) increment of its loan limit and for each five thousand dollars ($5,000) of other resources actually contributed to the corporation. The value of other resources contributed to the corporation shall be the market value of such other resources as determined by the board of directors of the corporation, provided, however, that any director of the corporation who is a director, officer, or employee of the member contributing the other resources shall not participate in or vote on the determination of the value of such other resources.

(b) The loan proceeds shall be used exclusively in economically disadvantaged areas, and

(c) The loan qualifies as a small business loan or an employment incentive loan.

Article 10. Participation

14090. Notwithstanding the provisions of any other law, the notes or other interest-bearing obligations of a job development corporation, issued in accordance with this chapter and any regulations of the executive board governing the issuance of such obligations shall be legal investments for banks, insurance, and surety companies, provided, however, that in no case shall the aggregate amount of such obligations held by any such bank, insurance or surety company, including membership loans and loans guaranteed by job development corporation loan guarantee funds, exceed an amount equal to 3 percent of the capital and surplus of any such bank, insurance or surety company.

Article 11. Annual Audit and Report

14111. It shall be unlawful for any member of a job development corporation, or any person who is an officer, director, or employee of a job development corporation, or who is a member or employee of the executive board, to purchase or receive, or to be otherwise interested in the purchase or receipt, directly or indirectly, of any asset of a job development corporation, without paying to such corporation the fair market value of the asset at the time of the transaction.

If, at such meeting, the compromise or arrangement or plan of reorganization is agreed to by or on behalf of the creditors, if

All persons who become creditors or members of the corporation shall be deemed to have become creditors or members subject in all respects to this section and the same shall be absolutely binding upon them. For the purposes of this section only, members shall not be deemed to be creditors and shall act under this section as a separate class.

14122. SECTION 1. There is hereby appropriated from the General Fund in the State Treasury to the Department of Education the sum of one hundred nineteen thousand one hundred fifty-seven dollars ($119,157) for support of the Advisory Commission on School District Budgeting and Accounting to carry out the purposes of Sections 371 and 372 of, and Article 2 (commencing with Section 20621) of Chapter 2 of Division 16 of, the Education Code; provided, that this appropriation shall be available only if the Superintendent of Public Instruction makes a finding that federal funds are not available for purposes of the Advisory Commission on School District Budgeting and Accounting.

CHAPTER 1457

An act to amend Sections 16310, 16470, 16475, and 16480.8 of, and to repeal Section 16310.5 of, the Government Code, relating to state funds.

[Approved by Governor August 24, 1968. Filed with Secretary of State August 26, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 16310 of the Government Code is amended to read:

16310. When the General Fund in the Treasury is or will be exhausted, the Controller shall notify the Governor and the Pooled Money Investment Board. The Governor may order the Controller to direct the transfer of all or any part of the money not needed in other funds or accounts to the General Fund from such funds or accounts, as determined by the Pooled Money Investment Board including the Surplus Money Investment Fund or the Pooled Money Investment Account. All money so transferred shall be returned to the funds or accounts from which it was transferred as soon as there is sufficient money in the General Fund to return it. No interest shall be charged or paid on any transfer authorized by this section except as provided herein. This section does not authorize any transfer which will interfere with the object for which a special fund was created nor any transfer from the Central Valley Water Project Construction Fund, the Central Valley Water Project Revenue Fund, or the California Water Resources Development Bond Fund.

In the event that the total money transferred to the General Fund in any fiscal year from any special fund pursuant to this section exceeds an amount equal to 10 percent of the total additions to surplus available for appropriation as shown in the statement of operations of the preceding fiscal year as set forth in the annual report of the Controller, interest shall be paid on such excess computed at a rate determined by the Pooled Money Investment Board to be the current earning rate of the fund from which transferred.

SEC. 2. Section 16310.5 of the Government Code is repealed.

SEC. 3. Section 16470 of the Government Code is amended to read:

16470. The Pooled Money Investment Board shall, at such times as it deems necessary, determine whether any portion of the money then on deposit in the State Treasury to the credit of any fund, exclusive of the General Fund, is not necessary for immediate use; and if so, it shall determine the amount thereof in each such fund, which amount shall thereupon be designated as "surplus money." This article does not apply to any fund included within subdivisions (b), (c), (d), (e), and (f) of Section 16475, or the State Highway Fund, the

Public Employees' Retirement Fund, Legislators' Retirement Fund and State Teachers' Retirement Fund.

Any special fund excepted from this article may elect, by filing with the Pooled Money Investment Board a notice of election, to come under the provisions of the Surplus Money Investment Fund; which election shall be revocable by such special fund effective as of December 31st or June 30th of any year upon 30 or more days' notice prior to either of said dates.

SEC. 4. Section 16475 of the Government Code is amended to read:

16475. As of December 31 and June 30 all interest earned and other increment derived from investments made pursuant to this article shall, on order of the State Controller, be deposited in the Surplus Money Investment Fund. The State Controller, after deducting expenses incurred under this article by the State Treasurer in investing in securities or time bank deposits and in collecting bonds and bond coupons, shall apportion as of December 31st and June 30th of each year to the following funds in the State Treasury all interest earned or increment derived from the investments authorized by this article for the six calendar months ending with such dates:

(a) The General Fund;

(b) Each fund into which are deposited or which contains moneys collected from any tax now or hereafter imposed by the state upon the manufacture, sale, distribution, or use of motor vehicle fuel, for use in motor vehicles upon the public streets and highways;

(c) Each fund into which are deposited or which contains moneys collected from motor vehicle and other vehicle registration license fees or from any other tax or license fee now or hereafter imposed by the state upon vehicles, motor vehicles or the operation thereof, except those taxes and license fees which, by the provisions of Section 4 of Article XXVI of the Constitution of this state are exempted from the provisions of Section 2 of said Article XXVI;

(d) Each fund into which are deposited or which contains moneys collected under the provisions of any law of this state relating to the protection, conservation, propagation, or preservation of fish, game, mollusks, or crustaceans, and fines imposed by any court for the violation of any such law;

(e) Each fund into which are deposited or which contains moneys available for construction, repair, replacement, maintenance or operation of public works of the state, including, but not limited to, the facilities of the State Water Resources Development System, as defined in Section 12931 of the Water Code, toll facilities financed, built, or acquired pursuant to the California Toll Bridge Authority Act, or moneys available for the payment of principal or interest on bonds issued to provide for the construction of such facilities;

(f) Every other fund in respect to which the Board of Control on the advice of the Attorney General determines that the

operation of the State or Federal Constitution prohibits the expenditure of interest received under this article and allocated on the basis of amounts in such fund for General Fund purposes.

(g) Each fund not included within subdivisions (a) to (f), inclusive, of this section.

Such apportionments shall be made by the State Controller in the following manner:

(1) All money not apportioned to the funds referred to in (b), (c), (d), (e), (f), and (g) herein shall be apportioned to the General Fund.

(2) There shall be apportioned to each of the funds referred to in (b), (c), (d), (e), (f), and (g) herein an amount directly proportionate to the respective amounts transferred from such funds to the Surplus Money Investment Fund and the length of time such amounts remained therein.

SEC. 5. Section 16480.8 of the Government Code is amended to read:

16480.8. If any provision in this chapter, or the application thereof to the money in any fund in the Treasury, is held invalid, the remaining provisions of this chapter shall not be affected thereby.

The provisions of this article and Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2 of the Government Code supersede any other provision of law relating to the investment of state funds by any state agency other than the Pooled Money Investment Board except for those funds included in subdivisions (b), (c), (d), (e), and (f) of Section 16475 of this code.

CHAPTER 1458

An act to amend Section 21404 of, and to add Section 21404.1 to, the Public Utilities Code, relating to aircraft.

[Approved by Governor August 24, 1968. Filed with Secretary of State August 26, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 21404 of the Public Utilities Code is amended to read:

21404. Subject to Section 21406, the liability of the owner or pilot of an aircraft carrying passengers for injury or death to the passengers is determined by the rules of law applicable to torts on the land or waters of this state, arising out of similar relationships. Every owner of an aircraft is liable and responsible for death or injury to person or property resulting from a negligent or wrongful act or omission in the operation of the aircraft, in the business of the owner or otherwise, by

any person using or operating the same with the permission, express or implied, of the owner.

SEC. 2. Section 21404.1 is added to the Public Utilities Code, to read:

21404.1. (a) The liability of an owner, bailee of an owner, or personal representative of a decedent imposed by Section 21404 and not arising through the relationship of principal and agent or master and servant is limited to the amount of fifteen thousand dollars ($15,000) for the death of or injury to one person in any one accident and, subject to the limit as to one person, is limited to the amount of thirty thousand dollars ($30,000) for the death of or injury to more than one person in any one accident and is limited to the amount of five thousand dollars ($5,000) for damage to property of others in any one accident.

(b) An owner, bailee of an owner, or personal representative of a decedent is not liable under this section for damages imposed for the sake of example and by way of punishing the operator of the aircraft. Nothing in this subdivision makes an owner, bailee of an owner, or personal representative immune from liability for damages imposed for the sake of example and by way of punishing him for his own wrongful conduct.

CHAPTER 1459

An act to repeal Chapter 16 (commencing with Section 8900) of Division 3 of the Business and Professions Code, and to amend Sections 80.2, 80.4, and 82 of, and to add Article 5 (commencing with Section 76) to Chapter 2 of Division 1 of, the Harbors and Navigation Code, relating to yachts and ships.

If the applicant has not resided or engaged in business in the county for at least one year, the yacht and ship or real estate brokers of any county in which he formerly resided or had his place of business may make such recommendations.

(b) Any person claiming to be injured by the fraud, deceit, or willful negligence of any broker, or by the failure of any broker to comply with the provisions of this article, may bring an action upon the bond deposited with the department against both the principal and the surety in any court of competent jurisdiction to recover the damage caused by such fraud, deceit, willful negligence, or failure to comply with the provisions of this article. In the event that a broker fails to pay any sum owed to any creditors arising out of any transaction in which such broker acted in his capacity as a broker, the department shall call and hold a hearing, as near as may be pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, to determine the names and addresses of all such creditors, together with the amounts due and owing to them

and each of them. The publication of one notice of the hearing in a magazine or newspaper of general circulation devoted to the yacht and ship business shall constitute sufficient notice of the hearing. Each creditor claiming that a sum is owed to him shall file with the department at the hearing a verified statement of his claim. Upon ascertaining all claims and statements in the manner herein set forth, the department may then make demand upon the bond on behalf of those claimants whose statements have been filed, and shall have the power to settle or compromise such claims with the surety company on the bond, and is empowered in such cases to execute and deliver a release and discharge of the bond involved. Upon the refusal of the surety company to pay the demand, the department shall thereupon bring an action on the bond in behalf of such creditors. Upon any action being commenced on such bond the department may require the filing of a new bond and immediately upon the recovery in any action on such bond such broker shall file a new bond and upon failure to file the same within 10 days in either case, such failure shall constitute grounds for the suspension or revocation of his license.

(c) Upon the filing of notice with the department by any surety of its withdrawal as surety for any licensee pursuant to Section 2851 of the Civil Code, the department shall forthwith give notice to the licensee of the withdrawal which notice shall be by registered mail with request for return receipt and shall be addressed to the licensee at his principal office as shown by the records of the department. The license of any licensee shall be suspended and shall be returned to the department upon the termination of the bond of the surety as provided in Section 2851 of the Civil Code, unless, prior to the termination, a new bond has been filed with the department.

77.4. Every broker shall maintain a definite place of business in this state as his principal office and may establish other branch offices throughout the state.

Every broker maintaining more than one place of business within this state shall procure an additional license for every branch office maintained by him.

77.5. (a) Every license issued to a corporation entitles an officer of the corporation to act as the licensee under the license and every license issued to a copartnership entitles one member to act as the licensee under the license.

Any member of a copartnership who desires to act as a broker or salesman under this article on his own behalf shall procure a license.

(b) Every corporation making application for a license under this article shall furnish the department with a resolution of its board of directors, giving the name of the officer who is to act for and on behalf of the corporation, and every copartnership making an application for a license under this article shall set forth in the application the name of the partner who is to act under a license for and on behalf of the copartnership.

(c) Every corporation licensed under the provisions of this article may, by a resolution of its board of directors, substitute another officer for the one named in the license; provided, the person to be substituted qualifies by passing a written examination and the corporation pays the required fees, as set forth in this article.

(d) Every copartnership licensed under the provisions of this article may substitute another partner for the one named in the license; provided, such partner qualifies by passing the written examination and the copartnership pays the required fees as set forth in this article.

77.6. (a) Any person who has been denied a license or whose license has been revoked or is under suspension or has not been renewed while under suspension, or any person who has been a member of a partnership or an officer or director of a corporation the license of which has been revoked or is under suspension or has not been renewed while under suspension and who while acting as such partner, officer, or director participated in the acts for which the license was suspended or revoked, may be prohibited from serving as a member of a licensed partnership or as an officer or director of a licensed corporation, and the employment, election, or association of such person in such capacity by an applicant or a licensee shall constitute grounds for the denial of an application and the suspension or revocation of a license.

(b) Every license shall be prominently displayed in the office of the broker in which the business of the broker or salesman is transacted.

(c) Every salesman's license shall remain in the possession of the broker by whom the salesman is employed until canceled or until he leaves the employment of the broker. Immediately upon the salesman's withdrawal from the employment of the broker, the broker shall return the salesman's license to the department for cancellation.

(d) Upon the issuance of a license, a pocket card of such size, design, and content as may be determined by the department may be issued without charge to each licensee, if an individual, or if the licensee is a person other than an individual, to its manager and to each of its officers, directors, members, and partners, which card shall be evidence that the licensee is duly licensed pursuant to this article. When any person to whom a card is issued terminates his position, office, or association with the licensee, the card shall be surrendered to the licensee and within five days thereafter shall be mailed or delivered by the licensee to the department for cancellation.

77.7. (a) Within one month after the closing of a transaction in which title to a yacht or ship is conveyed from a seller to a purchaser through a licensee under this article, such licensee shall inform or cause the information to be given to the seller and purchaser in writing of the selling price thereof; and in the event an exchange of yachts or ships is involved, such information shall include a description of such property and

amount of added money consideration, if any. If any transaction is closed through escrow and the escrow holder renders a closing statement which reveals such information, that shall be deemed compliance with this subdivision on the part of the licensee.

(b) Before any licensee under this article shall engage in any transaction for which a license is required under this article, he shall obtain a written authorization from his principal to so act. A telegraphic authorization from the principal shall be deemed to comply with the requirements of this subdivision.

(c) When a licensee prepares or there is prepared on behalf of a licensee an agreement authorizing or employing such licensee to purchase, sell, or exchange a yacht or ship, for compensation or commission, such licensee shall deliver a copy of the agreement to the person signing it. Receipt for such copy may be made on the face of the agreement.

77.8. (a) The department may upon its own motion and shall upon the verified written complaint of any person, investigate the actions of any broker or salesman, whether or not licensed.

(b) The proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

77.9. The department may suspend or revoke the license of a broker or salesman who has committed any of the following acts:

(a) Makes a substantial misrepresentation upon which any person has relied.

(b) Makes a false warranty of a character likely to influence, persuade, or induce any person with whom business is transacted under this article.

(c) Engages in a continued and flagrant course of misrepresentation or makes false warranties, whether or not relied upon by another person.

(d) Acts for the buyer and seller in a transaction without the knowledge and consent of both parties.

(e) Commingles the money or other property of his principal with that of his own.

(f) Does any of the acts or participates in any of the transactions defined in subdivision (a) of Section 76.1 with respect to any yacht or ship not numbered in accordance with the provisions of Chapter 5 (commencing with Section 650) of Division 3.

(g) Performs any act or participates in any transaction which belongs to or is connected with a class or activity other than the class for which he is licensed.

(i) Quotes prices higher than the gross listing prices.

(j) Engages in any other conduct constituting fraud or dishonest dealings, either with respect to his principal or other persons.

(k) Permits his name to be used for the purpose of assisting any person who is not a licensed yacht and ship broker or salesman to evade the provisions of this article.

78. The department may suspend or revoke the license of a broker or salesman who within three years immediately preceding has committed any of the following acts or against whom and within such period any of the following conditions exist:

(a) Procuring a license under this article for himself or another by fraud, misrepresentation, or deceit;

(b) Has been convicted of a felony and has withheld information of that fact from the department;

(c) Knowingly authorizes, directs, connives, or aids in the publication, advertisement, distribution, or circulation of any material false statement or misrepresentation concerning his business or any transaction under this article.

78.1. The department may suspend or revoke the license of a broker or salesman who procures a license under this article for himself or another by fraud, misrepresentation, or deceit. An action to suspend or revoke a license for a violation of the provisions of this section shall be commenced within three years after the discovery by the department of such violation.

78.2. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge of a felony or of any offense involving moral turpitude is deemed to be a conviction within the meaning of this article. The department may order the license suspended or revoked, or may decline to issue a license, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information, or indictment.

78.3. (a) During the month of December of each year, each person licensed under this article shall file with the department an application for renewal of his license and shall pay to the department the renewal fee required by this article, whereupon the department shall renew his license. Every license not renewed in accordance with this subdivision shall expire on January 1st of the year following the year for which it was issued or renewed and shall forthwith be returned to the department. Such license may thereafter be reinstated only upon the filing of an application therefor and in the payment of the renewal fee required by this article for the year in

which reinstatement is sought, together with a penalty fee equal to 75 percent of the renewal fee. No examination shall be required for the reinstatement of a license which has expired solely for nonpayment of the renewal fee as required by this subdivision.

(b) An application for reinstatement of a license which has expired pursuant to subdivision (a) shall be on the form provided by the department and shall be affirmed or sworn to before a notary public or other person authorized by law to administer oaths and affirmations or shall be executed under penalty of perjury. The department may refuse to grant reinstatement if the applicant, after the expiration of his license, has performed any act or participated in any transaction for which a license is required by this article or during such period has committed any offense or performed any act which would be cause for the suspension or revocation of a license under this article.

(c) All fees charged and collected under this article shall be paid by the department at least once a month, accompanied by a detailed statement into the State Treasury to the credit of the Yacht and Ship Brokers Fund.

All money paid into the State Treasury and credited to this fund is appropriated to carry out the provisions of this article and shall be paid in the manner provided by law.

The department may establish a revolving fund in such an amount as it may determine, subject to the approval of the director.

78.4. All license fees shall be paid in advance of issuing the license and the taking of examinations. The fee for the license shall be returned to the applicant if he fails to pass the examination.

78.5. A person who fails to renew his license within five years after its expiration may not renew it, and it shall not be restored, reissued, or reinstated thereafter, but such person may apply and obtain a new license if:

(a) He is of good moral character;

(b) No fact, circumstance, or condition exists which, if the license were issued, would justify its revocation or suspension;

(c) He takes and passes the examination, if any, which would be required of him if he were then applying for a license for the first time, or otherwise establishes to the satisfaction of the department that, with due regard for the public's interest, he is qualified to hold himself out as a yacht and ship broker; and

(d) He pays all of the fees that would be required of him if he were then applying for the license for the first time.

The department may, by regulation, provide for the waiver or refund of all or any part of the examination fee in those cases in which a license is issued without an examination pursuant to the provisions of this section.

78.6. (a) The amount of fees prescribed by this article is that fixed by the following schedule:

78.7. (a) The department shall have the power to adopt rules and regulations classifying yacht and ship brokers or salesmen, on the following basis:

A license issued to a broker or salesman shall be limited to the class or classes for which the applicant has demonstrated his qualifications and fitness by his application and examination.

No salesman shall be licensed in any class other than that for which the employing broker is licensed.

A person shall be deemed qualified to be licensed as a broker if, as shown by the affidavits of two responsible persons, he has, or has the equivalent of:

78.9. Temporary licenses may be issued to salesmen under the following conditions:

(a) Such licenses shall be issued for a period not to exceed 60 days, and only one license shall be issued to each applicant.

(b) An application shall be filed for a temporary license and for a permanent license, and at the same time the applicant shall pay the prescribed fee.

(c) The applicant shall state under oath his qualifications for the position of salesman, and shall show that he has not been guilty of any conduct and has not done any act that would constitute good cause for the suspension or revocation of a permanent license.

(d) On or before the expiration date of the temporary license, such licensee shall take a written examination for a permanent license of the class or classes which he selected and for which he is qualified. If without valid excuse he fails to appear for the examination at the time prescribed, the examination fee shall be forfeited.

79. The department may issue a certificate of convenience to the executor or administrator of the estate of a deceased agent or broker, or if no executor or administrator has been appointed, and until a certified copy of an order making such appointment is filed with the department, to the widow or other heir otherwise entitled to conduct the business of the deceased, permitting such person to act as a broker in the conduct of the business of the estate for a period of 45 days from and after the date of death pending, but not later than, disposal of the business, unless such person qualifies by examination for a permanent broker's license.

DIVISION 3. HUMAN RESOURCES DEVELOPMENT

PART 1. HUMAN RESOURCES DEVELOPMENT ACT OF 1968

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

Article 1. General Provisions

9000. This part shall be known and may be cited as the Human Resources Development Act of 1968.

9001. The Legislature hereby finds and declares that it is essential to the health and welfare of the people of this state that action be taken by the state and federal governments to effectively and economically utilize federal and state funds for job training and placement services. To achieve this, it is necessary that:

(a) Explicit priorities be established for the allocation of these funds to ensure that they are first used to assist those in greatest need for job training and placement services;

(b) Definitive goals be established for the total system of job training and placement services to maximize the effectiveness of the system in assisting individuals to find and maintain gainful, competitive employment;

(c) Efforts be made to enlist the full support of private industry in securing jobs for enrollees of training programs, and a closer, more integrated and coordinated effort be established with the federal government as well as state and local public and private agencies involved in performing job training and placement services; and

(d) New approaches involving improved services and changes in traditional organization structures be used to assist persons in economically disadvantaged areas.

It is hereby declared to be the intent of the Legislature to concentrate and account for the funds available for job training and placement services in one state fund administered by a state agency whose functions shall be subject to periodic review by the Legislature and appropriate federal agencies, and to which is assigned the responsibility for the efficient administration of job training and placement services in this state and the allocation of these funds to the end that such funds will be more effectively utilized and will be directed primarily to those areas of the state with the largest concentrations of chronically unemployed persons.

It is the further intent of the Legislature (a) to maintain policy control over all job training and placement programs

administered pursuant to this part to the maximum extent feasible, consistent with effective program operations, (b) to organize existing job training and placement programs now operating in the state into a coordinated system designed to remove employable persons from public dependency, and to enlist the full support of private industry in securing jobs for enrollees, (c) to use funds for job training and placement services in a flexible manner to provide needed services for individuals through contractual arrangements with public and private agencies, (d) to provide a unified system for timely delivery of improved job training placement and related services to eligible persons including individual case responsibility, an outreach effort to seek out those persons who need but do not apply for services, followup to insure that the needs of eligible persons and their families are met, dissemination of information and knowledge to residents of the economically disadvantaged area about available services, and location of services in areas readily accessible to those who need them, and (e) to involve members of each community in identifying the needs to be met and relating them to the services available in order to reduce the isolation of the disadvantaged from their government and the community as a whole and to improve their confidence in government at all levels.

9002. Subject to the provisions of Sections 9600 and 9605, the Secretary of the Human Relations Agency shall coordinate all job training placement, and related programs, conducted by state agencies, with the federal government and ensure that there is no duplication of such programs among state agencies and that all agreements, contracts, plans or programs conform to the provisions of this part. Any plan proposed to be submitted by any such agency to the federal government in relation to a job training, placement, or related program, shall first be submitted to the Secretary of the Human Relations Agency for his review. The Human Relations Agency may require state departments to contract with it for services to carry out the provisions of this part.

CHAPTER 1462

An act to amend Section 24348 of, and to add Section 26082 to, the Revenue and Taxation Code, relating to bank and corporation taxes, to take effect immediately, tax levy.

[Approved by Governor August 24, 1968. Filed with Secretary of State August 26, 1968.]

The people of the State of California do enact as follows:

SECTION 1. Section 24348 of the Revenue and Taxation Code is amended to read:

24348. (a) There shall be allowed as a deduction debts which become worthless within the income year; or, in the discretion of the Franchise Tax Board, a reasonable addition to a reserve for bad debts. When satisfied that a debt is recoverable in part only the Franchise Tax Board may allow such debt, in an amount not in excess of the part charged off within the income year, as a deduction; provided, however, that if a debt was actually worthless prior to January 1, 1943,

but was not ascertained to be worthless and charged off prior to said date, a deduction may be taken therefor during the first income year ending after December 31, 1942; and, provided, that if a portion of a debt is claimed and allowed as a deduction in any year no deduction shall be allowed in any subsequent year for any portion of the debt which in any prior year was charged off, regardless of whether claimed as a deduction in such prior year.

(b) (1) In the case of a taxpayer who is a dealer in property, in lieu of any deduction under subdivision (a), there shall be allowed (in the discretion of the Franchise Tax Board) for any income year beginning on and after January 1, 1967, a deduction—

(A) For a reasonable addition to a reserve for bad debts which may arise out of its liability as a guarantor, endorser, or indemnitor of debt obligations arising out of the sale by it of real property or tangible personal property (including related services) in the ordinary course of its trade or business; and

(B) For the amount of any reduction in the suspense account required by paragraph (4)(B)(i).

(2) Except as provided in paragraph (1), no deduction shall be allowed to a taxpayer for any addition to a reserve for bad debts which may arise out of its liability as guarantor, endorser, or indemnitor of debt obligations.

(3) The opening balance of a reserve described in paragraph (1)(A) for the first income year beginning on and after January 1, 1967, for which a taxpayer maintains such reserve shall, under regulations prescribed by the Franchise Tax Board, be determined as if the taxpayer had maintained such reserve for the preceding income years.

(4) (A) Except as provided by subparagraph (C), each taxpayer who maintains a reserve described in paragraph (1)(A) shall, for purposes of this subdivision and Section 24274, establish and maintain a suspense account. The initial balance of such account shall be equal to the opening balance described in paragraph (3).

(B) At the close of each income year the suspense account shall be—

(i) Reduced by the excess of the suspense account at the beginning of the year over the reserve described in paragraph (1)(A) (after making the addition for such year provided in such paragraph), or

(ii) Increased (but not to an amount greater than the initial balance of the suspense account) by the excess of the reserve described in paragraph (1)(A) (after making the addition for such year provided in such paragraph) over the suspense account at the beginning of such year.

(C) Subparagraphs (A) and (B) shall not apply in the case of the taxpayer who maintained for its last income year beginning before January 1, 1967, a reserve for bad debts

under subdivision (a) which included debt obligations described in paragraph (1)(A).

(5) If the taxpayer establishes a reserve under subdivision (b)(1) of this section for an income year beginning on and after January 1, 1967, and ending before December 1, 1968, the establishment of such reserve shall not be considered as a change in method of accounting for purposes of Section 24651(e).

(c) At the election of the taxpayer, with respect to loans described in this subdivision, instead of any deduction under subdivision (a), there shall be allowed a deduction by savings and loan associations, banks, and other financial institutions of an amount equal to the greater of 2 percent of the end of the year balances, or an amount sufficient to maintain the reserve thus established at 2 percent of loans made on the security of residential properties owned and occupied by low- and moderate-income families. The reserve for bad debts thus established cannot exceed at the end of any income year 10 percent of such loans. Losses resulting from such loans will be charged to the reserve created pursuant to this subdivision. In the event that taxpayers subject to this subdivision sell, transfer, or otherwise dispose of such loans, or such loans are reduced by amortization or other means, the related reserve, to the extent that it then exceeds 10 percent of such loans then remaining, must be restored to gross income in the income year that such excess occurs.

The deduction allowed under this subdivision shall only be authorized as to loans which meet the following conditions:

(1) The loans shall be made to low- and moderate-income families to finance the purchase, acquisition or improvement by such families of single-family residential structures or single-family residential units within the condominium, community apartment, or cluster-type residential project.

(2) The loans shall not be insured or guaranteed by the State of California or the federal government or any agency thereof.

For the purposes of this subdivision and Section 26082, low- and moderate-income families are families who lack income that would enable them without financial assistance to live in decent, safe, and sanitary dwellings without overcrowding. Income eligibility limits for such families shall be established annually by the Department of Housing and Community Development using as a basis for its computations the per capita income figures for the State of California furnished in the most recent annual survey prepared by the United States Department of Commerce. The maximum income limits shall not exceed the average per capita income thus obtained for one-member families nor shall it exceed such per capita income multiplied by two for two-member families. For families with more than two members, such maximum limits shall be obtained by adding a sum not exceeding 20 percent of the per capita income for each additional family member. In no case

shall the maximum family income so determined exceed the average family income for the State of California established by the Department of Housing and Community Development.

The deduction allowable under this subdivision shall not apply with respect to loans made on or before December 31, 1968, and shall only apply to income years beginning on and after January 1, 1969.

SEC. 2. Section 26082 is added to the Revenue and Taxation Code, to read:

26082. (a) There shall be allowed as a credit against the tax payable by savings and loan associations, banks, and other financial institutions an amount equal to 1 percent of loans made during each taxable year to low- and moderate-income families (as defined in subdivision (c) of Section 24348) in this state.

(b) The credit allowed under subdivision (a) shall only be authorized as to loans which meet the following conditions:

(1) The loans shall be made to low- and moderate-income families as defined in subdivision (c) of Section 24348 to finance the purchase, acquisition or improvement by such families of single-family residential structures or single-family residential units within the condominium, community apartment, or cluster-type residential project.

(2) The loans shall not be insured or guaranteed by the State of California or the federal government or any agency thereof.

(c) The credit allowed under subdivision (a) shall be limited as follows:

(1) The maximum allowable credit shall be limited to 25 percent of the tax computed, without regard to the credit.

(2) No credit shall be allowed upon a transfer, modification or refinancing of a loan upon which a credit has been, or may have been, allowed pursuant to the provisions of this section.

(d) The credits allowable under this section shall not apply with respect to loans made on or before December 31, 1968, and shall only apply to income years beginning on and after January 1, 1969.

SEC. 3. On or before November 1, 1969, the Savings and Loan Commissioner shall make a written report to the Legislative Analyst on the effect of this act, and the Legislative Analyst shall submit this report, together with his comments and recommendations, to the Legislature by not later than the 30th calendar day of the 1970 Regular Session.

SEC. 4. Sections 1 and 2 of this act shall remain in effect for income years commencing prior to December 31, 1970, and shall have no force or effect after that date.

SEC. 5. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

(c) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

CHAPTER 3.5. INSPECTION OF PUBLIC RECORDS

6250. In enacting this chapter, the Legislature, mindful of the right of individuals to privacy, finds and declares that access to information concerning the conduct of the people's business is a fundamental and necessary right of every citizen of this state.

6251. This chapter shall be known and may be cited as the California Public Records Act.

6252. As used in this chapter:

(a) "State agency" means every state office, officer, department, division, bureau, board, and commission or other state agency, except those agencies provided for in Article IV (except Section 20 thereof) or Article VI of the California Constitution.

(b) "Local agency" includes a county; city, whether general law or chartered; city and county; school district; municipal corporation; district; political subdivision; or any board, commission or agency thereof; or other local public agency.

(c) "Person" includes any natural person, corporation, partnership, firm, or association.

(d) "Public records" includes all papers, maps, magnetic or paper tapes, photographic films and prints, magnetic or punched cards, discs, drums, and other documents containing information relating to the conduct of the public's business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics.

6253. Public records are open to inspection at all times during the office hours of the state or local agency and every citizen has a right to inspect any public record, except as hereafter provided. Every agency may adopt regulations stating the procedures to be followed when making its records available in accordance with this section.

6254. Nothing in this chapter shall be construed to require disclosure of records that are:

(a) Preliminary drafts, notes, or interagency or intra-agency memoranda which are not retained by the public agency in the ordinary course of business, provided that the public interest in withholding such records clearly outweighs the public interest in disclosure;

(b) Records pertaining to pending litigation to which the public agency is a party, or to claims made pursuant to Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, until such litigation or claim has been finally adjudicated or otherwise settled;

(c) Personnel, medical, or similar files, the disclosure of which would constitute an unwarranted invasion of personal privacy;

(d) Trade secrets;

(e) Geological and geophysical data, plant production data and similar information relating to utility systems develop-

ment, or market or crop reports, which are obtained in confidence from any person;

(f) Records of complaints to or investigations conducted by, or records of intelligence information or security procedures of, the office of the Attorney General and the Department of Justice, and any state or local police agency, or any such investigatory or security files compiled by any other state or local agency for correctional, law enforcement or licensing purposes;

(g) Test questions, scoring keys, and other examination data used to administer a licensing examination, examination for employment, or academic examination;

(h) The contents of real estate appraisals, engineering or feasibility estimates and evaluations made for or by the state or local agency relative to the acquisition of property, or to prospective public supply and construction contracts, until such time as all of the property has been acquired or all of the contract agreement obtained, provided, however, the law of eminent domain shall not be affected by this provision;

(i) Information required from any taxpayer in connection with the collection of local taxes which is received in confidence and the disclosure of the information to other persons would result in unfair competitive disadvantage to the person supplying such information;

(j) Library and museum materials made or acquired and presented solely for reference or exhibition purposes; and

(k) Records the disclosure of which is exempted or prohibited pursuant to provisions of federal or state law, including, but not limited to, provisions of the Evidence Code relating to privilege.

(*l*) In the custody of or maintained by the Governor or employees of the Governor's office employed directly in his office, provided that public records shall not be transferred to the custody of the Governor's office to evade the disclosure provisions of this chapter.

(m) In the custody of or maintained by the Legislative Counsel.

Nothing in this section is to be construed as preventing any agency from opening its records concerning the administration of the agency to public inspection, unless disclosure is otherwise prohibited by law.

6255. The agency shall justify withholding any record by demonstrating that the record in question is exempt under express provisions of this chapter or that on the facts of the particular case the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record.

6256. Any person may receive a copy of any identifiable public record or shall be provided with a copy of all information contained therein. Computer data shall be provided in a form determined by the agency.

6257. A request for a copy of an identifiable public record or information produced therefrom, or a certified copy of such

record, shall be accompanied by payment of a reasonable fee or deposit established by the state or local agency, or the prescribed statutory fee, where applicable.

6258. Any person may institute proceedings in any court of competent jurisdiction to enforce his right to inspect or to receive a copy of any public record under this chapter. The times for responsive pleadings and for hearings in such proceedings shall be set by the judge of the court with the object of securing a decision as to such matters at the earliest possible time.

6259. Whenever it is made to appear by verified petition to the superior court of the county where the records or some part thereof are situated that certain public records are being improperly withheld from a member of the public, the court shall order the officer or person charged with withholding the records to disclose the public record or show cause why he should not do so. The court shall decide the case after examining the record in camera, if permitted by subdivision (b) of Section 915 of the Evidence Code, papers filed by the parties and such oral argument and additional evidence as the court may allow.

If the court finds that the public official's decision to refuse disclosure is not justified under the provisions of Section 6254 or 6255, he shall order the public official to make the record public. If the judge determines that the public official was justified in refusing to make the record public, he shall return the item to the public official without disclosing its content with an order supporting the decision refusing disclosure. Any person who fails to obey the order of the court shall be cited to show cause why he is not in contempt of court.

6260. The provisions of this chapter shall not be deemed in any manner to affect the status of judicial records as it existed immediately prior to the effective date of this section, nor to affect the rights of litigants, including parties to administrative proceedings, under the laws of discovery of this state.

by the rules of the Legislature or when released by the member for whom the material was prepared. When he determines that the public interest so requires, the Legislative Counsel may release any material arising out of the attorney-client relationship with a former Member of the Legislature who is not available to execute a release.

SEC. 44. Section 15487 of the Government Code is repealed.

PROPOSITION C

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County of San Francisco at an election to be held therein on November 7, 1967, a proposal to amend the charter of said city and county by amending Section 145 thereof, so that the same shall read as follows:

Qualifications and Tests

Section 145. All applicants for places in the classified service shall submit to tests which shall be competitive, provided, however, that no test in either entrance or promotional examinations shall be deemed to be competitive unless two or more persons shall participate, except that any such examination may be held for one qualified applicant on recommendation of the civil service commission and approval by resolution of the board of supervisors, after a finding by the board that reasonable publicity of the proposed examination has been given by the civil service commission. Such tests shall be without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of the applicants for the positions to be filled. The commission shall be the sole judge of the adequacy of the tests to rate the capacity of the applicants to perform service for the city and county. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for entrance positions in the uniformed force of the fire department shall be not less than twenty-one years of age, nor more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for entrance positions in the uniformed force of the police department shall not be less than twenty years of age at the time of taking the examination, nor less than twenty-one years of age or more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be submitted to

such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority of application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of such veterans, who become eligible for appointment by attaining the passing mark in any entrance examination, shall be allowed an additional credit of five per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of three per cent shall be allowed to veterans or to widows of such veterans when requested by such veterans or widows. When an eligible has secured a permanent appointment from a list of eligibles derived from an entrance examination in which he has been allowed additional credits of five per cent as herein provided, and has served the full probationary period therein as provided in this charter, such other additional credits of five per cent that have been allowed him on lists of eligibles derived from other entrance examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other entrance examinations. If he has received a permanent appointment from a list of eligibles derived from a promotive examination in which he has requested and been allowed the additional credits of three per cent as herein provided, and has served the full probationary period therein as provided in this charter, such additional credits of three per cent that have been allowed him on lists of eligibles derived from other promotive examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other promotive examinations. The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than ten per cent, for entrance appointment of veterans who have suffered permanent disability in line of duty, provided that such disability would not prevent the proper performance of the duties required under such service,

or employment, and provided that such disability is of record in the United States Veterans' Bureau.

on November 7, 1967, a proposal to amend the charter of said city and county by amending Sections 35.5.1, 35.5.2 and 36.2 so that the same shall read as follows:

Section 35.5.1 Not later than the 15th day of February of each year, the civil service commission shall survey and certify to the board of supervisors rates of compensation paid police officers or patrolmen employed in the respective police departments in all cities of 100,000 population or over in the State of California, based upon the latest federal decennial census.

The foregoing enumeration is not exclusive, but it is the intent of this section that nothing other than a basic amount of wages, with included range scales, is to be included within the meaning of "rates of compensation."

Not later than the first day of April of each year the board of supervisors shall have power, and it shall be its duty by ordinance to fix the additional rate of pay for the members of the police department who are assigned to two-wheel motorcycle traffic duty, at a rate of pay not to exceed the highest

rate of compensation paid to members assigned to two-wheel motorcycle traffic duty in the cities included in the certified report of the civil service commission.

The rates of compensation, fixed in said ordinance,

(a) for the fourth year of service and thereafter for firemen shall not exceed the highest rate of compensation paid firemen in regular service in the cities included in the certified report of the civil service commission;

(b) for the first, second and third year of service for firemen shall include the same amount of adjustment as that used in fixing the rates of compensation for the fourth year of service for the same class;

(c) for said members of the fire department other than firemen shall include the same per cent of adjustment as that es-

tablished by said ordinance for firemen in the fourth year of service; and

(d) shall be set at the dollar amount nearest the fractional amount which may result from percentage adjustment specified in this section, half dollars being taken to the next higher dollar amount.

The rates of compensation set forth in the budget estimates, the budget and the annual salary ordinance shall be those fixed by the board of supervisors as in this section provided and appropriations therefor shall be based thereon.

Not later than the 1st Monday of August each year, the civil service commission shall survey and certify to the board of supervisors the rates of compensation paid firemen on the first day of August of that year in the cities hereinbefore referred to. The board of supervisors shall thereupon have the power by ordinance to revise all of the rates of compensation as in this section provided. Said revised rates shall be effective from the first day of July of the then current fiscal year.

If the board of supervisors revises said rates of compensation, then it shall, not later than the 25th day of August of the then current fiscal year, have the power, and it shall be its duty, subject to the fiscal provisions of the charter, but without reference or amendment to the annual budget, to amend the annual salary ordinance and the annual appropriation ordinance to include the provisions necessary for paying the rates of compensation fixed by the board of supervisors as in this section provided for the then current fiscal year.

The expression "rates of compensation" as used in this section, in relation to said survey, is hereby declared to apply only to a basic amount of wages, with included range scales, and does not include such working benefits as might be set up by any other city by way of holidays, vacations, other permitted absences of any type whatsoever, overtime, night or split shift, or pay for specialized services within a classification or rank, or other premium pay differentials of any type whatsoever. The foregoing enumeration is not exclusive, but it is the intent of this section that nothing other than a basic amount of wages, with included range scales, is to be included within the meaning of "rates of compensation".

Working benefits and premium pay differentials of any type shall be allowed or paid to members of the fire department referred to herein only as is otherwise provided in this charter.

For all purposes of the retirement system, the expression "rates of compensation," as used in this section shall mean "salary attached to the rank" as used in section 169 and "compensation earnable" as used in section 171.1.1.

Section 151.3.1. Notwithstanding the provisions of section 151.3 or any other provisions of this charter, the wages, conditions and benefits of employment as provided for in this section of the various classifications of employment of platform employees and coach or bus operators of the municipal railway as compensation, shall be determined and fixed annually as follows:

(a) On or before the first Monday of August of each year, the civil service commission shall certify to the board of supervisors for each classification of employment the average of the two highest wage schedules in effect on July 1st of that year for comparable platform employees and coach or bus operators of other surface street railway and bus systems in the United States operated primarily within municipalities having each a population of not less than 500,000 as determined by the then most recent census taken and published by the director of the census of the United States, and each such system normally employing not less than four hundred (400) platform employees or coach or bus operators, or platform employees, coach and bus operators.

(b) The board of supervisors shall thereupon fix a wage schedule for each classification of platform employees and coach and bus operators of the municipal railway which shall be not in excess of the average of the two highest wage schedules so certified by the civil service commission for each such classification.

(c) When, in addition to their usual duties, such employees are assigned duties as instructors of platform employees or coach or bus operators they shall receive twenty (20¢) cents per hour in addition to the rate of pay to which they are otherwise entitled under the wage schedule as herein provided.

(d) The rates of pay fixed for platform employees and coach and bus operators as herein provided shall be effective from July 1st of the year in which such rates of pay are certified by the civil service commission.

(e) The terms wage schedule and wage schedules wherever used in this section are hereby defined and intended to include only the maximum rate of pay provided in each such wage schedule.

(f) At the time the board of supervisors fixes the wage schedule as provided in (b) above, the board of supervisors may fix as conditions and benefits of employment other than wages as compensation for platform employees and coach or bus operators of the municipal railway, conditions and benefits not to exceed those conditions and benefits granted by collective bargaining agreements to the comparable platform employees and coach or bus operators of the two systems used for certification of the average of the two highest wage schedules by the civil service commission. The board of supervisors may establish such conditions and benefits notwithstanding other provisions or limitations of this charter, with the exception that such conditions and benefits shall not involve any change in the administration of, or benefits of the retirement system, health service system or vacation allowances as provided elsewhere in this charter. For all purposes of the retirement system as related to this section, the word "compensation" as used in section 165.2 of this charter shall mean the "wage schedules" as fixed in accordance with paragraphs (a) and (b) above, including those differentials established and paid as part of wages to platform employees and coach and bus operators of the municipal railway, but shall not include the value of those benefits paid into the fund established as herein provided. Provided that when in the two systems used for certification as provided above, vacation, retirement and health service benefits are greater than such similar benefits provided by this charter for platform employees, coach or bus operators of the municipal railway, then an amount not to exceed the difference of such benefits may be converted to dollar values and the amount equivalent to these dollar values shall be paid into a fund. The fund shall be established to receive and to administer said amounts representing the differences in values of the vacation, retirement and health service benefits, and to pay out benefits that shall be jointly determined by representatives of the city and county government and the representatives of the organized platform employees and coach and bus operators of the municipal railway. The civil service commission shall adopt rules for the establishment and general administration of the fund as herein provided. Such rules shall provide for a joint administration of the fund by representatives of the city and county government, which shall include representatives of the public utilities commission and representatives of the organized platform employees, coach and bus operators of the municipal railway. Such rules may provide a procedure for final and binding

arbitration of disputes which may arise between representatives of the city and county government and the representatives of the organized platform employees and coach and bus operators of the municipal railway. Such rules shall provide that all investments of the fund shall be of the character legal for insurance companies in California. Such rules and any amendments thereto shall be effective upon approval by the board of supervisors by ordinance.

(g) Not later than the 25th day of August, the board of supervisors shall have power and it shall be its duty, subject to the fiscal provisions of the charter but, without reference or amendment to the annual budget, to amend the annual appropriation ordinance and the annual salary ordinance as necessary to include the provisions for paying the rates of compensation and conditions and benefits other than wages fixed by the board of supervisors as in this section provided for platform employees and coach or bus operators for the then current fiscal year.

On recommendation of the civil service commission the board of supervisors shall establish a rate of pay for trainee platform men and bus or coach operators at a level reflecting the current labor market but below the basic hourly rate for motorman, conductor and bus operator.

This amendment shall become effective on July 1, 1968.

Sec. 175 29 Cost of Living Adjustment

(a) Notwithstanding any other provision of this Article, and subject to the provisions of this Section, as of July 1, of each year, commencing with the year 1968, every monthly allowance payable to or on account of any person who has retired or died or who shall retire or die as a member of the retirement system and whose retirement or death occurred prior to July 1 of the preceding year, shall be increased or decreased by a percentage of the total allowance then being received which shall approximate, to the nearest one-tenth of one percent, the percentage of annual increase or decrease in the cost of living during the preceding calendar year, as determined by the retirement board in the manner provided in this section; provided, that such increase or decrease shall not exceed two percent of any allowance in any year, regardless of the percentage of change in such cost of living.

(b) Determination of the percentage of annual increase or decrease in the cost of living shall be made by the retirement board on or before April 1, of each year by reference to the current Bureau of Labor Statistics' Consumers' Price Index for the Sacramento area. The percentage by which such index for the more recent full calendar year shall have increased or decreased over or below such index for the full calendar year immediately prior thereto shall be the percentage used to calculate adjustments in retirement allowances pursuant to subsection (a) of this section

(c) The amount of any cost of living increase or decrease in any year which is in excess of the maximum annual allowance adjustment of two percent provided in subsection (a)

of this section shall be accumulated from year to year and included in the computation of increases or decreases in succeeding years. The provisions of this subsection shall be applied to the allowance of individual beneficiaries by classes based upon the fiscal year in which the member retired or died, so that each allowance shall have applied to it only such increase or decrease as shall have accumulated during or after the fiscal year in which the member retired or died. The allowances payable to or on account of any retired or deceased person whose retirement or death shall have occurred prior to July 1, 1967, shall be grouped in the first such class.

Any additional money required for such increases shall be provided by equal contributions from the contributing members of the system and from the City of Sacramento, at rates fixed by the retirement board as it shall determine to be necessary, and to be designated "cost of living contributions." The individual members' contributions shall be graded in proportion to the member's normal contribution.

(f) Cost of living contributions of members shall be credited with regular interest and the accumulation of such contributions and interest shall be deemed a part of their accumulated contributions for the purposes of refund, and for the purpose of computing the death benefit under Sections 175.6 and 175.20 of this article. Cost of living contributions of members shall not be refunded after retirement, whether or not any cost of living increases are paid hereunder.

(g) A separate accounting shall be maintained of the accumulations of such contributions and the interest thereon, and such accumulations shall not be included in the accumulated contributions of the member in the computation of any retirement allowance.

(h) There shall be paid to the retirement system, during each fiscal year, cost of living contributions of the City in a total amount equal to the total of the cost of living contributions of members contributed to the system during that fiscal year. The controller shall transfer to the system, during

each fiscal year, from the budget appropriation thereof, the amount of the City's annual cost of living contribution for that year; provided, however, that any portion of such annual contribution which is payable on account of any member while employed in the operation of any municipally-owned self-supporting department shall be paid from the funds of such department's budget.

(i) The payments of the City provided for in this section are hereby made obligations of the City, the funds necessary therefor to be appropriated and provided in the manner specified for appropriating and providing other City contributions to the retirement system.

WHEREAS, The DC-10 "Astroliner" was developed by the close association of these two companies and this order resumes a relationship which resulted in the development of a number of outstanding piston planes; and

WHEREAS, This airliner represents a new generation of subsonic jetliner with an all-purpose versatility of operating out of small and large airports alike, with a spaciousness of a cabin width seven feet greater than current large jets, with passenger comforts of two-abreast seating in coach, and with a newly designed food center for improved dining service; and

RESOLUTION CHAPTER 48

Assembly Concurrent Resolution No. 39—Relative to Constitution Week.

[Filed with Secretary of State March 27, 1968.]

WHEREAS, The Constitution of the United States of America, adopted by the Constitutional Convention by the unanimous consent of the states present on the 17th of September, 1787, emanated from the people to "establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare, and secure the blessings of liberty"; and

WHEREAS, As the keystone of our federal structure the Constitution is the source from which our governmental institutions derive their powers; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members request the Governor to designate the period beginning September 17th and ending September 23rd as Constitution Week, and to issue a proclamation inviting the people of the State of California along with the people of the United States to observe such week in schools, churches and other suitable places with appropriate ceremonies and activities; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Governor.

RESOLUTION CHAPTER 49

Senate Joint Resolution No. 3—Relative to the reinstitution of federal services for California Indians.

[Filed with Secretary of State April 2, 1968.]

WHEREAS, The Indians of California have been excluded from various federal programs and services available to all other Indians of the United States; and

WHEREAS, The Legislature of the State of California in 1953 adopted Assembly Joint Resolution No. 38 and is now clarifying its position with respect to the full participation of California Indians in all federal programs and services available to Indians of the United States; and

WHEREAS, For many years the State of California received three hundred eighteen thousand five hundred dollars ($318,500) as its share of federal moneys allocated to Indian education under the "Johnson-O'Malley Act"; and

WHEREAS, Congress, in the late 1950's, increased federal programs and resources for Indian education; and

WHEREAS, California Indians were precluded from sharing in the increased federal moneys expended for Indian education

under the "Johnson-O'Malley" program nor have they, in fact, received any aid under such program since 1958; and

WHEREAS, Congress appropriated for the 1967–1968 fiscal year nine million five hundred thousand dollars ($9,500,000) for "Johnson-O'Malley" programs, over one million dollars ($1,000,000) of which would have been received by the State of California had it retained its previous percentage share of such funds; and

WHEREAS, There is an actual demonstrated need for the reactivation of the "Johnson-O'Malley" program in California, as evidenced by the fact that the State of California has not enacted adequate programs to meet Indian needs and by the 1966 Report of the California State Advisory Commission on Indian Affairs which documents the appallingly high dropout rate for Indian students; and

WHEREAS, Federal funds received by school districts in California under Public Law 81-874 (which authorizes supplemental payments to school districts receiving school children from nearby federal facilities) is not an adequate substitute for "Johnson-O'Malley" funds because: (1) funds received pursuant to Public Law 81-874 become part of the local school district's general fund and are not earmarked for special Indian programs; and (2) funds received pursuant to Public Law 81-874 are tied to Indians in federally impacted areas and thus do not benefit rural Indians; and

WHEREAS, There are many California Indian children who might benefit from schools for Indians and who might qualify under the admission criteria promulgated by the Bureau of Indian Affairs; and

WHEREAS, In 1955, responsibility for Indian health passed from the Bureau of Indian Affairs to the Public Health Service, Department of Health, Education, and Welfare; and

WHEREAS, The Public Health Service succeeded to, and continued, the policy of withdrawal embarked upon by the Bureau of Indian Affairs, and Public Health Service medical services programs were phased out in the 1950's; and

WHEREAS, Although the Public Health Service still administers a health and sanitation program for California Indians, it recognizes that unmet medical needs exist among the rural California Indians; and

WHEREAS, While the California State Department of Public Health recently received a United States Public Health Service contract grant to develop a pilot Indian health aid training program, medical "outreach" programs are urgently required for the California Indians; and

WHEREAS, Under Public Law 84-959, the Bureau of Indian Affairs operates a vocational training and relocation program for Indians in California, however, the funds received under such program primarily benefit out-of-state Indians whom the Bureau is relocating and training for jobs in California; and

WHEREAS, Under Public Law 84-959, eligibility is limited to those residing "on or near" reservations, and many California

Indians, in need of vocational training services, are nonreservation and are thus ineligible for training; and

WHEREAS, Eligibilty requirements under Public Law 84-959 achieve substantial fairness in other states which have large reservations; now, therefore, be it

Resolved by the Senate and the Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to provide for the full financial participation by California Indians in all federal programs, to require that all schools for Indians be made available to California Indians, that "outreach" medical services programs be provided for the California Indians, that Public Law 84-959 be amended to remove the requirement of living "on or near" a reservation, and thereby make available federal vocational training services to all California Indians, and to reinstitute and expand the "Johnson-O'Malley" contract funds for the education of California Indians; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Secretary of Health, Education, and Welfare, and to the Director of the Bureau of Indian Affairs.

RESOLUTION CHAPTER 67

Assembly Concurrent Resolution No. 41—Relative to the establishment of two pilot projects for the treatment and rehabilitation of users of restricted dangerous drugs.

[Filed with Secretary of State April 23, 1968.]

WHEREAS, Evidence presented to the Legislature indicates that there is an ever increasing number of persons, many of them youngsters, who are suffering from physical or psychological damage as the result of the abuse of restricted dangerous drugs; and

WHEREAS, The Members of the Legislature are greatly concerned about this problem and favor effective measures to treat and rehabilitate persons who abuse such drugs; and

WHEREAS, With the exception of a few small experimental programs, there are no public facilities or programs within the State of California specifically designed to treat, care for and rehabilitate such individuals; and

WHEREAS, The Members of the Legislature believe that this lack of existing facilities and the increasing number of drug abusers make it imperative that the state establish a program capable of caring for and rehabilitating such persons; and

WHEREAS, Evidence presented to the Legislature indicates that there does not exist at the present time sufficient knowledge or experience which would allow the Legislature to determine with any degree of certainty what type of program could be most effectively developed and administered by the state; and

WHEREAS, Evidence presented to the Legislature further indicates that there may be a need to develop a flexible program encompassing different methods of treatment in order to effectively reach distinctly differing elements of the drug-abusing population; and

WHEREAS, It appears, therefore, that there is a need to establish pilot projects capable of utilizing and experimenting with the different resources and treatment techniques available to both community-oriented programs and institutional programs; and

WHEREAS, The Legislature believes that two such pilot projects should be established, one to operate in a community setting and the other to operate in an institutional setting, and that the two projects should function under separate authority in order to facilitate a certain independence in approach and experimentation, while at the same time attempting to complement each other through the lending of ideas and personnel, and, to the extent appropriate, referring patients between the two programs; and

WHEREAS, The Legislature believes that both such projects should be located in the same general locale in order to facilitate such cooperation; and

WHEREAS, The San Francisco Bay area contains a high concentration of restricted dangerous drug abusers as well as many of the existing, though inadequate, treatment programs whose personnel would be available as consultants to or participants in such projects; and

WHEREAS, It appears that federal funds are available for use in financing experimental state programs designed to treat, care for and rehabilitate dangerous drug abusers; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Health and Welfare Agency is requested to establish two pilot projects for the treatment and rehabilitation of restricted dangerous drug abusers; one to operate as an institutional project and to be located in an appropriate state institution in the San Francisco Bay area and the other to operate as a community-oriented project and to be located in one of the high drug abuse areas of the San Francisco Bay area; and be it further

Resolved, That both such pilot projects should be financed to the greatest extent possible through federal funds available for such projects; and be it further

Resolved, That such agency shall report to the Legislature, on a semiannual basis, the results of such programs; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Administrator of the Health and Welfare Agency and to the National Institute of Mental Health and any other federal agency making funds available for such projects.

WHEREAS, Because of the increased divorce rate among some, and the lack of parental responsibility among others, these ideals and institutions have been endangered; and

RESOLUTION CHAPTER 101

Senate Joint Resolution No. 1—Relative to physical therapists.

[Filed with Secretary of State May 23, 1968.]

WHEREAS, The State of California has by far the most outstanding laws in the United States for the sanctioning of the legalized practice of physical therapy in any state (Chapters 5.6 and 5.7 of Division 2 of the Business and Professions Code); and

WHEREAS, The Legislature of the State of California has established high educational requirements and qualifications for all physical therapists in the state through the enactment of such laws; and

WHEREAS, The Department of Health, Education and Welfare has denied over 1,200 physical therapists in the State of California the right to serve the public in their professional capacity under the Medicare Act by its rules and regulations defining physical therapists qualified to participate under the Medicare Act; and

WHEREAS, Senate Bill No. 1538, enacted as Chapter 1344 of the 1967 Statutes of the State of California, recognizes the fact that there is an acute shortage of physical therapists in the State of California, and the elimination of so many qualified physical therapists from the medicare program is decidedly contrary to the public interest; and

WHEREAS, The restrictive administrative definition of a qualified physical therapist promulgated by the United States Department of Health, Education and Welfare will only serve to make the shortage of physical therapists in the State of California more critical, will deprive many patients in the medicare program of physical therapy treatments, and will be contrary to the concept of total health care because many well-qualified physical therapists licensed or registered by the Board of Medical Examiners are not eligible to participate in

the program as a result of such restrictive definition of a qualified physical therapist; and

WHEREAS, The 89th Congress recognizes the important contribution of physical therapy services to total health care in the passage of Public Law 89-97, the "Medicare Act"; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to direct the Department of Health, Education and Welfare to reexamine its present definition of physical therapists qualified to participate in the medicare program as it applies to the State of California and the impact it will have upon the provision of services in California; and be it further

Resolved, That the United States Department of Health, Education and Welfare be directed to amend its definition of qualified physical therapists to be inclusive of all physical therapists legally sanctioned to practice physical therapy in the State of California so that such legally sanctioned physical therapists are not excluded from serving the public in their professional capacity under the medicare program; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Health, Education and Welfare.

Any ordinance may be amended by an ordinance amending or repealing the particular sections thereof or adding sections thereto.

An ordinance shall be passed by the board of supervisors only after reference to and report thereon from committee, unless it be an ordinance prepared and reported out by committee, and after two readings and votes at separate meetings of the board, which meetings shall be at least five days apart; provided, however, that as to an emergency measure as defined in section 16, reference to committee or the readings and votes at separate meetings may be waived by a three-fourths vote of all members of the board. The vote on all ordinances and resolutions upon each reading shall be by ayes and noes. The vote by ayes and noes on all measures shall be recorded in the journal of the proceedings of the board.

Proposition I

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said City and County by adding Section 164.1 thereto relating to and increasing retirement and death allowances which are not subject to change when the salary rate of any member is changed, payable to or on account of any member of the retirement system who retired or died prior to July 1, 1967, except such allowances payable to or on account of persons who retired or died prior to July 1, 1947 as members under Section 165; and providing for cost of living increases or decreases in retirement and death allowances which are first effective prior to July 2, 1977, which are not subject to change when the salary rate of any member is changed, and which shall have been in effect at least one year on the effective date of such increase or decrease.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City

and County of San Francisco at an election to be held therein on June 4, 1968, a proposal to amend the Charter of said City and County by adding thereto Section 164.1 to read as follows:

Section 164.1 (A) Each retirement of death allowance which is not subject to change when the salary rate of any member is changed and which is payable to or on account of any member who has retired or died prior to July 1, 1967, except such allowances payable to or on account of persons who retired or died prior to July 1, 1947 as members under Section 165, but including death allowances payable under Section 168.3 which are not subject to change when the salary rate of any member is changed, shall be increased for time on and after the effective date of this section, hereby designated as the first day of the month next following its ratification by the State legislature, by the percentage set forth in the following table opposite the fiscal year in which said allowance became effective, said percentage to be applied to the allowance payable to the individual who was receiving the allowance on the effective date of this section (a) exclusive of the annuity provided by additional contributions and (b) prior to reduction pursuant to subsection (A) of Section 165.6:

Fiscal Year in which Allowance Became Effective	Percentage
All years prior to July 1, 1959	16%
July 1, 1959 to June 30, 1960	14%
July 1, 1960 to June 30, 1961	12%
July 1, 1961 to June 30, 1962	10%
July 1, 1962 to June 30, 1963	8%
July 1, 1963 to June 30, 1964	6%
July 1, 1964 to June 30, 1965	4%
July 1, 1965 to June 30, 1966	2%
July 1, 1966 to June 30, 1967	1%

(1) Funds necessary for the payment of such increases in allowances payable to or on account of members who retired or died as members under Charter Sections 165 or 165.2 shall be provided from the City's accumulated contributions held by the system on account of miscellaneous members under Section 165.2.

(2) Funds necessary for the payment of such increases in allowances to or on account of members who retired or died as members under Charter Sections 168 or 168.1 shall be provided from the City's accumulated contributions held by the system on account of police members under Section 168.1.

(3) Funds necessary for the payment of such increases in allowances to or on account of members who retired or died as members under Charter Sections 171 or 171.1 shall be provided from the City's accumulated contributions held by the system on account of fire members under Section 171.1.

The necessary funds shall be transferred on the effective date of this section from said accumulated contributions to the accumulated contributions held by the system to meet the obligations of the City and County on account of benefits that have been granted and which are based on service rendered as members. The contribution being required of the City and County currently, as percentages of salaries of persons who are members under Sections 165.2, 168.1 and 171.1 shall be increased to percentages determined by the actuary as necessary to replace the accumulated contributions so transferred.

(B) (1) The retirement board shall determine, prior to April 1 of each year, the percentage of increase or decrease in the cost of living during the preceding calendar year or years, as shown by the then current Consumer Price Index, All Items, San Francisco (1957–59 = 100), issued by the U. S. Bureau of Labor Statistics and published in the Monthly Labor Review or a successor publication. The cost of living adjustments as hereinafter provided shall be based on the percentage of such increase or decrease.

(2) Notwithstanding any other Charter or ordinance provision governing the retirement system, every retirement or death allowance payable to or on account of any member who retires or dies as a member of the system or who has retired or died as such a member, except allowances subject to change when the salary rate of any member is changed, shall be increased or decreased as of July 1, 1969, and on July 1 of each succeeding year, subject to the provisions of this subsection (B), by a percentage of the allowance established on the effective date of this section after any increase under subsection (A) of this section or on the effective date of such allowance, whichever is later, as payable to the individual who is receiving the allowance on the date of any such adjustment (a) exclusive of the annuity provided by additional contributions, and (b) prior to reduction pursuant to subsection (A) of Section 165.6, prior to modification pursuant to subsection (G) of Section 165.6; provided, however, that the increases and decreases in allowances provided herein shall apply only to retirement or death allowances which are first effective prior to July 2, 1977, and shall not apply to retirement or death allowances which are first effective on or after July 2, 1977. On July 1, 1969 the percentage of increase in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one per cent, the percentage of increase in the cost of living during the preceding calendar year. On July 1, 1970 and on July 1 of each succeeding year, the percentage of increase or decrease in each such allowance shall be the percentage which is determined by the retirement board to approximate to the nearest one per cent of increase or decrease in the cost of living in the calendar year or years since January 1, 1969 or since January 1 of the year in which the last such cost of living adjust-

ment in allowances was made, whichever is later. Any such allowance shall be so adjusted only if it was in effect for at lease one year prior to the date of such adjustment. Such adjustment in any year shall not exceed two per cent of such allowance; provided however that no allowance shall be reduced below the amount being received by the member or his beneficiary on the effective date of this section or on the effective date he began to receive the allowance, whichever is later.

(3) Any such increases in allowances shall be paid from funds which shall be allocated for that purpose by the retirement board from such earnings on investments not otherwise allocated and after crediting of regular interest to accumulated contributions as are in excess of two per cent of the assets of the retirement system at the close of each fiscal year.

(4) Any such increases in allowances which are not funded by such allocation of such earnings, shall be funded by contributions of members under Sections 165, 165.2, 168.1 and 171.1 and by contributions of the City, which shall be at rates which are in addition to the rates of contribution otherwise provided by Charter or ordinance, provided that a member's rate of contribution shall not exceed one-half of one per cent of his monthly compensation. The contributions made under this section by any member shall be credited together with regular interest thereon to his individual account and shall be subject to the same Charter and ordinance provisions relating to accumulated contributions of the member, including withdrawal and death benefits other than death allowances; provided, however, that upon his retirement or death, such accumulated contributions and interest shall not be applied to provide a part of the retirement benefits payable to him or the death allowance benefits payable on account of his death otherwise provided by Charter or ordinance, but instead shall be held, together with the accumulated contributions made by the City pursuant to this subsection (B), with interest thereon, to provide the benefits under this subsection (B). Whenever such accumulated contributions of a member with interest have been paid to him on account of his termination of service or to his beneficiary or estate as a part of his death benefits, as provided by Charter or ordinance, an amount equal to the amount of contributions and interest so paid shall be applied to reduce the contributions by the City then currently payable under this section. If a member, upon his reentry into membership after the withdrawal of his accumulated contributions, shall redeposit the accumulated contributions withdrawn with interest, as otherwise provided by the Charter or ordinance, he shall redeposit the accumulated contributions made under this section with interest in the same manner and under the same conditions as the redeposit of his other accumulated contributions, and an amount equal to the amount of such redeposit of accumulated

contributions made under this section with interest, shall become payable forthwith by the City to be included in the City's contributions under this section.

(5) The rates of contribution of members and the City, as provided herein, shall be fixed by the retirement board from time to time as it determines necessary.

If conflict exists, the report shall give the particulars of the differences between the proposal and the master plan.

It shall be the duty of the department of city planning to render its report in writing upon any ordinance or resolution to the board of supervisors and to the controller within thirty days after the date of such referral unless a longer period is granted by the board of supervisors. Notwithstanding any of the provisions of Section 156 or any other provisions of this Charter, whenever any employee is transferred under the provisions of Section 156 of this Charter and has held such position for ten (10) years, he shall be eligible to participate in any promotional examination in which his classification is designated as the next lower rank from which promotion will be made; provided that the disability of said employee is not of such nature as to interfere with the performance of the duties required in the promotive classification. The civil service commission shall make such determination after examination of the employee by a civil service examining physician.

The salary of an employee who is promoted as the result of participation in a promotional examination under the provisions of this section shall be fixed in accordance with the salary standardization provisions of this charter.

Proposition L

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Section 145 thereof, relative to age of applicants and appointees to entrance positions in the uniformed force of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said City and County of San Francisco at an election to be held therein on June 4, 1968, a proposal to amend the charter of said city and county by amending Section 145 thereof, so that the same shall read as follows:

Qualifications and Tests

Section 145. All applicants for places in the classified service shall submit to tests which shall be competitive, provided, however, that no test in either entrance or promotional examinations shall be deemed to be competitive unless two or more persons shall participate, except that any such examination may be held for one qualified applicant on recommendation of the civil service commission and approval by resolution of the board of supervisors, after a finding by the board that reasonable publicity of the proposed examination has been given by the civil service commission. Such tests shall be without charge to the applicants. The commission shall control all examinations and may employ suitable persons in or out of the public service to act as examiners. The tests may be written, oral, mechanical or physical, or any combination of them, practical in character and related to matters fairly to test the relative capacity of the applicants for the positions to be filled. The commission shall be the sole judge of the adequacy of the tests to rate the capacity of the applicants to perform service for the city and county. The commission may, for each examination, establish a passing mark or may determine the total number of persons who shall constitute the list of eligibles. The commission shall prepare from the returns of the examiners the list of eligibles, arranged in order of relative excellence. No question submitted to applicants shall refer to political or religious opinions or fraternal affiliations.

Applicants for entrance positions in the uniformed force of the fire department shall not be less than nineteen years of age at the time of taking the examination, nor less than twenty years of age or more than thirty-two years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for entrance positions in the uniformed force of the police department shall not be less than twenty years of age at the time of taking the examination, nor less than twenty-one years of age or more than thirty-five years of age at the time of appointment and shall have the physical qualifications required for enlistment in the United States Army, Navy and Marine Corps.

Applicants for positions in the mechanical trades and occupations may, in the discretion of the commission, be rated solely on experience and physical qualifications which may be demonstrated by such evidence and in such manner as the commission may direct, and such applicants may be submitted to such further tests as the commission may require. Examinations of laborers shall relate only to physical qualifications and experience, and laborers establishing their fitness shall rank upon the register in order of priority application.

The commission may remove all names from the list of eligibles after they have remained thereon for more than two years

and all names thereon shall be removed at the expiration of four years. The commission may, however, provide in the scope-circular of any examination that the list of eligibles secured thereby shall automatically expire at a date not less than two or more than four years after the adoption of such list.

Veterans with thirty days or more actual service, and widows of such veterans, who become eligible for appointment by attaining the passing mark in any entrance examination, shall be allowed an additional credit of five per cent in making up the list of eligibles secured by such examination. The term "veteran" as used in this section shall be taken to mean any person who has been mustered into, or served in, the Army, or enlisted in, or served in, the Navy or Marine Corps, of the United States, in time of war and received an honorable discharge or certificate of honorable active service. In the case of promotive examinations, when the passing mark has been attained, a credit of three per cent shall be allowed to veterans or to widows of such veterans, when requested by such veterans or widows When an eligible has secured a permanent appointment from a list of eligibles derived from an entrance examination in which he has been allowed additional credits of five per cent as herein provided, and has served the full probationary period therein as provided in this charter, such other additional credits of five per cent that have been allowed him on lists of eligibles derived from other entrance examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added and he shall not be allowed such additional credits in any other entrance examinations. If he has received a permanent appointment from a list of eligibles derived from a promotive examination in which he has requested and been allowed the additional credits of three per cent as herein provided, and has served the full probationary period therein as provided in this charter, such additional credits of three per cent that have been allowed him on lists of eligibles derived from other promotive examinations shall be automatically cancelled, and his rank on such other list or lists revised to accord with his relative standing before such additional credits were added, and he shall not be allowed such additional credits in any other promotive examinations. The civil service commission may, for services or employment specified by the commission, allow general or individual preference, but not less than ten per cent, for entrance appointment of veterans who have suffered permanent disability in line of duty, provided that such disability would not prevent the proper performance of the duties required under such service, or employment, and provided that such disability is of record in the United States Veterans' Bureau.

Proposition M

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by amending Section 175 thereof relating to nominations of elective officers.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on June 4, 1968, a proposal to amend the Charter of said city and county by amending Section 175 thereof to read as follows:

Nomination of Elective Officers

Section 175. The name of a candidate for an elective office shall be printed upon the ballot when a declaration of candidacy, a nomination paper signed by not less than forty nominators and certificates of not less than twenty nor more than thirty sponsors shall have been filed on his behalf, and when the nomination shall have been made in the following manner: The candidate, not more than sixty days before the municipal election in November, shall file with the registrar a declaration of his candidacy, in the form prescribed by the registrar for all candidates, including statements of his qualifications in not to exceed one hundred words, subscribed by him before the registrar. The registrar shall forthwith certify to the said subscription and its date and retain and file the declaration. The candidate shall pay to the registrar at the time of filing his declaration of candidacy a sum equal to two percent (2%) of the current annual salary for the office for which he is a candidate. After said declaration shall have been signed, certified and filed, and not later than forty-five days before said election in November a nomination paper, in the form prescribed by the registrar for all candidates, signed by not less than forty nominators for the said candidate, who are electors of the city and county qualified to vote at the said municipal election, shall be filed with the registrar and not less than twenty nor more than thirty sponsors for the said candidate, who are electors of the city and county qualified to vote at the said municipal election shall appear before the registrar and shall certify under oath to the qualifications of the said candidate on a form of certificate prescribed by the registrar for all sponsors of all candidates. The candidate shall have the right to reject any unsolicited sponsor.

In the event the registrar shall refuse to file such declaration of candidacy, nomination paper therefor or certificate of a sponsor thereof, he shall forthwith designate in writing on the declaration, nomination paper or certificate the defect thereof, or other reason for refusing to file the same, and shall return the same to the party tendering it. No defect in any declaration, nomination paper or certificate presented to the registrar shall prevent the filing of another declaration, nom-

ination paper or certificate within the period allowed for presenting the declaration, nomination paper or certificate. The name of every candidate who has been duly and regularly nominated shall be placed on the ballot under the title of the office for which he is a candidate, provided that a candidate whose nomination has been completed, may, not less than forty days before a municipal election, withdraw as a candidate by filing with the registrar his withdrawal, naming the office; such withdrawal must be signed and sworn to by the person withdrawing.

The name of every candidate who has been nominated for office as hereinbefore provided shall be placed on the ballot in alphabetical order in accordance with the initial letter of his surname, under the heading of the office for which said candidate has been nominated in the following manner: The name of the candidate highest on the alphabetical list of candidates for any particular office shall be printed first on the ballot under the proper heading for said office in the lowest numbered assembly district in the city and county. Thereafter, in each succeeding assembly district, the name of the candidate appearing first for said office in the last preceding district shall be placed last and the order of the names of the other candidates for said office shall remain unchanged.

In the event that the number of candidates in any group shall exceed the number of assembly districts in the city and county then the total number of candidates in such group shall be divided by the number of assembly districts and the quotient of said division, if an integral number, or, if it be a fractional number, then the next highest integral number, shall be the number of candidates to be taken from the beginning of the list of said candidates and placed at the end of said list of candidates in each succeeding assembly district.

Immediately under the name of each candidate and not separated therefrom by any line may appear, at the option of the candidate, one of the following designations:

(a) Words designating the city, county, district or state office which the candidate then holds.

(b) If the candidate be a candidate for the same office which he then holds, and only in that event, the word "incumbent."

(c) The word designating the profession, vocation or occupation of the candidate. The profession, vocation or occupation so designated shall be the same as appears in the affidavit of registration of the candidate.

In all cases words so used shall be printed in eight-point roman boldface capitals and lower-case type.

No incumbent shall have any further preference in the location of his name on said ballot unless the same is permitted by this section.

The registrar shall preserve in his office for a period of four years all candidates' declarations, nomination papers and all sponsors' certificates filed in accordance with this section.

Proposition N

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the Charter of said city and county by amending Section 176 thereof, relating to election material to be mailed to voters.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on June 4, 1968, a proposal to amend the charter of said city and county by amending Section 176 thereof, so that the same shall read as follows:

Material to be Mailed to Voters

Section 176. The registrar shall, before each municipal election, cause to be printed in pamphlet form and mailed to each registered voter with the sample ballot, a copy of all statements of qualifications of candidates received by him, to be followed by the names and addresses and occupations of all sponsors of all officers to be voted for in said city and county.

The registrar shall cause ballots to be printed identical with the ballot to be used in each assembly district at the election and shall furnish copies of the same on application to registered voters at his office at least five days before the date fixed for such election, and shall mail to each voter entitled to vote at such election a copy of the ballot to be used in his district, so that all said sample ballots shall have been mailed at least eight days before said election. The rotation of names of candidates on ballots shall be as provided by general law.

Proposition O

Describing and setting forth a proposal to the qualified electors of the City and County of San Francisco to amend the charter of said city and county by amending Sections 168.1.1, 168.1.2, 168.1.3, 168.1.4, 168.1.5, 168.1.10 and 168.1.12 thereof and by adding Section 168.1.18 thereto, relating to retirement benefits applicable to members of the Police Department; and by amending Sections 171.1.1, 171.1.2, 171.1.3, 171.1.4, 171.1.5, 171.1.10 and 171.1.12 thereof and by adding Section 171.1.15 thereto, relating to retirement benefits applicable to members of the Fire Department.

The Board of Supervisors of the City and County of San Francisco hereby submits to the qualified electors of said city and county at an election to be held therein on June 4, 1968, a proposal to amend the charter of said city and county by amending Sections 168.1.1, 168.1.2, 168.1.3, 168.1.4, 168.1.5, 168.1.10 and 168.1.12 thereof, and by adding Section 168.1.18

thereto; and by amending Sections 171.1.1, 171.1.2, 171.1.3, 171.1.4, 171.1.5, 171.1.10, 171.1.12 thereof, and by adding Section 171.1.15 thereto, so that the same shall read as follows:

Section 168 1.1. The following words and phrases as used in this section, unless a different meaning is plainly required by the context shall have the following meaning:

"Retirement allowance," "death allowance," or "allowance" shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the police department, but excluding remuneration paid for overtime.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the police department, he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the monthly compensation earnable by a member at the time of his retirement, or death before retirement, as the case may be, at the rate of remuneration attached at that time to the rank or position which said member held, provided that said member has held said rank or position for at least one year immediately prior to said retirement or death; and provided, further, that if said member has not held said rank or position for at least one year immediately prior to said retirement or death, "final compensation," as to such member, shall mean the monthly compensation earnable by such member in the rank or position next lower to the rank or position which he held at the time of retirement or death at the rate of remuneration attached at the time of said retirement or death to said next lower rank or position.

For the purpose of the retirement system and of this section, the terms "member of the police department," "member of the department" or "member" shall mean any officer or employee of the police department whose employment therein began prior to January 1, 1900, or whose employment therein began or shall begin after that date, and was or shall be subject to the charter provisions governing entrance requirements

for members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on the effective date hereof, regardless of age, or employed after said date at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform the duties now performed under the titles of criminologist, photographer, police patrol driver, police motor boat operator, woman protective officer, police woman or jail matron. Any police service performed by such member of the police department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco City and County Employees Retirement System as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in section 159 of the charter.

"Charter" shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

Section 168.1.2. Any member of the police department who completes at least twenty-five years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under section 168.1.9, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the two sentences next preceding, shall receive a retirement allowance equal to fifty-five per cent of the final compensation of said member, as defined in section 168.1.1, plus an allowance at the rate of three per cent of said final compensation, for each year of service rendered after qualifying as to age and service for retirement; provided, however, that such retirement allowance shall not exceed seventy per cent of said member's final compensation. A member retired after attaining the age of sixty-five years, but before completing twenty-five years of service in the aggregate computed under section 168.1.9, shall receive a retirement allowance which bears the same ratio to fifty per cent of the final compensation of said member, as defined in section 168.1.1 as the service with which he is entitled to be credited, bears to twenty-five years. If, at the date of retirement for service, or retirement for disability resulting from an injury received in performance of duty, said member has no wife, children or dependent parents, who would qualify for the continuance of

the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or section 168.1.3, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar election by other members of the retirement system, including the character and amount of such other benefits.

Section 168.1.3. Any member of the police department who becomes incapacitated for the performance of his duty by reason of bodily injury received in, or illness caused by performance of his duty, shall be retired. If he is not qualified for service retirement, he shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in section 168.1.1, as his percentage of disability is determined to be. The percentage of disability shall be as determined by the Workmen's Compensation Appeals Board of the State of California upon referral from the retirement board for that purpose; provided that the retirement board may, by five (5) affirmative votes, adjust the percentage of disability as determined by said Appeals Board; and provided, further, that such retirement allowance shall be in an amount not less than fifty per cent nor more than ninety per cent of the final compensation of said member, as defined in section 168.1.1. Said allowance shall be paid to him until the date upon which said member would have qualified for service retirement had he lived and rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation as defined in Section 168 1.1 he would have received immediately prior to said date had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation. If at the time of retirement because of disability, he is qualified as to age and service for retirement under section 168.1.2, he shall receive an allowance equal to the retirement allowance which he would receive if retired under section 168.1.2 but not less than fifty-five per cent of said final compensation. Any member of the police department who becomes incapacitated for the performance of his duty, by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at

least ten years of service in the aggregate, computed as provided in section 168.1.9, shall be retired upon an allowance of one and one-half per cent of the final compensation of said member, as defined in section 168.1.1, for each year of service, provided that said allowance shall not be less than thirty-three and one-third per cent of said final compensation. The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the police commission, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

Section 168.1.4. If a member of the police department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his duty, a death allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his surviving wife, throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowance shall not be less than fifty-five percent of the final compensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he would have received immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation. If he had retired prior to death for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he was a member under section 168.1 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance

which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

Section 168.1.5. Upon the death of a member resulting from any cause, other than injury received in or illness caused by performance of duty, (a) if his death occurred after qualification for service retirement under sections 166, 168 or 168.1.2, or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by the performance of duty, three-fourths of his retirement allowance to which he would have been entitled if he had retired for service at the time of his death or three-fourths of his retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until remarriage, to his surviving wife or (b) if his death occurred after retirement because of disability which resulted from injury received in, or illness caused by the performance of duty, his retirement allowance as it was at his death shall be continued throughout life or until remarriage, to his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a sur-

viving wife unless she was married to the member prior to the date of the injury or the onset of the illness which results in death, if he had not retired, or unless she was married to the member at least one year prior to his retirement.

As used in this section and section 168.1.4, "surviving wife" shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in section 168.1.7 in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age of eighteen may make such election, and if there be no such children, the dependent parent or parents may make such election. Persons heretofore or hereafter retired under other charter sections, as members of the police department at the time of retirement, shall be subject to the provisions of this section. With respect to members under section 168.1, "Qualified for service retirement," "Qualification for service retirement" or "Qualified as to age and service for retirement," as used in this section and other sections to which persons who are members under section 168.1 are subject, shall mean completion of twenty-five years of service and attainment of age fifty, said service to be computed under section 168.1.9.

Section 168.1.10. All payments provided for persons who are members under section 168.1 shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member shall be based on his age taken to the next lower complete quarter year, (a) at the date he became a member under sections 165 or 168, in the case of persons who are members under these sections, or (b) at July 1, 1945, in the case of persons who are members under section 166, and his age taken to the next lower completed quarter year, when he entered the police department, or (c) on his age at the date he becomes a member under section 168.1, in the case of persons who become members on or after July 1, 1945, without credit for services counted under section 168.1.9. The age of entrance into the police department shall be determined by deducting the member's service credited under section 168.1.9 as rendered prior to the date upon which his age is based for determination of the rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each such member, to be effective from the effective date of membership under section 168.1, shall be such as, on the aver-

age for such member, will provide, assuming service without interruption, under section 168.1.2, one-third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, without discount of allowance, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent rate of contribution of each member which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 168.1.2, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 168.1.5, after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement from disability resulting from other causes, regardless of his marital condition, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith. The dependent rate of contribution, however, shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under section 168.1, a sum determined by applying the member's rates of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in sections 168.1.7, 168.1.8, and 168.1.9.

(4) Contributions based on time included in paragraphs (1), (2), (3) and (4) of section 168.1.9, and deducted prior

to July 1, 1945, from compensation of persons who become members under section 168.1, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 168.1.10, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1), section 168.1.10, shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under section 168.1, said percentage to be the ratio of the value on July 1, 1945, or at the later date of a periodical actuarial valuation and investigation into the experience under the system as provided by the board of supervisors, of the benefits thereafter to be paid under this section, from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirment. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies, the contributions of both members and the city and county held by the system to provide the benefits under this

section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligation of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

Section 168.1.12. No person retired as a member under section 168.1 after June 30, 1945, for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Section 168.1.18. Amended sections 168.1.1, 168 1.2, 168.1.3, 168.1.4, 168.1.5, 168.1.10 and 168.1.12 contained in the proposition therefor submitted to the electorate on June 4, 1968, shall take effect on the first day of the month following their ratification by the State Legislature.

The amendments of sections 168.1.1, 168.1.2, 168.1.3, 168.1.4, 168 1.5, 168 1.10 and 168.1 12 do not and shall not increase any allowance first in effect prior to the effective date of said amendments.

Section 171.1.1 The following words and phrases as used in this section, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," "death allowance" or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, or upon the day following the date of death, as the case may be, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Workmen's Compensation Insurance and Safety Act of the State of California, shall mean the remuneration payable in cash, by the city and county, without deduction except for absence from duty, for time during which the individual receiving such remuneration is a member of the fire department, but excluding remuneration paid for overtime.

"Compensation earnable" shall mean the compensation which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates of remuneration attached at that time to the ranks or positions held by him during such period, it being assumed that during any absence he was in the rank or position held by him at the beginning of the absence, and that prior to becoming a member of the fire department he was in the rank or position first held by him in such department.

"Benefit" shall include "allowance," "retirement allowance," "death allowance" and "death benefit."

"Final compensation" shall mean the monthly compensation earnable by a member at the time of his retirement, or death before retirement, as the case may be, at the rate of remuneration attached at that time to the rank or position which said member held, provided that said member has held said rank or position for at least one year immediately prior to said retirement or death; and provided, further, that if said member has not held said rank or position for at least one year immediately prior to said retirement or death, "final compensation," as to such member shall mean the monthly compensation earnable by such member in the rank or position next lower to the rank or position which he held at the time of retirement or death at the rate of remuneration attached at the time of said retirement or death to said next lower rank or position.

For the purpose of the retirement system and of this section, the terms "member of the fire department," "member of the department," or "member" shall mean any officer or employee of the fire department, excluding such officers and employees as are members of the retirement system under section 169 of the charter, who was or shall be subject to the charter provisions governing entrance requirements of members of the uniformed force of said department, and said terms further shall mean, from the effective date of their employment in said department, persons employed on the effective date hereof, regardless of age, or employed after said date at an age not greater than the maximum age then prescribed for entrance into employment in said uniformed force, to perform the duties now performed by members of the salvage corps in the fire department, or duties now performed under the titles of pilot of fireboats, marine engineer of fireboats, marine fireman of fireboats, or hydrant-gateman. Any fire service performed by such member of the fire department outside the limits of the city and county and under orders of a superior officer of any such member, shall be considered as city and county service, and any disability or death incurred therein shall be covered under the provisions of the retirement system.

"Retirement system" or "system" shall mean San Francisco City and County Employees' Retirement System as created in section 158 of the charter.

"Retirement board" shall mean "retirement board" as created in Section 159 of the charter.

"Charter" shall mean the charter of the City and County of San Francisco.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

"Interest" shall mean interest at the rate adopted by the retirement board.

Section 171.1.2. Any member of the fire department who completes at least twenty-five years of service in the aggregate and attains the age of fifty (50) years, said service to be computed under section 171.1.9, may retire for service at his option. Members shall be retired on the first day of the month next following the attainment by them of the age of sixty-five years. A member retired after meeting the service and age requirements in the two sentences next preceding, shall receive a retirement allowance equal to fifty-five per cent of the final compensation of said member, as defined in section 171.1.1, plus an allowance at the rate of three per cent of said final compensation, for each year of service rendered after qualifying as to age and service for retirement; provided, however, that such retirement allowance shall not exceed seventy per cent of said member's final compensation. A member retired after attaining the age of sixty-five years, but before completing twenty-five years of service in the aggregate computed under section 171.1.9, shall receive a retirement allowance which bears the same ratio to fifty per cent of the final compensation of said member, as defined in section 171.1.1, as the service with which he is entitled to be credited, bears to twenty-five years. If, at the date of retirement for service, or retirement for disability resulting from an injury received in performance of duty, said member has no wife, children or dependent parents, who would qualify for the continuance of the allowance after the death of said member, or with respect to the portion of the allowance which would not be continued regardless of dependents, or upon retirement for disability resulting from other causes, with respect to all of the allowance and regardless of dependents at retirement, a member retired under this section, or section 171.1.3, may elect before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance or the portion which would not be continued regardless of dependents, as the case may be, partly in a lesser allowance to be received by him throughout his life, and partly in other benefits payable after his death to another person or persons, provided that such election shall be subject to all the conditions prescribed by the board of supervisors to govern similar election by other members of the retirement system, including the character and amount of such other benefits.

Section 171.1.3. Any member of the fire department who becomes incapacitated for the performance of his duty by reason of any bodily injury received in, or illness caused by performance of his duty, shall be retired. If he is not qualified for service retirement, he shall receive a retirement allowance in an amount which shall be equal to the same percentage of the final compensation of said member, as defined in section 171.1.1, as his percentage of disability is determined to be. The percentage of disability shall be as determined by the Workmen's Compensation Appeals Board of the State of California

upon referral from the retirement board for that purpose; provided that the retirement board may, by five (5) affirmative votes, adjust the percentage of disability as determined by said Appeals Board; and provided, further, that such retirement allowance shall be in an amount not less than fifty per cent nor more than ninety per cent of the final compensation of said member, as defined in section 171.1.1. Said allowance shall be paid to him until the date upon which said member would have qualified for service retirement had he lived and rendered service without interruption in the rank held by him at retirement, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date based on the final compensation, as defined in section 171.1 1, he would have received immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such final compensation.

If at the time of retirement because of disability, he is qualified as to age and service for retirement under section 171.1.2, he shall receive an allowance equal to the retirement allowance which he would receive if retired under section 171.1.2, but not less than fifty-five per cent of said final compensation. Any member of the fire department who becomes incapacitated for performance of his duty, by reason of a cause not included under the provisions of the immediately preceding sentences, and who shall have completed at least ten years of service in the aggregate, computed as provided in section 171.1.9, shall be retired upon an allowance of one and one-half per cent of the final compensation of said member as defined in section 171.1.1 for each year of service, provided that said allowance shall not be less than thirty-three and one-third per cent of said final compensation The question of retiring a member under this section may be brought before the retirement board on said board's own motion, by recommendation of the fire commission, or by said member or his guardian. If his disability shall cease, his retirement allowance shall cease, and he shall be restored to the service in the rank he occupied at the time of his retirement.

Section 171.1.4. If a member of the fire department shall die before or after retirement by reason of an injury received in, or illness caused by the performance of his duty, a death allowance, in lieu of any allowance payable under any other section of the charter or by ordinance, on account of death resulting from injury received in or illness caused by the performance of duty, shall be paid, beginning on the date next following the date of death, to his surviving wife throughout her life or until her remarriage. If the member, at the time of death, was qualified for service retirement, but had not retired, the allowance payable shall be equal to the retirement allowance which the member would have received if he had been retired for service on the day of death, but such allowances shall not be less than fifty-five per cent of the final com-

pensation earnable by said member immediately preceding death. If death occurs prior to qualification for service retirement, the allowance payable shall be equal to the final compensation of said member at the date of death, until the date upon which said member would have qualified for service retirement, had he lived and rendered service without interruption in the rank held by him at death, and after said date the allowance payable shall be equal to the retirement allowance said member would have received if retired for service on said date, based on the final compensation he would have received immediately prior to said date, had he lived and rendered service as assumed, but such allowance shall not be less than fifty-five per cent of such monthly final compensation. If he had retired prior to death, for service or for disability resulting from injury received in, or illness caused by the performance of duty, the allowance payable shall be equal to the retirement allowance of the member, except that if he was a member under section 171.1 and retirement was for such disability, and if death occurred prior to qualification for the service retirement allowance, the allowance continued shall be reduced upon the date at which said member would have qualified for service retirement, in the same manner as it would have been reduced had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under the age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving widow otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife following the death of a member unless she was married to the member prior to the date of the injury or onset of the illness which results in death.

Section 171.1.5. Upon the death of a member resulting from any cause, other than an injury received in or illness caused by performance of duty, (a) if his death occurred after qualification for service retirement, under section 171.1.2, or after retirement for service or because of disability which resulted from any cause other than an injury received in, or illness caused by performance of duty, three-fourths of his retirement allowance to which the member would have been entitled if he had retired for service at the time of death or three-fourths of the retirement allowance as it was at his death, as the case may be, shall be continued throughout life or until

remarriage, to his surviving wife, or (b) if his death occurred after retirement for disability by reason of injury received in or illness caused by performance of duty, his retirement allowance as it was at his death shall be continued throughout life or until remarriage, to his surviving wife, except that, if death occurred prior to qualification for service retirement allowance, the allowance continued shall be adjusted upon the date at which said member would have qualified for service retirement, in the same manner as it would have been adjusted had the member not died. If there be no surviving wife entitled to an allowance hereunder, or if she die or remarry before every child of such deceased member attains the age of eighteen years, then the allowance which the surviving wife would have received had she lived and not remarried shall be paid to his child or children under said age, collectively, to continue until every such child dies or attains said age, provided that no child shall receive any allowance after marrying or attaining the age of eighteen years. Should said member leave no surviving wife and no children under age of eighteen years, but leave a parent or parents dependent upon him for support, the parents so dependent shall collectively receive a monthly allowance equal to that which a surviving wife otherwise would have received, during such dependency. No allowance, however, shall be paid under this section to a surviving wife unless she was married to the member prior to the date of the injury or onset of the illness which results in death if he had not retired, or unless she was married to the member at least one year prior to his retirement.

As used in this section and section 171.1.4, "surviving wife" shall mean and include a surviving spouse, and shall also mean and include a spouse who has remarried since the death of the member but whose remarriage has been terminated by death, divorce or annulment within five years after the date of such remarriage and who has not thereafter again remarried.

The surviving wife, in the event of death of the member after qualification for but before service retirement, may elect before the first payment of the allowance, to receive the benefit provided in section 171.1.7, in lieu of the allowance which otherwise would be continued to her under this section. If there be no surviving wife, the guardian of the child or children under age eighteen, may make such election, and if there be no such children, the dependent parent or parents may make such election. Persons heretofore retired under charter section 171, as members of the fire department at the time of retirement, shall be subject to the provisions of this section. "Qualified for service retirement," "Qualification for service retirement" or "Qualified as to age and service for retirement," as used in this section and other sections to which persons who are members under section 171.1 are subject, shall mean completion of twenty-five years of service and attainment of age fifty, said service to be computed under section 171.1.9.

Section 171.1.10. All payments provided under this section shall be made from funds derived from the following sources, plus interest earned on said funds:

(1) The normal rate of contribution of each member under this section shall be based on his age taken to the next lower complete quarter year, (a) at the earlier of the dates he became a member under section 165, 165.2 or 171, in the case of persons who are members under these sections, or (b) on his age at the date he becomes a member under section 171.1 in the case of persons who become members on or after the effective date of this amendment, without credit for service counted under section 171.1.9. The age of entrance into the fire department shall be determined by deducting the member's service credited under section 171.1.9 as rendered prior to the date upon which his age is based for determination of his rate of contribution according to the sentence next preceding, from said age. The normal rate of contribution of each such member, to be effective from the effective date of membership under section 171.1, shall be such as, on the average for such member, will provide, assuming service without interruption, under section 171.1.2, one-third of that portion of the service retirement allowance to which he would be entitled, without continuance to dependents, upon first qualifying as to age and service, for retirement under that section, which is based on service rendered after the date upon which his age is based for determination of his rate of contribution according to the first sentence in this paragraph, and assuming the contribution to be made from that date. The normal rate of contribution, however, shall not exceed six per cent.

(2) The dependent contributions of each member under this section which shall be required of each member throughout his membership in addition to the normal contributions, and in the same manner as normal contributions, shall be such as, on the average for such member, will provide, assuming service without interruption under section 171.1.2, and upon his first qualifying as to age and service for retirement under that section, one-third of the portion of his allowance, which is to be continued under section 171.1.5 after his death and throughout the life of a surviving wife whose age at said death is three years less than the age of said member. If, at the date of retirement for service or retirement for disability resulting from injury received in performance of duty, said member has no wife who would qualify for the continuance of the allowance to her after the death of said member, or upon retirement for disability resulting from other causes, regardless of his marital condition, the dependent contributions with accumulated interest thereon, shall be paid to him forthwith. The dependent rate of contribution, however, shall not exceed the difference between six per cent and the member's normal rate of contribution, and said dependent rate may be taken as a flat percentage of the member's normal rate, regardless of the age of qualification for service retirement.

(3) There shall be deducted from each payment of compensation made to a member under this section, a sum determined by applying the member's rates of contribution to such compensation payment. The sum so deducted shall be paid forthwith to the retirement system. Said contribution shall be credited to the individual account of the member from whose salary it was deducted, and the total of said contributions, together with interest credited thereon in the same manner as is prescribed by the board of supervisors for crediting interest to contributions of other members of the retirement system, shall be applied to provide part of the retirement allowance granted to, or allowance granted on account of said member, under this section or shall be paid to said member or his estate or beneficiary as provided in sections 171.1.7, 171.1.8 and 171.1.9.

(4) Contributions based on time included in paragraphs (1), (2) and (3) of section 171.1.9, and deducted prior to the effective date thereof, from compensation of persons who become members under section 171.1, and standing with interest thereon, to the credit of such members on the records of the retirement system on said date, shall continue to be credited to the individual accounts of said members and shall be combined with and administered in the same manner as the contributions deducted after said date.

(5) The total contributions, with interest thereon, made by or charged against the city and county and standing to its credit, in the accounts of the retirement system, on account of persons who become members under this section, shall be applied to provide the benefits under this section.

(6) The city and county shall contribute to the retirement system such amounts as may be necessary, when added to the contributions referred to in the preceding paragraphs of this section 171.1.10, to provide the benefits payable under this section. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by each member prior to the date upon which his age is based for determination of his rate of contribution in paragraph (1) section 171.1.10, shall not be less during any fiscal year than the amount of such benefits paid during said year. Such contributions of the city and county to provide the portion of the benefits hereunder which shall be based on service rendered by respective members on and after the date stated in the next preceding sentence, shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year, to persons who are members under section 171.1, said percentage to be the ratio of the value on the effective date hereof, or at the later date of a periodical actuarial valuation and investigation into the experience under the system as provided by the board of supervisors, of the benefits thereafter to be paid under this section,

from contributions of the city and county, less the amount of such contributions, and plus accumulated interest thereon, then held by said system to provide said benefits on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of salaries thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed only on the basis of said periodical actuarial valuation and investigation into the experience under the system.

(7) To promote the stability of the retirement system through a joint participation in the result of variations in the experience under mortality, investment and other contingencies the contributions of both members and the city and county held by the system to provide the benefits under this section, shall be a part of the fund in which all other assets of said system are included. Nothing in this section shall affect the obligations of the city and county to pay to the retirement system any amounts which may or shall become due under the provisions of the charter prior to the effective date hereof, and which are represented on said effective date, in the accounts of said system by debits against the city and county.

Section 171.1.12. No person retired as a member under section 171.1 for service or disability and entitled to receive a retirement allowance under the retirement system shall serve in any elective or appointive position in the city and county service, including membership on boards and commissions, nor shall such person receive any payment for service rendered to the city and county after retirement, provided that service as an election officer or juror shall not be affected by this section.

Section 171.1.15. Amended sections 171.1.1, 171.1.2, 171.1.3, 171.1.4, 171.1.5, 171.1.10 and 171.1.12 contained in the proposition therefor submitted to the electorate on June 4, 1968, shall take effect on the first day of the month next following their ratification by the State Legislature.

The amendments of sections 171.1.1, 171.1.2, 171.1.3, 171.1.4, 171.1.5, 171.1.10 and 171.1.12 do not and shall not increase any allowance first in effect prior to the effective date of said amendments.

Senate Concurrent Resolution No. 42—Relative to requesting reserved parking facilities for handicapped persons at commercial airports.

[Filed with Secretary of State June 27, 1968.]

WHEREAS, The State of California has long been in the forefront of providing special services for the physically handicapped; and

WHEREAS, California's air transportation system is growing by "leaps and bounds," and the use of this system by the physically handicapped is also growing at a rapid pace; and

WHEREAS, These persons have encountered, often times, considerable difficulty at the airport because of the great distance and inaccessibility of parking places, and the additional inconveniences presented by street curbs, and terminal stairways; and

WHEREAS, Handicapped citizens of California are issued special license plates, such as VET, VTN, DPW, DPX, DPY, and DPZ, for the purpose of allowing such persons parking privileges in limited-time parking zones; and

WHEREAS, The providing of parking spaces for such persons as near as is practical to passenger terminal buildings, and of ramps to facilitate the freer movement of persons on wheelchairs would be another step forward in caring for the handicapped; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request all managers and governing bodies of airports used for commercial transportation to set aside, and so identify, a reasonable number of parking spaces exclusively for handicapped persons as identified by their license plates, and furnish suitable ramps to assist in the freer movement of such persons; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to James A. Walker, Chief of the Statewide Planning Project, Department of Rehabilitation.

[Filed with Secretary of State June 28, 1968]

WHEREAS, Many vehicles are operated in this state with relatively minor equipment violations of a nature which are often not readily apparent to the drivers of the vehicles and which may be easily remedied; and

WHEREAS, It is important that the mechanical condition of vehicles be given appropriate attention in developing a total traffic safety program; and

WHEREAS, The State of California has adopted a random type vehicle inspection program to improve the mechanical condition of vehicles in this state; and

WHEREAS, The California Highway Patrol has developed a procedure which requires the elimination of the equipment violation within a reasonable length of time and further promotes highway safety by encouraging the repair of equipment; and

WHEREAS, Local enforcement agencies should be encouraged to follow the same procedures developed by the California Highway Patrol in order to provide a uniform application of the law throughout the state in dealing with equipment violations; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That any interested local law enforcement agencies engaging in traffic law enforcement are hereby requested to review the procedures followed by the California Highway Patrol in dealing with motor vehicle equipment violations, and to adopt such procedures if they wish to do so; and be it further

RESOLUTION CHAPTER 143

Assembly Concurrent Resolution No. 71—Relative to the retention of land for the use of California State Polytechnic College, Kellogg-Voorhis.

[Filed with Secretary of State June 28, 1968.]

WHEREAS, The Budget Act of 1959 (Section 2, Item 333(q)) contemplated that a certain parcel of land, consisting of approximately 156.16 acres, a part of the California State Polytechnic College, would become surplus and should be sold; and

WHEREAS, During the nearly eight years which have elapsed since that time, the college, now the California State Polytechnic College, Kellogg-Voorhis, has grown in enrollment from 1,674 to 5,497 full-time-equivalent students, and is master planned for an enrollment of 20,000 full-time-equivalent students; and

WHEREAS, This growth has brought and will continue to bring increasing pressure upon land needed for the academic program of the college; and

WHEREAS, This parcel is necessary to carry out the academic program of the college, particularly in agriculture; and

WHEREAS, The location of this parcel with respect to the college campus is such that it is particularly desirable that it be retained for college purposes; and

WHEREAS, The State Board of Agriculture and the Board of Trustees of the California State Colleges, have each rec-

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Departments of Finance and General Services, and the Trustees of the California State Colleges, are requested not to sell the parcel of land referred to in this resolution, or to otherwise dispose of it in a manner which would interfere with its use for college purposes, pending further action by the Legislature on this subject on or before June 30, 1970; and be it further

RESOLUTION CHAPTER 144

Senate Concurrent Resolution No. 58—Relative to water quality at state water projects.

[Filed with Secretary of State July 1, 1968.]

WHEREAS, The State of California is currently constructing one of the largest water projects ever undertaken for the purpose of annually conveying more than 4,000,000 acre-feet of water from water surplus to water deficient areas of the state; and

WHEREAS, The construction of dams, reservoirs, aqueducts, and pumping plants necessary to deliver such water to meet ever increasing demands will also foster the rapid development of areas surrounding such project facilities, particularly project reservoirs; and

WHEREAS, The development of artificial water bodies, particularly in areas of the state not blessed with an abundance of natural lakes, will make such areas extremely attractive for urban, recreational, and commercial development; and

WHEREAS, The State of California, under the Davis-Dolwig Act, is planning for the recreational development of project reservoirs and will develop facilities to annually accommodate millions of visitor days of use; and

WHEREAS, The development of lands surrounding project reservoirs, including recreational development by the State of California, in the absence of proper planning and in the absence of the construction of necessary waste collection, treatment, and disposal facilities, could serve to materially degrade the quality of water in such reservoirs; and

WHEREAS, The maintenance of high water quality in project reservoirs, as well as in all other waters of the state, is of utmost concern to all Californians; and

WHEREAS, The disposal of municipal, industrial, and agricultural wastes is creating ever more difficult problems with

respect to the maintenance of the quality of the waters of this state; and

WHEREAS, It is essential that the waste disposal needs of areas surrounding project reservoirs, including needs occasioned by the development of project reservoirs for recreation purposes, be considered in project planning in order to protect the quality of the water which will be delivered by the State Water Resources Development System; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Parks and Recreation, the Department of Water Resources, and all other state agencies participating in the development of facilities associated with state water projects, are urged, in planning for the recreational development of project reservoirs, to cooperate with local public agencies in seeking solutions to sewage collection, treatment, and disposal problems adjacent to reservoirs at which recreational facilities are being constructed by the state, and to take all necessary and proper measures to preserve the quality of the water developed by such projects; and be it further

Resolved, That each such department or agency is requested, to the extent practicable and feasible, to study programs whereby the sewerage treatment and disposal needs of facilities constructed by the state and developed by such departments or agencies can be met by local sewerage disposal systems through appropriate state cost sharing, and to report to the Legislature on the need, advisability and cost to the state of any such programs, not later than the fifth legislative day of the 1969 Regular Session of the Legislature; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Administrator of the Resources Agency, the Director of Parks and Recreation, the Director of Water Resources, and the Director of the Department of Fish and Game.

and the city controller and exofficio city clerk of said city as follows:

CERTIFICATE OF AMENDMENTS TO THE CHARTER OF THE CITY OF SAN BUENAVENTURA, CALIFORNIA

State of California
County of Ventura } ss.
City of San Buenaventura

We, Thomas L. Bailey, Mayor pro tem of the City of San Buenaventura, California, and Scott Ruckman, City Controller and Ex-Officio City Clerk of said City, do hereby certify and declare as follows:

That the City of San Buenaventura, a municipal corporation in the County of Ventura, State of California, is now, and was at all times herein mentioned: (a) a city containing a population of more than three thousand five hundred, but less than fifty thousand inhabitants as ascertained by the last preceding census taken under the authority of the Congress of the United States; (b) a city organized and existing under a freeholders' charter, adopted under the provisions of Section 8 of Article XI of the Constitution of the State of California, which charter was heretofore duly ratified by a majority of the qualified electors of said City at an election duly held for that purpose on the 7th day of January, 1932, and approved by the Legislature of the State of California by concurrent resolution filed with the Secretary of State on the 26th day of January, 1933, (Statutes of 1933, p. 2870).

That in accordance with the provisions of Section 8 of Article XI of the Constitution of the State of California, the Council of the City of San Buenaventura, being the legislative body of said City, on its own motion, by Ordinance No. 1512, duly and regularly submitted to the qualified electors of said City certain proposals for the amendment of the charter of said City to be voted on by said qualified electors at the consolidated special municipal election called and held for that purpose in said City on the 4th day of June, 1968.

That on the 10th day of April, 1968, the said proposed amendments were published and advertised in accordance with Section 8 of Article XI of the California Constitution and the charter of the City of San Buenaventura, in each and every edition of said day of April 10, 1968, in "The Ventura County Star-Free Press", a daily newspaper of general circulation printed and circulated in said City, and being the official newspaper of said City; all as shown by the affidavit of publication on file in the office of the City Controller and Ex-Officio City Clerk of said City.

Such proposed charter amendments were submitted to the electors of said City for adoption and ratification at a special municipal election consolidated with the California Primary Election held on June 4, 1968, which was not less than forty,

nor more than sixty, days after completion of the advertising in the official newspaper of the proposed charter amendments aforesaid.

At said election a majority of the qualified electors voting upon the proposed charter amendments voted in favor thereof and adopted and ratified the same, as appears by the official canvass of the returns thereof by the Council of the City of San Buenaventura, which pursuant to law met on June 17, 1968, and duly declared the result of said canvass of the returns of said election by Resolution No. 6604.

That the said amendments to the charter of the City of San Buenaventura, so adopted and ratified by the qualified electors of said City, and which shall be submitted to the Legislature for approval or rejection, are in words and figures as follows:

Charter Amendment No. 1—Shall Article XI of the Charter of the City of San Buenaventura be repealed and Section 1 of Article VI of the Charter of the City of San Buenaventura be amended to read:

The members of the Council shall be elected from the City at large, as provided in this Charter; the members of the Board of Education shall be elected from the San Buenaventura School District at large; provided, however, that all qualified electors of the San Buenaventura School District shall have the right to vote for members of the Board of Education. All other officers, assistants, deputies, clerks, and employees appointed as provided in this Charter, shall hold their respective offices or positions at the pleasure of the appointing power. Where the appointment of any of said officers is vested in the Council, such appointment and any removal must be made by a four-sevenths vote of the Council."

Charter Amendment No. 2—Shall Paragraph (3) of Section 9 of Article VII of the Charter of the City of San Buenaventura be amended to read:

(Section 9, Article VII) "3. [Filed with Secretary of State July 3, 1968]

WHEREAS, Pleasure boating is a form of recreation which can be enjoyed by everyone, and is becoming increasingly popular in all areas of the state; and

WHEREAS, This sport takes place in a relatively unfamiliar environment subject to swift and sometimes violent change; and

WHEREAS, Boating waters of the state are limited and the number of boats using them is increasing, resulting in high concentrations in some areas; and

WHEREAS, The safe operation of boats requires special knowledge and skills with regard to boat handling, traffic rules, and the forces of nature, combined with exercise of sound judgment; and

WHEREAS, It is the responsibility of all who engage in boating and related activities to follow safe practices on our waterways in order to preserve the enjoyable character of this majestic sport; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Members of the Legislature of the State of California encourage all those using the waters of the state to increase their knowledge of boating safety laws and practices, and to use such knowledge to make a safer and more enjoyable boating environment for themselves and their fellowman; and be it further

Resolved, That the Governor be requested to proclaim the week commencing June 30, 1968, as Safe Boating Week; and be it further

RESOLUTION CHAPTER 149

Assembly Joint Resolution No. 13—Relative to pest control.

[Filed with Secretary of State July 3, 1968.]

WHEREAS, The United States Congress has authorized the Department of Health, Education and Welfare to develop a pest control program that would begin to rid our nation and its major cities of rats and other vermin; and

WHEREAS, The California Department of Public Health acting in behalf of local health agencies and the California pest control industry, has applied for a health services special project grant which would augment the activities of the Bureau of Vector Control; and

WHEREAS, The State Department of Public Health would develop a job training program designed to create career opportunities in the pest control field for the unemployed as an integral part of the federal program; and

WHEREAS, The United States Public Health guidelines would emphasize the Norwegian or sewer rat, which is common to other rat-infested areas of the nation, rather than the roof rat, which plagues California; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Congress of the United States ensure that guidelines relating to pest control in the United States developed by the federal government not exclude that species of rat or other vermin common to California; and be it further

Resolved, That the State Department of Public Health develop and transmit a report to each Senator and Representative from California in the Congress of the United States which will inform them of the unique pest control problems in California; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States and to the State Director of Public Health.

RESOLUTION CHAPTER 150

Assembly Joint Resolution No. 31—Relative to marine and coastal resources.

[Filed with Secretary of State July 3, 1968.]

WHEREAS, The United States Congress has in the past demonstrated wisdom and foresight in the matter of encouraging expansion of the national economy through enactment of legislation giving incentive to investors to provide risk capital to promising new and pioneering economic ventures; and

WHEREAS, Such encouragement has in fact generated the needed investment and created totally new industries, resulting in enhancement of the national economy, increase in the gross national product, and substantial new revenues to all levels of government; and

WHEREAS, The dramatic action of the Congress in its enactment of legislation which permitted formation of a profit-making corporation for the operation of communication satellites, and still earlier of legislation granting favorable tax treatment to real estate investment trusts, provides evidence of a fundamental belief by members of the Congress in the wisdom of assigning to the private economic sector maximum responsibility and opportunity for the development of pioneer industries; and

WHEREAS, The aforementioned acts of Congress further provide evidence of the recognition of the important role of and need for governmental encouragement of private investment, and

WHEREAS, The U.S. today still enjoys the greatest potential of any nation in the world for commercial exploitation of marine and coastal resources; and

WHEREAS, The realization of this potential is seriously threatened by competition from foreign nations whose research and operational ocean-oriented activities are subsidized by their governments; and

WHEREAS, The benefit from accelerated development of ocean-oriented industry will flow through the 22 coastal states to others which do not enjoy direct access to the ocean, enhancing the economy of the entire U.S. through increased activity in the related industries of food processing, petroleum refining, mineral extrusion and processing, transportation, recreation, electronics and other manufacturing industries; and

WHEREAS, Under legislation enacted by the California Legislature at its 1968 Regular Session a private ocean resources development corporation may be formed to be governed by a board of directors including as ex officio directors public officers serving as guardians of the public interest; and

WHEREAS, Enactment of enabling legislation analogous to that passed by the 86th Congress in 1960 in permitting the real estate investment trust to be treated as a nontaxable conduit for purposes of federal corporate income taxation, resulting in the probable appreciation in value of the investment, would distinctly encourage investment in such profit-making entities as the California Ocean Resources Development Corporation; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes and encourages the Congress of the United States to grant to entities formed for the purpose of developing commercial exploitation of ocean resources as may be formed in all states of the union vitally needed investment incentive through enactment of enabling legislation analogous to that passed by the 86th Congress in 1960 giving to the real estate investment trust the status of a nontaxable conduit for purposes of federal corporate income taxation; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to the Chairman of the Subcommittee on Oceanography of the House Committee on Merchant Marine and Fisheries, to each Senator and Representative from California in the Congress of the United States, and to each Governor of the 22 coastal states.

Resolved by the Assembly and Senate of California, jointly, That the Department of Fish and Game is requested to make the necessary arrangements, with appropriate agencies of the government of Mexico, to provide for meetings of Californian and Mexican scientists, at which data and information relating to the status of the Pacific mackerel can be exchanged in order that all scientific information may be considered, and gaps in data may be identified, so that the exact status of the population can be ascertained; and be it further

Resolved, That representatives of the United States Department of State and of the United States Bureau of Commercial Fisheries are invited to participate in this exchange of scientific information; and be it further

Resolved, That the Director of the Department of Fish and Game is requested to report on the progress of such scientific data exchange to the Legislature not later than February 1, 1969; and be it further

[Filed with Secretary of State July 3, 1968.]

WHEREAS, The Legislature, in enacting the Davis-Dolwig Act, found and declared it to be "necessary for the general public health and welfare that facilities for the storage, conservation or regulation of water be constructed in a manner consistent with the full utilization of their potential for the enhancement of fish and wildlife and to meet recreational needs," and further found and declared that "the providing for the enhancement of fish and wildlife and for recreation in connection with water storage, conservation or regulation facilities, benefits all of the people of California, and that the project construction costs attributable to such enhancement of fish and wildlife and recreation features should be borne by them"; and

WHEREAS, The Legislature further found and declared it to be the policy of this state "that recreation and the enhancement of fish and wildlife resources are among the purposes of state water projects; that the acquisition of real property for such purposes be planned and initiated concurrently with and as part of the land acquisition program for other purposes of state water projects; and that facilities for such purposes be ready and available for public use when each state water project having a potential for such use is completed"; and

WHEREAS, The above-mentioned act defined recreational purposes as including, "but not limited to, those recreational pursuits generally associated with the out-of-doors, such as camping, picnicking, fishing, hunting, water contact sports, boating, and sightseeing, and the associated facilities of campgrounds, picnic areas, water and sanitary facilities, parking areas, view points, boat launching ramps, and any others necessary to make project land and water areas available for use by the public"; and

WHEREAS, The Legislature further found that "the planning for public recreation use and fish and wildlife preservation and enhancement in connection with state water projects shall be a part of the general project formulation activities of the Department of Water Resources"; and

WHEREAS, The Legislature further expressed this same intent in Senate Resolution No. 53 of the 1962 Regular Session and in Senate Resolution No. 54 of the 1963 Regular Session, and the same intent was expressed even more explicitly in Assembly Concurrent Resolution No. 54 of the 1965 Regular Session; and

WHEREAS, Funds are provided pursuant to Chapter 27 of the Statutes of 1966, First Extraordinary Session, in connection with project costs which are allocated to recreation and fish and wildlife enhancement; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Water Resources, under the direction of the Administrator of the Resources Agency, is requested to formulate plans for recreational development of the California Aqueduct, including land acquisition, consistent with the requirements of the Davis-Dolwig Act and reflecting modifications in scope and cost of individual facilities, such as, but not limited to, those considered and proposed by the Senate Committee on Water Resources in its progress report to the Legislature in its 1968 Regular Session entitled "Recreation at the State Water Project—A Review of the Report of the Recreation Task Force," and to submit a report thereon to the Legislature, together with a summary of estimated capital expenditures for the next five years, reported on a yearly basis, necessary for the development of these recreational and fish and wildlife enhancement facilities, not later than the fifth legislative day of the 1969 Regular Session of the Legislature; and be it further

Resolved, That each affected state department is requested to budget for and commence the development of such recreational and fish and wildlife enhancement facilities at such time as is consistent with the Legislature's stated intent that facilities for such purposes be ready and available for public use when each state water project having a potential for such use is completed; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Governor, the Administrator of the Resources Agency, the Director of Water Resources, the Director of Parks and Recreation, and the Director of the Department of Fish and Game.

[Filed with Secretary of State July 8, 1968.]

WHEREAS, The Panama Canal is of the greatest importance to the national prosperity and economic welfare of the United States; and

WHEREAS, Construction of a second canal would be a great economic benefit to the United States in that such construction would increase trade and would directly increase employment at the harbors and ports of California; and

WHEREAS, The importance of a second canal is further demonstrated by the fact that it would reduce the cost of items that are currently imported by other means of transport and shipment; and

WHEREAS, The present canal is subject to severe limitations, particularly with respect to the size of ships which may use the canal, forcing many ships to make the long trip around Cape Horn; and

WHEREAS, A second canal is also badly needed simply by reason of the ever-increasing volume of ship traffic desiring to use the canal; and

WHEREAS, The danger of the canal being blocked or otherwise closed to all shipping as a result of accident, and the economic consequences of the present limitations on the use of the canal are of particular concern to West Coast ports; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to take such steps as may be necessary to secure the construction at the earliest possible time of a second canal to supplement the existing Panama Canal, which could handle ships of greater size, help accommodate the ever-increas-

ing volume of ship traffic, and provide security from the disastrous consequences which could result from the closure of the existing canal to all shipping; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

Each such demand shall be presented to the Director of Finance, who shall examine and audit the same. If the amount is legally due and there remains on his books an unexpended balance of an appropriation against which it may properly be charged, he shall approve such demand and draw and issue a warrant on the City Treasurer therefor, payable out of the proper fund. Otherwise, he shall reject it. The Board may overrule such rejection and order the warrant drawn Such warrant shall be paid by the City Treasurer if sufficient funds exist for that purpose. If funds are insufficient, the warrant shall be registered, and all registered warrants shall be paid in the order of their registration when funds therefor become available.

Section 1011. Claims Against the City.

(A) To the extent that the laws of the State of California set forth a procedure applicable to claims specified therein against local public entities and public officers and employees thereof, such state laws shall, from and after January 14, 1963, govern such claims to the exclusion of the provisions of this Charter and all ordinances of this city.

(B) Subject to the provisions of subsection (A) of this Section, and except in those cases where a different period of time is otherwise specified by law, all claims or demands which are based on a cause of action accruing from and after January 14, 1963, against the city, or any board or department thereof, or any officer or employee thereof for an act or omission during the course of his service or employment, shall be presented within one year after the accrual of the cause of action.

(C) For the purpose of computing the time limit prescribed by this Section, the date of the accrual of a cause of action to which a claim relates is the date upon which the cause of action accrued within the meaning of the applicable statute of limitations.

(D) Any claim rejected in whole or in part by any officer of the City whose approval may be required, may be presented to the Board within thirty days after such rejection, and must be so presented before the bringing of any suit against said city or any officer, employee, board or department thereof in his or its official capacity, and suit on any claim shall be brought within six months after the rejection of such claim in whole or in part by such Board. The Board may grant a franchise to any person, partnership, corporation, or other legal entity capable of exercising the privilege conferred, whether operating under an existing franchise or not, and may prescribe the terms, conditions and limitations of such grant, including the compensation to be paid to the City. The Board may, by the affirmative vote of five members prescribe by ordinance the method of procedure for granting franchises, together with additional terms and conditions for making such grants. In the absence of such provision the method provided by the general laws of the State of California shall apply.

Section 1102. Term of Franchise. No franchise shall be granted for a longer period than twenty years, unless there be reserved to the City the right to take over at any time the works, plant, and property constructed under the grant at their physical valuation and without compensation for franchise or good will.

Section 1103. Eminent Domain. No franchise or grant of a franchise shall in any way or to any extent impair or affect the right of the City to acquire the property of the possessor thereof by purchase or condemnation, and nothing therein contained shall be construed to contract away or to modify or abridge, either for a term or in perpetuity, the City's right of eminent domain with respect to the property of the possessor of any franchise. Every franchise granted by the City is granted upon the condition, whether expressed in the grant or not, that such franchise shall not be given any value before any court or other public authority in any proceeding of any character in excess of any amount actually paid by the grantee to the City at the time of the grant.

Said resolution shall be published at least once, not less than ten days prior to said hearing in a newspaper of general circulation in the City. After hearing all persons desiring to be heard, the Board may, by ordinance, grant the franchise. No ordinance granting a franchise shall be adopted as an emergency measure, but shall be subject to the referendary power reserved to the people.

Article XII Elections

Section 1201. Districts. The Board shall, by ordinance, redistrict the City into seven districts at least once every four years. Such districts shall be used for all elections of Board members. The districts shall comprise as nearly as practicable equal numbers of voters as determined by the total numbers of votes cast for the highest office at the preceding general state election, and shall be composed of contiguous and compact territory and bounded by natural boundaries or street lines. In laying out such districts, no precinct at the time fixed by the Board of Supervisors of Los Angeles County shall be divided. If, thereafter, the Board of Supervisors shall reprecinct the City, at least 60 days before any Board election, with the result that any precinct shall be divided by the district lines, the Board shall, not less than 30 days prior to any primary or general election, modify districts theretofore fixed to an extent sufficient to prevent the division of any precinct by a district line.

Any territory hereafter annexed to or consolidated with the City of Pasadena shall at the time of such annexation or consolidation be added to an adjacent district or districts by the Board by ordinance, provided, however, that if any territory annexed at any one time shall contain qualified voters in excess of 2500, as determined by the registration books of the County of Los Angeles at the time of such annexation, the Board shall within 30 days after said annexation redistrict the City in the manner as prescribed in this section.

Unless otherwise provided by ordinance, all municipal elections shall be held in accordance with the provisions of the Elections Code of the State of California, as the same now exists or may hereafter be amended, governing municipal elections. The conduct of all City elections shall be under the control of the Board, and the Board shall, by ordinance or resolution, provide for the holding of each City election.

Article XIII Initiative, Referendum, and Recall

Section 1301. Powers Reserved to the People. The powers of the initiative and referendum and the recall of elected city officers are hereby reserved to the electors of the City. The provisions of the Elections Code of the State of California, as the same now exists or may hereafter be amended or superseded, governing the exercise of the powers of initiative and referendum in cities, and governing the exercise of the power of recall of municipal officers, shall apply to the exercise of those powers in the City in so far as such provisions are not in conflict with the provisions of this Charter.

Article XIV Water and Power Utility Operations

Section 1401. Operation of Utilities. The City shall operate water and power utilities through a department or departments as established by ordinance.

Section 1402. Books of Account and Business Reports. The books of account of the water utility and of the power utility shall be kept separately from the accounts of all other city departments and of each other, and in such manner as to show the value of the property of each utility, its earnings, and expenses in accordance with accepted accredited uniform system of accounts. Reports of each utility shall be published annually in printed pamphlet form for distribution within 150 days after the close of each fiscal year, showing the value of the properties, the financial status, including cash on hand and invested funds, the bonded debt and other obligations, the earnings for the year, the cost of production and distribution, the cost of equipment and the depreciation thereof, and a statement of all assets and liabilities.

Section 1403. Service Rates. The charges to be made for water and electrical energy shall be prescribed by ordinance.

Section 1404. Separation of Funds. All money and property received by the City in payment for water or electrical energy and for any service rendered in connection therewith, or from the sale, lease, or other disposition of any property acquired with funds or property of either of said utilities; from the proceeds of any bonds issued for the purpose of either of said utilities; or from any special taxes at any time authorized for the purposes of either of said utilities shall be exclusively devoted to and appropriated for the purposes of said utilities as in this section required. However, nothing herein shall be deemed to prevent uses of such property for purposes not inconsistent with the purpose for which such property is held. Funds of each utility shall be kept separate and shall be limited to the use of that utility. The funds of the water and the power utilities shall be known and designated as "Water Fund" and "Light and Power Fund" respectively No transfer of real property, nor of any personal property exceeding in value $10,000.00 shall be made from either of said utilities to the other or to any other department of the City in any manner other than by ordinance or resolution of the Board.

Section 1405. The Use of Funds The funds derived from the water utility and the power utility shall be used only for the following purposes:

(1) The necessary or proper expenses of conducting each utility; the operation and maintenance of its works, plants, and distributing systems; the acquisition and improvement of facilities; and the publishing of reports.

(2) The payment of interest and principal on bonds issued for the purposes of said utility.

(3) The formation of surplus or reserves for future needs of the said utility and for unforeseen emergencies.

(4) Repayment of advances made from other funds of the City.

Section 1406. Investment of Funds. On authorization of the Board, any surplus utility funds may be invested in any bonds issued by the City of Pasadena, or any bonds issued by any school district situated in whole or in part in the City, or any bonds or certificates of indebtedness issued by the State of California or the United States, or in banks in interest-bearing accounts; and any such securities may be sold and the proceeds of such sale may be invested in other such securities. Interest earned from such funds shall go to the credit of the respective utility interest expense account. In authorizing the investment of any such surplus funds, preference over other securities shall be given by the Board to the bonds of the City issued for the purposes of either utility. No officer shall be personally liable for any loss to the City arising out of any such investment, unless such loss shall be the loss of the securities themselves due to the negligence or malfeasance of such officer.

Section 1407. Annual Contribution for Bond Redemption. Not later than the date of the adoption of the budget of the City for each fiscal year, as provided in this Charter, the Board shall determine the amount to be transferred from the Light and Power Fund. The sum so determined shall not exceed one-half of the net income of the electric works after payment of the maintenance and operating expenses of such works, the expenses of conducting the power utility depreciation and the principal, interest and premiums, if any, upon the redemption thereof, of electric works revenue bonds, as shown by the books of account of the power utility for the latest fiscal year with respect to which such books have been examined and reported upon by an independent certified public accountant and shall be transferred to the General Fund of the City by ordinance not later than the first day of September next succeeding the date of such determination. The sum thus transferred shall be expended for the payment of interest and principal on any bonds of the City which are or shall become wholly payable out of moneys received from general taxes of the City.

The amount to be so transferred shall not exceed eight per cent (8%) of the gross income of the electric works received during the said latest reported fiscal year from the sale of electric energy for use in the City of Pasadena; provided, however, that no greater sum shall be transferred than shall be required currently for the expenditures for said interest and principal as herein provided.

Notwithstanding anything herein contained, if the Board at the time of or before the adoption of the budget shall determine that the transfer of such amount from the Light and

Power Fund would be detrimental to the proper functioning and administration of the utility during the current fiscal year, the Board may so declare by ordinance. In this event no transfer of such amount shall be made thereafter within the current fiscal year. If, however, it shall determine that the transfer of an amount less than the eight per cent (8%) would not be detrimental to the proper functioning and administration of said utility during the current fiscal year, the Board may so declare by ordinance, and shall transfer the smaller amount.

Section 1408. Annual Contribution for any Municipal Purpose. Not later than the date of the adoption of the budget of the City for each fiscal year, as provided in this Charter, the Board shall determine the amounts to be transferred from the Light and Power Fund and the Water Fund in accordance with the provisions of this Section. Said amounts shall be in addition to the amount authorized to be transferred by Section 1407, and shall be transferred at the same time and in the same manner as the amount provided in Section 1407. The amounts thus transferred may be expended for any municipal purpose.

The amount to be so transferred from the Light and Power Fund shall not exceed one-half of the net income of the electric works as shown by the books of account of the power utility for the latest fiscal year with respect to which such books have been examined and reported upon by an independent certified public accountant, and shall not exceed eight per cent (8%) of the gross income of the electric works for the latest reported fiscal year. The amount to be so transferred from the Water Fund shall not exceed six per cent (6%) of the gross income of the water works for the said latest reported fiscal year.

But if the Board at the time of or before the adoption of the budget shall determine that the transfer of such amount from the Light and Power Fund or from the Water Fund would be detrimental to the proper functioning and administration of the two utilities during the current fiscal year, the Board may so find by ordinance; and, in such event, no transfer of such amount shall be made within the current fiscal year. If the Board shall determine that the transfer of an amount less than eight per cent (8%) from the Light and Power Fund or of an amount less than six per cent (6%) from the Water Fund would not be detrimental to the proper functioning and administration of these utilities during the current fiscal year, the Board may so declare by ordinance, and shall transfer the smaller amount.

Section 1409. Other Appropriations. Whenever the Board determines that the surplus or reserve in the Light and Power Fund is in excess of reasonable future needs of the power utility, such excess may be appropriated for other municipal purposes, provided that such appropriation be made by an ordinance stating its purpose, and further provided that such

ordinance shall not be effective until submitted to the people and approved by two-thirds of the qualified electors voting.

Section 1410. Emergency Use of Funds. Any surplus or reserve in the Water Fund or the Light and Power Fund may temporarily be used for other municipal purposes in case there shall be insufficient funds in the City Treasury to pay the current expenses of the general government of the City before the collection of taxes levied in any fiscal year. In case moneys from either of said funds are used pending the receipt of taxes, the amount so used shall be repaid not later than February 15 of the same fiscal year.

Section 1411. Revenue Bond Purposes. Revenue bonds for the purpose of providing moneys for the acquisition and construction of additions to, extensions, improvements, or repairs of the water works and electric works of the City, or the purchase for intertie purposes of undivided joint interests or rights of use in other generation or transmission facilities, constructed either by governmental agencies or investor-owned companies may be issued only as provided in this Article. Such revenue bonds shall not constitute an indebtedness of the City but shall constitute obligations which shall be payable principal and interest and any premiums upon the redemption of any thereof prior to maturity only from the fund derived from the public utility involved (the "Water Fund" established in this Article in the case of revenue bonds issued for waterworks purposes and the "Light and Power Fund" established in this Article in the case of revenue bonds issued for electric works purposes; and each of said funds may hereinafter in this Article be referred to as a "Revenue Fund"); provided, however, that this shall not preclude the payment thereof from the proceeds of bonds issued to refund said revenue bonds. Refunding bonds issued under this Article may be issued only as provided in this Article and shall be payable only from the fund from which the revenue bonds to be refunded are payable. No restrictions or limitations upon, or procedure for, the issuance of bonds in other articles of this Charter shall apply to such revenue bonds (including refunding revenue bonds) and this Article shall constitute complete authority for the issuance of such revenue bonds (including such refunding revenue bonds), and no action or proceeding not required by this Article shall be necessary for the valid authorization and issuance of such revenue bonds.

Section 1412. Revenue Bond Ordinance. Whenever the Board proposes to issue revenue bonds pursuant to this Article, it shall adopt an ordinance authorizing the issuance of such bonds which shall recite the objects and purposes for which the bonds are to be issued, the principal amount of the bonds, the maximum rate of interest to be paid, the date of issue of said bonds, the maturity dates thereof, and the fund from which the bonds and the interest thereon and premiums upon the redemption of any thereof are to be payable

and such provisions authorized by Section 1413 of this Article as the Board deems desirable. Said bonds shall be negotiable. The recitals of regularity of proceedings in any revenue bond issued and sold under this Article shall be conclusive evidence of compliance with the provisions of this Article and of the validity of such bond.

Section 1413. Revenue Bonds: Terms and Conditions. In the ordinance authorizing the issuance of said bonds, the Board may also fix additional terms and conditions thereof and may in any article, section or clause thereof make such provision as it may deem necessary or desirable to facilitate the issuance and sale of the bonds or for the protection or security of the holders thereof, including, without affecting the generality of the foregoing, provision for any or all of the following:

(1) The denomination or denominations of the bonds, the medium of payment thereof, the place or places of payment thereof, which may be within or without the State of California, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination, and conditions of any temporary bonds or interim certificates, and the manual and facsimile signatures to be affixed to said bonds or certificates (one signature upon which must be manual) and the manual or facsimile signature to be affixed to interest coupons.

(2) The terms and conditions under which said bonds may be issued, sold, paid, redeemed before maturity (including the premiums, if any, to be payable upon bonds redeemed prior to maturity), exchanged, registered, transferred, and negotiated.

(3) Rates to be charged for services furnished by the public utility added to, extended, improved, or repaired with the proceeds of said bonds (or in the case of refunding bond, with the proceeds of the bonds to be refunded), such rates to provide revenue at least sufficient to pay, as the same become due, principal and interest of such bonds, and all other obligations payable from the Revenue Fund of such works (or from any fund derived therefrom) and the necessary expenses of maintaining and operating such works, and the extent to which such services may be furnished or rendered to the City or to any public corporation or body, free or at lower rates than otherwise charged.

(4) The Revenue Fund from which said bonds and the interest thereon shall be paid; the collection, deposit, and safekeeping of the revenues; the permissible uses thereof, including restrictions upon or prohibitions against any contributions provided for in this Article; provided, however, that nothing in this Article or in any ordinance authorizing the issuance of revenue bonds hereunder or in any resolution or order in the revenue bond proceeding shall prevent, restrict, or prohibit the payment from the revenues of the necessary or proper expenses of maintenance and operation and conduct

of the utility prior to the payment of principal and interest of the revenue bonds or the setting aside in the bond service, sinking redemption, reserve, or other fund, monthly or otherwise, of funds therefor; the special fund or funds to be pledged and kept for the payment of principal and interest of the bonds, including reserve, sinking, bond service, redemption, and trust funds, and any revenue bond payable from the Revenue Fund of a public utility may be paid from any such special fund set up therefor; the permissible investments for moneys in said funds or any thereof; the accounts and records to be kept, audits thereof and examination thereof by bondholders and others.

(5) The carrying of insurance upon such public utility or any part thereof against any or all risks, and in case of loss the application of the insurance proceeds.

(6) Prohibitions against or limitations upon the sale, lease, or other disposition of such public utility.

(7) Prohibitions or limitations upon the issuance of any additional bonds payable from the revenues of the public utility so added to, extended, improved, or repaired with the proceeds of said bonds, but no bonds shall be issued pursuant to this Article or under any other provision of this Charter or any other law having any priority in payment of principal or interest out of such revenues over revenue bonds theretofore or thereafter issued and payable out of said revenues.

(8) Provisions whereby the consent or agreement of a stated percentage or number of the holders of the bonds may bind all holders to modifications of the provisions of any ordinance, resolution, or order authorizing or providing for the issuance of such bonds, or to a refunding of said bonds and to calls or exchanges in connection with such refunding.

(9) For the issuance of a duplicate in the manner and upon such terms and conditions as the Board may determine, in the event any bond, temporary bond, coupon or interim certificate of any such issue is lost, stolen, destroyed, or mutilated.

(10) Any other provision valid under the Constitutions of the State of California and the United States of America which the Board deems necessary or desirable to facilitate the issuance and sale of said bonds or for the protection of holders thereof.

Such ordinance shall be subject to referendum in the manner that other ordinances of the City are subject to referendum. The ordinance authorizing the issuance of said bonds and all other ordinances, resolutions or orders in the proceeding for the issuance of said bonds shall constitute a contract with the holders of the bonds and such contract may be enforced by any holder by mandamus, injunction, or any applicable legal action, suit, proceeding, or other remedy.

Section 1414. Revenue Bonds: Limitations.

The following limitations shall apply to the issuance of bonds under this Article:

(1) Said bonds shall be payable within not more than forty years from the date of issue thereof, and not less than one-fortieth part of the whole of any issue of bonds shall be payable annually beginning not later than ten years from the date of such issue.

(2) Said bonds shall be designated "Revenue Bonds" and each bond shall state on its face that it does not constitute an indebtedness of the City of Pasadena but is an obligation payable, principal and interest, only from the Revenue Fund of the utility for which the proceeds of the bonds will be used.

(3) Said bonds shall be sold only at public sale following such notice as the Board by resolution or order may prescribe; provided, however, that if no satisfactory bid is received pursuant to such notice the Board may reject all bids received, if any, and thereafter sell said bonds at public or private sale; provided, further, that the provisions of this subsection shall not apply to the exchange of any refunding bonds. Any such revenue bonds may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates of interest at which they will purchase said bonds, but no rate on any of the bonds shall exceed the maximum rate stated in the ordinance authorizing the issuance of such bonds. If the bidders are invited to state the interest rate or rates, then upon the acceptance of a bid the Board shall by resolution or order, which shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on the bonds

(4) Said bonds shall be sold for not less than par and accrued interest to date of delivery. The proceeds from the sale (except premium and accrued interest which shall be paid into the Bond Service or other fund designated or established for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the ordinance authorizing the issuance of such bonds, and not into the "Water Fund" or the "Light and Power Fund", and shall be applied exclusively to the objects and purposes set forth in such ordinance; provided, however, (a) that the Revenue Fund from which the bonds are payable may be reimbursed from such proceeds for expenditures for purposes for which the bonds were issued made from such Revenue Fund after the ordinance authorizing the issuance of such bonds became effective; (b) that said proceeds may be used for the payment of interest on said bonds during the period of acquisition and construction and for the first six months thereafter; and (c) that when the objects and purposes for which the bonds were issued have been accomplished any remaining unexpended funds derived from the sale of said bonds shall be used for the payment of the principal and interest of said bonds.

Section 1415. Refunding Bonds. Refunding bonds may be issued for the purpose of refunding any revenue bonds issued pursuant to this Article, and such refunding bonds may be issued in principal amount sufficient to refund the outstanding bonds proposed to be refunded thereby, including payments of accrued interest and of any premiums thereon. Refunding bonds shall be authorized, issued, and sold in the manner provided for the sale of other revenue bonds hereunder, or may be exchanged for the outstanding bonds to be refunded upon such terms and conditions as may be stated in the ordinance authorizing such refunding bonds.

Section 1416. Revenue Bond Proceedings: Effect of. To the extent that any provision of an ordinance authorizing the issuance of bonds pursuant to this Article or any provision of any ordinance, resolution or order pertaining to such bonds adopted pursuant to the authority of this Article is inconsistent with any of the provisions of any other Article of this Charter, the provisions of such ordinance, resolution, or order shall control so long as any of the bonds and interest coupons to which the same pertain are outstanding and unpaid. No bond shall be deemed to be outstanding and unpaid within the meaning of this Article if moneys for the purpose of paying the same or redeeming the same prior to maturity and sufficient therefor have been irrevocably set aside in a Bond Service Fund, sinking fund, redemption fund, or other trust fund created to insure the payment or redemption thereof.

Article XV The Fire and Police Retirement System

Section 1501. Retirement System Established. In order to continue in force, with such modifications as are set forth in this Article, provisions already existing for retirement and death benefits for members of the Fire and Police Departments of the City, the Pasadena Fire and Police Retirement System, hereinafter referred to as the Retirement System or the System, is hereby established. The legislative body of the city may exclude from membership in the Retirement System persons employed on a temporary or part-time basis, but for the purpose of the Retirement System, persons serving a probationary period requisite to appointment to a regular position shall not be considered as on a temporary basis. The legislative body by a vote of not less than five (5) of its members, is hereby empowered to enact any and all ordinances necessary to carry into effect the provisions of this Article provided that the said legislative body, through the Retirement Board, shall secure an actuarial report of the cost and effect of any proposed change in the benefits under the Retirement System, before the adoption of an ordinance to submit any proposed Charter amendment providing for such change.

Section 1502. Retirement Board. The Retirement System shall be managed by a Retirement Board hereby created, which shall be the successor to and have the powers and duties

of the Fire and Police Pension Board of the City of Pasadena, heretofore created and effective and now by this Article superseded by the Retirement Board. The Retirement Board shall consist of one member of the legislative body of the city to be selected by and to serve at the pleasure of the said legislative body, two qualified electors of the City of Pasadena not connected with the government thereof, to be appointed by the legislative body, and two members elected under the supervision of the Retirement Board from the active members of the Retirement System, who shall not include persons retired under the Retirement System or under any other Municipal, County or State retirement or pension plan, provided that, immediately after the effective date hereof, the chairman of the said legislative body shall appoint two members from such active members of the Retirement System to serve until the election of such two members, which shall not be more than six months after the effective date hereof, hereby defined as the first day of the July next following ratification of this amendment by the Legislature. One of such two members shall be a member of the Fire Department and one a member of the Police Department, and the election of each of such two members shall be confined to the group from which he must be chosen. The term of office of the four members, other than the member appointed from the legislative body of the City shall be four years, one term expiring each year, provided that immediately after the election of the two members from the Fire and Police Departments, they shall draw lots for terms of one, two, three and four years, respectively. The members of the Retirement Board shall serve without compensation. The Retirement Board shall appoint a secretary to hold office at its pleasure, and when necessary employ a consulting actuary.

The Retirement Board shall have the sole power and authority under such general ordinances as may be adopted by the legislative body to hear and determine all facts pertaining to applications for and awards of any benefits under the Retirement System, or any matters pertaining to the administration thereof. Said Retirement Board shall have exclusive control of the administration and investment of such fund or funds as may be established and all investments shall be subject to the same terms, limitations and restrictions as are imposed by the Constitution and laws of the State upon the investment of the State Employees' Retirement System Funds, as now enacted or hereafter amended.

Disbursement of retirement funds shall be made upon demands duly audited in the manner prescribed in this Charter for disbursement of public funds. The City Treasurer shall be the custodian of any such retirement funds, subject to the control of the Retirement Board as to the administration and investment of said funds.

Section 1503. Actuarial Tables, Rates and Valuations. The mortality, service and other tables and rates of contribution for members as recommended from time to time by the

actuary and the valuations determined by him from time to time and approved by the Retirement Board shall be final and conclusive and the Retirement System shall be based thereon. The total amount, as determined by the actuary and approved by the Retirement Board, of the contributions required during any fiscal year of the city under the Retirement System, shall be paid into the Retirement Fund by the City during such year. Liabilities accruing under the Retirement System because of service rendered to the city prior to July 1, 1935, and because of deaths and disability retirement of members, not met by members' contributions, and administrative costs under the system, shall be met by contributions to the Retirement Fund by the city, in addition to any amounts contributed to meet liabilities accruing because of service rendered by persons after becoming members of the System, provided that such prior service liabilities may be met by annual appropriations instead of by one appropriation for the total amount of the liabilities; and provided further, that such appropriation for any one year shall be not less than the total amounts disbursed during that year on account of either or both of (a) prior service, and (b) death and disability benefits not provided by members' contributions.

In addition to other contributions required of the city under the System, the city shall contribute to the Retirement Fund such sums as may be necessary when added to the members' contributions provided for in Section 1509 of this Article, to provide that portion of service retirement allowances, including continuances of such allowances, which is based on service rendered after June 30, 1935. Such sums shall be made in annual installments, and the installment to be paid in any year shall be determined by the application of a percentage to the total members' compensation paid during said year, said percentage to be the ratio of the value at the effective date hereof or at the date of the last valuation prior to said date, or at the later date of a periodical actuarial valuation and investigation into the experience under the System as provided by the Charter and by ordinance, of such allowances thereafter to be paid to or on account of persons who were members from contributions of the city, less the amount of such contributions, with accumulated interest thereon, then held by said System to provide said benefits on account of service rendered by respective members after the date stated in the sentence next preceding, to the value at said respective dates of compensation thereafter payable to said members. Said values shall be determined by the actuary, who shall take into account the interest which shall be earned on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service before retirement and of death after retirement. Said percentage shall be changed by the Board on the basis of said values determined in said periodical actuarial valuation and investigation into the experience under the System.

The percentage to be used shall be ten and sixty-six hundredths per cent (10.66%) until redetermined by the Retirement Board on the basis of the periodical investigation and actuarial valuation under the System.

Periodically, at periods fixed by the legislative body, the Retirement Board shall make an actuarial investigation into the mortality, service and other experience under the System, and, further, shall make an actuarial valuation of the assets and liabilities of the System, and upon the basis of such investigation and valuation as interpreted by the actuary, any necessary revision of the tables and rates being used under the System shall be made by the Retirement Board No adjustment will be included in members' new rates of contribution resulting from said periodical investigation, Charter or ordinance amendments, or other cause, for time prior to the effective date of such new rates.

This amendment shall become effective and operative on the first day of July 1955

Section 1504. Definitions: "Compensation", as distinguished from benefits under the Workmen's Compensation, Insurance and Safety Act of the State of California, shall mean the remuneration prescribed by the city in cash, without deduction except for absence from duty, for time during which the individual receiving such remuneration is in the employ of the city in either or both the Fire and Police Departments. Compensation based on overtime put in by a member shall be excluded from all computations in which compensation is a factor.

"Service" shall mean time during which an individual is employed in either or both the Fire and Police Departments of the city for compensation. Absence from duty without compensation due to any cause other than disability retirement as hereinafter provided, shall not be deemed service for the city. The legislative body, however, may fix the number of months per year to be required for a year of service and proportionate parts thereof, but not more than one year shall be credited for all service in any year.

"Compensation earnable" shall mean the compensation as determined by the Retirement Board, which would have been earned had the member received compensation without interruption throughout the period under consideration and at the rates attached to the ranks or position held by him during such period. The computation for any absence of a member shall be based on the compensation earnable in the rank or position held by him at the beginning of the absence, and that, for time prior to becoming a member of the Fire or Police Department, shall be based on the compensation earnable by him in the rank or position first held by him in such Department.

"Retirement allowance", "death allowance" or "allowance" shall mean equal monthly payments for life unless a different term of payment is provided by the context, provided that

any person to whom or on whose account benefits are payable, may elect to have the actuarial equivalent of that portion of such benefits which is not continued automatically to his surviving wife or children, paid in different form, all subject to such restrictions, regulations and conditions as may be prescribed by the legislative body, but the action of the legislative body shall not prevent such benefits when elected by a member, from taking the form of cash refund annuities, as applied to the member's accumulated contributions only, or reversionary annuities, these terms to have the meaning commonly accepted in standard life insurance practice.

"Annuity" shall mean equal monthly payments for life, unless a different term of payment is provided by the context, derived from contributions made by the member.

"Final compensation" shall mean the highest average monthly compensation earnable by a member during any period of three consecutive years. In the calculation of "final compensation", periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in the computation of final compensation. If a break in service exceeded six months in duration, only the first six months thereof and the compensation earnable during those six months shall be included in the computation of final compensation. For the purposes of this paragraph, absence from duty without compensation, because of disability retirement, is not a break in service.

Allowances which were effective, because of a member's retirement or death before retirement, after July 31, 1957 and prior to the effective date hereof shall be adjusted to the new basis provided herein. (This amendment shall become effective and operative on the first day of July, 1960.)

"Employee" shall mean "officer or employee."

"Member" shall mean a member of the Retirement System unless clearly indicated otherwise.

"Interest" shall mean interest at the rate adopted by the Retirement Board.

The disability referred to herein as a basis for retirement shall mean disability of permanent duration, except disabilities determined by the Retirement Board, predicated upon best medical opinion, to be of an extended and indefinite duration.

For the purposes of the Retirement System, ages of both members and beneficiaries used in the calculation of allowances shall be taken to the next lower completed quarter year.

Any fire or police service performed outside the limits of the city by a member of the Retirement System under the orders of a superior officer of any such member, shall be considered as performed within the scope of his employment, and any disability or death incurred therein shall be covered under the provisions of the Retirement System.

For the purposes of the Retirement System "member of the Fire Department" or "member of the Police Department" shall include any officer or employee of either of such departments whose principal duties are to prevent and extinguish fire or to preserve the peace, prevent injury to life and property, or to suppress crime or disorder, and shall exclude persons whose principal duties are those of telephone operator, clerk or stenographer, machinist or mechanic, or other similar duties clearly not falling within the foregoing regular fire or police duties, even though such persons may be called upon occasionally to perform such regular fire or police duties; provided that the foregoing exclusions shall not apply to members of the Fire Department qualifying as firemen, hosemen or higher rank, or to members of the Police Department qualifying as patrolmen or higher rank, or male employees of the Police Department assigned to the Identification Department and subject to assignment to patrolmen's duties, who, at the date of the adoption of this Charter amendment, are assigned, or thereafter shall be assigned, to perform any of the above excluded duties. After the effective date hereof, the maximum age at which any person, except a person employed as Chief of the Fire Department or Chief of the Police Department, may become members of either the Fire or Police Department, shall be thirty years notwithstanding any of the other provisions of this Charter.

Section 1505. Age Exception for Temporary or Part-Time Employees. As an exception to the maximum age requirement of the preceding section, if the City Manager finds that persons under thirty-one years of age are not available for membership in either of said departments because of conditions brought about by war, he may employ a person over thirty years of age in either of said departments on a temporary or part-time basis and such person shall not be entitled to membership in the Retirement System. Authority given to the City Manager under this Section shall terminate after the expiration of one year after the end of the war on a date to be determined by the legislative body of the city.

Section 1506. Restrictions on Retired Persons. No person retired for service or disability receiving a retirement allowance under the Retirement System shall serve in any appointive position in the service of the city, including memberships on Boards or Commissions, nor shall such person receive any payment for service, except in an elective office, rendered to the City after retirement, provided that service as an election officer or juror shall not be affected by this section

Section 1507. Reduction of Benefits. That portion of any allowance or other benefit which is provided by contributions of the City, payable by the Retirement System because of the death or retirement of any member, shall be reduced, in the manner fixed by the legislative body, by the amount of any pension, except social security payments or pensions paid on account of service in the military or naval forces of the

United States, paid to or on account of the death of such member, from funds of the United States, State of California or any political subdivision thereof, on account of, or on the basis of service credited under the Retirement System. (This amendment shall become effective and operative on the first day of July, 1960.)

Section 1508. Existing Pensions Continued. Pensions existing in favor of or on account of members of the Fire or Police Departments at the time of the effective date of this Article, shall be continued in force subject to change under the provisions of Section 1509 hereof, such pensions, however, shall be paid by the Retirement System.

Section 1509. Benefit and Contribution Requirements. Persons who shall be members of the Fire or Police Departments on the effective date hereof shall become members of the Retirement System upon such date, and persons who shall become members of the Fire or Police Departments after the effective date hereof, shall become members of the Retirement System forthwith, subject to the following provisions, in addition to the provisions contained in Sections 1501 to 1507 both inclusive, of this Article.

(a) Members of the Retirement System may retire for service at their option upon attaining age fifty-one but only after rendering at least twenty years of service. Upon such retirement, a member shall receive a retirement allowance calculated as provided in subsection (b) of this section, except that if a member retires before attaining age fifty-five, his retirement allowance shall be reduced to that amount which the value at his retirement of such retirement allowance deferred to age fifty-five, will provide at his age at the time of such retirement. Any provision of subsection (b) of this section inconsistent with the sentence immediately preceding is hereby superseded for the purpose of interpreting said sentence.

Dismissal of a member from service for any cause after he has qualified as to age and service for service retirement shall not deprive such member of the right to retire for service.

Any member of the System shall be retired for disability, regardless of age or amount of service, if incapacitated for the performance of duty as the result of an injury or illness incurred in the performance of duty. Any member incapacitated for the performance of duty by reason of a cause not included under the provisions of the immediately preceding sentence, shall be retired regardless of age but only after ten years of service to the city in either or both of said departments.

Retirement shall be compulsory at the age of sixty years, provided that a chief of the Fire Department, a chief of the Police Department, or the Assistant Director of Civil Defense holding such office on January 1, 1967, who attains the age of sixty years, as a member of the System, may be retained in service as such chief, or such Director, at the option of the City Manager, but such retention shall not extend beyond the

age of sixty-five years. Such retained chief or retained Director shall continue to be a member of the Retirement System.

(b) Upon retirement for service, a member shall receive a service retirement allowance equal to the same percentage of his final compensation for each year of service rendered by him in the Fire or Police Department, as the contributions of the member and the city are calculated to provide upon retirement for service at fifty-five years of age, or upon completion of twenty years of service at an age higher than fifty-five years, for each year of service as a member. Upon the death of the retired member, two-thirds of the retirement allowance shall be continued throughout life or until remarriage, to his surviving wife, to whom he was married at least one year prior to his retirement, provided said wife is of the same age as said member. If said surviving wife is of a greater or less age than said member, then such portion of the retirement allowance shall be continued to her throughout her life or until her remarriage, as the amount which would have been necessary at retirement to provide for the continuance after said member's death of two-thirds of the entire allowance to a surviving wife of the same age as the said member, will provide when applied at the time of retirement, according to tables and rates recommended by the actuary and approved by the Retirement Board to provide a retirement allowance to begin at the death of the retired member and continue throughout the life of the surviving wife. If there be no such surviving wife or if she die or remarry before any unmarried child of such deceased member shall have attained the age of twenty-one years, then the allowance which would have been paid to her had she qualified and lived and not remarried, shall be paid to such child or children under said age collectively, to continue until every such child dies, attains said age or marries, provided that no child shall receive any allowance after attaining the age of twenty-one years or marriage. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of twenty-one by or marriage of a child before the sum of the monthly payments made shall equal the sum of the retired member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike, provided that this sentence shall be of no effect if there be no wife at the time of retirement who qualified for the continuance of an allowance to her after the death of the said member.

Upon retirement for disability resulting from injury or illness incurred in performance of duty, a member shall receive a disability retirement allowance of fifty per centum of his final compensation. Upon the death of the retired member, the retirement allowance shall be continued, throughout life or until remarriage, to the surviving wife, to whom he was

married at least one year prior to his retirement. If there be no such surviving wife or if she die or remarry before any unmarried child of such deceased member shall have attained the age of twenty-one years, then the allowance shall be continued to such child or children under said age collectively, to continue until every such child dies, attains said age or marries, provided that no child shall receive any allowance after attaining the age of twenty-one years or marriage. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of twenty-one years by or marriage of a child before the sum of the monthly payments made shall equal the sum of the retired member's dependent contributions, with interest thereon, as it was at his retirement, then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike, provided that this sentence shall be of no effect if there be no wife at the time of retirement who qualifies for the continuance of an allowance to her after the death of the said member. (This amendment shall become effective and operative on the first day of July, 1960.)

Upon retirement for disability resulting from any cause not included in the immediately preceding paragraph, a member shall receive a disability retirement allowance of one and one-half per centum of his final compensation multiplied by the number of years of service in either or both the Fire and Police Departments credited to him, if such allowance exceeds one-fourth of his final compensation; otherwise one and one-half per centum of his final compensation multiplied by the number of years which would be creditable to him were his service to continue until his attainment of the age of fifty-five years, but such allowance shall not exceed one-fourth of his final compensation.

If the disability for which a member was retired shall cease, his allowance shall cease, and he shall be reinstated at the rank and in a position of the same grade as that he occupied at the time of his retirement. His individual account shall be credited with an amount which is the actuarial equivalent of his annuity at that time, as based on a disabled life, but not exceed the amount of his accumulated contributions at the time of his retirement for disability. The amount so credited to his individual account shall be administered as contributions deducted from the member's compensation. Upon retirement at any time thereafter, he shall receive credit as service for the time during which he was retired for disability, but he shall not be required to make contributions for such time. If following reinstatement, he does not enter upon the duties of his position, and is not qualified for service retirement, he shall be subject to subsection (e) of this Section 1509.

To the allowances provided in this section, shall be added the annuity which the accumulated additional contributions

of the retiring member will provide when applied in the same manner as his normal contributions.

(c) Upon the death of a member, before retirement and except as provided in subsection (e) of this Section 1509, the Retirement System shall be liable for a death benefit, which, if an amount be due under either paragraph (3) or paragraph (4) next following, and if there be a surviving wife or surviving children, shall be paid in monthly installments and to the surviving wife and children as prescribed therein, otherwise the amounts due under paragraphs (1) and (2) shall be paid as prescribed therein, and such death benefit shall consist of:

(1) His accumulated contributions, to be paid to his estate or to such person having an insurable interest in his life as he shall nominate by written designation duly executed and filed with the Retirement Board, and in addition thereto,

(2) An amount equal to his compensation earnable during the six months immediately preceding his death to be paid only to his surviving wife, his child or children or his dependent father or mother, and if in the opinion of the Retirement Board, death be the result of injury or illness incurred in the performance of duty, in addition thereto,

(3) An amount sufficient, when added to the amounts provided in (1) and (2) but excluding his accumulated additional contributions, to provide when applied according to tables and rates recommended by the actuary and approved by the Retirement Board, a monthly death benefit allowance, equal to one-half of his final compensation, to be paid to the surviving wife to whom said member was married at the time of sustaining the said injury, to continue throughout her life or until her remarriage; or if there be no such widow, or if the widow die or remarry before any unmarried child of such deceased member shall have attained the age of twenty-one years, then to such child or children under said age collectively, to continue until every such child dies, attains said age or marries, provided that no child shall receive any allowance after attaining the age of twenty-one years or marriage. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of twenty-one years by or marriage of a child before the sum of the monthly payments shall equal the sum of the amounts provided in the next preceding paragraphs (1) and (2), then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike. If, in the opinion of the Retirement Board, death be not the result of injury or illness incurred in the performance of duty, and if said member be qualified at the date of death for retirement for service under subsection (a) of this Section, then, at the option of the qualifying surviving wife, in addition to the amounts provided in said paragraphs (1) and (2),

(4) An amount sufficient, when added to the amounts provided in said paragraphs (1) and (2), but excluding his accumulated additional contributions, when applied according to the tables and rates recommended by the actuary and approved by the Retirement Board, to provide an allowance to be paid to the surviving wife to whom said member was married at least one year prior to his death, to be equal in amount to the allowance which would have been payable to her if the said member had retired for service at the time of his death and had died instantly thereafter, and to continue throughout her life or until her marriage, or if there be no surviving wife, or if she die or remarry before any unmarried child of such deceased member shall have attained the age of twenty-one years, then to such child or children under said age collectively, to continue until every such child dies, attains said age, or marries, provided that no child shall receive any allowance after attaining the age of twenty-one years or marriage. If payment of the allowance be stopped because of marriage of the widow or attainment of the age of twenty-one years by or marriage of a child before the sum of the monthly payments made shall equal the sum of the amounts provided in the next preceding paragraphs (1) and (2), then an amount equal to the difference between said sums shall be paid in one amount to the married widow, or if there be no widow, to the surviving children of the deceased member, share and share alike.

(d) The normal contributions which shall be derived by the application of the members rate of contribution to his compensation, and shall be required as a deduction from the compensation of each member throughout his membership shall be such as, on the average for such member, if his service on full salary be uninterrupted and when accumulated with interest, added to equal accumulated contributions of the city and applied according to the tables and rates recommended by the actuary and approved by the Retirement Board as hereinbefore provided, will provide a retirement allowance upon retirement for service at the age of fifty-five years, or upon completion of twenty years of service at an age higher than fifty-five years, equal to one-half of his final compensation, less that part of the retirement allowance set forth in the first sentence of subsection (b) of this Section 1509, which is to be provided by contributions of the city on account of service rendered prior to July 1, 1935.

The dependent contributions which shall be derived and required in the same manner as normal contributions of each male member throughout his membership in addition to the normal contributions, shall be such as would be necessary to provide on the average for each such member, on the date of his service retirement at fifty-five years of age, or upon completion of twenty years of service at an age higher than fifty-five years, when accumulated with interest and applied according to the tables and rates recommended by the actuary and approved by the Retirement Board, for the continuance after

his death and throughout the life of a surviving wife whose age at such date is the same as the age of said member, of two-thirds of the retirement allowance provided by his accumulated normal contributions upon said retirement at fifty-five years of age, or at said higher ages. If at the date of retirement for service or retirement for disability resulting from injuries received in performanec of duty, said member has no wife who qualifies under this Charter for the continuance of an allowance to her after the death of said member, or upon retirement for disability resulting from other causes regardless of his marital condition, the said dependent contributions with accumulated interest thereon shall be paid to him upon said date, or at his option, applied in the same manner as additional contributions, to provide for him an annuity which shall be added to his retirement allowance.

Members may make contributions in addition to and in the same manner as the normal and dependent contributions provided for in the two immediately preceding paragraphs, to provide additional benefits, but the city shall not contribute any amount on account of such members' additional contributions. Such additional contributions shall be administered in the same manner as the normal contributions.

(e) Should any person who is a member under the provisions of this Section be separated from service of the city through any cause other than death or retirement, then all of his contributions, with interest, shall be refunded to him, provided that if such a member is entitled to be credited with at least ten years of service, he shall have the right to elect within ninety days after said termination of service, whether to allow his accumulated contributions to remain in the Retirement Fund. Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions. Such election shall become void upon such person's employment in a position requisite for membership in this System, and may be revoked by such person at any time prior thereto. Upon such revocation, his accumulated contributions shall be refunded to him. A member whose membership continues under this section is subject to the same age requirement as applies to other members for service retirement, but he is not subject to a minimum service requirement. After the qualification of such member for retirement by reason of age for retirement for service, and only then, he shall be entitled to receive a retirement allowance based upon the amount of his accumulated contributions and service standing to his credit at the time of retirement and on the employer contributions held for him, and calculated in the same manner as for other members. Upon the death of such a member prior to retirement under this section, the Retirement System shall be liable for a death benefit consisting of his accumulated contributions, to be paid to his estate or to such persons having an insurable interest in his life as he shall nominate by written designation duly executed and filed with the Retirement

Board. If he shall again become a member of the Retirement System, he shall deposit in the Retirement Fund, the amount refunded to him plus an amount equal to the additional interest that would have been credited to his account had such contributions not been withdrawn. His rate of normal contribution for the future shall be based on an age determined by adding the number of completed years of his absence from membership in the System after the earliest termination of his membership included in such election and payment, to the age upon which his normal rate of contribution, as it was prior to such termination, was based. The same percentage of his final compensation per year of service which, prior to such termination, his contributions and those of his employer were calculated to provide upon retirement for service at his lowest optional service retirement age without reduced benefit, shall be used in the calculation of his normal rate of contribution at reinstatement.

(f) The contributions made under this section shall be credited to the individual account of the member from whose compensation they were deducted, and no amendment to this Charter or repeal thereof shall prevent the payment to the member or his beneficiary, of such contributions made prior to the effective date of such amendment, with interest, upon separation, by other than retirement, from service of the city as provided in this Section, or the application of such contributions, with interest, toward providing the member's retirement or death allowance, as the case may be.

(g) Every retirement and death allowance payable for time commencing on said effective date, to or on account of a person who died as a member or retired on or after July 1, 1935, and prior to the effective date of this section, is hereby increased to the amount it would be if the provisions of Section 1509 as they exist on said effective date, had been in effect on the date of the actual death or retirement of such person. This subsection does not authorize any decrease in any such allowance, nor does it give any person whatever, any claim against the Retirement System for any increase in any allowance paid or payable for time prior to its effective date. Calculation of allowances under this section shall be made on the basis of current interest rate and mortality tables.

(This amendment shall become effective and operative on the first day of July, 1960.)

Section 1510. Military Leave of Absence. Contributions and Credits. The time during which a member is or has been on military leave of absence from duty shall be considered service for the city. Any member on or who has been on military leave of absence from duty may make payments to the Retirement Fund of all or any part of the normal and dependent contributions which would have been deducted from his compensation had he been on duty. The legislative body by ordinance shall determine how and when such pay-

ments shall be made. All such payments shall be matched by contributions of the city to the Retirement Fund and such member shall receive credit for such payments and matching contributions of the city.

Section 1511. Election to Join State Employees' Retirement System. The legislative body of the City shall have the power to authorize any member of the Retirement System to join the State Employees' Retirement System, provided the membership of the Retirement System has first complied with any election requirements or other conditions prescribed by the State Employees' Retirement System Act, as now enacted or hereafter amended."

Proposition "J"

That Sections 1202 and 1204 of Article XII of the Charter be amended to read:

"Section 1202. District Primary Elections. On the sixth Thursday preceding the general municipal election, a primary nominating election shall be held in those districts of the City wherein the terms of office of Board members expire in that year for the purpose of nominating candidates to be voted on at the general municipal election, and for such other purposes as the Board may prescribe.

Section 1204. Candidates. The two persons receiving the highest number of votes at the primary election for the candidates for office of Board member from that district shall be the candidates for that district, and only their names shall be printed upon the ballots to be used at the general municipal election. Any person who, at the District Primary Election, shall receive 60 percent of the total vote cast in his district shall be the only candidate whose name shall appear on the ballot to be used at the general municipal election for that office."

That we have compared the foregoing amendment with the original proposals proposed by Ordinance No. 4861 to be submitted to the electors of said city, and find that the foregoing is a full, true, correct and exact copy thereof.

That as to said amendments this certificate shall be taken as a full and complete certification as to the regularity of all proceedings had and done in connection therewith.

In witness whereof, we have hereunto set our hands and caused the seal of the said City of Pasadena to be affixed hereto this 26th day of June, 1968.

Said department shall include all works owned, controlled or operated by the city for supplying the city and its inhabitants with water and electric energy.

Section 1302. Same-Powers and duties

The board of public utilities shall have the power and duty to:

(a) Consider the annual budget for the department of public utilities during the process of its preparation and make recommendations with respect thereto to the city council and the city manager.

(b) Within the limits of the budget of the department of public utilities, authorize any purchase of equipment, materials or supplies exceeding the sum of Two Thousand Dollars, and authorize the acquisition, construction, improvement, extension, enlargement, diminution, or curtailment of all or any part of any public utility system. No such purchase, acquisition, construction, improvement, extension, enlargement, diminution or curtailment shall be made without such authorization.

(c) Within the limits of the budget of the department of public utilities, make appropriations from the contingency reserve fund for capital expenditures directly related to the appropriate utility function.

(d) Require of the city manager monthly reports of receipts and expenditures of the department of public utilities, segregated as to each separate utility, and monthly statements of the general condition of the department and its facilities.

(e) Establish rates for water and electrical revenue producing utilities owned, controlled or operated by the city, but subject to the approval of the city council.

(f) Approve or disapprove the appointment of the director of public utilities, who shall be the department head.

(h) Make such reports and recommendations to the city council regarding the department of public utilities as it shall deem advisable.

(i) Exercise such other powers and perform such other duties as may be prescribed by ordinance not inconsistent with any of the provisions of this Charter.

Section 1304. Use of revenue.

The revenue of each public utility for each fiscal year shall be kept separate and apart from all other moneys of the city by deposit in the appropriate revenue fund and shall be used for the purposes and in the order as follows:

(a) For the payment of the operating and maintenance expenses of such utility, including any necessary contribution to retirement of its employees.

(b) For the payment of interest on the revenue bonded debt of such utility. As used in this section 'revenue bonded debt of such utility' means the debt evidenced by revenue bonds, revenue notes or other evidences of indebtedness payable only out of the revenues pertaining to the utility involved, whether the same are issued under the provisions of this Charter or under the provisions of any general law of the State of California.

(c) For the payment, or provision for the payment of the principal of said debt as it may become due, and of premiums, if any, due upon the redemption of any thereof prior to maturity.

(d) For the establishment and maintenance of any reserves for (b) and (c) above.

(e) For capital expenditures of such utility.

(f) For the annual payment by each utility into the general fund in twelve (12) equal monthly installments during each fiscal year, an amount equal to 11.5% of the gross operating revenues, exclusive of surcharges, of each specific utility for the last fiscal year ended and reported upon by independent public auditors.

Section 1306. Creation and refunding of bonded indebtedness of the city pertaining to public utilities owned and operated by the city.

(a) From and after the effective date of this section 1306 no general obligation bonds of the city for which the city is obligated to levy ad valorem taxes upon all taxable property within the city subject to taxation, nor any bonds of the city other than bonds issued under this section 1306, shall be issued or sold for the purposes of the utilities of the city under the management and control of the department of public utilities. Bonds issued by the city under the provisions of this section 1306 shall not constitute or evidence indebtedness of the city but shall constitute and evidence only indebtedness of the utility payable in the manner provided in this section 1306, but not otherwise.

(b) The city shall have the power to borrow money from time to time for the purpose of acquiring, constructing, reconstructing, replacing, extending or improving works for supplying the city and its inhabitants with utility services, and to issue and to sell revenue bonds to evidence the indebtedness created by such borrowing. The city shall also have the power to refund from time to time, whether at or prior to maturity, any outstanding indebtedness evidenced by such revenue bonds and to issue, and to sell or exchange bonds to refund such indebtedness. Refunding bonds which are to be sold may be issued and sold at such time in advance of the time at which the bonds to be redeemed or paid out of the proceeds of such

refunding bonds which are to be so redeemed or paid as the city may determine.

(c) All bonds issued by the city pursuant to this section 1306 shall be, and shall recite upon their face that they are, payable both as to principal and interest and as to any premiums upon the redemption of any thereof prior to maturity out of the revenue fund pertaining to the municipal utility on account of which the indebtedness evidenced by such bonds was created, and not out of any other fund or moneys of the city. This shall not, however, preclude payment of principal, interest or premiums through appropriate reserve funds or special trust accounts, or out of sums received as premiums or accrued interest on the sale, or the payment of principal or premiums out of the proceeds of the sale of refunding bonds issued for that purpose, or the payment out of the proceeds of any bonds of the whole or a part of the interest accruing on said bonds during the period of the performance of work to be paid for out of the proceeds, and for the first six months thereafter, or the payment by the purchasers of any such bonds, or by an entity, public or private, other than the city, in any case where any such purchaser or entity may be guaranteed such payment.

(d) Whenever the board shall propose that the city exercise its power to borrow money or refund indebtedness, pursuant to this section 1306, it shall recommend to the council the authorization of the issuance of bonds for such purpose, which recommendation shall specify:

(1) The purpose for which the proposed bonds are to be issued;

(2) The maximum principal amount of the bonds to be issued;

(3) The maximum term, not to exceed forty (40) years, for which any of said bonds are to run;

(4) The maximum interest rate on such bonds;

(5) The maximum premium, if any, to be payable on the redemption of any such bonds prior to maturity;

(6) The limits within which, in connection with the issuance of such bonds, restrictions may be imposed upon the incurring of additional indebtedness payable out of the revenue fund from which such bonds are to be payable.

Certified copies of such recommendation shall be transmitted to the offices of the mayor, of the city manager, and of the city clerk, and the city clerk shall forthwith present the said recommendation to the council. At any time within such period as may be specified in such recommendation, which shall be not less than thirty (30) days from and after the receipt of such certified copies at such offices, respectively, the council, by majority vote, shall approve or disapprove such recommendation. Concurrent with the approval of such recommendation, the council shall adopt a resolution authorizing the issuance of revenue bonds in accordance with the recommendations of the Board of Public Utilities. Anything in this sub-section of sec-

tion 1306 notwithstanding, in the cases of refunding bonds, the resolution of the council pursuant to this sub-section shall take effect upon its adoption by the council, subject only to the right of referendum herein provided.

Upon any such resolution taking effect subject to the right of referendum, the city clerk shall cause the same to be published by at least one insertion in some daily newspaper published and of general circulation in the City of Riverside. At any time within thirty (30) days of such application, a referendary petition, demanding the submission of such resolution to a vote of the qualified electors of the city for their assent to the issuance of the proposed bonds, may be filed with the city clerk. Except as in this section 1306 otherwise expressly provided, all of the provisions of this Charter related to referendum with respect to ordinances shall apply to any referendum under the provisions of this sub-section. If no such referendary petition is presented within the aforesaid period of thirty (30) days, then upon the expiration of said period, or if the proposition of issuing the bonds specified in the resolution shall be assented to by the voters, the said resolution shall take full and final effect, and the city may proceed in accordance with the provisions of this section 1306 and issue bonds within the terms of said resolution.

(e) Whenever the city shall exercise the power to borrow money, or to refund indebtedness, the board shall determine the amount or amounts required for the purposes for which the money is to be borrowed or required for such refunding. The city council, upon recommendation of the board, may authorize the issuance of bonds in the amount determined provided that no bonds so authorized shall be issued unless the amount of the equity (including surplus arising from contributions in aid of construction) of the utility for the purpose of which such bonds are to be issued, as of the end of the last fiscal year, which ended not less than four months prior to the authorization of the issuance of such bonds derived from the operation of the appropriate utility to which pertains the revenue fund out of which the bonds are to be payable, equals at least 66⅔% of the aggregate of the amount of bonds to be so issued and the amount of revenue bonds outstanding.

The limitation described above shall not be applicable to the issuance of any refunding bonds and the amount of any issue of such refunding bonds may equal, but shall not exceed, the amount required for the payment for redemption of the bonds to be refunded thereby, including the premiums, if any, due upon such redemption, but excluding any interest due upon such redemption.

Any bond for the payment and discharge of which, upon maturity or upon redemption prior to maturity, provision has been made through the setting apart in a reserve fund or special trust account to insure the payment thereof of moneys sufficient for that purpose, or through the irrevocable segregation for the purpose, in some sinking fund or other fund or

trust account of moneys sufficient therefor, shall be deemed to be no longer outstanding within the meaning of any provision of this section 1306.

(f) Each issue of bonds issued pursuant to this section 1306 other than refunding bonds, shall conform to the following requirements:

(1) Such bonds shall be serial bonds or sinking fund bonds, or a combination of serial and sinking fund bonds;

(2) Provision shall be made for the retirement of such bonds through annual payments on principal, and such payments shall begin not more than five (5) years, and end not more than forty (40) years after the date of such bonds;

(3) The amounts of such annual payments of principal shall be such that no such annual payment which shall become due five (5) years or more, after the date of such bonds, shall be less than 50% of any subsequent such annual payment;

(4) All bonds maturing after ten (10) years from their date shall be subject to redemption prior to maturity;

(5) Said bonds shall be sold only by competitive bidding at public sale following such notice as the council by resolution or order may prescribe; provided, however, that if no bid or no satisfactory bid is received pursuant to such notice, the council may reject all bids received, if any, and may, within sixty days thereafter, sell such bonds at public or private sale; provided, further, that the provisions of this sub-section shall not apply to the exchange of any refunding bonds for outstanding bonds. Any such revenue bonds may be sold at a fixed rate of interest or the bidders may be invited to state the rate or rates of interest at which they will purchase said bonds, but no rate of interest on any of the bonds shall exceed the maximum rate stated in the recommendation of the board. If the bidders are invited to state the interest rate or rates, then upon the acceptance of a bid the council shall by resolution or order, which shall not be subject to referendum, fix such interest rate or rates as have been bid by the successful bidder as the rate or rates of interest on the bonds sold.

(6) Said bonds shall be sold for not less than par and accrued interest to date of delivery. The proceeds from the sale (except premium and accrued interest which shall be paid into the bond service or other fund designated or established for the payment of principal and interest of the bonds) shall be paid into the construction fund designated by the resolution providing for issuance of such bonds and shall be applied exclusively to the objects and purposes set forth in such resolution; provided, however,

(a) that the revenue fund of the utility involved from which the bonds are payable may be reimbursed from such proceeds for expenditures for purposes for which the bonds were issued made from such fund after the issuance of the bonds had been recommended by the board;

(b) that said proceeds may be used for the payment of interest on said bonds during the period of acquisition and construction and for the first six months thereafter; and

(c) that when the objects and purposes for which the bonds are issued have been accomplished any remaining unexpended funds derived from the sale of said bonds shall be used for the payment of principal and interest of said revenue bonds or for the redemption of any callable bonds thereof.

(g) The city shall have the power, limited by the express provisions of this section 1306, in its discretion, to provide, in connection with any issue of such bonds:

(1) The denomination or denominations of the bonds, the medium of payment thereof, the place or places of payment thereof, which may be within or without the State of California, the form of said bonds (including recitals of regularity) and of interest coupons pertaining thereto, the form, denomination and conditions of any temporary bonds or interim certificates, and the manual (one signature must be manual) and fascimile signatures to be affixed to said bonds (definitive or temporary) or interim certificates, and the facsimile signature to be affixed to interest coupons.

The recitals of regularity of proceedings in any revenue bond issued and sold under this section shall be conclusive evidence of compliance with the provisions of this section and of the validity of such bonds, and no bona fide purchaser of any such bond containing the recital permitted by this section shall be required to see to the existence of any fact or to the performance of any condition or to the taking of any proceeding required.

(2) Being negotiable or non-negotiable

(3) Being payable to bearer or only to the registered holder, either as to principal alone, or as to both principal and interest, or being fully registered non-coupon bonds;

Any lands owned by any county, city and county, or municipal corporation subject to taxation pursuant to Section 1 of this article shall be taxed in proportion to the value thereof to be ascertained as provided in said section; provided, however, that for any year subsequent to 1968 such value, with respect to any of said lands located in any county in which the aggregate assessed value of all property owned by any county, city and county, or municipal corporation was over 30% of the total assessed value of all property taxed in said county in 1967, shall be, and with respect to all other said lands, shall not be more than, an amount determined as follows:

(a) Any said lands subject to taxation on the lien date in 1967, whether or not so owned on said date, at the value

assessed on said date, adjusted by a factor which shall be the ratio of (1) the total statewide assessed valuation of lands on the latest date prior to the date of assessment divided by the estimated civilian population of the state on the latest date prior to the date of assessment, to (2) the total statewide assessed valuation of lands on the lien date in 1967, divided by the estimated civilian population of the state on that date, which for the purpose of this section is deemed to be eight hundred fifty-six dollars ($856).

(b) Any said lands acquired subsequent to the lien date in 1967 which were assessed on said date as part of a larger tax parcel, shall be assessed as hereinabove provided, by fixing the assessed value therefor on the lien date in 1967 as the proportion of the assessment of said parcel on said date determined by the ratio of the area of any said lands to the area of the tax parcel of which they were a part on said date.

(c) The total statewide assessed valuation of lands shall be the amount and the estimate of civilian population shall be the number for the latest dates prior to the date of assessment as determined and published by those state agencies responsible therefor. The assessment of all lands owned by any county, city and county, or municipal corporation on the lien date in 1967 shall further be conclusively presumed to have included all of

the interest in said lands so owned by said county, city and county, or municipal corporation, and no other or additional interest in said lands shall thereafter be assessed to any county, city and county or municipal corporation. Any such lands not assessed on the lien date in 1967 shall not thereafter be subject to taxation while so owned. RESOLUTION CHAPTER 187

Senate Concurrent Resolution No. 66—Relating to the establishment of a school of veterinary medicine in southern California.

[Filed with Secretary of State July 18, 1968.]

WHEREAS, The 1965 Legislature adopted Assembly Concurrent Resolution No. 85 (Stats. 1965, Res. Ch. 151), calling upon the Board of Regents of the University of California to conduct an in-depth study of the feasibility and advisability of establishing a second school of veterinary medicine to be located in southern California in the near future; and

WHEREAS, The regents thereafter instructed its staff to conduct such a study, and a report was rendered by a special

academic committee appointed by the president of the university in May of 1966, but has not yet been made public; and

WHEREAS, That report asserted that the establishment of such a school in the southern part of the state was feasible and would fulfill the pressing need for training an increased number of doctors of veterinary medicine in southern California; and

WHEREAS, This report has been held in confidence by university officials because of their concerns that initiation of a school of veterinary medicine in southern California at this time would interfere with the orderly development of other university medical schools, but there is no evidence to support this fear nor is there any justifiable connection or overlap between the two types of institutions; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Board of Regents of the University of California is urged to make public the special report prepared in response to ACR 85 of the 1965 Regular Session of the Legislature; and be it further

Resolved, That the Legislature strongly urges the board of regents to accelerate planning and budgeting for a southern California school of veterinary medicine, and to include initial funds therefor in its 1969–70 budget proposals which will be submitted to the Governor late this year; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to each member of the Board of Regents of the University of California

We, the undersigned, Frank Curran, Mayor of The City of San Diego, and John Lockwood, City Clerk of The City of San Diego, do hereby certify and declare as follows:

The City of San Diego, a municipal corporation, is now and has been since the year 1931 organized and existing pursuant to the provisions of a freeholders' charter adopted in accordance with the provisions of Section 8, Article XI of the Constitution of the State of California.

Pursuant to Section 8, Article XI of the Constitution of the State of California, the City Council of The City of San Diego, being the legislative body, proposed on its own motion to the qualified electors of The City of San Diego certain amendments to the Charter of the City, which amendments were designated as Proposition A, and submitted this proposition to the qualified electors of the City at the Special Municipal Election held on June 4, 1968, which election was duly consolidated with the Statewide Primary Election held on the same date.

The proposed Charter amendments were published and advertised in the San Diego Union, a daily newspaper of general circulation and published in the City and designated as the official newspaper by the City and in each edition of the Union during the day of publication which was April 11, 1968.

Copies of the proposed Charter amendments were printed in convenient pamphlet form in type of not less than ten point, and were mailed to each of the qualified electors of the City. Until the date fixed for the election a notice was published in the San Diego Union that copies of the proposed Charter amendments were available at the office of the City Clerk, and that the pamphlet would be available until the date fixed for the election.

The proposed amendments were submitted to the qualified electors of the City at the Special Municipal Election held in the City.

At the election a majority of the qualified voters of the City voting on the proposed amendments voted in favor of Proposition A and the proposed amendments were therefore ratified by a majority of the qualified electors of the City voting on them.

All the proceedings were duly and regularly conducted pursuant to Section 8 of Article XI of the Constitution of the State of California, the Charter of The City of San Diego and the laws of the State of California.

As to the amendments to the Charter of The City of San Diego set forth below, this certificate shall constitute full and complete certification of the regularity of all proceedings.

The proposed amendments to the Charter of The City of San Diego which were ratified are as follows:

Section 80. Money Required To Be In Treasury.

The certificate of the Auditor and Comptroller shall be filed and made a matter of record in his office and the sum so certified as being in the treasury shall not thereafter be considered unencumbered until the City is discharged from the contract, agreement or obligation. All unencumbered moneys actually in the treasury to the credit of the appropriation from which a contract, agreement or obligation is to be paid and all moneys applicable to its payment which before the maturity thereof are anticipated to come into the treasury to the credit of such appropriation shall, for the purpose of such certificate, be deemed in the treasury to the credit of the appropriation from which the contract, agreement or obligation is to be paid.

Section 99. Continuing Contracts.

The City shall not incur any indebtedness or liability in any manner or for any purpose exceeding in any year the income and revenue provided for such year unless the qualified electors of the City, voting at an election to be held for that purpose, have indicated their assent as then required by the Constitution of the State of California, nor unless before or at the time of incurring such indebtedness provision shall be made for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also provision to constitute a sinking fund for the payment of the principal thereof, on or before maturity, which shall not exceed forty years from the time of contracting the same; provided, however, anything to

the contrary herein notwithstanding, when two or more propositions for incurring any indebtedness or liability are submitted at the same election, the votes cast for and against each proposition shall be counted separately, and when the qualified electors of the City, voting at an election for that purpose have indicated their assent as then required by the Constitution of the State of California, such proposition shall be deemed adopted. No contract, agreement or obligation extending for a period of more than five years may be authorized except by ordinance adopted by a two-thirds' majority vote of the members elected to the Council after holding a public hearing which has been duly noticed in the official City newspaper at least ten days in advance.

We further certify that we have compared the amendments to the Charter of The City of San Diego set forth above with the original proposal submitting these amendments to the electors of the City and find that the language set forth above is a full, true and exact copy of the original proposal.

Senate Concurrent Resolution No. 61—Relative to workshop programs.

[Filed with Secretary of State July 26, 1968.]

WHEREAS, There are many recipients of aid to the disabled who will unlikely be able to find jobs in the competitive labor market who could benefit from paid employment in workshops; and

WHEREAS, The present program has demonstrated significant benefits for a restricted number of mentally retarded recipients of aid to the disabled; and

WHEREAS, It is apparent that the present maximum of 200 recipients served does not begin to meet the need; and

WHEREAS, There are 3,000 mentally retarded in workshops and 4,000 severely handicapped who can likewise benefit from paid employment in workshops; and

WHEREAS, Workshops receive many requests from social agencies, local community citizens, including recipients to ex-

pand services to include other categories of disabilities, which under the present program, would not be fundable; and

WHEREAS, This program, if extended, will provide productive activities to these Aid to Totally Disabled recipients, thus preventing tax consuming hospitalization, institutionalization and delinquency within California; and

WHEREAS, Some of these Aid to Totally Disabled recipients through opportunity and exposure to a sheltered work activity may generate sufficient skill for transfer to a more sophisticated work evaluation/adjustment workshop program and eventual competitive employment; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Rehabilitation is requested to develop a plan to broaden the present Mentally Retarded-Aid to the Totally Disabled or Work Training Center programs to include all disabled persons on Aid to Totally Disabled rolls; and be it further

RESOLUTION CHAPTER 206

Senate Concurrent Resolution No. 78—Relative to preregistration of blind and other severely visually impaired students attending California State Colleges and the University of California.

[Filed with Secretary of State July 26, 1968.]

WHEREAS, There are an appreciable number of blind and other severely visually impaired students in attendance at the California State Colleges and at the University of California; and

WHEREAS, These blind and other severely visually impaired students must have their study materials tape recorded or transcribed into Braille, a process which requires many weeks to accomplish; and

WHEREAS, Preregistration of these students would enable them to receive study materials required in their planned courses of study well in advance and would thus facilitate their making timely arrangements for having such material tape recorded or transcribed into Braille; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request that the Trustees of the California State Colleges and the Regents of the University of California provide, if possible, for the preregistration of blind and other severely visually impaired students during the quarter or semester preceding the registration quarter or semester for the purpose of making available to such students in advance lists of textbooks and other auxiliary reading materials in order that these students may have ample time to arrange for such materials to be tape recorded or transcribed into Braille, and to file a report of action taken thereon with the Legislature by the fifth legislative day of the 1969 Regular Session; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Trustees of the California State Colleges and to the Regents of the University of California.

RESOLUTION CHAPTER 207

Senate Concurrent Resolution No. 88—Relative to the pending decertification of nursing homes from participation in the Medi-Cal program.

[Filed with Secretary of State July 26, 1968.]

WHEREAS, Over one hundred licensed nursing and convalescent homes in California were advised by the Office of Health Care Services on March 18, 1968 that they would be decertified as of April 1, 1968, and thereby no longer eligible to receive and care for Medi-Cal patients; and

WHEREAS, The stated justification for this action was that these homes had not demonstrated reasonable expectation of meeting the revised federal definition of a skilled nursing home under Title XIX of the Social Security Act by January 1, 1969; and

WHEREAS, The basis for such judgment was a projection of the estimated income of these facilities as against increased costs of operation to comply with the higher federal standards of care beginning in 1969; and

WHEREAS, These homes were required to submit projections assuming 100 percent total occupancy by Medi-Cal patients, ignoring additional and substantial income from private patients typically occupying a portion of nursing home beds, and thereby presenting a less favorable expectation of compliance; and

WHEREAS, In response to protests of precipitate action, the Office of Health Care Services on March 22, 1968 extended decertification until June 30, 1968, the previously established federal deadline for such action by the states; and

WHEREAS, Despite this extension, the Office of Health Care Services advised the affected facilities they could not receive

new Medi-Cal patients, and could retain their present caseloads only at the option of the various county welfare departments, thus fragmenting control of the program and aggravating the uncertainties for these homes during the same interim period in which they were permitted to request reconsideration; and

WHEREAS, No action has been taken by the state to plan implementation of the Intermediate Care Program created by the 1967 amendments to the Social Security Act, offering federal matching funds on the same basis as Medi-Cal for more appropriate and less costly care of many Title XIX patients in facilities of less than the higher skilled nursing home standards, such as the homes facing decertification; and

WHEREAS, Over three hundred additional nursing and convalescent homes in California classified as showing reasonable expectation of meeting 1969 standards are nevertheless only provisionally certified until October 31, 1968, and under notice their eligibility may be withdrawn on 30 days notice; and

WHEREAS, The unsettling and unprecedented effects of this decertification procedure appear inimical to the public interest in requiring a disruption in the lives of many thousands of infirm, chronically ill and aged patients, as well as threatening to force out of service a substantial number of facilities with corresponding shortages in long-term care beds resulting in greater patient costs to the state; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Health and Welfare Agency direct the Office of Health Care Services to take all possible emergency action immediately to delay imposition of decertification as of July 1, 1968; and be it further

Resolved, That the Health and Welfare Agency or other appropriate representatives of the state petition the federal Department of Health, Education and Welfare to postpone its present decertification requirements and regulations without loss of Title XIX matching program funds to California and the other states, until the entire matter may be reviewed and resolved with more appropriate consideration of the vital national resource of long-term care health facilities.

WHEREAS, The State Personnel Board reported to the Legislature in its Annual Report on State Salaries and Personnel Management, dated December 1, 1967, that the current compensation for state executives is substantially below that of executives with similar responsibilities in local government in California and in other state governments; and

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature requests the Commission on California State Government Organization and Economy to review and evaluate the executive compensation system in state government and report its findings and recommendations to the Legislature within 30 days of the commencement of the 1969 Regular Session, and be it further

The Joint Legislative Committee on Economic Conversion is hereby created, authorized and directed to ascertain, study and analyze all facts relating to ways in which this state's economy can adjust to the changing security needs of the country and prepare for a transition to a civilian economy when necessary. This is necessitated by the fact that for many years important segments of this state's economy have been dependent upon the military needs of the United States and that recently those needs have changed and as a consequence some areas in our state which have been dependent upon a particular military installation that has closed or upon certain government contracts that have not been renewed have suffered from unemployment and general business dislocation. In order to minimize the problems which result to local communities and to the state as a whole when converting from a military to a civilian economy it is necessary to prepare in advance. The committee shall prepare schedules of possible private and public investment patterns and the employment and income effects to be expected therefrom; convene conferences on economic conversion and growth; focus statewide attention on the problems of conversion and economic growth; and study all parts of the state's economy, including, but not limited to, the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Legislature, including in the report its recommendations for appropriate legislation.

2. The committee shall consist of four Members of the Senate, appointed by the Committee on Rules thereof, and four Members of the Assembly, appointed by the Speaker thereof. Vacancies occurring in the membership of the committee shall be filled by the appointing power.

5. The committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time at this session, which provisions are incorporated herein and made applicable to this committee and its members.

6. The committee has the following additional powers and duties:

(a) To contract with such other agencies, public or private, as it deems necessary for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created.

(b) To cooperate with and secure the cooperation of county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of this resolution and to direct the sheriff of any county to serve subpoenas, orders and other process issued by the committee.

(c) To appoint advisory committees to assist the committee.

(d) To report its findings and recommendations to the Legislature and to the people from time to time and at any time, not later than herein provided.

(e) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and accomplish the objects and purposes of this resolution.

7. The existence of the committee shall terminate 60 days after the termination of the 1970 Regular Session of the Legislature and the committee shall make full report of its findings and recommendations to the Legislature prior to that date.

8. The sum of forty thousand dollars ($40,000) or so much thereof as may be necessary is hereby made available from the Contingent Funds of the Assembly and Senate for the expenses of the committee and its members, including any advisory committees and their members, and for any charges, expenses or claims it may incur under this resolution, to be paid from the said fund and disbursed, after certification by the chairman of the committee, upon warrants drawn by the State Controller upon the State Treasury.

[Filed with Secretary of State August 7, 1968.]

WHEREAS, The ad valorem property tax is now, and will remain, the fiscal base of local government in California, so that the proper functioning of all units of local government depends upon the sound and equitable functioning of the ad valorem property tax; and

WHEREAS, Equity in property taxation requires that all taxable property be subject to assessment at the same percentage of market value; and

WHEREAS, The proper distribution of state funds to school districts and to other recipients of state aid depends upon an equalization of assessments made for purposes of taxation; and

WHEREAS, Section 14 of Article XIII of the California Constitution requires that all property assessed by the State Board of Equalization "shall be subject to taxation to the same extent and in the same manner as other property"; and

WHEREAS, A question has arisen as to whether state-assessed property is now assessed by the State Board of Equalization to the same extent and in the same manner as locally assessed

property is being assessed by county assessors, and whether the equity requirements of the California property tax structure are now being fulfilled; and

WHEREAS, Questions have arisen as to whether state-assessed property is, by nature, economically different from some locally assessed property, and as to whether some types of locally assessed properties, such as large industries and commercial establishments, are, by nature, economically different from some other types of locally assessed properties, such as farm properties, in such a way as to make it impossible to determine the market value of the several classes of property on the same basis; and

WHEREAS, It is of vital importance to all units of government and all taxpayers in California that these questions be resolved at the earliest possible date; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, As follows:

1. The Joint Interim Committee on Assessment Practices is hereby created and authorized and directed to ascertain, study and analyze all facts relating to or in any way bearing upon the assessment practices of local assessors and the State Board of Equalization and the appraisal practices of the State Board of Equalization with respect to locally assessed property which are designed to facilitate those equalization functions of the board which it is constitutionally required to perform; including but not limited to the following matters: whether state-assessed property is being assessed by the State Board of Equalization to the same extent and in the same manner as locally assessed property is being assessed by county assessors, whether the equity requirements of the California property tax structure are now being fulfilled; whether state-assessed property is, by nature, economically different from some locally assessed property, and whether some types of locally assessed properties are, by nature, economically different from some other types of locally assessed properties, so as to make it impossible to determine the market value of the several classes of property on the same basis; and including but not limited to the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to the subject of this resolution, and to report thereon to the Legislature, including in the reports its recommendations for appropriate legislation.

2. The committee shall consist of five Members of the Senate, appointed by the Committee on Rules thereof, and five Members of the Assembly, appointed by the Speaker thereof from the membership of the Assembly Committee on Revenue and Taxation. Vacancies occurring in the membership of the committee shall be filled by the appointing power.

3. The committee is authorized to act during this session of the Legislature, including any recess, and after final adjournment until the commencement of the 1970 Regular Session,

with authority to file its final report not later than the 10th legislative day of that session.

4. The committee and each subcommittee thereof is authorized to leave the State of California in the performance of its duties.

5. The committee and its members shall have and exercise all of the rights, duties and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Senate and Assembly as they are adopted and amended from time to time at this session, which provisions are incorporated herein and made applicable to this committee and its members.

6. The committee has the following additional powers and duties:

(a) To select a chairman and a vice chairman from its membership.

(b) To contract with nongovernmental agencies or with individuals not employed by a governmental agency for the rendition and affording of such services, facilities, studies and reports to the committee as will best assist it to carry out the purposes for which it is created. "Governmental agency" does not include any department, school, institute, bureau, or any other agency of any university or other institution of higher education.

(c) To cooperate with and secure the cooperation of county, city and county; and other local law enforcement agencies, and civic and private organizations, in investigating any matter within the scope of this resolution, and to direct the sheriff of any county to serve subpoenas, orders and other process issued by the committee.

(d) To report its findings and recommendations to the Legislature and to the people from time to time and at any time, not later than the 10th legislative day of the 1970 Regular Session.

(e) To do any and all other things necessary or convenient to enable it fully and adequately to exercise its powers, perform its duties, and to accomplish the objects and purposes of this resolution.

RESOLUTION CHAPTER 252

Senate Concurrent Resolution No. 84—Relative to special education programs for physically handicapped and mentally retarded minors.

[Filed with Secretary of State August 7, 1968.]

WHEREAS, It is the intent of the Legislature that special education programs shall be provided for the education of physically handicapped and mentally retarded minors; and

WHEREAS, The Legislature has specified the conditions under which it shall be the responsibility of a school district and a county superintendent of schools to provide special education programs for such minors; and

WHEREAS, The Legislature has authorized special apportionments from the State School Fund to aid school districts and county superintendents of schools to meet the additional costs entailed in providing such special education programs; and

WHEREAS, The Legislature has extended school housing aid for exceptional children to qualified school districts and county superintendents of schools to assist them in providing classrooms needed in establishing and maintaining such special education programs; and

WHEREAS, The Legislature, recognizing the need for teachers and others to have specialized preparation essential to serving in such special education programs, has encouraged California colleges and universities in establishing programs offering professional preparation in such fields of special education and approved budget provisions in support thereof; and

WHEREAS, The Legislature, recognizing the need to assist persons with the costs of securing specialized preparation to complete their training to teach in such special education programs, has provided specialized summer training grants for teachers wanting to teach in the fields of the physically handicapped and the mentally retarded; and

WHEREAS, The Legislature is increasingly being made aware of the fact that many physically handicapped and mentally retarded minors in California are still without the benefits of special education program provisions in spite of the foregoing efforts of the Legislature to assure them of such opportunity; and

WHEREAS, The Legislature is currently being urged to enact legislation, involving a concept in which the Superintendent of Public Instruction would be required to withhold a specified amount from the apportionment to a school district or county superintendent of schools not providing special education programs for all physically handicapped and mentally retarded minors as needed, that would effectively induce school

districts and county superintendents to so provide such special education programs as now required by law; and

WHEREAS, The Legislature, in considering possible legislation designed to assure special education programs for all physically handicapped and mentally retarded minors in need of them, desires to have the recommendations of the Department of Education, after consultation and study involving individuals and officials concerned with the education of exceptional children in California, as to how such schooling can be effectively assured such minors with the least disruption to the total education program of a school district or county superintendent of schools; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the State Department of Education is hereby directed to recommend legislation, after consultation and study involving representative individuals, organizations, and school officials concerned with the education of exceptional children in California, to the Legislature deemed necessary for assuring that a school district or county superintendent of schools, having responsibility under law to provide special education programs for physically handicapped and mentally retarded minors, provides such programs for all such minors living in the area for which under law it or he is responsible, and to transmit such recommendation to the Legislature during the 1969 Regular Session; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Department of Education and the State Board of Education.

(a) To select a chairman and a vice chairman from its membership.

(c) To cooperate with and secure the cooperation of county, city, city and county, and other local law enforcement agencies in investigating any matter within the scope of this resolution and to direct the sheriff of any county to serve subpoenas, orders and other process issued by the committee.

(d) To report its findings and recommendations to the Legislature, to the appropriate policy committees of the Legislature, and to the people from time to time and at any time.

WHEREAS, The United States-Mexico Commission for Border Development and Friendship is working to improve the quality of the environment for people living along both sides of the border; and

RESOLUTION CHAPTER 255

Senate Concurrent Resolution No. 108—Relative to a review of the operations of the Office of State Printing.

[Filed with Secretary of State August 7, 1968.]

WHEREAS, There is in the State of California an Office of State Printing responsible for all state government printing; and

WHEREAS, The Legislature of the State of California is called upon annually to appropriate funds for the operation of the Office of State Printing including requests for additional equipment to expand capacity and to maintain an efficient and economical operation; and

WHEREAS, Operating problems continuously arise, such as those relating to the production and delivery of textbooks which

resulted in the failure to deliver certain textbooks in time for the opening of the public schools in September 1967; and

WHEREAS, Legislative printing is also a major workload of the Office of State Printing, yet the expeditious handling of legislative business is frequently and unnecessarily impaired by delays in receipt of such printing; and

WHEREAS, The cost of printing textbooks through contracts with private industry has not been fully explored, and the orderly processes of government demand that the Legislature have available an effective legislative printing service; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Joint Legislative Budget Committee shall conduct an analysis of the operations of the Office of State Printing in cooperation with affected state agencies and including assistance from appropriate private sources able to supply technical or other information regarding the activities and operations of the Office of State Printing; and be it further

RESOLUTION CHAPTER 256

Senate Joint Resolution No. 17—Relative to Soldiers and Sailors Civil Relief Act of 1940.

[Filed with Secretary of State August 7, 1968.]

WHEREAS, A recent ruling by the United States Court of Appeals in New York held that nonresident military personnel in the State of Connecticut are not required to pay sales and use taxes under the provisions of the Soldiers and Sailors Civil Relief Act of 1940 as amended; and

WHEREAS, The ruling jeopardizes the important sales tax programs in 44 other states which have laws similar to that of Connecticut, and

WHEREAS, The sales and use tax represents almost a third of the total revenue of the State of California, and is an important source of income to 44 other states; and

WHEREAS, In California, as the retailers must pay the tax to the state based on a proportion of their gross sales, the elimination of individual sales to servicemen would entail very

difficult accounting and auditing procedures for the retailer and the state; and

WHEREAS, While last year 360,000 military personnel reported paying sales tax to the State of California on their federal returns, the amount paid covered only a small part of the cost of the services they received; and

WHEREAS, If it is felt that the serviceman cannot afford, under current salary schedules, to pay the sales tax to the state, the federal government could provide for a refund to each serviceman to be deducted from his federal tax liability; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to enact amendments to the Soldiers and Sailors Civil Relief Act of 1940 as amended, relieving the several states of the onerous burden of exempting military personnel from the sales and use tax; and be it further
