SEC. 418. Section 6316 of the Welfare and Institutions Code is amended to read:

6316. If, after examination and hearing, the court finds that the person is a mentally disordered sex offender and that the person could benefit by treatment in a state hospital, the court in its discretion has the alternative to return the person to the criminal court for further disposition or may make an order committing the person to the department for placement in a state hospital for an indeterminate period and a copy of such commitment shall be personally served upon said person within five days after the making of such order.

If after examination and hearing, the court finds that the person is a mentally disordered sex offender but will not benefit by care or treatment in a state hospital the court shall then cause the person to be returned to the court in which the criminal charge was tried to await further action with reference to such criminal charge. Such court shall resume the proceedings and shall impose sentence or make such other suitable disposition of the case as the court deems necessary. If, however, such court is satisfied that the person is a mentally disordered sex offender but would not benefit by care or treatment in a state hospital it may recertify the person to the superior court of the county. The superior court may make an order committing the person for an indefinite period to the State Department of Health for placement in a state institution or institutional unit for the care and treatment of mentally disordered sex offenders designated by the court and provided pursuant to Section 6326.

SEC. 419. Section 6326 of the Welfare and Institutions Code is amended to read:

6326. If the opinion so certified is under subdivision (b) of Section 6325, the committing court shall forthwith order the return of the person to said committing court and shall thereafter cause the person to be returned to the court in which the criminal charge was tried to await further action with reference to such criminal charge.

Such court shall resume the proceedings and after considering all the evidence before it shall impose sentence or make such other disposition of the case as the court may deem necessary and proper; provided, that said court, if satisfied that the person has not recovered from his mental disorder and is still a danger to the health and safety of others, may recertify the person to the superior court of the county. If said court after hearing makes a finding that the person is still a mentally disordered sex offender and is still a danger to the health and safety of others, it may make an order recommitting the person for an indeterminate period to the State Department of Health for placement in a state institution or institutional unit for the care and treatment of such mentally disordered sex offenders designated by the court. At such hearing or hearings, the person shall be entitled to present witnesses in his own behalf, to be represented by counsel and to cross-examine any witnesses who testify against him.

The Director of Health, with the approval of the Director of Corrections and the Director of Finance, may provide on the grounds of a state institution or institutions under the jurisdiction of the Department of Corrections or the State Department of Health one or more institutional units to be used for the custodial care and treatment of mentally disordered sex offenders. Each such unit shall be administered in the manner provided by law for the government of the institution in which such unit is established.

The court shall cause the person so recommitted to be delivered to the state institution or the institutional unit so designated. The person shall remain therein or in any other such institution or institutional unit to which he may be transferred by the Director of Health until the person is no longer a danger to the health and safety of others. Thereupon the proceedings set forth in Section 6325 shall be followed with respect to the certifying of an opinion to the committing court and the release of the person thereby.

SEC. 420. Section 6327 of the Welfare and Institutions Code is amended to read:

6327. After a person has been committed for an indeterminate period to the department for placement in a state hospital as a mentally disordered sex offender and has been confined for a period of not less than six months from the date of the order of commitment, the committing court may upon its own motion or on motion by or on behalf of the person committed, require the superintendent of the state hospital to which the person was committed to forward to the committing court, within 30 days, his opinion under (a) or (b) of Section 6325, including therein a report, diagnosis and recommendation concerning the person's future care, supervision, or treatment. After receipt of the report, the committing court may order the return of the person to the court for a hearing as to whether the person is still a mentally disordered sex offender within the meaning of this article.

The hearing shall be conducted substantially in accordance with Sections 6306 to 6314, inclusive. If, after the hearing, the judge finds that the person has not recovered from his mental disorder and is still a danger to the health and safety of others, he shall order the person returned to the State Department of Health under the prior order of commitment for an indeterminate period, or, if the opinion of the superintendent of the state hospital was under (b) of Section 6325, he may make and sign an order recommitting the person for an indeterminate period to the State Department of Health for placement in a state institution or institutional unit for the care and treatment of such mentally disordered sex offenders designated by the court and provided pursuant to Section 6326. A subsequent hearing may not be held under this section until the person has been confined for an additional period of six months from the date of his return to the department. If the court finds that the person has recovered from his mental disorder to such an extent that he is no longer a danger to the health and safety of others, or that he will not benefit by further care and treatment in the hospital and is not a danger to the health and safety of others, the committing court shall thereafter cause the person to be returned to the court in which the criminal charge was tried to await further action with reference to such criminal charge.

SEC. 421. Section 6500 of the Welfare and Institutions Code is amended to read:

6500. As used in this code, "mentally retarded persons" means those persons, not psychotic, who are so mentally retarded from infancy or before reaching maturity that they are incapable of managing themselves and their affairs independently, with ordinary prudence, or of being taught to do so, and who require supervision, control, and care, for their own welfare, or for the welfare of others, or for the welfare of the community.

Wherever in this code or in any provision of statute heretofore or hereafter enacted the terms "feebleminded" and "feeblemindedness" are used, they shall be construed to refer to and mean "mentally retarded" and "mental retardation," respectively, as defined in this section. All persons heretofore committed or admitted as feebleminded to any state hospital for the mentally retarded, or committed to the State Department of Health for placement therein, shall be deemed to have been committed or admitted thereto as mentally retarded persons.

SEC. 421.1. Section 6500.1 of the Welfare and Institutions Code is amended to read:

6500.1. On and after July 1, 1971, no mentally retarded person may be committed to the State Department of Health pursuant to this article, unless he is a danger to himself or others.

SEC. 422. Section 6501 of the Welfare and Institutions Code is amended to read:

6501. Any mentally retarded person requiring hospitalization may be committed to the State Department of Health for placement in a state hospital if he has been a resident of the state for the period of one year next preceding the presentation of the petition.

Residence acquired in this or in another state shall not be lost by reason of military service in the armed forces of the United States. The residence of minor children during the period of such military service shall be determined in accordance with the residence of the parent in such service or in accordance with the residence of the child.

Any mentally retarded minor requiring hospitalization may be committed to the State Department of Health if the parent or guardian having custody of the minor has lived continuously in this state for a period of one year next preceding the presentation of the petition and has not acquired residence in another state by living continuously therein for at least one year subsequent to his residence in this state. Such parent or guardian shall be deemed a resident of this state for the purposes of this section and such minor shall be eligible for hospitalization in this state as a mentally retarded person. The eligibility of such minor for hospitalization in this state ceases when such parent or guardian ceases to be a resident

of this state and such minor shall be transferred to the state of residence of the parent or guardian in accordance with the applicable provisions of this code.

SEC. 423. Section 6502 of the Welfare and Institutions Code is amended to read:

6502. A petition for the commitment of a mentally retarded person to the State Department of Health for placement in a state hospital may be filed in the superior court of the county in which such person resides, by any of the following persons:

(b) Any district attorney or probation officer.

(c) The Youth Authority.

(d) Any person designated for that purpose by the judge of the court.

(e) The Director of Corrections.

The petition shall state the petitioner's reasons for supposing the person to be eligible for admission thereto, and shall be verified by the affidavit of the petitioner.

SEC. 424. Section 6509 of the Welfare and Institutions Code is amended to read:

6509. If the court finds that the person is mentally retarded, and that he or his parent or guardian is a resident of this state as determined in accordance with Section 6501, the court may make an order that the person be committed to the State Department of Health for hospitalization. The court, however, may commit a mentally retarded person who has been in the state less than one year, or a mentally retarded minor who is not eligible for commitment to the State Department of Health under Section 6501 for the purpose of transportation of such person to the state of his legal residence pursuant to Section 4119. The State Department of Health shall receive the person committed to it and shall place the person in a state hospital unless such institutions are already full, or the funds available for their support are exhausted, or, in the opinion of the State Department of Health, the person is not a suitable subject for admission thereto.

SEC. 425. Section 6551 of the Welfare and Institutions Code is amended to read:

6551. If the court is in doubt as to whether the person is mentally disordered or mentally retarded, the court shall order the person to be taken to a facility designated by the county and approved by the State Department of Health as a facility for 72-hour treatment and evaluation. Thereupon the provisions of Article 1 (commencing with Section 5150) of Chapter 2 of Part 1 of Division 5 apply except that the professional person in charge of the facility shall make a written report to the court concerning the results of the evaluation of the person's mental condition. If the professional person in charge of the facility finds the person is, as a result of mental disorder, in need of intensive treatment, he may be certified for not

more than 14 days involuntary intensive treatment if the conditions set forth in subdivision (c) of Section 5250 are complied with. Thereupon, the provisions of Article 4 (commencing with Section 5250) of Chapter 2 of Part 1 of Division 5 shall apply to the person. The person may be detained pursuant to Article 4.5 (commencing with Section 5260) or Article 6 (commencing with Section 5300) of Part 1 of Division 5 if the provisions of such articles apply to him.

If the professional person in charge of the facility finds that the person is mentally retarded, the juvenile court may direct the filing in any other court of a petition for the commitment of a minor as a mentally retarded person to the State Department of Health for placement in a state hospital. In such case, the juvenile court shall transmit to the court in which the petition is filed a copy of the report of the professional person in charge of the facility in which the minor was placed for observation. The court in which the petition for commitment is filed may accept the report of the professional person in lieu of the appointment, or subpoenaing, and testimony of other expert witnesses appointed by the court, if the laws applicable to such commitment proceedings provide for the appointment by court of medical or other expert witnesses or may consider the report as evidence in addition to the testimony of medical or other expert witnesses.

If the professional person in charge of the facility for 72-hour evaluation and treatment reports to the juvenile court that the minor is not affected with any mental disorder requiring intensive treatment or mental retardation, the professional person in charge of the facility shall return the minor to the juvenile court on or before the expiration of the 72-hour period and the court shall proceed with the case in accordance with the Juvenile Court Law.

Any expenditure for the evaluation or intensive treatment of a minor under this section shall be considered an expenditure made under Part 2 (commencing with Section 5600) of Division 5 and shall be reimbursed by the state as are other local expenditures pursuant to that part.

The jurisdiction of the juvenile court over the minor shall be suspended during such time as the minor is subject to the jurisdiction of the court in which the petition for postcertification treatment of an imminently dangerous person or the petition for commitment of a mentally retarded person is filed or under remand for 90 days for intensive treatment or commitment ordered by such court.

SEC. 426. Section 6718 of the Welfare and Institutions Code is amended to read:

6750. The superior judge of each county may grant certificates in accordance with the form prescribed by the State Department of Health, showing that the persons named therein are reputable physicians licensed in this state, and have been in active practice of their profession at least five years. When certified copies of such certificates have been filed with the department, it shall issue to such persons certificates or commissions, and the persons therein named shall be known as "medical examiners." There shall at all times be at least two such medical examiners in each county. The certificate may be revoked by the department for incompetency or neglect, and shall not be again granted without the consent of the department.

SEC. 428. Section 7001 of the Welfare and Institutions Code is amended to read:

No person, association, or corporation, shall establish or keep, for compensation or hire, an establishment for the care, custody, or treatment of the mentally disordered or other incompetent persons referred to in Division 6 without first having obtained a license therefor from the State Department of Health, and having paid the license fee provided in this chapter.

Any person who carries on, conducts, or attempts to carry on or conduct an establishment for the care or treatment of the mentally disordered or incompetents without first having obtained a license from the State Department of Health, as in this chapter provided, is guilty of a misdemeanor and on conviction thereof shall be punished by imprisonment in a county jail not exceeding six months or by a fine not exceeding one thousand dollars ($1,000), or by both such fine and imprisonment. The managing and executive officers of any corporation violating the provisions of this section shall be liable under the provisions of this section in the same manner and to the same effect as a private individual violating the same.

Any proceeding under the provisions of this section shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that the director shall not be required to allege facts necessary to show or tending to show the lack of an adequate remedy at law or to show or tending to show irreparable damage or loss.

At least 30 days prior to the filing of a complaint against a licensee, the director shall serve the licensee with a written notice specifying each deficiency in the licensed establishment or institution, and of the violation or continued violation by such establishment or institution of this part or any of the regulations promulgated under this part. No restraining order or injunction, either temporary or permanent, shall be granted by the court which would cause a licensed establishment or institution to cease operations or which would seriously impede the continued operation of the establishment or institution, unless the operator thereof has been accorded a prior judicial hearing with respect to whether or not such restraining order or injunction shall issue.

Any person who has been committed is entitled to a writ of habeas corpus, upon a proper application made by the State Department of Health, by such person, or by a relative or friend in his behalf to the judge of the superior court of the county in which the hospital is located. Upon the return of the writ, the truth of the allegations under which he was committed shall be inquired into and determined. The medical history of the person as it appears in the clinical records shall be given in evidence, and the superintendent in charge of the state hospital wherein the person is held in custody and any other person who has knowledge of the facts shall be sworn and shall testify relative to the mental condition of the person.

SEC. 440. Section 7252 of the Welfare and Institutions Code is amended to read:

7254. The provisions of this section apply to any person who has been lawfully committed or admitted to any state hospital for the mentally disordered or mentally retarded and who is afflicted with, or suffers from, any of the following conditions:

(a) Mental disease which may have been inherited and is likely to be transmitted to descendants.

(b) Mental retardation, in any of its various grades.

(c) Marked departures from normal mentality.

The State Department of Health, upon compliance with the provisions of this section, may cause any such person to be sterilized by the operation of vasectomy upon the patient if a male and of salpingectomy if a female or any other operation or treatment that will permanently sterilize but not unsex the patient. When the superintendent of the state hospital or state home is of the opinion that a patient who is afflicted with or suffering from any of the conditions specified in this section should be sterilized, he shall certify such opinion to the Director of Health and shall at the same time give written notice of such certification to the patient and to his known parents, spouse, adult children, or guardian, if any, by registered mail to their last known address. If the patient has no known relatives or guardian, such notice shall be given to the person who petitioned for the patient's commitment. Such notice shall further state that written objection or written consent to the proposed sterilization, should be filed with the Director of Health at his office in Sacramento within 30 days by the patient, spouse, next of kin or guardian.

When a written consent is filed, or if no objection is filed within the 30 days, the Director of Health, if satisfied that the sterilization will not unduly endanger the patient's health and that it is a proper case for sterilization, may authorize the superintendent to proceed with the sterilization of the patient. The director may cause such examination of the patient and other inquiry to be made as he deems advisable before issuing the authorization to the superintendent.

If a written objection is filed within the 30 days by the patient, his spouse, next of kin, or guardian, and in those cases where the patient has no known relatives or guardian, the proposed sterilization shall not be authorized or performed until the Director of Health has determined the matter. He shall make full inquiry into the case, and may hold a hearing at the institution at which hearing the patient shall be present, and the objecting party and others interested on behalf of the patient may be heard. If the decision of the director is that the patient shall not be sterilized, he shall so order and notify the superintendent, the patient and the objecting party. If the decision of the director is that the patient should be sterilized, he shall send notice of such decision to the patient, his known parents, spouse, adult children, and guardian, if any, and the objecting party, by registered mail to their last known address. Such notice shall further state that any such party has the right within 30 days to petition the superior court of the county in which the institution is situated or of the county of the patient's residence for a review of the decision.

If such petition is filed in court within 30 days, and a true copy thereof is served upon the Director of Health, the patient shall not be sterilized unless and until the court, after hearing, issues an order authorizing the sterilization of the patient in accordance with the provisions of this section. If such petition is not filed in court within 30 days, the director may authorize the superintendent to proceed with such sterilization. The sterilization of a patient in accordance with the provisions of this section, whether performed with or without the consent of the patient, shall be lawful and shall not render the department, its officers or employees, or any persons participating in the operation liable either civilly or criminally.

SEC. 442. Section 7276 of the Welfare and Institutions Code is amended to read:

7276. The charge for the care and treatment of all mentally disordered persons and alcoholics at state hospitals for the mentally disordered for whom there is liability to pay therefor shall be determined pursuant to Section 4025. The Director of Health may reduce, cancel or remit the amount to be paid by the estate or the relatives, as the case may be, liable for the care and treatment of any mentally disordered person or alcoholic who is a patient at a state hospital for the mentally disordered, on satisfactory proof that the estate or rela-

tives, as the case may be, are unable to pay the cost of such care and treatment or that the amount is uncollectible. In any case where there has been a payment under this section, and such payment or any part thereof is refunded because of the death, leave of absence, or discharge of any patient of such hospital, such amount shall be paid by the hospital or the State Department of Health to the person who made the payment upon demand, and in the statement to the Controller the amounts refunded shall be itemized and the aggregate deducted from the amount to be paid into the State Treasury, as provided by law. If any person dies at any time while his estate is liable for his care and treatment at a state hospital, the claim for the amount due may be presented to the executor or administrator of his estate, and paid as a preferred claim, with the same rank in order of preference, as claims for expenses of last illness.

SEC. 443. Section 7277 of the Welfare and Institutions Code is amended to read:

7277. The State Department of Health shall collect all the costs and charges mentioned in Section 7275, and shall determine, pursuant to Section 7275, and collect the charges for care and treatment rendered persons in any community mental hygiene clinics maintained by the department and may take such action as is necessary to effect their collection within or without the state. The Director of Health may, however, at his discretion, refuse to accept payment of charges for the care and treatment in a state hospital of any mentally disordered person or inebriate who is eligible for deportation by the federal immigration authorities.

SEC. 444. Section 7281 of the Welfare and Institutions Code is amended to read:

7281. There is at each institution under the jurisdiction of the State Department of Health, a fund known as the patients' personal deposit fund. Any funds coming into the possession of the superintendent, belonging to any patient in that institution, shall be deposited in the name of that patient in the patients' personal deposit fund, except that if a guardian of the estate is appointed for the patient then he shall have the right to demand and receive such funds. Whenever the sum belonging to any one patient, deposited in the patients' personal deposit fund, exceeds the sum of five hundred dollars ($500), the excess may be applied to the payment of the care, support, maintenance and medical attention of the patient. After the death of the patient any sum remaining in his personal deposit account in excess of burial costs may be applied for payment of care, support, maintenance and medical attention. Any of the funds belonging to a patient deposited in the patients' personal deposit fund may be used for the purchase of personal incidentals for the patient or may be applied in an amount not exceeding five hundred dollars ($500) to the payment of his burial expenses.

SEC. 445. Section 7282 of the Welfare and Institutions Code is amended to read:

7282. The State Department of Health may in its own name bring an action to enforce payment for the cost and charges of transportation of a person to a state hospital against any person, guardian or relative liable for such transportation. The department also may in its own name bring an action to recover for the use and benefit of any state hospital or for the state the amount due for the care, support, maintenance, and expenses of any patient therein, against any county, or officer thereof, or against any person, guardian, or relative, liable for such care, support, maintenance, or expenses.

SEC. 446. Section 7283 of the Welfare and Institutions Code is amended to read:

7283. All moneys collected by the State Department of Health for the cost and charges of transportation of persons to state hospitals shall be remitted by the department to the State Treasury for credit to, and shall become a part of, the current appropriation from the General Fund of the state for the transportation of the mentally disordered, correctional school, or other state hospital patients and shall be available for expenditure for such purposes. In lieu of exact calculations of moneys collected for transportation charges the department may determine the amount of such collections by the use of such estimates or formula as may be approved by the Department of Finance.

SEC. 447. Section 7284 of the Welfare and Institutions Code is amended to read:

7284. If any incompetent person, who has no guardian and who has been admitted or committed to the State Department of Health for placement in any state hospital for the mentally disordered or the mentally retarded is the owner of any property, the State Department of Health, acting through its designated officer, may apply to a court of competent jurisdiction for its appointment as guardian of the estate of such incompetent person.

For the purposes of this section, the State Department of Health is hereby made a corporation and may act as executor, administrator, guardian of estates, assignee, receiver, depositary or trustee, under appointment of any court or by authority of any law of this state, and may transact business in such capacity in like manner as an individual, and for this purpose may sue and be sued in any of the courts of this state.

If a person admitted or committed to the State Department of Health dies, leaving any estate, and having no relatives at the time residing within this state, the State Department of Health may apply for letters of administration of his estate, and, in the discretion of the court, letters of administration may be issued to the department. When the State Department of Health is appointed as guardian or administrator, the department shall be appointed as guardian or administrator without bond. The officer designated by the department shall

be required to give a surety bond in such amount as may be deemed necessary from time to time by the director, but in no event shall the initial bond be less than ten thousand dollars ($10,000), which bond shall be for the joint benefit of the several estates and the State of California. The State Department of Health shall receive such reasonable fees for its services as such guardian or administrator as the court allows. The fees paid to the State Department of Health for its services as guardian or administrator of the various estates may be used as a trust account from which may be drawn expenses for filing fees, bond premiums, court costs, and other expenses required in the administration of the various estates. Whenever the balance remaining in such trust fund account shall exceed a sum deemed necessary by the department for the payment of said expenses, such excess shall be paid quarterly by the department into the State Treasury to the credit of the General Fund.

SEC. 448. Section 7285 of the Welfare and Institutions Code is amended to read:

7285. The State Department of Health may invest funds held as executor, administrator, guardian of estates, or trustee, in bonds or obligations issued or guaranteed by the United States or the State of California. Such investments may be made and such bonds or obligations may be sold or exchanged for similar bonds or obligations without notice or court authorization.

SEC. 449. Section 7286 of the Welfare and Institutions Code is amended to read:

7286. The State Department of Health may establish one or more common trusts for investment of funds held as executor, administrator, guardian of estates, or trustee and may designate from time to time the amount of participation of each estate in such trusts. The funds in such trusts may be invested only in bonds or obligations issued or guaranteed by the United States or the State of California.

The income and profits of each trust shall be the property of the estates participating and shall be distributed, when received, in proportion to the amount of participation of each estate in such trust. The losses of each trust shall be the losses of the estates participating and shall be apportioned, as the same occur, upon the same basis as income and profits.

SEC. 450. Section 7287 of the Welfare and Institutions Code is amended to read:

7287. Upon the death of an incompetent person over whom the State Department of Health has obtained jurisdiction pursuant to Section 7284, the department may make proper disposition of the remains, and pay for the disposition of the remains together with any indebtedness existing at the time of the death of such person from the assets of the guardianship estate, and thereupon it shall file its final account with the court or otherwise close its administration of the estate of such person.

SEC. 451. Section 7288 of the Welfare and Institutions Code is amended to read:

7288. Whenever it appears that a person who has been admitted to a state institution and remains under the jurisdiction of the State Department of Health does not have a guardian and owns personal property which requires safekeeping for the benefit of the patient, the State Department of Health may remove or cause to be removed such personal property from wherever located to a place of safekeeping.

Whenever it appears that such patient does not own property of a value which would warrant guardianship proceedings, the expenses of such removal and safekeeping shall be paid from funds appropriated for the support of the institution in which the patient is receiving care and treatment; provided, however, that if the sum on deposit to the credit of such patient in the patients' personal deposit fund exceeds the sum of three hundred dollars ($300), the excess may be applied to the payment of such expenses of removal and safekeeping.

When it is determined by the superintendent at any time after the removal for safekeeping of such personal property, that the patient is incurable or is likely to remain in a state institution indefinitely, then any of those articles of personal property which cannot be used by the patient at the institution may be sold at public auction and the proceeds therefrom shall first be applied in reimbursement of the expenses so incurred and the balance shall be deposited to the patient's credit in the patients' personal deposit fund. All moneys so received as reimbursement shall be deposited in the State Treasury in augmentation of the appropriation from which the expenses were paid.

SEC. 452. Section 7289 of the Welfare and Institutions Code is amended to read:

7289. When a person who is a patient of a state hospital in the State Department of Health has no guardian and has money due or owing to him, the total amount of which does not exceed the sum of three thousand dollars ($3,000), the superintendent of the institution of which the person is a patient may collect any money so due or owing upon furnishing to the person, representative, officer, body or corporation in possession of or owing any such sums, an affidavit executed by the superintendent or acting superintendent. The affidavit shall contain the name of the institution of which the person is a patient, and the statement that the total amount of such sums known to be due to the person does not exceed the sum of three thousand dollars ($3,000). Payments from retirement systems and annuity plans which are due or owing to such patients may also be collected by the superintendent of the institution of which the person is a patient, upon the furnishing of an affidavit executed by the superintendent or acting superintendent, containing the name of the institution of which the person is a patient and the statement that such person is entitled to receive such payments. Such sums shall be delivered

to the superintendent and shall be deposited by him in the patients' personal deposit fund as provided in Section 7281 of this code.

The receipt of such superintendent shall constitute sufficient acquittance for any payment of money made pursuant to the provisions of this section and shall fully discharge such person, representative, officer, body or corporation from any further liability with reference to the amount of money so paid.

The superintendent of each institution shall render such reports and accounts annually or more often as may be required by the State Department of Health or the Department of Finance of all moneys of patients deposited in the patients' personal deposit accounts of the institution.

SEC. 453. Section 7290 of the Welfare and Institutions Code is amended to read:

7290. The State Department of Health may enter into a special agreement, secured by a properly executed bond, with the relatives, guardian, or friend of any patient therein, for his care, support, maintenance, or other expenses at the institution. Such agreement and bond shall be to the people of the State of California and action to enforce the same may be brought thereon by the department. All charges due under the provisions of this section, including the monthly rate for the patient's care and treatment as established by or pursuant to law, shall be collected monthly. No patient, however, shall be permitted to occupy more than one room in any state institution.

SEC. 454. Section 7292 of the Welfare and Institutions Code is amended to read:

7292. The cost of such care shall be determined and fixed from time to time by the Director of Health, but in no case shall it exceed the rate of forty dollars ($40) per month.

7293. The State Department of Health shall present to the county, not more frequently than monthly, a claim for the amount due the state under Section 7291 which the county shall process and pay pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code.

SEC. 456. Section 7294 of the Welfare and Institutions Code is amended to read:

7294. Any person who has been committed as a defective or psychopathic delinquent may be paroled or granted a leave of absence by the medical superintendent of the institution wherein the person is confined whenever the medical superintendent is of the opinion that the person has improved to such an extent that he is no longer a menace to the health and safety of others or that the person will receive benefit from such parole or leave of absence, and after the medical superintendent and the Director of Health have certified such opinion to the committing court.

If within 30 days after the receipt of such certification the committing court orders the return of such person, the person shall be returned forthwith to await further action of the court. If within 30 days after the receipt of such certification the committing court does not order the return of the person to await the further action of the court, the medical superintendent may thereafter parole the person under such terms and conditions as may be specified by the superintendent. Any such paroled inmate may at any time during the parole period be recalled to the institution. The period of parole shall in no case be less than five years, and shall be on the same general rules and conditions as parole of the mentally disordered.

When any person has been paroled for five consecutive years, if in the opinion of the medical superintendent and the Director of Health the person is no longer a menace to the health, person, or property of himself or of any other person, the medical superintendent, subject to the approval of the Director of Health, may discharge the person. The committing court shall be furnished with a certified copy of such discharge and shall thereupon make such disposition of the court case as it deems necessary and proper.

When, in the opinion of the medical superintendent, a person heretofore committed as a defective or psychopathic delinquent will not benefit by further care and treatment under any facilities of the department and should be returned to the jurisdiction of the court, the superintendent of the institution and the Director of Health shall certify such opinion to the committing court including therein a report, diagnosis and recommendation concerning the person's future care, supervision or treatment. Upon receipt of such certification, the committing court shall forthwith order the return of the person to the court. The person shall be entitled to a court hearing and to present witnesses in his own behalf, to be represented by counsel and to cross-examine any witness who testifies against him. After considering all the evidence before it, the court may make such further order or commitment with reference to such person as may be authorized by law.

7300. It shall be the policy of the department to make available to all persons admitted to a state hospital prior to July 1, 1969, and to all persons judicially committed or remanded to its jurisdiction all of the facilities under the control of the department. Whenever, in the opinion of the Director of Health, it appears that a person admitted prior to July 1, 1969, or that a person judicially committed or remanded to the State Department of Health for placement in an institution would be benefited by a transfer from that institution to another institution in the department, the director may cause the transfer of the patient from that institution to another institution under the jurisdiction of the depart-

ment. Preference shall be given in any such transfer to an institution in an adjoining rather than a remote district.

However, before any inmate of a correctional school may be transferred to a state hospital for the mentally disordered he shall first be returned to a court of competent jurisdiction, and, if subject to commitment, after hearing, may be committed to a state hospital for the mentally disordered in accordance with law.

The expense of such transfers is chargeable to the state, and the bills for the same, when approved by the Director of Health, shall be paid by the Treasurer on the warrant of the Controller, out of any moneys provided for the care or support of the patients or out of the moneys provided for the support of the department, in the discretion of the department.

SEC. 458. Section 7301 of the Welfare and Institutions Code is amended to read:

Persons so transferred shall not be subject to the provisions of Section 4500, 4501, 4501.5, 4502, 4530, or 4531 of the Penal Code. However, they shall be subject to the general rules of the Director of Corrections and of the facility where they are confined and any correctional employee dealing with such persons during the course of an escape or attempted escape, a fight or a riot, shall have the same rights, privileges and immunities as if the person transferred had been committed to the Director of Corrections.

Whenever a person is transferred to an institution under the jurisdiction of the Department of Corrections pursuant to this section, any report, opinion, or certificate required or authorized to be filed with the court which committed such person to a state hospital, or ordered such person placed therein, shall be prepared and filed with the court by the head of the institution in which the person is actually confined or by the designee of such head.

SEC. 461. Section 7304 of the Welfare and Institutions Code is amended to read:

7304. Whenever a person, committed to the State Department of Health under one of the commitment laws providing for no reimbursement for care and treatment to the state by the county of commitment, is transferred under Section 6700 to an institution under the jurisdiction of the department where the county is required to reimburse the state for such care and treatment, the State Department of Health may have the original commitment vacated and a new commitment issued, designating the institution to which the person has been transferred, in order to make the county liable for the care and treatment of the committed person to the extent provided by Sections 7511 and 7512 of the Welfare and Institutions Code.

SEC. 462. Section 7305 of the Welfare and Institutions Code is amended to read:

Every officer or employee of the State Department of Health designated to apprehend or return such patients shall have the powers and privileges of peace officers so far as necessary to enforce the provisions of this section.

SEC. 563. Section 14103 of the Welfare and Institutions Code is amended to read:

14103. The director shall, within the range of services included under health care and with the advice of the Advisory Health Council, and taking into account health care services otherwise available to eligible persons, establish the scope of services to be provided through health benefits plans.

SEC. 564. Section 14103.4 of the Welfare and Institutions Code is amended to read:

14103.4. The director with the advice of the Advisory Health Council, shall determine which of the health care and related remedial or preventive services are elective. The director and the Advisory Health Council shall consult with representatives of providers of such services before making a determination.

SEC. 565. Section 14104 of the Welfare and Institutions Code is amended to read:

14104. (a) The department shall, to the extent feasible, contract with one or more carriers to provide or arrange services through health benefits plans.

(b) The department shall, to the extent feasible, enter into nonexclusive contracts providing arrangements under which funds available for health care under this chapter shall be administered and disbursed to providers of health care or to their designated agents in consideration for services rendered and supplies furnished by them in accordance with the provisions of the applicable contract and any schedule of charges or formula for determining payments established pursuant to such contract. Payment for services to hospitals and other facilities and professional services shall be predicated on the basis of reimbursement for reasonable cost based on standards, determined by the director with the advice of the Advisory Health Council. The formula for such payments shall be determined in accordance with regulations establishing the methods to be used and the items to be included. In prescribing such regulations, the department shall consider, among other things, the principles generally applied by state organizations representing such hospitals or other facilities or by established prepayment organizations which have developed such principles, in determining the method or methods to be used in arriving at the payment formula.

(c) Each such contract shall provide that the carrier:

1. Will take such action as may be necessary to assure that, where payment under this chapter for a service is on a

cost basis, the cost is reasonable, as referred to in subdivision (b) of Section 14104.

2. Will take such action as may be necessary to assure that where payment under this chapter is on a charge basis, such charge will be reasonable and not higher than the charge applicable for a comparable service and under comparable circumstances to the policyholders and subscribers of the carrier, and such payment will be made on the basis of a receipted bill, or on the basis of an assignment under the terms of which the reasonable charge is the full charge for the service.

3. Will, in the case of a contract with a carrier which, under contracts not affected by this chapter, limits the availability of services to a defined geographical area or areas, provide that the carrier will pay for necessary services furnished to any person who is covered by such contract and who receives such services outside such area or areas.

4. Will furnish to the director such timely information and reports as he may find necessary in performing his functions under this chapter.

5. Will maintain such records and afford such access thereto as the director finds necessary to assure the correctness and verification of the information and reports which may be required under paragraph (c)3 of this section.

6. Will make payment under this chapter promptly and in any event within 30 days from receipt by the carrier of proper evidence establishing the validity of the claim for payment.

In determining the reasonable charge for a physician's services, there shall be taken into consideration the customary charge for similar services generally made by the physician, as well as the prevailing charges in the locality for similar services.

(d) Each such contract shall provide that the carrier or plan will not charge to any family person or adult defined in Article 2 (commencing with Section 14050) of this chapter, part or all of any enrollment fee, extra charges, or premiums for care provided under this chapter.

(e) Each such contract shall provide that the carrier or plan will agree to provide such services as defined by the department without reference to the race, religion, creed, color, national origin or ancestry, or age of any person eligible under the provisions of this chapter.

(f) Consistent with the efficient and economical administration of this chapter, at least one arrangement available to all recipients and medically indigent persons shall afford free choice among physicians, pharmacists, and pharmacies willing to provide services under the terms of a contract entered into pursuant to this section.

(g) In the consideration of proposals for contracts with carriers under this chapter, the department shall, for comparative purposes, deduct from the total cost proposed by any

carrier the amount of tax which that carrier would be required to pay under Part 7 (commencing with Section 12001) of Division 2 of the Revenue and Taxation Code computed on the basis of the net rate of tax, after deductions, which would have applied to such carrier for the preceding calendar year, had the amount of anticipated premium under the proposed contract been added to its taxable premiums for such year.

Contracts awarded to carriers under this section shall be awarded on a bid basis, and before entering into a contract with any carrier, the director shall publish notice soliciting bids from carriers.

The director, at least once each year, shall report to the Joint Legislative Budget Committee actions taken by him in the awarding of contracts under this section, including, but not limited to, the number and types of bids submitted, the basis on which contracts were awarded, and, if a contract is awarded to other than the lowest bidder, the reason for such action.

(h) In entering into contracts under this section, or subdivision (e) or subdivision (f) of Section 14000, the department may provide that the extent of benefit coverage by the carrier may be limited to a fixed number of days, or amount, or duration of services. The contract may provide that the carrier shall continue to administer the benefits provided beyond the applicable limitation, with the state paying for such extended coverage on the basis of reasonable costs or charges.

The intent of the Legislature in enacting this subdivision is to authorize a limitation on the liability of a carrier in catastrophic or extended-care situations.

SEC. 566. Section 14105 of the Welfare and Institutions Code is amended to read:

14105. The director shall prescribe the policies to be followed in the administration of this chapter and the scope of the services to be provided, and may limit the rates of payment for such services, and shall adopt such rules and regulations as are necessary for carrying out, not inconsistent with, the provisions thereof.

Such policies and regulations shall include rates for payment for services not rendered under a contract pursuant to Section 14104. Standards for costs shall be based on payments of the reasonable cost for such services. Cost reports and other data submitted by providers to a state agency for the purpose of determining reasonable costs for services or establishing rates of payment shall be considered true and correct unless audited within eighteen (18) months after July 1, 1969, the close of the period covered by the report, or after the date of submission of the original or amended report by the provider, whichever is later.

Nothing in this section shall be construed to limit the correction of cost reports or rates of payment when inaccuracies are determined to be the result of intent to defraud, or when a delay in the completion of an audit is the result of willful

acts by the provider or inability to reach agreement on the terms of final settlement.

Insofar as practical, consistent with the efficient and economical administration of this part, the department shall afford recipients of public assistance free choice of arrangements under which they shall receive health care.

In establishing the scope of services to be provided, the director shall provide for recipients at least for a minimum coverage as defined in Section 14056, and insofar as possible shall include other health care and related remedial or preventive services giving priority to those services which are considered to have the greatest value in preventing or reducing the likelihood of future high-cost medical services.

Notwithstanding the provisions of the preceding paragraph, and in accordance with the intent of this chapter, the director, with respect to medically indigent persons, may limit, by appropriate classifications, the number of medically indigent persons eligible, and may limit the scope and kinds of health care to which such persons are entitled, to the extent necessary to operate programs under this chapter within the limits of appropriated funds. When and if necessary, such action shall be taken by the director with the advice of the Advisory Health Council and in ways consistent with the requirements of the Federal Social Security Act.

SEC. 567. Section 14105.5 of the Welfare and Institutions Code is amended to read:

14105.5. The director shall make no payment for services to any hospital facility which secures a license under the provisions of Chapter 2 (commencing with Section 1400) of Division 2 of the Health and Safety Code or Chapter 1 (commencing with Section 7000) of Division 7 of this code after July 1, 1970, covering a new facility or additional bed capacity or the conversion of existing bed capacity to a different license category, unless such licensee received a favorable final decision by the voluntary area health planning agency in the area, the consumer members of a voluntary area health planning agency acting as an appeals body or the Advisory Health Council pursuant to Sections 437.7 to 438.5, inclusive, of the Health and Safety Code; or unless the licensee had filed an application for a license prior to January 1, 1970, and the application met all then-existing requirements and regulations of the appropriate state agency at the time of application including, at least, preliminary submission of plans, and if such licensee commences construction of facilities prior to July 1, 1971. The exception provided for in the preceding sentence with respect to applications filed prior to January 1, 1970, shall not apply to transferees of the applications of the original applicants.

SEC. 568. Section 14106 of the Welfare and Institutions Code is amended to read:

14106. The director shall, with respect to carriers and with the advice of the Advisory Health Council, adopt all

necessary rules and regulations to carry out the provisions of this chapter, including, but not limited to, establishing the scope and content of health care, regulations fixing reasonable minimum standards for health benefits plans, regulations fixing the time, manner, methods and procedures for determining whether a contract with any plan shall be undertaken or withdrawn, and regulations pertaining to any other matters made necessary by the provisions of this chapter.

In adopting such rules and regulations, the director shall be guided by the needs of eligible persons as well as prevailing practices in the field of arrangements for health care.

The director shall terminate contracts with any carrier if he finds that the standards prescribed therefor are not being complied with, that claims accrued or to accrue will not be paid, or for other good cause shown. The director shall give reasonable notice of his intention to terminate the contract to any carrier, to eligible persons and others who may be directly interested, including such other persons and organizations as the director may deem necessary and proper. The notice shall state the effective date of, and the reason for, the termination.

SEC. 569. Section 14110 of the Welfare and Institutions Code is amended to read:

14110. No cost of care shall be paid for under this part to a medical facility unless:

(a) It is licensed by the State Department of Health as a hospital within the meaning of Section 1401 of the Health and Safety Code; or

(b) It is licensed by a comparable agency in another state; or

(c) It is exempt from licensure pursuant to subdivision (c) of Section 1415 of the Health and Safety Code; or

(d) It is operated by the Regents of the University of California.

(e) It meets the utilization review plan criteria for certification or is certified as an institutional provider of services under Title XVIII of the Federal Social Security Act and regulations issued thereunder.

Nothing in this section shall preclude payments for care for aged patients in medical facilities or institutions operated or licensed by the State Department of Health, or by the State Department of Rehabilitation.

SEC. 570. Section 14114 of the Welfare and Institutions Code is amended to read:

14114. The director may make available information, in such form as he may deem satisfactory, as will enable the eligible persons to exercise an informed choice among the health benefits plans which have been contracted for under this chapter. Each eligible person enrolled in a health benefits plan shall be issued an appropriate document setting forth or authorizing the services or benefits to which that person is entitled thereunder, the procedure for obtaining benefits, and

the principal provisions of the plan affecting the eligible person.

The Advisory Health Council shall provide for a continuing study of the quality of care and services resulting from the operation of this chapter and for surveys and reports on health care plans and benefits.

SEC. 571. The heading of Article 4 (commencing with Section 14125) of Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code is amended to read:

SEC. 573.1. Section 15510 of the Welfare and Institutions Code is amended to read:

15510. The Director of Health shall administer the provisions of this chapter and shall adopt such rules and regulations as are necessary to carry out the provisions of this chapter.

SEC. 574. Section 16000 of the Welfare and Institutions Code is amended to read:

16000. No person, association, or corporation shall, without first having obtained a written license or permit therefor from the State Department of Health or from an inspection service approved or accredited by the department:

(a) Maintain or conduct any institution, boarding home, day nursery, or other place for the reception or care of children under 16 years of age, nor engage in the business of receiving or caring for such children, nor receive nor care for any such child in the absence of its parents or guardian, either with or without compensation.

(b) Engage in the finding of homes for children under 16 years of age, or place any such child in any home or other place either for temporary or permanent care or for adoption.

The provisions of subdivision (a) do not apply to any hospital or establishment holding a license in good standing issued under the provisions of Chapter 2 or Chapter 3 of Division 2 of the Health and Safety Code. However, where a hospital or establishment holding such a license from the State Department of Health provides services not incidental to its primary purpose, the provisions of subdivision (a) continue to apply to the hospital or establishment in respect to such additional services.

SEC. 575. Section 16018 of the Welfare and Institutions Code is amended to read:

16018. Before issuing a license to any person to operate a boarding home, foster home, or other place maintained to receive and care for children, the State Department of Health or the county or city inspection service, as the case may be,

shall secure from the Federal Bureau of Investigation or State Bureau of Criminal Identification and Investigation a full criminal record to determine whether the applicant or his spouse has ever been convicted of a crime other than a minor traffic violation. If it is found that the applicant, or his spouse living in the same location, has been so convicted, the application shall be denied, unless otherwise provided pursuant to the following paragraph.

After review of the record, the Director of Health, or the person in charge of the county or city inspection service, as the case may be, may exempt any applicant for a license from the provisions of this section, if the record reveals no conviction of a felony involving intentional bodily harm or a sex offense, and if the director or person in charge of the county or city inspection service believes the applicant to be of such good character as to justify issuance of a license.

SEC. 576. Section 16150 of the Welfare and Institutions Code is amended to read:

16150. The Legislature finds and declares that preschool programs with a strong educational component are of great value to all children in preparing them for success in school, and constitute an essential component of public social services as defined in Section 16151. The Legislature further finds that such programs are often not available to many children who, because of the low income of their families, parents in training, or minimal employment, are deprived of adequate care and this valuable educational experience. Therefore, it is the intention of the Legislature in enacting this chapter to provide equal educational opportunity to children of low-income or disadvantaged families through appropriate arrangements for preschool and extended day care programs of an educational value to be developed in accordance with a contractual agreement between the State Department of Health and the State Department of Education. The Legislature believes that the introduction of young children to an atmosphere of learning will improve their performance and increase their motivation and productivity when they enter school. In order to achieve this end, all programs established under this chapter shall be centered upon a defined educational program developed, conducted, and administered with the maximum feasible participation of the families served by the program.

SEC. 577. Section 16151 of the Welfare and Institutions Code is amended to read:

16151. The State Department of Health shall enter into a contract with the Department of Education to provide for a statewide system of preschool, children's center, and day care programs of an educational value, to be established by any eligible local public or private agency which submits an application therefor.

The State Department of Health shall, in cooperation and consultation with the Department of Education, determine the areas of the state in which the approval and establishment of

such preschool, children's center, and day care educational programs are most likely to fulfill the intent of this chapter.

Any application to operate and maintain a children's center, day care, and preschool educational program pursuant to this chapter may include a provision for the use of facilities owned and maintained by an eligible local private agency, when such facilities may be necessary for the provision of a children's center, day care, and preschool educational program in the area to be served. Children between the ages of 2 and 14 years, inclusive, are eligible for child care and children between the ages of 3 and 5 years, inclusive, or until enrolled in the public schools, shall be eligible to participate in these preschool programs, provided that such instruction is deemed to be in the best interests of the child. Special priority shall be given to children from families of low income. Special priority shall also be given to children from families in which English is not the language primarily used in the home in order that they may develop that degree of English facility necessary to profit from school instruction.

All local children's center, day care, and preschool educational programs operated pursuant to any contract herein authorized shall be available to any child otherwise eligible pursuant to the procedures established by this chapter and by the contract regardless of race, religion or ethnic background; and no such local program shall be used, in whole or in part, for religious worship or instruction. No funds herein provided may be used for the general support of any private or sectarian school system.

SEC. 578. Section 16152 of the Welfare and Institutions Code is amended to read:

16152. The contract entered into pursuant to Section 16151 shall provide for a fee to be paid by the parent or other person having charge or custody of any child, or to be reimbursed from state and federal funds, on account of the child. The Department of Education shall, pursuant to the contract, establish a system of fees which may be charged to parents who have the financial ability to pay all, or part of, the cost of the children's center, day care, or preschool educational program.

The State Department of Health shall, pursuant to the contract, pay to the Department of Education a per capita reimbursement for each child certified as eligible for this program and participating in a children's center, day care, or preschool program established under this chapter. The per capita reimbursement shall not exceed the costs incurred in providing the service, less any parental fees, divided by the total number of children participating in the program.

As used in this section, "costs" include administrative costs which may be incurred by the Department of Education, the State Department of Health, and other local public agencies, necessary for the development and implementation of the public social service herein described and for the designation of those children eligible for participation.

Maximum standards for such costs, per child, shall be established by the State Department of Health, in consultation and cooperation with the Department of Education and with the advice of the advisory committee established pursuant to Section 16155, and such maximum cost standards shall be applied beginning with the 1966–67 fiscal year and each year thereafter.

SEC. 579. Section 16153 of the Welfare and Institutions Code is amended to read:

16153. The State Department of Health shall receive and administer state and federal funds for day care and preschool programs. Priority in the establishment of programs shall be given to eligible public and private agencies in communities with the greatest relative need for such programs.

Notwithstanding any other provision of this code, the State Department of Health shall not provide any per capita reimbursements pursuant to Section 16152 on account of any local educational program established pursuant to this chapter which does not meet the minimum educational standards established by the State Board of Education and set forth in the contract entered into with the Department of Education.

All programs established pursuant to this chapter shall meet the requirements pursuant to Section 107 (the Federal Interagency Day Care Requirements) of Public Law 90-222 (Economic Opportunity Amendments of 1967), approved December 23, 1967.

The State Department of Health shall have only such functions, duties and responsibilities with respect to children's center programs, day care programs, or preschool programs as is required by law and federal regulations.

The Office of Compensatory Education within the Department of Education shall have overall responsibility for the administration, at the state level, of all children's centers, day care, and preschool educational programs.

Nothing contained in this chapter shall be interpreted as restricting the establishment, fiscal support, or operating standards of children's centers which are located in areas other than those designated as target areas for the purpose of providing compensatory education programs, or for the purpose of meeting federal interagency day care guidelines.

SEC. 580. Section 16154 of the Welfare and Institutions Code is amended to read:

16154. The State Department of Health and the Department of Education shall cooperate fully to assure health services for all children enrolled in programs under this chapter.

16155. The Governor shall appoint an advisory committee composed of one representative from the Advisory Health Council, one representative from the Department of Human Resources Development, one representative from the State

Board of Education, one representative from the State Social Welfare Board, one representative of the Director of Education, one representative of the Director of Social Welfare, one representative of the Director of Health, and one representative of private education, one representative of child welfare, one representative of private health care, one representative of a community action agency qualified under Title II of the Economic Opportunity Act of 1969, and five parents appointed from names selected by a democratic process to assure representation of the parents of the children being served, and three persons representing professional or civic groups or public or nonprofit private agencies, organizations or groups concerned with children's center, day care, and preschool educational programs.

The advisory committee shall assist the Department of Education in developing a state plan for the coordinated expansion of children's center, day care, and preschool services in cooperation with the Department of Education, Department of Social Welfare, Department of Human Resources Development, and the State Department of Health.

The state plan shall delineate specific target areas in the state identified by the Department of Social Welfare and the Department of Human Resources Development which have large concentrations of low-income families. The plan shall provide for the implementation of the 1967 Social Security Act Amendments and shall assure the coordinated and efficient operation of all children's center, day care, and preschool programs to insure that a maximum number of children will receive required services within the total state, federal, and local funds available for such programs. It is the intent of the Legislature that basic services presently provided by districts in children's centers be maintained at the current cost per child per hour.

The advisory committee shall continually evaluate the effectiveness of such programs and shall report thereon at each regular session of the Legislature.

SEC. 582. Section 16157 of the Welfare and Institutions Code is amended to read:

16157. The Superintendent of Public Instruction and the Director of Health shall jointly report to the Legislature on the results of the children's center, day care, and preschool education programs at the 1971 Regular Session and each regular session thereafter, and shall make recommendations for adjustments in the programs.

SEC. 583. Section 16200 of the Welfare and Institutions Code is amended to read:

16200. No person, association, or corporation shall, without first having obtained a written license or permit therefor from the State Department of Health or from an inspection service approved or accredited by the State Department of Health, maintain or conduct any institution, boarding home,

or other place for the reception or care of aged persons, nor receive or care for any such person not related to him by blood or affinity within the second degree. The provisions of this chapter do not apply to any hospital or establishment holding a license in good standing, issued under the provisions of Chapter 2 (commencing with Section 1400), or Chapter 3 (commencing with Section 1500) of Division 2 of the Health and Safety Code, or to hospitals exempt from the provisions of either or both of those chapters. However, where a hospital or establishment holding such a license from the State Department of Health provides services not incidental to its primary purpose, the provisions of this chapter continue to apply to the hospital or establishment in respect to such additional services.

The State Department of Health shall require, as a condition to the issuance or retention of a license or permit, that any contracts made by the institution, home, or place, under which payment is made in advance for care of the aged person for a period of one year or more, shall be in writing and in a form approved by the department, prior to its use by the institution, home, or place.

SEC. 583.1. Section 16200.5 of the Welfare and Institutions Code, as amended by Chapter 611 of the Statutes of 1970, is amended to read:

16200.5. Notwithstanding any other provision of law any health facility or institution licensed by the State Department of Health may, upon application, be licensed under the provisions of this chapter, provided the applicant complies with the provisions of this chapter and the rules and regulations promulgated by the department pursuant to the provisions of this chapter as these rules and regulations apply to facilities for the care of the aged licensed and in operation on the effective dates of such rules and regulations, except that the facilities licensed pursuant to this section shall comply with all such rules and regulations on or before July 1, 1972.

SEC. 584. Section 16500 of the Welfare and Institutions Code is amended to read:

16500. 1. Community planning and development of services necessary to carry out the objectives and purposes of this chapter.

2. Demonstration of programs and activities by local communities which are particularly valuable in carrying out such purposes.

3. The provision of recreational and other leisure time activities, information, referral and counseling services, and opportunities for older persons to engage in paid or volunteer community or civic services.

The state share of any project shall not exceed 50 percent of the funds expended in connection with that project. The state share of any project involving a senior activities center shall be limited to the costs of providing staff, equipment and supplies necessary to the center's program of activities and of minor alterations and improvements necessary to provide safe and adequate programs for participation of older persons.

Local matching funds may be in the form of cash, facilities, or services on the basis of a local plan submitted to and approved by the Director of Health. The local plan shall be in the form of a contract setting forth the objectives of the plan and the responsibilities of the local organization. No plan shall be approved unless it is generally available to the older citizens of the community without discrimination because of race, religion, creed, color, national origin or ancestry.

SEC. 589. Section 18353 of the Welfare and Institutions Code is amended to read:

18353. The State Department of Health shall formulate and promulgate criteria by which community projects are to be approved for matching funds. In the discharge of this responsibility, the department shall cooperate with and utilize to the maximum possible extent the resources and services of federal, state, and local agencies, including those within the Human Relations Agency.

The department shall promote, develop, and financially assist, where necessary, community vocational rehabilitation alcoholism programs.

The department may directly administer community vocational rehabilitation programs or may conduct such programs as cooperative programs with a local department of public health or mental health services as designated by the county board of supervisors, or such other local public agency as designated by the county board of supervisors which meets standards of training and experience, as the department shall prescribe.

*An act to add Section 3344 to the Civil Code, relating to invasion of privacy.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3344 is added to the Civil Code, to read:

3344. (a) Any person who knowingly uses another's name, photograph, or likeness, in any manner, for purposes of advertising products, merchandise, goods or services, or for purposes of solicitation of purchases of products, merchandise, goods or services, without such person's prior consent, or, in the case of a minor, the prior consent of his parent or legal guardian, shall be liable for any damages sustained by the person or persons injured as a result thereof. In addition, in any action brought under this section, the person who violated the section shall be liable to the injured party or parties in an amount no less than three hundred dollars ($300).

(b) As used in this section, "photograph" means any photograph or photographic reproduction, still or moving, or any videotape or live television transmission, of any person, such that the person is readily identifiable.

(1) A person shall be deemed to be readily identifiable from a photograph when one who views the photograph with the naked eye can reasonably determine that the person depicted in the photograph is the same person who is complaining of its unauthorized use.

(2) If the photograph includes more than one person so identifiable, then the person or persons complaining of the use shall be represented as individuals rather than solely as members of a definable group represented in the photograph. A definable group includes, but is not limited to, the following examples: a crowd at any sporting event, a crowd in any street or public building, the audience at any theatrical or stage production, a glee club, or a baseball team.

(3) A person or persons shall be considered to be represented as members of a definable group if they are represented in the photograph solely as a result of being present at the time the photograph was taken and have not been singled out as individuals in any manner.

(c) Where a photograph or likeness of an employee of the person using the photograph or likeness appearing in the advertisement or other publication prepared by or in behalf of the user is only incidental, and not essential, to the purpose of the publication in which it appears, there shall arise a rebuttable presumption affecting the burden of producing evidence that the failure to obtain the consent of the employee was not a knowing use of the employee's photograph or likeness.

(d) For purposes of this section, a use of a name, photograph or likeness in connection with any news, public affairs, or sports broadcast or account, or any political campaign, shall not constitute a use for purposes of advertising or solicitation.

(e) The use of a name, photograph or likeness in a commercial medium shall not constitute a use for purposes of advertising or solicitation solely because the material containing such use is commercially sponsored or contains paid advertising. Rather it shall be a question of fact whether or not the use of the complainant's name, photograph or likeness was so directly connected with the commercial sponsorship or with the paid advertising as to constitute a use for purposes of advertising or solicitation.

(f) Nothing in this section shall apply to the owners or employees of any medium used for advertising, including, but not limited to, newspapers, magazines, radio and television stations, billboards, and transit ads, by whom any advertisement or solicitation in violation of this section is published or disseminated, unless it is established that such owners or employees had knowledge of the unauthorized use of the person's name, photograph, or likeness as prohibited by this section.

(g) The remedies provided for in this section are cumulative and shall be in addition to any others provided for by law.

SEC. 7. There is hereby appropriated from the General Fund to the State Scholarship and Loan Commission the amount of twenty thousand dollars ($20,000) for expenditure for the purposes of the graduate fellowship program as revised by this act.

This section shall not become operative unless the budget submitted to the Legislature at the 1972 Regular Session by the Governor includes an appropriation for the graduate fellowship program, and in which event, this section shall become operative on the date when such budget is submitted to the Legislature.

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3706 of the Labor Code is amended to read:

3706. If any employer fails to secure the payment of compensation, any injured employee or his dependents may bring an action at law against such employer for damages, as if this division did not apply.

SEC. 2. Section 3715 of the Labor Code is repealed.

SEC. 3. Section 3715 is added to the Labor Code, to read:

3715. Any employee whose employer has failed to secure the payment of compensation as required by this division, or his dependents in case death has ensued, may, in lieu of proceedings against his employer by civil action in the courts as provided in Section 3706, file his application with the appeals

board for compensation and the appeals board shall hear and determine such application for compensation in like manner as in other claims and shall make such award to such claimant as he would be entitled to receive if such employer had secured the payment of compensation as required, and such employer shall pay such award in the manner and amount fixed thereby or shall furnish to the appeals board a bond, in such an amount and with such sureties as the appeals board requires, to pay such employee such award in the manner and amount fixed thereby.

SEC. 4. Section 3716 is added to the Labor Code, to read:

3716. If the employer fails to pay such compensation to the person entitled thereto, or fails to furnish such bond within a period of 10 days after notification of such award, the award, upon application by the person entitled thereto, shall be paid by the Director of Industrial Relations from the Uninsured Employers Fund, which fund is hereby created in the State Treasury. The money in the Uninsured Employers Fund is hereby continuously appropriated for this purpose and to pay the expenses of the director in administering these provisions. Refunds may be paid from the Uninsured Employers Fund for amounts remitted erroneously to the fund, or the director may authorize offsetting subsequent remittances to the fund.

SEC. 5. Section 3717 is added to the Labor Code, to read:

3717. Such award shall constitute a liquidated claim for damages against such employer in the amount so ascertained and fixed by the appeals board, and the appeals board shall certify the same to the director who shall forthwith institute a civil action against such employer in the name of the state for the collection of such award. In such action it shall be sufficient for plaintiff to set forth a copy of the record of proceedings of the appeals board relative to such claims as certified by the appeals board to the director and to state that there is due to plaintiff on account of such finding and award of the appeals board a specified sum which plaintiff claims with interest. A certified copy of such record of proceedings in such claim shall be attached to the complaint and constitutes prima facie evidence of the truth of the facts therein contained. The answer or demurrer to such complaint shall be filed within 10 days, the reply or demurrer to the answer within 20 days, and the demurrer to the reply within 30 days after the return day of the summons or service by publication. jury or disease resulting in death, occurred shall be credited against the amount of any judgment for compensation recovered pursuant to Section 3717. The amount recovered in such action from such employer shall be paid into the Uninsured Employers Fund.

SEC. 7. Section 3719 is added to the Labor Code, to read:

3719. Any suit, action, proceeding, or award brought or made against any employer under Section 3717 may be compromised by the Director of Industrial Relations, or such suit, action, or proceeding may be prosecuted to final judgment as in the discretion of the director may best subserve the interests of the Uninsured Employers Fund.

SEC. 8. Section 3720 is added to the Labor Code, to read:

3720. When the appeals board determines under Section 3715 that a claim has been filed with it against an employer who has not secured the payment of compensation as required by this division, the administrative director shall file for record in the office of the county recorder in the counties where such employer's property is located, a certificate prepared and furnished him by the appeals board showing the date on which such application was filed with the appeals board, the name and address of the employer against whom it was filed, and the fact that the employer has not secured the payment of compensation as required by this division. Upon such recordation, such certificate constitutes a valid lien in favor of the Director of Industrial Relations, and shall have the same force, effect and priority as a judgment lien. A copy of such a certificate shall be served upon the employer by the appeals board.

SEC. 9. Section 3721 is added to the Labor Code, to read:

3721. The administrative director shall have such lien canceled of record after the employer has paid to the claimant or to the Uninsured Employers Fund the amount of the compensation or benefits which has been ordered paid to the claimant, or when the application has finally been denied after the claimant has exhausted the remedies provided by law in such cases, or when the employer has filed a bond in such amount and with such surety as the appeals board approves conditioned on the payment of all sums ordered paid to the claimant. The recorder shall make no charge for the services provided by this section to be performed by him.

SEC. 10. Section 3722 is added to the Labor Code, to read:

3722. If upon the filing of a claim for compensation under this division the appeals board finds that any employer has not secured the payment of compensation as required by this division, the appeals board shall so notify the Director of Industrial Relations and the employer. Within 20 days thereafter the employer shall furnish the director with the payroll covering the period of 12 months prior to the date of notification, and shall pay, as a penalty, into the Uninsured Employers Fund an amount equal to the amount of premium applicable to such payroll which would have been due had

the employer been insured therefor by the State Compensation Fund.

SEC. 11. Section 3723 is added to the Labor Code, to read:

3723. If the employer does not furnish the payroll and pay the applicable penalty required by Section 3722 within 20 days, the director shall forthwith make an assessment of the penalty due from the employer for the period, basing the assessment upon such information as may be in the possession of the director.

SEC. 12. Section 3724 is added to the Labor Code, to read:

3724. The director shall give to the employer assessed written notice of the penalty assessment. Such notice shall be mailed to the employer at his residence or usual place of business by registered or certified mail. Unless the employer to whom the notice of assessment is directed files with the director within 20 days after receipt thereof, a petition in writing, verified under oath by the employer, or his authorized agent having knowledge of the facts, setting forth with particularity the items of the assessment objected to, together with the reason for such objections, such assessment shall become conclusive and the amount thereof shall be due and payable from the employer so assessed to the Uninsured Employers Fund.

SEC. 13. Section 3725 is added to the Labor Code, to read:

3725. When a petition objecting to a penalty assessment is filed, the director shall assign a time and place for the hearing of the same and shall notify the petitioner thereof by registered or certified mail. When an employer files such a petition, the assessment made by the director shall become due and payable 10 days after notice of the finding made at the hearing has been sent by registered or certified mail to the party assessed. An appeal may be taken from any such finding to the appropriate superior court upon the execution by the party assessed of a bond to the state in double the amount so found due and ordered paid by the director conditioned that the party will pay any judgment and costs rendered against it for the premium.

SEC. 14. Section 3726 is added to the Labor Code, to read:

3726. When no petition objecting to a penalty assessment is filed or when a finding is made affirming or modifying such an assessment after hearing, a certified copy of the assessment as affirmed or modified may be filed by the director in the office of the clerk of the superior court in any county in which the employer has property or in which the employer has a place of business. The clerk, immediately upon the filing of such assessment, shall enter a judgment for the state against the employer in the amount shown on the assessment. The judgment may be filed by the clerk in a looseleaf book entitled "Special Judgments for State Uninsured Employers Fund." Such judgment shall bear the same rate of interest and shall have the same effect as other judgments and be given the same preference allowed by law on other judgments rendered for claims for taxes. An assessment or judgment under this sec-

tion shall not be a bar to the adjustment of the employer's account upon the employer furnishing his payroll records to the director.

SEC. 15. Section 3727 is added to the Labor Code, to read:

3727. If the appeals board on motion of the administrative director determines pursuant to Section 3722 that an employer has failed to secure the payment of compensation as required by this division, the administrative director shall file with the county recorder of any counties in which such employer's property may be located his certificate of the amount of penalty due from such employer and such amount shall be a lien in favor of the director from the date of such filing against the real property and personal property of the employer within the county in which such certificate is filed. The recorder shall accept and file such certificate and record the same as a mortgage on real estate and shall file the same as a security interest and he shall index the same as mortgage on real estate and as a security interest. The recorder shall make no charge for the services provided by this section to be performed by him.

SEC. 16. The sum of fifty thousand dollars ($50,000) is hereby appropriated to the Uninsured Employers Fund from the Department of Human Resources Development Contingent Fund to carry out the purposes of this act. This appropriation shall not reduce the amount of the unencumbered balance of the Department of Human Resources Development Contingent Fund that would be transferred to the General Fund pursuant to Section 19.1 of the Budget Act of 1971 had the appropriation not been made.

The Department of Human Resources Development Contingent Fund shall be reimbursed in the amount of fifty thousand dollars ($50,000) out of the revenue paid into the Uninsured Employers Fund pursuant to Section 3718 of the Labor Code or any other provision of law.

SEC. 17. For the fiscal year 1971–1972, expenses of the Workmen's Compensation Appeals Board and of the Division of Industrial Accidents in carrying on the purposes of this act shall be paid from the money appropriated by Section 16 of this act.

## CHAPTER 1600

*An act to add Chapter 10.1 (commencing with Section 6961) to Division 6 of the Education Code, relating to special educational services.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 10.1 (commencing with Section 6961) is added to Division 6 of the Education Code, to read:

## CHAPTER 10.1. CONTRACTS FOR SPECIAL EDUCATIONAL PROGRAMS

6961. This act may be known and cited as "The Guaranteed Learning Achievement Act of 1971."

6962. The Legislature finds and declares, as follows:

(a) The State of California is committed to the ideal of a free public education for every child, consistent with his talents and abilities, and to this end the state and local governments expend annually substantial sums of money on local public school districts;

(b) The rising costs of public education in kindergarten and grades 1 through 12, inclusive, in the state, together with the increasing burden of property taxes for schools borne by residents of local school districts, when projected into the future, make it evident that new methods must be found to educate the children of the state to their fullest potential within the public sector, so that future projected educational costs might be reduced.

On the basis of these findings, it is the intent and purpose of the Legislature in enacting this chapter relating to experimental projects:

1. To increase significantly the achievement levels in reading and mathematics of children attending California public schools in the primary and elementary grades, as defined, through the use of contracts between public school districts and private contractors;

2. To provide that such contracting shall be on the basis of a "performance guarantee," whereby each private contractor is reimbursed on the basis of the performance and achievement of each child involved in the special experimental program;

3. To make the fullest use of federal funds which are or may become available for aid to public education in this state, especially for innovative and original public school programs;

4. To reinforce in public education the private enterprise concept of accountability for results, as measured by specific pupil achievement and mastery of basic skills, by holding the contractor and the school district directly responsible for a student's achievement and mastery of basic skills, or the lack thereof;

5. To demonstrate the effectiveness of new and innovative approaches to learning, which may later be capable of being transferred operationally to the public school system;

6. To reduce, consistent with quality and improved student achievement, future projected public school costs in this state.

6962.5. It is the further intent of the Legislature that the programs authorized by this chapter shall be experimental in nature and that the programs be conducted on a limited scale, with the results derived therefrom to be analyzed to determine the feasibility of general application of the methods of the program.

6963. As used in this chapter:

(a) "Public school district" means any public school district in this state operating any combination of kindergarten and grades 1 through 12, inclusive, but does not include community college districts.

(b) "Private contractor" means any private individual, partnership, joint venture, firm, corporation, teachers' association, or other business entity involved and doing business in the field of educational research, testing, methodology, or any other aspect of the educational program, organized, registered, or licensed to lawfully do business in the State of California, and bonded.

(c) "Primary and elementary grades" means any educational program normally conducted by a public school district for children enrolled in kindergarten and grades 1 through 6, inclusive.

(d) "Performance guarantee contract" means a contract between a public school district and a private contractor pursuant to this chapter wherein the reimbursement to be provided by the public school district to the private contractor is based upon the measurable achievement and mastery of basic skills of students enrolled in the special program, and the maintenance of that student achievement for a period not less than six months after the date of the measurement of student achievement first required to ascertain the private contractor's reimbursement.

(e) "Penalty clause" means, as an integral part of every performance guarantee contract entered into pursuant to this chapter, a money penalty paid by the private contractor to the public school district with which he has contracted on account of each student who has not reached the level of achievement, mastery of basic skills, and proficiency specified in the contract and maintained that level of achievement and proficiency for at least six months thereafter.

(f) "The Elementary and Secondary Education Act of 1965" means Public Law 10 (79 Stat. 27) of the 89th Congress, and all acts supplemental thereto.

(g) "Evaluation and testing procedure" means the method of ascertaining the beginning and ending achievement, mastery of basic skills, and proficiency level in reading and mathematics of students enrolled in the special programs authorized pursuant to this chapter, which method shall be specifically set forth in any performance guarantee contract. Such evaluation and testing procedure shall make use of measurement devices specifically approved for this purpose by the State Board of Education on recommendation of the Superintendent of Public Instruction or developed by the contracting parties who have reached agreement on evaluation and testing procedures subject to the approval of the Superintendent of Public Instruction. Such tests shall be administered by the Superintendent of Public Instruction.

6964. To participate in this experimental project, any public school district in this state may, with the approval of its governing board, submit to the Superintendent of Public Instruction a proposal to enter into a performance guarantee contract with a private contractor to provide the special programs authorized pursuant to this chapter. Such proposal shall propose special programs only in the fields of reading and mathematics. The proposal shall include a copy of the proposed performance guarantee contract, including the preschool or primary grades to be enrolled in the special program, the basis for reimbursement to the private contractor to include the penalty clause, the evaluation and testing procedure to be employed in the program, and the period of time of the program. Each such contract shall include in its terms specified levels of achievement, mastery of basic skills, and proficiency to be reached by enrollees in the program within a specified period of time, upon which any penalty under a penalty clause shall be based. Each proposal submitted pursuant to this section shall contain a description of the proposed method of funding, to include federal, state, and local sources.

The governing board shall consider the amount and degree of improvement guaranteed, as well as the total cost.

No contract submitted to the Superintendent of Public Instruction shall be entered into by any public school district without the express approval of the superintendent. The superintendent may also, at the time he approves such a contract, approve the allocation of federal funds available under the Elementary and Secondary Education Act of 1965 or any other federal act providing federal aid to public school districts to finance, in whole or in part, the special program to be conducted under the contract. He shall also determine the amount of state funds to be allowed to the district.

No proposal shall be approved by the State Board of Education which does not, in the opinion of the State Board of Education, offer a substantial chance of being transferred and duplicated by the public school system at a later date, if the special program therein contained is found to have merit in terms of improving student achievement and mastery of basic skills in the subject or subjects specified and reducing future projected public school costs.

6965. Any performance guarantee contract submitted, together with a program proposal, by a public school district shall contain:

(a) An outline of the special program to be provided by the private contractor, and whether the program is to be provided in reading, mathematics, or both.

(b) The primary and elementary grade levels to be enrolled in the special program, together with the estimate of the total number of students to be enrolled in each grade level in the program.

(c) The achievement goal of students enrolled in the special program, to be achieved by the private contractor, stated in

terms of reading or arithmetical achievement on the basis of performance objectives, mastery of basic skills, or other recognized basis of proficiency.

(d) The basis of reimbursement by the public school district to the private contractor and the penalty clause.

(e) The evaluation and testing procedure to be employed in the special project.

(f) A design for an audit of the program.

6965.2. A performance guarantee contract may include provision for:

(a) The use of regular teachers employed in the public school district in the special program, or other special certificated personnel employed in the public school district.

(b) The use of special teaching machines or other unique teaching methodology.

(c) The lease or sale of such teaching machines to the school district upon completion of the special program.

(d) The waiver of certification qualifications for persons employed in the special program.

(e) Payment for 20 percent of the work after 40 percent of it is performed, and payment for an additional 20 percent of the work after 60 percent of its is performed.

Twenty percent of the payment for the work performed shall be withheld for a period not to exceed six months following the completion of the contract services.

(f) Certificated and regular teachers employed in the public schools shall be used in performance guarantee contracts on a voluntary basis.

(g) No certificated employee currently employed by a school district shall lose his position because of any personnel and machine requirements of a performance guarantee contract.

(h) Any certificated employee of a school district who agrees to teach pursuant to a performance guarantee contract shall have the right to continue his membership in any certificated employee organization and to utilize the services of such organization to render advice about, and to negotiate, provisions of his employment contract with the private contractor.

This enumeration of provisions which may be included in a performance guarantee contract shall not be deemed to be exclusive.

6965.5. No later than 90 days following the completion of a special program authorized by virtue of an approved performance guarantee contract, the public school district contracting for the program shall submit to the Superintendent of Public Instruction a report and evaluation of the success or failure of the program in terms of the numbers of enrollees successfully completing the program. An enrollee shall be deemed to have successfully completed the program if he meets the performance standard established in the contract in the time specified in such contract. The report and evaluation shall include the numbers of student enrollees who exceeded and who did not meet the performance standards established by the

contract, and the amount of penalty assessed or incentive award granted, as the case may be, on account of such student enrollee. The report and evaluation shall also include a statement of the probability and feasibility of the transferral of the special program to the operational control of a public school district, together with the judgment of the public school district as to the success or failure of the special program conducted pursuant to the contract.

6965.6. The Superintendent of Public Instruction is responsible for the conduct of both preinstruction and postinstruction testing for performance guarantee contracts.

6965.7. The special programs authorized pursuant to this chapter shall be entered into on a purely voluntary basis by public school districts in the state.

6965.9. Participation in the program authorized by this chapter is experimental in nature. In reviewing proposals and proposed contracts submitted by public school districts pursuant to this chapter, the Superintendent of Public Instruction shall select for approval special programs conducted in five public school districts, each of which shall have one of the following general characteristics:

(a) A district located in a densely populated urban area, with higher than average rates of unemployment, welfare dependency, lower than average scores on statewide pupil achievement tests, and similar characteristics.

(b) A district located in a suburban community.

(c) A district located in a rural, agricultural area, or in a city or town surrounded largely by a rural, agricultural area.

(d) A district ranking among the largest 20 school districts, in terms of pupil enrollment, in the state.

(e) A district enrolling not more than 5,000 pupils in all grades operated by the district.

In no event shall more than one-fourth of the federal funds which may be available pursuant to this chapter be allocated for projects and contracts submitted by a public school district.

6966. No later than April 1 of each year the Superintendent of Public Instruction shall submit to the Assembly, the Senate, the Governor and the State Board of Education a comprehensive report summarizing the special programs which have been conducted in the last full year pursuant to this chapter, their effectiveness or lack thereof in improving the achievement levels of students enrolled, their cost in comparison with comparable public school costs for programs in the same subjects at the same grade levels, the total cost of all special programs approved, and any recommendations for future legislative or executive changes which might be made in the programs or the statutes.

6966.5. In undertaking his responsibilities and duties pursuant to this chapter the Superintendent of Public Instruction may recommend to the State Board of Education, and the State Board of Education may allocate funds received or allocable to California pursuant to the Elementary and Secondary

Education Act of 1965 for the purposes of special programs authorized by this chapter.

The Superintendent of Public Instruction shall also allow to those school districts the state funds appropriated for expenditure pursuant to this chapter or funds available pursuant to the Miller-Unruh Basic Reading Act of 1965 (Chapter 5.8 (commencing with Section 5770) of this division). Funds appropriated for expenditure under the Miller-Unruh Basic Reading Act of 1965 are hereby reappropriated for expenditure pursuant to this chapter in such amounts as are required by the Superintendent of Public Instruction to make the allowances required or authorized by this chapter.

Public school districts may include in their budgets any amount necessary to support special programs authorized by this chapter, which are contracted for by the district.

The State Board of Education may recommend and the Governor may include in the Budget Bill for the fiscal year 1972–1973 and fiscal years thereafter an amount sufficient to partially support the special programs authorized by this chapter.

6966.7. This chapter shall remain in effect until June 30, 1975, and shall have no force or effect thereafter.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. Any public school district participating in this program shall continue to receive all state aid to which it would otherwise be entitled and the average daily attendance shall include pupils enrolled in special programs established by this act.

SECTION 1. Section 6254.7 of the Government Code is amended to read:

6254.7. ## CHAPTER 1602

*An act to amend Sections 189, 190, and 190.01 of the Streets and Highways Code, relating to grade separations.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 189 of the Streets and Highways Code is amended to read:

189. On or before the first day of each year, the Public Utilities Commission shall establish and furnish to the Department of Public Works a list of existing and proposed crossings at grade in separation of grade districts, of city streets or county roads and the tracks of any railroad corporation or corporations or the tracks of any municipal corporation, transit district, rapid transit district, or other public entity engaged in providing rail passenger transportation services, of projects effecting the elimination of grade crossing by removal or relocation of streets or railroad tracks, and of existing grade separations in need of alteration or reconstruction in the order of priority which, in the judgment of the commission, justifies the elimination of the crossing at grade by the erection or construction of separation structures, or by removal or relocation of streets or railroad tracks, or justifies the alteration or reconstruction of existing grade separations. The commission shall include in such listing only such existing and proposed crossings, and existing separations, which, in its judgment, are most urgently in need of separation or alteration, taking into consideration the possibility of financing the same under the provisions of this code.

The priority list shall terminate on the last day of the year for which it is established.

SEC. 2. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1, the sum of five million dollars ($5,000,000) shall be set aside for allocations to grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after

an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section. In financing its share of the project cost, the local agency may use any funds available to it.

The department and the commission may make allocations from a succeeding fiscal year's sum of five million dollars ($5,000,000) on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Funds set aside for the purposes specified in this section shall be available for allocation and expenditure without regard to fiscal years.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC. 3. Section 190.01 of the Streets and Highways Code is amended to read:

190.01. Allocations may be made pursuant to Section 190 to a local agency, as defined in that section, for grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of municipal corporations, transit districts, rapid transit districts, or other public entities which provide rail passenger transportation services. Allocations for such a project shall be for one-half of the portion of the cost of the project which the California Highway Commission and the department determine to be properly allocable to the betterment of traffic conditions on the local street or road involved. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks.

Any references in any law or regulation to Section 190 shall also be deemed to include reference to this section.

SEC. 4. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1, commencing with the 1972–1973 fiscal year, the sum of ten million dollars ($10,000,000) shall be set aside for allocations to grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of separations of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing align-

ment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section. In financing its share of the project cost, the local agency may use any funds available to it. Notwithstanding any other provision of law, when the local agency uses funds derived from the TOPICS Program, pursuant to Chapter 6 (commencing with Section 2300) of Division 3 of the Streets and Highways Code in financing its share of the project cost, the allocation to be made pursuant to this section shall be computed as though such local agency contribution was derived from nonfederal sources and shall be computed as though the railroad had made its contribution pursuant to state law rather than pursuant to federal law.

The department and the commission may make allocations from a succeeding fiscal year's sum set aside for purposes of this section on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The first five million dollars ($5,000,000) of the fund set aside by this section each fiscal year shall be available for allocation and expenditure without regard to fiscal year.

The department and the commission shall revert as of October 1st of each fiscal year any unallocated amount of the

balance of the annual sum of ten million dollars ($10,000,000) set aside by this section for that fiscal year. Any other funds that may be set aside for the purposes of this section shall be allocated prior to the allocation of the above ten million dollars ($10,000,000) and shall be available for allocation and expenditure without regard to fiscal years.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC. 5. It is the intent of the Legislature, if this bill and Senate Bill No. 141 are both chaptered and amend Section 190 of the Streets and Highways Code, and this bill is chaptered after Senate Bill No. 141, that the amendments to Section 190 proposed by both bills be given effect and incorporated in Section 190 in the form set forth in Section 4 of this act. Therefore, Section 4 of this act shall become operative only if this bill and Senate Bill No. 141 are both chaptered, both amend Section 190, and Senate Bill No. 141 is chaptered before this bill, in which case Section 2 of this act shall not become operative.

## CHAPTER 1603

*An act to add Article 4 (commencing with Section 6585) to Chapter 5, Division 7, Title 1 of, and to add Section 6515 to, the Government Code, relating to joint exercise of powers.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 6515 is added to the Government Code, to read:

6515. In addition to other powers, any agency, commission or board provided for by a joint powers agreement entered into pursuant to Article 1 (commencing with Section 6500) of this chapter between an irrigation district and a city, if such entity has the power to acquire, construct, maintain or operate systems, plants, buildings, works and other facilities and property for the supplying of water for domestic, irrigation, sanitation, industrial, fire protection, recreation or any other public or private uses, may issue revenue bonds pursuant to the Revenue Bond Law of 1941 (commencing with Section 54300) to pay the cost and expenses of acquiring, constructing, improving and financing a project for any or all of such purposes.

Upon the entity adopting the resolution referred to in Article 3 (commencing with Section 54380) the irrigation district and the city shall implement the same by each conducting the election in its own territory. The proposition authorizing the bonds shall be deemed adopted if it receives the affirmative vote of a majority of all the voters voting on the proposition within the entity.

The provisions of this section shall be of no further force and effect after December 31, 1973, unless the entity is unable to accomplish the purpose of this section by reason of litigation, in which case this section shall continue to be effective until the final determination of such litigation and for one year thereafter.

## CHAPTER 1604

*An act to amend Section 441 of the Revenue and Taxation Code, relating to property taxation.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 441 of the Revenue and Taxation Code is amended to read:

441. Every person owning taxable personal property having an aggregate cost of thirty thousand dollars ($30,000) or

more shall file a signed property statement with the assessor. Every person owning personal property which does not require the filing of a property statement or real property shall upon request of the assessor file a signed property statement. Failure of the assessor to request or secure the property statement does not render any assessment invalid.

(a) The property statement shall be declared to be true under the penalty of perjury and filed with the assessor between the lien date and 5 p.m. on the last Friday in May, annually, or between the lien date and such earlier time as the assessor may appoint.

(b) If the assessor appoints a time other than the last Friday in May, it shall be no earlier than April 1. In this event the penalty provided by Section 463 shall apply if the property statement is not filed with the assessor by 5 o'clock p.m. on the last Friday in May or if:

(1) The property statement is not filed within the time appointed by the assessor; and

(2) The assessor has given notice by certified or registered mail no earlier than 15 days after the time appointed by the assessor of nonreceipt of the property statement within the appointed time; and

(3) The property statement has not been filed with the assessor within 15 days following the date of receipt of such notice.

(c) The property statement may be filed with the assessor through the United States mail, properly addressed with postage prepaid. This subdivision shall be applicable to every taxing agency, including but not limited to, a chartered city and county, or chartered city.

(d) At any time, as required by the assessor for assessment purposes, every person shall make available for examination information or records regarding his property. In this connection details of property acquisition transactions, construction and development costs, rental income, and other data relevant to the determination of an estimate of value are to be considered as information essential to the proper discharge of the assessor's duties.

(e) In the case of a corporate owner of property, the property statement shall be signed either by an officer of the corporation or an employee or agent who has been designated in writing by the board of directors to sign such statements on behalf of the corporation.

(f) The assessor may refuse to accept any property statement he determines to be in error.

SEC. 2 Section 1 of this act shall apply for the 1972–1973 assessment year and assessment years thereafter.

For the 1972–1973 and 1973–1974 assessment years, any property statement which, under Section 441 of the Revenue and Taxation Code, must be filed with the assessor between the lien date and 5 p.m. on the last Friday in May, shall be considered to be timely filed if filed with the assessor between

the lien date and the last Monday in May, and the penalty provided by Section 463 of the Revenue and Taxation Code shall not apply.

For the 1972–1973 and 1973–1974 assessment years, if the assessor has appointed a time for filing other than the last Friday in May, but has not given a timely notice of nonreceipt of the property statement, any property statement filed with the assessor between the lien date and 5 p.m. on the last Monday in May shall be considered to be timely filed and the penalty provided by Section 463 of the Revenue and Taxation Code shall not apply.

## CHAPTER 1605

*An act to amend Sections 1170 and 1210 of the Harbors and Navigation Code, relating to bar pilots, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1170 of the Harbors and Navigation Code is amended to read:

1170. Every vessel spoken inward or outward bound, shall pay the following rate of bar pilotage through the Golden Gate and into or out of the Bays of San Francisco, San Pablo, and Suisun:

Seven dollars and fifty cents (7.50) per draft foot of the vessel's deepest draft and fractions of a foot pro rata, and an additional charge of five mils ($0.005) per high gross registered ton. A minimum charge for such bar pilotage shall be two hundred dollars ($200) for each vessel piloted. The vessel's deepest draft shall be the maximum draft attained, on a stillwater basis, at any part of the vessel during the course of such transit inward or outward.

SEC. 2. Section 1210 of the Harbors and Navigation Code is amended to read:

1210. In preparing its recommendations to the Legislature with relationship to pilotage rates, the committee may require an independent audit or audits by a public accountant selected by the committee, such audit or audits to cover bar pilotage operations for such years as may be determined by the committee, and the committee shall further give consideration to other relevant factors, including, but not limited to, the following:

(1) The costs to the pilots, individually or jointly, of providing pilot service as required.

(2) A net return to the pilot sufficient to attract and hold persons capable of performing this service with safety to the public and protection to the property of persons using the

service; and the relationship of that income to any changes in cost-of-living indices.

(3) Pilotage rates charged for comparable services rendered in other ports and harbors in the United States.

(4) The methods of determining pilotage rates in other ports and harbors in the United States.

(5) Economic factors affecting the local shipping industry, including prospective increases or decreases in income and labor costs.

(6) Additional factors affecting income to pilots such as the volume of shipping traffic using pilotage, numbers of pilots available to perform services, income paid for comparable services, and other factors of related nature.

(7) Changes in, or additions to, navigational and safety equipment necessary to insure protection of persons, ships, and waterways.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Although an income standard for bar pilots for San Francisco, San Pablo, and Suisun Bays was set forth in Chapter 1302 of the Statutes of 1970 at a level determined to be reasonable and necessary to attract and hold trained, competent pilots capable of safely guiding vessels across the hazardous San Francisco bar, current pilot income is far below that standard. The Pilotage Rate Committee for San Francisco, San Pablo, and Suisun Bays, composed of pilot, public, and industry members, has unanimously recommended the rate adjustment which would be established by this act in order to provide additional moneys for urgently needed increases in pilot income, thus it is necessary that this act take effect immediately.

## CHAPTER 1606

*The people of the State of California do enact as follows:*

SECTION 1. Section 4506 of the Business and Professions Code is amended to read:

4506. Notwithstanding any other provision of this chapter, any person who prior to July 1, 1972, presents evidence satisfactory to the board to show that he has performed services described in Section 4502 for a period of not less than two years within the last five years prior to January 1, 1970, or was employed by the State of California during any period of

## CHAPTER 1607

*An act to amend Sections 96, 2922, and 2924 of, and to add Section 2929 to, the Labor Code, relating to employment.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 96 of the Labor Code is amended to read:

96. The Labor Commissioner and his deputies and representatives authorized by him in writing may take assignments of:

(a) Wage claims and incidental expense accounts and advances.

(b) Mechanics' and other liens of employees.

(c) Claims based on "stop orders" for wages and on bonds for labor.

(d) Claims for damages for misrepresentations of conditions of employment.

(e) Claims for unreturned bond money of employees.

(f) Claims for penalties for nonpayment of wages.

(g) Claims for the return of workmen's tools in the illegal possession of another person.

(h) Claims for vacation pay, severance pay, or other compensation supplemental to a wage agreement.

(i) Awards for workmen's compensation benefits in which the Workmen's Compensation Appeals Board has found that the employer has failed to secure payment of compensation and where the award remains unpaid more than 10 days after having become final.

(j) Claims for loss of wages as the result of discharge from employment for the garnishment of wages

SEC. 2. Section 2922 of the Labor Code is amended to read:

2922. An employment, having no specified term, may be terminated at the will of either party on notice to the other.

Employment for a specified term means an employment for a period greater than one month.

SEC. 3. Section 2924 of the Labor Code is amended to read:

2924. An employment for a specified term may be terminated at any time by the employer in case of any willful breach of duty by the employee in the course of his employment, or in case of his habitual neglect of his duty or continued incapacity to perform it.

SEC. 4. Section 2929 is added to the Labor Code, to read:

2929. (a) As used in this section:

(1) "Garnishment" means any judicial procedure through which the wages of an employee are required to be withheld for the payment of any debt.

(2) "Wages" has the same meaning as that term has under Section 200.

(b) No employer may discharge any employee by reason of the fact that the garnishment of his wages has been threatened. No employer may discharge any employee by reason of the fact that his wages have been subjected to garnishment for the payment of one judgment. (c) Unless the employee has greater rights under the contract of employment, the wages of an employee who is discharged in violation of this section shall continue until reinstatement notwithstanding such discharge, but such wages shall not continue for more than 30 days and shall not exceed the amount of wages earned during the 30 calendar days immediately preceding the date of the levy of execution upon the employee's wages which resulted in his discharge. The employee shall give notice to his employer of his intention to make a wage claim under this subdivision within 30 days after being discharged; and, if he desires to have the Labor Commissioner take an assignment of his wage claim, the employee shall file a wage claim with the Labor Commissioner within 60 days after being discharged. The Labor Commissioner may, in his discretion, take assignment of wage claims under this subdivision as provided for in Section 96. A discharged employee shall not be permitted to recover wages under this subdivision if a criminal prosecution based on the same discharge has been commenced for violation of Section 304 of the Consumer Credit Protection Act of 1968 (15 U.S.C. Sec. 1674).

(d) Nothing in this section affects any other rights the employee may have against his employer.

(e) This section is intended to aid in the enforcement of the prohibition against discharge for garnishment of earnings provided in the Consumer Credit Protection Act of 1968 (15 U.S.C. Secs 1671–1677) and shall be interpreted and applied in a manner which is consistent with the corresponding provisions of such act.

## CHAPTER 1608

*An act to amend Sections 3905, 3922, and 3940 of, and to add Section 3918 to, the Business and Professions Code, relating to nursing home administrators, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor November 22, 1971. Filed with Secretary of State November 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 3905 of the Business and Professions Code is amended to read:

3905. On and after July 1, 1972, it shall be a misdemeanor for any person to act or serve in the capacity of a nursing home administrator, unless he is the holder of a nursing home administrator's license issued in accordance with the provisions of this chapter; except that persons carrying out functions and duties delegated by a licensed administrator shall not be construed to be committing any unlawful act under this chapter.

This section shall not apply to any person who serves as an acting administrator as provided in this paragraph when a licensed administrator is not available because of death, illness, or any other reason. A person who is acting as an administrator shall notify the board within five days of that fact and the circumstances which made it necessary. No person shall act as an administrator for more than 10 days unless arrangements have been made for part-time supervision of his activities by a nursing home administrator who holds a license or provisional license under this chapter. The board shall be notified of the nature of such arrangements. No person may act as an administrator for more than two months without the approval of the board and the board may not approve a person to act as an administrator for more than six months.

SEC. 2. Section 3918 is added to the Business and Professions Code, to read:

3918. The members of the board shall receive a per diem and expenses pursuant to the provisions of Section 103. In addition, each member of the board who is a member of the board on the effective date of this section shall receive an additional per diem of twenty-five dollars ($25) for each day actually spent in the discharge of his official duties for the first 20 such days so spent at any time on and after the effective date of this section. Such payments in each instance shall be made only from the Nursing Home Administrator's State License Examining Board Fund and shall be subject to the availability of money in that fund.

SEC. 3. Section 3922 of the Business and Professions Code is amended to read:

3922. (a) A provisional license may be issued to any individual applying therefor who has served, as shown by such individual's affidavit, as a nursing home administrator during all of the calendar year immediately preceding the calendar year in which the requirements prescribed in Section 1902 (a)(29) of Title XIX of the Social Security Act are first met by the state, and who meets the standards specified in subdivisions (a), (b), and (c) of Section 3920. Any such provisional license shall terminate upon the issuance of a permanent license or at midnight, June 30, 1972, whichever is earlier.

(b) If a provisional license is issued to an individual, there shall be provided in this state during all of the period for which such provisional license remains in effect, a program of training and instruction designed to enable all provisionally licensed nursing home administrators to attain the qualifications necessary to be fully licensed as a nursing home administrator, as provided under this chapter.

SEC. 4. Section 3940 of the Business and Professions Code is amended to read:

3940. The amount of the fees prescribed by this chapter is that fixed by the following schedule:

(a) The application fee for a nursing home administrator's license or provisional license is not less than twenty-five dollars ($25) nor more than fifty dollars ($50).

### CHAPTER 2. THE COUNTY SHORT-DOYLE PLAN

5650. On or before October 1 of each year, the board of supervisors of each county, or boards of supervisors of counties acting jointly, shall adopt, and submit to the Director of Mental Hygiene in the form and according to the procedures specified by the director, an annual county Short-Doyle plan for the next fiscal year for mental health services in the county or counties. The purpose of a county plan shall be to provide the basis for reimbursement pursuant to the provisions of this division and to coordinate services as specified in this chapter in such a manner as to avoid duplication, fragmentation of services, and unnecessary expenditures.

To achieve this purpose, a county Short-Doyle plan shall provide for the most appropriate and economical use of all existing public and private agencies, licensed private institutions, and personnel. A county Short-Doyle plan shall include the fullest possible and most appropriate participation by existing city Short-Doyle programs, local public and private general and psychiatric hospitals, state hospitals, city, county, and state health and welfare agencies, public guardians, mental health counselors, alcoholism programs, probation departments,

physicians, psychologists, social workers, public health nurses, psychiatric technicians, and all such other public and private agencies and personnel as are required to, or may agree to, participate in the county Short-Doyle plan.

5651. The county Short-Doyle plan shall include the following:

(a) A description of the persons to be served. This shall include the number of persons to be served in each of the following target groups: general mental disorder, children and adolescents, alcoholism, drug abuse, and mentally retarded. Each target group shall be further categorized by age groups.

(b) A description of all the comprehensive direct service programs to be provided to each target group. This shall include the state, county, and private resources providing the services, the cost of each comprehensive program, and the cost of each major program element within each comprehensive program.

(c) A description of the indirect and supportive services necessary for the operation of the county's mental health program. This shall include consultation and education services available to community agencies and professional personnel and information services to the general public, including drug counseling services offered in public schools, training research and evaluation. The plan shall also include the cost of each of these services.

(d) A five-year projection of county needs for each target group commencing with the fiscal year for which the plan is adopted. This projection shall include a priority listing of the resources required to meet the needs of each target group, and the estimated cost of developing and acquiring these resources.

(e) An estimate of the county's utilization of the state hospital by numbers of admissions and patient days for the succeeding fiscal year. This requirement shall not apply to patients for whom county expenditures for services are not reimbursable by the state under this part.

The State Department of Mental Hygiene shall provide the counties, to the extent possible, the information upon which to base this estimate.

No mentally disordered person or person afflicted with alcoholism shall be admitted to a state hospital prior to screening and referral by an agency designated by the county Short-Doyle plan to provide this service.

(f) A detailed presentation of all expected expenditures of county, state, and federal government funds and all anticipated public and private revenues.

(g) A detailed description of the methodology to be used by the county for evaluating the results of the programs and services being provided for each target group This methodology shall permit program evaluation including the relative cost and effectiveness of alternative forms and patterns of services.

(h) A description of the procedures used to insure citizen and professional involvement in the county's mental health planning process at all stages of its development. Such procedures shall be reviewed and approved by the local mental health advisory board.

5652. When the county Short-Doyle plan is submitted to the Director of Mental Hygiene it shall be accompanied by a document indicating the plan has been reviewed by the local mental health advisory board.

5653. In developing the county Short-Doyle plan, optimum use shall be made of appropriate local public and private organizations, community professional personnel, and state agencies. Optimum use shall also be made of federal, state, county, and private funds which may be available for mental health planning.

In order that maximum utilization be made of federal and other funds made available to the State Department of Rehabilitation, the State Department of Rehabilitation may serve as a contractual provider under the provisions of a county Short-Doyle plan of vocational rehabilitation services for the mentally disordered, mentally retarded, and persons afflicted with alcoholism.

Facilities established pursuant to Article 10 (commencing with Section 427) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code shall be considered in the development of the county plan.

5654. The county may elect to provide evaluation and treatment services for persons who are dangerous to themselves or others as a result of the use of narcotics or restricted dangerous drugs, or for persons who are impaired by chronic alcoholism, who are criminal defendants receiving services pursuant to Article 3 (commencing with Section 5225) of Chapter 2 of Part 1 of this division, or who are voluntary patients. The county Short-Doyle plan shall designate the specific facility or facilities for evaluation and treatment of such persons who are criminal defendants, or who are voluntary patients, and shall specify the maximum number of patients that can be served at one time by each such facility.

5655. All departments of state government and all local public agencies shall cooperate with county officials to assist them in mental health planning. The State Department of Mental Hygiene shall, upon request and with available staff, provide consultation services to the local mental health directors, local governing bodies and local mental health advisory boards.

5656. To enable the department to determine the relative cost-effectiveness of the programs and services included in the county plans, the department shall conduct a series of evaluations of the cost-effectiveness of the different types of programs and services being provided for each of the target groups. The department shall conduct these evaluations in at least five counties providing different types of programs and

services for the same target group and shall conduct these evaluations in such a manner as to enable the department to compare the relative cost-effectiveness of the same or similar programs or services provided in different counties.

5657. Evaluation studies shall be designed to provide the department, the Legislature, and the counties with at least the following information:

(a) Detailed description of the target group served;

(b) Detailed description of the kind of programs or services provided and their cost;

(c) Detailed description of the results of the programs or services—at six-month intervals—for at least 18 months after the programs or services have been initiated.

5658. After July 1, 1972, a primary responsibility of the department shall be to conduct such evaluation studies In conducting evaluation studies, the department may contract for research and evaluation services with counties, state agencies, or other public or private agencies.

5660. On or before July 1, 1972, the department shall present to the Legislature detailed plans for conducting such evaluation studies—including the counties selected for evaluation studies, each of the target groups to be studied and the methods to be used in conducting the studies.

5661. For fiscal year 1974–75 and each succeeding year thereafter, the director shall use the information developed in the evaluation studies as guidelines for the allocation of funds for target group programs as present in the county Short-Doyle plans. Standards should be developed to assure maximum cost-effectiveness of all programs, based on the evaluation studies

5662. After July 1, 1974, and each succeeding year thereafter, the department shall review and revise all standards for professional and other program requirements to assure that such standards conform to the findings of the evaluation studies.

5663. It is the intent of the Legislature that, to the extent feasible, new and expanded services requested in the county Short-Doyle plan shall provide alternatives to inpatient treatment. It is furthermore the intent of the Legislature that, to the extent feasible, counties that decrease their expenditures for inpatient treatment in any year below the costs of inpatient treatment in the previous year shall receive the amount of such decrease for new and expanded services requested in the county plan.

SEC. 4. Section 5703.1 is added to the Welfare and Institutions Code, to read:

5703.1. On or before March 15, 1972, and on or before March 15 of each year thereafter, each county shall submit to the Department of Mental Hygiene a revised county plan for the next succeeding fiscal year which includes such revisions as are necessary or desirable to make the plan compatible with the budget for that fiscal year submitted by the Gover-

nor to the Legislature. Such revised plan shall include a revised estimate of the county's utilization of the state hospital by numbers of admissions and patient-days for the next succeeding fiscal year. By May 1, 1972, and by May 1 of each year thereafter, the Department of Mental Hygiene shall review and approve each county plan together with such revisions and revised estimates. Such approval shall be subject to the amount appropriated for the purposes of such plans in the Budget Act for such fiscal year as enacted into law.

If the amount appropriated in the Budget Act for such fiscal year as enacted into law differs from the amount in the budget submitted by the Governor for such fiscal year, each county shall submit an additional revised plan in the form and at the time required by the Department of Mental Hygiene.

5704.2. The director, by August 1 of each year, shall distribute to the counties a report indicating the statewide average of inpatient costs in all counties participating in the Short-Doyle program. Such figure shall be calculated by identifying that portion of the total mental health program in each county which is devoted to inpatient services as a percentage of the total mental health program of the county. Inpatient services shall include services in the state hospital, county hospital, and local contract facilities.

SEC. 9. Section 5704.3 is added to the Welfare and Institutions Code, to read:

5704.3. SEC. 4. The provisions of this act are enacted by the Legislature as an exercise of the rulemaking power of the Senate and the Assembly, respectively, and as such they are deemed part of the rules of each house, respectively. ### Article 5. Elections for Financing Unemployment Insurance Coverage

802. (a) The State of California, or any instrumentality of this state or the governing board of any school district for which services are performed that constitute employment under Section 605, 605.2, or 605.5 may, in lieu of the contributions required of employers, elect to finance its liability for unemployment compensation benefits, extended duration benefits, and federal-state extended benefits with respect to such services by any method of financing coverage that is permitted under Section 803.

(b) Any election under Section 803 for financing coverage under this section shall take effect with respect to service performed from and after the first day of the calendar quarter in which the election is filed with the director, and shall continue in effect for not less than two full calendar years. Thereafter the election under Section 803 may be terminated as of January 1 of any calendar year only if the state or instrumentality or governing board, on or before the 31st day of January of that year, has filed with the director a written application for termination. The director may for good cause waive the requirement that a written application for termination shall be filed on or before the 31st day of January. In no event shall any method of financing coverage by an election under Section 803 be valid that would establish any different method of financing coverage for any calendar quarter where an election for coverage has also been made by the state or any instrumentality under any provision of Article 4 (commencing with Section 701) of this chapter.

(c) The director may require from the state, each instrumentality, and governing board, including any agent thereof, such employment, financial, statistical, or other information

and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the state, instrumentality, or governing board.

(e) The state, each instrumentality, and governing board, including any agent thereof, shall keep such work records as may be prescribed by the director for the proper administration of this division.

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

803. (a) As used in this section "entity" means any governing board of any school district or any employing unit that is authorized by any provision of Article 4 (commencing with Section 701) of this chapter or by Section 802 to elect a method of financing coverage permitted by this section.

(b) In lieu of the contributions required of employers, an entity may elect any one of the following:

(1) To pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (d) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits (including extended duration benefits and federal-state extended benefits) paid based on base period wages with respect to employment for the entity. Benefits otherwise payable irrespective of this section shall be charged to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid based on base period wages with respect to employment for an entity pursuant to this section shall be borne solely by the appropriate entity. If benefits are based on wages paid during a base period by two or more entities, the benefits shall be borne by each of the entities in the proportion that the total wages paid to the individual in employment by each entity during the base period bears to the total wages paid to the individual in employment by all entities during the base period. "Total wages paid" as used in this subdivision include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930. The director may by authorized regulations prescribe a method of providing a good and sufficient bond to guarantee payment of contributions under this subdivision.

(2) To pay into the Unemployment Fund the cost of benefits (including extended duration benefits and federal-state extended benefits) paid based on base period wages with respect to employment for the entity and charged to its account in the manner provided by Section 1026, pursuant to authorized regulations which shall prescribe the rate or

amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions.

(3) Two or more entities that have elected a method of financing under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purposes of determining the rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to employment for such entities. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits (including extended duration benefits and federal-state extended benefits) paid based on base period wages with respect to employment for such members, or to share the cost of benefits (including extended duration benefits and federal-state extended benefits) paid based on the base period wages with respect to employment for such members and charged to the joint account in the manner provided by Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in the manner provided by Section 1026.

(c) Sections 1030, 1030.5, 1031, 1032, and 1032.5, and any provision of this division for the noncharging of benefits to the account of an employer, shall not apply to an election under subdivision (b) of this section.

(d) In making the payments prescribed by subdivision (b) of this section there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each entity for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall give notice of the determination by certified mail to the entity. The director may cancel any contributions or portion thereof which he finds has been erroneously determined. The director shall charge to any special fund, which is responsible for the salary of any employee of an entity, the amount determined by the director for which the fund is liable pursuant to this section. The contributions due from the entity shall be paid from the liable special fund, the General Fund, or other liable fund to the Unemployment Fund by the Controller or other officer or

person responsible for disbursements on behalf of the entity within 30 days of the date of mailing of the director's notice of determination to the entity. The director for good cause may extend for not to exceed 60 days the time for paying without penalty the amount determined and required to be paid. Contributions are due upon the date of mailing of the notice of determination and are delinquent if not paid on or before the 30th day following the date of mailing of such notice. Any entity which fails to pay the contributions required within the time required shall be liable for interest on the contributions at the rate of ½ percent per month or fraction thereof from and after the date of delinquency until paid, and any entity which without good cause fails to pay any contributions required within the time required shall pay a penalty of 10 percent of the amount of such contributions. If the entity fails to pay the contributions required on or before the delinquency date, the director may assess the entity for the amount required by the notice of determination. The provisions of Article 8 (commencing with Section 1126) of Chapter 4 of Part 1 of this division with respect to the assessment of contributions and the provisions of Chapter 7 (commencing with Section 1701) of Part 1 of this division with respect to the collection of contributions shall apply to the assessments provided by this section. The provisions of Sections 1177 to 1184, inclusive, shall apply to amounts paid to the Unemployment Fund pursuant to this section.

(e) To the extent permitted by federal law, no contributions shall be due from any entity other than a nonprofit organization which has elected a method of financing under subdivision (b) of this section and which has previously made contributions required of employers pursuant to an elective coverage agreement or under compulsory coverage until the additional cost of benefits paid and reimbursable by or the cost of benefits paid and reimbursable by the entity under this section together with the benefits charged and chargeable to the reserve account of the entity as a result of its prior election or compulsory coverage exceed the contributions made by the entity and credited to its reserve account pursuant to its prior election or compulsory coverage.

(f) The director may terminate the election of any entity for any method of financing under this section if the entity is delinquent in the payment of advances or reimbursements required by the director under this section. After any such termination the entity may again make an election pursuant to this section but only if it is not delinquent in the payment of contributions and not delinquent in the payment of advances or reimbursements required by the director under this section.

(g) Notwithstanding any other provision of this section, no entity shall be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the State of California.

(h) After the termination of any election under this section, the entity shall remain liable for its proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to its account in the manner provided by Section 1026, which are based on wages paid for services during the period of the election. Any such liability may be charged against any remaining balance of a prior reserve account used by the entity pursuant to Section 712. Any portion of such remaining balance shall be included in the reserve account of the entity following any termination of an election under this section which occurs prior to the expiration of a period of three consecutive years commencing with the effective date of such election. For purposes of Section 982, the period of an election under Section 803 shall be, to the extent permitted by federal law, included as a period during which a reserve account has been subject to benefit charges.

SEC. 7. Section 802 of the Unemployment Insurance Code as proposed by Assembly Bill No. 1503 of the 1971 Regular Session is amended to read:

802. (a) The State of California, or any instrumentality of this state or of this state and one or more other states, or the governing board of any school district, for which services are performed that do constitute employment under Section 605, 605.1, 605.2, or 605.5 may, in lieu of the contributions required of employers, elect to finance its liability for unemployment compensation benefits, extended duration benefits, and federal-state extended benefits with respect to such services by any method of financing coverage that is permitted under Section 803.

(b) Any election under Section 803 for financing coverage under this section shall take effect with respect to services performed from and after the first day of the calendar quarter in which the election is filed with the director, and shall continue in effect for not less than two full calendar years. Thereafter the election under Section 803 may be terminated as of January 1 of any calendar year only if the state or instrumentality or governing board, on or before the 31st day of January of that year, has filed with the director a written application for termination. The director may for good cause waive the requirement that a written application for termination shall be filed on or before the 31st day of January. In no event shall any method of financing coverage by an election under Section 803 be valid that would establish any different method of financing coverage for any calendar quarter where an election for coverage has also been made by the state or any instrumentality under any provision of Article 4 (commencing with Section 701) of this chapter.

(c) The director may require from the state, each instrumentality, and each governing board, including any agent thereof, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division,

which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the state, instrumentality, or governing board.

(e) The state, each instrumentality, and each governing board, including any agent thereof, shall keep such work records as may be prescribed by the director for the proper administration of this division.

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

SEC. 8. Section 803 of the Unemployment Insurance Code as proposed by Assembly Bill No. 1503 of the 1971 Regular Session is amended to read:

803. (a) As used in this section "entity" means any governing board of any school district and any employing unit that is authorized or required by any provision of Article 4 (commencing with Section 701) of this chapter or by Section 801 or 802 to elect a method of financing coverage permitted by this section.

(b) In lieu of the contributions required of employers, an entity may elect any one of the following:

(1) To pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (c) of this section, an amount equal to the additional cost to the Unemployment Fund of the benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for the entity. Benefits otherwise payable irrespective of this section shall be charged to employers' accounts in accordance with other sections of this division, but the additional cost to the Unemployment Fund of the benefits paid based on base period wages with respect to employment for an entity pursuant to this section shall be borne solely by the appropriate entity. If benefits are based on wages paid during a base period by two or more entities, the benefits shall be borne by each of the entities in the proportion that the total wages paid to the individual in employment by each entity during the base period bears to the total wages paid to the individual in employment by all entities during the base period. "Total wages paid" as used in this subdivision, include taxable wages as well as wages which would be taxable except for the limitation on taxable wages provided under Section 930. The director may by authorized regulations prescribe a method of providing a good and sufficient bond to guarantee payment of contributions under this subdivision.

(2) To pay into the Unemployment Fund the cost of benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for the entity and charged to its account

in the manner provided by Section 1026, pursuant to authorized regulations which shall prescribe the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions.

(3) Two or more entities that have elected a method of financing under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purpose of determining the rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to employment for such entities. The members of the joint account may elect either to share the additional cost to the Unemployment Fund of the benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for such members, or to share the cost of benefits, including extended duration benefits and federal-state extended benefits, paid based on the base period wages with respect to employment for such members and charged to the joint account in the manner provided by Section 1026. The director shall prescribe authorized regulations for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions by the members of joint accounts, on an additional cost basis and on the alternative basis of the cost of benefits charged in the manner provided by Section 1026.

(c) Sections 1030, 1030.5, 1031, 1032, and 1032.5, and any provision of this division for the noncharging of benefits to the account of an employer, shall not apply to an election under subdivision (b) of this section.

(d) In making the payments prescribed by subdivision (b) of this section there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each entity for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall give notice of the determination by certified mail to the entity. The director may cancel any contributions or portion thereof which he finds has been erroneously determined. The director shall charge to any special fund, which is responsible for the salary of any employee of an entity, the amount determined by the director for which the fund is liable pursuant to this section. The contributions due from the entity shall be paid from the liable special fund, the General Fund, or other liable fund

to the Unemployment Fund by the Controller or other officer or person responsible for disbursements on behalf of the entity within 30 days of the date of mailing of the director's notice of determination to the entity. The director for good cause may extend for not to exceed 60 days the time for paying without penalty the amount determined and required to be paid. Contributions are due upon the date of mailing of the notice of determination and are delinquent if not paid on or before the 30th day following the date of mailing of such notice. Any entity which fails to pay the contributions required within the time required shall be liable for interest on the contributions at the rate of ½ percent per month or fraction thereof from and after the date of delinquency until paid, and any entity which without good cause fails to pay any contributions required within the time required shall pay a penalty of 10 percent of the amount of such contributions. If the entity fails to pay the contributions required on or before the delinquency date, the director may assess the entity for the amount required by the notice of determination. The provisions of Article 8 (commencing with Section 1126) of Chapter 4 of Part 1 of this division with respect to the assessment of contributions, and the provisions of Chapter 7 (commencing with Section 1701) of Part 1 of this division with respect to the collection of contributions, shall apply to the assessments provided by this section. The provisions of Sections 1177 to 1184, inclusive, relating to refunds and overpayments, shall apply to amounts paid to the Unemployment Fund pursuant to this section.

(e) To the extent permitted by federal law, no contributions shall be due from any entity other than a nonprofit organization which has elected a method of financing under subdivision (b) of this section and which has previously made contributions required of employers pursuant to an elective coverage agreement or under compulsory coverage until the additional cost of benefits paid and reimbursable by or the cost of benefits paid and reimbursable by the entity under this section together with the benefits charged and chargeable to the reserve account of the entity as a result of its prior election or compulsory coverage exceed the contributions made by the entity and credited to its reserve account pursuant to its prior election or compulsory coverage.

(f) Except with respect to a political subdivision electing coverage pursuant to Section 710.2, the director may terminate the election of any entity for any method of financing under this section if the entity is delinquent in the payment of advances or reimbursements required by the director under this section. After any such termination the entity may again make an election pursuant to this section but only if it is not delinquent in the payment of contributions and not delinquent in the payment of advances or reimbursements required by the director under this section.

(g) Notwithstanding any other provision of this section, no entity shall be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the State of California.

(h) After the termination of any election under this section, the entity shall remain liable for its proportionate share of the additional cost of benefits paid, or of the cost of benefits paid and charged to its account in the manner provided by Section 1026, which are based on wages paid for services during the period of the election. Any such liability may be charged against any remaining balance of a prior reserve account used by the entity pursuant to Section 712. Any portion of such remaining balance shall be included in the reserve account of the entity following any termination of an election under this section which occurs prior to the expiration of a period of three consecutive years commencing with the effective date of such election. For purposes of Section 982, the period of an election under Section 803 shall, to the extent permitted by federal law, be included as a period during which a reserve account has been subject to benefit charges.

SEC. 9. Section 1253.4 is added to the Unemployment Insurance Code, to read:

1253.4. Notwithstanding any other provision of this division, unemployment compensation benefits, extended duration benefits, and federal-state extended benefits based on service performed by an individual who is employed by the employing unit of any school district in a classified service position that is included in covered employment pursuant to Section 605.2, shall not be payable to any such individual with respect to any week if any day of the week is within any school recess or holiday, except if such individual, whether or not employed by the employing unit during the recess period, is not continued at the end of the recess period, he shall, if otherwise qualified, be paid unemployment compensation as of his last day on paid status.

SEC. 10. Section 2606.3 is added to the Unemployment Insurance Code, to read:

2606.3. Notwithstanding the provisions of subdivision (a) of Section 2606, "employment" for the purposes of this part does not include service performed in employment as defined in Section 605.2.

SEC. 11. The provisions of this act shall become operative with respect to service performed after December 31, 1971.

SEC. 12. It is the intent of the Legislature that Sections 7 and 8 of this bill shall only become operative in the event that both this bill and Assembly Bill No. 1503 are chaptered, in which event Sections 7 and 8 of this bill shall become operative in accordance with Section 11 of this bill, and Sections 802 and 803 as proposed by Assembly Bill No. 1503 shall not be operative after the effective date of this bill. If this bill is chaptered and Assembly Bill No. 1503 is not chaptered, Sections 7 and 8 of this act shall not become operative.

*The people of the State of California do enact as follows:*

SECTION 1. Section 1584.5 of the Civil Code, as added by Chapter 400 of the Statutes of 1969, is amended to read:

1584.5. No person, firm, partnership, association or corporation, or agent or employee thereof, shall, in any manner, or by any means, offer for sale goods, wares, or merchandise, where the offer includes the voluntary and unsolicited sending of such goods, wares, or merchandise not actually ordered or requested by the recipient, either orally or in writing. The receipt of any such goods, wares, or merchandise shall for all purposes be deemed an unconditional gift to the recipient who may use or dispose of such goods, wares, or merchandise in any manner he sees fit without any obligation on his part to the sender.

If after any such receipt deemed to be an unconditional gift under this section, the sender continues to send bill statements or requests for payment with respect thereto, an action may be brought by the recipient to enjoin such conduct, in which action there may also be awarded reasonable attorneys' fees and costs to the prevailing party.

This paragraph shall not apply to any of the following:

Such form or card shall specify a date by which it shall be mailed by the consumer (the "mailing date") or received by the seller (the "return date") to prevent shipment of the offered merchandise. The seller shall mail the form or card either at least twenty-five (25) days prior to the return date or at least twenty (20) days prior to the mailing date, or

provide a mailing date of at least ten (10) days after receipt by the consumer, except that whichever system the seller chooses for mailing the form or card, such system must be calculated to afford the consumer at least ten (10) days in which to mail his form or card. Upon the membership contract or application form or immediately adjacent thereto, and in clear and conspicuous language, there shall be disclosed the material terms of the plan or arrangement including all of the following:

(1) That aspect of the plan under which the subscriber must notify the seller, in the manner provided for by the seller, if he does not wish to purchase the selection.

(2) Any obligation assumed by the subscriber to purchase a minimum quantity of merchandise.

(3) The right of a contract-complete subscriber to cancel his membership at any time.

(4) Whether billing charges will include an amount for postage and handling.

(b) Other contractual plans or arrangements not covered under subdivision (a), such as continuity plans, subscription arrangements, standing order arrangements, supplements and series arrangements under which the seller periodically ships merchandise to a consumer who has consented in advance to receive such merchandise on a periodic basis.

SEC. 2. Section 1584.5 of the Civil Code, as added by Chapter 265 of the Statutes of 1969, is repealed.

SEC. 3. This act shall become operative on July 1, 1972.

16200.5. Notwithstanding any other provision of law any health facility or institution licensed by the Department of Public Health or the Department of Mental Hygiene may, upon application, be licensed under the provisions of this chapter, provided the applicant complies with the provisions of this chapter and the rules and regulations promulgated by the department pursuant to the provisions of this chapter as these rules and regulations apply to facilities for the care of persons aged 16 and above licensed and in operation on the effective dates of such rules and regulations, except that the facilities licensed pursuant to this section shall comply with all such rules and regulations on or before July 1, 1972.

For the first year the fees shall not be less than thirty-five dollars ($35) nor more than

one hundred dollars ($100). Thereafter the fees shall be fixed annually by the department but shall not be less than thirty-five dollars ($35) nor more than an amount sufficient to cover the actual annual cost of administration.

16204. Application for renewal of a permit or license shall be filed, accompanied by the renewal fee established by the department pursuant to Section 16203.5, 10 days prior to its expiration. Where a hearing is held under this section, the proceedings shall be conducted in accordance with Chapter 5 of Part 1 of Division 3 of Title 2 of the Government Code, and the department shall have all the powers granted therein.

SEC. 3. Section 16207 of the Welfare and Institutions Code is amended to read:

SEC. 5. Section 16209 of the Welfare and Institutions Code is amended to read:

16209. Any person, association, or corporation that maintains, conducts, or, as manager or officer or in any other administrative capacity, assists in maintaining or conducting any institution, boarding home, or other place, for the reception and care of persons aged 16 and above not related to him by blood or affinity within the second degree, or performs any service specified in Section 16200 of this code, without first having secured a license or permit therefor, in writing, as required by Section 16200, or refuses to permit or interferes with the inspection authorized in Section 16201 of this code, is guilty of a misdemeanor.

SEC. 6. Section 16211 of the Welfare and Institutions Code is amended to read:

16211. The provisions of this chapter shall not prevent local authorities of any county, city, or city and county, within the reasonable exercise of the police power, from adopting rules and regulations, by ordinance or resolution, prescribing standards of sanitation, health and hygiene for institutions, boarding homes, and other places for the reception or care of persons aged 16 and above, not in conflict with the provisions of this chapter or the rules and regulations and minimum standards adopted by the department hereunder, and requiring a local health permit to maintain or conduct any such boarding home or institution within such county, city, or city and county.

SEC. 7. Section 16213 of the Welfare and Institutions Code is amended to read:

16213. The director shall require as a condition precedent to the issuance or renewal of any license or permit for any institution, boarding home, or other place for the reception or care of persons aged 16 and above pursuant to this chapter, if the operator handles or will handle money of persons aged 16 and above received or cared for therein, that the applicant for the license or the renewal of the license file, or have on file with the director, a bond issued by a company admitted to do business in this state, in a sum to be fixed by the director, based upon the magnitude of the operations of the applicant, but which sum shall not be less than one thousand dollars ($1,000), running to the State of California and conditioned upon his faithful and honest handling of money of persons aged 16 and above received or cared for in such institution, home, or other place for the reception or care of persons aged 16 and above.

Every person injured as a result of any improper or unlawful handling of the money of a person aged 16 and above in an institution, home, or other place for the reception or care of persons aged 16 and above, may bring an action in a proper court, on the bond required to be posted by the operator pursuant to this section, for the amount of damage he suffered as a result thereof to the extent covered by the bond.

Whenever the director determines that the amount of any bond which is filed with him pursuant to this section is inadequate to protect the money of the persons aged 16 and above in an institution, home, or other place for the reception or care of persons aged 16 and above, which is handled by the operator thereof, or whenever the amount of any such bond is impaired by any recovery against the bond, the director may require the operator to file with the director an additional bond in such amount as the director determines is necessary to adequately protect the money of the persons aged 16 and above, which is being handled by the operator of the

institution, home, or other place for the reception or care of persons aged 16 and above.

The failure of the operator of any institution, home, or other place for the reception or care of persons aged 16 and above, which has a license or permit issued pursuant to this chapter, to maintain on file with the director a bond in the amount prescribed by the director pursuant to this section, is a ground for the revocation of the license or permit of the institution, home, or other place for the reception or care of persons aged 16 and above.

The provisions of this section shall not apply if the operator of the institution, boarding home, home, or other place for the reception or care of persons aged 16 and above handles in any month less than fifty dollars ($50) per patient and less than five hundred dollars ($500) for all patients in the institution, home, or other place.

SEC. 8. Section 16213.5 is added to the Welfare and Institutions Code, to read:

16213.5. The director may grant a partial or total variance from the bonding requirements of Section 16213 if he finds that compliance with them is so onerous that an institution or boarding home will cease to operate, and if he also finds that money of the persons received or cared for in the institution or boarding home has been, or will be, deposited in a bank in this state or in a trust company authorized to transact a trust business in this state or a savings and loan association in this state, upon condition that such money may not be withdrawn except on authorization of the guardian or conservator of such person.

SEC. 9. Section 16214 is added to the Welfare and Institutions Code, to read:

16214. Each person who operates and lives in, or who is employed in, a facility licensed by the department pursuant to Section 16200 shall have on file with the facility a certificate from a physician showing that during the preceding year he has submitted to an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, was followed by an X-ray of the lungs, and has been found free from active tuberculosis. The provisions of this section shall not apply to any boarding home, institution or other facility, for the reception and care of persons aged 16 and above, operated by and for the adherents of a bona fide church, sect, or denomination, who rely upon prayer in the practice of religion for their protection and health; provided that such institution, boarding home or other facility for the reception and care of persons aged 16 and above limits its admission to members of the particular faith of those operating the facility.

SEC. 10. The provisions of Section 5115 of the Welfare and Institutions Code relating to the residential use for purposes of zoning of homes for the care of six or fewer mentally disordered or otherwise handicapped persons, shall be applicable

to Chapter 3 (commencing with Section 16200) of Part 4 of Division 9 of the Welfare and Institutions Code.

Nothing in this act shall be construed as authorizing local agencies to impose stricter zoning or building and safety standards upon existing institutions than existed prior to its enactment.

The county or city may recover the amount of the claim paid in a separate action, or may intervene in an action brought by the claimant.

29636. Upon conviction of any person of a crime which has resulted in the injury or destruction of property for which reimbursement is provided for under a program established pursuant to this article, in addition to the requirements of Section 13964 the court shall take into consideration the defendant's economic condition, and unless it finds such action will cause the family of the defendant to be dependent upon public welfare, may, in addition to any other penalty, order the defendant to pay a fine in an amount sufficient to pay for the replacement or repair of the property injured or destroyed but not more than the fair market value of such property. That portion of the fine not subject to the provisions of Section 13964 shall be appropriated to the county or city whose legislative body has established such a program and shall be used to pay claims which have been allowed pursuant to provisions adopted by the legislative body pursuant to this article.

If the legislative body of a county and the legislative body of a city therein, have both established such a program, such portion of the fine shall be paid to the county or city which actually has paid the claimant.

(a) The services and expenses of the owner or operator (including salaries) are excessive, based upon like services and salaries in comparable public institutions;

(b) The operations of the owner or operator, either directly or indirectly, materially enhance the private gain of any individual or individuals;

(c) Any capital investment of the owner or operator for expansion of physical plant is justified by the contemplated return thereon, and required to serve the interests of the community.

(d) The property on which exemption is claimed is used for the actual operation of an exempt activity and does not exceed an amount of property reasonably necessary to the accomplishment of the exempt purpose.

The board shall make a finding as to the eligibility of each applicant and the applicant's property and shall forward its finding to the assessor concerned not later than June 1. In a case where the board conducts a hearing with respect to the eligibility of the applicant and the applicant's property, the time for making the finding and forwarding it to the assessor concerned is extended to no later than June 15. The assessor may deny the claim of an applicant the board finds eligible

but may not grant the claim of an applicant the board finds ineligible.

SEC. 3. Section 255.2 of the Revenue and Taxation Code is amended to read:

255.2. Notwithstanding Section 255 of the Revenue and Taxation Code, any veteran who is filing for the veteran's exemption on his principal place of residence for the first time or who was found eligible for that exemption on his principal place of residence in the immediately preceding year and whose claim is timely filed but disallowed for the current year may, if otherwise qualified for the homeowner's exemption, file for the homeowner's exemption as provided herein.

The assessor shall notify those applicants he finds ineligible for the veteran's exemption of his finding and shall inform them that they have 15 days from the date of the notice to file for the homeowner's exemption. The failure of the assessor to provide the notice required by this section shall extend the filing period for those not notified to the next lien date.

For the 1970–1971 fiscal year only, any veteran who would have qualified under this section for an extension of filing time for the homeowner's exemption shall have 15 days after the operative date of this section to file for the homeowner's exemption for the current fiscal year.

SEC. 4. Section 423 of the Revenue and Taxation Code is amended to read:

423. When valuing open-space land subject to an enforceable restriction, other than land used for the production of timber for commercial purposes, the board for purposes of surveys required by Section 1815 of this code and the county assessor shall not consider sales data on lands, whether or not subject to an enforceable restriction, but shall value such lands by the capitalization of income method in the following manner:

(a) The annual income to be capitalized shall be determined as follows:

(1) Where sufficient rental information is available the income shall be the fair rent which can be imputed to the land being valued based upon rent actually received for the land by the owner and upon typical rentals received in the area for similar land in similar use, where the owner pays the property tax. When the land being valued is actually encumbered by a lease, any cash rent or its equivalent considered in determining the fair rent of the land shall be the amount for which the land would be expected to rent were the rental payment to be renegotiated in the light of current conditions including applicable enforceable restrictions.

(2) Where sufficient rental information is not available, the income shall be that which the land being valued reasonably can be expected to yield under prudent management and subject to applicable enforceable restrictions. There shall be a rebuttable presumption that "prudent management" does

not include use of the land for a recreational use, as defined in subdivision (n) of Section 51201 of the Government Code, unless the land is actually devoted to such use.

For the purposes of this section income shall be determined in accordance with rules and regulations issued by the board and with this section and shall be the difference between revenue and expenditures. Revenue shall be the amount of money or money's worth, including any cash rent or its equivalent, which the land can be expected to yield to an owner-operator annually on the average from any use of the land permitted under the terms of the enforceable restriction including, but not limited to, that from the production of salt and from typical crops grown in the area during a typical rotation period, not to exceed six years including the tax year and the next succeeding five years. When the land is planted to fruit-bearing or nut-bearing trees, vines, bushes or perennial plants, the revenue shall not be less than the land would be expected to yield to an owner-operator from other typical crops grown in the area during a typical rotation period, not to exceed six years including the tax year and the next succeeding five years. Proceeds from the sale of the land being valued shall not be included in the revenue from the land.

Expenditures shall be any outlay or average annual allocation of money or money's worth that can be fairly charged against the revenue expected to be received during the period used in computing such revenue. Those expenditures to be charged against revenue shall be only those which are ordinary and necessary in the production and maintenance of the revenue for that period. Expenditures shall not include depletion charges, debt retirement, interest on funds invested in the land, interest on funds invested in trees and vines valued as land as provided by Section 429, property taxes, corporation income taxes, or corporation franchise taxes based on income. When the income used is from operating the land being valued or from operating comparable land, amounts shall be excluded from the income to provide a fair return on capital investment in operating assets other than the land, to amortize depreciable property, and to fairly compensate the owner-operator for his operating and managing services.

Where the land being valued is not capable of producing income or is not used to produce income or where sufficient information is not available by which income can be determined as provided in this subdivision, the board and the assessor shall impute to the land a reasonable amount to be capitalized as income.

(b) The capitalization rate to be used in valuing land pursuant to this article shall not be derived from sales data and shall be the sum of the following components:

(1) An interest component to be determined by the board and announced no later than September 1 of the year preceding the assessment year and which was the yield rate for

long-term United States government bonds, as most recently published by the Federal Reserve Board, rounded to the nearest one-quarter (¼) percent.

(2) A risk component which shall be a percentage determined on the basis of the location and characteristics of the land, the crops to be grown thereon and the provisions of any lease or rental agreement to which the land is subject; and

(3) A component for property taxes which shall be a percentage equal to the estimated total tax rate applicable to the land for the assessment year times the assessment ratio.

(4) A component for amortization of any investment in perennials over their estimated economic life when the total income from land and perennials exceeds the yield from other typical crops grown in the area.

(c) The value of the land shall be the quotient of the income determined as provided in subdivision (a) divided by the capitalization rate determined as provided in subdivision (b).

(d) The ratio prescribed in Section 401 shall be applied to the value of the land determined in subdivision (c) to obtain its assessed value.

SEC. 4.1. Section 451 of the Revenue and Taxation Code is amended to read:

451. All information requested by the assessor or furnished in the property statement shall be held secret by the assessor. The statement is not a public document and is not open to inspection, except as provided in Section 408.

SEC. 4.2. Section 453 of the Revenue and Taxation Code is amended to read:

453. The assessor may request any person found within his county to make and subscribe an affidavit, showing his name, place of residence or place of business, and whether he is the owner of any taxable property.

SEC. 4.3. Section 456 of the Revenue and Taxation Code is amended to read:

456. If the assessor has not received from the owner of a tract of land a legal description or a description which geographically locates the property, he may request such a description from the owner or his agent, or, in case they cannot be found or are unknown, the person in possession.

SEC. 4.4. Section 457 of the Revenue and Taxation Code is amended to read:

457. If the owner, agent, or person in possession neglects to furnish the assessor with the description within 10 days after the request, the assessor shall cite him to appear before the superior court of the county where the land is situated within five days after service of the citation. On the day named in the citation, to the exclusion of all other business, the court shall proceed to hear his return and answer to the citation.

SEC. 4.5. Section 462 of the Revenue and Taxation Code is amended to read:

462. Every person is guilty of a misdemeanor who, after written request by the assessor, does any of the following:

(a) Refuses to make available to the assessor any information which is required by subdivision (d) of Section 441 of this code.

(b) Gives a false name.

(c) Willfully refuses to give his true name.

Upon conviction of any offense in this section, the defendant may be punished by imprisonment in the county jail for a period not exceeding six months or by a fine not exceeding five hundred dollars ($500), or by both.

If the defendant is a corporation, it may be punished by an additional fine of one hundred dollars ($100) for each day it refuses to comply with the provisions of this section, up to a maximum of ten thousand dollars ($10,000).

SEC. 4.6. Section 463 of the Revenue and Taxation Code is amended to read:

463. If any person who is required by law or is requested by the assessor to make an annual property statement fails to file it with the assessor by 5 p.m. on the last Monday in May, or if, after written request by the assessor, any person fails to file an annual property statement within the time limit specified by Section 441 or make and subscribe the affidavit respecting his name and place of residence, a penalty of 10 percent of the assessed value of the unreported taxable tangible property of such person placed on the current roll shall be added to the assessment made on the current roll.

Notice of any penalty added to the secured roll pursuant to this section shall be mailed by the assessor to the assessee at his address as contained in the official records of the county assessor.

If the assessee establishes to the satisfaction of the county board of equalization or the assessment appeals board that the failure to file the property statement within the time required by Section 441 was due to reasonable cause and not due to willful neglect, it may order the penalty abated, provided the assessee has filed with the county board written application for abatement of the penalty within the time prescribed by law for the filing of applications for assessment reductions.

If the penalty is abated it shall be canceled or refunded in the same manner as an amount of tax erroneously charged or collected.

SEC. 4.7. Section 468 of the Revenue and Taxation Code is amended to read:

468. In addition to any other remedies described in this article, if any person fails to furnish any information or records required by this article upon request by the assessor, the assessor may apply to the superior court of the county for an order requiring the person who failed to furnish

such information or records to appear and answer concerning his property before such court at a time and place specified in the order. The court may so order in any county where the person may be found, but shall not require the person to appear before the court in any other county than that in which the subpoena is served.

SEC. 4.8. Section 501 of the Revenue and Taxation Code is amended to read:

501. If after written request by the assessor, any person fails to comply with any provision of law for furnishing information required by Sections 441 and 470, the assessor, based upon information in his possession, shall estimate the value of the property and, based upon this estimate, promptly assess the property.

SEC. 5. Section 867 of the Revenue and Taxation Code is amended to read:

867. Whenever taxable personal property escapes assessment, or whenever real property escapes assessment, and the escape in either instance results from a nonwillful act or omission of the taxpayer, the board shall assess the property for the year in which it escaped assessment at any time within four years after July 1 of the assessment year in which it escaped assessment.

Whenever the property, or any portion thereof, escapes assessment as a result of the fraudulent act or fraudulent omission of the taxpayer, or as a result of fraudulent collusion between the taxpayer and the State Board of Equalization, the board shall assess the property and impose the penalty. An assessment levied by the board pursuant to this paragraph shall be made promptly upon discovery of the fraud and in no event more than six years following the date when the fraud occurred.

Notwithstanding any other provisions of this code an assessment made pursuant to this section against real property for the year or years in which such real property escaped assessment shall not create or impose a lien or charge on such real property for such assessment or any penalties if (1) such real property has been transferred or conveyed to a bona fide purchaser for value prior to the date of such assessment and the showing thereof on the secured roll with the date of entry specified thereon, or (2) such real property is subject to a lien of a bona fide encumbrance for value created and attaching prior to the date of such assessment and the showing thereof on the secured roll with the date of entry specified thereon. In such cases the assessor or tax collector may record with the county recorder of any county a certificate which shall set forth the name of the person who would have been the assessee in the year in which such real property escaped assessment and the amount or amounts of any such assessments and penalties. From the date of the recording of such certificate a lien shall be created and attach against any real

property owned by such person in the county or counties in which any such certificate may have been recorded which lien shall have the force, effect and priority of a judgment lien.

The tax collector, with the approval of the board of supervisors, may at any time release all or any portion of real property subject to any lien created or attaching by the recording of such a certificate from such lien or subordinate such lien to other liens and encumbrances if he determines that the assessment or taxes are sufficiently secured by a lien on other property belonging to the person named in such a certificate or that the release or subordination will not endanger or jeopardize the collection of such assessment or taxes.

A written certification by the tax collector to the effect that real property subject to any lien imposed by the recording of the certificate as hereinbefore provided has been released from such lien or that such lien has been subordinated to other liens shall be conclusive evidence as to any bona fide purchaser, encumbrancer or lessee that such lien has been released or has been subordinated as set forth in such written certification. Such written certification may be recorded with the county recorder of any county.

SEC. 6. Section 1616 of the Revenue and Taxation Code is amended to read:

1616. (a) If a county board changes the full cash value on a parcel of real property to a value different from the assessor's finding of value (as reflected by the assessment on the roll or as recommended, proposed, or stipulated by the assessor), and, during the succeeding two assessment years, the assessor seeks to raise the value total as lowered by the board below the assessor's value, or to lower the total value as raised by the board above the assessor's value, the value of the property shall be rebuttably presumed to be the value set by the board. When seeking such a change in value, the assessor shall give written notice of the proposed full cash value and assessed value to the other party and the matter shall automatically be placed before the board, unless such other party files a written statement with the board that he does not want to contest the matter and in that event the matter will not be placed before the county board.

(b) If, in such succeeding two assessment years, the board changes the value previously set by the board on that parcel to a value different from the assessor's finding of value as recommended, proposed, or stipulated by the assessor for that year, the previously set value shall be deemed rebutted and the new value set by the board shall be rebuttably presumed to be the value of that parcel during the succeeding two assessment years.

(c) A presumption created under this section shall cease to exist upon a subsequent change in zoning or permissive use of a parcel of real property, a change of assessed value due to an intercounty equalization order issued by the State Board

of Equalization or a subsequent physical change in the property requiring a permit for land or improvements. If any of the conditions described in this subdivision occur, the matter shall not be automatically placed before the board.

(d) When any matter is placed before the board pursuant to this section, the clerk shall notify the parties affected of the time and place of hearing in the same manner as notice is given for application for changes of assessments. If the party affected or his agent does not appear or has not made timely request for continuance, the matter shall be heard by the board and the assessor shall present his evidence notwithstanding the failure of the party affected or his agent to appear or to request a continuance.

This section shall not apply to property under initial construction or development, nor to changes of value made pursuant to legislation enacted under the authorization of Section 2.8 of Article XIII of the Constitution of the State of California, nor to trade fixtures.

SEC. 6.1. Section 1822.5 of the Revenue and Taxation Code is repealed.

SEC. 6.2. Section 1826 of the Revenue and Taxation Code is repealed.

SEC. 6.3. Article 1.5 (commencing with Section 1840) is added to Chapter 2 of Part 3 of Division 1 of the Revenue and Taxation Code, to read:

### Article 1.5. Review of Assessment of Publicly Owned Property

1840. If any county, city and county, or municipal corporation desires to secure a review, equalization, or adjustment of the assessment of its property by the board in pursuance of Section 1 of Article XIII of the State Constitution, it shall apply to the board therefor in writing on or before the third Monday in July, or within two weeks after the completion and delivery by the assessor of the local roll containing such assessment to the auditor as provided in Section 617, whichever is the later. If the assessment objected to is one made outside the regular period for such assessments, the application for review shall be filed with the board within two weeks from the date the tax bill is mailed to the assessee.

Every application shall show the facts claimed to require action of the board, and a copy thereof shall be filed with the assessor whose assessment is questioned. Upon receipt of a timely application the board shall afford the applicant notice and a hearing in accordance with such rules and regulations as the board may prescribe.

1841. When the review, equalization, and adjustment are completed, the secretary of the board shall transmit to the auditor and the governing body of the taxing agency whose assessment is questioned, and to the applicant a notice of the action of the board with respect to the assessment. The notice

is prima facie evidence of the regularity of all proceedings of the board resulting in the action which is the subject matter of the notice. Upon receipt of the notice the auditor shall enter upon the local roll any change in the assessment resulting from the action of the board.

SEC. 7. Section 4831 of the Revenue and Taxation Code is amended to read:

4831. When it can be ascertained from the roll or any papers in the assessor's office what was intended, or what should have been assessed, defects in description or form or clerical errors of the assessor on the roll or other errors of the assessor not involving the exercise of judgment as to value which result in the entry on the roll of assessed values other than those intended by the assessor may be corrected under this article at any time after the roll is delivered to the auditor by the clerk of the county board and prior to the expiration of four years after the making of the assessment which is being corrected.

In the event the correction has the effect of increasing the amount of taxes due on real property for the year or years in which such correction is made, such increased amount of taxes shall not create, impose or constitute a lien or charge on such real property if (a) such real property has been transferred or conveyed to a bona fide purchaser for value prior to the date of such correction and the showing thereof on the secured roll with the date of entry specified thereon, or (b) such real property is subject to a lien of a bona fide encumbrance for value created and attaching prior to the date of such correction and the showing thereof on the secured roll with the date of entry specified thereon. In such case, the assessor or tax collector may record with the county recorder of any county a certificate which shall set forth in the name of the person who was the assessee in the year in which such correction was made and the amount or amounts of any such correction. From the date of the recording of such certificate, a lien shall be created and attach against any real property owned by such person in the county or counties in which any such certificate may have been recorded for the amount of such taxes, which lien shall have the force, effect and priority of a judgment lien.

The tax collector, with the approval of the board of supervisors, may at any time, release all or any portion of real property subject to any lien created or attaching by the recording of such a certificate from such lien or subordinate such lien to other liens and encumbrances if he determines that the taxes are sufficiently secured by a lien on other property belonging to the person named in such a certificate or that the release or subordination will not endanger or jeopardize the collection of such taxes.

A written certification by the tax collector to the effect that real property subject to any lien imposed by the recording of the certificate as hereinbefore provided has been released from such lien or that such lien has been subordinated to other liens

shall be conclusive evidence as to any bona fide purchaser, encumbrancer or lessee that such lien has been released or has been subordinated as set forth in such written certification. Such written certification may be recorded with the county recorder of any county.

Taxes which do not create, impose or constitute a lien or charge on the property assessed may be transferred from the secured roll to the unsecured roll of the corresponding year by the county auditor on order of the board of supervisors with the written consent of the district attorney and shall be collected in the same manner as other delinquent taxes on the unsecured roll and shall be subject to delinquent penalties in the same manner as taxes transferred to the unsecured roll under Section 4986. The statute of limitations for the collection of such taxes shall commence to run from the date of transfer.

SEC. 8. Section 4876 of the Revenue and Taxation Code is amended to read:

4876. When it can be ascertained from any roll or from any papers of the board what was intended or what should have been assessed, defects in description or form or clerical errors of the board in assessing state-assessed property or other errors of the board not involving the exercise of judgment as to value which result in the entry on the roll of assessed values other than those intended by the board may be corrected by the board under this article at any time within four years after the assessment was made.

SEC. 9. Section 4876.5 of the Revenue and Taxation Code is amended to read:

4876.5. When it can be ascertained by the board from an audit of an assessee's books of account or other papers that there has been a defect of description or clerical error of the assessee in his property statement or in other information or records furnished to the board which caused the board to assess personal property which should not have been assessed or to assess it at a substantially higher valuation than the board would have entered on the roll if the information had been correctly furnished to the board, the error on the roll may be corrected under this article at any time within four years after the assessment was made.

The application shall be signed by the owner if a natural person; in the case of an association or partnership, by a member or partner; in the case of a corporation, by an executive officer or some person specifically authorized by the corporation to sign the application.

6273. "Vessel" means any boat, ship, barge, craft, or floating thing designed for navigation in the water except:

All persons so notified shall forthwith after receipt of the notice advise the board of all such credits, other personal property, or debts in their possession, under their control, or owing by them. If such notice seeks to prevent the transfer or other disposition of a deposit in a bank or other credits or personal property in the possession or under the control of a bank, the notice to be effective shall be delivered or mailed to the branch or office of such bank at which such deposit is carried or at which such credits or personal property is held. If, during the effective period of the notice to withhold, any person so notified makes any transfer or disposition of the property or debts required to be withheld hereunder, to the extent of the value of the property or the amount of the debts thus transferred or paid he shall be liable to the state for any indebtedness due under this part from the person with respect to whose obligation the notice was given if solely by reason of such transfer or disposition the state is unable to recover the indebtedness of the person with respect to whose obligation the notice was given.

In the case of any state officer, department or agency, the notice shall be given to such officer, department or agency prior to the time it presents the claim of the delinquent taxpayer to the State Controller.

SEC. 17. Section 30323.5 is added to the Revenue and Taxation Code, to read:

30323.5. The board may release any lien imposed under Section 30322 if it finds that the liability represented by the lien, including any interest accrued thereon, is legally unenforceable.

SEC. 18. Section 32381 of the Revenue and Taxation Code is amended to read:

32381. If any taxpayer is delinquent in the payment of any obligations imposed by this part, or in the event a determination has been made against such a taxpayer which remains unpaid, the board may, not later than three years after the payment becomes delinquent, or within 10 years after the last recording of an abstract or copy of judgment under Section 32362, give notice thereof, personally or by registered mail to all persons, including any officer or department of the state or any political subdivision or agency of the state, having in their possession or under their control any credits or other personal property belonging to the taxpayer, or owing any debts to the taxpayer. In the case of any state officer, department, or agency, the notice shall be given to such officer, department, or agency prior to the time it presents the claim of the delinquent taxpayer to the State Controller.

SEC. 19. Section 1704.5 is added to the Unemployment Insurance Code, to read:

1704.5. The director may release any lien imposed under Section 1703, 1703.5, or 1816 if he finds that the liability represented by the lien, including any interest accrued thereon, is legally unenforceable.

SEC. 20. It is the intent of the Legislature if both A.B. 1680 and S.B. 465 of the 1971 Regular Session are chaptered that tax liens released because of legal unenforceability shall not be subject to any filing fees for release of liens imposed by S.B. 465. It is the further intent of the Legislature that the State Board of Equalization, Franchise Tax Board and Department of Human Resources Development shall cooperate with county recorders in adopting a distinctive style for their release of lien forms so as to distinguish between releases which are subject to fees and releases which are not subject to fees.

SEC. 21. This act shall be operative on and after January 1, 1972, and the provisions of Sections 5, 8, 15, 16, and 18 shall be applicable only with respect to certificates of lien or abstracts of judgment filed on or after that date.

## CHAPTER 1638

*An act to amend Sections 353 and 385 of the Code of Civil Procedure, and to add Sections 709.1 and 721 to the Probate Code, relating to estate claims.*

[Approved by Governor November 29, 1971. Filed with Secretary of State November 29, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 353 of the Code of Civil Procedure is amended to read:

353. If a person entitled to bring an action dies before the expiration of the time limited for the commencement thereof, and the cause of action survives, an action may be commenced by his representatives, after the expiration of that time, and within six months from his death. If a person against whom an action may be brought dies before the expiration of the time limited for the commencement thereof, and the cause of action survives, an action may be commenced against his representatives, after the expiration of that time, and within one year

after the issuing of letters testamentary or of administration, or an action against the estate provided for by subdivision (b) of Section 385 of the Code of Civil Procedure, subdivision (b) of Section 707 of the Probate Code or Section 721 of the Probate Code may be commenced within one year after the expiration of the time otherwise limited for the commencement thereof.

SEC. 2. Section 385 of the Code of Civil Procedure is amended to read:

385. (a) An action or proceeding does not abate by the death, or any disability of a party, or by the transfer of any interest therein, if the cause of action survive or continue. In case of the death or any disability of a party, the court, on motion, may allow the action or proceeding to be continued by or against his representative or successor in interest. In case of any other transfer of interest, the action or proceeding may be continued in the name of the original party, or the court may allow the person to whom the transfer is made to be substituted in the action or proceeding.

(b) In the case of an action for injury to or for the death of a person caused by the wrongful act or neglect of the defendant, and the defendant dies after the commencement of the action, the action may be continued, against the decedent as the original party defendant without the appointment of a representative or successor in interest, if the decedent had liability insurance applicable to the cause of action, the amount of damages sought in the action does not exceed the maximum amount of such insurance, or recovery of excess thereof is waived, and the estate of the decedent otherwise qualifies for summary probate proceedings pursuant to the provisions of Section 630 of the Probate Code. No action may be continued under this subdivision unless the insurer has been served with the complaint filed in the action. For good cause, the court, upon motion of an interested person or upon its own motion, may order the appointment of a personal representative and his substitution as the defendant.

SEC. 3. Section 709.1 is added to the Probate Code, to read:

709.1. Notwithstanding any other provision of law, the court in which an action described in Section 709 is pending may permit the action to be continued against the defendant in the name of "Estate of (name of decedent), Deceased," upon petition of the plaintiff, pursuant to the same procedure, and upon the same terms and conditions, as are provided in Section 721 for claims which were not the subject of a pending action at decedent's death. The procedure of this section is cumulative and does not supersede the procedure provided in subdivision (b) of Section 385 of the Code of Civil Procedure.

SEC. 4. Section 721 is added to the Probate Code, to read:

721. (a) Notwithstanding any other provision of law, the presentation or filing of a claim shall not be required and a

civil action may be maintained by a claimant to establish, to the limits of the insurance protection only, a liability of the decedent for which the decedent was protected by liability insurance.

(b) The claimant shall file a verified petition in the superior court of the county in which the administration of the estate is pending, or if none is pending, in the superior court of the county in which administration may be had as provided in Section 301, alleging (1) the nature and amount of his claim, (2) the decedent was protected, in whole or in part, by liability insurance with respect thereto, (3) the interests of the estate will not be prejudiced, and (4) any recovery in such action by the claimant will be limited solely to the decedent's insurance protection. The court, upon such hearing and notice, if any, as it may order, shall grant leave to the claimant to file such action, unless it finds that the interests of the estate will be prejudiced thereby. However, if it appears that the insurer denies coverage or admits liability only conditionally or with reservation, the court may deny leave to the claimant to file such action.

(c) The action by the claimant shall name as the defendant "Estate of (name of decedent), Deceased." Summons shall be served upon a person designated in writing by the insurer or, if none, upon the insurer. Further proceedings shall be in the name of the estate, but otherwise shall be conducted in the same manner and have the same effect as if the action were against the personal representative. For good cause, the court in which the civil action is pending, upon motion of an interested person or upon its own motion, may order the appointment of a personal representative and his substitution as the defendant.

(d) The insurer may deny or otherwise contest its liability by cross-complaint in the action or by an independent action against the claimant, but the judgment on the cross-complaint or in the independent action shall not adjudicate rights of persons who are not parties.

(e) A judgment in favor of claimant in an action pursuant to this section shall be enforceable only from the insurance protection and shall not create a lien upon real or other property of the estate.

(f) The remedies of this section are cumulative, and may be pursued concurrently with other remedies.

SEC. 4. Neither Section 709.1 nor Section 721 of the Probate Code, as enacted at the 1971 Regular Session of the Legislature, shall apply to an action specified in Section 709 of the Probate Code pending at, or to a claim presented or filed before, its effective date; nor shall either such section revive any claim previously barred by Chapter 12 (commencing with Section 700) of Division 3 of the Probate Code.

# CHAPTER 1639

*An act to amend Section 66632 of the Government Code, relating to the San Francisco Bay Conservation and Development Commission.*

[Approved by Governor November 29, 1971. Filed with Secretary of State November 29, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 66632 of the Government Code is amended to read:

66632. (a) During the existence of the San Francisco Bay Conservation and Development Commission, any person or governmental agency wishing to place fill, to extract materials, or to make any substantial change in use of any water, land or structure, within the area of the commission's jurisdiction shall secure a permit from the commission and, if required by law or by ordinance, from any city or county within which any part of such work is to be performed. For purposes of this title, "fill" means earth or any other substance or material, including pilings or structures placed on pilings, and structures floating at some or all times and moored for extended periods, such as houseboats and floating docks. For the purposes of this section "materials" means items exceeding twenty dollars ($20) in value.

The commission may require a reasonable filing fee and reimbursement of expenses for processing and investigating a permit application.

Any person who places fill, extracts materials or makes any substantial change in the use of any water, land, or structure within the area of the commission's jurisdiction without securing a permit from the commission as required by this title is guilty of a misdemeanor.

(b) Whenever a permit is required by a city or county for any activity also requiring a permit from the San Francisco Bay Conservation and Development Commission, an applicant for a permit shall file an application with the city council of the city if the proposed project is located in incorporated territory, or the board of supervisors of the county, if the proposed project is located in unincorporated territory. Upon filing such an application, the applicant shall notify the commission of the fact of the filing and the date thereof. The city council or the board of supervisors, as the case may be, shall investigate the proposed project and shall file a report thereon with the commission within 90 days after the application is filed with it.

Whenever a permit is not required by a city or county, no application for a permit need be made to the city or county.

(c) Upon receipt of the report from the city council or the board of supervisors, as the case may be, or, if the city council or the board of supervisors does not file a report with the

commission within the 90-day period, upon the expiration of such 90-day period, and upon receipt of an application for a permit made directly to it, the commission shall hold a public hearing or hearings as to the proposed project and conduct such further investigation as it deems necessary. The commission shall give full consideration to the report of the city council or board of supervisors.

(d) The commission shall prescribe the form and contents of applications for permits. Among other things, an application for a permit shall set forth all public improvements and public utility facilities which are necessary or incidental to the proposed project and the names and mailing addresses of all public agencies or public utilities who will have ownership or control of such public improvements or public utility facilities if the permit is granted and the project is constructed. The executive director shall give written notice of the filing of the application to all such public agencies and public utilities. If the commission grants a permit for a project, the permit shall include all public improvements and public utility facilities which are necessary or incidental to the project.

(e) Upon receipt of an application for a permit the commission shall transmit a copy thereof to the San Francisco Bay Regional Water Quality Control Board. Within 60 days the board shall file a report with the commission indicating the effect of the proposed project on water quality within the bay.

(f) The commission shall take action upon an application for a permit, either denying or granting the permit, within 90 days after it receives the report (or, if the city council or the board of supervisors did not file a report with the commission within the 90-day period, within 90 days after the expiration of such 90-day period), or within 90 days after it receives an application from the applicant, whichever date is later. The permit shall be automatically granted if the commission shall fail to take specific action either denying or granting the permit within the time period specified in this section. A permit shall be granted for a project if the commission finds and declares that the project is either (1) necessary to the health, safety or welfare of the public in the entire bay area, or (2) of such a nature that it will be consistent with the provisions of this title and with the provisions of the San Francisco Bay Plan then in effect. To effectuate such purposes, the commission may grant a permit subject to reasonable terms and conditions including the uses of land or structures, intensity of uses, construction methods and methods for dredging or placing of fill. Thirteen affirmative votes of members of the commission are required to grant a permit. Neither of the federal representatives who are members of the commission may vote on whether or not a permit shall be granted.

Pursuant to this title, the commission may provide by regulation, adopted after public hearing, for the issuance of permits by the executive director, without compliance with the

above procedure, in cases of emergency, or for minor repairs to existing installations or minor improvements made anywhere within the area of jurisdiction of the commission including, without limitation, the installation of piers and pilings and maintenance dredging of navigation channels. The commission may also adopt after public hearing such additional regulations as it deems reasonable and necessary to enable it to carry out its functions efficiently and equitably, including regulations classifying the particular water-oriented uses referred to in Sections 66602 and 66605.

(g) If the commission denies the permit, the applicant may submit another application for the permit directly to the commission after 90 days from the date of such denial.

(h) Any project authorized pursuant to this section shall be commenced, performed and completed in compliance with the provisions of all permits granted or issued by the commission and by any city or county.

(i) If, prior to September 17, 1965, any person or governmental agency has already obtained a permit from the appropriate local body to place fill in the bay or to extract submerged materials from the bay, application may be made directly to the San Francisco Bay Conservation and Development Commission and the permit from the local body shall constitute the report of the local body.

(j) Any action, or proceeding to contest or question the commission's denial of a permit application, or conditions attached to approval of a permit application, must be commenced in the appropriate court within 90 days following the date of such action by the commission.

(k) The executive director shall, within 90 days following the effective date of this section, communicate the provisions of this section to all governmental bodies that issue permits for developments described in this section, and shall request of them information concerning any development that may fall within the provisions of this section.

SEC. 2. Section 66632 of the Government Code is amended to read:

66632. (a) During the existence of the San Francisco Bay Conservation and Development Commission, any person or governmental agency wishing to place fill, to extract materials, or to make any substantial change in use of any water, land or structure, within the area of the commission's jurisdiction shall secure a permit from the commission and, if required by law or by ordinance, from any city or county within which any part of such work is to be performed. For purposes of this title, "fill" means earth or any other substance or material, including pilings or structures placed on pilings, and structures floating at some or all times and moored for extended periods, such as houseboats and floating docks. For the purposes of this section "materials" means items exceeding twenty dollars ($20) in value.

The commission may require a reasonable filing fee and reimbursement of expenses for processing and investigating a permit application from all applicants before the commission, including government agencies notwithstanding the provisions of Section 6103 of this code.

Any person who places fill, extracts materials or makes any substantial change in the use of any water, land, or structure within the area of the commission's jurisdiction without securing a permit from the commission as required by this title is guilty of a misdemeanor.

(b) Whenever a permit is required by a city or county for any activity also requiring a permit from the San Francisco Bay Conservation and Development Commission, an applicant for a permit shall file an application with the city council of the city if the proposed project is located in incorporated territory; or the board of supervisors of the county, if the proposed project is located in unincorporated territory. Upon filing such an application, the applicant shall notify the commission of the fact of the filing and the date thereof. The city council or the board of supervisors, as the case may be, shall investigate the proposed project and shall file a report thereon with the commission within 90 days after the application is filed with it.

Whenever a permit is not required by a city or county, no application for a permit need be made to the city or county.

(c) Upon receipt of the report from the city council or the board of supervisors, as the case may be, or, if the city council or the board of supervisors does not file a report with the commission within the 90-day period, upon the expiration of such 90-day period, and upon receipt of an application for a permit made directly to it, the commission shall hold a public hearing or hearings as to the proposed project and conduct such further investigation as it deems necessary. The commission shall give full consideration to the report of the city council or board of supervisors.

(d) The commission shall prescribe the form and contents of applications for permits. Among other things, an application for a permit shall set forth all public improvements and public utility facilities which are necessary or incidental to the proposed project and the names and mailing addresses of all public agencies or public utilities who will have ownership or control of such public improvements or public utility facilities if the permit is granted and the project is constructed. The executive director shall give written notice of the filing of the application to all such public agencies and public utilities. If the commission grants a permit for a project, the permit shall include all public improvements and public utility facilities which are necessary or incidental to the project.

(e) Upon receipt of an application for a permit the commission shall transmit a copy thereof to the San Francisco Bay Regional Water Quality Control Board. Within 60 days the

board shall file a report with the commission indicating the effect of the proposed project on water quality within the bay.

(f) The commission shall take action upon an application for a permit, either denying or granting the permit, within 90 days after it receives the report (or, if the city council or the board of supervisors did not file a report with the commission within the 90-day period, within 90 days after the expiration of such 90-day period), or within 90 days after it receives an application from the applicant, whichever date is later. The permit shall be automatically granted if the commission shall fail to take specific action either denying or granting the permit within the time period specified in this section. A permit shall be granted for a project if the commission finds and declares that the project is either (1) necessary to the health, safety or welfare of the public in the entire bay area, or (2) of such a nature that it will be consistent with the provisions of this title and with the provisions of the San Francisco Bay Plan then in effect. To effectuate such purposes, the commission may grant a permit subject to reasonable terms and conditions including the uses of land or structures, intensity of uses, construction methods and methods for dredging or placing of fill. Thirteen affirmative votes of members of the commission are required to grant a permit. Neither of the federal representatives who are members of the commission may vote on whether or not a permit shall be granted.

Pursuant to this title, the commission may provide by regulation, adopted after public hearing, for the issuance of permits by the executive director, without compliance with the above procedure, in cases of emergency, or for minor repairs to existing installations or minor improvements made anywhere within the area of jurisdiction of the commission including, without limitation, the installation of piers and pilings and maintenance dredging of navigation channels. The commission may also adopt after public hearing such additional regulations as it deems reasonable and necessary to enable it to carry out its functions efficiently and equitably, including regulations classifying the particular water-oriented uses referred to in Sections 66602 and 66605.

(g) If the commission denies the permit, the applicant may submit another application for the permit directly to the commission after 90 days from the date of such denial.

(h) Any project authorized pursuant to this section shall be commenced, performed and completed in compliance with the provisions of all permits granted or issued by the commission and by any city or county.

(i) If, prior to September 17, 1965, any person or governmental agency has already obtained a permit from the appropriate local body to place fill in the bay or to extract submerged materials from the bay, application may be made directly to the San Francisco Bay Conservation and Development Commission and the permit from the local body shall constitute the report of the local body.

(j) Any action, or proceeding to contest or question the commission's denial of a permit application, or conditions attached to approval of a permit application, must be commenced in the appropriate court within 90 days following the date of such action by the commission.

(k) The executive director shall, within 90 days following the effective date of this section, communicate the provisions of this section to all governmental bodies that issue permits for developments described in this section, and shall request of them information concerning any development that may fall within the provisions of this section.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 1533 are both chaptered and amend Section 66632 of the Government Code, and this bill is chaptered after Senate Bill No. 1533, that the amendments to Section 66632 proposed by both bills be given effect and incorporated in Section 66632 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 1533 are both chaptered, both amend Section 66632, and Senate Bill No. 1533 is chaptered before this bill, in which case Section 1 of this act shall not become operative.

## CHAPTER 1640

*An act to amend Sections 395 and 585.5 of the Code of Civil Procedure, relating to civil actions.*

[Approved by Governor November 29, 1971. Filed with Secretary of State November 29, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 395 of the Code of Civil Procedure is amended to read:

395. (a) Except as otherwise provided by law and subject to the power of the court to transfer actions or proceedings as provided in this title, the county in which the defendants or some of them reside at the commencement of the action is the proper county for the trial of the action. If the action is for injury to person or personal property or for death from wrongful act or negligence, either the county where the injury occurs or the injury causing death occurs or the county in which the defendants, or some of them reside at the commencement of the action, shall be a proper county for the trial of the action. In a proceeding for dissolution of marriage, the county in which the petitioner has been a resident for three months next preceding the commencement of the proceeding is the proper county for the trial of the proceeding. Subject to the provisions of subdivision (b), when a defendant has contracted to perform an obligation in a particular county, either the county where such obligation is to be performed or

in which the contract in fact was entered into or the county in which the defendant or any such defendant resides at the commencement of the action shall be a proper county for the trial of an action founded on such obligation, and the county in which such obligation is incurred shall be deemed to be the county in which it is to be performed unless there is a special contract in writing to the contrary. If none of the defendants reside in the state or if residing in the state and the county in which they reside is unknown to the plaintiff, the action may be tried in any county which the plaintiff may designate in his complaint, and, if the defendant is about to depart from the state, such action may be tried in any county where either of the parties reside or service is made. If any person is improperly joined as a defendant or has been made a defendant solely for the purpose of having the action tried in the county or judicial district where he resides, his residence shall not be considered in determining the proper place for the trial of the action.

(b) Subject to the power of the court to transfer actions or proceedings as provided in this title, in an action founded upon an obligation of the defendant for goods, services, loans or extensions of credit intended primarily for personal, family or household use, other than an obligation described in Section 1812.10 or Section 2984.4 of the Civil Code, the county in which the defendant in fact signed the contract, the county in which the defendant resided at the time the contract was signed, or the county in which the defendant resides at the commencement of the action is the proper county for the trial thereof.

(c) If within any such county there is a municipal or justice court having jurisdiction of the subject matter established in the judicial district in which the defendant or any defendant resides, in which the injury to person or personal property or the injury causing death occurs, or, in the cases mentioned in subdivision (a), in which the obligation was contracted to be performed or, in cases mentioned in subdivision (b), in which the defendant in fact signed the contract, in which the defendant resided at the time the contract was signed, or in which the defendant resides at the commencement of the action, then such court is the proper court for the trial of such action. Otherwise, any municipal or justice court in such county having jurisdiction of the subject matter is a proper court for the trial thereof.

SEC. 2. Section 585.5 of the Code of Civil Procedure is amended to read:

585.5. (a) Every application to enter default under subdivision 1 of Section 585 shall include or be accompanied by an affidavit stating facts showing that the action is or is not subject to the provisions of Section 1812.10 or 2984.4 of the Civil Code or subdivision (b) of Section 395 of the Code of Civil Procedure.

(b) When a default or default judgment has been entered without full compliance with Section 1812.10 or 2984.4 of the Civil Code, or subdivision (b) of Section 395 of the Code of Civil Procedure, the defendant may serve and file a notice of motion to set aside such default or default judgment and for leave to defend the action in the proper court. Such notice of motion shall be served and filed within 60 days after levy on the defendant's property of a writ of execution on the default judgment.

(c) A notice of motion to set aside a default or default judgment and for leave to defend the action in the proper court shall designate as the time for making the motion a date not less than 10 nor more than 20 days after filing of such motion, and it shall be accompanied by an affidavit showing under oath that the action was not commenced in the proper court according to the provisions of Section 1812.10 or 2984.4 of the Civil Code or subdivision (b) of Section 395 of the Code of Civil Procedure. The party shall serve and file with such notice a copy of the answer, motion, or other pleading proposed to be filed in the action.

(d) Upon a finding by the court that the motion was made within the period permitted by subdivision (b) and that the action was not commenced in the proper court, it shall set aside the default or default judgment on such terms as may be just and shall allow such a party to defend the action in the proper court.

(e) Unless the plaintiff can show that he used reasonable diligence to avoid filing the action in the improper court, upon a finding that the action was commenced in the improper court the court shall award the defendant actual damages and costs, including reasonable attorney's fees.

In addition, any district located in Yolo County may acquire all necessary and proper equipment by means of a plan to borrow money or by purchase on contract. The amount of indebtedness to be incurred shall not exceed an amount equal to three times the actual tax income for the fiscal year preceding the year in

Each such indebtedness shall be authorized by a resolution adopted by the affirmative votes of at least four-fifths of the members of the district board if the board has five members or more, and by the affirmative votes of at least two-thirds of the members if the board has less than five members, and shall be evidenced by a promissory note or contract signed by at least four-fifths of the members of the district board, if the board has five members or more, or signed by at least two-thirds of the members if the board has less than five members. At the time of making the general tax levy after incurring each such indebtedness and annually thereafter until such indebtedness is paid or until there is a sum in the treasury set apart for that purpose sufficient to meet all payments of principal and interest on such indebtedness as they become due, a tax shall be levied and collected sufficient to pay the interest on such indebtedness and such part of the principal as will become due before the proceeds of a tax levied at the next general tax levy will be available. The indebtedness authorized to be incurred by this section shall be in addition to, and the provisions of this section shall not apply to, any bonded indebtedness authorized by vote of the electors.

SEC. 2. Section 13991 of the Health and Safety Code is amended to read:

13991. The district board may on its own motion, or upon the filing of a petition with the district board signed by 51 percent of the taxpayers, or the owners of 51 percent of the property, in each case within the territory proposed to be formed into a zone or to be annexed to, or detached from, a zone, based on assessed valuation, in a specific area, the district board shall, by resolution, initiate proceedings for the creation of a special fire protection zone in the district or for the annexation of territory to, or the detachment of territory from, an established special fire protection zone in the district, for any one or more of the following purposes:

# CHAPTER 1642

*An act to add Chapter 2.5 (commencing with Section 5400) to Division 5 of the Public Resources Code, and to repeal Section 103.7 of the Streets and Highways Code, relating to acquisition of property for park purposes.*

[Approved by Governor November 29, 1971. Filed with Secretary of State November 29, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 2.5 (commencing with Section 5400) is added to Division 5 of the Public Resources Code, to read:

## CHAPTER 2.5. PRESERVATION OF PUBLIC PARKS

5400. This chapter shall be known as the Public Park Preservation Act of 1971.

5400.5. As used in this chapter "public park" includes only a park operated by a public agency.

5400.6. As used in this chapter "operating entity" means the entity owning the park land and the facilities thereon.

5401. No city, city and county, county, public district, or agency of the state, including any division, department or agency of the state government, or public utility, shall acquire (by purchase, exchange, condemnation, or otherwise) any real property, which property is in use as a public park at the time of such acquisition, for the purpose of utilizing such property for any nonpark purpose, unless the acquiring entity pays or transfers to the legislative body of the entity operating the park sufficient compensation or land, or both, as required by the provisions of this chapter to enable the operating entity to replace the park land and the facilities thereon.

5402. The provisions of this chapter shall not apply to the acquisition of real property or any interest in real property for the construction or maintenance of underground utility services.

5403. The provisions of this chapter shall not apply to a public utility, whether privately or publicly owned, acquiring real property or an interest in real property for the purpose of providing services to the public park, if it is not feasible to place the utility services or facility underground.

5403.5. The provisions of this chapter shall not apply to a public utility, whether privately or publicly owned, acquiring real property or any interest in real property as a waterway; provided, that the legislative body of the operating entity determines by a majority vote that such waterway would preserve or enhance the recreational or aesthetic values of the park.

5404. In the event that the park land and facilities are acquired, the operating entity shall acquire substitute park land and facilities. If, however, less than 10 percent of the park

land, but not more than one acre, is acquired, the operating entity may, instead of acquiring substitute park land and facilities, improve the unacquired portion of the park land and facilities, using the funds received for this purpose, after holding a public hearing on the matter and upon a majority vote of its legislative body.

5405. Unless the provisions of Section 5407.2 are applicable, the amount of compensation or land, or both, required by this chapter for the taking of the park land and facilities shall be equal to one of the following:

(a) The cost of acquiring substitute park land of comparable characteristics and of substantially equal size located in an area which would allow for use of the substitute park land and facilities by generally the same persons who used the existing park land and facilities, and the cost of acquiring substitute facilities of the same type and number, plus the cost of development of such substitute park land, including the placing of such substitute facilities thereon.

(b) Substitute park land of comparable characteristics and of substantially equal size located in an area which would allow for use of the substitute park land by generally the same persons who used the existing park land, and the cost of acquiring substitute facilities of the same type and number, plus the cost of development of such substitute park land, including the placing of such substitute facilities thereon.

(c) Any combination of substitute park land and compensation in an amount sufficient to provide substitute park land of comparable characteristics and of substantially equal size located in an area which would allow for use of the substitute park land and facilities by generally the same persons who used the existing park land and facilities, and to provide substitute facilities of the same type and number, plus the cost of development of such substitute park land, including the placing of such substitute facilities thereon.

5406. Upon receiving an offer of compensation or land, or both, from the acquiring entity for the acquisition of the park, the legislative body of the operating entity may enter into an agreement with the acquiring entity to the effect that the acquiring entity has complied with the requirements of Section 5405 or Section 5407.2 in determining the amount of compensation or land, or both. Such agreement may be entered into only after a public hearing, except where less than 10 percent of the total area of a state park is acquired, in which case the operating entity shall follow the procedure it adopts for such purposes. Within 45 days of the public hearing, due notice shall be conspicuously posted at the park being acquired, including along its exterior boundaries, at all entrances, and on the recreation building, if any exists. Any resident of the operating entity may bring an action in the superior court of the county in which the park is located for determination of whether such agreement complies with the requirements of Section 5405 or Section 5407.2. If no such agreement has been

entered into within six months after the receipt of such offer, either party may submit a proposal for compensation or land, or both, to the superior court of the county in which the park to be acquired is located for the determination of proper compensation. The court may reject any such proposal as not meeting the requirements of Section 5405 or Section 5407.2. The court may approve only one proposal as meeting such requirements.

5407. Unless improvement of an unacquired portion of the park land and facilities is undertaken pursuant to Section 5404, all funds, or land and funds received by the operating entity shall be used to obtain or provide substitute park land and facilities in accordance with the provisions of Section 5407.1 or Section 5407.2.

5407.1. Such substitute park land and facilities shall be of comparable characteristics and of substantially equal size located in an area which would allow for use of the substitute park land and facilities by generally the same persons who used the acquired park land and facilities. However, the operating entity, after holding a public hearing, with due notice posted at the park being acquired, and after finding on the basis of evidence submitted at such hearing that there are compelling reasons for acquiring a substitute park of a different character, may, upon the recommendation of the park commission or if none exists, upon the recommendation of the administrative department, unit or agency charged with the responsibility for the maintenance and operation of the park land and facilities, and by a three-fourths vote of its legislative body, provided it is otherwise legally permissible to do so, change the general character of the substitute park land and facilities.

5407.2. The operating entity, after holding a public hearing, with due notice posted at the park being acquired, and after finding on the basis of evidence submitted at such hearing that there is a lack of need for the park in its present location and that there are compelling reasons for acquiring a substitute park in another general location, may, upon the recommendation of the park commission or if none exists, upon the recommendation of the administrative department, unit or agency charged with the responsibility for the maintenance and operation of the park land and facilities, and by a three-fourths vote of its legislative body, provided it is otherwise legally permissible to do so, change the general location of the substitute park land and facilities.

If the legislative body votes to change the general location of the substitute park land and facilities, the amount of compensation or land, or both, for the taking of the park land and facilities shall be determined on the basis of the fair market value of the property taken, considering all the uses for which it is available and adaptable regardless of its dedication to park purposes, plus the value of any and all improvements constructed thereon.

5408. Failure of any public entity or public utility to comply with any provision of this chapter shall not affect the validity of an acquisition by such entity or utility.

5409. Nothing in this chapter shall be construed to authorize the acquisition of public park property by purchase, exchange, condemnation, or otherwise.

SEC. 2. Section 103.7 of the Streets and Highways Code is repealed.

## CHAPTER 1643

*An act to amend Section 2030 of the Code of Civil Procedure, relating to discovery in civil cases.*

[Approved by Governor November 29, 1971. Filed with Secretary of State November 29, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 2030 of the Code of Civil Procedure is amended to read:

2030. (a) Any party may file and serve upon any other party written interrogatories to be answered by the party served or, if the party served is a public or private corporation or a partnership or association, or body politic, by any officer or agent, who shall furnish such information as is available to the party. Interrogatories may be served upon any other party at any time after service of the summons or the appearance of such other party and without leave of court except that, if service of interrogatories is made by the plaintiff within 10 days after such service of summons or appearance, leave of court granted with or without notice must first be obtained. The interrogatories shall be answered separately and fully in writing under oath. The answers shall be signed by the person making them; and the party upon whom the interrogatories have been served shall file and serve a copy of the answers on the party submitting the interrogatories within 20 days after the service of the interrogatories, unless the court, on motion and notice and for good cause shown, enlarges or shortens the time. For good cause and without notice, the court may enlarge the time not to exceed 15 days. Said answers shall respond to the written interrogatories; or, if any interrogatory be deemed objectionable, the objections thereto may be stated by the party addressed in lieu of response. If the party who has submitted the interrogatories deems that further response is required, he may move the court for an order requiring further response. Such motion must be upon notice given within 20 days from date of service of the answers or objections unless the court, on motion and notice, and for good cause shown, enlarges the time. Otherwise, the

party submitting the interrogatories shall be deemed to have waived the right to compel answer pursuant to this section. Solely for their information, copies of all interrogatories and of all answers thereto shall be served upon all other parties to the action who have appeared; but the court on motion with or without notice may waive this requirement if the court determines that enforcement thereof would be unduly expensive, oppressive or burdensome.

(b) Interrogatories may relate to any matters which can be inquired into under subdivision (b) of Section 2016 of this code, and the answers may be used to the same extent as provided in subdivision (d) of Section 2016 of this code for the use of the deposition of a party. Interrogatories may be served after a deposition has been taken, and a deposition may be sought after interrogatories have been answered, but the court, on motion of the deponent or the party interrogated, may make such protective order as justice may require. The number of interrogatories or of sets of interrogatories to be served is not limited except as above provided and except as justice requires to protect the party from annoyance, expense, embarrassment or oppression. The provisions of subdivision (b) of Section 2019 of this code are applicable for the protection of the party from whom answers to interrogatories are sought under this section.

(c) When in order to answer an interrogatory it is necessary to make a compilation, abstract, audit or summary of the business records of a party, and such a compilation, abstract, audit or summary does not exist, or if it does exist, it is not in the possession or under control of such party, it shall be a sufficient answer to such interrogatory to so state and to specify the records from which the answer may be derived or ascertained and to afford to the party by whom the interrogatory was proposed reasonable opportunity to examine, audit or inspect such records and to make copies thereof or compilations, abstracts or summaries therefrom.

(d) Service of interrogatories under this section may be made upon any party or his attorney in the manner provided in Chapter 5, Title 14, Part 2 (commencing at Section 1010) of this code.

## CHAPTER 1647

*An act to amend and supplement the Budget Bill for the 1971–1972 fiscal year (enacted as the Budget Act of 1971) by adding thereto Section 2.5B, relating to an appropriation to provide local assistance for park and beach purposes, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor November 29, 1971. Filed with Secretary of State November 29, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 2.5B is added to the Budget Bill for the 1971–72 fiscal year enacted as the Budget Act of 1971 (Chapter 266, Statutes of 1971), to read:

### STATE BEACH, PARK, RECREATIONAL AND HISTORICAL FACILITIES BOND ACT PROGRAM

Sec. 2.5B. The following sum of money, or so much thereof as may be necessary, is hereby appropriated out of the State

Beach, Park, Recreational and Historical Facilities Fund in the State Treasury.

LOCAL ASSISTANCE

| Item | Amount |
|---|---|
| 311B—For grants to counties, cities or cities and counties pursuant to Section 5096.15(d) of the Public Resources Code, Department of Parks and Recreation, payable from the State Beach, Park, Recreational and Historical Facilities Fund | 400,000 |
| Schedule: | |
| (a) City of Los Angeles, Rustic Sullivan Regional Park, for land acquisition | 400,000 |

provided, that it is the intent of the Legislature that:

(1) The price paid for land for Rustic Sullivan Regional Park shall not exceed the fair market value thereof, minus any encumbrances.

(2) If any other public agency can purchase such land at a lower price than can the city, the city shall request that such agency purchase the land and transfer it to the city at such price.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present provisions of the Budget Act of 1971 do not make sufficient provision for land acquisition for the greatly needed development of the Rustic Sullivan Regional Park. The local assistance appropriation in this act is in continuation of an existing program under the Cameron-Unruh Beach, Park, Recreational, and Historical Facilities Bond Act of 1964 to provide for such greatly needed development. If the appropriation is not available for expenditure at the earliest possible date, the development of the regional park will be delayed. The immediate availability of the local assistance appropriation contained in this measure will avert any unnecessary delay. It is therefore necessary that this act go into immediate effect.

13346.05. The governing board of a district shall employ persons to serve in positions requiring certification qualifications for the first academic year of his employment or portion thereof by contract. Any person who, at the time an employment contract is offered to him by the district, is neither a regular employee of the district nor a contract employee then serving under a second contract entered into pursuant to Section 13346.20 shall be deemed to be employed for "the first academic year of his employment or a portion thereof."

13346.10. An employment contract shall contain such terms and conditions as the governing board and the proposed employee shall agree upon and as are consistent with the provisions of the law.

13346.15. Before making a decision relating to the continued employment of a contract employee, the following requirements shall be satisfied:

The governing board of the employing district may establish an assignment for any period of days less than 75 percent.

At its discretion, the governing board of the employing district may assign and compensate a part-time regular employee for a period of service of 75 percent or more of the number of days the colleges of the district are maintained during each academic year. The statement of reasons should be a true and exact copy of the statement of cause for dismissal or reasons for dismissal given the employee under Section 13442 or 13443 if such a statement is given, and the governing board shall so certify.

The statement so transmitted to the State Department of Education shall be treated as confidential matter by the department. Such statements shall be referred to only to the extent necessary for accomplishment of the objectives of this section and shall be for all purposes the confidential property of the department.

The department shall prepare and maintain, from the statements so transmitted, a descriptive and statistical analysis, by category of causes or reasons of dismissal or failure to rehire, and shall report thereon to the Legislature each general session of the Legislature.

The provisions of this section do not apply to actions by the governing board of a community college district.

SEC. 4. Article 5.3 (commencing with Section 13480) is added to Chapter 2, Division 10, of the Education Code, to read:

### Article 5.3. Evaluation of Community College Certificated Personnel

13480. The provisions of this article govern the evaluation of, the dismissal of, and the imposition of penalties on, certificated personnel employed by a community college district. Other provisions of this code which govern the evaluation of, dismissal of, and the imposition of penalties on, certificated personnel employed by a school district shall be applied to persons employed by a community college district in a manner consistent with the provisions of this article.

13480.05. For the purposes of this article:

(c) "Positions requiring certification qualifications" are those positions which provide the services for which certifications have been established in this code.

(d) "Regular employee" means an employee of a district who is employed in accordance with the provisions of subdivision (c) of Section 13346.20 or Section 13346.25.

(e) "Academic year" means that period between the first day of a fall semester or quarter and the last day of the following spring semester or quarter.

13480.15. The provisions of this article do not apply to persons employed as a superintendent, assistant superintendent, or deputy superintendent of a community college district or as a president of a community college employed by contract pursuant to Section 25490.05.

13481. Contract employees shall be evaluated at least once in each academic year. Regular employees shall be evaluated at least once in every two academic years.

Whenever an evaluation is required of a certificated employee by a community college district, the evaluation shall

be conducted in accordance with the standards and procedures established by the rules and regulations of the governing board of the employing district.

13481.05. The governing board of each district in consultation with the faculty shall adopt rules and regulations establishing the specific procedures for the evaluation of its contract and regular employees on an individual basis and setting forth reasonable but specific standards which it expects its certificated employees to meet in the performance of their duties. Such procedures and standards shall be uniform for all contract employees and shall be uniform for all regular employees of the district.

13482. The governing board may terminate the employment of a temporary employee at its discretion at the end of a day or week, whichever is appropriate. The decision to terminate the employment is not subject to judicial review except as to the time of termination.

13482.05. During the school year, all contract and regular employees are subject to dismissal and the imposition of penalties on the grounds and pursuant to procedures set forth in this article.

13482.10. A contract or regular employee may be dismissed or penalized for one or more of the grounds set forth in Section 13403.

13482.15. A governing board may impose one of the following penalties:

(a) Suspension for up to one year.

(b) Suspension for up to one year and a reduction or loss of compensation during the period of suspension.

13482.20. The governing board shall determine whether a contract or regular employee is to be dismissed or penalized. If the employee is to be penalized, the governing board shall determine the nature of those penalties. If the employee is to be dismissed or penalized, the governing board shall determine whether the decision shall be imposed immediately or postponed in accordance with Section 13482.35.

13482.25. The procedure set forth in this article does not apply to an immediate suspension required by Section 13409.

13482.30. A contract or regular employee may be dismissed or penalized if one or more of the grounds set forth in Section 13403 are present and the following are satisfied:

(a) The employee has been evaluated in accordance with standards and procedures established in accordance with the provisions of this article.

(b) The district governing board has received all statements of evaluation which considered the events for which dismissal or penalties may be imposed.

(c) The district governing board has received recommendations of the superintendent of the district and, if the employee is working for a community college, the recommendations of the president of that community college.

(d) The district governing board has considered the statements of evaluation and the recommendations in a lawful meeting of the board.

13482.35. If a governing board decides it intends to dismiss or penalize a contract or regular employee, it shall deliver a written statement, duly signed and verified, to the employee setting forth the complete and precise decision of the governing board and the reasons therefor.

The written statement shall be delivered by serving it personally on the employee or by mailing it by United States registered mail to the employee at his address last known to the district.

A governing board may postpone the operative date of a decision to dismiss or impose penalties for a period not to exceed one year, subject to the employee's satisfying his legal responsibilities as determined by statute and rules and regulations of the district. At the end of this period of probation, the decision shall be made operative or permanently set aside by the governing board.

13482.45. If the employee objects to the decision of the governing board or the reasons therefor on any ground, he shall notify in writing the governing board, the superintendent of the district which employs him, and the president of the college at which he serves of his objection within 30 days of the date of the service of the notice.

13483. Within 30 days of the receipt by the district governing board of the employee's demand for a hearing, the employee and the governing board shall agree upon an arbitrator to hear the matter. When there is agreement as to the arbitrator, the employee and the governing board shall enter into the records of the governing board written confirmation of the agreement signed by the employee and an authorized representative of the governing board. Upon entry of such confirmation, the arbitrator shall assume complete and sole jurisdiction over the matter.

13483.05. The arbitrator shall conduct proceedings in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1, Division 3, Title 2, of the Government Code. He shall determine whether there is cause to dismiss or penalize the employee. If he finds cause, he shall determine whether the employee shall be dismissed and determine the precise penalty to be imposed, and he shall determine whether his decision should be imposed immediately or postponed pursuant to Section 13482.35.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made

based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

13483.10. In the case in which the arbitrator determines that the operation of his decision should be postponed, any question of terminating the postponement shall be determined by the arbitrator.

13483.20. The district alone shall pay the fees of the arbitrator, his expenses, and such expenses as he shall determine are a cost of the proceedings. The "cost of the proceedings" does not include any expenses paid by the employee for his counsel, witnesses, or the preparation or presentation of evidence on his behalf.

13483.25. If within 30 days of the receipt of the notification by the district governing board, no written confirmation of agreement of the employee and the governing board as to an arbitrator has been submitted to the secretary of the governing board for entry into its records, the governing board shall certify the matter to the Office of Administrative Procedure and request the appointment of an administrative hearing officer.

13483.30. The administrative hearing officer shall conduct proceedings in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1, Division 3, Title 2, of the Government Code. The written notice delivered to the employee pursuant to Section 13482.35 shall be deemed an accusation. The written objection of the employee delivered pursuant to Section 13482.45 shall be deemed the notice of defense.

13483.35. The hearing officer shall determine whether there is cause to dismiss or penalize the employee. If he finds cause, he shall determine whether the employee shall be dismissed and determine the precise penalty to be imposed, and he shall determine whether his decision should be imposed immediately or postponed pursuant to Section 13482.35.

No witness shall be permitted to testify at the hearing except upon oath or affirmation. No testimony shall be given or evidence introduced relating to matters which occurred more than four years prior to the date of the filing of the notice. Evidence of records regularly kept by the governing board concerning the employee may be introduced, but no decision relating to the dismissal or suspension of any employee shall be made based on charges or evidence of any nature relating to matters occurring more than four years prior to the filing of the notice.

13483.40. In the case in which the hearing officer determines that the operation of his decision should be postponed, any question of terminating the postponement shall be brought to the hearing officer.

13483.45. The decision of the arbitrator or hearing officer, as the case may be, may, on petition of either the governing board or the employee, be reviewed by a court of competent

jurisdiction in the same manner as a decision made by a hearing officer under Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. The court, on review, shall exercise its independent judgment on the evidence. The proceeding shall be set for hearing at the earliest possible date and shall take precedence over all other cases, except older matters of the same character and matters to which special precedence is given by law.

13483.50. The charges levied by the Office of Administrative Procedure shall be paid by the district.

13484. If a contract or regular employee is dismissed or penalized for immoral conduct or conviction of a felony or crime involving moral turpitude, the governing board shall transmit to the Chancellor, California Community Colleges, and to the county superintendent of schools which issued the certificate under which the employee was serving at the time of his dismissal or the imposition of his penalty, a statement setting forth the acts of the employee and a request that any certificate issued by the county board of education to the employee be revoked if the employee is not reinstated upon appeal.

SEC. 5. Chapter 2.5 (commencing with Section 25490) is added to Division 18.5 of the Education Code, to read:

The contract may be extended for periods of no more than four years at the discretion of the governing board. The dismissal and imposition of penalties on a superintendent or president employed by contract pursuant to this section shall be in accordance with the terms of the contract of employment.

25490.10. The employment, rights, responsibilities, dismissal, imposition of penalties for persons employed by a community college district in positions requiring certification qualifications shall be governed by the provisions of Article 3.5 (commencing with Section 13345) and Article 5.3 (commencing with Section 13480) of Chapter 2 of Division 10, with the exception given in Section 25490.05. The remainder of the provisions of Division 10 shall be applied to certificated persons employed by a community college district in accordance with their intent and in a manner consistent with the provisions of Articles 3.5 and 5.3 and with the provisions of this

chapter (hereinafter referred to in this chapter, collectively, as "this act").

Whenever in Sections 13404 to 13412, inclusive, the term "Commission on Professional Competence" is used, it shall be deemed for the purposes of this chapter to mean either "arbitrator" or "hearing officer," whichever is the case.

The provisions of this act shall take precedence, for the purposes of certificated persons employed by a community college district, over any other act enacted by the Legislature at any session which, explicitly or implicitly, would result in certificated persons employed by a community college district being governed by provisions inconsistent with the provisions of this act.

25490.15. The enactment of this act shall not be interpreted in any way to cause certificated employees of the community college districts who are permanent employees as of the operative date of this act to lose their rights as permanent employees. After the operative date of this act, they shall be, and have all the rights of, regular employees under the provisions of this act.

25490.20. Certificated employees of community college districts who are probationary employees on the operative date of this act shall be classified in accordance with the following:

(a) A probationary employee who has been employed for, and served on, at least 75 percent of the days during which the colleges of the district maintained classes during the academic year (as defined in Section 13345.05) immediately preceding the operative date of this act shall be classified as a regular employee for the 1972–1973 fiscal year and all fiscal years thereafter or a contract employee under his second contract for the 1972–1973 fiscal year. The classification shall be made at the sole discretion of the governing board no later than the 30th day after this act becomes operative. The governing board of the district shall give written notice to each employee of his classification. The notice shall be delivered no later than 10 days after the classification is made.

(b) A probationary employee who has not met the requirements set forth in subdivision (a) shall be classified as a contract employee under his first contract for the 1972–1973 fiscal year. The governing board shall give each such employee written notice of his classification no later than the 10th day following the operative date of this act.

25490.25. Substitute and short-term employees shall be employed, beginning on the operative date of this act, as temporary employees.

25490.30. Rules and regulations adopted in relation to the evaluation process shall assure that the standards and procedures of the evaluation process in each district will be fair and in accordance with the intent of this act and that the evaluation processes of all of the districts are basically similar in substance and intent. These regulations shall permit and

encourage a district governing board to establish evaluation procedures and standards which meet the particular needs of that district.

SEC. 6. Section 13490 is added to the Education Code, to read:

13490. For purposes of this article, "employing authority" means the superintendent of the school district in which the employee is employed, or his designee, or in the case of a district which has no superintendent, a school principal or other person designated by the governing board.

SEC. 7. Sections 1 to 5, inclusive, of this act shall become operative on September 1, 1972.

SEC. 8. If both this act and either Assembly Bill No. 293 or Senate Bill No. 697 of the 1971 Regular Session are enacted, it is the intent of the Legislature that Sections 1 to 5, inclusive, of this act shall apply to certificated persons employed by a community college district and that Section 6 of this act and the provisions of Assembly Bill No. 293 or Senate Bill No. 697 shall apply only to persons employed by districts which maintain any of grades kindergarten through 12.

21252.10. The combined prior and current service pensions for law enforcement members other than those members subject to Section 21252.6, upon retirement at or after age 55 is a pension derived from the contributions of the employer which, when added to that portion of the service retirement annuity that is derived from the accumulated normal contributions of the member, shall equal a percentage of his final compensation, multiplied by the number of years of law enforcement service, such percentage to be 2½ or, if less, the percentage obtained by division of 50 percent by the difference between age 55 and the member's age at his birthday nearest to the date of his first entry into any service to which this section, Section 21252.1 or 21252.2 of this part applied, whether or not such service is credited at retirement, increased, as to service following an absence from employment to which any such section applies, by the number of completed years of such absence. Any member entering such service at or after age 55 shall be deemed, for purposes of this section, to have entered such service at age 54.

The amendment to this section at the 1968 Regular Session shall apply only to such members retiring on and after the effective date of the amendment. Current and prior service pensions of such members retired prior to the effective date shall be continued in accordance with the provisions of this part (commencing with Section 20000) as they existed on the day preceding the effective date.

The percentage shall be reduced by one-third, as applied to that part of the member's final compensation which does not exceed four hundred dollars ($400) per month for service after the effective date of coverage of a member under the federal system and prior to the date upon which services of persons in his employment cease to be covered under the federal system; provided, however, that the retirement allowance of any member who was a law enforcement member on October 1, 1965, and who is subject to such reduced percentage, shall not be less than the actuarial equivalent of the retirement allowance he would have received under this section prior to its amendment at the 1965 Regular Session of the Legislature.

SEC. 4. Section 22013.2 is added to the Government Code, to read:

## CHAPTER 1658

*An act to amend Section 1174 of the Code of Civil Procedure, relating to unlawful detainer.*

[Approved by Governor November 30, 1971. Filed with Secretary of State November 30, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1174 of the Code of Civil Procedure is amended to read:

1174. If upon the trial, the verdict of the jury, or, if the case be tried without a jury, the findings of the court be in favor of the plaintiff and against the defendant, judgment shall be entered for the restitution of the premises; and if the proceedings be for an unlawful detainer after neglect, or failure to perform the conditions or covenants of the lease or agreement under which the property is held, or after default in the payment of rent, the judgment shall also declare the forfeiture of such lease or agreement if the notice required by Section 1161 of the code states the election of the landlord to declare the forfeiture thereof, but if such notice does not so state such election, the lease or agreement shall not be forfeited.

The jury or the court, if the proceedings be tried without a jury, shall also assess the damages occasioned to the plaintiff by any forcible entry, or by any forcible or unlawful detainer, alleged in the complaint and proved on the trial, and find the amount of any rent due, if the alleged unlawful detainer be after default in the payment of rent. If the defendant is found guilty of forcible entry, or forcible or unlawful detainer, and malice is shown, the plaintiff may be awarded either damages and rent found due or punitive damages in an amount which does not exceed three times the amount of damages and rent found due. The trier of fact shall determine whether damages and rent found due or punitive damages shall be awarded, and judgment shall be entered accordingly.

When the proceeding is for an unlawful detainer after default in the payment of rent, and the lease or agreement under which the rent is payable has not by its terms expired, and the notice required by Section 1161 has not stated the election of the landlord to declare the forfeiture thereof, the court may, and, if the lease or agreement is in writing, is for a term of more than one year, and does not contain a forfeiture clause, shall order that execution upon the judgment shall not be issued until the expiration of five days after the entry of the judgment, within which time the tenant, or any subtenant, or any mortgagee of the term, or any other party interested in its continuance, may pay into the court, for the landlord, the amount found due as rent, with interest thereon, and the amount of the damages found by the jury or the court for the unlawful detainer, and the costs of the proceedings, and thereupon the judgment shall be satisfied and the tenant be restored to his estate.

But if payment as here provided be not made within five days, the judgment may be enforced for its full amount, and for the possession of the premises. In all other cases the judgment may be enforced immediately.

A plaintiff, having obtained a writ of restitution of the premises pursuant to an action for unlawful detainer, shall be entitled to have the premises restored to him by officers charged with the enforcement of such writs. Promptly upon payment of reasonable costs of service, the enforcing officer shall serve or post a copy of the writ in the same manner as upon levy of writ of attachment pursuant to subdivision 1 of Section 542 of this code. In addition, where the copy is posted on the property, another copy of the writ shall thereafter be mailed to the defendant at his business or residence address last known to the plaintiff or his attorney or, if no such address is known, at the premises. If the tenant does not vacate the premises within five days from the date of service, or, if the copy of the writ is posted, within five days from the date of mailing of the additional notice, the enforcing officer shall remove the tenant from the premises and place the plaintiff in possession thereof. It shall be the duty of the party delivering the writ to the officer for execution to furnish the information required by the officer to comply with this section.

All goods, chattels or personal property of the tenant remaining on the premises at the time of its restitution to the plaintiff shall be stored by the plaintiff in a place of safekeeping for a period of 30 days and may be redeemed by the tenant upon payment of reasonable costs incurred by the plaintiff in providing such storage and the judgment rendered in favor of plaintiff, including costs. Plaintiff may, if he so elects, store such goods, chattels or personal property of the tenant on the premises, and the costs of storage in such case shall be the fair rental value of the premises for the term of storage. An inventory shall be made of all goods, chattels or personal property left on the premises prior to its removal and storage or storage on the premises. Such inventory shall either be made by the enforcing officer or shall be verified in writing by him. The enforcing officer shall be entitled to his costs in preparing or verifying such inventory.

In the event the property so held is not removed within 30 days, such property shall be deemed abandoned and may be sold at a public sale by competitive bidding, to be held at the place where the property is stored, after notice of the time and place of such sale has been given at least five days before the date of such sale by publication once in a newspaper of general circulation published in the county in which the sale is to be held. Notice of the public sale may not be given more than five days prior to the expiration of the 30 days during which the property is to be held in storage. All money realized from the sale of such personal property shall be used to pay the costs of the plaintiff in storing and selling such property, and any balance thereof shall be applied in payment of plaintiff's judgment, including costs. Any remaining balance shall be returned to the defendant.

(3) The officer to whom the defendant is surrendered shall, within 48 hours of the surrender, bring the defendant before the court in which the defendant is next to appear on the case for which he has been surrendered. The court shall advise the defendant of his right to move the court for an order permitting the withdrawal of any previous waiver of time and shall advise him of the authority of the court, as provided in subdivision (b), to order return of the premium paid by the defendant or other person, or any part of it.

(4) Upon the undertaking, or certificate of deposit, and the certificate of the officer, the court in which the action or appeal is pending may, upon notice of five days to the district attorney of the county, with a copy of the undertaking, or certificate of deposit, and the certificate of the officer, order that the bail or deposit be exonerated, and on filing the order and papers used on the application, they are exonerated accordingly.

(b) Notwithstanding subdivision (a), if the court determines that good cause does not exist for the surrender of a defendant who has not failed to appear or has not violated any order of the court, it may, in its discretion, order the bail or the depositor to return to the defendant or other person who has paid the premium or any part of it, all of the money so paid or any part of it.

The chief law enforcement and fire officials of every county shall consult with the chief officer of their county who is charged with the enforcement of laws or ordinances regulating the erection, construction, or alteration of buildings within their jurisdiction for the purpose of developing local security standards and regulations supplemental to those adopted as part of Title 24 of the California Administrative Code, relating to building standards. No provision of this, or any other code shall prevent a city or county from enacting building security standards stricter than those enacted by the state.

SEC. 3. There is hereby appropriated from the General Fund to the Department of Justice the sum of forty thousand dollars ($40,000), or so much thereof as may be necessary, to be expended for the purposes of this act.

# DIVISION 10. PUBLIC ACCESS TO PUBLIC RESOURCES

## CHAPTER 1. LEGISLATIVE FINDINGS AND DECLARATIONS

10000. It is the intent of the Legislature, by the provisions of this division, to implement Section 2 of Article XV of the California Constitution insofar as this division is applicable to navigable waters.

10001. The Legislature finds and declares that the public natural resources of this state are limited in quantity and that the population of this state has grown at a rapid rate and will continue to do so, thus increasing the need for utilization of public natural resources. The increase in population has also increased demand for private property adjacent to public natural resources through real estate subdivision developments which resulted in diminishing public access to public natural resources.

10002. The Legislature further finds and declares that it is essential to the health and well-being of all citizens of this state that public access to public natural resources be increased. It is the intent of the Legislature to increase public access to public natural resources.

## CHAPTER 2. ACCESS TO RIVERS AND STREAMS

10020. (a) No city or county or city and county shall approve either a tentative or a final map of any proposed subdivision to be fronted upon a public waterway river or stream which does not provide, or have available, reasonable public access by fee or easement from a public highway to that portion of the bank of the river or stream bordering or lying within the proposed subdivision.

(b) Reasonable public access shall be determined by the city or county or city and county in which the proposed subdivision is to be located. In making the determination of what shall be reasonable access, the city or county or city and county shall consider all of the following:

(1) That access may be by highway, foot trail, bike trail, horse trail, or any other means of travel.

(2) The size of the subdivision.

(3) The type of riverbank and the various appropriate recreational, educational, and scientific uses, including, but not limited to, swimming, diving, boating, fishing, water skiing, scientific collection, and teaching.

(4) The likelihood of trespass on private property and reasonable means of avoiding such trespasses.

(c) A public waterway river or stream for the purposes of this chapter means those waterways, rivers and streams defined in Sections 100 through 106 of the Harbors and Navigation Code, any stream declared to be a public highway for fishing pursuant to Sections 25660 through 25662 of the Government

Code, the rivers listed in Section 1505 of the Fish and Game Code as spawning areas, all waterways, rivers and streams downstream from any state or federal salmon or steelhead fish hatcheries.

10021. (a) No city or county or city and county shall approve either a tentative or a final map of any proposed subdivision to be fronted upon a public waterway river or stream which does not provide for a dedication of a public easement along a portion of the bank of the river or stream bordering or lying within the proposed subdivision.

(b) The extent, width and character of the public easement shall be reasonably defined to achieve reasonable public use of the public waterway river or stream consistent with public safety. The reasonableness and extent of the easement shall be determined by the city or county or city and county in which the proposed subdivision is to be located. In making the determination for reasonably defining the extent, width, and character of the public easement, the city or county or city and county shall consider all of the following:

(1) That the easement may be for a foot trail, bicycle trail, or horse trail.

(2) The size of the subdivision.

(3) The type of riverbank and the various appropriate recreational, educational and scientific uses including, but not limited to, swimming, diving, boating, fishing, water skiing, scientific collection and teaching.

(4) The likelihood of trespass on private property and reasonable means of avoiding such trespasses.

10022. Any public access route or routes and any easement along the bank of a public waterway, river or stream provided by the subdivider shall be expressly designated on the tentative or final subdivision map, and such map shall expressly designate the governmental entity to which such route or routes are dedicated and its acceptance of such dedication. The acceptance by such governmental entity of such dedication shall occur within three years of the approval of the final subdivision map at which time, unless accepted, such dedication shall be deemed abandoned.

## CHAPTER 3. EXEMPTIONS

10040. Nothing in this division shall be construed to limit any powers or duties in connection with or affect the operation of beaches or parks in this state or to limit or decrease the authority, powers, or duties of any public agency or entity.

10041. Nothing in this division shall require a city or county to disapprove either a tentative or final subdivision map solely on the basis that the reasonable public access otherwise required by this division is not provided through or across the subdivision itself, if the city or county makes a finding that such reasonable public access is otherwise available within a reasonable distance from the subdivision.

Any such finding shall be set forth on the face of the tentative or final subdivision map.

10042. Nothing in Section 10021 shall apply to the site of electric power generating facilities.

10043. Nothing in this division shall apply to industrial subdivisions.

SEC. 2. It is not the intent of the Legislature by the enactment of this act to take private property for public use without just compensation in violation of the United States or California Constitution.

## CHAPTER 1673

*An act to add Chapter 3.5 (commencing with Section 3630) to Division 3 of the Public Resources Code, relating to oil and gas development.*

[Approved by Governor December 3, 1971. Filed with Secretary of State December 3, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 3.5 (commencing with Section 3630) is added to Division 3 of the Public Resources Code, to read:

## CHAPTER 3.5. UNIT OPERATION

### Article 1. Declaration of Policy

3630. The Legislature hereby finds and declares that the management, development, and operation of lands as a unit for the production of oil and gas aids in preventing waste, increases the ultimate recovery of oil and gas, and facilitates increased concurrent use of surface lands for other beneficial purposes.

3631. Nothing in this chapter shall be construed in such a manner as to conflict with the provisions of Article 2 (commencing with Section 6826) of Chapter 3 of Part 2 of Division 6.

### Article 2. Definitions

3635. Unless the context otherwise requires, the definitions in this article govern the construction of this chapter.

3635.1. "Person" means any natural person, corporation, association, partnership, joint venture, receiver, trustee, executor, administrator, guardian, fiduciary, or other representative of any kind and includes the state and any city, county, city and county, district or any department, agency, or instrumentality of the state or of any governmental subdivision whatsoever.

3635.2. "Land" means both surface and mineral rights.

3635.3. "Pool" means an underground reservoir containing, or appearing at the time of determination to contain, a common accumulation of crude petroleum oil or natural gas or both. Each zone of a general structure which is separated from any other zone in the structure is a separate pool.

3635.4. "Field" means the same general surface area which is underlaid or reasonably appears to be underlaid by one or more pools.

3635.5. "Tracts of land" means land areas under separate ownership which are all of the following:

(a) Contiguous either on the surface or in the subsurface.

(b) Located within a field which has been producing for more than 20 years.

(c) Located within a field over 75 percent of which lies within incorporated areas.

3636. "Unit agreement" means and includes, in addition to the unit agreement entered into pursuant to the provisions of Article 3 (commencing with Section 3640) of this chapter, any consent agreement or other agreement entered into in connection with, and supplemental to, such unit agreement, but does not include a unit operating agreement or any preliminary agreement confined to effectuating any exchange of interests in land which the parties to such preliminary agreement may desire. "Unit operating agreement" means an agreement, entered into by the working interest owners only, governing all operations performed by the unit operator pur-

suant to the unit agreement and the unit operating agreement for the production of unitized substances.

3636.1. "Unit area" means all lands included within an area subject to a unit agreement entered into pursuant to the provisions of Article 3 (commencing with Section 3640) of this chapter.

3636.2. "Unit production" means all oil, gas, and other hydrocarbon substances produced from a unit area from the effective date of a unit agreement approved by the supervisor pursuant to Section 3643.

3636.3. "Unit operator" means the person or persons designated by the working interest owners as operator or operators of the unit area.

3637. "Working interest" means an interest held in lands by virtue of fee title, including lands held in trust, a lease, operating agreement, or otherwise, under which the owner of such interest has the right to drill for, develop, and produce oil and gas. A working interest shall be deemed vested in the owner thereof even though his right to drill or produce may be delegated to an operator under a drilling and operating agreement, unit agreement, or other type of operating agreement.

3637.1. "Working interest owner" means a person owning a working interest.

3637.2. "Royalty interest" means a right to or interest in oil and gas produced from any lands or in the proceeds of the first sale thereof other than a working interest.

3637.3. "Royalty interest owner" means a person owning a royalty interest.

## Article 3. Unit Agreements

3640. Tracts of land may be unitized as provided in this article to provide for the management, development, and operation thereof as a unit to prevent, or to assist in preventing, waste and to increase the ultimate recovery of oil and gas.

3641. An agreement for the management, development, and operation of two or more tracts of land in the same field or in the same producing or prospective pool as a unit without regard to separate ownerships, and for the allocation of benefits and costs on a basis set forth in such agreement, shall be valid and binding upon those who consent thereto and may be filed with the supervisor for approval. However, unless and until the agreement qualifies for approval, and is approved, by the supervisor persons who do not consent thereto shall not be bound thereby, nor shall their rights be affected thereby.

3642. Any proposed agreement for unit operation of tracts of land which has been consented to by persons who own, of record, title to working interests which aggregate at least an undivided three-fourths of the total working interests in the

area proposed to be unitized, and by persons who own, of record, title to the royalty interest which aggregates at least an undivided three-fourths of the total royalty interest in the area proposed to be unitized, may be filed with the supervisor by the owner of any such working interest in conjunction with a petition requesting approval thereof.

3643. The unit agreement shall be approved, if, after a public hearing, the supervisor finds all of the following:

(a) The unit area of the proposed agreement for unit operation takes in all tracts which, consistent with good oil field practice, should be considered a part of and related to the field or pool proposed for unit operation but does not include tracts which, consistent with good oil field practice, should not be considered a part of or related to the field or pool proposed for unit operation.

(b) As of the date of filing of the petition, the proposed unit agreement was consented to by persons owning at least three-fourths of the working interests and three-fourths of the lessors' royalty interests as described in Section 3642.

(c) The unitized management and operation of the pool or pools proposed to be unitized is reasonably necessary in order to carry on pressure maintenance or pressure replenishment operations, cycling or recycling operations, gas injection operations, water flooding operations, reduction of oil viscosity operations, or any combination thereof, or any other form of joint effort calculated to increase the ultimate recovery of oil and gas from the proposed unit area.

(d) The value of the estimated recovery of additional oil or gas, or the increased present worth value due to accelerated recovery of oil or gas, as a result of the unit operations will exceed the estimated additional cost incident to conducting such operations.

(e) The proposed unit agreement provides for an allocation of the unit production among and to the separately owned tracts in the area proposed to be unitized such as will reasonably permit persons otherwise entitled to share in or benefit by the production from such separately owned tracts to produce or receive, in lieu thereof, their fair, equitable, and reasonable pro rata share of the unit production or other benefits thereof.

(f) The proposed unit agreement provides, to the full extent practical, for the organization and consolidation of surface facilities, including oil production, storage, treatment, and transportation facilities, in such a manner as will eliminate wasteful and excessive use of land surface areas, freeing such areas for other productive use and development, and provides a fair procedure for the waiver, from time to time, of the working interest owners' right of entry on surface areas which in the future become unneeded for the conduct of unit operations.

(g) The proposed unit agreement is fair and reasonable under all the circumstances in other material respects.

(h) If state-owned lands under the jurisdiction of the State Lands Commission are included in the proposed unit agreement, such agreement has been reviewed and approved by the commission as to such lands.

3644. A tract of land's fair, equitable, and reasonable share of the unit production shall be measured by the value of such tract for oil and gas purposes and its contributing value to the unit in relation to like values of other tracts in the unit area, taking into account, among other things, the following:

(a) The primary tract value based upon the projected future value of hydrocarbon substances that would be produced by primary means from such tract after the date of unitization, if no secondary recovery operation were undertaken.

(b) The secondary tract value based upon consideration of the following factors:

(1) The volume in acre-feet of porous, permeable sand originally saturated with hydrocarbon substances within a zone to be unitized, and underlying such tract.

(2) The hydrocarbon substances per acre-foot of such zone recoverable by means of secondary recovery operations.

(3) The value of the hydrocarbon substances so recoverable from such tract from such zones to be unitized.

(4) In the event the necessary data is not available as listed in paragraphs (1), (2), and (3), the value may be assigned using a prudent engineering method, depending on the data available.

(c) All other factors which significantly bear upon the value of the committed properties for primary and secondary recovery.

3645. Upon giving his approval to the unit agreement pursuant to Section 3643, the supervisor shall issue an order directing unit operations of the unit area in accordance with the unit agreement, and requiring that the interests of all persons in the unit area be thereafter subject to the unit agreement the same as if all such persons had expressly consented to the unit agreement. An order of the supervisor issued pursuant to this section shall become effective on the date provided for in the order, except that no such order shall become effective until all interests in the unit area for which timely offers of sale have been made pursuant to Section 3647 have been purchased as provided in that section, or until the termination of such offers of sale.

3646. The supervisor's order shall include fair and reasonable provisions for all of the following:

(a) The date when all tracts of land not theretofore committed to the unit shall be subject to unit operation, which date shall not be earlier than the first day of the month following the effective date of the supervisor's order.

(b) Provision for the carrying or otherwise financing of any persons who request the same and who the supervisor determines are unable to meet their financial obligations in

connection with the unit operation, allowing a reasonable interest charge to those who carry or finance such obligations.

(c) Such additional provisions which the supervisor determines to be appropriate for bringing into the unit area on a fair and reasonable basis tracts of land and interests not theretofore committed to the unit agreement.

3647. The owner of any working interest or royalty interest in a tract which is the subject of a unit agreement who did not consent to the proposed unit agreement shall, 60 days following the date upon which the supervisor issues his order under the provisions of Section 3645, be entitled to offer his interest for sale pursuant to this section. All working interest owners who consented to the proposed unit agreement shall be entitled to participate in purchasing such interest in proportion to their respective shares of unit production. Unless one or more working interest owners purchase such interest, the order of the supervisor shall not become effective.

If a disagreement arises with respect to the price at which such an interest shall be purchased, then either party may request the supervisor to appoint an engineering committee consisting of one or more qualified oil field appraisers and engineers to make an independent appraisal of the value of the interest as of the date the supervisor issued his order under Section 3645. Such committee shall consider all relevant data and information submitted by interested parties and may seek and consider such other information as it deems relevant. Upon receiving the engineering committee's appraisal and the report summarizing the basis of such appraisal, the supervisor shall determine the fair market value of the interest as of the date the supervisor issued his order under Section 3645. Subject to the provisions of Section 3654, such determination shall fix the price at which the sale shall be consummated. Any appeal of this determination shall be filed within 30 days of the date of such determination. The compensation and expenses of the engineering committee shall be subject to approval in amount by the supervisor and, if the unit becomes effective, shall be paid by the working interest owners in the proportion they share unit expenses. If the unit does not become effective within the time provided for in the order of the supervisor issued under Section 3645, the working interest owners who have consented to the unit agreement shall pay such compensation and expenses.

3648. Any unit agreement approved by the supervisor shall contain a provision under which a party whose surface land is being utilized for the benefit of the unit area shall be entitled to compensation for the reasonable value of the use of such surface.

3649. Any proposed modification of an approved unit agreement shall be submitted by the unit operator to the supervisor for his review and approval. No modification shall alter or change the basis for allocating production to tracts of land theretofore committed to the unit area without the

express written consent of all persons who might be adversely affected thereby. The supervisor shall approve the proposed modification if, after a public hearing, he finds that the proposed unit agreement modification is consented to by persons who own, of record, title to working interests which aggregate at least an undivided three-fourths of the total working interests within the unit area and by persons who own, of record, title to the royalty interest which aggregate at least an undivided three-fourths of the total royalty interest in the unit area, that the proposed modification is in conformity with other provisions of the unit agreement, that it is consistent with the purpose of this chapter, and is fair and reasonable under all the circumstances. Upon approval, the unit agreement modification shall be binding upon all persons having any interest in the pool or pools subject to the unit agreement the same as if all such persons had expressly agreed to the modification.

Nothing in this section shall be construed as applying to any modification of a unit operating agreement entered into exclusively by the working interest owners.

3650. If at any time after the entry of an order of unitization issued pursuant to Section 3645, it develops that a pool is larger than theretofore indicated and that all or a portion of a further tract or tracts of land should be included within the unit area in order that the unit operations can cover the entire pool, persons who own of record any working interest in the pool may file a petition with the supervisor requesting the addition of such tract or tracts of land to the unit area insofar as they contain the pool. Upon the filing of such a petition, the supervisor shall hold a public hearing.

3651. The supervisor shall issue his order that such further tract or tracts of land insofar as they contain the pool or pools and the interests of all persons therein shall thereafter be subject to unit operations if he finds all of the following:

(a) All or a portion of a further tract or tracts of land do contain a portion of the pool previously ordered unitized by the supervisor.

(b) The unit agreement has been consented to by persons who own, of record, title to working interests which aggregate at least an undivided three-fourths of the working interests in the total area of the pool or pools, as known to exist at the time of the filing of the petition, and by persons who own, of record, title to the royalty interest which aggregates at least an undivided three-fourths of the royalty interest in the total area of the pool or pools, as known to exist at the time of the filing of the petition.

(c) The addition of such further tract or tracts of land insofar as they contain the pool or pools to the unit operations is reasonably necessary in order to prevent waste or to increase the ultimate recovery of oil and gas.

3652. The supervisor's order issued pursuant to Section 3651 shall contain a fair basis for allocating production to such

further tract or tracts of land and make fair and reasonable provisions under the circumstances in other respects for bringing into the unit operation such tract or tracts of land. In providing for the allocation of unit production from the enlarged unit area, the order shall, however, first treat the unit area previously established as a single tract, and the portion of unit production so allocated thereto shall then be allocated among the separately owned tracts of land included in such previously established unit area in the same proportion as specified therefor in the previous order. The supervisor shall allocate production from the enlarged unit area between the previously established unit area and the additional tract or tracts of land, and if there be more than one such additional tract of land, shall allocate the production allotted the additional tracts of land as between such additional tracts of land, in such a manner as will reasonably permit persons otherwise entitled to share in or benefit by the production from such tracts of land to produce or receive, in lieu thereof, their fair, equitable, and reasonable pro rata share of the unit production or other benefits thereof. A tract's fair, equitable, and reasonable share of the unit production shall be measured by the value of each such tract of land for oil and gas purposes and its contributing value to the unit operation in relation to like values of other tracts in the unit, taking into account, among other things, the following:

(a) The primary tract value based upon the projected future value of hydrocarbon substances that would be produced by primary means from such tract after the date of unitization, if no secondary recovery operation were undertaken.

(b) The secondary tract value based upon consideration of the following factors:

(1) The volume in acre-feet of porous, permeable sand originally saturated with hydrocarbon substances within a zone to be unitized, and underlying such tract.

(2) The hydrocarbon substances per acre-foot of such zone recoverable by means of secondary recovery operations.

(3) The value of the hydrocarbon substances so recoverable from such tract from such zones to be unitized.

(4) In the event the necessary data is not available as listed in paragraphs (1), (2), and (3), the value may be assigned using a prudent engineering method, depending on the data available.

(c) All other factors which significantly bear upon the value of the committed properties for primary and secondary recovery.

3653. Any disagreement with respect to the unit operation between persons owning any interest in the pool or pools subject to the unit agreement may be submitted to the supervisor for his review and decision.

3654. Any and all decisions or determinations made by the supervisor under the provisions of this chapter shall be ap-

pealable to any court of competent jurisdiction by any person whose interests are affected by any such decision or determination. Except as otherwise provided in this article, such appeal must be made within 60 days from the date of such decision or determination.

3655. The three-fourths interests referred to in Sections 3642, 3649, and 3651 shall be determined as follows:

(a) A total value, composed of the combined value of all of the primary tract assignment and secondary tract assignment, shall be assigned to all of the tracts of land which are the subject of the unit agreement or the proposed unit agreement.

(b) The pro rata interest of each working interest owner shall be equal to a fraction, the numerator of which shall be the total value of the primary tract assignment and secondary tract assignment of the tract or tracts in which he has a working interest, in accordance with his fractional share of such interest, if any, and the denominator of which shall be the value determined under subdivision (a).

(c) The pro rata interest of each royalty interest owner shall be equal to a fraction, the numerator of which shall be the total value of the primary tract assignment and secondary tract assignment of the tract or tracts in which he has a royalty interest, in accordance with his fractional share of such interest, if any, and the denominator of which shall be the value determined under subdivision (a).

If there are no royalties outstanding with respect to a tract or tracts of land included within or proposed to be included within a unit area, then for the purpose of determining the three-fourths of royalty interests the working interest owners in any such tract of land shall be deemed to be the owners of a royalty with respect to such tract in the same proportion as their ownership of the working interest therein.

3656. No unit agreement approved by the supervisor pursuant to the provisions of this chapter shall effect or result in, or be construed to effect or result in, the alienation, transfer, or change of any title or ownership, legal or equitable, of any person or party in or to any tract of land or the mineral rights therein to any other person or party.

3657. Operations incident to the drilling, producing, or operating of a well or wells on any portion of a unit area under a unit agreement approved by the supervisor pursuant to the provisions of this chapter shall be deemed, for the purposes of determining compliance with lease and other contractual obligations, the conduct of such operations on each separately owned tract in the unit area by the several working interest owners thereof. That portion of the production allocated to each tract of land included in the unit area, when produced, shall be deemed for all purposes to have been produced from such tract by a well or wells drilled therein.

3658. Any order of the supervisor issued pursuant to this article shall, from and after its effective date, be effective

as to, and be binding upon, each person owning an interest in the unit area covered thereby, or in the oil and gas produced therefrom, or the proceeds thereof. Each such person shall have the right to enforce the provisions of the unit agreement, including, but not limited to, the provisions for determining rates of production, whether or not such person expressly consented to the unit agreement.

3659. Prior to any public hearing held by the supervisor pursuant to this chapter, the supervisor shall give reasonable written notice of the hearing to all persons shown by the records of the tax assessor to have an interest in the land proposed for unit operation, and shall give written notice to any city within which the land lies and, with respect to land which lies in an unincorporated area, to the county in which the land lies. Such city or county or any other interested person may, on any matter relevant to the proposed agreement for operation, submit testimony and evidence for the consideration of the supervisor.

## Article 4. Liens

3680. A person to whom another is indebted for expenses incurred in carrying on unit operations may, in order to secure payment of the amount due, fix a lien upon the interest of the debtor in the unit production as and when produced from the unit area by filing for record with the recorder of the county where the property or a portion thereof involved is located, an affidavit setting forth all of the following:

(a) In general terms the kind of materials, tools, equipment, or supplies furnished or labor or services performed.

(b) A description of the land involved, the name of the debtor, and his interest in the production from the unit area.

(c) The amount which is still due and unpaid.

(d) A statement that at least 20 days prior to the date of the affidavit such person gave written notice to the debtor by registered mail at his last known address, setting forth the information required under subdivisions (a), (b), and (c) of this section.

Any such affidavit shall be filed for record not later than 90 days after the delivery of the property or the completion of the labor.

3681. The lien shall be a first lien on the production and otherwise shall be of the same nature and subject to foreclosure in the same manner and within the same time as mechanics' liens. In any case where the lien claimant is in possession of the production which is subject to the lien, the supervisor may authorize the lien claimant to sell such production or so much thereof as may be necessary to satisfy such lien, provided that the supervisor shall hold or arrange for the holding of the proceeds of such sale for appropriate distribution upon a determination of the controversy.

### Article 5. Regulations

3685. Within three months after the effective date of this chapter, the supervisor shall, after one or more public hearings, adopt regulations governing the submittal of proposed unit agreements, modifications thereof, additions thereto, and disagreements with respect to unit operations. The regulations shall include, but not be limited to, requirements for filing fees sufficient to cover the costs of administration, and submittal of policies of title insurance. The regulations may be amended from time to time by the supervisor with the approval of the director.

### Article 6. Preemption

3690. This chapter shall not be deemed a preemption by the state of any existing right of cities and counties to enact and enforce laws and regulations regulating the conduct and location of oil production activities, including, but not limited to, zoning, fire prevention, public safety, nuisance, appearance, noise, fencing, hours of operation, abandonment, and inspection.

The court may order the party required to make such payment of support to give reasonable security therefor. Any order for support of the other party may be modified or revoked as the court may deem necessary, except as to any amount that may have accrued prior to the date of the filing of the notice of motion or order to show cause to modify or revoke. The order of modification or revocation may be made retroactive to the date of filing of the notice of motion or order to show cause to modify or revoke, or to any date subsequent thereto.

(c) When a court orders a person to make specified payments for support of the other party for a contingent period of time, the liability of such person terminates upon the happening of such contingency. If the party to whom payments

are to be made fails to notify the person ordered to make such payments, or the attorney of record of such person, of the happening of such contingency and continues to accept support payments, such party shall refund any and all moneys received which accrued after the happening of such contingency, except that such overpayments shall first be applied to any and all support payments which are then in default. The court may, in the original order for support, order the party to whom payments are to be made to notify the person ordered to make such payments, or his attorney of record, of the happening of such contingency.

Any such officer collecting money or currency in the manner required by this chapter, must pay to the plaintiff or party entitled to recover the same, the same kind of money or currency received by him, and in case of neglect or refusal to do so, he shall be liable on his official bond to the judgment creditor in three times the amount of the money so collected.

5. If it be for the delivery of the possession of real or personal property, it must require such officer to deliver the possession of the same, describing it, to the party entitled thereto, and may at the same time require such officer to satisfy any cost, damages, rents, or profits recovered by the same judgment, out of the personal property of the person against whom it was rendered, and the value of the property for which the judgment was rendered to be specified therein if a delivery thereof cannot be had; and if sufficient personal property cannot be found, then out of the real property, as provided in the first subdivision of this section.

SEC. 2. Section 682.3 is added to the Code of Civil Procedure, to read:

(a) Whenever the levy of execution is against the earnings of a judgment debtor, the employer served with the writ of execution shall withhold the amount specified in the writ from earnings then or thereafter due to the judgment debtor and not exempt under Section 690.6, and shall pay such amount, each time it is withheld, to the sheriff, constable or marshal who served the writ. If such person shall fail to pay each amount to the sheriff, constable or marshal, the judgment creditor may commence a proceeding against him for the amounts not paid. The execution shall terminate and the person served with the writ shall cease withholding sums thereunder when any one of the following events takes place:

(1) Such person receives a direction to release from the levying officer. Such release shall be issued by the levying officer in any of the following cases:

(4) A period of 90 days has passed since the time such person was served with the writ of execution.

(b) At any time after a levy on his earnings the judgment debtor may proceed to claim a full exemption of his earnings in accordance with the provisions of Sections 690.6 and 690.50 within 10 days of the date of the levy of execution. The exemption so claimed shall extend to any wages withheld pursuant to the levy of execution whether or not withheld after the claim of exemption is filed.

(c) Subject to the provisions of Section 690.50, the sheriff, constable or marshal who serves the writ of execution and receives the amounts withheld from the judgment debtor's earnings, shall account for and pay to the person entitled thereto, all sums collected under the writ, less his lawful fees and expenses at least once every 30 days, and make return on collection thereof to the court.

When the execution is returned, the clerk must attach it to the judgment roll, or the judge must make the proper entry in the docket.

If an execution is returned unsatisfied, another may be afterward issued within the time specified in this code.

If property either personal or real be levied upon under such writ of execution but the sale thereunder be postponed beyond or not held within the return date after it is received by the officer to whom it was delivered and which has been returned to the clerk of the court in which the judgment is entered, upon request of the person in whose favor the writ runs the court may direct the clerk to redeliver said execution to the officer to whom it was directed in order to permit the officer to make an alias return of the proceedings of the sale or levy thereon as in the case of an original return of execution.

that manufacturer, based upon the large quantity of such drugs purchased under the Medi-Cal program, and to enable the department, notwithstanding any other provision of California law, to obtain from such manufacturers discounts, rebates, or refunds based on such quantities purchased under said program, insofar as may be permissible under federal law. Nothing in this section shall interfere with usual and customary distribution practices in the drug industry.

SEC. 7. Section 14106.2 of the Welfare and Institutions Code is amended to read:

# CHAPTER 1687

*An act relating to duplication of property taxes to finance fire protection, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor December 10, 1971. Filed with Secretary of State December 10, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. It has come to the attention of the Legislature that some cities have failed to adopt in a timely fashion a resolution to exempt property taxpayers within the city from county taxes to finance fire protection, since the city tax rate provides for such protection, or having adopted such a resolution in a timely fashion, the city failed to file such resolution with the county within the time prescribed by law. Thus, the property taxpayers within such cities have, in effect, paid twice for the same service in the 1971–1972 fiscal year. They have paid the cities for fire protection which the cities, in fact, provide, and they have paid taxes to the county for fire protection which the county does not provide within such cities.

SEC. 2. (a) If the legislative body of any city determines that the property taxpayers within such city have paid twice for fire protection in the manner described in Section 1, it may, by ordinance, appropriate from any funds available for such purpose a sum sufficient to refund to taxpayers an amount equal to the total amount of county taxes attributable to such item for the 1971–1972 fiscal year, plus any penalties and interest paid which are attributable to the tax imposed for such item. Upon adoption of an ordinance pursuant to this section, the legislative body of the city shall immediately cause a certified copy of the ordinance to be transmitted to the board of supervisors of the county in which the city is located.

(b) If an ordinance is adopted pursuant to subdivision (a) of this section, it shall specify the amount of the refunds and shall provide for the time and manner in which the refunds shall be made. Such refunds shall be made to the person who paid the tax or to his guardian, executor, or administrator. As used in this subdivision, "person" includes any person, firm, partnership, association, corporation, company, syndicate, estate, trust, business trust, or organization of any kind.

(c) If an ordinance is adopted pursuant to subdivision (a) of this section, a county, as soon as is practicable following receipt of the certified copy of such ordinance, shall reduce the total county tax rate for fiscal year 1971–1972 levied on tax-delinquent, secured property within the city by the amount levied upon such property for purposes of financing county fire protection services. The interest and penalties attributable to such delinquent taxes shall be canceled.

SEC. 3. If a county receives a copy of an ordinance under Section 2 of this act, the county may impose an additional tax on all property on which a tax is imposed for fire protection within the county for the 1972–1973 fiscal year, or for the 1972–1973 and 1973–1974 fiscal years if it has elected in the contract executed pursuant to Section 5 of this act to amortize payment of the total amount specified in the contract over a period not to exceed two years. Such additional tax shall be in the amount agreed upon pursuant to Section 5 of this act, and shall be levied and collected in all respects as a county tax for the 1972–1973 fiscal year, or for the 1972–1973 and 1973–1974 fiscal years, as the case may be.

SEC. 4. The legislative body of a city adopting an ordinance pursuant to this act may provide that the ordinance shall take effect immediately.

SEC. 5. The legislative body of a city which adopts an ordinance pursuant to this act and the board of supervisors of the county which levies and collects the city's taxes shall, by contract, agree that the county shall reimburse the city for all refunds made pursuant to subdivision (b) of Section 2 of this act, which amount shall be reduced by the amount of all incidental costs incurred by the county arising by reason of the operation of any ordinance or county tax rate adopted under this act. Such contract may provide for the amount of the additional county tax imposed pursuant to Section 3 of this act, and such amount shall be sufficient to compensate the city for the amount refunded pursuant to subdivision (b) of Section 2 of this act. The contract may also provide for the manner in which the county shall pay to the city the amount agreed upon. The county may elect in the contract to amortize payment of the total amount specified in the contract over a period not to exceed two years.

SEC. 6. Upon request of the legislative body of a city which has adopted an ordinance pursuant to Section 2 of this act, the county in which the city is located shall furnish the city with any data or information required by the city in making the refund as provided in this act.

SEC. 7. This act shall remain in effect until the 61st day after the final adjournment of the 1974 Regular Session of the Legislature, and shall have no force or effect on or after that date.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Certain cities have failed to file with the board of supervisors the resolution as required by Section 25643 of the Government Code and as a result their residents may suffer great economic hardship due to increased property taxes unless this act is given immediate effect.

## CHAPTER 1688

*An act to amend Section 10900 of the Welfare and Institutions Code, relating to public social services.*

[Approved by Governor December 10, 1971. Filed with Secretary of State December 10, 1971.]

SECTION 1. Section 10900 of the Welfare and Institutions Code is amended to read:

10900. The department shall, within the limits of funds made available, provide welfare personnel training courses and services, including in-service training, educational leaves or stipends, traineeships, internships, and the expansion of fieldwork training facilities within county departments for the use of colleges and universities in preparing students for employment in the administration of public social services programs. The training courses and services provided pursuant to this section shall be designed to promote welfare personnel training in every county in this state, which will provide the quality and quantity of trained personnel required to eliminate or reduce the circumstances or conditions which impede or prevent an individual or a family from making progress toward proper social adjustment, self-support, and self-direction.

In-service training for county employees who engage in the determination of eligibility for public social services shall include special training in techniques designed to enable such employees to identify applications for public social services which require special investigation pursuant to Section 11055.

The money received from any such sale or collection shall be used to pay commissions to the public administrator, and to defray the expenses of the burial of the decedent and the expenses of his last illness; the balance, if any, shall be used to pay other claims approved by the court; and there shall be no administration upon the estate unless additional property is discovered. The State Controller may, at any time following the expiration of said five-year period, file a petition in the superior court of the county in which the deposit or investment is held, setting forth the fact that the money or other property has remained on deposit or invested under such circumstances for such five-year period, and petitioning the court for an order declaring that such money or other property is presumptively abandoned and directing the holder of such money or other property to pay such money or other property to the State Treasurer or State Controller as herein provided.

Upon presentation of a certified copy of such court order, the holder of such money or other property shall forthwith transmit the same to the State Treasurer or State Controller for deposit in the State Treasury, as provided by Section 1310 of the Code of Civil Procedure. After a final settlement of the estate, if there are no heirs or other persons entitled thereto, or if such heirs or other persons entitled thereto do not appear and claim the same, the county treasurer shall deliver to the State Treasurer or the State Controller all money and other personal property in his hands belonging to the estate, under the provisions of Article 1 of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure.

If the district constructs any tunnel within the Geary Corridor in the City and County of San Francisco, such tunnel and its underground stations shall be constructed so that the conversion of such facilities to physically accommodate the equipment used by the San Francisco Bay Area Rapid Transit District can be accomplished at a minimum cost.

SEC. 10.5. Section 7 of Chapter 805 of the Statutes of 1969 is repealed.

Furthermore, the district shall take no action which may preclude it from obtaining federal grants-in-aid if such grants are reasonably anticipated. Furthermore, the district shall encourage minority enterprise to the maximum extent practicable.

SEC. 12. Section 8.2 is added to Chapter 805 of the Statutes of 1969, to read:

Sec. 8.2. Except for the necessity to finance its interim plan, the district shall not issue, or cause to be issued, general

obligation, revenue bonds, or any other form of long-term indebtedness.

SEC. 13. Section 8 of Chapter 805 of the Statutes of 1969 is amended to read:

Sec. 8. Prior to the expenditure of any funds pursuant to Section 4.5, the board of directors shall determine:

(a) The amount which the counties, and the transit districts therein, served by the bus transit or water transportation system operated by the district, shall contribute to the operation of such a system for benefits derived from intracounty operation connected with or related to such a system. The method of computing and receiving such amount shall be the method provided for in the district's Resolution No. 7030, adopted May 8, 1970.

# CHAPTER 1710

*An act to add Article 9 (commencing with Section 53550) to Chapter 3, Part 1, Division 2, Title 5 of the Government Code, relating to refunding bonds, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor December 10, 1971. Filed with Secretary of State December 10, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Article 9 (commencing with Section 53550), Chapter 3, Part 1, Division 2, Title 5 is added to the Government Code, to read:

## Article. 9. Refunding of Bonded Indebtedness of Local Agencies

53550. The following terms shall have the following meanings:

(a) The term "local agency" means public district, public corporation, authority, agency, board, commission, county, city and county, city, school district, or other public entity.

(b) The term "bonds" means bonds, warrants, notes or other evidence of indebtedness of a local agency payable, both principal and interest, from the proceeds of ad valorem taxes or ad valorem assessments which may be levied without limitation as to rate or amount upon property in the local agency subject to taxation or assessment.

(c) The term "legislative body" means the board of directors or other governing body of the local agency, unless the context otherwise requires.

(d) The term "principal act" means the law under which bonds to be refunded were issued.

53551. The legislative body of any local agency may issue negotiable coupon bonds, to be denominated refunding bonds, for the purpose of refunding any of the indebtedness of the local agency evidenced by bonds, whether due or not due, or which has or may hereafter become payable at the option of such local agency or by consent of the bondholders, or by any lawful means, whether such indebtedness, evidenced by bonds be now existing or may hereafter be created, and there shall not be moneys in a special fund in the treasury of such local agency irrevocably pledged to the payment or redemption of all such bonds; but the amount of such refunding bonds to be issued under the provisions of this article shall first be determined by such legislative body by resolution entered upon the minutes of such legislative body.

53552. Whenever the legislative body of a local agency shall determine that prudent management of the fiscal affairs of the local agency requires that it issue refunding bonds under the provisions of this article, it may do so without

submitting the question of the issuance of such refunding bonds to a vote of the qualified electors of such local agency. Refunding bonds shall not be issued if the total net interest cost to maturity on the refunding bonds exceeds the total net interest cost to maturity on the bonds to be refunded.

Refunding bonds shall not be issued under terms by which the total payments of principal and interest in any one year on such refunding bonds exceed the total amounts payable as principal and interest on the bonds to be refunded unless the legislative body had the power at the time of issuance and sale of the bonds to be refunded to fix the rate or rates of interest to be borne by such bonds and the time or times at which such bonds were to mature.

53553. When the legislative body determines to issue refunding bonds pursuant to this article, it shall adopt a resolution providing for the issuance of such bonds. Such resolution shall:

(a) Describe the bonds being refunded; and the date on which it is anticipated that the exchange, purchase or call and redemption necessary to effect the refunding shall occur;

(b) Fix the date of such refunding bonds;

(c) Designate the denomination or denominations thereof;

(d) Fix the rate or rates of interest to be borne by such refunding bonds, which rate or rates shall not exceed 7 percent per annum, payable semiannually, except that interest for the first year from date of issuance may be payable at the end of said year;

(e) Fix the maturity dates of such refunding bonds, which shall not exceed 40 years from the date of such refunding bonds, or the latest maturity date of the bonds being refunded, whichever occurs earlier;

(f) Designate the place or places of payment of both principal and interest; and

(g) Prescribe the form of such refunding bonds.

53554. Such refunding bonds shall:

(a) Be negotiable in form;

(b) Recite that they are bonds of the local agency issuing the bonds;

(c) Recite that they are issued pursuant to the provisions of this article;

(d) Be executed in the name of the local agency; and

(e) Be signed by the president or chairman of the legislative body of the local agency, and executed, countersigned or attested by such officer or officers of the local agency as are required to execute, countersign or attest bonds issued pursuant to the principal act, as the case may be.

The interest coupons shall be signed in the same manner as interest coupons attached to bonds issued by the local agency pursuant to the principal act. The provisions of the Uniform Facsimile Signatures of Public Officials Act (Chapter 6, (commencing with Section 5500), Division 6, Title 1) apply to refunding bonds issued pursuant to this article.

53555. Refunding bonds issued pursuant to this article may be exchanged for the bonds to be refunded on such basis as the legislative body determines is for the benefit of the local agency but except where the bonds being refunded are being redeemed in advance of maturity as provided in Section 53556, in no case on the basis that the principal amount of refunding bonds exceeds the principal amount of the bonds to be refunded plus the cost of issuing the refunding bonds. As an alternative to exchanging the refunding bonds for the bonds to be refunded, the legislative body may sell the refunding bonds at public or private sale for not less than their par value. The proceeds of any sale of refunding bonds for cash shall be placed in the treasury of the local agency to the credit of a fund to be established for the purpose of refunding the bonds to be refunded, which fund shall be designated the "funding fund," and such proceeds shall be applied only to refund the bonds for which the refunding bonds are issued after payment of the costs of calling and redeeming the bonds being refunded and of issuing the refunding bonds. Any proceeds of the refunding bonds remaining after the exchange, purchase or call and redemption of the bonds to be redeemed has been accomplished shall be deposited in the fund established for the payment of the principal and interest of the refunding bonds and used only for the purpose of paying such principal and interest as it matures.

53556. If the refunding bonds are issued in whole or in part to refund before maturity bonds which according to their terms are subject to call and redemption before maturity at a price in excess of par, the par value of the refunding bonds shall be equal to the sum of the par value of the bonds to be refunded and the applicable premium payable at the date on which call and redemption shall take place, subject to adjustment of accrued interest to the date of exchange.

53557. Following the issuance of any refunding bonds pursuant to this article, the legislative body of the local agency shall provide for the payment of principal and interest thereon in the same manner and at the same times as it provides for payment of principal and interest on bonds issued pursuant to its principal act and which constitute general obligations of such local agency. The legislative body may provide in the resolution of issuance of such refunding bonds for the pledge of revenues of any revenue-producing facility of the local agency as additional security for the refunding bonds to the same extent that such revenues were pledged as additional security for the bonds to be refunded.

53558. Upon the issuance, sale and delivery or exchange of refunding bonds pursuant to this article, such refunding bonds shall constitute indebtedness of the local agency issuing such bonds and shall be included in any computation of general obligation indebtedness of such local agency for purposes of any debt limitation applicable to bonds of such local

agency under the principal act or for any other lawful purpose; provided, however, that at such time as the proceeds of such refunding bonds have been placed into the funding fund established pursuant to Section 53555, the bonds to be refunded as designated in the resolution of issuance of such refunding bonds shall no longer be considered outstanding in any computation of the general obligation indebtedness of such local agency.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many local agencies throughout the state have outstanding general obligation bonds for which payment of principal and interest during the fiscal year 1971–1972 and thereafter will be required to be made. It will be necessary for these local agencies to budget for the collection of taxes and revenues in fiscal year 1971–1972 of amounts sufficient to pay such principal and interest. In many cases, it would be possible to refund some or all of such outstanding bonds so as to effect substantial savings in the amounts needed to pay such principal and interest. Such savings would permit the lowering of property tax rates within such local agencies. However, unless this act is passed as an urgency statute it will not be possible for such local agencies to refund such bonds and effect such savings prior to the time when budgets must be prepared and tax rates fixed for fiscal 1971–1972. For this reason, it is necessary that this act take effect immediately.

override taxes in the fixing and levying of the school district's 1971–72 tax rate, the county auditor shall make no allocation of the property tax collections to such special funds, and the district may transfer from its general fund to the appropriate special funds sufficient money to pay for such proposed expenditures for children's centers and development centers for handicapped minors.

"Tax collections" and "total amount requested" as used in this section do not include amounts collected or requested to service bonded debt.

17538. It is unlawful in the sale or offering for sale of consumer goods for any person conducting a mail order or catalog business in this state or advertising a California mailing address to accept money through the mails from a consumer for consumer goods ordered by mail or telephone and then permit six weeks, unless otherwise stated in the advertisement, to elapse without doing any one of the following things:

(a) Delivering or mailing the consumer goods ordered.

(b) Making a full refund.

(c) Sending the consumer a letter or notice advising him of the duration of an expected delay or the substitution of consumer goods of equivalent or superior quality, and offering to send him a refund within one week if he so requests. If the vendor proposes to substitute consumer goods, he shall describe it in detail, indicating how it differs from the consumer goods ordered.

(d) Sending the consumer substituted consumer goods of equivalent or superior quality, if the consumer is extended the

opportunity to return the substituted goods and the seller promises to refund to the consumer the cost of returning such goods together with any portion of the purchase price previously paid by the consumer. A notice to the consumer stating the right to obtain a refund and the cost of returning the substituted consumer goods shall accompany the sending of such goods to the consumer.

For purposes of subdivisions (c) and (d), consumer goods may not be considered of "equivalent or superior quality" if they are not substantially similar to the goods ordered, or not fit for the usual purposes for which such consumer goods are used, or if the seller normally offers the substituted consumer goods at a price lower than the price of the consumer goods ordered.

(e) When a consumer makes an initial application for an open-end credit plan, as defined in the Federal Consumer Credit Protection Act (15 U.S.C. 1682), at the same time the consumer goods or services are ordered, and such goods or services are to be purchased on credit, the person conducting the mail order business shall have seven weeks, rather than six weeks, to perform the actions specified in this section.

## CHAPTER 1718

*An act to add Section 13025.5 to the Health and Safety Code, relating to fire equipment.*

[Approved by Governor December 10, 1971. Filed with Secretary of State December 10, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 13025.5 is added to the Health and Safety Code, to read:

13025.5. Any fire department maintained by the City of Oakland or the City and County of San Francisco using fire hydrant outlets with other than two-and-one-half-inch (2½-inch) threaded fittings shall cause any vehicle used for firefighting purposes and designed to pump water from such hydrants, which is normally used in areas of such city or city and county bordering the boundaries of any other public entity, as defined in Section 13050.1, providing any fire protection and suppression service to carry a minimum of eight adapters, consisting of four increasers and four reducers, which enable any such vehicle to couple its equipment and apparatus to fire hydrant outlets having two-and-one-half-inch (2½-inch) threaded fittings, and which enable fire equipment vehicles from other public entities using two-and-one-half-inch (2½-inch) threaded fittings to couple their firefighting equipment and apparatus to fire hydrant outlets maintained by such city or city and county.

SEC. 2. Fire departments maintained by the City of Oakland and the City and County of San Francisco use fire hydrant outlets with two-and-three-quarter-inch (2¾-inch) threaded fittings, rather than two-and-one-half-inch (2½-inch) threaded fittings used by other departments throughout the state. In order to obtain optimum fire protection in these cities, it is necessary that the fire departments maintained by the City of Oakland and the City and County of San Francisco be equipped with adapters to allow fire departments located outside these cities to hook up to fire hydrants in such cities when rendering fire protection services in the City of Oakland and the City and County of San Francisco.

The Legislature finds that the unique circumstances relating to the fire departments maintained by the City of Oakland and the City and County of San Francisco require special legislation and that a general statute cannot be made applicable to these circumstances within the meaning of Section 16 of Article IV of the California Constitution.

## CHAPTER 1722

*An act to repeal Section 5001.5 of, and to add Sections 5001.5, 5001.65, 5001.7, 5001.8, 5001.9, 5001.95, and 5001.96 to, the Public Resources Code, relating to the state park system.*

[Approved by Governor December 14, 1971. Filed with Secretary of State December 14, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5001.5 of the Public Resources Code is repealed.

SEC. 2. Section 5001.5 is added to the Public Resources Code, to read:

5001.5. All units which are or shall become a part of the California state park system shall be classified by the State Park and Recreation Commission into one of the following categories:

(a) State wildernesses, which, in contrast with those areas where man and his own works dominate the landscape, are hereby recognized as areas where the earth and its community of life are untrammeled by man, where man himself is a visitor who does not remain. A state wilderness is further defined to mean an area of undeveloped state-owned or -leased land retaining its primeval character and influence, without permanent improvements or human habitation, which is protected and managed so as to preserve its natural conditions and which (1) generally appears to have been affected primarily by the forces of nature, with the imprint of man's work substantially unnoticeable; (2) has outstanding opportunities for solitude or a primitive and unconfined type of recreation; (3) has at least five thousand acres of land or is of sufficient size as to make practicable its preservation and use in an unimpaired condition; and (4) may also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.

State wildernesses may be established within the boundaries of other state park system units.

(b) State reserves, which consist of areas embracing outstanding natural or scenic characteristics of statewide significance. The purpose of a state reserve is to preserve its native

ecological associations, unique faunal or floral characteristics, geological features and scenic qualities in a condition of undisturbed integrity. Resource manipulation shall be restricted to the minimum required to negate the deleterious influences of man.

Improvements undertaken shall be for the purpose of making the areas available, on a day-use basis, for public enjoyment and education in a manner consistent with the preservation of their natural features. Living and nonliving resources contained within state reserves shall not be disturbed or removed for other than scientific or management purposes.

State reserves may be established in the terrestrial or underwater environments of the state.

(c) State parks, which consist of relatively spacious areas of outstanding scenic or natural character, oftentimes containing also significant historical, archaeological, ecological, geological, or other such values. The purpose of state parks shall be to preserve outstanding natural, scenic, and cultural values, indigenous aquatic and terrestrial fauna and flora, and the most significant examples of such ecological regions of California as the Sierra Nevada Mountains, northeast volcanic, great valley, coastal strip, Klamath-Siskiyou Mountains, southwest mountains and valleys, redwoods, foothills and low coastal mountains, and desert and desert mountains.

Each state park shall be managed as a composite whole in order to restore, protect, and maintain its native environmental complexes to the extent compatible with the primary purpose for which the park was established.

Improvements undertaken within state parks shall be for the purpose of making the areas available for public enjoyment and education in a manner consistent with the preservation of natural, scenic, cultural, and ecological values for present and future generations. Improvements may be undertaken to provide for such recreational activities as, but not limited to, camping, picnicking, sightseeing, nature study, hiking, and horseback riding, so long as such improvements involve no major modification of lands, forests, or waters. Improvements which do not directly enhance the public's enjoyment of the natural, scenic, cultural, or ecological values of the resource, which are attractions in themselves, or which are otherwise available to the public within a reasonable distance outside the park, shall not be undertaken within state parks.

State parks may be established in either the terrestrial or underwater environments of the state.

(d) State recreation units, which consist of areas selected, developed, and operated to provide outdoor recreational opportunities. Such units shall be designated by the State Park and Recreation Commission by naming, in accordance with the provisions of this article relating to classification.

In the planning of improvements to be undertaken within state recreation units, consideration shall be given to compat-

ibility of design with the surrounding scenic and environmental characteristics.

State recreation units may be established in the terrestrial or underwater environments of the state and shall include:

(1) State recreation areas, consisting of areas selected and developed to provide multiple recreational opportunities to meet other than purely local needs. Such areas shall be selected for their having terrain capable of withstanding extensive human impact and for their proximity to large centers of population, major routes of travel, or proven recreational resources such as man-made or natural bodies of water. Areas containing ecological, geological, or scenic resources of significant value shall be preserved within state wildernesses, state reserves, state parks, or natural preserves.

Improvements may be undertaken to provide for such recreational activities as, but not limited to, camping, picnicking, swimming, hiking, bicycling, horseback riding, boating, waterskiing, winter sports, fishing, and hunting.

Improvements to provide for urban or indoor formalized recreational activities shall not be undertaken within state recreation areas.

(2) Underwater recreation areas, consisting of areas in the underwater environment selected and developed to provide surface and subsurface water-oriented recreational opportunities, while preserving basic resource values for present and future generations.

(3) State vehicular recreation areas, consisting of areas where topographic features and associated recreational vehicle opportunities are the primary values. Such areas shall be chosen to insure that no substantial natural values are lost and that no adjoining properties incur adverse effects from the operation and maintenance of vehicular recreation areas. When important natural or scenic values are found to be present within the boundaries of a state vehicular recreation area they shall be defined within a natural preserve in accordance with the provisions of subdivision (f). The development of facilities shall be aimed at making full public use of the recreational opportunities present, and the natural and cultural elements of the environment may be managed or modified to enhance the recreation experiences. Under all circumstances, conditions of accelerated and unnatural erosion shall be anticipated and prevented to the extent possible. Where the occurrence of such erosion is unanticipated, every measure shall be taken to restore the area.

(4) State beaches, consisting of areas with frontage on the ocean, or bays designed to provide swimming, boating, fishing, and other beach-oriented recreational activities. Coastal areas containing ecological, geological, or scenic resources of significant value shall be preserved within state wildernesses, state reserves, state parks, or natural preserves.

(5) Wayside campgrounds, consisting of relatively small areas suitable for overnight camping and offering convenient access to major highways.

(e) Historical units, to be named appropriately and individually, which consist of areas established primarily to preserve objects of historical and scientific interest, and places commemorating important persons or historic events. Such areas should be of sufficient size, where possible, to provide a significant proportion of the landscape associated with the historical objects. The only facilities provided are those required for the safety, comfort, and enjoyment of the visitors, such as access, parking, water, sanitation, interpretation, and picnicking. Upon approval by the State Park and Recreation Commission, lands outside the primary historic zone may be selected or acquired, developed, or operated to provide camping facilities within appropriate historical units. Certain agricultural, mercantile, or other commercial activities may be permitted, provided those activities are a part of the history of the individual unit and developments retain or restore historical authenticity. Historical units shall be named to perpetuate the primary historical theme of the individual units.

(f) Natural preserves, which consist of distinct areas of outstanding natural or scientific significance established within the boundaries of other state park system units. ## CHAPTER 1724

*An act to amend Sections 16116, 16117, 16118, 16119, 16120, and 16122 of, and to repeal Sections 16123 and 16124 of, the Welfare and Institutions Code, and to amend Section 2 of Chapter 1322 of the Statutes of 1968, relating to aid for adoption of children, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor December 14, 1971. Filed with Secretary of State December 14, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 16116 of the Welfare and Institutions Code is amended to read:

16116. For purposes of this chapter, a "hard-to-place" child is a child who is disadvantaged because of adverse pa-

rental background, or a handicapped child, or a child of the age of three years or more. The provisions of this chapter apply only to hard-to-place children.

SEC. 2. Section 16117 of the Welfare and Institutions Code is amended to read:

16117. It is the purpose of this chapter to encourage and promote the placement in adoptive homes of children who because of their ethnic background, race, color, language, physical or mental, or emotional or medical handicaps, or age or because they are a sibling group who should be placed in the same home have become difficult to place in adoptive homes.

It is the legislative intent to make available to prospective adoptive parents information concerning the availability of relinquished children, information and assistance in completing the adoption process, and the financial aid which might be required to enable them to adopt an otherwise hard-to-place child.

SEC. 3. Section 16118 of the Welfare and Institutions Code is amended to read:

16118. The department shall establish and administer the program to be carried out by the department or any licensed adoption agency pursuant to this chapter. The department shall adopt such regulations as are necessary to carry out the provisions of this chapter.

The department shall keep such records as are necessary to evaluate the programs' effectiveness in encouraging and promoting the adoption of hard-to-place children.

SEC. 4. Section 16119 of the Welfare and Institutions Code is amended to read:

16119. The department and all adoption agencies shall disseminate information to prospective adoptive families, especially those families of lower income levels and those belonging to disadvantaged groups, as to the availability of adoptable hard-to-place children and of the existence of aid to adoptive families under this chapter.

The county responsible for providing foster care for a child shall provide financial aid to the adoptive family in an amount determined pursuant to Section 16120.

SEC. 5. Section 16120 of the Welfare and Institutions Code is amended to read:

16120. The adoption fees may be waived for all adoptive parents as necessary to provide adoptive families for hard-to-place children. There may be paid for a period not to exceed three years an amount of financial assistance not more than the amount that would be paid for foster care for the child if the placement for adoption had not taken place. Additional financial assistance may be granted for a period of not more than two years if the adoptive parents have a continuing need as determined by the department or a designated licensed adoption agency. The Director of Finance is authorized to transfer funds to a special account for use by the department to provide the in-lieu foster care payments as provided by

this section. Such transfer of funds shall not exceed the amount of the estimated reduction in foster care payments which will result from the placement of hard-to-place children in adoptive homes. The county share of the cost of in-lieu foster care payments to adoptive parents shall be paid from county funds. The county responsible for the care of the child in a foster home is responsible for the payment provided for by this section in adoptive placements arranged by the department or any licensed adoption agency and in cases in which a child receiving aid to families with dependent children in a foster home is adopted by his foster parents and the department or designated adoption agency joins in the petition for adoption.

SEC. 6. Section 16122 of the Welfare and Institutions Code is amended to read:

16122. The department shall actively seek, and make maximum use of, federal funds which might be available for the purposes of this chapter. SEC. 8. Section 16124 of the Welfare and Institutions Code is repealed.

SEC. 9. Section 2 of Chapter 1322 of the Statutes of 1968 is amended to read:

Sec. 2. It is not the intent of this act to increase expenditures but to provide for temporary payments to selected adoptive parents in the same way that such persons would be eligible to receive aid payments if they were to apply for a boardinghome license.

SEC. 10. This act shall be known as and may be cited as the Mervyn M. Dymally Aid for the Adoption of Children Act, or the Dymally Adoption Bill.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to avoid the lapse in the Aid for Adoption of Children program which will expire December 31, 1971, it is necessary that this act take effect immediately.

## CHAPTER 1725

*An act to add Section 31133 to the Water Code, relating to county water districts.*

[Approved by Governor December 14, 1971. Filed with Secretary of State December 14, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 31133 is added to the Water Code, to read:

31133. Notwithstanding any other provision of law, the Malaga County Water District may:

(a) Organize, promote, conduct, and advertise programs of community recreation;

(b) Establish systems of recreation and recreation centers, including parks and parkways.

(c) Acquire, construct, improve, maintain and operate recreation centers within the district.

The district shall not incur a bonded indebtedness for the purposes authorized by this section exceeding 1 percent of the assessed value of all the taxable property in the district, and no such bonded indebtedness shall be incurred except for capital outlay purposes.

The district shall not exercise any powers under this section unless the exercise of such powers is approved by the voters of the district at an election held within the district at which a majority of the voters voting on the proposition approve the exercise of such powers. Such election may be consolidated with any other election held within the district. If a majority of the votes cast at the election is in favor of the proposition, the county clerk shall immediately cause to be filed with the Secretary of State a certificate reciting such fact. If the voters of the district do not approve the exercise of any of such powers at an election held prior to January 1, 1974, this section shall become inoperative on such date and shall have no further force or effect.

SEC. 2. The provisions of this act are necessary because a substantial portion of the land in the Malaga County Water District is an unincorporated urban area, and there is a great need for recreational facilities within such area of the district. There is no other local governmental entity willing to provide recreation to the people of the district. This problem is not common to all districts formed under the County Water District Law. It is therefore hereby declared that a general law cannot be made applicable and that the enactment of Section 31133 of the Water Code as a special law is necessary for the solution of problems existing in the Malaga County Water District.

(B) Immediately after the exchange, the qualified bank holding corporation distributes all of such stock in a manner prescribed in paragraph (2) of subdivision (a); and

(C) Before such distribution, the board has certified (with respect to the property exchanged which consists of property which, under paragraph (1) of subdivision (a), such corporation could distribute directly to its shareholders or security holders without the recognition of gain) that the exchange and distribution are necessary or appropriate to effectuate Section 4 of the Bank Holding Company Act of 1956 as amended by the Bank Holding Company Act Amendments of 1970,

then paragraph (2) of subdivision (a) shall apply with respect to such distribution.

(2) If—

(A) Any qualified bank holding corporation exchanges (i) bank property which, under paragraph (1) of subdivision (b), such corporation could distribute directly to its shareholders or security holders without the recognition of gain to such shareholders or security holders, and other property (except prohibited property), for (ii) all of the stock of a second corporation created and availed of solely for the purpose of receiving such property;

(B) Immediately after the exchange, the qualified bank holding corporation distributes all of such stock in a manner prescribed in paragraph (2) of subdivision (b); and

(C) Before such distribution, the board has certified (with respect to the property exchanged which consists of property which, under paragraph (1) of subdivision (b), such corporation could distribute directly to its shareholders or security holders without the recognition of gain) that—

(f) In the case of an exchange described in clause (iv) of subparagraph (A) of paragraph (2) of subdivision (a) or clause (iv) of subparagraph (A) of paragraph (2) of subdivision (b), subdivision (a) or (b) (as the case may be) shall apply only to the extent that the principal amount of the securities received does not exceed the principal amount of the securities exchanged.

(g) If, by reason of this section, gain is not recognized with respect to the receipt of any property, then, under regulations prescribed by the Franchise Tax Board—

(1) If the property is received by a shareholder with respect to stock, without the surrender by such shareholder of stock, the basis of the property received and of the stock with respect to which it is distributed shall, in the distributee's hands, be determined by allocating between such property and such stock the adjusted basis of such stock; or

(2) If the property is received by a shareholder in exchange for stock or by a security holder in exchange for securities, the basis of the property received shall, in the distributee's hands, be the same as the adjusted basis of the stock or securities exchanged, increased by—

SEC. 4. Section 2351 is added to the Streets and Highways Code, to read:

2351. The Federal-Aid Highway Act of 1970 has authorized appropriations for expenditure within the designated boundaries of urbanized areas for street and highway projects on the federal-aid urban system. The purpose of this chapter is to implement such program in this state. The boards of supervisors, city councils, the department, and the commission are authorized to do all things possible in their respective jurisdictions to secure the federal funds for use on construction of county highways, city streets, and state highways in accordance with the intent of the federal act and of this chapter.

2357. Fringe parking projects meeting the criteria set forth in Section 137 of Title 23, United States Code, shall be eligible for financing as urban system projects pursuant to the provisions of this chapter.

2359. (a) The department may advance the federal share of each urban system project on a county road or a city street from the money allocated by the commission in conformance with the requirements of this chapter.

(b) The department may also advance funds for such a project from the State Highway Fund, if available, as necessary to permit award of contracts at any time after the first day of January preceding the beginning of the fiscal year to which the federal apportionments apply.

(c) Expenditures of federal urban system money on local streets and roads shall be exempt from the provisions of Sections 188, 188.8, 188.9.

(d) Cities and counties may use any funds available to them to match funds made available to them, if the use of funds for such matching purposes is not prohibited by federal law or regulations.

2360. For all purposes of this code, notwithstanding Sections 186.3 and 186.4, any county highway or city street which is on the urban system shall be considered as part of the select system of the county or city.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to expedite the acquisition of federal funds to finance the construction of various highway projects to alleviate the traffic congestion in the urban areas, it is necessary that this act take effect immediately.

## CHAPTER 1741

*An act to amend Sections 6276, 6359, 6359.3, 6363, 6363.5, 6363.6, 15651, 15656, 15801, 15803, 15804, 15807, 15905, 15962, 16251, and 16281 of, to repeal Sections 15684.5, 15686, 15907, and 16221 of, and to add Sections 6359.2, 16221 and 16221.5 to, the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.*

[Approved by Governor December 14, 1971. Filed with Secretary of State December 14, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 6276 of the Revenue and Taxation Code is amended to read:

6276. Except when a vehicle is purchased outside this state from the manufacturer or from a vehicle dealer, whenever the purchaser of a vehicle is required to pay the use tax to the Department of Motor Vehicles, the sales price shall be presumed to be an amount equal to the market value of the

vehicle at the time of the purchase as that value is determined to measure vehicle license fees imposed under Part 5 of Division 2 of this code, multiplied by a factor of 1.2 for a noncommercial vehicle, including a passenger vehicle, as defined in Section 465 of the Vehicle Code; or by a factor of 1.8 for a commercial vehicle as defined in Section 260 of the Vehicle Code. Commercial motor vehicles under 6,001 pounds unladen weight and commercial trailers under 2,000 pounds unladen weight shall be treated as noncommercial vehicles for the purpose of this section. The presumption may be rebutted by evidence which establishes that the sales price was other than such amount.

SEC. 2. Section 6359 of the Revenue and Taxation Code is amended to read:

6359. There are exempted from the taxes imposed by this part the gross receipts from the sale of and the storage, use, or other consumption in this state of food products for human consumption.

"Food products" include cereals and cereal products, oleomargarine, meat and meat products, fish and fish products, eggs and egg products, vegetables and vegetable products, fruit and fruit products, spices and salt, sugar and sugar products, coffee and coffee substitutes, tea, cocoa and cocoa products, and nonmedicated chewing gum.

"Food products" include milk and milk products, milkshakes, malted milks, and any other similar type beverages which are composed at least in part of milk or a milk product and which require the use of milk or a milk product in their preparation.

"Food products" include all fruit juices, vegetable juices, and other beverages, whether liquid or frozen, except bottled water, spirituous, malt or vinous liquors or carbonated beverages.

"Food products" do not include medicines and preparations in liquid, powdered, granular, tablet, capsule, lozenge, and pill form sold as dietary supplements or adjuncts.

None of the exemptions provided for in this section shall apply: (a) when the food products are served as meals on or off the premises of the retailer, or (b) when the food products are furnished, prepared, or served for consumption at tables, chairs, or counters or from trays, glasses, dishes, or other tableware whether provided by the retailer or by a person with whom the retailer contracts to furnish, prepare, or serve food products to others, or (c) when the food products are ordinarily sold for immediate consumption on or near a location at which parking facilities are provided primarily for the use of patrons in consuming the products purchased at the location, even though such products are sold on a "take out" or "to go" order and are actually packaged or wrapped and taken from the premises of the retailer, or (d) when the food products are sold for consumption within a place, the entrance to

which is subject to an admission charge, except for national and state parks and monuments, or (e) when the food products are sold as hot prepared food products. "Hot prepared food products," for the purposes of subdivision (e), include a combination of hot and cold food items or components where a single price has been established for the combination and the food products are sold in such combination, such as a hot meal, a hot specialty dish or serving, or a hot sandwich or a hot pizza, including any cold components or side items. Subdivision (e) shall not apply to a sale for a separate price of bakery goods or beverages (other than bouillon, consommé, or soup), or where the food product is purchased cold or frozen; "hot prepared food products" means those products, items or components which have been prepared for sale in a heated condition and which are sold at any temperature which is higher than the air temperature of the room or place where they are sold.

SEC. 3. Section 6359.2 is added to the Revenue and Taxation Code, to read:

6359.2. Except for the tax treatment of food products selling at retail for fifteen cents ($0.15) or less under Section 6359.4, 33 percent of the gross receipts of any retailer from the sale at retail of food products (other than hot prepared food products, as defined in Section 6359) shall be subject to the tax imposed by Section 6051, when such food products are actually sold through a vending machine.

The Legislature finds that 33 percent represents the statewide average of cold food products sold through vending machines which are subject to the tax imposed under this part. Therefore, the Legislature establishes this average as the measure of the tax with respect to vending machine sales to simplify tax auditing procedures and to provide for uniformity in the taxation of gross receipts derived from the sale of cold food products through vending machines.

SEC. 4. Section 6359.3 of the Revenue and Taxation Code is amended to read:

6359.3. Any nonprofit veterans' organization is a consumer of, and shall not be considered a retailer within the provisions of this part with respect to flags of the United States of America which it sells, where the profits are used solely and exclusively in furtherance of the purposes of the nonprofit organization.

SEC. 5. Section 6363 of the Revenue and Taxation Code is amended to read:

6363. There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use, or other consumption in this state of, meals and food products for human consumption furnished or served to the students of a school by public or private schools, school districts, student organizations, parent-teacher associations, and any blind person (as defined in Section 19153 of the Welfare and Institutions Code) operating a restaurant or vending stand in an educa-

tional institution under Article 5 (commencing with Section 19625) of Chapter 6 of Part 2 of Division 10 of the Welfare and Institutions Code. The term "food products" as used in this section has the meaning ascribed to it in Section 6359.

The exemption provided by this section shall not apply when the meals or food products are sold for consumption within a place, the entrance to which is subject to an admission charge, except for national and state parks and monuments.

SEC. 5.5. Section 6363 of the Revenue and Taxation Code is amended to read:

6363. There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use, or other consumption in this state of, meals and food products for human consumption furnished or served to the students of a school by public or private schools, school districts, student organizations, parent-teacher associations operating either directly or by contract with others for a compensation specified in the contract, a food service facility or a vending stand or machine in an educational institution, or any blind person (as defined in Section 19153 of the Welfare and Institutions Code) operating a restaurant or vending stand in an educational institution under Article 5 (commencing with Section 19625) of Chapter 6 of Part 2 of Division 10 of the Welfare and Institutions Code. The term "food products" as used in this section has the meaning ascribed to it in Section 6359 except that the term includes foods furnished, prepared, or served for consumption at tables, chairs, or counters, or from trays, glasses, dishes, or other tableware provided by the retailer.

The exemption provided by this section shall not apply when the meals or food products are sold for consumption within a place, the entrance to which is subject to an admission charge, except for national and state parks and monuments.

SEC. 6. Section 6363.5 of the Revenue and Taxation Code is amended to read:

6363.5. There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use or other consumption in this state of, meals and food products for human consumption furnished or served by any religious organization at a social or other gathering conducted by it or under its auspices, if the purpose in furnishing or serving the meals and food products is to obtain revenue for the functions and activities of the organization and the revenue obtained from furnishing or serving the meals and food products is actually used in carrying on such functions and activities.

For the purposes of this section, "religious organization" means any organization the property of which is exempt from taxation pursuant to Section 1½ of Article XIII of the State Constitution.

SEC. 7. Section 6363.6 of the Revenue and Taxation Code is amended to read:

6363.6. There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use or other consumption in this state of, meals and food products for human consumption furnished or served to and consumed by patients or inmates of any institution which is:

(1) A hospital as defined in Section 1401 of the Health and Safety Code, which either holds the license required pursuant to Section 1400, or is exempt from the license requirement pursuant to Section 1415 of that code.

(2) A place for the reception or care of children holding the license or permit required pursuant to Section 16000 of the Welfare and Institutions Code.

(3) A place for the reception and care of aged persons holding the license or permit required pursuant to Section 16200 of the Welfare and Institutions Code.

(4) An establishment for the care, custody, or treatment of incompetent persons holding the license required of private institutions pursuant to Section 6201 of the Welfare and Institutions Code, or county or state hospitals for the mentally ill established pursuant to Division 6, Parts 3 and 4, of the same code.

SEC. 8. Section 15651 of the Revenue and Taxation Code is amended to read:

15651. Every donor making any gifts, other than those exempt under Section 15401, shall file a gift return with the Controller on or before the 15th day of the second month following the close of the calendar quarter in which he makes a gift.

SEC. 9. Section 15656 of the Revenue and Taxation Code is amended to read:

15656. The gift return shall contain such information and be in such form as the Controller may prescribe and shall state the amount of tax due under the provisions of this part.

The return shall contain, or be verified by, a written declaration that it is made under the penalties of perjury.

SEC. 10. Section 15684.5 of the Revenue and Taxation Code is repealed.

SEC. 11. Section 15686 of the Revenue and Taxation Code is repealed.

SEC. 12. Section 15801 of the Revenue and Taxation Code is amended to read:

15801. In a case not involving a false or fraudulent return or failure to file a return, if the Controller determines at any time after the tax is due, but not later than four years after the return is filed, that the tax disclosed in any return required to be filed by this part is less than the tax disclosed by his examination, a deficiency shall be determined; provided, that the determination may be made within such time after the expiration of such four-year period as may be agreed upon

in writing between the Controller and the donor or other person liable for the tax.

For purposes of this section, a return filed before the last day prescribed by law for filing such return shall be considered as filed on such last day.

SEC. 13. Section 15803 of the Revenue and Taxation Code is amended to read:

15803. In any case in which a deficiency has been determined in an erroneous amount, the Controller may, within three years after the erroneous determination was made, set aside the determination or issue an amended determination in the correct amount.

SEC. 14. Section 15804 of the Revenue and Taxation Code is amended to read:

15804. The Controller shall give notice of the deficiency determined, together with any penalty for failure to file a return or to show any transfer in the return filed, by personal service or by mail to the person filing the return at the address stated in the return, or, if no return is filed, to the person liable for the tax. Copies of the notice of deficiency may in like manner be given to such other persons as the Controller deems advisable.

SEC. 15. Section 15807 of the Revenue and Taxation Code is amended to read:

15807. When the Controller makes an original, amended or supplemental determination of a deficiency for a calendar quarter which is prior to calendar quarters for which the tax has previously become final, he may concurrently therewith, notwithstanding other provisions of this part, determine the true amount of tax which would have been determined had all determinations been made in the sequence in which the gifts were made.

SEC. 16. Section 15905 of the Revenue and Taxation Code is amended to read:

15905. The tax becomes delinquent from and after the last day allowed under this part for filing a return for the gift.

SEC. 17. Section 15907 of the Revenue and Taxation Code is repealed.

SEC. 18. Section 15962 of the Revenue and Taxation Code is amended to read:

15962. In the event that the date for filing the return is postponed, the tax bears interest during the period of postponement at the rate of 7 percent per annum from the time when it would have begun to bear interest had no postponement been allowed and until it is paid.

SEC. 19. Section 16221 of the Revenue and Taxation Code is repealed.

SEC. 20. Section 16221 is added to the Revenue and Taxation Code, to read:

16221. If the Controller finds that there has been an overpayment of tax, penalty, or interest by a taxpayer for any

reason, the amount of the overpayment shall be credited as provided in Section 16281 and the balance refunded to the taxpayer.

SEC. 21. Section 16221.5 is added to the Revenue and Taxation Code, to read:

16221.5. No credit or refund shall be allowed or made after four years from the last day prescribed for filing the return or after one year from the date of the overpayment, whichever period expires the later, unless before the expiration of such period a claim therefor is filed by the taxpayer, or unless before the expiration of such period the Controller allows a credit or makes a refund. A claim for refund may be filed in such form as the Controller may prescribe, and the Controller shall allow or deny the claim, in whole or in part, and mail a notice of such determination to the claimant at the address stated on the claim.

SEC. 22. Section 16251 of the Revenue and Taxation Code is amended to read:

16251. Within four years from the last date prescribed for filing the return or within one year from the date the tax was paid, or within 90 days after a determination is issued, whichever is later, any person who has paid or is liable for the tax may bring an action against the state in the superior court having jurisdiction to have the tax modified, in whole or in part.

SEC. 23. Section 16281 of the Revenue and Taxation Code is amended to read:

16281. The amount of any refund shall be credited on any amount then due from, or which is a lien on any property owned by, the person entitled to the refund, either under this part or Part 8 (commencing with Section 13301) of this division. The balance shall be refunded to the person entitled to the refund, or to his heir, the executor of his will, or the administrator of his estate, but not his assign.

SEC. 24. The purpose of Section 2 of this act is to overcome the present inequities which exist under the California Sales and Use Tax Law with respect to hot food products. Such food products are subject to tax when served in a restaurant. Many of the same items sold as main courses at restaurants and drive-ins, such as hot fried chicken and barbecued spareribs, are also sold on a take-out basis at a variety of specialty shops and are not subject to tax. This phase of the prepared food industry has grown immensely in recent years and represents direct competition to the taxable sales of restaurants and drive-ins where hot food is taxable. Section 2 will improve the neutrality of the sales tax by providing that all hot food, regardless of the nature of the outlet selling it, will be subject to tax. Section 2 of this act shall not be construed so as to tax gross receipts from the sale, storage, use or other consumption of "hot food products" served to passengers by an air carrier engaged in interstate commerce.

Further, it is the intent of the Legislature that a combination of hot and cold food products for which a single price has been established shall be taxable if such food products were, in fact, sold as a combination for which the retailer has established a single price. Tax shall not apply, however, merely because a combination of products are purchased if they are not sold as a combination for which a single price has been established. The usual and customary practice of the general public will be considered in determining whether or not a number of food products are sold as a combination or are sold as individual items.

SEC. 24.5. It is the intent of the Legislature, if this bill and Assembly Bill No. 2083 are both chaptered and amend Section 6363 of the Revenue and Taxation Code, and this bill is chaptered after Assembly Bill No. 2083, that Section 6363 of the Revenue and Taxation Code, as amended by Section 5 of this act shall remain operative only until the operative date of Assembly Bill No. 2083, and that on the operative date of Assembly Bill No. 2083 Section 6363 of the Revenue and Taxation Code as amended by Section 5 of this act be further amended in the form set forth in Section 5.5 of this act to incorporate the changes in Section 6363 proposed by Assembly Bill No. 2083. Therefore, Section 5.5 of this act shall become operative only if Assembly Bill No. 2083 is chaptered before this bill and amends Section 6363, and in such case Section 5.5 of this act shall become operative on the operative date of Assembly Bill No. 2083.

SEC. 25. This act shall become operative on January 1, 1972.

SEC. 26. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall become operative as provided in Section 25 of this act.

## CHAPTER 1742

*An act relating to lands, including tide and submerged lands, and, in this connection, to amend Section 6008 of the Public Resources Code.*

[Approved by Governor December 14, 1971. Filed with Secretary of State December 14, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. As used in this act:

(a) "City" means the City of San Rafael, Marin County, California, and its predecessors or successors in interest.

(b) "San Rafael Creek" unless otherwise indicated means the waterway within the natural banks of the San Rafael Creek as it existed prior to dredging and realignment and upland reclamation.

(c) "Present waterway" means the presently existing navigable waterway sometimes referred to as San Rafael Canal or San Rafael Creek extending from San Rafael Bay to Irwin Street in the city, and includes dredged "cutoff" channels and all lands below the plane of mean high water that are subject to the ebb and flood of the tides.

(d) "Cutoff channels" are those parcels described in that certain deed from the city to the United States of America, recorded in 225 Deeds 431, and shown on that certain U.S. Army Corps of Engineers' map entitled "San Rafael Creek, California, Property Deeded to United States Government by City of San Rafael," dated March 30, 1920, U.S. Army Corps of Engineers File No. 55-1-4.

(e) "Granted lands" means those lands granted in trust to the city by virtue of Chapter 83 of the Statutes of 1923, as amended by Chapter 178 of the Statutes of 1967 and as amended by Chapter 1383 of the Statutes of 1970.

(f) "Statutes" means those statutes noted in subdivision (e) pursuant to which the granted lands were granted in trust to the city.

(g) "Canal" means Allardt's San Rafael Canal which is that certain canal from San Francisco Bay to the Townsite of San Rafael, designated by the Board of Tide Land Commissioners pursuant to the authority granted by Chapter 543 of the Statutes of 1868 and Chapter 388 of the Statutes of 1870, and which was surveyed by said board under the direction of G. F. Allardt in 1870 and depicted as "San Rafael Canal" on that certain map prepared by order of said board entitled "Map No. 2 of the Salt Marsh and Tide Lands Situate in the County of Marin," a copy of which is on file in Can "F" of the Marin County Recorder.

(h) "State" means the State of California.

(i) "Commission" means the State Lands Commission.

(j) "Tidelands" includes tidelands and submerged lands.

(k) "Claimants" means both public and private individuals and entities and their predecessors in interest claiming some right, title, or interest within or adjoining the canal.

(*l*) "Trusts" means the trusts and conditions imposed with respect to the granted lands by the statutes or existing in law by virtue of the previous or present character of the granted lands as tidelands.

(m) "Plan" means that certain plan for the development and enhancement of a navigable harbor and waterway for the city referred to in subdivision (d) of Section 2 of this act.

(n) "Filled lands" means those portions of the canal and San Rafael Creek which are referred to in subdivision (e) of Section 2 of this act.

SEC. 2. It is found and determined that:

(a) The State of California, by virtue of Chapter 83 of the Statutes of 1923, as amended by Chapter 178 of the Statutes of 1967 and as amended by Chapter 1383 of the Statutes of 1970, has granted all the right, title, and interest of the state

in and to all the salt marsh, tide, and submerged lands, whether filled or unfilled, located within the boundaries of the city and situated below the line of mean high tide of the Pacific Ocean or any harbor, estuary, bay, or inlet within its boundaries, to the city, to be held by the city and its successors in interest subject to the trusts set forth in the statutes, and for the purposes of commerce, navigation, and fisheries and all appurtenances thereto, including the canal.

(b) The filled lands are, subject to the terms and conditions set forth in this act, no longer susceptible, useful, or required for the purposes of commerce, navigation, and fisheries, and it is not necessary that they remain in public ownership.

(c) The filled lands are comparatively small in relation to the area of the present waterway.

(d) Certain improvements in the canal have been made subsequent to the establishment of the canal and pursuant to a plan for development and enhancement of a navigable harbor and waterway for the city, which plan was tacitly or expressly participated in by the city, the state, claimants, the United States, and members of the public for many years, and which plan continues to the present time. Such improvements include certain dredging and the cutting off, relocation, and realignment of certain portions of the canal. The cutoff channels exist at this time and constitute a portion of the primary navigation channels between city and San Francisco Bay. The plan, as adopted and implemented, has resulted in a statewide public benefit.

(e) Certain of the claimants have relied on the plan and certain portions of the canal and San Rafael Creek have been filled above the mean high tide line as part of the plan and the implementation thereof. As a result thereof such filled lands are no longer used for purposes of the trusts, the same being replaced by the waterway developed pursuant to the plan.

(f) Certain lands of claimants have not been surveyed nor described in the deeds, patents, or other conveyances by which title was acquired by private claimants in such manner as to establish their location in relation to the canal. As a result thereof, the relative locations of the claimants' lands, the canal, and the patented lands are not known, resulting in uncertainty of boundaries, clouds on title. and disputed land claims along the length of the canal. It is in the public interest that the canal be resurveyed in such a manner as shall show the location of the mean high tide line within or across the canal, and to enable the lands claimed by claimants to be later located with relation to the canal.

(g) Numerous persons and their predecessors in interest have for many years, continuously and openly and notoriously occupied under color of title, or otherwise, certain of the filled lands, claiming ownership thereof adversely to the city and to the state, and paying any taxes that may have been assessed thereupon. Such persons presently dispute on numerous grounds the right, title, and interest of the city and the state

to, and contend that they are the true owners of, the filled lands.

(h) The true right, title, and interest of the parties is subject to a bona fide dispute and depends upon substantial issues of law and fact, the resolution of which is uncertain, time consuming and costly to city, the state, and to claimants. Certain litigation is now pending and it is in the interest of the people of the state that the location of the canal and the respective title claims therein be resolved consistent with present conditions.

(i) It is in the statewide interests for the furtherance and preservation of commerce, navigation, and fisheries, and of the trusts, and in the interests of the city, the state, adverse claimants, and of the public generally, that such boundary and title problems be resolved, and that public and private rights be established without further delay consistent with present conditions which have resulted from the long-standing conduct of public and private parties, all in accordance with the plan for the development and use of the present waterway and for public access thereto.

(j) It is in the interest of the city, the state, and the public generally, that a sufficient interest within the presently existing waterway, including the cutoff channels, to guarantee the perpetual use thereof as a continuous navigable channel, be acquired by the city.

(k) By reason of the existing public rights within the present waterway, and over the unfilled portions of the canal, and the comparatively small area of the filled lands, the removal and abandonment of the trusts over the filled lands will not adversely impair the trusts.

SEC. 3. (a) The city is hereby directed to cause a resurvey of the canal to be made, with sufficient ties to monuments of record to enable the relative locations of the parcels and lots of land along the canal to be later established, located, and surveyed in relation to the canal.

(b) Such resurvey shall be monumented and platted and, upon approval by the commission, the same shall be filed for record in the office of the County Recorder of Marin County, California.

SEC. 4. The city, by document, quitclaim, or conveyance, and upon receipt of such considerations as are hereinafter authorized or described in this act, may convey, release, or quitclaim its interest in those portions of the canal and San Rafael Creek freed of the trust and lying above the line of mean high tide. Such document, quitclaim, or conveyance may, by its terms, operate generally and by declaration, and without specifying the name of any person, and shall operate as to any parcel of land within the described area only in favor of such persons as have, at the time of said conveyance, release, or quitclaim, a claim of ownership to said parcel based upon a record chain of title, which chain of title covers a period of 30 years or more immediately preceding the effective

date of this act, or in favor of such persons who are in actual possession and have, at the time of said conveyance, release, or quitclaim, a claim of ownership to said parcel, which claim is based upon a record chain of title of less than 30 years and upon the payment of taxes on said property by the claimant or his predecessors in interest for a period of 10 years or more, which period of payment of taxes covers the period immediately preceding the effective date of this act.

SEC. 5. The city, with the approval of the commission, is hereby authorized to settle by agreement, exchange, or quitclaim, any dispute concerning whether or not particular land within either the present waterway or the granted lands, constitutes land in private or proprietary ownership by reason of title traceable to a state or federal patent or other valid source, or rather constitutes granted tidelands, title to which is vested in the city. In settlement of such disputes the city, with the approval of the commission, may by such agreement, exchange, or quitclaim, establish boundary or compromise boundary lines between the granted salt marsh, tide, and submerged lands, and the bordering private or proprietary lands.

SEC. 6. Any consideration as is given in exchange for any conveyance, release, quitclaim, or settlement under this act shall be determined by the city with the approval of the commission. In determining the adequacy of any such consideration, the city and the commission shall give effect in their evaluation to all factors bearing upon the value, if any, of the public's interest being conveyed, released, quitclaimed, or settled, and the rights, claims, and equities of the person in whose favor the conveyance, release, quitclaim, or settlement is being made and their predecessors in interest. In those cases where the land has been filled, or reclaimed, or improved, or both, without the expenditure of public moneys held in trust under the terms of the statutes, such lands may be valued by excluding the value of the fill, or improvements, or both. Consideration under this act may consist of lands, property, interest in property, easements, moneys, or other things of value given by the grantee or any other person.

SEC. 7. Any conveyance, release, quitclaim, or settlement made by the city pursuant to the provisions of this act shall be made by an appropriate document executed by the city and approved by the commission.

SEC. 8. Any portion of the lands granted to the city which pass by reason of any conveyance, release, quitclaim, or settlement made under the terms of this act is deemed to be freed of the trusts. No right, title, or interest in land lying below the line of mean high tide of the present waterway may be conveyed, released, or quitclaimed by the city under the terms of this act, nor shall any such land be freed by the terms of this act of the trusts. SEC. 8.5. This section is not intended to prevent the settlement of title or boundary disputes pursuant to this act. It is also the intent of this section that the commission protect the claim of the state to commercially valuable mineral deposits. Upon a finding that the provisions of this section would prevent the settlement of boundary or title disputes in the public interest pursuant to this act, or that no commercially valuable mineral deposits exist, the provisions of this section shall not be binding. In the event that the provisions of this section are not binding, the reasons shall be set forth in any boundary or title settlement document.

SEC. 9. All lands, interests in lands, and appurtenances thereto, which lie below the line of mean high tide and are received by the city as a result of sales or exchanges authorized by this act shall be deemed tidelands under the provisions of Chapter 83 of the Statutes of 1923, as amended by Chapter 178 of the Statutes of 1967 and as amended by Chapter 1383 of the Statutes of 1970.

SEC. 10. All moneys and other things of value, excluding interests in lands, which are received by the city as a result of sales or exchanges authorized by this act shall be used only for those trust purposes defined in Chapter 83 of the Statutes of 1923, as amended by Chapter 178 of the Statutes of 1967 and as amended by Chapter 1383 of the Statutes of 1970, including, but not limited to, use as consideration for the conveyances, releases, quitclaims, and settlements entered into by the city pursuant to this act.

SEC. 11. The provisions of this act shall not be deemed exclusive with respect to the settlement or litigation of titles and boundaries of lands within either the present waterway or granted lands and this act shall not impair or alter the existing procedural or substantive rights or disabilities of any person or entity claiming title to, or an interest in, any lands in the present waterway and the granted lands in the defense or prosecution of any proceeding now or hereafter instituted under the laws of this state, nor affect the applicability to said lands of any other provisions of law.

SEC. 12. Section 6008 of the Public Resources Code is amended to read:

This section does not apply to any leases, permits, rentals, easements or other existing rights in such lands existing on October 1, 1961, or extensions or renewals of such rights, if such extensions or renewals are presently provided for in such agreements and such extensions or renewals do not expand or extend the areas presently covered.

This section shall not be applicable to settlements of title or boundary problems by the commission or to exchanges or leases or permits in connection therewith.

SEC. 13. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provisions or application, and to this end the provisions of this act are severable.

## CHAPTER 1743

*An act to add Division 24 (commencing with Section 36000) to the Education Code, relating to the Supplementary Education Act of 1971, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor December 14, 1971. Filed with Secretary of State December 14, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Division 24 (commencing with Section 36000) is added to the Education Code, to read:

## DIVISION 24. SUPPLEMENTARY EDUCATION ACT OF 1971

### CHAPTER 1. GENERAL PROVISIONS

36000. The Legislature finds that inequities and problems exist in providing special education services under the present categorical system and in meeting the specific educational needs of children of minority groups and other children now classified as mentally retarded, educationally handicapped, and physically handicapped.

Specifically, the following are considered to be areas of immediate concern for minimally handicapped children:

(a) Children are placed in special education programs on the basis of medically oriented labels and diagnostic categories. These labels and categories do not directly relate to the educational process and often cause damage to the child's self-concept, peer relationships, and position in society.

(b) Special education programs rely heavily on the use of special classes which tend to segregate children, and the effectiveness of such classes is questionable.

(c) Current special education regulations do not require that a specific curriculum be built around stated methods and goals either for a program or for specific children, making it difficult to evaluate these programs and establish cost and program effectiveness.

(d) Many children are not adequately served because they do not fit neatly into one of the existing categories.

It is the intent of the Legislature by provisions of this division to establish pilot supplementary education programs to afford means whereby school districts may attempt to rectify the above problems and provide the Legislature with needed information to guide their efforts in resolving the special education problem in California.

36000.1. In order that the supplementary education programs can be evaluated against existing programs, all pupils who will be enrolled in the supplementary education programs prescribed in this division, except students new to the district, shall have been enrolled in the previous fiscal year or be currently enrolled in an existing special education program. This limitation shall not be applicable to pupils enrolled pursuant to Section 36301.

36001. A three-year period is established to implement and evaluate supplementary education models of programs pursuant to this division.

The State Department of Education shall submit a report to the Legislature by January 1 of the first year and each year thereafter that the provisions of this division are operative. The report shall include an evaluation of the effectiveness and organization of the supplementary education program and recommendation for further program planning and development of legislation.

36002. No more than 25 supplementary education programs may be conducted pursuant to this division. The average daily attendance in all of such programs shall not exceed 5 percent of the total statewide average daily attendance in special education classes.

## CHAPTER 2. ESTABLISHMENT OF SUPPLEMENTARY EDUCATION PROGRAMS

36100. School districts or county superintendents of schools wishing to establish supplementary education programs to replace all or any part of their existing special education programs shall make application through prescribed procedures established by the State Department of Education, under rules and regulations to be adopted by the State Board of Education. These programs shall be representative of rural, suburban, and urban school districts, with adequate geographic distribution. Such supplementary education programs shall

consist of supervision, appraisal, instruction, consultation, counseling, and guidance, which have as their primary purpose providing necessary special services and instruction for handicapped children enrolled full or part time in regular school programs.

These provisions may not be used to absolve school districts and county superintendents of schools from their responsibilities to provide special education services to severely handicapped minors requiring special education classes.

36101. The supplementary education programs may include, but not be limited to:

(a) A resource room or learning center located in the pupil's school of attendance.

(b) Small group or individual instruction given by a special teacher for pupils who remain in their regular classes.

(c) Psychoeducational consultation and inservice training to both supplementary and regular teachers for the development of diagnostic prescriptive instruction.

(d) Special day classes may be a part of a supplementary education program but shall be used only for the more extremely disordered child, who has been reviewed by the evaluation and placement committee and found to need the segregated environment offered by a special day class. Pupils in such classes may participate in regular or other supplementary program activities whenever of benefit to the pupil.

36102. Such special day classes shall be referred to only as special day classes and shall not be referred to by categorical labels now used.

36103. A school district or county superintendent of schools establishing a supplementary education program prescribed in this division may waive restrictions or limiting provisions of this code which relate to special education programs affecting class size, schoolday, eligibility requirements, placement procedures, program organization, curriculum requirements, and teacher–administrator ratio, upon approval of the Superintendent of Public Instruction.

## CHAPTER 3. EVALUATION, PLANNING, AND CONSULTATION SERVICES

36200. Pupils may be placed in a supplementary education program at the pupil's school of attendance by the decision of the local evaluation and planning committee, consisting of, but not limited to, the supplementary education teacher, a school psychologist, school nurse, the pupil's regular teacher, and the building administrator. Pupils placed by the local committee shall be maintained in the regular classroom for at least one-half of the regular schoolday.

36201. Whenever a supplementary education program is established at a local school, the special teacher in that program shall be provided with no less than four hours per week

of consultation from a school psychologist, a qualified educational specialist, or special education consultant, who is employed in the supplementary education program of the district or employed by several cooperating school districts or a county superintendent of schools. Such consultation shall be for the behavioral management, instruction, and guidance of pupils in the supplementary education program.

36202. Any pupil may, and all pupils whose handicaps require further evaluation or who fail to meet expected levels of progress or who are referred by the supplementary education teacher, school psychologist, or local committee and all pupils who have been enrolled in a local supplementary education program for longer than 60 schooldays shall, be evaluated by a districtwide evaluation and planning committee.

36203. The districtwide evaluation and planning committee shall consist of an experienced special education teacher, a school psychologist, an educational specialist or consultant, the administrator of special education, and either a school nurse, social worker, or speech therapist. The attendance of committee members shall be on an as time is permitting basis. The committee may request as it deems necessary, the presence of a licensed physician, the director of curriculum, or any other professional that could provide necessary information concerning the pupil's learning problems.

Before any child is placed in a supplementary education program, written permission for such placement shall be obtained from the parent or guardian.

36204. All children shall be viewed as having multiple strengths as well as multiple areas of need and both these areas shall be included in the educational plan.

36205. An educational plan shall be constructed by the local committee for each pupil enrolled in the supplementary education program. This plan shall include assessment, prescription, and implementation and shall be for a specified time, but in no case for longer than one year. At the end of such time, the educational plan shall be evaluated and a revised plan developed.

36206. In formulating the educational plan the local evaluation and planning committee shall have available to it written reports concerning the pupils functioning in the following areas:

(a) Educational
(b) Psychological
(c) Health and development
(d) Sociocultural
(e) Language

36207. The educational plan developed shall include specific recommendations in the following areas:

(a) Educational
(b) Psychological
(c) Social

36208. Services made available to the individual child as part of his educational plan shall include, as needed, but not be limited to, teaching, physical remediation, and psychological consultation. Such services may be provided in or out of the regular classroom. The teacher-consultant and psychologist shall offer consultation and training to the regular classroom teacher as part of the individual child's educational plan.

36209. Parents shall be involved in all steps related to the development of the educational plan (including identification of special needs, results of assessment, nature of prescriptive recommendations, implementation, and followup). The parent shall at all times have a veto as to placement of his child in a supplementary education program. Assurance shall be given the parent that the ethnic or cultural background of this child will be included in the education plan.

36210. In addition to being responsible for the placement and evaluation of a pupil's progress, the evaluation and planning committee shall be responsible for the districtwide evaluation and development of the supplementary education program.

### CHAPTER 4. ENROLLMENT

36300. Enrollment shall be limited to pupils who have learning handicaps or behavioral disorders associated with learning handicaps which have been identified and for whom specific educational objectives have been formulated.

Such pupils shall have been enrolled or be eligible for enrollment in existing special education provisions of this code, except that pupils eligible for Miller-Unruh basic reading programs and compensatory education programs may be included whenever such pupils and funds are combined in an overall supplementary education plan.

36301. Enrollment may include mild or moderately handicapped pupils not presently eligible for special education, pupils eligible for Miller-Unruh basic reading programs not presently eligible for special education, and pupils eligible for compensatory education programs not presently eligible for special education, but such enrollment shall be limited to no more than 15 percent of the total enrollment in all supplementary education programs.

### CHAPTER 5. PROGRAM APPLICATION AND REPORTS

36400. Any school district or county superintendent of schools wishing to establish a supplementary education program prescribed in this division shall file with the Superintendent of Public Instruction an application to establish a pilot supplementary education program. The application shall be on forms provided by the Department of Education and shall include, but not be limited to, the district's proposed

organization for supplementary education, number of staff, pupils to be served, and specific method of evaluation for the total program and individual pupil's progress.

36401. This application shall be filed 60 days before the beginning date of the proposed program. Approval shall be based upon adequacy of design which includes a statement of goals, methods, adequacy of staff, evaluation procedures, and capability of serving as a program.

36402. Each school district or county superintendent of schools shall annually report to the Superintendent of Public Instruction by August 31 on the operation of the supplementary education program. The report shall include an evaluation of the program's effectiveness in terms of individual pupil's progress in obtaining the behavioral goals set forth in the education plan by the evaluation and planning committee, as well as an analysis of the individual pupil's progress before the pupil was enrolled in the supplementary education program.

### CHAPTER 6. FUNDING

36500. The school district or county superintendent of schools conducting a pilot supplementary education program shall be entitled to an apportionment equal to the amount which would have been credited to them had these minors, other than the minors enrolled under Section 36301, been enrolled in programs authorized in Sections 6751, 6802.1, 6902, and 6903. The statutory limitations outlined in Sections 6752 and 6752.1 shall apply to supplementary education programs. Upon the approval of the Superintendent of Public Instruction, a school district may coordinate and incorporate funds from federal projects, Miller-Unruh basic reading programs, and compensatory education programs, as long as such pupils are included in supplementary education programs. Pupils enrolled in supplementary education programs under Section 36301 shall not be included for purposes of the apportionment of state special education allowances pursuant to this section.

Each school district participating in supplementary education programs shall annually submit financial reports to the Department of Education setting forth the amount and nature of expenditures for supplementary education.

Program budgeting procedures shall be followed.

### CHAPTER 7. TEACHER QUALIFICATIONS

36600. All teachers who serve full or part time in the pilot supplementary education program shall hold a teaching credential for the instruction of exceptional children or shall have been a full-time teacher of the educationally handicapped for two years or more, except that persons serving as speech and

hearing therapists or teachers of the severely handicapped shall hold credentials appropriate for such work. For the purpose of teaching pupils in a supplementary education program, the teacher shall not be restricted by his general or standard credential to the elementary or secondary level.

CHAPTER 8. SUPERVISION AND CONSULTATION SERVICES

36700. The Superintendent of Public Instruction shall establish supervisory and consultant services for supplementary education programs and shall provide such personnel as necessary under provisions of this division.

CHAPTER 9. DURATION

36800. Provisions of this division shall be operative from September 1, 1971, or as soon as possible thereafter, to August 31, 1974, and shall have no force or effect thereafter.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the supplementary education programs authorized by this act can be implemented at the earliest possible time during the 1971–1972 school year, and, thus, provide special education services to meet the specific educational needs of children of minority groups and other children now classified as mentally retarded, educationally handicapped, and physically handicapped, it is necessary that this act take immediate effect.

# CHAPTER 1745

*An act to add Article 3.5 (commencing with Section 310) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to medical tests.*

*The people of the State of California do enact as follows:*

SECTION 1. Article 3.5 (commencing with Section 310) is added to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, to read:

## Article 3.5. Sickle Cell Anemia

310. It is the policy of the State of California to make every effort to detect, as early as possible, sickle cell anemia, a heritable disorder which leads to physical defects.

The State Department of Public Health shall have the responsibility of designating tests and regulations to be used in executing this policy. Such tests shall be in accordance with accepted medical practices.

Testing for sickle cell anemia may be conducted at the following times:

*An act making an appropriation to the Placerville Union Elementary School District, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor December 14, 1971 Filed with Secretary of State December 14, 1971]

*The people of the State of California do enact as follows:*

SECTION 1. Recently, a judgment of nearly seventy thousand dollars ($70,000) was rendered against the Placerville Union Elementary School District. The district does not have any revenues to meet this unexpected expenditure and has unencumbered reserves of only approximately one thousand five hundred dollars ($1,500).

The Legislature finds that the unique circumstances in the Placerville Union Elementary School District require immediate and special legislation and that a general statute cannot be made applicable to these circumstances within the meaning of Section 16 of Article IV of the California Constitution. The appropriation made by Section 2 of this act is made in view of the unique circumstances in the Placerville Union Elementary School District, and is made for that purpose only. It is not the intention of the Legislature to establish a precedent with respect to the appropriation made by this act, but rather to assist in a situation involving unique circumstances, since appropriate justification for such assistance has been found.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury the sum of seventy thousand dollars ($70,000), or so much thereof as may be necessary, to the Placerville Union Elementary School District to enable the district to satisfy the judgment described in Section 1 of this act.

SEC. 3. The Superintendent of Public Instruction shall, during the 1972–1973, 1973–1974, and 1974–1975 fiscal years, withhold from the apportionments to be made to the district from the State School Fund in each of those years an amount equal to one-third of the amount actually disbursed to the district from the appropriation made pursuant to Section 2 of this act, together with amounts representing interest at a rate based on the most current investment rate of the Pooled Money Investment Account as of the date of disbursement of funds to the district pursuant to Section 2 of this act. Such withholdings shall be directed to the end that the entire

amount disbursed, plus the interest, shall have been recouped by the state at the end of the 1974–1975 fiscal year.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that money may be made available to the Placerville Union Elementary School District at the earliest possible time to aid the district in averting a financial crisis which directly involves the entire area of the district, it is necessary that this act take immediate effect.

985. Section 984 shall not apply to that part of the remuneration which, after remuneration with respect to employment equal to eight thousand dollars ($8,000) for calendar year 1972 and eight thousand five hundred dollars ($8,500) for calendar year 1973 and each subsequent calendar year has been paid to an individual by an employer, is paid to such individual by such employer.

SECTION 1. Section 15 of Chapter 1451 of the Statutes of 1969 is amended to read:

Sec. 15. Within 90 days of the effective date of this act, the Health Planning Council shall adopt guidelines pursuant to Section 437.7 of the Health and Safety Code. By July 1, 1970, all voluntary area health planning agencies shall adopt guidelines pursuant to Section 437.7 of such code. The exception provided for in the preceding sentence shall not apply to transferees of the applications of such applicants.

Voluntary area health planning agencies may extend, until July 1, 1972, the date upon which applicants, qualifying under the exception in this section, shall commence construction, if the voluntary area health planning agencies declare that good cause has been shown why such extension should be granted, provided that an applicant applying for such extension had, prior to January 1, 1970, received approval of a health planning association in the county wherein the applicant is located. Applicants receiving extensions of the construction commencement date shall have on file with the State Department of Public Health a notarized affidavit from the building department having jurisdiction indicating that 50 percent completion of the approved project was attained by January 1, 1974, and on file with the county recorder and State Department of Public Health a valid notice of construction completion indicating January 1, 1975, as the completion date.

For the purposes of this section, the term "50 percent completion" is defined as completion of the foundations and foot-

ings; the structural frame; the mechanical, electrical and plumbing rough-in; the rough flooring; the exterior walls and windows; and the finished roof.

SEC. 2. Section 437.7 of the Health and Safety Code is amended to read:

437.7. In order to assure availability of objective and impartial review by planning groups (referred to as voluntary area health planning agencies) of hospitals and related facilities, including facilities licensed by the Department of Mental Hygiene, or proposed projects for new, additional or revised hospital and related health facility projects, including facilities licensed by the Department of Mental Hygiene, the Health Planning Council, from time to time, shall approve no more than one voluntary area health planning agency for any designated area of the state, provided such group shall meet the following criteria:

(b) Shall review information on utilization of hospitals and related health facilities.

(c) Shall develop principles for the determination of community need and desirability to guide hospitals and related health facilities in acting in the public interest. Such principles shall be consistent with the general guidelines developed by the Health Planning Council in accordance with Section 437.8.

(d) Shall conduct public meetings in which members of the health professions and consumers will be encouraged to participate.

(e) Shall review individual proposals for the construction of new or additional hospital and related health facilities, the conversion of one type of facility to a different category of licensure or the creation or expansion of new areas of service, and make decisions as to the need and desirability for the particular proposal in accordance with the principles developed pursuant to subdivision (c).

Such local areas shall be of a geographic size and contain adequate population to insure a broad base for planning decisions. Each local area shall contain a voluntary local health planning agency which shall meet the criteria in subdivisions (a) through (g) of this section.

An organization which meets the criteria in subdivisions (a) through (g) of this section may make application to its voluntary area health planning agency for designation as a voluntary local health planning agency for a designated area. After a complete application has been received, the area agency shall reach a decision concerning the application. The decision, or lack of decision, of the area agency may be appealed to the Health Planning Council. Any appeal shall be made within 30 days of the decision or lack of decision.

Approval of voluntary area and local area health planning agencies, adoption of statewide general principles for planning and the adoption of administrative procedures for voluntary area and local area health planning agencies shall be made by the Health Planning Council only after notice and public hearing.

SEC. 3. Section 438.4 of the Health and Safety Code is amended to read:

(a) Approve the application in its entirety;

(b) Deny the application in its entirety;

(c) Approve the application subject to modification by the applicant, as recommended by the body involved.

A decision shall become final when all rights to appeal have been exhausted. Approval shall terminate 12 months after the date of such approval unless the applicant has commenced construction or conversion to a different license category and is diligently pursuing the same to completion as determined by the voluntary area health planning agency; or unless the approval is extended by the voluntary area health planning agency for an additional period of up to 12 months upon the showing of good cause for the extension. If the Health Planning Council finds that the voluntary area health planning agency has dissolved, it may grant such extension upon a showing by the applicant of good cause for the extension.

SEC. 4. Section 14105.5 of the Welfare and Institutions Code is amended to read:

14105.5. The director or prepaid health plans shall make no payment for services to any hospital facility which secures a license under the provisions of Chapter 2 (commencing with Section 1400) of Division 2 of the Health and Safety Code or Chapter 1 (commencing with Section 7000) of Division 7 of this code after July 1, 1970, covering a new facility or additional bed capacity or the conversion of existing bed capacity to a different license category, unless such licensee received a favorable final decision by the voluntary area health planning agency in the area, the consumer members of a voluntary area health planning agency acting as an appeals body or the Health Planning Council pursuant to Sections 437.7 to 438.5, inclusive, of the Health and Safety Code; or unless the licensee had filed an application for a license prior to January 1, 1970, and the application met all then-existing requirements and regulations of the appropriate state agency at the time of application including, at least, preliminary submission of plans, and if such licensee commences construction of facilities prior to July 1, 1971, and if such licensee has on file with the State Department of Public Health a notarized affidavit from the building department having jurisdiction indicating that 50 percent completion of the approved project was attained by January 1, 1973, and such licensee has on file with the county recorder and State Department of Public Health a valid notice of construction completion indicating January 1, 1974, as the completion date. Voluntary area health planning agencies may extend, until July 1, 1972, the date upon which applicants, qualifying un-

der the exception in this section, shall commence construction, if the voluntary area health planning agencies declare that good cause has been shown why such extension should be granted, provided that an applicant applying for such extension had, prior to January 1, 1970, received approval of a health planning association in the county wherein the applicant is located. Applicants receiving extension of the construction commencement date shall have on file with the State Department of Public Health a notarized affidavit from the building department having jurisdiction indicating that 50 percent completion of the approved project was attained by January 1, 1974, and have on file with the county recorder and State Department of Public Health a valid notice of construction completion indicating January 1, 1975, as the completion date.

For the purposes of this section, the term "50 percent completion" is defined as completion of the foundations and footings; the structural frame; the mechanical, electrical and plumbing rough-in; the rough flooring; the exterior walls and windows; and the finished roof.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Chapter 1451, Statutes of 1969, established provisions for specific exceptions from the requirement of voluntary area health planning agency approval of new health facility construction.

In order to avoid abuse of the flexibility created by these exceptions, and to insure that appropriate health planning review and actual construction of facilities occur on a timely basis, it is necessary that this act go into effect immediately.

## CHAPTER 1750

*An act to amend Sections 4453, 4455, 4460, 4650, 4658, and 4702 of, to add Section 4659 to, and to repeal Section 4659 of, the Labor Code, relating to workmen's compensation.*

[Approved by Governor December 15, 1971. Filed with Secretary of State December 15, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 4453 of the Labor Code is amended to read:

4453. In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than thirty-eight

dollars and forty-six cents ($38.46) nor more than one hundred sixty-one dollars and fifty-four cents ($161.54). In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30.77) nor more than one hundred seven dollars and sixty-nine cents ($107.69). Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the week, month or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 2. Section 4455 of the Labor Code is amended to read:

4455. If the injured employee is under 21 years of age, and his incapacity is permanent, his average weekly earnings shall be deemed, within the limits fixed in Section 4453, to be the weekly sum which under ordinary circumstances he would probably be able to earn at the age of 21 years, in the occupation in which he was employed at the time of the injury or in any occupation to which he would reasonably have been promoted if he had not been injured. If such probable earnings at the age of 21 years cannot reasonably be determined, his average weekly earnings shall be taken at one hundred seven dollars and sixty-nine cents ($107.69).

SEC. 3. Section 4460 of the Labor Code is amended to read:

4460. For the purpose of computing the temporary disability indemnity payable to any employee who sustains an original injury causing temporary disability, the maximum average weekly earnings shall be taken at one hundred sixty-one dollars and fifty-four cents ($161.54). For the purpose of computing the permanent disability indemnity payable to any employee who sustains an original injury causing permanent disability, the maximum average weekly earnings shall be taken at one hundred seven dollars and sixty-nine cents ($107.69).

Every computation made pursuant to this section as last amended shall be made only with reference to temporary disability or such permanent disability resulting from an original injury sustained after the act last amending this section becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 4. Section 4650 of the Labor Code is amended to read:

4650. If an injury causes temporary disability, a disability payment shall be made for one week in advance as wages on the eighth day after the injured employee leaves work as a result of the injury; provided, that in case the injury causes disability of more than 28 days or necessitates hospitalization the disability payment shall be made from the first day the injured employee leaves work or is hospitalized as result of the injury. If the injury causes permanent disability, a disability payment shall be made for one week in advance as wages on the eighth day after the injury becomes permanent or the date of last payment for temporary disability, whichever date first occurs.

SEC. 5. Section 4658 of the Labor Code is amended to read:

4658. If the injury causes permanent disability, the percentage of disability to total disability shall be determined, and the disability payment computed and allowed, according to subdivision (a). However, in no event shall the disability payment allowed be less than the disability payment computed according to subdivision (b).

The number of weeks for which payments shall be allowed set forth in column 2 above based upon the percentage of permanent disability set forth in column 1 above shall be

cumulative, and the number of benefit weeks shall increase with the severity of the disability. The following schedule is illustrative of the computation of the number of benefit weeks:

(b) Sixty-five percent of the average weekly earnings for four weeks for each 1 percent of disability, where, for the purposes of this subdivision, the average weekly earnings shall be taken at not more than eighty dollars and seventy-seven cents ($80.77).

SEC. 5.5. Section 4659 of the Labor Code is repealed.

SEC. 5.7. Section 4659 is added to the Labor Code, to read:

4659. If the permanent disability is 70 percent or over, 1.5 percent of the average weekly earnings for each 1 percent of disability in excess of 60 percent is to be paid during the remainder of life, after payment for the maximum number of weeks specified in Section 4658 has been made.

SEC. 6. Section 4702 of the Labor Code is amended to read:

4702. Except as provided in the next paragraph, the death benefit in cases of total dependency, when added to all accrued disability indemnity, shall be the sum of twenty-five thousand dollars ($25,000) except in the case of a surviving widow and one or more dependent minor children, in which case the death benefit shall be twenty-eight thousand dollars ($28,000) and except as otherwise provided in Sections 4553 and 4554. In cases of partial dependency the death benefit shall be a sum equal to four times the amount annually devoted to the support of the dependents by the employee, not to exceed the sum of fifteen thousand dollars ($15,000). The death benefit

in all cases shall be paid in installments in the same manner and amounts as temporary disability indemnity, payments to be made at least twice each calendar month, unless the appeals board otherwise orders.

Disability indemnity shall not be deducted from the death benefit and shall be paid in addition to the death benefit when the original injury resulting in death occurs after the effective date of the amendment to this section adopted at the 1949 Regular Session of the Legislature.

Every computation made pursuant to this section shall be made only with reference to death resulting from an original injury sustained after this section as amended during the 1971 Regular Session of the Legislature becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 7. Section 4453 of the Labor Code is amended to read:

4453. In computing average annual earnings for the purposes of temporary disability indemnity only, the average weekly earnings shall be taken at not less than fifty-three dollars and eighty-four cents ($53.84) nor more than one hundred sixty-one dollars and fifty-four cents ($161.54). In computing average annual earnings for purposes of permanent disability indemnity, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30.77) nor more than one hundred seven dollars and sixty-nine cents ($107.69). Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 95 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 95 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by the week, month or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 95 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken

at 95 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 8. Every computation of the death benefit in cases of total dependency pursuant to the amendment to Section 4702 of the Labor Code by Section 6 of this act shall be made only with reference to death resulting from an original injury sustained after the effective date of such amendment. However, all rights presently existing under Section 4702 of the Labor Code shall be continued in force.

SEC. 9. If the benefits which are increased by this act necessitate an increase in premium rates for workmen's compensation insurance carried by employers, or if such increased benefits necessitate an increase in costs to an employer holding a certificate of self-insurance granted pursuant to Chapter 4 (commencing with Section 3700) of Part 1 of Division 4 of the Labor Code which he may pass on to consumers, such increased benefits shall not take effect if the premium increase, or the increase in costs which is passed on to consumers, necessitated by such increased benefits would violate any order of the President of the United States, issued pursuant to Section 202 of the Federal Economic Stabilization Act of 1970 (P.L. 91-379) in effect at the time this act becomes effective, and the benefit rate in effect at such time shall continue in effect. However, the benefits increased by this act shall immediately take effect at any time that the premium increase, or the increase in costs which is passed on to consumers, necessitated by such increase does not violate such order of the President, or upon the expiration of such order, whichever is sooner.

SEC. 10. It is the intent of the Legislature, if this bill and Assembly Bill No. 1346 are both chaptered and amend Section 4453 of the Labor Code, and this bill is chaptered after Assembly Bill No. 1346, that the amendments to Section 4453 proposed by both bills be given effect and incorporated in Section 4453 in the form set forth in Section 7 of this act. Therefore, Section 7 of this act shall become operative only if this bill and Assembly Bill No. 1346 are both chaptered, both amend Section 4453, and Assembly Bill No. 1346 is chaptered before this bill, in which case Section 1 of this act shall not become operative.

SEC. 11. This act shall become operative April 1, 1972.

(2) When the injury or death is proximately caused by the intoxication of such other employee.

(b) An act which will not sustain an independent action for damages against such other employee under paragraph (1) or (2) of subdivision (a) of this section may nevertheless be the basis of a finding of serious and willful misconduct under Section 4553 or 4553.1, if (1) such other employee is established to be one through whom the employer may be charged under Section 4553; (2) such act of such other employee shall be established to have been the proximate cause of the injury or death; and (3) such act is established to have been of a nature, kind, and degree sufficient to support a finding of serious and willful misconduct under Section 4553 or 4553.1.

(c) In no event, either by legal action or by agreement whether entered into by such other employee or on his behalf, shall the employer be held liable, directly or indirectly, for damages awarded against, or for a liability incurred by such other employee under paragraph (1) or (2) of subdivision (a) of this section.

(d) No employee shall be held liable, directly or indirectly, to his employer, for injury or death of a coemployee except where the injured employee or his dependents obtain a recovery under subdivision (a) of this section.

[Approved by Governor December 16, 1971 Filed with Secretary of State December 16, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 218 of the Revenue and Taxation Code is amended to read:

218. The homeowner's property tax exemption is the amount of the assessed value of the dwelling as specified in Section 1d of Article XIII of the Constitution. The exemption does not extend to property which is rented, vacant, under construction on the lien date, or which is a vacation or secondary home of the owner or owners, nor does it apply to property on which an owner receives the veteran's exemption, or to property for which an owner received an allowance for taxes, either in whole or in part, either directly or indirectly, for the property tax year from the state or any political subdivision thereof, except assistance received under the Senior Citizens Property Tax Assistance Law provided for in Part 10.5 (commencing with Section 19501) of Division 2 of this code. "Owner" includes a person purchasing the dwelling under a contract of sale or who holds shares or membership in a cooperative housing corporation, which holding is a requisite to the exclusive right of occupancy of a dwelling. As used in this section, "dwelling" shall include:

(a) A single-family dwelling occupied by an owner thereof as his principal place of residence on the lien date.

(b) A multiple-dwelling unit occupied by an owner thereof on the lien date as his principal place of residence. As used in this subdivision, "multiple-dwelling unit" does not include any unit containing more than two separate dwelling units.

(c) A condominium occupied by an owner thereof as his principal place of residence on the lien date.

(d) Premises occupied by the owner of shares or a membership interest in a cooperative housing corporation, as defined in Section 17265, as his principal place of residence on the lien date. Each exemption allowed pursuant to this subdivision

shall be deducted from the total assessed valuation of the cooperative housing corporation. The exemption shall be taken into account in apportioning property taxes among owners of share or membership interests in the cooperative housing corporations so as to benefit those owners who qualify for the exemption.

"Dwelling" means a building, structure or other shelter constituting a place of abode, whether real property or personal property, and any land on which it may be situated. For purposes of this section a two-dwelling unit shall be considered as two separate single-family dwellings.

The exemption provided for in Section 1d of Article XIII of the Constitution shall first be applied to the building, structure or other shelter and the excess, if any, shall be applied to any land on which it may be located.

SEC. 2. The provisions of this act shall be operative for property taxes for the 1972–1973 fiscal year and fiscal years thereafter.

[Approved by Governor December 16, 1971. Filed with Secretary of State December 16, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 33002 of the Health and Safety Code is amended to read:

33002. "Community" means a city, county, city and county, or Indian tribe, band, or group which is incorporated or which otherwise exercises some local governmental powers.

SEC. 2. Article 5 (commencing with Section 33070) is added to Chapter 1, Part 1, Division 24 of the Health and Safety Code, to read:

Article 5. Further Declaration of State Policy

33070. The Legislature finds and declares that decent housing and genuine employment opportunities for all the people of this state are vital to the state's future peace and prosperity, for all of the following reasons:

(a) Hazardous, congested, and insanitary housing debilitates occupants' health to the point of impairing motivation and achievement.

(b) Lack of employment opportunity creates despair and frustration which may precipitate violence.

(c) Unfit housing and lack of employment opportunity depend on each other to perpetuate a system of dependency and hopelessness which drains the state of its valuable financial and human resources.

33071. The Legislature further finds and declares that a fundamental purpose of redevelopment is to expand the supply of low- and moderate-income housing, to expand employment opportunities for jobless, underemployed, and low-income persons, and to provide an environment for the social, economic, and psychological growth and well-being of all citizens.

SEC. 3. Section 33126 of the Health and Safety Code is amended to read:

33126. (a) An agency may select, appoint, and employ such permanent and temporary officers, agents, counsel, and employees as it requires, and determine their qualifications, duties, benefits, and compensation, subject only to the conditions and restrictions imposed by the legislative body on the expenditure or encumbrance of the budgetary funds appropriated to the community redevelopment agency administrative fund. To the greatest extent feasible, the opportunities for training and employment arising from a redevelopment project planning and execution shall be given to lower income residents of the project area.

(b) An agency may contract with the Department of Housing and Community Development, or any other agency, for the furnishing by the department, or agency, of any necessary staff services associated with or required by redevelopment and which could be performed by the staff of an agency.

SEC. 4. Section 33348.5 is added to the Health and Safety Code, to read:

33348.5. The agency shall, biennially, conduct a public hearing for the purpose of reviewing the redevelopment plan for each redevelopment project within its jurisdiction and evaluating its progress, and shall hear the testimony of all

interested parties. Notice of the hearing shall be published pursuant to Section 6063 of the Government Code and posted in at least four permanent places within the project area for a period of three weeks. Publication and posting shall be completed not less than 10 days prior to the date set for hearing.

This section does not apply to an agency of a city, county, or city and county if such city, county, or city and county has a population not exceeding 75,000 persons.

SEC. 5. Section 33385 of the Health and Safety Code is amended to read:

33385. The legislative body of a city or county may call upon the residents and existing community organizations in a redevelopment project area, within which low- and moderate-income families are to be displaced by the redevelopment project, to form a project area committee. The project area committee shall include, when applicable, residential owner occupants, residential tenants, businessmen, and members of existing organizations within the project area. The members of the committee shall serve without compensation.

In the event such committee is formed, the legislative body shall approve such a representative project area committee in each such project area within 60 days after the project area is selected. For project areas selected prior to the effective date of the amendments to this section enacted at the 1971 Regular Session of the Legislature, such approval shall be given by January 1, 1972.

Nothing contained in this section shall prevent an agency, or the legislative body of any city or county, from creating any other committee for a project area.

SEC. 6. Section 33417.5 is added to the Health and Safety Code, to read:

33417.5. There is in each city, county, or city and county having an agency a relocation appeals board composed of five members appointed by the mayor of the city or by the chairman of the board of supervisors of the county, subject to the approval of the legislative body. Each board shall promptly hear all complaints brought by residents of the various project areas relating to relocation and shall determine if the redevelopment agency has complied with the provisions of this chapter and, where applicable, federal regulations. The board shall, after a public hearing, transmit its findings and recommendations to the agency. The members of the relocation appeals board shall serve without compensation, but each of the members shall be reimbursed for his necessary expenses incurred

in performance of his duties, as determined by the legislative body.

SEC. 7. Section 33418 is added to the Health and Safety Code, to read:

33418. Except as otherwise provided in this section, all applications and records concerning any person, including individuals, families, business concerns, and others, made or kept by any agency in connection with the administration of any provision of this article relating to relocation advisory assistance or relocation payments shall be confidential. Any agency having custody of such records may, however, make the records available to the legislative body of the community, the Department of Housing and Community Development of this state, and the United States Department of Housing and Urban Development for confidential use by such public entities.

Nothing contained in this section shall prohibit an agency from giving information or statistics relating to relocation advisory assistance or relocation payments to any public or private person or entity, if such information or statistics will not result in the disclosure of the identity of persons receiving relocation advisory services or relocation payments.

Notwithstanding other provisions of this section, factual information relating to relocation advisory assistance or relocation payments made or kept by any agency shall be open for inspection by the person to which the information relates and by any other person authorized in writing by such person.

SEC. 8. Section 33422.1 is added to the Health and Safety Code, to read:

33422.1. To the greatest extent feasible, contracts for work to be performed in connection with any redevelopment project shall be awarded to business concerns which are located in, or owned in the substantial part by persons residing in, the project area.

SEC. 9. Section 33422.2 is added to the Health and Safety Code, to read:

33422.2. To the greatest extent feasible, opportunities for training and employment arising from any contract for work to be performed in connection with any redevelopment project shall be given to the lower-income residents of the project area.

SEC. 10. Section 33422.3 is added to the Health and Safety Code, to read:

SEC. 8. Part 12 (commencing with Section 5701) is added to Division 1 of the Revenue and Taxation Code, to read:

## PART 12. TAXATION OF RACEHORSES

### CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

5701. The Legislature finds that subjecting racehorses to the general property tax has resulted in a serious lack of uniformity as between one county and another respecting the method used in arriving at an assessed value; that this has resulted in serious inequities between the owners of racehorses depending in part on the county wherein they are

assessed; that a continuation of current assessment practices will result in a substantial decrease in the breeding, boarding and training of racehorses for racing competition in California and that current assessment practices have caused racehorse owners to remove their horses from California to other major breeding states with the result that over a period of time if such assessment practices are continued, both the breeding and racing of racehorses in California will suffer in that the quality and quantity of racehorses will be reduced and impaired; that a severe loss of employment and taxes to breeding and racing will result, attendance at race meetings will decrease and betting will be reduced with consequent substantial loss of revenue to California. It is the intent of the Legislature in enacting this part to establish a more equitable method of taxing racehorses and thereby providing incentives to owners of such horses to maintain their horses within the state by providing for a uniform system of in-lieu taxation for the racehorses subject to the provisions of this part.

5702. Except where the context otherwise requires, the definitions given in this chapter govern the construction of this part.

5703. "Racehorse" means each live horse, including a stallion, mare, gelding, ridgeling, colt or filly, that is eligible to participate in or produce foals which are eligible to participate in a horseracing contest in California wherein parimutuel racing is permitted under rules and regulations prescribed by the California Horse Racing Board.

5704. "Owner" means the owner of a racehorse or his agent. Any other person claiming, possessing or controlling a racehorse shall provide the name and address of the owner thereof or his agent upon the request of the assessor.

5705. "Annual fee" means a fee that shall be paid by the owner for any racehorse domiciled in the State of California.

5706. "Tax year" means the period beginning with the first day of July of one calendar year and ending on the last day of June of the calendar year next following.

5708. "Tax quarter" means each consecutive period of three calendar months following the beginning of the tax year.

5709. "Acquired" means a transfer of legal or equitable title. "Acquired" shall not include a transfer of an interest as security for a loan.

5710. "Stallion" means any racehorse which has at any time serviced three or more different broodmares for the purpose of producing a racehorse.

5711. "Producing broodmare" means a racehorse mare

which, during the previous tax year, has produced a live foal.

5712. "Nonproducing broodmare" means a racehorse mare which has not produced a live foal during the previous tax year.

5713. "Stakes-winning broodmare" is one which has won a race with a purse to which owners of participating horses have contributed nomination or entry fees.

5714. "Stakes-producing broodmare" is one which has won a race with a purse to which owners of participating horses have contributed nomination or entry fees.

5715. "Stakes yearling" means a racehorse which was foaled prior to January 1 of previous tax year by a stakes winning or stakes producing broodmare.

5716. "Yearling" means a racehorse which was foaled prior to January 1 of the previous tax year.

5717. "Active racehorse" means a racehorse which has participated in a horseracing contest on which parimutuel wagering was permitted during the previous tax year.

5718. "Nonactive racehorse" means any racehorse which has not participated in any horseracing contest on which parimutuel wagering was permitted during the previous tax year.

5719. "Live foal" means a foal which has lived for a period of three days or more.

5720. "Stud fee" is the sum of money charged by a stallion owner for the mating of his stallion to a broodmare.

5720.5. "Stud fee classification" will be determined by the highest stud fee charged for the mating of a mare to a stallion during the prior tax year.

## CHAPTER 2. IMPOSITION OF TAX

5721. For the 1972–73 tax year and each tax year thereafter, on the privilege of breeding, training, caring for or racing a racehorse in this state, there is hereby imposed an annual fee on such horses to be paid by racehorse owners for such racehorses domiciled in this state, which shall be in lieu of any property tax on racehorses subject to taxation pursuant to this part.

5722. The annual fee is imposed on and shall be paid by the owner on the following basis:

5723. With respect to racehorses within this state, the taxable situs of a racehorse shall be the place where the racehorse is quartered or domiciled when not racing or in training at a racetrack.

## CHAPTER 3. EXEMPTIONS

5741. Foals born to a racehorse mare during any tax quarter shall be exempt from the taxes imposed by this part or by any other part of this code for such tax quarter.

5742. A racehorse that does not participate in a horserace contest on which parimutuel wagering is permitted within two consecutive previous tax years and is not used for breeding purposes in order to produce racehorses shall not be considered a racehorse under the provisions of this part.

## CHAPTER 1762

*An act relating to exemptions from taxation.*

[Approved by Governor December 16, 1971. Filed with Secretary of State December 16, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. The Department of Finance is directed to prepare a report which contains an outline of the California tax structure describing the state and local revenue bases and their relationship to present deductions, credits, exclusions, exemptions and preferential rates designed to achieve various social and economic objectives but which constitute tax expenditures from the state and local revenue base.

The department's prepared report should contain a general statement as to the approximate amount, if precise figures or estimates are not available, of reduction in the tax base to either local government or to state general and special funds occurring by the operation of such deductions, credits, exclusions, exemptions and preferential rates. The department is authorized to request from the various agencies of the state whatever information is necessary to facilitate the completion of this portion of the report.

SEC. 2. The department shall include in its report recommendations of alternative means to enlarge upon the initial, exploratory report in future years and the estimated cost of each alternative. The department should also include recommendations of how this information may be utilized to improve the format of the budget. Information concerning tax expenditures should be related to the various levels of California government.

SEC. 3. The intent of this act is to explore an extension of the budget to include state and local tax expenditure made through the structure of the tax system. The present tax structure contains a number of special deductions, credits, exclusions, exemptions, and preferential rates. These provisions serve ends similar in nature to those served by direct state and local expenditures. A tax expenditure has an effect on the private economy and an impact on the budget surplus or deficiency as a direct increase in expenditures. But since tax expenditures are not disclosed in the budget, they are not exposed to the public and are not subject to needed annual scrutiny in the budgetary process. The Legislature intends that this report be a step toward the eventual inclusion in the annual state budget of tax expenditures through the tax structure.

SEC. 4. The report required by this act shall be submitted to the Legislature on or before March 30, 1972. After 1972, an updated report shall be submitted every two years on or before March 30.

SECTION 1. Section 293 is added to the Harbors and Navigation Code, to read:

293. Where damage arises out of, or is caused directly and proximately by, the acts of an owner or operator, without the interposition of any external or independent agency which was not or could not be foreseen, any owner or operator of any vessel engaged in the commercial transportation of petroleum or fuel oil shall be absolutely liable without regard to fault for any property damage incurred by the state or by any county, city or district, or by any person, within the state, and for any damage or injury to the natural resources of the state, including, but not limited to, marine and wildlife resources, caused

6304.1. Notwithstanding any other provision of law, any port district which has received, or is receiving, money pursuant to the provisions of Division 1 (commencing with Section 30) for the construction or improvement of a small craft harbor or facilities in connection therewith, may enter into a lease of a portion of its land and water area for the development of marine-oriented apartments and townhouses and boatslips. Slips shall be offered for lease to the general public on a first-come-first-served basis. Such lease may authorize the lessee to sublet individual dwelling units, but such lease shall not exceed a term of 50 years, after which time any improvements constructed pursuant to the lease shall revert to the district. Land rental units and boatslip facilities constructed pursuant to such lease shall be available to all persons on equal and reasonable terms. Any such lease shall contain express provisions requiring the lessee to provide for reasonable public access across the leased lands to adjacent port water areas.

(d) A district shall study and consider plans which would result in alternative pupil distributions which would remedy such an imbalance upon a finding by the Department of Education that the percentage of pupils of one or more racial or ethnic groups in a school differs significantly from the districtwide percentage. The Legislature recognizes that too frequently advanced education is denied to the welfare parent, minority parent, single parent, the low-income parent, and to the older parent due to the lack of such facilitating services such as child care.

It is in an effort to provide the greatest public educational opportunities to the greatest number of California citizens, regardless of age or condition in life, that the Legislature intends to encourage the development of such ancillary services as child care centers.

It is the intent of the Legislature that the University of California, the California State Colleges, and the California Community Colleges work with private groups for the establishment of child care centers, including children's centers, on or near their respective campuses.

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 1.5 (commencing with Section 24180) is added to Division 20 of the Health and Safety Code, to read:

### CHAPTER 1.5. NOISE POLLUTION

24180. The Legislature, recognizing the growing problem of noise pollution throughout the state and that we are daily assaulted with increased noise from advancing technology, machines, vehicles, and human clamor, declares that excessive noise must be considered a degradation of our environment and a health hazard to our citizens.

The Legislature further declares that it is particularly concerned that the proposed supersonic transport aircraft may significantly increase the noise level in the areas surrounding our state's airports unless preventive legal sanctions are invoked.

The Legislature is compelled to enact a noise limit for aircraft landing in the state, as a necessary and proper function of its police powers, in order to protect the health and welfare of the citizens of this state.

24181. (a) Except in an emergency situation, no private or commercial aircraft entering commercial service after the effective date of this section may land or take off within the state if it produces noise in excess of the federal certification limits for subsonic jet transport aircraft as set forth in Title 14, Code of Federal Regulations, Part 36.

(b) The prohibition contained in this section shall not apply in the case of an aircraft of a type or class manufactured or in production on or before the effective date of this section where the manufacture of such aircraft is ordered and the aircraft is delivered for commercial service no later than three years after the effective date of this section.

## CHAPTER 1771

*An act to amend Sections 19577 and 19578 of, and to add Sections 19579 and 19580 to, the Welfare and Institutions Code, relating to rehabilitation, and declaring the urgency thereof, to take effect immediately.*

*The people of the State of California do enact as follows:*

SECTION 1. Section 19577 of the Welfare and Institutions Code is amended to read:

19577. Commodities which are manufactured by the nonprofit corporation operating California Industries for the Blind and offered for sale at the fair market price as determined by the Department of General Services which meet the specifications required for such products, and which are to be procured by or for the state, shall be procured from the nonprofit corporation operating California Industries for the Blind without advertising or calling for bids.

SEC. 2. Section 19578 of the Welfare and Institutions Code is amended to read:

19578. Any city or county, political subdivision, or district of this state may, without advertising or calling for bids, purchase materials and supplies manufactured by the nonprofit corporation operating California Industries for the Blind.

19579. It is the intent of the Legislature to encourage state organizations, cities, counties, districts, and other political subdivisions to purchase products manufactured by the nonprofit corporation operating California Industries for the Blind whenever it is feasible to do so and the proximity of the blind rehabilitation facility makes such purchases reasonably convenient.

SEC. 4. Section 19580 is added to the Welfare and Institutions Code, to read:

19580. Notwithstanding any other provision of law, in order to implement the provisions of Sections 19019, 19021, 19022 and 19023 to enhance the programs for the blind and to minimize the disruptions which might be caused by the assumption by the private sector of the operations, present and former state civil service and non-civil-service employees of the Department of Rehabilitation assigned to the California Industries for the Blind and opportunity work centers may participate in the formation and management of nonprofit corporations for the purpose of assuming operations of the California Industries for the Blind and the opportunity work centers providing they sever any and all employment relationship with the state prior to the effective date of the contract with the nonprofit corporations.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It has been determined that the California Industries for the Blind and the opportunity work centers should be operated by nonprofit corporations within the private sector rather than by the state. This measure is essential to effecting this change.

The employment of nearly 200 blind and other disabled persons is involved and the passage of this act will enable private enterprise to assume control of these functions at the earliest possible time, thereby continuing and enhancing the employment and earning capacity of the employees involved.

1175. The Legislature finds and declares that improving the efficiency and effectiveness of the delivery of health care in publicly and privately financed health care programs is of critical importance, and that present methods of delivery often do not provide for continuing efficient and comprehensive health care.

It is the purpose of this part to provide financial and technical assistance through loans to health service institutions and organizations, which will stimulate and enable such institutions and organizations to plan, develop, and implement health maintenance organizations for the efficient delivery and provision of health care.

1176. Unless the context otherwise requires, the definitions in this section govern the construction of this part:

(a) "Department" means the State Department of Health Care Services.

(b) "Director" means the Director of Health Care Services.

(c) "Medi-Cal" means the program for providing health care as specified in the Medi-Cal Act in Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code.

(d) "Health maintenance organization" means an organization which provides basic health care, including at least the following:

(1) Inpatient hospital services;

(2) Outpatient hospital services;

(3) Laboratory and X-ray services;

(4) Physician services;

(5) Prescribed drugs.

(e) "Subscriber" means a person who receives health care services from a health maintenance organization.

1177. The director is authorized to make loans and to provide technical assistance, as provided in this part, to enable persons to plan and develop health maintenance organizations in accordance with the purpose of this part, and to assist health maintenance organizations to become self-supporting.

1178. A health maintenance organization is eligible for assistance under this part if it satisfies all of the following requirements:

(a) Persons receiving services from the health maintenance organization are enrolled as subscribers on the basis of contractual arrangements. In the case of a subscriber who is eligible for health care through Medi-Cal, such contract shall be with the department.

(b) Such organization is designed to the maximum extent feasible to make all health care services readily accessible to persons residing within its service area.

(c) All persons residing within the service area are eligible to become subscribers of the health maintenance organization, except that the number of persons may be limited as follows:

(1) All persons eligible for health care under Medi-Cal shall be given priority for enrollment, and the health maintenance organization shall make all reasonable efforts to have Medi-Cal beneficiaries constitute at least 20 percent of their total enrollment;

(2) The health maintenance organization shall avoid overtaxing its resources.

(d) All health services are provided by providers or other persons who meet the standards for providers imposed by the Medi-Cal Act.

(e) The health maintenance organization provides a system of monitoring the quality of care it delivers according to standards set by the department.

(f) The health maintenance organization owns or is affiliated with sufficient nondenominational hospital resources to meet the needs of its subscribers.

(g) Persons who do, or who may, receive services from the organization have at least an advisory role in its planning development and operation.

(h) The health maintenance organization receives payment from its subscribers, and in the case of subscribers eligible for health care through Medi-Cal, from the department, on the basis of a premium paid to cover the cost of providing health care services for a specific period of time in the future.

(i) The health maintenance organization has adequate financial resources to carry out its contract obligations. For the purposes of this section, "adequate financial resources" shall be the minimum tangible net equity required of health care service plans pursuant to Section 12539 of the Government Code.

1179. Health maintenance organizations receiving assistance under this part shall furnish to the director such timely information and reports as he may find necessary. The organization shall maintain such records and provide access thereto as the director finds necessary to verify such information and reports.

1180. Pursuant to the authority granted in Section 1182, the director may fund a nonprofit, nondenominational health facility by the device of a nonprofit corporation composed of representatives of the health interests in the community and a broad representation of the community at large. This health corporation shall assume responsibility for the following:

(a) Determining and assessing the on-going health needs of the community, formulating a program to meet such needs, including, but not limited to, an identification of both public and private funds which may be available for this purpose.

(b) Establishing an information and referral system, including innovative methods of health education.

(c) Coordinating health activities where appropriate, and establishing better utilization of existing health facilities, programs, and services with particular emphasis to be placed on health manpower training projects.

(d) Laying the foundation for a community health maintenance organization.

(e) Promoting, development, and expansion of preventive and outpatient services, with the objective of replacing crisis medicine with an integrated, comprehensive system of health care.

1181. Recognizing the special needs of disadvantaged persons in the community, a health corporation funded pursuant to Section 1180 shall implement or enable activity through, or in conjunction with, citizens' groups representing those persons who are outside the medical care system, or who are not able to take part or full advantage of existing facilities.

1182. The director is authorized to contract with health maintenance organizations to make loans to pay a reasonable amount of the administrative, operational, and maintenance costs which exceed the income of the organization for the first three years of its operation.

The director may specify the terms of such contract but the principal plus interest shall be repaid within 10 years after the date of execution of the contract.

The interest on the loans shall be 3 percent per annum and shall begin to accrue five years after the health maintenance organization begins its operation.

If at any time the health maintenance organization is not making reasonable progress toward becoming self-supporting, the director may, after a hearing, terminate the loan on not less than six months' notice.

SEC. 2. As of June 30, 1972, up to but not to exceed five hundred thousand dollars ($500,000) of the unexpended balance of the appropriation made by Item 229, Budget Act of 1971, is appropriated to the Department of Health Care Services for expenditure without regard to fiscal years by the department in carrying out the purposes of Part 3 (commencing with Section 1175) of Division 1 of the Health and Safety Code.

## CHAPTER 1783

[Approved by Governor December 16, 1971. Filed with Secretary of State December 16, 1971 ]

*The people of the State of California do enact as follows:*

SECTION 1. Section 20816 of the Education Code is amended to read:

20816. (a) The maximum rate of school district tax, including any maximum rate fixed pursuant to Section 20803, is increased in any fiscal year for any school district situated wholly or in part within a county which, in the 1968–1969 fiscal year, household furnishings and personal effects were enrolled on the county assessment roll.

(b) The increase in maximum tax rate shall be in an amount equal to the 2 percent of the total of the school district tax rates at which property taxes were levied and collected for purposes of the district during the 1968–1969 fiscal year, but subject to the provisions of subdivision (c).

(c) On or before the first day of February in any year, the governing board of the district may submit a petition to the county superintendent of schools requesting that officer to fix the maximum tax rate of the district for the next succeeding fiscal year at a rate higher than that provided for in subdivision (b). The petition shall demonstrate, on the basis of the best information available to the governing board, that the net loss in revenue which would have resulted to the district in the 1968–1969 fiscal year if household furnishings and personal effects had been exempted from property taxation, taking into consideration increases in state equalization aid which would have accrued to the district as result thereof, exceeds the revenues produced by the increase in maximum tax rate provided for in subdivision (b).

The assessor shall estimate the total amount of assessed value lost by reason of the exemption for household furnishings and personal effects between the 1968–1969 and 1969–1970 fiscal years and shall certify his findings to the county auditor and the county superintendent of schools. The county superintendent of schools shall estimate the amount of equalization aid to be received by the district on the basis of the loss in assessed value certified by the assessor. The county auditor shall apply the tax rate of the district for the 1968–1969 fiscal year to the amount of assessed value determined by the assessor and from the amount computed shall subtract the amount certified by the county superintendent of schools. The tax rate of the district for this purpose shall then be computed by determining the rate which will reflect this remaining amount. The district shall be bound by this determination of the auditor, whether it is more than, or less than, the amount of increase authorized by subdivision (b).

This subdivision (c) shall not apply to any district which has not first availed itself of this subdivision on or before February 1, 1972.

SEC. 2. Section 23704.5 is added to the Revenue and Taxation Code, to read:

23704.5. For purposes of Section 23701d, a corporation shall not be deemed to be organized and operated exclusively for educational purposes, if:

(a) The corporation operates a laundry facility; and

(b) The corporation provides laundry service to the public for compensation.

This section shall not apply to a corporation organized and operated exclusively for educational purposes, if such corporation provides laundry service solely for the staff and students of such corporation, whether or not such service is provided for compensation.

SEC. 3. Section 35 of Chapter 1 of the Statutes of 1968, First Extraordinary Session, is amended to read:

Sec. 35. Notwithstanding any other provision of law to the contrary, the maximum tax rates of all cities and districts within the state with maximum tax rates established by law

and which are located in a county in which household furnishings and personal effects were on the county assessment roll for the 1968–1969 assessment year are increased in accordance with the provisions of this section.

(a) The amount of the increase shall be 2 percent of the rate of the city or district for the 1968–1969 fiscal year on all property subject to taxation by the city or district during such fiscal year, including household furnishings and personal effects, unless the provisions of subdivision (b) apply.

(b) On or before the first day of February of any year, the legislative body of the city or district may, by resolution, request an increase in the city or district's maximum tax rate above the increase allowed by subdivision (a). Upon receipt of such a resolution, the assessor shall estimate the total amount of assessed value lost by reason of the exemption for household furnishings and personal effects between the 1968–1969 and 1969–1970 fiscal years and shall certify his finding to the county auditor. The county auditor shall apply the tax rate of the city or district for the 1968–1969 fiscal year to the amount of assessed value determined by the assessor. The tax rate of the city or district shall then be computed by determining the rate which will reflect this amount. The city or district shall be bound by this determination of the auditor, whether it is more than, or less than, the amount of increase authorized by subdivision (a). This subdivision (b) shall not apply to any district which has not first availed itself of this subdivision on or before February 1, 1972.

This section shall not apply to school districts.

It is the purpose of this section to permit local government to make up revenue lost by reason of the exemption for household furnishings and personal effects.

SEC. 4. Section 2 of this act shall be applied for income years beginning after December 31, 1971.

This sum shall be used at and by the University of California solely for the advancement of optometrical research and the maintenance and support of the department at the university in which the science of optometry is taught.

The balance of each renewal fee shall be paid into the Optometry Fund.

SEC. 13. Section 3152 of the Business and Professions Code is amended to read:

3152. The amount of fees and penalties prescribed by this chapter shall be fixed by the board in amounts not greater than those specified in the following schedule:

(a) The fee for applicants applying for the first time for a certificate of registration who present credentials of graduation from optometry schools in California is a maximum of fifty dollars ($50) which shall not be refunded, except that applicants who are found ineligible to take an examination for a certificate of registration are entitled to a refund of a maximum of forty dollars ($40).

[Approved by Governor December 16, 1971. Filed with Secretary of State December 16, 1971.]

SEC. 3. Chapter 5.6 (commencing with Section 1461) is added to Part 1 of Division 1 of the Unemployment Insurance Code, to read:

## CHAPTER 5.6. UNEMPLOYMENT COMPENSATION FOR COUNTY EMPLOYEES

1461. Except as provided in this chapter, a county employee shall, upon the request of the board of supervisors of the county submitted to the director, be eligible for unemployment compensation benefits on the same terms and conditions as are specified by this part, Part 3 (commencing with Section 3501) of this division, and Part 4 (commencing with Section 4001) of this division, for all other individuals. The employees of a county may submit to the board of supervisors a petition, signed by a majority of such employees, requesting the board to submit a request to the director to become eligible for such benefits. Except as inconsistent with the provisions of this chapter, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this chapter. A county employee shall have no rights, based on county wages, to disability benefits under this division.

1462. A county employee may use county wages for benefits under this chapter only with respect to the benefit year established by the first new claim for benefits after his termination from employment with the county. No new claim for

benefits under this chapter shall have an effective date beginning earlier than the effective date of this chapter.

1463. As used in this chapter:

(a) "County employee" means any individual employed by a county in this state, whether or not such employment is in civil service, and who (1) receives a notice of layoff with an effective date on or after March 1, 1971, or (2) terminates his employment on or after March 1, 1971, after being notified in writing by his appointing authority that he is subject to layoff or mandatory transfer in his class or location, due to a reduction in staff arising from reductions in any budget act, or any other source of funds or due to a reduction in staff for reasons of economy or due to a reduction in staff resulting from organizational changes or reduced workload. However, nothing in this subdivision shall permit a county employee to receive unemployment compensation benefits if he would be ineligible for or disqualified to receive such benefits under Article 1 (commencing with Section 1251) of Chapter 5 of this part.

(b) "County wages" means all remuneration payable to a county employee for personal services as a county employee, including the reasonable cash value of all remuneration payable in any medium other than cash, and includes all such remuneration paid on and after April 1, 1970.

(c) "County base period" means the period of the last four complete consecutive calendar quarters, and any subsequent complete and partial calendar month or months, immediately preceding the effective date of a new claim for unemployment compensation benefits by a county employee.

(d) "Base period" means the base period defined by Section 1275.

1464. County wages shall be included as wages for the purposes of this part in the base period of a county employee. The lump sum or other payment of accrued unused vacation pay at termination from county employment shall be wages for the purposes of this chapter, and shall be allocated to the period following termination at the individual's rate of pay at termination from county employment.

1465. If the inclusion of county wages and wages in employment paid during the base period of a county employee do not result in a claim for a maximum benefit amount and a maximum weekly benefit amount under this part, the claim shall be recomputed on the basis of county wages paid to or owing but unpaid to the county employee during his county base period and wages in employment paid to him during that portion of his base period that is included in his county base period. He shall be entitled to an award for his claim for the higher of the benefit amounts so computed.

1466. (a) In lieu of the contributions required of employers, each county in the state shall pay into the Unemployment Fund in the State Treasury, at the times and in the manner provided in subdivision (b), an amount equal to the additional cost to the Unemployment Fund of the benefits (including ex-

tended duration benefits and federal-state extended benefits) paid based on base period county wages or county base period county wages with respect to employment of county employees. Benefits otherwise payable, irrespective of this chapter, shall be charged to employers' reserve accounts in accordance with other sections of this part and shall be the liability of governmental entities or nonprofit organizations pursuant to Sections 710, 711, and 713, but the additional cost to the Unemployment Fund of the benefits paid based on base period county wages or county base period county wages pursuant to this chapter shall be borne solely by the involved county.

(b) In making the payments prescribed by subdivision (a), there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each county under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the Controller the amount determined with respect to each county in the state. The Controller shall pay to the Unemployment Fund the contributions due from each county in the state.

(c) The director may require from each county such employment, wage, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this chapter, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this chapter in statistical form and may divulge the name of the employing county.

(e) Each county shall keep such work records as may be prescribed by the director for the proper administration of this chapter.

(f) Notwithstanding any other provision of law, no county shall be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the state.

1467. This chapter shall not apply with respect to service performed after December 31, 1971 in the employ of a county for a hospital or an institution of higher education, as defined by Section 605.1, nor shall such provisions apply to any new claim for benefits filed with an effective date beginning on or after January 1, 1972, which includes in the base period or county base period any county wages paid with respect to such service performed after December 31, 1971.

SEC. 4. Section 1464 is added to the Unemployment Insurance Code, to read:

1464. County wages shall be included as wages for the purposes of this part in the base period of a county employee.

SEC. 5. Section 1466 is added to the Unemployment Insurance Code, to read:

1466. (a) In lieu of the contributions required of employers, each county in the state shall pay into the Unemployment Fund in the State Treasury, at the times and in the manner provided in subdivision (b), an amount equal to the additional cost to the Unemployment Fund of the benefits (including extended duration benefits and federal-state extended benefits) paid based on base period county wages or county base period county wages with respect to employment of county employees. Benefits otherwise payable, irrespective of this chapter, shall be charged to employers' reserve accounts in accordance with other sections of this part and shall be the liability of governmental entities or nonprofit organizations pursuant to Section 803 but the additional cost to the Unemployment Fund of the benefits paid based on base period county wages or county base period county wages pursuant to this chapter shall be borne solely by the involved county.

(b) In making the payments prescribed by subdivision (a), there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each county under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the Controller the amount determined with respect to each county in the state. The Controller shall pay to the Unemployment Fund the contributions due from each county in the state.

(c) The director may require from each county such employment, wage, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this chapter, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this chapter in statistical form and may divulge the name of the employing county.

(e) Each county shall keep such work records as may be prescribed by the director for the proper administration of this chapter.

(f) Notwithstanding any other provision of law, no county shall be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the state.

SEC. 6. It is the intent of the Legislature, if this bill and Senate Bill No. 746 are both chaptered and this bill is chaptered after Senate Bill No. 746, that the amendments proposed by both bills be given effect and incorporated in Section 1464 of the Unemployment Insurance Code in the form set forth in Section 4 of this act. Therefore, Section 4 of this act shall become operative only if this bill and Senate Bill No. 746 are both chaptered and Senate Bill No. 746 is chaptered before this bill, in which case the provisions of Section 1464 as added to the Unemployment Insurance Code by Section 3 of this act shall be operative only with respect to payments of vacation pay made prior to the 61st day after final adjournment of the 1971 Regular Session, and the provisions of Section 1464 as added to the Unemployment Insurance Code by Section 4 of this act shall be operative only with respect to payments of vacation pay made on or after the 61st day after final adjournment of the 1971 Regular Session.

SEC. 7. The provisions of Section 1466 as added to the Unemployment Insurance Code by Section 3 of this act shall be operative only with respect to service performed on or before December 31, 1971, and the provisions of Section 1466 as added to the Unemployment Insurance Code by Section 5 of this act shall be operative with respect to service performed after December 31, 1971.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many counties are in financial straits and are contemplating the layoff of some of their employees. It would be very difficult for such counties to get a majority of their employees to elect disability coverage as well as unemployment compensation coverage. Therefore, it is necessary that this act go into effect as quickly as possible to permit a county's employees to elect unemployment compensation coverage only, so as to provide such dismissed employees with unemployment benefits.

The Superintendent of Public Instruction shall establish standards with respect to such regional programs for the pilot project which shall include, among other things, the curriculum to be offered, the area to be served, and the supervision and instruction with respect to the programs. Of the school district applicants which meet the standards established, the Department of Education may designate not more than four school districts to receive apportionments as part of the pilot project to maintain regional programs for physically exceptional children.

The Department of Education shall provide for state evaluation of the pilot project and shall report to the Legislature on an annual basis as to the success of the project and shall make a final report on or before the fifth calendar day of the 1976 Regular Session.

With respect to school districts selected as part of the pilot project, the State Allocation Board may approve applications and make apportionments pursuant to Section 19683.5, notwithstanding that the school district is serving a district or districts with an average daily attendance in excess of 8,000.

In any school year in which 50 percent or more of the pupils in average daily attendance, as determined by the county superintendent of schools, and served by such facilities are not pupils from districts other than the applicant district, the repayment for the succeeding fiscal year shall be an amount which would have been payable if such district had been required to repay 100 percent of the apportionment over such period.

The districts participating in a pilot project may include in interdistrict attendance agreements the cost of making repayments in the same proportion to the total repayment as the number of pupils enrolled from each district bears to the total number of pupils enrolled.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to have sufficient time to prepare the pilot project authorized by this act for the 1972–1973 school year, it is necessary that this act take effect immediately.

SEC. 13. It is the intent of the Legislature that if this bill and Assembly Bill No. 628, Assembly Bill No. 2814, or Senate Bill No. 542, or any combination thereof, are chaptered, and this bill and Assembly Bill No. 628 amend Section 11391 of the Health and Safety Code, and if either Senate Bill No. 542 or Assembly Bill No. 2814, or both of those bills, are chaptered and repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, and this bill is chaptered last, that the changes in the law proposed by each of the bills which are chaptered be given effect as follows:

(a) If this bill and Assembly Bill No. 628 are both chaptered and amend Section 11391 of the Health and Safety Code, but Assembly Bill No. 2814 and Senate Bill No. 542 are not chaptered, or as chaptered do not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, and this bill is chaptered after Assembly Bill No. 628, the amendments proposed by both bills shall be given effect and incorporated in Section 11391 in the form set forth in Section 2 of this act. Therefore, if Assembly Bill No. 628 is chaptered before this bill, and both bills amend Section 11391 of the Health and Safety Code, and Assembly Bill No. 2814 and Senate Bill No. 542 are not chaptered, or as chaptered do not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, Section 2 of this act shall become operative, and Section 1 and Sections 3 to 6, inclusive, of this act shall not become operative.

and Safety Code, but Assembly Bill No. 628 is not chaptered (or as chaptered does not amend Section 11391 of the Health and Safety Code), and Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and this bill is chaptered after Assembly Bill No. 2814, then Section 11391 of the Health and Safety Code, as amended by Section 1 of this act, shall remain operative only until the operative date of Assembly Bill No. 2814, and, on the operative date of Assembly Bill No. 2814 Section 11391 of the Health and Safety Code, as amended by Section 1 of this act is repealed, and Section 11217 of the Health and Safety Code, as proposed by Assembly Bill No. 2814, is amended in the form set forth in Section 3 of this act to incorporate the changes in the law proposed by this act. Therefore, Section 3 of this act shall become operative only if Assembly Bill No. 2814 is chaptered before this bill and repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 628 is not chaptered (or as chaptered does not amend Section 11391 of the Health and Safety Code), and Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and in such case Section 3 of this act shall become operative on the operative date of Assembly Bill No. 2814, and Section 2 and Sections 4 to 6, inclusive, of this act shall not become operative.

(c) If this bill and Senate Bill No. 542 are both chaptered, and this bill amends Section 11391 of the Health and Safety Code, and Senate Bill No. 542 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 628 is not chaptered (or as chaptered does not amend Section 11391 of the Health and Safety Code), and Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and this bill is chaptered after Senate Bill No. 542, then Section 11391 of the Health and Safety Code, as amended by Section 1 of this act, shall remain operative only until the operative date of Senate Bill No. 542, and, on the operative date of Senate Bill No. 542 Section 11391 of the Health and Safety Code, as amended by Section 1 of this act is repealed, and Section 11217 of the Health and Safety Code, as proposed by Senate Bill No. 542, is amended in the form set forth in Section 4 of this act to incorporate the changes in the law proposed by this act. Therefore, Section 4 of this act shall

become operative only if Senate Bill No. 542 is chaptered before this bill and repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 628 is not chaptered (or as chaptered does not amend Section 11391 of the Health and Safety Code), and Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and in such case Section 4 of this act shall become operative on the operative date of Senate Bill No. 542, and Sections 2, 3, 5, and 6 of this act shall not become operative.

(d) If this bill and Assembly Bill No. 628 and Assembly Bill No. 2814 are all chaptered, and this bill and Assembly Bill No. 628 amend Section 11391 of the Health and Safety Code, and Assembly Bill No. 2814 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and this bill is chaptered after Assembly Bill No. 628 and Assembly Bill No. 2814, the amendments to Section 11391 of the Health and Safety Code proposed by this act and Assembly Bill No. 628 shall be given effect and incorporated in Section 11391 in the form set forth in Section 2 of this act, which shall remain operative only until the operative date of Assembly Bill No. 2814, and, on the operative date of Assembly Bill No. 2814 Section 11391 of the Health and Safety Code, as amended by Section 2 of this act is repealed, and Section 11217 of the Health and Safety Code, as proposed by Assembly Bill No. 2814, is amended in the form set forth in Section 5 of this act to incorporate the changes in the law proposed by this act and Assembly Bill No. 628 and Assembly Bill No. 2814. Therefore, Section 5 of this act shall become operative only if this act and Assembly Bill No. 628 and Assembly Bill No. 2814 are all chaptered, and this act and Assembly Bill No. 628 amend Section 11391 of the Health and Safety Code, and Assembly Bill No. 2814 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and this act is chaptered after Assembly Bill No. 628 and Assembly Bill No. 2814, and in such case Section 5 of this act shall become operative on the operative date of Assembly Bill No. 2814, and Sections 1, 3, 4, and 6 of this act shall not become operative.

(e) If this bill and Assembly Bill No. 628 and Senate Bill No.

542 are all chaptered, and this bill and Assembly Bill No. 628 amend Section 11391 of the Health and Safety Code, and Senate Bill No. 542 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and this bill is chaptered after Assembly Bill No. 628 and Senate Bill No. 542, the amendments to Section 11391 of the Health and Safety Code proposed by this act and Assembly Bill No. 628 shall be given effect and incorporated in Section 11391 in the form set forth in Section 2 of this act, which shall remain operative only until the operative date of Senate Bill No. 542, and, on the operative date of Senate Bill No. 542 Section 11391 of the Health and Safety Code, as amended by Section 2 of this act is repealed, and Section 11217 of the Health and Safety Code, as proposed by Senate Bill No. 542, is amended in the form set forth in Section 6 of this act to incorporate the changes in the law proposed by this act and Assembly Bill No. 628 and Senate Bill No. 542. Therefore, Section 6 of this act shall become operative only if this act and Assembly Bill No. 628 and Senate Bill No. 542 are all chaptered, and this act and Assembly Bill No. 628 amend Section 11391 of the Health and Safety Code, and Senate Bill No. 542 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and this act is chaptered after Assembly Bill No. 628 and Senate Bill No. 542, and in such case Section 6 of this act shall become operative on the operative date of Senate Bill No. 542, and Section 1 and Sections 3 to 5, inclusive, of this act shall not become operative.

SEC 14. It is the intent of the Legislature that if this bill and Assembly Bill No. 561, Assembly Bill No. 2814, or Senate Bill No. 542, or any combination thereof, are chaptered, and this bill amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and if either Assembly Bill No. 2814 or Senate Bill No. 542, or both of those bills, are chaptered and repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, and this bill is chaptered last, that the changes in the law proposed by each of the bills which are chaptered be given effect as follows:

(a) If this bill and Assembly Bill No. 561 are both chaptered

and this bill amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, but Assembly Bill No. 2814 and Senate Bill No. 542 are not chaptered (or as chaptered do not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code), and this bill is chaptered after Assembly Bill No. 561, the amendments proposed by both bills shall be given effect and incorporated in Section 11655.12 of the Health and Safety Code as enacted in the form set forth in Section 8 of this act. Therefore, if Assembly Bill No. 561 is chaptered before this bill, and this bill amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 2814 and Senate Bill No. 542 are not chaptered (or as chaptered neither repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code), Section 8 of this act shall become operative and Section 7 and Sections 9 to 12, inclusive, of this act shall not become operative.

(b) If this bill and Assembly Bill No. 2814 are both chaptered, and this bill amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 2814 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 561 is not chaptered (or as chaptered does not amend and renumber Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970), and Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and this bill is chaptered after Assembly Bill No. 2814, then Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, as amended by Section 7 of this act, shall remain operative only until the operative date of Assembly Bill No. 2814, and, on the operative date of Assembly Bill No. 2814, Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, as amended by Section 7 of this act, is repealed, and Section 11482 of the Health and Safety Code, as proposed by Assembly Bill No. 2814, is amended in the form set forth in Section 9 of this act to incorporate the changes in the law proposed by this act. Therefore, Section 9 of this act shall become operative only if Assembly Bill No. 2814 is chaptered before this bill and repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety

Code, but Assembly Bill No. 561 is not chaptered (or as chaptered does not amend Section 11655.7 and renumber of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970), and Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and in such case Section 9 of this act shall become operative on the operative date of Assembly Bill No. 2814, and Section 8 and Sections 10 to 12, inclusive, of this act shall not become operative.

(c) If this bill and Senate Bill No. 542 are both chaptered, and this bill amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Senate Bill No. 542 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 561 is not chaptered (or as chaptered does not amend and renumber Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970), and Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and this bill is chaptered after Senate Bill No. 542, then Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, as amended by Section 7 of this act, shall remain operative only until the operative date of Senate Bill No. 542, and, on the operative date of Senate Bill No. 542, Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, as amended by Section 7 of this act, is repealed, and Section 11482 of the Health and Safety Code, as proposed by Senate Bill No. 542, is amended in the form set forth in Section 10 of this act to incorporate the changes in the law proposed by this act. Therefore, Section 10 of this act shall become operative only if Senate Bill No. 542 is chaptered before this bill and repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 561 is not chaptered (or as chaptered does not amend and renumber Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970), and Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and in such case Section 10 of this act shall become operative on the operative date of Senate Bill No. 542, and Sections 8, 9, 11, and 12 of this act shall not become operative.

(d) If this bill and Assembly Bill No. 561 and Assembly Bill No. 2814 are all chaptered, and this bill amends Section

11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 2814 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and this bill is chaptered after Assembly Bill No. 561 and Assembly Bill No. 2814, the amendment and renumbering of Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, proposed by this act and Assembly Bill No. 561 shall be given effect and incorporated in Section 11655.12 of the Health and Safety Code as enacted in the form set forth in Section 8 of this act, which shall remain operative only until the operative date of Assembly Bill No. 2814, and, on the operative date of Assembly Bill No. 2814, Section 11655.12 of the Health and Safety Code, as enacted by Section 8 of this act is repealed, and Section 11482 of the Health and Safety Code, as proposed by Assembly Bill No. 2814, is amended in the form set forth in Section 11 of this act to incorporate the changes in the law proposed by this act and Assembly Bill No. 561 and Assembly Bill No. 2814. Therefore, Section 11 of this act shall become operative only if this act and Assembly Bill No. 561 and Assembly Bill No. 2814 are all chaptered, and this act amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 2814 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Senate Bill No. 542 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Assembly Bill No. 2814), and this act is chaptered after Assembly Bill No. 561 and Assembly Bill No. 2814, and in such case Section 11 of this act shall become operative on the operative date of Assembly Bill No. 2814, and Sections 7, 9, 10, and 12 of this act shall not become operative.

(e) If this bill and Assembly Bill No. 561 and Senate Bill No. 542 are all chaptered, and this bill amends Section 11655.7 of the Health and Safety Code, as amended by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Senate Bill No. 542 repeals and adds Division 10 (commencing with

Section 11000) of the Health and Safety Code, but Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) of the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and this bill is chaptered after Assembly Bill No. 561 and Senate Bill No. 542, the amendment and renumbering of Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, proposed by this act and Assembly Bill No. 561 shall be given effect and incorporated in Section 11655.12 of the Health and Safety Code as enacted in the form set forth in Section 8 of this act, which shall remain operative only until the operative date of Senate Bill No. 542, and, on the operative date of Senate Bill No. 542, Section 11655.12 of the Health and Safety Code, as enacted by Section 8 of this act is repealed, and Section 11482 of the Health and Safety Code, as proposed by Senate Bill No. 542, is amended in the form set forth in Section 12 of this act to incorporate the changes in the law proposed by this act and Assembly Bill No. 561 and Senate Bill No. 542. Therefore, Section 12 of this act shall become operative only if this act and Assembly Bill No. 561 and Senate Bill No. 542 are all chaptered, and this act amends Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Assembly Bill No. 561 amends and renumbers Section 11655.7 of the Health and Safety Code, as added by Chapter 1422 of the Statutes of 1970, and Senate Bill No. 542 repeals and adds Division 10 (commencing with Section 11000) of the Health and Safety Code, but Assembly Bill No. 2814 is not chaptered (or as chaptered does not repeal and add Division 10 (commencing with Section 11000) to the Health and Safety Code, or has a lower chapter number than Senate Bill No. 542), and this act is chaptered after Assembly Bill No. 561 and Senate Bill No. 542, and in such case Section 12 of this act shall become operative on the operative date of Senate Bill No. 542, and Section 7 and Sections 9 to 11, inclusive, of this act shall not become operative.

## CHAPTER 1798

*An act to amend Section 190 of the Streets and Highways Code, relating to the financing of grade separation projects, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.*

[Approved by Governor December 17, 1971 Filed with Secretary of State December 17, 1971]

*The people of the State of California do enact as follows:*

SECTION 1. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1, commencing with the 1972–1973 fiscal year, the sum of ten million dollars ($10,000,000) shall be set aside for allocations to grade separation projects, including the elimination of grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of grade separations, of separation of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite

to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section. In financing its share of the project cost, the local agency may use any funds available to it. Notwithstanding any other provision of law, when the local agency uses funds derived from the TOPICS Program, pursuant to Chapter 6 (commencing with Section 2300) of Division 3 of the Streets and Highways Code in financing its share of the project cost, the allocation to be made pursuant to this section shall be computed as though such local agency contribution was derived from nonfederal sources and shall be computed as though the railroad had made its contribution pursuant to state law rather than pursuant to federal law.

The department and the commission may make allocations from a succeeding fiscal year's sum set aside for purposes of this section on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The first five million dollars ($5,000,000) of the fund set aside by this section each fiscal year shall be available for allocation and expenditure without regard to fiscal year.

The department and the commission shall revert as of October 1st of each fiscal year any unallocated amount of the balance of the annual sum of ten million dollars ($10,000,000) set aside by this section for that fiscal year. Any other funds that may be set aside for the purposes of this section shall be allocated prior to the allocation of the above ten million dollars ($10,000,000) and shall be available for allocation and

expenditure without regard to fiscal years.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC. 2. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission and the department under Section 143.1, commencing with the 1972–1973 fiscal year, the sum of ten million dollars ($10,000,000) shall be set aside for allocations to grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of separations of grade districts, cities, cities and counties, and counties on county roads or city streets as

provided in Sections 189 to 191, inclusive. An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks and result in the removal or relocation of more than 6,000 feet of railroad tracks. An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time. Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project. In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section. In financing its share of the project cost, the local agency may use any funds available to it. Notwithstanding any other provision of law, when the local agency uses funds derived from the TOPICS Program, pursuant to Chapter 6 (commencing with Section 2300) of Division 3 of the Streets

and Highways Code in financing its share of the project cost, the allocation to be made pursuant to this section shall be computed as though such local agency contribution was derived from nonfederal sources and shall be computed as though the railroad had made its contribution pursuant to state law rather than pursuant to federal law.

The department and the commission may make allocations from a succeeding fiscal year's sum set aside for purposes of this section on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The first five million dollars ($5,000,000) of the fund set aside by this section each fiscal year shall be available for allocation and expenditure without regard to fiscal year.

The department and the commission shall revert as of October 1st of each fiscal year any unallocated amount of the balance of the annual sum of ten million dollars ($10,000,000) set aside by this section for that fiscal year. Any other funds that may be set aside for the purposes of this section shall be allocated prior to the allocation of the above ten million dollars ($10,000,000) and shall be available for allocation and expenditure without regard to fiscal years.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of

the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill No. 1587 are both chaptered and amend Section 190 of the Streets and Highways Code, and this bill is chaptered after Assembly Bill No. 1587, that Section 190 of the Streets and Highways Code, as amended by Section 1 of this act shall remain operative only until the operative date of Assembly Bill No. 1587, and that on the operative date of Assembly Bill No. 1587 Section 190 of the Streets and Highways Code as amended by Section 1 of this act be further amended in the form set forth in Section 2 of this act to incorporate the changes in Section 190 proposed by Assembly Bill No. 1587. Therefore, Section 2 of this act shall become operative only if Assembly Bill No. 1587 is chaptered before this bill and amends Section 190, and in such case Section 2 of this act shall become operative on the operative date of Assembly Bill No. 1587.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Funds for the elimination of an extremely dangerous highway railroad crossing will be lost if the provisions of this bill are not made operative at once. In order that this hazardous crossing may be eliminated immediately, it is necessary that this act take effect immediately.

During such time as an employee's salary remains above the maximum rate of pay for his class, he shall not receive further salary increases.

## CHAPTER 1800

*An act to amend Section 27706 of the Government Code, and to amend Sections 686, 859, and 987 of, and to add Section 686.1 to, the Penal Code, relating to criminal procedure.*

[Approved by Governor December 17, 1971. Filed with Secretary of State December 17, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 27706 of the Government Code is amended to read:

27706. The public defender shall perform the following duties:

(a) Upon request of the defendant or upon order of the court, he shall defend, without expense to the defendant, any person who is not financially able to employ counsel and who is charged with the commission of any contempt or offense triable in the superior, municipal or justice courts at all stages of the proceedings, including the preliminary examination. The public defender shall, upon request, give counsel and

advice to such person about any charge against him upon which the public defender is conducting the defense, and shall prosecute all appeals to a higher court or courts of any person who has been convicted, where, in his opinion, the appeal will or might reasonably be expected to result in the reversal or modification of the judgment of conviction.

(b) Upon request, he shall prosecute actions for the collection of wages and other demands of any person who is not financially able to employ counsel, where the sum involved does not exceed one hundred dollars ($100), and where, in the judgment of the public defender, the claim urged is valid and enforceable in the courts.

(c) Upon request, he shall defend any person who is not financially able to employ counsel in any civil litigation in which, in the judgment of the public defender, the person is being persecuted or unjustly harassed.

(d) Upon request, or upon order of the court, he shall represent any person who is not financially able to employ counsel in proceedings under Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

(e) Upon order of the court, he shall represent any person who is entitled to be represented by counsel but is not financially able to employ counsel in proceedings under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code.

SEC. 1.5. Section 27706 of the Government Code is amended to read:

27706. The public defender shall perform the following duties:

(a) Upon request of the defendant or upon order of the court, he shall defend, without expense to the defendant, any person who is not financially able to employ counsel and who is charged with the commission of any contempt or offense triable in the superior, municipal or justice courts at all stages of the proceedings, including the preliminary examination. The public defender shall, upon request, give counsel and advice to such person about any charge against him upon which the public defender is conducting the defense, and shall prosecute all appeals to a higher court or courts of any person who has been convicted, where, in his opinion, the appeal will or might reasonably be expected to result in the reversal or modification of the judgment of conviction.

(b) Upon request, he shall prosecute actions for the collection of wages and other demands of any person who is not financially able to employ counsel, where the sum involved does not exceed one hundred dollars ($100), and where, in the judgment of the public defender, the claim urged is valid and enforceable in the courts.

(c) Upon request, he shall defend any person who is not financially able to employ counsel in any civil litigation in which, in the judgment of the public defender, the person is being persecuted or unjustly harassed.

(d) Upon request, or upon order of the court, he shall represent any person who is not financially able to employ counsel in proceedings under Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code.

(e) Upon order of the court, he shall represent any person who is entitled to be represented by counsel but is not financially able to employ counsel in proceedings under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code.

(f) Upon order of the court he shall represent any person who is required to have counsel pursuant to Section 686.1 of the Penal Code.

SEC. 2. Section 686 of the Penal Code is amended to read:

686. In a criminal action the defendant is entitled:

1. To a speedy and public trial.

2. To be allowed counsel as in civil actions, or to appear and defend in person and with counsel, except that in a capital case he shall be represented in court by counsel at all stages of the preliminary and trial proceedings.

3. To produce witnesses on his behalf and to be confronted with the witnesses against him, in the presence of the court, except that:

(a) Hearsay evidence may be admitted to the extent that it is otherwise admissible in a criminal action under the law of this state.

(b) The deposition of a witness taken in the action may be read to the extent that it is otherwise admissible under the law of this state.

SEC. 3. Section 859 of the Penal Code is amended to read:

859. When the defendant is charged with the commission of a public offense over which the superior court has original jurisdiction, by a written complaint subscribed under oath and on file in a court within the county in which the public offense is triable, he shall, without unnecessary delay, be taken before a magistrate of the court in which such complaint is on file. The magistrate shall immediately deliver to him a copy of the complaint, inform him that he has the right to have the assistance of counsel, ask him if he desires the assistance of counsel, and allow him reasonable time to send for counsel. However, in a capital case, the court shall inform the defendant that he must be represented in court by counsel at all stages of the preliminary and trial proceeedings and that such representation will be at his expense if he is able to employ counsel or at public expense if he is unable to employ counsel, inquire of him whether he is able to employ counsel and, if so, whether he desires to employ counsel of his choice or to have counsel assigned for him, and allow him a reasonable time to send for his chosen or assigned counsel. The magistrate must, upon the request of the defendant, require a peace officer to take a message to any counsel whom the defendant may name,

in the judicial district in which the court is situated. The officer shall, without delay and without a fee, perform that duty. If the defendant desires and is unable to employ counsel, the court shall assign counsel to defend him; in a capital case, if the defendant is able to employ counsel and either refuses to employ counsel or appears without counsel after having had a reasonable time to employ counsel, the court shall assign counsel to defend him. If it appears that the defendant may be a minor, the magistrate shall ascertain whether such is the case, and if the magistrate concludes that it is probable that the defendant is a minor, he shall immediately either notify the parent or guardian of the minor, by telephone or messenger, of the arrest, or appoint counsel to represent the minor.

SEC. 4. Section 686.1 is added to the Penal Code, to read:

686.1. Notwithstanding any other provision of law, the defendant in a capital case shall be represented in court by counsel at all stages of the preliminary and trial proceedings.

SEC. 5. Section 987 of the Penal Code is amended to read:

987. (a) In a noncapital case, if the defendant appears for arraignment without counsel, he shall be informed by the court that it is his right to have counsel before being arraigned, and shall be asked if he desires the assistance of counsel. If he desires and is unable to employ counsel the court shall assign counsel to defend him.

(b) In a capital case, if the defendant appears for arraignment without counsel, the court shall inform him that he must be represented by counsel at all stages of the preliminary and trial proceedings and that such representation will be at his expense if he is able to employ counsel or at public expense if he is unable to employ counsel, inquire of him whether he is able to employ counsel and, if so, whether he desires to employ counsel of his choice or to have counsel assigned to him, and allow him a reasonable time to send for his chosen or assigned counsel. If the defendant is unable to employ counsel, the court shall assign counsel to defend him. If the defendant is able to employ counsel and either refuses to employ counsel or appears without counsel after having had a reasonable time to employ counsel, the court shall assign counsel to him.

SEC. 6. The Legislature finds that persons representing themselves cause unnecessary delays in the trials of charges against them; that trials are extended by such persons representing themselves; and that orderly trial procedures are disrupted. Self-representation places a heavy burden upon the administration of criminal justice without any advantages accruing to those persons who desire to represent themselves.

SEC. 7. It is the intent of the Legislature that Section 1 of this act become operative on the effective date of this act, and shall become inoperative upon the adoption by the people of Senate Constitutional Amendment No. 42 of the 1971 Regular Session of the Legislature, and that Sections 1.5, 2, 3, 4, 5 and 6 shall become operative only if Senate Constitutional Amendment No. 42 of the 1971 Regular Session of the Legis-

lature is adopted by the people, and at that time Section 27706 of the Government Code as amended by Section 1 of this act is repealed.

## CHAPTER 1801

*An act to add Section 5653.1 to the Welfare and Institutions Code, relating to mental health.*

[Approved by Governor December 17, 1971 Filed with Secretary of State December 17, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 5653.1 is added to the Welfare and Institutions Code, to read:

5653.1. In conducting evaluation, planning, and research activities to develop and implement the county Short-Doyle plan, counties may contract with public or private agencies.

## CHAPTER 1802

*An act to add Chapter 10 (commencing with Section 3500) to Division 4 of the Health and Safety Code, relating to treatment of pupil's teeth.*

[Approved by Governor December 17, 1971. Filed with Secretary of State December 17, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Chapter 10 (commencing with Section 3500) is added to Division 4 of the Health and Safety Code, to read:

### CHAPTER 10. TOPICAL APPLICATION OF FLUORIDE OR OTHER DECAY-INHIBITING AGENT TO TEETH

3500. Pupils of public and private elementary and secondary schools, except pupils of community colleges, shall be provided the opportunity to receive within the school year the topical application of fluoride or other decay-inhibiting agent to the teeth in the manner approved by the State Department of Public Health. The program of topical application shall be under the general direction of a dentist licensed in the state and may include self-application.

3501. Annual treatment as specified in this chapter shall be evidenced by a written record made on a form prescribed by the department. A copy of the record shall be given to the parent or guardian of the child, or if the person receiving the treatment is an adult, the copy shall be given to him.

3502. The county health officer of each county shall organize and have in operation by September, 1972, a program so

that annual treatment is made available to all persons specified in Section 3500. He shall also determine how the cost of such a program is to be recovered. To the extent that the cost to the county is in excess of that sum recovered from persons treated, the cost shall be paid by the county in the same manner as other expenses of the county are paid.

3503. The governing board of each school district and the governing authority of each private school shall cooperate with the county health officer in carrying out the program in any school under its jurisdiction. The governing board of any school district may use any funds, property, and personnel of the district for that purpose.

3504. Treatment shall be provided for a person only if the parent or guardian or responsible relative or adult who has assumed responsibility for his care and custody (in the case of a minor), or the person (if an adult), files with the governing board of the school district or the governing authority of the private school, as the case may be, a letter provided by the district or authority pursuant to Section 3505, stating that such treatment is desired.

3505. The governing board of each school district and the governing authority of each private school shall distribute to each pupil's parent or guardian or responsible relative or adult who has assumed responsibility for his care and custody (in the case of a minor), or the pupil (if an adult), a letter which may be returned to such district or authority in which the person to receive the letter may indicate that the treatment is desired and the pupil is to receive the treatment or that the pupil is not to receive the treatment for one of the following reasons: (i) the pupil has received the treatment from a dentist, or (ii) the treatment is not desired.

3506. The department shall adopt and enforce all rules and regulations necessary to carry out the provisions of this chapter.

3507. In enacting this chapter, it is the intent of the Legislature to provide a means for the eventual achievement of the annual topical application of fluoride or other decay-inhibiting agent to the teeth of all school pupils in this state. However, it is understood that this treatment is not a substitute for regular professional dental care. This chapter is designed to provide for the keeping of adequate records of treatment so that appropriate public agencies and the persons treated will be able to ascertain that a person has been so treated.

SECTION 1. Section 65302 of the Government Code is amended to read:

65302. The general plan shall consist of a statement of development policies and shall include a diagram or diagrams and text setting forth objectives, principles, standards, and plan proposals. The plan shall include the following elements:

(a) A land-use element which designates the proposed general distribution and general location and extent of the uses of the land for housing, business, industry, open space, including agriculture, natural resources, recreation, and enjoyment of scenic beauty, education, public buildings and grounds, solid and liquid waste disposal facilities, and other categories of public and private uses of land. The land-use element shall include a statement of the standards of population density and building intensity recommended for the various districts and other territory covered by the plan. The land-use element shall also identify areas covered by the plan which are subject to flooding and shall be reviewed annually with respect to such areas.

(b) A circulation element consisting of the general location and extent of existing and proposed major thoroughfares, transportation routes, terminals, and other local public utilities and facilities, all correlated with the land-use element of the plan.

(c) A housing element, to be developed pursuant to regulations established under Section 37041 of the Health and Safety Code, consisting of standards and plans for the improvement of housing and for provision of adequate sites for housing. This element of the plan shall make adequate provision for the housing needs of all economic segments of the community.

(d) A conservation element for the conservation, development, and utilization of natural resources including water and its hydraulic force, forests, soils, rivers and other waters, harbors, fisheries, wildlife, minerals, and other natural resources. That portion of the conservation element including waters shall be developed in coordination with any county-wide water agency and with all district and city agencies which have developed, served, controlled or conserved water for any purpose for the county or city for which the plan is prepared. The conservation element may also cover:

(1) The reclamation of land and waters.

(2) Flood control.

(3) Prevention and control of the pollution of streams and other waters.

(4) Regulation of the use of land in stream channels and other areas required for the accomplishment of the conservation plan.

(5) Prevention, control, and correction of the erosion of soils, beaches, and shores.

(1) Highways and freeways,

(2) Ground rapid transit systems,

(3) Ground facilities associated with all airports operating under a permit from the State Department of Aeronautics.

These noise contours may be expressed in any standard acoustical scale which includes both the magnitude of noise and frequency of its occurrence. The recommended scale is sound level A, as measured with A-weighting network of a standard sound level meter, with corrections added for the time duration per event and the total number of events per 24-hour period.

Noise contours shall be shown in minimum increments of five decibels and shall be continued down to 65 db(A). For regions involving hospitals, rest homes, long-term medical or mental care, or outdoor recreational areas, the contours shall be continued down to 45 db(A).

Conclusions regarding appropriate site or route selection alternatives or noise impact upon compatible land uses shall be included in the general plan.

The state, local, or private agency responsible for the construction or maintenance of such transportation facilities shall provide to the local agency producing the general plan, a statement of the present and projected noise levels of the facility, and any information which was used in the development of such levels.

(c) "Base period" means the base period defined by Section 1275.

1474. State wages shall be included as wages for the purposes of this part in the base period of a state employee. The lump sum or other payment of accrued unused vacation pay or severance pay, or both, at termination from state employment shall be wages for the purposes of this chapter and shall be allocated to the period following termination at the individual's rate of pay at termination from state employment.

1475. (a) In lieu of the contributions required of employers, the State of California shall pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (b), an amount equal to the additional cost to the Unemployment Fund of the benefits (including extended duration benefits and federal-state extended benefits) paid based on base period state wages with respect to employment of state employees. Benefits otherwise payable, irrespective of this chapter, shall be charged to employers' reserve accounts in accordance with other sections of this part and shall be the liability of governmental entities or nonprofit organizations pursuant to Sections 710, 711, and 713, but the additional cost to the Unemployment Fund of the benefits paid based on base period state wages pursuant to this chapter shall be borne solely by the State of California.

(b) In making the payments prescribed by subdivision (a), there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from the State of California for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the Controller or other responsible disbursing officer the amount determined with respect to the State of California. The Controller or other responsible disbursing officer shall pay to the Unemployment Fund the contributions due from the State of California. The director shall charge to any special fund, which is responsible for the salary of any employee, the amount of additional cost to the Unemployment Fund of the benefits paid with respect to that state employee.

(c) The director may require from each employing unit subject to this chapter employment, wage, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this chapter, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this chapter in statistical form and may divulge the name of the employing unit.

(e) Each employing unit shall keep such work records as may be prescribed by the director for the proper administration of this chapter.

(f) Notwithstanding any other provision of this section, the State of California shall not be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the State of California.

1476. This chapter shall not apply with respect to service performed after December 31, 1971.

SEC. 4. There is appropriated from the General Fund to the Director of the Department of Human Resources Development the sum of three hundred fifty thousand dollars ($350,000) to be used to pay the benefits provided by this act.

SEC. 5. This act shall become effective only if General Fund revenues are increased by statutes enacted at the 1971 Regular Session of the Legislature above the amounts necessary to maintain programs in dollar amounts allocated by Chapter 266 of the Statutes of 1971, as determined by the State Controller.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall

go into immediate effect. The facts constituting such necessity are:

Layoffs in state institutions of higher education are imminent. The lack of unemployment benefits for state higher education employees is detrimental to morale, causes a deterioration in the quality and quantity of services, and is a deterrent to the recruitment of qualified candidates for employment. Unless there is prompt adjustment of this serious inequity this area of public service will suffer serious and irreparable harm.

(b) If the purchaser does not make timely application to that department, but is subject to penalty because of delinquency in effecting identification or transfer of ownership of the vehicle, he then becomes liable also for penalty as specified in Section 6591 of this code, but no interest shall accrue.

(c) Application to that department by the purchaser shall relieve the purchaser of the obligation to file a return with the board under Section 6452.

SEC. 8. Section 27150 of the Vehicle Code is amended to read:

## DIVISION 16.5. OFF-HIGHWAY VEHICLES

### CHAPTER 1. GENERAL PROVISIONS

(b) The provisions of subdivision (a) shall not apply to any of the following:

(1) Motor vehicles operated solely on the private property of their owner or on the private property of another, with the express consent of the owner or tenant of such property or used solely upon commercially operated facilities for such use.

(2) Motor vehicles specifically exempted from registration under this code, including but not limited to motor vehicles exempted pursuant to Sections 4006, 4010, 4011, 4012, 4013, 4015, 4018, 4019, and 4020.

38012. As used in this division, "off-highway motor vehicle subject to identification" means a motor vehicle subject to the provisions of subdivision (a) of Section 38010.

38013. Unless otherwise provided, the terms "identification" and "identification certificate" shall have the same meaning as the terms "registration" and "registration card," respectively, as used in Division 3 (commencing with Section 4000).

38020. No person shall drive, move or leave standing any off-highway motor vehicle subject to identification on private or public property which is not registered under the provisions of Division 3 (commencing with Section 4000), unless it is identified under the provisions of this chapter.

38027. Motor-driven cycles issued a plate or device pursuant to Section 38160 may be moved, by nonmechanical means only, adjacent to a highway, in such a manner so as to not

interfere with traffic upon the highway, only for the purpose of gaining access to, or returning from, areas designed for the operation of off-highway vehicles, when no other route is available.

38030. Notwithstanding the provisions of Sections 38015 and 38020, an unidentified off-highway motor vehicle subject to identification may be left standing upon a highway or public or private property adjacent to the place of business of a dealer of such motor vehicles when done so in connection with the loading and unloading or storage of such vehicles to be used in the dealer's business, unless already prohibited by law.

38045. Ownership of title to an off-highway motor vehicle subject to identification under this division may be held by two (or more) coowners as provided in Section 682 of the Civil Code, except that:

(a) A vehicle may be identified in the names of two (or more) persons as coowners in the alternative by the use of the word "or." A vehicle so identified in the alternative shall be deemed to be held in joint tenancy. Each coowner shall be deemed to have granted to the other coowners the absolute right to dispose of the title and interest in the vehicle. Upon the death of a coowner, the interest of the decedent shall pass to the survivor as though title or interest in the vehicle was held in joint tenancy, unless a contrary intention is set forth in writing upon the application for identification.

(b) A vehicle may be identified in the names of two (or more) persons as coowners in the alternative by the use of the word "or" and if declared in writing upon the application for identification by the applicants to be community property, or tenancy in common, shall grant to each coowner the absolute power to transfer the title or interest of the other coowners only during the lifetime of such coowners.

(d) The department may adopt suitable abbreviations to appear upon the certificate of identification and certificate of ownership to designate the manner in which title to the vehicle is held if set forth by the coowners upon the application for identification.

38050. In the absence of the regularly required supporting evidence of ownership upon application for identification or transfer of a vehicle, the department may accept an undertaking or bond which shall be conditioned to protect the department and all officers and employees thereof and any subsequent purchaser of the vehicle, any person acquiring a lien or security interest thereon, or the successor in interest of such purchaser or person against any loss or damage on account of any defect in or undisclosed claim upon the right, title, and interest of the applicant or other person in and to the vehicle.

38055. Any interested person shall have a right of action to recover on any such bond or undertaking for any breach of the conditions for which the same was deposited, but the aggregate liability of the surety to all such persons shall in no event exceed the amount of the bond. In the event the vehicle is no longer identified in this state and the currently valid certificate of ownership is surrendered to the department, the bond or undertaking shall be returned and surrendered at the end of three years or prior thereto.

38060. (a) Whenever any person after making application for identification of an off-highway motor vehicle subject to identification, or after the identification either as owner or legal owner, moves or acquires a new address different from the address shown in the application or upon the certificate of ownership or identification certificate, such person shall, within 10 days thereafter, notify the department in writing of his old and new address.

(b) Any owner having notified the department as required in subdivision (a) of this section, shall immediately mark out the former address on the face of the certificate and write with pen and ink or type the new address on the face of the certificate immediately below the former address and initial the entry.

### Article 3. Evidences of Identification

38070. The department upon identifying an off-highway motor vehicle subject to identification shall issue a certificate of ownership to the legal owner and an identification certificate to the owner, or both to the owner if there is no legal owner.

38075. (a) The identification certificate shall contain upon the face thereof the date issued, the name and residence or business address of the owner and of the legal owner, if any, the identification number to the vehicle, and a description of the vehicle as complete as that required in the application for the identification of a vehicle.

(b) The director may modify the form, arrangement, and information appearing on the face of the identification certificate and may provide for standardization and abbreviation of fictitious or firm names thereon whenever he finds that the efficiency of the department will be promoted thereby, except that general delivery or post office box numbers shall not be permitted as the address of the identified owner unless there is no other address.

38076. The certificate of ownership shall contain:

(a) Not less than the information required upon the face of the identification certificate.

(b) Provision for notice to the department of a transfer of the title or interest of the owner or legal owner.

(c) Provision for application for transfer of identification by the transferee.

38080. (a) The department may authorize, under the provisions of Sections 4456 and 4456.5, dealers licensed under Article 1 (commencing with Section 11700) of Chapter 4 of Division 5 to use numbered copies of the report of sale form and corresponding temporary identification devices upon off-highway motor vehicles subject to identification which they sell.

(b) Off-highway motor vehicles subject to identification that are purchased from dealers not required to be licensed under Article 1 (commencing with Section 11700) of Chapter 4 of Division 5, or that are specially constructed by the owner or owners, may be operated off-highway, as provided by this division, without an identification plate or device or identification certificate, provided a receipt or other suitable device issued by the department is displayed upon the vehicle evidencing an application has been made and appropriate fees paid pursuant to this division, until the identification plate or device and identification certificate are received from the department.

38085. (a) Every owner upon receipt of an identification certificate shall maintain the same or a facsimile copy thereof with the vehicle for which it is issued.

(b) The provisions of this section do not apply when an identification certificate is necessarily removed from the vehicle for the purpose of application for renewal or transfer of identification.

38090. If any identification certificate or identification plate or device is stolen, lost, mutilated or illegible, the owner of the vehicle for which the same was issued, as shown by the records of the department, shall immediately make application for and may, upon furnishing information satisfactory to the

department, obtain a duplicate or substitute or a new identification under a new number, as determined to be most advisable by the department.

38095. If any certificate of ownership is stolen, lost, mutilated or illegible, the legal owner or, if none, the owner of the vehicle for which the same was issued as shown by the records of the department shall immediately make application for and may, upon furnishing information satisfactory to the department, obtain a duplicate.

38100. The provisions of Sections 4458, 4460, 4461, 4462, and 4463 shall be fully applicable to motor vehicles identified under this division and the terms "identification" and "identification certificate" shall have the same meaning as the terms "registration" and "registration card," respectively, as used in those sections.

### Article 4. Renewal of Identification

38110. Certificates of ownership shall not be renewed but shall remain valid until suspended, revoked, or canceled by the department for cause or upon transfer of any interest shown therein.

38115. Every motor vehicle identification and identification certificate issued pursuant to this division shall expire at midnight on the 30th day of June of the even-numbered year next following the date of issuance of such certificate. The department may upon payment of the proper fees renew such identification.

38120. (a) Application for renewal of identification of off-highway motor vehicles subject to identification shall be made by the owner not later than midnight of the 31st day of July of the expiration year.

(b) Whenever any application for identification or transfer of ownership of an off-highway motor vehicle subject to identification is filed with the department between June 1 and July 31 of the year of expiration, the application shall be accompanied by the full renewal fees in addition to any other fees then due and payable.

38125. Whenever by reason of the theft or embezzlement of an off-highway motor vehicle subject to identification the owner or legal owner is not in possession of the vehicle at the time penalties accrue for failure to obtain identification, or renewal thereof, the owner or legal owner may secure the identification or renewal of the identification of the vehicle within 30 days after its recovery upon filing an affidavit setting forth the circumstances of the theft or embezzlement, if the theft or embezzlement of the vehicle has been reported pursuant to provisions of this code, without penalty for delinquent payment of fees imposed under this division.

38130. When application for identification of an off-highway motor vehicle subject to identification has been made as required by this division, the vehicle may be operated pursu-

ant to this division until the new indicia of current identification have been received from the department on condition that there be displayed on the vehicle the identification plate or device and validating device, if any, issued to the vehicle for the previous identification term.

38135. The department may, upon renewing of an identification of off-highway motor vehicles subject to identification, issue a new identification certificate or may endorse or authorize the endorsement of a receipt or validation upon payment of the required fees. The receipt or validation to be stamped upon the identification certificate last issued for the vehicle during the preceding period, or upon a potential identification certificate issued near the close of the preceding period, which identification certificate so endorsed or validated shall constitute the identification certificate for the ensuing two-year period.

### Article 5. Refusal of Identification

38145. The department shall refuse the identification or renewal or transfer of identification of an off-highway motor vehicle subject to identification upon any of the following grounds:

(a) That the application contains any false or fraudulent statement.

(b) That the required fee has not been paid.

38150. The department may refuse the identification or renewal or transfer of identification of an off-highway motor vehicle subject to identification in any of the following events:

(a) If the department is satisfied that the applicant is not entitled thereto under this code.

(b) If the applicant has failed to furnish the department with information required in the application or reasonable additional information required by the department.

(c) If the department determines that the applicant has made or permitted unlawful use of any identification certificate, certificate of ownership, or identification plates.

### Article 6. Identification Plate or Device

38160. The department, upon identifying an off-highway motor vehicle subject to identification, shall issue to the owner a suitable identification plate or device which is capable of being attached to the vehicle in such a manner so as to not endanger the operator or passengers of the vehicle, and which shall identify the vehicle for which it is issued for the period of its validity.

38165. The department shall determine the size, color, and letters or number of the plate or device issued pursuant to this division and the life of the series of plate or device issued, but in no event less than six years. During the intervening identification periods for which the plate or device is issued, the department shall issue a tab, sticker, or other suitable device to indicate the term for which such plate or device will be valid.

38170. (a) Every off-highway motor vehicle subject to identification shall have displayed upon it the identification number assigned to the vehicle for which it is issued, together with the word "California" or the abbreviation "CAL" and the year number for which it is issued or a suitable device issued by the department for validation purposes, which device shall contain the year for which issued.

(b) The identification plate or device shall at all times be securely fastened to the rear of the vehicle for which it is issued so as to prevent the plate from swinging and shall be mounted in a position to be clearly visible, and shall be maintained in a condition so as to be clearly legible. No covering shall be used on the identification plate or device.

### Article 7. Dismantling of Off-Highway Motor Vehicles

38180. Chapter 3 (commencing with Section 11500) of Division 5 shall be applicable to off-highway motor vehicles subject to identification, except as provided in this article.

38185. No off-highway motor vehicle subject to identification which has been reported dismantled or sold as salvage may be subsequently identified until it has been inspected by the department.

## CHAPTER 3. TRANSFERS OF TITLE OR INTEREST

38195. The provisions of Chapter 2 (commencing with Section 5600) of Division 3 shall be applicable to off-highway motor vehicles subject to identification, and the terms "registration," "registration card," and "registered" as used therein, shall apply to the terms "identification," "identification certificate," and "identified," respectively, except that Sections 5901, 5902, 5903, 5904, 5906, and 6052 shall not apply.

38200. (a) Every licensed dealer upon transferring by sale, lease, or otherwise any off-highway motor vehicle subject to identification, whether new or used, of a type subject to identification under this division, shall, not later than the third business day thereafter of the dealer, give written notice of the transfer to the department upon an appropriate form provided by it, but a dealer need not give the notice when selling or transferring a new unidentified off-highway motor vehicle subject to identification to another dealer.

A "sale" shall be deemed completed and consummated when the purchaser of that vehicle has paid the purchase price, or, in lieu thereof, has signed a purchase contract or security agreement, and taken physical possession or delivery of that vehicle.

(b) Every dealer of off-highway motor vehicles subject to identification who is not licensed with the department, and who engages only in the sale of vehicles of a type not properly equipped for operation upon the highway and that are restricted to off-highway operation or use, shall comply with the provisions of Section 5900, or such regulations as the director

determines are necessary to carry out the provisions of this division.

38205. (a) Whenever any person has received as transferee a properly endorsed certificate of ownership and the identification certificate of the vehicle described in the certificates, he shall within 10 days thereafter endorse the ownership certificate as required and forward the ownership certificate and the identification certificate with the proper transfer fee and, if required under Section 38120, any other fee due and thereby make application for transfer of identification.

(b) Whenever any person applies for transfer of identification on a certificate of ownership issued for the current identification period, the identification certificate need not be surrendered.

38210. When the transferee of an off-highway motor vehicle subject to identification is a dealer who holds such vehicle for resale, the dealer is not required to make application for transfer, but upon transferring his title or interest to another person he shall comply with this division.

38211. (a) The department shall withhold identification of or the transfer of ownership of any vehicle subject to identification under this division until the applicant pays to the department the use tax measured by the sales price of the vehicle as required by the Sales and Use Tax Law, together with penalty, if any, unless the purchaser presents evidence on a form prescribed by the State Board of Equalization that sales tax will be paid by the seller or that use tax has been collected by the seller or that the State Board of Equalization finds that no use tax is due. If the applicant so desires, he may pay the use tax and penalty, if any, to the department so as to secure immediate action upon his application for identification or transfer of ownership, and thereafter he may apply through the Department of Motor Vehicles to the State Board of Equalization under the provisions of the Sales and Use Tax Law for a refund of the amount so paid.

(b) The department shall transmit to the State Board of Equalization all collections of use tax and penalty made under this section. This transmittal shall be made at least monthly, accompanied by a schedule in such form as the department and board may prescribe.

(c) The State Board of Equalization shall reimburse the department for its costs incurred in carrying out the provisions of this section. Such reimbursement shall be effected under agreement between the agencies, approved by the Department of Finance.

(d) In computing any use tax or penalty thereon under the provisions of this section dollar fractions shall be disregarded in the manner specified in Section 9559 of this code. Payment of tax and penalty on this basis shall be deemed full compliance with the requirements of the Sales and Use Tax Law insofar as they are applicable to the use of vehicles to which this section relates.

## CHAPTER 4. IDENTIFICATION FEES

38225. (a) A service fee of five dollars ($5) shall be paid to the department for the issuance or renewal of identification of off-highway motor vehicles subject to identification, except as expressly exempted under this division.

(b) In addition to the service fee specified in subdivision (a), special fee of six dollars ($6) shall be paid at the time of payment of the service fee for the issuance or renewal of an identification plate or device. All fees received by the department pursuant to this subdivision shall be deposited in the Off-Highway Vehicle Fund, which is hereby created. There shall be a separate reporting of these revenues by vehicle type, including four-wheeled vehicles and motorcycles. All money in the Off-Highway Vehicle Fund is continuously appropriated for expenditure by the Department of Parks and Recreation for the purposes specified in Section 38300.

38230. In addition to the fees imposed by Section 38225, there shall be paid a four-dollar ($4) fee for the issuance or renewal of identification for every off-highway motor vehicle subject to identification. The fee imposed by this section is in lieu of all taxes according to value levied for state or local purposes.

38235. All money collected by the department under Section 38230 shall be reported monthly to the State Controller and at the same time be deposited in the State Treasury to the credit of the Off-Highway License Fee Fund, which is hereby created.

38240. (a) The State Controller shall allocate the fees collected under Section 38230 in the same manner fees are allocated under Section 11005 of the Revenue and Taxation Code.

(b) It is the intent of the Legislature that funds collected under Section 38230 be used for any one or more of the following purposes:

(1) Planning, acquiring, developing, constructing, maintaining, or administering, for the use of off-highway vehicles, trails, areas, or other facilities.

(2) Controlling the operation of motor vehicles in areas off the highways where the operation of motor vehicles is restricted or prohibited.

(3) Otherwise carrying out the provisions of this division.

38245. Whenever an off-highway motor vehicle subject to identification is operated in this state without the fees required by this division having first been paid, the fee is delinquent.

## CHAPTER 1817

*An act to add Section 1370.1 to the Penal Code, relating to mentally retarded persons.*

[Approved by Governor December 22, 1971. Filed with Secretary of State December 22, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 1370.1 is added to the Penal Code, to read:

1370.1. Notwithstanding the provisions of Section 1370, if the court has reason to believe that the defendant's inability to understand the nature and purpose of the criminal proceedings taken against him so as to be able to conduct, or assist in, his own defense in a rational manner is a result of mental retardation, the trial or judgment shall be suspended, and the court shall order the regional center for the mentally retarded, which serves the counties in which the court is situ-

ated, and which is established under the Lanterman Mental Retardation Services Act of 1969, Division 25 (commencing with Section 38000) of the Health and Safety Code, to examine the defendant and within 90 days report to the court the results of the examination and its recommendation for the care and treatment of the defendant. The court may make such orders as may be necessary to provide for the examination of such person by the regional center and for the safekeeping, necessary medical treatment, care or restraint of the defendant pending further orders of the court following receipt of the regional center's report, in the county hospital, his own home, in a state hospital, or in such other place, excluding a jail, as will afford access to personnel of the regional center for the purpose of examination and suitable provisions for the safety and comfort of the defendant. If the regional center reports that the defendant is not mentally retarded, the court shall make the appropriate order under Section 1370. If the regional center reports that the defendant is mentally retarded and is a danger to himself or others and therefore subject to commitment to a state hospital pursuant to Article 5 (commencing with Section 6500), Chapter 2, Part 2, Division 6, of the Welfare and Institutions Code, the regional center shall recommend the initiation of proceedings to commit the defendant to a state hospital pursuant to Article 5. If the regional center reports that the defendant is mentally retarded but is not subject to commitment to a state hospital pursuant to Article 5, the regional center shall make such recommendations as it deems best for the care and treatment of the defendant. Upon receiving the report and recommendations of the regional center, the court shall order that commitment proceedings pursuant to Article 5 be instituted if such defendant is subject to commitment thereunder, or, if not so subject to commitment, it shall order the defendant placed in a home or facility, or state hospital recommended by the regional center for care and treatment or in some other home, facility, or state hospital approved by the regional center for the care and treatment of the defendant. The regional center shall reexamine each defendant placed in a home or facility or state hospital, or committed to a state hospital, at least once each year to ascertain whether the mental retardation of the defendant has changed to such an extent that defendant is able to understand the nature and purpose of the criminal proceedings taken against him so as to be able to conduct, or assist in, his own defense in a rational manner. If the regional center ascertains that the mental retardation of the defendant has changed to such an extent, it shall certify the finding to the sheriff and district attorney of the county, and the court wherein the defendant's case is pending. The sheriff shall thereupon, without delay, bring the defendant from the home, facility, or state hospital, as the case may be, and place him in proper custody until he is brought to trial or judgment,

as the case may be, or is legally discharged. In event of dismissal of the criminal charges before such certification is made, the person shall be re-referred to the appropriate regional center for services under the Lanterman Mental Retardation Services Act of 1969, Division 25 (commencing with Section 38000) of the Health and Safety Code.

SEC. 2. The provisions of this act apply to pending proceedings. A "pending proceeding" for the purposes of this section includes any proceeding under Section 1368 of the Penal Code in which prior to the effective date of this act the court has ordered the question of the defendant's sanity to be determined by the court with or without a jury and in which the order committing the defendant to a state hospital has not been made prior to such effective date.

If any person committed to a state hospital under Section 1370 of the Penal Code prior to the effective date of this act is determined by the medical director of the state hospital to be mentally retarded, the medical director shall certify such determination to the court which committed the person and thereupon the provisions of Section 1370.1 of the Penal Code shall apply to such person.

RONALD REAGAN, Governor

*The people of the State of California do enact as follows:*

SECTION 1. Section 5251 of the Unemployment Insurance Code is amended to read:

5251. In order to carry out the purposes of this chapter the board may pay to the department the amount necessary to provide the employer with up to 100 percent of the wages to be paid to individuals employed under the Work Incentive Program. This amount shall augment any funds available to the department to reimburse the said employer pursuant to Section 402(a) (19) (E) or other provisions of Part C of Title IV of the Social Security Act.

SEC. 2. Part 2 (commencing with Section 11500) is added to Division 3 of the Unemployment Insurance Code, to read:

## PART 2. EMPLOYMENT OPPORTUNITIES ACT OF 1971

### CHAPTER 1. LEGISLATIVE INTENT AND DEFINITIONS

11500. This act shall be known and may be cited as the Employment Opportunities Act of 1971.

11501. The Legislature finds that the burdens of California's acute unemployment are falling most heavily on

Vietnam veterans, welfare recipients, residents of low-income urban and rural areas, the young, older workers, workers displaced by changing technology and shifting public expenditures, and other isolated groups and that such groups will be the last to benefit when economic recovery occurs

The Legislature, therefore, finds and declares that government must take the responsibility for creating meaningful employment opportunities in public service to help relieve the worst effects of unemployment, but that such opportunities must be created without imposing further burdens on property taxpayers, and without leading to permanent increases in the size of government.

11502. It is the intent of the Legislature in enacting the Employment Opportunities Act of 1971 to establish a program reflecting the necessary cooperative involvement of California's manpower and educational agencies, state, city, and county governments, experts in the field of public personnel management, and consumers to develop public service employment programs which may serve as national models and which, with related planning activities, will prepare for successful implementation in California of public service employment programs in the event that such programs are established as part of national welfare and manpower reform legislation.

11503. It is the specific intent of the Legislature that demonstration projects and planning activities supported under this part shall be directed toward the development of public service employment programs reflecting at least the following goals:

(a) Creation of jobs in the highest priority public service fields such as education, child care, health services, community mental health services, juvenile delinquency prevention, law enforcement and crime prevention, recreation, community economic development, resource conservation, ecology and environmental quality.

(b) Creation of jobs in specific occupations which are most likely to expand within the public and private sectors as the unemployment rate declines and which have the greatest prospect for leading to permanent employment which is not subsidized by public service employment programs Identification of jobs which will lead to permanent, nonsubsidized employment requires accurate manpower projections based upon turnover, retirement, and realistic growth estimates.

(c) Employment of persons from segments of the population identifiable by geographic location, sex, age, ethnic background, and occupation experiencing unemployment at rates in excess of the statewide seasonally adjusted unemployment rate and persons individually from

such segments of the population who experience heavy family dependence responsibilities, extended unemployment, and low income even during periods of employment and who, because of insufficient or inappropriate skills and lack of relevant work experience, are least likely to benefit from other employment opportunities.

(d) Selection of employees based upon the minimum job-related qualifications which would indicate that the employee, when provided with relevant work experience and suitable training and education, would eventually be able to qualify for permanent employment in an occupation related to his or her period of employment in a public service employment program.

(e) Provision of orientation to public service employees, as well as to such persons' supervisors and coworkers, to provide them with a clear understanding of the program and their respective roles, responsibilities, and benefits.

(f) Provision of career education and training programs which may consist of on-the-job, in-service, apprenticeship training, or institutional training and education having as specific minimum objectives the acquisition by the employees of the skills necessary to perform the tasks required for permanent employment, either in public service or private enterprise.

(g) Provision of entrance requirements for permanent employment based primarily on ability to perform the duties of the position.

11504. The ultimate objective of public service employment programs shall be to obtain permanent public or private employment for each employee in a job which has adequate career advancement opportunities, but which is supported by funds from sources other than public service employment programs.

11505. As used in this part "council" means the Advisory Coordinating Council on Public Personnel Management created by Governor's Executive Order No. R-30-71, dated May 20, 1971.

## CHAPTER 2. PLANNING, ASSESSMENT, AND PROGRAM DEVELOPMENT

11525. To establish a coordinated procedure for planning for public service employment, the Advisory Coordinating Council on Public Personnel Management created by the Governor's Executive Order No. R-30-71, dated May 20, 1971, shall do all of the following with the participation of the Department of Human Resources Development, through its Office of Manpower Utilization, and the State Personnel Board:

(a) Monitor and assess the experience in California under the federal Emergency Employment Act of 1971 to identify problems which limit the success of programs supported by such act and which must be solved for future public service employment programs to be more successful

(b) Develop a comprehensive state plan for public service employment programs considering the likelihood that additional programs may be established under federal welfare and manpower reform legislation. Among the issues to be considered in developing the comprehensive plan, the council shall:

(1) Analyze the role which private agencies and institutions, such as those which now provide public mental health, mental retardation, and alcoholism services, can play in public service employment programs.

(2) Analyze the relationship between various public service employment classifications and existing civil service and merit systems.

(3) Assess the requirements and methods for finding private employment for public service employees who are not expected to be absorbed into permanent public service jobs.

(c) Consistent with the intent of this part, prepare a plan of expenditures indicating projects which should be carried out to:

(1) Serve unemployed population groups whose needs are not being met relative to other such groups by existing public service employment programs.

(2) Solve problems identified in the early experience under the federal Emergency Employment Act of 1971, or under other federal or state programs such as Career Opportunities Development and Public Service Careers.

(3) Develop techniques, materials, or information which will be necessary for the state, the cities, and counties and other agencies in California to successfully operate large-scale public service employment programs likely to be established under federal welfare and manpower reform legislation.

(d) Develop performance criteria for measuring the success of public service employment programs in meeting the ultimate goal set forth in Section 11504.

11526. The council may, with the advice of the Department of Human Resources Development through its Office of Manpower Utilization and the State Personnel Board, from funds made available for such purposes, make grants to eligible agencies, as described in Section 11527 to pay all or part of the cost of demonstration public service projects specifically designed to meet the needs identified pursuant to Section 11525.

11527. Agencies eligible to receive grants for

demonstration public service employment programs shall include all of the following:

(a) State agencies, the California State Colleges, and the Regents of the University of California.

(b) Cities, counties, and any city and county.

(c) School districts, including California Community Colleges and other special purpose districts.

(d) Indian tribes on reservations.

(e) Public and private nonprofit agencies and institutions including community development corporations or other corporations, partnerships, or other business entities organized to operate a public service employment program or component thereof and owned or operated in substantial part by unemployed or low-income residents of the area to be served.

11528. Assistance for demonstration public service employment programs shall be provided to an eligible agency on the basis of an application submitted to the council by the eligible agency's chief executive which has the approval of the agency's policymaking body, other than state agencies whose policymaking body is the Legislature, and the agency's central personnel officer.

11529. The council shall adopt all rules and regulations necessary to achieve the intent and carry out the provisions of this part.

11530. The jobs provided under demonstration public service employment programs shall not substitute for existing jobs.

11531. All persons employed in demonstration public service jobs under this part will be assured of workmen's compensation, retirement, health insurance, unemployment insurance, and other benefits at the same levels and to the same extent (neither more nor less favorable) as other employees of the employer and to working conditions neither more nor less favorable than such other employees enjoy.

11532. Persons employed in jobs under this part shall be paid wages which shall not be lower than the higher of the minimum wage which would be applicable to the employment under the federal Fair Labor Standards Act of 1938, as amended, if Section 6(a) (1) of such act applied to the participant and if he were not exempt under Section 13 thereof, or the prevailing rates of pay for persons employed in similar public occupations by the same employer.

11533. The council shall not provide assistance for any demonstration program under this part unless the grant, contract, or agreement with respect thereto specifically provides that no person with responsibilities in the operation of such program will discriminate against any person because of race, creed, color, national origin, sex, age, political

affiliation, or beliefs.

11534. The council shall not provide assistance for any program under this part which involves political activities. Neither the program, the funds provided therefor, nor personnel employed in the administration thereof, shall be, in any way or to any extent, engaged in the conduct of political activities in contravention of Chapter 15 of Title 5, United States Code.

11535. The council shall not provide assistance for any demonstration program under this part unless it determines that participants in the program will not be employed on the construction, operation, or maintenance of so much of any facility as is used or to be used for sectarian instruction or as a place for religious worship.

11536. The council shall make maximum efforts to obtain or assist eligible agencies to obtain federal funds to support demonstration programs under this division.

11537. The council, in carrying out its responsibilities under this chapter, shall, in addition to the participation of the Department of Human Resources Development and the State Personnel Board, provide for the participation of those which represent low-income and minority persons, including a welfare recipient and a participant in a federal New Careers or Public Service Careers program.

11538. The council shall make an annual report to the Governor and the Legislature on its responsibilities under this part.

11539. Nothing contained in this part shall be construed to affect the responsibilities of any state or local government under the Emergency Employment Act of 1971.

11540. No public service employment program shall be instituted pursuant to this part after June 30, 1974. This section shall have no application to any such program instituted prior to such date.

SEC. 3. In enacting this statute, the Legislature recognizes that the Department of Human Resources Development is the state agency with primary responsibility for state manpower programs and manpower planning.

SEC. 4. It is the intent of the Legislature to review the public service employment programs established by this act during the 1974 Regular Session to determine whether, in light of possible changes and developments in the manpower field, such programs should continue.

SEC. 5. There is hereby appropriated to the Advisory Coordinating Council on Public Personnel Management from the General Fund, for the purposes of Part 2 (commencing with Section 11500) of Division 3 of the Unemployment Insurance Code, the sum of four million seven hundred fifty thousand dollars ($4,750,000), which shall be made available

for expenditure as follows:

(a) For the fiscal year 1971–1972, three hundred fifty thousand dollars ($350,000).

(b) For the fiscal year 1972–1973, two million two hundred thousand dollars ($2,200,000).

(c) For the fiscal year 1973–1974, two million two hundred thousand dollars ($2,200,000).

Any moneys made available for expenditure in any such fiscal year which are not expended may be carried over into the next succeeding fiscal year, and shall be available for expenditure in such fiscal year in addition to those funds otherwise made available by this section for such year.

## CHAPTER 1820

*An act to add Sections 9357.01 and 9359.04 to the Government Code, relating to the Legislature.*

[Approved by Governor December 30, 1971. Filed with Secretary of State December 30, 1971.]

*The people of the State of California do enact as follows:*

SECTION 1. Section 9357.01 is added to the Government Code, to read:

9357.01. Notwithstanding the provisions of Section 9357 or 9357.05, the rate of contribution for a member of the system first elected after the date this section becomes operative shall be 8 percent.

SEC. 2. Section 9359.04 is added to the Government Code, to read:

9359.04. In lieu of retirement pursuant to Section 9359.01, a Member of the Senate or Assembly who is not returned to office, or who chooses not to run, or who resigns his office upon election or appointment to another public office during, or at any time after, the term in which the boundaries of the Senate or Assembly district which he represents, respectively, are altered pursuant to a reapportionment of legislative districts, may be retired upon his written application to the board, provided the member is credited with a minimum of four years service and was first elected to the Senate or Assembly prior to December 31, 1969.

If a member does not retire at the conclusion of the term of office during which the boundaries of his district were altered pursuant to a reapportionment of legislative districts he shall notify the board in writing within 30 days after the

conclusion of that term of his intention to retire pursuant to the provisions of this section at some unspecified future date.

Service after the term in which a member's district was altered pursuant to a reapportionment of legislative districts shall be disregarded for purposes of computing any retirement allowance received as a result of qualifying for retirement pursuant to this section. However, such service shall be credited for purposes of computing the member's retirement allowance received after qualifying for retirement pursuant to provisions other than this section.

A member who notifies the board of his intention to retire pursuant to the provisions of this section shall pay his contribution rate of 8 percent of gross salary to the Legislators' Retirement System during service after the term in which the boundaries of his district were altered pursuant to a reapportionment of legislative districts.

SEC. 3. It is the intent of the Legislature in enacting this act to provide for the retention in public service of experienced legislative leadership.

Section 9359.01 of the Government Code was enacted during the 1965 reapportionment term. The Legislature recognizes that this section would be activated by the 1971 reapportionment. Therefore, the state is faced with the possibility of a mass retirement in the Legislature on January 1, 1973, and the consequent state retirement costs and the loss of experienced legislative leadership.

SEC. 4. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

Amendment-M

First: To amend Section 2 of Article XI to read as follows:

Sec. 2 (Amended at election May 11, 1965 (a) The term "salary," for the purpose of this article, shall be defined as the basic rate of pay as set forth in the salary ordinance adopted

by the Council and does not include overtime, acting or extra-hazardous duty pay, or other salary differential.

(b) Any member of the police or fire departments who shall have served in either such department for a minimum period of twenty-five (25) years in the aggregate in any capacity or rank whatsoever, shall, on his petition as hereinafter prescribed or by order of the Pension Board if it be deemed for the good of the department, be retired from further service in such department, and shall thereafter, during his lifetime, be paid in equal monthly installments from said Fund, a yearly pension equal to one-half ($\frac{1}{2}$) of the annual salary attached to the rank or position held by him in such department one (1) year prior to the date of such petition, or such order of said Board: provided, that in case of any change in salary at any time after such retirement for such rank or position, the pension shall after each and every such change be one-half ($\frac{1}{2}$) of such salary as changed. No involuntary removal of a member from the department shall deprive him of the benefits of this section after said twenty-five (25) years' service except such removal be for habitual drunkenness, notorious insubordination, conviction of a felony, or crime involving moral turpitude, and then only if the Pension Board shall in its discretion order that such removal operate to deprive such member of said benefits.

(c) In addition to the full retirement allowance hereinabove provided, any member retiring for full service retirement as provided in paragraph (b) hereof, after the effective date of this section, shall receive an additional bonus allowance at the rate of one and two-thirds per cent ($1\frac{2}{3}\%$) of said compensation for each year of service rendered after the effective date of this section and after qualifying for full service retirement as provided in paragraph (b) hereof, such additional bonus allowance not to exceed ten (10) years service, provided that if he, after 25 years of credited service, is then under 52 years of age, he continues in service for at least 5 more years; if between 52 and 54 he continues in service for at least 4 more years; and between 54 and 56 he continues in service for at least 3 more years; if between 56 and 58 he continues in service for at least 2 more years; and if 58 or over he continues in service for at least 1 more year.

Should a member, after 25 years of service and after the effective date of this section, and after having earned a bonus allowance of 1 or more years, become incapacitated for the performance of duty, service or non-service connected, and is thereafter retired from service, he shall not in such event, forfeit any bonus allowance that he may then have conditionally credited to him.

The bonus allowance provided for herein shall not be transferable to or utilized in the computation of the amount of pension benefit provided for dependents of eligible employees as provided in Section 9 of this Article. All bonus allowances granted herein shall be on a fixed and not on a fluctuating basis; said bonus allowance shall be based on one-half ($\frac{1}{2}$) of

the annual salary attached to the rank or position held by him in such department one (1) year prior to the date of his retirement.

(d) Notwithstanding any provision contained in this Article retirement under Section 2(b) shall be compulsory upon such member reaching the age of sixty-six (66) years.

(e) Notwithstanding any other provision of this Section 2 to the contrary, at any time after a member of the Police or Fire Departments becomes eligible for a full service retirement as provided in paragraph (b) hereof, he shall have the option to file with the Director of Finance of the City of Richmond a written affidavit, on a form provided by said Director, which declares that rather than receive any bonus allowance whatsoever to which he may be entitled otherwise under paragraph (c) of this Section 2, he thereby chooses to have the City no longer deduct from his salary the amount which would otherwise be deducted therefrom for pension purposes pursuant to Article XI of this Charter as such Article XI is now or hereafter worded.

Following the receipt of such affidavit by said Director of Finance, he shall stamp the date of its receipt thereon and such action shall be deemed to constitute the filing of such affidavit with said Director. After the filing of such affidavit there shall no longer be any deduction made from such member's salary by the City for pension purposes under Article XI of this Charter nor any contribution by the City for pension purposes under said Article XI, as such Article is now or hereafter worded, in relation to such member's salary during the remainder of such member's employment with the City of Richmond as a member of the Police or Fire Department. The exercise of such option through the filing of such affidavit with said Director of Finance shall be irrevocable and such member shall be deemed to have thereby permanently waived each and every right to any bonus allowance to which he may have been entitled otherwise under paragraph (c) of this Section 2.

And we further certify that we have compared the foregoing proposed and ratified amendment to the Charter of the City of Richmond with the original proposal submitted to the electors of the City, and find that the foregoing is a full, true and correct copy of the amendment.

In witness whereof, we have hereunto set our hands and caused the seal of the City of Richmond to be affixed this 10th day of December, 1970.

WHEREAS, Although eligible for the professional football draft this year, he was prompted to complete his final year of eligibility at Stanford by the challenge of beating Stanford's rival, Southern California, and by leading his team to a berth and consequent victory at the Rose Bowl, their first in 18 years; and

WHEREAS, Jim not only met these challenges but was named an All-American, Heisman Trophy winner, and the outstanding offensive player of the 57th Rose Bowl game, as well; and

Section 5.08. Capital Improvement Funds.

The council shall create such capital improvement funds as may be required to finance the improvements specified in the creation of such funds, and each such fund shall remain inviolate except for the purposes for which it was created, whether general or specific, unless the use of any such fund for some other capital improvement purpose is authorized by the affirmative vote of at least a majority of the council plus one; provided, that when the purpose of any capital improvement fund has been accomplished, the council may transfer any unexpended or unencumbered surplus remaining in such fund to any other general or specific capital improvement fund.

Should the council fail to fix the rate and levy taxes within the time prescribed, the rate for the next preceding fiscal year shall thereupon be automatically effective, and a tax at such rate shall be levied upon all taxable property in the city for the current fiscal year.

The procedure for the assessment and collection of taxes upon property, taxable for municipal purposes, shall be prescribed by ordinance of the city council.

Section 5.12. Dollar Limit.

The foregoing limitation shall not apply in the event of any great necessity or emergency as declared by vote of a majority of the council plus one, in which case the rate may be suspended by ordinance for a period of not to exceed one year and a different rate established. Other than in such cases of great necessity or emergency no increase over the dollar limit shall be made in any fiscal year unless authorized by vote of the people.

Section 5.18. Cash Pool Operations. Check System.

The council may by ordinance provide for financing of municipal obligations by cash pool operations, and for utilization of a check system, or other system equivalent or comparable thereto, rather than the warrant system. Except for those funds restricted by bond indentures, state or federal law, other sections of this Charter or specific conditions of the legislation creating them, temporary transfers between funds are permitted.

The council shall from time to time by ordinance provide for methods for issuance of checks, drafts and/or other orders for payment of money in the name of the city, and for authorized signatures to negotiable instruments drawn in the name of the city, and may authorize facsimile as well as actual signatures to be valid and binding on the city, and shall prescribe such system as it shall deem advisable to protect against unauthorized issuance of checks, drafts or other orders for payment of money in the name of the city.

The council may by ordinance provide for a higher minimum percentage as a condition for new or renewal franchises.

Every such franchise shall require the grantee thereof to agree to a joint use of its property with others, whenever practicable, and nothing herein shall be construed as prohibit-

That the proposed amendment to the Charter of the City of Oakland, which was so ratified by a majority of the electors of said City, is in words and figures as follows:

Proposition (L)

Amend Sections 618(7) and 618 (11) of the Charter of the City of Oakland to read as follows:

Section 618 (7). Provisions relating to Revenue Bonds. The Board shall have power to determine all of the terms and conditions of the issuance and sale of revenue bonds pursuant to this Section 618, and without limiting in any way the generality of such power, the Board is expressly authorized in its discretion to provide, in connection with any issue of such revenue bonds, as follows:

a. Series and Divisions. Revenue bonds may be issued in series, and any issue may be divided into one or more series or divisions with different maturities or dates for each series or division, different rates of interest and different terms and conditions for the bonds of the several series or divisions. Revenue bonds of the same authorized issue need not be of the same kind or character, have the same security, or be of the

same interest rate, but the terms thereof in each case shall be as provided for by the Board.

b. Form and Date of Bonds. Bonds shall be of such form and tenor and shall bear such date or dates as may be prescribed by the resolution of issue.

c. Maturity. Bonds may be serial bonds or sinking fund bonds with such maturity or maturities as shall be provided in the resolution of issue. No bond by its terms shall mature in more than forty (40) years from its own date and, in the event any authorized issue is divided into two or more series or divisions, the maximum maturity date of each such series or division shall be calculated from the date on the face of each bond separately, irrespective of the fact that different dates may be prescribed for the bonds of each separate series or division of any authorized issue.

d. Interest. Bonds shall bear interest at a rate of not to exceed nine (9) per cent per annum, payable annually or semiannually, or in part annually and in part semiannually.

e. Coupon or Registered Bonds. Bonds may be issued as coupon bonds or as registered bonds, with or without coupons, with appropriate provisions for the interchange of coupon bonds for registered bonds and registered bonds for coupon bonds; bonds may be registered as to principal only, or as to both principal and interest; and new bonds or coupons may be issued in place of bonds or coupons which have been surrendered and canceled whenever appropriate as incidental to the discharge of any bond from registration; all on such terms and conditions, and at such place or places, within or without the State of California, as the Board may determine.

f. Redemption. Bonds may be callable upon such terms and conditions, at the option of the Board or by operation of any sinking fund, and upon such notice as the resolution of issue shall prescribe and upon payment of such premium (not exceeding seven (7) per cent of the par value of such bonds) as may be fixed in the resolution of issue. No bond shall be subject to call or redemption prior to its fixed maturity date, unless the right to exercise such call is expressly stated on the face of the bonds.

g. Source of Payment. All revenue bonds shall be payable exclusively from revenues as more particularly defined in the resolution of issue.

h. Reference on Bonds to Resolution of Issue. Reference on the face of a revenue bond to the resolution of issue by its date of adoption shall be sufficient to incorporate all of the provisions thereof and of this Section 618 into the body of said revenue bond and its appurtenant coupons and each taker and subsequent holder of a revenue bond or coupons, whether such coupons are attached to or detached from said revenue bond, shall have recourse to all of the provisions of the resolution of issue and of this Section 618 and shall be bound thereby.

i. Recital in Bonds. Bonds may contain a recital that all acts, conditions and things required to exist, to happen and to be performed, precedent to and in the issuance of the bonds have existed, happened and been performed in due time, form and manner as required by law and this Charter, all of which facts the Board is authorized to find and determine prior to the issuance of the bonds. Revenue bonds shall also contain a recital on their face that neither the payment of principal of nor of interest on such bonds constitutes a debt, liability or obligation of the City of Oakland.

j. Place and Manner of Payment. The principal of and interest on bonds may be payable at any one or more places within or without the State of California and in any specified coin or currency of the United States of America, as may be provided in the resolution of issue.

k. Execution and Authentication of Bonds; Validity of Signatures and Countersignatures. Bonds may be executed and authenticated by the manual, lithographed or printed facsimile signature of any officer or officers of the Board and may also be authenticated by a trustee or fiscal agent appointed by the Board. If any of the officers whose signatures or countersignatures appear on the bonds cease to be officers before the delivery of the bonds or coupons to the purchasers thereof, their signatures or countersignatures shall nevertheless be valid and of the same force and effect as if such officer had remained in office until the delivery of the bonds and coupons.

l. Issuance of Temporary Bonds. Pending the actual issuance or delivery of definitive bonds, the Board may issue temporary or interim bonds, certificates or receipts of any denominations whatsoever, and with or without coupons, and with such provisions as the Board shall determine, to be exchanged for definitive bonds when ready for delivery. In the absence of an express recital on its face that a temporary bond or interim receipt is non-negotiable, such bond or interim receipt is a negotiable instrument.

m. Replacement of Lost, Destroyed, Mutilated or Stolen Bonds. Lost, destroyed, mutilated or stolen bonds or coupons may be replaced as provided in the resolution of issue.

n. Security. All revenue bonds shall be secured by an exclusive pledge and charge upon all or a portion of the gross revenues of any project for or in connection with which said revenue bonds are issued or authorized to be issued, including revenues of any existing facilities, all as provided for in the resolution of issue. Gross revenues of a project may include revenues from additions, betterments, improvements and extensions of such project later constructed or acquired. The gross revenues of a project and any interest earned on the gross revenues of such project shall constitute a trust fund for the security and payment of the principal of and interest on the revenue bonds and so long as any revenue bonds or interest thereon are unpaid said revenues and interest shall not

be used for any other purpose; provided, however, that a resolution of issue may provide that if the principal of and interest on the bonds and all charges to protect and secure them are paid when due, an amount for the maintenance and operation costs of a project may be apportioned from revenues, but only to the extent specified in the resolution of issue.

o. Revenue Bonds of Same Issue to be Equally Secured. Revenue bonds of the same issue shall be equally secured by a pledge and charge upon revenues, without preference or priority by reason of number, date of bonds, or date of sale, execution, or delivery of bonds; except that if the Board authorized the issuance of bonds of different series it may provide that the bonds in any series shall, to the extent and in the manner prescribed in the resolution of issue, be subordinated and be junior in standing with respect to the payment of principal and interest and the security thereof to such other bonds as may be specified in the resolution of issue.

p. Refunding Bonds. Refunding bonds may be issued and sold or exchanged for the purpose of redeeming, retiring or refunding any revenue bonds issued under this Section 618, subject to any limitations contained in the resolution of issue pursuant to which such revenue bonds are issued. All provisions of this Section applicable to the issuance of revenue bonds shall be applicable to the refunding bonds and to the issuance, sale or exchange thereof. Refunding bonds may be issued in a principal amount sufficient to provide funds for the payment of all bonds to be refunded thereby, and, in addition, for the payment of all expenses incident to the calling, retiring or paying of such outstanding bonds and the issuance of such refunding bonds. Such expenses may include the difference in amount between the par value of the refunding bonds and any amount less than par for which the refunding bonds are sold, any amount necessary to be made available for the payment of interest upon such refunding bonds from the date of sale thereof to the date of payment of the bonds to be refunded, or to the date upon which the bonds to be refunded will be paid pursuant to call thereof, and also the premium, if any, necessary to be paid in order to call and retire the outstanding bonds and the interest accruing thereon to the date of call or retirement.

q. Validity of Revenue Bonds not Affected by Actions of City or Board Relative to Project. The validity of the authorization and issuance of any revenue bonds by the Board shall not be dependent on or affected in any way by:

(i) Proceedings taken by the City or the Board for the acquisition, construction or completion of any project or any part thereof;

(ii) Any contracts made in connection with the acquisition, construction, or completion of any project; or

(iii) The failure to complete any project for which bonds are authorized to be issued.

r. Sale of Revenue Bonds. Notice inviting sealed bids shall be given in such manner as the Board may prescribe prior to any sale of revenue bonds. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received or if the Board determines that the bids received are not satisfactory as to price or responsibility of the bidders, the Board may reject all bids received, if any, and either readvertise or sell the bonds at private sale. The Board may sell bonds at a price below the par or face value thereof, provided that the maximum net interest cost (computed on a 360-day year basis) on bonds sold below par or face value shall not exceed an average of nine (9) per cent per annum, payable semiannually, to the respective maturity dates of said bonds.

s. Payment of Incidental Expenses and Interest and Creation of Funds from Proceeds of Sale of Revenue Bonds. All costs and expenses incidental to the issuance and sale of revenue bonds, including the cost of preparation of the revenue bonds and coupons, the cost of all surveys, of preparation of plans and specifications, of all architectural, engineering, inspection, legal, financial and economic consultant's, trustee's and fiscal agent's fees, the creation of a bond reserve fund, the creation of a working capital fund, and bond interest estimated to accrue during the period of acquisition or construction of a project and for a period of not to exceed three (3) years thereafter, all as provided for in the resolution of issue, may be paid out of the proceeds of sale of the revenue bonds.

Section 618 (11). Incurring Indebtedness. In addition to all other powers herein granted to it and notwithstanding any other provision of this Section 618, the Board is authorized: (a) from time to time to incur indebtedness for the purpose of the acquisition, construction, completion or improvement of any structure or facility which the Board is authorized to develop, construct, reconstruct, alter, repair, maintain, equip or operate pursuant to Section 606, and to lease such structure or facility to any person, subject to the limitations of this Section; provided that no such indebtedness shall constitute a debt, liability or obligation of the City of Oakland, that each such indebtedness shall be repaid exclusively from the income and revenue referred to in this clause (a), and that the Board shall provide not later than the date on which each such indebtedness is incurred for payment in full of the principal of and interest on such indebtedness by a pledge of all or any portion of the gross income derived or to be derived by the Board from the lease of such structure or facility and of all or any portion of any other income and revenue then or thereafter under control of the Board as shall be legally available for such purpose (all hereinafter in this Section referred to as "the pledged income and revenue"); (b) for the purpose of paying the principal of and interest on

such indebtedness, to assign to any person all or any portion of the pledged income and revenue; and (c) notwithstanding the provisions of Section 617 (3), to deposit the assigned portion of the pledged income and revenue in a special fund other than the Port Revenue Fund provided for in said Section 617 (3), which said special fund (i) may be held or maintained by the Board or by the assignee of the assigned portion of the pledged income and revenue and (ii) shall be used and applied by the Board or such assignee only to pay the principal of and interest on such indebtedness. Any pledged income and revenue remaining in any such special fund after payment in full of the principal of and interest on the indebtedness for which said special fund was created shall be deposited by the Board in said Port Revenue Fund.

Any lease executed by the Board pursuant to this Section shall be for a term of not to exceed 50 years and shall be made by the Board only after complying with the provisions of Section 609 of this Charter. Any such lease may provide that all or any part of the cost of maintenance of the leased structure or facility shall be paid by the lessee thereof or by the Board and, to the extent that such cost is to be paid by the Board, that such payment shall be made either from gross income to the Board from such lease or from any other legally available funds of the Board.

Any indebtedness incurred by the Board pursuant to this Section shall (1) be evidenced by contract or other written instrument, which may be made by the Board without complying with any of the provisions of Section 610 of this Charter and which shall be signed by the President of the Board and approved by a resolution of the Board, (2) bear interest at a rate not exceeding nine (9) per cent per annum payable annually or more often as shall be provided by the Board at the time such indebtedness is incurred and (3) be paid in not to exceed 50 years from the date on which it is incurred on such terms and conditions and subject to such right of payment of all or any part of such indebtedness prior to maturity as shall be provided by the Board at the time such indebtedness is incurred; provided, that the Board may fix a date not more than 5 years from the date of incurring any such indebtedness as the date of payment of the first installment of the principal thereof and that beginning on such date not less than 1/50 of the principal amount of such indebtedness shall be paid annually and the entire principal amount thereof shall be paid in not to exceed 50 years from the date on which it is incurred.

The term "person" as used in this Section means any individual, firm, association, private or public corporation, public district or polltical subdivision of the State of California, the State of California, the United States of America, or any agency or authority of any thereof.

And we further certify that we have compared the foregoing proposed and ratified amendment to the Charter of the City of Oakland with the original proposal submitting the same to the electors of said City, and find that the foregoing is a full, true and correct copy thereof.

In witness whereof, we have hereunto set our hands and caused the seal of the said City of Oakland to be affixed hereto this 15th day of December, 1970.

## Article XIV
## Franchises

Section 1400. Grant of Franchise. The Council is empowered to grant by ordinance a franchise to any person, firm or corporation, whether operating under an existing

franchise or not, to use the public streets and places as the same now or may hereafter exist, for the construction and operation of plants, works or equipment, necessary or convenient in connection with any public utility or service. The Council may prescribe by procedural ordinance the terms and conditions of any such grant. When two or more applicants seek to provide the same public utility or service within the City, the Council may prescribe a specific geographical area of the City to be served by each, should more than one be granted.

Section 1401. Resolution of Intention, Notice and Public Hearing. Before granting any franchise, the City Council shall pass a resolution declaring its intention to grant the same, stating the name of the proposed grantee, the character of the franchise and the terms and conditions upon which it is proposed to be granted. Such resolution shall set forth the day, hour and place of a public hearing at which protests will be heard. It shall direct the City Clerk to publish said resolution at least once within fifteen days of the passage thereof, in the official newspaper. The time fixed for such hearing shall not be less than twenty nor more than sixty days after the passage of said resolution.

At the time set for the hearing, the Council shall proceed to hear and pass upon all protests and its decision thereon shall be final and conclusive. Thereafter, it may grant, by ordinance, or deny the franchise, subject to the right of referendum of the people.

Section 1402. Terms of Franchise. Every franchise shall state the term for which it is granted, not to exceed fifty years, unless it be indeterminate.

A franchise grant may be indeterminate, that is to say, it may provide that it shall endure in full force and effect until the same, with the consent of the Public Utilities Commission of the State of California, shall be voluntarily surrendered or abandoned by its possessor, or until the State of California, or some municipal or public corporation, thereunto duly authorized by law, shall purchase by voluntary agreement or shall condemn and take, under the power of eminent domain, all property actually used and useful in the exercise of such franchise and situate within the territorial limits of the State, municipal or public corporation purchasing or condemning such property, or until the franchise shall be forfeited for noncompliance with the terms by the possessor thereof.

Section 1403. Grant to Be in Lieu of All Other Franchises. Any franchise granted by the City with respect to any given utility facilities, shall be in lieu of all other franchises, rights or privileges owned by the grantee, or by any successor of the grantee to any rights under such franchises, with respect to such utility facilities within the limits of the City as they now or hereafter exist, except any franchise derived under Section 19 of Article XI of the Constitution, as that Section existed prior to the amendment thereof adopted

October 10, 1911. The acceptance of any franchise hereunder shall operate as an abandonment of all such other franchises, rights and privileges within the limits of the City, as such limits shall at any time exist, in lieu of which such franchises shall be granted.

Any franchise granted hereunder shall not become effective until written acceptance thereof shall have been filed by the grantee thereof with the City. Such acceptance shall constitute a continuing agreement of such grantee that if and when the City shall thereafter annex, or consolidate with additional territory, any and all other such franchises, rights and privileges owned by the grantee therein, except a franchise derived under said constitutional provisions, shall likewise be deemed to be abandoned within the limits of such territory.

Section 1404. Eminent Domain. No franchise grant shall in any way or to any extent, impair or effect the right of the City to acquire the property of the grantee thereof either by purchase or through the exercise of the right of eminent domain, and nothing herein contained shall be construed to contract away or to modify or to abridge either for a term or in perpetuity the City's right of eminent domain with respect to any public utility.

Section 1405. Duties of Grantee. By its acceptance, the grantee shall covenant and agree to perform and be bound by each and all of the terms and conditions imposed in the grant, or by procedural ordinance, and shall further agree to:

(a) Comply with all lawful ordinances, rules and regulations theretofore or thereafter adopted by the Council in the exercise of its police powers.

(b) Pay to the City, on demand, the cost of all repairs to public property made necessary by any of the operations of the grantee under such franchises.

(c) Indemnify and hold harmless the City and its officers from any and all liability for damages proximately resulting from any operations under such franchises.

CERTIFICATE OF RATIFICATION BY ELECTORS OF THE CITY OF ALHAMBRA OF THAT CERTAIN CHARTER AMENDMENT

State of California
County of Los Angeles } ss.
City of Alhambra

We, the undersigned, Talmage V. Burke, Mayor of the City of Alhambra, and Dorothy McKusick, City Clerk, do hereby certify and declare as follows:

The City of Alhambra, a Municipal corporation of the County of Los Angeles, State of California, now is and at all times herein mentioned was a City containing a population greater than 60,000 inhabitants, and ever since the year 1915 has been and now is organized, existing and acting under a Freeholders' Charter adopted under and by virtue of Section 8 of Article XI of the Constitution of the State of California, which Charter was duly ratified by a majority of the qualified electors of said City at a Special Election held for that purpose on the 14th day of October, 1914, and approved and ratified by the Legislature of the State of California by Concurrent Resolution No. 14 thereof, introduced by Senator Newton W. Thompson on January 26, 1915, and approved by the Legislature of the State of California on January 28, 1915. (Statutes 1915, p. 1740)

The City Council of said City, being its legislative body, on its own motion, and pursuant to the provisions of Section 3 of Article XI of the Constitution of the State of California, by Resolution No. R70-167, adopted on the 1st day of September, 1970, duly proposed to the qualified electors of the City of

Alhambra that certain Amendment to the Charter of said City, designated as Alhambra City Charter Amendment No. 1, and ordered said Charter Amendment to be submitted to said qualified electors at a Special Municipal Election to be held thereon on the 3rd day of November, 1970.

By Ordinance No. 070-3487, duly adopted on the 1st day of September, 1970, said City Council ordered the holding of a Special Municipal Election in said City of Alhambra on November 3, 1970, for the purpose of submitting to a vote the said proposed Charter Amendment.

By Resolution No. R70-151, adopted on August 4, 1970, said City Council requested the Board of Supervisors of the County of Los Angeles to order the consolidation of said Alhambra Special Municipal Election to be held on November 3, 1970, with the Consolidated General Election to be held by the County of Los Angeles on November 3, 1970. Said resolution further requested the Board of Supervisors of the County of Los Angeles to place upon the same ballot as that provided for said Consolidated General Election the aforesaid Alhambra City Charter Amendment. Said resolution further requested the Board of Supervisors to canvass the returns of said Alhambra Special Municipal Election.

On August 18, 1970, said Board of Supervisors of the County of Los Angeles duly notified the City of Alhambra that said Board of Supervisors had adopted an order approving the request of said City of Alhambra for complete consolidation of the Alhambra Special Municipal Election with the Consolidated General Election to be held in Los Angeles County on November 3, 1970, and instructing the Los Angeles County Registrar-Recorder to comply with said order.

Said proposed Charter Amendment was duly published and advertised on September 15 and 22, 1970, in the Post-Advocate, a daily newspaper of general circulation printed, published and circulated in the City of Alhambra, which newspaper is the official newspaper of said City.

Said proposed Amendment was duly and regularly printed in convenient form, and at and during the time and in the manner provided by law a notice was published in said Post-Advocate that such copies of said proposed Amendment could be had upon application therefor in the office of the City Clerk of said City, and copies of said proposed Amendment, so printed in convenient form, were duly and regularly distributed in the manner provided by law.

The date of said election on November 3, 1970 was not less than forty days nor more than sixty days after the completion of the publication of said proposed Charter Amendment as aforesaid.

Pursuant to said Charter, resolutions and ordinance, the said proposed Amendment was submitted to the qualified electors of said City for their ratification on said November 3, 1970, and at said election a majority of the qualified electors

voting thereon voted for the ratification of and did ratify that certain Amendment to the Charter of said City designated as Alhambra City Charter Amendment No. 1.

Said Alhambra City Charter Amendment so ratified by the electors of the City of Alhambra is in words and figures as follows, to wit:

Alhambra City Charter Amendment No. 1

(Amends Section 135 and repeals Section 136 of Article XIX of the Alhambra City Charter)

"Article XIX. Contracts.

Sec. 135. Expenditures Requiring Bids.

When the expenditure required for a public project exceeds the minimum amount specified in the general law of the State of California as requiring bidding, such expenditure shall be contracted for and let to the lowest responsible bidder after notice.

As used in this section, "public project" means a project for the erection, improvement or repair of public buildings or works; for street, sewer or water work except maintenance or repairs; or for the furnishing of supplies or materials for any such project including the maintenance or repair of streets, sewers or water works.

The council may reject any and all bids presented and may solicit new bids. If two or more bids are the same and the lowest, the council may accept the one it chooses. If no bids are received, the council may have the project done without further compliance with this section.

After rejecting bids, the council may by resolution declare that the project can be performed more economically by city personnel or by day labor or that the materials or supplies can be furnished at a lower price on the open market. Upon adoption of such resolution, the council may authorize the project to be performed in the manner stated without further compliance with this section.

The council may also make any expenditure for such a public project without further compliance with this section if it finds and declares by resolution that there is only one available source which can supply the subject matter of such public project or that an emergency exists which makes it essential to the health, safety or welfare of the people that emergency action be taken without further compliance with this section."

Note: Section 136 to be repealed now reads as:

"Sec. 136. Rejection of bids for public work; percentage or payment under contract. When proposals for performing any public work or furnishing materials are invited, the council may reject any and all bids if deemed advisable and ask for new bids or provide for the work to be done by the department of public works; and in case no bid is received the

council may provide for the work to be done by the department of public works.

No contract shall provide for or authorize or permit the payment of more than ninety per cent of the contract price before the completion of the work done under said contract and the acceptance thereof by the proper officers."

We have compared the foregoing Amendment with the original proposal submitting the same to the electors of said City and find that the foregoing is a full, true, correct and exact copy thereof. We further certify that the facts set forth in the preamble preceding such Amendment to said Charter are true.

As to the said Amendment, this certificate shall be taken as a full and complete certification as to the regularity of all proceedings had and done in connection therewith.

In witness whereof, we have hereunto set our hands and caused the corporate seal of the City of Alhambra to be affixed hereto this 7th day of December, 1970.

The mayor shall be elected from the City at large in the manner provided in this Charter, and shall serve for a term of four years and until his successor qualifies. Eight Council members shall be elected from districts, in the manner provided in this Charter, and except as hereinafter provided, shall serve for terms of four years and until their respective successors qualify.

The mayor shall be elected as mayor, separate and apart from the other members of the city council, at the general municipal election to be held in November 1971, and each fourth year thereafter. The office of mayor shall be first in order of precedence on the municipal ballot and shall be separately designated. Eight members of the city council shall be elected from districts, as established pursuant to this Charter at the general municipal election to be held in November 1971, and four members of the city council shall be elected from districts at the general municipal elections held in November of each odd-numbered year thereafter.

In order to establish staggered terms for the members of the council, four members of the council elected at the November 1971, general municipal election shall serve four-year terms and the other four members of the council elected at said election shall serve two-year terms, and the council shall determine by lot at its first regular meeting following the commencement of its term whether the four members of the council elected from the odd-numbered districts or whether the four members of the council elected from the even-numbered districts shall serve the initial two-year terms. Thereafter, all councilmen elected shall serve for terms of four years and until their successors are qualified.

No change in boundary of any district shall operate to abolish any office or exclude any councilman from office before the expiration of the term for which he was elected.

Section 20 of Article IV of the Charter of the City of Sacramento is amended to read as follows:

Sec 20. Qualifications of Councilmen.

Members of the council, including the mayor, and candidates for such offices shall be qualified electors of the municipality, and residents of the City for a period of not less than one year immediately preceding the date of the general municipal election or the date of their appointment to fill a vacancy. Members of the council, excluding the mayor, and candidates for the council shall be residents of the district from which they are elected or appointed for a period of not less than six months immediately preceding the date of the general municipal election or their appointment. In case any

councilman shall change his residence from the district in which he resided at the time of his election or appointment, his office shall immediately become vacant. Residence in territory afterwards annexed to the City is to be deemed to qualify one as a resident of the municipality and district for the purpose of computing the necessary period of residence for members of the council. Residence within the annexed territory and residence within the City may be combined in order to constitute the one-year and six months periods. The term "qualified elector" as used in this Section shall mean a person registered and eligible to vote at the time his nomination papers are filed or at the time of his appointment to fill a vacancy.

Members of the council, including the mayor, shall not be interested in the profits or emoluments of any contract, job, work or service for the municipality. Any member who shall cease to possess any of the qualifications herein required shall forthwith forfeit his office and any such contract in which any member is or may become interested may be declared void by the council. Any member of the council who shall have been convicted of a crime involving moral turpitude while in office shall thereby forfeit his office.

Section 32 of Article V of said Charter is amended to read as follows:

Sec. 32. Qualifications and Duties.

The separately elected mayor shall be the presiding officer at all meetings of the city council and shall be included as a member of the city council for all purposes under this Charter unless otherwise expressly provided. The mayor shall be included within the terms "council" and "city council" used in this Charter unless otherwise expressly provided. He shall be counted in determining a quorum and shall be entitled to vote on all matters, but shall possess no veto power. The mayor may make and second motions and shall have a voice and vote in all its proceedings. He shall be the official head of the City for all ceremonial purposes. He shall provide leadership within the community in the sense that he shall have the primary but not the exclusive responsibility of interpreting the policies, programs and needs of the City government to the people, and as the occasion requires, he may inform the people of any change in policy or program. He shall have the right but not the exclusive power to make recommendations to the city council on matters of policy and program which require council decisions. He shall perform such other duties consistent with his office as may be prescribed by this Charter or as may be imposed by the city council.

The council shall select one of its members who shall be the vice mayor. The vice mayor shall perform all the duties of the mayor as prescribed by this Charter or by Ordinance when the mayor is absent or unable to perform his duties or during the time that there is a vacancy in the office of mayor.

Sections 184 and 185 of Article XXI of said Charter are repealed.

Section 186 of Article XXI of said Charter is renumbered to Section 184 of Article XXI.

Sections 185 to 189, inclusive, are added to Article XXI of said Charter to read as follows:

Sec. 185. Districts Established.

For the purpose of electing members of the council, the City shall be divided into eight districts. For the primary municipal and general municipal elections in 1971, the boundaries of the eight councilman districts shall be established by the city council not later than thirty days prior to the first day for filing nomination papers. Thereafter the boundaries of such districts shall be subject to alteration and change under the provisions of this Charter. Districts shall be numbered one through eight.

In any ordinance adopted by the council establishing, changing or altering the boundaries of any councilman district, the ordinance may describe the new boundaries by reference to a map on file in the office of the city clerk; a metes and bounds description of the new boundaries need not be contained in said ordinance.

Sec. 186. Districting.

Councilmanic districts shall be drawn by the city council and established by ordinance. They shall be of equal population as nearly as practicable. Redistricting shall take place following each decennial census. Redistricting may take place at any other time by majority action of the council when necessary to conform to law.

Districts, while meeting the test of equal population, shall be as compact as possible and shall not divide existing communities or well-defined areas if possible.

Any territory hereafter annexed to or consolidated with the City of Sacramento shall at the time of such annexation or consolidation be added to an adjacent district or districts by ordinance.

Sec. 187. Election Code.

Prior to or within ninety days after this amendment has been ratified by the State Legislature, the council shall adopt an election code ordinance, providing an adequate and complete procedure to govern municipal elections, including the nomination of candidates for all elective offices. All elections provided for by this Charter, whether for choice of officers or submission of questions to the voters, shall be conducted in the manner prescribed by said election code ordinance.

Sec. 188. Nominations.

Nominations of candidates for all elective offices shall be made in the manner prescribed by the election code ordinance provided for in Section 187 of this Article.

Sec. 189. Elections.

The general municipal election shall be held on the first Tuesday after the first Monday in November of each odd-

numbered year, and the primary municipal election shall be held on the sixth Tuesday before the date of the general municipal election of the same year, or, if either of these days falls on a legal holiday, then the election shall be held on the next succeeding day which is not a legal holiday. All other municipal elections which may be held under this Charter shall be known as special elections.

At the primary municipal election, there shall be chosen by the electors of each council district with a councilman whose term expires at the end of or during the same year as the election, two candidates for the office of councilman from that district. When the term of office of mayor expires at the end of or during the same year as the election, there shall be chosen by all of the electors of the City at the primary municipal election two candidates to fill the office of mayor. Notwithstanding any other provision in this Charter to the contrary, in the event that any candidate for nomination to the office of councilman or the mayor shall receive a majority of the votes cast for all the candidates for nomination for such seat or office at such primary municipal election, the candidate so receiving such majority of all votes shall be deemed to be, and declared by the council to be, elected to such office.

At the general municipal election, the electors of each district in which a primary municipal election was held shall select from among the candidates chosen at the primary municipal election in each such district one candidate to succeed to the office of the councilman whose term expires at the end of or during the same year as the election, and there shall be chosen by all of the electors of the whole City from among the candidates chosen at the primary municipal election one candidate to succeed to the office of the mayor.

Proposal H

To amend Section 19 of Article IV of the Charter of the City of Sacramento, relating to commencement of the term of office of the city council.

Section 19 of Article IV of the Charter of the City of Sacramento is amended to read as follows:

Sec. 19. Elective Officers and Commencement of term of Office.

The elective officers of the City shall consist of a city council of nine members. Notwithstanding any other provision in this Charter to the contrary, the term of office for the council shall commence 21 days after the regular or general municipal election held in the month of November in each odd-numbered year. The terms of office for the members of the council elected at the regular or general municipal election held in November 1971, shall commence in accordance with the provisions of this Section.

Vacancies in the council shall be filled by appointment by the council for the unexpired term. Absence from five consecu-

tive regular meetings, unless excused by resolution of the council shall operate to vacate the seat of any member so absent.

Proposal J

To amend Sections 74 and 76 of Article XI of the Charter of the City of Sacramento, relating to the procedure for submission and adoption of the Annual Budget.

Section 74 of Article XI of the Charter of the City of Sacramento is amended to read as follows:

Sec. 74. Annual Budget.

Each department, office and agency of the City shall provide, in the form and at the time directed by the city manager, all information required by him to develop a budget conforming to modern budget practices and procedures as well as specific information which may be prescribed by the council. Not later than 30 days prior to the commencement of the fiscal year of the City, the city manager shall prepare and present to the council, in such form and manner as the council may prescribe, budget recommendations for the next succeeding fiscal year.

Section 76 of Article XI of the Charter of the City of Sacramento shall be amended to read as follows:

Sec. 76. Appropriations Ordinance.

Not later than the time set in Section 86 of this Charter for adoption of the ordinance levying taxes necessary to raise the amounts estimated to be required in the annual budget, the council shall adopt the annual budget by resolution and shall pass an annual appropriation ordinance which shall be based on the adopted annual budget. The total amount of appropriations shall not exceed the estimated revenues and fund balances of the City.

Proposal K

To amend Section 165 of Article XX of the Charter of the City of Sacramento relating to general qualifications and residence of City employees.

Section 165 of Article XX of the Sacramento City Charter is amended to read as follows:

Sec. 165. General Qualifications.

The Civil Service Board may establish reasonable qualifications for any examination. Upon finding that the public health and safety necessitate that a position or positions should be subject to a residency requirement, the Board may by rule establish such a requirement.

Such a rule shall state the position or positions involved and shall specify a distance in air-miles from the principal place of employment or other designated location within which the employee must reside. Any person whose residence is outside the

area so designated by rule shall be required to move his residency within the area within one (1) year from the adoption of the rule, or one (1) year from the commencement of employment, whichever is later, provided, however, that no employee shall be required to move his residence if he resides within the City of Sacramento.

That the portion of Proposal A amending Section 19 of Article IV of the Charter of the City of Sacramento did not take effect because it is replaced by the provisions of Proposal B as follows:

Sec. 19. Electice Officers and Commencement of Term of Office.

The elective officers of the City shall consist of a city council of nine members. Notwithstanding any other provision in this Charter to the contrary, the term of office for the council shall commence 21 days after the regular or general municipal election held in the month of November in each odd-numbered year. The terms of office for the members of the council elected at the regular or general municipal election held in November 1971, shall commence in accordance with the provisions of this Section.

Vacancies in the council shall be filled by appointment by the council for the unexpired term. Absence from five consecutive regular meetings, unless excused by resolution of the council shall operate to vacate the seat of any member so absent.

We further certify that we have compared the foregoing ratified amendments to the Charter of the City of Sacramento with the original proposals submitted to the electors of said City, and find that the foregoing is a full, true, and correct and exact copy of each such amendment.

In witness whereof, we have hereunto set our hands and caused the Seal of said City of Sacramento to be affixed hereto on January 19, 1971.

Prior to the payment of any compensation to any member of the Board or Commission, the City Council shall be Ordinance establish the amount of compensation to be paid."

The balance of Section 1005 as originally adopted shall remain unchanged.

That, the Argument for Proposed Charter Amendment was set forth as follows:

A Yes vote on the proposed Charter Amendment is a vote by the community to express appreciation to those Los Alamitos citizens who serve on various City Boards and Commissions, such as the Planning Commission and the Park-Recreation Commission. A Yes vote will permit those citizens, who devote much time and effort each month on the various Commissions, to "receive compensation for their services, as well as reimbursement for necessary traveling and necessary ex-

penses incurred on official duty when said expenditures have received authorization by the City Council". We feel that continued service to our community will be greatly enhanced if we can provide a token of appreciation to these men and women, if compensation and reimbursement is provided by the City.

s/s WILLIAM S. BROWN, Mayor
JOSEPH H. HYDE, Mayor Pro Tem
DALE KROESEN, Councilman
CHARLES H. LONG, Councilman

That, there was no Argument against the Proposed Charter Amendment filed.

That, said City Council of the City of Los Alamitos, at a meeting duly held on the 23rd day of November, 1970, at the time and in the form and manner required by law in accordance with the law in such cases made and provided, duly adopted Resolution No. 488, declaring the results of said election, as Certified by the Certificate of Registrar of Voters as to the Canvass of the Special Election Returns, and duly found, determined and declared that a majority of said electors voting thereon had voted in favor of said proposed Charter Amendments and for the ratification and adoption thereof and that the same was adopted and ratified by more than the majority of the qualified voters of the City of Los Alamitos voting thereon, as follows, to wit:

| | |
|---|---|
| Votes in favor of the ratification of said proposed charter amendment | 1491 |
| Votes against the ratification of said proposed charter amendments | 1208 |

That said Election was held in accordance with the election laws of the State of California relating to and governing elections in cities and further, that said Election was consolidated with the Statewide General Election and was conducted by the Registrar of Voters, County of Orange, State of California.

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States: (a) that legislation be enacted which will provide long-range stability for housing construction by providing a source of funds which cannot be cut off to facilitate economic policies which will cause the building industry to carry the brunt of any economic dislocation; (b) that this Legislature supports federal revenue-sharing programs to assist housing, but opposes any such program which would dismantle present federal housing programs; (c) that this Legislature opposes any separate attempt to cut back such loan guarantee programs, as by the Farmers Home Administration; (d) that the Legislature requests the Federal Reserve System to ease reserve requirements of banks so that more money is available for use as housing loans; (e) that legislation be enacted to establish a "bank of last resort," a development bank which can make a large-scale credit available on reasonable terms for projects which the commercial banking system either will not or cannot finance; and (f) that the Federal Reserve System be reformed to require—in unmistakable terms—coordination between the Federal Reserve System and the various elements of the executive branch; and be it further

## RESOLUTION CHAPTER 63

*Assembly Joint Resolution No. 38—Relative to acquisition of federal property.*

[Filed with Secretary of State June 7, 1971.]

WHEREAS, The President of the United States announced on March 31, 1971, that he had requested the Secretary of Defense to initiate proceedings for transfer to the State of California

of approximately six miles of the world's finest surfing beaches located within the U.S. Marine Corps reservation at Camp Pendleton; and

WHEREAS, Favorable action by Congress upon the recommendations of the Department of Defense that the land in question be declared excess to federal needs and that it be transferred to the state for park and recreational use will result in the state's acquisition of an unparalleled recreational beach area accessible to over 13 million residents of southern California by an hour's drive; and

WHEREAS, Another 3,400 acres of undeveloped land contiguous to the beach frontage, lying in back of Highway 101 on the San Clemente side of the pass, will, according to the President's statement of March 31, "also be made available either to public bodies or for public sale in which case the proceeds would, under the law, be added to the Land and Water Conservation Fund and be used for federal and local park development"; and

WHEREAS, Therefore the possibility apparently exists, in the event this acreage is offered to public bodies other than the State of California and such bodies decline or are unable to purchase it, that such property will be offered for public sale and would almost certainly be purchased by private land developers; and

WHEREAS, The State of California through its Director of Parks and Recreation has already expressed the desire to acquire this land and develop it with two to three thousand campsites which, in conjunction with operation of the beach frontage as a state park, would offer the residents of southern California with an unparalleled recreational facility which would be difficult if not impossible to duplicate elsewhere even though funds should be made available for this purpose from the proceeds of sale of this property; and

WHEREAS, In addition to its recreational potential for all the people of California, the retention of this 3,400 acres in the public domain in perpetuity provides a needed interval in potential development of adjoining coastal lands; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature expresses the deep gratitude of the people of California to the President of the United States and to the Congress for releasing to them the valuable recreational treasure of the six miles of beach frontage at Camp Pendleton; and be it further

*Resolved,* That the Legislature of the State of California respectfully memorializes the President of the United States, and the Honorable Robert Kunzie, Administrator of the U.S. General Services Administration, to conclude, as the State of California concludes, that the highest and best use for the 3,400 acres of property upland from the six miles of beach frontage to be transferred is that it be developed as contiguous

park land to remain forever in the public domain; and be it further

*Resolved*, It is the intention of the State of California to develop such property as a state park and recreational area and to assure its retention in the public domain for such purposes by the enactment of state law; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the President of the United States and to the Administrator of the United States General Services Administration.

No retired member of either of the aforementioned departments shall serve as an appointed or elected member of said board.

The provisions of Article VI hereafter shall be construed and applied in accordance with the provisions of this section.

Sec. 180.2. Prior to the time that the board shall consist of 7 members, as provided by Section 70.1, each of its actions shall be adopted as provided by Section 76 or Section 180.

earlier, regardless of his age at the time of the occurrence of either such event and whether or not he then is disabled from earning a livelihood; (2) shall attain the age of 18 years if neither of the events mentioned in (1) had occurred prior thereto and if, at that time, he is not disabled from earning a livelihood; or (3) shall cease to be disabled from earning a livelihood if none of the events mentioned in (1) or (2) had occurred prior thereto.

The board shall have the power to determine whether or not a child of a deceased member is a dependent child and to determine, from time to time, the fact of whether or not a child who had been determined by it to be a dependent child continues to be a dependent child.

The provisions of Sections 183 and 183½ hereafter shall be construed and applied in accordance with the provisions of this section.

Sec. 183.56. For the purposes of this Article, an "eligible widow" means the widow of a deceased member of the Fire Department or the Police Department who, as such, is entitled to a pension.

Such reinstated eligible widow shall be entitled to the reinstatement of her pension effective as of the latest of such dates, whichever shall be applicable, but shall not be entitled to the payment of any pension for the period prior to such applicable date and subsequent to the date of the marriage ceremony. The pension paid to any other person during or for the period of the marriage or purported marriage of such reinstated eligible widow or during or for any period after the dissolution thereof shall cease when her pension shall be reinstated. However, should such reinstated eligible widow thereafter be a party to another marriage ceremony her pension as such shall cease and never again shall be reinstated regardless of whether such marriage ceremony shall result in a valid marriage or in a voidable or void marriage and whether or not the same legally shall be terminated. The pension which shall become payable to any reinstated eligible widow shall commence in the same monthly amount which then

would have been payable if she never had ceased to be an eligible widow and thereafter it shall be adjusted as otherwise provided in Section 184.7, Section 184.8 or Section 184.9.

The provisions of Sections 183 and 183½ hereafter shall be construed and applied in accordance with the provisions of this section.

Any such assignment pay shall not be considered as "the highest salary (exclusive of any amount payable by reason of assignment to special duty) attached to the rank of policeman or fireman" for the purposes of either Section 182¼ or Section 183½. Any such assignment pay hereafter shall be included in "the average monthly rate of salary assigned to the ranks or positions held by such member" in the case of a member who shall retire upon a service pension or in the case of a member who shall die while eligible for a service pension if he had received the same immediately preceding the date of his retirement or death or upon the last day he had performed duties as a member of the Fire Department or the Police Department or, if he had not received the same at either such time but had received such pay at some time prior thereto, 10% of the assignment pay which he had received at the time of the termination of his last assignment to such duties for each year in the aggregate of his assignment to such duties not exceeding, however, 10 years in the aggregate.

Any such partial year of service, in case of a member who shall have had less than 25 years of service, shall be credited in the same ratio of 2% of the average monthly rate of salary assigned to the ranks or positions held by him immediately preceding the date of his retirement or death as such partial year shall bear to a complete year and, in the case of a member who shall have had 25 years of service or more, shall be credited in the same ratio of $1\frac{2}{3}$% of such average rate of salary as such partial year shall bear to a complete year.

The provisions of Section 181, Subparagraph (m) of Paragraph (4) of Subsection (A) of Section 181.1 and Section 183 hereafter shall be construed and applied in accordance with the provisions of this section.

## MEASURE (1)

Amend Sections 2001 and 2003 of the Charter of the City of Oakland to read as follows:

Sec. 2001. The following words and phrases as used in this Article, unless a different meaning is plainly required by the context, shall have the following meaning:

"Retirement allowance," or "allowance," shall mean equal monthly payments, beginning to accrue upon the date of retirement, and continuing for life unless a different term of payment is definitely provided by the context.

"Compensation," as distinguished from benefits under the Labor Code of the State of California, shall mean all remuneration, whether in cash or by other allowances made by the City for service qualifying for credit under the Retirement System; provided that when the compensation of a member is a factor in any computation to be made under this System, there shall be excluded from such computation any compensation based on overtime put in by a member. For the purpose of this system, overtime is the aggregate service performed by an employee as a member in all positions, in excess of the hours of work considered normal for employees on a full-time basis and for which monetary compensation is paid.

"Compensation earnable" shall mean the monthly compensation as determined by the Board of Administration which would have been earned by the member had he worked, throughout the period under consideration, the average time ordinarily worked by persons in the same grade or class of positions as the positions held by him during such period and

at the rate of pay attached to such positions. The computation for any absence of a member shall be based on the compensation earnable by him at the beginning of the absence, and that for time prior to entering the employ of the City, shall be based on the compensation earnable by him in the position first held by him in such employ.

"Benefit" shall include "allowance," "retirement allowance," and "death benefit."

"Accumulated normal contributions" shall mean the sum of all contributions plus interest.

"Accumulated additional contributions" shall mean the sum of all additional contributions plus interest.

"Accumulated contributions" shall mean accumulated normal contributions plus accumulated additional contributions.

"Final compensation" means the highest average compensation earnable by a member during any period of three consecutive years of service; compensation earnable to be computed as described in the definition of "compensation earnable." For the purpose of this paragraph, periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks. If a break in service did not exceed six months in duration, time included in the break and compensation earnable during such time shall be included in the computation of final compensation. If a break in service exceeded six months in duration, the first six months thereof and the compensation earnable during those six months shall be included in the computation of final compensation, but time included in the break which is in excess of six months and the compensation earnable during such excess time shall be excluded in the computation of final compensation.

"Member" means any officer or employee who is included in the membership of this Retirement System.

"Retirement System" or "System" shall mean Oakland Municipal Employees' Retirement System as heretofore created under authority granted in this Section, said Retirement System being hereby continued in effect.

"Board" or "Retirement Board" shall mean board of administration as created in this Section.

Words used in the masculine gender shall include the feminine and neuter genders, and singular numbers shall include the plural and the plural the singular.

"Interest" shall mean interest at the rate adopted by the Retirement Board.

"Service" shall mean any service rendered prior to July 1, 1939, as an employee of the City of Oakland, which for the purpose of this System is designated as "prior service"; and any service rendered after June 30, 1939, in a status requisite for membership in the Retirement System, but only prior service and service rendered as a member of the Retirement System shall be credited under the System.

This Section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

Sec. 2003 Any member who completes at least twenty years of service in the aggregate with which he is entitled to be credited under the System, and attains the age of fifty-two years, or completes at least 10 years of such service and attains the age of sixty years, may retire for service at his option. Members shall be retired for service on the first day of the month next following the attainment by them of the age of seventy years, regardless of length of service. Upon retirement for service after the effective date hereof, a member shall receive a service retirement allowance equal to the fraction of one-sixtieth of his final compensation, set forth opposite his age at retirement, taken and applied by interpolation of said fractions to the preceding completed quarter year of age, in the following table in the column applicable to his sex, multiplied by the number of years of service with which he is entitled to be credited:

| Age at Retirement | Fraction Men | Fraction Women |
|---|---|---|
| 52 | .6120636 | .6352571 |
| 53 | .6477249 | .6692856 |

| 64 | 1.2444586 | 1.2487750 |
| 65 & over | 1.3147929 | 1.3216755 |

The fractions herein set forth at ages other than age 60 are based on the interest rate and mortality tables used under the Retirement System on the effective date hereof and shall be adjusted by the Board in accordance with such interest and mortality tables as the Board may adopt thereafter. The Board shall declare from time to time the rate of interest at which interest shall be credited on contributions of members and the City, and the rate of interest which shall be used in determining actuarial equivalents, which rate shall not exceed a rate one-fourth of a percentage point below the net rate currently earned on the assets of the Retirement Fund.

The Retirement System also shall provide for retirement for disability after ten years of service credited under the System, and before age 60, and for death benefits for members of the

System. The City Council also shall provide that a member retiring may elect, before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance in a lesser allowance to be received by him throughout his life and in other benefits payable after his death to another person, including an allowance throughout the life of such person.

For the purpose of this Section, the qualifying ten-year periods of service shall be accumulated during any continuous periods of not more than twelve years, provided any absence from or return to actual service during such twelve-year periods is approved by the Civil Service Board in the case of persons in the classified civil service or by the City Council in the case of other persons within the Retirement System.

This Section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

Such contributions of the City with respect to members who exercised the option in Section 2600 shall be equal during each fiscal year to the benefits payable to or on account of such members during such year, less the portion of the benefits provided in paragraph (4) of this Section. Such contributions of the City with respect to persons who remain members under Article XIV and XV, and former members under said Articles, shall be equal during each fiscal year, to benefits payable to or on account of such members during such year, less the normal contributions deducted during such year from such members' compensation, under paragraph (4) preceding. Such contributions of the City with respect to persons who became or hereafter become members of the Police or Fire Departments after the effective date of this Article (added by Stats. 1951), shall be made in annual installments and the installment to be paid in any year shall be determined by the application of a percentage to the total compensation paid during said year to such persons, said percentage to be twenty-four and thirty-one one-hundredths per cent (24-31/100%), until redetermined by the Retirement Board on the basis of the periodical actuarial valuation and investigation into the experience under the System. At such redetermination, said percentage shall be the ratio at the date of the periodical actuarial valuation, of the present value of the benefits thereafter to be paid under this Article from contributions of the City, and to or on account of such members, less the amount of the City's contributions plus accumulated interest thereon, then held by said System to provide such benefits, to the value at said date of compensation thereafter payable to said member. Said values shall be determined by the actuary, who shall assume a four per cent (4%) interest rate on said contributions, the compensation experience of members, and the probabilities of separation by all causes, of members from service, and of death after retirement. On and after the effective date of such redetermination, the City shall contribute at the percentage fixed by the Board. The total amount, as determined by the Board, of the contributions required during any fiscal year of the City under the Retirement System shall be paid into the Retirement Fund by the City during such year. Provided, however, that in no event shall the City's contributions pursuant to the aforesaid periodical actuarial valuations be lower than nine and forty-two one hundredths per cent (9-42/100%). Any excess monies result-

ing from the setting of a minimum on the members' contributions under Section 2619(1), placing a minimum on the City's contributions, and setting a permanent actuarial interest assumption rate of four per cent (4%) shall be accumulated and invested by the Retirement Board for the sole purpose of providing, together with monies in the existing contingency reserve of the Retirement Fund, actuarially sound, improved benefits for all members of the System under this Article. The Retirement Board shall within six (6) months of each said periodical actuarial valuation determine the nature and extent of said improved or additional benefits. In no event shall existing benefits be reduced. Said recommended improved or additional benefits shall go into effect if said recommendations receive the affirmative vote of fifty-five per cent (55%) of the combined ballots cast by the active members of the Police and Fire Departments in a special election to be held for that purpose. If said recommendations are defeated, different recommendations shall be successively submitted by the Board to a similar vote until a fifty-five per cent (55%) affirmative vote is obtained.

The sum so deducted shall be paid forthwith to the Retirement System, and shall be credited to the individual account of the member from whose compensation it was deducted, and the total of said contributions, together with interest credited thereon, shall be applied to provide part of the retirement allowance granted to said member; or said total of said contributions, together with interest credited thereon shall be paid to said member upon termination of his employment by the City prior to retirement, or to his estate or beneficiary upon his death, in the manner provided by the City Council. The City Council, however, shall provide for election by members who are entitled to be credited with at least 5 years of service and whose employment is terminated by cause other than death or retirement, to allow their accumulated contributions to remain in the Retirement Fund, to continue as members of the System and to be subject to the same age and disability requirements as apply to other members for service or disability retirement, but they shall not be subject to a minimum service requirement, and the minimum retirement allowances shall not apply to them, unless they meet such minimum service requirement. Subject to rules prescribed by the Board, any member may elect to make contributions in excess of his contributions herein required, for the purpose of providing additional benefits, and benefits provided hereunder for such member shall be exclusive of such additional benefits. The exercise of this privilege by a member shall not require the City to make any contributions. Additional contributions shall be administered in the same manner as normal contributions.

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

MEASURE (3)

| 65 & over | 1.3147929 | 1 3216755 |

The fractions herein set forth at ages other than age 60 are based on the interest rate and mortality tables used under the Retirement System on the effective date hereof and shall be adjusted by the Board in accordance with such interest and mortality tables as the Board may adopt thereafter.

The Retirement System also shall provide for death benefits for members of the System. The City Council also shall provide that a member retiring may elect, before the first payment of the retirement allowance is made, to receive the actuarial equivalent of his allowance in a lesser allowance to be received by him throughout his life and in other benefits payable after his death to another person, including an allowance throughout the life of such person.

For the purpose of this Section, the qualifying ten-year periods of service shall be accumulated during any continuous periods of not more than twelve years, provided any absence from or return to actual service during such twelve-year periods is approved by the Civil Service Board in the case of persons in the classified civil service or by the City Council in the case of other persons within the Retirement System

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

Sec 2004. Notwithstanding the provisions of Section 2003 to the contrary, the provisions of this Section shall apply to the Retirement System The City Council also shall provide that a member retiring may elect before the first payment of his retirement allowance is made, and that a member may elect

at any time before retirement, but only after qualification for service retirement, as provided in Section 2010 to receive the actuarial equivalent of the portion or all of his allowance, as the case may be, which would not be continued automatically regardless of dependents then living, in a lesser allowance to be received by him throughout his life and in other benefits payable after his death to another person, including an allowance throughout the lite of such person. The amounts payable under options two (2) or three (3) as stated in Ordinance No. 713 C.M.S., which were elected prior to the effective date of Section 2007 by a person who is living on that date, shall be adjusted to amounts calculated as if the provisions of that Section had been in effect at the date of his retirement, but no adjustment shall be made because of payments made prior to such effective date.

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

Sec. 2004.5. The Retirement System also shall provide for retirement for disability after five years of service credited under the System, and before age 60, subject to the following conditions:

It is the intention of this section that allowances granted to or on account of members of the System for injury, illness or death incurred in the performance of duty shall not be cumulative with benefits under the Labor Code of California awarded as the result of the same injury, illness or death. If any member of the System or dependent receives compensation under the Labor Code for disability or death arising out of and in the course of the performance of duty, any payment on account thereof shall be applied as a credit and set-off against any payment on account of salary granted to such member under Section 8.04 of the Laws and Rules of the Civil Service Board: or retirement allowances or other benefit granted to or on account of such member under the provisions of this article as follows:

(a) If the amount is paid in one sum or in installments equal to or greater than such salary, retirement allowance, or other benefit, such member or dependent shall not receive any salary, retirement allowance or other benefit until the total amount of the salary, retirement allowance, or other benefit, which would otherwise be payable equals the total amount received under the Labor Code.

(b) If the amount is paid in installments less than such salary, retirement allowance or other benefit, the salary, retirement allowance or other benefit shall be reduced so that the total of salary, retirement allowance or other benefit plus the amounts received under the Labor Code will equal the salary, retirement allowance, or other benefit which would otherwise be due.

(c) In either case, any award specifically granted for medical, surgical or hospital expenses shall not reduce the salary, retirement allowance or other benefit.

No disability retirement benefits shall be paid under this section on the basis of an award by the Workmen's Compensation Appeals Board of the State of California.

This section shall become effective on the first day of the month next following approval by the Legislature and filing with the Secretary of State.

And we further certify that we have compared each of the foregoing proposed and ratified amendments to the Charter of the City of Oakland with the respective original proposals submitting the same to the electors of said City, and find that each of the foregoing is a full, true and correct copy thereof.

In witness whereof, we have hereunto set our hands and caused the seal of the said City of Oakland to be affixed hereto this seventh day of June, 1971.

*Senate Joint Resolution No. 29—Relative to the protection of fishlife.*

[Filed with Secretary of State July 9, 1971.]

WHEREAS, The United States Bureau of Reclamation, in undertaking development of the Central Valley Project upon the Sacramento, San Joaquin and American Rivers of this state, has destroyed substantial natural salmon and steelhead spawning habitat through the construction of its dams; and

WHEREAS, The bureau has, with the expenditure of substantial sums of public funds, attempted to mitigate such fishery losses through construction of artificial fish propagation and handling facilities, including the Coleman National Fish Hatchery, the Nimbus State Fish Hatchery and the Keswick fish handling facility; and

WHEREAS, Each of these bureau facilities has been characterized by chronic functional deficiencies which have prevented their public purpose from being realized and the public investment which they represent from being properly returned; and

WHEREAS, Efforts by state conservation officials to persuade the bureau to remedy the aforementioned deficiencies have been largely unsuccessful; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly*, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to instruct the Secretary of the Interior to take those actions necessary to abate temperature control deficiencies now causing disease losses of up to 90 percent of the attempted production at the federally financed Coleman and Nimbus hatcheries; to increase rearing facilities at these hatcheries so as to permit the production of fish of sufficient size to survive; to amend the design and operation of the Keswick fish handling facility so as to permit its efficient year-around operation; and to take such other actions as are necessary to accomplish the long overdue fishery mitigation purposes of the aforementioned Central Valley Project facilities; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of the Interior, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, The East Side Division offers the only feasible means of delivering supplemental water to these areas to meet increasing domestic, municipal and industrial demands which are worsening the present overdraft condition; and

WHEREAS, The East Side Division can be used to improve water quality conditions in the San Joaquin River System and can furnish water to enhance fish and wildlife habitat; and

WHEREAS, Eighty-five to 90 percent of the water made available by the initial phase of the East Side Division would serve lands which are now developed; and

WHEREAS, This facility would prevent further subsidence of lands on the east side of the San Joaquin Valley, and in so doing would prevent the further loss of ground water storage capacity and the possible worsening of water quality as lower depths are reached; and

WHEREAS, Water deliveries from the proposed East Side Division would stabilize ground water tables and assist in meeting demands of an increasing population; and

WHEREAS, The project is economically and engineeringly feasible, there is a market for the water, and the project would be a worthwhile addition to existing Central Valley Project facilities; now, therefore, be it

WHEREAS, The California Legislature in 1969 adopted a resolution which memorialized the Congress of the United States to enact appropriate legislation to provide for the procurement and retention of judge advocates for the armed forces, and the same resolution expressed approval of the subject matter and the contents of the then pending federal legislation which sought to achieve the desired result; and

WHEREAS, The currently pending federal legislation is designed to further the retention of judge advocates of the Army, Navy, Air Force, and Marine Corps and of law specialists of the Coast Guard, because the retention rate of legal officers by the armed services is now dangerously low and legal careers with the armed forces should be made more financially acceptable; and

WHEREAS, The Military Justice Act of 1968 has extended to service personnel the right-to-counsel safeguards which the United States Supreme Court in recent years has granted to defendants charged with crime in the civil courts, and the same statute requires the armed services to provide qualified and experienced lawyers as military judges in trials by special and by general courts-martial, and the four military services are very hard pressed to obtain and retain at least 700 additional military lawyers in order to satisfy the requirements of the statute; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact early appropriate legislation approving the procure-

ment and retention of judge advocates and law specialist officers for the armed forces; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and the Vice President of the United States, to the Speaker of the House of Representatives, to the Chairman of the Senate Committee on Armed Services, to the Chairman of the House Committee on Armed Services, to the Secretary of Defense and the respective Secretaries of the Army, Navy, and Air Force, and to the executive secretary, Judge Advocates Association.

WHEREAS, The Santa Susana Mountains, situated in Los Angeles and Ventura Counties, from the Golden State Freeway on the northeast to the foot of the mountains in the northeast Simi Valley, represent an area uniquely suited to dedication as a regional park because of diversity of plant and animal life, natural beauty, and historical significance; and

WHEREAS, The Santa Susana Mountains could not, because of terrain and other factors, be developed economically for residential, commercial, or industrial purposes, unless such uses were established in conjunction with the use of the area for park purposes; and

WHEREAS, Several local organizations, such as Chatsworth Beautiful, Santa Susana Mountain Park Association, and Simi Valley Beautiful, together with community-minded residents of southern California, have already begun work on the preservation of part of the proposed park area; and

## RESOLUTION CHAPTER 106

*Assembly Joint Resolution No. 42—Relative to national environmental protection programs.*

[Filed with Secretary of State July 28, 1971.]

WHEREAS, The President of the United States stated in 1970 that responsibility for pollution control and related environmental protection programs is now fragmented among several departments and agencies of government, thus weakening our federal effort, and since air pollution, water pollution, and solid wastes are different forms of a single problem, it becomes increasingly evident that broad systems approaches are needed to bring our pollution problems under control; and

WHEREAS, Millions of words have been written about the present worldwide ecological crisis, while it has been, and is still being, studied by a myriad of governmental agencies, task forces, and commissions; and

WHEREAS, In order to forestall and reduce unemployment and the related waste of national talent and resources, it is essential that the federal government take effective steps now to assist in the conversion of defense-related programs to civilian-oriented activities; and

WHEREAS, The federal investment in science and technology, especially in the education of scientists, engineers, and technicians, constitutes one of the nation's most valuable resources for progress in the future; and

WHEREAS, In these times of deepening concern, it is essential that this vast potential be utilized in coping with the problems of manpower, unemployment, poverty, crime, race relations, pollution in all forms, nutrition, housing, health care, transportation, education, and social alienations; and

WHEREAS, Groups and organizations, such as the California-based Ecology Development and Implementation Commitment Team (EDICT) and the Aerospace Industries Association of America, have called for a national program to utilize the available talents and resources of the aerospace industry in the battle to improve our environment; and

WHEREAS, The President of the United States has also called for a national commitment and a rational commitment to solve our most serious pollution and social problems; and

WHEREAS, Committees of the United States Congress are now studying legislative measures calling for just such a national commitment; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully urge the Senators and Representatives from California in the Congress of the United States to lend their full support to the enactment of legislative measures to establish national environmental protection programs; and be it further

## RESOLUTION CHAPTER 107

*Assembly Concurrent Resolution No. 26—Relative to bicycle lanes and paths.*

[Filed with Secretary of State July 28, 1971.]

WHEREAS, It has come to the attention of the Members of the Legislature that bicycling is becoming the principal sport and recreation of ever-increasing numbers of Californians of all ages, and serves as an important mode of basic transportation for many persons as well; and

WHEREAS, The volume of motor traffic on California streets and highways makes bicycling a sometimes hazardous pursuit; and

WHEREAS, Alternatives to bicycling on public streets and highways by sharing the traffic lanes with motor vehicles should be made available to the bicyclists of the state, since every effort should be made to encourage this healthful and pollution-free activity; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Division of Highways shall study the most feasible and least expensive methods by which existing and future public streets and thoroughfares can more safely accommodate bicycle riders; and be it further

*Resolved,* That the Division of Highways report its findings and recommendations to the Legislature no later than the fifth calendar day of the 1972 Regular Session; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Public Works and the State Highway Engineer.

## RESOLUTION CHAPTER 108

*Assembly Concurrent Resolution No. 124—Relative to jobs for veterans.*

[Filed with Secretary of State July 30, 1971.]

WHEREAS, Although Vietnam veterans have encountered danger, have given years of their lives, and have sacrificed much in the service of their country, Vietnam veterans have substantially higher unemployment rates than men in their own age groups who have stayed at home; and

WHEREAS, President Nixon recently called a White House meeting to discuss ways to assist returning veterans in finding employment and training opportunities through the Federal Jobs for Veterans program and, at the meeting, the President emphasized that the nation must take bold action to reverse the trend of unemployment among veterans; and

WHEREAS, The Vietnam veterans deserve preference in finding employment and training opportunities in the State of California; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That all public and private employers should consider hiring returning servicemen as a matter of highest priority.

## RESOLUTION CHAPTER 109

*Senate Joint Resolution No. 17—Relative to firefighting.*

[Filed with Secretary of State July 30, 1971.]

WHEREAS, Recent fires in the brush-laden hills and canyons of this state have shown the need for a more efficient system of airdrop of fire-retardant chemicals or water, or both fire-retardant chemicals and water; and

WHEREAS, While the existing chemicals or water, or both, seem to be effective, their usefulness is diminished because of the problems of accurate drops on, or deliveries in large quantities to, the target areas from the air; and

WHEREAS, This is due, in part, to the fact that relatively small airplanes are used to deliver the fire-retardant chemicals or water, or both, to the target areas, and that the airplanes are required to fly dangerously low in order to insure a direct hit on the target area since the fire-retardant chemicals or water, or both, when released from airplanes, immediately disperse; and

WHEREAS, It has been determined that large quantities of fire-retardant chemicals or water, or both, could be delivered to the target areas with more safety and accuracy, by the use of large airplanes equipped with devices for carrying and dropping self-bursting containers filled with such chemicals or water, or both; and

WHEREAS, This could be accomplished by the use of existing airplanes equipped with devices for carrying such containers and trained personnel of the United States Air Force and the Air National Guard; and

WHEREAS, Such airplanes and trained personnel could be made available to local governments during emergency fire conditions; and

WHEREAS, It would be in the best interest of this state and country to utilize existing federal and state airplanes and trained personnel to control forest fires efficiently; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President and Congress of the United States and the Secretary of Defense to study the feasibility of utilizing military airplanes and personnel based in this state to inaugurate programs of training personnel and active participation in fighting fires in mountains and canyons of this state by dropping fire-retardant chemicals or water, or both fire-retardant chemicals and water, in self-bursting containers from airplanes; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Defense, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, The Corps of Engineers is now making a comprehensive review investigation of the Santa Ana River Basin for flood control, water conservation, and other allied purposes; and

WHEREAS, Various alternatives are being studied to accomplish these purposes, which include measures for heightening Prado Dam and enlarging Prado Reservoir, along with varying degrees of downstream channel improvements; and

WHEREAS, The Corps of Engineers tentatively plans to issue a draft report on their proposal for Prado Dam and Reservoir in May of 1972; and

WHEREAS, Any heightening of Prado Dam and Reservoir enlargement could have serious economic impact on adjacent property owners, the local economy, and the local tax base, resulting from inundation of lands surrounding Prado Reservoir; and

WHEREAS, The southern California earthquake of February 9, 1971, caused extensive damage to the Van Norman Reservoir with potential threat to human life and private property downstream, causing serious public concern and awareness of future dam safety requirements throughout California; and

WHEREAS, Essential to determining an adequate and acceptable proposal for additional flood control, water conservation, or allied purposes is the necessity to incorporate the views of concerned private and public interests in San Bernardino, Riverside, and Orange Counties; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California memorializes the United States Army Corps of Engineers to establish procedures whereby property owners adjacent to or in the vicinity of Prado Dam and Reservoir are apprised of any alternatives being studied by the Corps of Engineers, and whereby their views and concerns may be adequately taken into account prior to the issuance of any report on the proposed project; and to establish similar procedures for those property owners and other concerned citizens downstream from Prado Dam and Reservoir, to assure their protection from possible earthquake damage and flooding which could result from the enlargement of the Prado Dam and Reservoir; and to establish such procedures whereby property owners downstream of the Prado Dam and Reservoir are apprised as to the flood damage threat and the environmental water quality problems which would exist both with and without the enlargement of Prado Dam; and be it further

*Resolved,* That the Corps of Engineers is requested, in its forthcoming report on Prado Dam and Reservoir, to adequately describe, for each alternative, all potential adverse effects occurring to all property owners who could be harmed

by enlarging the reservoir or by potential earthquake damage due to heightening and enlargement of the Prado Dam and Reservoir, and similarly describe the flood damage and water quality problems which would exist without such enlargement; and be it further

*Resolved*, That the Secretary of the Senate transmit a copy of this resolution to the United States Army Corps of Engineers.

[Filed with Secretary of State August 6, 1971.]

WHEREAS, The Davis-Bacon Act requires that laborers on all federal construction projects be paid the locally prevailing wage rates; and

WHEREAS, Suspension of the Davis-Bacon Act will invite wage-cutting drives by employers and could plunge the construction industry into labor-management turmoil; and

WHEREAS, Between 1949 and 1969 land costs have jumped from 11 percent to 21 percent and financing costs from 5 percent to 10 percent; and

WHEREAS, The Davis-Bacon Act requirement that "prevailing wages" be paid has meant payment of the equivalent of union scale in the area, and suspension of the act will have no real effect on inflation but rather would be an invitation to unscrupulous employers to exploit workers by competitive

undermining of fair wages and labor standards; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature of the State of California respectfully memorializes the President not to suspend the Davis-Bacon Act, other than in a national emergency as defined by Congress, and memorializes Congress to pass an amendment to the Davis-Bacon Act which would limit the presidential power to suspend the Davis-Bacon Act in the future to a national emergency as defined by Congress; and be it further

[Filed with Secretary of State August 6, 1971 ]

*Resolved by the Assembly of the State of California, the Senate thereof concurring*, That the following rules be adopted as the Joint Rules of the Senate and Assembly for the 1971 Regular Session.

### Standing Committees

1. Each house shall appoint such standing committees as the business of the house may require, the committees, the number of members, and the manner of selection to be determined by the rules of each house.

### Joint Meeting of Committees

3. Whenever any bill has been referred by the Senate to one of its committees, and the same or a like bill has been referred by the Assembly to one of its committees, the chairmen of the respective committees, when in their judgment the interests of legislation or the expedition of business will be better served thereby, shall arrange for a joint meeting of their committees for the consideration of such bill.

### Effect of Adoption of Joint Rules

3.5. The adoption of the Joint Rules for any extraordinary session shall not be construed as modifying or rescinding the Joint Rules of the Senate and Assembly for any previous session, nor as affecting in any way the status or powers of the interim committees created by those rules.

BILLS AND RESOLUTIONS

Definition of Word Bill

4. Whenever the word "bill" is used in these rules, it shall include constitutional amendments and concurrent and joint resolutions.

Concurrent and Joint Resolutions

5. Concurrent resolutions relate to matters to be treated by both houses of the Legislature.

Joint resolutions are those which relate to matters connected with the federal government.

Resolutions Treated as Bills

6. Constitutional amendments and concurrent and joint resolutions shall be treated in all respects as bills; except that concurrent and joint resolutions shall not be deemed bills within the meaning of subdivision (a) of Section 8 of Article IV of the Constitution. As in the case of bills, they shall be engrossed in the house in which they originate before being voted upon.

PREPARATION AND INTRODUCTION OF BILLS

Title of Bill

7. The title of every bill introduced shall convey an accurate idea of the contents of the bill and shall be indicative of the scope of the act and the object to be accomplished. In amending a code section, the mere reference to the section by number shall not be deemed sufficient.

Division of Bill Into Sections

8. A bill amending more than one section of an existing law shall contain a separate section for each section amended.

Bills which are not amendatory of existing laws shall be divided into short sections, where this can be done without destroying the sense of any particular section, to the end that future amendments may be made without the necessity of setting forth and repeating sections of unnecessary length.

Introduction of Bills

8.3. (a) Unless otherwise provided by concurrent resolution, no bill shall be introduced after the Friday following the Easter recess of a regular session except as follows:

(1) A written notice of intention to introduce a bill, a copy of the bill and a digest prepared pursuant to Rule 8.5 shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, and shall be transmitted to the Rules Committee of the appropriate house. The notice and digest shall be printed in the Journal of that house.

(2) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for the introduction of the proposed bill.

(3) If the Rules Committee recommends that introduction of the proposed bill be permitted, the member may offer a resolution, without further reference thereof to committee, granting permission to introduce the bill. The adoption of the resolution granting such permission shall require an affirmative recorded vote of two-thirds of the elected members of the house in which the request is made.

(b) All requests for the preparation of a bill to be introduced on or before the Friday following the Easter recess shall be made to the Legislative Counsel on or before 5 p.m. on the Friday preceding the Easter recess. The Legislative Counsel shall not deliver the draft of any bill requested after 5 p.m. on the Friday preceding the Easter recess until the Saturday following the Easter recess or after.

(c) As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Digest of Bills Introduced

8.5. No bill shall be introduced unless it is contained in a cover attached by the Legislative Counsel and unless it is accompanied by a digest, prepared and attached to the bill by the Legislative Counsel, showing the changes in the existing law which are proposed by the bill. No bill shall be printed where the body of the bill or the Legislative Counsel's Digest has been altered, unless the alteration has been approved by the Legislative Counsel. If any bill is presented to the Secretary of the Senate or Chief Clerk of the Assembly for introduction which does not comply with the foregoing requirements of this rule the Secretary or Chief Clerk shall return it to the member who presented it. The digest shall be printed on the bill as introduced, commencing on the first page thereof.

Digest of Bills Amended

8.6. Whenever a bill is amended in either house, the Secretary of the Senate or the Chief Clerk of the Assembly, as the case may be, shall request the Legislative Counsel to prepare an amended digest and cause it to be printed on the first page of the bill as amended. The digest shall be amended to show changes in the existing law which are proposed by the bill as amended with any material changes in the digest indicated by the use of appropriate type.

Errors in Digest

8.7. If a material error in a printed digest referred to in Joint Rule 8 5 or 8.6 is brought to the attention of the Legislative Counsel, he shall prepare a corrected digest which shall

show the changes made in the digest as provided in Joint Rule 10 for amendments to bills. He shall deliver the corrected digest to the Secretary or the Chief Clerk, as the case may be. If the correction warrants it in the opinion of the President pro Tempore of the Senate or the Speaker of the Assembly, a corrected print of the bill as introduced shall be ordered with the corrected digest printed thereon.

Restrictions as to Amendments

9. A substitute or amendment must relate to the same subject as the original bill, constitutional amendment, or resolution under consideration. No amendment shall be in order when all that would be done to the bill is the addition of a coauthor or coauthors, unless the Rules Committee of the house in which such an amendment is to be offered grants prior approval.

Changes in Existing Law to Be Marked by Author

10. In a bill amending or repealing a code section or a general law, any new matter shall be underlined and any matter to be omitted shall be in type bearing a horizontal line through the center and commonly known as "strikeout" type. When printed the new matter shall be printed in italics, and the matter to be omitted shall be printed in "strikeout" type.

In any amendment to a bill which sets out for the first time a section being amended or repealed, any new matter to be added and any matter to be omitted shall be indicated by the author and shall be printed in the same manner as though the section as amended or repealed were a part of the original bill and was being printed for the first time.

When an entire code is repealed as part of a codification or recodification or when an entire title, part, division, chapter, or article of a code is repealed, the sections comprising such code, title, part, division, chapter, or article shall not be set forth in the bill or amendment in strikeout type.

Rereference to Fiscal Committees

10.5. Bills shall be rereferred to the fiscal committee of each house when they would do any of the following:

(1) Appropriate money.

(2) Result in substantial expenditure of state money by: (a) imposing new responsibilities on the state or (b) new or additional duties on a state agency or (c) liberalization of any state program, function, or responsibility.

(3) Result in a substantial loss of revenue to the state.

(4) Result in substantial reduction of expenditures of state money by reducing, transferring, or eliminating any existing responsibilities of any state agency, program or function.

Concurrent and joint resolutions shall be rereferred to the fiscal committee of each house when they contemplate any action which would involve any of the following:

(1) Any substantial expenditure of state money.
(2) A substantial loss of revenue to the state.

The above requirements do not apply to bills or concurrent resolutions which contemplate the expenditure or allocation of contingent funds.

Heading of Bills

10.7. No bill shall indicate in its heading or elsewhere that it was introduced at the request of a state agency or officer or any other person. No bill shall contain the words "By request" or words of similar import.

Consideration of Bills

10.8. At a regular session, no bill shall be heard by any committee or acted upon by either house until 30 calendar days have elapsed following the date the bill was first introduced except this provision and the limitation contained in subdivision (a) of Section 8 of Article IV of the Constitution may be dispensed with as follows:

(a) A written request for such dispensation entitled "Request to Consider and Act on Bill Within 30 Calendar Days" shall be filed with the Chief Clerk of the Assembly or the Secretary of the Senate, as the case may be, printed in the Journal and transmitted to the Rules Committee of the appropriate house.

(b) The Rules Committee of the Assembly or Senate, as the case may be, shall determine whether there exists an urgent need for dispensing with the 30-calendar-day waiting period following the bill's introduction.

(c) If the Rules Committee recommends that the waiting period be dispensed with, the member may offer a resolution, without further reference thereof to committee, authorizing hearing and action upon the bill before the 30 calendar days have elapsed. The adoption of the resolution shall require an affirmative recorded vote of three-fourths of the elected members of the house in which the resolution is presented.

As used in this rule "bill" includes constitutional amendments but does not include joint or concurrent resolutions.

Reading of Concurrent and Joint Resolutions

10.9. The Rules Committee of each house shall determine whether there exists an urgent need for dispensing with the requirement that a concurrent or joint resolution be given more than one formal reading in that house. If the Rules Committee so determines that only one formal reading is required, the member may offer a single house resolution, without further reference thereof to committee, authorizing action on the joint or concurrent resolution immediately. As used in this rule, "uncontested bill" means a bill, except a revenue measure or a measure as to which the 30-day limitation prescribed by subdivision (a) of Section 8 of Article IV of the Constitution has been dispensed, which: (a) receives a do-pass or do-pass-as-amended recommendation from the committee to which it is referred, by unanimous vote of the members present provided a quorum is present; and (b) has no opposition expressed by any person present at the committee meeting with respect to the final version of the bill as approved by the committee; and (c) prior to final action by the committee has been requested, by the author, to be placed on the consent calendar.

No Senate bill shall be passed by the Senate within 15 days, and no Assembly bill shall be passed by the Assembly within 10 days, prior to the commencement of the 30-day recess of the two houses of the Legislature at a regular session required by Section 3 of Article IV of the Constitution, unless permission to vote on such bill shall be granted by a three-fourths vote of the house of its origin after being recommended by the Committee on Rules (if it be a Senate bill) or by the Speaker of the Assembly (if it be an Assembly bill). As used in this rule, "bill" does not include concurrent resolutions.

### Procedure on Defeat of More Than Majority Bill

23.5. Whenever a bill containing a section or sections requiring for passage an affirmative recorded vote of more than 21 votes in the Senate and more than 41 votes in the Assembly is being considered for passage and the urgency clause, if the bill is an urgency bill, or the bill, in any case, fails to receive the necessary votes to make all sections effective, no further

action may be taken on the bill; provided that an amendment to remove all sections requiring the higher vote for passage from the bill shall be in order prior to consideration of further business. If the amendment is adopted, the bill shall be reprinted to reflect such amendment. When the bill is reprinted, it shall be returned to the same place on the file as when it failed to receive the necessary votes.

### Enrollment of Bill After Passage

24. After a bill has passed both houses it shall be printed in enrolled form, omitting symbols indicating amendments, and shall be compared by the Engrossing and Enrolling Clerk and the proper committee of the house where it originated to determine that it is in the form approved by the houses. The enrolled bill shall thereupon be signed by the presiding officers of both houses and the Secretary of the Senate and Chief Clerk of the Assembly and presented without delay to the Governor. The committee shall report the time of presentation of the bill to the Governor to the house and the record shall be entered in the journal. After enrollment and signature by the officers of the Legislature, constitutional amendments, and concurrent and joint resolutions shall be filed without delay in the office of the Secretary of State and the time of filing shall be reported to the house and the record entered in the journal.

### Amendments to Concurrent and Joint Resolutions

25.5. When a concurrent or joint resolution is amended, and the only effect of the amendments is to add coauthors, the joint or concurrent resolution shall not be reprinted unless specifically requested by one of the added coauthors, but a list of the coauthors shall appear in the journal and history.

To Concur or Refuse to Concur in Amendments

26. In case the Senate amend and pass an Assembly bill, or the Assembly amend and pass a Senate bill, the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) must either "concur" or "refuse to concur" in the amendments. If the Senate concur (if it be a Senate bill), or the Assembly concur (if it be an Assembly bill), the Secretary or Chief Clerk shall notify the house making the amendments and the bill shall be ordered to enrollment.

Concurring in Amendments Adding Urgency Section

27. When a bill which has been passed in one house is amended in the other by the addition of a section providing that the act shall take effect immediately as an urgency statute and is returned to the house in which it originated for concurrence in the amendment or amendments thereto, the procedure and vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall concur in the amendment or amendments shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, concurrence in the amendments shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to concur in the amendment or amendments, and the procedure thereupon shall be as provided in Joint Rule No. 28.

When Senate or Assembly Refuse to Concur

28. If the Senate (if it be a Senate bill) or the Assembly (if it be an Assembly bill) refuse to concur in amendments to the bill made by the other house, and when the other house has been notified of such refusal to concur, a conference committee shall be appointed for each house in the manner prescribed by these rules. The Committee on Rules in the case of the Senate and the Speaker in the case of the Assembly shall each appoint a committee of three (3) on conference, and the Secretary or the Chief Clerk shall immediately notify the other house of the action taken.

Committee on Conference

28.1. The Committee on Rules and the Speaker, in appointing a committee on conference, shall each select two members from those voting with the majority on the point about which the difference has arisen, and the other member from the minority, in the event there is a minority vote.

Whether a member has voted with the majority or minority on the point about which the difference has arisen is determined by his vote on the appropriate rollcall, as follows:

(1) In the Assembly—

(a) The rollcall on the question of final passage of a Senate bill amended in the Assembly when the Senate has refused to concur with the Assembly amendments.

(b) The rollcall on the question of concurrence with Senate amendments to an Assembly bill.

(2) In the Senate—

(a) The rollcall on the question of final passage of an Assembly bill amended in the Senate when the Assembly has refused to concur with the Senate amendments.

(b) The rollcall on the question of concurrence with Assembly amendments to a Senate bill.

Meetings and Reports of Committees on Conference

29. The first Senator named on the conference committee shall act as chairman of the committee from the Senate, and the first Assemblyman named on such committee shall act as chairman of the committee from the Assembly. The chairman of the committee on conference for the house of origin of the bill shall arrange the time and place of meeting of the conference committee and shall prepare or direct the preparation of reports. It shall require an affirmative vote of not less than two of the Assembly Members and two of the Senate Members constituting the committee on conference to agree upon a report, and the report shall be submitted to both the Senate and the Assembly. The committee on conference shall report to both the Senate and Assembly. Such report is not subject to amendment, and if either house refuses to adopt such report, the conferees shall be discharged and other conferees appointed; provided, however, that no more than three different conference committees shall be appointed on any one bill. No member who has served on a committee on conference shall be appointed a member of another committee on conference on the same bill. It shall require the same affirmative recorded vote to adopt any conference report as required by the Constitution upon the final passage of the bill affected by such report. It shall require an affirmative recorded vote of two-thirds of the entire elected membership of each house to adopt any conference report affecting any bill which contains an item or items of appropriation which are subject to subdivision (d) of Section 12 of Article IV of the Constitution. The report of a conference committee shall be in writing, and shall have affixed thereto the signatures of each Senator and each Assemblyman consenting to the report. Space shall also be provided where a member of a conference committee may indicate his dissent in the committee's findings. Any dissenting member may have attached to a conference committee report a dissenting report which shall not exceed, in

length, the majority committee report. A copy of any amendments proposed in the majority report shall be placed on the desk of each member of the house before it is acted upon by the house.

The vote on concurrence or upon the adoption of such conference report shall be deemed the vote upon final passage of such bill.

When Conference Committee Report Is in Order

30. The presentation of the report of a committee on conference shall always be in order, except when a question of order or a motion to adjourn is pending, or during rollcall, and, when received, the question of proceeding to the consideration of the report, if raised, shall be immediately passed upon, and shall be determined without debate.

Conference Committee Reports on Urgency Statutes

30.5. When the report of a committee on conference recommends the amendment of a bill by the addition of a section providing that the act shall take effect immediately as an urgency statute, the procedure and the vote thereon shall be as follows:

The presiding officer shall first direct that the urgency section be read and put to a vote. If two-thirds of the members elected to the house vote in the affirmative the presiding officer shall then direct that the question of whether the house shall adopt the report of the committee on conference shall be put to a vote. If two-thirds of all the members elected to the house vote in the affirmative, the adoption of the report and the amendments proposed thereby shall be effective.

If the affirmative vote on either of such questions is less than two-thirds of all the members elected to such house, the effect is a refusal to adopt the report of the committee on conference.

Failure to Agree on Report

30.7. A conference committee may find and determine that it is unable to submit a report to the respective houses, upon the affirmative vote to that effect of not less than two of the Assembly Members and not less than two of the Senate Members constituting the committee. Such finding may be submitted to the Chief Clerk of the Assembly and the Secretary of the Senate in the form of a letter from the chairman of the committee on conference for the house of origin of the bill, containing the signatures of the members of the committee consenting to the finding and determination that the committee is unable to submit a report. The Chief Clerk of the Assembly and the Secretary of the Senate, upon being notified that a conference committee is unable to submit a report, shall so inform each house, whereupon the conferees shall be discharged and other conferees appointed, in accordance with the provisions of Rule 29.

The committee shall elect its own chairman. Vacancies occurring in the membership of the committee shall be filled in the manner provided for in these rules for other committees. A vacancy shall be deemed to exist as to any member of the committee whose term is expiring whenever such member is not reelected at the general election.

(b) The committee is authorized to make rules governing its own proceedings. The provisions of Rule 36 of the Joint Rules of the Senate and Assembly relating to investigating committees shall apply to the committee.

Prior to the issuance of any subpoena by the committee with respect to any matter before the committee, it shall by a resolution adopted by a vote of two members of the committee from each house of the Legislature define the nature and scope of its investigation in the matter before it.

(c) Funds for the support of the committee shall be provided from the Contingent Funds of the Assembly and the Senate in the same manner that such funds are made available to other joint committees of the Legislature.

(e) Any person may (a) file with the committee a verified complaint in writing which shall state the name of the Member of the Legislature alleged to have committed the violation complained of, and which shall set forth the particulars thereof, or (b) file a complaint concerning the alleged violation by a Member of the Legislature with the district attorney of the appropriate county.

If a person files a complaint with respect to any alleged violation by a Member of the Legislature with the committee, he may not thereafter file a complaint to institute a criminal prosecution for such violation until the committee has rendered its report or until a period of 120 days has elapsed since the filing of the complaint. If a complaint is filed with the appropriate district attorney by any person concerning an alleged violation by a Member of the Legislature of any provision of Rule 44, such person may not thereafter file a complaint with respect to such alleged violation with the committee.

If a complaint is filed with the committee, the committee shall promptly send a copy of the complaint to the Member of the Legislature alleged to have committed the violation complained of, who shall thereafter be designated as the respondent.

No complaint may be filed with the committee after the expiration of six months from the date upon which the alleged violation occurred.

(f) If the committee determines that the verified complaint does not allege facts, directly or upon information and belief, sufficient to constitute a violation of any of the provisions of Rule 44, it shall dismiss the complaint and notify the complainant and respondent thereof If the committee determines that such verified complaint does allege facts, directly or upon information and belief, sufficient to constitute a violation of any of the provisions of Rule 44, the committee shall promptly investigate the alleged violation and, if after such preliminary investigation, the committee finds that probable cause exists for believing the allegations of the complaint, it shall fix a time for a hearing in the matter, which shall be not more than 30 days after such finding. If, after the preliminary investigation, the committee finds that probable cause does not exist for believing the allegations of the complaint, the committee shall dismiss the complaint. In either event the committee shall notify the complainant and respondent of its determination.

(g) After the complaint has been filed the respondent shall be entitled to examine and make copies of all evidence in the possession of the committee relating to the complaint.

(h) If a hearing is to be held pursuant to subdivision (f) the committee, before the hearing has commenced, shall issue subpoenas and subpoenas duces tecum at the request of any party in accordance with the provisions of Chapter 4 (commencing with Section 9400), Part 1, Division 2, Title 2 of the Government Code. (k) After the hearing the committee shall state its findings of fact. If the committee finds that the respondent has not violated any of the provisions of Rule 44, it shall order the action dismissed, and shall notify the respondent and complainant thereof and shall also transmit a copy of the complaint and the fact of dismissal to the Attorney General and to the district attorney of the appropriate county. If the committee finds that the respondent has violated any of the provisions of Rule 44, it shall state its findings of fact and submit a report thereon to the house in which the respondent serves, send a copy of such findings and report to the complainant and respondent, and the committee shall also report thereon to the Attorney General and to the district attorney of the appropriate county.

(*l*) Nothing in this rule shall preclude any person from instituting a prosecution for violation of any provision of Rule 44 unless such person has filed a complaint with the committee concerning such violation, in which case such person may not file a complaint with the district attorney of the appropriate county to institute a criminal prosecution for such violation until the committee has made its determination of the matter or a period of 120 days has elapsed since the filing of the complaint with the committee.

(m) The filing of a complaint with the committee pursuant to this rule suspends the running of the statute of limitations applicable to any violation of the provisions of Rule 44 while such complaint is pending.

(n) The committee shall maintain a record of its investigations, inquiries, and proceedings. All records, complaints, documents, reports filed with or submitted to or made by the committee, and all records and transcripts of any investigations, inquiries or hearings of the committee under this rule shall be deemed confidential and shall not be open to inspection by any person other than a member of the committee, an employee of the committee, or a state employee designated to assist the committee, except as otherwise specifically provided in this rule. The committee may, by adoption of a resolution, authorize the release to the Attorney General or to the district attorney of the appropriate county of any information, records, complaints, documents, reports, and transcripts in its

possession material to any matter pending before the Attorney General or the district attorney. All matters presented at a public hearing of the committee and all reports of the committee stating a final finding of fact pursuant to subdivision (k) shall be public records and open to public inspection. Any employee of the committee who divulges any matter which is deemed to be confidential by this subdivision is punishable as provided in Section 8953 of the Government Code.

(o) All actions of the committee shall require the concurrence of two members of the committee from each house.

(p) The committee may render advisory opinions to Members of the Legislature with respect to the provisions of Rule 44 and their application and construction. The committee may secure an opinion from the Legislative Counsel for this purpose or issue its own opinion.

[Filed with Secretary of State August 12, 1971]

WHEREAS, California's salmon and steelhead resources are in a demonstrably critical state of decline, with many previously very productive runs of these fish entirely destroyed; and

WHEREAS, The salmon and steelhead resources of this state have long been of immense economic and recreational value to the people of California, providing not only a most needed food but also many hours of unsurpassed angling enjoyment; and

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California memorializes:

(1) The Federal Council on Environmental Quality to disapprove any proposed federal project on any California salmon and steelhead stream unless the Environmental Impact Re-

(2) The United States Army Corps of Engineers to issue no permits for waste discharges into any California salmon and steelhead stream under the National Refuse Act of 1899 without first making a finding that such discharge will have no substantial deleterious effect on the salmon and steelhead resources of that stream; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to each Senator and Representative from California in the Congress of the United States, to the Chairman of the Federal Council on Environmental Quality, and to the Administrator of the Federal Environmental Protection Agency.

The committee and subcommittee shall consist of four Members of the Senate, appointed by the Committee on Rules thereof, and four Members of the Assembly, appointed by the Speaker thereof. Vacancies occurring in the membership of the committee shall be filled by the appointing power.

It shall be the function of the Joint Committee on the State's Economy:

(A) With respect to the Governor's annual economic report and any supplement thereto, to make a continuing study of the matters contained therein;

(B) With respect to legislative initiative to achieve the policy for promoting employment growth, to make a continuing study of:

(1) The rates and levels of employment, production, income and purchasing power obtaining in the state and those needed to carry out the policy declared in the policy for promoting employment growth;

(2) Current and foreseeable trends in the levels of employment, production, income, and purchasing power;

(5) The competitive economic effect of the marketing in the state of goods and merchandise produced or manufactured in other states or in foreign nations;

(D) The Subcommittee on Economic Conversion succeeds to all powers and duties of the Joint Legislative Committee on Economic Conversion. The subcommittee is authorized and directed to ascertain, study and analyze all facts relating to ways in which this state's economy can adjust to the changing security needs of the country and prepare for a transition to a civilian economy when necessary. This is necessitated by the fact that for many years important segments of this state's economy have been dependent upon the military needs of the United States and that recently those needs have changed and as a consequence some areas in our state which have been dependent upon a particular military installation that has closed or upon certain government contracts that have not been renewed have suffered from unemployment and general business dislocation. In order to minimize the problems which result to local communities and to the state as a whole when converting from a military to a civilian economy it is necessary to prepare in advance. The subcommittee shall prepare schedules of possible private and public investment patterns and the employment and income effects to be expected therefrom; convene conferences on economic conversion and growth; focus statewide attention on the problems of conversion and economic growth; and study all parts of the state's economy, including, but not limited to, the operation, effect, administration, enforcement and needed revision of any and all laws in any way bearing upon or relating to such subject, and to

report thereon to the Legislature, including in the report its recommendations for appropriate legislation.

Funds heretofore made available to the Joint Legislative Committee on Economic Conversion shall be available to the subcommittee.

The chairman of the subcommittee shall have the authority heretofore granted to the Chairman of the Joint Legislative Committee on Economic Conversion.

3. Funds allocated pursuant to this measure or made available for expenditure thereby may be expended to pay such salary adjustments as are authorized by the Joint Rules Committee to provide an increase in the compensation for officers and employees during the month of August 1971 to provide compensation equivalent to that which they would have otherwise received had this measure been adopted prior to August 1, 1971.

4. Funds from each allocation made pursuant to this measure or made available for expenditure thereby may be expended to pay any obligation incurred between August 1, 1971, and the effective date of this measure, which would otherwise have been authorized hereunder had this measure been adopted prior to August 1, 1971, subject to the same limitation, conditions and requirements.

5. On or after July 31, 1971, no officer or employee of a committee subject to this measure shall be deemed to have a break in service or to have terminated his employment, for any purpose, nor to have incurred any change in his authority, status, or jurisdiction or in his salary or other conditions of employment, solely because of the failure to enact a measure extending the life of such committee prior to August 1, 1971.

6. Each committee named in this resolution shall report to the Joint Rules Committee by the date otherwise specified but, in any event, by July 31, 1972. The Joint Committee on Educational Goals and Evaluation shall also submit a report to the Joint Rules Committee by January 31, 1972.

## RESOLUTION CHAPTER 130

*Senate Joint Resolution No. 45—Relative to the Salton Sea.*

[Filed with Secretary of State August 19, 1971.]

WHEREAS, The Salton Sea is a recreational resource of unusual value because of its proximity to southern California population centers; and

WHEREAS, Rising salinity will destroy its value within a few years unless corrective action is taken immediately; and

WHEREAS, A task force of federal and state agencies completed a reconnaissance study of the Salton Sea problem in

August 1969, and determined that the Sea could be saved, that the project had a favorable cost-benefit ratio, and that the game fish would not be able to spawn successfully after the salinity reached 40 parts per thousand; and

WHEREAS, Salinities of 39 parts per thousand were recorded in October 1970, with the rate of increase being about one-half part per thousand per year; and

WHEREAS, Each year of delay adds millions of dollars to project costs; and

WHEREAS, All that is needed at this point is a modest federal effort to mesh with a corresponding state effort to define the best salinity control project and to estimate its cost; and

WHEREAS, The State of California has budgeted funds for its share of such an effort; and

WHEREAS, This situation is unusually grave, because further delay will jeopardize a salinity control project by increasing construction costs; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly*, That the Legislature of the State of California respectfully requests the President and Congress of the United States to authorize and fund a feasibility study to determine the best way to stop the salt level from increasing in Salton Sea, by passing H R No. 5648 or other appropriate enabling legislation and budgeting the necessary funds; and be it further

*Resolved*, That the federal government is requested to include funds for such a project in the budget for the next year; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the President of the United States, to the Secretary of the Interior, to the U.S. Army Corps of Engineers, to the Vice President, the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

# RESOLUTION CHAPTER 132

*Senate Concurrent Resolution No. 43—*
*Relative to firefighting.*

[Filed with Secretary of State September 15, 1971.]

WHEREAS, Recent fires in the brush-laden hills and canyons of this state have shown the need for a more efficient system of airdrop of fire-retardant chemicals or water, or both fire-retardant chemicals and water; and

WHEREAS, While the existing chemicals or water, or both, seem to be effective, their usefulness is diminished because of the problems of accurate drops on, or deliveries in large quantities to, the target areas from the air; and

WHEREAS, This is due, in part, to the fact that relatively small airplanes are used to deliver the fire-retardant chemicals or water, or both, to the target areas, and that the airplanes are required to fly dangerously low in order to insure a direct hit on the target area since the fire-retardant chemicals or water, or both, when released from airplanes, immediately disperse; and

WHEREAS, It has been determined that large quantities of fire-retardant chemicals or water, or both, could be delivered to the target areas with more safety and accuracy by the use of large airplanes equipped with devices for carrying and dropping self-bursting containers filled with such chemicals or water, or both; and

WHEREAS, This could be accomplished by the use of existing airplanes equipped with devices for carrying such containers and trained personnel of the United States Air Force and the Air National Guard; and

WHEREAS, Such airplanes and trained personnel could be made available to local governments during emergency fire conditions; and

WHEREAS, It would be in the best interest of this state and country to utilize existing federal and state airplanes and trained personnel to control forest fires efficiently; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Members hereby request the Governor and the Commanding General of the State Military Forces, Military Department, to study the feasibility of utilizing airplanes and trained personnel of the Air National Guard in fighting fires in mountains and canyons of this state by dropping fire-retardant chemicals or water, or both fire-retardant chemicals and water, in self-bursting containers from airplanes; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Governor and the Commanding General of the State Military Forces.

## RESOLUTION CHAPTER 133

*Senate Concurrent Resolution No. 59—Relative to state parks.*

[Filed with Secretary of State September 15, 1971.]

WHEREAS, Its serene beauty draws thousands upon thousands of Californians each year to the Mendocino coast; and

WHEREAS, The opportunities for these Californians to savor the delights of beaches, dunes, and river estuaries are limited to those few state park properties so wisely acquired by the State of California many years ago; and

WHEREAS, There now exists an opportunity to acquire several miles of unused beach land contiguous to popular McKerricher Beach State Park land which would link that park to a natural playground at and near the mouth of Ten Mile River, an area which includes great barren sand dunes and a vast marsh abounding with life forms which have been witlessly extirpated elsewhere in California; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Department of Parks and Recreation is directed to study, in consultation with the Department of Fish and Game, the possibility of incorporating within the state park system those beach lands extending north from the existing McKerricher State Park to the mouth of Ten Mile River, including the Ten Mile River dunes, beach, estuary, and such land and water areas lying easterly of State Highway 1 as the department finds to be necessary to protect the ecological integrity of the Ten Mile River estuarial system; and be it further

*Resolved,* That the Department of Parks and Recreation report its findings and recommendations to the Legislature no later than the fifth calendar day of the 1972 Regular Session; and be it further

*Resolved,* That the Secretary of the Senate transmit a copy of this resolution to the Director of Parks and Recreation.

## RESOLUTION CHAPTER 134

*Senate Concurrent Resolution No. 3—Relative to drinking drivers.*

[Filed with Secretary of State September 16, 1971.]

WHEREAS, Many drivers involved in traffic accidents in California have been found to have recently consumed alcohol and numerous studies indicate that the drinking driver is the single most significant factor in the cause of fatal accidents; and

WHEREAS, The drinking driver problem poses enormous difficulties for law enforcement, the judiciary, and those charged with traffic accident prevention; and

WHEREAS, There is no statutory or regulatory classification of drinking drivers and the chronic alcoholic and the occasional social drinker are treated alike; and

WHEREAS, Recognizing that the fear of strict law enforcement may be a deterrent with respect to the social drinker but is not with respect to the chronic alcoholic who is in need of psychiatric treatment, the Governor's Automobile Accident Study Commission has recommended that a scheme of classification of the drinking driver be developed which would serve as the basis for a customized approach; and

WHEREAS, The Governor's Automobile Accident Study Commission has also recommended that a schedule of mandatory fines and prison sentences be developed concurrently with the development of a system of classifying the drinking driver, the sanction schedule and the classification system being interrelated; and

WHEREAS, The commission has further recommended the establishment of county medical advisory boards comprised of physicians, including psychiatrists, to which a person charged with a drinking driver offense may be referred by a court for medical examination and board recommendations as to the individual's need for rehabilitative treatment; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Department of Motor Vehicles is requested to direct a study with the participation of the Office of Alcohol Program Management of the feasibility of implementing the recommendations of the Governor's Automobile Accident Study Commission relating to the drinking driver; and be it further

*Resolved,* That the Department of Motor Vehicles and the Office of Alcohol Program Management file an interim report with the Legislature no later than the 90th calendar day of the 1972 Regular Session and report their findings and recommendations, including any proposals for implementing legislation, to the Legislature not later than the 30th calendar day of the 1973 Regular Session; and be it further

*Resolved,* That the Secretary of the Senate transmit a copy of this resolution to the Director of Motor Vehicles, the Secretary of Human Relations, and the Coordinator of the Office of Alcohol Program Management.

[Filed with Secretary of State September 16, 1971 ]

WHEREAS, The United States government through water development and related activities has in some instances con-

tributed to the decline or destruction of salmon and steelhead populations and habitat in this state; and

WHEREAS, Provisions for protection of fish life affected by federal water developments have been inadequate or have been entirely ignored; and

WHEREAS, The Congress of the United States has in recent years made clear its intent that protection, and where feasible enhancement, of fish and wildlife shall be a primary purpose of federal water development projects; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Department of Fish and Game shall develop a series of reports on a program to restore salmon and steelhead to full preproject populations in those streams where salmon and steelhead populations have been destroyed or severely depleted because of federal projects including, but not limited to: (a) the identification of the projects and the streams, (b) the assessment of numbers of salmon and steelhead lost, (c) the assessment of damage to the environment, and (d) the estimate of the cost of mitigating the damage and restoring the salmon and steelhead, project by project; and be it further

*Resolved,* That the department report its findings, together with the views of affected federal agencies, to the Legislature by the fifth calendar day of each regular session of the Legislature beginning January, 1972, and transmit a copy of each report to the United States Secretary of the Interior, the Commissioner of the United States Bureau of Reclamation, the Chief of the United States Bureau of Fish and Wildlife, the Chief of the United States Army Corps of Engineers, the Administrator of the United States Environmental Protection Administration and the members of the California congressional delegation; and be it further

3. By amending Section 1416 of Article XIV thereof to read as follows:

"Section 1416. Accounting Control of Purchases. All purchases and contracts for supplies, materials, or equipment, executed by the City Manager, shall be pursuant to a written requisition from the department head or officer whose appropriation will be charged therefor, and no contract or purchase order shall be issued to any vendor or supplier unless and until the Director of Finance certifies that there is to the credit of such department or office a sufficient unincumbered appropriation balance to pay for the supplies, materials, or equipment, or contractual services, for which the contract or purchase order is to be issued."

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Resources Agency is directed to develop a program which would provide for the de-

velopment of equipment capable of cleaning up oil spills along coastal lands and inland waters of the state and for a service to clean up such oil spills along coastal lands and inland waters, and to report thereon to the Legislature not later than the fifth legislative day of the 1972 Regular Session; and be it further

## RESOLUTION CHAPTER 163

*Senate Concurrent Resolution No. 27—Relative to the San Francisco Bay-Sacramento-San Joaquin Delta estuarine system.*

[Filed with Secretary of State September 30, 1971]

WHEREAS, The report of the Senate Select Committee on Salinity Intrusion in Agricultural Soils, dated January 4, 1971, points out that there is an absence of an inventory of the factors that comprise the environment of the San Francisco Bay-Sacramento-San Joaquin Delta estuarine system; and

WHEREAS, Such an inventory would assist in the determination of uses of the bay-delta waters which are to be developed or maintained; and

WHEREAS, The determination itself is merely a matter of public policy decision that results from an analysis of the values of the uses and the desires of the public to realize these values; and

WHEREAS, Protection of the bay-delta environment should be easier if the composition of that environment is known; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Secretary of the Resources Agency is directed to prepare an inventory of the significant factors comprising the environment of the San Francisco Bay-Sacramento-San Joaquin Delta estuarine system, including a complete listing (qualitative) of the flora and fauna; and be it further

*Resolved*, That in preparing such inventory, the bay-delta area be divided into as many subareas as necessary to adequately depict the varied environment and that the inventory be related to seasonal and other changes which may have a temporary effect on its composition; and be it further

*Resolved*, That such inventory be submitted to the Legislature not later than the fifth legislative day of the 1972 Regular Session; and be it further

*Resolved*, That the Secretary of the Senate transmit a copy of this resolution to the Secretary of the Resources Agency.

# RESOLUTION CHAPTER 164

*Senate Concurrent Resolution No. 111—Relative to San Francisco Bay water quality control.*

[Filed with Secretary of State September 30, 1971.]

WHEREAS, The stated objective of the Interim Water Quality Control Plan for the San Francisco Basin, adopted June 14, 1971, by the California Regional Water Quality Control Board, San Francisco Bay Region, is maximum use of the water and wastewater resources through the reclamation and recycling of nearly all reclaimable wastewater; and

WHEREAS, It is the stated intention of the regional board to achieve such maximum use of water and wastewater resources as soon as possible; and

WHEREAS, The State Water Resources Control Board and the regional board have encouraged, and in some instances required, 12 subregional groups of dischargers, responsible for 86 percent of the waste volume discharged into the bay, to develop coordinated subregional water quality control programs consistent with the general concept of Phase I of the bay delta study; and

WHEREAS, These studies are now underway, and among the specific items being investigated is feasibility of wastewater reclamation; and

WHEREAS, The regional board's Interim Basin Plan characterizes discharge of wastewater to surface waters in the basin as (1) an interim means for disposing of reclaimable wastewater, (2) a means for disposing of adequately treated "blowdown" (concentrated brine residue from the wastewater reclamation process), and (3) an emergency outlet for peak flows; and

WHEREAS, The expenditure of millions of dollars for the construction of regional facilities to transport sewage effluent from the north and south extremities of San Francisco Bay to locations in the central portion of the bay where it would be discharged, may be contradictory to the above-stated objectives and criteria of the Interim Basin Plan, and may be detrimental to the regional board's avowed determination to "minimize the investment of public and private funds in sewage and industrial wastewater facilities"; and

WHEREAS, The need to remove wastes from ecologically sensitive area such as the bay's north and south extremities may be met in conjunction with the need for such transportation facilities as are required for large-scale wastewater reclamation on a subregional basis; and

WHEREAS, The present limited market for reclaimed wastewater in most areas around San Francisco Bay will never be broadened unless reclamation programs are implemented through coordinated action by water supply and wastewater agencies; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the State Water Resources Control Board and the California Regional Water Quality Control Board, San Francisco Bay Region, encourage waste treatment and discharge systems that will provide the maximum feasible opportunity for wastewater reclamation while meeting water quality objectives at the earliest possible date; and be it further

*Resolved,* That such discharges to the bay as are necessary on an interim basis, for disposal of adequately treated blowdown, or as an emergency outlet for peak flows, should be made at locations where the Interim Basin Plan's water quality objectives can be met economically, so that the effluents thus produced may be beneficially utilized initially to provide needed augmentation of the flow in the bay system and, later, be diverted to reuse as the market for reclaimed water develops; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the State Water Resources Control Board and the California Regional Water Quality Control Board, San Francisco Bay Region.

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Regents of the University of California is hereby directed to present to the Legislature on or before January 10, 1972, a comprehensive report of the university's financial assets and its estimated revenues from all sources for the 1971–1972 fiscal year; and be it further

WHEREAS, It has also come to the attention of this Legislature that other local draft boards in the State of California have been, and are, classifying full-time, sworn peace officers within their jurisdiction in class II-A, thereby deferring said peace officers from induction into the armed services of the United States; and

WHEREAS, Full-time, sworn peace officers may qualify for classification in class II-A in that their employment as peace officers is necessary to the maintenance of the national health, safety and interest; and

WHEREAS, These peace officers are engaged as vital fighters in the domestic war against crime and violence; and

WHEREAS, The continued practice of certain local draft boards in classifying peace officers in class I-A has had, and will continue to have, adverse and disruptive effect upon the ability of the police and sheriffs' departments of this state to fight crime and protect the citizens of the State of California; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California memorializes the Director of the Selective Service to uniformly classify all full-time, sworn peace officers in class II-A so that the lives and properties of the citizens of the State of California not be placed in jeopardy for lack of peace officers; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Director of the Selective Service.

WHEREAS, The region possesses unique environmental values and should be preserved as a national park for the benefit of future generations; and

WHEREAS, Preservation and recreational use of this region would enhance the environment of contiguous communities by the multiple use of resources, would provide green belt open spaces, and would make this area available for the use and enjoyment of great numbers of people; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to enact, implement, and support legislation

WHEREAS, Such salmon and steelhead damage has adversely affected the economic and recreation opportunities of the citizens of this state; and

WHEREAS, There appears to be an unprecedented opportunity to enhance the production of salmon and steelhead in the Feather River in conjunction with the development and operation of the Oroville Division of the State Water Facilities; and

# RESOLUTION CHAPTER 170

*Senate Concurrent Resolution No. 83—Relative to the University of California.*

[Filed with Secretary of State October 1, 1971 ]

WHEREAS, The Senate of the California Legislature, the Assembly concurring, hereby finds and declares:

a. The Institute of Transportation and Traffic Engineering was established at the University of California by the regents in response to Chapter 1573, Statutes of 1947. At that time there was great need for a formalized training and research program to prepare personnel for greatly enlarged responsibilities in transportation as a result of legislation enacted by the Legislature.

b. The Institute of Transportation and Traffic Engineering responded to the needs for training and research then expressed, and since that time scores of engineers have received advanced degrees who are now actively engaged in transportation planning, engineering and management as employees of the state, the counties, the cities, and as consultants in California. Hundreds of engineers and other professionals have taken short courses in transportation engineering and management through extension offerings sponsored by the institute. The institute provides virtually the only ongoing program of continuing education for county engineers, and others in similar positions, in transportation engineering, traffic safety, and related matters.

c. Increasing understanding of relationships between transportation and social, economic, and environmental factors as well as recent developments with regard to rapid and mass transit programs call for new emphasis in research and training for engineering and management personnel engaged in transportation. The Legislature finds it advisable, therefore, to express its concern to the regents as to the desirability not only of continuing existing programs but also of expanding the scope and enlarging the responsibilities of the Institute of Transportation and Traffic Engineering, so that it may respond to emerging and foreseeable needs for California in the transportation field.

d. The enabling statute under which the institute was established is sufficiently comprehensive to embrace the proposed scope and responsibilities to which the Legislature desires to direct attention explicitly; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Regents of the University of California are urged, to the extent they deem it appropriate, to make provision for the Institute of Transportation and Traffic Engineering to:

(1) Cooperate in research and training with the State Business and Transportation Agency and its departments and with

other agencies charged with responsibility for the design, construction, operation, and maintenance of highways, airports, rapid and mass transit systems, and other related facilities for public transportation. In addition to, but not to the exclusion of, other appropriate subjects for research and study, the institute shall give attention to (a) the interrelated problems of highway design, traffic control, and highway safety, (b) ground access to airports and harbors, (c) effective coordination of the several modes of transportation to achieve a balanced public transportation system, and (d) interrelationships between development and operation of transportation facilities and the social, economic, and physical environment; and

(2) Cooperate with the state and local governmental agencies, by the assignment of graduate students to cooperative programs or by other appropriate means, in conjunction with projects involving innovations in transportation to be recommended by such agencies for consideration by the State Transportation Board. Such projects shall include, but not be limited to, expediting the application of knowledge in the biological, physical, and social sciences to transportation systems, and should include new combinations of existing technology to serve multiple functions.

WHEREAS, There presently exists the Bald Hills Road traversing from State Highway Route 169 in the vicinity of Martin's Ferry to Route 101 in the vicinity of Orick; and

WHEREAS, Owing to its potential for providing enhanced access to Redwood National Park, it may be appropriate to add this road to the state highway system; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Department of Public Works is requested to conduct a study of the feasibility of converting Bald Hills Road into a new state highway route from the terminal points of Martin's Ferry and Orick; and be it further

*Resolved,* That the department report its findings to the Legislature during the 1972 Regular Session thereof as a part of its quadrennial functional classification study due at that time; and be it further

*Senate Concurrent Resolution No. 101—Relative to landscaping the Long Beach Freeway.*

[Filed with Secretary of State October 1, 1971 ]

WHEREAS, The Long Beach Freeway, State Highway Route 7, passes through areas which are of an industrial nature; and

WHEREAS, The general effect of such conditions constitutes a deterioration to the aesthetic experience of the motorist as he travels along these ways; and

WHEREAS, The Department of Public Works has in the past followed a policy of apportioning limited landscaping funds to those sections of the California freeway and expressway system which are most compatible with aesthetic surroundings, and has thereby bypassed this section of the freeway; and

WHEREAS, It may well be that such landscaping would serve more of a purpose in industrial areas than in other areas; now, therefore, be it

WHEREAS, The citizens of the State of California are developing a growing, critical awareness of the quality of available health care; and

WHEREAS, The State of California has, for over 30 years, led in the field of regulation and licensing of the clinical laboratory; and

WHEREAS, This leadership was attained only through the active participation and cooperation of all professionals working and licensed within the field; and

WHEREAS, Congress has recognized the important contribution of the clinical laboratory to total health care in the passage of "Medicare" (Public Law 89-97); and

WHEREAS, The rules and regulations established by the Department of Health, Education and Welfare impede the implementation of congressional desire by stringent regulations upon the clinical laboratories in the State of California in particular and the United States generally; and

WHEREAS, The regulations require that clinical laboratories must be under the direction of either a physician with enumerated qualifications or a person with an earned doctoral degree in certain fields in order to qualify under Medicare after a specified date; and

WHEREAS, Such requirements will prevent the participation of many California-licensed clinical laboratories and limit the ability of physicians to fully utilize all resources available in California; and

WHEREAS, The most important consideration in certifying clinical laboratories should be the ability of a given laboratory to perform those tests submitted to it, and Section 405.1314 of the regulations appears to set forth means of determining whether a laboratory does perform adequately, although it, too, places excessive emphasis upon the degree held by the director; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to direct the Department of Health, Education and Welfare to reexamine its present standards for clinical laboratories and the impact they will have upon the provision of services in California and other states; and be it further

*Resolved,* That the Department of Health, Education and Welfare be requested to amend its clinical laboratory regulations to recognize the excellence of strict licensing of clinical laboratories in states such as California and to place major emphasis upon a determination of the adequacy of a laboratory's performance as opposed to the degrees earned by its director; and be it further

*Resolved,* That the Chief Clerk of the Assembly is hereby directed to transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the Secretary of Health, Education and Welfare.

WHEREAS, The public interest would be served by the construction of vista points, rest stops, and other recreational facilities along state highways which are eligible for official state scenic highway designation; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* A high priority should be assigned for vista points, rest stops, and other recreational facilities in the design of state highways which may be eligible for official state scenic highway designation; and be it further

*Resolved,* That an equally high priority should be assigned for providing these enhancements for existing official state scenic highway routes; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of Public Works and to the Scenic Highway Advisory Committee.

WHEREAS, The state operates innumerable offices throughout California, and it is the practice to leave the lights burning 24 hours a day in many of those offices; and

WHEREAS, This practice wastes electrical energy; and

WHEREAS, Lamps which burn 24 hours per day may be expected to have an average life of 1,250 days, while lamps which burn 12 hours per day may be expected to have an average life of 2,080 days, and lamp ballast life is lengthened by reducing the time at which the ballast is at maximum temperature; and

WHEREAS, The costs of lamp replacement, including manpower, could be reduced by extending the period between lamp changes; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Director of General Services is requested to evaluate the cost benefits of turning out the lights in state offices at the close of the working day, and report his findings and recommendations to the Legislature not later than the 10th calendar day of the 1972 Regular Session of the Legislature; and be it further

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Department of Public Works is hereby requested to include within its current studies consideration of the feasibility and practicality of adding a route to the state highway system along this corridor, a proposed Route 269; and be it further

*Resolved,* That the department submit its findings and recommendations to the Legislature on or before the 1972 Regular Session of the Legislature as a part of its functional classification study and Section 256 Report.

*Relative to arson detection.*

[Filed with Secretary of State October 1, 1971 ]

WHEREAS, Incendiary fires are becoming an increasing problem in the nation and particularly in the State of California, and persons of criminal tendencies or sick minds manifest their aberrations by the setting of destructive fires; and

WHEREAS, Contemporary acts of arson reveal a trend toward a higher degree of organization and planning, a higher degree of sophistication is shown as targets are carefully selected, and planning is more evident and execution more skillful; and

WHEREAS, The crime of arson costs American society four times that of the next most expensive crime, in the State of California approximately 37,600 incendiary fires cost an estimated 60 million dollars annually, and in the past five-year period there has been an increase of 438 percent in incendiary fires; and

WHEREAS, Timely and accurate information, coordinating of effort and effective crime fighting tools are the public's best protection against this wanton fire destruction; and

WHEREAS, The majority of the state's fire departments do not have active arson investigative units and the few that do have are hampered by a lack of an effective coordinating body; and

WHEREAS, There appears to be a need for a method for combating the crime of arson, to lessen the economic loss and danger to the public safety, and for the development of a means to give added protection to our people and the resources of this state; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the California State Division of Forestry is hereby requested to study the best means for providing arson detection capability under contract to coun-

*Resolved*, That the League of California Cities, the Attorney General, and the County Supervisors Association of California are requested to jointly undertake a study of the best means for providing a statewide arson detection capability, and the feasibility of the establishment of an arson investigation unit to coordinate with local and state authorities the detection and investigation of suspicious or incendiary fires and to assist and provide expertise to local fire agencies on fires involving interjurisdictional areas or fires of more than local interest; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit copies of this resolution to the Director of the Department of Conservation, to the State Forester, to the League of California Cities, to the Attorney General, and to the County Supervisors Association of California.

WHEREAS, Experience has demonstrated that the determination of labor market projections for the purposes of regional and statewide planning for occupational education and manpower development is necessary for proper planning; and

WHEREAS, Lack of labor market projections and population need analysis has impeded development of procedures for objective measurement of the educational communities' responsiveness and effectiveness in providing training opportunities that equip individuals with marketable skills; and

## RESOLUTION CHAPTER 181

*Senate Concurrent Resolution No. 93—Relative to recreation vehicles.*

[Filed with Secretary of State October 5, 1971.]

WHEREAS, The California Outdoor Recreation League, Inc., a nonprofit, public service organization devoted to encouraging all forms of outdoor recreation and the appropriate use of all outdoor facilities, has brought to the attention of the Legislature that an increasing number of cities and counties in this state are imposing restrictions on the use and parking of recreation vehicles on the private property of the owners of such vehicles and on the public streets of this state; and

WHEREAS, The Legislature notes that some cities and counties are imposing unreasonable restrictions on the use and parking of recreation vehicles, and

WHEREAS, The Legislature is concerned that such restrictions may jeopardize the economy of the state and adversely affect the jobs and incomes of thousands of the citizens of the state who derive part or all of their incomes from the manufacture, sale, or servicing of recreation vehicles; and

WHEREAS, The Legislature is of the opinion that such restrictions may adversely affect the tourist industry, such industry being the third largest in this state, by deterring visitors who own and use such vehicles from visiting this state; and

WHEREAS, The Legislature is further concerned that the cities and counties of this state may as a result of such restrictions reduce their share of the gasoline taxes and other levies, discourage the sale of property within their districts, and impose unreasonable expenses on their residents; and

WHEREAS, The Legislature is desirous of encouraging the wholesome benefits enjoyed by families in the state who use such vehicles in pursuit of various outdoor activities; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the recreation vehicles duly licensed by the California Department of Motor Vehicles should be accorded equal parking privileges with all other duly licensed vehicles, subject to any reasonable regulations where a recreation vehicle may create a traffic hazard, and that all recreation vehicles meeting the standards of construction established by the California Department of Housing and Community Development or by the state wherein they are licensed should not be restricted as to any lawful use while so parked; and be it further

*Resolved*, That nothing in this resolution is intended to suggest limiting the authority of local government to prohibit the use of recreational vehicles for living purposes while parked on public streets in residential or commercial areas; and be it further

*Resolved*, That the Secretary of the Senate transmit copies of this resolution to the Department of Motor Vehicles, the County Supervisors' Association, and the League of California Cities.

WHEREAS, The harvesting of whales is no longer necessary because adequate substitutes are now easily available for every product resulting from the processing of whales; and

WHEREAS, Several species of whale have already been so reduced in number that they are now included on the endangered species list of the Department of the Interior; and

WHEREAS, The International Whaling Commission has allotted a quota of 40 finback whales, 51 sei whales, and 75 sperm whales to the United States in spite of the fact that these species have been reduced in number sufficiently to result in their inclusion on the endangered species list of the Department of the Interior; and

WHEREAS, Permission has been granted for the hunting of whales until the end of this year even though such whales are endangered species, and

WHEREAS, A total of 166 whales may be taken before December 31, 1971, all of which are considered endangered species by the Department of the Interior; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature of the State of California urgently requests the Secretary of Commerce, Maurice H. Stans, to immediately ban all whaling activities from the United States in order to save as many whales as possible for repropagation; and be it further

WHEREAS, The goals of these proposals are expanding educational opportunities for students desiring additional training and education, improving academic quality, and guaranteeing greater value received to both students and taxpayers; and

The Legislature encourages school districts to recognize the need to meet with students, parents, and other community members in order that all people served by the schools can have a voice in determining the philosophy, goals, program objectives, and priorities for their schools; and be it further

*Resolved*, That the governing board of any school district is encouraged to grant certificated employees and students of the district time away from the regularly constituted instructional schoolday in order to meet with school administrators, parents, and other community members for the purpose of developing educational programs relevant to the needs of the community served by the schools of the district; and be it further

WHEREAS, These emergency task forces are to be supplementary to the national and local level strike forces; and

WHEREAS, The speed with which equipment and personnel are brought to bear to abate an oil spill is critical in arresting the disastrous effects of the oil spill; and

WHEREAS, California has several ports in which oil tanker traffic is heavy; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President of the United States to assign such task forces to the principal ports of California; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the President of the United States.

WHEREAS, Such a strike force is presently located on the East Coast of the United States; and

WHEREAS, The strike force is being augmented and ultimately will be sited at locations throughout the country; and

WHEREAS, The preponderance of oil vessel traffic on the West Coast of the United States and the experience of the recent San Francisco Bay spill warrant the assignment of the next trained strike force to a West Coast port; now, therefore, be it

*Resolved by the Assembly and the Senate of the State of California, jointly,* That the Legislature of the State of California memorializes the President of the United States and the United States Coast Guard to assign the next nucleus national level strike force team established by the United States Coast Guard to the West Coast; and be it further

[Filed with Secretary of State October 8, 1971.]

WHEREAS, Hunter Leggett Military Reservation is an example of an area readily accessible to many Californians and contains an area of many acres currently unused and not adjacent to sensitive areas of the military establishment; and

*Senate Concurrent Resolution No. 89—Relative to mineral resources and reclamation of mined lands.*

[Filed with Secretary of State October 8, 1971.]

WHEREAS, The mineral resources of the State of California are essential to the economy of the state, and are vitally supportive of every facet of various programs relating to housing, transportation, commerce, and industry; and

WHEREAS, At the present time, the State of California has no stated policy by which to encourage the development and utilization of the available remaining deposits of critical minerals in a manner which would gain maximum benefit from this bounty of nature and achieve maximum recreational, commercial, and industrial use benefit while protecting the environment to the greatest extent possible with respect to such operations; and

WHEREAS, The Committee on Surface Mining for the State of California, which was appointed November 26, 1968, by the Secretary of the Resources Agency to appropriately review and investigate the conditions of the surface mining industry in California, has concluded that the state currently lacks comprehensive advisory and regulatory capabilities with respect to, and has no fundamental state policy directed toward, the conservation of mineral resources, the conduct of surface mining, and the reclamation of mined lands, and emphasized the wisdom of devising appropriate statewide plans and policies well in advance of the promulgation of federal regulations; and

WHEREAS, The Congress of the United States now has before it for consideration at least eight bills regarding mined-land conservation, reclamation, or development, any one of which, if adopted, would directly affect surface mining operations within the State of California; and

WHEREAS, Twenty-two states have now adopted state plans for the operation of the mineral extractive industries within their states so as to preserve and insure sovereignty over such operations and to minimize the impact of imminent federal laws upon them which do not recognize the unique conditions existing in the several states; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the members hereby request the Division of Mines and Geology of the Department of Conservation, in concert with the State Mining and Geology Board, to propose enabling legislation for the promulgation of administrative rules and regulations for the execution of a state mined lands reclamation and use plan which would be compatible with state land use policy; and be it further

*Resolved,* That the Division of Mines and Geology and the State Mining and Geology Board submit such proposed legis-

## RESOLUTION CHAPTER 190

*Senate Concurrent Resolution No. 104—Relative to a study of a safe driving incentive plan by extending the driver's license expiration date.*

[Filed with Secretary of State October 8, 1971.]

WHEREAS, Much may be accomplished in traffic safety and economy by a safe driving incentive plan to eliminate or vary the examination to fit the driver's need; and

WHEREAS, The qualifications of renewal applicants differ greatly, requiring varying amounts of time in examining for each renewal; and

WHEREAS, California currently is issuing 3½ million original and renewal drivers' licenses annually and this number is expected to exceed 5 million annually in 1974; and

WHEREAS, Many of these drivers may not need any examination at the time of license renewal and others may need a thorough examination; and

WHEREAS, Section 12814 of the Vehicle Code grants to the Department of Motor Vehicles discretion with respect to requiring applicants for renewal of drivers' licenses to take an examination at an office of the Department of Motor Vehicles; and

WHEREAS, Section 12816 of the Vehicle Code provides for the terms of licenses, and it may be desirable to extend the terms for safe drivers as an incentive to maintain their good driving records; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Director of Motor Vehicles is hereby requested by the Legislature to conduct a study of a safe driving incentive plan under which the driver's license expiration date for drivers with clear driving records would be extended without any examination in order to test the effect on the driving performance of such persons, but the subjects selected for the study shall be limited in number to not more than one percent of the California drivers renewing their licenses each year of the study; and be it further

*Resolved*, That the Director of Motor Vehicles is requested to submit a progress report to the Legislature on or before April 1, 1972, and to submit a final report of his findings and recommendations to the Legislature on or before the fifth calendar day of the 1974 Regular Session of the Legislature; and be it further

[Filed with Secretary of State October 12, 1971.]

WHEREAS, Sealanes designating recommended routes for vessel traffic on the high seas presently exist, but the use of these lanes is on a voluntary basis; and

WHEREAS, The mandatory use of sealanes and the avoidance of hazardous areas by tanker traffic would greatly diminish the chances for tanker collision and subsequent oil spillage; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly*, That the Legislature of the State of California urges the United States government to work to secure international agreement that would render effective the designation of sealanes for the control of all commercial vessels, to work to implement a plan for the avoidance of hazardous areas by tankers carrying oil or other dangerous substances, and to assure that once designated, sealanes and regulations governing hazardous areas are made to apply to all commercial vessels on a mandatory basis; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Chairman, United States Maritime Commission.

## RESOLUTION CHAPTER 192

*Senate Concurrent Resolution No. 73—Relative to higher education budgeting and output systems.*

[Filed with Secretary of State October 13, 1971.]

WHEREAS, The California State Colleges and the University of California have developed their own planning, budgeting and management systems completely independently of one another; and

WHEREAS, Because of the diverse systems now in operation, there is no systematic way to compare costs, programs, or out-

puts of any one of this state's educational institutions with any other or with institutions located outside of the state; and

WHEREAS, The National Center for Higher Education Management Systems is developing a system designed to provide comparable costs by academic discipline; and

WHEREAS, The Legislature must, in order to review budget proposals, have program information from the respective institutions in a form which may allow financial comparison of academic programs; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the members urge the Trustees of the California State Colleges and the Regents of the University of California to make necessary changes in their respective management data systems to conform to the "Higher Education Management System" as it is being developed by the National Center for Higher Education Management Systems, with such deviations as may be necessary when, in the opinion of the Trustees of the California State Colleges or the Regents of the University of California, the products of the "Higher Education Management System" are not applicable to the mission of the California State Colleges or the University of California, and to prepare and submit to the Governor, for submission to the Legislature, the budgets for the respective institutions in a form which organizes institutional data to fit a classification of academic programs which may allow financial comparison of academic programs; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the Trustees of the California State Colleges and the Regents of the University of California.

## RESOLUTION CHAPTER 193

*Assembly Joint Resolution No. 48—Relative to ocean vessels.*

[Filed with Secretary of State October 13, 1971.]

WHEREAS, Vessels in the navigable waters of the United States are presently required only to use whistle signals to communicate with other vessels; and

WHEREAS, Direct radio communications would supplement and clarify information vessels are able to exchange as they maneuver in close proximity to one another; and

WHEREAS, Such communication would greatly assist the effort to prevent vessel collisions; and

WHEREAS, Legislation is now pending before Congress which would require every towing vessel over 26 feet in length and every vessel over 300 gross tons entering United States ports to be equipped with a radiotelephone so that verbal communication between pilots could be effected; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California memorializes the President and the Congress of the United States to enact legislation providing for bridge-to-bridge radiotelephone communication; and be it further

## RESOLUTION CHAPTER 194

*Assembly Joint Resolution No. 49—Relative to a national wildlife refuge for South San Francisco Bay.*

[Filed with Secretary of State October 13, 1971.]

WHEREAS, The establishment of a national wildlife refuge for the southern portion of the San Francisco Bay to preserve open space and recreational values in the natural environment of the bay for benefits to man and to protect endangered species and a wildlife habitat of national significance from the increasing threat of urbanization has been endorsed, after extensive studies, by the Bureau of Sport Fisheries and Wildlife of the Department of the Interior, and resolutions in support of such action have been adopted by 24 governmental agencies of the San Francisco Bay area; and

WHEREAS, House and Senate bills to establish the refuge have been introduced during 1971 in the 92nd Congress, and are presently in committee, and hearings will be held on the question of the proposed refuge after June 1, 1971; and

WHEREAS, The proposed refuge area of open water, sloughs, tidal shallows, flats, marshes, saltponds, and upland meadows is a natural habitat for more than 100 species of land birds and, as a vital part of the Pacific Flyway, is host to thousands of migratory wild birds making the long fall flight from the Arctic to Baja California and South America; and

WHEREAS, The South San Francisco Bay region provides the habitat and resting areas for several species of bird and animal life which are on the verge of extinction, and prompt acquisition of land for a national wildlife refuge is essential in view of the continuing pollution and destruction of the natural environment of the region by rapidly expanding urban development; and

WHEREAS, The proposed national refuge, carefully managed for the protection of wildlife, would also provide the people of the San Francisco Bay area and of the nation with access to the bay and its wildlife for observation and enjoyment, offering opportunity for picnicking, photography, fishing, and

other recreational activities compatible with the primary purpose of the refuge, and would enable students of all ages from elementary school to college to use the refuge as an outdoor laboratory for the study of biology, ecology, history, and sociology; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to establish a national wildlife refuge for the southern portion of San Francisco Bay; and be it further

## RESOLUTION CHAPTER 195

*Senate Concurrent Resolution No. 32—Relative to the Antioch Bridge.*

[Filed with Secretary of State October 14, 1971.]

WHEREAS, The Antioch Bridge which crosses the San Joaquin River near the City of Antioch in Contra Costa County has been closed to the traveling public on numerous occasions as a result of accidents and natural disasters, and on September 4, 1970, was again forced to close for an extended period because of damage done to the bridge when it was rammed by a ship; and

WHEREAS, The collision severely damaged and forced the closure of the bridge from September 4, 1970, to January 18, 1971, a period of more than four months; and

WHEREAS, This latest closure of the bridge has had a disastrous effect on the economy and life of the delta communities served by the bridge and has caused serious economic damage in these areas because of the dependency of these communities on the flow of traffic along the river route corridor served by the Antioch Bridge; and

WHEREAS, Numerous businesses, including resorts, marinas, restaurants, and retail stores and shops have been affected, as has been the agriculture industry in the area; and

WHEREAS, Local sources indicate that during the latest closure retail sales were down 6 percent in the Antioch area, professional practices were disrupted, the agriculture and the marina-recreation industry was off as much as 95 percent, and truck traffic and other businesses dependent upon the river route traffic, such as restaurants and service stations, were off 25 to 40 percent; and

WHEREAS, Commuters and other frequent users of the Antioch Bridge were forced to use lengthy, circuitous detours which resulted in substantially increased transportation and commuting costs; and

WHEREAS, The collision has thus not only damaged the bridge structure itself, but has caused other damage as well; and

WHEREAS, It would be desirable to have the Department of Public Works, in addition to bringing an action for the damage to the bridge itself, to also cooperate with bridge users and property owners who are seeking damages caused by the closure of the Antioch Bridge; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the members request the Department of Public Works to extend its full cooperation to all bridge users and property owners who are seeking damages caused by the closure of the Antioch Bridge on September 4, 1970; and be it further

*Resolved,* That the Secretary of the Senate transmit a copy of this resolution to the Director of Public Works.

## RESOLUTION CHAPTER 196

*Assembly Concurrent Resolution No. 115—Relative to a study of reimbursement to physicians under Medi-Cal length-of-stay criteria.*

[Filed with Secretary of State October 15, 1971.]

WHEREAS, In order to control excessively and unnecessarily long stays in hospitals, the Department of Health Care Services has adopted regulations establishing length-of-stay criteria and thereby has limited Medi-Cal reimbursement for hospital services to such time periods as are specified; and

WHEREAS, No similar length-of-stay regulations have been adopted limiting reimbursement to physicians for in-hospital services so as to be able to simultaneously regulate reimbursements to both hospitals and physicians to the same time periods; and

WHEREAS, Normally only the patient's attending physician can order his discharge from a hospital, the hospital itself being without such legal authority; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Department of Health Care Services study the feasibility of regulations which would limit Medi-Cal reimbursement for in-hospital services rendered by physicians by the same length-of-stay criteria already applicable to hospital services; and be it further

*Resolved,* That the department promptly adopt such regulations as it finds are consistent with good medical practice and more adequately recognize that the legal authority to order

a patient's discharge rests solely with the physician; and be it further

*Resolved*, That the department report its findings and actions to the Legislature not later than the fifth legislative day of the 1972 Regular Session; and be it further

*Resolved*, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Department of Health Care Services.

*Senate Concurrent Resolution No. 103—Relative to state highway planning in Napa County.*

[Filed with Secretary of State October 18, 1971.]

WHEREAS, The Director of Public Works, on November 25, 1970, declared a moratorium on planning associated with Route 221 in Napa County and invited a cooperative review of freeway plans in and about Napa County with both local and regional authorities; and

WHEREAS, The Napa County Board of Supervisors, in an endeavor to protect the unique agricultural nature and scenic beauty of the Napa Valley, has enacted an Agricultural Preserve Ordinance and rezoned into the Agricultural Preserve District the major part of the floor of the Napa Valley from approximately Oak Knoll Avenue just north of the City of Napa to north of the City of Calistoga; and

WHEREAS, The Agricultural Preserve District deters urbanization and encourages the continuance of agriculture and the maintenance of open space, which are economic and aesthetic

attributes and assets of the County of Napa, in that no parcel less than 20 acres in size may be created within the Agricultural Preserve District; and

WHEREAS, A full freeway through the Napa Valley would be incongruous with the nature of this prime agricultural preserve and injurious to Napa's world-famous vineyards; and

WHEREAS, The Napa County Board of Supervisors, in its resolution of December 8, 1970, requested the Division of Highways not to take any further action relative to the adopted freeway route for Route 29 north of the City of Yountville until requested by the board of supervisors; and

WHEREAS, In addition to seeking an alternate route to Route 29, there exist several serious local highway problems in the Napa Valley that demand immediate study and solution by the Department of Public Works; and

WHEREAS, The moratorium on planning for Route 221 has been interpreted by the Director of Public Works as a moratorium on all highway planning in and around Napa County; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring*, That the Director of Public Works is hereby requested to rescind his action of declaring a moratorium on freeway and highway planning in Napa County; and be it further

*Resolved*, That in order to insure protection of agricultural uses in the Napa Valley, the Department of Public Works is hereby requested to study alternate routes for a highway or freeway to serve traffic to Lake County and other points north of Napa County without utilizing Route 29 in the center of the Napa Valley, and that these alternate routes shall include a route from Napa County to Lake County via Pope Valley and Butts Canyon as also requested by the Napa County Board of Supervisors in their December 8, 1970, resolution, and a route from the Cordelia area to Middletown via Lake Berryessa and Butts Canyon; and be it further

*Resolved*, That the Department of Public Works is further requested to continue freeway and expressway system planning on routes in Napa County, such as Route 121 through the City of Napa, known locally as the "East Side Freeway"; Route 221 through the City of Napa, south of Trancas Street; and Route 29 from Route 80 to a connection with the project currently under design which takes Route 29 across the Napa River south of the City of Napa; and be it further

*Resolved*, That the Department of Public Works should study and plan projects which would correct a serious traffic hazard now existing on Route 29 at the Yountville curve, relieve downtown traffic congestion in St. Helena and Calistoga, and provide a separation and interchange structure at Union Station near the City of Napa; and be it further

*Resolved*, That the Secretary of the Senate transmit a copy of this resolution to the Director of Public Works.

WHEREAS, These measures raise serious questions regarding the manner in which judicial bonds are currently litigated in our courts, including whether or not bad faith may be involved on the part of sureties; and

WHEREAS, These measures propose a variety of approaches for dealing with this issue, including imposition of attorney's fees, expert witness fees, or interest under such judicial bonds; and

*Resolved,* That it is the intent of the Legislature that in preparing such a study, the department shall consider locating information facilities not only in roadside rests, but also in other suitable locations of easy exit and reentry, such as roadside business areas served by frontage roads, and shall consider the relative advantages of constructing and operating

information facilities, or of contracting for their construction and operation under regulations which the department would establish, and shall consider costs and the possibility of levying fees for the use of motorist information facilities; and be it further

# RESOLUTION CHAPTER 217

*Assembly Concurrent Resolution No. 114—Relative to local contingency plans to deal with spills of oil and other hazardous material.*

[Filed with Secretary of State October 27, 1971.]

WHEREAS, Various recent oil spills which have had disastrous consequences in various areas of the state have demonstrated the need for the preparation of local contingency plans to deal with spills of oil and other hazardous materials; and

WHEREAS, The most important elements of such a plan are the predesignation of a local operating authority and an alternate to take overall charge of any local major spill abatement operations, and the providing of such person with the authority to obtain and direct the personnel and equipment needed for such operations; and

WHEREAS, A valuable item which should be provided to the local operating authority by such plan, particularly at the beginning of abatement operations, is a list of up-to-date telephone numbers of all emergency services and various other officials and organizations which will be involved in abatement operations; and

WHEREAS, The local contingency plan should enable the local coordinator to predetermine, with the technical advice of the California Regional Water Quality Control Boards or the State Department of Water Resources, the manner in which contaminants shall be disposed of and the sites at which such disposal shall occur; and

WHEREAS, It is desirable that local plans be tailored to the type of contaminant spill which is most likely to occur in that particular locality, such as tankers, barges, pipelines, oil and gas operations, or railroad tank cars or tank trucks which transport oil, gasoline or chemicals; and

WHEREAS, It is important that local contingency plans be designed to either function independently or to mesh smoothly into the state spill disaster contingency organization, if activated, or into the federal oil spill contingency organization; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Legislature of the State of California urges every city, county, and city and county of this state to formulate contingency plans based on the aforementioned factors to deal with spills of oil and other hazardous materials; and be it further

WHEREAS, The Legislature, through Senate Bill No. 1397 of the 1969 Regular Session and Senate Bill No. 872 of the 1970 Regular Session, created such Indian-staffed programs in the State Department of Public Health and the State Department of Education, with Indians involved not only at the lower staff levels but also at policymaking levels; and

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That provision should be made for the participation of citizen volunteers in all oil spill contingency plans by the State Inter-Agency Oil Spill Committee; such provision should reflect the critical role that volunteer participation plays in response to a major pollution spill incident; and be it further

[Filed with Secretary of State November 11, 1971.]

WHEREAS, The growth in size, scope, and numbers of private industry employee benefit plans in recent years has been rapid and substantial, and the continued well-being and security of millions of employees and their dependents are directly affected by these plans; and

WHEREAS, Private industry employee benefit plans have become an important factor affecting the stability of employment and the successful development of industrial relations and have significantly influenced commerce because of the interstate character of their activities, and of the activities of their participants, and the employers, employee organizations, and other entities by which they are established or maintained; and

WHEREAS, Owing to the lack of employee information and adequate safeguards concerning their operation, it is desirable in the interests of employees and their beneficiaries, and to provide for the general welfare and the free flow of commerce, that disclosure be made and safeguards be provided with respect to the establishment, operation, and administration of such plans; and

WHEREAS, Such plans substantially affect the revenues of the United States because they are afforded preferential federal tax treatment; and

WHEREAS, Despite the enormous growth in such plans many employees with long years of employment are losing anticipated retirement benefits owing to the lack of vesting provisions in such plans, and because of the inadequacy of current minimum standards the soundness and stability of plans with respect to adequate funds to pay promised benefits may be endangered; and

WHEREAS, Due to the involuntary termination of plans before requisite funds have been accumulated, employees and their dependents have been deprived of anticipated benefits; and

WHEREAS, It is therefore desirable in the interests of private industry employees and their beneficiaries, for the protection of the revenue of the United States, and to provide for the free flow of commerce, that minimum standards be provided assuring the equitable character of such plans and their financial soundness; and

WHEREAS, Public employees' retirement plans have been established by various state legislative bodies, and are operated under their control and review, are subject to their direction and audit and as such are adequately controlled and should not therefore be subject to the control of federal legislation; and

WHEREAS, There are two or more bills presently under consideration by the 92nd Congress of the United States, which would implement comprehensive plans to alleviate the problems or inequities presently existing in the area of employee benefit plans; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the United States Congress be memorialized to consider legislation to implement comprehensive plans to alleviate the problems or inequities presently existing in the area of private industry employee benefit plans; and be it further

*Resolved,* That public employee retirement plans be specifically exempted from such legislation; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

*Relative to federal grants.*

[Filed with Secretary of State November 15, 1971 ]

WHEREAS, The federal government, through its grants-in-aid, has been for many years an important fiscal force in the economics of state and local government in California; and

WHEREAS, Such fiscal assistance has had a visible impact on the social, political, and economic conditions of California; and

WHEREAS, The apparent trend in federal financial assistance is toward greater and more substantial participation, which will certainly have a further impact on the lives of all Californians; and

WHEREAS, Presently, federal assistance is based on unilateral and highly regionalized requests from both state and local governmental entities; and

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the Congress of the United States to condition all aid to local or state government or to private entities in California upon the presentation of a long-range plan which will indicate the effect on California's social, political and economic environment if such aid is granted, and to establish criteria to be used by federal agencies in determining what factors and information shall be included in such long-range plans and parameters of long-range effects to be used in determining whether aid should be granted; and be it further

## RESOLUTION CHAPTER 238

*Assembly Concurrent Resolution No. 174—Relative to transfer of educational credits.*

[Filed with Secretary of State November 16, 1971]

WHEREAS, It is hereby declared to be the intent of the Legislature that each community college transfer student pursuing a recognized academic program at any state college or the University of California be advised in writing, prior to the termination of the first semester, quarter, or trimester for which such student is registered, of the particular credits he has earned at a community college which shall apply toward graduation from the college or university in which he is enrolled; now, therefore, be it

# RESOLUTION CHAPTER 239

*Senate Joint Resolution No. 49—Relative to the proposed move of the National Park Service's Western Service Center from San Francisco.*

[Filed with Secretary of State November 17, 1971]

WHEREAS, The National Park Service reportedly intends to close its Western Service Center in San Francisco and to move it to Denver where its services will be consolidated with those of the Eastern Service Center within the month, eliminating 90 positions and requiring a move of more than 200 employees to another location; and

WHEREAS, California is the most populous state in the nation and its parks have more visitors than other national parks in other states, therefore the most prudent move would be to consolidate the national park service centers in San Francisco; and

WHEREAS, The Department of Industrial Relations of the State of California reports a seasonally adjusted unemployment rate of 6.5 percent in the bay area at the present time, a rate which will be aggravated by such actions by federal agencies; and

WHEREAS, The move will mean a loss in payroll in San Francisco of more than one million dollars a year; and

WHEREAS, It may be expected that many good planners will leave the park service; and

WHEREAS, The cost of consolidating the service centers in Denver is over two million dollars, at a time when dollars should be conserved, and there is an additional loss that cannot be estimated, the consequences of lower morale among National Park Service and Bureau of Outdoor Recreation personnel who do many joint feasibility studies for California in order to plan for new park areas, and the impaired operation of these two agencies would be characterized by inefficiency and a lack of cooperation to the detriment of California's environment; and

WHEREAS, It may be expected that lowered morale and disruptions created by moving will result in greatly reduced services for at least a year and will impair conservation efforts by slowing down (1) the identification of new park areas; (2) the classification of wilderness areas which must be completed by 1974, and therefore especially affecting Joshua Tree and Death Valley National Monuments; and (3) the master planning and development for California parks, especially Yosemite, Redwoods, Point Reyes National

Seashore, Sequoia, and Kings Canyon; and

WHEREAS, The planning operations for the proposed Golden Gate National Recreation Area would be impaired by the removal of planners and architects to a distant locale; now, therefore, be it

*Resolved by the Senate and Assembly of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the Director of the National Park Service to rescind the proposed move of the National Park Service's Western Service Center from San Francisco for combination with the Eastern Service Center in another location, or, if the two centers are to be combined, then to locate the combined center in San Francisco; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Secretary of the Interior, the Director of the National Park Service, and to each Senator and Representative from California in the Congress of the United States.

*Resolved by the Senate, the Assembly concurring,* That the Legislature of the State of California at its 1971 Regular Session commencing on the fourth day of January, 1971, two-thirds of the members elected to each of the two houses of the Legislature voting therefor, hereby proposes to the people of the State of California that the Constitution of the state be amended by amending Section 13 of Article I thereof to read:

considered by the court or the jury. The Legislature shall have power to require the defendant in a felony case to have the assistance of counsel. The Legislature also shall have power to provide for the taking, in the presence of the party accused and his counsel, of depositions of witnesses in criminal cases, other than cases of homicide when there is reason to believe that the witness, from inability or other cause, will not attend at the trial.

## RESOLUTION CHAPTER 241

*Senate Concurrent Resolution No. 117—Relative to bicycles.*

[Filed with Secretary of State November 19, 1971.]

WHEREAS, Bicycling is becoming increasingly attractive to commuters as an alternative to the automobile; and

WHEREAS, Greater utilization of bicycles will help lessen the acute air pollution problem faced in many areas of the state, and will help reduce depletion of limited petroleum reserves; and

WHEREAS, Bicycles occupy considerably less space than automobiles, and land now used for automobile parking lots could be devoted to more constructive purposes; and

WHEREAS, Employees who bicycle to work in the morning come to their jobs physically and mentally refreshed, rather than worn out and harried by automobile congestion; and

WHEREAS, The present lack of developed parking areas at state offices where bicycles are secure from theft and damage tends to discourage many state employees who otherwise would bicycle to work; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That all departmental heads are requested to reserve adequate bicycle parking space at all state offices and buildings for both employees and visitors; and be it further

*Resolved,* That all planned or incompleted state offices and buildings shall, whenever feasible, be designed and constructed to incorporate bicycle parking space; and be it further

*Resolved,* That if it is deemed appropriate and necessary, user fees may be assessed for the purpose of liquidating any costs which may result from reserving, designing, or constructing such bicycle parking spaces; and be it further

*Resolved,* That such spaces shall include anchored bicycle racks to which bicycles may be secured by lock and chain, shall be covered when possible, and shall be located where both bicycle and rider are safe from molestation; and be it further

*Resolved,* That the Secretary of the Senate transmit copies of this resolution to all departmental heads.

## RESOLUTION CHAPTER 242

*Senate Concurrent Resolution No 135—Relative to the emergency highway safety program.*

[Filed with Secretary of State November 19, 1971 ]

WHEREAS, Effective October 1, 1971, the Federal Highway Administration of the United States Department of Transportation has made available an additional amount of approximately $700 million for the remainder of the 1972 fiscal year for safety-related projects and projects in high unemployment areas; and

WHEREAS, The states are urged by the Federal Highway Administration to review their highway programs and advance to construction immediately those projects in the categories for which the $700 million is being released and reserved; and

WHEREAS, The advancement of funds for projects addressed to the safety improvement of existing highways and the elimination of existing hazards is designated as the emergency highway safety program; and

WHEREAS, Rail-highway grade crossing projects are intended to be afforded the highest priority in the use of funds under the emergency highway safety program; now, therefore, be it

*Resolved by the Senate of the State of California, the Assembly thereof concurring,* That the Department of Public Works is directed to afford first priority in the expenditure of funds under the emergency highway safety program to rail-highway grade crossing projects; and be it further

*Resolved,* That the Secretary of the Senate transmit a copy of this resolution to the Director of Public Works.

## RESOLUTION CHAPTER 243

*Assembly Concurrent Resolution No. 101—Relative to fair employment practices.*

[Filed with Secretary of State November 19, 1971 ]

WHEREAS, Part 4.5 (commencing with Section 1410) of Division 2 of the California Labor Code provides that the State Fair Employment Practice Commission shall receive, investigate, and resolve complaints alleging discrimination in employment because of race, religious creed, color, national origin, ancestry, or sex; and

WHEREAS, It appears that the people of this state may not be afforded adequate protection against unreasonable require-

ments by employers relating to formal education requirements and test scores in connection with applications for employment which do not bear a clear relationship to the requirements of the employment in question; and

WHEREAS, The problem of discrimination in employment by way of unreasonable education requirements and testing for aptitudes and information unrelated to the employment in question was presented to the United States Supreme Court in the case of Griggs v. Duke Power Co., 28 L. ed. 2d 158, decided March 8, 1971; and

WHEREAS, The court held that the Civil Rights Act of 1964 prohibits an employer from setting unreasonably high educational or generalized intelligence testing requirements for job applicants when neither standard is significantly related to successful job performace and results in discrimination in hiring practices; and

WHEREAS, In reaching this decision, the court declared: ". . . good intent or absence of discriminatory intent does not redeem employment procedures or testing mechanisms that operate as 'built-in headwinds' for minority groups and are unrelated to measuring job capability. . . ." (p. 165); and the court stated further: "The facts of this case demonstrate the inadequacy of broad and general testing devices as well as the infirmity of using diplomas or degrees as fixed measures of capability. History is filled with examples of men and women who rendered highly effective performance without the conventional badges of accomplishment in terms of certificates, diplomas, or degrees. Diplomas and tests are useful servants, but Congress had mandated the common-sense proposition that they are not to become masters of reality." (p. 165); now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the State Fair Employment Practice Commission is directed to adopt, promulgate, amend, and rescind suitable rules and regulations in order to provide for commission policy criteria pursuant to the purpose and intent of the decision of the United States Supreme Court in Griggs v. Duke Power Co.; and be it further

*Resolved,* That the State Fair Employment Practice Commission is directed to submit to the Legislature a report of its findings and recommendations with respect to the implementation of the subject of this resolution on or before the fifth calendar day of the 1972 Regular Session; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the State Fair Employment Practice Commission, the Coordinating Council for Higher Education, the State Scholarship and Loan Commission, the State Personnel Board, the California Advisory Council on Vocational Education and Technical Training, and the area vocational committees, established pursuant to Article 10.4 (commencing with Section 6268) of Chapter 6 of Division 6 of the Education Code.

## RESOLUTION CHAPTER 244

*Senate Joint Resolution No. 53—Relating to Greene-Harmer Motor Vehicle Damage Control Act.*

[Filed with Secretary of State November 22, 1971]

WHEREAS, The enactment of the Greene-Harmer Motor Vehicle Damage Control Act of the 1971 Session provided high standards for bumpers and property damage resistance on 1974 model and later year motor vehicles; and

WHEREAS, Such standards more particularly specified that all such motor vehicles must be able to withstand an impact of five miles per hour or more, front and rear, without damage to the vehicle; and

WHEREAS, Such enactment and standards were based upon an extensive and in-depth study conducted by the Legislature, the Governor's Automobile Accident Study Commission and many agencies and organizations interested in the reduction of cost of insurance and auto repairs to the consumer; and

WHEREAS, Background information and support for such measure was predicated upon the high cost of repairs and resulting insurance costs incurred in low-speed motor vehicle property damage accidents prevalent on California's congested street and highway systems; and

WHEREAS, Such measure also reflected that meaningful reduction in the cost of automobile repairs for California motorists necessitated improvement of the crashability of motor vehicles; and

WHEREAS, The final enactment of the Greene-Harmer Motor Vehicle Damage Control Act was without opposition after agreement with representatives of the automobile industry that the standard was attainable, and

WHEREAS, The enactment of this law also represented a potential savings of hundreds of millions of dollars to California motorists both in reduced insurance premiums and lower repair costs; and

WHEREAS, Major segments of the insurance industry have recognized this cost saving potential by announcements of substantial reductions on physical damage insurance premium on vehicles so equipped, and

WHEREAS, S 976, presently pending in the Congress would render null and void these potential benefits in the standards for bumpers and property damage resistance so established in California law in 1971; now, therefore, be it

*Resolved, by Senate and Assembly of the State of*

*California, jointly,* That the Legislature of the State of California respectfully memorializes the Congress of the United States to recognize and give full faith and credit to the motor vehicle property damage standards provided by California law in the Greene-Harmer Motor Vehicle Damage Control Act; and be it further

*Resolved,* The the enactment of S 976, or any other measure pending in Congress on this subject for the benefit of the citizens of the other several states, be amended to fully recognize the standards set forth in California law; and be it further

*Resolved,* That the Chief Clerk of the Senate transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

## RESOLUTION CHAPTER 245

*Assembly Concurrent Resolution No. 146—Relative to the Public Utilities Commission.*

[Filed with Secretary of State November 24, 1971.]

WHEREAS, In addition to the furnishing of water for domestic and industrial consumption, an important responsibility of water corporations under the jurisdiction of the Public Utilities Commission is furnishing water for fire protection; and

WHEREAS, The ability of a water supply system to provide water at an adequate volume and pressure for fire protection purposes is an important consideration in the cost of fire insurance protection; and

WHEREAS, There appears to be, at present, no requirement that privately owned water systems provide for more than an adequate level of service for domestic purposes and that no reserve capacity to meet the needs of adequate fire protection is required; and

WHEREAS, This situation, caused by an absence of adequate fire protection standards, is a matter seriously affecting the public health, safety and welfare; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the Public Utilities Commission of the State of California is requested to study the subject of requiring that water corporations under its jurisdiction be required to undertake a program of constructing and maintaining adequate fire protection systems, including the installation of an adequate network of hydrants and the maintenance of sufficient pressure and the availability of adequate reserves of

water to meet emergency situations in accordance with the standards of fire grading and rating bureaus in this state, and to recommend necessary adjustments to the rate structures of such water corporations to permit such extensions and improvements to their systems; and be it further

*Resolved,* That the commission is requested to report to the Legislature on its findings and recommendations on the subject of this resolution on or before the fifth calendar day of the 1972 Regular Session; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit a copy of this resolution to the Public Utilities Commission.

## RESOLUTION CHAPTER 247

*Assembly Joint Resolution No. 60—Relative to the National Transportation Planning Study.*

[Filed with Secretary of State November 30, 1971.]

WHEREAS, The State Business and Transportation Agency has completed California's portion of the National Transportation Planning Study; and

WHEREAS, The California study has been transmitted to the Secretary of Transportation in Washington, D.C.; and

WHEREAS, The State Transportation Board has called attention to its finding that ". . . only the highway mode has adequate resources and planning facilities. . . ."; and

WHEREAS, The State Transportation Board has urged that ". . . the study results should be used with considerable caution by the Federal Government in its funding programs. . . ."; and

WHEREAS, Various assumptions in the study, relative to possible future state or local funding, have the effect of being prejudicial in determining the relative needs and programmed expenditures among the various modes of transportation; and

WHEREAS, The need for interurban rapid transit was omitted from this study entirely; and

WHEREAS, The final summary of needs and funding alternatives may lead federal authorities to conclude that California places a greater relative emphasis on meeting highway needs than on meeting transit needs; now, therefore, be it

*Resolved by the Assembly and Senate of the State of California, jointly,* That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States and the United States Department of Transportation to review the National Transportation Planning Study, and California's portion thereof, with the understanding that the need for new and improved transit facilities is considerably greater than the proportion programmed for funding under Federal Alternatives I, II, and III of the study; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Secretary of Transportation, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State November 30, 1971.]

WHEREAS, The coal mines area of eastern Contra Costa County, which contains the sites of the historic coal mining communities of Nortonville, Somersville and Stewartsville, comprises an important part of the historic and scenic heritage of the residents of the San Francisco Bay area; and

WHEREAS, This area has great recreation potential for residents of the area, while at the same time providing a series of canyons and hills which could offer an outstanding urban wilderness experience as well; and

WHEREAS, The East Bay Regional Park District and predecessor public agencies have planned with full public knowledge a major recreational regional park in this area for the past 10 years; and

WHEREAS, The establishment of this outstanding regional park has been impeded by the long-standing dispute over ownership of 360 acres of federal land between the United States of America and the Kosanke Sand Corporation; and

WHEREAS, It is in the public interest that this dispute be resolved as soon as possible, with full protection for the public interest and the environmental values of the area in question; and

WHEREAS, There is an urgent need for a water-quality–water-resource study of the Pajaro River Basin in order to insure the reasonable and beneficial development and use of the water resources of the area; and

WHEREAS, Such a study of the water quality and resources of the Pajaro River Basin could be best conducted by the State Water Resources Control Board, in cooperation with the Department of Water Resources and interested local parties, as part of the Water Quality Control Plan which is now under development for the basin; now, therefore, be it

*Resolved by the Assembly of the State of California, the Senate thereof concurring,* That the State Water Resources Control Board, in cooperation with the Department of Water Resources and interested local parties, be requested to conduct a water-quality–water-resource study of the Pajaro River Basin as part of the Water Quality Control Plan which is now under development; and be it further

*Resolved,* That the Chief Clerk of the Assembly transmit copies of this resolution to the State Water Resources Control Board and the Director of Water Resources.
