(c) The provisions of this section shall not be applicable to any officer interested in a contract who influences or attempts to influence another member of the body or board of which he is a member to enter into the contract.

(d) The willful failure of an officer to disclose the fact of his interest in a contract pursuant to this section shall be punishable as provided in Section 1097. 1825. Whenever in the creation or dissolution of a school district, or the change of boundaries thereof, pursuant to any provision of Division 5 of this code, an existing district having outstanding bonded indebtedness is divided between two or more districts, whether or not previously existing, the territory of the district so divided as constituted prior to said division, shall remain liable for the outstanding bonded indebtedness of said district existing at the time of said division, and said territory shall, except as otherwise provided in this section, be liable for taxation for the repayment of principal and interest on said outstanding bonded indebtedness until the same is fully retired.

(a) Whenever in the creation or dissolution of a school district, or the change of boundaries thereof, pursuant to any provision of Division 5 of this code, an existing district having outstanding bonded indebtedness is divided between two or more districts, and as a result of said division, real property and improvements thereon, if any, which are the property of the divided district are transferred to one or more new or existing districts, the county superintendent of schools shall, for each acquiring district, calculate a "bond factor" to be computed as follows:

(1) The county superintendent of schools shall separately appraise the fair market value as of the date the action of division is complete, of all parcels of real property and improvements thereon, if any, which are the property of the divided district on said date, and thereafter compute the total fair market value of all real property and improvements thereon, if any, which are the property of the divided district on the date the action of division is complete, which total shall be the denominator of each "bond factor" computation;

(2) The county superintendent of schools shall then compute the total fair market value as appraised of those parcels of real property and improvements thereon, if any, to be acquired from the divided district by each acquiring district, which total shall be the numerator of the bond factor calculated for each acquiring district.

(b) The county superintendent of schools shall multiply each bond factor computed pursuant to subdivision (a) of this section, by the total principal of bonded indebtedness, and interest thereon to maturity, of the divided district outstanding as of the date the action of division is complete, and shall certify to each acquiring district the amount resulting from the multiplication of the bond factor computed for said acquiring district as herein provided. The amount so certified to each acquiring district shall be designated "use charge."

(c) Beginning the fiscal year in which the aforementioned action or division is effective for all purposes the district acquiring the real property and improvements thereon, if any, as herein provided, shall pay annually to the county superintendent of schools for deposit in a separate fund that portion of the use charge certified as herein provided equal to the amount which would be annually required to pay principal of and interest on that portion of the bonded indebtedness of the divided district outstanding as of the date the action of division is effective for all purposes as represented by the use charge certified as herein annually the amounts deposited in said fund as herein provided for the payment of principal of and interest on the outstanding bonded indebtedness of the divided district. To the extent that said annual payments to the county superintendent of schools are sufficient to pay the principal of and interest on said outstanding bonded indebtedness as the same become due, the territory of the divided district shall not be taxed therefor.

(d) The annual payment required by the provisions of subdivision (c) hereinabove to be made by the acquiring district shall be designated the "use payment". Beginning the fiscal year in which the action of division is effective for all purposes, the county board of supervisors shall, each year, levy a tax upon the territory of the acquiring district in an amount sufficient to enable said district to make the annual use payment as hereinabove provided. Said tax shall be in addition to any other taxes authorized by law or by election.

(e) Notwithstanding any other provision of this code to the contrary, for purposes of State School Building Aid Law, that amount of outstanding bonded indebtedness of the divided district equal to the use charge hereinabove certified shall be considered a liability of the district liable for the use payment for purposes of computing bonding capacity of said district.

(f) When a use charge certified as herein provided has been paid in full, the use payments herein provided shall cease.

(g) If an existing high school district is divided and a unified school district is formed from the territory within such high school district, and such division and formation is effective for all purposes on July 1, 1969, the county superintendent of schools, in computing the bond factor pursuant to subdivision (a) of this section, shall include in the appraisal of real property and improvements an amount equal to the funds of the high school district which are required to be expended for a project pursuant to Chapter 10 (commencing with Section 19551) of Division 14.

No transfer shall be made unless a majority of the members of the governing board sign a statement agreeing to the transfer. Upon completion of the hearing the governing board shall return the petition together with a notice of action of the governing board to the county superintendent of schools.

Provided that once any motor vehicle is equipped with an accredited device it shall not thereafter be deemed in violation of this chapter or Section 27156 of the Vehicle Code because the accreditation of such device is subsequently revoked, suspended or restricted, and replacement parts for such device may continue to be supplied and used for such vehicle, unless such revocation, suspension or restriction is based upon a finding that the accredited device has been found to be defective, in which event such devices must be brought into compliance with this chapter within 30 days after such finding.

Any property remaining unsold after being offered at such public auction may be destroyed or otherwise disposed of by the public agency. In a county having a purchasing agent, the purchasing agent may conduct such sale, in which case the provisions of subdivisions (2) and (3) of this section shall not be applicable. Such sale shall be made by the county purchasing agent in the manner provided by Article 7 (commencing with Section 25500) of Chapter 5 of Part 2 of Division 2 of Title 3 of the Government Code for the sale of surplus personal property. If such property is transferred to the county purchasing agent it may be sold in the manner provided by Article 7 (commencing with Section 25500) of Chapter 5 of Part 2 of Division 2 of Title 3 of the Government Code for the sale of surplus personal property. If the county officer determines that any such property transferred to him for sale is needed for a public use, such property may be retained by the county and need not be sold.

SEC. 5. Section 1418 of the Penal Code is amended to read:

1418. The court may, on application of the party entitled thereto, or an agent designated in writing by the owner, order all such exhibits, other than documentary exhibits, as may be released from the custody of the court without prejudice to the state, delivered to such party at any time after the final determination of the action or proceedings; provided, however, where the action or proceeding has resulted in an order granting probation, such delivery may be made any time after the final determination of an appeal of such order, taken under the provisions of Section 1237, or after the time for such appeal has elapsed. In all cases in which the death penalty has been imposed no such order shall be made until the sentence of death has been carried out. If the party entitled to such exhibits is unknown, or fails to apply for the return of such exhibits, the procedure for their disposition shall be as follows:

Upon receipt of such an order, the clerk of the court shall transfer the property to the county purchasing and stores agency or other proper county agency for sale to the public.

At any time prior to the time fixed for the transfer, the owner or any person entitled to the possession of any of such

exhibits may obtain from the court an order returning them to him.

Articles not returned to their owners or to persons entitled to their possession at or prior to the time set for the transfer shall be sold by the proper receiving agency for cash; said articles shall be sold singly or in combinations. The money received from such sales shall be placed in the general fund of the county.

Where the exhibit consists of money or currency and is unclaimed at the time of the transfer, the clerk shall not transfer it but shall immediately deposit it in the general fund of the county.

No exhibit shall be destroyed pursuant to the provisions of this section, until 60 days after notice of such proposed destruction has been served upon the party entitled to such exhibit by delivery of the notice to such party if his present residence is known, to his attorney of record if such party's present residence is not known, or to such party's last known address if his present residence is not known and he has no attorney of record. However, such notice is not necessary if the party entitled to such exhibit consents to its destruction.

If any property is transferred to the county purchasing agent pursuant to this section it may be sold in the manner provided by Article 7 (commencing with Section 25500) of Chapter 5 of Part 2 of Division 2 of Title 3 of the Government Code for the sale of surplus personal property. If the county purchasing and stores agency or other proper county agency determines that any such property transferred to it for sale is needed for a public use, such property may be retained by the agency and need not be sold.

Such rules and regulations shall be adopted, amended, and repealed in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

Insurance service also includes the selling or giving with a service contract or as a result of membership in or affiliation with a motor club, of a policy of insurance, or a certificate under a master policy in which the club is the master policyholder, covering the club member, or any member of his family, for loss, other than loss of time, from accidental injury

from any cause or accidental death from any cause. For such purpose any certificated motor club is deemed to be an "association" within the meaning of Section 10270.5 and the club members and members of their families are deemed to be members of such association.

SEC. 6. Section 12159 is added to the Insurance Code, to read:

12159. Miscellaneous service means any other service which may be furnished and which augments or is incidental to any service performed by the club as authorized under the provisions of this chapter or any other service which is of assistance and is beneficial to its members and is feasible for the club to render.

SEC. 7. Chapter 2 (commencing with Section 12160) is added to Part 5 of Division 2 of the Insurance Code, to read:

CHAPTER 2. CERTIFICATE OF AUTHORITY

12160. (a) A person shall not render or agree to render motor club service in this state without first obtaining from the commissioner a certificate of authority to act as a motor club.

(b) The issuance, sale, or offer for sale in this state of securities of its own issue by any motor club shall be subject to the provisions of Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1 of this code the same as if motor clubs were included in Section 826 thereof, and any such club shall not be subject to the Corporate Securities Law in the Corporations Code.

(f) It satisfies the commissioner it is qualified as respects each of the subjects enumerated in subdivisions (b), (c), (e), (f), (h), (i), and (j) of Section 717, when the same are read in the sense of protection to its members instead of policyholders.

(g) It is a separate legal entity capable of being examined by the commissioner as provided in this part.

12163. (a) The security required by subdivision (b) of Section 12162 shall thereafter be continuously maintained by a motor club in one of the forms prescribed. Failure of a motor club so to maintain the same shall be cause for revoking its certificate of authority.

(b) Such security shall be for the protection, use, and benefit of all persons whose applications for membership in a motor

(c) Any person defrauded or injured by any wrongful act, misrepresentation, or failure on the part of the club with respect to the selling or rendering of any of its benefits or services may bring suit on the bond, if the security be a bond, in his own name. The commissioner may bring suit on such bond. If the security be a deposit of securities, any such a person or the commissioner may levy upon the same in execution of a judgment.

12164. (a) The commissioner may revoke or suspend the certificate of authority of a motor club whenever, after a hearing in accordance with the procedure provided in Section 701, he finds that any of the following circumstances exist:

1. The club has violated any provision of this part.

2. It or its officers refuse to submit to an examination, as provided for in Section 12169.

3. It is transacting business fraudulently.

4. It is no longer able to qualify for issuance to it of a certificate of authority as a motor club.

(b) The commissioner may give notice of such revocation or suspension to the public in such manner as he deems proper.

(c) All of the provisions of Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 of this code not inconsistent with this part shall apply to motor clubs.

Such fee shall be for annual periods commencing on July 1st of each year and ending on June 30th of each year and shall be due on each March 1st and shall be delinquent on and after each April 1st.

12167. Qualification of a motor club for a certificate of authority under this part does not require prior qualification with the Secretary of State under the Corporations Code for an intrastate business, but the issuance to it of a certificate of authority under this part does not relieve such foreign applicant of any duty to qualify with the Secretary of State pursuant to the Corporations Code before transacting intrastate business in this state.

12168. Annually on or before March 1st of each year, copies of any instruments making any changes in articles of incorporation, bylaws, and membership certificate or identification card or service contract required by this part to be filed with the application for admission shall be filed with the commissioner. In the case of articles of incorporation, an amendment or certificate of amendment shall be certified by the official custodian of the original as a true copy of the same on file in his office. Amended bylaws or other papers shall be certified by the corporation secretary over the corporate seal to be true copies of the same currently adopted. The commissioner shall require the payment of ten dollars ($10) in advance for each such annual filing of amended documents or papers pursuant to this article.

12169. (a) Whenever the commissioner has reasonable cause to believe that a motor club is insolvent or is transacting its business in a fraudulent manner, he may demand from the club a statement under oath setting forth its assets and liabilities. He may, for the purpose of verifying the correctness of such statement, examine the books and affairs of the club.

(b) If such statement is not furnished within 20 days from the time of such demand by the commissioner, or if, upon the examination of such records, the statement furnished or any record examined is found to contain any willful misstatement

of fact, the expense of the examination shall be paid by the motor club.

(c) Whenever any foreign motor club applies for admission, the commissioner may make, or cause to be made by the motor club regulatory authority of its domiciliary state, an examination of the applicant's motor club business and affairs. Whenever such an examination is made, all of the provisions of Article 4 (commencing with Section 730) Chapter 1 of Part 2 of Division 1 of this code not inconsistent with this part shall be applicable.

12170. Motor clubs certificated on the effective date of this chapter shall not be required to be recertificated, but thereafter shall be subject to the provisions of this chapter and shall be issued continuous certificates of authority subject to the conditions provided in this chapter.

Insurance agents and brokers licensed under Chapter 5 (commencing with Section 1621), Part 2, Division 1, need not be licensed to act as motor club agents under this article.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 421 of the Revenue and Taxation Code is repealed.

SEC. 2. Section 421 is added to the Revenue and Taxation Code, to read:

421. For the purposes of this article:

(a) "Agricultural preserve" means an agricultural preserve created pursuant to the California Land Conservation Act of 1965 (Williamson Act) (Chapter 7 (commencing with Section 51200) of Part 1 of Division 1 of Title 5 of the Government Code).

(b) "Contract" means a contract executed pursuant to the California Land Conservation Act.

(c) "Agreement" means an agreement executed pursuant to the California Land Conservation Act prior to the 61st day following the final adjournment of the 1969 Regular Session of the Legislature and which, taken as a whole, provides restrictions, terms, and conditions which are substantially similar or more restrictive than those required by statute for a contract.

(d) "Scenic restriction" means any interest or right in real property acquired by a city or county pursuant to Chapter 12 (commencing with Section 6950) of Division 7 of Title 1 of the Government Code, where the deed or other instrument granting such right or interest imposes restrictions which, through limitation of their future use, will effectively preserve for public use and enjoyment, the character of open spaces and areas as defined in Section 6954 of the Government Code.

A scenic restriction shall be for an initial term of 10 years or more, and shall either:

(1) Provide a method whereby the term may be extended by mutual agreement of the parties, or

(2) Provide that the initial term shall be subject to annual automatic one-year extensions as provided for contracts in Sections 51244, 51244.5, and 51246 of the Government Code, unless notice of nonrenewal is given as provided in Section 51245 of the Government Code.

A scenic restriction may not be terminated prior to the expiration of the initial term, and any extension thereof, except as provided for cancellation of contracts in Sections 51281, 51282, 51283 and 51283.3 of the Government Code, and subject to the provisions therein for payment of the cancellation fee.

(e) "Open-space easement" means an open-space easement granted to a county or city pursuant to Chapter 6.5 (commencing with Section 51050) of Part 1 of Division 1 of Title 5 of the Government Code.

(f) "Open-space land" means any of the following:

(1) Land within an agricultural preserve and subject to a contract or an agreement.

(2) Land subject to a scenic restriction.

(3) Land subject to an open-space easement.

(g) "Typical rotation period" means a period of years during which different crops are grown as part of a plant cultural program. Typical rotation period does not mean the rotation period of timber.

SEC. 3. Section 422 of the Revenue and Taxation Code is repealed.

SEC. 4. Section 422 is added to the Revenue and Taxation Code, to read:

422. For the purposes of this article and within the meaning of Article XXVIII of the State Constitution, "enforceable restriction" is any of the following:

(a) A contract;

(b) An agreement;

(c) A scenic restriction; or

(d) An open-space easement.

For the purposes of this article no restriction upon the use of land other than those enumerated in this section shall be considered to be an enforceable restriction.

SEC. 5. Section 423 of the Revenue and Taxation Code is amended to read:

423. When valuing open-space land subject to an enforceable restriction, other than land used for the production of timber for commercial purposes, the board for purposes of surveys required by Section 1815 of this code and the county assessor shall not consider sales data on lands, whether or not subject to an enforceable restriction, but shall value such lands by the capitalization of income method in the following manner:

(a) The annual income to be capitalized shall be determined as follows:

(1) Where sufficient rental information is available the income shall be the fair rent which can be imputed to the land being valued based upon rent actually received for the land by the owner and upon typical rentals received in the area for similar land in similar use, where the owner pays the property tax. When the land being valued is actually encumbered by a lease, any cash rent or its equivalent considered in determining the fair rent of the land shall be the amount for which the land would be expected to rent were the rental payment to be renegotiated in the light of current conditions including applicable enforceable restrictions.

(2) Where sufficient rental information is not available, the income shall be that which the land being valued reasonably can be expected to yield under prudent management and subject to applicable enforceable restrictions.

For the purposes of this section income shall be determined in accordance with rules and regulations issued by the board and with this section and shall be the difference between revenue and expenditures. Revenue shall be the amount of money

or money's worth, including any cash rent or its equivalent, which the land can be expected to yield to an owner-operator annually on the average from any use of the land permitted under the terms of the enforceable restriction including, but not limited to, that from the production of salt and from typical crops grown in the area during a typical rotation period, not to exceed six years including the tax year and the next succeeding five years. When the land is planted to fruit-bearing or nut-bearing trees, vines, bushes or perennial plants, the revenue shall not be less than the land would be expected to yield to an owner-operator from other typical crops grown in the area during a typical rotation period, not to exceed six years including the tax year and the next succeeding five years. Proceeds from the sale of the land being valued shall not be included in the revenue from the land.

Expenditures shall be any outlay or average annual allocation of money or money's worth that can be fairly charged against the revenue expected to be received during the period used in computing such revenue. Those expenditures to be charged against revenue shall be only those which are ordinary and necessary in the production and maintenance of the revenue for that period. Expenditures shall not include depletion charges, debt retirement, interest on funds invested in the land, interest on funds invested in trees and vines valued as land as provided by Section 429, property taxes, corporation income taxes, or corporation franchise taxes based on income. When the income used is from operating the land being valued or from operating comparable land, amounts shall be excluded from the income to provide a fair return on capital investment in operating assets other than the land, to amortize depreciable property, and to fairly compensate the owner-operator for his operating and managing services.

Where the land being valued is not capable of producing income or is not used to produce income or where sufficient information is not available by which income can be determined as provided in this subdivision, the board and the assessor shall impute to the land a reasonable amount to be capitalized as income.

(b) The capitalization rate to be used in valuing land pursuant to this article shall not be derived from sales data and shall be the sum of three components:

(1) An interest component to be determined by the board and announced no later than September 1 of the year preceding the assessment year and which was the yield rate for long-term United States government bonds, as most recently published by the Federal Reserve Board, rounded to the nearest one-quarter ($\frac{1}{4}$) percent.

(2) A risk component which shall be a percentage determined on the basis of the location and characteristics of the land, the crops to be grown thereon and the provisions of any lease or rental agreement to which the land is subject; and

(3) A component for property taxes which shall be a percentage equal to the estimated total tax rate applicable to the land for the assessment year times the assessment ratio.

(c) The value of the land shall be the quotient of the income determined as provided in subdivision (a) divided by the capitalization rate determined as provided in subdivision (b).

(d) The ratio prescribed in Section 401 shall be applied to the value of the land determined in subdivision (c) to obtain its assessed value.

SEC. 5.5. Section 423.5 is added to the Revenue and Taxation Code, to read:

423.5. When valuing open-space land subject to an enforceable restriction and used for the production of timber for commercial purposes, the board, for purposes of surveys required by Section 1815, and the county assessor shall not consider sales data on lands, whether or not subject to an enforceable restriction, but shall determine the value of such timberland to be the present worth of the income which the future harvest of timber crops from the land can reasonably be expected to yield. The value of timberland pursuant to this section shall be determined in accordance with rules and regulations issued by the board. In determining the value of timberland pursuant to this section, the board and the county assessor shall use the capitalization rate derived pursuant to subdivision (b) of Section 423. The ratio prescribed in Section 401 shall be applied to the value of the land determined in accordance with this section to obtain its assessed value.

Where the land being valued is not capable of producing income or is not used to produce income or where sufficient information is not available by which income can be determined as provided in this section the board and the assessor shall impute to the land a reasonable amount to be considered as income for the purposes of this section.

SEC. 6. Section 427 is added to the Revenue and Taxation Code, to read:

427. Nothing in this article shall prevent the board or the assessor, in valuing open-space land for assessment purposes from taking into consideration the existence of any mines, minerals and quarries in or upon the land being valued, including, but not limited to oil, gas, and other hydrocarbon substances.

SEC. 7. Section 428 is added to the Revenue and Taxation Code, to read:

428. The provisions of this article shall not apply to any residence on the land being valued or to an area of reasonable size used as a site for such residence.

SEC. 8. Section 429 is added to the Revenue and Taxation Code, to read:

429. Notwithstanding the provisions of Section 105(b) of this code, in valuing land subject to an enforceable restriction pursuant to this article, fruit-bearing or nut-bearing trees and vines on the land and not exempt from taxation shall be valued

as land. Any income shall include that which can be expected to be derived from such trees and vines and no other value shall be given such trees and vines for the purpose of assessment.

SEC. 9. (a) Except as provided in subdivision (b), the provisions of this act shall be operative on and after the lien date in 1970.

(b) The interest component described in paragraph (1) of subdivision (b) of Section 423 of the Revenue and Taxation Code shall be announced for 1969 only on the first day of September, 1969, or on the 61st day following final adjournment of the 1969 Regular Session of the Legislature, whichever occurs later.

14104. (a) The department shall, to the extent feasible, contract with one or more carriers to provide or arrange services through health benefits plans.

(b) The department shall, to the extent feasible, enter into nonexclusive contracts providing arrangements under which funds available for health care under this chapter shall be administered and disbursed to providers of health care or to their designated agents in consideration for services rendered and supplies furnished by them in accordance with the provisions of the applicable contract and any schedule of charges or formula for determining payments established pursuant to such contract. Payment for services to hospitals and other facilities and professional services shall be predicated on the basis of reimbursement for reasonable cost based on standards, determined by the director with the advice of the Health Review and Program Council. The formula for such payments

shall be determined in accordance with regulations establishing the methods to be used and the items to be included. In prescribing such regulations, the department shall consider, among other things, the principles generally applied by state organizations representing such hospitals or other facilities or by established prepayment organizations which have developed such principles, in determining the method or methods to be used in arriving at the payment formula.

(c) Each such contract shall provide that the carrier:

1. Will take such action as may be necessary to assure that, where payment under this chapter for a service is on a cost basis, the cost is reasonable, as referred to in subdivision (b) of Section 14104.

2. Will take such action as may be necessary to assure that where payment under this chapter is on a charge basis, such charge will be reasonable and not higher than the charge applicable for a comparable service and under comparable circumstances to the policyholders and subscribers of the carrier, and such payment will be made on the basis of a receipted bill, or on the basis of an assignment under the terms of which the reasonable charge is the full charge for the service.

3. Will, in the case of a contract with a carrier which, under contracts not affected by this chapter, limits the availability of services to a defined geographical area or areas, provide that the carrier will pay for necessary services furnished to any person who is covered by such contract and who receives such services outside such area or areas.

4. Will furnish to the director such timely information and reports as he may find necessary in performing his functions under this chapter.

5. Will maintain such records and afford such access thereto as the director finds necessary to assure the correctness and verification of the information and reports which may be required under paragraph (c)3 of this section.

6. Will make payment under this chapter promptly and in any event within 30 days from receipt by the carrier of proper evidence establishing the validity of the claim for payment.

In determining the reasonable charge for a physician's services, there shall be taken into consideration the customary charge for similar services generally made by the physician, as well as the prevailing charges in the locality for similar services.

(d) Each such contract shall provide that the carrier or plan will not charge to any family person or adult defined in Article 2 (commencing with Section 14050) of this chapter, part or all of any enrollment fee, extra charges, or premiums for care provided under this chapter.

(e) Each such contract shall provide that the carrier or plan will agree to provide such services as defined by the

department without reference to the race, religion, creed, color, national origin or ancestry, or age of any person eligible under the provisions of this chapter.

(f) Consistent with the efficient and economical administration of this chapter, at least one arrangement available to all recipients and medically indigent persons shall afford free choice among physicians, pharmacists, and pharmacies willing to provide services under the terms of a contract entered into pursuant to this section.

(g) In the consideration of proposals for contracts with carriers under this chapter, the department shall, for comparative purposes, deduct from the total cost proposed by any carrier the amount of tax which that carrier would be required to pay under Part 7 (commencing with Section 12001) of Division 2 of the Revenue and Taxation Code computed on the basis of the net rate of tax, after deductions, which would have applied to such carrier for the preceding calendar year, had the amount of anticipated premium under the proposed contract been added to its taxable premiums for such year.

Contracts awarded to carriers under this section shall be awarded on a bid basis, and before entering into a contract with any carrier, the director shall publish notice soliciting bids from carriers.

The director, at least once each year, shall report to the Joint Legislative Budget Committee actions taken by him in the awarding of contracts under this section, including, but not limited to, the number and types of bids submitted, the basis on which contracts were awarded, and, if a contract is awarded to other than the lowest bidder, the reason for such action.

(h) In entering into contracts under this section, or subdivision (e) or subdivision (f) of Section 14000, the department may provide that the extent of benefit coverage by the carrier may be limited to a fixed number of days, or amount, or duration of services. The contract may provide that the carrier shall continue to administer the benefits provided beyond the applicable limitation, with the state paying for such extended coverage on the basis of reasonable costs or charges.

The intent of the Legislature in enacting this subdivision is to authorize a limitation on the liability of a carrier in catastrophic or extended-care situations.

CHAPTER 881

The people of the State of California do enact as follows:

SECTION 1. Section 4806.5 is added to the Health and Safety Code, to read:

4806.5. As an alternative method of issuing bonds the district board may, after the approval and adoption of an engineer's report for a portion of the district, if it deems it necessary to incur a bonded indebtedness to obtain funds with which to acquire the property and do the work set forth in the report, by resolution so declare and state: (a) the general objects and purposes for which the proposed debt is to be incurred, including, but not limited to, the acquisition or construction or reconstruction of new local street sewers or laterals as distinguished from main trunk, interceptor and outfall sewers; (b) the amount of debt to be incurred; (c) that the district board intends to form an improvement district of that portion of the district which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the board, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the district for said improvement district; (d) that taxes for the payment of such bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in the improvement district; (e) that special rates or charges to finance the construction, reconstruction, maintenance, or operation of the improvement may be collected within the improvement district where, in the judgment of the board, the improvement will not be of districtwide benefit; (f) that the engineer's report, together with a map showing the exterior boundaries of such proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement, are on file with the district board and are available for inspection by any person interested; (g) the time and place for a hearing by the board on the questions of the formation of such proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (h) that at the time and place specified in the resolution any person interested, including all persons owning property in the district or in the proposed improvement district, will be heard.

This section shall only be applicable to a district within a county of the 15th class as defined in Section 28036 of the Government Code and Section 4806 shall not be applicable to a district within a county of the 15th class.

SEC. 2. Section 4808.5 is added to the Health and Safety Code, to read:

4808.5. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the district board

shall proceed with the hearing. At the hearing any person interested, including any person owning property within the district or within the proposed improvement district, may appear and protest the inclusion of his property within the proposed improvement district or present any other matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness, or do both.

The district board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of the proposed improvement district, or one or all of such matters; provided, however, that the board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by such improvement; and provided further, that the board shall exclude from the proposed improvement district any territory which it finds will not be benefited by inclusion therein. If the district board proposes to change the purposes for which the proposed debt is to be incurred, it shall cause appropriate changes to be made in the report before giving notice of such change. The purpose, amount of bonded debt and boundaries shall not be changed by the board except after notice of its intention to do so, given pursuant to Section 6061 of the Government Code in a newspaper having general circulation in such county sanitation district, and by posting in three public places within such proposed improvement district. Such notice shall state the changed purpose and debt proposed and that the engineer's report as changed by the board, together with a map showing exterior boundaries as proposed to be changed, are on file with the district board and are available for inspection by any person interested, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of such notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall continue with the hearing. At the hearing any person interested, including any person owning property within the district or the proposed improvement district, may appear and present any matters material to the changes stated in the notice.

At the conclusion of the hearing, the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which such proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the district board, which map shall govern for all details as to the extent of the improvement district, and that such portion of the district set forth on such map shall thereupon constitute and be known as "Improvement District No. __ of _____ (name of county sanitation district)," and the determination made in such resolution shall

be final and conclusive. After the formation of such improvement district within a county sanitation district, all proceedings for the purpose of a bond election shall be limited and shall apply only to the improvement district, and taxes for the payment of such bonds and the interest thereon shall be derived exclusively from an annual tax upon the real property in the improvement district.

This section shall only be applicable to a district within a county of the 15th class as defined in Section 28036 of the Government Code and Section 4808 shall not be applicable to a district within a county of the 15th class.

SECTION 1. Chapter 4 (commencing with Section 13801) of Division 10 of the Education Code is repealed.

SEC. 2. Chapter 4 (commencing with Section 13801) is added to Division 10 of the Education Code, to read:

CHAPTER 4. STATE TEACHERS' RETIREMENT SYSTEM

Article 1. General Provisions

13801. This chapter shall be known and may be cited as the State Teachers' Retirement Law.

13802. In order to provide a financially sound plan for the retirement, with adequate retirement allowances, of teachers in the public schools of this state, teachers in schools supported by this state, and other persons employed in connection with the schools, the State Teachers' Retirement System is established. The system is a unit of the Agriculture and Services Agency.

13804. In establishing this system, the Legislature recognizes that the California State Teachers' Retirement System superseded by this system was actuarially unsound, and that the assets of that system, are insufficient to meet the obligations of that system already accrued or to accrue in the future in respect to service credited to members of that system and rendered prior to the establishment of this system on July 1, 1944.

Therefore, the Legislature declares the following policies in respect to the financing of the State Teachers' Retirement System:

(a) All benefits in respect to service rendered after July 1, 1944, shall be provided approximately equally from members' contributions and public contributions. Public contributions consist of contributions by the state and contributions by school districts and employing agencies.

(b) All benefits in respect to service rendered prior to July 1, 1944, which cannot be met from the assets of the California Teachers' Retirement System shall be provided from contributions by the state.

13805. The costs of administration of the State Teachers' Retirement System shall be provided in the following manner:

(a) Fifty percent of the total annual costs of administration shall be met from contributions by the state.

(b) Twenty-five percent of the total annual costs of administration shall be paid from interest income earned by the Teachers' Retirement Fund. The total to be paid from such interest income in any fiscal year shall not exceed a sum equivalent to ten-hundredths (0.10) of 1 percent of the book value of the fund's investments on June 30th of the preceding fiscal year.

(c) Twenty-five percent of the total annual costs of administration shall be paid from that portion of the employer's semiannual contributions exceeding six dollars ($6) per member provided under Section 14101.

Beginning on July 1, 1973, the costs of administration of the system shall be met entirely by contributions by the state.

13806. The total of the costs of administration during any fiscal period may not exceed the amount made available by law for such costs during the fiscal period.

13807. The right of a person to a pension, retirement allowance, return of contributions, any optional benefit, or any other right accrued or accruing to any person under this chapter is exempt from taxation, including any inheritance tax, whether state, county, municipal, or district.

13808. The right of a person to an annuity, a retirement salary, or a retirement allowance, to the return of contributions, the annuity, retirement salary, or retirement allowance itself, any optional benefit, any other right or benefit accrued or accruing to any person under this chapter, and the moneys in the fund created under this chapter are not subject to execution, garnishment, attachment, or any other process whatsoever, and are unassignable except as specifically provided in this chapter.

13810. The obligations of any member of this system to this system continue throughout his membership, and thereafter until all of the obligations of this system to or in respect to him have been discharged.

13811. For the purposes of payments into or out of the Retirement Fund for adjustments of errors or omissions, the period of limitation of actions otherwise applicable shall not commence to run until the error or omission is discovered, as evidenced by the filing with this system of a claim or demand against this system or by the making of a claim or order for payment by this system against the former member, retirant, or his beneficiary.

13812. When the compensation of a member is a factor in any computation to be made under this chapter, including but not limited to computation of members' and school districts' or other employing agencies' contributions to the Retirement Annuity Fund and excluding computation of compensation earnable during time prior to July 1, 1956, there shall be excluded from such computations any compensation based on overtime put in by a member.

13813. The nonsubstantive revision of the State Teachers' Retirement Law, including this section, enacted at the 1969 Regular Session of the Legislature shall not be construed to effect any substantive changes in the law and in case of doubt as to any provision, such provision as it read on November 13, 1968 shall govern.

Article 2. Definitions

13820. Unless the context otherwise requires, the definitions set forth in this article govern the construction of this chapter.

13821. "Accumulated annuity contributions" means the sum of all the annuity contributions standing to the credit of the member's account, together with interest credited thereon.

13824. "Actuarial equivalent" means a benefit of equal value when computed upon the basis of such tables and interest rates as are adopted by the board. The ages of members and beneficiaries shall be taken to the next lower completed quarter year in the determination of the actuarial equivalent.

13825. "Annuity" means payments for life derived from the "accumulated annuity deposits" or from the "accumulated annuity contributions" of a member and contributions of the state, or both. "Annuity" also means payments for life derived from "Permanent Fund contributions" of a member, plus credited interest.

13826. "Annuity contributions" means members' contributions to the Retirement Annuity Fund.

13827. "Annuity deposits" means contributions to the Annuity Deposit Fund.

13828. "Beneficiary" means any person receiving a retirement salary, an annuity, a retirement allowance, or other benefit.

13829. "Board" means the Teachers' Retirement Board.

13831. "Compensation earnable" by a member means the compensation as determined by the board which would have been earned by the member if he were engaged in his duties on a full-time basis.

The computation for any absence of a member shall be based on the compensation earnable by him at the beginning of the absence and that for time prior to becoming a member shall be based on the compensation earnable by him in the position first held by him as a member.

For part-time service, "compensation earnable" means the compensation which would be earnable if the employment were on a full-time basis and the member worked full time.

13832. "Compensation" and "salary" mean remuneration in cash payable by the employer to the member, plus any payments in cash by the employer to one other than the member for the purpose of purchasing an annuity contract for the member under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of the United States.

"Death benefit" with respect to a local system, when applied to benefits thereunder which are analogous to benefits included in the meaning herein stated with respect to this system, has the same general meaning as if applied under this system.

The "death benefit" provided in the Old Age, Survivors and Disability Insurance program under the Federal Social Security Act, is considered as provided from the member's contributions.

13834.1. "Dependent widower" means a member's widower who was receiving at least one-half of his support from the member at the time of the member's death.

13835. "Disability," "disabled" or "incapacitated" means, with respect to qualification for a survivor allowance, inability to engage in any substantial gainful occupation by reason of any physical or mental impairment which is determined on the basis of competent medical opinion secured by the board, to be of permanent or extended and uncertain duration.

For the purposes of this section, periods of service separated by breaks in service may be aggregated to constitute a period

of three consecutive years, if the periods of service are consecutive except for such breaks.

If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time is included in computation of final compensation.

If a break in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months are included in computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in computation of final compensation.

With respect to members whose retirements are effective after June 30, 1956, two or more breaks in service which are separated by periods of service each of which does not exceed one-half year of credited service, shall be added together, and for the purpose of this section, the total shall be considered as one break. Time during which a member is in state service or in the employment of a local school district or of a county superintendent and is also a member of another retirement system to which the state, a county, or the university contributes shall not be considered to be an absence for the purposes of this section, and the determination of the final compensation of such a member shall take into consideration his compensation earnable while he was a member of such other system.

Retirement allowances, heretofore effective and based on such final compensation, are hereby validated and confirmed.

The board may specify a different final compensation with respect to benefits based on part-time service rendered prior to July 1, 1956, for which credit was given under this system under board rules in effect prior to such date.

13841. "Maintaining" or "operating" a local system includes "supporting," "contributing to," or "contributes to the support of" such a system.

13842. "Member" means any person included in the membership of the system.

13843. "Month" means 20 days or four weeks of five days each, including legal holidays, with respect to the computation and crediting of service.

13844.5. "Part-time basis with respect to service" means a basis of service which is for less time than is required of persons serving on a full-time-day basis even though the employee may be subject to call at any time.

13853. "Time" or "service" with respect to a local system shall include periods of time and service rendered therein, compensation earned during which was a basis for tax paid for the support of the Old Age, Survivors, Disability and Health Insurance program under the Federal Social Security Act, regardless of whether such compensation was included in the calculation of benefits to which the person earning such compensation became entitled.

13873. The board may appoint a committee of two or more of its members to perform any act within the power of the board itself to perform. The board may also delegate authority to the chief executive officer to perform any such act. Except where the board, in delegating such authority, provides that the committee or the chief executive officer may act finally, all acts of the committee or the chief executive officer shall be reported to the board at its next regular meeting

and shall be subject to review, ratification or reversal by the board.

13874. The chief executive officer has the authority and responsibility for the administration of the system pursuant to the policies and rules adopted by the board. 13880. The board shall regulate the duties of employing agencies and other public authorities, imposed upon them by this chapter, and shall require reports from the employing agencies and authorities as it deems advisable in connection with the performance of its duties.

13881. Reversal by the board of any act of the committee or the chief executive officer shall be effective on the date fixed by the board.

Payment of benefits prior to the board's action of reversal may not be affected by such action, except for such recovery of the amounts paid, from the beneficiary receiving the amounts, as the board may direct.

13882. The board shall subpoena witnesses and compel their attendance to testify before it.

13883. The board shall determine the service rendered by members to be credited toward qualification for retirement, and shall fix retirement allowances and modify the allowances.

(a) Permit valuation of the assets and liabilities of the system.

(b) Make any determination or calculation necessary to carry out the provisions of this chapter.

13885. The board may take such action as it deems necessary to insure the continued right of retirants, or beneficiaries of members or retirants, to receive monthly payments.

Such action may be in the form of properly witnessed affidavits or receipts from persons receiving the payments.

13886. The board may hold a hearing for the purpose of determining any question presented to it involving any right, benefit or obligation of a person under this chapter.

When a hearing is held, the proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, relating to administrative adjudication and the board shall have all of the powers granted therein. The provisions of Section 11508 of the Government Code relating to the location of the hearing shall not apply however and the hearing shall be held at such time and place as may be determined by the board.

13888. Any applicant may file an application for rehearing of any application within 30 days after written notice of the determination by the board has been sent by registered mail to the applicant or his attorney of record, upon any of the following grounds:

(a) That the board acted without and in excess of its powers.

(b) That the order, decision, or award was procured by fraud.

(c) That the evidence does not justify the determination of the board.

(d) That the applicant has discovered new evidence material to him which he could not, with reasonable diligence, have discovered or procured at the hearing.

13889. The determination of the board on any application for rehearing shall be made within 180 days after the filing thereof, or the application is denied. The determination is final and conclusive and the board has no jurisdiction to entertain any subsequent application regarding the same matter.

13890. The board shall file annually with the Governor and with the Senate and Assembly a report on all phases of its work which could affect the need for public contributions for costs of administration of the system, including the subjects of benefits, programs, practices, procedures, and any comments on trends and developments in the field of retirement.

Such report shall be filed with the Governor at least 30 days prior to the first day of each regular session of the Legislature and shall be filed with the Senate and Assembly within the first five days of each regular session.

13891. In addition to other records and accounts, the board shall keep such records and accounts as are necessary to show at any time:

13892. Data filed by any member or beneficiary with the board is confidential. No official or employee who has access to the individual records shall divulge any information concerning such records to any person other than the member to whom the information relates or his authorized representative, the governing board of the school district or agency by which he is employed, or any state department or agency. They shall be used by the board for the sole purpose of carrying into effect the provisions of this chapter.

The information is not open to inspection by anyone except the board and its officers and employees, and any person authorized by the Legislature to make inspections.

13893. The board shall annually review the proposed budget of the costs of administration for the following fiscal year, and, on the basis of such budgeted amounts and the estimated prospective number of persons to be employed as members of the system during the next fiscal year, determine the total amount required as employer contributions for administrative expenses and the additional per-member contribution required from each employer.

The board shall make the determination on or before April 30th, and shall on or before May 15th notify all county superintendents regarding the rate determined for the following fiscal year.

If the total contributions collected under such a determination is found to be greater or less than were necessary to meet 25 percent of the total administrative costs of a given fiscal year, the board shall take such difference into consideration in its determination of the total contribution required in subsequent years.

This section shall cease to be operative on June 30, 1973.

13894. The board has exclusive control of the investment of the Teachers' Retirement Fund, including the purchase of securities and the sale thereof. Investments shall be confined to securities approved in this state for the investment of funds of savings banks.

13895. Investments may also be made in bonds issued pursuant to the Improvement Bond Act of 1915. The amount of principal and interest payable in any year on the issue of such bonds may not exceed an amount equal to an ad valorem tax on all property taxable by the public agency which authorized the issuance of such bonds, at a rate not exceeding ten cents ($0.10) for each one hundred dollars ($100) of assessed value, computed as of the date of such investment.

13896. The board has exclusive control of the administration of the funds. No transfers or disbursements of any amount from the funds shall be made except upon the authorization of the board for the purpose of carrying into effect the provisions of this chapter.

13899. The board shall keep in convenient form such data as is necessary for the actuarial valuation of the system.

In not to exceed six-year periods, the board shall make an actuarial investigation into the mortality, service, and other experience of members and beneficiaries and shall make an actuarial valuation of the assets and liabilities of the system. From time to time, the board shall determine the rates of interest being earned on the several funds. Upon the basis of any or all of such investigation, valuation, and determination, the board shall adopt for the system such interest rates, rates of contribution to the Retirement Annuity Fund, mortality, service, and other tables as are deemed necessary.

13900. No adjustment shall be included in new rates of annuity contribution adopted by the board on the basis of such investigation, valuation, and determination or because of amendment to the Teachers' Retirement Law, for time prior to the effective date of the adoption or amendment, as the case may be.

No action of the board, other than correction of errors in calculating the annuity at the time of retirement, shall change the annuity payable to a retirant retired prior to the date the action is taken.

Article 4. Establishment and Control of Funds

13910. There is in the State Treasury a Teachers' Retirement Fund. The fund shall contain all the assets held in the State Treasury for the system, or which were held by its predecessors, or the funds under the control of such predecessors.

13911. Wherever in this chapter authority is granted to disburse funds from, or to make payments to, the Teachers' Permanent Fund, the Retirement Annuity Fund, or the Teachers' Annuity Fund, such authority also extends to the Teachers' Retirement Fund.

13912. The Teachers' Retirement Fund also includes donations, legacies, gifts, and bequests made to it and accepted by the board and any appropriations made to it by the Legislature in addition to amounts provided in this chapter.

13913. Disbursements of money under the system, of whatever nature, shall be made upon claims duly audited in the manner prescribed for the disbursement of other public funds.

13914. Money, except interest and other income from investments, in whatever form, received by the State Treasurer for the fund, shall be reported forthwith by him to the board, and the money together with money received directly by the board shall be deposited forthwith by the board in the State Treasury to the credit of the fund.

13915. Interest, and other income derived from securities shall be collected by the State Treasurer, deposited to the credit of the fund, and reported forthwith to the board.

13917. The board shall credit contributions of the members of the retirement system to the Retirement Annuity Fund, the Annuity Deposit Fund, and to the Permanent Fund on account of service rendered after July 1, 1944, and to other accumulated reserves, with interest at a rate or rates to be declared annually by the board.

13918. Earned interest not credited to accounts or applied to costs of administration shall remain in the funds as a reserve against deficiencies in interest earned in other years, losses under investments, and other contingencies.

13919. The board may apply to reduce the book value of securities purchased, all or part of the excess of the proceeds of the sale or redemption prior to maturity of securities over the book value of the securities sold or redeemed provided the purchase of securities is made with such proceeds and provided that the terms of both securities from the date of sale, redemption, or purchase, as the case may be, to the respective dates of maturity, do not differ by more than five years. All such applications of excess of sales or redemption proceeds, even with greater difference in terms, heretofore made by the board are hereby validated and confirmed.

Article 5. Information as to Status

13930. Each member and beneficiary shall furnish to the board such information affecting his status as a member or beneficiary of the system, as the board requires.

13931. Each member shall file a statement with the board, at the option of, and upon the form furnished by, the board, giving:

(c) The beneficiaries under the system to receive any benefits, payable upon the death of the member or beneficiary.

13932. Each county superintendent shall give immediate notice in writing to the board of the employment, death, resignation, or discharge of any person employed in a status requisite to membership in the system, by the county or by a school district in the county.

Every other employing agency shall give similar notice with respect to each person employed by it in a status requisite to membership in the system.

13933. The county superintendent and other employing agencies shall furnish such further information concerning any member or beneficiary as the board may require.

13934. The county superintendent or other employing agency shall withhold the salary of any member who fails to file information required by the board in the administration of the system, or to pay amounts due from the members to the system.

The salary shall be withheld by the county superintendent or employing agency upon his own knowledge, if any, of the failure or upon notice from the board of the failure of the teacher to file or pay.

The salary shall be withheld and not released until notice is given by the board to the county superintendent or employing agency, or until the county superintendent or agency knows otherwise, that the information has been filed or the payment has been made.

13940. All persons who were members of the California State Teachers' Retirement System on June 30, 1944, including persons who are members of a local system, are members of the system.

13941. All teachers employed in the public schools of this state who have not claimed exemption, as provided by law, are members of the system.

13942. All teachers employed in the public schools of this state who claimed exemption but who have elected not to be exempt, are members of the system.

13943. Certificated librarians in elementary, secondary schools, or junior colleges, or persons who serve partly as librarians and partly as teachers, are members of the system.

13944. All other employees in the public schools of this state who hold valid and unrevoked credentials issued by the State Board of Education, and who are employed for at least 50 percent of each school month in work authorized by their credentials, are members of the system.

13945. A regularly credentialed teacher who is a former member of the system and who is employed only as an instructor in classes organized under the Economic Opportunity Act of 1964 may elect, with the approval of the governing board of the school district employing such teacher, to be a member of the system.

13946. Any person who is a member of the system because of employment to perform duties which are requisite for membership, and who subsequently is employed by the same or a different school district or by a county superintendent, to perform duties which are not so requisite but instead are requisite for membership in a different public retirement system in this state, and enters upon such duties not so requisite,

shall continue to be a member of the system with respect to the latter duties, unless he elects by a writing filed in the office of the board, within 90 days after such entry, not to continue as a member with respect to his new duties.

Continuance of his membership in this system, of any person so employed prior to June 26, 1961, is hereby ratified, validated and confirmed, and for all purposes he shall be considered as having been a member without interruption as far as the employment is concerned, and with respect to the duties not so requisite, unless such person elects within 90 days after the date upon which notice of such right to elect, is mailed by this system to the member's latest address on file in the office of this system, not to be a member of the system with respect to the duties which are not so requisite.

13947. Persons employed in the public schools or in county superintendents' offices of this state to perform duties usually performed by counselors, coordinators, and research directors, are members of the system.

13948. Persons who are members on account of previous school employments as provided by this chapter and who are employed by the state to render service of an educational nature in the State Department of Education, or as Superintendent of Public Instruction, or as a deputy or associate superintendent of public instruction, are members of the system, unless they elect by a writing filed in the office of the board within 90 days after such employment not to be a member.

13949. All persons who were members of the system on account of employment by the state in positions where they had the right to elect membership in this system or another system, and who elected membership in this system are members of this system while employed in positions which were subject to this system prior to October 1, 1959.

13950. Superintendents, their deputies, and certificated employees under the direction of county superintendents are members of the system.

13951. Any person who has been a member for 30 years by reason of any previous employment as provided by this chapter, and who leaves such employment to accept an exempt position in the executive or legislative branch of state government is a member of the system while he occupies such an exempt position unless he elects not to be a member by a writing filed in the office of the board within 90 days after employment in such exempt position.

13959. If a member is retired, or if his contributions are refunded to him upon termination of service, he shall cease to be a member.

For the purposes of this section, deposit in the United States mail of a warrant drawn in favor of a member, as refund of his contribution, and addressed to the latest address of the member on file in the office of this system, constitutes

payment to the member of the amount for which the warrant is drawn.

Article 7. Exclusion From Membership

13960. Any person who shows to the satisfaction of the board, that he will be unable, by reason of the nature of his services, to become eligible for benefits thereunder is excluded from membership in the system.

13961. Persons employed in a status which is requisite for membership, but who are members of a county retirement system are excluded from membership in the system. A member so excluded shall not be considered to have terminated his membership or right to a retirement allowance based on time served as a member unless he withdraws his contributions as provided in Section 14070.

13962. Persons serving as exchange teachers or sojourn teachers from outside of this state are excluded from membership in the system.

13963. Persons employed on a substitute basis, who are not already members when they become employed and who render less than 100 complete days of service during the school year are excluded from membership in the system.

If, at the end of a pay period, a substitute teacher has rendered 100 or more complete days of substitute service in that school year and subsequently renders one or more complete days of such service in that school year, he shall become a member on the first day of the pay period during which such additional service was rendered.

13964. Persons not already members who are employed on a part-time basis and who will render less than 24 hours of service per pay period, or persons who will serve less than four days per pay period on a daily basis are excluded from membership in the system.

13965. Persons not already members who are employed as instructors of adult education classes which have a duration of less than one school semester, or less than one school quarter of 12 weeks if the district operates its adult education program on that basis are excluded from membership in the system.

13966. Persons not already members who are employed as part-time teachers and who are concurrently employed in full-time positions as members of another retirement system, other than a local system or a system administered and supported by the United States government, supported wholly or in part by public funds are excluded from membership in the system.

13967. Persons not already members employed in the public schools only as an instructor in classes organized under the Manpower Development and Training Act of 1962, the Economic Opportunity Act of 1964, the Adult Education Act of 1966, or Section 11300 or Section 13650 of the Welfare and Institutions Code are excluded from membership.

This section shall not be construed to apply to any regularly credentialed teacher who has been employed to teach in the regular educational programs of the school district as a probationary or permanent employee before being subsequently assigned to any one of these programs.

13968. Persons not already members who are employed for less than full time in positions requiring health and development credentials, or a standard credential in designated services for health are excluded from membership in the system.

13968.5. For the purposes of Sections 13960 to 13968, inclusive, a pay period may be not less than four weeks or more than one calendar month.

13969. Any person who is a member of the Public Employees' Retirement System and who subsequently is employed in a status requisite for membership in this system is excluded from membership if he elects, by a writing filed in the office of Board of Administration of the Public Employees' Retirement System, within 90 days after such entry, to continue as a member of the Public Employees' Retirement System with respect to his new duties.

13970. A person employed as a teacher-assistant under the provisions of Section 13340 is excluded from membership in the system.

13971. Nothing in this article shall be construed or applied to exclude from membership in this system any member who enters a status requisite for membership in this system in which status he has the right to elect membership in this or another retirement system and who elects membership in the other retirement system, or who enters a status which is not requisite for membership in this system, but time served in which is included in this chapter.

Time served after becoming a member of the other system shall not be credited to the member under this system, nor shall contributions or benefits under this system be based upon such time or the salary received by the member during such time, except as provided in the definition of "final compensation" contained in Section 13838.

A member shall not be required to render two years of service in a status requisite for membership in this system before making application for retirement.

This section shall be retroactively applied to continue the membership in this system of any such member whose contributions have not been refunded to him.

Article 8. Computation of Allowable Service Credit

13980. This article governs the computation of service to be credited to a member for the purpose of determining whether the member qualifies for retirement, the amount of contributions required of the member, and the amount of benefits paid to a retirant.

13981. Service rendered prior to July 1, 1968, shall be credited according to the provisions of this chapter which were applicable prior to such date or in a manner prescribed by the board.

Service rendered on or after July 1, 1968, by a member shall be credited in the proportion the compensation paid bears to the compensation the member would have received if he had been employed on a full-time day basis in the particular position in which he is employed throughout the school term, school year, or for a period of service at least the equivalent to a school term, subject to the provision that he shall be credited with a full year if the compensation paid is at least ten-twelfths of the full-time earnable compensation, with comparable and equitable adjustments determined by the board for less than full-time service.

13982. A member shall receive credit for time served, as a member or prior to becoming a member, in a status requisite for membership in the system or its predecessors.

13983. A member shall receive credit for time served in a night school or in the adult education program, in the proportion that such time bears to the minimum full-time service required for credit for one year of service, according to Section 13981, unless such service is in the category of overtime service.

13984. A member shall receive credit for time served in a status prior to the date the status is made requisite to membership, whether under the California Public School Teachers' Retirement Salary Fund, the California State Teachers' Retirement System, or this system.

13985. A member shall receive credit for time served in a position in which, without a change in duties attached thereto, he subsequently qualifies as being in a status requisite to membership.

13986. A member shall receive credit for time during which he is prevented from rendering service in a status requisite for membership, by act of God, or by reason of the closing of a school by any duly authorized officer or body.

13987. A member shall receive credit for time served in teaching positions in publicly supported and publicly administered universities and colleges in this state.

13988. A member shall receive credit for time served in teaching positions in schools supported and administered by the United States government in this state.

13989. A member shall receive credit for time served as an exchange teacher in any location.

13990. Service shall be computed by school years and not by calendar years, portions of years served being accumulated and counted as service. All of the service rendered during any one school year in employment requisite for membership in this system shall not count for more than one year, and the service credited under this system to any member as ren-

dered during any school year, shall not exceed the fraction of a year which makes one year of service, when added to the service credited to such member under the Public Employees' Retirement System, the Retiring Annuities System of the University of California, or any locally administered retirement system in California except a local system as defined by Section 13840, as rendered during such year.

In lieu of any other benefits provided by this chapter, any member who rendered service prior to July 1, 1956, shall receive retirement benefits for that service at least equal to the benefits which he would have received for that service under the provisions of this chapter as they existed on June 30, 1956.

13991. No time shall be included for which a member is entitled to receive a pension in a lump sum or installment payments, for other than naval or military service from any source other than this system, or under the American Gratuity Act No. 4151 relating to service in the Philippine Islands under which 15 or more years of creditable service has accrued, or a local retirement system. If a retirant becomes entitled to such a pension, his retirement allowance shall be reduced thereafter to exclude the time upon which the pension is based, without other change in his retirement status.

13992. No time shall be included during which a member is a retirant of this system.

13993. For the purposes of this article, war with a foreign power exists: (a) whenever Congress has declared war and peace has not been formally restored; (b) whenever the United States is engaged in active military operations against any foreign power, whether or not war has been formally declared; or (c) whenever the United States is assisting the United Nations, in actions involving the use of armed force, to maintain or restore international peace and security.

13994. A member shall receive credit for time during which he serves in the active military service of the United States or of the state including active service in any uniformed auxiliary of, or to, any branch of such military service created or authorized as such auxiliary by the Congress of the United States of America or by the Legislature of the State of California, or in the full-time paid service of the American Red Cross rendered prior to September 10, 1957, during war with any foreign power or during other national emergency, or in time of peace if he is drafted for such service by the United States government, if he was employed in a status requisite for membership, or in a status, time served in which is included in this chapter, within one year prior to entering such service.

Time during which a member for other cause is absent without compensation, on leave or otherwise, shall not be included.

Time included under this section shall be considered as served in the state in which the member was last employed before entering such service.

13995. A member who voluntarily requests or agrees to an extension of his original term of enlistment, service, or tour of duty shall not receive credit for time during which he serves in such military service and which is after January 1, 1958, or after the expiration of six months following the date of termination of such original term of enlistment, service, or tour of duty, whichever is later. In no event shall a member receive credit for more than four years of such military service rendered after July 1, 1968.

13996. A member shall receive credit for time during which he is excluded from membership because of membership in any other retirement system and during which he serves in a status requisite for membership in this system or its predecessors, if he subsequently ceases to be a member of, and ceases to be entitled to benefits from, the other retirement system and becomes a member of this system.

Such credit shall not be given if the termination of membership in the other system resulted from his voluntary withdrawal, after January 1, 1960, of his contributions to that system.

13997. Time during which a member is excused from performance of his duties, such as but not limited to, sick leave, holidays, vacation, or sabbatical leave, whether or not he is required to perform any portion of such duties during such time, and for which he receives compensation, including disability from any insurance carrier of his employer, under the Labor Code on account of industrial injury or disease, in an amount less than the full compensation earnable by him while performing his duties when not so excused, shall be credited as service in the proportion that the compensation paid to the member bears to the full compensation which would be earnable by him while performing his duties on a full-time basis.

13998. Except as otherwise specifically provided in this article no member shall receive credit for service outside this state.

13999. Every person who was a member or a retirant of the California State Teachers' Retirement System on June 30, 1944, shall receive credit for time served outside this state prior to July 1, 1944, as follows:

(a) He shall receive credit for time served in a status which in this state is requisite for membership, in other states of the United States and its territories and possessions and in Canada.

(b) He shall receive credit for time served in teaching positions in publicly supported and publicly administered universities or colleges in the United States and its territories and possessions and in Canada.

(c) He shall receive credit for time served in teaching positions in schools supported and administered by the United States government.

(d) A member shall receive credit for time served as a physiotherapist during World War I in the Medical Department of the United States Army; provided, he was employed in a position requisite for membership in this system within one year prior to entering such service.

(e) Members who are employed in the California School for the Deaf or the California School for the Blind, or in special classes maintained by the public schools of this state, for the instruction of the deaf, the hard of hearing, the blind, or the semisighted shall receive credit for time served in publicly supported residential schools for the deaf and blind outside this state.

14000. A member shall receive credit for time served in publicly supported and administered schools in other states of the United States and its territories and possessions and in Canada as a teacher of children who are deaf or blind or both deaf and blind if the member fulfills all of the following conditions:

(a) He is credited with at least 10 years of service in this state as a teacher of children who are both deaf and blind.

(b) Within five years immediately preceding the date when he became a member of this system he served at least one year in publicly supported and administered schools in other states of the United States, its territories and possessions, or in Canada, as a teacher of children who were both deaf and blind.

(c) He was a member of this system on October 1, 1959.

14001. A member may elect not to receive credit for time served outside this state in a status which in this state is a requisite for membership.

This section shall remain in effect until the 61st day after the final adjournment of the 1969 Regular Session of the Legislature, and shall have no force or effect after that date.

Article 9. Member Contributions

14020. Contributions made by a member shall be credited to his individual account by the board.

Interest shall be credited to his individual account on the accumulated annuity contributions therein, at rates declared from time to time by the board.

14021. Acceptance of employment in a position requiring membership in the system is consent to have deductions from salary taken for the system.

14022. Each member who retires on or after July 1, 1944, is required to have contributed to the Permanent Fund at the following rates for the service credited to him under the system:

(a) Twelve dollars ($12) for each year of service prior to July 1, 1935, but contributions shall not be required for more than 30 years of service rendered prior to July 1, 1935.

(b) Twenty-four dollars ($24) for each year of service from July 1, 1935, to July 1, 1944.

(c) Sixty dollars ($60) for each year of service after July 1, 1944.

14023. Any person to whom service rendered outside of the state after January 1, 1914, is credited and any person who has claimed exemption from the provisions of the system or its predecessor or who is excluded from the system because of being a member of another retirement system while serving in a status requisite for membership in this system or its predecessor, and who later becomes subject to its provisions shall pay, in addition to the sum due under Section 14022 for each year of credited service rendered prior to July 1, 1944, either outside the state or while exempt or while a member of any other system, interest at the rate of 5 percent per annum on the amount which would have been contributed had he been a member of the system when the service was rendered. Interest shall begin on the first day of July next following the end of the school year in which the service was rendered.

14024. Such Permanent Fund contributions as are due for service rendered after July 1, 1944, shall accumulate with regular interest.

14025. Every person who retires on or after July 1, 1944, and who is entitled to receive a retirement salary, but who at the time of retirement is not credited with the full amount of contributions to the Permanent Fund required of him by Section 14022, shall pay to the system in a single payment such additional amount as is necessary to bring the contributions credited to him up to the full amount of contributions to the Permanent Fund required of him by Section 14022.

14026. Each member of this system shall contribute to the Retirement Annuity Fund at a rate of contribution established by the board, except that a member who is also a member of a local system shall not contribute to the Retirement Annuity Fund for any service for which he is entitled to retirement benefits under the local system.

14027. The rate of annuity fund contribution shall be based upon sex and age at the nearest birthday at the time of inclusion in or entrance into this system or at such later time as the member first is required to make annuity contributions, and shall be such as, when applied to the salary of the member, not counting any salary earned in service for which the member is entitled to retirement benefits from a local system, will produce contributions which will provide, on the average, an annuity at age 60 equal to approximately one-half of the benefit specified in Section 14245 to be derived from the Retirement Annuity Fund for service rendered after July 1, 1944,

plus the portion of the retirement salary computed pursuant to Section 14240, on the basis of his service rendered after June 30, 1944, and for which he is not entitled to receive benefits from a local system, as determined by recognized actuarial methods.

14028. Contributions required of a member to the Retirement Annuity Fund shall be deducted from each salary payment in the manner prescribed in Article 11 (commencing with Section 14050). A portion of such contributions, based on the service for which the salary payment is made, and computed at the rate of sixty dollars ($60) for each year of service for which the member is not entitled to receive benefits from a local system, shall be considered and administered as the contributions to the Permanent Fund, required by Section 14022 for service after July 1, 1944.

14029. Accumulated annuity contributions credited to a member whose date of birth is changed in the records of the system shall be adjusted to the corrected date by refund to the member or payment by the member, as the case may be.

14030. If, at retirement, there are contributions to the Permanent Fund and the Retirement Annuity Fund remaining to the credit of the member which were made with respect to time on the basis of which the member will not be entitled to receive a benefit from those funds, the board shall refund to the member such contributions as it may allocate to such time with credited interest.

14031. Subject to rules prescribed by the board, any member may elect to make annuity deposits for the purpose of providing additional benefits.

14032. Annuity deposits may be:

(a) Deducted from earned compensation, deposited in the county treasury, remitted and reported to the board in the manner prescribed for annuity contributions, or

(b) Remitted by the member directly to the system.

The member may cancel such election and later elect again at any time, but accumulated annuity deposits derived from such deposits made after June 30, 1956, may be withdrawn only as provided in Section 14070.

14033. Subject to rules prescribed by the board, any member may elect to make shelter contributions for the purpose of providing additional benefits.

14034. Shelter contributions may be made only in multiples of twenty-five dollars ($25) per month and may be made not to exceed in any one year, 10 percent of his compensation, composed of payments in cash, made to him by his employer, and upon which his other contributions were determined for that year.

14035. Employers of members, public officials and public agencies shall remit to the system, monthly or at other intervals fixed by the board, shelter contributions made, and shall file with the board, reports of such contributions segregated

according to members making them, all in accordance with such rules as may be adopted by the board.

14036. A person who has been excluded from membership under Section 13963, 13964, 13965, or 13966 and who subsequently becomes a member shall receive credit for the service rendered while so excluded provided he elects to pay, and pays, prior to retirement and in a manner provided by the board, contributions with respect to such service with regular interest.

Such contributions shall be equal to what they would have been had he not been excluded from membership but calculated at the rate of contribution first applicable to him as a member, or upon his reentry to membership.

14037. Any member, in addition to service credit provided under Article 8 (commencing with Section 13980) may purchase credit for similar service as a teacher in the public day schools, in state universities, state normal schools and other state or municipal institutions of a character similar to the state or municipally supported schools of California in which membership in the State Teachers' Retirement System is allowed, of another state of the United States, or of any territory or possession of the United States, or of the District of Columbia. The deposits for such service may be in multiples of one hundred dollars ($100), and together with regular interest, shall be credited to the member's account in the Annuity Deposit Fund. Such payment, together with regular interest, may be refunded under the same conditions and in the same manner as refunds are made under Section 14070, and are subject to the redeposit provisions of Section 14080. At retirement such amounts credited in the Annuity Deposit Fund shall be applied toward the purchase of an additional annuity, as provided in Section 14240 and Section 14260, and the total allowances payable to retired persons at retirement, or at death prior to retirement, will not otherwise be affected by said purchased credit.

The retirement board has the authority to negotiate, and enter into agreements with other states of the United States on the subject of the transfer of members' contributions and interest thereon between the retirement systems of California and other states.

Article 10. Member Contributions for Military Service

14040. Except as otherwise provided in this article a member of the system who receives credit for military or Red Cross service under Section 13994 shall pay such amounts as may be necessary, when added to contributions for the Permanent and Retirement Annuity Funds, deducted by the agency during his absence, to make his contributions to the Permanent Fund and to the Retirement Annuity Fund, equal to the contributions he would have made had he not been ab-

sent from the service of the employing agency. The contributions made shall be remitted to the board and administered by the board in the same manner as contributions deducted from salary payments. The employing agency may, at its option, make the contributions for the member, and contributions made by the agency shall be administered as if made by the member. If the member was not employed by an employing agency at the time he entered the military service or said auxiliaries thereof, or the service of the Red Cross, his contributions to and his benefits from the Retirement Annuity Fund for such service shall be based upon the salary he was receiving in his last employment prior to entering the military service or the auxiliaries thereof, or the service of the Red Cross.

14041. If any member of the system required to pay contributions under Section 14040, does not pay such contributions while rendering such service, the contributions shall be paid by him directly to the system in a single payment before retirement. Contributions due under this section shall be paid with regular interest for service rendered after July 1, 1944, such interest to run from the date of the member's discharge or release from military service to the date of payment.

14042. A member who is required to pay contributions in accordance with Section 14040, may elect at retirement not to pay contributions in accordance with that section. If such election is made the time in military or Red Cross service covered by such contributions shall be considered as a break in service for all purposes.

14043. No contributions shall be required for service credited under Section 13994 from a member for such service on account of an absence after September 15, 1940, if he returned to an employment requisite for membership in this system prior to March 19, 1948, or after that date if he returned to such employment within six months after the termination of such service and prior to January 1, 1950.

14044. No member may be required to pay contributions for service credited under Section 13994 which was rendered prior to January 1, 1950 provided he was continuously rendering such service prior to that date and returned to an employment in a status requisite for membership in this system within six months after the termination of such service.

14045. No member may be required to pay contributions for service credited under Section 13994 while on a military leave of absence if he entered such service after January 1, 1950 and returned to an employment requisite for membership within six months after the termination of such service.

14046. If a member is not required to pay contributions under Sections 14043, 14044 or 14045:

(a) Any such member who exercises or did exercise the right to contribute to the system for the period of such service shall

have such contributions refunded with credited interest on annuity contributions.

(b) Any employing agency which made the contributions for the member either during his absence or after his return to employment shall have such contributions refunded with credited interest on annuity contributions.

14047. If the member, who is not required to contribute under Sections 14043, 14044 or 14045, was also a member of a local retirement system, the retirement system shall pay, from the Retirement Annuity Fund, to the member, at the time of his retirement, or to the local district maintaining the local system, if the local district made local system contributions on the basis of service credited under the local system for time included under Section 13994, an amount equal to the annuity contributions not required under those sections of such member on account of such service credited under the local retirement system, but not to exceed contributions made by him or the local district to the local system on account of such service. Regular interest to the time of such payment shall be included in such payment. The state shall contribute annually to the Retirement Annuity Fund the amounts required to be paid from the fund to local districts under this section.

Article 11. Procedures for Collection of Member Contributions

14050. The governing board of each school district shall draw an order for the amount of salary payments due to the respective members employed by the board, less the amount of contributions required to be deducted from the payments, and shall inform the county superintendent of the amount of the contributions.

14051. The county superintendent at the close of each month shall draw requisitions against the funds of the school districts and in favor of the county teachers' permanent fund and county teachers' annuity deposit fund in each county treasury, for amounts equal to the total of contributions deducted during the month for the Permanent Fund and Retirement Annuity Fund, respectively.

The amounts shall be deposited in the county treasury to the credit of the respective funds.

At the option of the board such requisitions shall be drawn in favor of one of such funds in the county treasury, for the total contributions, regardless of the fund for which they were deducted, and deposited to that fund.

14052. The county superintendent shall deduct from salary payments due to the respective members employed by him, the contributions required and at the close of each month shall draw requisitions against the funds from which the salaries were paid and in favor of the county permanent and annuity funds, respectively, for amounts equal to the total

of the contributions deducted during the month for the Permanent Fund and Retirement Annuity Fund, respectively.

The amounts shall be deposited in the county treasury to the credit of the respective funds.

At the option of the board, such requisitions shall be drawn in favor of one of such funds in the county treasury, for the total contributions, regardless of the fund for which they were deducted and deposited to that fund.

14053. The county auditor shall deduct from salary payments due to the respective members employed by the county, the contributions required and at the close of each month shall transfer in the county treasury from the funds from which the salaries were paid, to the county permanent and county annuity deposit funds, respectively, amounts equal to the total of the contributions deducted during the month for the Permanent Fund and Retirement Annuity Fund, respectively.

At the option of the board, such transfer of the total contributions, shall be to one of such funds in the county treasury, regardless of the fund for which they were deducted.

14054. The county superintendent in each January and July shall issue a receipt for the contributions to each member from whose salary payments the deductions were made during the six months immediately preceding.

The board may issue to each member, after the close of the school year in lieu of such receipt, either one receipt for all contributions deducted from his salary during the year or a statement of his individual account

14055. In January and July of each year, or in each month at the option of the board, the county superintendent shall draw his requisition against the county auditor, and the requisition when allowed and signed by the county auditor shall constitute a warrant against the county treasurer, for the amount of contributions deducted from members' salary payments during the preceding month.

The county auditor thereupon shall forward the warrant to the office of the board in Sacramento.

14056. The county superintendent shall supply an annual report to the board giving the names of members from whose salary payment contributions were deducted, the amount of the contributions in the case of each member, and such other information as the board may require.

The report shall cover the earnings of members for the school year ending on the preceding June 30th. The original of the report shall be sent by the county superintendent to the board.

Such annual reports are due on July 31st and shall be considered delinquent if not received in the office in Sacramento in acceptable form on or before the December 31st following the close of the period ending on the preceding June 30.

If the report of a county superintendent is delinquent the State Controller shall, upon order of the board, withhold subsequent payments from the State School Fund to the county for deposit in the county school service fund until the report is received in acceptable form and the board directs the State Controller to make such payments to the county as would have been paid had no payments been withheld.

If monthly requisitions are required, the reports with respect to members' contributions to the Annuity Deposit Fund alone, or with respect to all members' contributions, may at the option of the board be required monthly.

14057. Employing agencies other than school districts or counties shall deduct from each salary payment due to the respective members employed by them, the contributions required, and shall remit in January and July of each year, or in each month at the option of the board, to the board, in a form satisfactory to it, the contributions deducted during the preceding six calendar months or month, as the case may be.

The remittances shall be accompanied by a report in the manner required of the county superintendent.

14058. The board at its option and in lieu of all or part of the method of collecting members' contributions provided in this article, may require any county, city, or district superintendent of schools, any governing board of a school district, or any disbursing officer of any other employing agency, to furnish the board with a copy of every payroll of the school district or other employing agency.

The payroll shall show for the period covered thereby and for each person employed by the district or other employing agency during the period the time served, the compensation earnable, the amount of salary earned, the contributions deducted for the Permanent Fund, the Annuity Deposit Fund, and the Retirement Annuity Fund, respectively, the net amount paid, and such other data as the board may require.

The payroll shall be verified by a duly authorized official, and shall be accompanied by a remittance to the board in a form acceptable to the board, of the total of the contributions shown on the payroll as deducted from the salary payments of members listed thereon.

14059. Upon the request of the board, the employing agency shall furnish the board with a statement of the amount of contributions deducted from salary payments of any member, the services rendered by the member, and the salary earned by him, since the end of the period covered by the last report of the superintendent or employer. The board may use the information shown in the statement in determining contributions to be paid to the member or to a beneficiary, or use it in determining the member's status upon retirement, even though the contributions will not be received by the board until after the payment or determination.

14060. If more or less than the correct amount of the contributions is paid with respect to any salary payment, including salary payments to exchange teachers for service outside of this state, proper adjustments shall be made, without interest, in connection with subsequent salary payments, or adjustments may be made by direct cash payments between the member and the employing agency or the board. Adjustments to correct any other errors in payments to or by the board may be made in the same manner.

If the board determines that an amount is due the system from a person who has retired, including one who has applied for retirement but has not received his first retirement warrant, and that the person is unable to pay the amount due, the board may withhold all or part of subsequent payments due the member, or due on his account, until the amounts so withheld equal the amount due plus interest at the rate in use under the system.

Losses or gains resulting from error in amounts within the limits set by the State Board of Control for automatic writeoff, and losses or gains in greater amounts specifically approved for writeoff by the State Board of Control, shall be debited or credited, as the case may be, to the reserve against deficiencies in interest earned in other years, losses under investments, and other contingencies.

Article 12. Return of Members' Contributions

14070. Upon the termination of a member's employment by any cause other than death or retirement there shall be paid to him, or if no other benefits are payable under this chapter upon the death of a member, there shall be paid to the beneficiary nominated by the deceased member:

(a) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(b) The accumulated annuity contributions standing to the credit of his individual account in the Retirement Annuity Fund.

(c) Any moneys standing to the credit of his individual account in the Annuity Deposit Fund, together with the interest accumulated thereon.

(d) The shelter contributions standing to the credit of his individual account, together with credited interest if he has made such contributions for more than five years, but otherwise without credited interest.

14071. A member, without terminating his membership, may withdraw shelter contributions standing to the credit of his individual account, together with credited interest if he has made such contributions for more than five years, but otherwise without credited interest.

14072. Refunds to a member shall be made upon request of the member, or may be made without such request if it ap-

pears to the board that the member's employment is permanently terminated and the member does not have enough service under the system to qualify for receipt of a retirement benefit.

14073. If a member ceases to be entitled to credit for service in this system because he has become entitled to credit for such service in another retirement system supported wholly or in part by funds of the United States government, or any state government or political subdivision thereof, except a local system, he is entitled to a refund of the contributions paid the Teachers' Permanent Fund after July 1, 1935 without interest except for such interest as was paid by the member, and the accumulated annuity contributions on account of such service.

14074. The board shall withhold for four months payment of contributions upon termination of employment, if the person to whom the contributions are payable previously had been paid contributions and had again become a member within one year after the termination of the prior employment in a status requisite for membership.

14075. Any member shall be paid the accumulated annuity deposits based on salaries earned prior to July 1, 1944, in the Annuity Deposit Fund standing to the credit of his individual account upon his written request to the board. Such deposits so withdrawn may not thereafter be redeposited in the Annuity Deposit Fund, but if such accumulated annuity deposits were withdrawn by a member upon termination of employment, the amount so withdrawn may be redeposited in the Annuity Deposit Fund at any time within one year of the reentry of the person into membership in the retirement system.

Article 13. Redeposit of Members' Contributions

14080. If a person whose contributions have been refunded reenters the system he may elect to redeposit the contributions, excluding shelter contributions, after he has rendered two years of creditable service subsequent to his reentry.

Such redeposit shall include regular interest. For time prior to July 1, 1944, the interest shall be at 2½ percent compounded annually.

Redeposit may be made in installments in accordance with such rules and regulations as may be established by the board.

The election to redeposit refunded contributions as provided by this section is extended to all persons who received refunds prior to October 1, 1961, and who have not redeposited prior to that date, provided that an election to redeposit such contributions was not available at the time of reentry to membership.

14081. Upon reentry to membership the member's rate of contributions shall be the rate applicable to his age on the date of reentry. If he elects to redeposit contributions his rate

of contributions on service rendered subsequent to the first of the month following the date such election is received in the retirement office shall be the rate applicable to the age attained by deducting the period from the date of refund to the date of reentry from the exact age attained at the time of reentry.

Redeposit of contributions under this section may be adjusted by amounts arising from erroneous application of rate of contribution or other contribution errors.

14082. If a person upon reentering the system after his contributions have been refunded does not elect to redeposit refunded contributions or, having so elected, subsequently does not make such redeposit, he reenters as a new member without credit for any service except service credited to him as rendered before July 1, 1935, for which no contributions were refunded, and his rate of contribution shall be the rate applicable to persons of his age on the date of reentry.

14083. Any person whose contributions were refunded to him and who has received, or will qualify for the receipt of, a retirement allowance from the Public Employees' Retirement System as a state member of that system, or as an employee of a local school district or of a superintendent, or from the retirement system of the University of California has the right to reenter this system and to redeposit the contributions refunded to him, with regular interest, without being employed in a status requisite for membership in this system.

Such redeposit shall be in the form of a single lump sum payment.

A person who is reinstated to membership on account of this section is not entitled to receive credit for service which might otherwise be creditable under the provisions of Section 13999 relating to credit for service rendered outside the state prior to July 1, 1944.

Article 14. Public Contributions

14100. Each school district or other employing agency shall contribute semiannually to the Permanent Fund, six dollars ($6) for each member it employs.

14101. In addition to the contribution provided in Section 14100, each school district or other employing agency shall contribute semiannually to the Permanent Fund an amount, not to exceed one dollar ($1) for each member it employs, as determined by the board, to meet the employer's share of administrative expenses.

This section shall cease to be operative on June 30, 1973.

14102. The superintendent of each county shall certify to the board, on or before the 15th of each May and December:

(a) The number of members of the system who appear on the March and October payrolls of the respective school districts in the county, or who, during March and October were

on leave of absence granted for the types of service included in Section 13994, and

(b) The number of his deputies and certificated employees, including himself, who are members of the system and appear on the March and October payrolls.

14103. At the option of the county superintendent, a member employed in more than one district in any county may be counted in each of the districts as a fraction of one determined by dividing one by the number of the districts or may be counted as one in one of the districts and the pro rata portions of the amount due transferred by the county superintendent to the district from the funds of the other districts. Otherwise each of the districts shall contribute the total amount due.

14104. At the option of the county superintendent, the contribution to the Permanent Fund for any member whose compensation is paid part from funds of two or more districts or other employing agencies shall be prorated between such funds in proportion to the amount of compensation paid from each fund.

14105. On or before the 15th of each May and December,

(a) For members whose compensation is paid by the school districts, the county superintendent shall draw requisitions against the funds of the respective school districts within the county, and in favor of the Teachers' Retirement Deposit Fund

(b) For members whose compensation is paid by him, the county superintendent shall draw requisitions against the funds from which salaries were paid, and in favor of the Teachers' Retirement Deposit Fund

(c) For members whose compensation is paid by the county, the county auditor shall transfer from the funds from which the salaries were paid, to the Teachers' Retirement Deposit Fund

in amounts equal to the contributions required and the amounts shall be deposited in the county treasury to the credit of the fund. The county superintendent thereupon shall draw his requisition against the Teachers' Retirement Deposit Fund in favor of the State Teachers' Retirement System for the amount of the district and other agency contributions and the requisition, when allowed and signed by the county auditor, shall constitute a warrant against the county treasurer. The county superintendent thereupon shall forward the warrant to the board in Sacramento along with such reports relative thereto as the board may require.

14106. If the members are employed by any agency of the state, remittances to the board of six dollars ($6) for each member shall be made in April and November of each year by the disbursing officer of the agency by which the members are employed.

Remittances shall be made out of funds provided for the support of the agency.

Amounts due the Permanent Fund shall be calculated on the basis of the number of members on the last payrolls in the current school year, prior to April 15th and November 15th respectively, or, at the end of the respective periods covered by the payrolls, on leave of absence granted for the particular military and other service included in Section 13994.

14107. Each school district or other employing agency shall contribute to the Retirement Annuity Fund, an amount equal to 3 percent of the compensation paid by the district or agency, to its employees who are members of the system, except that:

(a) No elementary school district, high school district not maintaining a junior college, or junior college district shall be required to contribute an amount in excess of the amount that would be produced by a tax of five cents ($0.05) on each one hundred dollars ($100) of the taxable property of the district as shown by the equalized assessment roll for the current fiscal year of the county or counties in which the district is located, and that

(b) No high school district maintaining a junior college, or unified school district not maintaining a junior college, shall be required to contribute to the fund an amount in excess of the amount that would be produced by a tax of ten cents ($0.10) on each one hundred dollars ($100) of the taxable property of the district as shown by the equalized assessment roll for the current fiscal year of the county or counties in which the district is located, and that

(c) No unified school district maintaining a junior college shall be required to contribute to the fund an amount in excess of the amount that would be produced by a tax of fifteen cents ($0.15) on each one hundred dollars ($100) of the taxable property of the district as shown by the equalized assessment roll for the current fiscal year of the county or counties in which the district is located.

14108. Within 30 days after the close of each calendar month, each school district, or other agency, which employs members of the system shall pay to the system the contributions required of it by the provisions of Section 14107.

Such contributions shall be an amount determined by deducting the amount of contributions paid by the district, or agency, for previous months in the same fiscal year from the lesser of:

(a) An amount determined under Section 14107 on the basis of compensation paid during the fiscal year up to and including the current month, or

(b) A fraction of the amount determined under Section 14107 on the basis of the assessed valuation of the district, the fraction being equal to the number of months that have elapsed in the fiscal year, up to and including the current month, divided by 12.

Each remittance shall be in a form acceptable to the board, and shall be accompanied by a statement verified by a duly authorized official, and containing such information as the board may prescribe.

The amounts received shall be deposited forthwith in the State Treasury to the credit of the Retirement Annuity Fund.

14109. Within 30 days after the close of each calendar month,

(a) For members whose compensation is paid by the school districts, the county superintendent shall draw requisitions against the funds of the respective school districts within the county.

(b) For members whose compensation is paid by him, the county superintendent shall draw requisitions against the funds from which salaries were paid.

(c) For members whose compensation is paid by the county, the county auditor shall transfer from the funds from which the salaries were paid.

Such requisitions shall be made in favor of and such transfer shall be made to the Teachers' Retirement Deposit Fund in amounts equal to the contributions required by Section 14108 and such amounts shall be deposited in the county treasury to the credit of the fund.

The county superintendent thereupon shall draw his requisition against the Teachers' Retirement Deposit Fund in favor of the system for the amount of district and other agency contributions and the requisition, when allowed and signed by the county auditor, constitutes a warrant against the county treasurer.

The county superintendent thereupon shall forward the warrant to the board in Sacramento along with such reports relating thereto as the board may require.

14110. If more or less than the correct amount of contribution is paid for any period, proper adjustments shall be made, without interest, in connection with subsequent remittances to the board, or by direct cash payments between the employer and the board.

14111. District taxes may be levied and collected annually by the respective districts at the same time and in the same manner as other district taxes are levied and collected. The tax shall be in addition to any other district tax now or hereafter authorized by law, and shall not be considered in fixing maximum rates of taxes for school district purposes.

Such tax is for the purpose of providing funds necessary to make the contributions to the Permanent Fund and the Retirement Annuity Fund required of school districts under this article.

A school district which maintains a local system may combine into one rate, the tax rate fixed under this section and the tax rate fixed to provide funds for such system, but the funds provided by the rate authorized by this section shall

be segregated in the district's accounts, from the funds provided by the rate for the local system, as soon as possible after the receipt of the tax funds.

14112. The state shall contribute annually to the Teachers' Retirement Fund an amount, determined actuarially, which shall equal the sum of:

(a) An amount equal to so much of the benefits to be paid from the Permanent Fund during that year as is not provided by the Permanent Fund contributions based on service after July 1, 1944, of the members receiving such benefits, plus interest at a rate declared annually by the board, and by the contributions of employing agencies during that year.

(b) An amount equal to so much of the benefits to be paid from the Retirement Annuity Fund during that year, as is not provided by the accumulated annuity contributions of the members receiving such benefits, and by the contributions of employing agencies during that year.

(c) An amount equal to the sum required for death benefits under Sections 14180, 14185, and 14193.

(d) An amount equal to so much of the survivor benefits to be paid from the Permanent Fund as are in excess of the accumulated contributions and interest in that fund which are not required for the future payment of annuities, refunds and death benefits.

(e) An amount equal to the amounts required to be paid to local districts under Sections 14047, 14122, 14123, 14126, 14131, 14132, and 14135.

14113. The provisions of this chapter providing for state contributions do not constitute appropriations of money from the State Treasury. The sums required for state contributions shall be appropriated in each State Budget Act, or in such other manner as the Legislature may deem appropriate.

14114. If the amount of the state contribution for any prior year, as determined actuarially and appropriated by the Legislature, is found to have been greater or less than it should have been, the state contribution for any year shall be reduced or increased, as the case may be, by the sum by which the state contribution for the prior year was greater or less than it should have been, except to the extent that such sum has been applied to reduce or increase the state contribution for any prior year.

Article 16. Payments From the Fund to Local Districts

14120. At the beginning of each fiscal year the system shall pay to each local district maintaining a local system the amounts specified in this article.

14121. This article does not apply to a local system established under Chapter 5 (commencing with Section 14501).

14122. An amount shall be paid from the Teachers' Retirement Fund equal to the:

(a) Difference with respect to all service by persons who retired prior to July 1, 1947, between the retirement allowance paid from the Teachers' Retirement Fund during the preceding year to or on account of persons who were entitled to receive retirement allowances from the local system, and the retirement allowance which would have been paid during the preceding year to or on account of those persons if they were not entitled to receive retirement allowances from the local system.

(b) Difference with respect to service prior to July 1, 1944, and one-half the difference with respect to service rendered after July 1, 1944, by persons retired on or after July 1, 1947, between the retirement allowances paid from the Teachers' Retirement Fund during the preceding year to or on account of persons who were entitled to receive retirement allowances from the local system, and the retirement allowance which would have been paid during the preceding year to or on account of those persons if they were not entitled to receive retirement allowances from the local system.

14123. An amount shall be paid from the Teachers' Retirement Fund equal to the difference between the death benefits paid from the Teachers' Retirement Fund during the preceding year on account of persons who qualified for death benefits under the local system, and the death benefit which would have been paid during the preceding year on account of such persons if they had not qualified for death benefits from the local system, all regardless of elections of allowances under Section 14193.

14125. The amounts paid under Sections 14122 and 14123 shall not be used to reduce the contributions required of members of the local system or to increase the benefits payable by the local system, but shall be applied to reduce the cost of support of the local system to the taxpayers of the local district maintaining the local system.

14126. In addition to other payments required by this article, at the beginning of each fiscal year after June 30, 1968, the system shall pay to each local district maintaining a local system from the Teachers' Retirement Fund an amount equal to the difference between the increase in benefits the retired member or his survivor under Section 14280, received under Article 26 (commencing with Section 14330) and the increase under Article 26 (commencing with Section 14330) which would have been payable during the preceding fiscal year, if such member or survivor had not been entitled to benefits from a local system.

Article 17. Payments From Fund to Certain Local Districts

14130. At the beginning of each fiscal year the system shall pay to each local district maintaining a local system under Chapter 5 (commencing with Section 14501) the following amounts specified in this article.

14131. An amount shall be paid from the Teachers' Retirement Fund:

(a) Equal to the difference with respect to all service by persons who retired prior to July 1, 1947, between the retirement allowance paid from the Teachers' Retirement Fund during the preceding year to or on account of persons who were entitled to receive retirement allowances from the local system, and the retirement allowance which would have been paid during the preceding year to or on account of those persons if they were not entitled to receive retirement allowances from the local system.

(b) Equal to the difference with respect to service prior to July 1, 1944, and one-half the difference with respect to service rendered after July 1, 1944, by persons retired on or after July 1, 1947, and prior to February 1, 1965, between the retirement allowance paid from the Teachers' Retirement Fund during the preceding year to or on account of persons who were entitled to receive retirement allowances from the local system, and the retirement allowance which would have been paid during the preceding year to or on account of those persons if they were not entitled to receive retirement allowances from the local system.

(c) Equal to all the difference, minus the portions of the allowances which would have been provided under this system by accumulated annuity contributions if there had been no local system, with respect to service rendered after June 30, 1944, by persons whose retirement is effective after January 31, 1965, between the retirement allowances paid from the Teachers' Retirement Fund during the preceding year to or on account of persons who are entitled to receive retirement allowances from the local system, and the retirement allowances which would have been paid during the preceding year to or on account of those persons if they were not entitled to receive retirement allowances from the local system.

14132. An amount shall be paid from the Teachers' Retirement Fund, equal to the difference between the death benefits paid from the Teachers' Retirement Fund during the preceding year on account of persons who qualified for death benefits under the local system, and the death benefit which would have been paid during the preceding year on account of such persons if they had not qualified for death benefits from the local system, all regardless of elections of allowances under Section 14193.

14133. The amounts paid under Sections 14131 and 14132 shall not be used to reduce the contributions required of members of the local system or to increase the benefits payable by the local system, but shall be applied to reduce the cost of support of the local system to the taxpayers of the local district maintaining the local system.

14134. The local district maintaining a local system shall defray any actual and necessary expenses of the State Re-

tirement System in bringing the accounts of local members up to date for the purposes of the utilization of the provisions of this section by the local district in order to maintain the local district's system.

The local district shall defray any actual and necessary expenses incurred in maintaining these accounts on a year-to-year basis. These expenses shall be defrayed from the accumulated contributions by the local district to the local system.

The amount to be paid pursuant to this section by a local district maintaining a local system to the system in any fiscal year shall not exceed the product of three dollars ($3) multiplied by the number of local members actually retiring in that year.

14135. In addition to other payments required by this article, at the beginning of each fiscal year after June 30, 1968, the system shall pay to each local district maintaining a local system from the Teachers' Retirement Fund an amount equal to the difference between the increase in benefits the retired member, or his survivor under Section 14280, received under Article 26 (commencing with Section 14330) and the increase under Article 26 (commencing with Section 14330) which would have been payable during the preceding fiscal year, if such member or survivor had not been entitled to benefits from a local system.

Article 18. Beneficiary Designations

14151. Whenever designation of a beneficiary is authorized by this chapter and no beneficiary has been designated or such designation has been revoked, the estate of the person authorized to make the designation is the beneficiary.

14152. If the estate is the beneficiary, and if the estate need not be probated except for the payments due from the system, all of the amount due shall be paid directly without probate to the surviving next of kin of the deceased, or the guardians of the survivors' estates, share and share alike, payment to be made in the order in which the following groups are listed:

(a) Husband or wife.
(b) Children.
(c) Father and mother.
(d) Grandchildren.
(e) Brothers and sisters.
(f) Nieces and nephews.

No payment shall be made to persons included in any of the groups if, at the date of payment, there are living persons in any of the groups preceding it. Payment to the persons in any group, upon receipt from the persons of an affidavit upon a form supplied by the board, that there are no living individuals in the groups preceding it and that the estate of the deceased will not be probated, shall be in full and complete discharge and acquittance of the board and system on account of the death.

14153. A member or retirant may at any time designate a beneficiary to receive such benefits as may be payable under this chapter. Such designation shall be in writing in a form prescribed by the system, executed by the member, witnessed by one witness, not a beneficiary, and such instrument shall be received by the system before the member's death.

Such designation of beneficiary, other than a designation under options 2 and 3, may be revoked at the pleasure of the person making the nomination, and a different beneficiary designated.

14154. A member's marriage, divorce, annulment of marriage or the termination of membership constitutes a revocation of his previous designation of a beneficiary.

Any designation of beneficiary in effect on October 1, 1967, which was filed prior to the occurrence of any of the conditions specified herein is void.

After any revocation or voidance of a beneficiary designation, a member may designate the same or another beneficiary or beneficiaries according to the procedure in Section 14153.

14155. If after nomination of his child or children as a beneficiary, a married member has issue of his marriage and such child survives the member, or is born after his death, such child shall receive an equal share with those children named as such beneficiaries unless the member declares in a writing filed with the system that such child is intentionally excluded as a beneficiary. No other evidence to rebut the presumption of such revocation can be received.

14156. Children of a deceased child (such child being a designated beneficiary or such after-born beneficiary), of the member shall receive share and share alike, the share that such child would have received were he living at the date of the member's death.

14157. There is a 30-day claim period subsequent to notification of death before drawing a warrant in favor of the designated beneficiary.

14158. Whenever any member of the system dies while in active membership status, including those on a deferred membership status, or within four months after the termination of the member's employment in a status requisite for membership, benefits payable at death, unless a claim by someone other than the designated beneficiary or beneficiaries is filed with the system during the period provided in this article, shall be paid to the beneficiary designated by him on a form provided by the system and on file in the office of the system prior to the death of the member.

14159. Payment to a beneficiary designated in the form on file in the system at the date of death by a warrant drawn prior to any claim under a will or under community property rights constitutes full discharge of any and all liability of the board and system by reason of the member's death.

14160. The board, if the whereabouts of the nominated beneficiary cannot be determined, or if the beneficiary is the estate of the deceased person, may pay to the undertaker who conducted the funeral, or to any person who, or any organization which, has paid the undertaker from funds owned by the person or organization, in its discretion all or a portion of any amount payable under the system, but not to exceed the funeral expenses of the deceased person, or the portion of the expenses paid by the person or organization, as evidenced by the sworn itemized statement of the undertaker, person, or organization and by such other documents as the board may require.

The payment is in full and complete discharge and acquittance of the board and system up to the amount paid.

Article 19. Death Benefits

14180. (a) Except as otherwise provided in Section 14193, 14283, 14284 or 14285 payment pursuant to subdivision (b) of this section shall be made upon receipt of proof of a member's death which occurred:

(1) Before the effective date of his retirement or after that date but before the date upon which the warrant for his first retirement allowance is mailed, including a warrant for an advance payment as permitted by Section 14370, and within four months after the termination of the member's employment in a status requisite for membership in this system, or

(2) While the member was physically or mentally incapacitated for performance of his duty, if such incapacity had been continuous from such termination.

(b) There shall be paid to the designated beneficiary:

(1) The Permanent Fund contributions, without interest, standing to the credit of his individual account, as having been made after July 1, 1935.

(2) The accumulated contributions standing to the credit of his individual account in the Retirement Annuity Fund.

(3) The accumulated contributions, with interest, standing to his credit of his individual account in the Annuity Deposit Fund.

(4) The accumulated shelter contributions standing to the credit of his account.

(5) There shall also be paid an amount, provided from contributions by the state, and payable from the Retirement Annuity Fund, for each completed year of service as a member, not to exceed six and excluding those years of service with respect to which contributions have been refunded and the member had not elected to redeposit, equal to one-twelfth of the salary which would have been earned by the member at the rate of salary at which he was last employed preceding death, assuming engagement in duties for the number of

schooldays during the school year in which such employment existed.

If the last employment preceding death was less than full time, the salary used under this section shall be the salary earned and used in the calculation of contributions in the last preceding year.

14181. In calculating benefits payable upon death before retirement, except in determining qualifications for survivor allowances, a year of service shall be credited for each year during which the member was employed throughout the year on a part-time basis and was engaged in his duties the full amount of time he was required by his employment to be so engaged. Credit for fractional years shall be granted to the extent of the fraction derived by dividing the time during which the member was engaged in his duties within the year, by the time he was required by his employment to be so engaged.

14182. The benefits provided in Section 14180, except as otherwise provided, are payable upon receipt of proof of a member's death which occurred:

(a) While he was employed in a status requisite for membership in this retirement system, and was receiving compensation because of such employment, and before the effective date of his retirement or after such date if under the provisions of Sections 14281 and 14282 he is to be considered as an active member at the time of death, or

(b) While he was serving in the active military service of the United States or in any other service stated in Section 13994 provided that time in such service will qualify for credit as service under this retirement system, or

(c) While the member was physically or mentally incapacitated for performance of his duty, if such incapacity had been continuous from the last day for which compensation was paid to him, or

(d) While he was on a leave of absence without compensation, granted for reason other than mental or physical incapacity for performance of his duty, and within 18 months after the last day for which such compensation was paid, or

(e) Within four months after the termination of the member's employment in a status requisite for membership in this retirement system; provided, first that such death was not included within the provisions of subdivision (c), and, second, that such death does not occur more than 18 months after the last day for which compensation was paid to him, or

(f) Within six months of his last day of service if an application for retirement, filed by the member or on his behalf, was received in the retirement office prior to four months from his last day of service and prior to his death, provided benefits are not payable under Section 14280.

14183. If the member dies after he has rendered six months of service subsequent to his reentry to membership, and be-

fore making an election with respect to the redeposit of the refunded contributions, the service upon which such contributions were based and the service rendered after his reentry shall be included in the determination of the benefits payable under Sections 14180 and 14186.

14184. From the amount determined under paragraph (5) of subdivision (b) of Section 14180 there shall be deducted an amount equal to that portion of the benefit payable on account of the death by a local system or the Public Employees' Retirement System, which is provided from contributions of the employer, and is in addition to the portion of the benefit payable by such systems which is made up of the accumulated contributions of the member, and independently of any optional election made by the person at the time of his retirement, under which he received a reduced retirement allowance and a benefit was provided at his death.

14185. Upon receipt of proof of the death of a retirant there shall be paid to the designated beneficiary the sum of five hundred dollars ($500), to be provided from contributions of the state.

From the death benefit provided in this section, there shall be deducted an amount equal to that portion of the benefit payable on account of death by a local system or by the Public Employees' Retirement System. The deduction shall be made regardless of whether such benefit is payable before or after retirement under such local or state system, from contributions of the employer, independently of any optional election made by the person at the time of his retirement under which he received a reduced retirement allowance and a benefit was provided at his death.

14186. If a member is entitled to be credited with one or more years of service, and, if there has been a break in the member's employment of more than one year, one-half year of such service having been rendered after the end of the last such break, and on account of whose death the benefit provided by Section 14180 is payable:

(a) The surviving wife or surviving dependent husband of the member, who has the care of unmarried children, including dependent stepchildren, of the member who are under 18 years of age or are incapacitated because of a disability which began before and has continued without interruption after attainment of such age, or if there is no such spouse, then

(b) The guardian of surviving unmarried children, including dependent stepchildren, of the member who are under 18 years of age or so incapacitated, if any, or if none, then

(c) The surviving wife or surviving dependent husband of the member, who does not qualify under subdivision (a) of this section, or if none, then

(d) Each surviving parent of the member shall be paid, regardless of the beneficiary designated by the member under Section 14180, the following applicable survivor allowance

under the conditions stated and from contributions of the state:

(1) A widow, or a widower receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has the care of unmarried children, including dependent stepchildren, of the deceased member under 18 years of age or so incapacitated, shall be paid one hundred eighty dollars ($180) per month if there is one such child, or two hundred fifty dollars ($250) per month if there are two or more such children.

If there also are such children who are not in the care of the surviving spouse, the portion of the allowance payable under this subdivision, assuming that these children were in the care of the surviving spouse, which is in excess of ninety dollars ($90) per month, shall be divided equally among all such other children, as the case may be.

(2) If there is no such surviving spouse, or if such surviving spouse dies or remarries and if there are unmarried children, including dependent stepchildren, of the deceased member under 18 years of age or so incapacitated, or if there are such children not in the care of the surviving spouse, such children shall be paid an allowance as follows:

(a) If there is one child, he shall be paid ninety dollars ($90) per month;

(b) If there are two children, they shall be paid one hundred eighty dollars ($180) per month, divided equally between them; and

(c) If there are three or more children, they shall be paid two hundred fifty dollars ($250) per month divided equally among them.

(3) A widow who has attained or attains the age of 62 years, or a widower who has attained or attains the age of 65 years and was receiving at least one-half of his support from the deceased member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has not remarried subsequent to the member's death, shall be paid ninety dollars ($90) per month. No allowance shall be paid under this paragraph while the surviving spouse is receiving an allowance under paragraph (1) of subdivision (d) of this section, or while an allowance is being paid under subparagraph (c) of paragraph (2) of subdivision (d) of this section. The allowance paid under this paragraph shall be seventy dollars ($70) per month while an allowance is being paid under subparagraph (b) of paragraph (2) of subdivision (d) of this section.

(4) If there is no spouse, or children who qualify for a survivor allowance or if such spouse dies or remarries, or if

such children reach age 18 or die or marry prior thereto, or cease to be disabled after reaching such age, each of the member's dependent mother and father who has attained, or attains the age of 62 or 65, respectively, and who received at least one-half of his support from the member at the time of the member's death shall be paid ninety dollars ($90) per month.

14187. Survivor allowances shall be paid from accumulated contributions and interest in the Permanent Fund which are not required for the future payment of annuities, refunds and death benefits.

14188. Survivor allowances shall begin to accrue on the day next following the date of death of the member, or upon the attainment of minimum qualification age, as the case may be, and payments to a surviving spouse or surviving parent, shall continue only until death or remarriage, and to or on account of children, with respect to each child, only until the attainment of age 18 or prior death or marriage or cessation of disability after attainment of such age.

14189. There shall be deducted from the survivor allowance the portion of any survivor allowance provided under a local system, including for this purpose, the portion of any survivor allowance payable under the old-age survivors, disability and health insurance provided by the Federal Social Security Act, and which is provided from contributions of the district operating such local system:

(a) Which is in addition to the portion of such survivor allowance under the local system which is provided by the member's accumulated contributions, and

(b) Which also is in addition to any allowance under any option under the local system elected by the member, according to which his allowance is reduced, and an allowance actuarially equivalent to such reduction is provided for his beneficiary.

14190. A person is not entitled to receive a survivor allowance on account of the death of any member of this system if that person is entitled to receive a similar allowance from the Public Employees' Retirement System.

14191. A dependent parent of a deceased member is not entitled to survivors allowances from this system if at the member's death there were children of the deceased member entitled to receive survivors allowances or similar benefits from the Public Employees' Retirement System.

14192. If, during any calendar year, a surviving spouse or parent to and on account of whom a survivor allowance is payable, earns at least two thousand four hundred dollars ($2,400), or at least two hundred dollars ($200) multiplied by the months, if less than 12, of a calendar year during which such allowance is payable, the allowance thereafter during that year, shall be withheld and not paid the same as if never payable, for any month during which such person there-

after during that year, earns at least two hundred dollars ($200).

If the survivor allowance to a widow, or dependent widower, is reduced under this section the benefit payable on account of surviving children shall be paid in amounts provided by paragraph (2) of Section 14186 as follows:

(a) If there is one child, he shall be paid ninety dollars ($90) per month;

(b) If there are two children, they shall be paid one hundred eighty dollars ($180) per month divided equally between them;

(c) If there are three or more children, they shall be paid two hundred fifty dollars ($250) per month divided equally between them.

14193. Upon the death before retirement of a member who is qualified for service retirement under subdivision (a) of Section 14211, and on account of whose death the benefit provided by Section 14180 is otherwise payable, or who could have qualified for service retirement under subdivision (b) of Section 14211 at the time of his death, a monthly allowance equal to one-half of the monthly retirement allowance prior to modification under options in Section 14280, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be payable:

(a) To the member's widow, or to the member's widower who was receiving at least one-half of his support from the member at the time of the member's death, and with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death provided such widow or widower does not qualify for an allowance under Section 14284; or, (b) if there is no qualifying surviving spouse, or if such spouse dies or remarries, to unmarried children, including dependent stepchildren, of the member, who are under 18 years of age.

The allowances payable under this section are in lieu of the death benefit provided by Section 14070 or by Section 14180, except for the accumulated annuity deposits and accumulated shelter contributions included therein, but a person qualifying for the allowance or such person's guardian may elect, before the first payment on account of it, to receive such death benefit in lieu of the allowance. The member's accumulated annuity deposits and accumulated shelter contributions shall be paid to the person qualifying for the allowance, and the remainder of the accumulated contributions of the member shall be applied toward providing the allowance, and the balance not so provided shall be payable from state contributions.

If the guardian of one or more children otherwise eligible to receive the allowance elects that such death benefit be paid in lieu thereof, there shall be paid to each such child an amount equal to what the child would have received as an allowance hereunder had the election not been made (disregarding in-

terest and the probability of death or marriage), and under the assumption that each monthly allowance would have been divided equally among such unmarried children then under age 18, such amounts to be reduced proportionately if their total would otherwise be in excess of the amount of such death benefit. Any balance of such death benefit remaining after such payments have been made shall be paid to the surviving spouse of the member, or if none, to the surviving children of the member, share and share alike.

14194. The allowance provided by Section 14193 shall begin to accrue on the day next following the date of death of the member, and payments to a surviving spouse shall continue only until death or remarriage, and to or on account of children with respect to each child, until the attainment of age 18 or prior marriage.

14195. If payment of the allowance provided by Section 14193 is stopped because of remarriage of the surviving spouse, or the attainment of the age of 18 years by a child, before the sum of the monthly payments made, equals the death benefit provided by Section 14180, exclusive of accumulated annuity deposits and shelter contributions, a lump sum equal to the difference shall be paid to the remarried spouse, or if there is no such spouse, to the surviving children of the member, share and share alike.

14196. From the monthly allowance payable under Section 14193, there shall be deducted a total amount equal to that portion of the benefit payable on account of the death by a local system, which is provided from contributions of the district operating the system, and is in addition to the portion of the benefit payable by the local system which is made up of the accumulated contributions of the member, and no monthly allowance shall be paid under this section until the total amount deducted equals the portion provided by district contributions.

14197. If the member, on account of whose death an allowance is payable under Section 14193 was a member of a local system, his surviving spouse who is eligible to receive the allowance, or, if none, the guardian of his children under 18 years of age shall have the right to elect to deposit in the Retirement Annuity Fund, an amount equal to that which the member would have had the right to deposit if he had retired for service and then had ceased to be entitled to benefits from the local system on the day of his death.

In the event that such deposit is made within 90 days after the date a notice of the right to make such deposit is mailed to the person having the right to make the deposit, the monthly retirement allowance prior to optional modification, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be calculated as if he had ceased to be entitled to retirement benefits from the local system, and had deposited such contributions. Any

amount so deposited shall be included as having been made by the member, in determining the death benefit provided by Section 14180.

If such deposit is not made the allowance shall be calculated as if the member had not deposited such contributions.

Article 20. Retirement—General Provisions

14210. Retirement shall become effective and the retirement allowance shall begin to accrue upon the date designated by the person as the effective date of retirement, or upon the day following the last day of service for which salary is payable to the person, whichever is later.

In no event shall the retirement become effective or retirement allowance begin to accrue earlier than the first day of the month in which the application is received at the office of the board, in Sacramento, or earlier than the date upon and continuously after which he is determined to the satisfaction of the board to have been mentally incompetent.

14211. Any member who comes within any of the following descriptions may be retired for service at his option upon written application therefor to the board:

(a) Who has attained age 55 years or more and who has served for at least five years in this state, if five of the final six years of service have been in this state.

(b) Who is credited with service which is not used as a basis for benefits under any other public retirement system, except a local system, provided he retires after June 30, 1953, and retires concurrently under the Public Employees' Retirement System as a state member of that system, or as an employee of a local school district or of a superintendent, or under the retirement system of the University of California.

In the calculation of allowances of members who qualify for retirement under subdivision (b) of this section, and who are not qualified for retirement under subdivision (a) of this section, there shall be excluded any service rendered in other states of the United States, its territories and possessions or in the Dominion of Canada.

Application for retirement under subdivision (b) may be made at any time, and such applicants are not subject to the provisions of Section 14218.

14212. In determining qualification for retirement, a year of service shall be credited for each year during which the member was employed throughout the year on a part-time basis and was engaged in his duties the full amount of time he was required by his employment to be so engaged. Credit for fractional years shall be granted to the extent of the fraction derived by dividing the time during which the member was engaged in his duties within the year, by the time he was required by his employment to be so engaged.

14213. A member may be retired for disability only if he:

(a) Is credited with five or more years of service, the last five of which have been served in this state, or

(b) Is credited with service rendered in this state and is being retired concurrently under the Public Employees' Retirement System as a state member thereof, or under a retirement system of the University of California, or

(c) Has attained the age at which classification of persons as permanent employees of school districts ceases, and is credited with five or more years of service, the last four of which have been served in this state.

A member qualifying under subdivision (c) shall be deemed to be incapacitated for further service and he shall be retired upon his application.

14214. Any member who is qualified for retirement for disability and who is physically or mentally incapacitated for further service may be retired for disability by the retirement board upon his application, or upon the application of his employer, if the retirement board determines, on the basis of competent medical opinion secured by it, that the incapacity is of a permanent or of an extended and uncertain duration, and such application is made:

(a) While the member is employed in a status requisite for membership in this system and is receiving compensation because of such employment, or

(b) While he is serving in the active military service of the United States, or in any other service stated in Section 13994 provided that time in such service will qualify for credit as service under this system, or

(c) While he is physically or mentally incapacitated for performance of his duty and such incapacity has been continuous from the last day for which compensation was paid to him, or

(d) While he is on a leave of absence without compensation, granted for reason other than serving in services included in subdivision (b) of this section, or mental or physical incapacity for performance of his duty, and within 18 months after the last day of employment for which compensation was paid, or

(e) When he is retired concurrently under the Public Employees' Retirement System as a state member thereof, or under a retirement system of the University of California, or

(f) Within four months after the termination of the member's employment in a status requisite for membership in this retirement system provided, first, that such application was not made under the provisions of subdivision (b) or (c), and, second, that such application was not made more than 18 months after the last day for which compensation was paid to him.

14215. If, prior to attaining the age of 55 years, a person who is entitled to receive a retirement allowance because of his retirement for disability, engages in a gainful occupation not in a status requisite for membership in the retirement sys-

tem, the board shall reduce the portion of his monthly retirement allowance which is not provided by his accumulated contributions, to an amount, which when added to the compensation earned monthly by him, does not exceed the amount of the compensation which would be earnable by a person holding the same or an equal position as or to that which he held at the time of his retirement, and in the same salary step or rating, or if no such position then exists such compensation earnable immediately prior to its abolition.

If his earnings are further altered, the board shall further alter such portion of his retirement allowance to the lower of the following amounts:

(a) The amount of such portion of his retirement allowance as it would be if not reduced under this section.

(b) An amount which, when added to the compensation earned by him, equals the amount of the compensation which would be earnable by a person holding the same or an equal position as or to that which he held at the time of his retirement, and in the same salary step or rating, or if no such position then exists, such compensation earnable immediately prior to its abolition.

For purposes of this section the retirement allowance subject to adjustment is the unmodified allowance irrespective of the option elected.

When he attains the age of 55 years, his retirement allowance shall be made equal to the amount it would be if not reduced under this section, and may not again be modified under this section.

14216. Every application for retirement shall state the date on which the member desires to retire.

Such application shall be executed within a period of time as prescribed by the board.

14217. Failure of a member to complete the documents required for retirement, within 180 days after receipt of the application for retirement in the office of the board in Sacramento, makes the application null and void.

14218. If the last day of a member's service was rendered prior to July 1, 1935, he shall have the right to make application for retirement, only after rendering additional service in a status requisite for membership in this system, of not less than two years, after June 30, 1950.

14219. Notwithstanding the provisions of Section 14218 a member has the right to make application for retirement, after rendering additional service in a status requisite for membership in this system, of not less than one year after June 30, 1950.

This section shall remain in effect until the 61st day after the final adjournment of the 1969 Regular Session of the Legislature, and shall have no force or effect after that date.

14220. The board may require any retirant retired for disability who has not attained the age of 58 years, to undergo

a medical examination. If the examination, together with other available information, shows to the satisfaction of the board that he is no longer disabled, his retirement allowance shall cease, and he shall be reinstated to membership in the system.

14221. Unless specifically provided to the contrary, no person retired for service shall accept employment in a status requisite for membership in the system, or in any teaching capacity in a public school, within two years after the effective date of retirement. In no event shall a person accept such employment until after notifying the board at its office in Sacramento, and if retirement is for disability, until the board has determined by medical examination that he is no longer disabled. If any person fails to comply with these requirements the employment shall be invalid.

14222. If any person retired pursuant to this article is reemployed in a status requisite to membership in the system or in any teaching capacity in a public school, or if any person retired for disability ceases to be incapacitated, his retirement allowance shall cease, and he shall be reinstated to membership in the system.

14223. Upon cancellation of the retirement allowance, the person's individual account shall be credited with amounts which are the actuarial equivalents, at that time, as based on a disabled life, where retirement had been for disability, or on an active life where retirement had been for service of the annuities being paid from the respective fund at the date of reinstatement, not to exceed the amount of his accumulated contributions as they were at the date of retirement.

The person's account shall be credited with the Permanent Fund contributions, whether made by him prior to or after retirement with respect to service rendered prior to July 1, 1944.

14224. If the person reenters service, his rate of contribution to the Retirement Annuity Fund shall be the rate applicable at his then attained age.

14225. Any retirant who retired for service, whose last employment as a member of the system prior to such retirement was in a state college, may, without reinstatement from retirement of any loss or interruption of benefits under this part, serve as a member of the teaching staff of a state college provided that such service does not exceed 90 teaching days in any one fiscal year, and the compensation payable to such persons for such service does not exceed three thousand dollars ($3,000) in that fiscal year.

14226. Any retirant who retired for service may be employed as a substitute in a position requiring certification qualifications, or as a teacher who provides remedial instruction, or as a home teacher, or as a hospital teacher, or as a curriculum writer or consultant in a field in which he is specially qualified, or as a teacher in a resthome for the aged, or in a community center, or pursuant to Section 25558 or

25804 as a substitute in a position requiring certification qualifications at the California School for the Deaf or the California School for the Blind, and may be paid not more than two thousand five hundred dollars ($2,500) in any one fiscal year.

Such employment does not operate to reinstate the retirant as a member of this system, or to terminate or suspend his retirement allowance, and no deductions shall be made from his salary as contributions to this system. Such person may be reemployed only if able to pass a physical examination prescribed by the Board of Education.

A certificate from a physician or surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code showing that he has submitted to and passed a physical examination within the immediately preceding 12-month period and filed with the county superintendent, or, in the case of a person to be employed as a substitute in a position requiring certification qualifications at the California School for the Deaf or the California School for the Blind, filed with the State Department of Education, shall be conclusive evidence of his passing the physical examination required by this section.

Article 21. Benefits for Service Retirement

14240. Upon retirement for service, a member shall receive a retirement allowance which shall consist of:

(a) A monthly retirement salary derived from the Permanent Fund, equal to the fraction of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed 30 years, bears to 30 years, set forth in Section 14246, opposite his age at retirement, taken to the preceding completed quarter year, in the column applicable to his sex, and

(b) A retirement annuity derived from the Retirement Annuity Fund based upon the number of years of service credited to him, less any service for which he is entitled to receive retirement benefits under a local retirement system, computed pursuant to Section 14245, and

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement, and

(d) A "shelter annuity" which shall be the actuarial equivalent of the accumulated shelter contributions standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14280, and exclusive of the annuities derived from accumulated annuity deposits, and accumulated shelter contributions, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund which,

when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local system, shall equal the retirement allowance prior to optional modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he did not make annuity contributions. However, no amount shall be paid under this paragraph to any retired person who has the right to receive a retirement allowance from a local system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local system, and if such a retired person exercises his right, only if some amount is then payable under this paragraph.

14241. Any person who is credited with 30 or more years of service shall receive an allowance of at least fifty dollars ($50) per month if at least one-half of his credited service was rendered prior to July 1, 1956.

This section applies to persons whose retirement becomes effective on and after July 1, 1956.

14242. For the purpose of calculating retirement allowances, credit for service rendered between June 30, 1956, and July 1, 1968, on a part-time basis in each school year shall be based on the ratio that service rendered bears to the minimum full-time service required for credit for a year of service.

14243. If a retirant is at least 60 years of age at the time of retirement, the amount of the retirement allowance provided by subdivisions (a) and (b) of Section 14240, when added to the unmodified allowance from a local system shall be at least eighty dollars ($80) per year, multiplied by the number of the retirant's years of service, up to 40.

If the retirant is less than 60 years of age at the time of retirement, the amount of the minimum retirement allowance is the allowance provided herein multiplied by the fraction in Section 14246 applicable to the retirant.

No such minimum retirement allowance may exceed 75 percent of the final compensation of the retirant.

14244. If a retirant reenters the system as a member and subsequently retires, the minimum retirement allowance is the allowance provided by Section 14243 multiplied by the fraction in Section 14246 applicable to the member. The total time spent as a retirant shall be deducted from the member's age for purposes of determining the fraction applicable to him.

No such minimum retirement allowance may exceed 75 percent of the final compensation of the retirant.

14245. Upon retirement for service a member shall receive an annual annuity, sufficient when added to the portion of

the retirement salary computed pursuant to Section 14240 or 14241, on the basis of his service for which he is not entitled to receive benefits from a local retirement system, but excluding his service for which he has not deposited contributions in the Retirement Annuity Fund following a change in membership status, pursuant to Article 29 (commencing with Section 14440) of this chapter, to equal the fraction of one-sixtieth (1/60th) of his final compensation, set forth opposite his age at retirement, in Section 14246 taken to the preceding completed quarter year, in the column applicable to his sex, multiplied by the number of years of his credited service not counting any service for which the member is entitled to retirement benefits from a local retirement system:

The fractions herein set forth at ages other than sixty (60) are based on the interest rate and mortality tables used under the system on July 1, 1962, and shall be adjusted by the board in accordance with such interest rate and mortality tables as the board may adopt.

Article 22. Benefits for Disability Retirement

14260. Upon retirement for disability, a member shall receive a retirement allowance which shall consist of:

(a) A retirement salary derived from the Permanent Fund, payable monthly equal to the retirement salary calculated under subdivision (a) of Section 14240 if the member has attained the age of 60 years at the effective date of his retirement; or if the member has not attained such age, a retirement salary payable monthly equal to ninety percent (90%) of an amount which bears the same ratio to fifty dollars ($50) as the number of years of service credited, not to exceed thirty (30) years, bears to 30 years, and

(b) A disability annuity, derived from the Retirement Annuity Fund, computed pursuant to Section 14262, and

(c) An annuity which shall be the actuarial equivalent of the accumulated annuity deposits standing to the credit of his individual account at the time of his retirement, and

(d) A shelter annuity which shall be the actuarial equivalent of the accumulated shelter contributions standing to the credit of his individual account at the time of his retirement.

Such retirement allowance, prior to modification under options in Section 14280, and exclusive of the annuities referred to in subdivisions (c) and (d) of this section, shall be at least an amount, by increase in the annuity under the Retirement Annuity Fund, which, when added to the retirement allowance, prior to optional modification, the person is entitled to receive from a local system, shall equal the retirement allowance, prior to option modification, to which the person would be entitled under this system if he were not entitled to any allowance from a local system, minus one-half the retirement annuity on account of service rendered after June 30, 1944, to which the person would be so entitled, but for which he

did not make annuity contributions. However, no amount shall be paid under this section to any retired person who has the right to receive a retirement allowance from a local system upon his subsequent attainment of a minimum age after the retired person attains that minimum age unless he affirmatively exercises his right to receive the retirement allowance from the local system, and if such a retired person does so exercise his right, only if some amount is then payable under this paragraph.

14261. Upon retirement for disability, a retirant who has attained age 60 at the effective date of retirement shall receive a disability annuity, derived from the Retirement Annuity Fund equal to the annuity provided by Section 14245.

14262. Upon retirement for disability a retirant who has not attained age 60 at the effective date of retirement shall receive a disability annuity from the Retirement Annuity Fund equal to:

(1) Ninety percent (90%) of the sum of the annuity payable to him under Section 14245 at the age of 60 years, on the basis of his final compensation at retirement, and service rendered up to the effective date of his retirement, or

(2) If he is entitled to be credited with at least 10 years of service in this state, and the resulting disability retirement allowance does not exceed one-fourth of his final compensation, ninety percent (90%) of the sum of the annuity payable to him under Section 14245 at the age of 60 years, on the basis of his final compensation at retirement, and the service which would be creditable to him were his service to continue until he reaches age 60.

If he is entitled to receive a retirement allowance from another retirement system to which the state or university contributes, the amount of such allowance shall be deducted from the amount otherwise payable under subdivision (2) except that such reduced amount shall not be less than the amount payable under subdivision (1).

14263. In no event shall the disability annuities under Section 14262 be more than sufficient to make the disability retirement allowance, exclusive of any annuities provided by accumulated annuity deposits and accumulated shelter contributions, exceed the service retirement allowance, exclusive of any annuities purchased by accumulated annuity deposits and accumulated shelter contributions receivable by the member should he continue until retirement at age 60.

14263.5. The retirement allowance under Section 14260, exclusive of the annuities in subdivisions (c) and (d) of that section, when added to the unmodified allowance from a local system shall be at least 90 percent of minimum allowance provided by Section 14243 upon retirement at age 60, or if the fraction applicable in that section for a retirant less than age 60 is greater than 90 percent, the service retirement fraction shall apply.

No such minimum retirement allowance may exceed 75 percent of the final compensation of the retirant.

14264. In no event shall the retirement allowance for disability, exclusive of any annuity provided by accumulated annuity deposits and accumulated shelter contributions, be less than the amount of the service retirement allowance, exclusive of any annuity purchased by accumulated annuity deposits and accumulated shelter contributions, which the retiring member would have received if he had retired for service instead of disability.

Article 23. Options

14280. Before the warrant for his first retirement allowance is mailed, any member may elect to receive the actuarial equivalent of the retirement allowance payable throughout life with the provision that:

Option 1. If he dies before he has received in payments provided by his total contributions (which for the purposes of this section, shall include only his accumulated annuity contributions, his accumulated annuity deposits, his accumulated shelter contributions and his Permanent Fund contributions based on service after June 30, 1944, and interest credited thereon), the amount of such total contributions as it was at the time of his retirement, the balance of such total contributions shall be paid to his estate or to such person as he has nominated by written designation duly executed and filed with the board; or

Option 2. Upon his death his reduced retirement allowance shall be continued throughout the life of and paid to such person as he has nominated by written designation duly executed and filed with the board at the time of his election; or

Option 3. Upon his death, one-half of his reduced retirement allowance shall be continued throughout the life of, and paid to such person as he has nominated by written designation duly executed and filed with the board at the time of his election.

An election made under this section may be revoked or changed by him at any time prior to the mailing of the warrant for his first retirement allowance.

14281. If any person dies after the effective date of his retirement, and within 30 days from the date upon which the election or changed election is received in the office of the system at Sacramento, then the election shall be void and of no effect, and he shall be considered as an active member at the time of death.

If, however, the death occurs before the changed election is effective under this section, the prior election will be considered as valid if it was filed in the retirement office at least 30 days prior to the death.

14282. If any person who has elected option 1 dies after the effective date of his retirement and before the mailing of the warrant for his first retirement allowance, then the election shall be void and of no effect, and he shall be considered as an active member at the time of death, irrespective of whether or not the 30-day period had elapsed before his death.

14283. If any person who elected option 2 or 3 dies after the effective date of his retirement and after the 30-day period had elapsed, then the election of the option shall be in full force and effect.

14284. Any member who has qualified for service retirement under Section 14211 may elect, as provided in Section 14280, and without right of revocation or change after approval of the election by the retirement board, to receive the actuarial equivalent as of the date of his retirement, of the retirement allowance payable to him when and if he retires for service or disability in a reduced retirement allowance according to the provisions of either option 2 or option 3 as stated in Section 14280. If such a member at the time of making the election has a living spouse who would qualify for an allowance under Section 14193, the election under this section shall be invalid and of no effect unless and until the consent of such spouse to it is filed at the office of the retirement system in Sacramento, California. If the death of such member occurs within 30 days after the date upon which the election is received in the office of the system in Sacramento, California, then the election shall be void and of no effect and he shall be considered as an active member at the time of death.

Upon such member's death at least 30 days after the date upon which the election is received in the office of the system in Sacramento, California, and prior to the effective date of his retirement, the person who was nominated by him under the option he elected and who survives him, shall receive an allowance calculated under such option, upon the assumption that such member retired for service on the date of his death and died immediately thereafter. The payment of such allowance to such person shall be in lieu of both the death benefit provided by Section 14070 or Section 14180 and the allowance provided by Section 14193, and no death benefit or such allowance shall be paid on account of such death to any person or beneficiary, regardless of whether the person nominated under the option elected, survives the member.

If such member subsequently retires for service or disability, he shall receive, regardless of whether the person nominated by him under the option elected is then living, a reduced allowance according to the provisions of Section 14280 and the option elected, and he shall be subject to Section 14281.

The amount of the allowance prior to optional modification shall be calculated on the basis of the member's age at death

before retirement, or at retirement, as the case may be, but the reduction of such allowance under the option elected shall be based on the ages of such member and the person nominated by him under such option, at the effective date of such election.

14285. If the member, on account of whose death an allowance is payable under Section 14284 was a member of a local system, the person who was designated by him under Section 14284 shall have the right to elect to deposit in the Retirement Annuity Fund, an amount equal to that which the member would have had the right to deposit if he had retired for service and then had ceased to be entitled to benefits from the local system on the day of his death.

In the event that such deposit is made within 90 days after the date a notice of the right to make such deposit is mailed to the person having the right to make the deposit, the monthly retirement allowance prior to optional modification, which the member would have been entitled to receive if he had retired for service on the date of his death, shall be calculated as if he had ceased to be entitled to retirement benefits from the local system, and had deposited such contributions.

If such deposit is not made the allowance shall be calculated as if the member had not deposited such contributions.

Article 24. Multiple Retirements—Disability Then Service

14300. This article applies to a person who had been retired for disability, thereafter reentered membership in the system and subsequently retires for service.

14301. A retirant under this article shall receive an annuity based upon his credited service and salary from the date of reentry to the date of his subsequent retirement and calculated under Section 14240.

14302. If less than one year of credited service is rendered after last reentry, a retirant under this article shall also receive annuities equal to the annuities he received prior to his last reentry, adjusted according to any change in the provisions governing the calculation of retirement allowances made after such reentry and applicable to allowances being paid at the date of the change, or, if less, annuities based on the same salary and service which were the basis of the annuities he received immediately before reentry but calculated under Section 14240 on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was retired.

14303. If one or more years of credited service are rendered after last reentry, a retirant under this article shall also receive annuities based on the same salary and service as that upon which the annuities he receives immediately before reentry were based, but calculated under Section 14240 on the basis of an age, taken to the preceding com-

pleted quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement, except that such adjusted age shall not be less than 55.

If the member renders five years of credited service after his last reentry into membership, the salary earnable by him after his reentry shall be used in the calculation of benefits due for service rendered prior to such reentry into membership.

14303.5. A retirant under this article shall receive a retirement salary based upon his credited service from the date of reentry into the system to the date of his subsequent retirement, and calculated under Article 21 (commencing with Section 14240).

14304. If less than one year of credited service is rendered after last reentry, a retirant under this article shall also receive a retirement salary equal to the retirement salary he received immediately before reentry, adjusted according to any change in the provisions governing the calculation of retirement allowances made after such reentry and applicable to allowances being paid at the date of the change, or, if less, a retirement salary based on the same service which was the basis of the retirement salary he received immediately before reentry but calculated under Section 14240 on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement.

14305. If one or more years of credited service is rendered after last reentry, a retirant under this article shall receive the retirement salary based on the same service as that upon which the retirement salary he received immediately before reentry was based, but calculated under Section 14240 on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement. Such adjusted age may not be less than 55.

Article 25. Multiple Retirements—Other

14310. This article applies to a person who had been retired, thereafter reenters membership in the system, and subsequently retires and

(a) The previous and subsequent retirements were all for service or all for disability, or

(b) The previous retirement was for service and the subsequent is for disability.

14311. A retirant under this article shall receive an annuity based upon his salary earned in service from the date of reentry into the system to the date of his subsequent retirement and calculated under Article 21 (commencing with

Section 14240), or Article 22 (commencing with Section 14260), whichever is applicable.

14312. If less than one year of credited service is rendered after reentry, a retirant under this article shall also receive annuities equal to the annuities he received immediately before his reentry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances made after the reentry and applicable to allowances being paid at the date of the change.

14313. If one or more years of credited service is rendered after last reentry is rendered, a retirant under this article shall also receive annuities based on the same salary and service as that upon which the annuities he received immediately before his last reentry were based, but calculated under Article 21 (commencing with Section 14240) or Article 22 (commencing with Section 14260), whichever is applicable, on the basis of an age, taken to the preceding completed quarter year, and determined by deducting from his age at his subsequent retirement, the aggregate time during which he was under retirement. If the subsequent retirement is for disability such adjusted age shall not be less than the age at which the member would have received 90 percent of the benefit payable for retirement at age 60 if the retirement had been for service.

If the member renders five years of credited service after his last reentry into membership, the compensation earnable by him after his last reentry shall be used in the calculation of benefits due for service rendered prior to such reentry into membership.

14314. A retirant under this article shall receive a retirement salary based upon his credited service from the date of reentry into the system to the date of his subsequent retirement, and calculated under Article 21 (commencing with Section 14240) or Article 22 (commencing with Section 14260), whichever is applicable.

14315. If less than one year of credited service is rendered after his last reentry, a retirant under this article shall also receive a retirement salary equal to the retirement salary he received immediately before his last reentry into membership, adjusted according to any change in the provisions governing the calculation of retirement allowances made after the reentry and applicable to allowances being paid at the date of the change.

14316. If one or more years of credited service is rendered after his reentry, a retirant under this article shall receive a retirement salary based on the same service as that upon which the retirement salary he received immediately before reentry was based, but calculated under Article 21 (commencing with Section 14240) or Article 22 (commencing with Section 14260), whichever is applicable, on the basis of an age, taken to the preceding completed quarter year, and determined

by deducting from his age at his second retirement, the aggregate time during which he was under retirement.

Article 26. Increases in Retirement Benefits

14330. Monthly allowances payable by the system to a retirant or his beneficiary commencing on July 1, 1967, are increased by the amount set forth in this article.

14331. This article applies to allowances payable to the survivor of a deceased person under the provisions of Sections 14193, 14280, and 14284, but not those payable under Section 14186.

14332. The increase is an amount derived by applying the percentage set forth in the following table opposite the period during which the retirement was effective, to so much of the allowance which otherwise would be payable for such time, excluding any annuity provided by accumulated annuity deposits or accumulated shelter contributions and prior to any modification under an option, which does not exceed three hundred dollars ($300):

Period during which retirement became effective	Percentage of increase in monthly allowance
1. Prior to and including July 1, 1956	23
2. 12 months ending on July 1, 1957	19
3. 12 months ending on July 1, 1958	14
4. 12 months ending on July 1, 1959	13
5. 12 months ending on July 1, 1960	10
6. 12 months ending on July 1, 1961	9
7. 12 months ending on July 1, 1962	7
8. 12 months ending on July 1, 1963	6
9. 12 months ending on July 1, 1964	4
10. 12 months ending on July 1, 1965	2
11. After July 1, 1965	0

14333. If the retirant elected to receive his allowance under option two or three and if the beneficiary named by him under the option is living on July 1, 1967, then the increase is determined by applying the percentage to the modified allowance payable subject to the same limitation specified for the unmodified allowances.

14334. If the allowance payable on July 1, 1967, is due a beneficiary, the percentages shall be applied to so much of the monthly allowance payable on that date, excluding annuities from the Annuity Deposit Fund or from sheltered contributions, which does not exceed three hundred dollars ($300) and shall be based on the effective date of the member's retirement if the allowance is payable under Section 14280, or the date of the member's death if payable under Section 14193 or 14284.

14335. This article does not give any retirant, or his successors in interest, or his beneficiary, any claim against the system for any increase in any allowance paid or payable prior to July 1, 1967.

Article 27. Advances on Retirement Allowances

14370. Whenever the board determines that payments to a member who has applied for retirement cannot be made until after the first day of the month following that month for which such payments are due, the board may present claims for advances on retirement allowances which would normally be due a retirant of the system estimated on preliminary information in the possession of the board, and the State Controller shall draw warrants in payment of such claims.

14371. Any loss incurred in connection with an advance payment shall be a charge against the fund from which the payment was derived.

Such advances to an individual may not be made in excess of the amount of Permanent Fund contributions and accumulated Retirement Annuity Fund contributions credited to his account and shall be a lien on such contributions until otherwise accounted for.

14372. Upon the mailing of the first warrant drawn pursuant to this article the member shall be considered as a retirant, except for persons receiving advance payments under Section 14374, and subject to all of the provisions of this chapter which apply to such persons, except that any additional contributions required shall be due and payable when the system has mailed to the member a statement of the amount so due, and also except that any refund due the member shall be made not later than 90 days after termination of payments under this section.

14373. If any such advances are more or less than the correct amount due to the member, or beneficiary of the member receiving the advances, the difference between such correct amount and the advance shall be adjusted in subsequent payments to such retirant or beneficiary, or the State Controller may state an account with the member or beneficiary, pursuant to Government Code Section 12419.

14374. Whenever the board determines that payments to a member who has applied for retirement, and who has expressed an interest in an option but has not made his final election, cannot be made until after the first day of the month following that month for which such payments are due, the board may present claims for advances on retirement allowances which would normally be due a retired member of the system estimated on preliminary information in the possession of the board, and the State Controller shall draw warrants in payment of such claims.

If the member has expressed an interest in option 2 or option 3, the advance payment shall be in the amount of the monthly payment due on the assumption that the member had elected to modify his allowance under option 2.

14375. If a member receiving payments under this article has made an election of option 2 or option 3, and dies after

30 days from the date such election is received in the retirement office in Sacramento, the member shall be considered as a retirant on the date of death and his beneficiaries shall be entitled to the benefits provided in his chapter for payments ordinarily due on account of the death of a retirant.

In the event of the death of a person receiving payments under Section 14374 who has not made such an election of option 2 or 3 or if death occurs within 30 days from the date of filing such an election, the person shall be considered as an active member on the date of death and the benefits payable to beneficiaries, or to other persons as prescribed by law, shall be in the amounts which are ordinarily payable under Section 14180 upon the death of an active member.

14376. Warrants drawn pursuant to this article shall not be considered as warrants drawn in payment of retirement allowances pursuant to the provisions of Section 14280, and the member may make a final selection of an option following the mailing of warrants drawn pursuant to this article. If the member does not make his final election of an option within 30 days of the date of mailing by the board of a notice containing information on the prospective modified benefits as requested by the member, payments under this section shall be terminated.

Article 28. Procedures Concerning Payment

14390. The first and last payments of any monthly benefit due to or on account of any beneficiary may be made in smaller pro rata amounts if the benefits begin after the first day of the month or end before the last day of the month.

14391. Upon receipt of proof satisfactory to the board, that a warrant drawn in payment of a retirement allowance or in payment of any other account due from the system, has been lost, the Controller upon the request of the board shall issue a duplicate warrant in payment of the same amount, without requiring a bond from the payee, and any loss incurred in connection therewith shall be charged against the fund from which the payment was derived.

14392. Persons entitled to receive allowances under this system may authorize deductions to be made from such allowances, in accordance with regulations established by the board, for the payment of group insurance premiums or dues or other charges of any plan of health and welfare benefits, as defined in Section 53200 of the Government Code.

No deductions may be made for the payment of such premiums, dues or other charges under any such policy or plan, unless the active and retired persons enrolled under such policy or plan, total not less than 1,000 in number.

14392.5. Retirants and beneficiaries, who are entitled to receive allowances under the provisions of this chapter, may authorize deductions to be made from their retirement allowance payments, in accordance with regulations established by

the board for the payment of group life insurance premiums for a group life insurance plan approved by the Director of Finance.

14393. Payment pursuant to the board's determination in good faith of the existence, identity or other facts relating to entitlement of persons constitutes a complete discharge of and release of the system from liability for the benefit so paid.

14394. Any retirement allowance payable to a retirant, which has accrued and remains unpaid at the time of his death, shall be paid to:

(a) The beneficiary entitled to payment in accordance with an optional settlement chosen by the member, or

(b) The beneficiary entitled to receive the lump sum death benefit provided upon death of a retirant if the member has not chosen an optional settlement, or

(c) The estate of the retirant, if there is not a beneficiary entitled under either (a) or (b).

14395. Notwithstanding the provisions of Sections 161a and 172 of the Civil Code relating to community property interests, whenever payment or refund is made by this system to a member, former member, beneficiary of a member or estate of a member pursuant to any provision of this chapter, such payment shall fully discharge this system from all adverse claims thereto unless, before such payment or refund is made, this system has received at its office in Sacramento written notice by or on behalf of some other person that such person claims to be entitled to such payment or refund.

14396. Where the member or retirant and the beneficiary have died and there is no sufficient evidence that they have died otherwise than simultaneously the proceeds of any death benefit shall be distributed as if the member had survived the beneficiary.

14397. If any person entitled to a benefit from the system is a minor who has no guardian of his estate, the benefit, not to exceed two thousand dollars ($2,000), may be paid to the person entitled to the custody of the minor to hold for the minor, upon the written statement, duly acknowledged and verified, of the person that the total estate of the minor does not exceed two thousand five hundred dollars ($2,500) in value.

The payment shall constitute full discharge of any and all liabilities of the board and system.

The person shall account to the minor for the money when the minor reaches the age of majority.

14398. Whenever any warrant drawn in payment of contributions or accumulated contributions or benefits under this system remains unclaimed or the claimant cannot be found, the proceeds of such warrant shall be redeposited in the fund, and held for the claimant without further accumulation of interest, and such redeposit shall not operate to reinstate the membership of the claimant in this system.

The proceeds revert to and become a part of the contributions of the state for the respective year, and shall be applied to meet the liabilities of the state on account of which the contributions were made.

14399. The board may credit the proceeds of any unclaimed benefit due under this chapter directly to the contributions of the state for the respective year if it determines that the legal claimant to the benefit cannot be located. Any amount credited by the board under this authority shall be administered as provided in Section 14398.

14400. The provisions of Section 14399 apply to warrants drawn under this system and canceled by the Controller pursuant to Section 17070 of the Government Code, except that upon notice of cancellation, the proceeds revert to and become a part of the contributions of the state, for the respective year, and shall be applied to meet the liabilities of the state on account of which such contributions were made.

14401. The board may at any time, after reversion of proceeds to the state under Sections 14398, 14399 and 14400, and upon receipt of proper information satisfactory to it, return from state contributions, an amount equal to such proceeds, to the credit of the claimant to be administered in the manner provided under this system.

Article 29. Change in Membership Status

14440. If a member of this system who is or has been a member of another retirement system ceases to be entitled to retirement benefits from the other retirement system for any service rendered after July 1, 1944, which qualifies for credit under this system and for which he has not contributed to the Retirement Annuity Fund under Section 14026, but continues to be a member of this system, upon receipt of refund of his contributions to the other system, he may elect at any time prior to retirement to deposit in the Retirement Annuity Fund an amount equal to the contributions which he would have been required to make during such service if he had not then been a member of the other retirement system, with regular interest from the first of the year next following the date on which such contributions would have been payable to the first of the month following the date such election is received in the office of the system in Sacramento, California, with regular interest.

14441. Subject to minimum payments and time limits fixed by the board, the member may make the deposit of the amount in one or more sums.

If the deposit is not made within 30 days after the election to deposit is received in the office of the system in Sacramento, California, the member shall also pay interest on the unpaid portion of the amount at the same rate.

14442. Unless such deposit is made the member shall not be entitled to benefits from the Retirement Annuity Fund

based upon service rendered after July 1, 1944, for which he has not contributed to the Retirement Annuity Fund pursuant to Section 14026, and the minimum retirement allowance applicable to such member is the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity which would have been the actuarial equivalent of such deposit.

14443. If the member elects to make the deposit, his rate of annuity fund contributions with respect to service rendered after the first of the month in which the election is received in the office of the system in Sacramento is based on his age at the beginning of the service under the other retirement system after July 1, 1944, or on a lower age, as determined under this chapter, because of other credited service.

If the member does not make the election to deposit, his rate of annuity fund contributions shall be determined under this chapter.

14444. If a member elects to make the deposit and does not make it in accordance with rules established by the board, the election shall be canceled and his rate of annuity fund contributions shall be determined retroactively under this chapter and as it would have been had the election not been made.

In such case, any payments made under the election shall be refunded to the member after deducting any retirement annuity fund contributions due because of the adjustment in his rate.

14445. If a member, who has been an employee of a district which has paid employer contributions to the federal government under the Federal Social Security Act, ceases to be entitled to benefits under another retirement system, except social security, he may deposit contributions and interest as provided in Section 14440, and notwithstanding the provisions of Sections 14240 and 14245, the member is entitled to credit for service as a non-local-fund member. If the member deposits such contributions and interest his benefit under this chapter shall be reduced by an amount equal to the pro rata portion of one-half of his individual social security benefit calculated on the service on which such employer contributions were based.

14446. If a member of this system becomes entitled to retirement benefits from a local system for service, and has made contributions to the Retirement Annuity Fund based on salary paid for such service, the accumulated annuity contributions based on that salary shall be refunded to him.

14447. If a retirant ceases to be entitled to benefits from a local system, on account of which service was excluded in the calculation of his annuity, but who continues to be retired under this system, he is entitled to an annuity on account of such service. Such annuity shall be effective on the first day of the month in which he notifies the board at its office in Sacramento, if within 90 days after the effective date the retirant deposits in the Retirement Annuity Fund an amount equal to

the contributions which he would have been required to make to the fund during service rendered after June 30, 1944, if he had not then been a member of the local system, less the portion of the annuity which would have been payable prior to said date, and an amount equal to that which was not paid to the local district under Section 14122 or 14131 with interest on the balance of the contributions remaining, after deducting the portion as it would have been paid from month to month, from the first of the year next following the date on which such contribution would have been payable to the date the deposit is made at the current rate of interest credited to retirement fund contributions, the annuity shall be calculated with respect to all such service on the basis of the effective date of retirement of such person.

14448. If deposit of such contributions and interest is not made as provided in Section 14447, the annuity shall be calculated in the same manner, but including only such service rendered prior to July 1, 1944, and the minimum retirement allowance applicable to such member shall be the minimum allowance calculated as if the deposit were made, and then reduced by the amount of the annuity equaling the actuarial equivalent of such deposit.

14449. If a person, after retirement, becomes entitled to a benefit from a local retirement system, based on service which was included in the calculation of his annuity, the annuity shall be recalculated as of the effective date of the person's retirement, excluding such service, and the reduced retirement allowance shall be effective on the day the benefit under the local system began to accrue. Annuity contributions made on account of such service, plus interest and less the annuity paid to him on account of the contributions, shall be paid to him.

14450. If a person who deposits contributions to the Retirement Annuity Fund pursuant to Section 14447, elected either under such local system or under this system, but not under both, to have his retirement allowance modified according to an option under which he would receive a smaller allowance and provide a benefit for his beneficiary, such person has the right to change such election under the system provided the right is exercised not later than 60 days after such deposit.

Any computations of actuarial equivalents under a changed election shall be made as of the date of such change, and no adjustment shall be included in the computation on account of retirement allowance payments made prior to that date.

SEC. 3. It is the intent of the Legislature in enacting this act to reorganize and clarify the State Teachers' Retirement Law and thus facilitate its administration. It is not the intent of the Legislature to make any substantive change in the law. Thus, if, in the opinion of any court or administrative officer, a different result under any provision of the State Teachers' Retirement Law as it read on November 13, 1968

would obtain because of the enactment of this act, the provision as it read on November 13, 1968 shall be followed and the result shall be as it would have been on November 13, 1968. Further, it is the intent of the Legislature that no new rights vest in any member, retirant, or beneficiary as a result of the enactment of this act. No provision of this act may be interpreted to vest any such additional right. No dollar amount of any current or future benefit under this act shall be revised in any way because of the enactment of this act.

SEC. 4. Any section of a bill enacted at the 1969 Regular Session of the Legislature prior to the enactment of this act which amends, adds, or repeals a section of the State Teachers' Retirement Law (Chapter 4 (commencing with Section 13801) of Division 10 of the Education Code) shall prevail over this act.

Any alternative procedure so prescribed may require that the proposed sale of real property be conducted by a county officer, or his duly authorized representative, and that the proposed sale may be conducted on the property site. Any such alternative procedure shall provide that, except with respect to the person conducting the sale and the location at which the sale is to be conducted, all of the provisions of this article with respect to: (1) the adoption of a resolution of intention; (2) the giving of notice of the adoption of the resolution and the time and place of sale; (3) the examination of the proposals and the acceptance of the highest bid; (4) the procedure for calling for oral bids; and (5) the acceptance or rejection of bids, shall be applicable to the alternative procedure so prescribed and that any final acceptance of a bid by the person conducting the sale shall be subject to the approval of the board of supervisors by resolution authorizing and directing the execution of the deed as provided in Section 25535 of this article.

31100. A district may acquire, construct, and operate facilities for the collection, treatment and disposal of sewage, waste and storm water of the district and its inhabitants and may contract with any public agency including but not limited to sanitation districts for sewer outfall facilities. A district also may acquire, construct, and operate facilities for the collection, treatment and disposal of sewage, waste and storm water of inhabitants outside its boundaries; provided that it shall not furnish any such service to the inhabitants of any other public agency without the consent of such other public agency expressed by resolution or ordinance. The term "public agency" as used in this section, shall include a city, county, city and county, public district, municipal or public corporation, state agency or other political subdivision of the state, but shall not include a public utility subject to the jurisdiction, control and regulation of the Public Utilities Commission under the provisions of Divisions 5 (commencing with Section 10001) and 6 (commencing with Section 11501) of the Public Utilities Code.

CHAPTER 899

An act relating to property taxes and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, any veteran whose claim for the veterans' exemption is disallowed for the 1969–1970 fiscal year and who is otherwise qualified for the homeowners' property tax exemption may file for the homeowners' property tax exemption for such year on or before 5 p.m. on September 1, 1969.

SEC. 2. Notwithstanding any other provision of law, a person who was qualified for both the 1968 homeowners' property tax relief payment and the 1969 homeowners' property tax exemption in all respects except that he timely filed only one of the two applications in order to receive both the pay-

ment and the exemption, may file the second application on or before September 1, 1969. The names and addresses of persons who qualify for property tax relief payments pursuant to this section shall be certified by the assessor to the Controller on or before September 15, 1969, and the Controller, on or before October 1, 1969, shall draw his warrant in the amount of seventy dollars ($70) in favor of each authorized claimant on the assessor's list.

SEC. 3. The assessments of those persons who qualify for the homeowners' property tax exemption for the 1969–1970 fiscal year pursuant to this act shall be corrected by order of the board of supervisors upon certification by the assessor.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many persons who were eligible for the seventy dollars ($70) homeowners' property tax rebate for the 1968–1969 fiscal year or for the homeowners' property tax exemption for the 1969–1970 fiscal year, but because of the new procedures or the fact they had filed for the veterans' exemption which they later were found to be ineligible for, were unable to meet the deadline for filing an application for the tax rebate or the homeowners' exemption. This act will remove the procedural bars to the filing of such application. In order that the public purpose expressed in the Constitution may be carried out it is necessary that this act go into immediate effect.

CHAPTER 900

An act relating to the filing of claims for the homeowners' property tax exemption, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, any veteran whose claim for the veterans' exemption is disallowed for the 1969–1970 fiscal year and who is otherwise qualified for the homeowners' property tax exemption may file for the homeowners' property tax exemption for such year on or before 5 p.m. on September 1, 1969.

SEC. 2. The assessments of those persons who qualify for the homeowners' property tax exemption for the 1969–1970 fiscal year pursuant to this act shall be corrected by order of the board of supervisors upon certification by the assessor.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some veterans failed to make a timely application for the homeowners' exemption for the 1969–1970 fiscal year, as they claimed the veterans' exemption for such year, but later learned that their homes had been reassessed and their claims for the veterans' exemption were disallowed. The Constitution excludes a veteran from claiming the homeowners' exemption only if a veteran's exemption has been "granted" on his property and does not intend that a person who has served in the armed forces of his country should be discriminated against by reason of delays in processing claims for exemptions which are filed during similar time periods. This act will remedy the situation by removing the procedural bar to the homeowners' exemptions for veterans entitled thereto. In so doing, the public policy as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit. In order to make this remedy available as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 901

An act to amend Section 3104 of the Government Code, relating to oaths for public employees.

The people of the State of California do enact as follows:

SECTION 1. Section 3104 of the Government Code is amended to read:

3104. The oath or affirmation may be taken before any officer authorized to administer oaths. The oath or affirmation of any civil defense worker may be taken before his appointing power or before any person authorized in writing by his appointing power.

No fee shall be charged by any person before whom the oath or affirmation is taken and subscribed.

CHAPTER 902

An act to amend Section 675b of, and to add Section 675c to, the Code of Civil Procedure, relating to judgments.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 675b of the Code of Civil Procedure is amended to read:

675b. At any time after one year has elapsed since a bankrupt was discharged from his debts under the Bankruptcy Act (30 Stat. 544, as amended), he may apply, upon proof of his discharge, to the court in which a judgment was rendered against him or, if rendered in a court not of record, to the court of which it has become a judgment by docketing it or filing a transcript thereof for an order directing the judgment to be canceled and discharged of record. At the hearing, the court shall consider such evidence on the issue whether the judgment or the debt upon which the judgment was recovered has been discharged. If it appears that the judgment or debt has been discharged, an order shall be made directing such judgment to be canceled and discharged of record; and thereupon the clerk of such court shall cancel and discharge the judgment by marking on the docket thereof, if there is a docket, otherwise on the register of actions, that the judgment is canceled and discharged by order of the court, giving the date of entry of the order of discharge. Where the judgment was a lien on real property owned by the bankrupt prior to the time he was adjudged a bankrupt and not subject to be discharged or released under the Bankruptcy Act, the lien thereof upon such real estate shall not be affected by such order and may be enforced, but in all other respects the judgment shall be of no force or validity, nor shall the judgment be a lien on real property acquired by him subsequent to his discharge in bankruptcy. Notice of the application, accompanied with copies of the papers upon which it is made, must be served upon the judgment creditor, or his attorney of record in such judgment, in the same manner as prescribed in Section 1011. Nothing contained in this section, however, shall prevent such judgment, notwithstanding such discharge of record, from being used as a setoff in any action in which it otherwise could be so used.

SEC. 2. Section 675c is added to the Code of Civil Procedure, to read:

675c. In any action or proceeding to enforce a judgment, the party against whom the judgment was recovered may file a certified copy of the order of a court of the United States discharging him from his debts under the Bankruptcy Act (30 Stat. 544, as amended). At the hearing, the court shall consider such evidence on the issue whether the judgment or the debt upon which the judgment was recovered has been discharged. If it appears to the court that the judgment or debt has been discharged, and if at least one year has elapsed since the discharge, an order shall be made directing the judgment to be canceled and discharged of record, which order shall be of the same effect as an order made pursuant to Section 675b.

If it appears that the judgment or debt has been discharged, but that one year has not elapsed from the date the discharge was granted, the court shall stay the action or proceeding until one year has elapsed from such date, at which time, if the discharge has not been revoked pursuant to Section 15 of the Bankruptcy Act, the court, on motion of the party against whom the judgment was recovered, shall make an order directing the judgment to be canceled and discharged of record, which order shall be of the same effect as an order made pursuant to Section 675b. If the discharge has been so revoked, the party seeking to enforce the judgment may file with the court a certified copy of the order revoking the discharge.

Nothing contained in this section shall prevent the judgment, notwithstanding any discharge of record, from being used as a setoff in any action in which it otherwise could be so used.

SECTION 1. Section 1166a of the Code of Civil Procedure is amended to read:

1166a. Upon filing the complaint the plaintiff may, upon motion, have immediate possession of the premises by a writ of possession issued by the court and directed to the sheriff of the county, or constable or marshal, for execution, where it appears to the satisfaction of the court, after a hearing on the motion, from the verified complaint and from any affidavits filed or oral testimony given by or on behalf of the parties, that the defendant is insolvent, or has no property that is subject to execution sufficient to satisfy the amount of damages sought to be recovered by the plaintiff, or resides out of the state, or has departed from the state, or cannot, after due diligence be found within the state, or conceals himself to avoid the service of summons. Written notice of the hearing on the motion must be served on the defendant by the plaintiff in accordance with the provisions of Section 1011, and must inform the defendant that he may file affidavits on his behalf with the court and may appear and present testimony on his behalf, and that if he fails to appear the plaintiff will apply to the court for the writ of possession. The plaintiff shall file an undertaking with good and sufficient sureties, to be approved by the judge, in such sum as shall be fixed and determined by said judge, to the effect that if the plaintiff shall fail to recover judgment against the defendant for the possession of said

premises, or if the suit be dismissed, that plaintiff will pay to defendant such damages, not to exceed the amount fixed in said undertaking, as may be sustained by the defendant by reason of such dispossession under said writ of possession. An action to recover such damages shall be commenced by the defendant in a court of competent jurisdiction within one year from the date of entry of dismissal or of final judgment in favor of the defendant.

water conservation, development of water resources, control of drainage, storm, flood and other waters; that these problems are not general or statewide; that the county for many years has had made investigations and engineering surveys of the county's water resources and drainage problems by private, public and United States engineers; that the rapid growth of population and urban development over widespread portions of the county have created drainage problems which cannot be economically resolved through existing storm drain maintenance districts; that to adequately and feasibily conserve the water supply and control the drainage, storm, flood and other waters of said county, it is necessary to have a political entity coextensive with the geographical limits of the entire county; that the geography of the county is such that there are numerous drainage areas and noncontiguous watersheds therein, and that the county cannot be supplied with water from a common source or by a common system of works; investigation having shown conditions in said county to be peculiar to it, it is hereby declared that a general law cannot be made applicable to said county and that the enactment of this special law is necessary for the conservation, development, control and use of said water for the public good and for the protection of life and property therein.

SEC. 301. Each contract providing for repayment of the cost of any works, or for the payment of any water or water supply, which is entered into with the United States pursuant to this act, shall be authorized at an election, unless, by a resolution adopted by a four-fifths vote of the members of the board of directors, said board shall determine that all liabilities of the agency thereby incurred can be repaid and liquidated, both as to principal and interest, from revenues derived from taxes levied pursuant to this act and, from payments to be made to the agency by member units pursuant to written contracts providing for the payment currently of whatever amounts may be necessary to amortize the portion of said cost underwritten by said member units, or providing for the payment currently of whatever amounts may be necessary to pay the portion of the cost of any water or water supply to be furnished or sold to such member units. Upon the adoption of such resolution, the board of directors shall have the power on behalf of the agency, without the necessity of an election, to enter into such a repayment contract, or into such a contract for the purchase of water or a water supply with the United States, subject to all provisions of this act applicable to such contracts, except provisions requiring an election to authorize such contracts.

3. The sale, lease or other disposition of water, water rights, and water storage facilities or interests therein, by the agency or by such district.

Article VII. Zones

SEC. 350. The board of directors of the agency created by this act, by resolution thereof adopted from time to time, may establish zones within said agency without reference to the boundaries of other zones, setting forth in such resolutions, descriptions thereof by metes and bounds, and entitling each of such zones by a zone number, and institute zone projects for the specific benefit of such zones. The board may, by resolution, amend the boundaries by annexing property to, or by withdrawing property from, said zones, or may divide existing zones into two or more zones, or may superimpose a new or amended zone or zones already in existence, setting forth in such resolutions descriptions of the amended, divided or superimposed zones by metes and bounds and, entitling

each of such zones by a zone number. Said board may designate the county as a zone within the agency.

SEC. 351. Proceedings for the establishment of such zones may be conducted concurrently with, and as a part of, proceedings for the instituting of projects relating to such zones, which proceedings shall be instituted in a manner prescribed in this act.

SEC. 352. The board may in any one year, levy taxes or assessments in any zone to pay the cost of carrying out any of the objects or purposes of this act performed or to be performed on behalf of the zone, including the constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements, established or to be established, within or on behalf of the zone, according to the benefits derived or to be derived by the zone, by the following methods:

(a) By a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property;

(b) By a levy or assessment upon all real property within a zone or participating zone, including both land and improvements thereon;

(c) By a levy or assessment upon all property within a zone or participating zone, upon the land only.

SEC. 353. The board shall have the power, in any year, to levy and collect a special tax or assessment upon the property in any zone within the agency, for the purpose of raising funds to make payments pursuant to any contract entered into with another governmental agency pursuant to this act, when the contract requires the governmental agency to perform work in any specified zone or participating zones for its or their particular benefit and, also requires the agency to pay such governmental agency a sum of money in consideration or subvention for the performance of said work. The tax or assessment levied pursuant to this section shall be in addition to any other tax or assessment herein otherwise provided.

SEC. 354. Each year at the time the board fixes and levies taxes for agency purposes, it shall also fix the rates of zone taxes and shall levy the taxes upon the zone. The zone rate shall be such as will produce, after allowance of not to exceed 15 percent for delinquencies, the amount required to meet the expenditures incident to the project or works of improvement for which the zone is established, and the cost of the maintenance thereof, or both, during the current year. The tax in any one fiscal year shall not exceed an aggregate of twenty cents ($0.20) on each one hundred dollars ($100) of assessed valuation of the taxable property in the zone, for any and all zone projects or works of improvement, unless the excess is authorized at an election as provided in this section.

The taxes levied pursuant to this section shall be in addition to any other taxes or assessments provided by this act and,

shall be levied and collected at the same time and in the same manner as other agency taxes and assessments. All funds collected by reason of the tax shall be expended only on behalf of the zone and, only for the purpose for which the zone was formed as set forth in the notice of hearing on the proposal to establish the zone.

Whenever the board determines it is in the best interest of a zone to undertake a project or works of improvement which will require a rate of zone tax in excess of twenty cents ($0.20) on each one hundred dollars ($100) of assessed valuation of the taxable property in the zone, it may submit the proposition to the electors within the zone. The board shall, by resolution, call an election for the purpose of proposing the question to the voters of the zone, as to whether or not the taxes in excess of twenty cents ($0.20) for each one hundred dollars ($100) of assessed valuation of the taxable property in the zone shall be proposed within the zone, prescribing the notice, time, place, and manner of conducting the election in conformity, as nearly as practicable, with the provisions of the Elections Code governing general elections. An election is invalid unless held within the zone, and notice of the time, place, and purpose of the election has been given by publication in the agency pursuant to Section 6066 of the Government Code, and posted in not less than three public places in the zone. If a majority of the votes cast favor such tax rate, the board may thereafter tax not to exceed such new rate.

The taxes shall be levied and collected together with, and not separately from, taxes for county purposes, and the revenues derived from agency taxes or assessments shall be paid into the county treasury to the credit of the agency, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any of the several zones from the taxes or assessments levied under the provisions of this section, shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

Article VIII. Selection of Projects

SEC. 400. The agency shall determine which projects or works of improvement shall be carried out and shall determine, as to each project or work of improvement, that it is either:

1. For the common benefit of the agency as a whole; or

3. For the benefit of a single zone.

SEC. 401. The agency may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. All powers and duties of the agency may be exercised or performed on behalf of, and within a zone of the agency. For the purpose of acquiring authority to proceed with any such project, the board of directors shall adopt a resolution setting forth the proposed boundaries and specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zones of participating zones and fixing a time and place for public hearing of said resolution and, which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given by publication once a week for two consecutive weeks prior to said hearing, the last publication of which notice must be at least seven (7) days before said hearing, in a newspaper of general circulation designated by the board, circulated in the county.

SEC. 402. At the time and place fixed for the hearing, or at any time to which the hearing may be continued, the board shall consider all written and oral objections to the proposed project. Upon the conclusion of the hearing the board may abandon the proposed project, modify it, or proceed with the same, unless prior to the conclusion of the hearing written protests against the proposed project signed by a majority in number of the registered voters residing within such zone or participating zones be filed with the board, in which event further proceedings relating to such project shall be suspended for not less than six months following the date of the conclusion of the hearing, or the proceeding may be abandoned in the discretion of the board.

Article IX. Funds and Accounts

All funds of the agency shall be deposited in the county treasury subject to disbursement as county funds are so disbursed, provided that the disbursal shall be pursuant to the provisions of this act, under the direction of the county auditor, or such other fiscal officer as is appointed by the board of directors.

SEC. 451. The agency may establish and maintain such separate funds and accounts as it deems necessary to carry out the separate purposes of this act, and may establish such additional separate funds as it shall from time to time determine.

The agency may create and administer revolving funds to facilitate and assist in the carrying on and completing of any acquisition, work or improvements provided for herein, and may abolish such funds.

SEC. 452. The agency may make such transfers, for purposes of a loan or permanently, from one fund to another fund of the agency, as to its funds, or from one fund to another fund of a zone, as to said zone, as the agency shall determine.

The revenues derived from the agency taxes or assessments shall be paid into the county treasury to the credit of the agency, and the board shall have the power to control and order the expenditure thereof for the purposes for which the tax or assessment was levied.

SEC. 503. The provisions of law of this state, prescribing the priority, time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted for the agency and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act.

SEC. 504. The aggregate taxes or assessments for the agency levied under this article for any one fiscal year, shall not exceed twenty cents ($0.20) on each one hundred dollars ($100) of the assessed valuation of the taxable property in

Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in the agency as a whole, in any zone or zones, the board may by resolution determine and declare the respective amount of bonds necessary to be issued in the agency, zone, or zones in order to raise the amount of money necessary for each work or improvement and, the denomination and maximum rate of interest of said bonds. The board shall cause a copy of the resolution duly certified by the clerk to be filed for record in the office of the Recorder of Madera County within five days after its issuance. From and after filing of the copy of said resolution, the board shall be deemed vested with the authority to proceed with the bond election.

SEC. 553. After the filing for record of said resolution the board may call a special bond election in the agency, zone or participating zones, at which shall be submitted to the qualified electors of said agency, zone or participating zones, the question whether bonds shall be issued in the amount or amounts determined in said resolution for the purpose or purposes therein stated. No other notice of such election need be given nor need any polling place cards be issued.

SEC 557. Any defect or irregularity in the proceedings in the calling or conduct of such special bond election, shall not affect the validity of the bonds authorized by said election.

SEC. 558. Where a project affects a single zone only, if at such election two-thirds of the vote cast in said zone on the proposition of incurring bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in the proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds of the votes cast on the proposition in each such participating zone are in favor of incurring bonded indebtedness to be undertaken by such zone.

Such refunding bonds may be issued and sold in the manner and form prescribed for an original issue of bonds, and may, if the holders of bonds of an original issue and the board of directors so agree, be exchanged for such original bonds; provided, that the face value of the refunding bonds so exchanged shall not exceed the face value of the original bonds. The board of directors may

raise money to pay principal and interest of such refunding bonds in the same manner as prescribed for the payment of bonds of an original issue.

SEC. 569. When original bonds are issued by the board of directors without a vote of the electors, the board of directors may issue refunding bonds without calling an election for that purpose. The provisions of this act (except in regard to elections) shall apply to such refunding bonds issued by the board of directors.

SEC. 570. If the board by resolution determines that a bonded indebtedness to pay for the acquisition or construction of any works for any purposes of the agency or for refunding any outstanding bonds should be incurred and can be repaid and liquidated as to both principal and interest from revenues designated by the board, the agency is authorized and shall have the power to define such works as an "enterprise" and to issue revenue bonds all in the manner and as provided in the Revenue Bond Law of 1941 as amended, and for such purpose the agency shall be considered a "local agency," as defined by Section 54307 of the Government Code.

revenue derived from the tax authorized by this act and all taxable property within the agency, zone or participating zones shall be and remain liable to be taxed for such payments as in this act provided, until such bonds and the interest are fully paid or the liability therefor legally discharged.

SEC. 576. Should a proposition for issuing bonds submitted at any election under this act fail to receive the requisite number of votes of the qualified electors voting at such election to incur the indebtedness for the purpose specified, the board of directors of the agency shall not for six months after such election, call or order another election in the agency for

incurring indebtedness and issuing bonds under the terms of this act, for the same objects and purposes.

Article XII. Special Assessments

SEC. 600. Whenever the board of directors shall determine by resolution that facts exist which make a special assessment preferable in the best interests of the agency to incurring a bonded indebtedness for paying all or any part of the cost of any work, or for carrying out any contract for any purpose of the agency, the board of directors may levy special assessments as hereinafter provided. The facts making such a special assessment preferable to a bonded indebtedness shall be

stated in the resolution. Such special assessments shall be payable in equal annual installments over a period of not to exceed 40 years, and shall be levied only after being duly authorized by a majority of the votes cast by the qualified electors of the agency voting at an election held for that purpose.

CHAPTER 917

An act to amend Section 135.3 of the Streets and Highways Code, relating to replacement housing, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 135.3 of the Streets and Highways Code is amended to read:

135.3. The Legislature intends by this act to provide prompt and equitable relocation assistance to low-income individuals and families displaced because of the construction of state highway projects in areas where the market value of real property is economically depressed. The Legislature by establishing a replacement housing program for such individuals and families intends to accomplish this objective of providing housing which is decent, safe, sanitary, and functionally equivalent to the housing eliminated by highway construction. Such replacement housing program shall be coordinated with the relocation advisory assistance provided by the department in accordance with Section 135.1. The Legislature further intends that to the extent the department deems feasible such housing shall be supplied by existing housing, moved housing, and refurbished housing before new replacement housing is constructed on a volume basis.

The Legislature finds that the foregoing objectives can best be achieved by enabling low-income persons in economically depressed areas affected by state highway construction to participate in the development and execution of the replacement housing program. Accordingly, when the initial replacement housing program is undertaken for the assistance of persons displaced by the construction of State Highway Route 105 in Los Angeles County, such program shall be conducted in a manner conducive to maximum community participation, thereby assisting in alleviation of excessive unemployment by utilizing local labor and contributing to the development of training programs for unskilled labor.

The Legislature further finds that conventional contracting procedures, including competitive bidding, may not be consistent with the attainment of these objectives. Therefore, in carrying out this initial replacement housing program on State Highway Route 105, the department may enter into the contracts contemplated by Section 135.7 pursuant to such procedures as the director determines to be best suited to the achievement of the maximum community participation consistent with the economical completion of the freeway projects.

The Legislature further finds and declares that the exemption from competitive bidding authorized by this section is

made by reason of the unique nature of the initial replacement housing program on State Highway Route 105, and is not to be considered as establishing a precedent for exempting any other public works construction from competitive bidding and other conventional contracting procedures, nor as in derogation of the fundamental policy of the Legislature that contractors for public works be selected by competitive bidding in order to secure economy of construction and other benefits which accrue to the public by reason of such contracting procedures.

SEC. 2. The Department of Public Works shall submit a report to the Legislature following the completion of the initial replacement housing program and at other appropriate times as to the program and contracting procedures developed and progress made in providing such replacement housing.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Acquisition of rights-of-way for State Highway Route 105 in Los Angeles County is budgeted for the fiscal year beginning July 1, 1969, and acquisition must commence promptly to avoid delay in the construction program for this interstate route. Preparation of the initial units of replacement housing should begin immediately, so that such units will be available for occupancy when acquisition of rights-of-way is begun.

(d) Every qualification under this chapter is effective for 12 months from its effective date, unless the commissioner by order or rule specifies a different period, except during the time an order under Section 10281 is in effect.

(e) Every application for qualification under this chapter shall be signed and verified by the issuer. Verification of an application shall be in the manner provided for the verification of pleadings. All information required to be included in

an application shall be true and complete as of the time the qualification of the sale of real estate syndicate securities becomes effective; and an applicant shall promptly supply by amendment prior to the effectiveness of such qualification any information based on facts occurring after the original date of filing which is necessary to supplement or correct the information contained in the original application so as to make such information not materially misleading as of the effective date of such qualification.

(f) An offer (but not a sale) and the execution and delivery of any agreement for the sale of real estate syndicate securities pursuant to such offer may be permitted by the commissioner upon application. Any negotiating permit under this subdivision shall be conditioned to the effect that none of the real estate syndicate securities may be issued and none of the consideration therefor may be received or accepted until the sale of such securities is qualified under this chapter.

Article 4. Authority of the Commissioner

10280. The commissioner may refuse to issue a permit under Section 10271 unless he finds that the proposed plan of business of the applicant and the proposed issuance of real estate syndicate securities are fair, just, and equitable, that the applicant intends to transact its business fairly and honestly, and that the real estate syndicate securities which it proposes to issue and the methods to be used by it in issuing them are not such as, in his opinion, will work a fraud upon the purchaser thereof.

10281. The commissioner may suspend or revoke any permit issued under Section 10271 if he finds (1) that the order is in the public interest and (2) that the proposed plan of business of the issuer or the proposed issuance or sale of real estate syndicate securities is not fair, just, or equitable, or that the issuer does not intend to transact its business fairly and honestly, or that the securities proposed to be issued or the method to be used in issuing them will tend to work a fraud upon the purchaser thereof.

10282. It is unlawful for any person without the written consent of the commissioner to consummate the transfer of any real estate syndicate securities heretofore or hereafter placed in escrow pursuant to a condition ordered by the commissioner and which have not been released from escrow, or which are subject to a currently effective legend condition requiring such consent (except as permitted therein).

10283. Upon the filing of a written request for the consent to transfer securities referred to in Section 10282, accompanied by such information and documents as the commissioner may by rule require, the commissioner shall issue such consent if he finds that the transfer requested will be fair, just, and equitable to the proposed transferees, and otherwise he shall deny such consent.

10284. An amendment to an application filed after the effective date of the qualification of the sale of real estate syndicate securities, if such amendment is approved by the commissioner, shall become effective on such date as the commissioner may determine, having due regard to the public interest and the protection of investors.

10285. In any proceeding under this chapter, the burden of proving an exemption or an exception from any provision of this chapter is upon the person claiming it.

10286. (a) Neither (1) the fact that an application for qualification under this law has been filed nor (2) the fact that such qualification has become effective constitutes a finding by the commissioner that any document filed under this law is true, complete, or not misleading. Neither any such fact nor the fact that an exemption is available for a real estate syndicate security or a transaction means that the commissioner has passed in any way upon the merits or qualifications of, or recommended or given approval to, any person, real estate syndicate security or transaction.

(b) It is unlawful to make or cause to be made to any prospective purchaser any representation inconsistent with subdivision (a) of this section.

10287. Every applicant for qualification of real estate syndicate securities under this law shall file with the commissioner, in such form as he by rule prescribes, an irrevocable consent appointing the commissioner or his successor in office to be his attorney to receive service of any lawful process in any noncriminal suit, action or proceeding against him or his successor, executor or administrator, which arises under this chapter or any rule or order promulgated hereunder after the consent has been filed, with the same force and validity as if served personally on the person filing the consent. Service may be made by leaving a copy of the process in the office of the commissioner but it is not effective unless (1) the plaintiff who may be the commissioner in a suit, action or proceeding instituted by him, forthwith sends notice of the service and a copy of the process by registered or certified mail to the defendant or respondent at his last address on file with the commissioner, and (2) the plaintiff's affidavit of compliance with this section is filed in the case on or before the return day of the process, if any, or within such further time as the court allows.

10288. It is unlawful for any person willfully to make any untrue statement of a material fact in any application, notice, or report filed with the commissioner under this part, or willfully to omit to state in any such application, notice, or report any material fact which is required to be stated therein.

10289. Every permit shall recite in bold type that the issuance thereof is permissive only and does not constitute a recommendation or endorsement of the real estate syndicate securities to be issued.

10290. The commissioner may impose as a condition of qualification under Section 10271 conditions relating to impounding of the proceeds from the sale of real estate syndicate securities; restricting the transferability thereof; limiting expenses in connection with the sale thereof; limiting the number of real estate syndicate securities or the consideration for each or both; the terms of and the parties to sales of outstanding real estate syndicate securities; placing certificates of interest in escrow; or any other condition if the commissioner finds that without such condition, the sale of certificates of interest would be unfair, unjust or inequitable.

The commissioner may, in his discretion, modify or remove such conditions when, in his opinion, they are no longer necessary or appropriate.

10291. Every issuer qualifying real estate syndicate securities for sale in this state shall at all times keep and maintain a complete set of books, records and accounts of such sales and the disposition of the proceeds thereof, and shall thereafter, at such times as are required by the commissioner, make and file in the office of the commissioner a report, setting forth the interests sold by it under such qualification, the proceeds derived therefrom and the disposition thereof.

10292. The commissioner may by rule or order require as a condition of qualification that any real estate syndicate securities authorized under Section 10280 be sold only on a specified form of subscription or sale contract, and that a signed or conformed copy of each contract be preserved for any period up to three years specified in the rule or order.

10293. The commissioner may accept and act upon the opinions, appraisals and reports of any engineers, appraisers or other experts which may be presented by an application on any question of fact concerning or affecting the real estate syndicate securities proposed to be offered and sold. In lieu of, or in addition to, such opinions, appraisals, and reports, the commissioner may have any or all matters concerning or affecting such real estate syndicate securities investigated, appraised, passed upon and certified to him by engineers, appraisers or other experts selected by him.

10294. Any applicant objecting to the denial of a permit or to any condition therein, may, within 30 days after receipt of such denial or order, file a written request for a hearing. The hearing shall be held within 30 days thereafter unless the party requesting the hearing requests a postponement. If the hearing is not held within 30 days after the hearing request is received, plus the period of any postponement, or if a proposed decision is not rendered within 45 days after submission, and an order adopting or rejecting such proposed decision is not issued within 15 days thereafter, the order of denial or imposition of the condition shall be rescinded and a permit issued.

10295. Whenever the commissioner finds that any applicant or other person is violating any of the provisions of this chapter or of the regulations pertaining thereto, or the terms and conditions of the permit, or that the further sale or offer to sell real estate syndicate securities would be unfair, unjust, or inequitable, the commissioner may order the person to cease and desist from violating the provisions of this chapter or of the regulations pertaining thereto, or from the further sale of real estate syndicate securities.

After such an order is issued, the person or persons named therein may, within 30 days after receipt of the order, file a written request for a hearing. The hearing shall be held within 30 days thereafter unless the party requesting the hearing shall have requested a postponement. If the hearing is not held within 30 days after the request for a hearing, plus the period of any postponement, or a proposed decision is not rendered within 45 days after submission, and an order adopting or rejecting such decision is not issued within 15 days thereafter, the order shall be rescinded.

10296. The commissioner in his discretion may make such examinations or investigations as he deems necessary to determine whether any person or company has violated any provisions of this chapter, or any regulation, order or permit hereunder.

For the purpose of any examination or investigation under this chapter, the commissioner or any officer designated by him may administer oaths and affirmation, subpoena witnesses, compel their attendance, audit books, accounts and records, take evidence and require the production of any books, papers, correspondence, memoranda, agreements or other documents or records which the commissioner deems relevant or material to the inquiry.

10297. After the permit has been issued authorizing the sale of real estate syndicate securities, no change, alteration, or modification of the offering shall be made without first notifying the commissioner in writing thereof and obtaining an amended permit or written approval of the commissioner.

10298. (a) The fee for filing an application for a negotiating permit is fifty dollars ($50).

(b) The fee for filing an application for a permit for the sale of real estate syndicate securities or renewal thereof is one hundred dollars ($100), plus one-tenth of 1 percent of the aggregate value of the certificates of interest sought to be issued in this state, up to a maximum aggregate fee of one thousand five hundred dollars ($1,500).

For the purpose of determining the fees fixed in this section, the value of the real estate syndicate securities shall be the price at which they are proposed to be sold, including obligations to make future payments, or the value as alleged in the application, or the actual value, as determined by the commissioner, of the consideration, if other than money, to be received therefor, whichever is greater.

(c) The fee for filing any application for a permit to issue real estate syndicate securities evidencing any change in the rights, preferences, privileges, or restrictions on outstanding real estate syndicate securities is one hundred dollars ($100). Where such issuance will result in an increase in the aggregate face amount of the real estate syndicate securities, the fee shall be in accordance with subdivision (b).

10299. All hearings initiated under the provisions of this chapter shall be conducted in accordance with the provisions of the Administrative Procedure Act as set forth in Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and the commissioner shall have all of the powers granted therein.

10300. No person shall publish any advertisement in this state concerning any real estate syndicate security sold or offered for sale in this state unless a true copy of the advertisement has first been filed in the office of the commissioner at least three days prior to the publication or such shorter period as the commissioner may by rule or order allow.

10301. No person shall publish any advertisement concerning any real estate syndicate security in this state after the commissioner finds that the advertisement contains any statement that is false or misleading or omits to make any statement necessary in order to make the statements made in the light of the circumstances under which they were made not misleading and so notifies the person in writing. After such notification is issued, the person or persons named therein may, within 30 days after receipt of the notification, file a written request for a hearing. The hearing shall be held within 30 days thereafter unless the party requesting the hearing shall have requested a postponement. If the hearing is not held within 30 days after the request for a hearing, plus the period of any postponement, or a proposed decision is not rendered within 45 days after submission, and an order adopting or rejecting such notification is not issued within 15 days thereafter, the notification shall be rescinded.

Article 5. Powers of the Commissioner

10310. Whenever it appears to the commissioner that any person has engaged or is about to engage in any act or practice constituting a violation of any provision of this law or any rule or order hereunder, he may in his discretion bring an action in the name of the people of the State of California in the superior court to enjoin the acts or practices or to enforce compliance with this law or any rule or order hereunder. Upon a proper showing a permanent or preliminary injunction, restraining order, or writ of mandate shall be granted and a receiver or conservator may be appointed for the defendant or the defendant's assets. The court may not require the commissioner to post a bond.

10311. The commissioner in his discretion may make such public or private investigations within or outside of this state as he deems necessary to determine whether any person has violated or is about to violate any provision of this law or any rule or order hereunder or to aid in the enforcement of this law or in the prescribing of rules and forms hereunder.

10312. The commissioner may establish such rules as are reasonably necessary to carry out the intent and purpose of the provisions of this chapter. Such rules shall be adopted, amended, or repealed in accordance with the provisions of the Administrative Procedure Act.

Article 6. Crimes

10320. Any person who willfully violates any provision of this chapter, or who willfully violates any rule or order under this chapter, shall upon conviction be fined not more than ten thousand dollars ($10,000) or imprisoned in the state prison for not more than 10 years or in a county jail for not more than one year, or be punished by both such fine and imprisonment; but no person may be imprisoned for the violation of any rule or order if he proves that he had no knowledge of the rule or order.

10321. Nothing in this chapter limits the power of the state to punish any conduct which constitutes a crime under any other statute.

10322. Nothing in this article shall be construed to hold an escrow holder, lender, title insurance company, or underwritten title company as defined by Insurance Code Section 12402, liable for violation of any provision hereof, unless it has actual knowledge of the violation. or participated as a principal or agent in the real estate syndicate, other than in its capacity as escrow holder, lender, title insurance company or underwritten title company.

Article 7. Remedies

10330. Any condition, stipulation or provision purporting to bind any person acquiring any real estate syndicate security to waive compliance with any provision of this chapter or any regulation or order hereunder is void unless written approval by the commissioner is obtained prior thereto.

10331. Any person who violates Section 10270 or Section 10297 shall be liable to any person acquiring from him the real estate syndicate security sold in violation of such section, who may sue to recover the consideration paid for such real estate syndicate security with interest thereon at the legal rate, less the amount of any income received therefrom, upon the tender of such real estate syndicate security, or for damages (if he no longer owns the real estate syndicate security) equal to the difference between (a) his purchase price plus interest at the legal rate from the date of purchase

and (b) the value of the real estate syndicate security at the time it was disposed of by the plantiff plus the amount of any income received therefrom by the plaintiff, together with such other relief as the court may deem proper.

10332. (a) No action shall be maintained to enforce any liability created under this chapter, unless brought before the expiration of two years after the act or transaction constituting the violation or the expiration of one year after the discovery by the plaintiff of the facts constituting the violation, whichever shall first expire.

(b) No purchaser of a real estate syndicate security may commence an action under this article, if, before suit is commenced, such buyer shall have received a written offer (1) stating the respect in which liability under such section may have arisen, (2) offering to repurchase the real estate syndicate security for cash price payable upon delivery of the real estate syndicate security equal to the consideration paid, with interest at the legal rate from the date of payment, less the amount of any income received on the real estate syndicate security, or, if the purchaser no longer owns the real estate syndicate security, offering to pay the purchaser upon the acceptance of the offer an amount in cash equal to the damages computed in accordance with Section 10331 providing that such offer may be accepted by the purchaser at any time within a specified period of not less than 30 days after the date of receipt thereof, and (3) setting forth the provisions of this subdivision; and such purchaser shall have failed to accept such offer in writing within the specified period after receipt thereof.

Article 8. Miscellaneous

10340. If any provision of this law or the application thereof to any person or circumstance is held invalid, the invalidity shall not affect other provisions or applications of this law which can be given effect without the invalid provisions or application, and to this end the provisions of this law are declared to be severable.

SEC. 4. On January 2, 1970, the Real Estate Commissioner shall succeed to all the powers, duties and responsibilities of the Commissioner of Corporations hitherto exercised in administering the law relating to real estate syndicate securities.

All permits, applications, and orders, or other official acts of the Commissioner of Corporations, relating to such securities and all conditions, qualifications, and restrictions imposed upon such securities remain in effect so long as they would have remained in effect had this act not been enacted; they are considered to have been filed, entered, and imposed under this law, and are governed by this law as if the Real Estate Commissioner had heretofore administered the prior law relating to real estate syndicate securities.

SEC. 5. This act shall become operative on January 2, 1970.

CHAPTER 929

An act to amend Section 25353 of the Government Code, relating to counties.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 25353 of the Government Code is amended to read:

25353. The board may purchase, receive by donation, lease, or otherwise acquire water rights or real or personal property necessary for use of the county for any county buildings, public pleasure grounds, public parks, botanical gardens, harbors, historical monuments, and other public purposes, or upon which to sink wells to obtain water for sprinkling roads and other county purposes. The board may improve, preserve, take care of, manage, and control the property. Whenever a county has been designated a successor to a harbor improvement district pursuant to Division 1 (commencing with Section 56000) of Title 6 the board of supervisors shall have the same powers and duties as the former board of directors of such district with respect to the acquisition, improvement, and management of harbors or public beaches within the county.

CHAPTER 930

An act to amend Sections 6896 and 6897 of, and to repeal and add Article 6.5 (commencing with Section 6904) of Chapter 8 of Division 3 to, the Business and Professions Code, relating to collection agencies.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 6896 of the Business and Professions Code is amended to read:

6896. The bond shall be conditioned that the principal shall and will, upon demand in writing, pay and turn over to or for the use of any customer from whom any claim is taken or received for collection the proceeds of the collection, in accordance with the terms of the agreement made between the principal and the customer, and conditioned that the principal will comply with all requirements of this or any other statute now in force or hereafter enacted and any rules and regulations established under this chapter with respect to the duties, conduct, obligations and liabilities of licensees, and conditioned that, in the event that a conservator is appointed pur-

suant to a determination made under Section 6904, and such determination becomes final, the principal shall and will pay the fee and expenses of the conservator as determined pursuant to the provisions of Section 6904.4, and subject to the limitation as to amount contained therein.

SEC. 2. Section 6897 of the Business and Professions Code is amended to read:

6897. The bond shall cover the fee and expenses payable to a conservator as provided in Section 6904.4, and shall cover all claims collected and property converted by the licensee during the term of the license covered by the bond.

The aggregate liability of the surety for any and all claims which arise under the bond shall in no event exceed the amount of the penalty of the bond.

SEC. 3. Article 6.5 (commencing with Section 6904) of Chapter 8 of Division 3 of the Business and Professions Code is repealed.

SEC. 4. Article 6.5 (commencing with Section 6904) is added to Chapter 8 of Division 3 of the Business and Professions Code, to read:

Article 6.5. Conservator

6904. If the director determines that a licensee has failed to pay sums owed to a customer, has misappropriated trust funds, or is insolvent, he may appoint a conservator to take possession of the licensee's books, accounts, records, papers, files, safes, vaults, property, and other assets used in connection with the business, and the trust bank account in which customer funds are deposited.

6904.1. If the licensee disagrees with the determination of the director made pursuant to Section 6904, he may request a hearing. The request for a hearing shall be made in writing within 10 days after the appointment of the conservator. If a hearing is requested, it shall be held within 30 days after the receipt by the director of the request. The hearing shall be conducted in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

6904.2. If a hearing is requested, the licensee may continue the operation of the collection agency under the direction and control of the conservator. The conservator shall be responsible for the preservation of all assets until a decision has been rendered by the director after the conclusion of the hearing and until all recourse to the courts has been exhausted or abandoned.

6904.3. If no hearing is requested, or if a decision becomes final determining that the licensee has failed to pay sums owed to a customer, that the licensee has misappropriated trust funds, or that the licensee is insolvent, the conservator shall do all of the following:

(a) Determine the names and addresses of all customers as shown by the books, accounts, records, and papers of the licensee.

(b) Compile records on all assigned accounts showing amounts paid and amounts still owed or due. This shall include all accounts pending in litigation or on which judgments have been secured.

(c) Notify all customers of the appointment of the conservator and of the accounts outstanding according to the books and records. Each customer shall be requested to notify the conservator of any accounts assigned which do not appear in the books and records and of any moneys paid by the licensee on such accounts. Each customer shall also be requested to advise the conservator if the accounts shown on the books and records are incorrect insofar as moneys paid to the customer on such accounts is concerned.

(d) Return all uncollected accounts to the assignor creditor advising of amounts paid by debtors on all unsatisfied accounts or solicit bids from any licensed and qualified persons in the state for the right to solicit the accounts owned by the licensee and accept such bid as he may consider to be in the best interests of all customers.

(e) Fix a time limit, not to exceed four months from the date of the notification provided for in subdivision (c), during which a customer may file a claim with him. All such claims shall be verified under oath by the customer. If a customer fails to file a verified claim with the conservator during the time limit, the conservator shall be relieved of further duty or action hereunder on behalf of such customer.

(f) Notify the bank where trust funds are on deposit that a conservator has been appointed and that the trust funds shall be held for the benefit of creditors. Such notification shall be subscribed by the director and shall bear the seal of the bureau. The receipt of such notification by a bank shall relieve it from all liability to the licensee or his heirs or assigns.

(g) Make a demand upon the surety after ascertaining all claims in the manner set forth in this section. The conservator shall have the power to settle or compromise such claims with the surety and may, in such case, execute and deliver a release and discharge of the bond involved.

(h) Bring an action on the bond if the surety refuses to pay the amount demanded pursuant to subdivision (g). If the recovery in such action, together with any funds that may be in the trust bank account, is not sufficient to pay all of the claims as finally determined, the amount recovered thereon shall be divided pro rata among such claimants.

(i) File with a bank having custody of any money or indebtedness due to the licensee in any bank account used in connection with the licensed business an affidavit showing the right of the conservator to receive such money or indebtedness under the provisions of this chapter. The receipt of such con-

servator shall constitute sufficient acquittance for any payment of money made pursuant to the provisions of this article and shall fully discharge the bank from any further liability with reference thereto without the necessity of inquiring into the truth of the facts stated in the affidavit.

(j) File with the director a final accounting which covers the period of his receivership. Upon such filing the director may discharge the conservator and release him from his duties.

Nothing contained in this section shall be construed to prevent any person claiming to be injured by the fraud, deceit, or willful negligence of a licensee, or by failure of a licensee to comply with the provisions of this chapter or any rule or regulation established thereunder, from bringing an action upon the bond against both principal and surety in any court of competent jurisdiction to recover damages caused by such fraud, deceit, willful negligence, or failure to comply with the provisions of this chapter or any rule or regulation established thereunder.

6904.4. The conservator shall be entitled to reimbursement for his traveling expenses in accordance with rules and regulations of the State Board of Control, and to reimbursement in an amount equal to the reasonable value, as determined by the director, of all other expenses, including but not limited to expenses for legal or secretarial services, reasonably and necessarily incurred by him in carrying out his duties under this article, and shall be entitled to a reasonable fee for his services in an amount fixed by the director.

If the determination of the director made pursuant to Section 6904 is reversed, the fee and expenses of the conservator shall be paid by the state out of the Collection Agency Fund. If the determination is not reversed and becomes final, the fee and expenses of the conservator shall be paid by the licensee and shall be a first claim, as against customers of the licensee, against the assets of the licensee.

If the fee and expenses or any part thereof are not paid by the licensee within 10 days after the amount of such fee and expenses is fixed and determined by the director, the fee and expenses, or the unpaid amount thereof shall be paid out of the bond of the licensee, except that no more than two thousand five hundred dollars ($2,500) shall be paid out of the bond for such fee and expenses. The conservator's claim against the bond for his fee and expenses shall have priority over any other claim against the bond, regardless of when such other claim may have been made, except to the extent that such other claim may have been paid and satisfied before notice to the bonding company of the appointment of the conservator.

If the total amount of the conservator's fee and expenses exceeds the amount realized by him from the licensee and from the bond, the balance thereof shall be paid by the state out of the Collection Agency Fund.

6904.6. At the time of his appointment, the conservator shall be required to post a bond with the director in such amount and upon such conditions as the director may prescribe.

SEC. 5. Any receivership proceedings commenced under Article 6.5 (commencing with Section 6904) of Chapter 8 of Division 3 of the Business and Professions Code prior to the effective date of this act shall continue to be governed by the provisions of such article as they existed prior to the effective date of this act.

SECTION 1. Section 933.5 of the Penal Code is amended to read:

933.5. CHAPTER 932

An act to amend Section 65302 of the Government Code, relating to flooding.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

65302. The general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth objectives, principles, standards, and plan proposals. The plan shall include the following elements:

(a) A land use element which designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, agriculture, natural resources, recreation, education, public buildings and grounds, and other categories of public and private uses of

land. The land use element shall include a statement of the standards of population density and building intensity recommended for the various districts and other territory covered by the plan. The land use element shall also identify areas covered by the plan which are subject to flooding and shall be reviewed annually with respect to such areas.

(b) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, and other local public utilities and facilities, all correlated with the land use element of the plan.

(c) A housing element consisting of standards and plans for the improvement of housing and for provision of adequate sites for housing. This element of the plan shall endeavor to make adequate provision for the housing needs of all economic segments of the community.

CHAPTER 933

An act to amend Section 30462 of the Revenue and Taxation Code, relating to cigarette tax revenues.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 30462 of the Revenue and Taxation Code is amended to read:

30462. All money deposited in the Cigarette Tax Fund under this part is hereby appropriated, subject to the provisions of any budget bill heretofore or hereafter enacted and Section 11006 of the Government Code, and shall, upon order of the State Controller, be drawn therefrom and allocated for the following purposes:

(a) To pay the refunds authorized by this part.

(b) To the Controller an amount not to exceed one hundred fifty thousand dollars ($150.000) in each fiscal year.

(c) For transfer to the credit of a special account in the General Fund, an amount equal to 30 percent of the money in the fund which is derived from taxes imposed on and after October 1, 1967, less 30 percent of the cost of administering this part, such money to be disbursed by the Controller on or before December 15, 1967, and on the 15th day of each month thereafter to each city and county in this state in the following manner:

(1) The money to be allocated pursuant to this subdivision shall first be divided into two separate accounts, one for the cities and counties and counties of this state and one for the cities of this state. In order to determine the amount of money

in each account, the Controller shall first determine the amount due each county, city and county and city in this state in the proportion that sales tax revenues transmitted pursuant to Part 1.5 (commencing with Section 7200) of this division to each such city, city and county and in the unincorporated territory of a county bear to the total of such revenue in the state. The amount due each county and city and county shall be allocated in accordance with this formula and the amount due each city shall be allocated pursuant to paragraph (2) or paragraph (3) of this subdivision.

(2) Upon the application of any city for an allocation pursuant to this paragraph, the Controller shall determine the amount of revenue derived from the city's selective local tax on, or with respect to, the sale, distribution, use, consumption, or holding of cigarettes or any other tobacco product during the 1966–67 fiscal year, or which would have been derived from such tax if the rate in effect on August 1, 1967, had been in effect throughout such fiscal year. This amount shall be adjusted, beginning on July 1, 1969, by the percentage by which the cigarette tax revenues have increased or decreased. For the 1969–1970 fiscal year the percentage shall be derived by comparing the revenues deposited in the Cigarette Tax Fund during the period January 1 through June 30, 1969, with those deposited during the period January 1 through June 30, 1968. For the 1970–1971 fiscal year and each fiscal year thereafter, the percentage shall be derived by comparing revenues deposited in the Cigarette Tax Fund during the preceding fiscal year with those deposited during the entire 1968–1969 fiscal year. The amount computed after applying the percentage factor shall then be reduced by deducting the cost to the city of administering and collecting any such tax for the 1966–1967 fiscal year. If such amount, when divided by 12, is more than the amount which would be disbursed to the city at the time of the next allocation pursuant to paragraph (3) of this subdivision, an amount equal to the amount which such city would have netted from its own tax shall be allocated to such city each month pursuant to this paragraph from the account established for cities in paragraph (1), and no allocation shall be made to such city pursuant to paragraph (3) until such time as the city rescinds its right to receive an allocation under this paragraph. A city which has rescinded such right may not, thereafter, file another application for an allocation pursuant to this paragraph. No city shall be eligible for a subvention pursuant to this paragraph unless, on August 1, 1967, it in fact imposed a selective local tax on, or with respect to, the sale, distribution, use, consumption or holding of cigarettes or any other tobacco product.

(3) (A) After making any allocations required by paragraph (2) of this subdivision, 50 percent of the revenue remaining in the account for the cities of this state shall be al-

located to the remaining cities in the proportion that sales tax revenues transmitted pursuant to Part 1.5 (commencing with Section 7200) of this division to each remaining city bears to the total of such revenue transmitted to all remaining cities.

(B) Fifty percent thereof shall be paid to the cities receiving an allocation under this paragraph in the proportion that the population of each such city bears to the total population of all cities in this state receiving an allocation under this paragraph, as determined by the Controller. For the purpose of this subdivision the population of each city is that determined by the Controller in the manner specified in Section 11005 of this code.

(d) The balance remaining in the fund shall be transferred to the General Fund of this state.

The allocation provided for in subdivision (c) shall not be made to any county, or city which, after October 1, 1967, imposes a selective local tax on, or with respect to, the sale, distribution, use, consumption, or holding of cigarettes or any other tobacco product.

Moneys disbursed pursuant to subdivision (c) of this section may be used for county, city and county, or city purposes, and may, but need not necessarily, be used for purposes of general interest and benefit to the state.

SEC. 2. Section 1 of this act shall apply to revenues derived from taxes imposed pursuant to the Cigarette Tax Law on and after January 1, 1970.

SECTION 1. Section 3706 of the Elections Code is amended to read:

Any petition not so filed shall be returned to the proponents of the measure.

SEC. 3. Section 3707 of the Elections Code is amended to read:

If the county clerk's certificate shows the petition to be insufficient, a supplemental petition, in form a duplicate of the original petition, bearing additional signatures, may be filed within 10 days of the date of the certificate of insufficiency. The county clerk shall, within 10 days after the supplemental petition is filed, examine it, and if his certificate shows that the signatures to the petition are still insufficient, no action shall be taken on the petition. The petition shall remain on file as a public record for a period of two years from the date of the final certificate, and the failure to secure sufficient signatures shall not prejudice the filing later of an entirely new petition to the same effect. If the petition together with supplementary petitions, if any, is found to be sufficient, the county clerk shall submit it to the board of supervisors at the next regular meeting of the board.

SEC. 4. Section 4008 of the Elections Code is amended to read:

(3) Whether each signature bears, in immediate proximity thereto, a date, a street address and a precinct name or number as hereinabove described.

(b) If any signature appearing on the petition is undated or bears a date which is prior or subsequent to the time during which signatures may be placed upon such petition or appears to be a duplicate signature, the clerk shall disregard such signature. If any signature does not bear in close proximity thereto, a residence address and precinct designation as hereinabove defined, such signature shall be disregarded. If it appears that a date and address following any signature was placed there by a person other than the signer, such signature shall be disregarded.

SEC. 6. Section 4009.1 of the Elections Code is amended to read:

4009.1. The clerk's examination process shall be completed not later than thirty (30) days from the date of the filing of the petition. Supplemental petitions shall be processed by the clerk in the same manner as set forth herein with respect to original petitions.

SEC. 8. Section 4011 of the Elections Code is amended to read:

4011. If the initiative petition is signed by not less than 15 percent of the voters of the city according to the county clerk's last official report of registration to the Secretary of State, or in a city with 1,000 or less registered voters the signatures of 25 percent of the voters or 100 voters of the city, whichever is the lesser number, and contains a request that the ordinance be submitted immediately to a vote of the people at a special election, the legislative body shall either:

(a) Introduce the ordinance without alteration at the regular meeting at which it is presented and adopt the ordinance within 10 days after it is presented; or

CHAPTER 942

An act to add Article 5 (commencing with Section 21690.20) to Chapter 4 of Part 1 of Division 9 of the Public Utilities Code, relating to airports.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 21690.20) is added to Chapter 4 of Part 1 of Division 9 of the Public Utilities Code, to read:

Article 5. Los Angeles International Airport Relocation and Development

21690.20. The Legislature hereby finds that Los Angeles International Airport is one of the important air terminals of the world, making a significant contribution daily to the economy of California.

Since 1959, jet air traffic at the airport has increased from 80 flights daily to nearly 1,000 daily. This increasing air traffic and necessary expansion of airport facilities has had an adverse affect on the residents of the surrounding areas. Expansion and development has and is expected to require the acquisition of many homes in the vicinity of the airport and has rendered other homes in areas subjected to aircraft noise nearly uninhabitable. Property owners in the vicinity of the airport are either unable to sell their homes or able to sell only at depressed market prices. Under present laws, the Department of Airports of the City of Los Angeles is required only to pay homeowners "fair market value" for their property. With increasing property costs and current high interest rates, it is impossible for a homeowner to purchase a comparable dwelling in a comparable residential area for amounts now being paid as "fair market value."

The City Council of the City of Los Angeles has initiated this legislation to enable the city to (1) assist displaced homeowners to relocate in comparable residential areas and housing, (2) provide, where available, replacement housing acceptable to affected homeowners, and (3) purchase affected homes to compensate homeowners for the depressed values of their property.

There is precedent for the provision of replacement housing, where available, in Chapter 953 of the Statutes of 1968, by which the Department of Public Works is authorized to provide relocation assistance and replacement housing to certain individuals and families displaced because of construction of certain state highway projects. Further, there is precedent for relocation payments to compensate certain homeowners in

Public Law 90-495 and in Chapter 3 of the Statutes of 1968, First Extraordinary Session.

21690.21. Unless the context otherwise requires, the following definitions shall govern the construction of this article:

(a) "Airport" means Los Angeles International Airport.

(b) "Department" means the Department of Airports, City of Los Angeles.

(c) "Mayor" means the Mayor of the City of Los Angeles.

(d) "Board" means the Los Angeles International Airport Property Acquisition Board.

21690.22. Notwithstanding any other provision of law, the department is authorized to:

(a) Assist homeowners displaced by the expansion of the airport to relocate in comparable residential areas and housing.

(b) Provide, where available, replacement housing acceptable to affected homeowners.

(c) Purchase affected property to compensate homeowners for the depressed values of their property as a result of the proximity of the airport to enable such homeowners to purchase comparable housing under more normal market conditions.

21690.23. The department is authorized to expend any available funds, including state and federal funds, for the purpose of purchasing homes from homeowners displaced by the expansion of the airport and relocating or providing suitable replacement housing for such persons, notwithstanding any other provision of law.

[Approved by Governor August 23, 1969. Filed with Secretary of State August 27, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 32100.1 of the Health and Safety Code is amended to read:

32100.1. A petition for election of directors by zones may be signed and filed with the board of directors by registered voters residing within a local hospital district, equal in number to at least 15 percent of the number of votes cast in that district for the office of Governor at the last preceding election at which a Governor was elected. Upon receipt of this petition the board of directors shall, by resolution, divide the local hospital district into five zones and number the zones consecutively from 1 to 5. In establishing these zones the board of directors shall provide for representation in accordance with population and geographic factors of the entire area of the local hospital district. The board of directors shall fix the time and place for a hearing on the proposed establishment of zones. At this hearing any elector of the district may present his views and plans in relation to the proposed zoning, but the board of directors shall not be bound thereby and their decision, in the resolution adopted, shall be final.

After the hearing and final determination by the board of directors the board shall then prepare a measure to be printed on the ballots used at the next general hospital district election, or at a special election to be held for that purpose. The measure shall be printed on the ballots substantially as follows:

"Shall members of the board of directors be elected by zones, as described in the resolution of the board of directors dated _____?", with the words "Yes" and "No" so printed in connection therewith that the voters may express their choice.

The county clerk of the organizing county shall accept arguments for and against the measure to be mailed to each registered voter in the district, in accordance with the procedure in Article 3 (commencing with Section 3780) of Chapter 2 of Division 4 of the Elections Code.

The returns of such election shall be canvassed and declared as at other general hospital district elections, and if it appears that a majority of the votes cast in such election are in favor of said measure the board of directors shall by resolution declare the zones established and shall describe the boundaries of the zones. At the expiration of the terms of office of the members of the board of directors then in office, and thereafter, such members of the board of directors shall be elected by zones. If, at the expiration of said terms of office, three members of the board of directors are to be elected, those three members shall be elected from the zones designated by odd numbers; if two members are to be elected, those two members shall be elected from zones designated by even numbers.

One member of the board of directors shall be elected by the electors of each of the zones. No person shall be eligible to hold the office of member of the board of directors unless he shall have resided in the zone from which he is elected for 90 days next preceding the date of the election.

The formation of a local hospital district may provide for the election of members of the board of directors by zones as above provided for by substantially including in the petition for formation the provisions hereinabove required to be included in such measure, in which event it shall not be necessary to hold the election above provided for, and the members of the board of directors shall be elected from the zones as described in said petition, except that the first board of directors shall be appointed, upon the formation of the district, by the board of supervisors of the county in which the land or a greater part of the land in the district is situated. One member shall be appointed from each zone.

The terms of the members of the first board of directors appointed under the provisions of this section shall be determined as follows:

The members appointed from the zones designated by odd numbers in the petition shall hold office for four years and the members appointed from the zones designated by even numbers in the petition shall hold office for two years. Thereafter, the term of office for all members shall be four years.

Any vacancy upon the board shall be filled by appointment by the remaining members of the board, from the zone left unrepresented on the board of directors. Any person appointed to fill such vacancy shall hold office for the unexpired term.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 28, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Article 6.5 (commencing with Section 33385) is added to Chapter 4 of Part 1 of Division 24 of the Health and Safety Code, to read:

Article 6.5. Project Area Committee

33385. The legislative body of a city or county may call upon the residents and existing community organizations in a redevelopment project area, within which low- and moderate-income families are to be displaced by the redevelopment project, to form a project area committee comprising persons who for at least six months have been resident in or owned property in the project area, and which is considered representative by the legislative body. The project area committee shall include, when applicable, residential owner occupants, residential tenants, businessmen, and members of nonbusiness organizations. The members of the committee shall serve without compensation. If it is the decision of the legislative body

to call for the formation of such a committee, the legislative body shall recognize such a representative project area committee in each project area within 30 days after the selection of each project area for project areas established after the effective date of this section, and by January 1, 1970, for project areas in existence on the effective date of this section.

33386. The redevelopment agency through its staff, consultants, and agency members shall, upon the direction of and approval of the legislative body consult with, and obtain the advice of, the project area committee concerning those policy matters which deal with the planning and provision of residential facilities or replacement housing for those to be displaced by project activities. The agency shall also consult with the committee on other policy matters which affect the residents of the project area. The provisions of this section shall apply throughout the period of preparation of the redevelopment plan and for a three-year period after the adoption of the redevelopment plan, subject to one-year extensions by the legislative body.

33387. Minutes of all the meetings of the redevelopment agency with the project area committee, which meetings shall be open and public, together with a record of all information presented to the project area committee by the redevelopment agency or by the project area committee for the redevelopment agency for the purpose of carrying out the provisions of this article shall be maintained by the redevelopment agency. Such minutes and record shall be open to public inspection and a summary of such record shall be included in the report to the legislative body, submitted by the agency pursuant to Section 33352.

33388. Necessary funds for the operation of the project area committee shall be allocated to the committee by the community or by the redevelopment agency. Such allocation shall include funds or equivalent resources for a committee office, equipment and supplies; and adequate staff for the purposes set forth in Section 33386.

SEC. 2. Section 33402 of the Health and Safety Code is amended to read:

SEC. 3. Section 33411.1 is added to the Health and Safety Code, to read:

33411.1. The legislative body shall insure that such method or plan of the agency for the relocation of families or single persons to be displaced by a project shall provide that no persons or families of low and moderate income shall be displaced unless and until there is a suitable housing unit available and ready for occupancy by such displaced person or

family at rents comparable to those at the time of their displacement. Such housing units shall be suitable to the needs of such displaced persons or families and must be decent, safe, sanitary, and otherwise standard dwelling. The agency shall not displace such person or family until such housing units are available and ready for occupancy.

SEC. 4. Section 33411.3 is added to the Health and Safety Code, to read:

33411.3. Whenever all or any portion of a redevelopment project is developed with low- or moderate-income housing units the agency shall require by contract or other appropriate means that such housing be made available for rent or purchase to the persons and families of low and moderate income displaced by the redevelopment project. Such persons and families shall be given priority in renting or buying such housing; provided, however, failure to give such priority shall not affect the validity of title to real property.

As used in this article, "low- and moderate-income families and persons" means those persons who would qualify as low- and moderate-income persons and families under Section 1715z and 1715z-1 of the United States Code as those definitions in those sections now exist or may be amended, replaced, or superseded.

SEC. 5. Section 33411.4 is added to the Health and Safety Code, to read:

33411.4. If insufficient suitable housing units are available in the community for low- and moderate-income persons and families to be displaced from a redevelopment project area, the legislative body shall assure that sufficient land be made available for suitable housing for rental or purchase by low- and moderate-income persons and families. If insufficient suitable housing units are available in the community for use by such persons and families of low and moderate income displaced by the redevelopment project, the redevelopment agency may, to the extent of that deficiency, direct or cause the development, rehabilitation or construction of housing units within the community, both inside and outside of redevelopment project areas.

SEC. 6. Section 33422 of the Health and Safety Code is amended to read:

33422. Any work of grading, clearing, demolition, or construction in excess of two thousand five hundred dollars ($2,500) undertaken by the agency shall be done by contract after competitive bids. With respect to such work under two thousand five hundred dollars ($2,500), the agency may contract the work without competitive bids, and in contracting such work may give priority to the residents of such redevelopment project areas and to persons displaced from such areas as a result of redevelopment activities.

SEC. 7. Section 33432 of the Health and Safety Code is amended to read:

33432. Except as provided in Article 9 (commencing with Section 33410) of this part, an agency shall lease or sell all real property acquired by it in any project area, except property conveyed by it to the community or any other public body. Any such lease or sale shall be conditioned on the redevelopment and use of the property in conformity with the redevelopment plan.

SEC. 8. Section 33440 of the Health and Safety Code is amended to read:

33440. Except as provided in Article 9 (commencing with Section 33410), this part does not authorize an agency to construct any of the buildings for residential, commercial, industrial, or other use contemplated by the redevelopment plan, except that, in addition to its powers under Section 33445, an agency may construct foundations, platforms, and other like structural forms necessary for the provision or utilization of air rights sites for buildings to be used for residential, commercial industrial, or other uses contemplated by the redevelopment plan.

The public defender shall, however, render legal services as provided in subdivisions (a), (b) and (c) of Section 27706 for any person the public defender determines is not financially able to employ counsel until such time as a contrary determination is made by the court. If a contrary determination is made, the public defender thereafter may not render services for such person except in a proceeding to review the determination of that issue or in an unrelated proceeding. In order to assist the court or public defender in making the determination, the court or the public defender may require a defendant or person requesting services of the public defender to file a financial statement under penalty of perjury.

(b) Any action heretofore or hereafter commenced shall be dismissed by the court in which the same shall have been commenced or to which it may be transferred on motion of the defendant, after due notice to plaintiff or by the court upon its own motion, unless such action is brought to trial within five years after the plaintiff has filed his action, except where the parties have filed a stipulation in writing that the time may be extended and except where it be shown that the defendant has been absent from the state or concealed therein and his whereabouts unknown to plaintiff and not discoverable to said plaintiff upon due diligence, in which event said period of absence or concealment shall not be a part of said five-year period. When, however, such defendant has, or has had, an attorney of record for a sufficient time to enable the action to have been tried if the plaintiff had acted with due diligence, such period of absence or concealment shall be a part

of said five-year period. When, in any action after judgment, a motion for a new trial has been made and a new trial granted, such action shall be dismissed on motion of defendant after due notice to plaintiff, or by the court of its own motion, if no appeal has been taken, unless such action is brought to trial within three years after the entry of the order granting a new trial, except when the parties have filed a stipulation in writing that the time may be extended. When in an action after judgment, an appeal has been taken and judgment reversed with cause remanded for a new trial (or when an appeal has been taken from an order granting a new trial and such order is affirmed on appeal), the action must be dismissed by the trial court, on motion of defendant after due notice to plaintiff, or of its own motion, unless brought to trial within three years from the date upon which remittitur is filed by the clerk of the trial court.

The court shall impose reasonable conditions upon the filing of the claim to avoid unequal treatment between the heirs, devisees, legatees, or creditors of the estate.

SEC. 3. This act shall not apply to claims for damages for injuries to or death of a person for which an action, specified in Section 709 of the Probate Code, is pending at the effective date of this act; nor shall this act revive any claim for damages for injuries to or death of a person previously barred by Chapter 12 (commencing with Section 700) of Division 3 of the Probate Code.

5605. The governing board of any elementary school district situated within a high school district maintaining a junior high school shall permit pupils who have completed the sixth year of the elementary school to attend the junior high school and shall pay to the high school district for the education of

the pupils a tuition charge determined pursuant to this section. The amount of the tuition charge shall be computed as follows:

(a) By multiplying each one hundred dollars ($100) of the assessed valuation of the elementary school district for the current fiscal year, by a computational tax rate. The computational tax rate shall be one dollar and fifty cents ($1.50) increased, where necessary, by a rate which will raise the total of the following amounts: (1) the percentage of miscellaneous funds (as defined by Section 17606), specified in Section 17603.5, and 50 percent of funds under the provisions of Public Law 874, 81st Congress, or under any similar provisions of any other act of Congress in 1969–1970, 70 percent in 1970–1971, and 90 percent in 1971–1972 and each year thereafter, utilized for the elementary school district for the fiscal year; and (2) in the case of an elementary school district not eligible for an increase in foundation program pursuant to either Section 17671 or Section 17676, the total of the amount required by Section 17924 to be raised by the district for the fiscal year by application of an excess in general fund tax rate to be eligible for apportionments of supplemental support, provided that such required amount was actually raised by the district. For purposes of such computations, the assessed valuation of the district shall be modified as required by Section 17262.

(b) By multiplying the product derived under subdivision (a) by the ratio which the average daily attendance of pupils of the elementary school district attending grades 7 and 8 of the junior high school during the current fiscal year, bears to the total average daily attendance of the elementary school district, including such pupils in grades 7 and 8, during the current fiscal year. The amount of the warrant shall be credited to the general fund of the high school district.

On or before July 15th following the close of the fiscal year, the governing board of the elementary school district shall draw its warrant in favor of the high school district against the general fund of the elementary school district in the amount of the difference between the final tuition as computed by this section and the first installment paid to the high school district. The amount of the warrant shall be credited to the general fund of the high school district. The revenues, although received after the close of the fiscal year shall be considered revenues of the preceding fiscal year.

436.3. The department shall administer this chapter and shall make all rules and regulations necessary to implement the provisions and achieve the purposes stated herein. The council, as authorized by this chapter and by Section 431.2, shall advise and consult with the department in carrying out the administration of this chapter.

436.4. The department shall implement the loan insurance program for the construction of public and nonprofit corporation health facilities so that, in conjunction with all other existing facilities, the necessary physical facilities for furnishing adequate health facility services will be available to all the people of the state.

The department shall make an inventory of all existing health facilities and shall survey the need for construction of health facilities and, on the basis of such inventory and survey, shall develop a state plan.

Such state plan shall set forth the relative need for health facilities determined on the basis of the relative need of different sections of the population and of different areas and shall provide for the insurance of loans for health facility construction when need is clearly demonstrated, in the order of relative need so determined, except that preference shall be given to health facility construction which will (a) provide the more comprehensive health services, and (b) include outpatient and other integrated services useful and convenient to the operation of the facility and the community.

The health facility construction loan insurance program shall provide for health facility distribution throughout the state in such manner as to make all types of health facility services reasonably accessible to all persons in the state according to the state plan.

In performing its duties under this section, the department shall, insofar as possible and to the extent not inconsistent with this chapter, give consideration to the state plan and relative need for hospital construction determined under Sections 432, 432.1, and 432.5 of this code.

436.45. No insurance shall be provided for loans under this chapter until a statewide system of health facility planning has been established so that all hospitals as defined in Section 1401 and facilities licensed by the Department of Mental Hygiene pursuant to Chapter 1 (commencing with Section 7000) of Division 7 of the Welfare and Institutions Code have been reviewed by an area health planning agency prior to licensure. No insurance shall be provided for a loan under this chapter for a hospital or facility unless it has been finally approved through the statewide system of health facility planning.

436.5. The proceeds of all loans insured pursuant to this chapter shall be disbursed only upon order of the department or its designated agent. The department shall make rules and regulations to insure the security of such proceeds.

436.6. From time to time the department or its designated agent shall inspect each construction project for which loan insurance was approved, and if the inspection so warrants, the department or agent shall certify that the work has been performed upon the project, or purchases have been made, in accordance with the approved plans and specifications, and that payment of an installment of the loan proceeds is due to the borrower. The department shall charge the borrower a fee for such inspections and certifications, which in no instance shall exceed four dollars ($4) for each one thousand

dollars ($1,000) of the borrower's loan which is insured. Such fees shall be deposited in the fund

436.7. The department shall fix an annual premium charge for the insurance of hospital construction loans under this chapter, and such charge shall be deposited in the fund. The annual premium charge shall not be more than an amount equivalent to one-half of 1 percent per annum of the average amount of the principal obligation of the loan during the year in which the charge is made, without taking into account delinquent payments. The department may reduce or eliminate the premium charges for insured loans outstanding for a period in excess of three years. Such premium charges shall be payable by the borrower, or, where practicable, by the lender on account of a delinquent borrower, to the department at such times as shall be fixed by the department. The department may require the payment of one or more such premium charges at the time the loan is insured, at such discount rate as it may prescribe not in excess of the interest rate specified in the loan. In the event that the principal obligation of any insured loan is paid in full prior to the maturity date, the department is authorized to refund to the borrower all, or such portion as the department shall determine to be equitable, of the current unearned premium charges theretofore paid by the borrower.

Article 2. Insurable Loans and Applications Therefor

436.8. A loan shall be eligible for insurance under this chapter if all of the following conditions are met:

(a) When the borrower is a nonprofit corporation, such loan shall be secured by a mortgage, first lien, trust indenture, or such other security agreement as the department may require subject only to such conditions, covenants and restrictions, easements, taxes, and assessments of record approved by the department. When the borrower is a political subdivision, such loan may be evidenced by a duly authorized bond issue. A loan to a local hospital district may meet the requirement of this subdivision by either method.

(b) The borrower obtains an American Land Title Association title insurance policy with the department designated as beneficiary, with liability equal to the amount of the loan insured under this chapter, and with such additional endorsements as the department may reasonably require.

(c) The proceeds of the loan shall be used exclusively for the construction of the health facility, as approved by the department under Section 436.4. The department may not insure a loan for a health facility which is not needed as determined by the state plan developed under the authorization of Section 436.4.

(d) The loan shall have a maturity date not exceeding 30 years from the date of the beginning of amortization of the

loan, except as authorized by subdivision (e), or 75 percent of the department's estimate of the economic life of the health facility, whichever is the lesser

(e) The loan shall contain complete amortization provisions requiring periodic payments by the borrower not in excess of its reasonable ability to pay as determined by the department. The department shall permit a reasonable period of time during which the first payment to amortization may be waived on agreement by the lender and borrower. The department may, however, waive the amortization requirements of this subdivision and of subdivision (g) of this section when a term loan would be in the borrower's best interest.

(f) The loan shall bear interest on the amount of the principal obligation outstanding at any time at a rate, as negotiated by the borrower and lender, as the department finds necessary to meet the loan money market. As used in this chapter, "interest" does not include premium charges for insurance and service charges if any. Where a loan is evidenced by a bond issue of a political subdivision, the interest thereon may be at any rate which such bonds may legally bear.

(g) The loan shall provide for the application of the borrower's periodic payments to amortization of the principal of the loan.

(h) The loan shall contain such terms and provisions with respect to insurance, repairs, alterations, payment of taxes and assessments, foreclosure proceedings, anticipation of maturity, additional and secondary liens, and other matters as the department may in its discretion prescribe.

(i) The loan shall have a principal obligation not in excess of an amount equal to 90 percent of the total construction cost. Where the borrower is a political subdivision, the department may fully insure loans equal to the total construction cost.

436.9. Health facilities to be or already owned, established and operated by nonprofit corporations or political subdivisions may apply for state insurance of needed construction loans as provided in this chapter. Applications shall be submitted to the department by the nonprofit corporation or political subdivision authorized to construct and operate a health facility. Each application shall conform to state requirements, shall be submitted in the manner and form prescribed by the department, and shall be accompanied by a five-hundred-dollar ($500) application fee, to be deposited by the department in the fund and used to help defray the department's expenditures in the administration of this chapter.

436.10. Every applicant for insurance shall be afforded an opportunity for a fair hearing before the council upon 10 days' written notice to the applicant. If the department, after affording reasonable opportunity for development and presentation of the application and after receiving the advice of the council, finds that an application complies with the require-

ments of this article and of Section 436.4 and is otherwise in conformity with the state plan, it may approve such application for insurance. The department shall consider and approve applications in the order of relative need set forth in the state plan in accordance with Section 436.4.

436.11. The department may upon application of the borrower insure any loan which is eligible for insurance under this chapter; and upon such terms as the department may prescribe may make commitments for the insuring of such loans prior to their date of execution or disbursement thereon. The department may, for five years after the effective date of this chapter, accept and approve applications for insurance of loans executed during the period from and including November 5, 1968, to the effective date of this chapter.

436.12. Any contract of insurance executed by the department under this chapter shall be conclusive evidence of the eligibility of the loan for insurance and the validity of any contract of insurance so executed shall be incontestable from the date of the execution of the contract. except in case of fraud or misrepresentation on the part of such lender.

Article 3. Defaults

436.13. In any case in which the lender under a loan to a nonprofit corporation insured under this chapter shall have foreclosed and taken possession of the property under a mortgage in accordance with regulations of, and within a period to be determined by the department, or shall, with the consent of the department, have otherwise acquired such property from the borrower after default, the lender shall be entitled to receive the benefit of the insurance as provided in this section, upon (a) the prompt conveyance to the department of title to the property which meets the requirements of rules and regulations of the department in force at the time the loan was insured, and which is evidenced in the manner prescribed by such rules and regulations, and (b) the assignment to the department of all claims of the lender against the borrower or others arising out of the loan transaction or foreclosure proceedings except such claims as may have been released with the consent of the department. Upon such conveyance and assignment, the department shall notify the State Treasurer, who shall issue to the lender debentures having a total face value equal to the outstanding value of the loan.

For the purposes of this section, the outstanding value of the loan shall be determined, in accordance with rules and regulations prescribed by the department, by (a) adding to the amounts of the original principal obligation of the loan and interest which are accrued and unpaid the amount of all payments which have been made by the lender for the following: taxes and assessments, ground rents, water rates, and other liens which are prior to the mortgage; charges for the administration, operation, maintenance and repair of the health

facility property; insurance on the project property, loan insurance premiums, and any tax imposed by a city or county upon any deed or other instrument by which the property was acquired by the lender and transferred or conveyed to the department; and the costs of foreclosure or of acquiring the property by other means actually paid by the lender and approved by the department; and by (b) deducting from such total amount any amounts received by the lender after the borrower's default on account of the loans or as rent or other income from the property.

436.14. In any case in which a political subdivision defaults on the payment of interest or principal accrued and due on bonds or other evidences of indebtedness insured under this chapter, debentures in an amount equal to the outstanding original principal obligation and interest on the bonds which were accrued and unpaid on the date of default and bearing interest at a rate equal to and payment schedule identical with those of such bonds shall be issued by the State Treasurer upon notification thereof by the department to the bondholders upon the surrender of such bonds to the department.

In any case in which a hospital district defaults on the payment of interest or principal accrued and due on an insured loan secured by a first mortgage, first deed of trust, or other security agreement as authorized by Section 32127.2, debentures shall be issued to the lender in a total face value equal to the outstanding value of the loan as determined by the applicable provisions of Section 436.13 after the state has enforced its rights under such first mortgage, first deed of trust, or other security agreement. Such debentures shall be dated, bear interest, and have a maturity date as prescribed by Section 436.20 as such section relates to Section 436.13.

436.15. Notwithstanding any requirement contained in this chapter relating to acquistion of title and possession of the project property by the lender and its subsequent conveyance and transfer to the department, and for the purpose of avoiding unnecessary conveyance expense in connection with payment of insurance benefits under the provisions of this chapter, the department may, subject to such rules and regulations as it may prescribe, permit the lender to tender to the department a satisfactory conveyance of title and transfer of possession direct from the borrower or other appropriate grantor and to pay to the lender the insurance benefits to which it would otherwise be entitled if such conveyance had been made to the lender and from the lender to the department.

436.16. Upon receiving notice of the default of any loan insured under this chapter the department, in its discretion and for the purpose of avoiding foreclosure under Section 436.13 and notwithstanding the fact that it has previously approved a request of the lender for extensions of the time for curing the default and of the time for commencing fore-

closure proceedings or for otherwise acquiring title to the project property, or has approved a modification of the loan for the purpose of changing the amortization provisions by recasting the unpaid balance, may acquire the loan and security agreements securing such loans upon the issuance to the lender of debentures in an amount equal to the unpaid principal balance of the loan plus any accrued unpaid loan interest plus reimbursement for such costs and attorney's fees of the lender enumerated in Section 436.13.

After the acquisition of such loan and security interests therefor by the department, the lender shall have no further rights, liabilities, or obligations with respect thereto. The provisions of Section 436.13 relating to the issuance of debentures incident to the acquisition of foreclosed properties shall apply with respect to debentures issued under this section, and the provisions of this chapter relating to the rights, liabilities, and obligations of a lender shall apply with respect to the department when it has acquired an insured loan under this section, in accordance with and subject to any regulations prescribed by the department modifying such provisions to the extent necessary to render their application for such purposes appropriate and effective.

436.17. Notwithstanding any other provision of this chapter, after the department determines that the lender and borrower have exhausted all reasonable means of curing any default, the department within its discretion may, when such is in the best interests of the state, the borrower, and the lender, cure the default of the borrower by making payment from the fund directly to the lender of any amounts of the original principal obligation and interest of the loan which are accrued and unpaid. Such payment shall be secured by an assignment to the department of a pro rata share of the security agreements made to the lender and, upon such payment, the borrower shall become liable for repayment of the amount thereof to the department over a period and at a rate of interest as shall be determined by the department.

436.18. The department may at any time, under such terms and conditions as it may prescribe, consent to the lender's release of the borrower from its liability under the loan or the security agreement securing such loan, or consent to the release of parts of the project property from the lien of any security agreement.

436.19. Debentures issued under this chapter shall be in such form and denomination in multiples of one thousand dollars ($1,000), shall be subject to such terms and conditions, shall include such provisions for redemption, if any, as may be prescribed by the department with the approval of the State Treasurer, and may be in coupon or registered form. Any difference between the value of the loan determined as herein provided and the aggregate face value of the debentures issued, not to exceed one thousand dollars ($1,000), shall be adjusted

by the payment of cash by the department to the lender from the fund.

436.20. All debentures issued under this chapter to any lender or bondholder shall be executed in the name of the fund as obligor, shall be signed by the State Treasurer, and shall be negotiable. Pursuant to Sections 436.13 and 436.14, all such debentures shall be dated as of the date of the institution of foreclosure proceedings or as of the date of the acquisition of the property after default by other than foreclosure, or as of such later date as the department, in its discretion, may establish by regulation. The debentures shall bear interest from such date at a rate approved by the State Treasurer, equal to either the rate applicable to the most recent issue of State General Fund bonds or that specified in Section 436.14, shall be payable semiannually on the first day of January and the first day of July of each year except in the case of bonds or other evidences of indebtedness as specified in Section 436.14, and shall have the same maturity date as the loan which they insured. All such debentures shall be exempt, both as to principal and interest, from all taxation now or hereafter imposed by the state or local taxing agencies, shall be paid out of the fund, which shall be primarily liable therefor, and shall be, pursuant to Article XIII, Section 21.5 of the California Constitution, fully and unconditionally guaranteed as to principal and interest by the State of California, which guaranty shall be expressed on the face of the debentures. In the event that the fund fails to pay upon demand, when due, the principal of or interest on any debentures issued under this chapter, the State Treasurer shall pay to the holders the amount thereof which is authorized to be appropriated, out of any money in the Treasury not otherwise appropriated, and thereupon to the extent of the amount so paid the State Treasurer shall succeed to all the rights of the holders of such debentures. The fund shall be liable for repayment to the Treasury of any money paid therefrom pursuant to this section in accordance with procedures jointly established by the State Treasurer and the department.

436.21. SEC. 4. Subdivision (a) of Section 14123 as added by Section 2 of this act does not constitute a change in, but is declaratory of the preexisting law, and shall be construed merely as providing a specific statutory basis for suspension.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969]

The people of the State of California do enact as follows:

SECTION 1. Section 15 of the San Gorgonio Pass Water Agency Law (Chapter 1435 of the Statutes of 1961) is amended to read:

Sec. 15. The agency incorporated as herein provided, shall have the power:

1. To have perpetual succession;

2. To sue and be sued, except as otherwise provided herein or by law, in all actions and proceedings in all courts and tribunals of competent jurisdiction;

3. To adopt a seal and alter it at pleasure;

4. To take by grant, purchase, gift, devise, or lease, hold, use, enjoy, and to lease or dispose of real and personal property of every kind, within or without the agency;

5. To acquire, or contract to acquire, waterworks or a waterworks system, waters, water rights, lands, rights and privileges and construct, maintain and operate conduits, pipelines, reservoirs, works, machinery and other property useful or necessary to store, convey, supply or otherwise make use of water for a waterworks plant or system for the benefit of the agency, and to complete, extend, add to, repair or otherwise improve any waterworks or waterworks system acquired by it as herein authorized.

6. To construct, maintain, improve and operate public recreational facilities appurtenant to any water reservoir operated or contracted to be operated by the agency, and to provide by ordinance regulations binding upon all persons to govern the use of such facilities including regulations imposing reasonable charges for the use thereof. Violation of any such regulation shall be a misdemeanor.

7. To lease of and from any person, firm or public or private corporation, or public agency, with the privilege of purchasing or otherwise, all or any part of water storage, transportation or distribution facilities, existing waterworks or a waterworks system, and to carry on and conduct waterworks or a waterworks system; also to sell water under the control of the agency to cities, and to other public corporations and public agencies within the agency, and to the inhabitants of such cities and of other territory within the agency, and to persons, corporations, and other private agencies within the agency for use within said agency without any preference; also to sell water under the control of the agency to any city, or any company or public agency serving a city, which city is located wholly or partially within the agency, for distribution only within such city; and it may, whenever the board shall find that there is a surplus of water above that which may be required by such consumers within said agency, sell or otherwise dispose of such surplus water to any persons, firms, public or private corporations or public agencies or other consumers,

8. To supply and deliver agency water to publicly owned and operated golf courses and other publicly owned and operated recreational facilities and to public schools, school districts and public school properties, and to fix and establish special rates, terms and conditions for the use and sale of water for each of these purposes; provided, however, that this provision shall not be construed to indicate legislative intent either for or against the existence of any power of the agency to furnish water to other persons, firms or corporations at just and reasonable rates;

9. To have and exercise the right of eminent domain and in the manner provided by law for the condemnation of private property for public use, to take any property necessary to

supply the agency or any portion thereof with water, whether such property be already devoted to the same use or otherwise, and may condemn any existing waterworks or system, or any portion thereof, or any waters or water rights owned by any person, firm or private corporation, provided that the use to which such property is to be devoted by the agency must be pleaded and proven by the agency to be a more necessary public use than that to which it is then appropriated, as a condition to the exercise of such right of eminent domain. In proceedings relative to the exercise of such right, the agency shall have all of the rights, powers and privileges of a city; provided, the agency in exercising such power, shall in addition to the damage for the taking, injury, or destruction of property, also pay the cost of removal, reconstruction, or relocation of any structure, railways, mains, pipes, conduits, wires, cables or poles of any public utility which is required to be removed to a new location. In no event shall the agency have or exercise the power of eminent domain with respect to property situated outside the boundaries of the agency, unless it first obtains the consent of the board of supervisors of the county in which such property is located to such exercise of said power.

10. To issue bonds, borrow money and incur indebtedness as authorized by law or in this act provided; also to refund (by the issuance of the same obligations following the same procedure) or retire any indebtedness or lien that may exist against the agency or property thereof; also to issue warrants to pay the formation expenses of the agency, which warrants may bear interest at a rate not exceeding 6 percent per annum from the date of issue until funds are available to pay the warrants, and which formation expenses may include fees of attorneys and others employed to conduct the formation proceedings.

11. To issue negotiable promissory notes bearing interest at a rate not exceeding 6 percent per annum; provided, however, that said notes shall be general obligations of the agency payable from revenues and taxes in the same manner as bonds of said agency; and provided further that the maturity shall not be later than five years from the date thereof and that the total aggregate amount of such notes outstanding at any one time shall not exceed the lesser of either one million five hundred thousand dollars ($1,500,000) or 2 percent of the assessed valuation of the taxable property in the agency, or, if said assessed valuation is not obtainable, 2 percent of the county auditor's estimate of the assessed valuation of the taxable property in the agency evidenced by his certificate;

12. To cause taxes to be levied, in the manner hereinafter provided, for the purpose of paying any obligation of the agency, including its formation expenses and any warrants issued therefor;

13. To restrict the use of agency water during any emergency caused by drought, or other threatened or existing water shortage, and to prohibit the wastage of agency water or the use of agency water during such periods, for any purpose other than household uses or such other restricted uses as may be determined to be necessary by the agency; to prohibit the use of such water during such periods for specific uses which the agency may from time to time find to be nonessential;

14. To prescribe and define by ordinance, the restrictions, prohibitions and exclusions referred to in subdivision 13 hereof. Every ordinance relating to the matters referred to in this subdivision shall be in full force and effect forthwith upon adoption, but shall be published pursuant to Section 6061 of the Government Code in full in a newspaper of general circulation, printed, published and circulated in the agency within 10 days after adoption, or if there be no such newspaper it shall be posted within said time in three public places within the agency;

15. To make contracts, to employ labor, and do all acts necessary for the full exercise of the foregoing powers;

16. In case of condemnation proceedings the board shall proceed in the name of the agency;

17. To provide by ordinance of its board of directors for the pensioning of officers or employees and the creation of a special fund for the purpose of paying such pensions, and the accumulation of contributions to said fund from the revenues of the agency, the wages of officers or employees, voluntary contributions, gifts, donations or any source of revenue not inconsistent with the general powers of the board, and to contract with any insurance corporation or any other insurance carrier for the maintenance of a service covering the pension of such officers or employees, and to provide in such ordinance for the terms and conditions under which such pensions shall be awarded, and for the time and extent of service of officers or employees before such pensions shall be available to them;

18. To acquire, control, distribute, store, spread, sink, treat, purify, reclaim, recapture, and salvage any water, including sewage and storm waters, for the beneficial use or uses and protection of the agency or its inhabitants or the owners of rights to water therein; provided, however, that all waters of the Whitewater River system are excluded from the provisions hereof, except such waters of said system as may be lawfully acquired by the San Gorgonio Pass Water Agency.

19. Subject to the limitations in subdivision 9 of this section, to join with one or more public agencies, private corporations or other persons for the purpose of carrying out any of the powers of the agency, and for that purpose to contract with such other public agencies or private corporations or persons for the purpose of financing such acquisitions, constructions and operations. Such contracts may provide for contributions to be made by each party thereto and for the

division and apportionment of the expenses of such acquisitions and operations, and the division and apportionment of the benefits, the services and products therefrom, and may provide for any agency to effect such acquisitions and to carry on such operations, and shall provide in the powers and methods of procedure for such agency the method by which such agency may contract. Such contracts with other public agencies or private corporations or persons may contain such other and further covenants and agreements as may be necessary or convenient to accomplish the purposes thereof. Particularly, but not exclusively, the agency may contract with the State of California for delivery of water under the State Water Plan. The term "public agency," as used in this subdivision, shall be deemed to mean and include the United States of America or any department or agency thereof, the State of California or any department or agency thereof, a county, city, public corporation, the Metropolitan Water District of Southern California, or other public district of this state. The term "private corporation," as used in this subdivision, shall be deemed to mean and include any private corporation organized under the laws of the United States of America or of this or any other state thereof. Contracts mentioned herein include those made with the United States, under the Federal Reclamation Act of June 17, 1902, and all acts amendatory thereof or supplementary thereto or any other act of Congress heretofore or hereafter enacted permitting cooperation. Any such contract with the United States of America or any department or agency thereof, or with any private corporation organized under the laws of the United States of America, by which the agency, or an improvement district thereof, incurs an indebtedness or liability exceeding in any year the income and revenue for such year shall not be executed without the assent of two-thirds of the qualified electors of the agency, or an improvement district thereof, voting at a special election to be held for that purpose, such election to be called and held, so far as practicable, in the same manner as bond elections for the agency. The exact form of such contract need not be available at the time of the special election, but the (1) purpose of the contract; (2) maximum amount of the indebtedness created thereby; (3) maximum term of repayment, and (4) maximum interest rate on such indebtedness shall be known and included in the proposition or measure submitted to the qualified electors of the agency, or an improvement district thereof, at such special election.

20. To commence, maintain, intervene in, defend and compromise, in the name of the agency, and to assume the costs and expenses of any and all actions and proceedings which involve or affect the ownership or use of water or water rights, used or useful for any purpose of the agency, or a common benefit to the lands within the agency or inhabitants of the agency, and in any such action or proceeding the agency may

act as a representative of any class or classes of users of water within the agency, producers of water within the agency or owners of rights to water used or useful within the agency, or owners of property within the agency.

21. Distribute water to persons in exchange for ceasing or reducing ground water extractions and to fix the terms and conditions of any contract under which producers may agree voluntarily to use replenishment water from a nontributary source in lieu of ground water, and to such end an agency may become a party to such contract and pay from the agency funds such portion of the cost of such replenishment waters as will encourage the purchase and use of such water in lieu of pumping so long as the persons or property within the agency are directly or indirectly benefited by the resulting replenishment.

22. To issue bonds under Section 28 of this act for the purpose of providing money required to be paid by this agency to the State of California or any agency thereof under any contract which shall be made with it, or as all or part of the terms and conditions under which the corporate area of the agency may be annexed to and become a part of any metropolitan water district organized under the Metropolitan Water District Act. The amount of said bonds may include expenses of all proceedings for the authorization, issuance and sale of the bonds.

23. To issue revenue bonds for any purpose for which general obligation bonds may be issued, and for any purpose for which such bonds could be issued under the provisions of the Revenue Bond Law of 1941 or any other law which by its terms is applicable to the agency.

24. To use the Improvement Act of 1911 for the construction of any facilities authorized to be constructed under the provisions of this act. The powers and duties conferred by the Improvement Act of 1911 on the various boards, officers and agents of cities shall be exercised by the respective boards, officers and agents of the agency. In the application of said Improvement Act of 1911 to proceedings instituted by the agency, the terms used in said Improvement Act of 1911 shall have the following meanings:

(a) "City council" and "council" shall mean the board of directors of the agency.

Any certificates or documents required to be filed or recorded in the office of the superintendent of streets or street superintendent shall be filed and recorded in the office of the Secretary of the San Gorgonio Pass Water Agency.

25. To disseminate information concerning the activities of the agency; and in instances in which it shall be found by two-thirds vote of the board of directors to be necessary for the protection of agency rights and properties to disseminate information concerning such rights and properties, also concerning matters which in the judgment of the board may adversely affect such rights and properties; provided, that expenditures during any fiscal year for such purposes shall not exceed one cent ($0.01) for each one hundred dollars ($100) of assessed valuation of such agency.

CHAPTER 1028

(b) Applications for a nonresident hypodermic needle or syringe distributor's license under this section shall be made on a form furnished by the board. The board may require such information as the board deems is reasonably necessary to carry out the purposes of the section.

(c) The board may deny, revoke, or suspend such nonresident distributor's license for any violation of this chapter.

(d) The Legislature, by enacting this section, does not intend a license issued to any nonresident distributor pursuant to this section to serve as any evidence that such entity is doing business within this state.

CHAPTER 1029

An act to amend Section 53205.1 of the Government Code, and to validate certain pension trusts and investments, relating to officers and employees of local agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 53205.1 of the Government Code is amended to read:

53205.1. From funds under its jurisdiction, the legislative body may authorize payment of all or such portion as it may elect of the premium for group accident and health insurance and medical and hospital service on the spouse and dependent children under the age of 21, dependent children under the age of 25 who are full-time students at a college or university, and dependent children regardless of age who are physically or mentally incapacitated, of such officers and employees subject to the jurisdiction and for whom group accident and health insurance or medical and hospital service contracts have been procured.

Such expenditures are charges against the funds. If the employer pays any portion of the premiums for such insurance any dividend paid or premiums refunded under any such insurance up to the aggregate expenditures of the employer for such insurance are the employer's property. The excess, if any, shall be applied by the employer for the benefit of such insured employees or their dependents generally.

SEC. 2. Notwithstanding Section 53216 of the Government Code, the establishment of a pension trust and the investment of the assets of the pension trust in bonds and debentures of private and public corporations under the advice of counsel by any housing authority prior to June 1, 1969, is hereby ratified and declared legally effective.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Certain local agencies are planning in the immediate future to procure standard health and medical contracts for their officers and employees, their spouses and dependent children which include certain dependent children above the age of 21 years.

Also, a housing authority in good faith and under advice of counsel has established a pension trust and invested the assets of the pension trust in the bonds and debentures of large private and public corporations. Some question exists as to whether such establishment and investment are authorized by law and thus whether pension benefits may be paid therefrom. This act must take effect immediately in order for beneficiaries of the pension trust to receive their retirement allowance without further loss and delay.

CHAPTER 1030

An act to add Section 11005.3 to the Government Code, relating to state agencies.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 11005.3 is added to the Government Code, to read:

11005.3. Any state department, board, or commission may lease any real property for the use of such state agency for storage, warehouse, or office purposes provided the lease term shall not exceed one year and the total rental does not exceed one thousand dollars ($1,000). Any such lease is subject to the approval of the Department of General Services.

CHAPTER 1031

An act reaffirming the existence of the New Car Dealers Policy and Appeals Board and the Cannery Inspection Board, relating to executive reorganization, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 28, 1969 Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, Chapter 5 (commencing with Section 3000) of Division 2 of the Vehicle Code and Section 11723 shall be operative until the 91st day after the final adjournment of the 1971 Regular Session of the Legislature.

SEC. 2. Notwithstanding any other provision of law, Chapter 8 (commencing with Section 28360) of Division 21 of the Health and Safety Code shall remain in effect.

SEC. 3. It is the intent of the Legislature in enacting this act that any existing state agency affected by Sections 1 and 2 of this act shall not be affected by the provisions of Reorganization Plan No. 1 of 1969 and in the event of any conflict between the provisions of this act and the provisions of Reorganization Plan No. 1 of 1969, the provisions of this act shall control.

SEC. 4. This act shall become operative at the same time that Reorganization Plan No. 1 of 1969 becomes effective.

SEC. 4. In the event any reorganization plan of the Governor submitted to the Legislature at the 1969 session of the Legislature becomes effective, the Legislative Counsel, when preparing a bill effecting such changes as are made by any such plan for introduction pursuant to Section 12081 of the Government Code, shall omit any part of any plan which conflicts with the provisions of this act.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The abolition of the boards affected by this chapter has been proposed by Reorganization Plan No. 1 of 1969. If Reorganization Plan No. 1 of 1969 should become effective and the boards affected by this chapter are to be continued in existence it is necessary for this act to take effect at the same time Reorganization Plan No. 1 becomes effective.

CHAPTER 1032

An act to amend Section 3 of Chapter 1797 of the Statutes of 1963, relating to revision of the Penal Code, and declaring the urgency thereof, to take effect immediately.

The advisory board shall consist of the following persons:

(1) A chairman, who shall preside at all meetings;

(2) A representative to be designated by the Attorney General;

(3) Two district attorneys;

(4) Three lawyers wholly or substantially engaged in the practice of criminal law in the courts of the State of California, one of whom shall be a public defender;

(7) A representative of the Board of Corrections; and

(8) The committee shall request the Judicial Council to designate two superior court judges and two municipal court judges to serve on the advisory board.

(d) The Legislative Counsel or deputy designated by him shall attend meetings of the committee and shall provide advice and assistance.

(e) The committee may request the California Law Revision Commission to prepare research studies and recommendations relating to specific portions of the committee's assignment under Section 2. To the extent that funds are available to the commission, the commission shall prepare such research studies and recommendations and shall submit them to the committee. The committee may take such action with respect to the recommendations as it considers appropriate.

(f) The committee may contract for services as necessary or convenient to the performance of its duties.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1034

An act to amend Sections 1987 and 2019 of the Code of Civil Procedure, relating to civil litigation.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1987 of the Code of Civil Procedure is amended to read:

1987. (a) Except as provided in Section 68097.1 to 68097.8, inclusive, of the Government Code, the service of a subpoena is made by showing the original and delivering a copy, or a ticket containing its substance, to the witness personally, giving or offering to him at the same time, if demanded by him, the fees to which he is entitled for travel to and from the place designated, and one day's attendance there. The service must be made so as to allow the witness a reasonable time for preparation and travel to the place of attendance. Such service may be made by any person.

(b) In the case of the production of a party to the record of any civil action or proceeding or of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of anyone who is an officer, director, or managing agent of any such party or person, the service of a subpoena upon any such witness is not required if written notice requesting such witness to attend before a court, or at a trial of an issue therein, with the time and place thereof, is served upon the attorney of such party or person. Such notice shall be served at least 10 days before the time required for attendance unless the court prescribes a shorter time. If entitled thereto, such witness, upon demand, shall be paid witness fees and mileage before being required to testify. The giving of such notice shall have the same effect as service of a subpoena on the witness, and the parties shall have such rights and the court may make such orders, including the imposition of sanctions, as in the case of a subpoena for attendance before the court. Such notice cannot require the attendance of such witness at a place more than 150 miles from the residence of such witness.

(c) If the notice specified in subdivision (b) is served at least 20 days before the time required for attendance, or within such shorter time as the court may order, it may include a request that such party or person bring with him books, documents or other things. The notice shall state the exact materials or things desired and that such party or person has them in his possession or under his control. Within five days thereafter, or such other period as the court may allow, the party or person of whom the request is made may serve and file written objections to the request or any part thereof, with a statement of grounds. Thereafter, upon noticed motion of the requesting party, accompanied by a showing of good cause and of materiality of the items to the issues, the court may order production of items to which objection was made, unless the objecting party or person establishes good cause for nonproduction or production under limitations or conditions. The procedure of this subdivision is alternative to the procedure provided by

Sections 1985 and 1987.5 in the cases herein provided for, and no subpoena duces tecum shall be required.

Subject to the provisions of this subdivision, the notice herein provided shall have the same effect as is provided in subdivision (b) as to a notice for attendance of such party or person.

SEC. 1.5. Section 1987 of the Code of Civil Procedure is amended to read:

1987. (a) Except as provided in Sections 68097.1 to 68097.8, inclusive, of the Government Code, the service of a subpoena is made by delivering a copy, or a ticket containing its substance, to the witness personally, giving or offering to him at the same time, if demanded by him, the fees to which he is entitled for travel to and from the place designated, and one day's attendance there. The service must be made so as to allow the witness a reasonable time for preparation and travel to the place of attendance. Such service may be made by any person.

(b) In the case of the production of a party to the record of any civil action or proceeding or of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of anyone who is an officer, director, or managing agent of any such party or person, the service of a subpoena upon any such witness is not required if written notice requesting such witness to attend before a court, or at a trial of an issue therein, with the time and place thereof, is served upon the attorney of such party or person. Such notice shall be served at least 10 days before the time required for attendance unless the court prescribes a shorter time. If entitled thereto, such witness, upon demand, shall be paid witness fees and mileage before being required to testify. The giving of such notice shall have the same effect as service of a subpoena on the witness, and the parties shall have such rights and the court may make such orders, including the imposition of sanctions, as in the case of a subpoena for attendance before the court. Such notice cannot require the attendance of such witness at a place more than 150 miles from the residence of such witness.

(c) If the notice specified in subdivision (b) is served at least 20 days before the time required for attendance, or within such shorter time as the court may order, it may include a request that such party or person bring with him books, documents or other things. The notice shall state the exact materials or things desired and that such party or person has them in his possession or under his control. Within five days thereafter, or such other period as the court may allow, the party or person of whom the request is made may serve and file written objections to the request or any part thereof, with a statement of grounds. Thereafter, upon noticed motion of the requesting party, accompanied by a showing of good cause and of materiality of the items to the issues, the court may

order production of items to which objection was made, unless the objecting party or person establishes good cause for nonproduction or production under limitations or conditions. The procedure of this subdivision is alternative to the procedure provided by Sections 1985 and 1987.5 in the cases herein provided for, and no subpoena duces tecum shall be required.

Subject to the provisions of this subdivision, the notice herein provided shall have the same effect as is provided in subdivision (b) as to a notice for attendance of such party or person.

SEC. 2. Section 2019 of the Code of Civil Procedure is amended to read:

2019. (a) (1) A party desiring to take the deposition of any person upon oral examination shall give notice in writing to every other party to the action. The notice shall state the time and place for taking the deposition and the name and address of each person to be examined, if known, and, if the name is not known, a general description sufficient to identify him or the particular class or group to which he belongs. Such notice must be at least 10 days, adding also one day for every 300 miles of the distance of the place of examination from the residence of the person to whom the notice is given, except that on motion of any party, with or without notice, and for good cause shown, the court may enlarge or shorten the time, or may stay the taking of the deposition until the hearing and determination of a motion for an order pursuant to subdivision (b) of this section. Service of such notice or motion may be made upon any party or his attorney in the manner provided in Chapter 5 (commencing with Section 1010) of Title 14 of Part 2 of this code.

(2) Notwithstanding Section 1989 and the distance provisions specified in paragraph (4) of this subdivision, the deposition, whether of a party or any other person, shall be taken only in the county of residence of the deponent or at a place not more than 75 miles from the residence of the deponent or, if the deponent is a party, in the county of place of trial when the place of deposition is less than 150 miles from the residence of the deponent, unless the court, pursuant to paragraph (1) or (2) of subdivision (b) of this section, otherwise orders. If the parties so stipulate in writing, depositions may be taken before any person, at any time or place, upon any notice, and in any manner and when so taken may be used like other depositions.

(3) If an adverse party is in default for not appearing within the time allowed by the law or the court, or if, in a special proceeding, some or all of the parties interested have not appeared, a deposition may be taken without the giving of any notice to the party so in default or not appearing; and in any case on motion of any party, with or without notice, and for good cause shown, the court may authorize the taking of a deposition without the giving of notice to parties who have not been served with summons.

(4) In the case of depositions of a party to the record of any civil action or proceeding or of anyone who at the time of taking the deposition is an officer, director or managing agent of any such party, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney for such party or to the party, if he has no attorney. In the case of depositions of a person for whose immediate benefit an action or proceeding is prosecuted or defended or of anyone who at the time of taking the deposition is an officer, director or managing agent of any such person, the service of a subpoena upon any such deponent is not required if proper notice of the taking of such deposition is given to the attorney of the party prosecuting or defending the action or proceeding for the immediate benefit of the deponent or to such party, if he has no attorney. A notice to take the deposition of a person described in this paragraph cannot require the attendance of such person at a place more than 150 miles from the residence of such person, unless the party desiring to take such deposition first obtains an order pursuant to the provisions of paragraph (2) of subdivision (b) of this section.

(5) In the case of depositions for which the production of books, documents, or other things is required of a party to the record of any civil action or proceeding or person for whose immediate benefit an action or proceeding is prosecuted or defended or anyone who is an officer, director, or managing agent of any such party or person, the service of a subpoena duces tecum and affidavit upon any such person is not required if proper notice is served upon the attorney of such party or person. Such notice shall specify the exact materials or things to be produced.

(b) (1) Upon motion seasonably made by any party or by the person to be examined or notified to produce books, documents, or other things and upon notice, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case for good cause shown, the court in which the action is pending may make an order that the deposition shall not be taken, or that it may be taken only at some designated time or place other than stated in the notice of taking the deposition, or that the deposition may be taken outside the county of residence and at a place more than 75 miles and less than 150 miles from the residence of the deponent in cases not provided for by paragraph (2) of subdivision (a) of this section, or that it shall not be taken except by allowing written interrogatories by one or more parties, or that certain matters shall not be inquired into, or that the scope of the examination shall be limited to certain matters, books, documents, or other things, or that the examination shall be held with no one present except the parties to the action and their officers or counsel, or that after being sealed the deposition shall be opened only by order of the court, or that secret

processes, developments, or research need not be disclosed, or that the parties shall simultaneously file specified documents or information enclosed in sealed envelopes to be opened as directed by the court; or the court may make any other order which justice requires to protect the party or witness from annoyance, embarrassment, or oppression. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs and expenses, including attorney's fees, as the court may deem reasonable.

(2) Notwithstanding Section 1989, the court may, upon motion on 10 days' written notice and for good cause shown, make an order requiring a deponent who is a party to the record of any civil action or proceeding or is a person for whose immediate benefit said action is prosecuted or defended or is at the time of the taking of the deposition an officer, director or managing agent of any such party or person to attend a deposition at a place more than 150 miles from the residence of such deponent. In granting or refusing such order, the court shall consider whether the moving party selected the forum, whether the deponent will be present at the trial, the convenience of the deponent, the suitability of discovery through a deposition by written interrogatories or other discovery methods, the number of depositions sought under this section, the expense to the parties of requiring the deposition to be taken within 150 miles of the residence of the deponent, the whereabouts of the deponent at the time the deposition is scheduled to be taken, and all other factors tending to show whether or not the interests of justice and the convenience of the parties and witnesses will be served by requiring the deponent to appear for his deposition at a place more than 150 miles from his residence. Such order may provide that the party desiring to take such deposition shall pay the reasonable expenses incurred by the deponent in attending such deposition and that he furnish an undertaking approved by the court to secure such payment and may contain such other terms and conditions as are equitable and just.

(c) The officer before whom the deposition is to be taken shall put the witness on oath and shall personally, or by someone acting under his direction and in his presence, record the testimony of the witness. The testimony shall be taken stenographically and transcribed unless the parties agree otherwise. All objections made at the time of the examination to the qualifications of the officer taking the deposition, or to the manner of taking it, or to the evidence presented, or to the conduct of any party, and any other objection to the proceedings, shall be noted by the officer upon the deposition. Evidence objected to shall be taken subject to the objections. In lieu of participating in the oral examination, parties served with notice of taking a deposition may transmit written interrogatories to the officer, who shall propound them to the witness and record the answers verbatim.

(d) At any time during the taking of the deposition, on motion of any party or of the deponent, or upon the court's own motion and after giving counsel an opportunity to be heard, and in either case upon a showing that the examination is being conducted in bad faith or in such manner as unreasonably to annoy, embarrass, or oppress the deponent or party, the court in which the action is pending or the superior court in the county where the deposition is being taken may order the officer conducting the examination to cease forthwith from taking the deposition, or may limit the scope and manner of the taking of the deposition as provided in subdivision (b) of this section. If the order made terminates the examination, it shall be resumed thereafter only upon the order of the court in which the action is pending. Upon demand of the objecting party or deponent, the taking of the deposition shall be suspended for the time necessary to make a motion for an order. In granting or refusing such order the court may impose upon either party or upon the witness the requirement to pay such costs or expenses, including attorney's fees, as the court may deem reasonable.

(e) When the testimony is fully transcribed the deposition shall be submitted to the witness for examination and shall be read to or by him, unless such examination and reading are waived by the witness and by the parties. Any changes in form or substance which the witness desires to make shall be entered upon the deposition. The deposition shall then be signed by the witness, unless the parties by stipulation waive the signing or the witness is ill or cannot be found or refuses to sign. If the deposition is not signed by the witness, the officer shall sign it and state on the record the fact of the waiver or of the illness or absence of the witness or the fact of the refusal to sign together with the reason, if any, given therefor; and the deposition may then be used as fully as though signed, unless on a motion to suppress under subdivision (d) of Section 2021 of this code the court holds that the reasons given for the refusal to sign require rejection of the deposition in whole or in part.

(f) (1) The officer shall certify on the deposition that the witness was duly sworn by him and that the deposition is a true record of the testimony given by the witness. He shall then securely seal the deposition in an envelope endorsed with the title of the action and marked "Deposition of (here insert name of witness)" and shall promptly file it with the court in which the action is pending or send it by registered mail to the clerk thereof for filing.

(2) Upon payment of reasonable charges therefor, the officer shall furnish a copy of the deposition to any party or to the deponent.

(3) The party taking the deposition shall give prompt notice of its filing to all other parties.

(g) (1) If the party giving the notice of the taking of a deposition fails to attend and proceed therewith and another party attends in person or by attorney pursuant to the notice, the court may order the party giving the notice to pay such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

(2) If the party giving the notice of the taking of a deposition of a witness fails to serve a subpoena upon him and the witness because of such failure does not attend, and if another party attends in person or by attorney because he expects the deposition of that witness to be taken, the court may order the party giving the notice to pay to such other party the amount of the reasonable expenses incurred by him and his attorney in so attending, including reasonable attorney's fees.

SEC. 3. It is the intent of the Legislature, if amendments to Section 1987 of the Code of Civil Procedure proposed by both this bill and A.B. 680 are enacted that both amendments be given effect and incorporated in Section 1987 in the form set forth in Section 1.5 of this act. Therefore, in the event A.B. 680 is enacted and amends Section 1987, Section 1.5 of this act shall become operative at the same time that Section 1987 as amended by A.B. 680 becomes operative, and at that time, Section 1987 of the Code of Civil Procedure as amended by Section 1 of this act is repealed.

(a) Rapid population growth, economic development and urbanization have affected the quality of California's natural environment.

(b) The proliferation of noise from transportation sources have led to the exposure of large sectors of the populace to an unacceptable degree of noise.

(c) The anticipated rates of construction of new airports and extension of existing airports, construction of freeways and mass rapid transit lines, and the introduction into service of intraurban short takeoff and land and vertical takeoff and land aircraft operating at low cruising altitudes will rapidly escalate the urban noise problem unless systematic preventive measures are taken.

(d) There is a large discrepancy between the technology available for control of urban noise and the degree to which

it is being utilized in practice, through such means as land use planning, noise control provisions in building design and construction, and legal control over the movements of noise-producing transportation vehicles.

(e) Improvement of the quality of California's physical environment consistent with the maximum benefit to the people of the state is a matter of statewide, regional, and local concern calling for coordinated public and private action in the interest of the health, safety, and welfare of present and future generations.

SEC. 2. Section 16080 of the Government Code is amended to read:

(g) Make recommendations for immediate action by state agencies as defined in Section 11000 of the Government Code which would effectively preserve and enhance California's natural environment.

(h) Appoint a scientific advisory group to consider and report to the council on the state of the art of urban noise-control technology and to recommend appropriate actions necessary to effectively protect, manage, and improve the noise environment on a long-range basis. This advisory group shall be composed of not less than five nor more than 10 members. To provide the necessary depth and breadth in modern acoustics, members of the scientific advisory group shall be practicing acoustical engineers.

(i) Avail itself of technical information available from federal agencies involved in research and administrative measures for the control of noise such as the Departments of Transportation, Housing and Urban Development, and Health, Education and Welfare. Specifically, the council shall apprise itself of technical advisement available from the Interagency Aircraft Noise Abatement Program, including its Land Use and Airports Panel and its Legislative and Legal Panel.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 12004 of the Fish and Game Code is amended to read:

12004. A violation of any of the following provisions is punishable by imprisonment in the county jail for a term not exceeding one year or a fine not exceeding one thousand dollars ($1,000), or both:

CHAPTER 1044

An act to add Section 6301.7 to the Public Resources Code, relating to the boundary between state-owned submerged lands and outer continental shelf lands, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969]

The people of the State of California do enact as follows:

SECTION 1. Section 6301.7 is added to the Public Resources Code, to read:

6301.7. The commission may negotiate with, and, with the approval of the Governor, may enter into agreements with the United States, or any official, agency, licensee, permittee, or lessee thereof, concerning the effect, if any, of any then existing

or proposed or projected fill, dredging, or construction operations or other activities on or adjacent to tide and submerged lands within the County of Ventura upon the boundary between state-owned submerged lands and the outer continental shelf lands under the jurisdiction of the United States, or concerning the location of such boundary. Such agreements may include, but are not limited to, a waiver on behalf of the State of California of any state-owned submerged lands which would otherwise inure to the state as a result of any such fill, dredging, or construction operations, or other activities. The commission shall, before entering into any such agreement, find that such agreement is in the public interest.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Construction of a badly needed state highway in Ventura County, for which a contract is planned to be advertised by the Department of Public Works in August 1969, requires the placement of revetted earthfill in the Pacific Ocean. A permit for this artificial accretion to the shoreline will not be issued by the Corps of Engineers of the United States Army unless the State of California waives any change in the boundary between state-owned submerged lands and outer continental shelf lands under the jurisdiction of the United States which may occur under the rule laid down by the Supreme Court of the United States in United States v. California, 381 U.S. 139. Unless this act has immediate effect, and the State Lands Commission is given authority, which it now lacks, to negotiate an agreement respecting such a waiver well in advance of the time when this act would otherwise be effective, the highway project will be delayed for several months

No order of suspension or revocation or the imposition of terms or conditions of probation shall become effective until 30 days after the giving of written notice thereof to the person affected, except that the department shall have authority to make any such order effective immediately upon the giving of notice when in its opinion because of the mental or physical condition of the person such immediate action is required for the safety of the driver or other persons upon the highways.

In the event that a trial date has been set before such justice court judge, such affidavit must be filed at least 10 days prior to the trial date.

(b) Thereupon the justice court judge with whom the affidavit is filed shall be without jurisdiction to proceed with the case and shall immediately transfer the case and all papers in connection therewith for further proceedings before a municipal court judge or other magistrate having jurisdiction of such offense at the county seat.

(c) The foregoing method of securing a change of venue is in addition to any other method provided by law for obtaining a change of venue.

SEC. 4. Article 3 (commencing with Section 40600) is added to Chapter 2, Division 17 of the Vehicle Code, to read:

Article 3. Notice of Violation

40600. (a) In cases involving traffic accidents, where a peace officer has reasonable cause to believe that a person involved in such accident has committed a violation of this code not declared to be a felony or a violation of a local ordinance adopted pursuant to this code, the officer may prepare in triplicate, on a form approved by the judicial council, a written notice of violation to appear in court or before a person authorized to receive a deposit of bail.

(b) A notice of violation shall contain the name and address of the person, the license number of his vehicle, if any, the name and address, when available, of the registered owner or lessee of the vehicle, the offense charged, and the time and place when and where he may appear. The time specified shall be at least 10 days after such notice of violation is delivered.

(c) The preparation and delivery of a notice of violation does not constitute an arrest.

40601. The place specified in the notice of violation shall be either:

(a) Before a magistrate within the county in which the offense charged is alleged to have been committed and who has jurisdiction of the offense and is nearest or most accessible with reference to the place where the offense charged is alleged to have been committed.

(b) Upon demand of the person receiving the notice of violation, before a municipal court judge or other magistrate having jurisdiction of the offense at the county seat of the county in which the offense is alleged to have been committed or before a magistrate in the judicial district in which the offense is alleged to have been committed.

(d) Before the juvenile court, a juvenile court referee, or a juvenile traffic hearing officer within the county in which the offense charged is alleged to have been committed, if the person receiving the notice of violation appears to be under the age of 18 years. The juvenile court shall by order designate the proper person before whom such appearance is to be made.

If the place specified in the notice of violation is within a district or city and county where a department of the municipal court is to hold a night session within a period of not more than 10 days after such notice of violation is delivered, the notice of violation shall contain, in addition to the above, a statement notifying the person receiving such notice that he may appear before such a night session of the court.

40602. The officer shall deliver one copy of the notice of violation to the person named therein.

40603. When a notice of violation has been prepared, delivered, and filed with the court, in lieu of a verified complaint, the notice of violation shall constitute a complaint to which the defendant may plead "guilty" or "nolo contendere." If, however, the defendant does not appear, or deposit lawful bail, or pleads other than "guilty" or "nolo contendere" to the offense charged, a verified complaint may be filed which shall conform to the provisions of Chapter 2 (commencing with Section 948) of Title 5, Part 2 of the Penal Code, and which shall be deemed to be an original complaint, and thereafter proceedings shall be had as provided by law, except that a defendant may, by an agreement in writing, subscribed by him and filed with the court, waive the filing of a verified complaint and elect that the prosecution may proceed upon the written notice of violation.

40604. No warrant shall issue upon a written notice of violation if the person does not appear and, any warrant issued on a verified complaint filed thereafter shall state on

its face that a notice to appear shall be issued in lieu of physical arrest. The peace officer shall, instead of taking the person before a magistrate, prepare a notice to appear and release the person on his promise to appear, as prescribed by Sections 853.6 through 853.8 of the Penal Code. Issuance of a notice to appear and securing a promise to appear shall be deemed a compliance with the directions of the warrant, and the peace officer issuing such notice to appear and obtaining such promise to appear shall endorse on the warrant "Section 40604, Vehicle Code, complied with" and return the warrant to the magistrate who issued it.

5501. The Legislature finds that subjecting livestock to the general property tax creates serious inequities between the owners of such livestock, seriously disrupts the orderly marketing of such livestock, and places livestock producers in California at a competitive disadvantage with livestock producers in other states. It is the intent of the Legislature in enacting this part to establish a more equitable method of taxing livestock by providing for a uniform system of in-lieu taxation for the livestock subject to the provisions of this part.

5502. Except where the context otherwise requires, the definitions given in this chapter govern the construction of this part.

5503. "Livestock" means all live female bovine or ovine animals held primarily for breeding purposes and all live bovine or ovine animals held primarily for the production of meat for human consumption or for fiber. "Livestock" specifically does not include swine, animals held primarily for the production of milk for human consumption, nor male animals held primarily for breeding purposes.

5504. "Owner" means the owner of livestock or his agent. Any other person claiming, possessing or controlling livestock

shall provide the name and address of the owner thereof or his agent upon the request of the assessor.

5505. "Head-day" means each calendar day one head of livestock is held in this state by the owner.

5506. "Tax year" means the period beginning with the first day of July of one calendar year and ending on the last day of June of the calendar year next following.

5507. "Tax quarter" means each consecutive period of three calendar months following the beginning of the tax year.

5508. "Acquired" means a transfer of legal or equitable title. "Acquired" shall not include a transfer of an interest as security for a loan.

CHAPTER 2. IMPOSITION OF TAX

5521. For the 1970–1971 tax year and each tax year thereafter, on the privilege of grazing or tending livestock in this state, there is hereby imposed a tax on livestock for each head-day such livestock is in this state, which shall be in lieu of any property tax on livestock subject to taxation pursuant to this part.

5522. The tax shall be imposed at the rate of five mills ($0.005) per head-day on all livestock subject to taxation pursuant to this part, except sheep, and at the rate 0.55 of one mill ($0.00055) per head-day on all sheep subject to taxation pursuant to this part.

5523. The tax computed in accordance with Section 5522 shall be reduced by the same percentage as is exempt with respect to the assessed values of business inventories pursuant to Section 219 of this code.

CHAPTER 3. EXEMPTIONS

5541. Calves born during any tax quarter shall be exempt from the taxes imposed by this part for such tax quarter and the tax quarter next following.

5542. Lambs born during any tax quarter shall be exempt from the taxes imposed by this part for such tax quarter.

5543. Livestock owned by any owner for a period of five days or less shall be exempt from the taxes imposed by this part during the period of such ownership.

5544. The exemptions provided for livestock pursuant to this chapter shall in no way be construed as subjecting livestock otherwise subject to this part to the property tax.

CHAPTER 4. COLLECTION

5561. (a) With respect to the period commencing on the first day of July of any tax year through the last day of December of such year, for purposes of this part, except as otherwise provided in Chapter 3 (commencing with Section 5541) of this part, the taxable period shall commence upon

5564. A delinquent penalty of 6 percent shall attach on the day any tax imposed by this part becomes delinquent. An additional penalty of 1 percent shall attach to the tax and penalty on the first day of the first calendar month commencing after the tax becomes delinquent and on the first day of each calendar month thereafter on the unpaid balance, until the delinquent tax and penalties have been paid in full.

5565. If, in the opinion of the tax collector, the amount of tax required to be paid to the county pursuant to this part, or any portion thereof, will be jeopardized by delay, the assessor shall thereupon make a determination of the tax or the amount of tax to be collected. The amount so determined shall be immediately due and payable. Such jeopardy determinations and

the amount of tax found to be due thereunder may be collected by the tax collector by any legal means, including but not limited to, the procedures established pursuant to Chapter 3.3 (commencing with Section 2851), Chapter 4 (commencing with Section 2901), Chapter 5 (commencing with Section 3002), and Chapter 6 (commencing with Section 3101) of Part 5 of this division.

CHAPTER 5. ADMINISTRATION

5581. The State Board of Equalization shall make such reasonable rules and regulations and prepare such forms as are necessary to carry out the intent and purposes of this part. The forms shall provide for a report on the number of head-days the livestock were in different counties and within cities and school districts within such counties.

5582. On forms provided through the office of the assessor, the owner of livestock, either in person, through his representative or by mail, shall report the tax due. The reports required by this section may be filed with the assessor of any county in which the livestock were located during the tax year. The reports shall be filed on or before 5 p.m. on the day the tax due becomes delinquent.

5583. The auditor of the county in which a report is filed shall transfer any taxes paid pursuant to this part belonging to another county as shown on the report, together with a copy of the report, in order that the auditor of any county receiving transferred funds can allocate them in the manner provided for in Chapter 6 (commencing with Section 5601) of this part.

CHAPTER 6. DISPOSITION OF PROCEEDS

5601. All revenues derived from the tax imposed by this part shall be allocated by the auditor as promptly as is feasible in the following manner:

(a) For the number of head-days livestock were in the county and were not located within a school district, the entire

amount of revenue attributable to such period shall be allocated to the county.

(b) For the number of head-days livestock were in the county and were located within a school district, but were not located within a city, two-thirds of the revenue attributable to such period shall be allocated to the school district, and such amount shall be computed as though the exemption provided for in Section 5523 does not exist. (c) For the number of head-days livestock were in the county and were located within a city, as well as within one or more school districts, the revenue attributable to such period shall be allocated one-sixth to the city and two-thirds to the school district or districts in the manner specified in subdivision (b), and such amount shall be computed as though the exemption in Section 5523 does not exist. The remainder, if any, shall be allocated to the county.

For purposes of making the allocations required by this section, the auditor shall use the records of the county assessor.

5602. As used in Section 5601, "school district" does not include a junior college district and revenues allocated pursuant to Section 5601 shall not be used for the support of a junior college.

SEC. 2. Money allocated pursuant to Section 1 of this act to any county, city and county, or city may be used for county, city and county, or city purposes, as the case may be.

SEC. 3. Section 1 of this act shall become operative on July 1, 1970. "Livestock," as defined in Section 5503 of the Revenue and Taxation Code, whether or not such livestock is exempt under Chapter 3 (commencing with Section 5541) of Part 11 of Division 1 of the Revenue and Taxation Code, shall be exempt from property taxation on and after the lien date in 1970.

CHAPTER 1058

An act to add Section 13582.1 to the Education Code, relating to classified school employees.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 13582.1 is added to the Education Code, to read:

13582.1. Classified employees shall not be required to perform duties which are not fixed and prescribed for the position by the governing board in accordance with Section 13582, un-

less the duties reasonably relate to those fixed for the position by the board, for any period of time which exceeds five working days within a 15-calendar-day period except as authorized herein.

An employee may be required to perform duties inconsistent with those assigned to the position by the governing board for a period of more than five working days provided that his salary is adjusted upward for the entire period he is required to work out of classification and in such amounts as will reasonably reflect the duties required to be performed outside his normal assigned duties.

Notwithstanding the provisions of this section, a personnel commission and governing board, or a governing board in a nonmerit system district, may, by written rule, provide for an upward salary adjustment for any classified employee required to work out of classification for any period of time less than that required herein.

It is the intent of this section to permit school districts to temporarily work employees outside of their normal duties but in so doing to require that some additional compensation be provided the employee during such temporary assignments.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

CHAPTER 1059

An act to amend Section 388 of the Health and Safety Code, relating to nursing education scholarships.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 388 of the Health and Safety Code is amended to read:

388. Each scholarship under this article is for the period of no more than one academic year, and the award shall be:

(a) For a person qualifying under subdivision (a) or (b) of Section 381, the sum of two hundred dollars ($200) per month for 12 months, plus school fees.

CHAPTER 1060

An act calling a special election to be consolidated with the direct primary election of 1970 and to provide for the submission to the electors of the state at such consolidated election of certain constitutional amendments proposed by the Legislature at the 1969 Regular Session, to take effect immediately, act calling election.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. A special election is hereby called to be held throughout the state on the second day of June, 1970. The special election shall be consolidated with the direct primary election to be held on the same date. Such consolidated election shall be held and conducted in all respects as if there were only one election and only one form of ballot and ballot pamphlet shall be used. At such consolidated election there shall be submitted to the electors, in addition to such other measures as may be submitted in accordance with law, Assembly Constitutional Amendments Nos. 28, 29, 30, and 31 proposed by the Legislature at the 1969 Regular Session. Except as otherwise provided in this act, all of the provisions of law applicable to the submission of constitutional amendments proposed by the Legislature and to arguments for and against such measures shall apply to the measure submitted pursuant to this act.

SEC. 2. Within 30 days after either the effective date of this act or the adoption by the Legislature of Assembly Constitutional Amendments Nos. 28, 29, 30, and 31, whichever occurs later, the author of each such amendment and one member of the opposite house who voted with the majority on the amendment shall be appointed by the presiding officers of the respective houses to draft the argument for the adoption of the measure. If such constitutional amendment was not adopted unanimously by the house in which it was introduced, one member of that house, who voted against it, shall be appointed by the presiding officer of that house to write an argument against the measure. If there was no negative vote on the measure in the house in which it was introduced, the presiding officer of that house shall appoint some qualified person to draft an argument against the measure. No argument shall exceed 500 words. All such arguments shall be filed with the Secretary of State within 60 days after either the effective date of this act or the adoption by the Legislature of Assembly Constitutional Amendments Nos. 28, 29, 30, and 31, whichever occurs later.

SEC. 3. Within 30 days after either the effective date of this act or the adoption by the Legislature of Assembly Constitutional Amendments Nos. 28, 29, 30, and 31, whichever

occurs later, the Secretary of State shall request the Attorney General to prepare a ballot title for the measure submitted pursuant to this act and shall also request the Legislative Counsel to prepare an analysis of the measure in accordance with Section 3566 of the Elections Code. The title and the analysis shall be filed with the Secretary of State within 60 days after either the effective date of this act or the adoption by the Legislature of Assembly Constitutional Amendments Nos. 28, 29, 30, and 31, whichever occurs later. The measures submitted pursuant to this act shall be designated on the ballot at the election by their ballot titles.

SEC. 4. This act calls an election within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 1061

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 21373 of the Vehicle Code is amended to read:

21373. The governing board of any school district may request the appropriate city, county, city and county or state agency to install traffic control devices in accordance with the warrants established pursuant to Section 21372. Within 90 days thereafter, the city, county, city and county or state agency involved shall undertake an engineering and traffic survey to determine whether the requested crossing protection meets the warrants established pursuant to Section 21372. The city, county, city and county, or state agency involved may require the requesting school district to pay an amount not to exceed 50 percent of the cost of the survey. If it is determined that such requested protection is warranted, it shall be installed by the city, county, city and county or state agency involved.

CHAPTER 1062

An act to amend Section 11661 of the Insurance Code, relating to workmen's compensation.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 11661 of the Insurance Code is amended to read:

11661. An insurer shall not insure against the liability of the employer for the additional compensation recoverable for serious and willful misconduct of the employer or his agent. An insurer may, however, provide insurance against the expense of defending any suit for serious and willful misconduct against an employer or his agent.

CHAPTER 1063

An act to add Section 1420.5 to the Labor Code, relating to human relations commissions.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 1420.5 is added to the Labor Code, to read:

1420.5. The Division of Fair Employment Practices shall maintain liaison with the human relations commissions of cities, counties, and any city and county, and shall provide any information not designated by law as confidential to such commissions on request.

CHAPTER 1064

An act to amend Section 2501 of the Vehicle Code, relating to the California Highway Patrol, declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Section 2501 of the Vehicle Code is amended to read:

2501. The Commissioner of the California Highway Patrol shall have the authority to issue licenses for the operation of privately owned and operated ambulances used to respond to emergency calls, armored cars, official lamp and brake adjusting stations, official motor vehicle pollution control device installation and inspection stations, and for the transportation of explosives, and shall license lamp and brake adjusters and motor vehicle pollution control device installers. Such licenses shall be issued in accordance with the provisions of this chap-

ter and regulations adopted by the commissioner pursuant thereto. All licenses issued by the commissioner, except those issued to adjusters and installers, shall expire one year from the date of issue. The commissioner shall establish by regulation the terms of adjusters' and installers' licenses as are necessary for the practical administration of the provisions relating to adjusters and installers, but such terms shall not be for less than one nor more than four years. Licenses may be renewed upon application and payment of the renewal fees if the application for renewal is made within the 30-day period prior to the date of expiration. Persons whose licenses have expired shall immediately cease the activity requiring a license, but the commissioner shall accept applications for renewal during the 30-day period following the date of expiration if they are accompanied by the new license fee. In no case shall a license be renewed where the application is received more than 30 days after the date of expiration.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Lamp and brake adjusters and motor vehicle pollution control device installers through the year 1968 have been issued four-year licenses. Section 2501 reduces the term of such licenses to one year although the one-year term was intended to apply only to licenses issued for the operation of privately owned and operated ambulances, armored cars, official lamp and brake adjusting stations, official motor vehicle pollution control device installation and inspection stations, and for the transportation of explosives. The application of the one-year term to adjusters' and installers' licenses places an unduly heavy clerical workload on California Highway Patrol field offices and an unnecessary burden on the adjusters and installers affected.

CHAPTER 1065

An act to authorize grants pursuant to the Davis-Grunsky Act to the Poway Municipal Water District in connection with the Poway Water Storage Project.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969]

This act shall satisfy the requirement of legislative approval contained in Section 12884 of the Water Code.

SEC. 2. The maximum amounts authorized under Section 1 of this act shall be in addition to any grant made to the district pursuant to paragraph (c) of Section 12884.2 of the Water Code for initial water supply and sanitary facilities.

1748. The commissioner, in any proceeding under the provisions of this article, may, by an alternative order, permit a licensee, found for the first time to have violated this code or any lawful regulation, to elect in writing to pay a specified money penalty, within a specified time in lieu of a license suspension or other permitted action. If the licensee so elects, the sum of money specified shall be paid to the commissioner for the use of the State of California. The sum specified shall not exceed:

(a) Five hundred dollars ($500) for each offense.

(b) Two thousand five hundred dollars ($2,500) in the aggregate for all offenses involved in any one proceeding.

(c) Twenty percent of the gross commissions on insurance transacted by such licensee in the preceding calendar year.

(d) Any amount proven, or admitted, in such proceeding to have been received and retained by such licensee as a rebate or otherwise, in violation of a provision of this code.

The commissioner shall determine the penalty to be paid in any given case and in doing so shall not be limited to the selection of that penalty specified in any of the above sub-

divisions, as compared with that in any of the other three subdivisions, that will result in the payment by the licensee of the least amount.

Should a licensee so electing fail to pay the specified sum within the specified time, the commissioner may, unless such order be lawfully stayed, revoke the license of the licensee or suspend the same for such period as he may determine.

CHAPTER 1067

The people of the State of California do enact as follows:

SECTION 1. Section 53703 is added to the Government Code, to read:

53703. A county or city may do all acts necessary to participate in all programs authorized by a federal housing act, including the Demonstration Cities and Metropolitan Development Act of 1966 or any other federal program whereby federal funds are granted to the county or city or any of its residents for purposes of health, education, welfare, public works or community improvement, including, without limitation thereto, contracting and cooperating with the federal government, the state and its agencies, other local public agencies and private persons and corporations, and may make any expenditure of county or city funds required for such participation.

A county or city may, through its officers and employees, also provide any or all necessary services to any housing authority with regard to which the governing body of the county or city has made a declaration of necessity pursuant to Article 2, Chapter 1, Part 2, Division 24 of the Health and Safety Code.

This section shall not be construed to operate as a grant of authority in compliance with any federal act or program requiring the adoption of specific enabling legislation nor shall it be construed to supersede any such legislation.

CHAPTER 1068

An act to amend Sections 9103, 9104, 9500, and the heading of Chapter 2 (commencing with Section 9500), Part 1, Division 3 of, and to add Article 4 (commencing with Section 9800)

[Approved by Governor August 28, 1969 Filed with Secretary of State August 29, 1969]

The people of the State of California do enact as follows:

SECTION 1. Section 9103 of the Unemployment Insurance Code is amended to read:

9103. "Division" means Division of Job Training, Development and Placement.

SEC. 2. Section 9104 of the Unemployment Insurance Code is amended to read:

The Legislature also finds that, due to the tremendous population increases California has experienced and will continue to experience, there has developed a shortage of professionals particularly in the vital areas of education, health, welfare, law enforcement, recreation, conservation, and public safety; and the Legislature finds that it has been demonstrated that economically disadvantaged persons, lacking in formal education, can perform needed services auxiliary to professionals in these human services fields.

The Legislature further declares that there is a need for a statewide planning entity to find and create jobs for the economically disadvantaged in these human services fields and to identify and develop such employment opportunities in all areas of public employment.

9801. There is in the Division of Job Training, Development and Placement the Office of Manpower Utilization.

9802. The functions of the Office of Manpower Utilization shall be to:

Formal education shall not be required as a prerequisite to employment in entry level positions in human services fields wherever it is feasible and to the greatest extent possible to avoid formal education requirements.

An act to authorize grants pursuant to the Davis-Grunsky Act to the City of Escondido in connection with the Dixon Dam and Reservoir Project.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. (b) A custodian may designate his successor by executing and dating an instrument of designation before a subscribing witness other than the successor. The instrument of designation may, but need not, contain the resignation of the custodian. If the donor does not designate one or more successor custodians, and if the custodian does not so designate his successor before he dies or becomes legally incapacitated, and the minor has attained the age of 14 years, the minor may designate a successor custodian by executing an instrument of designation before a subscribing witness other than the successor. Only an adult member of the minor's family, a guardian of the minor or a trust company is eligible to become a successor custodian in accordance with the provisions of this subdivision (b).

(c) A successor custodian has all the rights, powers, duties and immunities of a custodian designated in a manner prescribed by this article.

(d) The designation of a successor custodian as provided in subdivision (a) or (b) takes effect as to each item of the custodial property when the custodian resigns, dies, or becomes legally incapacitated, and the custodian or his legal representative:

(1) Obtains the written acceptance of the custodianship, following the designated order of priority, if any, of a successor custodian who is willing to act.

(2) Causes the item, if it is a security in registered form or a life insurance policy or annuity contract, to be registered, with the issuing insurance company in the case of a life insurance policy or annuity contract, in the name of the successor custodian followed, in substance, by the words: "As custodian for _____ under the California Uniform Gift to Minors Act"; and

The legal representative of a custodian who dies or becomes legally incapacitated promptly shall do all things within his power to put each item of the custodial property in the possession and control of the successor custodian who accepts the custodianship or in the possession and control of the guardian of the estate of a minor if he has such a guardian. If the custodian has executed as provided in subdivision (a) more than one instrument of designation, his legal representative shall treat the instrument dated on an earlier date as having been revoked by the instrument dated on a later date.

(f) If a person designated as custodian or as successor custodian as provided in subdivision (a) or subdivision (b) is not eligible, or is unable to act as custodian, declines to accept the custodianship, dies, or becomes legally incapacitated before the minor attains the age of 21 years, and if the minor has a guardian of his estate, the guardian of the estate of the minor shall be successor custodian. If the minor has no such guardian, and if no designated successor custodian accepts the custodianship, a donor, his legal representative, the legal representative of the custodian, or an adult member of the minor's family, may petition the court for the designation of a successor custodian.

(g) A donor, the legal representative of a donor, an adult member of the minor's family, a guardian of the minor or the minor, if he has attained the age of 14 years, may petition the court that, for cause shown or for the best interests of the minor, the custodian be removed and a successor custodian be designated or, in the alternative, that the custodian be required to give bond for the performance of his duties.

(h) Upon the filing of a petition as provided in this section, the court shall grant an order, directed to the persons and returnable on such notice as the court may require, to show cause why the relief prayed for in the petition should not be granted and, in due course, grant such relief as the court finds to be in the best interests of the minor.

[Approved by Governor August 28, 1969. Filed with Secretary of State August 29, 1969.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 35525) is added to Part 5 of Division 13 of the Water Code, to read:

CHAPTER 2.5. PROVISIONS PERTAINING ONLY TO THE KERN DELTA WATER DISTRICT

35525. The provisions of this chapter shall apply only to the Kern Delta Water District as a member unit of the Kern County Water Agency or an improvement district formed within the district pursuant to the provisions of this division.

35526. In addition to, and as an alternative to, the matters contained in this division regarding apportionment of water, the district may by resolution adopt a plan for water allocation which may include a determination as to what portion of district water will be made available for surface delivery and what portion will be devoted to recharge of ground water, may establish limited areas of the district as the areas in which surface delivery of water service will be made available, the quantity which will be made available to each such surface water service area, and the terms upon which such water service will be made available, and may enter into long-term water service contracts with holders of title to land in such surface water service areas which contracts may provide that the obligations are a lien on the landowners' land in the nature of, and may be collected and enforced in the manner provided in this division for the collection and enforcement of, assessments. If such a contract does so provide, such lien shall have the same force, effect, and priority as an assessment lien as between the contracting landowner and the district, but unless such contract is recorded in the office of the county recorder in the county in which the land is situated, it shall have no force or effect whatever against any person other than a party to the contract unless such person has actual knowledge of the contract and its contents. Such contracts may be acknowledged or proved, certified and recorded in like manner and with like effect as grants of real property, and all statutory provisions relating to the recording or nonrecordation of conveyances of real property, and to the effect thereof, shall apply to such contracts with like effect. Such plan may further provide for allocation of water available to the district on a short-term basis without further notice and hearing. Such matters shall be determined and established in accordance with equitable criteria providing for the economical and efficient distribution and use of water within the district or available for use upon the lands within the district.

35527. A plan adopted pursuant to the terms hereof may be changed, supplemented or amended in the same manner provided for the adoption of an original plan.

35528. Before adoption of such a plan the board shall make, or cause to be made, a report setting forth the proposed plan.

35529. Before adoption of such a plan the board shall pass a resolution declaring the following:

(a) The intention of the board to adopt a plan for distribution and use of water within the district, briefly describing the same.

(b) That a copy of the proposed plan is on file at the district office and is open for public inspection.

(c) The time and place of hearing by the board in regard to the proposed plan.

35530. Notice of such hearing shall be given by publishing a copy of the resolution of intention in a newspaper of general circulation published in Kern County, pursuant to Section 6066 of the Government Code, with the first publication to be at least 14 days prior to the time fixed for such hearing, and by mailing a copy of such resolution, postage prepaid, to each holder of title to land within the district at his address as shown upon the last equalized assessment roll of Kern County. Any error, omission or mistake in such mailing, or any failure of any person to receive such copy, shall not invalidate the proceedings pursuant to this chapter.

35531. At the time and place so fixed, or at any time or place to which the hearing is continued, the board shall hold the hearing provided for by such resolution of intention at which hearing any person interested, including all persons owning land in the district, or improvement district therein, to which the hearing pertains, may appear and be heard concerning any matters set forth in the resolution or any matters material thereto. Upon the conclusion of the hearing the board shall by resolution determine, adopt and declare the plan of water allocation in accordance with the provisions of Section 35526 and the effective date of such plan, and shall cause a copy of such resolution to be published in the manner provided in Section 35530. No other notice shall be required.

35532. The district may contract with any private utility as defined in Sections 1502 and 1506 of the Public Utilities Code, to waive all or any portion of the provisions of Sections 1501 to 1506, inclusive, of the Public Utilities Code. Contracts containing such provisions shall be entered into only upon approval of the California Districts Securities Commission and the Public Utilities Commission.

35533. The board of directors of the district shall have the power, in addition to, and as an alternative to, the powers enumerated elsewhere in this division to levy and collect ground water charges for the production of water from the ground water supply within the district which will benefit from the recharge of underground water supplies or the distribution of imported water in the district, such power to be exercised in the same manner and the proceeds therefrom to be used for the same purposes as the Kern County Water Agency may levy, collect and use such charges pursuant to Sections 14.21 to 14.37, inclusive, of the Kern County Water Agency Act. Whenever the district exercises any of the powers conferred on it by this section, the following definitions shall be applicable in construing Sections 14.21 to 14.37, inclusive, of the Kern County Water Agency Act:

(a) "Board" as used in such sections means the Board of Directors of the Kern Delta Water District.

(b) "Agency" as used in such sections means the Kern Delta Water District.

(c) "Water year" as used in such sections means July 1 of one calendar year to June 30 of the following calendar year or such other 12-month period as may be adopted by the board of the district.

(d) "Improvement district" as used in such sections shall mean the Kern Delta Water District or any improvement district within the Kern Delta Water District formed pursuant to this division.

(e) The record required by Section 14.31 of the Kern County Water Agency Act shall be called "The Record of Water Production and Ground Water Charges for the Kern Delta Water District."

35534. In addition to, and as an alternative to, the powers contained in this division, zones may be established within the district for the purpose of fixing rates of assessments varying in accordance with the extent of benefits to each zone derived or to be derived from services to the land in each zone arising from the district's plan of irrigation works and the plan of allocation of imported water in the district.

35535. No zone shall be established or varying rates of assessments fixed under Section 35534 unless the board by resolution declares that it intends to do so and that a public hearing will be held thereon at a specified day and place where all interested persons may appear and be heard. This resolution shall be published in the district pursuant to Section 6066 of the Government Code in a newspaper of general circulation published in Kern County, with the first publication to be at least 14 days prior to the time fixed for hearing, and a copy of said resolution shall be mailed, postage prepaid, to each holder of title to land within the district at his address as shown upon the last equalized assessment roll of Kern County. Any error, omission or mistake in such mailing, or any failure of any person to receive such copy, shall not invalidate the proceedings pursuant to this chapter.. The hearing may be adjourned from time to time at the discretion of the board and at its conclusion the board shall by resolution determine the zones of benefit established, if any, the share of benefits received by each zone arising from the district's operations, expressed as a percent, the criteria for establishing each such zone and the percentage expressed, together with a map in such detail to delineate the geographical area of such zone. The zones and the percentages may be amended from time to time or abolished in the same manner required for original adoption.

35536. The annual statement of expenses filed pursuant to Section 36552 or 37206, as the case may be, shall, in addition to the matters required by such section, contain the amount of expenses to be borne by each zone, which amount shall be computed by multiplying the total expenses by the percentage of benefits accruing to each such zone as so declared by the board.

35537. The board of supervisors in fixing the rate of assessment authorized by Section 35536 pursuant to Section 36608, or in levying such assessment pursuant to Section 37207, as the case may be, shall fix the rate or levy the assessment upon all lands within each zone sufficient to raise the amount stated in the estimate of the district board to be borne by such zone. Assessments made within such zones of benefit established pursuant to this chapter shall be levied on all lands within such zone of benefit on an ad valorem basis.

35538. Proceeds from assessments levied pursuant to this chapter may be used to pay any lawful obligation of the district.

SEC. 2. The State of California and the people thereof are hereby declared to have a primary and supreme interest in securing to the inhabitants and holders of title to lands within the Kern Delta Water District the greatest possible use, conservation and protection of ground water within the district and of waters of the Kern River to which certain holders of title to land within the district may be entitled, to the ends that rights of all holders of title to lands within the district will be recognized and protected through an equitable apportioning of the costs of the project of the district in accordance with benefits received therefrom, that costs of water utilization shall be equalized, and that a firm water supply shall be assured.

Investigation having shown conditions in the area comprising the district to be peculiar to the district, it is hereby declared that a general law cannot be applicable thereto, and the enactment of this special law is therefore necessary for the proper allocation of costs of the project, for the proper distribution and use of waters available to the district, for the protection of life and property therein, and for the public good.

SEC. 3. Section 35951 of the Water Code is amended to read:

35951. Bonds may be issued for the purposes of acquiring or constructing works for irrigation, domestic, municipal, and industrial water supply, acquiring the necessary property for these works, acquiring funds to fulfill contractual commitments to carry out the powers and purposes of the district contained in contracts with other agencies, acquiring all or part of the operating funds for the district (the total amount of such funds so acquired not to exceed at any time an amount equal to the total operating costs of the district for a two-year period as estimated by its board), acquiring any property necessary for the purposes of the district, redeeming any outstanding warrants of the district issued for the acquisition or construction of works of the district and otherwise carrying out the provisions of this division.

SEC. 4. Section 36410 of the Water Code is amended to read:

36410. This chapter provides an alternative method for the formation of improvement districts consisting of a portion of the territory within a district and the issuance of bonds and warrants of said district for said improvement districts. This chapter shall not apply to or affect any other provisions of this division for the formation of improvement districts or the incurring of indebtedness therefor.

SEC. 5. Section 36411 of the Water Code is amended to read:

36411. Improvement districts consisting of contiguous or noncontiguous portions of the territory of a district may be formed within a district and bonds and warrants of the district may be issued for such improvement districts as provided in this chapter.

SEC. 6. Section 36412 of the Water Code is amended to read:

36412. Bonds and warrants of a district for an improvement district may be issued for any purpose for which bonds and warrants of the district may be issued; provided, that the carrying out of said purpose shall benefit the lands within said improvement district.

SEC. 7. Section 36424 of the Water Code is amended to read:

36424. Except to the extent that provision has otherwise been made by the board, as may be permitted by law, for the payment of the principal of and interest upon bonds and warrants of said district for such improvement district as they become due and also for the payment of operating expenses of said improvement district, the annual estimate made by the board of the sum required by the district to discharge all of its obligations shall, in addition to the other amounts required to be included therein, include an amount sufficient to pay the principal of bonds and warrants of the district for said improvement district and the interest thereon as the same becomes due and also to pay operating expenses for said improvement district.

SEC. 8. Section 36425 of the Water Code is amended to read:

36425. In addition to the charges authorized to be fixed and collected pursuant to Article 4, Chapter 2, Part 5 of this division, the board in lieu, in whole or in part, of raising money for the payment of the principal of and interest on bonds and warrants of the district issued for an improvement district or for the operating expenses of said improvement district, may fix and collect charges for the making of water available to the holders of title to land in said improvement district or the occupants thereon. Said additional charges within an improvement district shall be fixed and collected in substantially the same manner and upon the same terms and conditions as is provided in said Article 4 for charges to be fixed and collected within the entire district, except that said

additional charges fixed and collected from an improvement district shall be expended only for the payment of the principal of and interest upon bonds and warrants of the district issued for said improvement district or for payment of the operating expenses of said improvement district.

SEC. 9. Section 36426 of the Water Code is amended to read:

36426. Except as otherwise provided in this chapter, the provisions of this division applicable to general obligation bonds and warrants of the district and assessments therefor shall, so far as consistent with this chapter, apply to general obligation bonds and warrants of the district for improvement districts therein.

SEC. 10. Section 36428 of the Water Code is amended to read:

36428. After the formation of an improvement district additional lands contiguous or noncontiguous thereto may be included therein upon such terms and conditions as may be fixed by the board. If the board is of the opinion that territory should be added to an improvement district, the board shall adopt a resolution of intention which shall state:

(a) The intention of the board to add certain territory to Improvement District No. ___ of _____ District;

(b) That a map showing the exterior boundaries of the territory to be annexed, which map shall govern for all details as to the extent of the area to be annexed, is on file with the secretary of the district and is available for inspection by any person or persons interested;

(c) The terms and conditions of annexation, if any;

(d) The assessments for carrying out any purpose of said improvement district including the payment of principal of and interest on any bonds or warrants outstanding shall be levied exclusively upon the lands in said proposed improvement district including the territory annexed thereto;

(e) The time and place for hearing by the board on the question of the annexation of said territory to said improvement district and any other matter relating to any of the foregoing; and

(f) That at said time and place any persons interested including persons owning land within the area to be annexed to the improvement district may appear and be heard. Notice of said hearing shall be given in the same manner as provided in Section 36114.

SEC. 11. Section 36434 of the Water Code is amended to read:

36434. The board shall repay the district for any advance of funds with any money received which is authorized by law to be used for such a purpose including the proceeds of the sale of bonds and warrants authorized for the purposes of the improvement district.

SEC. 12. Section 36435 is added to the Water Code, to read:

36435. After adopting the resolution ordering the improvement district formed, the board may provide for the issuance of warrants of the district for the improvement district in an amount not exceeding the estimate stated in the resolution ordering the improvement district formed, such warrants to be payable from assessments to be levied and collected upon the lands within said improvement district.

SEC. 13. Section 36436 is added to the Water Code, to read:

36436. Warrants of said district for said improvement district shall be issued and sold in substantially the same manner and upon the same terms and conditions as warrants of the entire district, except that assessments for the payment of said warrants and the interest thereon shall be levied and collected from annual assessments to be levied upon and collected from lands within said improvement district. The warrants shall be issued in the name of the district and shall be designated "Warrants of _____ District for Improvement District No. __" and each warrant and all interest coupons thereon shall state that the assessment for the payment thereof shall be limited to annual assessments to be levied upon and collected from the lands within said improvement district, except to the extent that provision for such payment has been made by the board, as may be permitted by law.

SEC. 14. Section 36437 is added to the Water Code, to read:

36437. Except as otherwise provided in this chapter, the provisions of this division applicable to warrants of the district and assessments therefor shall, so far as consistent with this chapter, apply to warrants of the district for an improvement district therein.

SEC. 15. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(a) In regard to provisions relating only to the Kern Delta Water District, the effective culmination of planning and application and operation of engineering and fiscal data developed for use in such district's project requires the development of an immediate and expedient plan. In order to accomplish this purpose and to effect operation at the earliest possible moment under favorable conditions, it is necessary that this act take effect immediately.

(b) As regards the provisions relating to all California water districts, the ability of districts to provide needed water for agriculture depends upon the planning, financing and construction of irrigation projects. In order to facilitate the financing of projects and to assure completion as soon as prac-

ticable, and thereby to make provision for the water needed to preserve the health and safety of the citizens residing in the affected areas, it is now necessary to amend the law with respect to warrants of water districts and financing of improvement districts of water districts, and it is therefore essential that this act take effect immediately.

SEC. 4. Section 43003 of the Water Code is amended to read:

43003. The board shall establish equitable rules and regulations for the most economical and efficient distribution and use of water within the district, and pursuant thereto may enter into long-term water service contracts with landowners in the district which contracts may, in the discretion of the board, provide, among other things, that the obligations are a lien on the land with the same force, effect, and priority as an assessment lien if such contract is recorded in the office of the county recorder in the county in which such land is situated. The rules, regulations, and contracts shall recognize and shall be subject to such priorities in the right to water between the different consumers of the water as may legally exist. Among other things the rules and regulations may establish a procedure for fixing tolls and charges authorized by Sections 43006 and 47180 and may provide equitable rules for reapportionment of assessments supplementary to the provisions of Article 8 (commencing with Section 46325) of Chapter 2 of Part 9 of this division.

lect the same from all persons receiving the benefit of the water or other services. The tolls and charges shall be proportional, as nearly as practicable, to the services rendered. Such tolls or charges may be levied and collected in order to provide, in whole or in part, for the payment of amounts due to the state, the department, any other district, or the United States, whether for capital charges or service charges or otherwise, pursuant to contracts made in accordance with Chapter 6 (commencing with Section 44000) of this part, or in order to provide, in whole or in part, for the payment of the costs of a project or the principal of and interest on bonds or warrants of the district, or in order to provide a bond reserve fund to secure bonds of the district, or in order to provide for the operation and maintenance of a project pursuant to Section 47180, or to obtain funds for any lawful purpose of the district. with any call that has been made upon any prior or subsequent assessment.

SEC. 10. Section 45102 of the Water Code is amended to read:

45102. Notwithstanding the provisions of Section 45100, whenever in any district (1) a report and recommendation as to a project, or a report as to a contract with the United States, has been adopted by the voters at an election held pursuant to Part 5 (commencing with Section 42200) of this division or Chapter 6 of Part 6 (commencing with Section 44000) of this division, (2) an assessment to finance the project or the contract has been levied and assessed and remains unpaid in whole or in part, and (3) in the judgment of the board it is for the best interest of the district or the landowners therein to issue bonds for the purpose of obtaining money to pay the costs of the project, all or any part of the outstanding principal of direct assessment warrants heretofore or hereafter issued pursuant to Section 46381 for said project, or charges pursuant to the contract, the board may, by a resolution adopted by a two-thirds vote of its members, authorize the issuance of bonds in an amount not exceeding the amount of the assessment remaining unpaid, without calling or holding any special election pursuant to Section 45100 or Chapter 2 (commencing with Section 45250) of this part. The resolution shall be submitted to the commission and shall become effective if and when it is approved by the commission. When any such resolution has been approved by the commission, a copy thereof shall be filed with the county treasurer of each affected county.

The provisions of this section shall apply to all districts, including any district in which a report and recommendation as to a project, or a report as to a contract with the United States, has been adopted at an election held at any time heretofore, and shall apply in the case of any assessment at any time heretofore or hereafter levied and assessed, if the assessment remains unpaid in whole or in part at the time of adoption of the resolution of the board authorizing the issuance of bonds.

The lien is prior to all other liens, except state, county, and municipal taxes and assessments, or taxes levied or assessed by or under statutory authority. The preliminary assessments shall bear interest at the rate of 7 percent per year and shall be collected in the same manner, together with the same penalties for delinquencies, as other assessments provided for in this division. Interest commences to run 30 days after filing of the assessment roll with the county treasurer of an affected county.

SEC. 17. Section 46155 of the Water Code is amended to read:

DIVISION 10. STATE DEPARTMENT OF REHABILITATION

PART 1. GENERAL PROVISIONS

CHAPTER 1. POWERS AND DUTIES

19000. It is the public policy of the State of California to assist and encourage handicapped individuals to attain their maximum usefulness and self-sufficiency and make adequate provision for such services as will enable them to prepare for and engage in gainful employment in order that they may make their full contribution to society.

This policy should be carried out by strengthening the existing program of vocational rehabilitation, consolidating the basic rehabilitative services in a Department of Rehabilitation, placing emphasis upon the need for maximum efficient utilization of state services, strengthening and developing services where needed, and promoting effective coordination of all public and private agencies serving the handicapped.

19001. There is in the Human Relations Agency the Department of Rehabilitation.

19002. The Department of Rehabilitation is under the control of an officer known as the Director of Rehabilitation. As used in this division "department" and "director" refer to the Department of Rehabilitation and the Director of Rehabilitation, respectively, unless the context otherwise requires.

19003. The director is appointed by the Governor, subject to confirmation by the Senate, and holds office at the pleasure of the Governor. The annual salary of the director is provided for by Chapter 6 (commencing with Section 11550) of Part 1 of Division 3 of Title 2 of the Government Code. The director is a member of the Governor's Council.

19004. The provisions of Chapter 2 (commencing with Section 11150), Part 1, Division 3, Title 2 of the Government Code apply to the director and the director is the head of a department within the meaning of the chapter

19005. The department is vested with all necessary powers and authority to cooperate with the government of the United States or any agency or agencies thereof in the administration of any act of Congress relating to rehabilitation of the handicapped.

19006. The department may adopt, amend, or repeal, in accordance with the provisions of the Administrative Procedure Act, such rules and regulations as may be reasonably necessary to enable it to carry out its duties and powers.

19007. The director may, with the approval of the Director of Finance, accept on behalf of, and in the name of, the state such gifts, donations, bequests, and devises as may be made to the department or to any school or other institution administered by the director or the department which in his

judgment would be of benefit to the state and, if made to a school or other institution, would be of benefit to the school or other institution. Gifts, donations, bequests, and devises may be made subject to such conditions or restrictions as the director may deem advisable.

19008. The department may utilize funds made available from appropriations by Congress, by gifts or grants from private sources or by state appropriations, or both, or by transfer of funds from other state departments subject to usual budgetary controls for the purpose of establishing and operating halfway houses, resident centers, or other rehabilitation facilities, or of cooperating with other public or private agencies for this purpose.

19009. No period of residence in this state is required for participation in any program administered by the department, except as required by federal law or regulations.

19010. Pursuant to agreements the department shall cooperate with the federal government in carrying out the purposes of any federal statutes pertaining to the purposes of this division and may adopt such methods of administration found necessary by the federal government for the proper and efficient operation of such agreements or plans for vocational rehabilitation and may comply with such conditions as may be necessary to secure the full benefits of such federal statutes.

19011. The people of the state accept the provisions and benefits of the act of Congress entitled "An act to provide for the promotion of vocational rehabilitation of persons disabled in industry or otherwise and their return to civil employment," approved June 2, 1920, and as the same has been amended.

The department may cooperate with the State Department of Education to provide instruction for physically handicapped minors and to provide individual counseling and guidance in social and vocational matters for physically handicapped and mentally retarded minors under the provisions of Sections 6812, 6818, and 6912.5 of the Education Code.

The department may cooperate with the governing board or boards of one or more school districts to employ a special coordinator to assist in the vocational adjustment of physically and mentally handicapped minors.

19014. The Department of Rehabilitation and the Department of Industrial Welfare shall formulate a plan of cooperation for the referral and rehabilitation of persons in industry.

19080. The State Controller may approve any general plan whereby:

(a) Any expenditures which are a proper charge against money made available by the United States and deposited in the Vocational Rehabilitation Federal Fund may be paid in the first instance from any appropriation from the General Fund, expenditures from which are administered under the provisions of Sections 19010 to 19012, inclusive; and

(b) The General Fund shall be reimbursed for expenditures made therefrom that are a proper charge against the Vocational Rehabilitation Federal Fund.

Such a general plan may provide for advance transfers from the Vocational Rehabilitation Federal Fund to the General Fund, based on estimates of such expenditures that will be subject to reimbursement from the Vocational Rehabilitation Federal Fund pursuant to such plan, and may provide for reimbursements to the Vocational Rehabilitation Federal Fund, when necessary.

Requests for reimbursement or transfer pursuant to such a plan shall be furnished to the State Controller in writing by the department, accompanied by such financial statements as the plan may provide. On order of the State Controller, the required amount shall be transferred in accordance therewith.

It shall provide for the sale and terms of sale of all products manufactured by the workers thereof, provide for the employment of such other employees as it deems necessary, and do all necessary and proper acts to carry out the provisions of this article.

19560. Whenever additional equipment, materials, or employees become necessary in order to provide greater facilities for the employment of more blind and otherwise handicapped persons in California Industries for the Blind, or to enlarge the economic opportunities of those blind and otherwise handicapped persons employed therein, the department shall purchase such additional equipment or materials, or both, and shall provide for the employment of such additional employees.

19561. Upon proper representation by the department to the Department of General Services that any raw material used in the production of articles and commodities is in short supply, the Department of General Services may grant to the department an authorization to purchase such raw materials without prior approval by any other state agency. After making a purchase of any raw materials in short supply under such authorization, the department shall notify the Department of General Services of the purchase made and the cost thereof. The Department of General Services may determine when such raw materials are no longer in short supply and withdraw the authorization.

19562. The department may cause the raw materials, goods in process, finished products, and equipment necessary for the production thereof, of the California Industries for the Blind, wherever located, to be insured against any or all risks of loss.

The cost of such insurance shall be paid from the California Industries for the Blind Manufacturing Fund.

19563. Managers of the California Industries for the Blind shall be persons experienced in work for the blind and selected in accordance with the rules and regulations governing civil service, and blind persons qualifying for such positions shall not be discriminated against for appointment on account of blindness.

19564. Any blind person of suitable age, character, and qualifications, and such otherwise handicapped persons so qualified as it is practicable to receive therein, may be admitted for employment in any center of California Industries for the Blind. The rate of wages to be paid workers and the conditions of employment in the California Industries for the Blind shall be fixed by the department.

19565. Blind persons and otherwise handicapped persons employed in California Industries for the Blind may authorize deductions to be made from their earnings, in accordance with the rules and regulations of the director, for the payment of premiums on any policy or certificate of group insurance issued to such persons insured under any plan of group insurance, including, but not limited to, group life insurance approved by the Controller and the Director of General Services.

19566. Blind persons and otherwise handicapped persons employed by California Industries for the Blind are not inmates of a state institution or employed to be relieved from unemployment, but are employees of the state for all purposes other than Parts 1 (commencing with Section 18000) and 2 (commencing with Section 18500) of Division 5 of Title 2 of the Government Code.

19567. Blind persons and otherwise handicapped persons employed by California Industries for the Blind shall be deemed to be employees of the state for the purposes of unemployment compensation insurance and unemployment compensation disability insurance.

19568. The California Industries for the Blind may contribute six dollars ($6) per month for each non-civil-service production worker for health insurance carried by such workers. The contributions shall be made only for health insurance plans approved by the Board of Control and shall be made from the California Industries for the Blind Manufacturing Fund.

19569. The department may submit bids upon contracts to supply cities, counties, districts, or other public corporations of this state with materials and supplies manufactured at institutions for the blind under its jurisdiction without accompanying any such bid with a bond or other security for performance.

19570. Bids so submitted shall be received on the same basis and accorded the same consideration as if they were accompanied by a bond or other security.

19571. The director may, with the approval of the Director of General Services, enter into contracts with responsible private parties for the assembly or manufacture of products for such parties at institutions for the blind under the jurisdiction of the department.

19572. Orders placed with the department by persons who are blind for the purchase for resale of products manufactured or assembled at any center of California Industries for the Blind shall be given priority as to delivery over orders placed by other persons.

19573. The prices charged blind persons in any trade level for such products shall not be higher than those charged other persons in the same trade level.

19574. In times of national emergency, as proclaimed by the President of the United States, the federal government may be given priority over all persons and over all other governmental entities as to delivery of orders placed with the department for purchase of products manufactured or assembled by California Industries for the Blind.

19575. Notwithstanding any provision of this chapter to the contrary, the director may authorize the sale of raw materials from stock ordinarily maintained for use in manufacture and assembly in any manufacturing center or salesroom operated under this article, when the sale is to a blind person for his own use in manufacturing or in assembling, or to a manufacturing establishment in which at least 75 percent of the direct labor of production of such commodity, including preparation of material, processing, and packing, is performed by the blind in producing the commodity.

19576. The department shall determine the fair market price of all brooms and mops and other suitable commodities manufactured by and offered for sale to the state by California Industries for the Blind. It shall revise such prices from time to time in accordance with changing market conditions.

19577. All brooms and mops and other commodities which are manufactured by California Industries for the Blind and offered for sale at the fair market price as determined by the department which meet the specifications required for such products, and which are to be procured by or for the state, shall be procured from California Industries for the Blind.

19578. Any city or county, political subdivision, or district of this state may, without advertising or calling for bids, purchase materials and supplies manufactured by California Industries for the Blind at the prices fixed therefor by the department.

It is the intent of the Legislature to encourage cities, counties, districts, and other political subdivisions to purchase products manufactured by California Industries for the Blind whenever it is feasible for the political subdivision to do so and the proximity of the blind rehabilitation facility makes such purchases reasonably convenient.

Article 4. Opportunity Work Centers for the Blind

19600. The department, with the approval of the Director of Finance, may establish in such cities as it deems necessary opportunity centers and salesrooms for the employment of selected blind and otherwise handicapped persons. Such opportunity centers shall be under the management and control of the department and shall be known as the opportunity work centers for the blind.

19601. It shall be the purpose of the opportunity work centers for the blind to provide such employment opportunities, as may be deemed necessary by the department for blind and otherwise handicapped persons who cannot, by reason of their handicap, physical condition, or personal desires, be employed on a regular basis in private industry or in a production center of the California Industries for the Blind.

19602. For the purposes of this article, a blind person is a person who is blind within the meaning of Section 19153.

19603. The department may provide employment opportunities for such blind and otherwise handicapped persons who indicate a desire to contribute to their own support through partial or full-time employment in an opportunity work center for the blind, through participation in the production of articles for sale in the local community, through the sales facilities of California Industries for the Blind, or through participation in assembly projects secured for the opportunity center from private business enterprises or from public agencies.

19604. Any blind person of suitable age, character, and qualifications, and such otherwise handicapped persons so qualified as it is practicable to receive therein, may be admitted for employment in any opportunity center upon approval of the department. The rate of wages to be paid workers and the conditions of employment in the opportunity work centers for the blind shall be fixed by the department.

19605. The department may:

(a) With the approval of the Director of General Services, rent, lease, or otherwise provide suitable rooms or buildings to house the activities of the opportunity centers for the blind.

(b) Employ such employees at the centers as it deems necessary.

(c) Perform all necessary and proper acts to carry out the provisions of this article.

19606. Blind and otherwise handicapped persons employed in an opportunity work center may authorize deductions to be made from their earnings in accordance with rules and regulations of the director, for the payment of premiums on any policy or certificate of group insurance issued to such persons insured under any plan of group insurance, including, but not limited to, group life insurance approved by the Controller and the Director of General Services.

19607. Blind and otherwise handicapped persons employed in an opportunity work center shall be deemed employees of the state only for the purposes of workmen's compensation insurance.

19608. There is in the State Treasury a permanent revolving fund, to be known as the Opportunity Work Center Revolving Fund, to be administered by the department. At the request of the director and the Director of Finance, the State Controller shall transfer to the fund from the California Industries for the Blind Manufacturing Fund moneys in quantities deemed by them necessary to carry out the operations of the fund.

19609. The Opportunity Work Center Revolving Fund shall be used for the purchase of materials and supplies or for the purchase or rental of equipment needed in the manufacturing, fabricating, or assembly of products, and for the payment of salaries of blind workers and otherwise handicapped persons engaged in such manufacturing, fabricating, or assembly at any opportunity work center operated under the jurisdiction of the department. The fund may be used for the payment of the cost of distribution of products.

19610. Money received from the manufacture, fabrication, assembly, or distribution of products at any opportunity work center shall be paid to the State Treasurer monthly and shall be credited to the Opportunity Work Center Revolving Fund.

19611. Whenever, in the opinion of the director or the Director of Finance, the balance in the revolving fund herein created is greater than is necessary to carry out the purposes of Section 19609, either shall so inform the State Controller and request a transfer of the unneeded balance from the revolving fund to the General Fund. The Controller may transfer such balances upon the request of the Director of Finance.

Article 5. Business Enterprises for the Blind

19625. For the purpose of providing blind persons with remunerative employment, enlarging the economic opportunities of the blind, and stimulating the blind to greater efforts in striving to make themselves self-supporting, blind persons licensed under the provisions of this article, except as otherwise provided, may operate vending stands and food service facilities in any building owned or occupied by the state or by any county or city for the vending of articles pursuant to this article.

19626. This article does not apply nor authorize the installation of vending stands in any building wholly used by any educational institution of any type supported in whole or in part from public funds unless such educational institution is of university or college or junior college grade.

19627. For purposes of this article:

(a) A "vending stand" is a facility that may sell candy, tobacco products, greeting cards, magazines, newspapers, nov-

elties, prepackaged hot and cold sandwiches, salads, pastries and dairy products, canned soups and juices; hot and cold beverages and such other articles as are approved by the director and by the person, governing board, or legislative body having the care, custody or control of the building in which the stand is operated. No food may be prepared on the premises except coffee, tea or hot chocolate.

(b) A "food service facility" is a snackbar or cafeteria that may sell all items sold at a vending stand in addition to food prepared on the premises.

19628. The Director of General Services may construct and install or permit the construction and installation of vending stands, and food service facilities in any building owned or occupied by the state for the department for the use of blind persons licensed by the department. The amount of space allotted for this purpose shall be kept to the minimum space consistent with the number of persons to be served. The governing board of any county may also construct and install or permit the construction and installation of vending stands, and food service facilities for operation by blind persons licensed by the department in any building owned or occupied by the county. The governing board of any city may construct and install or permit the construction and installation of such vending stands and food service facilities for operation by such blind persons licensed by the department in any building owned or occupied by the city. The governing board of any city and county may construct and install or permit the construction and installation of such vending stands, machines, and food service facilities for operation by such blind persons licensed by the department in any building owned or occupied by the city and county.

Any vending machine, which dispenses food and dairy products, placed on or after October 1, 1963, in a building owned or occupied by the state or by a county or city, may be assigned to a licensed blind operator in the building. If there is no licensed blind operator in the building, the profits from the vending machine may be assigned to the department which shall cause such profits to be distributed among licensed operators who operate in marginal locations as defined by the Department of Rehabilitation.

The amendment of this section made by the 1969 Regular Session of the Legislature does not constitute a change in, but is declaratory of, the preexisting law.

19629. The department shall:

(a) Make surveys of opportunities for the operation of vending stands by blind persons in public buildings.

(b) Prescribe all necessary rules and regulations for the operation of the vending stands, and do all things necessary and proper to carry out the provisions of this article, including the collection of a service charge based on gross sales, which

service charge shall not exceed 6 percent thereof from each vending stand operator, and shall be placed in the Special Deposit Fund to be used for maintenance, repairs, and replacement of equipment, for additional equipment, for the construction of new vending stands and food service facilities, for loans to operators for initial stock, and for such other expenditures as are found necessary to carry out the purposes of this article; provided, that no portion of such service charges shall be used for administrative salaries. It is the intent of the Legislature that the expenditure of such service charges as are authorized by this section shall be supplemental to and in augmentation of any current appropriations available for such purposes and shall not constitute an offset or diminution of any such appropriations.

(c) Select a location for each vending stand constructed or installed in any building subject to the approval of the person, governing board, or legislative body having the care, custody, and control of such building.

(d) Issue licenses for the operation of vending stands to blind persons who are citizens of the United States and 21 years of age or over.

19630. In issuing licenses for the operation of vending stands, preference shall be given blind persons who are in need of employment. Licenses shall be issued only to applicants who are blind within the meaning of Section 19153 but who are able and qualified in spite of such visual impairment to operate such stands.

19631. Each license shall be issued for the period of one year. The department, in its discretion, may renew the license one or more times, each time for the period of a year, upon application made by the licensee prior to the expiration of the then existing license or renewed license. A license may be terminated by the department when the department is satisfied that the stand is not being operated in accordance with the rules and regulations prescribed by it.

19632. The operator of each vending stand is subject to the provisions of any ordinance of the county or city in which the stand is located requiring a license or permit for the conduct of such business, but any such license or permit shall be issued free of charge to a qualified blind person licensed by the department pursuant to federal or state law.

The person, governing board, or legislative body having the care, custody, and control of the building in which a vending stand is operated pursuant to this article has the right to approve, disapprove, or withdraw approval of the person operating a vending stand.

19633. Blind persons who are authorized to operate vending stands in any building owned or occupied by the state, any county, or city may keep their guide dogs with them in the building while operating the vending stands.

CHAPTER 8. ALCOHOLISM

19800. Alcoholism and problems associated with misuse of alcoholic beverages impair the life and health of a large segment of the population of California and impose great burdens of cost and indirect expense on the people and industry of the state and on local and the state governments. The purpose of this chapter is to assign responsibility and grant authority for planning, establishment and conduct of state efforts directed toward assisting and encouraging persons impaired by alcoholism to attain their maximum usefulness and self-sufficiency in order to reduce the effects of alcoholism on the individuals, their families, the community, and to educate Californians, by a statewide program of public education, on the dangers involved in the misuse of alcoholic beverages.

19801. The Department of Rehabilitation shall be responsible for the development and maintenance of a statewide comprehensive plan for the conduct of vocational rehabilitation programs for early detection and prevention of alcoholism and effective treatment and rehabilitation; for encouraging and promoting effective use of facilities, resources, and funds in the planning and conduct of programs and activities for early detection and prevention of alcoholism and effective treatment and rehabilitation; for developing a comprehensive statewide educational program, in cooperation with the Department of Education, Department of Public Health, and other related agencies, so that all citizens will be made aware of the inherent dangers involved in the misuse of alcoholic beverages, with this program to be at an adult, college, and secondary school level; and for reporting periodically to the Governor and the Legislature on the status of alcoholism and related matters in the state and on the progress of efforts to reduce the effects of alcoholism on the individuals, their families, the community, and the progress of the statewide public education program on the dangers involved in the misuse of alcoholic beverages.

In the discharge of this responsibility, the department shall cooperate with and utilize to the maximum possible extent the resources and services of federal, state, and local agencies, including those within the Human Relations Agency.

The Department af Rehabilitation is the successor to the Division of Alcoholism of the State Department of Public Health. Whenever a reference is in any statute or contract to the Division of Alcoholism of the State Department of Public Health, it shall be construed as the Department of Rehabilitation.

19802. The department shall plan, promote, and assist in the support of vocational rehabilitation programs for early detection and prevention of alcoholism and effective treatment and rehabilitation; shall conduct, sponsor, and support investigations and studies, including evaluation, of all phases of alcoholism; shall assist in the development of educational and training programs; and shall carry on pro-

grams to assist the public, and technical and professional groups, in becoming fully informed about alcoholism.

The department shall promote, develop, and financially assist, where necessary, community vocational rehabilitation alcoholism programs.

The department may directly administer community vocational rehabilitation programs or may conduct such programs as cooperative programs with a local department of public health or mental health services as designated by the county board of supervisors, or such other local public agency as designated by the county board of supervisors which meets standards of training and experience, as the Department of Rehabilitation shall prescribe after consultation with the State Department of Public Health and the Department of Mental Hygiene.

The cooperative vocational rehabilitation alcoholism programs will be conducted within a comprehensive local plan including, but not limited to, the following services as defined by the California State Plan for Vocational Rehabilitation:

(a) Vocational rehabilitation services for individuals.

(1) Casefinding including outreach, referral, and advocacy.

(2) Evaluation including diagnostic and related services.

(3) Counseling and guidance.

(4) Physical restoration services, both inpatient and outpatient including medical, surgical, psychiatric, psychological, and nursing services.

(5) Training, including personal and vocational adjustment, and related services.

(6) Maintenance.

(7) Transportation.

(8) Services to family members.

(9) Job placement.

(10) Followup services.

(b) Vocational rehabilitation administration services for the community.

(1) Continuing measurement of local problem and resources.

(2) Development and coordination of local program.

(3) Public information training, staff development and professional education.

(4) Consultation and guidance to other local agencies and groups.

(5) Evaluation.

The department shall promote, develop, and financially assist such other services as may be required to implement the provisions of this chapter.

Local public agencies conducting such cooperative vocational rehabilitation alcoholism programs shall maintain records and submit periodic reports as required by the department.

19803. Local vocational rehabilitation programs for early detection and prevention of alcoholism and effective treatment and rehabilitation conducted under authority of this chapter, or to carry out the purposes of this chapter, shall be administered under such standards and regulations which the department determines are reasonably necessary to carry out the purposes of this chapter and consistent with the provisions of Section 19802. Standards, regulations, and procedures applicable to local vocational rehabilitation alcoholism programs shall be adopted after consultation with the directors of the local vocational rehabilitation alcoholism programs. Necessary and actual expenses for all meetings called by the director for this purpose shall be a charge against available funds under this chapter.

19804. To be eligible for state participation a local public agency designated by the county board of supervisors shall develop and submit to the department an initial plan for a communitywide vocational rehabilitation program for early detection and prevention of alcoholism and effective treatment and rehabilitation. The plan shall specify those services for which state participation is requested, and provide a budget of proposed expenditures. A vocational rehabilitation alcoholism plan may provide for direct operation of the required services, or furnishing of these services by other appropriate agencies, groups and individuals, or a combination of both.

Continuing support of local cooperative vocational rehabilitation alcoholism programs will be based on annual submission and approval of an updated community plan, and on evaluation by the department of local performance.

Participation for any fiscal year shall be limited to the amount fixed by the department when the local plan is approved, unless additional expenditure is authorized after submission and approval of a supplementary plan.

No state participation shall be provided for services which are not included in the approved plan, or which fail to comply with standards adopted by the department under Section 19803. The financial participation in the nonfederal-reimbursed costs of the local cooperative vocational rehabilitation alcoholism plan shall be 75 percent state and 25 percent local.

19805. The department, the Department of Mental Hygiene, and the State Department of Public Health shall consult with and render assistance to any county which requests information or advice concerning the planning and operation of its local plan.

The State Department of Public Health has the primary responsibility of consulting with and assisting any county making such request with respect to any medical services provided by the local plan.

19806. Local agencies conducting such local vocational rehabilitation programs may make charges to patients or clients served, such revenue to be used to defray the expenses of the

programs. In the event such revenue exceeds the local expenditures for the programs, such excess collections shall be reimbursed to the state.

19807. The department may, through reimbursement contract, interagency agreement or otherwise, make available funds to other governmental agencies and to voluntary, nonprofit organizations, or individuals, to carry out the provisions of this article. Such contracts shall be drawn only after submission and approval of an application which fulfills requirements established by the department.

19808. The director may appoint annually an advisory committee consisting of not more than 15 members to advise him and the department in the performance of the duties imposed by this chapter, and shall serve as the chairman. The committee shall be solely advisory in character and shall not be delegated any administrative authority or responsibility. Committee members shall serve without compensation, but shall be reimbursed for actual and necessary expenses incurred in connection with the performance of their duties.

19809. In addition to any other authority prescribed by this chapter, the board of supervisors of any county may establish and staff a county department to prescribe and conduct or supervise a program for the rehabilitation of alcoholics confined in any county jail, industrial farm, road camp, or in any other county institution, and to further prescribe, conduct, or supervise programs of continuing such rehabilitation on a voluntary basis after the discharge from custody of any inmate of any such county institution, except, that if funds under this chapter participate, such programs shall meet the standards established under the authority of Section 19803 of this chapter. No program under the provisions of this section shall be activated in any county jail, or other institutions maintained or operated under the jurisdiction of the sheriff, without the advice and consent of the sheriff.

19810. The department shall formulate a plan for the complete evaluation of alcoholism programs developed under this chapter. The objective of the plan should be to determine if state and local programs are achieving the goal of this chapter, which is to assist and encourage persons impaired by alcoholism to attain their maximum usefulness and self-sufficiency in order to reduce the effects of alcoholism on the individuals, their families, and the community. The plan shall be put into effect as soon as possible and the department shall annually submit a report on the plan and its progress in initiating it to the Legislature.

The plan formulated by the department shall include specific provisions for the evaluation of vocational rehabilitation administration services for the community. In order to adequately evaluate such services, the department shall insure that at least one community program has a comprehensive program

of such services so that the results may be compared with the results in communities which do not.

19811. The sum of seven hundred nineteen thousand dollars ($719,000) is appropriated for expenditure by the Department of Rehabilitation for the purpose of conducting the program functions under this chapter. This sum comprises the state's share of funds for this program during the 1969–70 fiscal year. In addition, those federal matching funds available to the Department of Rehabilitation for this program under provisions of the Federal Vocational Rehabilitation Act are hereby appropriated for expenditure during the 1969–70 fiscal year.

19812. All officers and employees of the agencies enumerated in Section 19701 on the operative date of this chapter who are serving in the state civil service, other than temporary employees, and who are engaged in the performance of a function transferred to the Department of Rehabilitation or who are engaged in the administration of a law, the administration of which is transferred to the Department of Rehabilitation, by this chapter shall be transferred to the Department of Rehabilitation and their status, positions, and rights shall not be affected by their transfer and they shall continue to be retained as employees of the Department of Rehabilitation pursuant to the State Civil Service Act, except as to positions the duties of which are vested in a position exempt from civil service.

19813. This article shall be known and may be cited as the McAteer Alcoholism Act.

SEC. 17.5. It is the intent of the Legislature, if this bill and Article 3 (commencing with Section 6990) of Chapter 10.5 of Division 6 of the Education Code as proposed to be added by Senate Bill 338 are enacted, the provisions of that article be transferred operative January 1, 1970, from the Education Code to Chapter 8 (commencing with Section 19800) of Part 2 of Division 10 of the Welfare and Institutions Code as proposed to be added by this bill. Therefore Chapter 8 (commencing with Section 19800) of Part 2 of Division 10 of the Welfare and Institutions Code as proposed to be added by this act shall only become operative if Senate Bill 338 is enacted and in such event that chapter shall become operative on January 1, 1970 and at the same time Article 3 (commencing with Section 6990) of Chapter 10.5 of Division 6 of the Education Code as added by Senate Bill 338 is repealed.

SEC. 18. Any section of any act enacted by the Legislature at its 1969 Regular Session prior or subsequent to the enactment of this act, which adds Article 3 (commencing with Section 19550) to Chapter 6 of Part 2 of Division 10 of the Welfare and Institutions Code, shall prevail over Article 3 (commencing with Section 19550) and Article 4 (commencing with Section 19600) of Chapter 6 of Part 2 of Division 10 of the Welfare and Institutions Code as added by this act.

SEC. 19. It is the intent of the Legislature, if amendments to Sections 135 and 605.5 of the Unemployment Insurance Code proposed by both this bill and S.B. 1211 are enacted, that only the amendments to such sections made by S.B. 1211 shall become operative. Therefore, in the event S.B. 1211 is enacted and amends Sections 135 and 605.5, Sections 7.3 and 7.5 of this act are repealed.

SEC. 27. All city officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act.

Article 4. Purposes

SEC. 30. The city, in cooperation with the parks and recreation department of the county, the Department of Parks and Recreation, and the Bureau of Outdoor Recreation of the United States Department of the Interior, has designated approximately 544 acres of bayfront lands within the community for acquisition and improvement as a shoreline regional park and recreational facility. This action was taken in recognition of the fact that there is a critical shortage of high-density, intensive recreation land in the San Francisco-Oakland and San Jose urban areas, and that there is a need for preserving wildlife and marinelife habitats and open space in the San Francisco Bay tide and marsh lands.

The land uses in the balance of the community are predominantly agricultural with some industrial uses and residential uses in varying degrees of deterioration.

SEC. 31. It is found and declared that the park and the other territory included in the community through which the public will gain access to the park is a single comprehensive land unit, comprised of public and private lands, requiring a special form of local government if the park is to achieve its full potential as a public recreational facility serving an area with an anticipated population of over four million persons by 1985.

SEC. 32. The purpose of this act is to provide such a form of local government, which will enable public authority and private interests to cooperate in the development of a community which will (in common with The New Communities Act of 1968 [Title IV of the Housing and Urban Development Act of 1968]): (a) contribute to better living conditions through improved overall community design; (b) make substantial contributions to the sound and economic growth of the area; (c) provide needed additions to the general housing supply; (d) provide opportunities for innovation in housing and community development technology and land use planning; (e) enlarge housing, employment, and investment opportunities; (f) encourage a diversified local homebuilding industry; and (g) provide a suitable environment to a significant public regional recreational facility, namely, the park. A further purpose is to provide a governmental agency to own, maintain, operate, and administer the park.

Since the community area is partially incorporated in the city and partially unincorporated in the county, special legislation is necessary in order to provide representative local government to achieve these purposes.

Article 5. Powers

SEC. 40. The community may adopt and use a seal, alterable at the pleasure of the board.

SEC. 41. The community may sue and be sued in its own name.

SEC. 42. The community may acquire, construct, reconstruct, alter, enlarge, lay, renew and replace facilities and works used or useful for the following purposes:

(a) The production, storage, treatment and distribution of water for domestic and fire protection purposes.

(b) The collection, treatment, and disposal of sewage, waste, storm, and flood waters.

(c) Street and highway lighting.

(d) Streets, alleys, curbs, gutters, culverts, sidewalks, and other public ways.

(e) Underground power and communication facilities.

(f) Off-street motor vehicle parking lots, structures, and facilities.

(g) Reclamation of public and private lands by levees, bulkheads, breakwaters, fills, embankments, basins, drains, canals, excavations, services, pipes, watergates, pumping plants, and all works or structures useful therefor.

Title to all facilities acquired or constructed by the community under subdivisions (a), (b), and (f) of this section and such portion of those acquired or constructed by the community under subdivision (d) of this section as are located within the boundaries of the city shall, upon their completion to the satisfaction of the city, be vested in the city and thereafter owned, maintained and operated as part of the respective city systems. Title to any other facilities acquired or constructed under subdivision (d) of this section shall, upon their completion to the satisfaction of the county, be vested in the county and thereafter owned, maintained, and operated as part of the county road system.

Facilities under subdivision (e) of this section shall, and under subdivision (c) of this section may, be acquired or constructed pursuant to agreement with the regulated public utility providing service to the community in the manner provided in Sections 10109 to 10111, inclusive, of the Streets and Highways Code. Title to facilities under subdivision (c) of this section may also be vested in the city in the same manner as facilities under subdivisions (a), (b), and (f) of this section.

None of the powers enumerated in this section shall be exercised in the unincorporated portions of the community without the prior consent of the board of supervisors, expressed by resolution.

SEC. 43. The community may acquire, develop, improve, enlarge, redevelop, renew, replace, maintain, operate, and administer the park.

SEC. 44. The community may prescribe, revise and collect charges for the services, facilities and products of the park, or for the use thereof.

SEC. 45. It is found and declared that the area of the community, exclusive of the park, is characterized and blighted by:

(a) The existence of buildings and structures in parts of the area used or intended to be used for living, commercial and industrial purposes which are unfit or unsafe to occupy for such purposes and are conducive to ill health and transmission of disease because of the combination of the following factors:

(1) Defective design and character of physical construction.

(2) Faulty interior arrangement and exterior spacing.

(3) Inadequate provision for ventilation, light, sanitation, open spaces and recreation facilities.

(4) Age, obsolescence, deterioration, and dilapidation.

(b) An economic imbalance between the ability of present tenants to pay rent commensurate with the value of the property rented which results in a perpetuation of the foregoing conditions.

(c) The existence of substantial areas which are subject to being submerged by water.

(d) Inadequate and inefficient vehicular traffic patterns.

(e) The existence of substantial areas presently or heretofore devoted to use for garbage disposal purposes.

(f) The existence of substantial areas devoted to use as automobile wrecking storage sites.

SEC. 46. It is further found and declared that the existence of these conditions presents difficulties and handicaps which are beyond remedy and control solely by private interests and the regulatory processes in the exercise of the police power under present laws.

SEC. 47. It is further found and declared that there is a great and pressing demand for more housing and for the correlation of the community and of the park with other areas of the city and county, by streets and public places, and without governmental help the community cannot be developed on a planned, coordinated and productive basis and such lack of governmental help will preclude the proper development of the park and inhibit its use to the detriment of the people of the city, county, and state, all of which results in a compelling community economic need for the community to function with the powers hereinafter enumerated.

SEC. 48. It is further found and declared that the private assembly of land in the community for development is so difficult and costly that it is uneconomic and as a practical matter impossible for private persons and owners to undertake because of lack of legal power and excessive costs. The community requires replanning and land assembly for reclamation and development in the interest of the general welfare because of scattered ownership and its proximity and relation to the park. The remedying of these conditions requires the public acquisition, at fair prices of adequate areas, the clear-

ance of such areas through demolition of existing obsolete, inadequate, unsafe and insanitary buildings, and the development and redevelopment of the community under proper supervision, with appropriate planning and continuing land use and construction policies.

SEC. 49. The community may, therefore, provide for the assembly, planning, development, replanning, redesign, clearance, reconstruction or rehabilitation, or any combination of these, of all or any part of the community, and the provision of such residential, commercial, industrial, public or other structures or spaces as may be appropriate or necessary in the interest of the general welfare, including recreational and other facilities incidental or appurtenant to them. The community may also provide for the replanning or redesigning or original development of undeveloped areas.

SEC. 50. The community may take, acquire, hold, use, and dispose of property of every kind within the community necessary, expedient or advantageous to the full exercise and economic enjoyment of its purposes and powers.

SEC. 51. The community has and may exercise within its boundaries the right of eminent domain in the manner provided by law for the condemnation of private property for public use by the state or any political subdivision or district thereof. The provisions of Title 7 (commencing with Section 1237) of Part 3 of the Code of Civil Procedure shall apply. The board has the same rights and powers with respect to the taking of property for the public uses of the community within its boundaries as are now or may hereafter be conferred by general law on the legislative body of a city, including the right of eminent domain for the purposes and uses set forth in Section 48, which are hereby declared to be public uses. None of the powers enumerated in this section shall be exercised in the unincorporated portions of the community without the prior consent of the board of supervisors, expressed by resolution.

SEC. 52. The community may make and accept contracts, deeds, releases, and documents that, in the judgment of the board, are necessary or proper in the exercise of any of the powers of the community.

SEC. 53. The community may cooperate and contract with the city, the county, the federal government of the United States and with the State of California, or with any other city, county, district, agency, commission, or other public body, or with any person, for the joint acquisition, construction, maintenance, operation, management, or use or aid in connection with any of said activities regarding facilities or property which the community has the power to acquire or construct under this act. Such power of cooperation includes, without limiting the generality of the foregoing, the power to negotiate and enter into and to assist others in the negotiation and execution of land assembly agreements, with the land to

be administered in trust for the benefit of the participating landowners, for the purpose of facilitating the implementation of the community plan.

SEC. 54. The community is a public agency within the meaning of Section 6500 of the Government Code and may exercise any or all of its powers jointly with the city, county or any other public agency or agencies under Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code. Any agency, commission or board provided by a joint powers agreement under this section may issue revenue bonds to pay the costs and expenses of acquiring or constructing a project for the purposes set forth in subdivision (d) of Section 6546 of the Government Code, without regard to the population limitations therein set forth.

SEC. 55. For the purpose of aiding and cooperating in the land assembly, planning, undertaking, construction or operation of community development or redevelopment projects located within the area in which it is authorized to act, any public body, including without limitation the city and county, upon the terms as it determines, may:

(a) Dedicate, sell, convey or lease any of its property to the community.

(b) Cause parks, playgrounds, recreational, community, educational, water, sewer or drainage facilities, or any other works which it is otherwise empowered to undertake, to be furnished within or adjacent to or in connection with community projects.

(c) Furnish, dedicate, close, vacate, pave, install, grade, regrade, plan or replan streets, roads, roadways, alleys, sidewalks, or other places which it is otherwise empowered to undertake.

(d) Plan or replan, zone or rezone any part of such area and make any legal exceptions from building regulations and ordinances.

(e) Enter into agreements with the federal government, the community, or any other public body or with any person respecting action to be taken pursuant to any of the powers granted by this act or any other law; such agreements may extend over any period, notwithstanding any law to the contrary.

(f) Purchase or legally invest in any of the bonds of the community and exercise all of the rights of any holder of such bonds.

(g) Purchase and buy or otherwise acquire land from the community for development or redevelopment in accordance with the plan.

SEC. 56. The community may guarantee the performance of any of its transactions, including the payment of local improvement bonds issued pursuant to any general law.

SEC. 57. The community may refund or retire any public indebtedness or lien that may exist or be created against the community or any property therein which shall have arisen out of the transaction of the affairs of the community.

SEC. 58. The community may incur indebtedness and issue bonds in the manner herein provided.

SEC. 59. The community may issue warrants in payment of community obligations. The warrants shall be registrable as provided for county warrants when not paid for want of funds. Claims for money or damages against the community are governed by Division 3.6 (commencing with Section 810) of Title 1 of the Government Code, except as provided herein.

SEC. 60. The community may cause special assessments to be levied and collected and may issue bonds to represent unpaid assessments on the basis of benefit to the properties assessed for the purpose of financing the acquisition and construction of local improvements. None of the powers enumerated in this section shall be exercised in the unincorporated portions of the community without the prior consent of the board of supervisors, expressed by resolution.

SEC. 61. The community may contract for the services of such engineers, attorneys and other consultants and appoint, employ and fix the compensation of such personnel and employees as it deems proper.

SEC. 62. For purposes of the community, it shall have access to all services and facilities of the city.

SEC. 63. The community may obtain insurance in such form and in such amounts as the board may deem necessary for the adequate protection of the community's property, officers, agents, employees, and interests.

SEC. 64. The community may make, amend, and repeal regulations not inconsistent with, and to carry into effect, the powers and purposes of this act.

Any person who violates any regulation of the community is guilty of a misdemeanor. A regulation of the board shall be adopted by ordinance and shall be posted for one week in three public places in the community and published in a newspaper of general circulation printed and published in the city, pursuant to Section 6061 of the Government Code, and shall take effect after said publication and upon expiration of the week of such posting. A subsequent finding of the board, entered in its minutes, that posting has been made is conclusive evidence that the posting has been properly made.

SEC. 65. The community may, from time to time, prepare and carry out plans for the improvement, rehabilitation, development and redevelopment of the community, and disseminate information with regard thereto.

SEC. 66. All contracts for the construction of any public improvements shall be let and entered into in the same manner as contracts are let and entered into by the city pursuant to its charter.

Article 6. Adoption of Plans

SEC. 70. The community shall prepare, or cause to be prepared and approved, a plan for the community and for that purpose may hold hearings and conduct examinations, investigations, and other negotiations. The community shall consult with the city planning commission and the county planning commission in preparing such a plan.

SEC. 71. The plan shall conform to the respective general plans of the city and county and the general development plan of the park.

SEC. 72. The plan shall show by diagram and in general terms the nature of the proposed development and redevelopment, shall generally describe the proposed method of financing, including estimates of total project costs, revenues, and bond issues and shall provide for the community to lease or sell all real property acquired by it, except property conveyed to it by the city or county or other public agency, and except any real property vested or conveyed under Section 42 of this act.

SEC. 73. The plan shall provide for the retention of controls and the establishment of any restrictions or covenants running with lands sold or leased for private use for such periods of time and under such conditions as the board deems necessary to effectuate the purposes of this act. The establishment of such controls is a public purpose under the provisions of this act.

SEC. 74. After the plan has been prepared, it shall be submitted to the city planning commission and to the county planning commission for their respective recommendations for or against the approval of the plan.

SEC. 75. Within 30 days after the plan has been submitted to it for consideration, each planning commission shall make and file its report and recommendation with the community. If either planning commission does not report upon the plan within 30 days after its submission by the community, said commission shall be deemed to have waived its report and recommendations concerning the plan and the community may thereafter approve the plan without the report and recommendation of the planning commission which has not so reported.

SEC. 76. Before the approval of the plan by the community, the board shall conduct a public hearing on it.

SEC. 77. Notice of said hearing shall be published in a newspaper of general circulation, printed and published in the city, pursuant to Section 6066 of the Government Code. The notice of hearing shall include a general statement of the scope and objectives of the plan. Copies of the notices shall be mailed, postage prepaid, to the last-known assessee of each parcel of land in the community, at his last-known address,

as shown on the last equalized assessment roll of the county or as known to the secretary.

SEC. 78. The hearing shall be held at the time and place set forth in said notice, and the board shall hear and consider all competent and relevant testimony submitted by any person interested. Any person interested and objecting to the plan may file a written protest with the secretary at any time prior to the time fixed for the hearing, and the board shall hear and determine all protests filed.

SEC. 79. The board's decision on the protests shall be final and conclusive.

SEC. 80. Any protest filed may be abandoned and withdrawn by written notice of such abandonment or withdrawal signed by the person who signed the protest and filed with the secretary at any time prior to the conclusion of the hearing.

SEC. 81. The hearing may be continued from time to time at the discretion of the board.

SEC. 82. At the conclusion of the hearing, after ruling on all protests and objections, the board may approve the plan by resolution. Said resolution shall set forth the findings and determinations of the board which shall be conclusive in the absence of fraud.

SEC. 83. At any time, either concurrently with or after the approval of the plan, the board may make changes therein, after notice of intention to do so, given by publication in the same newspaper in which the original notice of hearing was published, pursuant to Section 6061 of the Government Code. Copies of said notice shall be mailed to the city planning commission and to the county planning commission. The notice shall specify a time and place for hearing objections to the proposed changes, which shall not be less than 10 days after the publication and mailing of the notice.

SEC. 84. Written objections to any proposed change may be filed with the secretary by any interested person, or by either planning commission, at any time prior to the hour set for hearing them.

SEC. 85. The board shall hear and pass upon objections to proposed changes at the time appointed or at any time to which the hearing may be adjourned. This decision shall be final. Any changes described in the notice may be ordered by the board, by resolution, at the conclusion of the hearing, after ruling on any protests and objections.

SEC. 86. After the adoption of a plan by the board, all applicants for building permits in the community for a period of two years thereafter shall be advised by the respective building departments of the city and the county that the site for which a building permit is sought for the construction of buildings or for other improvements is within a plan area.

SEC. 87. No action attacking or otherwise questioning the validity of the community and its organization or any plan or the adoption or approval of such plan or any of the findings

or determinations of the community or the board in connection with such plan shall be brought prior to the adoption of the resolution approving the plan nor at any time after the elapse of 30 days from and after the date of adoption of the resolution approving the plan. No action attacking or otherwise questioning the validity of any changes in the plan shall be brought after the elapse of 60 days from and after the date of adoption of the resolution ordering such changes.

SEC. 88. At any time before the expiration of said 60-day period, an action may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure to determine the validity of bonds and the plan to be financed or refinanced, in whole or in part, by the bonds or to determine the validity of any plan not financed by bonds, including without limiting the generality of the foregoing, the legality and validity of all proceedings theretofore taken for or in any way connected with the establishment of the community, its authority to transact business and exercise its powers, and the adoption of or making changes in the plan, also including the legality and validity of all proceedings theretofore taken and proposed to be taken for the authorization, issuance, sale, and delivery of the bonds and for the payment of the principal and interest thereof.

Article 7. Special Assessment Proceedings

SEC. 90. The Municipal Improvement Act of 1913, the Improvement Act of 1911, the Street Opening Act of 1903, the Improvement Bond Act of 1915, the Revenue Bond Law of 1941, and the Sewer Revenue Bond Act of 1933 (Chapter 5 (commencing with Section 4950) of Part 3 of Division 5 of the Health and Safety Code) are applicable to the community; provided, however, that the supplemental remedies which apply when community bonds have been issued under the Improvement Bond Act of 1915 shall become the obligations of the city and not the community; and provided, further, that Division 4 (commencing with Section 2800) of the Streets and Highways Code shall not apply to any of said special assessment proceedings. No proceedings under any of said acts shall be undertaken in the unincorporated portions of the community without the prior consent of the board of supervisors, expressed by resolution.

Article 8. Financial Provisions

SEC. 100. The community may accept financial or other assistance from any public or private source, for the community's activities, powers, and duties and expend any funds so received for any of the purposes of this act.

SEC. 101. The community may borrow money or accept financial or other assistance from the city, county, state or the federal government for any project within its area of

operation, and may comply with any conditions of such loan or grant.

SEC. 102. The community may borrow money (by issuance of bonds or otherwise) or accept financial or other assistance from any private lending institution or person for any project for any of the purposes of this act, and may execute trust deeds or mortgages on any real or personal property owned or acquired.

SEC. 103. The community may invest any money held in reserve or sinking funds, or any money not required for immediate disbursement, in property or securities in which savings banks may legally invest money subject to their control.

SEC. 104. The council may appropriate to the community such amounts as it deems necessary for the administrative expenses and overhead of the community. The money appropriated may be paid to the community as a grant to defray the expenses and overhead, or as a loan to be repaid upon such terms and conditions as the council may provide.

In addition to the common understanding and usual interpretation of the term, "administrative expense" includes, but is not limited to, community officers and employees compensation, expenses of development and redevelopment planning and dissemination of development and redevelopment information.

SEC. 105. The community shall annually submit to the council a proposed budget of its administrative expenses.

SEC. 106. The council may adopt an annual budget for the administrative expenses of the community in such amounts as it deems necessary and may provide such conditions and restrictions upon the expenditure or encumbrance of the money appropriated pursuant to the budget as it deems advisable.

SEC. 107. The money appropriated for administrative expenses shall be kept in the treasury of the community in a special fund to be known as the community administrative fund. Any money shall be drawn from the fund to meet the administrative expenses of the community in substantially the same manner as money is drawn by other agencies and departments of the city subject to budgetary control.

SEC. 108. The money appropriated to the community administrative fund is money granted or loaned by the city to defray the administrative expenses of the community which is performing a public function.

SEC. 109. The community shall file periodic reports of all its financial transactions, pursuant to Article 9 (commencing with Section 53890) of Division 2 of Title 5 of the Government Code and shall cause to be prepared an annual audit of its transactions by a certified public accountant.

SEC. 110. The council may establish a community revolving fund to be kept in the treasury of the city.

SEC. 111. For the purpose of raising money to be deposited in the community revolving fund, the council may

appropriate money or issue and sell its general obligation or other bonds.

SEC. 112. Any money in the community revolving fund may be expended from time to time for:

(a) The acquisition of real property in any project area.

(b) The clearance, aiding in relocation of site occupants, and preparation of any project area for development or redevelopment.

Such expenditure shall be authorized by resolution of the council.

SEC. 113. Any money in the community revolving fund may be paid to the community, upon such terms and conditions as may be prescribed in the authorizing resolution hereinafter referred to, for any of the following purposes:

(a) Deposit in a trust fund to be expended for the acquisition of real property in any project area.

(b) The clearance of any project area for development or redevelopment.

(c) Any expenses necessary or incidental to the carrying out of a plan which has been adopted by the community.

Such payment to the community shall be authorized by resolution of the council.

SEC. 114. All money received by the community from the sale, lease, or encumbering of property acquired with money from the community revolving fund in excess of the money required to repay the loans and interest thereon authorized by this act shall be redeposited in the fund.

SEC. 115. The community revolving fund may be abolished by the council whenever it finds that the purposes for which it was established have been accomplished.

SEC. 116. The council may withdraw money which it has appropriated from the community revolving fund whenever and to the extent that it finds that the amount of money therein exceeds the amount necessary to finance existing or planned purposes for which its expenditure is authorized by the provisions of this article. All money withdrawn from the fund by reason of its being reduced in size, or its abolition, and all money which, after abolition would have been required to be deposited or redeposited in the fund, shall be transferred to the bond redemption fund or to the general fund of the city, as directed by the council.

SEC. 117. The city may issue and sell its general obligation or other bonds for any or all of the following purposes: raising money to be deposited in the community revolving fund or providing funds with which to redeem before maturity, retire at maturity or purchase community bonds issued under Article 9 (commencing with Section 180) of this act. Bonds issued pursuant to this section may be authorized and issued in a principal amount sufficient to provide funds for the payment of any or all of the following:

(a) The estimated amount of money to be raised to be deposited in the community revolving fund.

(b) The principal amount of community bonds proposed to be so redeemed, retired or purchased.

(c) The estimated amount of any premiums required to be paid in connection with the redemption or purchase of such community bonds.

(d) The estimated amount of any due and unpaid interest or accrued interest on such community bonds which must be paid at the time the same are redeemed, retired or purchased.

(e) The amount of interest on such city bonds estimated to accrue during the period from the date thereof until the portion of taxes allocated to and paid into the special fund of the community under the provisions of Section 154 of this act pledged or to be pledged to the repayment of an advance to the community for any purpose authorized by this act equals the annual amount of the interest upon such bonds due and payable thereon in the next succeeding year, such period not to exceed 10 years from the date of such city bonds or the first series thereof; provided, that such amount shall not include any interest estimated to accrue during any year for which interest on community bonds proposed to be so redeemed, retired or purchased has been provided from the proceeds of sale of such community bonds.

(f) The estimated amount of all expenses incidental to or connected with the redemption, retirement or purchase of such community bonds and the authorization, issuance and sale of such city bonds.

All community bonds redeemed, retired or purchased with the proceeds of such city bonds shall be canceled and shall not be reissued.

The council may fix a date, not more than 10 years from the date of issuance of any such city bonds, for the earliest maturity of each issue or series of such bonds.

SEC. 118. If the plan adopted pursuant to Article 6 contains the provision authorized by Section 154 of this act, either initially or by virtue of change proceedings, the community and the council may, either before or after the authorization of city bonds for the purposes permitted by Section 117 of this act, enter into an agreement that the principal amount of any such city bonds sold for such purposes, together with all interest which may be paid thereon, shall constitute a loan by the city to the community for the purpose of refinancing the project, and that subject to any prior pledge of or claim upon the moneys in the special fund provided for in Section 154 of this act, the moneys accruing to such special fund are irrevocably pledged to the repayment of such loan until there has been repaid to the city from time to time from such special fund the principal amount of such city bonds plus all interest which said city may pay thereon, less

such part, if any, of the proceeds of such city bonds which were not used for such purposes, and less any premiums and accrued interest received by the city upon the sale of such city bonds.

SEC. 119. Any surplus existing in the city bond redemption fund after payment of principal and interest shall be transferred to the general fund of the city.

SEC. 120. Except as otherwise provided in this article, any bonds issued by the city pursuant to this article shall be authorized and issued in the manner and within the limitations prescribed by law or the charter of the city for the issuance and authorization of such bonds for public purposes generally. Irrespective of any limitation as to the amount of general obligation bonds which may be issued, the city may issue such bonds for the purposes prescribed in this article, in excess of the limitation, in such amount as may be authorized by the voters of the city at any general or special election.

Article 9. Bonds

SEC. 130. From time to time the community may issue bonds for any of its corporate purposes. The community may also issue refunding bonds for the purpose of paying or retiring bonds previously issued by it. The board shall not authorize either directly or indirectly any project or bonds authorized by this act until the bonds have been certified by the California Districts Securities Commission pursuant to Chapter 1 (commencing with Section 20000) of Division 10 of the Water Code.

SEC. 131. The community may issue such types of bonds as it may determine, including bonds on which the principal and interest are payable:

(a) Exclusively from the income and revenues of the development or redevelopment projects together with financial assistance from the state or federal government in aid of the projects.

(b) Exclusively from the income and revenues of certain designated projects whether or not they were financed in whole or in part with the proceeds of the bonds.

(c) In whole or in part from taxes allocated to, and paid into a special fund of, the community pursuant to the provisions of Sections 154 to 157, inclusive, of this act.

(d) From its revenues generally.

(e) From any contributions or other financial assistance from the city, county, the state or federal government or any person.

(f) Any combination of these methods.

If the bonds are issued under any of the acts specified in Article 7 (commencing with Section 90) of this act, the procedures and requirements of those acts shall apply. The community is not authorized to issue bonds under this article for

any of the purposes set forth in subdivisions (c) and (e) of Section 42 of this act.

SEC. 132. Any of such bonds may be additionally secured by a pledge of any revenues or by an encumbrance by mortgage, deed of trust or otherwise of any project or other property of the community or by a pledge of the taxes referred to in subdivision (c) of Section 131 of this act or by any combination thereof.

SEC. 133. Neither the members of the community nor any persons executing the bonds are liable personally on the bonds by reason of their issuance.

SEC. 134. The community may authorize bonds by resolution. The resolution and trust indenture or mortgage issued pursuant thereto may provide for:

(a) The issuance of the bonds in one or more series.

(b) The date the bonds shall bear.

(c) The maturity dates of the bonds.

(d) The interest rate, not to exceed 8 percent per annum.

(e) The denomination of the bonds.

(f) Their form, either coupon or registered.

(g) The conversion or registration privileges carried by the bonds.

(h) The rank or priority of the bonds.

(i) The manner of their execution.

(j) The medium of payment.

(k) The place of payment.

(*l*) The terms of redemption with or without premium to which the bonds are subject.

SEC. 135. The bonds may be sold at less than par, at public or private sale.

SEC. 136. If any community member or officer whose signature appears on bonds or coupons ceases to be such member or officer before delivery of the bonds, his signature is as effective as if he had remained in office.

SEC. 137. Bonds issued pursuant to this act are fully negotiable.

SEC. 138. In any action or proceeding involving the validity or enforceability of any bonds or their security, any such bond reciting in substance that it has been issued by the community to aid in financing a project is conclusively deemed to have been issued for such a project and the project is conclusively deemed to have been planned, located, and constructed pursuant to this act.

SEC. 139. In connection with the issuance of bonds, and in addition to its other powers, the community has the powers prescribed in Sections 140 to 149 of this act, inclusive.

SEC. 140. The community may:

(a) Pledge all or any part of its gross or net rents, fees or revenues to which its right then exists or may thereafter come into existence.

(b) Encumber by mortgage, deed of trust or otherwise all or any part of its real or personal property, then owned or thereafter acquired.

SEC. 141. The community may covenant:

(a) Against pledging all or any part of its rents, fees, and revenues.

(b) Against encumbering all or any part of its real or personal property, to which its right or title then exists or may thereafter come into existence.

(c) Against permitting any lien on such revenues or property.

(d) With respect to limitations on its right to sell, lease or otherwise dispose of all or part of any project.

(e) As to what other or additional debts or obligations it may incur.

SEC. 3.5. Article 2 (commencing with Section 13970) is added to Chapter 5 of Part 4 of Division 3 of the Government Code, to read:

Article 2. Citizens Benefiting the Public

13970. Direct action on the part of private citizens in preventing the commission of crimes against the person or property of others, or in apprehending criminals, or rescuing a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe, benefits the entire public. In recognition of the public purpose served, the state may indemnify such citizens, their widows, and their surviving children in appropriate cases for any injury, death, or damage sustained by such citizens, their widows or their surviving children as a direct consequence of such meritorious action to the extent that they are not compensated for the injury, death, or damage from any other source.

13971. As used in this article, "private citizen" means any natural person other than a peace officer, fireman, lifeguard,

or person whose employment includes the duty to protect the public safety acting within the course and scope of such employment.

13972. In the event a private citizen incurs personal injury or death or damage to his property in preventing the commission of a crime against the person or property of another, in apprehending a criminal, or in materially assisting a peace officer in prevention of a crime or apprehension of a criminal, or rescuing a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe, the private citizen, his widow, his surviving children, or a public safety agency acting on his or their behalf may file a claim with the State Board of Control for indemnification to the extent that the claimant is not compensated from any other source for such injury, death, or damage. The claim shall generally show:

(a) The date, place and other circumstances of the occurrence or events which gave rise to the claim;

(b) A general description of the activities of the private citizen in prevention of a crime, apprehension of a criminal, or rescuing a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe;

(c) The amount or estimated amount of the injury, death, or damage sustained for which the claimant is not compensated from any other source, insofar as it may be known at the time of the presentation of the claim;

(d) Such other information as the Board of Control may require.

The claim shall be accompanied by a corroborating statement and recommendation from the appropriate state or local law enforcement agency.

13973. Upon presentation of any such claim, the Board of Control shall fix a time and place for the hearing of the claim, and shall mail notices thereof to interested persons or agencies and to the Attorney General. At the hearing, the board shall receive recommendations from the Attorney General and law enforcement agencies, and evidence showing:

(a) The nature of the crime committed by the apprehended criminal or prevented by the action of the private citizen, or the nature of the action of the private citizen in rescuing a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe, and the circumstances involved;

(b) That the actions of the private citizen substantially and materially contributed to the apprehension of a criminal, the prevention of a crime, or the rescuing of a person in immediate danger of injury or death as a result of fire, drowning, or other catastrophe;

(c) That as a direct consequence, the private citizen incurred personal injury or damage to property or died;

(d) The extent of such injury or damage for which the claimant is not compensated from any other source;

(e) Such other evidence as the board may require.

If the board determines, on the basis of such evidence, that the state should indemnify the claimant for the injury, death, or damage sustained, it shall submit a report of the facts and its conclusion to the Legislature, and a recommendation that an appropriation be made by the Legislature for the purposes of indemnifying the claimant. In no event shall a claim be approved by the board under this article in excess of five thousand dollars ($5,000).

13974. The Board of Control is hereby authorized to make all needful rules and regulations consistent with the law for the purpose of carrying into effect the provisions of this act.

SEC. 4. Title 5 (commencing with Section 13600) of Part 4 of the Penal Code is repealed.

SEC. 5. It is the intent of the Legislature, if the additions of Article 2 (commencing with Section 13970) to Chapter 5 of Part 4 of Division 3 of the Government Code proposed by both this bill and S.B. 108 are enacted, that both additions be given effect and incorporated in Article 2 in the form set forth in Section 3.5 of this act. Therefore, in the event S.B. 108 is enacted and adds Article 2, Section 3.5 of this act shall become operative at the same time that Article 2 as added by S.B. 108 becomes operative, and at that time, Article 2 (commencing with Section 13970) of Chapter 5 of Part 4 of Division 3 of the Government Code as added by Section 3 of this act is repealed.

If the city council does not approve the boundaries of the zone lying within the city, or including the city as a whole, the city council may approve realigned boundaries for the portion of the zone within the city. The board of supervisors may then form the zone with such boundaries as have been approved by the city council, or the board of supervisors shall exclude all land within said city from the zone.

SEC. 4. The objects and purposes of this act are to provide for the control of the flood and storm waters of said district and the flood and storm waters of streams that have their source outside of said district, but which streams and the floodwaters thereof flow into said district.

it has already been appropriated; and provided further, that no right shall exist in said district to take by proceedings in eminent domain any property appropriated to public use by any existing county or municipal utility district. The district shall also have and may exercise the right to condemn any existing works or improvements in said district or along streams flowing into said district now or hereafter used to control flood or storm waters, or to protect any property in said district or along streams flowing into said district from damage from such flood or storm waters, and it is hereby declared that the use of the property, lands, rights-of-way, easements, or materials which may be condemned, taken or appropriated under the provision of this act is a public use subject to the regulation and control of the state in the manner prescribed by law; provided, however, that nothing in this act contained shall be deemed to authorize said district, or any person or persons to divert the waters of any river, creek, stream, irrigation system, canal or ditch, or the waters thereof or therein unless compensation therefor be first provided in the manner prescribed by law.

The board may direct such engineer or engineers to make and file reports from time to time with the board, which shall show:

1. A general description of the work proposed to be done, together with general plans, profiles, cross sections, and general specifications relating thereto, on each project or work of improvement.

2. A general description of the lands, rights-of-way, easements and property proposed to be taken, acquired or injured in carrying out said work.

3. A map or maps which shall show the location and zones, as may be required, of each of said projects or improvements, and lands, rights-of-way, easements and property to be taken, acquired or injured in carrying out said work, and any other information in regard to the same that may be deemed necessary or useful.

4. An estimate of the cost of each project or work of improvement, including an estimate of the cost of lands, rights-of-way, easements and property proposed to be taken, acquired or injured in carrying out said project or work of improvement, and also of all incidental expenses incurred or likely to be incurred in connection therewith, including legal, clerical, engineering, superintendence, inspection, printing and advertising, and stating the total amount of bonds, if any, necessary to be issued to pay for the same.

Such engineer or engineers shall from time to time and as directed by the board file with the board supplementary, amendatory and additional reports and recommendations, as necessity and convenience may require.

SEC. 11. The board shall determine which projects or works of improvement shall be carried out and shall determine, as to each project or work of improvement, that it is either:

1 For the common benefit of the district as a whole; or

2. For the benefit of two or more zones hereinafter referred to as participating zones; or

3. For the benefit of a single zone.

SEC. 12. The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones. For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zone and in the case of participating zones. Said resolution shall also set forth whether bonds are to be used to finance the project or taxes or assessments, and the amounts to be raised for the project. If taxes or assessments are to be used to finance the project, the resolution shall specify the procedure to be followed, under subdivisions 2 and 3 of Section 14, to levy such taxes or assessments. Said resolution shall fix a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project. Notice of such hearing shall be given for a period of not less than twenty (20) days. If there is a newspaper of general circulation published or circulated in the territory proposed to be formed into a zone, notice shall be given by publication once a week for two (2) consecutive weeks prior to the hearing, the last publication of which must be at least seven (7) days before said hearing. If there is no such newspaper, notice shall be given by posting notice of the hearing for a period of fourteen (14) days prior to said hearing in five (5) public places as their said territory designated by the board. Said notice shall designate a public place where a copy of the map of the project may be seen by any interested person.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project, to the proposed methods and amounts of financing the project, and to the inclusion or exclusion of property within the proposed zone or participating zone.

If, in the judgment of the board, evidence given at the public hearing indicates that changes in the proposed project or the methods and amounts of financing the project are necessary or desirable, the board may, at the conclusion of the hearing, adopt a resolution making changes in the proposed project and the methods and amounts of financing the project.

At the conclusion of the hearing, unless the board abandons the proposed project, it shall exclude from the zone or participating zones all property which, in the judgment of the board, will not be benefited by the proposed project.

If, prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated, be filed with the board. The proceedings relating to such project must be terminated and a new hearing shall be conducted before the board may proceed with the project. Such new hearing may not be held until at least six months following such termination.

In all matters in this section referred to, the last equalized assessment roll of the County of Tulare next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

SEC. 13. If the board determines to proceed with a project in a zone or zones, after the conclusion of the public hearing, it shall call an election to be held in the zone or zones on the question of proceeding with the project. Said election shall be called by the adoption of a notice of election, which shall state the date of the election, the proposition to be voted upon, the hours the polls will be open, and shall designate the election precincts, the polling place within each precinct and the names of the election officers consisting of one inspector, one judge and one clerk for each precinct. Only registered voters within the zone or zones shall be entitled to vote at said election.

The notice of election shall be published or posted pursuant to the same procedure and time limits prescribed for giving notice of the public hearing pursuant to Section 12 of this act. No other notice of such election need be given nor need sample ballots or polling place cards be issued.

The ballot for the election shall contain the following ballot measure:

Shall the proposed flood control project for Zones No. __ in the Tulare County Flood Control District be approved?	Yes	
	No	

The election shall be conducted as one election comprising all of the zones affected, rather than separately in each zone, and precincts established may comprise territory in more than

one zone. If a majority of the voters voting upon the proposition are in favor of the project, the board may proceed with the project. If a majority of said voters vote against said project, the board shall not proceed with said project unless it is later approved by the voters at a subsequent election called and conducted pursuant to this section. Such subsequent elections may be called by the board without conducting additional public hearings.

Said election may be consolidated with any district, city or county election or statewide primary or general election under the provisions of the Elections Code relating to the consolidation of elections and in case of consolidation the notice herein provided for may be modified as provided in the Elections Code.

If the board determines that bonded indebtedness should be incurred to pay for any portion of the cost of a proposed project, then the election required under this section shall be fully consolidated with the bond election, without complying with the procedures for consolidation of elections set forth in the Elections Code, and the procedures for calling and conducting the bond election shall be applicable to both elections, and both propositions shall be included on the ballot for said election. In the case of such a consolidated election, the ordinance required under Section 15 of this act shall constitute the notice of election required under this section and shall contain the information required under this section. If a majority of the voters voting in all of the zones participating in the election, considering such zones as a single unit rather than separately, vote in favor of approving the project, but the bond election fails, the board may proceed to pay the costs of the project out of the taxes or assessments levied under this act or from other sources, excluding bonds.

In all particulars not provided in this act, such election shall be held and conducted and the returns canvassed and declared in the manner provided in the Elections Code for state or county general elections in the County of Tulare, including the provisions governing absentee ballots.

SEC. 14. The board shall have power, in any year:

1. To levy ad valorem taxes or assessments upon all property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district; provided, however, that said ad valorem tax or assessment shall not exceed two cents ($0.02) on each one hundred dollars ($100) of assessed valuation, and

2 To levy such taxes or assessments in each or any of said zones and participating zones as have been authorized after proceedings in the manner prescribed in Sections 12 and 13, to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be

established within or on behalf of said respective zones, according to the benefits derived or to be derived by said respective zones, by either of the following methods:

(a) By a levy or assessment upon all property within a zone or participating zone, including land, improvements thereon, and personal property;

(b) By a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon. It is declared that for the purposes of any tax or assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

3. To levy taxes or assessments by either method authorized by subdivision 2 of this section in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

In the event of project cooperation with any of the governmental bodies as authorized in subdivision 6 of Section 5 of this act, and requiring the making of a contract with any such governmental body for the purposes set forth in said subdivision 6, by the terms of which work is to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by said proposed contract the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after proceedings in the manner prescribed in Sections 12 and 13 of this act, levy and collect a special tax or assessment upon the property in such zone or participating zones, whereby to raise funds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district taxes or assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivision 2 or 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside of such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

SEC. 15. (1) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work or improvement in any zone or zones, the board may, by resolution, determine and declare the respective amounts of bonds necessary to be issued in each zone in order to raise the amount of money necessary for each work or improvement and the denomination and the maximum rate of interest of said bonds. The board shall cause a copy of the resolution, duly certified by the clerk, to be filed for record in the Office of the Recorder of Tulare County within five days after its issuance. From and after said filing of said copy of said resolution the board shall be deemed vested with the authority to proceed with the bond election.

(2) After the filing for record of the resolution specified in subdivision (1) of this section, the board may call a special bond election in said zone or participating zones at which shall be submitted to the qualified electors of said zone or participating zones the question whether or not bonds shall be issued in the amount or amounts determined in said resolution and for the purpose or purposes therein stated. Said bonds and the interest thereon shall be paid from revenue derived from annual taxes or assessments levied as provided in this act.

(3) Said board shall call such special bond election by ordinance and submit to the qualified electors of said zone or participating zones, the proposition of incurring a bonded debt in said zone or participating zones in the amount and for the purposes stated in said resolution and shall recite therein the objects and purposes for which the indebtedness is proposed to be incurred; provided, that it shall be sufficient to give a brief, general description of such objects and purposes, and refer to the recorded copy of such resolution adopted by said board, and on file for particulars; and said ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on said indebtedness, and shall fix the date on which such special election shall be held, and the form and contents of the ballot to be used. For the purposes of said election, said board shall in said ordinance establish special bond election precincts within the boundaries of each zone and participating zone and may form election precincts by consolidating the precincts established for general elections in said district to a number not exceeding six general precincts for each such special bond election precinct, and shall designate a polling place and appoint one inspector, one judge and one clerk for each of such special bond election precincts.

In all particulars not recited in said ordinance, such special bond election shall be held as nearly as practicable in conformity with the general election laws of the state.

Said board shall cause a map or maps to be prepared covering a general description of the work to be done, which said

map shall show the location of the proposed works and improvements and shall cause the said map to be posted in a prominent place in the county courthouse for public inspection for at least thirty (30) days before the date fixed for such election.

Said ordinance calling for such special bond election shall, prior to the date set for such election, be published in a newspaper of general circulation circulated in each zone and participating zone affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of such ordinance must be at least fourteen (14) days before said election, and if there be no such newspaper, then such ordinance shall be posted in five public places designated by the board, in each zone and participating zone for at least thirty (30) days before the date fixed for such election. No other notice of such election need be given nor need sample ballots or polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. Where a project affects a single zone only, if at such election two-thirds ($\frac{2}{3}$) of the votes cast in said zone on the proposition of incurring a bonded indebtedness are in favor thereof, then bonds for such zone for the amount stated in such proceedings shall be issued and sold as in this act provided. Where the incurring of bonded indebtedness by participating zones is to be determined at such election, no bonds for any of such participating zones shall be issued or sold unless two-thirds ($\frac{2}{3}$) of the votes cast on the proposition in each such participating zone are in favor of incurring the bonded indebtedness to be undertaken by such zone.

SEC. 16. The board shall, subject to the provisions of this act, prescribe by resolution the form of said bonds, which must include a designation of the zone or participating zone affected, and of the interest coupons attached thereto Said bonds shall be payable annually or semiannually at the discretion of the board each and every year on a day and date, and at a place to be fixed by said board, and designated in such bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness shall have been paid.

The board may divide the principal amount of any issue into two or more series and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than two years from the date of issuance, for the earliest maturity of each issue or series of bonds. Beginning with the date of the earliest maturity of each issue or series, not less than one-fortieth of the indebtedness of such issue or series shall be paid every year. The final maturity

date shall not exceed 40 years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denomination as the board may determine, except that no bonds shall be of a less denomination than one hundred dollars ($100), nor of a greater denomination than five thousand dollars ($5,000), and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the chairman of the board, and countersigned by the auditor of said district, and the seal of said district shall be affixed thereto by the clerk of the board. Either or both such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said auditor by his printed, engraved or lithographed signature. In case any such officers whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 17. The board may issue and sell the bonds of any such zones authorized at not less than par value. Before selling the bonds, or any part thereof, the board shall give notice not less than 10 days prior to the date of sale by publication in a newspaper of general circulation circulating in the district inviting sealed bids in such manner as the board shall prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if the board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the board may reject all bids received, if any, and either readvertise or sell the bonds at private sale. The proceeds of the sale of such bonds shall be placed in the Treasury of the County of Tulare to the credit of said district and the respective participating zones thereof, for the uses and purposes of the zone or zones voting said bonds; and the proper record of such transactions shall be placed upon the books of said county treasurer, and said respective zone funds shall be applied exclusively to the purposes and objects mentioned in the ordinance calling for such special bond election as aforesaid, subject to the provisions in this act contained. Payments from said zone funds shall be made upon demands prepared, presented, allowed and audited in the same manner as demands upon the funds of the County of Tulare.

SEC. 18. Any bonds issued under the provisions of this act, and the interest thereon, shall be paid by revenue derived from an annual tax or assessment levied as provided in clause (a) or (b) of subdivision 2 of Section 14 of this act. No zone

nor the property therein shall be liable for the bonded indebtedness of any other zone, nor shall any moneys derived from taxation or assessments in any of the several zones be used in payment of principal or interest or otherwise of the bonded indebtedness chargeable to any other zone.

SEC. 19. The board shall levy a tax or assessment each year sufficient to pay the interest and such portion of the principal of said bonds as is due or to become due before the time for making the next general tax levy. Such taxes or assessments shall be levied and collected in the respective zones of issuance together with and not separately from taxes for county purposes, and when collected shall be paid into the County Treasury of Tulare County to the credit of the zone of issuance, and be used for the payment of the principal and interest on said bonds, and for no other purpose. The principal and interest on said bonds shall be paid by the County Treasurer of said Tulare County in the manner provided by law for the payment of principal and interest on bonds of said county.

SEC. 20. The provisions of law of this state, prescribing the time and manner of levying, assessing, equalizing and collecting county property taxes, including the sale of property for delinquency, and the redemption from such sale, and the duties of the several county officers with respect thereto, are, so far as they are applicable, and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Such officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act. All property exempt from taxation for county purposes under the provisions of the Constitution and the Revenue and Taxation Code of the State of California is exempt from taxation for the purposes of this act.

SEC. 21. The total amount of taxes and assessments levied by the district on property within any zone shall not exceed twenty cents ($0.20) on each one hundred dollars ($100) of assessed valuation for flood control purposes exclusive of the amounts necessary for interest and redemption of any bonds voted within such zone and exclusive of the tax authorized by subdivision 1 of Section 14 of this act. Such taxes and assessments shall not be levied until approved in accordance with Sections 12 and 13 of this act. If property is located in more than one zone, the maximum rate of taxes and assessments levied on said property for all of the zones, collectively, in which the property is located shall not exceed the maximum set forth above.

SEC. 22. A zone formed or proposed to be formed under this act, or the acquisition of any property or the construction of any improvement thereby, shall not be subject to any of the provisions of the District Investigation Law of 1933.

SEC. 23. The bonds of the district issued for any zone thereof pursuant to this act shall be legal investments for all trust funds, and for the funds of all insurance companies,

banks, both commercial and savings, and trust companies, and for the state school funds, and whenever any money or funds may by law now or hereafter enacted be invested in bonds of cities, cities and counties, counties, school districts or municipalities in the State on California, such money or funds may be invested in the said bonds of said district issued in accordance with the provisions of this act, and whenever bonds of cities, cities and counties, school districts or municipalities, may by any law now or hereafter enacted be used as security for the performance of any act, such bonds of said district may be so used.

This section of this act is intended to be and shall be considered the latest enactment with respect to the matters herein contained and any and all acts or parts of acts in conflict with the provisions hereof are hereby repealed.

SEC. 24. All bonds issued by said district under the provisions of this act shall be free and exempt from all taxation within the State of California. It is hereby declared that the district organized by this act is a reclamation district within the meaning of Section 1¾ of Article XIII and Section 13 of Article XI of the Constitution of this state.

SEC. 25. Any improvement or unit of work when the cost thereof according to the estimate of the engineer will exceed five thousand dollars ($5,000), shall be done by contract and shall be let to the lowest responsible bidder or bidders in the manner hereinafter provided. The board shall first determine whether such contract shall be let as a single unit for the whole of the work, or shall be divided into severable convenient parts, or both, according to the best interests of the district. The board shall make call for bids and advertise such call by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed in said district inviting sealed proposals for the construction or performance of the improvement or work before any contract is made therefor. Such call for bids shall state whether such work is to be performed as a unit for the whole thereof or shall be divided into severable convenient specific parts, or both, as stated in the call. The board may let such work by single contract for the whole thereof as a unit or it may divide such work into severable convenient parts by separate contracts, as stated in such call, according to the best interests of the district. The board shall require the successful bidder or bidders to file with the board a good and sufficient bond to be approved by the board conditioned upon the payment of their claims for labor and material in connection therewith, such bond to contain the terms and conditions set forth in Title 1, Division 5, Chapter 3 of the Government Code and to be subject to the provisions of that chapter. The board shall also have the right to reject any and all bids and readvertise for new bids, or by a two-thirds vote may elect to undertake such work by force account. In the event no pro-

posals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of five thousand dollars ($5,000), or the work consists of channel protection, or maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have said work done by employees of the district, by day labor, under the direction of the board, by contract, or by a combination thereof. The district shall have the power to acquire in the open market without advertising for bids therefor, materials, equipment and supplies for use in any work or for any other purpose; provided, however, that materials and supplies for use in any new construction work or improvement, except work referred to in the preceding sentence, may not be purchased if the cost thereof exceeds five thousand dollars ($5,000), without advertising for bids and awarding the contract therefor to the lowest responsible bidder.

SEC. 26. Any improvement for which bonds are voted under the provisions of this act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, as above specified, unless the doing of any of such work described in said report, shall be prohibited by law, or be rendered contrary to the best interests of the district by some change of conditions in relation thereto, subsequent to the date of filing the report, plans, specifications and map theretofore adopted, in which event the board of supervisors may order necessary changes made in such proposed work or improvements and may cause any plans and specifications to be made and adopted therefor.

SEC. 27. Whenever bonds have been authorized by any zone or participating zone of said district and said bonds have been issued as in this act authorized, and the board shall by resolution determine that additional bonds should be issued for carrying out the work of flood control, or for any of the purposes of this act, the board may again proceed as in this act provided, and submit to the qualified voters of said zone or participating zone, the question of issuing additional bonds in the same manner and with like procedure as hereinbefore provided, and all the above provisions of this act for the issuing and sale of such bonds, and for the expenditure of the proceeds thereof, shall be deemed to apply to such issue of additional bonds.

SEC. 28. Should a proposition for issuing bonds for any zone or participating zones submitted at any election under this act fail to receive the requisite number of votes of the qualified electors voting at such election to incur the indebtedness, the board shall not for six months after such election call or order another election in such zone or participating zone for incurring indebtedness and issuing bonds under the terms of this act for the same objects and purposes.

SEC. 29. The board may, with the consent of any holder or holders of outstanding bonds of the district, exchange refunding bonds bearing a lower rate of interest for such outstanding bonds.

Whenever any holder of outstanding bond or bonds shall have consented to such exchange, the board may, by resolution entered in its minutes, order the refunding of such bonds. The resolution shall designate the numbers, denominations, dates of maturity and aggregate principal amounts of the bonds so to be refunded and shall provide for the issuance of refunding bonds in exchange therefor, the form, numbers, denominations, dates of maturity and aggregate principal amounts of which shall be the same as the bonds so to be refunded. The resolution shall also fix the rate of interest said refunding bonds shall bear, which rate shall be less than the rate provided in the bonds to be refunded. The resolution shall also fix the form of the interest coupons attached to said refunding bonds, which shall be the same as the bonds so to be refunded, excepting that the rate and amounts of interest shall be less as hereinabove provided.

The refunding bonds shall be signed by the chairman of the board or such other member of the board as said board may by resolution designate, and shall be countersigned by the treasurer of the district, and the seal of said district shall be affixed thereto. The interest coupons shall be numbered consecutively and signed by the treasurer of said district by his engraved or lithographed signature. In case any officer whose signature or countersignature appears on said bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

Each refunding bond may be exchanged for its corresponding outstanding bond as the board by agreement with the holder of such outstanding bond may determine, except that in effecting such exchange, any and all matured coupons on said refunding bonds shall be detached and canceled and the principal and accrued interest of both issues shall be accepted at par value and the district shall pay said holder in cash out of moneys in the bond interest fund of the district an amount equal to the difference between the interest on the outstanding bond and on the refunding bond accrued to the date of such exchange.

When any refunding bonds shall have been exchanged, taxes shall be levied and collected to pay the principal and interest thereof as provided by Section 19 all the provisions of which section shall apply to said refunding bonds to the same extent as to original issues.

The refunding bonds shall also be legal investments for fiduciaries and others as provided in Section 23.

SEC. 30. The repeal or amendment of this act shall not in any way affect or release any of the property in said district or any zone thereof from the obligations of any outstanding bonds or indebtedness until all such bonds and outstanding indebtedness have been fully paid and discharged.

SEC. 32. (a) If by any judgment in condemnation or agreement the district shall be required to relocate any street, road, highway, railroad, canal or other property subject or devoted to public use, the board shall have power to acquire in the name of the district, by agreement or condemnation, all rights-of-way and other property necessary or proper for compliance with said agreement or said judgment of condemnation and thereafter to make such conveyance of such relocated street, road, highway, railroad, canal, or other property as may be proper to comply with said agreement or judgment.

(b) In the event the district and any common carrier railroad or other public utility fail to agree as to the character or location of new improvements or works sought to be performed by the district, the character and location of such new improvements or works and any other controversy relating thereto shall be submitted to and determined by the Public Utilities Commission; and jurisdiction of such controversies is hereby vested in said commission.

SEC. 33. All claims for money or damages against the district are governed by Part 3 (commencing with Section 900) and Part 4 (commencing with Section 940) of Division 3.6 of Title 1 of the Government Code except as provided therein, or by other statutes or regulations expressly applicable thereto.

SEC. 34. The legal title to all property acquired under the provisions of this act shall immediately and by operation of law vest in said district, and shall be held by said district, in trust for, and is hereby dedicated and set apart to, the uses and purposes set forth in this act. The board is hereby authorized and empowered to hold, use, acquire, manage, occupy and possess said property, as herein provided; and said board may determine, by resolution duly entered in their minutes that any property, real or personal, held by said district is no longer necessary to be retained for the uses and purposes thereof, and may thereafter sell, lease or otherwise dispose of said property in the manner prescribed by law for such action by counties.

SEC. 35. The district formed under this act in order to determine the legality of its existence, may institute a proceeding therefor in the superior court of this state, in and for the County of Tulare, by filing with the clerk of said county a complaint setting forth the name of the district, its exterior boundaries, the date of its organization and a prayer that it be adjudged a legal flood control district formed under the provisions of this act. The summons in such proceeding shall be served by publishing a copy thereof once a week for four weeks in a newspaper of general circulation published in

said county. 3301. Every domestic corporation organized on or after the operative date of the amendment of this section by the Legislature at its 1969 Regular Session shall within 90 days after the filing of its articles of incorporation with the Secretary of State, and every domestic corporation heretofore or hereafter organized (other than a corporation which has already filed such a statement during the preceding three calendar months and there is no change in the information therein) shall during the period commencing on April 1st and ending on June 30th in each year, file with the Secretary of State, on a form prescribed by him, a statement of the names and complete business or residence addresses of its president, vice president, secretary, and treasurer, together with a statement of the location and address of its principal office. If desired, the statement may designate, as the agent of such corporation for the purpose of service of process, any natural person residing in this state or any corporation which has complied with Section 3301.5 or Section 6403.5 and whose capacity to act as such agent has not terminated. In the event of any change in the location or address of its principal office or the stated address of a natural person whom it has designated as such agent or the city, town or village wherein it may be served by delivery of a copy of any process to a corporate agent, a domestic corporation shall

forthwith file with the Secretary of State a statement of such new location or address or such new city, town or village, which statement shall also include the names and addresses of the then officers, the names and addresses of whom are required above to be stated.

A corporation may at any time file a new statement wherein a new agent for service of process is designated or a prior designation of agent is expressly revoked without designating a new agent, and such filing shall be deemed to revoke any prior designation of agent.

Delivery by hand of a copy of any process against the corporation (a) to any natural person designated by it as agent, or (b), if the corporation has designated a corporate agent, at the office of such corporate agent in the city, town or village named in the statement filed by the corporation pursuant to this section to any person at such office named in the certificate of such corporate agent filed pursuant to Section 3301.5 or 6403.5, if such certificate has not been superseded, or otherwise to any person at such office named in the last certificate filed pursuant to Section 3301.6 or 6403.6, shall constitute valid service on the corporation.

3301.2. Any defaulting corporation which has suffered the suspension provided for in Section 3301.1 and whose corporate powers are not also otherwise suspended may be relieved therefrom upon making an application therefor to the Secretary of State on a form prescribed by him, making the filing required by Section 3301, and making payment of the required filing fee. Application for such relief may be made by any shareholder or creditor of the corporation or by a majority of the surviving directors or trustees of the corporation; provided, however, that if the name of the corporation which has suffered such suspension is one which is likely to mislead the public or is the same as, or resembles so closely as to tend to deceive, the name of a foreign or domestic corporation which is authorized to transact business in this state or a name which is under reservation, the Secretary of State shall not relieve the corporation of such suspension until the corporation files in his office a certificate of amendment changing the corporate name. The Secretary of State shall promptly notify the corporation and the Franchise Tax Board of such relief from the suspension of corporate powers pursuant to Section 3301.1, but such relief shall not revive any corporate powers then suspended pursuant to any other provision of law.

SEC. 4. Section 3301.3 is added to the Corporations Code, to read:

3301 3. The Secretary of State may destroy or otherwise dispose of any statement filed pursuant to Section 3301 after it has been superseded by the filing of a new statement.

CHAPTER 1172

An act to add an article heading to Chapter 19 (commencing with Section 1120) of Division 3 of, and to add Article 2 (commencing with Section 1137) to Chapter 19 of Division 3 of, the Probate Code, relating to property interests.

[Approved by Governor August 30, 1969 Filed with Secretary of State August 31, 1969.]

The people of the State of California do enact as follows:

SECTION 1. An article heading is added to Chapter 19 (commencing with Section 1120) of Division 3 of the Probate Code immediately preceding Section 1120, to read:

Article 1. Testamentary Trusts

SEC. 2. Article 2 (commencing with Section 1137) is added to Chapter 19 of Division 3 of the Probate Code, to read:

Article 2. Inter Vivos Trusts

1137. Subject to Section 1137.13 of this code, when a voluntary trust created by a nontestamentary written instrument is irrevocable at its inception or becomes irrevocable by its terms, the superior court of any county in which any trustee resides or the superior court of any county in which the trustee or cotrustee maintains an office in which the day-to-day administration of the trust is conducted shall have jurisdiction for any of the following purposes:

(1) Determining to whom the property shall pass and be delivered upon final or partial termination of the trust, to the extent that such determination is not concluded by the trust instrument.

(2) Settling the accounts and passing upon the acts of the trustee.

(3) Authorizing the trustee to accept additions to the trust from sources other than the trustor.

(4) Any other purposes set forth in this article.

The initial petition shall allege facts establishing the jurisdiction of the court under this article.

1137.1. The trustee may petition the court, from time to time, for instructions as to the administration of the trust and for authority to accept additions to the trust from sources other than the trustor. When it appears from the allegations of the petition that the trustee seeks instructions to exercise a power not conferred upon him, the petition shall set forth the particulars of, and the necessity for, the action sought to be taken. In addition to the notice required by Section 1137.11 of this code, when the petition relates to the exercise of a power not conferred, a copy of the petition shall be attached to, and mailed with, copies of the notice, and, at least 10 days before the time set for the hearing of the petition, the court or judge shall appoint a suitable person who shall appear and act as a guardian ad litem for any person or persons of a designated class who are not ascertained or in being and who may become beneficiaries or may participate in the trust. Section 373 of the Code of Civil Procedure shall not apply to such appointment.

1137.2. Whenever a trustee receives additions to the trust in accordance with a decree rendered pursuant to Section 1137 of this code, such additions shall be subject to the jurisdiction

of the court to the same extent as property received from the trustor.

1137.3. A trustee may, within 60 days after the written request of any current beneficiary or remainderman, submit his accounts for settlement and report his acts as trustee to the court. Upon the termination of the trust or the cessation of any trustee to act as trustee of the trust, the trustee may, within 60 days after the written request of any beneficiary or remainderman, submit such accounts for settlement and report his acts as trustee to the court. For these purposes the trustee or, in the case of his death, his legal representatives may present to the court his verified account and report which shall set forth his accounts in detail, report his acts as trustee, and show the condition of the trust estate. If the trustee does not submit his accounts within 60 days after the written request of such beneficiary or remainderman, the court or a judge thereof may order the trustee, upon notice, to submit his account covering such period as the court may specify. The application shall not be denied where an account has not been submitted to the court within six months.

1137.4. Upon petition, the court may fix, direct, or allow the payment of the compensation of a trustee pursuant to the provisions of Section 2274 of the Civil Code. When the trust instrument does not specify the compensation of a trustee, the court may, in an order settling an account or by any other order, fix or allow a periodic compensation for the trustee or trustees to continue as long as the court may deem proper. This section shall not prevent a trustee from receiving compensation without an order of the court.

1137.5. If a trustee of an inter vivos trust subject to the jurisdiction of the court pursuant to Section 1137 of this code dies, resigns, fails or declines to act, cannot be identified, is incapable of acting for any reason, or is removed, or a vacancy in the trusteeship is otherwise created or exists and the trust instrument does not provide a method for appointing a successor trustee, the court shall have the power to declare a vacancy and appoint a trustee to fill the vacancy upon the petition of the trustee or anyone interested in the trust estate which sets forth the names and last known addresses of the beneficiaries of the trust, as specified in Section 1137.11 of this code, and any cotrustee not petitioning. The court shall accept the resignation of a trustee and make any orders which may be necessary for the preservation of the trust estate. The liability of the resigning trustee or the sureties on his bond shall not be discharged, released, or affected in any manner by the resignation, but shall continue until the trustee has delivered all of the estate to the person whom the court shall appoint to receive it.

1137.6. Unless named as a successor trustee in the trust instrument, the person appointed under Section 1137.5 of this code shall give a bond as is required of a person appointed

administrator before acting as trustee. He shall be allowed the cost of the bond to the extent provided by Section 541.5 of this code. Upon the petition of a nonprofit corporation named or designated in the trust instrument or acting as a successor trustee thereunder within the scope of its own charitable purposes and trust, the court may name as substitute or successor trustee a charitable corporation of which the nonprofit corporation is the sole member, without requiring any bond not previously required of the nonprofit corporation.

1137.7. (a) When the court has jurisdiction over an inter vivos trust pursuant to Section 1137 of this code, the court may order further proceedings in reference to such trust transferred to the superior court of any other county of this state or to the appropriate court or of any other state upon the petition of the trustee or of any other interested party. To obtain such transfer, the person applying therefor shall file in the court in which the proceeding is pending a verified petition which shall set forth the following:

1. The name of the court to which it is sought to transfer proceedings.

2. The names, ages, and places of residence of all trustees and all persons who are interested as beneficiaries in the trust, as far as they are known to petitioner.

3. A brief description of the character, condition, value, and location of the property included in the trust estate.

4. A brief statement of the reasons for transfer.

(b) Any person interested in the trust as trustee or as beneficiary may appear and file written grounds in opposition thereto. If, after hearing, it appears to the court that the transfer of proceedings to the court designated in the petition or to the superior court of any other county in this state or to the appropriate court of another state will be for the best interests of the estate, or that economical and convenient administration of the trust will be facilitated thereby, it shall order the proceedings transferred to such court. Thereupon the clerk shall certify to the clerk of the court to which the proceeding is transferred a copy of the order of transfer, together with copies of the instrument creating the trust and such other documents or matters of record therein as the court may, by its order, determine to be necessary to define the powers and obligations of the trustee, or otherwise necessary in connection with the further administration of the trust. The superior court of this state to which the proceeding is transferred may from time to time require, by its order, the filing of certified copies of such additional papers or matters of record from the court of original jurisdiction as may be required.

(c) Upon the filing of a certified copy of the order of transfer, together with supporting documents, the superior court of this state to which the proceeding is transferred shall have, with respect to such trust, the same jurisdiction as the court of original jurisdiction would have retained under the provisions of Section 1137, but for the transfer.

(d) Except as otherwise provided for in this article, practice on the presentation and hearing of such petition and of all other matters in relation thereto shall be in accordance with the provisions of Division 3 (commencing with Section 300) of this code, as far as such provisions may be applicable.

1137.8. Any voucher which has been filed in support of the account of a trustee may be withdrawn if a certified copy is left on file, but shall be produced on demand unless permanently withdrawn with the permission of the court. Five years from the date of settlement of an account in support of which a voucher was filed, the clerk of the court may destroy the voucher or deliver it to the trustee or to his attorney.

1137.9. The provisions of Sections 1137 to 1137.8, inclusive, of this code shall not apply to pension or profit-sharing trusts or to deeds of trust given to secure an obligation or evidence of indebtedness.

1137.10. After the filing of the initial petition establishing the jurisdiction of the court pursuant to Section 1137 of this code, a beneficiary of the trust, as specified in Section 1137.11 of this code, or any other person interested in the trust may serve upon the trustee or his attorney and file with the court a request for special notice of the filing of all petitions, accounts, or reports provided for in this article, or designated petitions, accounts, and reports, giving his post office address or the post office address of his attorney. When a request for special notice is filed pursuant to this section, a copy of any petition and any account and report, notice of which has been requested generally or by designation, shall be attached to the notice of hearing.

1137.11. Upon the filing of any petition or account provided for in this article, the clerk shall set the petition or account for hearing by the court and shall give notice of the petition or account by causing a notice of the time and place for hearing thereof to be posted at the courthouse of the county where the proceedings are pending at least 30 days before the day of hearing, giving the name of the settlor of the trust, the name of the petitioner, and the nature of the account or petition, referring thereto for further particulars, and stating the time at which the account or petition will be heard.

At least 30 days before the time set for the hearing of the account or petition, the petitioner shall cause notice of the time and place of hearing thereof to be mailed to the trustee of the trust when he is not the petitioner, to any cotrustee not petitioning, and to all of the beneficiaries of the trust, including all persons in being who may participate in the corpus or income of the trust regardless of whether they have requested special notice or given notice of appearance, addressed to them at their last known address or, if such addresses are not known, at their respective places of residence or, if such places are not known, at the county seat of the

county where the proceedings are pending, or to be personally served upon them.

Proof of the giving of notice shall be made at the hearing. If it appears to the satisfaction of the court that the notice has been regularly given, the court shall so find in its order, and the order, when it becomes final, shall be conclusive upon all persons.

The court may, for good cause, prescribe a shorter period of notice.

1137.12. Appeals may be taken from decrees and orders in any case provided for in Section 1240 of this code.

1137.13. This article shall apply to trusts executed on or after November 1, 1970, whether revocable or irrevocable on that date, if, and to the extent that, the applicable instrument specifically so provides. The instrument may specify that this article or one or more sections or subdivisions of sections of this article shall apply to the trust. If a trust was executed before November 1, 1970, or if a trust executed on or after such date does not provide that this article or one or more sections or subdivisions of sections of this article shall apply to it but does not prohibit the application of this article or one or more sections or subdivisions of this article, the trustee shall have the power, but not the obligation, to petition the court having jurisdiction of the trust pursuant to Section 1137 of this code for an order that this article or one or more sections or subdivisions of sections of this article shall apply to the trust. In the absence of provisions in the trust instrument or an order of the court to the contrary, a reference to this article or to a section or subdivision of a section of this article shall be deemed to include any changes made in this article or in a section or subdivision of a section of this article subsequent to the effective date of this article.

1137.14. The remedies provided for in this article are not exclusive and shall be in addition to any other remedies provided for by any other law.

SEC. 3. This act shall become operative November 1, 1970.
