**DIVISION 18 CALIFORNIA COASTAL ZONE CONSERVATION COMMISSION
CHAPTER 1. GENERAL PROVISIONS AND FINDINGS
AND DECLARATIONS OF POLICY**

27000. This division may be cited as the California Coastal Zone Conservation Act of 1972

27001 The people of the State of California hereby find and declare that the California coastal zone is a distinct and valuable natural resource belonging to all the people and existing as a delicately balanced ecosystem, that the permanent protection of the remaining natural and scenic resources of the coastal zone is a paramount concern to present and future residents of the state and nation, that in order to promote the public safety, health, and welfare, and to protect public and private property, wildlife, marine fisheries, and other ocean resources, and the natural environment, it is necessary to preserve the ecological balance of the coastal zone and prevent its further deterioration and destruction, that it is the policy of the state to preserve, protect, and, where possible, to restore the resources of the coastal zone for the enjoyment of the current and succeeding generations, and that to protect the coastal zone it is necessary

(a) To study the coastal zone to determine the ecological planning principles and assumptions needed to ensure conservation of coastal zone resources

(b) To prepare, based upon such study and in full consultation with all affected governmental agencies, private interests, and the general public, a comprehensive, coordinated, enforceable plan for the orderly, long-range conservation and management of the natural resources of the coastal zone, to be known as the California Coastal Zone Conservation Plan.

(c) To ensure that any development which occurs in the permit area during the study and planning period will be consistent with the objectives of this division

(d) To create the California Coastal Zone Conservation Commission, and six regional coastal zone conservation commissions, to implement the provisions of this division

CHAPTER 2 DEFINITIONS

27100 "Coastal zone" means that land and water area of the State of California from the border of the State of Oregon to the border of the Republic of Mexico, extending seaward to the outer limit of the state jurisdiction, including all islands within the jurisdiction of the state, and extending inland to the highest elevation of the nearest coastal mountain range, except that in Los Angeles, Orange, and San Diego Counties, the inland boundary of the coastal zone shall be the highest elevation of the nearest coastal mountain range or five miles from the mean high tide line, whichever is the shorter distance.

27101 "Coastal zone plan" means the California Coastal Zone Conservation Plan

27102 (a) "Commission" means the California coastal zone conservation commission

(b) "Regional commission" means any regional coastal zone conservation commission

27103 "Development" means, on land, in or under water, the placement or erection

An urban land area is "stabilized" if 80 percent of the lots are built upon to the maximum density or intensity of use permitted by the applicable zoning regulations existing on January 1, 1972.

Tidal and submerged lands, beaches, and lots immediately adjacent to the inland extent of any beach or of the mean high tide line where there is no beach shall not be excluded

Orders granting such exclusion shall be subject to conditions which shall assure that no significant change in density, height, or nature of uses occurs.

An order granting exclusion may be revoked at any time by the regional commission, after public hearing.

~~5002. It is the declared policy of the Legislature that persons or agencies responsible for the establishment of school attendance centers or the assignment of pupils thereto shall prevent and eliminate racial and ethnic imbalance in pupil enrollment. The prevention and elimination of such imbalance shall be given high priority in all decisions relating to school sites, school attendance areas, and school attendance practices.~~

SECTION 3 Section 5003 of the Education Code, as added by Chapter 1765 of the Statutes of 1971, is repealed.

~~5003. (a) In carrying out the policy of Section 5002, consideration shall be given to the following factors:~~

~~(1) A comparison of the numbers and percentages of pupils of each racial and ethnic group in the district with their numbers and percentages in each school and each grade.~~

~~(2) A comparison of the numbers and percentages of pupils of each racial and ethnic group in certain schools with those in other schools in adjacent areas of the district.~~

~~(3) Trends and rates of population change among racial and ethnic groups within the total district, in each school, and in each grade.~~

~~(4) The effects on the racial and ethnic composition of each school and each grade of alternate plans for selecting or enlarging school sites, or for establishing or altering school attendance areas and school attendance practices.~~

~~(b) The governing board of each school district shall periodically, at such time and in such form as the Department of Education shall prescribe, submit statistics sufficient to enable a determination to be made of the numbers and percentages of the various racial and ethnic groups in every public school under the jurisdiction of each such governing board.~~

~~(c) For purposes of Section 5002 and this section, a racial or ethnic imbalance is indicated in a school if the percentage of pupils of one or more racial or ethnic groups differs significantly from the districtwide percentage.~~

~~(d) A district shall study and considered plans which would result in alternative pupil distributions which would remedy such an imbalance upon a finding by the Department of Education that the percentage of pupils of one or more racial or ethnic groups in a school differs significantly from the districtwide percentage. A district undertaking such a study may consider among feasibility factors the following:~~

~~(1) Traditional factors used in site selection, boundary determination, and school organization by grade level.~~

~~(2) The factors mentioned in subdivision (a) of this section.~~

~~(3) The high priority established in Section 5002.~~

~~(4) The effect of such alternative plans on the educational programs in that district.~~

~~In considering such alternative plans the district shall analyze the total educational impact of such plans on the pupils of the district. Reports of such a district study and resulting plans of action, with schedules for implementation, shall be submitted to the Department of Education, for its acceptance or rejection, at such time and in such form as the department shall prescribe. The department shall determine the adequacy of alternative district plans and implementation schedules and shall report its findings as to the adequacy of alternative district plans and implementation schedules to the State Board of Education. A summary report of the findings of the department pursuant to this section shall be submitted to the Legislature each year.~~

~~(e) The State Board of Education shall adopt rules and regulations to carry out the intent of Section 5002 and this section.~~

SECTION 4 The provisions of Article 3 (commencing with Section 14020) of Chapter 1 of Division 13 of Part 1 of Title 5 of the California Administrative Code, as printed on January 1, 1972, relating to attendance areas and practices, shall have no force and effect.

SECTION 5. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.
