SEC. 19.1. The unencumbered balance of the Department of Employment Contingent Fund, which at any time during the 1969–70 fiscal year exceeds $1,000,000, is hereby appropriated for transfer to the General Fund; such transfer to be made from time to time by the State Controller.

SEC. 19.6. (a) Since the State Scholarship Commission must announce in the spring of 1970, those individuals to whom state scholarship awards and graduate fellowship awards will be granted for the following fall semester of 1970 and, since the Budget Act of 1970 may not be enacted in adequate time, the State Scholarship Commission is authorized to incur scholarship obligations and graduate fellowship obligations for the maximum number of awards authorized by Sections 31204 and 31240 of the Education Code in an amount not to exceed

$15,825,000 during the 1969–70 fiscal year for awards to be in effect during the 1970–71 fiscal year.

(b) Since the State Scholarship and Loan Commission must announce in the spring of 1970 those individuals to whom College Opportunity Grants will be awarded for the following fall semester of 1970, and since the Budget Act of 1970 may not be enacted in adequate time, the Scholarship and Loan Commission is authorized to incur College Opportunity Grant obligations for renewal of awards to those eligible and qualified individuals receiving an award in 1969–70, as authorized by Section 31263 of the Education Code, in an amount not to exceed one million dollars ($1,000,000) during the 1969–70 fiscal year for awards to be in effect during the 1970–71 fiscal year.

The intent of this authorization is to prevent the occurrence of there being insufficient funds available to support state scholarships and graduate fellowships, or College Opportunity Grants, the recipients of which have already been notified of their award. It is necessary that the State Scholarship Commission announce awards in the spring of each year, often prior to the time the Budget Bill containing the appropriation for this purpose is enacted, in order that students receiving the scholarship awards may have sufficient time to plan for entering or returning to school the following fall.

SEC. 20. No money appropriated by this act shall be used to pay the salary of any authorized state position, which position was vacant continuously during the period between October 1, 1968, and July 1, 1969. The State Controller, no later than August 1, 1969, shall notify in writing the Department of Finance of any authorized state position which was vacant continuously during such period. All such positions, except those specifically exempted in writing by the Department of Finance, are abolished effective September 1, 1969.

The State Controller, not later than 30 days prior to the convening of the 1970 Regular Session of the Legislature, shall furnish the Joint Legislative Budget Committee a report on all positions as of July 1, 1969, which were unfilled continuously during the period between October 1, 1968, and July 1, 1969, identifying therein all positions authorized for continuation by the Department of Finance.

SEC. 20.1. Notwithstanding any other provision of law, expenditures under Item 12 of this act, or any appropriation in any augmentation of such item, other than salaries and wages, shall be as submitted in the Governor's Budget or as otherwise authorized by the Joint Committee on Legislative Organization and shall be exempt from the provisions of Sections 13320 and 13325 of and Chapter 3 (commencing with Section 14250) of Part 5 of, and Chapter 6 (commencing with Section 14780) of Part 5.5 of, Division 3 of Title 2 of the Government Code and Sections 6, 8, and 25 of this act.

SEC. 21. Since it is imperative for the university and the state colleges to recruit adequate and competent faculty nec-

essary to maintain the current academic standards and to meet the immediately foreseeable needs occasioned by the rapid growth of enrollment during the years just ahead, and since, by the nature of their duties, faculty members must as a rule be employed on an academic year basis therefore, the University of California and the California State Colleges are authorized to incur salary obligations in an amount not to exceed $1,500,000 for the university and a total of $1,500,000 for the state colleges by appointment of academic staff members during the 1969–70 fiscal year for services beginning in the 1970–71 academic year.

The intent of this authorization is to assist California's institutions of higher education in their continuing effort to recruit the best qualified faculty members possible by authorizing them to make firm employment offers in advance of specific legislative position authorization.

SEC. 21.2. Since newly appointed faculty members of the California State Colleges who are recruited from other states ordinarily move to the state college to which they were appointed during the fiscal year following the acceptance of such appointment, the California State Colleges are authorized to incur obligations to pay the travel and moving expenses of such newly appointed faculty members in an aggregate amount not to exceed $100,000, by appointments and authorizations during the 1969–70 and 1970–71 fiscal years, to pay such travel and moving expenses during the 1970–71 fiscal year.

SEC. 21.3. Since it is imperative for the Department of the California Highway Patrol to purchase special service automobiles in order to adequately patrol the highways of this state and since such automobiles can be purchased more effectively and economically on an annual basis with relation to the model year, which so-called year bridges two fiscal years, the Department of the California Highway Patrol is authorized to incur automotive equipment purchase obligations in an amount not to exceed $1,500,000 during the 1969–70 fiscal year for delivery beginning in the 1970–71 fiscal year, and the sum of $1,500,000 is hereby appropriated from the Motor Vehicle Fund to the Department of the California Highway Patrol. This appropriation shall be available until July 1, 1970.

SEC. 22. No purchase order for acquisition or replacement of motor vehicles shall be issued against any appropriation made herein until the Department of Finance has investigated and established the necessity therefor.

All passenger-type motor vehicles purchased from any appropriation made by this act for the use of state employees and officers, except constitutional officers, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements, such as use by the California Highway Patrol, which would justify the need for an automobile of a heavier class.

SEC. 23. All passenger-type motor vehicles purchased either from any appropriation made by this act or from any other appropriation available therefor for the use of the Department of Public Works, except for use of officers excepted in Section 22 of this act, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements which would justify the need for an automobile of a heavier class.

SEC. 24. None of the moneys appropriated by this act or for an expenditure which is supplemented from money appropriated by this act shall be used to purchase furnishings for any house or apartment of three or more rooms other than a dormitory which is rented to a state employee except for a superintendent of an institution, warden of a prison, or physicians. This provision shall not apply to the purchase of refrigerators, heaters, air-conditioning equipment, stoves, linoleum, or equipment normally furnished in construction of the house as may be determined by the State Board of Control. Any such funds that are appropriated by this act for this purpose shall be held intact and be reverted to the fund from which they were appropriated. It is the intent of the Legislature that no money shall be appropriated henceforth for the purpose of house furnishings. Such furnishings are not to be provided by the state nor shall any money be paid from this appropriation for their replacement, repair or otherwise except in connection with the disposal of the same.

SEC. 25. No moneys appropriated by this act shall be used, either directly or by supplementing any other appropriation, to purchase rugs or carpets for any state office except for offices used by elective officers, the President of the University of California, a Chancellor of the University of California, the Chancellor of the California State Colleges or a President of a State College, and other department heads. The Director of Finance shall furnish a detailed report annually to the Joint Legislative Budget Committee of all rugs or carpets purchased for state offices under this section.

The Director of Finance may authorize the use of carpeting in other facilities or areas under the control of agencies financed by this act 30 days after notification in writing of the proposal with justification therefor to the Joint Legislative Budget Committee.

SEC. 26. Whenever herein an appropriation is made for support it shall include salaries and all other proper expenses, including repairs and equipment, incurred in connection with the institution, department, board, bureau, commission, officer, employee, or other agency, for which such appropriation is made.

Whenever herein an appropriation is made for capital outlay, it shall include acquisition of land or other real property, major construction, improvements, equipment, designs, working plans, specifications, repairs and equipment necessary in connection with a construction or improvement project.

Whenever herein any item of appropriation contains provision for acquisition of land or other real property, it shall include all necessary expenses in connection with the acquisition of such property.

Whenever herein an appropriation is made in accordance with a schedule set forth after such appropriation, the expenditures from such item for each category or project included in the schedule shall be limited to the amount specified for such category or project, except as otherwise provided in this act. Each such schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to such schedules "category" or "project" means a class of expenditures such as, but not limited to:

(a) "Personal services" which shall include all expenditures for payment of officers and employees of the state; including salaries and wages, workmen's compensation, insurance premiums for workmen's compensation coverage, the state's contributions to the Public Employees' Retirement Fund, the Teachers' Retirement Fund, the Old Age and Survivors' Insurance Revolving Fund, the State Employees' Contingency Reserve Fund, and the state's cost of a basic health benefits plan; but do not include compensation of independent contractors rendering personal services to the state under contract;

(b) "Operating expenses and equipment" which shall include all expenditures for purchase of materials, supplies, equipment, services (other than services of state officers and employees), and all other proper expenses;

(c) "Construct" or "construction" when used in connection with a capital outlay project shall include all such related things as fixtures, installed equipment, and auxiliary facilities;

(d) "Working drawings" are defined as a complete set of plans and specifications showing and describing all phases of a project, architectural, structural, mechanical, electrical, civil engineering, and landscaping systems to the degree necessary for the purposes of accurate bidding by contractors and for the use of artisans in constructing the project. All necessary professional fees and administrative service costs are included in the preparation of such drawings.

(e) "Minor projects" include construction, improvements, repairs and equipment projects not specifically set forth in the schedule.

For the purpose of further interpreting the meaning of the words, terms and phrases used in such schedules, reference is hereby made to those documents entitled, "State of California Program Support and Local Assistance Budget for the Fiscal Year July 1, 1969 to June 30, 1970, Traditional Detail for the Support and Local Assistance Budget for the Fiscal Year July 1, 1969 to June 30, 1970," and "State of California Capital

Outlay Budget for the Fiscal Year July 1, 1969, to June 30, 1970," submitted by the Governor to the Legislature at the 1969 Regular Session, the uniform accounting system prescribed by the Department of General Services under the provisions of Section 13290 of the Government Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every state agency to whom appropriations are made under this act.

SEC. 26.5. Whenever herein an appropriation is made for support or other expenses for an institution, department, board, bureau, commission, officer, employee, or other agency, there shall be charged to such appropriation from which salaries and wages are paid: workmen's compensation, the state's contribution to the Public Employees' Retirement Fund as provided by Sections 20751 and 20752 of the Government Code, the state's contribution to the Teachers' Permanent Fund and the Retirement Annuity Fund as provided by Sections 14209 and 14210 of the Education Code, the state's contribution to the Old Age and Survivors' Insurance Revolving Fund as provided by Sections 20782 and 20783 of the Government Code, the state's contribution to the State Employees' Contingency Reserve Fund and the state's contribution for the cost of a basic health benefits plan as provided by Sections 22828 and 22829 of the Government Code.

As of the effective date of this act, the state's contributions as provided by Sections 22828 and 22829 of the Government Code for any month shall be charged to the same appropriations used for payment of salaries and wages from which the employee premium contributions for such month are deducted.

The appropriations made by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, by Sections 14209 and 14210 of the Education Code, shall continue to be available for expenditure, and shall be charged for any expenditure which is not chargeable to an appropriation for support or other expenses as provided in this section.

The State Controller may transfer to the State Payroll Revolving Fund the contributions required by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, and upon certification by the Board of Administration of the Public Employees' Retirement System in accordance with Sections 20754 and 20784 of the Government Code, may transfer from the State Payroll Revolving Fund to the Public Employees' Retirement Fund and the Old Age and Survivors' Insurance Revolving Fund the amounts of contributions so certified.

SEC. 27. The Department of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for a category or project designated in

any schedule set forth for such appropriation by transfer from any of the other designated categories or projects within the same schedule. The Department of Finance shall furnish the Joint Legislative Budget Committee a report on all authorizations given pursuant to this section during the preceding quarter.

SEC. 28. The Director of Finance may authorize the augmentation of the amount available for expenditure for any category in the schedule set forth for any appropriation in this act or any additional category in the amount of any funds which he estimates will be received by an officer, department, division, bureau, or other agency during the 1969–70 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration, except that the director may authorize expenditures for a new program not identified in the budget as such or for purposes which in his judgment constitute an increase in the level of services above that authorized by the Budget Act or other existing law not sooner than 30 days after notification in writing of the necessity therefor to the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of said committee, or his designee, may in each instance determine.

The Director of Finance may also reduce any category whenever he determines that funds to be received will be less than the amount taken into consideration in the schedule.

SEC. 28.5. Approvals by the Department of Finance to the creation of deficiencies pursuant to Section 11006 of the Government Code and approvals to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall be made in writing and filed with the Joint Legislative Budget Committee within 10 days after approval stating the reasons for and amount of such authorization.

SEC. 29. Premiums for official bonds may be paid out of appropriations contained in this act, notwithstanding the period covered by such bonds.

SEC. 30. Whenever an expenditure is authorized from the Emergency Fund, from price increase funds, from the salary increase funds, or from a special fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures may, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

SEC. 31. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new positions shall be established unless authorized by the Department of Finance on the basis of work program and organization.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency and submitted to the Department of Finance the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any salary savings reserve may be expended to pay increases in salary ranges established after July 1, 1968, unless the Department of Finance certifies to the State Personnel Board, or other salary-fixing authority, prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom. Provided, that the provisions of this paragraph shall not apply to salaries fixed by the State Personnel Board based on prevailing rates pursuant to Government Code Section 18853.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that such expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 31.5. All appropriations under this act for the support of the state colleges and the Trustees of the California State Colleges shall be subject to the provisions of Section 13320 of the Government Code and Section 31 of this act, with the following exceptions:

(a) The Trustees of the California State Colleges may approve any transfer of funds within the major budgetary func-

tions of general administration, instruction, library, student services, plant operation, student pay—work-study, year-round operation, educational television, reimbursed activities, chancellor's office, international program and reimbursements, as provided in fiscal year budgets of the state colleges and the Trustees of the California State Colleges approved by the Department of Finance. The Trustees of the California State Colleges may approve any transfer of funds between the chancellor's office and any state college, or between any state college and any other state college. The Trustees of the California State Colleges may authorize the augmentation of the amount available for a category designated in any schedule set forth for such appropriation by transfer from any of the other designated categories within the same schedule within the major budgetary functions and shall furnish the Joint Legislative Budget Committee a report of such authorizations given during the preceding quarter;

(b) The trustees may approve the substitution of one item of equipment for another within such aforementioned budgetary functions and the use of savings in equipment allotments;

(c) The trustees may approve travel, both within and outside the state, and the payment of allowances and expenses related to travel, moving and the relocation of employees in accordance with the allowances established by the State Board of Control and within funds appropriated by this act for this purpose;

(d) The trustees may, within funds appropriated by this act, establish new positions both full-time and blanket on a provisional basis, make changes in grade or class of an existing position on the basis of work program and organization, provided such new positions and changes in grade or class shall be shown as administrative adjustments in the subsequent budgetary submissions and shall be subject to review during the legislative budget process; provided further, that changes in grade or class to positions with a base step of seven hundred dollars ($700) per month, or less, are not required to be shown as administrative adjustments in the budgetary submission.

Nothing in this section shall be construed as exempting the state colleges and the trustees of the state colleges from the provisions of Section 31 pertaining to salary savings reserve.

SEC. 32. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be

allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Joint Legislative Budget Committee quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 32.5. Notwithstanding the provisions of any appropriation of state funds made in the Welfare and Institutions Code for the public assistance programs, expenditures of state funds for those programs for the fiscal year ending June 30, 1970, shall not exceed, in the aggregate, the sum of five hundred twenty four million one hundred fifteen thousand one hundred dollars ($524,115,100).

The Department of Social Welfare, subject to the limit placed on aggregate expenditures by this section, may transfer funds between categorical aid programs.

The Department of Social Welfare shall administer the public assistance programs so that the counties will bear no more than the amount of welfare costs that they would be obligated to bear under the applicable provisions of the Welfare and Institutions Code, without the expenditure limitations set forth herein, and so that the amount authorized to be expended under this section shall fully cover the state's share of aid payments and for services under such programs for the 1969–70 fiscal year.

The limitations on amounts imposed by this section shall apply to any amounts which are determined by the Director of Finance to be necessary to meet increases in cost arising out of approvals made by the Department of Finance pursuant to the provisions contained in Item 167.

Provided further, that the Director of Finance is authorized to approve expenditures in those amounts made necessary by changes in either caseload or payments, or both, unrelated to any change in rule or regulation adopted during the current fiscal year which are in excess of Budget Bill estimates for 1969–70. Not later than the fifth legislative day following the submission of the Governor's Budget in the 1970 Regular Session of the Legislature, the Director of Finance shall report to the Legislature the amount, if any, by which the then current estimate of expenditures for public assistance programs in the fiscal year ending June 30, 1970, will exceed the limitation on aggregate expenditure in this section. If such report is not re-

quired following submission of the Governor's Budget but the Director of Finance determines during the third quarter that the estimate of expenditures will exceed the authorized expenditure in this section, he shall so report to the Legislature prior to the end of the third quarter. At such time as a report is made, the amount of the limitation shall be increased by the amount of such excess unless and until otherwise provided by law.

SEC. 32.8. As of June 30, 1969, the unencumbered balance of the revenues provided by Chapter 1326, Statutes of 1965, and appropriated by Section 32.7 of the Budget Act of 1967, shall be transferred to the unappropriated balance of the General Fund.

SEC. 32.9. During the 1969–70 fiscal year only, the fees collected under the provisions of Section 13169(b) of the Water Code, as added by Assembly Bill 413 at the 1969 Regular Session, are hereby appropriated in augmentation of the appropriation for support of the State Water Resources Control Board made by Item 264, Budget Act of 1969.

SEC. 33. If any item of appropriation in this act is vetoed, eliminated or reduced by the Governor under Section 10 of Article IV of the Constitution while approving portions of this act, such veto, elimination or reduction shall not affect the other portions of this act and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act and as if any reduced item of appropriation had not been reduced.

SEC. 34. If any section, subsection, sentence, clause, or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses, or phrases be declared unconstitutional.

SEC. 35. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the state government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the

aforesaid shortage of facilities and to promote and sustain the economy of the state. If they are not available for expenditure on July 1, 1969, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the state's business requires the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect.

SEC. 37. Funds from each appropriation made in this act may be expended to pay such salary adjustments as are authorized by salary fixing authorities to provide an increase in the compensation for officers and employees during the month of July 1969 to provide compensation equivalent to that which they would have otherwise received had this act been adopted prior to July 1, 1969.

SEC. 38. Funds from each appropriation made in this act may be expended to pay any obligation incurred between the commencement of the 1969–70 fiscal year and the effective date of this act, which would otherwise have been authorized hereunder had this act been adopted prior to July 1, 1969, subject to the same limitations, conditions, and requirements.

CHAPTER 356

An act to repeal Section 349.4 of, and to add Section 349.4 to, the Code of Civil Procedure, and to repeal Section 55187 of, and to add Section 55187 to, the Water Code, relating to validation, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 3, 1969. Filed with Secretary of State July 3, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 349.4 of the Code of Civil Procedure is repealed.

SEC. 2. Section 349.4 is added to the Code of Civil Procedure, to read:

349.4. All acts and proceedings heretofore or hereafter taken under color of law for the formation, organization or incorporation of, or for any change in the territorial boundaries of, any city, county, city and county, special district, public corporation or other public entity, or improvement district, annexed area or zone within any of the foregoing, and for the authorization, issuance, sale, or exchange of bonds of the entity or the territory thereof may be confirmed, validated, and declared legally effective in the manner provided in this section.

The legislative body of the entity may instruct its clerk or secretary to mail a notice to all owners of property within the entity, within the improvement district or zone, or within the annexed area, as the case may be, as their names and addresses appear on the last equalized county assessment roll, or as known to the clerk or secretary. Such notice shall include the name of the entity, the date the entity or the zone or improvement district therein was ordered formed or its territory changed by annexation or otherwise, as the case may be, the amount of bonds authorized, if any, and a statement that commencing with the date of mailing of said notice there shall be a 60-calendar-day period during which period any property owner may file an action contesting the validity of the formation of the entity, or of such improvement district or zone, or of such change of boundaries by annexation or otherwise, as the case may be, or the validity of the bond authorization, if any. The clerk or secretary shall make and file with the legislative body of the entity a certificate of mailing of the notices. The legislative body of the entity may order the clerk or secretary to include in such notice such other additional information that it deems pertinent.

If no action is filed during such 60-day period, the formation of the entity or of such improvement district or zone, or the change of boundaries by annexation or otherwise, as the case may be, and the bond authorization, if any, are valid and uncontestable.

SEC. 3. Section 55187 of the Water Code is repealed.

SEC. 4. Section 55187 is added to the Water Code, to read:

55187. All acts and proceedings heretofore or hereafter taken by or on behalf of a county waterworks district for the formation of a district or for the annexation to an existing district and for the authorization, issuance, sale, or exchange of bonds of the district or for the annexed territory may be confirmed, validated, and declared legally effective in the manner provided in this section.

The board may instruct the clerk of the board to mail a notice to all owners of property within the county waterworks district, as their names and addresses appear on the last equalized county assessment roll, or as known to the clerk. Such notice shall include the name of the district, the date the district was ordered formed or the date of the annexation to an existing district, the amount of bonds authorized, and a statement that, commencing with the date of mailing of said notice there shall be a 60-calendar-day period during which period any property owner may file an action contesting the validity of the district's formation, the annexation to an existing district or the bond authorization. The clerk shall make and file, with the board a certificate of mailing of the notices. The board may order the clerk to include such other additional information that it deems pertinent.

If no action is filed during the 60-day period, the district's formation or the annexation to an existing district and the bond authorization are valid and uncontestable.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the state require the orderly and unhampered functioning of local agencies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of such agencies, and upon the validity of acts, proceedings, and bonds of such agencies, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the state can be afforded the protection of the police, fire, safety, sanitary, and other regulations and protections provided by local agencies;

(2) Public works and construction by local agencies can be commenced and continued without delay or restriction, to provide sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety, and immediately needed to provide for an increased population;

(3) Local agencies can issue and sell bonds heretofore authorized for the purpose of providing sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some local agency or in the authorization of such bonds, which defects will be cured by this act.

CHAPTER 357

An act to amend Section 1241.7 of the Code of Civil Procedure, relating to eminent domain.

[Approved by Governor July 3, 1969 Filed with Secretary of State July 3, 1969]

The people of the State of California do enact as follows:

SECTION 1. Section 1241.7 of the Code of Civil Procedure is amended to read:

1241.7. (a) Except as provided in subdivision (b), notwithstanding any other provision of law to the contrary, the fact that property is appropriated for public use as a state, regional, county, or city park or recreation area, or wildlife or waterfowl management area as presently established by the Department of Fish and Game pursuant to Section 1525 of the Fish and Game Code, or historic site included in the National Register of Historic Places or state registered landmarks establishes a rebuttable presumption of its having been appropriated for the best and most necessary public use. The presumption established by this section is a presumption affecting the burden of proof.

(b) When property appropriated for a public use as a state, regional, county, or city park or recreation area, or wildlife or waterfowl management area as presently established by the Department of Fish and Game pursuant to Section 1525 of the Fish and Game Code, or historic site included in the National Register of Historic Places or state registered landmarks is sought to be acquired for state highway purposes, and such park or recreational area, or wildlife or waterfowl management area, or historic site was dedicated to or established for park or recreational purposes, or as a wildlife or waterfowl management area, or as a historic site included in the National Register of Historic Places or state registered landmarks, prior to the initiation of highway route location studies, an action for declaratory relief may be brought only by the public agency owning such park or recreational area, or wildlife or waterfowl management area, or historic site in the superior court to determine the question of which public use is the best and most necessary public use for such property. Such action for declaratory relief shall be filed and served within 120 days after written notice to the public agency owning such park or recreational area, or wildlife or waterfowl management area, or historic site by the California Highway Commission that a proposed route or an adopted route includes park land or recreational area, or a wildlife or waterfowl management area, or a historic site owned by that agency. In such declaratory relief action, the resolution of the commission shall not be conclusive evidence of the matters set forth in Section 103 of the Streets and Highways Code. Such action for declaratory relief shall have preference over all other civil actions in the matter of setting the same for hearing or trial to the end that any such action shall be quickly heard and determined. If an action for declaratory relief is not filed and served within such 120-day period, the right to bring such action is waived and the provisions of subdivision (a) shall not apply. When a declaratory relief action, with respect to such property being sought for highway purposes, may not be brought pursuant to this subdivision, the provisions of subdivision (a) of this section shall not apply.

[Approved by Governor July 3, 1969. Filed with Secretary of State July 3, 1969.]

The people of the State of California do enact as follows:

Sec. 6.1. All money collected in pursuance of a contract with the United States shall be paid into the agency treasury to the credit of the agency and shall be held in a fund to be known as the "United States Contract Fund" to be used for payments due to the United States under the contract.

SEC. 1.5. Section 7 of the Placer County Water Agency Act (Chapter 1234 of the Statutes of 1957) is amended to read:

Sec. 7. (a) The board of supervisors of the county shall be ex officio the board of directors of the agency. The board of directors may adopt reasonable rules and regulations to carry out its powers and duties. Each member of the board of supervisors shall serve as a member of said board of directors without additional compensation, except such member shall be allowed his actual, necessary and reasonable traveling expenses. The board of directors shall elect a chairman, who shall preside at all meetings of the board and in case of his absence or inability to act, the members present must, by an order entered in their records, select one of their number to act as temporary chairman. Any member of the board may administer oaths, when necessary in the performance of his official duties. A majority of the members of the board shall constitute a quorum for the transaction of business, and no act of the board shall be valid or binding unless a majority of all members concur therein.

(b) The board of directors may create by resolution an advisory council to assist and advise the board of directors. The council will consist of five members appointed by and serving at the pleasure of the board of directors. It shall meet not less than twice each month. Each council member shall receive the sum of twenty-five dollars ($25) for each meeting of the council attended by him, not exceeding 24 meetings per year, plus his actual, necessary, and reasonable traveling expenses.

SEC. 2. Section 8.1 of the Placer County Water Agency Act (Chapter 1234 of the Statutes of 1957) is amended to read:

Sec. 8.1. The board may appoint and employ a secretary and such other officers, agents, superintendents, engineers, at-

torneys and employees for the board or agency as in its judgment may be deemed necessary, including, if it deems it advisable, a clerk, superintendent of work, treasurer, and auditor, and define their powers and duties, fix their compensation and fix the amount of bond required of each such employee or officer and pay the premium of each such bond. Such officers, agents and employees so appointed shall hold their respective offices and positions during the pleasure of the board. The board shall have the power to combine any two or more offices in its discretion, except that the offices of treasurer and auditor may not be combined.

SEC. 3. Section 12 of the Placer County Water Agency Act (Chapter 1234 of the Statutes of 1957) is amended to read:

Sec. 12. All contracts for any improvement or unit of work, when the cost according to the estimate of the engineer will exceed five thousand dollars ($5,000), shall be let to the lowest responsible bidder or bidders as provided in this section. The board shall first determine whether the contract shall be let as a single unit for the whole of the work, or divided into severable convenient parts. The board shall advertise for bids by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in the agency, inviting sealed proposals for the construction or performance of the improvement or work. The call for bids shall state whether the work shall be performed in one unit or divided into parts. The work may be let under a single contract or several contracts, as stated in such call. The board shall require the successful bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material. The bonds shall comply with Chapter 3, commencing at Section 4200, of Division 5 of Title 1 of the Government Code. The board may reject any and all bids. In the event all proposals are rejected or no proposals are received, or the estimated cost of the work does not exceed five thousand dollars ($5,000), or the work consists of channel protection, maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board may have the work done by force account without advertising for bids. In the event that no proposals are received, or if only one responsive proposal is received, the board may negotiate a contract for construction or performance of the work or improvement or substantially similar work or improvement; provided, that if only one responsive proposal is received such contract must be negotiated with the bidder. The agency may purchase in the open market without advertising for bids, materials and supplies for use in any work, either under contract or by force account. Government Code Sections 4300 to 4305 shall not apply to the agency's Middle Fork American River Project. The provisions

of this Section 12 shall apply to all proposals or contracts whether or not received or entered into prior to the effective date of the amendment of this section made at the 1963 Regular Session of the Legislature.

SEC. 4. Section 14.3 is added to the Placer County Water Agency Act (Chapter 1234 of the Statutes of 1957), to read:

Sec. 14.3. The taxes levied pursuant to Section 14.1 shall be collected at the time and in the manner of county taxes and paid into the county treasury. The net amount of the taxes, after deduction of the county's compensation for the services of its treasurer, assessor and tax collector, shall be paid to the agency treasurer by warrant of the county auditor.

SEC. 5. Section 14.4 is added to the Placer County Water Agency Act (Chapter 1234 of the Statutes of 1957), to read:

Sec. 14.4. (a) The board may establish a revolving fund for the use of any officer or employee of the agency by adopting a resolution setting forth the necessity for the fund, the office or employee for which the fund is available, and the amount of the fund. Certified copies of the resolution shall be transmitted to the agency auditor and agency treasurer.

(b) Before any money is withdrawn from the agency treasury to be placed in the revolving fund, the officer or employee for whose use the fund is created shall file with the secretary of the board a bond executed by himself as principal and by an admitted surety insurer, in an amount equal to that of the revolving fund. The bond shall be conditioned upon the faithful administration of the fund and upon the willingness and ability of the principal to account for and pay over the fund upon demand of the board at any time.

(c) Upon the filing of the required bond the agency auditor shall draw his warrant in favor of the officer or employee for whose benefit the revolving fund is created, and the agency treasurer shall pay the warrant.

(d) The officer or employee may be authorized to use the fund for making change when necessary in carrying on his official work.

(e) The officer or employee shall not be authorized to expend any portion of the revolving fund except for services or material which are a legal charge against the agency.

(f) Any expenditure in excess of one dollar ($1) shall not be made unless a receipt is obtained which sets forth the date, the purpose of the expenditure, and the amount expended.

(g) Demand shall be made upon the agency for reimbursement of the fund in the same manner that other demands are made and shall be supported by receipts. All sums received in satisfaction of the demand shall be returned to the revolving fund.

(h) Upon demand of the agency auditor or board, the officer or employee entrusted with the fund shall give an account of the fund.

(i) The board may at any time increase, reduce, or discontinue any revolving fund established by its order. If the re-

volving fund is ordered reduced, the officer or employee using it shall immediately return to the agency treasurer the amount necessary to reduce the fund as ordered by the board. If the fund is discontinued the officer or employee shall immediately refund it to the agency treasurer. A reasonable time shall be allowed the officer or employee to reimburse himself by demand on the agency for expenditures legally made from the fund.

SEC. 6. Section 15 of the Placer County Water Agency Act (Chapter 1234 of the Statutes of 1957) is amended to read:

Sec. 15. (a) The board by resolution shall establish such zones within the agency as in the judgment of said board are necessary to equitably apportion the benefits of the agency to the lands within the respective zones. Such zones may be established within the agency without reference to the boundaries of other zones, by setting forth the descriptions thereof by metes and bounds and by entitling each of such zones by a zone number. The lands comprising a zone need not be contiguous. All zones shall be established only with respect to projects for the benefit of such zones and proceedings for the establishment of such zones may be conducted concurrently with and as a part of proceedings for the instituting of projects relating to such zones, which proceedings shall be instituted in the manner prescribed in this section.

(b) The board may institute projects for the financing, acquisition, constructing, maintaining, operating, extending, repairing or otherwise improving any work of benefit to single zones or two or more zones. In cases of projects for the benefit of two or more zones, such zones shall become, and shall be referred to as, participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zone or participating zones and fixing a time and place for public hearing of said resolution. The resolution shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code in a newspaper of general circulation designated by the board, circulated in such zone or each of said participating zones, if there be such newspaper, and if there be no such newpaper then by posting notice for two consecutive weeks prior to said hearing in two public places designated by the board, in such zone or in each of said participating zones. Publication shall be completed at least seven days before the date of the hearing. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the resolution and the map or maps of the proposed project may be seen by any interested person; said resolution and map or maps must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

(c) At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, or a portion thereof, unless prior to the conclusion of said hearing written protests have been filed against the proposed project signed by owners of real property within the zone or participating zone the assessed value of which, as shown by the last equalized assessment roll, constitutes more than one-half of the total assessed value of the real property of such zone, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned at the discretion of the board.

(d) The board shall have power, in any year:

(1) To levy taxes upon all taxable property in each or any of said zones according to benefits derived or to be derived therein to pay the cost and expenses of carrying out any of the objects or purposes of this act of benefit to such zones, including the administering, acquiring, constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zones. Said taxes shall be based upon the assessment rolls used by the county for general tax purposes and shall not exceed fifty cents ($0.50) on each one hundred dollars ($100) of assessed valuation, exclusive of any tax levied pursuant to subdivision (f), hereof.

(2) Said taxes shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said agency taxes shall be paid into the county treasury to the credit of the agency and the respective zones thereof, and the board shall have the power to control and order the expenditure thereof; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes levied under the provisions of this section shall be expended for acquiring, constructing, maintaining, operating, extending, repairing or otherwise improving any works located in any other zone, except in the case of projects for the benefit of participating zones or for projects authorized or established outside such zone or zones, but for the benefit thereof.

(e) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work in any zone or participating zones, the board may by resolution determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work and the maximum rate of interest of said bonds The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the office of the Recorder of Placer County within five (5) days after its adoption. From and after said filing of said copy of said

resolution the board shall be deemed vested with the authority to proceed with the bond election.

(f) After the filing for record of the resolution specified in subdivision (e) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual taxes levied upon the lands situated within the zone or participating zones, and all such lands shall be and remain liable to be taxed for such payments as provided in this act.

(g) The board shall call such special bond election by resolution and submit to the qualified electors of said zone or participating zones the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in the resolution referred to in subdivision (e) of this section. The resolution calling the bond election shall recite the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of the resolution referred to in subdivision (e) of this section. The resolution calling such special bond election shall also state the estimated cost of the proposed work, the amount of the principal of the indebtedness to be incurred and the maximum rate of interest to be paid on said indebtedness. Said resolution shall also fix the date on which such special election shall be held and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed six percent (6%) per annum. For the purposes of said election said board shall in said resolution calling said bond election establish a special bond election precinct or precincts within the boundaries of each zone and participating zones and may form election precincts by consolidating the precincts established for general elections in the agency to a number not exceeding six general precincts for each such special bond election precinct. Said resolution shall also designate polling places and appoint at least one inspector, one judge and one clerk for each of such special bond election precincts.

(h) In all particulars not recited in said resolution calling said bond election, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the state.

(i) The board shall cause a map to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed work and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

(j) Said resolution calling for such special bond election shall, prior to the date set for such election, be published in a newspaper of general circulation circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such resolution must be at least fourteen (14) days before said election, and if there be no such newspaper, then such resolution shall be posted in two public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

(k) Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. If at such election two-thirds of the votes cast in the zone or in each of the participating zones are in favor of incurring such bonded indebtedness, then bonds for such zone or participating zones for the amount stated in such proceedings may be issued and sold as in this act provided.

(*l*) The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zones affected, and of the interest coupons attached thereto. Said bonds shall be payable annually or semiannually, at the discretion of the board, each and every year on a day and date and at a place to be fixed by said board and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

(m) The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different dates from those of any other series. The maturity dates of each series shall comply with this section. The board may fix a date not more than two (2) years from the date of issuance for the earliest maturity of each issue or series of bonds. The final maturity date of each issue or series shall not exceed forty (40) years from the time of incurring the indebtedness evidenced by such issue or series.

(n) The bonds shall be issued in such denomination as the board may determine, and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of six percent (6%) per annum, and shall be made payable annually or semiannually, and the bonds of each issue or series shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of the agency, and the seal of the agency shall be affixed thereto by the clerk of the board. One of such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his

printed, engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officers before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officers had remained in office until the delivery of the bonds.

(o) Before selling the bonds, or any part thereof, the board shall give notice not less than 10 days prior to the date of sale by publication in a newspaper of general circulation circulating in the agency inviting sealed bids in such manner as the board shall prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

(p) Any bonds issued under the provisions of this section, and the interest thereon, shall be paid by revenues derived from an annual tax upon all taxable property in the zone or participating zones sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. No zone nor the property therein shall be liable for the share of bonded indebtedness of any other zone, nor shall any moneys derived from taxation in any of the several zones be used in payment of principal or interest or otherwise of the share of the bonded indebtedness chargeable to any other zone. Such taxes shall be levied and collected in the respective zones or participating zones, together with and not separately from taxes for county purposes, and the revenues derived from said taxes shall be paid into the county treasury of said Placer County to the credit of the zone of payment, and thereafter paid to the agency treasurer pursuant to Section 14.3 and be used for the payment of the principal and interest on said bonds, and for no other purpose. It is hereby declared that for the purposes of any tax levied pursuant to this subdivision (p), the property so taxed within a given zone is equally benefited.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Placer County Water Agency has just purchased a public utility water system and is now commencing the operation of such system The purchase of this system was financed by revenue bonds, the proceeds of which are in the hands of a fiscal agent In order to provide for sound business practices it is necessary for the agency to be able to appoint its own officers to account for and keep custody of its funds and to

be able to establish revolving funds as necessary. Unless this act goes into immediate effect inefficient and uneconomical methods of operation will have to be employed in the maintenance and operation of the water system.

CHAPTER 359

An act to amend Section 3255 of the Education Code, relating to the maximum tax rates in the reorganization of school districts.

[Approved by Governor July 3, 1969. Filed with Secretary of State July 3, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 3255 of the Education Code is amended to read:

3255. In any proposal for reorganization of school districts recommended by a county committee, the committee shall include a provision for the authorization of a maximum tax rate for the proposed new district, and such provision shall be an inherent part of the proposal, and shall not be construed as a separate proposition. If the reorganization is approved by the registered voters of the area, such tax rate shall be the maximum tax rate for the type of new district formed in lieu of any rate specified in Section 20751 until changed by the registered voters of the district in the manner prescribed in Section 20803. Such tax rate established by the county committee shall not be less than the tax rates for the new district provided in Section 20751 nor more than the rate which would produce revenue for the proposed new district equal to: (1) the sum of the revenue of each of the districts proposed to be wholly or partially included therein had the maximum allowable tax rate been in effect in each such district during the school year prior to the fiscal year in which the election for reorganization is held; (2) revenues equal to the amount by which the state equalization aid allowances, if any, computed for the proposed district for the fiscal year are less than the sum of the state equalization aid allowances, if any, made to the component districts during the fiscal year prior to the fiscal year in which the election for reorganization is held; and (3) revenues equal to the amount of the difference between the average certificated and the average classified salary of all the component districts during the school year prior to that in which the election is held and the average certificated and the average classified salary of the high school district or districts included in the proposal multiplied by the number of employees in each category at the elementary level. In the event the salary schedule of an included

elementary district or unified district is higher than that of the high school district, the county committee may for the purpose of determining a tax rate under this section substitute that elementary or unified district salary schedule for the high school district schedule. Any tax rate approved pursuant to this section may be decreased by the governing board of the district to not less than the tax rate specified in Section 20751.

The maximum tax rate of the proposed new district shall be printed on the ballot.

CHAPTER 360

An act to amend Section 71140 of the Government Code, relating to municipal and justice courts.

[Approved by Governor July 3, 1969 Filed with Secretary of State July 3, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 71140 of the Government Code is amended to read:

71140. The judges of a municipal court and the judges, constables, and deputy constables of a justice court shall be a resident eligible to vote in the judicial district or city and county in which they are elected or appointed for a period of at least 54 days prior to the date of their election or appointment. This requirement shall not affect the right of any person to automatically succeed to an office or position pursuant to Sections 71080 to 71083, inclusive, and Sections 71085 to 71090, inclusive, nor the right of any person to be constable in any county governed by a freeholders' charter which provides that constables shall be appointed by the sheriff, or shall be ex officio deputy sheriffs. This requirement shall not apply to the incumbent constable of a superseded justice's court, whose residence is in the township in which the superseded court existed but not included in the judicial district as fixed by the board of supervisors, and who succeeds to the office of constable of such court or is elected thereto at the first election of constables under this act or who seeks reelection to such office.

This requirement shall not apply to a judge of a municipal court for the rest of his unexpired term and for one successive term of office for which he is subsequently reelected when:

(a) He has succeeded to office under the provisions of Section 71083 and his residence is not in the annexed district.

(b) Part of a municipal court district is annexed to another municipal court district and the judge of the original district lives in the part that is annexed.

CHAPTER 361

An act to amend Sections 14000 and 14001 of the Fish and Game Code, relating to the Pacific Marine Fisheries Compact.

[Approved by Governor July 3, 1969. Filed with Secretary of State July 3, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 14000 of the Fish and Game Code is amended to read:

14000. The Governor is hereby authorized and directed to execute a compact on behalf of this state with any or all of the States of Alaska, Idaho, Oregon and Washington for the purpose of cooperating with such states in the formation of a Pacific Marine Fisheries Commission.

SEC. 2. Section 14001 of the Fish and Game Code is amended to read:

14001. The form and contents of such compact shall be substantially as provided in this section and the effect of its provisions shall be interpreted and administered in conformity with the provisions of this division:

PACIFIC MARINE FISHERIES COMPACT

The contracting states do hereby agree as follows:

Article I

The purposes of this compact are and shall be to promote the better utilization of fisheries, marine, shell and anadromous, which are of mutual concern, and to develop a joint program of protection and prevention of physical waste of such fisheries in all of those areas of the Pacific Ocean over which the compacting states jointly or separately now have or may hereafter acquire jurisdiction.

Nothing herein contained shall be construed so as to authorize the compacting states or any of them to limit the production of fish or fish products for the purpose of establishing or fixing the prices thereof or creating and perpetuating a monopoly.

Article II

This agreement shall become operative immediately as to those states executing it in the form that is in accordance with the laws of the executing state and when the Congress has given its consent.

Article III

Each state joining herein shall appoint, as determined by state statutes, one or more representatives to a commission hereby constituted and designated as the Pacific Marine Fisheries Commission, of whom one shall be the administrative or other officer of the agency of such state charged with the con-

servation of the fisheries resources to which this compact pertains. This commission shall be invested with the powers and duties set forth herein.

The term of each commissioner of the Pacific Marine Fisheries Commission shall be four years. A commissioner shall hold office until his successor shall be appointed and qualified but such successor's term shall expire four years from legal date of expiration of the term of his predecessor. Vacancies occurring in the office of such commissioner from any reason or cause shall be filled for the unexpired term, or a commissioner may be removed from office, as provided by the statutes of the state concerned. Each commissioner may delegate in writing from time to time, to a deputy, the power to be present and participate, including voting as his representative or substitute, at any meeting of or hearing by or other proceeding of the commission.

Voting powers under this compact shall be limited to one vote for each state regardless of the number of representatives.

Article IV

The duty of the said commission shall be to make inquiry and ascertain from time to time such methods, practices, circumstances and conditions as may be disclosed for bringing about the conservation and the prevention of the depletion and physical waste of the fisheries, marine, shell, and anadromous in all of those areas of the Pacific Ocean over which the states signatory to this compact jointly or separately now have or may hereafter acquire jurisdiction. The commission shall have power to recommend the coordination of the exercise of the police powers of the several states within their respective jurisdictions and said conservation zones to promote the preservation of those fisheries and their protection against overfishing, waste, depletion or any abuse whatsoever and to assure a continuing yield from the fisheries resources of the signatory parties hereto.

To that end the commission shall draft and, after consultation with the advisory committee hereinafter authorized, recommend to the governors and legislative branches of the various signatory states hereto legislation dealing with the conservation of the marine, shell, and anadromous fisheries in all of those areas of the Pacific Ocean over which the states signatory to this compact jointly or separately now have or may hereafter acquire jurisdiction. The commission shall, more than one month prior to any regular meeting of the legislative branch in any state signatory hereto, present to the governor of such state its recommendations relating to enactments by the legislative branch of that state in furthering the intents and purposes of this compact.

The commission shall consult with and advise the pertinent administrative agencies in the signatory states with regard to

problems connected with the fisheries and recommend the adoption of such regulations as it deems advisable and which lie within the jurisdiction of such agencies.

The commission shall have power to recommend to the states signatory hereto the stocking of the waters of such states with marine, shell or anadromous fish and fish eggs or joint stocking by some or all of such states and when two or more of the said states shall jointly stock waters the commission shall act as the coordinating agency for such stocking.

Article V

The commission shall elect from its number a chairman and a vice chairman and shall appoint and at its pleasure remove or discharge such officers and employees as may be required to carry the provisions of this compact into effect and shall fix and determine their duties, qualifications and compensation. Said commission shall adopt rules and regulations for the conduct of its business. It may establish and maintain one or more offices for the transaction of its business and may meet at any time or place within the territorial limits of the signatory states but must meet at least once a year.

Article VI

No action shall be taken by the commission except by the affirmative vote of a majority of the whole number of compacting states represented at any meeting. No recommendation shall be made by the commission in regard to any species of fish except by the vote of a majority of the compacting states which have an interest in such species.

Article VII

The fisheries research agencies of the signatory states shall act in collaboration as the official research agency of the Pacific Marine Fisheries Commission.

An advisory committee to be representative of the commercial fishermen, commercial fishing industry and such other interests of each state as the commission deems advisable shall be established by the commission as soon as practicable for the purpose of advising the commission upon such recommendations as it may desire to make.

Article VIII

Nothing in this compact shall be construed to limit the powers of any state or to repeal or prevent the enactment of any legislation or the enforcement of any requirement by any state imposing additional conditions and restrictions to conserve its fisheries.

Article IX

Continued absence of representation or of any representative on the commission from any state party hereto, shall be brought to the attention of the governor thereof.

Article X

The states agree to make available annual funds for the support of the commission on the following basis:

Eighty percent of the annual budget shall be shared equally by those member states having as a boundary the Pacific Ocean. Upon any authorized purchase of shares issued by the corporation, or by any corporation of which it is subsidiary, out of earned or paid-in surplus the earned or paid-in surplus shall be reduced by an amount equal to the purchase price of such shares.

CHAPTER 377

An act to add Section 16475 of the Public Utilities Code, relating to public utility districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 3, 1969. Filed with Secretary of State July 3, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 16475 is added to the Public Utilities Code, to read:

16475. (a) A public utility district which acquires, constructs, owns, operates, controls or uses works for supplying its inhabitants with water, may fix and collect charges in the manner provided in Articles 3 and 8, Chapter 4, Division 7 of the Public Utilities Code, for a water standby or immediate availability charge on all land within its boundaries to which water is made available for any purpose by the district.

whether the water is actually used or not, except that such charge shall not apply to lands permanently dedicated exclusively to transportation of persons or property.

(b) The board of directors of the district which fixes such a charge may establish schedules varying the charges in different months and in different localities within a public utility district depending upon factors such as the uses to which the land is put, the cost of transporting the water to the land, the degree of availability or quantity of use of such water to the affected lands. The board may not, however, fix an annual charge in excess of ten dollars ($10) per acre or in excess of five dollars ($5) for a parcel of less than one acre.

(c) If a person for more than one year obtains substantially all of his water requirements for the contiguous parcels of land which he occupies from rainfall, springs, streams, lakes, rivers or wells, and if the person's primary economic activity on such land is the commercial extraction or processing of minerals, such land shall be exempt from any water standby or availability charges.

(d) Any funds derived from the charges levied pursuant to this section may be used by the district for all purposes which a public utility district is authorized to expend funds insofar as said purposes relate to the acquisition, construction, operation, control or use of works for supplying its inhabitants with water.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Since the authority to fix water standby charges under this act must be exercised on or before the first day of September of each year and since an ordinary statute does not take effect until the 61st day following adjournment of the Legislature, it is necessary that this act go into effect immediately so that a public utility district may fix water standby charges for the 1969–70 fiscal year in order to provide necessary funds for district waterworks operations during said fiscal year.

SEC. 3. If the property is sold by the City of Millbrae, the city shall use the proceeds for street and highway purposes.

If the report of the department does not favor acquisition of the site, no state funds shall be expended for the acquisition of the new state building or other enclosure site, or the expansion of the present site, or for the construction of the state building or other enclosure, provided that the provisions of this section shall not affect title to real property once it is acquired.

21656. No person shall erect or add to the height of any structure within the boundaries of this state which will result in a structure that extends more than 500 feet above the ground on which such structure rests until a permit therefor has been issued for such purpose by the department. This section is not applicable to the construction of any structure if the Federal Communications Commission is required to approve the height of the structure or if the height of the structure is required to be approved under the Federal Aviation Act of 1958 (Public Law 85-726; 72 Stat. 731).

21657. The department may refuse issuance of a permit under Section 21656 if it determines, after notice and hearing held pursuant to this part, that the erection of or addition to a structure would obstruct the airspace overlying the state so as to create an unsafe condition for the flight of aircraft.

Any person aggrieved by the action of the department pursuant to this section may have such action reviewed by the courts in a manner provided by law.

21658. After the effective date of this section, no public utility shall construct any pole, pole line, distribution or transmission tower or tower line, or substation structure in the vicinity of the exterior boundary of an aircraft landing area of any airport open to public use, in such a location with respect to such airport and at such a height as to constitute an obstruction to air navigation, as an obstruction is defined in accordance with Part 77 of the Federal Aviation Regulations, Federal Aviation Administration, Department of Transportation, or any corresponding rules or regulations of the Federal Aviation Agency, unless the Federal Aviation Agency has determined that such pole, line, tower, or structure does not constitute a hazard to air navigation. This section shall not apply to existing poles, lines, towers, or structures or to the repair, replacement, or reconstruction thereof if the original height is not materially exceeded and this section shall not ap-

ply unless just compensation shall have first been paid to the public utility by the owner of any such airport for any property or property rights which would be taken or damaged hereby.

21659. After the effective date of this section, no person shall construct any structure or permit any natural growth to grow within one statute mile of the exterior boundary of any airport open to public use at such height as to constitute a hazard to air navigation, as a hazard to air navigation is defined in accordance with Part 77 of the Federal Aviation Regulations of the Federal Aviation Administration, Department of Transportation, unless a permit allowing such construction or growth is issued by the department, provided, however, that such permit shall not be required if the Federal Aviation Administration has determined that such construction or growth does not constitute a hazard to air navigation or would not create an unsafe condition for air navigation; and provided further, however, that this section shall not apply to a pole, pole line, distribution or transmission tower or tower line, or substation of a public utility. The foregoing exceptions to this section shall continue, however, to be subject to the provisions of Section 21658.

21660. The department may refuse issuance of a permit under Section 21659 if it determines, after notice and hearing held pursuant to this part, that the construction of the structure or growth of the natural growth would constitute a hazard to air navigation or create an unsafe condition for air navigation.

Any person aggrieved by the action of the department pursuant to this section may have such action reviewed by the courts in the manner provided by law.

If the termination of a person's membership in such organization breaches any agreement with the organization, nothing in this section shall relieve the person from liability for damages to which he might be otherwise subjected to pursuant to law, but he shall not be subject to any damages with respect

to any goods, wares, or merchandise which are deemed unconditional gifts to him under this section

If after any receipt deemed to be an unconditional gift under this section, the sender continues to send bill statements or requests for payment with respect thereto, an action may be brought by the recipient to enjoin such conduct, in which action there may also be awarded reasonable attorneys' fees and costs to the prevailing party.

CHAPTER 429

An act to amend Sections 11333 and 11655.5 of the Health and Safety Code, relating to drugs, including narcotics, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 11333 of the Health and Safety Code is amended to read:

11333. Persons who, under applicable federal laws or regulations, are lawfully entitled to use narcotics for the purpose of research, instruction, or analysis, may lawfully obtain and use for such purposes such substances as are defined as narcotics in Chapter 1 (commencing with Section 11000) of this division, upon registration with the Chief of the Bureau of Narcotic Enforcement and approval for use of such substances in bona fide research, instruction, or analysis by the Research Advisory Panel established pursuant to Sections 11655 and 11655.5.

Such research, instruction, or analysis shall be carried on only under the auspices of the head of a research project which has been approved by the Research Advisory Panel pursuant to Section 11655.5 or Section 11655.6. Complete records of receipts, stocks at hand, and use of these substances shall be kept. These records shall at all times be open to inspection by any authorized agent of the Division of Narcotic Enforcement.

SEC. 2. Section 11655.5 of the Health and Safety Code is amended to read:

11655.5. The Legislature finds that there is a need to encourage further research into the nature and effects of marijuana (Cannabis sativa) and hallucinogenic drugs and to coordinate research efforts on such subjects.

There shall be established a Research Advisory Panel which shall consist of a representative of the State Department of Public Health, a representative of the Department of Mental Hygiene, a representative of the State Board of Pharmacy, a representative of the Attorney General, a representative of the University of California, and a representative of a private university in this state. The Governor shall annually designate the private university represented on the panel. Members of the panel shall be appointed by the heads of the entities to be represented, and they shall serve at the pleasure of the appointing power.

The panel may hold hearings on, and in other ways study, research projects concerning marijuana (Cannabis sativa) or hallucinogenic drugs in this state. Members of the panel shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties.

The panel may approve research projects into the nature and effects of marijuana (Cannabis sativa) or hallucinogenic drugs, and shall inform the Chief of the Bureau of Narcotic Enforcement of the head of such approved research projects which are entitled to receive quantities of marijuana (Cannabis sativa) pursuant to Section 11655.

The panel may withdraw approval of a research project at any time, and when approval is withdrawn shall notify the head of the research project to return any quantities of marijuana (Cannabis sativa) to the Chief of the Bureau of Narcotic Enforcement.

The panel shall report annually to the Legislature and the Governor those research projects approved by the panel, the nature of each research project, and, where available, the conclusions of the research project.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are presently research projects seeking approval, which are, under applicable federal laws or regulations, lawfully entitled to use narcotics for the specified purposes, but because such projects are not registered and not subject to be taxed under specified federal provisions such projects may not be approved. Also, the federal provisions relating to registration and taxation in the area of narcotics are presently under study and change and are thus difficult to comply with.

Therefore, if these research projects, which are important to the health and safety of the citizens of this state, are to be approved and begin to function, this act, removing the requirement that the projects are to be registered and be subject to taxation, must go into effect immediately.

CHAPTER 430

An act to amend Section 33138 of the Streets and Highways Code, relating to Parking Law of 1949, declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 33138 of the Streets and Highways Code is amended to read:

33138. The authority may sell bonds at less than their par or face value, but a bond shall not be sold at a price below its par or face value which would result in a sale price yielding to the purchaser an average of more than 7 percent a year, payable semiannually, according to standard tables of bond values.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The ability of cities to sell bonds yielding a 6 percent return is severely limited by present conditions in the bond market which, in turn, limits the ability of the cities to provide badly needed parking facilities creating serious transportation problems. In order to alleviate these problems and the attendant safety difficulties, it is necessary that this act become effective immediately.

CHAPTER 431

An act to amend Section 709 of the Probate Code, relating to estates.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 709 of the Probate Code is amended to read:

709. If an action is pending against the decedent at the time of his death, the plaintiff must in like manner file his claim with the clerk or present it to the executor or administrator for allowance or rejection, authenticated as required in other cases; and no recovery shall be had against decedent's estate in the action unless proof is made of such filing or presentation; provided, if the action which is pending is an action for damages and the decedent was insured therefor and the insurer has accepted the defense of the cause and an appearance has been made in such action on behalf of the decedent, no claim shall be required except for amounts in excess of or not covered by such insurance; provided, further, if any action is pending against the decedent at the time of his death and a claim based on such action is not filed or presented within the prescribed period, the court may thereafter allow filing of said claim on such terms as may be just and equitable, upon the claimant's verified petition and notice of hearing given pursuant to Section 1200, if it finds that the claim was not filed or presented previously because neither the claimant nor his attorney had actual knowledge of the decedent's death at least 15 days prior to the expiration of the prescribed period for filing or presenting the claim, but any property distributed or payment made under court order before notice of such petition shall not be subject to the claim.

No relief shall be granted unless the petition is filed within a reasonable time after discovery of decedent's death and in any event within one year after the expiration of said prescribed period, and before petition for final distribution has been filed.

If, at the time of filing the petition hereunder, assets of the estate have been paid to general creditors or some thereof or have been distributed by decree of preliminary distribution to heirs, devisees or legatees (in either case after expiration of the prescribed time for claims), and it appears that the filing and later establishment of the claim, in the circumstances, would cause or tend to cause unequal treatment between heirs, devisees, legatees or creditors, then permission to file the claim shall be denied.

CHAPTER 432

An act to amend Section 5285 of the Public Utilities Code, relating to public utilities.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 5285 of the Public Utilities Code is amended to read:

The right to operate under any household goods carrier permit may be suspended by the commission upon reasonable notice of not less than 15 days to the holder without hearing or other proceedings, for failure to comply, and until compliance, with the provisions of Section 5161 or with any lawful order, rule or regulation of the commission promulgated thereunder.

As an alternative to the cancellation, revocation, or suspension of an operating permit or permits, the commission may impose upon the holder of such permit or permits a fine of not exceeding five thousand dollars ($5,000). All fines collected shall be deposited at least once each month in the State Treasury to the credit of the General Fund.

CHAPTER 433

SECTION 1. Section 11908 of the Public Utilities Code is amended to read:

11908. The board shall establish rules for its proceedings and may provide by ordinance or resolution that each member shall receive for each attendance at the meetings of the board the sum of thirty dollars ($30). SEC. 3. (a) Any territory within the boundaries of the district at the time of merger and which, at the time of merger, is liable for the payment of principal, interest and any other amounts which shall become due on account of any bonds, including revenue bonds or other contracts or obligations of said district, or any improvement district therein, as shall be outstanding on the effective date of the merger, shall continue to be liable to the same extent as though such merger had not occurred and shall be subject, pursuant to the provisions of subdivision (b) of this section, to the levying or fixing and collection of any (1) taxes or assessments, or (2) service charges, rentals or rates, or (3) both, as may be necessary.

Until payment, or provision for payment, has been made of all principal, interest and any other amounts owing on account of any outstanding obligations, which are payable in whole or in part from taxes or assessments upon any property within all or any part of the territory of the district, the city council shall in each year provide for the levy and collection of taxes and assessments upon such property, including that outside of the city boundaries, sufficient to pay any principal, interest and any other amounts owing on account of such obligations, as the same becomes due. Such taxes and assessments shall be levied and collected in the manner provided by the principal act of the merged district.

(c) At such time as territory of the district outside the boundaries of the city ceases to be liable for any of the obligations set forth in subdivision (a) of this section, the authority of the city council to levy or fix any taxes or assessments under the provisions of this act shall terminate.

SEC. 4. Until payment, or provision for payment, has been made of all principal, interest and any other amounts owing on account of any outstanding bonds, contracts or other obligations which are payable in whole or in part from the revenues of a revenue-producing enterprise of the district, the

city shall not sell, encumber or otherwise dispose of all or any part of the revenue-producing enterprise or the revenues derived therefrom, except as expressly authorized by the ordinance, resolution or indenture authorizing such bonds, contracts or other obligations or providing for the issuance of any thereof.

SEC. 6. Any funds, money or property of the district which shall have been impressed with any public trust, use or purpose shall continue to be so impressed until such public trust, use or purpose is vacated, abandoned or terminated, in the manner provided by law.

SEC. 7. No inhabitant, property owner, taxpayer, consumer or user within the territory of the district shall be entitled (a) to all or any part, or to any payment on account of the moneys or funds, including cash on hand and moneys due but uncollected, and any property, real or personal, of the district or (b) to any refund by reason of any taxes, assessments, service charges, rentals or rates collected prior to the effective date of merger.

SEC. 8. Where any nonincorporated water service area outside the City of Thousand Oaks becomes a part of the service area of the water department of the City of Thousand Oaks as a result of the merger of the city and Ventura County Waterworks District No. 6 pursuant to the provisions of this act, the City of Thousand Oaks shall provide water service to water consumers in such area on the same basis as that provided to consumers residing within the boundaries of the City of Thousand Oaks.

SECTION 1. Section 5008.5 is added to the Public Resources Code, to read:

5008.5. In any prosecution charging a violation within any unit of the state park system of the rules and regulations of the department, the provisions of Section 267 or Chapter 5 (commencing with Section 650) of Division 3 of the Harbors and Navigation Code, or the rules and regulations of the Harbors and Watercraft Commission, proof by the people of the State of California that the vehicle or vessel described in the complaint was parked, placed, or operated in violation of any provision of such statutes or rules and regulations together with proof that the defendant named in the complaint was, at the time of such parking, placing, or operating, the registered owner of the vehicle or vessel, shall constitute prima facie evidence that the registered owner of the vehicle or vessel was the person who parked, placed, or operated the vehicle or vessel at the point where, and for the time during which, the violation occurred, but such proof that a person is the registered owner of a vehicle or vessel is not prima facie evidence that such person has violated any other provision of law. The above provisions shall apply only when there has been compliance with the procedure required by Section 41103 of the Vehicle Code. Proof of a written lease of, or rental agreement for, a particular vehicle or vessel described in the complaint, on the date and time of such violation, which lease or rental agreement includes the name and address of the person to whom the vehicle or vessel is leased or rented, shall rebut the prima facie evidence that the registered owner was the person who parked, placed, or operated the vehicle at the time and place where the violation occurred.

Any charge under this section shall be dismissed when the person charged has made a bona fide sale or transfer of the vehicle or vessel and has delivered possession thereof to the purchaser and has complied with the requirements of subdivision (a) or (b) of Section 5602 of the Vehicle Code or with Section 710 of the Harbors and Navigation Code prior to the date of the alleged violation and has advised the court of the name and address of the purchaser.

The people of the State of California do enact as follows:

SECTION 1. Section 902 of the Welfare and Institutions Code is amended to read:

902. If it is found that the maximum amount established by the board of supervisors of the county is insufficient to pay the whole expense of support and maintenance of a ward, dependent child, or other minor person, the court may order and direct that such additional amount as is necessary shall be paid out of the earnings, property, or estate of such ward, dependent child, or other minor person, or by the parents or guardian of such ward, dependent child, or other minor person, or by any other person liable for his support and maintenance, to the county officers designated by the board of supervisors who shall in turn pay it to the person, association, or institution that, under court order, is caring for and maintaining such ward, dependent child, or other minor person.

SEC. 2. Section 905 of the Welfare and Institutions Code is amended to read:

905. Except as otherwise ordered by the juvenile court, the county officers designated by the board of supervisors may reduce, cancel, or remit the amount to be paid by the estate or the relatives, as the case may be, liable for the cost of legal services referred to by Section 903.1, or for the cost of probation supervision referred to by Section 903.2, or for the care, support, and maintenance of a minor person placed or detained in, or committed to, any county institution or other place pursuant to an order of the juvenile court of that county on

satisfactory proof that the estate or relative, as the case may be, is unable to pay the cost of such legal services, care, support, and maintenance.

If the representative of the estate or the relative liable for the care, support, and maintenance of, or for the cost of legal services rendered to, or for the cost of probation supervision of, the minor claims that the minor's estate or relative is financially unable to pay the amounts established under this article for the care, support, and maintenance of, or legal services rendered to, or probation supervision of, the minor, he may make such claim in writing to any such officer of the county in which the juvenile court making the order of placement, detention, or commitment is located. The officer shall, upon receipt of such a claim, make an investigation to determine whether the minor's estate or responsible relative is financially able to pay the amounts established under this article, or any part thereof, and report the results of his investigation to the juvenile court. On receipt of the officer's report, the juvenile court shall hear and determine the claim, and may order that the representative of the estate or the relative pay all of the amounts established under this article, or any part thereof, which the juvenile court finds that the estate or relative is financially able to pay.

SEC. 3. Section 908 of the Welfare and Institutions Code is amended to read:

908. Where the juvenile court has ordered payment of money to be made for the cost of legal services referred to by Section 903.1, for the cost of probation supervision referred to by Section 903.2, or for the cost of care, support, or maintenance in any county institution, or as reimbursement to the county for the expense of support and maintenance of any ward, dependent child, or other minor person as provided in this article, or as additional payment for the expense of support and maintenance of such ward, dependent child, or other minor person to the person, association, or institution that, under court order, is caring for and maintaining such ward, dependent child, or other minor person, either from the earnings, property, or estate of such ward, dependent child, or other minor person, or by his parents or guardian, or by any other person liable for his support, upon affidavit of the county officers designated by the board of supervisors that any payment is due and has not been made, execution may issue for such payment upon the order and at the discretion of the court after 15 days' prior notice to the person or estate ordered to make such payment.

SEC. 4. Section 909 of the Welfare and Institutions Code is amended to read:

909. In any case in which the county officers designated by the board of supervisors are charged with the duty of collecting amounts payable to the county under this article, upon the verified application of any such officer, the board of supervisors

may make an order discharging the officer from further accountability for the collection of any such amount in any case as to which the board determines that the amount is too small to justify the cost of collection or that the collection of such amount is improbable for any reason. Such order is authorization for the officer to close his books in regard to such item, but such discharge of accountability of the officer does not constitute a release of any person from liability for payment of any such amount which is due and owing to the county. The board may request a written opinion from the district attorney or county counsel as to whether any particular amount owed to the county is too small to justify the cost of collection or whether collection of any particular item is improbable.

shall have appeared in such action or proceeding, except such party or parties as shall be present in person or by attorney when the declaration shall be made.

In justice courts when, before the trial, either party makes and files an affidavit that he believes that he cannot have a fair and impartial trial before the judge before which the action is pending, by reason of the interest, prejudice or bias of the judge, the court may order the transfer of the action, and the provisions of Section 398 shall apply to such transfer.

Whenever a judge of a court of record who shall be disqualified under the provisions of this section, to sit or act as such in any action or proceeding pending before him, neglects or fails to declare his disqualification in the manner hereinbefore provided, any party to such action or proceeding who has appeared therein may present to the court and file with the clerk a written statement objecting to the hearing of such matter or the trial of any issue of fact or law in such action or proceeding before such judge, and setting forth the fact or facts constituting the ground of the disqualification of such judge. Copies of such written statement shall forthwith be served by the presenting party on each party, or his attorney, who has appeared in the action or proceeding and on the judge alleged in such statement to be disqualified.

Within 10 days after the filing of any such statement, or 10 days after the service of such statement as above provided, whichever is later in time, the judge alleged therein to be disqualified may file with the clerk his consent in writing that the action or proceeding be tried before another judge, or may file with the clerk his written answer admitting or denying any or all of the allegations contained in such statement and setting forth any additional fact or facts material or relevant to the question of his disqualifications. The clerk shall forthwith transmit a copy of the judge's consent or answer to each party or his attorney who shall have appeared in such action or proceeding. Every such statement and every such answer shall be verified by oath in the manner prescribed by Section 446 for the verification of pleadings. The statement of a party objecting to the judge on the ground of his disqualification, shall be presented at the earliest practicable opportunity, after his appearance and discovery of the facts constituting the ground of the judge's disqualification, and in any event before the commencement of the hearing of any issue of fact in the action or proceeding before such judge.

No judge of a court of record, who shall deny his disqualification, shall hear or pass upon the question of his own disqualification; but in every such case, the question of the judge's disqualification shall be heard and determined by some other judge agreed upon by the parties who shall have appeared in the action or proceeding, or, in the event of their failing to agree, by a judge assigned to act by the Chairman

of the Judicial Council, and, if the parties fail to agree upon a judge to determine the question of the disqualification, within five days after the expiration of the time allowed herein for the judge to answer, it shall be the duty of the clerk then to notify the Chairman of the Judicial Council of that fact; and it shall be the duty of the Chairman of the Judicial Council forthwith, upon receipt of notice from the clerk, to assign some other judge, not disqualified, to hear and determine the question.

If such judge admits his disqualification, or files his written consent that the action or proceeding be tried before another judge, or fails to file his answer within the five days herein allowed, or if it shall be determined after hearing that he is disqualified, the action or proceeding shall be heard and determined by another judge or justice not disqualified, who shall be agreed upon by the parties, or, in the event of their failing to agree, assigned by the Chairman of the Judicial Council; provided, however, that when there are two or more judges of the same court, one of whom is disqualified, the action or proceeding may be transferred to a judge who is not disqualified.

A judge who is disqualified may, notwithstanding his disqualification, request another judge, who has been agreed upon by the parties, to sit and act in his place.

6. In an action or proceeding brought in any court by or against the Reclamation Board of the State of California, or any irrigation, reclamation, levee, swampland or drainage district, or trustee, officer or employee thereof, affecting or relating to any real property, or an easement or right-of-way, levee, embankment, canal, or any work provided for or approved by the Reclamation Board of the State of California, a judge of the superior court of the county, or a judge of the municipal court or justice court of the judicial district, in which such real property, or any part thereof, or such easement or right-of-way, levee, embankment, canal or work, or any part thereof is situated shall be disqualified to sit or act, and such action shall be heard and tried by some other judge assigned to sit therein by the Chairman of the Judicial Council, unless the parties to the action shall sign and file in the action or proceeding a stipulation in writing, waiving the disqualification in this subdivision of this section provided, in which case such judge may proceed with the trial or hearing with the same legal effect as if no such legal disqualification existed. If, however, the parties to the action shall sign and file a stipulation, agreeing upon some other judge to sit or act in place of the judge disqualified under the provisions of this subdivision, the judge agreed upon shall be called by the judge so disqualified to hear and try such action or proceeding; provided, that nothing herein contained shall be construed as preventing the judge of the superior court of such county, or of the municipal court of such judicial district, from issuing a tempo-

rary injunction or restraining order, which shall, if granted, remain in force until vacated or modified by the judge designated as herein provided.

7. When, as a judge of a court of record, by reason of permanent or temporary physical impairment, he is unable to properly perceive the evidence or properly conduct the proceedings.

8. Notwithstanding anything contained in subdivision 6 of this section, a judge of the superior court or a judge of the municipal court or justice court of the judicial district, in which any real property is located, shall not be disqualified to hear or determine any matter in which the opposing party shall have failed to appear within the time allowed by law, or as to such of the opposing parties who shall have failed to appear within the time allowed by law, and as to which matter or parties the same shall constitute purely a default hearing; provided, that nothing in this section contained shall be construed as preventing the judge of the superior court of such county, or of the municipal court of such judicial district, from issuing an order for immediate possession in proceedings in eminent domain.

Nothing in this section contained shall affect a party's right to a change of the place of trial in the cases provided for in Title 4 (commencing with Section 392) of Part 2 of this code.

6006.5. "Occasional sale" includes:

(a) A sale of property not held or used by a seller in the course of activities for which he is required to hold a seller's permit or permits or would be required to hold a seller's permit or permits if the activities were conducted in this state, provided such sale is not one of a series of sales sufficient in number, scope and character to constitute an activity for which he is required to hold a seller's permit or would be required to hold a seller's permit if the activity were conducted in this state; and

(b) Any transfer of all or substantially all the property held or used by a person in the course of such activities when after such transfer the real or ultimate ownership of such property is substantially similar to that which existed before

There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use, or other consumption in this state of, a vehicle required to be registered under the Vehicle Code or a vessel or aircraft, when such property is included in any transfer of all or substantially all the property held or used in the course of business activities of the person selling the property, and when after such transfer the real or ultimate ownership of such property is substantially similar to that which existed before such transfer. For the purposes of this section, stockholders, bondholders, partners, or other persons holding an interest in a corporation or other entity are regarded as having the "real or ultimate ownership" of the property of such corporation or other entity.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 43804 of the Agricultural Code is amended to read:

43804. The "fancy" grade consists of well-grown, properly matured but not overripe apples of one variety which are handpicked, clean, fairly well colored, fairly well formed, free from decay, visible Baldwin spot, Jonathan spot, soft scald, internal breakdown, visible watercore, broken skin, and insect pests (except San Jose and similar scales); and free from appreciable damage caused by limb rub, spray burn, bruises (except such bruises as are necessarily caused in proper sorting or packing), sunscald, sunburn, russeting, drought spot, hail mark, frost injury, internal browning, apple scab, flyspeck fungus, stem or calyx cracks, insect pests, and other diseases or defects.

SEC. 2. Section 43805 of the Agricultural Code is amended to read:

43805. As used in this article "appreciable damage" means any injury or defect which appreciably affects the appearance or quality of the apple. The following defects are not appreciable damage:

(a) Limb rubs that are not soft or do not exceed an aggregate area of three-fourths inch in diameter.

(b) Sunscald, sunburn, and spray burn if the normal color of the skin is but slightly changed, and there is no blistering or cracking of the skin, and not more than a trace of discoloration in the flesh.

(c) Russeting that is excessively rough or barklike, and the aggregate area does not exceed three-fourths inch in diameter.

Russeting that is not excessively rough, and does not appear on more than 15 percent of the surface of any one apple in the aggregate, except in the case of all Pippins and Greenings, when it does not appear on more than 25 percent of the surface of any one apple in the aggregate.

Russeting in the stem cavity that cannot be seen when the apple is placed, stem end down on a flat surface, and viewed from the side of the apple at eye level, shall not be considered when determining the degree of damage due to russeting.

(d) Drought spots where the surface of the apple is only slightly discolored, depressed, and is no more than three-sixteenths of an inch in depth or affects an aggregate area not to exceed one-half inch in diameter.

(e) Hail marks if such marks do not exceed two in number on any one apple and the injury is superficial and the skin has not been broken.

(f) Frost injury that is not more than skindeep and affects an aggregate area that does not exceed one-half of an inch in diameter.

(g) Internal browning that shows not more than a trace of discoloration in the flesh.

(h) Scab spots on any apple that in the aggregate do not exceed one-fourth of one inch in diameter.

(i) Slight flyspeck fungus.

(j) Two well-healed casebearer, codling moth, or aphid stings on an apple, neither of which exceed one-eighth of an inch in diameter exclusive of any encircling green ring.

(k) Stinkbug injury that does not exceed an aggregate area of three-fourths inch diameter on an individual apple.

(*l*) San Jose and similar scales or marks when the number occurring on a green or yellow surface does not exceed three, or when occurring on a red surface not to exceed five.

(m) Stem or calyx cracks that are well healed and do not exceed one-fourth inch in aggregate length.

SEC. 3. Section 43806 of the Agricultural Code is amended to read:

43806. The "C" grade consists of properly matured but not overripe apples of one variety which are handpicked, virtually clean, free from decay, soft scald, internal breakdown, visible watercore, broken skin, and insect pests (except San Jose and similar scales); and free from serious damage caused by visible Baldwin spot, Jonathan spot, sunscald, sunspots, sunburn, spray burn, hail marks, frost injury, internal browning, bruises (except such bruises as are necessarily

caused in proper sorting or packing), apple scab, insect pests, stem or calyx cracks, storage scald, Jonathan freckle, and other diseases and defects.

SEC. 4. Section 43807 of the Agricultural Code is amended to read:

43807. As used in this article, "serious damage" means any injury or defect that seriously detracts from the appearance or quality of the apple. The following defects are not serious damage:

(a) Jonathan spot or Baldwin spot, that affects apples of the Newtown Pippin and Bellefleur varieties if no more than 25 percent, by count, of such apples in any one container or bulk lot are affected by no more than three spots each of either or both of such defects. Jonathan spot or visible Baldwin spot in any extent is serious in all other varieties of apples.

(b) Sunscald, sunburn, sunspots and spray burn, if there is no blistering or cracking of the skin or where the flesh is not seriously discolored or injured.

(c) Hail marks or frost injury, when such defects do not cover more than an aggregate area of one-tenth of the surface of the apple or materially deform or disfigure the fruit.

(d) Internal browning, that cannot be detected by external examination or pressure.

(e) Scab spots on any one apple that in the aggregate do not exceed one-half of one inch in diameter.

(f) Five well-healed casebearer, codling moth, or aphid stings on an apple, none of which may exceed one-eighth of an inch in diameter exclusive of any encircling green ring.

(g) Stinkbug injury that does not exceed an aggregate area of one and one-half inch diameter on an individual apple.

(h) Jonathan freckle on any one apple that in the aggregate does not exceed one-half of one inch in diameter.

(i) San Jose and similar scales or marks thinly scattered over not to exceed 10 percent of the surface.

(j) Stem or calyx cracks that are well healed and do not exceed one-half inch aggregate length.

CHAPTER 449

An act to amend Sections 68, 69, and 72 of, and to add Section 72.1 to, the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959), relating to the Antelope Valley-East Kern Water Agency.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 68 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 68. Whenever the board of directors deems it necessary for the agency to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act, the board shall, by resolution, so declare and call an election to be held in said agency for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of said agency. Said resolution shall state: (a) the purpose for which the proposed debt is to be incurred, which may include expenses of all proceedings for the authorization, issuance and sale of the bonds; (b) the amount of debt to be incurred; (c) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (d) the maximum rate of interest to be paid, which shall not exceed 6 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year; (e) the measure to be submitted to the voters; (f) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (g) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct. The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election, the last publication to be made not less than two weeks prior to the date of the proposed election, in at least one newspaper published in such agency, then such resolution shall be posted in three public places in such agency not less than two weeks prior to the date of the proposed election. No other notice of such election need be given. The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

SEC. 2. Section 69 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 69. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for such bonded indebtedness to be payable from taxes levied upon less than all of the agency, the board shall, by resolution, so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the agency which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the agency and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the agency or in the proposed improvement district, will be heard. Notice of said hearing shall be given by publishing a copy of the resolution pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in a newspaper printed and published in the Antelope Valley-East Kern Water Agency, if there is a newspaper printed and published in such agency. Such notice shall also be given by posting a copy of said resolution in six public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or within the proposed improvement district, may appear and present any

matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. The board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

The purpose, amount of bonded debt or boundaries shall not be changed by said board except after notices of its intention to do so, given by publication pursuant to Section 6061 of the Government Code in a newspaper printed and published in said Antelope Valley-East Kern Water Agency, if there is a newspaper printed and published in such agency, and by posting in six public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or the proposed improvement district, may appear and present any matters material to the changes stated in the notice. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the agency which will be benefited are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district, and that said portion of the agency set forth on said map shall thereupon constitute and be known as "Improvement District No. _____ of Antelope Valley-East Kern Water Agency," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within the Antelope Valley-East Kern Water Agency pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last mentioned resolution, and if the board deems it necessary to incur the bonded in-

debtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 6 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election prior to the date of the proposed election in at least one newspaper printed and published in the Antelope Valley-East Kern Water Agency, if there is a newspaper printed and published in such agency. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 3. Section 72 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 72. If from such returns it appears that more than two-thirds of the votes cast in such election held pursuant to the provisions of Section 68 or of Section 69 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue bonds of the agency for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for each of the series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed 6 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred dollars ($100). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the agency, countersigned by the secretary of the agency, and the official seal of

the agency attached. The interest coupons of such bonds shall be signed by the treasurer of said agency. All such signatures and countersignatures may be printed, lithographed or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the agency and shall be issued in the name of the agency and shall be designated "Bonds of the Antelope Valley-East Kern Water Agency for Improvement District No. _____" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the agency and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the agency may also be used for some other agency purpose. Such moneys remaining from the sale of bonds of the agency for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other agency purpose or improvement district purpose until two-thirds of the qualified voters of said agency or improvement district have consented thereto at a special election called in said agency or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency elections.

SEC. 4. Section 72.1 is added to the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959), to read:

Sec. 72.1. The board may, without a vote of the electors, provide for the issuance of, and issue, general obligation bonds of an improvement district thereof subject to the following conditions:

(a) The principal amount of such bonds does not exceed the then unissued balance of the principal amount of bonds

authorized at an election held in Improvement District No. 1 on November 26, 1963, or at an election held in Improvement District No. 3 on November 24, 1964.

(b) The bonds are issued for the same purpose as that for which the unissued bonds referred to in subdivision (a) were authorized.

(c) The bonds are issued in accordance with the provisions of this act, except for the requirement of a bond election.

Bonds issued pursuant to this section may bear interest at a rate or rates not to exceed 6 percent per year, payable semiannually, except that interest for the first year may be payable at the end of that year. When bonds are issued pursuant to this section, the unissued bonds referred to in subdivisions (a) and (b) of this section in a principal amount at least equal to the principal amount of bonds issued pursuant to this section, shall be canceled by order of the board and shall not be issued.

CHAPTER 450

An act to amend Section 7 of, and to add Sections 7.1, 7.2, 7.3, and 7.4 to, the Los Angeles County Flood Control Act (Chapter 755 of the Statutes of 1915), relating to the Los Angeles County Flood Control District.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 7 of the Los Angeles County Flood Control Act (Chapter 755 of the Statutes of 1915) is amended to read:

Sec. 7. The said board of supervisors shall, subject to the provisions of this act, prescribe by ordinance the form of said bonds, and of the interest coupons attached thereto. As to any bond issue authorized pursuant to this act prior to January 1, 1970, the bonds shall be payable substantially in the following manner: A part to be determined by said board, and which shall not be less than one-fortieth part of the whole amount of such indebtedness, shall be payable each and every year on a day and date, and at a place to be fixed by said board, and designate in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

As to any bond issue authorized pursuant to this act following January 1, 1970, the board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series; provided, that the earliest maturity of each issue or series, as the case may be shall not be more than two years from

the date of the bonds of said issue or series. The final maturity date of any bond shall not exceed 40 years from the date of the bond. Every year beginning with the date of the earliest maturity of each issue or series of bonds, as the case may be, not less than one-fortieth of the whole of the indebtedness evidenced by such issue or such series shall be payable.

The bonds shall be issued in such denominations as the said board of supervisors may determine and shall be payable on the day and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of 6 per centum per annum, and shall be payable semiannually, and said bonds shall be signed by the chairman of the board of supervisors, and countersigned by the auditor of said Los Angeles County, and the seal of said district shall be affixed thereto. The people of the State of California do enact as follows:

14290. The residence of the husband shall not be presumed to be that of the wife, but the wife's residence shall be determined independently in accord with this article.

CHAPTER 462

An act to amend Sections 755 and 772 of, and to add Section 760.5 to, the Probate Code, relating to sales of personal property.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 755 of the Probate Code is amended to read:

755. Except as provided by Sections 770, 771, and 772 of this code, all sales of property must be reported to the court and confirmed by the court before title to the property passes. The report must be verified. Such report and a petition for confirmation of the sale must be made within 30 days after each sale. The clerk shall set the petition for hearing by the court and give notice thereof for the period and in the manner required by Section 1200 of this code.

SEC. 2. Section 760.5 is added to the Probate Code, to read:

760.5. The executor or administrator may enter into a written contract with any bona fide auctioneer, authorized to act as such in the locality, to conduct a public sale and to secure purchasers by such method for any tangible personal property of the estate.

The contract may provide for payment to the auctioneer of a fee or commission out of the proceeds of sale and for reimbursement of expenses, in amounts to be determined by the court if the sale is approved. By the execution of such contract no personal liability shall attach to the executor or administrator, and no liability of any kind shall be incurred by the estate in connection with such contract or sale until such court approval, except for its obligations to the purchaser of per-

sonal property as to which title passes pursuant to Section 772 without court confirmation or approval. The contract may provide that tangible personal property of two or more estates being administered by the same executor or administrator may be sold at the same public sale. Items of tangible personal property may be sold separately or in a lot with other items from the same estate. A sale pursuant to such contract shall be with reserve. The auctioneer shall comply with the instructions of the executor or administrator with respect to withdrawal of items, risk of loss, place of delivery, warranties, and other matters.

SEC. 3. Section 772 of the Probate Code is amended to read:

772. Except as provided in Sections 757, 770, and 771 of this code, personal property may be sold only after notice posted at the courthouse of the county in which the proceedings are pending at least 10 days before the sale or, in case of a private sale, at least 10 days before the day on or after which the sale is to be made; or by publication pursuant to Section 6063a of the Government Code in a newspaper in such county, or by both, as the executor or administrator may determine. If it is shown that it will be for the best interests of the estate, the court may shorten the time of notice to no less than five days, and such notice must then be posted, or published pursuant to Section 6061 of the Government Code in the county in which the proceedings are pending, at least five days before the sale, or, in the case of a private sale, at least five days before the day on or after which the sale is to be made. Notice given pursuant to this section shall contain the time and place of sale, and a brief description of the property to be sold and stating whether the sale is to be a private or public sale. In case of a private sale the notice must state a place at which bids or offers will be received and a day on or after which the sale will be made and the sale must not be made before that day but must be made within one year thereafter. Public sales, must be made at the courthouse door, or at some other public place, or at the residence of the decedent; but no public sale shall be made of any personal property which is not present at the time of sale, unless the court shall otherwise order. A public sale may be postponed from time to time if the executor or administrator deems it for the interests of all persons concerned, such postponement not to exceed in all three months. In case of such postponement, notice thereof must be given by public declaration at the time and place appointed for the sale.

Title to tangible personal property sold at public sale passes upon receipt of the purchase price and delivery of the property to the buyer but the executor or administrator is responsible for the actual value of the property unless, after making a sworn return, and on proper showing, the court shall approve the sale.

CHAPTER 463

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 25504.5 is added to the Government Code, to read:

The approval by the board of supervisors of the sale and leaseback shall be given only if the board of supervisors finds, by resolution, that the sale and leaseback is the most economical means for providing electronic data processing equipment to the county.

CHAPTER 464

An act to amend Section 716 of the Insurance Code, relating to insurance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 8, 1969. Filed with Secretary of State July 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 716 of the Insurance Code is amended to read:

716. No certificate of authority shall be granted to a foreign or alien applicant that has not actively transacted for three years the classes of insurance for which it seeks to be admitted.

This section shall not apply to any of the following:

(a) An applicant 51 percent or more of whose voting shares are owned by a reputable insurer admitted to this state for at least three years.

(b) An applicant which is the successor in interest, by merger, transformation, consolidation, purchase, or other transaction, of substantially all the insurance business and going concern value of a reputable insurer which was, and still is, the dominant factor in such transaction, and could itself have been admitted.

(c) An applicant 51 percent or more of whose voting shares are owned by a noninsurance corporation, or a corporation au-

thorized as an insurer but not actively engaged in the insurance business, which corporation, directly or indirectly, owns 51 percent or more of the voting shares of one or more insurers all of which, except the applicant and those which are alien insurers, are reputable insurers admitted to this state for at least three years.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

The Insurance Code contains limitations which prevent the certification (licensing) of an insurance company unless the company has transacted insurance elsewhere or is a subsidiary of an insurance company which has been certificated in California for at least three years. This is known as a "seasoning" statute.

The Small Business Administration of the United States government has authority to and funds available to make loans for the purpose of starting small business to persons, usually of minority ethnic groups, who could not start business without such loans. The Small Business Administration requires the borrower to have a long-term lease on a good location. Normally the landlord will not grant such a lease to such a borrower unless rent payments under the lease are guaranteed by an insurance policy. No insurance company currently certificated in California is willing to write such lease guarantee policies. One or two insurance companies who will write such insurance currently are barred from certification by the aforementioned "seasoning" statute and otherwise qualified for certification could become certificated if the "seasoning" rule be slightly amended as suggested by this act.

The benefits to the peace, health, and safety of this state to arise by making possible commencement of small businesses by the currently disadvantaged are universally known. The removal of unnecessary and restrictive limitations from the Insurance Code as soon as possible is urgently required so that this advantageous result may be obtained.

CHAPTER 465

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety, within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

The district is required to publish its budget on or before August 15 of each year, and present the budget to the county superintendent of schools for review and determination of the amount of money which must be provided by a school district tax. CHAPTER 480

An act to amend Section 1174 of the Code of Civil Procedure, relating to unlawful detainer.

[Approved by Governor July 10, 1969. Filed with Secretary of State July 11, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1174 of the Code of Civil Procedure is amended to read:

1174. If upon the trial, the verdict of the jury, or, if the case be tried without a jury, the findings of the court be in favor of the plaintiff and against the defendant, judgment shall be entered for the restitution of the premises; and if the proceedings be for an unlawful detainer after neglect, or failure to perform the conditions or covenants of the lease or agreement under which the property is held, or after default in the payment of rent, the judgment shall also declare the forfeiture of such lease or agreement if the notice required by Section 1161 of the code states the election of the landlord to declare the forfeiture thereof, but if such notice does not so state such election, the lease or agreement shall not be forfeited.

The jury or the court, if the proceedings be tried without a jury, shall also assess the damages occasioned to the plaintiff

by any forcible entry, or by any forcible or unlawful detainer, alleged in the complaint and proved on the trial, and find the amount of any rent due, if the alleged unlawful detainer be after default in the payment of rent. Judgment against the defendant guilty of the forcible entry, or the forcible or unlawful detainer may be entered in the discretion of the court either for the amount of the damages and the rent found due, or for three times the amount so found.

When the proceeding is for an unlawful detainer after default in the payment of rent, and the lease or agreement under which the rent is payable has not by its terms expired, and the notice required by Section 1161 has not stated the election of the landlord to declare the forfeiture thereof, the court may, and, if the lease or agreement is in writing, is for a term of more than one year, and does not contain a forfeiture clause, shall order that execution upon the judgment shall not be issued until the expiration of five days after the entry of the judgment, within which time the tenant, or any subtenant, or any mortgagee of the term, or any other party interested in its continuance, may pay into the court, for the landlord, the amount found due as rent, with interest thereon, and the amount of the damages found by the jury or the court for the unlawful detainer, and the costs of the proceedings, and thereupon the judgment shall be satisfied and the tenant be restored to his estate.

But if payment as here provided be not made within five days, the judgment may be enforced for its full amount, and for the possession of the premises. In all other cases the judgment may be enforced immediately.

A plaintiff, having obtained a writ of restitution of the premises pursuant to an action for unlawful detainer, shall be entitled to have the premises restored to him by officers charged with enforcement of such writs. The enforcing officer shall serve such writ promptly upon payment of reasonable costs of service. If the tenant does not vacate the premises within five days from the date of service of such writ, the enforcing officer shall remove the tenant from the premises and place the plaintiff in possession thereof.

All goods, chattels or personal property of the tenant remaining on the premises at the time of its restitution to the plaintiff shall be stored by the plaintiff in a place of safekeeping for a period of 30 days and may be redeemed by the tenant upon payment of reasonable costs incurred by the plaintiff in providing such storage and the judgment rendered in favor of plaintiff, including costs. Plaintiff may, if he so elects, store such goods, chattels or personal property of the tenant on the premises, and the costs of storage in such case shall be the fair rental value of the premises for the term of storage. An inventory shall be made of all goods, chattels or personal property left on the premises prior to its removal and storage or storage on the premises. Such inventory shall either be made

by the enforcing officer or shall be verified in writing by him. The enforcing officer shall be entitled to his costs in preparing or verifying such inventory.

In the event the property so held is not removed within 30 days, such property shall be deemed abandoned and may be sold at a public sale by competitive bidding, to be held at the place where the property is stored, after notice of the time and place of such sale has been given at least five days before the date of such sale by publication once in a newspaper of general circulation published in the county in which the sale is to be held. Notice of the public sale may not be given more than five days prior to the expiration of the 30 days during which the property is to be held in storage. All money realized from the sale of such personal property shall be used to pay the costs of the plaintiff in storing and selling such property, and any balance thereof shall be applied in payment of plaintiff's judgment, including costs. Any remaining balance shall be returned to the defendant.

If such local agency commences an adjudication, the board shall take no further action, except that the board may, through the Attorney General, become a party to such action.

In doing so, the department shall cooperate with counties, cities, state agencies, and public districts to the end that planning for water quality control shall be coordinated to the maximum extent possible. Such plans and recommendations shall be transmitted to the State Water Resources Control Board and to the appropriate California regional water quality control boards for their consideration in the adoption of state policy for water quality control, water quality control plans, and waste discharge requirements.

13000. The Legislature finds and declares that the people of the state have a primary interest in the conservation, control, and utilization of the water resources of the state, and that the quality of all the waters of the state shall be protected for use and enjoyment by the people of the state.

The Legislature further finds and declares that activities and factors which may affect the quality of the waters of the state shall be regulated to attain the highest water quality which is reasonable, considering all demands being made and to be made on those waters and the total values involved, beneficial and detrimental, economic and social, tangible and intangible.

The Legislature further finds and declares that the health, safety and welfare of the people of the state requires that there be a statewide program for the control of the quality of all the waters of the state; that the state must be prepared to exercise its full power and jurisdiction to protect the quality of waters in the state from degradation originating inside or outside the boundaries of the state; that the waters of the state are increasingly influenced by interbasin water development projects and other statewide considerations; that factors of precipitation, topography, population, recreation, agriculture, industry and economic development vary from region to region within the state; and that the statewide program for water quality control can be most effectively administered regionally, within a framework of statewide coordination and policy.

13001. It is the intent of the Legislature that the state board and each regional board shall be the principal state agencies with primary responsibility for the coordination and control of water quality. The state board and regional boards in exercising any power granted in this division shall conform to and implement the policies of this chapter and shall, at all times, coordinate their respective activities so as to achieve a unified and effective water quality control program in this state.

13002. No provision of this division or any ruling of the state board or a regional board is a limitation:

(a) On the power of a city or county or city and county to adopt and enforce additional regulations, not in conflict

therewith, imposing further conditions, restrictions, or limitations with respect to the disposal of waste or any other activity which might degrade the quality of the waters of the state.

(b) On the power of any city or county or city and county to declare, prohibit, and abate nuisances.

(c) On the power of the Attorney General, at the request of a regional board, the state board, or upon his own motion, to bring an action in the name of the people of the State of California to enjoin any pollution or nuisance.

(d) On the power of a state agency in the enforcement or administration of any provision of law which it is specifically permitted or required to enforce or administer.

(e) On the right of any person to maintain at any time any appropriate action for relief against any private nuisance as defined in the Civil Code or for relief against any contamination or pollution.

For purposes of this section the boundaries of the state extend three nautical miles into the Pacific Ocean from the line of mean lower low water marking the seaward limits of inland waters and three nautical miles from the line of mean lower low water on the mainland and each offshore island.

Nothing in this section shall limit the power conferred by this chapter to regulate the disposal of waste into ocean waters beyond the boundaries of the state.

13201. (a) There is a regional board for each of the regions described in Section 13200. Each board shall consist of the following nine members appointed by the Governor, each of whom shall represent and act on behalf of all the people and shall reside or have a principal place of business within the region:

(i) Encourage regional planning and action for water quality control.

Article 3. Regional Water Quality Control Plan

13240. Each regional board shall formulate and adopt water quality control plans for all areas within the region. Such plans shall conform to the policies set forth in Chapter 1 (commencing with Section 13000) of this division and any state policy for water quality control. During the process of formulating such plans the regional boards shall consult with and consider the recommendations of affected state and local agencies. Such plans shall be periodically reviewed and may be revised.

13241. Each regional board shall establish such water quality objectives in water quality control plans as in its judgment will ensure the reasonable protection of beneficial uses and the prevention of nuisance; however, it is recognized that it may be possible for the quality of water to be changed to some

degree without unreasonably affecting beneficial uses. Factors to be considered by a regional board in establishing water quality objectives shall include, but not necessarily be limited to, all of the following:

(a) Past, present, and probable future beneficial uses of water.

(b) Environmental characteristics of the hydrographic unit under consideration, including the quality of water available thereto.

(c) Water quality conditions that could reasonably be achieved through the coordinated control of all factors which affect water quality in the area.

(d) Economic considerations.

13242. The program of implementation for achieving water quality objectives shall include, but not be limited to:

(a) A description of the nature of actions which are necessary to achieve the objectives, including recommendations for appropriate action by any entity, public or private.

(b) A time schedule for the actions to be taken.

(c) A description of surveillance to be undertaken to determine compliance with objectives.

13243. A regional board, in a water quality control plan or in waste discharge requirements, may specify certain conditions or areas where the discharge of waste, or certain types of waste, will not be permitted.

13244. The regional boards shall not adopt any water quality control plan unless a public hearing is first held, after the giving of notice of such hearing by publication in the affected county or counties pursuant to Section 6061 of the Government Code. When the plan proposes to prohibit discharges of waste pursuant to Section 13243, similar notice shall be given by publication pursuant to Section 6061.3 of the Government Code.

13245. A water quality control plan, or a revision thereof, shall not become effective unless and until it is approved by the state board. The state board may approve such plan, or return it to the regional board for further consideration and resubmission to the state board. Upon resubmission the state board may either approve or, after a public hearing in the affected region, revise and approve such plan.

13246. The state board shall act upon any water quality control plan within 60 days after the regional board has submitted such plan to the state board, or 90 days after resubmission of such plan.

13247. State offices, departments, and boards, in carrying out activities which may affect water quality, shall comply with water quality control plans approved by the state board unless otherwise directed or authorized by statute, in which case they shall indicate to the regional boards in writing their authority for not complying with such plans.

Article 4. Waste Discharge Requirements

13260. (a) Any person discharging waste or proposing to discharge waste within any region that could affect the quality of the waters of the state, other than into a community sewer system, and any person who is a citizen, domiciliary, or political agency or entity of this state discharging waste or proposing to discharge waste outside the boundaries of the state in a manner that could affect the quality of the waters of the state within any region, shall file with the regional board of that region a report of the discharge, containing such information as may be required by the board. No report need be filed when such requirement is waived pursuant to Section 13269.

(b) Every such person discharging waste shall file with the regional board of that region a report of any material change or proposed change in the character, location, or volume of the discharge.

(c) Each report under this section shall be sworn to or submitted under penalty of perjury.

(d) Each report under this section shall be accompanied by a filing fee of not to exceed one thousand dollars ($1,000) according to a reasonable fee schedule established by the state board.

(e) When a report filed by any person pursuant to this section is not adequate in the judgment of the regional board, the board may require such person to supply such additional information as it deems necessary.

13261. Any person failing to furnish a report under Section 13260 when so requested by a regional board or falsifying any information provided under that section is guilty of a misdemeanor.

13262. The Attorney General, at the request of the regional board, shall petition the superior court for the issuance of a temporary restraining order, temporary injunction, or permanent injunction, or combination thereof, as may be appropriate, requiring any person not complying with Section 13260 to comply therewith.

13263. (a) The regional board, after any necessary hearing, shall prescribe requirements as to the nature of any proposed discharge, existing discharge, or material change therein, except discharges into a community sewer system, with relation to the conditions existing from time to time in the disposal area or receiving waters upon or into which the discharge is made or proposed. The requirements shall implement relevant water quality control plans, if any have been adopted, and shall take into consideration the beneficial uses to be protected, the water quality objectives reasonably required for that purpose, other waste discharges, the need to prevent nuisance, and the provisions of Section 13241.

(b) A regional board, in prescribing requirements, need not authorize the utilization of the full waste assimilation capacities of the receiving waters.

(c) The requirements may contain a time schedule, subject to revision in the discretion of the board.

(d) The board may prescribe requirements although no discharge report has been filed.

(e) Upon application by any affected person or on its own motion, the regional board may review and revise requirements. All requirements shall be reviewed periodically.

(f) The regional board shall notify in writing the person making or proposing the discharge or the change therein of the discharge requirements to be met. After receipt of such notice, the person so notified shall provide adequate means to meet such requirements.

(g) No discharge of waste into the waters of the state, whether or not such discharge is made pursuant to waste discharge requirements, shall create a vested right to continue such discharge. All discharges of waste into waters of the state are privileges, not rights.

13264. (a) No such person shall initiate any new discharge of waste or make any material change in any discharge prior to the filing of the report required by Section 13260 nor shall any such person do so thereafter and prior to: (1) the issuance of waste discharge requirements pursuant to Section 13263, (2) the expiration of 120 days after his compliance with Section 13260, or (3) the regional board's waiver pursuant to Section 13269, whichever of (1), (2), or (3) occurs first.

(b) The Attorney General, at the request of a regional board, shall petition the superior court for the issuance of a temporary restraining order, preliminary injunction, or permanent injunction, or combination thereof, as may be appropriate, prohibiting forthwith any person who is violating or threatening to violate this section from: (1) discharging the waste in question or (2) making any material change therein, whichever of (1) or (2) is applicable.

13265. Any person discharging waste in violation of Section 13264, after such violation has been called to his attention in writing by the regional board, is guilty of a misdemeanor. Each day of such discharge shall constitute a separate offense.

13266. Pursuant to such regulations as the regional board may prescribe, each city, county, or city and county shall notify the regional board of the filing of a tentative subdivision map, or of any application for a building permit which may involve the discharge of waste, other than discharges into a community sewer system and discharges from dwellings involving five-family units or less.

13267. (a) A regional board, in establishing or reviewing any water quality control plan or waste discharge requirements, or in connection with any action relating thereto, may investigate the quality of any waters of the state within its region.

(b) In such an investigation, the regional board may require that any person discharging or proposing to discharge waste within its region or any citizen or domiciliary, or political agency or entity of this state discharging or proposing to discharge waste outside of its region that could affect the quality of waters within its region shall furnish, under penalty of perjury, such technical or monitoring program reports as the board may specify; provided that the burden, including costs, of such reports shall bear a reasonable relationship to the need for the report and the benefits to be obtained therefrom.

When requested by the person furnishing a report, the portions of a report which might disclose trade secrets or secret processes shall not be made available for inspection by the public but shall be made available to governmental agencies for use in making studies; provided, however, that such portions of a report shall be available for use by the state or any state agency in judicial review or enforcement proceedings involving the person furnishing the report.

(c) In such an investigation, the regional board may inspect the facilities of any such person to ascertain whether the purposes of this division are being met and waste discharge requirements are being complied with. Such inspection shall be made with the consent of the owner or possessor of such facilities or, if such consent is refused, with a warrant duly issued pursuant to the procedure set forth in Title 13 (commencing with Section 1822.50) of Part 3 of Code of Civil Procedure; provided, however, that in the event of an emergency affecting the public health or safety such inspection may be made without consent or the issuance of a warrant.

13268. Any person failing or refusing to furnish technical or monitoring program reports as required by subdivision (b) of Section 13267 or falsifying any information provided therein is guilty of a misdemeanor.

13269. The provisions of subdivisions (a) and (b) of Section 13260, subdivision (a) of Section 13263, or subdivision (a) of Section 13264 may be waived by a regional board as to a specific discharge or a specific type of discharge where such waiver is not against the public interest. Such waiver shall be conditional and may be terminated at any time by the board.

CHAPTER 5. ENFORCEMENT AND IMPLEMENTATION

Article 1. Administrative Enforcement and Remedies by Regional Boards

13300. Whenever a regional board finds that a discharge of waste is taking place or threatening to take place within its region that violates or will violate requirements prescribed by the regional board or that the waste collection, treatment, or disposal facilities of a discharger are approaching capacity, the board may require the discharger to submit for ap-

proval of the board, with such modifications as it may deem necessary, a detailed time schedule of specific actions the discharger shall take in order to correct or prevent a violation of requirements.

13301. When a regional board finds that a discharge of waste is taking place or threatening to take place within its region in violation of requirements or discharge prohibitions prescribed by the regional board, the board may issue an order to cease and desist and direct that those persons not complying with the requirements or discharge prohibitions (a) comply forthwith, (b) comply in accordance with a time schedule set by the board, or (c) in the event of a threatened violation, take appropriate remedial or preventive action. In the event of an existing or threatened violation of waste discharge requirements in the operation of a community sewer system, cease and desist orders may restrict or prohibit the volume, type, or concentration of waste that might be added to such system by dischargers who did not discharge into the system prior to the issuance of the cease and desist order. Cease and desist orders may be issued directly by a board, after notice and hearing, or in accordance with the procedure set forth in Section 13302.

13302. (a) Hearings for consideration of issuance of a cease and desist order may be conducted by hearing panels designated by the regional board, each panel to consist of three or more members of the board as it may specify. A member of the board may serve on more than one panel.

(b) Due notice of the hearing shall be given to all affected persons. After the hearing, the panel shall report its proposed decision and order to the regional board and shall supply a copy to all parties who appeared at the hearing and requested a copy. Members of the panel are not disqualified from sitting as members of the board in deciding the matter. The board, after making such independent review of the record and taking such additional evidence as may be necessary, may adopt, with or without revision, the proposed decision and order of the panel.

13303. Cease and desist orders of the board shall become effective and final as to the board upon issuance thereof. Copies shall be served forthwith by registered mail upon the person being charged with the violation of the requirements and upon other affected persons who appeared at the hearing and requested a copy.

13304. (a) Any person who discharges waste into the waters of this state in violation of any waste discharge requirement or other order issued by a regional board, or who intentionally or negligently causes or permits any waste to be deposited where it is discharged into the waters of the state and creates a condition of pollution or nuisance, shall upon order of the regional board clean up such waste or abate the effects thereof. Upon failure of any person to comply with

such cleanup or abatement order, the Attorney General, at the request of the board, shall petition the superior court for that county for the issuance of an injunction requiring such person to comply therewith. In any such suit, the court shall have jurisdiction to grant a prohibitory or mandatory injunction, either preliminary or permanent, as the facts may warrant.

(b) If such waste is cleaned up or the effects thereof abated by any governmental agency after issuance of a regional board cleanup or abatement order, such person shall be liable to that governmental agency to the extent of the reasonable costs actually incurred in cleaning up such waste or abating the effects thereof. The amount of such costs shall be recoverable in a civil action by, and paid to, such governmental agency and the state board to the extent of the latter's contribution to the cleanup costs from the State Water Pollution Cleanup and Abatement Account.

13305. (a) Upon determining that a condition of pollution or nuisance exists which has resulted from a nonoperating industrial or business location within its region, a regional board may cause notice of such condition to be posted upon the property in question. The notice shall state that such condition constitutes either a condition of pollution or nuisance which must be abated by correction of such condition, otherwise it will be corrected by the city, county, other public agency, or regional board at the property owner's expense. Such notice shall further state that all property owners having any objections to the proposed correction of such condition may attend a hearing to be held by the board at a time not less than 10 days from the posting of the notice.

(b) Notice of the hearing prescribed in this section shall be given in the county where the property is located pursuant to Section 6061 of the Government Code.

(c) In addition to posting and publication, notice as required in this section shall be mailed to the property owners as their names and addresses appear from the last equalized assessment roll.

(d) At the time stated in the notices, the board shall hear and consider all objections or protests, if any, to the proposed correction of the condition, and may continue the hearing from time to time.

(e) After final action is taken by the board on the disposition of any protests or objections, or in case no protests or objections are received, the board shall request the city, county, or other public agency in which the conditions of pollution or the nuisance exists to abate it. In the event that such city, county, or other public agency does not abate such condition within a reasonable time the board shall cause the condition to be abated. It may proceed by force account, contract or other agreement or any other method deemed

most expedient by the board, and shall apply to the state board for the necessary funds.

(f) The owner of the property on which the condition exists, or is created, is liable for all reasonable costs incurred by the board or any city, county, or public agency in abating the condition and the amount of the cost for abating the condition upon the property in question shall constitute a lien upon the property and notice of such lien and the amount thereof shall be recorded in the county in which the property is located. Such lien may be foreclosed by an action brought by the city, county, other public agency, or state board, on behalf of the regional board, for a money judgment. Money recovered by a judgment in favor of the state board shall be returned to the State Water Pollution Cleanup and Abatement Account.

(g) As used in this section, the words "nonoperating" or "not in operation" mean the business is not conducting routine operations usually associated with that kind of business.

Article 2. Administrative Enforcement and Remedies by the State Board

13320. (a) Upon petition by any aggrieved person or upon its own motion, the state board may at any time review any action or failure to act by a regional board under Article 4 (commencing with Section 13260) of Chapter 4 of this division or under Chapter 5 (commencing with Section 13300) of this division.

(b) The evidence before the state board shall consist of (i) the record before the regional board, and (ii) any other relevant evidence which, in the judgment of the state board, should be considered to effectuate and implement the policies of this division.

(c) The state board may find the regional board action or inaction to be appropriate and proper. Upon finding that the action of the regional board, or the failure of the regional board to act, was inappropriate or improper, the state board may: (1) direct that the appropriate action be taken by the regional board, (2) refer the matter to any other state agency having jurisdiction, (3) take the appropriate action itself, or (4) any combination of the foregoing. In taking any such action, the state board is vested with all the powers of the regional boards under this division.

(d) In the event a waste discharge in one region affects the waters in another region and there is any disagreement between the regional boards involved as to the requirements which should be established, either regional board may submit the disagreement to the state board which shall determine the applicable requirements.

13321. (a) In the case of a review by the state board under Section 13320, the state board, upon notice and a hear-

ing, may stay in whole or in part the effect of the decision and order of a regional board or of the state board.

(b) If a petition is filed with the superior court to review a decision of the state board, any stay in effect at the time of the filing the petition shall remain in effect by operation of law for a period of 20 days from the date of the filing of such petition.

Article 3. Judicial Review and Enforcement

13330. (a) Within 30 days after service of a copy of a decision and order issued by the state board under Section 13320, any aggrieved party may file with the superior court a petition for a writ of mandate for review thereof. Failure to file such an action shall not preclude a party from challenging the reasonableness and validity of a decision or order of a regional board or the state board in any judicial proceedings brought to enforce such decision or order or for other civil remedies.

(b) The evidence before the court shall consist of the record before the state board, including the regional board's record, and any other relevant evidence which, in the judgment of the court, should be considered to effectuate and implement the policies of this division. In every such case, the court shall exercise its independent judgment on the evidence.

(c) Except as otherwise provided herein, the provisions of subdivisions (e) and (f) of Section 1094.5 of the Code of Civil Procedure shall govern proceedings pursuant to this section.

13331. (a) Upon the failure of any person or persons to comply with any cease and desist order issued by a regional board or the state board, the Attorney General, upon request of the board, shall petition the superior court for the issuance of a preliminary or permanent injunction, or both, as may be appropriate, restraining such person or persons from continuing the discharge in violation of the cease and desist order.

(b) The evidence before the court shall consist of the record before the regional board or state board, or both, and any other relevant evidence which, in the judgment of the court, should be considered to effectuate and implement the policies of this division In every such case, the court shall exercise its independent judgment on the evidence.

(c) The court shall issue an order directing defendants to appear before the court at a time and place certain and show cause why the injunction should not be issued. The court may grant such prohibitory or mandatory relief as may be warranted.

(d) The court may stay the operation of the cease and desist order. Any such stay may be imposed or continued only if it is not against the public interest.

Article 4. Summary Judicial Abatement

13340. Whenever a regional board finds that a discharge of waste within its region is taking place or threatening to take place which does or will cause a condition of pollution or nuisance, constituting an emergency requiring immediate action to protect the public health, welfare, or safety, the Attorney General, upon request of the board, shall petition the superior court to enjoin such discharge. The court shall have jurisdiction to grant such prohibitory or mandatory injunctive relief as may be warranted by way of temporary restraining order, preliminary injunction, and permanent injunction.

Article 5. Civil Monetary Remedies

13350. (a) Any person who intentionally or negligently violates any cease and desist order hereafter issued, reissued, or amended by a regional board or the state board may be liable civilly in a sum of not to exceed six thousand dollars ($6,000) for each day in which such violation occurs.

(b) The Attorney General, upon request of the regional or state board, shall petition the superior court to impose, assess and recover such sums. In determining such amount, the court shall take into consideration all relevant circumstances, including but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs and corrective action, if any, taken by the discharger.

(c) The provisions of Articles 3 (commencing with Section 13330) and 6 (commencing with Section 13360) of this chapter shall apply to proceedings to impose, assess and recover an amount pursuant to this article.

Article 6. General Provisions Relating to Enforcement and Review

13360. No waste discharge requirement or other order of a regional or state board or decree of court issued under the provisions of this division shall specify the design, location, type of construction or particular manner in which compliance may be had with such requirement, order or decree, and the person so ordered shall be permitted to comply therewith in any lawful manner; provided, however, that if the court, in an action for an injunction brought under this division, finds that the enforcement of an injunction restraining the discharger from discharging waste would be impracticable, the court shall have the power to issue any order reasonable under the circumstances requiring specific measures to be undertaken by the discharger to comply with the discharge requirements, order or decree.

13361. (a) Every civil action brought under the provisions of this division at the request of a regional board or the

state board shall be brought by the Attorney General in the name of the people of the State of California and any such actions relating to the same discharge may be joined or consolidated.

(b) Any civil action brought pursuant to this division shall be brought in a county in which the discharge is made, or proposed to be made.

(c) In any civil action brought pursuant to this division in which a temporary restraining order, preliminary injunction, or permanent injunction is sought, it shall not be necessary to allege or prove at any stage of the proceeding that irreparable damage will occur should the temporary restraining order, preliminary injunction, or permanent injunction not be issued, or that the remedy at law is inadequate, and the temporary restraining order, preliminary injunction, or permanent injunction shall issue without such allegations and without such proof.

CHAPTER 6. STATE FINANCIAL ASSISTANCE

Article 1. State Water Quality Control Fund

13400. As used in this chapter, unless otherwise apparent from the context:

(a) "Fund" means the State Water Quality Control Fund.

(b) "Public agency" means any city, county, city and county, district, or other political subdivision of the state.

(c) "Facilities" means either or both: (1) facilities for the collection, treatment, or export of waste when necessary to prevent water pollution or (2) facilities to reclaim waste waters and to convey reclaimed water.

13401. The State Water Quality Control Fund is continued in existence. The following moneys in the fund are appropriated, without regard to fiscal years, for expenditure by the state board in making loans to public agencies in accordance with the provisions of this chapter:

(a) The balance of the original moneys deposited therein.

(b) Any money repaid thereto.

(c) Any remaining balance of the money in the fund deposited therein after the specific appropriations for loans to the South Tahoe Public Utility District, the North Tahoe Public Utility District, the Tahoe City Public Utility District, the Truckee Sanitary District, and to any other governmental entity in the areas served by such districts have been made.

Article 2. Loans to Local Agencies

13410. Applications for construction loans under this chapter shall include:

(a) A description of the proposed facilities.

(b) A statement of facts showing the necessity for the proposed facilities and showing that funds of the public agency

are not available for financing such facilities and that the sale of revenue or general obligation bonds through private financial institutions is impossible or would impose an unreasonable burden on the public agency.

(c) A proposed plan for repaying the loan.

(d) Other information as required by the state board.

13411. Upon a determination by the state board, after consultation with the State Board of Public Health, that (a) the facilities proposed by an applicant are necessary to the health or welfare of the inhabitants of the state, (b) that the proposed facilities meet the needs of the applicant, (c) that funds of the public agency are not available for financing such facilities and that the sale of revenue or general obligation bonds through private financial institutions is impossible or would impose an unreasonable burden on the public agency, (d) that the proposed plan for repayment is feasible, (e) in the case of facilities proposed under Section 13400(c)(1) that such facilities are necessary to prevent water pollution, and (f) in the case of facilities proposed under Section 13400(c)(2) that such facilities will produce reclaimed water and that the public agency has adopted a feasible program for use thereof, the state board, subject to approval by the Director of Finance, may loan to the applicant such sum as it determines is not otherwise available to the public agency to construct the proposed facilities.

13412. No loan shall be made to a public agency unless it executes an agreement with the state board under which it agrees to repay the amount of the loan, with interest, within 25 years following, at the election of the state board and with the concurrence of the Director of Finance, a 10-year moratorium on principal and interest payments. Except as otherwise provided in this section, the interest shall be at a rate equal to the average, as determined by the state board, of the net interest costs to the state on the sales of general obligation bonds of the state that occurred during the calendar year immediately preceding the calendar year in which the interest falls due. The interest falling due after the moratorium shall be payable at the last rate applied during the moratorium. However, when the applicable average of the net interest costs to the state is not a multiple of one-tenth of 1 percent, the interest rate shall be at the multiple of one-tenth of 1 percent next above the applicable average of the net interest costs.

The interest rate applicable to any loan made pursuant to this chapter for which an application was filed prior to January 1, 1967, shall be at the rate of 2 percent.

13413. It is the policy of this state that, in making construction loans under this article, the state board should give special consideration to facilities proposed to be constructed by public agencies in areas in which further construction of buildings has been halted by order of the Department of Public Health or a local health department, or both, or notice has

been given that such an order is being considered; provided, however, that each of the public agencies designated in this section shall otherwise comply with all of the other provisions of this chapter.

13414. All money received in repayment of loans under this chapter shall be paid to the State Treasurer and credited to the fund.

13415. (a) Loans may be made by the state board to public agencies to pay not more than one-half of the cost of studies and investigations made by such public agencies in connection with waste water reclamation.

(b) Not more than a total of two hundred thousand dollars ($200,000) shall be loaned pursuant to this section in any fiscal year, and not more than fifty thousand dollars ($50,000) shall be loaned to any public agency in any fiscal year pursuant to this section. In the event that less than two million dollars ($2,000.000) is available in any fiscal year for loans under this article, then not more than 10 percent of the available amount shall be available for loans for studies and investigations pursuant to this section.

(c) Applications for such loans shall be made in such form, and shall contain such information, as may be required by the state board.

(d) Such loans shall be repaid within a period not to exceed 10 years, with interest at a rate established in the manner provided in Section 13412.

13416. Before a public agency may enter into a contract with the state board for a construction loan under this chapter, the public agency shall hold an election on the proposition of whether or not the public agency shall enter into the proposed contract and more than 50 percent of the votes cast at such election must be in favor of such proposition.

13417. The election shall be held in accordance with the following provisions:

(a) The procedure for holding an election on the incurring of bonded indebtedness by such public agency shall be utilized for an election of the proposed contract as nearly as the same may be applicable. Where the law applicable to such agency does not contain such bond election procedure, the procedure set forth in the Revenue Bond Law of 1941 (Chapter 6 (commencing with Section 54300) Part 1, Division 2, Title 5 of the Government Code), as it may now or hereafter be amended, shall be utilized as nearly as the same may be applicable.

(b) No particular form of ballot is required.

(c) The notice of the election shall include a statement of the time and place of the election, the purpose of the election, the general purpose of the contract, and the maximum amount of money to be borrowed from the state under the contract.

(d) The ballots for the election shall contain a brief statement of the general purpose of the contract substantially as stated in the notice of the election, shall state the maximum

amount of money to be borrowed from the state under the contract, and shall contain the words "Execution of contract—Yes" and "Execution of contract—No."

(e) The election shall be held in the entire public agency except where the public agency proposes to contract with the state board on behalf of a specified portion, or of specified portions, of the public agency, in which case the election shall be held in such portion or portions of the public agency only.

Article 3. State Water Pollution Cleanup and Abatement Account

13440. There is in the State Water Quality Control Fund the State Water Pollution Cleanup and Abatement Account (hereinafter called the "account"), to be administered by the state board.

13441. There is to be paid into the account all moneys from the following sources:

(a) All moneys appropriated by the Legislature for the account.

(b) All moneys contributed to the account by any person and accepted by the state board.

(c) One-half of all moneys collected by way of criminal penalty and all moneys collected civilly under any proceeding brought pursuant to any provision of this division.

(d) All moneys collected by the state board for the account under Section 13304.

All moneys paid into the account are available without regard to fiscal years, for expenditure by the state board in accordance with the provisions of this article.

13442. Upon application by a public agency with authority to clean up a waste or abate the effects thereof, the state board may order moneys to be paid from the account to the agency to assist it in cleaning up the waste or abating its effects on waters of the state. The agency shall not become liable to the state board for repayment of such moneys, but this shall not be any defense to an action brought pursuant to subdivision (b) of Section 13304 for the recovery of moneys paid hereunder.

Chapter 7. Water Reclamation

Article 1. Short Title

13500. This chapter shall be known as and may be cited as the Water Reclamation Law.

Article 2. Declaration of Policy

13510. It is hereby declared that the people of the state have a primary interest in the development of facilities to reclaim water containing waste to supplement existing surface

and underground water supplies and to assist in meeting the future water requirements of the state.

13511. The Legislature finds and declares that a substantial portion of the future water requirements of this state may be economically met by beneficial use of reclaimed water.

The Legislature further finds and declares that the utilization of reclaimed water by local communities for domestic, agricultural, industrial, recreational, and fish and wildlife purposes will contribute to the peace, health, safety and welfare of the people of the state. Use of reclaimed water constitutes the development of "new basic water supplies" as that term is used in Chapter 5 (commencing with Section 12880) of Part 6 of Division 6.

13512. It is the intention of the Legislature that the state undertake all possible steps to encourage development of water reclamation facilities so that reclaimed water may be made available to help meet the growing water requirements of the state.

Article 3. State Assistance

13515. In order to implement the policy declarations of this chapter, the state board is authorized to provide loans for the development of water reclamation facilities, or for studies and investigations in connection with water reclamation, pursuant to the provisions of Chapter 6 (commencing with Section 13400) of this division.

Article 4. Regulation of Reclamation

13520. As used in this article "reclamation criteria" are the levels of constituents of reclaimed water, and means for assurance of reliability under the design concept which will result in reclaimed water safe from the standpoint of public health, for the uses to be made.

13521. The State Department of Public Health shall establish statewide reclamation criteria for each varying type of use of reclaimed water where such use involves the protection of public health.

13522. Whenever the State Department of Public Health or any local health officer finds that a contamination exists as a result of use of reclaimed water, the department or local health officer shall order the contamination abated in accordance with the procedure provided for in Chapter 6 (commencing with Section 5400) of Part 3, Division 5 of the Health and Safety Code.

13523. Each regional board, after consulting with and receiving the recommendations of the State Department of Public Health, and if it determines such action to be necessary to protect the public health, safety, or welfare, shall establish water reclamation requirements for water which is used or will be used as reclaimed water. Such requirements shall include, or be in conformance with, the statewide reclamation

criteria established pursuant to this article. The regional board may require the submission of a preconstruction report for the purpose of determining compliance with the reclamation criteria.

13524. Upon refusal or failure of any person or persons to comply with any water reclamation requirements established by a regional board pursuant to this article, the regional board establishing the requirements may certify the facts to the Attorney General who shall petition the superior court for the county in which the violation or threatened violation occurs for the issuance of a mandatory injunction requiring such person or persons to comply with such water reclamation requirements, and proceedings thereon shall be conducted in the same manner as in any other action brought for an injunction pursuant to Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure.

13525. No person shall use reclaimed water for any purpose for which reclamation criteria have been established until water reclamation requirements have been established therefor pursuant to this article. The Attorney General, at the request of a regional board, shall petition the superior court of the county in which the violation occurs for an injunction pursuant to Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, to enjoin any act, actual or threatened, in violation of this section.

13526. Any person who, after such action has been called to his attention in writing by the regional board, uses reclaimed water for any purpose for which reclamation criteria have been established prior to the establishment of water reclamation requirements, is guilty of a misdemeanor.

13527. In administering any statewide program of financial assistance for water pollution or water quality control which may be delegated to it pursuant to Chapter 6 (commencing with Section 13400) of this division, the state board shall give added consideration to water quality control facilities providing optimum water reclamation and use of reclaimed water.

Nothing in this chapter prevents the appropriate regional board from establishing waste discharge requirements if a discharge is involved.

13528. No provision of this chapter shall be construed as affecting the existing powers of the State Department of Public Health.

Article 5. Surveys and Investigations

13530. The department, either independently or in cooperation with any person or any county, state, federal, or other agency, or on request of the state board, to the extent funds are allocated therefor, shall conduct surveys and investigations relating to the reclamation of water from waste pursuant to Section 230.

Article 6. Waste Well Regulation

13540. No person shall construct, maintain or use any waste well extending to or into a subterranean water-bearing stratum that is used or intended to be used as, or is suitable for, a source of water supply for domestic purposes. Notwithstanding the foregoing, when a regional board finds that water quality considerations do not preclude controlled recharge of such stratum by direct injection, and when the State Board of Public Health, following a public hearing, finds the proposed recharge will not impair the quality of water in the receiving aquifer as a source of water supply for domestic purposes, reclaimed water may be injected by a well into such stratum. The State Board of Public Health may make and enforce such regulations pertaining thereto as it deems proper. Nothing in this section shall be construed to affect the authority of the state board or regional boards to prescribe and enforce requirements for such discharge.

13541. As used in this article, "waste well" includes any hole dug or drilled into the ground, used or intended to be used for the disposal of waste.

CHAPTER 8. FEDERAL ASSISTANCE FOR TREATMENT FACILITIES

13600. The state board shall administer any program of financial assistance for water quality control which may be delegated to it by law, and may accept funds from the United States or any person to that end.

13601. The state board, in cooperation with the regional boards, shall survey the statewide need for waste collection, treatment and disposal facilities which will be required during the five-year period, January 1, 1968, to December 31, 1972, inclusive, to adequately protect the waters of the state for beneficial use. The state board shall also, biennially, commencing in 1970, survey the need for facilities which will be required by public agencies for the ensuing five-year period. The state board may request a local public agency operating such facilities to transmit to its regional board a report on the following:

(a) A summary of the construction or improvement of its waste collection, treatment and disposal facilities and amounts expended therefor.

(b) An estimate of its needs for the five-year period, January 1, 1968, to December 31, 1972, inclusive, and for any ensuing five-year period.

The state board shall review the information contained in the reports made by the local public agencies. The state board shall submit to the Legislature findings and conclusions as to the anticipated local, state, and federal financing necessary to provide the needed facilities for such periods.

13602. The state board shall make no commitment or enter into any agreement pursuant to an exercise of authority under

this chapter until it has determined that any money required to be furnished as the state's share of project cost is available for such purpose.

13603. The Governor may request the funds required to finance the state's share of project costs for each fiscal year through inclusion of the anticipated state's share in the annual Budget Bill.

13604. The state board shall review and approve each waste collection, treatment, and disposal project for which an application for a grant under the act has been made. The state board shall, in reviewing each project, determine whether such project is in conformity with statewide policies for control of water pollution and water quality and in conformity with policies with respect to water pollution control and water quality control adopted by regional water quality control boards, and shall certify that such project is entitled to priority over other eligible projects on the basis of financial as well as water pollution control needs.

13605. For the purpose of reviewing applications for grants made pursuant to authority granted in Section 13600, the state board shall give added consideration to applicants having facilities providing optimum water reclamation and use of reclaimed water.

13606. If an application states that the applicant is not able to finance the local agency share of the project, the state board shall consider whether the applicant should be required to levy a sewerage service charge. If the state board determines a sewerage service charge is necessary to pay such costs, the state board shall not approve the grant application unless, as a condition to such approval, the applicant agrees to levy a reasonable and equitable sewerage service charge in connection with the proposed project.

Any such applicant, not otherwise authorized, is authorized by this section to levy a sewerage service charge pursuant to such an agreement, and shall levy such charge in the manner provided in the agreement.

13607. All money appropriated by the Legislature for the state's share of the project costs shall be appropriated without regard to fiscal years, or shall augment an appropriation without regard to fiscal years.

13608. After January 1, 1971, no application for a grant under the Federal Water Pollution Control Act, or amendment thereof, or pursuant to Chapter 5 (commencing with Section 13400) of this division, shall be accepted by the state board unless such application contains assurances that at least one person responsible for plant operations meets or will meet operator training qualifications, adopted pursuant to Chapter 9 (commencing with Section 13625) of this division, for the proposed plant, as well as the plant in current operation.

CHAPTER 9. SEWAGE TREATMENT PLANT OPERATOR QUALIFICATIONS

13625. The State Water Resources Control Board is the state agency which is authorized to represent the state and its local governmental agencies in administering any federal or state funds available for waste treatment plant operator training.

13626. The state board shall classify types of sewage treatment plants for the purpose of determining the levels of competence necessary to operate them. The state board shall adopt and promulgate regulations setting forth the types of plants and the factors on which the state board based its classification.

13627. The state board shall develop and specify in its regulations the training necessary to qualify an operator for each level of competence for each type of plant. Prior to establishment of such training qualifications the state board shall consult with the California Public Service Training and Education Advisory Council. The state board may accept experience in lieu of qualification training.

13628. The state board may approve courses of instruction at higher educational institutions which will qualify operators for each level of competence. The state board shall also approve courses of instruction given by professional associations, or other nonprofit private or public agencies which shall be deemed equivalent to courses of instruction given by higher educational institutions.

13629. The state board may provide technical and financial assistance to organizations providing operator training programs.

13630. Prior to approving any courses for operator training, the state board shall appoint an advisory committee to assist it in carrying out its responsibilities under this chapter.

13631. This chapter shall not apply to nongovernmentally owned or operated facilities.

CHAPTER 10. WATER WELLS AND CATHODIC PROTECTION WELLS

Article 1. Declaration of Policy

13700. The Legislature finds that the greater portion of the water used in this state is obtained from underground sources and that such waters are subject to impairment in quality and purity, causing detriment to the health, safety and welfare of the people of the state. The Legislature therefore declares that the people of the state have a primary interest in the location, construction, maintenance, abandonment and destruction of water wells and cathodic protection wells, which activities directly affect the quality and purity of underground waters.

Article 2. Definitions

13710. "Well" or "water well" as used in this chapter, means any artificial excavation constructed by any method for the purpose of extracting water from, or injecting water into, the underground. This definition shall not include: (a) oil and gas wells, or geothermal wells constructed under the jurisdiction of the Department of Conservation, except those wells converted to use as water wells; or (b) wells used for the purpose of (1) dewatering excavation during construction, or (2) stabilizing hillsides or earth embankments.

13711. "Cathodic protection well," as used in this chapter, means any artificial excavation in excess of 50 feet constructed by any method for the purpose of installing equipment or facilities for the protection electrically of metallic equipment in contact with the ground, commonly referred to as cathodic protection.

Article 3. Reports

13750. Every person who hereafter intends to dig, bore, or drill a water well or cathodic protection well, or who intends to deepen or reperforate any such well, or to abandon or destroy any such well, shall file with the department a notice of intent to engage in such construction, alteration, destruction, or abandonment prior to commencing such construction, alteration, destruction, or abandonment; provided, that when such construction, alteration, destruction, or abandonment must be accomplished immediately in order to prevent damage to persons or property due to the loss of an existing water supply, such notice shall be filed with the department as soon as possible thereafter, but in any event not more than five days after commencement of such construction, alteration, destruction, or abandonment or repair.

The report shall be made on forms furnished by the department and shall contain such information as the department may require, including, but not limited to: (a) description of the well site sufficiently exact to permit location and identification of the well; (b) proposed date of construction of the well; (c) the use for which the well is intended; (d) the work to be done and a description of type of construction; and (e) in event of late filing, the reasons therefor.

13751. Every person who hereafter digs, bores or drills a water well or cathodic protection well, or abandons or destroys any such well, or who deepens or reperforates any such well, shall file with the department a report of completion of such well within 30 days after its construction or alteration has been completed.

The report shall be made on forms furnished by the department and shall contain such information as the department may require, including, but not limited to: (a) description of the well site sufficiently exact to permit location and iden-

tification of the well; (b) detailed log of the well; (c) description of type of construction; (d) details of perforation; and (e) methods used for sealing off surface or contaminated waters.

13752. Reports made pursuant to Section 13751 shall not be made available for inspection by the public but shall be made available to governmental agencies for use in making studies; provided, that any report shall be made available to any person who obtains a written authorization from the owner of the well.

13753. Every person who hereafter converts, for use as a water well or cathodic protection well, any oil or gas well originally constructed under the jurisdiction of the Department of Conservation pursuant to the provisions of Article 4 (commencing with Section 3200), Chapter 1, Division 3 of the Public Resources Code, shall comply with all provisions of this chapter.

13754. Failure to comply with any provision of this article, or willful and deliberate falsification of any report required by this article, is a misdemeanor.

Before commencing prosecution against any person, other than for willful and deliberate falsification of any report required by this article, the person shall be given reasonable opportunity to comply with the provisions of this article.

13755. Nothing in this chapter shall affect the powers and duties of the State Department of Public Health with respect to water and water systems pursuant to Chapter 7 (commencing with Section 4010) of Division 5 of the Health and Safety Code. Every person shall comply with this chapter and any regulation adopted pursuant thereto, in addition to standards adopted by any city or county.

Article 4. Quality Control

13800. The department, after such studies and investigations pursuant to Section 231 as it finds necessary, on determining that water well and cathodic protection well construction, maintenance, abandonment, and destruction standards are needed in an area to protect the quality of water used or which may be used for any beneficial use, shall so report to the appropriate regional water quality control board and to the State Department of Public Health. The report shall contain such recommended standards for water well and cathodic protection well construction, maintenance, abandonment, and destruction as, in the department's opinion, are necessary to protect the quality of any affected water.

13801. The regional board upon receipt of a report from the department shall hold a public hearing on the need to establish such well standards for the area involved. The regional board may hold such a public hearing with respect to any area regardless of whether a report has been received

from the department if it has information that such standards may be needed.

13802. If the regional board finds that standards of water well and cathodic protection well construction, maintenance, abandonment, and destruction are needed in any area to protect the quality of water used, or which may be used, for any beneficial use, it shall determine the area to be involved and so report to each affected county and city in the area. The report shall also contain any well standards which have been recommended by the department.

13803. Each such affected county and city shall, within 120 days of receipt of the report, adopt an ordinance establishing standards of water well and cathodic protection well construction, maintenance, abandonment, and destruction for the area designated by the regional board. Prior to adoption of such ordinance each affected county and city shall consult with all interested parties, including licensed well drillers. A copy of such ordinance shall be sent to the regional board on its adoption and the regional board shall transmit such ordinance to the department for its review and comments.

13804. Such county and city well standards shall take effect 60 days from the date of their adoption by the county or city unless the regional board, on its own motion, or on the request of any affected person, holds a public hearing on the matter and determines that the county or city well standards are not sufficiently restrictive to protect the quality of the affected waters. If the board makes such a determination it shall so report to the affected county or city and also recommend the well standards, or the modification of the county or city well standards, which it determines are necessary.

13805. If a county or city fails to adopt an ordinance establishing water well and cathodic protection well construction, maintenance, abandonment, and destruction standards within 180 days of receipt of the regional board's report of its determination that such standards are necessary pursuant to Section 13802, or fails to adopt or modify such well standards in the manner determined as necessary by the regional board pursuant to Section 13804 within 90 days of receipt of the regional board's report, the regional board may adopt standards for water well and cathodic protection well construction, maintenance, abandonment, and destruction for the area. Such regional board well standards shall take effect 30 days from the date of their adoption by the regional board and shall be enforced by the city or county and have the same force and effect as if adopted as a county or city ordinance.

13806. Any action, report, or determination taken or adopted by a regional board or any failure of a regional board to act pursuant to this article, or any county or city ordinance in the event of the failure of a regional board to review such ordinance pursuant to Section 13804, may be reviewed by the state board on its own motion, and shall be

reviewed by the state board on the request of any affected person, county, or city, in the same manner as other action or inaction of the regional board is reviewed pursuant to Section 13320. The state board has the same powers as to the review of action or inaction of a regional board or of a county or city ordinance under this article as it has as to other action or inaction of a regional board under Section 13320, including being vested with all the powers granted a regional board under this article, with like force and effect if it finds that appropriate action has not been taken by a regional board. Any action of a regional board under this article or any county or city ordinance affected by the review of the state board shall have no force or effect during the period of the review by the state board.

CHAPTER 11. DISCHARGES FROM HOUSEBOATS ON OR IN THE WATERS OF THE STATE

13900. The Legislature finds and hereby declares that discharges from houseboats in or on the waters of the state constitute a significant source of waste as defined in Section 13050; that discharges of waste from houseboats in or on the waters of the state may impair the beneficial uses of the waters of the state to the detriment of the health, safety, and welfare of the people of the state; and that the discharges of waste from houseboats are not adequately regulated. The Legislature therefore declares that the people of the state have a primary interest in the coordination and implementation of the regulation of discharges of waste from houseboats on or in the waters of the state.

13901. As used in this article, "houseboat" means a watercraft or industrial or commercial structure on or in the waters of the state, floating or nonfloating, which is designed or fitted out as a place of habitation and is not principally used for transportation. "Houseboat" includes platforms, and waterborne hotels and restaurants. "City or county" means any city, county, city and county, or port authority.

13902. Each regional board shall investigate its region to determine areas in which discharges of waste from houseboats are inadequately regulated by local ordinance.

13903. Each regional board shall notify each affected city or county, the State Department of Public Health and the State Department of Harbors and Watercraft of areas of inadequate regulation by ordinance of discharges of waste from houseboats and shall recommend provisions necessary to control the discharges of waste from houseboats into the waters.

13904. Each such affected city or county shall within 120 days of receipt of the notice from the regional board, adopt an ordinance for control of discharges of waste from houseboats within the area for which notice was given by the board. A copy of such ordinance shall be sent to the regional board

on its adoption and the regional board shall transmit such ordinance to the state board, the State Department of Public Health and the State Department of Harbors and Watercraft.

13905. Such city or county ordinance shall take effect 60 days from the date of adoption by the city or county, unless the regional board holds a public hearing on the matter and determines that the city or county ordinance is not sufficiently restrictive to protect the quality of the waters affected. If the board makes such a determination, it shall so report to the affected city or county and also recommend the ordinance, or modification of the city or county ordinance, which it determines is necessary.

13906. If a city or county fails to adopt an ordinance controlling discharges of waste from houseboats within 120 days of receipt of the regional board's notice pursuant to Section 13903, or fails to adopt or modify such ordinance in the manner determined as necessary by the regional board pursuant to Section 13905, within 90 days of receipt of the regional board's notice, the regional board may adopt regulations necessary for the control of discharges of waste from houseboats for the area designated. Such regional board regulations shall take effect 30 days from the date of their adoption and shall be enforced by the city or county and have the same force and effect as if adopted as a city or county ordinance.

13907. Any action, report, determination, or regulation taken or adopted by a regional board, or any failure of a regional board to act may be reviewed by the state board, and shall be reviewed by the state board on the request of any city or county. The state board has all powers as to the review of action or inaction of a regional board under this article as it has to other action or inaction of a regional board, including all powers granted to a regional board to initially determine areas in which discharges of waste from houseboats are inadequately regulated by local ordinance and to adopt regulations when a city or county fails to do so, if the state board finds that appropriate action has not been taken by a regional board. Any action of a regional board under this chapter or any city or county ordinance affected by the review of the state board shall have no force or effect during the period of the review by the state board.

13908. No provision in this chapter and no action thereunder by a regional board or the state board is a limitation on the power of a city or county to adopt and enforce additional ordinances or regulations not in conflict therewith imposing further conditions, restrictions, or limitations with respect to the discharges of waste from houseboats.

SEC. 19. Section 11010 of the Business and Professions Code is amended to read:

11010. Prior to the time when subdivided lands are to be offered for sale or lease, the owner, his agent or subdivider

shall notify the commissioner in writing of his intention to sell or lease such offering.

The notice of intention shall contain the following information:

(a) The name and address of the owner.

(b) The name and address of the subdivider.

(c) The legal description and area of lands.

(d) A true statement of the condition of the title to the land, particularly including all encumbrances thereon.

(e) A true statement of the terms and conditions on which it is intended to dispose of the land, together with copies of any contracts intended to be used.

(f) A true statement of the provisions, if any, that have been made for public utilities in the proposed subdivision, including water, electricity, gas, telephone, and sewerage facilities.

(g) A true statement of the use or uses for which the proposed subdivision will be offered.

(h) A true statement of the provisions, if any, limiting the use or occupancy of the parcels in the subdivision.

(i) A true statement of the maximum depth of fill used, or proposed to be used on each lot, and a true statement on the soil conditions in the subdivision supported by engineering reports showing the soil has been, or will be, prepared in accordance with the recommendations of a registered civil engineer.

(j) A true statement of the amount of indebtedness which is a lien upon the subdivision or any part thereof, and which was incurred to pay for the construction of any onsite or offsite improvement, or any community or recreational facility.

(k) A true statement or reasonable estimate, if applicable, of the amount of any indebtedness which has been or is proposed to be incurred by an existing or proposed special district, entity, taxing area or assessment district, within the boundaries of which, the subdivision, or any part thereof, is located, and which is to pay for the construction or installation of any improvement or to furnish community or recreational facilities to such subdivision, and which amounts are to be obtained by ad valorem tax or assessment, or by a special assessment or tax upon the subdivision, or any part thereof.

(*l*) Such other information as the owner, his agent, or subdivider, may desire to present.

SEC. 20. Section 11551.6 is added to the Business and Professions Code, to read:

11551.6. The governing body of any city or county shall determine whether the discharge of waste from the proposed subdivision into an existing community sewer system would result in violation of existing requirements prescribed by a California regional water quality control board pursuant to Division 7 (commencing with Section 13000) of the Water Code. In the event that the governing body finds that the pro-

posed waste discharge would result in or add to violation of requirements of such board, it may disapprove the tentative map or maps of the subdivision.

SEC. 25. Section 12805 of the Government Code is amended to read:

12805. The Resources Agency consists of the State Air Resources Board, the Colorado River Board, the Office of Nuclear Energy, the State Water Resources Control Board and each California regional water quality control board, and the following departments: Conservation, Fish and Game; Harbors and Watercraft; Parks and Recreation; and Water Resources.

SEC. 28. Section 4458 of the Health and Safety Code is repealed.

SEC. 28.5. Section 4458 is added to the Health and Safety Code, to read:

4458. No person shall construct, maintain, or use any waste well extending to or into a subterranean water-bearing stratum that is used or intended to be used as, or is suitable for, a source of water supply for domestic purposes, except pursuant to Article 6 (commencing with Section 13540) of Chapter 7, Division 7 of the Water Code.

SEC. 29. Section 5410 of the Health and Safety Code is amended to read:

5410. As used in this chapter:

(a) "Waste" includes sewage and any and all other waste substances, liquid, solid, gaseous, or radioactive, associated with human habitation, or of human or animal origin, or from any producing, manufacturing, or processing operation of whatever nature.

(b) "Person" as used in this article also includes any city, county, district, the state or any department or agency thereof.

(c) "Waters of the state" means any water, surface or underground, including saline waters, within the boundaries of the state.

(d) "Contamination" means an impairment of the quality of the waters of the state by waste to a degree which creates a hazard to the public health through poisoning or through the spread of disease. "Contamination" shall include any equivalent effect resulting from the disposal of waste, whether or not waters of the state are affected.

(e) "Pollution" means an alteration of the quality of the waters of the state by waste to a degree which unreasonably affects: (1) such waters for beneficial uses, or (2) facilities which serve such beneficial uses. "Pollution" may include "contamination."

(f) "Nuisance" means anything which: (1) is injurious to health, or is indecent or offensive to the senses, or an obstruction to the free use of property, so as to interfere with the comfortable enjoyment of life or property, and (2) affects at the same time an entire community or neighborhood, or any considerable number of persons, although the extent of the

annoyance or damage inflicted upon individuals may be unequal, and (3) occurs during, or as a result of, the treatment or disposal of wastes.

(g) "Regional board" means any California regional water quality control board created pursuant to Section 13201 of the Water Code.

SEC. 29.2. Section 13169 is added to the Water Code, to read:

13169. (a) The state board may adopt regulations governing the testing, licensing and use of any chemical, or any other substance, for removing, dispersing or otherwise cleaning up oil or any residuary product of petroleum in or on any of the waters of the state. Such regulations shall be adopted in conformity, as nearly as practicable, with the provisions of Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2 of the Government Code.

(b) The state board may establish a schedule of fees to cover the cost of testing and licensing the use of any substance for the purposes specified in subdivision (a), to be paid by the applicant for licensing of any such substance.

(c) The proper use of any such substance in accordance with the state board's regulations shall be supervised and enforced by the Department of Fish and Game. The user shall pay to the Department of Fish and Game the cost of such supervisory and enforcement services and all related administrative and incidental costs, as computed by that department, within 30 days after billing. Deputies of the Department of Fish and Game shall have all the powers and authority of a peace officer to make arrests for violations of regulations adopted by the state board pursuant to this section.

(d) Any person who uses any chemical or other substance in violation of any regulation adopted by the state board pursuant to this section shall be guilty of a misdemeanor. Each day's continuance of such violation shall constitute a separate offense.

SEC. 29.4. Section 29.2 of this act shall become operative only if Assembly Bill No. 687 is enacted by the Legislature at its 1969 Regular Session.

SEC. 30. Notwithstanding the provisions of this act, all members of a California regional water quality control board on the effective date of this act shall continue to serve as members of such board pursuant to Section 13201 of the Water Code for the remainder of the term for which they were appointed. The Governor shall appoint two additional members to each regional board who shall meet the qualifications of paragraph (7) of subdivision (a) of Section 13201 of the Water Code. The term of one member so appointed to the board, who shall be designated by the Governor, shall expire on September 30, 1972, and the term of the other such member shall expire on September 30, 1973, and thereafter such members shall be appointed for a term of four years.

SEC. 31. To the extent that the disciplines specified in subdivisions (a) through (i), inclusive, of Section 13120 of the Water Code closely relate to fields represented by the membership of the Water Quality Advisory Committee at the time of the effective date of this act, appointments to the committee, as they occur, shall be made in accordance with the discipline which relates to the field represented by the member whose term has expired.

SEC. 32. Notwithstanding the provisions of subdivision (c) of Section 13220, any person incumbent in the position of executive officer of a regional water quality control board on the effective date of the amendment of subdivision (c) of Section 13050 of the Water Code at the 1963 Regular Session of the Legislature, shall continue to serve at the pleasure of his appointing board.

SEC. 33. The Legislature hereby finds and declares that over the years chronic and continuing conditions of pollution and nuisance have resulted from the physical and geographic locations of property once used as industrial or business sites but not in operation. The Legislature further finds and declares that such conditions cannot be effectively dealt with pursuant to other regulatory authority exercised by a California regional water quality control board, since continuing discharges are not usually involved and the industry or businesses are not in operation and since the owners of such property are frequently absent from the board's jurisdiction and cannot readily be required to abate the condition. The Legislature, therefore, further finds and declares that it is imperative, in order to remedy conditions of pollution and nuisance emanating from nonoperating industrial or business locations, such as mines, that regional water quality control boards be authorized to regulate such conditions in the manner provided in Section 13305 of the Water Code.

SEC. 33.5. The provisions of Sections 13416 and 13417 of the Water Code shall not apply to any loans made from the State Water Quality Control Fund to any public agency designated in subdivision (c) of Section 13401 of the Water Code.

SEC. 34. This act shall become operative on January 1, 1970.

SEC. 35. There is hereby appropriated from the General Fund the sum of eighty-four thousand dollars ($84,000) to the State Water Resources Control Board for the purposes of this act.

SEC. 36. This act is intended to implement the legislative recommendations of the final report of the State Water Resources Control Board submitted to the 1969 Regular Session of the Legislature entitled "Recommended Changes in Water Quality Control," prepared by the Study Project-Water Quality Control Program.

SEC. 37. This act shall be known as the "California Water Quality Improvement Act of 1969."

CHAPTER 483

An act to amend Section 5001.5 of the Public Resources Code, relating to classification of state park system.

[Approved by Governor July 14, 1969. Filed with Secretary of State July 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 5001.5 of the Public Resources Code is amended to read:

5001.5. All units which are or shall become a part of the California state park system shall be classified by the State Park Commission into one of the following categories:

(a) State parks, which consist of relatively spacious areas of outstanding scenic or wilderness character, oftentimes containing also significant historical, archaeological, ecological, geological, and other scientific values, preserved as nearly as possible in their original or natural condition and providing opportunity for appropriate types of recreation where such will not destroy or impair the features and values to be preserved. Commercial exploitation of resources is prohibited.

(b) Scenic or scientific reserves, which consist of areas of outstanding natural significance, where the major values are in their natural geological, faunal, or floral characteristics. The purpose of a scenic or scientific reserve is directed primarily toward the preservation of its outstanding natural features. Developments shall be for the purpose of making the areas available for public enjoyment in a manner consistent with the preservation of natural values.

(c) Historical units, to be named appropriately and individually, which consist of areas usually limited in size, established primarily to preserve objects of historical and scientific interest, and places commemorating important persons or historic events. The only facilities usually provided are those required for the safety and comfort of the visitors such as access, parking, water, sanitation, interpretive devices, and sometimes facilities for picnicking and other recreation facilities. Certain agricultural, mercantile, or other commercial activity usually prohibited in scenic parks or reserves may be permitted, provided those activities are properly regulated, and are a part of the history of the individual area, and enhance the historic scene.

(d) State recreation areas. These areas shall be selected and developed primarily to provide nonurban outdoor recreation opportunities to meet other than purely local needs but having the best available scenic quality. Camping, picnicking, swimming, hiking, horseback riding, boating, fishing, and hunting may be provided. The provision of such activities shall be the primary reason for operating recreational areas.

(e) State beaches. Areas with frontage on the oceans or bays designed primarily to provide swimming, boating, fishing, and other waterfront activities. Other coastal areas acquired primarily for the scenic and scientific values shall be included in the classification "scenic or scientific reserves."

(f) Wayside campgrounds. Scenic, historical, or recreational areas suitable for overnight camping with convenient access to highways.

(g) Underwater parks. Certain areas of marine environment having outstanding scenic, ecological, geological, and natural scientific values may be designated as underwater parks. The vastness of the coastal area covered by the waters of the Pacific Ocean requires the department to give consideration to and to permit multiple uses of such parks. Certain selected areas may be preserved in their original or natural condition while other areas, due to natural features, location, public need, prior commitment or other proper and beneficial uses may be designated for appropriate multiple uses.

CHAPTER 484

An act to amend Section 11102 of the Welfare and Institutions Code, relating to public assistance.

[Approved by Governor July 14, 1969. Filed with Secretary of State July 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 11102 of the Welfare and Institutions Code is amended to read:

11102. County residence is not a qualification for aid under any public assistance program.

County responsibility for making aid payments is determined as follows:

(a) The county where the applicant lives shall accept the application and shall be responsible for paying the aid.

(b) Responsibility for payment of aid to any person qualifying for and receiving aid from any county, who removes to another county in this state to make his home, shall be transferred to the second county as soon as administratively possible, but not later than the first day of the month following 60 days after notification to the second county.

For purposes of public assistance the county in which an applicant or recipient lives is:

(1) For a patient in a state hospital or institution, the county from which he was admitted.

(2) For a person who has had to leave the county in which he normally lives, solely for the purpose of securing care not otherwise available to him in a medical facility, the county in

which he last maintained a living arrangement outside a medical facility.

(3) For a person who on or after July 1, 1969, has been released or discharged from a state hospital, for a period not to exceed three years from the date of such release, the county from which he was admitted to the hospital.

(4) For a person who prior to July 1, 1969, has been released on leave of absence from a state hospital, the county from which he was admitted.

CHAPTER 485

An act to add Section 230.5 to the Civil Code, and amend Section 10433 of, and to add Sections 10433.2, 10433.3, and 10614 to, the Health and Safety Code, relating to vital statistics.

[Approved by Governor July 14, 1969. Filed with Secretary of State July 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 230.5 is added to the Civil Code, to read:

230.5. (a) Notwithstanding any other provision of law, an action may be brought in the superior court of the county in which the petitioner resides for the purpose of obtaining for a child adopted by the petitioner a new birth certificate which specifies thereon that a deceased spouse of the petitioner who was in the home at the time of the initial placement of the child is a parent of such child.

(b) In any action for adoption the petitioner may request that the new birth certificate specify thereon that a deceased spouse of the petitioner who was in the home at the time of the initial placement of the child is a parent of such child.

(c) The inclusion of the name of a deceased person in a birth certificate issued pursuant to a court order under this section shall not affect any matter of testate or intestate succession, and shall not be competent evidence on the issue of the relationship between the adopted child and the deceased person in any action or proceeding.

SEC. 2. Section 10433 of the Health and Safety Code is amended to read:

10433. The new birth certificate shall bear the name of the child as shown in the report of adoption, the names and ages of his adopting parents, the date and place of birth, the date the record was amended, and no reference shall be made in the new birth certificate to the adoption of the child. The new certificate shall be identical with a birth certificate registered for the birth of a child of natural parents. The specific name

and address of the hospital or other facility where the birth occurred shall not be omitted from the new birth certificate unless requested by one of the adopting parents.

SEC. 3. Section 10433.2 is added to the Health and Safety Code, to read:

10433.2. If both adopting parents were in the home at the time of the initial placement of the child for adoption the newly amended birth record may include the names of both adopting parents despite the death of one of the adopting parents, upon receipt of an order from the court granting the adoption which directs under the authority of Section 230.5 of the Civil Code that the names of both adopting parents shall be included on the newly amended birth record.

SEC. 4. Section 10433.3 is added to the Health and Safety Code, to read:

10433.3. Notwithstanding any other provision of law, an adopting parent who has adopted a child for whom an amended record has already been prepared under authority of this article may have another amended record prepared for such child, upon application, furnishing a copy of the court order made in an action brought pursuant to Section 230.5 of the Civil Code, and payment of the required fee.

SEC. 5. Section 10614 is added to the Health and Safety Code, to read:

10614. A fee of five dollars ($5) shall be paid to the State Registrar by the applicant for the preparation of an amended record which shall include a certified copy of the newly amended record under provisions of Section 10433.3.

CHAPTER 486

An act to amend Sections 16020, 16026, 16053, 16251, 16370, 16377, 16430, and 16434 of the Vehicle Code, relating to financial responsibility laws.

[Approved by Governor July 14, 1969. Filed with Secretary of State July 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 16020 of the Vehicle Code is amended to read:

16020. Unless the driver involved in an accident described in Section 16000 complies with one of the conditions for exemption specified in Section 16050, the driver shall deposit security in a sum which shall be sufficient in the judgment of the department to satisfy any final judgment or judgments in any amount for bodily injury or in excess of two hundred dollars ($200) for property damage resulting from such accident as may be recovered against such driver or owner subject to the

maximum limits required. The department shall determine the amount of security deposit upon the basis of the reports or other evidence submitted to it but shall not require a deposit of security for the benefit of any person when evidence has not been submitted by such person or on his behalf as to the extent of his injuries or the damage to his property within fifty (50) days following the date of the accident.

SEC. 2. Section 16026 of the Vehicle Code is amended to read:

16026. The security shall be available for the following purposes:

(a) Payment of a final judgment in any amount for bodily injury or in excess of two hundred dollars ($200) for property damage, rendered against the driver or drivers on whose behalf the deposit was made, for damages arising out of the accident in an action at law, begun not later than one year after the date of the accident, or within one year after the date of deposit of any security under subdivision (c) of Section 16053.

(b) Payment of any settlement agreement covering any claim arising out of the accident.

(c) Payment of any final judgment rendered as a result of default under any duly acknowledged settlement agreement.

Every distribution of funds from the security deposit shall be subject to the limits of the department's evaluation on behalf of a claimant but not in excess of the maximum amounts provided in this chapter for bodily injury and for property damage.

The people of the State of California do enact as follows:

SECTION 1. Section 25413.45 is added to the Education Code, to read:

25413.45. No member of the governing board of a junior college district shall, during the term for which he was elected, be eligible to serve on the governing board of a high school district whose boundaries are coterminous with those of the junior college district.

CHAPTER 496

An act to add Section 20527.7 to the Water Code, relating to water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 14, 1969. Filed with Secretary of State July 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 20527.7 is added to the Water Code, to read:

20527.7. Notwithstanding Section 20527, or any other provision of law, in the Montague Water Conservation District in Siskiyou County every owner of real property within the district, but no others, may vote at elections for directors or otherwise. Such owners need not be residents of the district in order to qualify as voters. The last equalized county assessment role is conclusive evidence of ownership of the real property so owned. Where land is owned in joint tenancy, tenancy in common, or any other multiple ownership, the owners of such land shall designate in writing which one of the owners shall be deemed the owner of such land for purposes of qualifying as a voter.

The legal representative of a corporation or estate owning real property may vote on behalf of such corporation or estate. As used in this section, legal representative means an official of a corporation owning real property or a guardian, executor, or administrator of the estate of the holder of title to real property who:

(a) Is appointed under the laws of this state.

(b) Is entitled to the possession of the estate's real property.

(c) Is authorized by the appointing court to exercise the particular right, privilege, or immunity which he seeks to exercise. Before a legal representative votes at a district election, he shall present to the precinct board a certified copy of his authority which shall be kept and filed with the returns of the election.

Every voter, or his legal representative, may vote at any district election either in person or by a person duly appointed as his proxy, but shall be entitled to cast only one vote. The appointment of a proxy shall be as provided in Section 35005.

Notwithstanding Section 21100 or any other provision of law, any voter as defined in this section is eligible to be a member of the Board of Directors of the Montague Water Conservation District.

SEC. 2. The provisions of this section are necessary because a substantial portion of the land in the Montague Water Conservation District is owned by persons not resident within the district and the owners, and not the resident nonowners, are primarily concerned with the affairs and support of the district. This problem is not common to all districts formed under the Irrigation District Law. It is therefore hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary for the solution of problems existing in the Montague Water Conservation District.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

An election is scheduled for November of 1969, and to effectuate the purposes of this act it is necessary that its provisions be effective immediately.

In enacting this section it is the intent of the Legislature to encourage the design of projects and the development of programs that undertake responsibility to provide in an efficient manner comprehensive health care, including outpatient and preventive care, as well as hospitalization, to a defined population or populations.

For purposes of this section, the criterion of efficiency referred to herein shall include, but not be limited to, a consideration of the utilization of health facilities and services, including policies, mechanisms, and procedures to prevent excessive utilization.

(1) Enter into an agreement in writing with the claimant to refer the matter in controversy to some disinterested person, to be approved by the court or a judge thereof, which agreement and approval shall be filed with the clerk, who shall thereupon enter an order referring the matter in controversy to the person so selected; or if the parties consent, a reference may be had in the court. The referee shall hear and determine the matter, and make his report thereon to the court. The same proceedings shall be had in all respects, and the referee shall have the same powers, be entitled to the same compensation and subject to the same control, as in other cases of reference. Judgment shall be entered on the decision and shall be as valid and effective as if it had been rendered by a judge of the court in a suit against the executor or administrator commenced by ordinary process. In lieu of such agreement and reference, a judge sitting in probate, pursuant to written agreement of the executor or administrator and the claimant and the judge's consent, filed with the clerk, may hear and determine the matter in controversy pursuant to the procedure provided in this paragraph (2). 5302.5. If the legislative body, in the resolution of intention, declares that any lot or parcel of land owned and used as provided in Section 5301 shall be included in the assessment, or if no declaration is made respecting any such lot or parcel of land then any assessment upon such lot or parcel of land, except any lot or parcel owned by the United States or any department thereof or by the State of California or any department thereof, shall be an enforceable obligation against

the owner of such property and shall be paid, within 30 days after the date of recording the assessment, by the officer, officers, or board having charge of the disbursement of the funds of the owner of such lot or parcel of land and, if not paid within said 30 days, shall bear interest until paid at the rate stated in the resolution of intention for the bonds proposed to be issued, and if no bonds are proposed to be issued then at the rate of not more than 7 percent per annum until paid; provided, however, that if said assessment is not paid within said 30-day period the city may, and if the city has so provided in its resolution of intention shall, at the expiration thereof, forthwith advance the necessary sum and pay the assessment and shall collect the amount of said assessment and interest thereon from the said obligated owner and may enforce the collection thereof by writ of mandate or other proper remedy. If for any reason there are no moneys available for the payment of said assessment, then the legislative body of the public entity which owns said property so assessed may elect to cause said assessment to be payable in a number of installments not to exceed the number of installments of and at the same interest rate as bonds issued in the proceedings creating the assessment, or if no bonds are to be issued, for a number of installments not to exceed the number of installments of annual payments as provided by Section 6462 of this code for payment of bonds issued under the provisions of this division and for a rate of interest to be specified. In the event the legislative body of the entity whose property is assessed decides that said assessment shall be payable in installments, then the officer, officers or board whose duty it is to levy taxes for said obligated owner, including school districts but not limited thereto, shall include in the next tax levy an amount, in addition to moneys for all other purposes, sufficient to pay the annual installment of principal and interest upon said assessment with interest on the unpaid principal of the assessment to date of the payments, and shall include in each succeeding tax levy a like amount or more, in addition to moneys for all other purposes, until the principal of said assessment and all interest on unpaid portions thereof, shall be paid in full. Said tax levy shall be made notwithstanding that said tax levy, exceeds the maximum tax rate which may otherwise be imposed by law. In the event the officer, officers or board whose duty it is to levy taxes fails to provide for a tax levy to pay and discharge the principal of the assessment and the interest thereon, the owner of the assessment may compel the levy thereof in the manner hereinabove set forth by writ of mandate. No statute of limitations shall bar any right provided for herein to enforce the collection of an assessment of the type described herein and any interest due thereon until four years after the due date of the last principal payment due upon said assessment. The owner of an assessment described herein may use mandamus or other appropriate remedy to compel the officer,

officers or board whose duty it is to levy taxes for said obligated owner to levy an amount in a given year equal to the amount necessary to pay the installment of principal and interest on the assessment in said year, and may continue to use mandamus or other remedy to cause like installments of the amount of principal and interest accruing to be levied each year until the whole of the assessment due has been paid.

If the owner of an assessment is successful in any action to compel the levy of a tax under this section he shall be awarded reasonable attorneys' fees as fixed by the court and costs and said attorneys' fees and costs shall be included in said tax levy.

SEC. 2. Section 6467 of the Streets and Highways Code is amended to read:

6467. In the event there are unpaid assessments levied against public property which are payable as provided in Section 5302 5 of this code, the treasurer shall, simultaneously with the issuance of bonds, if bonds are to be issued in the proceedings, issue certificates representing assessments against public property. A separate certificate shall be issued to represent each assessment against public property. The certificates will provide for payment thereof as provided in Section 5302.5, and each certificate shall read substantially as follows:

Article 5.6. High School and Community College Work Experience Education

5995. In order to encourage high schools and community colleges to make available programs of work experience education as provided in Article 5.5 of this chapter, there is hereby appropriated the sum of fifty thousand dollars ($50,000) for the 1968–69 fiscal year and three hundred thousand dollars ($300,000) for each of the fiscal years, 1969–70 and 1970–71 from the General Fund to the Department of Education. These funds are to be used for providing new or expanded work experience education programs and work study programs in high

schools and community colleges serving areas with high concentrations of urban poverty as defined in Section 6482, and in other high schools and community colleges of the state.

5995.1. It is the intent of the Legislature in enacting this article to increase the ability of the school districts of the state to provide useful occupational training and marketable skills for all students who desire such experience, by providing school districts easier access to federal matching funds available under the Vocational Education Act of 1963.

The Legislature intends that the total state appropriation each fiscal year for the purposes of this article, when added to the required effort of participating school districts shall be used as matching funds for federal funds available under the Vocational Education Act of 1963, or any successor to such act.

5995.2. School districts desiring to participate under the provisions of this article shall submit applications demonstrating their plan for the establishment or improvement of such programs.

5995.3. Funds appropriated under this article shall be used, to the greatest extent possible, for the employment of work experience education coordinators, for the expenses necessary for the support of their function, and for work study programs.

5995.4. In order that equal numbers of coordinators may be employed in high schools and community colleges serving areas with high concentrations of urban poverty as well as in other high schools and community colleges of the state, funds not utilized in one area as defined in Section 6482 may be used in other such defined areas, or in other high schools and community colleges of the state.

ancillary services shall be equalized on the basis of 50 percent of the local districts' expenditures, exclusive of federal funds for the purpose of this article, in districts with an average assessed valuation per unit of average daily attendance.

For such programs in other high schools and community colleges of the state, the state's contribution shall be equalized on the basis of 25 percent of the local districts' expenditures, exclusive of federal funds for the purpose of this article, in districts with an average assessed valuation per unit of average daily attendance.

The Superintendent of Public Instruction shall allow to each district with high schools, and the Board of Governors of the California Community Colleges shall allow to each district with community colleges, in areas having high concentration of urban poverty as defined in Section 6482 for which an application under this article has been approved, an amount equal to the total funds, exclusive of federal funds, to be expended for the purposes of this article, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance in grades 9 through 12 in the case of high schools, or grades 13 and 14 in the case of community colleges, during the preceding fiscal year in the district bears to the assessed valuation per unit of such average daily attendance in the state and one-half of the total funds, exclusive of federal funds to be expended for the purpose of this article.

5995.8. The Superintendent of Public Instruction shall allow to each district with a high school, and the Board of Governors of the California Community College shall allow to each district with a community college, other than those for which an allowance was made under Section 5995.7, for which an application has been approved under this article, an amount equal to the total funds, exclusive of federal funds, to be expended for the purposes of this article, diminished by the product of the ratio which the assessed valuation per unit of average daily attendance in grades 9 through 12 in the case of high schools, and grades 13 and 14 in the case of community colleges, during the preceding fiscal year in the district bears to the assessed valuation of such average daily attendance in the state and three-fourths of the total funds, exclusive of federal funds to be expended for the purpose of this article.

5995.9. The Superintendent of Public Instruction and the Board of Governors of the California Community Colleges shall report to the Legislature no later than the fifth legislative day of the 1971 Regular Session on the extent to which school districts in the state have utilized the funds herein provided.

Such report shall also indicate the number of students served as a direct result of this support and their total earnings, and shall provide followup data to indicate as nearly as possible the postschool employment success of each participating student.

5996. The State Board of Education and the Board of Governors of the California Community Colleges shall adopt rules and regulations necessary to the effective administration of this article.

SECTION 1. Section 131.5 is added to the Code of Civil Procedure, to read:

131.5. No court shall pronounce judgment upon any defendant, as to whom the court has requested a probation report pursuant to Section 131.3, unless a copy of the probation report has been made available to the court, the prosecuting attorney, and the defendant or his attorney, at least two days or, upon the request of the defendant, five days prior to the time fixed by the court for consideration of the report with respect to pronouncement of judgment. Such report shall be filed with the clerk of the court as a record in the case at the time the court considers the report.

If the defendant is not represented by an attorney, the court, upon ordering the probation report, shall also order the probation officer who prepares the report to discuss its contents with the defendant.

SEC. 2. Section 1203 of the Penal Code is amended to read:

1203. After the conviction by plea or verdict of guilty of a public offense not amounting to a felony, in cases where discretion is conferred on the court or any board or commission or other authority as to the extent of the punishment, the court, upon application of the defendant or of the people or upon its own motion, may summarily deny probation, or at a time fixed may hear and determine in the presence of the defendant the matter of probation of the defendant and the conditions of such probation, if granted. If probation is not denied, and in every felony case in which the defendant is eligible for probation, before any judgment is pronounced, and whether or not an application for probation has been made, the court must immediately refer the matter to the probation officer to investigate and to report to the court, at a specified time, upon the circumstances surrounding the crime and concerning the defendant and his prior record, which may be taken into consideration either in aggravation or mitigation of punishment. The probation officer must thereupon make an investigation of the circumstances surrounding the crime and of the prior record and history of the defendant, must make a written report to the court of the facts found upon such investigation, and must accompany said report with

his written recommendations, including his recommendations as to the granting or withholding of probation to the defendant and as to the conditions of probation if it shall be granted. The report and recommendations must be made available to the court and the prosecuting and defense attorneys at least two days or, upon the request of the defendant, five days prior to the time fixed by the court for the hearing and determination of such report and must be filed with the clerk of the court as a record in the case at the time of said hearing. By written stipulation of the prosecuting attorney and the defense attorney, filed with the court, or by oral stipulation in open court made and entered upon the minutes of the court, the time within which the report and recommendations must be made available and filed, under the preceding provisions of this section, may be waived. At the time or times fixed by the court, the court must hear and determine such application, if one has been made, or in any case the suitability of probation in the particular case, and in connection therewith must consider any report of the probation officer, and must make a statement that it has considered such report which must be filed with the clerk of the court as a record in the case. If the court shall determine that there are circumstances in mitigation of punishment prescribed by law, or that the ends of justice would be subserved by granting probation to the defendant, the court shall have power in its discretion to place the defendant on probation as hereinafter provided; if probation is denied, the clerk of the court must forthwith send a copy of the report and recommendations to the Department of Corrections at the prison or other institution to which the defendant is delivered.

With respect to a defendant who is not represented by an attorney, the court shall order the probation officer who makes a probation report pursuant to this section to discuss its contents with the defendant.

In every misdemeanor case, the court may, at its option refer the matter to the probation officer for investigation and report or summarily deny probation or summarily grant probation. If a misdemeanor case is not referred to the probation officer, the court in sentencing the defendant may consider any information concerning the defendant, his prior record, and the circumstances surrounding the crime that could have been included in a probation report. The court shall inform the defendant of the information considered and permit the defendant to answer or controvert such information. For this purpose the court upon request of the defendant shall grant a continuance before pronouncing sentence.

The Legislature hereby expresses the policy of the people of the State of California to be that, except in unusual cases where the interest of justice demands a departure from the

declared policy, no judge shall grant probation to any person who shall have been convicted of robbery, burglary or arson, and who at the time of the perpetration of said crime or any of them or at the time of his arrest was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same), nor to a defendant who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he was convicted, nor to one who in the perpetration of the crime of which he was convicted willfully inflicted great bodily injury or torture, nor to any such person unless the court shall be satisfied that he has never been previously convicted of a felony in this state nor previously convicted in any other place of a public offense which would have been a felony if committed in this state.

Except as hereafter provided in this section, probation shall not be granted to any person who shall have been convicted of burglary with explosives, rape with force or violence, murder, assault with intent to commit murder, attempt to commit murder, train wrecking, kidnapping, escape from a state prison, conspiracy to commit any one or more of the aforementioned felonies, and who at the time of the perpetration of said crime or any of them or at the time of his arrest was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same), nor to a defendant who used or attempted to use a deadly weapon upon a human being in connection with the perpetration of the crime of which he was convicted, nor to one who in the perpetration of the crime of which he was convicted willfully inflicted great bodily injury or torture, nor to any defendant unless the court shall be satisfied that he has not been twice previously convicted of felony in this state nor twice previously convicted in any other place or places of public offenses which would have been felonies if committed in this state; nor to any defendant convicted of the crime of burglary with explosives, rape with force or violence, murder, attempt to commit murder, assault with intent to commit murder, train wrecking, extortion, kidnapping, escape from a state prison, violation of Sections 286, 288 or 288a of this code, or conspiracy to commit any one or more of the aforesaid felonies, unless the court shall be satisfied that he has never been previously convicted of a felony in this state nor previously convicted in any other place of a public offense which would have been a felony if committed in this state; nor to any defendant unless the court shall be satisfied that he has never been previously convicted of a felony in this state nor convicted in any other place of a public offense which would have been a felony if committed in this state and at the time of the perpetration of said previous offense or at the time of his arrest for said previous offense he

was himself armed with a deadly weapon (unless at the time he had a lawful right to carry the same) or he personally used or attempted to use a deadly weapon upon a human being in connection with the perpetration of said previous offense or in the perpetration of said previous offense he willfully inflicted great bodily injury or torture; nor to any public official or peace officer of the state, county, city, city and county, or other political subdivision who, in the discharge of the duties of his public office or employment, accepted or gave or offered to accept or give any bribe or embezzled public money or was guilty of extortion.

In unusual cases, otherwise subject to the preceding paragraph, in which the interests of justice would best be served thereby, the judge may, with the concurrence of the district attorney, grant probation.

No probationer shall be released to enter another state of the United States, unless and until his case has been referred to the California Administrator, Interstate Probation and Parole Compacts, pursuant to the Uniform Act for Out-of-State Probationer and Parolee Supervision.

In those cases in which the defendant is not eligible for probation, the judge may in his discretion refer the matter to the probation officer for an investigation of the facts relevant to sentence. The probation officer must thereupon make an investigation of circumstances surrounding the crime and the prior record and history of the defendant and make a written report to the court of the facts found upon such investigation.

SEC. 3. Section 1203d is added to the Penal Code, to read:

1203d. No court shall pronounce judgment upon any defendant, as to whom the court has requested a probation report pursuant to Section 1203.10, unless a copy of the probation report has been made available to the court, the prosecuting attorney, and the defendant or his attorney, at least two days or, upon the request of the defendant, five days prior to the time fixed by the court for consideration of the report with respect to pronouncement of judgment. Such report shall be filed with the clerk of the court as a record in the case at the time the court considers the report.

If the defendant is not represented by an attorney, the court, upon ordering the probation report, shall also order the probation officer who prepares the report to discuss its contents with the defendant.

SEC. 4. The Legislature, by this act, does not intend that the preparation or submission of probation reports be accelerated in relation to present law and practice. It is the intention of the Legislature that the courts exercise their discretion in fixing dates for pronouncing judgments five or more days after all the interested parties have received copies of probation reports so that such parties have adequate time to evaluate such reports.

CHAPTER 523

An act making an appropriation to the Enterprise City School District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 14, 1969. Filed with Secretary of State July 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. The Enterprise City School District is an impoverished school district in the state and has suffered significant decline in revenues which will cause great financial hardship and will render it impossible for the district to meet its fixed financial commitments for the year, including those made for the payment of teachers' salaries.

The Legislature finds that the unique circumstances in the Enterprise City School District require immediate and special legislation and that a general statute cannot be made applicable to these circumstances within the meaning of Section 16 of Article IV of the California Constitution. The appropriation made by Section 2 of this act is made in view of the unique circumstances in the Enterprise City School District, and is made for that purpose only. It is not the intention of the Legislature to establish a precedent with respect to the appropriation made by this act, but rather to assist in a situation involving unique circumstances when appropriate justification for such assistance has been found.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury the sum of one hundred sixty thousand dollars ($160,000) or so much thereof as may be necessary, to the Enterprise City School District to enable the district to pay contracted indebtedness, due and owing, in the 1968–1969 fiscal year.

SEC. 3. The Superintendent of Public Instruction shall, during the 1969–1970 fiscal year, and during the 1970–1971 fiscal year, withhold from the apportionments to be made to the district from the State School Fund in each of those years an amount equal to one-half of the amount actually disbursed to the district from the appropriation made pursuant to Section 2 of this act, together with amounts representing interest at a rate fixed by the Director of Finance as of the date of the disbursement of funds to the district pursuant to Section 2 of this act, based upon the current market rate of interest. Such withholdings shall be directed to the end that the entire amount disbursed, plus the interest, shall have been recouped by the state at the end of the 1970–1971 fiscal year.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

In order that money may be made available to the Enterprise City School District at the earliest possible time to aid the district in averting a financial crisis which directly involves the entire area of the district, it is necessary that this act take immediate effect.

The agreement shall also provide that the escrow holder shall make the payment or distribution within a reasonable time after the completion of the transfer of the license.

SEC. 3. It is the intent of the Legislature, if amendments to Section 24074 of the Business and Professions Code proposed by both this bill and A.B. 1588 are enacted, that both amendments be given effect and incorporated in Section 24074 in the form set forth in Section 2 of this act. Therefore, in the event A.B. 1588 is enacted and amends Section 24074, Section 2 of this act shall become operative at the same time that Section 24074 as amended by A.B. 1588 becomes operative and at that time Section 24074 of the Business and Professions Code as amended by Section 1 of this act is repealed.

The purpose of this article is to establish criteria to guide local school districts in making applications for federal funds under the Elementary and Secondary Education Act of 1965 as accepted in Chapter 5 (commencing with Section 551) of Division 2, or any state funds provided specially for the purposes of this chapter.

These criteria shall apply to the extent that they do not conflict with the provisions of the Elementary and Secondary Education Act of 1965 or administrative regulations promulgated under that act.

SEC. 8. Section 6467 of the Education Code is amended to read:

6467. The Director of Compensatory Education shall, under the policy direction of the State Board of Education and the administrative direction of the Director of Education, have overall supervision and control of programs of compensatory education provided throughout the state, and shall take action necessary to coordinate all such programs. He shall, pursuant to the provisions of this chapter and the provisions of the Elementary and Secondary Education Act of 1965 and the regulations promulgated thereunder, be responsible for receiving and recommending approval or disapproval to the State Board of Education of local program applications and providing technical and consultative assistance to school districts.

The Director of Compensatory Education shall conduct continuing research and study of the subject of programs of compensatory education, involving not only the examination and evaluation of programs established under the provisions of this chapter but comparable undertakings in other states, to the end of effecting improvement in the administration of

the programs for compensatory education established under the provisions of this chapter. He shall serve as a clearinghouse and center of information, and shall issue and disseminate to school districts participating in programs established under this chapter or otherwise affected by problems presented by the presence of disadvantaged minors anywhere, such publications and results of investigations as will tend to foster the establishment of sound programs for compensatory education and to enhance their effectiveness.

He shall collect and provide information concerning sources of federal, state, and local public funds, and private funds, which may be available for compensatory education purposes. It shall be the responsibility of the local officials and agencies of the public school system to take necessary measures to secure all outside financial assistance which may be available.

The State Board of Education, on recommendation of the Director of Compensatory Education, shall determine the eligibility of applicant school districts for grants provided under this chapter. Applications for approval of programs and for grants shall be comprehensive in scope. Applicant districts shall, to the extent practicable, provide programs at all grade levels, but special emphasis is to be given programs provided at the preschool and early elementary grade levels.

SEC. 9. Section 6801 of the Education Code is amended to read:

6801. Subject to the provisions of this article (commencing with Section 6801) and Section 894 the governing board of any school district may make such special provisions as in its judgment may be necessary for the education of physically handicapped minors. "Physically handicapped minor," as used in this article (commencing with Section 6801) means a physically defective or handicapped person under the age of 21 years who is in need of education.

SEC. 10. Section 6806 of the Education Code is amended to read:

6806. Subject to the provisions of Section 894 any school district which does not maintain facilities for the education of physically handicapped minors shall enter into a contract with a school district in the same county, or a county superintendent of schools maintaining such facilities. If there is no district in the same county or county superintendent of schools maintaining such facilities, the governing board of the school district shall enter into a contract with a school district maintaining such facilities in any other county. If the governing board of the district should determine the same to be more economical and practical, it may enter into a contract with a school district situated in another county, in lieu of entering into a contract with the county superintendent of schools or a school district in the county in which such district is situated.

If any question arises concerning the adequacy of the facilities provided for the education of physically handicapped

minors by the school district in which the child is actually living, the parent or guardian of such child may appeal to the county superintendent of schools, and if the county superintendent of schools determines that the facilities offered are inadequate, he shall order the school district in which the child is actually living either to provide the facilities or enter into a contract with a school district maintaining adequate facilities.

Such contract shall provide for the payment of the cost of tuition by the district in which the physically handicapped minor actually lives and may provide for payment of the cost of the use of the buildings and equipment. The cost of tuition shall not be greater than the difference between current expenditures per unit of average daily attendance, including transportation, for the education of a pupil in the particular category of physically handicapped minors to which the pupil belongs and the apportionment of state funds for the education of physically handicapped minors in that category.

The amount shall be determined not later than the last Monday in December and the last Monday in May of each year by the county superintendent of schools of the county in which the child attends schools and certified to the superintendent of schools having jurisdiction over the schools of the school district in which the child actually lives. The amount shall be forthwith paid from any funds of the school district available for that purpose.

SEC. 11. Section 6807 of the Education Code is amended to read:

6807. Subject to the provisions of Section 894 the governing board of a school district may provide for the transportation of pupils assigned to special schools or classes for physically handicapped pupils, and shall provide transportation for those pupils whose physical handicaps prevent their walking to school.

SEC. 12. Section 6808 of the Education Code is amended to read:

6808. Subject to the provisions of Section 894 the governing board of the school district in which any physically handicapped minor is actually living, although the residence of his parents or guardian is outside the district, shall provide for the transportation of such minor to the school at which education is furnished, if his handicap prevents his walking to school or if the distance is greater than one mile, regardless of whether such education is furnished within or without the district.

SEC. 13. Section 6811 of the Education Code is amended to read:

6811. Subject to the provisions of Section 894 the governing board of a school district may establish regulations determining who can profit by and who shall receive the

special instruction provided by this article (commencing with Section 6801). The regulations shall be subject to such standards as may be prescribed by the State Department of Education.

SEC. 14. Section 6812 of the Education Code is amended to read:

6812. Subject to the provisions of Section 894 physically handicapped minors may be instructed in special schools or special classes, in hospitals, sanatoriums, or preventoriums, in the home through the employment of home instructors, by cooperative arrangement with the Department of Rehabilitation, or by any other means approved by the State Department of Education.

Minors with speech disorders or defects may be admitted at school for individual instruction at the age of three years for the purpose of remedying such speech disorders or defects.

Minors who are deaf or hard of hearing, as determined by the State Board of Education, and between the ages of three and six years may be admitted at school for individual instruction or be instructed in the home through the employment of a home instructor, provided there are fewer than five such educable minors in the community making the establishment of a special day class impracticable, or the establishment of a special day class for such minors is impracticable because there are fewer than five such minors in the community within reasonable travel distance of a school suitable for the establishment of such a special day class, and provided, further, that such instruction is afforded by a teacher or home instructor possessing full qualifications for the credential to teach deaf pupils as prescribed by the regulations of the State Board of Education.

SEC. 15. Section 6812.5 of the Education Code is amended to read:

6812.5. Minors who are deaf or severely hard of hearing, as determined by the State Board of Education, and who are between the ages of 18 months and three years, may be enrolled in experimental programs conducted by a school district or county superintendent of schools. Experimental programs for such minors shall be approved in advance by the Superintendent of Public Instruction and shall be conducted in accordance with rules and regulations established by him. Instruction in such experimental programs shall be afforded by a teacher possessing full qualifications to teach deaf and severely hard-of-hearing pupils as prescribed by rules and regulations of the State Board of Education.

Notwithstanding any provision of this code to the contrary, attendance of deaf and severely hard-of-hearing minors enrolled in experimental programs authorized by this section shall be credited to the school district or county superintendent of schools providing such instruction in the same manner as authorized for minors receiving special schooling pursuant to

this chapter and Article 9 (commencing with Section 894) of Chapter 4 of Division 3.

Notwithstanding any provision of this code to the contrary, computations of allowances and apportionments from the State School Fund for deaf and severely hard-of-hearing minors enrolled in experimental programs authorized by this section shall be credited to the district or county superintendent of schools providing such instruction in the same manner as authorized for minors receiving special schooling pursuant to this chapter and Article 9 (commencing with Section 894) of Chapter 4 of Division 3.

Notwithstanding any provision of this code to the contrary, physically handicapped minors as prescribed in Section 8955.2 shall include deaf and severely hard-of-hearing minors enrolled in experimental programs authorized by this section.

On or before the fifth legislative day of the 1969 Regular Session, the Superintendent of Public Instruction shall submit to the Legislature a comprehensive report on all phases of the experimental programs conducted, including therein his recommendations concerning whether the establishment of such programs throughout the state is feasible.

SEC. 16. Section 6813 of the Education Code is amended to read:

6813. Subject to the provisions of Section 894 special classes or individual instruction provided for pretuberculous, tuberculous, convalescent, or other physically handicapped minors in hospitals, sanatoriums, and preventoriums, may be maintained in the institutions within or without the school district, and the attendance of pupils in the institutions shall be credited to the district providing the instruction.

SEC. 17. Section 6815 of the Education Code is amended to read:

6815. Subject to the provisions of Section 894 a minor with cerebral palsy may attend a special school or class maintained by any school district for minors with cerebral palsy. The governing board of the district of residence shall pay to the district of attendance at the close of each school year the total current expenditures of the district of attendance, for the education of such minor during such school year, less all apportionments of state and federal funds made on account of the attendance of such pupils. The governing board of the district of residence may agree to reimburse the district of attendance for use of buildings and equipment. If the district of residence has insufficient funds to make such payment, the county superintendent of schools having jurisdiction over the district of residence shall apportion to the district from the county school service fund such sum as may be necessary to permit the district to meet its obligation under this section.

SEC. 18. Section 6871 of the Education Code is amended to read:

6871. With the approval of the Superintendent of Public Instruction any school district having a physically handicapped minor as defined by this chapter for whom special education facilities and services are not available and cannot be reasonably provided under the provisions of Article 1 (commencing with Section 6801) of this chapter and Article 9 (commencing with Section 894) of Chapter 4 of Division 3, and for whom the State of California has no appropriate special education facilities and services, may, in lieu of establishing and maintaining the needed special education facilities and services at an unreasonable cost to the district, pay to the parent or guardian of such minor toward the tuition for such minor, enrolled in a public or private nonsectarian school within or outside of California offering the special education facilities and services made necessary by the minor's physical disabilities, an amount not to exceed the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question, the maximum amount allowable per unit of average daily attendance under Sections 18060 and 18102, and the amount per unit of average daily attendance provided from revenue derived from district taxation for the support of the schools of the district. As used in this article "tuition" includes the cost to the parent or guardian of transporting a minor enrolled in a public or private nonsectarian school under this section to and from school.

SEC. 19. Section 6874.6 of the Education Code is amended to read:

6874.6. A claim concerning the attendance of an exceptional child at any school, institution, or agency in which there are insufficient numbers of properly credentialed teachers but which otherwise offers an acceptable educational program shall not be disallowed pursuant to Section 6874, if:

(a) The Department of Education has determined that there is in the area served by the school, institution, or agency a shortage of properly credentialed teachers, and

(b) The Department of Education determines that the needs of the exceptional children to be served by the school, institution, or agency will be more adequately served through an education at the school, institution, or agency than they would be if the children remain in their existing educational environments.

At such time that the Department of Education determines that there is in the area served by the school, institution, or agency a sufficient number of properly credentialed and employable teachers, the department shall require that properly credentialed teachers be employed by the school, institution, or agency before a claim may be satisfied for the education of an exceptional child at the school, institution, or agency.

This section shall apply only to a school, institution, or agency, enrolling an exceptional child under this chapter, which is situated in this state.

CHAPTER 567

An act to amend Section 585 of, and to add Section 587 to, the Code of Civil Procedure, relating to judgments.

[Approved by Governor July 21, 1969 Filed with Secretary of State July 21, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 585 of the Code of Civil Procedure is amended to read:

585. Judgment may be had, if the defendant fails to answer the complaint, as follows:

1. In an action arising upon contract or judgment of a court of this state for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of the defendants have, been personally served and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons pursuant to Section 416 1 or notice of the filing of a petition for writ of mandate as provided in Section 416.3 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, and proof of such service of summons, must enter the default of the defendant, or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against the defendant, or defendants, or against one or more of the defendants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of the default, the court shall hear the application for determination of the attorney fee and render judgment for the same and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against the defendant, or defendants, or against one or more of the defendants.

2 In other actions, if the defendant has been personally served and no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons pursuant to Section 416 1 or notice of the filing of a petition for writ of mandate as provided in Section 416.3 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, must enter the default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; the court must hear the evidence offered by the plaintiff, and must render judgment in his favor for such sum (not

exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved by a reference as above provided.

3. In all actions where the service of the summons was by publication the plaintiff, upon the expiration of the time for answering, may, upon proof of the publication, and that no answer or demurrer or notice of motion to strike (of the character hereinafter specified) or notice of motion to quash service of summons pursuant to Section 416.1 or notice of the filing of a petition for writ of mandate as provided in Section 416.3 has been filed, apply in writing for judgment; and the court must thereupon require proof to be made of the allegations of the complaint; and if the defendant is not a resident of the state, must require the plaintiff, or his agent, to be examined, on oath, respecting any payments that have been made to the plaintiff, or to anyone for his use, on account of any demand mentioned in the complaint, and may render judgment for the amount which he is entitled to recover; provided that, in all cases affecting the title to or possession of real property, where the service of the summons was by publication and the defendant has failed to answer, no judgment shall be rendered upon proof of mere occupancy, unless such occupancy shall have continued for the time and shall have been of the character necessary to confer title by prescription, and in all cases where the plaintiff bases his claim upon a paper title, the court shall require evidence establishing plaintiff's equitable right to judgment before rendering such judgment; provided further, however, that in actions involving merely the possession of real property where the complaint is verified and shows by proper allegations that no party to the action claims title to the real property involved, either by prescription, accession, transfer, will or succession but only the possession thereof, the court may render judgment upon proof of occupancy by plaintiff and ouster by defendant.

A notice of motion to strike within the meaning of this section is a notice of motion to strike the whole or any part of a pleading filed within the time within which the moving party is required otherwise to plead to the pleading. The notice of the motion to strike shall specify a hearing date not more than 15 days from the filing of the notice, plus any additional time that the moving party is otherwise required to give the adverse party. The filing of such notice of motion does not extend the time within which to demur.

4. In the cases referred to in subdivisions 2 and 3 of this section, excepting those cases which involve the dissolution or annulment of marriage or separate maintenance or the custody of children, or upon application to have an attorney's fee fixed by the court pursuant to subdivision 1 of this section, the court in its discretion may permit the use of affidavits, in lieu of personal testimony, as to all or any part of the evidence or proof required or permitted to be offered, received or heard in such cases. The facts stated in such affidavit or affidavits shall be within the personal knowledge of the affiant and shall be set forth with particularity, and each affidavit shall show affirmatively that the affiant, if sworn as a witness, can testify competently thereto.

SEC. 1.5. Section 585 of the Code of Civil Procedure is amended to read:

585. Judgment may be had, if the defendant fails to answer the complaint, as follows:

1. In an action arising upon contract or judgment of a court of this state for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of such defendants have, been personally served and no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons pursuant to Section 416.1, or notice of the filing of a petition for writ of mandate as provided in Section 416.3 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, and proof of such service of summons, shall enter the default of the defendant or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against such defendant, or defendants, or against one or more of such defendants If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule if the contract provides that an attorney fee be allowed in the event of an action thereon; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of such default, the court shall hear the application for determination of the attorney fee and render judgment for the same and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against such defendant, or defendants, or against one or more of such defendants.

2 In other actions, if the defendant has been personally served and no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons pursuant to Section 416.1, or notice of the filing of a petition for writ of mandate as provided in Section 416.3 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, shall enter the default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; the court shall hear the evidence offered by the plaintiff, and shall render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved by a reference as above provided.

3. In all actions where the service of the summons was by publication the plaintiff, upon the expiration of the time for answering, may, upon proof of the publication, and that no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons pursuant to Section 416.1, or notice of the filing of a petition for writ of mandate as provided in Section 416.3 has been filed, apply in writing for judgment; and the court shall thereupon require proof to be made of the allegations of the complaint; and if the defendant is not a resident of the state, shall require the plaintiff, or his agent, to be examined, on oath, respecting any payments that have been made to the plaintiff, or to anyone for his use, on account of any demand mentioned in the complaint, and may render judgment for the amount which he is entitled to recover; provided that, in all cases affecting the title to or possession of real property, where the service of the summons was by publication and the defendant has failed to answer, no judgment shall be rendered upon proof of mere occupancy, unless such occupancy shall have continued for the time and shall have been of the character necessary to confer title by prescription, and in all cases where the plaintiff bases his claim upon a paper title, the court shall require evidence establishing plaintiff's equitable right to judgment before rendering such judgment; provided further, however, that in actions involving merely the possession of real property

where the complaint is verified and shows by proper allegations that no party to the action claims title to the real property involved, either by prescription, accession, transfer, will, or succession, but only the possession thereof, the court may render judgment upon proof of occupancy by plaintiff and ouster by defendant.

A notice of motion to strike within the meaning of this section is a notice of motion to strike the whole or any part of a pleading filed within the time within which the moving party is required otherwise to plead to such pleading. The notice of the motion to strike shall specify a hearing date not more than 15 days from the filing of such notice, plus any additional time that the moving party is otherwise required to give the adverse party. The filing of such notice of motion does not extend the time within which to demur.

4. In the cases referred to in subdivisions 2 and 3 of this section, excepting those cases which involve the dissolution or annulment of marriage or separate maintenance or the custody of children, or upon application to have an attorney's fee fixed by the court pursuant to subdivision 1 of this section, the court in its discretion may permit the use of affidavits, in lieu of personal testimony, as to all or any part of the evidence or proof required or permitted to be offered, received, or heard in such cases. The facts stated in such affidavit or affidavits shall be within the personal knowledge of the affiant and shall be set forth with particularity, and each affidavit shall show affirmatively that the affiant, if sworn as a witness, can testify competently thereto.

SEC. 2. Section 587 is added to the Code of Civil Procedure, to read:

587. An application by a plaintiff for entry of default under subdivision (1) or (2) of Section 585 or Section 586 or an application for judgment under subdivision (3) of Section 585 shall include an affidavit by the plaintiff or his attorney stating that a copy of such application has been mailed to the defendant's attorney of record, or if none, to the defendant at his last known address and the date on which such copy was mailed. If no such address of the defendant is known to the plaintiff or plaintiff's attorney the affidavit shall state such fact.

No application for judgment under the provisions of subdivision (3) of Section 585 shall be heard, and no default under the provisions of subdivision (1) or (2) of Section 585 or Section 586 shall be entered, unless such affidavit is filed. The nonreceipt of such notice shall not invalidate or constitute ground for setting aside any judgment.

SEC. 3. It is the intent of the Legislature, if amendments to Section 585 of the Code of Civil Procedure proposed by both this bill and S.B. 574 are enacted, that both amendments be given effect and incorporated in Section 585 in the form set forth in Section 1.5 of this act. Therefore, in the event S.B. 574

is enacted and amends Section 585. Section 1.5 of this act shall become operative at the same time that Section 585 as amended by S.B. 574 becomes operative, and at that time, Section 585 of the Code of Civil Procedure as amended by Section 1 of this act is repealed.

CHAPTER 579

An act to amend Section 11580.2 of the Insurance Code, relating to uninsured motorists.

[Approved by Governor July 22, 1969 Filed with Secretary of State July 22, 1969]

The people of the State of California do enact as follows:

SECTION 1. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to re-

cover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured may by agreement in writing delete the provision covering damage caused by an uninsured motor vehicle. Such deletion by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term "insured" means the named insured and the spouse of the named insured and relatives of either while residents of the same household while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. The term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either to the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. The term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the safety responsibility law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawlertreads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

The term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tort-feasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workmen's compensation carrier

or to any person qualified as a self-insurer under any workmen's compensation law.

(5) To establish an exemption as provided in subdivisions (a), (b), and (c) of Section 16057 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (c)(2), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits

(e) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in said Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in said Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the Superior Court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of said Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under said Article 3 with respect to the same accident, subject, however, to the right of

such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of subparagraph (a)(4) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in subparagraph (b)(2) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(f) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(g) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver or rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him under any workmen's compensation law exclusive of nonoccupational disability benefits.

(2) By the amounts paid or due to be paid under any valid and collectible automobile medical payment insurance available to the insured.

(3) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(h) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

TITLE 1. CONTRACTS FOR SWIMMING POOL CONSTRUCTION

1725. (a) The Legislature finds that a need exists for a more complete understanding between customers and contractors engaged in the swimming pool construction business regarding the content and conditions of transactions for swimming pool construction; that many misunderstandings have arisen because of the lack of a standard body of requirements relating to such transactions, and that certain sales and business practices, and construction practices, have worked financial hardship upon the people of this state; that the swimming pool construction business has a significant impact on the economy and well-being of this state, its communities, and its individual citizens; that the problems which have arisen relative to the swimming pool construction business are peculiar to that business; and that the provisions of this title relating to the swimming pool construction business are necessary for the public welfare.

(b) The Legislature declares that the purpose of this title is to create an area of understanding and to establish standards which will safeguard the people against imposition and financial hardship, and encourage competition, fair dealing, and prosperity in the swimming pool construction business.

1726. As used in this title, "swimming pool contractor" includes any person, firm, association, organization, partnership, business trust, corporation, or company who or which undertakes to, offers to undertake to, purports to have the capacity to undertake to, submits a bid to, or does itself, or by or through others, construct any swimming pool.

1727. Every contract for the construction of a swimming pool which is entered into on or after the effective date of this title shall be in writing and shall be subject to the provisions of this title.

1728. Every contract for the construction of a swimming pool shall set out a date certain on which all construction is to be completed.

Any such authorization shall be on a contract change-order form showing the agreed terms and reasons for such changes, and shall be approved by both parties. Any such change-order forms shall be incorporated in, and become a part of, the contract.

1730. Every contract for the construction of a swimming pool shall contain the name of the contractor, his license number, and classification.

1731. At the time a contract for the construction of a swimming pool is signed by the parties, the swimming pool contractor shall deliver a legible copy of such contract to the person contracting for construction of the swimming pool.

1732. In any action between a person contracting for construction of a swimming pool and a swimming pool contractor, arising out of a contract for swimming pool construction, the court shall award a reasonable attorney fee to the prevailing party.

1733 The provisions of this title shall not apply to contracts for the construction of swimming pools to be built for the use and enjoyment of other than a single-family unit upon or contiguous to premises occupied only by a single-family unit, nor shall they apply to the construction of swimming pools built as part of an original building plan by the same contractor who builds a single-family dwelling unit on the premises.

1734. The provisions of this title are not exclusive and do not relieve the parties or the contracts subject thereto from compliance with all other applicable provisions of law.

1735. Any contract for the construction of a swimming pool which does not comply with the applicable provisions of this title shall be void and unenforceable as contrary to public policy.

1736. If any provision of this title or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the title which can be given effect without the invalid provision or application, and to this end the provisions of this title are severable.

SEC. 2. This act shall not affect the validity of any agreement made prior to the effective date of the act.

CHAPTER 584

A hospital in which an individual, eligible for benefits under this part, is hospitalized shall, within 10 days of the first day of the individual's confinement in the hospital, notify the individual of his right to receive the additional benefits provided for by Section 2801 and shall supply him with the necessary forms to make application for those benefits. Failure of the hospital to notify the individual of the additional benefits provided for by Section 2801 or to provide the necessary forms to make application for those benefits shall constitute good cause for the late filing of a claim.

The power of eminent domain vested in the board of supervisors of said district shall include the power to condemn in the name of the district with the fee simple or any lesser estate or interest in any real property which said board by resolution shall determine is necessary for carrying out the purposes of this act. Such resolution shall be prima facie evidence that the taking of the fee simple or any lesser estate or interest in such property, as the case may be, is necessary; provided, however, that when the board of supervisors shall, by resolution or ordinance, adopted by vote of two-thirds of all its members, have found and determined that the public interest and necessity require the acquisition, construction or completion by said district of any public improvement for flood control purposes and that the property described in such resolution

or ordinance is necessary therefor, such resolution or ordinance shall be conclusive evidence (a) of the public necessity of such proposed public improvement, (b) that such property is necessary therefor, and (c) that such proposed public improvement is planned or located in the manner which will be most compatible with the greatest public good, and the least private injury. Whenever real property which is devoted to or held for some other public or quasi-public use is required by the district for flood control or water conservation purposes, the district may condemn real property adjacent thereto or in the immediate vicinity thereof to be exchanged for the real property required by the district as aforesaid for flood control or water conservation purposes.

Such motion shall be supported by affidavit showing that the claim against such defendant is frivolous. Any defendant having appeared in the action and within 30 days after receipt of notice may join with the moving party requesting an order under this section as to such additional defendant. The failure of any defendant to join with the moving party shall preclude each such defendant from subsequently requesting an order under this section.

At the hearing upon such motion, the court shall order the plaintiff to furnish such security if the defendant shows to the satisfaction of the court that: (i) the plaintiff would not suffer undue economic hardship in filing such written undertaking or making such deposit and (ii) there is no reasonable possibility that the plaintiff has a cause of action against each named defendant with respect to whom the plaintiff would otherwise be required to file such written undertaking or make such deposit.

A determination by the court that security either shall or shall not be furnished or shall be furnished as to one or more defendants and not as to others, shall not be deemed a determination of any one or more issues in the action or of the merits thereof. If the court, upon any such motion, makes a determination that a written undertaking or deposit be furnished by the plaintiff as to any one or more defendants, the action shall be dismissed as to such defendant or defendants, unless the security required by the court shall have been furnished within such reasonable time as may be fixed by the court.

(b) This section does not apply to a complaint in an action commenced in a small claims court.

(c) Whenever more than one such defendant is named, the undertaking or deposit shall be increased to the extent of not to exceed five hundred dollars ($500) for each additional defendant in whose favor such undertaking or deposit is ordered, not to exceed the total of one thousand dollars ($1,000).

(d) In any action requiring a written undertaking or deposit as provided in this section, upon the dismissal of the action or the award of judgment to the defendant, the court shall require the plaintiff to pay the defendant's court costs. Any sureties shall be liable for such costs in an amount not to exceed the sum of five hundred dollars ($500) or the amount of the undertaking, whichever is lesser, for each defendant with respect to whom such sureties have executed a written undertaking or the plaintiff has made a deposit. If the plaintiff prevails in the action against any defendant with respect

to whom such security has been filed, such defendant shall pay the costs to plaintiff incurred in obtaining such written undertaking or deposit and defending the motion for dismissal authorized by this section.

(e) Any defendant filing a motion under this section or joining with a moving party under this section is precluded from subsequently filing a motion for summary judgment.

(f) Any defendant filing a motion for summary judgment is precluded from subsequently filing a motion, or joining with a moving party, under this section.

(d) For any employer or employment agency to print or circulate or cause to be printed or circulated any publication, or to use any form of application for employment or to make any inquiry in connection with prospective employment, which expresses, directly or indirectly, any limitation, specification or discrimination as to race, religious creed, color, national origin, ancestry, or sex or any intent to make any such limitation, specification or discrimination.

(e) For any employer, labor organization or employment agency to discharge, expel or otherwise discriminate against any person because he has opposed any practices forbidden under this act or because he has filed a complaint, testified or assisted in any proceeding under this part.

(f) For any person to aid, abet, incite, compel, or coerce the doing of any of the acts forbidden under this part, or to attempt to do so.

This section shall not apply to an alteration or modification to use a fuel other than gasoline or diesel found by the Air Resources Board to result in emissions from such modified or altered vehicle which are at levels which comply with existing state or federal standards for that model year of the vehicle being modified or converted.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The State of California has not received a waiver by the federal government for crankcase control since 1968 nor for exhaust control systems on the 1968 year model vehicles; therefore, under existing statutes such devices could be removed. It is, therefore, necessary to the peace, health and safety of the people of California that protective legislation prohibiting the removal of pollution control devices required by federal statutes and regulations, take effect immediately.

CHAPTER 623

SECTION 1. Section 25416 of the Education Code is amended to read:

25416. The governing board of each junior college district shall hold an annual organizational meeting on a day within the period of July 1 to July 15, inclusive. Unless otherwise provided by rule of the governing board, the day and time of the annual meeting shall be selected by the board at its regular meeting held immediately prior to such July 1, and the board shall notify the county superintendent of schools of the day and time selected. The secretary of the board shall, within

15 days prior to the date of the annual meeting notify in writing all members and members-elect of the date and time selected for the meeting.

If the board fails to select a day and time for the meeting, the county superintendent of schools having jurisdiction over the district shall, prior to July 1 and after the regular meeting of the board held immediately prior to July 1, designate the day and time of the annual meeting. The day designated shall be within the period of July 1 to July 15, inclusive. He shall notify in writing all members and members-elect of the date and time.

At the annual meeting, the governing board of the junior college district shall organize by electing a president from its members and a secretary.

CHAPTER 624

An act to amend Sections 6357, 6406, 6501, 6502, and 6509 of the Welfare and Institutions Code, relating to state hospitals.

[Approved by Governor July 28, 1969. Filed with Secretary of State July 28, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 6357 of the Welfare and Institutions Code is amended to read:

6357. If, after a hearing and examination, the judge believes the person charged is a narcotic drug addict, he shall make an order committing such person to the Department of Mental Hygiene for placement in a state hospital for an indeterminate period of not less than three months nor more than two years.

If satisfactory evidence is submitted to the trial judge showing that the person to be committed is of bad repute or bad character, apart from his habit for which the commitment is made, and that there is reasonable ground for believing that the person if committed will not be benefited by treatment, the judge shall not commit the person to a state hospital.

SEC. 2. Section 6406 of the Welfare and Institutions Code is amended to read:

6406. If the judge, after such hearing and examination, believes the person is so far addicted to the intemperate use of habit-forming drugs, as provided in this article, as to have lost the power of self-control, he shall make an order that the person be committed to the Department of Mental Hygiene for placement in a state hospital, or that such person be confined for a definite period not exceeding one year, in a regional jail camp maintained by the Department of Corrections or in an industrial farm or industrial road camp within the county or, in the event that the county maintains a branch

of the county jail at which inmates thereof are required to perform agricultural and other out-of-doors labor, in such branch of the county jail. The order of commitment and statement of financial condition shall be in substantially the form provided by Section 6254 of this code for the commitment of mentally disordered persons.

Before a person is committed to a state hospital, however, satisfactory evidence shall be submitted to the trial judge showing that the person to be committed is not of bad repute or bad character, apart from his habit for which the commitment is made, and that there is reasonable ground for believing that the person, if committed, will be permanently benefited by treatment.

SEC. 3. Section 6501 of the Welfare and Institutions Code is amended to read:

6501. Any mentally retarded person requiring hospitalization may be committed to the Department of Mental Hygiene for placement in a state hospital if he has been a resident of the state for the period of one year next preceding the presentation of the petition.

Residence acquired in this or in another state shall not be lost by reason of military service in the armed forces of the United States. The residence of minor children during the period of such military service shall be determined in accordance with the residence of the parent in such service or in accordance with the residence of the child.

Any mentally retarded minor requiring hospitalization may be committed to the Department of Mental Hygiene if the parent or guardian having custody of the minor has lived continuously in this state for a period of one year next preceding the presentation of the petition and has not acquired residence in another state by living continuously therein for at least one year subsequent to his residence in this state. Such parent or guardian shall be deemed a resident of this state for the purposes of this section and such minor shall be eligible for hospitalization in this state as a mentally retarded person. The eligibility of such minor for hospitalization in this state ceases when such parent or guardian ceases to be a resident of this state and such minor shall be transferred to the state of residence of the parent or guardian in accordance with the applicable provisions of this code.

SEC. 4. Section 6502 of the Welfare and Institutions Code is amended to read:

6502. A petition for the commitment of a mentally retarded person to the Department of Mental Hygiene for placement in a state hospital may be filed in the superior court of the county in which such person resides, by any of the following persons:

(a) The parent, guardian, or other person charged with the support of the mentally retarded person.

(b) Any district attorney or probation officer.

(c) The Youth Authority.

(d) Any person designated for that purpose by the judge of the court.

(e) The Director of Corrections.

The petition shall state the petitioner's reasons for supposing the person to be eligible for admission thereto, and shall be verified by the affidavit of the petitioner.

SEC. 5. Section 6509 of the Welfare and Institutions Code is amended to read:

6509. If the court finds that the person is mentally retarded, and that he or his parent or guardian is a resident of this state as determined in accordance with Section 6501, the court may make an order that the person be committed to the Department of Mental Hygiene for hospitalization. The court, however, may commit a mentally retarded person who has been in the state less than one year, or a mentally retarded minor who is not eligible for commitment to the Department of Mental Hygiene under Section 6501 for the purpose of transportation of such person to the state of his legal residence pursuant to Section 4119. The Department of Mental Hygiene shall receive the person committed to it and shall place the person in a state hospital unless such institutions are already full, or the funds available for their support are exhausted, or, in the opinion of the Department of Mental Hygiene, the person is not a suitable subject for admission thereto.

CHAPTER 625

[Approved by Governor July 28, 1969. Filed with Secretary of State July 28, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1802.8 of the Civil Code is amended to read:

1802.8. "Cash price" means the cash price stated in a retail installment contract for which the seller would sell or furnish to the buyer and the buyer would buy or obtain from the seller the goods or services which are the subject matter of a retail installment contract if the sale were a sale for cash instead of a retail installment sale. The cash price may include any taxes and cash prices for accessories and services, if any, included in a retail installment sale

SEC. 2. Section 1802.9 of the Civil Code is amended to read:

1802.9. "Deferred payment price" means the total of the cash price of the goods or services and the amounts, if any, included for insurance, official fees and service charge.

SEC. 3. Section 1802.10 of the Civil Code is amended to read:

1802.10. "Finance charge" or "service charge" means the amount however denominated or expressed which the retail buyer contracts to pay or pays for the privilege of purchasing goods or services to be paid for by the buyer in installments; it does not include the amounts, if any, charged for insurance premiums if the insurance coverage involved is not required by the seller, delinquency charges, attorney's fees, court costs, collection expenses or official fees. Wherever either of such terms is required to be used under the provisions of this chapter the other may be used interchangeably.

If credit life, accident, health, or loss of income insurance is required by the seller as a condition of extending the credit, the total finance charge shall be the sum of the finance charge computed in accordance with Article 5 (commencing with Section 1805.1) of this chapter and the charge for any insurance premium.

SEC. 4. Section 1802.11 of the Civil Code is amended to read:

1802.11. "Unpaid balance" means the cash price of the goods or services which are the subject matter of the retail installment sale, plus the amounts, if any, included in a retail installment sale for insurance and official fees, minus the amount of the buyer's downpayment in money or goods.

SEC. 5. Section 1802.17 is added to the Civil Code, to read:

1802.17. For purposes of this chapter, "retail installment account" has the same meaning as "open end credit account," and, when applicable, the word "creditor" may be used instead of "seller" or "holder." The word "customer" may be used instead of "buyer."

SEC. 5.5. Section 1803 2 of the Civil Code is amended to read:

1803.2. Except as provided in Sections 1803.9 and 1808.3, every retail installment contract shall be contained in a single document which shall contain:

(a) The entire agreement of the parties with respect to the cost and terms of payment for the goods and services, including any promissory notes or any other evidences of indebtedness between the parties relating to the transaction.

(b) Either at the top of the contract or directly above the space reserved for the signature of the buyer, the words "Security Agreement" or "Lien Contract," as the case may be, shall appear in at least 10-point bold type where a security interest in the goods is retained or a lien on other goods or realty is obtained by the seller as security for the goods or services purchased. Either at the top of the contract or directly above the space reserved for the signature of the buyer, the

words "Retail Installment Contract" shall appear in at least 10-point bold type where security is not obtained by the seller for the goods or services purchased.

(c) A notice in at least eight-point bold type reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank space. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and to obtain a partial refund of the service charge." (The seller shall explain in this notice the method of computing the unearned portion of the finance charge and the conditions under which the partial refund will be made.)

SEC. 6. Section 1803.3 of the Civil Code is amended to read:

1803.3. Except as provided in Article 8 of this chapter, a contract shall contain the following:

(a) The names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer and a description of the goods or services sufficient to identify them. Services or multiple items of goods may be described in general terms and may be described in detail sufficient to identify them in a separate writing.

(b) The cash price of the goods, services and accessories which are the subject matter of the retail installment sale.

(c) The amount of the buyer's downpayment, itemizing the amounts paid in money and in goods and containing a brief description of the goods, if any, traded in.

(d) The difference between item (b) and item (c), which is the unpaid balance of cash price.

(e) The amount, if any, included for insurance, specifying the coverages.

(f) The amount, if any, of official fees.

(g) The unpaid balance, which is the sum of items (d), (e), and (f).

(h) The amount of the service charge, if any.

(i) The total of payments, which is the sum of items (g) and (h), payable by the buyer to the seller, the number of installments required, the amount of each installment expressed in dollars and the due date or period thereof.

(j) The deferred payment price.

(k) Any "balloon payments," as described in Section 1807.3.

The items need not be stated in the sequence or order set forth above; additional items may be included to explain the computations made in determining the amount to be paid by the buyer.

SEC. 7. Section 1806.2 of the Civil Code is amended to read:

1806.2. At any time after its execution, but not later than one year after the last payment thereunder, the holder of a

contract shall, upon written request of the buyer made in good faith, promptly give or forward to the buyer a detailed written statement which will state with accuracy the total amount, if any, unpaid thereunder. Such a statement shall be supplied by the holder once each year without charge; if any additional statement is requested by the buyer, the holder shall supply such statement to the buyer at a charge not exceeding one dollar ($1) for each additional statement supplied to the buyer. The provisions of this section shall apply only to those transactions wherein, instead of periodic statements of account, the buyer is provided with a passbook or payment book in which all payments, credits, charges and the unpaid balance is entered.

SEC. 8. Section 1807.3 of the Civil Code is amended to read:

1807.3. If any payment under a contract is more than twice the amount of an otherwise regularly scheduled equal payment, the creditor shall identify the amount of such payment by the term "balloon payment," and the buyer, upon default of this installment, shall be given an absolute right to obtain a new payment schedule. Unless agreed to by the buyer, the periodic payments under the new schedule shall not be substantially greater than the average of the preceding installments.

SEC. 9. Section 1808.1 of the Civil Code is amended to read:

1808.1. A retail installment contract which otherwise conforms to the requirements of this chapter, may contain the provision that the seller may at his option add subsequent purchases made by the buyer to the contract, and that the total price of the goods or services covered by the contract shall be increased by the price of such additional goods or services, and that all service charges and installment payments may at the seller's option be increased proportionately, and that all terms and conditions of the contract shall apply equally to such additional goods or services. The contract may also provide that the goods purchased under the previous contract or contracts shall be security for the goods purchased under the subsequent contract but only until such time as the total of payments under the previous contract or contracts is fully paid.

SEC. 10. Section 1808.2 of the Civil Code is amended to read:

1808.2. (a) When a subsequent purchase is made, the entire amount of all payments made previous thereto shall be deemed to have been applied toward the payment of the previous time sale price or time sale prices. Each payment thereafter received shall be deemed (subject to the exception in subdivision (b)) to be allocated to all of the various time sale prices in the same proportion or ratio as the original cash sale prices of the various purchases bear to one another;

where the amount of each installment payment is increased in connection with the subsequent purchase, the subsequent payments (at the seller's election) may be deemed to be allocated as follows: an amount equal to the original rate, to the previous time sale price, and an amount equal to the increase, to the subsequent time sale price. However, the amount of any initial or down payment on the subsequent purchase shall be deemed to be allocated in its entirety to such purchase.

(b) If a credit sale is one of a series of transactions made pursuant to an agreement providing for the addition of the amount financed plus the finance charge for the current sale to an existing outstanding balance, and the disclosures required under this article are delayed until some date prior to the date the first payment for that sale is due; and

(1) The customer has approved in writing both the annual percentage rate or rates and the method of treating any unearned finance charge on an existing outstanding balance in computing the finance charge or charges; and

(2) The seller retains no security interest in any property as to which he has received payments aggregating the amount of the sale price including any finance charges attributable thereto;

then, for the purposes of this subdivision, in the case of items purchased on different dates, the first purchased shall be deemed first paid for, and in the case of items purchased on the same date, the lowest priced shall be deemed first paid for.

SEC. 11. Section 1808.3 of the Civil Code is amended to read:

1808.3. When a subsequent purchase is made the seller shall deliver to the buyer, prior to the due date of the first installment, a memorandum which shall set forth the following:

(a) The names of the seller and the buyer, the place of business of the seller, the residence or place of business of the buyer as specified by the buyer and a description of the goods and services sufficient to identify them. Services or multiple items of goods may be described in general terms and may be described in detail in a separate writing.

(b) The cash price of the goods, services and accessories which are the subject matter of the new retail installment sale.

(c) The amount of the buyer's down payment, itemizing the amounts paid in money and in goods and containing a brief description of the goods, if any, traded in.

(d) The difference between item (b) and item (c), which is the unpaid balance of cash price.

(e) The amount, if any, included for insurance, specifying the coverages.

(f) The amount, if any, of official fees.

(g) The unpaid balance, which is the sum of items (d), (e) and (f).

(h) The total of payments of the prior contract or contracts.

(i) The new total of payments, which is the sum of items (g) and (h).

(j) The amount of the service charge computed in conformity with Section 1808.5.

(k) The consolidated total of payments, which is the sum of items (i) and (j), payable by the buyer to the seller, the number of installments required, the amount of each installment expressed in dollars and the due date or period thereof.

(*l*) Any "balloon payments," as described in Section 1807.3.

The items need not be stated in the sequence or order set forth above; additional items may be included to explain the computations made in determining the amount to be paid by the buyer.

This memorandum shall contain the statement that the seller is adding the subsequent purchase to the buyer's existing contract in accordance with the provisions thereof.

SEC. 12. Section 1810.1 of the Civil Code is repealed.

SEC. 13. Section 1810.1 is added to the Civil Code, to read:

1810.1. Notwithstanding any other provision of this article to the contrary, before the first transaction is made on any open end credit account, the creditor shall disclose to the customer in a single written statement, which the customer may retain, in terminology consistent with the requirements of Section 1810.3, each of the following items, to the extent applicable:

(a) The conditions under which a finance charge may be imposed, including an explanation of the time period, if any, within which any credit extended may be paid without incurring a finance charge.

(b) The method of determining the balance upon which a finance charge may be imposed.

(c) The method of determining the amount of the finance charge, including the method of determining any minimum, fixed, check service, transaction, activity, or similar charge, which may be imposed as a finance charge.

(d) Where one or more periodic rates may be used to compute the finance charge, each such rate, the range of balances to which it is applicable, and the corresponding annual percentage rate determined by multiplying the periodic rate by the number of periods in a year.

(e) The conditions under which any other charges may be imposed, and the method by which they will be determined.

(f) The conditions under which the creditor may retain or acquire any security interest in any property to secure the payment of any credit extended on the account, and a description or identification of the type of the interest or interests which may be so retained or acquired.

1810.2. Subject to the other provisions of this article the seller or holder of a retail installment account may charge, receive and collect the service charge authorized by this chapter. The service charge shall not exceed the following rates computed on the outstanding balances from month to month:

(a) On so much of the outstanding balance as does not exceed one thousand dollars ($1,000), 1½ percent.

(b) If the outstanding balance is more than one thousand dollars ($1,000), 1 percent on the excess over one thousand dollars ($1,000) of the outstanding balance.

(c) If the service charge so computed is less than one dollar ($1) for any month, one dollar ($1).

(d) The service charge may be computed on a schedule of fixed amounts if as so computed it is applied to all amounts of outstanding balances equal to the fixed amount minus a differential of not more than five dollars ($5), provided that it is also applied to all amounts of outstanding balances equal to the fixed amount plus at least the same differential.

SEC. 17. Section 1810.5 of the Civil Code is amended and renumbered to read:

1810.3. (a) Except in the case of an account which the creditor deems to be uncollectable or with respect to which delinquency collection procedures have been instituted, the creditor of any open end credit account shall mail or deliver to the customer, for each billing cycle at the end of which there is an outstanding debit balance in excess of one dollar ($1) in that account or with respect to which a finance charge is imposed, a statement or statements which the customer may retain, setting forth in accordance with subdivision (b) each of the following items to the extent applicable:

(1) The outstanding balance in the account at the beginning of the billing cycle, using the term "previous balance."

(2) The amount and date of each extension of credit or the date such extension of credit is debited to the account during the billing cycle and, unless previously furnished, a brief identification of any goods or services purchased or other extension of credit.

(3) The total amounts credited to the account during the billing cycle for payments, using the term "payment," and for other credits including returns, rebates of finance charges, and adjustments, using the term "credits," and unless previously furnished, a brief identification of each of the items included in such other credits.

(4) The amount of any finance charge, using the term "finance charge," debited to the account during the billing cycle, itemized and identified to show the amounts, if any, due to the application of periodic rates and the amount of any other charge included in the finance charge, such as a minimum, fixed, check service, transaction, activity, or similar charge, using appropriate descriptive terminology.

(5) Each periodic rate, using the term "periodic rate" (or "rates"), that may be used to compute the finance charge (whether or not applied during the billing cycle), and the range of balances to which it is applicable.

(6) The balance on which the finance charge was computed, and a statement of how that balance was determined. If any balance is determined without first deducting all credits during the billing cycle, that fact and the amount of such credits shall also be disclosed.

(7) The closing date of the billing cycle and the outstanding balance in the account on that date, using the term "new balance," accompanied by the statement of the date by which, or the period, if any, within which, payment must be made to avoid additional finance charges.

(b) The disclosures required by subdivision (a) shall be made on the face of the periodic statement, on its reverse side, or on the periodic statement supplemented by separate statement forms provided they are enclosed together and delivered to the customer at the same time, and further provided that

(1) The disclosures required by subdivision (a) shall appear on the face of the periodic statement. If the amounts and dates of the charges and credits required to be disclosed under paragraphs (2) and (3) of subdivision (a) are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate statement or separate slips which shall accompany the periodic statement and identify each charge and credit and show the date and amount thereof. If the disclosures required under paragraph (4) of subdivision (a) are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate statement which shall accompany the periodic statement.

(2) The disclosures required by paragraph (5) of subdivision (a) and a reference to the amounts required to be disclosed under paragraphs (4) and (6) of subdivision (a), if not disclosed together on the face or the reverse side of the periodic statement, shall appear together on the face of a single supplemental statement which shall accompany the periodic statement.

(3) The face of the periodic statement shall contain one of the following notices, as applicable: "NOTICE: See reverse side for important information" or "NOTICE: See accompanying statement(s) for important information" or "NOTICE: See reverse side and accompanying statement(s) for important information;" and

(4) The disclosures shall not be separated so as to confuse or mislead the customer or obscure or detract attention from the information required to be disclosed.

(c) If any change is to be made in terms of an open end credit account plan previously disclosed to the customer, the creditor shall mail or deliver to the customer written disclosure of such proposed change not less than 30 days prior

to the effective date of such change or 30 days prior to the beginning of the billing cycle within which such change will become effective, whichever is the earlier date.

SEC. 18. Section 1810.6 of the Civil Code is amended and renumbered to read:

1810.4. The service charge shall include all charges incident to investigating and making the retail installment account. No fee, expense, delinquency, collection or other charge whatsoever shall be taken, received, reserved or contracted by the seller or holder of a retail installment account except as provided in this section. A seller may, however, in an agreement which is signed by the buyer and of which a copy is given or furnished to the buyer provide for the payment of attorney's fees and costs in conformity with Article 11 (commencing with Section 1811.1) of this chapter.

SEC. 19. Section 1810.7 of the Civil Code is amended and renumbered to read:

1810.5. If the cost of any insurance is to be separately charged to the buyer, there shall be an agreement to this effect, signed by both the buyer and the seller, a copy of which shall be given or furnished to the buyer. Such agreement shall state whether the insurance is to be procured by the buyer or the seller or holder. If the insurance is to be procured by the seller or holder, the seller or holder shall comply with the provisions of Section 1803.5.

SEC. 20. Section 1810.8 of the Civil Code is amended and renumbered to read:

1810.6. Nothing in this article prohibits the execution of an agreement between a buyer and seller whereby the seller retains a security interest in goods sold to the buyer until full payment therefor has been made. The provisions of Section 1808.2 are applicable to goods sold under such an agreement.

SEC. 21. Section 1810.9 of the Civil Code is amended and renumbered to read:

1810.7. No retail installment account shall require or entail the execution of any note or series of notes by the buyer which when separately negotiated will cut off as to third parties any right of action or defense which the buyer may have against the seller.

SEC. 22. Section 1810.10 of the Civil Code is amended and renumbered to read:

1810.8. The provisions of Sections 1806.1 and 1806.4 shall be applicable to retail installment accounts.

SEC. 24. It is the intent of the Legislature, by this act, to essentially conform the "Unruh Act," dealing with credit sales, to regulations promulgated under the federal Truth in Lending Act (15 U.S.C. 1601 et seq.) with respect to requirements of disclosure of information between the seller or creditor and the buyer or customer. However, it is not the intent of the Legislature, by this act, to change existing state law with respect to the regulation of finance charges and rates.

(b) "Commissioner" means the Insurance Commissioner of this state.

(c) "Basic property insurance" means insurance against direct loss to real or tangible personal property at a fixed location in those geographic or urban areas designated by the commissioner, from perils insured under the standard fire policy and extended coverage endorsement and vandalism and malicious mischief and such other insurance coverages as may be added with respect to such property by the industry placement facility with the approval of the commissioner or by the commissioner, but shall not include insurance on automobile or farm risks.

(d) "Inspection bureau" means the fire insurance rating organization designated by the industry placement facility with the approval of the commissioner to make inspections to determine the condition of the properties for which basic prop-

erty insurance is sought and to perform such other duties as may be authorized by the industry placement facility.

(e) "Industry placement facility," or "facility," means the organization formed by insurers licensed to write and engaged in writing basic property insurance within this state to assist persons in securing basic property insurance and to formulate and administer a program for the equitable apportionment among such insurers of such basic property insurance.

(f) "Premiums written" means gross direct premiums charged with respect to property in this state on all policies of basic property insurance and the basic property insurance premium components of all multiperil policies, less return premiums, dividends paid or credited to policyholders, or the unused or unabsorbed portions of premium deposits.

(g) "Insurer" means any person or organization as specified in Section 826 of this code, and shall include reciprocals and interinsurance exchanges.

SEC. 3. Section 10093 of the Insurance Code is amended to read:

10093. (a) Any person having an insurable interest in real or tangible personal property who, after diligent effort, has been unable to obtain basic property insurance through normal channels from an admitted insurer or a licensed surplus line broker, shall be entitled upon application to the facility to an inspection of the property by representatives of the inspection bureau.

(b) The manner and scope of the inspection and the form of the inspection report shall be prescribed by the facility with the approval of the commissioner. The inspection shall include, but need not be limited to, pertinent structural and occupancy features as well as the general condition of the building and surrounding structures. A representative photograph of the property may be taken as part of the inspection.

(c) Promptly after the request for inspection is received, an inspection shall be made and an inspection report filed with the company or companies designated by the facility. A copy of the completed inspection report shall be sent to the facility and to the applicant upon request.

SEC. 4. Section 10094 of the Insurance Code is amended to read:

10094. Within 30 days after the effective date of this chapter, with the approval of the commissioner, all insurers licensed to write and engaged in writing in this state, on a direct basis, basic property insurance or any component thereof in multiperil policies, shall establish an industry placement facility to formulate and administer a program for the equitable apportionment among such insurers of basic property insurance which may be afforded persons having an interest in real or tangible personal property who, after diligent effort, are unable to procure such insurance through normal channels from an admitted insurer or a surplus line broker. Each such

insurer, as a condition of its authority to transact such kinds of insurance in this state, shall participate in such industry placement facility program in accordance with rules to be established by a governing committee consisting of nine insurers elected annually in the manner to be provided in the program. The governing committee shall, in addition, have as nonvoting members one representative of insurance agents, one representative of insurance brokers and one representative of the public, each to be appointed by the Governor. The governing committee may establish separate classifications of written premiums for the purpose of equitable distribution but shall not include premiums from automobile or farm risks. The program may also provide, with the approval of the commissioner, for assessment of all members in amounts sufficient to operate the facility, and may establish maximum limits of liability to be placed through the program, reasonable underwriting standards for determining insurability of a risk, and commission to be paid to the licensed producer designated by the applicant.

SEC. 5. Section 10094.2 is added to the Insurance Code, to read:

10094.2. The facility shall, pursuant to regulations adopted by the commissioner, provide for a method whereby insurers who voluntarily write basic property insurance on risks located in areas designated as brush hazard areas by the Pacific Fire Rating Bureau will, to that extent, be proportionately relieved of the liability to participate in a plan adopted pursuant to this chapter. Nothing in this chapter shall preclude adoption of a plan or plans to allow proportionate credit for voluntary writings in other areas or for other classes of insurance.

SEC. 6. Section 10101 of the Insurance Code is repealed.

SEC. 7. The heading of Division 4 (commencing with Section 13000) of the Insurance Code is amended and renumbered to read:

SEC. 12. Division 4 (commencing with Section 13000) is added to the Insurance Code, to read:

DIVISION 4. CIVIL DISORDERS

CHAPTER 1. GENERAL PROVISIONS

13000. The Legislature finds that:

(a) The vitality of many American cities is being threatened by the deterioration of their inner city areas; responsible owners of well-maintained residential, business, and other properties in many of these areas are unable to obtain adequate property insurance coverage against fire, crime, and other perils; the lack of such insurance coverage accelerates the deterioration of these areas by discouraging private investment and restricting the availability of credit to repair and improve property therein; and this deterioration poses a serious threat to the national economy and to the economy of this state;

(b) Recent riots and other civil commotion in many American cities have brought about abnormally high losses to the private property insurance industry for which adequate reinsurance cannot be obtained at reasonable cost, and the risk of such losses will make most lines of property insurance even more difficult to obtain;

(c) The capacity of the private property insurance industry to provide adequate insurance is threatened, and the con-

tinuity of such property insurance protection is essential to the extension of credit in these areas;

(d) The interest of the people of this state demands urgent action to assure that essential lines of property insurance, including lines providing protection against riot and civil commotion damage will be available to property owners at reasonable cost; and

(e) The assistance provided in this division constitutes a public use and purpose and an essential governmental function for which public money may be spent and other aid given.

13001. The purpose of this division is to create a facility, the California Riot and Civil Disorders Insurance Association, to provide a means of discharging the obligations of the state to the United States Secretary of Housing and Urban Development, pursuant to Section 1223 of the National Housing Act (12 U.S.C., Secs. 1749bbb-9), when such obligations of the state shall occur, in order to permit insurers to be eligible for reinsurance as provided under the act, and to encourage such insurers to make available property insurance in this state.

13002. Unless the context otherwise requires, the definitions in this section govern the construction of this division.

(a) "Secretary" means the Secretary of Housing and Urban Development.

(b) "Act" means Title XI of the Federal Housing and Urban Development Act of 1968, codified as Title XII of the National Housing Act (12 U.S.C., Secs. 1749bbb to 1749bbb-21, inclusive).

(c) "Association" means the California Riot and Civil Disorders Insurance Association, which shall be an organization consisting of all insurers licensed to write and engaged in writing reinsured lines of insurance within this state, to provide insurance to the state for the reimbursement to the secretary by the state, pursuant to the act, and to formulate and administer a program for the equitable apportionment among such insurers for such insurance.

(d) "Commissioner" means the Insurance Commissioner of the State of California.

(e) "Reinsured lines" means fire and extended coverage, vandalism and malicious mischief, other allied lines of fire insurance, burglary and theft, those portions of multiperil policies covering perils similar to the aforesaid lines, inland marine, glass, boiler and machinery, ocean marine, aircraft physical damage, and such other lines generally offered to the public, which include protection against damage from riot and civil commotion as the secretary, by regulation, may designate.

(f) "Premiums" mean gross, direct premiums earned in this state on reinsured lines for the calendar year immediately preceding the claim or claims by the secretary against the state, pursuant to the provisions of the act.

(g) "Insurer" means any person as defined in Section 826 of this code, and shall include reciprocals and interinsurance exchanges.

CHAPTER 2. CALIFORNIA RIOT AND CIVIL DISORDERS INSURANCE ASSOCIATION

13050. Within 30 days after the effective date of this chapter, with the approval of the commissioner, all insurers licensed to write and engaged in writing in this state, on a direct basis, of any of the reinsured lines, shall establish the California Riot and Civil Disorders Insurance Association, to formulate and administer the program for the equitable apportionment among such insurers of insurance to the State of California to permit the State of California to discharge its obligation to reimburse the secretary, pursuant to the provisions of the act. Each such insurer, as a condition of its authority to transact such kinds of insurance in this state, shall participate in the association in accordance with rules to be established by a governing committee consisting of the Director of Finance, a representative of the insurers and the commissioner. The program may also provide for assessment of all members in amounts sufficient to operate the association.

13051. (a) Within 30 days after the effective date of this chapter, the association shall submit to the commissioner a proposed plan of operation consistent with the provisions of this chapter, consisting of the association of all insurers licensed to write and engaged in writing, in this state, on a direct basis, of any of the reinsured lines. Every such insurer shall be a member of the association and shall remain a member as a condition of its authority to transact such kind of insurance in this state.

(b) Under the plan each insurer shall participate in the risk, expenses, and losses of the association in the proportion that its premiums during the calendar year immediately preceding the claim by the secretary against the state, pursuant to the provisions of the act, bear to the aggregate premiums of all insurers in the association, excluding that portion of the premiums attributable to the operation of the association.

(c) The plan of association shall be subject to the approval of the commissioner, and shall go into effect upon the tentative approval of the commissioner. The commissioner may, at any time, withdraw his tentative approval, or he may, at any time he has given his final approval, revoke such approval if he feels that it is necessary to carry out the purpose of this chapter. The withdrawal or revocation of such approval shall not affect the validity of any contracts executed by the insurer-members of the association prior to the date of such withdrawal. If the commissioner disapproves, or withdraws or revokes his approval to all or any part of the plan of association, the association shall immediately thereafter submit for review an appropriate revised plan, or part thereof, and, if the association

fails to do so, or if the revised plan so filed is unacceptable, the commissioner shall promulgate such a plan of operation, or part thereof, as he may deem necessary to carry out the purpose of this chapter.

(d) The association may, on its own initiative, or at the request of the commissioner, amend the plan, subject to the approval of the commissioner. The commissioner, or any person designated by him, shall have the power of visitation of, and examination into, the operation, and free access to all of the books, records, files, papers, and documents that relate to the operation of the association and of any member-insurer thereof, and may summon, qualify, and examine as witnesses all persons having knowledge of such operations, including officers, agents, or employees of the association, or any member-insurer thereof.

(e) The commissioner shall have the right of approval or modification of any contract or contracts executed between the association, its member-insurers, and the State of California.

13052. All orders or decisions of the commissioner, made pursuant to this chapter, shall be subject to judicial review.

13053. Acceptance of risk or risks assigned under this chapter, in performance of any act required by this chapter, is a condition of the right to continue to hold a certificate of authority to transact insurance business in this state. All insurers, on and after the effective date of this chapter, by continuing to hold a certificate of authority to transact insurance business, shall be deemed to have consented to the responsibilities imposed by this chapter.

13054. The commissioner may require such reports from insurers concerning the risk or risks under this program, approved pursuant to the chapter, as he shall deem necessary to effect the purposes of this chapter.

13055. The state may contract with the secretary and with the association to carry out the purposes of this division.

SEC. 13. There is hereby appropriated from the General Fund to the Insurance Commissioner the sum of one million five hundred thousand dollars ($1,500,000) for purposes of carrying out the provisions of this act.

SEC. 14. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

Immediate legislation is necessary to insure the availability of federal reinsurance to those insurers who are providing insurance coverage in urban areas, where heretofore such insurance had been unavailable, and any delay in the effective date of this legislation would cause valuable property to be uninsured with resulting risk of financial loss and hardship to many citizens of the state. It is, therefore, imperative that this act take effect immediately.

CHAPTER 650

An act to amend Section 39052.1 of the Health and Safety Code, and to amend Section 4 of Chapter 945 of the Statutes of 1968, relating to air pollution, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 31, 1969. Filed with Secretary of State July 31, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 39052.1 of the Health and Safety Code is amended to read:

39052.1. (a) The board shall establish a statewide exhaust control device testing program to be concluded by no later than November 1, 1970 so as (1) to improve the state of the art of exhaust emission controls, (2) to ascertain technological feasibility to meet specific standards, (3) to establish that low-emission devices are feasible from the standpoint of economy, and (4) to compile information and data on the basis of experience on the use of various types of exhaust emission control devices on motor vehicles. As part of such program, the board shall require the supplier or his agent to install the exhaust control devices of one or more types, and the board shall, when the supplier or suppliers or their agents are personally present, test, inspect and service the exhaust control devices on not more than 75 new motor vehicles purchased by the state, and operated by the Department of the California Highway Patrol, Department of General Services, and Division of Highways. Not more than 10 motor vehicles operated by the Department of the California Highway Patrol shall be used to test, inspect and service exhaust control devices pursuant to this section.

In cases of an emergency, the board may perform the necessary emergency repair work on the devices without the presence of the supplier or his agent, but the board shall forthwith notify the supplier or his agent, orally and in writing, of the nature and extent of the emergency repairs. The board shall permit the supplier or his agent, at the earliest opportunity, to repair or replace the devices without any charge to the state for such repair or replacement, if the supplier or his agent elects to do so.

(b) The board shall adopt standards for exhaust emissions for such motor vehicles and engines, and shall select exhaust control devices which comply with such standards and which are technologically feasible. Exhaust emissions from such motor vehicles and engines shall be at substantially the following levels or as near thereto as it is technologically feasible to attain:

(1) Hydrocarbons—1 gram per vehicle-mile;
(2) Carbon monoxide—15 grams per vehicle-mile;
(3) Oxides of nitrogen—1.5 grams per vehicle-mile.

(c) The test procedure for determining automotive exhaust emissions of hydrocarbons, carbon monoxide and nitrogen oxides pursuant to this section shall be, as follows:

(1) Each vehicle to be tested shall be assessed for weight by adding 400 pounds to the published shipping weight, or, if this is unknown, by adding 300 pounds to actual operational weight unladen. Dynamometers shall be used in such testing, and the dynamometers shall be provided with inertia wheels equivalent to 1,500 pounds and up in 500-pound increments. A vehicle to be tested must then be tested with the dynamometer inertia weight closest to its own above-specified test weight according to the following seven-mode cycle:

Seven-Mode Cycle Table

Sequence No.	Mode m.p.h.	Acceleration m p.h. in secs.	Elapsed time seconds	Cumulative time seconds
(1)	Idle	--	20	20
(2)	0 to 30	2.2	14	34
(3)	30	--	15	49
(4)	30 to 15	—1.4	11	60
(5)	15	--	15	75
(6)	15 to 50	1.2	29	104
(7)	50 to 0	—1.5	33	137

(2) Dynamometer testing of the motor vehicle shall begin with a cold start following at least eight hours of inoperative cooling of the motor vehicle. The initial 20 seconds shall not be sampled. The above seven-mode cycle shall be performed in sequence seven times, followed by one contiguous acceleration at wide-open throttle from 0 to 60 m.p.h. for however many seconds elapsed time are required to perform such acceleration, followed by a power-off deceleration, in gear, which shall end the test either when the car achieves idle r.p.m. or at the end of 30 seconds, whichever shall first occur.

(3) A plastic bag of sufficient capacity to contain the entire sample shall be flushed with air and evacuated. The entire exhaust gas volume shall be reduced to ambient temperature, and water thereby precipitated shall be drained out of the system. The remaining dry exhaust gas shall then be gathered into the plastic bag and mixed for at least five minutes by end-to-end circulation employing a blower of 35 cubic feet per minute minimum capacity. Samples shall be drawn to determine hydrocarbons and oxides of nitrogen in parts per million and carbon dioxide and carbon monoxide in percentage. Hydrocarbon readings obtained by NDIR shall be multiplied by 1.8. The following calculation is necessary to ascertain air dilution:

$$\frac{14.5}{\%\ CO_2 + (0.5)\ \%\ CO + (6.0)\ \%\ HC,}$$

where HC, CO, and CO_2 are expressed in percentages $\left\{\frac{ppm}{10,000}\right\}$ and the resulting air dilution factor used as a multiplier to correct HC, CO, and NO_x values.

(4) For the duration of the test, consumption of fuel (normally extracted from a separate tank to insure uniformity) shall be noted and dynamometer mileage measured. These data are sufficient to calculate the following results:

$$.116\ \frac{\text{ppm HC}}{\text{mi/gal}} = \text{grams/mile HC}$$

$$379\ \frac{\%\ CO}{\text{mi/gal}} = \text{grams/mile CO}$$

$$.062\ \frac{\text{ppm } NO_x}{\text{mi/gal}} = \text{grams/mile } NO_2$$

(d) For not more than one year after the date of installation of such exhaust control devices, the board shall, at intervals of 5,000 miles or four months, whichever comes first, test, inspect, and service such exhaust control devices. The Department of General Services, the Department of the California Highway Patrol, and the Division of Highways shall furnish to the board, upon request, the motor vehicles upon which such devices are to be installed and shall cooperate with the board in the testing, inspection and servicing by the board of such devices.

(e) The board shall report to the Legislature within 30 days after the effective date of this section on the number of motor vehicles it has selected for the installation of exhaust control devices pursuant to this section, on the different types of such exhaust control devices it has approved for such installation, and on the cost of such devices. The board shall submit a written report to the Legislature by December 15, 1970, on the result of the four points of the exhaust control device testing program established pursuant to this section, including all data on all vehicles tested under this program and a detailed analysis of all facets of the testing program.

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 1930) is added to Division 2.5 of the Streets and Highways Code, to read:

CHAPTER 5. SUMMARY VACATION AND ABANDONMENT OF STREETS

1930. The city council, as defined in Section 8302, of any city may retain or may summarily vacate and abandon any portion of a street, as defined in Section 8304, which portion has been superseded by relocation, except in case such abandonment would cut off all access to the property of any person which, prior to such relocation, adjoined the street or terminate any easement or right of a type described in Section 1934.

1931. The city council may act to abandon any easement or to vacate any street mentioned in Section 1930 by resolution. A certified copy of such resolution shall be recorded in the office of the county recorder No fee shall be charged for such recordation. On such recordation the abandonment or vacation is complete.

1932. On abandonment of an easement, title thereto reverts to the owner of the underlying fee. On vacation of a street, where the city owns only an easement, title likewise so reverts. Where the city owns the property on which the vacated street was located in fee, the city council may dispose of the property as provided in Section 1933.

1933. Whenever the city council determines that any real property or interest therein, heretofore or hereafter acquired by the city for street purposes, is no longer necessary for such purposes, the city council may sell or exchange such real property or interest therein in the manner and upon the terms and conditions approved by the city council. Any such conveyance shall be executed on behalf of the city by the city clerk, as defined in Section 8303, and the purchase price shall be paid into the city treasury to the credit of any fund, available for street purposes, which the city council designates.

CHAPTER 666

An act to add Sections 25861, 25862, 25862.1, 25862.3, 25862.4, 25863 and 25863.1 to, and to repeal Section 25861 of the Health and Safety Code, relating to radioactive material decontamination.

[Approved by Governor August 4, 1969. Filed with Secretary of State August 4, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 25861 of the Health and Safety Code is repealed.

SEC. 2. Section 25861 is added to the Health and Safety Code, to read:

25861. The term "decontamination," as used in this chapter, means the reduction of the level of contamination from radioactive material to the level which the department determines is reasonably necessary to eliminate the hazard to public health which is caused by the contamination of any object, building, structure, or premises. Any order by the department pursuant to Section 25862 shall prescribe the level to which the contamination is required to be reduced in order to eliminate the hazard to the public health.

SEC. 3. Section 25862 is added to the Health and Safety Code, to read:

25862. If the department determines that any object, building, structure, or premises is contaminated by radioactive material and constitutes a hazard to the public health, it shall order the person who has control of the object, building, structure, or premises to cease to use or occupy and to exercise due caution to prevent others from using or occupying the object, building, structure, or premises, except to the extent necessary to accomplish the decontamination, or to the extent necessary to accomplish the disposal of the object, building, or structure as radioactive waste. The normal use or occupancy of the object, building, structure, or premises may not be resumed until decontamination has been accomplished and a release obtained from the department.

If the person who has control of the object, building, structure, or premises fails to comply with the department's order to decontaminate, the department may impound or seize the object, building, structure, or premises. The department after impounding or seizure of an object, building, structure, or premises, may decontaminate the object, building, structure, or premises.

SEC. 4. Section 25862.1 is added to the Health and Safety Code, to read:

25862.1. If the department determines that the object, building, structure, or premises does not warrant decontamination because of its low value, it shall so notify in writing the

person who had control of the object, building, structure, or premises. The person so notified may decontaminate the object, building, structure, or premises, but if he fails to do so within 15 days after such notice, the department may cause the object, building, structure, or premises to be disposed of as radioactive waste.

SEC. 5. Section 25862.3 is added to the Health and Safety Code, to read:

25862.3. If the department causes the object, building, structure or premises to be decontaminated, the department shall, upon the completion of the decontamination, return the impounded article or seized building, structure, or premises to the person who had control of the article, building, structure, or premises prior to the impounding or seizure. The person who has control of the object, building, structure, or premises and was responsible for its contamination shall pay the department for the reasonable and necessary costs incurred by the department in seizing and decontaminating or in seizing and disposing of the object, building, structure, or premises.

SEC. 6. Section 25862.4 is added to the Health and Safety Code, to read:

25862.4. If the contamination of the object, building, structure, or premises resulted from the negligence of another person, then the department may require such person to pay all reasonable and necessary costs which were incurred by the department in seizing and decontaminating or disposing of the object, building, structure, or premises and may maintain any action which may be necessary to recover such costs.

SEC. 7. Section 25863 is added to the Health and Safety Code, to read:

25863. A lien in favor of the people of California shall be imposed upon any object, building, structure, or premises for the reasonable amount of expenses and costs incurred by the department in carrying out the provisions of Section 25862, 25862.1, 25862.3, or 25862.4 if the owner of the property or of any interest therein is the person responsible for the contamination, and to the extent of the interest of such person. Notice of lien or notice of intent to impose a lien shall be posted by the department upon any object, building, structure, or premises impounded or seized by the department and notice of lien or notice of intent to impose a lien shall be filed with the county recorder of the county in which they are located.

The lien shall be effective at the time the notice of lien, particularly identifying the property and the interest subject to the lien, is recorded in the county where the property is located. Upon such recordation, the lien shall have the same force, effect, and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution.

SEC. 8. Section 25863.1 is added to the Health and Safety Code, to read:

25863.1. The Attorney General at the request of the department may institute on behalf of the people of California any civil action necessary to carry out the provisions of this chapter, including but not restricted to the enforcement of liens and the obtaining of injunctions.

CHAPTER 668

An act to amend Section 11580.2 of the Insurance Code, relating to insurance.

[Approved by Governor August 4, 1969. Filed with Secretary of State August 4, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16059 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured may by agreement in writing delete the provision covering damage caused by an uninsured motor vehicle. Such deletion by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply. A policy shall be excluded from the

application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(b) As used in (a) above. "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term "insured" means the named insured and the spouse of the named insured and relatives of either while residents of the same household while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. The term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either to the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol, and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's

heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. The term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the safety responsibility law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawlertreads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

The term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tort-feasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (c)(2), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits

(e) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in said Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in said Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of said Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under said Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of subparagraph (a)(4) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in subparagraph (b)(2) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(f) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(g) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver or rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him under any workmen's compensation law exclusive of nonoccupational disability benefits.

(2) By the amounts paid or due to be paid under any valid and collectible automobile medical payment insurance available to the insured.

(3) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(h) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings.

(i) Notwithstanding the provisions of subdivision (h), any insurer whose insured has made a claim under his or her un-

insured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date such written notice is actually given.

CHAPTER 669

[Approved by Governor August 4, 1969. Filed with Secretary of State August 4, 1969.]

A plaintiff shall be liable for reasonable attorney's fees proximately caused by any levy made pursuant to a writ of attachment issued upon an affidavit which does not comply with this section.

CHAPTER 670

An act to amend Section 254 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor August 4, 1969. Filed with Secretary of State August 4, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 254 of the Revenue and Taxation Code is amended to read:

254. Any person claiming the church, cemetery, orphanage, college, exhibition, welfare or homeowner's property tax exemption shall make a return of the property to the assessor annually, the same as property is listed for taxation, and shall accompany it by an affidavit, giving any information required by the board.

Any person claiming the immature forest trees exemption shall meet the requirements mentioned above except that each owner or new owner of timber need file only when making his original claim for exemption.

Any person claiming the homeowner's property tax exemption shall meet the requirements of the first paragraph of this section and shall state his name, the address of the property, that the property was owned by him and was occupied as his principal place of residence on the lien date, and such other information as the board may prescribe.

Any person claiming the classification of a vessel as a documented vessel eligible for assessment under Section 227 shall meet the requirements of the first paragraph of this section.

CHAPTER 671

An act to amend Sections 219 and 5366 of the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 4, 1969. Filed with Secretary of State August 4, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 219 of the Revenue and Taxation Code is amended to read:

219. Business inventories shall be assessed for taxation at the same ratio of assessed to full cash value as the ratio specified in Section 401. After such property has been so assessed, 15 percent of the assessed value of such property shall be exempt from taxation and such exemption shall be indicated on the assessment roll. The county assessor shall notify the auditor of the total assessed value of the exempt property within each city, district and revenue district wholly or partially within the county. The exemption provided for in this section shall not apply to business inventories assessed as escaped property.

The board shall prescribe all procedures and forms required to carry this exemption into effect and to insure accurate data for reimbursement calculations. In carrying out the duties imposed by this section, the board shall certify to the auditor of each county in which is located a chartered city which assesses property for city tax purposes, the ratio which the auditor shall use to factor the county roll in order to compute the amount of such city's reimbursement. The ratio certified shall be the same ratio used by the board in connection with public utility property on the board roll.

Where a city transfers the assessing and tax collecting functions to the county but continues to assess and collect unsecured taxes for one additional year, the county auditor, in computing the city's reimbursement for the business inventory exemption, shall factor the exempt inventory value on the county unsecured roll with tax situs in the city by the ratio

used by the board in the prior year in preparing the current board roll for the city.

SEC. 2. Section 5366 of the Revenue and Taxation Code is amended to read:

5366. Owners, as well as operators, of private and public airports shall, within 15 days following the lien date of each year, provide the assessor of the county in which the airport is situated with a statement containing a list of names and addresses of the owners, and the make, model, and aircraft registration number, of all aircraft which were using the airport as a base. The assessors of each county shall, not later than July 1, 1970, and not later than the first day of July of each year thereafter, provide the California Department of Aeronautics a statement containing a list of names, addresses of owners, make, model, aircraft registration number and assessed value of all aircraft which were using airports in the county as a base.

SEC. 3. For calendar year 1969, the assessor of each county shall furnish the California Department of Aeronautics the statement required by Section 5366 of the Revenue and Taxation Code by not later than August 1, 1969.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 5366 of the Revenue and Taxation Code provides that the assessors of each county are to provide the California Department of Aeronautics within 30 days following the lien date a statement containing, among other information, the make, model, aircraft registration number, and assessed value. At the time the assessors are to perform this duty they do not have the property statements containing the necessary information from the aircraft owners and the assessed values are not final on the roll until it is completed on July 1. Accordingly it is necessary that this act become effective immediately if this act is to accomplish its purpose at the earliest possible time with respect to the assessment roll for the fiscal year commencing July 1, 1969.

Some chartered cities assess and collect the taxes on property for city purposes and assess property at a higher ratio of assessed to full cash value than the ratio employed by the county in which the city is located. Therefore, since the county assessment roll is used for the purpose of determining the amount of money the city will be paid by reason of the partial exemption from property taxation for business inventories, the city receives less replacement revenues than it would have realized from its property tax, if the partial exemption had not gone into effect. In order to remedy this situation at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 672

An act to amend Sections 49401, 49753, and 49754 of, and to add Section 49402 and Article 3 (commencing with Section 49851) to Chapter 31 of Division 17 of, and to repeal Section 49402 of, the Agricultural Code, relating to pomegranates and persimmons, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 5, 1969. Filed with Secretary of State August 5, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 49401 of the Agricultural Code is amended to read:

49401. Oriental persimmons shall be mature, at time of picking, but not overripe, and shall be free from any of the following defects:

(a) Mold and decay.

(b) Serious damage, due to cuts, bruises, breaking of the skin, growth cracks, hail, or other causes. Damage to any one persimmon is not serious unless it causes a waste of 10 percent, by weight, of the individual persimmon.

SEC. 2. Section 49402 of the Agricultural Code is repealed.

SEC. 2.5. Section 49402 is added to the Agricultural Code, to read:

If payments are made in installments, the protest need not be repeated with the second installment. Protests shall be made by filing with the tax collector, together with the payment of the taxes or their first installment, a petition for assessment reduction on the form prescribed by the county board, which form the collector is to forward to the clerk of the county board with the notation that taxes were paid under protest pursuant to this section. The county board may, after receipt of the petition for assessment reduction from the tax collector, hold a public hearing at the next regular board meeting, notice of time and place of which shall be sent to the person paying the tax under protest at the address stated in the protest or if no such address is stated, then to the address of the assessee according to the last equalized assessment roll. If the taxes are so paid and the assessee has not previously applied for a reduction of the assessment, the county board at its next annual meeting as an equalization board shall thereupon equalize such assessment in the manner prescribed by Article 1 (commencing with Section 1601), Chapter 1, Part 3 of this division.

If the taxpayer has already paid the tax previously computed, such difference shall be refunded to him pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax.

If any taxes are paid under protest pursuant to this section, the taxing agency to which the taxes are paid may, in accordance with Section 26906.1 of the Government Code, impound such taxes until the final disposition of the claim or action respecting the protest. No such impounding is required.

(b) A public utility may issue notes, for proper purposes and not in violation of any provision of law, payable at periods of not more than 12 months after the date of issuance of the notes without the consent of the commission.

(c) Notwithstanding the provisions of subdivision (b), no public utility as defined in Section 201(e) of the Federal Power Act (49 Stat. 847, 16 U.S.C. 824) shall, without the consent of the commission, issue notes payable at periods of not more than 12 months after the date of issuance of the notes if such notes and all other notes payable at periods of not more than 12 months after the date of issuance of such notes on which such public utility is primarily or secondarily liable would exceed in aggregate amount 5 percent of the par value of the other securities then outstanding. In the case of securities having no par value, the par value for the purposes of this subsection shall be the fair market value as of the date of issue.

(d) No note payable at a period of not more than 12 months after the date of issuance of such note shall, in whole or in part, be refunded by any issue of stocks or stock certificates or other evidence of interest or ownership, or of bonds, notes of any term or character, or any other evidence of indebtedness, without the consent of the commission.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Increasing demands for public utility service require that large amounts of additional capital be raised to meet present substantial commitments for expanding customer require-

ments. Under present security market conditions, public utilities must often secure a larger share of such funds through short term borrowing. In order to provide for the prompt authorization of this type of financing proposal it is necessary that such larger short term borrowing be subject to regulation by the Public Utilities Commission which has demonstrated its ability to respond to urgent situations, and make it unnecessary to seek such authority from the Federal Power Commission. As such funds must be secured at the earliest possible time, it is necessary that this act go into immediate effect.

By the enactment of this act, the Legislature intends to authorize and encourage the Department of Public Works to study and experiment with various methods of freeway use to discover the manner in which the freeway system in urban areas can be most effectively utilized.

SEC. 2. Section 149 is added to the Streets and Highways Code, to read:

149. In addition to all other existing or future authority relating to the joint use or occupancy of highways, the department may, by regulation or cooperative agreements with public or private agencies furnishing mass public transportation, authorize or permit exclusive or preferential use of freeway lanes for such mass public transportation.

Such exclusive or preferential use of freeway lanes shall be based upon competent traffic engineering and surveys and estimates developed or supported by the continuing comprehensive transportation planning processes of the urbanized area involved. Additionally, any such public or private agency providing mass public transportation shall, as a condition of such exclusive or preferential use of freeway lanes, give adequate assurance of the continued availability of mass transportation facilities required to meet the conditions established by the department, and, in addition, agree to maintain a satisfactory level of service in terms of comfort, convenience and fare structure.

goods, to assure adequate protection for the safety of operation of all motor vehicle traffic, and to protect the adequacy of the facilities to meet traffic needs.

In permitting exclusive or preferential use of freeway lanes for mass public transportation, provision may also be made for electrification or use of other power sources under such terms and conditions as the department deems necessary to accomplish the objectives of this section. Additionally, any such regulation or cooperative agreement shall also provide for the payment of compensation where required by other provisions of law or where otherwise deemed appropriate.

To the extent they are available, the department may apply for and use federal aid funds appropriated for the design, construction, and use of such exclusive or preferential freeway lanes for mass public transportation, but may also use other funds, including other federal aid funds, for those purposes where proper and desirable.

This section shall be known and may be cited as the Carrell Act.

SEC. 3. The provisions of Sections 1 and 2 of this act shall be operative until January 1, 1975. (b) Provide for repairs and depreciation of works.

The treasurer shall maintain proper records and accounts in which there shall be set forth all repayments of advances to the extent that advances are made for the improvements for which such bonds were authorized and, to the extent that such repayments reduce the amount of bonds which may be issued on behalf of any improvement district, the net principal amount of authorized but unissued bonds of such improvement district.

An act to amend Sections 66601, 66603, 66604, 66610, 66622, 66630, 66631, 66632, 66633, and 66635 of, to add Sections 66602, 66602.1, 66605, 66605.1, 66606, 66606.5, 66606.6, 66607, 66611, 66630.1, 66632.2, 66632.3 and 66632.4 to, to repeal Section 66620 of, and to repeal Chapter 5 (commencing with Section 66650) of, and to add Section 66620 and Chapter 5 (commencing with Section 66650) to, Title 7.2 of,

the Government Code, relating to San Francisco Bay Conservation and Development Commission.

[Approved by Governor August 7, 1969. Filed with Secretary of State August 7, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 66601 of the Government Code is amended to read:

66601. The Legislature further finds and declares that uncoordinated, haphazard filling in San Francisco Bay threatens the bay itself and is therefore inimical to the welfare of both present and future residents of the area surrounding the bay; that while some individual fill projects may be necessary and desirable for the needs of the entire bay region, and while some cities and counties may have prepared detailed master plans for their own bay lands, a governmental mechanism must exist for evaluating individual projects as to their effect on the entire bay; and that further piecemeal filling of the bay may place serious restrictions on navigation in the bay, may destroy the irreplaceable feeding and breeding grounds of fish and wildlife in the bay, may adversely affect the quality of bay waters and even the quality of air in the bay area, and would therefore be harmful to the needs of the present and future population of the bay region.

SEC. 1.5. Section 66602 is added to the Government Code, to read:

66602. The Legislature further finds and declares that certain water-oriented land uses along the bay shoreline are essential to the public welfare of the bay area, and that such uses include ports, water-related industries, airports, wildlife refuges, water-oriented recreation and public assembly, desalinization plants and powerplants requiring large amounts of water for cooling purposes; that the San Francisco Bay Plan should make provision for adequate and suitable locations for all such uses thereby minimizing the necessity for future bay fill to create new sites for such uses; that existing public assess to the shoreline and waters of the San Francisco Bay is inadequate and that maximum feasible public access, consistent with a proposed project, should be provided.

SEC. 1.6. Section 66602.1 is added to the Government Code, to read:

66602.1. The Legislature further finds and declares that areas diked off from the bay and used as saltponds and managed wetlands are important to the bay area in that, among other things, such areas provide a wildlife habitat and a large water surface which, together with the surface of the bay, moderate the climate of the bay area and alleviate air pollution; that it is in the public interest to encourage continued maintenance and operation of the salt ponds and managed wetlands; that, if development is proposed for these areas, dedica-

tion or public purchase of some of these lands should be encouraged in order to preserve water areas; that, if any such areas are authorized to be developed and used for other purposes, the development should provide the maximum public access to the bay consistent with the proposed project and should retain the maximum amount of water surface area consistent with the proposed project.

SEC. 2. Section 66603 of the Government Code is amended to read:

66603. The Legislature further finds and declares that the San Francisco Bay Conservation and Development Commission, treating the entire bay as a unit, has made a detailed study of all the characteristics of the bay, including: the quality, quantity, and movement of bay waters, the ecological balance of the bay, the economic interests in the bay, including the needs of the bay area population for industry and for employment, the requirements of industries that would not pollute the bay nor interfere with its use for recreation or other purposes, but would need sites near deepwater channels; that the study has examined all present and proposed uses of the bay and its shoreline, and the master plans of cities and counties around the bay; and that on the basis of the study the commission has prepared a comprehensive and enforceable plan for the conservation of the water of the bay and the development of its shoreline, entitled the San Francisco Bay Plan.

SEC. 3. Section 66604 of the Government Code is amended to read:

66604. The Legislature further finds and declares that in order to protect the present shoreline and body of the San Francisco Bay to the maximum extent possible, it is essential that the commission be empowered to issue or deny permits, after public hearings, for any proposed project that involves placing fill, extracting materials or making any substantial change in use of any water, land or structure within the area of the commission's jurisdiction.

SEC. 3.5. Section 66605 is added to the Government Code, to read:

66605. The Legislature further finds and declares:

(a) That further filling of San Francisco Bay should be authorized only when public benefits from fill clearly exceed public detriment from the loss of the water areas and should be limited to water-oriented uses (such as ports, water-related industry, airports, bridges, wildlife refuges, water-oriented recreation and public assembly, water intake and discharge lines for desalinization plants and power generating plants requiring large amounts of water for cooling purposes) or minor fill for improving shoreline appearance or public access to the bay;

(b) That fill in the bay for any purpose, should be authorized only when no alternative upland location is available for such purpose;

(c) That the water area authorized to be filled should be the minimum necessary to achieve the purpose of the fill;

(d) That the nature, location and extent of any fill should be such that it will minimize harmful effects to the bay area, such as, the reduction or impairment of the volume surface area or circulation of water, water quality, fertility of marshes or fish or wildlife resources;

(e) That public health, safety and welfare require that fill be constructed in accordance with sound safety standards which will afford reasonable protection to persons and property against the hazards of unstable geologic or soil conditions or of flood or storm waters;

(f) That fill should be authorized when the filling would, to the maximum extent feasible, establish a permanent shoreline;

(g) That fill should be authorized when the applicant has such valid title to the properties in question that he may fill them in the manner and for the uses to be approved.

SEC. 4. Section 66605.1 is added to the Government Code, to read:

66605.1. The Legislature finds that in order to make San Francisco Bay more accessible for the use and enjoyment of people, the bay shoreline should be improved, developed and preserved. The Legislature further recognizes that private investment in shoreline development should be vigorously encouraged and may be one of the principal means of achieving bay shoreline development, minimizing the resort to taxpayer funds; therefore, the Legislature declares that the commission should encourage both public and private development of the bay shoreline.

SEC. 4.1. Section 66606 is added to the Government Code, to read:

66606. The Legislature hereby finds and declares that this title is not intended, and shall not be construed, as authorizing the commission to exercise its power to grant or deny a permit in a manner which will take or damage private property for public use, without the payment of just compensation therefor. This section is not intended to increase or decrease the rights of any owner of property under the Constitution of the State of California or the United States.

SEC. 4.2. Section 66606.5 is added to the Government Code, to read.

66606.5. The Legislature finds and declares that the San Francisco Bay Plan indicates that extensive areas in and around the bay are owned or held under claim of ownership by private persons and that the acquisition for public use of all or large portions of such areas or the establishment of wildlife refuges therein may require a substantial public investment. The Legislature further finds and declares that the commission should make a continuing review and prepare and submit periodic reports on the nature, extent, estimated cost

and method of financing of any proposed acquisitions of private property for public use.

SEC. 4.3. Section 66606.6 is added to the Government Code, to read:

66606.6. Nothing in this title shall deny the right of private property owners and local governments to establish agricultural preserves and enter into contracts pursuant to the provisions of the California Land Conservation Act of 1965.

The commission, within six months after the effective date of this section, shall institute an affirmative action program to encourage local governments to enter into contracts under the California Land Conservation Act of 1965 with owners of property to which the provisions of that act may be applicable.

SEC. 4.4. Section 66607 is added to the Government Code, to read:

66607. If any provision of this title or the application thereof in any circumstance or to any person or public agency is held invalid, the remainder of this title or the application thereof in other circumstances or to other persons or public agencies shall not be affected thereby.

SEC. 5. Section 66610 of the Government Code is amended to read:

66610. For the purposes of this title, the area of jurisdiction of the San Francisco Bay Conservation and Development Commission includes:

(a) San Francisco Bay, being all areas that are subject to tidal action from the south end of the bay to the Golden Gate (Point Bonita-Point Lobos) and to the Sacramento River line (a line between Stake Point and Simmons Point, extended northeasterly to the mouth of Marshall Cut), including all sloughs, and specifically, the marshlands lying between mean high tide and five feet above mean sea level; tidelands (land lying between mean high tide and mean low tide); and submerged lands (land lying below mean low tide).

(b) A shoreline band consisting of all territory located between the shoreline of San Francisco Bay as defined in subdivision (a) of this section and a line 100 feet landward of and parallel with that line, but excluding any portions of such territory which are included in subdivisions (a), (c) and (d) of this section; provided that the commission may, by resolution, exclude from its area of jurisdiction any area within the shoreline band that it finds and declares is of no regional importance to the bay.

(c) Saltponds consisting of all areas which have been diked off from the bay and have been used during the three years immediately preceding the effective date of the amendment of this section during the 1969 Regular Session of the Legislature for the solar evaporation of bay water in the course of salt production.

(d) Managed wetlands consisting of all areas which have been diked off from the bay and have been maintained dur-

ing the three years immediately preceding the effective date of the amendment of this section during the 1969 Regular Session of the Legislature as a duck hunting preserve, game refuge or for agriculture.

The definition which is made by this section is merely for the purpose of prescribing the area of jurisdiction of the commission which is created by this title. This definition shall not be construed to affect title to any land or to prescribe the boundaries of the San Francisco Bay for any purpose except the authority of the commission created by this title.

SEC. 5.1. Section 66611 is added to the Government Code, to read:

66611. No later than one year after the effective date of this section the commission, after public hearing, of which adequate descriptive notice is given, shall adopt and file with the Governor and the Legislature a resolution fixing and establishing within the shoreline band the boundaries of the water-oriented priority land uses, as referred to in Section 66602 After such filing no further changes shall be made in such boundaries, except with the approval of the Legislature.

SEC. 5.1. Section 66620 of the Government Code is repealed.

SEC. 6. Section 66622 of the Government Code is amended to read:

66622. The members of the commission shall serve at the pleasure of their respective appointing powers. The members shall serve without compensation, but each of the members shall be reimbursed for his necessary expenses incurred in the performance of his duties.

SEC. 7. Section 66630 of the Government Code is amended to read:

66630. The commission shall make a continuing review of all the matters referred to in Section 66603, 66606.5 and Section 66651.

SEC. 7.1. Section 66630.1 is added to the Government Code, to read:

66630.1. The continuing review, among other things, shall include studies concerning properties within the area of the commission's jurisdiction which, in the opinion of the commission, might be acquired by public agencies for public use. Based on such studies the commission shall annually prepare a report setting forth the general location of such properties, the interest or interests proposed to be acquired therein, the public uses recommended therefor, the public agencies recommended to make the proposed acquisitions, the estimated cost of the proposed acquisitions and recommendations for financing such cost. Each annual report shall cover proposed acquisitions during a three-year period commencing January 1 after the date of the report and shall indicate any material changes made with respect to the report for the previous year. Not later than the fifth legislative day of each regular session of the Legislature, commencing with the 1971 Regular Session, the commission shall file such report with the Governor and Legislature.

SEC. 8. Section 66631 of the Government Code is amended to read:

66631. In making the review, the commission shall cooperate to the fullest extent possible with the Association of Bay Area Governments; and shall, to the fullest extent possible, coordinate its planning with planning by local agencies, which shall retain the responsibility for local land use planning. In order to avoid duplication of work, the commission shall make maximum use of data and information available from the planning programs of the State Office of Planning, the Association of Bay Area Governments, the cities and counties in the San Francisco Bay area, and other public and private planning agencies.

SEC. 9. Section 66632 of the Government Code is amended to read:

66632. (a) During the existence of the San Francisco Bay Conservation and Development Commission, any person or governmental agency wishing to place fill, to extract materials, or to make any substantial change in use of any water, land or structure, within the area of the commission's jurisdiction shall secure a permit from the commission and, if required by law or by ordinance, from any city or county within which any part of such work is to be performed. For purposes of this title, "fill" means earth or any other substance or material, including pilings or structures placed on pilings, and structures floating at some or all times and moored for extended periods, such as houseboats and floating docks. For the purposes of this section "materials" means items exceeding twenty dollars ($20) in value.

The commission may require a reasonable filing fee and reimbursement of expenses for processing and investigating a permit application.

(b) Whenever a permit is required by a city or county for any activity also requiring a permit from the San Francisco Bay Conservation and Development Commission, an applicant for a permit shall file an application with the city council of the city if the proposed project is located in incorporated territory, or the board of supervisors of the county, if the proposed project is located in unincorporated territory. Upon filing such an application, the applicant shall notify the commission of the fact of the filing and the date thereof. The city council or the board of supervisors, as the case may be, shall investigate the proposed project and shall file a report thereon with the commission within 90 days after the application is filed with it.

Whenever a permit is not required by a city or county, no application for a permit need be made to the city or county.

(c) Upon receipt of the report from the city council or the board of supervisors, as the case may be, or, if the city council or the board of supervisors does not file a report with the commission within the 90-day period, upon the expiration of such 90-day period, and upon receipt of an application for a permit made directly to it, the commission shall hold a public

hearing or hearings as to the proposed project and conduct such further investigation as it deems necessary. The commission shall give full consideration to the report of the city council or board of supervisors.

(d) The commission shall prescribe the form and contents of applications for permits. Among other things, an application for a permit shall set forth all public improvements and public utility facilities which are necessary or incidental to the proposed project and the names and mailing addresses of all public agencies or public utilities who will have ownership or control of such public improvements or public utility facilities if the permit is granted and the project is constructed. The executive director shall give written notice of the filing of the application to all such public agencies and public utilities. If the commission grants a permit for a project, the permit shall include all public improvements and public utility facilities which are necessary or incidental to the project.

(e) Upon receipt of an application for a permit the commission shall transmit a copy thereof to the San Francisco Bay Regional Water Quality Control Board. Within 60 days the board shall file a report with the commission indicating the effect of the proposed project on water quality within the bay.

(f) The commission shall take action upon an application for a permit, either denying or granting the permit, within 90 days after it receives the report (or, if the city council or the board of supervisors did not file a report with the commission within the 90-day period, within 90 days after the expiration of such 90-day period), or within 90 days after it receives an application from the applicant, whichever date is later. The permit shall be automatically granted if the commission shall fail to take specific action either denying or granting the permit within the time period specified in this section. A permit shall be granted for a project if the commission finds and declares that the project is either (1) necessary to the health, safety or welfare of the public in the entire bay area, or (2) of such a nature that it will be consistent with the provisions of this title and with the provisions of the San Francisco Bay Plan then in effect. To effectuate such purposes, the commission may grant a permit subject to reasonable terms and conditions including the uses of land or structures, intensity of uses, construction methods and methods for dredging or placing of fill. Thirteen affirmative votes of members of the commission are required to grant a permit. Neither of the federal representatives who are members of the commission may vote on whether or not a permit shall be granted.

Pursuant to this title, the commission may provide by regulation, adopted after public hearing, for the issuance of permits by the executive director, without compliance with the above procedure, in cases of emergency, or for minor repairs to existing installations or minor improvements made anywhere within the area of jurisdiction of the commission in-

cluding, without limitation, the installation of piers and pilings and maintenance dredging of navigation channels. The commission may also adopt after public hearing such additional regulations as it deems reasonable and necessary to enable it to carry out its functions efficiently and equitably, including regulations classifying the particular water-oriented uses referred to in Sections 66602 and 66605.

(g) If the commission denies the permit, the applicant may submit another application for the permit directly to the commission after 90 days from the date of such denial.

(h) Any project authorized pursuant to this section shall be commenced, performed and completed in compliance with the provisions of all permits granted or issued by the commission and by any city or county.

(i) If, prior to September 17, 1965, any person or governmental agency has already obtained a permit from the appropriate local body to place fill in the bay or to extract submerged materials from the bay, application may be made directly to the San Francisco Bay Conservation and Development Commission and the permit from the local body shall constitute the report of the local body.

(j) Any action, or proceeding to contest or question the commission's denial of a permit application, or conditions attached to approval of a permit application, must be commenced in the appropriate court within 90 days following the date of such action by the commission.

(k) The executive director shall, within 90 days following the effective date of this section, communicate the provisions of this section to all governmental bodies that issue permits for developments described in this section, and shall request of them information concerning any development that may fall within the provisions of this section.

SEC. 9.5. Section 66632.2 is added to the Government Code, to read:

66632.2. (a) The owner or operator of any public service facilities need not obtain a permit from the commission for the construction within or upon any public highway or street of any public service facilities to provide service to persons or property located within the area of the commission's jurisdiction. The public service facilities referred to in this subdivision shall be limited to those which are necessary for and are customarily used to provide direct and immediate service to the persons or property requiring such service.

(b) The owner or operator of public service facilities or a public street or road located anywhere within the area of the commission's jurisdiction may, without first obtaining a permit from the commission, make emergency repairs to such facilities as may be necessary to maintain service, provided, that the emergency is such as to require repairs before an emergency permit can be obtained under the provisions of subdivision (f) of Section 66632 and, provided further, that

notification is given to the commission no later than the first working day following such undertaking.

(c) "Public service facilities," as used in this section, means any facilities used or intended to be used to provide water, gas, electric or communications service and any pipelines, and appurtenant facilities, for the collection or transmission of sewage, flood or storm waters, petroleum, gas or any liquid or other substance.

SEC. 9.6. Section 66632.3 is added to the Government Code, to read:

66632.3. If the most recent report made and filed pursuant to Section 66630.1 recommends that designated property be acquired for public use and all such property has not been so acquired within a period of three years, commencing with January 1 after the date of the report first recommending such acquisition, at any time after the expiration of said period the owners of all or any part of the property not previously acquired may file an application with the commission for the development of such property. Upon the filing of any such application, the commission shall grant or deny a permit in accordance with the provisions of this title and the San Francisco Bay Plan, then in effect, provided that a permit shall not be denied on the grounds that such property has been recommended to be acquired for public use.

SEC. 9.7. Section 66632.4 is added to the Government Code, to read:

66632.4. Within any portion or portions of the shoreline band which shall be located outside the boundaries of water-oriented priority land uses, as fixed and established pursuant to Section 66611, the commission may deny an application for a permit for a proposed project only on the grounds that the project fails to provide maximum feasible public access, consistent with the proposed project, to the bay and its shoreline.

SEC. 10. Section 66633 of the Government Code is amended to read:

66633. The commission may:

(a) Accept grants, contributions, and appropriations from any public agency, private foundation, or individual.

(b) Appoint committees from its membership and appoint advisory committees from other interested public and private groups.

(c) Contract for or employ any professional services required by the commission or for the performance of work and services which in its opinion cannot satisfactorily be performed by its officers and employees or by other federal, state, or local governmental agencies.

(d) Sue and be sued in all actions and proceedings and in all courts and tribunals of competent jurisdiction, including prohibitory and mandatory injunctions to restrain violations of this title.

(e) Do any and all other things necessary to carry out the purposes of this title.

SEC. 12. Section 66635 of the Government Code is amended to read:

66635. The commission shall appoint an executive director who shall have charge of administering the affairs of the commission, subject to the direction and policies of the commission. The executive director shall, subject to approval of the commission, appoint such employees as may be necessary in order to carry out the functions of the commission.

SEC. 13. Chapter 5 (commencing with Section 66650) of Title 7.2 of the Government Code is repealed.

SEC. 14. Chapter 5 (commencing with Section 66650) is added to Title 7.2 of the Government Code, to read:

CHAPTER 5. THE SAN FRANCISCO BAY PLAN AND FURTHER REPORTS OF THE COMMISSION

66650. This title shall be known and may be cited as the McAteer-Petris Act.

66651. Pursuant to this title the commission has adopted and submitted to the Governor and the Legislature the San Francisco Bay Plan, a comprehensive plan containing statements and maps concerning:

(a) The objectives of the plan;

(b) The bay, as a resource, including findings and recommended policies upon: fish and wildlife; water pollution; smog and weather; water surface, area and volume; marshes and mudflats; fresh water inflow; dredging; and shell deposits;

(c) The development of the bay and shoreline, including findings and recommended policies upon: economic and population growth; safety of fills; water-related industries; ports; airports; recreation; saltponds and other managed wetlands; transportation; other uses of the bay and shoreline; refuse disposal sites; public access; appearance and design; and scenic views.

This plan shall constitute an interim plan for the commission (i) until otherwise ordered by the Legislature, or, (ii) until amended by the commission as provided in Section 66652.

66652. The commission at any time may amend, or repeal and adopt a new form of, all or any part of the San Francisco Bay Plan but such changes shall be consistent with the findings and declarations of policy contained in this title.

Such changes shall be made by resolution of the commission adopted after public hearing on the proposed change, of which adequate descriptive notice shall be given. If the proposed change pertains to a policy or standard contained in the San Francisco Bay Plan, or defines a water-oriented use referred to in Section 66602 or 66605, the resolution adopting the change shall not be voted upon less than 90 days following notice of hearing on the proposed change and shall require the affirmative vote of two-thirds of the commission members. If the proposed change pertains only to a map or diagram contained in the San Francisco Bay Plan, the resolution adopt-

ing the change shall not be voted on less than 30 days following notice of hearing on the proposed change and shall require the affirmative vote of the majority of the commission members.

66653. If a function or activity is within the area of the commission's jurisdiction and requires the securing of a permit, the commission shall exercise its power to grant or deny a permit in conformity with the provisions of this title and with any provisions of the plan pertaining to placing of fill, extraction of materials, construction methods and use or change of use of water areas, land or structures. If a function or activity is outside the area of the commission's jurisdiction or does not require the issuance of a permit, any provisions of the plan pertaining thereto are advisory only.

66654. Within the area of the commission's jurisdiction under subdivisions (b), (c) and (d) of Section 66610, any uses which are in existence on the effective date of this section may be continued, provided, that no substantial change shall be made in such uses except in accordance with this title.

Any owner of property devoted to an existing use or uses may file an application with the commission to determine the nature of such existing use or uses, the extent of territory then devoted to such use or uses, and such additional territory adjacent thereto as may be expected to be reasonably necessary for the expansion of such use or uses during a period of not to exceed 15 years from the date of filing such application. Not later than 90 days after such filing, the commission after public hearing shall adopt a resolution making such determination. After the adoption of such resolution no permit need be obtained from the commission for any of the existing use or uses specified in the resolution or for the expansion thereof within the territory described in said resolution.

66655. If, prior to September 1, 1969, any city or county has adopted an ordinance or issued a permit authorizing a particular use or uses within the areas defined in subdivisions (b), (c) and (d) of Section 66610, no person who has obtained a vested right thereunder shall be required to secure a permit from the commission, providing, that no substantial changes may be made in any such use or uses, except in accordance with this title. Any such person shall be deemed to have such vested rights if, prior to September 1, 1969, he has in good faith and in reliance upon the ordinance or permit commenced and performed substantial work on the use or uses authorized and incurred substantial liabilities for work and materials necessary therefor. Expenses incurred in obtaining the enactment of an ordinance or the issuance of a permit shall not be deemed liabilities for work or material.

66656. Nothing in this title shall apply to any project where necessary local governmental approval and a Department of the Army Corps of Engineers permit have been obtained to allow commencement of the diking or filling process, and where such diking or filling process has commenced prior

to September 17, 1965, nor to the continuation of dredging under existing Department of the Army Corps of Engineers permits and any renewals and extensions of such dredging permits.

"Project" shall include the execution or undertaking or assumption of any contractual commitments entered into prior to September 17, 1965; if prior to July 9, 1969, the city or county has adopted a long-range general plan in accordance with its charter, or Sections 65300 to 65306 and specific plans in accordance with Sections 65450 and 65451 and the land uses comply with the general objectives or guidelines of the San Francisco Bay Plan.

66657. In eminent domain or inverse condemnation proceedings for any property within the area of the commission's jurisdiction, in determining "just compensation," as used in Section 14 of Article I of the California Constitution, or "value," "damage," or "benefits," as used in Section 1248 of the Code of Civil Procedure, the influence of the San Francisco Bay Plan, in effect at the time of the taking or damaging of the property, upon the value of the property or the interest being valued shall be inadmissible as evidence and not a proper basis for an opinion as to the value of the property.

66658. Until the termination of the existence of the commission, it shall have all powers and duties prescribed by Chapters 1 (commencing with Section 66600) to 4 (commencing with Section 66630), inclusive, of this title including, without limitation, the power to continue or make further studies authorized thereby.

66659. The commission shall continue in existence until such time as the Legislature provides for the termination of the existence of the commission or for the transfer of the commission's functions and duties to some other permanent agency.

66660. The commission shall make a supplemental report, or reports, containing all of the following:

(a) The results of any continued or further studies made by the commission;

(b) Such other information and recommendations as the commission deems desirable.

66660.1. Notwithstanding any provision of this title to the contrary, the jurisdiction of the commission, except for the control of fill or extraction of materials shall not include the shoreline within a city limit upon which any person or entity has commenced and performed substantial work for the purpose of establishing a planned community development on land already filled and requiring no additional fill or extraction, and for which the planning commission approval of the city council has been obtained prior to July 1, 1969.

66661. The commission shall annually file a supplemental report with the Governor and the Legislature by the fifth legislative day of each regular session of the Legislature commencing not later than the 1971 Regular Session.

13187.1. (a) A credential which was issued prior to January 1, 1964, shall remain in force as long as it is valid and continues to be valid under the law and regulations of the State Board of Education. The State Board of Education may not by regulation invalidate such valid credential unless it issues to the holder thereof, in substitution, a new credential authorized by other sections of this article of an equivalent type and which new credential is no less restrictive than the credential for which it is substituted with respect to the kind of service which it authorizes, and the grades or classes of types of schools in which it authorizes service.

(b) Subject to the provisions of Section 13172, credentials issued prior to January 1, 1964, and credentials issued under subdivision (c) of this section may be renewed in accordance with regulations of the State Board of Education in effect on December 31, 1963.

at any institution of higher learning approved by the California State Board of Education, or was engaged in teaching in a foreign country, after such person has completed the requirements for such credential and if the person is otherwise qualified for such credential under the law and rules and regulations. No person shall be denied the issuance of a prior regular credential if he holds a provisional credential authorized by Sections 13117, 13118, and 13119, and on November 1, 1963, is working toward meeting the requirements of that prior regular credential in accordance with State Board of Education regulations; nor shall any person who, on November 1, 1963, is working toward meeting the requirements of a prior regular credential and on that date is enrolled in a teacher education program, be denied the issuance of a prior credential if because of active military service since September 15, 1961, he was prevented from meeting the educational requirements of a prior regular credential.

(d) The State Board of Education shall issue the appropriate credential authorizing service in an administrative or supervisory position requiring certification qualifications authorized by the law operative, and the rules and regulations of the State Board of Education in effect, on December 31, 1963, to any person who, on that date, had completed all requirements for the credential and was otherwise qualified to receive the same under such laws, rules and regulations, and who has not previously been issued such credential. A credential so issued shall be subject to the provisions of subdivision (a) of this section, as though issued prior to January 1, 1964.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the schools of this state may maintain a high standard of educational services by taking advantage of the provisions of this act in the recruitment of teachers for the 1969–1970 school year, it is necessary that this act become effective immediately.

CHAPTER 716

An act to add Section 11483 to the Education Code, relating to junior colleges.

[Approved by Governor August 8, 1969. Filed with Secretary of State August 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 11483 is added to the Education Code, to read:

11483. If 50 percent or more of the enrollment in a police training course at a junior college consists of students who are residents of junior college districts other than the district offering the course, all such students enrolled shall be deemed to be resident students of the district for the purposes of this article.

SEC. 2. This act shall be deemed operative for the entire 1969–1970 fiscal year as though the same had been enacted into law and become operative on July 1, 1969. The Superintendent of Public Instruction shall, for such purposes, have authority to take all necessary steps to effect the mid-fiscal-year transition involved, including the authority to adjust allowance computations, apportionments, and disbursements ordered from the State School Fund.

CHAPTER 717

An act to amend Section 305 of the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor August 8, 1969. Filed with Secretary of State August 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 305 of the Public Utilities Code is amended to read:

305. The commissioners shall elect one of their number president of the commission. The president shall be the executive and administrative head of the commission. He shall preside at all meetings and sessions of the commission and shall organize, coordinate, supervise and direct the operations and affairs of the commission in such a manner as to prevent delay and promote the expeditious and efficient disposition of all matters within the commission's jurisdiction.

CHAPTER 718

An act to amend Section 4905 of the Business and Professions Code, relating to the Board of Examiners in Veterinary Medicine, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 8, 1969. Filed with Secretary of State August 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 4905 of the Business and Professions Code is amended to read:

4905. The following fees shall be collected by the board and the same shall be credited to the Board of Examiners in Veterinary Medicine Contingent Fund:

(a) The fee for filing an application for examination shall be fixed by the board in such amount as it determines is reasonably necessary to provide sufficient funds to carry out the purpose of this chapter, but not to exceed fifty dollars ($50).

(b) The initial license fee is an amount equal to the renewal fee in effect on the last regular renewal date before the date on which the license is issued, except that, if the license is issued less than one year before the date on which it will expire, then the fee is an amount equal to fifty percent (50%) of the renewal fee in effect on the last regular renewal date before the date on which the license is issued. The board may, by appropriate regulation, provide for the waiver or refund of the initial license fee where the license is issued less than 45 days before the date on which it will expire.

(c) The renewal fee shall be fixed by the board for each biennial renewal period in such amount as it determines is reasonably necessary to provide sufficient funds to carry out the purpose of this chapter, but not to exceed sixty-five dollars ($65).

(d) The delinquency fee is eight dollars ($8).

(e) The fee for issuance of a duplicate license is five dollars ($5).

(f) The board may make a charge for records, transcripts, and other official documents pertaining to the affairs of the board.

(g) The fee for failure to report a change in the place of practice is ten dollars ($10).

(h) The fee for registration of veterinary premises is ten dollars ($10), but the board may reduce the fee to such amount as it determines is reasonably necessary to provide sufficient funds to carry out the purposes of this chapter.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Board of Examiners in Veterinary Medicine is supported entirely from license revenues. The board's expenditures are exceeding its revenues at the present time, and its surplus is no longer sufficient to meet this operating deficit. This act provides for the increased revenues necessary to maintain the board in a self-supporting condition. In order that such revenues may commence to accrue to the board during the next license renewal period, which occurs in August of the current year, it is necessary that this act go into immediate effect.

CHAPTER 719

The people of the State of California do enact as follows:

SECTION 1. Section 6580.1 of the Health and Safety Code is amended to read:

6580.1. The election of officers may be consolidated with the direct primary election if the board of directors passes a resolution to that effect on or before the first day of August of the preceding odd-numbered year and states in the resolution those offices of director to be filled at the first consolidated election. The offices which may be filled at the first consolidated election in those districts whose general district elections are held pursuant to the Uniform District Election Law are those offices which would have expired on the last Friday of December of the year preceding the direct primary election and in all other districts are those offices which would have expired in the year of the consolidated election or in the year next following. Upon a determination to consolidate pursuant to this section, the affected officers shall hold office until the first meeting of the board following the entry of the statement of the result of the consolidated election on the records of the board of supervisors or until the end of the terms for which they were elected, whichever is shorter. In the event this consolidation procedure is used then all other elective offices shall expire and be filled in the same manner at the next succeeding consolidated election. Any vacant office resulting from the operation of this provision shall be filled by appointment by the board.

If the election of directors is consolidated, and if there is to be but one person to be elected to the office, the candidate receiving the highest number of votes cast for the candidates for that office shall be declared elected. If there are two or more persons to be elected to the office, those candidates equal in number to the number to be elected who receive the highest number of votes for the office shall be declared elected. If a tie vote makes it impossible to determine which of two or more candidates has been elected, the governing board shall forthwith notify the candidates who have received the tie votes to appear before it either personally or by representative at a time and place designated by the governing body. The governing body shall at that time and place determine the tie by lot and the results thereof shall be declared by the governing body. The candidate so chosen shall qualify, take office and

serve as though elected at the preceding general district election.

For such consolidated elections candidates shall declare their candidacy and shall be nominated, election returns shall be canvassed, the election shall be held and conducted, the results shall be declared, and the certificates of election shall be issued, in the same manner as the declaration of candidacy, nomination, election, canvassing of returns, declaration of results, and issuance of certificates of election for county officers are made, declared, held, and conducted, and issued, so far as consistent with the provisions of this section. Directors elected under the procedure provided in this section, except the first board of directors, shall take office at the first meeting of the board following the entry of the statement of the result of the consolidated election on the records of the board of supervisors. Elections held under this section at the time of the direct primary election and consolidated therewith shall be known as the general district election and each other election in a district holding elections under this section which may be held by authority of this law or the Elections Code or other law applicable thereto shall be known as a special district election.

The provisions of Chapter 4 (commencing with Section 23300) of Division 12 of Part 2 of, and Section 23520 of the Elections Code shall apply to every consolidation under this section.

Whenever feasible, mentally disordered persons who are eligible for mental health services under the California Medical Assistance Program shall be treated in a facility approved for reimbursement in that program.

5715. Expenditures subject to payment shall include expenditures for the items specified in Section 5704; salaries of personnel; approved facilities and services provided through contract; operation, maintenance and service costs; depreciation of county facilities as established in the state's uniform accounting manual, disregarding depreciation on such a facility to the extent it was financed by state funds under this part; expenses incurred under this act by members of the Conference of Local Mental Health Directors for attendance at regular meetings of such conferences; and such other expenditures as may be approved by the Director of Mental Hygiene. It shall not include expenditures for initial capital improvements; the purchase or construction of buildings except for such equipment items and remodeling expense as may be provided for in regulation of the Department of Mental Hygiene; compensation to members of a local mental health advisory board (except actual and necessary expenses incurred in the performance of official duties); or expenditures for a purpose for which state reimbursement is claimed under any other provision of law.

SEC. 42.1. Section 5716 of the Welfare and Institutions Code is amended to read:

5716. The provisions of subdivision (c) of Section 14000 shall not be construed to prevent providers of mental health services pursuant to this part from also being providers of medical assistance mental health services for the purposes of Chapter 7 (commencing with Section 14000) of Part 3 of Division 9. Clinics providing mental health services pursuant to this part shall not be required to be licensed as a condition to reimbursement for providing such medical assistance mental health services.

5718. Charges shall be made for services rendered to each person under a county Short-Doyle plan in accordance with this section. Charges for the care and treatment of each such patient receiving service under a county Short-Doyle plan shall not exceed the actual cost thereof as determined by the Director of Mental Hygiene in accordance with standard accounting practices. The director is not prohibited from including the amount of expenditures for capital outlay or the interest thereon, or both, in his determination of actual cost. The responsibility of a patient, his estate, or his responsible relatives to pay such charges and the powers of the director with respect thereto shall be determined in accordance with Article 4 (commencing with Section 7275) of Chapter 3 of Division 7.

The director may delegate to each county all or part of the responsibility for determining the liability of patients rendered

services under a county Short-Doyle plan other than in a state hospital, and of their estates or responsible relatives to pay such charges, and all or part of the responsibility for collecting such charges. If such responsibility is delegated by the director, he shall establish and maintain the policies and procedures for making such determinations and collections, and each county to which the responsibility is delegated shall comply with such policy and procedures.

Each county shall furnish the Director of Mental Hygiene with such information as he shall require to enable him to establish and maintain a cost reporting system of the costs of mental health services in the county, except state hospitals, funded in whole or in part by state funds. Each county shall maintain records containing such information and in such form as the director shall require for the purposes of this section.

Pending the development of a cost reporting system, the director shall prepare and adopt a uniform patient fee schedule to be used in all mental health agencies for services rendered to each patient. In preparing such uniform patient fee schedule, the director shall take into account the existing charges for state hospital services and those for Short-Doyle Act community mental health program services. If the director determines that it is not practicable to devise a single uniform patient fee schedule applicable to both state hospital services and services of other mental health agencies, he may adopt a separate fee schedule for state hospital services which differs from the uniform patient fee schedule applicable to other mental health agencies. Such patient fee schedules shall not be used after the development and implementation of the cost reporting system provided for in this section or after December 31, 1971, whichever occurs first.

Adoption of such standards, rules and regulations shall require approval by the California Conference of Local Mental Health Directors by majority vote of those present at an official session.

If the conference refuses or fails to approve standards, rules, or regulations submitted to it by the department for its approval, the department may submit such standards, rules, or regulations to the conference at its next meeting, and if the conference again refuses to approve them, the matter shall be referred for decision to a committee composed of the Sec-

The director shall consult with the California Conference of Local Mental Health Directors and the Citizens Advisory Council in developing the state plan. The state plan shall be reviewed and revised as necessary to provide a basis for allocating mental health funds throughout the state. The state plan and the system of priorities shall encourage innovations by county mental health programs.

SEC. 46. Section 5765 of the Welfare and Institutions Code is amended to read:

5765. The state five-year mental health plan shall be submitted to the Health Planning Council for review and recommendations as to conformance with California's comprehensive statewide health plan. The state five-year mental health plan shall be submitted on an annual basis or as often as there are amendments or changes thereto.

It is the intent of the Legislature to carefully review the state five-year mental health plan prior to the adoption of the budget in the 1971–1972 fiscal year. To this end, the Department of Mental Hygiene shall report to the Legislature on the plan and any changes therein no later than March 15, 1971, and March 15 each subsequent year.

(a) In the case of an adult person, the application shall be made voluntarily by the person, at a time when he is in such condition of mind as to render him competent to make it or, if he is a conservatee with a conservator of the person or person and estate who was appointed under Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 with the right as specified by court order under Section 5328 to place his conservatee in a state hospital, by his conservator.

After the admission of a voluntary patient to a private institution, hospital, clinic, or sanitarium the person in charge shall forward to the office of the State Department of Mental Hygiene a record of the voluntary patient showing such information as may be required by rule by the department.

A voluntary adult patient may leave the hospital, clinic, or institution at any time by giving notice of his desire to leave to any member of the hospital staff and completing normal hospitalization departure procedures. Any person detained as of June 30, 1969, in a private institution, pursuant to such sections, on the certification of two physicians, may be detained after July 1, 1969, for a period no longer than 180 days.

Any person detained pursuant to this section after July 1, 1969, shall be evaluated by the facility designated by the county and approved by the State Department of Mental Hygiene pursuant to Section 5150 as a facility for 72-hour treatment and evaluation. Such evaluation shall be made at the request of the person in charge of the private institution in which the person is detained or by one of the physicians who signed the certificate. If in the opinion of the professional person in charge of the evaluation and treatment facility or his designee, the evaluation of the person can be made by such professional person or his designee at the private institution in which the person is detained, the person shall not be required to be evaluated at the evaluation and treatment facility, but shall be evaluated at the private institution to determine if the person is a danger to others, himself, or gravely disabled as a result of mental disorder.

Any person evaluated under this section shall be released from the private institution immediately upon completion of the evaluation if in the opinion of the professional person in charge of the evaluation and treatment facility, or his designee, the person evaluated is not a danger to others, or to himself, or gravely disabled as a result of mental disorder, unless the person agrees voluntarily to remain in the private institution.

If in the opinion of the professional person in charge of the facility or his designee, the person evaluated requires intensive treatment or recommendation for conservatorship, such professional person or his designee shall proceed under Article 4 (commencing with Section 5250) of Chapter 2, or under Chapter 3 (commencing with Section 5350), of Part 1 of Division 5.

SEC. 49. Section 6250 of the Welfare and Institutions Code is repealed.

SEC. 49.1. Section 6250 is added to the Welfare and Institutions Code, to read:

6250. As used in this part, "persons subject to judicial commitment" means persons who may be judicially committed under this part as mentally disordered sex offenders pursuant to Article 1 (commencing with Section 6300), narcotic drug addicts pursuant to Article 2 (commencing with Section 6350), habit-forming drug addicts pursuant to Article 3 (commencing with Section 6400), mentally abnormal sex offenders pursuant to Article 4 (commencing with Section 6450), or mentally retarded persons pursuant to Article 5 (commencing with Section 6500).

Nothing in this part shall be held to change or interfere with the provisions of the Penal Code and other laws relating to mentally disordered persons charged with crime or to the criminally insane.

This part shall be liberally construed so that, as far as possible and consistent with the rights of persons subject to commitment, such persons shall be treated, not as criminals, but as sick persons.

SEC. 49.2. Section 6300.1 is added to the Welfare and Institutions Code, to read:

6300.1. No person who is being treated by prayer in the practice of the religion of any well-recognized church, sect, denomination or organization, shall be ordered detained or committed under this chapter unless the court shall determine that he is or would likely become dangerous to himself or to the person or property of others, or unless being a minor, his parent or guardian having custody of his person shall consent to such detention or commitment.

SEC. 50. Section 6467 of the Welfare and Institutions Code is amended and renumbered to read:

6457. The charges for the care and treatment rendered to persons committed as mentally abnormal sex offenders shall be in accordance with the provisions of Article 4 (commencing with Section 7275) of Chapter 3 of Division 7.

SEC. 52. Section 6550 is added to the Welfare and Institutions Code, to read:

6550. If the juvenile court, after finding that the minor is a person described by Section 600, 601, or 602, is in doubt concerning the state of mental health or the mental condition of the person, the court may continue the hearing and proceed pursuant to this article.

SEC. 53. Section 6551 is added to the Welfare and Institutions Code, to read:

6551. If the court is in doubt as to whether the person is mentally disordered or mentally retarded, the court shall order the person to be taken to a facility designated by the county and approved by the State Department of Mental Hygiene as a facility for 72-hour treatment and evaluation. Thereupon the provisions of Article 1 (commencing with Section 5150) of Chapter 2 of Part 1 of Division 5 apply except that the professional person in charge of the facility shall make a written report to the court concerning the results of the evaluation of the person's mental condition. If the professional person in charge of the facility finds the person is, as a result of mental disorder, in need of intensive treatment, he may be certified for not more than 14 days involuntary intensive treatment if the conditions set forth in subdivision (c) of Section 5250 are complied with. Thereupon, the provisions of Article 4 (commencing with Section 5250) of Chapter 2 of Part 1 of Division 5 shall apply to the person. The person may be detained pursuant to Article 4.5 (commencing with Section 5260) or Article 6 (commencing with Section 5300) of Part 1 of Division 5 if the provisions of such articles apply to him.

If the professional person in charge of the facility finds that the person is mentally retarded, the juvenile court may direct the filing in any other court of a petition for the commitment of a minor as a mentally retarded person to the Department of Mental Hygiene for placement in a state hospital. In such case, the juvenile court shall transmit to the court in which the petition is filed a copy of the report of the professional person in charge of the facility in which the minor was placed for observation. The court in which the petition for commitment is filed may accept the report of the professional person in lieu of the appointment, or subpoenaing, and testimony of other expert witnesses appointed by the court, if the laws applicable to such commitment proceedings provide for the appointment by court of medical or other expert witnesses or may consider the report as evidence in addition to the testimony of medical or other expert witnesses.

If the professional person in charge of the facility for 72-hour evaluation and treatment reports to the juvenile court that the minor is not affected with any mental disorder requiring intensive treatment or mental retardation, the professional person in charge of the facility shall return the minor to the juvenile court on or before the expiration of the 72-hour pe-

riod and the court shall proceed with the case in accordance with the Juvenile Court Law.

Any expenditure for the evaluation or intensive treatment of a minor under this section shall be considered an expenditure made under Part 2 (commencing with Section 5600) of Division 5 and shall be reimbursed by the state as are other local expenditures pursuant to that part.

The jurisdiction of the juvenile court over the minor shall be suspended during such time as the minor is subject to the jurisdiction of the court in which the petition for postcertification treatment of an imminently dangerous person or the petition for commitment of a mentally retarded person is filed or under remand for 90 days for intensive treatment or commitment ordered by such court.

SEC. 55. Section 7300 of the Welfare and Institutions Code is amended to read:

7300. It shall be the policy of the department to make available to all persons admitted to a state hospital prior to July 1, 1969, and to all persons judicially committed or remanded to its jurisdiction all of the facilities under the control of the department. Whenever, in the opinion of the Director of Mental Hygiene, it appears that a person admitted prior to July 1, 1969, or that a person judicially committed or remanded to the Department of Mental Hygiene for placement in an institution would be benefited by a transfer from that institution to another institution in the department, the director may cause the transfer of the patient from that institution to another institution under the jurisdiction of the department. Preference shall be given in any such transfer to an institution in an adjoining rather than a remote district.

However, before any inmate of a correctional school may be transferred to a state hospital for the mentally disordered he shall first be returned to a court of competent jurisdiction, and, if subject to commitment, after hearing, may be committed to a state hospital for the mentally disordered in accordance with law.

The expense of such transfers is chargeable to the state, and the bills for the same, when approved by the Director of Mental Hygiene, shall be paid by the Treasurer on the warrant of the Controller, out of any moneys provided for the care or support of the patients or out of the moneys provided for the support of the department, in the discretion of the department.

7302. Patients admitted to a state hospital prior to July 1, 1969, and all patients judicially committed or remanded, may be transferred to a like institution at the request of relatives or friends, if there is room in the like institution to which transfer is sought and if the Department of Mental Hygiene and the medical directors of the institutions from which and

to which the transfer is to be made consent thereto. The expense of such transfer shall be paid by such relatives or friends.

SEC. 56.1. Section 7305 of the Welfare and Institutions Code is amended to read:

7325. When any patient committed by a court to a state hospital or other institution on or before June 30, 1969, or when any patient who is judicially committed on or after July 1, 1969, or when any patient who is involuntarily detained pursuant to Part 1 (commencing with Section 5000) of Division 5 escapes from any state hospital, any hospital or facility operated by or under the Veterans' Administration of the United States government, or any facility designated by a county pursuant to said Part 1, or when a judicially committed patient's return from leave of absence has been authorized or ordered by the Department of Mental Hygiene or the facility of the Veterans' Administration, any peace officer, upon written request of the state hospital, veterans' facility, or the facility designated by a county, shall without the necessity of a warrant or court order, or any officer or employee of the Department of Mental Hygiene designated to perform such duties may, apprehend, take into custody and deliver him to the state hospital or to a facility of the Veterans' Administration, or the facility designated by a county, or to any person or place authorized by the Department of Mental Hygiene, or by the Veterans' Administration, or the local director of the county mental health program of the county in which is located the facility designated by the county, as the case may be, to receive him. Every officer or employee of the department designated to apprehend or return such patients shall have the powers and privileges of peace officers so far as necessary to enforce the provisions of this section.

As used in this section "any peace officer" means the persons specified in Section 830 1 of the Penal Code.

SEC. 57. Section 7351 of the Welfare and Institutions Code is amended to read:

7351. Wherever in any provision of this code heretofore or hereafter enacted the term "parole" is used in relation to the release of a patient from a state hospital, it shall be construed to refer to and mean "leave of absence." Any judicially committed patient or mentally retarded patient granted a leave of absence on or after July 1, 1969, and any patient on leave of absence as of July 1, 1969, may at any time during the period of the leave of absence be recalled and returned to the hospital.

Upon the release of a judicially committed patient as granted by the medical director of a state hospital, on leave of absence or discharge upon any of the grounds provided in this article, in accordance with the rules and regulations prescribed by the department, the superintendent shall issue to or on behalf of the judicially committed patient a document stating the general terms or limitations of the leave of absence, or a certificate stating the general condition of or the reason for the discharge of the judicially committed patient.

SEC. 58. Section 7352 of the Welfare and Institutions Code is amended to read:

7352. The medical director of a state hospital for the mentally disordered or mentally retarded may grant a leave of absence to any mentally retarded patient or judicially committed patient, except as provided in Section 7350, under general conditions prescribed by the Department of Mental Hygiene.

There shall be conducted and maintained in conjunction with the hospital unit an outpatient unit.

The charges for the care and treatment rendered to each person admitted to the hospital, including the outpatient clinic, and the liability for such charges shall be determined and collection, or adjustment of charges made, in the same manner as is provided by law for patients admitted to other state hospitals.

The department shall establish such rules and regulations as are necessary properly to carry out the provisions of this chapter.

SEC. 60. Section 7604 of the Welfare and Institutions Code is amended to read:

7604. The institute shall be conducted and maintained for diagnosis and treatment and for teaching and research in the field of neuropsychiatry and mental retardation to the end that critical shortages of trained personnel will be relieved and with the expectation that through research more rapid and economical treatment and preventive methods concerning mental disorders and retardation will be developed. The University of California shall utilize the facilities of the institute for teaching, research, and training in the field of neuropsychiatry and mental retardation. The Department of Mental Hygiene shall utilize the facilities of the institute for the care of patients as defined in Section 4025, and for such research and training as it may undertake in the field of neuropsychiatry and mental retardation. The charges for the care and treatment rendered to each person admitted to the hospital, including the outpatient clinic, and the liability for such charges shall be determined and collection, or adjustment of charges made, in the same manner as is provided by law for patients admitted to other state hospitals.

The department shall establish such rules and regulations as are necessary properly to carry out the provisions of this chapter.

SEC. 61. Section 7706 of the Welfare and Institutions Code is amended to read:

7706. The institute shall be conducted and maintained for the purpose of treating patients with organic and functional disorders of the nervous system, and to further the respective

educational, training and research programs of the university and the Department of Mental Hygiene.

All admissions to the institute shall be for observation, teaching, research, diagnosis, and treatment purposes as determined by the medical director. A certificate meeting the requirements of this section must be a written statement that is either part of a broader certificate of competency or a separate document and that is issued, on application of the person who was so adjudicated, either at the time of release from treatment under such adjudication or at a later date, by the medical director of any California state hospital, stating that in the opinion of the person issuing the certificate based either on his own knowledge or on the opinions of members of his staff or on records of the institution, the applicant is a person who may possess a firearm without endangering others. If a person applies to a medical director of a California state hospital for such a certificate and the applicant has not been treated in that hospital, or if the medical director believes that a current mental examination is necessary to enable him to determine whether or not such a certificate shall be issued, the medical director shall cause such person to be examined by a member of the staff of the hospital and may otherwise investigate the case. The medical director may charge a reasonable fee for such examination and investigation.

Refusal of a medical director to issue a certificate of competency or separate document as described in the preceding provisions of this section is reviewable by mandamus in the superior court of the county of which the applicant is a resident or the county in which the hospital of which the medical director is head. Upon a showing to the satisfaction of the court of abuse of discretion by the medical director the court shall issue its writ directing the medical director to issue its certificate or document.

[Approved by Governor August 8, 1969. Filed with Secretary of State August 8, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 17 of Chapter 52 of the Statutes of 1969 is amended to read:

Sec. 17. Of the increased revenue derived from the increase in taxes provided for in this act and received in the Highway Users Tax Fund:

(a) Eighty percent shall be transferred to the Street and Highway Disaster Fund and be available for expenditure for allocation by the State Allocation Board for the purposes of the Emergency Flood Relief Law, including the purposes provided for in Section 54160 of the Government Code, for the repair, restoration, or replacement of any local street, road, or bridge damaged or destroyed by storm and flood or flood conditions, including damage or destruction by flood conditions arising from tidal waves, occurring between November 1, 1968 and September 1, 1969; provided, that the local agency has applied to the State Allocation Board for an allocation of funds on or before December 31, 1969.

(b) Twenty percent shall be transferred to the State Highway Fund for expenditure, without regard to the provisions of Sections 188, 188.8, and 188.9 of the Streets and Highways Code, for the repair, replacement, or restoration of highways and bridges in the state highway system damaged or destroyed by storm and flood or flood conditions which have occurred between November 1, 1968 and September 1, 1969, to present-day standards and to accommodate present traffic.

(c) If the Governor, acting on the advice of the Departments of Finance and Public Works, determines that the transfer of an amount not to exceed one million dollars ($1,000,000) from either subdivision (a) to subdivision (b) or from subdivision (b) to subdivision (a) of this section would result in an earlier termination of the temporary tax increases pursuant to the procedures of Sections 7351.6 and 8651.4 of the Revenue and Taxation Code, he may include in his proclamation terminating such temporary tax increases a finding that such amount should be so transferred. Thereupon, such amount shall be transferred in accordance with the proclamation.

(d) After the termination of the temporary tax increases pursuant to Sections 7351.6 and 8651.4 of the Revenue and Taxation Code, the Department of Finance shall determine the amount by which the increased revenue available for purposes described in subdivision (a) of this section exceeds the

estimated amount of such funds that will be needed for purposes described in subdivision (a). Such amount or two million dollars ($2,000,000), whichever is less, shall be available for purposes of subdivision (e) of this section in addition to the purposes for which it is already available.

(e) Notwithstanding any other provision of law, for all purposes of the Emergency Flood Relief Law (Art. 6 (commencing with Sec. 54150), Ch. 5, Pt. 1, Div. 2, Title 5 of the Government Code), expenditures in excess of the average actual cost of snow removal for the most recent five years by each city and county (or, in the case of a city incorporated for less than five years, expenditures in excess of the average actual cost of snow removal for all the years of its incorporated existence) for removal of snow which resulted from storms occurring between November 1, 1968, and September 1, 1969, less amounts received and to be received during the 1969–1970 fiscal year for snow removal pursuant to Sections 2107 and 2110 of the Streets and Highways Code, shall be considered to be for the repair or restoration of local streets, roads, or bridges, damaged or destroyed by storm and flood or flood conditions; except that the city or county must apply separately to the State Allocation Board for an allocation of funds for such snow removal purposes on or before October 15, 1969; and except that in lieu of the allocation formula set forth in subdivision (2)(a) of Section 54157 of the Government Code, the following provisions shall apply:

If the total amount of all such applications is less than the amount calculated pursuant to subdivision (d) of this section, allocations shall be made for the full amount of the applications. If the total amount of such applications is more than the amount calculated pursuant to subdivision (d) of this section, the State Allocation Board shall apportion such available money to each city and county on the basis of the proportion to which its application bears to the total of all such applications for snow removal reimbursement. Amounts allocated pursuant to this subdivision shall be deducted by counties in computing their reimbursable snow removal costs pursuant to subdivision (d) of Section 2152 of the Streets and Highways Code. For purposes of this section, snow removal does not include the purchase of snow removal equipment.

(f) The application for snow removal assistance under subdivision (e) shall be accompanied by a certification of the actual cost of snow removal to, and the amount received pursuant to Sections 2107 and 2110 of the Streets and Highways Code for snow removal by, the city or county during the most recent five years. In the case of a city incorporated for less than five years, the application under subdivision (e) shall be accompanied by a certification of the actual cost of snow removal to, and the amount received pursuant to Sections 2107 and 2110 of the Streets and Highways Code for snow removal by, such city during all the years of its incorporated existence.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to the recent unprecedented storms, snow removal expenditures by cities and counties are greater than reasonably can be borne by them, even with the allocation of state funds to them for such purpose under existing laws. In order that money from revenues to be raised by the temporary one cent ($0.01) per gallon gas tax increase, pursuant to Chapter 52 of the Statutes of 1969, may be made available to assist the cities and counties in meeting these excessive snow removal costs, it is necessary that this act go into immediate effect.

[Approved by Governor August 13, 1969 Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 12024.1 is added to the Business and Professions Code, to read:

12024.1. Every person, by himself, or through or for another, who willfully misrepresents a charge for service rendered on the basis of weight, time, measure, or count is guilty of a misdemeanor.

CHAPTER 732

An act to amend Sections 1154 and 5303 of the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969 Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1154 of the Revenue and Taxation Code is amended to read:

1154. (a) As used in this section, "air taxi" means aircraft used by an air carrier which does not utilize aircraft whose maximum certificated takeoff weight is greater than 12,500 pounds in air transportation and which does not hold a certificate of public convenience and necessity or other economic authority issued by the Civil Aeronautics Board of the

United States, or its successor, or by the California Public Utilities Commission, or its successor.

(b) Air taxis which are operated in scheduled air taxi operations are not subject to the provisions of Part 10 (commencing with Section 5301) of this division and shall be assessed in accordance with the allocation formula set forth in Section 1152.

(c) All other air taxis shall be assessed in the county where the aircraft is habitually situated in the same manner and at the same ratio as other personal property in the county subject to general property taxation. Such aircraft shall be taxed at the same rate and in the same manner as all other property on the unsecured roll.

SEC. 2. Section 5303 of the Revenue and Taxation Code is amended to read:

5303. (a) "Aircraft" means any contrivance used or designed for the navigation of or for flight in the air which has been flown at least once, other than a parachute or similar emergency safety device.

(b) "Aircraft" does not include any of the following:

(1) Rockets or missiles.

(2) Aircraft operated exclusively by an air carrier or foreign air carrier as defined in subdivisions (3) and (19) of Section 101 of Title 1 of the "Federal Aviation Act of 1958" (P.L. 85-726; 72 Stat. 731) engaged in air transportation as defined in subdivision (10) of the same section while there is in force a certificate or permit issued by the Civil Aeronautics Board of the United States, or its successor, or a certificate or permit issued by the California Public Utilities Commission, or its successor, authorizing such air carrier to engage in such transportation.

(3) Air taxis as defined in subdivision (a) of Section 1154.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Air taxis which are not operated in scheduled air taxi operations make physical contact in taxing agencies with such irregularity as to establish no pattern for a sound or legal allocation formula. A representative period of less than one year to be used by assessors for ascertaining allocation factors for air taxis will not give assessors a reasonably accurate basis for determining physical presence in taxing agencies. In order to avoid the difficult administrative problems in determining physical presence of air taxis by an allocation formula for the next fiscal year it is necessary that this act become effective before July 1, 1969.

CHAPTER 733

An act to add Sections 25452.1 and 25452.2 to the Education Code, relating to school boards, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 25452.1 is added to the Education Code, to read:

25452.1. Notwithstanding the provisions of Sections 25451.9 and 25452, where a junior college district and a unified district have a common governing board consisting of five members, the organization of which was completed on or before December 31, 1968, pursuant to the provisions of this article, and such governing board is elected and the terms of office fixed pursuant to the provisions of a city charter, such governing board may, on or before December 31 in any year, on its own initiative, determine that a separate junior college district governing board be established and require the members of the common board to elect as to which board they wish to serve upon. The junior college board so created shall be composed of the same number of members as the common board.

SEC. 2. Section 25452.2 is added to the Education Code, to read:

25452.2. If an individual elects, pursuant to Section 25452.1, to serve on the junior college district governing board, such an act shall be deemed to have created a vacancy on the unified district governing board commencing on the first day of July next succeeding such election. Such a vacancy shall be filled as provided in the charter of the city, or if no such provision is made, as provided for in this code.

A member of the common board who elects to be a member of the junior college district governing board, shall hold such office until June 30 of the year in which his term of office on the common board would have expired. Positions on the junior college district governing board which remain unfilled after such elections have been made by the members of the common board, shall be filled as provided for in Section 25413.5. A member so appointed shall serve until June 30 of the first odd-numbered year next succeeding the year set out pursuant to Section 25452.1.

In the first odd-numbered year next succeeding the year set out pursuant to Section 25452.1 on the same date upon which governing boards of a majority of other school districts in the county are elected, an election shall be held to fill those positions held by appointees pursuant to this section and members who elected to serve and whose terms will expire on June 30 of such first odd-numbered year. After the election, the mem-

bers of the board shall have terms of office such that three members shall have terms which expire on June 30 of the next succeeding odd-numbered year and two members shall have terms which expire on June 30 of the second succeeding odd-numbered year. Governing board members who had been members of the common board shall have terms of office as provided for in this section. Governing board members elected at such election who received the lowest number of votes shall be deemed to have been elected to the positions of those, if any, whose terms will expire on June 30, of the next succeeding odd-numbered year. Others elected at such election shall have terms of office which expire on the second succeeding odd-numbered year. The election shall be held throughout the junior college district and the members elected to the junior college district governing board shall be elected at large. Except for the initial terms of office, the term of office for a member of the governing board of the junior college district shall be four years and shall commence on July 1 and terminate on June 30.

SEC. 3. This act shall be operative until December 31, 1972, and thereafter shall have no force or effect.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that this act may be operative in an odd-numbered year and to facilitate the separation of junior college and unified school district governing boards where such action is desired pursuant to this act, it is essential that this act take immediate effect.

CHAPTER 734

An act to amend Sections 1334.2 and 1334.3 of the Penal Code, relating to witnesses.

[Approved by Governor August 13, 1969 Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1334.2 of the Penal Code is amended to read:

1334.2. If a judge of a court of record in any state, which by its laws has made provision for commanding persons within that state to attend and testify in this state, issues a certificate under the seal of the court that there is a criminal prosecution pending in the court, or that there is a grand jury investigation, that a person within this state is a material witness in such prosecution or grand jury investigation, and that his

presence will be required for a specified number of days, then, upon presentation of the certificate to a judge of a court of record in the county in which the person is, a time and place for a hearing shall be fixed by the judge and he shall make an order directing the witness to appear at the hearing.

If at the hearing, the judge determines that the witness is material and necessary, that it will not cause undue hardship to the witness to be compelled to attend and testify in the prosecution or grand jury investigation in the other state, and that the laws of the state, in which the prosecution is pending or in which there is a grand jury investigation, will give to the witness protection from arrest and service of civil and criminal process and will furnish in advance to the witness the sum of ten cents ($0.10) for each mile necessarily traveled if the witness elects surface travel or the minimum round trip scheduled airlines fare plus twenty cents ($0.20) a mile for necessary surface travel at either end of the flight if the witness elects air travel, and a per diem of twenty dollars ($20) for each day that he is required to travel and attend as a witness and that the judge of the court in which the witness is ordered to appear will order the payment of witness fees authorized by law for each day the witness is required to attend the court plus reimbursement for any additional expenses of the witness which the judge of the court in which the witness is ordered to appear shall find reasonable and necessary, he shall issue a subpoena, with a copy of the certificate attached, directing the witness to attend and testify in the court where the prosecution is pending, or where the grand jury investigation is, at a time and place specified in the subpoena. In any such hearing the certificate shall be prima facie evidence of all the facts stated therein.

If the certificate recommends that the witness be taken into immediate custody and delivered to an officer of the requesting state to assure his attendance therein, the judge may, in lieu of notification of the hearing, direct that the witness be forthwith brought before him for the hearing.

If the judge at the hearing, is satisfied of the desirability of the custody and delivery, for which determination the certificate shall be prima facie proof of this desirability, he may, in lieu of issuing subpoena, order that the witness be forthwith taken into custody and delivered to an officer of the requesting state.

If the witness, who is subpoenaed as herein provided, after being paid or tendered by some properly authorized person the sum or fare, and per diem set forth in this section, fails without good cause to attend and testify as directed in the subpoena, he shall be punished in the manner provided for the punishment of any witness who disobeys a subpoena issued from a court of record in this state.

SEC. 2. Section 1334.3 of the Penal Code is amended to read:

1334.3. If a person in any state, which by its laws has made provision for commanding persons within its borders to attend and testify in criminal prosecutions or grand jury investigations in this state, is a material witness in a prosecution pending in a court of record in this state, or in a grand jury investigation, a judge of such court may issue a certificate under the seal of the court stating these facts and specifying the number of days the witness will be required. This certificate shall be presented to a judge of a court of record in the county of such other state in which the witness is found.

If the certificate recommends that the witness be taken into immediate custody and delivered to an officer of this state to assure his attendance in this state, the judge may direct that the witness be forthwith brought before him. If the judge is satisfied of the desirability of the custody and delivery, for which determination the certificate shall be prima facie proof, he may order that the witness be forthwith taken into custody and delivered to an officer of this state. This order shall be sufficient authority to the officer to take the witness into custody and hold him unless and until he may be released by bail, recognizance, or order of the judge issuing the certificate.

If the witness is subpoenaed to attend and testify in this state, he shall be tendered the sum of ten cents ($0.10) for each mile necessarily traveled if the witness elects surface travel or the minimum round trip scheduled airlines fare plus twenty cents ($0.20) a mile for necessary surface travel at either end of the flight if the witness elects air travel, and a per diem of twenty dollars ($20) for each day that he is required to travel and attend as a witness. The judge of the court in which the witness is ordered to appear shall order the payment of witness fees authorized by law for each day the witness is required to attend the court plus reimbursement for any additional expenses of the witness which the judge of the court shall find reasonable and necessary. A witness who has appeared in accordance with the provisions of the subpoena shall not be required to remain within this state a longer period of time than the period mentioned in the certificate, unless otherwise ordered by the court. If the witness fails without good cause to attend and testify as directed in the subpoena, he shall be punished in the manner provided for the punishment of any witness who disobeys a subpoena issued from a court of record in this state.

The information contained in the financial statement shall be confidential and not a public record, but, where relevant, shall be admissible as evidence in any administrative hearing or judicial action or proceeding.

If such registration is provided for, coupon bonds may be interchanged for registered bonds and registered bonds for coupon bonds, and all of the provisions of this chapter with reference to the payment of bonds and interest coupons shall be subject to the terms and conditions of such registration with respect to the payment of registered bonds and the interest thereon.

Such notes shall be so delivered only for the purposes for which may be used the proceeds of the sale of bonds in anticipation whereof the notes were issued.

All notes issued and any renewals thereof shall be payable at a fixed time, solely from the proceeds of the sale of the bonds and not otherwise, except that in the event that the sale of the bonds shall not have occurred prior to the maturity of the notes issued in anticipation of the sale, the State Treasurer shall, in order to meet the notes then maturing, issue renewal notes for such purpose. No renewal of a note shall be issued after the sale of bonds in anticipation of which the original note was issued.

Every note and any renewal thereof shall be payable from the proceeds of the sale of bonds and not otherwise. The total amount of such notes or renewals thereof issued and outstand-

ing shall at no time exceed the total amount of the unsold bonds.

Interest on the notes shall be payable from any appropriation made for that purpose.

SEC. 3. It is the intent of the Legislature that the amendments to Section 16731 of the Government Code made by Section 1 of this act raise the maximum rate of interest payable under the State General Obligation Bond Law with respect to bonds authorized subsequent to the effective date of this act, and that the amendments to Section 16736 of the Government Code made by Section 2 of this act delete the maximum rate of interest payable under the State General Obligation Bond Law with respect to notes issued in anticipation of bonds authorized prior to September 15, 1961, or subsequent to the effective date of this act; provided, that if Senate Constitutional Amendment No. 26 of the 1969 Regular Session is approved by the electors, the amendments made to Sections 16731 and 16736 of the Government Code by Sections 1 and 2 of this act shall be operative with respect to all bonds, and notes issued in anticipation thereof, irrespective of when such bonds may have been authorized. It is further the intent of the Legislature that this act shall in no way affect the authority to issue notes in anticipation of bonds under Section 16737 of the Government Code in the event Senate Bill No. 764 of the 1969 Regular Session is enacted.

CHAPTER 741

An act to add Section 16737 to the Government Code, relating to state indebtedness, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 16737 is added to the Government Code, to read:

16737. When the committee deems it in the best interests of the state, it may authorize the State Treasurer, upon such terms and conditions as may be fixed by the committee, to issue notes, on a negotiated or a competitive-bid basis, maturing within a period not to exceed two years, in anticipation of the sale of bonds duly authorized at the time such notes are issued. The proceeds from the sale of such notes shall be used only for the purposes for which may be used the proceeds of the sale of bonds in anticipation whereof the notes were issued.

When the committee deems it in the best interests of the state, it may authorize the State Treasurer to deliver such notes in payment for work or material furnished to the state

for a public improvement, pursuant to a contract awarded in the manner prescribed by law. Such notes shall be so delivered only for the purposes for which may be used the proceeds of the sale of bonds in anticipation whereof the notes were issued.

All notes issued and any renewals thereof shall be payable at a fixed time, solely from the proceeds of the sale of the bonds and not otherwise, except that in the event that the sale of the bonds shall not have occurred prior to the maturity of the notes issued in anticipation of the sale, the State Treasurer shall, in order to meet the notes then maturing, issue renewal notes for such purpose. No renewal of a note shall be issued after the sale of bonds in anticipation of which the original note was issued.

Every note and any renewal thereof shall be payable from the proceeds of the sale of bonds and not otherwise. The total amount of such notes or renewals thereof issued and outstanding shall at no time exceed the total amount of the unsold bonds.

Interest on the notes shall be payable from any appropriation made for that purpose.

The State Water Program is desperately in need of moneys to carry on construction work and to complete the construction of the State Water Program. General obligation bonds of the state for this purpose were authorized at an election November 8, 1960, prior to the enactment of Section 16736 of the Government Code authorizing the issuance of bond anticipation notes Such bonds are unmarketable at this time and bond anticipation notes must be issued and sold in order to carry out essential public work for the protection of the health and safety and general welfare of the State of California. Accordingly, it is essential that this act take effect immediately.

Each such elector shall be eligible to vote for the member of the county board of education representing the trustee area of such county having jurisdiction as designated by the county committee on school district organization. Such committee shall apportion the portion of the school district territory not situated in the county having jurisdiction to one or more trustee areas of the other county so that such territory shall, insofar as possible, be represented as if it were situated in the county having jurisdiction. All moneys collected in surrounding counties from the levy of such tax rate or portion thereof shall be remitted by the respective

county auditors to the auditor of the county of jurisdiction and shall be deposited by him to the credit of the fund or funds from which the support of his county board of education and superintendent of schools is derived.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the intent of the Legislature be carried out in the most expeditious manner possible it is necessary that this act be operative for the entire 1969–1970 fiscal year. CHAPTER 745

An act to amend Sections 7455 and 7456 of the Education Code, relating to regional occupational centers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969 Filed with Secretary of State August 14, 1969]

The people of the State of California do enact as follows:

SECTION 1. Section 7455 of the Education Code is amended to read:

7455. Any pupil eligible to attend a high school or adult school in a school district subject to the jurisdiction of a county superintendent of schools operating a regional occupational center or regional occupational center program, and who resides in a school district which by itself or in cooperation with other school districts, has not established a regional occupational center, or regional occupational program, is eligible to attend a regional occupational center or regional occupational program maintained by the county superintendent of schools. Any school district which in cooperation with other school districts maintains a regional occupational center, or regional occupational program, or any such cooperating school districts may admit to such center, or program, any pupil, otherwise eligible, who resides in the district or in any of the cooperating districts. Any school district which by itself maintains a regional occupational center, or regional occupational program, may admit to such center, or program, any pupil, otherwise eligible, who resides in the district. No pupil, including adults and minors under subdivision (a) of Section 7451.5, shall be admitted to a regional occupational center, or

regional occupational program, unless the county superintendent of schools or governing board of the district or districts maintaining the center, or program, as the case may be, determines that the pupil will benefit therefrom and approves of his admission to the regional occupational center or regional occupational program.

A pupil may be admitted on a full-time or part-time basis, as determined by the county superintendent of schools or governing board of the school district or districts maintaining the center, or program, as the case may be. A school district which by itself or in cooperation with other school districts maintains a regional occupational center, or regional occupational program, may admit pupils residing in other school districts under interdistrict attendance agreements made pursuant to Sections 10801 and 10805.

SEC. 2. Section 7456 of the Education Code is amended to read:

7456. The county superintendent of schools, with the approval of the county board of education, and the governing board of each school district which maintains a regional occupational center or regional occupational program pursuant to this chapter, shall certify to the county auditor and to the county board of supervisors, on or before July 15 of each year, the amount of money required to be raised by a tax for the education of pupils attending the regional occupational center, or regional occupational program, maintained by the county superintendent of schools or by a school district, as the case may be, and for the purposes set forth in Section 7453.

The amount shall be determined by subtracting from the total cost of education of such pupils in the regional occupational center, or regional occupational program, including transportation, to the county superintendent of schools or school district, as the case may be, (1) the total of any balances remaining to be expended for this purpose and (2) the total amount to be apportioned by the Superintendent of Public Instruction to the county school service fund or to the school district, as the case may be, for the education of such pupils and by adding to the result the amount required for the purposes set forth in Section 7453. At the time of levying county taxes, the board of supervisors shall levy a district tax for each regional occupational center, or regional occupational program, maintained by the governing board of a school district pursuant to this chapter upon the taxable property of the school district sufficient to produce the amount required by this section; and the board of supervisors may levy a tax for each regional occupational center, or regional occupational program, maintained by the county superintendent of schools pursuant to this chapter sufficient to produce the amount required by this section, upon the following taxable property under the jurisdiction of the county superintendent of schools in respect to districts maintaining a high school:

(a) Where, within the territory under the jurisdiction of the county superintendent of schools, in respect to districts maintaining a high school, no governing board of a school district is maintaining a regional occupational center or regional occupational program pursuant to this chapter, upon all the taxable property under the jurisdiction of the county superintendent of schools in respect to districts maintaining a high school.

(b) Where, within the territory under the jurisdiction of the county superintendent of schools in respect to districts maintaining a high school, the governing boards of one or more school districts are maintaining a regional occupational center or regional occupational program pursuant to this chapter, upon the taxable property under the jurisdiction of the county superintendent of schools in respect to districts maintaining a high school which is not included in territory of such school districts.

With respect to school districts situated in more than one county, taxes pursuant to this section, whether district taxes or taxes for the support of centers or programs maintained by the county superintendent of schools, shall be levied and collected pursuant to Article 4 (commencing with Section 20851) of Chapter 3 of Division 16. No taxes shall be levied and collected within a school district for the support of regional occupational centers or regional occupational programs maintained by both the governing board of a district and a county superintendent of schools.

The amount received from this tax shall be deposited in the county school service fund. or, if the regional occupational center, or regional occupational program, for which such tax was levied is maintained by a school district, in the county treasury to the credit of the general fund of that school district. The maximum rate of the tax levied for the purposes of this section, except for the purposes set forth in Section 7453, shall not exceed ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation within the high school jurisdiction of the county superintendent or the district, as the case may be, and the maximum rate of the tax levied under this section for the purposes set forth in Section 7453 shall not exceed five cents ($0.05) on each one hundred dollars ($100) of assessed valuation in the high school jurisdiction of the county superintendent or the district, as the case may be.

As used in this section, school district includes each of those school districts which are cooperating in the maintenance of a regional occupational center, or regional occupational program, with the approval of the county superintendent of schools pursuant to Section 7451.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

The present law regulating taxation for regional occupational centers permits an inequality to exist with respect to such taxation. In order to remedy this defect, and thus restore equality in taxation, at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 746

An act to amend Section 2106.5 of the Streets and Highways Code, relating to highway funds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 2106.5 of the Streets and Highways Code is amended to read:

2106.5. (a) Each county and any of its incorporated cities may enter into an agreement regarding the base sum established by paragraph (1) of subdivision (b) of Section 2106, providing for expenditure of the amounts apportioned to the county and apportioned for expenditure within the cities participating in the agreement upon selected roads and streets within the county and the cities participating in the agreement included in the select system of county roads and city streets for such county and cities established as provided in Section 186.3.

(b) Any of the incorporated cities within a county may enter into an agreement among themselves regarding the amount apportioned to them pursuant to paragraph (3) of subdivision (b) of Section 2106 for expenditure upon selected streets included in the select system of city streets, established as provided in Section 186.3, within the cities participating in the agreement.

(c) Any such agreement shall be filed with the Controller. After verification of the agreement by the Controller, the Controller shall make disposition of the apportionments to the parties participating in the agreement in accordance with terms of the agreement.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to enable the incorporated cities within a county to enter into an agreement with one another as soon as possible in connection with funds received from the Highway Users Tax

Fund for the selected system of city streets so that the parties to such an agreement may coordinate their efforts in the planning, design, and construction of their selected system of city streets, it is necessary that this act take effect immediately.

CHAPTER 747

An act to add Chapter 2.5 (commencing with Section 171) to Part 1 of Division 1 of the Revenue and Taxation Code, relating to disaster relief, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969 Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 171) is added to Part 1 of Division 1 of the Revenue and Taxation Code, to read:

CHAPTER 2.5. DISASTER RELIEF

171. If an assessor determines on the basis of his valuations for the 1969–1970 assessment year that taxable property was damaged or destroyed by storm or flood conditions or mud slides prior to the lien date in 1969 in an area or region subsequently declared to be in a state of disaster by reason of such major misfortune or calamity and if all conditions are satisfied for the assessment or reassessment of property damaged or destroyed by a major misfortune or calamity set forth in the enactments of the Legislature at its 1969 Regular Session in Chapter 2 (commencing with Section 155) of this part, the assessor shall report to the board of supervisors of the county and to the legislative body of any chartered city within the county which assesses and collects its own taxes with respect to property meeting all of the following requirements:

(a) The property was damaged or destroyed by the major misfortune or calamity which caused the Governor to declare the area or region to be in a state of disaster.

(b) The damage or destruction reduced the assessed value of the property by 50 percent or more.

(c) The assessee of the property provides the assessor with an affidavit, in such form and containing such information as the assessor may require, stating under penalty of perjury that the property was not insured against the major misfortune or calamity, which, in fact, occurred, and that the assessee was unable to obtain insurance through usual channels on the property against that type of damage.

172. Upon receipt of a report provided for in Section 171, the board of supervisors or legislative body, sitting as a local board of equalization, may provide such hearing as it deems reasonable. After determining which of the entries on the assessor's report are true, the county board of supervisors or legislative body may elect to proceed with respect to property described in the approved entries pursuant to this chapter, rather than pursuant to any enactments of the Legislature at its 1969 Regular Session with respect to such property set forth in Chapter 2 (commencing with Section 155) of this part or in Article 1 (commencing with Section 43000) of Chapter 1 of Division 4 of Title 4 of the Government Code, as the case may be. If the board of supervisors or legislative body determines to proceed pursuant to this chapter, the second installment of taxes on all property so approved shall be canceled and all approved entries shall be transmitted to the county auditor and the legislative body shall also transmit its tax rate on all property affected thereby.

173. Upon receipt of the information described in Section 172, the auditor (and the person performing such function for a chartered city which assesses and collects its own taxes) shall cancel the second half of taxes, and all penalties and interest relating thereto, on all property approved pursuant to Section 172, if unpaid, in the manner prescribed in Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of this division, as if they had been levied or charged erroneously, and, if paid, refunds thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of this division.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The recent disastrous floods, mud slides and other calamities caused by torrential rains in California have destroyed or damaged property to such an extent that there is grave danger that many owners will be unable to pay the taxes levied thereon. Owners of real property who were unable to obtain insurance against the calamities which have destroyed their holdings have been placed in an especially difficult position, as they are frequently financially unable to restore the property to usable condition. In order to assist those persons who suffered particularly severe damage, it is necessary that this act go into immediate effect.

shown on maps or plats used by the assessor, are hereby confirmed, validated, and declared legally established.

SEC. 4. All acts and proceedings heretofore taken by any public body or bodies under any law, or under color of any law, for the annexation or inclusion of territory into any such public body or for the annexation of any such public body to any other such public body or for the withdrawal or exclusion of territory from any such public body or for the consolidation, merger or dissolution of any public bodies are hereby confirmed, validated, and declared legally effective. (b) The foregoing provisions of this act shall be limited to the validation of acts and proceedings to the extent to which the same can be effectuated under the State and Federal Constitutions.

(c) The foregoing provisions of this act shall not operate to confirm, validate, or legalize any act, proceeding, or other matter the legality of which is being contested or inquired into in any legal proceeding now pending and undetermined or which may be pending and undetermined during the period of 30 days from and after the effective date of this act, and shall not operate to confirm, validate, or legalize any act, proceeding, or other matter which has heretofore been determined in any legal proceeding to be illegal, void or ineffective.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and

shall go into immediate effect. The facts constituting such necessity are:

The peace, health and safety of the citizens of the state require the orderly and unhampered functioning of public bodies and such functioning depends upon the validity of the organization, boundaries, and governing officers or boards of public bodies, and upon the validity of acts, proceedings, and bonds of public bodies, and it is therefore imperative and essential that such matters be validated so that during the period before this act would otherwise become effective:

(1) Citizens of the state can be afforded the protection of the police, fire, safety, sanitary, and other regulations and protections provided by public bodies;

(2) Public works and construction by public bodies can be commenced and continued without delay or restriction, to provide sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety, and immediately needed to provide for an increased population;

(3) Public bodies can issue and sell bonds heretofore authorized for the purpose of providing sewers, waterworks, schools, storm drains, flood control works, sanitary facilities, electric and other utility works, firehouses and facilities, police stations and facilities, streets, hospitals, and other works, structures, improvements, and facilities required for the public peace, health and safety and immediately needed to provide for an increased population, which cannot now be sold because of defects in the organization or boundaries of some public body or in the authorization of such bonds, which defects will be cured by this act.

The required contribution shall be paid in lump-sum payments or in installments at times, in amounts, and in a manner fixed by the board, and shall be in an amount equal to, (1) such additional amount as he would have contributed as a part of his normal contributions as an employee of such contracting agency, assuming the entire compensation earned by him was subject to normal contributions; and (2) an amount equal to the additional interest which would have been credited to his account under such assumption; and (3) in the case of any member electing to make payment in other than a lump sum, interest on the balance of the amount payable into the retirement fund, pursuant to such election, at the rate of interest currently being used from time to time under this system. At the time of filing the notice of election, as herein provided, any such member may elect to apply toward the additional amount payable by him pursuant to such election, any additional accumulated contributions with which he is entitled to be credited.

The entire compensation of a member shall be included in any computation to be made under this part to determine the portion of any benefit based on current service rendered on and after the effective date of such amendment to the contract.

Any member entering such service at or after age 50 shall be deemed, for purpose of this section, to have entered such service at age 49.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

Whenever this section becomes applicable to the employees of any contracting agency, as to those members to whom it applies it shall supersede the provisions of Section 21252.1.

SEC. 14. Section 21252.8 of the Government Code is amended to read:

Any member entering such service at or after age 50 shall be deemed, for purpose of this section, to have entered such service at age 49.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

Whenever this section becomes applicable to the employees of any contracting agency, as to those members to whom it applies it shall supersede the provisions of Section 21252.1.

SEC. 16. This act shall become operative on the first of the month following the month in which statutes enacted at the 1969 Regular Session are effective.

CHAPTER 753

An act to amend Sections 20602, 20612, 21252.01, 21252.1, and 21252.45 of, and to repeal Sections 21252.6 and 21252.8 of, the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 20602 of the Government Code is amended to read:

20602. The normal rate of contribution for any member whose retirement allowance is determined under Sections 21252.1 and 21252.10, and who after the operative date of this section enters such membership or enters employment more than one year after termination of employment in which he was subject to any of such sections or Section 21252.2, shall be the rate, specified in the schedule established by the board in accordance with this chapter as it read on the day preceding the operative date of this section, and in effect on that date for that formula and benefit percentage, for the age at his birthday nearest to the date of his earliest service subject to any of such sections, whether or not contributions for such service were withdrawn or redeposited, increased by the number of completed years of his absence from any employment subject to any of such sections.

SEC. 2. Section 20612 of the Government Code is amended to read:

20612. The normal rate of contribution otherwise established under this article for a member whose retirement allowance is determined under Section 21252.01, 21252.1, or 21252.10 and reduced under Section 21252.10 or 21252.45 because his service is included in the federal system, shall be reduced by one-third as applied to compensation not exceeding four hundred dollars ($400) for services rendered in any month after the date of execution of the modification of the federal-state agreement, including such services in the federal system, or the effective date of the contract or contract amendment pursuant to which a contracting agency and its employees become subject to this section, whichever is later.

SEC. 3. Section 21252.01 of the Government Code is amended to read:

21252.01. The current service pension for patrol members and the combined current and prior service pensions for local safety members with respect to local safety service rendered to a contracting agency which is subject to the provisions of this section is a pension derived from the contributions of the employer sufficient when added to the service retirement annuity which is derived from the accumulated

normal contributions of the patrol member at the date of his retirement to equal the fraction of one-fiftieth of his final compensation set forth opposite his age at retirement taken to the preceding completed quarter year, in the following table, multiplied by the number of years of highway patrol service and local safety service subject to this section with which he is credited at retirement.

Age at retirement	Fraction
50	1.0000
50¼	1.0175
50½	1.0350
50¾	1.0525
51	1.0700
51¼	1.0875
51½	1.1050
51¾	1.1225
52	1.1400
52¼	1.1575
52½	1.1750
52¾	1.1925

54	1.2800
54¼	1.2975
54½	1.3150
54¾	1.3325
55 and over	1.3500

In no event shall the current service pension and the combined current and prior service pensions under this section for all service to all employers exceed an amount which, when added to the service retirement annuity related to such service, equals 75 percent of final compensation. If the pension relates to service to more than one employer and would otherwise exceed such maximum, the pension payable with respect to each employer shall be reduced in the same proportion as the allowance based on service to such employer bears to the total allowance computed as though there were no limit, so that the total of such pensions shall equal the maximum.

This section shall not apply to any contracting agency, unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts or, in the case of contracts made after the date this section is operative, by express provision in such contract making the contracting agency subject to the provisions of this section.

This section shall supersede Section 21252.1, 21252.45, or 21252.5, whichever is then applicable, with respect to patrol

and local safety members who retire after the date this section becomes applicable to their respective employers.

Notwithstanding Sections 21208 and 21209, this section shall not apply to warden or forestry members.

The Legislature reserves, with respect to any member subject to this section, the right to provide for such adjustment of industrial disability retirement allowances because of earnings of a retired person and modification of the conditions and qualifications required for retirement for disability as it may find appropriate because of the earlier ages of service retirement made possible by the benefits under this section.

SEC. 4. Section 21252.1 of the Government Code is amended to read:

21252.1. The combined prior and current service pensions for patrol members and local safety members, other than local safety members to whom Section 21252.10 or 21252.5 applies, upon retirement at or after age 55 is a pension derived from contributions of the employer which, when added to that portion of the service retirement annuity that is derived from the accumulated normal contributions of the member, shall equal a percentage of his final compensation, multiplied by the number of years of patrol, fire, police, or county peace officer service, such percentage to be 2½ or, if less, the percentage obtained by division of 50 percent by the difference between age 55 and the member's age at his birthday nearest to the date of his first entry into any service to which this section, Section 21252.1, or 21252 2 of this part applied, whether or not such service is credited at retirement, increased, as to service following an absence from employment to which any such section applies, by the number of completed years of such absence. Any member entering such service at or after age 55 shall be deemed, for purposes of this section, to have entered such service at age 54.

The amendment to this section at the 1968 Regular Session shall apply only to such members retiring on and after the effective date of the amendment. Current and prior service pensions of such members retired prior to the effective date shall be continued in accordance with the provisions of this part (commencing with Section 20000) as they existed on the day preceding the effective date.

SEC. 5. Section 21252.45 of the Government Code is amended to read:

21252 45. The fraction or percentage of final compensation, for purposes of calculating the combined prior and current service pensions under Section 21252.1 or 21252.01 for a local safety member retiring after the effective date of his coverage under the federal system shall be reduced by one-third as applied to that part of the member's final compensation which does not exceed four hundred dollars ($400) per month.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until

the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, or in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

This section and Section 21252.1 or 21252.01, as the case may be, shall supersede Section 21252.5 with respect to all service to a contracting agency electing to be subject hereto; provided, however, that members in employment of such contracting agency on the effective date of the contract amendment subjecting the agency and its employees to this Section 21252.45 may elect, in accordance with board rules, to continue subject to Section 21252.5, and the contracting agency shall be subject to Section 21252.5 rather than this section with respect to members who so elect.

SEC. 6. Section 21252.6 of the Government Code is repealed.

SEC. 7. Section 21252.8 of the Government Code is repealed.

SEC. 8. This act shall become operative on the first of the month following the month in which statutes enacted at the 1969 Regular Session are effective.

CHAPTER 754

SECTION 1. Section 16652 of the Education Code is amended to read:

16652. The following terms, wherever used or referred to in this chapter (commencing at Section 16651) have the following meanings, respectively, unless a different meaning clearly appears from the context:

Playgrounds, outdoor playing fields or courts, swimming pools, and camps, with necessary equipment and appurtenances for their operation, under the jurisdiction of a governing board of a public authority used for community recreation shall be considered recreation centers within the meaning of this chapter (commencing at Section 16651) whether or not they may be used primarily for other purposes.

CHAPTER 755

An act to amend Section 9997 of the Business and Professions Code, relating to employment agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 9997 of the Business and Professions Code is amended to read:

9997. The bureau, subject to the approval of the director, shall charge the following fees:

(a) A filing fee which shall be set by the bureau at not more than fifty dollars ($50) for each new application for license.

(b) A filing fee which shall be set by the bureau at not more than one hundred dollars ($100) for each new application for a branch office license.

(c) A filing fee which shall be set by the bureau at not more than fifty dollars ($50) for application for examination or reexamination.

(d) A filing fee which shall be set by the bureau at not more than fifty dollars ($50) for application to transfer or assign a license.

(e) An annual license fee which shall be set by the bureau at not more than two hundred dollars ($200) for an employment agency license, except that the annual license fee for an employment agency engaged exclusively in the business of procuring babysitting employment for others shall be set by the bureau at not more than seventy-five dollars ($75).

(f) An annual license fee which shall be set by the bureau at not more than one hundred dollars ($100) for license of each branch office, except that the annual license fee for each branch office license for an employment agency engaged exclusively in the business of procuring babysitting employment for others shall be set by the bureau at not more than thirty-eight dollars ($38).

(g) An interim employment agency license fee which shall be set by the bureau at not more than one hundred dollars ($100).

(h) A reinstatement fee of two hundred dollars ($200), in addition to the current renewal fee, to reinstate a license revoked or suspended.

No fees shall be prorated for the unexpired portion of the license year.

The fees shall be set by the bureau within the limits prescribed by this section in such amounts as it determines will be reasonably necessary to provide only sufficient revenue for the administration and enforcement of this chapter.

SEC. 2. The Bureau of Employment Agencies shall not be required to collect from any employment agency which is engaged exclusively in the business of procuring babysitting employment for others and which, during the period between March 12, 1969, and the effective date of this act, paid twenty-five dollars ($25) in order to renew its license, an additional twenty-five dollars ($25) for such renewal.

SEC. 3. The Bureau of Employment Agencies shall refund to any employment agency which is engaged exclusively in the business of procuring babysitting employment for others and which, during the period between March 12, 1969, and the effective date of this act, renewed its license, any amount which was paid over twenty-five dollars ($25).

SEC. 4. There is hereby appropriated from the Bureau of Employment Agencies Fund such amount as may be necessary for the Bureau of Employment Agencies to make the refunds required by Section 3 of this act.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Chapter 12 of the Statutes of 1969, which took effect on March 12, 1969, fixed a minimum fee of fifty dollars ($50) for the renewal of a license held by an employment agency engaged exclusively in the business of procuring babysitting

employment for others. Through inadvertence the Bureau of Employment Agencies fixed a minimum renewal fee of twenty-five dollars ($25) and has renewed some licenses on the payment of that amount.

In order to avoid confusion with respect to the validity of the renewals made by the bureau on and after March 12, 1969, upon the payment of twenty-five dollars ($25) and to avoid the costs which may be necessary to secure collection of an additional twenty-five dollars ($25) from such licensees, it is imperative that this act take effect immediately.

improvement, or repair of such building or structure is certificated or registered under this chapter to prepare such plans and specifications, or is otherwise licensed in this state to prepare such plans and specifications.

The signature and registration number on such plans and specifications of a person who is certificated, registered or licensed to prepare such plans and specifications shall constitute compliance with this section.

It shall not be the responsibility of the agency that issues such permit to determine that the person who signed the plans and specifications or who submitted a signed statement that he is certificated or registered under this chapter, is qualified under this chapter to prepare such plans and specifications.

The provisions in this section shall not apply to the issuance of permits where the preparation of plans and specifications for the construction, alteration. improvement, or repair of a building or structure is exempt from the provisions of this chapter, except that the person preparing such plans and specifications for others shall sign such plans and specifications as provided by Section 5536.1.

723. Any interested person shall have a right of action to recover on any such bond or undertaking for any breach of the conditions for which the same was deposited, but the aggre-

gate liability of the surety to all such persons shall in no event exceed the amount of the bond. In the event the vessel is no longer registered in this state and the currently valid certificate of ownership is surrendered to the department or the vessel has been destroyed or lost, the bond or undertaking shall be returned and surrendered after three years.

51053. The execution and acceptance of an instrument described in Section 51051 shall constitute a dedication to the public of the open-space character of the lands for the term specified. Any such easement and covenant shall run for a term of not less than 20 years.

51054. An instrument described in Section 51051 may contain, and the city or county in appropriate cases may require that it contain, a covenant against the extraction of natural resources or other activities which may destroy the unique physical and scenic characteristics of the land or a covenant against the cutting of timber, trees and other natural growth, except as may be required for fire prevention, thinning, elimination of diseased growth and similar protective measures, or for the harvest of trees in a manner compatible with scenic purposes.

51055. No instrument described in Section 51051 shall be effective until it has been accepted by resolution of the governing body of the city or county and its acceptance endorsed thereon.

51056. No grant of an open-space easement shall be accepted by a city or county, unless the governing body, by resolution, finds:

(a) That the preservation of the land as open space is consistent with the general plan of the city and county; and

(b) That the preservation of the land as open space is in the best interest of the state, county, or city and is important to the public for the enjoyment of scenic beauty, for the use of natural resources, for recreation, or for the production of food or fiber and specifically because one or more of the following reasons exist:

(1) It is likely that at some time the public may acquire the land for a park or other public use.

(2) The land is unimproved and has scenic value to the public as viewed from a public highway or from public or private buildings.

(3) The retention of the land as open space will add to the amenities of living in adjoining or neighboring urbanized areas.

(4) The land lies in an area which in the public interest should remain rural in character and the retention of the land as open space will help preserve the rural character of the area.

(5) It is in the public interest that the land remain in its natural state, including the trees and other natural growth, as a means of preventing floods or because of its value as watershed.

(6) The land lies within an established scenic highway corridor.

(7) The land is valuable to the public as a wildlife preserve or sanctuary and the instrument contains appropriate covenants to that end.

(8) The public interest will otherwise be served in a manner recited in the resolution and consistent with the purposes of this subdivision and Article XXVIII of the Constitution of the State of California.

The resolution of the governing body shall establish a conclusive presumption that the conditions set forth in subdivisions (a) and (b) have been satisfied.

51057. The governing body of the city or county shall not accept any grant of an open-space easement until the matter has first been referred to the city or county planning department or planning commission and a report thereon has been received from the planning department or planning commission. Within 30 days after receiving the proposal to accept a grant of an open-space easement, the planning department or planning commission shall submit its report to the governing body. The governing body may extend the time for submitting such a report for an additional period not exceeding 30 days. The report shall contain a statement that the proposal is, or is not, consistent with the general plan of the jurisdiction.

51058. From and after the time when an open-space easement has been accepted by the city or county and its acceptance endorsed thereon, no building permit may be issued for any structure which would violate the easement and the city or county shall seek by appropriate proceedings an injunction against any threatened construction or other development or activity on the land which would violate the easement and shall seek a mandatory injunction requiring the removal of any structure erected in violation of the easement.

In the event the county or city fails to seek an injunction against any threatened construction or other development or activity on the land which would violate the easement or to seek a mandatory injunction requiring the removal of any structure erected in violation of the easement, or if the county or city should construct any structure or development or conduct or permit any activity in violation of the easement, the owner of any property within the county or city, or any resident thereof, may, by appropriate proceedings, seek such an injunction.

Nothing in this chapter shall limit the power of the state, or any department or agency thereof, or any county, city, school district, or any other local public district, agency or entity, or any other person authorized by law, to acquire land subject to an open-space easement by eminent domain.

51059. Upon the acceptance of any instrument creating an open-space easement the clerk of the governing body shall record the same in the office of the county recorder and file a copy thereof with the county assessor. From and after the time of such recordation such contract shall impart such notice

thereof to all persons as is afforded by the recording laws of this state.

51060. From time to time, the governing body of any city or county may accept an instrument whereby the term of any open-space easement is extended in the same manner as is provided for the acceptance of an instrument originally creating an open-space easement. Upon the acceptance thereof the same shall be recorded in the office of the county recorder and a copy thereof filed with the county assessor.

51061. The governing body of any city or county at any time may, by resolution, abandon an open-space easement, if it finds that no public purpose described in subdivision (b) of Section 51056 will be served any longer by keeping the land as open space. No resolution abandoning an open-space easement shall be finally adopted until the matter has been referred to the city or county planning commission, the commission has held a public hearing thereon and furnished a report on the matter to the governing body and the governing body has held at least one public hearing thereon after giving 30 days notice thereof by publication in accordance with Section 6061 of the Government Code, and by posting notice on the land.

Prior to approval of the resolution abandoning an open-space easement, the governing body shall direct the county assessor to assess the land, as if the easement did not exist, and to report such new assessed value to the governing body. As a condition of the abandonment of the easement, the owner shall pay to the county or city an amount equal to 50 percent of the new assessed value of the land; provided, however, that the governing body may waive all or any portion of such payment, if it finds that it is consistent with the public interest to do so.

51062. Upon the recording in the office of the county recorder of a certified copy of any resolution abandoning the open-space easement and reciting compliance with the provisions of Section 51061, the land subject thereto shall be deemed relieved of the easement and the covenants of the owner contained therein shall be deemed terminated.

51063. If any land or a portion thereof as to which any city or county has accepted an open-space easement is thereafter sought to be condemned for public use and the city or county received the easement as a gift without the payment of any compensation therefor, the easement shall terminate as of the time of the filing of the complaint in condemnation as to the land or portion thereof sought to be taken for public use, and the owner shall be entitled to such compensation for the taking as he would have been entitled to had the land not been burdened by the easement.

51064. The grant of an open-space easement executed and accepted in accordance with this chapter shall be deemed to be an enforceable restriction within the meaning of Article XXVIII of the Constitution of the State of California.

51065. Nothing in this chapter shall be deemed to prevent or restrict the right or power of any city or county to acquire by gift, purchase or otherwise scenic easements or other rights in property for the purpose of preserving open space or for any other purpose under any other provisions of law.

CHAPTER 763

An act to amend Sections 10053 and 11018.3 of, and to add Sections 11000.5, 11000.6, 11018.6, 11018.9, and 11024 to, the Business and Professions Code, relating to real estate.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that sales of lots in certain subdivisions in areas of sparse population within the state have been made in some instances on the basis of an intensive promotional effort which has tended to obscure the highly speculative nature of such investments. The dangers to the public which may arise from such sales have been recognized by the United States Congress, and certain transactions will be regulated by the federal government under the newly enacted Interstate Land Sales Full Disclosure Act (15 U.S.C., Sec. 1701, et seq.). It is the purpose of the Legislature to protect the public by providing the Real Estate Commissioner with additional authority to provide that reasonable arrangements are made to assure completion and maintenance of certain subdivisions, and to further protect the public by either requiring advance delivery of the public report to purchasers of such subdivision lots or allowing such purchasers a limited time within which to rescind.

The Legislature further finds and declares that the purposes of this act will best be served by full and specific disclosure of factual data required by the final public report set forth to the degree possible in narrative terms understood by lay persons, and by controls over the issuance of those reports specified by this act, and that, further, due to the difficulties of defining the type of subdivision to be subject to the additional authority of the Real Estate Commissioner and the stigma which may attach to all subdivisions made subject to such regulation, no public report or other writing issued by the commissioner with respect to such subdivisions and intended for circulation to prospective purchasers or the general public shall characterize them by use of the term "promotional" or any similar distinguishing heading or form, provided that nothing in this section shall restrict the power of commissioner to factually disclose, comment, or describe the subdivision in the text of such public reports.

SEC. 1.5. Section 10053 of the Business and Professions Code is amended to read:

10053. The membership of the commission shall be composed of seven members, including the commissioner, each of whom shall have been for five years a real estate broker actively engaged in business as such in California; and two public members.

SEC. 2. Section 11000.5 is added to the Business and Professions Code, to read:

11000.5. A "land project" is a subdivision or subdivided lands within this state which satisfies all of the following conditions:

(a) The subdivision of subdivided lands contain 50 or more parcels of which any 50 are both

(1) Not improved with residential, industrial, commercial, or institutional buildings and

(2) Offered for sale, lease, or financing for purposes other than industrial, commercial, institutional, or commercial agricultural uses.

(b) The subdivision or subdivided lands are located in an area in which reside less than 1,500 registered voters within the subdivision or within two miles of the boundaries of the property described in the final public report.

(c) Not constituting a community apartment project as defined in Section 11004, a project consisting of condominiums as defined in Section 783 of the Civil Code, or a stock cooperative as defined in Section 11003.2.

For purposes of subdivision (a), lands owned or beneficially controlled by substantially the same entities or interests shall be deemed to be part of the same subdivided lands or subdivision.

SEC. 3. Section 11000.6 is added to the Business and Professions Code, to read:

11000.6. A subdivision which would otherwise be treated as a land project under Section 11000.5 shall not be so treated, if the subdivider submits evidence satisfactory to the commissioner that any one of the following conditions exists:

(a) All lots within the subdivision are to be offered for sale only to builders or developers.

(b) The lots are not to be offered by means of substantial direct mail advertising, and overall sales promotion costs in connection with the sales thereof are nominal. For the purposes of this section, sales promotion costs shall be deemed nominal if they include a conventional real estate brokerage commission which commission shall not exceed similar commissions for similar services in nonland projects in the area where such services are rendered or a comparable area as determined by the commissioner plus an allowance of not more than 10 percent of the projected selling price of all of the lots for overhead and advertising.

(c) Other characteristics of the subdivision render such treatment unnecessary in order to provide protection to the

public, as determined in accordance with reasonable regulations adopted by the commissioner to carry out the provisions of this chapter.

SEC. 4. Section 11018.3 of the Business and Professions Code is amended to read:

11018.3. Any subdivider objecting to the denial of a public report or to denial by the commissioner of exemption from special regulation pursuant to Section 11000.5 may, within 30 days after receipt of the order of denial, file a written request for a hearing. The commissioner shall hold the hearing within 20 days thereafter unless the party requesting the hearing shall have requested a postponement. If the hearing is not held within 20 days after request for a hearing is received plus the period of any such postponement or if a proposed decision is not rendered within 45 days after submission and an order adopting or rejecting such proposed decision is not issued within 15 days thereafter, the order of denial shall be rescinded and a public report issued.

SEC. 5. Section 11018.6 is added to the Business and Professions Code, to read:

11018.6. In addition to the other grounds for denial of a public report as set forth in this chapter, the commissioner shall not issue a public report on any land project within the purview of Section 11000.5 (as modified by Section 11000.6) until he finds that reasonable arrangements have been made to assure completion, maintenance, and financing of the total complex of improvements reflected in the subdivision offering made by the developer to be constructed by, or on behalf of, the developer or principally for the benefit of the subdivision offering, including, but not limited to, roads, utilities, community facilities, or other amenities included in the offering. In determining the reasonableness of such arrangements, the commissioner shall consider whether the probable continuing financial burden with respect to the financing of completion and maintenance of improvements within the subdivision bears a reasonable relationship to the value of the lots therein.

The provisions of this section shall not be applicable to a land project if all of the following conditions are satisfied:

(a) All such improvements set forth in the final public report, or in advertising utilized by the developer, or in both the final report and the advertising, including those not located within the boundaries of the subdivision, have been completed and fully paid for or a guaranty has been made of both payment of the full cost of construction of such improvements and completion thereof within 36 months from the date of issuance of the final public report, such guaranty to be made by the developer, in the form of either a cash deposit or a subdivision improvement bond for faithful performance, issued by a corporation authorized to transact surety business in this state.

(b) No lien or assessment shall be imposed upon any lot in the subdivision for payment of any cost of said construction.

(c) The developer has guaranteed the management, maintenance, operation, use, and preservation of each offsite improvement, other than from damage from causes other than the acts of the developer that are not insurable under the standard form of policy of fire and extended coverage insurance then in use in this state, until either five years have elapsed from the completion of construction thereof or until the improvement has been accepted for maintenance by the owners or an association of owners or a governmental entity, whichever shall first occur.

SEC. 6. Section 11018.9 is added to the Business and Professions Code, to read:

11018.9. Each subdivider of a land project or his successor in interest shall submit reports on or before the 10th day of each calendar quarter listing the names and addresses of all persons who had agreed to purchase a lot or parcel in the subdivision and who subsequently had withdrawn or attempted to withdraw from the agreement either by formal notification to the subdivider, by failure to make payments for a period of 90 days or more after the due date thereof, by claim of rescission or otherwise. The obligation to make such reports shall terminate on the earliest to occur of the following events:

(a) Thirteen months after execution of conveyances or contracts for the purchase and sale of 90 percent of the lots within the subdivision.

(b) Three years after the issuance of the public report with respect thereto.

The commissioner may, however, adopt reasonable regulations to carry out the provisions of this chapter, for extension of the obligation to make such reports where the requirements to do so would otherwise expire pursuant to subdivision (b) above.

SEC. 7. Section 11024 is added to the Business and Professions Code, to read:

11024. Any contract or agreement to purchase or lease a lot or parcel in a land project within the purview of Section 11000.5 (as modified by Section 11000.6) may be rescinded by the purchaser without cause of any kind by sending or delivering written notice of rescission by midnight of the second calendar day following the day on which the purchaser or prospective purchaser has received and executed a receipt for a copy of the public report applicable thereto. The subdivider shall clearly and conspicuously disclose, in accordance with regulations adopted by the commissioner, the right to rescind provided for in this section and shall provide, in accordance with regulations adopted by the commissioner, an adequate opportunity to exercise the right to rescission provided for herein within the time limit set forth above. Any certificate signed by the purchaser or lessee which sets forth a brief description of the property sold or leased and a statement that

the purchaser or lessee has not exercised the right of rescission as provided for in this section within the time limit above set forth shall be conclusive evidence of its contents in favor of any third party acting in good faith and in reliance thereon. A signed receipt for a public report shall be conclusive evidence of the receipt of such final report on the date recited therein in favor of any third party who relies thereon in good faith and without notice of any inaccuracy therein. The remedy granted under this section shall not be cumulative with any remedy granted and exercised under the Interstate Land Sales Full Disclosure Act (15 U.S.C., Sec. 1701, et seq.) or any other federal act pursuant to which the purchaser or party contracting with respect to a lot in a land project may have a right of rescission.

SEC. 8. This act shall become operative on January 2, 1970. Section 5 of this act shall not be applicable to subdivisions on which final public reports were issued prior to the operative date of this act and Sections 6 and 7 of this act shall not be applicable to conveyances of or contracts for the purchase and sale of lots, which conveyances are made or which contracts are executed prior to the effective date of this act.

CHAPTER 764

An act to amend Section 683 of the Harbors and Navigation Code, relating to vessels.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 683 of the Harbors and Navigation Code is amended to read:

683. The owner shall furnish the department notice of the wrecking or junking, or the destruction or abandonment of such undocumented vessel within 15 days thereof. Such wrecking, junking, destruction or abandonment shall terminate the certificate of ownership and certificate of number of such undocumented vessel which if in existence shall be surrendered to the department.

The department, upon receiving notice of the abandonment of an undocumented vessel, or upon an official determination that an undocumented vessel has been abandoned, may order the destruction of such vessel at the expiration of 30 days if an investigation by the department has disclosed that no owner, legal owner, or lienholder claims an interest in such vessel, or if such persons have waived their interest. Nothing in this section shall be construed to deny the legal rights, otherwise provided for by law, of any person claiming an interest in an abandoned vessel if such person notifies the department within the time specified therefor.

CHAPTER 765

An act to amend Section 2137.1 of the Business and Professions Code, relating to physicians and surgeons, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 2137.1 of the Business and Professions Code is amended to read:

2137.1. Subject to the provisions of the State Civil Service Act, any person who is licensed to practice medicine in any other state, meets the requirements for application as set forth in Section 2190, and who complies with each and all of the requirements of Section 2147.5 with respect to registration with the board and graduation from a school approved by the board, may be appointed to a medical staff within a state institution and, under supervision of a licensed physician and surgeon, may treat persons under the jurisdiction of any such state institution for a period not exceeding two years; provided, that qualified physicians and surgeons cannot be recruited in the State of California. At the end of such time he must have secured a physician's and surgeon's certificate in order to continue as a member of such medical staff. Until such person has obtained a physician's and surgeon's certificate he shall not engage in the practice of medicine and surgery in this state except to the extent expressly herein permitted. No person appointed pursuant to this section shall be employed in any state institution or institutions for a period in excess of two years from the date such person was first employed and such appointment shall not be extended beyond such two-year period.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Between one-half and one-third of the physicians employed by the state to care for mentally disordered and mentally retarded persons in state hospitals are recruited from other states and obtain a California license to practice medicine while employed at a state hospital under the section amended by this act. In order to prevent a disruption of medical services to state hospital patients, it is necessary that this act take effect immediately.

CHAPTER 766

An act to amend Section 5843.5 of the Streets and Highways Code, relating to street lighting.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 5843.5 of the Streets and Highways Code is amended to read:

5843.5. Notwithstanding any other provisions of this chapter, the board of supervisors, upon its own motion or upon receipt of a petition signed by 20 or more taxpayers of an existing lighting maintenance district asking for the installation and maintenance of additional lights, may, by order entered upon its minutes, make the expenses of the installation and maintenance of the additional lights a charge upon the existing district if the board determines that it will be just and equitable, and in the public interest for the additional cost, if any, to be paid by the district as a whole. If sufficient funds are available or will be available from a tax levy already made or after the tax levy has been made, the board may proceed with the installation of the additional lights.

CHAPTER 767

An act to amend Sections 31695.2, 31703, 31812, and 31815 of, and to add Section 31808.6 to, the Government Code, relating to county retirement systems, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 31695.2 of the Government Code is amended to read:

31695.2. All eligible employees may elect to be included within the safety member provisions of this chapter by written notice filed with the board not later than 60 days from and after the effective date of the approval of the board of supervisors of the provisions of this article, or within 60 days from and after the effective date of a selection of benefits by the board of supervisors under Section 31808.6, whichever is later.

SEC. 2. Section 31703 of the Government Code is amended to read:

31703. Any member upon the effective date of his deferred retirement allowance is entitled to receive a retirement allowance as provided in Sections 31673 to 31677, inclusive, or Section 31808.5, or Section 31808.6, whichever is applicable.

SEC. 3. Section 31808.6 is added to the Government Code, to read:

31808.6. Notwithstanding any other provisions of law, in any county or district first subject to the provisions of Section 31676.1 or 31695.1 on or after July 1, 1969, having members performing the duties of safety members as defined in Sections 31470.2 and 31470.4, if the board of supervisors adopts this section and as to such members adopts or has already adopted the provisions of this article, then the retirement allowance of such safety members shall be computed according to either the provisions of subdivision (a) or subdivision (b) of this section as selected by the board of supervisors.

(a) The retirement allowance for service rendered prior to the effective date of the resolution provided in Section 31800 shall be computed in accordance with the provisions of Section 31664.01. The retirement allowance of any such safety member with respect to service performed after the effective date of the resolution shall equal the total of the following:

(1) The fraction of one seventy-fifth of the first three hundred fifty dollars ($350) monthly of the member's final compensation set forth in the table appearing in Section 31664.01 in the column applicable to his age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service as provided therein.

(2) The fraction of one-fiftieth of any remaining portion of the member's final compensation set forth in the table appearing in Section 31664.01 in the column applicable to his age at retirement taken to the preceding completed quarter year multiplied by the number of years of creditable service; or

(b) The retirement allowance shall be computed according to the provisions of Section 31664.01 and federal old age and survivors' insurance coverage shall be on an additive or supplemental basis.

Notwithstanding any other provision of law, in counties which have adopted the provisions of this section and have voted to apply the provisions of this chapter relating to safety members as provided by Section 31695.1, the retirement benefits as well as the contributions of eligible members subject to this article who do not elect pursuant to Section 31695.2 to come under the safety member provisions of this chapter, shall be the same as the retirement benefits and contributions of members other than safety members in the county.

The retirement allowance for any safety member who is not subject to this article shall be computed in accordance with the provisions of Section 31664.01.

Any member who becomes a safety member after the effective date of the selection of the method of computing the retirement allowance by the board of supervisors shall be subject to such selection and to the provisions of this article.

Any member subject to the above selection made by the board of supervisors may elect deferred retirement pursuant to Article 9 (commencing with Section 31700) of this chapter.

SEC. 4 Section 31812 of the Government Code is amended to read:

31812. Each member shall continue to contribute as provided for in Article 6 or (in case of those members defined in Sections 31470.2, 31470.4 and 31470.6) Article 6.8 of this chapter less an amount equal to one-third of that portion of such contribution which is payable with respect to the first three hundred fifty dollars ($350) monthly wage, or in counties where the board of supervisors pursuant to subdivision (b) of Section 31808.6 elects to compute the retirement allowance of safety members according to the provisions of Section 31664 01, each safety member shall make contributions as provided for in Article 6.8 of this chapter with respect to all of his monthly wage.

SEC. 5. Section 31815 of the Government Code is amended to read:

31815. Any member who elects deferred retirement after becoming subject to the provision of this article shall receive a retirement allowance determined in accordance with Section 31808, 31808.1, 31808.6, or 31809, whichever is applicable.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is necessary that this measure take effect immediately in order to eliminate uncertainties as to the consequences of Sections 31676.1 and 31695.1 of the Government Code in counties coming under the provisions of either of those sections for the first time as of July 1, 1969, or later and to improve the public service in those counties by enabling employees therein subject to the 1937 County Employees' Retirement Law to know with more certainty the nature and extent of their rights and obligations under their retirement system.

Certain counties are considering the implementation of said sections as of July 1, 1969, in order to give employees greater retirement benefits, but such counties are reluctant to do so because of uncertainties as to the consequences of such action under present law. Unless this act is passed as an urgency measure a delay in the implementation of said sections will result to the detriment of the public service.

CHAPTER 768

An act to amend Sections 6080 and 6084 of the Harbors and Navigation Code, relating to harbor district public projects.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 6080 of the Harbors and Navigation Code is amended to read:

6080. All work authorized to be done under this part, exceeding in cost the sum of three thousand five hundred dollars ($3,500), shall be awarded upon competitive bidding. Notice of the proposed letting of such a contract shall be given by advertisement for a period of two weeks, in a newspaper of general circulation, published, printed and circulated in the district. The contract shall be awarded to the lowest responsible bidder.

The board may, without advertising for bids, negotiate with the government of the United States for the purpose of assisting the board in the performance of any of the work authorized by this part, and the board may contribute to the United States all or any portion of the estimated cost of any work authorized by this part which is to be done by or under contract with the United States.

SEC. 2. Section 6084 of the Harbors and Navigation Code is amended to read:

6084. Notwithstanding any other provision of this part, the board may borrow money by issuance of promissory notes, or execute conditional sales contracts to purchase personal property, in an amount or of a value not exceeding in the aggregate at any one time the sum of five hundred thousand dollars ($500,000), for the purposes of constructing or operating any work, project, or facility authorized by subdivision (d) of Section 6012 or Section 6075 or for the making of improvements or the purchase of equipment or for the maintenance thereof.

All moneys borrowed pursuant to this section shall not be borrowed for a term exceeding five years, and said indebtednesses shall not incur a rate of interest in excess of six percent (6%) per annum. Each such indebtedness shall be authorized by a resolution of the board of commissioners unanimously adopted.

As a condition precedent to the borrowing of any money or the execution of any conditional sales contract, as provided in this section, in excess of twenty-five thousand dollars ($25,000), the board shall first unanimously approve by resolution and have on file a report on the engineering and economic feasibility relating to the project contemplated for the expenditure of said borrowed money or conditional sales contract. Said

feasibility report shall be prepared and signed by an engineer or engineers licensed and registered under the laws of the State of California.

The district shall budget, levy and collect taxes, and pay for all such indebtedness without limitation by any other provision of this part.

CHAPTER 769

An act to amend Sections 15 and 46 of the Fresno Metropolitan Flood Control Act (Chapter 503 of the Statutes of 1955), relating to the Fresno Metropolitan Flood Control District, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 15 of the Fresno Metropolitan Flood Control Act (Chapter 503 of the Statutes of 1955) is amended to read:

Sec. 15. The district may incur a bonded indebtedness for the acquisition and construction of flood control works (including the acquisition of easements and property) to provide for (a) the control of flood, storm or waste waters of or within said district or which flow or drain into or through said district; (b) protection from damage by flood, storm or waste waters of highways and private and public property within the district; and (c) the conservation of flood, storm and waste waters for beneficial and useful purposes. The election therefor shall be called by resolution, and the resolution shall state the amount of the principal of the indebtedness proposed to be incurred for said purposes, the maximum rate of interest to be paid on said indebtedness (which shall not exceed 7 percent per annum), the manner of holding such election and of voting for or against the incurring of such indebtedness. In all particulars not recited in such resolution the election shall be held as provided by law for holding general county elections in the County of Fresno.

SEC. 2. Section 46 of the Fresno Metropolitan Flood Control Act (Chapter 503 of the Statutes of 1955) is amended to read:

Sec. 46. (a) The board, by resolution thereof, adopted from time to time, may establish zones within said district, setting forth in such resolutions descriptions of the zones by metes and bounds and entitling said zones by zone number, and institute zone projects for the specific benefit of such zones.

Proceedings for the establishment of such zones may be conducted concurrently with and as a part of proceedings for the

instituting of projects relating to such zones, which proceedings shall be taken and had in the manner prescribed in subdivision (b) of this act.

(b) The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement authorized by this act and of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of the project to be borne by the particular zone and, in the case of participating zones, the proportionate cost to be borne by each of the participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication pursuant to Section 6066 of the Government Code in a newspaper of general circulation in such zone or each of said participating zones, if there be such a newspaper, and if there be no such newspaper then by posting notice for two consecutive weeks prior to said hearing in five public places designated by the board, in such zone or in each of said participating zones. Said notice must designate a public place in such zone or in each of said participating zones where a copy or copies of the map or maps of said joint project may be seen by any interested person; said map must be posted in each of said public places so designated in said notice at least two weeks prior to said hearing.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless, prior to the conclusion of said hearing, a written protest against the proposed project signed by a holder or holders of title to the real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated, be filed with the board and not withdrawn, in which event said proceedings shall be terminated and no new proceeding contemplating projects of the same zone or zones shall be commenced within a period of six months following the date of such termination.

In all matters in this section referred to, the last equalized assessment roll of the County of Fresno next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real

property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, any one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do; provided, further, that where real property appears to be owned in common or jointly by husband and wife either may sign the protest without the written consent of the other.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to coowners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

(c) The procedure for authorizing bonds shall be as follows:

(1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zones, the board may by resolution determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the secretary, to be filed for record in the office of the Recorder of Fresno County within five (5) days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in (1) of this subdivision the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual assessment taxes levied as provided in this act.

(3) Said board shall call such special bond election by resolution and submit to the qualified electors of said zone or participating zones the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of the resolution specified in paragraph (1) of this subdivision, and on file for particulars; and said resolution shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on such indebtedness shall not exceed seven percent (7%) per annum. For the purposes of said election, said board shall in said resolution establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not

exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said resolution, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the state.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

The resolution calling for such special bond election shall, prior to the date set for such election, be published in a newspaper of general circulation circulated in each zone and participating zone affected for six consecutive times, if published in a daily newspaper of general circulation, or two times, if published in a weekly newspaper of general circulation. The last publication of such resolution must be at least fourteen (14) days before said election, and if there be no such newspaper, then such resolution shall be posted in five public places, designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election a majority of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless a majority of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

(d) The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zone affected, and of the interest coupons attached thereto. Said bonds shall be payable, annually or semiannually at the discretion of the board, each and every year on a day and date, and at a place, to be fixed by said board and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each

series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. The final maturity date shall not exceed 40 years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than five thousand dollars ($5,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of seven per centum (7%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the secretary of said district, and the seal of said district shall be affixed thereto by said secretary. Either or both of such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said secretary by his printed, engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officers before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officers had remained in office until the delivery of the bonds.

(e) The board may issue and sell the bonds of any such zones authorized as hereinbefore provided at not less than par value, and the proceeds of the sale of such bonds shall be placed in the treasury of the County of Fresno to the credit of said district and the respective participating zones thereof, for the uses and purposes of the zone or zones voting said bonds; and the proper record of such transactions shall be placed upon the books of said county treasurer, and said respective zone funds shall be applied exclusively to the purposes and objects mentioned in the resolution calling for such special bond election as aforesaid, subject to the provisions in this act contained. Payments from said zone funds shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the County of Fresno.

(f) Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual tax consisting of a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon.

(g) The board shall levy an assessment each year sufficient to pay the interest and such portion of the principal of said

bonds as is due or to become due before the time for making the next general assessment tax levy. Such assessment taxes shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the county treasury of said Fresno County to the credit of the zone of issuance, and be used for the payment of the principal and interest on said bonds and for no other purpose. The principal and interest on said bonds shall be paid by the county treasurer of said Fresno County in the manner provided by law for the payment of principal and interest on bonds of said county.

(h) The provisions of law of this state, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof.

(i) The bonds of the district issued for any zone thereof pursuant to this act, shall be legal investments for all trust funds, and for the funds of all insurance companies, banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State of California, such money or funds may be invested in the said bonds of said district issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any act, such bonds of said district may be so used.

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

(j) All bonds issued by said district under the provisions of this act shall be free and exempt from all taxation within the State of California. It is hereby declared that the district organized by this act is a reclamation district and an irrigation district within the meaning of Section 1¾ of Article XIII and Section 13 of Article XI of the Constitution of this state.

(k) The repeal or amendment of this act shall not in any way affect or release any of the property in said district or any zone thereof from the obligations of any outstanding bonds or indebtedness until all such bonds and outstanding indebtedness have been fully paid and discharged.

(*l*) Notwithstanding any provisions of this act to the contrary, in the event the proceeds from the sale of bonds of any zone are invested temporarily in United States bonds, notes,

or certificates of indebtedness, or in other legal investments pending the expenditure of said funds for the purpose or purposes for which said indebtedness was incurred, any revenue or interest received or accruing therefrom may be used to pay the annual or semiannual installments of principal and/or interest on said bonds as same become due.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

An increase in the permissible interest rate on bonds of the Fresno Metropolitan Flood Control District is necessary in order to permit such bonds to be sold under present bond market conditions. Funds from such bonds are needed to insure the acquisition and construction of flood control works necessary for the preservation of the public peace, health, or safety of the residents of the district. In order to insure that such projects may be completed at the earliest possible time, it is necessary that this act go into immediate effect.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 5302.6 is added to the Streets and Highways Code, to read:

5302.6. As an alternative method to that method provided in Sections 5302.5 and 6467, for financing unpaid assessments against publicly owned property, as such property is defined in Section 5301, bonds may be issued to represent unpaid assessments against such public property. Bonds shall be issued in the manner and form as provided for in Chapter 4.5 (commencing with Section 6468), Part 5 of this division. The holders of such bonds and each individual holder of such bonds shall have all of the rights set forth for the holder of an assessment under Section 5302.5 and that of the owner of a certificate to represent assessment against public property as provided for in this code and other rights as provided by the provisions of Chapter 4.5 (commencing with Section 6468), Part 5 of this division. If bonds are to be issued to represent assessments against publicly owned property, it may be set forth by resolution of the legislative body of the entity con-

ducting the proceedings at any time prior to the levy of assessment in the proceedings.

SEC. 2. Chapter 4.5 (commencing with Section 6468) is added to Part 5, Division 7 of the Streets and Highways Code, to read:

CHAPTER 4.5. ISSUANCE OF BONDS TO REPRESENT UNPAID ASSESSMENTS AGAINST PUBLICLY OWNED PROPERTY

6468. As an alternative to the method of collecting unpaid assessments against publicly owned property, as provided in Section 5302.5 of this code, and as an alternative to the issuance of the certificate provided in Section 6467, the legislative body may elect to have bonds issued to represent assessments against publicly owned property as authorized in Section 5302.6 and as authorized in this chapter.

Said bonds shall be substantially in the following form:

STREET IMPROVEMENT BOND

Series (designating it), in the City (or County) of (naming it)

$_____ No._____
(Assessment number)

This bond is issued under and by virtue of the provisions of the Improvement Act of 1911 (Division 7 (commencing with Section 5000) of the Streets and Highways Code) Municipal Improvement Act of 1913, (Division 12 (commencing with Section 10000) of the Streets and Highways Code), payable out of the redemption fund for the payment of bonds issued to represent the unpaid assessments against publicly owned property hereinafter designated.

This bond is issued to represent the cost of certain public improvements benefiting public property, which said property is more fully described as assessment number(s) _____ in an assessment issued by the street superintendent of said _____ and recorded in his office.

Said assessment was levied on the _____ day of _____ 19 _, in an assessment district known and described as "_____"; notice thereof was recorded in the office of the County Recorder of the County of _____, on the _____ day of _____ 19__.

This bond is one of several annual series of bonds of like date, tenor and effect, but differing in amounts and maturities, issued by said city (or county) under said law for the purpose of providing means for paying for the work and improvements described in the resolution of intention in the assessment district proceedings hereinabove referred to, and to represent an unpaid assessment against publicy owned property. It is secured by the moneys in said redemption fund

and by the unpaid amount of said assessment against said publicly owned property, and, including principal and interest is payable exclusively from said redemption fund and neither the (here insert city or county) nor any officer thereof is to be liable for payment otherwise.

The Treasurer of the City of _____ will on the second day of June 19__, solely out of said redemption fund pay to bearer the sum of _____ dollars ($00.00) with interest thereon from the _____ day of _____ 19__ at the rate of _____ percent per annum, all as herein specified and at the office of the treasurer of said city.

The interest is payable semiannually, to wit: on the second day of December and June of each fiscal year after the date of this bond, upon presentation of the proper coupons therefor; provided, that the first of said coupons is for interest to the second day of December, 19__, and thereafter the interest coupons are for the semiannual interest. This bond will continue to bear interest after maturity at the rate above stated; provided, it is presented at maturity and payment thereof is refused upon the sole ground that there is not sufficient moneys in said redemption fund with which to pay same. If it is not presented at maturity interest thereon will run until maturity.

The officer or board whose duty it is to levy taxes for the public property so assessed, is obligated to include in the next tax levy an amount, in addition to moneys for all other purposes, to pay the principal and interest falling due on this bond and is obligated to include in each succeeding tax levy during the life of the bonds, in addition to moneys for all other purposes, the amount necessary to pay the principal and interest falling due in each succeeding year of the life of the bond until the principal of the bond and all interest on the unpaid portions thereof shall be paid. The tax levy shall be made notwithstanding that said tax levy exceeds the maximum tax rate that may otherwise be imposed by law.

In the event that the officer or board whose duty it is to levy taxes to pay for said assessments fails to provide for a tax levy to pay and discharge the principal of the assessment and the interest thereon, the owner of this bond may compel the levy thereof in the manner hereinafter set forth by writ of mandate. The writ of mandate shall include the right to compel the levy of an amount sufficient to pay principal and interest on all bonds issued to represent the same assessment.

The owner of this bond may use mandamus or other appropriate remedy to compel the officer or board, whose duty it is to levy taxes for said obligated owner, to levy an amount in a given year equal to the amount necessary to pay principal and interest on the unpaid portion of this bond and may continue to use mandamus or other remedy to cause a like amount of principal and interest to be levied each year until the whole of the assessment and this bond and all interest thereon has been paid.

If the owner of this bond is successful in any action to compel the levy of the tax under this bond he shall be awarded reasonable attorneys' fees as fixed by the court, and costs, and said attorneys' fees and costs shall be included in the tax levied to pay the same.

This bond may be redeemed and paid in advance of maturity upon the second day of December or June in any year by giving notice in the manner provided for giving of notice for redemption of bonds under the provisions of the Improvement Bond Act of 1915. No premium will be paid upon redemption.

In witness whereof, said _____ has caused this bond to be signed by its treasurer and by its clerk and has affixed thereto its corporate seal all on the _____ day of _____, 19__.

6468.1. The bonds shall be issued in series and an even annual proportion of the aggregate principal sum thereof shall be payable on the second day of June every year beginning with the fiscal year next following the date of the bonds until all are paid. The bonds shall bear interest at a rate not in excess of 7 percent per annum from the 31st day after recording the assessment, or from their date if the work was done under the Municipal Improvement Act of 1913, on all sums unpaid, until the whole of the principal sum and interest are paid.

Interest shall be payable semiannually by coupon, on the second day of December and June, respectively, of each year a principal payment accrues. If no bonds are to be issued in the assessment district proceedings other than bonds to represent unpaid assessments against publicly owned property, the bonds shall bear such date as may be determined by the legislative body conducting the proceedings. The bonds will continue to bear interest after maturity at the rate stated; provided, they are presented at maturity and payment thereof is refused upon the sole ground that there is not sufficient moneys in said redemption fund with which to pay same. If they are not presented at maturity interest thereon will run until maturity.

6468.2. The legislative body may by resolution establish the denomination of the bonds, the amount to mature each year and provide for the issuance of the bonds.

6468.3. The final series of installments of the bonds shall mature and be payable on a date which shall not exceed 24 years from that second day of June which represents the maturity of the first series of bonds.

6468.4. The treasurer shall keep a separate redemption fund, properly designated, into which he shall place all sums

received by him from the collection of the assessments against public property for bonds issued under the provisions of this chapter and for interest and penalties thereon and from which fund he shall disburse and pay the bonds and the interest due thereon upon presentation of the proper bonds and coupons. Under no circumstances shall the bonds or the interest thereon be paid out of any other fund.

6468.5. Sections 8653, 8654, 8655, 8670, 8672, 8673 and 8851 of this code are applicable to bonds issued under the provisions of this chapter.

6468.6. The bonds shall be payable at the office of the treasurer of the city conducting the proceedings. At least 30 days prior to the first day of July of each and every year after the date of the bonds, until the bonds are paid in full, the treasurer shall mail postage prepaid to the entity whose obligation it is to levy a tax to pay the amount of principal and interest falling due each year, a notice of the amount due in the next succeeding fiscal year, the date when payments are due upon the bonds, and that payment shall be made to the city conducting the proceedings by the entity obligated to levy the tax to make the payments due thereon at least 30 days prior to the due date of any installment of principal or interest upon said bonds. Failure of the treasurer to notify the entity obligated to make payment shall not affect the obligation of the entity, whose duty it is to make such payment, to make payment thereof as required by Section 5302.5 of this code. The treasurer shall place the funds in the redemption fund for the payment of such bonds, and interest thereon, such redemption fund to be separate from all other funds and to be used solely for said purpose until the interest thereon and the bonds are paid in full.

6468.7. In the event that the public entity owning the property against which the assessment has been levied, and which is represented by the bonds authorized in this chapter, shall sell the property prior to the maturity and payment in full of all of the bonds representing such assessment, then all of the outstanding bonds shall be immediately payable in full together with the accrued interest thereon not later than sixty (60) days from the date of sale without premium. Interest shall be payable to the date of designated payment and the owner of the bonds, as the owner appears upon the records of the treasurer, shall be given written notice of such payment at his last known address or, if not known, at general delivery. Interest upon said bonds shall cease and terminate at the date designated for payment thereof in full, provided funds for the payment of all such principal and interest to such date have been paid into the proper redemption fund therefor and are available for such payment.

SEC. 3. Section 10602.5 of the Streets and Highways Code is amended to read:

10602.5. When the resolution of intention provides that bonds shall be issued under the Improvement Act of 1911

or the Improvement Bond Act of 1915, and when the assessment has been duly confirmed pursuant to Section 10312, and when the assessment contains an assessment on public property which is subject to assessment pursuant to Section 10206 including, notwithstanding any other provisions of law, public property owned by the city, county or other entity conducting the proceeding, the legislative body may sell such assessment in the same manner and at the same time as provided in Section 10602. The proceeds of the sale shall be deposited in the fund specified in Section 10424.

The buyer of such an assessment shall, upon paying the purchase price, become the owner of the assessment and shall be entitled to exercise all the rights that an owner of an assessment has under Section 5302.5.

If bonds or certificates are to be issued to represent any assessment or assessments against public property, the legislative body of the entity conducting the proceedings may sell such bonds or certificates in the same manner and at the same time as provided in Section 10602. The proceeds of the sale shall be deposited in the fund specified in Section 10424.

The buyer of such bonds and of each individual bond shall become an owner of the assessment and shall be entitled to exercise all of the rights of an owner of an assessment under Section 5302.5 and of a bondholder as provided in Section 5302.6 and Chapter 4.5 (commencing with Section 6468) of Part 5 of Division 7.

The buyer of each certificate shall become the owner of the assessment and shall be entitled to exercise all of the rights of an owner of an assessment under Section 5302.5 and of a certificate holder as provided in Section 6467.

CHAPTER 771

An act to amend Section 8650 of, to repeal Section 8650.1 of, and to add Sections 8650.1 and 8751.5 to, the Streets and Highways Code, relating to maturity of bonds.

[Approved by Governor August 13, 1969. Filed with Secretary of State August 14, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 8650 of the Streets and Highways Code is amended to read:

8650. Except as the legislative body shall provide otherwise under Section 8650.1, the bonds shall be issued in series and an even annual proportion of the aggregate principal sum thereof shall be payable on the second day of July every year succeeding the first 10 months after their date, until the whole is paid. The bonds shall bear interest at a rate not in excess of 7 percent per annum from the 31st day after recording the assessment, or from their date if the work was

done under the Municipal Improvement Act of 1913, on all sums unpaid, until the whole of the principal sum and interest are paid.

Interest shall be payable semiannually by coupon, on the second day of January and July, respectively, of each year. The first payment of interest shall not become due until six months before the maturity of the first series of bonds.

SEC. 2. Section 8650.1 of the Streets and Highways Code is repealed.

SEC. 3. Section 8650.1 is added to the Streets and Highways Code, to read:

8650.1. The legislative body in its discretion may determine, either (a) in the resolution of intention describing the improvement work, or (b) thereafter in the change proceedings taken under and in accordance with the provisions of the same act under which the resolution of intention was adopted, that the principal amount of the bonds maturing each year shall be other than an amount equal to an even annual proportion of the aggregate principal of the bonds, and it may determine that the amount of principal maturing in each year plus the amount of interest payable in that year will be an aggregate amount that is equal each year, except for the moneys falling due on the first series of the bonds which shall be adjusted to reflect the amount of interest earned from the date when the bonds bear interest to the date when the first interest is payable on the bonds; or it may make such other determination of the amount of the aggregate principal of the bonds that shall fall due in a year as it shall choose.

The legislative body in its discretion may determine in like manner to classify assessments into different terms of maturity so that smaller assessments may be made to mature over a shorter period of time and in such event, the bond declaration in the resolution of intention, or in the change proceedings taken under and in accordance with the provisions of the same act under which the resolution of intention was adopted, in the assessment, and in the notice of recording the assessment may recite that the last installment of bonds shall mature a maximum rather than an exact number of years from the second day of July next succeeding 10 months from their date.

SEC. 4. Section 8751.5 is added to the Streets and Highways Code, to read:

8751.5. In the event the treasurer receives for payment any interest coupon from a bond for which notice of advanced maturity has been given without the bond being surrendered to him, he shall mail a copy of the notice of advanced maturity to the address given for payment of such coupon and, if the coupon received is for interest which has ceased to accrue on the bond by reason of its advanced maturity, shall also return such interest coupon with such copy of notice. Failure of the holder or owner of the bond to receive such additional notice shall not affect the advancing of the maturity of the bond.

9359.1. (a) The retirement allowance for a member all of whose credited service was rendered as a Member of the Senate or Assembly except as provided in subdivision (d) is an annual amount equal to five percent (5%) of the compensation payable, at the time payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member who serves more than 15 years shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of 15 years.

(b) The retirement allowance for a member all of whose credited service was rendered as an elective officer of the state whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly) the sum of (1) is an annual amount equal to five percent (5%) of the compensation payable at the time payments of the allowance fall due, to the officer holding the office which the retired member last held prior to his retirement, or five percent (5%) of the highest compensation fixed for such office during the member's last term or any subsequent term prior to his retirement, whichever is greater, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years, plus, if the member is credited with 24 or more years of service, (2) one and two-thirds percent ($1\frac{2}{3}\%$) of the compensation to which the five percent (5%) rate is applicable under subparagraph (1) of this subdivision for his first eight years of credited service, multipled by the number of years of service in excess of eight years with which the member is entitled to be credited at the time of his retirement, not to exceed 12 years of such credited service in excess of the eight years of service referred to in subparagraph (1) of this subdivision.

(c) The retirement allowance for a member part of whose credited service was rendered as a Member of the Senate or Assembly and part of whose credited service was rendered as an elective officer of the state whose office is provided for by the Constitution, other than a judge (and other than a Member of the Senate or Assembly) is the sum of (1) an annual amount equal to five percent (5%) of all the compensation, at the time payment of the allowance falls due, to the officer holding the highest salaried office which the member held at any time during his service prior to retirement, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years, plus, if the member is credited with 24 or more years of service, (2) one and two-thirds percent ($1\frac{2}{3}\%$) of the compensation to which the five percent (5%) rate is applicable under subparagraph (1) of this subdivision for his first eight years of credited service, multiplied by the number of years of service rendered as an elective officer of the state whose office is provided for by the Constitution, other than a judge and other than a Member of the Senate or Assembly, with which the member is entitled to be credited at the time of his retirement, not to exceed 12 years of such credited service in excess of the eight years referred to in subparagraph (1) of this subdivision. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to

Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member, whose total service creditable under this subdivision is in excess of fifteen (15) years, shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of fifteen (15) years. This same computation of total service creditable shall be used as a basis in determining eligibility for retirement, under Sections 9359 and 9359.16, of a member described in this subdivision. Any member to whom this subdivision applies shall redeposit an amount equal to the contributions which were required to be contributed by her deceased spouse while he was a member of the system for his service, computed on the basis of the salary and rate of contribution in effect at the time such service was rendered, or would have been rendered, in the Legislators' Retirement Fund on account of the service of her deceased husband in order to use such service for the purposes of this section and Sections 9359 and 9359.16.

If this act is to be effective with respect to certain elective constitutional officers it must take effect immediately.

The inspector shall, in the order of the offices as their titles are arranged on the machine, read and distinctly announce the designating number and letter on each counter for each candidate's name and the result as shown by the counter numbers. The inspector shall then read the votes recorded for each office on the irregular ballots. He shall also in the same manner announce the vote on each measure.

If the machine is provided with a recording device, in lieu of opening the counter compartment the precinct board shall

proceed to operate the mechanism to produce the statement of return of votes cast record in a minimum of three copies, remove the irregular ballot, if any, record on the statement of return of votes cast record. The irregular ballot shall be attached to the statement of return record of votes cast for the machine and become a part thereof. One copy of the statement of return of votes cast for each machine shall be posted upon the outside wall of the precinct for all to see. During the proclamation ample opportunity shall be given to any person lawfully present to compare the result so announced with the counter dials of the machine, and any necessary corrections shall then and there be made by the precinct board, after which the doors of the voting machine shall be closed and locked.

If the machine is provided with a recording device, the alternate procedures in Section 15250 may be used.

CHAPTER 782

An act to amend Sections 4891 and 4894 of, and to add Section 4894.1 to, the Health and Safety Code, relating to sewer maintenance districts.

The people of the State of California do enact as follows:

SECTION 1. Section 4891 of the Health and Safety Code is amended to read:

4891. The board may levy a tax each year upon the real property in the district sufficient to defray the cost of maintaining, operating, and repairing the sewers in the district, of maintaining the district, and of meeting such other expenditures as are authorized by this chapter. The amount of taxes to be collected from the levy made upon property located within the incorporated area of a city may be paid in whole by the city, if the city elects to make such payment as provided in Section 4892.1.

If a district is divided into zones, the board of supervisors may determine what portion of the amount of money to be secured from the levy of taxes shall be secured from each zone within the district.

SEC. 2. Section 4894 of the Health and Safety Code is amended to read:

4894. Pursuant to a resolution adopted by its board of supervisors, a county may lend any of its available funds to a county sewer maintenance district located wholly within the county for use by the district in emergency situations for the construction, reconstruction, and repair of sewer systems, for replacement of obsolete equipment, or to defray unusual

maintenance costs within the district. Any such loan may be restricted for use in a temporary zone formed under the provisions of Section 4894.1 in a district. The loan shall not exceed 100 percent of the tax levy of the district or zone for the year in which the loan is made.

Any area of a district, or of a temporary zone in a district, which is included in a city by annexation or incorporation after a loan has been made shall continue to be taxed for the repayment of its proportionate part of the unpaid balance of the loan.

If a zone is formed to be responsible for the loan, the board of supervisors shall, in the first fiscal year in which a special tax may be levied in said zone, and in each succeeding year of the duration of the zone, levy a special tax upon the taxable property in the zone for the purpose of repaying the amount lent to the district by the county. When the loan has been repaid, the zone shall terminate.

Tax assessment zones may be formed at a time other than at the formation of the district or any annexation thereto if pursuant to the same procedure of resolution, notice, and hearing as are applicable under this chapter to the annexation of territory.

No district shall be divided into zones unless the board of supervisors finds that a tax assessment zone requires special services or special facilities in addition to those provided generally by the sewer maintenance district or the replacement of obsolete facilities or equipment, and that the tax levy is commensurate with the special benefits to be provided in the zone. The boundaries of tax assessment zones may be changed or a zone may be dissolved in the same manner that a zone may be formed in an existing district.

CHAPTER 6.8. EDUCATIONAL IMPROVEMENT ACT OF 1969

6499.200. This chapter may be cited as the Educational Improvement Act of 1969.

6499.201. It is the intent of the Legislature that the funds provided by this chapter and the funds provided through Title I and Title III of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act of 1965 (Chapter 5.8 (commencing with Section 5770) of Division 6), and Chapter 106 of the Statutes of 1966, First Extraordinary Session, be expended in the most effective way possible, and that cost effectiveness measures be employed in the approval and evaluation of all projects. It is the further intent of the Legislature that all projects be evaluated annually as to the degree of program achievement and cost effectiveness produced; that highly effective projects shall be expended to further use in the district where operated and in other districts; and that less effective projects be replaced with ones of proven effectiveness, or by new projects which hold promise of high effectiveness.

It is the intent of the Legislature that the effectiveness of a project be measured in terms of the objectives of the project, and that each district should be primarily concerned with the pupils' improvement in ability to read, to use and understand the English language, and to use and understand the concepts of mathematics.

The Legislature intends that each project be evaluated annually by the Department of Education to determine and identify its relative effectiveness; that such evaluation shall be assisted by an advisory committee competent to assess the effectiveness of the results of the project, and to make recommendations to the Department of Education and to the State Board of Education on projects to be expanded in use and those that should be modified or replaced to produce greater effectiveness.

6499.203. The State Board of Education shall appoint an advisory committee on program and cost effectiveness to be composed of three public members representing the field of economics, three public members representing the learning sciences, and three public members representing the managerial sciences. The chairman of the committee shall be chosen by the members.

6499.204. The advisory committee on program and cost effectiveness shall (1) advise the Department of Education and the State Board of Education on projects to be approved,

and the administration of Titles I and III of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act of 1965 (Chapter 5.8 (commencing with Section 5770) of Division 6) and Chapter 106 of the Statutes of 1966, First Extraordinary Session, (2) assist in the evaluation of the program achievement of projects, (3) assist in the determination of the relative cost effectiveness of projects, and (4) advise on the projects which should have expanded use and those which should be modified or replaced to produce a higher degree of program achievement and cost effectiveness.

6499.205. Members of the committee shall serve without pay. They shall receive their actual and necessary traveling expenses while on official business.

6499.206. In approving projects under this chapter, or projects under Titles I and III of the Elementary and Secondary Education Act of 1965, the Miller-Unruh Basic Reading Act of 1965 (Chapter 5.8 (commencing with Section 5770) of Division 6), and Chapter 106 of the Statutes of 1966, First Extraordinary Session, the State Board of Education shall give due consideration to the effectiveness of the project and shall not continue in operation any project that, upon evaluation, has been shown to be of low effectiveness, and which has only a limited possibility of improved effectiveness.

6499.207. From moneys provided pursuant to subdivision (h) of Section 17303.5, the Superintendent of Public Instruction shall compute an allowance for each school district which meets each of the following requirements:

(a) The district, during the preceding fiscal year, had an average daily attendance, exclusive of the average daily attendance of adults, as adults are defined by Section 5756, of 500 or more.

(b) The entitlement for the district for funds under Title I of the Elementary and Secondary Education Act of 1965 for the preceding fiscal year for each unit of average daily attendance, exclusive of the average daily attendance of adults, as adults are defined by Section 5756, exceeds 150 percent of the statewide average entitlement.

For the purposes of this section, the average daily attendance of pupils in grades 7 and 8 attending a junior high school maintained by a high school district shall be credited to the high school district.

6499.208. The allowance for each eligible district under Section 6499.207 shall be computed pursuant to the provisions of Sections 6499.209 to 6499.214, inclusive.

6499.209. (a) The Superintendent of Public Instruction shall compute for each eligible district the actual amount of entitlement for the district for funds under Title I of the Elementary and Secondary Education Act of 1965 for the preceding fiscal year, per unit of average daily attendance, exclusive of the average daily attendance of adults, as adults are defined in Section 5756, during the preceding fiscal year.

(b) He shall determine the lowest amount per unit of average daily attendance computed for any district in the state under subdivision (a). This amount shall be assigned the weighting value of 1.00. A weighting value for each other district shall be computed by dividing the amount per unit of average daily attendance computed under subdivision (a) by the lowest amount per unit of average daily attendance computed under this subdivision.

6499.210. (a) The Superintendent of Public Instruction shall determine the current tax rate as defined by Section 17604 for each eligible district, by type of district.

(b) He shall determine the lowest current tax rate in effect for each type of eligible district. Such lowest current tax rates shall be assigned the weighting value of 1.00 respectively.

(c) A weighting value for each other district current tax rate shall be computed by dividing the current tax rate for each district determined under subdivision (a) by the lowest current tax rate for each type of district determined under subdivision (b).

6499.211. (a) The Superintendent of Public Instruction shall determine the average achievement testing scores in terms of state percentiles in elementary school districts for grades 1, 3, and 6 or 8, whichever is the last grade in the particular elementary school within the school district, in high school districts for grade 12, and in unified school districts for grades 1, 3, 6 or 8, whichever is the last grade in the particular elementary school within the school district, and 12, as measured by the 1966–1967 statewide administered achievement tests.

(b) He shall compute the reciprocal value for each district achievement test score determined in subdivision (a).

(c) He shall determine the lowest reciprocal value for achievement test scores under subdivision (b). Such lowest reciprocal value shall be assigned the weighting value of 1.00.

(d) A weighting value for achievement test scores for each other district shall be computed by dividing the reciprocal value for each district determined under subdivision (b) by the lowest reciprocal value for achievement test scores determined under subdivision (c).

6499.212. The Superintendent of Public Instruction shall determine the composite weighting value for each district, by multiplying together the weighting values computed for each district pursuant to Sections 6499.209, 6499.210, and 6499.211.

6499.213. The Superintendent of Public Instruction shall compute for each eligible district a weighted average daily attendance by multiplying the composite weighting value for the district determined in Section 6499.212 by the number of units per average daily attendance, exclusive of the average daily attendance of adults, as adults are defined by Section 5756, of the district.

6499.214. The Superintendent of Public Instruction shall compute the entitlement for each district by dividing the total

of the amount appropriated for the purposes of this chapter by the sum of the weighted units of average daily attendance computed for all districts under Section 6499.213, and multiplying the quotient by the weighted average daily attendance for the district.

6499.215. The governing board of any district for which an allowance was computed under Section 6499.208 may apply to the Superintendent of Public Instruction for an apportionment of a part or all of the allowance computed for the district. The application shall contain a detailed plan or plans for the use of the allowance. The plan or plans shall be submitted in accordance with the provisions of Article 2 (commencing with Section 6456) of Chapter 6.5 of this division. The State Board of Education may adopt rules and regulations relating to the form and content of applications and procedures for review and approval thereof.

6499.216. Under the direction of the Superintendent of Public Instruction, the programs authorized by this chapter shall be administered by the Office of Compensatory Education. The Director of Compensatory Education shall insure that the programs of educational improvement maintained by eligible schools are coordinated with the district's ongoing program of compensatory education and the Miller-Unruh Basic Reading Act of 1965, prescribed in Chapter 5.8 (commencing with Section 5770) of this division.

6499.217. It is the intent of the Legislature that amounts allowed pursuant to this chapter be expended exclusively for purposes of the programs authorized by this chapter. The Department of Education shall, for purposes of this chapter, prescribe a system of accounts and records to be used by school districts participating in programs authorized by this chapter which will clearly reflect the relationship between amounts provided for such purposes and the amounts expended therefor.

6499.218. Applications shall be subject to the approval of the State Board of Education. Upon approval by the State Board of Education, the Superintendent of Public Instruction shall certify an apportionment or apportionments to the Controller in accordance with procedures established by the State Board of Education. The provisions of this section may not be applied if reimbursement allowable under Sections 18251 to 18255, inclusive, is sufficient to meet the total cost of instruction as herein described.

It is the intent of the Legislature that driver training instruction be provided pupils as a part of the high school

curriculum, and the Legislature finds and declares that exceptional children are entitled to the benefit of such instruction so far as their individual capabilities permit, understanding that those pupils herein described often require individualized and amplified driver training instruction in order to succeed in becoming safe operators of motor vehicles. Since without a means of self-transportation much of the overall program of education and rehabilitation provided for by the Legislature would be of little avail to the person without the mobility required to become a productive and well-adjusted member of society, the Legislature further declares that it is incumbent upon the state to share in the cost of providing a most needed and desirable program of driver training instruction for these exceptional children.

17507.6. The governing board of a school district may make application to the Superintendent of Public Instruction requesting a waiver of the provisions of Section 17507.5 whenever the provisions of that section would cause extreme hardship to the district. The Superintendent of Public Instruction may grant such waiver whenever he has determined that the applications of the provisions of Section 17507.5 would unduly burden the district with expense, or would require a pupil to be exposed to hazards or require undue time in reaching the class which he is assigned to attend.
